ROOSEVELT STRATEGY WINS-- ECONOMIC CONFERENCE WILL CONTINUE; TARIFFS BARRED

TWINKLES
Mr. Hoover, the fisherman, had an all too typical role in piloting the U. S. ship of state, compared to Mariner Franklin D. Roosevelt's daring seamanship.

The \$1 mark is a good sign to tie to wheat and oil, two principal Gray county products, but not to day labor.

If they keep on devaluating the dollar, maybe we can scrape enough of them together to pitch real dollars at the city-rural frolic at the Mel Davis ranch next Monday.

The option plan for the cotton farmer may be a mild form of wagering, but with Uncle Sam prepared to hold the sack, the farmer shouldn't have any scruples about it.

Personally, we have no desire to bow to royalty, but we'd like to meet a few of the dictators.

Our articulate national administration evidently is a little too articulate. Anyhow, the speaker at London need a little better teamwork in speaking for Uncle Sam.

Nothing, it seems, is immune from the new deal. Even Mary and Doug are in it.

Some farmers are so conscientious that they wish to keep their cotton for the children; they will have plenty of work to keep busy this summer.

"FAITHFULLY YOURS"
A well-known West Texan has written a large number of friends warning them against practices of his own brother, who, it is stated, is guilty of extremely sharp practices. This writer received one of the letters. The Plainview Herald received one and wrote aptly as follows:

There is a lot of manhood behind those letters. In the hope of protecting his friends and the public that fine old boy had to write many people who would probably otherwise never have known of the circumstances which so heavily bear down on the spirits of him today.

It was no pleasant thing, or no easy thing to write such a letter to friends. But it was a manly thing.

ANTI-TRUST, OR NOT

Whether Texas can take full advantage of the federal recovery act depends much upon whether the Texas anti-trust laws are suspended, how and when. The federal act provides provisions against creation of monopolies, but it is not as strong as the Texas statutes.

It is interesting also because of the bearing the problem has on Attorney General James V. Alfred's anti-trust suit against a group of oil companies. The Texas laws, as summarized by the Texas Weekly, include the following:

"A trust is a combination of capital, skill or acts by two or more persons, firms, corporations or associations of persons, or either two or more of them for either, any or all of the following purposes:

"1. To create, or which may tend to create, or carry out restrictions in trade or commerce or aids to commerce or in the preparation of any product for market or transportation, or to create or carry out restrictions in the free pursuit of any business authorized or permitted by the laws of this state.

DECISION REGARDED AS VICTORY FOR HULL AND PRESIDENT

WASHINGTON, July 6 (AP)—President Roosevelt smiled in deep satisfaction today on receiving the news of the victory of the American delegation for continuance of the London economic conference.

The continuation was won without the yielding on his position against the demands of the European bloc for immediate currency stabilization.

News of the salvation of the conference sped quickly through the capital. Many sent congratulations to the president.

"Their bluff was called," said Senator Wheeler of Montana who called at the White House during the day.

He lauded the president for his firm position.

The president offered no public comment on the turn of events.

LONDON, July 6 (AP)—The world economic conference will continue but monetary and tariff matters will be excluded, the steering committee of the parley decided this evening.

The decision came after a furious battle and was a victory for Cordell Hull, American secretary of state who, on instruction from President Roosevelt, had stoutly insisted that the conference must continue its attempt to solve pressing world problems.

France and other members of the European gold bloc advocated formal conclusion for the major activities of the conference.

The morning session of the steering committee was unable to arrive at a decision. The evening session however was comparatively brief, ending in triumph for the American position.

In the meantime, a drafting committee, of which Secretary Hull was a member had been at work on a proposed program of future activities for the parley.

The conference therefore will continue in session for the discussion of economic questions, except tariffs.

The agenda for the conference thus was substantially modified from its original form when the conference met June 12.

An official communique issued on behalf of the steering committee said:

"Believing that the bureau (steering committee) is firmly convinced that the work of the conference should be carried on to all possible extent and as rapidly as possible, and in view of recent circumstances that countries on gold find themselves obliged to declare that they cannot take part for the moment in any monetary questions.

"The bureau is in unanimous accord that:

"First, every sub-committee should meet as soon as possible to make up a list of questions on which discussion can be carried on with most useful results.

"Second, to meet as soon as reports of sub-committees have been received in order to make recommendations for the arrangements which ought to be made for the future work of the conference." Exactly what work the conference can do was left in considerable confusion.

NEWS Carrier Boys Win Free Trip To Cavern

Concluding a subscription contest, carrier boys for The NEWS who worked and won will leave Saturday morning on a free trip to Carlsbad caverns.

They will go through the caverns Sunday and also will have a banquet at Carlsbad, with swimming. They also will have a swim at Roswell and a side-trip to the bottomless lakes.

Fourteen carriers of neighboring towns will make the trip, including 1 from Almarred, 2 from McLean, 3 from Shamrock, 1 from Wheeler, 1 from Mobeetie, 2 from Canadian, 1 from Miami, 2 from the south oil camps, and 1 from the west oil camps.

The journey will be in charge of L. O. Johnson, circulation manager of The NEWS. Local carriers who will trip include Pete Russell, Howard Snow, Basil Stalcup, Lawrence Stalcup, Ralph Walker, W. C. Stalcup, Levi Renick, Gover Lewis, J. C. Dollard, Calvin Dollard, and Eugene Weatherford.

PAMPA WHEAT MARKET
No. 1 wheat remained at 88 cents today. Yesterday's rain will delay cutting a day or two excepting east of the city where the fall was very light.

Gandhi's Son Ignores Caste

A CEREMONY hailed in India as "revolutionary" was the wedding in Poona of Devadas Gandhi, son of Mahatma Gandhi, and Miss Luxmi Raja Gopal Achariar, both of whom are pictured above after the rites. The bride is a Brahman, highest of the four castes; her husband, a Vaishya, of a lower caste.

SHOWERS SPOT THIS TERRITORY; STRONG WIND LEVELS SHEDS ON FARMS 7 MILES NORTH OF CITY

Groom Receives Inch
Of Rain; Heat Is
Broken

RAINS which fell in widely differing quantities in the plains section circled this community late yesterday, although a shower fell here. Little rain fell north of the city, but a good shower fell at Kingsmill.

The precipitation was much heavier in the western half of the city than in the eastern, with the average being about a quarter of an inch.

The South Plains received a soaking yesterday, the rains totaling as much as 2 inches. The south half of Gray county, especially the western part, was drenched by half an inch of rainfall. Childress received 2 1/2 inches.

The intensive heat of the last few weeks was broken abruptly by the rains, and many residents slept under blankets last night. The cotton belt will be particularly benefited. Breaking the drought revives the hope that average rainfall will be returned.

Rains in the Panhandle last night—Memphis and Wellington 75, Clarendon 50, Groton 1 inch, Tulsa 25, Friona and Bovina 50. Row crops were benefited. The extremely drought-stricken area north of Amarillo received only light showers.

A hard, straight wind, with possibly some twisting currents, lashed at buildings on the Charlie Thomas and H. A. Talley farms about seven miles north of the city about 2:30 o'clock yesterday, doing several hundred dollars worth of damage.

Machine sheds were leveled at both farms, crushing farm implements. At the Thomas place, the windmill wheel was torn off, while at the Talley farm a fan was badly bent and the wheel damaged. Sheds were pushed out of shape and roofs torn at the Thomas farm, where the shingle roof of the large brick house was barred in large sections.

Mr. Thomas immediately ordered shingles and called carpenters, tearing the rain wind break through. The rainfall during the storm was terrific, but lasted only a few minutes. No other damage was reported north of here.

Shortly afterward, scattering showers fell in and near Pampa, all accompanied with more or less wind. There was some, though not extensive, damage to standing grain. Cutting was in progress north of here when the rain began. Wheat is largely cut south and southeast of here. North of the city, the wheat is unusually late, many farmers failing to cut the grain on July 4 for the first time in many years.

RIO GRANDE VALLEY BOARDS UP STORES AND HOUSES AS RAGING HURRICANE NEARS

HALLAHAN AND LEFTY GOMEZ GO TO MOUND

AMERICAN SCORES RUN
IN SECOND; BABE
STRIKES OUT

COMISKEY PARK, Chicago, July 6 (AP)—Babe Ruth blazed out as the star of stars once more today to smash a home run in the third inning to give the American league all stars their winning margin in a great 4 to 2 victory over the hand picked Aces of the National league before 49,000 spectators.

COMISKEY PARK, July 6 (AP)—Forty-nine thousand fans jammed Comiskey park today to witness the most costly array of stars in baseball's history engage in the first major league all-star contest.

Connie Mack surprised the throng by sending Lefty Gomez, star south-paw of the world's champion Yankees to the mound, while John McGraw, back in the all star game for a day, countered with "Wild Bill" Hallahan, ace left hander of the St. Louis Cardinals. Gabby Hartnett of the Cubs caught Hallahan while Dickey, long distance clouter, completed a Yankee battery.

In the first inning, the National league forces went down in order. For the "home" American league team, Gehring walked and went to second as Babe Ruth struck out on three straight pitches by Wild Bill Hallahan, but was left there where Gehrig grounded out.

Connie Mack's men drew first blood in the second. Dykes and Cronin walked and Dykes scored when Gomez slapped a sharp single to left center, to put the American leaguers ahead.

In the third inning, Gehring walked and Ruth then hoisted one of Hallahan's pitches into the right field grandstand seats for a home run. Lon Warneke, pride of the Chicago Cubs' pitching staff, then replaced Hallahan on the mound for the Nationals.

Alvin Crowder, right handed star of the Washington Senators, went in to pitch for the American league team at the start of the fourth. Neither team scored in that inning.

The National league ball was put into play at the start of the fifth. The fifth inning also was scoreless.

Lefty Grove of the Philadelphia Athletics took up the pitching duties start the eighth. The McGrawmen made two hits but failed the score. Carl Hubbell of the New York Giants went to the mound in the last half of the inning and retired the side with one hit.

Jones Banquet Reservations in Big Demand Now

Almost hourly, reservations are being made for the All-Panhandle banquet for Congressman Marvin Jones to be held in Pampa as soon as the representative returns to his home district.

Letters and telephone calls to Gilmore N. Nunn, who is in charge of the banquet, are coming in from all parts of the state, showing the interest in the project. The banquet will be at the Schneider hotel with tickets \$1 per plate. Reservations must be limited to 225 persons.

Mr. Jones is completing his work in Washington and will soon know the date of his departure for the Panhandle. He will be principal speaker at the banquet.

Doug Entertained by Royalty

GLOBE-TROTTERING by Douglas Fairbanks, without his wife, Mary Pickford, has been one of the causes of trouble between them that may cause separation and divorce. Mary is said to have been displeased by Doug's liking for the English nobility, by whom he has been extensively entertained. This picture shows Doug with Lady Cholmondeley at the estate of Sir Philip Sassoon, watching the American Ryder Cup players practice.

STATES MUST BE SOUND TO OBTAIN FUNDS

Must Balance Budgets; Un-necessary Projects To Be Eliminated

WASHINGTON, July 6 (AP)—Lewis Douglas, director of the budget, proposed today that states be required to balance their budgets before the federal government permits them to participate in the \$3,300,000,000 public works program.

To President Roosevelt, the budget director suggested elimination of many of the projects submitted to the White House for immediate construction.

Disturbed by prospect of a huge increase in indebtedness through the public works program, Douglas is urging that only projects absolutely sound and useful be undertaken.

The law gives the president power to withhold allocations of funds to states if their budgets are not balanced and Douglas let it be known he wants this strictly enforced.

Roosevelt, who also has laid down a strict rule that the projects be necessary and sound is culling over the list submitted to him by the special public works board and it appears likely to be trimmed considerably.

Early announcement of projects to be undertaken immediately is expected when the president concludes his study.

GULF FURY TO PASS INLAND IN AFTERNOON

DIRECT CENTER DUE TO
LEAVE SEA NEAR
BROWNSVILLE

BROWNSVILLE, July 6 (AP)—The barometer here registered 29.58 at 1 o'clock, a drop of five points during the last hour.

Pan-American airways received word from its office at Tampico that the barometer there was 29.72, the normal figure. Weather bureau officials, comparing the two readings, said they indicated that direct center of the storm evidently would pass inland near here.

BROWNSVILLE, July 6 (AP)—Tremendous seas pounded the shoreline today as the lower Rio Grande Valley, garden spot of Texas, boarded up and waited for the tropical hurricane moving relentlessly in from the Gulf of Mexico.

Latest advice placed the storm about 50 miles east of this city and gave its speed at 12 miles an hour, which would bring it inland between 3 and 5 o'clock this afternoon.

A 60-mile wind was sweeping the coast early this afternoon, an increase of 10 miles an hour over the velocity this morning. In Brownsville, 25 miles from the water front, the wind was 35 miles an hour, a 10-mile increase.

Foaming seas washed over Padre island and parts of Brazos island were under water.

Col. Sam Robertson, owner of Del Mar resort on Brazos island, telephoned that "everything was going along fine" at noon at his place and that several persons there with him were not alarmed.

Merchants over the lower valley closed their stores during the morning and in many places erected barricades over their windows to protect them from the wind.

McAllen, San Benito, Harlingen and as far north as Edinburg reported that residents in outlying sections were flocking into the towns and gathering in the larger buildings.

Higher and higher tides were washing in as the wind piled up the seas.

Point Isabel reported that the water was level with the railroad piers but not high enough to seep into buildings.

The tide at Brazos Island, which receded a little this morning, was coming in higher than ever this afternoon.

Last night the highest tide in years swept over the unprotected coastline.

Streets in many of the smaller valley towns were practically deserted this afternoon as citizens stayed in to avoid rain and wind squalls.

In Brownsville, however, they gathered on street corners to discuss the approaching storm.

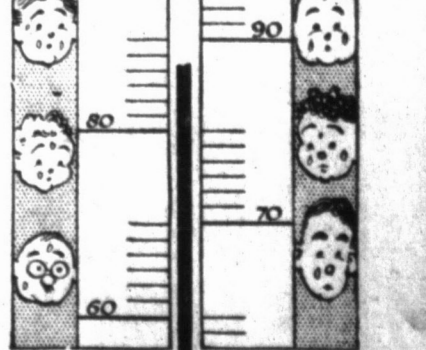

The fitful rise and fall of the barometer here during the morning indicated this section was on the fringe of a tropical disturbance. W.

'NEW DEAL'S REAL TEST IS SOON TO COME

The tremendous complexity and almost overwhelming difficulties involved in the new industrial control plan grow more evident each day. It is too early to say whether Uncle Sam has bitten off more than he can chew, but it is pretty clear that he has bitten off a lot more than anybody ever dreamed of chewing before.

Study the affair from any angle you choose; problems that look well-nigh insoluble pop up by the handful. The real test of the "New Deal" has not begun yet. It will come very soon, and when it does it will bring the old and the new conceptions of American economics into a conflict sharper and more bitter than anything the country has yet seen.

With one hand the government seeks to raise commodity prices and wages; with the other it seeks to restrain the rise in retail prices. It plans to spend around \$100,000,000 to get the south to stop production on 10,000,000 acres of cotton land. It hopes to give industry most of the advantages of monopoly but at the same time to outlaw the disadvantages. It seeks to unionize all labor but desires to avoid industrial strife. It wants the benefits of inflation without the disastrous consequences.

All in all, it is beginning a job so stupendous that one gets dizzy thinking about it. It has a hundred chances to make mistakes.

And yet, however easy it may be to point out these mistakes, however easy it may be to say that the job is simply too big for human ingenuity—it is as clear as daylight that nothing less than this could have been attempted.

We had got pretty close to the jumping off place, last March. The situation called for drastic measures; the temper of the country was, and still is, ready to support measures even more radical than those which have been adopted. The financiers and rich industrialists who are beginning to grumble about these new restrictions on individual enterprise and the profit motive ought to thank their lucky stars that the program is as conservative as it is.

Hard as it may be, this new set-up has simply got to work. It may look radical, to eyes still focused on 1929; but the one certainty in an uncertain world is that its radicalism won't be a patch on the radicalism of the program that will be adopted if this program fails. The dangerous man today is the man who puts obstacles in the way of this scheme. He is inviting measures that would make this one look like something cooked up by J. P. Morgan & Co.

German Nazi paenor says a story, has altered the Lord's prayer in several respects. No European, however, will ever change that part about "Forgive us our debts."

Announcement that a California nudist colony plans to produce play causes one to wonder what they will wear at dress rehearsal.

Despite those stories that Babe Ruth is getting old and fat, he probably is still able to cover more ground than any other outfielder in the American League—that is, while sitting down.

It is never best to be despondent, but the man taking his first airplane ride usually feels better when he's down and out.

OUT OUR WAY By WILLIAMS

SENATOR TOM CONNOLLY TO VOTE FOR THE EIGHTEENTH AMENDMENT

By R. W. BARRY
 AUSTIN, July 5 (AP)—A statement by Tom Connolly, junior United States Senator from Texas, that he intends personally to vote against repeal of the eighteenth (prohibition) amendment to the federal constitution is pretty certain, it is believed, to breed some opposition to his re-election.

For that matter, with prohibition a warm issue in Texas he was likely to have an opponent any way he turned on that subject.

There are some aggressive young democrats ardent for repeal, who can be expected to get behind a strong anti-prohibitionist for the senate.

Joseph Weldon Bailey, congressman-at-large, whose father served Texas in the United States senate, has been mentioned as an ideal candidate against Connolly. Others talked of as likely candidates are State Senator W. K. Hopkins of Comales and former State Senator A. J. Wirtz of Seguin.

Morris Sheppard, senior United States senator and one of the authors of the eighteenth amendment, is said to be planning to campaign against ratification by Texas of repeal. He also will urge Texans not to alter the state constitution to permit the manufacture and sale of 22 per cent beer. Sheppard will be coming up for re-election in 1936.

The young democrats, liberal-minded on the prohibition issue, are reasonably sure to go after Sheppard's scalp, too.

Connolly is not coming to Texas to take part in the campaign pitched on repeal of federal prohibition and modification of the Texas fundamental law to permit sale of beer.

He said he would be too busy at Washington. The vote on both propositions will be held in a special election set for August 26.

This time next year, however, Connolly will be defending his seat in the national congress before the voters of Texas.

Mr. and Mrs. W. M. Castleberry and two grandchildren returned yesterday from a trip to Houston, Galveston, San Antonio, Del Rio and other points. They were gone 18 days.

SATURDAY IS DEADLINE
 WASHINGTON, July 3 (AP)—As the campaign entered its second week instructions went out today to 22,000 workers conducting the cotton acreage reduction drive to complete their canvass of growers by Saturday night.

Oil Hearing To Be Held July 14
 The oil and gas situation in the Panhandle field will be thrown open for discussion again at a hearing of the Texas railroad commission in Amarillo July 14, according to an order issued by the commission this morning. Docket 108 was opened at a hearing two weeks ago.

At the same time, the applications of the Limer Holding company, Inc. of Bell Oil & Gas company, Parson and Holt, Phillips Petroleum company, Skelly Oil company and Charlie Back for permits to process gas in the Panhandle field will be heard. Questions concern the conservation of oil and gas and the lawful and rate taking and use are expected to be discussed at the hearing.

TAXING ACTS ARE OUTLINED

Losses in Stock Sales Will Be Deducted During Year in Which They Occur

WASHINGTON, July 6 (AP)—New taxes were imposed by the last session of congress, old ones were continued and important changes were made in the law to prevent escape from taxation through technicalities.

The new taxes, and the ones renewed, were imposed partially to give the treasury special funds with which to pay interest and establish a reserve for retiring the billions in bonds needed by the recovery program, so that bond buyers would have confidence in their investment. Some money also was needed for ordinary running expenses.

The hole plugging changes in the law were a direct result of disclosures that some of the wealthiest men have paid little or no income tax during the recent hard years. They made use of a law which permitted subtraction of losses suffered one year from income received in two years.

All the taxes imposed by the billion dollar revenue law of 1932 for the last year and the current one, were continued through 1934.

The three per cent tax which had been added to every home electric bill will, after September 1, be paid by the light company.

The Federal gasoline tax was increased for the present fiscal year from one cent to one and a half cents.

A five per cent tax was imposed on all dividends, to be paid by the corporation declaring them before they are distributed to stockholders.

A five per cent excess profit tax was imposed on all corporations, net income above 12½ per cent. The normal income tax rate on corporations was increased from 14½ to 18½ per cent.

An annual tax of one dollar a thousand was imposed on capital stock of corporations.

These taxes may be ended by the president whenever the 18th amendment is repealed, giving the treasury revenue from liquor taxes, or as soon as the ordinary budget is balanced, whichever of the two happens first.

The new law provides that all tax returns to the government may be made public under presidential regulation, to the extent that Mr. Roosevelt may order. No such order has been issued yet.

The main changes to block tax escape:

From January 1, 1933, a taxpayer cannot deduct net losses or losses from sale or exchange of bonds or stocks except in the year in which such losses occur. These limitations apply equally to individuals, corporations and partnerships, with private banks denied former exemptions.

A New Serial by Ruby M. Ayres

SYNOPSIS: George Bancroft is torn between two unsatisfactory alternatives. If Nicholas Boyd's trip to a German specialist in successful, the scar will be removed from his face and he will return to his interrupted career as a film star in America. If it is not successful, Nicholas will return to England a disappointed man. Just before he leaves, Nicholas for the first time indicates that he cares for George. Then George's mother arrives from America, and demands that George pack up at once and leave with her for a London hotel. George tells her uncle good-bye.

buy a season ticket for all the movies."

Evelyn produced a small, and very expensive looking cigarette case from her handbag, and George plunged an eager hand into her own coat pocket.

"Have one of mine," she said proudly exhibiting the case which Boyd had given her on the way back from America.

"Where did you get that case?" she asked disapprovingly.

"It was given to me," George said in a small voice; she slipped it back into her pocket.

"Talking of people who make films," Evelyn went on presently. "There was one—girl I suppose she would call herself, though she was hardly that. Bernie something or other—"

"BOYD," George said eagerly. "And she is a girl, she's only quite young. Oh, was she really on the boat with you?"

"She was very much on the boat," Evelyn answered. "A perfectly horrid little person with dyed hair." George kept her eyes averted.

"What did she tell you?" she asked.

"Oh, that she was married to a man named Nicholas Boyd. She seemed to think I ought to know all about him, but naturally I had never

Chapter 23
BISHOP'S WARNING

OUTSIDE at the gate George could hear the soft hum of the car that was waiting to take her away, and moved by an impulse she could not control she said eagerly, "I won't go if you'd like me to stay."

Edward Bancroft did not turn his head, but his bowed shoulders jerked.

"Oh get out," he said irritably.

George walked to the door, turning again as she reached it. "If you want me I'll come, any time," she said, and remembered that a few days ago she had spoken almost the same words to Boyd. And yet it was so unlikely that either of these men would want her, or send for her; it seemed such a pity, when she was so fond of them both.

She waited another moment. Then Edward Bancroft spoke. "Shut the door, there's a draught," he said. And so George went to London.

The car was marvelous, with soft cushions and a telephone through which you could speak to the chauffeur if the driving window was closed. The chauffeur was young and good-looking, and George thought the back of his head was a little like Nicholas Boyd's. She looked at it a great deal with a queer ache at her heart.

As they passed the Boar's Head Mrs. Spears was just coming out, resplendent in a scarlet hat.

George leaned out of the window and waved to her frantically. "Good-bye," she cried at the top of her voice.

Mrs. Spears stared blankly for a moment, then recognizing the girl she waved back.

"That was Mrs. Spears," she told her mother, with as much pride as if she had said "That was the Queen."

"And who is Mrs. Spears?" Evelyn asked in a martyred voice.

"She keeps the Boar's Head," George said. "She's a great friend of mine. All the men like her too. Didn't you think her hat was smart?"

EVELYN shivered, and George gave another glance at the back of the chauffeur's head and sighed. They drove for some little way in silence, then George said politely, "I hope Bishop is better."

"I don't believe there is anything the matter with him," Evelyn said indifferently. "He looks well enough, and he eats well. However, he insists on going to Germany."

George's eyes gleamed.

"And shall we go too?" she asked, eagerly.

Germany only meant one thing to her.

"Certainly not," Evelyn answered. "I have told him he must go alone."

"Oh," George said. "Another mile was covered in complete silence, then remembering her manners George asked politely, "Did you have a nice voyage?"

"Not too bad," Evelyn said more graciously. "There were some interesting people on board."

"Any film stars?" George asked. Evelyn frowned.

"I object to the word 'stars' being applied to film people," she said. "They are really no better than circus riders."

heard his name. He appears to be in England at the moment, and she is joining him."

"He's come in for a lot of money," George said almost angrily.

Evelyn turned blue eyes upon her. "And how do you know," she asked.

George told a white lie. "I read it in the paper," she said.

And from that moment it seemed to George that the kaleidoscope never ceased to turn. One dazzling picture after another was presented before her eyes so rapidly that afterwards she seemed only to remember them as miniatures.

Visits to the dressmaker; hats, shoes, marvelous underclothes, visits to the theatre, wonderful dinners and lunches, cocktails, often she woke in the morning with violent headaches. Over them all Bishop—Evelyn's husband—seemed to brood like some silent, pathetic figure who yet had no real place anywhere.

Bishop seldom spoke to George, but sometimes she would find his eyes upon her with a sort of cynical smile, and then one day he said abruptly when she came into the sitting-room and found him alone:

"Well, and what do you think of this sort of life?"

"It's nice," George said.

Bishop said, "Humph. That means you hate it. Well, you're right. Don't let your mother spoil you."

"You mean give me too many things?" George hazarded, and he answered.

"No, take too many things away from you."

"What sort of things?" His eyes rested upon her critically.

"Chiefly your innocence," he said, and then as Evelyn floated into the room, he took up his paper and re- turned to his silence.

We don't know what wedding march was played when that Irish broker married Ruth Kresger, daughter of the rich chain store magnet, but perhaps an appropriate tune would have been "I Found a Million-Dollar Baby in a Five-and-Ten-Cent Store!"

Industries May Be Compelled To Complete Codes

WASHINGTON, July 6 (AP)—The administration is contemplating steps to hurry up industries which officials say have been disappointingly slow in shaping trade agreements under the national recovery act.

The situation was up for analysis and decision at a session today between President Roosevelt, Hugh S. Johnson, the recovery administrator, and Secretary Roper, chairman of the cabinet advisory committee on industry.

At the rate industries are moving, official regards it as likely that wage increases cannot become effective on a big scale before the end of the summer, whereas the administration objective is to have the entire program well in operation within sixty days.

Further, it was definitely understood that Johnson and Roper had information to lay before the president showing that while many industries are debating what to do, individual factories have jumped in to take advantage of the expected advance in prices.

NATION SEEKS WERNE MILLER IN MASSACRE

BLOODY RAGS FOUND IN HIS RENTED HOUSE IN KANSAS CITY

KANSAS CITY, July 6 (AP)—Throughout the nation the orders were out to authorities today to arrest Werne C. Miller, alleged North Dakota ex-convict, and William Weissman, Kansas City police character, in connection with the slaying of four officers and their prisoner here June 17.

E. C. Reppert, director of police, climaxed a quiet but intensive investigation of federal and city officers by announcing Miller was the machine gunner who attempted to release Frank Nash, a bank robber, and that Weissman accompanied Miller.

Nash was killed accidentally, Reppert said.

The shooting occurred shortly after 7 a. m. in front of the union station as Nash was being transferred from train to motor car on his way to Leavenworth, Kan., penitentiary from which he had escaped.

Miller was said by Reppert to have served a term in North Dakota for embezzlement and to have once been sheriff in that state. Weissman is the brother of Solly Weissman, a gangster, killed here.

Reppert said Miller fired after his demand that Nash be released was answered by the discharge of a pistol in the hands of Police Detective W. J. Grooms. The bullet wounded the machine gunner whose weapon quickly killed Grooms.

Tracing of long distance calls from Hot Springs, Ark., where Nash was arrested and from Joplin, Mo., headquarters of some of his gang, solved the crime, according to Reppert.

Through one of these calls, police reported, ascertaining that Miller rented a house in Kansas City. Bloody rags were found there and officers believe Miller used them to bandage his wound.

Police have not determined if Weissman did any of the firing, but Reppert said he "carried two .45 automatic pistols."

It was Miller, according to police, who said "all right, let 'em have it," just prior to the burst of machine gun fire.

GENERAL BALBO DEVISED CASTOR OIL TREATMENT

Snatched Gun From Assassin's Hand In Bologna

By MELVIN E. COLEMAN, Associated Press Staff Writer. "Dashing" is the word for General Italo Balbo, head of the spectacular attempt to fly 24 Italian airplanes from Italy, via the Arctic, to Chicago's waterfront.

There is an aura about him of the plumed hat, doublet and hose; Jack Boots and flashing rapiers of renaissance times.

"Balbo would have been a 'gay blade' had he lived then," said one of his friends.

The youthful general—he is just a month past 37—took to Mussolini's fascism early. At 26 he was one of the famous "quadrumvirate" which led the "march on Rome" marking the triumph of the party.

Those were hectic years in Italy, with street fights between "Black-shirts" and "Reds" of varying hue punctuating the struggle. Balbo sailed into the fray with a smile and came out with a snarl.

He didn't like violence, however, and he therefore devised the "castor oil treatment" for fascism's enemies. He figured it made them helpless without doing permanent physical harm.

In 1924 he challenged Gen. Peppino Garibaldi descendant of Italy's "Liberator," to a duel because of remarks he made about the Fascist militia. Seconds were named but a court of honor decided against the actual combat.

In November, 1926, when an assassin fired at Mussolini in Bologna, it was Balbo who snatched the smoking pistol and prevented another shot.

He is a specialist in mass flights. He commanded the impressive Italian squadron which flew from Rome to London and thence to Berlin in 1928. In December, 1930, and January, 1931, he led a squadron of seaplanes to the west coast of Africa and thence across the Atlantic to Brazil.

Guardsmen Sent To Quell Armed Convict Mutiny

BROCKVILLE, Fla., July 6 (AP)—National guardsmen hurried to Tooke Lake prison camp today in a determined offensive to smash an armed mutiny.

Striking convicts, numbering about 30 and described by jailers as "bad actors," were barricaded in the stockade and armed with machetes, knives, clubs and bottles. They had defied prison authorities since Tuesday noon.

Civilian authorities predicted "real trouble" in storming the stockade. Sheriff Law said he thought the convicts may have killed one of their number, possibly for attempting to desert.

The prisoners smashed a sweat box and ignored demands for submission.

Commissioner Nathan Mayo, in charge of the prison system, said the strike apparently was started by convicts disgruntled because the pardon board failed to act favorably on pleas for clemency.

TREE ARMY RECRUIT WORKING IN SNOW FROM 2 TO 20 FEET DEEP

Established in the reforestation camp at Saratoga, Wyo., Revista Harvey has written to his parents, Mr. and Mrs. A. R. Harvey, 414 South Somerville to send his baseball glove and shoes, tennis shoes, and Scout ax.

He also asked for a kodak and films. He wrote that he had "worked most of the week in snow from 2 to 20 feet deep."

The foresters must clear a road over 10 miles of mountain country. "I don't expect you to believe me until you see the pictures," young Harvey wrote.

"We work only 5 or 6 hours per day. The work is not very hard but the food isn't too good. We are being well treated by the Wyoming people—much better than in Oklahoma. The captain has told us that we will leave here and go south by October 1."

Mr. and Mrs. C. P. Buckler and family and Mr. and Mrs. J. H. Moyar and family returned yesterday from a fishing trip to Rainbow Trout lodge in Colorado. They reported good luck.

Bell Company To Drill Test East Of LeFors

The Bell Oil & Gas company is moving in a rig to drill a test in the northeast corner of the southeast quarter of the northwest quarter of section 61, block 25, I. & G. N. survey, east of LeFors. The test will be a direct offset to the Travis rig at test in the same section. The rig has been moved in for the Travis test.

The Mid Kansas company is moving in a rig to offset the Bell Oil and Gas company's new well in Wheeler county. The new producer was shot last week and appears to be good for several hundred barrels. It is in section 53 and is a half-mile east of the county line.

Other locations are being planned in the area, proved by the Bell test.

DELEGATES TO LEAVE FRIDAY FOR NATIONAL B.P.W. MEETING

MRS POOL AND MISS VINCENT TO MAKE TRIP

RETIRING PRESIDENT WILL ACCOMPANY DELEGATES

MRS. GLEN POOL was elected official delegate from the Business and Professional Women's club here to the national conference at Chicago, when a called business meeting was held last evening. Miss Kathryn Vincent was named alternate.

They will attend the convention next week, accompanied by Miss Clara Lee Shewmaker, who has just ended a second term as president of the Pampa club. The three plan to leave Pampa tomorrow and join the special train of Texas delegates in Oklahoma City Saturday. It will arrive in Chicago Sunday.

Called Meeting First. The called meeting yesterday was the first to be held since new officers were installed last month. Mary Lou Downs, new president, was in charge.

Lillian Jordan was appointed social chairman pro tem, following the resignation of Miss Vincent from that post. A permanent chairman is to be named later.

Yearly reports of committee chairmen and of the club treasurer were heard at the meeting. A farewell gift from the club was presented to Miss Shewmaker, with an expression of appreciation for her services as president.

Members present were Kathryn Vincent, Katie Beverly, Via Keehn, Mildred Overall, Lillian Jordan, Faye Wooley, Mary Lou Downs, Gladys Robinson, Hazel Christian, Ola Nellis, Mabel Gee, Gertie Arnold, Grace Pool, Clara Lee Shewmaker.

Home Comedy Is Divorce Ground

LOS ANGELES, July 6 (AP)—Oliver Hardy, he of the damp forehead and bangs of the comedy screen, carried his slapstick comedy into the house—but in no slapstick comedy vein—his wife complained in a cross action in superior court to the actor's divorce suit.

In her complaint, filed yesterday, she said Oliver dropped no less than \$30,000 in one day by wagering on the bangtails at Agua Caliente, border resort, and once appeared at his home with a friend, both with shotguns, to wait out the night as the aftermath of a slapping episode with his sister-in-law on the receiving end.

Mrs. Hardy wants a divorce and \$1,400 monthly alimony, not counting \$4,000 in attorney's fees. She provided a peek into the comedian's income by alleging that his earnings exceed \$8,000 a month. She listed their community property at \$100,000.

The sister-in-law who got slapped—Mrs. Hardy—deposited—has filed a suit against Hardy for \$50,000 to compensate for damages suffered.

The cross complaint mentions a blonde who seems to have been the subject of a little sleuthing by operators for Mrs. Hardy to determine what part she played in the comedian's life.

Hardy's teammate on the screen, Stan Laurel, also is in court, defendant in a divorce suit.

Shamrock Spends Fourth In Visits

SHAMROCK, July 6—A four-room house owned by Manse Lyle and located a mile west of Shamrock was completely destroyed by fire at 9 o'clock Monday evening. The dwelling was occupied by Harry Hous. All furnishings were destroyed.

Delegates To Chicago Meet

MRS. GLEN POOL, left above, will represent the Business and Professional Women's club here as delegate, and Miss Kathryn Vincent, right, as alternate, at the national club convention in Chicago next week. They leave tomorrow for Chicago.

Sister MARY'S KITCHEN

BY SISTER MARY, NEA Service Writer.

The simplest things are sometimes the most difficult for the woman who is learning to cook. Indeed, many experienced cooks have their greatest troubles with recipes which are taken for granted that everyone knows how to make.

You undoubtedly have heard many women say that they couldn't make good gravy, that they always have had luck with their coffee, and so on through a long list of things which sound very simple.

The subject of good coffee is probably the most widely-discussed of food problems. Your success at home entertaining may depend to some extent on the kind of coffee you serve.

High Price No Guarantee. First, the fact that a coffee is expensive doesn't necessarily mean that you'll have good coffee if you use it. The price you pay is not all-important. It is essential that you use fresh coffee, however.

Know approximately how many cups of the beverage you are going to need for the meal. Then allow one cup of water to each cup of coffee required. Use cold water—no extra tablespoonful for the pot. This formula always applies whether you use a percolator or make boiled coffee.

Let the water come to a boil. The minute the coffee begins coming up through the top of the percolator, notice the time. When the coffee has percolated six minutes (no more, no less) remove the pot from the fire.

Be sure to use a clean percolator. Don't use left-over coffee. It isn't good at all and will ruin the flavor of the freshly-made coffee.

Gravy is another ogre to many cooks. As a matter of fact, it requires no particular amount of skill—only a little patience.

Assuming you have the actual gravy stock in a pan, and enough cold water to make the amount of gravy you require. Now put some flour in a bowl and add enough water to make a smooth paste. Beat the mixture with a fork or a spoon until not a lump remains. Stir it

into the cold water in the pan. Place the pan over the fire and stir constantly until the gravy becomes thick.

It takes about two heaping tablespoonfuls of flour to thicken two cups of gravy sufficiently. Always salt and pepper your gravy before you take it to the table. Milk, instead of cold water, may be used if you prefer.

Breakfast: Chilled melon, fish and rice hash, rye rolls, milk, coffee.

Luncheon: Cream of spinach soup, toast sticks, potato and sardine salad, sour cream cookies, grape juice.

Dinner: Tomato juice cocktail, Salisbury steak, stuffed green peppers, new cabbage in lemon sauce, watermelon sherbet, sponge cake, milk, coffee.

PICNICS FOR LARGE AND SMALL PARTIES MARKED CELEBRATION OF JULY FOURTH AT McLEAN

Lions Club Installs Officers At One Outing

McLEAN, July 6—Picnics were the order of the day for McLean on the Fourth. Perhaps the most interesting of all was that one given by the Lions.

At 6 o'clock the Lions and their families met at the Wilson farm where a ball game was enjoyed before the "cats" were spread. An interesting program with Claude Williams as leader was as follows: Review of Last Year's work, Jesse J. Cobb; Address by Herbert C. Walker of Pampa, district governor of the Lions; Installation of officers was under the direction of Mr. Walker.

The following officers were installed: President T. A. Landers, 1st vice-president C. O. Greene; 2nd vice-president, John Cooper; secretary, Reep Landers; treasurer, Jack Roberts; Lion tamer, Claude Williams; director, Ralph Caldwell and Boyd Meador.

All-Day Picnics. Several all-day picnics were enjoyed. A party of pleasure seekers spread their lunch under the trees on the Wilson farm for a noon meal.

They were: Mr. and Mrs. Jesse J. Cobb, Mr. and Mrs. A. C. St. Clair, Rev. and Mrs. Cecil G. Goff, Mr. and Mrs. S. A. Cobb, Mr. and Mrs. Steve Cobb, Jesse Dean Cobb, Dorothy St. Clair and little Warren Goff.

Another party motored to Hackberry Grove and enjoyed the shade, plenty of fried chicken and games. Members of the Church of Christ and their families enjoyed an outing on Sam McLeellan's place where in addition to the dinner, ground ball, volleyball, wading and swimming were enjoyed.

Fishermen Enjoy Day. After another group with rod and line spent the day at Sandspur where fishing and a picnic dinner were enjoyed by Mr. and Mrs. Donald Heall and son Bobby, Mrs. W. T. Wilson and son, Gordon, Mr. and Mrs. Allen Wilson, and daughter, Doris, Dr. and Mrs. W. L. Campbell and children Marcella, Dorothy, John, Wanda, and Nann, Mrs. Chas. Cooke and children, James Emmett, Billie and Joe, Mr. and Mrs. Horace Brooks and children, Mary Catherine and Jack; Wheeler Foster, Wilber Lee Wilson, and James Foster of Pampa.

Mr. and Mrs. Bob Lynch accompanied by their daughter, Miss Bobbie, and Misses Duella and Velma Mann, also their house guests, Mr. and Mrs. Liesburg of Glendon lunched on McLeellan creek.

Mr. and Mrs. Andrew Watkins spread their lunch at Beaver dam. On Skillet the following spread their lunch at 7 o'clock: Mr. and Mrs. Dewey Woods, and daughter, Duella, Mr. and Mrs. Chas. Guill, Mr. and Mrs. Milton Banta and daughter Kanola, Mr. and Mrs. J. A. Meador and son, Harold Lee, Mr. and Mrs. B. Shoulder Width on The Upward Curve

The year 1933 is certain to go down in fashion-history as the year of the big shoulders. Never has a fashion swept the smart world with such success. And the latest news is that shoulders are not content with mere width, but are taking an upward curve that's even more flattering.

Just to prove that this new idea can be interpreted in sophisticated and wearable versions there is this crepe frock—a perfect type to wear for town or commuting. The shoulders are not the only smart thing about it. The tailored collar, the panel skirt seams and the wider belt—all are details that date it months ahead.

Even in larger sizes this frock captures an elusive air of youth and slenderness that's most becoming. And chic as it is, a beginner will find it easy to put together. The envelope will tell you just how much material you will need for your size. You'll need dozens of frocks like this and you'll find them in the new Fashion Book. Price of book 10 cents.

Pattern No. 5259 is designed for sizes 14, 16, 18, 20 years, 32, 34, 36, 38, 40, 42, 44, 46 bust.

FOG FORCES MATTERN RESCUE PLANE TO LAND IN HAY FIELD

WILL ATTEMPT LAST HOPS TO ALASKA TODAY

ROUTE TO NOME LIES OVER RUGGED COUNTRY

TERRACE, B. C., July 6 (AP)—On the last half of their flight to Nome, Alaska, members of the "Jimmie Mattern rescue plane" were prepared again today to make the difficult hops over northern British Columbia and into Alaska, with rugged country beneath them.

They landed in a hayfield near here, about 100 miles east of Prince Rupert, at 3:45 p. m. yesterday after flying from Edmonton, Alta., during the day. Pilot Bill Alexander said they would take off this morning to resume their flight north.

Several hours were spent seeking a landing place yesterday after Alexander and his three companions decided poor visibility made hazardous the continuation of the flight to the proposed night stopping place, White Horse, Y. T.

Describing the takeoff, from Edmonton, Alta., pilot Alexander said it was more hazardous than many of the trans-Atlantic starts as the load in proportion to the size of the ship was greater than that of the average ocean flier.

"We reached Prince Rupert just before 2 o'clock and were disappointed at not finding any suitable landing field in the vicinity," Alexander said. "After looking over the area surrounding the city and the adjacent island and mainland we decided to return to Terrace."

"We arrived over the Terrace valley just after 3 o'clock and had to skin over a barbed wire fence and 'pancake in' for a very short landing from an altitude of about five feet."

Alexander added that the party was receiving wonderful cooperation en route to Alaska.

50% of the cars that finished Indianapolis race were Studebaker powered!

Fastest 500 miles in Speedway history a sweeping Studebaker triumph!

Only 14 out of 42 entries finished . . . 7 had Studebaker engines . . . 5 of them were 85% stock Studebakers!

MOST of the cars in the Indianapolis race were specially constructed and fabulously costly. But not the 5 Studebakers that competed as a team—and that went through the entire 500 miles without a repair.

They were built in the Studebaker factory in the same way that the Studebaker you buy is built. They were stock cars except for certain slight modifications to conform with racing requirements.

You'll never give any car the test these Studebakers got at Indianapolis. But what a satisfaction it is to know that every Studebaker is able to stand up that well.

Why not come in today and take out one of the new Automatic Studebakers for a convincing trial drive? They're the best-built, best-looking cars in Studebaker history. They're priced amazingly low considering their abundance of advancements. And we're in a position to give you an exceptionally good deal on your present car.

Fergusons Will Leave Tomorrow For Washington

AUSTIN, July 6 (AP)—Ex-Governor James E. Ferguson, husband of Governor Miriam A. Ferguson, will leave tomorrow for Washington to discuss "administration affairs" with

Washington officials.
Ferguson will be accompanied by C. C. McDonald of Wichita Falls, who recently was elected permanent chairman of the convention of advocates of repeal of the eighteenth amendment.

Ferguson said he expected to return July 17.
"I'm going to discuss anything they want to talk about," he said. He indicated that he would confer especially on the national industrial recovery program as it concerns Texas.

McDonald's accompaniment of the former governor was taken as an indication that the campaign for repeal of the eighteenth amendment also would be discussed.
Ferguson said he had been "invited" to go to Washington, but declined to name the source of his invitation.

HAGEN HOLDS ONE-STROKE LEAD OVER AMERICAN RIVAL IN BRITISH OPEN

DUDLEY PLAYS BEST GOLF IN SECOND ROUND

TEXAN IS NINE BEHIND LEADER; CHANCES ARE BRIGHTER

ST. ANDREWS, Scotland, July 6 (AP)—Walter Hagen, the American veteran and four-times holder of the title, kept a one-stroke lead in the British open golf championship today by shooting a 72, one under par, for his second round and a total of 140 for 36 holes.

A rival American, Ed Dudley of Concordville, Pa., was on his heels with 70-71-141.

Gene Sarazen of New York, the defending champion, tossed away a great chance to overhaul the pace setters by taking 40 strokes for the last nine holes scoring 73 for his second round and a total of 145, five shots back of Hagen. A hole on the short 11th was disastrous for the champion.

Sarazen went into a tie with Leo Diegel, who had 75-70-145 and Joe Kirkwood, with 72-73-145.

Joe East of Waco, came out of the mist with a good 72, one under par, for a two-day total of 149 that brightened the Texan's chances of moving into the money. Coming back after his fine outward nine, he encountered trouble on the 12th, where he missed his approach, and on the 14th, where he topped his second shot. He bagged a birdie on the road hole, due to a beautiful second shot to a corner of the green.

FINE WEATHER PROMISED FOR 'GAME OF AGES'

STARS OF TWO MAJOR LEAGUES CLASH TODAY

BY WILLIAM WEEKES, Associated Press Sports Writer.
CHICAGO, July 6 (AP)—Two hand-picked teams of baseball stars and 49,000 fans were primed today for the game they have talked about for years, but never expected would come to pass.

At Comiskey park, home of the Chicago White Sox, 18 American league stars, deemed by the fans as the pick of the organization, gathered under the leadership of Connie Mack, to make the game's greatest one-day stand, against John Joseph McGraw and his 18 selected National league stars.

Mack and McGraw already had made their starting lineup selections with the exception of the pitchers, but called meetings this morning to make final plans. With Mack were his coaches for a day, Eddie Collins and Art Fletcher, while McGraw had a pair of managers, Max Carey of Brooklyn and Will McKechnie of Boston, as his aids.

The pitching selections offered of material for conjecture. On the basis of their work and popularity with the fans, Bob Grove, the Athletics' fireballer, and Carl Hubbell, the New York Giants' brilliant southpaw, were in line for the starting jobs. However, Manager Bill Terry of the Giants and the National league's first baseman today, was not so keen about using Hubbell.

Terry felt that Hubbell's value to the leaders of the National league should be considered ahead of anything else. Furthermore Hubbell last Sunday pitched an 18-inning triumph over the St. Louis Cardinals, and might still be in need of rest. Bill Hallahan, the Cardinal southpaw, a highly successful operator against American league batters in world series encounters, was just as good a guess. Hal Schumacher, young New York right hander, and Lonnie Warneke of the Cubs, were the other members of the staff.

If not Grove, Alvin Crowder of Washington, was considered the likely American league starter, with Wes Ferrell and Oral Hildebrand of Cleveland, and Vernon Gomez of the Yankees, also available.

In the American league front were such famous sluggers as Babe Ruth, Lou Gehrig, Al Simmons, Earl Averill, Joe Cronin, and Bill Dickey. The elder circuit countered with Chuck Klein, Frank Frisch, Terry, Paul Waner, Lefty O'Doul, Pie Traynor, and Gabby Hartnett.

All receipts, other than the amount required to pay expenses, were to go to the Association of Professional Baseball Players of America, which cares for the game's aged and infirm.

Perfect baseball weather was forecast and every seat in the big park was sold days in advance.

BOTH HOUSTON AND BUGS FAIL TO WIN GAMES

FRITZ FANS 8, RETIRES LAST 15 BUFFS, AND ALLOWS 4 HITS

BY BILL PARKER, Associated Press Sports Writer.
Baseball's dream game comes true today at Chicago where scintillating American and National league stars play.

Baseball's miserable nightmares came true Wednesday night for the pace-setting Houston Buffaloes and the second place Galveston Bucs.

Ray Fritz, once a first baseman, once an outfielder, now a pitcher, permitted only one Houston player to pass first, which is a mild way of writing that the Beaumont Exporters won, 5 to 1. The Exporters bunched hits with five Houston stars in an annex the first of a three-game series.

Fritz was so good he struck out eight and retired the last fifteen Buffaloes in order. He allowed four hits. The Exporters collected seven hits off Beckman and Fisher.

While the league leaders lost, the second place Buccos failed to grasp opportunity. They lost a 9 to 7 battle to the San Antonio Missions.

Galveston spotted the Missions to four runs in the first inning, then came back to take a 5 to 4 lead, but couldn't hold it and eventually lost.

Pampa Golfers Lose Matches At Clarendon

C. E. "Dan" McGraw lost his final match in the fourth flight of the Clarendon invitation golf tournament yesterday afternoon. He won Tuesday and yesterday morning to go into the finals. Tom Darby went to the semi-final in the second flight but was eliminated although he shot one over par. Mack Graham was the other Pampa player to enter.

Sunday afternoon the Pampa Country club golf team will go to Memphis for a game. Cars will leave early in the morning.

McLean golfers who entered the Clarendon tournament were N. H. Greer, Sr., Sammi Cubine, Pete Rice, Victor Back, Roy Campbell, and Wood Hindman. They all played nice games.

Miss Ruby Adams, home demonstration agent, was spending today with the Sunshine Girls' club and the Laketon women's club.

San Antonio's two runs in the eighth broke a 7-all deadlock, and Tom Conlan's powerful relief pitching was a vital factor in the victory.

It was a breeze for the Dallas Stars who swatted the ball hard behind Joe Vance's invincible hurling to heat Fort Worth, 9 to 0.

The Tulsa Oilers cracked down with three runs in the eighth and a trio of tallies in the 9th to emerge victorious over Oklahoma City, 7 to 2. The Indians made four errors to help Tulsa toward victory.

SECOND HALF OF LEAGUE TO BEGIN SUNDAY

MAGIC CITY WILL PLAY AT PAMPA; HIPPS LEADS BATTING

The Pampa Magnolia baseball team has proved itself a strong hitting aggregation during play in the Cotton-Oil league. The first half of the league schedule closed Sunday afternoon with the "Mags" on the top rung with seven wins and one loss.

Six members of the Pampa team hit 400 or better during the first half of the league race. Leo Hipps, outfielder, is in first place in the batting average with .533. However, he has played only three games. Jimmie Baldwin, shortstop, and Lorrre Warren, center fielder, are perched about the top with .500 averages. Rayburn Burke is the hitting pitcher of the league with .400 to his credit.

Warren is leading the team in home runs with three to his credit. Warren and Cahill are on top in triples with three each. The two base blows go to Warren, Marshall, and Burke with two each. Baldwin has scored 18 runs to lead the parade.

Although big Sam Rogers has not finished a game this season, he is credited with three wins and no losses. Burke has won three games and lost one. The other win went to Stewart.

Magic City will come to Pampa Sunday afternoon for the opening game of the second half. The Magnolias posed out Magic City 9 to 5 in Magic City last month. The game will be called at 3 o'clock.

Other games in the league Sunday are: McLean at Twitty and Sharnock at Wheeler.

GRAY COUNTY GOLF CLUB TO BEGIN TOURNAMENT JULY 16

Qualifying For Handicaps Over 18 Holes To Start Sunday, Last One Week

The Gray County golf club will sponsor a handicap golf tournament, starting the morning of July 16 and continuing through July 23. Qualifying play to determine handicaps will be over 18 holes and will be from Sunday through July 14.

It was agreed, at a meeting of directors in the City Drug store last night, that play would be over 54 holes, divided any way the player desires to play. It was suggested that 18 holes be played the first Sunday of play with the same number during the week and the last 18 holes the closing Sunday.

An entry fee of 50 cents will be charged and green fees will be 25 cents at all times during play in the tournament. Many prizes will be offered. The directors have not definitely set the number of prizes they will give but said there would be at least six prizes, including a prize for low qualifying score, first place in the tournament, lowest tournament score and for other scores in tournament play.

The handicap will be decided and posted before play starts so that every player will be able to determine his score from his own handicap.

Buster Kaufman, club professional, was to start work on the course this morning. The rain of yesterday was believed to be enough to put the course in the best condition of the year. The greens will be worked over and the tee boxes leveled. The fairways will be dragged.

Entrants are urged to qualify early so that the course will not be crowded near the close of the qualifying period.

Max Schmeling And Movie Actress Wed

BERLIN, July 6 (AP)—Max Schmeling, former heavyweight champion of the world, and Miss Anny Ondra, screen and musical comedy actress, were married in a civil ceremony at the Charlottenburg city hall today.

Their honeymoon will be at Heiligendamm. A religious celebration of the marriage will be conducted later at Saarow where Schmeling resides.

Max, at the wheel of his own car, was cheered by a large crowd at the city hall. He wore a blue sack suit. His bride was clad in a rose colored dress.

The bridegroom's trainer, Max Machon, was the best man.

TO CLOSE STATIONS

WASHINGTON, July 6 (AP)—August first was set today for closing 23 weather bureau observation stations in 17 states as part of the department of agriculture's effort to cut expenditures this year \$15,000,000 below its appropriation of \$75,000,000. Notification to close quarters has been sent to observers at Fort Worth and Taylor, Texas.

CROPS BENEFITED

WASHINGTON, July 6 (AP)—The weather bureau in its weekly crop review said today that rains in many localities the past week improved crop conditions, but that both small grains and corn in many sections still needed moisture badly with some sections of the cotton belt also unusually dry.

MILWAUKEE—When Robert Ebert, 35, showed up at work today here's how he explained those cuts and bruises to "the boys":
He stopped at a roadside fireworks stand, bought firecrackers and lighted one. He threw the firecracker safely away, but absentmindedly tossed the match into the stand. The pyrotechnics began popping. The owner heaved the whole exploding mass at Ebert, who ran into the path of an automobile.

NEW TOURNEY IS ANNOUNCED

World's Champ Horseshoe Flinger To Be Decided At Chicago Fair Soon

LONDON, O. July 6 (AP)—The National Horseshoe Pitchers' Association has decided it is time baseball, boxing, football and other organized sports were moving over and making room for flingers of the ancient barnyard pastime.

R. B. Howard of London, O., second vice president of the association and editor of the organization's monthly, "Horseshoe World," is calling attention to advancement of the sport in connection with announcements of a world's championship tournament July 27-31 at the Chicago Century of Progress exposition.

"Here is a golden opportunity," he says, "to sell horseshoe pitching to the world and show the skill that has been developed in the game."

Players in the world's tournament must have uniforms just as though they were in a world series baseball game. Shirts and trousers, or knicker and stockings, must be white, with two black stripes down the outside seam of each leg. Stripes are to be one-fourth inch wide and half an inch apart. Each player is to wear an emblematic horseshoe sewed on his shirt.

The battle of rings and double rings will attract the best horseshoe losers in the United States, and maybe from Canada, Mexico, and other countries. Howard predicts. Besides a world title, medals and trophies there will be 24 cash prizes ranging from \$300 to \$10.

The women, too, will have an opportunity to show their skill. Six prizes in the women's division range from \$75 to \$10.

TRANS-MISSISSIPPI WILL BE HELD IN TEXAS FIRST TIME

Dallas Alone Will Contribute 150 Entries In 1934 Golf Tournament

By BILL PARKER, Associated Press Sports Writer.
The awarding of the Trans-Mississippi golf tournament for 1934 to the Dallas Brook Hollow club brings this major classic south of Red river for the first time. It was held at Oklahoma City in 1932 and Colorado Springs, this year.

It will be the first major tournament for Texas since the national P. G. A. tournament of several years ago held at the Dallas Cedar Creek Country club where Walter Hagen won.

The 1934 Trans-Mississippi will lure to Texas most of the nation's finest amateur shot-makers. Many will come eager to play the Brook Hollow course, which is ranked as one of the most difficult in the country but which has not sponsored a major event big enough to collect from many states.

The Trans-Mississippi, perhaps will have the largest field in its history when it is held at Brook Hollow. It is doubtful whether any state boasts the number of golfers Texas does, and most Texans who know something about playing will want to enter the Trans-Mississippi. Dallas alone probably will contribute 150 entries.

Charles Dexter, former Texas and southern champion, and Gus Moreland, Texas champion and United States Walker cup selection, did much to obtain the Trans-Mississippi for Brook Hollow.

Dallas will be tournament busy in 1934. Both state tournaments will be played at Dallas and there is a possibility the western amateur will also come to Dallas. It was offered to the Brook Hollow officials this year but rejected because of remodeling work on the course could not be completed in time.

Mrs. Wilson Popular. The Fort Worth Women's Golf association first annual invitation tournament offered an interesting match between two state champions. One was Miss Anita Gorczyca, Texas Women's Golf association champion, and the other Mrs. J. Lee Wilson, Texas Women's Municipal Golf association state champion.

Miss Gorczyca won the 18-hole battle, 4 and 3. In Mrs. Wilson, the Municipal association was represented by a fine shot-maker and a woman so attractive that her popularity increased each day of the tournament. Many of the country club players had never seen or heard much of Mrs. Wilson until the invitation, but they all admired her golf and personality.

Lends car for test —
Gulf-lube cuts oil costs 28½%

MR. AND MRS. LOU MOORE, Ambassador Hotel, Indianapolis—owned one of the six cars borrowed for this daring test. Gulf-lube cut this car's oil consumption 28.3%, as compared with all other oils tested.

New motor oil amazes AAA Officials*

IN 6 borrowed cars, representatives of the Contest Board of the AAA tested 4 of America's leading brands of 25c oils...

And, when the 4-day run on the famous Indianapolis Speedway was over, Gulf-lube had beaten every oil in every car!

To the amazement of the Officials, the average of all the figures proved this... Gulf-lube went 28½% farther than its competitors before a quart of oil had to be added—a clear-cut saving of over one-fourth!

Switch to Gulf-lube and start saving 2 ways! First, you'll use less oil. Second, you'll pay less for repairs—for the oil that gives higher mileage is a better buy. Prove it! Get Gulf-lube at any Gulf station.

U. S. MAKING OVERTURES TO SOVIET RUSSIA

Propaganda Must Cease And Debts Be Paid

WASHINGTON, July 6 (AP)—The United States is going to make an official study of the problems involved in recognition of Soviet Russia.

Today, Lawrence Steinhardt, minister to Sweden, starts to Europe on that study. The announcement of his specific mission was made at the White House. Many held it added force to arguments that America's more friendly relations might bring official recognition of the land of communism.

Just a few days ago, the reconstruction corporation, quasi-federal agency, with the president's approval announced loans of around \$4,000,000 to finance the sale of cotton to Russia. Some months past, Mr. Roosevelt addressed to Russia, along with other nations, a plea for peace. It was the first time in many months that there had been such an admission of Russia's existence.

When Steinhardt begins his survey, he will find Russian debts and propaganda activities heading reasons for non-recognition in the past. After the last year was overthrown, the United States extended an \$187,000,000 credit to the provisional government. That was repudiated along with around \$400,000,000 of claims obligations held by American citizens. The provisional government floated an additional \$500,000,000 in bonds which also were defaulted.

Russia, now, may offer to do something about these debts. If so, the Soviet may be granted a place on the list being drawn by the state department of other nations which have asked opportunities to discuss their debts.

Since Charles Evans Hughes was secretary of state the American attitude has been that:

1. Settlement of debts must be made.
2. The Soviet must cease spreading propaganda designed to bring the overthrow of the American government.

Markets

New York Stocks

NEW YORK, July 6 (AP)—Stock market trading proceeded at a fast pace today, although there was less of the feverish price buoyancy of recent sessions and gains generally were held to a range of fractions to around 2 points. The close was firm. Approximately 6,300,000 shares changed hands.

NEW ORLEANS COTTON

NEW ORLEANS, July 6 (AP)—Cotton had a barely steady opening today. First trades showed losses of 1 to 3 points and the market eased somewhat further after the start, mainly on the belief that the tropical storm would bring needed rains to Western Texas. The opening in stocks was also somewhat easy and the apparent failure of the London conference was considered a bearish influence.

Trading was rather moderate all morning as there appeared to be a disposition to await the government acreage report due Saturday. Prices eased off a little further, owing to expected rains in the west, and October dropped to 10.27 and December to 10.44, down 8 to 9 points from yesterday's close.

Near mid-session the market rallied on a sharp upturn in corn prices and October moved up to 10.38 and December to 10.56, or 11 to 12 points above the lows to levels 3 points above yesterday's close.

At mid-session the market held steady at the recovery.

CHICAGO GRAIN

CHICAGO, July 7 (AP)—Grain values quickly turned upward today after a hesitant start. Buyers found encouragement in President Roosevelt's reiteration of his purpose to bring about advances in prices of commodities. The United States crop outlook was also generally construed as suggesting much higher prices. Opening 1/4-1/2 down, wheat later scored decided gains. Corn started 1/4 off to 1/2 up, and subsequently rose all around.

Corn closed strong, 2 1/4-2 1/2 cents above yesterday's finish, wheat 3 1/4 up, oats 1/2-1/4 up, and provisions unchanged to a rise of 15 cents.

STOCKS STEADY

NEW YORK, July 6 (AP)—The jiggling dollar settled down to a slow wait today and financial markets generally maintained a firm position in quite active trading.

Pivotal stocks were steady but displayed little inclination to repeat their recent soaring movements. The British pound sterling sagged a trifle in terms of dollars and most European gold currencies fluctuated in unimportant fractions. Wheat was firm and corn jumped another cent or more on further reports of crop damage. Cotton was a bit easier, at one time as acreage uncertainties continued to offset large mill buying. Bonds were slightly irregular.

Some rail shares were imbued with renewed courage by fresh news of substantial increases in traffic. Advances of 1 to 2 or more points were recorded by Pennsylvania, Santa Fe, Union Pacific, New York Central, Delaware & Hudson, and Central of New Jersey. The tobaccos also were given a run with Reynolds B, Liggett & Myers B, American B and Lorillard getting up around 1 to 3. Consolidated Gas came back with a 2-point advance and American Power & Light and Public Service of New Jersey stepped up more than a point each. Oils up fractionally to 2 points included Standard of New Jersey, Houston, Pure, and Socony. The alcohols and farm stocks were indifferent.

Mrs. Hunsucker's Fate Rests With Jury At Decatur

DECATUR, July 6 (AP)—The case of Mrs. Ida Hunsucker, Quittaque tourist camp operator, charged for the murder of Joe Brown, deputy sheriff, at Rhome, January 27, went to the jury today.

Jennings C. Brown, county attorney, asked life imprisonment for the woman, W. K. Sampson, Decatur lawyer appointed to defend Mrs. Hunsucker, said the state's case was wholly circumstantial and asked acquittal.

The 35-year-old defendant, who formerly operated a tourist camp at Quittaque, denied the accusation. She claimed she had no pistol and did not know how to shoot one.

The shooting occurred after Deputy Brown had arrested Mrs. Hunsucker, her son, Glen Hunsucker, and John "Perch Mouth" Stanton, for alleged theft of a barrel of oil from the wagon of T. H. Buzzell, of Matador, on the highway north of Decatur.

Bernice Simmons and her sister, Mary Ruth Simmons, said they saw Mrs. Hunsucker come out of the shop after the shooting with a pistol in her hand and carried a pistol, however, denied she carried a pistol. She said all she had in her hands when she came out of the shop was her purse.

Mrs. Hunsucker claimed Deputy Brown had struck her son with a pistol in the shop. She said when

NEW SECURITIES LAW WILL BEGIN TO TAKE EFFECT TOMORROW

PUBLICITY IS MAIN WEAPON TO AID BUYER

EVERY MATERIAL FACT MUST BE SETTLED IN REGISTRATION

BY WILLIAM L. BEALE.

WASHINGTON, July 6 (AP)—Publicity is the principal weapon by which the securities act, passed at the last session of congress, seeks to save investors from being sold worthless stocks and bonds.

But it also makes any fraudulent scheme or misleading act perpetrated in an interstate sale of securities a federal offense, and allows buyers to sue the issuers and underwriters if the latter make untrue statements or omit material facts in connection with the sale.

The law actually begins to take effect July 7. From that day on, issuers of securities are permitted to register their offerings with the federal trade commission. But after July 27, they have no choice, must register before offering them to the public.

To register, the issuing firm must state to commission every "material" fact bearing on the soundness of the offerings. Every principal officer and the majority of the directors of the issuing firm must sign this statement, and every signer will be liable for suits to recover amounts paid for the stocks or bonds; if material facts are omitted or untrue statements are included. Further criminal action may be brought in cases of willful violation.

The law does not guarantee buyers against loss. But it does make available to anyone who wants them the true financial facts of the business behind the new issues. Securities now on the market are not touched by the law, and domestic public issues, securities of non-profit organizations, building and loan associations, etc., are exempt. Special terms govern foreign issues.

When a registration statement is filed, the issue may be sold after 20 days, but the commission may stop sales then or later if it discovers omission or misrepresentation.

The registration statements will be too voluminous for most buyers to use. They may see them at the commission office or obtain copies at cost, but to help the majority the law provides that prospectuses issued by sellers and underwriters shall contain all vital facts.

It is up to the buyer to discriminate. To sue for recovery of his purchase money, he must act within two years of the date he discovers misrepresentation, and in any case within ten years of the time he issues is registered.

Business Warned It Must Achieve Self-Government

NEW YORK, July 6 (AP)—A government spokesman bluntly warned American business today that if it fumbles the opportunity for self-government under the national recovery act "the advance of political control over private industry is inevitable."

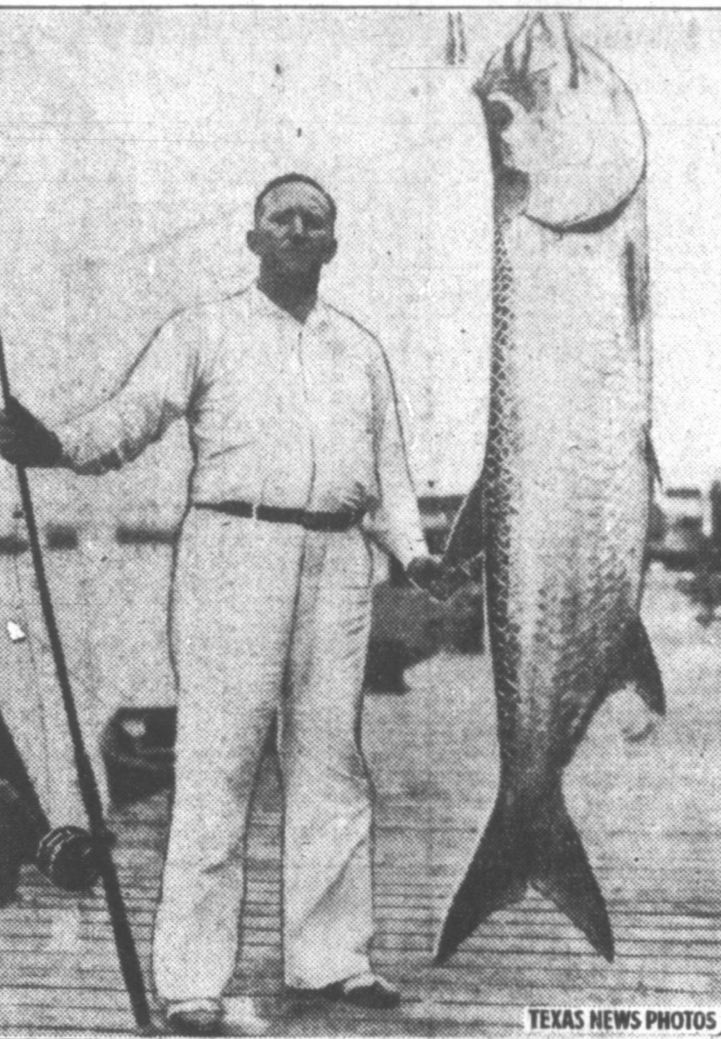

In uncompromising words, Donald R. Richberg, long-time representative of railroad labor, now general counsel of the recovery administration, said that should the industrial control plan fail it would not be a failure of government, but of the present industrial system, either proving the system fundamentally unsound or indicting its present managers of incapacity to operate it successfully.

His warning message was contained in a speech to the merchants' association of New York in which was expounded anew the policy of the recovery administration and in which business and labor both were exhorted to come forward quickly. If the program is not rolling forward within the next sixty days because of holding back by either he said, "they will be indicted for incompetence by the suffering millions who are now giving to industrial leadership one more chance—perhaps the last—to justify its authority."

Farmers Revise Field Estimates

County Agent Ralph Thomas was in Alanreed and McLean today, still working on the federal cotton acreage retirement project. In the absence of printed supplies, he is devoting much time to revision of production estimates downward. A shortage of agreement blanks is hindering work in most counties of his section. George Briggs is assisting Mr. Thomas by inspecting fields of cotton which farmers wish to plow under.

Baer-Schmeling Fight At L'Nora

Pampanos who attend the LaNora heater today, Friday, and Saturday will learn how Max Baer, American defeated Max Schmeling, German, in 10 rounds of furious fighting to become a contender for the heavyweight championship of the world. The blow-by-blow, round-by-round, be shown at all performances. Included in the picture will be several slow motion scenes and the entire picture will be a "talkie". Clearly distinguishable will be the hard mauling Baer gave the German, including his back-handed slaps. The picture is said to be one of the clearest fight pictures ever made.

JIM SIGNS AGREEMENT AUSTIN, July 6 (AP)—James E. Ferguson said today he had signed a contract with federal agents calling for a reduction of 40 per cent in the acreage planted to cotton on his farms. The former governor operates farms in Boque and Live Oak counties. The administration, for which Ferguson is spokesman, has urged Texas cotton farmers to cooperate with the federal government in its cotton acreage reduction program.

Arkansas Is In Throes Of Wet And Dry Battle

LITTLE ROCK, Ark., July 6 (AP)—Wets, bent on achieving a victory they believe would preclude quick death for the 18th amendment, and drys, fighting hard to hold traditionally dry territory of the old south, have come to grips in a final struggle for votes at the repeal election in Arkansas July 18. Whirlwind speaking tours reaching to almost every hamlet and far back into the hill country are planned for the last two weeks of the campaign. Both sides predict victory.

"A great change has taken place in the attitude of Arkansas people during the past three or four weeks," the Rev. E. T. Miller of Little Rock, one of the prohibition leaders, said. The united forces for prohibition in Arkansas are counting heavily upon their final campaign tour to muster enough votes to make Arkansas the first state to vote against repeal. Sergeant Alvin York, Tennessee world war hero will come into the state this week to aid the dry cause.

"We're not worried by their speaking tours," says Harry Solomon of the Roosevelt new deal republic club.

DEMO GAVEL HAS A 'PAST'

Wielded By Late Joe Bailey And Judge William Poindexter . . . And Others

BY R. W. BARRY. AUSTIN, July 6 (AP)—B. Y. Cummings of Fort Worth, who was temporary chairman of the anti-prohibition convention in Austin recently, and C. C. McDonald of Wichita Falls, who was permanent presiding officer, wielded a real, old-time, tried and true, democratic gavel.

The convention itself before it was very old, became one of those rough and tumble democratic free-for-all. But the convention is history, so to the gavel:

Bob Barker, long-time secretary of the senate, has it in his keeping. Barker explained that it was used when the late former United States Senator Joseph Weldon Bailey made his speech at the Galveston convention about driving certain and sundry members of the party into the Gulf of Mexico.

In a note to Cummings, Barker explained it was "used at Houston, when Collins, Cummings and Shurtliff received so many telegrams, letters and telephone calls.

It was also used at the San Antonio convention when Judge William Poindexter defeated Tom Love for national committee, and Barker wrote Cummings that "you no doubt heard its echo when Judge Wear said 'the ayes have it and

Dr. Benedict Is Popular Speaker For Graduation

BY CHARLES E. SIMONS. AUSTIN, July 6 (AP)—Dr. H. Y. Benedict, president of the University of Texas, spends the busiest two weeks of his year just prior to graduation time.

Dr. Benedict, who enrolled as a freshman at the university and is the first graduate to become its president, is greatly in demand as a graduation speaker. This year, in addition to making several high school graduation addresses, he spoke to the graduating classes of Southwest Texas State Teachers college at San Marcos, the medical branch of the University of Texas, Texas Agricultural and Mechanical College and at the University of Texas.

The genial university president was hampered this year in his speaking activities by being required to spend much time conferring with the legislature on school problems. The legislature delayed appropriating funds for the 1933 summer school until the last few days of the session and for a time it was uncertain whether any summer session would be held.

After the funds were provided, Dr. Benedict was forced to spend many hours adjusting the summer courses to finances.

The special session of the legislature which Governor Miriam A. Ferguson has indicated she will convene in September will be asked to allow governing boards of state educational institutions more freedom in fixing salaries of professors and other employes.

Under the appropriation bill that will be in effect during the next biennium, the boards are given no latitude whatever. They cannot depart from the amounts fixed in the budget.

A proposal that officials be allowed to lower some salaries and increase others will be submitted, the changes to be made only with the signed consent of all board members.

IT TAKES **HEALTHY NERVES** TO TYPE 124 WORDS A MINUTE!

● THE STOP WATCHES ARE SET... the signal is given... they're off — to set a new women's speed record in typewriting! Fingers fly madly, yet surely, over the keyboards... for accuracy counts as well as speed! The whistle shrills! The judges make the count... and Stella Willins is crowned the fastest-woman typist in the world—with a record of 124 words a minute!

● AT RIGHT—STELLA WILLINS is shown enjoying a Camel. She says: "I'd advise anybody who enjoys smoking a lot to smoke Camels, for the sake of their nerves."

● WHAT A RELIEF to the spectators to light up their Camels and ease the strain of watching a thrilling finish. Whenever you feel keyed up, excited, have a Camel—for the sake of your nerves, for the added pleasure in Camel's costlier tobaccos.

IT IS MORE FUN TO KNOW Since tobacco quality is all important in a cigarette, Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. **STEADY SMOKERS TURN TO CAMELS**

STELLA WILLINS says: "I just couldn't type at top speed and do it accurately if I hadn't learned how to keep my nerves healthy. I am a woman who enjoys smoking. I prefer Camels, as I never tire of them no matter how steadily I smoke. They are delightfully mild. And they don't make my nerves ragged. I'd advise anybody who enjoys smoking a lot to smoke Camels, for the sake of their nerves."

Camels, made as they are from costlier tobaccos, give a satisfaction that never fades... no matter how steadily you smoke them. Start smoking Camels today and discover for yourself the added pleasure of a milder cigarette that never tires your taste. It is more fun to know.
