## FRAME WINS BIG RACE

### Senate, Opposed to Sales Tax, Votes Levy on Lending of Stock

#### HOOVER HOLDS MESSAGE BACK TO SPEED TAX

**PRESIDENT IS PREPARED TO APPEAR IN PERSON**

**SENATORS SIGN PLEDGE**

**DEMOCRATS ARE FIRM IN STAND AGAINST SALES TAX**

WASHINGTON, May 30. (P)—The senate today voted to tax loaned stocks four cents a share. The vote was 40-37.

WASHINGTON, May 30. (P)—Fifty one senators, a majority of the senate's 96 members, were described today as having signed a pledge to vote against the sales tax. Senators LaFollette (R., Wis.) and Harrison (D., Miss.), who circulated the petitions, made the announcement off the floor while the senate was driving toward a vote on the proposal to substitute the general sales tax for some of the excise levies in the bill.

LaFollette had 16 Republicans signed to his petition while Harrison reported 35 Democrats pledged in opposition.

A little earlier, the senate had rejected a house tax of one-fourth of one per cent on stock transfers. This leaves a four cent per share stamp tax on such sales, however, in the bill. President Hoover was ready to send a message to the senate but withheld it in the interest of speeding the bill.

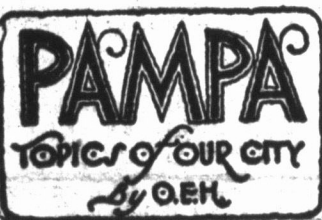

Republican leaders advised the president at last night's White House conference on strategy that they felt the best way of speeding the bill just now would be to leave the situation in their hands.

However, Mr. Hoover is prepared to act and was reported to be prepared to appear personally before the senate with his message. Whether he will ask for the sales tax or confine his words to a plea for speed was unknown.

#### RATTLING GOOD EARRINGS, EH?

When it comes to earrings, leave it to Claire McDonald, California writer, to display "the snake's rattles." The ones she's shown wearing here are from the rattlesnakes killed in Death Valley where they were the last word!

#### It's Like This

Lest anyone misunderstand, the Frontier Days celebration was not intended as a money-making proposition. It was not expected that every person who came to town would spend his year's savings. The fact that prices were not hiked by business men was noticed with appreciation by the visitors.

**Center of Things**

Pampa must, as a wholesaling point, offer services and leadership to this territory. This is good business and it is what the territory wants. People like to be entertained. Thousands of persons were in Pampa for the first time in several years during the celebration. Having seen the new Pampa, they will return oftener.

**Happy Reunions**

The popularity of a city determines in large measure the number of times it is visited. Frontier Days gave a popular form of entertainment and an opportunity for reunions. From these viewpoints, we think the celebration enormously worthwhile. Moreover, we believe that it was very good business, if you must find an excuse for it in that manner. Those who had contact with the pleased visitors were well repaid for their trouble, and in

**OKLAHOMA:** Cloudy or partly cloudy tonight and Tuesday; warmer tonight except in northwest portion.

**WEST TEXAS:** Partly cloudy tonight and Tuesday.

**—AND A SMILE**

**NEW YORK (P)**—A record was established at the Tombs court yesterday. Not a single offense was brought before Magistrate Erwin. Veteran court attendants said it was the first time in their memory that 24 hours passed "without any business."

## LUBBOCK THEATERS BOMBED

### TWO BUILDINGS ARE DAMAGED THIS MORNING

#### TIMED EXPLOSIVES IN BLASTS AT SAME MOMENT

#### C. B. AKERS IS MANAGER

#### THREATS ARE SENT IN ADVANCE, THOUGH DISREGARDED

**LUBBOCK, May 30 (P)**—Bombs exploding within five minutes of each other wrecked the rear portions of Lubbock's two principal theater buildings at about 3 o'clock this morning. Damage was estimated unofficially to total at least \$5,000, including wreckage of shops and offices of one of the structures.

Police Chief Wiley L. Metcalfe and Fire Chief W. E. Twitty are leading an investigation of the two blasts. The bombs, evidently of dynamite and timed, were placed on the second floor in a washroom at the rear of the one building, and in a sub basement of the stage of the other.

C. C. Lindsey, partner with Griffith Amusement company in ownership of the theaters, said he had received threats of bombings, in connection with labor difficulties, but had thought them bluffs. Special guards recently were employed at the theaters and subsequently discharged. Sulfur flares were set off while screen programs were underway in the two theaters in September, 1930, and high explosives were found on the roof of one of the theaters in November, 1931.

The theaters have not employed union operators since 1930, when a wage dispute arose.

C. B. Akers, recently of Pampa, is manager of the theaters.

SIGNS TREATY IN HOSPITAL

Formal signing of the Sino-Japanese armistice at Shanghai was delayed by a bomb blast which injured several Japanese dignitaries and resulted in the death of General Yoshinori Shirakawa, Japan's supreme war counselor. Several signatures to the armistice were obtained from injured officials in Shanghai hospitals. The above photo shows General Kenkichi Uryeda, Japanese military commander, signing in his hospital bed.

## INDEPENDENT PRODUCER SAYS PRORATION IN EAST TEXAS IS VERY WASTEFUL OF GAS SUPPLY

### Attack Upon State Restriction Is Started

**HOUSTON, May 30 (P)**—David M. Lide, Shreveport, La., independent oil producer, testified before a three-judge federal court today that under prevailing proration orders of the Texas state railroad commission in the East Texas oil field it was impossible to produce the required

#### RAINFALL AND SAND

While a sand storm was blowing over Pampa, rain was falling a few miles east early this afternoon. The southwest wind was carrying dirt, tumbleweeds and brush with it and depositing them in secluded corners.

Several signs here were reported down, but no one was injured when they fell.

## BROMLEY DUE OVER HERE ON LONG FLIGHT

#### DALLAS FLIER IS USING FURNACE OIL IN HIS PLANE

#### DESTINATION, BURBANK

#### SIX BALLOON PILOTS ARE READY TO TAKE OFF

**BOEING FIELD, Seattle, Wash., May 30 (P)**—Nat C. Bromley, New York aviator, for a second time today took off from a specially constructed ramp at 12:33 p. m. (Pacific Time) in his big red monoplane, the "Lone Star," in an attempt to take on additional fuel in the air preparatory to heading north on a non-stop flight to Tokyo.

**NEW YORK, May 30 (P)**—Harold Bromley, Dallas flier, took off in his oil burning monoplane from Floyd Bennett field at 3:01 a. m. (Central Standard Time) today on an attempted non-stop flight to Burbank, Calif.

The Texan planned to follow the southern route over Philadelphia, Pittsburgh, Dayton, O. St. Louis, Amarillo, Flagstaff, Los Angeles, and finally Burbank.

The plane carried 300 gallons of ordinary furnace fuel and 25 gallons of lubricating oil.

The distance over the southern routes is approximately 2,500 miles which Bromley expects to fly in about 20 hours. If he is successful he will establish a record for a diesel-motored plane.

**OMAHA, May 30 (P)**—Undaunted by unfavorable weather, six veteran pilots today inflated their balloons for the national championship test.

A heavy rain caused officials to debate the advisability of postponing the entire closing day program.

#### KNOWS THRILLS

Eustace L. Adams, author of "Gambler's Throw." The PAMPA Daily NEWS' next serial, held jobs ranging from that of a deckhand

EUSTACE L. ADAMS

on a tug-boat to the presidency of an automobile distributing company before he became a professional writer. But he always has been an adventurer by vocation.

He was a reporter on a Boston newspaper when the world war broke and immediately went to France as an ambulance driver. When the United States entered hostilities, he returned home and became one of the pioneer naval fliers.

Between numerous and varied jobs, he continually sought the trail of adventure and thrills, the glamour of far-away and strange lands. He chose finally to write for a living because it doesn't interfere with his wanderings, or which he is accompanied by his wife and three children.

"Gambler's Throw" is an outgrowth of Adams' familiarity with flying and dangerous escapades. It is a story of a band of kidnapers whose use an airplane to capture their victims and carry them off to a lonely hiding-place. They are discourteously successful until another daring pilot takes up their trail and beats them at their own game. The first chapter appears today in the Pampa Daily NEWS—read it.

## ROSCOE MAN SHOOTS WIFE, THEN HIMSELF

### Estranged Wife Was At Daughter's Home

**ROSCOE, May 30 (P)**—After shooting his wife as she sat listening to the radio in her daughter's home here, M. L. Wright, farmer of the Champion community near here, turned a shotgun on himself and fell dead on the ground outside Mrs. Wright's death also was instantaneous.

The shooting occurred at 8:15 Sunday night. The couple, each about 60 years old, had been estranged for three weeks, and Mrs. Wright was living with a daughter, Mrs. Snyder. The two were sitting in the living room when Wright, approaching the house in darkness, fired through a window. Mrs. Snyder's husband and Turner Wright, son of the dead couple, were in the kitchen of the Snyder home when they heard two shots. Rushing outdoors they found Wright lying dead. A forked stick, apparently used to pull the trigger for the second shot was lying near his body. A single-barrel 12 gauge shotgun was tied around his shoulders with a heavy cord.

Seven children, including two boys 12 years of age, survive the couple.

## B. O. Bertrand Is Found Hanging at Barn on Farm

**WHITE DEER, May 30. (SP)**—The body of B. O. Bertrand, 50, prominent White Deer farmer, was found hanging from a rafter in his barn one mile south of here at 9:45 o'clock this morning.

The discovery was by Mrs. Bertrand. A coroner's inquest conducted by J. W. Wells, justice of the peace, found Mr. Bertrand's death

## ARNOLD GOES OUT IN CRASH WHILE AHEAD

### TWENTY-TWO CARS IN PITS WITH 350 MILES RUN

#### MANY SMASH RECORDS

#### LEAD CHANGES HANDS MANY TIMES IN LAST MILE

**SPEEDWAY, Indianapolis, May 30 (P)**—Freddy Frame, Los Angeles, won the 500-mile international automobile race today, finishing about a minute ahead of Howdy Wilcox, Indianapolis.

Frame's time was 4:48:02.79, for an average of 104.144 miles an hour.

This broke all records for the race, smashing the previous mark of 101.13 established by Peter De Paolo, in 1925.

Billy Arnold received a broken collar bone in his early smash-up, according to later reports from the emergency hospital.

Tony Gulotta narrowly escaped

death when his car threw the right rear wheel while tearing down the stretch in the closing minutes of the race. Luckily he managed to keep the car on the track and the other drivers tearing along behind him avoided hitting him. The spectators gasped in excitement, expecting to see Gulotta killed.

**SPEEDWAY, Indianapolis, May 30. (P)**—With a deafening roar from the motors, forty dazed racers shot away at 10 o'clock today in the start of the 20th international 500-mile automobile race over the Indianapolis speedway.

As the big automobiles, aligned in rows of three, started down the track, it was estimated the attendance was between 140,000 and 150,000, eclipsing the crowd of a year ago.

Led by a pacing car carrying Edsel Ford of Detroit and Theo-

## I HEARD--

M. K. Brown and C. P. Buckler still laughing this morning over the antics of Jimmie Nesbit and his trained mule which "clowned" the rodeo in connection with the Frontier Days Celebration last Thursday, Friday and Saturday. Both men declared the celebration a huge success and hoped it will be a yearly occasion.

A negro yelling at the top of his capacity this morning, the meanwhile he was trying to get a rope from around his neck. One of Pampa's youthful cowhands slipped his lasso over the negro's head as he passed a building and said negro thought he was going to be lynched.

A bunch of cowboys telling Lon Blansett that anytime he "pulled a roo", they would be on hand because they always got a square deal from him. Some of the best cowboys in the country competed here and they were more numerous than expected.

## Political Follies of 1932

By RODNEY DUTCHER  
NEA Service Writer

WASHINGTON.—The wets who believe their battle to get rid of prohibition is almost as good as won can afford to look carefully at the results of the beer votes recently taken in the House and the Senate. Especially at the Senate vote.

No federal law is going to be changed until Congress acts. That means both branches. The current agitation over re-submission, something which at the moment permits many dry politicians to appear moist without getting wet, will not reach any conclusive point until the wets can point to congressional majorities. And that goes regardless of wet, moist or damp planks adopted at the Chicago conventions.

The more enthusiastic wet leaders—with what degree of inward assurance one cannot say—predict that the country will elect a wet majority in the House next November. Asserting that the popular wet trend is not yet reflected in Congress, they say it will be as soon as the voters can get to the polls.

### The Wet Chances

It is conceivable that those wet hopes will be realized, although it is altogether too early for anyone to be convinced one way or the other. The House vote on the O'Connor-Hull bill to legalize 2.75 beer which is a lot different from prohibition repeal—was 228 to 169, which meant that a switch of but 30 votes would have been required to give beer a majority.

A wet House majority, which would not be seated until December 1933, presupposes that there will be enough changes of position on the part of members or defeats of drys at the hands of the voters to overcome the present dry margin.

Drys feel that most of the likely jumps to damper ground already have been made, since congressmen are usually able to figure out the trend in their districts (even though they sometimes jump too late).

They have always admitted that they had dry congressmen from wet districts. The question is whether there is any saturation point in the wet congressional trend—whether it will continue irresistibly or whether the lines will soon be tightly drawn again with a long hard fight ahead.

### But Look at the Senate!

In any event the really hard nut the wets have to crack is the Senate. The vote against the Tydings 2.75 per cent beer tax bill amendment was 61 to 24. The dries no longer have an overwhelming majority in the House, but they have in the Senate. If they have to make a last ditch stand for national prohibition it will come on the floor of the upper chamber.

The Senate isn't easily changed. Its members are elected only once every six years. With about 35 senators up for re-election this year it doesn't seem that half a dozen dry seats are in danger of capture by the wets, although some senators running already have flopped to repeal, beer or re-submission. There's no possibility of a wet Senate majority in the near future. Counting pairs, 18 states were represented by pro-beer votes in the Senate, but only nine saw both their senators go wet.

## FRECKLES AND HIS FRIENDS

## THE NEWFANGLES (Mom'n Pop)

## OUT OUR WAY... By WILLIAMS

### How It Gets That Way

The obvious reason for the continued dryness of the Senate as compared with the increased wetness of the House is that the largest, most populous states are generally the wettest. They have the largest delegations in the House, proportionately representing population, whereas the Senate is evenly divided among the 48 states. Any half dozen dry western or southern states have as much Senate voting strength as New York, Pennsylvania, Illinois, Ohio, Massachusetts and New Jersey.

### But Look at Hawley

All of which does not mean that the wet trend in the country is not continuing. Drys have been succumbing to wets in congressional primaries rather than vice versa—witness poor Hawley of Oregon, the latest. The political parties seem bent on declaring themselves wet or moist in convention.

Wet candidates are running and being taken seriously in western or southern territory where such candidacies never before seemed worthwhile—you hear about them in North Carolina, South Carolina and Texas, for instance. Nowhere in dry territory do Democratic politicians oppose Governor Roosevelt on the ground that he is a wet.

And it is almost astonishing that, with a critical period obviously at hand, the defensive efforts of the organized dry leaders thus far seem so feeble.

### RACE--

(Continued from Page 1).

dore E. Myers, general manager of the speedway, the drivers were off to a flying start while the crowd cheered. Ford drove at a moderate speed of from 60 to 70 miles an hour for the first lap and when he completed the first 2 1/2 miles he pulled to the side of the track, allowing the racers to cross the wire at a speed of 80 to 90 miles an hour.

**Early Accident**  
The race had no sooner started when Alan Gordon of Long Beach, Calif., torped off the track in the first accident.

Gordon had gone about three miles when the accident occurred. His speeding car smashed into a retaining wall in a cloud of dust, but Gordon, however, escaped serious injury.

Before 25 miles had been reeled off, two drivers were forced to quit due to motor trouble. They were Bob McDonogh of Detroit and Gus Schrader of Cedar Rapids, Ia.

Arnold, leading the pack, knocked off the first 50 miles in 26:52.55, an average of 111.645 miles an hour. Moore was second, 49 second back of Arnold. Carey was clinging to third place, with Louis Meyer, Huntington Park, Calif., fourth.

**Two More Out**  
Wesley Crawford, Indianapolis, dropped out of the hot competition at the end of 70 miles because of motor trouble. John Kreiger of Los Angeles, surrendered at the end of 75 miles because of a broken connecting rod. This left thirty six cars in the race.

Arnold smashed—all records for the first 100 miles which he reeled off in 53:49.45, averaging 111.694 miles an hour. This beat the previous record of 108.193 miles an hour hurged up by Leon Duray. Carey was second to the speeding Arnold, with Frame third, and Moore fourth.

**Foreigner Cautious**  
Gaudino, the lad from the Argentine, driving with extreme caution, was 15 miles back of the leaders. The car driven by Al Aspen of Philadelphia was forced out at 75 miles.

With 250 miles completed, Ernie Triplett, Los Angeles, had snatched

## Commissioners' In Statements

The recent report of the 21st district court grand jury drew statements from Commissioners John R. White of precinct No. 1 and Lewis O. Clark of this morning. The portions of the report discussed by the commissioners stated "there seems to be an excessive expenditure of our county funds in payment of labor done for the county. The wage scale used by our county commissioners (especially in precincts Nos. 1, 2 and 4) are much above that used by anyone else, at this time, whether he be individual or contractor. Mr. Clark and Mr. White said that precinct No. 2 has 445 miles of road to maintain, precinct No. 3, 160 miles, precinct No. 1, 200 miles and precinct No. 4, 180 miles. He pointed out that there is no town in precinct No. 3, and that because the country is all plains most of the road-work is done with machinery. The wage scale in precinct No. 3 is 33 per day, and in the other precincts 40 per hour. Precinct No. 2 divided automobile taxes with all the other precincts, and part of the money that was spent for road work in precinct No. 3 was transferred from the No. 2 fund. The valuation of this precinct is around \$20,000,000 and of precinct No. 4, \$600,000. It was said: Disbursements for the year to May 1 in the four precincts were as follows: No. 1, \$5,989.98; No. 2, \$4,268.13; No. 3, \$4,691.24; No. 4, \$8,770.04.

### MAN WOUNDS SISTERS

LOS ANGELES, May 30 (P)—Two elderly, spinster sisters were in a critical condition in a Los Angeles hospital today, victims of an axe wielded by their brother, who, impoverished and facing blindness, did not want to leave them to the care of charity. The brother, George Ross Mohr, 59, once a well-to-do bond broker, ended his life with a pistol after the attack on his sisters, Essie, 72, and Phoebe, 76. The skulls of both women were fractured.

### Is Arranged by Dimmitt Couple

CANYON, May 30 (Special)—Mr. and Mrs. W. J. Baxter of Dimmitt spent a day in Canyon this week arranging the material of the Baxter collection which has been placed in care of the Panhandle-Plains Historical society. This is the largest and most varied single collection which the society has.

Several thousand arrow heads from Colorado, Texas and New Mexico are the feature of this collection. Mr. Baxter states that flints were America's first money. One of the most interesting collection of arrow heads has been arranged by Mr. and Mrs. Baxter in the form of a double star surrounded by a circle of thirty-two flints. There are thirty flints in the first star and five in the one enclosed within it. These arrow heads are all representative of Texas.

Another group of arrow heads represents the first stone age, these flints being unpolished. The Baxter collection contains objects representative of the times when much of the Panhandle of Texas was covered by the waters of the sea and of various eras from that time to the present. There are petrified oyster shells which were found near Tahoka. There are skeletons of the early German settlers which were used by the cliff dwellers of the Mesa Verda region in Colorado in prehistoric days. There are bones, all of which were used by the Indians in shaping their garments of buckskin. There is a lamp which was brought to Texas by one of the early German settlers there and which was carried by the tide of immigration into Texas in 1836. There is an old carpenter's plane, typical of those used fifty or more years ago. There is a huge bear trap now without meaning to the region to which it was used.

In the Baxter collection of arms, there are guns which as Mr. Baxter says, "Represents the evolution of fire arms as well as the evolution of a boy." The collection begins with the first guns which attracted Mr. Baxter when he was a small boy and shows various types of arms up to the present time including those used by the collector during the Spanish-American War. Long horns, eight feet and four inches from tip to tip, rattlers from many diamond backs, antelope horns and elk heads, tiny squirrels and quails have found a place in the collection made by Mr. and Mrs. Baxter. To these people the collection of strange and interesting objects in the realm of paleontology, archeology, and natural history has been a delightful life long hobby. Each vacation gives an opportunity to find something new and strange and with training and help of eager experiences, Mr. and Mrs. Baxter seldom make a trip of any length without bringing back treasures which would be unseen by most people. They expect to continue to place their valuable findings in the museum of the Panhandle-Plains Historical Society when the building

### THIS CURIOUS WORLD

© 1932 BY NEA SERVICE, INC. #4-7  
IN JAPAN, distances were once measured by the number of straw shoes a horse wore out in going from one place to another. Every driver carries along a plentiful supply of "spares" for his horse, and all along country roads the traveler sees discarded worn-out horse-shoes. The shoes are made of rice straw which is braided into a boot that covers the entire hoof, with strings that tie around the horse's fetlocks.

### "Tent Slayer" Is Placed On Trial

CONROE, May 30 (P)—Authorities planned to begin today the trial of Russell Kendall, 22-year-old Mississippi, charged with the New Caney tent murders late last year. Kendall's parents and other relatives came here to be with him during the trial. They spent most of yesterday visiting him in the Montgomery county jail.

The youth was alleged to have killed Lou H. Brownlee, owner of a wandering one-tent minstrel show, and Mrs. Martha Smith, employe. The couple was slain with an axe.

Mr. and Mrs. P. A. Wampler spent the week-end in Plainview. now in prospect is provided so that materials may be properly cared for.

### Booze Issue Is Rising In Texas

AUSTIN, May 30 (P)—Wet or dry? A one-time familiar question in Texas relegated to the back ground by advent of constitutional prohibition has been revived by general department of the state democratic convention this week.

A campaign waged at the convention by several powerful delegations for an out-right repeal recommendation, that culminated in a request by the convention that congress submit the repeal question to a vote of the various states, has started the old-time prohibition agitation in Texas.

Candidates for office this year no doubt will be subjected to closer scrutiny for damp proclivities than in a decade and a half. Aspirants to the Texas legislature and to the state's twenty-one seats in the house of the national congress are certain to be looked over carefully by the tries and the wets.

The issue already has been joined in the canvass for the three congressmen-at-large places, several of those aspiring to those seats having declared for repeal of the eighteenth amendment.

While many of the defenders of national prohibition contend that action of the convention in voting for submission of the question was not an indication Texas democrats are favorable to repeal or modification of the eighteenth amendment, there is likely to be a noticeable revival of activity in the prohibition ranks.

Leaders in prohibition groups before the state convention met had notified the democrats that they would not support next November a presidential candidate who was regarded as an anti-prohibitionist. Some of them had said that were Governor Franklin D. Roosevelt of New York to be the party nominee they would oppose his election on the promise he was "too wet." That attitude if pursued might mean a Texas democratic revolt next November.

Former State Senator Thomas B. Love of Dallas, who was one of the first to revolt against Alfred E. Smith of New York four years ago because of Smith's prohibition views, had announced that he favored Speaker John N. Garner of Texas for the presidency because apparently he was one of only two of those seeking the democratic nomination who did not favor repeal or modification of the eighteenth amendment. He did not say who the other candidate was.

"HARD-BOILED" ONE JAILED  
DENTON, May 30 (P)—"Hard-Boiled" Smith, alias Lawrence Smith, alias Leonard Smith, was in the Denton county jail here today having returned from Kilgore charges of robbery in connection with the robbery of a bank at Pilot Point. He was arrested in Kilgore yesterday.

Mr. and Mrs. Ivy E. Durcan and son, Kirk, are on a business and pleasure trip in Dallas. Ewert Duncan is visiting relatives in Spearman.

### Primary Races Pause at Last

WASHINGTON, May 30 (P)—With the recording of 20 convention votes from Colorado and Utah for Governor Franklin D. Roosevelt, the democratic presidential nomination race came to its first full pause since the New Hampshire primaries March 8.

During this week no primaries or state conventions are scheduled in either party, although a total of 122 democratic delegates and 43 republican remain to be selected.

At this point in the pre-convention campaign, Governor Roosevelt still is far in the lead for the democratic nomination, with 418 of the 770 delegates necessary to win formally pledged or instructed for him.

In addition, his supporters lay definite claim to 181 more delegates already chosen and confidently expect to pick up, virtually undisputed a maximum of 96 of the remaining 122 to be named. This would bring the Roosevelt total to 697, or only 73 votes shy of the necessary two-thirds.

On the republican side of the picture, President Hoover this week was assured of more than enough votes for renomination from pledged delegates alone. In this category he has 642 with only 578, or a majority of the 1,154 total convention vote, required to nominate.

With renomination of Hoover and Curtis regarded by administration leaders as a convention formality, prohibition and organization worries are heaping upon the party chieftains. A batch of dry, wet, and moist planks already are drafted, but leaders still are far from an agreement on the question.

Senator Borah of Idaho, a dry champion, has shaped a plank opposing a delegation for a referendum. In this category he has decided not to attend the convention it remains to be seen how far he will press his proposal.

Christian Science Services Are Held

The lesson-sermon subject in all Churches of Christ, Scientist, Sunday, May 29, was "Ancient and Modern Necromancy. Alms, Mesmerism and Hypnotism. Denounced." Proverbs 14:22 furnished the golden text: "Do they not err that devise evil? but mercy and truth shall be to them that devise good." Included in the lesson-sermon was the following verse from the Bible (Revelation 12:10): "And I heard a loud voice saying in heaven, Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ: for the accuser of our brethren is cast down, which accused them before our God day and night." The service also embraced these citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy—pages 233, 380: "Marvels, calamities, and sin will much more abound as truth urges upon mortals its resisted claims; but the awful harrowing of sin destroys sin, and foreshadows the triumph of truth. Nothing but the power of truth can prevent the fear of error, and prove man's dominion over error."

# MAN HURLER FOR LEFORS BEATS AMARILLO TEXAS

## ALLOUS FOUR HITS SHOWN WINNING 5-3

### GRAY COUNTY NINE HAS STRONG AMBITIONS THIS SEASON

Lefty Freshour, Dallas Indian now with the LeFors Oilers, allowed the hard-hitting Texas Stars of Amarillo, only four hits to win 5-3 yesterday afternoon in LeFors. Errors marred a few innings and had the Indian in plenty of trouble, but he came through every time. Smokey Harris, on this ground for Amarillo, also pitched good ball.

LeFors is building a strong ball club with the hope of winning the Amarillo tournament. Several new players saw service yesterday. Hits were at a premium throughout the game. LeFors not only eight in the nine innings, but nine made mode errors than usual, but blowing sand was mostly the cause. The game:

First Inning  
Texaco—Buchanan walked and stole second. Bradford flied out. Shell safe on fielder's choice. Sullivan fanned.  
LeFors—Baldwin flied out. Thomas was hit by a pitched ball, and went to third when Hudson missed a throw from the pitcher. Whitts walked. Thomas stole home. Newsome hit a double to score Whitts. Pulliam hit into a double play.

Second Inning  
Texaco—Jones was safe on Hipp's error. Hudson forced Jones at second. Elford flied out. Woodwin flied out. Harris fanned.  
LeFors—Ballew singled. Hipp sacrificed. Flynn singled to score Ballew, but was singled off at first. Freshour grounded out.

Third Inning  
Texaco—Buchanan beat out an infield hit and then stole second. Bradford flied out. Shell was safe on a disputed decision. Sullivan hit safely and Buchanan scored. Jones grounded out.  
LeFors—Baldwin, Thomas, and Whitts went out in order.

Fourth Inning  
Texaco—Hudson hit by pitched ball. Kile forced Hudson. Woodwin, and Harris grounded out.  
LeFors—Newsome singled to right. Pulliam beat out an infield hit. Ballew sacrificed. Flynn fanned.  
Fifth Inning  
Texaco—Buchanan singled but Bradford forced him at second. Bradford stole second. Shell walked. Sullivan forced shell. Jones grounded out.  
LeFors—Freshour, Baldwin, and Thomas grounded out in succession.

## MAGS LOSE TO SKELLY '9' IN 10-7 BATTLE

### Locals Without Help of Several of Their Regular Players.

A patched-up team of Magnolia "Mags" lost 10 to 7 to the Skellytown Oilers here yesterday afternoon. The Pampa nine was without the service of Weathered, Cason, Roseman, and Lister. Burke was the only hurler in uniform and he worked the last three innings when Skellytown scored eight runs. Skeeter Thorne had a bad day at third, accepting five chances but not throwing a man out. Jimmie Marshall dropped a ball in the last inning that should have ended the game 7 and 0 for the "Mags".

Ridgeway pitched Weathered at shortstop and played a good fielding game, but was weak at bat. Horner was in right field in place of Lister. Cahill caught the game, his first in two years. Terry started the game for the Oilers but was relieved by Carmichael in the third after the Magnolias had scored four runs. Carmichael allowed only three hits the rest of the game but errors led in three runs in the last two innings. J. Horner hit a triple.

Terry was the batting star of the game with four hits in five trips to the plate. Williams, J. C. Horner, C. Horner, and Harris garnered three each. Harris also collected three runs and C. Horner two. Weeks and Burke with two hits each led the Magnolia parade. One of Weeks' hits went for three bases. Marshall and Cahill hit doubles. Cahill, Horner, and Burke each scored two runs for the "Mags".

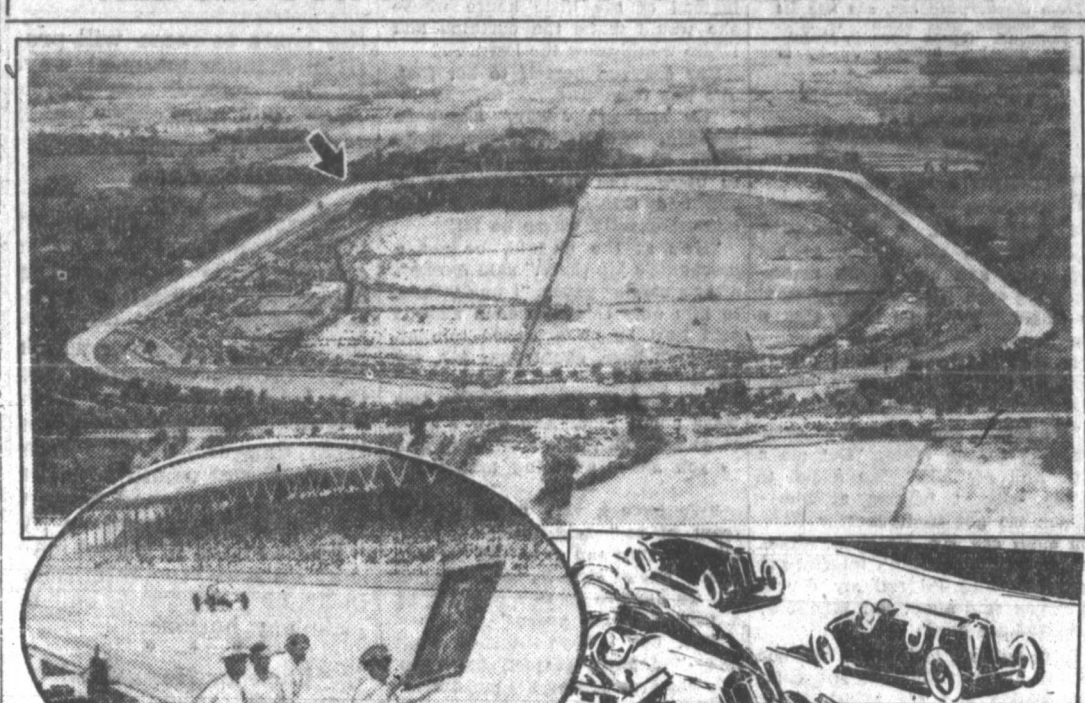

Carmichael had nine strikeouts to his credit in the six inning he pitched. He gave back three before he left the box. Burke struck out three. The only double play of the game was Ridgeway to Marshall. The "Mags" will play the Burlington Railroaders of Amarillo next Sunday.

Score by innings: R H E  
MAGS ..... 112 000 035-10 18 3  
SKELLYTOWN ..... 110 000 023-7 9 7  
Batteries—Skellytown, Terry, Carmichael and Bryant. Magnolias, Burke and Cahill.

## Goldston Beats White Deer On Sunday, 17 To 5

Goldston swamped White Deer under a barrage of hits yesterday in White Deer to win 17 to 5. The game started at four to four up to the sixth inning when four stout legs of Pampa weakened and a substitute was lacking. Goldston scored all the other runs in the last four innings.

## ALL SET FOR 500-MILE AUTO CLASSIC TODAY

America's greatest auto speed classic was run today when the cream of the country's race drivers gathered at Indianapolis for the International 500-Mile Speedway Race. Above is an aerial view of the track with an arrow pointing to the dangerous northwest curve. Lower left a pitman is shown with a blackboard asking his driver if he wants relief.

## WEAK PUTTING BY PAMPANS GIVES CHILDRESS VICTORY

### Locals Lose 9 To 7 Sunday On Raw Course—Going Next To Shamrock.

The Pampa Country club golf team lost 9 to 7 to Childress in Childress yesterday. The course was under construction and was tough besides. The Pampans failed in their putting, the greens having been newly diked and erratic. Next Sunday the Pampa team will go to Shamrock in a Cup Round league event.

Winners yesterday were W. H. Swenson, 7 and 6; Grover Austin, 2 up; J. P. Griggs, 5 and 4; Dr. H. H. Hicks, 2 up; Herschell Long, 2 up; Ben Farris, 5 and 4; E. M. Conley, 3 and 2.  
Losers were: Hoffman, 7 and 6; Tommy White, 4 and 3; Perkins, 1 down; Buck Talley, 2 down; Otto Sunday, 5 and 4; Skeet Stewart, 3 and 2; Frank Perry, 5 and 4; Mark Heath, 3 and 2; Bill Lang, 3 and 2.

## Proration Fight Is Opening Again

### HOUSTON, May 30 (AP)—Battle lines were drawn for the start today of the second federal court fight over East Texas oil proration.

The first battle resulted in a victory for producers opposing proration. A three-judge federal court restrained Gov. R. S. Sterling from restricting production by means of a martial law. The ruling was appealed.

The decision did not pass on the railroad commission's power to enforce proration. The commission is the normal administrator of the law passed by the last legislature. In the trial starting today, various operators are trying to invalidate the commission's east Texas oil conservation orders.

Chapter 37 WEDDING PRESENTS "WAITER!" called George. She shut the bag with a snap and straightened. A man nearby looked at her admiringly, at her high color and her bright, amber-gleaming eyes.

Walter! Then, as he came hurrying to the table: "Get me a taxi. And my bill." She added to Tallas without looking at him—"When we get to Rochester Gate, you shall see Mr. Matching alone, be sure of that. I shan't interfere in any way. And I'll tell my cousin what you said about her manners; it will amuse her."

An infinitesimal pinpoint of white light, far in the distance, came nearer and nearer, growing in circumference like the headlight of an approaching express train. Then, suddenly, it exploded.

"This gentleman," she said to Aveney, "has been trying to blackmail me because he has discovered that it was I and not my cousin Jenny who married Eddie Townsend last Saturday."

"Happy, my girl!" In the circle of Eddie's arms George stirred. "Yes, I'm happy. She moved so that she could see the dreary outlook from the room in which they stood."
