

MCDONALD SAYS SUPPORTERS HAVE INSTRUCTED HIM TO VOTE FOR HUNTER

THE JIG'S UP WITH ALLRED HE DECLARES

ASKS 'TOILING MASSES' TO STAND SOLIDLY TOGETHER

AUSTIN, Aug. 6 (AP)—C. C. McDonald, defeated Democratic candidate for governor, said today his supporters had instructed him to support Tom F. Hunter in the run-off campaign.

McDonald said a poll of his supporters showed 1,016 favored support for Hunter and 31 for James V. Allred, high man in the first primary. Five wanted McDonald to remain neutral.

"The jig's up with Jimmie because it's time for Tom," McDonald said.

In the first campaign, McDonald said "arrayed against us was money, influence and political power, and yet we were runners up in the memorable contest. I will now answer your call and follow your flag in Mr. Hunter's campaign. We have fought the money power before; we will do so one more time and if we stand solidly together we will win an overwhelming victory against all odds on August 28."

He added that his "own personal choice is Hunter, because I am a neighbor and have practiced law with both Hunter and Allred for years and there is no comparison from the standpoint of character and native ability."

Hunter polled 219,354 votes in the first primary to enter the run-off with Allred, who was the choice of 269,470 voters. McDonald was third with 189,001 votes.

The fourth-place candidate, Clint Small, who received 111,510 votes, also has declared for Hunter.

"Our supporters," said McDonald "come from the toiling masses and are to be found in factories, foundries, shops, and stores, in the oil fields and on farms and ranches—a great people striving hard to obtain social justice, a square deal and human rights. The only hope left for those who toil and labor lies in Hunter's election."

McDonald asserted Allred had said "Hunter was seeking to overthrow the state government; all Hunter proposes to do is to overthrow Allred, and when Allred falls he thinks the government falls."

FIGHT OVER BANDIT'S GIRL

Refinery Fire Here Inflicts \$8,000 Damage

Explosion Results in Much Smoke and Large Crowd But No One Is Injured.

A broken pipe in the bubble tower of the cracking plant at the Dandiger refinery was the direct result of an explosion and fire which followed yesterday afternoon. No one was injured although a full crew of men were at work in the plant.

Oil that had been heated to a temperature of 650 degrees started pouring from the burst pipe and when it struck the air, an explosion resulted. Fire followed the explosion, and oil in the tower continued to burn as it poured from the broken pipe. The Pampa fire department was called and by using 1,750 pounds of foamite, succeeded in extinguishing the blaze.

Earl Roff superintendent of the plant, said this morning that the loss would amount to nearly \$8,000. That particular department of the refinery will be closed for a week while repairs are being made.

Smoke poured from the burning tower for nearly an hour. Hundreds of cars rushed to the refinery and would have hampered the work of rescue had anyone been injured. Ambulances were called to be on hand in case of injury and it would have been practically impossible for them to return to Pampa had the necessity arisen.

PANHANDLE GAS SITUATION TO BE REPORTED

APPLICATION MADE FOR CARBON PLANT IN HUTCHINSON

By GEORGE L. GUTHRIE, Consulting Geologist, Combe-Worley Bldg.

In an attempt to leave no stone unturned, the Senatorial Investigating committee has called upon Alec Crowell of the Railroad Commission here to make a report upon the various phases of the gas distribution for the past several years in the Panhandle.

The report will include decreases in volumes, rock pressures, gasoline content, residue sales, in fact every thing about the gas end of the field. The report will be used by the committee in recommending control measures to Administrator Ickes.

The most recent hearing affecting the Panhandle is that of the application of F. C. Henderson to maintain and operate a carbon black plant in Hutchinson county. The notice of hearing did not give the location of the plant. The hearing is scheduled to take place in Austin at 10:00 a. m. Friday, Aug. 17, 1934.

Two wells have been completed in Carson county. The Herrogan Oil company No. 2 McConnell in section 187, block 3 I&GN was bottomed at 3300 with pay from 3228-32 and 3265-85 and averaged 187 barrels on its five day test.

The Skelly No. 33 W. Schaffer in section 87, block 4 I&GN was bottomed at 3994 with the pay from 3010 to 3014 and 3050-65. It averaged 38 barrels on test.

Wheeler county seems to be coming in from the front again with new locations picking up. The Ebar Noel No. 4 has been located 330 feet from the west line and 990 feet from the south line of the southwest quarter of section 54, block 24 H&GN.

The Alma Oil company is rigging up its No. 4 Johnson 990 feet from the east line and 330 feet from the north line of the northwest corner of section 47, block 24, I&GN.

The Dumar Oil and Gas company located No. 1 Gordon in the center of the southwest quarter of the southwest quarter of section 107, block 23 H&GN.

Over 100 Sign Decency Pledge

More than 100 persons signed the Legion of Decency pledge at Holy Souls Catholic church yesterday. Father Wonderly reported this morning. He expects approximately 200 members of that church will sign the pledge within two weeks.

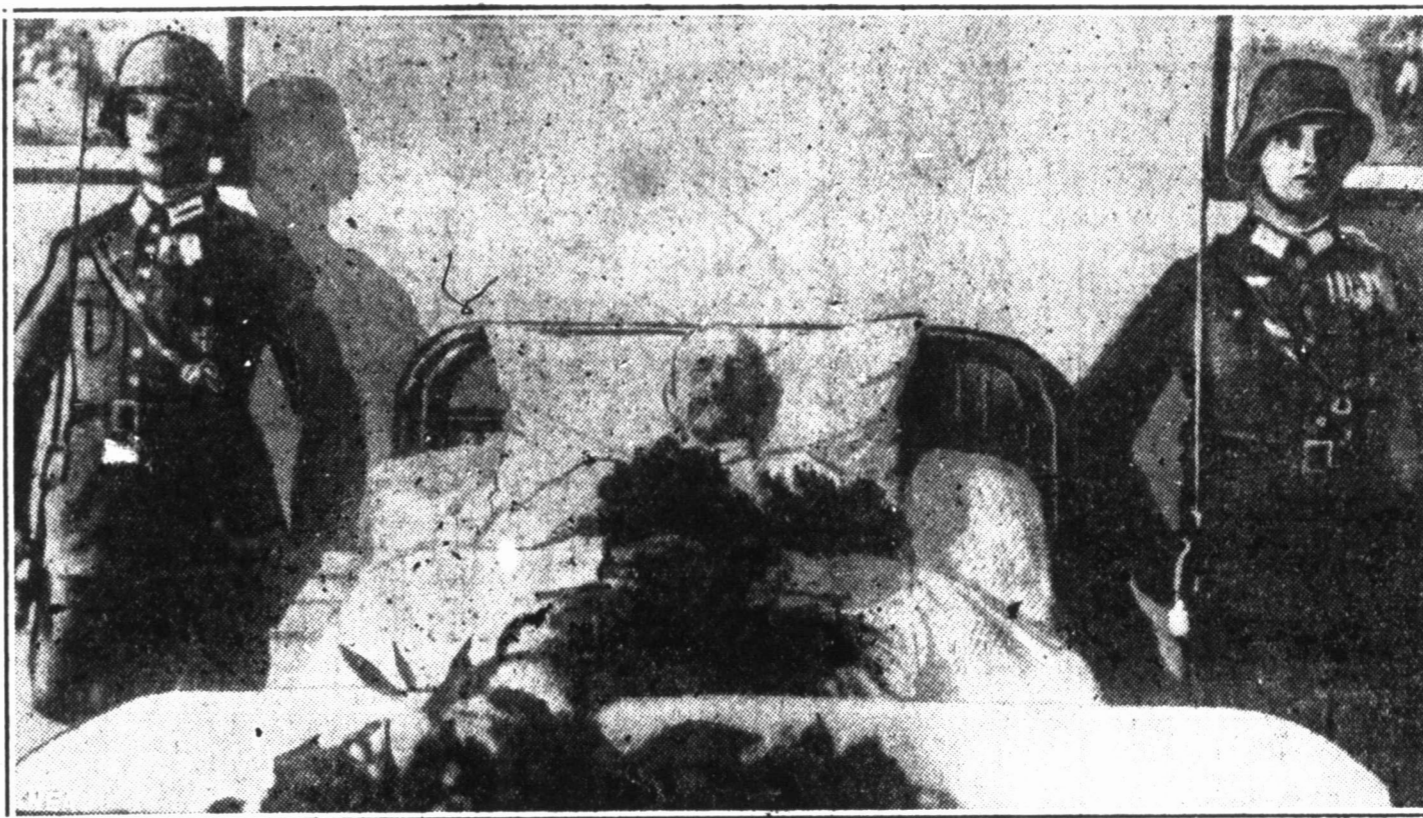

Meanwhile, several pastors of Protestant churches are awaiting the return of the Rev. C. E. Lancaster of the First Baptist before taking action. It was announced that the ministerial association's attitude toward the pledge would be brought up at the next meeting. Rev. Lancaster is president of the

association. Several Protestant ministers have announced they will cooperate in urging members of their churches to sign the pledge. Local Catholics signed the pledge after Father Wonderly read a pastoral letter from the Most Rev. Robert E. Lucey, bishop of Amarillo, who stated that the motion picture which should be a "force for good in recreation and education has been prostituted to serve the end of crime, sex immorality and social degradation," and which is "subversive of morality and good

HUEY LONG AND MAYOR GO TO COURT

Hearing on Bill to Create New Police Board Being Held in New Orleans.

NEW ORLEANS, Aug. 6 (AP)—City and state officials who have arrayed opposing armed forces against each other for a week, today took their fight to a civil district court room with Mayor T. Semmes Walmesley's authority over the New Orleans police at stake.

There, Judge Nat W. Bond opened hearing on a city suit to enjoin the functioning of a new city police board, provided for in a bill pushed through the legislature by Senator Huey P. Long.

The bill, providing for taking the police authority away from the Mayor through creation of a special police board named by local civic organizations, was described by the Walmesley faction as "reprisal" for defeat of Huey Long candidates by Walmesley men in the last city election.

It was attacked in court on grounds of unconstitutionality, the city claiming irregularities marked its passage in the legislature.

The new board was scheduled to take office last Wednesday but was restrained from so doing by the city's injunction suit, under which the district court issued a temporary restraining order pending today's hearing.

Mayor Walmesley, who filed the action, appeared in court flanked by city attorneys to press the litigation. Senator Long, his bitter antagonist, had temporarily dropped out of sight after visiting for several days in the executive mansion at Baton Rouge.

George Wallace and James O'Connor, both assistant Louisiana attorneys general, appeared to defend the legislative act.

One-Pound Baby Dies at Temple

TEMPLE, Aug. 6 (AP)—The cry of Eva Nadine Locke, one-pound of perfect baby, has been stilled. Fifty-one hours after it was born, the infant, perfectly normal in every respect except for size, died in the "dresser drawer home" that had been provided for her.

Eva was active, squirming in true baby fashion and even attempting to put her tiny fist in her mouth. She cried in a reasonably strong voice.

But physicians said her size would not permit her fight for life to continue. She was buried in a tiny casket—no longer than a cigar box.

She was the daughter of Mr. and Mrs. Lee Locke of Yarrington.

ALLRED, HUNTER BEGIN BATTLE IN WEST TEXAS

Fight For Section's Votes Starts Tonight

DALLAS, Aug. 6 (AP)—Run-off candidates for high state offices swing into action this week to capture the thousands of stray votes which will determine the democratic nominees and, at the same time, win for them the offices sought. Victory in the democratic primary August 25 is tantamount to election.

Attorney General James V. Allred and Tom F. Hunter, the two Wichita Falls men who, in the first primary, won the right to fight it out for the governor's post, set out to rouse up the many votes cast for the four candidates they eliminated.

Allred opens his campaign tonight at Farmersville. Tomorrow afternoon he will speak at Commerce; tomorrow night, Stephenville; Wednesday morning, Dublin; afternoon, DeLeon; night, Eastland; Thursday afternoon, Coleman, and Thursday night, Abilene.

Hunter plans to open at Amarillo tomorrow night. From there he will go to Lubbock for a Wednesday appearance. He will be in San Angelo Thursday and Port Worth Friday night. Saturday he will talk at Commerce and Sulphur Springs.

Another bitter contest impends between State Senator Walter Woodward of Coleman and William McCraw of Dallas for the attorney general's office.

Pampan Slashed With Knife; Man Is Held in Jail

A man is being held in jail here in connection with an affray early Sunday morning on West Foster avenue in which Jimmie Marshall, a spectator, received a cut on his thigh which required 20 stitches. The man used a "Dallas special" with a six-inch blade.

He was arrested by city officers and yesterday turned over to the county.

According to Marshall's statement, a man was swinging the knife in all directions, barely missing two persons standing nearby. Marshall said he pinned the man's arms to his side but he broke loose. He again grabbed the man but both fell to the sidewalk. Before other spectators could grab the man, he had slashed Marshall's thigh.

A negro is being held in the county jail in connection with receiving stolen goods. He was arrested yesterday by city officers who had the busiest week-end in many months.

Domino Game Cause Of Killing

GAIL, Aug. 6 (AP)—F. L. Burrus, about 48, was shot and instantly killed at Treadway, in northwest Borden county, about 7:30 p. m. Sunday.

Johnnie Koff, about 28, operator of a community store, was arrested and taken to Snyder for safe-keeping. Violence was feared by Borden county authorities. Charges against Koff probably will be filed this afternoon.

Stelvin Barrus, 18, son of the victim, was said to have been target of three bullets fired from a pistol as the son walked into the store followed by his father.

After an argument over a domino game in the store, Stelvin Barrus was ordered out of the store. He returned, was ordered out again, and the second time he returned the shooting occurred.

In the meantime the elder Burrus had heard of the dispute. The son, it was said, did not know his father was following him.

RABIES CAUSE DEATH BROWNWOOD, Aug. 6 (AP)—Rabies caused the death here last night of C. S. Womack, 47, bitten by a cat three weeks ago. The farmer became ill last Wednesday. Three years ago he was bitten by a dog suffering from rabies but took the Pasteur treatment and seemed to suffer no ill-effects.

Burglars Smash Wall Of Store

After climbing to the roof of Deak's department store, thieves last night smashed their way through the wall of the Montgomery Ward store here but failed to open the safe which was badly scarred from blows of a sledge hammer or some other heavy instrument.

Officers of the sheriff's department investigating the robbery have been unable to learn how the thieves made their way to the roof of the adjoining store. No ladder has been found in the vicinity of the store and no marks of a hook-rope or ladder have been found on the ledge above the roof.

LATE NEWS

CHICAGO, Aug. 6 (AP)—Grain prices swept upward to new high marks for the year today as a spurge of speculative buying on reports of increasing damage to corn and Canadian wheat poured into the market.

SAN ANTONIO, Aug. 6 (AP)—Judge Ben H. Kelly, 64, well known attorney, was shot down as he stood at the intersection of Navarro and Houston streets today. He died at a hospital a half hour later. A woman giving her name as Mrs. Gladys Rice, about 40, was taken into custody immediately after the shooting, a smoking 38 caliber pistol in her hand. The woman said she was a widow and that financial matters had led to the slaying. Further police investigation disclosed she was a seamstress.

HOUSTON, Aug. 6 (AP)—Eight men were burned, one fatally and several others critically, in an explosion this morning at the Shell refinery on the Houston ship channel. W. Domasch, 22, a cleaner at the refinery, died this afternoon. Physicians expressed fear that others might succumb to their burns.

MINNEAPOLIS, Aug. 6 (AP)—Employers today requested a court injunction restraining Gov. Floyd B. Olson from continuing military rule in the city during the truck drivers' strike and attacking the legality of a new permit system supervised by the national guard on the governor's order.

CITE WICHITA FALLS AGENT FOR CONTEMPT

CLAIMS MARY O'DARE WAS 'SPIRITED AROUND'

WICHITA FALLS, Aug. 6 (AP)—United States District Attorney Clyde O. Eastus today asked for dismissal of contempt of court proceedings against E. J. Dowd, department of justice agent cited after he failed to produce at a habeas corpus hearing Mary O'Dare, sweetheart of the outlaw Raymond Hamilton.

"Dowd is not in contempt of this court," Eastus declared, "because he was not served a writ."

Judge Irvin Vogel continued the case until this afternoon. Dowd was cited by Judge Vogel after the O'Dare woman, since charged with conspiring to harbor the late Clyde Barrow, when he was a fugitive from justice, had been transported about the city by Dowd until the return of United States Commissioner M. E. Peters permitted the filing of charges against her.

Mary O'Dare was arrested August 2 and her attorney, John Davenport, immediately instituted habeas corpus proceedings to bring about her release. Dowd kept her out of circulation pending filing of the fugitive harboring charge.

Since Raymond-Hamilton's escape from "death row" at the state penitentiary July 22, officers have kept close check on her, trying to learn the whereabouts of her fugitive lover.

District Attorney Eastus expressed the belief that Judge Vogel's state court was without jurisdiction because Mary O'Dare is charged by the federal government and not with a state offense.

"Only the federal government has jurisdiction in this case," said Eastus, who is United States attorney for the northern district of Texas.

Davenport, in fighting the dismissal plea, declared his client had the right of representation and that the 78th district court was entitled as much respect as any United States court.

Davenport planned to confer with Eastus about reducing the \$10,000 bond set for Mary O'Dare. He said he had no intention of going to Fort Worth for a habeas corpus hearing there before Federal Judge Wilson.

LIVELY CROWDS GREET CARAVAN OF 55 PAMPANS

P. O. Dedication And Tournament Are Advertised

PERRYTON, Aug. 6 (Special)—An interested crowd here greeted the 55 automobiles in Pampa's caravan of 15 automobiles which started early this morning to advertise the new federal building dedication and the first Pampa invitation baseball tournament to nearby towns.

Arrival in Perryton for lunch was made ahead of schedule. Visits had been made previously to Miami and Canadian, where the citizenship turned out and stops were scheduled this afternoon in Spearman, Stinnett, Berger, and Skellytown.

Copies of the tabloid section of Sunday's NEWS, which featured the two important events in Pampa this week, were distributed in each town. George Briggs, chamber of commerce secretary, addressed the crowds that welcomed the caravan, and invited resident each town to attend the dedication program Wednesday and the tournament games that will start Thursday.

A 32-piece children's band directed by Turney Mullinax accompanied the Pampa trippers and

PAMPA TOPICS OF OUR CITY

DID YOU EVER HEAR IN Shamrock Texan—Did you hear that a beer parlor in town does a large business in pop and ice water?

HARRY JAFFA in Roswell Dispatch—There are now over 800 men working for the city, shoveling dirt, drilling holes in the pavement, removing and laying water mains and doing all sorts of labor. Some of the men only work 3 days a week, but they get nice fat checks and the merchants of Roswell should get well.

GREENVILLE BANNER—Many say this is Smith's age but Marie Dressler disproved it. Triumphant as she may have been in the more agile years of her career, the latter days in which she brought life to a lassitudinous industry and bright entertainment to a bedulled world stand as a perennial monument to old age's ability to achieve when the will to win is there.

H. B. HILBURN in Plainview Herald—The Panhandle-Plains Dairy association has sounded a note of warning to farmer dairymen throughout the plains, advising them not to be stampeded into cutting their dairy herds too deeply. Their suggestion that cattle be sold under the government plan on a basis of culling herds is a wise one. Old Bossy has been the mainstay of the plains for many a year. Drought is only temporary. Let's keep our sails set for the five-year or ten-year voyage and not be stampeded into action that we will regret.

THE PLAINSMAN in Lubbock Journal—Maybe the Plainsman is getting holier than thou, or something but he is getting doggone tired of these Hollywood screen artists and their marriages and divorces for publicity reasons. Latest developments of this kind are connecting the names of Jean Harlow and William Powell. Each has been married two or three times and apparently is in need of some free advertising. Therefore, they're getting it by being seen together and smirkingly denying any serious intentions.

CLYDE W. WARWICK in Canyon News—Elections always bring a lot of heartaches. It is one of the unfortunate things about these bi-annual affairs that only one candidate in each race is able to win. Those who are disappointed in their appeal for the office are sorely disappointed, and many of them are unable to "stand the gaff" of defeat. However, no one should get messed up in politics unless able to take it on the chin and smile when the electorate says that they favor another candidate.

ONE POLITICIAN'S PADADISE

Recently, these columns carried a sarcastically clever piece of writing from the typewriter of Jack Hull of the Clovis News-Journal, lambasting politicians of the Panhandle of Texas.

Mr. Hull had his say and it was at least amusing. Now, in order to keep the record straight, let's survey the New Mexico political scene for a moment.

Ever since Gen. Lew Wallace wrote his "Ben Hur" in the palace of the governors at Santa Fe way back in the 19th century, politicians have had a romantic attachment for New Mexico.

The population of the state comprises about 72,000 white democrats, and the other 318,000 persons of the 490,000 in the state include a few white republicans, and the rest are Mexicans, Spanish, Indians, or what New Mexico newspapers naively call "natives".

The second lesson is how to trade with Senator Bronson Cutting, present estimable U. S. senator from New Mexico. Mr. Cutting is of the Boston, New York, and Long Island Cuttings.

Just now the democrats are in the money in New Mexico. An act of God and of Roosevelt, and if not that, a circumstance for which New Mexicans and especially smart Clovis politicians were not responsible—the death of the late Gov. Seligman and the resignation of former U. S. Senator Bratton—placed A. W. Hockenull of Clovis in the governor's chair at Santa Fe and Carl Hatch also of Clovis, in Senator Bratton's seat in the U. S. senate.

The aforesaid acts of God and Roosevelt, have temporarily disrupted the Cutting plans, and many of his appointees, including "natives" have been ousted, but last week Mr. Cutting either disinherited the democratic party, or was kicked out by it, and the white democrats of Clovis seem to be riding for another fall.

Naturally, Clovis politicians are feeling their oats. They are making hay while the sun shines. Especially since they have capitalized on the alphabet agencies, and now have a government-built park and a transient camp.

But with all that, they haven't got a football team. Coach Odus Mitchell or Coach Blair Cherry would blush up to send their third strings against the Clovis football warriors. Although the latter are "champions of New Mexico," they are usually trounced by third rate B-class teams in the Panhandle, and that "championship" claim, which is a proud boast in Clovis, will give you a line on New Mexico politics.

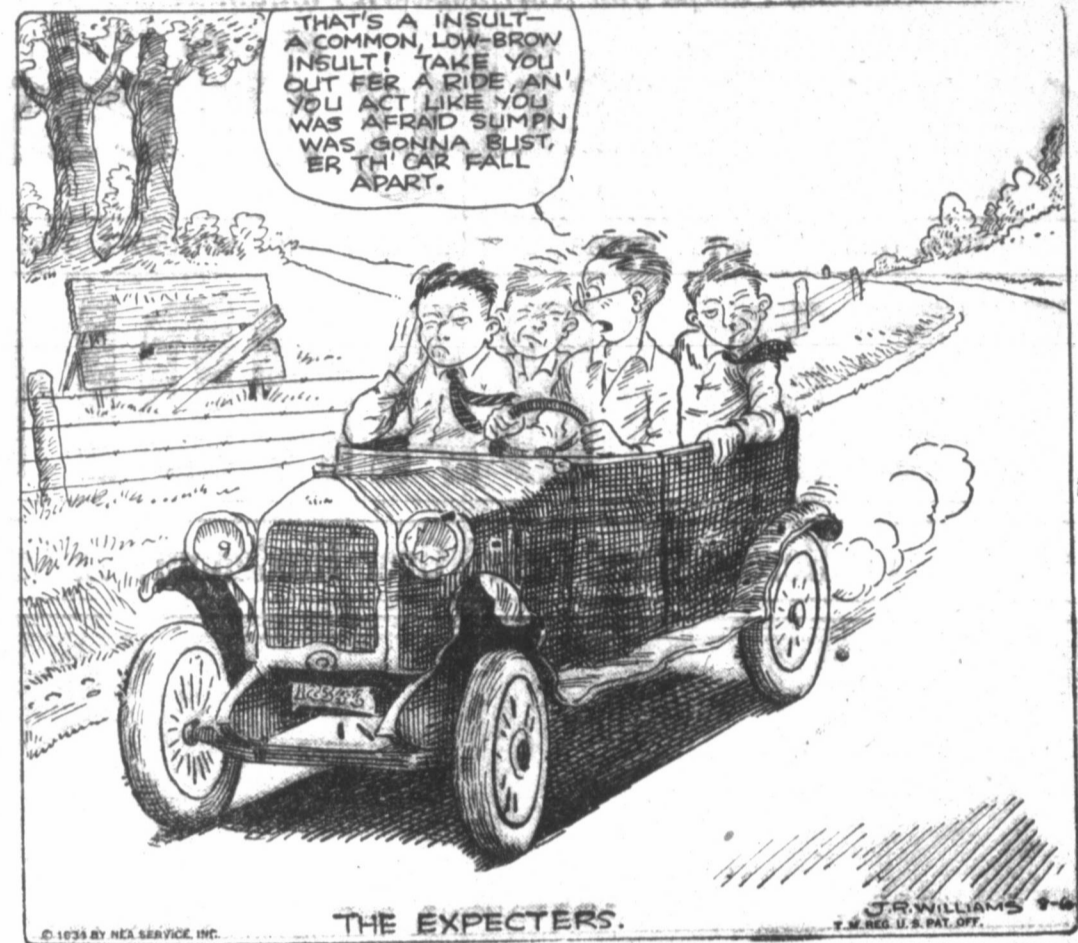

White democrats in Texas are prone to knock-down-and-drag-out tactics, but they are quite benevolent and philanthropic afterward, and it is not necessary to count the ballots of both sheep and deceased, as Mr. Hull averred.

So we'll string along with Ma Ferguson until next January, and the good old democratic way of raising a roughhouse until we get what we want, and New Mexico can keep her "smart" politicians in Graustark where they can vote sheep. We do not believe they'd find the "natives" of Texas willing to be "traded off" in the manner suggested by Mr. Hull.

HUNTER CONFIDENT: DALLAS, Aug. 4 (AP)—Tom P. Hunter, the Wichita Falls attorney who opposes James V. Allred, Texas attorney general in the gubernatorial runoff August 25, said here tonight that he believed "those who voted for the four defeated men in the first primary will come with me almost to the man."

Cyclone Mackey, Amarillo's tornadic veteran, will tangle with Rod Fenton, Canada's wild man of the north, in the semi-final. Barber Kelly, Pampa's slashing tonsorial artist, will meet Lobo Brown of Amarillo in the preliminary which will start at 8:30 o'clock.

7 WALKS AT CRITICAL STAGES HELP BORGANS

Seven walks, most of them at critical stages of the game, allowed the Phillips "66" Oilers to defeat the Coltexo Gasoliners of LeFors 13 to 11 yesterday afternoon in Borger. Both teams tried several news players who will be seen in the Pampa tournament which begins Thursday afternoon at 1:30 o'clock.

Elliot, Coltexo's new first baseman, was the sensation of the game. The former Cedar Rapids star hit a single, double, triple, and home run, on his five trips to the plate. Hack Wilson of Hollis, Okla., former Road Runner, hit safely three times out of five attempts. The entire Coltexo team played good enough to win. Lister caught the full game.

Lonnie Ables, former Memphis player, started on the mound but was relieved by Tranthum, formerly of Estelline, when he developed a wild streak. Tranthum also went wild and Haley was sent to the mound. Manager Jimmie Baldwin pitched part of the last inning. Mulroney went the distance for Borger and was nipped for 15 clean hits. Francis was behind the bat. Borger got only nine hits off the Coltexo hurlers.

YANKEES AND TIGERS STILL A GAME APART

GIANTS BOOST THEIR LEAD OVER CUBS THREE GAMES

By HUGH S. FULLERTON, JR. A casual observer of the American league race might wonder how any rival could keep either the Detroit Tigers or the New York Yankees from winning the pennant.

Racing along only a game apart these rival clubs have turned in some feats of near-perfect baseball in the past few days against tail-end opposition. Detroit walloped the White Sox 7 to 0 yesterday to climax a six-game winning streak which saw them register three shut-outs and score 37 runs in three games against Chicago, and the Yanks gained a 3-1 triumph over the Athletics. Lefty Vernon Gomez, who pitched a three-hit game his last time, gave the A's only one blow, a rather flopy double by Jimmie Foxx. Tony Lazzeri smacked a homer in the seventh and Lou Gehrig found Alton Benton for his 38th circuit swat of the year in the eighth.

The league leading Giants staged another spurge in the National league to increase their margin to three games over the Cubs, with Cincinnati lending some aid, while Chicago were downing the Phillies 7 to 4 on the combination of Roy Parmelee's seven-hit flinging, four straight hits, including a homer, by Manager Bill Terry, and Mel Ott's 29th circuit swat, the Reds held Chicago to an even break in a doubleheader.

MISSIONS WIN FROM HOUSTON IN 9-0 GAME

A first inning orgy in which they scored eight runs made it easy for the league leading San Antonio Missions to beat Houston Sunday, 9 to 0. After their scoring rampage the Missions settled back and watched Hal Witte, southpaw wli-cran, whitewash the Buffs in the first game of a three-game series. Witte, coasting in with his big lead, limited the sixth place Buffs to seven hits. Witte's triple, his only hit, drove across three runs. The Missions collected 12 hits off the combined hurling of Mike Cventros, Cotton Phippen and George Payne.

Galveston, Beaumont Divide Twin Bill

The second place Galveston Buccaneers and third place Beaumont Exporters were kind enough to each other to split a doubleheader. Galveston won the first, 3 to 2, behind the seven-hit pitching of Gumbert who gained the decision after ten innings of hard pitching against Judge Schulz and Viv Frasier. It was appreciation day for Uncle Rube Stuart, Beaumont owner, and to prevent spoiling the occasion the Exporters won the second tilt, 4 to 3. Larkin and Frasier combined to hold Galveston to five hits in the nightcap.

Rudy York, fence clouting right-fielder of the Fort Worth Cats, hit his twenty-sixth home run of the season but it wasn't enough to prevent the Cats from taking a 6 to 2 licking by Tulsa. Tom Davis stopped the Cats with four hits against thirteen allowed by Chae Chae Perez. Meyer Chosen and Johnny Berger each batted in three runs for Tulsa. Skeeter Newsome, Tulsa shortstop, collected three hits and scored as many times.

ONE HUNDRED (Continued from Page 1) citizenship. "The church now calls upon the intelligence and moral sense of citizens everywhere decisively to stop the traffic in the lewd, the stupid, and the morbid," he stated. "We do not say that all photoplays are bad, nor that all moving picture actors are to be condemned; we simply declare that many screen plays today reflect the ethics of the brothel and the barmyard. In order that our people may be heard in Hollywood, it must be organized, sustained and articulate. A little group of wilful men have betrayed our citizens for gold. Only when it shall have become unprofitable will they cease to befool the mind and heart of America. It has made no difference to them that youth and adolescence have been befouled; they want gold and they get it. The pledge follows: "I wish to join the Legion of Decency, which condemns vile and unwholesome moving pictures. I unite with all who protest against them as a grave menace to youth, to home life, to country and to religion. "I condemn absolutely those salacious motion pictures which, with other degrading agencies, are corrupting public morals and promoting a sex mania in our land. "I shall do all that I can to arouse public opinion against the portrayal of vice as a normal condition of affairs, and against depicting criminals of any class as heroes and heroines, presenting their filthy philosophy of life as something acceptable to decent men and women. "I unite with all who condemn the display of suggestive advertisements on bill-boards, at theater entrances and the favorable notices given to immoral motion pictures. "Considering these evils, I hereby promise to remain away from all motion pictures except those which do not offend decency and Christian morality. I promise further to secure as many members as possible for the Legion of Decency. SPITE MARRIAGE by Katharine Hayward Taylor

Chapter 28 DEPARTURE CHRISTMAS was over. The small tree which Bob had put up and Marsha had helped him trim, "as a surprise," was a little worn. And Marsha realized waking, that it was morning of the twenty-eighth of December. That Bob was going, that day. Well! She sat up in her bed. She had over-slept she saw; she had been restless during the night, waking constantly to lie wakeful for long. Bob going at noon on a train that would carry him south to the border and across it. People were kidnapped in Mexico; even people as big and as strong as Bob, she supposed. He must be careful. She must ask him to be very careful. And to tell her where "he could find a map of Mexico in the library. Perhaps he'd have time to mark it. He had promised to wire them regularly. Bob ...

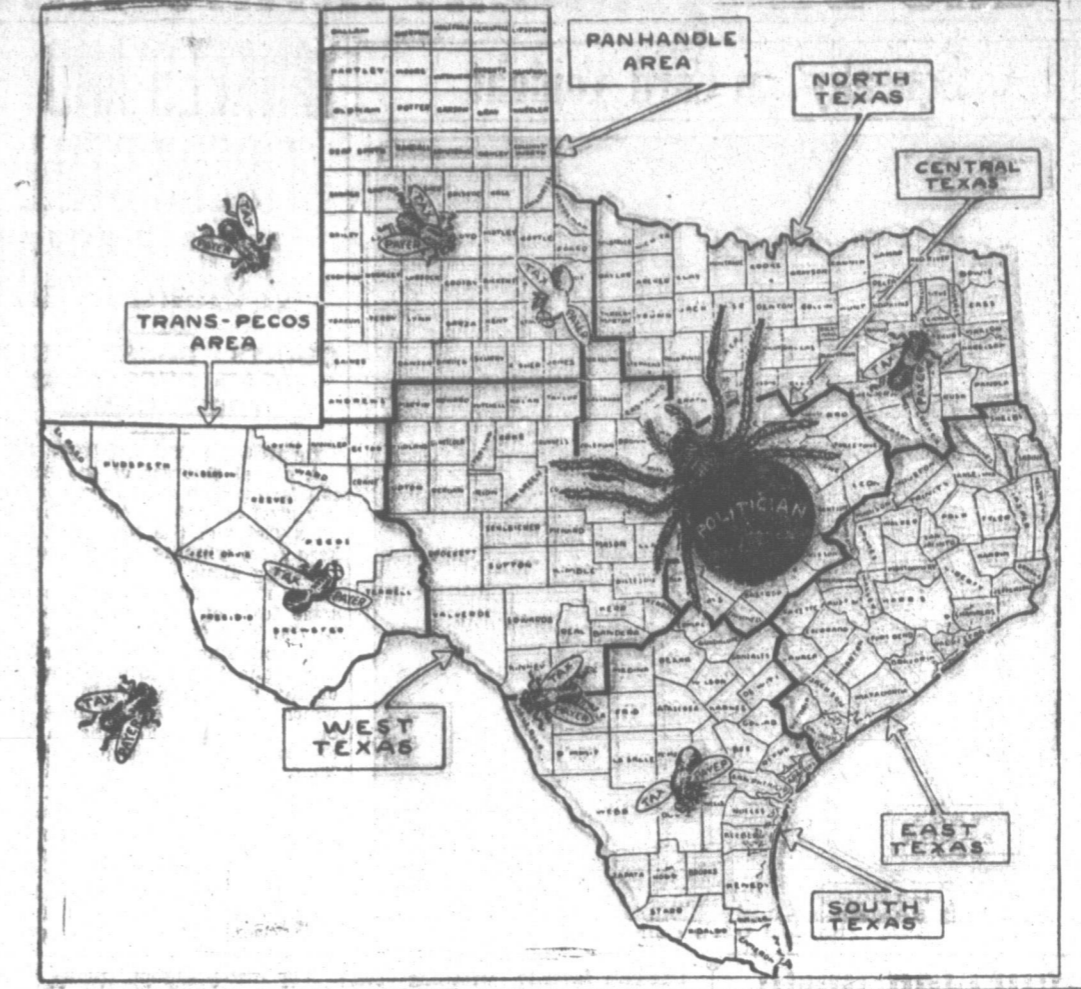

"I'm sorry I overslept." closed, she ran down the steps and after he had put his hand into hers which she'd stretched to him he felt her kiss as it. "I'll do everything—everything for her—and for you!" he heard. He had not even thanked her, he realized, riding away. He looked down at his big, browned hand that she had kissed, and suddenly he held it to his lips. She mattered terribly and deeply to him and she always would, she who had married him to show another man that he had not hurt her ... who admitted this ... who had kissed this other man ... who lied—who— He had grown tense; he sank back, spent. He must not let himself brood about it. No doubt she had been with Tarleton that day when she lied about being at her dentist's. Lord, how he had trusted her!

"Oh, no! I'm sorry I over-slept." "I'm glad you did. I saw your light beneath the door. I knew you'd had a bad night." "And you did too?" "Well, more or less, I suppose. It doesn't matter. You'll write me about things?" "Regularly, and as often as you like," she promised. "Twice a week, if that's not too much?" "Oh, no. I'd do that anyway." He rose. "You must not—let your self be worn out!" he warned anxiously. "Promise me you won't! Get any help you need, Marsha. You promise me you will get all the help you need?" "Yes, I do promise you anything you want me to promise, Bob!" "Very well, and I thank you!" he said as he hurried toward the door. His mother smiled bravely as she said goodbye; he looked on her, eyes tragic. Llewellyn had said—"A year at most—Perhaps before he could get back even, she would be gone. Perhaps he might lose his last days with her through his obligation to finish a job that no other man could swing. He tuned to Marsha. "We're go-

given to immoral motion pictures. "Considering these evils, I hereby promise to remain away from all motion pictures except those which do not offend decency and Christian morality. I promise further to secure as many members as possible for the Legion of Decency. Webb of County Lines Is Deplored

CONSOLIDATION PLAN WOULD SLASH TAXES FEW COUNTIES LIKELY ACCORDING TO THIS AUTHORITY (From San Antonio Light) If Texans would demand the adoption of the county consolidation plan as suggested by The Light, approximately 4900 highly paid county officers could be abolished at a saving of nearly \$60,000,000 and not hamper the efficiency of good government, according to O. M. Fitzhugh, executive secretary of the San Antonio Taxpayers league. "Any plan that will measurably consolidate county governments has my approval," Fitzhugh declared. The present antiquated county government plan in Texas today is indefensible, he declared, pointing to the fact that there are 254 individual petty systems in the state. Fitzhugh, one of San Antonio's most prominent attorneys, has long recommended county consolidation. Describing the tax evil in Texas, Fitzhugh declared that the Lone Star tax bill for 1932 totaled \$210,000,000. Of this amount approximately \$90,000,000 was poured into the operation of countless needless county governments. Besides the county bill of \$90,000,000, approximately \$40,000,000 went to the state, \$40,000,000 for education and a similar amount for state highways. Two-thirds of the \$90,000,000 average per spend by county governments could be saved under the plan suggested by The Light to merge the 254 individual counties into seven districts, he declared. With the exception of a few more deputies, additional officers would not be needed in the practical operation of The Light's plan, he said. At present, Fitzhugh explained, counties have an average of 20 highly paid officers in addition to scores of minor employees. Figuring an average of 20 highly paid officers to 254 counties, Texas find themselves keeping up 5080 officials when the number could be reduced to approximately 140 thru-out the state. Horse and Buggy Relic Time and distance were the only explanation of the present form of small county governments, which were organized for efficiency during the horse and buggy days, he declared. At that time it was necessary that a taxpayer could drive to the county seat in his buggy and be home by nightfall. Fitzhugh pointed out that Texans would have a "right in their hands" to accomplish consolidation, but he feels confident that the rapid rise of tax bills will force the issue. Taxes have reached such an alarming state in this country, he declared, that approximately 50 per cent of the population are living off of tax money, either by being directly on government payrolls or dependents of government workers. "Something must be done, and soon," he asserted adding: "Tax bills have not shown a substantial decrease since the depression. They have actually increased in comparison with the lessened earning power of the taxpayer." What an intricate web of county lines has been woven by greedy politicians to ensnare unwary taxpayers. Across the great state of Texas is spread a fine network cutting the state into 254 petty governmental units. At one time there was some excuse for having a comparatively small governmental unit. But even in that day, counties often were created for purposes other than that of efficiency and economy. The more petty governments we have the greater the number of jobs that can be controlled by politicians. And the greater the number of public jobs the more must taxpayers contribute. Naturally the question arises: What can be done about it? If the problem is not attacked

boldly there will be no hope of the taxpayers getting better services for less money. Why not abolish county government entirely and substitute therefor large administrative districts dividing the state into seven parts—approximately—as indicated by the heavy lines drawn on the map above? If the state of Texas were divided into seven administrative districts, or counties, or whatever name you choose to apply, the scale of governmental division would be approximately the same as it was at the turn of the century before the speeding up of transportation and communication. FEDERAL CASH CERTAIN AS RESULT OF GROUP'S VISIT The Federal congress, through the naming of a joint Senate and House committee, has officially recognized the Texas Centennial for 1936. With an appropriation of \$5,000 to pay its expenses this committee under the chairmanship of Senator Tom Connally of Texas, will visit the State during this fall. Senator Connally has announced that the purpose of the visit is to determine the degree and nature of federal participation in the Centennial. Texans will have the facts to marshal in an unanswerable array when the committee arrives. The independence of Texas was the greatest factor in the march of the Stars and Stripes to the Pacific Ocean. The history of the State from 1836 forward is so closely interwoven with that of the Nation that there can be no division of the two interests, Senator Connally has said these facts are recognized by the Congress and he entertains no doubt as to the full co-operation

of the federal government, to the extent of the appropriation of millions of dollars. Texas has loomed large in the national picture these last few years. In all the rehabilitation work of the New Deal, Texas has played a dominant part. And, too, Texas has the actual figures to demonstrate that in the matter of furnishing federal revenues it is well toward the top. In the last thirty years, through the medium of internal revenue collections and customs receipts, Texas has contributed to the national treasury a total of \$905,584,517.23, just a little short of a billion dollars. The average receipts of the federal government from Texas from these sources yearly for the past ten years has been \$60,000,000. This does not take into account federal receipts over this period from other sources. It merely shows that Texas is in no sense in the attitude of a beggar when it comes to the Federal treasury. It asks for a substantial appropriation—millions of dollars. There is ample precedent for the request. Appropriations have been given other States and other cities in the staging of expositions. Without detracting from any of these it may be said that none of them approached the magnitude proposed for the Texas Centennial, and none of them had important historical background so closely interwoven as between State and Nation. It will be remembered that when Texas became an independent Republic, later to be annexed to the American Union, the territorial limits of the United States were extended for more than a thousand miles west from the Sabine River. They were extended for more than a thousand miles Southward to the Rio Grande. The annexation of Texas made possible the rapid march of the flag to the Pacific. Again, citizens of the United States, former high officials, played an important part in the making of Texas. The leader of its revolutionary forces and its first constitutional president, Sam Houston, was the former Governor of an American State, and a close friend of an American President, Andrew Jackson. Texas is preparing to marshal the figures and facts to demonstrate to the congressional committee the great importance of federal participation in the Centennial, not only financially, but in the placing of historical exhibits and in the maintaining of buildings at the central celebration. It is generally felt that the Congress is anxious to extend its cooperation. The plan and figures need only to be presented. All this will be done when the committee visits the State. It will be asked to appropriate only a small percentage of the receipts from Texas in one year. A reasonable request, statistics show, and one the Commissioner has no doubt will be promptly accepted. It will mean the expenditure upon the part of the Federal Government of several millions of dollars within a period of a few months. It fits perfectly into all plans for employment. It will provide work and not doles for thousands of Texas workmen. It will be one of the greatest rehabilitation movements undertaken by an American State. In view of the fact that the government has poured untold millions into all the State for direct relief to the people, it is felt that a plan which offers them constructive work in a great enterprise will meet with no opposition. As an indication of the mind of National leaders it is said that when President Roosevelt began his vacation cruise he carried with him a well known Texas history for study. From the President down the Federal agencies are becoming Centennial minded. Gathering of the facts and figures for presentation to the Federal committee now is under way. Its visit will mark one of the big turning points in Centennial plans. Given its definite approval and recommendation, the securing of Federal appropriations may then be taken as an absolute certainty. CENTENNIAL NEWS ITEMS Official Pledge Adopted by the Texas Centennial Commission: "I will think—ask—write. Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotism for Texas' heroic past; my confidence in its glories that are to be." (The following items were published in the Texas Centennial News, official publication of the public committee of the Texas Centennial Commission, Corsicana, Texas, and furnished to Texas newspapers for republication so that the citizenship of Texas may keep informed of Centennial activities over the state.) AUSTIN, Aug. 6.—Lending its co-operation to the Texas Centennial movement, the University of Texas has, by action of its board of regents, waived for the year 1936 its usual regulations prohibiting the playing of football games after Thanksgiving in order that its Athletic Council may schedule an important game in celebration of centennial year. It was found that it is practically impossible to interest teams from schools of the major significance in coming to Texas during the regular football season, both because of unfavorable weather conditions they fear they will encounter here and because their schedule for the regular season has already been completed. DROUGHT LOSS IN TEXAS MAY COST MILLIONS

COTTON DAMAGED AND PASTURAGE IS PARCHED

DALLAS, Aug. 6 (AP)—Texas farmers figured today that unless good rains fell within ten days their drought-parched products would cost them millions of dollars.

Cotton crops in each of the widely separated counties have been damaged more than \$1,000,000 and the normal Panhandle wheat crop of 35,000,000 bushels will be about 16,000,000. One rancher traveled 5,000 miles trying in vain to find pasture for his herds.

The wheat area northwest of Amarillo served by one railroad did not move a carload of the grain. It usually produces from 1,000,000 to 1,500,000 bushels. In that sector July was the hottest and driest July in 42 years.

At the request of Gov. Miriam A. Ferguson, the Texas legislature will meet Aug. 27 to authorize issuance of additional state bonds to relieve unemployment.

However, Dwight P. Reordan, president of the federal intermediate credit bank at Houston, expressed the opinion that good general rains before August 15 probably would improve conditions materially. He pointed out that forage crops might be replaced and ranges be put in fair condition for the fall and winter.

Bright spots in the dark drought picture appeared only in far north-east Texas and extreme south Texas, Reordan said.

Half Century of Healing Brings Nation in Tribute to Mayos' Door

Dr. William J. Mayo

Aug. 8 by Pres. Roosevelt, on the occasion of presentation of a citation by the American Legion to these two surgeons, Dr. William James Mayo is shown at left, and his younger brother, Dr. Charles

Dr. Charles H. Mayo

The famous Mayo brothers and their equally famous Mayo Clinic, at Rochester, Minn., to be visited

ROCHESTER, Minn., Aug. 6—In all the places which President Roosevelt will visit on his tour of inspection from Seattle back to Washington, he will be the guest of honor—except in this little southern Minnesota town of 14,000 inhabitants.

Here, in what is popularly called "The Clinic City," the president will be merely an outstanding participant, on his arrival on August 8, in bestowal of an honor on two of the greatest surgeons in the world.

Dr. William James and Charles Horace Mayo, known to thousands in America and elsewhere simply as the famous Mayo brothers.

The occasion will be presentation of a citation to these two men by the American Legion.

This citation practically will sum up nearly a half century of medical progress in which the Mayo brothers have taken leading parts.

Rise From Humble Start. It was back in 1889 that the brothers, and their already famous father, Dr. William Worrell Mayo, undertook to direct a newly built small hospital which had grown out of a disastrous hurricane six years earlier.

And it was from this small St. Mary's hospital that the great Mayo Clinic sprang.

pay, not to charge more than 10 per cent of his annual income no matter how long he stays or how troublesome the case, and—here is an example of the noted Mayo altruism—to set aside all money above \$1,000 in each fee they get to outside charity.

Each Has Special Field. The Clinic is most famous for its surgical wonders, because the Mayo brothers naturally drifted into this phase of medicine and soon became the country's leading surgeons.

Both Have Large Families. Dr. Will was married in 1884 to Miss Hattie M. Damon of Rochester, and had five children, three of whom died in infancy.

Dr. Charles married Miss Edith M. Graham, also of Rochester, in 1893, and this couple had eight children, two of whom have died.

Rich and poor alike are treated regardless of their fame or fortune, under an established rule of the two Mayos to charge for their services according to a person's capacity to

but a few counties along the gulf coast. Five of them, however, suffered additional losses in the hurricane ten days ago and will need further aid.

CONFESSION IS ON RECORD IN PRISON BREAK

PATTERSON ADMITS HE SMUGGLED PISTOLS INTO PRISON

HUNTSVILLE, Aug. 6 (AP)—A special session of the Walker county grand jury to investigate charges against James A. Patterson, prison guard, in connection with the daring prison break July 23 in which Raymond Hamilton and two other condemned convicts escaped, was planned today.

Max Rogers, district attorney, hurrying here from a vacation trip, planned to confer with Lee Simmons, manager of the Texas prison system and Warden W. W. Wald, regarding a statement Patterson made to penitentiary authorities in which he was quoted as admitting smuggling pistols inside the prison to the desperadoes.

Patterson, charged with smuggling three automatic pistols inside the prison for delivery to the convicts, admitted yesterday in a signed statement that he brought the weapons into the prison, Simmons said.

Until shortly before he made his signed statement, Patterson has denied he knew of the planned break and said he did not know how the pistols found their way into the prison. He admitted receiving an amount of money for the act, but Simmons declined to reveal the sum.

HINDENBURG'S BODY WILL MOVE THRU 60-MILE LINE OF FLAMING TORCHES BEFORE HIS INTERMENT

By JOHN A. BOUMAN Associated Press Foreign Staff

NEUDECK, Germany, Aug. 6 (AP)—Through a lane of flaming torches sixty miles long the body of Paul Von Hindenburg will be taken tonight to his grave.

At dusk a squadron of seven airplanes, piloted by east Prussian aviators, will scatter red roses over the Neudeck estate the late President and field marshal loved so well.

Brief memorial exercises will be held in the manor house. Then the coffin bearing the body of Germany's hero will be placed on a gun carriage for the trip to Tannenburg, scene of one of his greatest military triumphs.

Uniformed men will line the roadside, torches in hand, in honor of the old soldier. Nazi storm troops, Schutz Staffel members and Hitler youth will join the regular army in the tribute as the Caisson rumbles along.

Flowers and branches of oak and fir will be strewn along the road. At Tannenburg, site of Germany's victory over Russia in 1914 the body will be placed in the marshal's tower of the national memorial, a tower now known as "Von Hindenburg Tower."

Adolf Hitler, who eulogized the president in an address before the Reichstag in Berlin, will be the speaker at funeral exercises tomorrow.

Before the ceremony Von Hindenburg's body will be taken from the tower to a catafalque in front of a large cross where are buried 20 unknown soldiers killed in the battle of Tannenburg. Here Hitler will speak. Six hundred men have been at work in day and night shifts erecting seats for the thousands of mourners.

Servants of the dead leader attended a service for him yesterday at the parish church, many of them weeping. Religious services throughout Germany were dedicated to Von Hindenburg.

Mother of Mrs. Blanscet Dies. The body of Mrs. Flora Allison Vance, who died at her home, 119 S. Houston, at 5 o'clock yesterday morning, was sent late yesterday to Burk Burnett for burial. The funeral is to be conducted there at 3 p. m. tomorrow.

Tom Hunter to Open Runoff in Amarillo Tuesday

Tom P. Hunter will start his Panhandle campaign for the governorship of Texas in an address at Amarillo tomorrow night. The Hunter-for-Governor club there is sponsoring his appearance.

A special group conference of his Panhandle friends and supporters has been called at 4 p. m. preceding the address, in which he will discuss issues of the run-off campaign.

Hunter, Wichita Falls man who ran second in the first Democratic primary, opened the last lap of his race against James V. Alford with a speech at Hillsboro Friday.

Tobacco is sold in open auctions. We buy the right kinds - mild and ripe - for Chesterfield - and pay the price .. but even that's not all there is to it AFTER you receive the tobacco from the farmers you have to dry it just right and then store it away for ageing for over two years. Then you take the different types of home-grown and Turkish tobaccos and weld them together in such a way as to make a balanced blend. The Chesterfield process of blending and cross-blending tobaccos is different from others, and we believe it helps to make a milder and better tasting cigarette. Down where they grow tobacco - in most places - Chesterfield is the largest selling cigarette.
