# ECONOMIC PARLEY NEARS CRISIS

## Heavy Selling Forces Wheat Down 7c A Bushel

**TWINKLES**  
Seen: A youngster expertly balancing a tricycle on two wheels, the third being missing, and going merrily along. Reminded us somewhat of an optimist during a depression.

Only Texas and Oklahoma do not have state exhibits at the world's fair. A committee of Texans appointed by the Texas Press association appeals to you for a donation to make an exhibit possible. Contributions, no matter how small or large, may be made through The NEWS.

Of course, it's none of our business, but our experience indicates that football uniforms would be better for the girls learning to ride bicycles than the bare-back-bare-legged style now in vogue. But if you don't mind the sears, disregard our advice.

Congress man Marvin Jones is acknowledged to be one of the leading strategists in congress, as shown by the skill with which he steered farm legislation through the house and guided it in the other house. Quite appropriately, then, Pampa Jaysees plan to honor Mr. Jones for his services and because of the high place he occupies in the administration.

Dan Gribbon, despite his well known virtues, can say the most highly insulting things on a golf course. For instance, after we parred several holes in a row and then missed a tee shot trying to kill the ball, he up and says the stroke won't be counted because we missed it more than 6 inches.

**COTTON WEEK**  
This is what might be called cotton week. It is the week of a campaign to enlist the cooperation of farmers in limiting current production to bolster and, indeed, to raise the price. The plan at a glance is about as follows:

**The Tax.**  
The farmer pays NO tax. The manufacturers pay it and, of course, eventually the consumers. The cotton mill buys, say 100 bales at 9 cents a pound. It costs the mill 13.1 cents and 41 cents goes to the government to finance retirement (plowing under) of part of the farmer's present crop.

**Crop Retirement.**  
Regional officials will contact the farmers. The farmer agrees to run a disc over an agreed part of his growing cotton. The government remunerates the grower for the number of acres of cotton he plows under and thus removes from the market forever.

**Paying the Farmer.**  
Taking the tax proceeds, Uncle Sam pays the farmer a rental on the cotton land he has taken out of production. The minimum rental is \$6 an acre and goes up according to the average production of the land.

**The Cotton Pool.**  
The farmer may take only part of the rental and will be given an option in the government's big cotton pool. The option is offered at six cents a pound. The farmer may sell at any time he sees fit, and his profit is the difference between the six-cent government price and the market price at the time of sale.

### DOLLAR WHEAT GOES JUST AS SESSION ENDS

#### CLOSE IN WHEAT NEAR DAY'S BOTTOM PRICES

CHICAGO, June 28. (AP)—Characterized by violent fluctuations, the expected break in grain values materialized today. Prices plunged downward with wheat off as much as seven cents a bushel at the opening with other grains showing losses of around five cents. Reactions carried prices up between four and six cents in wheat, later, but these failed to hold and the close was sharply lower. Huge sales to collect profits which found new buyers were said to have caused the initial break. The close in wheat was near the day's bottom prices. Dollar wheat went by the boards in the last few minutes of the session. The May delivery had held around the dollar mark or above almost all day, but dropped to 99 1/2 cents just before the close and finished there. December wheat, which touched a dollar during the day, dropped back to 95 1/2 at the close. The finish was as much as six cents a bushel lower than yesterday.

All other grains rose and fell with wheat. Corn closed 4 1/2 down with the December at 60 1/2. Oats were four cents off with December at 53 1/2. The December delivery of soy dropped to 81 1/2, and the same option in barley to 57 1/2. Speculators swarmed into the pits in a hurry this morning, all with the same general idea, to sell wheat for profits that might be obtained. Buyers were few and far between. Despite the disastrous break at the start, buying soon became general with the volume of trade at a pace almost equal to that of the last few days. However, with reports of some rains in the west, the buyers were more cautious and support slackened with the result that the close was weak and slow.

### Texas Kiwanis Activities For 1933-34 Planned

LOS ANGELES, June 28. (AP)—Texas Kiwanis attending the 17th annual convention of Kiwanis international being held here this week, planned today for 1933-34 community and welfare activities. Personal service in which each member will counsel, advise and help some unfortunate child was stated to be one of the most important phases of child welfare.

Citizenship activity for the coming year will include traffic safety campaigns, citizenship and character training for youth, naturalization work among the foreign born, night schools for illiterates, merit awards for citizens giving conspicuous service and education for citizens in the social problems of the present era. Members of the public affairs committee who will help promote this work are: R. W. Haynie, Abilene, chairman; Rev. P. O. Wood, San Angelo, F. C. Myers, Mineral Wells.

### Walker Attends Lions Ceremony

C. H. Walker, Lions district governor, went to Childress last night to attend a joint installation ceremony of Lions and Rotarians. He was accompanied by Guy Gibbs of Chickasha, Okla. Judge W. R. Ewing, who is in Childress as special judge in a civil suit, was a guest of the occasion.

### I HEARD—

Bob Fuller, back from Fort Worth, declaring that they couldn't give him the whole city for Pampa. The thermometer registered 104 degrees one day he was there. "This sure is God's country," Bob declared.

A number of persons talking about J. D. Cobb's young mustache. (All of them didn't happen to be men, but I won't tell your wife, J. D.)

### GOVERNMENT'S PLAN TO RETIRE COTTON ACREAGE RESPONDED TO BY MOST GRAY COUNTY FARMERS

#### Barely Saved Many At McLean, Small Group Here Sign Agreement

MRS. CHARLES RENNIE, above, floated in Lake Michigan for 30 hours on an airplane gas tank and saw her three men companions, including her husband, lose their holds on the tank and drown. Mrs. Rennie was rescued by a car ferry. The plane had crashed in fog.

Farmers of this vicinity who did not see Mr. Thomas last night about cotton retirement may obtain blanks at the B. C. D. office in the city hall. Mr. Thomas' itinerary is as follows: Tonight, Laketon, 8:30; Thursday, Alameda, 10 a. m.

GRAY COUNTY farmers who have cotton planted are rapidly signing contracts with the government to retire part of this acreage under the federal plan. Three hundred farmers met County Agent Ralph Thomas at McLean yesterday. Many signed and others will follow.

A small group met Mr. Thomas here last night, with nearly all present signing the agreement. Inspection of fields of cotton and designating of acreage to be accepted for retirement will begin probably tomorrow. Retired acreage may be planted in feed or food crops, but not in cash crops. This is a protection for the wheat farmers against cotton farmers who might plant wheat.

Mr. Thomas will be in conference with cotton farmers most of this week. A wheat marketing plan will be offered soon through the department of extension.

COLLEGE STATION, June 28.—Cash relief this summer at the rate of \$6 or more per acre for land retired from cotton production and possible additional payments later on options on Government cotton are in store for Texas cotton farmers if the campaign for voluntary acreage reduction under way in every county in the south this week shows southern farmers ready to plow up as much as 10,000,000 acres.

O. B. Martin, director of the extension service of Texas A. and M. college of Texas, has been advised by the U. S. Secretary of Agriculture. The goal set for Texas is a minimum of 4,493,000 acres.

In drafting the extension service to administer the farm act, Secretary Wallace named Mr. Martin district cotton administrator and directed county agents to take charge of the reduction campaigns in the counties. In furtherance of these orders county agents this week are being details of the government offer to farmers in practically every cotton growing community in Texas.

They are being helped in this by vocational agents, teachers, farm and civic leaders, and home demonstration agents, Mr. Martin said. He points out that Secretary Wallace has stated that a decision on whether the provisions of the Act will become operative as to cotton this year will be made within the next few days after the reduction campaign ends this week.

The cotton acreage retirement plan offers the farmer two choices of benefits in return for reducing his acreage at least 25 per cent, and not more than 40 per cent. By the first plan he would receive in cash this summer from \$6 per acre to \$12 per acre for every acre retired, the exact amount depending on the yield per acre. In addition he would be given an option at 6 cents per pound on as many bales of government owned cotton as the

### FARM VEHICLE LICENSES ARE NOT NECESSARY

#### Court Decision Cited By Gray County Attorney

IT IS NOT necessary for a farmer to procure a license for trucks, trailers, or semi-trailers, or motor vehicles when used exclusively by the owner thereof to transport his farm products to market or to the place where such products are prepared for market.

This decision of the Texas supreme court was cited by County Attorney Sherman White in answer to an inquiry by W. J. Smith, local attorney. So far as motor vehicles are concerned, the same exemption applies when used for hire, Mr. White said, but does not apply to trailers or semi-trailers when used for hire. The owner of any motor vehicle used exclusively for hauling his farm products to market is not required first to register such motor vehicle, and is not subject to prosecution for use of such vehicle on

(See VEHICLES, Page 5.) (See FARMERS, Page 3.)

### CHILEAN BOND SALE REVEALS HUGE PROFITS

#### NATION'S UNBALANCED BUDGET WAS NOT MADE KNOWN

WASHINGTON, June 28. (AP)—Ferdinand Pecora, counsel of the senate banking committee, said today his evidence showed Otto H. Kahn, senior partner of the Kuhn, Loeb & Co. paid no income tax in 1930, 1931 or 1932.

Pecora told newspapermen he also expected to submit evidence that the total income tax payments of the firm's other partners in those years was "negligible."

The disclosures were expected by investigators to give further impetus to the drive for changes in the tax laws. Evidence recently was received that partners of J. P. Morgan & Co. paid no income taxes in 1931 or 1932 and only \$48,000 in 1930. Senator investigators were told by a partner of Kuhn, Loeb & Co. that originators made a net profit of \$247,000 on the sale of \$20,000,000 of Chilean bonds in 1925, now in default, on which the risk was passed on to others within 24 hours.

Earlier, the partner, Benjamin J. Buttenwieser, testified his firm had not put in the prospectus on which it sold the bonds information that Chile had an unbalanced budget. He insisted, however, the budget figures were not as important as the country's favorable trade balance.

The witness said his firm, the Guaranty company and Lehman Brothers shared the profit. "That profit was for a risk that was passed on in 24 hours to others," Ferdinand Pecora, committee counsel, asked.

### Thirty-Five Men Are Working On P. O. Building

There are 35 men at work on the new federal building. They are doing concrete work, pouring for footings and sub-base slabs. Thirty-two men worked on the job last week. That particular part of the work should be completed this week.

Pouring of concrete for the basement foundation should be started next week. Approximately 3,000 yards of concrete remain to be poured. The job will take several weeks. The concrete work on the building is being done by the Stubbard construction company, general contractors. W. R. Walker is in charge. W. H. Olmsted is government representative.

Mrs. Alva Phillips has been dismissed from Pampa hospital, where she underwent a minor operation the first of the week.

### Volstead Loses 'Pro' Job

#### Co-Author of Volstead Act Furloughed As Legal Advisor To Administrator

ST. PAUL, Minn., June 28. (AP)—Andrew J. Volstead, co-author of the prohibition enforcement act bearing his name, lost his job today as legal advisor to the eighth district dry administrator.

He was indefinitely furloughed, effective July 1, along with the district administrator, Robert D. Ford, and s. x. state deputy administrators. The federal economy axe fell also on many other enforcement employees in the district. Ford said the information came in a message from prohibition headquarters in Washington. How the work would be handled in the district henceforth was not explained.

(See VOLSTEAD, Page 5.)

### Couple Of Men From Mars

THE Picard twins, Auguste and Jean, are shown here as they inspected the metal ball in which Jean hopes to come closer to Mars than did Auguste, who has been closer than any other human. The view is through a porthole of the gondola, now being completed at Midland, Mich. Jean Picard faces the camera.

### RED CROSS SWIMMING EXPERT TO BEGIN REVIEW OF LIFE SAVING EXAMINERS AT POOL ON JULY 14

Standard Methods Of Swimming Taught In Institute

WITH the arrival July 14 of A. T. McCue representative of the life saving service of the American Red Cross, the review of life saving examiners will begin at the municipal swimming pool.

Examiners are expert swimmers with teaching ability, who have passed the Red Cross test. It is upon this group that the Red Cross depends to carry its message in water safety methods to thousands of swimmers each year. The chairman of the local chapter's swimming and life saving committee is C. A. Clark. In announcing details of the swimming experts' visit on July 14 and 15, he said: "The object of our swimming and life saving institute is to teach the theory and practice of standard methods of swimming, the use of mechanical devices, coaching the swimmers for competition, training rules, swimming meet management, and all water games. Each week 120 persons drown in the United States.

The drownings in 1931 were 6,200. The largest number of deaths from drowning occur in the age groups below 25, the greatest percentage being males between 15 and 19. The second greatest is age between 10 and 14.

"Our Red Cross life saving instruction emphasizes not only methods of rescue and resuscitation, but also dangers in swimming in hazardous pools and creeks, where there is no supervision, in swimming alone, and in attempting to rescue the drowning when not qualified to perform rescue work.

"These courses will require several hours of actual practice, eight hours or more of instruction." Sponsors of the program have been somewhat disappointed in the number of people enrolled in the various classes, inasmuch as the instruction and examination are offered free through the efforts of the Red Cross and Boy Scouts. Any one interested in learning to swim more efficiently and to learn how to save persons in trouble in the water is asked to enroll at the Boy Scout headquarters in the city hall. Buttons signifying the various degrees of efficiency will be given, and there will be emblems for the junior and senior life-savers. The latest types of swimming instruction methods are being used.

Lions and their ladies will assemble at the First Baptist church Thursday evening for their annual installation of officers. The banquet will begin at 8 p. m. with Dr. H. H. Hicks as toastmaster. A surprise program is being arranged by a committee headed by W. A. Bratton.

### WET MARJORITY

SAN FRANCISCO, June 28. (AP)—On the prohibition referendum in California, 4,024 precincts out of 9,347 in the state gave for repeal 911,930; against repeal, 272,661.

### Lions Will Install Officers Thursday

Lions and their ladies will assemble at the First Baptist church Thursday evening for their annual installation of officers. The banquet will begin at 8 p. m. with Dr. H. H. Hicks as toastmaster. A surprise program is being arranged by a committee headed by W. A. Bratton.

### I SAW—

Mrs. Nellie Mundy climb on a bicycle—first time she was ever on one—and ride off like nobody's business—with no ensuing crash or bruises.

### FRENCH FIGHT FOR FRANCE IS BELIEVED LOST

BRITISH COMPROMISE WITH GOLD BLOC INDICATED

LONDON, June 28. (AP)—High French sources said tonight that the world economic conference steering committee had approved a resolution asserting that whether the parley succeeds or fails in the economic phase of its labors depends on currency stabilization, the Americans failed to participate in this resolution.

Some important conference quarters interpreted the resolution as an indication of a British compromise with the gold countries, headed by France, which have been attempting to force the United States to stabilize.

It was authoritatively stated that the American stand against stabilization remained unaltered.

By The Associated Press.

France's battle to sustain the franc, principal currency tied to gold since the United States joined Great Britain and most of the nations of the world in the retreat from the gold standard, appeared today to French financial experts to be lost and devaluation was regarded as imminent.

Developments in the crisis confronting France and the other European nations still tied to gold—Switzerland, Holland, and Belgium—moved swiftly today with London the scene of efforts to save the gold standard.

Stabilization was the goal of the gold nations and they considered a dramatic appeal to Assistant Secretary of State Raymond Moley to enlist his aid in their fight to remain on gold, with the prospect they would urge the dollar be stabilized somewhere near its present level. Gold bloc representatives were busily engaged seeking British support and they said there was a "flicker of hope" help might be forthcoming.

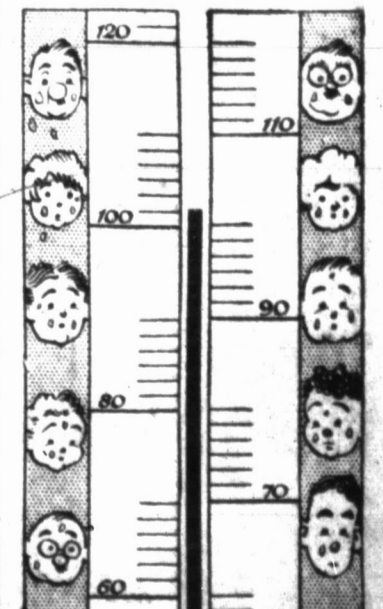

Parisian financial experts conversant with the situation said the French had abandoned hope of Great Britain's stabilization with Europe and predicted economic forces either will push France off gold or compel the cheapening of the franc probably a fourth or fifth to meet the competition of the dollar.

Speculative selling forced the dollar to a new low against the franc today. The dollar dipped to 19 1/2 francs, below the 20 franc level at which it had been predicted France would be compelled to take drastic action to save the franc. A 15 per cent surtax on dollar imports had been suggested.

The world economic conference radiated the impression that it was waiting on the pleasure of Assistant Secretary of State Raymond Moley who popularly was supposed to be bringing from his chief in Washington medicine to cure many ills of the great assemblage.

### Heat-o-Graph

The temperature in Pampa soared to 101 1/2 at 1:30 o'clock today.

TEXAS: Generally fair tonight and Thursday. Light to moderate southerly winds on the coast.

COMPROMISES NEEDED AT LONDON PARLEY
A few weeks ago the leading world statesmen were discussing the London conference in terms of the Macdonald-Roosevelt remark—"We have got to make it succeed."

Today this fine sentence seems to have been forgotten, and the various delegates at London, our own included, are evidently willing to come to an international agreement only if they can do so without receding an inch from their respective national policies.

A short time ago they were telling us that agreement at London was a matter of the highest importance. Today they are acting as if the conference were some vast sort of poker game in which the big idea was to get all you could from the other fellow without giving up a thing yourself.

America talks of general tariff reductions that will stimulate world trade, but refuses even to discuss war debts and grows suddenly deaf when currency stabilization is mentioned.

England also talks of reviving international trade, but clings to trade agreements like the Ottawa pact and the recent agreements with Denmark, Argentina and the Scandinavian countries. France likewise indulges in pious talk but clings to her gold standard, refuses to pay a dime on the war debts and hints at the establishment of a self-contained economic unit by France and her colonies.

And so it goes, until one wonders whether the people of the world today have yet reached a state of mind in which any important international agreement is possible. But it may be that the pessimism created by early activities at London is not entirely justified.

After all, the reasons for the calling of the conference are still as potent as they ever were. The spokesmen for the various countries know that a complete failure of the present discussions would be nothing short of a catastrophe.

That, at any rate, is the way most of us prefer to look at it. The issues at stake at London are too important to be allowed to fail just because the various delegates are afraid of compromise.

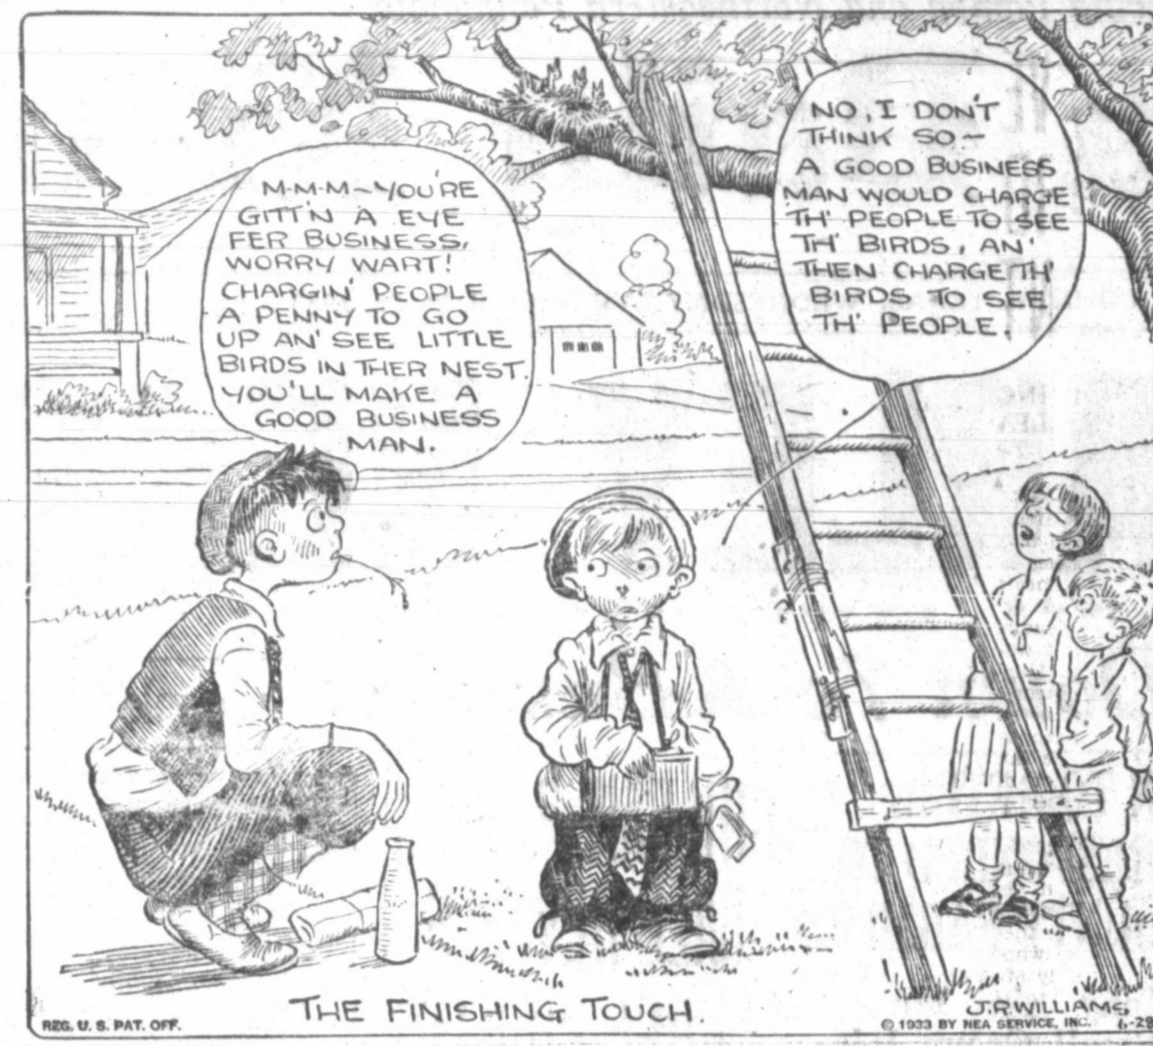

It's funny world we live in—where the banks that are really solid are the ones that are the most liquid.

Worry over the depression has increased baldness, says a Chicago scientist. And we always thought the crisis the nation has just gone through was a hair-raising experience.

Iona, Mich., farmer narrowly escaped being hit by a falling meteor on the day the farm relief bill became effective. We always predicted that the heavens would fall if something was done for the farmer.

The average Londoner must be having a tough time these days in trying to figure out whether the fog arises from the weather or from the Economic Conference.

Huge Bonfire Is Background For Scouts' Program

Boy Scouts had charge of the program at the evening council fire staged on the old golf course north of the city last night. There were no speeches, although President A. C. Post, Executive C. A. Clark and other leaders were present. Scoutmaster John Shannon of Troop 18 was unavoidably detained but the boys went ahead with the program as Scouts are taught to do.

Widow Of Caruso To Wed Physician

PARIS, June 28 (AP)—Dorothy Benjamin Caruso, widow of Enrico Caruso, and Dr. Charles Adams Holder plan to be married in a civil ceremony July 5. Their bans were posted yesterday.

By the World FORGOT A New Serial by Ruby M. Ayres

SYNOPSIS: Nicholas Boyd, a movie star whose career has been cut short by an accident which leaves him blind, has been touched by the devotion of young George and his mother. Partly out of pity, he has consented to work with George, now he tells her he suddenly has come into a large legacy and is going to Germany for an operation that may do away with his scars. He reminds her she is to have lunch next day with a young man in London.

GEORGIE CONFESSES

"Oh, that!" Georgie swallowed a little lump that would keep rising in her throat. "I'd forgotten that," she said helplessly, and then—"I won't go if you don't want me to."

DROWNS AFTER FIGHT

LIANO, June 28 (AP)—T. W. Barrington, 17, died last night five hours after he had been knocked into a Liano river swimming hole after a fight with another youth. Barrington fell into water 18 inches deep. His companion rescued him but efforts to revive him failed. A coroner's verdict said the boy met death from drowning. An investigation was started.

She felt as if she were burning with shame.

MRS. DRILL met her in the hall, and Georgie pulled up sharply, breathless and panting, her cheeks scarlet.

"There's something else I have to say to you, Georgie," Mrs. Drill said. "Yes," she looked up at him, her eyes heavy with nameless trouble. "It's about these walks. I think this must be the last."

"I shall have a great deal to do after today, getting ready to go away. It's been very enjoyable seeing you like this, but now—" she interrupted quickly. "It's because your wife is coming home?"

"It's nothing to do with my wife, and she won't be here for another fortnight at least. It's for no reason except the one I've given you, that I shall be busy."

Georgie felt as if something in her brain suddenly caught fire and burst into flame. "It's an excuse," she said shrilly. "That's what it is, just an excuse. You don't like being seen with me, I'm not pretty enough or interesting enough. You can't be so busy that just an hour every day is too much to spare. I know you didn't want to be friends with me really ... you were just sorry that day Lovelock died. Now you've had enough of it, and it's a good chance to send me about my business. You're wife's coming home, and I know she's smart and pretty. You'd

Markets

New York Stocks

NEW YORK, June 28 (AP)—Buoyancy of the so-called "wet" issues aided the stock market to bear up fairly well during most of today's session, but an irregularly lower movement later developed in other groups coincident with a reaction in grains and another sharp slump of the dollar. Closing prices were: Transfers approximated 5,300,000 shares.

Table of stock market prices including Am & F.P., Am Rad S.S., Am T&T, Anaconda, and various oil and grain stocks.

NEW ORLEANS COTTON

NEW ORLEANS, June 28 (AP)—Cotton opened steady but somewhat quieter than of late. The market turned firmer during the middle of the morning due to advance in stocks, some recovery in wheat and a big jump in sterling exchange. Shorts covered freely and there was considerable general buying which ran October up to 10.58 and December to 10.74, or 27 to 28 points above the lows to within one point of the early highs.

# WEST VIRGINIA AND CALIFORNIA VOTE TO JOIN WET PARADE

## Texas Quartet Of Tennis Stars Enter 4th Round

HAVERFORD, Pa., June 28. (AP)—A University of Texas quartet was the only contingent intact today as the 49th National Intercollegiate tennis championships entered the fourth round.

Today, however, saw the four—Karl Kamrath, Martin Buxby of Miami, Fla., Capt. Sterling Williams and Hal Surface, of Kansas City—facing the most serious threat to their solidarity.

Although Kamrath, seeded second, and Buxby, seeded fourth, were favored to triumph respectively by Bill Reese of Georgia Tech and Fred Roll, Pennsylvania, their teammates faced seemingly greater hurdles. Surface was to take on Wilmer Hines, North Carolina ace, who is seeded eighth, while Williams faced Joe Coughlin of Stanford.

Coughlin's 54-game set yesterday with Egbert Miles of Yale was a new record for major tournaments.

In other fourth round matches, Al Horton, Williams, was stacked against Hugh Lynch, Princeton; Hamilton's Dick Murphy, seeded third, against Walter Arensberg, Harvard; and C. Elliott Loughlin, former navy ace, against Joe Case, of Penn.

## REPEAL LIST HAS SIXTEEN STATES ON IT

### TWENTY MORE STATES NEEDED TO DELETE AMENDMENT

By The Associated Press.

ONE third of the 48 states have now voted to strike the 18th amendment from the constitution. West Virginia and California made the score 16 to 0 in favor of repeal when their voters returned majorities yesterday for the 2nd amendment, which aims to delete the 18th.

In West Virginia, a border state which had been dry for 20 years, the margin of the repeal victory was about 79,000 with approximately three-fourths of the ballots counted. California, which had wiped its own prohibition law from the books last year, was giving repeal a lead of about 3 to 1 as tabulations poured in today.

Repealists must win 20 more states to delete prohibition from the constitution. The states which have voted to ratify, besides West Virginia and California, are: New York, New Hampshire, Indiana, Connecticut, Iowa, Michigan, Wisconsin, Rhode Island, Wyoming, New Jersey, Delaware, Nevada, Illinois, and Massachusetts.

## Bing Crosby Is Father Of Boy

HOLLYWOOD, June 28 (AP)—Bing Crosby, who flutters feminine hearts with times about moons and lilacs, today was more interested in basenets.

He's the co-author of a seven-pound, six-ounce baby boy, born last night to Mrs. Crosby, the former Dixie Lee of the films. The doctor said the singer was doing well. The mother and baby, also, were all right.

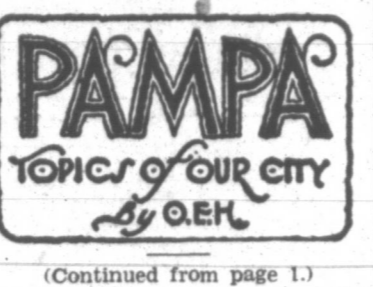

## Wheelbarrow Is Latest On Balloons

No longer will the lowly wheelbarrow be hard to push.

A pneumatic tire for wheelbarrows, having many advantages over the old steel wheel or solid tire type, has just been announced by engineers of The Goodyear Tire & Rubber company.

Of single tube construction, similar to that used in bicycle tires, this newest Goodyear product is designed to carry a load of 450 pounds of air, and is suitable for about 95 per cent of all wheelbarrow operations.

W. C. Campbell of Eastland is visiting friends here this week.

(Continued from page 1.)

## Long-Pull Profit

The rental and pool profits are not all the farmer gets. If the scheme works out, the price of cotton will go up to a "living level" as the grower sells the cotton he did not plow under at the best price he has received in several years.

## The "If"

If the secretary of agriculture can't induce the farmers to turn 2,000,000 bales of growing cotton back into the sod, the deal is off. It's up to the farmers.

## MILLIONS IN RENTALS

By this plan the cotton farmers of Texas would receive rental for fit payments in July or August of \$40,000,000 to \$50,000,000. The proposal offers a choice between two plans of payment, should the farmer agree to destroy not less than 25 per cent nor more than 40 per cent of this year's crop. The first plan is a cash payment and in addition thereto an option on the number of bales that may be eliminated by destroying a part of his growing crop. By the option the secretary of agriculture grants to the farmer the privilege of securing from the government cotton equivalent to what his acreage would have produced at 6 cents per pound, thereby putting the farm board's cotton back into the hands of the farmer. When the cotton thus obtained is sold the difference between 6 cents a pound and the selling price represents an additional benefit to the farmer. The following is a table of cash payments where options are also included:

Cash With Option.	No Option.
100 to 124 lbs. .... \$6.00	100 to 124 lbs. .... \$7.00
125 to 149 lbs. .... 7.00	125 to 149 lbs. .... 8.00
150 to 174 lbs. .... 8.00	150 to 174 lbs. .... 9.00
175 to 224 lbs. .... 10.00	175 to 224 lbs. .... 11.00
225 to 274 lbs. .... 11.00	225 to 274 lbs. .... 12.00
275 and up ..... 12.00	275 and up ..... 13.00

## UP TO FARMERS

The work of the extension division of the A. & M. college—the county agents—is to explain and not to demand that farmers join the movement. Farmers of today must be smart business men, even economists to understand the relief which is being planned for them. The cotton plan is much simpler than the wheat plan, which we will explain in detail as soon as all provisions are announced.

## TEXAS DAY PLANNED

DALLAS, June 28. (AP)—Glen D. Davis, assistant manager of the East Texas chamber of commerce, announced today that John N. Garner, vice-president of the United States, would be invited to address the Texas day banquet in Chicago Aug. 23. Present plans call for some 300 East Texans to attend the world's fair that day. A special train bearing them will leave Longview, Aug. 19.

C. F. Collier of Amarillo was a Pampa visitor today.

## BRAVES PUSH CARDS DEEPER INTO SECOND

### WASHINGTON LOSES TO CLEVELAND IN 7-6 DUEL

By HUGH S. FULLERTON, Jr., Associated Press Sports Writer.

Second division clubs of the major leagues have been dipping their thumbs into the pennant pie in the past week or so with results costly to two leading contenders.

First it was the Boston Red Sox and St. Louis Browns who ripped the Yankees loose from the American league lead and now the Boston Braves appear to have taken up where the last-place Phillies left off on the job of knocking the Cardinals deeper into second place in the National.

## Bufkin Leaves For West Point

SEATTLE, Wash., June 28. (AP)—Burl Bufkin, University of Washington halfback who was counted on by Coach Jimmy Phelan as a main cog in his backfield this fall, left suddenly last night for the east, his fraternity brothers said, to accept a West Point appointment.

## --FARMERS

(Continued from page 1.)

acreage retired would yield at its ordinary rate. This cotton the government may sell at sometime during the year and pay the farmer the difference between selling price and the option price.

By the second plan open to the farmer he would be paid a straight cash rental ranging from \$7 per acre to \$20 per acre for every acre retired, exact amount depending on what the land ordinarily yields.

Can Get All Cash

Farmers wanting all cash payment and not desiring to take an option on government cotton are offered a higher scale of cash rental payment than offered under the first plan. These are based on what the land retired would ordinarily produce, as follows: from 100 to 124 pounds lint per acre, \$7 in cash per acre; 125 to 149 pounds, \$9 per acre; 150 to 174 pounds, \$11 per acre; 175 to 224 pounds, \$14 per acre; 225 to 274 pounds, \$17 per acre; and yields more than 275 pounds lint per acre the cash payment would be \$20 per acre.

Asked what farmers are expected to do with cotton land plowed up and retired from production, H. H. Williamson, vice-director of the Extension service of Texas A. and M. college, stated that this land may be used for any pasture or cover crop to produce feed for livestock or to enrich the soil. "If and when the farm act as applied to cotton becomes operative," says Mr. Williamson, "Texas farmers will probably find that late sudan grass crops or cowpeas may be sown to advantage for late summer grazing or for turning under. Probably many farmers will decide to let the land lie fallow until early fall and then sow such small grains as oats, rye, barley or wheat for fall and winter grazing."

## ANSWERS TO TODAY'S THREE GUESSES

Viscount Ishii is chief of the JAPANESE DELEGATION at the Economic Conference at London. The symbol is the STAR OF DAVID. The animal is a CHAMOIS.

## Warren Leading Mags In Batting

Lorrie Warren, slugging Magnolia centerfielder, jumped into the batting lead of his team Sunday afternoon to replace Freddy Newsome and Jimmie Baldwin who have been leading the way most of the season. Warren boosted his average to .486. Leo Hipps has the big average with .636 but he has only played two games while Warren has participated in seven encounters.

Jimmie Baldwin is in second place for regulars with an average of .435. Freddy Newsome follows with .394 and Rusty Cahill has an average of .303. Raeburn Burke, pitcher, has an average of .363.

The team batting average for the seven games is .326. In all, 19 players have participated in games.

Warren leads in hits with 17 to his credit. He is also tied with Baldwin in runs scored with 14. Warren and Newsome are tied up for home run honors with two each.

## EYE FOR BEAUTY KILLS

NEW YORK (AP)—An urge to pick "the pretty flowers" killed Michael Veglie, three years old.

Playing on the porch of a neighbor's house, he spied a large urn, filled with growing plants.

He clasped the rim with his tiny hands and tried to pull himself up. The urn toppled and crushed him.

## Tires Found By Boy At Building; Believed Stolen

A small boy, playing around the Atlas Supply company this morning, found a Ford rim and tire and a larger tire and tube that had apparently been hidden under one end of the building until they could be conveniently taken away. He told his parents about the tires, and Constable Frank Jordan was called. With City Traffic Officer Wayne Nicholson, Mr. Jordan went to the place where the tires were found. Officers were already investigating the theft of tire and rim off Lester Ellis' car, parked in front of the Schneider hotel last night. Neither of the tires found belong to him, however.

The theft of the tire last night was the first loss reported since June 12. Officers have been anticipating another epidemic and have been watchful.

## 'COUNTRY BOY' GOING CHICAGO, June 27. (AP)—Prof. E. A. Roas of the University of Wisconsin says farm families in America are becoming more like city families. Speaking before the American Sociological society he said: "There are fewer farm children today and there will be less of a family. "The child is not so valuable from a financial angle as it used to be on the farm."

## Quick Relief for Chills and Fever and Other Effects of Malaria!

Don't put up with the suffering of Malaria—the teeth-chattering chills and the burning fever. Get rid of Malaria by getting the infection out of your system. That's what Grove's Tasteless Chill Tonic does—destroys and drives out the infection. At the same time, it builds up your system against further attack.

Grove's Tasteless Chill Tonic contains tasteless quinine which kills the infection in the blood. It also contains iron which builds up the blood and helps it overcome the effects of Malaria as well as fortify against re-infection. These are the effects you want for COMPLETE relief. Grove's Tasteless Chill Tonic is pleasant to take and absolutely safe, even for children. No bitter taste of quinine. Get a bottle today and be forearmed against Malaria. For sale at all stores. (Adv.)

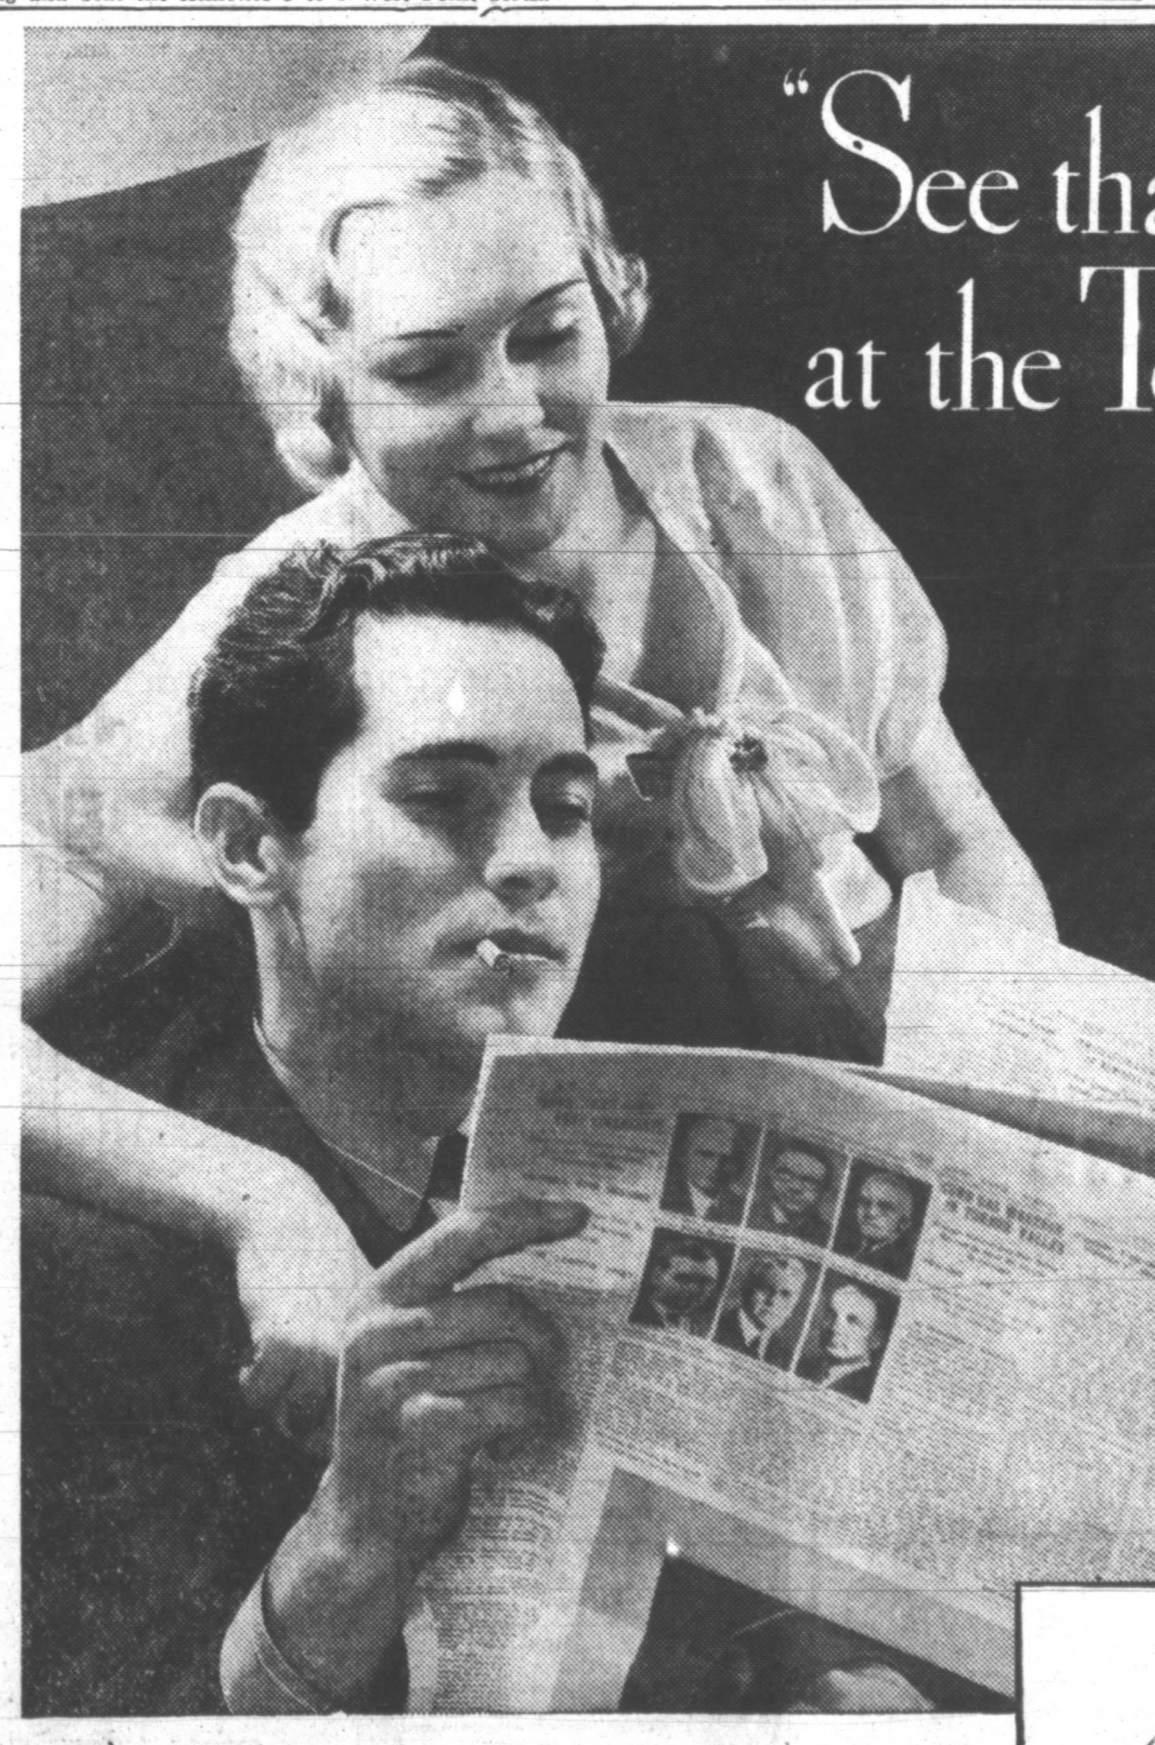

## SPEND THIS WEEK END IN NORTHERN NEW MEXICO

You can leave Saturday and spend three days, including the FOURTH of JULY in the cool mountains around Santa Fe, only a days drive from Pampa. On Highway 66 at Pecos get fishing and touring information at Casa Loma or Harrison's Country Store, or go up the Pecos River Canyon twelve miles to IRVIN'S.

Altitude approximately 8,000 feet. Finest trout streams in New Mexico available. Horseback riding, hiking, mountain climbing, or just resting—you'll enjoy every minute at IRVIN'S. Accommodations to suit all desires. One or two room cabins, all with electric light and running water, some with private baths. A few cabins for large families.

Rates reduced. Write for booklet or reservations, or come and we'll take care of you

## IRVIN'S ON THE PECOS

"See that Ad up there at the Top of the Page?"

It's talking about Chesterfield—says it has a good reputation—What about it?

TALKING ABOUT the reputation of a cigarette—that's something new. I know about reputation of people... reputation of some other things... and, come to think about it, I should say that CHESTERFIELD has an A-1 reputation. You know, it seems to have real merit. To me, for a cigarette 'To Satisfy,' it certainly has to be made right; and then it has to taste right. I just don't like them strong... they just have to be mild. CHESTERFIELD has what it takes to satisfy. That's what people say about it."

They have what it Takes to Satisfy Just Try them!

# STATE PRESIDENT-ELECT IS GUEST FOR B. P. W. INSTALLATION

## NEW OFFICERS ASSUME DUTY AT RECEPTION

### PROGRAM PRESENTED TO MEMBERS AND MANY GUESTS

PRESENCE of the state president-elect of Business and Professional Women's clubs, Mrs. Faye Gordon of Amarillo, and a group of other state, district, and local officials from that city, featured the program when officers of the Pampa club were installed last evening.

Mary Lou Downs took office as president, Lillian Jordan as vice-president, Mildred Overall as recording secretary for a second term, Clara Lee Shewmaker, retiring president, as corresponding secretary, Gladys Robinson as treasurer, and Mabel Gee as parliamentarian.

**Meeting At Club**  
The installation was conducted in a reception at the city hall club rooms, beautifully arranged with cut flowers and shaded lights. New officers and the visiting state officers formed the receiving line, and Christine Smith presided at the registry.

iced punch and wafers were served from a table set with pink and green, lighted with pink and green tapers. Ruba McConnell and Vera Lard served. Kathryn Vincent was at the piano as the guests arrived, and were welcomed.

Lillian McNitt, chairman of the program committee, introduced the numbers. A piano solo by Madeline Tarpley was followed by presentation of an attendance award to Mrs. Gee, who attended every meeting the past year. The award was given by Miss Shewmaker.

**Stewart Plays**  
T. Duncan Stewart entertained with a group of violin numbers. He played two original selections, Nocturne in A Minor and Introspection, then played Caprice, Paganini; Londonderry Air and a popular song, Auf Weideseen, in his own arrangements.

Miss Shewmaker introduced the new officers, charging each with her duties. Misses J. H. Slager and Fred Ivey of Montgomery, Ala., are world bridge champions. The National Bridge association announced today that they had the best score of north-south pairs in a world wide contest, May 1 in which more than 100,000 players participated.

Leon D. Craine and J. Frederic Benedict of Sherburne, N. Y., were tied with Otto Kretzing and Isak Nelson of Oslo, Norway, for the international championship of east-west pairs.

The bidding and play of Mrs. Slager and Mr. Levy were almost perfect as compared with par for 16 pre-arranged hands.

Among the state championship winners were the following:  
North-south: Melvin R. Wolff and Mrs. Lottie Lipoff, San Antonio.  
East-west: Webb Ellis and Bill Horn, Austin.

**Executive Board Of B. P. W. Club To Meet First Time**  
A called meeting of the new executive board of the Business and Professional Women's club has been set for 7:30 Friday evening by Mary Lou Downs, president.

This meeting will replace the regular board meeting scheduled for the first Tuesday of next month, which will fall on July 4. Plans for the year's program will be the chief matter for the board's attention, Mrs. Downs said.

**Perryton Scout Event To Draw Troops In Area**  
C. A. Clark, executive of the Adobe Walls council, left this morning for Perryton, where he will attend the final sessions of an outdoor meeting of troops in that area. The camp opened Monday morning and will close tomorrow night with a court of honor.

Troops from towns near Perryton are in attendance. The boys are working on merit badges and advancement in rank. A suitable camp location has been located south of Perryton.

J. B. Jones of Lubbock is visiting friends here this week.  
R. A. Brown of Dallas was a Pampa visitor yesterday.  
Champ Clark of Fort Worth is in the city on business.

Mrs. W. E. Smith of McLean was in the city yesterday afternoon.

## Aids Diplomat

**ALICE MORRIS**, above, daughter of the new United States ambassador to Belgium, David H. Dennis, is shown above as she arrived at Plymouth, England, en route to Brussels, where she will be the legion hostess.

## Alabama Couple Declared World Bridge Champs

NEW YORK, June 28 (AP)—Mrs. J. H. Slager and Fred Ivey of Montgomery, Ala., are world bridge champions. The National Bridge association announced today that they had the best score of north-south pairs in a world wide contest, May 1 in which more than 100,000 players participated.

Leon D. Craine and J. Frederic Benedict of Sherburne, N. Y., were tied with Otto Kretzing and Isak Nelson of Oslo, Norway, for the international championship of east-west pairs.

The bidding and play of Mrs. Slager and Mr. Levy were almost perfect as compared with par for 16 pre-arranged hands.

Champ Clark of Fort Worth is in the city on business.

Mrs. W. E. Smith of McLean was in the city yesterday afternoon.

## McLEAN LIONS PLAN A PICNIC FOR FAMILIES

### NEW RESIDENTS OF TOWN MOVE INTO HOMES

McLEAN, June 28.—Members of the Lions club were served a chicken dinner at the meeting Tuesday. A picnic for the Lions and their families was planned for the near future.

Billie Biggers made an interesting talk on "My Home Town." Lions pledged themselves to work as individuals to promote the cotton acreage reduction plan.

Lions absent from the luncheon to attend a zone meeting at Clarendon were Boyd Meador, Tom Holloway, D. A. Davis, John Cooper, and Bruce.

**School Head Arrives.**  
Mr. and Mrs. A. C. Croyer and their niece, Helen Stair, have moved to McLean to make their home. Mr. Croyer is to be superintendent of the McLean schools next term.

He was elected in the spring to take the place of Superintendent Boswell, who went to Abilene to accept the position of dean of McMurray college.

Mr. and Mrs. R. B. Stout recently moved here from Pampa. Mr. Stout is connected with the sheriff's department.

Mr. and Mrs. Tommie Chesser and little daughter, Tommie Jean, of Pampa visited Mr. and Mrs. Wood Hindman at the Hindman hotel Sunday.

Mrs. Fannie Gross and son, Raymond, moved to Amarillo Wednesday.

Lee Atwood made a business trip to Amarillo Wednesday.

## Birthday Of George Newby Is Honored At Outdoor Party

George Newby was honored on his birthday Monday evening, when members of Taylor Merry club entertained with a wafers roast at the H. B. Taylor home.

Games were played on the lawn, and winners and marshmallows roasted over a bonfire.

Those present were Mr. and Mrs. L. R. Taylor and children, Mr. and Mrs. Billie Taylor and children, Mr. and Mrs. Elzie Hicks and children, Mr. and Mrs. S. I. Harold and children, Mr. and Mrs. O. J. McAllister and children, Mr. and Mrs. Earl Phillips and children, Mr. and Mrs. Lloyd Cooper, Mr. and Mrs. Gordon Smith and children, Mr. and Mrs. Jerry Lockard, Mrs. Virgil Kidwell and children, Mr. and Mrs. H. B. Taylor and children, Evelyn Harwood, Lorita Hogan, Winnie Bond, Jim Ayers, Elmer Balch, Eugene Harwood, the host and hostess.

**COLORED CHURCH PICNIC**  
A Fourth of July picnic will be held at Macedonia Baptist church, colored, the pastor, J. J. Johnson, announces.

Refreshments of all kinds, cold drinks, and ice cream will be on sale for the benefit of the church. Friends of the church, white and colored, are invited to visit the picnic grounds and make their purchases during the day.

J. W. Fortenberry of Groom was a Pampa visitor this morning.  
Mrs. L. C. Neeley of Amarillo visited friends here yesterday.  
Walter Nelson of Borger was a visitor here last night.

Mr. and Mrs. Charles A. Conley and children of Breckenridge left for their home this morning after visiting friends here.

## Saving Graces

Mr. and Mrs. C. O. Harvey and baby Mr. and Mrs. Lucian Bryant and son spent Saturday night and part of Sunday near Wheeler.

Mr. and Mrs. H. C. Rush shopped in Pampa Saturday evening.

Mr. and Mrs. D. Conyers and family shopped in Pampa Saturday evening.

Mrs. Howard Simmons is somewhat improved after her lengthy illness.

Mrs. L. A. McGowan was in Skellytown Wednesday evening. She is recovering from her recent illness.

Mrs. Tom Faust and children are visiting Mr. and Mrs. Joe Carroll and Mrs. and Mrs. A. C. Carroll. Mrs. Faust, her two daughters and a son are from McComb, Miss.

Mrs. Sylvia McCracken of Pampa spent Sunday with her daughter and family, Mr. and Mrs. F. D. Harvey and daughter, June.

Mrs. T. B. Parker and family of Skellytown were among those who shopped in Pampa Saturday night.

Mrs. Huckins of Roxana is in a Pampa hospital recovering from an appendicitis operation.

Mr. and Mrs. Hugh Ellsworth returned last week from the world's fair.

Mrs. Emma Turney of White Deer shopped in Pampa this morning.

W. E. Dart of Mobeetie was in the city Tuesday.

## COUPLE MARRY AND WILL LIVE IN SKELLYTOWN

### OTHER EVENTS TOLD IN REPORT FROM SKELLYTOWN

SKELLYTOWN, June 28.—Sam McGinnis and Miss Lillian Weaver moved to Sayre, Okla., Saturday and were united in marriage. They plan to make their home in Skellytown.

Both have made their homes here for several years and are well known in the vicinity. Mrs. McGinnis has attended school here, and Mr. McGinnis is employed with the Cabot Co. and is a member of the baseball team here.

Mr. and Mrs. C. O. Harvey and baby Mr. and Mrs. Lucian Bryant and son spent Saturday night and part of Sunday near Wheeler.

Mr. and Mrs. H. C. Rush shopped in Pampa Saturday evening.

Mr. and Mrs. D. Conyers and family shopped in Pampa Saturday evening.

Mrs. Howard Simmons is somewhat improved after her lengthy illness.

Mrs. L. A. McGowan was in Skellytown Wednesday evening. She is recovering from her recent illness.

Mrs. Tom Faust and children are visiting Mr. and Mrs. Joe Carroll and Mrs. and Mrs. A. C. Carroll. Mrs. Faust, her two daughters and a son are from McComb, Miss.

Mrs. Sylvia McCracken of Pampa spent Sunday with her daughter and family, Mr. and Mrs. F. D. Harvey and daughter, June.

Mrs. T. B. Parker and family of Skellytown were among those who shopped in Pampa Saturday night.

Mrs. Huckins of Roxana is in a Pampa hospital recovering from an appendicitis operation.

Mr. and Mrs. Hugh Ellsworth returned last week from the world's fair.

Mrs. Emma Turney of White Deer shopped in Pampa this morning.

W. E. Dart of Mobeetie was in the city Tuesday.

## Buddhist Nun

MRS. C. I. CHESTER, of Los Angeles, above, a former chorus girl, has become a Buddhist nun, the second American woman to enter the oriental order.

At a simple ordination she received the name of Kwa-Sho, "A Flower in the Forests." Soon she will leave for Kyoto, Japan, to enter a convent.

Select varieties of fruits which tend to hold their shape. With such soft fruits as apricots and peaches, use those slightly under-ripe. Pick over all berries carefully, wash, and drain. Wash, stem and seed cherries. Wash and prick the skins of plums to prevent shriveling of the fruit. Remove skin of soft fruits such as peaches, apricots, figs, and tomatoes by a hot dip. Pare and core pears and quinces, and cut them into halves or quarters as desired. Pare watermelon rind and cut into pieces of desired size.

All fruits must be heated either in sirup or in water to change the cell walls so they will absorb sugar. While the fruit is cooking, it absorbs sugar from and gives up juice to the sirup. At the same time the sirup is concentrated to a degree that will preserve the fruit. The aim is to bring about the exchange from sirup to fruit without undue change in shape of the fruit or toughening of its tissues. To accomplish this the different types of fruit must be handled differently.

If berries are covered with sugar and allowed to stand overnight, juice will be drawn out of the berries. If they are then heated in this sugar-juice mixture until a sirup is formed and the berries are hot through, they absorb the sirup and

tend to "plump up." This is facilitated by leaving the berries in the sirup to cool. During this process the water from the berries dilutes the sirup. The whole mass can be cooked, or it can be spread out on a pan and slowly concentrated in a low temperature oven or in the sun with less change in color and flavor. Another method is to drain the juice off, concentrate it and pour it while hot over the berries again. This can be repeated until the desired concentration is reached.

To retain the shape and flavor of soft fruit, avoid cooking it any more than necessary. Cooking in sirup toughens the cell wall material. This tends to make soft fruits firm but will toughen very firm fruit such as some pears, quinces, and watermelon rind. This can be prevented by cooking these fruits in water or dilute sirup until tender before putting them in the concentrated sirup.

The sirup should be concentrated until it gives the jelly test if the fruit is one which contains pectin and acid. Otherwise concentrate it until just a little thicker than for jelly (boiling/point 219 to 223 degrees F.). Pectin may be added to bring about a slightly jellied juice, which adds to the attractiveness of preserves of most kinds. Commercial pectin directions should be used for this process.

**Jams**  
For making jams, well-ripened (See PRESERVES, Page 6.)

**Preserves**

This tends to make soft fruits firm but will toughen very firm fruit such as some pears, quinces, and watermelon rind. This can be prevented by cooking these fruits in water or dilute sirup until tender before putting them in the concentrated sirup.

The sirup should be concentrated until it gives the jelly test if the fruit is one which contains pectin and acid. Otherwise concentrate it until just a little thicker than for jelly (boiling/point 219 to 223 degrees F.). Pectin may be added to bring about a slightly jellied juice, which adds to the attractiveness of preserves of most kinds. Commercial pectin directions should be used for this process.

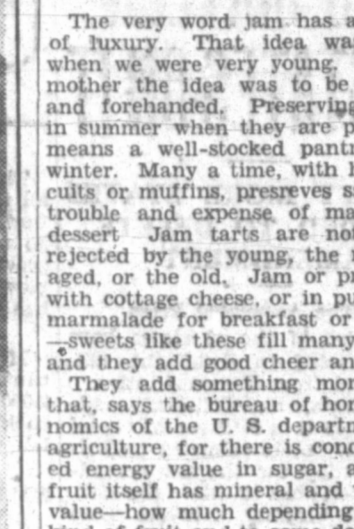

**Jams**  
For making jams, well-ripened (See PRESERVES, Page 6.)

**Preserves**  
Select varieties of fruits which tend to hold their shape. With such soft fruits as apricots and peaches, use those slightly under-ripe. Pick over all berries carefully, wash, and drain. Wash, stem and seed cherries. Wash and prick the skins of plums to prevent shriveling of the fruit. Remove skin of soft fruits such as peaches, apricots, figs, and tomatoes by a hot dip. Pare and core pears and quinces, and cut them into halves or quarters as desired. Pare watermelon rind and cut into pieces of desired size.

All fruits must be heated either in sirup or in water to change the cell walls so they will absorb sugar. While the fruit is cooking, it absorbs sugar from and gives up juice to the sirup. At the same time the sirup is concentrated to a degree that will preserve the fruit. The aim is to bring about the exchange from sirup to fruit without undue change in shape of the fruit or toughening of its tissues. To accomplish this the different types of fruit must be handled differently.

If berries are covered with sugar and allowed to stand overnight, juice will be drawn out of the berries. If they are then heated in this sugar-juice mixture until a sirup is formed and the berries are hot through, they absorb the sirup and

tend to "plump up." This is facilitated by leaving the berries in the sirup to cool. During this process the water from the berries dilutes the sirup. The whole mass can be cooked, or it can be spread out on a pan and slowly concentrated in a low temperature oven or in the sun with less change in color and flavor. Another method is to drain the juice off, concentrate it and pour it while hot over the berries again. This can be repeated until the desired concentration is reached.

To retain the shape and flavor of soft fruit, avoid cooking it any more than necessary. Cooking in sirup toughens the cell wall material. This tends to make soft fruits firm but will toughen very firm fruit such as some pears, quinces, and watermelon rind. This can be prevented by cooking these fruits in water or dilute sirup until tender before putting them in the concentrated sirup.

The sirup should be concentrated until it gives the jelly test if the fruit is one which contains pectin and acid. Otherwise concentrate it until just a little thicker than for jelly (boiling/point 219 to 223 degrees F.). # FRANK HAWKS CANNOT HELP IN SEARCH FOR JIMMIE MATTERN

## OIL COMPANY OFFICIAL SAYS IMPRACTICABLE

### GRIFFIN SAYS PLANNED RESCUE PARTY WOULD FIND MATTERN

NEW YORK, June 28. (AP)—Chicago representatives of Jimmie Mattern, missing round the world flier, were informed by telegraph today that it would be "impracticable" for Frank Hawks, speed flier, to assist in the search for him at this time.

The telegram was sent to Jack Clark, one of the Mattern representatives, who yesterday appealed for Hawks' help in searching for the missing flier. It was signed by W. S. Rodgers, president of the Texas company, for which Hawks is technical advisor and without authorization of which he is not free to act in such a matter.

CHICAGO, June 28. (AP)—Bennett Griffin, flying partner of the missing Jimmie Mattern, round the world flier, today predicted that planned rescue parties would find Mattern—and probably hanging on to the end of a fishing pole.

Griffin and Mattern last year crossed the Atlantic on a flight to Moscow that ended in a bog 300 miles short of their destination.

## --VOLSTEAD

KANSAS CITY, June 28. (AP)—Col. George H. Wark, prohibition director for Kansas, Missouri, Oklahoma and Arkansas, together with sixty members of his personnel, were indefinitely furloughed in an order received today from Director Dalmple.

H. L. Duncan, chief special agent, bureau of prohibition, department of justice, was named in the order as Wark's successor.

Deputy administrators in the district who were furloughed together with their chief:

Thad Rowden, Kansas City; Jas. Dillon, St. Louis; Henry Sutterfield, Little Rock; Samuel Gurley, Fort Smith; James Going, Topeka, and Bee Demonbrun, Oklahoma City.

## --PRESERVES

(Continued from page 4.)

fruit is desirable both for flavor and texture. The fruit should be prepared and weighed as for preserves. The proportion of sugar used is the same (4 to equal parts). One fruit may be used alone or with others in desirable flavor combinations. Jams may be crushed or "cooked up," as desired. A wooden potato masher is useful in crushing. Blueberries and hard berries may be run through a food chopper to advantage. A short cooking with the addition of a small quantity of water before sugar is added helps in the extraction of any pectin. Add the sugar to the boiling mixture and cook until a good jelly test is obtained. In the case of the fruit does not contain pectin or acid, either may be added as in jelly or preserves. Jam made from fruits without pectin is cooked to a slightly thicker consistency than for jelly, as is recommended also in the case of preserves.

Griffin is here to participate in the American air races starting Saturday.

"Jimmie told me when he made the hop over Siberia in the world flight he was going to be prepared to live for weeks along the coast in the event he had to make a landing," Mattern said. "He said he was taking fishing tackle and five pounds of salt to fix the fish up right."

Jack Clark, Mattern's representative, said the flier also carried a 6-inch knife to aid in procuring food, and had a water condenser

along to enable him to get fresh water from the ocean. Clark returned to New York for a series of conferences this afternoon regarding rescue trips to search for Mattern.

NCME, Alaska, June 28. (AP)—Experienced fliers of the north echo the optimism expressed by Jimmie Mattern's backers in Chicago that the Texas flier has not perished. For many days the belief has been general that he landed in some inaccessible spot on the Siberian coast.

Naval planes, coast guard vessels and more than a score of Alaskan fliers have joined in the search.

## Running Of Back Oil Allowables Is Discontinued

AUSTIN, June 28. (AP)—The Texas Railroad commission today ordered that running of back allowables in the East Texas field be discontinued for 31 days starting July 1.

The order was issued to allow the commission to obtain an "absolute

check" on production in the giant area.

The existing allowable is approximately 541,000 barrels per day. The daily run of back allowable oil has been 59,850 barrels per day, making a total allowable production of 600,850 barrels.

Ernest O. Thompson, commissioner, said reports from the field were that the production on June 24 was 726,939 barrels, considerably in excess of the allowable.

Thompson said this did not mean cutting off the back allowable permanently, but was an effort to ascertain if the existing allowable was

preventing waste of reservoir energy and to determine if the restriction was sufficient to produce the field efficiently.

### PIG CROP INCREASES

WASHINGTON, June 28. (AP)—The department of agriculture today reported an increase of three per cent in the spring pig crop of this year over 1932 and a prospective increase of 8 per cent in the number of sows to farrow this fall compared with the 1932 fall season.

Pampa hospital after an operation. S. G. Surraat is resting well at

### GOOD SIGN

WASHINGTON, June 28. (AP)—The result of the vote in West Virginia, Postmaster General Farley said today, was "an indication of favorable results for a prohibition repeal vote in three other southern states voting next month, Alabama, Arkansas and Tennessee."

this state so long as it is used solely for this purpose.

Such is the supreme court's ruling in the case of James V. Alfred vs. J. C. Engelman, Inc. A rehearing in the case has been requested. Mr. White also directed attention to the fact that "insofar as commercial motor vehicles are concerned, when used for the transportation of property for hire, the law requiring the driver thereof to have a chauffeur's license is applicable, and should be complied with by those using the highways and coming within the purview of the statute."

# CARNERA MIGHT ENTER THE RING A BETTING FAVORITE AGAINST SHARKEY

## CHAMPION IS BARE SIX TO FIVE CHOICE

### TURN TOWARD ITALIAN HARDLY SEEMS JUSTIFIED

By HERBERT W. BARKER.  
Associated Press Sports Writer.

NEW YORK, June 28 (AP)—For the first time in boxing history, a heavyweight champion may enter the ring a short-ender in the betting when Jack Sharkey ducks under the ropes in Madison Square Garden's Long Island bowl tomorrow night for his 15-round title defense against Primo Carnera.

Today Champion Jack was a bare 6 to 5 choice with some quotations as low as 11 to 10, and there were strong indications Carnera would be no worse than an even money bet, and perhaps a slight favorite, by fight time.

Just what has caused the rush of money on the mammoth Italian's chances had even the book-makers mystified, but it seemed possible Carnera's knockout victory over ill-fated Ernie Schaaf, as well as Sharkey's inactivity, may have played an important part.

Sharkey had few, if any, uncomfortable moments when he outpointed Primo at Ebbetts field two years ago and a long list of other heavyweights, including King Levinsky, Jimmy Maloney, Paulino Uzcudun, Stanley Poreda, Hans Birkie, Larry Gains, and Art Lasky have traveled the full ten-round route against him. Gains, Poreda and Maloney all hold decisions over him at that distance.

On the face of things, the swing toward Carnera hardly seems justified. Sharkey has trained faithfully and well. No longer quite as fast as he was a few years ago, the Boston sailor nevertheless still is one of the world's smartest glove-swingers, a durable hard-punching veteran who, on his good nights, is all but unbeatable.

He will be forced to concede Carnera's tremendous physical advantages—60 pounds in weight, many inches in height and reach—but he has beaten the Italian before and probably is fully convinced he can repeat.

Both principals wound up intensive preparations for the match yesterday—Sharkey at Orangeburg, N. Y., and Carnera at Pomona, Calif. N. J. Outwardly at least both seemed to have reached prime condition.

The champion who arrived in New York last evening, expects to tip the scales at 204 pounds for the official weighing-in ceremonies at 1 p. m. (E. S. T.) Thursday afternoon. Carnera probably will weigh 284 pounds.

Meanwhile, ticket sales were going slowly but the Garden was counting upon just such another last-minute rush as sent the Sharkey-Max Schmeling bout well over the financial top last summer. With fair weather, William F. Carey, president of the Garden, believed nearly 60,000 spectators would contribute to a gate in the neighborhood of \$275,000.

The opening preliminary on the card is scheduled for 7 p. m. (E. S. T.) with the main bout between 8:30 and 9 p. m.

**MURDER CHARGE FILED**  
PURCELL, Okla., June 28. (AP)—Jimmy Byers, 33, today was charged with murdering his 68-year-old widowed aunt, Mrs. Emma Bunch, found strangled in her home at Byars Sunday.

R. B. Moody of Dallas is a Pampa visitor for a few days.

## MAGS TO PLAY ROADRUNNERS AND WHEELER

### BOTH GAMES SET FOR SUNDAY AT MAG PARK

A double-header will be played at Magnolia park Sunday afternoon, the first game to be called at 2 o'clock. The Magnolia "Mags" will

tangle with the Danciger Roadrunners and Wheeler instead of going to Wheeler for a scheduled game.

Arrangements for the double-header were completed yesterday afternoon when Manager Howard Buckingham of the "Mags" called Wheeler and changed the game to Pampa. The Roadrunners have been defeating all comers the last few weeks and are anxious to try some stiff competition.

The "Mags" will have nothing to lose in the league game with Wheeler. The team has already won the first half of the league race. The game with the Roadrunners will start at 2 o'clock and the other game will follow after a brief workout by the Wheeler nine.

Admission to both games will be only 25 cents, the same price that has been charged for a single game

all season. Manager Howard Buckingham will have Burke, Rogers, and Stewart ready for mound duty but he has not named his starters. A long practice session will be held Friday afternoon.

The Roadrunners are taking the game seriously and Manager Earl C. Roff is putting his charges thru daily workouts at the Danciger plant east of the city. It is likely that Roff will decide to start Lefty Thomas on the mound. The port-sider pitched seven innings last Sunday and got nine strikeouts. He also hit six times on six trips to the plate and scored three runs.

R. S. Davis of Dallas was a Pampa visitor yesterday.

W. R. Irwin of Amarillo spent yesterday in Pampa.

## FIGHT PARTY WILL BE GIVEN BY NEWS TOMORROW EVENING

The NEWS will give another fight party tomorrow night, this time a blow by blow account of the Jack Sharkey-Primo Carnera battle in Madison Square Garden.

The account, received over Associated Press wire from the ringside, will be megaphoned from the roof of the NEWS building to the crowd on Somerville street. A radio broadcast of the fight will not be given. Chief of Police Jno. V. Andrews will have a section of the block cleared for the fight fans. The big bout is scheduled to start between 7:30 and 8 o'clock, Pampa time.

However, the teletype machines in the office will be started at 7 o'clock and results of the preliminaries and sidelights will be megaphoned before the main event gets under way.

Carnera will be attempting to take the heavyweight championship of the world from Jack Sharkey, who took it from Max Schmeling last year. The winner of the battle tomorrow night will meet Max Baer, who recently defeated Max Schmeling.

W. M. Perry of Lubbock is visiting here for a few days.

H. R. Carpenter of Bartlesville is transacting business here.

\$1.79

## SALE OF MEN'S FINE SUITS

\$15

We could make considerably more on these suits by carrying them over to next season and then repricing them on inflation value figures. But our inflexible policy says Clearance at real reductions. The advantage is all yours.

These are choicest garments from our best makers in finest weaves and smartest patterns.

Smart greys and tans. Included in this range are shorts and slims. Every suit with 2 pair pants.

We do nothing but examine eyes with the most scientific instruments, and fit modern glasses that look best on each individual person. Come in and give us a trial.
