PRICE FIVE CENTS

### Wheat Field Once; Desert Now

Scared by blazing sun in the long drought that has taken huge toll in the midwest, and covered by several feet of sand whirled across it by high, scorching winds, this South Dakota wheat field looks like a stretch of desert land. Extent

of damage wrought is indicated by the fence, which in places is entirely buried beneath the high-piled billows of sand, leaving a Herculean task of clearing it facing the farmer before he can plant another crop.

### Well Guarded

While the Bryn Mawr, Pa., home of Mrs. Frederic Phillips, above, was being guarded following threats from kidnapers, 10 gunmen in New York held up and escaped with four loaded trucks of merchandise belonging to her husband's transportation firm. A week previously a barn on the Phillips estate was mysteriously burned in a \$10,000 fire.

Twinkles  
The millenium won't be here until the business man can go on a strike too when he finds his trade isn't enough to keep open. And until housewives can take a day off and play golf or go fishing when the kitchen gets overheated in summer.

Justice isn't justice until it applies to all alike. But, summing it all up, the average man wants nothing more than an opportunity to be rewarded for his physical and mental labors. A good man likes to work when he is paid for it.

Add Pre-Centennial thanks: To the Fort Worth Star-Telegram, for sending camera-man-writer Frank Reeves up here with his trusty Graflex. The Star-Telegram carried more Pre-Centennial publicity than

See COLUMN, Page 4.

### NAZIS REPORT REVOLUTION IN BALKAN STATE

#### COUP D'ETAT CARRIED OUT BY FORMER DICTATOR

LITHUANIA, June 7 (AP)—The German news bureau reported from Kaunas, Lithuania, today that Augustine Waldemaras, former dictator of that country, had returned from exile by airplane, carried out a coup d'etat, and re-assumed the premiership of Lithuania.

The German report said a military revolution broke out in Lithuania last night under the leadership of Waldemaras. His adherents immediately proclaimed him premier and he took up his quarters in the general staff building.

The army was reported to have the situation well in hand although allegedly opposed by civil authorities.

President Aantans, it was further reported, had refused to treat with Waldemaras and his men who issued an ultimatum against the chief executive. The ultimatum expired at mid-day but it appeared here that it had been extended.

All government offices were occupied by the army between 2 a. m. and 8 a. m. today according to the dispatches. Several members of the government were reported arrested but these reports were not confirmed.

### PHILLIPS HAS AGENT PARLEY IN CITY TODAY

#### Employees Will Have Dance at Hotel Tonight

Agents of the marketing division of the Phillips Petroleum company gathered from all over this section today in Pampa, center of the Panhandle oil field, for a meeting under the direction of C. J. Malsel of Pampa, station supervisor.

Division Manager H. O. Stark of Amarillo and his assistants, P. D. Berthelot and J. A. Whitley, are here, as also is J. C. Coyle, district salesman, Tom Carpenter of Amarillo, district tire salesman; M. A. Taylor, service station manager; and W. O. Stevens of Amarillo, credit manager.

The sessions are being held at the Schreiner hotel, where tonight Phillips company employees will have a dance. Music will be furnished by the Embassy club orchestra of Borger, which includes many Phillips employees.

### Emergency Crop Loans Available To Wheat Raisers

Applications will be received at the office of Ralph Thomas, county agent, for emergency crop loans to wheat farmers cooperating with the government.

The regulations governing loans have been amended as follows: Emergency crop loans may be made for the purpose of summer fallowing or for the combined purpose of summer fallowing and purchasing winter seed wheat. The maximum allowance per acre for fallowing will be \$1 and for the purchase of seed wheat not to exceed \$1 per acre. Loans made for the combined purpose of summer fallowing and the purchase of winter seed wheat may be advanced in installments.

The security shall be a first lien on all crops to be harvested on lands the summer fallowing of which is financed pursuant to the provisions of these regulations as amended.

Applications for loans for summer fallowing or for the combined purpose of summer fallowing and purchasing winter seed wheat made this amendatory regulation must be received by the regional offices not later than June 15, 1934.

The regulations relative to emergency crop loans during the year 1934 issued March 1, 1934, as amended, are not otherwise amended.

### HERE FROM ARIZONA

Misses Eliota Smith and Helen Wilson of Tucson, Ariz., are visiting Miss Smith's father, Dr. Stephen Smith, for the summer vacation. Miss Smith is a student at the University of Arizona.

### I HEARD—

That Bill Bourn of the Culbertson-Smalling Chevrolet company who returned last night from New York, spent his first night in the big city riding the elevated and subways. He spent 25 cents and saw New York "above and below."

R. E. Johnson telling about his ability to make biscuits and fry fish. He wasn't bragging because several oldtimers have told about the big feeds cooked by Mr. Johnson. Quien Conocia Villa?

### Relief Chief

Miss Marie Dresden, above, sent to Texas to supervise expenditure of federal relief funds, is now director for the Texas Relief Commission. Her accomplishments are outlined below.

### MISS DRESDEN OBTAINS FUNDS AS U. S. GRANTS

#### State Has Failed to Match Federal Amounts

(Editor's note: Miss Marie Dresden, Texas relief director, has been severely criticized for allegedly holding back work on Panhandle projects. The story from Austin herewith presented is intended to explain her position. It is presented in a spirit of fairness in order to give her credit for her position as she understands it.)

AUSTIN, June 7.—As exponent and sponsor of specialized relief programs for the destitute of Texas, Director Marie Dresden literally "sold" her program to the Federal Emergency Relief administration at Washington, looking to the financing of selected relief projects.

A veteran in relief administration as a result of long experience, Director Dresden literally "sold" her program to the Federal Emergency Relief administration at Washington, looking to the financing of selected relief projects.

Faced with a chronic shortage of state funds, Miss Dresden first prevailed upon the Federal Emergency Relief administration to grant to Texas \$25,000 of unmatched funds for continuing the employment of jobless school teachers who had organized and taught classes in adult education throughout the state. This program had been stopped due to shortage of unmatched funds.

Under the new law, no cash will be necessary. If a majority agrees to accept new securities in lieu of former claims, on court approval, the minority has to accept them. In many cases, under existing conditions, foreclosing and sale of a company's property would leave nothing after the satisfaction of secured claims or senior bonds. The new law makes it much easier to leave stockholders and junior claimants with what might be termed securities of "recovery value," while giving secured claims the preference due them.

Although all classes of corporations are affected by the law, utilities are prominent among those that have come into receivership while, in many cases, earning money that could be paid out in interest or dividends through a reorganization.

### BENEFICIARIES GIVEN AN EVEN START BY FOR

#### 'THOSE IN KNOW' GET NO PREFERENCE IN SIGNING

WASHINGTON, June 7 (AP)—At the stroke of noon, President Roosevelt today signed into law a bankruptcy bill to facilitate the release of numerous corporations from the hands of receivers.

The White House made clear that the bill would be signed just as the clock showed twelve so that off to an even start, with no pre-applicants for its benefits could get there for those "in the know."

The act binds all creditors to a court-approved reorganization plan to which holders of two-thirds of the total amount of claims have agreed.

A petition for reorganization may be filed by any creditor or stockholder if it has been approved by holders of 25 per cent in amount of each class of claims and 10 per cent of the total.

If the company is actually insolvent but merely unable to meet maturing debt, shareholders representing 10 per cent of each class of stock and 5 per cent of the total must agree to such petition.

A debtor company may file the petition without such approval. Favorable court action on a composition plan must be accompanied by written agreement by the holders of two-thirds of the total claims. If the company is not held actually insolvent, approval by stockholders representing majority holdings also is required.

Throughout the country are situations where holders of large amounts of claims have agreed to plans of settlement, but whose action has been held up by minority creditors' objections.

Heretofore, it has been necessary for bondholders' committees to go through foreclosure proceedings which required cash payment for the interests of junior claimants. Even though a company's assets were bid in at a low figure, it has frequently been difficult to arrange for this financing.

In the past, many receiverships have been long-drawn-out because protective committees have ordered to obtain deposit of a much higher percentage of claims to avoid a large payment. Courts also have been unwilling to authorize the sale of assets at low figures when a substantial majority failed to join in a reorganization.

Under the new law, no cash will be necessary. If a majority agrees to accept new securities in lieu of former claims, on court approval, the minority has to accept them. In many cases, under existing conditions, foreclosing and sale of a company's property would leave nothing after the satisfaction of secured claims or senior bonds. The new law makes it much easier to leave stockholders and junior claimants with what might be termed securities of "recovery value," while giving secured claims the preference due them.

Although all classes of corporations are affected by the law, utilities are prominent among those that have come into receivership while, in many cases, earning money that could be paid out in interest or dividends through a reorganization.

### COUNTRY MUST 'PUT ON BRAKES,' ASSERTS CHAIRMAN OF G.O.P.

#### APPETITES OF QUINTUPLETS ARE GROWING

Physician Feeds Rum to 5 Girls and They Know When It's Time for Lunch

CORBEIL, Ont., June 7 (AP)—There was more noise—and hope—about the little Dionne farm home today, for the quintuplets whose health the world is watching have developed healthy appetites.

Meal time comes around pretty often, every two hours, but not too often to suit the five little sisters.

"They were wide awake and yelling at their last meal," said Dr. A. R. DeFoe. "They are getting to know when it's dinner time."

Rum in minute amounts is being given the children to stimulate them and they seem to enjoy it, the physician made known.

"Brandy is the usual thing but I didn't have any so I used rum," he explained. "The main thing is the alcohol, which stimulates. They seem to enjoy it. They stick out their tongues when the rum and feeding time appears."

While the Dionne family rejoiced in Dr. DeFoe's statement that "I am more optimistic than I ever have been," word was received from San Francisco that twin boys were born there yesterday to Mrs. Aldo Bellrami, a first cousin of Avila Dionne, father of the quintuplets. One of the twins died later. Twins have been frequent in Mrs. Dionne's family also.

### YOUNG FATALLY INJURED WHEN CAR OVERTURNS

#### City Man Hurt When Tire Blows Out Near Pampa

Emory Yount, 27, died in a local hospital yesterday afternoon as a result of injuries sustained early Sunday morning when the car in which he was riding overturned on the Borger highway near the city limits when a tire blew out. Buck Froelich, driver of the car, received only minor injuries.

Mr. Yount had been a resident of Pampa only a few months, coming here from Borger to become connected with the Danziger Refineries. His home was in Yale, Okla., where the body was sent at noon by the Stephenson Mortuary.

Surviving the accident victim are his mother, Mrs. Rose Hoskins of Yale, one sister, Mrs. Anne May Yaden of Corsicana, and two brothers, W. E. and Johnny, both of Yale.

### NRA Director to Be Here June 13

Tulane Smith, a representative of the state NRA compliance director, will be in Pampa on Wednesday, June 13, according to information received today.

He will confer with any NRA group here which makes arrangements with George Briggs at the B. C. D. office or with C. P. Buckler, chairman of the local NRA compliance board.

Mr. Smith will arrive at 9 a. m. and will leave at noon on his tour of Panhandle points.

### HOOVER SENDS A MESSAGE TO PARTY'S CHIEF

#### DUE REPRESENTATION TO YOUTH, ASKED BY ROOSEVELT

CHICAGO, June 7 (AP)—Henry P. Fletcher, new national chairman of the republican national committee, met its members today and told them the country must "put on the brakes."

"We've got to bring realization to the people of what is happening in Washington," Fletcher declared as he appeared before the committee.

"We've got to make them realize what's going to happen to them unless the brakes are put on."

Fletcher praised the committee for the new statement of party policy which it announced yesterday.

"Under that banner we can win the fall elections and every other election," he declared. "You have united the party and made it possible for us all to go into the fight thinking we are going to win."

To questions at the station, the Pennsylvania smiled and postponed answers.

"Does the new platform remind you of the bull moose campaign?" "what do you think?" he said. A rough rider under Theodore Roosevelt, Fletcher supported him later in his insurgent race for the presidency.

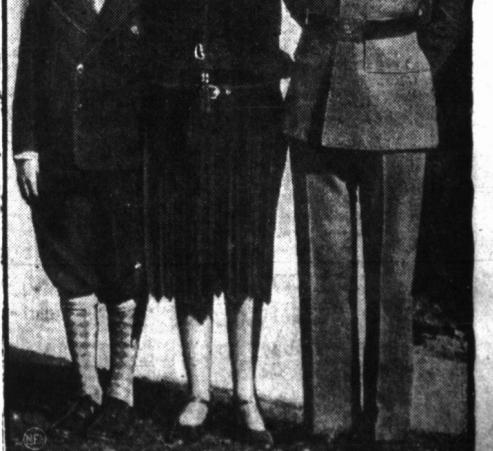

CHICAGO, June 7 (AP)—Herbert Hoover, former president, today sent a telegram to the republican national committee, as it greeted its new chairman Henry P. Fletcher, and praised the new "platform" adopted yesterday.

The titular head of the party, although not taking an active part in the committee meeting, Hoover urged the republican leaders to give "due representation to youth."

He congratulated Fletcher, to whom he addressed his message also the committee on Fletcher's selection as chairman, terming the Pennsylvania "most experienced and courageous."

A. H. Doucette made a business trip to Panhandle yesterday afternoon.

### Four Men To 'Burn' Tonight

#### Murder Syndicate Who Slew Mike Malloy For His Insurance to Die in Chair.

NEW YORK, June 7 (AP)—At Sing Sing tonight, in the little room with the horrible chair, the Bronx murder syndicate will sit down to death.

One by one—the undertaker Frank Pasqua, the speakeasy operator, Anthony Marino, the bartender, Joseph Murphy, and the

fruit dealer, Daniel Kreisberger—they will die. For the sum of \$600 a man will throw a switch, killing currents of electricity will pour from tightly fastened electrodes, and the State of New York will have avenged the strangest murder in its history.

The murder victim was Mike Malloy, a nobody, a derelict of grog houses with a cast-iron constitution. Afterwards he was called "Iron Man" Malloy, he was so hard to kill.

The murder syndicate sought half a dozen times to slay him, and failed. At last, in a desperate combination of gin and gas, they got him.

Mike Malloy was not a fellow who would ordinarily be marked for murder. He had nothing, neither money nor enemies. He asked little of the world, and offered little.

To the undertaker, the speak-easy man, the bartender and the fruit dealer, however, Mike Malloy held possibilities of money. If his

WEATHER STILL TAKES HAND

While market prices continue to plague Panhandle farmers, the weather is an element which defies both the Department of Agriculture and the A. A. A. and must be reckoned. If the farmers could be sure of always raising a crop, they would be in a better mood for controlling production—or at least they should.

The good farmer and the bad, the cooperating one and the one who defies government control, are alike under the rain clouds. Science and advance of civilization have done little to change this age-old status of man and nature.

Whether he will get a good crop depends on things over which he has not the slightest control—rain, wind, and sun. If they are kind, his ground will yield bountifully; if they aren't, it won't, and there is little he can do about it.

The old risks of agriculture—the oldest business risks in all the world—are the same now as they were before the pyramids had been built.

The corn belt's sufferings this spring reminded one of those eerie predictions some geologists have made—that the greater part of the interior of America is destined, some day, to become semi-arid and barren, a nearly waterless region, where things will not grow and men will not be able to live except as scattered nomads.

To be sure, not all geologists make this prediction, and those who make it put the time of this change far in the future—which, to a geologist, means anywhere from 50,000 years up to so that no one need worry for fear that the hot, dry weather which is blighting crops today is the forerunner of the desert's arrival in Iowa.

Nevertheless, these stories of parching drouth and devastating heat make one think about it. And they lead one to wonder how long it will be before men get sense enough to settle their differences with one another and present a united front toward their real enemies—the implacable and unresisting forces of nature.

For these troubles of the present day—over-production, marketing difficulties, tariff restrictions, falling prices, and the like—are, after all, secondary. Settle them all, and there still remains the task of forcing the earth to yield enough to feed her teeming millions.

CULLEN THOMAS NAMED HEAD OF TEXAS CENTENNIAL COMMISSION

AUSTIN, June 7. (AP)—First steps in planning a historical celebration and commercial exposition in commemoration of the one hundredth anniversary of Texas independence in 1836 have been taken by the Texas centennial commission.

Each agency created by act of the legislature, perfected permanent organization yesterday. Cullen Thomas of Dallas was selected chairman of the commission. Lowery Martin of Corsicana, vice chairman; Gus Taylor of Tyler, treasurer; and Will H. Mayer of Austin, secretary.

An executive committee of 155 named the commission and included Walter D. Cline of Wichita Falls, John D. Middleton of Greenville, Cliff Caldwell of Abilene, H. H. Cline of San Antonio and J. K. Hughes of Meade.

The commission was granted an appropriation of \$100,000 for expenses in planning the celebration and authorized to issue six percent bonds to finance it. The legislature directed that the Texas city offering the largest financial inducement be selected by the commission as the location for the main exposition.

The commission ordered bids for the exposition filed by September 1. It instructed cities and towns desiring subsidiary celebrations to present their proposals by November 1. Mrs. Volney Taylor of Brownsville was chosen chairman of the auxiliary group, which was created by the legislature to advise with the commission in its work. Vice chairman elected by the advisory board were John C. Townes, of

# GROUPS HEAR GOOD REPORTS ON WEDNESDAY

## GIFTS MADE TO TWO LEADERS FOR GOOD SERVICES

Council groups of the First Christian church met in regular session yesterday for programs of much interest.

Group 1 met with Mrs. Weidon Wilson. Mrs. Charles Frost led the devotional. Mrs. John Miller was program leader, assisted by Mrs. Floyd Coffin. Refreshments were served to the following:

Mmes. Floyd Coffin, John Miller, Frank Meers, Leo Allam, Lee Ledrick, A. A. Tieman, Chas. Frost, Hutchins, John Tate, Ross Cornilus, Bessie Martin, and two guests, Mrs. W. E. Wilson of LeFors and Betty Tieman.

Group 2 met at the church with Mrs. Joe Berry and Mrs. Pendergrass as co-hostesses. Groups 2 and 3 joined in the program. Mrs. Jessie Saunders led the devotional period and Mrs. DeLea Vicars directed the lesson, a study of the third, fourth, and fifth chapters of Ephesians. Group 2 presented its leader, Mrs. Tom Eckerd, a luncheon cloth in appreciation of her services during the last year.

The hostesses, assisted by Miss Donna Jo Berry, served refreshments to Mmes. Hugh Isbell, B. C. Fahy, Roy McMillen, Lon Hurst, E. B. Thompson, F. E. Elkins, H. J. Lippold, and Tom Eckerd.

The group voted to participate in National Flower Day for Shut-In's next Sunday.

Group 4 met at the church, where reports of many activities were made. One hundred and thirty-seven chapters of the Bible had been read, 127 calls made, and there were three daily Bible readers present.

The lesson was on "Churches of American Frontiers." Mrs. H. C. Schofield led the devotional. Mrs. C. S. Bastin sang a solo. Mrs. W. E. Noblett talked on "Hyacinths to Feed the Soul," and Mrs. Ed Mazzy on "Home Mission Churches of Yesterday and Today."

In behalf of the group, Mrs. A. L. Burge gave a present to Mrs. Ivy E. Duncan. Refreshments of punch and cookies were served to the following:

Mmes. Ed Mazzy, Dick Rhodes, A. L. Burge, H. C. Jones, C. S. Bastin, W. E. Noblett, J. C. Mote, B. C. Houk, L. F. Frary, A. C. Matthews, E. R. Sunkel, Ivy E. Duncan, and H. C. Schofield.

Priscilla club will meet with Mrs. W. D. Benton Friday at 3 p. m. The Pampa Garden club will have its annual garden tour beginning with an outdoor breakfast at the home of Mrs. J. M. Saunders at 7 p. m.

## How to Obtain Bread of Even Texture Is Told

Miss Maudine Woodworth of Kingsmill has as her guest Miss Naoma Leslie of Higgins.

Miss Clarice Matthews of Kingsmill, who has been teaching at Eden, has gone to Chicago and will attend Northwestern university during the summer and do work on her master's degree.

Bread-making was studied by the Kingsmill Home Demonstration club at an all-day meeting Tuesday. Miss Ruby Adams, home demonstration agent, directed the study.

Miss Adams said that heavy cloth or ducking, well floured, was preferable to a wooden board for pastries. She demonstrated with both dry and compressed yeast in making loaf bread, white, whole wheat, and orange loaf in plain and fancy rolls. She showed the difference in soft and hard wheat flour, and urged that even heat without draughts be used to get an even texture.

Eight members and one visitor were present. Everyone enjoyed the covered dish luncheon, also the hot rolls, butter, and tea served after the demonstration. A committee is planning the menu for June 22, dress contest day in Gray county, and each is to have one lady guest on that occasion.

## Fidelis Matrons To Have Picnic

Mrs. Park Brown was hostess to the Fidelis Matrons class of the First Baptist church yesterday afternoon.

The devotional was led by Mrs. Joe Brandl on first and second Psalms. Mrs. Joe Foster, president, presided over the business section. It was decided to have a picnic for husbands of members next week.

Refreshments were served by the hostess to Mesdames W. H. Hallmark, C. E. Cheatham, E. M. Dean, D. B. Jameson, Floyd Young, J. H. Lamb, Virgil Hill, Joe Randal, Joe Foster, R. E. Gatlin, and R. L. Edmondson, teacher.

Miss Lucille Maize of the Spearman public schools was a guest of Mrs. R. E. Gatlin en route to the University of Oklahoma at Norman.

# CLUB WOMEN WILL PLAY AT PARTY FRIDAY

## FRIENDS INVITED TO ATTEND AT BELL SCHOOL

"All work and no play makes Jack a dull boy" will be the motto of women of the Bell Home Demonstration club and their friends Friday at a community recreational party at the Bell school at 8 o'clock.

During the last few weeks, the club women have been selling pencils. They also will present a quilt to someone at the picnic Friday evening.

Ice cream and cake will be sold. Friends are invited to attend.

## Skellytown News

Merle Siler of Tonkawa visited here last week with his sisters, Letha Lillie and Wilmer Siler, returning Friday morning.

Henry Paulsen has been absent for several days while taking treatments at Hot Springs.

Harry Brandt enjoyed a show in Pampa Monday evening.

Mr. and Mrs. J. C. Jarvis motored to Wheeler Friday evening on a visit.

Master Carl Lillie left Friday morning for Tonkawa, where he will visit his grandparents.

Mrs. W. A. Ward and Letha Lillie accompanied Cleo Jones to the Home Demonstration club north of Skellytown Tuesday evening.

Mrs. Chas. Nevins is reported doing well in the S. B. A. hospital at Topeka, Kans.

E. J. Jones was visitor in Skellytown Tuesday evening.

Mr. and Mrs. Allison and daughter and Mr. and Mrs. F. D. Harvey and children visited in Wheeler during the week-end.

J. C. Jarvis, Carl Williams, and John Horner enjoyed the baseball game Tuesday evening.

The T. N. T. Sewing club met in the home of Mrs. W. Campbell last Thursday afternoon, with Mrs. Hazel Thurlow as a guest.

After a short business meeting, the rest of the time was spent in playing bridge. Home-made ice cream and cake were served to the guests and the following members:

Mesdames Henry Paulsen, Connelly, Wayne Sutton, Wesley Block, Howard Simmons, and Martha. They will meet with Mrs. J. C. Jarvis Thursday.

## Mrs. T. H. Lane Is Hostess Yesterday

The Altar society met yesterday afternoon at the home of Mrs. T. H. Lane. Mrs. John O'Day was co-hostess.

Members present were Mesdames Burrows, Carrigan, Cummings, De, Fitzgerald, Garman, Sullins, Waddell, and West.

Mrs. N. P. Nesselroad was a visitor.

## Max Brown Hurt In Car Accident

Max Brown, local high school youth and well known golfer, suffered painful cuts and bruises and an injured shoulder in a car accident Sunday morning. He was able to be out for the first time this morning. His face was badly burned and cut when he was thrown to the paving.

The injured youth said a car driving from a side road struck his car, throwing him clear before it ran into the ditch. His brother was only slightly injured.

Mrs. J. H. Gatlin of Hollis, Okla., is visiting her son, R. E. Gatlin.

## Mrs. Hamilton and W. T. Jesse Married

Mrs. Ruth Hamilton and W. T. Jesse were married last night by W. S. Baxter, justice of the peace. Mr. Jesse came to Pampa 6 years ago from Amarillo, where he lived 21 years. He is well known in local music circles. He is a candidate for justice of the peace of this precinct, place 1.

Mrs. Jesse has been here since 1913.

# Today's Fashion Hint

Miss Lucille Brokaw led society styles at the races in Belmont Park, L. I., with this three-piece ensemble of white skirt and jacket and a bright printed blouse with bow under the chin.

## Yeast Breads Are Studied in Session of Club

Making of yeast breads was the demonstration given by Miss Bessie C. Sikes, home demonstration agent of Carson county, at an all-day meeting of the Sunshine club Tuesday at the home of Mrs. W. S. Boyd.

When making bread, said Miss Sikes, be sure and do not knead too much flour into the dough. A great aid in preventing this is to have, as a board, a piece of canvas which has been folded four times. This takes up the surplus flour and can be used a long time.

At the closing time, the hostess served refreshments to Miss Sikes and Mesdames A. N. Hales, E. Hatchell, Lewis, J. C. Kennedy, H. Rumph, O. L. Satterfield, J. R. Stansell, and Gus Shopper.

New members welcomed into the club were Mrs. A. N. Hales and Mrs. Lewis.

# PRESIDENT OF SPAIN UNDER DEATH THREAT

## ZAMORA IS PROTECTED AGAINST PLOT TO KIDNAP HIM

By REX SMITH  
Associated Press Foreign Staff  
MADRID, June 7. (AP)—Guards surrounded the home of President Niceto Alcala Zamora today as a precaution against an alleged plot to assassinate him while canquinary disorders, reddened by a farm strike, splashed Spain.

A newspaper was fined after publishing a report that rightists were implicated in an uprising and planned to kidnap the president, but authorities took extraordinary precautions at the executive mansion against any attempt on his life.

The assassination of General Fernando Berenguer, brother of a former monarchist premier, and at least ten deaths and scores of injuries in the strike spread fears of an uprising.

It was believed the assassins of Berenguer had mistaken him for his brother, General Damaso who served as premier under former King Alfonso. The slaying took place at San Sebastian.

"My brother was killed approaching our villa," said a third brother, Hernani Damaso Berenguer. "As my two brothers and sister walked toward the house several men hidden behind shrubbery in the darkness opened fire."

As the farm strike entered its third day, governors of most provinces declared the harvest was progressing normally. Extremists called the strike in protest of a law forbidding farm workers to rove from one section to another. It was designated to protect farm labor.

Two persons were killed and several were hurt at Valladolid when civil guards broke up a demonstration by striking laborers. The incident was not directly connected with the farm strike.

## BATTLE 6 FEET LONG

BRADY, June 7. (AP)—A 6-foot diamond back rattlesnake with 23 rattles was killed in this section recently. The reptile was snared by Otto Bode in the Pontotoc community. It weighed 20 pounds and was declared by old residents to be the largest ever seen in the Pontotoc region.

## TOM BRALY GRADUATES

Tom Braly has returned from the University of Oklahoma, Norman, where during the June commencement exercises he was awarded a bachelor of arts degree. Tom graduated from Pampa high school. He was a member of Sigma Alpha Epsilon fraternity at Norman.

## FOOTE AT ABILENE

Gaston Foote, pastor of the First Methodist church, is in Abilene this week conducting a religious training school. He will return by Sunday.

Mrs. William Hall of Noelette was a Pampa shopper yesterday.

Mrs. R. B. Haynes of Miami spent Wednesday in the city.

# The Last Word in Derbies

Mrs. Isabel Dodge Sloane's three-year-old colt Cavalade became the first horse in 45 years to take both the prized Kentucky and American derbies when, as shown below, he galloped over the finish line two lengths ahead of Discomery to capture the latter race at Washington Park in Chicago.

In the top photo, from left to right, are Cavalade's jockey, Mack Garner, George Sloane, and Mrs. Sloane, the owner, shown with the trophy signifying the \$25,000 triumph.

# 4,212 Books Are Checked Out of Public Library

May was another big month for the Pampa Public Library. Mrs. James Todd Jr. gave her monthly report to City Manager C. L. Stine yesterday afternoon. It showed that 4,212 books had been checked out during the month.

Seventy-seven books were catalogued and 103 books were mended by Mrs. Todd and her assistant. Fines collected amounted to \$9.34 and rural fees were \$1.35.

June has started off with more business than any other month of the year.

# Chief of Police Wears Webb's Gun

Chief of Police Art Hurst is proudly wearing a beautiful pearl-handled .38 caliber Smith & Wesson pistol this morning. The gun was loaned to the new chief by Dr. E. A. Webb. The gun is one of Dr. Webb's pets and he doesn't let it out of his possession very often.

"I surely am proud of the gun," Chief Hurst said this morning. "My old gun was too long and too heavy. This one has a perfect balance and is a picture to look at."

## DIES IN PRISON

BEAUMONT, June 7. (AP)—An autopsy over the body of Roy C. Knox, 22, who died here without regaining consciousness after being brought from the Retriever state prison farm at Angleton, was held at Port Arthur today at the instance of relatives.

L. F. Sheffey is visiting friends in Pampa today. His home is in Canyon.

The "Little Women" Collar Fashion

Ever since that charming movie "Little Women," stylists have been putting Victorian details on their latest creations. The clothes of Jo, Meg, Beth and Amy were so admired by the enthusiastic audiences, that it's no wonder we'll find traces of them through our own clothes.

This high round collar, for instance, illustrates what we have been talking about. It is just the sort of collar the Little Women wore at the necklines of their billowing frocks. It is every bit as successful, you'll find, at the neckline of a very modern, slim-lined frock. Size 18 requires 3 1/2 yards 39-inch material, width about 2 1/2 yards.

Pattern No. 5567 is designed for sizes 14, 16, 18, 20 years, 32, 34, 36, 38, 40, 42 bust.

Our new Fashion Book is out! Send for it. Check here  and enclose 40c extra for book.

To order, address Pampa Daily NEWS, Fashion Center, Times Square, P. O. Box 150, New York City. Write name and address plainly, giving number and size of pattern wanted. Your order will be filled the day it is received by our New York pattern bureau.

**WHAT A TIRE!** See it here! Goodyear test drivers burned out brakes—wrecked cars — pounded the roads night and day — and it kept its grip twice as long as other tires!

**WHAT A TIRE!**

**WARNING!**

Watch the rest of the industry try to copy this amazing tire. Watch them try to duplicate Goodyear's claims. But, remember, you have to have "non-skid" before you can have "non-skid mileage." And to have "non-skid," you have to have GRIP where you see it here—GRIP in the center of the tread—the place where it counts, because it's the spot where the tire contacts the road. Look at the grip on this Goodyear Tire and ask yourself why buy any tire that lacks this safety? And keep in mind that you cannot successfully build this type of non-skid tire without the extra durability of Supertwist cords.

**THE BEST NEWS OF ALL!**

You Pay No More For The New "G-3" All-Weather

IF YOU think the non-skid tread on your present tires wore out too soon — you're right!

Ordinary treads can't stand the strain of modern driving.

But come in today and see a tire that will!

The new "G-3" All-Weather! It has a wider tread — flatter tread — more rubber in the tread — more non-skid blocks in the center of the tread — and gives 43% longer non-skid mileage than the best previous Goodyear All-Weather.

No matter what car you drive — no matter how you drive — this tire will give you more miles of safety — AT NO EXTRA COST!

JOHNSON PLEA FAILS; LABOR CRISIS NEARS

SOLE GRIEVANCE IS FOR CLOSED SHOP, SAYS STEEL HEADS

NEW YORK, June 7 (AP)—The threat of a paralyzing strike in the steel industry grew more ominous today as union leaders and company executives, shouting new defiance back and forth, became waged in a tighter deadlock despite efforts of Hugh S. Johnson to make peace.

The NRA chief made a flying trip from Washington to plead with the steel executives for more than two hours. There was no indication of any reception given Johnson's suggestion other than an announcement it had not been rejected.

OKLAHOMA CITY, June 7 (AP)—Rep. Will Rogers, the former country school teacher with the name of Oklahoma's cowboy philosopher, today won his fight in the supreme court to strike from the congress-at-large ballot the name of Will Rogers, Ardmore truck contractor, in the democratic primary July 3.

any other out-of-town paper while the event was in progress. The press generally was generous.

The West Foster grouch says some bosses could afford to make "token" increases in pay, even if they can't go the limit right now. The grouch adds, however, that lower prices seem to be a world trend and he doubts that Uncle Sam can hold up prices and stimulate his world trade at the same time.

Mrs. Gushaway plans to send her daughters to visit their kinfolk during much of the summer. She figures that by moving at psychological moments they can have free board during the summer without wearing their welcomes out too thin.

Brevitorials

Musings of the moment: Big red cherries, obtained through the generosity of Mrs. C. W. Lawrence, remind us that this tree seems well suited to this climate. Her trees are heavily loaded with the ripe fruit. . . . We hasten to warn our readers that it would be unwise to try to take any of the cherries without consent. . . . We have heard a number of complaints about boys tearing cherries. There are no watermelons around, the boys are boys, and folks with cherry trees just must leave home occasionally. But a boy caught stealing cherries, ought not to get off lightly. One successful raid leads to another.

THIS section welcomes a new college—the Eastern New Mexico Junior college at Portales. The Portales-Clovis territory is as Texas as Texas, insofar as the similarities of the citizens are concerned. Eastern New Mexico has long needed a college and we rejoice with the people of that area in the manning of the long-empty building with teachers. We have added interest in that Floyd Golden, our onetime classmate, is dean of the new school. Donald W. MacKay is president.

ENROLLMENT in the new school is already near the 100 mark, although this is vacation time for most students. For many years, Eastern New Mexico has sent students to distant colleges, many of them out of the state. Opening of the new school will mean a saving of many thousands of dollars because of the fortunate location of the institution. Certificates of teachers will be one object of the college, though a general course will be offered. English, math, music, Spanish, history, art, government, home economics, commercial subjects, biology, and kindred subjects will be offered along with education.

The new college is the culmination of an old promise. When New Mexico was admitted to statehood, a provision was made in the constitution providing for a Teachers college on the east side of the state. In 1908, Portales citizens raised \$7,000 to buy the site for the school. In 1908, Years passed without the necessary appropriation being made for the building. Finally, in 1926, the legislature made an appropriation and a nice building was built.

The federal government granted 36,000 acres of land out of the public domain for this school. From the sale or lease of this land, funds have been slowly accumulating through the years. Two years ago 76,000 acres of land was added to the original grant. In 1933, the oilPales chamber of commerce succeeded in having the accumulated funds set aside for development. For full information, phone 167, Charles Thomas. 6p-57

maintenance purposes. The first session, if was decided, would begin with a summer term in 1934. Registration began June 2, fulfilling a dream long in the minds of Eastern New Mexico citizens. And Eastern New Mexico, with a good farming area and with Clovis growing with railroad and highway development, can furnish hundreds of students from her high schools. . . . The Pampa handle has many problems and opportunities in common with our near neighbor.

THE Portales valley is one of the richest parts of New Mexico, agriculturally. The state as a whole is one of great natural resources, not the least of which is her appeal to tourists. New Mexico will become the playground of the Southwest. Her fishing and hunting preserves, her fish-filled streams, her big mountain lakes, and her lofty peaks equal those of nearby Colorado. Within a day's drive of Pampa are many of the beauty spots of the neighbor state.

New Katy President Will Live on Road

KANSAS CITY, June 7 (AP)—Matthew S. Sloan, former president of one of the world's largest public utilities, believes in living with a job—a thing he is doing as the new chairman of the Missouri-Kansas-Texas railroad.

Less than two months a railroad man, Sloan is in the midst of a second trip over the system for the purpose of "making friends in every city touched by the Katy."

"My home is going to be the railroad," the New Yorker told friends here today. "No business is stronger than his friendships."

The southwest is on "the up and up," he said. "I have found no pessimism concerning the long time outlook. That is what I am going to tell them when I get back to New York. It would do some of those people good to come out to the southwest."

Mr. Sloan prepared to leave for Oklahoma City.

Fat Girls! Here's A Tip For You

All over the world Kruschen Salts is appealing to girls and women who strive for an attractive, free from fat figure that cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses and does it SAFELY and HARMLESSLY.

In the morning take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar.

It's the little daily dose that takes off the fat and "brings that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

But be sure for your health's sake that you get Kruschen. A bottle that lasts 4 weeks costs but little. You can always get Kruschen at Richards Drug Co. Inc., and money back if not satisfied with results after first bottle.

# WHEAT BENEFIT PAYMENTS ARE BOOSTED 9 CENTS A BUSHEL

## SPEED CHECKS TO VICTIMS OF LONG DROUGHT

### ADMINISTRATION PLANS WAYS TO COMBAT NATURE

WASHINGTON, June 7. (AP)—Red blotches denoting blight covered a large part of the map behind President Roosevelt's desk today as the government struggled with the drought in two ways:

1. More food, more money, more clothing were promised victims of the calamity.

2. Long-range planning to soften such cruelties of nature was declared necessary.

The president feels the drought is approaching the proportions of a major disaster. A survey by the agriculture department said it would "materially affect the national food supply" but did not mean a shortage.

Secretary Wallace, speaking at Bismarck, North Dakota, last night, answered critics who said nature had shown the futility of man-made control.

He said he could not see "how any one who has gone through this drought area can say a kind word for nature's method of crop reduction." Man's methods, though imperfect, are "perfection itself by comparison with the occasional crudeness, the ruthlessness, and the uncertainties of nature," he declared.

Calling for permanent, long-range planning, he said production control would not be abandoned because of the drought.

Such programs insure farmers some income from benefit payments in such periods as this, he said, and enable the government to guarantee sufficient food by storing grain on farms.

Extending over 30 states, the drought was described as having these effects:

"Greatly reduced" wheat, feed grain, and hay crops.

"The most serious forage shortage" ever experienced.

Early crops in "bad" condition. Livestock in the worst areas "too weak to stand shipment."

Death losses in livestock "mounting steadily."

Marketing of livestock 21 to 30 per cent above a year ago.

Reduced production forecast for dairy products, eggs and poultry.

Water supplies in irrigation sections cut in half.

To combat these conditions the farm, farm credit, and relief administrations proceeded along these lines:

Boosting 2nd wheat benefit payments to 9 cents per bushel, an increase of \$5,500,000, and hurrying a total of \$30,000,000 in benefit checks to farmers.

Speeding corn-hog benefit checks. Reducing freight rates in the drought area by 33 to 50 per cent. More than 200 federal inspectors working on the cattle purchase program.

Enlargement of the work relief program.

Refinement of plans to purchase and store 15,000,000 bushels of spring wheat, 40,000,000 bushels of oats, and 10,000,000 bushels of barley for seed.

Leaders in congress reiterated that the relief appropriation, expected to call for \$525,000,000, would be ready in time after President Roosevelt sends his message asking for it.

The weather bureau offered little hope for more, than partial relief. It predicted scattered, light showers in the Dakotas, western and southern Minnesota, Iowa, Nebraska, Kansas, Missouri, and the Ohio valley.

## Babe on Bench To Nurse Pride

BOSTON, June 7. (AP)—These reports that his Yankee teammates consider him a hindrance have upset usually placid Babe Ruth so much that he benched himself until his bruised feelings heal.

The Babe, hitting over 300 and fielding in his customary flawless fashion, despite an ailing ankle, is his own boss, says Manager Joe McCarthy.

## Thousands Mourn Death of Famed 'R. R.' Humorist

MINERAL WELLS, June 7. (AP)—Thousands throughout the United States who chuckled over jokes contained in the thirteen booklets Thomas W. Jackson wrote and published, mourned the death of the "road" humorist today.

His body, a bullet wound in his temple, was found on the bathroom floor of his home here yesterday by Mrs. Jackson. No official verdict was given by the coroner, who said it was unnecessary since Jackson died 30 minutes after the shooting in a local hospital.

The author of the famous "A Slow Train Through Arkansas" and 12 other booklets, was known and liked for his rural works in every community of the country. His works sold mostly on trains. He was the "train butcher" joy.

His most famous joke concerns a clean-shaven passenger on that "Slow Train Through Arkansas." After stopping for several cows on the track and conversations between the train crew and farmers, the passenger had grown a lengthy beard. He complained of the slow service.

"If you don't like it, why don't you get out and walk?" the conductor snapped.

"I can't, my family's waiting for me. They don't expect me until the train gets in," the passenger replied.

His last joke was: "So long, old pal," said a friend to a man, "I'm off to Africa to hunt big game."

"Well, drop me a lion," retorted the friend.

## Son Is Born to Belgian Rulers

BRUSSELS, June 7. (AP)—Belgium, plunged into sorrow three months ago by the death of King Albert, rejoiced today at the birth of his grandson, probably to be named Albert.

The child was born last night to Queen Astrid and King Leopold III in the royal castle at Laeken. Her majesty and the infant son were reported to be well.

All Brussels was awakened at 6 a. m. by the boom of 101 guns announcing the joyful event and the news was communicated officially by Burgomaster Max.

The newest member of the royal family was born during a crisis in the government, several hours after the cabinet headed by Count Charles de Broqueville resigned.

Count de Broqueville is expected to return to office shortly with virtually the same ministers, however.

King Leopold and Princess Astrid, married in 1926, have two other children, Josephine Charlotte, 6, and Baudoin, 3, heir-apparent to the throne. Princess Astrid is a member of the Swedish royal family.

## Man Changes Name To Run for Office

DALLAS, June 7. (AP)—Court records today revealed that the George B. Terrell who filed for state treasurer with the democratic executive committee was the former Jefferson T. Baker of Dallas.

Baker recently has his name changed to George Baker Terrell, saying the change would aid him in business and adding that it "is for my benefit and interest to change my name."

George B. Terrell, congressman from Alto, recently made his valet-dictor address in the house.

## Miscellaneous Occupational Taxes

"On and after July 1, 1926, there shall be levied, collected, and paid annually, in lieu of the tax imposed by section 701 of the Revenue act of 1924, a special excise tax of \$1,000, in the case of every person carrying on the business of a brewer, distiller, wholesaler liquor dealer, retail liquor dealer, manufacturer of stills, as defined in section 3244 as amended and section 3247 of the Revised Statutes, in any State, Territory, or District of the United States, contrary to the laws of such State, Territory, or District, or in any place therein in which carrying on such business is prohibited by local or municipal law. The payment of the tax imposed by this section shall not be held to exempt any person from any penalty or punishment provided for by the laws of any State, Territory, or District for carrying on such business in such State, Territory, or District, or in any manner to authorize the commencement or continuance of such business contrary to the laws of such State, Territory, or District, or in places prohibited by local or municipal law.

Any person who carries on any business or occupation for which a special tax is imposed by this section, without having paid such special tax, shall, besides being liable for the payment of such special tax, be subject to a penalty of not more than \$1,000 or to imprisonment for not more than one year, or both."

## OSTRICH IN TEXAS

PORT DAVIS, June 7. (AP)—An ostrich came stalking through the cattle country recently. The bird entered a barn at the D. O. Medley ranch, 20 miles from here and ate "a half sack of feed" according to reports, then stalked away. Where the bird came from and where it went nobody seems to know.

City Manager C. L. Stine will leave for Snyder tomorrow to look over some equipment recently purchased by that city.

## LEADERS WILL ANALYZE NRA ON JUNE 16

### CHANGES IN RECOVERY UNIT'S METHODS TO BE SUGGESTED

BY J. R. BRACKETT. (Copyright, 1934, by The Associated Press)

WASHINGTON, June 7. (AP)—Fifty or more of the country's most prominent business men and industrialists are planning to put their heads together within the next 10 days to compare notes on their experience with NRA.

Such figures as Gerard Swope, Myron C. Taylor, Pierre S. DuPont, and Walter C. Teagle are among those expected to gather at Hot Springs, Va., June 16 to draw out of analysis and criticism a number of suggestions for changes in the recovery unit's methods.

Decision will be free and frank. No publicity has attended the call for the gathering and an attempt will be made, in accordance with present plans, to keep it private.

Many of the executives have served on NRA's advisory board, which was set up by General Johnson, NRA administrator, with labor and consumer boards, to advise him in the development of NRA's codes and administration.

These leaders, most of them members of the business and advisory council, have a semi-permanent position in advising on governmental affairs. The council, as conceived by Secretary Roper, was to give business a quasi-official organization through which it could study the government and speak with more authority than outside organizations.

The council will meet here at the end of this month and it has announced it expects to present recommendations to be largely based on the Hot Springs discussion.

Some of the other leaders expected to attend are Alfred P. Sloan, president of General Motors; Henry J. Harriman, president of the Chamber of Commerce of the United States; John J. Raskob, former General Motors chief; S. Clay Williams, vice president, Reynolds Tobacco company; General R. E. Wood, president, Sears, Roebuck and company; Henry D. Dennison, president, Dennison Manufacturing company, Framingham, Mass.; Lincoln Filshie, chairman, William Filshie's Son, Boston; Sidney J. Weinberg, partner, Goldman, Sachs and company, New York; Walter S. Gifford, president, American Telephone and Telegraph company, and W. Averell Harriman, now special assistant to General Johnson.

## 873,387 Gallons Of Water Used Per Day in Last Month

A total of 27,075,000 gallons of water was pumped from Pampa's water wells last month for a daily average of 873,387 gallons per day, the monthly report of Supt. Andy Crocker shows. Pampanians are taking advantage of the summer rate to grow flowers, gardens, and lawns.

The wells are standing up well in flow and there is a plentiful supply of water for the city's needs. The community garden near the swimming pool is showing wonderful growth and is being watered from the pool.

## ASKS FOR RELIEF

OKLAHOMA CITY, June 7. (AP)—A request for a federal relief allotment of \$500,000 a month for northwestern Oklahoma's drought-ridden counties was disclosed today by Governor William H. Murray.

Answers in next issue.

FIRST FRONTIER DAY CELEBRATED BY CHEYENNE, WYO., SEPT. 23, 1897.

FIRST AMERICAN NOVEL WRITTEN BY MRS SARAH W. MORTON. WENT ON SALE JAN. 22, 1769.

Answers to Previous Questions

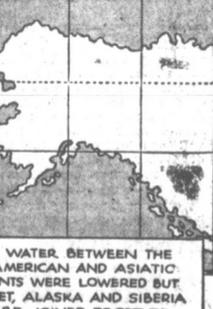

FROM a one-day exhibition, the Frontier Day show has grown to a five-day spectacle of range and ranch sports, Indian games and dances, military maneuvers and events requiring the utmost skill in horsemanship. Mrs. Morton used the nom de plume "Phileas." Her book was entitled "The Power of Sympathy."

New York's floating church, moored in the East River, was called the Floating Church of Our Saviour.

## DARROW BOARD DISBANDED

WASHINGTON, June 7. (AP)—The NRA board of review headed by Clarence Darrow said today it would end its work and dissolve by July 1. The board, appointed by President Roosevelt to investigate alleged monopolistic practices under the NRA, recently criticized various phases of the recovery administration.

## THIS CURIOUS WORLD

OF THE WATER BETWEEN THE NORTH AMERICAN AND ASIATIC CONTINENTS WERE LOWERED BUT 200 FEET, ALASKA AND SIBERIA WOULD BE JOINED TOGETHER.

... IN INDIA ... CRUSHED ANTS ARE USED FOR SMELLING SALTS.

TELMAOBUS MICROPHALMUS, A FROG OF THE ANDES, BREATHE THROUGH ITS SKIN, AND RARELY, IF EVER, COMES TO THE SURFACE OF THE WATER.

MANY of the animals of North America are related to those of Asia, for many thousands of years ago the two continents were joined together and the animals traveled back and forth across the parrot neck of land.

## REPUBLICANS BEGIN ATTACK ON DEMOCRATS

### FLETCHER HAS BEEN A DIPLOMAT AND NOT A POLITICIAN

CHICAGO, June 7. (AP)—The new national chairman of the republican party hurried into town today, greeted a grinning executive committee, rolled up his sleeves and "blew the lid off" the 1934 campaign.

Henry P. Fletcher, newly chosen chief of staff, had for his immediate attention amplification of a "statement of principles" issued by the national committee.

Fletcher, a one time Roosevelt rough rider, former ambassador to Italy and a close personal friend of Herbert Hoover, was the unanimous choice of the republican national committee to direct the campaign against the Franklin D. Roosevelt administration and the "new deal."

The statement, adopted as the beacon of the republicans, used temperate words but a firm tone in condemning some of the policies of the administration. It told in general terms what the republicans believe should be done "to rebuild the nation and repair damage done by the depression."

Political strategists pointed out that two facts probably governed the tone of the statements: First that it is the function of the national convention, not national committee, to write party platform on specific issues; second, that denunciation of specific acts of the Roosevelt administration would embarrass many republican congressmen seeking reelection this fall, who on the plea of national emergency, voted for many such measures.

Fletcher, some western committee-men, has had little practical experience as a politician, having spent the bulk of his public life as a diplomat. Terming him a "career diplomat" and not a "practical politician," they expressed some opposition to his choice.

Fletcher, however, has long been noted, friends said, for his ability to see a way out of disturbing conditions.

## FOUR MEN

(Continued from Page 1)

life—it was worthless anyway, wasn't it?—could be insured, and then he should die, who would be the wiser? The guest could collect the insurance, \$2,000.

The plan was carried out right down to the point of the murder. It was then the plotters began having their troubles. Malloy wouldn't die! He wasn't putting up any deliberate resistance. So far as he knew—this happy-go-lucky Mike Malloy—the four men were his friends, his pals; regular fellas.

First the murderers tried to kill Malloy through his stomach. They served him oysters pickled in poison alcohol. He ate them with relish and lived. They served him food loaded with ground tin. He never even knew it. They gave him tainted sardines. He would not die.

They launched a plot to kill him with wood alcohol, letting him have all he wanted, any time. He had a capacity. He always came back seeking more of "that good likker."

Desperate, the plotters abandoned such lethal niceties as ground tin and poisoned oysters. A scheme to shoot him down failed when a woman glanced from a nearby window, unwittingly foiling the plot before it could be executed.

Then, most amazing of all, they stupefied Malloy with liquor and took him, unconscious, to a little traveled roadway. They laid him in the street, and ran an automobile over him—back and forth.

It didn't kill Mike Malloy. He was picked up by a passing car, and soon was back to see his pals once more, licking his lips at the prospects of more free drinks. Finally they took Malloy to a room and furnished drinks to the point of stupefaction, and then turned on the gas.

The gas did it. Tonight, at Sing Sing, in another furnished room, electricity will do it.

## WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and gunk and the world looks blue, swallow a lot of pills, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only make the bowels and a more movement don't get at the reason for your low-spirited feeling in your liver. It should pour out two gallons of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Queue up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches, you feel drowsy and sick. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, medicinal, bitter vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. Best of all, it's 100% C. M. Co.

### Goodman Stays In Running in National Open

**MERION CRICKET CLUB, PHILADELPHIA, June 7 (AP)—**Johnny Goodman, Omaha amateur, started his defense of the United States open golf championship today with a somewhat erratic 76, which was six over par but nevertheless good enough to keep him in the running as the majority of first round scores skyrocketed over the windy Merion layout.

Alternately brilliant and mediocre on the greens, Goodman thumped no less than four times but also saved himself from soaring higher by getting down long putts on the 11th, 13th and 17th. The champion was seldom off the line and had no difficulty with the toughest toughest holes on the course.

With most of the professional favorites in late-starting brackets, the early pace, with about a third of the field of 149 starters accounted for, was shared by Goodman's fellow townsman, and amateur rival, Rodney Bliss, Jr., with Jimmy Thomson of Los Angeles and Willie Coggin of San Francisco both professionals. All carded 74's as Bliss, a former Cornell university star, electrified the gallery with an incoming subpar 33.

### General Rains Fall Over Area In Middle West

**WASHINGTON, June 7 (AP)—**The first optimistic rainfall note came today from the weather bureau, but the government continued full tilt nevertheless in its drought relief efforts.

The farm administration made one of its first acts today the addition of 25 counties in Minnesota, South Dakota, and New Mexico to the "emergency" drought area.

"Good general rains" ranging from one-half to one inch or more were reported by the weather bureau to have fallen during the past 24 hours in the Dakotas, northern Nebraska, western Minnesota, central Montana, and the northwestern part of Iowa. Lighter rains, about one-fourth inch, fell in eastern Montana. No rain was reported for any other section of the drought area.

The report was the first in six weeks telling of more than "light scattered showers" in the drought area.

**CONFEDERATES ELECT CHATTANOOGA, Tenn., June 7 (AP)—**Veterans of the Confederacy turned their attention from war to politics today with election of officers slated as the climax of two business sessions.

**MOTHERS FATHERS KIDDIES! SATURDAY MORNING JUNE 9th, 10 a. m. SPECIAL KIDDIES MATINEE—10c Mickey Mouse Presents**

**"The BIG BAD WOLF" with Little Red Riding Hood GRANDMA and the Tree Little Pig. No Adult Admitted Unless Accompanied by a Child—10c**

**LA NORA LAST TIMES TODAY "GLAMOUR" —with— CONSTANCE CUMMINGS PAUL LUKAS**

**COMING FRIDAY AND SATURDAY THE "BIG BAD WOLF" —AND— BLACK CAT**

**WEIRD THRILLS AWAIT YOU! 10c LAST TIMES TODAY REX JEAN PARKER TOM BROWN "TWO ALONE"**

**10c LAST TIMES TODAY State "FASHIONS OF 1934"**

## MARKET BRIEFS

**NEW YORK, June 7 (AP)—**While metal issues developed some strength in today's listless stock market and a few of the oils resumed their advance in the latter part of the session, there was little enthusiasm shown for higher price levels generally. Most of the old-line leaders were easier. The close was irregular. Transfers approximated 450,000 shares.

**CHICAGO GRAIN CHICAGO, June 7 (AP)—**Virtual breaking of the drought in the Dakotas, Minnesota and Montana brought about decidedly lower prices for wheat today.

Practically every station reporting to the United States weather bureau from the four states named sent word of rains. Drought and high temperatures in southwestern states, however, continued, and caused reports of premature ripening of wheat.

Wheat closed nervous, 1 1/2-1 3/4 under yesterday's finish, July 97 1/2-1 3/4 down, and provisions unchanged to 5 cents up.

**POULTRY CHICAGO, June 7 (AP)—**Poultry, hens steady, chickens firm; hens 12 1/2; leghorn hens 9; rock fryers 24; colored 21; rock springs 26; colored 24; rock broilers 18-21; colored 17; leghorn broilers 14-16 1/2; barebacks 15; roosters 7 1/2; turkeys 10-13; spring ducks 11-13 1/2; old 9-10; spring geese 13; old 7.

## SHEFFEY HAS MUCH PRAISE FOR PAMPANS

**Representative of Museum Gathers Material Here - Tells of Scientists' Interest**

Praise for T. D. Hobart and other Pampa pioneers was given today by Prof. L. F. Sheffey of Canyon, field manager for the Fairbank-Plains Historical Society, in speaking to the Lions club.

He told how it had been possible, during the presidency of Mr. Hobart, to obtain the funds with which the new museum at Canyon was built. Prof. Sheffey said that 34,000 persons had registered as visitors at the museum since it was opened April 14, 1933. From 300 to 500 persons go through the building every Sunday afternoon. The museum is open also on Tuesday and Thursday afternoons, and can be opened at other times for special parties by arrangement.

He announced that, beginning next fall, a chair of archaeology would be established through employing of a competent scientist to head the work. He praised Floyd V. Studer of Amarillo, archaeologist director of the society, for his continuing interest and capable handling of excavations in this territory.

Prof. Sheffey said that it was a new policy of the American Archaeological society to leave findings in the region of their discovery, hence the Canyon museum will be invaluable to scientists in the future. This area is the most fertile field for archaeologists in the entire nation.

Also on the program today was Charles Thomas, recent graduate of Phillips university at Enid, who sang tenor solos, accompanied by Mrs. May Foreman Carr. The student's voice has developed splendidly in his college training.

The Rev. James Todd Jr. concluded the program with an interesting talk on war and peace, in which he emphasized that it will be necessary to guide the thinking of individuals to bring about worldwide friendly relations.

**Blanton Changes Position Quickly**

**WASHINGTON, June 7 (AP)—**Service deserves reward, thinks Representative Blanton of Texas. He was about to object to a bill for the relief of a navy pharmacist's wife.

"But," said Representative Vandon of Georgia "this man has had long service at the White House. He waited on President Wilson, President Harding, President..."

"Objection withdrawn," said Blanton. "That is reason sufficient."

**NO ACTION ON OIL BILL WASHINGTON, June 7 (AP)—**The house interstate commerce committee met in executive session today, but did not reach the administration's oil production control bill upon which hearings were completed yesterday. Chairman Ferguson (D-Tex.) said the body would meet again tomorrow and Saturday, but gave no indication that a vote on oil could be expected from either session.

**WRIT GRANTED AUSTIN, June 7 (AP)—**Judge W. F. Robertson of Travis county district court today granted a temporary injunction to truck operators enjoining the Texas railroad commission from putting a less than car lot rate into effect in the territory served by the plain-iffs. Pending a hearing the court ordered that the current rate be continued.

## Edison Aids U. S. Housing Drive

Charles Edison, son of the late electrical wizard, is helping the government with its recovery housing program, as a member of the National Emergency Council, working actively despite his duties as head of the Edison industries. He is shown here as he appeared at the Senate banking and currency hearing in Washington.

## RELIEF

(Continued from page 1) making an additional unmatched grant of federal funds to Texas in the amount of \$200,000 for rural recovery activities.

In addition to the foregoing, under Miss Dresden's leadership, the federal administrator has granted Texas the following sums of unmatched funds, for purposes indicated as follows: \$196,500 for the care of transients; \$37,362 for the maintenance of National Reemployment service agencies throughout Texas.

In addition to these, she has asked for and expects to receive another half million dollars of unmatched funds with which to finance the end of the rural school extension program throughout Texas.

Thus, under the leadership of Miss Dresden, the destitute and unfortunate people of Texas have received approximately one million additional dollars of exclusive unmatched federal funds with which to carry on relief in this state. In the event the funds relating to rural school extension are received, as expected within the next few days, this will increase the total fund acquired by Miss Dresden for Texas to the total of a million and a half dollars.

## Farmers Exempted From Tax on Hogs

**WASHINGTON, June 7 (AP)—**The house today voted to exempt farmers from paying the processing tax on 1,000 pounds of live-weight hogs slaughtered annually for sale.

It passed without a record vote and sent to the senate the Farm-nigan (D-Va.) bill to increase the exemption fixed by the farm administration from 300 pounds annually per farmer.

It is intended to aid farmers who raise and butcher two or three hogs for sale each year.

This is the first real modification of the farm adjustment act approved by the house. Heretofore legislation designed to strengthen the act has been passed.

**Slated for High Commerce Post**

A North Carolina University professor, Claudius T. Murchison, above, is slated to be the new head of the bureau of foreign and domestic commerce. His nomination was sent to the Senate after President Roosevelt had withdrawn the name of Willard Thorp, serving as recess appointee, under pressure from Democratic senators.

## Freight Rates in Drought Section Ordered Reduced

**WASHINGTON, June 7 (AP)—**The interstate commerce commission today authorized railroads in 12 western states to reduce freight rates on livestock and livestock feed to and from drought areas.

The rates affect 257 counties in the states of Colorado, Kansas, Minnesota, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming.

The reduction was authorized to permit shipping feed into the areas and also to permit shipping livestock out to points where there is feed and water.

The order authorizes a rate of 50 per cent of the present rate on hay, 60 2-3 per cent on coarse grains, 60 2-3 per cent on cotton seed, and other vegetable cakes and meals, 85 per cent of the fat stock rate on livestock sent to feeding points and 15 per cent of the fat stock rate when the livestock is returned from feeding points to the drought area.

The counties covered by the order include:

Oklahoma — Beaver, Cimarron, Harper, and Texas.  
Texas—Callam, Hartley, Moore, Oldham, Potter, and Sherman.

## Divorce of Pipe Lines Is Urged By Joe Bailey

**WASHINGTON, June 7 (AP)—**Appearing before the house interstate commerce committee in support of the Strong bill to divorce oil pipe lines from production and refining units, Representative Bailey (D-Tex.) said the measure would "do more to break the monopoly in the oil business than anything that could be done."

Ownership of pipe lines gives the large integrated companies control of the market, the Texan said, "and is absolutely unfair to the independents. The integrated companies can, and do sell gasoline at loss because of their pipeline profits and the independents cannot stand that sort of competition."

Bailey contended that integrated pipe-line companies transport their own oil at cost but exact profits from the small operators whose oil they move.

W. G. Williams, of Washington and Texas, asserted to the committee that \$542,000,000 invested in pipe lines and returned net earnings of 23 to 31 per cent. He charged that "the non-integrated companies are at the mercy of the pipelines," and that in the past producers in East Texas had been forced to deliver oil at 10 cents a barrel under pain of losing their pipeline connections.

No opponent of the measure, introduced by Representative Strong (D., Tex.), spoke at the hearing, which lasted only 30 minutes.

# WILCOX DRIVE FEATURED BY GOOD HURLING

### FREE ADMISSION WILL BE GIVEN LADIES ON SATURDAY

Good pitching has featured the drive of the Wilcox Oilers of Oklahoma City to the top of the Oklahoma City Petroleum baseball league. The Oilers will come to Pampa Saturday and Sunday for games with the Pampa Roadrunners.

The Oklahoma City pitching staff members, Red Roberts, Harold Nance, Nordie Hunter, and Red Allred have broken into the win column twice or more in the team's 11 wins out of 13 games. Roberts will probably be the pitcher to start Saturday's game, with Harold Nance being the choice for Sunday.

Saturday's game will be called at 3:30 o'clock. Ladies will be admitted free to the game. The Sunday game will be at 3 o'clock with admission 25 cents for ladies and 35 cents for men in the grand stand and 25 cents for bleacher seats.

Manager George Bulla is scheduled to start the Saturday game but Pete Stegman needs a lot of work to get in shape and may get the call. Bill Hardin will also be ready for mound duty. Miles "Comer" Marchant has been added to the hurling staff. It may be that another former high school boy will join the team.

The Roadrunners have a great ball club but it has difficulty getting past the first inning. Stegman has been particularly unfortunate in having to overcome a big handicap. Manager Bulla says he is going to overcome the first inning jinx Saturday afternoon or know the reason why.

Some of the Roadrunners have been in a batting slump. Big Grover Setz has been trying to "kill the ball" and as a result has done little effective hitting in the last few weeks. Aaron Ward has also been spotty in his hitting and Ray Ater has been erratic. Lack of disregard of signals has caused Roadrunner fielding to be ragged in spots. Four "boners" were pulled in the last two games.

# 'Red' Phillips Is Leading Pitcher In Texas League

By The Associated Press  
"Red" Phillips, tall Beaumont right-hander, went to the front last night as the Texas league's leading pitcher in games won and lost when he limited the Dallas Steers to three hits and beat them, 5 to 3. Phillips has won nine and lost one. He barely got under the wire a winner over the Steers, not that he did not pitch well enough to win but because his mates committed five crucial errors that accounted for all of Dallas' runs. Phillips easily had the best of little Sal Glatto for mound honors.

The second place Tulsa Oilers pulled within a game of all the pace setting Steers by trouncing Oklahoma City, 10 to 4. The Oilers knocked across six runs in the

# BAER WANTS BOUT POSTPONED SO HE MAY GET IN CONDITION

### Carnera Asserts, 'Either We Fight June 14 Or We Do Not Fight At All'

BY EDWARD J. NEIL, Associated Press Sports Writer.  
NEW YORK, June 7 (AP)—This heavyweight title duel of Max Baer and Primo Carnera has taken on a comic opera aspect—and pretty low comedy at that, if you ask the huge Italian champion.  
The date has been set for months—one week from tonight, fifteen rounds in Madison Square Gardens bowl on Long Island. The fighters have been training for almost two months. And now Baer, the challenger, to the consternation of the Garden and the champion, asks for a week's postponement so that he may get in better condition.

Baer and his manager, Axel Hoffman, and his advisor, Jack Dempsey, will appear at the New York State Athletic commission office Friday to plead for the delay, with Carnera and his handlers, the Garden and possibly a few legal lights objecting just as strenuously.  
"Either we fight June 14 or we do not fight at all," stormed Baer in his training camp. The monster man is in such perfect condition right now, browned a light chocolate and weighing only 258 pounds, that any delay would wreck his training.  
"It's a larcenous attempt on the part of the Baer people to keep Carnera working another week and bring him into the ring stale so they'll win the championship," screamed Jimmy Johnson, boxing manager of the Garden. "They won't get away with it. We'll fight 'em tooth and nail. Baer's been down there in Asbury Park six weeks and he's in good shape. It's a trick."  
But placidly down in Asbury Park spoke William Harrison Dempsey, who has a 7 1/2 per cent interest in Baer and learned about ballyhoo from the master, Tex Rickard.  
"Baer has seven days left to get in shape and that's not enough. The public is entitled to plenty of action for their money and they should see both men at the best. Carnera is ready; Baer isn't."  
There have been rumors for several days that someone would ask a postponement because of fear that the gate receipts would be affected adversely by such close proximity to the spectacular Barney Ross-Jimmy McLarnin battle only a little more than a week ago. The Garden vehemently denied any intent to seek delay.  
If the request for postponement is a ballyhoo stunt to lift a gate present estimates put at \$350,000, it marks the queerest twist in the history of modern heavyweight fights. Never before has a warrior sought to attract the patronage of the faithful by publicly admitting his unfitness for battle.

fourth inning, then coasted home. Art McHenry dropped a Texas leaguer into right field in the eighth inning to give Fort Worth a 3 to 1 victory over Houston. The timely single enabled the Cats to score two runs. George Anderson followed with a double to bring McHenry home with the winning run. Making the loop for three runs

in the third and one in the eighth, the San Antonio Missions defeated Galveston, 4 to 2. The Missions whipped the pitching of Gumbert and McAdams for ten wallops. The Buccaneers got four hits off Feiber and Hillis.

# ODDS 15 TO 1 GOODMAN WILL BE DEFEATED

### 149 ARE ENTERED IN NATIONAL OPEN TOURNAMENT

By BOB CAVAGNARO, Associated Press Sports Writer  
PHILADELPHIA, Pa., June 6 (AP)—Johnny Goodman slipped down from his throne today to answer the challenge of one of the most avid amateurs of crack professionals and amateurs in 19 years of national open golf championship tournaments.

The 25-year-old Nebraska amateur took his position in the ranks of 149 title hopefuls with the betting odds 15 to 1 against his repeating and duplicating the trick turned by Bob Jones in 1930. Indeed, Goodman was cast much in the same "hot horse" role that he occupied last year at Chicago.

Held to two days of practice, Goodman wasn't quite able to bring his game up to championship pitch. He responded to the tocsin, however, brimful of confidence and with characteristic nerve.  
Because this severely trapped 6-694-yard, par 7 course of the Merion Cricket club requires accuracy more than it does distance, Sharp-shooting Paul Runyan, big money winner around the professional winter barnstorming circuit, started out in the position of top favorite at 6 to 1.

With the exception of the long second and fourth holes, Merion appears to be made to order for the slender White Plains, N. Y., link marksman. On those holes Paul may require three shots to reach the greens.

Bunched behind Runyan, and with plenty of takers at 10 to 1, was a triumvirate of golf's gold guard—Gene Sarazen, Walker Hagen and Tommy Armour, all former titleholders. Ky Laffoon, the tireless Denver shotmaker, elbowed his way into this select group because of his spraking practice rounds as well as his performances on the winter tour.

They do not by any means complete the list of contenders or those with an outside chance to crash through the field. There are Denny Shute, British open champion who has a habit of letting his shotmaking speak for itself, Bill Burke and Phil Perkins of the Cleveland delegation, Craig Wood, the long-hitting Jersey pro who completed his workouts yesterday with a 68; McDonald Smith, Bobby Cruikshank, Horton Smith, Olin Dutra, Willy Cox, Johnny Revolta and Willie Hunter, the former English amateur who has projected himself into the front rank of the professional sharpshooters.

The amateur cause has the support of a crack brigade, including William Lawson Little, Jr., the new British amateur champion; Gus Moreland, the always dangerous Texan; towering Johnny Fischer of Cincinnati, and Howard Creel, left-handed Denver ace.

There was one thing the rival rival forces general agreed on—that out of what appears to be one of the hottest championship fights in years will emerge a new scoring record for the 72-hole test.

# BOB WEILAND LOSES 1-HIT TILT TO ROWE

### DETROIT TIGERS BEAT CLEVELAND TRIBE 2 TO 1

BY HUGH S. FULLERTON Jr., Associated Press Sports Writer.  
It was a baseball custom to say that a pitcher who allows only one hit has just missed the "hall of fame," a place reserved for the no-hit hurlers. Bob Weiland, the big southpaw who was named the Cleveland Indians in the deal with Boston for Wes Ferrell, has more than that—he not only pitched a one-hit game, but he lost it.

Weiland gave the Detroit Tigers just one single in yesterday's mound duel with Lynn Rowe, who had off Chas'ey Gehringer's bat in the sixth after Goose Goslin and Gerald Walker had drawn walks and drove in the first run of the game. A force-out brought Walker home with the second. The final count was 2 to 1 after Weiland had been lifted for a pinch hitter in the eighth and Mel Harder finished.

The Indians' only satisfaction was that he halted Goslin's hitting streak after 29 consecutive games. Detroit's triumph, the tenth in 13 games, carried the Tigers into first place and presented a brand new pair of league leaders to the fans. At the same time the New York Giants climbed back to the National League lead with a 6 to 2 decision over Boston, gained when they bunched five of their seven hits for five runs in the first inning.

The Tiger advance was aided by the failure of the New York Yankees, erstwhile leaders, to get more than an even break with the Boston Red Sox.  
The Yanks slugged Mose Groves and Henry Johnson 25 hits and a 15 to 3 triumph in the opener, but Eoston came back to win the second 7 to 4.

The Chicago Cubs helped out the Giants by going 13 long innings to defeat the St. Louis Cardinals, 12 to 6. Twelve innings of battling wound up when Frank Frisco, Cardinal manager, was chased for an argument with Umpire Rigler. In the thirteenth the Cubs landed on Tex Carlton and Jim Lindsey and doubled their score with five hits.

Pittsburgh improved its fourth place considerably by taking two games from the Cincinnati Reds, 3 to 1 and 5 to 1, behind the fine hurling of Bill Swift and Ralph Birkofer.

In the other games the Phillies made four victories in a row by taking a 12 to 4 decision from Brooklyn, slugging out all their runs in three big innings, and the Browns turned back the Chicago White Sox, 3 to 2, when a pair of Chicago errors in the fourth gave St. Louis all its runs.

Philadelphia's Athletics and the Washington Senators were rained out.

PHILADELPHIA (AP) — Ernest Williams, a convict noted for slow motion. So when a guard saw him swinging a pick in the state prison quarry with great alacrity, he investigated. Williams whispered, "I've found gold."  
"Bunk," a chemist said. "It's iron sulphide. Fools gold."  
Said Williams: "Oh, well, they wouldn't have let me keep it anyway."

# FOUR-DAY RACE MEET OPENS TODAY ON PANHANDLE TRACK

### Six Races Will Be Held on Each Afternoon; Betting Machines Installed.

A second Louisville, Ky., is Panhandle, county seat of Carson county, where the first horse races of the year will be run. The four-day meet was to open this afternoon with six races and an exhibition. The meet will last tomorrow, Saturday, and Monday. There will be no races Sunday.

The 143 stalls erected at the new race plant are filled with some of the best known racing blood in the country. The number of stalls will not be enough and others are being erected to accommodate the late arrivals.

Because of the large number of horses, large entries will be the order for each race. Wagering is expected to be brisk and odds high because of the large entry. Favorites have more to contend with in a big field and their winning is not usually as consistent as otherwise.

Horses from as far north as North Dakota and as far east as the Atlantic ocean are housed at Panhandle. Jockeys whose names are by-words on the big circuits are present to pilot the mounts.

The new plant is on the edge of the city and within three minutes walking time of the main street. The new grandstand will seat more than 2,000. Pari-mutuel betting machines have been installed and betting will be much easier and surer.

The gates will be opened at 1:30 o'clock.

### CIGARET WAS DIFFERENT CHICAGO (AP) — Four buildings on Emerald avenue were bulwarks in the fight firemen waged to halt the disastrous \$8,000,000 fire at the stockyards recently. Drenched with hundreds of thousands of gallons of water, they withstood the flames. A cigarette, tossed by a careless passerby, ignited them yesterday. Only ruins remain.

### FOOL'S GOLD JOLIET, Ill. (AP) — Ernest Williams is a convict noted for slow motion. So when a guard saw him swinging a pick in the state prison quarry with great alacrity, he investigated. Williams whispered, "I've found gold."

# MURDER AT MOCKING HOUSE

BY WALTER C. BROWN

**SYNOPSIS:** Although Sergeant Harper has proved that the stranger and the policeman found dead in Pierre Dufresne's house did not shoot each other, but were murdered, he cannot pin the crime on anyone until he can show how the murderer escaped, and who the stranger is. He is questioning Mrs. Croymen, and has learned that she and her husband have an apparently airtight alibi. He notices particularly a handsome diamond ring she wears.

Chapter 36  
**DUFRESNE AGAIN**  
Harper leaned forward. "Now, Mrs. Croymen, I would like to know more about the servants in this house. Has there been trouble with any of them in the past, or any trouble between themselves? I don't mean petty squabbles."

"For the first time Aline Croymen hesitated, and Harper felt the lowering of an imperceptible veil of aloofness. With her hands lying motionless in her lap she studied the detective's face with cool gravity. In all the house there was not a sound at that moment.

"I am afraid there is nothing I can tell you that would be relevant to the ideas you hold," she answered at last, quietly.

"What about Andrews? I gather that he is greatly in Mr. Dufresne's confidence."

"Andrews has spent his whole adult life in the service of the Dufresne family, starting with Mr. Dufresne's father. Naturally, he is treated almost as a member of the family."

Harper thought that over. "How long have the Whitmores been employed?"

"It must be about ten years. We wish we could find some one half so efficient and conscientious for our own house."

"What about Donaghy, the chauffeur?"

"Mrs. Croymen shot him a quick, penetrating look, which the detective did not miss, and as she thought over her reply, she kept turning that unusual ring around and around on her finger.

"Joseph is considerably younger than any of the others," she answered at last, "less settled in his habits and no doubt he has more outside interests. But he is courteous, prompt, and obliging, and I believe there has been no question at all as to his conduct either on or off duty."

"Then there has been nothing in the nature of friction or bad feeling between Andrews, say, and the Whitmores? Or between Donaghy and Andrews?"

"No, indeed."

"What of the housemaid who was here last year, Ellen Becker? She

ing for you to back it up with proof, sound, legal evidence. If it turns out that you can't I warn you that it's likely to cost you your stripes."

"Pierre, you mustn't talk like that!" Aline Croymen tried to smooth the ruffled waters. "Mr. Harper is only doing his duty—"

Without the slightest warning came the sudden crack of a revolver. The report seemed to come from beneath their very feet, sharp and unusually loud in that silent house. They exchanged startled glances.

"Don't be alarmed," Harper urged. "Detective Lafferty is testing the real murder gun. Fortunately we have found it hidden in the gutter of the roof. That answers your question, Mr. Dufresne. We now have sound, legal evidence that there was a double murder here. We'll be finished when we find out whose finger pulled the trigger last night."

Richard Croymen's hands had jerked so nervously at the sound of the shot that he had recaptured his cigarette in midair. He stared at the detective with frowning intensity. Aline Croymen leaped up in her fright, her hands clasping each other and her ring still flashing its multicolored sparks.

But Pierre Dufresne went on quietly tapping his cigarette against the platinum case. There was mockery and defiance in his glittering look, and Harper caught a faint reek of brandy on his breath.

"Don't let us stop you!" he sneered, "but I'll be damned if we wish you any luck!"

Lafferty looked through the pocket lens at the crystal body of the goblet and then again at the sheet of yellow letter paper Harper held out for his inspection. "It's a sneaky print," he stated, "but there's no doubt about it—that's Andrews' thumbmark in both places. Well, let me have another round with the model butler. We'll see if he can think fast enough to get out of this one."

The lanky detective took the letter and read it over. It was the third of the eight crank letters Dufresne had turned over to the police when he had first placed the matter in their hands, about a week before. The thumbmark appeared about midway of the left margin.

"It was just a fluke," Harper explained. "I was showing Mrs. Croymen how a fingerprint is brought out for photographing and I happened to pick up this glass for the experiment."

"It would have come out long ago," Lafferty grumbled, "if Dufresne hadn't opposed the fingerprinting of the staff. Come on, let's put the screws to the old boy. I'm going to enjoy this."

"Not so fast, Jack, not so fast. There's no profit in going off half-cocked. Nobody's going to run away with the fight things out. It might be a help if some one did, he added as an afterthought.

## Names of Shut-in Persons Asked by Floral Company

A number of America's outstanding stars are supporting the National Flower Shut-In day movement, which will be observed June 10, not only in this city but throughout the United States and Canada, according to W. A. Bratton, local honorary chairman.

Among the notables helping the movement are Mary Pickford, screen and stage star; Walter Winchell, famous Broadway columnist and radio reporter, and Julia Sanderson and Frank Crumit, popular radio singers.

"These stars," Mr. Bratton explained, "are doing everything within their power to obtain the names and addresses of shut-ins who might otherwise be overlooked when the deliveries of flowers are made. Already, they have turned over more than 100,000 names, obtained as a result of their plans."

The Clayton Floral company will take free flowers to shut-ins here. Church societies are co-operating.

Mr. Bratton said, "We want the names of all local shut-ins, permanently sick and disabled people." The floral firm's phone is 80.

Lafferty threw his superior a cardonic look. "You're hard to convince," he protested. "What are you holding out for now, a handwritten confession from the murderer?"

"No, but we're not a couple of rookies out after big game for the first time. If we made an arrest every time we struck a clue we'd have Mrs. Dufresne locked up because she went out last night and Dufresne because the gun disappeared from his room this morning. Before we lockie Andrews let's have a good look at these letters. We've been so busy with other matters they haven't had the attention they deserve."

"The first thing that is apparent," he went on, "is that each was mailed downtown. That gives us no help with everybody at the Austers except the Whitmores. The first four were exactly one week apart, then came a gap of eleven days with the last four somewhat irregular. Dufresne placed them before Director Connors on the 4th of January. On the morning of

## Small Expects Good Following in Coastal Region

After a week's strenuous campaigning in Southeast Texas for a few days, Senator Clint Small, candidate for governor, returned to the north end of the state Monday.

His itinerary had taken him into most of the counties between San Antonio and Houston and south along the Gulf Coast. In this region, where four years ago he got very few votes, he was greeted with wide assurances of support from public and press alike. Numerous newspapers are committed to his candidacy and this time he has pledged pluralities in many of these counties.

He made three night speeches during the tour and was greeted with satisfactory responses. On each occasion the promptest response by way of applause came for his pledge that, when he is elected governor, persons who are convicted of crimes of violence will stay in the penitentiary once they get there.

His promise of maintaining a minimum 7-months \$16 per capita school status, his method of making special state departments self-sustaining to reduce the ad valorem tax immediately and his plan for reform in the courts and a reduction in their cost brought many expressions of approval.

During the current week Senator Small after opening with a speech at Cleburne Monday and a radio address at Fort Worth Tuesday night, was to spend the remainder of his time in the section surrounding Waxahachie, Hillsboro, and Emnis.

His only announced formal date is at San Antonio June 14 when he will address the people of Texas over a state-wide radio hook-up on "The Crime Trust in Texas."

The 7th came the last letter, at least up to the present.

"At least? Do you think there are going to be any more of them?" Lafferty questioned.

(Copyright, 1934, by Walter C. Brown)

Tomorrow, the situation nears a crisis.

## Coming to City

WILLIAM MCGRAW

A large, red-headed man who is considered by his friends to be one of the best political campaigners Texas has ever seen is to be in Pampa Saturday, campaigning for attorney general.

This is William McGraw, former district attorney of Dallas county, said to be the only man ever elected to a third successive term as district attorney of Dallas. He also has the record of never having been in a second primary in his entire political career, always having won without a run-off.

McGraw was born at Arlington 37 years ago, the son of a printer, who at that time was publisher of the Arlington Democrat. Young McGraw missed being a newspaper man by a narrow margin. His first work was as a "devil" in his father's printing shop. He sold newspapers for several years while going to school, and when he finished high school he went to work as a pressman on a Dallas newspaper, working daytimes and studying law at night.

He is on a two-weeks trip in West Texas and will go as far west as El Paso. He is to visit Borger and Pampa Saturday and to spend the week-end in Amarillo, where he will campaign Monday.

M. M. Newman of McLean spent yesterday in the city.

## Oil Field News

BY GEORGE L. GUTHRIE, Consulting Geologist, Combs-Worley Building.

Gray county is still on the map even though there is much talk about Wheeler and the wells they are bringing in down there. The Ilio Oil company's No. 3 Smith in section 139, block 3, I&GN has made an average of over 700 barrels on the first two days of its test and shows no signs of weakening. It is a pumping well.

The Dixon Creek Oil company finished its 5-day test for an average potential of 426 barrels on its Horner No. 4 in section 139, block 3, I&GN. It was shot with 200 quarts from 3,165 to 3,216. The Sinclair-Prairie company's No. 7 Leycomb in section 36, block 3, I&GN, chalked up an average potential of 919 barrels a day on its 5-day test.

Tharp and Dawson shot No. 1 Hood in section 33, block 3, I&GN, with 270 quarts from 2,950 to 3,024, and should go on test in the next few days.

There are several other oil wells in Gray county that are being completed. There was one new location in Gray county, filed this morning, the Magnolia Petroleum company's No. 2 Fee Land 227 in section 14, block 3, I&GN, 330 feet from the north line and 330 feet from the west line of the section.

In Wheeler county, the Mid-Continent's No. 4 Carville, in section 51, block 24, completed its 5-day test for an average potential of 243 barrels a day.

In Hutchinson county, Cy Reiger has filed a location for No. 2 in section 20, block M-21, 1,320 feet from the west line and 330 feet from the south line of the north-east quarter. The Empire Oil & Gas company is plugging back its Nos. 6 and 10 Weatherly in section 19, M&C survey, Hutchinson county, to make gas wells out of them.

## WHEELER COUNTY RECORDS

## Attorney Quits 31st Court Suit

E. F. Ritchie, Miami attorney, this morning asked Judge W. R. Ewing of the 31st district court if he might have read into the minutes of the court his reason for withdrawing from a case and also that the judge sanction the withdrawal.

Judge Ritchie then stated that he had been retained to represent a Pampa man in a compensation case but that last week he had learned that the man, who claimed to have been permanently injured in an accident, has done work and had played games that would be physically impossible under his allegations.

The attorney also stated that he understood the defendants had secured motion pictures of the plaintiff playing leap frog. Judge Ewing accepted the withdrawal of Judge Ritchie from the case.
