## First Senate Roll Call Since Prohibition Defeats Taxes on Beer

## TWO WITNESSES TELL OF ALBRITTON RING

LAMAR, Colo. — The Pampan, writing from this pretty little city of 4400, reports with pleasure that these people are deeply and enthusiastically interested in Oilfield Highway No. 41, of which F. P. Reid is president. And their fondness for Mr. Reid is matched only by the affection held for him in the Panhandle. Mr. Reid, Mr. and Mrs. George Briggs, and the Pampan are attending (Monday and Monday night) sessions of the divisional meeting of the highway.

**Officials Talk**  
About eighty delegates reported progress in bettering the highway and working for its state designation and hard-surfacing. They stood on their hind legs like the men they are and spoke pointedly—men of Kit Carson, Eads, Wiley, Lamar, Springfield, Boise City, Dalhart, and other points. County and state highway officials joined in the chorus, which was without discord. The state builds the through highways up here, and without much friction, we are told. The association went on record particularly urging state designation from Dalhart north, since Dallam has recently voted bonds for this sector. Moore county also has voted bonds and is clearing up her road problems. From Lamar south toward Springfield many teams are hauling gravel for the oiled gravel road. Pressure will continue to be brought on Texas, Oklahoma, and Colorado highway commissions to secure designation of the road. The obvious advantage of the short cut from Oklahoma City to Denver will be 'sold' to tourists by advertising, signs, and courtesy of the business men along the route.

**Texans Pioneer**  
These Coloradans look to Texans as pioneers in the good roads movement. They recall that Frank R. Jamieson and a group of Canadian men preached good roads in this section when gates impeded highway travel every few miles. The Texans had to talk at every session, and had opportunity to say much of Pampa

**OKLAHOMA:** Fair, somewhat warmer in northwest portion tonight; Thursday fair, warmer in north portion tonight; Thursday fair, warmer in east portion.

**—AND A SMILE**  
WALLACE, Idaho, (P)—The reputation of Earl Elston, so voraciously good, so there is no one willing to say he didn't tell the truth when he related he shot a four pound bass out of a pine tree with a shot gun. The explanation is that a hawk caught the fish in its beak and flew to the tree, so Elston cast aside his rod, took up his gun and blazed away scoring a direct hit on the fish as well as the hawk.

### WOMAN SAYS LIQUOR SOLD AT HER PLACE

MRS. BAXTER HAD NO FEAR OF RAIDS, SHE CLAIMS

### SERVED OFFICERS BEER

GLADEWATER MAN PAID FOR PROTECTION, HE ASSERTS

AMARILLO, May 18 (P)—Further details of alleged liquor operations in Gray county from 1926 to 1931 were revealed by two witnesses today as the government offered additional testimony to prove conspiracy charges against 16 defendants, half of whom are former officers.

Mrs. W. H. Baxter, now of Greensboro, N. C., testified that she and her former husband, Jay Donaldson, formerly sold liquor at the five-point filling station which they operated. She said she had no fear of being raided during her operations, her husband having assured her "the law has been taken care of."

Mrs. Baxter said she was in Roy Albritton's drug store in Pampa when Texas Rangers raided it, and had been there on numerous other occasions at which times she saw Gray county officers in the place. She testified that she had seen Albritton, alleged leader of the liquor interests now involved in the conspiracy charges on trial, Bert Long and other employees, sell whiskey there. She said the rangers overtook a 60-gallon plant in the room above the drug store which was concealed with the fountain by a rubber tube.

Former Deputies Lee Banks, O. T. Smith, and Herman Wachtendorf, Mrs. Baxter testified, formerly drank free spiked beer at the filling station. She said her husband once paid Smith money.

A. L. Martin of Gladewater testified that he formerly operated a billiard parlor at Pampa, where he sold liquor which he bought from Albritton. After being raided later at McLean he returned to Pampa, he said, and agreed to buy whiskey from Albritton at nearly double the price, although it was of an inferior grade. He said he and his partner paid \$10 a week for protection in addition to the higher prices.

### Seek Information on New Building

Word was received yesterday that plans and specifications of the proposed Pampa federal building will not be completed for two months. Postmaster D. E. Cecil and others believe the report to be erroneous and have written to Congressman Marvin Jones asking him to ascertain the necessary information.

The letter was received from L. C. Rosenbrams of the Fidelity and Deposit company of New York, who said the plans and specifications would be forwarded to Pampa upon their completion.

"I don't believe anyone knows definitely when the plans will be completed, but I am sure it will be soon," Postmaster Cecil said.

### Scout Council To Meet Tomorrow

The executive board of the Adobe Walls council, Boy Scouts of America, will meet tomorrow night in the First National bank building in Panhandle. President A. A. Hyde will preside. Lloyd M. O'Neal of Dallas, department regional executive of the ninth region, will attend the meeting.

Regular monthly business will be transacted. Plans for the summer camp will also be discussed. Sam Lanning of Panhandle is chairman of that committee. Finances and civic service work will also be on the program for discussion.

The council is growing fast. Several new troops have been registered during the past two months. The Adobe Walls council has had some of the best camps in the state.

Pampans are urged to attend the meeting as their support of many important matters will be needed.

### DAMAGE SUIT BEGINS

Arguments in W. W. Myers' compensation suit against the Maryland Casualty company for damages were delivered early this afternoon in 114th district court by G. H. Foster, defense attorney, and Otto Studer and Mr. Harney of Berger, attorneys for the plaintiff.

Myers alleged that he was injured about two years ago, and should be given damages.

### PIONEERS ARE INVITED HERE BY STROOPE

Former Residents Expected To Return To This Area For Frontier Days.

Invitations to attend the Frontier Days celebration here, May 26, 27 and 28, were sent this week to L. E. (Dogie) Lynch, Stratford, George (Pigeon) Ely, Dalhart, and Jim B. (Lenthy) Sutton, by their old range partner, J. L. Stroope.

Mr. Ely is president of a Dalhart bank. Mr. Sutton lives on a ranch in Montana but spends the winter and spring in Texas. He has not yet returned to Montana, and expects to attend the Frontier Days event before he goes north again.

Since the days they spent on Panhandle ranges in the 'eighties, Mr. Lynch, Mr. Ely, Mr. Sutton and Mr. Stroope have kept in fairly close touch with each other. Often they have gotten together and talked over old times. Mr. Sutton was here during the last winter. When they first came to the Panhandle they worked on the LX or neighboring ranches. All four are well-known to pioneers over the Panhandle.

Another old timer who came back to Pampa recently is Ace Harmon who is visiting John Henry. Mr. Harmon formerly owned and operated a store in Pampa. He sold out several years ago and moved to a North Texas county, but has visited Mr. Henry and other old friends at various times. An amusing story told about Mr. Harmon is that he used to shoot out the lights when he went to bed, just to make certain that his aim was not getting bad.

### Y. M. C. A. Worker Is Advising Boys

A vocational guidance school conducted Monday and Tuesday by Grover C. Good, in charge of boys' work in the state for the Young Men's Christian association, was concluded at the high school last night. Mr. Good was assisted by Prof. Therman Harris, high school mathematics teacher.

The plan of the instruction included conversations between high school students and local business and professional men. Boys interested in various occupations were given an opportunity of talking with men engaged in them. About 50 boys consulted business and professional men last night at the school. The conferences were confidential.

Local men who talked with the boys were M. D. Oden, Dr. A. B. Goldston, the Rev. C. A. Long, Z. H. Mundy, W. F. Cretney, Roger McConnell, J. L. Lester, J. P. Wehring, Sherman White, county attorney, Joe Lutz, John I. Bradley, H. T. Wholegumth, W. Mullinax, H. L. Jordan.

ELEVEN DEMOCRATS IN WET LIST WITH 12 REPUBLICANS

### SHEPPARD ON DEFENSE

HOUSE WILL VOTE ON TAX MEASURE ON BEER SOON

WASHINGTON, May 18 (P)—The senate today refused to legalize beer.

The first senate roll call for beer since prohibition brought overwhelming defeat.

The main vote was on an amendment by Senator Tydings (D., Md.) to the revenue bill to legalize 2.75 beer and tax it 24 cents a gallon to help finance a \$1,500,000,000 public construction program.

Just previously the senate had turned down—83 to 23—a proposal by Bingham (R., Conn.) to alter the Tydings amendment to make it allow four per cent alcoholic content.

Eleven democrats voted with 12 republicans for the Bingham four per cent amendment.

The republicans were: Barbour, Bingham, Blaine, Davis, Glenn, Kean, LaFollette, Metcalf, Moses, Oddie, Reed and Walcott.

Democrats were: Broussard, Buloy, Coolidge, Copeland, Hawes, Lewis, Long, Tydings, Wagner, Walsh of Massachusetts and Wheeler.

The vote rejecting 2.75 per cent beer was 61 to 24.

Over in the house a vote will be had Monday whether the O'Connor-Hull bill to levy a tax of three cents a pint on beer of 2.75 per cent alcoholic content by volume will be taken up for consideration.

Debate on the main issue was comparatively brief with Sheppard (D., Tex.) alone upholding the prohibition cause against the determined categorical assault of the beer advocates.

H. H. Durston, general executive to the president, and A. P. Briggs, engineer in charge of construction, were expected to arrive here this afternoon. Mr. Briggs will be in charge of station construction along the line. Work on the Pampa building started this morning.

Plans for a celebration to be held in Pampa will be started immediately. George Briggs said this morning. He will confer with Mr. Durston on the date and time. Other cities along the line are looking forward to visiting Pampa, according to letters being received by Mr. Briggs.

back yards. Shade trees will be another important part of the judging, and full credit will be given young trees that are growthy and well kept.

"The alley will not be overlooked in the judging and will be one of the important points in deciding the winner in the various inspections. The high scoring alley will be free from weeds, and clean of all kinds of rubbish.

If possible, Mr. Thomas suggests that the entrants be present while their yards are being judged.

More than \$100 worth of prizes are being offered by local nurserymen and merchants to be given to the winners of the Lions club Yard and Garden contest, and more prizes are expected before the end of the contest, according to Ralph Thomas, chairman of the committee.

### NEWS FLASHES AT PRESS TIME

PETROLIA, May 18 (P)—The Continental State bank of Petrolia was robbed of approximately \$1,000 shortly after noon today by bandits who are believed to have kidnaped Miss Mary Frazier, cashier, and taken her with them. They made their escape from the bank unnoticed and the robbery was not discovered until a customer of the bank found no one there and notified H. W. Perkins, president, who hurried to the bank to find Miss Frazier gone and the money missing.

Mrs. Ihrig of Daily NEWS Cooking School Stresses Balanced Menus.

"What shall we have for dinner?" A few of the answers to this all important question which is asked daily in every household in the nation will be supplied by Mrs. Leona Rusk Ihrig at the third session of the Pampa NEWS' annual cooking school at the city auditorium Thursday afternoon.

Balanced menus, approved by dietitians, consisting of tasty and healthful combinations, will be presented. Mrs. Ihrig also will introduce several new methods of preparing well known foods so as to avoid the monotonous repetition of the same dishes.

An intensely interested audience numbering more than 300 listened to Mrs. Ihrig this afternoon as she discussed the fine points of cake baking. While baking her Great West and K. C. everyday cake, the demonstrator indicated the new methods of combining and mixing the ingredients.

Countless questions were proposed by the members of the audience. Mrs. Ihrig gladly abandoned her scheduled program to settle every problem in the art of making a good cake.

No little amount of interest in cake baking has been aroused by the cake and pie baking contest sponsored by the Parent-Teacher associations. More than 75 entries already have been promised, and as many more are expected to register cakes at the school Friday morning.

Members of the Parent-Teacher associations will receive the cakes and pies at the schools from 9 until 11 o'clock Friday morning. Winners of the prizes offered by the Great West Mills will be announced at the conclusion of Mrs. Ihrig's final discussion. All the entries will then be sold. Proceeds of the sale will be distributed among the Parent-Teacher associations.

More than 75 women received attendance prizes at the school this afternoon. Through the generosity of Pampa merchants and national advertisers the prize list this year far surpasses all previous years.

In her lecture today on "What We Eat and Why," Mrs. Ihrig discussed the component elements of food, their value to the body and the importance of including those elements in the daily diet.

SHIP BUILDER'S CAR IS EXAMINED CLOSELY FOR CLUES

### CONDON'S EFFORTS FAIL

MORE DETAILS BARED IN EXTORTION PLOTS

HOPEWELL, N. J., May 18. (P)—Police disclosed today that a woman was helping them determine the true and complete facts concerning the activities of John Hughes Curtis, fake negotiator with the kidnapers of the murdered Lindbergh baby.

The mid-afternoon statement of Col. H. Norman Schwarzkopf, superintendent of state police, follows:

"Miss Ruth Gay came voluntarily to these headquarters with investigators from this point last night and has been actively co-operating with the police in an effort to determine the actual facts of Mr. Curtis' activities and to vindicate herself so far as any inferred implications of her connection with this deception might exist.

"Miss Gay is being questioned and a statement is being taken which will be investigated and checked.

"There has been nothing developed up to this time which would indicate that Miss Gay was knowingly involved with any intention of deceiving either Col. Lindbergh or the authorities.

HOPEWELL, N. J., May 18. (P)—John Hughes Curtis, fake Lindbergh baby negotiator, is being watched closely by the police for fear his "remorse" may tempt him to commit suicide, a high official revealed today.

Curtis' every movement is being watched, it was stated.

At the same time, it was revealed that Norfolk, Va., police had been checking the movements of the shipbuilder on the night of March 1, the date of the Lindbergh kidnaping. Mrs. Curtis, at Norfolk, said her husband was at home that night.

Mud scrapings from a green sedan owned by the bankrupt shipbuilder were taken to determine whether any Jersey mud clung to the car.

All Work Together  
Gov. A. Harry Moore of New Jersey announced today that "all police work, state and federal," is now coordinated and all forces are swinging along with the same purpose in view.

Gov. Moore said it was probable Curtis would be arraigned today after a complaint had been sworn out against him by the police. A state charge, if made, the governor said, probably be that of making statements "which in effect means hampering the ends of justice."

There were reports here today, also, that Curtis would be charged by the federal government with hampering the functions of the government, on the strength of his story.

Colorado needs more road signs.

Lamar claims to be "the city where the sun plays a return engagement every day in the year." Expecting the Lamar newspaper men to return the favor next December, we quote the following from the speech of Miss Marjorie Lamb, "My Home Town Speaker" of Lamar:

"Lamar, the metropolis of the Great Plains that surround her furnishes unexcelled markets for all the products in her trade territory, having the second largest flour mill in the state, which has purchased from the farmers this year more than 2 1/2 million bushels of wheat at a price from 5 to 10 cents above any competitor, and today this mill has more than 300,000 bushels of wheat piled on the ground in Lamar not having available storage space for it.

"In Pekin, China, in Madrid, Spain, in Tokyo, Japan, in fact in every part of the civilized world Lamar is known as the center in the alfalfa meal milling industry, being the home of the two largest alfalfa milling companies in the world.

"Lamar is one of the largest markets in the state for both live and dressed poultry, shipping more than 100 cars every year to all principal cities of America. We have a large cheese factory and a creamery that furnish just a little better market for dairy products than any other city in Colorado.

"The magnitude of our livestock and products industry and the scope of our market is forcefully illustrated by the Santa Fe railway records which show that Lamar pays more freight than any other Colorado station on their system."

# DETAILS OF BAKING CONTEST FOR SCHOOL ARE GIVEN

## AWARDS TO BE MADE FRIDAY AFTER CLASS

### ARTICLES TO BE SOLD; PARENTS, TEACHERS COOPERATE

Full details of the cake and pie baking contest to be held at the Pampa NEWS cooking school Friday, were announced at the school this afternoon.

Anyone, except a commercial baker, is eligible to win one of the prizes offered by the Great West Mills. The prizes total \$20 in cash and 168 pounds of Great West flour.

There is but one restriction placed upon the entries. It must be made with Great West flour. One cook may enter as many cakes as she wishes. Any sort of cakes or pie may be submitted.

The cakes will be judged by three competent judges, upon the following basis: Appearance, 5 points;

### PRIZES ANNOUNCED

texture, 10 points; flavor, 10 points; quality of icing, 5 points.

The pies will be judged, crust, 10 points; quality of filler, 10 points; and appearance, 5 points.

Announcement of the winners will be made immediately following the conclusion of Mrs. Leona Rusk Ihrig's final discussion.

The prize winning cakes and pies will be sold at auction. All other entries will be sold.

Proceeds derived from the sale of the entries will be distributed among the Parent-Teacher associations of Pampa.

"The NEWS is glad to have the opportunity of aiding them in their efforts. It is through their efforts, and at their expense that many of the children in our public schools receive their education. The parents of these littlefortunates lack money for food and clothing necessary to the health and comfort of the children. The Parent Teacher associations supply this need. We hope that everyone will help by making and buying a cake for this contest."

"More than 900 school children of Pampa have been fed and clothed by the Parent-Teacher associations during the last year," Mrs. J. B. Townsend, president of the P-T-A council said today. "We are not greatly in debt at the present time, and we hope to be able to have some money in the treasury for the demands upon the associations next fall. If we can have 100 or 150 entries for the contest, we can pay our debt and we will have money for every association."

"The contest offers a double opportunity of assisting the excellent work of the P-T-A, and of winning one of the valuable prizes offered in the competition. I am sure Pampa cooks are too wise to let such an opportunity pass unnoticed," said Mrs. Ihrig today.

### More Names Are Placed on Quilt

The Madonna Sunday school class, Central Baptist church, added 60 names to a quilt it is making when a meeting was held yesterday afternoon in the home of Mrs. Cecil Lunsford. Refreshments were served to Mesdames C. F. Naylor, Bert Moore, Lewis, Tarpley, C. W. Lyle, E. V. Davis, P. J. James, Shelton, Bert Webb, Black, and the hostess.

### Recital Will Be Held at Schneider

The junior class of expression pupils taught by Mrs. Helen Turner will appear in recital tomorrow evening at 8:15 o'clock at the Schneider hotel. The public is invited.

Mr. and Mrs. G. D. Brown of Corpus Christi are visiting their nephew and niece, Mr. and Mrs. Henry Martin, 315 N. Ballard, this week.

## WOMEN, SET FOR CONVENTIONS, TO PUT STAMP ON PLATFORMS

WASHINGTON—The women are preparing to have their say at the republican and democratic national conventions.

While women will constitute a small percentage of the two thousand and three hundred voting delegates, they are expected to play an important part in convention proceedings, particularly in the adoption of party platforms.

The question of a plank on prohibition is considered certain to precipitate hot contests in both conventions with the women sharply divided on the liquor issue and in the thick of that battle to the finish.

Feminine dry leaders such as Mrs. Henry W. Peabody, head of the Women's National Committee for Law Enforcement already have served notice they will not stand for either a wet plank or a wet presidential candidate.

Women opposed to the eighteenth amendment, notably Mrs. Charles H. Sabin of New York, head of the Women's Association for Prohibition Reform, plan to carry their fight to the conventions in Kansas City, and apparently will at Chicago.

On the basis of representation at previous conventions, it is expected that from 5 to 10 per cent of the voting delegates at the June democratic convention's voting strength and 6 per cent of the republican vote.

Few men had more important posts at the last republican convention than Mabel Walker Willebrandt, who was chairman of the powerful committee on credentials. The honor of seconding the nomination of Herbert Hoover was accorded Mrs. Christine B. South of Kentucky.

At the democratic convention, Mrs. Genevieve C. Thomson of Louisiana helped conduct a fight for the seating of her state delegation and Representative Mary T. Norton of New Jersey and Jean S. Whittemore of Porto Rico served on the credentials committee.

Browning; vice-president, Mrs. W. V. McArthur; secretary, Mrs. J. F. Merritt; treasurer, Mrs. A. C. Jones; historian, Mrs. C. R. Nelson.

Honoring her daughter, Lillian Jamison Isley, Mrs. T. W. Jamison entertained with a breakfast yesterday morning in her home here. Mrs. Isley is moving from Pampa this week-end.

The breakfast was served at a lovely table, centered with a bowl of pink sweet peas and lighted with green candles. Bridges games and picture-taking were enjoyed later in the morning.

Each guest surprised the honoree with a gift, an accessory for her kitchen. Those present were Mesdames C. B. Akers, Fred Rusk, Ruey Morgan, George Limerick, Hal Grady, Frank Keim, and W. R. Pearson.

## Good Recipes Offered Today By Mrs. Ihrig

The Pampa Daily NEWS here prints the recipes for the dishes prepared by Mrs. Leona Rusk Ihrig at the cooking school Wednesday afternoon.

"I want to impress upon Pampa cooks the importance of using quality ingredients. There is no substitute for quality. One can not expect to use the following recipes with complete success if substitutes of inferior quality are used," Mrs. Ihrig said following the discussion Wednesday.

"I can promise every cook who follows the recipes, complete success if she will use Great West flour, K. C. Baking Powder, Morton's salt, Mrs. Tucker's Shortening, and McIlhenny's Tabasco, and quality fruits, vegetables and meats obtainable at C and C System. Of course perfect cooking insured by a good refrigerator is most important, and for cold foods, no refrigerator freezes with the evenness of a TruKold. Folger's coffee needs no recommendation.

### FRANKFURTERS CREOLE

Saute in 2 tsp. Mrs. Tucker's; 1-4 cup celery; 1-4 cup onion; 1 tsp. McIlhenny's Tabasco; 1 tsp. mustard; 1 tsp. paprika; 1 tsp. lemon juice.

When vegetables are slightly sauted, add one can of tomatoes, let cook slowly, and pour over frankfurters, 1-2 pound, sliced and brown slightly, in a frying pan. Reduce the heat and cook slowly for an hour. Serve in a Noodle Ring.

### NOODLE RING

Boil one package of noodles in two quarts of rapidly boiling water until tender; drain and blanch.

## Mrs. Ihrig Is Enjoying Her Stay In Pampa

(Editor's Note: The life of the director of a cooking school belongs to her audience. The following is a page taken from the diary of Mrs. Leona Rusk Ihrig, who is conducting the Pampa NEWS' annual cooking school at the city auditorium this week.)

"The Pampa NEWS school opened Tuesday afternoon with all the bustle and bustle which always attends the opening day. An excellent audience was present for the first session, large in number and apparently appreciative and very interested. I enjoy working with such an audience. It makes one feel so very much at home.

"I am more than delighted with the equipment I have at Pampa. I was quite surprised to find so many changes here since my last visit. The stores are large, and have a personal friendliness not found in larger cities.

"The White Star Range is a 'honey.' It bakes to perfection, and is easy to regulate. An excellent audience was present for the first session, large in number and apparently appreciative and very interested. I enjoy working with such an audience. It makes one feel so very much at home.

"My Malone's cabinets provide ample room for the dishes and utensils used during the day. General Electric washing machine and vacuum cleaner turn labor into fun.

"And I have such good things to cook with. Great West flour, K. C. baking powder, Morton's salt, Mrs. Tucker's, Folgers and Tabasco, and excellent fruit and vegetables from C. and C. System. The Gray County Creameries supply us with lots of rich milk, to provide for my daily quart. Then there are the fine bakery products from Dille's—and I don't know how I'd get along without that occasional bottle of Coca Cola. It's so refreshing.

"I like Pampa and its friendly people so very much. I shall be sorry to leave here next Saturday. The residents of West Texas have a personal friendliness unequalled in any other part of the country.

"I almost forgot—I have a new dress, a lavender one. I like the style and the way it fits, and believe it or not—it cost just \$1.95. I feel quite dressed up wearing that frock and my BROWNbilt shoes, especially knowing that my hair looks right. That Mitchell's beauty parlor can't be beat! And speaking of beauty, I never expect to be without DuBarry cosmetics. They make one attractive at such a little cost. Such neatness keeps one in harmony with her surroundings, and when she is presented those lovely flowers from

### Hints on Design of Rock Gardens Given by Expert

**NORMAN, May 18 (SP)**—Rock gardens and lily pools offer not only a means of beautifying some corner of the lawn but also give the person who likes to "putter around" the house and grounds an outlet for his creative desires, says James H. Craven, landscape gardener at the University of Oklahoma.

Irregularity and fidelity to nature are two main principles in the construction of rock gardens, in the opinion of the university landscape artist, and for the best models he suggests study of natural streams and ponds.

**Construction Not Difficult**

The rock garden or rocky, with its open hospitality to many different little plants in a small area, can be made an attractive place without a pool, but the amateur gardener will get more satisfaction from building a pool, since its construction is not difficult, Craven says.

The rock garden, for artistic reasons, should be located in some corner of the lawn in a shaded spot. An irregularly shaped area should be marked off for the pool. Before digging out the basin, a narrow ditch three to four inches wide and two and one-half to three feet deep should be dug out and filled with concrete for the walls. Some sort of reinforcement should be used in the cement.

After the walls of the basin have been allowed to harden, the dirt should be removed from the interior and the bottom cemented. A drain pipe with a coarse screen should be placed in the bottom of the pool.

Three sources for water may be obtained from three sources. One plan is to let the water flow in from a pipe in the center of the pool around which rocks have been placed, letting the water trickle down over these rocks. A variation of this latter method is to arrange a rock pile at the back of the pool down which the water can run. This plan is preferable if the pool is a small one.

### Designation For Oilfield Highway Asked by Citizens

A large delegation of Sayre, Okla., citizens today went before the Oklahoma highway commission to ask designation of Oilfield Highway No. 41 at two points.

The designation desired are from Sayre northwest to the Texas line and from the state line north to Boise City. A petition of 1,669 names was given the commission, according to President F. P. Reid of the association, who was telephoned about the project last night.

Similar designations are asked in Texas and Colorado. The divisional meeting in Lamar, Colo., Monday sent requests to three states. Pampa delegates to this session were Mr. Reid, George Briggs, and Olin E. Hinkle. Mrs. Briggs accompanied them.

### Mitchell Faces Burglary Trial

Three indictments charging Joe Mitchell with daylight burglary were returned by the 31st district court grand jury yesterday. The defendant's trial was set for Friday morning by Judge W. R. Ewing. Complaining witnesses were Stanley Kretzinger who lives 3 miles northwest of Pampa, Roy Ritter and William O. Speigle were also charged with daylight burglary. Officers believe that in taking the merchandise into custody they found the solution of many burglaries made in the last few months in Carson, Gray, and Armstrong counties.

Mitchell's arrest followed a trip of Sheriff McCormick to Pampa Monday. He brought with him the license number of a motor vehicle which a Carson county resident had followed most of Monday and which was seen at the Clyde Lawson home Monday. Acting upon information received at the tax collector's office, Sheriff McCormick and Blansett obtained a warrant for Mitchell's arrest. He was taken into custody of the officers about 10 o'clock Monday night while driving his automobile near his home.

About 15 homes in Carson and Gray counties have been robbed in the last few months. The merchandise seized at the Mitchell home required two trucks to transport it to Pampa.

Mrs. Barton L. Collis of White Deer made a shopping trip to Pampa yesterday.

Mrs. A. W. Gill of Miami drove to the city yesterday.

Mrs. J. E. George of Miami was a Pampa shopper on Tuesday.

### MANY LONG SENTENCES ARE AFFIRMED BY APPEALS COURT

**AUSTIN, May 18 (AP)**—The court of criminal appeals today set aside its recent reversal of a death sentence given John L. Green, negro youth, for the slaying of Frank Kempf, Medina county dairyman, and affirmed the verdict.

Life and 99-year sentences imposed on Leo White and Bill Nelson, (alias William R. Carl) respectively, by a Harrison county jury for robbery with firearms were affirmed. It was alleged that White and Nelson robbed Paul Kitchen of \$20 and his shoes on September 26 last.

Affirmances also were given murder convictions against W. R. Jennings, Reeves county, and Hugh Graham, Coryell county. Jennings had been assessed 30 years imprisonment for slaying W. M. Laughlin in Winkler county on October 25 last. Graham was given 25 years for slaying W. G. Collier in an argument over a gate, the two having lived on neighboring farms.

### Youths Caught in Foot Races Face Forgery Charges

Two foot races that took place late yesterday simultaneously in different sections of the city resulted in the arrest of two youths who were later charged with forgery. County and city officers, store employees and citizens took part in the races.

The youths charged were Woodrow Bennett and Allen Beighle. Both came to Pampa a short time ago from Oklahoma.

Bennett was arrested by Sheriff Lon L. Blansett and Deputy Floyd Archer in the alley back of the La-Nora theater after an exciting race from the Army store where he is charged with attempting to pass a forged check. He is also charged with passing a forged check at Levine's store nearby.

Deputy Archer caught the youth when an employee of the Help-Self store, hearing a shot the deputy fired, rushed into the alley and tripped Bennett after the latter had struck at him.

Beighle was arrested near the high school after he had been chased by city officers from the Kees & Thomas store where it is charged he attempted to pass a forged check.

Checks carried by both youths were made with a check protector on the Osage Tool company and wear salary checks. They were signed by M. A. Leith. One of the checks was for \$87.50 and two were for \$54.50 each. All were made payable to "Jack Smith."

W. B. Baxter, justice of the peace, set Beighle's bond at \$1,500. Both charges will be investigated by the grand jury this afternoon or tomorrow.

John R. Fullingim, Amarillo attorney, attended court and visited here yesterday and today.

**Dilley Bakery Products Given Expert's Praise**

Dilley bakery products are being used in The NEWS cooking school, Mrs. Leona Rusk Ihrig said, because they were almost free from the faults of "bakery cooking."

Pampans will remember the fruit cakes A. N. Dilley, owner, have sold to local citizens at Christmas time during the last few years. These cakes tasted as well-made fruit cake should taste.

"I have never seen any bread better than Dilley's," said Mrs. Ihrig. "It's the kind of bread you can eat by itself."

All the bread being used at the cooking school came from Dilley's. Mr. Dilley also provided Mrs. Ihrig with pies cakes and other pastries baked in his kitchen.

Dilley's bakery is a Pampa institution and Pampa folks have joyfully supported it. Out-of-town bakery products are distributed here but not as much as formerly, and the quantity is decreasing all the time.

**Credit Given By Malone's On Gas Ranges**

A \$20 credit will be given on any White Star gas range stove in Malone's furniture store at The NEWS cooking school being held at the city hall auditorium at 2:30 o'clock according to Guy E. McTaggart, manager of Malone's. The credit will be transferable if the person who wins it does not want it.

Mrs. Leona Rusk Ihrig will do all her cooking upon a White Star range. She selected it because it is the only stove on the market that has even-heat ovens and burners. Malone's have the stove in all sizes, colors and styles. The stove is made of heaviest steel has no exposed nuts or bolts, 100 per cent proof enamel, inside and out. The burners are the only parts about the stove that are built of cast iron. The grids are unbreakable.

**Emily's Flowers Brighten School At City Hall**

The flowers at The NEWS cooking school being conducted in the city auditorium by Mrs. Leona Rusk Ihrig came from Emily's Flower shop. Go to Amarillo, Wichita Falls, Lubbock or any other city in the Panhandle or West Texas and one can't find a more complete flower shop than Emily's. If Mrs. Tiedemann does not have the kind of flowers you want, she can get them quickly.

On Mother's day there was not a rose in Pampa yards on account of the late season, but Mrs. Tiedemann had enough to supply the hundreds who came for red and white ones. She keeps in stock all kinds of cut flowers and pot plants. She gets regular shipments of flowers from Denver and can instruct florists in cities throughout the nation to send flowers to residents.

**Gerhard's Milk Products Used at Big School**

Gerhard's grade A pasteurized milk cream and ice cream are being used by Mrs. Leona Rusk Ihrig in The NEWS cooking school at the city hall.

Mr. and Mrs. Henry Gerhard have one of the most up-to-date plants in the state, and Pampa can be proud of it. They have spared no expense in erecting a huge building to house it. Equipment is modern and expensive. And cleanliness—well, cleanliness is in the air. The Gray County Creamery has first class pasteurizing equipment, and employs a total about 40 persons. Reasons why Gray County Creamery's pasteurized milk, cream and ice cream are the best that can be made are the first-class equipment, expert employees, methods used in producing, and the class A quality of the raw materials used.

**Irritation Is One Cause of Cancer**

Competent authorities at present hold the opinion that cancers are caused, in a practical sense, by various forms of chronic irritations, to which the human body is exposed from the cradle to the grave.

Striking examples of this principle are numerous. A cancer of the tongue or inside of the cheek, for instance, is often found directly opposite a jagged tooth. Cancer of the lip produced by the repeated irritations of a hot pipe stem is another common example. Cancer of the female genital organs is preceded in the majority of cases by some form of chronic inflammation. Tar pitch, petroleum, soot, arsenic, dye-stuffs, and a long list of similar irritants, are responsible for the production of skin cancers.

One of the experimental side, cancer was successfully produced in the laboratory in 1914, by two Japanese scientists who obtained this result by repeatedly applying coal tar to the skin of rabbits' ears. Many investigators have since confirmed their findings.

Exactly how such irritation, or inflammation, operates to produce cancer or to favor its development is the great question in cancer research today. For the average person, however, it is sufficient at present to know that some form of chronic irritation or chronic inflammation appears to play a most important part in the causation of all cancers.

While it has not yet been proved that a person can directly inherit cancer, it does occur more frequently in some families than in others; and there is reason, therefore, to believe that members of such families are more likely to have this disease. A few forms of cancer show a distinct hereditary tendency, but others show an apparent hereditary trace whatever.

The relation of heredity to cancers, however, is not sufficiently understood at present to warrant any statement which may be of real practical value.

**"Famous Ferguson Case" Comes Here as La Nora Feature**

A genuinely realistic newspaper picture ever be made? They've been asking that for years, and now from Hollywood comes word that the trick has been turned at last.

The picture that is said to meet all the requirements is "The Famous Ferguson Case," which was finished not long ago at the First National studios and which will open today at the La Nora theater. Joan Blondell is the star of "The Famous Ferguson Case," which is said to present a highly vivid panorama of a crime of nationwide notoriety—the sort of crime that is blazoned in the front-page headlines of even the most conservative newspapers. As for the big-town tabloids, they simply go wild about it!

Besides Miss Blondell, the cast of "The Famous Ferguson Case" boasts a long list of well known players including Tom Brown, the nineteen-year-old leading man who has created such a sensation in Hollywood lately, Adrienne Dore, Walter Miller, Leslie Fenton, Vivienne Osborne, J. Carroll Nash, Furnell Pratt, Russell Hopton, Kenneth Thomson, Grant Mitchell, Russell Simpson, Leon Wayoff, Miriam Seegar, Spencer Charters, Willard Robertson, George Meeker, Mike Donlin and others. The production was directed by Lloyd Bacon.

But the most remarkable fact about "The Famous Ferguson Case," according to those who have seen it, is the lifelike picture it affords of the rush of reporters and photographers that descends upon the scene of a really notorious murder, the manner in which they work, the strange and varied types of men and women that move in the orbits of modern journalism.

As may well be imagined, "The Famous Ferguson Case" is a thrill-

**Mrs. Ihrig Likes Ford V-8—It's Easily Handled**

Mrs. Leona Rusk Ihrig is a privileged woman while in Pampa conducting The NEWS cooking school—she rides around in a V-8 Ford from the Miller-Lybrand company. At first, Mrs. Ihrig was frightened when the machine made "U" turns at 50 miles an hour, but she soon learned that this was not at all dangerous because the wheels leaned enough in making the turn to prevent the car from overturning.

Mrs. Ihrig declared that she is saving up money to buy her one of the new V-8 Fords. "Ten years ago I wouldn't have believed it possible for a Ford to carry a passenger as easily as the V-8," she said. "Why it rides like a Packard, and old Lizzie just doesn't rattle any more."

The Miller-Lybrand car will be at Mrs. Ihrig's disposal while she is in Pampa. The company will have plenty of the new cars on hand by June 1. Many local sales have already been made.

ing story, all the more so because it deals with the very stuff of life in the raw. The script was written by Courtenay Terrett and Granville Moore; and every good newspaper man who lives within a radius of many hundred miles of New York knows who Courtney Terrett is. His fellow-journalists call him "Briek" and he has covered most of the high spots in the nation's news for a number of years. Among his outstanding assignments were the Snyder-Gray murder, the Hall-Mills tragedy, the sinking of the submarine S-4, and a sensational series of articles on the development of racketeering in New York, which was featured by the New York World.

"Eats and drinks" will be served, Mr. Johnson says. Old members are urged to attend and renew acquaintances. Games will start at 8 o'clock.

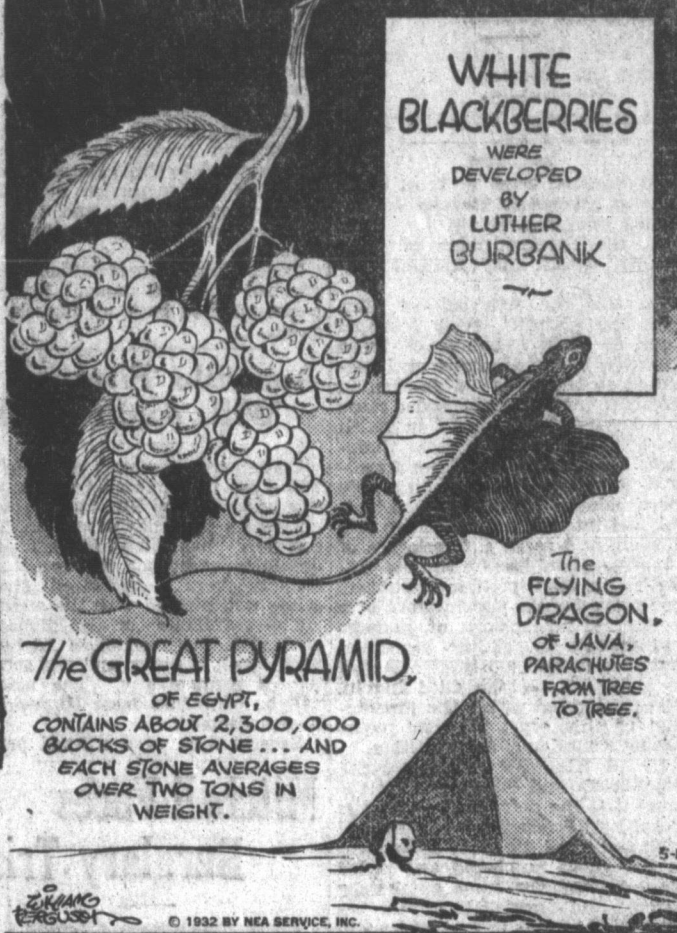

TOKYO, May 18. (AP)—Leaders of the Seiyu party decided today to offer the chief branch to the army and proposed a compromise on a coalition party government to succeed the cabinet of the slain Premier Suoyoshi Inukai.

The compromise proposal followed an ultimatum from the army yesterday demanding a non-partisan national government. Army officials threatened to boycott a party government if one was formed.

At the same time, it was indicated that the controversy over the new cabinet would not be settled until the last of the week. Prince Satomi, the aged sole survivor of the powerful Japanese Genro, or elder statesmen, announced he would not come to Tokyo from his villa at Okitsu until Thursday.

The aged prince is coming to advise the cabinet on the selection of a new premier. He intended, the announcement said, to let the situation crystallize further before making his decision.

The more than two million limestone blocks are fitted together like mosaic, and the methods used in raising these heavy pieces to their places can only be guessed at. Some of the stone was quarried on the east bank of the Nile and had to be ferried across. It is estimated that, with 100,000 men working on the tomb, 20 years would have been necessary to complete it. The blocks that formed the point have been removed and the summit is now a level platform. Centuries ago, robbers broke into the tomb and stole the body of King Khufu.

# YANKEES LOOKING LIKE REAL CHAMPIONS THIS SEASON

## CLUB HITTING AND PITCHING EXCELLENT

### RIVAL SENATORS FIND WESTERN TRIP VERY HARD

By GAYLE TALBOT  
Associated Press Sports Writer

The Yankees today bent their energies to winning the American league pennant. And if ever a ball club looked like a champion in May, it is Joe McCarthy's high-powered outfit.

Their pitching over a stretch of eight straight victories has been well nigh perfect, their hitting timely and their fielding almost inspired. Their closest rivals, the Washington Senators, have had hard sledding against the western clubs and especially St. Louis. Yesterday's 3 to 2 triumph over Cleveland while the Senators were losing to the Browns, 11 to 2, put the McCarthy men a half game in front of the field.

The Athletics bunched three singles with a wild throw in the seventh inning to beat Detroit, 2 to 0. Chicago made it three straight over Boston, 7 to 3, when Danny MacPadden was accorded ragged support.

Bill Walker, New York Giant southpaw, lost his own game to Cincinnati, 3 to 1, when he cut loose a wild throw past first on Marion's bunt in the tenth and Grantman scored from third.

Pittsburgh made it two out of three over Brooklyn, 3 to 1, as Bill Harris pitched scoreless ball the first seven innings.

Philadelphia Phillies blew sky high in the seventh inning and Chicago scored eight runs to win, 9 to 4. Six hits, three walks and three Phillie errors contributed to the large winning.

Pepper Martin returned to the Cardinals line-up after being out with a dislocated shoulder and drove in two runs with a double as Bill Hallahan bested Lefty Brandt in a hurling duel, 4 to 3.

## BORGER TEAM IS VERY GOOD

### Benefit Contest Tomorrow To Feature Youth As Senatorial Hurler.

Pampa baseball fans are scheduled to see a real ball game at 5 o'clock tomorrow afternoon at Magnolia Park when the Coltexo-Phillips team from the south field meets the Phillips '66' Oilers from Borger in a benefit game. Boy Scouts will be the recipients of the proceeds.

Clemens, 17-year-old sensation, will be in the box for the Pampa nine. He will likely be opposed by Lefty Dillinger, former big leaguer. Clemens is the boy who pitched wonderful ball against the Magnolia Mags here three weeks ago. He has speed to burn and a fast breaking curve.

The Borger nine has been winning games with monotonous regularity but the Coltexo-Phillips boys hope to break the streak.

Admission to the game will be 50 cents.

## OLDFIELD NOT IN 'COMEBACK' TRY, HE SAYS

### CONDUCTS MANY TESTS IN WIND TUNNEL ON CARS

DETROIT, May 18. (AP)—When Barney Oldfield roars along the hard-packed sand of Daytona Beach, Florida, next February on the trail of a new world automobile record, as he will do if his plans mature, he wants no sentimental talk about a veteran race driver's "comeback attempt."

"It will be a straight business proposition with me," he explains, "made more interesting, perhaps because of its patriotic aspect. I hope to bring the world record back to America and an American-made car."

Oldfield is here to conduct wind-tunnel tests on a model of the 24-cylinder, four-wheel drive car in which he hopes to exceed the 253.968 miles per hour record set Feb. 24 by Malcolm Campbell of England, also at Daytona Beach. Three hundred miles an hour is his goal.

Details of the car are on paper in the Los Angeles plant of Harry Miller, racing car builder. Oldfield expects it to develop 3,000 horsepower. The wind tunnel tests are expected to determine efficiency of the proposed design which he said, might be described roughly as cigar-shaped.

Oldfield now is 54. He admits that, but adds "Campbell is past 48."

BY ALAN GOULD

Before either California or Yale begins to count its Olympic rowing chances in big numbers it may be well to keep an eye on Cayuga's waters, where good quartet singing and better crews thrive, for old Cornell.

Cornell has another fine, experienced boatload. Most of the varsity eight are rowing their third and last year together under the leadership of bald-headed Peter McManus, the Hudson river farmer who decided rather late in life to turn oarsman. The Ithacas won the four mile classic at Poughkeepsie in 1930 and were runners-up to Navy's surprise crew last June. Cornell underestimated the sailors that day, whether or not they could have won again.

The three-cornered regatta with Yale and Princeton, May 21, offers the first test of Cornell's early condition. Jim Wray, the head coach, has brought the big Red boat along slowly, with an eye to striking the main peak of Poughkeepsie, June 20, and the Olympic tryouts near Worcester, early in July.

Navy in 1920, Yale in 1924 and California in 1928 produced Olympic championship crews.

Nothing would be more happily appropriate than to have Cornell, one of the real cradles of American college rowing, to carry on the winning streak for the U. S. A. this summer.

## MINOR LOOPS ARE HIT HARD THIS SEASON

### BAD WEATHER IS MAIN CAUSE OF EARLY SLUMP

NEW YORK, May 18. (AP)—Hard-hit by unfavorable weather and the general economic situation, baseball's minor leagues play a conference, national in scope, late this month to discuss ways and means of financial readjustment.

W. G. Bramham, chairman of the executive committee of the national association of professional baseball leagues, announced last night the association would meet in two-day session at Rochester, N. Y., May 22 and 23, for the purpose of effecting economies that will permit the minors to weather the storm.

A number of leagues are in a precarious condition financially, Bramham said, and there were indications several can not continue to operate unless drastic readjustments are made.

It is understood the question of player salaries will be discussed and that they will be included in any scheme of general retrenchment that may be adopted.

The so-called "big minors," the American association, Pacific coast and International leagues, all class "AA" circuits, enjoyed a fairly prosperous year last season but two of them at least, the association and the Pacific, have been forced this year to take steps to bolster attendance and effect economies.

## ADEN, Arabia, May 18. (AP)—There was such an uproar of gaiety aboard the French motorship George Philippiar that when the firebells sounded Monday passengers failed to realize their significance, survivors of the burned vessel declared today.

Survivors said that all during the homeward voyage from the far east there had been much gaiety and dancing and when the firebells rang out the passengers thought it was only another storm.

The first lifeboat to leave the burning vessel floated for five hours before its occupants were picked up by the British steamer Mahsud. The Mahsud and the Contractor, also a British ship, brought 254 survivors here yesterday.

Mr. Berthe Holboell, a French stewardess, emerged as one of the heroes of the disaster. She rushed about the blazing liner trying to find the parents of a little girl who had been terribly burned. Her efforts were fruitless. Later the child died in a lifeboat.

The Georges Philippiar still was burning today, her position being approximately thirty miles north of Cape Guardia Fua, Italian Somaliland.

# You Can't Marry

by Julia Cleft-Addams

**SYNOPSIS:** "The cleverest lie I ever told," Garth says to Jenny. "I've never loved you, and now you're going to marry me." Jenny's marriage to Eddie Townsend is a farce. She is really married to Garth, who is really married to Jenny. George's employer, discharges all married women.

### Chapter 27

## COMPLIMENT TO THE QUEEN

BEFORE Jenny could tell him, a man's form came round the curtain of the four-poster. She saw that he was short in the shoulder and neck, and that he had a soft, quick way of walking. He looked deferentially at Gratton Matching and murmured: "I thought perhaps you required me, sir?"

"Why should I require you? Eh?" His employer's voice rose into a rasping squeak that startled Jenny still further. "Get out! Go away! I'm capable of ringing for you, I hope, when I want you."

The soft, sliding walk took the valet over the expanse of carpet to a door in the panelling of the wall. A moment later it closed behind him. Jenny found that her eccentric host was watching her again.

"Have you seen that fellow before?" "Yes. Just for a second, when he carried my cousin's bag down on the day that she went away with you."

"Hat. You're a memory for faces. And you're a judge of character, too, by the set of your lips and the breadth between your eyes. No need to blush—I'm old enough to pay a compliment to the queen herself without offense. . . . What do you think of him?"

"I don't want," said Jenny firmly, "to discuss your nephew."

"But I was speaking of that fellow, my valet," the old man pointed out; and the sly grimace that was his smile, made her blush anew.

"It doesn't seem fair to come to conclusions about a man I've only seen twice for a minute or so. But—"

"You don't like the look of him? Don't trust him?"

"It might be better," said Jenny, unwillingly, "not to trust him in a matter of great importance. But that's only my opinion."

The strange old man lay back upon his pillows, wriggled twice—whether with satisfaction or annoyance Jenny could not tell—and remained flat upon the bed. She could barely see him and when he spoke she had the greatest difficulty in following his words; for he was not using his dreadful, nerve-racking squeak but a monotonous thread of sound that blended with the rustle of brocade at his opened windows and the sound of the satin coverlet under his hands.

"My wife was so very like you, little Miss Jenny. You've got her same tricks and graces and her same sound judgment under all that pale gold hair. Only, I wouldn't listen to her, d'ye see? Shut her up, laughed at her, cowed her; and then, when she was gone, found that she had had the right of most things. People she warned me against and people she believed in, she was right about them all and I was wrong. But you're not so timid as she was. You speak up—you stand up to me—I couldn't cow you without—without meaning to. Eh?"

"Well, I had the advantage of a very helpful old grandfather," explained Jenny conscientiously. And they laughed together—Jenny Revell and the old man who, people said, hadn't got a heart. On impulse, she put out a hand to cover his as it plucked at the coverlet. "Please shout at me, if you'd rather, I shan't care a scrap."

How thin and cold old people's hands were!—she remembered Grandfather's being like that, and on nights as hot as this. She slipped her other hand under it and cradled it gently, trying to give out her own thrilling warmth.

"Old bones, cold bones," muttered Gratton Matching, as though he read her thought. "What's between you and my nephew Aveney?" She began to draw her hands away but he retained them with surprising strength. All her vitality seemed to flow out from her and into that strange, compelling old creature whom one could love and detest all in one breath.

"There's nothing. That is—we dislike each other."

"He thinks badly of me and I'm not free to defend myself. But as we're not likely to see anything of each other, his opinion doesn't matter to me. He simply doesn't matter at all."

"My wife said that of me once, when we had a courting-quarrel. She had spirit, then."

"We haven't—it isn't—you're all wrong about everything," she

dragged her hands away, crying out: "I shall make him apologise and then I shall forget—!" Her voice broke and she had to stop.

"Who's shouting now?" enquired Gratton Matching and wriggled flatter in the enormous bed.

I spite of her misery, Jenny laughed. He really was like a mischievous old wizard, lying there half-hidden, bawling her, drawing her out! It was a pity that George should hate him and fear him and so lightly deceive him. It wasn't dignified, all this secrecy and intrigue about Eddie. . . .

"All this nonsense about you marrying my pilot, Townsend," said the Old Man and, gasping, Jenny shrank in her chair. Magic, this—or else he really could read her almost as between you and Garth Aveney, all this nonsense about Townsend," concluded Gratton Matching. "Do you like butter-scotch?"

"No, I hate it," Jenny answered, too bewildered to be polite. "I don't really eat any sweets."

"Nor do half the people I give them to, but they're such sheep they don't say so. All the same, little Miss Jenny, I know what you like and I'll have them next time you come and see me. Tomorrow. You'll come tomorrow, I darsay. You might come every day."

She could not decide whether it was a request or an order or a prophecy. But she forgot that he had bewitched her and angered her and what has come between you and Garth Aveney, all this nonsense about Townsend," concluded Gratton Matching. "Do you like butter-scotch?"

"No, I hate it," Jenny answered, too bewildered to be polite. "I don't really eat any sweets."

## DINNER

(Continued from page 1.)

"Too many people think of food as just something to eat," Mrs. Ihrig said. "Food is more than that. Food is any substance which when taken into the body will build new tissue, repair old tissue, furnish heat and energy, and enter into and stimulate the chemical processes which occur in the normal human body."

The stomach is the basis of our existence. It is the source of strength on weakness, of health or disease, of gaiety or melancholy. We do everything by, for, and through the stomach. Yet the two operations, that of preparing and eating of food are those to which many people devote the least consideration.

In speaking of the modern homemaker Mrs. Ihrig declared: "The responsibilities of the homemaker increase daily. She is not only purchasing agent, dietitian, but scientist, mechanic and other positions too numerous to mention. The job of making a home is the largest single industry in the world."

"For a long time it was taken for granted. Now science, invention and system have come to its aid. More care is given to training the girl for the job of being a wife than for the other careers to which girls aspire. Since 85 per cent of the earnings of the United States is spent

by women, it is necessary to have some knowledge of the proper way to spend. Scientific spending is saving.

Mrs. Ihrig continued the discussion by pointing out the need of a knowledge of quality of foods, and of the most economical methods of preparing them.

"Science aids the cooks in other ways, too," she said. "Chemists, bacteriologists, dietitians work endlessly to improve the health and happiness of the individual. Almost every known disease can be checked and possibly cured, by correct diet."

the Coast Guard patrolled the coast. The first confidential announcement of the kidnaping of the Lindbergh baby on the night of March 1, sent on the interstate police alarm system, said the child had been spirited away in a green automobile. During a recent telephone conversation with the Norfolk public safety commissioner, Curtis described a green car to him and said discovery of that automobile might prove the key to the whole mystery.

The only car which could be found in Norfolk answering the description was one owned by Curtis himself and found in his shipyard. It is from this car that scrapings have been taken for possible analysis.

Minister Awaited

Police were today awaiting the arrival of the Rev. H. Dobson-Peacock, another of the Norfolk negotiators. In his confession yesterday that his whole story of contacts with the kidnapers was a hoax, Curtis said Dean Dobson-Peacock "could have prevented this trouble." The minister was invited to come here voluntarily but no reply had been received from him this morning.

Major Charles Schoeffel, assistant superintendent of state police, made the following statement through John Tooley, secretary to Gov. Moore:

"We had information from a confidential source in Norfolk that his man (Curtis) became involved in financial difficulties and attempted suicide and after receiving that in-
