PRICE FIVE CENTS

YOUNG DEMOCRATIC CLUB TO BE FORMED TONIGHT--LOCAL ACTIVITIES NOT POLITICAL

TWINKLES
"Farmers in protest at gin prices" says a headline. But if prohibition is repealed, such headlines will be ambiguous and confusing.

After reading hair-raising accounts of how reporters were beaten during the Cuban revolution, we can appreciate even the confusing and bloodless revolution of the NRA.

New Mexico has a law requiring counties to levy a half mill tax for care of the indigent. Texas counties have no such tax hence the state bond issue is the only sure and equitable way of caring for the near-starving folk.

Prison inmates are said to be very nervous and dissatisfied in many institutions. Maybe they too wish to take a crack at the depression, or perchance learn what the NRA is about.

Hugh Johnson says a community fully cooperating with NRA ought to be proud of itself. All right, let's strut a bit at the parade Thursday afternoon.

In several industries, men have been declared unfit for work after reaching the age of 45. Sounds like propaganda from the younger generation, but it isn't—it's a means for dropping employees without giving a better excuse.

Closing the banks in March was a smart move. Leaving many of them closed is off-setting the value of the whole public works program. We don't blame the post office for that, but for instance, for losing patience and sending warm telegrams to the U. S. Comptroller of the currency.

"BREAK" FOR SCHOOLS
Railroads of the country will offer excursion rates for students and teachers going to educational institutions this fall. The tickets will be round-trip fares, with the return trips to be made at Christmas during the mid-semester vacation period, or at the close of school. Excursion rates have been available chiefly for Christmas period only and these had no direct relation to education. The railroads are daily becoming more humanized and, in some instances, they are actually giving attention to the comfort of travelers.

PUBLIC OPINION
The chief weapon of the NRA is public opinion. Its coercion is greater, in many instances, than the courts can boast. But public opinion cannot put capital in the hands of small business men in the case of some of the big, monopolistic concerns, can it settle instantly the labor issue of open or closed shop methods for industries which have had only company unions, or none at all. It is organized labor's opportunity, but the hand is being overplayed. Nothing will more quickly stiffen the backs of business men, large and small alike, than professional organizers who agitate employees into a state of mind which puts hard-pressed employers "on the spot". The chief monkey wrench in the NRA program is the labor provision. Small employers complain that to add one or two

(Continued on page 4.)

THREE GUESSES

WHAT GOVERNMENT POST DOES J. EDGAR HOOVER HOLD?

INTELLIGENT VOTING IS AIM--LEADERSHIP DEVELOPED

FORMATION of a Young Democratic club at the city hall at 8 o'clock tonight will be mainly for educational purposes. Since the republican party is not a factor locally and in the county and state, the club will have little part in partisan politics except during national campaigns.

The club will sponsor lectures and public addresses which will tend to bring out the differences between parties in the past and in the present crisis. It will enable members to study theories of government and to prepare themselves to participate in effective self-government.

Young Women Invited
A special invitation for young women over 18 and under 35 to join the Young Democratic club to be formed here tonight was extended today. The clubs, which are being organized in every state, are "coeducational."

bring out the differences between parties in the past and in the present crisis. It will enable members to study theories of government and to prepare themselves to participate in effective self-government.

Mr. Nunn attended a banquet of the Potter county Young Democratic club last night, and was assured that an Amarillo delegation of both young men and women would be present here tonight. Very young members will be interested in a short talk to be made by a 19-year-old member of the Potter club.

Officers to be elected tonight will include a county chairman, local president, secretary, and an executive committee of seven members. A constitution for the new organization will be drawn by a special committee.

Names of Gray county young folk reaching the age of 18 will be invited to join the club.

Senator Morris Shepard was a speaker at the Amarillo banquet last night. He highly endorsed the movement.

In Picket Line

POLICEMEN keep pickets in line, but it's not often you'll find them marching in line themselves. Police Commissioner Charles Banachowitz of Milwaukee (wearing Panama) provided that rare spectacle when, as shown here, he led 20,000 hosiery pickets and delegates to the convention of the American Federation of Hosiery Workers in Philadelphia.

FIVE INDICTED IN SLAYING OF MAN AT SCHOOL

Cattle Theft Trial
Witness Killed From Ambush

MURDER indictments have been returned here against five farmers in connection with the ambush slaying of Amon Copeland at Point Blank last March.

At present J. Lee is serving a term in Huntsville penitentiary for cattle theft. His three sons are in the San Jacinto county jail here. Whiteside is in a Conroe hospital, where he underwent an operation last week.

Gregory Will Meet Lamb In Tennis Finals

Harold Gregory and Fred Lamb will meet in the finals of the junior division of the city tennis tournament. Lamb went into the finals Sunday by defeating Pearson, while Gregory became a finalist yesterday afternoon when he won three sets from Roy Webb, 6-0, 6-0, 6-0.

RETAIL GROUP FACTIONS AIR ANIMOSITIES

CODE WILL RESULT IN HIRING 1,000,000 PERSONS SOON

By James Cope, Associated Press Staff Writer.
WASHINGTON, Aug. 23 (AP)—The serious problem of shaping a final code of fair practice for bituminous coal again today overshadowed manifold activities of the recovery administration, but the only word on progress was that a "break might come any time," and that not only Administrator Hugh S. Johnson but President Roosevelt himself was keeping constant tab on developments.

This word came from Deputy Administrator Kenneth M. Simpson, who handled the coal hearing.

While the coal conference went on privately between officials, operators and labor leaders in separate offices, factions of retail trade began airing animosities in public hearings, advocating suppression of forms of competition denounced by witnesses as unfair.

WASHINGTON, Aug. 23 (AP)—Re-employment of approximately 1,000,000 persons in the next 30 days if retail stores were put on 40-44-28 hour weeks, according to hours of operation, was predicted today before the recovery administration officials by Paul Nystrom, spokesman for the limited price variety stores association.

Federal Relief Administrator Is Flying To Texas

AUSTIN, Aug. 23 (AP)—Plans were made today to receive Harry L. Hopkins, federal emergency relief administrator, flying from Washington for a conference with Governor Miriam A. Ferguson and Lawrence Westbrook, director of the Texas rehabilitation and relief commission.

the election on next Saturday. A ruling by the attorney general's department has held that all qualified voters may ballot for and against the proposed amendment. Since the bonds will not constitute a charge against real and personal property, there will be no property qualification in the vote. This fact is expected to increase greatly the chances of the amendment to carry.

Two Army Officers Stationed in Kansas Swap Wives Legally, 'Naturally', for 'Love's Sake'

LEAVENWORTH, Kan., Aug. 23 (AP)—For love's sake, two army officers have traded wives, legally. Says Captain William B. Bradford:

"It is natural for a man to fall in love with another man's wife and for a woman to fall in love with another woman's husband."

NINETY ABOARD SHIP; DISTRESS MESSAGE SENT

COAST GUARD CUTTERS ON WAY TO AID STEAMER

NEW YORK, Aug. 23 (AP)—A wireless message intercepted by the coast guard this afternoon said that two coast guard vessels, the Uphur and the Carabasset, were alongside the liner Madison, in distress off the Virginia Capes.

NEW YORK, Aug. 23 (AP)—A second SOS distress call was sent out by the coastal steamer Madison with 90 aboard shortly before noon, EST today.

WASHINGTON, Aug. 23 (AP)—A violent storm, described variously by naval and weather bureau officials as of "hurricane" or near hurricane intensity, was reported by the bureau today to be sweeping inland from the Virginia capes on a generally northwesterly course.

OKLAHOMA CITY, Aug. 23 (AP)—In an atmosphere made tense by the receipt of threats against the lives of witnesses, a federal grand jury today in session here today to consider evidence against the gang accused of the Charles F. Urschel kidnaping.

TEXAS WELL NEWSPAPERED

According to statistics—compiled for dailies from the Editor and Publisher year book and for weeklies from the American Press Association directory—Texas publishes 714 newspapers of all kinds, topping Illinois, in second place, by eight. Illinois boasts of 608 newspapers in the weekly class (comprised of weeklies, semi-weeklies, and tri-weeklies) while Texas publishes 600, but Texas has 114 dailies to the northern State's 98. New York publishes 6680 papers of all classes. On a per capita population basis, Texas publishes more than twice as many papers as does New York, there being one separate newspaper for every 8,158 persons in Texas, one for every 10,808 in Illinois, and one for every 18,512 in New York. In the entire country, there are 1,923 papers in the daily class and 11,500 in the weekly; consequently, although Texas has but 4.7 per cent of the nation's population, it publishes 5.9 per cent of all the dailies and 5.2 per cent of all the weeklies.

Circulation figures are equally as impressive. The approximate circulation of all Texas dailies exceeds 1,300,000, while that of the weeklies surpasses 780,000. Since census figures give Texas 1,380,096 families, the combined circulation of more than two million for all Texas newspapers means that there are 50 per cent more newspapers than families in Texas and that each family is thus afforded one and one-half newspapers every day or every week. This record is remarkable; from a cultural perspective it indicates something of an enlightened public opinion in Texas, and from a business standpoint it demonstrates conclusively the complete coverage of the retail field.—Texas Weekly.

BOTH PIRATES AND HOUSTON ARE DEFEATED

STEEERS SMOTHER SAN ANTONIO CLUB 12 TO 1

By BILL PARKER.
Associated Press Sports Writer.
Houston and Galveston, first and second place aggregations in the Texas league pennant race, could do no better than come in second best Tuesday night. The only first division team to win was the Dallas Steers, who clipped the San Antonio Mission in celebration of Zeke Bonura night.

Oklahoma City, far down in the Raggu cellar fired a 3 to 2 broadside at the Buccaneers, Vernon Kenney, who probably has lost more close games than any pitcher in the league, limited Galveston to six hits. The Buccaneers scored both their runs in the first inning. The Indians tied the count in the seventh and put over the winning run in the last of the ninth. Hugh Williamson, third baseman, cracked a home run with a runner on to account for two of the three tallies. Hank Tharmahen, league strikeout king, started for Galveston but lasted only seven innings. He failed to register a strikeout.

The veteran Lefty Johns offered an assortment of baffling southpaw curves to the Houston hitters. They failed to connect timely enough and were defeated, 7 to 3. Beckman and Fisher tried to stem the tide of defeat but the Oilers pounded them for 10 hits to score in the first, fourth, fifth, and seventh innings. Because he has been sold to the Chicago White Sox and because he is ranked as the most valuable player on the team, Dallas celebrated a special Bonura night with a 12 to 1 victory over San Antonio. Owner So! Dreyfuss of the Steers presented his big first sacker with a gold wrist watch. Zeke returned the compliment with a single and triple that drove across three runs. Bonura's parents and two uncles drove up from New Orleans to see the huge Italian honored.

Thanks to a home run by Dallas Warren and a fine four-hit game by Chambers, the Fort Worth Cats defeated Beaumont, 3 to 1. The Cats

Harvesters In Fair Condition As Work Begins

Coach Odus Mitchell's Harvesters looked like a bunch of wild Indians as they cavorted about. Harvester last evening in the first practice of the fall season. Most of the boys spent the summer really working in preparation for the fall season. They are practicing in trunks and shoes.

The boys went through calisthenics and then passed and kicked the ball for more than an hour. The next session will be at 8 o'clock tonight and will be a little more strenuous than the session yesterday. The coach will work his boys here all week and Saturday will select 25 or 30 of the best prospects to attend camp on the Mel B. Davis ranch southeast of LeFors until school time which will be Sept. 5.

Conditioning and getting used to handling the ball will be the major activity during sessions at Harvester park. When camp opens plays will be given and worked on during the full length. Two practice sessions will be at 8 o'clock tonight and a skull practice in between. Practice sessions will be early in the morning and late in the afternoon. The Harvesters will open the season here Sept. 22 with the McLean eleven, runners-up for state Class B honors last year. The game will be a good one, McLean having set her mind on defeating the Harvesters.

Two Tires Taken From Pampa Cars

City officers were notified of the loss of two tires and rims this morning. J. O. Carroll of the Court-house Cafe reported that a tire and had been removed from his Buick coupe on East Browning avenue last night.

A tire and wheel was taken from a Ford pickup belonging to the Magnolia Petroleum company sometime last night. The truck was parked at the rear of 624 North Frost street.

Two tires were reported stolen Sunday night, one here and one at LeFors. Mrs. J. R. Brown was admitted to Worley hospital for treatment yesterday.

George Kelly Stops At Ranch Near Decatur

DECATUR, Aug. 23. (AP)—Once again authorities apparently have come upon the "cold" trail of Geo. (Machine Gun) Kelly, wanted for the kidnaping of Charles F. Urschel, wealthy Oklahoma oil man, but it was believed today that the shiftily desperado had slipped out of immediate danger. Officers have been hunting him all over the Southwest.

Jennings C. Brown, Wise county attorney, said last night that a man identified from department of justice photographs as Kelly had been seen in the county last Thursday and Friday, in company with a woman fitting the description of his wife.

The man believed to be Kelly and the woman appeared Thursday morning at the Dave Young ranch in the western part of Wise county and asked for water. Young Howard Barnes, ranch foreman, and Mrs. Barnes, said they thought the man was Kelly.

The couple was seen Friday, traveling south on a state highway leading toward paradise, the name of R. G. (Boss) Shannon, near Paradise, was where federal officers, on a raid August 12 caught Harvey Bailey, alleged gunman charged with a part in the Urschel kidnaping. It was on the Shannon farm that of Kelly's fellow Urschel was held captive for five days while arrangements were made for his release on \$500,000 ransom.

You are hereby commanded to cite all persons interested in the estate of William M. Heisler, deceased, to appear at the September term of the county court of Gray county to be held at the court house thereof in Pampa on the first Monday in September, 1933, the same being the fourth day of September, 1933, to contest, should they desire to do so, the final account and application for discharge of J. B. Bourland, administrator of said estate of William M. Heisler, deceased, filed in Cause No. 409 on the 6th day of July, 1933, which said final account and application will then and there be such court be acted on.

Given under my hand and seal of said court, this 26th day of July, 1933.
CHARLIE THUT,
Clerk of the County Court, Gray County, Texas.
By: Ola Gregory, Deputy.
August 8 to August 30

man fitting the description of his wife. The man believed to be Kelly and the woman appeared Thursday morning at the Dave Young ranch in the western part of Wise county and asked for water. Young Howard Barnes, ranch foreman, and Mrs. Barnes, said they thought the man was Kelly.

Bradfield Funeral To Be Held Today

Funeral services for Mrs. H. R. Bradfield, 31, were set for 2 o'clock this afternoon in the chapel of the G. C. Malone Funeral home with the Rev. C. E. Lancaster, pastor of the First Baptist church, officiating. Burial was to follow in Fairview cemetery.

What the Blue Eagle means to you and how you can get it

The President's Reemployment Program is advancing to complete success. No such sweeping demonstration of the unity of a whole people against a national danger has ever been made. • In this vast surge of patriotism it is necessary to keep our common purpose always clear. When 125,000,000 people attempt to act as one man there are sure to be some misunderstandings. It is time to restate as clearly as possible the aim of the whole endeavor and the duty of each individual. • That is the purpose of this message—to state officially, briefly and clearly the simple rules for common guidance. • It is an evidence of the self-sacrificing service of the whole country that this newspaper has donated this space. In that spirit the whole country is acting. • This plan depends wholly on united action. That unity is almost complete. In the next few days let us close up every gap in the ranks and nail the flag of the Blue Eagle on the door of every man who works another man.

Herbert Hoover

OFFICIAL EXPLANATION OF THE PRESIDENT'S REEMPLOYMENT AGREEMENT

(Sometimes mis-called "The Blanket Code")

This Agreement binds you to put its terms into effect from the time you sign the Certificate of Compliance until December 31, 1933; but when the President has approved a Code for your trade or industry, that Code takes the place of this Agreement.

You agree:

Child Labor

(1) After August 31, 1933, not to employ any person under 16 years of age, except that persons between 14 and 16 may be employed (but not in manufacturing or mechanical industries) for not to exceed 3 hours per day and those hours between 7 A. M. and 7 P. M. in such work as will not interfere with hours of day school.

This means that after August 31, 1933, you agree not to employ any children under 14 years old in any kind of business. You may employ children between 14 and 16 years old, but only for three hours a day and those hours must be between 7 in the morning and 7 at night, and arranged so as not to interfere with school. You agree not to employ any children under 16 years old in a manufacturing or mechanical industry, at any time.

Maximum Hours

(2) Not to work any accounting, clerical, banking, office, service, or sales employees (except outside salesmen) in any store, office, department, establishment, or public utility, or on any automobile or horse-drawn passenger, express, delivery, or freight service, or in any other place or manner, for more than 40 hours in any 1 week and not to reduce the hours of any store or service operation to below 52 hours in any 1 week, unless such hours were less than 52 hours per week before July 1, 1933, and in the latter case not to reduce such hours at all.

This means that you agree not to work any of the kinds of employees listed in this paragraph (except outside salesmen) for more than 40 hours a week. This paragraph covers all employees except factory workers, mechanical workers and artisans. However, no limit on hours and no minimum wage applies to purely agricultural labor, domestic servants, or persons working for you solely on a commission basis; but, if you have persons working for you who are guaranteed a base pay in addition to their commission, then their base pay plus commissions must equal the minimum wage.

This Agreement sets no maximum on the number of hours you may keep your business open. You agree not to keep your wholesale, retail, or service establishment open less than 52 hours a week unless it was open less than 52 hours a week before July 1, 1933. Even then you agree to keep it open as long as you used to keep it open before July 1. Of course, if you have always kept your store open shorter hours in the Summer months you can continue to do so this Summer, but you should pay your employees the same amount each week that they will get when you keep your store open full time.

The stores with more than two employees which remain open the longest are contributing the most to carrying out the purpose of the Agreement. The stores with two or less employees which can be open only the minimum number of hours required, are doing the most to fulfill their part.

(3) Not to employ any factory or mechanical worker or artisan more than a maximum week of 35 hours until December 31, 1933, but with the right to work a maximum week of 40 hours for any 6 weeks within this period; and not to employ any worker more than 8 hours in any one day.

This means that if you are employing factory or mechanical workers or artisans, you agree not to work them more than 35 hours a week and not more than 8 hours in any one day.

When you have more than the usual amount of work to do and can't get additional workers, you may employ this class of employee up to 40 hours a week in any 6 weeks, but even in this case you must not work them more than 8 hours a day.

(4) The maximum hours fixed in the foregoing paragraphs (2) and (3) shall not apply to employees in establishments employing not more than two persons in towns of less than 2,500 population which towns are not part of a larger trade area; nor to registered pharmacists or other professional persons employed in their profession nor to employees in a managerial or executive capacity, who now receive more than \$35 per week; nor to employees on emergency maintenance and repair work; nor to very special cases where restrictions of hours of highly skilled workers on continuous processes would unavoidably reduce production but, in any such special case, at least time and one-third shall be paid for hours worked in excess of the maximum. Population for the purposes of this agreement shall be determined by reference to the 1930 Federal census.

This means that there are certain employees whom you may work longer hours than are allowed by paragraphs (2) and (3) P. R. A.

If your business is in a small town (population less than 2,500 by the 1930 census) and you do not employ more than two persons, the limit on hours does not apply to these employees. If your town is really a part of a larger business community, the limit on hours does apply to these employees.

The limit on hours does not apply to your employees who are wholly or primarily managers or executives, as long as they receive \$35 a week. Professional persons, like doctors, lawyers, registered pharmacists and nurses, may be employed without any limit on hours.

Where employees are doing emergency jobs of maintenance or repair work, they may be kept on the job for

longer hours, but you agree to pay them at least time and one-third for hours worked over the limits set in paragraphs (2) and (3) P. R. A.

There are a few very special cases where highly skilled workers must be allowed to work more than the limit of hours in order to keep up output on continuous processes, but, here again, you agree to pay them at least time and one-third for the hours they work over the limits set in paragraphs (2) and (3) P. R. A.

Minimum Wages

(5) Not to pay any of the classes of employees mentioned in paragraph (2) less than \$15 per week in any city of over 500,000 population, or in the immediate trade area of such city; nor less than \$14.50 per week in any city of between 250,000 and 500,000 population, or in the immediate trade area of such city; nor less than \$14 per week in any city of between 2,500 and 250,000 population, or in the immediate trade area of such city and in towns of less than 2,500 population to increase all wages by not less than 20 per cent, provided that this shall not require wages in excess of \$12 per week.

This sets out the schedule of minimum wages which you agree to pay all employees, except factory or mechanical workers or artisans. The wages are set out in terms of dollars per week, but if your employees are paid by the hour, you may use the following schedule:

Place of Business: (Population by 1930 Census)	Minimum Wage
In cities of 500,000 or over.....	37½ cents per hour
In cities of between 250,000 and 500,000	36¼ cents per hour
In cities of between 2,500 and 250,000	35 cents per hour

If your business is in a town of less than 2,500 population, you agree to raise all wages at least 20%. If raising all wages 20% causes you to pay over \$12 per week, then you need only pay the \$12 per week.

If there is any doubt in your mind as to whether your business is in the "immediate trade area" of a city, you should ask your local Chamber of Commerce or other similar organization for a decision on the matter. The general rule is that the "immediate trade area" is the area in which there is direct retail competition.

(6) Not to pay any employee of the classes mentioned in paragraph (3) less than 40 cents per hour unless the hourly rate for the same class of work on July 15, 1929, was less than 40 cents per hour, in which latter case not to pay less than the hourly rate on July 15, 1929, and in no event less than 30 cents per hour. It is agreed that this paragraph establishes a guaranteed minimum rate of pay regardless of whether the employee is compensated on the basis of a time rate or on a piece-work performance.

This fixes the minimum wage which you agree to pay factory and mechanical workers and artisans. The following schedule may help you to find out the proper rate:

If the rate for the same kind of work in the same community on July 15, 1929, was:	The minimum rate which you agree to pay is:
More than 40c an hour.....	40c an hour
30c to 40c an hour.....	The July 15, 1929 hourly rate
Less than 30c an hour.....	30c an hour

Instead of paying by the hour, you may pay by the week at a rate which gives the same weekly earnings for a week of 35 hours. For example, instead of 40c an hour, you may pay \$14 per week.

If you had a contract on or before August 1, 1933, with a learner or apprentice, you do not have to pay him the minimum wage, but no one should be classed as a learner or an apprentice who has ever been employed as a regular worker in your industry.

(7) Not to reduce the compensation for employment now in excess of the minimum wages hereby agreed to (notwithstanding that the hours worked in such employment may be hereby reduced) and to increase the pay for such employment by an equitable readjustment of all pay schedules.

Two official interpretations—No. 1 and No. 20—have been issued, explaining this paragraph. You can get copies of these at your local Chamber of Commerce or from the nearest N. R. A. representative.

Anti-Subterfuge

(8) Not to use any subterfuge to frustrate the spirit and intent of this Agreement which is, among other things, to increase employment by a universal covenant, to remove obstructions to commerce, and to shorten hours and to raise wages for the shorter week to a living basis.

This is the heart of the whole Agreement. The President's Plan is to cure this depression by increasing purchasing power. You can help him put this plan over by voluntarily signing this Agreement to shorten hours and raise wages. There is no force to compel you to sign this Agreement. It is not law. It is a personal agreement between you and the President. The President expects you to do everything in your power to carry out the spirit of the Agreement after you sign it. This means whole-hearted cooperation by really earning the Blue Eagle—not by just getting it and then not doing your part.

It would be a "subterfuge to frustrate the spirit and intent of this Agreement" to sign it and then put all of your employees on a straight commission basis—or any other trick to avoid doing what you promise to do.

HOW TO EARN THE BLUE EAGLE

1. Sign the President's Reemployment Agreement (P. R. A.).
2. Shorten Hours of factory workers to 35 hours per week, and of all other employees to 40 hours per week. (See paragraphs 2, 3 and 4, P. R. A.)
3. Raise Wages. (See paragraphs 5, 6, and 7, P. R. A.)
4. Don't Employ Child Labor. (See paragraph 1, P. R. A.)
5. Cooperate with the President. To do this:
 - (a) Live Up to the Agreement. (See paragraph 8, P. R. A.)
 - (b) Don't Profit. (See paragraph 9, P. R. A.)
 - (c) Deal Only with Others "Under the Blue Eagle." (See paragraphs 10 and 12.)
 - (d) Get a Code in by September 1st. (See paragraphs 11 and 13, P. R. A.)

HOW TO GET THE BLUE EAGLE

1. Sign the President's Reemployment Agreement.
2. Mail the Signed Agreement to your District Office of the Department of Commerce.
3. Put the Agreement into Effect (as outlined above in "How to Earn the Blue Eagle").
4. Sign a Certificate of Compliance. This is a slip distributed with the Agreement. It says: "I/we certify that we have adjusted the hours of labor and the wages of our employees to accord with the President's Reemployment Agreement, which we have signed."
5. Deliver the Certificate of Compliance to Your Post Office. The Postmaster will give you your Blue Eagle.

EXCEPTIONAL CASES

1. Where a Code Has Been Submitted. (See paragraph 13, President's Reemployment Agreement). If your whole Trade or Industry is unable to live up to the President's Agreement, you should get together at once, with other employers in your Trade or Industry and, in a group, submit a Code of Fair Competition to N. R. A. in Washington.

Since it takes some time after a Code has been submitted for it to be finally approved, your group may petition N. R. A. to substitute the wages and hours provisions of your Code for the wages and hours provisions of the President's Reemployment Agreement.

If N. R. A. finds that the Code provisions are within the spirit of the President's Reemployment Agreement, it will consent to such substitutions. If N. R. A. does consent there will be an official notice in all the papers. You may then put the substituted provisions into effect in place of the indicated paragraphs of the President's Reemployment Agreement. In this case you should add to your Certificate of Compliance the following clause: "To the extent of N. R. A. consent as announced, we have complied with the President's Agreement by complying with the substituted provisions of the Code submitted by the Trade/Industry."

If the substitution is consented to after you have already put the President's Reemployment Agreement into full effect, and after you have already gotten your Blue Eagle, you may still put the substituted provisions into effect without signing another Certificate of Compliance.

2. Where a Code Has Been Approved. If a Code of Fair Competition for your Trade or Industry has already been finally approved by the President, you need not sign the President's Reemployment Agreement in order to get the Blue Eagle. The same is true if you are subject to a Code which has been put into effect temporarily by agreement between the President and representatives of your Trade or Industry; but in either of these cases, you must sign a Certificate of Compliance, adding to it the following statement: "We have complied with the operative provisions of the Code for the Trade/Industry."

3. Cases of Individual Hardship. (Paragraph 14, President's Reemployment Agreement). If there are some peculiar reasons why a particular provision of the President's Agreement will cause you, individually, a great and unavoidable hardship, you may still get the Blue Eagle by taking the following steps:

(a) Sign the Agreement and mail it to your District Office of the Department of Commerce.

(b) Prepare a petition to N. R. A. setting out the reasons why you cannot comply with certain provisions, and requesting that an exception be made in your case.

(c) Have this petition approved by your Trade Association. If there is no Trade Association for your business, have your petition approved by your local Chamber of Commerce or other representative organization designated by N. R. A.

(d) If the Trade Association, or other organization, approves your petition, send it to N. R. A. in Washington with this approval.

(e) Comply with all the provisions of the Agreement except the one you are petitioning to have excepted.

(f) Sign the Certificate of Compliance, adding to it the following clause: "Except for those interim provisions regarding wages and hours which have been approved by the Trade Association." Deliver this Certificate of Compliance to your Post Office. You will receive a Blue Eagle, but before displaying it, you must put a white bar across its breast with the word "Provisional" on it. If your petition is finally approved by N. R. A. you may take the bar down. If your petition is not approved by N. R. A. you must comply with the Agreement in full.

4. Union Contracts. If you have a contract with a labor organization calling for longer hours than the President's Agreement allows, and this contract was made in good faith by collective bargaining and cannot be changed by you alone, try to get the labor organization to agree to a reduction to the maximum hours allowed by the President's Agreement. If the labor organization will not agree, you may apply to N. R. A. for permission to work your employees as many hours a week as the contract calls for. Send to N. R. A. a request for this permission, with a certified copy of the labor contract and any statement of fact you desire. This application will be handled by N. R. A. in the same manner as an application for relief in cases of individual hardship, filed under paragraph (14) P. R. A., but it will not be necessary to obtain the approval of a trade association or other organization. If N. R. A. approves your application or is able to bring about any modification of the contract, you will then be granted permission to work employees in accordance with the contract as originally written or modified, and can then sign the Certificate of Compliance adding to it the following: "Except as required to comply with the terms of the Agreement in effect between the undersigned and the (Name of Labor Organization)."

Anti-Profiteering
(9) Not to increase the price of any merchandise sold after the date hereof over the price on July 1, 1933, by more than is made necessary by actual increases in production, replacement, or invoice costs of merchandise, or by taxes or other costs resulting from action taken pursuant to the Agricultural Adjustment Act, since July 1, 1933, and, in setting such price increases, to give full weight to probable increases in sales volume and to refrain from taking profiteering advantage of the consuming public.

The object of this paragraph is to prevent profiteering or speculation, so that prices will not rise faster than purchasing power, and destroy the President's plan. The danger to be avoided was pointed out by the President on June 16, 1933, in the statement which he made on signing the Recovery Act. He said, then:

"If we now inflate prices as fast and as far as we increase wages, the whole project will be set at naught. We cannot hope for the full effect of this plan unless, in these first critical months, and, even at the expense of full initial profits, we defer price increases as long as possible. If we can thus start a strong, sound upward spiral of business activity our industries will have little doubt of black-link operations in the last quarter of this year. The pent-up demand of this people is very great, and if we can release it on so broad a front, we need not fear a lagging recovery. There is greater danger of too much feverish speed."

If you were selling your merchandise on July 1, 1933, below cost, you may take your cost price at that date as the basis for determining the allowable increase under this paragraph.

Cooperation

(10) To support and patronize establishments which also have signed this Agreement and are listed as members of N. R. A. (National Recovery Administration).

The success of the President's Reemployment Agreement depends upon public support going to those who raise wages and shorten hours in accordance with this Agreement, in order to repay them for the extra expense which they have incurred in doing their part.

Codes

(11) To cooperate to the fullest extent in having a Code of Fair Competition submitted by his industry at the earliest possible date, and in any event before September 1, 1933.

This Agreement is a temporary measure to tide over the time from now until all employers and employees can cooperate under Codes of Fair Competition under the National Industrial Recovery Act. You agree, in this paragraph, to do all you can to have a Code submitted for your trade or industry before September 1, 1933.

Appropriate Adjustments

(12) Where, before June 16, 1933, the undersigned had contracted to purchase goods at a fixed price for delivery during the period of this Agreement, the undersigned will make an appropriate adjustment of said fixed price to meet any increase in cost caused by the seller having signed this President's Reemployment Agreement or having become bound by any Code of Fair Competition approved by the President.

This Agreement will, usually, increase the costs of those who sign it. The purpose of this paragraph is to pass any such increased costs along from one signer to another, and so on to the consumer.

If you have a contract made before June 16, 1933, to buy goods at a fixed price, you agree to make an arrangement with your seller so that you pay him for the extra cost to him caused by his having signed this Agreement, or having come under a Code approved by the President.

In some cases the final buyer is the Government, which, under existing law, is generally not allowed to pay more than the contract price. The President has announced that he will recommend to Congress that appropriations be made to allow the Government to play its part by paying Government contractors who have signed the Agreement for their increased costs. The President has also appealed to the States and cities to take action permitting them to do likewise.

You should have no fear that, because your buyer has not signed, you will be left with the increased cost on you alone. The President expects every employer to sign this Agreement.

Substitutions

(13) This Agreement shall cease upon approval by the President of a Code to which the undersigned is subject; or, if the N. R. A. so elects, upon submission of a Code to which the undersigned is subject and substitution of the provisions for any of the terms of this Agreement.

As pointed out in the explanation of paragraph (11) P. R. A. above, the President plans to have all business govern itself under Codes, and therefore Codes should be promptly submitted. If N. R. A. finds that the wages and hours provisions of a Code which has been submitted are within the spirit of this Agreement, N. R. A. will authorize your industry to operate under those provisions rather than under the wages and hours provisions of this Agreement.

Exceptions

(14) It is agreed that any person who wishes to do his part in the President's Reemployment Drive by signing this Agreement, but who asserts that some particular provision hereof, because of peculiar circumstances, will create great and unavoidable hardship, may obtain the benefits hereof by signing this Agreement and putting it into effect and then, in a petition approved by a trade association of his industry, or other representative organization designated by N. R. A., may apply for a stay of such provision pending a summary investigation by N. R. A. If he agrees in such application to abide by the decision of such investigation, this Agreement is entered into pursuant to section 4 (a) of the National Industrial Recovery Act and subject to all the terms and conditions required by sections 7 (a) and 10 (b) of that act.

If you really want to do your part in the President's Reemployment Program, sign this Agreement. If some particular part of this Agreement causes you, as an individual employer, great and unavoidable hardship, you may obtain relief by taking the steps outlined under the heading "Cases of Individual Hardship."

Save this sheet as your official source of information. If there are any problems in your mind which are not cleared up by this explanation, get in touch with the official N. R. A. representative in your community.

Official Statement of the Blue Eagle Division, N. R. A., Washington, D. C.

NATIONAL RECOVERY ADMINISTRATION

WHAT TO DO TO SUPPORT NRA IS EXPLAINED TO PAMPA WOMEN

CONSUMER AID IS NEXT STEP FOR RECOVERY

DEFINITE DUTIES OF WOMEN OUTLINED AT MEETING

CONSUMERS, third side in the NRA employer-employee-consumer triangle, heard of their responsibility in the national recovery program at a meeting of women at the city hall yesterday afternoon.

Called for the women's club room, the meeting was moved to the main auditorium when the smaller room failed to accommodate the crowd.

Enlistment of consumer cooperation is the second step in the national program, following the dealer drive, C. H. Walker, local NRA chairman, explained.

The blue eagle is the insignia of compliance in the president's program, he said. Display of this emblem means a present sacrifice to many Pampa dealers, he added.

War Work Reviewed Mrs. Leech reviewed women's part in war work and urged similar patriotism in this war on depression.

35 ACTORS TO BE CHOSEN FOR OPENING DRAMA

First Little Theater Play Has Unusually Large Cast

Selection of 35 players in the cast of "Gold in the Hills," first Little Theater play of this season, will begin Monday and is expected to continue for several days before the large group is complete.

A general meeting of Little Theater members and prospective members is to be held Monday evening to launch the season. Casting will begin immediately afterward.

Several roles in the play require actors who can sing, and one must be a pianist.

The play is a melodrama of the type popular in the late nineteenth century and revived successfully in recent years with a tinge of burlesque.

An invitation has been issued by the membership chairman, Mrs. R. S. Lawrence, to all former Little Theater members and to persons interested in dramatic activities.

Use consumers badges to bring reluctant and selfish dealers into line. Avoid false economy which encourages sweatshop and child labor.

Mould public opinion to force cooperation of every dealer, using even boycott as a last resort.

Help in enforcement of NRA principles, not by "snooping for technical violations" nor starting careless rumors which might damage a business, but reporting any seeming violation to local NRA authorities for investigation.

Remember that the program must work, actually is working, and support it whole-heartedly as a remedy for the crucial situation now facing the country.

MEMBERS AND GUESTS ENJOY B. P. W. PARTY

VISITOR ENTERTAINS WITH VIOLIN SOLOS

A new member, Catherine Howell, was welcomed and several guests were entertained at the Business and Professional Women's club social yesterday evening in the city club rooms.

Miss Willie Reece Taylor, one of the guests, played two violin solos, Dvorak's Humoresque, and Mac-dowell's To a Wild Rose. Her mother, Mrs. B. A. Taylor, accompanied.

Special guests were Elizabeth Troxell, Mrs. T. E. Simmons, Mrs. S. Burns, Blanche Adams of Wheeler, and Mrs. Lovella Otterbach.

Members present, in addition to the hostess committee that served punch and cookies.

Auxiliary Supports Legion Assisting Disabled Veterans

Full support of the American Legion Auxiliary will be given to the American Legion in efforts to prevent unjust reductions of government benefits to disabled world war veterans.

The program contains four points as follows: "1. That no war veteran disabled in line of duty suffer any reduction of those benefits granted such veterans in the world war veterans' act as in effect prior to March 2, 1933."

Remember that the program must work, actually is working, and support it whole-heartedly as a remedy for the crucial situation now facing the country.

MANY TEXANS ATTEND FAIR ON THEIR DAY

Texas Exhibit One of Most Heavily Visited Since Opening August 11.

BY RUTH COWAN. Associated Press Staff Writer. CHICAGO, Aug. 23 (AP)—Texas' day at a Century of Progress today found thousands of Texans, who have been arriving by special train, bus, automobile, and airplane, ready to make it an impressive event—as benefits the union's largest state.

The program begins in the afternoon with dedication of the Lone Star exhibit and concludes with a night presentation of "Aida" on the doorstep of the metropolis that long boasted of being the home of the world's finest opera companies.

Since the Texas exhibit opened August 11, it has been one of the most heavily visited in the hall of states and one of the reasons is rattlesnakes. The rattlers, scorpions, centipedes and tarantulas are attractively mounted in a desert scene together with a specimen of road-runner, a plucky bird that will fight its weight in rattlesnake any day.

Alamo Show. They are all dead, but not so are several horned lizards. Wiggling between the feet of the armadillos and over the tail of a rattlesnake, they return the stares of the sightseers.

As a background to all there is a large cactus plant design on black felt made of diamond back rattlers—and a neat inscription, also in rattlesnake tail tips, reading: "Texas pets."

A model of the Alamo, Texas shrine, where the entire garrison of 178 men under Col. William Travis was killed on March 7, 1836, is also on display.

Like-wise there is a reproduction of the Mission of San Jose in San Antonio as it was believed to have looked back in 1769 when its construction, which took nearly half a century, was completed by the Franciscan monks. The model was made by A. J. Madlen of San Antonio.

The exhibit walls are covered with paintings—cotton picking, Mexican and cowboy scenes—typical of Texas and the southwest. These were lent by the Texas Fine Arts association, the San Antonio Art league, the Edgar B. Davis collection and the Witte Museum in San Antonio.

Home runs by McNair, Higgins, and Finney helped the Athletics turn back the St. Louis Browns, 7-6, while the Chicago White Sox took two games from Boston, 8-1 and 4-0. Ted Lyons allowed seven hits in the opener and Joe Heving only six in the shutout.

Asked about it, J. R. Maxfield of Waco, one of the directors in charge of the exhibit, said they had one, which they intended hanging. The oil industry had its representation in a miniature oil field.

The color theme of the exhibit was mainly the state colors, orange and white. Here and there for decorative purposes were models of longhorn heads.

In the center is a mural portraying progress in Texas from the days of Bowie to the present. At the far end is a portrait of Gen. Sam Houston at the other a portrait of Mrs. William Henry Tobin of Austin, who headed the Texas world's fair commission to the Columbian exposition in 1893.

"3. That perpetuation of service connection for all veterans properly granted such service connection under laws in existence prior to March 30, 1933, be recommended as an item of Legion policy."

"4. That benefits provided for dependents of veterans as established in the world war veterans' act be resumed and maintained as the government's policy and that in no event shall widows and dependent children of deceased world war veterans be without government protection."

BRAVES TAKE 17TH VICTORY IN 21 GAMES

BOSTON CLUB IS SEVEN GAMES BEHIND NEW YORK GIANTS

BY HERBERT W. BARKER. Associated Press Sports Writer. Lightening seldom strikes twice in the same spot but national league contenders, harking back to 1914, are casting an apprehensive eye on the exploits of the Boston Braves.

There's still a long, hard struggle ahead of Bill McKechnie's hopefuls before they can rival the feat of the Braves of 19 years ago who climbed from last place on July 4 to win the pennant and then the world series in successive games from the Philadelphia Athletics. But it's not impossible.

Their fourth straight triumph over the Pittsburgh Pirates and their seventeenth victory in twenty-one games yesterday sent the Braves flying into second place, seven games behind the New York Giants, McKechnie's crew was in fifth place when their winning streak began 24 days ago.

Wally Berger's 22nd home run in the 14th inning gave the Braves their 5-4 decision over the Pirates yesterday and ruined what otherwise was an all but perfect job of relief pitching by the veteran Walter Hoyt. Going to the mound in the fourth after young Hal Smith had given way to a pinch hitter, Hoyt walked Al Spohrer, first man to face him. Then he set down 25 batsmen in order before Hal Lee singled with one down in the 12th.

Hoyt then got the next five men in succession but Berger broke up the ball game with none out in the 14th. Fred Frankhouse went the route for the Braves and allowed ten hits, blanking the Corsairs over the last nine frames.

Sharing the headlines with the Braves were the Detroit Tigers who snapped the 13-game winning streak of the Washington Senators with a thrilling 10-8 triumph.

A triple by Bill Dickey in the ninth followed by a single by Pinch Hitter Joe Sewell enabled the Yankees to nose out the Indians, 4-3. Vernon Gomez allowed only four hits and fanned ten.

Home runs by McNair, Higgins, and Finney helped the Athletics turn back the St. Louis Browns, 7-6, while the Chicago White Sox took two games from Boston, 8-1 and 4-0. Ted Lyons allowed seven hits in the opener and Joe Heving only six in the shutout.

Asked about it, J. R. Maxfield of Waco, one of the directors in charge of the exhibit, said they had one, which they intended hanging. The oil industry had its representation in a miniature oil field.

PAMPA TOPIC OF OUR CITY

Build Up that Skinny Child!

Enrich His Impoverished Blood

Sickly, weak, underweight children are usually lacking in rich, red blood. When blood becomes poor, a child becomes rundown. Already weak by less appetite, which makes him still weaker, take no chances on a child gaining strength by himself.

Put your child on this time-proven tonic for a few days and see the difference it makes in him. Good appetite, lots of pep and energy and redness in his cheeks. Children like Grape's Tasteless Chill Tonic and take it eagerly. It is absolutely harmless and has been a reliable family medicine for half a century. Get a bottle today at your store.

Dorcas Class Has Business Meeting

The Dorcas Class of Central Baptist church met Tuesday afternoon in the home of Mrs. L. A. Satterwhite. After disposing of business, members enjoyed a pleasant hour in conversation.

A refreshment course of sandwiches and punch was served to Mesdames O. C. Weakley, V. M. Harness, Keith Caldwell, D. L. Lunsford, Nat Lunsford, W. W. Hughes, L. C. Lockhart, W. Hardcastle, Owen Johnson, and the hostess' sister, Miss Mona Robinson.

LIBERALS IN TUNE

Necessary economic and social changes to fit modern conditions make it vital that the party in power remain liberal, however cautious it may have to be during later crises. The Democratic party, liberalized, can retain its dominance for a long time. An organization of rising power is the Young Democratic Clubs of America.

The younger men have caught the theory of the "new deal" and the clubs are amassing large memberships. A national convention will be held in Kansas City August 31, September 1 and 2. No ballyhoo is intended. The youngsters are keenly digesting modern theories. They will go back home to educate the folks.

Don C. Davis, of Midland, former Panpian, is spending a few days here.

MALADY HITS AT MUSKOGEE IN OKLAHOMA

GOVERNMENT EXPERTS WORKING TO LEARN ABOUT DISEASE

ST. LOUIS, Aug. 23 (AP)—S. lence rallied today to an intensified fight against sleeping sickness, mysterious malady which has killed 19 persons and attacked 182 others in St. Louis and vicinity.

A government expert rushed here from Washington and went to work in an attempt to determine if insects spread the disease. Meanwhile, as three deaths in the last 24 hours swelled the fatality list here to 18, the disease broke out in five other mid-western communities.

Deaths from this virus disease, which science knows so little about, have been reported at Wichita, Kan., Kansas City, Kan., and Warrensburg, Mo., while the illnesses of patients at Maryville, Mo., and Muskogee, Okla., have been diagnosed as encephalitis.

The seriousness of the epidemic in St. Louis and St. Louis county is reflected in the mounting list of fatalities.

During the last 25 hours the deaths of an elderly woman, a middle-aged man and a 3-year-old child brought the number of victims of the epidemic—in less than four weeks' time—to an equal with the fatalities in the Spokane, Wash., outbreak from 1919 to 1921, when nineteen lives were claimed, but in a three-year period.

Previously, the federal public health service had regarded the Spokane outbreak as the country's worst, but the number of patients there did not compare with those already ill here.

In addition to the deaths here, the number of reported cases has risen to 182, of which 145 are in St. Louis county and 37 in the city of St. Louis.

The United States public health service, recognizing the outbreak as the largest "ever reported in the world in any one given place," has dispatched a third scientific expert here.

Dr. L. L. Williams Jr., medical entomologist, joined Dr. J. F. Leake and Dr. Charles Armstrong, public health physicians who are aiding local authorities in an effort to find a cause, carrier, preventive or cure for the disease.

Reporting to headquarters in Washington that he felt sure the spread of the disease was not due to water, but that he wasn't certain he could exclude insects as a cause, Dr. Leake asked for Dr. Williams whose specialty is insects as disseminators of disease.

PROBES BROKER REPORT

WASHINGTON, Aug. 23 (AP)—Senator Thomas (D., Okla.) today asked Attorney General Cummings to investigate a telegram sent from a New York concern advising cotton brokers in the southern states to sell cotton short and stay short on the market.

Mrs. B. V. Wallis of Berger spent yesterday with friends here.

The HIDDEN DOOR

BY FRANK L. PACKARD

Chapter 25
THE FIRE

For a little time Colin lay there with his eyes closed, fighting for composure—but there was no composure—either mental or physical. And physically he was acutely conscious again of the brutal throbbing in his head; and conscious that the gag in his mouth had become a torture.

He looked around him again. The power house door was open, and he could see figures milling about in the lighted interior, and other figures grouped just outside the door. Dollaire had obviously got inside with some of his men, but there did not appear to be any fighting going on there. Dollaire's quarry evidently had taken refuge down below.

Something impelled him against his will to let his eyes rest again on the clubhouse door and the veranda. Kenniston was still sprawled there, head downward on the steps, but he was the victim of an hallucination. Lazzarre, who was lying half across the threshold was making an effort to move.

A minute passed. Twice Lazzarre attempted to gain his knees only to sink back again. Lazzarre at least was not dead.

A strange, vague hope came to Colin. Even though he was powerless to reach or aid the other, it was something to know that Lazzarre was not dead. It was not the end—not yet. Lazzarre was not dead. Mechanically Colin strained at his wrists again. No good in that. But there was no one to watch him now, and surely there was some way of getting the gag out of his mouth. His arms made a loop around the tree, but his legs were free.

He struggled to his feet, working his arms upward behind him. Then with the idea of dislodging the necktie that held the gag in place, he pressed the back of his head hard against the tree trunk, and began to rub vigorously on the necktie. There was a hole in the rat trap, as Christopher has phrased it, and the rats had emerged—only to run into Dollaire's men who, strategically placed, were waiting for them.

But Dollaire himself did not seem to be making much headway so far as the power house was concerned. He could see figures moving around inside, presumably searching for Bouchard's "elevator," or the way to operate it, and, outside the figures he had seen before were still grouped near the door.

He looked across again at the clubhouse door. Lazzarre had managed to shift his position a little and had drawn himself back—just over the threshold. Colin watched in bitter impotence for a few moments as the wounded man made a succession of feeble and unsuccessful efforts to retreat still farther—and then he abruptly turned his attention once again to the power house.

Something of moment was going on there now. Those inside were pouring out of the door, and, joining those without, were all running away to one side of the clearing. What was it all about? It wasn't that in some way the club "members" had got the upper hand, for there was still desultory firing going on in the woods on both sides of the power house and besides, Dollaire's men must outnumber the others by more than two to one.

Colin stared perplexedly while perhaps a minute, perhaps two, dragged by—and then the front of the power house seemed to budge suddenly outward, and there came the flash and roar of a terrific explosion.

The lights in both the power house and clubhouse went out. There was only the moonlight now. With an exultant yell, the crowd that had gathered at the edge of the clearing was rushing back again in the power house.

Colin remembered Larocque's contemptuous disposal of any difficulty that a trick opening in the cement floor might present. "We can blast the whole thing open," Larocque had said. That was what they had done, of course. They were swarming in and out like bees at a hive.

Colin circled his bruised lips with his tongue. What was it they were after in there? He couldn't see nearly so well as before. The blast obviously had wrecked the dynamo, and the interior was black except for what appeared to be the bobbing and wholly inadequate lights, like flitting fireflies, of a lantern or two. He could still make out Lazzarre though, a crumpled shape on the threshold of the club; the moonlight was sufficient for that, and—

A voice bellowed out, full-lunged, in French, from the direction of the power house, and carried distinctly across the clearing to Colin's ears.

"Get some more light here! Some of you take these cans of oil and spill them over the veranda, there, and touch them off. They won't need their club after tonight. It will make a good bonfire!"

MOST ALL STATES HAVE TAKEN STEPS TO FEED THEIR JOBLESS

AUSTIN, Aug. 23—Virtually all the states in the union with available credit or taxation sources of revenue have taken steps to match the federal government's relief work, according to a report prepared by the American Legislators' association and received here today by William Strauss of Houston, chairman of the committee campaigning for the proposed relief bond amendment.

California voters have authorized a bond issue of \$20,000,000. Maine is to vote on \$2,000,000 and Pennsylvania has submitted a bond issue of \$25,000,000 in addition to a like amount appropriated for relief work. New York voters last November approved a bond issue of \$30,000,000 and next November voters on an issue twice that size. Rhode Island is to vote on a \$3,000,000 issue.

Maryland has issued \$12,000,000 of state bonds to be used in relief work in the city of Baltimore. Nevada has issued \$100,000, New Hampshire has issued \$100,000 and Washington has voted \$10,000,000 to vote on, but financed by diversion of 4 of one cent per gallon gasoline tax.

Indiana has appropriated \$2,000,000 for relief and Oklahoma \$600,000 for "widows and disabled people

unable to work." Ohio has diverted \$2,000,000 gasoline tax money and Michigan from the same source authorized the use of between \$2,000,000 and \$4,000,000.

Kansas and Nebraska have levied mill taxes for relief work.

Illinois adopted a 3 per cent sales tax, which was held unconstitutional and a 2 per cent sales tax was then submitted.

General sales of gross income have recently been levied in Indiana, Nevada, New Mexico, North Carolina, North Dakota, New York, Oregon, Oklahoma, Utah, Vermont, Washington and South Dakota.

Personal income tax measures have been enacted in Alabama, Arizona, Kansas, Minnesota, Montana, and New Mexico, with corporate income taxes also provided in Minnesota.

Twenty-one states have levied a barrel tax on beer, apart from the license tax, and most of this will be used for unemployment relief. Those taxes range from 1 cent in Missouri to 15 cents a gallon in South Carolina.

"The only states that have done nothing to match federal aid," said Mr. Strauss, "are those bonds have no market value and are unable to

contribute anything. Texas can do its part and hold its head up among the sisterhood of states; we should be ashamed to do else."

That was Dollaire undoubtedly. Dollaire was the fox! Fox! The man was an incarnate—Colin strained forward involuntarily, wrenching violently at his wrists, as the full significance of what he had heard burst upon him. Set fire to the veranda! The whole club would burn like tinder. There was Lazzarre. He saw figures running toward the clubhouse, then a queer, spreading glow, then a flame. An inarticulate sound came from Colin's lips. He could do nothing. They had started the fire on the side of the veranda that faced the power house—but it was only a matter of time—not long—not many minutes—before the fire would catch the walls and creep around to the front.

Tomorrow, Germaine takes a hand in the dangerous game. (Copyright 1933, Frank L. Packard)

Indianan Beats State Champions At Trapshooting

VANDALIA, Ohio, Aug. 23 (AP)—H. L. Cheek of Clinton, Ind., who has been breaking clay targets for only three years, is the new champion of champions of the annual Grand American Trapshooting tournament.

Yesterday Cheek missed only three out of 200 to defeat 35 other state champions and state runners-up. John R. Taylor of Newark, Ohio, broke 187 out of 200 to win the North American doubles title for professionals and immediately returned to the traps to crash 197 and take the singles crown, held last year by Fred Tomlin of Glassboro, N. J.

The amateur doubles title went to P. J. Lightner of Cedar Rapids, Ia., who broke 187. Mrs. Walter P. Andrews of Atlanta, Ga., retained the women's doubles crown by breaking 87 out of 100.

The 10 high shooters among eastern competitors in the first two days of the tournament won from 10 high shooters of the west in a closely contested match, 1927 to 1925 targets.

The class championships were up for settlement today.

SIX BROKERS INDICTED

AKRON, O., Aug. 23 (AP)—The Summit county grand jury today indicted six former officers of the First-Central Trust company for misapplication of funds. The First-Central was Akron's largest bank at the time it failed to receive a license to reopen after the national banking holiday last March. The indictments named men who have been leaders in Ohio banking circles.

Mr. and Mrs. George Brown of Amarillo spent the day with friends in the city.

ern competitors in the first two days of the tournament won from 10 high shooters of the west in a closely contested match, 1927 to 1925 targets.

The class championships were up for settlement today.

ROADRUNNERS AND AMARILLO BATTLE TODAY

PAMPANS BEAT BLACK CATS OF BORGER 20 TO 8

The Pampa-Dancier Roadrunners got back into line again yesterday afternoon to defeat the Black Cats of Borger 20 to 8 in a Borger tournament contest. The Roadrunners returned to Borger today and this afternoon at 4 o'clock were to meet Skeet Gibson's Texas Theater Lions.

The Roadrunners collected 20 safe hits to score their 20 runs and on top of that played errorless ball. Of course, they had to have their one bad inning and it came in the seventh to net the Black Cats six runs on six hits.

The two "Whiteys" on the Dancier were really the "white-haired" boys of the game. Whitey Backus went to bat six times and collected four hits and two walks to give him a perfect day at bat. Whitey Vaughn also went to bat six times and got hit once, went out once and collected four hits including a home run, triple and two singles. McLary was the other big hitter for the Roadrunners with three doubles to his credit.

Terry, Borger first baseman and pitcher, also had a perfect day at bat with four hits, one a triple, in four times at bat. Rigdon was the other hitter with four singles in five trips to the plate. Costello started the game for the Roadrunners but was relieved by Bulla in the eighth. Lefty Dillon started for Borger but was driven from the mound in the first inning when the Roadrunners scored five times. Terry followed Dillon but gave away to Flemming who finished.

The Black Cats made their big bid in the seventh when the first four batters singled. The fifth man was safe on a fielders choice but number six singled. The next batter struck out but number eight singled to score the last of the six runs.

Score by Innings: R H E
Borger 000 002 600—8 16 1
Dancier 520 314 23x—20 20 0

BOXING WILL BE LEGAL IN EIGHT DAYS

Pampa Does Not Have Promoter at Present Time—Licenses Necessary.

Boxing will become legal in Texas September 1 and up to this time Pampa does not have a promoter. Boxing after that date will be under the department of labor with Jack Flynn as commissioner.

The sport will not be conducted on a shoestring basis as has been the situation in past years, when boxing matches were illegal. A promoter will be responsible to the state for every fight he sponsors and a local commissioner will see that all fights are on the square and that the boxers give their best at all times.

Every promoter, fighter, and manager will have to secure a state license through Mr. Flynn. Before staging a fight, the promoter in each city must pay a fee according to the size of the city in which he desires to promote fights. The fee for license in a city not exceeding 25,000 population is \$50. The fee in a city not exceeding 75,000 population is \$75 and for cities of more than 75,000 population the fee is \$200.

Before any boxer can participate in a fight he must pay \$5 for a license which will be good for one year in this state. The manager of each fighter must pay \$25 for a manager's license. The licenses can be revoked for violation of the state boxing code.

Competent referees will be appointed by the commission and will be responsible to the commission. They must see that the fights are

WAGGONERS TO ENTER HORSES IN RACE MEET

ARLINGTON DOWNS TO SEND \$35,000 MARE TO PANHANDLE

FOUR horses from Arlington Downs will be entered in the Southwest Race meet at Panhandle September 1-5 by the Waggoners, it was announced yesterday by Judge Asbery A. Callaghan of Panhandle.

Among the four from the DDD stock farm which turf fans of the Panhandle may see circle the fast track at the Carson county capital will be the sensational mare Nifty Nighty for which it is reported \$35,000 was paid.

The "up-and-coming" reputation of the meet is evidenced by the Waggoner entries. This is the first year in which the Arlington Downs has announced entries.

There are 25 horses from Goldthwaite, Texas; Dr. Foote has entered Foreign Relations and the good horse Billy Moore will take part from San Angelo. "Windy Bill" McElroy has four horses entered from San Antonio, among them Day Book and Blue Bell that has the Old Mexico track record. "Bill" has two other horses entered.

B. R. Ray is in from the north with "Jolly" that looks fit as a fiddle.

Bain from El Paso has six horses entered and they should give a good account of themselves. Fred Scott is on the ground with "Mexico" and he is ready any time to go. F. E. Buchanan, Thomas, Okla., has entered Big Indian, War Castle, Roy King, Ask John and Big Heart. Al Russell, Chicago, has entered The Chautau, Luke Jr., and Gleaming Star, while Tom Patterson, Hugoton, Kansas, has O'Boy, Blue June,

conducted fairly. A referee will have broad powers and must prove that he is competent before he will be appointed. Wrestling will also be handled in a similar manner and it is believed that the usual style of Texas wrestling, slugging, biting, kicking, etc., will be curbed.

Miles Marbaugh And Trenary Are Promising Hurlers

Pampa has two of the most promising young pitchers in this section in Larry Trenary and Miles Marbaugh. All the youngsters need is more training and they will be hard to defeat. To C. O. Busby goes the honor of uncovering the two youngsters.

Trenary, a little righthander, has a world of speed, a fast-breaking curve and nice control. He set what is expected to be an all-season record when he fanned 17 McLean batters in McLean two weeks ago and came back last Sunday and fanned 18 McLean batters. He started the season as an outfielder with the Indians and his hitting was a feature of all games. Later Busby tried him on the mound and he became a regular.

Elongated "Gomez" Marbaugh has the speed and plenty of curves but he lacks control and mound stance. With good training he is bound to make a real hurler. He can also hit the ball hard.

Entered the following silver cup winners: Prince McDonald, and Groul has entered the following silver cup winners: Norma Feavine G., Pollyanna G., My Astral Queen and others, including Blue Bonnet, Santa Clara, and Hazel Dawn.

Among the sensations which are entered are: Vagabond King, Halle-luhul Boy, Miss New Castle, Lady Luck, and many others from Amarillo. J. F. Ellis, Panhandle, has entered the following silver cup winners: Prince McDonald, and Groul has entered the following silver cup winners: Norma Feavine G., Pollyanna G., My Astral Queen and others, including Blue Bonnet, Santa Clara, and Hazel Dawn.
