500 PAMPANS EXPECTED TO HEAR GYPSY

Members of Pampa churches have been asked to notify their ministers if they intend to go to Amarillo tomorrow night to hear evangelist Gypsy Smith at the Amarillo Municipal auditorium.

High Hat

Vice President Garner's rather pained grin can be blamed directly on his failure to repeat the coup of a year ago when he arranged with President Roosevelt to dispense with the customary exchange of formal dinners, chiefly because he has an intense dislike of climbing into white tie and tails.

10 KILLED IN CAR ACCIDENTS

Highway casualties Saturday and Sunday swelled the week-end traffic toll in Texas to 10.

INDIANS DEMAND RAIN MAKER FROM MUSEUM

WASHINGTON, Jan. 10 (AP)—Government officials whooped up a reception today for two Indian elders of the water busters clan headed east to recapture Thunderbird, an ancient rain maker.

BORGAN WILL TAKE CHARGE AT BANQUET

Pampa Boy Scout leaders and a group of scouts will go to Borgan tomorrow afternoon for the annual meeting of the Adobe Walls council. The first business session will be at 3 o'clock in the American Legion hall.

(By The Associated Press) Statesmen and warmakers today turned to the conference table to plot their national strategies while Japan took another deep bite into China, and the two Spains—government and insurgent—struggled for the advantage that might decide their war.

An imperial conference to decide formally on "Japan's unshakable policy towards China" was called in Tokyo as Tsingtao, rich North China seaport, capitulated to occupation without a struggle.

The Japanese conference was ordered for tomorrow in the presence of Emperor Hirohito after Premier Prince Fumimaro Konoye laid before the Emperor a secret government decision on future policy in China.

The prospect that the Rome-Berlin axis would become the dominant influence in the Danube valley was a subject of the dinner issues before the conferees.

OKLAHOMA SCHOOLS TO GIVE SAFETY LESSONS

OKLAHOMA CITY, Jan. 10 (AP)—The schoolmaster moved in today where the policeman couldn't tread and began to inject gentle doses of traffic safety into the daily routine of work at Northeast High school.

## Exchange

Eight Reasons Why Teachers Get Gray:  
1. The bluffer—the boy with the empty head and the loud voice.  
2. The fellow who took the course before and knows just what's coming next.  
3. The sweet little beauty that doesn't know what it's all about.  
4. The silent bird who might have something to say but keeps it to himself.  
5. The fellow who hasn't read quite that far in the text and attempts to stage a filibuster and throws the entire class off the track.  
6. The deadly serious young radical that knows only that he's radical.  
7. The boy taking the course just for the credit.  
8. The sleepers—they don't count unless they snore.

## Recreation For Young Pampanos Being Planned

### Plan Approved by School Officials

Members of various civic organizations in Pampa have seen the need for a recreation center and are taking steps to relieve the youth situation in Pampa. Three men have been interviewed to find out their opinions concerning the situation: "If it is kept clean and is properly supervised it is a good thing to help the young men of Pampa," Supr. R. B. Fisher.

## Don't Cheat

Once again mid-term approach is upon us. This system is very convenient but its effectiveness can be vouched for by anyone. Also, as you can see, this is plenty tough on the good students—they work and dig and the parasites, speaking mildly, peek and copy. Friendships can often be carried too far at such times.

## Enrollment for Second Term to Begin This Week

### 5 Departments Give Half Unit Subjects

Students will enroll for the second semester any day during the week of January 10-14 at the home room period. The whole unit courses will be continued; half unit courses are offered to all who want them or need them.

## School Praised By McConnell

The long delay in "writing up" F. S. McConnell, school board member, can be explained by the fact that he lives out in the wilderness—not by any hesitation on the part of any of the staff.

## Fears Draw Near

Dread and fears are now entering the minds of the majority of the students to a great extent, as the semester draws to a close and with this comes the usual, but dreaded, final examinations.

## The Last Straw

A careful driver approached a railroad. He stopped, looked and listened. All he heard was the gas tank.

## Explanation of Courses Given In Assembly

Principal L. L. Sone spoke on closing activities at assembly last Wednesday. He said there were to be regular classes until Tuesday, January 18, at which time examinations will begin.

## Harvester Cagers Return From Trip With Clean Record

The Harvester cagers returned from a road trip January 2 with a record of scores that would make the national debt look like a first grade arithmetic book.

## Home Ec Projects Completed During Christmas Holidays

The time was ten o'clock on the night of January 5. At one end of the room stood a rack filled with assorted clothing. A discussion was being carried on by the different sections of clothing.

## Junior Rotarian For January To Be Cunningham

"Meet me at the door as soon as this is over," was heard at assembly Wednesday morning when Coach Odus Mitchell told Clarence Cunningham to meet him so he could take him to the Rotary club.

## Oh, Them Bells!

"Hear them bells, oh, don't you hear them bells, they are ringing out during every class period."

## Perryton Loses To Harvesters

The old creed about getting his man was reversed last Thursday and Friday nights as the Harvesters defeated Perryton.

## Andis Leads Pampa In Calming Sandies

In their first game of the Big Five League the Harvesters made the "Golden Sandstorm" look brassy.

## Harry McMahan Retires Position

Harry McMahan, the "Beau Brummel" of Senior High School, has finished his term as Junior Rotarian. It seems that Harry managed to evade the last meeting—the one at which he was supposed to make a speech—by turning back his watch (accidentally, of course).

## Band Hears Armeo Steel Band Play Holiday Overture

The Harvester band gathered at the band room near Frank Simon and the Armeo Steel band play a concert over N. B. C. network last Sunday, January 2 at 12:15 p. m.

HILL TO ATTEND CEREMONY AT CONGRESS HOME

AUSTIN, Jan. 10.—In honor of the board of managers of the Texas Congress of Parents and Teachers...

Mrs. Ella Caruthers Porter of Dallas, founder and first president of the Texas Congress...

Mrs. Hal P. Bybee, president of the Austin Council of Presidents...

The cornerstone-laying ceremony will begin with an open-house at eleven o'clock Tuesday morning...

At 11:30, the Rev. Edmund Heinsohn, pastor of the University Methodist church...

The seven past presidents of the Texas Congress will be introduced and will help to place some of the mortar when the cornerstone is set.

Mrs. E. H. Becker, Houston; Mrs. J. J. Devoti, Houston; Mrs. D. R. Johnson, Austin; Mrs. J. H. Moore, Detroit; Mrs. O. L. Smith, Austin; Mrs. Ella Caruthers Porter, Dallas; Mrs. M. A. Taylor and Mrs. Will T. Decherd...

The Congress home, a brick veneer structure with lath and plaster inside, white oak flooring, steel casements and a clay tile roof...

In paying for this new home, the Texas Congress is spending no more than it would spend in rent for adequate headquarters.

Those appointed were Mmes. L. O. Horn, president; George Nunley, secretary and treasurer; and Bell Wells, reporter.

Refreshments were served to Mmes. George Nunley, L. O. Horn, W. J. Hatcher, Dewey Nunley, George Bunch, and the new members.

Glorifying Yourself

By ALICIA HART. According to a famous couturier who visited this country recently...

The table was covered with a white linen cloth and a large silver and crystal bowl filled with yellow and white flowers formed the centerpiece.

"I hear ever so many women say that they will never 'adopt' higher shorter hair styles," the Paris designer went on.

It is, of course, important that you study your face and neck from all angles before you decide to brush your hair upward.

The hairdresser who can help you to decide on a coiffure which is new but which knows how to vary it a little to suit your particular type is the truly chic woman.

A Three Days' Cough Is Your Danger Signal

Just a common cough, a chest cold, or a bronchial irritation of today may lead to serious trouble tomorrow. They may be relieved now with Creomulsion, an emulsion that goes to the very seat of the trouble to help loosen and expel the germ-laden phlegm.

Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel the germ-laden phlegm. When coughs, chest colds and bronchial troubles—due to common colds—hang on, get a bottle of Creomulsion from your druggist.

Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief that you want. (Adv.)

TODAY'S SERMONETTE

In Jesus' first sermon He explained the simple plan of salvation, a plan that has never changed, a plan that means turning from evil, sinful ways, exercising faith and following Christ. It was and is: "The time is fulfilled, and the kingdom of God is at hand: repent ye, and believe the gospel."

MOST VALUABLE GIFT

The most valuable gift we receive every Christmas season is given us by an old man, and this Christmas gift that so delights us is always the same. We do not get the present itself on Christmas—only the promise of it.

There are many who may say, "Humph! What good is a year on one's hands? Even a beggar has that!" But the scoffer has only to have a certain dream. Almost everyone has it at some time. It is the dream of being dead. Haven't you ever dreamed that? Do you recall your great relief when you waked and realized that it was only a dream, that you were still alive with some further time at your command? Certainly time is a most precious thing. And to make good use of it, of course, the smart thing to do.

THEY CAME BACK

For the 10th year, Alabama tried out its "Christmas parole" plan for "most worthy" prison convicts. Bound only by word of honor, man-to-man" compacts with Gov. Gibb Graves and their wardens, the men and women were sent home for a Christmas "vacatio" of two weeks, at the end of which time they came straggling back to serve the rest of their sentences.

DOUNDED ONE—ITALY

In the battle in which Kid Britain has challenged Big Boy Mussolini for the radio championship of the Near East, round one seems to have gone to the Big Boy. Reporters in Palestine indicate that Arab listeners tuned in the first British broadcast, but tuned it out again when it proved to be a mixture of Arabic, English, and violin solos in the classical mode.

Yesteryear In Pampa

TEN YEARS AGO TODAY Word had been received from the railroad commission at Austin that the Phillips Petroleum company had been granted permission to erect three carbon black plants in the Panhandle.

FIVE YEARS AGO TODAY Eighty-three needy men were given work after it was learned that Gray county would receive a larger appropriation from the federal relief committee than was announced before.

The Pampa postoffice did a gross business of \$45,940.15 in the previous year, according to the yearly report just completed.

Tex's Topics

Contributed: A City man, a scholar and artist of old American stock, tells an interesting story of how he has weathered the depression. He saw it coming, he says, and in 1929 went out "into the sticks" and built himself a comfortable cottage without modern conveniences and luxuries—nothing but old-fashioned fundamentals. He has a well and pump, oil lamps, oil range, a sod cellar, a big living room with beam ceiling, a kitchen and a bunk room.

"There I have weathered the gale," he says, "self-contained and self-efficient, with a few acres of land. Radio, electric light and telephone are taboo. The living room is full of book cases, and there I can read or write or set up my easel and paint as suits my notion.

"My only trouble has been conforming children, who love the felshpots and the lock-step of modernism. They do not understand me at all, but I am simply a throwback to my ancestors who fought the battles and helped to establish this republic. I believe in work.

"Thousands of acres are lying idle all around me, held for speculation and exploitation and hundreds of families are on relief in town. But would they dig their own gardens and chop their own wood and read by lamp-light? No—they would rather beg or set up a dictatorship. Democracy is in retreat."

It's an appealing picture, in some ways. But what's wrong with it? More people could do as this man has done, and many of them would be happier. But could multitudes of them do it? Probably not.

And what would happen to our complex industrial civilization if great numbers of people tried? They would certainly throw a lot of sod into the machinery of our present-day system. They might produce a greater depression than the one we have been passing through.

Our economic route is probably a one-way road, and we have to make the best of it. We might live somewhat more simply, and be happier for it, but we can't turn back to the time and life of our grandfathers.

Washington Letter

By Rodney Dutcher WASHINGTON, Jan. 10—If the official estimates of the 1938-39 deficit are neither more nearly accurate nor less nearly accurate than those for 1937-38, you can comfort yourself with the assurance that next fiscal year's deficit ought not to be more than \$2,000,000,000.

Of course it might be worse than that and it may be considerably better. The uncertainties of the next 18 months make anybody's guesses practically nonsense. All you can say is that budget-balancing is out the window for much further ahead than anyone can see daylight and that a period of heavy taxation is somewhere off there in that fog.

A year ago January the President pulled out his budget estimates and spoke cheerfully of a "layman's balance" for the 1937-38 fiscal year ending with next June.

Now a deficit of \$1,088,000,000 is expected because receipts have been nearly a billion dollars less than estimated and expenditures, about \$150,000,000 more. There is at least a fair chance that this deficit will be even larger by July, when the government will have stopped incurring it.

Business being what it is, the administration estimates a 1938-39 deficit of \$950,000,000, but Mr. Roosevelt insists on pointing out that this is a drop of \$138,000,000 from the present-estimated 1937-1938 deficit and that his deficits and deficit estimates keep right on dropping, depression or not.

So you can easily see that if the guess for next fiscal year is as good, or bad, as last January's guess, which was off by somewhat less than \$1,088,000,000, the deficit for the 12 months beginning July 1, 1938, and ending June 30, 1939, will be at least a couple of billions.

Mr. Roosevelt himself is the first to warn you that you mustn't put too much faith in the estimate of a mere \$950,000,000 deficit for next year.

Man About Manhattan

By GEORGE TUCKER NEW YORK—The ice hockey matches in Madison Square Garden are among this town's major diversions. Perhaps no amusement outside of football inspires such rabid partisanship as do these amazing exhibitions of puck tossing and skill cracking. No game is without its brawls, on the ice and in the stands. The great arena is jammed. Hoots, jeers, catcalls mingled with lusty and loyal shouts of bravo greet each turn of the game.

And always the audience is stuffed with celebrities like a punch bowl with cherries. William Powell, Clark Gable, Spencer Tracy, many of the eastern governors, the mayors of the metropolitan centers, actors, actresses, and sports heroes of 50 different fields.

The garden is really a great place on these nights, thousands of excited spectators crowding the foyers, threading their way to their seats. Through this throng quietly prowls a squad of detectives, looking for fugitives.

The stars of the game are mostly Canadians. But the audience is in no sense of one tongue. Here is a clique of dark, excited, immaculately dressed Japanese. Softly speaking Spaniards and liquid-vowel-ied Italians, guttural Germans, roush-mouthed Russians, gibbering Asiatics, East Side Jews, drawing Southerners, all are here welded into a great oval of excited faces and cheerful throats.

The referee's blast is a knife's edge, and the players are darting like figures of quicksilver, agile, graceful, sturdy, quick-tempered, ready to duel at the drop of an epithet. They skim the ice like swallows, collide and go down like bull moose shot from ambush in the Canadian woods. Sometimes they rise and continue the game. Often they rise and attempt to decapitate their antagonists, slashing at their heads with wild thrusts of their hockey-sticks. The crowd is in an uproar. It is a clamor approximated only by that which accompanies a home run, a touchdown, a knockdown in the prizefight ring.

All through the tiers moves a vast army of hotdog and peanut vendors "with mustard, sir," just as at the big ball parks. Cold drinks, including chocolate and beer plus cigars, cigars, pipe tobacco are hawked by the noisy attendants. Broadcloth and ermine sit next to calico and corduroy. Delaney street borrows a match from Park avenue. It's a great pastime, this ice hockey, one of the exciting experiences offered by this high, wide, but not always so handsome, town. And does New York love it!

People You Know

By ARCHER FULLINGIM Claude Heiskell and Bob Andis are the two high-scoring forwards on the Harvester basketball team. It can be truthfully said that neither one cares who makes the points just so they are made—which is the correct attitude. This one has mentioned here at various times interesting things about Claude—such as his refusal to attend banquets. Now today this one is going to tell you about Bob Andis. Two or three years ago when Bob was only 13 this one saw him for the first time.

Then, a bunch of boys were grouped around him admiring the medals Bob won in the county track meet. At that age he won the rural pentathlon, or something like that, and this one took a good look at him and decided that he'd play on the Harvesters some day.

Bob lives at Grandview on a farm, 23 miles south of Pampa. He drives that distance every day in a car. He gets up at six o'clock every morning, milks the cows and feeds the calves and does a half-dozen other chores. Sometimes he doesn't get to bed until midnight but he gets up at six the next morning just the same. Bob went to Pampa high school in the fall of 1936, and he made good grades out there; in fact he made among the highest in school. He didn't fall down in his grades when he came to Pampa high. He still makes A's and B's. He studies at home, too. Bob has the longest, boniest hands in high school, and he can use them too. He will be a regular end on the football team next year. In basketball he is an unusually accurate passer and he gets rid of the ball quickly.

Around Hollywood

HOLLYWOOD, Jan. 10.—All over the lot: All studios have made dozens of million-dollar blunders by failing to recognize talent and allowing potential stars to slip away from them. In fact, a majority of players on the Hollywood star list look some buffeting about between companies before they finally clicked.

There's one casting director, however, who recently has taken unmerciful ribbings about the number of promising players he has allowed to be signed by other studios. Other day he was walking across the lot with a Great Dane on leash. A producer hailed him: "For gosh sake, don't let that one slip through your fingers. You may have another Victor McLaglen there!"

For the past two weeks Errol Flynn, as Robin Hood, has been trying to kill Basil Rathbone, as Sir Guy Gisbourne, in a duel. "They're doing their own fencing, which has required innumerable retakes from all angles. Toward the end of the battle the competition got pretty hot, and Rathbone, who's the best swordsman west of the Brown Derby, hauled off and delivered a terrific and unrehearsed slash.

"Well," I thought, "that's surely the end of the adventurous Mr. Flynn." It wasn't though. Instead of heavy steel broadswords, they were using light aluminum ones. Robin Hood was only bruised.

Over at RKO, on the "Joy of Loving" set, Irene Dunne sat talking to Director Tay Garnett between shots, when a light filter fell from an overhead lamp and landed in her lap.

Her composure was unruined, and only her feelings seemed hurt. She said, "So things are beginning to fall on me. I guess I'm not as well liked as I thought I was."

(In Hollywood, and especially in the theater, stagehands have a knack for dropping sandbag weights and other heavy objects very near—and sometimes on—unpopular players. Miss Dunne needn't worry, though.)

10,000 ACRES WASTE LAND TO BE PASTURED

DALLAS, Jan. 10 (AP)—Ten thousand acres of waste land in Fannin county have been and soon will be ready for pasturing, the department of agriculture announced today.

Federal and state authorities will work together to restock this territory with turkey and deer and residents will meet Tuesday and Wednesday to form a cooperative wild life association, the department said.

The last Texas Legislature, at the request of state and federal authorities, declared a 10-year closed season on turkey and deer in this game-depleted county. Game commissioner Will Tucker agreed to furnish 10 deer and 100 turkeys as foundation stock.

The Fannin county meeting will be in charge of Nils Nilsson of Dallas, wild life specialist of the department, and R. E. Callender, game management specialist of the extension service at College Station.

This work is being carried forward on the project intimated by the re-settlement administration two years ago, covering 17,000 acres of Fannin county land, badly eroded and worn out. Between two and three hundred farmers, on relief because their farms would no longer make a living, have engaged in the restoration of this land. As work of the land use projects nears completion, these farmers will be helped to re-establish themselves on farms they will purchase themselves, or as tenants on good land.

How's Your Health?

By IAGO GALDSTON, M.D. When a child refuses to eat, it may be assumed (1) that he is physically ill, (2) that he does not like the given food, (3) that he is emotionally disturbed, or (4) that he is trying to get attention or sympathy, or to dominate.

The first two conditions are relatively easy to establish or to rule out. The acutely sick child "goes off" his feeding suddenly. There may be present suggestive symptoms such as fever, flush, running nose or diarrhea. Such a child's lack of appetite is then merely one of a group of symptoms. The case calls for medical diagnosis and treatment.

Some children may be allergic to certain foods and hence refuse them when served. Eggs and milk, common in the child's diet, for this reason may be consistently rejected. Corrobative symptoms, such as rash, eczema, diarrhea, hives and asthmatic manifestations, are likely to be found.

Feeding difficulties, however, are more commonly due to psychological than physical causes. No other part of the body is so directly affected by emotions as the digestive tract. And a child burdened by fears and anxieties, agitated by anger, excited and over-stimulated by play, is in no fit condition to eat, or to digest and assimilate his food.

The child's position in the family is essentially dependent. Naturally he will strive for recognition and power. He may show off, be an exceptionally good boy, or prove obstreperous.

Many a youngster, noticing how eager his mother is that he eat well, finds in this means for mastery. If he refuses to eat, coaxings, bribes or threats will be forthcoming. Then if he eats well, he will be praised for doing what was formerly taken for granted.

Most of these cases can be handled by stripping meal-time of all its emotional elements. Food should be served quietly and simply, without special appeal or admonition. Allow the child enough time to eat his food, then quietly remove what remains. Do not allow any food between meals. The child soon learns there is no gain in balking.

However, it is wise to consider the situation carefully. Something which should be cleared away may bother the child.

News Clearing House

Editor: The News: In a number of our western states, the fish and game laws provide that every citizen is automatically a game warden, in case of seeing a violation of such laws, with power to arrest and thus enforce the laws, and which arrangement has proven to be highly satisfactory in the proper preservation of wild life, and the promulgation of true sportsmanship.

Now, inasmuch as there were killed, by automobile accidents 40,000 human beings, as well as something like 150,000 maimed, or seriously injured during the year 1937 in U. S. A. why could not a similar arrangement be made workable for the protection of HUMAN LIFE.

The tentative plan would be to make it obligatory on every citizen to report any violation of state and city traffic laws, especially drunk-driving, reckless speeding, etc. either in the city or on public highways, with a penalty for not doing so, or for running away from the scene of an accident, and with a suitable reward for so doing, say 10 percent of the fine, if as and when paid, the same to apply for each and every witness.

It would be at once apparent that if such regulations were known to be in effect, that many of the present violators would be more cautious, inasmuch as many violations are now being made when it is known that no traffic officer is in sight.

It should also be made mandatory, that any driver that had been warned, that he was not in proper physical condition for the safe driving of a vehicle, or that the vehicle was in improper repair, that the ignoring of such warning should constitute a misdemeanor.

In this connection, it is suggested that traffic rules be published, and carried continuously in newspapers, that there might be no excuse of ignorance of such.

The above plan would in no wise be understood to abrogate or mitigate against the present traffic patrol, but as a very necessary adjunct, as it would be appreciated and made to function.

Why not try it in Pampa? Respectfully submitted, H. O. SIMMONS, 428-Sunset Drive.

JUSTICE CARDOZO ILL WITH HEART ATTACKS

WASHINGTON, Jan. 10 (AP)—Physicians reported improvement today in the condition of Justice Benjamin N. Cardozo, who they said recently had suffered "alarming" heart attacks.

They declared, however, that the 67-year-old jurist, who has been ill for a month, would not be able to return to the Supreme Court bench for some time and must be kept "absolutely quiet."

Dr. John Paul Earnest, Cardozo's personal physician, issued this statement late yesterday after consulting with two heart specialists: "Justice Cardozo had a severe attack of shingles beginning about a month ago. The acute pain from the shingles and his long confinement in bed have weakened the justice considerably.

"The weakened condition brought on heart attacks of some severity. These attacks occurred on several days during the past week and were alarming.

"While the justice's condition has been critical, he is now showing a slight improvement."

Justice Cardozo, readily identified on the bench by his touseled white hair, suffered similar heart trouble in June, 1935, at Rye, N. Y., but fully recovered. He was appointed to the Supreme Court in 1932 by President Hoover, and has been one of the justices most sympathetic to Roosevelt administration legislation.

# GREATLY IMPROVED SANDIES TO SEEK REVENGE HERE TOMORROW NIGHT

## AMARILLOANS HOLD BORGANS TO LOW SCORE

A greatly-improved horde of Amarillo Golden Sandies will storm the Harvester balliwick tomorrow night. The Amarillo boys will be bent on reaping revenge for the crushing defeat given them by the Harvesters in two previous games this season.

There will be two games. The first one between the B teams, will start at 7 o'clock, and the second game, between the A teams will begin at 8 o'clock. Admission will be 10 cents for students and 25 cents for adults.

The Sandies showed they do not intend to be the laughing stock of Panhandle basketball Saturday night when they played the strong Borger Bulldogs of Catfish Smith a close game. The score at the half was 12 to 9 in favor of Borger, and the game ended with the Bulldogs on the long end of a 27 to 18 score.

Borger won the game all right, but they did not have half as easy a time as they thought they would.

The plain and simple reason was that the Sandies have improved miraculously in the last few weeks. Before Christmas, the Sandies lost 42 to 4 and 41 to 13 to the Harvesters.

The game tomorrow night is expected to be much closer. Coach Mitchell this morning declared that the fact that the Sandies held Borger to a 9-point margin of victory on the Bulldog court indicates that the Sandies have greatly improved.

He praised the Borger team. Players on the Sandie team are several boys whose names are well-known to Pampans because of their football prowess.

Rice and Moore are the Amarillo forwards. Winfield is the center and Martin and King are the guards. Martin was ejected from the last game between the Sandies and Harvesters when he threw a headlock on Claude Heiskell and busted him on the Sandie court. Heiskell was uninjured. Martin, King, Rice and Moore are all stars on the Sandie football team.

However, it is doubtful which one of his two teams, Coach Hill will start. At Borger Saturday night he picked the team previously designated as the second quintet against Borger's second string. This team comprises Childers, Bethold, Mauldin, Short and Warner, and the "football team" played the Borger second team. He may start the boys that played Saturday night since they held the Borgans better than the "football team."

The Harvesters' next game will be Friday night against Plainview. The two teams will play again on the local court Saturday night.

## Jimmy Thomson Still in Front

LOS ANGELES, Jan. 10 (AP)—Jimmy Thomson was still in front today as the thirteenth annual Los Angeles Open Golf tournament swung into the final round over the Wilson Memorial course.

Thomson, the big gun from Shawnee-on-the-Delaware, held a lead of but three strokes over three dangerous rivals.

The trio was Jimmy Hines of Garden City, N. Y.; Lloyd Mangrum of Dayton, Ohio, and Johnny Revolta, Evanston, Ill.

Thomson, who cracked the Wilson par 71 with a 65 and the companion Harding course par 72 with a 68 in earlier rounds, showed signs of faltering yesterday when he took a 74 for the Wilson layout for a total of 205.

Today's final 18 holes was over the championship Wilson course.

Biggest local threat was Olin Dutra who carded a 67 yesterday, to land four shots back of the leader. Olin's brother, Mortie, of Detroit, Mich., shot a 67 for a total of 215.

Wille, Goggin of San Francisco, fell back to the 209 bracket, but with Henry Picard, Hershey, Pa., and Lawson Little, offered a real threat today.

## NEW LONDON EXPLOSION SUITS SET FOR TRIAL

HENDERSON, Jan. 10 (AP)—The first of four damage suits arising from the New London school explosion last March was set for trial before District Judge R. T. Brown here today.

The case is that of J. O. Moore, who seeks \$24,250 from the Parade Gasoline Company, the Ward Oil Corporation, superintendents of the two companies, six trustees of the New London independent school district and former School Superintendent W. C. Shaw.

Moore charges the defendants were negligent. His daughter, Bessie, was killed in the blast.

At Dallas, W. Keith Maxwell, supervising architect, said work may begin Feb. 1 on a \$100,000 Mirror-Pool memorial to the explosion victims. If local W. A. officials approve a request for assistance.

## 'Flying Fortress' Spans Continent

LANGLEY FIELD, Va., Jan. 10 (AP)—To demonstrate the "ease" with which Uncle Sam's air force can shift its strength from one coast to the other in time of emergency, Lieut. Col. Robert Olds yesterday brought his 16-ton "flying fortress" from California to Virginia in 11 hours and one minute.

The commander of the U. S. second bombardment group raced eastward at over 11,000 feet altitude behind the big plane's four motors to establish what headquarters at the air base here said was a transcontinental record for military aircraft.

## SAN ROMANI SAYS HE WAS NOT IN CONDITION IN K. C. RACE

NEW YORK, Jan. 10 (AP)—A warning to Glenn Cunningham and Don Lash: Watch out for your world records when Archie San Romani gets in condition. The curly-haired cornetist from Kansas, a miler with an international reputation, didn't think he was at his best Saturday night. Yet he hung up a new American citizen's record for 3,000 meters, and nipped the great Lash in a driving finish in the Knights of Columbus meet at the Thirteenth regiment armory.

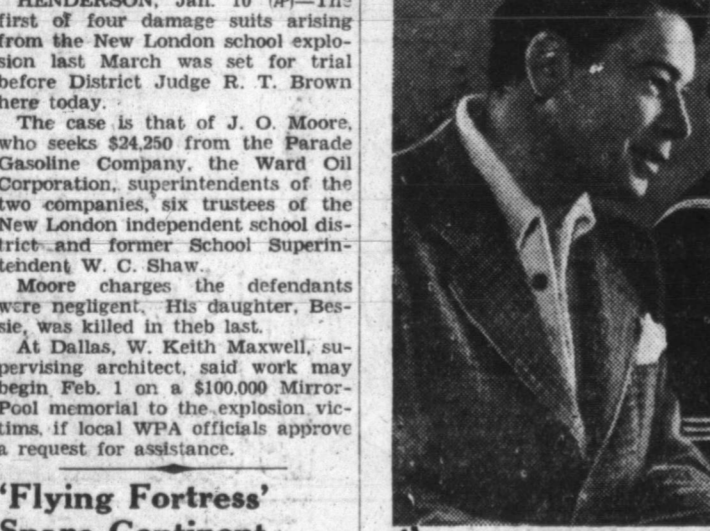

Archie was clocked in the brilliant time of 8:27.4 with Lash and Joe McCluskey. New York A. C. veteran also under Jole Ray's 15-year-old American citizen's record of 8:31.5. Lash, losing the decision in a hair-line finish, was timed as 8:27.5, while McCluskey, running one of the best races of his long career, was caught in 8:30.8.

"Maybe I was in a little better condition than I thought," said San Romani after the race. "I had no idea we were going that fast. If I had a little more experience at the distance I believe I could have beaten Nurm's world record."

Peerless Paavo hung up the international standard of 8:26.4 on Madison Square Garden's banked track in 1925.

Sharing the record-breaking with San Romani Saturday was Robert Rodenkirchen, young New York A. C. sprint star, who clipped a tenth of a second off the long standing indoor record for 100 meters when he was clocked in 10.7 seconds to nose out Marty Glickman of Syracuse.

## STYMIE RULE MODIFIED BY USSA CZARS

NEW YORK, Jan. 10 (AP)—Although admittedly dodging the issue of either abolishing the pesky Sty mie or keeping it, the United States Golf Association appears to have hit upon a popular idea in modifying the sty mie rule.

At its annual meeting here Saturday, the U. S. G. A. eliminated stymies when the nearer ball lies within six inches of the cup. Except for this modification, the rule remains unchanged, permitting the lifting of the ball for a putt only when it lies within six inches of the one that is "away" from the hole.

The reaction of prominent golfers to this decision was by no means unanimous. The general idea, however, seemed to be that it would help the match-play golfer without eliminating a time-honored hazard.

Francis Ouimet who again was chosen non-playing captain of the United States Walker cup team Saturday, continued to lead the opposition, however.

"While the new rule is an improvement over the old, they either ought to play the sty mie or abolish it, and I favor abolishing it," he said. "You can't compromise. I don't think the new rule will work, but let's wait and see."

That the association's executive committee stressed, was just the idea. The new rule will be in effect during 1938 only as a trial, it announced.

Retiring president John G. Jackson further explained that among the larger sectional associations, 22 had voted to retain the sty mie, and 24 had favored abolishing it and a vote among 21 qualifiers for the 1937 national amateur had produced about the same results.

## Buffs Have Lost Four Cage Games

CANYON, Jan. 10—Ten victories and four losses during the holiday period carried the West Texas Eufaulces through a variety of experience, which included home games, a regional tournament, and a road trip.

They closed the trip with a pair of sparkling victories, one over East Texas State of Commerce and one over North Texas State at Denton. The Denton cagers was one of the strongest Texas teams at the Oklahoma City tournament.

The Buffs held victories over the Panhandle Aggies (2), Colorado Mines (3), Southwestern Oklahoma Teachers, Stephen F. Austin State, East Texas State, North Texas State, and Southeastern Teachers of Oklahoma. They lost to Warrensburg, Mo. Teachers, Alva Teachers, East Texas Teachers, and Panhandle Aggies. Members of the squad feel that they should have won all but the game with the Missourians, who put them out of the Sooner tournament.

## JAP TO PUSH BUTTON AGAIN HERE TONIGHT

Variety will be the keynote of tonight's wrestling card at the Pampa Athletic arena where Promoter Chambers will give fans a most unusual main event. It will be a finish battle between Jack Mandell, 169, who stands slightly over 6 feet, and Prof. Tsutao Higami, 168, who is very few inches over 5 feet.

A semi-final that will be just as unusual will be the appearance of Sailor Jack Moran and Bill Venable in the ring at the same time. Promoters over the country have been trying to match the pair but have been unsuccessful. Promoter Chambers had to use the pair on the semi-final because Venable arrived here after the main event had been scheduled.

Opening the card at 8 o'clock sharp, Cyclone Mackie and Otto Van Ludwig will throw fits or fists or probably both. Admission will be 65 cents reserve ringside, tax paid, 40 cents adults and 25 cents children 12 or under.

While Mandell's procedure is "feet in your face," Higami shoves "fingers on buttons or nerves." And it will be highly interesting to see whether Mandell can beat the little Jap before succumbing to Higami's freak style of grappling. The Jap, however, doesn't use his nerve holds until it's necessary to break a hold. Then he doesn't follow up his advantage but waits for the effect to wear off. That's considered sportsmanship in any language.

Moran doesn't use the same method of attack. He uses heart punches until his opponent is groggy and then he goes in for the finish. Tonight Moran is likely to wish he hadn't started anything when he meets Venable, the Alabama wood-chopper, who is considered rough and tough.

## PONIES OST TWO AND WON ONE IN EAST

By FELIX R. MCKNIGHT  
Associated Press Sports Writer

Crippled defensively, but dynamite offensively, Southern Methodist shook the dust from an eastern trip and prepared to open defense of its Southern Conference title against Baylor's Bears at Waco Tuesday night.

One victory in three starts in the east wasn't the best average the Mustangs could bring home, but they proved to a mob of cake fans, including 10,000 in Madison Square Garden, they knew where the basket hung.

J. D. (Snider) Norton, slender Methodist forward, was high point man in the Gettysburg win and defeats from Long Island and Temple, swishing them in with the same form that gave him runner-up honors in the individual race last season.

Still on the sidelines with a football injury was Charlie Sprague, rugged guard. Coach Whitey Bacus expected Sprague, sorely needed on the defense, to be ready within a couple of weeks.

It will be the conference opener for both Baylor and S. M. U., but critics pointed to a Methodist win. Baylor has better than an even average in pre-season games but hasn't been able to find the basket as regularly. The Methodist play their second game of the week against University of Texas at Dallas Friday night.

After the Dallas date, Texas, winner of its first game against T. C. U., moves into Fort Worth Saturday night for a return date with the Christians. In the only other game of the week, Rice invades College Station for a Saturday night game against Texas A. and M.

Southern Methodist's most feared rivals, Arkansas, jumped away to an early lead by dropping the Texas Aggies in a pair of weekend games, 45-33 and 33-32.

Capt. Don Lockard's great goaling in the first game which brought in 18 points, was too much for the Aggies, but on Saturday night the farmers put guard Walt Roberts on the Parker ace and throttled that threat. However, they neglected guard Jack Robbins and he sneaked upcourt during the fading minutes to lead an Arkansas rally that wiped out a 21-14 Aggie lead and brought in a Parker triumph in the last 10 minutes. Erratic shooting killed Aggie chances.

Cabrera and Chovance, a pair of fancy forwards, draped 23 points between them to another Christian triumph as Texas pulled in a 33-21 winner.

The Arkansas scoring pair, Robbins and Lockard, held the early scoring lead with 23 points each as a result of negligent Aggie guarding.

## ASHBURN TO NAME GRID OFFICIALS FOR SOUTHWEST

WACO, Jan. 10 (AP)—Col. Ike Ashburn, assistant to the president of Texas A. & M., today had been approved as agent in charge of appointing and assigning football officials for the Southwest conference.

Henry Trantham of Baylor University, president of the conference, disclosed last night that Ashburn, recommended at a December meeting of the organization, was approved in a wire poll of the membership.

At the December meeting the conference decided to take selection of officials out of the hands of a committee and place the charge in an individual to be approved by members.

## All Amateurs Eligible To Enter Boxing Meet

Through special permission just received, any amateur boxer in West Texas will be eligible to enter the Pampa Daily News Amateur Athletic association tournament here Feb. 2, 3 and 4 and should he lose, he will be eligible to participate in the Amarillo tournament Feb. 7 and 8.

The special permission was given because there are no athletic associations or clubs in this section and because distances are so great that boxers coming a long way should be given every consideration.

Entries in the local event are increasing daily and it may be necessary to continue the tournament a fourth night. At least 30 rounds of boxing will be presented each night with the figure probably passing that number.

Two heavyweights, which are scarce in this country, have entered. Flyweights, 112-pounders, which are also scarce, have failed two entries.

**Training Under Way**  
Amateurs desiring to enter the tournament should do so immediately so that full training time can be available. Workouts are being conducted every evening between 5 and 7 p. m. at the Pampa Athletic arena under direction of Cliff B. Chambers and a corp of assistants.

Many persons are unfamiliar with the history of the Golden Gloves movement. Here it is:  
"Golden Gloves" is a copyrighted name owned jointly by the Chicago Tribune and New York News.  
It was given to an amateur boxing tournament between the two cities (teams sponsored by the respective papers) in 1927, and has since become a national institution.  
The Chicago Tribune now has the Western half of the nation and some of the south, and the New York News the eastern half.  
In February, 1937, representative teams from 17 states gathered in Chicago for the "Tournament of Champions," and more are expected this next February.  
Late in 1936 the Tribune granted a Fort Worth newspaper (Star-Telegram) the right to the use of the name "Golden Gloves" in Texas with the understanding that the paper would send a team of Texas champions to the Tournament of Champions.  
The first Texas tournament was held in 1937 and it was a success, artistically and financially, in spite of the fact that "Golden Gloves" was practically unknown in Texas at that time, and boxing was generally dead in the state.  
The Texas team went to Chicago and acquitted itself creditably, winning 10 of the 18 fights.  
All Golden Gloves activities are conducted under A. A. U. rules and under A. A. U. sanction. All of the competitors are, of course, amateurs—men of any age over 16 who have never received money for fighting.

## SAMNORWOOD BEATS L'FORS TO WIN ALAN REED'S TOURNAMENT

LEFORS, Jan. 10—The Pirate basketball team, after dropping an unexpected 30 to 23 tilt to Samnorwood to lose the Alan Reed invitation tournament Saturday night, faces a busy week. Coach Francis Smith announced today.

Tonight the Pirates will be in Groom for a couple of stiff games. The White Deer Bucks will invade LeFors tomorrow night, for two games. Then on Thursday night the crack Lakeview Eagles of Bob Clark, not the magician, will be in LeFors for a single game. A preliminary battle will be staged between two other quintets.

The Pirates will enter the Mobeetie tournament on Friday and Saturday will stop off in LeFors while on a road trip. The Eagles will meet Groom on Wednesday night and will go on to Borger for a game Friday night.

The Pirates, coached by Francis Smith and John Rankin, have been showing promise. They led Samnorwood in the final tournament game Saturday night when Pete, ace center, left the game on fouls. The team as a whole played sluggishly.

**Bitsy Grant Out For Team Again**  
CORAL GABLES, Fla., Jan. 10 (AP)—Note to the United States Davis Cup committee: Bitsy Grant is out for the team again.  
Bitsy added Bobby Riggs of Chicago—this country's No. 2 player—to his list of victims in the Miami Billmore tournament yesterday. It took him five sets and all his stamina to do it, but Grant won the tournament and permanent possession of Col. Henry L. Doherty's trophy. The score: 3-6, 6-2, 7-9, 8-6, 6-3.

## Ashburn To Name Grid Officials For Southwest

WACO, Jan. 10 (AP)—Col. Ike Ashburn, assistant to the president of Texas A. & M., today had been approved as agent in charge of appointing and assigning football officials for the Southwest conference.

Henry Trantham of Baylor University, president of the conference, disclosed last night that Ashburn, recommended at a December meeting of the organization, was approved in a wire poll of the membership.

At the December meeting the conference decided to take selection of officials out of the hands of a committee and place the charge in an individual to be approved by members.

# Richest Girl in the World

BY ADELAIDE HUMPHRIES Copyright, 1938, NEA Service, Inc.

Yesterday, Connie decides to offer the other side of life and offers a working girl her chance to trade places for an adventure.

**CHAPTER IV**

THE girl sat down on the nearest chair, as though her knees would have given way beneath her if she had not.

"What do you mean?" she asked. Like... like The Prince and the Pauper?"

"Yes and no," Connie returned. Again she nodded with satisfaction. "We look almost enough alike, at that. Blue eyes, hair the same shade, weight and height. At least enough for any one who did not know us. Reporters and photographers for instance." The light in her eyes glowed even more brightly than before. "Did you really mean it when you said you'd like to be me?" she demanded.

"Did I mean it?"

"Then get out of your clothes," Connie commanded. She crossed the room, bolted the door. "Hurry!" she said impatiently, when she saw that the girl had not moved. "We can work out the details while we change. I'll leave a note for Uncle Tippy, he's my guardian, a perfect dear; he'll understand, do as I tell him. I can slip out, carrying that box in your things, and no one will stop me. Here!" She yanked off her negligee, tossed it toward her visitor, who sat still as if in a trance.

"Why don't you get started?" Connie scolded. "Someone will be here to come. You don't know this place, no privacy... never let you alone. There isn't anyone who'll care if you send word you had a chance to go away, is there? No one who would interfere?"

"No, there's no one," the girl said. Mechanically as though moved by the inward force that drove Connie, she had begun to unlace her shoes, peel down her

added an emerald brooch, a dinner ring and a small string of perfectly matched pearls. She dumped out the new frocks from the box marked Loucille's, repacking it with a few hastily gathered belongings.

"What's your name?" she asked the girl in the bed, who looked so much like her now that it made a funny little quiver down Connie's spine. Surveying herself in the mirror, she saw she might easily pass for the other girl. She had combed her hair back rather severely into a smooth roll under the chic little hat; she had not put on any rouge, so that her face was pale. She looked neat and brave and poor. She carried her head with defiance and pride.

"Why, you look like me!" the girl in the bed gasped, as though once more she could not believe her eyes. My name? It's Katie Blyn."

"I AM you," Connie said. "For a little while, at least. Katie Blyn, I like that. I think I'm going to like being you." She bent suddenly, on an impulse, put her arms around that other girl, who now was she, pressed her lips against her forehead. "Goodbye. And thank you. You can't know what this means to me."

"I can't know," the girl who had been Katie Blyn and who now was Constance Corby, the richest girl in the world—if only for a little while—appeared bewildered. She caught one of Connie's hands

in hers, carried it to her lips, fiercely. "You can't know what it means to me! If only I don't wake up and find I'm dreaming. You're sure it will be all right? You explained it all to your Uncle? He'll take me with him on that wonderful yacht? I'm really to have all this, he you?"

Connie gave her hand a reassuring squeeze. "For as long as we can keep it a secret," she promised. She wished—it could last for a long, long while. But she knew that that would not be possible. She must hurry, even now. Make the most of this wonderful adventure. Enjoy the utmost that freedom and privacy that would be hers for this brief time. Seek that precious something that all the money in the world could not buy. That the richest girl in the world had never had.

And who knew?—she might even find the romance that could be secret—this new Katie Blyn, in her neat, warm suit with the perky white blouse, hugging the big box marked Loucille's tightly against her breast as she slipped down the long winding stairway, shrouded in its black velvet pile, along the wide reception hall with its treasures the values of which were priceless, out the side-entrance of tradespeople. Enjoy the warmth and fresh air that were priceless, too, since they belonged—as Constance Corby no longer did—to the whole world.

## UNIVERSITY TO SELL OIL LEASES MARCH 25

AUSTIN, Jan. 10 (AP)—The University of Texas, which already has received considerably more than \$20,000,000 through oil development on its 2,000,000 acres of West Texas land, will auction additional leases March 25.

The date was fixed at today's meeting of the board of regents. Mineral rights to 12,000 acres in

**ROMANCE should be secret.** The thrase vibrated within Connie, seemed to strike some responsive chord. Why, of course! That was that was wrong with her romance, romance should be secret, or it was not romance at all. That was why it had been spoiled—that awful picture of her, clasped in Rodney's arms—flaunting across the front page of that paper, every barrel, every time they patched 'up, turned into public property. "It'll do him good—to worry about me," the other girl was saying.

"It would do Rodney good, too, Connie thought, without the slightest pang of regret.

"But you'd better get busy and rite your letter," the girl suggested. She had climbed into the big bed and settled herself among the heaps of pillows, so that now she was as comfortable and as cozy as a queen. Connie, who had finished it, she folded it, ruffled, sealed the envelope, popped it against the mirror on a dressing table.

From a drawer she took some La, thrust them into a purse. She hesitated a moment, then

1. Actually there is no officially designated White House spokesman. It is a loose term used by newspapermen to denote the source of authoritative White House information on which the President does not wish to be quoted directly. **AMARILLO WILL GET \$369,400 U.S. BUILDING**

**WASHINGTON, Jan. 10 (AP)**-An increase in the amount of money spent for public buildings in Texas in 1938 is expected to result from the treasury's building program for the Lone Star state for the year.

If all authorized projects are put under contract the total expenditure will about double that of 1937. During last year contracts awarded by the treasury for construction, remodeling and extension of government buildings in the state totaled \$2,060,742.

The program for the coming year includes projects authorized by the last regular congress and a few from former congresses the total cost of which will be \$4,104,000. Before the contracts can be awarded and the work started plans and specifications must be drawn and approved and sites obtained for the structures. This work is being pushed by the treasury's staff.

The contracts awarded in 1937 included those for building at the public health service narcotic farm at Fort Worth, the Houston federal office building and the Amarillo post office and court house.

Projects, most of them postoffices, put under contract during the year and their cost included: Amarillo, \$39,528; Groesbeck, \$45,444; Edinburg, \$54,582; Ranger, \$42,314; Alice, \$42,588; Dendur, \$50,300; Smithville, \$41,971; Lcadar, \$45,237; Rusk, \$41,237; Ballinger, \$51,040; El Campo, \$33,244; Lamesa, \$62,337; Kilgore, 78,200; Alpine, \$42,225; Amarillo, \$369,400, and Fort Worth, \$423,300.

The projects planned for next year, mostly post offices, include: Longview, \$235,000; Bryan, \$105,000; Electra, \$75,000; Odessa, \$75,000; Wellington, \$82,000; Brownfield, \$75,000; Lampasas, \$75,000; Corpus Christi, \$285,000; Center \$67,000; Rosenberg, \$70,000.

**WOMEN'S BATTALION IN CHINA GOES TO BATTLE**

**HANKOW, Jan. 10 (AP)**-China's amazon warriors took the field today against the Japanese invaders.

The Kwangsi women's battalion, made up of 150 young women especially picked for their bravery, physical fitness, general intelligence and marksmanship, arrived here after a gruelling 600-mile march for service on the northern front.

They represent the nucleus of what China's leaders intend to develop into a nationwide army of women to support the nation's fighting men in their struggle against Japan.

These women will be used primarily to circulate through villages and towns, stirring up war consciousness and organizing national resistance to the invaders. Trained to shoot to kill, they were ready for trench service as well.

There was no trace of rouge or lipstick on the faces of the determined women, the youngest of them only 16.

A newsman asked one of the girls if they weren't afraid of the Japanese.

"We are no more afraid of them than death itself," she replied contemptuously, saluting the correspondent and striding forward with her battalion.

BRITISH OPPOSED TO CHANGES AT SHANGHAI

LONDON, Jan. 10. (AP)—The British government today declared opposition to any permanent administrative changes in the international settlement at Shanghai such as have been demanded by the Japanese conquerors of the Shanghai area.

Britain, however, was authoritatively represented as ready to agree to some of the Japanese demands for increased power in the rule of the Shanghai settlement.

The British position was stated in communications to the United States, France and the British authorities at Shanghai.

Officials would not indicate on what points the government was ready to meet Japanese demands, but it was intimated they included increased Japanese representation on the settlement's police force.

In its communications to Washington and Paris, Britain made a clear distinction between "temporary" changes necessitated by abnormal conditions and changes of a more general character, which must be considered through normal procedure.

The Japanese demands, handed to the Shanghai municipal council last week, included placing of Japanese in controlling posts in all branches of the settlement's administration and would have meant replacing Britain's present dominant position in the council by Japanese control.

was estimated at \$100,000,000. It was the signal for the invasion of Shanghai by Japan's land and sea forces now nearing the stage of complete conquest.

The entering marines were supported by naval airplanes which roared overhead in groups of three.

Before the Japanese arrival of a few Americans and other foreigners, on advice of their consuls, concentrated at the Edgewater hotel, outside of the zone of possible trouble. But after the peaceful occupation Americans and others returned to their homes. The Japanese previously had warned foreigners to concentrate for safety.

Latest dispatches indicated some 200 United States citizens remained in Shanghai.

The United States cruiser Marblehead and other foreign warships in the harbor here permitted no shore leave tonight, but otherwise their routine was unchanged.

FDR TO RESUME POWER CONFERENCE TOMORROW

WASHINGTON, Jan. 10. (AP)—The White House announced today that President Roosevelt would resume his conferences with private power company executives tomorrow.

Invited to the White House were Daniel C. Green of the Central Service corporation of Chicago; John Carpenter of the Texas Power and Light company of Dallas, and A. B. West of the Nevada-California Electric corporation of Riverside, Calif.

For some weeks the President has had intermittent conversations with power executives, discussing the possibility of expanded utility construction.

Statement of FDR Speech Considered

WASHINGTON, Jan. 10. (AP)—President Roosevelt's Jackson Day assertion that the Democratic party must "sough off any remains of sectionalism and class consciousness" drew related attention today from those Democrats in congress who have opposed administration measures.

In some quarters, the remark was interpreted as a hint that administration support would not be extended in coming elections to anti-Roosevelt Democrats. Other party members, however, attached little significance to the President's statement.

Politicians who have speculated on the possibility of a realignment of parties noted also that the President appealed for disregard of partisanship.

Market Briefs

NEW YORK, Jan. 10. (AP)—Industrial stocks, later joined by the rails, swung upward in today's market and favored issues enjoyed gains running to 4 or more points at the best.

Although the ticker tape occasionally was behind on buying demand, there were slow intervals when profit selling appeared. Closing prices generally were under the day's top levels.

Stocks with an armaments flavor, notably aircraft, touched off the run-up. Metals and steels were quick to follow, along with coppers, chemicals and assorted specialties. Most slipped in the final hour as attention turned to the carriers.

Makes Way For New Justice

contributed to "the present fog" of business.

Employment Drops Detailing the experience of the Du Pont company as a guide to the general business situation, the company head said Du Pont employment had reached a peak of 59,000 in September, 1937, as compared with 42,000 in 1929, but dropped to 51,600 by the end of the year.

This decline, he said, was 14 per cent over three months and seven per cent from the year before.

Du Pont said the company's "first intimation of a changing business situation came in April" and "the decline in sales of our products that followed became precipitate in the late autumn."

"Ever since our sales began to decline last spring, Du Pont read from a prepared statement, "we have gone to the limit compatible with sound business practice to maintain employment and wages at the highest possible level."

There was no curtailment in advertising and sales promotion, nor in research work. Deficiencies in inventories were made up, but goods could not be manufactured for which customers were lacking.

Adjustments in production schedules were made reluctantly as a matter of necessity.

"Men have been laid off only as a last resort, and junior men first."

Du Pont said he believed in high wages, but that employees' share of income in this had been "higher than in any other country in the world or at any other time in history."

He warned also that "there must be a reasonable hire for the machines, tools, and other assets employed in business to insure the creation and availability of the needed capital in business enterprise."

His Profit Tax Later in a discussion of business in general, Du Pont said the capital gains tax "undoubtedly" has the effect of deterring capital investment.

"If an investment proves successful, most of the profit goes to the government," he asserted. "If successful, the individual bears all the loss; the investor hesitates to wager several to one on a venture attended with such risk."

"The undistributed profits tax inhibits the investment of earnings of a corporation. If it turns his need for capital to the investor public, it encounters today a lack of venture money. It cannot prudently use bank loans, which are short-time money, for venture purposes that require long-time patient money. Change of law with respect to these and certain other taxes, together with the simplification of the tax structure, would relieve annoyance of some of the present worries, and give greater confidence for the future."

ICC SETS \$4,500,000 VALUATION ON EMPIRE

WASHINGTON, Jan. 10. (AP)—The Interstate Commerce commission placed a final valuation of \$4,500,000 today on properties of the Empire Pipe Line company, owned and used for common carrier purposes as of December 31, 1934.

It valued at \$4,700,000 the total owned properties of the company which operates trunk lines in Kansas and Oklahoma and gathering lines in Kansas, Oklahoma and Texas.

The commission said the reproduction cost, new, would be \$6,791,939.

'RUSSIAN ROULETTE' TAKES YOUTH'S LIFE

AUSTIN, Jan. 8. (AP)—Associates of Thomas H. Markley, 21, formerly of Houston, expressed the opinion at a court of inquiry here today that he died through playing Russian roulette "once too often."

Markley, a University of Texas journalism student until six weeks ago, was fatally shot last night in the street in front of his home, where a small dinner party observing his 21st birthday was in progress. No verdict was returned but investigators said they were convinced the shooting was not a homicide.

Russian roulette, as described by the youth's friends, starts with spinning the cylinder of a revolver loaded with one bullet. The player then points the weapon at himself and pulls the trigger.

Markley had played the bizarre game often, witnesses at the court of inquiry said. He maintained, they added, that when the cylinder stopped after the spin the loaded chamber always would be at the bottom because of the weight of the bullet. The trigger, according to his theory, would fire the upper chamber and no harm would result.

Associates of the youth told the court of inquiry he often discussed suicide and had written poetry about it.

Mass Deaths Of Deer Are Laid To Poison

LOS ANGELES, (AP)—The mysterious death of many deer in the country back of Los Angeles is being investigated by the state officials.

Donald M. McLean, economic biologist, found bodies of 103 of the animals in an area of nine miles long. All had been healthy just before they had died, apparently of poison.

The only symptom observable was a "rather blind, wandering toward water," McLean said.

CASTOR OIL NOW AID TO FEMININE BEAUTY

BUFFALO, Jan. 10. (AP)—Castor oil, long a bugaboo of youth, now is an aid to feminine beauty, Dr. George W. Piero, University of Buffalo scientist, announced today after three ears of research.

"Young women who 10 years ago viewed the approach of a castor oil bottle in mother's hand with anything but thoughts of beauty, soon will be using castor oil vanishing cream, castor oil cold cream and even castor oil lipstick," he predicted.

Dr. Piero, a professor in the university pharmacy school, said he has discovered the new beauty aids by passing hydrogen through castor oil in the presence of a catalyst and obtaining "hydrogenated castor oil."

"The same treatment has been given other vegetable oils," he explained, "but castor oil differs chemically, is more active and gives an extremely hard product which has yielded itself to many uses."

From the university laboratory in three years of experimentation with the new oil and its derivatives, Dr. Piero asserted, have come, in addition to cosmetics, metal polish, jellified kerosene for use as fuel, a cleansing agent for textiles and a lubricant for motors.

The oil has not yet been placed in commercial use, Dr. Piero said.

ARKANSAS REFUSES BROCKELHURST PLEA

LITTLE ROCK, Ark., Jan. 10. (AP)—The Arkansas supreme court today denied Lester Brockelhurst's petition for a rehearing on his appeal from a Lonoke circuit court death sentence but granted the former Gelesburg, Ill., man permission to file within three days a petition for a writ of error coram nobis.

If the writ is granted, Brockelhurst will be allowed to go back to Lonoke circuit court for a second trial on a question of whether he is

Fire Mrs. O'Leary's Cow Started

What a fire that Chicago blaze of '71, supposedly started when Mrs. O'Leary's cow kicked over a lantern, must have been! Sweeping through block after block of wooden buildings, it destroyed most of the midwest's big metropolis. Here's the Hollywood version of the conflagration, staged for the movie, "In Old Chicago."

WRECKAGE FOUND SALTO, Uruguay, Jan. 10. (AP)—A Uruguayan rescue party reported today it had found the wreckage of an Argentine military plane that crashed near here yesterday with all its six occupants dead. The plane was believed to have carried Eduardo Justo, son of President Augustin P. Justo, of Argentina and five Argentine army officers.

FIREFIGHTERS FOILED AT BLASTING GASSER

EDINGBURG, Tex., Jan. 10. (AP)—Oil well firefighters tried a strategic maneuver today to kill the flaming gasser which blew out and ignited in the La Blanca field yesterday.

The blazing wells, flaming from one crater which had widened to 100 feet, were being flooded with water, the level of which the firefighters hoped would raise the flames to ground surface. At that level, they planned to smother the fire with foam or by discharges of nitrolycerin or gelatin.

The older well was abandoned when a drill stem stuck at 7,565 feet. A new well was started 50 feet away and was completed as a producer in October.

Engineers said terrific gas pressure resulting from a shut-in probably forced fissures from the new to the old well, thus forming a double vent. The gas caught fire yesterday.

The flames were consuming an estimated 50,000,000 cubic feet of gas daily under a pressure of 3,000 pounds. The crater was widening steadily. A pillar of fire was visible 70 miles during the night, the double flame covering about 2,000 square feet.
