MAHD Board To Affiliate With Methodist

Members of the board of directors for the Muleshoe Area Hospital District met at 8 p.m. Wednesday in the Muleshoe City Hall.

Other than the four board members, and chairman Buck Campbell, were City Manager Dave Marr, West Plains Medical Center Administrator John Chisholm and Cleta Williams.

Following a discussion with Chisholm, the board voted unanimously to affiliate with Methodist Hospital of Lubbock.

Through the affiliation, the board will retain control of the hospital, but Methodist Hospital will provide expertise in the areas of budgeting, operations, supplies, and other support services.

Methodist Hospital will be affiliated on an advisory basis only, and the five member board, as elected during the June 20 Muleshoe Area Hospital District election, will retain complete control of the hospital once a transfer has been completed from the existing board for West Plains Medical Center.

Once paperwork is completed and the MAHD board takes over the hospital, the current board for the hospital will cease to exist.

During a special, called meeting on Wednesday, July 12, at 8 p.m., the board will open bids for a depository for the hospital and award the depository.

A discussion was held on bringing the nursing home up to compliance for medicare. It is expected to cost around \$36,000 after an inspection last week prompted more requirements to what must be done before the nursing home can qualify.

1989-90 Bird Hunting Regulations Approved

Dove hunting regulations set by the Texas Parks and Wildlife Commission for the 1989-90 hunting season are similar to last year's, with the exception of a modified bag limit for mourning doves during the four-day white-winged dove season.

Meeting in Austin June 15, the commission adopted regulations for early season species, including doves, rails, gallinules and teal ducks.

Mourning dove seasons for 1989-90 are: North Zone, Sept. 1-Nov. 9; Central Zone, Sept. 1-Oct. 30 and Jan. 6-15; South Zone, Sept. 20-Nov. 18 (Nov. 14 in the Special White-winged Dove Area), and Jan. 6-15.

The bag limit in all three zones is 12 mourning, white-winged and white-tipped doves in the aggregate, including no more than two white-winged and two white-tipped doves per day. The possession limit is twice the daily bag limit. Shooting hours are one-half hour before sunrise to sunset.

The four-day whitewing season in the Special White-winged Dove Area is Sept. 2-3 and 9-10. One fully-feathered wing is re-

HARVESTING THE AREA ONION CROPS--Thursday afternoon, approximately 100 workers were in a field just east of the north county line, harvesting the early onion crops. Last year, much of the onion crop had to be discarded, due to untimely rains. This was not a problem this year, and a bountiful harvest is resulting. (Journal Photo)

around Muleshoe

Muleshoe Youth Baseball will be hosting the Bronco League Tournament in Muleshoe July 10-14.

Bovina 10-12 year olds will be playing here, along with Friona 10-12 year olds.

Charlie Villarreal, president of the Muleshoe Youth Baseball League said a concession stand will be available.

The winner of the tournament in Muleshoe will advance to the area tournament, which will be played in Hereford.

Muleshoe Chamber of Commerce and Agriculture Manager John Smith, has announced his resignation, effective Saturday, July 15.

CofC President Robert Montgomery said, "We appreciate what John has done to help stabilize the Chamber of Commerce. We will accept his resignation, with regrets. He plans to do some traveling in his new travel trailer."

Smith became manager of the CofC last fall, following resignation of the previous manager, who moved to Big Spring.

On July 21-23, CYO will be sponsoring a Co-Ed Baseball Tournament for those ages 21 and under.

Entry is \$75 per team and T-shirts will be given 1st-3rd place winners.

For more information, contact Shorty Flores at 272-4707 (w) or 272-5066 (h) after 5 p.m. You may also call Gary Watkins at 272-3294 (w) or 272-3270 (h) or Michael Del Toro at 272-3530.

There will be a meeting of Muleplex Production Co. on Thursday, July 13, at 7 p.m. in the Muleshoe State Bank meeting room.

Purpose of the meeting is to report on the recent production and solicit comments regarding future productions.

All members and interested persons are urged to attend.

Membership dues are \$1 per year, and those paying their dues before September 1, 1989 will be charter members and eligible to vote at the annual meeting.

Bailey County Commissioners will meet in regular session at 10 a.m. tomorrow, Monday, in the Bailey County courthouse.

Items to be reviewed will be the county treasurer report for June and departmental reports.

Discussions will be held on the ambulance service and the Department of Human Resources Summer Cooling Assistance Program.

Commissioners will provide for a public hearing on the proposed county budget and consider budget amendment to FY1989 budget; and will consider miscellaneous items.

Sue Michelle Haire, daughter of Vera Haire, of Muleshoe, was named to the President's Honor Roll for the 1989 Spring Semester at Texas A&M University, College Station.

She had a grade point average of 4.0 as a sophomore pre-med student. She is a 1988 graduate of Muleshoe High School.

Sheri T. King, Amarillo, and daughter of former Muleshoe residents Jan and Charles King, has been selected as a new member of the Outstanding College Students of America.

She is the granddaughter of Mr. and Mrs. J. E. McVicker and Elizabeth King, all of Muleshoe. Cont. Page 6, Col. 3

Plant Clinic Slated Here Next Week

The annual homeowners Plant Clinic will be held again this year in Muleshoe on July 18.

Many different types of problems can occur to the home landscape plants, such as trees, shrubs, lawns, flowers, and vegetable plants. This is your chance to receive professional assistance on questions which you cannot answer. These home visits are free and available to everyone.

Homeowners who are having problems with their landscape horticulture are asked to call the County Extension Office at 272-4583, in Muleshoe, and leave your name, address and type of problem you have.

A schedule will be developed and home visits will be made by Extension personnel to assist homeowners. Those interested in a home visit are asked to call the Extension office no later than noon on Monday, July 17, to be scheduled for a visit from the following Extension specialists from the Lubbock center:

Dr. Roland Roberts, vegetable specialist; Dr. Harold Kaufman, plant pathologist; or Dr. Pat Morrison, area entomologist.

For those at work, a visit can be made to your residence, and you will be notified at a later date the diagnosis made on your particular problem. For persons expecting to be out of town, plant samples may be taken to the Extension office to be checked by the team of specialists.

Remember that noon July 17 is the final time you may schedule an appointment.

MAC Planning Next Drawing During Fair

With a July 4th MAC Buck drawing behind now, the Muleshoe Activities Committee, is busy planning for the next drawing.

Held on a quarterly basis, the next drawing will be in September, and will be held at the Bailey County Coliseum during the Bailey County Fair in September.

Work is already underway on the gigantic MAC Buck Christmas drawing scheduled shortly before Christmas.

Ticket sales are in full swing now for the JennyMac truck which will be given away during the Christmas MAC drawing. They are \$10 each, for the 1989 bright red Ranger pickup.

MAC expressed it's appreciation for all the local business support -- and terrific team effort.

A quarterly MAC meeting will be held in the near future.

Leader Lavern James read a letter from former member, Jewel White.

Receiving charms for 10 pounds weight loss were Ruth Clements, Lucille Harp and Alma Robertson. Cleta Robertson received a charm for a 20 pound loss. Cleta also received a charm for winning the 'clown' contest.

Best loser for the week was Cleta Robertson; first runner up was Evelene Harris; second runner up was Ernestine Steinbock.

Best loser for the month was Cleta Robertson; first runner up was Zanea Kelly and second runner up was Rose Sain.

Congratulations to Cleta Robertson for being crowned best loser for the past six months. She received a gift from each of the members and also a crown charm. Zanea Kelly was first runner up. She received a gift from Cleta and a \$10 check from the Club, and also a charm. Third place was a tie between Ruth Clements and Aurora Mata; fourth, Alma Robertson; fifth, Betty Jo Davis; sixth, Lavern James; seventh, Lucille Harp; eighth, Mollie Davis; ninth, Nan Gatlin; and tenth, Orvdie Burris.

We are very proud of our TOPS Chapter. We, as a group, lost a total of 114½ pounds since January.

Meeting adjourned with the Goodnight Song.

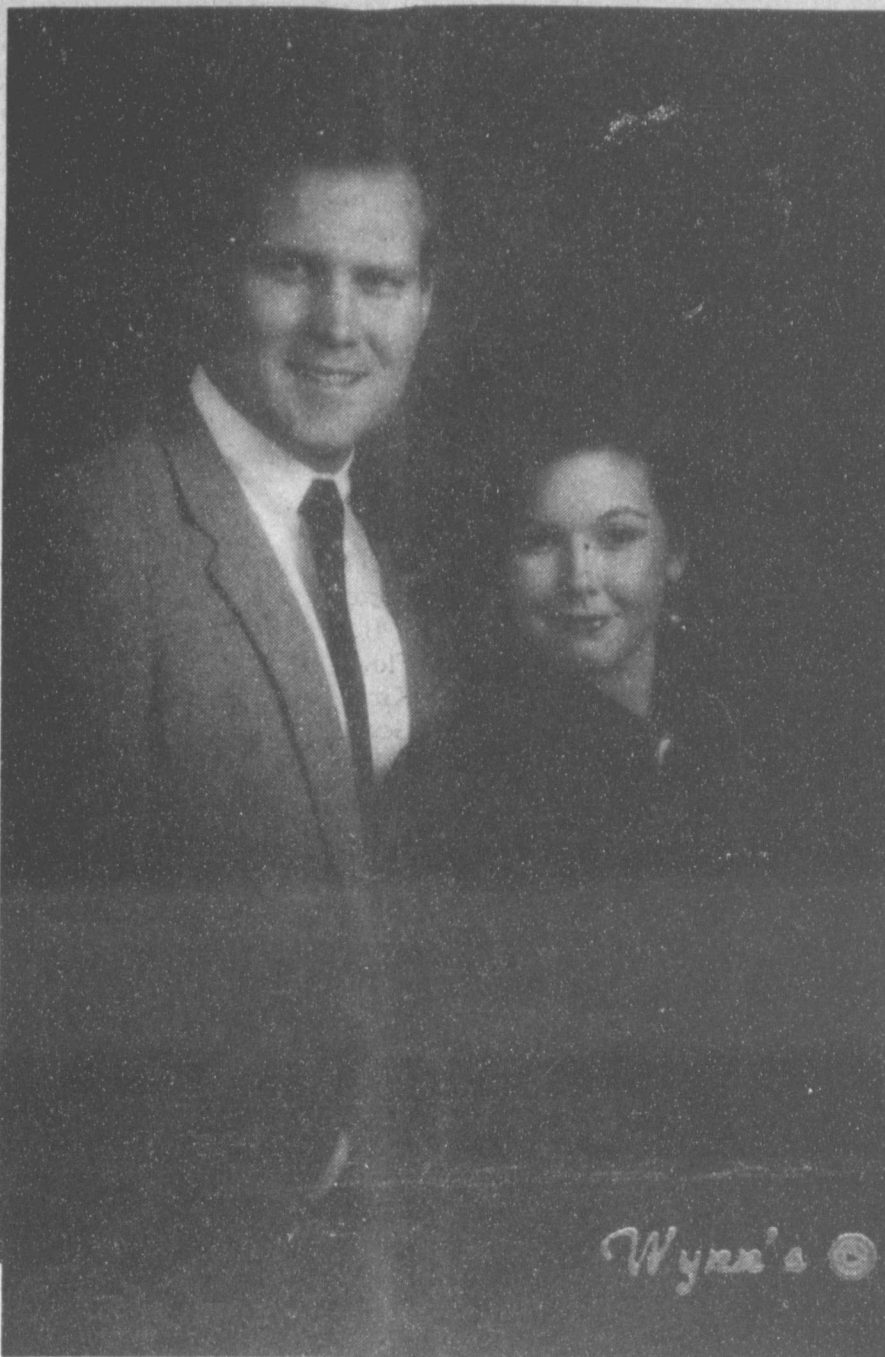

Library News by Anne Camp

About 54 boys and girls were on hand Wed. afternoon to hear a talk made by Barry Cowart, Veterinarian at the Muleshoe Animal Clinic. He told them about summer pet care, inoculations for rabies; the importance of testing for worms in dogs, and treatment for them and how they affect their heart, if left untreated. After his talk he answered their questions such as when they need to take them to see a vet...signs that they are sick, and about taking a pet on vacations in a car. His talk was interesting and informative, and we appreciate his coming very much. So if your child came home and told you they saw real dog hearts at the library...believe them...they did.

Friday, July 7 was the last day to turn in lists to be counted on the Summer reading club. Next Wednesday, July 12 will be awards day with the program starting at 2:30 p.m. till about 3:45. Refreshments will be served by the Friends of the Library who co-sponsor the 1989 Summer reading club.

Never underestimate your own ability; others will do it for you.

People who sit up late at night rarely ever get up early in the mornings.

ENGAGEMENT ANNOUNCED--Helen Dew of Dallas is announcing the engagement and approaching marriage of her daughter, Christine Dew, to Lane Cox, son of Dr. and Mrs. R. H. Cox, Jr. of Amarillo. Vows will be exchanged at 2 p.m. August 5, in Ford Chapel at First Baptist Church, Lubbock. They are both students at Texas Tech University, Lubbock. Cox is the grandson of Lela and Alvin Allison, Muleshoe and Marie Cox, Farwell. (Guest Photo)

Relax And Be Good To Yourself

Finding time for oneself is self-gratification and not selfishness, according to a family life specialist with the Texas Agricultural Extension Service.

"Too many people feel they are not entitled to self-gratification, even though recent studies tell us about the close association between physical illness and mental stress and fatigue," said Dorothy Taylor.

"When a person takes time out for himself, to do for himself and to take care of himself, he reflects a good self-image," Taylor said.

She said that all too often, women in particular, feel they cannot leave their family or job responsibilities even for a short period of time. They eventually end up taking away from the family and job, anyway, by being ill more often, less responsive to others or by turning against oneself because of exhaustion.

"All adults and children need enough time for themselves to relax, unwind and to escape responsibility," Taylor said. "Private time is absolutely

Ms Bowers Attends Alpha State Convention

Virginia Bowers, president of Epsilon Delta Chapter of the Delta Kappa Gamma Society International, recently returned from the 60th Alpha State convention in Abilene. The convention began on June 15 with a leadership conference for chapter presidents stressing skills needed in the leadership role.

Leaders and members from Texas were privileged to hear the Immediate Past International President, Dr. Barbara A. Baker, speak on the history and the future of the society, according to Ms. Bowers. "Other convention highlights were the 60th Birthday Luncheon where members were reminded of the role Delta Kappa Gamma has had in education and the Founder's Dinner where the new Texas officers were installed and a moving tribute to the original founders was presented. "Delta Kappa Gamma was the dream of Dr. Annie Webb

Blanton, an early Texas educator. She and a group of colleagues from across the state met in Austin in May, 1929 to found the society. Their goals and ideals are still pertinent today as the organization seeks to improve education through its members.

"The convention provided a time of fellowship through the many workshops lead by state leaders.

"Miss Dorothy Stallings, state president of Waco, presided over the business meeting and the executive session where chapter business was conducted with almost 2,000 members in attendance."

The 61st state convention will be held in Lubbock in June 1990.

Faith that is impossible today often becomes possible tomorrow. Wait and see.

Tricia Campbell Honored At Wedding Gift Brunch

Trisha Campbell, recent bride of Scott Campbell, was honored with a Wedding Gift Brunch in the home of Sydna Flowers at 11:30 a.m. on Saturday, July 1.

Guests were greeted as they arrived by the honoree, her mother, Ann Rodgers; Lynn Campbell, mother of the groom; and Sydna Flowers.

Marie Lenau provided arrangements of daisies, day lilies and gladiolus from her garden, and the serving table was centered with an arrangement of hibiscus and baby's breath, also from Mrs. Lenau's flower garden.

Lighted tapers surrounded the

arrangements on a table laid with a white linen cutwork cloth, with brass and crystal used to complement the serving.

Guests were treated to breakfast casseroles; fresh fruit compote, congealed asparagus and avocado salad, along with assorted miniature sweet breads and muffins, along with Sangria.

The honoree was presented an orchid corsage and a large, beveled wall mirror from the hostesses.

Hostesses included Sydna Flowers, Terry Young, Melba King, Janelle Turner, Pat King, Georgette Isaac, Jo Rempe and Julie Cage.

Tips Aired To Help Latchkey Children

Latchkey children, those school-age youngsters that must cope each day with empty homes until parents return from the workplace, are a growing breed, numbering from two to six million across the nation.

These children need special guidance in self-help, said Dr. Sarah Anderson, family sciences specialist with the Texas Agricultural Extension Service.

Anderson said that latchkey youngsters need to learn such self-care skills as how to use their time wisely, how to plan and prepare nutritious snacks, and how to deal with various emergency procedures.

Parents can provide a safer environment for their latchkey children by instructing them on a number of items, including the following:

--Keys. Instruct your child to keep housekeys in a pocket, purse or wallet.

--Schedule. Set up a daily schedule so that the child knows what to do when at home alone.

--Safety rules. Establish and post house safety rules on use of appliances, answering the door and telephone, and play activities.

--Emergency procedures. Post emergency telephone numbers and addresses near the phone,

and make sure your youngster knows how to report an emergency. Practice these steps and enroll the child in a first aid or life skills class.

--Check-in. Set up a check-in routine so that a responsible adult knows when the child has arrived home. This could involve a phone call to your workplace or to a neighbor.

--Friends. Do not allow friends to visit your child when he or she is at home alone. Unsupervised play may get out of hand.

--Quality time. Spend time with your child each day. Many children are fearful of staying alone and need an understanding adult to answer questions and listen to concerns.

--Entertainment. Provide some type of safe home entertainment or simple chores to ensure that your child won't be bored after school.

--Travel. Do not allow your child to experiment with new routes to and from school. If possible, have your youngster walk to and from school with friends. Emphasize the need to come straight home.

--Alternatives. Keep searching for ways to provide adult supervised care. The local PTA, recreation department of other community agency may offer a school-age child-care program.

In Fashion

As more and more spring and summer garments are displayed in shops, comfort and easy care fabrics are a delight to shoppers.

Cool, crisp chambray is a warm weather classic which you can wash and wear over and over again. The shirt-waist-style dress has contin-

ued to be popular over the years. Denim is now available in a lighter-weight fabric.

Many of the spring fashions are matched shirt-style blouses and swing skirts. Together they look like a shirtdress, but can be mixed for a variety of outfits.

Education Process For Action Vital Today

Public policy education should be designed to increase the level of understanding among people so they have more complete knowledge for making decisions on public issues.

This definition was given by Dr. Barry L. Finchbaugh of Kansas State University, state leader in agricultural economics for the Extension Service in Kansas, who addressed a conference of the Texas Agricultural Extension Service in College Station last week.

Finchbaugh said, "Public policy is an identifiable action course hammered out in the political arena to increase satisfaction of relevant interest groups and to improve the general welfare."

He said the process is developed through debate and compromise by diverse interests with divergent views about

doves. If research currently proposed by the department indicates the new regulations are not adversely affecting dove populations, the bag limit south of Del Rio may be adjusted in the future.

The season framework established by the U. S. Fish and Wildlife Service (USFWS) for 1989 continued the suspension of the early teal season started in 1988. Department biologists, together with other biologists in the Central Flyway, have sought to have the special teal season restored for the 1989 season but have been unsuccessful. The suspension of the teal season is due to continued drought on the breeding grounds.

Seasons and bag limits proposed for other early-season species are:

Rails, Sept. 1-Nov. 9, bag limit 15 King and clapper rails, possession limit 30; bag limit 25 Sora and Virginia rails with a possession limit of 25.

Gallinules, all species (common moorhen and purple gallinule), Sept. 1-Nov. 9; bag limit 15 per day, possession limit 30.

Shooting hours for rails and gallinules are one-half hour before sunrise to sunset.

The season remains closed on red-billed pigeons, band-tailed pigeons and shorebirds.

economic and social problems and the government's role in dealing with them.

Finchbaugh said issues relating to public problems often are stated in terms of symptoms or even a solution, rather than as public policy.

The Kansan said, "The Extension Service is recognized as the only objective game in town when it comes to policy education."

Finchbaugh said, "Public policy education is where the action is, but it takes guts to teach in this area because it can get highly controversial."

He said many special interest groups don't want public policy education taught to everyone, since success of these groups depends on keeping the public uninformed.

The Extension educator said public policy teachers, to be successful, should advocate a method of non-advocacy.

Finchbaugh said an outline for an educational approach should include selection of a timely controversial subject, a search of the literature and scientific studies, creation of a decision-making environment, definition of the problem, examination of alternative solutions and their probable consequences, discussion groups and then leaving selection of "best" alternatives to the public.

"In public policy education, participants also should learn the proper role of government relating to the issue," he said.

He said Texas is taking the lead in national rural policy work,

with a massive effort by Dr. Ron Knutson, Extension economist-marketing and policy, and Dr. Dennis Fisher, Extension economist-business development, providing leadership through a series of state and regional rural development policy workshops.

NEWS VIEWS

Robert Dole, Senate Minority Leader:

"Certainly most Americans would rather not have to pay anything and receive benefits. That's the American way. But we're broke."

George Bush, President:

We obviously deplore the violence and the loss of life, urge restoration of order with recognition of the rights of the people. And I'm still hopeful China will come together."

Thomas Foley, House Speaker:

"President Bush is the President of the United States, and in every way that I can work cooperatively with him, and my colleagues in the Congress, I want to do so."

Harry A. Blackmun, Supreme Court Justice:

"One wonders whether the majority still believes that race discrimination—or more accurately, race discrimination against non-whites—is a problem in our society."

A hard task is eased by the application of immediate energy.

A little confidence in a person can often produce great results.

BIBLE VERSE

"For ye know the grace of our Lord Jesus Christ, that, though He was rich, yet for your sakes He became poor, that ye through His poverty might be rich."

1. Who wrote the above statement?
 2. To whom was he writing?
- Answers to Bible Verse
1. Paul the Apostle.
2. The church at Corinth.

**Experience —
We consider it money in the bank.**

A face lined by dry, hot summer days, harsh winter, and seven-day work weeks. But there is sparkle, too, remembering warm spring sun or gentle rains and acres of cotton.

Back when he started farming, a man's labor represented the majority of his investment in the farm. Over the years, when he's had to invest in land and equipment, he's turned to his Land Bank Association for competitive, long-term financing. **Cancer Unit To
Be Here On
Wednesday**

The Breast Cancer Screening Project of the Don and Sybil Harrington Cancer Center and the High Plains Baptist Hospital of Amarillo will begin a community outreach clinic in Muleshoe beginning Wednesday, July 12, from 8-11:30 a.m. at the West Plains Medical Center. The Project is designed to educate the community about the importance of early detection of breast cancer.

Donna Drake, R.N., M.N., said the clinic will provide low cost screening which includes a breast examination, individualized breast self examination instruction and mammograms. The clinic will be staffed by professionals, including a Registered Nurse specially trained in breast cancer detection.

Currently, the most effective method known to win the battle against breast cancer is early detection. Early detection is best done by following the guidelines recommended by the National Cancer Institute for breast cancer screening for women who have no signs or symptoms of breast cancer:

1. Learn and perform breast self examination every month.
2. Have a physical examination including the breasts every year.
3. Have a mammogram according to the recommendations by age.
4. Age 40 to 50, a mammogram every one to two years; over 50, a mammogram every year.

For more information about the project or to make an appointment, please call the Harrington Cancer Center at (806) 359-4673, or the toll free number 1-800-274-4673. Locally, for more information, contact the West Plains Medical Center at 272-4524.

A COLORFUL DISPLAY--Tuesday morning, Hellen Adrian and her two daughters, Kristi and Gracie, set up a very colorful display at the Bailey County Coliseum. Prickly Pear Cactus New Economic Asset

Ranchers and other landowners of the Coastal Bend, Southwest and South Texas are working to turn a thorny problem into an economic asset.

They are studying options for diversifying and marketing prickly pear cactus. Area producers are being supported in this project by specialists with the Texas Agricultural Extension Service and researchers with Texas A&I University, Kingsville.

"This thorny cactus, which has served as a feed for cattle during many drought periods, represents another natural resource of the area. Ranchers and others are interested in exploring its options for increasing agricultural profitability," said Dr. Wayne Hanselka, Extension Service range specialist at Corpus Christi.

He said a conference called

"Developing Prickly Pear as a Natural Resource" is set for July 14 at Texas A&I University.

Keynote for the conference will be U. S. Rep. Eligio "Kika" de la Garza of Mission, who chairs the House Agriculture Committee.

De la Garza will be joined by Dr. Charles J. Arntzen, deputy chancellor of the Texas A&M University System and dean of A&M's College of Agriculture and Life Sciences; Dr. Zerle Carpenter, director of the Texas Agricultural Extension Service; and Dr. Don Hegwood, A&I's dean of agriculture and home economics.

Hanselka said the continuing and worsening drought in South Texas has caused many producers to request such a conference.

He said many area cattlemen are destocking or have already sold all of their foundation herds because of the drought. Those who still have cattle are burning the thorns off prickly pear so that cattle can eat the pads, since grass and hay are so limited.

"This practice of singeing the spines off the pear has kept many cattle alive during droughts in the past. It has, in fact, been a feeding alternative used by area cattlemen for more than a hundred years, according to written records," Hanselka said.

However, the conference on developing prickly pear as a natural resource has a broader goal than just serving as cattle feed, according to Hanselka and Joe Paschal, Extension Service livestock specialist based at Corpus Christi.

Some producers, who are searching for new crops, want to learn more information on how the cactus can provide "nopalitas" to be eaten as vegetables or used as a salad ingredient.

The pear also provides fruits, called tunas, pears or apples, that can be eaten raw, candied or jellied.

"A small market already exists for these products, but perhaps this possibility can be expanded into a new diversified agricultural industry in Texas," Hanselka said.

He said many questions have to be answered before the full potential of prickly pear cactus can be determined.

To help answer these questions as people explore the economics and use of prickly pear as a food for animals and humans, a panel of experts will discuss its nutritional values, feeding techniques, and supplemental rations needed for cattle.

Other experts in producing and marketing prickly pear for fruit or vegetable uses will address

potentials in these areas.

At the close of the conference, an optional tour is planned to the Texas A&I prickly pear nursery, where collections of cacti from a number of countries are being evaluated.

All interested people are invited to attend. Admission is free, but a small charge will be made for published proceedings.

To assist Hanselka and Paschal in planning the activity, those wishing to attend should contact them at the Texas A&M Research and Extension Center at Corpus Christi by July 10. Call (512) 265-9203.

Letter To The Editor

July 4, 1989

To the Editor:

We, the American Legion members of "Ben Richardson Post 403" of Muleshoe and the surrounding area, would like to take this means and opportunity to express our dismay and disgust concerning the Supreme Court ruling that it is merely an expression of free speech to burn, spit on, or trample the "American Flag."

The burning of the "American Flag" is not an expression, but rather an action. Such an action being a seditious act bordering on being traitorous.

We take this as an affront to our service to that "Flag" and feel as if we ourselves have been spat on, and trampled. Surely, the "Statue of Liberty must have shed a tear!

We also feel that our "Flag" is a symbol of our Liberty, our "Bill of Rights," and our "Constitution;" and any persons, or groups that so desecrates our "Flag" should at that time forfeit their rights to any protection under that "Flag."

We urge everyone whom feels as we do should write or call our Representative Larry Combest, and our Senators Lloyd Bentsen and Phil Gramm urging to an amendment (without riders) to overturn this ill advised ruling.

For God and Country.

Use the right appliance for the job.

When it's time to carve the turkey, there are better things to use than a chain saw.

And when you need to heat and cool your home, there are better things than a heat pump.

A heat pump can't cool your home in summer as well as a high-efficiency air conditioner. And it can't warm your home in winter as well as a natural gas furnace.

Think of winter this summer. For comfortable efficient heating in your home, the most effective appliance ever made is a natural gas furnace. Period.

Sen. Gramm Introduces New Flag Law

U. S. Sen. Phil Gramm of Texas is co-sponsoring a constitutional amendment to permanently ban the mutilation of the American flag.

"It is outrageous that America could condone the burning of an American flag by anti-American protesters," Gramm said.

The court case grew out of an incident in the streets of Dallas when an American flag was burned in protest outside the 1984 Republican National Convention. As the flag lay afire on the pavement, demonstrators surrounded it and chanted, "America, the red white and blue, we spit on you."

"This is not a partisan political

issue," Gramm said. "This is an issue that touches the hearts of Americans, people who are proud of their families, their hometowns and their country."

"We Texans treasure the right to free speech, but I believe that the vast majority of Americans also reject the ridiculous notion that burning the American flag is somehow protected by the Constitution," he added.

"We may not be able to stop lunatics in the Middle East from attacking the American flag, but we will not be compelled to grant our own hometown radicals approval to mutilate the symbol of our country," said the senator.

The specific wording of the proposed amendment is:

"The Congress of the United States and the States have the power to prohibit the desecrating, mutilating, defacing, defiling, or burning of the flag of the United States."

Lubbock Sets Track Meet For July 15

Lubbock Parks and Recreation will be sponsoring the 1989 T.A.A.F. Regional Track Meet on Saturday, July 15, at R. P. Fuller Stadium on the Texas Tech campus. Field events begin at 9 a.m. and running events start at 10 a.m.

Events are available for males and females in six age brackets: 10-under, 11-12 year-olds, 13-14 year-olds, 15-16 year-olds, 17-18 year-olds, 19-over.

Athletes may register from 7-9 a.m. on the day of the meet, or mail check payable to the City of Lubbock, ATTN: Tod Ryden, P. O. Box 2000, Lubbock, TX 79457. Entry fee is \$1 per person per event.

Each participant may enter three events including relays and may enter in only one age division. All participants must

have a current T.A.A.F. card which will be available at the meet for \$1.

Medals will be presented to 1st-3rd places and ribbons will be given to 4th-6th places. In addition, the top two places in each event for each division will represent Region Nine at the state meet in La Porte, Texas on August 3-5.

For more information, call Tod Ryden, Meet Director, at (806) 762-6411, ext. 2690.

Deathless Day Still Eluding Texas Drivers

As of June 15, Texas had yet to achieve the "One Deathless Day" sought by the Texas Coalition for Safety Belts.

At least one traffic fatality had been recorded on each of the first 20 days of the summer campaign, which began Saturday, May 27. The coalition's goal is one day without a traffic death during the 101 Days of Summer. The promotion will continue through Labor Day, September 4.

From May 27 through June 15, according to preliminary counts from the Department of Public Safety, the day with the lightest toll was May 31. Only one death has been recorded on that day. The season's worst day so far was May 28th, with 19 fatalities.

The last deathless day on Texas roadways was January 5, 1977, more than 12 years ago.

The coalition encourages all Texans to buckle up and drive carefully during the upcoming summer days ahead.

Things they never told you about a heat pump.

Fact # 4

When you hear a sales pitch for a heat pump this summer, you need to think ahead to next winter.

A heat pump does such a poor job heating in our raw West Texas winters, they have to hook it up to a furnace to keep your family from being miserable when it gets cold.

After all, if your furnace has done a good job keeping your family warm all these years, does it make sense to attach something to it that doesn't work anywhere near as well?

Diminished 'Wetlands' Film Shown

By: R. A. Bradley

Thirteen Kiwanians, two honorary members, one guest and Sweetheart Justine Hanes met Friday morning at the Old Corral. President Keith Turner called the meeting to order. Eddy Morris led the club in the pledge to the flag and the invocation was given by Don Martin.

Kevin Harris had the friendship coin, and since being Fireworks Chairman, Kevin must have stayed home and recuperated. Maybe he will find a friend by next Friday.

It seemed that everyone was still recuperating from the 4th.

The Kiwanis Club wants to say a Big, BIG 'THANK YOU' to everyone who came out and bought fireworks from us. Our sales were down this year but we sure appreciate our friends who help support the Kiwanis Club and the projects we try to do.

Honorary Kiwanians present Friday morning were Lacy Morris and Jon Keith Turner. We sure appreciate these young people for getting up early and coming to Kiwanis. Our guest was Bryon Clapp, son of Don Clapp. Thanks, Byron, for coming our way.

It is always good to have our sweetheart, Justine Hanes. Having Justine present is as good as a booster as taking a shot of Geritol. The sad part about it is we all know that Justine will soon be going off to school, and we will sure miss her then!

Our program was a video from the Wildlife Refuge on "Wetlands in Crisis," and it seems that in the last 80 years we have lost some 450,000 acres of wetlands that is needed for our wildlife and waterfowl.

There is a big drive to try and restore as much of this wetland as can be possibly put back.

Some 20,000 acres have been restored. It seems that we too often take for granted that those things will always be around for us to enjoy. It seems that 'we' are the biggest destroyer of these things -- lakes, rivers, all wetland which produces our fish we like to fish for -- fowl we like to hunt -- and wildlife we love to look at. So let us all get involved and help preserve our 'wetlands.'

Speaking of fishing, one of our Kiwanians, Merlyn Neel, was reported catching a 22 inch rainbow trout. If Merlyn is the kind of fisherman that Keith Turner is, by the time he gets home and tells all about this catch, it will be a 22 foot killer whale and ready for Sea World. Congratulations, Merlyn!!!

Friday we enjoyed our cook out and our "personal parade and having our friends and families here helping and visiting. Our thanks to each and everyone who participated. The Fire Dep. the Ambulance Service, Dent and Co., Mr. and Mrs. J.C. Pearson, Sr., Conrad Cumpian and Five Area Telephone are just a few of the many that helped make our celebration special.

Residents having birthdays in July are: Ella Faubus 7-29-1898; John Seid 7-25, 1900; and Vera Gunstream 7-5, 1898. We wish you all a Happy Birthday.

Glenda and Jonessa Jennings came to lead and play songs for our sing-a-long Wednesday. Elsie Kendall attended with Guy Kendall; Erwin Nieman attended with Mildred Nieman; Lois Baldwin with Fluff; Holly Milsap

with her mother, Pearl Cox; and Earl Ladd with Clemmie Ladd.

Sunday Wenona Gibson was visited by Diana Welch and Jenny Clark.

Stella Morgan's grandchildren and great grandchildren from Lewisville and Burleson. Jane and Andy Ponder, Jennifer and Amy McManis, Rob Pierce along with local relatives Bobbi McCray and Elsie Williams visited her over the 4th of July holiday.

Ora Roberts was visited by her great grandchildren Tammie and Jerry and their children Wednesday.

Several of our residents went out with their families to watch the parade and the Fire Works the 4th. Among those going out were Meda Hughes, Clemmie Ladd, Guy Kendall, Pearl Cox, Emma Schuster and Mamie Askew.

Rev. and Mrs. Mike Doyle visited the residents Tuesday in and out of their rooms.

Wednesday afternoon Rhonda and Tammy from Honey Comb shampooed and set Cora Duncan's hair.

Barry Moynihan visited Guy Kendall, Lynn Bratcher and Stella Morgan Friday.

Barry Bradley pastor of the First Baptist Church in Muleshoe, visited the nursing home Thursday morning.

GOOD FRUITS

"The wisdom that is from above is first pure, then peaceable, gentle, and easy to be entreated, full of mercy and GOOD FRUITS."

There are two forces at work in this world, evil and good. We have the freedom to choose between these two things.

"O taste and see that the Lord is good: blessed is the man that trusteth in him."

Coleman Adv. Serv.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

MAKING FAMILY LIFE MORE FUN

Fishing Trips
Nothing unites a family so much as planning a trip or a vacation. If it happens to be a fishing trip, all the better.

Part of the fun of a family fishing trip is choosing the campsite.

That feeling of unity usually begins with the family gathered over a map of the area you'll be fishing. Routes to the site are discussed. Choice of campsites and rivers is decided and each family member feels that he or she is part of the decision. The U.S. Geological Survey points out that a good map, which can be found at your nearest map dealer, will not only show distance and direction, it will describe the shape of the land and its natural and man-made features.

Here are some quick fishing tips you might want to jot down:

- When fly casting, always cast upstream.
- When fishing for bottom fish, such as catfish, use an odorous bait such as cheese, meat or bread dough.

With a good map and a good fishing spot, your family should have a memorable vacation.
