

RULES FIGHT ROCKS DEMOCRATS

Texas Delegation to Stick by Garner Until It is Released by Him MARCHERS STOP IN SWEETWATER FOR LEGION CONVENTION

CITY IS HOST SUDDENLY AS HALT CALLED

CALIFORNIA MARCHERS TAKE QUARTERS AT PARK

FOOD FURNISHED THEM

MEDICAL UNIT NOT TO RECOGNIZE THIS GROUP

SWEETWATER, June 24 (P)—Sweetwater was the unwilling host today to the California bonus army traveling across Texas. Five hundred marchers, arriving this morning on a fast Texas & Pacific fruit train, lunched off, serenaded the downtown section, and marched out to city park, taking up quarters in the fair grounds buildings.

They were without funds or food and were carrying their bedding on their backs.

The train riders brought their own food with 15 instruments including the bass drum and bugle corps and one woman, Mrs. Helen Dow, 26, accompanying her husband.

C. A. Norton, commanding the contingent, said an automobile motorcade of 300 more bonusers, with Royal W. Robertson, commander of the main force, was following a few hours behind and would join the train riders here. Norton said the Sweetwater stay was "indefinite."

(See MARCHERS, Page 3)

Baptist Troop To Be Re-Organized

Re-organization of the Boy Scout troop at the First Baptist church is scheduled to take place at 8 o'clock tonight.

W. O. Workman has agreed to take the troop. Speakers tonight will include Scout Executive C. A. Clark, Dr. C. H. Schulkey, and the Rev. C. E. Lancaster. It is hoped that many boys between the ages of 12 and 15 will attend. The session will be in the basement of the church.

I HEARD--

J. P. Wehring declare the depression was over or mighty near on its last legs. His reason was that he saw a 100-car Santa Fe train pull through Pampa yesterday afternoon without a bum on board.

Travis Lively and H. E. Saunders having an argument about the size of a dollar. A customer wanted some washers the size of a dollar but hadn't seen one in so long that he had forgotten the size. The other two gentlemen were not much help.

Postmaster D. E. Cecil standing on the corner telling about his vacation trip to Oregon and points between here and there. Mr. and Mrs. Cecil returned from a month trip last night. He was telling fish stories and hunting stories galore. C. H. Walker was among the interested listeners.

THE WEATHER

OKLAHOMA: Partly cloudy, thundershowers in east portion this afternoon or tonight; Saturday, partly cloudy.
WEST TEXAS: Partly cloudy tonight and Saturday, probably showers in extreme west portion and the Panhandle.

—AND A SMILE
MORRISTOWN, Pa.—Newspapers told how the husband of Mrs. Marian King Butler carried his wife and four children to safety from a fire-swept house. Everything was fine, until Mrs. Butler went to court and won a divorce with testimony that the "wife" he saved was another woman.

HEARTS OF GOLD LEAD THIS COUPLE TO CANCEL ALL DEBTS AT GROCERY STORE

SLOAN, Ia., June 24 (P)—Mr. and Mrs. James Hennum have hearts of gold.
Ask any of the hundreds of persons who have dealings with them and they'll tell you all about it—of how the Hennums voluntarily canceled all debts on the books of their general store—totaling \$75,000—and told them to forget their action.
But the beneficiaries aren't forgetting. They're telling the world about it. Many called to thank the Hennums. But if they expected much talk they were disappointed. Some came and offered to pay up, but in each instance the Hennums refused the money.
"My wife and I believe in forgiving and forgetting," Hennum just said. "And this depression, has been hitting some folks pretty hard."
The money, the Hennums suggested, could be turned over to churches or charity if their former debtors felt that way about it.
Their creditors numbered several hundred and the debts ranged from a few cents to \$1,000. Some of them having been owed for 15 years.
The Hennums are "just folks." They own their home a short distance from the store, have one daughter, drive a moderately-priced car, are active in local social, lodge, and church activities and have been consistent givers of their time and money to community efforts.

SCOUT EXECUTIVE COMMITTEE IS ENCOURAGED BY PROGRESS MADE IN FINANCE DRIVES

On The Calendar
Some unfinished business: Finding a princess acceptable to the Prince of Wales.
Ridding Texas politics of the Fergusons.
Abolishing the evils of the stock and grain exchanges without losing the fluidity of the market the institutions afford.
Collecting even part of the debts Europe owes us as a nation and as individuals.
Finding a market for Panhandle gas with a fair price.
Making it possible for other nations to trade with us without allowing them to ruin our home industries with their imports.
Attaining a maximum of temperance with a minimum of laws to evade and enforcement to corrupt.
Locating and punishing the kidnapers of Lindbergh Jr.
Substituting a dependable tax for the ad valorem levy—one based upon the ability of persons and firms to pay.
Adopting a state highway policy of taking over county indebtedness on state roads which will be equitable.
Writing a new state constitution with fewer laws to break and a more rapid legal system to care for those who defy the laws on the books.
Developing an educational system to instill more knowledge and more common sense in fewer years.
Making it profitable for more people to earn a living on the soil.
Installing a nationwide system of employment to give more people work and more leisure to employed men and women, together with recreational and educational methods to utilize that leisure.

But Campaigns Are Still Short of Goal
The drive for funds to carry on the work of the Adose Walls Boy Scout council will be successful if solicitors throughout the county continue to work hard, it was agreed at a meeting of members of the executive board in the chamber of commerce rooms here last night. The Rev. A. A. Hyde, president, presided.

Pampa, Borger, Panhandle, Whittenburg, Spearman and Guyman, Okla. are cities raising funds. Every city in the council reported increased activity in scouting either by representative or letter. Pampa is one of the most active cities.
Committee reports were heard and it was decided to hold another meeting in Panhandle July 25, when it will be decided whether the council can continue to operate on a cash basis. If the cash basis cannot be maintained, the council will have to be abandoned, it was decided.

Among those present last night were the Rev. A. A. Hyde, James Todd Jr., Lon L. Blain, George W. Briggs and C. A. Clark, all of Pampa, and J. C. Phillips, Rev. J. Johnson, and A. W. Nelson of Borger.

Bradford Chosen Masonic Official

H. C. Bradford was selected worshipful master of the local Masonic lodge at the regular annual meeting in the lodge room last night. Other officers elected were: Senior warden, O. C. Davis; junior warden, G. G. Davlin; secretary, C. P. Buckler, re-elected.
The Pampa lodge was organized 25 years ago this month with a membership of 20 men. Today the lodge has more than 200 members. It is one of the most active in this section of the Panhandle. Lodge rooms are in the White Deer Land building.

Malthus' Mistake

Malthus, oldtime economist who gave birth to the thought that population would increase more rapidly than food could be produced, had it backwards. He overlooked the vast expanse of the earth and the potential productivity of the soil. He

(See COLUMN, Page 2)

OTHER ISSUES ARE SCOUTED BY CHAIRMAN

PARTY TO LEAVE ON SPECIAL TRAIN TODAY

OTHER DECISIONS LATER

WILL NOT PARTICIPATE IN "STOP" MOVES IN CHICAGO

FORT WORTH, June 24 (P)—Amon G. Carter, chairman of the Garner-for-president steering committee, said today the Texas delegation to the Chicago democratic convention had for its sole purpose the nomination of the speaker of the national house of representatives.

He said all other issues are beside the point and for the delegation to decide later.

The Lone Star delegates planned to leave here late today on a special train, arriving in Chicago tomorrow afternoon.

Carter's statement: "The questions raised and the comments made with respect to what the Texas delegation may or may not do at the Chicago convention call for a statement as to its attitude. The Texas delegation is solidly for Mr. Garner. It is going to the convention for the purpose of obtaining his nomination and is determined to present his claims in a manner befitting his long and valuable service and his native state. All other matters are minor by comparison. They are for the delegation itself to decide, and since it has held no meeting and no complete poll of its members has been taken, obviously no one is authorized for it. Its decision relative to organization of the convention and the other matters that will arise naturally cannot be determined until after it shall have arrived, surveyed the situation and decided."

(See TEXANS, Page 6)

Rail Ballasting Finished Here and Spurs Are Next

Ballasting of the main line of the Fort Worth and Denver railway from Childress to Pampa was completed yesterday by a crew of more than 100 men. The crew is ballasting side tracks in the Pampa yard now.

A volcanic formation secured in northern New Mexico and Southern Colorado is being used. It is shipped here in special cars. The material has been found very satisfactory on other Fort Worth and Denver lines.

The ballasting process would have been completed sooner but for the wearing out of parts on pressure hammers used to sink the ballast into the ground and under the ties. The last few miles of work was done entirely by hand.

The same material will be used to ballast spur tracks being laid by the steel laying gang. Spurs will lead to the Bowers pool, the Texas Elf carbon black plant south of Pampa and to other industries in the county.

Recent rains and traffic has settled the track much quicker than anticipated.

MOVE TO RESTORE KAISER TO THRONE IS DEFINITELY UNDER WAY—CROWN PRINCE INVOLVED

LONDON, June 24 (P)—Former Crown Prince Friedrich Wilhelm of Germany joined his father, the former Kaiser, at Zandvoort, Holland, the Daily HERALD said today in a dispatch from Amsterdam.

The former crown prince's visit, the first he has made to Holland in seven years, the paper said, is to attend a conference of former members of the German royal family

and monarchist politicians on the possibility of restoring the Hohenzollerns to the German throne.

The former Kaiser is spending a short vacation at Zandvoort. The HERALD said the former Kaiser's secret talks with German bankers and politicians began last week at Zandvoort and were interrupted by his decision to return to Doorn for the week-end.

AH, AT LAST! "FRIDAY" SUGGESTS WAY TO MAKE USE OF ALL THESE CANDIDATE CARDS

The old question that bobs up every two years, "what's one going to do with candidates' cards," has engaged the attention lately of "Friday" Brandin, courthouse weather prophet.

"Friday" pointed out this morning that it had rained just as he said it would, and then began assorting the stack of candidates' cards in his hand.

Suggested "Friday": "It looks to me like these people who play card games could use candidate card for stakes. Say they were playing poker, coon-can, blackjack, pitch, hearts, bridge; say they were shooting craps. They could bet a county judge candidate against a commissioner aspirant. They could bet

two district clerk cards against one county attorney card. They could work out some system as to the value of the card. A card that had a picture on it might or might not be worth more than one that had none on it, depending upon the taste of the valuation committee."

"Friday" said an amusing candidate card game should be worked out by those who have an inclination for inventing. "It's a shame to confine the circulation of the cards to the candidates themselves. Some sort of candidate card game would give the candidates publicity and maybe inspire serious and honest discussion of government, county, state and national, and would perhaps shed some light on the candidates' qualifications."

LEGAL ACTION TO COLLECT DELINQUENT TAXES APPEARS NECESSARY IN CITY AFFAIRS

List Has Grown At Startling Rate Recently

The city's delinquent tax list is growing with startling rapidity, J. H. Blythe, city tax assessor and collector, has reported.

He is preparing a delinquent list to be mailed in the near future. City Attorney Arthur Teed has received instructions from the city commission to start foreclosure proceedings 30 days after notices have been mailed if taxes are not paid.

Unpaid taxes are drawing a 10 per cent penalty and interest on the amount and penalty. Interest will be 2 1/2 per cent until July 30, when it goes to 3 per cent for the month of July. The increase will be one half per cent each month.

Delinquent taxes now due the city total \$59,411.95. There remain on the books, delinquent taxes of \$ 35 from 1922. The amount has been increasing each year. The 1931 list unpaid amounts to \$32,425.05, or around 30 per cent.

The delinquent tax list by years from 1924 follows:

1924	\$ 97.86
1925	175.84
1926	374.25
1927	4,020.60
1928	4,519.34
1929	4,988.84
1930	12,198.82
1931	32,425.05
Total	\$59,411.95

Youths Held In Gasoline Theft

Two youths accused of taking gasoline from a tank on the Magnolia Petroleum company property at the end of East Foster avenue by H. D. Holmes and Raymond Harsh, were arrested by city police officers last night to theft charges filed by County Attorney Sherman White were entered by Ed Barnett and Doyal Killough, this morning before James Todd, Jr., justice of the peace. Killough was fined \$100 and costs and Barnett, \$25 and costs. Barnett was released upon a bond which requires him to pay the fine before Aug. 1. Killough is being held in jail. A law passed by the last legislature allows the court to accept a bond for a fine.

Eighteen gallons of gasoline had been transferred from the tank to two 15-gallon tanks when the officers made the arrests, it was testified.

City police cooperated with A. G. (Pete) Post in making the arrests. Mr. Post had been missing gasoline from the tanks. Officers lay in wait until the pair arrived.

The case was tried in justice court because the value of the property was below \$5.

BORGER MAN ELECTED
YOSEMITE, Calif., June 24 (P)—James R. Hoffman of Deaver, was elected president of the High Twelve, an organization of Masonic luncheon clubs, at the closing session of its annual convention at Camp Curry tonight. P. A. Spidy of Borger, was elected editor of the High Twelver.

What the League of Nations need in the Far Eastern game is an umpire who can make decisions stick.

SHORTER ROAD TO BE OPENED

Grading Contract on 152 To Be Let at Austin on Next Thursday.

Wheeler will be much closer to Pampa than it is now when contracts to be let next Thursday by the State Highway department at Austin are completed.

The department will open sealed proposals for constructing 18.161 miles of grading and drainage structures from six miles east of Pampa to the Wheeler county line on highway No. 152, and will accept bids for putting a caliche-asphalt top on the same road from the Gray county line to Wheeler.

When the latter project is completed, the road will be paved across Wheeler county. A contract to put a caliche-asphalt top on the road in Gray county is expected to be let and completed before the end of the summer.

Highways No. 152 and No. 33 will follow the same route from Pampa to a point six miles east. A contract was recently awarded to Coker & Braden to grade, drain and pave 33 with caliche and asphalt from Pampa to the Roberts county line. Work is due to start in a few days.

The contractors recently finished hard-surfacing a portion of U. S. highway 66 in Gray county with caliche and asphalt.

It was decided not to let the paving and drainage contract on No. 152, as was done on the 33 job, because there will be much more grading to do and more drainage structures to be built on the Wheeler road than on the Miami road. The hard-surfacing in Wheeler county on 152 is due to be finished in August.

Tentative Date for Rail Event Is Fixed Today

July 15 has been set as the tentative date for the Pampa celebration in connection with the completion of the Fort Worth and Denver Railway line from Childress to Pampa.

E. E. Daggett, Fort Worth and Denver attorney, arrived here this morning and consulted H. H. Durston, executive general agent, who has been here for several weeks, and George Briggs, manager of the Board of City Development.

A wire was sent to Gen. John A. Hulen, vice president of the line, inquiring if July 15 would be suitable. An answer was expected soon.

It is planned to invite guests from Fort Worth, Dallas, Wichita Falls, Childress, and intermediate points to Pampa where a program will be given about midday. It is expected that several special trains will make the trip.

Republicans Set Primary Expense

The republican county executive committee in session this morning here, assessed candidates for the county chairmanship \$100 for placing their names on the tickets, and candidates for other offices, \$50.

Any candidates for offices on the republican ticket will have until tomorrow night to pay the assessments which will be used to defray the expenses of holding the republican primary.

I SAW--

E. M. Conley, Montgomery Ward store manager, looking pleased this morning. His store is leading most in this territory.

That inseparable pair, Mabel Stokes and Carl Jamison, walking rapidly down the street, and talking just as rapidly about something.

DON'T HAVE TO WAIT

The Pampa Daily NEWS, printed hours after other daily papers circulated in this territory are put to press, carries important late news FIRST.

Your Pampa daily is made up AS THE NEWS HAPPENS and therefore is the most timely publication it is possible to read. Its late news is the same as you read in most other newspapers the following morning.

But you can have certain information in which you are particularly interested even earlier. The NEWS is glad to provide, by telephone in advance, any information of special interest it may have. If you want to know about a bill in congress, a court decision in Austin, an accident in Oklahoma, or any other such item, just telephone THE NEWS at 666 and ask for the editor, who also is telegraph editor and is in constant touch with territorial, state, and world news sources.

The NEWS is your paper—use it.

SMITH LEADS PLAN TO UNITE LARGE GROUP

TWO-THIRDS VOTE FOR NOMINATION IS DEFENDED

ROOSEVELT IS ADAMANT

FARLEY FEELS SURE HE CAN CONTROL DEMO CONVENTION

CHICAGO, June 24 (P)—Alfred E. Smith denounced the epaulets as leaders of the opposition to Franklin D. Roosevelt today and began a move to unite the supporters of other candidates into a solid group to block the nomination of the New York governor.

As Roosevelt supporters confidently completed plans to toss out the two-thirds rule and to show Senator Walsh in as permanent chairman, Smith conferred with leaders of opposing candidates, including William Gibbs McAdoo.

Assurances that California will stand behind Speaker Garner were understood to have been given Smith by McAdoo and the New Yorker contacted Texas leaders in an effort to make sure the Lone Star state will back their choice to the finish.

Opposition to the Roosevelt plan to abolish the two-thirds rule came from nearly all the other camps. John F. Curry, Tammany leader, and James A. Reed, who holds 36 Missouri votes, denounced the plan along with Representative Rayburn of Texas, manager of the Garner forces.

CHICAGO, June 24 (P)—The thrust by the Roosevelt forces at

(See DEMOCRATS, Page 6)

Local Officials Studying Budgets

C. L. Stine, city manager, Raymond Wilson, county auditor, and County Judge S. Stennis, left yesterday afternoon for Lubbock, where they will study problems relative to reducing public expenditures at a budget making institute being conducted today.

The school is being fostered by the West Texas chamber of commerce. Many well known Texas city managers, bankers, and financiers appear on the program list. The county must prepare a budget this year. The city budget for the year has been set but may be revised.

The Pampa delegation will return tonight.

said, and will gladly and fully correct any erroneous statement made.

BYRD'S GOOD SHIP BEAR

When Admiral Byrd goes back to the Antarctic next winter he will take along several up-to-date tractors, to see if they might not do better at pulling sledges over the frozen wastes than the traditional dog teams. But the ship that he will sail in will be the famous Bear, built a few years after the Civil War and one of the world's greatest veterans of polar voyaging.

This odd mixing of the ultra-modern and the very old suggests that while some of our mechanical contrivances are a lot handier than anything our grandfathers had, there are fields in which we haven't improved much on their work. The tractor may be a fine thing for a polar explorer, but for traveling about in the stormy, ice-filled polar seas Admiral Byrd can find nothing better than an ancient wooden vessel that was built before he himself was born.

The modern steel ship, of course, is a triumph of ingenuity. Her engines, in themselves, are marvels; compact, powerful, reliable, built to pump away as steadily as the human heart, they enable the ship her schedule regardless of wind and weather.

But the old shipbuilders of a past generation, who worked in wood instead of steel and placed their chief reliance on sails instead of engines—they, too, were masters of their craft.

Too often we romanticize about the old sailing ships so much that we forget how perfectly adapted they were for the job they had to do. They were beautiful to look upon, of course, and they could be unspeakably picturesque at times; but first and foremost they were utilitarian, and they represented quite as high an order of skill in design and construction as do their modern sisters, the steel steamships.

Look at the photographs of this ship Bear, some day. She looks out of date, with her square yards and her clipper bow. You think, as you look, that she ought to be a museum piece somewhere. But Admiral Byrd couldn't find a better ship for polar voyaging. The old-time shipbuilders knew their job.

LESSON WE SHOULD LEARN

Perhaps the fact that the incalculably important reparations conference at Geneva is under way without any Americans present is at least partly due to Uncle Sam's persistent feeling that when the thing is over he will be left holding the bag anyway, whether he sits in or not.

Technically, of course, Germany's professed inability to pay any more reparations is none of the United States' business.

But one need not be very familiar with European politics to know that if the allies get no more reparations payments from Germany the United States will get no more war debts payments from the allies. Reparations and war debts may not be related, but they are beginning to look more and more like twin brothers.

In plain English, Uncle Sam's chances of getting his money back are very slim indeed, and we might just as well begin to wake up to the fact.

And if we are half as smart as we like to think we are, we can let the whole war debts-reparations mixup be an extremely valuable lesson to us.

The war of 1914-18 will not, probably, prove to be the last European war. Sooner or later there will be another one. When it comes, one side or the other, or both together, will look to the United States for money and munitions.

Commissions headed by famous statesmen will cross the Atlantic, huge loans will be discussed, vast contracts will be offered to the munitions factories.

And if Uncle Sam has any memory at all, he will

OUT OUR WAY By WILLIAMS

send all of these commissions back across the ocean with empty hands. And he will say something like this:

"We financed a European war once before, and in the end we found out that most of the money that we sent overseas was gone for good. We don't want to repeat that experience. It was too expensive. Hereafter nation; not one American factory will sell a dollar's worth of goods to a warring nation. You'd better go hunt up another sucker."

(Continued from Page 1)

could not know that machinery would do the work of thousands of men. He could not foresee that the flapper age would be followed by an era in which the female of the species would also run machinery and sit in offices. He could not envision the skyscraper with its thousands of tenants living in wee "efficiency apartments" on "Hollywood diets."

Happier Method

We of the present, seeing ten millions of persons jobless, tend toward pessimism. Some look to communism or socialism as the only solution. There is a happier solution if the peoples of the earth are willing to quit chasing the dollar and start hunting recreation and enhancement of personal knowledge and culture. Leisure should be a means to an end far removed from amassing wealth. We have too great a concentration of wealth now. Life can be full of enjoyment without working 14 hours a day with riches as the only ultimate goal.

Old Age Security

The "stagger" system tends somewhat to reduce the general standard of living—material living. But it can result in fuller and richer living if men and women improve that greatest of all assets—themselves. One of the greatest needs of civilization is some plan to give old-age security without the mad rush against time to put aside enough to make old age safe. Such security would

afford incalculable relief and make fuller living possible. It would have its evils of course, for until people learn to use leisure hours there can be no real happiness.

Many Thanks

Gift of an inhalator to the fire department by the Cabot company is one of the finest instances of appreciation we recall. The need for such an instrument in this community has long been known. The equipment doubtless will save lives before many years pass. R. G. Allen and Don Conley of the Cabot Co., should have the thanks of the entire community.

Capone Gang on Verge of Wreck

CHICAGO, June 24 (AP)—The next battle of gangland's deadly machine guns may also be the death rattle of the gigantic crime syndicate built by "Scarface" Al Capone. That civil warfare may wreck the syndicate and free the city from its encircling talons was the theory advanced today by a high enforcement official.

On his desk lay a diagram of all branches of the vast Capone empire from which the jailed gangster derived his princely income. They spread from the heart of the loop to the outermost limits and suburbs. The underworld, he said, at this very minute might be sitting on a powder magazine of gang strife unquelled in intensity since the bloodshed that accompanied Capone's rise to power.

And the gangster whose followers Capone men were believed by investigators to have decimated in the St. Valentine's day "massacre," mortal enemy of Capone—may be the man to set the spark.

HOUSTON MAN IS SLAIN

HOUSTON, June 23 (AP)—Joe Navarro, 29, bottling company owner, was killed last night as he sat on the porch of his home with Mrs.

MARCHERS—

(Continued from page 1)

Must Enlarge Plans
It was thought this city had been picked as concentration point because of the two-day convention of the American Legion, 11th district, opening here tomorrow. Plans made for entertainment of the Legionnaires will have to be enlarged if the bonusers decide to stay over for the convention. All charity units of the city pooled forces this morning, serving the bonusers with coffee and doughnuts as they left the train, and committees were appointed to gather supplies for a lunch later in the day.

ABILENE, June 24 (AP)—Ignoring concentration of the California bonus army at Sweetwater, a medical detachment, also from California and also Washington bound, departed from Abilene shortly before noon today. The group, 26 strong, arrived here late last night, berthing in three tourist camps where quarters had been offered gratis. They left the Bankhead highway here, turning north toward Wichita Falls, the night objective.

Doctor Angered
Dr. C. A. Bolden, spokesman for medical unit, expressed resentment at a statement issued yesterday from El Paso, attributed to Royal W. Robertson, commander of the California unit, terming the medical unit a "bunch of chiselers." Bolden said his unit has no connection with the main army, but is traveling on credentials sent by William W. Waters, commander-in-chief of the bonus army in Washington.

"We are not train riders," he said, "but are traveling in our own equipment—six automobiles, a comersary truck and ambulance, and an airplane. Our group includes ten women of whom four are registered nurses. We carry more than \$1,000 worth of medicine for use when we reach Washington. We are self-supporting."

"Our mission to Washington is not in connection with payment of the bonus. We are going on a humanitarian mission, offering our services as doctors and nurses to the sick men in the Anacostia encampment."

Americans Win At Tennis Meet

WIMBLEDON, Eng. June 24 (AP)—Mrs. Helen Wills Moody, seeking her fifth Wimbledon tennis singles title, advanced to the quarter final round today with an easy 6-3, 6-0 victory over Mrs. Kitty McKane Godfree, a former grand of the English courts. Mrs. Moody has not lost a set in her parade through the field.

Ellsworth Vines, Jr., American champion, defeated I. Aoki, Japanese Davis cup team member, in a hard, four-set match in the fourth round, 6-2, 3-6, 6-3, 6-2.

WIMBLEDON, Eng. June 24 (AP)—Eileen Jacobs, America's second ranking women player, today advanced to the last night of the English tennis championships with a 6-1, 6-2 victory over Mrs. C. H. Jameson of England in the fourth round.

Frank Shields, American Davis cup player and his South Africa partner, F. D. B. Spence, defeated the English pair of Nigel Sharpe and J. D. P. Wheatley, 6-3, 6-3, 6-1 in a first round doubles match.

The former Wimbledon champions and United States cup doubles team of Wilmer Allison and John Van Ryn won their second round match in men's doubles handsly from A. Brown and R. K. Tinkler of England, 7-5, 6-2, 6-4.

Betty Nuthall, one of England's leading women players and a former American champion, defeated Sarah Paley of the United States Wightman cup team, 8-6, 9-7 to advance to the quarter-finals.

Navarro and a friend. A man with a shotgun walked past the house, shot down Navarro, threw away the weapon and fled. Navarro was wounded under much the same circumstances less than 16 months ago.

Scouts May Be Given Work To Earn Camp Fees

A movement started by Chris Martin, chairman of the vocational guidance committee of the Kiwanis club, today will mean that at least 20 Boy Scouts will get to go to camp August 18 if the citizens of Pampa will cooperate in giving their work.

Each of the 20 Scouts is not financially able to pay the \$10 or \$12 necessary to make the trip unless he is given work. A phone call to 344 will bring a competent Boy Scout to mow a lawn, clean up yards and gardens, deliver for merchants, or do any odd job. A boy will be selected that is familiar with the type of work to be done. All Scouts making application for work are being thoroughly investigated as to their finances, and if it is found that they cannot go to camp unless they earn money, their names will be placed on file at phone 344.

A Scout can advance as much at camp as he can in four months time otherwise. Mr. Martin says that he is sure anyone who gives work to one of the boys will be well pleased.

BYRD'S GOOD SHIP BEAR

When Admiral Byrd goes back to the Antarctic next winter he will take along several up-to-date tractors, to see if they might not do better at pulling sledges over the frozen wastes than the traditional dog teams. But the ship that he will sail in will be the famous Bear, built a few years after the Civil War and one of the world's greatest veterans of polar voyaging.

This odd mixing of the ultra-modern and the very old suggests that while some of our mechanical contrivances are a lot handier than anything our grandfathers had, there are fields in which we haven't improved much on their work. The tractor may be a fine thing for a polar explorer, but for traveling about in the stormy, ice-filled polar seas Admiral Byrd can find nothing better than an ancient wooden vessel that was built before he himself was born.

The modern steel ship, of course, is a triumph of ingenuity. Her engines, in themselves, are marvels; compact, powerful, reliable, built to pump away as steadily as the human heart, they enable the ship her schedule regardless of wind and weather.

But the old shipbuilders of a past generation, who worked in wood instead of steel and placed their chief reliance on sails instead of engines—they, too, were masters of their craft.

Too often we romanticize about the old sailing ships so much that we forget how perfectly adapted they were for the job they had to do. They were beautiful to look upon, of course, and they could be unspeakably picturesque at times; but first and foremost they were utilitarian, and they represented quite as high an order of skill in design and construction as do their modern sisters, the steel steamships.

Look at the photographs of this ship Bear, some day. She looks out of date, with her square yards and her clipper bow. You think, as you look, that she ought to be a museum piece somewhere. But Admiral Byrd couldn't find a better ship for polar voyaging.

LESSON WE SHOULD LEARN

Perhaps the fact that the incalculably important reparations conference at Geneva is under way without any Americans present is at least partly due to Uncle Sam's persistent feeling that when the thing is over he will be left holding the bag anyway, whether he sits in or not.

Technically, of course, Germany's professed inability to pay any more reparations is none of the United States' business.

But one need not be very familiar with European politics to know that if the allies get no more reparations payments from Germany the United States will get no more war debts payments from the allies. Reparations and war debts may not be related, but they are beginning to look more and more like twin brothers.

In plain English, Uncle Sam's chances of getting his money back are very slim indeed, and we might just as well begin to wake up to the fact.

And if we are half as smart as we like to think we are, we can let the whole war debts-reparations mixup be an extremely valuable lesson to us.

The war of 1914-18 will not, probably, prove to be the last European war. Sooner or later there will be another one. When it comes, one side or the other, or both together, will look to the United States for money and munitions.

Commissions headed by famous statesmen will cross the Atlantic, huge loans will be discussed, vast contracts will be offered to the munitions factories.

And if Uncle Sam has any memory at all, he will

OUT OUR WAY By WILLIAMS

send all of these commissions back across the ocean with empty hands. And he will say something like this:

"We financed a European war once before, and in the end we found out that most of the money that we sent overseas was gone for good. We don't want to repeat that experience. It was too expensive. Hereafter nation; not one American factory will sell a dollar's worth of goods to a warring nation. You'd better go hunt up another sucker."

(Continued from Page 1)

We Disagree
There are some who think present conditions arose because barons of industry played golf instead of pounding away at their office tasks. We differ sharply. We think not enough of them were playing. Too many were getting rich and working long hours to get richer. Too many were giving all thought to greater production, more expansion, more sales at any kind of credit, more risky loans aboard on shaky collateral. And their employes followed similar routine, driving themselves at top speed with only the thought that there would be no end to prosperity and no need for putting anything aside for a rainy day. The inflation of that period produced a huge labor demand and swelled the ranks of workers, male and female. The inevitable slack when credit tightened left millions unemployed.

Old Age Security
The "stagger" system tends somewhat to reduce the general standard of living—material living. But it can result in fuller and richer living if men and women improve that greatest of all assets—themselves. One of the greatest needs of civilization is some plan to give old-age security without the mad rush against time to put aside enough to make old age safe. Such security would

Happier Method
We of the present, seeing ten millions of persons jobless, tend toward pessimism. Some look to communism or socialism as the only solution. There is a happier solution if the peoples of the earth are willing to quit chasing the dollar and start hunting recreation and enhancement of personal knowledge and culture. Leisure should be a means to an end far removed from amassing wealth. We have too great a concentration of wealth now. Life can be full of enjoyment without working 14 hours a day with riches as the only ultimate goal.

afford incalculable relief and make fuller living possible. It would have its evils, of course, for until people learn to use leisure hours there can be no real happiness.

Many Thanks
Gift of an inhalator to the fire department by the Cabot company is one of the finest instances of appreciation we recall. The need for such an instrument in this community has long been known. The equipment doubtless will save lives before many years pass. R. G. Allen and Don Conley of the Cabot Co. should have the thanks of the entire community.

Capone Gang on Verge of Wreck

CHICAGO, June 24 (AP)—The next battle of gangland's deadly machine guns may also be the death rattle of the gigantic crime syndicate built by "Scarface" Al Capone. That civil warfare may wreck the syndicate and free the city from its encircling talons was the theory advanced today by a high enforcement official.

On his desk lay a diagram of all branches of the vast Capone empire from which the jailed gangster drew his princely income. They sprang from the heart of the loop to the outermost limits and suburbs.

The underworld, he said, at this very minute might be sitting on a powder magazine of gang strife unbuttoned in intensity since the bloodshed that accompanied Capone's rise to power.

And the gangster whose followers Capone men were believed by investigators to have decimated in the St. Valentine's day "massacre" of 1928—George (Bugs) Moran, mortal enemy of Capone—may be the man to set the spark.

HOUSTON MAN IS SLAIN
HOUSTON, June 23 (AP)—Joe Navarro, 59, bottling company owner, was killed last night as he sat on the porch of his home with Mrs.

MARCHERS—

(Continued from page 1)
Most Enlarge Plans
It was thought this city had been picked as concentration point because of the two-day convention of the American Legion, fifth district, opening here tomorrow. Plans made for entertainment of the Legionnaires will have to be enlarged, if the organizers decide to stay over for the convention. All charity units of the city pooled forces this morning, serving the bootleggers with coffee and doughnuts as they left the train, and committees were appointed to gather supplies for a lunch later in the day.

ABILENE, June 24 (AP)—Imporing concentration of the California bonus army at Sweetwater, a medical detachment, also from California and also Washington bound, departed from Abilene shortly before noon today. The group, 26 strong, arrived here late last night, berthing in three tourist camps where quarters had been offered gratis. They left the Bankhead highway here, turning north toward Wichita Falls, the night objective.

Doctor Angered
Dr. C. A. Bolden, spokesman for medical unit, expressed resentment at a statement issued yesterday from El Paso, attributed to Royal W. Robertson, commander of the California unit, terming the medical unit a "bunch of chokers." Bolden said his unit has no connection with the main army, but is traveling on credentials sent by William W. Waters, commander-in-chief of the bonus army in Washington.

"We are not train riders," he said, "but are traveling in our own equipment—six automobiles, a company truck and ambulance and an airplane. Our group includes ten women of whom four are registered nurses. We carry more than \$1,000 worth of medicine for use when we reach Washington. We are self-supporting."

"Our mission to Washington is not in connection with payment of the bonus. We are going on a humanitarian mission, offering our services as doctors and nurses to the sick men in the Anacostia campment."

Americans Win At Tennis Meet

WIMBLEDON, Eng., June 24 (AP)—Mrs. Helen Wills Moody, seeking her fifth Wimbledon tennis singles title, advanced to the quarter final round today with an easy 6-3, 6-0 victory over Mrs. Kitty McKane Godfree, a former grade of the English courts. Mrs. Moody has not lost a set in her parade through the field.

Elsworth Vines, Jr., American champion, defeated I. Aoki, Japanese Davis cup team member, in a hard, four-set match in the fourth round, 5-2, 3-6, 6-3, 6-2.

WIMBLEDON, Eng., June 24 (AP)—Helen Jacobs, America's second ranking woman player, today advanced to the last eight of the English tennis championships with a 6-1, 6-2 victory over Mrs. C. H. Jameson of England in the fourth round.

Frank Shields, American Davis cup player and his South Africa partner, P. D. B. Spence, defeated the English pair of Nigel Sharpe and J. D. P. Wheatley, 6-2, 6-3, 3-6, 6-1 in a first round doubles match.

The former Wimbledon champions and United States cup doubles team of Wilmer Allison and John Van Ryn won their second round match in men's doubles handsly from A. Brown and R. K. Tinker of England, 7-5, 6-2, 6-4.

Berty Nuthall, one of England's leading women players and a former American champion, defeated Sarah Palfrey of the United States Wightman cup team, 6-6, 9-7 to advance to the quarter-finals.

Navarro and a friend. A man with a shotgun walked past the house, shot down Navarro, threw away the weapon and fled. Navarro was wounded under much the same circumstances 16 months ago.

Scouts May Be Given Work To Earn Camp Fees

A movement started by Chris Martin, chairman of the vocational guidance committee of the Kiwanis club, today will mean that at least 20 Boy Scouts will get to go to camp August 18 if the citizens of Pampa will cooperate in giving them work.

Each of the 20 Scouts is not financially able to pay the \$10 or \$12 necessary to make the trip unless he is given work. A phone call to 34 will bring a competent Boy Scout to mow a lawn, clean up yards and gardens, deliver for merchants, or do any odd job. A boy will be selected that is familiar with the type of work to be done. All Scouts making application for work are being thoroughly investigated as to their finances, and if it is found that they cannot go to camp unless they earn money, their names will be placed on file at phone 344.

A Scout can advance as much as camp as he can in four months time otherwise. Mr. Martin says that he is sure anyone who gives work to one of the boys will be well pleased.

Lancaster Gives Anniversary Report

SERVES LOCAL BAPTISTS FOR 2-YEAR PERIOD

ALSO WAS PASTOR FOR LOCAL CHURCH FROM 1917 TO 1921

Sunday will close for the Rev. C. E. Lancaster two years of continuous service as pastor of the First Baptist church. During that period there has been much activity throughout every department of church life.

This is the second time Rev. Lancaster has served as pastor of the local church. His first pastorate was in Pampa beginning in 1917 and continuing to 1921.

The past two years have been interpreted by many as an uninviting season for Christian service. Cynical literature, profanity, repudiation of all symbols of God's authority, together with the ill of a depression have made great inroads into the spiritual reserves of some people.

Prayer Helpers: Perhaps a review of these two years' accomplishments with a personal pronoun 'I' would be misleading because every accomplishment represents the faith, the courage, the resolution and the will of many others, equally as much as that of the pastor.

PERSONALS

Emery Crockett visited relatives and friends in McLean this week. Miss Mabel Lyon of Panhandle, home demonstration agent of Carson county, was a guest in Pampa Thursday.

PERSONALS

Mr. and Mrs. J. E. Williams left Thursday to visit at Spearman and Wika. Mrs. George B. Sibley of Panhandle, county treasurer of Carson county, visited here yesterday.

Sunday an Important Day

Each anniversary becomes important because of the retiring of debts. The first Sunday on this field two years ago was a significant day when \$9,500.00 was given on the debts. It was likewise significant a year ago. We hope to see Sunday the most significant day of any during these two years.

PLEAD NOT GUILTY

Grady Lawrence pleaded not guilty to possession of intoxicating liquor for the purpose of sale in justice court before James Todd, Jr., this morning.

PLEAD NOT GUILTY

T. J. Rhea of LeFors transacted business here yesterday.

Armstrong Will Speak Tomorrow On His Campaign

George W. Armstrong of Fort Worth, candidate for governor of Texas, will speak here Saturday at 2:30 o'clock on the east side of the courthouse.

Mr. Armstrong will describe in detail a state currency system with a central bank to act as depository for the state and its institutions and as a reserve bank for the state banks, with the power to issue currency receivable for debts and taxes. Until this is done, the candidate favors a moratorium on bond and mortgage indebtedness.

His itinerary for Saturday includes Canadian, 11 a. m.; Pampa, 2:30 p. m.; Borger, 5 p. m.; and Amarillo, 8 p. m.

Rulers Seized In Revolt In Siam

BERLIN, June 24. (AP)—Marga von Eudorf, German woman filer, telephoned the newspaper *Zeitungs* from Bangkok, Siam, today saying the army had mutinied and seized the royal family as hostages to insure the success of a revolution.

The Royal Palace was surrounded by hostile troops and rebellious soldiers and sailors thronged the streets, she said.

Later King Prajadhipok and the other members of the royal family were removed to a warship.

Army tanks rumbled through the streets in the hands of the rebels and machine gun squads were seen frequently.

Ancients Had Gold Axes
ALEXANDRIA, Egypt. (AP)—Three gold axes and several saws with gold bundles were among Phoenician relics found by excavations of a temple site at Jbel in Syria. The antiquities date back 3,000 years.

Chicago Hotels Show Bustle of Campaigns Now

CHICAGO, June 24. (AP)—With just a week left to go before the curtain raiser of the democratic national convention, the hotel front on a two-block stretch of Michigan boulevard is already a swirling rush of activity for or against presidential nomination candidates. It got that way before even the first state delegation rolled into town.

As in all other Chicago national political conventions of several decades, that mysterious eleventh floor of the Congress hotel, which is only one floor actually above street level, is the viable center of the stir.

That is where "the friends of Franklin D. Roosevelt," with headquarters decked out in the blue and white New York colors, dominate proceedings from the corner

presidential suite, although the florentine room just over the lobby has now burst out with Ritchie banners and bunting in preparation for the arrival today of Maryland's favorite son.

Opening off the central and small lobby of that already packed and jammed floor is a long, narrow corridor with lesser public rooms on either side. Signs for Jim Reed of Missouri in decorous blue with white lettering, poked out from the walls to catch the eye until boosters of Mel Taylor of Illinois installed a larger one that eclipsed them. That set the Garner folks to work on a still larger sign that blotted out all others behind it.

A "Smith headquarters" emblem with road markers along the corridors and in the main lobby downstairs arrowing folks along the right route, led to a room in the middle of it all.

There are Murray signs, Roosevelt signs, Garner signs, Smith signs and many others all over the candidates' row. By tonight it will be impassable most of the time.

Women To Mass In Dublin Session

DUBLIN, June 24. (AP)—Over-shadowing all else on the program of the Eucharistic congress today was the mass meeting of women this evening in Phoenix park.

For the thousands of women attending the congress it marked the climax of their special activities and, except for a difference in hymns and sermons, was a counterpart of last night's mass meeting of men. Except for the clergy, only women attended.

The service included singing by a picked choir of 600 voices. The presiding cardinal was the papal legate, Cardinal Lauri.

During the day sectional and national meetings continued in Dublin halls and this morning a solemn Pontifical high mass was celebrated in the pro-cathedral.

and at noon the children will assemble in Phoenix park for a meeting similar to that of their parents.

Three hundred thousand men attended last night's meeting in the park and listened to Cardinal Lauri.

Archbishop Glennon of St. Louis, speaking in English, said: "other nations have lost the faith and kept their cathedrals, but Ireland has lost her cathedrals but kept her faith."

Cardinal Lauri said he brought a "very special and a great benediction from the Pope."

"I welcome this opportunity to speak to you and to congratulate you on the wonderful demonstration of faith and of profound and genuine piety and devotion which you have given during this congress," he said.

Chile Feeds Unemployed
SANTIAGO, Chile. (AP)—Recent government figures showed that 130,000 persons were being fed at stations maintained to care for unemployed and that thousands of others were getting other aid.

Insurance Bill Before President

WASHINGTON, June 24. (AP)—Awaiting President Hoover's approval at the White House is legislation to enable 97,000 world war veterans to renew their 5-year government insurance contracts for full equal period without further medical examinations.

On such renewals, premium rates would be fixed according to the actual age, which the veterans bureau estimates will average 41 years in July when most of these 5-year policies expire.

Present law demands that upon expiration these policies may be converted to higher-premium policies.

The lowest issued policy which the 5-year term policy may be converted to the ordinary life policy, said the house veterans committee

(which prepared the legislation, explaining this form of contract would cost \$171 annually on \$8,800 of insurance.

"There are approximately 97,000 veterans affected by this bill," the committee said, "and this is an extremely serious matter to them, because so many are unemployed and unable perhaps to make their insurance payments."

"They will be unable to carry their insurance unless they can have this extension of 5 years and thus will be forced to drop their insurance and so deprive their families of protection."

Gambler's Throw by Eustace L. Adams

SYNOPSIS: The members of Ashwood's "house party," whom he is holding for ransom, are awakened by a scream to find one of their number murdered. Stevens, a detective, Collins and Britton, intercepted before they attacked Ashwood's island, are awaiting a chance to help Stevens, Wainwright and the other cops.

Chapter 23 ON THE BEACH BENEATH the washstand in the far corner was a steel and silver table knife, its edge still gleaming redly in the light. A few inches away lay a wrinkled table napkin, its corner and one edge drenched with blood. Stevens stood at the edge of the washstand, looking down at the exhibit, studying knife and napkin intently. He lifted the latter very gingerly, holding it by the edge with his thumb and forefinger. He carried it beneath the light and studied it, inch by inch. Then, with a depressed sigh, he handed it to Jerry.

"No use looking for finger prints without a microscope," he said regretfully. "Might as well pick up the knife, too. The bird that did the Williams in stole the knife and the napkin at dinner time, wrapped the handle of the knife in the napkin, ..."

"Boss, Di Michael's been croaked," panted the guard. "Throat cut."

so as not to leave any prints. Better take care of them, kid, and we'll look them over in the morning. But I don't believe we'll find anything. "I'll send for Alfred and see from whose place the things were stolen," suggested Ashwood. "No use," declared the detective pessimistically. "If the feller was smart enough to cover up his finger prints this way, he wouldn't have stolen the tools from his own place. Might be the best way of finding out who did not do it, though. The one whose things were missing is innocent."

He roved around the room restlessly, his faded eyes examining everything. Then he straightened up, looked at Ashwood and shook his head. "One of these homicide experts could find a lot, maybe, with the proper instruments — microscope, chemicals, and such. But I don't see a thing that looks like a clue. The fibre of this rug doesn't hold the imprint of my own feet, even for more than two-three seconds after I step down hard on it. No bloody finger marks except those this poor devil made when he tried to crawl off the bed. Clothes aren't mussed and no attempt made at robbery. Don't see any motive at all."

"All right, then," snapped Ashwood decisively. "I'll lock the door and have the men clean up in the morning." The three filed out silently. The others, Lucel, Mallory, Martin, Battles and Hamilton, were still standing nervously in the hall, guarded by the armed and vigilant Mueller. The cripple locked the bedroom door, then wheeled about and faced the others.

"Gentlemen," he announced curtly, "someone has just murdered Mr. Williams. If any of you have heard any suspicious sounds this evening, I would like you to tell me." There was a shuddering gasp from one of the listening men, but all stood there, gazing at Ashwood as though hypnotized. He surveyed each of them in turn, in the order of their nearness to the door leading into the scene of the tragedy. Then, amid the deathly silence that hung over the strange tableau, the sound of running feet was

"Stevens, Di Michael's been croaked," panted the guard. "Throat cut."

Juvenile Home Scene of Rioting DETROIT, June 24 (AP)—Police reserves were summoned to the juvenile detention home today to quell a disorder in which 90 girls between 14 and 17 years old battled more than 15 minutes in the second floor dining room of the home. The girls fought with table knives, dishes and other implements. Dresses were torn or jerked entirely off, hair was pulled and faces were scratched. The first policemen who entered the dining room also came out with scratches and bruises. None was hurt seriously. The disorder was started by seven girls who apparently were dissatisfied with discipline.

New York Curb

Table listing various commodities and their prices, including Cit Serv, Elec B&S, Gulf Oil Pa, etc.

MARKETS AT A GLANCE

NEW YORK: Stocks: Weak, pivotal shafts touch new lows. Bonds: Irregular, rails sag. Curb: Heavy, utilities weak. Foreign exchanges: Easy, sterling declines. Cotton: Lower, favorable weather, easy stock market. Sugar: Steady, commission house selling. Coffee: Higher, trade buying. CHICAGO: Wheat: Barely steady, beneficial rains Canada, moderate hedge selling. Corn: Barely steady, optimistic crop news; sympathy wheat. Cattle: Steady to lower. Hogs: Active and higher.

KANSAS CITY LIVESTOCK

KANSAS CITY, June 24 (AP)—(U. S. D. A.)—Hogs 2,000; mostly 15-25 higher; top 4.00 on choice 160-220 lbs; packing sows 275-500 lbs. 2.65-3.15; stock pigs 70-130 lbs. 2.65-3.25. Cattle 1,200; calves 400; lower grade steers 400; other classes fully steady; choice 878 lb. yearling steers 7.25; steers 600-900 lbs. 6.00-7.05; heifers 550-850 lbs. 5.25-6.75; cows 3.25-5.00; vealers (milk-fed) 3.50-6.00; stocker and feeder steers 4.25-6.00. Sheep 7,000; sheep and lambs steady; top native lambs 5.85; lambs 90 lbs down 5.25-6.00; ewes 150 lbs. down 1.00-75.

COTTON FIRM

NEW ORLEANS, June 24 (AP)—The cotton market opened steady today. Liverpool cables were better than due and foreign political news was more encouraging. As a result, first trades here showed gains of three points with July at 5.25, October at 5.44 and December at 5.60. Trading after the start was very narrow, being restricted mainly to scalping operations between professionals and straddle trades between the markets. There was some further liquidation of July in advance of the first notice day tomorrow. Toward the end of the first hour prices were one point below the opening figures and the market appeared steady but quiet.

RUST IS TREAT

CHICAGO, June 24 (AP)—With black rust possibilities a persistent bullish factor, wheat prices averaged higher early today. Leading experts pointed out as significant of danger that the spring wheat crop was fully ten days more advanced in growth than usual. Opening 1/2 to 3/4 up, the wheat market later gained all around. Corn started at 1/2 decline to 1/4 advance and subsequently held near the initial levels.

SMITH DECLARES GARNER HAS CHANCE

TYLER, June 24 (AP)—Carl Estes, editor of the Tyler Morning TELEGRAPH, in a dispatch from Chicago to his newspaper today was quoted as saying Alfred E. Smith told him and Judge Greyer Sellers of Texasians that Speaker Garner "has an excellent chance of getting somewhere" in the forthcoming convention. "John Nance Garner," Estes quoted Smith as saying, "has an excellent chance of getting somewhere at the convention which opens at Chicago Monday provided you fellows in the Texas delegation hold the line and don't consider your ballot for Garner merely a complimentary gesture." The dispatch continued that Smith walked over to Judge Sellers and placed a hand on his shoulder and concluded, "Garner has more

CHICAGO GRAIN

CHICAGO, June 24 (AP)—Wheat—No. 3 red 47 1/2; No. 2 mixed 48 1/2; No. 3 mixed 48 1/2. Corn—No. 2 mixed 31 1/2; No. 2 yellow 31 1/2; No. 1 white 21 1/2. Oats—No. 2 white 21 1/2-22; No. 3 white 20-22. Wheat closed heavy, 1/4-3/4 under yesterday's finish, corn 1/4 down, oats 1/4 off and provisions unchanged to a rise of 20 cents.

BOATMEN SPLIT RACES

NEW LONDON, Conn., June 24 (AP)—Yale and Harvard split even in the first two races of the seventh regatta between the two famous universities on the Thames today. Yale won the opening event, the freshmen race, by three lengths but Harvard came back to win the junior varsity by a length.

What Candidates Are Doing Now

By The Associated Press Franklin D. Roosevelt—Still at Albany, he considers a rush journey to Chicago in case of prolonged deadlock; he conferred last night with John E. Mack of Poughkeepsie, N. Y., who will place him in nomination.

Alfred E. Smith—After burying the latched with old rival, William G. Meadlow, he received many callers at his Chicago headquarters.

Albert C. Ritchie—Huge crowd cheered Maryland governor as he started from Baltimore for convention with party of nearly 300.

John N. Garner—The speaker of the house sat in the senate and saw the Wagner \$2,300,000 relief bill approved. It goes to conference for compromise with a relief bill sponsored by the speaker.

Newton D. Baker—Arriving home in Cleveland after a trip to the east, he wouldn't say much about Chicago. "I am hoping for wisdom and candor there, but I have no long distance advice to give them."

Harry F. Byrd—At Chicago, he urged the convention pledge itself for an international conference to tariffs.

James A. Reed—The former senator from Missouri was the center of a large crowd at his headquarters. Asked who was Missouri's "second choice" for the nomination, he said: "I did not know there was a second choice so far as Missouri is concerned."

William H. Murray—Oklahoma's Governor "Alfalfa Bill" protested a move to delay naming of a platform sub-committee, saying it was to allow the arrival of congressmen. "We had an example last week of a convention dominated by postmasters."

TEXANS

(Continued from Page 1) mined in a meeting of all of its members what should be done. "Such comments as have appeared in the press, therefore, are but personal expressions of individual members, and wherever there may have been conflict in the views expressed, are not to be interpreted as either the sentiment of the delegation or evidence of lack of unanimity of purpose. It should, however, be made plain finally that the Texas delegation is not out to oppose any candidate or to stop any movement. Its task is to get votes for Mr. Garner and to obtain his nomination. When he releases the Texas delegation from its instructions—should that become necessary—will be ample time to consider what it shall do and what candidate it should support. Any speculation in the meantime not only will be idle, since the delegation is instructed for Mr. Garner, bound under the unit rule and its release left to him, but advantageous to other candidates and injurious to Mr. Garner. It is to be hoped all members of the delegation will appreciate this fact, realize the great opportunity that has come to Texas and direct their efforts and energies to the main purpose."

Smith Declares Garner Has Chance

TYLER, June 24 (AP)—Carl Estes, editor of the Tyler Morning TELEGRAPH, in a dispatch from Chicago to his newspaper today was quoted as saying Alfred E. Smith told him and Judge Greyer Sellers of Texasians that Speaker Garner "has an excellent chance of getting somewhere" in the forthcoming convention. "John Nance Garner," Estes quoted Smith as saying, "has an excellent chance of getting somewhere at the convention which opens at Chicago Monday provided you fellows in the Texas delegation hold the line and don't consider your ballot for Garner merely a complimentary gesture." The dispatch continued that Smith walked over to Judge Sellers and placed a hand on his shoulder and concluded, "Garner has more

Prof. Phelps In Defense of His Grammar on Fish

CHICAGO, June 24 (AP)—What Prof. Manly Phelps was reported to have said when he caught a 35-pound fish in Wisconsin was all a mistake, L. E. says. Students at the Phelps Institute of Speech have been chuckling over reports that the professor said: "Ain't it a honey?" But the professor explained yesterday he didn't say that at all. What he said, he insisted, was: "Oh boy, what a honey!" He made the correction by way of guarding his reputation as a grammarian.

Candidates Are Very Economical

Costs of running for office in 1932 were confined largely to printing, advertisements, newspaper announcements, according to campaign expenses of candidates filed already with County Clerk Charlie Thut. Candidates have until tomorrow night to file statements of their expenses in the first primary. Only one candidate filed campaign expenses. Tax Collector T. W. Barnes estimated his expenses at \$120, but \$100 of this was for placing his name on the ticket. No other candidate included this cost in his expenses. It is not required by law. Expenses filed up to this morning were as follows: Philip Wolfe, \$103; S. D. Stennis, \$87; John R. White, \$29.75; Thos. O. Kirby, \$34.50; Mabel Davis,

DEMOCRATS

(Continued from page 1)

the century old two-thirds nominating rule stirred an angry hum of protest today among rival presidential candidates and their friends. Governor William H. Murray of Oklahoma, a candidate himself, said abrogation of the two-thirds rule would mean destruction of the democratic party and the creation of a third one.

One of the leaders of the party in the senate, Senator Glass of Virginia, also denounced the move. Glass is supporting Harry F. Byrd of Virginia, for the presidency. The senator spoke severely about the program of the Roosevelt forces.

"Not The Game" "I wouldn't support any man who takes the short cut that way," said the Virginian. "If the democrats want to recommend abolition of the two-thirds rule at the next convention four years hence that is a different proposition but to pull a snap play like this in the middle of the game is not playing the game as I see it."

Roosevelt leaders, however, were unperturbed by the mounting opposition to their program. James A. Farley, leader of the Roosevelt followers, said the Roosevelt men would fight for the abrogation of the rule.

Senator Huey Long of Louisiana said he would throw the full support of his delegation behind the fight and predicted the Roosevelt forces would be victorious. "Wholly Unfair" Jouett Shouse, chairman of the democratic executive committee and the person on whose election as permanent chairman will center the first test of strength of the Roosevelt forces, said it would be wholly unfair to abrogate the two-thirds rule without also abolishing the unit rule.

Shouse is supported for the permanent chairmanship by a group of opponents of Roosevelt. The former chief of the governor favor Senator Walsh of Montana for the place. He said that if the party desires to get rid of the two-thirds rule it should first lay the foundation by instructing the state delegation to the convention to go back and abrogate the unit rule for future conventions.

Former Governor Byrd declined to make known his views. Frank Schofield, manager for Melvin A. Traylor, opposed the plan.

Tammany Heard From John F. Curry, leader of Tammany Hall, let it be known he would fight "to the last ditch" against abrogation of the rule.

Word also came from the Tammany headquarters that Curry was slated for the post of national committeeman now occupied by Norman E. Mack, a Roosevelt supporter.

Opposition also was voiced by former Senator James A. Reed of Missouri. Meanwhile, James A. Farley, head of the Roosevelt forces, went confidently ahead with plans for bringing to the floor the fight to abrogate the rule.

Farley announced that J. Bruce Kremer of Montana, the choice of the Roosevelt forces for chairman of the rules committee, will lead the fight against the rule. Farley was asked if he had "counted noses" of the delegates on the proposed change and replied: "We wouldn't have made the move unless we had been sure of our ground."

Friends in the delegations here than you folks in Texas probably realize."

MEN OF GRAY REFORM LINES

RICHMOND, Va., June 24 (AP)—Graysland men who under Jackson and Lee and Stuart and Forrest carried the hopes of a nation thru a four years war, reformed their broken lines today for their forty-second annual parade. Confederate veterans, men, who had triumphed at Bull Run, had been repulsed at Gettysburg and had accepted the inevitable at Appomattox, moved with tottering footsteps to the automobiles that would carry them over streets they had walked on foot three score and ten years before.

SHORT OF GOAL

WASHINGTON, June 24 (AP)—State leaders in the victory fund drive of the democrats reported today that \$719,587 of the \$2,000,000 campaign fund goal had been raised.

What people are saying about this NEW Kellogg Cereal

"Yes, Mrs. Jones, these new Kellogg's Whole Wheat Flakes are very popular. I'm selling lots of them."

"Well, I should think you would. They are simply delicious, and look what a big package you get!"

WHAT woman wouldn't welcome a new and delicious food that saves work and trouble and real money! No wonder Kellogg's Whole Wheat Flakes are so popular. They meet the needs of the times!

Everybody knows that whole wheat is one of the finest all-around foods nature ever produced. Well, just taste it as it comes in Kellogg's Whole Wheat Flakes!

These crunchy, toasted flakes have a flavor and crispness that makes appetites get busy. Ready to serve with milk or cream. Almost a meal in a bowlful.

You'll get a pleasant surprise when you see the size of the big red and green package too. It's an outstanding value.

Ask your grocer for Kellogg's Whole Wheat Flakes. Oven-fresh. Made by Kellogg in Battle Creek. Quality guaranteed.

NEW Easy-Open Top You don't need to cut or tear the package. Simply press with your thumbs along dotted line — and the patented hinged top opens!

REFERENDUM BALLOTING WILL BRING OUT LARGE STATE VOTE

BY R. W. BARRY
AUSTIN, June 24. (AP)—Those who sponsored the idea of proposing that the Texas constitution be amended to prohibit primary say whether they want congress to resubmit the eighteenth amendment did so with an idea it would increase the vote for state office candidates.

But, when a certain faction put over the idea that the prohibition resubmission proposition be placed on a ballot separate from the one carry names of candidates for the various state offices, it is likely they paved the way for democrats and persons of other political party allegiance, to vote for resubmission or against it without marking a ballot containing names of the candidates in the primary.

The main ballot will carry the statutory pledge: "I am a democrat and pledge myself to support the nominees of this primary. Republicans and adherents to other than democratic principles may find it convenient to express themselves on resubmission through the democrats' primary without taking any pledge. Likewise, democrats who may desire to remain out of the democratic nomination for one reason or another can go in and express their views about resubmission and remain clear of the party pledge."

Had the resubmission proposition been printed on the same ballot with the primary candidates and the party pledge this kind of an endeavor would not have been so easy.

There seems to be considerable confusion about the resubmission plan of Texas democrats, anyway. It is questionable whether the vote will represent a fair expression of sentiment on the proposal. It is likely that in some of the counties the local democratic precinct managers will decide they do not want to be bothered with the resubmission ballots and make no effort to hold that part of the primary election.

If the vote shows a majority in favor of resubmission those opposed to a referendum probably will contend it was not a fair session. If there are more ballots counted as registering opposition to resubmission, those favorable to action by congress referring the matter to the various states may argue that they did not get a square deal. Any way the result as registered is not likely to ally all the prohibition and

EXCHANGE TEACHERS

CANYON, June 24. (AP)—The West Texas State Teachers' college, Canyon, and the North Texas State Teachers' college of Denton, will exchange English department heads at the beginning of the fall terms in September.

Dr. F. M. Wornall, who came to Canyon a year ago from the Texas Woman's college, Fort Worth, will go to Denton, and Dr. B. F. Fronbarger, Jr., will come to the college here. Dr. Fronbarger was a member of the faculty here for two years and taught one year at Simmons university, Athens.

The exchange was made with the consent of the presidents, Dr. J. A. Hill of Canyon, and Dr. E. L. Marquis of Denton.

EXTRAORDINARY WAYS

DALHART, June 24. (AP)—She's an ordinary cat but she has extraordinary ways. J. M. Woody, 18 miles west of Dalhart, can vouch for that.

The old cat lost her kittens and refused to be comforted. Mr. Woody's boys in their explorings, captured five baby skunks and four young ground squirrels. At the suggestion of Mr. Woody they were given to the cat who accepted them gladly. She mothers them as she did her own kittens and washes the face of the skunks and ground squirrels impartially.

anti-prohibition agitation. It is more apt to increase it.

News dispatches have made it apparent that several county party executive committees will ignore the proposal and refuse to arrange for submission of the question. It was not clear if the state committee would resort to some kind of court action to insure the carrying out of its instructions. It was possible, of course, those who believe the committee acted illegally in submitting the question, would seek a court order to try to stop the referendum.

Governor Sterling was appealed to by one prohibition leader to use his influence with the state executive committee in an effort to get it to rescind its action. He said there wasn't anything he could do about it and that personally he "had rather let it alone."

Just what kind of a tangle would develop over the resubmission idea was a matter of some concern on the eve of the Texas primary.

Salvation Army Given Much Food

A large quantity of canned goods and groceries were added to the larger of the Salvation Army through a show given Wednesday afternoon by George Limerick of the La Nora theater when children were admitted for a can of fruit or vegetables. Several merchants also donated to the cause.

Ensign J. F. Kirkman of the Salvation Army has asked The NEWS to thank those who in any way contributed to the success of the occasion.

Among the contributions and admissions were a sack of pinto beans, a bushel of sweet potatoes, a sack of potatoes, a quantity of breakfast food and the following canned goods: 31 cans of tomatoes; 18 cans of saur kraut; 22 cans of hominy; 8 cans of corn; 22 cans of milk; 5 cans of peas; 31 cans of beans; 4 cans of soup; 2 cans of beef; 4 cans of green beans, and 24 cans of assorted vegetables.

CLOSING THE GAPS

AMARILLO, June 24. (AP)—Unpaved gaps in Panhandle highways are gradually being filled in to make connected paved roads for distances of 100 miles or more.

The most recent of these to be completed was the eight-mile gap in U. S. highway 66 in Potter county. The road is now paved to Shamrock, a distance of 96 miles, except for a 14-mile stretch along the line of Donley and Gray counties. This route by August 1 will be opened to the Oklahoma line.

Potter county's paving on state highway No. 5 from Amarillo creek, north of the city, to the Moor county line also will be opened for traffic by August.

LICENSES REQUIRED

VERNON, June 24. (AP)—The City Commission has passed an ordinance requiring licensing of whole distribution of fruits, vegetables, and produce of various kinds. The effect of the ordinance is to require the payment of a license fee of \$50 per year by each wholesale distributor.

Maori Want Jobs

AUCKLAND, N. Z. (AP)—Maori tribesmen have asked the government to give them jobs, arguing that before the white men introduced clothing and comforts of civilization in New Zealand work was not necessary, whereas now, without employment, the natives are starving.

NEW ROAD BOOSTED

WELLINGTON, June 24. (AP)—The Texas highway department has begun work of surveying and designating the route of the proposed state and federal highway through Collingsworth county. E. W. Mars of the state department has established his headquarters here as resident engineer and will be in charge of the survey through this county.

It will probably be one month before the route will be selected and approved by the state and federal highway departments.

The highway departments plan to spend approximately \$125,000 in the Wellington county project.

Guess Census in Harbin

HARBIN, Manchuria (AP)—In the absence of an accurate census, the police estimate this city's population at 170,000, with 40,000 "white Russians," 30,000 citizens of the soviet union and almost all the remainder Chinese.

'First Women' in Turkey

ISTANBUL (AP)—New "first women" items in the Turkey of Mustafa Kemal: at the Black Sea port of Trebizond a woman has been appointed customs inspector; in Istanbul the first woman truck driver has been licensed.

Australian Race Problem

SYDNEY (AP)—The dominion bureau of statistics says that although the aborigine population of Australia has been stationary for 10 years at 60,000 intermarriage has increased the number of half castes from 12,630 to 19,014.

Ward Mower

Still Running after 26 years use!

"In May, 1905, I purchased a lawn mower from you. I have used it every season cutting large lawns. I believe twenty-six years is a record for any lawn mower and it certainly speaks well for the quality of Ward's merchandise." That's a letter from a satisfied customer! No wonder Ward's has the biggest selling line of mowers in America—and prices this year are 20 percent less!

Lakeside DeLuxe

A Mower With Five Blades, for Less than You Pay for Ordinary Four Blade Mowers

\$6.95

Easy running. Smooth cutting. The revolving blades run on self adjusting ball bearings. So keen they cut tissue paper! Big wheels, 10 1/2 inches high. Notice, too, that the shrub bar is set close to the blades so you can cut right up close to hedges, trees and shrubs. Every Lakeside DeLuxe comes to you perfectly sharpened, oiled and adjusted, and ready to do the finest job of grass cutting you have ever seen.

LAUGHTER AND TEARS MINGLE IN OKLAHOMA OIL DILEMMA

BY WILLIAM VOIGT, Jr.
Associated Press Staff Writer

TELESA, Okla., June 24.—Oklahoma's oil industry wavered between laughter and tears over the latest executive action of Governor William H. Murray, who ordered out an extra detachment of state troops and declared in an executive message that he would assume personal charge of operation in the great Oklahoma City field.

The order affecting 972 wells owned by 72 large and small companies, would become operative July 1.

It was issued just prior to the explosive Oklahoma executive's departure for Chicago, where the democrats next week will nominate their choice for president, an honor to which Murray aspires.

The laughter was occasioned by the fact that Murray seeks in this move to take from the Oklahoma Corporation Commission the power to regulate oil production, a power that was upheld less than a month ago by the United States supreme court in the Champlin Refining company case. Operators were unanimous in their opinion the order could be voided in any court upon motion after filing of a test case.

The tears came from oil men faced with a new problem while struggling with the ramifications of the new federal taxes on petroleum products which left their accounting, refining and marketing departments in turmoil.

Murray's order would make him virtually "czar" of the capital field, as the power to control oil flow would be vested in a board whose decisions are subject to his approval as governor.

In addition, an assessment of 25 cents per hundred barrels produced would be levied on all the operators in the field to defray the expenses of the board and pay the wages of 30 national guardsmen under the governor's kinsman, Cicero I. Murray, to enforce the order.

Under the corporation commission the field has produced from 75,000 to 125,000 barrels of oil daily. Failure of any company to pay would result in its wells being shut in until payment was made.

Henry L. Phillips, Consolidated Oil company official, when told of the order, remarked:

"Assessment? Another tax on oil? This requires a lot of thinking."

R. S. Ellison, president of Standard Crude Oil Purchasing company, Indiana Standard unit said:

"It is fortunate we have no production in the Oklahoma City pool."

It became known today Governor Murray issued his order after a conference Sunday with a group of Oklahoma City oil men, and the question of obtaining order out of the looming crisis was checked up to the same operators.

Protraction troubles in Oklahoma City have been caused by the failure of operators to agree on a fair division of allowable production. In older, less productive sections of the field, owners want permission to produce an extra quantity, say 50 barrels from each well in addition to their allowed percentage. They want that to produce less would be economically wasteful and would tend to abandon wells capable of producing up to approximately 1,000 barrels of oil daily.

Operators of other wells, producing water which must be separated from the oil withdrawn, also wish special privileges.

Owners of wells in the more productive Wilcox sand area of the pool object on the grounds that granting privileges is discriminatory, and that the entire field's allowable production would be taken out under the grants before ever their wells were reached.

It is understood that Oklahoma City operators now will seek a modification of the governor's order which will leave the commission in charge of proration while possibly holding intact the governor's provision for additional state troops to try to stem the illegal running of oil by unscrupulous operators.

Blonde Baby Startles Zoo JOHANNESBURG, S. A. (P)—A blonde llama was born in the zoo here. Officials declare that the dark brown parents of the little animal looked surprised when they saw their offspring.

FRIEND TOLD HIM ABOUT ALL-BRAN

And It Brought Relief From Constipation

Those who are bothered with constipation should read Mr. Gelpke's unsolicited letter:

"I have suffered with constipation for years. A friend of mine told me to try ALL-BRAN. I have taken ALL-BRAN for the past six weeks as a breakfast food. It has regulated my bowels as clockwork. Now I would not be without a package at all times."—Mr. Leslie Gelpke, 273 Ridgewood Ave., Newark, N. J.

Common constipation—with its headaches, loss of appetite, sleeplessness—is due to lack of "bulk" to exercise the intestines. Vitamin B to help tone the intestinal tract. Both are present in Kellogg's ALL-BRAN, as well as iron for the blood.

The "bulk" in ALL-BRAN is much like that in lettuce. Within the body, it forms a soft mass, which gently clears the intestines of wastes. Being a natural corrective, ALL-BRAN is not habit-forming.

Try ALL-BRAN in place of pills and drugs—so often harmful. Just eat two tablespoons daily—serious cases with every meal. If your intestinal trouble is not relieved this way, see your doctor.

In the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

BY BYRON PRICE

The democratic hosts enroute to Chicago for their national convention in the same setting that so recently framed the troubled deliberations of their republican foes has this highly important circumstance to cheer them.

The major republican difficulty, if not the only real trouble spot in the convention which put the Hoover-Curtis ticket again before the sovereign American voters, was the prohibition plank.

Up to the hour of the vote on that 1932 republican plank, neither party had ever referred, even by inference, in its platform to prohibition since the 18th amendment went on the books some 15 years ago.

In reaching the decision on that plank, through loss of sleep and the exchange in public of harsher words than republicans usually use toward each other in convention, the republicans have pioneered a new political trail.

Democrats' Move

The democrats, of necessity, must start in their convention where the republicans left off. They must be weter or dryer, in their appeal at the polls in November, than their ancient party foes if the prohibition issue is to be as vital an element in the outcome of the elections as the republicans already have formally declared they believe it would be.

Which road the democrats will take, whether to the dry right or the wet left, no seasoned political observer has the slightest doubt.

That they will make the major appeal of their campaign to the wet city voters of the populated industrial areas, the republican convention itself knew when it determined upon the compromise course as to prohibition repeal outlined in the Chicago plank.

That plank was adopted over the vociferous protests of the eastern and middle western big city state groups in the republican convention, and the roaring and discounting intervention of Chicago gal-

TEST FOR POTASH

PADUCAH, June 24. (P)—A second test well for potash is expected to be drilled a few miles northeast of this city some time this summer or fall. A former test well, abandoned about two and one-half years ago, found strong indications of potash in solution with the water bailed from the well. Should the test to be undertaken develop the presence of sufficient potash to warrant extensive development, it is understood that evaporation of liquid potash as a commercial proposition will be undertaken.

ery guests in the republican debate only served to accentuate the open warnings of political disaster in the city areas, voiced by the republican repealist leaders on the platform during the debate.

How Far?

That the democrats will attempt to capitalize upon the situation pictured by those republican warnings is a foregone conclusion.

How far they will go toward a blunt declaration of repeal or what demotic language they may employ to convey impressions rather than to state a simple case remains to be seen. It may depend upon public reaction to the republican plank so far as that has crystallized by the time the democratic convention reaches the voting stage.

The party is, and always has been as a national party, largely a federation of loosely grouped local political entities. Its prophet was Thomas Jefferson, outstanding American champion of states' rights as against centralized national power, in the formative days of the republic.

Democratic majorities long have dominated, politically, virtually every great urban community of the nation, and the cry for prohibition repeal that rang, at times so harshly in the ears of leaders in the republican convention just ended, came very largely from the big city groups which will have a stronger voice and more powerful influence in the democratic convention.

Center Of Interest

Incidentally, convention interest in the republican platform, which contained nearly two score planks, was confined almost exclusively (outside of platform committee deliberations) to the last paragraph of the plank on prohibition, where the party attitude on repeal was set out.

It is safe to say that at the moment the 1154 delegates voted to adopt that platform, not more than 100 or 200 of them had ever read or even seen any other than the prohibition plank.

ECONOMY RELIEF GIVEN

ABILENE, June 24. (P)—Members of Abilene's police force are co-operating to furnish employment to two former members of the force recently let out as a measure of economy.

Each employed policeman has agreed to lay off four days monthly, taking a proportionate cut in salary, to provide the two former members with work. The recently adopted city budget for the year provided for the elimination of nine men from the department.

Find Old Crocodile Haven

CAIRO, Egypt (P)—An enclosure in which a sacred crocodile lived in ancient Egypt has been found by Italian scientists at the sanctuary in Tebtanis of Sekhmetinis, the crocodile god. It is the first discovery of its kind.

FRIDAY:

Senate

Acts on routine calendar bills. Continues consideration of economy bill.

Banking committee takes up nomination of Gardner Cowles, Sr., of Iowa, to be director of reconstruction corporation.

House

Sends Democratic relief bill to conference. Considers miscellaneous bills.

RECALLS 'OLDEST MAN' AS MERE BABE IN ARMS

BTTLES, Turkey (P)—Everybody knows Zaro Agha's claim to be 156 and the oldest man in the world, but now comes one who says he rocked Zaro Agha to sleep in the latter's babyhood.

Timur Agha, native of a nearby village, says he is 165 years old and that exactly 120 years ago, Zaro's family came to his village with their 5-year-old son. Old Timur thus concedes 125 years to his better known rival.

"Zaro was such a pretty baby," Timur says, "that I used to love to dandle him on my knee. He liked me a lot, too."

The village in which Timur lives is made up of 30 houses, populated entirely by his own descendants.

CITE HIGHWAY NEED

DALHART, June 24. (P)—Proponents of a new state highway across the western part of the Panhandle-Plains area, from Odessa to Dalhart, claim that the gasoline tax paid out by motorists over the new road, who now travel through the eastern part of New Mexico, would go a long way toward maintaining the highway.

The organization, the West Texas North and South Highway association, will send representatives to Austin to appear before the highway commission soon, seeking designation for the route. The matter already has been discussed before the commission with favor, officials of the group said.

The route from Adrain, west of Amarillo, to Dalhart, has not been decided, but Hartley and Dalhart county commissioners have been

asked to obtain right-of-way, if designation is given. From Adrain south, the highway would pass Friona, Muleshoe, Plains, Seagraves, Seminole, Andrews to Odessa, where it would intersect with the Bankhead highway.

BIG MELON PLANTING

POST, June 24. (P)—More than 1,500 acres of watermelons have been planted in the Cross Roads section of Garza county this year, Jasper James planted 265 acres on his farm.

MUST PLANT AGAIN

WELLINGTON, June 24. (P)—Approximately 90,000 acres of crops in Collingsworth county will have to be replanted because of recent rain, hail, and wind damage. This represents 90 per cent of the total crop acreage in this county.

International Sunday School Lesson

BY DR. J. E. NUNN

Quarterly Review

Topic: WHAT WE HAVE LEARNED FROM GENESIS. Scripture Lesson: Hebrew 11:8-10, 17, 21, 22 and 23.

10. For he looked for a city which hath foundations, whose builder and maker is God.

17. By faith Abraham, when he was tried, offered up Isaac: and he that had received the promises offered up his only begotten son.

21. By faith Jacob, when he was a dying, blessed both the sons of Joseph: and worshipped, leaning upon the top of his staff.

22. By faith Joseph, when he died, made mention of the departing of the children of Israel; and gave commandment concerning his bones.

23. By faith Moses, when he was born, was hid three months of his parents, because they saw he was a proper child; and they were not afraid of the king's commandment.

Golden Text: We know that all things work together for good to them that love God, to them who are called according to his purpose.—Romans 8:28.

Twelve Lessons and Golden Texts

April 3.—God in Creation. Golden text.—In the beginning God created the heaven and the earth. Genesis 1:1.

April 10.—How Sin Begins. Golden text.—Watch and pray, that ye enter not into temptation.—Matthew 26:41.

April 17.—The Call of Abram. Golden text.—Be Thou a Blessing.—Genesis 12:2.

April 24.—Abram's Generosity to Lot. Golden text.—In honor preferring one another.—Romans 12:10.

May 1.—Isaac and His Wives. Golden text.—A soft answer turneth away wrath; but a grievous word stirreth up anger.—Prov. 15:1.

May 8.—Esau Sells His Birthright (Temperance Lesson). Golden text.—Every man that striveth in the games exerciseth self-control in all things.—1 Cor. 9:25.

May 15.—Jacob at Bethel. Golden text.—I am with thee, and will keep thee whithersoever thou goest.—Gen. 28:15.

May 22.—Jacob and Esau reconciled. Golden text.—Be ye kind one to another, tenderhearted, forgiving each other, even as God also in Christ forgave you.—Eph. 4:32.

May 29.—Joseph the Dreamer. Golden text.—Take thought for things honorable in the sight of all men.—Romans 12:17.

June 5.—Joseph the Worker. Golden text.—Seest thou a man diligent in his business? he shall stand before kings.—Prov. 22:28.

June 12.—Judah the True Brother. Golden text.—Behold how good and how pleasant it is for brethren to dwell together in unity.—Ps. 133:1.

June 19.—Jacob the Aged Father. Golden text.—Honor thy father and thy mother.—Ex. 20:12.

Genesis

The word "Genesis" means beginning. Therefore the book of Genesis begins with the very beginning of everything. Creation: "In the beginning God created the heaven and the earth."—Gen. 1:1.

Characters in Genesis

Genesis is peculiarly rich in great and notable characters. The major characters are sixteen, namely, Adam, Eve, Cain, Abel, Satan, Abraham, Lot, Sarah, Isaac, Rebekah, Jacob, Rachel, Laban, Esau, Joseph, Judah.

Sayings in Genesis

Many sentences of Genesis have become proverbial, being referred to constantly in books, sermons, and Christian conversation. Here are a few simple sayings from the earlier chapters only.

1. "In the beginning—God."

2. "Let there be light."

3. "God blessed the seventh day, and hallowed it."

4. "It is not good that man should be alone; we will make him a helpmeet for himself."

5. "He shall bruise thy head, and thou shalt bruise his heel."

6. "Am I my brother's keeper?"

7. "Enoch walked with God; and he was not; for God took him."

8. "I do set my bow in the cloud."

9. "While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."

Chief Places Mentioned

Haran, Hebron, Beersheba, Bethel, Machpelah, Sodom, Egypt, Potiphar's home, Joseph in prison, Pharaoh's Palace, Goshen.

Creation

"In the beginning God created the heavens and the earth. Gen. 1:1. Thus opens the first book of the Bible. Being a book of religion, it begins, of course, with God the beginning of all true religion. The endless questions which arise in the world need not bother if we know that God is creator. How long did it take God to create the heavens and the earth? Since nobody knows we may well turn over the guessing in that direction to those who like to investigate in that realm. The things which we need to know is that God did it in his own good time. How did he do it? Nobody knows. He spoke and it came into being—we know that. God's Book says it. The processes by which he did it need not concern us in the religious study. God created the heavens and the earth. On that we rest our faith.

Abraham and Joseph

The story is brightened by the chapters revealing the faith of such men as Abraham and Joseph. They do not stand alone by any means, but are the great examples. Abraham is known as the Father of the Faithful and the Friend of God. In the midst of a dark pagan city he heard the voice of God and believed. We need not inquire into the method of God's speech; it is

enough that he was understood by the man whom he called. And the strength of Abraham's faith is a marvel of spiritual experience. So little was known of God in the world; the call was so exacting and challenging; the difficulties of obedience so tremendous. Yet Abraham went out not knowing where he was going.

Joseph's faith is one of the finest demonstrations in all literature of the power of faith in God to purify all our human relationships. It kept Joseph from hating his brothers in return for their hatred. It was the basis of his conduct and spirit during his slavery. It made him faithful to his owner. It strengthened him against temptation. It inspired him to maintain his honor even in a prison. It gave him spiritual insight. It led him to the highest honor in the gift of Pharaoh. Behind all his achievements was the sense of the presence and the purpose of God.

Providential Guidance

Follow the career of Jacob, and one sees that although there were many imperfections in his character, God did not cast him off, but kept leading and moulding him into an instrument of grace. How we ought to thank God for these providences that hedge us in, and quicken our spiritual vision, even at the cost of humiliation and the defeat of our own pride.

Turning to the lessons on Joseph we find an unsurpassed story not only of the workings of Providence, but of constant faith in the providential guidance of God. At the end of all his sufferings in slavery and prison through the hatred of his brothers, Joseph stood and said to them, "You meant it for evil, but God meant it for good." He did not see clearly as he suffered just how all his adversities would minister to the fulfillment of his dream, but he kept his faith in God. He trusted God and was not disappointed. This truth of God's providence is one of the master facts, and it is appropriate that our Golden Text points it out: "We know that to them that love God all things work together for good, even to them that are called according to his purpose." (Rom. 8:28).

Spirit of Brotherhood

If some chapters of Genesis present the ugliness and ruin of envy and jealousy, others present noble pictures of generosity and true affection. Recall Abraham's attitude toward Lot. He had every right, in age and position and divine word, to make first his own choice of the land and to impose his will upon Lot. But because of his love for the younger men he gave him full freedom of choice, accepting without murmuring the poorer pasture lands which the unbrotherliness of Lot left for him.

Look again at the spirit of true brotherhood dissolving difference and burying strife as Jacob and Esau meet after twenty years. And

Slaton Division Of Santa Fe To Get Much Grain

LUBBOCK, June 24. (AP)—The Slaton division of the Panhandle and Santa Fe, including the old Orient railroad between Altus, Okla., and Presidio, will handle an estimated wheat crop of 5,387 cars, compared to 4,777 cars last year. The expected loading is 68.4 per cent of the 1931 crop.

Total loadings for the season is expected to be 64.2 per cent of last year's crop when all previous records for wheat loading were broken.

The Slaton division leads the three in this section in percentage of the 1931 crop expected. It is also over 14 per cent greater than the average for the three divisions.

On the Plains division, which includes territory north of Canyon and Clovis, N. M., and into Oklahoma, a total of 9,059 cars is the expectation. This is 49.5 per cent of last year's loading of 18,279 cars.

The Pecos division will handle this year 920 cars or 45 per cent of the 2,161 cars handled last year. Total loadings is expected to be 15,366 cars compared to 28,317 cars for the 1931 season. This season is from June 1, 1931, to May 31, 1932.

On four of the seven South Plains areas of the Santa Fe there will be an increase this year over last in expected car loadings. These include the Lubbock to Sweetwater area, the Floydada branch, the Medicine branch and the Lamesa branch. On the other areas there will be less wheat, due to blowing out, dry planting season, hail, etc.

Between Farwell and Lubbock an estimate of 252 cars this year compared with 490 last year, is the prediction. The Canyon to Lubbock area, not including Lubbock, will need 3,225 cars instead of 5,380. Here is the greatest loss for the division. South of Lubbock to Sweetwater the estimate is 22 cars, compared to 10 last year. The four branch lines are: Floydada, 350 cars compared with 300; Crosbyton, 470 and 554 cars; Bledsoe, 46 and 11 cars and Lamesa, 47 and 19 cars.

These totals are 4,332 cars on the South Plains, compared with 6,774 or slightly over 64 per cent.

HIDE ON DISPLAY

ODESSA, June 24. (AP)—The hide of "Jumbo" the largest Hereford bull in the world, owned by John M. Gist of Odessa, has been placed in the First National bank of this city for display. Jumbo was slaughtered at Fort Worth after having reached a weight of over 3,700 pounds. The hide is stretched across the side walls of the building.

Who can forget the story of Joseph's reconciliation with his brothers? Such scenes as these call upon us to cherish brotherhood, freeing it as far as possible from all signs of misunderstanding and strife; that its blessings may be a constant enrichment of life.

NOTICE

THE STATE OF TEXAS, COUNTY OF GRAY: Estate of J. E. Gungley, Deceased. The undersigned, having been duly appointed executor of the Estate of J. E. Gungley, deceased, hereby notifies all persons indebted to said estate to come forward and make settlement, and those having claims against the estate to present them to her within the time prescribed by law, by addressing her at Box 23, Pampa, Texas, or by presenting them to her in person. Given this 10th day of June, A. D. 1932.

MRS. PEARL M. SMITH, Executor of the Estate of J. E. Gungley, Deceased. June 10, 17, 24 and July 1.

Candidate Finds Out Real Age at Advanced Years

HOBART, Okla., June 24. (AP)—Two names, two bank accounts; he joined the navy at the age of 11 and didn't find out his correct age until last year. This year, he's running for the office of county clerk of Kiowa county.

Court records at Waxahachie, where Maben G. Vaughn was born, estimated his birth date as June 14, 1905. But Vaughn just found that out last year when he visited the Texas city.

Thinking he was about 15 years old, he enlisted in the navy at the age of 11 and had to drink much water and eat many bananas to make the minimum weight of 110 pounds.

Orphaned at an early age, Vaughn was adopted by the Morris orphans' home at Fort Worth, Texas.

An amusing incident in Vaughn's life, being on his two names, was one following his marriage. He added Ruth McConnell, June 9, 1923. When his friends, who knew him only as Onscott (his guardian at Fort Worth was Yon Onscott), read in the papers that he had married under the name of Vaughn, he received a good kidding about being "beat out of his girl."

He didn't know he was using the name of Vaughn. He signed the name of Onscott when he enlisted in the navy and used the same name when he filed for county clerk.

HERE'S HOW BUSY BEE BLOCKS GERMAN RIVER

STETTIN, Germany (AP)—Bees stopped a fleet of ships from passing through the big railway draw-bridge here. An attendant found the lever clogged with a huge swarm which would not let him approach.

Half a dozen steamers were looting desperately; skippers cursed; longshoremen shouted advice—all without avail.

After an hour's delay, the bee swarm rose and so did the bridge.

Freeze Filipino Fruit

MANILA (AP)—A new process of freezing the mango which may better preserve this tropical "tree-melon" for shipment to temperate zones has been announced by the insular department of agriculture. Secretary Rafael Alunan says the system will preserve the taste and textures of the fruit.

COOLIDGE'S 'BEST SECRETARY' RETURNS FROM LAW PRACTICE TO GUIDE HOOVER CAMPAIGN

WASHINGTON, (AP)—Directing the republican forces in the big battle of 1932 will be the log-cabin born Hoover who for four years was President Coolidge's "shock-absorber."

As chairman of the republican national committee, Everett Sanders, of Indiana, comes back into the center of the political spotlight after four years of relative obscurity to fulfill prediction that he was headed for high place in his party.

Praise From Coolidge
When Sanders, as secretary to President Coolidge from 1925 to 1929, was doing his "shock-absorbing" work for the chief executive, observers said he was destined to be an important figure in politics for years to come.

So well did he perform his job as a buffer between the president, the politicians and the public, that Mr. Coolidge himself said "he was the best secretary a president ever had."

When the president "chose not to run again" and the Hoover regime came in, Sanders returned to his law practice. His selection now to head the party in the coming campaign is described as a strategic alliance of the Hoover and Coolidge political forces.

Born To Poverty
Selection of this former congressman, schooled in Indiana and national politics and familiar with presidential problems, is regarded by party politicians as a happy choice.

He was formerly a law partner of the late James W. Good of Iowa, and like Good he is credited with expert knowledge of political problems in the middle west.

Born to poverty, Sanders taught in a high school for \$5 a month and janitorial work at the school to earn an additional 10 cents a day.

Later he waited on table while studying law at the university of Indiana, was vice president of his law class and played on the basketball team.

He was a member of the house from 1917 to 1925, and rated one of the ablest parliamentarians in congress.

In 1924 he almost won the vice presidency. Powerful G. O. P. leaders at the Cleveland convention had selected him, the story goes, as a running mate for President Coolidge. But owing to an Indiana political quarrel he failed to get the support of the Hoosier delegation.

Ballinger Will Have Celebration

BALLINGER, June 24. (AP)—Opportunities may not seem so good, nor money spent so freely, but Judge J. W. Powell, first mayor of Ballinger under the present charter, expects attendance at the city's birthday anniversary celebration, June 29, to equal the 6,000 mark of the townsite sale 46 years ago.

The event will include an old settlers program in the morning, a negro baseball game, pistol shooting tournament, fire department drill stunt program, an old fiddlers' contest, a square and modern dance on the streets. The chamber of commerce is in charge of the affair.

The promoters of Ballinger envisioned the then terminus of the Gulf, Colorado and Santa Fe line from Brownwood as the eastern outlet for all West Texas, and destined to become the leading city of this section. Land buyers came from all parts of Texas and distant states.

Many speculators in city lots more than doubled the price. Judge Powell, who was Runnels county attorney at that time, related, while a large number bought with intentions of settling in West Texas.

Prior to the sale, June 29, 1886, the prospective city had the appearance of a mining town. Only one frame building stood among the tents scattered between Elm creek and the Colorado river, which had been surveyed for the townsite.

Under the present charter the city's boundaries ran from Elm creek to the Colorado river.

Chick Convention To Be At Course

College Station, June 22.—Annual convention of the Texas Baby Chick association will be held this year July 25 and 26 in conjunction with the twenty-third annual short course for farm and ranch people at the Texas A. and M. college, according to announcement just made by E. N. Holmgren, poultry husbandman of the Extension Service of the college. It will be the first time the organization has held its meeting at the college.

One entire dormitory will be set aside to house convention delegates and for the display of poultry exhibits.

This association represents a Texas industry having a capacity for turning out fourteen million baby chicks every three weeks. Fred Glass, Arlington, is president, and Mrs. T. J. Clark, Gainesville, is secretary-treasurer.

MAN BEST BAKER
CHILDRESS, June 24. (AP)—Clyde Owen, of Childress, won the cake baking contest of a cooking school here recently. Owen, the lone masculine entry, competed with 25 women and captured the culinary crown with an angel food cake. Mrs. Leona Busk Ibrig was the director of the series.

TRACK FOR HORSES
DALEHART, June 24. (AP)—Work started this week building a half mile straight-away race track for horses at Rita Blanca Lake here, preparing for the big July 4 and 5 celebration to be held on its shores. A graded road is being built from Dalehart to the lake, four miles southwest. An air circus is virtually assured.

Gold Rush Will Follow New Ruling

DEL RIO, June 24. (AP)—Mexican officials are of the opinion that prospectors soon will be combing the hills of Mexico in search of gold and silver, as a result of regulations requiring permits for surface mining in Mexico as announced by Mexican Consul Lisandro Pena.

Heretofore, permits were necessary for placer mining in Mexico. Every state but Chihuahua and Tlaxcala, has gold and silver mining. But the necessity of permits resulted in discouragement to small mine operators on government lands.

To go deeper than 10 meters, a permit is required and can be obtained from Federal agencies located in each state. No tax will be imposed on the miners, but a ratio of 5 per 1,000 will be charged on liquid metal, the regulations state.

Just what bearing the repealing of regulations will have on the rate of exchange, which is four pesos per \$1 American money at present rate of exchange, is not known since a market for their products is needed and not additional production, officials say.

**LEARNED BOXER GUARDS
PRESIDENT OF FRANCE**
PARIS (AP)—Paul Morard, the police official to whom has been entrusted responsibility for the safety of President Albert Lebrun, is a doctor of laws, accomplished linguist and boxer of note.

When boxing was in its infancy in France, Morard was light weight champion and later held the middleweight crown.

He was one of the founders of the French boxing federation and is still its vice president.

Denver Road Will Carry Much Wheat

CHILDRESS, June 22.—General John A. Hulien, vice president of the Fort Worth & Denver Railway company, states that the road will carry almost as much wheat to market this year as a year ago. The yield in the Panhandle is not as large as a year ago, although the crop along the line of the Denver is very good, according to reports.

The great increase in the shipments, however, is expected to come from the Wichita Valley line, which runs from Wichita Falls to Abilene, and from the Stamford branch from Stamford to Spur. The yield in that territory is the best in 10 years, according to General Hulien, while the acreage is larger than usual.

The yield in Childress county will not be heavy, but the production south of this county will be larger than in 1931. Hardeman and Wilbarger crops are up to the 1931 level and the yield is expected to run generally good from here to Fort Worth.

It is expected that additional freight train crews will be working within a few days, as threshing will be under way south of Childress soon.

CITY FOOD STORE

Why Take a Chance... Buy From Zahn & Nance

Be consistent with your savings... save every day with us. We do not run a cut rate store, hence we NEVER charge exorbitant prices... at the end of the week you will find that you have been treated fairly on every purchase!
