

TRIPPERS THROUGH CITY

Drilling, Producing Rights To be Subject of Hearing Tomorrow

OILMEN WANT ENFORCEMENT OR PRIVILEGES

DANCIGER OPERATIONS CITED AS BEING UNFAIR

TERRELL IS TO PRESIDE

SESSION WILL BEGIN AT CITY AUDITORIUM AT 10 O'CLOCK

The Texas Railway Commission has listened to the plea of more than 100 producers, property and royalty owners who asked that the commission hold a hearing in Pampa to listen to their requests that they be given the same rights as the Danciger Oil Refining company which is drilling and producing oil under an injunction without regard to proration orders, and will hold a hearing here tomorrow.

C. V. Terrell, chairman of the railway commission, arrived here on a special train this afternoon and will remain over to preside at the hearing which will open at 10 o'clock in the auditorium of the city hall. With Mr. Terrell will be Ernest O. Thompson, member of the commission, and R. D. Parker, chairman of the oil and gas division of the railway commission.

Land and royalty owners with producers will present reasons why they should be allowed to drill wells and produce oil on the same terms as those granted the Danciger company. They will declare that the Danciger company and operators of wells offsetting Danciger wells are draining the oil from under adjoining leases by taking oil at will while other producers are taking oil according to proration orders.

The gas conservation questions will also come before the commission. Reports on the potential and takings in the Panhandle field will be presented. Methods of controlling the situation will be considered. Recent legislative action has been ruled invalid, and other means must be taken to preserve Panhandle gas.

Eagle Scouts To Be Given Awards

A first aid demonstration will be given at the Court of Honor in the district courtroom at the courthouse tonight when four boys will be made Eagle Scouts and a number of other boys will be advanced in rank and receive merit badges.

The Rev. James Todd, Jr., chairman of the Court of Honor, will preside. He will be assisted by C. A. Clark, executive of the Adobe Walls council, scoutmasters and committeemen. The first aid demonstration was presented before a large audience at the La Nora theater last night.

With the presentation of Eagle Scout awards to Smith Wise, Edward Scott, Melvin Qualls and Tom Sweatman tonight, the number of Eagle Scouts in Pampa will be brought to eight. Boys who have already attained the high rank are Buck Mundy, Wilks Chapman, Claude Sullins, and Bertou Doucette.

Parents and others interested in the boys of today are urged to attend the Court of Honor.

Mrs. Clara Johnson returned yesterday after spending a week in Amarillo with her sister, Mrs. Tom Jackson, who underwent a serious operation at the Northwest Texas hospital July 7. Mrs. Jackson was very much improved.

WEATHER

West Texas: Generally fair tonight and Saturday except unsettled in extreme east portion.

—AND A SMILE
CUTTYHUNK, Mass., July 15 (AP)—Franklin D. Roosevelt did well to touch here in his visit, says Capt. Frank Brewster, former war, now skipper of the general store. "Cleveland stopped here once and he was elected."

PAMPA REAL MODERN CITY

Transition From Cattle To Wheat To Oil Has Built For Permanency.

By ARCHER FULLINGIM
OF THE NEWS STAFF

The story of Pampa is the story of the Santa Fe railroad, the White Deer Land company, bountiful wheat crops that were harvested year after year since the early 1890s, the oil development that began in 1926, and the story of the efforts of pioneer citizens and ambitious, energetic newcomers to make an actuality of the vision George Tyng had when he named Glasgow and freight shipments meant for Pampa were often unloaded at the Kansas town, the place was next named Sutton. Almost immediately it was discovered that there was a town in Southwest Texas named Sutton, and then Mr. Tyng, White Deer Land company agent here for 16 years from 1887, named the town Pampa because he noticed the similarity of the Panhandle plans to the Argentine pampas which he had visited in his travels. In Spanish 'pampa' means rolling plain.

In 1887, when the Santa Fe laid its tracks through Pampa, the stop was known as Glasgow. At that time it was not even a wide place in the road because there were no roads, only cow trails. Because there was a town in Western Kansas called Glasgow and freight shipments meant for Pampa were often unloaded at the Kansas town, the place was next named Sutton. Almost immediately it was discovered that there was a town in Southwest Texas named Sutton, and then Mr. Tyng, White Deer Land company agent here for 16 years from 1887, named the town Pampa because he noticed the similarity of the Panhandle plans to the Argentine pampas which he had visited in his travels. In Spanish 'pampa' means rolling plain.

Farming Is Begun
When Mr. Tyng came to Pampa, thousands of cattle grazed over this section, but Mr. Tyng foresaw an

Allowable For East Texas Set At 46 Barrels

AUSTIN, July 15 (AP)—The Texas Railroad Commission today set the per well allowable of the East Texas field at forty six barrels for the fifteen day period beginning tomorrow at 7 a. m.

The field had been on a flat fifty barrels per well output since July 1. A maximum area production of 325,000 barrels daily, in effect prior to July 1, has been reinstated, and the production of each well will be adjusted at fifteen day periods based on the anticipated number of producing wells during the time for which the allowable is set.

It was estimated there would be approximately 7,000 producers by August 1. Based on an estimate that at present there are slightly in excess of 6,800 wells in the field it was computed that the four barrel per well reduction will reduce the field output approximately 30,000 barrels daily under the 50 barrels per well flat arrangement.

A production limit of 200 barrels per day per well was set if an order issued regulating production in the government wells field in Duval county.

The order stated that no well should be allowed a total gas displacement in excess of 250,000 cubic feet per day and that any gas in excess of 1,250 cubic feet per barrel of oil must be disposed of in a non-wasteful manner.

The commission also ordered that recording meters be placed on wells in the Government Wells field and that charts from the meters be preserved for inspection of state agents.

On an average of at least once each year for the past seven years the people of this territory have gathered for similar celebrations until such events almost have become commonplace, but today's ceremony was different in that it marked completion of a 1,200-mile rail construction program for the

GARNER GAINS IN HIS FIGHT WITH HOOVER

FORCES PRESIDENT TO LEAVE PUBLICITY CLAUSE IN BILL

WILL NOT BE VETOED

SPEAKER SAYS SENATE WILL YIELD TO HIS DEMAND

WASHINGTON, July 15 (AP)—Immediate passage of the relief bill was assured today when senate conferees accepted the house provisions for giving publicity to reconstruction corporation loans.

WASHINGTON, July 15 (AP)—Whether the mammoth relief bill will be sent to the White House containing the provision for publicity to reconstruction corporation loans remained a question today, while President Hoover served notice the responsibility would be on Congress if that section is made law.

Representative Rainey, the democratic leader, said the House would insist on the publicity clause and "we accept the responsibility." Conferees to adjust the differences between Senate and House on the legislation had yet to agree.

After conferring with Mr. Hoover democratic senatorial conferees insisted he would not veto the bill even if publicity for the loans is kept in it. Some of the conferees of the Senate apparently were impressed by the president's objections to that provision and indicated they were not ready to yield to the House on it.

But Speaker Garner expected the Senate to yield and told newspapermen Congress probably would adjourn tomorrow in view of President Hoover's "surrender" on the publicity issue.

Hoover Displeased
WASHINGTON, July 15 (AP)—President Hoover today told Congress if it insisted on keeping the clause providing publicity for reconstruction finance corporation loans in the pending relief bill Congress must take the responsibility.

Meanwhile, Representative Rainey, House democratic leader, said flatly after a conference with Speaker Garner that the publicity clause would remain or "there would be no bill."

With Senator Wagner, an author of the bill, joining him, Senator Glass (D. Va.) said:

"He (the president) certainly will not veto this bill."

Eight Being Held In Jail For Fines

Eight of eleven "drunks and vases" picked up by city officers Wednesday night and early Thursday morning were still in jail this morning. The others paid fines and were released yesterday.

The remaining eight will be given an opportunity to work out their fine which will let them loose in a few days. If they would rather "lay out" the fine they will remain in the city jail for several days.

HIGH STATE OFFICIALS IN CONGRATULATIONS

Of the prominent visitors joining in the railroad opening today, the above high state executives are among the most interested and the most interesting. At the left, above, is C. V. Terrell, chairman of the railroad commission, who used his office and that of the attorney general in behalf of the new line (today after one ex-man had been killed and another burned critically. Four members of the crew were listed as missing. The fire followed a series of severe explosions as the vessel finished loading 40,000 gallons of gasoline at the Good Hope plant of the General American Tank Car Storage and Terminal company. Total damage to the vessel and cargo, valued together at \$50,000, was not immediately estimated.

BANDITS FORCE DEPUTY AND OFFICIALS TO LIE ON FLOOR. ROB OLTON BANK OF \$4,000

Unmasked Men Were Driving Coleman County Car

PLAINVIEW, July 15 (AP)—The Olton State bank at Olton, 20 miles northwest of Plainview, was robbed of approximately \$4,000 this afternoon by two unmasked men.

Cashier L. E. Silcott and Bookkeeper D. M. Granbury, Deputy Sheriff Tommie Mathes and a customer, J. E. Shropshire, were forced by the robbers to lie on the floor of the vault after Granbury had opened it.

The robbers scooped up all the money they could find in the vault and cash drawer and escaped in the automobile. They were seen traveling south of Olton. License numbers on their car indicated it was from Coleman county.

There was a possibility that a third man was in the robber car. The two who entered the bank were dressed in overalls and were armed with pistols. One was about 30 years old, the other about 45.

Hunt Robbers
LAMAR, Colo., July 15 (AP)—Posses aggregating sixty officers and volunteers from four states today apparently were hot on the trail of three men who robbed the Elkhart, Kan., bank of \$1,500 yesterday.

Organized in separate groups, the posses were moving southward through the dry, rugged district of the Kansas, Oklahoma, Colorado boundary country in the belief their quarry was heading into Oklahoma.

Numerous clues spurred the manhunters on their search. Sheriff Walter Ford of Elkhart, who is directing the search, telephoned from Colorado, Colo., that three men in a green coupe had been at a farm house a short time previously. They dressed a wound on one of their trio, obtained water and drove on, ignoring the farmer.

Chairman Terrell Rides In Engine Cab of Special

At the throttle of the first Fort Worth and Denver Northern special train which pulled into Pampa at 2 o'clock this afternoon was C. V. Terrell, chairman of the Texas Railway Commission, and one of the men who used tugging influence to have the railway built. Mr. Terrell rode in the engine cab from Pampa to Childress. Railroad officials said it was "fitting that Mr. Terrell should ride in the cab."

He will preside at a hearing of the oil and gas division of the railway commission tomorrow. He will leave tomorrow afternoon for Lubbock where he speaks tomorrow night. This is Mr. Terrell's second trip to Pampa this year.

When the Interstate Commerce Commission turned down the application of the Fort Worth and Denver Northern for permission to build the line from Childress to Pampa, being dedicated today.

NEWS FLASHES AT PRESS TIME

NEW ORLEANS, July 15 (AP)—A six-hour fire aboard the oil tanker, Raleigh Warner, in the Mississippi river was brought under control today after one seaman had been killed and another burned critically. Four members of the crew were listed as missing. The fire followed a series of severe explosions as the vessel finished loading 40,000 gallons of gasoline at the Good Hope plant of the General American Tank Car Storage and Terminal company. Total damage to the vessel and cargo, valued together at \$50,000, was not immediately estimated.

DENVER, July 15 (AP)—Arthur J. Chester, Jr., of Dallas, Texas, student who shot himself here Tuesday in a fit of despondency over ill health, died today. The bullet, fired from a small rifle, penetrated the youths' heart.

WASHINGTON, July 15 (AP)—Speaker Garner today ruled the house could place the Goldborough currency expansion bill on the home loan discount measure.

Thompson Would Order Line Survey

SHERMAN, July 15 (AP)—The Texas railroad commission would make a survey of the Oklahoma distributing system of the Lone Star Gas company, Commissioner Ernest O. Thompson, Amarillo, announced here today, unless the Oklahoma state corporation commission ordered a survey on its own behalf within ten days.

Commissioner Thompson said he hoped each state would make its own survey, and make available to each other the information gathered for rate-making purposes. He also announced that the railroad commission's gas utility division would employ two competent engineers to serve regularly in making surveys in Texas for that department.

DOORS OF CAPITOL CLOSED TO VETS BUT COPS STILL UNEASY

WASHINGTON, July 15 (AP)—After the conference, Speaker Garner told newspapermen his position was regardless of how many men were necessary or where they came from, the bonus marchers on the capital grounds should be required to obey the law.

He outlined this position to the Capitol police authorities, but declined to give to newsmen his views whether the steady marching of the veterans back and forth in front of the Capitol for the last two days was a violation of the law.

"The law ought to be enforced," he said.

New Railroad to South Open to Huge Area

Hundreds Journey To Pampa In Holiday Mood To Celebrate—Formal Program Follows Barbecue

By OLIN E. HINKLE,
Managing Editor, THE NEWS.

Another chapter in the phenomenal development of the Panhandle was triumphantly written here today as hundreds of visitors, among whom were the highest officials of Texas and of the parent Burlington system journeyed to Pampa over the newly completed Fort Worth & Denver Northern railroad from Childress and participated in a mammoth parade, barbecue, and broadcast program.

With bands blaring and hundreds of local citizens joining in the grand welcome and extending of salutations, the parade from the Denver Northern station wended through the business district, broke ranks, and furnished an audience for Governor Ross Sterling briefly on the east side of the courthouse, then hundreds of visitors enjoyed the barbecue at the school auditorium. The program schedule next called for a railroad speaking program at the First Methodist church, where the addresses of state and Burlington officials and representatives of various towns were to be broadcast.

Chas. C. Cook, attorney for the Pampa B. C. D. in the railroad litigation, was named chairman.

As the special pulled into LeFors a six passenger Travelair monoplane piloted by Boyd Kennedy and carrying Mayor W. A. Bratton, Commissioner Earl O'Keefe, City Manager C. L. Stine, Dr. H. H. Hicks and H. W. Waddell swooped out of the sky from Pampa. The big plane, flying low, passed both specials and then headed back towards Pampa.

The plane continued to circle over the specials until they reached Pampa when the plane dipped to the ground near the depot and the passengers joined the welcoming throng that crowded the station platform.

Kennedy and his plane will be located in Pampa for several days. Following Gov. Sterling's speech east of the courthouse, invited guests gathered in the high school gymnasium where they were served barbecue cooked by the Canary Sandwich Shop. The barbecue was sponsored by the Board of City Development and served by members of the Junior chamber of commerce.

The barbecue Gray county beef, rolls, onions, pickles and other trimmings, coffee and cold drinks disappeared with startling rapidity. Governor Ross Sterling, C. V. Terrell, chairman of the railway commission, Ernest O. Thompson, Ralph Budd, president of the Burlington system, Gen. John A. Hulen, vice-president of the Fort Worth and Denver, other railway officials, bankers, lawyers and others lined up for the feed and with a plate of barbecue in one hand and a cup of coffee in the other, enjoyed the freedom of an impromptu meal.

After the dinner, everyone started for the First Methodist church where a public program was to be held.

The following telegrams arrived this morning:

Dallas, Texas.
W. A. Bratton, Mayor of Pampa, Pampa, Texas.
The city of Dallas joins with your people in rejoicing over the completion of your new railroad facilities. We congratulate you sincerely and pledge our continued cooperation in the furtherance of everything which contributes to the growth and development of your city and the territory which it serves. You have our heartiest good wishes for the greatest possible success in the development of your city.

T. L. Bradford, Mayor of Dallas, Texas.
C. H. Walker, President, Chamber of Commerce, Pampa, Texas.
Dallas chamber of commerce extends its most sincere congratulations to Pampa upon the completion of your new railroad. We join

WITH RUGGED FAITH RISE TRIUMPHANT

One of the greatest enemies of mankind in this world is fear. Apprehension of evil or danger—dread—anxiety—fear is a great and constant source of suffering.

Fear is an obstacle to progress. It deters men from embarking on projects that properly handled would make fortunes for them.

Fear is responsible for a large percentage of the troubles with which the world is suffering today. Sometimes it is justifiable fear, but that from which most of us are suffering is not warranted.

Despite the fact that we are in the midst of a great depression, which has temporarily paralyzed some of our industries and part of our commerce, it is still true that approximately 10,000,000 people are gainfully employed in the United States today and that these 40,000,000 have been working steadily through this depression.

It is conceded by some of our greatest financial authorities that today "the American people are wading knee deep in opportunity," opportunities such as they never enjoyed before.

And hello there Guy Hill, you chamber-commercy fellow from Shamrock. Your city is a lot closer now and we'll be over to see you oftener.

And well, well, if it isn't Pampa's old friend the "original" railroad from Wichita Falls.

Just as Welcome. And you fellows from Fort Worth, Dallas, Wichita Falls, Amarillo — you are just as welcome as the rest

OUT OUR WAY... By WILLIAMS

NEW PAMPA— (Continued from page 1)

agricultural empire and he sold the cattle. Then the agricultural development began, the great Franklin Land & Cattle company ranch which the White Deer people took over was cut up into farms.

After oil was discovered south of Pampa in 1926, builders who were directing the destiny of the city began preparing for the thousands of people whom they estimated would come here in the next few years.

The building of the New Pampa started with the construction of the Schneider hotel, the first unit of the city's "million-dollar row."

In 1931, the "million-dollar row" was completed. This includes Pampa's new three-floor city hall, four-story courthouse, the five-story Combs-Worley office building.

MEMPHIS, July 15. (AP)—The finance committee of the Memphis city council has announced a budget of \$5,215.93 under that of last year. The new budget is \$31,965.35.

Methodist and Catholic Last year, another large and handsome church building, the First Christian, was completed.

Between 1928 and 1930, the mazes of a sewer system and the water system veined the earth under Pampa. In a few weeks, construction of the \$180,000 post office building is due to begin.

A Fighting Spirit Pampans have had to fight to make their town, "the queen city of the plains."

The spirit of Pampa that pioneers and new-comers have created is simply a consistent idea that Pampa is superior, and that they can accomplish anything they want because they love their city and are proud of her.

CHILDRESS— (Continued from page 1)

division point on the Denver line, were here primarily to board special trains that will make a trip both ways over the new road.

The opening ceremonies were to be held at Pampa, the northern terminus, when the special trains arrive there this afternoon. High officials of the Fort Worth and Denver and the Burlington system and state dignitaries were participating in the program.

Governor Ross S. Sterling, who came up with the Fort Worth delegation, was one of the first to awake and to reach the breakfast grounds.

The first train load of passengers over the new line came on a special from Pampa, LeFors, Shamrock, Wellington and some of the new towns along the route.

Inspectors for the railroad commission said the new road was of high standard. The route follows a course almost due north from Childress to Shamrock, then swings to the northwest by way of LeFors to Pampa.

C. S. Hunt of Dallas is here on business for a few days. Mrs. H. A. Talley of Miami is here visiting friends today.

"BLACK MEN" ARGUE LONG AND LOUD ABOUT ART OF WASHING -VERDICT IS "BY EYEBROW"

This is an argument between two "black" men. One from Borger. The other from Pampa. It all hinges on an eyelash.

The Borger man started the argument by saying, "The average person would think I couldn't take a bath in two hours if he saw me come off the plant, but by speeding up I can do it in 10 minutes.

Of course, the Borger "black" man and the Pampa "black" man never really met each other. The Pampa worker talked to a Pampa newspaperman, and the Borgerite to a Borger newspaperman.

Continued the Pampa man, "Hours of bathing will not remove every trace of carbon black." The most difficult places on the person to clean are the eyebrows, and it is a feat to clean the lashes of every speck of black.

"Nevertheless and anyhow, I can become the cleanest man in the world in 10 minutes, or come so close to it that the difference would not amount to an eyelash," the Borger man punned.

"What about the black that oozes from the pores of your skin when you sweat during those 10 clean hours?" queried the Pampa man.

The pun-despising journalists rushed from the scene but not in time to avoid hearing the Borger man say, "There's where the eyelashes come in." Then spontaneously and simultaneously, news-hound cried, "A-ha! I win by an eyelash."

Baby's Body Is Found In Cess Pool After Hunt

MINNEAPOLIS, July 15. (AP)—Twenty-months old Leslie Delano, sought six days as a possible kidnapping victim, was found yesterday, dead.

His body was recovered from a cess pool near his suburban Columbia Heights home, just a few hours before the 125 national guardsmen, who aided police and neighbors in a widespread hunt, were to have been recalled.

Whether the son of Mr. and Mrs. Ray Delano met an accidental death or was slain, coroner C. B. Thurston was unable to determine.

The catch basin, part of a sewage system of considerable length 150 feet from the Delano home, had been examined Sunday by Columbia Heights police.

The sewage line connects several homes of the neighborhood with a nearby swamp and investigators said the boy might have fallen into the system at another point, and the body have been washed into the basin after recent heavy rains.

Convert Quickest Latest Newsreel

The opening gun of the 1932 democratic convention at Chicago, Ill., fired at the 18th amendment by keynote speaker, Senator Alben W. Barkley, of Kentucky, is included in the current issue of the Pampa Daily NEWS-Universal newsreel now being exhibited at the leading local theaters.

Called to order by Chairman John J. Raskob, the 24th convention of the party gets under way with a half dozen issues overshadowing the battle that will take place for the actual business of the convention—the selection of a candidate to oppose President Hoover in the coming election.

Scenes of terror and havoc that followed the earthquake at Colima, Mexico, which struck the city suddenly during the night, are shown in another unit of the reel. The quake swept over the city toppling public buildings, hospitals, churches, and hundreds of homes, in one of the most terrible tragedies that has hit the country.

Graham McNamee, star radio announcer of the National Broadcasting company staff and the talking reporter of the screen, comments in his vivid and lively style on this and other subjects in the reel.

The strongest unit of the Bonus Expeditionary Forces moving thru Texas on its way to Washington, D. C., is caught at El Paso, the veterans, 2,200 strong, form one of the best organized units.

The opening of the trial of John Hughes Curtis at Flemington, N. J., for obstructing the search for the slain son of Charles A. Lindbergh, and Arthur Sullivan, a Somerville, Mass., young man, who smokes through his ears are other units of interest in the reel.

New Jitney Jungle Store Has Reopened

The Jitney Jungle store on South Cuyler street is open for business again after being remodeled and enlarged. The new Jitney Jungle store is 38 feet wide and 70 feet long. There is 35 feet of plate glass along the front of the store.

The soda fountain and warehouse have been moved. The fountain is along one side of the large store now and the warehouse has been moved into a separate building. The large vacant lot south of the store has been cleared and will be used for parking space. There is also plenty of parking space in front of the store. Delivery service is also an added feature.

The store where you save "5 cents on every 25 cents" is now the largest in Pampa. Robert Woodward and J. E. Kolb opened the store almost six years ago.

Tiny Insect Is Used In Pecan Industry

UVALDE, July 15. (AP)—Tiny insects, much smaller in size than their tongue-twisting name would indicate, are being used in the pecan groves of Texas in a battle against the case-borer, another tiny insect which penetrates the nut soon after it forms from the bloom.

In the past 20 years the borer has been responsible for at least a 75 per cent loss in the pecan crop of Texas, according to J. H. Burkett, of Austin, chief of the edible nut division of the State Department of Agriculture, who was in the Uvalde territory several days recently making an inspection of the pecan groves.

The insect which is being used by the pecan growers in combating the case-borer is known as the "trickagrama," and was discovered by C. E. Nickles of Brownwood, in charge of the Federal Entomological Station at that place. There are at this time 27 known insects which are enemies of the case-borer, according to Burkett, but thus far the "trickagrama" has proved to be the most effective.

Experiments are being conducted and propagation of the insect started so that Texas pecan growers might obtain a supply of the insects for distribution in their orchards. It was declared.

Hoover Slashes His Own Salary

WASHINGTON, July 15. (AP)—President Hoover today ruled himself a \$15,000 a year reduction in salary.

Smallest Cotton Acreage In Texas Since 1922 Crop

STIN, July 15. (AP)—Cotton acreage in Texas is the smallest in ten years and shows a reduction of ten per cent under last year's area due to the staple, the federal-state and livestock reporting service said today.

The cotton acreage standing July 1 was estimated at 14,192,000 acres, compared with 15,769,000 acres a year ago, the report stated.

"This is Texas' smallest acreage since 1922 when 12,562,000 acres were in cultivation on July 1," the report said. "The 8-year average (1923-30) is 17,743,000 acres.

A large part of this reduction in cotton acreage has gone into increased acreage of food and feed crops. Compared with 1931, the corn acreage has increased nine per cent, oats one per cent, barley three per cent, all tame hay three per cent, peanuts 25 per cent, sweet potatoes 20 per cent, and present indications are that all sorghums will be increased about 4 per cent.

Rotary Sons and Daughters Give Program Wednesday

A novel program, arrayed by Travis Lively, was presented before the Rotary club Wednesday by sons and daughters of members of the club. Miss Dorothy Doucette introduced the numbers on the program.

Those providing the entertainment were Dorothy Ann Dilley, reading; Jeannette Cole, piano solo; Chester Funkapillar, trumpet solo, accompanied by Harriet Funkapillar; Charlotte Rhea Malone, piano solo; Melvin Lancaster, talk on scouting; Janice Purviance, vocal solo; Florence Sue Dodson, reading; Christine Cook, piano solo; Dorothy Doucette and Virginia Rose, two vocal duets.

American Is Killed In Mexican City

EAGLE PASS, July 15. (AP)—William Gifford Clegg, manager of the Texas Electric Service company at Eagle Pass, was shot to death about midnight last night at Piedras Negras, the Mexican city across the Rio Grande. The bullet struck him in the chest.

Frank Allen, a saloon owner, surrendered to Mexican police immediately after the shooting. Mexican authorities were conducting an investigation.

Clegg had been prominent in business and social activities at Eagle Pass. He was president of the Rotary club and a director of the chamber of commerce.

Garner Does Not Talk About Politics

DENTON, July 15. (AP)—"Probably he says little about it," was the answer Evelyn Blair, niece of John Garner, vice-presidential nominee of the democratic party, gave when questioned about her uncle's nomination. Miss Blair is a sophomore student at Texas State College for Women.

"He rarely talks about politics when he is away from his office. He much prefers talking of his hobbies, fishing and hunting," Miss Blair said.

Cincinnati still has a chance to win the National league pennant.

Gubernatorial Race Is Taking State Spotlight

Where gubernatorial candidates plan to speak today: Tom F. Hunter at Austin. James E. Ferguson (appearing for Mrs. Miriam A. Ferguson) at Houston.

Governor R. S. Sterling at Pampa and Amarillo.

By R. W. Barry, Associated Press Staff Writer

AUSTIN, July 15. (AP)—Heavy campaigning or former Governor James E. Ferguson in the South Texas sector had intensified the state gubernatorial campaign today.

Ferguson was in Houston to speak for his second time in Texas' metropolis, where Governor R. S. Sterling, incumbent, was given two and one-third votes for each ballot

Counted for Mrs. Miriam A. Ferguson

two years ago. Governor Sterling was at Amarillo and Tom F. Hunter of Wichita Falls was booked for a speech within a stone's throw of the governor's mansion, where he would make his home for a period beginning next January.

That accounted for movements of the trio of active aspirants to the democratic gubernatorial nomination. Five other candidates for governor were sitting nonchalantly by awaiting election returns.

Ferguson spoke yesterday in Brenham, a section where one bloc of the much talked about "Ferguson vest pocket vote" was heretofore nestled. In the run-off two years ago, Mrs. Ferguson received a majority of 800 votes over the governor in Washington county.

Ferguson's second appearance in Houston since the big contest got under way had the politicians wondering if the Ferguson's possibly would inject some nature of a new angle into the campaign. Two years ago in the runoff Sterling rolled up in Harris county 28,000 votes to Mrs. Ferguson's 12,000.

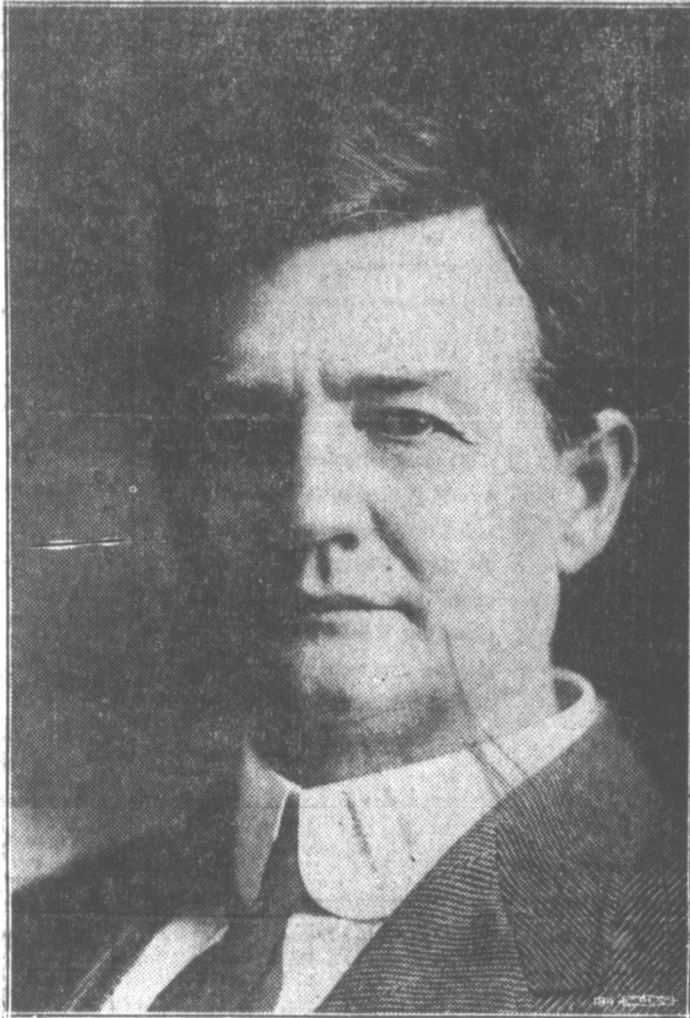

Leaving Houston, Ferguson will go to Yorktown, DeWitt county, frequently in times past a section densely populated with Ferguson voters. The fight there between Sterling and Mrs. Ferguson in 1930 was tight, however. It stood 1,739 to 1,752 in favor of Mrs. Ferguson in DeWitt county.

GO TO PERSIA

MARSHALL, July 15. (AP)—Two Texans, George P. Crouse of Marshall and William Gist of Fort Worth, have left for Persia to become members of the staff of the Persian National Railways.

Mr. Crouse will be an assistant to R. C. Mohler, chief mechanical officer of the railways, and Mr. Gist will be general foreman under Mr. Mohler. The two Texans will be stationed at Ahwaz, the mechanical center of Persia.

Former Governor Dan Moody said State Senator Walter Woodward continued vigorous stump activities, exhorting voters to keep the Ferguson's out of the governor's office. Moody spoke last night in Corpus Christi and was in the Rio Grande valley today. Senator Woodward was at Cooper last night.

C. V. TERRELL, of Wise County

C. V. TERRELL

CANDIDATE FOR HIS SECOND FULL TERM AS

Railroad Commissioner

Mr. Terrell is asking for a second full term on his record, which is in part as follows:

During his term of office, the Commission has turned back into the General Revenue Fund more than \$500,000.00.

They have tried more than fifteen thousand cases, with only four reversals, a record unsurpassed by any similar body in the United States.

Mr. Terrell was the first state official to use the half time job plan, thus helping the number of boys and girls through school, who could not have gone otherwise.

He has never indulged in a mud slinging campaign, believing that "One can never

elevate himself by trying to pull the other fellow down."

When Mr. Terrell was elected to his first full term which he is now serving, he carried 234 of the 254 counties of this great state, which was a large majority over his two honorable opponents.

Only a few of the many things which Mr. Terrell has accomplished can be mentioned, due to the limited space. However, it is believed that his faithful discharge of public duty in the past is the best guarantee of a promise to perform a like service in the future.

VARIED CLUB PROGRAMS FOR COMING YEAR OUTLINED

REPORT HEARD BY TWENTIETH CENTURY CLUB

MRS. RAYMOND HARRAH NAMED PRESIDENT FOR YEAR

A miscellaneous program of cultural interest was outlined for next year by Mrs. F. M. Culbertson when a called meeting of the Twentieth Century Culture club was held in the home of Mrs. Tom E. Pose.

The club also elected Mrs. Raymond W. Harrah, a charter member, who served very efficiently as a club reporter last year, to head the organization as president next year. The office was left vacant when Mrs. J. Porter Malone moved to Amarillo recently.

Next year's study will be opened with programs based on the book "Only Yesterday," which gives a history of the last ten years. Four lessons will be based on Russia, including the 5-year plan. There will also be programs on the world from the Pulitzer prizes of 1932 and "The Raven," a new biography of Sam Houston.

Refreshments were served during the afternoon.

Every active member of the club was present including Mesdames Lynn Boyd, Clifford Braly, W. A. Bratton, W. R. Campbell, Frank M. Culbertson, A. H. Doucette, Ivy E. Duncan, R. B. Fisher, J. M. Fitzgerald, William T. Frasier, Raymond W. Harrah, I. B. Hughey, Paul Kasahke, Tom E. Pose, W. J. Smith, H. Otto Studer, John F. Sturgeon, Edwin S. Vicars and H. H. Hicks.

Experiment of Musicians Is Great Success

DALLAS, July 15. (AP)—A musical experiment, tried here for the first time south of the Mason and Dixon line, seems to be marked for success.

Dallas' first Sunday evening "pop" concert in the great Fair Park athletic bowl, when an orchestra of more than eighty was held Wednesday evening, July 6, drew an attendance of nearly 3,000.

The second similar musical offering on Sunday evening, July 10, saw fully 4,000 people in the steep tiered seats occupied in football season by gridiron fans.

The initial event had been postponed from the previous Sunday because of rain and was given under a humid, persy blanket of unusually damp heat, which undoubtedly mitigated against attendance.

For the second program the weather gods were kind, the dry Texas heat being tempered by the well known Gulf breeze that sprang up each evening.

Modeled much after the Boston musical events, but in the open air, in recent Cleveland opera style, the programs are made up of the popular and well known classics. It is planned to give one recital each Sunday evening through July and August.

Alternate conductors are Alexander Keese, native of Chattanooga, Tenn., and sometime connected with a well known theater chain as pit conductor, and Franco Auri, recently assistant conductor for the Chicago Civic Opera company.

Increased attendance with only two concerts given, is taken as an indication that the numbers chosen meet popular favor, and executives of the "Pop Concert Association" are gratified at the marked response from cities and towns immediately contiguous to Dallas.

As a sample of the music believed most appreciated the opening program included Hosmer's "Southern Rhapsody," Schubert's "March Militaire" and "Serenade," with the chief item an initial offering of the full score of Gershwin's "Rhapsody in Blue." Soloists are featured on each program, that for the first being Miss Vin Lindhe, pianist, playing the pianoforte part of the Gershwin composition.

Ivan Dneprov, Russian tenor, was soloist on the second program, giving the clown's lament for "I Pagliacci," and the orchestral numbers included the Peer Gynt Suite of Grieg, the Schubert "Unfinished Symphony," and concluding with the grandiose grand march from Verdi's "Aida."

For Sunday night, July 17, Wm. Beller, New York pianist, will be soloist, playing Liszt's "Spanish Rhapsody," and the ensemble numbers are to include the Rubenstein "Kamenoi-Ostrov," the Tschakovsky "Nutcracker Suite," and Moskowski's "Spanish Dance."

Funeral Held For 3-Year Old Girl

Funeral services for Mamie Elizabeth Crow, 3, will be conducted at the baby garden at Fairview cemetery at 4 o'clock this afternoon with the Rev. C. E. Lancaster, pastor of the First Baptist church, officiating. Arrangements will be in charge of the G. C. Malone funeral home.

Mamie Elizabeth was the daughter of Mr. and Mrs. C. P. Crow of LeFors. She died at the home of her parents early this morning after a brief illness. Besides her parents, she is survived by three sisters, Florence, Stella, and Charline.

Webb Daugherty of Wichita, Kan., is a Pampa visitor for a few days.

CHOSEN TO HEAD STUDY CLUB

Mrs. Raymond W. Harrah

When the Senior Twentieth Century club begins its fiscal year next fall it will be headed by Mrs. Raymond W. Harrah, above, as president. She was elected to fill the place left vacant by Mrs. J. Porter Malone, left, who has moved to Amarillo. Mrs. Harrah is among the club's charter members.

BITS OF NEWS FROM NOELETTE

Mr. and Mrs. George Davis and daughter, Wanda Mae and Margie, and Mrs. Campbell are spending two weeks with relatives in Fenke, Ark.

Mrs. W. Couch and Mrs. Pepe Stenimiska and son of White Deer were Sunday guests of Mr. and Mrs. J. C. Hicks.

Mr. and Mrs. W. L. Ellis of Roxana spent Saturday night in the home of Mr. and Mrs. T. B. Cannon.

Mr. and Mrs. T. B. Cannon were dinner guests of Mr. and Mrs. A. H. Jackson of White Deer.

Mr. and Mrs. M. L. Dowd and daughter returned to their home in Lawton, Okla., after a 2-week visit spent at their farm.

Miss Maxine Evans returned Wednesday to her home in Eldorado, Kansas, after a month's visit with her sister, Mrs. R. E. Showers.

Mr. and Mrs. Albert Bartz and son, Roy, were Sunday guests in the home of Mr. and Mrs. W. J. Bartz of LeFors.

Lowell McCollum left Monday for his home in St. Joe after an extended visit with his father, John W. McCollum.

Watermelon Is Served Berean Class at Picnic

A feast of watermelon climaxed an evening of games enjoyed by the Berean Sunday school class First Christian church, last evening at Green's pasture.

Those attending were Patricia McKee, Vendell Kees, Maxine Gowen, Willie Isbell, Lorone Keith, Virginia Patton, Margaret Eastham, Helen Riggan, Alice Reedy, Alzada Gilcrease, Bessie Johnson, Mary Hinds, Zelma Cannon, Zelds Nughy, Wright Kesser, Hester Lester Josephine Gantz, Blanche Wentworth, Jerry Mitchell, Maddel Marshall, Arlene Herring, Loyd Hamilton, Emil Steubgen, Miles Marbaugh, Alvin Stevens, Bert Stevens, Wesley Martin, Sam Keith, Wayne Hutchins, Gene Bouge, James King, Clinton Meeks, Sam Branch, LaFon McKenzie, Roy Woodman, and Ray Eldridge. Mr. and Mrs. M. E. Rush and Mrs. Harry Marbaugh were chaperones.

ART THEME IS USED IN PARTY FOR CLUB HERE

MRS. H. C. WILSON IS HOSTESS THURSDAY AFTERNOON

Artists' pallets formed the talles and pictures of old masters graced the score pads when Mrs. H. C. Wilson was hostess yesterday afternoon to the Queen of Clubs. Cut flowers were used as room decorations.

At the close of the playing, the following awards were made: High club score, Mrs. Carl Boston; high guest score, Mrs. J. M. Fitzgerald; cut awards, Mrs. R. S. Lawrence, Mrs. I. B. Hughey, and Mrs. Raymond W. Harrah.

The hostess served frosted orangeade during the informal conversational period after the games.

Special guests were Mrs. Raymond W. Harrah, Mrs. Jack Mason, Mrs. J. M. Fitzgerald, and Miss Fern Hughey. Members present were Mesdames Raymond Alred, L. B. Hughey, R. S. Lawrence, A. B. Goldston, John T. Glover, Charles C. Cook, Carl Boston, O. H. Booth, and the hostess.

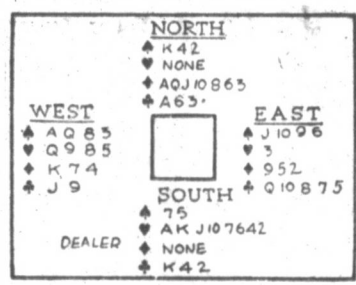

Tips on CONTRACT

MISFITTING BIG HANDS

Long suits with top strength and some possibilities in side suits are tempting to players who like to bid slams, but one essential element in trying a slam without undue risk is an indication some time during the bidding that hands of partners fit.

In point is a hand in which the dealer held eight hearts with the tops and no diamonds. His partner held seven diamonds with tops and no hearts. There was game in either suit but no slam. Neither partner heeded the warning of the other. A slam was bid by each. Each brought a double. The declarer was set vulnerable.

Charles Ellsworth dealt the hands at a game in Chicago as follows:

South opened the bidding with four hearts, a sound offering based on the fact that his hand was probably useless unless hearts should be trumped and game was obviously possible with slight assistance from partner.

Such a preemptive original bid means that partner should pass, even with a fair hand. He is not warranted in carrying the bidding toward a slam without support in the suit bid by the dealer and strength in other suits also.

West passed. With his blank in hearts, two aces and a king north envisioned slam possibilities, especially if diamonds would happen to fit the north hand. He bid five diamonds. South very properly bid five hearts. Assuming that north would not bid without strength, south hoped for a slam if north should have as much as the heart queen or two small.

West passed again and then north erred. He, too, should have passed in the realization that south could not stand for diamonds, and poor distribution might wreck a slam. Dazzled by his honors, north bid six diamonds, which was passed around to west and there doubled. South took the contract to six hearts and west again doubled.

South lost the ace of spades, which west led at once, and the queen of hearts. At diamonds north would have lost the ace of spades and the trump king.

West passed again and then north erred. He, too, should have passed in the realization that south could not stand for diamonds, and poor distribution might wreck a slam. Dazzled by his honors, north bid six diamonds, which was passed around to west and there doubled. South took the contract to six hearts and west again doubled.

Lions To Attend World Session In Los Angeles Soon

Business meetings on the first Tuesday in each month, with a minimum of business at other sessions, will be the plan used by the Lions club this year, it was explained yesterday by John Sturgeon, new president.

Mr. Sturgeon and District Governor-Elect C. H. Walker, club delegates, with Mrs. Sturgeon and Mrs. Walker, were to leave today for Los Angeles to attend the international convention. Other members of the club were expected to make the trip.

Sam Braswell of Clarendon, district governor, and Julien Hyer of Fort Worth, international president, will be other Texans at the convention.

A committee to work with similar groups from other civic clubs in trying to save the designation of highway 88 was appointed. Members are F. M. Culbertson, and W. A. Bratton.

Bob Watson was announced as the new scoutmaster of the Baker school Boy Scout troop, succeeding J. A. Meek, who will be assistant scoutmaster. Visitors included E. N. Holmgren of College Station, R. M. Atterwood of Oklahoma City, Walter Jennings of Fort Worth, and C. B. Akers of Lubbock. Music was provided by Claude Hipps and his Toy Tinkers orchestra. Clarence Kennedy was program chairman.

NINE BODIES RECOVERED
MEXICO CITY, July 15. (AP)—Nine bodies had been recovered early today after a cloudburst and flood swept Saltillo, state of Coahuila, late yesterday, flooding the power part of the city. The cloudburst carried away houses and there were believed to have been many victims.

GINNING PRICE NOW LESS
HARLINGEN, July 15. (AP)—Ginners and cotton farmers of this section have reached an agreement in their controversy over the price of ginning. A cut from 30 to 20 cents a hundred pounds was agreed to, conditional upon cotton remaining at six cents a pound or less. If it goes up, the price of ginning will gradually be increased.

E. C. Nott of Abilene is visiting with friends this week.

JUDGE COBBS WILL RETIRE; ILL HEALTH IS STATED AS REASON

By R. W. Barry
AUSTIN, July 15. (AP)—Judge T. D. Cobbs, associate justice of the Fourth Court of Civil Appeals at San Antonio, has announced his retirement from the bench at the termination of his current term. He said he decided to quit public office on account of his own ill health and because of a prolonged illness that had incapacitated Mrs. Cobbs. Judge Cobbs was on the court for thirteen years and was one of the state's best-known appellate justices.

Judge W. O. Murray, district judge at Floresville, had announced as a candidate for the place held by Judge Cobbs and was making an active race. Judge Cobbs' retirement left the name of only Judge Murray as a candidate in the July democratic primary for the associate

justice of the court.

Carmichael Returns
Colonel H. H. Carmichael, assistant Texas adjutant general, has returned from Washington and New York. He escorted four young men of Texas, one of them his own son, to West Point, where they were accepted for military training. They were Richard H. Carmichael and Neywood Robert deaux of Austin, the latter only son of Mrs. Ethel Robert deaux, secretary in Governor R. S. Sterling's office; Weldon Porter of Hillsboro and Cecil Coombs of Dallas.

Garner Likes Plan
John N. Garner, Texas candidate for vice-president of the United States, has expressed a hope Texas

will continue to adhere to the traditional custom of placing names of presidential electors on the general election ballots instead of reverting to the plan proposed by the last legislature to have voters pass directly upon the names of the presidential candidates.

The legislature, in the interest of a short ballot, enacted a law directing a direct vote. Texas is entitled to one elector for each member of the National Congress, twenty-three in all this time.

Mrs. Jane Y. McCallum, secretary of state, has a copy of a letter written by Speaker Garner to an attorney expressing his opinion it probably would be unwise to change over from the old system.

Mrs. McCallum previously had expressed belief that the new law was unconstitutional, but the attorney general's department held it was valid. Still not satisfied, and fearful that unless the matter were gone into thoroughly to determine its absolute legality, Mrs. McCallum suggested to former State Senator Thomas B. Love that he bring a

FLY CAUSES ILLNESS
MIDLAND, July 15. (AP)—Four members of the R. D. Hamlin family, farm residents of this county, have been made acutely ill by the bite of a strange and unclassified fly. The insect has been sent by the chamber of commerce to the entomological department of A. and M. college to learn an antidote and classification. The fly is shaped like a beetle with a proboscis like a boll weevil.

mandamus to get the matter before the Texas Supreme Court for a final decision.

Senator Love said he believed the law obviating the necessity of placing the electors' names on the ballots was constitutional and that it was a good statute, but he agreed to initiate court action so there would be no doubt.

He announced he would take steps to test the law in ample time for the matter to be threshed out before the November election.

OLDTIME NEWSPAPER RECEIVED ONE WEEK AFTER PUBLICATION

CLARENDON, July 15. (AP)—Fifty-three years ago Clarendon colony, now the seat of Donley county government, boasted of the only newspaper in the Texas Panhandle. It was published at Sherman, Texas, and delivered to its readers one week after the date of publication.

Sometimes the delivery was speeded up a little. The editor explained in an issue of August 2, 1879, that "with a first-class team and light rig, the distance from Sherman to Clarendon can be made in six days."

Clarendon colony, which at that time was the only settlement in the Panhandle, except Fort Elliott at Mobeetie, received its mail from Dodge City, Kansas. Supply trains from Dodge City came by way of

Fort Elliott to bring the colony its merchandise. The site of the colony was six miles north of its present location, on the north fork of the Red river.

The publication came to be known as "The Agitator" and a temperance periodical. It was published monthly, and edited by James H. Parks, a state surveyor, and the Rev. L. H. Carhart. Its slogan was "Christianity, Education, Temperance, Civilization—Westward." "No whiskey forever at Clarendon," was found frequently in the paper.

A copy owned by Harwood Beville, Amarillo attorney, who with his father, A. H. Beville, Sr., bought the old newspaper and founded the Clarendon News, mentions that a new colony was being founded in

Highway Work To Be Started Soon

SNYDER, July 15. (AP)—Expenditure of about \$175,000 for construction work on 21 miles of state highway No. 7 between Snyder and the south Garza county line, is expected to start after completion of a survey on the route, now under way.

The highway, newly routed in part, will replace a strip of faulty macadam laid several years ago. Plans call for 100-foot right-of-way.

Hale county. It also described a trip through the "Palador" canyon. There were many cattle in the Panhandle even then, and contrary to the belief of many, the late Col. Charles C. Goodnight was not the biggest owner. The paper mentioned "D. T. Beals & company, 30,000 head; Captain Goodnight, 12,500; Creswell, 8,000; Littlefield, 8,000," and others with smaller herds.

34-foot roadbed, with base of native caliche and asphalt topping. The state will bear all costs of the project under its new policy of not requiring county assistance in construction. At least \$100,000 of the \$175,000 is expected to be spent locally, for teams, truck hire, labor and native material.

It has been announced at Lubbock that the Scurry county road will be joined by a new 100-foot highway through Garza county and a corner of Lynn county, connecting with the concrete-paved highway of Lubbock county, closing the last gap in the route between the South Plains and the Bankhead at Roscoe.

TAX RENDITION SMALL
SHERMAN, July 15. (AP)—Representing a loss of \$465,000 from the 1931 figures, a total city tax rendition of \$12,406,874 for 1932 was made by the city tax equalization board to the city commission. The rendition for 1931 was \$12,871,954, which was a loss over the preceding year of 1930, of \$402,752.

SUBS ASSIST SENS TO WIN 5TH IN ROW

HARRIS SMACKS HOMER AND KUEHL SCORES IN 5-4 GAME

By GAYLE TALBOT, Associated Press Sports Writer. Winners of their last six games, the best sport they have made since early in the race, Washington seems to be getting along very nicely without Carl Reynolds.

Dave Harris, who stepped into Reynolds' right field berth after the latter's injury was broken by E. Funch of the Yankees, has had a prominent part in this winning streak. He and Joe Kubel, who is filling in for Joe Judge at first base, are doing so well, in fact, that it will be difficult for Walter Johnson to send them back to the bench when the ailing regulars return. Harris hit a home run and Kubel scored a run yesterday to give the Senators a 5 to 4 verdict over St. Louis in 12 innings.

Cleveland's Indians, meantime, went right on with their campaign against the East's "Big Three," clubbing the Yankees into submission, 11 to 3, in the opener at the stadium. That made it five straight for the Tribe and 11 out of its last 14 games.

Jimmie Foxx banged No. 35 with two on base to help the Athletics defeat Detroit, 9 to 2. The Boston Red Sox were stopped short when the White Sox nosed them out, 9 to 8, in eleven innings.

Bill Swift pointed out another good reason for Pittsburgh's leadership of the national league when he set Boston down to 1. The rookie gave up only four hits in registering his sixth straight win.

Chicago remained two games back by beating Brooklyn, 4 to 1, behind Guy Bush. Riggs Stephenson knocked across the winning run with a double in the eighth.

The Cardinals run of four straight wins was ended when the Giants piled into Dizzy Dean in two innings to win, 6 to 3. Chick Hafey returned to the Cincinnati line-up, but his presence failed to impress the Phils, who slugged Carroll and Caden for an 11 to 6 victory.

Maxie Rosenbloom Is Still Champion

BUFFALO, N. Y., July 15. (AP)—Buffalo's bid for the second half of the disputed light heavyweight championship has failed and Maxie Rosenbloom, the Harlem clown, still rules the 175-pounders as far as the New York State Athletic commission is concerned.

One Buffalo star, George Nichols, already held the National Boxing association light heavyweight crown, when Lou Scozza, the former champion, entered the ring last night and attempted to dethrone "Slapsie Maxie."

But for Scozza it was a vain, if gallant, attempt. He took a bad cuffing from the Harlem Harlequin through the first ten rounds and a closing rally could not pull him home in front. Rosenbloom won the decision and there were no legitimate protests.

A crowd of 10,000 saw the match. Rosenbloom weighed in at the class limit of 175 pounds. Scozza was two pounds lighter.

WRESTLING LAST NIGHT

By The Associated Press.

ALBANY, N. Y., July 15. (AP)—Jim Browning, 230, threw Karol Zbysko, 208, Chicago, 39:20.

SPRINGFIELD, Mass., July 15. (AP)—Charley Strack, 230, Oklahoma, won from Bull Komar, 235, Chicago, (Komar disqualified in third fall).

WASHINGTON, July 15. (AP)—Gino Garibaldi, 208, Chicago, threw Fred Grobmeier, 200, Harlem, Ia., 32:00.

J. L. Noel was transacting business here Saturday.

MEMPHIS CLUB COMES SUNDAY

Postponed Match Will Be Played at Country Club Links in Afternoon.

The Memphis Country club golf team will come to Pampa Sunday afternoon to play a game scheduled for last Sunday but postponed because of the absence of more than half the Memphis team from the city. The first foursome will tee off promptly at 1 o'clock and Dr. H. H. Hicks, chairman of the tournament committee of the local club, is anxious that all local golfers be on hand promptly.

Foursomes will be started over both front and back nines at the same time so that every player will get away in the least possible time. Memphis has one of the crack teams of the Cap Rock league. The visitors handed the Pampa Country club a bad beating in Memphis last month.

Local golfers hope to turn the tables this time, playing over their home course.

Paavo Nurmi Has Guard at Door

LOS ANGELES, July 15. (AP)—The Paavo Nurmi problem, not to be confused with one of similar name confronting the International Amateur Athletic Federation, has descended upon the local organizing committee of the Olympic games.

All of which accounts for the guard posted today in front of the phantom Finn's cottage door in the Olympic village.

Amateur status troubles to the right of him, injury troubles to the left of him while to the front the news photographers' cameras vied for the taut curves of the greatest distance runner of all time.

To put it mildly, Nurmi objected. It was his plan to find hiding in the crowds of the Pueblo de Nuestra Señora la Reina de Los Angeles, far from the prying eyes of those who were sent to search out the greatest in the city of champions.

Finally Paavo was prevailed upon to accept the hospitality of the athletes' sanctuary, with benefit of added guard. Which to the thousands who have tried to crash the gate of the international settlement without so much as setting foot inside the 200-acre fenced and patrolled premises, will be hard to understand.

The organizing committee having solved Nurmi's problem of privacy, he can now limp along on his good leg until July 28 when the I. A. A. F. gathers here to decide what constitutes exorbitant traveling expenses and incidentally, whether he may fulfill his ambition and run the marathon of the 1932 Olympiad.

PLAY STARTS TODAY

LONGVIEW, July 15. (AP)—Match play began today in the first annual invitation golf tournament of the Pine Crest club here. Sixteen players were in the first flight. Joe Lesage of Longview won the medal yesterday, shooting a 74. There were 52 contestants.

TYLER TAKES BEAUMONT TO 4-3 CLEANING

GALVESTON CLUB HAS BUS TROUBLE AND ARRIVES LATE

By BILL PARKER, Associated Press Sports Writer.

The end of a long uphill fight blossomed into a realization last night when Dallas tied Beaumont for first place in the second half pennant fight in the Texas league.

The tie came about when Beaumont lost a 4 to 3 game to Tyler while Dallas won a forfeit game from Galveston. The Buccaneers failed to arrive at Dallas from Galveston by game time. The Steers waited until 9 p. m., and when word was received that Galveston would not be able to appear for the game, Umpire Palmer declared it forfeit to Dallas, 9 to 0. The South Texans experimented in bus traveling. Trouble was encountered near Huntsville and later at Corsicana. Galveston is subject to a league for failing to appear on the field at game time.

Beaumont had to bat against the pitching of Biggs who let them down with six hits and outpitched Herring, a Beaumont ace who recently joined the club and won his first four games. Catcher Sullivan was the big shot for Tyler. He connected for three hits and scored a pair of runs. Two of his hits were home runs. Greenberg hit his 21st home run of the season for Beaumont to give him the league lead.

Houston remained in the thick of the pennant scramble by beating Fort Worth, 8 to 3. The bombarding trio of Joe Medwick, Homer Peel and Gene Rye, outfielders, gave a plain and fancy hitting exhibition that proved a headache to Screengate and Piegel, Fort Worth hurlers. Rye iced the attack with three triples.

San Antonio invaded Longview and immediately went on a hitting spree to beat the Cannibals, 12 to 4, collecting 17 hits of Conlan, Taylor and Griffin. House hurled commendable ball for San Antonio. Longview made six errors to help pave their own road to defeat.

SO YOU'RE THE GUY WHO'S BEEN SWIPING MY KIRK'S COCO CASTILE! NOTHING LIKE IT FOR BODY ODOR—EH, BILL?

YOU OUGHT TO KNOW, JIM! YOU WERE ABOUT AS POPULAR AS A HANGNAIL UNTIL YOU STARTED USING IT!

If you are UNPOPULAR and don't know WHY

There's something *deceitful* about perspiration odor: You may be a terrible offender yet never know why your friends are dodging you! But why take chances, when a bath with Kirk's Coco Castile will rid you of body odor instantly...leave skin and scalp as fresh and clean-smelling as a woodland breeze! Made of 100% pure coconut oil, it gives a fuller, more penetrating lather than ordinary soaps. It goes deep into the pores, removes every trace of oily, dirty film, then rinses off in a flash. Best of all, it's *unscented*; leaves no telltale hospital smell. Try it—for hands, for bath, for a wonderful shampoo. You'll be amazed at the difference. **Avoid imitations. Look for the arrows. Always ask for Kirk's by name.**

Kirk's Coco Castile Ends Body Odor

KIRK'S COCO CASTILE is mild and delightful...yet against several very common bacteria tests prove it 5 to 10 times as germicidal as carbolic acid. This big bargain cake is made by the largest soap makers in America.

KIRK'S ORIGINAL COCO HARDWATER CASTILE

MADE ONLY FROM SEEDS OF THE COCONUT PALM

NOTE DIFFERENCE IN WEIGHT

THE THREE OTHER BRANDS WEIGH 2.25 LBS. EACH. KIRK'S COCO CASTILE WEIGH 2.5 LBS. EACH.

SELECTION OF OLYMPIC TEAM STARTS TODAY

CARR-EASTMAN BATTLE WILL BE DECIDED IN FINALS TOMORROW

By ALAN GOULD, Associated Press Sports Writer, PALO ALTO, Calif., July 15 (P)—

Out here in the beautiful Santa Clara valley, America called the roll today of her greatest battalions of track and field warriors for the purpose of picking the Olympic team.

On the outcome of these tryouts, including preliminaries today and finals tomorrow, will depend the makeup of the greatest battalion to carry the nation's shield into action in the tenth Olympiad at Los Angeles two weeks hence.

Barring the distance events in which the United States admittedly is outclassed, the final tests here, combined with the 1932 national championships, figure to produce an aggregation well equipped to meet the challenge of the rest of the track and field world.

The American forces will be based on the first three men in each of the 18 events on the program. The meet brings to a climax the series of sectional tryouts and puts on display a host of champions and record-holders, youthful sensations and seasoned campaigners, plus a sprinkling of "dark horses."

Most of the main arguments, including the Bill Carr-Ben Eastman duel in the 400 meters and the fight of at least a dozen sprint aces for the six coveted places in the dash lineup, will not be settled until tomorrow.

The extraordinary class of the field in almost every event has had critics all tangled up in arguments for days, centering around such "naturals" as the Eastman-Carr affair, the sprint rivalry among Toppino, Wykoff, Metcalfe, and Tolan, the challenge of 1500 meter runners to Gene Venzke, the shoutput duel between Eric and Sexton, and the high hurdles test among Salting, Beard, and Keller, all world record smashers.

George Voight Is Ready For Britons

LON BEACH, N. Y., July 15 (P)—George Voight apparently is back in form again and that may be bad news for the British Walker Cup golf team.

The New York amateur, troubled for several months by an injured leg, subdued the Trick Lido Country club layout in 70 strokes yesterday to tie three professionals for the lead in the opening round of the Metropolitan Open championship.

Women Athletes To Compete For Olympic Places

CHICAGO, July 15. (P)—The country's women athletes, crowded out of the Olympic picture by activities and arguments of the men's division, will do some important running, jumping and throwing of their own tomorrow at Dycbe stadium, Northwestern university.

The occasion has been labeled the National Women's A. A. U. championships, but that angle of the affair will be well subordinated by the fact the girls will make their bids for places on the Olympic team. More than 200 entries from 22 states have been received, and the list includes nearly every American record holder.

Stella Walsh of Cleveland, who has decided to run for her native Poland in the Olympiad, has entered the meet, but her new duties at the Polish consulate in New York probably will not permit her to compete.

This eventuality will be offset by the busy presence of Mildred (Babe) Didrikson of Dallas, who entered with the avowed intention of mopping up in just about everything. She aims to win the A. A. U. team title all by herself and expects to qualify in several Olympic events. On the basis of previous performances she probably will do as she plans.

The Texas girl is entered in the 80 meter hurdles, the javelin and the baseball throw, in which she holds the American records, as well as the 100 meter dash, the high jump, shotput and the discus throw, in which she has made highly creditable marks.

Tyler Sports Have New Club Manager

TYLER, July 15 (P)—Frank Kitchens, a home town boy, is the new manager of the Tyler Sports of the Texas league.

He will take office tonight amid somewhat unfavorable circumstances as the Sports begin a series with the Beaumont Exporters, league leaders and first half champions. He succeeds George Sisler, famous for a time as the game's greatest first baseman and more recently as one of the few men to quit a job because of a salary cut.

Kitchens has been managing the Monroe team of the Cotton States league, becoming available when the circuit suspended operations for the season. He is an old time Texas league player, having been with Austin, Galveston, and Houston. Austin has been out of the league for a long time and Wichita Falls is out now. He has managed clubs since his Texas league days in several towns, among them Tampa, Mobile, and Piedmont.

Kitchens is widely known in East Texas.

Teachers' Warrants Not To Be Taxed

ELGIN, July 15. (P)—Two announcements of interest to tax payers in Texas have been made by Chas. N. Shaver, state superintendent of public instruction and candidate for his elective term to that office. These concern the July payment per capita apportionment and the exemptions of teacher's salary warrants from the federal 2-cent tax.

Mr. Shaver announced that another payment of the school apportionment will be made about July 15. A dollar of the apportionment was sent out June 15, making \$12 a child for the year. Teacher's salary warrants and checks drawn by school officials to meet the obligations of the schools are not subject to the federal 2-cent check tax, Mr. Shaver has been notified by the U. S. Internal Revenue office. Figured as a saving of 18 cents each year for each teacher, this ruling will save the state \$10,000 on salary warrants, Mr. Shaver advised.

FIRST TANYARD IN 1837

NACOGDOCHES, July 15. (P)—The first tanyard in this part of East Texas was near the pioneer village of Melrose, ten miles east of here. It was established by Sam Hamill, a native of Tennessee who came to Texas in 1837, on a small branch stream which he named "Tanyard Branch." The revulet still bears the name, although the man who built the tanyard and christened the branch has been dead 75 years.

The nomination coming as Dick had predicted gives him new confidence that he guessed right. Any way, the democratic nominee has

Prophet Names His Son For Roosevelt

LAMESA, July 15. (P)—Roosevelt will be the next president of the United States if there is anything to "namesakes" predicting such a lofty position. Dick Lattimore, a farmer three miles northeast of this city, more than a year ago predicted that Roosevelt would not only be the next democratic nominee, but the next president of the United States, and feeling so sure this would happen, named his baby, born at that time, "Roosevelt Lattimore."

The nomination coming as Dick had predicted gives him new confidence that he guessed right. Any way, the democratic nominee has

ANTS DESTRUCTIVE

COLLEGE STATION, July 15. (P)—Methods developed by the Texas Agriculture Experiment station for killing fire ants as a protection of citrus trees are to be used by the biological survey of the United States department of agriculture for conservation of quail and other bird life that suffers from this pest, experiment station officials have announced. The biological survey workers have discovered that fire ants are destructive to quail eggs at the time of hatching and have requested the experiment station to send them its bulletin, No. 435, covering control of fire ants.

one namesake in Dawson county, and the boys all about are saying "Dick is no mean politician."

Prisoner Presents Counterfeit Coins

AMARILLO, July 15. (P)—A prisoner in the city jail wanted cigarettes and he wanted to spend his own money for them. He was obliged with the result that he was held for federal officers.

A messenger dispatched for cigarettes returned to the police station, pitched a half dollar taken from the prisoner's belongings onto the glass top of the sergeant's desk and announced, "I can't buy cigarettes with that."

It was counterfeit. So were a number of other coins taken from the man's purse.

H. P. Williams of Groom made a business trip to the city Wednesday.

"I bet I can throw you, Bill Brown. I'm eating Kellogg's Whole Wheat Flakes every day and my dad says they build hefty muscles."

"Huh, that's nothing. I'm eating 'em too. Let's rattle!"

EVEN youngsters know what a wonderful "building" food whole wheat is. And that's what gives Kellogg's Whole Wheat Flakes their nourishing, healthful goodness.

But you can't imagine how delicious whole wheat can taste till you try these toasted flavorful flakes. They are so full of flavor, children and grown-ups both delight to eat them.

You'll also get a welcome surprise when you see the big package. It brings outstanding value in these times of busy buying.

Kellogg's Whole Wheat Flakes are ready to serve with milk or cream. Almost a meal in a bowlful. Put them on your grocery list today.

Oven-fresh in the red-and-green package. Made by Kellogg in Battle Creek. Quality guaranteed.

The Faithful Cheat

BY RUBY M. AGYES

SYNOPSIS: When Sandra Kent finds herself successful in asking John Anderson to give her a position in the Congo she is suddenly most unhappy, for she loves Mark and is dismayed at the prospect of his being so far away. She will not marry him without wealth, however, because upon her conviction that a marriage for love is a mistake she is determined to be unfaithful. Her sister, Flora, tells her she is wrong, but she is not convinced. Her father, however, is so impressed with her conviction that he is married and separated from his wife, Sandra knows that Anderson loves her, although he has never told her so, and has maintained the attitude of a guardian and adviser. She decides to tell Anderson of her feeling for Mark, and he seems to realize this. "Are you coming with me?" Sandra asks him.

Chapter 5

AN UNOPENED BOOK

"ANGRY? Why should I be angry with you?" Anderson asked. Sandra made a gesture of hopelessness.

"I only thought—perhaps..." She broke off, and he did not ask what she meant.

There was a little frown between Sandra's eyes as they went back to the ballroom.

Intimate as she was in some ways with her father she yet always made her feel as if she never really got anywhere near to him. All she

ry it. And yet, wasn't it by her own free will that she had taken this step? To remove Merriman from her life?—Sandra looked into her heart and denied that it was—surely she had been forced by the insecurity of her position.

She thought suddenly of her sister's carelessly spoken words that evening.

"It's such a pity John Anderson can't get rid of Evelyn—he'd make such a splendid husband for you!" and her own reply:

"I don't want him for a husband, thank you."

That was not the truth either—she never seemed to be free to speak the truth. If Anderson had been a single man she would have married him, always supposing he had asked her.

She looked up at him again critically. How amused people would be if they could really understand the relationship between them, if she could tell the world—"Yes, he gives me everything I want—and asks nothing in return—he has never even kissed me."

Nobody would believe her—Flora always declared that men were never disinterested, and Flora understood men so well.

"John must be the exception that proves the rule," Sandra thought,

There is something troubling you, Sandra."

even as she asked herself if Anderson might not be playing a waiting game and would some day in the near future render his account.

Just lately, perhaps influenced by her love for Merriman, she had not let John know how terribly hard up she really was, and he never asked—she always waited until she could summon enough courage to give him some hint.

How horrified Mark would be if he knew, and rightly horrified, judging from his own standpoint. Sandra had so often heard him say that he would never buy a thing he was unable to pay for. Well, she would not have had very much of anything if she had allowed a rule of that kind to govern her life—from childhood she had adopted her father's easy code—get what you want and pay when you can!

John touched her arm now, and when she looked up, he said:

"We might as well dance, shall we?"

"If you like—"

But after a few turns of the room he steered her out of the throng again into the quiet winter garden where a short while ago they had sat and talked.

"There is something troubling you, Sandra," he said.

To her annoyance ready tears sprang to her eyes, even while she shook her head.

"Oh, no—"

He said, ignoring her words:

"If it is money, you know quite well that I—"

She broke in swiftly.

"John, why do you? I mean, why should you be so kind to me? I have no earthly claim on you—and yet—"

Anderson smiled—

"Mayn't I spend my money how, and on whom I please?"

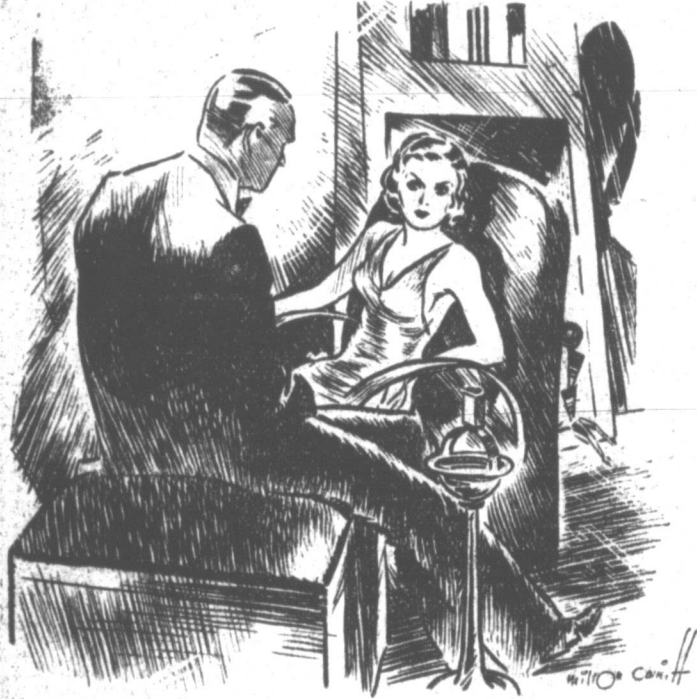

"Of course, but I never seem to deserve it, or to give you anything in return."

He was silent for a moment, looking away from her with grave eyes.

"Perhaps some day your turn will come," he said.

(Copyright, 1932, by Ruby M. Agyes)

Sandra and Mark meet tomorrow for the last time before he sails for the Congo.

What did all men really think of her? What did all men really think of women who allowed them to give them extravagant presents? His face betrayed nothing—neither love, nor disapproval, nor jealousy—perhaps it was because he was so much older than she that he had learnt to control his feelings so perfectly. If Flora knew of their friendship she never alluded to it, and yet, surely she must sometimes wonder, knowing that the ungenerous allowance she gave Sandra would not purchase fur coats or hundred dollar frocks. Life was such an insincere thing—with which people seemed to have entered into a great conspiracy of pretence.

They pretended to like one another when they did not, they pretended to believe in one another when they devoutly distrusted—they pretended to be happy and gay when all the time they were profoundly miserable.

"And I am the same," Sandra told herself. "So why should I judge the others?"

She looked up at the man beside her—he too was always pretending—pretending not to love her, when some seventh sense had long ago warned her that he did—and yet—might she not be deceiving herself even in this?

Why should he love her? A man as rich and influential as he was could have loved almost any woman—was there any reason why his choice should have fallen on her? No, there was no reason, any more than there was a reason for her own love for Mark Merriman.

People talked so much about free will, and it was such a negligible quantity when one was faced with the great things of life—like a straw tossed whichever way the wind of circumstance chose to car-

CHICAGO WHEAT UP

CHICAGO, July 15.—Grain prices made an early upturn today, influenced by relative strength of the Liverpool wheat market owing to scantiness of shipments from Argentina. Total Argentine wheat exports this week were only 465,000 bushels against 1,973,000 last week and 1,626,000 a year ago. Opening at 1/2-3/4 advance, Chicago wheat futures held near the initial range. Corn started 1/2-5/8 higher and then continued firm.

CHICAGO, July 15.—Wheat: No. 2 red 47 1/2-48; No. 2 hard 47 1/2-48; No. 2 yellow hard 47 1/2; No. 2 northern spring 48 1/2. No. 1 mixed 47 1/2; No. 2 mixed 47 1/2-48. Corn—No. 2 yellow 33-33 1/2; No. 3 yellow 32 1/2; No. 2 white 33 1/2-34. Oats—No. 2 white 19 1/2-21; No. 3 white 18 1/2-20.

TRIPPERS

(Continued from page 1)

RAPID CHANGES OF SCENERY INTERESTING

Picturesque, indeed, is the scenery unfolded as one moves from Pampa over the Denver Northern. As motion of the train and realization of the history-making journey thrilled the Pampa trippers, their eyes scanned level wheat fields, where lately the song of the combine harmonized with the symphony of hammers of rail-laying crews. Then swiftly the road-bed carried the train over ravines, giving travelers the illusion of being in a plane, looking down upon a magic carpet of green patterns, studded with hundreds of oil derricks. And from the forest of towers rose at intervals lazily the smoke from the carbon black plants. Here and there were gasoline plants and booster stations, with white steam puffing from exhaust pipes.

This picture quickly merged into the not unfamiliar sandy country of central Gray county, where trees are more abundant, where cattle range the rolling hills, and oil derricks continue plentiful. Almost barren in spots, but potentially a garden spot perhaps, the country traversed by the Denver Northern revealed farms increasing in number, new towns springing up, cotton fields in abundance, row crops in luxuriant growth, cotton gins instead of oil industries, smartly appointed towns older and prouder, lazy streams with much sand and little water, and on to Childress, terminus of the new railroad. Thous and will "discover" this almost virgin empire by means of travel over the Pampa-Childress railroad.

OUTLET TO SOUTH IS VERY IMPORTANT

For merchants looking to a larger trade territory, wholesale houses needing better transportation to the south farmers rejoicing in a shorter route or their products to Central Texas and the Gulf, the new railroad is of paramount importance. To little farming communities and new townships, it gives an opportunity for growth and development of better markets. To the mammoth oil and gas field, with many related industries, the connection means somewhat cheaper freight rates—a factor appreciated in these days of

small profit margins. Twenty-four hour freight and passenger service downstate will mean keeping trade in Texas which formerly went to Oklahoma, Kansas, and Missouri points. Opening a potential agricultural empire, the ribbons of steel will add values to property, furnish greater taxable wealth for public institutions, and give stability and arouse optimism in all the towns affected. And having been completed when all other railroad construction in the country was abandoned, the Fort Worth & Denver Northern occupies a unique position in the railroad world.

LITTLE TOWNS FEEL IMPULSE OF PROGRESS

The bigger points—Childress, Wellington, Shamrock, Pampa—made a real contribution to intermediate communities in working for the new railroad. And these smaller points—Abington, Smithdale, New Loco, Lillie, Samnorwood, Denworth, Magic City, Melidava, Wesco, and Elco already are pulsing with life engendered by railroad construction. Several of them will in time make substantial little towns. Smithdale is named for Jack Smith, ranchman, is 15 miles north of Childress and already has stockyards and cotton platform. New Loco, 8 miles south of Wellington, is grading the main street and has a gin under construction. The station has been completed. Lillie, north of Wellington, is excited over an oil test. Samnorwood, also named for a ranchman, has a general store, graded main street, stockyards, and platform, and a station will be erected.

Denworth, this side of Shamrock, is one of the most impressive of the infant towns. A postoffice and a number of stores have been built, stockyards constructed, and traffic begun to serve oil wells nearby. Melidava was named for Mel B. Davis, Pampa ranchman who headed the railroad committee and did monumental work in behalf of the new road. Wesco and Elco are sites of large oil field industries.

Childress, the railroad center of the eastern Panhandle, has the railroad shops and will benefit directly from the new line. Wellington appreciates the road because of enlarged markets for her agricultural products. Shamrock, where the Panhandle oil and gas field begins, will get new homes, better markets, and more rail service as the result of the new line. Pampa, of course, is in line to profit more than all, being larger in industries, raising millions

Lipscomb Contract Will Be Let Today

AUSTIN, July 15.—The Texas highway commission met today to open bids and consider contracts for \$2,500,000 worth of road construction work in a large number of counties.

Improvements would be over 235 miles of highways and nineteen bridge projects. Bids were asked on 70 miles of concrete paving. Counties and highways affected by the proposed contracts were: Fannin, highway 5; Navarro, highway 31; Madison, highway 21; Panola, highway 8; Jim Wells and San Patricio, highways 12 and 12-A; Anderson and Henderson, highway 40; Childress, highway 4; Cottle, highway 4; Harrison and Panola, highway 43; Gregg and Upshur, highway 15; Ovalde, highway 3; Haskell, highway 51; Freestone, highway 7; Terrell, highway 3; Rains, highway 42; Dallas, highways 121 and 40; Lipscomb, highway 117; Colorado, highway 71; Gonzales, highway 3-A; Kerr, highway 81; Erath, highway 10; Live Oak, highway 66; Ochiltree, highway 117; Tarrant, highway 10; Atascosa, highway 97; Liberty, highway 132; Milam, highway 69; Jefferson, highway 87.

Battling Nelson, one of the greatest lightweights of all time, always was careful with his scratch and has caught enough to live on now.

CHUCK WAGON BREAK-FAST AT CHILDRESS

Railway officials and other visitors found a chuck wagon breakfast—late one too—very, very acceptable. John R. Scott was in charge of the affair, with chuck wagons and cooks from the B. P. Smith Lazy D ranch and the Crews Brothers ranch doing the work. Bacon and eggs, "sourdough" biscuits, bun and coffee, and a beef trout in—with our erstwhile citizen, R. S. (Bob) Brashears playing host and grinning his way about—made the meal enjoyable and then some. Citizens galore were on hand with their cars to take the trippers to Fair park, where the breakfast was served. Swelled—in numbers by scores who joined the Pampa special at stops en route, the invading trippers fittingly lent enthusiasm and spirit to the occasion.

Woman Questioned In Drowning Case

SWEETWATER, July 15.—A "mystery" woman was under investigation today as authorities continued their efforts to solve the strange case of L. M. Parks, Sweetwater business man accused of murdering for the drowning of his wife.

District Attorney George Mahon revealed that the woman's arrest letters purportedly bearing on the case. Mahon did not disclose the woman's identity or say where she was apprehended.

However, he said Parks had been questioned closely concerning the letters and their suspected relation to his wife's death. Mahon said he admitted having associated with the woman.

Since his arrest Tuesday Parks has maintained his innocence. He claimed the drowning of his wife at Lake Trammell a week ago was accidental. Parks was transferred to San Angelo yesterday for safe keeping.

Mahon's investigation showed that three insurance policies had been taken out recently in Mrs. Parks' name.

The Parks family went to the lake the day of the drowning to fish. Their two children, Rebecca, 6, and Hattie Jo, 10, were present. In relating his version of the drowning, Parks said he had gone to their parked car, about 70 yards from the lake shore. It was then he heard his wife call, as if in distress, he said.

Texas Fruit Is On English Market

HARLINGEN, July 15.—Plans for regular shipments of Lower Rio Grande valley grapefruit the coming season by steamship to England and other foreign markets, are being perfected by the Blue Star line, a British concern, according to information received by C. D. Wallace, secretary of the Valley Shippers' association. The fruit will move through Houston and Corpus Christi.

The arrangements are being made by F. A. Gilbert of Seattle, representative of the line, who was in the valley some time ago, conferring with shippers.

South Plains Crops Suffer Huge Loss

LUBBOCK, July 15.—Continuation of the heavy rains in the wheat belt of the North and South Plains, will result in a 75 per cent loss of the 1932 crop, in the opinion of George Roach, president of the Lubbock Grain exchange.

Loss has already been heavy, due to moisture content in the wheat and inability to get combines into the fields. Mr. Roach estimates the loss at five cents a bushel, as the average wheat is now testing around 55 pounds to the bushel instead of 60 pounds for No. 1.

In the Crosbyton area, Mr. Roach explained, the barley crop has gone and wheat is threatened by weeds and moisture. In the O'Donnel area the same condition exists while in Swisher and adjacent counties, weeds are quickly taking the crop.

Russian thistles and tumbleweeds have wrought considerable damage to growing crops. In many fields, railroad men who have been over the territory report, the weeds are as high as the wheat.

Joe McCarthy, manager of the Yankees, appeared at second base in the first professional ball game in which Babe Ruth ever played. That was at Baltimore, April 22, 1914, when the Babe pitched and McCarthy played second base for Buffalo. Ruth gave the Bisons six hits, Baltimore winning, 6 to 0. And, by the way, McCarthy got no hits that day.

PAMPA DAY MADE POSSIBLE BY THE PAMPA DAILY NEWS WITH THE CO-OPERATION OF PAMPA MERCHANTS

COTTON IRREGULAR

NEW ORLEANS, July 15.—Cotton had rather an irregular opening today. While October declared two points at the start, in sympathy with lower cables than due, December advanced two points as the northern market opened a little higher due to reported price fixing by mills there.

The market later had a moderate rally on a steady opening of stocks and October advanced to \$5.70, up 8 points from the opening low, while December was quoted at \$5.79, only two points up from yesterday's close.

Near the end of the first hour the market was steady and at the highs, but owing to continued good weather in the belt, sentiment appeared to be somewhat bearish. Trading in the first hour was very moderate.

Specify Pampa-made products.

Horseman Escapes Death by Lightning

CROSBYTON, July 15.—J. T. Morrison and Clarence Puckett, farmers living across Blanco canyon from this city, recently had narrow escapes from death by lightning.

Mr. Morrison was riding one of a mule team dragging a harrow. The other mule was knocked over onto the animal he was riding, by the force of the bolt, and the rider nearly pitched to the ground. It was some minutes before he could drive the team to the barn. He had spells of blindness for the rest of the day.

Mr. Puckett's experience was very similar. He was riding a plow when one of several bolts that hit the field crashed near the team.

OIL INDUSTRY READY TO TAKE LEAD IN UPTURN OF BUSINESS

By BENNETT WOLFE
Associated Press Staff Writer

TULSA, Okla., July 15. (AP)—The oil industry in the views of its captains, is stripped for action and ready to set the pace in business recovery just as soon as the expected upswing in general economic conditions definitely arrives.

The industry's statistical position and encouraging developments are cited in support of the prevailing belief that the oil business is in a strategic situation to reap every benefit from improvement in other lines.

Some of the facts lending hope to oilmen's leaders are:

1. Liquidation of the heavy gasoline stocks that crowded the industry's outlook 18 months ago.

2. Reduction of inventory values, thus making for appreciation from any future price improvement, and the saving of millions of dollars through curbing of organizations and reduction of operating expenses.

3. Curtailment in development of new production and in exploration work in the interest of both conservation and economy. Much wildcat acreage has been relinquished and rentals on other holdings have been cut.

4. Refining improvements that are resulting in better products at lower costs.

5. The halting of seemingly thoughtless expansion of marketing facilities.

Oil men are agreed the industry's improvement has been retarded by the rainy weather of the late spring and early summer. Whenever rain or cold checks operation of the country's automobiles, the oil business feels a decided effect.

This year the seasonal climb in gasoline consumption has been delayed far beyond expectations, and for that reason all oil men are hoping for favorable weather during the rest of the tourist season. And they're doing their best to promote motorized vacations.

Meanwhile, such leaders as A. L. Beatty, president of the American Petroleum Institute; E. B. Reeser, president of the Barnsdall corporation and past head of the institute; W. N. Davis, a vice-president of the Phillips Petroleum company, and Harry H. Smith, general secretary of the Midcontinent Oil and Gas association, are working to effect a permanent cure of the industry's ills.

Directors of the Institute have been called by President Beatty to meet at Colorado Springs July 22, to consider immediate problems.

Reeser, Davis and Smith have been leaders in a movement to have the industry adopt unitized operations, in which, they declare, lies a permanent remedy for present ills. Unitization calls for a general development of an area through a pooling of acreage, drilling costs and production.

An exhaustive study of the plan was made recently by Earl Oliver, chairman of the American Institute of Mining Engineers, with the assistance of more than 200 engineers and lawyers. Their collective finding was that the root of the oil industry's troubles lies in the ancient legal concept that petroleum is akin to wild game, becoming property only when reduced to possession.

As the fundamental step to be taken for stabilization of the industry, their report recommended a revision of the law of oil and gas to make impossible the "legalized robbery" that exists under the principle that oil belongs to anyone who can produce it.

Former Pampan Taken In "Ring"

OKLAHOMA CITY, July 15. (AP)—Eight men were under arrest here as alleged members of a counterfeiting ring. Officers said they would be turned over to federal authorities tomorrow.

A ninth man, allegedly the engraver of bogus bills, was sought and pending his arrest the names of those in jail were withheld. However, officers declared they held a former Pampan, Tex., chiropractor and Pampan hotel owner, and that others have been identified tentatively as members of a ring which worked in that city during the oil boom.

A plant allegedly was found in a north Oklahoma City apartment. Officers were searching for additional evidence in the form of counterfeit currency and plates.

Doukhobors In Financial Strife

PRINCE ALBERT, Sask., July 15. (AP)—Rival Doukhobor factions have descended on this city where Peter B. Verigin, their leader, is serving an 18-month jail term, and from the series of conferences being held may come a decision for the Doukhobors, a religious sect, to migrate in a body from Canada to Mexico.

Should such a decision be reached it will, it was said, entail the launching of a business deal involving many millions of dollars.

J. N. Hackney, St. Paul, Minn., of the international colonization corporation, is here holding himself in readiness to handle the migration should the plan be proceeded with.

KILLS WIFE AND SELF

WICHITA, July 15. (AP)—Joseph S. Seals, 60, an unemployed painter, Wednesday shot and killed his wife, Bess, attempted to kill his daughter and another girl who rented a room at the place and then shot and killed himself.

Mrs. Murray Freundlich and children, Arthur and Sylvia, will leave Sunday for a visit of three months with Mrs. Freundlich's parents in New York.

G. O. P. Will Use Oratorical Guns

COLUMBUS, O., July 15. (AP)—Republican forces marshaled some of their heaviest siege guns into Ohio today for one of the first big broadsides of the presidential campaign.

Heading the list of party leaders were Secretary of War Patrick J. Hurley, Postmaster General Walter F. Brown, U. S. Senator Simeon D. Fess, Thad H. Brown of the Federal Radio commission and Edward Martin, assistant postmaster general.

Hurley, principal speaker before Ohio's republican platform convention tonight, is expected to vigorously answer for the national administration the acceptance address of Governor Franklin D. Roosevelt of New York, democratic presidential nominee.

Sister MARY'S KITCHEN

BY SISTER MARY, NEA Service Writer.

Not so many years ago muskmelons and watermelons were the only melons commonly known and marketed throughout the country, but with modern shipping facilities making it possible to send fruit to the "far corners of the map," the housekeeper finds she must know her melons when she goes to market. No fruit is harder to select because there is such a large family of them and they all have their peculiar characteristics.

Regardless of variety, all melons must have heat before they can reach maturity, so the weather conditions throughout the country have much to do with their quality. Melons must be ripe and they must mature on the vines. They may ripen after picking without harming the flavor providing full growth was allowed before harvesting.

The time-honored practice of thumping watermelons with the fingers is a reliable test. A full grown, ripe melon has a dull, muffled sound when thumped, while a green melon rings with a metallic sharpness. In other words, the ripe melon says "plunk" and the green one says "plink."

The color of the under side should be noticed. Pale yellow, lemon or warm ivory colors with a sort of warty roughness indicate ripeness. A warm yellowish green rather than a bright clear green on the top is desirable. There's a thin, film-like covering all over the surface of a watermelon. When the melon is ripe this covering will peel off like dry wax if the thumb nail is drawn across it.

Avoid Mis-Shapen Melons. Round or long melons are equally good, but those which are mis-shapen should be avoided. Large melons are more desirable than small ones, but a heavy small melon is preferable to a light-weight large one.

The color of the seeds in watermelons has little to do with the maturity of a melon since the seeds naturally range from white to brown and black.

Over-ripe melons are as undesirable as immature ones, but they can usually be detected by softness when the melon is pressed with the thumb and by the dull appearance of the rind. In watermelons

many yellow veins through the green surface is an indication of over-ripeness.

Most persons know the sweet, refreshing flavor of the honeydew melon. Its crisp watery texture and its attractive color, shading from a clear tender green to almost white, make it particularly inviting for hot summer days. They are served at almost any meal of the day—icy cold as a breakfast-fruit or light dessert, cut in cubes and chilled in a tart fruit juice as an appetizer, or combined with sections of oranges and slices of pineapple they

Tomorrow's Menu.
BREAKFAST: Chilled melons, cereal, cream, fish and rice hash, toast, milk, coffee.
DINNER: Kohl-rabi au gratin, toasted cheese sandwiches, lemonade, cap cakes.
DINNER: Tomato juice cocktail, mock filet mignon, stuffed green peppers, new cabbage in lemon sauce, romaine salad, watermelon sherbet, sponge, cake, milk, coffee.

A perfect summer dinner salad. When shopping for these melons select those of an evenly colored creamy-white or pale-green rind and a pleasantly fragrant aroma.

Varieties Are Many.
The honey melon, which made its debut a few years ago, is very much like the honeydew. It has a sweeter flavor and is of a more melting texture, but is used and served the same as the honeydew. In shape it's perfectly round. Its rind is an evenly colored pale yellow and is closely netted. The same pleasing fragrance indicates a good melon.

The casaba melon has a deeply furrowed, very hard rind. It has a thick meat, not quite so sweet and less watery than the honey melon. Its color is of deep cream to golden and its texture is smooth and firm.

Persian melons are natives of the west and are rich and flavorful. Their color is vivid, of a rich salmon pink. While they are deliciously juicy they are not crisp. The rind is netted much like cantaloupe but the shape of the melon itself is flat at the ends rather than pointed, as most cantaloupes are.

Melons are ideal warm weather fare because their water content makes them cooling and delightful. They are so easy to serve that they are a boon to the cook and if used in variety they don't become monotonous.

Springs of mint, sections of lemon, orange and lime are often used with honeydew, honeyball and casaba melons to emphasize their delicacy. Never serve ice over a cut melon.

REVOLT IS BOTTLED
RIO DE JANEIRO, July 15. (AP)—The Brazilian government today had the Sao Paulo revolt within the borders of that state and it proceeded immediately to follow up its advantage by mobilizing men, money and munitions to complete the task of putting the rebellion down.

Mrs. Neal Cross and little daughter, Elizabeth Ann, of Weatherford, Okla., are visiting for two weeks in Pampa. Mr. Cross is manager of the Pampa Milling company.

Chill the fruit thoroughly before cutting and serve on a bed of ice if you will, but when ice is put over the surface of a melon the delicate flavor is decidedly injured.

Party at Ranch Is Much Enjoyed

Tired but happy, 150 mothers and children returned from LeFors late Wednesday following the Sivton Army Mothers picnic. The party spent the day at the Mel Davis ranch. Ensign and Mrs. J. F. Kirkman were in charge of the picnic. Pampa trucks and cars took the picnicers to LeFors.

At noon a dinner of potato salad, sandwiches, ice cream, cake and drinks were served. During the afternoon ball games were played, races and contests held and a good time was had by everyone. Prizes donated by Pampa merchants were given the winners in each event. A weiner roast closed the occasion.

American Fliers En Route Home

MOSCOW, July 15. (AP)—James Mattern and Bennett Ghiffin, American fliers whose attempt at a new round-the-world record ended in a bog near Borisov, Russia, a week ago, left here for Berlin on their return journey to the United States.

The fliers took the regular passenger plane at 7 a. m. They had the instruments of their wrecked plane, the "Century of Progress," with them, carrying them under their arms.

The plane is due to arrive in Berlin this evening.

International Sunday School Lesson

BY DR. J. E. NUNN

General topic: THE PASSOVER.

Scripture lesson: Exodus 12:21-28.

21. Then Moses called for all the elders of Israel, and said unto them, Draw out and take you a lamb according to your families, and kill the passover.

22. And ye shall take a bunch of hyssop, and dip it in the blood that is in the basin, and strike the lintel and the two side posts with the blood that is in the basin; and none of you shall go out at the door of his house until the morning.

23. For the Lord will pass through to smite the Egyptians; and when he seeth the blood upon the lintel, and on the two side posts, the Lord will pass over the door, and will not suffer the destroyer to come into your houses to smite you.

24. And ye shall observe this thing for an ordinance to thee and to thy sons for ever.

25. And it shall come to pass, when ye be come to the land which the Lord will give you, according as he hath promised, that ye shall keep this service.

26. And it shall come to pass, when your children shall say unto you, What mean ye by this service?

27. That ye shall say, It is the sacrifice of the Lord's passover, who passed over the houses of the children of Israel in Egypt, when he smote the Egyptians, and delivered our houses. And the people bowed the head and worshipped.

28. And the children of Israel went away, and did as the Lord had commanded Moses and Aaron, so did they.

Passover which we study in this lesson.

The Protecting Blood

Of primary significance in the procedure of that eventful night was sprinkling of the blood of the slain lamb upon the doorposts of every Israelite's house. This was to be done before the feast was eaten. And the warning was given that none should "go out at the door of his house until the morning." The blood on the doorposts was the protection of all within. The word of the Lord was, "I will pass through the land of Egypt this night, and will smite all the firstborn in the land of Egypt, both man and beast; and against all the gods of Egypt, I will execute judgment: I am the Lord. And the blood shall be to you for a token upon the houses where ye are; and when I see the blood, I will pass over you, and the plague shall not be upon you to destroy you, when I smite the land of Egypt" (verses 12, 13).

Death of First Born

"It was midnight. Throughout the land in every Israelitish home expectant souls waited. As darkness came on, the lamb had been slain, the blood had been sprinkled on the doorposts; the feast had been prepared and eaten; nobody except the little one slept, everybody was girded for a journey, with staff in hand, waiting. At that hour the messenger of death swept through the land, and there was a great

cry in Egypt; for there was not a house where there was not one dead." Only those who were behind the blood-sprinkled doors escaped the plague. God's word was fulfilled.

It was enough. Pharaoh called for Moses and Aaron before the day dawned, and pleaded with them to leave at once: "Take your flocks and your herds, as ye have said, and be gone; and bless me alone. And with all the wealth and goods and provisions they could carry, the people of Israel were soon on their way toward Canaan.

Meaning of the Passover

The Passover, the greatest of all Israelite festivals, became an enduring memorial of the providence of God in sparing those first-born of the Hebrew exiles in Egypt; and therefore of the last awful plague; and so of the deliverance which that plague was effective to procure. The whole conception of the festival and its observance exerted a profound influence upon the religion of the people of Israel, and by its prophecy and symbolism upon Christianity. It is, in fact, difficult to imagine the Christian religion apart from the idea and typology of the Passover.

An Ordinance Forever

The Passover was to be a perpetual observance (12:14). Repeatedly in Scripture the words "forever" are added to the injunctions. It would be a wonderful dramatic and impressive object-lesson to the coming generations of God's wise and good providence with the fathers. When asked by his children about the escape from Egypt, a pious Israelite would only need to point to this festival (12:26, 27). It came to be for the Jews a sort of

national and religious Independence Day.

Christ Our Passover

In our Golden Text the apostle sees in Christ the reality of which the passover lamb was the symbol: "For even Christ, our passover, is sacrificed for us." In 1 Peter 1:18, 19, we read, "Forasmuch as ye know that ye were not redeemed with corruptible things, as silver and gold, but with the precious blood of Christ as of a lamb without blemish and without spot." And in Rev. 5:8-10 John records the song of the elders before the throne of the Lamb: "Thou art worthy to take the book, and to open the seals thereof: for thou wast slain, and hast redeemed us to God by thy blood out of every kindred, and tongue, and people, and nation." Surely Christ is our passover. He

is "the Lamb of God which taketh away the sin of the world." He died for us.

The Passover A Prophecy

The ancient ordinance of Israel was prophecy, and a symbol of the "Lamb slain from the foundation of the world." Through it and in many other revelations God directed the heart of Israel toward the great day of deliverance from worst Egyptian bondage. And the Lord's Supper is for us the memorial of his death and our deliverance, as the Passover was of the deliverance of Israel; and a prophecy of another great deliverance into the eternal habitations.

Jimmy Fox, Philadelphia Athletics' first baseman, who is leading the majors in homers, weighs 180 pounds.

OSTEOPATHS IN MEETING HERE ON WEDNESDAY

Drs. W. A. Seydler and C. P. Callison were hosts to the Panhandle Association of Osteopathic physicians Wednesday night.

Among the prominent visitors were Drs. S. L. and Alice Gants, Providence, R. I.; Dr. J. J. Pearce, formerly dean, anatomist and pathologist of the College of Physicians and Surgeons, Los Angeles, Calif.; and Dr. J. D. Huff, Dalhart.

Dr. Pearce of Amarillo, was elected to membership in the organization. Others attending this meeting were Dr. and Mrs. L. V. Cradit and daughter, Betty Rose; Dr. and Mrs. L. J. Vick, Dr. and Mrs. E. H.

PROPHETCY COMES TRUE

DENTON, July 15. (AP)—Dear E. V. White, of Texas State College for Women is disproving the adage that a prophet is without honor in his own country. Two months ago he prophesied that Roosevelt would receive the democratic presidential nomination on the fourth ballot. He did.

Mann, Dr. and Mrs. R. J. Moore, Dr. and Mrs. J. Francis Brown, Dr. and Mrs. Howard Gants, Dr. M. E. Harris, and Dr. J. H. Chandler, all of Amarillo.

The women were entertained at bridge in the home of Dr. and Mrs. Seydler. The doctors joined them after a business meeting in which Dr. S. L. Gants gave an interesting discussion on the principles and practice of osteopathy.

"CASE DISMISSED"

HOUSTON, July 15. (AP)—A motorist, up for running a red traffic light the other day, bespoke an excuse that appealed to City Judge Fred Turner as eminently sound. "Well, judge," said the defendant, "it was this way. I was driving along when all of a sudden I felt something hot down my back. The fellow in the car next to me had tossed a lighted cigaret down my shirt."

"I saw the light was red, but I ran through it anyway. You see my back was getting red, too, and I was in a hurry to catch that fellow and find out what it was all about. It was an accident."

"Case dismissed," said Judge Turner.
