## NRA CHIEF WILL GIVE BUSINESS TWO WEEKS TO SIGN ACT PLAN TO KEEP OIL AND PRODUCTS PRICES IN FIXED RATIO IS CONSIDERED

**TWINKLES**  
Magnificent nonchalance: Two women standing in the middle of a local street talking earnestly and long while cars swept by on both sides.

If you don't like some feature of NRA, it may be safer to tell General Hugh Johnson than your next door neighbor. The bigger a plan, the bigger the explosion if you cause it to fail.

In order to give 40-hour workers a chance to use their leisure, it might be wise to have a city playground for adults. A few municipal tennis courts would be very, very acceptable.

Gray county commissioners are hunting a better type of highway than is seen in this section. It is a wise search; there is ample evidence that we moderns know little more about road building than did Caesar.

The West Foster grouch, conceding that the NRA might help us out of the depression, wants to know who will get us out of the depression that we may be in when we start paying the cost of getting us out of this one.

Just confidentially, we'll say that when we figure out how Mr. Roosevelt gets all this new deal into his head we will confidently tackle the task of squaring a circle.

### MACHINE GUNS

Roswell was enormously aroused when a deputy was shot to death attempting to arrest desperate outlaws. The county commissioners have just purchased two sub-machine guns and plenty of ammunition for practice. Lack of preparedness probably cost one life. But the next bandit hunt will be different. Roswell has set a good example. Pampa and Gray county officers are not properly armed either as to guns or as to ammunition for practice. They, frankly, are not equipped to "take" a desperate machine gun bandit or kidnaper. In the Oklahoma City kidnaping, the abductors used two machine guns. President Roosevelt is taking long steps to stop crime. Proper arming of officers with sub-machine guns and gas is going to be necessary to put fear into the well-equipped offenders.

### A WATER MYSTERY

The difference in the amount of water pumped by the city water department and that recorded on the books as official or revenue-producing consumption is worth a lot of study. Inasmuch as there are many destitute residents in the city who can barely scrape enough money together to pay their water bills, it would seem far better to stop this huge waste and give free water in certain instances than to let the condition continue. Perhaps the water leak detector manufactured to find leaks in old, deeply submerged mains will get at the source of part of the trouble. With the power bill for pumping constituting a major cost, a reduction in leakage would amount to a reduction in the power expense.

### TWO FACTIONS IN AGREEMENT REPORT SAYS

#### GASOLINE WOULD RISE WHEN CRUDE PRICE MOUNTS

WASHINGTON, Aug. 4 (AP)—A compromise proposal from the oil industry on price regulation, suggesting that crude oil and petroleum products be kept in a fixed ratio, was under consideration today by the recovery administration as it set about writing a final draft of a trade code for the industry.

Hugh S. Johnson, the industrial administrator, with the statement "I cannot conjecture on what may be done" declined to intimate whether the suggestion of a price ratio provision would be written into the trade plan.

He said it was under consideration and that it was being analyzed by technical experts of NRA in their work of drawing up a code.

As explained, the compromise would stipulate that as retail prices of petroleum products moved up, the price of crude oil would have to go up in the same proportion and conversely as retail or crude prices decreased the other end would have to go down.

The suggestion was made to Johnson by several leaders within the industry seeking a compromise acceptable to the advocates of price fixing and price regulation and factions strenuously opposing price control.

The ratio proposal was understood to be acceptable to those favoring price regulation to protect the industry and the consumer.

Recovery officials indicated that from a week to ten days might be needed to write the final draft of a code for the petroleum industry and said that leaders of the industry would be called in to look it over and discuss it before a definite recommendation was sent along to President Roosevelt.

The Shell Petroleum company this morning gave employment to be between 30 and 40 new men and adopted a six hour day or 36 hour week in compliance with the NRA code. Most of the men given work were former employees who had to be let off a year or two ago.

Many other companies have signed NRA agreements, but are waiting for the oil industry to get together before complying. Most of them are ready to place men to work and shorten hours immediately upon notice.

Hundreds of unemployed oil men will be given work in the industry this month.

### May Peterson Suffers Broken Leg at Hotel

AMARILLO, Aug. 4 (AP)—May Peterson, concert singer and wife of Ernest O. Thompson, member of the Texas railroad commission, sustained a broken leg today when she fell in her room garden atop a local hotel.

The ladder rung on which Miss Peterson was standing to prune some of her plants broke and dropped her several feet to the roof.

### Mattern Given New York Tribute

HIS ATTEMPT to circle the globe ended in a crash in Siberia, but New York honored Jimmy Mattern for his good try. Here the young Texan is shown waving to the crowds outside New York's City Hall after receiving an official welcome by Mayor John F. O'Brien.

### ILLEGAL USE OF NRA INSIGNIA WILL DRAW PROSECUTION WHEN SURVEYS OF FIRMS ARE MADE

Blue Eagle Cannot Be Flown on Promise To Conform

WHILE most Pampa business houses are flying the blue eagle of the NRA, it is becoming increasingly evident to officials of the local recovery administration that many firms are not yet eligible to use the insignia.

Developments downtown show that steps will be taken to remove fraudulently displayed placards, even by padlocking offending firms, if necessary. The state department of labor is cooperating in this.

Locally, it is believed that citizens are wholeheartedly supporting the president's program but that many of them failed to read what they signed. The blue eagles are not to be used until firms HAVE ACTUALLY PUT INTO EFFECT THEIR HOUR AND NEW EMPLOYE agreement. The blue eagle is not an evidence of any promise, expectation, or intention—it means that the firm has ALREADY complied. Until readjustments have been made, no firm is eligible to sign the certificate of compliance and receive the insignia.

The "military" unit of the recovery administration here will begin soon its canvass of firms and investigation as to what has been done.

Although the supply of window cards of NRA is exhausted, the postmaster will take the certificate of compliance and firms will be able to let patrons they are in line. The consumer campaign will start soon, but merchants are reporting that housewives already are looking for the blue eagle before entering a store.

There were 219 signers up to noon here today.

### Hurricane Hits Coast of Texas

BROWNSVILLE, Aug. 4 (AP)—A tropical disturbance of moderate intensity apparently was passing inland some 60 or 70 miles north of here at noon today, according to W. J. Schnurbush, in charge of the weather bureau here.

The barometer at Brownsville stood at 29.61, a decided drop since 11 a. m., and the wind was blowing steadily from the northwest, indicating that the storm was passing inland, the weather observer said. The wind velocity here was 35 miles an hour.

### ROOSEVELT IN COAL AREA TO SETTLE STRIKE

#### PRESIDENT WANTS THE MINERS TO GO BACK TO WORK SOON

WASHINGTON, Aug. 4 (AP)—The H. C. Frick Coke company, a United States Steel corporation subsidiary, agreed today to terms for settlement of the Pennsylvania bituminous strike which started at its Fayette county mines.

BY F. M. STEPHENSON  
HYDE PARK, N. Y., Aug. 4 (AP)—President Roosevelt went directly into the Pennsylvania coal strike situation today, receiving a report from Gen. Hugh S. Johnson, industrial administrator, and talking things over with him.

Mr. Roosevelt designated Johnson and Miss Frances Perkins, the secretary of labor, to make a special study of the coal strike.

While there is doubt about just what the federal government can do in the way of bringing peace in the coal fields, there is no doubt that the president wants this done just as quickly as possible.

The president is determined to smash any interference with his national recovery program and is relying on the judgment of Johnson to find the facts in the troublesome Pennsylvania coal situation.

WASHINGTON, Aug. 4 (AP)—Two weeks leeway was decreed by Hugh S. Johnson, recovery administrator, today before sanctioning pressure on business and industry to comply with President Roosevelt's blanket wage and employment agreement.

In conferences with newspapermen, the administrator said a period of time was necessary for business houses to adjust their personnel to new wage and hour levels, and until this transitional period is ended "the public must be reasonable."

At the same time, Johnson warned that no "recalcitrant minority" would be permitted to hold up the recovery program.

Asked if there was a likelihood of the "teeth" of the recovery act being utilized if small groups did not go along on the program within their industries after a specific code has been adopted, Johnson said:

Public Opinion Enough.  
"It's not a likelihood, it's a dead certainty."

He added, however, that the whole aim of the act was to avoid the use of compulsion.

No police organization in Washington to prevent violations of the president's agreement by businesses which have indicated compliance and obtained the blue eagles is contemplated.

Johnson said this would be left to public opinion in each community and he added "that will be enough."

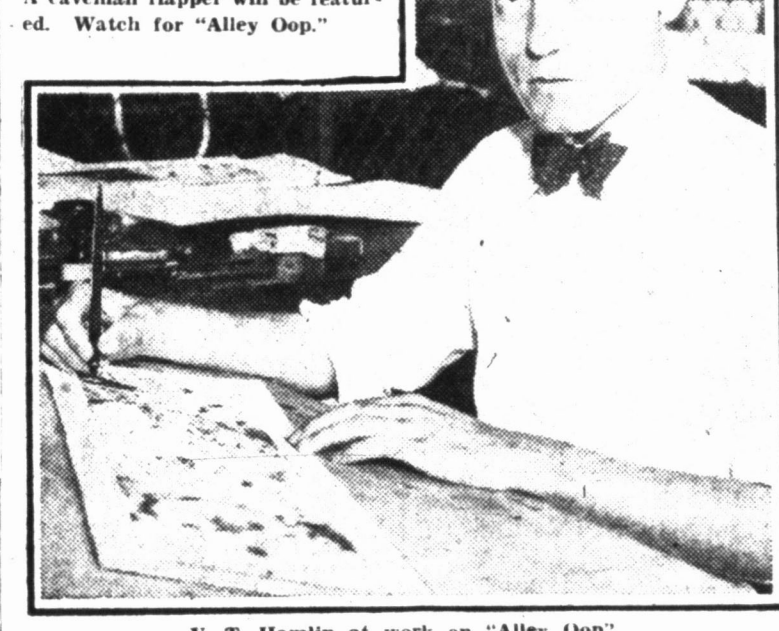

Asked if 5 and 10 cent chain stores would be given a separation from the already existing retailers code so that they could operate on a different hour and wage basis, the administrator said "No!"

The "teeth" in the industrial act comprise the power the president has to license industries. If some concerns refuse to abide by a code adopted to cover their field, Mr. Roosevelt could refuse to license them to do business.

PIONEER DOCTOR DIES  
AMARILLO, Aug. 4 (AP)—Funeral services for Dr. E. A. Johnston, 83, pioneer Amarillo physician, will be held here at 4 p. m. Saturday. He died at a local hospital yesterday.

### Old Fossils To Cut Capers In NEWS Columns

"ALLEY OOP" is coming to The NEWS beginning Monday in one of the funniest and most interesting comic strips ever seen. It's a brand new idea. Prehistoric animals and people entertain you. A caveman flapper will be featured. Watch for "Alley Oop."

V. T. Hamlin at work on "Alley Oop"

OLD fossils—not some people you have met—but those scientific finds that reveal the life on this earth a million years ago, gave V. T. Hamlin the idea for a different kind of comic which will start in The NEWS Monday.

The result is "Alley Oop," a new comic strip that is guaranteed to draw at least a smile from modern old fossils. For his characters Hamlin practically dug up "Alley Oop," the cave man; "Dinny," his pet dinosaur, and other cave men and animals of the same prehistoric period. There is even a pretty cave flapper.

In this setting of ages ago, he offers burlesques humorous modern situations. Mr. Hamlin has made a thorough study of the prehistoric and his sketches of the past are educational, because they are pictorially correct. However, the main purpose of his comic is to be comical—to amuse newspaper readers.

Mr. Hamlin is from Iowa, where the corn is supposed to grow as tall as the dinosaurs of his comic. Born in 1900 at Perry, Ia., he began drawing at an early age. After grade and high schools, he enlisted in the army and went overseas at 17.

### La Guardia Is Chosen To Make Race For Mayor

NEW YORK, Aug. 4 (AP)—Fiorello H. La Guardia was chosen today as mayoral candidate by forces seeking to drive Tammany from city hall this fall.

A "peace" meeting of fusionists, comprising republicans and other foes of the democracy, picked the former congressman.

The choice of La Guardia, a non-organization republican, was a victory for Samuel Seabury, independent democrat whose investigation resulted in the resignation of James J. Walker, Tammany mayor.

Maj. Gen. John F. O'Ryan, candidate of former Governor Charles S. Whitman and others, withdrew in the interest of harmony.

Minimum rates of pay for female labor were set at \$1.25 per week in the eastern area; \$6.30 in the southern area; \$9 in the southwest area, and \$10.12 in the northern area. For male labor the minimum was set at \$18 in the east; \$9 in the southern area; \$14.40 in the southwest, and \$15.75 in the north.

### TWO TEAR GAS BOMBS CLEAR BIG BUILDING

#### PERSONS UNKNOWN PUT CYLINDER IN INTAKE OF VENTILATOR

NEW YORK, Aug. 4 (AP)—The New York stock exchange was forced to close early this afternoon when fumes, which the exchange said had apparently come from explosion of two tear gas bombs, flooded the lower floors of the big building.

The fumes were at first believed to have come from a leaky ammonia pipe in the exchange's air cooling system, but after a hasty examination exchange officials thought that gas bombs had been tossed into the ventilating apparatus.

A hasty check-up of traders and clerks who had been on the floor, as well as of persons in offices on upper floors of the building, disclosed that no one had been seriously injured, although many persons were suffering from badly irritated eyes.

The fumes blew up through the first four floors which were ordered evacuated and also swept into the streets at a time when the stock exchange district was thronged with the noon day crowd.

Trading on the exchange was immediately suspended for the balance of the day.

Police reserves and emergency squads were rushed into the district and held back the milling thousands while the affected floors of the exchange structure were cleared.

Members of the exchange's own police force donned gas masks as soon as the fumes were felt, about 12:15 o'clock, and groped their way through the lower part of the building searching for the supposed leak in the air-cooling system. A quick investigation revealed that two tear gas bombs had been thrown into an open ventilating pipe.

The financial district had not had such a flurry of excitement in years and business affairs were forgotten throughout the downtown section as thousands of office workers swarmed toward the corner of Broad and Wall streets.

Allen L. Lindley, vice president of the stock exchange, announced shortly after 1 o'clock that "investigation had disclosed that unknown persons had placed a cylinder containing tear gas bombs at one of the intakes" of the ventilating system.

Clifford Jones and Committee Meets Secretary

SAN ANTONIO, Aug. 4 (AP)—Regional Director Clifford B. Jones and four members of the regional board which will supervise the expenditure of millions of dollars in federal public works funds in this section, laid organization plans in a secret meeting here today.

Attending the meeting were Jones of Spur, Texas, and all four members of the advisory board: C. A. Goeth of San Antonio, John Shary of Sharyland, Colonel Ike Ashburn of Houston, and R. M. Kelly of Longview, Texas.

It was the initial meeting of the group, and it was expected that a central headquarters city and cities for the location of branch offices would be selected. Election of a permanent chairman was also scheduled.

Gray county commissioners will meet as a board of equalization beginning Monday.

### A MISSION WITH PROBLEMS

It is rather refreshing in these troublous times to find Ras Desta Demtu, prince of the royal house of Abyssinia, son-in-law of Emperor Haile Selassie—the Conquering Lion of the tribe of Judah, the Elect of God and the Light of the World—confessing to an ambition to establish an amusement park in his far-off homeland.

The prince came to America as the official envoy of his much-titled sovereign, and he did not take lightly his official duties. He called on President Roosevelt and dined in state at the White House. He met all sorts of notables, and saw everything big and grand that America has to offer, including cathedrals, skyscrapers and factories. But he was mostly interested in the Palisades amusement park in New York.

There the prince had a good time, despite his dignity and his gorgeous raiment and his retinue. He enjoyed the fun devices, particularly the shooting gallery, the freaks in the side show, and the roller coaster.

It is true that Abyssinia isn't any great shakes as a nation, but what it lacks in world importance it makes up in dignity and pomp and ceremony. Incidentally it is the only sizeable part of Africa that has been able to keep out of the clutches of the western world, so apparently the arts of statecraft are not unknown.

But the prince didn't make any high-flown speeches about modernizing his somewhat primitive country, for apparently he and his ruler-kinsmen have no desire to ape the way of the western world. And he didn't have a lot of problems to get off his chest to add to the bewildering array that have been dumped on these shores by envoys of other nations.

No, the prince saw all the grandeur of New York—and reached the conclusion that a good amusement park to provide diversion for his fellow-countrymen would be a most desirable thing. Many will believe that the mission of this descendant of King Solomon was veritably a success, as few missions are.

Danville (Ky.) has a farmer who claims he can yell so loud that he can be heard more than six miles away. Shucks! When wheat was 40 cents all the farmers yelled so loud it was heard in Washington.

We're not out of the woods yet. Gen. Johnson warns us. Well, who cares? Just think what swell woods they are going to be when the conservation boys have worked on them a little longer.

Nudism is on the increase in this country, an investigator finds. Probably just because so many people have lost their shirts.

# MRS. S. A. BURNS HEADS NEW OFFICERS OF LEGION AUXILIARY

## WILL GO WITH RETIRING HEAD TO CONVENTION

NEWLY ELECTED BODY TO TAKE OFFICE NEXT MONTH

Mrs. S. A. Burns was elected president of the American Legion Auxiliary for next year, in a business meeting conducted at the Legion hut last evening. She will succeed Mrs. W. C. de Cordova.

Mrs. Burns and Mrs. Cordova were named delegates from Pampa to the departmental convention of the Legion Auxiliary at Wichita Falls August 26. Mrs. J. A. Pierson was elected alternate.

Other officers chosen for the year were Mrs. R. H. Kitchings, first vice president; Mrs. Roy Sewell, second vice president; Miss Grace Pierson, secretary and treasurer; Mrs. A. Lawson chaplain; Mrs. L. D. Blasingame, historian; Mrs. G. E. Holsenbeck, sergeant at arms.

This corps of leaders will take office in September. Plans were also made at the business meeting for a joint picnic with the American Legion on August 17. Members of both organizations, with their families, are invited for the fried chicken lunch.

Members present were Mesdames E. S. Hogselt, Ralph Thomas, Katie Vincent, Frank Wallace, W. M. Voyles, Hoyt Allen, Ray Anderson, Pierson, Lawson, Kitchings, Burns, Blasingame, Holsenbeck, and Sewell.

**AMENDMENTS ARE STUDIED**  
Constitutional amendments to be voted on August 26 were discussed at the Pampa Lions club yesterday by Sherman White, county attorney.

The study of the amendments will be continued next week, with emphasis upon the proposed state bond issue for the relief of the jobless.

Mrs. W. H. Davis is doing nicely in Pampa hospital following an operation for appendicitis.

## UNIQUE BIBLES ARE DISPLAYED DURING SERMON

Vawter Shows Bible As Treasury Of Stories

"Why I love the old book" was the subject of Dr. C. R. L. Vawter's sermon last night at the First Christian church. There was a fine display of old and unique Bibles, brought by different people. Among others, was an old Bible that had been in the Ledrick family for 102 years. There were Bibles in many different languages making an intensely interesting display.

"I love the Bible because it is the most interesting book in the world," said the evangelist. "Perhaps you think the Bible is not interesting. That is because you have not read it. Who would get interested in a book if they just picked it up once a week and read a page here and there? No matter what kind of a story you want, you will find it in the Bible. If you want a love story, it is there. If you want a war story, it is there. The best stories in the world for children are in the Bible. Tell them the story about the little red-headed boy who killed a giant eleven feet tall and married a princess, and see if they are not interested."

**Humanity Picture.**  
"I love the Bible because it is the album of humanity, and contains my picture. Did you ever deny your best friend when he needed you? So did Peter. Did you ever turn from a sinful life to follow the Master? So, too, did Mary Magdala. No matter who you are, or what you are, you will find your picture in the Bible."

"Another reason for loving the Bible is that it contains the most beautiful literary productions of all time. Do you want a poem of sadness? You will find it in the Bible. It contains poems of hope, of majesty, and of beauty."

"Lastly, I love the Bible because it is the only book that will comfort me when my loved ones are taken away or take away the fear of death when I am called to go."

Tonight the evangelist party will

## AMBITIOUS PROGRAM OF THE TREBLE CLEF YEAR INCLUDES NEW COURSE IN MUSIC STUDY

OUTLINE APPROVED IN EXECUTIVE BOARD SESSION

A COURSE of study in music, in addition to their choral program will be undertaken by Treble Clef club members next season. A program outline submitted by the yearbook committee was approved by the executive board in a meeting yesterday.

Mrs. Philip Wolfe, club president, was hostess to the board at her home. Mrs. J. W. Garman, who served on the yearbook committee with Mrs. L. N. McCullough and Mrs. Sam Irwin, reported for that body.

**Public Programs Listed.**  
The study course will be on miscellaneous musical topics, including biography of musicians. Choral work will be stressed, as it has in past seasons when the club chorus has become one of Pampa's outstanding musical organizations. Several public programs have been scheduled for the season.

This ambitious program will be launched September 13, with a reception at the city club rooms which executive board members will be hostesses.

Mrs. Wolfe served apricot ice and cake after the business meeting yesterday to Mesdames J. F. Curtis, W. A. Bratton, Carl Sturgeon, and Garman. Other members of the board were out of the city.

## Parents Urged To Get Free Toxoid

Immediate response to the offer of free diphtheria toxoid for children whose parents cannot provide it, is urged by Mrs. J. M. Turner, president of Horace-Mann-Parent-Teacher association. The toxoid is being provided through P.-T. A. units of this county.

Children should start at once to take the toxoid, as the offer expires September 13, Mrs. Turner explained in urging parents in her district to call promptly for their permit slips. These slips are to be filled out and presented to the family physician, who will administer the toxoid.

Mrs. Turner, 816 West Kingsmill, is in charge of the work for her school. Other Parent-Teacher presidents are directing the immunization program for their units, and will furnish the slips to parents who call for them. Children under 10 years of age are eligible, Mrs. Turner said.

Toxoid for this program is being furnished through cooperation of the state department of health, as a part of the summer health campaign of Parent-Teacher associations over the county.

## Dime Unpaid And Babies Unclaimed From Young Nurse

NEW YORK, Aug. 4 (AP)—Catherine Kearns, just eight years old and not inclined to spurn an offer of ten cents to watch two little babies for ten minutes.

A lady pushing a perambulator in front of Fifth avenue hospital at tea-time last evening stopped Catherine. She said she would give her a dime if she would watch the children just long enough for the lady to go into the hospital for a drink of water.

Catherine watched the babies—one four months, the other eighteen months old. The ten minutes passed—a half hour—an hour. The lady hadn't come back. Catherine was getting tired, and she was late for supper. Still, one cannot leave two little babies.

She sat down on the curb. Then she got up and looked to see if the babies were all right. Then she sat down again. It was very hot, and she was very hungry.

Two hours passed—three, four; the lady had not returned. Catherine began to worry about getting her dime, about getting her supper, and about getting a spanking for staying out so late. Why didn't the lady hurry?

A policeman questioned the child. The babies were taken to the police station and then to a foundling hospital.

Catherine went weary home. It was an arduous evening for ten cents, especially when she didn't get it.

# THIRTY TENNIS PLAYERS ENTER CITY TOURNEY -- MORE ENTRIES EXPECTED

## DEADLINE FOR ENTERING SET FOR TONIGHT

### MEET OPEN TO PAMPA AND OIL FIELD WORKERS

Tonight will see the closing of the entry list for the City Tennis tournament which will get under way Monday. The tournament will be open to men and women in Pampa and the surrounding oilfield camps. There will be junior and senior divisions in both classifications with the age limit for the junior division 27 years. However, older persons may enter the junior division.

Dave Bauer will be at the Richards Drug store on West Kingsmill until 10 o'clock tonight and will take applications and entry fees up to that hour. Drawing for opponents in each division will take place Saturday and the names will be published in The News Sunday.

It has been decided to have singles and doubles in both the men's division and singles in both the women's divisions. However, if there are enough women entries the tournament committee may also have doubles play for women.

Thirty players had paid their entry fee of 25 cents for each type of play up to last night. Some of the players entered both singles and doubles.

Four courts will be available and entrants will be given three days to play each match. City champions will be declared in each division and class by the winner of the junior section playing the winner of the senior section. There will be prizes for the winners and also for the champions.

The tournament committee will supply balls for semi-finals, finals and championship play and The News will supply the officials for the same games.

Mrs. L. R. Hull of White Deer shopped here yesterday afternoon. E. J. Braxton of Exum is a Pampa visitor for a few days this week.

Dub Williams made a business trip to LeFors yesterday.

## U. S. FAVORED IN NET MEET

### American And British Women Begin Battle Today For Wightman Cup

FOREST HILLS, N. Y., Aug. 4 (AP)—Her bid for the Davis cup ended for another year, America called upon her women stars to hold the Wightman cup against the challenge of Great Britain in a two-day test, opening today on the famous courts of the West Side Tennis club.

The American team, led by Helen Wills Moody, ruled a slight favorite to win the series for the third year in succession and for the seventh time since the cup was offered for competition in 1923. Great Britain has won the cup four times.

In point of experience the American squad holds a big edge for only Alice Marble of Sacramento, rising young singles player, is a newcomer to Wightman cup play. Mrs. Moody has been an ever-cup team except that of 1927. Helen Jacobs on the last six and Sarah Palfrey on the last three.

Only Betty Nuthall and Dorothy Round of the British team have played in the series previously. Mary Heeley, Freda James and Margaret Scriven all being newcomers.

Except to concede Mrs. Moody two victories in singles, expert observers found little data on which to base a prediction of the outcome of the other five matches. In the past the United States has shown its principal strength in singles and Great Britain in doubles and that may hold good again.

Today's program called for singles matches between Miss Jacobs and Dorothy Round, the British star who astonished the tennis world by taking a set from Mrs. Moody in the Wimbledon finals, and between Mrs. Moody and Margaret Scriven, winner of the French hard court title this spring. The remaining match, in doubles, pitted the American champions, Miss Jacobs and Miss Palfrey, against Miss Round and Miss Heeley.

## Paperhangers And Painters Fix Prices

The painters and paperhangers of Pampa met at the Fox Paint and Wallpaper store last night and agreed on a code to be submitted to headquarters. C. W. Lawrence was elected president and T. E. Darby secretary.

A price scale of 75 cents per hour for painting and 25 cents per single roll for paperhanging was set and submitted in their code.

R. G. Lehnick of Groom visited friends here Thursday.

Urban Miller of Skellytown was a Pampa visitor last night.

## GROVE SHUTS OUT YANKEES AND A'S WIN

### YANKS FAIL TO SCORE FOR FIRST TIME IN TWO YEARS

By HUGH S. FULLERTON, JR., Associated Press Sports Writer Robert Moses Grove, left hander of the Philadelphia Athletics, today had another battered baseball to add to his collection of souvenirs.

Yesterday Grove shut out the New York Yankees, accomplishing a feat that had eluded every other American league hurler for two years and breaking a record standing of 308 consecutive games in which the world's champions had scored a run or more. It was a personal triumph for Grove, who had 6,000 New York fans cheering him on when the last out was made and the A's had won 7 to 0, he turned to Max Bishop and demanded the ball.

The brilliant southpaw received considerable aid from Ben Chapman, manager of the Yankees, who committed a gaudy error in the third and handed the A's two runs, and from Homer Fox who eluded his 30th homer with two on, but it was his own ability to bear down in the pinches that decided the issue. He gave only five hits and twice retired Babe Ruth and Lou Gehrig with runners on the sacks, fanning the Babe each time.

The defeat put the Yanks three games behind in their race with Washington for the American league lead as the Senators beat the Boston Red Sox, 8 to 4, clouting five pitchers for 14 hits.

The Athletics, in third place, still failed to shake off the fourth place Cleveland Indians, only a game behind them, scoring four runs in the ninth to beat the St. Louis Browns, 7-2. The Detroit-Chicago struggle for fifth place was put over until today because of rain.

The Chicago Cubs and St. Louis Cardinals, third and fourth respectively in the National league both threw in second settings. New York Giants and Pittsburgh Pirates. The Cards smacked Bill Swift for four runs in the fifth and sixth just before a heavy rain cut the contest short, and defeated the Pirates 4 to 1.

Charley Grimm, Chicago manager, hit his first homer of the season, in the eighth inning of a mound duel between Guy Bush and Paul Derringer to give the Cubs a 2 to 1 victory over Cincinnati. The Reds had another severe blow when George Grantham, star infielder, fractured an ankle sliding into third in the seventh.

The Boston Braves beat the Brooklyn Dodgers 3 to 0 as Tom Zachary allowed only two singles and didn't let a Brooklyn runner get past second.

The Giants-Phillias game was postponed on account of threatening weather.

Mrs. O. D. McClentock and daughter, Lorene, are visiting friends here this week.

## TINY ACE TO PLAY SHIELDS

### Bryan Grant, Ranked 13th, Whips Mangin, 7th, But May Lose to Shields

SOUTHAMPTON, N. Y., Aug. 4 (AP)—For the second time in a week, Bryan Grant's giant-killing tennis accomplishments today had earned him the doubtful reward of a semi-final round meeting with big Frank Shields.

Seven days after he had eliminated Sidney B. Wood from the Seabright championship, the tiny Atlantan blasted Gregory S. Mangin of Newark, National Indoor champion and third-seeded player, in the quarter-finals of the Meadow club's invitation tournament yesterday, only to find Shields once more blocking his way to the finals.

But whatever his luck in his second clash with Shields, the five-foot-four-inch southerner can point with pride to victories over two of his country's "first ten" in the span of a single week. Ranked 13th nationally, Grant beat the fourth ranking player when he conquered Wood in straight sets at Seabright and the seventh when he downed Mangin, 6-3, 6-3, 6-8, 4-6, 6-3.

But despite his excellent showing against Mangin, Grant seemed in for another trimming from Shields who has been playing magnificent tennis the last three weeks. The big New Yorker beat Grant at Seabright, 6-3, 6-4, 6-3 and then went on to conquer Mangin in the finals. Yesterday he was in top form as he trounced John McDiarmid of Port Worth, 6-3, 6-5, 7-5.

(The other semi-final pitted Wood, defending title-holder against Frankie Parker, youthful holder of the National Clay Courts crown. Parker won easily from Jack Murphy of Uden, N. Y., in the quarter-finals, 6-1, 6-1, 6-4, but Wood was hard pressed by Jack Tibball of Los Angeles, intercollegiate champion, but won 4-6, 6-2, 3-6, 6-0, 6-4.

# CUBAN PROTEST STRIKE THREATENS TO PARALYZE COMMERCE

## STRIKERS LIST OF 20,000 IS GROWING FAST

### GOVERNMENT PLANS TO INSTITUTE MARTIAL LAW

HAVANA, Aug. 4. (AP)—President Machado signed an edict today describing the transportation strike, which now threatens the city's regular sources of food supplies, as a "sedition" movement. He threatened to suspend constitutional guarantees again and to declare martial law and a state of war unless the strike is brought to a quick end.

HAVANA, Aug. 4. (AP)—The Cuban government threatened to institute martial law today to prevent a strike of taxi drivers, bus men, and streetcar workers from growing into a general paralysis of commerce throughout the island.

From the protest ten days ago of a few omnibus employees against what they called exorbitant fees for operating permits the movement has increased so swiftly that many transportation arteries as far east as Camaguey province were blocked, a definite movement was under way to enlist railroad men and other tradesmen talked of striking for various reasons.

It was estimated that 20,000 strikers in various walks failed to go to work today.

Two hundred fifty employees of the United Railways broke with the National Railway Brotherhood, which had made no move to support the strike, formed their own provisional brotherhood, elected officers, declared for the strike in principle, and prepared to spread that gospel to fellow workers throughout the island.

Hope for an early settlement of the crisis died, and the belief was freely expressed that it would develop into an island-wide movement, as directors of the Havana Motorists' and Conductors' Union decided to continue today also the street car strike which had been called for yesterday only.

The movement, meanwhile, went beyond the bounds of the transportation industries, and Havana wandered how long would be able to get bread, meat, milk, and other necessities.

The syndicate of graphic arts, including printers, stereotypers, engravers, and operators of typesetting machines, announced its members would strike Friday noon.

Ununionized meat dealers announced they would handle no more meat from the "trust." Dairy men prepared to go out. Bakers discussed letting their ovens grow cold. The union of retail men polled its membership on the question of a general strike. Street vendors parked their carts and quit last midnight. Dock workers also quit then, and no launches or ferries chugged back and forth across Havana bay. Nearly all filling stations in Havana ceased selling gasoline.

There were rumors that other trades and professions might be involved.

Services in the Nazarene revival are being moved indoors until the end of the cool, rainy weather, J. P. James, pastor, announced today. The revival began in an open air tabernacle.

The Rev. H. A. Gregory of Dallas is preaching each evening, and will continue his sermons in the church building. The public is invited to attend the services.

Danny Jones of Charleston, S. C. set a new record to win the annual five-mile Ashley and Cooper river swim at Charleston in 1:52:14 2-5, or 33 minutes and 21 seconds better than the old mark.

# NRA OUTRUNS OFFICIALS; INVENTORY PLANNED

## OVER HALF OF WORKERS HAVE NEW BENEFITS

### NEW JERSEY TOWN IS FIRST TO GO 100 PER CENT NRA

BY JAMES COPE, Associated Press Staff Writer.  
WASHINGTON, Aug. 4 (AP)—The six weeks old industrial control movement for higher wages and shorter work hours has spread so far over the American map that officials directing it admit today it has outrun their realization.

They are planning soon a stock-taking to measure in terms of new jobs and wages increased for those now at work the actual results obtained.

All over the land, the work went on—a drive for shorter hours, more pay, more jobs. Officials, declaring the campaign was outrunning their realization, said that possibly more than half of the industrial and business workers have already received the NRA benefits or are within immediate reach of them.

As the campaign got up steam, emphasis was laid on suasion rather than coercion, but in three Michigan communities there were threats of violence against stores failing to close at 5:30, as decided upon by most retailers there.

Hazbrough Heights, N. J., was listed at Washington as the first town to go 100 per cent NRA. One New York concern, saying NRA membership would cost it \$1,000,000 annually, called it a "good investment," officials said.

There were some complaints that employers were not living up to their NRA agreements. In New York, officials said they would be investigated and acted upon, if warranted. They said the government has "ample means" to induce compliance.

Complaints Made.  
YOUNGSTOWN, Ohio, Aug. 4 (AP)—Complaints have been received at NRA headquarters that employers in increasing numbers are posting the "blue eagle" but failing to carry out recovery provisions. One complaint said a restaurant proprietor boosted waitresses' wages from \$6 to \$13.50 a week but charged them \$1 a day for their meals and hiked menu prices.

HOUSTON, Aug. 4 (AP)—Ernest L. Tutt, in charge of the department of commerce headquarters here, estimated that 42,987 agreements had been signed in Texas by employers participating in the national recovery program. It was estimated a total of 193,222 workers were affected, either by shorter working hours, higher wages or both.

Dr. and Mrs. A. Cole and family, and Mr. and Mrs. O. W. Elliott of Mobeetie, will return tonight from a vacation trip to New Mexico.

(Continued from page 1.)

feasible to the NRA group than the other code submitted. In other words, the degree of control of business practices to be undertaken by the government will be limited to production and interstate commerce, in the main. This standpoint is negative, rather than destructive of the ideals of the group which lost in the tussle. The issue of business set-ups is not dead. Price stabilization seems desirable but it is better, in some ways, to be left alone than to be axed by authority from which there is little present appeal.

The fact that Mr. Moffett, whose ideas are not those of Mr. Teagle, is to be the federal administrator encourages observers to believe that Standard Oil is not going to dictate the federal administration. It must always be remembered, however, that when control becomes a matter of votes within an industry, those with the larger number of votes will rule. Influence and talent likewise win decisions of relatively uninformed men, such as we assume General Hugh Johnson to be, on oil matters. The situation may not be agreeable to many who wished different practices in marketing and pipeline operation, but the outlook does not appear alarming.

Mr. Roosevelt and Mr. Teagle do not see "eye to eye."

HEREFORD, Aug. 4 (AP)—A patchwork quilt containing 11,280 pieces, each no larger than a nickel, has been completed by Mrs. A. H. Elliott of Hereford. The pattern is a beautifully designed flower garden. The tiny scraps in the quilt were left over from one of larger pieces.

### FOSSILS

(Continued from page 1.)

"In France, I often drew sketches for some of the soldiers who sent them home with their letters," he says. "At a hospital there, I met a newspaperman who suggested I ought to try to produce a comic strip.

"When I went back to Perry in 1919, I returned to high school for a short while and then took a

course in journalism at the University of Missouri. "My first jobs as a reporter were on the Des Moines Register-Tribune and the Des Moines News. Later I left Des Moines for a job as artist and photographer for the old Fort Worth Record."

Texas gave Hamlin his training for the "Alley Oop" idea. For it was the oil fields there that he became interested in the prehistoric as told by fossils and rock formations.

"I had transferred to the Fort Worth Star Telegram," he recalls,

"where I drew cartoons and comics for the sports and other departments. But in 1927 I left this paper and began to draw large art layouts, maps and posters for various oil companies. "While at this work, I met a geologist who was also a student of prehistoric life. I became fascinated with the geologist's work and began to take up the study of this science out of books in the library.

"From geology, I naturally drifted into paleontology, the study of life in past ages."

rather for the Houston Press and after leaving the Press, started on his first comic strip. It was a comic about two girls, but the prehistoric still intrigued Mr. Hamlin and he dropped the "girl" idea.

In 1929 Mr. Hamlin returned to the Des Moines Register-Tribune. "Mrs. Hamlin kept insisting that I continue experimenting with a comic based on my knowledge of the past," he says.

"I first put a modern rough family into the cave-dwelling days. I worked on that idea for a year, and then destroyed the strips. I tried another idea, in cave man style for

another six months and dropped that. "Then I got the idea for 'Alley Oop' and 'Dinny.' I really can't recall just how I struck upon the name 'Alley Oop,' although it might be from the fact that the name is a French term used by tumblers. "Alley Oop" really is a rough-house tumbler."

# RADIO COMMISSION DECLARES WAR ON TEXAS 'AIR PIRATES'

## CHAIRMAN TO BE IN STATE DURING MONTH

### REPORT 43 STATIONS ARE OPERATING ILLEGALLY

WASHINGTON, Aug. 4. (AP)—Steps to stop operations of "air pirates" in Texas and other states in the west and south have been instituted by acting Chairman Thad H. Brown of the federal radio commission.

Announcing today that he would take charge of the move as commander-in-chief of the "police force of the air," Commissioner Brown said he would go into the field to obtain first hand information.

Besides conferring with officials at Chicago on August 21, and at Kansas City the following day, Brown plans to spend a week in Texas in conferences with federal attorneys regarding illegal operation of radio stations in that state.

The commission today said it had "received reports indicating 43 'air pirates' are operating in Texas, and the names of thirteen of those alleged violators have been submitted to the department of justice for action."

Brown plans to be in Dallas and Fort Worth, Texas, from August 23 to 25 inclusive; San Antonio, two days following; and for three days in the Houston, Galveston and Beaumont area. From there he will go to New Orleans on August 31, and thence to Atlanta September 2 for a three days' stay.

Four Hurlers On Pitching Staff Have Assortment of Curves to Offer.

A little gray about the temples, but still the flashy fielder and deadly hitter, Aaron Ward will be the pivot man for the Dangler Roadrunner team that will represent Pampa in the Amarillo baseball tournament which will get under way tomorrow. The veteran, who played nearly 10 years at second base for the New York Yankees, will be at his old position for the Roadrunners.

The other three members of the Roadrunner infield will be youngsters but they are as steady and flash a bunch of ball players as could be gotten together. On first base will be the long-legged Lefty Cox. The big fellow is awkward looking but covers a world of ground and takes throws at all angles. Ben McLary will occupy the shortstop position and with Ward to steady him, should be the starter of many double plays. Whitey Bacus will play second base duties. He looked at home on the hot corner during a hard workout yesterday afternoon.

The outfield should be well taken care of with a bunch of hard hitters and fast fielders. Although Playing Manager Ike Lister has not named his starting outfield, he will have Bill Andre, Hack Wilson, Lefty Thomas and himself ready for action.

Pitching is something the Roadrunners appear to have. In George Bulla, diminutive lefthander with a smoke ball, fast breaking curve, and a beautiful change of pace, the Roadrunners have a pitcher of ability. Clyde Nichols is a tall right hander with terrific speed and a fast curve that appears to be drawn to the outside of the plate. John Costello, big Indian, is another fast ball right hander with a nice curve, and change of pace. Carl Stewart, already known to Pampa fans, will round out the regular pitching staff.

The Roadrunners have two of the best relief hurlers available in Lefty Thomas and Andre. Thomas can also be classed as a regular from past performances. Andre is unbeatable for three or four innings, it is reported.

Jake Leggett will be in charge of catching duties and a fast and more aggressive receiver has yet to be seen locally. The veterans Whitey Vaughn and Rusty Cahill will round out the catching and coaching staff. Claude Hickey will be the utility man. He can play many positions and his hitting will be valuable in the pinches. Vaughn is also an outfielder of ability.

Under the new schedule, offices will be closed all day Saturday. Schedules of working hours for non-office workers will be announced as soon as readjustments can be made, said Moran.

WASHINGTON, Aug. 3 (AP)—Additional appointments to field positions in the public works administration today included Miguel A. Otero Sr. of Santa Fe, to the New Mexico board in place of Felipe Sanchez y Bach, of Tucuman, who was unable to serve.

## Diane DeLaire Is Leading Lady In Sadler Show

Miss Diane DeLaire, said to be one of the cleverest of present-day leading ladies, is the new ingenue leading lady with Harley Sadler and his new company which comes to Pampa for a week's engagement starting Monday night, August 7, under the auspices of the American Legion. After a highly successful engagement in one of the leading stock theaters in the east, Miss DeLaire was chosen to open in the elaborate Warner Bros. theater in Tulsa, Oklahoma, and comes from that theater to Harley Sadler. Miss DeLaire has been adjudged by the critics as being indeed an artist in her portrayal of the roles in which she is cast, and she will be seen nightly all next week at the big tent theater in an exceptionally strong line of parts. She also appears in a series of vaudeville numbers during the local engagement of the Harley Sadler tent theater. Monday night, August 7, Miss DeLaire will be seen in a part written especially for her, and Harley Sadler and Billie Sadler in exceptionally good roles, as well as all members of the cast, in a modern day society comedy drama entitled "Don't Rush Me." Frank Bauer and his 11-piece radio-stage band will furnish the music, and Frank Bauer's band is said to be the finest carried with a tented organization.

## Childress County Farmers Kill Five Thousand Rabbits

CHILDRESS, Aug. 4. (AP)—Childress county farmers have killed 5,000 rabbits since last spring and have been paid \$125 by the county for their trouble.

A bounty of two and one half cents for each pair of ears was offered by the county commissioners to encourage the slaughter of the crop destroying pests. The offer will hold good through July, and Judge Leonard King expressed the belief that the number killed would reach 8,000. Some of the farmers have turned in up to 200 pairs of ears.

## NOTICE TO CONTRACTORS

Sealed bids will be received by the LeFors Independent School District at LeFors, Texas, until 1:30 p. m., August 7th, 1933, for the furnishing of materials and performing all labor in the erection and completion of a one story six room Primary School Building to be built at LeFors, Texas, and in accordance with the plans and specifications as furnished by W. R. Kaufman & Son, Architects, Pampa, Texas.

Bidders bond in amount of 5 per cent and from a reliable and solvent bonding company shall accompany bids. Surety company bond in amount of 100 per cent of the contract price will be required of the successful contractor.

By BILL PARKER  
Associated Press Sports Writer

Within two games of a tie for first place and still going like a tropical storm—that's the Galveston Buccaneers who gained on the pace-setting Houston Buffaloes Thursday night with a 7 to 2 victory over Beaumont. The Buccaneers made a clean sweep of the series to continue to look like the best money club in the straight through Texas league pennant chase.

Frank Tubbs, stocky curve ball artist, turned Beaumont back with seven hits. His mates collected ten hits, nine bases on balls and some fancy base running to win even though the Exporters turned in three double plays that helped keep the score down.

While Galveston was defeating the Exporters, Elton Walkup, San Antonio's young pitching ace, was taking care of the Houston Buffs in a big way. Walkup struck out seven and halted the Buffaloes with five hits to earn a 3 to 1 decision.

Al Fisher toiled on the mound for Houston. He pitched a creditable seven-hit game but spoiled his performance in the percentage column by walking seven.

### International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: Ruth.  
 Scripture Lesson: Ruth 1:6-19.  
 6. Then she arose with her daughters-in-law, that she might return from the country of Moab; for she had heard in the country of Moab how that Jehovah had visited his people in giving them bread.  
 7. And she went forth out of the place where she was, and her two daughters-in-law with her; and they went on the way to return unto the land of Judah.  
 8. And Naomi said unto her two daughters-in-law, Go, return each of you to her mother's house; Jehovah deal kindly with you, as ye have dealt with the dead, and with me.  
 9. Jehovah grant you that ye may find rest, each of you in the house of her husband. Then she kissed them, and they lifted up their voice, and wept.  
 10. And they said unto her, Nay, but we will return with thee unto thy people.  
 11. And they lifted up their voice, and wept again; and Orpah kissed her mother-in-law; but Ruth clave unto her.  
 12. And she said, Behold, thy sister-in-law is gone back unto her people, and unto her god: return thou after thy sister-in-law.  
 13. And Ruth said, Entreat me not to leave thee, and to return from following after thee; for whither thou goest, I will go; and where thou lodgest, I will lodge; thy people shall be my people, and thy God my God;  
 14. Where thou diest, will I die, and there will I be buried: Jehovah do so to me, and more also, if I should be parted from thee, or if evil should befall me.  
 15. And when she saw that she was steadfastly minded to go with her, she left off speaking unto her.  
 16. So they two went until they came to Bethlehem.  
 Golden Text: Let us love one another, for love is of God.—1 John 4:7.

Beautiful any more—call me the Bitter; for God had dealt bitterly with me. I went forth full with my husband and two sons, and the Lord hath brought me home again empty."—Henry Ward Beecher. Euc she learned that Ruth was better to her than seven sons (Ruth 4:15). Two Noble Women, Naomi and Ruth.

One of the most beautiful things in this surprisingly beautiful story is the effectiveness of Naomi's quiet testimony. She so loved that her daughter-in-law was won to faith in the true God. The home is a most attractive field for mission work, and real Christianity shines brightest at home. We do not doubt for one moment that the most powerful witnessing for Jesus is being done right now by the mothers in our homes. We boast of the progress of civilization and rightly so, in that it all because of it all, have we produced a finer human product than Ruth?

The friendship of Ruth and Naomi is the classic instance of a friendship between two women. And—strange contradiction to modern hippany—it is the passionate love of a girl for her mother-in-law."—Prof. R. G. Moulton.

### NEWS-REEL AT LA NORA THEATER SHOWS WILEY POST'S TAKE-OFF

Impressive scenes at Floyd Bennett Field in New York City as Wiley Post takes off on his record-breaking flight around the world, exclusive pictures of John E. Love, lack of New Zealand winning the mile run at the International Track Meet between the Oxford-Cambridge and Princeton-Cornell teams at Princeton, N. J., in the world's record time of 4:07.6, and remarkable pictures of the arrival of General Babco's fleet of 24 flying boats at the Century of Progress exposition at Chicago, are to be seen in the current issue of the Pampa Daily News-Universal Newsreel.

Graham McNamee, noted radio announcer and the screen's Talking Reporter, describes these and the other important events in the reel in his inimitable manner at La Nora theater.

Roaring along the runway in the first gray of dawn, Post takes his monoplane, the "Winnie Mae," off the ground easily to start an epochal

### Sherman's Kin Pays Back Pigs Stolen in '60s

WASHINGTON, Aug. 4. (AP)—Two pigs were solemnly delivered to a young southern officer at the war department today at the instance of a brother-officer and descendant of General William T. Sherman to replace a pair stolen by Sherman's raiders in the march to the sea.

Dignified officials were amazed when a crate containing two fat pigs was lugged to the office of Captain Thomas Jefferson Davis, aide to General Douglas MacArthur, chief of staff.

But a letter told the story. Captain Davis had often taunted Lieutenant John B. Sherman, a grand nephew of General Sherman, about pigs the latter's forces had taken from the Davis estate in the swing from Atlanta and the lieutenant was making restitution in the name of his distinguished relative.

### Attempt Is Made To Kidnap Mayo Grand-Children

ROCHESTER, Minn., Aug. 4. (AP)—An apparent attempt to kidnap one or more of the three children of Dr. and Mrs. Charles H. Mayo Tuesday was made known today.

The children, ranging in age from 2-12 to six years are grandchildren of Dr. Charles H. Mayo, world famous surgeon.

Miss Marie Langseth, nurse, said she was awakened about 2:30 a. m. by the sound of an approaching automobile. Within a few minutes, she said, a man walked quietly up the back stairway of the house and approached the children's door. He turned the locked knob, and hurriedly departed when the nurse shouted "who's there?"

The children were at the Mayo home in Maywood, the family country estate, three miles southwest of Rochester.

#### COURTHOUSE TORN DOWN

POST, Aug. 4. (AP)—The old Garza county court house, erected here a quarter of a century ago under the personal supervision of the late G. W. Post, has been torn down. Built of native stone two stories high, the building was used by Garza county until a few years ago when a brick and stone structure replaced it. Since then the old building has been used for various purposes. In recent years it has been vacant most of the time.

#### QUITTAQUE, Aug. 4. (AP)—A whistling rattlesnake was killed recently by three boys in the Fairmount community. The rattler made a whistling sound every time it was disturbed, the boys said. It had 10 rattlers and was five feet long.

# The HIDDEN DOOR

BY FRANK L. PACKARD

**SYNOPSIS:** Reddy Turner, crook, just had told Colin Hewitt the story of his sister's death at the hands of a mysterious criminal called the Mask. Colin is a writer of detective fiction, and is not surprised to know that Reddy expects to trace down and kill the Mask, who rules many criminal gangs through underlings who each know him in only one of his numerous disguises. Neither Colin nor Reddy is surprised when after a timid knock "Colonel Hargreaves" enters, for Colin befriends many down-and-out men in his quest for material. But Hargreaves is the Mask; he shoots down Reddy, and wounds Colin. Colin weakly drags himself to the telephone and calls the police.

**Chapter Five THE POLICE ANGLE**  
Detective Sergeant Tim Mulvey, who was one of those police "pals" of Colin to whom Reddy had referred, was in charge of the case. He sat now where Reddy Turner had sat nearly a month ago in the deep leather-upholstered lounging chair, facing Colin across the latter's desk. And again it was near midnight.  
"Colin's face, long and drawn, showed the marks of a long illness. As a matter of fact he had hovered between life and death with the odds heavily against him for a matter of ten days. It was only that morning he had been discharged from the hospital—with very definite instructions to go slow and take the utmost care of himself until he was back to nor-

mal again.  
They were discussing the case. From the night of the murder the police had got nowhere.  
"If you ask me"—Detective Sergeant Mulvey swung the stub of a thick cigar from one corner of his mouth to the other—"Reddy handed you a fairy tale. This bird ain't anything like that. When we get him—you'll see—he's nothing more than a dirty rat in a small way of business that keeps under cover to have his own hide, and the gang falls for the mysterious unknown who yanks the strings, and eats it all up alive—the way your readers do."  
"I don't agree with you," Colin replied bluntly. "Tim, he was so hot on the Mask's track that night that it cost him his life. Can't you let that sink in?"  
"Sure I can!" returned Detective Sergeant Mulvey gruffly. "It's the old, old story. To hell with the police. Reddy, on a lone hunt, was after the guy that bumped off his pal and killed his sister. Finally, just when he thinks that in another twenty-four hours or so he'll be pumping the man full of holes, the other gets him first. That's all right! But it doesn't mean that this

Mask gzebo is the one and only! Reddy got excited when he stumbled on that Mask stuff, that's all."  
"And again I disagree," returned Colin calmly. "Reddy wasn't the kind to get excited that way."  
"Oh, well!"—Detective Sergeant Mulvey shrugged his big shoulders—"Let that go! You'll see."  
"When?" inquired Colin blandly.  
The thrust went home.  
"Damn it!" snapped Detective Sergeant Mulvey. "I don't know, do I? We're doing all we can. I'm not making any bones about it to you. So far the case is a total loss."  
"Which rather goes to prove," doesn't it," Colin suggested quietly. "That there is at least some basis of fact in Reddy's assertion that you are dealing with an unusual situation? You've had dozens of gangsters up for questioning, and they were all deaf in both ears, when any mention of the Mask was made. And yet the Mask exists and was certainly known by that name to some of those men."  
"It is true that Reddy must have come pretty close to unearthing his quarry, otherwise no attention would have been paid to him. I am thor-

oughly convinced that all he said was literally true."  
"It's too bad he hadn't spilled a little of it, then!" grunted Detective Mulvey. "Not to the police, of course! No fear! The Reddys are all alike. But to you."  
"Granted," agreed Colin. "But he didn't. I've told you everything Reddy said about him, and so far you—"  
The telephone was ringing. Colin reached across the desk and picked up the receiver.  
"Mr. Colin Hewitt?"  
"Yes!" Colin bit off the word.  
"Hargreaves speaking. Colonel by courtesy, sir. But perhaps you had already recognized my voice?"  
"I had!" said Colin grimly. "Alas for the Mask, I believe. Any name will do." He glanced at Detective Sergeant Mulvey. At the mention of the Mask, the homicide bureau man had started up—already from his chair and had stepped to the edge of the desk. "Sorry, you have not come around in person, but it's a pleasure to hear your voice once more."  
"I doubted at one time, sir," drawled the voice, "if you ever would again. I had no intention of merely wounding you that night,

but nevertheless I have called you up now to congratulate you on your return to health, sir."  
"It is really too good of you," said Colin evenly.  
"And also for another reason—to express the hope that your recovery will be permanent. I shot you because of the possibility that your friend Reddy might have unduly confided in you in respect of myself. Since then I have watched with interest the activities of the police. It is axiomatic that you would have confided in the police; but the actions of the police have been so ridiculous, that I am convinced you had nothing intimate to impart. It therefore gives me great pleasure to say that you have nothing more to fear from me."  
"Again this is really too good of you," Colin said levelly.  
"Provided," the voice drawled on, "that you do not meddle. I think, sir, that you would be much better advised to go away somewhere for your health rather than spend your time with Detective Sergeant Mulvey. You might be led into temptation—in which case I assure you, sir, you will not live 24 hours. I think that is all, except to ask you to convey my compliments to De-

**PRESBYTERIAN CHURCH**  
"Boasting." We speak so much of Americans bragging that we overlook the fact that all nations are afflicted with boasters. Nearly every race and country have some expression signifying that they are the superior people. But boasting isn't the sign of a wise man but rather of a little character. Hear the evening message on this subject.

Sunday school at 9:30. Plans are being made for 600 in the Sunday school. Every department is working for 100 per cent attendance.  
Preaching service at 11 o'clock with the Vawter party in charge. At 7:30 there will be the last of the free sacred concerts by the evangelists. This program will include "Whispering Hope" played on the chimes by Mrs. Vawter and Mr. House. This is said to be the best number played on that instrument since the late Mrs. Vawter died. "Consider and Hear Me" and Mr. House will make a "rag picture" illustrating Mary at the Saviour's tomb. This is his largest and finest rag picture. He will make a crayon picture illustrating "Rock of Ages." There will be other features of interest included in the program. The revival will close on Sunday night.

ective Sergeant Mulvey, who, I am informed, is again with you tonight after the three hours, dozed from the outset to futility, which you spent together in the roguish gallery at headquarters this afternoon. Good night."  
There came a faint click from the other end of the wire. Colin faced Detective Sergeant Mulvey.  
"The Mask—eh?" grunted the other.  
"Yes."

## 'Uncle' Bud Russell Likes 'Tough Mugs'

HUNTSVILLE, Aug. 4. (AP)—The Texas Penitentiary, like all others, has lost men from within its walls, but its officials don't worry about prisoners "in transit." Bud Russell, transfer agent, has handled approximately 100,000 men in the last 23 years, and only one has escaped while in his custody. The escaped was recaptured a short time later and Russell delivered him to the penitentiary.  
Prison officials have no record of the mileage which "Uncle Bud" has traveled, picking up his prisoners here and there in the biggest state in the union. He has traveled Texas in every direction many times, and in addition has returned 5,000 escapees from all sections of the United States.  
"It's time for the chain" is a familiar expression in every jail in Texas because of Russell's habit of chaining his prisoners together. He never accepts one from a jail cell without searching him. He hauls the more dangerous prisoners in his famous "dog wagon," a jail cell on wheels.  
"I like 'em tough," Russell frequently confesses.

A "southpaw golfers' association of Duluth, Minn., with 40 members will sponsor an all-Minnesota southpaw tournament late in August.

which is the song of deliverance. We had the best class Sunday in weeks with the largest number present. Men never faced more serious days. Each is called upon to read just his whole program of life. The servitude of 12 and 13 hours of work is through. It is a severe indictment that business would be overhauled by a federal edict. But what are men to do with these extra hours? They may be used for enrichment and improvement of life. They could be used in idle prodigality. The great handicap of this class has always been the fact so many had to work seven days a week. It is up to men with purpose and ideals of Bible classes to help bring back to normal life the great aggregate of men that have drifted from Mother's Sabbath, from Mother's Bible and from Mother's God. This is a harder task than relief work, but this class commits itself to this even greater work. "Come join with us and we will do the good."

### CABOT COMPANY TRAINS MEN TO BE WORKED UNDER CODE

### ALL STARS TO PLAY 'TOUGH' TEAMS SUNDAY

### CANADIAN CLUB IS ONE OF STRONGEST IN SECTION

Canadian and Wheeler ball teams will be seen in action in Pampa Sunday afternoon when the two fast out-of-town clubs come to Pampa to play the Pampa All Stars. The Wildcats of Canadian and the All Stars will meet at 2 o'clock. Immediately following the All Stars and Wheeler will clash in a Cotton-Oil league fixture. The games will be played at Magnolia park with admission 25 cents.

The All Star lineup will include two or three former Magnolia "Mags." Freddy Newland will more than likely patrol left field. Jimmie Baldwin has been called to play shortstop and Jimmie Coburn second base. Nearly enough players are on the All Star roster to place two full teams on the field and it is probable that most of them will be used Sunday.

Canadian has one of the strongest teams in this section and the All Stars are due to have their "mits" full holding the fast Wildcats. In L. Riley, Canadian has one of the best young hurlers in this section. He is only a high school boy but he has a fast ball with a nice hop and a change of pace.

Wheeler is near the top of the C. & O. league race and will bring a strong lineup for the important game. The Wheeler boys have their hopes set on winning the second half of the league race and meeting the All Stars in the playoff series.

Manager C. V. Lane of the All Stars has not named his starting hurlers.

### Service Station Sold By Brothers

Crawford Atkinson, formerly of Dalhart, has purchased the Lane Brothers station at the corner of Francis avenue and Cuyler street and will operate it as the Motor Inn. J. E. Burrow will be in charge of the tire department handling General tires and doing repair work.

A full time car storage service will be maintained with trained mechanics and the station will operate under NRA code.

The filling station department will be complete one-stop with Mobilgas, Mobiloil and service de luxe, Mr. Atkinson says.

### Rail Commission Employee Is Dead

LONGVIEW, Aug. 4. (P)—R. E. Walthall, 56, in charge of the railroad commission's oil conservation department in the Longview-Glade-water district, was dead today as a result of a heart attack.

He dropped dead last night just after alighting from his car and approaching the back steps of his Longview rooming house.

Walthall, who formerly served for seven years as a member of the board of control, was to have become superintendent of the Texas Home for Confederate veterans September 1. He had served for three years under the railroad commission.

Funeral arrangements were incomplete but it was indicated he would be buried at Garrison, Texas.

### The PEOPLES COLUMN

Editor, The NEWS: It has developed in Pampa that a number of business firms and individuals, in their eagerness to display the blue eagle, have signed the certificate of compliance and displayed the insignia before putting the agreement into effect.

Their intentions are no doubt good, but the certificate of compliance says "I HAVE adjusted the hours of labor and wages," etc. It is suggested that in cases of unintentional violations of the agreement and certificate of compliance the stickers, hangers, and other insignia be removed until the new schedule is actually in effect.

C. H. WALKER, General Chairman, N.R.A.

### ARRESTS EXPECTED

SAN ANTONIO, Aug. 3. (P)—Arrest of three men in Missouri and their return to San Antonio in connection with the theft of \$500,000 of government bonds in New York and their later sale to the Commercial National bank here are expected today or tomorrow.

Although the carbon black industry has been delayed in completing a code that will have unanimous support, the Cabot group of companies, consisting of Cabot Co., Cabot Carbon company, and Texas Elk Carbon company, are establishing the following working schedule and wage level in their five plants in Texas:

Maximum hours per week, 40.  
Minimum hourly rate, 55 cents per hour.

Existing differential rates are to be maintained.  
Maximum hours per week will be adjusted downward as trained men become available. While future plans depend to some extent on the stipulations of the labor sections of the industry's code, when adopted, it is the hope of the management that it will be justified in making further reductions in hours worked per week without diminishing the net weekly income of the employes.

Although the Cabot companies have executed the president's blanket code, and officials feel that in making the above schedule effective they are more than meeting the spirit and intent of the measure it will be impossible to execute a certificate of compliance until their program has had either the individual endorsement of the national laboring administration or until a specific code for the carbon black industry has been established. The Cabot companies have announced that in anticipation of this revision in their operating program, they have during the last two weeks had under training enough men to make the change promptly effective and that no additional men will be needed.

### Three Swimmers Pass Life Saving Tests at Pool

Three Pampa swimmers successfully passed their Senior Life saving tests at the municipal swimming pool Wednesday and Thursday. The successful candidates were Miss Louise Walstad, Dick Sullins, and Berton Doucette. The tests were given by Mr. and Mrs. Art Swanson, Mrs. Clyde Fatheree and Harry Kelley, who were recently awarded examiners badges by a representative of the Red Cross.

Coach Harry Kelley was mighty proud of his students. They had spent long hours in the pool, practicing for the tests, and also studying at home for the work necessary to pass the tests.

The senior life saving test is one of the hardest given and includes writing an essay of from 200 to 500 words on prone pressure resuscitation, treading water for 30 seconds, floating motionless for one minute, disrobing of dress or trousers, shoes and coat in deep water and swimming 100 yards, one minute carry with subject fully dressed, and with many numerous holds, breaking all known grips and carrying to shore, and oral quiz, and many other activities.

Several young swimmers are nearly ready for the junior test and others are training for the senior test.

### American Boxers Whip Irish Team

CHICAGO, Aug. 4. (P)—Paddy Mulligan, a big Irish copper, standing six feet, 4 inches, started back to his home in Dear Old Ireland today with his left ankle in a cast, and a lump on his jaw as the only knockout victim of the international amateur boxing bouts fought in Soldier Field last night before 50,000 spectators.

The American golden glove champions triumphed over the Irish invaders six bouts to two in the third series of international contests. The American team, in the first international two years ago conquered invaders from France, and tied the Germans last year.

The only two Irishmen to win were Paddy Connolly, a barrel chested, little soldier of the Irish Free State army, and Frank Kerry, a bantamweight. Connolly defeated Lenny Cohen of Chicago, in the fly-weight class while Kerry won from John Ginter, another Chicagoan.

AMERICANA GREEN BAY, Wis., Aug. 4. (P)—Complaining that the Wisconsin Public Service corporation was operating a machine that "detours" or

dispels rainstorms, 20 farmers living near the High Falls hydro-electric plant on the Peshtigo river called upon the superintendent, Frank Pink, yesterday and demanded that the device be destroyed. Crops are suffering from lack of rain. Pink protested that no such machine existed, but was unable thoroughly to convince the farmers.

HALF OF TEXAS LUBBOCK, Aug. 4. (P)—More than one-half of Texas' counties—136 to be exact—were represented among the more than 1,000 students

who attended Texas Tech during the summer. Eight other south and southwestern states were represented, and there was one student from China.

Mrs. J. W. Seitz will return to her home in White Deer today after treatment at Pampa hospital. Clyde Gray of the Laketon community was here this morning.
