HOLDS LIMELIGHT

**BOY SCOUT WEEK** begins tomorrow and with it will arrive a big program of activities in which many troops of the Adobe Walls council will participate.

Here is the typical Scout at salute and AT YOUR SERVICE!

### TWINKLES

Boys have funny, mischievous ways, but we have to have them to make into men, citizens, countrymen.

Boys are great teachers. A bad boy, associating with a normal lad, can do more damage than an average home and an average school can offset.

Parents of girls ought to boost the Boy Scout movement. A good girl is not long good if she keeps company with a bad boy.

Scouting is not intended to quell boyish pranks, but to direct it into constructive channels.

Boy Scouting does not need the spreading of emotional appeals for its sake. All that boys need is a chance to be boys, in a way that they can understand as the best way.

### THE SCOUT OATH

On my honor I will do my best:  
1. To do my duty to God and my country, and to obey the Scout law;  
2. To help other people at all times;  
3. To keep myself physically strong, mentally awake, and morally straight.

### THE SCOUT LAW

1. A SCOUT IS TRUSTWORTHY.
2. A SCOUT IS LOYAL.
3. A SCOUT IS HELPFUL.
4. A SCOUT IS FRIENDLY.
5. A SCOUT IS COURTEOUS.
6. A SCOUT IS KIND.
7. A SCOUT IS OBDIENT.
8. A SCOUT IS CHEERFUL.
9. A SCOUT IS THRIFTY.
10. A SCOUT IS BRAVE.
11. A SCOUT IS CLEAN.
12. A SCOUT IS REVERENT.

### WON'T TAKE PAY

The true Scout does not take pay for being briefly helpful or courteous. He may work for pay, but he must not receive tips for courtesies or good turns. He tries to DO AT LEAST ONE GOOD TURN DAILY.

### MEANING OF SCOUTING

What is Scouting? It has been described as follows:  
Scouting is a program of interesting, useful things for boys to do in their leisure time. These boys learn the mysteries of Woodcraft, of First Aid, Swimming and Life Saving, of Outdoor Cooking and Camping, of Stenialine, Map Making, Hiking, and Citizenship.

Like the Red Cross, the Boy Scouts of America is chartered directly by Congress and the President of the United States is its Honorary President.

The Scoutmasters are picked local men, who give their time without pay because of their interest in the boys of America.

Scouting gives boys a chance to serve their community. Its activities not only give pleasure and knowledge, but they prepare to meet community emergencies. When tornadoes struck Omaha or Southern Illinois—when flood swept on Pueblo—when earthquake and fire hit California—when powder magazines exploded in New Jersey—the Scouts moved at once their readiness to serve.

Scouting is neither military nor anti-military. It carefully avoids political or commercial entanglements. Scouting knows no race or creed or class. Troops are found alike in Catholic Parish, Jewish Synagogue, and Protestant church. It is available to farm or city alike. It is found in schools—it serves the rich as it serves the poor. Its aim is to help each of these boys to become the best citizen that he can make of himself.

His Daily Good Turn to some one is the Scout's effort to help the

## REGULATION OF TELEPHONE AND TELEGRAPH COMPANIES WOULD BE GIVEN COMMISSION IN BILL

**AUTHORITY TO MAKE RATES IS ALSO PROVIDED**  
**LOBBYISM IS STRUCK AT**  
**BILL WOULD PREVENT APPOINTMENTS OF LOBBYISTS**

AUSTIN, Feb. 7. (AP)—A bill to give the Texas Railroad commission authority to regulate electric power and telephone and telegraph companies and their rates was introduced in the Texas house of representatives today by Representative Gus Dunagan of Big Sandy.

The bill also would increase the powers of the commission in regulating gas companies and the commission would be directed to prevent discrimination between cities and towns.

Cities would have the right to fix rates which could be appealed to the railroad commission if the utility was not satisfied. Appeals from the orders of the railroad commission would be taken to the district court.

A tax of one fortieth of the gross income of the companies regulated would be levied to defray expenses of the commission.

Senator Joe Moore of Greenville introduced a bill in the senate designed to prevent the appointment of lobbyists to important official military or civil posts.

Senator Moore's bill would provide that no person could be a member of the state militia or ranger force if that person's private employment required him to appear before the legislature in support of or in opposition to passage of laws affecting the public interest. Such a person likewise would be ineligible for appointment to the board of managers of educational or eleemosynary institutions.

Senator Moore stated that the "practice of appointing representatives of certain interests to official positions in Texas" had become obnoxious and should be stopped. Considerable criticism has arisen from the fact that some of the officers of the national guard are corporation employees.

The senate passed a bill to provide compensation for 52 district attorneys who were left without any appreciable salaries under a recent ruling by the attorney general. The district attorneys would be allowed \$20 a day for not more than 162 days between now and September 1.

## Nazis, Shouting Epithets, Break Up Party Rally

BERLIN, Feb. 7. (AP)—National socialist members of the Reichstag's standing committee for safeguarding parliamentary rights shouted anti-semitic epithets today at Paul Loeb, who is not a Jew, increasing such disorder that it was impossible to continue the meeting.

Her Loeb was in the chair when the meeting began, but it had hardly been called to order when Hans Frank, a Nazi, declared his party considered it an insult to meet under Loeb, who he said, had in a campaign speech described Chancellor Hitler as "Adolf, the Slovak."

The charge threw the meeting into an uproar. Loeb was unable to speak, the socialists and communists left the meeting and Frank, vice-chairman, called a rump session. The Nazis participating declared Loeb, by insulting the chancellor, had demonstrated himself to be unfit to preside.

The government ignored the session, sending no representative.

Mr. and Mrs. H. S. Pierce returned to Amarillo this morning after visiting Mr. and Mrs. L. O. Johnson.

That J. Powell Wehrung got an invigorating cold shower he was not expecting this morning. It all came from his efforts to thaw frozen pipe in the bath room.

Not a word from Harry E. Hoare, who ordinarily writes this column, and assumed that his cough put him to bed last night.

That hot water freezes more readily than cold water, and had seeming proof when the "hot" side of the lavatory wouldn't work this morning.

## DUTCH CHASE MUTINY SHIP

**Natives Are Taking Fugitive Cruiser To Harbor To Surrender.**

BATAVIA, Java, Feb. 7. (AP)—Chased by warships, submarines and flying boats, the fugitive Dutch cruiser De Zeven Provinciën, with native mutineers in control, was west of Nias Island today, making for the Java naval base at Sourabaya.

The ship, on which the natives, mostly Sumatrans, kidnapped eight of their Dutch officers after a dispute over pay, was proceeding at a speed of seven knots, apparently economizing on fuel.

The government steamer Eridanus last night replaced the government vessel Aldebaran, which was running short of fuel, in the chase and there was little fear now that the Zeven would escape. The commander of the Dutch cruiser was ashore when the natives stole his ship. He immediately put out after them in the Aldebaran.

In the meantime, flying boats entered the race taking on fuel at Prok Harbor and proceeding under secret orders. Two submarines and the mine layer Gouden Leeuw also joined the pursuit.

Additional wireless messages from the Zeven indicated the mutineers were going to adhere to their promise to bring the cruiser into Sourabaya harbor.

## Council Has 300 Leaders and 700 Scouts Enrolled

Scouting in the 16 counties of the huge Adobe Walls council, has grown to include 400 registered troops with 700 Scouts and 300 adult leaders, or Scouters, participating, it was said by Executive C. A. Clark in talking to the Pampa Junior chamber of commerce this morning.

Mr. Clark praised A. G. Post, new president of the council, for quickly familiarizing himself with the work and making extensive plans. Boy Scouts' 23rd anniversary will arrive tomorrow, to be widely observed in Pampa and other towns of the council.

High points of the week will include the Father and Son banquet at the First Baptist church, free show at the La Nora theater Saturday morning at 10 a. m. Saturday barbecue given by Pampa chambers of commerce at Junior high school cafeteria at noon, served by the Jaycees, parade, and Scout circus in the evening at the gymnasium. The Jaycees today also discussed Frontier Days, launched last year, and a suggestion to alter somewhat this year's celebration.

## PROLIFIC SOW

RUSK, Feb. 7. (AP)—Tom Penn, Rusk stock farmer, believes he owns a champion in a sow which has brought 24 litters of pigs. Her first litter of eight was the smallest. The largest contained 14, 13 of which were raised. During one period there were 6 consecutive litters of 13 each. The sow is half Poland, half Duroc and weighs 300 pounds.

WEST TEXAS: Partly cloudy, colder in south portion, cold wave in southeast portion with temperature 20 to 24 in southwest and 17 to 20 in southeast portion tonight; Wednesday generally fair, not so cold in north portion. Notify stockmen.

EAST TEXAS: Cloudy, rain on the coast, snow in the interior of east portion, colder except in north-west portion, cold wave in south portion, temperature will be 6 to 12 in north, 16 to 20 over central, 20 to 24 near the coast, 26 to 28 on east coast and 28 to 32 on west coast tonight; Wednesday partly cloudy, not so cold in northwest portion. Strong northwest winds on the coast, subsidizing Wednesday. Notify stockmen.

OKLAHOMA: Partly cloudy, colder in extreme east portion tonight; Wednesday fair, not so cold.

## GUARDING THE ORPHANS

THESE three orphaned dachshund puppies are being closely guarded by Walter von Neudeck against any such terrible fate as came to twelve pedigreed dogs at a boarding kennel in Hackensack, N. J. Scraps of meat sprinkled with stychnine were thrown into the yard, and caused the deaths of some of the finest dachshunds in the United States, two of them champions. Professional jealousy of dog-show rivals was blamed for the outrage. One of the victims, Ade Linda von Kaype, left the three foundlings shown here.

## GRAY COUNTY FARMERS, RANCH OWNERS AND PROPERTY OWNERS COMPLETE THEIR ORGANIZATION

**Directors Are Named At Session Here Yesterday**

With completion of election of directors and adoption of by-laws similar to those written for the Roberts county organization, Gray county's unit of the Association of Northeast Panhandle Farmers, Stockmen and Property Owners is ready to function in trying to lessen the burden of mortgages.

C. S. Barrett is president and Herman Jones the secretary and treasurer. Directors elected yesterday afternoon here are Lawrence Taylor, Roy Bourland, Bill Benton, Chris Boer, and Ben Lockhart. These men will meet at 2 o'clock tomorrow in Mr. Bennett's office at the Pampa Grain company to make further plans and to arrange for dissemination of the resolutions adopted by the organization.

The Gray county unit now has 130 members and is growing steadily.

## Brady Funeral To Be Wednesday

The funeral at White Deer for Mrs. W. H. Brady, who died early yesterday, was to have been held this afternoon but on account of the severe cold has been postponed until 2:30 p. m. Wednesday.

This announcement was made this morning at the G. C. Malone funeral home, which has charge of arrangements.

Mrs. Brady was the mother of R. G. Hughes and Miss Lula Mae Brady, both of Pampa. The Rev. E. Gaston Foote of Amarillo will speak at the service.

Harry E. Hoare of The NEWS staff is confined to his home by illness.

## THREE ORGANIZATIONS WILL BENEFIT BY FULL PROCEEDS OF MATINEE ON FRIDAY

La Nora and NEWS Will Help Scouts, Welfare Board, Salvation Army.

Three organizations—Boy Scouts, Welfare Board, and Salvation Army—will benefit from the gross proceeds of a benefit matinee to be given at the La Nora theater Friday night at 11:30 p. m., sponsored by the theater and the Pampa Daily NEWS.

Each organization will share equally and will receive the entire proceeds of the show. Earlier in the

## MURRAY'S KIN IMPLICATED IN 'HOT OIL' PLOT

**WITNESS SAYS DISTANT COUSIN HELPED SET UP 'BLIND' RELATIVE IS IN TEXAS**  
**MAN TO BE BROUGHT FROM DALLAS TO OKLAHOMA**

OKLAHOMA CITY, Feb. 7. (AP)—The name of a western Oklahoma county judge was brought into the alleged attempt of certain oil men to "corrupt" the corporation commission for the purpose of running illegally produced oil from Oklahoma City as state senate investigators questioned Ellis C. Duncan today.

Duncan testified that County Judge John O. Mayberry of Savre was one of four men who allegedly attempted to deal with two members and the secretary of the commission to lift proration for \$100,000.

An additional \$125,000 to be raised through "short selling" of crude oil was to be split four ways between Duncan, Judge Mayberry, Philip Flaxman, oil broker, and Ray C. Walker, a cousin of Governor Murray's wife, Duncan charged.

He asserted the project fell thru because Flaxman "made excessive demands for expense money upon Walker" and refused to continue negotiations with large oil companies and export brokers with a view of raising the \$100,000 necessary "to pay off the commissioners. The commissioners, he testified, were to lift proration for a period of several weeks for the purpose of breaking the crude oil market so a profit could be made on "short sales."

C. A. Burns, head of the bureau of criminal identification, told the investigators today he sent a state operative to Dallas to return a witness after a conference with Gov. W. H. Murray and Col. Cicero I. Murray at the executive mansion last Wednesday night.

The witness was Ray C. Walker, relative of Mrs. William H. Murray, wanted for questioning in connection with the alleged running of illegally produced oil by a syndicate operated in an insurance office.

The witness was Ray C. Walker, relative of Mrs. William H. Murray, wanted for questioning in connection with the alleged running of illegally produced oil by a syndicate operated in an insurance office.

## County Singers To Come on Sunday

Gray county singers will express themselves in song as they want to and can" next Sunday afternoon at the Central Baptist church according to announcement of M. L. H. Baze, president of the Gray County Singing association.

The gathering will be sponsored by the singing association, to which the Junior chamber of commerce has agreed to give its support.

## Suspected Bank Robbers Charged

CLEBURNE, Feb. 7. (AP)—Raymond Hamilton, 19, and Les Stewart, 20, were brought into court here today and arraigned before District Judge O. B. McPherson on charges of kidnaping and robbery.

Announcement was made that Stewart would plead guilty while severance was granted Hamilton and his trial set for Monday, February 27.

The two young men are charged with kidnaping Henry Lyles, Lilian farmer, and his son, Oscar, on November 24 with robbing them of the father's automobile. This occurred shortly after Stewart and Hamilton were alleged to have robbed the Cedar Hill bank.

Thomas Clayton is a new member of the Junior chamber of commerce.

pus co-eds furnish plenty of fun in "Rockey Rax."

It is a comedy-satire on sporting racketeers who muscle in on American college football and attempt to make "big business" out of the game.

McLaglen has a role which is funnier than the parts he had in "The Cockeyed World" and "What Price Glory." Feminine interest is shown throughout the comedy with Ceta Nissen, Norway's pretty platinum blond as a sweetie; and Half-back boxers, wrestlers made over into tackles, gorillas who become guards, and Broadway belles who go collegiate and become cam-

(See THREE, Page 6)

## Pampan's Feet Freeze; Local Schools Close

**Mercury Drops Ten Degrees Below Zero; Maybe Lower; Water Pipes Burst.**

HENRY AYRES, former Harvester athlete and employee of the Taylor Farm dairy, became a victim by the sub-zero weather early today when his feet were severely frostbitten while he was trying to remove a milk gathering truck from a snow drift.

The vehicle became stalled at the east end of Browning and for nearly two hours the youth worked about the truck trying to extricate it. He rubbed his hands and ears and kept them from freezing, but his feet became numb while walking to town and back to the truck and while in it.

Finally abandoning the truck, he walked to the office and remarked forcefully that "it's sure cold!" On attempting to warm his feet, he felt excruciating pain and was taken to Pampa hospital, where he was resting well early this afternoon but the seriousness of the injuries could not be fully determined.

**Taxi Drivers Swamped**  
Quite a number of persons who had outside duties suffered frost-bitten ears and fingers, but no other serious injuries were reported this morning. Hundreds of citizens were late to work because of inability to start cars. Taxi drivers had hundreds of calls and could not answer all of them. Business, especially in the oil fields, slowed to a minimum but began to come to life by noon.

Schools were closed for the day when only a few pupils reported. The grade schools averaged attendance of 50, while 137 students reported to Pampa high school. No buses were operated. Supt. R. B. Field indicated school would be resumed tomorrow if the temperature

(See WEATHER, Page 4)

## Pampa Coldest City In State With 10 Below

By The Associated Press  
Temperatures close to the zero mark over most of North Texas followed today in the wake of a furious onslaught of winter which started in the Panhandle and swept southward, accompanied by sleet and snow.

Balmey weather of the last four weeks gave way quickly during the night as a strong wind whipped down from the Rocky mountains and laid siege to an ever-increasing portion of the state. Temperature drops ranged up to 70 degrees in a few hours.

Only south Central Texas and the Gulf coast escaped damaging frosts but precipitate drops in thermometers in those areas indicated that by nightfall they, too, would be in the path of the northern blizzard.

Pampa was the coldest city in the state with a temperature of 10 degrees below zero. A hard north wind drifted two inches of snow and stockmen were apprehensive. Amarillo had a reading of 8 below and other sections of the Panhandle had like temperature. The wind ranged from 20 to 40 miles an hour.

At 8 a. m. Lubbock's temperature was 4 degrees below zero and the ground was nearly covered with snow.

(See 10 BELOW, Page 4)

## Uncrossed 'T' No Basis For Case Reversal

AMARILLO, Feb. 7. (AP)—The uncrossed "T," considered by the average individual as the most extreme example of legal technicality, has had its day in the seventh court of civil appeals in Amarillo.

The American State bank in Amarillo obtained a judgment against C. W. Boothe, who operates a grain elevator at Dimmitt. Boothe appealed the case to the higher court here, the chief basis of his petition being that the citation did not show service on him but on "C. W. Boothe." The citation had been filled out in long hand and the "T" was not crossed.

The district court judgment was affirmed. Justice M. J. B. Jackson, who wrote the opinion, said: "The practice of falling to cross T's in manuscripts is of such frequent occurrence as to constitute common knowledge, and the courts are authorized to take judicial knowledge thereof. . . . Judicial knowledge is but that which is so notoriously known to everybody, including every judge, knows it, and hence there is no need to prove it."

(See THREE, Page 6)

## BARRY OUSTER VOTED IN ROW OVER BRIBERY

**JUDICIARY COMMITTEE URGES IMMEDIATE REMOVAL**

**PROFESSOR IN DENIAL**

**CLERK CORROBORATES STATEMENT OF EMPLOYER**

WASHINGTON, Feb. 7. (AP)—Immediate removal of Davis S. Barry as senate sergeant-at-arms for writing in a magazine article that some members of congress accept bribes was recommended today by the senate judiciary committee.

The case comes up in the senate automatically late this afternoon for final determination.

It was generally conceded the committee's recommendation would be adopted; Barry already being under suspension.

A motion by Senator Robinson (R., Ind.), to recommend permitting the 73-year-old officer to resign was rejected by a vote of 11 to 4.

Immediately prior to the drastic committee action, Professor William C. Johnstone, of George Washington university here, had denied reporting that he testified he was defaming congress in the article against the vice-president belief it was corrupt, and had cited Johnstone's teachings.

**Student Testifies.**  
The committee took no action on the resolution by Senator Walsh (D., Mont.) to certify the case to District of Columbia and New York state courts for criminal libel proceedings against Barry, but Chairman Norris called a special meeting for Thursday to take this up.

(See BARRY, Page 3)

## Caution Urged In Trash Fires

Warnings to business firms to put their trash boxes in good condition and to be cautious in having fires during the windy season will be given as the result of a discussion by members of the city commission last night, all of whom were present.

An electrical ordinance is being drawn and will likely be put into effect soon.

Steel for the reinforcing of concrete in the municipal swimming pool has arrived. It totals 30,000 pounds, City Manager C. L. Stine reported. Mr. Stine drew the plans for the pool.

A number of bills were studied and approved.

Bill Fraser looking in vain near the Rose building for a green gold watch lost while he helped push a car from the curb last night. He values the watch highly, partly because it was a gift. He has a reward for its return.

His Honor the mayor in the undignified work of helping Arthur Teed crank a car shortly after the sleet began last night.

Tom Rose among the earliest arrivals at the post office this morning.

Anxious fans watching the clock at the gym last night, and Coach Mitchell pacing the floor at five minutes past 8 o'clock last night. The reason: Referee Bob Fuller. A wag told Bob he must think he inherited Jimmy Walker's habit of being late.

Thomas A. Cox cold-footing it to the Santa Fe passenger station early this morning, but he was only one among many who walked to his job. The west-bound passenger was two hours late, and telephone calls about the temperature were many, said Cox.

OUR GORY HIGHWAYS

Beginning with the Revolution, this country has been engaged in six major wars, not counting its numerous Indian campaigns. These wars have cost just about 300,000 American lives.

During the last 15 years—a period of time just about equal to that consumed by the six wars—no fewer than 325,000 Americans have been killed in automobile accidents.

Our highways, evidently, are comparable in danger to our worst battlefields. These figures are taken from a little booklet, "They Call Us Civilized", compiled and distributed by The Travelers Insurance Co. It is quite possible that the biggest puzzle future historians will face will be the question why such horrifying figures did not instantly shock us into drastic action.

The number of fatal accidents last year—about 29,000—was substantially below the number for 1931. Yet the Travelers' statisticians have proved that this was almost entirely due to the fact that fewer autos were in use. The number of deaths per accident, actually increased, and approximately 1400 more people were killed in 1932, when auto registrations were about the same as in 1932.

It is high time that we tackled this problem in a really determined and comprehensive way.

Every state in the union ought to have a driver's license law, with full provision for examination of all applicants.

Our forces of traffic policemen, in cities, and on rural highways, ought to be vastly increased, and traffic codes should be enforced with the most ironclad strictness.

The authorities should be able to make periodic inspections of cars at frequent intervals, ruling off the road those which have mechanical defects that render them in the slightest degree unsafe.

We should be much quicker to bar from the careless, drunken or incompetent drivers.

Lastly, every individual driver should recognize his responsibilities more fully, observe the highway code most scrupulously and see to it that he, at least, never takes chances that can cost lives.

There is growing doubt whether business conditions in 1929 were "fundamentally sound." But most of the remedies heard on the floor of Congress certainly are.

John D. Rockefeller's grandson lost a \$5 wage and \$1.40 mileage allotment for failing to attend a county health board meeting. He'll hear from his grandpappy about that!

An Ohio sheriff has requested his deputies to wear spats all the time they're on duty. The addition of a boutonniere and a gay feather in the fedora should make rent eviction practically painless.

Considering the example the players are setting, it won't be surprising if the bat boy holds out for a bottle of pop from home run hitters.

President-elect Roosevelt offered to bet newspapermen that 80 per cent of their stories on his cabinet appointments would prove wrong. The reporters didn't bet a cent. Maybe they didn't want to influence the selections.

Moore County's Oil Hearing Set For February 17

Notice of a hearing on the application of the Shamrock Oil and Gas company to create a separate field or production unit, of the Moore county oil field has been given by the state railroad commission.

Roosevelt And Garner Will Be 'Elected' Tuesday

WASHINGTON, Feb. 7. (AP)—Franklin D. Roosevelt and John N. Garner will be formally elected president and vice-president tomorrow.

The event will take place in the chamber of the house of representatives after the senate in a body solemnly proceeds thither for joint session.

Two mahogany boxes will carry "certificates of election", sealed and sent in to Vice-President Curtis by the electors of each of the 48 states.

One box will be Roosevelt votes, and one will be Garner votes, and Garner will be sitting in the speaker's chair to hear each tally as told by the tellers.

Too much dancing is apt to affect the heart, says a doctor. Too much sitting out is sure to.

Texans To Make New Round-The-World Attempt

NEW YORK, Feb. 7. (AP)—The plane "Century of Progress," or rather another plane of the same name built from remnants of the original ship combined with parts of another wrecked plane, is ready to take to the air and soon will start on a second attempt for a round the world record.

After James Mattern of Fort Worth, Texas, and Bennett Griffin of Oklahoma City cracked up in Russia last summer while well on their way to a globe girdling record they shipped what remained of the Century of Progress back to America.

The engine and undercarriage of that ship were attached to the fuselage and wings of another wrecked plane the fliers secured and today the new Century of Progress was ready for the air. Mattern is in town and it was learned that if weather conditions were favorable he planned to take the plane on its first test flight late this afternoon.

Harry Lauder To Select Beauties At CIA School

DENTON, Feb. 7. (AP)—A Scotsman's idea of beauty has set C. I. A. girls speculating since the recent announcement that Sir Harry Lauder would select campus beauties.

The famous comedian's choice will decide the favorite section of the 1933 Daedalian yearbook of Texas State College for Women. On his recent tour of Texas, Lauder consented to choose eight from the 42 nominees whose pictures will be submitted to him.

This year's annual will feature an anti-depression theme based on Scotch motifs in coloring and humor.

The Daedalian annual was awarded 1932 all-American honors by the Scholastic Press association, winning more than nine hundred points out of a possible thousand.

NEW CAR REGISTRATIONS Registrations of new cars here include the following: Vern Savage, Ford coupe; Clyde Sharp, Plymouth sedan; G. M. Walters, Dodge sedan; John Cooper, Ford V8 roadster; C. E. Cary, Chevrolet sedan; U. E. Thorne, Pontiac coupe; E. L. Brunsom, Pontiac sedan; Sunray Oil company, Chevrolet coupe; C. N. Saye, Chevrolet coupe; Mrs. Carrie Wright, Chevrolet coupe; W. A. Bell, Chevrolet sedan; George Stevens, LePors, Ford V8 sedan; Carson Loftus, Pontiac sedan; Bethel L. L. L. L., Pontiac coupe; W. L. Simmons, Oldsmobile coupe; G. D. Cossey, Chevrolet coupe; D. M. Duncan, Chevrolet coach; T. J. Worrell, Pontiac coach; C. N. Brewer, Chevrolet truck; O. B. Gargile, Chevrolet coach; Bert Curry, Plymouth coupe.

HAT IRONER INSTALLED Tom the Hatter has installed a new Doran electric hat ironer and finisher in his hat shop. This is the same type machine as used in all the larger hat factories, according to Tom Langas, owner of the shop. Once the machine is set it is automatic in operation.

MUST DIG IN JEANS (MONTREAL)—Four men were digging on the municipal golf course. They had dug a hole five feet deep when police arrived.

"What's up?" demanded the law. "We are looking for the treasure chest with the gold in it," said the quartet's spokesman.

"What gold?" "A fortune teller told us there was a treasure chest buried on the municipal golf course."

The men were arrested for damaging property.

By COWAN. The tension relaxed, Barbara colored, glanced towards a door that led into the great man's sanctum.

"Oh, he's thought of it, too?" commented Lella shrewdly. "Well, there's one thing, you'd find out at his what his real name is."

Barbara gathered up the pile of clothes and took them to Jacques Malavie, Ltd., who, like herself, had started work at six o'clock that morning. In a room even bigger and barer than hers he now sat with the morning papers before him and removed a place next from his scholarly countenance as he asked whether she had finished.

"Yes. And I think you'll be pleased. But I won't come out to breakfast with you," all, if you don't mind.

"You must require food. You had a heavy day yesterday, remember."

"I know. But I've some private business to attend to this morning."

She pointed to a paper open at the social column. "I didn't authorize that announcement, Mr. Malavie."

Barbara smiled, the city in front of her.

Thompson Feels Proration Crisis Passed in Field

AUSTIN, Feb. 7. (AP)—Ernest O. Thompson, member of the Texas Railroad commission, enforcing oil and gas proration orders, said today "the past week has marked the turning point in the latest fight to enforce proration in the great East Texas oil field."

"This success was made possible by the splendid cooperation of the East Texas land owners," he said.

"While our reorganization and consolidation of forces helped somewhat, the major part of the credit belongs to the land owners, the people who lived in that country long before oil came."

"The land owners are thoroughly awake to the situation and are determined to protect their property and see that their rightful possessions are not dissipated in a wild orgy of wide-open wells and over-production."

E. G. Sanders, superintendent of the oil fields, was a visitor in the city yesterday morning.

--BARRY (Continued from Page 1)

Before Johnstone was called, the committee questioned Wm. Cheatham, 23-year-old clerk in Barry's office and student in the professor's classes, whom the suspended official had quoted as saying the teacher taught that congress was corrupt.

In a naive manner, Cheatham told of a lecture by the professor on lobbying, in which—without expressing an opinion on the prevalence of the practice—he described alleged operations of lobbyists.

Investigation of charges of lobbying and influencing members of congress was proposed in a resolution today by Representative Patman (D., Texas).

The investigation would be directed at statements made by Senators Glass of Virginia and Thomas of Oklahoma, and Barry.

The committee would consist of three members of each the senate and house.

ILLUSION: One of Napoleon's soldiers rose to fame on the "Burning Oven" trick. A roaring fire was built in an oven... the temperature rose to 600° F. into the oven walked the "fire king," M. Chabert, carrying several raw steaks. A few minutes later the doors were flung wide and out he stepped... safe and sound... with the steaks thoroughly cooked.

EXPLANATION: Heat rises. When Chabert entered the oven he hung the steaks above the fire, in the center of the oven, then dropped to the floor at the side, covering his head with a hood made from his shirt. He breathed through small air holes in the floor. When the steaks were cooked he threw back the hood, grabbed the steaks, and stepped out in triumph.

"The Burning Oven" is an old illusion which has played a leading role in cigarette advertising. Its modern name is "Heat Treatment."

EXPLANATION: All cigarette manufacturers use the heat-treating process. Cheap, harsh, raw tobaccos require intensive processing under high temperatures. The more expensive tobaccos, which are naturally mild, call for only a moderate application of heat.

The first Camel cigarette was manufactured under the heat-treating process. Every one of the billions of Camels produced since has received the necessary heat treatment. But remember that heat treatment never makes cheap, inferior tobacco good. It is not in heat treatments, but in more costly tobacco and fine blending, that Camels find their appealing mildness and flavor.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

BURNING OVEN STEAKS COOK BUT THE MAN LIVES! It's fun to be fooled... it's more fun to KNOW. The Burning Oven is an old illusion which has played a leading role in cigarette advertising. Its modern name is "Heat Treatment." EXPLANATION: All cigarette manufacturers use the heat-treating process. Cheap, harsh, raw tobaccos require intensive processing under high temperatures. The more expensive tobaccos, which are naturally mild, call for only a moderate application of heat. The first Camel cigarette was manufactured under the heat-treating process. Every one of the billions of Camels produced since has received the necessary heat treatment. But remember that heat treatment never makes cheap, inferior tobacco good. It is not in heat treatments, but in more costly tobacco and fine blending, that Camels find their appealing mildness and flavor. It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. You sense this quality in the mildness... the distinctive flavor... of Camels. More costly tobaccos and a matchless blend tell the story of Camel leadership in public confidence. Try Camels. Judge them critically. Compare them with others for mildness, for throat-ease, for good taste. Key your taste to quality! Camels come to you fresh and cool... in the air-tight, welded Humidor Pack that keeps dryness outside and freshness inside. NO TRICKS... JUST COSTLIER TOBACCOS IN A MATCHLESS BLEND

# HARVESTERS GIVE BORGER CAGERS THOROUGH WHIPPING

## BULLDOGS ARE EASY VICTIMS IN 34-10 TILT

### DEFEATS OF PREVIOUS YEARS AVENGED IN WALKAWAY

Striking almost simultaneously with the unprecedented blast of winter last night, the Harvester basketball team sailed into the confident ranks of the Borger Bulldogs at the high school gym and when the Pampa boys had finished rapping sheaves of field goals and free shots the unit from the "Wonder City" had been given a 34 to 10 lashing.

To the Bulldogs, the Harvester attack no doubt was as ruthless as the ferocious storm that raged outside, because, according to fans who accompanied them, the Borger youths fully expected to bring home the bacon. That they didn't was due to the air-tight defense, the calm, deliberate but sure passing and the sharp shooting of the Harvesters. The Bulldogs managed to achieve only one crisp shot and they missed it. Four of their 10 points were made from the free-throw line, although they were allowed 13 free shots. The Harvesters enjoyed their victory. It was the first time they've beaten Borger in three years.

An odd feature of the game was that more Borgerites than Pampans were on hand to cheer their respective teams. Less than 100 persons saw the game. The raging elements kept all but a few of the faithful at home. The blizzard had not struck when the Borger fans left home, it was said, and that fact probably accounted for the preponderance of Borgerites.

**"Believe me, I want a Car that's Safe!"**  
SAYS POLICE LT. AMOS ANDERSON, DARIEN, CONN.

**"I gave them all the third degree... and then picked Plymouth"**

When all thinking of safety these days, as Lieutenant Anderson says: "It's a nice feeling to have a safety-steel body between you and the other fellow's carelessness."

But safety's just one feature you get in a Plymouth... so let's pass over hydraulic brakes and the rigid-X frame.

In Plymouth you get a big, full-sized car... solidly built! You get a 70-horsepower engine... a "performance" foot on the road, yet mighty easy on your purse.

because we've engineered out the excess weight.

Also, it's a *sublimation* Six... with that smoothness which patented Floating Power engine mountings alone give.

No wonder Lieutenant Anderson "looks at all three"... and decided that Plymouth offers more for the money. Try it yourself!

## FAVORITES ARE ESTABLISHED IN CAGE RACE

### HARVESTERS MAY SEE SECTIONAL FOE IN ACTION TONIGHT

Panhandle's basketball team took it on the chin last night in a 25 to 23 melee at Hedley. Coach Mitchell learned at noon today, but whether the sub-sectional tussle would be resumed at Panhandle tonight was still uncertain. Coach Pat Gerald was scheduled to call Mitchell late this afternoon. The Panhandle team arrived home this morning at 10 o'clock after battling the blizzard all night. The boys spent most of the night in the Claude community.

Coach Odus Mitchell planned to take the Harvesters to Panhandle tonight to observe what manner of opposition the winner of the other half of this section will furnish, but whether the trip will be made will depend on whether the Hedley Owls care to buck the blizzard and plow through snowdrifts between the Donley county town and Panhandle. This, the coach will not know until he telephones Panhandle this afternoon.

It is not expected that the game will be played tonight. Neither was it learned whether Panhandle invaded the Owl court at Hedley last night and if so what the results were. Hedley was favored to win, although the Panthers won a game from Hedley at Panhandle last week. The Harvesters will meet the winner of the three-game series between the two teams in a three-games this week-end and the first of next week. The first inter-sectional game is scheduled for Friday night with either Hedley or Panhandle as the foe. Pampa has already beaten Panhandle twice, but it was early in the season. In those two games, the Harvesters scored four times as many points as the Panthers.

### CHICAGO GRAIN

CHICAGO, Feb. 7. (AP)—Eased by overnight snowfalls in domestic winter wheat areas, grain values averaged lower early today. Failure of Liverpool wheat quotations to follow yesterday's advance on this side of the Atlantic acted as a draft on the market here.

Wheat closed easy, unchanged to 1/2 cent lower, compared with yesterday's finish, corn unchanged to 1/2 cent, oats unchanged to 1/2 cent, and provisions at 7 to 15 cents advance.

## CHAMP SKATER, HALF-TEXAN, SETS EXAMPLE FOR BABE

### Dorothy Franey Soon Realized She Was a 'Dud' on The Hardwood.

By BILL PARKER, Associated Press Sports Writer.

Miss Dorothy Franey is one of the best skaters in the world. She was a member of the Olympic team last year and holds many titles on the steel blades. A short time ago she captured the Minnesota state championship and has just won substantial honors in the national outdoor speed skating championships.

There is a Texas angle to this story. Miss Franey is a sister-in-law to Manager Hopp Morse of the Dallas Steers and last fall paid the Steers and Texas her first visit. She heard much about Babe Didrikson, Ruby Mansfield, Gipsy Williams, Carrie McElroy, Kathleen Pease and Lucille Spratlan, all-American girl basketball players at Dallas.

Miss Franey had played some basketball in the East. She told Mr. and Mrs. Morse she would like to remain with them during the winter, forget her skating tournaments and try her hand at being a basketball star with one of the better Dallas teams. She went through with her plans by joining the Dallas shoe shop team, not the best, but a well-balanced team that ranks high.

She worked out with the shoe shop for several weeks. She was on a team with Carrie McElroy, twice an all-American forward, and Thelma Russell a really great all-American guard. Champion that she was on steel blades and smooth ice, she was just another basketball player trying to make good in a new competition.

So Dorothy Franey proved herself a wise girl. She decided that each athlete should stick to his or her particular event—her's was skating. She packed her bag, bade the Steers good-bye and returned East where she has resumed the art of winning ice skating titles, something which she is a finished performer.

Babe Didrikson, who is East trying to play billiards with champions, swim with champions and box with champions, could learn a lesson from Miss Franey's decision and stick to her field and basketball, her best events.

## --10 BELOW

(Continued from Page 1)

sleet and ice. Vernon reported the same minimum, a drop from 66 degrees late yesterday.

Giney had a reading of 2 above and Wichita Falls 3 above. Range was anticipated as the mercury dropped to 11 degrees in the San Angelo section. It was the coldest winter weather of this season by a margin of 7 degrees.

After unusually warm weather last night, the mercury suddenly tumbled to 1 degree above zero at Denton by morning. Sweetwater had 4 degrees, Midland 5, Big Spring 8 and El Paso 40. A 13-degree drop in 15 minutes was reported from Big Spring.

Plainview was the fifth city with a below zero temperature. The reading there was 5 below.

Walter Barlow, head of the Amarillo Grain Exchange, said the Panhandle's winter wheat crop, which he estimated to be little more than 50 per cent normal before the blizzard struck, would suffer still greater damage. The snow covering was light throughout the territory, offering little protection. Wheat already was suffering from drought, and had been damaged by recent sandstorms.

Hogs came back today on the wings of a howling snowstorm. Porkers jumped 35 cents a hundred during the forenoon trading when it was found that few hogs could arrive through the snow and cold and that there was scant supply in the pens.

CHICAGO, Feb. 7. (AP)—Poultry, live 13 trucks, firm; hens 12 1/2-13; leghorn hens 10; colored springs 13; rock springs 14; roosters 9; turkeys 10-14; ducks 9-11; geese 10; leghorn chickens 10; broilers 14-15.

**ASSASSIN**  
A drink of Hashish!  
In eleventh-century Persia a secret order was founded by Hassan ben Sabah, including in the use of the Oriental drug, hashish, and when under its influence, in the practice of secret murder. The murderous drinker of hashish came to be called *assassin* in the Arabic and from that name comes our English word *assassin*!

## Funeral Rites For Child on Wednesday

Funeral services for Darlene Cooley, aged 2, who died February 2 at La Junta, Colo., will be held tomorrow afternoon at 2:30 o'clock at the Assembly of God church, under the direction of Stephenson Mortuary.

The child is survived by her parents, Mr. and Mrs. C. C. Cooley, a brother, Lewis, and a sister, Violet, at Canyon. Mr. Cooley is an employe of the Santa Fe and formerly lived in Pampa. Burial will be beside another child who died while the Cooleys lived here.

Under favorable conditions an airplane can be seen from about 10,000 to 15,000 feet.

## --WEATHER

(Continued from page 1)

rose and roads, drifted with the snow which was light but tossed by a 40 mile wind, became passable. W. O. Workman, instructor in science, with his pupils made a standard temperature test at 9:30 a. m. and reported a low of 6 under zero. The Santa Fe observer said it was zero at 1 a. m. and 10 below at 5 a. m.

Meeting Postponed  
C. I. A. ex-students who had planned to have a regional meeting here tonight announced that the session had been postponed indefinitely. The storm cut attendance at the Pampa-Borger basketball game here last night to a hundred. Although less than a score members of the cast of the Lions minstrel reported for rehearsal last night, the production staff directed a long, hard practice and discussion of stage arrangements.

Frozen Water Pipes Burst  
Frozen water pipes, bursted automobile batteries and radiators, and uncomfortable sleeping were widely reported today. But despite the large number of unemployed men, it was not believed that there was much acute suffering. Gas stoves furnished heat to even one-room houses, and the few families which depend upon wood had a supply on hand for several days. A shortage of food was faced by a number of families, but the Welfare Board of

was prepared to care for that need. Of the hundred-odd men who were to have had work about the streets park, or at the swimming pool project, only half a dozen reported for duty. These were given work shoveling snow, but they had to warm frequently.

Temperature In Doubt  
The temperature, which which scores telephoned THE NEWS, was a debatable subject. The Santa Fe record of 10 below was generally accepted, but several persons said their own thermometers reached 12 below. At any rate, up to noon Pampa was the unofficial coldest city in the state. Dalhart, however,

**WOOD MUCH NEEDED**  
An appeal for wood to be used as fuel by families of unemployed men was sounded this afternoon by the Welfare Board. Supplies on hand quickly disappeared because of the necessity of keeping fires in many flimsy houses last night. Anything that will burn can be used, and the Board will send for it if citizens will telephone Mrs. W. H. Davis, manager, at 564. Jobless men were being used today to chop wood for several families where the husband was elsewhere looking for work. In one case, the mother was ill and the small children said the tough boards "jumped back at us when we chopped at them."

It was a weird night, with swirling snow eddying about the streets and drifting deeply in places while being clean-swept in others. The thermometer dropped its mercury 50 degrees in 3 hours as King Winter, routed by January's proverbial "spring," returned in exceptional fury. Not since January of 1930, when the thermometer went to 9 below, had it been so cold. The high wind added greatly to the suffering of everything not in shelter, and made houses hard to warm.

Wheat, long thirsty for moisture, was helped but slightly by the drifting snow, while the freeze was calculated to give still greater damage to a crop already estimated at no more than 50 per cent of normal. Henry Reynolds and three other men suffered intensely from last midnight to daybreak before friends, fearing they were in difficulty, found them. They were in a car which, being driven into the blinding snow, went into a ditch south of here on the Clarendon road. Slightly frostbitten ears and fingers constituted the most serious injuries.

You Need Buy Nothing to Enter But Read Rules Carefully

- Names must be not more than 12 letters; slogans not more than 12 words. Submit either on both or single sheet; plain white paper; one side only; but preferably on official contest information-and-entry blank, free at Conoco dealers in all sections. Elaborate presentations receive no extra credit.
- Contest closes midnight, February 23, 1933. Entries must be postmarked before that date and hour.
- Continental employees, members of their families and others connected directly or indirectly cannot compete.
- Should more than one person submit exactly the same name or slogan, each will receive full amount of any prize such entry may win. All entries become Continental Oil Co. property, and none will be returned.
- The Company reserves prior rights to phrases and slogans of its own creation, already in prepared advertising. Also it reserves the names "Continental" or "Conoco" gasoline, "Conogas", and "101" gasoline. Whether or not the winning contest name is adopted, prize money will be paid; but the Company reserves the right to use a name of its own creation if decides more suitable and more protectible under trade-mark laws.
- No purchase is required of contestants. Continental Oil Co. executives will be the judges and their decisions final. Winners will be announced over radio, and prize money paid as soon as possible after contest closes.

other fellow also to make the best of himself.

Each year new thousands upon thousands of boys join the Boy Scouts of America. They find not only fun, but also a real chance to be something more.

Every boy really wants to make good—to amount to something—to be of value in life. The ideals of our great Americans like Washington and Lincoln and Roosevelt and Wilson (and others) stir us all to ambition and the desire to be real men.

Every man faces three big problems:

1. Mastery of his own powers, keeping them keen and ready for use.

2. Getting along with other people.

3. Finding a worthy use for these powers.

The tremendous sweep of Scouting has come because it helps a boy with these problems—helps him find himself and his powers—helps him be Prepared.

Leisure time, the nothing-to-do time, can make or break any fellow. Some boys have checked up on their own time and were surprised to find that they had six or eight hours of leisure time daily.

Scouting provides attractive things to do, in this spare time—things, too, that "get one somewhere."

Scouting helps the Scout to value the great heritage which the past has brought to him in the life and ideals of America, and Scouting points the way of good citizenship through service.

Not getting but giving—not only receiving but giving back something that shall, as Lincoln phrased it—"make the world better because of our little life in it."

INCOME TAX FACTS

A professional man may deduct all necessary expenses incurred in the pursuit of his profession. These include the cost of supplies used in his practice.

Scouting helps the Scout to value the great heritage which the past has brought to him in the life and ideals of America, and Scouting points the way of good citizenship through service.

Not getting but giving—not only receiving but giving back something that shall, as Lincoln phrased it—"make the world better because of our little life in it."

and newspapers for the benefit of their patients may deduct this item as a business expense. The cost of professional journals for the taxpayer's own use also is a deductible item.

The cost of technical books is not a deductible item, being a capital expenditure, but a proportionate amount for each year's depreciation of the books may be deducted.

Insurance premiums on office or other professional, equipment and liability insurance may be deducted. Automobile liability insurance may be deducted only when the automobile is used wholly in pursuit of the taxpayer's profession, and the cost of the entire upkeep may legitimately be claimed as a professional expense.

Almost Here... THE HAPPY KITCHEN ... don't Miss it! The Pampa Daily News FREE COOKING SCHOOL Wednesday Feb. 22 Thursday Feb. 23 Friday Feb. 24 2 to 4 P. M. CITY HALL AUDITORIUM One of the red-letter events of the year for women is almost here. A cooking school it is, to be sure, but what a cooking school! This year's cooking is done in a kitchen much different from that of grandmother's day. There are hours and hours less time needed in cooking—there is less work and more fun. Today's kitchen is a real "Happy Kitchen"—or ought to be. If your three-meals-a-day seem just a succession of toast and eggs and potatoes and roast beef and pie, our cooking school is made to order for you! And if you've already found the secret to pleasure and fascination in mixing dainty new dishes and dressing up the old stand-bys in colorful new fashions—you'll love the cooking school just as much. There will be romance—mapping of uncharted seas of the kitchen... at the cooking school. Each session will glow with new ideas, appetite thrillers, the simple secrets that make cooking happier and easier. We invite you to hear dozens of practical suggestion that make kitchen hours more fun and more joy, to see demonstrated before your very eyes those inspired touches that raise the meal and its preparation to the realm of a happy adventure. Remember—everything shown in our cooking school has been tried and tested by a whole staff of "Happy Kitchen" experts.... Months of planning have gone before. There are four afternoon of enjoyment in store for you... come as our guest. The Cooking School Will Be Under the Personal Supervision of LEONA RUSK IHRIG, Noted 'Happy Kitchen' expert Set the Dates Aside NOW!
