## Carnera-Baer Title Fight Ordered Held On Thursday

**Twinkles**  
Issues surely must be scarce in Texas. The candidates are overlapping terribly in their arguments and a number of them are beating the bushes with perfectly nice little issues which excite no one.

We defend our failure to have our masthead with the statement that our decision will save us \$3.50 a year in razor blades. The Seals, at least, should appreciate our position.

Rufe Thompson: You can judge a cook by her ability to make good gravy.

Bert Curry: And the only substitute for good beef gravy is good chicken gravy.

Our own idea is that a good cook must be able to make good pie crust. Many a pie-maker calls it a cobbler before she gets the pie out of the pan.

**Brevitorials**  
Musings of the moment: Slight of a group of boys with a ground squirrel brings back thrilling boyhood memories. "Drowning out" a ground squirrel has all the thrills of making a birdie in golf. Except that the squirrel can bite viciously if you don't watch out.

Our thoughts ranged back to catching of prairie dogs for pets by digging a hole in the hole in front of their home. Of trapping prairie dog cubs. Of having our own circus, with soda pop made with vinegar and sugar, and paid for with nails. Of cracking 22 title cartridges between bricks—and living to write about it. It's great to be a boy, even in retrospect.

THE red ant is an industrious insect. He multiplies rapidly. Above all, he is persistent. When he sets his mind on building a home in a certain place, he and all his relatives will do just that thing if it takes all summer. Moreover, he is a colonizer; an explorer. His adventures in jungles like to move a little way off—probably a long way, in ant miles—to build a new colony.

THIS leads us up to our household problem—the killing out of a big ant bed and several smaller beds of the things. County Agent Ralph Thomas has a "drain" but probably ineffective. We'll let him try it. He uses cyanide of potassium, a deadly poison. We'll report on the method later. We warn our readers however, that this poison or sodium cyanide is simply too dangerous for most people to handle.

IF THE ants should not like the poison enough to succumb to its lethal possibilities, we'll take the advice of Mrs. Z. H. Mundy, who phoned in her favorite remedy. She uses "high life" burning it over the ants' home and spading it deeply into the soil. This usually kills the ants which are big enough to seek the open air, but it does not kill the eggs, which soon hatch and make a repetition of the extermination necessary. Mrs. Mundy assures us that two or three trials usually get the desired results. However, when the ants are under a sidewalk, killing out is almost impossible. We also have some letters to acknowledge later.

BY THE way, the chemical name of "high life" is carbon disulfide. That's not a bad name, but the chemical is a potent one. We'll be glad to hear from other persons who have ridden themselves of ants. Ants are interesting to us, although memories of red, swollen spots on our feet, caused by bites, cause us to have a cautious respect for the things. Evidently the lives of ants are well ordered. Every one seems busy doing something. Cooperation is frequently exhibited. Some sort of communication seem obvious. The other day we saw a big number of young red ants moving. Half of them were going in one direction and about the same number in the opposite way. Double-lane traffic was rigidly observed; there was no confusion. We didn't have time to stop and observe the meaning of the traffic.

## CONDITION OF PAIR REPORTED 'SATISFACTORY'

NEW YORK, June 8 (AP)—Max Baer and Primo Carnera today were reported in "satisfactory" condition for their 15-round heavyweight championship fight Thursday night at Madison Square Garden ball and the New York State Athletic commission ordered the fight to go on as scheduled. The announcement was made by Chairman John J. Phelan after both boxers had been given an exhaustive examination at commission headquarters by three commission doctors—Dr. William Walker, Dr. Morris Bever, and Dr. Vincent Nardillo.

No vote in the commission was necessary as the decision of the physicians as to a fighter's condition is mandatory under the laws of the state.

Both Phelan and D. Walker Wear, two of the three members of the commission, previously had expressed their views as in favor of holding the fight as scheduled while only Bill Brown had said he believed Baer was not in shape to fight and that the bout should be postponed.

## Non-Suit Entered in Mosley Case

After testimony had been heard and Judge W. B. Evans dismissed the charge to the jury. V. F. Nix of Amarillo, attorney for W. T. Mosley in a suit against the Traders & General Insurance company for compensation, entered a non-suit in the case agreeing not to push the suit further.

## Palo Duro Park Will Be Opened On July 4 to 8

AUSTIN, June 8 (AP)—Celebrations marking the formal opening of 3 state parks will be held during the remainder of June and early July. E. E. Colp of San Antonio, chairman of the state park board, announced today.

A nationally known group of rodeo entertainers has been engaged for performances at all of the park celebrations.

Dates of other openings are Lampasas state park, June 12 and 13; Meridian state park, June 16 and 17; Stephenville state park, June 19 and 20; Mineral Wells state park, June 23 and 24; Brownwood state park, June 26 and 27; Abilene state park, June 9 to July 1 and Palo Duro canyon state park, July 4 and 8.

## BUSINESS IS INCLINED TO MOVE AHEAD

Dun & Bradstreet Reports Retail Trade Is Better Despite Nation's Drought

NEW YORK, June 8 (AP)—Despite drought damage to crops and tension arising from labor unrest, business still shows on the whole an inclination to move forward on the recovery trend in evidence for more than a year. Dun & Bradstreet Inc. reported today in its weekly trade review.

Weather conditions have stimulated retail trade, according to the review, although business in drought areas has been hurt and volume gains there over last year have been almost wiped out.

"The average of industrial operations has been well maintained," it continued, "as a slight expansion in capital goods has offset the slackening report by manufacturers of consumers' products."

Despite the slight recession in factory activities, employment is being well maintained, and payrolls generally are at the highest level since 1931.

While the greatest unemployment continues in the durable goods industries, improvement in this direction may be evident shortly, as nearly a billion dollars of new financing is planned to be released now that the long-delayed control bill has become a reality and will permit the return of the investment base in the majority of future stock market transactions.

The review said the country was confronted with a new problem of rising living costs, with food prices likely to be higher in the fall as a result of drought damage.

## Roosevelt Loses Popularity Over Drought Section

NEW YORK, June 8 (AP)—Although maintaining a favorable rating of 3 to 2, the new deal shows a loss of popularity in midwestern agricultural regions and an increasing support in industrial states, according to balloting in the fourth report today of the Literary Digest's poll on President Roosevelt's acts and policies.

The latest returns gave the administration an approving vote of 37,491 to 25,429 opposing. Of the 25 states reported in the current tabulation, only Maine and Vermont are in one dissenting column.

## HUGE DAMAGE INFLICTED IN CAPITOL CITY

COMMUNICATION LINES ARE IN COMPLETE COLLAPSE

NEW YORK, June 8 (AP)—Eight lives were lost, 500 persons were homeless and damage estimated at \$1,500,000 done by a hurricane that swept San Salvador yesterday and last night, Pan-American Airways reported today.

Martial law was declared as a result of the complete collapse of communication facilities, light and power lines and railroad travel.

The reports, wireless to Pan-American Airways via its airport in Salvador which escaped damage, said many large buildings in the capital were partially demolished.

Homes in the residential district of Hopango and Foyopango were washed away by heavy rains that fell during the storm, the report said, while the highway to La Libertad was rendered impassable.

The storm struck Salvador at 1 p. m. yesterday, at which time 50-mile an hour winds were reported. High winds continued throughout the night, accompanied by torrential rains.

Damage to the railway system consisted of numerous slides and washouts, while several bridges were carried away.

Pan-American Airways reports said it was believed three weeks would be required to restore rail, communication and power services to normal, although several more important power lines were reported partially repaired today.

The government wireless station was operating today, but only for communications within the country. Virtually all telephone wires in the capital were reported down.

No reports were available as to damage done by the hurricane in the interior.

The tropical storm, first disturbance of the kind this season, formed in the Gulf of Mexico and struck inland at British Honduras, apparently gathering intensity as it moved forward.

A hurricane in early June is considered by weather observers as highly unusual, since rarely do such disturbances form until late July or early August.

## Blast Blows Bodies of Seven to Bits

Their bodies blown to bits and scattered 300 yards across a field, seven men died near Norman, Okla., in a terrific explosion in their nitroglycerin-loaded truck.

The shattered wreck of which is shown here. The blast occurred in a storm and its cause may never be known, one theory being that it was struck by lightning and another being that contents of the truck were touched off when the machine struck a bump in the road. The victims were members of an oil exploring party.

## GRAY COUNTY PLANS TO GET LAND MONEY

Interest on Gains County Oil Land Has Accumulated For Years at 6%.

Oil developments in Gains county, where in 1907 Gray county sold her school land for \$3.50 an acre, is expected to mean that back interest on many tracts will be paid.

Interest has been accumulating for many years at 6 per cent on some tracts. Principal payments can be made at any time but are not mandatory until 1947, or forty years from the date of sale.

The Shell Petroleum company, having leased about 1,500 acres of the Allison tracts, has asked Gray county to subordinate her vendor's promise of the company that it will encourage the lessee to apply the amount of lease rentals against the indebtedness. The county, however, is not likely to take such a course, inasmuch as the interest is paid to date on the land.

County Attorney Sherman White has been instructed by the commissioners court to collect all the interest possible on the lands and to investigate the county's position on all tracts.

## BEAUMONT MAN RUNS AMUCK AND KILLS ONE, BEATS ANOTHER, THEN CUTS OFF ONE OF HIS OWN EARS

Strips off Clothing And Leaps on His Brother-in-Law

BEAUMONT, June 8 (AP)—Sheriff Pete Hughes of Newton county sought some disposition today of the case of Babe Starks, 25, who ran amuck at his farm home and chewed and bit his brother-in-law, Cleve Inman, and killed Inman's brother, Nat, with a wagon spoke.

Starks, stripped of all his clothing, wandered into his brother-in-law's yard and leaped on him the sheriff said. Nat, a 58-year-old bachelor, came to the rescue and was beaten to death.

Cleve's family, composed of Starks and her nine children, who were hoeing cotton, hid in nearby woods for two hours until Starks left. He wandered down the road but was picked up several hours later. The sheriff said he had chopped off one of his own ears.

Hughes went into conference with the district attorney at Orange to determine what charges to file. Starks was held in the Newton county jail.

## Kiwanians Will Hold Picnic on Monday Evening

Pampa Kiwanians will gather at the Schneider hotel Monday afternoon at 4:45 o'clock to leave on their annual picnic which will be held south of LeFors. A large truckload of food will be sent ahead by Alex Schneider. All Kiwanians with their families are invited to attend. A radio broadcast direct from the International convention in Toronto, Canada, will be received at the picnic.

Short talks were made by Frank Carter, "Conventions", Ollie Doak, "Amusement for children in the summer time", Jimmie Weir, "Committee work", and Ed Vicars, "Safely".

Cigars were passed by Bob Selby. Visitors today included H. Kerr, J. D. Kerr, Floyd Studer, Dan Gribbin, W. R. Frazier and R. W. Rine.

TEXAS GROUP HERE  
H. J. Basham, O. R. Burden, and L. R. Smith, officials of the Texas company with offices in Wichita Falls, were Pampa visitors yesterday and today.

TEXAS: Generally fair tonight and Saturday. Light to moderate southerly winds on the coast.

## FAMOUS QUINTUPLETS ARE CURED OF JAUNDICE; MRS. DIONNE FRETS

CORBEIL, Ont. June 8 (AP)—Mrs. Ovilla Dionne, who at the age of 24 has brought eleven children, ten of whom are living, into the world, fretted in bed today, anxious to be up and mother her quintuplets and their five elder brothers and sisters.

Dr. A. R. DaFoe had promised her she could get up for a while yesterday. But he changed his mind when he found her recovery was not as rapid as he had hoped.

## County Singers Will Meet at McLean Sunday

The Gray County Singing convention will meet at McLean on Sunday, with sessions starting at 3 o'clock at the Holiness church.

The time and place of the convention were set a month ago at the LeFors meeting. It is expected that John Taylor of Clovis, president of the 27-county Plateau Singing convention, will be present. Many special numbers are expected to be rendered by visitors, as well as selections by Mrs. McLean folk who are reported to have had a singing school lately.

Local singers and lovers of music are urged to go to McLean to enjoy the convention session and make it a success. There will, as usual, be no admission charge.

Pampa's new parking lots are becoming more popular every day. A few merchants are requiring their clerks to use the free parking spaces so that the street in front of their places of business can be used by customers.

## DECENT HOMES ARE PLANNED BY PRESIDENT

OLD-AGE INSURANCE IS AIM OF 'HUMAN' PROPOSAL

WASHINGTON, June 8 (AP)—President Roosevelt told congress today that he is preparing a vast plan of social insurance for the security of the citizen and his family.

This, with another national plan for land and water resources, will be laid before congress next winter.

In his longest message to the national legislature, the chief executive said:

"Among our objectives I place the security of the men, women, and children of the nation first."

"People," he said, "want decent homes to live in; they want to locate them where they can engage in productive work; and they want some safeguard against misfortunes which cannot be wholly eliminated in this man-made world of ours."

Regarding homes, he said the government has already appropriated millions for housing, and in a housing bill now before the legislators can "stimulate the lending of money" to modernize homes and build new ones.

Of the "problem of readjustment of the population," he said "hundreds of thousands of families live where there is no reasonable prospect of a living in the years to come."

"When the next congress convenes," he declared, "I hope to be able to present to it a carefully considered national plan, covering the development and humane use of our national resources of land and water over a long period of years."

It involves abandoning millions of acres for agricultural use and replacing them with better land.

The president disclosed he has begun actuarial studies looking to a unified system of social insurance, including unemployment and old age.

"I believe," he said, "there should be a maximum of cooperation between states and the federal government. I believe that the funds necessary to provide this insurance should be raised by contribution rather than by an increase in general taxation."

The states, he said, "should meet at least a large part of the management cost," leaving the federal government the task of investing and safeguarding the reserves.

The president said at critics who say the government should devote itself to recovery first and reform later.

## LATE NEWS

WASHINGTON, June 8 (AP)—Winter wheat production, this year was forecast today by the department of agriculture at 400,000,000 bushels. A month ago 461,471,000 bushels were forecast, but drought ravages have cut deeply since. Last year 351,030,000 bushels were produced.

MERION CRICKET CLUB, Philadelphia, June 8 (AP)—Breaking a deadlock wide open, Bobby Cruickshank, diminutive Scot from Richmond, Va., duplicated his first round 71 with another sensational exhibition of golf today and took a big lead with a total of 142 for the first 36 holes of the U. S. open championship.

KANSAS CITY, June 8 (AP)—Mrs. O. S. Hill Kansas City, and Miss Lucille Robinson, Des Moines, will meet for the women's trans-Mississippi golf title tomorrow.

MINNEAPOLIS, June 8 (AP)—Henry A. Wallace, secretary of agriculture, predicted today a period of prosperity beyond the powers of imagination for agriculture and industry in the United States, to come as soon as the people of the country "decide in what direction they want to go" and unite in an effort to reach that goal.

## College Credit Trip Explained

Summer course features of interest to prospective students have been explained to recent Pampa high school graduates by L. N. George, representative of the Extension association of West Texas Teachers college.

Mr. George told of a 3,000 mile trip into New Mexico, Wyoming, Utah, and Colorado, that will last 5 weeks but for study during which credit will be given for a 6-week summer term.

For those who do not care to travel, there are cooperative houses in which expenses can be reduced to little more than the cost of living at home.

Next fall a department of archeology will be established at Canyon for the first time by the board of regents.

## Convict Escapes Sayre Jail After Beating Jailer

Officers in this section have been notified to be on the watch for Bill Stephens, who escaped from the Sayre, Okla., jail last night. Stephens tricked the jailer into his cell and beat him into unconsciousness, locking him in the cell after taking his weapons, according to police reports.

## LESSONS IN DESTRUCTION

One day this week, a representative of The NEWS had occasion to witness the depredations of youngsters among the trees and flowers in the city park. They had pulled up by the roots a beautiful young tree, one whose leaves are a deep red during the four seasons. It had been growing since the park was landscaped. The tree was not only beautiful but valuable.

A cursory analysis of the circumstance would seem to imply that the malefactors were not only uninvited but inhumane. Why should Pampa children delight in destroying a tree where trees are at a premium? Why should they gain satisfaction out of stripping leaves and limbs off the stately Lombardy poplars in the park? Most adults when they heard of it said, "it puzzles me; children were not like that when I was little."

And that is true. Children were not like that. Then why? One answer is furnished in this incident at a picture show. A comedy was being flashed on the screen. One scene in it showed a small boy about 6 years old methodically and gleefully destroying a mattress. The children on the front row were almost hysterical with glee and laughter. One attractive child had to be calmed repeatedly by her mother because her laughter became so hysterical. The picture was no different than most of the comedies produced for children. The motive to destroy was developed boldly and brazenly. Destruction of property was depicted as great fun and almost as a virtue. The children enjoyed it immensely. With such instruction before them, it is no wonder that children will destroy beautiful trees and think it great fun.

It would be absurd to blame local theaters for showing such pictures. They are not to blame. Responsibility for demoralizing movies lies in Hollywood. If children learn to be destructionists, bandits, gamblers, drunkards by attending the movies, Hollywood is to blame. When Mr. Hugh Johnson was drafting all his codes he might have framed one for the movies and then should have enforced it. The movies are supposed to have a boss—Cear Will Hayes—but all that gentleman seems to worry about is to keep the movies from being too sex-ridden. The adult, not the child, is his particular care, and even a fool knows that it is something to train a child's mind and nothing to attempt to train a middle-aged person's mind.

## HUNDREDS OF FLOWERS TO BE GIVEN SHUT-INS ON SUNDAY

Arrangements have been completed to distribute hundreds of flowers to the sick and disabled of this city Sunday as the second annual National Flower Show is observed.

The program of flower-giving according to W. A. Boston, honorary chairman of the local Flower Show, will be carried out simultaneously in more than 2,000 clinics under sponsorship of the Florida Telegraph Nurses association with more than 2,000 members in the two countries.

Local hospitals that will be visited with flowers, their unfortunate patients who otherwise are unable to enjoy June flowers and sunshine will be chosen by lists of doctors and the general public. Deliveries will also be made to convalescent homes, whose nurses have been furnished the local committee by the public.

Business who have pretty garden flowers are urged to cooperate by brightening the homes of convalescent patients.

## Descendant of Jefferson Davis Dies in Wreck

PASADENA, Calif., June 8.—Dorothy Dell Goff, daughter of a wealthy retired New Orleans lumberman, who attained spectacular prominence in motion pictures within the last several months, was killed early today in an automobile accident.

Her companion, Dr. Carl Wagner, 28, Pasadena surgeon, who was questioned by authorities several months ago in connection with the unsolved murder of Dr. Leonard

Sliver, Pasadena dentist, was probably fatally injured. Miss Goff, known on the screen as Dorothy Dell, and Dr. Wagner had just left an Altadena inn after a gay party, police said, when the dentist's large sedan plunged off a road, snapped off a light pole and came to rest at the bottom of a ditch.

Dr. Wagner suffered a basal skull fracture and severe leg injuries. Miss Dell, who had appeared on the New York stage and in Zigfield's follies, came to Hollywood last December to play in motion pictures for Paramount. She had just completed her third starring vehicle "Shoot the Works".

Miss Dell was born in Hattiesburg, Miss., and received her schooling in New Orleans. She won the beauty title of Miss Universe in 1930 at

Galveston, after being declared "Miss New Orleans" in a contest sponsored by the American Legion post of that city. Miss Dell, who also attained considerable recognition as a radio artist, was 20 years old. She was a descendant through her mother of Jefferson Davis.

# PAIRINGS FOR OPEN TOURNEY TO BEGIN SUNDAY MORNING ARE ANNOUNCED

## LOWEST SCORE IS TURNED IN BY EX-CADDY

### MEDALIST IS GROVER AUSTIN; TALLEY IS SECOND

Pairings for the city open tournament to be played over the Country club course, starting Sunday morning, have been announced. The tournament committee met last night and completed arrangements for the big play.

Grover Austin, former caddy star, was medalist with a 70, one stroke ahead of Buck Talley, another former caddy sensation, who was also captain of the high school team this season. The two youngsters will meet in the quarter finals if they survive the first round of play. Both have tough matches, Austin meeting Ben Ferris and Talley playing Doc Croston.

Play will get under way at 8 o'clock Sunday morning. All players must be ready to tee off by 1 o'clock Sunday afternoon. It is recommended that two rounds be played Sunday.

Del Love, club pro and tournament manager, wants all available caddies at the course before 8 o'clock.

Bus Kaufman, defending champion, will attempt to make it two in a row. Kaufman qualified with a 72.

Prizes will be given the winner and runner up in each flight and also the winner and runner up in consolation play.

## Great Britain And France Are Now Reconciled

GENEVA, June 8 (AP)—Norman H. Davis, United States ambassador-at-large, said today that a disarmament agreement reached last night between France and Great Britain is of real value and paves the way for solving the disarmament problem—if that problem can be solved.

The American will leave next week for London to represent the United States at the preliminary conference looking toward the naval conference in 1935.

Davis said a reconciliation actually had been reached between France and England, despite the acrimonious discussion early in the week and that this reconciliation takes into account both government's position.

Davis explained that the American acted as mediator between the French and British diplomats saying that the United States has an interest in everything that promotes stability and good will.

The essential feature of the compromise plan was that negotiations shall open to get Germany back in to the conference.

## Three Charged In Oil Theft

LONGVIEW, June 8 (AP)—Another purported oil theft plot, this one near Kilgore, had been uncovered today with the arrest and charging of three men with conspiracy and theft over \$50 by Texas railroad commission investigators.

H. T. Newcomb, Joe Brown, and R. L. Knight were charged in the cases. A. B. Cross, railroad commission investigator who filed the complaints, said Knight formerly was with the department of the interior and is a part owner of a small refinery.

Texas Ranger George Johnson arrested the men and they were later released under \$1,000 bonds.

Cross recently concluded investigation in the Gladewater section which led to the arrest of 13 men, including F. A. Smith, son of Lon A. Smith, chairman of the Texas railroad commission.

## FIRST WILCOX GAME WILL BE ON TOMORROW

### OKLAHOMA CITY TEAM AND ROADRUNNERS TO PLAY HERE

The Wilcox Oilers, Oklahoma City's crack semi-pro baseball team, is scheduled to arrive in Pampa tonight for a two-game series with the Roadrunners. Tomorrow's game will be at 3:30 o'clock with the game Sunday 30 minutes earlier. Tomorrow will be Ladies' day. Women will be admitted free.

Leaders of the Oklahoma City Petroleum league, the Oilers have won 12 of the 14 games played. On Wednesday afternoon they won their twelfth game. It was originally scheduled for Sunday but was advanced to the middle of the week so the Oilers could come to Pampa for the two-game series.

Manager Earl Johnson will bring 14 players to Pampa. Many of them are well known in this section of the country. The names of Speck Peddicord, Gene Nance, Odie Strain, Parker Brewer, Red Roberts, and others have been heard in this section. Roberts is recognized as one of the best pitchers in the Sooner state. Strain is a great catcher and Brewer is the batting savior of the team and league.

The Oilers are the Fire Department team, two of the two strongest in Oklahoma City. They have not met this season and fans are looking forward to a city championship tilt between the two.

Miles "Gomez" Marbaugh was on the mound for batting practice yesterday afternoon but was a little wild. Manager George Bulla showed the lefthander a few things about standing on the mound, delivering the ball and other important pointers. The elongated lefthander was naturally "off," trying to get into the swing of things in the order mentioned by the manager-pitcher.

Some of the Roadrunners who have been trying to kill the ball reduced their swing yesterday and were getting more hits than usual. Manager Bulla has not definitely decided who will start the game tomorrow afternoon.

## Cyclone Mackey And Rod Fenton In Draw Match

Cyclone Mackey, Amarillo's gift to the wrestling game, will try to tame Sheik Marallah, Asiatic champion, in the main event wrestling match at the Pla-Mor auditorium Monday night.

Mackey got a good workout in the Marallah type of grappling last night in Amarillo when he wrestled to a draw with Rod Fenton, who was married in the ring preceding the match.

Fans are familiar with both grapplers, of the two, they like Mackey the better. The Amarilloan usually grapples clean but that style will probably be useless against Marallah who likes to slip his fingers into his opponent's eyes, use a finger in the windpipe, or send a right to the mid-section when the referee is not looking, or sometimes even when the third man in the ring is watching.

"If the referee will allow me to work on that beard, Marallah will be just another grappler gone to the discard," Mackey said, not in a boasting voice, last night. "I have several tricks that can be worked from a beard hold and if I get a break in the officiating, it will be too bad for the shiek."

Speed and science should feature the preliminary when Dan Carver of El Paso meets Lou Kodrick, strong man of the mat game. Kodrick, however, can get a little rough if the occasion arises. Carver has yet to break the rules on a Pampa mat. He is fast, clever, and a favorite with Pampa fans. Kodrick is also popular here and the match is causing a lot of comment about town.

Two giants will open the card. Bob Rodgers, rig builder, and Claude Halley, carbon black worker, will settle a difference. Halley is a newcomer to the Pampa mat but he has been working out and should be a match for Rodgers.

## To Add 100 Men To Oil Forces

DALLAS, June 8 (AP)—Federal forces in Texas to combat oil code violations will be strengthened to more than 100 men, Rhodes McPhail, assistant director of the division of oil investigation of the department of interior revealed today.

Thirty-five additional men will be sent to Texas, McPhail said after a long distance conversation with Louis R. Glavis, director of the division in Washington. Time for the start of the campaign has not been determined, McPhail said.

The drive will include prosecution not only of persons guilty of producing oil in excess of quotas and violating federal control regulations, but also those evading labor and marketing provisions of the code, McPhail asserted.

CHINA SEEKS NEW ANTHEM NANKING (AP)—A proposal that China have a new national anthem was approved by the executive yuan here and passed along to the central political council.

## Badger Boating Beauties

No less than 200 University of Wisconsin maidens have gone in for crew, a sport once reserved for men alone. Heading a spring intramural program for women is Mike Murphy, varsity crew coach. An inter-society race on May 19 will be the high point of the season. From the looks of the candidates above, coaching them shouldn't be such a hard job.

## FIGHT BETWEEN HERRERA AND GEORGE SALVADOR PLANNED

Tony Is Only Fancy Boxer And Jabs Lightly, But George Can Get Tough.

By BILL PARKER  
Associated Press Sports Writer  
Jimmie Guest, Houston fight promoter, is endeavoring to match George Salvador and Tony Herrera for a ten round bout.

In a bout these two boys Houston ring-siders probably will get a surprise for Salvador looms as the winner. Tony Herrera is a fair boy with a big reputation. He holds the Texas junior welterweight championship won from hard-hitting Tracy Cox in a bout these two boys easily have been called a draw as Herrera won by dancing and jabbing instead of socking.

Salvatore is a better fighter than Herrera. He hits faster and harder and he can take it. At long range, Salvatore is the superior puncher. Tony is strictly a fancy boxer without any great power in his punches. Salvatore is at his best when the milling gets tough. Herrera like to break for cover when too many punches are being tossed. If they should meet and the fight has a capable referee and two qualified judges, Salvador probably would be returned the winner. One thing sure, he can wade in and try for a knockout without fear of being knocked out himself. Herrera can't hit half as hard as Pat Murphy the youngster who dropped Salvador several times in their three fights but couldn't put the Boston batter on the floor for keeps. Even with knockdowns scored against him Salvador fought back to beat Murphy although the judges voted both fights at Dallas draws.

## MISS DONIA PAYS \$100 ON \$2 TICKET IN PANHANDLE RACES

2,500 Fans Pack Grandstand As Annual Spring Races Begin 25 Miles to West.

The Panhandle Racing association's new plant was officially opened yesterday afternoon by 2,500 wildly shouting fans that packed the grandstand. Long-shots featured the betting; with Miss Donia, entry of C. Jones, paying her backers \$100.80 for a \$2 ticket.

The new track was dry but a little slow. With the exception of second event, the races were keenly contested. A free barbecue was served to more than 500 at noon and the grandstand was packed for the races.

Cabin Camp, Ed Deah's famous horse, won a special feature from Scooter, an Arkansas racer of ability. The two horses raced to a tie last year. The special race was followed by an exhibition of roping by Tex Crawford and his war-painted Indians from Miles City, Mont.

The second day of races this afternoon was to feature several well known horses. Tomorrow's entry list reads like the big time. There will be no racing Sunday and the meet will be concluded Monday afternoon.

Red Goddard, a sensational jockey last year, rode two winners yesterday. Goddard piloted Joe Bailey to a win in the first race to pay \$27.70 to win. The same jockey won the third race with Little Brownie and paid \$12.20. C. Watson piloted a winner and a place horse.

In the show horse contests, J. Lindsey Nunn's Red Velvet won the three-gaited class with Irish Rose second. The Nunn entry also took second place in the five-gaited class for mares which was won by

## SHORTSTOP'S HOMER BEATS CATS 6 TO 4

### CHARLIE ENGLE COMES BACK TO AVENGE HIS DISCHARGE

By BILL PARKER  
Associated Press Sports Writer  
Another cast-off ball player got his revenge yesterday when Charlie Engle, San Antonio shortstop, clouted a sixth inning home run that started a rally and gave the Missions a 6 to 4 victory over Fort Worth. It wasn't so long ago that Charlie was playing shortstop for the Cats but one bright day he was shipped away and like all good ball players he returned to defeat his former mates.

When Charley cracked his homer two were out and a runner was aboard. The Missions followed up with two more tallies that gave them victory and jumped them into second place in front of the Tulsa Oilers. Up to the time Charlie arrived with his fence-buster, the Cats led 4 to 1.

Tulsa faded out of second place by losing a 5 to 4 battle to the hustling Beaumont Exporters. Where Engle aided in defeating his former club, Skeeter Newsome, former Beaumont infielder, helped the Exporters win by making three crucial errors in the Tulsa game.

Tulsa made four errors and the alert Exporters were right there ready to take advantage of them.

Oklahoma City, deep in the league cellar, got a glimpse of daylight by trimming Houston, 5 to 3. In all, Tulsa made four errors with four errors proved costly for Houston. George Payne started for Houston but gave way to Cromer. Evans went the route for Oklahoma City and pitched a commendable seven hit game.

Successive doubles by McCulloch and Vance closed out a 13-inning marathon contest between Dallas and Galveston with the Steers winning, 3 to 2.

Fred Stely, who lately has rounded into form, toiled long and hard for the Steers eventually to get a new stomach after the first 90 years, has managed to get along with one made partly of silver for another 42 years. Now 102, Waggoner has had a stomach of silver tubes since he was accidentally shot in the back at the Chicago fire in 1871.

OLD MIGHT HAVE WORN OUT SPRINGFIELD, Ill.—Ferdinand Wagggoner, who had to get a new stomach after the first 90 years, has managed to get along with one made partly of silver for another 42 years. Now 102, Waggoner has had a stomach of silver tubes since he was accidentally shot in the back at the Chicago fire in 1871.

WHAT NO FLAT FEET? PITTSBURGH—"Flat feet" is a misnomer when applied to Pittsburgh policemen and Dr. Daniel E. Sabie, public safety department surgeon, can prove it. Dr. Sabie reported after the annual physical examinations that only 3.82 per cent of this city's coppers have spread-eagled arches. This, he said, is the lowest proportion for any police force in the court.

## FIGHTS LAST NIGHT

By The Associated Press.  
ASBURY PARK, N. J.—Al Trulmans, 162, Los Angeles, outpointed Clarence "K. O." Burns, 164, Baltimore, (10).

NEWARK, N. J.—Jimmie Smith, 156, Philadelphia, outpointed Young Terry, 156, Trenton, N. J., (10).

The Brooklyn Dodgers took a 1 to 0 decision from the Phillies and retained sixth place when Len Koenecke hit a homer and ruined George Darrow's four-hit pitching job.

Mickey Cochrane's Detroit Tigers consolidated their position at the head of the American league by trouncing Cleveland, 11 to 6 while the Yankees and Red Sox decided it was too cold for a game at Boston.

The Indians dropped into a virtual tie with the St. Louis Browns, who rallied for three runs in the ninth to overcome a lead Chicago had gained through Zeke Bonura's 15th homer and beat the White Sox 5 to 3.

### But 60 Low Scorers To Be Eliminated in Open off Tournament Today.

By BOB CAVANARO, Associated Press Sports Writer.

FRICK CLUB, Philadelphia, June 8 (AP)—Today was the United States Golf association's final round of the 1934 championship. The 60 low scorers will be eliminated today.

# CONGRESS HAS FAILED LABOR, GREEN CLAIMS

### 900 PACKERS STRIKE AT OKLAHOMA PLANTS

By The Associated Press.

New moves to rid the steel industry of its strike-threatening troubles, centered today in Washington.

Hugh S. Johnson, striving to avert the strike set for June 16 by the Amalgamated Association of Iron, Steel, and Tin Workers, summoned Michael F. Tighe, president of the group, for another conference.

The NRA chief's proposal for a special labor board for the industry still under consideration. Steel companies made known they were willing to accept the suggestion conditionally.

A delegation of steel workers visited the White House yesterday but didn't see President Roosevelt. They plan to try again today.

Governor Pinchot of Pennsylvania flew to confer with Secretary Perkins on the steel situation.

At Pittsburgh the Weirton Steel company issued a statement asserting a poll of workers in its Weirton, W. Va., and Steubenville, O., plants showed more than 15 percent were opposed to a strike.

William Green, president of the American Federation of Labor, accused congress of "failing labor."

At Racine, Wis., 130 employees of the Horlick Malted Milk company struck for more pay and recognition of their union.

# Baptist Group Enjoys Picnic

The Livingstone B. T. S. of the First Baptist church went to Hoover Tuesday afternoon for a weiner roast.

The following were present: Fred Pearce, Edna Mae Bell, Venora Anderson, Lloyd Lee, Hugh Anderson, Kathleen Aikens, Ysleta Davis, Dorothy Lee Wood, Raymond Baxter, Robert Lee Banks, Annie Johnson, Edward Stidham, Calvin Stidham, Eddy Kern, Eldon Phillips, H. C. Covington, Howard Wood, and Geneva Groom, leader and Mrs. P. O. Anderson, sponsor. The following visitors were present: Mr. P. O. Anderson, Donald Anderson, Bobby Anderson and Julia Marie Bell.

# SUBJECT ANNOUNCED

"Taking the South Road" is the theme of a sermon to be preached at the revival at Central church auditorium today at 8 p. m.

The Rev. Vernie Pipes, in commenting on the sermon by Evangelist A. F. Johnson said, "The citizenship of Pampa will enjoy this unusually powerful sermon from a man that loves men."

Rev. Johnson spoke Thursday night on "Gains in Christianity" to a large crowd made up of members of all local denominations and visitors from White Deer, Berger, Amarillo, and Raton, New Mexico. Cottage prayer meetings are being held daily at 3 p. m. by the three circles of the W. M. S. conference and prayer opens at 7:30 p. m. daily. Large numbers are attending these meetings which are for all ages.

One conversion was reported from the meeting last night. Others reconverted themselves and a large group asked for prayer that God would extend His mercy until they were saved. Baptists unaffiliated with any church here are under promise to join the Central church tonight at the close of the sermon.

# NEW ORLEANS COTTON

NEW ORLEANS, June 8 (AP)—The market became more active as the morning progressed, but prices were very erratic. Values gradually declined in the early trading owing to better weather in the eastern belt, and a disappointing opening of wheat.

# CHESSO GRAIN

CHICAGO, June 8 (AP)—Stimulated by strength of shipping and by evening-up in anticipation of a bullish government crop report, wheat prices evened today.

It was intimated an export business in wheat had done at Winnipeg. Drought was reported to have cut the Czechoslovakia wheat crop almost in half, and to have stopped all exports of agricultural products from Bulgaria. Late advances told also of urgent need of rain in Australia. French crop estimates were also reduced.

Heavy profits taking sales just at the last in wheat wiped out most of the gains. Wheat closed nervous, unchanged to 1/2 cent up compared with 24 hours previous; corn unchanged to 3/4 higher, oats 3/4 advanced, and provisions showing a rise of 9 to 15 cents.

Carol Conley, small daughter of Mr. and Mrs. E. M. Conley, underwent a tonsillectomy operation yesterday. She is doing well.

# DILLINGER PAUL IS SHOT DOWN BY DETECTIVES

Waterloo, Ia., June 8 (AP)—New clues to John Dillinger's whereabouts—alive or dead—were hunted today over the backtrail of Tommy Carroll.

# CONFEDERATES ELECT PIERCE OF TENNESSEE

Cavalrymen Who Fought in Forrest's Outfit Named To Lead Civil War Vets.

CHATTANOOGA, Tenn., June 8 (AP)—A Tennessee and a Texas today bore the highest honors the United Confederate Veterans could bestow upon them.

General Rice A. Pierce, 87-year-old son of the south, who fought under Nathan Bedford Forrest in one of the most famous cavalry outfits of the Civil war, was elected commander-in-chief of the U. C. V., yesterday, succeeding General Homer Atkinson of Richmond, Va.

General R. D. Chasman of Houston, who was prevented by illness from attending the reunion, was made honorary commander for life despite his absence.

As the reunion drew to a close, the question of where the 1935 meeting will be held remained in the hands of a committee of five which will act on invitations from Tallahassee, Fla., and Ocala, Fla., Alabama.

General Harry Rene Lee of Nashville, Tenn., who has held the position for several years, was re-appointed adjutant general and chief of staff by General Rice immediately following his election.

Other officers elected:

General J. M. Hartsfield of Fort Worth, was re-elected commander of the Trans-Mississippi department succeeding General Chapman.

Meeting simultaneously, the Sons of Confederate Veterans re-elected their commander-in-chief, Walter L. Hopkins of Richmond, Va., and the Confederate Southern Memorial association re-elected Mrs. Arthur MCD. Wilson of Atlanta as president-general.

# POLICE HOLDING JEAN CROMPTON; WIFE SOBS LOVE

WATERLOO, Ia., June 8 (AP)—New clues to John Dillinger's whereabouts—alive or dead—were hunted today over the backtrail of Tommy Carroll.

When quick-shooting detectives pumped five bullets into Carroll yesterday, they erased another of the crime brothers of Dillinger; but their gunfire was a bit too good, for it sealed lips that might have given valuable information about America's number one bad man.

O. H. Dewey, a federal agent, questioned Carroll before the 38-year-old gunman died, but so far as he would say Carroll had nothing to offer concerning Dillinger.

With Carroll was Jean Crompton. She said she was his wife. Police are holding her. She was one of the women arrested following Dillinger's escape from the Little Bohemia resort at Mercer, Wis.

Police heard that another man and another woman had been companions of Carroll and the 21-year-old Crompton girl, and search for the women passed. After the shooting of Carroll the missing couple hitch-hiked out of town, the police heard.

The president said:

"We have sought to put forward the rule of fair play in finance and industry.

It is true that there are few among us who would still go back. These few offer no substitute for the gains already made, nor any hope for making future gains for human happiness.

"They loudly assert that individual liberty is being restricted by government, but when they are asked what they have lost, they are put to it to answer."

It is clearly Mr. Roosevelt's reply to any opposition his administration encounters in the coming campaign.

"You are completing," he told congress, "a work begun in March, 1933, which will be regarded for a long time as a splendid justification of the vitality of representative government. You and I, as the responsible directors of these policies and actions, may, with good reason, look to the future with confidence, just as we may look to the past with a confidence based on reasonable satisfaction.

## GIRLS' CAMP ON RANCH IS PLANNED HERE

### CAMP FIRE GROUP IS TO SELL DOUGHNUTS FOR FUNDS

The Tatapochon troop of Camp Fire Girls will sell doughnuts next week to earn funds for holding its annual camp.

Orders will be taken Monday and Tuesday and deliveries will be made Wednesday. Last year the girls sold 1,400 doughnuts. This time they expect to sell even more. They appreciated the support of business folk and citizens generally last year.

The girls met Thursday to play their summer camp, which will be held on the Reynolds ranch north of Pampa from June 27-30—four days. Every member was present.

Members will meet at the home of Mrs. Nolan Harris at Wild apartments at 8 a. m. on Monday and Tuesday and at the same time Wednesday at the Burrow bakery.

## CHURCHES

### FIRST CHRISTIAN CHURCH

John S. Mullen, minister.

Corner East Kingsmill and North Starkweather Streets.

Dr. Frank L. Jewett of the University of Texas at Austin will speak in this church Sunday night at 8:15.

Dr. Jewett is a very able speaker. He will make an address at the First Christian church of Amarillo Sunday morning and will come to Pampa Sunday afternoon.

Dr. Jewett's subject will be "Through the Eyes of Modern Youth." A cordial invitation is extended every one to hear this subject discussed.

The Sunday morning church worship which always includes the observance of the Lord's Supper will begin at 11. The minister will preach on the subject: "Ye Believe in God, Believe, Also, in Me."

Sunday school begins at 9:45. Plan to come on time.

At the Sunday morning service, Charles Thomas will sing.

### ST. MATTHEW'S EPISCOPAL

Corner North Ward and West Browning.

Second Sunday after Trinity. Church school at 9:45. Mrs. Julian Barrett in charge.

Morning prayer at 11 a. m. C. J. E. Lowndes of Amarillo will be with us this morning to take the service, and a most cordial invitation is extended to all to worship with us this day.

Newton C. Smith, rector.

### PRESBYTERIAN CHURCH

Sunday morning at 11 a. m. the church will observe its annual children's day. Pupils of the beginning, primary, and junior departments will present the program.

At the evening hour, 8 p. m., Herbert Walker will give his report on the meeting of the general assembly held in Cleveland, Ohio. Mr. Walker was sent as the commissioner from Amarillo Presbyterian.

This assembly lasted eight days and was attended by Presbyterians from all states and territories and from sixteen foreign nations.

Sunday school at 10 a. m. We will gladly welcome you to these services.

A. A. Hyde, minister.

### ASSEMBLY DOES WELL

Word has been received from Mrs. Gaston Foote and the delegates of the Methodist Young People who are attending the assembly at Abilene that the assembly is coming along fine, although it is very hot. Over four hundred young people from northwest Texas are at the meeting.

The League program, which is in charge of the delegates who made the trip, will begin at 7. Among the features of the program will be reports on the trip and meeting. All young people are cordially invited to attend the program.

### FIRST BAPTIST CHURCH

Corner Kingsmill and West Streets. The pastor will occupy the pulpit at 11 a. m. and 8 p. m. Bible school meets at 9:45 and training service at 6:45. A welcome to these services is extended by the church.

### MEN'S BIBLE CLASS

Meeting at the City Hall.

"Jesus Visits His Home Town and is Again Rejected" is our subject. Each Sunday it is the purpose of the class to prove a helpful hour and to better learn the developments in the earthly life of our Lord. There are always members and visitors. So many of the enrollment work towers until it is difficult for them, but such a large percent is always present the Sundays they are not working.

Class Officers:

### MEN'S FELLOWSHIP CLASS

First Baptist Church.

On Sunday we study the meaning of Calvary. Paul tells us that we have been bought with a price. That price was paid on Calvary's hill.

We invite men to meet with us in our class room at 9:45 a. m. We will have the following program:

Song, Must Jesus Bear His Cross Alone?

Prayer, H. G. Lawrence.

John 3:14-21, W. F. Yeager.

Psalm 22:1-31, E. L. Edmondson.

Song, The Old Rugged Cross.

Luke 22:26-33, Chas. Boyd.

Solo, Bearing His Cross for Me, A. N. Thorne.

Meaning of Calvary, E. C. Link.

T. L. Anderson.

### COUNTS ARMY CRASHES

BRUSSELS (AP)—A recent count of accidents in the Belgian army air corps revealed that 130 military fliers have been killed since 1919.

### Make This One to Suit Yourself

Tailored, but not severely—here's a suit that everybody can wear. Its style points are many: a new-length jacket with wide revers, nipped-in waistline, three-button closing and nobby patch pockets; a skirt with trim, slim lines and low-posed pleat.

Make it in tweed, alpaca or linen. All three are smart, and a pastel tweed would be ultra chic for town or country. You may also contrast fabrics, coupling a checked skirt with a dark jacket, for example. This is an easy model for home tailoring. Size 16 requires 2 3/4 yards 54-inch material. Width about 1 1/2 yard.

Pattern No. 5556 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 bust.

recting them. They know that that is not necessary. They tell their story with a simple realism that makes the picture set into the memory and heart of Christendom. Their one overmastering note is: This is your Saviour, dying for you! The crucifixion John 3:16 dramatized; or painted into an awful picture.

Jesus Tried and Condemned. Matt. 27:1-52.

The Sanhedrin, at the legal meeting held just after daybreak, condemned Jesus to death but not having the power of capital punishment they fettered him and delivered him to Pilate, the Roman governor of Judaea.

The betrayer, Judas, upon learning that Jesus had been condemned, was seized with such remorse that he returned the thirty pieces of silver to the ecclesiastics, confessed his heinous sin, and left the world in horrible suicide.

The governor, Pilate, confronted by the innocent Nazarene, inquired if he were really the king of the Jews. At length he asked whether he should release a notable robber or the young Man of Galilee. He probably expected to release Jesus as his passover boon to the people. But he wavered.

The governor's wife had a troubling dream about Jesus and sent word to Pilate to have nothing to do with punishing "that just man."

The people wildly clamored for the crucifixion of Jesus and when Pilate finally yielded to their will, though washing his hands, they shouted "His blood be upon us!"

The torturers, in accordance with Roman custom, put Jesus to the scourge before his crucifixion.

The soldiers took Jesus inside the palace and there made the rudest and roughest sport of him they stripped him of his raiment, threw over him a scarlet cloak, crowned him with thorns, placed a reed in his right hand as a mock scepter and bowed before him, jeering him as king of the Jews. Finally they led him away to crucify him.

The Crucifixion

It was about 9 a. m. when the four soldiers detailed to execute Jesus performed their bloody task. The Roman cross consisted of two pieces of wood, the upright being from nine to twelve feet long. Sometimes the upright was fastened in the ground and the victim, after having his hands nailed to the shorter piece, was drawn up by ropes and fastened to the upright stand. More probably Jesus was transfixed upon the cross as it lay prone upon the ground, a soldier at each palm and each ankle driving the iron spikes through the flesh and bones into the rough wood. Then that cross with its attached victim was uplifted and dropped into its socket on the hill. Greater agony than crucifixion human ingenuity has never conceived.

The Two Robbers "Then are there crucified with him two robbers, one on the right hand and one on the left." These were bandits, highwaymen, possibly members of the "gang" of Barabbas who was chosen by the mob in preference to Jesus, to be released at the passover. They were crucified with Jesus to add ignominy to his death, and as a further reflection on the Jews; their king deserved it, it was implied, no better company than robbers. John and James had sought to sit on Christ's right and left in his kingdom; that petition was in a sense granted to these malefactors. There was in reality a position of highest privilege, of glorious opportunity.

"Nearer to thee, O Christ, nearer to thee. E'en though it be a cross that raiseth me."

Thus was fulfilled the prophecy of Isa. 53:9. "They made his grave with the wicked." It was as the Redeemer would have it, for he came not to the righteous but to the sinful, and this crucifixion with the two robbers gave him the opportunity for a final act of saving grace, significant of his entire life.

Jesus In Darkness on the Cross. v. 45

"Now" from the sixth hour there was darkness over all the land until the ninth hour." For three hours Jesus endured the agony of the cross under the fierce glare of a Syrian sun. But at twelve o'clock there fell upon the earth a darkness which lasted until three o'clock in the afternoon. The intenser darkness and the deeper agony came about three o'clock in the afternoon. The Great Sufferer was never so utterly forsaken and alone as in that crisis of his earthly career. "My God, my God, why hast thou forsaken me?" v. 46.

"Well might the sun in darkness hide,

And shut his glories in, When Christ the mighty Maker died For man the creature's sin. "It is Finished." v. 50.

"And Jesus cried again with a loud voice. It was a shout of triumph, for he had won the final victory. It was only one word in the Greek, justly called the greatest single word ever spoken; but in English it requires three words, "It is finished" (John 19:30). To this our Lord added the dedicatory prayer, "Father, into thy hands I commend my spirit" (Luke 23:46). "And yielded up his spirit." He had completed his work, he had made the sacrifice for sin, he had opened up a living way from man to God. "Tis finished! let the joyful sound Be heard through all the nations round; 'Tis finished! let the triumph rise, And swell the chorus of the skies." —Samuel Stennett.

Hope You Make Rome All Right!

Irish eyes were smiling as residents of Moy, County Clare, Ireland, turned out to greet Capt. George Pond, right, and Lieut. Cesare Sabelli, center, rear, after the flyers were forced down on their attempted New York to Rome flight. On taking off again to complete the flight, they were forced down after traveling 150 miles.

First Hog-Corn Money to Arrive Early in Summer

COLLEGE STATION, June 8 (AP)—The first installment of about \$2,500,000 due Texas on corn-hog contracts out of the estimated total of \$6,000,000 payable during the next 10 months is expected to arrive early this summer after all the county contracts have been checked and approved June 15 by the state corn-hog review board.

Unlike the cotton program, all corn-hog contracts will be finally checked by the state review board and sent direct to Washington from the board instead of from the counties. This is expected to eliminate

delays at Washington and to promote a faster flow of benefit checks to Texas. Shipments of contracts to Washington will be by contract, each having its bundle of contracts sent on as soon as completed, checked and approved.

There are 208 corn-hog production control associations organized in Texas serving about 218 counties, according to E. M. Regenbacht, extension swine specialist. A total of 30,000 farmers signed corn and hog reduction contracts and they probably will receive an average of about \$200 each for their cooperation with the agricultural adjustment administration.

The summer payment will consist of half the corn check, and \$2 a bushel for the hogs remaining after being reduced 2-0-0 in number. The corn payment is based on 30 cents a bushel for the corn raised on the average on the corn acreage reaped from production this year. This run 20-0-0 to 30-0-0 of the five-year average acreage.

The fall payment due about December will include the second half of the corn benefit and \$1 a head on the hogs. This is estimated at about \$1,600,000. The last payment is due early next spring and will consist of the final \$2 a head on hogs, less local administrative expense of the county corn-hog production control associations. The total of the final payment for Texas is expected to run about \$1,750,000.

BUYS ELECTRIC LOCOMOTIVES DELHI, India (AP)—Two Diesel electric locomotives have been ordered by the government of India from a concern in Newcastle, England. They are to be of 1,300-hp each.

STATUE IS FOUND NAPLES, Italy (AP)—A statue of Faustina Juniore, wife of the philosopher emperor, Marcus Aurelius, was found by excavators at Lierno, near here. It was perfectly preserved, archeologists said, by even pressure of earth around it through the centuries.

GROWTH OF CHRISTIAN SCIENCE SHOWN IN ITS ANNUAL MEETING

BOSTON, Mass., June 8.—Virtual completion of the new Christian Science Publishing House in Boston, Mass., and gratitude to the field for its loyal support which made this achievement possible, was the keynote at the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., recently.

Announcement was made of the election of the following officers: President—Dr. John M. Brewer, of Cambridge, Mass.; Treasurer—Edward L. Ripley, of Brookline, Mass.; Clerk—Ezra W. Palmer, of Brookline, Mass.

The new president of The Mother Church, Dr. John M. Brewer, is a native of Anisoch, Cal. He graduated from the University of California at Berkeley in 1902. In 1916 he received the Ph. D. degree in education from Harvard University and became an instructor there. Two years were spent as head of the department of education at the Los Angeles State Normal school, after which he was appointed to the position he now holds, Associate Professor of education, Graduate School of Education, Harvard University. Professor Brewer is author of several books on education. In connection with his professional work he has traveled extensively in Europe.

His first experience with Christian Science was through a healing in 1905. In 1909 he joined The Mother Church. In First Church of Christ, Scientist, Cambridge, Mass., of which he is now a member, he has served as president, First Reader, and member of its executive board. He also belongs to Christian Science Organization of Harvard University. A marked increase in the demand for Mrs. Eddy's writings during the

The Mother church, Mrs. Ezra W. Palmer told of the work of this church in furnishing relief to people in stricken areas in times of flood and disaster.

All this shows, Mr. Palmer concluded, that "Christian Science is advancing steadily in favor among men and this progress will continue."

'HOUSE OF CHEMISTRY' OPEN PARIS (AP)—Science, art and history are blended in the "House of Chemistry," a new international center for chemical research, in the rue Saint Dominique. It is housed in an old mansion which the government purchased from the Rochefoucauld family, owners since 1820.

# MURDER AT MOCKING HOUSE

BY WALTER C. BROWN

**SYNOPSIS:** Investigation of the murder of two men in Pierre Dufresne's house has turned up much information, but no means of identifying one of the men or of determining how the murderer escaped without leaving tracks in the snow. And when Sergeant Harper's assistant, Detective Lafferty, fires a test shot from the murder gun in the basement, Dufresne remains perfectly calm, while both Mr. and Mrs. Croymen are startled badly. The detectives are discussing some threatening letters received by Dufresne.

Chapter 37  
**BATTLE OF WITS**  
"Who knows?" asked Harper. "If the dead man wrote the letters, that will be all, but just a minute ago you were ready to pin it on Andrews. He's still very much alive and quite capable of writing letters if he wants to. Besides that, there's a genuine time Mr. K. hiding in the woodpile. It's at least possible that these threatening letters had nothing whatever to do with last night's affair."

Lafferty snorted. "Sure, and maybe there weren't any murders here, right. For Heaven's sake, let's pinch somebody, then listen to them arguing themselves out of it. It would save a lot of wear and tear on us." They grinned amiably at each other, but Harper went right on with his analysis. "The next point is the fact that each letter is on a different color of paper, yellow, gray, blue, light green, and so on. A good quality paper, too, though a little soiled and faded."

"It looks like a set of sample papers," Lafferty suggested. Harper nodded. "I think you're right. It is also my idea that they were written by a man of considerably higher intelligence than their contents indicate. Printing the words is a dodge used by persons who are afraid that even if they disguise their handwriting, they will be traced up. This writer was shrewd enough not to overplay his hand by the usual error of weird spelling."

Lafferty set forth a new angle. "How do we know Dufresne turned in all the letters he received? This business has some of the earmarks of blackmail or a shake-down stunt. Maybe he just turned in selected letters and, when there was a chance settled the whole business in his own way."

"It wouldn't be out of character if I agree, but there's no hint of hush money or blackmail anywhere. There is just that some monotonous threat to kill running through the eight letters. The last is practically the same as the first. If the writer wasn't crazy, what was his name?"

"Perhaps there was more than one in the plot and they got to scrapping among themselves, with the results we know. There are too many queer kinks in this case to charge anything off to coincidence. There must be a reason for all these odd things."

"This is what I can't get straightened out," Harper confessed. "Dufresne denies knowledge of any enmity, public or private, that would aim at his life, in spite of the peculiar hints he gave out at our first interview. But crank letters are one-man affairs, and this case involves so many people."

"For instance, there is the dead man, and the killer who somehow escaped from the house and that mysterious person who hid behind the wall and watched, but did not come any nearer to the house. Altogether too many performers for that bunch of tight little alibis we've had handed to us. Last night this place must have been more like a hotel than a private house."

"By the way, Steve, what kind of reactions did you get when I fired the test bullet in the cellar?" "Oh, so you picked that spot on purpose?" asked Harper.

"Sure, I heard voices overhead, and I thought you were holding a séance, so I let go. You never can tell what may come from a surprise."

"Well, you nearly scared the Croymens to death, but Dufresne never batted an eyelash. It gave me a good opening to break the news about finding the gun. I predicted the bullets would check up, and they have. While I tackle Andrews again you'd better hop over to Mrs. Morlock's and see what you can gather there, but be smooth about it."

Lafferty groaned. "Don't worry about that, but I'll bring back to bacon just the same. And don't you be too gentle with Andrews. It's about time we sat down on somebody and sat down hard. We've been doing all the talking up to now. Let's give the others a chance."

After the detective had gone Harper gathered the letters into one pile. He rang for Andrews, and when the butler made his appearance he walked over and closed the door with an air of deliberation that was not lost on Andrews.

## Chicken Snake Swallows Five Canary Birds

PRAIRIE LEA, June 8 (AP)—As Miss Ellen Kyle, daughter of S. J. Donaldson of Prairie Lea, was about to retire one night recently she found a chicken snake in the living room of her home.

Her father killed it and inside the reptile were found five canary birds that had disappeared from a cage in an adjoining bedroom. It was thought a cat had caught the birds.

The supposed thief had four kittens which she kept in the loft of the house. Several days previously she had brought three down, leaving the fourth in the loft. The deserted kitten cried continuously but all efforts to coax the mother to it were in vain. It was believed the snake had frightened her into moving to new quarters. An opening was made in the ceiling and the starving kitten rescued.

Recently a chicken-snake killed in the smoke house of a farm home near here was found to contain a grape juice bottle.

## Deep Water Diving Is Occupation in San Angelo Lake

SAN ANGELO, June 8 (AP)—Commercial deep water diving in West Texas! What would have been thought impossible by the pioneer who drove cattle from one shallow water hole to another is now a

reality on Lake Nasworthy, near San Angelo. The commercial angle entered when young Milton Ragsdale, Jamie Hardgrave and Edwin Kittrell went down to the bottom of the lake to locate a 5,000 pound concrete block used to anchor a swimming and diving raft. The boys received \$2 for their services. The young divers built their own

helmets complete to air hose, pumping outfit and electric signaling apparatus. They can stay under water from 5 to 15 minutes. The weight of the apparatus is so balanced that the youths can use their own motive power going down and coming up, which they do slowly because of the changes in pressure. A big future is forecast for the divers. They are Boy Scouts.
