DEMO LEADER URGES TAX-THE-RICH DRIVE

Judge Orders Waley's Wife To Plead Not Guilty

GOVERNOR TRAMPS DESERT IN TOURIST SEARCH

ARMY PLANES TO CONTINUE MEXICO HUNT

QUICK COMPLETION OF SEARCH SOUGHT BY TINGLEY

SOCORRO, N. M., June 22 (AP)—Army airplanes will sweep over thousands of acres of swamp and desert lands in the search for four missing Illinois tourists, Governor Clyde Tingley announced tonight.

The chief executive made a request today for the assistance of the planes after the hunt he led through central and southern New Mexico failed.

The commanding officer of Fort Bliss, Texas, advised the governor tonight he said that an unannounced number of planes will begin the aerial search tomorrow.

Governor Tingley urged after tramping for miles as the leader of almost 100 men who searched highways, arroyos and vast segments of the cactus studded desert between Vaughn and Socorro, was determined there shall be a quick completion of the hunt he started.

Before he took personal command of the national guardsmen and volunteers who made up the posse, he said New Mexico was jealous of its reputation for protecting its guests and he would not be satisfied until he had learned the fate of Mr. and Mrs. George Lorus and Mr. and Mrs. Albert Heberer of East St. Louis, Ill.

Meanwhile, Gen. R. C. Charlton, New Mexico adjutant general, investigated a report that a man who deserted a transient camp at Gallup might have some information concerning the disappearance of the Illinois couples.

One of the spots Governor Tingley hoped to have searched by air was near the Rio Grande at San Marcial. Fourteen national guardsmen went into that area today but marshes prevented them from reaching the stream. In addition there is a heavy growth of willow trees which authorities said would make an ideal place in which to hide evidence of a crime.

Court Sustains Plainview Move In Utility Case

LUBBOCK, June 22. (AP)—Motion of the city of Plainview to deny to the Texas Utilities company, Lubbock, a temporary restraining order to prevent it from entering into a contract to build a municipal light plant, was sustained by Judge James C. Wilson in United States district court here Saturday.

In an oral decision, in which he reviewed the decisions supporting their respective positions, Judge Wilson said the city was within its legal right in seeking to borrow money from PWA.

C. G. Crenshaw, of Bledsoe, Crenshaw and Threese, attorneys for the company, late today had not decided whether the decision would be appealed to the fifth circuit court of appeals at New Orleans. Col. George H. Carter, Marlin attorney and a director of Community Power and Light company, sat with counsel in the trial.

C. S. Williams, Plainview city attorney, prepared the order for Judge Wilson to sign. The judge was expected to give the plaintiff time to prepare a bill of exceptions and notice of appeal.

Doomed

Sentenced to hang Sept. 13 in Muskogee, Okla., federal jail, Arthur Gooch, above, Okmulgee butcher, will be the first person in the U. S. to die for kidnaping under the Lindbergh law, if clemency efforts fail. Gooch was convicted in Durant, Okla., of abducting two Park, Tex., officers, whom he took into Oklahoma.

1936 CAMPAIGN SEEN BROADEST SINCE SLAVERY

Prospect Intensified By Share Wealth Proposal

WASHINGTON, June 22. (AP)—Members of congress seemed the end of their busiest week to night with a presidential campaign on the broadest grounds since slavery days is taking shape.

If there was doubt before, three days' reflection over the long range Roosevelt wealth tax program tempered it.

It was indicative today when Senator Long (D., La.) promised "every atom of support" if the administration pushes this latest proposal. He epitomized the sentiments of some of his colleagues with the title of his senate speech, derived from the French revolution: "No enemies to the left."

Representative Snell, the republican leader, put the views of many into words, too, when he commented "that share-the-wealth suggestion was purely a political move."

Repeatedly President Roosevelt has sought to depict the administration as above purely partisan considerations. A question now is whether he envisions a campaign next year based on "the new deal against the old parties as such."

His climactic message Wednesday evinced determination to battle for new deal objectives by constitutional amendments, should that be necessary. Supreme court rulings in the October session are necessary. Supreme court rulings in the fall.

France Wins Aid Of Great Britain

By The Associated Press

Friendly words marked the parting of Premier Pierre Laval of France and Capt. Anthony Eden of Great Britain in Paris yesterday, but some obvious political coolness remained.

Eden left for Rome to discuss naval, air and possibly Ethiopian matters with Benito Mussolini, leaving him British pledge to continue helping France in building the intricate system of peace pacts she wants to guarantee her against war.

TEXANS SEEK TO GET FETE FUND QUICKLY

\$3,000,000 IS VOTED BY CONGRESS FOR CENTENNIAL

WASHINGTON, June 22. (AP)—Texas members of congress, happy over quick house passage of their resolution authorizing a \$3,000,000 appropriation for the Texas Centennial next year, sought today the quickest way of making the money actually available.

Representative Johnson (D., Tex.) suggested that the legislation be made an amendment to the second omnibus bill in the senate but Chairman Buchanan (D., Tex.) of the house appropriations committee expressed fear the latter bill might be delayed in conference and planned to insist on more direct action. He was uncertain, however, what that would be.

Buchanan declined to say what amount of money his committee might appropriate for the state-wide celebration commemorating Texas' one-hundredth anniversary of its independence from Mexico, or what detailed allocations would be made. Under terms of an amendment the house accepted yesterday just before passing the resolution, the committee could earmark a part of the fund for a Texas museum at the state capitol in Austin.

Johnson said an estimated \$300,000 of construction for this building had been submitted to him. Should this be approved, Buchanan said he understood the American Legion in Texas, which has asked for the museum, and private interests would make liberal donations so that at least part of the building could be ready for the exposition which will start early in the summer of 1936.

The next major step in the campaign to have \$3,000,000 set aside for the celebration will be a conference of house and senate members over differences in the resolutions each passed. The house ordered Vice-President Garner made a member of a commission composed also of Secretaries Hull, Wallace and Roper, to administer the expenditure of house and senate money over differences in the resolutions each passed. Johnson predicted the senate would accept the changes quickly.

The three or four-member general commission would be given wide discretion in the method of spending the appropriation, being authorized to contract with the Texas commission of control, in charge of the state-wide exposition, and the Texas Central Centennial corporation, the private agency organized to manage the central celebration in Dallas.

SUSPECTS HELD

NOCONA, June 22. (AP)—Sheriff H. T. Chandler of Montague county said today he was holding two men and a woman in connection with an extortion attempt in which kidnapping of an adopted daughter of Mrs. Birdie Rich of Belcherville, seven miles west of here, was threatened.

Local Boy Shot in Leg Accidentally

Sam Moot, 12-year-old son of Mr. and Mrs. Carl W. Moot, was taken to Pampa-Jarratt hospital Friday afternoon for treatment of a gunshot wound in the calf of his left leg. The youngster and a brother were playing with an "empty" .22 caliber rifle when it was accidentally discharged.

G-Women To Be Added by Hoover

WASHINGTON, June 22. (AP)—Although there are no "G-women" in the federal bureau of investigation, Director J. Edgar Hoover today said this was a possibility if the present field force of 600 investigators "ever is expanded to 1,500 or 2,000 operators."

As to the ancient axiom that women cannot keep secrets—important in present operations of the "G-men"—the bachelor director insisted "that has nothing to do with it."

"We now have a comparatively small, militant force that must move to every part of the country in every strata of life on almost instant notice," Hoover said. "That's why we had to use all men."

"So far as integrity and ability are concerned there is not a minute's doubt that women could qualify as agents. Certain women probably are in the bureau now."

NOTABLES TO ATTEND YOUNG DEMO BANQUET

Action on a Controversial Question Expected Next Tuesday Night at Hotel.

Definite action on a controversial question was promised by President John Ketter for the Young Democrats banquet to be held in the Schneider Hotel Tuesday evening.

"Can't tell you more now," Ketter said, "but those attending will think July Fourth is here right now. There will be fireworks."

Principal speaker for the evening will be Judge Ewing, who will be introduced by John Osburn, toastmaster. L. McCarty, state president of the organization will attend; and District President Futrell from Amarillo. About 25 out-of-town visitors are expected, including several members of the Amarillo club.

Several resolutions concerning a controversy of national importance were drawn up by the executive council in a meeting Friday night, and these will be introduced at the banquet for approval of West Texas members and supporters.

Attendance is not limited to members, and while they last, tickets may be purchased by those interested in good government from any member of the organization.

The banquet will not be confined to members, and tickets are on sale by members and at Harvester Drug and Patheer Corner Drug to anyone interested in good government and eligible to become a member. Advance sale of tickets has been favorable and it is predicted that between 150 and 200 will attend.

Swimming Class Will Be Taught At Three O'Clock

An adult swimming class will be taught daily, beginning at 3 o'clock each afternoon, by Otto Love, swimming instructor, at the city pool. The first instruction will be given tomorrow afternoon. No fee, except admission price to the pool, will be charged. The class will be the answer to pleas of many people who could not take the instruction which starts at 6 o'clock.

Monday is also the last day in which swimmers may enroll in the life saving course taught by Harry Kelley. All persons who wish to take the course in junior and senior life-saving are urged to enroll at the pool Monday.

A large crowd is expected at the pool today if the weather is anything like favorable. Water was changed yesterday. The water is changed once every week.

Loving at Controls When Airplane Cracked up

merce in Washington. The NEWS has asked for a copy of the report. Keenan and a friend, Pat Loving from Wellington, were flying in a monoplane when it fell in a wheat field a mile north of Pampa. Keenan was killed instantly and Loving died in a local hospital a few hours later. Loving's body was sent to Wellington for burial.

It was learned yesterday that Loving, and not Keenan, was at the controls when the plane crashed. Cause of the accident will probably never be definitely known, although Monte Keenan, twin brother of the Pampa aviator, said that in his opinion the accident was due to the fact that the wings of the ship had been lengthened and that the ailerons had not been extended, thus causing the ship to be sluggish.

The ship was said to have been

GUILTY PLEA OF DEFENDANT DENIED AGAIN

TRIAL DATE OF WOMAN TO BE SET MONDAY BY JUDGE

TACOMA, Wash., June 22. (AP)—Another fearful attempt by Margaret Waley to plead guilty to the \$200,000 George Weyerhaeuser kidnaping was blocked today after her attorney expressed belief she could not be convicted.

"In my opinion," said Stephen J. O'Brien, appointed by the court to defend the 19-year-old wife of kidnaper Harmon M. Waley, "she could not be convicted if she went to trial. I think a trial would be the best thing, after talking to her husband."

Sobbing and unkempt, the remorseful young woman, whose husband pleaded guilty to "Lindbergh law" violation yesterday and was sentenced to 45 years imprisonment, was denied permission to plead similarly by Federal Judge E. E. Cushman.

The judge announced a date would be set Monday for Mrs. Waley's trial, on the same charge in which her husband was sentenced. Without her swagging, gum-chewing ex-convict husband whose last word in court was a plea in her behalf, the girl-wife seemed lost.

Her eyes were red and puffed and tears still rolled down her unpowdered, "mangled" cheeks.

Without her swagging, gum-chewing ex-convict husband whose last word in court was a plea in her behalf, the girl-wife seemed lost.

Outside of court, O'Brien said Mrs. Waley had refused to plead not guilty because she feared her husband and gene he wanted her to "take the rap" with him.

Judge Cushman asked O'Brien to say whether Mrs. Waley assisted in transporting the 9-year-old boy across a state line, a violation of the Lindbergh law.

O'Brien said it was his opinion she had not.

Said Judge Cushman: "From statements made yesterday by Mr. O'Brien and the co-defendant Waley, with the apparent approval of this defendant, the court finds the defendant stands mute and dreads the entry of a plea of not guilty."

As Mrs. Waley was returned to jail at Olympia, her 24-year-old husband was at McNeil Island Federal penitentiary, where he was taken after last night.

Mrs. L. B. Autry and daughter, Phyllis, are spending a month with relatives near Dallas.

A Rare June Day—a la Oregon!

After glancing at this scene, folks sweating in summer heat will agree that the poet should have written, "What is so rare as a day in June—in Oregon!" To these men, trying valiantly to drive a

path through a 40-foot snowdrift to open the MacKenzie Pass highway, it's a lot of hard work. But hot weather sufferers generally wouldn't mind swapping with them.

Safety Campaign Is Big Success--Pampans Praised

7,000 Vehicles Are Inspected; City Advertised

The amazing total of 7,000 motor vehicles were inspected here last week in the safety lane campaign, described by state highway patrolmen as the most satisfactory they have made in the Panhandle "or anywhere else."

"On the whole, Pampa has the most courteous and most helpful citizens, as far as removing traffic hazards is concerned, we have never encountered," said Patrolman R. E. Routh.

The inspections began last Wednesday and closed yesterday noon. OK stickers were pasted on windshields of all vehicles which had satisfactory brakes, and which could stop within 45 feet while traveling at the rate of 20 miles per hour.

A total of 550 tickets were given drivers of cars which had defective brakes. All but about 25 of that number had their brakes repaired and were given stickers before the inspections closed. Stickers can be obtained from A. B. Johnson, city traffic officer, at the police station by those who were given tickets, and by others who wish to have the OK sticker on their windshields. Those who were given tickets were urged to have their brakes repaired as quickly as possible and then to report at the police station.

Pampa received valuable and successful results from the campaign.

LONG'S DARE IS ACCEPTED BY ROBINSON

FEAR MAJOR UPRISING IN DEMOCRATIC RANKS

WASHINGTON, June 22. (AP)—To avoid putting business under a cloud of "uncertainty" for the long interim between this and the next session of congress, Senator Robinson, the democratic leader, today advocated enactment of President Roosevelt's new tax-the-rich proposals now, even though it prolonged the session indefinitely.

This pronouncement, coming as somewhat of a surprise, was delivered to newspapermen after a brief Saturday session in which Senator Long (D-La.) challenged the president to push a bill immediately to "break up concentration of big fortunes." Standing outside the chamber Robinson asserted it would "leave the country in a state of uncertainty" to have the tax proposals hang over until next winter without action.

Emphasizing he was expressing his own views and they did not reflect the results of any administration conferences, he added:

"It is my personal impression that the subject matter of the present session should be treated separately from the pending tax resolution, but I'm disposed to take it up during the present session and dispose of it."

Announcement Expected Earlier, democratic leaders had announced they expected President Roosevelt to inform them, when he returns from New England next week, whether he wanted the tax proposals put through before adjournment.

Chairman Harrison (D-Miss) of the Finance committee had indicated the tax program would go over until next session. He said the modified house resolution extending for one year from June 30 about \$500,000,000 of nuisance and excise levies would be called up in the senate Monday after disposition of the Bushong farm tenant aid bill.

What effect Robinson's stand would have on the plans of Senator LaFollette (Prog-Wis) to tack his inheritance and corporation tax amendments onto the house resolution was not known. LaFollette went out of the city yesterday he obtained the signatures of 22 senators to a statement expressing willingness to remain in Washington until the administration tax proposals could be enacted.

Long's tax talk, and the reading of a lengthy letter from him to the president, took up much of the senate's day. Sharply differentiating between his own share-the-wealth views and those of the president, he shouted to the senate:

"Let's have a bill; let's have a bill, either from the president or somebody else."

Revolt Signs Appear WASHINGTON, June 22. (AP)—News signs of undercover dissatisfaction with several new deal measures arose today, leaving some congressmen privately to express fears of a major uprising in democratic ranks unless the session ends soon or different tactics are adopted.

Concrete evidence of the discontent included the 22 senators who signed the petition for action before adjournment on share-the-wealth taxes were democrats, some of whom expressed "off-the-record" fears that the president's advocacy of the taxes might have been only a political move.

Disclosure that an actual majority of house members had opposed the Wagner labor disputes bill, which was passed without a roll call.

The fact that members of the house were openly expressing doubts of the constitutionality of the Guffey coal bill, which is on the president's "must" list.

A private poll in the house indicated a substantial majority against abolition of all "unnecessary" utilities holding companies, despite presidential pressure to swing things the other way.

Wagner Bill Vote Because of the share-the-wealth taxes petition, senate leaders weigh in.

PRODUCTION IS STILL STEADY IN INDUSTRY

ACTION IN STEEL AND MOTORS FEATURES NEWS OF WEEK

BY EADER WINGET Associated Press Financial Writer Industry and business throughout the nation last week huddled the burdens of economic uncertainties and the seasonal summer slump.

In major industrial and production fields there were slight recessions in some lines where wider losses had been expected, and in other lines there were substantial gains, a condition summed up in the declaration by economists that production is surprisingly steady.

Retailers were made gloomy by rain and cool weather in the mid-continent area and in some east coast sections, but definite losses reported high. Some saw an end of the impasse in buying which resulted from uncertainties following the death of the old NRA.

Industrial news of the week was featured by action in steel and motors. Operations in the steel industry fell 0.7 per cent of capacity, a reduction which was less than expected at this time. Because of the small recessions in output in recent weeks, informed commentators assert there should be no sharp drop in mid-summer as has been experienced in previous years.

Shoot Scheduled At Rifle Range

Two targets of the Pampa Rifle club will be ready this afternoon and shooting over the 200-yard range will begin at 2 o'clock. The targets were placed in order last Sunday by a few members who responded to a call by President V. F. Hobart.

Amunition will be issued holders of 1935 paid dues at the range this afternoon. No one will be given ammunition who has not paid dues for this year.

Those interested in "Gofort" shooting should meet at the range early and install the targets.

A "Memel semester", with special lectures on Memel, has been established at the University of Kaunas, Lithuania, due to the students' intense interest in this former German territory.

MARKET BRIEFS

NEW YORK, June 22. (AP)—Favorable trade winds, and other optimistic breezes, bid share prices generally higher in active trading on the New York Stock Exchange today.

Brokers circles said investors and traders shifted their gaze from the Washington scene to reports from the business and industrial front, most of which provided some incentive for the purchase of equities. The Associated Press average of 60 stocks again registered a new 1935 high.

Wall street was impressed with the steady pace of automobile production reported by Cram's. Output for the week ended today was estimated at 90,561 units compared with 90,768 a week ago and 70,330 a year ago.

Those in a bullish mood were given a prod by the report of the Federal Reserve board which said national income this spring was the largest of any since 1931. Important gains in various industries were also cited.

Port gains in the first six months cited in a survey by Dun & Bradstreet included shipments of steel, drugs, automobiles, machinery and electrical and farm products. This trend brought encouragement to Wall streeters who have long stressed the need of revived foreign demand for American products.

Measured by the Associated Press average, the market rose 5 of a point to 45.2 Sales totaled 787,070 shares.

Steadiness prevailed in the bond market with firmness rather pronounced among medium-priced rails and utilities.

CHICAGO GRAIN

CHICAGO, June 22. (AP)—Abrupt changes to much improved conditions for domestic wheat harvesting and for general crop progress of cereals gave a downward tendency to grain prices today.

As a result of bright skies and rising temperatures throughout the entire United States agricultural belt, with forecasts of continued like conditions, a general selling movement got under way in all the grain pits, and was only offset in part later by strength of securities.

Wheat closed unstable, 1/4-1/2 cents under yesterday's finish. Sept. 80%-1% corn unchanged to 1/4 lower. Sept. 75-75 1/2, oats 1/4-1/2 off, and provisions varying from 2 cents decline to 5 cent gain.

Giving considerable added impetus to downwardness, wheat prices were estimated to have a five story decline from 4 to 6 points above Friday's final prices.

Better cables from abroad, where Liverpool was reported to be holding steady in the face of light offerings was largely responsible for firm tone that held through until the end of trading.

Light trade buying and some short covering for over the week ended tended to keep prices up and July ended at 11.50, Oct. at 11.24, Dec. at 11.27 and Jan. at 11.29.

Traders say little activity is looked for in the futures business until the government comes out and makes a definite statement regarding the 12-cent loan.

KANSAS CITY LIVESTOCK

KANSAS CITY, June 22. (AP)—(U. S. D. A.)—Cattle prices at midwestern markets during the week under review continued to sag. Sharp declines were enforced on Monday and Tuesday, while on closing sessions there was a slight reaction due to meager supplies. Compared with a week ago, killing classes of cattle are weak to unevenly lower, most markets reporting losses of 50 or more on the better grades of medium weight and heavy steers. Prime matured steers in Chicago reached 13.00 but the practical top was 12.25 and best yearlings went at 11.65.

Common to medium grass steers cashed from 5.35-7.90, some of common grades off Kansas grass at 6.25. Stocker and feeder classes were in seasonally light supply with feeders around 25 lower and stockers steady to easier. Aggregate receipts at 11 markets totaled around 133,200 against 157,745 last week and 217,297 the corresponding period a year ago.

Spring lambs and yearlings at Chicago ruled 15-25 lower, but at river markets spring lambs were 25-50 higher and yearlings held steady. Values on sheep were most-

ly steady. Best spring lambs at Chicago cleared at 8.75. The week's supply approximating 191,500 was 74,000 short of last week and about the same as a year ago. Total offerings of hogs for the week were around 176,400 as compared with 175,728 last week and 323,455 a year ago. Current quotations are unevenly 15-40 lower than last Saturday, strong weight butchers generally showing more decline than the lighter weights. Chicago had a closing top of 9.75.

NEW ORLEANS COTTON

NEW ORLEANS, June 22. (AP)—A steady and featureless week ended on the cotton market today as futures finished the two hour session from 4 to 6 points above Friday's final prices.

Better cables from abroad, where Liverpool was reported to be holding steady in the face of light offerings was largely responsible for firm tone that held through until the end of trading.

Light trade buying and some short covering for over the week ended tended to keep prices up and July ended at 11.50, Oct. at 11.24, Dec. at 11.27 and Jan. at 11.29.

Traders say little activity is looked for in the futures business until the government comes out and makes a definite statement regarding the 12-cent loan.

WASHINGTON, June 22. (AP)—Police tonight dug into mysterious circumstances surrounding a five story plunge which left Mrs. Luella English, 28 wife of an officer of the Byrd Antarctic expedition, near death in a Washington hospital.

They questioned Harold Wayne Starr, former NRA attorney regarding his story that he had been called to the English apartment a short while before by Mrs. English, who asked for information on the divorce laws of the District of Columbia. They also were curious about four .38 calibre pistol cartridges found in his pocket.

In the apartment, police reported they found evidences of a scuffle, an empty whiskey bottle and one partly filled. At the same time, an employee of the Italian embassy, Clifford W. Brown, said he saw Mrs. English crawl out from the window sill onto a ledge as though trying to reach the next window, when she lost her grip and fell.

Brown also told police he saw the head and shoulders of a man in the window as Mrs. English fell.

BIGNESS IN BUSINESS STIRS LEGAL AND BUSINESS THOUGHT

BY CLAUDE A. JAGGER, Associated Press Financial Editor. NEW YORK, June 22. (AP)—How big is too big?

This question is re-echoing once more through the canyons of Wall Street, as President Roosevelt has proposed increased tax rates on the largest corporations, and eventual elimination of all "unnecessary holding companies through taxation."

It is not a new question. It was posed in vigorous language by Supreme Court Justice Louis D. Brandeis, then writing as a Boston lawyer, back in the days before the World war.

It was heard less frequently in the "new era" boom days of 1924-29, when a merger was a signal for a big runup in the stock market. Then bigness seemed a virtue, rather than a "curse," as Brandeis described it.

Writing on the "Curse of Bigness" in 1913, in his book, "Other People's Money and How the Bankers Use It," Justice Brandeis scored "the mistaken belief that efficiency grows with size."

He asked: "How can the leading bankers, necessarily engrossed in the problems of their vast private business, get time to know and correlate the facts concerning so many other complex businesses?"

He recalled the story that as the last one necessary to put the steel industry on a large scale into the hands of men who do not know anything about it.

But Wall Street does not give up easily. Bankers recall many an effort at bigness that went bad, many a merger that was over-capitalized, many a too ambitious financing scheme. Yet they point out, this mass production era has made bigness essential in many lines.

They assert that many of the most efficient manufacturing and distributing organizations the world has seen, putting new products in the hands of the consumer at the lowest prices, were put together in Wall Street.

Florists have found too much moisture will cause lilies to wither and die.

CANADIAN IS PREPARING FOR FOURTH RODEO

FIRST ONE PRODUCED THIRTEEN YEARS AGO

CANADIAN, June 22.—With the advent of summer holidays, that typical cowboy yell "ride 'em cowboys" will again re-echo thru the hushed dust of rodeo corrals at Anville Park manor where the 13th annual presentation will be held July 3, 4, and 5. The rodeo, which has developed into an institution of national interest, is the Olympic games of western life and traditions, deciding championships in all branches of cowboy artistry.

The rodeo is an outgrowth of the cowboy contests held during the early days of the cattle industry for whenever cowboys from different ranches met there were bound to be disputes, concerning the relative abilities of the champion cow hands, so these sports were held to settle a prominent part of the big round-ups.

The possibilities of the rodeo as a source of public entertainment in the Panhandle was first realized 13 years ago when a committee produced the first Anville Park rodeo. Canada has staged this contest annually for thirteen years, each meeting lasting three days, in order to secure the right talent, and have time to work off the awards, with the admissions constituting the purse.

This rodeo requires a large investment, the principal portion going for the purchase of livestock, including bucking horses and cattle. These horses become more valuable in proportion to their desire to buck. The majority of them have a strong natural desire to buck. A number of the horses used in the Anville Park rodeo have never been ridden, and it is possible that they will not be ridden this year.

The prize list is distributed among a number of events as "day" and "final" money, the principal events being bronc riding, steer riding, bulldogging and calf roping.

This sport is operated under rules the same as any other outdoor activity. Every chance is given the animal, and it is very rare that an injury occurs on the part of a rider. Bronc-riders still use their spurs in traditional manner, but tape now covers the sharp spurs preventing any injury from that source.

While steer wrestling was not originally a part of the cowboy's range duties, it has entered into rodeo

PAMPA Home of our city

Court of Honor.
The monthly court of honor for Boy Scouts will be conducted at Scout headquarters in the city hall Monday evening at 8. Boys and their parents are invited. It was announced from the office of Scout Executive C. A. Clark.

Returns From Conference.
Bob Surratt returned last evening from Lubbock, where he attended an Episcopal young people's conference at Seaman hall the past week. He was on the stunt night program, entertaining with sleight-of-hand tricks.

Water Disinfected.
Water in the wading pool in Central park will be chlorinated twice daily and changed three times a week. City Manager C. L. Stine said yesterday after a test of the water had been made. The wading pool, constructed by the Rotary club, is popular with the youngsters.

Two Cars Damaged.
Two cars were damaged, neither badly, in a crash at the intersection of Somerville and Kingsmill streets this morning. The front of one car was crushed and the rear fender and bumper of the other car damaged. One man received a slight cut on his face.

Former Pampa Dies.
Mrs. E. A. Gorenflo, former long-time resident of Gray county, died recently at her home in Van Nuys, Calif. Friends here have been informed. Death came after a long illness. Mrs. Gorenflo was 68 years of age.

Earl Roff returned last night from a business trip to Dallas and Fort Worth.

competition for 20 years. Bill Pickett, a negro cowpuncher of the 101 ranch originated the idea when he mounted the horns of an obstinate steer that could not be handled otherwise. Eventually white men mastered Pickett's feat, and this branch of contests became increasingly popular.

Riding the wild Brahma steers is probably the most dangerous part of the rodeo competition as these long horned animals, originally descendants of the Zebu cattle of India, are probably the meanest and wickedest bovine on four feet.

Lonnie S. Jones of Richmond, Va. possesses a copy of the Maryland Journal, printed in 1773, which contains an advertisement by George Washington, offering to lease his lands in Ohio.

CASTLE SEEKS REVENGE ON MYSTERY MAN

KANSAS CITY TORNADO TO TACKLE MASKED MARVEL TUESDAY

Bob Castle, the Kansas City tornado, will get his second chance at the undefeated Masked Marvel here on Tuesday night when the two tangle in the main event of Promoter J. B. Garrison's wrestling show at Road runner park.

The two gladiators of the mat met once before, with the Marvel winning the third and deciding fall when he was able to crawl back into the ring, leaving the Missouri wind on the floor from a fall. Since that time, Castle has been begging for a return engagement and he is getting it here.

The Masked Marvel is a great wrestler. He appeared here once before, but the night was so cold that he was unable to get going. However, he was able to defeat Salter Watkins and send the guy into retirement. The Marvel asked for a return engagement in Pampa so that he can show fans his true self.

Known as the Iron Man, Jack Demar will meet Red Michael, Pampa boy, in the semi-final. Michael became a great favorite with Pampa fans when he downed Tony Piuso in a finish match. On Friday night, Michael reached the top of his form by winning a finish match from Ernie Arthur, veteran French-Canadian. The two have been meeting on semi-finals with neither gaining a decision. The finish match went to Michael in a sensational third fall.

Little is known of Demar excepting that he has been taking all corners in the east. He has terrific power in his arms and legs, which he uses to subdue his opponents. Pampa fans believe Michael will be fast enough to keep away from the strong man.

Promptly at 8:30 o'clock, Andy Dowler and Curly Lewis will climb into the ring. The two have a grudge to settle.

Reserve and box seat tickets are going fast at Pampa Drug No. 1.

An invention to prevent railroad collisions provides for tracks on the car roofs, sloping down at each end to care for dangers fore and aft.

A total of \$86,000,000.00 of life insurance now is in force in the United States, according to John K. Magee of Los Angeles, president of the Life Underwriters association.

New Comet Seen By Astronomers

WILLIAMS BAY, Wis., June 22. (AP)—Astronomical sights were trained tonight on a strange new visitor in southeastern skies, declared by Prof. Otto Struve, director of Yerkes observatory, to be a tailless comet. "It's a comet all right," said Dr. Struve, "and probably has never been seen before. Its discovery was attributed to us Thursday night after it was first observed by Cyril Jackson of Johannesburg, South Africa.

Then one of our astronomers, Philip Keenan, got two photographs of it— one Thursday and one last night with the 24-inch telescope.

"Another observation will be necessary before the direction of its path around the sun can be determined.

"We can't say yet how long it will be in our skies a few weeks or a few years.

"It is not visible to the naked

Yale Administrators Crushing Defeat To Crimson Crew

NEW LONDON, Conn., June 22. (AP)—In comparative solitude, eight husky young men of Yale today towed Harvard into the worst defeat the Crimson has suffered in the last 41 years of their 83-year-old regatta.

Yale won by a dozen lengths or more, a stretch so wide that floundering Harvard, paced by a stroke, Ed Simmons of Baltimore who never set a varsity beat before, was almost lost in the ruck of hundreds of yachts and pleasure craft. This fleet stayed over despite last evening's postponement because of the rough water on the Thames.

Plans have been completed for construction of a 600-room hotel in Tokyo to cost 10,000,000 yen.

MALONE FUNERAL HOME BUYS AN ELABORATE NEW '35 AMBULANCE

The only 1935 model exclusive ambulance in the Panhandle is en route to Pampa and will be placed in service by the G. C. Malone Funeral home. The custom-built Oldsmobile eight-cylinder ambulance is being driven here from Freeport, Ill., by Charlie Johnson. It should be in use by Wednesday, G. C. Malone announced yesterday.

Equipped with every convenience, the new ambulance is of Coronado tan color with black trimmings. It is upholstered in genuine leather, for sanitary efficiency, will have an aluminum cot with hood, first aid kit fully equipped, two attendants' seats, and shatter-proof glass throughout. Specially constructed safety wheels are part of the equipment.

To add to its riding comfort, double hydraulic shock absorbers have been installed both front and rear. The brakes are super hydraulic, safest and most efficient made.

With the arrival of the new Oldsmobile ambulance, the G. C. Malone Funeral home will have it and a Paekard combination ambulance and funeral car and a Studebaker ambulance and funeral car.

Card playing is a popular pastime in Burma where the United States, Belgium and Japan are the leading suppliers of cards.

Richard Winters, 13-year-old McCullough county, Texas, 4-H club member, made a net profit of \$937.79 in seven months by feeding 24 Hereford calves.

We Have Joined the Big Swing to HUDSON and TERRAPLANE

TRAVIS MOTOR COMPANY
308 West Foster Ave.
Now Representing Hudson-Built Cars in PAMPA and Vicinity

"No wonder you chose Hudson and Terraplane to sell!" That's what our friends are telling us as soon as they try these 1935 Hudson-built cars.

Here are some of the features that made us decide that these cars—above all others—offer most of what this year's buyers want in a car. Come in and see these features for yourself. Drive these cars. Compare them with what other cars offer. Special showing all this week.

America's Only Bodies All of Steel—Floors, sills, pillars, doors and seats of solid steel. Only Hudson-built cars give you this complete protection.

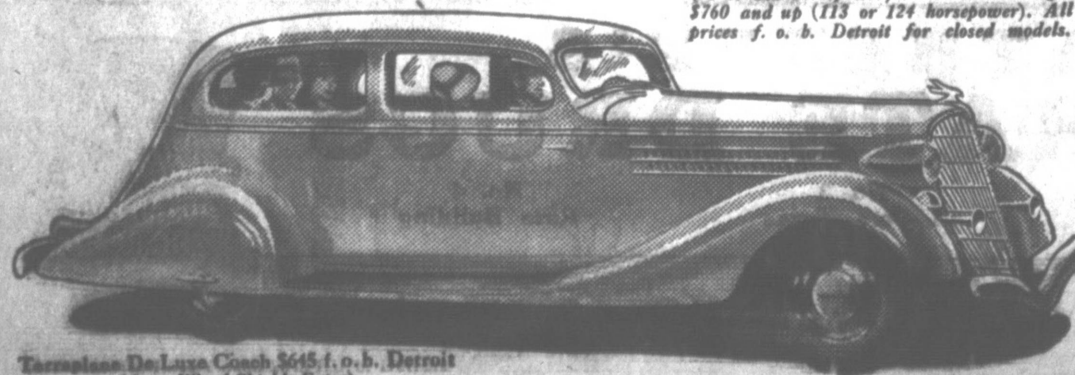

Rotary-Equalized Brakes!—They always STOP you safely, in a short, straight line. Tests by Detroit police proved that Hudson-built cars stop 40% faster than police require for perfect stopping.

Record-Breaking Performance and Ruggedness!—In February, a Hudson stock car at Daytona Beach added seven new official performance records to the scores already held by Hudson-built cars. Ruggedness proved as no other cars ever proved it—in

the recent 175,000-mile Ruggedness Run. More of Everything!—Balanced riding... more power from less gasoline... oil economy doubled... up-to-the-minute streamlined style that will stay in style... extra wide seats with plenty of leg room... and...

THE ELECTRIC HAND
The year's only basic mechanical improvement. Easier, safer driving. Smoother, faster gear shifting without taking a hand from the wheel! Standard on Hudson Custom Eights; optional at small extra cost on all other 1935 Hudsons and Terraplanes.

AND LOOK AT THE PRICES! \$585 and up for Hudson-built Terraplane (88 or 100 horsepower) ... Hudson Six \$695 and up (93 or 100 horsepower) ... Hudson Eight \$760 and up (113 or 124 horsepower). All prices f. o. b. Detroit for closed models.

Terraplane DeLuxe Coach \$645 f. o. b. Detroit (Rear Wheel Steer Extra)

Jesse Owens Wins Applause And 4 Events At Berkeley

Southern California Track Team Is Victor

EDWARDS STADIUM, BERKELEY, Calif., June 22. (AP)—University of Southern California's powerful track and field team won the 1935 national collegiate A. A. team championship today by Jesse Owens, 11th, brown negro youth from Ohio state, won the thunderous applause of 18,000 fans.

In the most amazing list of individual performances ever witnessed in the Far West, Owens took first place in the 100 and 220 yard dashes, the 220 yard low hurdles and the broad jump. His efforts alone amounted for forty of the 401-5 points scored by Ohio state to take second place. Southern California had 75-1-3.

Surveilling members of a 23-man team, after yesterday's trials, accounted largely for U. S. C.'s total through secondary strength. The Trojans won only two first places, Ken Carpenter taking the discus with 137 feet 11-4 inches and Earl Meadows and Bill Sifton tying for pole vault laurels at 14 feet 11-8 inches.

The two sprints, heralded "the races of the year" developed into a one-man affair for first place. Owens won the hundred in 9.8 seconds and the furlong in 21.5, unexciting when compared to his recent world record tying dash of 9.4 for the former and his record bettering run in the 220.

Owens' biggest test came in the 220 yard low hurdles where he faced the defending champion, Glen Hardin of Louisiana State. Owens led after the half way mark and was clocked in 28.4 seconds. Hardin, who holds the NCAA record of 27.7 and has bettered the accepted world's record with a time of 22.4 was second, two yards behind.

Owens clinched the broad jump yesterday in the trials with a leap of 26 feet 3-8 inches. His nearest rival, Al Olson of Southern California, jumped 25 feet 8-7-8 inches today for second position.

The meet saw the downfall of such great stars as Hardin, Ray Sears of Butler, Dick Bauer of the U. S. Military Academy, Vincent Murphy of Notre Dame and Charles Beetham of Ohio State.

Bauer finished up with the stragglers in the mile run while Sears, the pre-race favorite, dropped out near the end. Both have bettered by several seconds the time of 3:19.1 with which Archie San Romani of Emporia (Kansas) Teachers, won it. Sears also failed to place in the two mile.

in the National
NEW YORK, June 22. (AP)—The Giants shelled Jim Weaver and Walte Hoyt for 14 hits and won the second game of a doubleheader today 7 to 3 after Pittsburgh had taken the opener 5 to 4 on Gus Suh's eleventh inning homer.

Score by innings: R H E
Pittsburgh . . . 000 102 010-5 10 1
New York . . . 000 010 030 00-4 10 1
Birkhofer, Pezzullo, Hoyt and Padden; Hubble, Al Smith and Danzing.

Cardinals Take Top
PHILADELPHIA, June 22. (AP)—The champion Cardinals won both ends of a doubleheader with the Phillies today, 9 to 3 and 10 to 9. Ripper Collins hit his thirteenth and fourteenth homers to take the National league lead.

Cubs Take Pair
BOSTON, June 22. (AP)—Although outhit in both games, the Chicago Cubs today won a doubleheader from the Boston Braves 7 to 4, and 5 to 3.

Home Runs Galore
CLEVELAND, June 22. (AP)—A twelve hit attack, including home runs by Hal Trusky, Bruce Campbell, Averill and O'Dell Hale, enabled the Indians to trounce the league leading Yankees 12 to 6. Trusky's homer was his twelfth of the season. Lou Gehrig hit his ninth for the Yanks.

Red Sox Win
CHICAGO, June 22. (AP)—With a homer and a double, Roy Johnson drove in four runs in the late innings today to give the Boston Red Sox a 7 to 5 victory over the White Sox in the opening game of their series. The defeat dropped the Chicagoans back to third place.

Browns Big Day
ST. LOUIS, June 22. (AP)—The Browns had a field day at bat today and defeated the Philadelphia Athletics 11 to 3 in the opening game of their series here. Charley Berry and Julius Solters knocked home runs.

Construction work has begun on Garner State park, 25 miles north of Uvalde, Tex., home town of Vice President Garner.

Road Runners Schedule 10 Games

The Road Runners have 10 ball games scheduled in advance. Opposing teams and where and when the games will be played follow:
June 24—Road Runners versus Huber Blackfaces at Phillips park, Berger, night game.
June 25—Phillips 66 Oilers of Berger here, night game.
June 26—Colfax of LeFors here, night game.
June 30—Road Runners versus Phillips 66 Oilers at Berger, day game.
July 1—Huber Blackfaces of Berger here, night game.
July 3—Halliburton Cement company of Duncan, Okla., here, night game.
July 4—Halliburton Cement of Duncan here, day game.
July 4—Halliburton Cement of Duncan here, night game (9:15 o'clock).
July 7—Road Runners versus Colfax of LeFors at Shaw park, day game.
July 14—Road Runners versus Amarillo Shamrocks at Metro park, day game.

HARRY TODD WINS TEXAS GOLF CROWN, BEATING MCGONAGILL

By BILL PARKER
DALLAS, June 22. (AP)—Harry Todd of the Dallas Lakewood Country club shot 29 holes in four over par today to win the 29th annual Texas Golf association championship by defeating James McGonagill of Dallas, 8 and 7.
Not once during the match did McGonagill have an advantage. He lost the first hole to a par four and his morning round of 41-40-81 against Todd's well played 36-37-73, left McGonagill 7 down at the turn.
Todd, Dallas City and Western Junior open champion, succeeded Reynolds Smith, club-mate, to the Texas amateur crown. McGonagill eliminated Smith in yesterday's semifinals, 2 and 1.
What was expected to develop into a subpar battle between two youthful fairway aces proved an absolute landslide for Todd who out-drove, out-approached and out-putted McGonagill who recently won the tri-state title.

TEN TWO I GAMES SCHEDULED TO BE PLAYED THIS AFTERNOON

Ten baseball games will be played in the Two I league this afternoon. The games will be at various locations between LeFors and White Deer.
Standing of teams in the Two I league going into the third round of games this afternoon follows:
Club—
Indians 2 0
Shell 2 0
Laketon 2 0
Sinclair-Prairie 2 0
Coltux Carbon 1 9
Magic City 1 0
Hopkins 1 1
Kingsmill 1 1
Cargray 1 1
Hoover 1 1
Stanolind 1 1
Western Carbon 1 1

in the American

DETROIT, June 22. (AP)—The Detroit Tigers climbed back into the pennant running today, taking both ends of a double header from the Washington Senators. Alvin Crowder shut out the Senators in the first game, 7 to 0. The decision in the nightcap was 10 to 9.

What GAS Will Do
A Gas Company has figured out that 1,000 cubic feet of gas will: Cook 18 meals for 16 persons, heat shaving for 1,000 days, roast sufficient coffee to make two cups daily for 70 years, light two cigars a day for 500 years, boil 275 gallons of water, bake 1700 three-quarter pound loaves of bread in a continuous oven, do the work of two hens in hatching eggs, broil 70 three-lb. steaks, barbecue enough ham to make 1750 sandwiches.

HOME RUNS GALORE
CLEVELAND, June 22. (AP)—A twelve hit attack, including home runs by Hal Trusky, Bruce Campbell, Averill and O'Dell Hale, enabled the Indians to trounce the league leading Yankees 12 to 6. Trusky's homer was his twelfth of the season. Lou Gehrig hit his ninth for the Yanks.

RED SOX WIN
CHICAGO, June 22. (AP)—With a homer and a double, Roy Johnson drove in four runs in the late innings today to give the Boston Red Sox a 7 to 5 victory over the White Sox in the opening game of their series. The defeat dropped the Chicagoans back to third place.

BROWNS BIG DAY
ST. LOUIS, June 22. (AP)—The Browns had a field day at bat today and defeated the Philadelphia Athletics 11 to 3 in the opening game of their series here. Charley Berry and Julius Solters knocked home runs.

Construction work has begun on Garner State park, 25 miles north of Uvalde, Tex., home town of Vice President Garner.

ROAD RUNNERS ARE DEFEATED BY ENID 6-5

Inability to get safe hits with men on bases lost the Road Runners a baseball game Friday night when the Enid Oilers of Enid, Okla., staved off a late Pampa rally to win 6 to 5. An error and some costly base running helped the visitors maintain their lead.
Enid opened the scoring in the first inning by getting to Lee Daney for three hits and three runs. McNabb walked and went to second on a fielders choice when Scaling failed to get McNabb at second. Each singles to fill the bases. Colcher, big Enid first baseman, then hit one over Seitz's head in centerfield that went for two bases. McNabb and Urban scored but Eash was caught at the plate. Honeycutt filed out, but Seaton singled back of first base to score Clocher. Gilchrist filed out.

PAMPANS CHALK UP 12 HITS TO SEVEN FOR OILERS

The Road Runners scored in the opening stanza. Brickell opened with a sharp single through short. Seitz doubled to center, but was caught when he tried to stretch it into a triple. The next two batters went out.
The visitors added two more runs in the second inning. Bennett, diminutive catcher, doubled. Clowers went out. McNabb walked for the second time. Another incomplete play at second let Urban get on base for the second time on a fielders choice. Bennett scored on a passed ball, the decision being doubtful. McNabb crossed the plate when Eash went out, second to first. Colcher walked but Honeycutt went out.
The Road Runners put across a pair of counters in the fifth. Daney opened the inning by fanning. Brickell followed with a walk. Seitz was safe on an error. Scaling then hit a double to score Brickell. Seitz drawing up at third. With Nell at bat, the catcher let a ball get away from him and Seitz started for home. He was nipped at the plate. Nell singled to score Scaling, but was forced at second by Patton.
Enid scored what proved to be the winning run in their half of the fifth when, with two out, George Neill forced him to second. Patton fanned and George ended the game by forcing Nell.

Allison Reaches Final Round of Queen's Tourney

LONDON, June 22. (AP)—As a prelude to the classic Wimbledon championships, starting Monday, American's No. 1 singles player, Wilmer Allison, completed a week of competition today by sharing the honors in two divisions of play in the Queen's club tournament.
Allison reached the final round of the men's singles, along with David Jones of New York, and paired with Helen Jacobs. American women's titleholder, to gain the mixed doubles final. The deciding matches in both events, however, were abandoned, as a result of delays caused by bad weather and the proximity of Wimbledon. The names of all finalists will be inscribed on the trophies.
Allison disposed of his young Davis cup team-mate, Donald Budge of Oakland, Calif., 10-8, 6-3, while Germany, 2-6, 6-0, 6-3, in the singles semi-finals.

GORDON NELL HITS 3 HOME RUNS IN TILT

Gordon Nell hit three consecutive home runs, and a double, to lead the Road Runners to a 13 to 5 victory over the Enid Oilers of Enid, Okla., here last night. Enid won the opening game 6 to 5. The same two teams will meet at Road Runner park at 3 o'clock this afternoon in the "rubber" game of the series.
The Road Runners jumped on Bednar and Perry for 15 bingles while Enid got 10-blows off Joe Berry, who pitched nice ball after allowing four runs and six hits in the first three innings.
All the distance hitting didn't go to Nell, however. Manager Freddy Brickell jumped on the second ball pitched by Bednar and sent it sailing over the left centerfield fence. Colcher and Beason hit for the circuit for the visitors.
Berry had eight strikeouts and didn't walk a batter. Bednar started for Enid but lasted only until the third inning when 12 Road Runners went to bat and six crossed the plate. Perry finished the game, but was hit hard.
Nell doubled on his first trip to the plate, scoring Seitz who had singled. On his next three trips, Nell poled the ball out of the park. He fanned in the eighth inning to end the Road Runner scoring.
McNabb, Colcher, Beason and Bennett, each collected a pair for the visitors.
Enid 121 000 001-5 10 3
Pampa 306 010 21x-13 15 3
Eateries: Bednar, Perry and Bennett. Berry and Horton.

Black Helen Is Winner of Derby

CHICAGO, June 22. (AP)—Black Helen, queen of the American turf, owned by Col. Edward R. Bradley of Lexington, Ky., thrilled 25,000 spectators at Washington park today when she led from start to finish to win the \$25,000 added American derby.
She ran the mile and a quarter over the treacherous track to defeat Count Arthur by a half length. Lexington, Ky., was third, a length and a half back of Count Arthur. Bloodroot, running companion to Black Helen, was fourth.
Floundering back in fifth place came Roman Soldier.
Black Helen won \$25,025 for owner Bradley.

Nothing beats BUICK "40" performance

THE finest of all Buick engineering builds into the Buick "40" the finest of performance. Not just the performance of power and speed and pick-up. You can get that almost anywhere. Buick offers you the kind of performance which engineering produces by perfect balance of weight and power and braking. It gives you an ease and surety of action unsurpassed today. In it there is performance of riding, with Buick's engineering balance of weight and springing, and with Knee-Action engineered and built by Buick for Buick. Out of all these emerges a new kind of performance to turn all your motoring from mere transportation into luxury and ease. Take out a Buick "40" and try it, remembering all the while that it is a genuine Buick at the lowest price ever put on a Buick.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

What GAS Will Do

A Gas Company has figured out that 1,000 cubic feet of gas will: Cook 18 meals for 16 persons, heat shaving for 1,000 days, roast sufficient coffee to make two cups daily for 70 years, light two cigars a day for 500 years, boil 275 gallons of water, bake 1700 three-quarter pound loaves of bread in a continuous oven, do the work of two hens in hatching eggs, broil 70 three-lb. steaks, barbecue enough ham to make 1750 sandwiches.

PLANE CRASH

(Continued from page 1) motor, which had been repaired since the ship was licensed the last time. The Keenans purchased the ship in Oklahoma and Monte Keenan flew it to Pampa a few weeks ago. Monte Keenan will continue to operate the Keenan Brothers Flying school here. He is also an experienced pilot, mechanic and radio mechanic. Funeral services for Tommy Keenan were conducted at 4 o'clock yesterday afternoon in the First Baptist church with the Rev. C. E. Lancaster, pastor, officiating. Burial followed in Fairview cemetery, in

charge of the G. C. Malone Funeral home. Surviving Mr. Keenan are his wife of a few days, his father, C. F. Keenan of Alhambra, Calif., three sisters, Miss Jewell Keenan, Memphis, Mrs. O. E. Frederick, Shawnee, Okla., and Mrs. Ed Fitzgerald, Oklahoma City, and two brothers, Monte, Pampa, and Archer, Lancaster, Cal.

Pallbearers were R. G. Allen, Carl Benefiel, G. J. Johnson, Lewis Tarpley, V. A. Howell and Bert A. Howell. Flowers were in charge of Mrs. Bert A. Howell, Mrs. Montgomery, Miss Evelyn Tackwell, Miss Ruby Tackwell and Miss Inez Snuggs.

HUEY LONG

(Continued from page 1) ed their previous decision to put through the omnibus tax extension measure without considering the new levies. They decided to put the question directly to the president.

On the house side, it was learned that before the Wagner bill was taken up, a private poll of the 319 democrats showed 58 "noes" and 101 non-committal.

It took the most strenuous efforts by new deal chiefs to prevent a roll call on that bill which, they said privately today, would have defeated the measure. Because of the situation, renewed efforts were being made to expedite the legislation on the "must" program. Committee delays and parliamentary routine made it necessary for house leaders to change their plans for next week.

Instead of taking up Monday the bill amending powers of the Tennessee valley authority, they arranged to spend Monday on District of Columbia bills, their schedule then was to call up Tuesday the ship subsidy bill, and follow that with utilities or TVA, whichever was ready first.

ELECTION

(Continued from page 1)

October session are expected more than ever to point the way. One amendment to ban tax-exempt bonds, is already proposed for immediate submission.

Decrying the trend, republican leaders contend with growing vehemence that the American system itself is at stake.

"Our nation is again at the cross ways," Chairman Henry P. Fletcher of the G. O. P. told a West Virginia audience. "The election next year will be one of the most important ever held since the adoption and ratification of the constitution."

DISCOVERY WINS RACE NEW YORK, June 22. (AP)—Tackling another world's mark to a record that already boasts the best time for one and three-sixteenths miles, Alfred G. Vanderbilt's Discovery, beaten off in five previous King Saxon, ace the miles, and Omaha, king of the three-year olds, in the one and one-eighth miles of the Brooklyn handicap at Aqueduct today.

Mr. and Mrs. Pat Garrison were Berger visitors Friday afternoon.

Pampans Fly to Tulsa and Back

R. G. Allen, Ned Billings and Dee Graham returned Friday afternoon from Tulsa, Okla., in Mr. Graham's Lycoming-powered Stinson monoplane. The party flew to Tulsa on business Wednesday afternoon.

Pampa airport was visited on Wednesday by a Boeing P-26A army pursuit low-wing monoplane piloted by Lieut. George Cassidy, stationed at Barksdale field, Shreveport, La. Lieut. Cassidy came here to visit his sister, Mrs. Boyd Kennedy and Mr. Kennedy, well known pilot now living in Pampa.

B. B. Root of the Bridgeport Machine company of Wichita, Kan., visited the Pampa headquarters last week, flying here in his Waco cabin bi-plane, piloted by A. G. Larsen.

Illness Fatal To Mrs. Miller

Mrs. Charlie Miller, 67, died late Friday night at her home on East Malone street. She had been ill for the past month. The family had resided here eight years.

Surviving Mrs. Miller are her husband and one sister, Mrs. Mary Porter of Pampa.

Funeral services will be conducted at 2 o'clock this afternoon in the chapel of the Pampa Mortuary with the Rev. C. E. Lancaster, pastor of the First Baptist church, officiating. Burial will be in Fairview cemetery.

'Dive of Death' Fatal to Woman

CHARLOTTE, Pa., June 22. (AP)—As hundreds of hushed children watched blond Vera Senior was killed under the "big top" this afternoon doing her "dive of death."

The youngsters, out in force for the "kiddie performance," watched the slim woman in silken tights mount to her 75 foot perch, fasten a pulley on a wire which slanted at an angle to the earth, and then grip the pulley in her teeth.

As the performer, veteran of 20 years on the high wires, shot from her perch, the taut wire suddenly sagged and she dropped about 165 feet to the ground. Her body was crushed.

'My Friend,' Says Long of President

WASHINGTON, June 22. (AP)—Senator Long (D-La.), bitter opponent of the administration, described President Roosevelt to the senate today as "my friend."

"Anyone who does you no harm is your friend," he said. "They've tried to do me harm but they haven't succeeded."

In a letter to the executive read earlier to the senate, promising support for a redistribution of wealth program, Long signed it "your sincere friend."

He thanked the president for "courtesies heretofore or hereafter granted."

SURVEY PLANNED

AUSTIN, June 22. (AP)—Governor Alfred announced today an extensive survey would be made to coordinate public and private initiative and rejuvenate Texas industries.

Joe T. Green was aie to leave Pampa-Jarratt hospital yesterday.

CAMPAIGN

(Continued from page 1)

prising advertising as a result of the inspections. Vehicles from many other Texas towns and from many states went through the safety lanes. Stickers were placed on cars from West Virginia, Georgia, Pennsylvania, Oklahoma, Kansas, California, New Mexico, Arkansas, Louisiana, Colorado and other states. Patrolmen quoted the drivers of out-of-state cars as being highly pleased that the stickers were placed on their cars. At the request of local automobile dealers, stickers were placed on new cars not yet sold.

Patrolmen who made the inspections were Mr. Routh, O. K. Huddleston, Childress; Boyce Long, E. C. White, Amarillo; W. E. Renfro, Jack Reeves, Lubbock; Johnson and J. R. McKinley of Pampa; L. P. Duval, Ft. Worth; A. J. Hindman and Eckard, all of Pampa. Behind the scene and on the ground was Don Conley of the Cabot company who induced the Junior Chamber of Commerce to sponsor the inspections, and who worked as hard and long as the patrolmen to save the campaign a success. Mr. Conley is chairman of the city traffic safety committee. That the patrolmen worked like trojans during the three days they were here was evidenced in the fact that several of the cars had numerous blisters on their fenders.

The patrolmen based issuance of the stickers on the condition of brakes, but they inspected lights, windshields, horns, and other safety devices on vehicles at the same time the three-day checkup revealed that there were more faulty lighting systems on cars than defective brakes. They found many one-eyed cars, cars without tail-lights. However, the campaign had a fine effect on drivers who had good brakes but who had defective lights.

On cars on Cuyler street which had one head-light while on the previous night, many "one-eyed" cars were found.

Drivers of vehicles which have cloudy windshields were urged to have them replaced. They will then be given new stickers at the police station.

Pampans Praised

The patrolmen were high in their praise of the cooperation they found here. The 7,000 inspection were above any made in any town of this size. They reported that traveling sadstems, and people who travel a lot, were most anxious to have their brakes tested and to get the sticker. They checked up and found that all Pampa physicians received the sticker. Dr. R. M. Bellamy, locally active in first aid work, was the first physician to drive through the lane.

Some amusing, some near-tragic incidents that happened in the lanes were remembered yesterday by the patrolmen. They started to leave for Lubbock where they will inspect cars next week. Yesterday morning, a collision almost resulted when a car almost without any brakes couldn't stop in the lane.

A large gasoline truck was found to have defective brakes. The patrolmen were particularly concerned when a motorist "who was so hard-boiled looking he might have just eaten a bale of barbed wire" entered the lane. "Brother," said he, "I hope you get every blink one of them. A fellow with no brakes tore up a car for me recently!"

Patrolmen Courteous

All civic clubs cooperated in making the campaign a success; so did oil companies whose officials insisted that their employees have their machines tested. One of the first companies to report 100 per cent inspections was the Cabot company.

Pampa people on the whole were

COURT HOUSE NOTES

Chief of Police Art Hurst and John Sturgeon, city attorney, returned Friday night from Greenville with two prisoners, wanted here on charges of car theft. The two Pampans, and their prisoners encountered torrential rains and had to be towed with trucks in places between Greenville and Dallas.

The chief and attorney went to Greenville on Thursday with warrants for the arrest of H. J. Long with alias, H. J. Norris, alias H. J. Morris, and Nora Ward on the charges of theft of an automobile. The pair are charged in connection with the taking of a car owned by the Tex Evans Buick company. It was wrecked near Hedley.

Car registrations of last week included: Frank J. Gill, Ford tudor; Mrs. Sant-Irwin, Chevrolet coupe; B. B. Palmer, Chevrolet coach; R. F. Montgomery, Chevrolet sedan; E. C. Hart, Chevrolet sedan; J. O. Landre, Buick coupe; Roy McMuray, Ford sedan; J. M. Patton, Ford tudor.

A marriage license was issued Friday to W. E. Davis and Elsie Stewart.

Trial of Helen Minyard on a charge of driving a car while intoxicated resulted in a hung jury when Judge W. R. Ewing excused the jury yesterday morning. The case went to the jury following a night session. Judge Ewing set the case for re-hearing some time this week. Criminal cases will be on call Monday morning. Judge Ewing announced yesterday.

The 31st district grand jury will not resume deliberations until Thursday morning unless called sooner by Judge W. R. Ewing.

CLIPPER RETURNS

ALAMEDA, Calif., June 22. (AP)—Completing its fourth flight between Hawaii and California, the Pan American Airways' pioneering clipper seaplane came in "blind" today—ending an easy conquest of headwinds and clouds over a 2,400 mile stretch of the Pacific.

IN THE TEXAS LEAGUE

DALLAS, June 22. (AP)—The Dallas Steers, making the most of the three hits they got off Joe Gibbs, blanked the Galveston Buccaneers, 2 to 0, in the second game of a Texas league series here tonight.

It was a mound duel from start to finish between Gibbs and Al Baker. Baker allowed five hits while Gibbs was holding the Steers to three, but the herd hurler had almost perfect support.

ALIENS

(Continued from page 1)

can be filled by a citizen," he said. "It is about the same legislation as the alien deportation laws enforced in England, France, Germany and Italy, to reduce unemployment."

"If there were no aliens in this country we would not have an unemployment problem," he continued, "because there were around 16,500,000 foreign born in this country, more than seven million of whom have not been naturalized."

VOTE ASSURED

WASHINGTON, June 22. (AP)—A debate limiting agreement assuring a vote early next week on the billion dollar Bankhead farm tenant bill came today in the midst of discussion which brought from democratic leader Robinson the assertion that "revolutionary" results were not to be expected from the measure.

STILL IN AIR

MERIDIAN, Miss., June 22. (AP)—With their plane, the "Ole Miss," functioning perfectly after 19 day of continuous flight, Al and Frank Key, Meridian aviators, today soared toward a new world airplane endurance record. The fliers passed their 435th hour of sustained flight today at 3:30 p. m. (CST) and must stay up until next Thursday to equal the recognized world record of 553 hours, 41 minutes and 30 seconds.

Mrs. G. Taylor Cole of LeFors was a Pampa shopper Saturday.

Miss Bertha Baggerman was admitted to Pampa-Jarratt hospital for treatment Friday night.

BEWITCHING

A lovely arm adorned with a smart Gruen Baguette From \$24.50 up

Dignified Credit "A Gift from McCarley's Means More!" McGARLEY'S "Jewelry of Integrity"

God's little gift to women isn't always tall, dark and handsome. Sometimes it's a more practical blessing, as, for instance, a washing machine. And none could be more welcome than that new Maytag you'll see at Bert Curry's, 111 W. Kingsmill. The aluminum tub, the improved roller water remover, and the gyrlator with sediment trap are some of the reasons why.

Cured ham added to a pot pie or meat loaf lends a distinctive flavor.

"Dusty shoes" need not be "pounding the street again" looking for a house, if you'll just call John Bradley, phone 672, in the Combs-Worley building. He has just the house you want, six rooms, modern, with garage and servants quarters. Nice location, too, and grounds that you'll enjoy. It's on North Somerville.

If people wouldn't try to show how much they know, they wouldn't show how much they don't.

"Hall hall! and sure enough here comes all the gang to get their hall insurance. And goodness knows they need it, what with the kind of weather this Panhandle produces. Of course they're coming to the M. P. Downs Agency in the Combs-Worley building, phone 336, where they'll get the best in all kinds of insurance.

A moon, to poets souls enthrall And make them say, "A golden ball Gone swimming in a midnight sea!" A yellow grapefruit is, to me!

A chip off the old block is just the thing, if it's a potato chip from Hamlet's, 110 N. Cuyler. These delicious, crunchy morsels are home-made, sold direct to the consumer. Try some with your next picnic or Dutch lunch. You get a BIG sackful for 10 cents, or a huge amount for 25 cents.

"Flies in your soup" may be more than just a slang expression if you don't see about having those door and window screens fixed. Now is

SCRAMMEZ VOUS! This is a Woman's Column!

the time to have your repairs done. Call the Panhandle Lumber company, 420 W. Foster, phone 1000. They'll send you the proper materials and recommend a workman.

And speaking of grapefruit, for your next buffet supper, serve half a one, inverted, and all bristling with olives and pickles on toothpicks.

Watching the curves is important in more than motoring. Now that warmer weather arrives you'll want to leave off that heavy foundation you doled on in the winter, and still keep your slyphsome shape. So go to Jewell's Beauty Shop, 105 W. Foster. Her new reducing machine removes bumps in just the right places.

As ye sew, so shall ye rip. If you let a man pet you, he gets tired if you in the end; if you don't, he gets tired of you in the beginning.

They may not be any relation to that famous lamp of Aladdin's, but it's almost magic the way those new lamps at Mann Furniture company, 406 S. Cuyler, can dress up a room. And they're so reasonable, too. Great big table lamps are only \$1.50, and bridge lamps are \$1.98. They both have real parchment shades.

Even Don Quixote wouldn't fight this windmill. It's the Wincharger of the new Crosley Battery Radio. This radio is operated in connection with a generator that keeps the batteries continually recharged. At a slight additional cost it also provides house lights. Ideal where electricity is not available. You'll see it at the Pampa Glass and Paint company, 115 W. Kingsmill.

To prevent lint on colored linens, wash them separately and rinse through three waters.

Not all preserving is done in a kettle. Sometimes it's the appearance of clothes that's being preserved, and for hot weather motoring the best way is to have your car equipped with cool cloth seat covers from Lee Waggoner's, 301 W. Foster. These tailored matting covers save cleaning and laundry bills, and oh, they're so comfortable.

DEPOSIT INSURANCE AN EXTRA MEASURE OF PROTECTION

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance thus provided applies to all deposits, including personal and corporate deposits, deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is \$5,000. This does not mean that a depositor with an account of, say \$500, is guaranteed \$5,000, but it does mean that his \$500 is fully insured. Deposit insurance is for your protection. It is a permanent part of the Nation's law.

First National Bank In Pampa

ANNOUNCING THE PANHANDLE'S FIRST 1935 Private Ambulance We have purchased one of the finest Private Ambulances that money can buy. It will be ready for service June 25th. We have always featured Private Ambulance Service—not a combination Hearse and Ambulance as is the custom of most Funeral Directors. Our ambulance is built only to convey sick and injured persons. Roosevelt Will Visit Centennial

DALLAS, June 22 (AP)—Walter Cline, general manager of the centennial exposition, announced today that President Franklin D. Roosevelt would come to Dallas in 1936 to visit the Texas Centennial.

Cline, who returned last night from Washington, said he had "positive, personal assurance" from the president that he would attend.

A prediction that the \$3,000,000 federal appropriation for the Centennial would be passed by the house shortly was made by the general manager. The bill has already passed the senate.

\$50,000 ASKED OF CENTENNIAL FOR PANHANDLE

Would Equip Museum And Mark Spots Of History

AUSTIN, June 19 (AP)—L. W. Kemp of Houston, chairman of the Texas Centennial historical advisory board today admonished applicants for allotments from a \$75,000 fund to consider merits of all historical places in presenting requests.

Kemp explained the board intended to get a complete historical picture of all Texas and on that basis apportion the funds on merits of each place.

The fund was provided in a \$30,000,000 Centennial appropriation. Dallas, site of the central exposition, was allotted \$1,000,000 for buildings and \$200,000 for equipment by the bill. Houston and San Antonio, \$250,000 each; publicity, \$50,000; and equipping a museum at the University of Texas, \$225,000. An allocation of \$25,000 was considered for a monument to pioneer women, for which the bill directed a substantial appropriation.

Other members of the historical advisory board participating in the reception of requests were Father Paul J. Folk, professor of history at St. Edwards university, Austin, and Frank Doherty, professor of history at the University of Texas.

Senator W. K. Hopkins of Gonzales applied for an allocation for the "Lexington of Texas" equal to the largest granted any other place. He contended Gonzales' history entitled it to as much as allotted San Antonio or Houston, but said the area would be satisfied if granted the maximum allotted any place.

He refused specifically an heroic monument on the site where the first shot was fired in Texas' war for independence, asserting they wanted "no pagant to blow away with the wind, but something enduring so the world will know our wonderful history."

Limestone county requested \$30,000 for a pagant depicting the history of Fort Parker, from which Indians captured Cynthia Ann Parker. It would start next May 19, the 100th anniversary of the fall of the fort between Mexico and Greasbeck. The delegation also proposed erection of a typical Indian village of a century ago.

Goliad requested \$50,000, of which \$30,000 would be used for erection of a monument to Fannin and his martyred men; \$5,000 for a memorial to Senora Alvez, the "Angel of Goliad"; and \$15,000 for other purposes, including plaques at La Barba mission marking the site.

The Texas Federation of Women's Clubs applied for \$50 for prizes for best pagants on Texas history.

Dr. L. H. Hubbard, president of the Texas state college for women, formerly College of Industrial Arts, requested an allocation for a suitable monument to pioneer women of Texas, to be located on the campus at Denton.

The Panhandle Plains Historical association petitioned for an allocation of \$25,000 to equip a museum at Canyon and \$25,000 to mark historical places in the 32-county district.

KEENAN TO TALK AT MEETING OF TEXAS ATTORNEYS JULY 4

HOUSTON, June 22 (AP)—Joseph B. Keenan, assistant United States attorney general in charge of criminal prosecutions, and Karl Crowley, formerly of Post Worth, solicitor of the United States postoffice department, will be among the principal speakers at the annual convention of the Texas Bar association here July 4-8.

Keenan's address will be on the night of July 4 and Crowley's the morning of July 5. Harvey T. Harrison of Little Rock, famed throughout the south for his deep-dinner talks, will entertain at the annual banquet the night of July 6. O. O. Touchstone of Dallas has been selected as toastmaster.

Governor James V. Allred, William McCraw, attorney general, C. M. Curoton, chief justice of the Texas Supreme court, judges F. L. Hawkins and O. S. Lattimore of the court of criminal appeals, Dean Ira P. Hildebrand of the University of Texas law school and James W. McClendon, presiding judge of the court of civil appeals at Austin, are among the other distinguished persons expected to deliver addresses.

Herman Fipchin of Amarillo, president of the association, estimates that approximately 2,000 attorneys will attend the convention of the association and related groups. The junior bar will meet July 2-3 and the district and county attorneys association and the judicial section of the bar association will hold sessions July 3.

Law enforcement, methods of eliminating undesirable from the legal profession and the question of whether the legislature or courts should prescribe rules of court procedure will be some of the principal topics for discussion. Some action may be taken bearing on the United States Supreme Court's recent decision holding N. R. A. a usurpation of state's rights.

Pipkin said he believed that "90 per cent of the lawyers of this state would take the stamp in support of the Supreme Court against any amendment to the constitution offered in the interest of political expediency."

Greetings to the Texas attorneys from the Mexican bar will be brought by Jorge Vera Estanol of Mexico. D. F., president of the bar organization in the sister republic.

500 Persons To Be in Pageant Of Graham Fete

GRAHAM, June 22 (AP)—Sombros, ten-gallon hats, cowboy boots, and flaming red bandages because the style this week as Graham "went western" to herald the July jubilee and historical exposition.

The change in dress was adopted in obedience to Mayor J. J. Gallaher's proclamation that such will be the official garb of those who reverse the spirit of northwest Texas until after the 3-day celebration, July 4, 5, and 6.

The edict was published at the request of the Graham Junior chamber of commerce, members of which were first to blossom out in the colorful western attire.

Clothing stores searched almost forgotten corners, bootmakers worked overtime and pioneer families dug into closets and iron-bound trunks to provide costumes of the period.

Nearly 500 persons will begin rehearsals soon for the pagant portraying the history of northwest Texas.

Indian depredations, droughts, warfare against cattle rustlers and the rise of law enforcement will be among the reproductions of northwest Texas history.

Performances each night will be climaxed with a panorama of northwest Texas of today.

OIL FOUND IN FURNEAUX WELL; NEW PRODUCING AREA OPENED

WELL LOCATED ON SOUTH SIDE SECOND RIDGE

OIL FLOWS OVER THE CROWN BLOCK IN LAST WEEK

BY GEORGE L. GUTHRIE,
Consulting Geologist, Combs-Worley Bldg.

The Bell Oil & Gas company opened up a new area in the Texas Panhandle when its No. 1 Furneaux on the south side of the second granite ridge made a head and blew over the crown block. The oil is 41 degree corrected gravity and is real live oil. This is a well in the granite wash although a strong show in the dolomite was cased off. The well opens up a new territory which heretofore has never been touched by the bit in Gray county, although it is the same horizon with which the Empire company has had success in Carson county west of the town of White Deer.

The major companies have been paying rentals on acreage in this area for several years. The several tests drilled before on the south side have failed to hit the pay because the majority of them were too high structurally. The Bell company test has not been approached to within 50 feet of structure on either side so that a considerable area is proven and semi-proven by this well. There is no doubt that it is a well in the time, however, it is only drilled to about 3,125 feet and is drilling ahead. There are several new wells promised for the area but the exact locations are being withheld.

COMPLETIONS.
Gray County.

The Bradshaw Oil & Gas company No. 3 Sackett in section 149, block 3, I&GN survey, averaged 369 barrels daily on a 5-day test after it was bottomed at 3,298 feet with the pay from 2,720 feet to the bottom, and shot with 330 quarts.

The Keweenaw Oil & Gas company No. 12 Rest-Smith in section 149, block 3, I&GN survey, averaged 322 barrels daily on a 5-day test, with the oil pay from 3,153 to 3,248 feet which was shot with 400 quarts.

The Mazda Oil company No. 5 Combs-Worley in section 35, block 3, I&GN survey, averaged 524 barrels daily after it was plugged back from 2,968 to 2,958 feet to shut off the bottom hole water.

The Sullock Oil company No. 5-A Morse in section 15, block A-9, H&GN survey, averaged 55 barrels daily on a 5-day test.

The Sun Oil company No. 10-A Combs-Worley in section 35, block 3, I&GN survey, was the best well of the week with an average of 1,325 barrels daily on a 5-day test.

The Texas company No. 5 Short in section 2, block 15, H&GN survey, averaged 219 barrels daily on test with the pay from 2,955 to 2,962 feet.

Hutchinson County.
Crosbie No. 7 Pitts in section 7, block M-21, TCRB survey, averaged 294 barrels daily on a 5-day test.

Al Garvin, 90, of Troy, Kas., still active as a carpenter and contractor, is believed the only surviving member of the guard of honor at Springfield, Ill.

Roll Brim Gives Smart Lines

There's a dashing tilt to this new gray felt hat worn by Betty Furness, the movie star. Black grosgrain edging and bow bring out the smart lines of the zooming rolled brim, a decidedly new detail. (Hat by Meadowbrook, New York.)

SISTER MARY'S KITCHEN

By MARY E. DAGUE
NEA Service Staff Writer

Every bride returns to her dear little nest and faces the big problem of how to pay back her obligations. She owes everybody and the new budget is already strained to the breaking point.

I would advise her to begin her entertaining with a tea. Keep it simple and invite a lot of people so you won't have to worry about everybody having somebody congenial to talk to.

Luncheon is next, and here's a tip. Select your menu to fit your most attractive dishes. For example, if you have some particularly beautiful cream soup plates, let the first course be cream of mushroom soup, serve a salad with rolls for the second course and finish with dessert and coffee. Don't have more than eight or twelve at such an affair.

Keep Dinner Party Small
When it comes to the first dinner party my advice is to keep it small. If you have no help in the kitchen, dinner for four will be easy to handle alone, and there will be no danger of your getting flustered about things. Remember this sort of thing is new to your husband, too, and he's going to be in the limelight.

saucy, serve a plain buttered vegetable. Buttered cauliflower, buttered asparagus or buttered green beans are excellent vegetables to serve with beef.

Mixed Greens for Salad
For a salad nothing can excel a crisp green mixed salad—curly endive, firm head lettuce, tender romaine and watercress. A plain French, Roquefort, cheese or French dressing to which minced parsley, finely chopped red pepper and finely chopped hard cooked eggs have been added are all good to serve with greens.

Ice cream and cake is an easy answer for the dessert, although if you have mastered pie baking, nothing ever makes a greater hit with men.

Here's your dinner menu:
Bouillon
Olives Celery
Larded Filet of Beef
New Potatoes in Cream Sauce
Buttered Asparagus
Salad of Mixed Greens with Roquefort Dressing
Fresh Strawberry Mousse
Sunshine Cake Coffee

Texas high school authorities are in controversy over the 17-year age limit for Texas high school football players, a new resolution of the state interscholastic league.

NATION FARTHER ALONG ROAD TO RECOVERY THAN LAST YEAR

BY RADER WINGET,
Associated Press Financial Writer.

NEW YORK, June 22. (AP)—Evidence that the nation will be further along the road to economic recovery at mid-1935 than a year ago continued to roll in today as preliminary reports were released by business and financial authorities.

In one compilation, two of five major indices for the first six months of this year were ahead of last year, two others were about even, and only one showed a wide loss from 1934.

With partial estimates for the remainder of the first half of this year by Standard Statistics company, automobile production led the parade with 2,249,400 units produced this year against 1,714,400 turned out in the like period of 1934, the best first half showing since 1929.

Electric power production stood high with an output this year of 47,424,000,000 kilowatt hours compared with 45,103,000,000 up to July 1, 1934.

brighter picture was shown by the Associated Press statistics. The average price for 60 stocks as compiled by the Associated Press, stood yesterday at 44 against 43.5 a year ago with rails and utilities showing losses but with industrial shares much higher than a year ago.

In the bond market, foreign obligations, utilities, industrials and low-yield bonds were higher yesterday than a year ago. Railroad obligations were lower.

More than \$1,500,000 was collected at the Laredo, Tex., customs house during the first nine months of the fiscal year 1934-1935, a record for the port.

Ford SERVICE

Ask the folks who own one

During the past few weeks, electric refrigerators have been working day and night to overcome the extreme heat and keep folks comfortable.

While temperatures of a hundred degrees or higher have been registered day after day, electric refrigerators have preserved foods in a temperature of under fifty degrees.

Families who have electric refrigerators have been enjoying the delicious salads, cold meals and desserts which may be made in them. They also know the joy of hard, cold butter, cold drinks and the fresh tasty foods. They would not do without their electric refrigerator.

Why should anyone try to get along without an electric refrigerator? Prices are lower than ever before. Visit your electric refrigerator dealer. The summer has just begun—Many hot days to come.

Southwestern PUBLIC SERVICE Company

Wherever Fords Go... Good Service Awaits Them

WHEN you're behind the wheel of a Ford you enjoy more than good performance—you know that good service awaits you wherever you drive.

Supplementing the universal and highly organized service facilities of Ford Dealers are hundreds of independent garages and repair shops which display the "Genuine Ford Parts" sign. These supply parts which in precision and quality match those originally built into the Ford.

Efficiency is an important feature of Ford service. Uniform methods and uniform tools are used. Ford Dealers' mechanics are factory trained and have at their command such modern equipment as the Ford Laboratory Test Set which eliminates guessing from engine and electrical work.

Low flat rates for parts and repairs and the money-saving Factory Engine Exchange Plan are additional reasons why it pays to own and drive a Ford.

FORD MOTOR COMPANY

Custer City To Stage Rodeo And Roundup, July 4

Indications that Gen. Custer's Annual Roundup and Rodeo program July 3 and 4 at Custer City will draw enormous crowds, including scores from other sections of the state, increase daily, it is stated by officials in charge of the program.

Committees completing arrangements for the two-day rodeo and various other entertainments, report widespread interest. Rodeo fans are coming from all parts of the state and requests for prize lists and detailed information are being received from contestants.

Four bucking chutes, calf and bulldozing pens on the north side of the arena will permit fast handling of the stock so that there will be something going on all of the time. More than seventy-five entries are expected in the various events according to Lynn Beutler, arena director.

The best bucking and dogging stock in the southwest will be used. Brahmas, bucking steers, Mexican dogging steers with long horns and 15 bucking horses recently cut from the top of three of the leading strings of the southwest, now owned by Beutler Bros. of Elk City, will be used. Included are two popular old favorites that have consistently thrown some of the best riders at the leading shows over the county, "Nigger Boy" and "Strawberry Roan". The Beutler stock was recently used in the rodeo at Pampa, in a very successful show attended by 10,000.

Special features are the performance of the educated jumping horses, jumping over a car containing seven people with a lady on top and jumping over a barrier of fire 15 feet high and 3 feet thick.

New grandstand seats are now being completed to take care of seating the large crowds expected to attend the two days. A parade will precede the show, which will start promptly at 2:30 o'clock. Two mammoth loud speakers will announce the show.

Programs are being printed and car posters, placards, and circulars are being given wide distribution. This will be climaxed by a three-day booster trip on June 25, 26, and 27.

This show will be held at the race tracks and rodeo grounds one-half mile west of the city. If you want to see good rodeo performers working with good stock, remember the date and plan to attend.

RNA REORGANIZED
Royal Neighbors of America will meet Friday at 2 p. m. State Supervisor Eva Husky and District Deputy Jessie N. Ross of Amarillo attended a recent meeting and are reorganizing the chapter here. All members are requested to be present Friday.

Sweeping Change in Silver Situation

Thousands of Philadelphians who were accustomed to being paid in crinkly paper bills got the surprise of their lives when they hefted pay envelopes filled with silver dollars, some of the fatter ones weighing ten pounds. Ann Frank is shown sweeping coins out of a truck in which they were hauled to paymasters' offices. The occasion was "Flow of Silver Day," purpose of which was to induce quick spending.

PIONEER SUPER SERVICE STATION IS OPENED HERE BY OLD TIMERS

The Pioneer Super Service station opened for business at the corner of Ballard street and Francis avenue yesterday, handling a complete line of Cities Service products, and equipped with a Cities Service Power Prover, a scientific method of servicing a motor to give utmost power, safety and economy.

The modernistic station was constructed and named by Irv E. Duncan, long-time Pampa resident. The station will be operated by Arthur Kirk and Herbert Kirk, brothers of Mrs. Duncan and lifelong residents of the Panhandle, and Charlie Stowell, longtime Pampa resident. Raymond Kirk will move his electric shop into the building.

Equipped with a Permeated water softening device, all water used for radiators and batteries will be scientifically softened. Washing,

station in the building will give complete electrical service to cars. Amulco driveways have been installed. They are the latest type of service stations and will not become slippery. A large floodlight high over the drive lights the station brighter than day. Modern rest rooms are available.

The Power Prover automatically records inefficiency in automobile performance. For instance, by inserting a perforated pipe in an exhaust, the percentage of carbon monoxide is recorded on an instrument and the percentage of gasoline not being burned is registered. From that stage 22 other tests can be made, each telling where lost motion and power is escaping.

The machine is the only one in West Texas, having been transferred from Amarillo to Pampa. Herbert Kirk, formerly of Amarillo, will be in charge of that department. Mr. and Mrs. Kirk and baby have moved here to make their home. He is a graduate of Texas Tech.

W. S. Fertney of Fort Worth, supervisor for Texas of Cities Service Power Provers, has been here for several days assisting in installing the plant. He was to leave last night.

Arthur Kirk has been in Michigan for several years but has moved here to make his home.

Summer School Half Over.

Mid-term in the summer school now in progress at the high school building was reached this week-end. Two new classes will be started Monday, open to students already enrolled or to others, and offering a half-credit each. They are in algebra 1 and plane geometry 1. The former class will meet from 9 to 12 a. m. daily, and the geometry class from 7:30 to 10:30. Principal R. A. Selby has announced.

St. Matthews Episcopal Church
Invites You To The Preaching Mission (Revival)

Beginning Sunday, June 23, through Sunday, June 30. Heart Music: Gospel Sermons; Christian Fellowship.

WE CONGRATULATE

The Pioneer Service Station on the opening of its new station across from the Telephone Office. We are glad to have furnished new modern equipment for this station.

MISSION OPENS AT EPISCOPAL CHURCH TODAY

Gaither Will Speak; Public Invited This Week

A preaching mission opens today at St. Matthew's Episcopal church, with daily sermons by the Rev. B. W. Gaither, rector in charge. Celebration of holy communion at 9 o'clock this morning will be the first service.

Church school will follow at 9:45, in charge of R. C. Sowder, superintendent. A brief morning prayer service and sermon will start at 11 o'clock. The sermon subject will be, Forward.

This evening's subject is announced as, The Yoke of Christ. All evening services will start at 8 o'clock, and week-day morning meetings will be at 10. Familiar hymns will be an important part of each service, with congregational singing encouraged.

None of the meetings will last more than an hour. Rev. Gaither announced. He invites the public to attend.

Of special interest is the Monday program. The morning talk will be on the Church in Alaska, and the evening lecture on Alaska, the Great Country. The speaker, a former missionary to Alaska, will show curios

made by the Indians there, a trail costume and snowshoes. Further services of the week will be announced Monday. The mission will be concluded next Sunday with sermons by Bishop Cecil Seaman of Amarillo. There will be no services on Saturday.

MAE WEST IS GOIN' TO TOWN IN NEW FILM

PICTURE OPENS TODAY AT THE LA NORA THEATER

Mae West goes modern! And another fashion earth-quake is getting under way. With the appearance of the blond star in Paramount's "Goin' to Town," coming to the La Nora theater, fashion authorities all over the world are preparing to receive the impact of Paramount's blonde star in up-to-date surroundings, modern comedy and streamlined clothes.

Ever since this famous Paramount star revolutionized the style world with her inimitable Gay 90's costumes in "She Done Him Wrong," fashion authorities have wondered of any trend in clothes history has ever had such far-reaching influences.

Even now when Mae West herself is mimicking about the sets of "Goin' to Town" in completely modern and original 1935 costumes, smart models in New York, Paris, and London still include what they call "Mae West models" in each and every collection.

Never in the history of Hollywood have more important style arbiters visited the cinema capital than during the last few months. And, in spite of all the ballyhoo about the "best-dressed woman," every one of these international fashion experts have pleaded for a chance to meet Mae West. One noted London designer frankly admitted that his standing would be twice valuable could he but return to his exclusive salon with the actual acquaintance of Mae West.

Despite the fact that the clothes Miss West is wearing in "Goin' to Town" are modern and suggestive of 1935 they are by no means the sort of fashions which the average woman could ever hope to carry.

They are typically Westian and will do to the current mode just what Mae West did to the "Gay Nineties" costumes.

Actresses have gone "Gay Nineties" before and after Mae's home-run on the field of fashion. And other actresses in Hollywood are wearing striking 1935 fashions right at this moment. But Mae West's styles in "Goin' to Town" are different, amusing, daring, and original for two reasons.

First of all, the story calls for clothes which a woman who desires to attract attention at all times, would wear.

Secondly, Mae West is the woman in these clothes. She puts them over with that whimsical, casual, and infinitely manner with which she does everything—and plenty of everything, incidentally. In this way she will inspire another exciting Mae Westian trend.

Seven leading men, headed by Paul Cavangh, Ivan Lebedeff, and Tito Coral, support Mae West in "Goin' to Town," in which a smart girl uses her line on society and her curves on men with equal success.

Directed by Alexander Hall, the picture features a series of new tunes for Miss West, including "He's a Bad Man" and "Love Is Love."

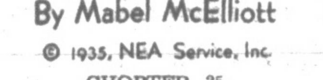

In this scene from Paramount's "Goin' to Town," coming to the La Nora theater, Mae West, the star wears one of the modern gowns on which the eyes of the entire style world are focussed. Gilbert Emery, Tito Coral, and Marjorie Gatenon are the others in the scene.

Summer Sweethearts

CHAPTER 25
Michael said quietly. "Tricked you? No."

"But you did!" Katharine insisted. Her eyes were wide with a sort of horror. "Oh, if you knew you'd do nothing to fear with you like this? You said you wouldn't go unless I went with you."

"Because," the man said with deliberation, "I loved you."

"Ah, that!" She struck one palm against another, as if in fury. "It is a queer sort of love that doesn't trust—isn't open and aboveboard."

"This is," persisted Michael Heathere. "Ah, don't let anything come between us now."

"But why the detectives?" pursued Katharine, in that bewildered tone. "Why should they be looking for you without reason?"

"We can go back," the man said quietly, "and find out what it's all about."

It had been different when she had thought she was racing off with a vagabond, a fugitive. The whole affair had worn a sort of brave air. Now—what could she say to her stepmother, to all the others? She had married Sally McCon's fiancée, Katharine Strykhurst, the girl who inspired a jilt.

"I hate you!" she cried wildly, striking at the hand she had caressed five minutes before.

"No, you don't, Katharine."

She thrust him away. "I do. I swear it."

She was close to tears—perilous, angry, choking tears. But she would not let them come. "What they'll say of me!" she raged. "And it will be true. A fool . . ."

"Does it matter?"

She did not deign to look at him. "Of course it does."

"That, my dear Katharine," said the man beside her, in a cool conversational tone, "is your trouble. You have a picture of yourself as others see you. You are continually altering that picture to suit your audience, living up to it. It's too hard. Snap out of it. Be yourself."

"Oh, oh!" she choked with rage. "How dare you talk like this to me? After all, I—"

The words almost flew out. "After all, I am your wife." But she checked them.

"Because I love you. Don't shake your head. It's true. I've loved you since the first day I saw that mutinous red mouth and those contradictory, cool eyes of yours. I knew you were my girl . . . the only one I'd ever seen and wanted."

Some dangerous softness touched her heart but she steeled it against him.

"Good talk," she scoffed, "but it doesn't mean anything."

"Katharine—darling," he said, "don't be like this. You were so sweet a while back. . . I thought I had never known such sweetness. You were a statue come to life at last."

"I wish I were dead," she choked, in rage. "I'd better be."

What a strange wedding day. The sun had been out, but now the clouds were lowering. Thunder in the air!

"Do you remember," he asked, "the day the rain drove us into the cabin?"

Mutinous she refused to answer. The drawing voice went on. "You were so high and mighty." Michael Heathere said. "I longed to teach you a lesson. Little wildcat!"

"But you didn't," taunted the girl. "You didn't dare."

"That was it," he told her. "I was—afraid of you."

She had kept her eyes resolutely

ahead, but now almost against her will, she whirled and stared at him. The emotion that flared between them was at white heat. . . anger fused with love. Her composure broke. She was in his arms, half sobbing, half-laughing.

"Michael, Michael, why do we quarrel like this? How horrible of us!"

"I don't know. Let's stop it."

She straightened, dabbing at wet eyes with his big handkerchief. "It doesn't matter what you've done. Some power brought us together. But one thing I've got to ask you—"

"What's that?"

"We mustn't announce our marriage now."

His eyes darkened. Quietly he said, "Very well. That's for you to decide."

"If you're sure it's all right for you to go back—and you must be sure, Michael—come along with me now. We'll go on as if nothing had happened. Meantime you can break your engagement with Sally as painlessly as possible. Then we can make plans."

"It would," said Michael thoughtfully, "be easier in some ways. But I don't like it."

"We've got to do it this way," the girl said. "It's the only thing."

She started the car. The air was full of soft, fine blowing dust now. The thunder started, in a long roll. Katharine spoke seldom during the drive. Once she allowed her hand to slip into Michael's lean one, and at a spotlight her eyes sought his. He smiled. What a cool, restrained creature this girl was! The man who won her love and confidence could be proud of himself.

"Tips will have said I went off with you," she said once, musingly, during the drive.

But Michael said Tips was far too clever for that. "He can play dumb as beautifully as anyone you ever knew," he said. "Tips won't know a thing."

The miles flew by. The rain pelted down wildly, a storm of drops against the windshield. Brown puddles gathered along the road. There was an oak leaf pasted against the glass—Michael had to reach out and brush it off. The afternoon darkened. The afternoon of her wedding day. Did ever any girl have a stranger one?

Her mind was confused. Could Michael be sure these men meant no ill to him? He seemed so confident. Was it bravado? She could not tell. She was conscious, at the very core of her being, of a sick feeling of apprehension. She would have so much to explain to Bertine—to her father. And she was a

poor liar. Would some local correspondent for a New York paper pick up her name from that obscure town? You could never tell . . .

No good to worry, sang the tires; no good to worry. For better, for worse she had taken this man beside her. Fate had been too strong for them both.

Innbrook's church spires came into view below a rise of drenched woodland. The pin oaks on the old Rogers place swept in the wind, like curtsying maidens in dark green draperies, as the little car drew up. There was no one about.

"Goodbye, Michael—dear."

He was out of the car, standing hatless in the rain beside her.

"Goodby, my darling."

She gave one swift look about. She slipped the ring from her finger.

"Look, Michael, you must keep this for me. I dare not."

Prowning a little, he slipped the ring into the pocket of his coat. "I wish you needn't take it off."

Her glance flew to the porch. The two men she had seen in the village, now hatless, apparently at home, were emerging from the screened doorway.

"There they are, Michael," it seemed to her they could hear the wild pounding of her heart. "I told you."

He glanced coolly at the intruders. "So they are. Well, what of it?"

"Michael, perhaps I'd better wait. I'm terribly afraid."

He shook his head. "You mustn't. I'll telephone you."

She had to be content with that. Katharine backed the car out of the lane; in a trance she followed the road toward home.

She had Bertine to face. She had an endless tissue of lies before her—but she was not thinking of this as she turned into her own driveway. She was thinking of Michael Heathere's kiss upon her lips. What lay before them both she could not guess.

(To Be Continued)

SOONER YOUTH SINGS HIT AT REX THEATER

TIMES SQUARE LADY INTRODUCES PINKY TOMLIN TODAY

The object of Hollywood's affection just now is a gangling Oklahoma country boy who has ridden to fame on the wings of a song.

The boy is Pinky Tomlin, just a few months removed from a sand and gravel dump which he pounded over the coronary roads around Durant, Okla.

The song which swept him to fame is the rollicking ditty, "The Object of My Affections," which the world has been humming and whistling for many weeks. It was one of the top best-sellers in America and a tremendous hit on Broadway long before its shy composer ever had been farther east than Eureka Springs, Ark., his birthplace.

But now "discovered" by Hollywood, he has won a motion picture contract with the Metro-Goldwyn-Mayer studios and has been found to be a new-style crooner, at once romantic and funny.

First Time On Screen.

He is to be seen for the first time singing his songs in his own distinctive way from the screen in "Times Square Lady," the fast-moving comedy-drama of New York night life, which comes to the Rex theater, starting a 2-day run today.

With Pinky appear such stars as Virginia Bruce, the blond heroine of "Jane Eyre," "The Mighty Barnum," "Shadow of Doubt," "Society Doctor," Robert Taylor, who leaped to fame with his sensational portrayal of the young interne in "Society Doctor," Helen Twelvetrees, star of many great successes; Isabel Jewell, and Nat Pendleton.

Students of dramatic technique are frankly puzzled by Pinky's amazing appeal, but no less so than Pinky himself. "Today he is hailed not only as a sensational new motion picture 'find,' but is deluged by flattering offers from radio, night club, and stage producers who want him to sing his songs in his own inimitable way."

"I don't know what this is all about," Pinky said weakly, when an interviewer visited him during the filming of "Times Square Lady."

"I always wanted to write songs, of course. When I used to pound that dump truck over the roads it would rattle in a sort of crazy rhythm, and I'd make up tunes to hum to myself, and sometimes put words to them."

"Then one night my ma asked me where I was going, I said I'm going over to see the object of my affections. She looked at my sunburned face and said, 'Not with that complexion, I hope!' Well, what I said and what she said got to running in my mind, and by the time I had hammered the driver over to my girl's house I had the song all made up in my mind!"

He set it down on paper and took it to Los Angeles because that was the nearest big city. He managed to get an audition in one of the

MARRIAGE

(Continued from Page 7)

dressed in ecru lace.

A reception at the home of the bride's father followed the ceremony. Mrs. W. A. Vance, Mrs. Ross Nix, and Miss Hazel Franklin were hostesses, assisted by Mrs. W. B. Franklin and Mrs. Marvin Warren. Only members of the two families were present.

Mrs. Smith, who has been employed as stenographer and book-keeper for the Culbertson-Smalling company here the past year, is an honor graduate of Amarillo Junior college. There she was a member of the Balladette chorus, of Pi Mu national music sorority, and president of Alpha Iota, honorary business sorority. She was student instructor in the commercial department.

Mr. Smith is a graduate of Clarenden college, where he was outstanding as a football player and active in all phases of campus life. For the past four and a half years he has been associated with Fred's studio here.

Babe's Honor Jubilee.

Hilo, Hawaii (P)—Commemorating King George V's silver jubilee, a banyan tree has been planted here near the tree planted last year to honor President Roosevelt's visit here.

Hear PINKY TOMLIN Sing "The Object of My Affections" REX Sunday Monday

W'BAIN URGES FOR TO PUSH ILLEGAL LAWS

'GOOD TACTICS' SAYS PROFESSOR OF COLUMBIA

CANTON, N. Y., June 22. (P)—Dr. Howard Lee McBain of Columbia University told the conference on Canadian-American affairs today that it would be "good tactics" for the president to jam through as many new deal laws of doubtful constitutionality as possible.

Dr. McBain argued such a course would increase the support for a constitutional amendment to enlarge the powers of the national government to regulate business.

He said he assumed the president still held the view expressed on May 31, just after the supreme court had stricken NRA of the statute books.

Outside the conference, Dr. McBain intimated that he believed the present social security and the Wagner bills as described in the press came under the head of the "doubtful constitutionality."

"At the time of his famous press interview of May 31," he said, "Mr. Roosevelt was evidently of the opinion that in the light of the Schrecker decision (throwing out NRA), little that is really reformatory in the politico-economic system can be accomplished short of amending the constitution."

"If this is still his view, it would be good tactics for him to drive through congress as many new deal bills of doubtful constitutionality as he can and to hasten these laws to an early judicial decision as to their constitutionality."

"The more laws that are trod up by the firm but gentle feet of the supreme court following as it almost must the hard beaten paths of constitutional construction (there are 'must' decisions as well as a 'must' list of laws), the larger will be the number of those who will be prepared for constitutional amendment."

"The president would not of course encourage the drafting and enactment of laws known to be unconstitutional for the deliberate purpose of arousing opposition to the constitution. But if he believes a law
