But before we o.k. any new state, we wish to go army of Manchukuo, entered the into conference with Ray Wilson's border city of Kailu and swept on calculator to figure up things like towards the southwest. On his heels taxes, state payrolls, plains tax assessment, and the like. We have Kennisuke Mogi which entered Kailu a hunch that taxes would't be any lower if a crack new state were

HOLDING PROPERTY.

Property is the fruit of labor Property is desirable. It is a positive good to the world. That some should be rich, shows that others may become rich, and hence is just encouragement to industry and enterprise. Let not him who is houseless pull down the house of another, let him work diligently and build one for himself ,thus by example assuring that his own shall be safe from violence when built. -Abraham Lincoln.

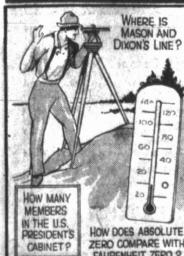

PROVIDING SAFETY.

Pulling down the house with taxes during the bottom of the depression curves is not logical, although the big impetus of the pull was given during the best days. Consider that the tax burden of the people of Texas last year-more than 202 millions for all purposes amounted to more than the value of all farm income in the state. No century has provided much higher taxes. And of this total, the state's share was by far the least, showing the state officials to be pikers compared to the people ther selves at the polls.

THOSE LOCAL UNITS.

Consider that local units are col-123 millions of dollars. County gov-ornment must be re-organized to McLean Men Ask lecting 82 per cent of the taxesprovide for fewer elective, executive offices. There are not more than four departments of county government which require elections and the high salaries which go with

#### CROSSFIRE ON THE TAXPAYER

The White House after the inaguration, they will underline once more the woes that descend upon the head of R. S. McConnell, Roy Tribble, the dax-gatherer in a depression.

There are many things for the governors and the president to discuss, but one of the most important, Harry Marbaugh and music in undoubtedly, is the matter of overlapping state and charge of R. B. Fisher.

Ordinarily, the state government dives into one of N. Duncan, W. G. Kinzer. John Citizen's pockets for its money and the federal Brown, Bill Benton, A. B. Keahey John Citizen's pockets for its money and the lederal R. E. Kinzer, J. E. Mongold, J. G. government dives into the other. But in the last few Gantz, J. M. Bell, Will Bell, C. B. years they have shown a tendency to dive together into Barnard, B. E. Findley, DeLea Vithe same pocket. The House Ways and Means Com- cars, J. S. Wynne, M. Maness and mittee has discovered 326 duplications between state and federal taxes, and now that times are bad these duplications are beginning to pinch.

When you buy gasoline, for instance, you pay a lary. state lax and a federal tax; and in some places you pay a city and county tax as well. When you buy cigarettes you pay a federal tax, and in 13 states you also pay a state tax. The federal government taxes theater tickets, bond and stock issues, tickets to boxing matches, and so on; many state governments do likewise.

The result is that the citizen gets hit twice in the same place. The indirect tax, whose great virtue is that the taxpayer can't feel it, can be felt quite plainly when this happens.

And yet it is a whole lot easier to say, "Let's end all of this duplication," than it is to do it. Our various governments are up against a problem of monumental proportions.

It is imperative that they reduce taxes substantially. It is also imperative that they spend a lot of money on projects to take care of the jobless and help bring the depression to an end. These two imperative clash headon in a way that would make Solomon himself grow grayhaired trying to find a solution.

What's the answer? That is what the president and the governors have got to figure out; and it is a safe bell that they are going to feel older, wiser and wearier before they get the job done.

The trouble with most heated arguments is that they are only half-baked.

The cigaret improvement most desired by the smoker nea friends are "inst out the "nick" out of nicotine.

Maybe the new Washington 25-cent pieces were coined in the hope of bringing business improvement from a new quarter.

The evangelist who declared there were no autos in hell may inadvertently be driving a lot of pedestrians to the devil.

Many a father who'd willingly give daughter the shirt off his back is going to kick at parting with his

WHEN IT MAINS, IT POURS

# Split-second starting at 20° below zero

Now, you can laugh at cold weather starting troubles . . . because the gravity of Phillips 66, the greater gasoline, right now ranges from

65.6° to 80.5°

The red line on the thermometer may sink out of sight, but this sensational high test is more than a match for the toughest blizzard that ever

Twenty above or ten below, whatever your weather, you know that every gallon of Phillips 66 which you buy is scientifically and accurately matched to its demands. So you always get a gas that gives the peak of performance, guaranteed by the process and principle which the great Phillips organization pioneered: CONTROLLED VOLATILITY.

And here's the big news: This honest high test with CONTROLLED VOLATILITY does not cost a single penny more than ordinary low gravity gasoline. You DO NOT pay any 3¢ premium per gallon. But you do get premium performance on every count, from flashier get-away to longer

When you read or hear other claims, remember that PHILLIPS IS THE LARGEST PRODUCER OF NATURAL HIGH GRAVITY GASOLINE and this certainly qualifies us to offer world-challenging value in a high test motor fuel.

Hence we confidently promise you exceptional and outstanding results if you try a tankful of Phillips 66.

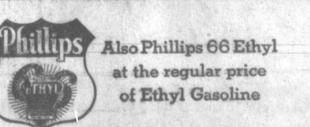

Stop the very next time you see the Orange and Black 66 shield. That is where you get mira bigh test without paying a penny extra. That is where you also get the amazing new Phillips 66 Motor Oil : , perfect team-mate for instant-starting Phillips 66 Gasoline, because it flows instantly and freely even at temperatures 62° below freezing.

In gasoline, volatility is that quality which makes it deliver perject performance at any temperature. Since the weather can't 'e controlled, the only way to insure perfect performance is by CONTROLLING the VOLA-TILITY-increasing the volatility as the temperature drops. Phillips 66 is the gasoline with Controlled Volabelow-zero weather . . . faster warm-up . . . flashier acceleration . . . more miles . . . less carbon and crankcase dilution. Phill-up with Phillips and you will feel the difference, because right now-this month-

PHILLIPS 66 HAS 78% MORE VOLATILITY than any other leading casoline.

### PAMPA DAILY NEWS NEWSREEL SHOWS MULES HITCHED TO CAR

A new way to beat the depression is demonstrated in the current issue of the Pampa Daily NEWS-Universal Newsreel by W. H. Wood, a farmer of Courtney, Mo., who hitches his two mules to his automobile and goes about his business because he has plenty of corn he can't sell but no money for gasoline. The screen's talking reporter, Graham McNamee, noted radio announcer, describes Woods' unique 'Prosperity" move in colorful phraseology at La Nora theater.

Wood figures he gets about 20 oceanographic expedition.

miles to the bushel, which, at 10 He claimed a depth of 2 mule-power is rather startling plorer to inhabitants of the section, the determined farmer says that rid-ing in the closed car is more comfortable than riding in an open wagon. He boasts that he has no frozen radiator or ignition trouble would be required to keep a two-and that muddy ruts present little year record of their refinery runs. or no obstacle to the mules.

important and interesting events in the newsreel, including the heroic battle through 16 foot snowdrifts by forest rangers to carry supplies to margogred denizance of the So. to marooned denizens of the Sequoia National Park section of the California Sierras; the 60-mile gale that all but halted down-town motor and pedestrian traffic in Chicago and that whipped Lake Michigan to an ocean-like fury, and the sensational one-mile race won by Glenn Cunningham, U. of Kansas star, over Gene Venzke Penn title holder, at the Millrose Games in New York City.

### Solons In Favor Of Retaining Gas **Refund Measure**

AUSTIN, Feb. 24. (A)-The house revenue and taxation committee has gone on record in favor of retaining the gasoline tax refund to purchasers who use the fuel for purposes other than propelling motor vehicles over the state high-

The committee, in considering two bills to strengthen the gasoline tax law, turned down the one that would have abolished the re-fund. A major portion of the annual refund approximating \$3,000,-000 goes to farmers who use gaso-line for their tractors and other

farm implements. Rep. B. L. Rogers of Farnsworth, one of the opponents of the bill, asserted that elimination of the refund would cause farm operators to use kerosene in their tractors or abandon them altogether. He said the farmers would be unable to pay the four-cent state and one-cent federal tax and use the gaso-

line for agricultural purposes. It was estimated by Rep. Penrose Metcalfe of San Angelo, whose bili was given a favorable report, that measure would plug enough holes in the present law to increase the gasoline tax receipts by approximately \$3,000,000. The main purpose of the bill was to prevent the bootlegging of gasoline.

The bill would impose the cupation tax on the comp person making the first sale this was said, would in most cases make the refiner of the gasoline responsible for the tax. Another provision would require distributors of gasoline to obtain a permit from the state comptroller and post a surety bond to guarantee compli-

ance with the law. Violations would subject the dis-tributor to heavy penalties and render his permit subject to forfeiture within 15 days unless he paid the penalties and purged him-self of the violation. Refiners

#### Ocean Depth of 9 Miles Discovered Off Puerto Rico

SAN JUAN, Puerto Rico, Feb. 24. P)—An ocean depth of nearly nine niles, discovered 75 miles north of this island, was claimed today to be the lowest point in the bed of

1933.

Scripture Lesson: Mark 4:35-Mark 4:35: And on that day, to Capernaum. when even was come, he saith unto them, Let us go over unto the other

And leaving the multitude. they take him with them, even as istry was boats were with him.

And there ariseth a great was now filling.

38. And he himself was in the stern, asleep on the cushion; and by hills from three hundred Teacher, carest thou not that we perish?

Peace, be still. And the wind ceased, and there was a great calm. And he said unto them, Why ye fearful? have ye not yet

41. And they feared exceedingly, and said one to another, who then is this, that even the wind and the sea obey him?

Mark 5:1. And they came to

him out of the tombs a man with nights exposed to that vehement 3. Who had his dwelling in the tent-ropes, and frequently were obtombs; and no man could any more liged to hang with our whole bind him, no, not with a chain; Because that he had been

rent asunder by him, and the fetters broken in pieces: and no man had strength to tame him. And always, night and day, in the tombs and in the mountains,

And when he saw Jesus from afar, he ran and worshipped him; with thee, Jesus, thou Son of the Most High God? I adjure thee by

8. For he said unto him, Come forth, thou unclean spirit, out of The verb is very graphic, depicting the boat, he that had been possess-

ed with demons besought him that he might with him. 19. And he suffered him not, but saith unto him, Go to thy house unto thy friends, and tell them how great things the Lord hath done for thee, and how he had

mercy on thee. 20. And he went his way, and began to publish in Decapolis how great things Jesus had done for him; and all men marvelled.

Golden Text: For I know whom I have believed, and I am persuaded that he is able to guard that which I have committed unto him against that day.-2 Tim. 1:12. No water can

Introduction In the two great miracles recorded in the present passage Jesus in a most spectacular way showed his They all shall sweetly obey my will: the one a physical wonder and the other a spiritual marvel. By calming the troubled sea he showed his power in the realm of nature. By curing the troubled soul he showed his power in the It was at the close | sea." of that great day of teaching with try of the Gadarenes and in the its sermon in ten recorded and vicinity of a town whose site is not many unrecorded parables deliver- certainly known. Though it may ed at Capernaum and the lake- have been well after night-fall side. Late in the afternoon or early "when he was come out of the boat, night Jesus and the disciples while straightway there met him a man crossing the sea encountered the with an unclean spirit." storm that was stilled at the word moniac who was doubtless also a

General Topic: Jesus Shows His was healed, but the visit did not extend beyond a single day for at the request of the Gadarnes, Jesus

and his disciples recrossed the sea A Great Storm of Wind "And there ariseth a great storm of wind." "We do not realize that the greater part of our Lord's minthey take him with them, even as istry was accomplished at what man!" No one but God in the he was in the boat. And other may be truly called the bottom of person of Jesus had the power to a trench, 680 feet below the level work such a miracle. 37. And there ariseth a great of the Sea."—Prof. George Adam protested against going back to the storm of wind, and the waves beat Smith. The surface of the Sea of abyss "before the time." There into the boat insomuch that the Galilee is 682.5 feet below the level was according to their statement a of the Mediterranean. Moreover, legion of them and the Roman it is surrounded by steep cliffs, and legion at the time numbered 6,826 they awake him, and say unto him, more than a thousand feet high. mitted to go into the herd of 2,000 Therefore the sea is very hot at the swine being kept in the pasture surface, and great masses of air lands probably by a Gentile cor-39. And he awoke, and rebuked rise from it. To take their place poration or possibly by renegade wind, and said unto the sea, cold air rushes in from the Medi-Jews. The herd rushed down the the wind, and said unto the sea, cold air rushes in from the Mediterranean on the west, from the mountainside ountainous region on the east: were drowned. and from a snow-clad Mt. Hermon on the north. It is focused by the There has been a good deal of disgorges in the sides of the sea, and descends upon its surface with great force and very suddenly, struction of property. The question sometimes when the sky is perfectclear. Describing such a storm in his own experience, a traveller and earthquakes the other side of the sea, into the says, "the surface of the lake was country of the Gerasenes'. like that of a boiling cauldron. And when he was come out We pitched our tents on the shore, of the boat, straightway there met and remained for three days and

weight upon them to keep the quivering tabernacle from being bound with fetters and carried up bodily into the air. The chains, and the chains had been whole lake was lashed into such violence as to carry away the tentpins."-Rev. William M. Thomson, D. D. Jesus "Muzzled" the Sea "And rebuked the wind." He adhe was crying out, and cutting him- dressed it as if it were a raging demon, perhaps seeing some devil or some host of devils back of its fury. "And said unto the sea, And crying out with a loud Peace, be still." "Literally,

wind. We had a double-pin the

he saith, What have I to do muzzled, as if the sea were raging, roaring beast. The form of the word, too, means, 'be still forthwith and remain so'." "And the wind ceased and there was a great calm. the sinking to rest of the sea like 18. And as he was entering into a beast after a terrific struggle against irresistible force.

"was in the beginning with God?" Only the Creator could thus have controlled the forces which, ages before, he had himself set in mo

We Don't Meet Prices-We Make Them

When your doctor writes a prescription for medical supplies for you, he anticipates that his wishes will be carried out to the letter. He knows that the most precise diagnosis will not overcome the handicap of indifferent prescription service. He also knows, probably as do other distinguished members of the medical profession, that we have furnished a dependable type of drug store service for many years and that his wishes will be respected if his order is

elective offices. . . And in citing high salaries, this writer takes due regard for the fact that as long as offices are elective, they must have high salaries to provide campaign funds and contributions to the scores of petty "racketeers" which force the office holder to buy a ticket to this and make a gift to something else. We Americans are the most inconsistent people in the world, demanding that public servants work for low salaries and regularly forcing candidates to spend large sums to gain our favor.

THE WHY OF IT. Small landowners unfortunately must seek relief which is not needed by many wealthy landowners. Less than half of 1 per cent of the people of Texas own nearly 50 per cent of the property of the state. Some people, moreover, need tax relief, yet those who can pay taxes

are vowing not to do so next Janu-

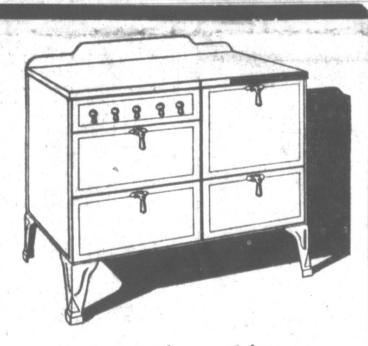

ar 31 because of the likelihood that

the state again will refund the in-

# CHECK THESE SAVINGS!

It's not the savings that you make in one day that counts the most, but it's the consistent savings that you make day in and day out at Piggly Wiggly that makes dollars for you every week. Ask the housewife who depends on Piggly Wiggly alone every day in the week and you'll find that her grocery budget is Less!
