PRICE FIVE CENTS

ROBBERS, BANK HEAD KILLED

Five American Fliers To Make Round-The-World 'Goodwill' Flight

BUSINESS MEN WILL SPONSOR LENGTHY HOPS

CHIEF OBJECTIVE WILL BE RUSSIA; FLIGHT STARTS SUNDAY

CHICAGO, July 12 (AP)—Five American fliers plotted a round-the-world course today for a "goodwill flight" to be started Sunday under the sponsorship of a group of American business men.

The long trail for their solitary ship led chiefly to Moscow, where they planned to spend a week or two, making "friendship hops" from the soviet capital.

Going by way of Bermuda, the Azores, Paris, and Berlin, they routed their return across Siberia and Alaska to Chicago.

Lieut. Comm. William H. Alexander of New York, former chief instructor at the U. S. navy training station at Pensacola, Fla., will be in command of the plane.

With him will be as co-pilots, Lt. Comm. John Wycliffe Isemann of New York, author of several textbooks of aviation, and Major William C. Brooks of Lincoln, Neb., who organized the Nicaragua air force and was the first man to set a loop record, with 237 consecutive loops, and the first altitude record holder, with 27,500 feet, both made in 1919.

Radio officer will be Capt. Arthur Finch of the merchant marine. Flight mechanic will be John Pitkalo. It was possible a sixth man, either Charles Healy Day or S. A. McCullum, both of New York, would accompany them as technical officer.

The plane will go first to New York, arriving about midnight Sunday. Refueling it will take off Monday at dawn for Bermuda, and continue Tuesday to the Azores, Wednesday it will fly to Paris, and Thursday to Moscow.

After its week or two of "friendship hops," the plane will fly in one day to Brazzaville on Lake Bakou, where fuel will be waiting. Next day it will go to Tigris on the Kamchatka peninsula. The third day it will go to Nome.

Negroes Can't Vote In Texas, Allred Holds

In Tragedy

The tragic death of 20-year-old Marian Mills, University of Oklahoma beauty queen, pictured above, has resulted in a wide search for Neal Myers, bottom photo above, a pharmacy student who was the last person to see her alive. Officers have learned that she took an illegally provided medicine in an attempt to avoid motherhood.

Opinion Is Based Upon Resolution Adopted by Democratic Party in 1932.

DALLAS, July 12 (AP)—Attorney General James V. Allred today handed down an opinion holding that negroes are not entitled to vote in the coming democratic primaries.

The opinion prepared by the attorney general's department was sent here for Allred's approval, due to its importance. It was addressed to D. B. Wood, county attorney of Williamson county.

Allred said his department had received numerous inquiries from election judges, officials of the party and from officers and candidates for office, as well as from negroes themselves wishing to vote.

The attorney general's decision was based upon a resolution adopted at the state convention of the democratic party in Houston May 24, 1932, reading as follows:

"Be it resolved that all white citizens of the state of Texas who are qualified to vote under the constitution and laws of the state shall be eligible to membership in the democratic party and as such entitled to participate in its deliberations."

This resolution, in effect, limited the right to participate in democratic party primaries to whites and consequently excluded negroes, Allred ruled.

The attorney general's opinion reviewed the various decisions of the United States supreme court, including the five to four decision in Nixon vs. Condon, written by Justice Cardozo in May, 1932, just before the passage of the resolution by the party in state convention.

In the Nixon case the supreme court of the United States held that the democratic state executive committee was without authority to bar negroes, but said:

"Whether a political party in Texas has inherent power today without restraint by any law to determine its own membership, we are not required at this time to affirm or deny."

The adoption of the resolution by the party in convention followed immediately after the Nixon vs. Condon decision.

"The court of civil appeals at San Antonio by a two to one decision upheld the validity of the resolution. Certified questions to the supreme court of Texas were dismissed on the ground that there was an absence of necessary parties to the suit," Allred said.

"I think this opinion of the court

BELIEVE MAN QUIT HIS CAR IN THAT CITY

CLASS PIN WITH HIS INITIALS FOUND IN MACHINE

HOUSTON, July 12 (AP)—Detectives conducted an intensive search here today for Neal Myers, University of Oklahoma student wanted for questioning in the death at Norman, Okla., of Marian Mills, co-ed beauty, after a youth believed to be Myers last night abandoned an automobile belonging to Myers' father.

Detectives said they were virtually certain that Myers was the youth who jumped out of the automobile last night when another motorist gave chase, then disappeared in the woods in the Cottage Grove section of the city.

A suitcase found in the automobile contained a class pin with the inscription "N. H. Myers, '35" and a letter addressed to the youth's father, Dr. F. B. Myers of El Reno.

A check of the license number showed the car was owned by Dr. Myers.

An "O. U. Sooners" sticker was on the side of the suitcase and officers found a box of small yellow pills inside.

J. H. Stephenson was the motorist who forced the youth to abandon the automobile.

Stephenson said that late last night he saw a young man standing beside a car bearing an Oklahoma license.

"The boy jumped in the automobile real quick and hurried off," Stephenson said. "His actions struck me as being peculiar and I followed him."

"Near my home in Cottage Grove, suddenly he stopped his car and raced into the woods. I called officers who came out and took possession of the car."

Detectives said Myers evidently had no means of transportation now and expressed confidence they would find him within a few hours.

Stephenson said the youth fell and made several somersaults as he ran.

"Near where he had fallen, I found a box containing a black powder which seemed to be some kind of medicine."

In addition to the small yellow pills, a wide assortment of clothing and other articles, the suitcase in the abandoned car contained a box of small capsules filled with white powder.

"Pretty Boy's" Son on Stage

Cashing in on the notoriety of his father, "Pretty Boy" Floyd, the 9-year-old son of the Oklahoma outlaw, Charles Dempsey Floyd, is shown here with his mother, at Oklahoma City as he arranged to start a stage tour, appearing with a film exposing modern rackets. The proceeds are to be used for the boy's education, his mother says.

GUN FIGHT IS AFTERMATH OF BANK ROBBERY

POSSE STAGES PITCHED BATTLE WITH PAIR IN HILL LANDS

MIAMI, Okla., July 12. (AP)—In a gun battle between two bandits who robbed the bank of Ketchum, Craig county, today, and a posse of officers led by Sheriff John York of Vinita, the two robbers and Ealum Gregory, president of the bank, were killed at noon.

The battle occurred 1 1/2 miles south of Grove, in the northern part of Adair county, long a hill-land retreat for outlaws.

Officers said the license on the car used by the robbers, No. 347-A-037, was issued to a Vian man, not believed implicated in the robbery, although this man and his brother both are brothers-in-law of Charles Cotner, recently convicted and sentenced to prison for a bank robbery at Galena, Kan.

Gregory's son, Luther Gregory, cashier of the Ketchum bank, was kidnaped by the robbers this morning but was released unharmed near the town of Ketchum. The bank president joined in the chase which resulted in his death.

Those in the posse trailing the robbers were the two Gregorys, Oscar Black, a farmer who works for the elder Gregory, and an officer whose name was not learned and who was picked up by the Ketchum party as they passed through Bernice, in Delaware county.

The posse came upon the bandit car after it halted, not recognizing its occupants, and when the robbers saw the armed men approaching they started the gun fight.

About 20 shots were fired and the bank president and both robbers fell. An ambulance was called from Grove and officers began efforts to identify the dead outlaws.

About \$300 was taken in the robbery was recovered from the robbers' car and bodies.

The outlaws had stopped to change license plates when the possemen approached.

Brevitorials

MISSINGS OF THE moment: Skippy, our pup, had a slight attack of ringworm on one side of his nose. All the neighbors, the milk man, the taxi driver, and others who have seen the noisy contraption have offered sure cures for the disease. One remedy was used, and it apparently is effective. Forever after, we suppose, we'll give dog owners free advice about curing ringworm. . . . Maybe the pup would have recovered without any medicine. Many family remedies arise from cures which nature effected wholly apart from the remedies tried.

CAREFUL observers declare that the United States is nearing a fall revival of business which will bring increased buying power into play at the same time that governmental FWA projects are launched. Rather than shoot the works in the dull season, FWA officials have held back awards. But now billions will be loosed and the public will be easily coaxed into a mood for buying. Meanwhile, automobile manufacturers are doing a remarkable business. One of the first things that a family buys after several years of hard times is an automobile.

THERE ARE other manufacturers who have attractive merchandise ready to offer when the time is ripe. It is reliably reported that a television set selling for only \$200 is ready to market. Scores of other wonderful new devices or improvements will be marketed within the coming year. And advertising will wield the big stick in chasing the elusive dollars into the tills of business. . . . And that reminds us that bogus coins are going the rounds here. You may get one if you don't "ring" your half-dollars.

WHO, IN Oklahoma, inserted a newspaper ad saying that 500 men were needed in the Pampa oil district? And why? Did Oklahoma wish to get rid of accumulated population? At any rate, the Pampa B. C. D. is investigating. There are too many men here now without jobs. When jobs become available, residents of long-standing should have the work. To advertise for more men would be vicious.

TRIPPERS coming back from the Pacific coast tell us that thousands of idle men there, with a high percentage of foreigners, constitute a tremendous law enforcement problem. Panhandling is being done with vicious threats for those who refuse to "come across." Holdups are frequent. The people are nuts. Radicals are numerous and active.

VALUE OF THE new city directory is much enhanced by inclusion of the oil field lists. This section was made possible by the Board of City Development, which spent much time in securing the cooperation of oil companies who furnished lists of employees with related data. . . . This community is inextricably interwoven with the oil industry. Persons live here and work in the oil fields. In some instances they work here but live in the oil field camps or in nearby towns. Houses are so scarce that a person's residence is no indication of where he would like to live. . . . Indications are that this condition will continue for several years, even though many new houses should be erected. With a high percentage of residents who feel too impoverished to warrant building of their own homes, it can hardly be otherwise.

MANY ADULT vacationers should be placed under the authority of trained supervisors. The kids are not the only persons who get out of hand when relieved of responsibilities. Adults indulge in recreational excesses, tear up the scenery, have car wrecks, and generally conduct themselves poorly.

Judged by the results of the fortnight's outing, a great number of persons do not receive physical benefit from their stay but are even worse off on that score upon their return than when they went away," states Dr. John W. Brown, state health officer.

"Most certainly the mental stimulation of going places and doing things out of the usual run is an itself value. Merely to get out of the rut, visit a new locality or revisit an old one, where new faces and friends are to be found, is of decided advantage.

WEST TEXAS: Generally fair, continued warm tonight and Friday, except unsettled in extreme southeast portion.

GOVERNMENT IN A MIGHTY TASK

It seems to be a nice little job that the administration has wished on itself for the hot summer months.

Donald R. Richberg, who has been named to tie together all the loose ends of this and that floating about Washington, says that the immediate task is to develop a long-range program; and when he goes on to explain just what this includes, you begin to see the size of the problem.

"We must be looking to the future," say Mr. Richberg.

"We must decide on the extent of government intervention, and its allocation to different activities. We must advance our plans for public works as a continued means of providing employment. We must work toward more permanent stabilization of industrial conditions.

"In the program of industrial self-government must be written public supervision and participation to prevent abuses of economic power, without abusing political power."

Here, surely, is a program large enough to satisfy the most ambitious. And when you stop to think about it, you discover that each item offers plenty of chances to make serious mistakes.

Those simple words, "decide on the extent of government intervention," for instance, simply mean that Mr. Richberg and his men must make up their minds on a policy that could range anywhere from complete individualism to a regimentation as thorough as anything seen in Italy or Russia.

Laying out a permanent public works program offers, on one side, the chance to waste vast sums annually to small purpose, and on the other the chance to extend paternalism beyond anything previously dreamed of.

Stabilizing industrial conditions, and extending public supervision of industrial self government could mean state capitalism, state socialism, or simply the growth of a vast, cumbersome, and oppressive bureaucracy.

In other words, this job of setting a program carries with it a great many chances to do the wrong thing. Yet it is a job that cannot be sidestepped any longer.

A great many things have happened in Washington in the last year. Some have been almost revolutionary in their implications. It is good to see that they are all to be tied together into a comprehensive and definite program.

Thus, eventually, when the administration goes to the voters, the country's task of making a yes-or-no decision will be a lot simpler.

PAIRINGS ARE ANNOUNCED IN WESTERN OPEN

NEBRASKA CHAMPION IS PAIRED AGAINST JACK MALLOY

OKLAHOMA CITY, July 12.—A last minute revision of pairings, re-matching some of the sharpshooters and changing several positions in the brackets, was announced at the Western Amateur golf tournament proceeded into the match play stage, with two 18-hole rounds programmed for today to reduce the field of 32 to the eight quarter-finals.

Westland first paired with McIlroy, was matched with Earl Thompson of Tulsa. Zeil Eaton of Oklahoma City, who won the medal honor for the second straight year, with 72-72-144, four over par on the deeply gorged Twin Hills course, was moved from the bottom to the top of the lower bracket, and remained paired with Arthur St. Cole of Oklahoma City, who qualified with 155.

OUT OUR WAY By WILLIAMS

Voters Baffle Allred Speaker

AUSTIN, July 11.—(AP)—Jim Kilday, young attorney of Houston, active in the young democrats' organization, does not know what to think of the current political campaign.

Each time Kilday appeared he faced fairly large audiences, he said.

"But I would not make a guess as to the outcome," he said. "It beats anything I ever have seen, the poker faces the voters are wearing. As a rule a speaker can judge fairly accurately what his auditors are thinking and whether they are in sympathy with his remarks but that is not true this time. One simply is at sea. It certainly is not safe to bet on the outcome."

SENATOR DILL RETIRES SPOKANE, Wash.—Senator C. C. Dill, democrat, and Washington's senior senator, today announced his retirement from politics. Only "some pressing issue in congress affecting this state that demanded the help that only a senator of experience and prestige could give," would induce him to run for office, again, he said.

First elected to the senate in 1922, his term expires in 1935.

A. H. Doucette made a business trip to McLean yesterday.

THE NEW FANGLES (Mom'n Pop)

Political Announcements

The Pampa Daily NEWS is authorized to announce the candidates of the following subject to the Gray County Democratic primary of July 28, 1934:

- For Commissioner, Precinct No. 1—CLEM V. DAVIS, A. (ARLIE) CARPENTER, EDWARD J. GETHING. For Commissioner, Precinct No. 2—JOHN HAGGARD (second term), LEWIS O. COX, HENRY W. OVERALL. For Commissioner, Precinct 3—H. G. MCLESKEY, THOS. O. KIRBY. For Justice of Peace, Pct. 2, Place 2—E. F. YOUNG, HARRY SCHWARTZ. For Justice of the Peace, Precinct No. 2, Place 1—W. T. ROADRUNNERS LOSE ANOTHER TOURNAMENT GAME

PHILLIPS IS VICTOR OVER TIRED PAMPA BASEBALL NINE

In failing to hold a 6-run lead last night, the Pampa Roadrunners lost another slugging match to the Phillips "66" of Borger, 17 to 12.

Extra base hits were about as numerous as single bingles, with Red Gathier of Borger taking honors on two triples and a home run.

Deck, although not scoring a run, led the Borger batting attack with three singles and a triple in six times at bat.

Ward, besides getting a home run, connected for two singles to lead the Roadrunner batters.

Pampa scored four runs in the third inning and six in the third and fourth.

The Roadrunners appeared to fade early, probably resulting from an afternoon game which they defeated Wichita Falls 13 to 7.

The Roadrunners made a field day in the third when eight runs crossed the plate.

Score by innings: R H E Pampa . . . 046 110 000 17 4 Borger . . . 008 332 018-13 17 2

Batteries: Nichols, Lewis, Robertson, and Smith; Bulla and Poindexter.

Second game: Score by innings: R H E Pampa . . . 046 110 000 17 4 Borger . . . 020 444 018-17 19 4

Batteries: Stegman, Hardin, and Poindexter; Bass, Mulrooney, and Francis.

Drought Drives Austin Citizens To Ancient Well

AUSTIN, July 10. (AP)—Capital residents look advantage of an apparently never failing source of drinking water when the supply from the city's mains went "sour" because of an accumulation of drift above the Colorado river dam.

The supplemental water supply is located at a canyon called Hill and flows constantly. Scores of persons visited the well nightly and carried away their next day's drinking water in all types and sizes of containers.

The mineral water is popular with numerous residents at all times but during periods when the city water is unpalatable the old well's field of service is broadened.

When Beaumont rice growers purchased a supply from the Brown county water improvement district for their parched rice fields along the coast and ordered it delivered via the Colorado river they did Austin a service.

ENZO FIERMONTE SIGNS TO BOX MAXIE ROSENBLUM DESPITE DECREE OF N.Y. BOARD FORBIDDING MATCH

YANKS AND GIANTS WILL BE TESTED IN 'CRUCIAL' SERIES

Tigers and Cubs Are Ready To Take Advantage of Any Faltering by Leaders

BY ORLO ROBERTSON, Associated Press Sports Writer. With the all-star game a matter of records, major league baseball swung back into full stride today with the first of the annual crucial series looming to test the supremacy of the New York Yankees in the west and the New York Giants at the Polo Grounds.

The Yankees, after making a one-day stop at Cleveland yesterday and defeating the Indians 9 to 4, were at Detroit for four games in as many days.

The Tigers, who have been dogging the Yankees since being displaced as the American league leaders June 25, were only a half-game out of first place.

The Giants, with a slightly longer lead of one and one-half games, had until Saturday before they hook up in a 5-game series with Chicago Cubs.

Bill Dickey was largely responsible for the Yankees' victory. He smashed out two homers, each time with Eon Chapman on base.

The Tigers had a much more difficult time beating the Washington Senators, 13 to 7. Starting out with seven runs in the first three innings, they apparently were headed for an easy victory only to have the Senators count seven runs through the fourth, fifth, and sixth innings.

The Cubs picked up a half-game on the Giants by defeating the Boston Braves twice, 3 to 1, and 2 to 1, while the Pittsburgh Pirates in another close affair, 3 to 2.

Guy Bush was hit freely in the first game but the Cubs made the most of their five hits off Flint Rhem. Wally Berger saved the tribe from a shutout with his nine-inning home run in the seventh.

The second game was all Pat Malone, who let the Braves down with three hits.

The Phillies hit Tex. Carleton when hits meant runs and Phil Collins hurled 8-hit ball as Philadelphia beat the Cardinals 5 to 2.

Ray Benge pitched steady ball to give the Brooklyn Dodgers a 5 to 2 decision over the Cincinnati Reds.

Texas League Leaders By The Associated Press. Leading hitters: Harvel Oklahoma City, 369; Bell, Galveston, 364; Moses, Galveston, 360; Morgan, San Antonio, 358.

Total hits: Morgan, San Antonio, 129. Doubles: Bell, Galveston, 33. Triples: Binder, Oklahoma City, 13.

DALLAS DEALS ANOTHER LOSS TO PANTHERS

LARGEST CROWD SEES STEERS WIN 6 TO 4 GAME

BY FELIX E. MCKNIGHT, Associated Press Staff Writer. Texas league club owners, ready to pronounce the benediction last season, were making rash forecasts about the return of the good old days today.

Last night at Fort Worth the largest crowd of the season—4,600—showed through the turnstiles to see the Panthers take a 6-4 licking from the Dallas Steers.

San Antonio's Missions, a little insect in their lead position, swatted hard behind Ash Hillin's masterful twirling to take the last game of the Houston series, 7-1.

Hillin passed out only five hits, four of them singles, while Connolly, Bettencourt, Purdy, and Harshany led an 11-hit attack for him.

The Galveston Pirates, storming along in second place just a couple of games back of the Missions, took Beaumont, 4-0. Slim Jim Blivin threw puzzlers at the Beaumonters for nine innings and watched only four come back past him for safe knocks.

The stage was all set for Tulsa, to win a ball game, but they failed. Lengthy ceremonies dedicated their new park, but it took Oklahoma City's Indians to ruin it all with a 16-5 pasting they handed the Oilers.

Moncrief spaced 13 Oiler hits while his mates gathered 16 blows that matched their run total. Five Oiler errors didn't help them in their deplorable effort.

CAVALCADE IS SCHEDULED TO WIN BIG RACE

ARLINGTON CLASSIC IS DECIDING FEATURE OF YEAR

BY CHARLES DUNKLEY, Associated Press Sports Writer. CHICAGO, July 12 (AP)—Smiling Bob Smith, called the Foxy Grandpa of the American turf, stuck his tongue in his cheek before he decided to answer the question.

"Well, I'll tell you. If he isn't another Man o' War, he will be the next thing to it," he said.

Smith was referring to Cavalcade, leading candidate for the 3-year-old championship of the American turf for 1934. Cavalcade is expected to settle the question beyond doubt with the running of the \$45,000 Arlington classic at a mile and a quarter, at Arlington Park, Saturday.

There is much similarity between Cavalcade and the famous Man o' War. Man o' War was a much bigger horse than Cavalcade two years ago for a paltry \$1,200 at the Saratoga sales. This year alone Cavalcade has won close to \$100,000 in winning the Kentucky Derby, the American Derby, and the Detroit Derby.

The noted trainer of the Brookmeade which is owned by Mrs. Sloane, rates Cavalcade as having the most wonderful disposition of any horse that he ever handled.

Smith says he performs just like a machine, never changes his stride, and has marvelous speed and action.

"By that, I mean, he is always in position to run, even when he is making turns. He is just like a big friendly dog. I never saw a horse like him. He is the same on the track. Since the question has been raised as to how I think Cavalcade compares with Man o' War, just let me say that Cavalcade is a wonderful horse. But also remember that old Man o' War was a miracle horse. In gameness and endurance, and probably in speed, too, I think Cavalcade will compare favorably with any horse that ever raced on the turf. That includes Man o' War.

Smith said Cavalcade was coming up to the condition for the classic in marvelous shape, and that he has no fear of Discovery, the entry of Alfred Vanderbilt.

"We have met Discovery five times this year, and he has chased Cavalcade home each time," Smith said. "Barring accidents, Cavalcade will win Saturday and become the leading money winning 3-year-old of the year."

Jockey Robert Jones, who rode Islander, winner of the 1933 classic, for Mrs. Sloane, will pilot Good Goods, another Sloane racer in Saturday's race, with Mack Garner guiding Cavalcade.

County Agent Ralph Thomas is confined to his home by illness today.

ALL-TEXAS POLO TEAM WILL RIDE AGAINST EASTERN CLUBS

HOW THEY STAND

PLAYERS HEADED BY CECIL SMITH AND RUBE WILLIAMS; MATCHES START SATURDAY.

NEW YORK, July 12 (AP)—The sinus infection which had threatened to keep Cecil Smith, Texas' 10-goal polo star, out of the junior championships starting Saturday, today had largely cleared up but Smith was undecided whether he would play.

"He's practically well now," said Tom Mather, with whom Smith lives in Westbury, L. I., "but I don't believe he'll try to play. His doctor hasn't forbidden him to, however, and he may be in the Austin lineup. He has until Tuesday to decide, as I believe Austin got a bye through the first round.

Smith was not at his home but was expected back for lunch. He has been wearing dark glasses for several days to protect his eyes but Mather said there never had been any question of his going blind.

NEW YORK, July 12 (AP)—Headed by Cecil Smith and H. W. (Rube) Williams, two of the country's high ranking polo players, an All-Austin, Tex. team will ride out against five eastern teams in the National Junior championships starting Saturday at the Rumson, N. J., Country club.

Smith, one of the country's three ten-goal players riding at No. 3, and Williams, handicapped at eight goals and playing at back, will have two low-goal players as teammates—George Miller and Charles Waring. Miller has no handicap while Waring is rated at two goals.

As the rules of the championship limit the teams to a maximum handicap of 20 goals, the Texas quartet, with Smith in the Texas quartet, with Smith in the Texas quartet, with Smith in the Texas quartet, will use up his full allotment as will the strong Rumson four and the Hursthears. Three-fourths of the Rumson team will be composed of the Balding brothers—Gerald, Barney and Ivor. Mike Phipps at seven goals and Stephen (Laddie) Sanford at six goals will lead the Hurricanes into action.

SEGUIN MAYOR NAMED GALVESTON, July 11 (AP)—Mayor Max Starcke of Seguin was re-elected president of the League of Texas Municipalities at the closing session of the organization's convention here today. Austin was selected as the 1935 convention city.

CAGE PLAYERS WILL PRACTICE THIS EVENING

MALES WILL PREPARE FOR TILT WITH GIRL CHAMPS

Basketball as it is played by girls in other nations will be demonstrated here tomorrow night when the Oklahoma Cardinals, sensational basketball quintet from Oklahoma City university, plays the Pampa Harvesters in an exhibition tilt at the high school gymnasium.

The Cardinals in other countries, including Canada and European nations, play boys' rules, only with shorter quarters. The Oklahoma team, which will represent United States in the forthcoming Women's Olympics in London in August, is playing exhibition games with boys' teams in order to get accustomed to boys' rules.

The game will be called at 8 o'clock. Admission will be 50 cents for adults. The Cardinals have defeated every team played during its road trip of the last few weeks.

The Cardinals went three seasons without meeting defeat. During that time 90 games were placed in the win column. One of the teams to fall before the Cardinals was Babe Didrickson's Dallas Cyclones, former national champions.

Coach Odus Mitchell is recruiting strength for the game and may even play himself. A faculty member or two may be pressed into service to assist the Harvesters prospects and grads home from college.

Three members of the Cardinal team received All-American acclaim at the national tournament. Later the team went to Edmonton, Canada, to win the American honors and the Woodward cup.

UNDERGOES OPERATION Jack Kinse, manager of the Vogue, has returned from Shawnee, Okla., where he underwent a minor operation.

Danny McShain, Rod Fenton Are Game's Roughest

What a shock Pampa wrestling fans would get if Danny McShain and Rod Fenton wrestled according to rules and regulations laid down by the State. Boxing and Wrestling commission when they meet in the main event at the Pampa auditorium Monday night.

The two middleweights, well known as the roughest grapplers in their division, Dutch Mantell, Joe Kopecky, Tex Watkins, and a few more of the old brigade were considered rough and tough, but they were not in the same class with McShain and Fenton.

Danny McShain, Irish from head to foot, is one of the masters of rough grappling. He will resort to any trick or means to win. He has yet to wrestle before an audience that is for him. He antagonizes an audience by kicking, hitting, and striking around and hurling threats at the fans.

McShain, Irish from head to foot, is one of the masters of rough grappling. He will resort to any trick or means to win. He has yet to wrestle before an audience that is for him. He antagonizes an audience by kicking, hitting, and striking around and hurling threats at the fans.

Man knows a few things about the drop kick and choke holds, Fenton's favorite. Rod Fenton, Canadian, lumberjack, learned to fight, or wrestle, or whatever it is called, in the northern part of Canada. In that section there is a game called caulk-lighting, which is something like a Cuban cock-fight with human contestants. A spike is clamped on the shoe of each contestant. Then they try to kick each other to pieces.

The semi-final should be no less savage. Pat Garrison, local Irishman, will meet his old enemy Rod Roy. Goodnight Scottzman. The last time they met, Garrison was suspended for roughness. Since that time things have been getting rougher and the Irishman doesn't have much fear of being put on the shelf. Roy isn't the boy to sit back and take without giving and there is an Irishman who is liable to be surprised Monday night.

Jon Pafford, king of the heavyweights, will meet "Big Boy" Henshaw of Amarillo in the preliminary at 8:30 o'clock.

SENSATIONAL

NEW "G-3"

ALL-WEATHERS

New Goodyear Tires with 43% more non-skid mileage are greatest tire success in years!

LOOK at the names published here. They're representative of the kind of people who are riding on the wonder tire of 1934—the new "G-3" All-Weather.

You can bank on it—this tire has to be good to win such owners as these.

And it has to be good to be what it is today—the fastest-selling tire in the world!

How about YOU? When will you join the rapidly growing list of wise buyers who ride on this spectacular new "G-3"?

You get a broader tread—a latter tread—a heavier tread (2 pounds more rubber per tire on the average)—you get extra grip in the center of the tread where it counts for safety, because that's the spot where the tire contacts the road. You get patented Goodyear Supertwist in every ply—and that's the only ply material that makes such a husky tread successful.

And it all adds up to more miles of non-skid safety—43% more non-skid mileage according to actual test fleet records. Surely you can't afford to miss all these extras when you consider that you can have them at no extra cost.

ALL CODE-MAKING WILL BE COMPLETED WITHIN THIRTY DAYS

George Arliss in One of Greatest Of Recent Films

"The House of Rothschild," George Arliss' first vehicle under his new contract with 20th Century Pictures, which opens today at the La Nora theater is a picture of which Hollywood may be justly proud.

The screen attraction is without doubt one of the year's greatest screen achievements and is recommended by La Nora management as one of the best pictures of the year and containing genuine all-around entertainment for the entire family.

Arliss' Nathan Rothschild stands as a new and lovable character to stand beside "Disraeli," "Old English" and the distinguished actor's many unforgettable creations in celluloid.

The production is beautifully mounted and handsomely produced—authentic in every detail—and the final scenes in the coronation room of St. James Palace, photographed in Technicolor, are breath-takingly lovely.

The cast is so huge and imposing that it would be impossible to give individual credit to each of the supporting actors who contributed an outstanding portrayal, but special credit must be given to Boris Karloff as the villainous Ledrants; Loretta Young as Julie—she has never looked as enchantingly beautiful—Robert Young as Fitzroy; C. Aubrey Smith as Wellington; Helen Westley as the mother of the Rothschilds; Florence Arliss as Hannah; Reginald Owen as Herries; and Alan Mowbray as Metternich.

BIRD IS HANGING VICTIM

ANNAPOLIS, Md.—Out of reach of man, the body of a sparrow swung today from the cornice of a main street building by a piece of string she had collected for her nest.

The string had become fastened to the cornice and twisted around the bird's neck.

Romance on the High C's

Lily Pons' next selection, ladies and gentlemen, is Dr. Fritz von der Becke, ship's doctor on the German liner Cap Arcona. The petite international operatic favorite is here shown with her future husband aboard his ship on their arrival at Buenos Aires.

STOCK EXCHANGE HAS PRESS CONFERENCE—SAYS NOTHING

NEW YORK, June—Wall Street has a talking ghost.

Traders up and down the street don't like to talk much when it's "on the record," but they are willing to say plenty with the preface, "Now, boys, this is confidential."

Just to centralize everything

which is off the record, confidential, between ourselves and not for publication, the New York Stock Exchange has instituted weekly press conferences for the first time in recent history.

At the initial get-together, 27 financial writers sat down around a couple of long tables in the directors' room at the Stock Exchange and pronounced it a good idea.

President Richard Whitney entered with Jason Westerfield, publicity man.

"It Was Learned" "Gentlemen," said Westerfield, "Mister Whitney."

The president, wearing a dark business suit, bow tie and gold watch chain, sat down and said, "Now, shoot."

And the boys shot. Whitney, who is a young looking man with dark hair parted on the left side, took the questions with a smile as he puffed on one cigarette after another.

He answered the technical questions to the extent of his personal knowledge, or he said frankly he didn't know. Nothing he said could be quoted directly.

"That's where the ghost comes in. Statements by Whitney can be used with the explanation "it was learned today at the Exchange."

But even the ghost wouldn't talk on some topics.

"Will the Exchange go on a five-day week?" it was asked.

"We haven't considered it," it was learned today at the Exchange.

The Unpredictable

"But the financial writers would like to have a five-day week," persisted the reporter.

HUGH JOHNSON PROMULGATES 'BASIC CODE'

AGREEMENTS WANTED IN TWO WEEKS ON 135 CODES

BY WILLIAM B. LEALE Jr. WASHINGTON, July 12 (AP)—NRA focused every energy today on the big job of completing blue eagle code-making within 30 days.

"We are all set," said Robert K. Straus, youthful chairman of the three-man committee named by Hugh S. Johnson for the clean-up task.

The time limit was set by Johnson just before he flew westward on a speaking and vacation trip. Simultaneously, the NRA chief promulgated a "basic code" designed for the scores of still uncodified small industries.

Straus described the program outlined by Johnson to end code-making and free NRA for enforcement work as falling into four parts.

"First," he said, "there are industries for which we will continue to develop individual codes."

In this group were ranked 135 pending codes on which NRA wants an agreement within two weeks.

Also, there were codes described as having "special and important economic, labor or legal conditions."

These do not come under the basic code offer, but will have individual codes developed. The class includes shipping, anthracite coal, munitions, and all the major utility and fabricated structural steel industries.

"Second," Straus said, "we have industries which will choose to merge with existing kindred codes."

NRA expects most of the uncodified industries to choose this method. It will speed up the plan of consolidating all blue eagle codes, already numbering 476, to the lowest possible number, probably 300 for the immediate future.

In the third class we have industries applying for the basic code and finally, those which will do nothing," Straus explained.

Johnson's order "for completion of code making" said "it is not intended by this plan to force all the remaining uncodified industries under codes." But he raised the possibility of imposition of a code on recalcitrants by saying:

"As to any such industry not yet codified which does not apply for such basic code or for consolidation as above, within 30 days after the date hereof and in which the administrator shall determine what wages, hours and conditions of labor constitute an abuse inimical to the public interest and contrary to the policy of said act, the administrator will within 40 days after the date hereof provide for a hearing to determine whether a code covering hours of labor, rates of pay and other working conditions shall not be prescribed thereunder."

The basic agreement guarantees labor's right of collective bargaining, bans child labor, sets safety, health and related standards, establishes a system of open-price reporting and permits the later adoption of other fair trade practices if 75 per cent or more of the industry approves.

Johnson also created a "general NRA code authority" to administer the basic code. It has the general powers accorded code authorities and will designate agents to receive the filings of "prices, rebates, discounts, commissions, and conditions of sale."

The price-filing plan corresponds to NRA's recent announcement that minimum prices would not be set in the future except for stated periods of "emergency" which threaten the purpose of the recovery law.

TO MAKE LIFE BETTER

JOLIET, Ill. (AP)—Warden Frank D. Whipp of the Illinois state penitentiary has announced receipt of a letter from one of the inmates giving suggestions as to how life for the prisoners might be made a little more pleasant. Among other things the writer suggested a swimming pool and decorated walls, adding:

"There is also a crying need for more intelligent guards. If you would require the guards to pass an intelligence test, it would raise the intellectual plane of the institutions."

FAIR ATTENDANCE GOOD

CHICAGO—Attendance figures at the Century of Progress are showing an upward swing. The total attendance figures for the year to date are given as 3,780,913 as compared with 4,365,933 for the same period a year ago.

Florida's retail sales tax of three cents on each gallon of gasoline nets the state road department about \$6,000,000 annually.

"And again," it was learned today at the Exchange, "that is something for the future to determine."

The press conference itself was a mark of change. With the control of stock exchange through the national government ready to go into effect, reporters have noticed a different attitude along the Street. Traders are willing to meet the public through the press.

"Perhaps we have entered into another era," it was learned today at the Exchange.

7 STATES, 143 CITIES ALREADY CENSOR MOVIES

Boycott Makes Film Industry Think Seriously

HOLLYWOOD, Cal., July 12. (AP)—Motion picture producers, demanding the freedom of expression accorded publishers and their kinsmen of the stage, face censorship boards in seven states and 133 cities—45 per cent of their profit territory.

Every foreign country, without an exception known to Hollywood also has a censorship.

And now Hollywood, confronted with the severest form of censorship ever devised—boycotting—is in the midst of its greatest battle. The threats have become so ominous, that Hollywood has decided to go in for censorship at home before the public has a chance to criticize its new pictures.

In some quarters in Hollywood it is believed that the industry's answer to the reform elements will result in the abolition of all censor boards, in this country at least they say that, if future pictures are as pure as the office of Will H. Hays promises, there will be no need for censor boards.

Florida allows New York to guard the morals of the cinema shown there, a law permitting theaters to accept pictures as New York accepts them. The seven states having official censorship are New York, Ohio, Pennsylvania, Massachusetts, Virginia, Kansas and Maryland.

Hollywood's greatest argument against censor boards is that they are inconsistent and non-conformative. Pennsylvania may cut a scene from one picture and leave a similar scene in another. Virginia does not object to the same scenes which Ohio orders deleted. Chicago objects to references to gangsters and kidnapers; Dallas, Tex., and Portland, Ore., and Providence, R. I., usually don't mind.

For example, Kansas which allows drinking only when necessary to further the plot passed "Convention City" with no cuts, the Hays office was informed. Every other state cut scene after scene from this picture.

The state movie censor boards are usually political plums, except in the state of Massachusetts, where state troopers are the censors. There, the old blue laws—or Lord's day observance—are used when it comes to film censoring. The blue laws say a husband cannot kiss his wife in public on Sunday, nor can wrestling or boxing matches and dancing be indulged in on Sunday, hence such scenes cannot be shown in theaters on Sunday.

Roy Wallrabenstein, director of the Pampa high school band, is spending part of the summer at Interlochen camp near Traverse City, Mich.

The National Music camp will broadcast July 16, 23, 30 and August 6 and 13 over NBC network from 8 to 8:45 p. m. Wallrabenstein will play in some of the musical organizations which will be heard.

WILL BUY TRUCK
J. F. Reynolds, manager of the Pampa Motor Freight line, has gone to Columbus, Ohio, where he will obtain a new truck to drive back. He will stop at the world's fair and also visit his old home in Missouri.

American colonists carried on a thriving trade with the Creek Indians of Georgia as early as 1690.

TOM HUNTER'S IDEAS ABOUT STATE HEARD

GOVERNMENT MUST BE REORGANIZED, HE DECLARES

BY R. W. BARRY, Associated Press Staff Writer.

AUSTIN, July 12 (AP)—Tom F. Hunter, pleading for votes as San Angelo, said it was impossible for the state's business to be effectively and economically administered through its present 131 units of government.

"An individual's or corporation's business operated so incoherently as that of the state's soon would be bankrupt," he said. He told his audience the state government must be reorganized, carefully formed, and its duties cautiously assigned.

He renewed his advocacy of a "board of public relations, or governor's cabinet," consisting of five members.

Maury Hughes completed a busy day at Cleburne, where he said he was confident his North Texas support would place him in the run-off primary.

"My friends in every county in North Texas tell me that I have been gaining rapidly and will lead the ticket," Hughes said. "The liberal democrats are becoming aware of the fact that they cannot afford to split between Charlie McDonald and myself. The strongest liberal must be put into the runoff if the Anti-Saloon League is to be defeated in this race."

Attorney General James V. Allred, at McKinney, touched on a new subject. He told his audience expansion of the work of the child welfare program would serve as a deterrent to crime. He said experience had proved "incarceration in the penitentiary and punishment for crime do not get the job done."

"Surveys show that 80 per cent of the first offenders are from under-privileged homes," Allred said. "The under-privileged or neglected child in Texas is a distinct responsibility to the state."

Leut. Gov. Edgar E. Witt said "five out of ten voters" had not made up their minds for whom they will vote, "but nine of ten know definitely there are two or three candidates they would hate to see elected."

He told his audience that most people "name Edgar Witt among the leading three or four candidates for governor; almost everybody, including my opponents and their strongest, most loyal supporters, have to agree that for me to get into the second primary means my nomination in August."

Senator Clint C. Small, addressing a Corsicana crowd, criticized plans advanced by some candidates as a cure-all for governmental ills. He said it had been conservatively estimated by some that it would add fully \$3,000,000 to the cost of government if these new fangled ideas were embraced. He asked who would put up the additional revenue that would be necessary to meet the cost.

Edward K. Russell, at San Angelo, told about the hypocrite who once was a prohibitionist, but changed his colors because it was the popular thing to do as a politician.

"The politician who has long been wearing the colors of a prohibitionist and has been influenced to compromise his views in order to meet with what he thought was popular demand, never was at heart a real prohibitionist," Russell said.

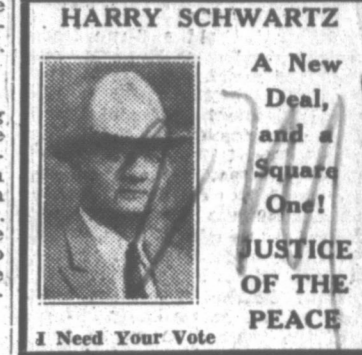

C. C. McDonald continued to base his bid for favor on his platform planks proposing old age pensions, unemployment insurance, home ownership, and repeal of the Dean law.

He pointed out that federal loans are available for half the cost of homesteads and proposed that the state advance the balance, the recipient to pay five per cent interest.

KEEP COOL
CHICAGO—At last something has been done about that Turkish bath effect in telephone booths. An air-conditioned booth was displayed to delegates of the United States Independent Telephone association. Its sponsors suggested that if patrons got hot under the collar, the cause would be at the other end of the line.

Levi Rouscupp of Lima, Ohio, is visiting in the Bowsher home.

ALARMING SITUATION
MINNEAPOLIS—Julius Brinberg had a wholesome respect for the law, especially as it regards parking. So, he told the judge, each time he parked his car he set an alarm clock to ring in an hour. When it went off, he added, he moved the car. It was all to no avail. The clock disagreed with the arresting officer's watch and Brinberg paid a \$5 fine.

SOUTH TEXAS IS NO MAN'S LAND IN RACES

ALL CANDIDATES FOR GOVERNOR CLAIM VOTE LEAD

HOUSTON, July 12. (P)—South Texas, which contains the sizeable cities of Houston, Galveston, Beaumont and Port Arthur, is a "no man's land" in the gubernatorial and United States senate campaigns. All of the candidates are making a determined effort to attract a large following to reinforce the strength they expect to show in their home districts.

No candidate can expect to lead in this sector by virtue of his residence since none lives south of Marlin. As a result, there is a scramble for votes in the closing weeks of the fight with each aspirant laying claim to a considerable following.

The counties of Harris, Jefferson and Galveston alone probably will cast 80,000 votes or more. With so many votes to be had it is easy to understand why hordes of speakers are extolling the merits of the various office seekers.

Nearly all of the gubernatorial candidates can advance a reason why they believe they should get a large share of this county's votes which aggregated approximately 56,000 two years ago.

Atty. Gen. James V. Allred received approximately 30,000 votes in Harris county in his race in 1932 and he expresses the opinion that a majority of those who supported him for attorney general will be for him for governor.

By somewhat similar reasoning C. C. McDonald, the Ferguson-endorsed candidate, can lay claim to almost as many votes. In the first primary two years ago Gov. Miriam A. Ferguson was given more than 22,000 votes and McDonald votes the belief that the greater part of the vote will turn to him.

Followers of Tom F. Hunter point out that he received 8,770 votes in Harris county two years ago notwithstanding that a Houston resident, R. S. Sterling, was in the governor's race. They assert that his vote here this year should be larger.

The last time Edgar E. Witt came before the voters of this county in a contested race he was accorded a handsome majority. That was in the run-off primary for lieutenant governor four years ago when Witt led Sterling P. Strong in Harris county almost 2 to 1.

Well informed observers of political trends say that Senator Clint C. Small of Amarillo will get considerably more support in Harris county July 28 than he received four years ago when he ran third over the state in the governor's race. In 1930 he was given only 246 votes in this county. His backers insist he will be among the leaders here this year.

Maury Hughes is counting on his stand for repeal of prohibition to gain him a large vote in this and other south Texas counties considered "wet." He has laid more emphasis on that question than any other candidate.

Allred never has carried Jefferson county but his supporters assert that he stands a good chance of

POLITICS at Random

BY BYRON PRICE
(Chief of Bureau, The Associated Press, Washington)

The administration political scouts are watching closely the operations of William E. Borah.

That is one quarter from which attack is not welcomed. Not only is Borah recognized as an able antagonist, but he has been associated in the public mind for years with that liberal school of thought which the democratic managers had hoped to bring more completely into the Roosevelt fold.

Such speeches as those made recently by Republican Chairman Fletcher, Senators Hastings and Reed and others identified with the regular republican organization have gone, in many cases, almost unanswered.

The president himself has indicated he was ready to accept an open challenge against the "new deal," such as these leaders have made.

With Borah it is far different. He attacks from another angle entirely. He is one of those western independents whom as recently as the administration has sought to keep satisfied.

He is making an issue where the administration had hoped there would be none. That is why he is watched.

It is true the white house has not given Borah much special notice. Usually he has not been in on the Roosevelt conferences with the western independents. When he was there, he was not very active.

That is not Borah's way, and the President knows it. From the beginning both appeared to recognize that the Borah flair for independence of all administrations would assert itself sooner or later, and there was not much use trying to forestall it.

At the same time the Idahoan's present speech-making campaign is not the subject of any jubilation among the democrats. They will put their best talent to work answering him.

Attacks G. O. P. Too
It surprised no one that when Borah attacked the democratic policies, he included as generally complimentary references to the republican program and leadership.

He has not, for years, considered himself a part of the republican organization. When he took the stump for Hoover in 1928, he made it plain he was supporting, not a party, but a man he thought would make an excellent president.

Later, when the inevitable break came, he said to friends that he never would campaign for an individual for the presidency.

His whole career has been built on opposition. He recognizes that as his forte. He still is the voice crying in the wilderness, and he likes it.

Eye On White House?
Where is it all leading?

It is no secret that Borah has had his eye on the White House for many years; that as recently as 1932 he listened reflectively for some time to those who wanted him to run as an independent.

Whether he still cherishes hope of the presidency is known only to himself.

He is in his seventieth year, and he has seen over and over how difficult it is to organize a new party. He knows, too, that he could by no means be assured of the support of other western independents who have served with him in the senate.

His very passion for playing a lone hand stands in the way of any aspirations he still may have for the highest office.

Yet politicians do not lose sight of the fact that the present era is a peculiar one, politically, knowing no laws and recognizing no precedent.

So democrats and republicans in Washington both will keep an eye on Borah.

Even with the president, congress and the supreme court away, old and new aspects of the recovery program are keeping Washington stirring. Here are a few:

NRA: July and August are critical months. Gen. Johnson, Senator Borah and others will be talking to "the little fellows" from varying viewpoints, and the returns will be laid before President Roosevelt for his decision, when he comes home from Hawaii.

AAA: The whole tendency is to fortify and expand the crop control experiment. There is no sign of retreat; the main effort now is to ride out the opposition. Unless the situation changes radically, at least another year of the experimenting this year. That chance is minimized by followers of other candidates, particularly Hunter and McDonald. In Galveston county the Fergusons have been strong in past years McDonald is hoping to lead. There, too, other candidates express the opinion that they will finish ahead.

Both contenders for the United States senate, Tom Connally, the incumbent, and Joseph W. Bailey Jr., carried Harris county in their last previous races. Connally was given a substantial lead over Senator Earle B. Mayfield when he unseated the latter six years ago and Bailey ran far ahead of "Cyclone" Davis in his race for congressman-at-large in 1932.

SPITE MARRIAGE

by Katherine Haviland Taylor

SYNOPSIS: Since the death of her parents, Marsha Moore has lived with her Aunt Gertrude. This bitter spinster has turned Marsha into a hard young woman of the world whose consideration for her innumerable suitors has been equally all. But Bob Powers has proved different. She has taken him and gone to roll on his mother. All the time Gertrude Taylor, disbeliever but amusing, has been in the back of her mind. Now she has decided to break off with Bob.

Chapter 10
BITTER SCENE
"I'M RATHER disappointed," Marsha confessed, "but at least that's new!"

She studied Bob. The small chair he had selected seemed entirely inadequate for his bigness. Marsha liked him in it; liked the way he rather disconcerted her aunt's snobbish little drawing room.

She liked his bronzed skin; his spiky, unmanageable, sun-bleached hair, and his big, strong hands. "Man's man," he had been called, and he was that and more; he was a friend to men.

He was capable of being a real lover of one woman, and incapable of playing with love; he was realizing it with poignant bitterness and it showed.

He had not dreamed he could tremble so.

"You're lucky, Bob," she said and as close to harshly as she could speak.

He shook his head. Suddenly he moved his chair closer to hers to take both of her hands in his and to hold them tightly. He hurt her a little and she liked the pain.

She rose suddenly. "I want to dance!" she said.

He looked at her, astounded. "I'll go mad if you leave me like this!" she went on, close to crying. "I must get out and drink a lot and dance and—laugh. You've upset me—horribly!"

He rose slowly. "Whatever you need," he said at length and after a deep, sodden breath.

"You take things too seriously, Bob."

"My God!" he said sharply; his laugh was mirthless.

"If you learn to dance with any pretty girl—"

"You can't do that, Marsha."

"You can! It's a matter of learning. You'll find a hundred, a thousand, girls whose kisses are as interesting as mine, if you'll try them."

"No!" he disagreed shortly, sharply.

"You're hopeless!"

"I suppose I am," he admitted. He looked down on her pleadingly. "If there's some other man who would take you dancing tonight," he said, "I'm rather done in."

"Not I want you."

"Very well," he said, with a squaring of shoulders.

He held her cloak for her and rather stupidly he followed her into the mist of the night. "The last long ride together," she said, after they had settled in the taxicab he had hailed. She heard his sharply indrawn breath.

"Can't you take it lightly, Bob?"

"No, Marsha."

"Are you really—suffering?"

"Holl," he answered succinctly. (Copyright, 1934, by K. Haviland-Taylor)

Tomorrow, an old friend returns to Marsha's orbit.

HOT UNDER THE COLLAR
CHICAGO—It was like this: Fred E. Johnson was in a fairly good humor when he sat down to dial a telephone number, but as time wore on his outlook changed.

During one number, he found it had been changed to another, which he attempted to ring, receiving only a busy signal. So he put on his hat, jumped into a cab and went to the telephone exchange building where he was accused of tearing off the shirt of the manager, E. J. Meyer, and punching him in the jaw. The telephone company called the police.

Johnson was fined \$1 and costs. Incidentally he bought five tickets to the fireman's ball and agreed to buy Mr. Meyers a new shirt.

A
Washington
Daybook

BY HERBERT PLUMMER
WASHINGTON—it is not often outsiders are given the opportunity to peer behind the scenes while the major congressional committees actually are about the task of whipping proposed legislation into shape.
In the preliminary stages usually all who are interested are free to visit committee rooms and remain as long as they please. When the time arrives, however, for drafting the bill to be submitted to the house or senate a cloak of secrecy immediately is thrown around proceedings.
The familiar gold-lettered sign "Executive Session" is hung on the door of committee rooms—a silent command that all but members must stay out.
The only sign of life is the cluster of newspapermen outside the door waiting patiently until some committee member emerges and drops some idea of what has been going on outside may be obtained from him.
Senator's Observation
The late Senator Lane of Oregon, democratic member of that body during war times, once made an observation on this practice which is still quoted on capitol hill.
"Executive sessions, executive sessions," he moaned. "They are the rat holes down which the rights of the people disappear."
A new slant on this congressional practice came to light near the close of the last congress. It was more or less by accident and probably not intended to go any further than the informal gathering where the incident occurred. It was at a luncheon given by Steagall of Alabama, chairman of the house committee on banking and currency, in honor of Prall of New York, third-ranking democrat on the committee, who was retiring from congress at the close of the session.
At the party were most of the democratic and republican members of the committee.
And Another One
During the seventy-third congress this particular committee, from the newspapermen's point of view, was about the hardest of all to pry loose. It handled some of the most important and far-reaching legislation of the session.
The members were close-mouthed. Little information escaped from the inner sanctum. What went on behind those closed doors probably never will be known entirely. At this luncheon party, however, Luce of Massachusetts, ranking republican of the committee, hinted at a rather remarkable situation. As his party's chief representative in a council where some of the most controversial and bitterly-contested legislation of the session was formulated his words are worthy of note.
Partanship of the baser sort has been out of sight and forgotten." "Did I see, "As I look back over the 15 years I have served on this committee, I find it hard to recall a single instance when, behind closed doors and in executive session, any man has sought partisan advantage by his vote or by his speech."

She had not dreamed he could tremble so.

"How did you know?" she asked. "Has your cousin Letitia been whispering sweet nothings of me?"

His eyes narrowed. "Do you think," he questioned in turn and with a sternness she had never known from him, "that I would listen to anyone who would say anything that was less than good—of you?"

"I don't suppose you would," she agreed weakly and with shame. She saw him fumble for his cigarette. He lit one with fingers that were unsteady. She had not dreamed that he, so balanced, could tremble as he trembled now. "You haven't answered me," she reminded, "and I want to know how you understood."

"It's not easy to explain," he responded, "and especially for a raw sort who doesn't talk easily. But you made it too clear at luncheon today. Or rather, after luncheon—"

you remember we were halted by a signal and you saw a child who said was sweet and you looked at her—rather hungrily. And it made me quite lose my head, you remember?"

"Yes."

"It wasn't sensual, Marsha, although, God knows, I am alive with you. There will never be any one else who can matter in all ways as you do." Frowning, he puffed hard on his cigarette. "I had a flash," he went on, "of what life could be for a man and woman, who loved as I thought we did."

"And I thought of my own childhood which was happy and I thought—of how happy any child must be—of you for a mother, you see? And I put my hand on yours, you remember? And I said 'I love you so, when are you going to belong to me?' and you shrank."

She said again, "Yes."

"Then I left you here, and I went home and I began to think of how I had forced this matter and of how you had drawn away. Not from—caresses, Marsha, but from any talk of realities. You were uneasy when

where he was accused of tearing off the shirt of the manager, E. J. Meyer, and punching him in the jaw. The telephone company called the police.

Johnson was fined \$1 and costs. Incidentally he bought five tickets to the fireman's ball and agreed to buy Mr. Meyers a new shirt.

PAMPA TOPICS OF OUR CITY

On the other hand, it is not reasonable to become so enthusiastic concerning the well-earned freedom from the daily routine as to permit oneself to get out of bounds. While it is perfectly natural to want to crowd as much pleasant activity as is possible into the two-week change, it most decidedly does not pay to do this at the expense of one's health and vitality, yet this is precisely what many foolish persons do. It is therefore slight wonder that many men and women who have left for a vacation with that tired feeling come back home even more that way.

While these facts are not furnished to take the joy out of the annual sojourn, it might be well for adults to figure a little physical benefit on the proposition rather than to specialize on fun and de-vitalizing amusements. The body, as well as the mind, needs consideration. The wise vacationist will see that it gets it.

Outward Bound in Recent Race to Bermuda

A lucky port, New London! Two days after the colorful Harvard-Yale crew classic there, another picturesquely was afforded natives when 29 schooners, sloops, cutters, ketches and yawls started off on a 650-mile race to Bermuda. Here's the scene as the craft cleared the famous connection port for open sea.

OIL

(Continued from Page 1) day and made about 800 barrels. In Wheeler county the Alma Oil company No. 1 Perkins in section 46, block 24 drilled deeper yesterday to pick up some looking good. Hutchinson county reports two new locations. Ora Hughes filed petition to drill Jamison No. 1, 200 feet from the north line and 200 feet from the west line of the west 13-1-3 acres of the south 1-3 of the south east quarter of section 33, block Y. H. & C. survey. Harry Stekol located No. 2 Canadian-Wittenberg 'A' 300 feet from the north line and 400 feet from the west line of section 20, block 47, H. & C. survey. A wildcat well has been reported from Louisiana in New Iberia Parish it came in flowing at a rate of 1,000 barrels daily from a depth 3,894 feet and is known as G. D. Fell No. 1, Bernard. A location for another well has already been made.

JOHNSON

(Continued from page 1.) from Al Smith and gave it to Herbert Hoover by one single speech. "I'll bet he is sorry about that speech. "He is one of our greatest men and certainly one of our greatest orators. I think he has done more than any man to keep alive in this country the ancient tradition of intellectual morality and independence. "I just want to commiserate with his estate. I know he will not take my gentle shaft unkindly. He won't be able to say anything of a critical nature that we shall not have corrected before he gets it uttered. "Sweeping aside 'stories about subversive influences in our government' as 'just plain nonsense' Johnson said 'there still seems to be a feeling that NRA is the whole of the president's program. "That is not correct," he continued. "NRA is like the whipping boy at the court of Henry VIII. It is blamed and cursed for everything. I seem to be getting the spear of the phalanx not only in breast but at all parts of my anatomy until I am quite sure that I know what a pin cushion feels like."

MARION MILLS

(Continued from Page 1) NORMAN, Okla., July 12. (AP)—Disastrous with the story of Mrs. Hazel Brown, 38-year-old fraternal house cook at the University of Oklahoma, County Attorney Paul Updegraff said today he would demand a new statement from her concerning the sudden death of 20-year-old Marian Mills, campus beauty queen. Mrs. Mills died Tuesday afternoon in Mrs. Brown's duplex apartment and the cook, held as a material witness, maintained the girl took frequently doses of a quack remedy in an attempt to prevent motherhood. "I don't believe now that death was caused by this medicine," said Updegraff. "There's a lot happened out there at Brownie's house we haven't learned."

NEGRO VOTE

(Continued from Page 1) of civil appeals was correct. And election officials throughout the state should follow it. The democratic party has always been a white man's party in Texas and the attorney general's department will do everything in its power to keep it such. "Practically every court decision recognizes the inherent right of a political party to determine the content of its membership. Certainly when the party spoke through its state convention it was the voice of the party itself. I think this is the only way a convention was valid and stand ready to defend it should it be attacked." Attorney General Albrecht was in Dallas a short time conferring with his assistants with reference to the opinion handed down. He will leave for Fort Worth on Wednesday. He plans to speak in behalf of his candidacy for governor.

CONNALLY

(Continued from page 1.) Mayor W. A. Bratton, T. D. Hobart, B. E. Finley, Judge W. R. Ewing, Clyde F. Fathere, Lynn Boyd, of Pampa; also Fred Connally of Pampa, a cousin of the senator; Ray Johnson, Charlie Ward, John Hill, and Judge S. A. L. Morgan, of Amarillo; and Boyce House, representative of the Star-Telegram. A number of other press representatives drove directly to Childress. I. E. Johnson, managing editor of the Amarillo Globe-News, arrived this afternoon. Many women's club representatives greeted Senator Connally after the luncheon at noon. They included Mesdames C. C. Cook, F. E. Lech, Mel Davis, Alex Schneider, Lynn Boyd, J. W. Garrison, A. H. Doucette, Hamp Waddell, Julian Barrett, Clyde Fathere, and Lynn Boyd, and Miss Virginia Faulkner. Senator Connally, proven friend to Pampa and this area, was much interested in seeing some of the projects he helped make possible. These included the new postoffice, which he was to view this afternoon, and the Fort Worth & Denver railroad for which he worked to obtain the I. C. C. permits. Oil men cited Senator Connally's effective work in behalf of the industry, cattlemen remembered his hills in their behalf, and labor leaders have received letters from William Green, president of the American Federation of Labor, urging their support of and active work for labor's friend. Altogether, the senator's visit was pleasant and highly encouraging from the time of his arrival.

McDONALD

(Continued from Page 1) and other points in the Rio Grande valley before returning to live in Amarillo. Mr. and Mrs. McDonald have made many friends in Pampa who regret to see them leave the city but wish to congratulate them on their promotion.

MINISTER DROWNS LIBERTYVILLE, Ill.—The Rev. John de Long, dry leader who once engaged Samuel Insell in a controversy over prohibition, was found drowned last night in the bathroom of his home. Dr. John L. Taylor, coroner, said the minister left a note saying ill health made it impossible for him to carry on.

MARKET BRIEFS

NEW YORK, July 12 (AP)—The stock market, found the going a little difficult today and prices, generally, drifted to lower levels. Rails were under the most pressure, although trading reverted to its recent extreme dullness on the decline. A few specialties bucked the trend. The close was rather heavy. Transfers approximated 450,000 shares.

Table with columns for stock symbols and prices. Oil Labor Board Wins Victory in Refinery Strike

ENID, Okla., July 12 (AP)—Another victor for the petroleum labor policy board was marked up today as the Champlin Refining company reopened its plant here after settlement of a three-weeks strike. David Moscovitz, attorney for the board, announced a compromise proposal was ratified by the union last night. The agreement provided that all men on strike at the present time who desire to retain employment with the company shall be reinstated in seniority status, in their respective departments as each such department shall be operated, before any other employees shall be hired. And that any further disagreement shall be placed before the board for final decision. However, the company prepared a list of those it considered ineligible for re-employment and until the list is made public, the number of men subject to removal cannot be learned. The strikers receded from their demands for reinstatement of all discharged employees, a closed shop and a change in supervisory policy.

Congressional Oil Committee Visits in Texas

AUSTIN, July 12. (AP)—Advocates of federal oil control, who predicted dire consequences if Congress failed to enact such legislation, "now do not feel conditions are such as was then anticipated," William F. Cole of Maryland, chairman of the congressional oil investigating committee, said today. In informal conferences with oil men in the mid-continent area, Cole said he had observed the industry has not fared as badly as was predicted. The committee was in Texas to acquaint itself with actual conditions in the nation's great oil producing state before beginning its formal hearings, in September. Chairman Cole said the "off-the-record" tour would take the committee to Houston tomorrow afternoon, where they would stay until Monday. From Houston the group will go to East Texas for a three-day stay. Conditions of the Texas oil industry were discussed at length by Commissioner Ernest O. Thompson, who was an active opponent of federal control at congressional hearings. Adherence of federal recommendations and restriction of the current state allowable to less than the 1,042,000 barrels daily allotted the state by Secretary Ickes, federal oil administrator, were brought to the attention of the committee.

Four New CCC Camps Located

WASHINGTON, July 12 (AP)—The civilian conservation corps announced today four new park camps would be established in Texas immediately in connection with its drought-relief program, and a fifth shortly. A total of 2,758 Texans will be enrolled in the five camps and will be selected from the harder-hit drought areas. The civilian conservation corps, under the administration's broad drought relief program, was allotted \$50,000,000 to enroll a total of 50,000 men throughout the stricken areas. A total of 173 new camps will be set up.

Death of Dallas Woman Intrigues Police Interest

DALLAS, July 12 (AP)—What caused the mysterious death early today of Mrs. Lena Mae Stewart, 32, estranged wife of a member of the once-notorious Dago Seay gang of Texas bank robbers, was the subject of intense investigation by the police homicide squad here today. The still-warm body of Mrs. Stewart was brought at 4:39 a. m. to a hospital in a private car by Mrs. Rosa Lee Barnes, 33, a sister. Dr. J. W. Turner, hospital attaché, found no evidences of a violent death. She may have died from a heart attack resulting from thyroid trouble, with which she was afflicted, Dr. Turner said. Justice of the Peace Ben Fly held a coroner's inquest but withheld his verdict pending a probable autopsy. Mrs. Barnes told hospital attendants she had brought her sister in from a nearby country road, the exact location of which she said she did not remember. Shortly thereafter she told detectives Mrs. Stewart died in a University Park residence. Because of the conflicting nature of her stories, and her apparent unwillingness to review the night's activities to police, Mrs. Barnes was held for further questioning. Mrs. Stewart was last seen alive by her parents, Mr. and Mrs. B. C. King at 6 p. m. yesterday in North Dallas. At that time, her father said, she was complaining of a pain in her stomach. Where she went when she left him, King could not say.

Bell Social to Be Attended by Pampa Group

Nearly two score Pampans attended an ice cream social of the Busy Bee club at LeFors last night. The event was held outside the union hall. Refreshments were much enjoyed. Tonight another ice cream social will be held at the Bell school about 8 o'clock. Pampans desiring to make the trip may meet at the city hall and motor as a caravan if they desire.

Corpus Christi Is Considering Pre-Centennial

Tentative plans have been made by a number of Texas cities to stage a Pre-Centennial celebration similar to the one sponsored by the Pampa Junior chamber of commerce May 21 and June 1. It was learned this week. Corpus Christi is the largest city among several which are considering plans to produce Pre-Centennial celebrations. Dale Miller, associate editor of The Texas Weekly, is having numerous copies of the pageant produced here published for distribution to those who make inquiries. Plans of the parade, a feature of the celebration here, will also be available at the Dallas office of the Weekly. Miller, "go-father" of the Pampa Pre-Centennial, over the radio and in magazine and newspaper articles, urged Texas towns to follow Pampa's lead in staging a Pre-Centennial.

City Park Will Get More Water

Since repairs have been made on the city water pumping equipment to increase the capacity, it is possible to more adequately care for the city park. Seven men are being used in an attempt to combat the dry weather and hot winds. It is likely that application will be made to establish a CCC camp at the park or near it to complete the work on both sides of the ravine. A number of drought areas are being given such camps.

Firemen Put Out Blaze on Malone

Some damage resulted from fire which broke out in a small building at the rear of 705 Malone street yesterday. The fire department answered the call and extinguished the blaze with water from a booster tank. The fire was the second this month and the seventh since late in May. Chief Clyde Guld urges Pampans to exercise every care possible in starting fires, burning weeds or dead grass and storing oil paint or oil cans. Everything is dry and a fire in a strong wind might cause much damage in Pampa. Persons planning to burn weeds, grass or rubbish are urged to call the fire station, phone 617, and a truck will be sent to the place in case the fire spreads or gets out of control.

Six More Youths Needed for CCC

Six more Gray county youths will be accepted for enlistment in the Civilian Conservation Corps, it was announced today by G. E. Porter, manager of the federal employment bureau here. Applications should be made to him at the city hall. Applicants must be between 18 and 25 years of age and single. Only those who are eligible whose families are not able to support them.

IN THE CAVERNS

Mrs. Lela Mann and her nephews, Clarence and Bob Windsor, have returned from a trip to Carlsbad Caverns and Old Mexico. They attended a bull fight in Old Mexico.

BACK FROM VACATION

Dr. and Mrs. E. M. Johnson and son, Eob, and Mrs. Johnson's parents, Mr. and Mrs. Boss Johnson of Sudan, Mr. and Mrs. Rayburn Burke, and Mr. Burke's mother from Dallas, Mr. and Mrs. W. H. Davis, and son, Herbert, and L. A. Swan of Amarillo have returned from a vacation trip to Wright's ranch near Creed, Colo. Fishing was excellent and the weather perfect, the party reports.

WOULD OUST JOHNSON

LITTLE ROCK, Ark.—Industry should be stimulated to greater efforts in promotion of the NRA if Hugh Johnson, recovery administrator, should step out of office and turn the administration work over to an industrial board, Harvey C. Couch, RFC director, said in an interview here.

ARKANSAS GIRL KEEPS HER WORD; DIES BY GUARD'S BULLET

CONVICT SAYS SHE REACHED FOR HER GUN

TRUSTY PRISONER IS EXONERATED OF SLAYING

JACKSONVILLE, Ark., July 12. (AP)—Helen Spence Eaton, 21-year-old Arkansas girl who said she never would be captured alive, has kept her word.

She is dead—shot down by a guard 24 hours after she fled from the state prison farm for women. He said he fired when she reached into her blouse for a pistol.

The former White river shanty boat girl, twice convicted of murder, had escaped from prison four times before. On this last attempt for freedom, she left a note saying, "I'll never be taken alive."

Frank Martin, a trusty prisoner assigned to guard her, overtook the girl late yesterday nine miles from the prison farm.

Martin, himself serving a 31-year sentence for murder, was exonerated by Coroner L. C. Aday.

The pistol Helen had taken from Martin's quarters just prior to her escape had not been removed from a brief inside the blue denim blouse she wore, when Coroner Aday viewed it three hours after the slaying.

First convicted of the courtroom slaying of Jack Worsham, who was on trial for the murder of her father, Cicero Spence, Helen was free awaiting outcome of her appeal when the slaying of Jim Bohets, Dewitt restaurant owner, occurred. It went unsolved for two years and then Aday, while on parole from the sentence for Worsham's slaying, Helen walked into Little Rock police headquarters and confessed she killed Bohets because he had made improper advances to her.

Tuesday, Helen complained of illness while working in the strawberry patch and she was excused to permit her to take medicine.

Shortly afterward, Martin saw her walking off from the wire enclosed prison and called upon her to halt. Instead, she ran toward a nearby woods and disappeared before he and Deputy Superintendent V. C. Brockman could overtake her. Martin then found his room open and his pistol gone.

"Paint Farm" Is Lucky Beginning Of Student Job

CANYON, July 12.—Robert Rowan of Canyon has conducted a paint farm for two years. As a result he left this week for Wilmington, Delaware where he will take a place on the laboratory staff of the Krebs corporation, a part of the DuPont organization.

For several years a paint experiment has been conducted near Canyon by this company in an effort to find what kinds of paint are best suited to conditions of the southwest. The experiment is under the local supervision of Dr. C. A. Fietze, head of the chemistry department of the West Texas State Teachers college. Here Rowan, a major in this department, received the training which resulted in his offer of a position in the eastern plant of the paint concern. He was president of the senior class, and received his degree this year.

Student Tour Is To Be Conducted

CANYON, July 12.—Leaving the campus July 17, nature seeking students enrolled for the second six-weeks of summer school will begin the first educational tour sponsored by the West Texas State Teachers college.

Some of the points of outstanding interest listed on the itinerary of the group are Fike's Peak, Colorado Springs, Rocky Mountain National Park, Boulder, University of Wyoming, Yellowstone Park, Salt Lake City, Mesa Verde Park, and the island of Billy the Kid. Faculty members who will teach on the journey are Dr. A. M. Meyer, of the education department, Mrs. Geraldine Green, dean of women, and Professor Frank R. Phillips, head of the department of agriculture.

The students will carry on their study while away and return to the campus to take their examinations at the regularly scheduled time August 24.

Included in the student personnel of the educational tour are Gertrude Dyer and Mildred Mattonson of Lefors, Mr. and Mrs. Boyce Banks of Channing, Lucile Collier of Post, Mildred Miller and Louise Davault of Canyon, J. W. Bentley of Amarillo, J. D. Hibbs of Goodlet, Milton Morris and Mrs. Simms of Friona, Marion Nanev, Elizabeth McFarlin, and Mr. and Mrs. A. P. Bralley of Tulsa, Agatha Taylor of Charendon, Mr. and Mrs. C. R. Wilson of Paducah, Ruth Pendergrass of Memphis, Weidon Ross of Dundee, Mr. and Mrs. Chester Williams of Energy, Mr. and Mrs. C. W. Rose and Ruth and Louise Phillips of Krens, Mrs. Mandoline Hutson and Ernest Baldwin of Canadian, Orlan Sweet and Wellington, and Cagle Teague of Childress.

A few found near the Griffith Park zoo in Los Angeles was supplied with milk by two goats.

Film Star Weds His Secretary

"The most wonderful thing that ever could happen to any man happened." Thus Richard Dix, film star, referred to his marriage in Jersey City, N. J., with Virginia Webster, his 24-year-old secretary. The couple are shown above.

EUROPE ALSO IN THROES OF BAD DROUGHT

ENGLAND HAS HOTTEST WEATHER IN LAST 41 YEARS

WASHINGTON, July 12. (AP)—American farmers, tormented by drought, have plenty of company in their misery.

The whole northern hemisphere, reports to the government showed today, is dotted with large areas of "damage and" suffering caused by lack of moisture. Below the equator, however, conditions have been about normal.

Scarcely Russia's crops have been cut, reports to the government showed today, in the press of other countries that famine threatens the Soviets.

Central Europe faces seriously reduced yields of feed grains and wheat, Canadian crops have been affected materially by hail and cold weather as well as hot, dry conditions. Parts of China may have short wheat and rice harvests.

England has suffered in the hottest weather in 41 years. Manchuria's farmhands have escaped the fate of other countries but Spain and the lower Danubian countries have experienced hot, dry weather.

The United States apparently is bearing the brunt of the drought. Extending over the country except the extreme northwest and a strip diagonally from New England to Central Texas, the blight was declared by the weather bureau to be the worst in 40 years.

Ask the experts what the cause is and they answer that no one can explain fully. Moisture is evaporating as usual under the sun's rays but because of peculiar conditions in the upper air rain is not falling on the farmlands. Indications are that much of it is falling into the Atlantic ocean.

Dry and wet weather move in cycles, weather bureau men say. The present dry "spell" started about 1900. The hope is expressed that it has about run its course.

Man is to blame, in part, for the disaster. Ploughing up naturally dry areas allowed more rapid evaporation of surface water. Such areas present another problem during wet periods when surface water runs off unchecked by vegetation and results in floods.

Therefore the department of agriculture is urging depopulation of many dry areas and returning the land to grass.

Irish Celebrate Run Against Negro Battle of Boyne

BELFAST, Northern Ireland, July 12. (AP)—Tens of thousands of marching feet tramped today over Ulster, down to the Free State border, in celebration of the battle of Boyne, an event dear to the hearts of Orangemen.

Prime Minister Ramsay MacDonald of Great Britain, en route to Canada, was a distinguished observer. It was his first Ulster Orangemen's festival.

He was invited here by Viscount Castlereagh, heir to the Marquis of Londonderry, British air minister. MacDonald will sail tonight.

Celebration of the battle of Boyne has been an Ulster event for hundreds of years, marking the battle between the armies of King William III and King James II in 1690.

The early Roman emperor, Lucullus, is credited with having introduced cherry trees in Italy.

COURT HOUSE NOTES

31st District Court
Buit of Alex Schneider against Dr. A. McClary of Albuquerque, N. M. for commission in a refinery sale was abruptly halted here yesterday when Judge W. R. Ewing granted a special exception of the defense. In this second trial of the suit, the petition was, in effect, changed so that it constituted, in the opinion of the court, a new basis of action now voided by the two-year statute of limitations. Appeal was immediately started by the plaintiff.

Four new indictments have been returned by the grand jury, which continued its deliberations today. No returns on the indictments have been made.

New civil suits filed are those of W. F. Mottl vs. Texas Employers Insurance association, to set aside award; and the State of Texas against Mike Byrne et al, injunction.

With many transcripts to get out, processes to issue, and other business pressing for attention, this is the busiest week of the term, according to Frank Hill, district clerk.

Returns have been made in two recent indictments. W. L. Robertson and Robert Roscrans were indicted on a felony complaint charging that they entered a house belonging to Charlie Nicholson June 30.

Fred Patterson and Arthur Bell were jointly indicted for fraudulent taking \$1,925 from the Postal Telegraph office here June 12.

In W. S. Baxter's justice court, Lurant Wilson has been charged with bigamy and held in jail for lack of \$1,000 bond. Mike Byrne and Kie Granite have been charged in a felony complaint alleging sale of liquor at Kingsmill. They were released on \$1,000 bond.

MARRIAGE LICENSES
Marriage licenses have been issued here to Paul P. Lockhart and Della Robinson and to Edward Earl Plank and Ethel Faye Winget.

Nazi Answer to Dollfuss Edict Is New Bombings
VIENNA, July 12. (AP)—Two new bombings outrages were reported in Austria today, only a few hours after Chancellor Dollfuss had announced a new anti-terror campaign with the death penalty for possession of explosives.

Five persons, four of them tourists, were injured at Salzburg when a bomb destroyed the automobile of a member of the Dollfuss "Fatherland Front" organization.

Another bomb shattered many windows and slightly damaged a priest's house at Buechs, in western Austria.

Meanwhile the German legation here issued a firm denial of reports that the minister had been notified to prepare to return to Berlin and said such instructions are not expected.

The car at Salzburg was parked in front of a small tavern near the picturesque "Klosterweg," a beer hall well known to most Americans who have visited Salzburg.

The tavern was partially wrecked and the automobile was blown to bits. The tourist members of the group were arriving at Salzburg from Graz. All were Austrians.

The fifth victim was a 12-year-old girl who had just been sent from home to the tavern for beer.

Farmers of western Kentucky were paid \$750,000 for their strawberry crop this season.

PARAGUAYANS PREDICTING GRAN CHACO FORT WILL SOON FALL

HOWEVER BOTH COUNTRIES SEE VICTORY AHEAD

EACH NATION IS STILL DENYING REPORTS OF THE OTHER

BUENOS AIRES, July 12 (AP)—A pitched battle raged on today about Fort Ballivian, backbone of the Bolivian forces in the Chaco, with Paraguayan forces predicting the fort would soon fall.

Both Paraguay and Bolivia set forth claims of impending victory. Both combatants too, told of fierce fighting along a 60-mile front—the longest of any South American war.

The Paraguayan war ministry said its troops had repulsed a fresh counter-attack launched from Fort Ballivian and killed nearly all the assailants.

The Bolivians took 300 dead on one sector alone, the war ministry reported, and every available Paraguayan gun was shelling the enemy.

Paraguayans from La Paz told another story—a story that "the intense developments of the battles is favorable to Bolivia," with heavy Paraguayan losses in the attack on Ballivian.

Bolivian troops forced back the Paraguayan front lines one kilometer (nearly two-thirds of a mile), a war ministry communiqué said, and captured 146 rifles and four sub-machine guns.

The Paraguayan artillery laid down a heavy barrage, followed by infantry attacks, the Bolivian communiqué said, but left hundreds of men dead on the field.

PLA-MOR BALL WILL BE HELD THIS EVENING

The regular Thursday night dance will be held again tonight at the Pla-Mor auditorium with Mal Finn and his orchestra furnishing the music.

The increasing popularity of this orchestra is shown by the increasing crowds who attend this regular dance and others at which music is furnished by Mal Finn.

A group with the money will be five again tonight when the amount paid for admission 25 cents to the dance tonight will be credited toward admission to the theater. This credit will be allowed on admissions which are paid before 9 o'clock tonight.

The admission will be 25 cents and 5 cents per dance will be charged. You can count on a good evening if you plan to attend this dance.

AWAITS DEATH

FLORENCE, Ark.—Resigned and offering no fear, 19-year-old Geo. J. Shaughnessy, Albany, N. Y., today awaited his death in Arizona's new lethal gas chamber. At dawn tomorrow—Friday the thirteenth—he will pay for the murder of Lon Plankenship, Tucson automobile dealer. His prison for a two-weeks stay of execution was refused.

The Garden club will meet in the club rooms of the city hall at 9:30 a. m.

Reta Le Eller Honored With a Birthday Party

Reta Le Eller was honored on her thirteenth birthday with a party in the home of her grandparents, Mr. and Mrs. J. E. Ward, last evening.

The honoree received many nice gifts. Games were played until a late hour.

Black and white cake and ice cream were served to the following: Miss Thomas, Pauline Leverage, Maxine Houchins, Mary Lee Morris, Frances Thompson, Bonnie Lee Rose, Madge Bell, Billy K. Combs, John Edwin McConnell, Billy Simmons, Nell McCullough, Earl Herding, Erlou Eller, Junior Pollard, Junior Bennett, Burl Brooks, O'Donnell Millman, the honoree, Reta Le Eller.

Picnic Sponsored By Auxiliary for Camp Fire Girls

The American Legion Auxiliary sponsored a picnic in the city park last evening for the Camp Fire Girls in appreciation of the aid the girls gave in the poppy sale recently.

Games were played during the evening and camp songs were sung around the camp fire.

Home made ice cream in cones were served to the following members: Mary Seeds, Winnie Pierson, Lemoine Duncan, Mildred Pierce, Edith Beckham, Jessie Marie Gilbert, Katherine Ward, Herma Beckham, Helen Harris, Jessie Merl Farmer, Virginia Jiles, Lillian Nix, and Cleora Deardorff.

Martha Jo Gilley of Oklahoma City, Junior Vicars, Bobby Burns, and Berton Lee were guests. Mmes. Bo Barrett, S. E. Wallace, R. H. Kitchens, Al Lawson, Roy Burns, and L. D. Blasenname were the Auxiliary women present.

INFANT DIES

Funeral services for Joseph Earl Baggerman, infant son of Mr. and Mrs. Ed. Baggerman, were conducted at 4 o'clock yesterday afternoon with the Rev. G. E. Lancaster, pastor of the First Baptist church, officiating. Burial followed in Fairview cemetery in charge of the Stephenson Mortuary.

Mr. and Mrs. Baggerman have been residents of this county for a number of years. They are farmers southwest of Pampa. Besides the parents, the child is survived by a sister, Donnie, and a brother, Daniel.

Capes—Smart Any Time

By ELLEN WORTH

WHETHER it's hardly more than an organdie ruffle and a great big bow that adds zest to your evening ensemble, or whether it's hip-length and a business-line peasant linen topping your town frock—if it's a cape, it's important.

We show you both types here, because you're going to need both this summer. Choose white organdie or a vivid Mexican striped taffeta for the frivolous evening affair—both are smart with dark sheers and the former is a favorite with pastels. If not linen for daytime, there are cotton tweeds that are just as chic.

Remember, both white and natural are effective with dark or contrasting frocks.

The New Fashion Book will help you plan your wardrobe. Send 10 cents for book. Pattern No. 5618 is designed. Now sizes 16 to 20 years; 34, 38 and 42 bust. (Size 16 requires view 1, 1 1/2 yard 36-inch material; view 2, 2 yards 36-inch material.)

Send 15 cents in coin or stamps. Mail your order to: Paper, care Fashion Center, P. O. Box 170, Times Square, New York. Print your name and address clearly and print pattern number, size or bust.

(Copyright, 1934, United Feature Syndicate, Inc.)

To order, address Pampa Daily News, Fashion Center, Times Square P. O. Box 170, N. Y. Write name and address plainly, giving number and size of pattern wanted. Your order will be filled the day it is received by our New York pattern bureau.

MISS WINGET AND MR. EARL PLANK MARRY

CEREMONY PERFORMED BY METHODIST PASTOR

Miss Fay Winget, daughter of Mr. and Mrs. P. A. Winget, and Earl Plank, son of Mr. and Mrs. E. E. Plank, were married Tuesday evening at the First Methodist church with the Rev. Lance Webb officiating. The couple left immediately for a honeymoon trip to Eagle Nest lake.

The bride was dressed in pink chiffon with all white accessories. Mrs. Plank has been a resident of Pampa for several years. She is a graduate of Pampa high school and attended Texas Woman's college at Fort Worth. She was employed as cashier at F. W. Woolworth's.

Mr. Plank has been a resident here for five years and was employed as tool dresser for Simpson and Noble. The newly weds will make their home at 521 North Somerville.

Presbyterians' Church Night Is Attended by 85

Eighty-five members and friends of the Presbyterian church enjoyed a church night covered dish luncheon and program last evening at 7 o'clock.

Frank Foster and Geo. Briggs led a lively sing-song to start the program and break the ice. Three excellent readings were given by Mrs. R. F. Dirksen, Marjorie McColm played a piano solo. The Rev. Hyde gave a short talk at the close of the program.

Mrs. P. C. Ledrick and Mrs. John Andrews were in charge of the tables and Mrs. Frank Pfriuf arranged the program.

Skellytown News

Scoring yeast bread was the demonstration given by Miss Bessie Lee Sikes, home demonstration agent, at a regular meeting of the Sunshine club Tuesday, July 3, at the Methodist church in Skellytown.

Mrs. Stafford won highest score on her bread. Other members submitting bread for scoring were Mmes. E. Hatchell, J. C. Kennedy, Earl New, J. C. Sims, I. C. Looman, and E. R. Kuehert.

Others present were Mrs. H. H. Rumph and Mrs. A. N. Halles.

The next meeting will be held July 17 in the Methodist church.

Friday, July 6, several members of the Pleasant Hour club attended a covered dish luncheon in the home of Mrs. M. N. Osborne.

Those present were Mmes. J. Tomlin, E. R. Hawkins, I. C. Looman, Joe Carroll, D. Bowsher, J. Lee, E. R. Kuehert, one guest, Mrs. Geo. Allen, and the hostess, Mrs. M. N. Osborne.

Mr. and Mrs. Port Polson and children left Friday for Laredo.

Mr. and Mrs. John Lee have returned from visiting in Oklahoma, Kansas, Missouri, and Arkansas.

Mr. and Mrs. Geo. Allen have as their guests Evelyn La Rue and Herman Allen of Memphis, Tenn.

Mr. and Mrs. Henry Parker have as their guests Mr. Parker's mother and sister of Atlanta, Ga.

Mrs. Mabel Martin and son, Donald, are visiting friends and relatives in Denver, Colo.

FREE MOVIE TO BE AT CHURCH FRIDAY NIGHT

'Lucky Devil' Stars Dix, Oliver and Ralston

"The Lucky Devil" starring Richard Dix, Esther Ralston, and Edna Mae Oliver, will be shown at the First Methodist church Friday evening at 8:15. A comedy will be shown before the main feature.

Everyone is invited to attend these shows given each Friday evening. There will be no admission charge.

Table Etiquette Is Lesson Topic At Merten Club

"A successful hostess is the woman who has a keen appreciation of the meaning of hospitality and the one that realizes that she is responsible for the happiness of her guests," explained Miss Ruby Adams, home demonstration agent, yesterday afternoon as she demonstrated a lesson in table etiquette when the Merten Home Demonstration club met in the home of Mrs. J. C. Browning.

At the business meeting plans for sending Mrs. Fred C. Fischer to the short course at A. & M. college were completed.

Refreshments were served to one visitor, Mrs. Bob Phillips, and the following members: Mmes. Fischer, Bailey, Phillips, Firman, Ford, Pickering, Miss Adams, and the hostess, Mrs. Browning.

Mrs. M. S. Austin and small daughter, Mary Ann, of Wilson, Okla., left this morning after spending a week visiting in the homes of J. B. Austin, G. C. Austin, both of Pampa, and Collie Austin of Magic City.

MRS. JORDON IS HOSTESS TO BUSINESS CLUB

WOMEN TO HOLD ONLY ONE MEETING IN NEXT 2 MONTHS

The Pampa Business and Professional Women's club met with Mrs. Lillian Jordan for its regular business and social for the month of July.

The club decided to have only one meeting a month during the next two months with an executive board meeting preceding the regular business and social meeting which will be held out of doors at the homes of the various members.

Billie Waters of White Deer entertained with two humorous readings and Dorothy Jo Moore with two dance numbers at the social hour which was directed by Hazel Christian.

Refreshments were served to the following members: Francis Sturgeon, Grace Pool, Clara Lee Shewmaker, Mildred Overall, Katherine Howell, Ola Nellis, Hazel Christian, Marie Bastin, Katherine Vincent, Lillian Jordan, and Audrey Fowler.

The next meeting will be held Tuesday, August 14, at the home of Mrs. Grace Pool.

Games, Talk on Church Program For This Evening

Thirty minutes of games and fun will be enjoyed this evening at the McCullough Memorial Methodist church at 7:40 o'clock on the weekly community night.

Following the fun the Rev. Lance Webb will speak on "True Confessions."

All those interested in the building of God's Kingdom here on earth, are invited to attend the community night services, he said.

NAZI SUSPICION OF FRENCH AND ENGLISH GROWS

Russia, England and France Accused of Conspiracy

BERLIN, July 12 (AP)—A Germany more critically minded than it has been for months waited somewhat tensely today for Adolf Hitler's own explanation of the June "purging" of his storm troopers.

Some observers feel that when Hitler addresses the Reichstag tomorrow night he will be facing a major crisis of his chancellorship.

Official statements have applauded Hitler's action in the execution of storm troop leaders, but many questions are unanswered in the public mind, and Germans are looking to Hitler himself to answer those questions to their satisfaction in his Reichstag speech.

Storm troops wonder who is going to guarantee that the Nazi program will be put into effect with their pioneer leaders gone.

At the same time many non-Nazis who hitherto have regarded Hitler tolerantly have now fallen into doubt and want assurances as to the future.

A widespread demand from the public to know what is readily happening was apparent from a flock of official pronouncements against "rumor-mongering."

The German press, turning to foreign affairs, launched an attack on France because of the visit to London of Louis Barthou, French foreign minister, and his apparent arrival at an understanding with the British.

The newspapers charged Paris had spoiled possibilities for peace in Europe by a policy of "security before disarmament."

Germany professed to see evidences of a Franco-Russian pact, which would further encircle this country, and England was said to be "retiring into a state of splendid isolation until she is fully armed."

Mrs. E. Berg of LeFors was a Pampa shopper this morning.

MISS BLANCHE ANDERSON AND MINISTER WED

CEREMONY PERFORMED AT OVERTON BY BROTHER

Miss Blanche Anderson, daughter of Mr. and Mrs. S. L. Anderson, and the Rev. J. Travis Hinkle of Overton, Rev. Joe Hinkle, brother of the groom, performed the ceremony. Mr. and Mrs. L. G. Lunsford attended the couple. Mrs. Lunsford is a sister of the bride.

Mrs. Hinkle has lived in Pampa for 16 years and graduated from Pampa high school. She has been secretary for Supt. R. B. Fisher for three school terms.

Rev. Hinkle, whose home is in Shreveport, La., is a Baptist minister. He attended Marshall college last year. He and Mrs. Hinkle will enter Baylor University this fall.

The couple will make their home in Overton this summer.

A record-breaking demand for Chevrolets has sent production to the highest total reached by any automobile manufacturer during 1934

SINCE January 1, 1934, more than half a million people have come to the sound conclusion that Chevrolet offers the world's greatest values—and have bought Chevrolets. No other manufacturer can point to such a record in the same length of time, and for a very good reason. No other manufacturer has so much to offer as Chevrolet.

Chevrolet is the only low-priced car to give you patented Knee-Action, and only patented Knee-Action gives you shock-proof steering com-

bined with the new joint-proof riding ride. Chevrolet alone in its field provides Fisher Bodies with genuine No Draft Ventilation—the safest and most comfortable bodies built today. No low priced car but Chevrolet has safe, cable-controlled brakes, the sturdy K-K frame, and a dozen and one other important features. Do you wonder what the trend is to Chevrolet?

Let these features guide you when you buy your low-priced car. Don't accept anything less than all of them. Save with a Chevrolet.
