THE NEW PAMPA Fastest Growing City in Texas—Panhandle Oil And Wheat Center

Pampa Daily News

HOME NEWSPAPER Established April 6, 1907 Official Publication, City of Pampa

VOL. 28. NO. 303 (Full (AP) Leased Wire) PAMPA, GRAY COUNTY, TEXAS, WEDNESDAY EVENING, MARCH 27, 1935 (8 PAGES TODAY) PRICE FIVE CENTS

Twinkles Good will bloom on a pleasant day. Good will flourish in the Panhandle in at least three seasons.

The Canadian Record remarks that, since the earth was created in 6 days, it is certain that it is no relief job.

Lubbock Journal says the traffic situation down there is a mess. Well, we always felt at home in Lubbock.

License for Skippy, the family pup, doesn't mean much because he's supposed to stay at home anyhow, but now we've got to get one for the car or it'll have to stay at home too.

We still depend upon the good old earth. If the wheat roots fail, the roots of the derrick will still coax the coveted dollars.

Musing of the moment: We now have some of the Farley stamps, once denied to any but intimate friends. We feel better about it. His friends feel worse; their stamps are now worth no more than ours now. A public official should avoid the appearance of evil. Mr. Farley hasn't learned to do that.

Brevitorials

DEPARTMENT of commerce reports concerning aircraft accidents are shedding new light on these hitherto rather mysterious happenings. It is as important to have the truth about air mishaps as about those on land. We have before us a report on an accident near St. Joseph, Mo., in which Pilot Benjamin F. Billings was killed and one passenger also. The plane, evidently functioning perfectly, went into a fog and crashed into a low hill. The inspector summed up the blame as follows: 1. The pilot committed an error in judgment in turning too close to the ground in a fog-bound area. Weather reporting facilities of the Rapid Air Lines were inadequate to meet the conditions that confronted the pilot on this flight.

THERE WAS a mild stir a few weeks ago when Collier's magazine told some cutting truths about the Texas oil situation. The current number renews the magazine's attack and focuses attention upon the waste of natural gas, a subject mentioned only casually in the original article. Senator Clint Small is pointed out as attorney for the strippers and, in a sense, responsible for the sweet gas bill. The pipeline company position is also blamed. We have an advance review of the article, but until the entire article is read, we refrain from further comment.

WERE JUST a bit riled about the handicap of 110 put on us by the golf tournament committee which is arranging competition for the Amarillo visitors next Sunday. Not having played the game in several years we'd say that "XX" would come nearer equalling what we are likely to shoot. Mason King, our opponent, says that his average score is "Y." We are considering the use of the 1935 bridge rules as a scoring basis. It will be the most scientific match of the day.

THE GOVERNMENT relief policy is based on the idea, in part, of moving back to the farm those farm folk who have gone to the cities to get on relief rolls. The drought has added to the farm-to-town movement. The AAA crop reduction plans have complicated matters. We

See COLUMN, Page 2.

I Heard...

R. G. Allen, the last Pampian to leave Austin following an oil hearing, reporting that he had in his possession one pair of socks, too small, one pair of trousers, too large, one pair of hair tonic, not his brand, one razor, not the kind he uses, one shirt, too large, and one amber bottle, not his brand. He believes the trousers belong to Col. Otto Studer and unless they are called for, a suit will be made out of them. The socks are believed to be the property of Jack Dunn. The odoriferous hair tonic could belong to Ed Dunigan.

Two new excuses for Pampans being late to work this morning. Herman Whately reported that there was so much dust on the face of his clock that he misread the hour. Archer Pullinger reported that he could not find his shoes—he wears size 14.

Hereby, herein, and hereon, challenges Jerry Malin, sports editor of the Amarillo News, to a golf game in the forthcoming inter-city match between Pampa and Amarillo in Pampa next Sunday, anytime between dawn and dark, either on the fairways or in the rough.

House Passes Bill To Control Securities Distribution

BARUCH DEMANDS 'VINDICATION'

WOULD REPEAL PRESENT BLUE SKY STATUTE

UNANIMOUS APPROVAL OF MEASURE IS GIVEN

AUSTIN, March 27 (AP)—The house of representatives passed unanimously today the administration-favored bill repealing the present blue sky law and providing new regulations for distribution of securities in Texas.

In a recent message to the legislature, Governor James V. Allred said millions of dollars of spurious securities were being distributed annually in Texas and legislation to curb activities of fly-by-night dealers was needed greatly.

Secretary of State Gerald C. Mann, administrator of the law, told committees that existing blue sky law was not "worth a dime" and "regulated nothing."

Rotary Club to Start Work on Pool in Park

Work will begin immediately on a wading pool for the city park it was decided at a meeting of the Rotary "club" today. The pool has been under consideration for some time and definite plans were presented and accepted today.

Directors, who will take office July 1, were elected today. They are Travis Lively, Farris Oden, Mel Davis, C. T. Hunkapiller, the Rev. D. E. Lancaster, M. W. Jones and Lee Bowden.

AIRPORT TO BE ENLARGED AND IMPROVED UNDER NEW SCHEME

The charter of the Pampa Airport corporation has been received and, beginning April 1, the local airport will be known as a municipal field. Incorporation is for \$1,000.

EDITOR TELLS OF FLIGHT OF SHE-RABBITS

Howe Claims Hares Held up Traffic Near Vega For More Than Hour Tuesday

By GENE HOWE Editor, Amarillo Globe-News AMARILLO, March 27. (AP)—Another unusual storm has descended upon the Panhandle and it is the most unusual and the chokingest of all.

Really the men manage to get along pretty well during a dust storm but it is hard on the women in their house-keeping. Every time there is a dust storm every good house-keeper seriously informs her husband every evening that they must move out of the country and never come back.

Need for More Houses Grows

Folks wish to live in Pampa. The need for more houses is daily reflected in many ways. The survey made by the chambers of commerce showed, after scores of duplications were eliminated, that at least 75 families wish to move to Pampa but cannot find houses.

Tahoka Sends Out Tall Stories of 'A Kansas Fog'

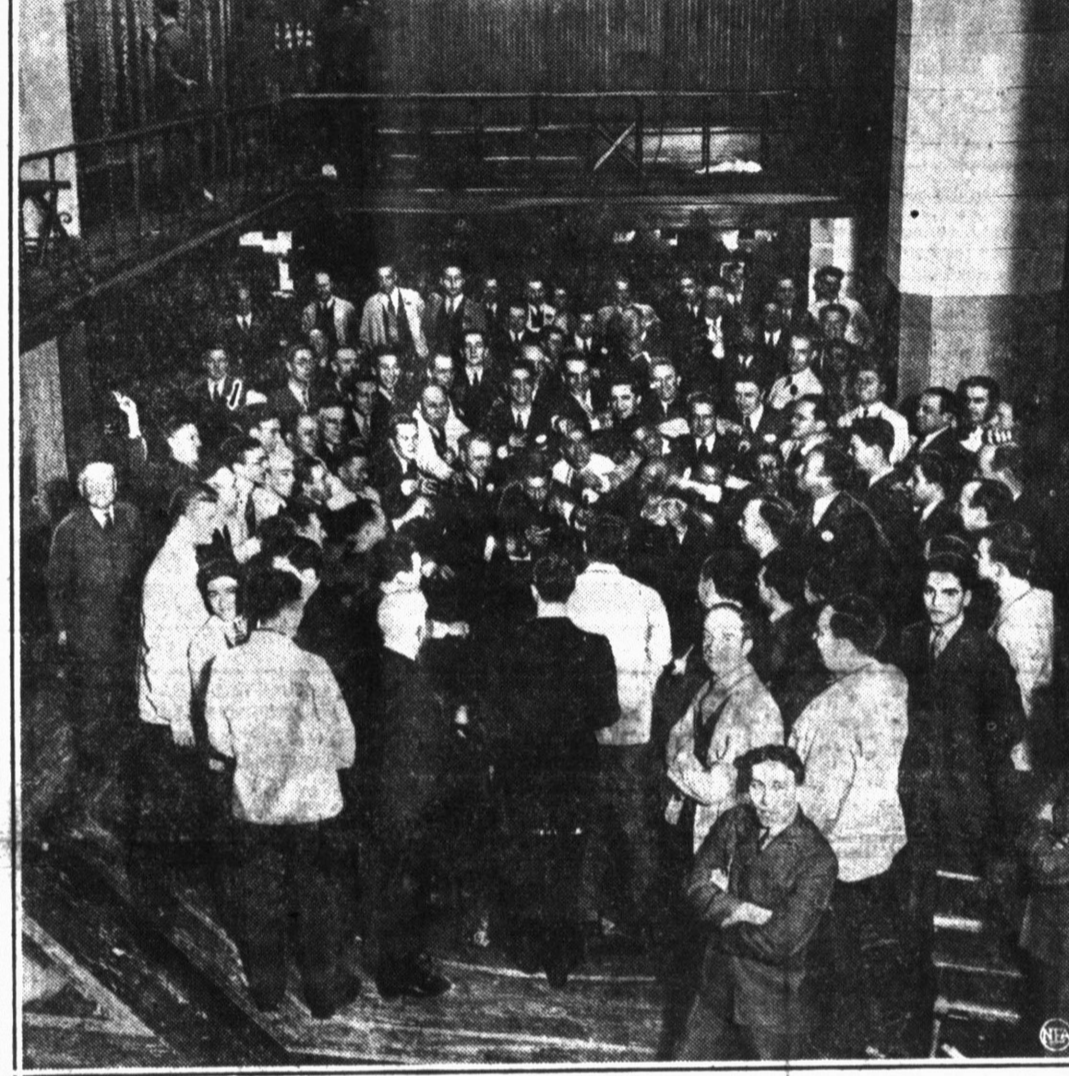

TAHOKA, March 27 (AP)—A Kansas fog, known to some as a dust storm, with visibility at two city blocks, caused an hour's delay in the coming of dawn here today.

One farmer reported he heard his hen cackle early today. He ran out to get the egg for his breakfast and inside the egg found a mud ball.

Rotary Club to Start Work on Pool in Park

Work will begin immediately on a wading pool for the city park it was decided at a meeting of the Rotary "club" today. The pool has been under consideration for some time and definite plans were presented and accepted today.

Commodity Exchange Opens Oil Pit --- Advantages Seen

You are looking down into the oil pit of the Commodity Exchange in New York's Wall Street.

Operators are seen marking current quotations on the boards above, while the traders are shown below purchasing and selling oil by gestures peculiar to their profession.

NEW YORK, March 27 (AP)—The oil and gasoline business, which has been puttering along on the two-cylinder idea of cash-and-carry selling, is beginning to take on aspects of 16-cylinder, dual-litigation, supercharged intricacy.

Like automobile engines, it is being made more complicated so that it will run more smoothly. And the people who benefit thereby—if the New York Commodity Exchange knows what it is about—will be many of the nation's oil producers, refiners, distributing organizations, filling station operators and, now and then, even the automobile owners.

The Commodity Exchange, which operates about like the Stock Exchange except that it deals in more tangible things such as silk, hides, copper, and rubber, has opened a market for trading in crude oil and gasoline. You can't drive up in your car and say, "Gimme five, and check up on my oil."

Hitler Shocks English by Demanding Return of Pre-war German Territory

BERLIN, Mar. 27.—A high authority stated today that Reichsfuehrer Hitler demands absolute military equality on a gun-for-gun basis—excepting the navy—with other European powers.

HORDE OF MEN BEGINS WORK ON SECOND PRE-CENTENNIAL

LATE NEWS

OKLAHOMA CITY, March 27. (AP) The death knell of the Miller Brothers 101 ranch rang in federal court here today as Federal Judge Edgar S. Vaughn ruled the property no longer belong to Col. Zack Miller, last of the famous trio of brothers.

TULSA, Okla., March 27. (AP)—Two unmasked bandits today held up the Ben Goldberg jewelry store here and escaped with diamonds and cash estimated to be worth \$50,000.

Absolute Equality on a Gun-For-Gun Basis, Excepting Navy, Asked by Nazis

By MELVIN K. WHITELEATHER Associated Press Foreign Staff (Copyright, 1935, by The Associated Press) BERLIN, Mar. 27.—A high authority stated today that Reichsfuehrer Hitler demands absolute military equality on a gun-for-gun basis—excepting the navy—with other European powers.

18 Committees Will Start Functioning To Make Celebration a Success

Letters inviting hundreds of pioneers and old timers of the Panhandle to attend the Pre-Centennial celebration and Pioneers Round-up here May 30 and 31 will be mailed next week.

STOCKHOLM, March 27 (AP)—Justice in Scandinavia, as evidenced by three scattered verdicts in one day, can be a most determined affair.

Justice in Scandinavia Is Stern!

STOCKHOLM, March 27 (AP)—Justice in Scandinavia, as evidenced by three scattered verdicts in one day, can be a most determined affair.

'PUT AN END' TO INNUENDOS HE DECLARES

'MAKER OF PRESIDENTS' OUTLINES PLAN TO CONDUCT WAR

BY PRESTON L. GROVER, Associated Press Staff Writer.

WASHINGTON, March 27 (AP)—A program for "paying as you fight" in the event the United States becomes involved in another war was advocated today before the senate munitions committee by Bernard M. Baruch, chairman of the World War Industries Board.

Such a plan—to be executed by taxation and price-fixing—would "save generations unborn, as well as ourselves, untold misery," the tall, white-haired witness asserted to an attentive committee.

Previously, replying to what he termed "insinuations and innuendos" against him, he asserted that when he was called to war time government service he sold "at a heavy cost to my fortune" all "holdings that even remotely touched upon my official duties."

The New York financier, recently named by President Roosevelt as head of a committee to devise ways of taking excess profits out of war, asked the committee to "put an end" to the insinuations or to "find me guilty of violation of the trust and confidence imposed upon me during that period."

Baruch endorsed in principle the committee war time plan drawn by John T. Flynn, economist and writer, by which virtually all individual profits above \$10,000 a year would be taken by taxation and industrial profits would be held at a low figure.

Only Incumbents Have Filed for School Trustee

Indications are that the Pampa district school trustee election April 6 will be a perfunctory affair.

Hope Panhandle Will Get Share Of 50 Million

Local highway enthusiasts today were commenting on the statement of Highway Commissioner W. Ely of Abilene, at Washington, Texas, who received nearly \$50,000,000 for highway construction for the federal government.

REDDISH HAZE HITS DALLAS EARLY TODAY

WEST TEXAS STIFLED AS DUST HIDES SUN

By The Associated Press. Temperatures were dropping toward the freezing point in the dust-ridden plains states today as West Texas reported the worst dust storm of the season.

Visibility was reduced to a few hundred feet, the sun was obscured and breathing was difficult. Dust clouds continued to blot out the sun in many parts of Oklahoma. Weather observers warned of possible frost tonight.

Southwest Kansas was digging out of an overnight dust storm. A dusty tinge was visible again rain clouds over Denver where snow fell in the night and frost appeared today. Southeast Colorado still was without needed moisture stop soil blowing.

Blinding dust clouds, driven by cold north wind, whipped southward across Texas, heralding what appeared to be the first storm of its kind this year.

Striking Texline just before midnight, the dust had befogged most of West and North Texas. It reached Fort Worth and Dallas in the form of a reddish haze, about 9 m.

Sharply falling temperature marked the disturbance. The mercury tumbled to 40 degrees at Pampa, while similar declines were registered over practically the entire region affected.

Wind velocity stepped up to 20 miles an hour for a time at Fort Worth. The blow was gusty as dust clouds swiftly over the state.

Gusty, northeast winds pushed the worst dust storm of the season over Abilene, choking residents, reducing visibility to a few hundred feet and obscuring the sun. The stifling dust made breathing difficult at Abilene. It was difficult to see more than a block in the downtown section. Temperature started a slow decline as wind drove in from the northeast.

Throughout the plains area, the pall became thicker. At Lubbock citizens scurried for work with handkerchiefs over their noses. It gave them but little comfort. Workers found breathing difficult inside buildings. Gray dust settled over Amarillo in the Panhandle as the mercury started dropping. The Panhandle was masked by gray pall, dust becoming thick as full force of the storm centered on the region. The dust clouds hung low over Plainview, making it difficult to see.

# HARVESTERS NOSE OUT MOBEETTE THIN-CLADS 72 TO 66 IN FINAL EVENT

## WHEELER BOYS CAPTURE EIGHT FIRST PLACES

### JAVELIN EVENT WINS FOR PAMPA; TWO RECORDS BROKEN

Mobeette high school's track and field team loomed as an outstanding contender for the district championship yesterday when it almost moved down Coach Odus Mitchell's Harvesters in a three-cornered meet between Pampa, Mobeette, and White Deer.

Pampa won the contest with 72 points, but not until the last event, had been decided. White Deer's thin-clads went home with 13 points, Mobeette with 66.

If Mobeette had had any sort of a javelin hurler, the Harvesters would have been hard-pressed to win for the javelin event won the meet for Pampa and gave the Harvesters a 10-point lead. Bill Dunaway broke the district javelin throw, flinging the spear 151.3 feet, and J. R. Green put the shot 41.1 feet to smash that mark made last year when the first district track and field meet was held in Pampa. J. R. Green hurled the javelin 130 feet and Carl Smith was third with 127 feet. Urbanczyk of White Deer was fourth with 122 feet.

Mobeette won eight first places, Pampa five and White Deer one. Compton of Mobeette appeared to be the outstanding performer yesterday. He won the high jump and broad jump, while his team-mate, Slagle, won the 100-yard dash and the 220-yard low hurdles. Only two district marks were ever endangered.

Pampa's athletes did not measure up to the performances they gave in the meet with Miami last week. Then Carl Smith broad-jumped over 20 feet and the best he could do yesterday was 18.2. Compton won the broad-jump with 19 feet and 2 inches. The discus hurlers for Pampa also fell short of the marks they made against Miami.

Pampa's relay team also lost yesterday, and this was surprising. Haner, who ran the last lap of the relay for the Harvesters, had a 50-yard lead on the Mobeette youth but the latter overtook him and beat him by three yards. Dunaway and Smith led their opponents by many yards. The Harvesters won two distance races, the 220 and the mile. Boyington did the mile in 5:19.4, and Hays; Pampa, ran the 220 in 24.7.

Summary of events:  
100-yard dash: Slagle, Mobeette; Farmer, Mobeette; Mauldin, White Deer; Hays, Pampa. Time 10.6.

220-yard dash: Hays, Pampa; Farmer, Mobeette; Mauldin, White Deer; Slagle, Mobeette. Time 24.7.

440-yard dash: Farmer, Mobeette; Elkins, Pampa; Haner, Pampa; Thornburg, White Deer. Time 57.

120-yard high hurdles: Compton, Mobeette; Dunaway, Pampa; Key, Mobeette; Ayer, Pampa. Time 16.2.

220-yard low hurdles: Slagle, Mobeette; Compton, Mobeette; Horner, White Deer; Crowley, White Deer; and Maguire, Pampa. Time 28.6.

Half mile: Mauldin, White Deer; Ayer, Pampa; Scott, Pampa; Wise, Pampa. Time 2:15.

Mile run: Boyington, Pampa; Cupples, Mobeette; Pierce, Pampa; Johnson, Mobeette. Time 5:19.

Relay: Mobeette; Pampa; White Deer.

High jump: Compton, Mobeette; Ayer, Pampa; and Scott, Pampa; Oliver, Pampa and Hicks, Mobeette. Height 5.7.

Broad jump: Compton, Mobeette; Dunaway, Pampa; Stewart, Pampa; Smith, Pampa; and Oliver, Pampa. Distance 19.2.

Pole vault: Dunaway, Pampa; Key, Mobeette; Wasson, Pampa; Height 10.6.

Shot put: Green, Pampa; Hartman, Pampa; Cook, Mobeette; Urbanczyk, White Deer. Distance 41.1.

Discus: Cook, Mobeette; Hartman, Pampa; Urbanczyk, White Deer; Green, Pampa. Distance 102.

Javelin: Dunaway, Pampa; Green, Pampa; Smith, Pampa; Urbanczyk, White Deer. Distance 151.3.

## L'Fors Journalism Class Sees NEWS

R. E. Paige, principal of L'Fors high school and instructor in journalism, brought a class to Pampa yesterday afternoon for an inspection of the Pampa Daily News plant.

Details of newspaper publishing were explained by Olin E. Hinkle, managing editor, before the class inspected the Associated Press typesetters, linotypes, monotype, job shop operations, make-up, and operation of the big press on which The NEWS is printed.

Students in the party were Lois Mae Davis, Dolores Gambrell, Louisa Clarke, Helen McGinnis, Dorothy Chism, Jean Ward, Oma Lee Nolan, Kathleen Paxton, Scott Hall, Thos. Harris, William Roach.

They were accompanied also by the Rev. Floyd H. Jones.

## Ropesville And Stratford Lose In Cage Tournament

### INDIANS MAY BE STRONGEST IN AMERICAN

#### LACKS INFIELD POWER AND NECESSARY CATCHERS

(Note: This is the fifteenth of a series analyzing major league baseball prospects.)

BY ALAN GOULD.

NEW ORLEANS, March 27 (AP)—Regardless of where he lands the Cleveland Indians this year, Big Chief Walter Johnson is rapidly organizing a tribe that may dominate the American league, once it develops its full strength.

It is not yet fully equipped to go on the war-path, but it will be. Right now it lacks the infield balance and the grade of backstop essential to make the most of its superlative right handed pitcher. The batting order carries explosive power with more long range guns than the champion Detroit Tigers.

With a Cochrane or a Fox behind the plate, the Indians would scarp the rest of the league without much difficulty. The premature attempt to put Johnson "on the spot" this spring by boomer the pennant prospects of the Indians abruptly was checked by the club's loss of Billy Knickerbocker, sensational shortstop and balance wheel of the team's kid infield.

Knickerbocker was stricken with appendicitis a fortnight ago. He is out of the hospital but the Indians will be lucky if he can return to the lineup by the middle of May and luckier if he then can duplicate his brilliant 1934 performances. The club is trying desperately to get an experienced replacement.

There should be no doubt of the Indians running 1-2-3 throughout the season with the power generated by such fence-crackers as Averill, Vosmik, Campbell, Trosky, and Hale, together with such talented pitchers as Harder, Pearson, Hudin, Hildebrand, and Clint Brown.

Johnson has played no favorites in revamping the team. His judgment has been vindicated in converting Hal Trosky from an outfielder to one of the league's hardest hitting first basemen.

Despite criticism he kept Knickerbocker at short last year until the youngster found himself. This spring he benched the veteran Willie Kamm, shifted Sammy Hale from second to third base and put the youthful Louis Berger in the key stone spot. Berger will be a freshman in sophomore company.

If and when Knickerbocker takes his regular post, the Cleveland infield will be the youngest in either major league, averaging little over 22 years, but it will be one of the rangiest and hardest hitting quartets.

It will be up to the diminutive Frank Pytlak and either Glenn Myatt or Bill Brenzel, acquired from Kansas City, to handle a pitching staff that has great equipment.

Mr. Harder, ace of the right-handers, should excel his splendid 1934 record and rival New York's Lefty Gomez or Detroit's Schoolboy Rowe for league pitching leadership. Monte Pearson and Willis Hudin have the stuff to be 20-game winners. The veteran Clint Brown and Oral Hildebrand, off form for various reasons last season, look ready for comebacks.

If Joe Vosmik steers clear of further trouble with his hip, Johnson will have no outfield worries. Vosmik, Earl Averill, and Bruce Campbell, obtained from the Browns to play rightfield, all pack a 300 punch. Mill Galatzer, a capable understudy last season, and Ab Wright, recruited from Minneapolis, have clinched the reserve roles.

ST. PETERSBURG, Fla., March 27.—The New York Yankees' purchase of Pat Malone from the St. Louis Cardinals brings the veteran right-hander back under the wing of the manager for whom he did his best work.

Malone pitched fine ball for Joe McCarthy when he was managing the Cubs. McCarthy tried to buy him last December when the Cubs still had no outfield worries.

Three members of the Road Runner baseball team were out of uniform during yesterday's practice session. Joe Berry, new hurler, has a cold. "Tank" Horton, catcher, is in bed with influenza. Ben McLary, third baseman, burned his right hand yesterday afternoon when a bottle of gasoline caught fire.

The rest of the squad went thru a long batting practice and then a number of railbirds were picked up to form two full teams. The rest of the fans watched a practice game Bill Hardin and Lefty Bulls were the opposing moundmen.

### Tulsa Stenos Defeat Panhandle Girls 56 to 11

WICHITA, Kan., March 27 (AP)—All eight seeded favorites squared away today for quarter-final battles in the Women's National A. A. U. basketball tournament with the Chicago Baby Ruths down again as the sextet, having the closest escape on the path to top flight competition.

The Babes had to rally to put out the Sewell team from Topeka, Kan., that led them by 16-16 at the half-time intermission of their game. The final score was 31-27.

None of the other seven met a serious challenge battling through the second round, but the Houston, Tex., contenders felt the loss of three stars who have promised to be on hand for the later games as they pulled out a 35-39 victory over Stratford, Tex.

The absent stars, all Texas school teachers, are Doll Harris, Toka Lee Fields and Carol Worley, former all-America girls when they played with the Oklahoma City Cardinals, the 1932 and 1933 champions.

The Stenos of Tulsa Business college, who won the title away from the old Cardinals last year, had a 56-11 romp over Ropesville, Tex., in the second round and tonight will meet the American Institute of Business, Des Moines, Ia., winner over Athens, La., high school in a 51-28 second rounder.

Houston clashes tonight with Shreveport, La. Meadows-Draughton, conqueror of the Salt Lake City team, 82-12, in a game which saw 185-pound Joe McGraw score 26 goals.

In the lower bracket, Eldorado, Ark., third-place winner last year, will play the Wichita Merchants, and the Chicago team tangles with the Holdenville, Okla., Flyers.

Eldorado left Dale, Okla., far behind in a 45-10 game, while Wichita easily ousted St. Teresa of Kansas City, 38-12. Holdenville, paced by several members of the famous disbanded Cardinal team, scored a 57-4 victory over the Hoosier Sweethearts of LaForte, Ind.

The Chilocco, Okla., government school for Indians was eliminated in the first round by Athens, La., team, but came back last night to carry off the beauty championship. The new queen of the tournament is little Billie Turnbull, half-Cherokee Indian girl, who won her way through an original field of 42 which was pared down to four beauty contest finalists by a judging committee.

Other finalists in the contest were Hazel Boett, Shreveport, La., blonde; Elizabeth Wilde, St. Teresa Academy, Kansas City, brunette, and Blanche Howe, Topeka, Kan., brunette. Miss Howe was runner-up.

The free throw contest, with Opal Hill, Shreveport as defending champion begins today. Miss Hill recently sank 98 out of a possible 100.

WEST PALM BEACH, Fla., March 27.—This one-run business 'has Manager Rogers Hornsby of the St. Louis Browns tearing his hair. When the Browns defeated Buffalo, 4 to 3, yesterday, it was the team's seventh game this spring to be decided by one run.

While the Browns have won six of them, Hornsby recalls only two well the 51 games lost last season by a one-run margin.

ORLANDO, Fla., March 27.—Linus (Junior) Frey, young Brooklyn shortstop, has given up right handed hitting entirely. Frey, who used to be a switch hitter, has been batting left handed against all kinds of pitching after the Dodger board of strategy decided he could make the best use of his speed by hitting from the side nearest first base.

The Old Timers, a team composed of former big league players, want to come to Pampa for a game and the Topeka club, Western association team, also wants to meet the Road Runners.

Clubmen stars are not turning out for practice with the enthusiasm anticipated. Manager W. A. Brastson is somewhat worried over the situation. It is going to take about 20 players to handle the Road Runners and the manager urges players to report to Road Runner park at 5 o'clock every afternoon the weather permits.

A Road Runner battery will work for the clubmen, but other positions will be filled by Pampans.

### 125 CITY MEN SIGN FOR GOLF MATCH SUNDAY

#### DEADLINE FOR REGISTERING WILL BE TONIGHT

Tonight is the deadline for business firms and golfers to register for the inter-city golf tournament between Pampa and Amarillo golfers over the Country club course Sunday. Matching of players will take place tomorrow with Del Love of Pampa and Walker Sikes of Amarillo scheduling play.

It is not known definitely how many Amarillo players will make the trip, but local sponsors anticipate at least 150 players and twice that many spectators. Play will start sometime during the morning.

The hour will be set tomorrow. Up to last night, 125 local men had signed for the match. Firms sponsoring players had increased to 30. There will be players of every type here from Amarillo. There will be the boys who break par, the par-shooters, the mediocre golfers, and the "dubs". No matter how poor a score local players make, they should register and "get in the game."

Local enthusiasts are already talking about a return engagement to be played over the River Drive course in Amarillo sometime during April. It is planned at that time to allow women golfers to play over some other Amarillo course. Because of lack of accommodations, women golfers will not be allowed to play here Sunday.

Every boy able to carry a golf bag is asked to report to Del Love at the Country club before Saturday night. Mr. Love will give the boys instructions when to report for duty Sunday. Boy Scouts are asked to report for caddy duty.

Amarillo players will bring a number of caddies with them, but it will take 200 local boys to give each player a caddy.

### Levinsky-Hunt 10-Round Fight Set For Tonight

DALLAS, March 27 (AP)—Texas' most interesting heavyweight prize fight since legalization of the sport will be held here tonight between Kingfish Levinsky of Chicago and Babe Hunt of Ponca City, Oklahoma.

The bout is scheduled for 10 rounds. Both fighters concluded training yesterday with road work. The Kingfish weighed in at 204½ pounds and Hunt at 196 pounds. Handlers of the Kingfish admitted he was in the best condition possible and that they were confident he would stop Hunt within eight rounds.

Because of his impressive record against such fighters as Primo Carnera, Art Lasky, Jack Sharkey, Maxie Baer, Jack Dempsey and other top-notchers, the Kingfish ruled a slight favorite. The Chicago fighter is a stiff puncher and a willing mixer, which is a good combination to put against Hunt who has a terrific right hand and is a clever boxer.

Hunt realizes that tonight he will get his big chance to lift himself into the spotlight of the heavyweight championship circle. Levinsky is going into the ring with everything to lose and nothing to gain except his percentage of the gate receipts.

Promoter Dick Griffin said he expected a near sell-out due to the heavy advance sale. The Fair Park arena will seat approximately seven thousand persons.

ANOTHER STEP AHEAD—THIS TIME IN BEAUTY

MANY, MANY THANKS!

We surely want to express our thanks to the many people of Pampa for the hundreds of ELECTROLUX they have bought and for the ones that made it possible for us to sell two car Loads this month. . . It was a source of great satisfaction to us to find so many so intensely interested in this Most Efficient, Most Economical, Most Silent, as well as Most Modern method of Home Refrigeration.

It's the refrigerator you've been waiting for!

Consider these 5 FAMOUS ADVANTAGES Electrolux owners enjoy

1. Low operating cost
2. Permanent silence
3. No moving parts to wear
4. Savings enough to pay for it
5. Long life

Here's great news for every family that is planning to get a new refrigerator this year. To the famous economy and efficiency of Electrolux, American women have added sparkling beauty. The new distinctive design of the latest Electrolux models was chosen by them from scores of models submitted by one of America's foremost artists.

# FINAL CONVENTION PLANS ARE MADE BY FEDERATED CLUBS

## 20TH CENTURY CLUBS STUDY VARIED TOPICS

### SECOND PROGRAM FOR UNDERPRIVILEGED IS PLANNED

Final meetings before the district federated club convention, opening at Plainview today, were conducted by the Twentieth Century clubs yesterday afternoon, and delegates received last instructions.

Mrs. F. M. Culbertson is representing Twentieth Century club at the convention, Mrs. Clyde Gold Twentieth Century Culture club, and Miss Virginia Faulkner Twentieth Century Forum.

Programs yesterday were varied. The Forum studied the motion picture, the Culture club a new novel, and Twentieth Century club Gypsy music and stories.

### FORUM PLANS AN ENTERTAINMENT

Plans for an entertainment for families on local relief rolls, the second this year, were made by the Forum, which had Mrs. Max Mahaffey as hostess at the home of Mrs. A. B. Goldstein.

A committee headed by Mrs. Dick Walker is in charge of these plans. April 2 was the date set, and various entertainers of the city will be asked to assist. The previous entertainment sponsored by the club was a movie.

Mrs. Arthur Holland was program leader yesterday. She traced the history of motion pictures from experiments in Edison's laboratories, thru days of the Nickelodeon to the present industry.

A committee headed by Mrs. Dick Walker is in charge of these plans. April 2 was the date set, and various entertainers of the city will be asked to assist. The previous entertainment sponsored by the club was a movie.

### BOOK REVIEW MAKES PROGRAM

Twentieth Century Forum met with Mrs. A. G. Post, Mrs. R. S. Lawrence led the review of a popular new book, Forty Days of Musa Dagh. Mrs. Ralph Dunbar sketched the life of the author, Franz Werfel.

Resignation of Mrs. K. I. Dunn from club membership was accepted, and Mrs. E. H. Hines, who has been an honorary member the past two seasons, was restored to the active list.

### GYPSIES PROVE AN INTERESTING TOPIC

Mrs. Ray Hagan was hostess to Twentieth Century club, and Mrs. Paul Kasistke was leader of a program on Nomads of Every Land.

In her paper, The Wandering People, she gave an account of the fascinating history of the Gypsies, who are known over the world but whose origin is a mystery.

### Contestants for City Meet Named At Sam Houston

Declarators and story tellers to represent Sam Houston school in the city interscholastic meet of this week-end have been selected in eliminations of the past week. Principal A. L. Patrick has announced.

First place winners in each division will enter the meet, with second place winners as alternates. The following list of pupils has been announced:

Story telling, first grade, Katherine Libburn first, Edith Kelly second, Dorothy Olin third, and second grade, Charles Maisel first, Brent Blonkvist second, Katherine Doyle third, third grade, Phyllis Perkins first, Sammie June Latham second, Norma Jean Turner third.

Declarators, girls, Bobby Lynn Robinson first, Doris Taylor second, Ella Nolan third; boys, Gene Alford first, Ralph Conner second, C. E. McDonald and Bert Diswell tied for third.

Judges who have served in the various events are Misses W. C. de Cordova, Marvin Lewis, George Hancock, Lee Harrah, Mel Davis, Ivy Duncan, Rufe Thompson, Walter Hurst, W. M. Craven, Frank Perry, J. A. Arwood, Winton Rowntree, Weldon Wilson, E. G. Frasier.

### Canadian News

CANADIAN, March 27.—Mrs. Tom Freeman of Guymon, Okla., visited friends here this week.

Mrs. Sam Isaacs is in Plainview.

Mr. and Mrs. Earl Hines returned to Kansas City Sunday after a few days' visit here.

Mrs. A. H. Burton of Gen. is visiting her sister, Mrs. Riley, for a few days.

Mr. Martha Aldridge visited in Wellington the first of the week.

Mr. and Mrs. Kenneth Brodie of McLean have been visiting here.

Dan Hoover and E. J. Cussens made a business trip to Perryton Monday.

Rainfall Saturday amounted to 51 inch. No rain fell north of Nola.

## Hanging Crepe on Winter

Although it looks much like a coat, this adaptation of the Russian influence is actually a sports dress for town or country wear.

Fashioned of a new corded rayon crepe, it is a deep peacock shade trimmed with white pique and self-material buttons.

## "DUMMY" HAS NEW NAME IN 1935 CONTRACT

### Revoke Law Is Not Changed, But Is Clearer

(The third of a series of four articles on the new contract bridge code, effective March 31, by an outstanding official of the game deals with penalties for violations of the laws during the play period.)

By ALFRED M. GRUENTHER (Written for The Associated Press) THE PLAY PERIOD

New Terms: Four new terms are used in this period. "Defender" replaces the cumbersome "opponent of declarer." "Penalty card" is used instead of the less descriptive and inaccurate term "exposed card." The "dummy" is now "declarer's partner" and the "dummy hand" is known as the "faced hand."

Penalty Card of a Defender: If during the play a defender improperly exposes a card, such card becomes a penalty card. A penalty card must be left face up on the table until played, and whenever it is the turn of the defender who owns it to play he must play it, unless the play of the penalty card would constitute a revoke.

This law involves a slight change from the old exposed card law in that heretofore the owner of a penalty card was not required to play it at the first opportunity. Instead, the card remained subject to call by declarer, unless, in the meantime, the owner had a chance to play it. In actual play, the new law will make little difference, since the alert declarer will always force the play of the exposed card if it was to his advantage to do so. If he failed to call it, the owner would usually play it anyhow in order to avoid the danger of being required to play it later at an inopportune moment.

Complicated Law Replaced

Lead Out of Turn: By declarer from either hand: Either defender may require declarer to take back the lead and to lead a card of the same suit from the correct hand. This is the same law which has been in force many years.

By a defender: Declarer may either treat the card led out of turn as a penalty card, or call a lead from the defending side as soon as it is the turn of a defender to lead.

The law relating to an out of turn lead by a defender takes the place of old law 46, which was so complicated that few tournament directors have been able to agree on its exact interpretation. As it is rewritten, there can be no doubt as to its meaning.

Rewritten For Clarity

The Revoke and Established Revoke: The substance of the revoke law has not been changed, though it has been rewritten in the interest of clarity. The penalty for an established revoke is still two

## PASSION PLAY IS DESCRIBED BY SPECTATOR

### DELEGATE LEAVES FOR PRE-CONVENTION SESSIONS

A visitor to the last Passion play in Oberammergau, Miss Alma Ruth Schuler, described that world famous drama to members of El Progresso club yesterday afternoon.

The club met with Mrs. Lee Ledrick, and Mrs. John Andrews was program leader. Miss Schuler told of going to the village of Oberammergau in 1930. She related the history of the Passion play since 1632, when it was started as a pledge to God after prayers for escape from a plague had been answered.

Since then it has been presented every 10 years. Roles are enacted by the villagers, some 1,200 in all. Costumes of elegant materials are fashioned by women of the village.

Miss Schuler considered the roles of Judas, John, and Pilate outstanding, and mentioned the most impressive scenes that of Christ at prayer in the garden, and the crucifixion.

She also gave interesting side lights on life of the peasants, in whose homes the visitors were entertained.

Mrs. Andrews directed a round-table discussion after her talk. A duet by Misses J. M. Dodson and Charles Tuth opened the program.

Mrs. C. T. Hunkapillar, the club delegate to the district federation convention in Plainview, was absent, as she attended preliminary meetings in the convention city.

Members present were Misses George Briggs, T. D. Hobart, J. H. Kelley, P. C. Ledrick, Dave Pope, S. G. Surratt, John K. Sweet, George Walstad, the hostess and those on program.

## Laketon Club to Give Play Free For Community

LAKETON, March 27.—All of Laketon community and its friends are invited to see a one-act comedy, Too Much of a Good Thing, to be presented at the school building Thursday evening with no admission charges.

The Community club will present the play, directed by Homer Powell. It has been prepared solely as community entertainment, and an appreciative audience is all the return asked by cast and director.

Floyd McLaughlin plays the role of Mr. Perkins, who is expecting a visit from a country cousin and from the suitor of his niece.

Velma Richards will appear as Mrs. Perkins, who does everything by the strictest rules of "the best society."

Homer Powell appears as the country cousin, who is mistaken for the niece's suitor by John Paris. The suitor, in turn, is mistaken for a sneak thief with amusing results.

Jewel Christopher, Thelma Paris, Lenora Grey, and Elizabeth Chapman have the roles of various Perkins cousins.

## Kid Costumes and Refreshments Mark Weekly Club Party

A kid party was enjoyed by the Weekly club Saturday evening when Mr. and Mrs. Russell Landress entertained in their home at the Portland gasoline plant.

Mrs. Bethel Roberson scored high in the games for women and George Alden for men. Prizes for the "best-dressed kid" went to Mrs. Harry Stevens and Chester Nicholson. Low score went to a guest, Raymond Stevens.

The kid theme was stressed in all places and in the salad course that was served with pin lemonade and animal cookies. Those present were Messrs. and Mrs. Harry Stevens, Virgil Harness, Barney Harris, Bethel Roberson, George Alden, Albert Noland, and the hosts.

The kid theme was stressed in all places and in the salad course that was served with pin lemonade and animal cookies. Those present were Messrs. and Mrs. Harry Stevens, Virgil Harness, Barney Harris, Bethel Roberson, George Alden, Albert Noland, and the hosts.

Objection to Limitation

It will be remembered that, under the 1932 code, dummy (i. e., declarer's partner) was permitted to protect his partner against possible revokes, and that was about the extent of his privileges. Contract players objected to his drastic limitation, so the law making body has again given the dummy player a voice in the proceedings.

One important change involving declarer's partner which may be missed in a casual study of the laws involves the revoke rights if declarer's partner leaves the table during the play of the hand. Under the old code, if dummy left the table the adversaries could not claim the penalty for an established revoke unless one of them had questioned declarer before the revoke became established. This protection provision has now been repealed so that if declarer's partner leaves the table, the declarer is fully liable for any established revoke made during his absence.

(Tomorrow Lieutenant Gruenther will explain the new scoring.)

## WMS TO SEND DELEGATES TO DISTRICT MEET

### Silver Anniversary Convention To Be Soon

Delegates to the silver anniversary convention of Methodist Missionary societies in the Clarendon district were elected when all six circles of the society here met Monday at First Methodist church.

Mrs. Ohn Hesse, president, Mrs. W. R. Ewing and Mrs. Joe Shelton were the delegates named. Mrs. W. Purviance, district secretary, will also go from here. The annual convention is to be at Childress next month.

The election was part of a general meeting that started with a covered dish luncheon. Circle reports of the last month were heard, showing a wide range of activity. Each circle presented a number on the program. The devotional was by circle six. Circle one presented an amusing school-days playlet.

Mrs. Bob McCoy and Mrs. C. C. Dodd of circle two sang a duet. Mrs. Jack Skelly of circle three played a piano solo, and Mrs. Harry Nelson of circle four sang a solo, playing her own accompaniment.

The meeting was attended by 65 women.

## Couple Married, Will Live Here

The marriage of Mrs. Louise Grounds of Amarillo and Clifton H. Ramsey of Pampa was solemnized Monday evening. John S. Mullen, First Christian minister, read the service in his study.

Mrs. Grounds is the widow of the late Chester Grounds, Amarillo city officer who was killed while making an arrest there last year. She is known to a number of Pampa residents. Mr. Ramsey is employed by an oil company here.

## MEMBERS ARE GAINED

The American Legion Auxiliary continued to show increased membership strength as February enrollments carried the total rapidly toward the 275,000 mark. A gain of nearly 15,000 over the same date last year was being maintained. North Dakota was the first state to show an increase of its total 1934 enrollment, while Nevada was the first to exceed its 1935 membership quota.

The training school is being conducted each evening through this week. Usual Wednesday evening church meetings will be resumed next week.

Everyone in the church is urged to attend the training classes, at least for one evening.

## Daring Sport!

This revealing scene, snapped during the spring skiing at Arosa, a popular Swiss resort, is unusual, in that it shows a young sportswoman both before and after the take-off. The bandanna was a bare concession to a hot sun.

## Food, Faith, Fun Night Postponed

No Food, Faith, and Fun program is scheduled at First Methodist church this evening, because of training school classes in progress there, it was announced from the church today.

The training school is being conducted each evening through this week. Usual Wednesday evening church meetings will be resumed next week.

Everyone in the church is urged to attend the training classes, at least for one evening.

## RABBIT'S FOOT TURNS LUCK OF CULBERTSONS

### So Josephine Says as Sims Trail 1750 Points

By TOM HAGENBUCH Associated Press Staff Writer NEW YORK, March 27. (AP)—A decided turn in the fortunes of war has given Mr. and Mrs. Ely Culbertson the lead in their contract bridge battle with Mr. and Mrs. P. Hal Sims with the match only two days old.

The Culbertsons went today into the third day of the 150-rubber bridge marathon with a lead of 1750 points, the result of a clean sweep of five rubbers played last night.

A difference of opinion as to the cause of their success developed between Culbertson and his attractive wife, Josephine, at the end of last night's play.

Mrs. Culbertson contended the turn in luck was due to a rabbit's foot she received during the dinner recess and which she had with her during last night's playing.

"Nonsense," replied her husband. "It was the system."

It may have been possibly a swing of aces and kings to the Culbertsons, for in the 30 hands played last night, the Culbertsons held 71 aces and 64 kings against 49 aces and 56 kings for the Sims.

Whatever it was, the Culbertsons sailed through the five rubbers to overcome a substantial Sims lead.

Starting the afternoon session with a lead of 2200 points from the first night's play, Sims and his wife captured four of the five rubbers of the afternoon to send their lead to 4730 at dinner time. Their greatest margin, however, had been 4620 points at the end of the second rubber of the afternoon and the sixth of the match.

An indication of the turn in Culbertson luck came at the start of the evening's hostilities when Ely and his wife took a 700-rubber with two successive game bids at no trump.

They followed this with a gain of 2040 points on the next rubber and picked up 1150 on the next, cutting the Sims lead to 530 points.

In the 13th rubber, Culbertson forged to the front when he bid a small slam in hearts and took every trick. The Culbertson plus on this rubber was 1880 and they took the 14th and last rubber of the night by 400 points.

Beauty of East Texas' "piney woods" area is to be preserved in 1,000-acre state park seven miles north of Tyler.

## CHILD STUDY CLUB LEARNS ABOUT HABITS

### MRS. JONES IS CLUB HOSTESS — MRS. EVANS LEADS

Mrs. Lee Harrah, president-elect of Child Study club, left today for Plainview to represent her club at the seventh district convention. Final plans for her trip were made at a meeting of the club yesterday with Mrs. Herman Jones as hostess at city club rooms.

Mrs. S. C. Evans was leader of the program on Habits. The topic was a quotation from Horace Mann, "Habit is a cable; we weave a thread of it every day and at last we cannot break it."

What Parents Need to Know of Habits, was Mrs. Evans' subject. Mrs. Jones read a paper prepared by Mrs. A. N. Dilley, on Habits That Make or Mar. Mrs. John B. Hesse, discussed habits of sleep, of eating, and of independence.

Sherbet and cake were served to Mrs. W. E. Hutchinson, Frank McAfee, Harry Nelson, T. C. Shaw, W. E. Finley, Joe Gordon, H. C. Schoolfield, Harrah, Roy Tinsley, Horace McBee, Evans, Hesse, T. C. Lively, W. J. Foster, Luther Pearson, J. M. Smoot, N. F. Maddux, and the hostess.

# FISHING RODS HOLD INTEREST OF PRESIDENT

## ROOSEVELT IS HEADED FOR BAHAMA ISLANDS

BY FRANCIS M. STEPHENSON, Associated Press Staff Writer.

MIAMI, Fla., March 27 (AP)—President Roosevelt looked today for old clothes and fishing rods out on the Atlantic where the game fish play.

Keeping his annual rendezvous in this region for a few days of relaxation, he headed southward along the coast line with the Bahama Islands as his objective.

He put to sea in a mid-summer heat yesterday from Jacksonville. His staff, establishing headquarters here today, awaited word of his boarding the yacht Nourmahal of Vincent Astor from which he will do his fishing.

Mr. Roosevelt made sure of his work relief plans before boarding the destroyer Farragut. He talked with Harry L. Hopkins, federal relief administrator who was confident of a quick start once final congressional approval is given the four billion dollar program.

Apparently satisfied of congressional progress, Mr. Roosevelt cruised into the Atlantic unaccompanied by official aides and determined on a real vacation.

Smiling broadly from the rail of the foredeck of the Farragut, he joked with members of the party who accompanied him from Washington and returned the farewell wave of the crowd lining the dock.

Captain Wilson Brown, naval aide, and Commander Ross T. McIntyre, White House physician who attended Louis M. Howe, secretary to the president, through the crisis of his illness, boarded the Farragut with the president.

Aboard the Nourmahal are friends of Mr. Roosevelt who accompanied him on similar cruises in the last two years. Besides Astor this group includes Judge J. Frederic Kernochan of New York, Kermit Roosevelt, a son of former President Theodore Roosevelt; George St. George, and Lytle Hull, Tuxedo, N. Y., and Dr. Leslie Hetter of Mobile, Ala.

# Japan Invading U. S. Markets In South America

WASHINGTON, March 26 (AP)—Japan's successful invasion of the south and central American markets today prompted Senator Walsh (D., Mass.) to call for a commerce department study of why the United States is lagging in the economic competition in this area.

"We are falling behind," he said. He based his comment on information that Japan has increased her export trade to these countries by more than 500 per cent from 1933 to 1934 while the United States exports, though still much larger, were increasing at a much slower rate.

"Most of this is in cotton pecc goods," Walsh said. "I think that one means of remedying the situation would be the elimination of processing taxes in this country. The matter concerns both northern and southern manufacturers.

"Japan can produce more cheaply but we cannot think of lowering wages because that would drive down standards of living.

"This is a very grave problem. The department of commerce should be called on to analyze the situation and make recommendations."

Department figures show that in 1932 Japan sold goods valued at \$5,113,920 to Central and South America and that by 1934 the aggregate had jumped to \$31,376,600. United States trade in 1932 amounted to \$158,583,000. Last year's figure was \$225,292,054.

A "How to Study" class has been organized at the University of Kentucky by Prof. Ralph Wood of the university's college of education.

# CONTEST PLAY APPEALS TO LARGE AUDIENCE AT P-T. A. SPONSORED SCHOOL PROGRAM

## Three Plays Given In Variety Program

Performing for the first time before an audience, four young actors in the high school's contest play of this spring showed promise last night of a production that may again win for Pampa the state one-act play contest.

There is still much room for improvement but allowing for "first night" nervousness, and a tendency to speak in too low tones, each member of the cast gave a good account of himself. The play is The Visitor, a drama of lyrical quality.

Paul Schneider as the aging poet is the central figure, and has almost mastered his part, including a difficult English accent that slipped noticeably only once or twice.

Minor roles are played by the poet's housekeeper, presented the most flawless performance of the evening. Her appearance, Cockney accent, and interpretation were remarkably convincing.

Harriet Ann Robb's appearance and voice suit her for the role of Francesca, the poet's boyhood sweetheart who returns from the dead to him.

Elizabeth Graham was a sympathetic and sophisticated figure as the poet's sister-in-law and friend. An expressive face and intelligent reading of her lines marked her appearance.

The Visitor climaxed a one-act play program directed by Eben Guill and sponsored by the High School Parent-Teacher association, which will use the proceeds to purchase scholarship society pins, literary awards, and assist the seniors on their class day trip to Carlsbad cavern. Seniors sold the tickets to a crowd that almost filled the city auditorium.

Other plays were The End of the Dance, a tragedy with Virginia Jeffries, Philip Noland, Bob Roseberry, and Dorothy Brumley in the cast; and a farce, with Burton Tolbert and Bill Parks.

# SPRIT OF CONFERENCE TOLD BY HI-Y BOYS OF PAMPA CLUB

Hi-Y boys of Pampa schools and their sponsor, Prof. J. L. Lester, state that the recent Older Boys' conference at Lubbock was very much worthwhile.

The spirit of the conference, they said, was summarized in the following notes:

"A man who shares can command. An unselfish boy or man demands respect. A clean, commanding personality says 'come' and the boys come. He says 'go' and they go. Jesus even as an older boy spoke with authority. He spoke all of his life as one who knew what 'the score was'—he knew the truth, he spoke the truth, and boys around him knew it was the truth, and they followed him. He swam in deep cold water, hiked on steep, tall mountains, cut hard knotty timbers on hot little work benches in sorry dirty carpenter shops, but boys were always 'sticking around' him. They knew he was a little extra something."

"You see certain fellows occasionally who they knock their heads for leadership. They have a firmness about their look that spells 'sacrifice', conviction, sharing spirit, love, concern for others, 'Christ-like.' Do you find yourself 'sorter' itching for a lot of that yourself? Could you stand to have a little more 'manly' stuff? Do you picture Jesus as a coward? Did he allow 'bullies' to impose on foreigners, weak guys, helpless people, oppressed nationalities, people in the minority? Read the book 'The Hidden Years' by John Oxenham, ask your librarian to buy it. Tell your pastors to help you secure it. Buy it, and read and lend to lots and lots of boys. It is the greatest novel in print."

"Speaking of sharing as indicated by the conference theme, I would like you to remember that sharing materially is not the food or clothes so much as the smile that goes with it. Your soul goes out to the people you serve if you love 'learn to love, and live and lift.' God did it first, then Jesus and now you, for after all it was all done for you to do it. The whole thing in Christ's life was 'sharing.' Sharing is when one is unselfish. You cannot hoard your things as a baby boy does his first toys, if you are going to be 'grown up' Christians. This is the stuff that makes 'PERSONALITY.' Will you share? You gain personality by sharing, but will you share personality now. The more you share, the more you have to share, and the happier you are to share. To him that hath it shall be given to him that hath not, it shall be taken away, that which he hath. Use your muscle and you will have larger muscles; use your will power, your right attitudes, your unselfish giving, your prayer life, your gratitude, your love, your manly traits, your self-control, and all of these things will be made better and stronger for your having tried. But if you tie your arm up in a sling, or tie up your Christ-like attributes in an unselfish life, your arm will grow weak and pale, and so will your Christian life."

"Speaking of sharing as Christ did, well, you cannot share that which you do not have. First you have got to have something to share. How do you know Christ shared until you read his life? It is short and simple. Read it this week. Those who came to the conference knowing something of what Christ did, and what he stood for in situations of life, if you are 6 feet tall and weigh 180 pounds, you are only worth 84 cents as the chemical values go. But you do what this conference theme says, and you change a million boys and make 'em grow up and be happy, and they in turn make others happy. You give me a dollar and I give you a dollar, and we still have a dollar each; but if you give me an idea, and I give you an idea,

# BRIDE OF CHISHOLM TRAIL RECALLS DAY OF CATTLE DRIVERS

AUSTIN, March 27. (Sp)—While many sections of the state are recalling the days of the great cattle drives from Texas in connection with preparations for participating in the observance of the Texas Centennial in 1936, Austin possesses a feminine citizen, who personally recalls her honeymoon on the old Chisholm trail. Mrs. Howell Buntin can relate details of her six months' bridal trip from South Texas to the Kansas markets, which was made in the early days.

This honeymoon on the famous trail was an accident, a thoroughly conventional bridal tour having been planned by her husband and herself previous to their marriage; but circumstances made it necessary for the bridegroom to accompany a large drive of cattle from the Buntin ranches. The young bride announced her intention of accompanying him and making it her wedding trip. She went over the protests of members of both of their families.

She actually made the ride on horseback, with none of the luxuries of the womenfolk, who sometimes accompanied the drives in buggies. She terms herself "a bride of the Chisholm trail."

# BRIDGE ENTERTAINS FRIENDS OF ALDENS

A group of friends was entertained at the home of Mr. and Mrs. George Alden, Monday night. Two tables of bridge were arranged, in an Easter theme.

High score went to Mrs. L. C. Gomillion for women and to S. T. Beauchamp for men. Cut prizes were awarded to Mr. and Mrs. Beauchamp.

A dainty lunch was served to Messrs. and Mrs. Barney Harris, Harry Stevens, Gomillion, Beauchamp, and the hosts.

# KIWANIANS AND LIONS TO MEET TOGETHER THURSDAY

Members of the Kiwanis club will meet with the Lions club tomorrow. There will be no luncheon on Friday, which is the regular meeting day for the Kiwanians.

# The Social CALENDAR

## THURSDAY

A. A. U. W. French class will meet at the home of Mrs. McEwen, 305 E. Browning.

B. M. Baker PTA will sponsor an annual Dad's Night program, 7:30. Mrs. Dallas Culwell will be hostess to Eight Hearts club.

## FRIDAY

New Deal club will be entertained at the J. C. Cox home.

Order of Eastern Star will have a called meeting for initiatory work at Masonic hall, 8 p. m. Officers from each of the surrounding chapters are to exemplify degrees.

# ANTI-CRIME BILL ALSO TO BE SLATED FOR CONSIDERATION

AUSTIN, March 27 (AP)—Anti-crime and Centennial appropriation bills held high rank on calendars today as measures passed by one branch of the legislature received preferential consideration in the other.

More difficulty was anticipated in the house on the anti-crime bill than faced it in passage through the senate with only one dissenting vote. The bill, proposed by the senate crime investigating committee, would merge existing state police agencies into a central bureau, designate a state department of public safety. A commission would decide policies.

The bill to appropriate funds for a Texas Centennial commemoration next year was passed by the house after a bitter fight for \$3,000,000. An additional \$50,000 was placed on it by the senate finance committee, while a substitute proposed by Senator Frank Rawlings of Fort Worth would increase the total to \$3,550,000.

# CELEBRATION IS NEXT ISSUE TO FACE SENATE

Consideration of the bills could be delayed in either house, however, if sponsors of constitutional amendments chose to force votes on pending proposals. Presiding officers in both branches have ruled the amendments hold parliamentary priority.

Submission of prohibition repeal was proposed in one passed by the senate and pending on the house calendar. As revised by a house committee, it would submit the direct question of repeal with regulation left to the legislature. The senate, however, voted to limit sales to sealed packages, and to outlaw consumption on premises of sale.

An amendment to authorize legislative establishment of a teachers retirement plan, sponsored by Senator Clay Cotten of Palestine, was pending in the senate. Several alterations approved in two days of debate tended to restrict the scope of the proposed pension. Proponents thwarted an attempt to convert it into a general old age pension plan, but faced renewed efforts of Senator Joe Hill of Henderson and others to broaden it.

Should the house clear its docket of senate bills, pending business would be enactment of a drivers' license law, on which debate was started yesterday. Applicants for a license would be required to pass an examination, and those under 16 years would not be eligible. The fee would be 25 cents.

Proponents obtained defeat of numerous amendments, but 25 were pending. An amendment adopted, however, eliminated a section by which the proposed vehicle commissioner, administrator of the act, could have revoked a license without a hearing. Another declared as agents of the state in issuing licenses chiefs of police, sheriffs, and constables.

As revised by a house committee, it would submit the direct question of repeal with regulation left to the legislature. The senate, however, voted to limit sales to sealed packages, and to outlaw consumption on premises of sale.

An amendment to authorize legislative establishment of a teachers retirement plan, sponsored by Senator Clay Cotten of Palestine, was pending in the senate. Several alterations approved in two days of debate tended to restrict the scope of the proposed pension. Proponents thwarted an attempt to convert it into a general old age pension plan, but faced renewed efforts of Senator Joe Hill of Henderson and others to broaden it.

Should the house clear its docket of senate bills, pending business would be enactment of a drivers' license law, on which debate was started yesterday. Applicants for a license would be required to pass an examination, and those under 16 years would not be eligible. The fee would be 25 cents.

Proponents obtained defeat of numerous amendments, but 25 were pending. An amendment adopted, however, eliminated a section by which the proposed vehicle commissioner, administrator of the act, could have revoked a license without a hearing. Another declared as agents of the state in issuing licenses chiefs of police, sheriffs, and constables.

# ELECTRIC REFRIGERATORS ARE BUILT FOR HOT WEATHER

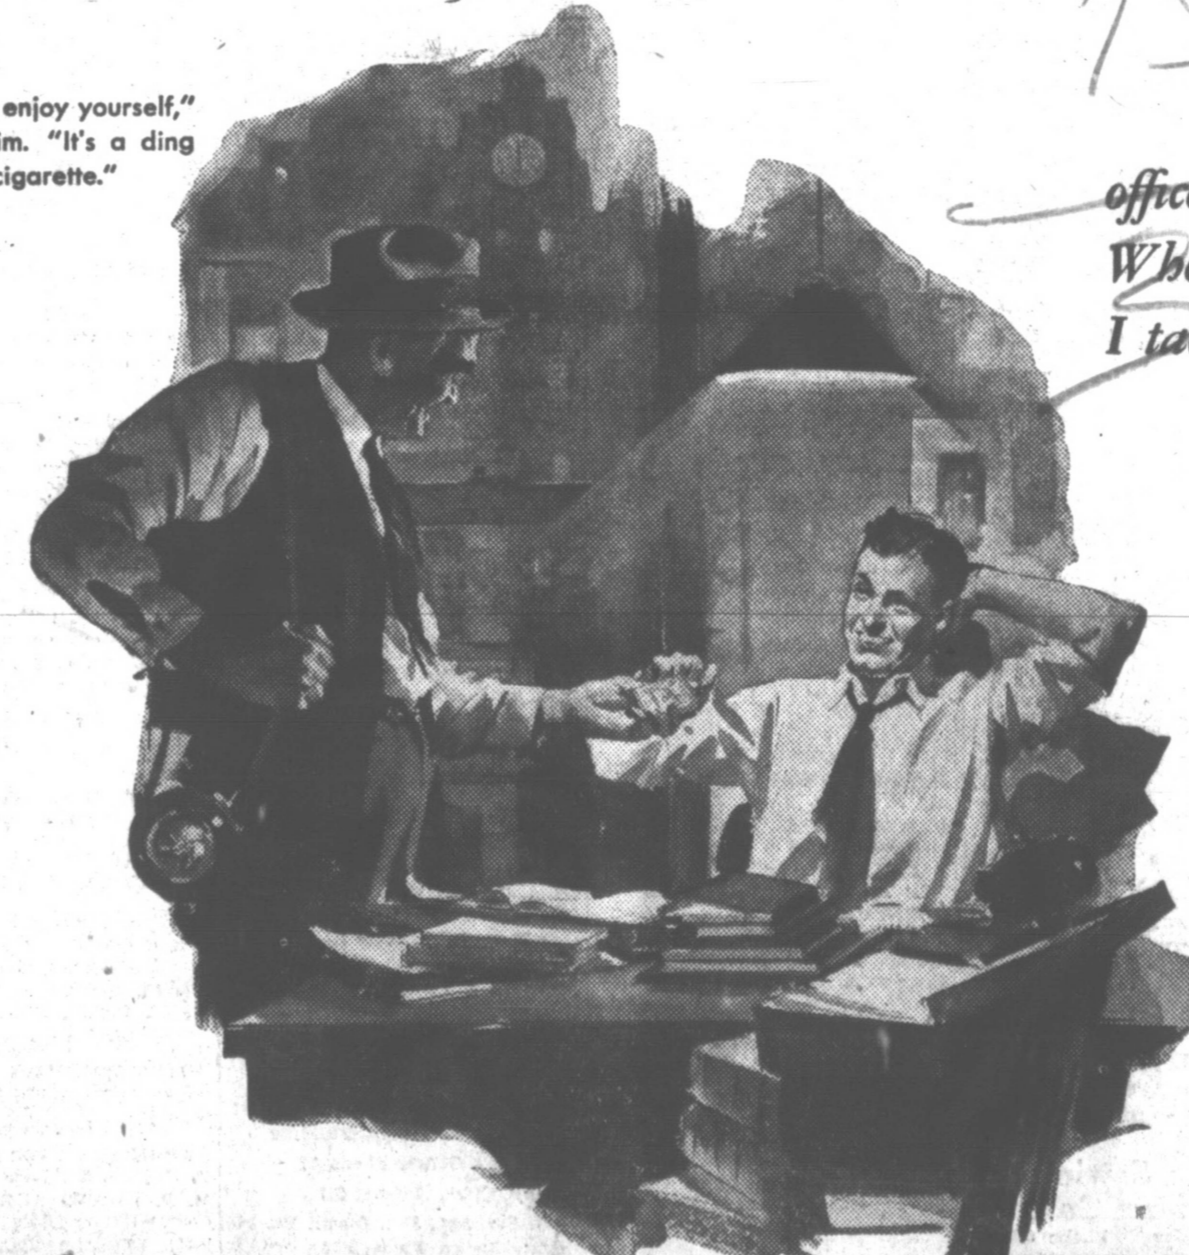

In hot weather you really need good refrigeration. The demand for ice cubes increases because hot weather promotes thirst. Frozen desserts and salads become more delectable and are served more often if they can be made promptly. And it is in summer time that the danger from tainted food becomes a menace to health.

During the past ten years various manufacturers have designed and built millions of electric refrigerators. At first food preservation was paramount to the American housewife. Then she became more impressed with the necessity for fast freezing of ice cubes and desserts. To these have been added beauty, convenience, much lower prices, increased efficiency, and dependability that approaches that of electric service.

The electric refrigerator was built to satisfy the American housewife no matter how hot the weather.

**Southwestern PUBLIC SERVICE Company**

"Sure, enjoy yourself," said Jim. "It's a ding good cigarette."

I was working way late at the office one night and ran out of cigarettes. When Jim the watchman came through I tackled him for a smoke.

"Sure," says Jim, and he handed over a pack of Chesterfields. "Go ahead, Mr. Kent, take three or four."

Jim said he'd smoked a lot of cigarettes in his time, but he'd put Chesterfield up in front of any of 'em when it came to taste.

... "and they ain't a bit strong either," is the way Jim put it.

That was the first Chesterfield I ever smoked. And I'm right there with him, too, when he says it's a ding good cigarette.

## JIM BRADDOCK IS CHALLENGER OF MAX BAER

### SCHMELING CLAIM IS REJECTED BY COMMISSION

NEW YORK, March 27. (AP)—The has-been of little more than a year ago, James J. Braddock, sat enthroned today in the heavyweight driver's seat, placed there by official ukase of the bewildering rules of fightdom, the New York State Athletic commission.

Using the same sweeping authority they employed in ruling Braddock no fit opponent for Walter Neusel just 14 months ago, the commission declared the New Jersey veteran the No. 1 challenger for Max Baer's heavyweight title.

They informed Madison Square Garden it would have to abandon its plans for sending Max Schmeling against Baer for the title here in June.

If the Garden wants to hold a Baer-Schmeling bout in this state, they said, Schmeling first will have to eliminate Braddock, technical winner of the Garden's ill-fated heavyweight elimination tournament.

That tournament, incidentally, proved to be the boomerang that wrecked Jimmy Johnston's well-laid plans for a championship battle between the two Maxes. The commission ruled that since the Garden had advertised the tournament as a series of eliminations designed to find an adequate opponent for Baer, it would have to stand by the implied promise to match the winner against Baer.

The boys gave the Garden an "out." They said they would approve a Baer-Schmeling match if the ex-champion from Germany would meet Braddock first.

Neither Col. John Reed Kilpatrick, Garden president, nor Johnston would indicate just what the Garden would pursue, but it seemed elementary that there were only two alternatives:

1.—To persuade Joe Jacobs, Schmeling's manager, to send the Teuton against Braddock in a final "elimination."

2.—To take the Schmeling-Baer fight out of the state.

Jacobs, unless he changes his mind, will never permit Schmeling to fight Braddock. Not only does he believe that Schmeling's technical knockout of Neusel and Steve Hamas entitle him to a title match but he likewise holds a contract with the Garden for a June meeting with Baer.

Although Braddock astounded the boxing world with his decisive 15-round victory over Art Lasky, the 3 to 1 favorite, last week, few experts would concede him a chance against Baer.

Meanwhile Braddock, possibly doubting he will be matched with Schmeling or Baer, signed a tentative contract to meet the winner of the Primo Carnera-Joe Lewis heavyweight bout to be staged by Mike Jacobs and the Twentieth Century club at the Yankee stadium in June. Braddock will have the right to withdraw from the contract should a match with Schmeling or Baer eventuate.

Hei tiki, the love charm of the Maori people of New Zealand, usually is carved of nephryte.

## GREAT RICHES

by Mabel Howe Farnham

SYNOPSIS: James Stimson, III, an orphan, is being raised by his grandparents, who are the "big people" of the Concord. James is expected to do many fine things, and does his best to live up to the expectations. But there is one drawback; because he is an orphan, not only his grandparents but all the family friends feel called upon to take a hand in his upbringing.

Chapter Two  
**GRANDMOTHER**  
No little boy that ever lived loved his grandmother better than James loved his Grandmother Stimson.

Old Sarah was such a pretty dainty old lady that no one could help loving her. Sarah, her daughter, had much of the Governor's dignity, but she never could compare to her mother in looks.

The older Sarah's cheeks were as soft and kindly as her voice, and her eyes, even when she was close to seventy, remained as clearly blue as the first violets James used to gather for her each April on the river banks below the Mansion. Never in all his life had James heard her speak in harshly or to anyone else for that matter, and somehow she always understood him a thousand times better than anyone else did.

The others loved him just as truly, but Grandmother understood the working of his young soul and mind in a truly marvelous manner.

Grandmother, like Grandfather, was an almost inexhaustible mine of stories. But while Grandfather told of the big things, told of stirring epoch-making circumstances and events, Grandmother filled in the gap by telling of the little things.

With his grandmother's help the past of the fifties and early sixties became more real to little James than the eighties and nineties of his boyhood. As a result, James III, his whole life long, was to keep his roots fresh and green in the rich loam of his grandparents' past.

James and Sarah Stimson's first home was a small brick cottage, still standing on North Second Street, just a block from the wharf at which the struggling town began. From her kitchen window Sarah had been able to watch the bi-weekly steamers, loading and unloading their freight to the haunting musical chants of the darkey stevedores, and taking on or putting off a motley collection of passengers.

"What's embrosial food, Auntie Lou?"

"You're the peeterin' child. It's what the Lord God on High and His angels eat. You ain't supposin' that what you and I eats is fitten for the Lord God on High and His Angels?"

"Maybe," cried James happily. "Maybe it's like caramel ice cream with marshmallows in it."

Aunt Lou agreed that it might be something like caramel ice cream and marshmallows, only a million thousand times better.

James gave a heartfelt sigh. "I wonder," he said wistfully, "whether my mama and papa wouldn't like to have me come and live with them? I s'pose they might get lonesome sometimes for their little boy."

Aunt Lou had come with Molly Ewing from Kentucky. Now she was ironing James' little frilled shirts and a tear fell with a sizzle on the hot iron.

"I reckon they do get lonesome, honey," Aunt Lou sighed. "I shouldn't wonder but what your mama cries her eyes out time and again when the Lord God has His back turned. A corse she wouldn't let Him catch her cryin' now, but smiling after all He done for her. It wouldn't be manners."

"Why wouldn't it be manners Auntie Lou?"

"Well, dearie, when the Lord God sent for your mama to come and live with Him in Heaven she weren't hardly more'n a girl and so wrapped up in your papa she thought the sun rose and set in him. When the angels tried to make her eat she explained she was so lonesome for your papa she was all choked up and couldn't swallow a bite."

"When night come and they put her inter her golden bed she jest tossed around till mornin' with her eyes wide open, moaning and throwin' the silken covers this way and that. The angels tried playin' to her on their harps and singin' soft and sweet like a thousand little birds. They tried readin' to her outer the Bible and they tried tellin' her stories."

"But, s'auks, it didn't do no good. She jest kept carryin' on and carryin' on until the Lord God Him-

# BELIEVE HOPKINS WILL BE BIG BOSS OF WORK-RELIEF FUNDS

## FRIENDS AVER IT WILL GIVE MILLIONS JOBS

### EMPHASIS IN COMING WORKS DRIVE TO BE SPEED

BY NATHAN ROBERTSON, WASHINGTON, March 27 (AP)—Resting today in Florida's sunshine, Harry L. Hopkins was believed to be revolving in his mind just what he will do when—as the capital expects—he becomes the biggest spender on earth.

The federal emergency relief administrator, who held long and significant conferences with President Roosevelt on the train that carried the chief executive southward to his fishing vacation, is named in a high administration quarter as the choice for big boss of the \$4,880,000,000 works and relief program.

If events should confirm this forecast the poor boy who rose from an Iowa harness-maker's shop thru the ranks of social workers will conduct the most gigantic test of clashing theories ever attempted.

Friends of the works program—which has now been sent to a conference between senate and house—say that it will put 3,500,000 destitute people to work, speed recovery by stimulating private industry, and that the debt incurred can easily be paid off when good times come back. Critics say that no one can spend \$4,880,000,000 wisely in a short time, that even if the money is spent quickly it will not do the things claimed for it, and that the debt will endanger the government's credit.

The vast new program is being planned at a time when the federal reserve board finds that industrial output for February lagged behind the ordinary seasonal upturn for the month. Motor cars were an exception; they were being manufactured at an unusual rate. But the board announced that its index—containing allowances for seasonal variation—declined from 91 per cent of the 1923-25 average in January to 89 per cent in February.

The emphasis in the coming works drive, informers here said, was to be speed. That was believed to be a reason that Hopkins was mentioned for the chief responsibility, rather than Secretary Ickes, who is expected in authoritative quarters to play a comparatively minor role. Ickes is noted for caution and his handling of the \$3,300,000,000 public works appropriation led some adherents to the "pump-priming" theory to contend the money was not spent fast enough.

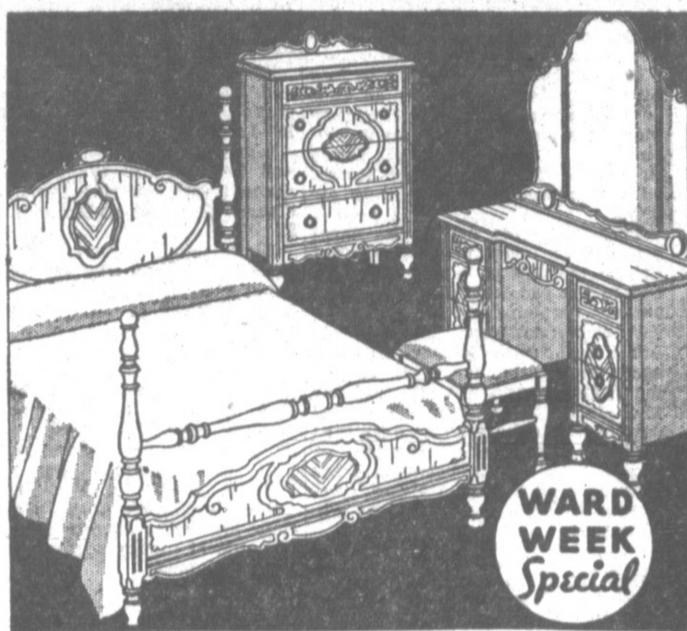

Conferees from both senate and house, to whom the huge bill was entrusted yesterday over the opposition of silverites in the latter chamber, were expected to knock out the Thomas silver inflation rider attached to the senate and to make changes.

Meanwhile a PWA inventory of possible work-making projects listed 128,000 of them that would cost \$48,500,000,000. Perhaps \$1,000,000,000 is expected to be spent on a national, coordinated land-use program, of which Rexford G. Tugwell is mentioned as the probable head.

Unless an amendment added to the bill by the senate is finally dropped, Hopkins, in order to take over the work will have to be confirmed by the senate.

# WARD WEEK

When All America Goes Shopping

## 3-Piece Suite

Regularly \$59.95! Ward Week Price

# \$52.94

\$5 Down, \$5 Monthly, Small Carrying Charge

Price goes up after the Sale. Oriental wood veneer tops and fronts with aspen overlays. Triple Venetian mirrors. Vanity bench, \$3.44.

### Hamlin Lawyer Fined by Court In Murder Trial

AMARILLO, March 27 (AP)—Arguments over statements alleged to have been made by George S. Hamlin after his arrest for the hammer killing of his wife further prolonged proceedings in his murder trial here today.

Sheriff Bill Adams said three statements were made. Transcribed notes of the first two were turned over to the defense counsel upon order of Judge E. C. Nelson. The prosecution announced that no objection would be made if the transcriptions were entered in evidence.

The state yesterday placed the third statement in the record. E. T. (Dusty) Miller, Hamlin's attorney, was held in contempt of court and fined \$50 for remarks made in the courtroom.

Norman Minter, court reporter, was placed on the stand by the defense and questioned at length about the questioning of Hamlin four days after the slaying. He testified that he saw Hamlin sign the statements.

Judge Nelson ruled that all of the statements were admissible as evidence.

### Lewis Funeral Is Held Tuesday

The funeral of Arthur E. Lewis, 59, who died Sunday in Oklahoma City, was conducted there yesterday. A former resident of Pampa, Mr. Lewis operated a service station here after retiring from 25 years of service as a trainman.

Surviving him are his widow, a daughter, Mrs. R. E. Holley of Little Rock, Ark., and three sons, William H. and John of Pampa, and Arthur E. of Oklahoma City.

### Phillips Manager Wins Sales Contest

C. J. Maisel, manager of the Phillips Service station at the corner of Kingsmill avenue and North Frost street, but former district manager, yesterday received a check for \$500 from the Phillips Petroleum company as winner of a Silver Glove contest among district managers throughout 22 states.

Maisel's district, of which Pampa was headquarters, showed the largest percentage increase in business of any district in the 22 states. He recently took over operation of the Pampa station.

### OIL PIT

(Continued from page 1)

offer it for sale in the New York oil ring. It will state that during a certain month, and for a certain price, you will deliver a certain number of contract units (each unit of crude oil sales is 2,000 gallons). Then you are safe from any fluctuations in the market.

**Hedging Made Possible.**

The same scheme protects buyers of oil or gasoline, who can buy futures for insurance against a rising market. It is all called "hedging." There are selling hedges, buying hedges, and also "hedges of inventory." The latter operate in this fashion: Imagine that you are a refiner, and have a million barrels of oil in storage. The physical properties of that oil wouldn't change in a thousand years, yet the value of it changes daily. With so much of it on hand, you naturally are fearful that crude prices may go into a tailspin, and for a certain price, you sell every drop of it on the exchange for, say September delivery. If the price rises by next September you can deliver the oil and won't be out of pocket on the transaction. If the price declines, you can keep the oil and buy back your hedge.

Exchange officials admit that the futures system would not be operated without speculators—gamblers, if you insist—who are willing to bet that the market will turn one way or another. Oil men would profit hugely if the speculators always guessed wrong. But even if they always guessed right, the oil men at least would have security against sudden price changes. Thus you have an inconspicuous situation in which gamblers are depended upon to reduce the elements of chance. Also a situation in which the exchange itself, established for the purpose of steadying the market, is dependent for its own existence upon fluctuations in the market. It gets more intricate the longer you think about it.

**Fluctuations Limited.**

Any contract unit of 42,000 gallons of gasoline may be bought and sold a dozen times before it reaches the consumers. Most of the buyers are speculators who never see the gasoline and probably don't even remember where it is stored. Gasoline deliveries ultimately are made from storage tanks licensed by the state in the Houston-Galveston area of Texas, and in New York City at transportation premium being added at the latter point. Crude oil deliveries are made in the Houston-Galveston area, and in the Cushing-Drumright region of Oklahoma.

### WEATHER

(Continued from page 1)

difficult to discern objects two blocks away.

The dust gradually enveloped San Angelo, cutting down visibility to a minimum.

A cold norther drove the temperature down to 40 degrees at Pampa, replacing balmy spring weather that had prevailed for several days. With the norther came dust which today obscured the sun. It resembled a fog, covering everything with a fine deposit of sediment. There was little surface soil movement, however.

The storm struck Wichita Falls about dawn and hours later, was still blowing unchecked. Visibility was very poor. There was a north-easterly wind with a velocity of 25 miles. Railroads reported the dust storm extended all the way to the Kansas state line.

A stifling dust storm raged in the Midland area. It had the appearance of a heavy fog and was becoming more dense. The skies were darkened at Spur as the dust clouds reached there about dawn. Little wind was evident, except occasional gusts, but the dust seeped into every building.

"Old timers" considered the storm unprecedented.

The clouds of dust and sand in the Memphis early in the morning. Motorists were unable to see their way and the sun was dimmed. Residents of the city were caught unaware, most of their homes being open because of the balmy weather.

They reported a high north wind, carrying dust into that town at 5:30 a. m. It was impossible to see more than a half a mile. The temperature fell to 50 degrees.

Because of the dust, a steam laundry was shut down temporarily at Borger and employees were sent home. The laundry manager said it was impossible to operate efficiently with so much dust in the air. Later, the dust cloud lifted and operations were resumed.

A 24-mile wind brought the dust storm into Big Spring shortly after sun-up. It was the worst dust of the season and was so thick one could not see more than an eighth of a mile.

Moving swiftly southward, the dust hit Corsicana at 10:20 a. m.

**OKLAHOMA CITY, March 27 (AP)—**New weather dangers doomed for dust-swept Oklahoma today as weather bureau officials predicted strong northerly winds may bring freezing temperatures to the state early tomorrow.

Following unseasonably warm weather Tuesday, when the mercury climbed to a high of 83 degrees, temperatures may drop to a low of 32 to 38 early tomorrow.

Dust clouds continued to blot out the sun but the air is expected to clear during the night when the wind velocity is expected to drop.

It has been estimated there are 327,000,000 cubic miles of water in the oceans of the world.

### HOWE

(Continued from page 1)

Rangers and farmers place their nick upon the barrels and then turn them loose in the teeth of a strong wind and then make records of them when they come rolling back.

The redeeming features of the dust storm are that it divides those who can take it and those who cannot, and that they are not bad for the health. The nerves of the victims were good as their general run of health, there would be much less said about them.

It is a fact that throughout the Panhandle of Texas the Texas folks are healthier and fatter, and dirtier, than they ever have been in their lives.

### Pair Charged with Aiding Hamilton to Flee Federal Trap

WICHITA FALLS, March 27 (AP)—Ralph Smith Fujis and Wilford Royce Lynn, alias Royce Lynn, were under federal indictment today charged with conspiracy to harbor and conceal Raymond Hamilton.

The presentments, returned here yesterday, charged the pair with aiding the death house fugitive at the time of a police ambush from which he barely escaped near McKinney Feb. 24.

Lynn was alleged to have transported Fujis and two automatic rifles from Fujis' home in McKinney Feb. 21 to a meeting with Hamilton. Fujis was alleged to have helped Hamilton shoot his way out of the trap.

### Amarillo Beats Tennis Players And Volley Team

Local high school tennis players and volley ball team lost matches to Amarillo yesterday afternoon in closely contested battles. Miss Kathleen Milam and B. O. Gordon took the tennis to Amarillo.

The local volley ball team lost three and won two games from the Amarillo lasses, classed as one of the best teams in the Panhandle this year.

Daisy Ann Shields, local girls' singles player, lost two heart-breaking sets to Margaret Slaughter, Amarillo ace, 8-6 and 6-4. The Pampa doubles team of Flora Deen Finley and Harriett Hunkapillar lost to the Amarillo girls 8-3 and 6-4.

Roy Webb, Harvester singles player, lost to Sammy Slaughter, a sure fire state contender, 6-1 and 10-8. Tom Rose lost two out of three sets to Amarillo's No. 2 player, Willard Roff and Fred McLaughlin, local doubles team, lost two out of three games to the Amarillo pair.

### ROUND-UP

(Continued from page 1)

pensive floats this year, and there is a likelihood that a dozen will appear on the parade.

Carl Benefiel, manager of the LaNora theater, is chairman of the float committee. Plans to build the floats are being drafted. The queen of the Pre-Centennial parade will ride in the first float of the parade. She will be the woman attending the celebration who has lived in the Panhandle the longest.

John Ketter, chairman of the ticket committee, is planning to have the tickets printed and on sale within 10 days.

**Exhibit Plans**

Bill Gassaway, head of the exhibits committee, has already begun rounding up exhibits for storage. He will ask the merchants in a few days to begin making plans to donate their exhibits in the historical manner. This year, merchants will be asked to try to obtain all sort of antiques for their stores so that visitors will want to visit them. Mr. Gassaway plans to have a spinning wheel in operation in at least one place of business.

T. D. Chesser is making plans to have the towns—the streets and store fronts—dressed up for the event. He is now corresponding with "flag men" for the necessary flag decorations.

Bob Knox and Jack Dunn are drafting plans for the square dances and the Pre-Centennial ball. They announced yesterday that a queen of the Pre-Centennial would probably be crowned at the Pre-Centennial ball. Beauties from all Panhandle towns would participate.

Governor James V. Allred has said that he would like to attend the pageant. A telegram signed by the Jaycees and other civic bodies inviting the governor to open the event has been planned. Otto Studer, lieutenant colonel on the governor's personal staff, will dispatch the telegram to the governor. Arrangements to bring the governor to Pampa by air plane have already been made, it was announced.

A band committee comprising C. T. Hunkapillar, Claude Roberts, L. I. Sorensen and Royce Lynn, will open negotiations to bring numerous bands to the celebration.

Harry Hoare, chairman of the wrestling committee, has started plans to stage a championship wrestling match between nationally-famed grapplers here.

A donkey baseball game which proved so popular here last year will be an attraction here again this year. A baseball game will again be on the program. A. J. Johnson began preparations to match two outstanding baseball teams.

Such are the plans that were drafted this week and which will be carried to conclusion for the celebration.

### Plane Leaves on 3,000-Mile Trip

MIAMI, Fla., March 27—(AP)—Off to blaze a new commercial air route linking the United States and the Orient, the giant Pan American clipper plane left here at 9:15 p. m. (EST) today on a 3,000-mile flight to San Diego, Calif.

The 19-ton flying boat, which recently completed a 2,500-mile non-stop test flight to the Virgin Islands and return, rose from Biscayne Bay and headed southwest to cross the Gulf of Mexico, the Pacific by way of the Isthmus of Tehuantepec to the Mexican port of Acapulco on the Pacific side.

From Miami, the route follows an airline course spanning the Gulf of Mexico, crossing to the Pacific by way of the Isthmus of Tehuantepec to the Mexican port of Acapulco on the Pacific side.

### CHICAGO TABLE

CHICAGO, Mar. 27. (AP)—Wheat closed narrow, 1 1/2-1 3/4 above yesterday's finish. May 95 1/4, corn 1-1 1/4 up. May 79 1/4, oats 3 1/2 to 1 cents advanced, and provisions showing 10 to 15 cents gain.

### All Ex-Service Men Invited to Bonus Meeting

Every ex-service man in this community was urged to attend a meeting of the American Legion tonight at 8 o'clock at the Legion hall, when the Patton bonus bill will be discussed.

A resolution addressed to National Commander Belgrano to support the bonus bill now pending in congress probably will be considered. Local Legionnaires said that the purpose of the meeting was to ascertain the attitude of ex-service men of this section on the bonus. Similar meetings are being held over the nation.

### HITLER

(Continued from page 1)

ject to revision at any time and that one of his first aims is the reunion of East Prussia with the rest of Germany eliminating Pomorania.

He said he was displeased with the way so many Germans have lived under Czech rule and that he feels their return to the protection of the fatherland must be accomplished in the not far distant future.

The economic union with Austria was not placed among Hitler's first demands. It was said, but it was also stated that he emphasized it as one of the most important necessities of Germany.

Hitler informed the British Mission, according to this high source, that Germany needs an air force equal to that of Great Britain or France on account of the sudden increase of air strength in all other powers in Europe.

He was said, however, not to fear any other force so much as that of Russia and said that Germany may at some time have to exceed the size of the forces of Great Britain or France in case Russia adds much more to its military air power.

These demands, except the naval point, were regarded by shocked British officials as a new thunder-bolt in the perplexing European situation. Sir John and his fellow envoys, Capt. Anthony Eden, Lord Privy Seal, were believed to have been unprepared for such sweeping demands and officials said the whole tangled relation of continental nations would have to be examined at the tripartite conference at Stresa, next month, between Great Britain, France, and Italy—a conference which was described as all-important.

### Judging Teams to Er'er Contests at Tech on Monday

Poultry, dairy, and livestock judging teams of Pampa high school will go to Lubbock next Sunday to take part in the contest at Texas Tech Monday.

Prof. J. L. Lester, coach of the teams, plans to take twelve boys.

Prof. R. C. Mowery of Tech is general superintendent of the contests.

### Former Resident Passes in Dallas

News of the death of George L. Byrd, former Pampa resident, in a Dallas hospital yesterday, was received by friends here today. While in Pampa, Mr. Byrd operated a plastering construction company.

He is survived by a daughter, Mrs. Oliver Wright of Amarillo, and a son, Vernon Byrd, of Dallas. He will be buried by the side of his wife in Greenville.

Have your snos fitted at Kees & Thomas. (Adv.)

### COURT RECORD

Gray county's jail, well filled with a variety of offenders, will be closely watched by local officers. A flood-light has been installed on the exterior so that cruising officers can cast a glance at the jail at frequent intervals at night. Several inmates are of the kind which would not hesitate to "saw the jail down" if they had the opportunity.

Some of those in jail have not been charged but will be soon. Steady investigations have resulted in arrest of many persons wanted by the sheriff, but in some cases one or more wanted men remain at large.

Lee Trimble, Elmer (Buck) Aaron, and William J. (Jack) Jordan have been charged with entering the house of Charles E. Cooke at McLean, March 14.

Elmer (Buck) Aaron, Ralph (Tex) Wade have been charged with taking a 1928 Oakland coupe from O. H. McDonald of Pampa, February 28.

Lee Trimble, Elmer (Buck) Aaron, William J. (Jack) Jordan have been charged with entering the house of J. A. Worley at LePors March 14.

These complaints involve a series of burglaries at McLean and LePors, which included the railroad stations, garage, and a hijacking. Other burglaries about the same time are being investigated. Small amounts of money were obtained in most instances.

A complaint of car theft has been filed against Harry Bert Hedrick, who is alleged to have taken Dr. M. C. Overton's Buick sedan. The car was recovered.

The sheriff's department also filed a cattle theft complaint against Mabry Good, who is alleged to have taken a calf from the Red Brewer place.

### LEE fine HATS

When buying a hat it usually pays to look at it from your wife's point of view!

LEWINE'S PRICESTALK "PAMPA'S BUSIEST DEPARTMENT STORE"

**10 WAYS - the new FORD V-8 truck will save you money...**

- 80 H. P., V-8 ENGINE**  
Gives V-8 cylinder performance with the fuel economy of a "4." New crankcase ventilation gives greater oil economy.
- 15% GREATER COOLING AREA**  
Core set at 7 degree angle insures high air turbulence through fins at low road speeds.
- FULL-FLOATING REAR AXLE**  
Sturdiest type of construction. Housing carries load, leaving shafts free to drive truck.
- LOW COST ENGINE EXCHANGE PLAN**  
After normal life, your Ford V-8 engine can be exchanged for a factory reconditioned one at less than the cost of ordinary engine overhaul.
- NEW RIB-COOLED BRAKES**  
Cast alloy iron drum, mean fewer adjustments and longer life for brake lining. Quicker and smoother stops with heavy loads.
- NEW HEAVY-DUTY CLUTCH**  
"Centriforce" action has large diameter increases life and reduces pedal pressure 25%.
- FULL TORQUE-TUBE DRIVE**  
Insures positive axle alignment, longer tire wear and better braking, with springs entirely free to support the load.
- COUPE TYPE CAB**  
Insulated and lined. Seat adjustable. All-steel construction. Safety glass at no extra cost.
- FORWARD LOAD DISTRIBUTION**  
Gives longer tire and brake life—less chassis and body strain. More room in the cab and more loading space ahead of the rear axle.
- EXTRA HEAVY-DUTY FRAME**  
Only truck in low-price field with high carbon pressed-steel frame. Full channel depth cross members reduce chassis weaving.

The new Ford V-8 truck is priced to save you money now. More important, it is built to save you money months from now. At the left are a few Ford V-8 truck features that mean lower operating cost, greater efficiency, freedom from costly lay-ups. See this new truck at your Ford dealer's. Test its performance and economy under your own loads and with your own driver.
