and A. W. Turner, San Antonio veteran, were both shot, prob-ably fatally, when a mental patient seized a gun and started firing in a crowded pullman car at San Marcos at 11:30 a. m. today.

Curtis, shot three times, and Turner, shot twice, were taken to the San Marcos hospital while afficers and possemen took up the man's trail through the residential section.

The man, whose name was given as William F. McWilliams, who has been in the mental ward, at the base hospital, Fort Sam Houston, jumped from the train and fled immediately after the shooting.

The manner in which McWil. liams obtained the gun was not known. As he ran through al-leys he stopped momentarily to fire back on Sheriff M. M. Wren, Deputy Sheriff Lee Green, City Marshal, R. F. Magruder, and thers who followed him in a running gun battle

NEW YORK, June 16 (AP)-The stock market crept tenaciously higher in guiet trading today, although it met resistance as it approximated the peak levels of the upswing a fortnight ago on formation of the bond pool. There were some net advances of fractions to 2 points at the finish, although the list as a whole was nominally changed. The closing tone was steady. Sales approximated 900,000 shares.

"Tickets" Also Will Be Given **Careful Drivers** 

The City of Pampa gives free sickets to persons caught violat-ing traffic ordinances—buc it costs you money when you "tell the judge.

"But," asks Manager George Limerick of La Nora and Rex theaters, "why should not careful drivers be rewarded?'

Mr. Limerick and city officials talked it over. Then the theater man made a proposition. Begin-ning Monday, he will give the traffic officer six tickets good for use at the local theaters. The officer will give a ticket to the six most careful drivers he sees each day. The plan will be used 30 days. So when the motorcycle pulls

up alongside, it means you'll get a ticket. But whether it is to see the judge or your favorite mo star depends on your driving.

### TRIBUTES TO SCOUTING

"Gentlemen of the Boy Scouts of America, to you is due the gratitude of this nation.

Through your patient service, and wise direction. you are building into the future that kind of character which is founded upon eternal truth. You build a national fortress set upon the everlasting rock, against which the waves of chance, of passion and of prejudice may dash,—but dash in vain."—Honorable Arthur M. Hyde, secretary of agriculture, U. S. government.

"The Boy Scout movement calls for the wisest and worthiest cooperation of all the estates of all the people there are many business throughout our entire social order. Here is a movement to which the home should give its unstinted cooperation. And the home should join hands with the church and the school. All the estates of the social order may well join hands, earnestly, and go forth with devotion unwavering, to set forward this worthy and far-reaching movement. The church may well give to Scouting her unstinted support and whole-hearted approval, when the church looks to the fine idealism of this movement. -Rev. George W. Truett, D. D., Dallas.

The contribution to physical adjustment, the contribution to scholarship, and the contribution to the ideal of service, has given to these million of Boy Scouts the power to leaven the lump for America. I am no prophet, I am not able to read the signs of the time, but I am convinced that it has been organizations like the Boy Scouts of America that have given us, during these times of stress and strain, the ability to look to our Flag, to love and respect it, that have given us character that will stand the test of time. Scouting is a challenge for our men to say that not only one million, but in the next three years at least three million of the more than twelve million boys of this age shall come into the fold of this organization."-Dr. Willis A. Sutton, president, National Educational association.

Scouting develops the gang life of the boy, giving he and his pals a code of honor .-- Scout Oath and Law.

Merit Badge rank, Eagle Scout.

# **A Timely Suggestion to the** MOTORING PUBLIC

**D**OR the past six years, tires have been r steadily dropping in price at periodic intervals.

No one familiar with general economic conditions and production costs could consistently recommend buying tires in advance of current needs as being desirable.

But now we have reached the point where crude rubber has declined from \$1.20 a pound in 1925 -an artificially high price-to less than 3c a pound, which is far less than it costs to produce.

Cotton, too, has dropped from more than 20c a pound to around 5c a pound, which also is less than its cost of production.

These-rubber and cotton-are the two main materials entering into the construction of pneumatic tires.

STEADY reduction in tire prices has been L brought about almost entirely by the drastic decline in price of these two basic raw materials.

PHONE

So in buying your tires now you get the benefit of these two items at less than cost of production, and the benefit also of price reductions made to give every possible inducement to stimulate buying for the purpose of keeping labor in the tire factories employed.

PAGE 1

It must be evident, therefore, that tire prices have reached bottom and that you can wisely and profitably replace such tires as are worn to a point where they will soon become unsafe, and that also you can anticipate your future requirements to some extent and know you are making a good investment.

With the need of promoting employment wherever possible, and the imminence of a substantial revenue tax on tires, I believe that you will be benefiting yourselves and the country at large by making your tire purchases now.

"Everybody's doing it!"

7 out of 10 smokers inhale knowingly-the other 3 inhale unknowingly

O you inhale? 7 out of 10 smokers know D they inhale. The other 3 inhale with-out realizing it. Every smoker inhales—for every smoker breathes in some part of the smoke he or she draws out of a cigarette.

Do you inhate? Of course you do! Lucky Strike has dated to raise this vital question... because certain impurities concealed in even the finest, mildest tobarco leaves are removed by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!

Do you inhale? More than 20,000 physi-ciant, after Luckies had been furnished them for tests, basing their opinions on their smoking experience stated that Luckies are less irri-tating to the throat than other cigarettes.

TUNE IN ON LUCKY STRIKE-60 modern mi dance orchestores, and famous Lucky Strike news fo N. B. C. network.
