Navy Clamps Down Censorship To Hide Whereabouts Of 46 Planes

Words by O.E.H. Words are things...

Twinkles We don't see where they get this name of dust 'bowl'...

Skippy, the family pup, is recovering from an operation. A growth at the base of a 'false' toe made it necessary to remove the member.

Some unkind and uninformed individual has suggested that a few of the 'cracked' voices in the Lions minstrel show be referred to as the crippled children's committee.

A boy in a print shop is called a 'devil.' A girl in a similar position is called an 'angel.' There ain't no justice for us males.

It's about time to start the weekly reviews of drownings. Water is more deadly than dust, and a bit more welcome in some instances.

Musing of the moment: Tonight brings the 1935 Lions musical show. Folks from many neighboring towns will be here.

Brevitarians

ALMOST WITHOUT being aware of it, Pampa is becoming famous for its school music.

BUT, GREAT AS is the value of present-day music, the future is something to anticipate with even greater pleasure.

PAMPA HAS other fine choirs, orchestras and smaller groups of musicians.

MAYBE TIMES are not as hard as they seem. New statistics on the cost of living show that an average family with an annual income of \$2,000 is much richer in purchasing power than it would have been...

SENATE VOTES M'ONALD OUSTER

AIRCRAFT MAY HAVE ALIGHTED TO AVOID GALE

MIDWAY ISLAND SWEEP BY STORM; FLEET IS 'LOST'

HONOLULU, May 10 (AP)—In a grim wartime fashion, the navy today clamped censorship on all communication sources to hide the whereabouts of 46 seaplanes, greatest fleet of aircraft ever to make a long ocean flight.

The planes, participating in the gigantic 1935 war games of the United States fleet, roared away from their Pearly harbor base yesterday for midway island, 1,323 miles west of Honolulu.

Then they vanished to the outside world when the navy halted all commercial communication. It was believed the aircraft, to avoid a storm which swept over Midway, may have alighted at one of two barren little islands this side of their destination.

Somehow in the triangle bounded by Hawaii, the mainland and the Aleutian Islands, the 153 ships of the fleet are carrying out training problems, of which the flight was only one phase.

It was learned the planes will be away from here about one month. It is the belief some of them may continue northward from Midway to the Aleutian island, about 1,700 miles farther.

Democrats Agree To Prolong NRA Until Next April

WASHINGTON, May 10 (AP)—In an effort to wind up the congressional session by early July, Senate Democrats in conference today decided to stand by the finance committee's proposal to extend the NRA only until April 1, 1938.

Hourly leaders are understood to approve the two-year extension requested by the administration. It looked like a contest lay ahead to reconcile the divergent views.

Senator Robinson, the democratic leader, said several proposals for amending the extension resolution were presented, but all were rejected on the ground they would prolong the congressional session or endanger enactment of legislation to continue NRA before it expires June 16.

Hamilton Conceited To End GRINS SICKLY AS HE WALKS TO 'HOT CHAIR'

WASHINGTON PREPARES GIANT RECEPTION FOR ADMIRAL BYRD

WASHINGTON, May 10 (AP)—The senate reversed itself today to approve, 21 to 4, submission of a constitutional amendment to limit the governor's pardoning power.

Speech Of Welcome Will Be Made by President; Guns Will Roar Salutes.

WASHINGTON, May 10 (AP)—Back from his conquest of Antarctica, Rear Admiral Richard Evelyn Byrd and his crew of stalwarts neared the capital today to receive a reception second only to the one Washington gave Lindbergh in 1927.

Top hats and gold braid glistened as officials in brilliant array awaited the arrival of the rust-scared ship Bear of Oakland bearing the aerial explorer of two poles on the last lap of his journey up the Potomac.

Up bright and early after a night spent at the dock at Quantico, Va., 40 miles down the river, the party planned to arrive at the navy yard here at 4 p. m., eastern standard time for ceremonies topped shortly before 5 p. m. by a speech of welcome by President Roosevelt.

Byrd, the only man to fly over two poles, was ready to tell the nation of the hardships endured to bring back scientific data from the ice barrier.

Hurst Returns Minus Prisoner But With Car

Police Chief Art Hurst returned yesterday from Stillwater, Cushing and Oklahoma City, with a stolen car but minus the prisoner arrested when the car was discovered.

The car was recovered in Cushing, Okla. The driver was taken to Stillwater and charged with obtaining money under false pretense on an Oklahoma complaint.

Mr. W. B. Frost was to be taken to her home from Pampa hospital this afternoon.

CCC ACTIVITIES IN TEXAS TO BE DOUBLED UNDER NEW PLAN

WASHINGTON, May 10 (AP)—Robert Fechner, director of emergency conservation work, announced today that civilian conservation corps activities in Texas will be almost doubled under the expansion program recently approved by President Roosevelt.

Camps will be increased from 53 to 96, men working in Texas be raised from 13,600 to approximately 19,200, and 29,600 men will be selected from Texas, compared with the present figure of 15,683.

Dies in Plane

Miss Jeanne Ann Hillias, 20-year-old Kansas City girl, was one of four persons killed Monday in the crash of a TWA airliner near Macon, Mo.

IMPEACHMENT IS SUGGESTED IN RESOLUTION

EVIDENCE SHOULD WARRANT SUCH ACTION SENATORS SAY

AUSTIN, May 10 (AP)—The senate today returned to the house a resolution proposing removal of E. McDonald, commissioner of agriculture, with the suggestion the house should consider impeachment charges if evidence warrants.

PREACHER BARS BARE LEGS AND CARMINED LIPS

Girl Does Male Sex 'Cattish Trick' Says He

DUDDLEY, Worcestershire, England, May 10 (AP)—Girls with bare legs and painted lips were banned from the parish church at Sedgley near here today by order of the vicar, the Rev. Harold Marley.

The pastor warned his feminine parishioners that he not only would eject them from the church all girls who neglected to don hose, but that he also would refuse to administer the sacrament to women with carmined lips.

The Rev. Mr. Marley's admonition was contained in an article in the parish magazine.

Lawyer Moves Here

Judge A. T. Cole of Clarendon, resident of that city for 32 years, has moved to Pampa and has opened an office in the Smith building.

67 FAMILIES ON LAST LAP OF TREK TO RICH ALASKAN VALE

SEWARD, Alaska, May 10 (AP)—With songs and cheers of "we'll be tenting tonight on our own campground," the Matanuska colonists were ready to leave today on the last lap of their journey from Minnesota to their new homes.

Many Bills Die As Legislature Begins To Close

AUSTIN, May 10 (AP)—Hundreds of bills and proposed constitutional amendments, including a major portion of Governor Allred's program, plunged into the discard at noon today as the Texas legislature came under drastic closing hour rules.

Under the 24-hour rule only conference committee reports and concurrence in amendments added to bills by the opposite house may be considered. Noon tomorrow has been set for adjournment.

Dragged down were the governor's bills to balance the budget through levying a chain store tax and increasing taxes on sulphur production.

Both houses have delayed action on the departmental and educational appropriation bills. It will require several hours to enroll the bulky bills.

CCC Age Limit Is Extended 10 Years

Age limit of applicants for enrollment in Civilian Conservation Corp camps has been stretched from 18 to 25 years to 18 to 28 years.

Application should be made to the county relief administrator in the basement of the city hall. The administrator is the selecting agent for the county's quota.

Although the youths may not be called until the latter part of June or in July, Mrs. W. H. Davis, Gray county administrator, will take applications now.

CRIPPLES ARE TO GET FUNDS FOR AILMENTS

BEST PRODUCTION OF SERIES PROMISED BY CAST

One hundred reserved seats for tonight's Lions club show were unsold at noon today, and about 200 remained for Saturday evening.

This spring! And this will be the theme of the Pampa Lions club's fourth annual musical revue and minstrel show which will be presented in the city auditorium this evening and Saturday evening for the benefit of its fund for crippled children.

The curtain will part at 8:15 p. m. to reveal a show produced by John Sturgeon, member of the club, and a cast of more than 50 persons.

Many Features This year's show will include the following: 1. The most elaborate setting in the show's history.

The show will present many new faces in addition to persons who were popular in previous seasons.

A quartet will sing "Uncle Joe," a quartet set by Mr. Sturgeon as Uncle Joe, with Duke Bathrope, Jack Dunn, and Chick Hickman.

The quartet has chosen Old Southern Custom, R. B. Fisher will sing in the Garden of Tomorrow.

The quartet has one of the most effective scenes, which is the cabin of an old drakey.

Balladists will include: Lucille Bell, Harriet Hunkapillar, Claudine Harris, Virginia Jeffries, Dorothy Brumley, Ruby Schief, Rose La Nell Williams, Albertine Schulkey, Jerry Mitchell, Mary Price, Flora Deen Finley, Jeanie Purviance, Bobby Morrison, Leona Hurst, Lillian Rice, Helen Frances Draper.

A. M. Tress, Olin Hinkle, Sherman White, Edward Damon, Carson Loftus, Ralph Thomas, F. E. Leech, Bob Watson, Tom Darby, John Osborne, Ivy E. Duncan, Roger McGinnis, H. L. Polley, Charles Malsel, Roy McMillen, Dr. C. F. Callison, R. A. Thompson, Emmitt Smith.

Dates For Scout Circus Changed Dates of the annual camporee and Scouts Circles in Pampa have been changed to May 27, 28.

The original dates, May 24, 25, were abandoned because of conflicts with other events, especially school commencement and baseball games.

The new dates are said to be more agreeable to business men of other cities who wish to attend the Scout event of the Adobe Walls council.

Hundreds of boys will camp here one night and contest for camping honors. In the evenings they will show Scout work at its best through a many-ringed circus in the school gymnasium.

Marble Tourney Time Changed

Finals in the Pampa Daily News school marble tournament will be held at 1 p. m. Saturday instead of at 9 a. m. Conflict of time with a faculty meeting led to the change in hour.

HELIUM FROM PANHANDLE TO INFLATE BAG

STRATOSPHERE FLIGHT TO BE IN JUNE IN SOUTH DAKOTA

AMARILLO, May 10 (P)—When a giant balloon soars into the stratosphere above South Dakota in June the danger of an explosion such as marred a similar flight last summer will be eliminated.

Instead of high-explosive hydrogen, which has been used in previous flights into the upper layers of atmosphere, non-inflammable and non-explosive helium will inflate the bag this year.

The buoyant gas will be from the government's helium-production plant near Amarillo. Capt. Orvil Anderson, who will pilot the balloon, was here recently making arrangements for the helium.

The flight, sponsored jointly by the national geographic society and the United States army air corps, will be from a base near Rapid City, S. D.

The base is in a natural bowl, which offers protection on all sides from the wind. Any attempt to inflate the huge bag during a wind would be disastrous, the pilot said.

As helium has slightly less lifting power than hydrogen the difference will be made up by a bigger bag or less weight in the gondola.

Only two men will make the flight this year. Captain A. W. Stevens will be the commanding officer and observer. He, Anderson and Maj. W. E. Kepner comprised the crew of the previous attempt. Major Kepner commanded the 1934 hop but will not be available this summer. Capt. R. P. Williams has been named alternate and will replace either Anderson or Stevens if necessary.

The fliers hope to reach 75,000 feet. Their chief aims will be to get new information about the mysterious cosmic ray, test new theories of judging altitude with vertical cameras, ascertain the electric conductivity of atmosphere, and measure the depth and density of the ozone layer which forms a protective blanket above the earth by halting rays which would kill all cell life.

Anderson estimated that from 250,000 to 260,000 cubic feet of helium would be required. It will fill only seven per cent of the bag, which will have a maximum capacity of about 3,000,000 cubic feet. The gas will expand gradually as the balloon ascends.

The recognized altitude record is 61,247 feet and is held by Lieut. Com. T. G. W. Settle.

Four stops are scheduled, three of 40 minutes each at 12,000, 55,000, and 65,000 feet, and one of two hours at the ceiling. The stops will be made so the fliers can check the scientific instruments and make readings and observations.

Stops can be made at any level by valving off gas and releasing a certain amount of ballast, Captain Anderson explained. The ascent is resumed when additional ballast is released.

Three tons of ballast of fine lead shot and about a ton of instruments will be taken aloft.

The fliers will be equipped with a two-way radio and will communicate with the ground crew at designated intervals. A motor-driven fan on an extended arm will cause the gondola to rotate and allow observations to be made on all sides.

Last year's ill-fated balloon reached 60,813 feet.

"At 57,000 feet we noticed that the bottom part of the bag was being ripped to pieces," Anderson said. "Each gust of wind would rip holes 10 or 12 feet longer. We immediately started trying to descend but we were above 60,000 feet before we could valve off enough gas to halt the rise.

"As soon as we could we climbed on the outside to look over the situation. Suddenly the entire bottom part of the bag was ripped away by the wind. There we were, going downward at the rate of about 600 feet a minute under the largest man-made parachute ever built. We didn't know whether to stick with the gondola or jump with our individual chutes. The bag extended for 90 feet in every direction and we didn't know if could clear it if we jumped.

"I was still on the outside when the hydrogen exploded. The top of the bag disappeared in a flash and the gondola plummeted downward, trailed by the flapping remains of the fabric. I shoved off, and the others followed.

The fliers landed safely, but all of the instruments were destroyed. Only a part of the films was salvaged.

"The safety factor has been increased many times and we are much better prepared than last year," Anderson said.

THIRD DEGREE IN REVERSE
KANSAS CITY (P)—It remained for 2-year-old Harry Moore, Jr. to solve a police "third degree."

Picked up as he wandered about downtown, Harry was questioned at length by detectives in a futile effort to learn his name and address. All they got were noises from a whistle and a rattle the youngster carried. The police were ready to quit when the kid's father called.

Texas Still More Conscious of Farms Than Of Minerals

AUSTIN, May 10.—"The, in spite of the vastness and fundamental importance of its mineral resources, has not become mineral-conscious," Elmer H. Johnson, regional economist for the University of Texas Bureau of Business Research, charged in an article in the current issue of the Texas Business Review, published by the University Bureau.

"Today the American nation is dominantly an industrial country," he said. "Agricultural products, like other raw materials, are transformed into articles of consumption largely by manufacturing industries using power machinery, and the markets for these products of our commercial agriculture are largely the industrial region."

"Modern industry and world-wide industrialization is based primarily upon the utilization not of agricultural but of mineral resources. The primary minerals are the fuel and power resources, the machine metals, and the minerals basic to the chemical industry. Mineral resources because of their essential nature play a preponderant part in the modern economic life of peoples and of nations. On account of their geological nature minerals are very irregularly distributed on the face of the earth; moreover, minerals are exhaustible resources, and thereby demand special consideration. Taking consideration of reserves of all mineral resources and of the significance of technical advancement, the world has a sufficient supply of mineral resources for generations to come.

"Texas, in spite of the vastness and fundamental importance of its mineral resources, has not become mineral-conscious. In the same sense it may be said that Texas is not resource-conscious. In a number of natural resources, including oil and natural gas, sulphur and salt, in limestone and in certain clays, in soils and grazing lands, Texas is one of the richest, in some cases by far the richest, of any state in the nation. Moreover, dominant economic centers in the modern world are determined by the possession of a wide combination of resources and advantages rather than by a single resource.

"Texas has been and still is mainly a raw material producing state; its large surpluses of raw materials are mainly sent elsewhere to be manufactured into articles for consumption. While some manufacturing of agricultural products occurs in Texas, yet it is in the mineral industries that most advance and growth have taken place.

"Texas in the future will look to the processing of more of its raw materials at home. The material welfare of its people will come to depend more and more upon industrial development within the state. Located as the state is with reference to the Gulf of Mexico the future of the economic destiny of Texas or of any of its sections is very largely determined by its accessibility to water transportation and thereby to the great markets of the eastern seaboard and to the rest of the world.

"In the future as in the recent past abundant fuel and energy resources will be the commanding elements of the dominant phases of economic life whether in Texas or Pennsylvania, in England or in Germany. Today, nations with coal and oil command. In the future the oil and natural gas resources will dominate the basic features of Texas economic life. Upon wise policies for their effective utilization of these resources, perhaps more than upon any other factor, the economic destiny of Texas depends. Because of the vast reserves of oil and natural gas, of chemical raw materials, and of the rich agricultural and range resources, Texas needs to become a resource-conscious state. This need will be strengthened as the opportunities for future development of Texas resources and especially of the manufacture of raw materials within Texas comes to be more and more associated with and dependent upon water transportation which gives access to the world's markets."

Final Struggle On Bonus Delayed Until Next Week

WASHINGTON, May 10 (P)—Delaying the final struggle until next week, bonus plungers today into a week-end effort to marshal every ounce of their strength in a last-minute effort to save the Patman new currency bill from defeat.

Methods that proved so potent in defeating the world court protocols were called into play as veterans' leaders sought to deluge the capital and the White House with a million or more telegrams from supporters.

President Roosevelt made no pronouncement, though he conferred with financial advisers in what was generally regarded as a move to marshal statistics for a veto on the \$2,000,000,000 bill. He did not mention the word "bonus" in a greeting he sent last night to St. Louis, where the convention committee for the forthcoming 1936 American Legion conclave was in session.

"War veterans are and should be interested in the welfare of the country as a whole," he said. "Our constant objective is to care for the disabled, the sick, and destitute, American Legionnaires and the veterans of all wars support this national policy."

In some quarters this was regarded as echoing the idea the president expressed at Roanoke. "At some time ago in an address generally interpreted as a stand against full and immediate payment of the bonus.

Women write 15 per cent of the million or so letters received each month by the department of agriculture, the consumers' guide of AAA reports. They ask questions on how to plan houses, diets, children's clothes, gardens and budgets.

Now That Session Is Near End, Solons Get In Hurry

AUSTIN, May 10 (AP)—Faced with the sine die adjournment tomorrow, members of the Texas Legislature started a mad scramble today to pull local and pet bills through the legislative process as major controversial measures not yet in conference stage were abandoned.

Both houses approved by a two-thirds vote a resolution to make effective immediately a bill to appropriate \$3,000,000 in state aid for the Texas Centennial. The bill failed to pass either house by a sufficient majority to become effective on the governor's signature and the resolution was adopted to permit the commission to begin operations at once.

With completion of legislative action on the Centennial bill plans were made for a quick start to complete organization work for the huge celebration. Lieutenant Governor Walter F. Wood, commission chairman, announced he would call a special meeting immediately. Wood telegraphed the Texas congressional delegation to urge a federal appropriation of \$5,000,000 for the observance.

The governor received another of a series of bills designed to bring in millions in revenue by strengthening enforcement provisions of existing laws. The bill would throw additional safeguards around manufacture and use of cigarettes, ostensibly to reduce stamp counterfeiting and place additional men in the field to curb inroads in the state's revenues.

Preliminary work has been completed for the planting of 100 square miles of trees to prevent soil erosion in the Paduca valley in California.

3 Die In Chair For Slaying In A Bank Robbery

JOLIET, Ill., May 10 (AP)—The state satisfied its demand for a life today with electrocution of three men who participated in the killing of others during an attempted bank robbery.

Technically the switch was thrown in the old state penitentiary only to execute the murders of J. Charles Bundy, cashier at the Leonore, Ill., state bank, because the three gunmen who survived the fight which preceded their capture weren't tried for the deaths of two others.

Those electrocuted within a 10-minute span shortly after 1 a. m. today were Fred Gerner, 27, and Arthur Thielen, 42, both of Rockford, Ill., and John Hauff, 32, Chicago.

All went to the chair seemingly calm and gave their last breath to pleas for forgiveness from God and their victims' survivors.

In addition to Bundy, their victims were Sheriff Glen Axline of Marshall county and Charles Seipp, a township supervisor.

A seventh death resulting from the raid was the suicide of Melvin Leist of Docketford, fourth member of the robber band, who shot himself after ap case surrounded the killers in a farmhouse near Varna, Ill.

Hauptmann Cites 193 Reasons For Reversal Of Case

Trenton, N. J., May 10 (AP)—Bruno Richard Hauptmann's counsel, assigning 193 reasons for reversal of his conviction in the Lindbergh baby killing, stressed today the state's "varying theories" of how the child was killed and the state's "inflammatory summation" to the jury.

Egbert Rosecrans, counsel for Hauptmann, filed today with the clerk of the court of errors and appeals, the defense arguments for reversal. The court will hear the appeal June 20.

The grounds parallel the charges of error in the trial, which were filed several weeks ago, and include the allegations that the trial was a "circus maximus" that a "hysterical mob spirit" prevailed, and that Col. Charles A. Lindbergh's daily presence "unduly influenced" the jury.

The defense cited excerpts from the summation of Attorney General David T. Wilentz in which he called Hauptmann "public enemy number 1 of this world," and said he was "the inspiration for the greatest series of the meanest crimes in the history of the world."

FDR Urged To Sign Or Veto Patman's Bill

WASHINGTON, May 10 (AP)—The White House was deluged today with telegrams urging the president either to sign or veto the Patman bill cash bonus bill.

Attaches estimated that 5,000 had arrived before noon, but there was no check as to whether the majority favored the legislation. Veterans' leaders had asked their followers to send to the White House and Capitol Hill telegrams demanding enactment.

Apparently President Roosevelt was not taking time to read the messages. He was prepared to veto the bill soon after it reaches him from the senate, where bonus leaders were trying to marshal every ounce of their strength to save the measure from defeat.

Mr. Roosevelt's conference yesterday with financial advisors was taken as meaning that in the event congress overrides his veto, the president will insist upon levying new taxes.

SUIT TO JURY.
CHARLOTTE, N. C., May 10 (AP)—E. Brandon Smith's \$250,000 alienation of affection suit against his ex-father-in-law, Joseph P. Cannon, wealthy Concord business man, went to the jury in Mecklenburg Superior court today at 11 a. m.

28 CHILDREN DROWN
KHARKOFF, U. S. S. R., May 10. (AP)—Twenty-eight children were drowned in the river Psol today after a leaky ferryboat in which they were making an excursion filled with water and foundered. Thirty other swam ashore. The victims were children of farmers at the Petrovsky Collective farm. Authorities said those responsible for allowing them to embark on the unsafe vessel would be arrested and punished. The children were accompanied by only one adult.

Hesitation Seen In Movement Of Business, Trade

NEW YORK, May 10 (AP)—A slight hesitation in the forward movement of business this week was reported today in the weekly trade review by Dun & Bradstreet.

"A pause in the forward movement of business was revealed by reports emanating this week from manufacturers, wholesalers and retailers in various parts of the country," the review said.

"Thus far, however the recession appears to be of only trifling proportions and there was nothing to indicate a change in the upward trend."

"Among factors mentioned as contributing to the hesitancy were the seasonal slackening of industry, the vagaries of the weather, and the uncertainties regarding the outcome of national legislation."

"As neither manufacturers nor retailers are holding burdensome inventories, their positions are viewed as favorable for a prompt response to stimulating influences which a change to more seasonal weather undoubtedly will bring, with hopes strong for a continuation of the upward movement before the close of the current month."

"After a slow beginning, due to the cold and rainy weather, retail sales, widened in nearly all parts of the country, and there was less unevenness to the gains reported than for the week preceding. . . . For the country as a whole, nevertheless retail sales were estimated at not more than 8 to 9 per cent in excess of the figures for the corresponding week last year."

FILIBUSTER ENDS

WASHINGTON, May 10 (AP)—The filibuster conducted by Senator Austin (R., Tex.) against the Norris bill to strengthen the Tennessee valley authority act, was broken today when the senate voted to consider the legislation. The motion to take up the bill was made by Senator Norris (R., Neb.) and was quickly approved without a record vote.

In the two-day battle of Shiloh in Tennessee during the war between the states, the Union lost 13,000 men and the Confederacy 10,000.

Constipation Poisons

Constipation allows poisons to form in the bowels and makes you feel sick. At the first feeling of constipation take Theford's Black-Draught for prompt, refreshing relief. It has helped thousands of men and women.

Mrs. A. J. Davenport, of Paducah, Ky., writes that "Black-Draught acts well and seems to carry off impurities. It always helps me."

Black-Draught is made of purely vegetable ingredients—leaves and roots of plants highly regarded for their dependable medicinal action. **THEFORD'S BLACK-DRAUGHT**

Father Held In Puzzling Death Of Five In Family

Traces of Poisons Are Found In Organs Of Daughters

BROOKLYN, N. Y., May 10 (AP)—Frederick Gross, 49, mild-mannered bookkeeper for a Manhattan chemical company, was held for questioning by police today following five mysterious deaths in his family since March 29.

Gross was picked up for questioning today by Brooklyn detectives after an analysis of the vital organs of two of his daughters who died April 26, showed traces of an obscure poison.

Arthur Edge, the arresting detective, said that an analysis of a can of cocoa in the Gross home, disclosed the same poison.

Members of the family who have died since March 29 were Katherine Gross, 38, wife and mother of five children; Frederick Jr., 9; Leo, 3; Barbara, age 1; Katherine, 7.

Police, made suspicious by the last two deaths, ordered an autopsy which failed to show the cause of the deaths of the two girls.

Police said they expected Geoghan would order the man's arrest at noon when he is taken to the district attorney's office for further questioning.

According to the police investigation the first death to occur was that of Frederick Jr. on March 29 at the Kingston avenue hospital for contagious diseases.

Gross has been married 14 years.

MARKET BRIEFS

NEW YORK, May 10 (AP)—A spirited spurt in the utilities kept the stock market pointed upward today despite a number of profit taking flurries which tended to reduce extreme gains in many instances.

Even after night had fallen, Hamilton had pleaded with Lee Simmons, prison system manager, to communicate with one of his attorneys and ask him to hurry here.

A particular point of pride with the runt-bandiit in life had been his natty dress.

"It looks bad for me to go over with a pair of ragged pants," he complained in semi-jocular vein as he noticed a torn place in the garment.

"And where are my suspenders? My hips are so small that they will probably fall off if someone can't find them."

The suspenders were found and given to him.

Several hours before the execution last night, newspapermen asked Hamilton if he wanted to say anything about the influence of women on his life.

"None of them has any influence on me," he replied. "None except Katie—I love Katie."

HAMILTON

(Continued from page 1)

error—that they wanted me to confess that Hillsboro murder," he said. "I didn't do that Hillsboro murder. The man that did it is dead. If he wasn't I wouldn't say anything anyway."

He was referring to the slaying more than a year ago of a filling station operator shot to death in a holdup at Hillsboro, Texas.

Unsuccessful appeals were being planned. Out-of-town visitors included Arlie Crites, A. M. Minton, and Dr. R. E. Minter of Borger.

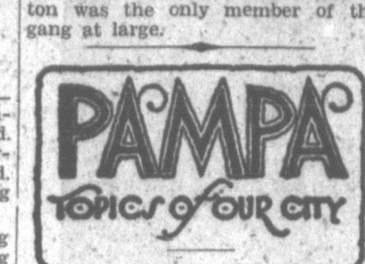

The Rev. L. Burney Shell, pastor of First Presbyterian church here, will deliver the baccalaureate address at White Deer Sunday evening at 8. The service is to be in the high school auditorium there.

The first band practice for the newly organized American Legion band will be tonight at 8 o'clock at the American Legion hut on West Foster avenue. All musicians in Pampa and surrounding territory interested in playing in the band are urged to be present on time, bringing their instruments.

M. M. Newman of Mexican transacted business here yesterday.

Mrs. Ray Carter of LeFors was a Pampa visitor this morning.

Send a flower to Mother Sunday, May 12—Clayton Floral Co. adv.

Will Meet Here

Members of the extension program of the Texas Optometric association will hold their regular monthly meeting in Pampa Sunday at 11 a. m.

Pampa Chapter Order of DeMolay will meet tonight at seven thirty, instead of next Tuesday, by order of Charles Brazee, master counselor.

Tells of Rain-Making

Carl Benefiel, local theater manager and movie cameraman, yesterday spoke on Tex Thornton's rain-making efforts near Dalhart last week.

Band Practice Tonight

Jack Perrin Losers End

College Chorus Is State Winner

CANYON, May 10.—For the second consecutive time, the Men's Chorus of the West Texas State Teachers college has won first place in the state contest of men's choruses.

The members of the chorus are Lex Alexander, Walter Cummings, and Charles Reeve, Friona; Louis Barnett, Black; J. C. Baker, M. E. Cleavinger, Broughton Hardin, Horace Hickox, Albert Jackson, Rex Roby, Charles Stratton, and J. H. Wright, Canyon; Martin Baze, Ralph O'Keefe, Pampa; Bill Blain, Raton, New Mexico; Houston Bright, Gardner Sanderson, Winfred Lewis, Shamrock; Lawrence Clark, Turkey; Whitman Fish, W. A. Morgan, and Woolworth Russell, Amarillo; G. T. Higgins, Albert Jackson, Reavis Keer, Hereford; Kenneth Hobbs, Lockney; Henry Young, Wellington, Ray McIntyre, DIMITT, Holland McMurray, Memphis, Bill Nelson, Portales, N. M.; John Tate, Farwell; Glyn Taylor, Waco; Sid Thomas, Childress and Edward White, Spring Lake.

None of them has any influence on me," he replied. "None except Katie—I love Katie."

Red-haired Katie Jenkins visited him Wednesday—having quit a job as a night club entertainer in California to come here and try to help him.

"How about giving some advice on crime, Ray," someone prompted.

"Oh, it's no use saying anything like that," he answered. "Crime doesn't pay, you can't win in the long run, but no one pays any attention to such a statement."

Both Become Catholics

Palmer's last moments were in contrast to Hamilton's nervousness. Long ago resigned to death, he attempted to wisecrack as he entered the execution chamber, but the effort fell a little flat.

"Good morning, gentlemen," he said with a laugh as he came in.

New Conference On Strike Will Be On Saturday

DETROIT, May 10. (AP)—New hope for a break in the three weeks old automobile strike affecting more than 30,000 workers in General Motors units, hinged today on a new conference scheduled to be held in Toledo Saturday.

With tension in the motor car industry rapidly increasing, William S. Knudsen, executive vice president of the General Motors corporation, announced last night that a new conference in Toledo had been agreed upon.

It will bring together such principals in the strike scene as the representatives of General Motors and their subsidiary, Chevrolet Motor Co., leaders of the Federal Automobile union in Toledo directing the key strike, American Federation of Labor spokesmen, and two federal mediators, Edward F. McGrady, first assistant secretary of labor, and Thomas J. Williams.

McGrady expressed the fear that 110,000 motor car workers would be idle if the strike was not brought to an end this week.

LIONS SHOW

Clarence Kennedy, Chick Hickman, Howard Neath.

Success of the show will mean bodily rehabilitation to many crippled and ailing children of Gray

county whose parents are destitute. There are a number of orphans who are serving eagerly for the treatment which will make them normal.

Bankhead Law Is Challenged By High Court

WASHINGTON, May 10 (AP)—The legality of the Bankhead cotton control act has been challenged before the supreme court today.

Contending the act is not a proper and valid exercise of federal taxing power, Lee Moor, a cotton planter of Clint, Texas, asked the court yesterday to declare the statute unconstitutional.

Moor's suit arose from the refusal of the Texas and New Orleans railroad to accept cotton which he wished to ship to New Orleans for sale abroad.

The railroad turned down the shipment because Moor had not paid a ginning tax of \$49,935 required by the Bankhead act.

In his appeal to the supreme court Moor contended the act taxed the ginning of cotton produced in excess of a farmer's quota, but did not tax all cotton, he argued also it was an unconstitutional encroachment on the powers of the states.

KANSAS CITY LIVESTOCK

KANSAS CITY, May 10 (AP)—U. S. Dept. Agr. Hogs 1,200; fairly active; uneven, mostly steady; top 8.75; 140-350 lbs. 7.90-8.75; packing sows 275-500 lbs. 7.00-8.10.

Cattle 1,100; calves 700; limited supply killing cattle fully steady in fairly active trade; vealers steep; good 1000-lb. fed steers 11.60; steers good and choice 550-1500 lbs. 9.25-14.25; common and medium 550 lbs. up 6.00-11.00; heifers, good and choice 550-900 lbs. 8.75-11.25; cows, good 7.00-8.50; vealers (milk-fed) medium to choice 6.00-9.00.

CHICAGO GRAIN

CHICAGO, May 10 (AP)—Fears that a bearish surprise might be contained in forthcoming government crop estimates led to stop loss selling of wheat late today, tumbling prices down.

Forecasts indicating showers over a considerable area of wheat territory had a further bearish influence. Corn gave way with wheat and as a result of increased speculative pressure to sell.

GRAIN TABLE table with columns for Wheat, May, July, Sept, High, Low, Closes.

NEW ORLEANS COTTON

NEW ORLEANS, May 10 (AP)—After pausing for a couple of hours new crop futures extended the gains achieved in yesterday's session, Oct. was 5 points higher at 11.74 and Dec. advanced a similar amount to 11.80.

The near months did not share in this advance, July sagging 5 points to 11.88 and May holding one point under the previous close for the first half of the trading period.

The hopes expressed by the cotton pool that their recent action would bring the new crop months more into line with the rest of the mark appeared to be having the desired results as bullish tendencies in these positions narrowed the differences between crops.

GAS QUESTION NOT SETTLED

The new gas conservation measure, passed in high expectation of ending useless waste of a great natural resource, is not the last word on the subject.

The law permitting such waste was passed for a purpose. Unless that purpose is reached, or progress made in that direction, the conservation law is likely to be nullified in one way or another.

Sponsors of the original law were acutely aware of the need for: 1. A market. 2. An equitable taking plan to distribute the market already available through pipelines. 3. A fair price for that gas which was being taken from the Panhandle field.

An evil—admittedly so—was created to correct some of these conditions. And, as many evils do, it did accomplish at least part of its purpose. A fairer policy on the part of pipeline companies would have made the original legislation far less likely, if not impossible.

It follows that it is now the "move" of the pipeline companies. Whether the conservation law is to be attacked in the courts or evaded by some of the means likely available will depend much upon developments between now and next fall, when the law becomes effective.

As to the market, the state pipeline proposal is the only current proposition of proportions large enough to be of any material benefit. Action on this is before the legislature. Its acceptability to the people of the state as a whole will depend upon the skill of the legislators in protecting the people's interest in the huge expenditure involved. But the whole state will benefit from orderly development of both oil and gas in the Panhandle.

THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON.—The ammunition of the munitions industry includes lobbying, bulldozing, bribery, fake war scares, collusion, and political wire-pulling in high places.

Annual peacetime profits of the "war-supplies racket" run somewhere between \$4,000,000,000 and \$7,000,000,000—and American participants have been out to get their share.

Large peacetime profits rise to fantastic rates in war, when producers of essential materials, in common with makers of guns, ships, and explosives, hold the government up for all they can get.

That's the background built by the Nye investigating committee for its proposed wartime limitation of individual incomes to \$10,000 and corporation profits to 3 per cent and for its forthcoming plan to control the munitions business in normal years.

Real headquarters of the War Department is at the duPont plant in Wilmington, and the navy's is in whichever hotel room officials of the "Big Three" shipping companies happen to hang their hats—some senators have been led to suggest.

The navy has cost \$7,000,000,000 since 1920. Whether the nation got its money's worth, nobody knows. The navy has no way of learning production costs from the private companies which lobbied naval building programs through Congress.

Nearly all the navy's ships are built by the "Big Three"—the New York, Newport, News, and Bethlehem companies.

Theoretically, they bid competitively—as the law requires—on each cruiser, destroyer, or other warship authorized by Congress.

But, actually, evidence indicated intimate relationship among the "Big Three." Consultation before bids was shown.

Laurence R. Wilder, former president of New York Ship, once handed John P. Frey of the A. F. of L. a correct sealed list of the companies which would get awards for certain ships—10 days before the bids were opened.

An "interloper," United Drydock, entered the field in 1933 for the first time since the war. Then the "Big Three" bids dropped a couple of millions or more. But they had risen again by the end of the year—by virtue of what the committee suspects was an agreement under which United saw the light.

When Wilder sought to open a new shipyard in Florida and was after an RFC loan, C. L. Bardo, then head of New York Ship, enlisted Senator Moore of New Jersey and Postmaster-General Farley to ask Roosevelt to prevent the loan. Wilder didn't get the loan.

It was charged Bethlehem had made \$49.59 a ton on government ships, while other companies made but \$10. Newport News, according to committee figures, made 86 per cent profit in 1918 and 72 per cent in 1917.

Shipbuilders were far from alone in that sort of thing. The duPont interests, the committee showed, were asked while we were at war to build a new powder plant. They held off for three months while fighting over the profit margin.

If decentralizing cities has anything to do with those girls who give us wrong phone numbers, we're for it.

To bad men, "G" men are a bad omen.

One line that has made a profitable showing in Quincy, Mass., is the cemetery department. But that's hardly a sign of recovery.

The taxpayers are finding it expensive to support the navy in the maneuvers to which it's accustomed.

The government is trying to figure out where Father Divine gets that money he spends so lavishly. And we're wondering whether Uncle Sam is after an income tax or some new ideas.

About New York

By GEORGE TUCKER
NEW YORK.—Theater town in Maytime.
Katherine Cornell rushes by taxi to bid Elizabeth Bergner bon voyage. Elizabeth Bergner, a strange, steam-bathed, girl who looks more like a suburban librarian than an international star. . . .
Lillian and Dorothy Gish sail too. They're going to Italy and to England, now that summer's here. . . . That pretty little girl in the Walcott-Asteris lobby is Joan Bennett. . . . She's just attended a cocktail party in New York. . . . And that bronze lad standing near is Mister Jack Dempsey. . . .
Major Edward Brock sends in a

note: "Will you come to my cocktail party" he wants to know. . . . Yes, Major, I'll come. . . . Constance Cummings drifts from a florist's with six dozen red roses in her arms. . . . I best half a dozen pawkers to one that falls, tip my hat, put it in my lapel, and turn down a side street. . . . On the next corner two cops are dragging a bushwacker to a radio patrol car. . . . His verbose remonstrance earns a quick scolding. . . . A bushwacker out of the tracks is a "gimmie, have you got, let me have" nuisance.

They say there's a fellow in the midtown area who makes his living stealing tips from waitresses off restaurant tables. . . . Claire Trevor is going to have a three week's vacation in Honolulu. . . . The "Something Gay" of Tallulah Bankhead isn't very. . . . John Lutz, the blind news dealer, says nobody ever tries to cheat him.

Back from England comes Fay Wray after six months on the set. . . . Secretary of the Interior Ickes is the latest celebrity to commission Harald for a portrait. . . . Sculptor and painter, Harald is part of the Harold and Lola dance team that is causing such excitement with their Snake Dance in the Polka Bergeres. . . . They've done the dance in every civilized country except India and Germany. . . . Harald himself created Lola's snake costume and painted it on heavy silk. . . . The night it was painted, Harald, whose name is in the window to dry. . . . And five minutes later police broke down the door. . . . "Where's the body?" they demanded. . . . From the street the costume looked like the body of a man who had been hanged. . . . Harald, whose name is in the window, spells his first name with two a's, as does Katharine Cornell. . . . It's a point both emphasize.

In 38th street I am misjudged by Hal Strater who has just had a look at "The Children's Hour." . . . He thinks its characters are the finest drawn on Broadway, but personally I lean towards that hardly perennial, "Tobacco Road." . . . When characters more vivid than Lester and Dede are drawn I hope I am on hand to see them. . . . Here we climb on top of a two-decker Fifth avenue bus and ride all the way up to 155th street. . . . Returning by subway, we pop into Times Square where intersecting lines of human ants are forming the Giant X of Broadway and Seventh avenue. . . . The air is pleasant but not cool. . . . In flaming lights a new Marlene Dietrich picture is announced. . . . I like its tag, which goes something like this: "Three sweethearts have 1—the fools. . . . And one thinks of Mr. Kipling's fool, who made his prayer to a tag, a bone, and a bank of hair."

The Centennial bill is being credited as largely responsible for the jam in which the legislature finds itself. The long days of the debate blocked consideration of other legis-

CAPITOL CHATTER

BY CHARLES E. SIMONS

AUSTIN, May 10 (AP)—Members of both houses of the Texas legislature were relieved when the Centennial appropriation bill was passed finally and sent to the governor.

The bill had been before both houses intermittently almost from the start of the session nearly four months ago. It had been the subject of maneuvering, almost endless debate and the topic for eloquent patriotic oratory by its opponents and proponents. Members were so tired of hearing "Centennial" dialed into their ears that they almost unanimously agreed that the proposition should be passed or killed without further ado if for no other reason than to get rid of it.

That attitude was largely responsible for the speed with which the conference committee report was approved. It was debated in the house only about 15 minutes and was accorded as speedy treatment by the senate.

Chief celebrant over final passage was Rep. J. D. Simpson of Dallas who guided the bill on its arduous and, at times, seemingly hopeless journey through the house where a stubborn minority, which at times reached the proportions of a majority, doggedly fought it every step. Simpson had one of the most difficult assignments a legislator could assume.

The genial Dallas representative handled it creditably although on several occasions he was almost willing to throw up his hands in despair. Simpson maintained a jovial attitude in the face of a constant bombardment and rarely through the lengthy and heated discussions showed sign of losing his temper and equilibrium.

He gave the house a lesson in perseverance that long will be remembered. The Centennial bill is being credited as largely responsible for the jam in which the legislature finds itself. The long days of the debate blocked consideration of other legis-

International Sunday School Lesson

By DR. J. E. NUNN

General Topic: The Christian Church. Scripture Lesson: Acts 2:41-47; Ephesians 4:1-7, 14-16.

within the church, and apostasy from the Church, yet none of these things would prevail to destroy the Church. It is as eternal as Christ.

Golden Text—So we, who are many, are one body in Christ and severally members one of another.—Romans 12:4.

Introduction The word "church" is found in the New Testament one hundred and twelve times, but in no Gospel except that of Matthew, and here only twice (16:18; 18:17).

Upon This Rock I Will Build My Church.—Matt. 16:18

Christ's first reference to the Church follows immediately upon the acknowledgment of his deity by the Apostle Peter.—Matt. 16:18.

Checks Malaria in 3 days Colds first day TONIC and LAXATIVE

These gifts are varied—apostles, prophets, evangelists, pastors, and teachers. The reference here is to the gifts given to the church by Christ.

BANKING BILL THROUGH HOUSE FACING DELAY

Senator Glass Ready To Attack Some Sections

BY D. HAROLD OLIVER, Associated Press Staff Writer. WASHINGTON, May 10 (AP)—The new deal's bid for greater power over money and credit came face to face with a senate critic today after winning overwhelming approval in the house yesterday.

Marriner S. Eccles, governor of the federal reserve board, was summoned before a senate sub-committee to answer questions about the omnibus banking bill which the house passed, 271 to 110.

Senator Carter Glass (D. Va.), chairman of the sub-committee, has opposed some of the powers which the measure would concentrate in Washington.

Leaders predicted there would be no action on the bill on the senate floor for several weeks, but they foresaw a bitter controversy immediately before the Glass sub-committee.

Glass and his colleagues planned to hear Winthrop W. Aldrich, president of the Chase National bank, and Francis M. Law, former president of the American Bankers association, next Tuesday.

Aldrich was among the signers of a statement issued with deposit insurance and some technical changes in the banking laws but suggesting changes to minimize the possibility of what critics have envisioned as political control over the federal reserve system.

Generally, bankers already heard by the Glass group have expressed opposition to the federal reserve provisions of the bill. Opponents apparently reserved their strongest attacks on these sections until hearings began on the senate side of the capital.

House passage of the bill came after that body had smashed down a proposal by Rep. Cross (D. Tex.) to make the federal reserve system a central government-owned bank.

Cross proposed that the secretary of the treasury be authorized to buy \$140,000,000 worth of stock in the 12 central reserve banks now held by the 7,000 reserve member banks. Rep. Williams (D. Mo.) contended such a move would be an unconstitutional seizure of property and the proposal was rejected 112 to 61.

FRANK CONGRESSMAN WASHINGTON, May 10. (AP)—Rep. Summers (D-Tex) believes a bit of frankness doesn't hurt. Or was he joking? Speaking on behalf of a Texan canal project before the national rivers and harbors congress, he said with a grin that he would "explain my presence and that of some other congressmen." "We know there is an election next year," he said, "and if we can get our names connected with one of these projects the publicity won't do us any harm. Thank you, gentlemen."

Make HAPPINESS a Habit

Wouldn't you like to step up the amount of enjoyment you get from life? The knack of keeping fit is largely a matter of regular habits. Your happiness may be hampered by common misapprehension due to insufficient "bulk" in your meals.

Did you know that your grocer has a natural food which corrects this condition? Kellogg's ALL-BRAN, eaten regularly, supplies generous "bulk." Also vitamin B and iron.

The "bulk" in ALL-BRAN is gentle—and safe for normal individuals. More effective than the "bulk" in soft vegetables, as it does not break down in the body.

Two tablespoons daily are usually sufficient. Chronic cases, with each meal. If not relieved this way, see your doctor.

Isn't this natural food much better than taking patent medicines? Serve it as a cereal with milk or cream, or use in cooking. Get Kellogg's ALL-BRAN at your grocer's. It contains much more "bulk" than part-bran products. Made by Kellogg in Battle Creek.
