10 APPLY FOR JOB OF MOVING PIKE'S PEAK

AUSTIN, Jan. 6 (AP)—Ten fearless "mountain movers" have applied for the job of carting Pike's peak from Colorado to Texas. Governor James V. Allred revealed yesterday he had received that many applications for contracts to move the famed peak from Colorado when Rice vanquished the University of Colorado 28 to 14 in the Cotton Bowl football classic.

"Wouldn't Governor Ammons be surprised," he remarked, "if we took him upon his proposition to come and get it any time?"

A petition from Alpine urged the peak be placed in the Chisos range of the Big Bend country. "If you put it anywhere else in Texas," said a letter accompanying the petition, "it would not have the proper playmates and would not be satisfied or happy." The communication also pointed out the project would relieve unemployment "for years to come."

A letter from Idaho said confidently the job of moving the peak to the Lone Star state was not an impractical one and outlined a complicated plan for its accomplishment.

Another from a Brownfield resident, applied for the contract with a plea he "was just married and out of work."

WELL, HE COULD BEAT HER OFF WITH CLUB

PARIS, Tex., Jan. 6 (AP)—County Clerk Roy Weaver receives many a request from parent or guardian not to issue marriage licenses, but the plea of a deady-serious caller a few days ago gave him something to think about.

His caller explained earnestly: "I came in to ask you not to issue a marriage license to a woman who's trying to marry me. I mean it, too. She threatened me with a knife and said she was coming to get a license."

Title-Bound

Darja Collin, blonde Dutch dancer famous throughout Europe, has danced her way into the heart of Sir James P. I. M. Corry, 45, an English baronet. But she won't give up her dancing for widowhood, planning to carry on her studio at The Hague, Holland, after their marriage next spring.

DOG TAGS ON SALE AGAIN

Calling all dogs, calling all dogs—the 1938 dog tags arrived at the police station this morning and you are instructed to call, be vaccinated and secure a tag immediately.

Police believe it is best to address the dogs this year because owners do not respond to a plea to have their pets vaccinated and tagged.

Price of tags and vaccination will be the same as last year. Tags for females will be \$2 and for males \$1. Vaccination will be \$1. Dr. T. J. Worrell said.

Pampa dog owners will be given one month to have their dogs vaccinated voluntarily. City Manager C. L. Stine said today. After that time a dog catcher will be employed and instructed to pick up all dogs not wearing 1938 tags.

Many children were bitten by dogs last year, some of them mad, and the city has decided to stamp out the menace.

4 LAS VEGAS YOUTHS REMAIN IN CITY JAIL

Four Las Vegas, N. M., youths arrested here Saturday night and Monday morning are still in the jail awaiting trial on charges of stealing a truck.

State highway patrolmen notified Police Chief Art Hurst last night that condition of roads in the Las Vegas section has kept them from making the trip to Pampa but that they expected to arrive here within the next few days.

TO ORGANIZE CLASSES FOR OIL WORKERS

Classes for petroleum workers will be organized at 7:30 p. m. tomorrow night at the Pampa high school building. It was announced today by E. C. Pennington, vocational instructor. All persons interested have been asked to be present at this meeting.

The studies will include mathematics, care and operation of internal combustion engines, steam power, drilling practice, elementary science as applied to petroleum industry, and allied topics.

Courses have been approved by men in the petroleum industry, under the American Petroleum Institute, Mr. Pennington said.

Classes will be held for a 12-week period, meeting two hours a night, twice a week. Exact time and courses are as determined by students.

Students will have no expense, other than the payment of a \$1.50 fee and the furnishing of their own books and supplies. The fee is to apply toward paying for expense of gas and lights.

Cost of instruction is borne by the state and federal governments under a plan whereby the state reimburses schools three-fourths of the amount of the teacher's salary. Federal funds match state funds in the plan. Texas has provided two million dollars for the plan.

A minimum enrollment of 12 is required to insure the courses being started.

The classes to be formed tomorrow, follow classes organized 12 weeks ago. Eleven classes, with a total enrollment of 160, completed

ANTI-SYPHILIS DRIVE OUTLINED BY VETERANS

Kerley-Crossman post of the American Legion last night made plans to sponsor an anti-syphilis campaign. A committee was appointed to direct the drive against the dread disease.

This group will comprise Charlie Maisel, Howard Buckingham, Sherman White, Roy Bourland, C. L. Stine, W. V. Jarratt, Dr. W. Purviance, Dr. R. A. Webb.

The first phase of the campaign will be educational, and will include published articles by local physicians. Other phases will be the sponsoring of examinations. Local and state legislation would be recommended.

District Commander Lou Roberts spoke at the district convention in May and suggested trips to other posts before the meeting.

The Legion voted to assist in soliciting funds for the Scout drive. Meeting date of the post was changed to Thursday night, starting in February. About 60 were present. Chili was served by Ralph Reinsmidt.

1,060 ACRES IN GRAY TERRACED LAST SUMMER

Terraces were built on 1,060 acres of Gray county land during the past summer. Ralph R. Thomas, county agent reports in the December issue of Extension Service Farm News.

Mr. Thomas' story is contained in an article entitled "Preview of the Terracing Picture on Texas Farms."

The Gray county farm agent writes that the work in Gray county was done in three communities by four farmers and as only 500 acres of plains land had been terraced previously, it was felt that these demonstrations would arouse a greater interest in terracing.

Rotarians Will Support Golden Gloves Tourney

Support of Pampa's Golden Gloves boxing tournament to be held for three days in February was given yesterday by the Pampa Rotary club through its president, Dan Gribbon.

The golden gloves tournament plans, which include the sending of local winners to the state contests at Fort Worth, and winners there to the national contest in Chicago, was explained to club members by Oduis Mitchell, high school coach and vice president of the newly-formed Pampa Athletic association.

Coach Mitchell urged the full cooperation of all civic clubs in the

On Charity--Have \$10,000

These two sisters, Roberta (left) and Olivia Hale, both in their 90's, were charity patients in Gallinger hospital in Washington, unaware that in their rooms relief workers had found \$10,000 in hoarded bills. For years a relief society had provided them with \$50 a month.

Scout Workers Asked To Report For Drive

Workers who promised to help raise the deficit in the local Boy Scout quota for 1937 had not reported to Executive Fred Roberts up to noon today. They are urged to do so immediately so that others will be able to carry on the work.

The "red" figures showed more than \$500 needed at the last check-up made. Supporters who have not been visited are asked to mail their checks to the office in the city hall.

Deadline to raise the deficit is Saturday because on Tuesday the annual meeting will be held in Borger. At that time Pampa must show a balanced budget or face the possibility of losing the council headquarters.

The annual meeting business session will be called at 3 p. m. in the American Legion hall with Minor Bishop E. C. Seaman, Amarillo, the Rev. J. R. Snell and Rev. Robert Boshen of Pampa. Burial will be in Fairview cemetery under direction of the Duenk-Carmichael Funeral home.

The beloved pioneer died in her suite in the New Schneider hotel yesterday morning after being bed-ridden three weeks. The body is now at rest at the hotel.

Mrs. Schneider first came to the Panhandle in 1886, settling at Mobeetie. She moved to Pampa in 1911 when her husband purchased the old Holland hotel and changed its name to the Schneider hotel which later became famous over the southwest for its meals.

Surviving Mrs. Schneider are two daughters, Mrs. George Rainour, Pampa, Mrs. Charles Westfall, New York City, a son, Alex Schneider, Pampa, a sister, Mrs. Emma LePore, Pampa, four grandchildren and one great-grandchild.

TEMPERATURES WANE SHARPLY IN DECEMBER

Average temperatures in Pampa took a sharp drop in December from the preceding month, a check-up of temperature charts kept here reveals.

The average temperature for the period Oct. 16-Nov. 16 was 56 1/3. In the period Nov. 16-Dec. 16, the average was 31.5 degrees, slightly above half of the temperature of the preceding period.

The highest average temperature during October was on October 29, when the reading was 61; October low was 47, exactly one week prior.

November's highest average was 61, on the first day of that month while the low was 21, registered 18 days later.

December's high average of 35 was registered on the first, second, and fifth days of that month, with the low of 18 coming on Dec. 10.

Jan. 3, 1913 Issue Of NEWS Uncovered

By BROWNWOOD EMERSON Casey Jones took his beautiful doll down by the old mill stream and comparison with the ideas of today is found in the contents of a yellowed copy of the Pampa Weekly NEWS, dated January 3, 1913, in which the advertisement quoted appeared. Dewey Belmont is the owner of this rare issue of the News.

Instead of the present day column, "Mainly About People," the reader discovers one headed "Local Gossip." Sandwiched between "Mrs. Frank of Depert spent the holidays with her brother, C. B. Hart," and "Some of the butter that will travel by parcel post will make a dead letter jealous," is the item, with the blanks left in exactly as printed, this 1913 Winchellism: "courted down east Sunday, and it is said to be a bad case."

While a daughter born to Mr. and Mrs. A. H. Tinsley January 1 was declared a "valuable New Year's gift," the editor evidently thought more highly of boys, for he records that a son born January 1 to Mr. and Mrs. Lee Brown, was "a thousand-dollar boy," mentioning the specific "value."

"Come to Pampa country where money grows on the farms, but don't all come at once for it might embarrass us."

"Now let all hands and the cook buckle down to business for the new year."

HALF MILLION ON DEPOSIT IN BANK, DEC. 31

Pampans had better than a half million more dollars in the bank at the end of 1937 than they did on Dec. 31, 1936.

Figures released by The National Bank of Pampa today showed that there was on deposit Dec. 31, 1937 a total of \$3,706,570.31, compared with \$3,169,521.45 one year ago, or a gain of \$537,048.86.

The bank's surplus fund at the end of 1937 was \$50,000 as compared to \$37,000 a year ago and loans showed an increase of \$40,000 over 1936.

Responses to state and national bank calls, issued yesterday, showed that banks in the larger Texas cities had aggregate deposits generally in excess of those 12 months ago.

Corpus Christi's \$17,617,438 in deposits, heaviest in the city's history, represented a gain of more than three million dollars in 1937. Wichita Falls' deposits, the highest since 1929, showed a gain of two millions.

San Antonio's total jumped almost \$40,000,000. Houston and Dallas deposits, however, showed slight declines which were not considered alarming. Fort Worth showed a slight increase.

Galveston, Austin, Lubbock, San Angelo and Abilene were among cities reporting increases.

SCHNEIDER FUNERAL TO BE TOMORROW MORNING

Funeral services for Mrs. Lina Schneider, 74, wife of the late Alex Schneider, will be conducted at 10 o'clock tomorrow morning in First Methodist church conducted by Bishop E. C. Seaman, Amarillo, the Rev. J. R. Snell and Rev. Robert Boshen of Pampa. Burial will be in Fairview cemetery under direction of the Duenk-Carmichael Funeral home.

The beloved pioneer died in her suite in the New Schneider hotel yesterday morning after being bed-ridden three weeks. The body is now at rest at the hotel.

Santa Fe Hero

James Lester Sargent, 10, shown above, became a young hero to the Santa Fe when he reported a broken rail near the Hobart street crossing to the Santa Fe here. His observant eyes noticed the broken rail about 8 o'clock one morning. The boy who lives at 1067 West Ripley, might have prevented a train wreck, Santa Fe officials said.

Three indictments, two of them against one person, were made at 10 o'clock this morning by the 31st district court grand jury.

Joe Cross was charged with theft in two indictments, both involving the taking of automobiles. Cross is charged with having taken a De Soto sedan, valued at \$1,000 from T. E. Allen, on October 30.

In the second case, Cross is charged with having taken a Pontiac coupe, valued at \$300, from Clyde Jonas. The date of the charge contained in the second indictment is the same as in the first.

Cross is in county jail. Drunken driving is the charge in the other indictment.

No further indictments had been made up to noon today. The grand jury re-assembled this morning, after it had been previously planned to dismiss the jury for two weeks, with the completion of yesterday's business.

JURY RETURNS 3 INDICTMENTS

WASHINGTON, Jan. 6 (AP)—The House judiciary committee suggested to President Roosevelt today that he choose Representative Sumners (D., Tex.) chairman of the committee, to succeed Associate Justice George Sutherland who decided yesterday to retire January 18.

The members, in the absence of Sumners, prepared a letter to be sent to the White House it said in part:

"With unbounded confidence in Judge Sumners, we wholeheartedly commend him to your favorable consideration, and certify your conviction that your appointment of him would redound to the lasting honor of your administration, and of the supreme bench."

Senators commenting on Sutherland's retirement emphasized two points today:

1. That President Roosevelt's nominee to fill the vacancy will be subjected to careful senatorial scrutiny.

2. That prospect of a definite "liberal" majority on the court showed into the background possibility of reviving the President's judiciary reorganization bill.

Senator Bridges (R., N. H.) already has proposed that Senate hearings be required on Supreme Court nominations, and was expected to seek approval of such a rule before a nomination is submitted.

Senator Copeland (D., N. Y.), who first asserted Justice Hugo L. Black had been a Ku Klux Klansman, said any nominee would be "closely scrutinized."

That sponsors of the Golden Gloves boxing tournament are in the market for some heavyweights. The lighter boys are signing up but the big fellows are scarce. Anyone knowing the whereabouts and lightweights should call or see the Golden Gloves Editor at the Pampa Daily News. The same goes for the light boys because all are needed to make the big tournament a success.

STANLEY REED HEADS LIST OF ALL LIBERALS

WASHINGTON, Jan. 6 (AP)—The House judiciary committee suggested to President Roosevelt today that he choose Representative Sumners (D., Tex.) chairman of the committee, to succeed Associate Justice George Sutherland who decided yesterday to retire January 18.

KIWANIS INSTALLATION TO BE HELD SATURDAY

Brief installation ceremonies will feature a meeting of the Pampa Kiwanis club in Schneider Hotel at noon Saturday when J. B. Massa will be elevated to the presidency, succeeding Tom Aldridge, retiring head of the civic organization. The meeting was changed from Friday to Saturday out of respect to the memory of Mrs. Lina Schneider for whom funeral services will be held tomorrow.

Other officers to be installed are W. B. Weathered, first vice president; R. A. Selly, second vice president; Fred Thompson, secretary-treasurer; and the following directors: B. M. Behrman, Alex Schneider, Shelby Gantz, R. W. Lane, C. E. McNew, W. Calvin Jones and W. P. Dean.

Club members also are expected to name a date for the annual ladies' night banquet, originally scheduled for tonight and postponed because of the death yesterday of Mrs. Schneider, mother of Alex Schneider, one of the club directors.

NO-BILLS RETURNED IN TWO DRIVING CHARGES

Two no-bills, both on drunken driving charges, were returned by the 31st district court grand jury yesterday afternoon.

The jurors no-billed W. F. McDowell of Borger. The charge had followed an accident on the bridge over the North Fork of Red river near LePore, December 13, in which Mrs. J. Fred Smith received fatal injuries.

The other no-bill was in the case of E. B. Wicker, also of Borger, whose Chevrolet coupe was in collision with an Oldsmobile coach, driven by Biggs Horn of White Deer, former Pampian. The accident occurred on the same date as the one that resulted in the death of Mrs. Smith.

The collision occurred five miles west of Pampa on U. S. highway 60. Horn received minor injuries in the crash. Wicker suffered an injured right wrist, and a hurt nose that required three stitches.

OIL FIELD EQUIPMENT RECOVERED BY WILCOX

Oil field equipment, discovered New Year's day by Sheriff Earl Talley near Kingsmill, has been recovered by the Wilcox Oil and Gas company, from whom the equipment had been taken two weeks ago. Sheriff Talley said Wednesday.

Sheriff Talley found a 1 1/2-ton chain hoist, a 6-inch swab, 2-inch elevators, 10 valves and fittings, and two truck tires, buried in a field near Kingsmill Saturday afternoon, and brought the property back to Pampa.

TEMPERATURES IN PAMPA

Joe Shelton remembering this his mother and father, now deceased, were married 31 years ago yesterday near Beaver Dam on McClellan creek. One of the guests at the wedding was J. S. Wynne who drove from Mobeetie to attend the rite. That just about makes Joe Shelton the oldest native in the county.

## Groups of Council Meet Wednesday

Members of the Women's Council of the First Christian church met yesterday afternoon in individual groups for regular programs.

Mrs. J. M. Miller, leader of the afternoon, gave the devotional at the meeting of group one which was held at the church. 11 members heard the discussion of the lesson on "Moslem World" which included a talk by Mrs. Sophie Elkins and a solo by Mrs. Tom Bunting.

This group voted to help a needy family.

Mrs. H. C. Dowell was co-hostess at the meeting of group two which was held in the home of Mrs. Charles Stowell.

Mmes. Ray Walker, Lucella Havell, Bert Stevens, Stowell, S. T. Leonard, and Roy McMillen assisted in the panel discussion of "Living Religion" on the program which was directed by Mrs. Roy McMillen.

Other numbers were a talk on "Mosque and Minarets" by Mrs. H. C. Dowell, a paper on "Islam" by Mrs. Hugh Isbell, and "Gifts from Moslem" by Mrs. McMillen.

Eleven members and one visitor, Mrs. Ora Wagner, were present.

A prayer by Mrs. J. R. Moore opened the meeting of group three in the home of Mrs. Weldon Wilson where a lesson on "Good Work" was given by Mrs. De Lea Vicars.

Those present were Mmes. Moore, Z. H. Mundy, C. L. Thomas, Vicars, Tom Eckard, W. G. Kinzer, Fred Ganitz, and the hostess.

Hostesses to group four of the Council which met in the home of Mrs. Burl Graham were Mmes. Walker Sills, M. H. Ellrod, Jack Wilkerson, and W. E. Riggin.

Mrs. W. E. Noblitt presided at the program which included a vocal duet, "Will the Circle Be Unbroken" by Mrs. Sian and Miss Avis Heiskell; the devotional by Mrs. C. J. McMullen, and the lesson on "Living Religion" by Mrs. Graham.

A panel discussion on the same subject with Mrs. C. T. Hunkapillar taking the leading part and Mrs. John Mullen as guest leader was given. Student parts were taken by Mmes. Jack Graham, Mary Horner, R. A. Killion, and J. A. Swanner. This was followed with two piano solos by Mickie Casada.

Refreshments were served to 30 members and eight guests.

## Club Has Lesson On Meal Planning

SKELLYTOWN Jan 6—A demonstration on "Meal Planning" and "Gardening on an Extensive Scale" was given Tuesday afternoon, when Miss Bernice Westbrook, County Home Demonstration agent, of Panhandle met recently with members and guests of the Sunshine Home Demonstration club of Skellytown at the home of Mrs. M. B. Roberts.

Daily meal planning charts, were filled out by each one with the help of Miss Westbrook who gave a very interesting talk on a proper diet. A cold frame was demonstrated and leaflets of instructions on how to make them were given to each one.

Mrs. Pat Morris, president, was in charge of the business meeting. Gifts from Rosebud friends were passed out by Mrs. I. B. Bales.

A salad plate was served to two new members, Mrs. Charles Beattie and Mrs. Bill Adams, and the following members: Mesdames C. E. McCaleb, Arvil Williams, I. B. Bales, Aaron Edwards, John Nichols, Lonnie Feigenspan, Glenn Smith, E. E. Crawford, Pat Norris, W. W. Hughes and the hostess.

Raisins, dates, currants and figs blend better with other ingredients if they are soaked for five minutes in a little boiling water. Use two tablespoonsful of boiling water for each half a cup of fruit.

## Jacob Bull Rites Held Wednesday

HIGGINS, Jan. 6—Funeral services for Jacob Elijah Bull were held at the Methodist church here yesterday afternoon, with Rev. H. W. Barnett, regular pastor, officiating.

Mr. Bull was born May 4, 1856 at Centerville, Leon county, Texas. He came to Ellis county, formerly Day county, Okla., where he resided several years, engaging in the ranching business. He also served several years as sheriff of Day county. He moved to his ranch south of Lipscomb many years ago, and lived there until his death on January 3.

Surviving him are his widow, two daughters, Mrs. A. E. Merriam, Lipscomb and Mrs. H. D. O. Hammond, Roswell, New Mexico; one brother, George Bull, Mangum, Okla.; three grandchildren, Mrs. Burie McCommis, El Paso; Sharon and Trenton Bull, Wichita.

His son, Houston Temple Bull, was killed a few years ago in a car accident near Wichita.

Mr. Bull was a brother of the late Solo Bull of Dalhart, who was a well known stockman of that section.

Interment was made in the Higgins cemetery.

## Fat Girl Laughs and Grows Slim

Here's a way to get rid of ugly fat that works hand in hand with nature. Millions of people are losing millions of pounds of baby fat and getting back slender bodies, without the usual starvation, or back-breaking exercises.

A little Borden's has discovered that one of the causes of this "itch" of fat is a feeding of the little kind of substance called "Lactogen" and Marmola. These are based on this same method. Millions are suffering from fat. They are prepared by a famous medical laboratory. Their formula is published in every package so you know what you are taking. So don't waste time and money with starvation diets or back-breaking exercises. Go to your drug store today and get Marmola. Try this simple, easy way to get rid of excess fat.

OIL OPERATORS GIVEN ORDERS

AUSTIN, Jan. 6 (AP)—The Railroad Commission today ordered every East Texas oil field operator to report between now and the next statewide prorating hearing January 17 on wells making water, pumping, using air-gas life, or in-

capable of making their allowables. "It appears," the order said, "that a general water survey and well status report of wells incapable of making their allowables, pumping wells, wells making water and wells on artificial lift would further the conservation of crude oil and natural gas in the East Texas field."

total depth of each well; status of each well, as to whether it is flowing, pumping, on air or gas lift, or dead; current allowable of well; average of water; a statement as to whether the well currently is making its allowable.

CROPS OF EAST TEXAS REMAIN LOW IN PRICE

KILGORE, Jan. 6 (AP)—Lower commodity prices prevented the East Texas oil belt's more than 12,500 farmers—known as "forgotten men" since rich petroleum deposits were discovered under their land seven years ago—from regaining in 1937 part of the prominence they enjoyed a decade ago, say farm agents of Greg, Smith and Rusk counties.

EMPLOYMENT REACHED PEAK IN NOVEMBER

WASHINGTON, Jan. 6 (AP)—Employment reached a peak in November, before the business recession, which was comparable with 1929 figures, Virgil Jordan, president of the national industrial conference board, told the Senate unemployment committee today.

pled, plus the population increase, Jordan said. Altmeyer told the Senate investigators a draft of his suggested amendment had been submitted to the Senate finance committee. He urged, however, that no payments be made until six months after a state had developed its administrative plans.

If the present amount of unemployment continues in 1938, Altmeyer said, approximately \$225,000,000 will be paid out in benefits to the jobless. He told committee members that unemployment payments, if they become general, would serve to "cushion" the shock of depressions.

At the same time Chairman A. J. Altmeyer of the social security board recommended to the committee that Congress amend the social security act so that states may pay unemployment benefits "more quickly."

#### TODAY'S SERMONETTE

The scripture tells us how hard it is for the rich to enter the kingdom of heaven, and then comes Jesus, saying that all things are possible with God. Zacchaeus, chief of the publicans, a sinner, a man of small stature, who, seeing Jesus passing by, climbed into a tree to get a better view, and Jesus, seeing his faith, went into his home. And the publican told how he gave half his possessions to the poor, and if he had robbed any man would restore fourfold. "This day," said the Master, "salvation came to this house."—Chivers.

#### 'MUTTY' SCHNEIDER PASSES

They go so rapidly, these pioneers! Only a few years ago T. D. Hobart, Grandma Thut, Alex Schneider, Sr., Mrs. Walstead, Mrs. Worley, Mrs. Ledrick, Mark Huselby, and others, walked the streets of Pampa, and you spoke to them and rejoiced that they were living. Now Mrs. Lina Schneider, "Muttie" Schneider to many people who loved her for her dear personality, is headed for the Last Roundup. And there is grief in Pampa, grief and tears and sorrow, for Mrs. Schneider was loved dearly. She was one of the few remaining personages of the Old Pampa. It was always the Old Pampa to her, and she loved more than anything those friends of hers who were her friends years ago.

She made new friends too, and she worked almost until the day she died. She was amazingly energetic, and she insisted on watering the grass and pruning and caring for shrubs and flowers at the hotel and at the houses she rented out. She was never in the way, and she worked obscurely and demurely, but firmly and kindly, but she was always around to help, and it was a wonderful thing to have her quick smile shine suddenly in your face! We will miss "Muttie" Schneider when we go over to the hotel, because to know her was inspiring, and to talk with her was to see purposes made plain. The pioneers had experiences that enriched their lives and made them beautiful; the story of their hardships makes us humble when we think of them. May "Muttie" Schneider rest in peace!

#### TWO NEW HELMSMEN

With Reno Stinson named to head the Board of City Development and Dr. C. H. Schulkey elected to pilot the Junior Chamber of Commerce, it appears that 1938 will be a progressive year for Pampa in sense of taking civic strides.

Both are energetic, hard-working men who have been active in their city's progressive movements for many years. Going ahead is nothing new to Mr. Stinson or Dr. Schulkey. Now, they merely have been elevated to the leadership in their respective groups.

Both are highly capable, and one feels that they will command the cooperation of individuals throughout the city as well as the combined backing of the various organizations with which their two groups necessarily must be tightly interwoven.

#### A WORTHWHILE GOAL

Much good should come from the newly-organized Pampa Amateur Athletic Association, designed to promote and further the cause of amateur sports of all kinds in Pampa.

It is something the city needs—a clearing house for amateur athletics which will serve to provide recreational diversion for boys and girls of our city.

Getting off to a small start, the PAAA can become down through the years a tower of strength in making Pampa amateur athletics minded. This organization can grow into one of the biggest forces for good the city ever has known, simply through the proper supervision of amateur sports of all kinds and thru an educational campaign to get as many of our boys and girls as possible interested in some outdoor or indoor recreational activity. Certainly, it is a worthwhile goal.

#### WHY REBUILD GRANDSTAND?

You hear quite a bit of discussion about WPA's plans to rebuild the grandstand at Fairgrounds Park.

The question everybody asks is: What for?

And, it is a difficult question to answer, unless somebody knows something about the plans out there that haven't been brought to public attention.

Several persons have suggested that inasmuch as the park can't be used for racing, and that a grandstand probably wouldn't be used more than two or three days out of the year, that the appeal be switched to an entirely new WPA project that would give Pampa a community recreational building.

It is something to think about, anyway.

### Tex's Topics

Wes Izzard, the very personable newscaster from KCNC, Amarillo, came over to Pampa yesterday and gave an interesting discussion on what can be expected to happen in a news way during the year just ahead. Mr. Izzard is so far ahead of Old Tack when it comes to making predictions about things, that there is no comparison. Old Tack sticks his neck out on the weather, misses that nine times out of ten, and refuses to guess about anything else but football.

But, Mr. Izzard does not wish to be thought of in the light of a fortune teller or an astrologer. He just figures things out from the law of averages and his newspaper files for years and years back. It is his opinion—and he won't be far wrong, either—that major news stories repeat themselves not in the same spots but in sets of circumstances which are very, very similar year after year.

In his address before the Pampa Rotary club yesterday noon, Mr. Izzard went back over the outstanding news stories of the past 15 years and touched briefly on them. He says that in searching through the newspaper files down through the years he found them to be very much the same as to content. Many of the circumstances were practically the same, with nothing much new about them but the locale and the names.

In discussing "What Is Likely to Happen in the News of 1938," Mr. Izzard predicts that the year will see at least two major disasters—one man-made and the other, a disaster of nature. He sees 1938 a year for hurricanes and forecasts that there will be at least one major windstorm somewhere in the nation this year that will take a huge toll of lives. He also foresees one major air disaster, at least one major crime, and one history-making political story, one big personality story, a new world-shaking foreign conflict—and he believes it will start over control of the Mediterranean, that all-important East-West gateway.

All this news, says Mr. Izzard—as it always is—will be set against a back-drop of some definite world trend. As 1937's world trend stage setting, he pointed to the tendency for conflict between proletarianism, Fascism, Nazism or, so to speak, the rule of dictators against the rule of the people. So confident is he of the "return of the news of other years" that he asked this listeners yesterday to make mental notes and then later on in the year, check up on just how many nails he had hit on the head in his predictions of the major news happenings of 1938. If you will do that, you will find that Mr. Izzard won't be wide of his mark on many of them.

#### Washington Letter

WASHINGTON—The McCadoo farm plan for handling crop surpluses is getting special attention in several quarters where it is looked upon as an ace-in-the-hole in event the measure now being worked out in conference committee proves to be a flop when it is tried.

The McCadoo idea combines certain phases of the domestic allotment plan with a device for putting American mills on a competitive basis with such cotton goods producers as the Japanese.

McCadoo explained his plan to the Senate only a few hours before the Pope-McGill bill was adopted and sent to conference with the House. It had not been considered by the agriculture committee and, as a result, the members were wary of taking such a pig in a poke. But many disclosed an intention to study it further.

The McCadoo plan would apply to the usual basic crops, such as cotton, wheat, corn, tobacco, rice, and hogs.

Here, roughly, is the senator's explanation of how it would work with cotton:

"The Secretary of Agriculture estimates about what the crop for the year will be. He then computes what domestic demands for cotton will be. Suppose the domestic demand calls for about half the crop. Then each farmer would turn over half of his crop to a cooperative corporation with authority to market the cotton abroad for what it could get. The other half would be sold on the domestic market without competition. McCadoo incorporated in his bill machinery fixing a cost-of-production price for the domestic portion of the crop. That brought opposition, of which more later. But the trick in his bill that pleased several senators was this:

Instead of dumping the surplus raw cotton on the world market at any price it would bring, McCadoo suggested selling part of it to American millers at a special low price so they could make cloth cheap enough to compete with Japanese textiles. That idea immediately attracted New England members, who would like to see their mills get back into the world trade.

Of course, goods made with the cheap cotton could not be sold in the United States.

### Life in The Day of A Dictator

#### Man About Manhattan

NEW YORK—It was 2 a. m. in the Stork club and Sherman Billingsley sat wearily watching a man at the bar. Ted Husing, the sports announcer came by and said, "Hello Sherman."

Sherman came back from some "far, dim point in retrospect and said, "Why, hello, Ted." They chatted a moment and then Husing went on to his table. Billingsley automatically went back to studying the man at the bar.

"You know him?" Just then Ina Claire came by and said, "Hello, Sherman." Before he could answer a group of debutantes with their escorts rushed up and said, "Hello, Sherman." It was like that for maybe half an hour. Later, that is to say 30 or 40 minutes after I had asked, "You know him?" he said, "Sure. Let me tell you about him. He came in here one night and said, 'Sherm, I've got to have \$250. I need it desperately. What do you say?' I said, 'If you need \$250 you need \$500. Here take it.' 'I'll give it right back to you,' he said. 'That was three years ago.' 'I haven't laid eyes on him till he walked in here a few minutes ago.' 'Just a dead beat, eh?' 'The faintest suggestion of a shrug touched his shoulders. 'You never can tell,' he said.

"Well, several months ago a fellow borrower \$200 from me. He said he wanted it for only a few days—a week at the most. At the end of the week he was back in here, but didn't mention the \$200. Then he dropped out of sight and I never saw him until last week. He breezed in, greeted me like a brother, and made a lot of courteous inquiries about my health. I thought, 'I'll have to get rid of this fellow.' So I took him out in the kitchen, let him see the new ranges. I thought I'd bore him with that and he'd leave. The moment we were in the kitchen he handed \$200 out of his pocket and said, 'Here you go, Kid—thank's a million.' I started to ask, 'Do you lend money to everybody that way, Mr. Billingsley? Because if you do...' but just then Frances Farmer came by and said, 'Hello, Sherman,' and before he could answer, Gertrude Lawrence came by and said, 'Hello Sherman,' and by that time Wallace Ford was at his elbow saying, 'Hello, Sherman; pretty soon it got so hopeless I thought I'd reject a little originality into the conversation, so I reached for my hat and said, 'Good bye, Sherman,' and went home.

### The Capitol Jigsaw

By HOWARD C. MARSHALL

AUSTIN, Jan. 6 (AP)—Increasing popularity for the idea the legislature should hold a session one year for general governmental purposes and another the next year for appropriations is predicted by Rep. Arthur Holland of Belton.

He made the prophecy in a published study of affecting legislatures of Texas and other states, including those of session length, committee work and remuneration. The analysis, he said, was prompted partly by criticism of legislatures for length of sessions, the fact half-baked legislation sometimes is enacted, the further fact the legislature, "like the cat," often is a convenient agency to blame things on and, finally, the "attachment of blame to legislators for doing identical things for which congressmen are praised."

It was not until the financial collapse of 1929 that special sessions of state legislatures became the rule rather than the exception, Holland said. "With the bulk of the wealth concentrated in very few hands," he said, "with natural wealth, raw materials and manufactured products cheap, and money at its highest, the problem of breaking up the amassed fortunes and effecting a redistribution of wealth were problems with which only the state and national governments could cope, and only in cooperation with each other. Taxation played a most important part in effecting this redistribution."

Not only have governors found it necessary to exercise their constitutional powers of calling special sessions, but in instances length of regular sessions has been increased. In Texas the legislature meets in general session once each two years. There is no limitation as to length except that for the first 120 days the pay of members is \$10 a day and thereafter \$5. Usually adjournment takes place within two weeks after expiration of the 120-day period.

In 1937 the Texas legislature was in session 191 days, the longest time in any year since 1900. The 191 days was divided as follows: a general session, 131 days; the special session to repeal the race track betting law, 30 days, and the special "tax" session, 30 days.

Discussing state legislatures in general, Holland said one of the most effective deterrents to good legislation was limitation on the time legislatures may remain in session. Others were limitations on pay and numerical composition of the Houses.

He notes regular sessions were limited to 60 days in Arizona, Arkansas, Delaware, Florida, Idaho, Louisiana, Montana, Nevada, New Mexico, North Dakota, Rhode Island, South Dakota, Utah, Washington and West Virginia. In Alabama the limitation is 50 days, and the legislature is convened regularly quadriennially. The limit in Tennessee and Wyoming, respectively, is 75 days paid service and 40 days.

Several of the more populous states pay their legislators salaries. New York pays \$2,500 a year; Ohio, \$2,000; California, \$1,200; Massachusetts, \$2,000; and New Jersey, \$500. The salary in Pennsylvania is \$2,000 for a regular biennial session and \$500 for a special session, and in Illinois it is \$5,000 for a two-year period. In Wisconsin members of the legislature are paid \$2,400 for the two-year period at the rate of \$100 a month.

The tendency, Holland continues, is to pay regular salaries sufficient to enable legislators to study legislation before and after adjournment, in states where economic and social problems are becoming more and more acute. A tendency to remove limitations on session length also is observed in such states.

Holland discussed arguments for and against the unicameral legislature of which Nebraska has the only one in this country, and remarked it would probably function with no greater efficiency than the bicameral legislature if various restrictions now imposed on the latter were not removed.

#### Around Hollywood

HOLLYWOOD—They are filming three endings to "The Baroness and the Butler," the William Powell-Annabella film.

They aren't concerned with how the story ends—whether the heroine shall marry the hero or shall kill herself or take vanilla. That's all settled. What bothers them is whether Annabella should spill coffee on Powell, and if so, just how much coffee shall she spill. It's the "tag" that counts—the final scene. Producers and writers huddle fiercely on that particular portion of a production, often take straw votes among themselves and their studio workers to decide on it.

The fade-out invariably leaves a strong impression on the fans. If it's a good impression, they're supposed to be more prone to tell their friends about the picture. Often—now think back—a good "tag" will give you a happy impression of a picture that wasn't nearly as good as you left the theater thinking it was.

Without going into exhaustive research on the matter, the "tag" that strikes me as most nearly perfect for the film it concluded was that on "It Happened One Night" —a scene in which neither Claudette Colbert nor Clark Gable appeared. Tristes of tags, of course, is the fade-out kiss, but variations on this, smartened and brightened, never fail to win approval. The practice of filming two story endings to a picture is still common. The idea behind it is that a picture audience can "take" an unhappy ending, whereas the small town and rural fan wants his screen life sugared. In "The Wedding Night" Anna Sten died for the classes, but lived and loved for the masses. Showing how much difference it sometimes makes, the picture itself did for both.

### How's Your Health?

By IAGO GARDLTON, M.D.

Few foods, if any, have been the butt of more jokes than spinach. But it's time to take a sober view of this vegetable.

Its cooked leaves have been used as a food for centuries and today spinach is available commercially in a variety of forms. Unlike many other leafy green vegetables, spinach is readily obtainable throughout the year.

The American Medical Association's council on foods has reported recently on the nutritional value of spinach. Chemical examination shows it contains an extraordinary high concentration of vitamin A. It is also rich in vitamin C. Spinach contains relatively large quantities of iron and calcium, and a fair amount of copper. Like most plant materials, spinach varies in its vitamin and mineral content, due to differences in soil and climate.

More significant, however, than these variations are the relative losses in both the vitamin and mineral content due to the way in which the spinach is prepared. "Vitamin C in the leaves of fresh spinach diminishes rapidly when standing at ordinary temperatures and becomes vanishingly small five or six days after the leaves have been cut," says the report.

Cooking may extract a considerable amount of salts and water-soluble vitamins from the spinach. Like most other green vegetables, it should be cooked in a minimum amount of water.

Cooked spinach, however, is usually considered an excellent source of vitamin A, a fairly good source of iron and bulk to the diet. Canned spinach is considered to have about the same nutritive values as fresh cooked spinach.

"As far as its practical usefulness as a source of iron in the feeding of infants is concerned, spinach is of negligible value, because little of it can be fed," the council significantly observes.

Spinach does, however, rate as a good source of iron for older children and adults.

### News Clearing House

Pampa, Texas, Jan. 5, 1938. Editor of NEWS, Pampa, Texas.

Dear Sir: I appreciate the front page editorial of today. You are absolutely right. No city ever got anything better than what it put in every effort.

Your mention of Charlie Cook, calls to mind the many valiant services he performed for Pampa. We have had few like him. You mention that delegations went to Washington. Fifteen of us spent more than a week at Fort Worth at the last ICC hearing. Delegations were sent to Austin, Fort Worth, Dallas as well as Washington, AND WE GOT THE ROAD!

When this was accomplished Pampa began sending committees to Austin to the Highway Department; to other departments. This has been carried on since—and WE GOT THE ROYAL HIGHWAY! When applications were made for assistance to develop our recreation park, which seems to be quite a "white elephant" right now, Gilmore Nunn, president of the B. C. D., was sent twice to Washington, and each trip was worth the money many fold.

Amarillo has kept from one to a half dozen at Washington for weeks at intervals for several years. Today, I imagine their biggest payroll is federal. Amarillo, naturally, is going after anything that will help Amarillo, and though they MAY be generous hearted in their attitude towards Pampa, we'll come nearer getting what we want by going after it ourselves.

# WILD LIFE OF PANHANDLE DEFIES DUST

DALHART, Jan. 6 (AP)—Birds and beasts of the Panhandle are fighting a losing battle against the "dust bowl" which has formed their own "last man" club and defied nature to turn them out of their patrimony. Crows built nests of barbed wire after more adaptable construction material had gone down with the wind. Dallam county rooks gained national recognition for durability.

Came the change. What man nearly destroyed he is restoring by the science of conservation and soil rehabilitation, and grass once more is growing on the limitless range and by the buffalo wallows. Birds that braved the lean days of Panhandle "thunderstorms" again are becoming selective at nest building time, says George Phillips, farmer living 25 miles north of here.

Recently he noticed a crow power-drive from a nest and pounce upon a newspaper traveling nowhere ahead of a gentle breeze. It twittered sweetly to its mate which immediately fluttered to the scene and, with the cooperation learned in days of adversity, held the rolling sheet with its spurs while the female tore it into strips. These were carried to the nest, apparently for 1938 lining. Phillips said.

Mr. Phillips, observing other examples of the intelligent reaction of Panhandle wild life to experience, shooed a black eagle from a fence post while riding in his pasture recently. As it flapped leisurely aloft a coyote leaped from tall weeds and the bird promptly swooped down and dug its talons into the animal's back. The coyote raced madly, the eagle with outspread wings clinging tightly, but unable to lift its prey. At last the coyote's gyrations threw the bird off balance, feathers flew, and the eagle appeared satisfied to take to the air.

Other stories of the tenacity of animal life in the Panhandle are coming in. "Last summer," said L. E. Buckley, express agency manager here, "a half starved kitten joined us."

He had nothing to feed it, but it made meat of the fat grass-hoppers that invaded the country and when cream spilled from a can on a truck the kitten lapped it up. "By the time the hoppers left," said Buckley, "we decided a cat that could adapt its appetite to rations available deserved help. We've been buying its food since."

It is a very remarkable tom cat, too, Buckley said. "In his lifetime he has been out only two nights—a Saturday and Sunday and Sunday night."

## Market Supply of Cattle Increasing

HIGGINS, Jan. 6.—The supply of cattle was larger here Tuesday at the Higgins Livestock Sales company than for several weeks and consisted principally of steers and steer calves and the usual run of jackpot cattle.

The run of hogs was light with a few good weight butchers offered. The latter bringing around \$7.00. Some good heavy stock pigs sold at \$11.00 a head. These pigs were purchased by Jim Lowry of Darrouzett. Heavy sows sold up to \$6.50 per hundred. Most of these were purchased by A. H. Johnston and J. L. Weeden of Vici.

In the cattle yards an unusually large run of milk cows was consigned and sold at very good prices. Included in this offering were some Jersey heifers consigned by G. C. Hughes and purchased by Gomer Lewis that brought \$40.00 per head. L. H. Tandy of Gem City, sold several head of very medium grade Jersey cows up to \$25 a head.

V. K. Scarth, local trader, sold about a truck load of dairy cows that brought up to \$40 each. Omie Carney of Shamrock sold some Jersey cows at around \$34 per head. Garres also consigned some good calves that sold at satisfactory prices.

The market on all classes of cows was extra good and looked to be around a half a dollar a hundred higher than last week, with a top of \$5.40 on cows and some cutters that sold up to \$4.80 a hundred.

**CHECK SIGNALS**  
EVANSTON, Ill.—Police Chief William O. Freeman called traffic squads into his office for a pep talk on how to arrest motorists who have not purchased city licenses for 1938.

"I have given them two days' grace," he said. "That is enough. Go out and arrest them."

But Freeman called off the drive within five minutes—"until we get 1938 licenses for the squad cars."

## HAPPY RELIEF FROM PAINFUL BACKACHE

**Caused by Tired Kidneys**  
Many of those grating, nagging, painful backaches people blame on colds or rheumatism are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are the body's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 9 pints a day or about 3 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney tubes that filter out poisonous waste from the blood. Get Doan's Pills.

## MARVIN JONES PLEASED WITH FARM FUNDS

WASHINGTON, Jan. 6 (AP)—President Roosevelt's budget estimates for relief and farm benefits encountered congressional opposition today despite favorable Democratic reaction to his message as a whole.

Several influential Senators, not yet ready to be quoted by name, also said they would oppose the President's request for power to veto individual items in appropriation bills. They characterized it as an invasion of congressional authority over appropriations.

Complaints about the proposal to fix next year's relief expenditures at \$1,000,000,000, compared to this year's total of \$1,500,000,000, came from Senators La Follette (I-Ore.) and Schwelienbach (D-Wash.).

The Washington Senator contended that WPA officials were unable to meet the present relief burden under an amendment requiring them to make the \$1,500,000,000 fund last until next June 30.

Some Senators protested against holding 1939 soil conservation funds to \$440,000,000—the amount allotted for this year—but Chairman Jones (D-Texas) of the House agriculture committee expressed pleasure the amount had not been cut below that figure.

Many legislators voiced approval of Mr. Roosevelt's proposal to cut \$539,000,000 in total expenditures, even though some of them criticized specific curtailments.

Senator King (D-Utah), long a critic of heavy spending, commended "the temper in which the President admonished us to be rational in expenditures."

Republican Leader McNary of the Senate said it was "regrettable" that the President found it impossible to balance the budget.

House leaders, with the budget before them, cleared the way for immediate consideration of the appropriations bills carrying out its provisions. They decided to con-

tinuing funds for independent federal agencies, and expressed hope it would pass this week.

The Senate, by an agreement reached during the special session, took up the controversial anti-lynching bill.

**DRUNK SITS ON ROCK AND COLLECTS \$15.82**  
HAPEVILLE, Ga., Jan. 6 (AP)—It was a profitable two hours which Lamar Couch spent seated upon Hapeville's public "worrying rock" as a sentence for new year's drunkenness.

Couch said today sympathetic passersby and photographers had tossed \$15.82 into his hat while he worried on the stone slab down by the railroad station with an icelag on his head.

ing funds for independent federal agencies, and expressed hope it would pass this week.

## SIDES FORM IN ANTI-LYNCHING BILL SKIRMISH

WASHINGTON, Jan. 6 (AP)—Southern Senators banded together today for a prolonged fight against the anti-lynching bill in the hope it would be shelved to make way for President Roosevelt's legislative program.

They chose a westerner—Senator Borah (R-Idaho)—to begin debate this afternoon against the measure. Senator Connally (D-Tex.), leader of the opposites, said debate would last "at least a week or 10 days," but declined to forecast how much longer it might continue.

Republican leader McNary, who favors the proposal, said he understood the southern group hoped to continue talking until pressure from the administration's program became so strong that the anti-lynching measure would be dropped.

He asserted a filibuster might prolong the congressional session considerably beyond its scheduled May adjournment.

Supporters of the bill expressed the hope any filibuster would fizzle quickly.

Senator Van Nuys (D-Ind.), co-author of the measure, said "if the gentlemen from the south—knowing that we have the votes to pass this bill any minute the roll is called—want to take the responsibility for delaying any economic or industrial program, the responsibility is on their shoulders."

In one form or another, the anti-lynching proposal has been debated in congress for 20 years.

The senate measure would levy fines up to \$5,000 on sheriffs or other officers who failed to protect prisoners. It would require political subdivisions where lynchings occurred to pay between \$2,000 and \$10,000 to a lynching victim if he were alive, or to his next of kin if he were killed.

Opponents contend states are handling the problem zealously, and that federal interference would be unconstitutional.

## HOOVER REPORTS PROBE ON AMERICAN NAZIS

WASHINGTON, Jan. 6 (AP)—J. Edgar Hoover reported to Attorney General Cummings today results of a five months investigation by G-men into nationwide activities of the German-American Bund—an organization headed by Fritz Kuhn, of New York.

The director of the Federal Bureau of Investigation made no recommendations for legal action against the organization, Cummings told a press conference, leaving any conclusions of law to the justice department's criminal division.

Hoover's report covers "all angles" of the German-American organization, mid-west and west.

Photographs and charts as well as financial statements were included.

Cummings ordered Hoover to make the investigation last August 18 at the request of Rep. Citron (D., Conn.). Citron told the attorney general he had received information indicating that 17 alleged Nazi training camps had been established in this country and asked that the department of justice determine whether the camps were operating in violation of any federal laws.

Kuhn came to the United States from Germany in 1924.

## COMMISSION STUDIES BIGGER ROAD PATROL

AUSTIN, Jan. 6 (AP)—Attempts to curb Texas' mounting highway death toll by means of increased state police manpower will be considered by the public safety commission which meets here today.

W. H. Richardson, Jr., of Austin, commission chairman, said the body would discuss increasing by as many as 60 men the state highway patrol. The recruits would enter a training school before being assigned to either the patrol or the driver's license bureau which examines applicants and vehicles.

Col. H. H. Carmichael, director of state police, said the patrol now numbered 188.

NEXT WEEK'S JURORS NAMED

With no cases set for today, the 31st district court was quiet this morning. Judge W. R. Ewing said the only cases that might be tried were those that chanced to "drop in".

The case of C. W. Tolle et ux vs. Panhandle Lumber Co. is set for tomorrow. Second week of the term, criminal-jury, will open Monday.

Judgments filed in district court yesterday included the following: Acme Lumber Co. of Oklahoma vs. Effie Tullis et al, plaintiff recovers possession and title, lot 1, block 1, Cohen addition.

M. P. Downs vs. A. W. Mann, plaintiff recovers \$804.37. Bob Gordon was appointed guardian ad litem of Claudia Payne, Victor Bruce, Bonnie Maye, Delbert Lewis, and Barbara Nell Morris, minors and defendants in the case in which Leo R. Martin et ux are plaintiffs.

Petit jurors for the second week are: H. M. Roth, McLean; C. H. Munday, Pampa; J. D. Pawlik, Groom; N. P. Brown, Pampa; Leo Benton, Pampa; Charles Kentling, Pampa; S. E. Allison, Pampa; D. E. Dotson" advertised that every Saturday he would pay cash for hens, 6 to 7 cents a pound, roosters 12 cents each. Going to the movies was declared a "simple remedy for the grumps" by W. R. Beylder, proprietor of the Pastime; "an hour of recreation and entertainment for 10 cents," "try the panacea I offer for mental relief—come out tonight," Mr. Beylder advises in a seven column, 2 1/2-inch ad.

They didn't worry about black dusters way back in '13 but the stock jobs about the plans were current even then. For example, the editor, J. M. Smith, commenting on exchanges that were running a stump pulled ad, says "some people display poor judgment in advertising as well as in other things. We imagine a stump puller in the Texas Panhandle would feel very lonely and in danger of being arrested for vagrancy."

The days of 1913 weren't so different in many ways than now. Most significant of all, however, is the attitude reflected in the stories. They appear to be full of zest, boastful and swaggering like a boy with his first pair of long pants, with a touch of homespun humor and kindness. Even if the News comments that the Santa Fe's Pampa depot has "a little dummy of a waiting room," while telling plans for enlarging the station, to "enable the travelers to get in and out without walking clear around the depot," it is conceded that though the changes have long been needed, the News has refrained from saying much about it, for the Santa Fe has lots of depots to build, besides thousands of other improvements to make."

Market Briefs

NEW YORK, Jan. 6. (AP)—Industrial stocks hiked on the rails in today's market and chugged on the recovery track for some time to 4 points generally. There were a few wider swings.

While extreme advances were cut down in some instances in the closing hour by profit realizing, many favorites finished at or near best levels of the day.

TEACHER HINTS LAND RACKETS IN VACANCIES

AUSTIN, Jan. 6. (AP)—Governor James V. Allred made public today a letter from H. L. Mills of Houston stating investigations by the Texas State Teachers association indicated a racket in land vacancy matters and advocating a state board to supervise leasing of public lands.

Hint of a special session of the legislature to consider revision of land laws was contained in the correspondence between Mills, who is chairman of the permanent school land committee of the association, a member of the state teachers retirement board and business manager of the Houston independent school district, and the governor.

He said many leases had been awarded to the low cash bidder with the one-eighth royalty and with provision for additional royalties after production of a certain amount of oil.

"Our investigations have led us to believe there has been more or less of a racket sometimes in the question of vacancies," he wrote. "We are finding a sentiment growing in the country which we fear is going to react against all land laws."

He voiced the opinion vacancy suits were sometimes filed willfully to create sentiment against all school land laws, adding if a land board were created, given a fund of \$25,000 and allowed to employ its own engineers and surveys, making "an honest effort to locate vacancies," the situation would be different.

"Indeed this is a serious situation, and many of us are disturbed about it as I know you must be," Mills also said nothing could be done "unless there was a special session of the legislature."

In his reply, Governor Allred said he was deeply disturbed and was giving the matter careful study.

PRONOUNCIATION BAD? NOTHING BUT CONCEIT

NEW YORK, Jan. 6. (AP)—If your pronunciation is bad, maybe it's because you're conceited. If you say, for instance, "government" for "proberly" and "ciddy" for "city."

Dr. Joseph Vandenburg, chairman of the board of examiners of school teachers, declared in a report today, "The real difficulty in most cases of unsatisfactory speech lies in the stamp of approval the person himself has given to his own speech with no other authority than that of his own dulled hearing."

People make "the comforting but false assumption" he said, "because one's speech is not criticized, it's much necessarily be above criticism."

New Yorkers have distorted old Mother English into "New Yorkese" to the point of "menace," he said.

He listed as speech sin No. 1 the substitution of one consonant for another—"dese" "dem," "dooce" etc.

Sin No. 2 is distorting vowels—"erl boiler" for oil burner, and "toime" for time.

Sin No. 3 is too speedy pronunciation, causing slurring, like "government," "proberly" and "riffs" for "riffs."

FORD TO APPEAL NLRB CASE TO HIGH COURT

DETROIT, Jan. 6. (AP)—The decision of the national labor relations board that the Ford Motor company violated the Wagner act was headed toward the United States court of appeals today.

Preliminary skirmishing ended yesterday when the NLRB denied in Washington the Ford petition for a rehearing.

Almost immediately the respondent filed with the Detroit office of the board notice that it did not intend to comply with numerous provisions of the board's decision, including an order to rehire 29 persons allegedly dismissed for union activity.

The Ford company in its latest pleadings stated its position as follows: "It is the intention of the respondent to obey in the future, as it has in the past, the provisions of the national labor relations act upon which the decision and order purport to be based."

Here's Definition Of Land Vacancies AUSTIN, Jan. 6. (AP)—Land vacancies, establishment of which has brought many millions into the state but which the owner of adjoining land always has thought was a part of his tract.

A mistake by the surveyor or purchaser at the time the property was obtained—sometimes 100 years or longer ago—caused the vacancies. The surveyor or purchaser calculated all land between certain points was included in the purchase, whereas it was not. The strip between the correct surveys is a vacancy.

bench Jan. 18 because of his age, found most Senators in agreement that a "liberal" would be proposed.

Four present justices—Brandeis, Stone, Cardozo and Black—have been so classified by administration officials.

Thus, Senators argued, a majority of the court could be expected to favor Roosevelt legislation, nullifying any further demand of administration leaders for a change in the judicial set-up.

Many names were mentioned in speculation over candidates to succeed Justice Sutherland, but all were pure guesses.

Heading the list was Solicitor General Stanley Reed, prominently mentioned for the vacancy to which Justice Black was named last summer.

Others high in the speculative list were Senator Minton (D., Ind.) and Schwellenbach (D., Wash.); former Senator Sam G. Bratton of New Mexico, now a federal circuit judge; Gov. Philip F. La Follette of Wisconsin, and Gov. Frank Murphy of Michigan.

McReynolds, 75, and Butler, 71, will be the only remaining justices who are generally classified as "conservatives." Chief Justice Hughes, 75, and Justice Roberts, 62, sometimes vote with those two and sometimes with the so-called "liberal" group.

Juliet Corson, founder of cooking schools, was born on Feb. 14, 1842.

EDITOR HITS JUSTICE IN EL PASO SQUABBLE

EL PASO, Jan. 6. (AP)—At liberty on bond after a fistful clash with a Justice of the Peace, E. M. Pooley, El Paso newspaper editor, said today "there was nothing else for me to do but hit him."

Pooley exchanged blows yesterday with Justice C. M. Wilchar, who, in the course of an investigation into purported vice conditions, asked Pooley how much an alleged gambler "paid you for covering him up."

"The man, taking advantage of his position as Justice of the Peace, insulted me in the vilest manner," declared Pooley. "There was nothing else for me to do but hit him."

The editor was ordered to bail for contempt and fines \$100, which Pooley refused to pay. Later released on \$200 bond, he filed a Habeas Corpus appeal which will be heard before District Judge C. R. Price Saturday.

Meanwhile, the vice inquiry was suspended until Tuesday.

The Herald-Post (Scrapps-Howard) newspaper of which Pooley is editor, supported the investigation, but urged that it be conducted on a comprehensive basis and not directed solely at the administration of Mayor M. A. Harlan.

Harlan, Pooley and others were called to testify if there had been a "pay-off" in the operation of the restricted district, and also if there had been gambling in other parts of the city.

CANADIANS MARRIED BY CHINA OFFICIAL

OTTAWA, Jan. 6. (AP)—(Canadian Press)—Canada may some day regret her unfortified coastline and lack of a navy, says China's new Consul-General for Canada, Dr. C. L. Chen.

"You will rue the day you neglected your western defenses," Dr. Chen predicted in an address before the Gyro club last night.

"If you think you remain secure by folding your arms and depending on the English and the Monroe Doctrine you will be in the position of China which relied on the Kellogg pact."

MARION, Ark., Jan. 6. (AP)—Sectional precedent was shattered today when a negro was chosen as a juror to try two other negroes charged with raping an 18-year-old white girl. The juror was John Claybrook, a 66-year-old planter and timber operator.

There were no disorders as the trial of Theo Thomas, 25, and Frank Carter, 26, opened before Judge Neil Kilgough but deputies guarded the entrances to the courthouse and state troopers mingled with the crowd.

U. S. DEFENSE PLANS CREATE JAP INTEREST

# HARVESTERS BELIEVE THEY CAN BEAT PERRYTON TONIGHT WITHOUT COX

## GAME CERTAIN TO BE ONE OF YEAR'S BEST

The Harvesters think they can beat Perryton tonight and tomorrow night at the local gym without Norman Cox, regular center, who was called to Oklahoma by the serious illness of his grandmother.

Cox, starter last season, was unable to play the Rangers in December on account of an injured knee. At that time, Perryton, who led the Pampanys by two points, but there's not a boy on the Pampa squad now who doesn't believe they will be able to take the invaders tonight.

The first game will be between the B teams and will start at 7 o'clock. The next game will feature the first teams. It will start as soon as the first tilt is over. Admission will be 10 cents for students and 25 cents for adults. A large crowd is expected for both games.

In view of the fact that the Rangers are the district champions and have defeated the Harvesters in the last four games, the hoop duels should be the most important of the season. Perryton is favored psychologically because the Rangers are the district champions and because the Harvesters will be playing without Cox who has accounted for more than his share of the points in recent games.

Both Pampa and Borger are determined to win the title at the district in February. "Catfish" Smith is drilling skill and cleverness into his Borger Bulldogs who play Amarillo Stadians tomorrow night. That will afford the first comparison between the Bulldogs and the Harvesters who routed the Amarillians 42 to 4 in their last meeting.

Coach Prejan will enter his B squad in the Alameda two-game elimination tournament Saturday. He will take about a dozen boys to the fracas.

Tomorrow, Coach Bob Curry will pit his sophomores against the sophs of Buchanan school in Amarillo.

Starters for the Harvesters tonight will probably be Hetschell and Andis, forwards; Cunningham, center; Reynolds and Dunaway, guards, with Foster, Harrell and Miller ready to sub for any of the regulars.

## Moran a 'Sissy' Compared With Tuffy Venable

A building full of dynamite would be safe to what Promoter Cliff B. Chambers will have in his arena Monday night, occasion of the weekly wrestling festivities. His card is so full of possibilities that shock-proof suits should be worn.

Take a look at the main event, Jack Mandell and Prof. Tsutao Higami. What could be sweeter than to see Mandell, long and lean, trying to subdue small and chunky Higami with his kangaroo tactics before the arena press buttons or place Mandell to sleep with his famous neck hold.

Then the semi-final. Can anyone figure out a better match than between Sailor Jack Moran of Bald Knob, Ark., and Bill Venable, the rough and tough woodchopper from Tuscaloosa, Ala.? Both are of the wild variety. Moran and his system are known and according to advance reports he is a sissy compared to Venable.

Open proceedings, Cyclone Mackie will attempt to down the surprising Otto Von Ludwig promptly at 8 o'clock. Ludwig as a habit of coming up with a win when least expected and Mackie has asked for the right to slaughter the German.

## Bitsy Grant To Battle Mulloy

CORAL GABLES, Fla., Jan. 6 (AP)—The favorites to win the quarter final of the Miami Baltimore tennis tournament here today with Bitsy Grant of Atlanta facing Gardner Mulloy, University of Miami star.

Mulloy yesterday disposed of Bernie Frank of Miami, 6-1, 6-4. Grant beat Bob Decker of Miami, 6-2, 6-2.

Top-seeded Bobby Riggs of Chicago, victor over Dick McKea of Miami Beach, 6-4, 8-6, yesterday, had more tough opposition in Martin Buxby of Miami, seeded sixth. Buxby reached the quarter-finals with a 6-1, 6-2 decision over George Fero of Miami.

The lack of trying to halt Frank Kovacs of Oakland, Cal., fell to Arthur Hendrix of Lakeland, Fla. Kovacs yesterday eliminated George Toley of Los Angeles, 6-2, 6-0, while Hendrix was disposing of Dr. C. Haub of Miami, 6-1, 6-2.

Wayne Sabin of Portland, Ore., and Marion Reese of Atlanta still had to settle the third round before one of them met George Parks of Miami.

Edward Cooke of Portland, Ore., who won yesterday from Bill Harde of Miami, 6-2, 10-8, awaited the outcome of Parks' tilt with the Reese-Sabin winner for the opposite side of his bracket.

A bulky field swung into the second round of doubles play.

## TCU Keeps Dutch Meyer as Coach

FORT WORTH, Jan. 6 (AP)—Leo (Dutch) Meyer will remain as head

football coach at Texas Christian university, it has been announced by Dan D. Rogers, chairman of the T. C. U. athletic committee of the board of trustees.

It was understood that a five-year contract was being prepared with a substantial raise in salary

over the amount in the three-year contract Meyer signed last year. Meyer, whose teams have placed second in the Southwest conference race for three straight years, recently was approached by representatives of the University of Mississippi as a prospect for the "Ole Miss" coaching job.

## JIMMY DYKES TO GIVE LEGS LAST CHANCE

By SID FEDER. NEW YORK, Jan. 6 (AP)—James Joseph Dykes (the fellow hiding behind that big black cigar) is going to give those 41-year-old legs of his one more chance to hang onto third base.

For 20 years, those legs of James Joseph have been doing a lot of third-basing in the American league. For season after season, he was generally regarded as the best at the job in the junior circuit.

In the last few years, however, old pop time and an injured leg ligament have been cutting down on Jimmy's workable days for the Chicago White Sox, whom he manages. But Jimmy couldn't quit, simply because the Sox didn't have another third sacker worth the price of a worn out batbag.

Over this winter, however, all that was changed. Although Jimmy won't admit it, he just about took the eye-teeth from his old pal, Mickey Cochrane, in deal in which the Sox acquired Marv Owen, who's a pretty good third-baseman, himself, even though he usually can't hit his way out of a tissue paper wrapping.

But now that he has someone to take over the job, Jimmy said today he isn't at all sure that he's ready to hang up his glove.

"I'm going to give these legs of mine a chance to see what they can do in spring training," he admitted. "I won't make any decision about leaving next season until I find out what they can do. That leg injury feels okay now, although it may come back. If I feel after the spring workout, that these legs can keep going, I'll be back in there."

## Owens to Seek Reinstatement

CHICAGO, Jan. 6 (AP)—Jesse Owens, hero of the 1936 Olympic games, who has done all right for himself financially since reaching a parting of the ways with the Amateur Athletic Union, may run and jump for medals and glory again.

He is going to ask the A. A. U. to restore his amateur standing by lifting his suspension imposed after he declined to visit Sweden for a post-Olympic exhibition trip two summers ago. He hopes out loud that his application will be granted in time for a crack at earning a place on the team which will represent Uncle Sam in the 1940 games scheduled for Japan.

## FRICK PRAISES NEW BASEBALL

By FORD FRICK, President of the National League. NEW YORK, Jan. 6 (AP)—There's a wider range of vision than usual for a baseball man standing at the annual crossroads. Looking forward beyond 1938, is baseball's centennial year and when you turn around there's a century of baseball history stretching all the way back to the summer of 1839 and a village green in upstate New York.

In baseball, there's a new pennant every year. Normally that makes your baseball outlook that way, too—a one-year look—and it's always the year just ahead of you.

But because 1939 is centennial year, the whole baseball world will grow more and more 1939 conscious as 1938 moves along. The appropriation of \$100,000 by the major leagues started the ball rolling for a memorable centennial celebration. But in looking beyond 1938 don't think I'm overlooking it. I'm expecting and predicting a great year for baseball as a whole, as well as the National League.

We are going to use a new official baseball, one that is changed only slightly, but, we think, very wisely. A squarely-hit ball will travel just as far in 1938 as in 1937. The purpose of the slightly thickened cover and heavier seam is to give the pitchers a "break," restore some of the balance between offense and defense and eliminate the "cheap" extra base hit.

I can sum up what we're trying to do this way in 1938 it will be just as possible as in 1937 for the winning hit of a National League game to be a home run with the bases filled; but we hope it also will be possible for the pitcher to depend on something more than a prayer.

The game will really look just as fast, just as snappy, just as exciting, as in 1937.

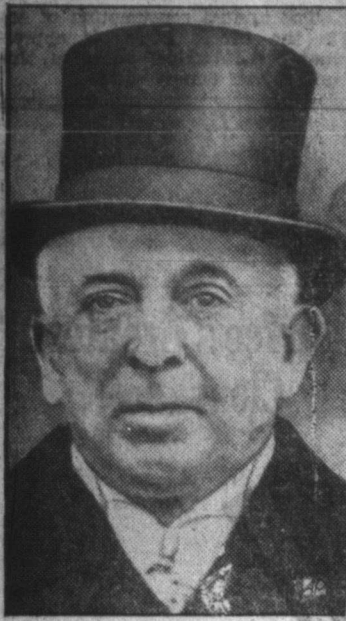

MAKO BEATS HENKEL MELBOURNE—Australia, Jan. 6 (AP)—Gene Mako of California defeated Heinrich Henkel of Germany today, 3-6, 6-0, 6-0, in a rainy exhibition tennis match. Baron Gottfried von Cramm of Germany beat John Bromwich of Australia, 6-2, 7-5.

Water is at its greatest density at 39.2 degrees Fahrenheit, freezes at 32 degrees, and turns to vapor at 212 degrees.

concerned over getting in dutch with the A. A. U. for quite a while because he was too busy squeezing dividends from his fame. Lately, his feet have been itching for competition.

Owens decided to ask for reinstatement after a conversation yesterday with J. Lyman Bingham, assistant to the president of the A. A. U. He found he might apply when he visited Bingham's office to establish the amateur standing of a negro basketball team with which he travels. Bingham told him he might make application provided he had not used his athletic skill for financial gain.

# Richest Girl in the World

BY ADELAIDE HUMPHRIES

Copyright, 1938, NEA Service, Inc.

## CHAPTER I

ALONG the ocean beach at Palm Beach, America's winter playground for the great and near-great, the line of automobiles stretched for nearly a mile—approaching the Tudor-styled castle of Constance Corby, the richest girl in the world.

A corps of special patrolmen was on guard, besides the traditional men in livery and a dozen private detectives. A flock of newspaper men and photographers were gathered outside the tall-wrought iron gates. The formal gardens and velvet terraces were flooded in softly tinted light; an enormous marquee especially built for dancing, overlooked the silvery-edged surf beating against white sands shimmering in moonlight of rivaling splendor. Rare lilies and orchids, brought by plane, filled spacious rooms from baseboard to ceiling. Three orchestras had been engaged. Forty caterers occupied the mammoth kitchens preparing a feast fit for a bacchanalian king. The supply of champagne was unlimited. For tonight the formal announcement of the betrothal of "The Million Dollar Princess" was to be given out to the world.

Outside the richly appointed bathroom, with its sunken marble tub and gold-plated fixtures, three persons hovered anxiously, listening for every word and sound from within.

"You really should be getting dressed, Miss Connie," Gibbs, the personal maid, English, angular, sardonic, warned.

"Indeed you should!" Mrs. Perry, the head housekeeper, fat, florid and forty, urged with supplication boarding on tears.

"You should indeed," Uncle Tippy added his bit. "That is if you intend to appear at your own party, my dear," Uncle Tippy was Connie's favorite guardian. He never allowed anything to upset him too much; not even his niece's whims, which were, at times, to say the least, likely to be upsetting.

There was silence for a minute while the three waited as though holding one long suspended breath. Then: "But I'm not so sure I want to appear," a low, throaty voice murmured from the other side of the door, which was locked. "I'd much rather stay where I am. It's terribly cozy. When I think of all those people waiting to shake my hand and offer congratulations or condolences, not to mention the reporters and camera men.... The more I think of it, I believe I shall stay here."

"But you can't do that!" Mrs. Perry threw up her plump arms in horror. "Remember Rodney is waiting, too. Your fiance. Such a splendid young man!"

"I shan't be able to do your hair to suit you, Miss Connie, unless you allow me ample time." Gibbs' thin face took on a peculiar pinched look.

"What I should have done so long ago," Uncle Tippy sighed, "was to have given you a good sound spanking. Hope Brandon will have sense enough, when he takes you off my hands."

"If Rodney ever beats me, I shall leave him," the cool, lovely voice stated with emphasis. "I'll do my hair, thank you, Gibby. And I'm not going to throw a tantrum, Uncle darling, unless you drive me to it. Go away, please, and let me alone."

"Talking about divorce before the banns are even spoken! 'Tis a bad omen!" Mrs. Perry moaned. "Will you go away?" This time the voice was not quite so soft or musical; there was a loud splash in accompaniment.

"I expect we'd better," Uncle Tippy decided, motioning to the others. He had not been a favor-

ite guardian for 20 years without having learned when to give in. Connie listened to the footsteps dying away. The frown between her prettily arched brows vanished, her lips curved in a little victorious smile. What good were seventy-some-odd millions if she could not be late to her own announcement party?

Not that she had any reason to be late. Except that the water was warm and fragrant and soothing and suddenly she was sick to the soul of parties and maids and butlers and guests. As for Rodney, an anxious moment or two might be good for that young man.

"THIS should be the happiest day of my life, I suppose," Connie thought, standing before her dressing mirror.... But her reflection held no laughter. buy," her grandfather had told her when she was small enough to perch upon his knee. "Happiness. For how can you be happy, if you have everything?"

Nevertheless, this wise old financier had willed his only grandchild a fortune, the extent of which was known only to the six lawyers who were the executors in control of the purse-strings.

How indeed? Connie wondered now, though she had not then.

885 MILLIONS FOR FARMERS RECOMMENDED

WASHINGTON, Jan. 6 (AP)—President Roosevelt recommended today that Congress appropriate \$885,000,000 for agriculture department activities-including crop control programs and benefits to farmers-for the 1939 fiscal year.

This would be \$52,286,000 less than was appropriated for the 1938 fiscal year which ends June 30, and \$372,000,000 less than was spent in 1937.

Mr. Roosevelt proposed in his budget message that virtually three-fourths of the suggested appropriation, or \$635,000,000, be made available for crop control and other agricultural adjustment programs designed to improve farm prices and incomes.

Such an appropriation would give the department about \$208,000,000 more for farm programs and benefit payments than the budget message estimated would be spent this year.

It would be divided as follows: \$440,000,000, including \$110,000,000 previously appropriated but not spent, for soil conservation payments; \$18,000,000 for payments to growers under the new sugar control act; and \$147,000,000 from customs receipts to finance surplus removal and export programs.

The Chief Executive made no provision, however, for additional expenditures under crop control legislation now pending before a congressional conference committee.

The President has asked that the new farm program be kept within the cost limit of existing authorizations.

He requested only \$10,000,000 for purchase of submarginal land, in drought areas, instead of \$20,000,000 authorized by the tenancy legislation.

Other farm recommendations included: \$2,000,000 compared with \$1,000,000 in 1938 for grasshopper and other emergency insect control activities. An increase of \$316,000 in weather bureau funds for improvement of service to air commerce.

PRESS GAG THREATENS PEACE, SAYS PROFESSOR

NEW YORK, Jan. 6 (AP)—Dean Carl W. Ackerman of the Columbia University School of Journalism today denounced "dictatorial control of the press as a black plague" threatening world peace.

Dean Ackerman, reporting to Dr. Nicholas Murray Butler, president of the university on his world study of the growth of censorship and suppression, declared:

"It is significant, I think, that no nation where the press is free from governmental control is today directly involved in the war in Spain or China.

"There is freedom of thought and expression," he added, "as in the British commonwealth, Switzerland, Holland, Sweden, Norway, Denmark, Argentina and the United States, the national state of mind toward international relationships is as different from the present situation in Brazil, Russia, Italy, Germany and Japan as day from night."

Dean Ackerman said peace between nations could not exist "unless peoples are educated day by day to become familiar with international relations and to understand their impact and influence upon domestic life and conditions."

"This cannot be accomplished except through the freedom of the agencies of communication."

HUNGER THREAT LOOMS FOR GRAY SQUIRELS

AUSTIN, Jan. 6 (AP)—The gray squirrel, deemed numerically in East Texas, will have "tough going" throughout 1938.

The region's most popular game animal practically faces starvation in addition to gradual destruction of its habitat by the invasion of agriculturists, timber and oil men and hunter's gun.

A sharp decrease in the supply of pin oak acorns, the squirrel's principal food, is forecast by Phil D. Goodrum, field biologist of the state game commission.

A step in the direction of saving the squirrel from possible extinction, game authorities say, would be closure of seasons to hunters for several years.

Legislators, however, are loathe to take such action due to criticism of their constituents, many of whom are avid hunters and others who depend upon the squirrel for food.

Ten To One MIAMI, Fla. (AP)—Gloria Bristol, beauty expert, found a scarcity of good-looking men on the Miami beach.

Said she, after an informal survey: "There is about one good-looking man to every 10 pretty women on the beaches here."

Recently Miss Bristol was beauty advisor to Princess Julianna of Holland.

# Galento Thinks Now He Might Dust Off Joe Louis

By GAYLE TALBOT.  
ORANGE, N. J., Jan. 6 (AP)—The gallant Tony Galento sleeps soundly today, surfeited with the cheers of his adoring townsmen and loaded with good Galento beer.

Last night the gallant Galento leaped forward nimbly as a sperm whale, swished his mighty left onto the beckoning jaw of Charley Massera of Pittsburgh, and the crowd of 6,300 was half way out of the armory before they brought Charley around.

Selden was there a much bigger night in Orange, take it as a whole. The knockout of Massera in the third round was almost incidental. Everybody knew Tony was going to do that as soon as he shook down his afternoon load of spaghetti. The real excitement was afterward, when two-ton Tony held open house.

It took Tony and four fast assistants behind the bar to keep up with the beer trade, while Mrs. Tony and all the Galento relatives labeled out the spaghetti in the back room. It was an amazing night and a lucrative one for the Galentos.

"I wasn't myself tonight," volunteered Tony as he paused a moment to see for himself that the beer he was dispensing was up to the Galento standard. "Maybe I ain't been eating enough spaghetti, or maybe even I ought to cut down on the beer. But I couldn't get going against that Massera for a couple of rounds.

"I ain't myself against a second-rater, anyway. Now, against a pretty good boy like Joe Louis I box good. You know, move around, and use my head, and I don't mean buttin' with it. But I gotta fight a good man before I show anything."

Tony's first battle in his home town in six years left his followers more convinced than ever that he's the uncrowned champ. A New York sports writer nearly got himself a shiner some time this morning because he suggested mildly that Louis or Schmeling might possibly be able to step around the gallant Galento and dust him off.

Massera, the latest to sample Tony's punch, certainly did nothing to dispel the Galento legend. For

## NEW BASKETBALL RULES PUT LITTLE GUYS BACK IN GAME

INDIANAPOLIS, Jan. 6 (AP)—Profound opinions about the new basketball rules have come from scores of coaches from grandstand and press box experts, but how about the boys in the trenches?

Take Tiny Jerry Steiner, for instance this opponents haven't been able to catch up with him, let alone take him.

Steiner, five feet, seven inches of basketball dynamite, has been leading scorer and spark plug for a Butler University team that has won seven of its first eight games.

"I like it," Steiner's verdict on the center-jumpers game. Then he grinned and added, "it gives me an edge."

"The new rules have put little guys like me back in the ball game," he said.

And now about the physical effect.

"Oh, I guess I'm a little more tired after a game now than before the rules change, but I come out of it just as fast as before," he said.

Now the other extreme. There's Bill Merrill, six foot, one inch, 190 pound center for Butler, who has had his jumping duties taken away by the new rules.

"Suits me fine," said Merrill. "In fact, it makes it easier for me."

"It takes more energy to make one center jump particularly against a real tall opponent, than it does for a couple of dashes up and down the floor. Don't let anyone kid you, the job of jumping center after every field goal took plenty out of a player."

Two rounds the Pittsburgh veteran pounded away at Tony's large, most middle without making a noticeable impression.

Tony didn't seem to notice. He just waddled on in, now and then swinging his left hopefully. Massera looked discouraged, and when one of the Galento left finally connected he appeared to go down without a regret.

## Sport Sparks

By FELIX R. MCKNIGHT.  
DALLAS, Jan. 6 (AP)—Grapevine gossip: add Russell (Dutch) McIntosh, Vandy line coach and former S. M. U. mentor, to the list of gentlemen approached by Ole Miss . . . Eliminate Coach Leo (Dutch) Meyer of T. C. U. and keep Morley Jennings of Baylor in mind . . . He's the man they're after.

Don't forget Frank Kimbrough of Hardin-Simmons in connection with the Mississippi State vacancy . . . and Joel Hunt, the Texas Aggie immortal and currently L. S. U. backfield coach, is more than just another candidate for the Georgia job . . . Mississippi State, not Ole Miss, is the plum.

Henry Frka, one-time Texas schoolboy coach and currently at Vandy, is reaching for . . . Ever notice Jimmy Kitts, the man who brought Rice two conference titles in four years, has not been linked with any outside offer?

On the golf side, outstanding candidates for the vacated Dallas Country club professional position are Jimmy McGonigall, Dallas amateur; Tod Menefee, popular Brackenridge Park pro of San Antonio; Graham Ross and Bill McKenzie of Dallas . . . Bombardier John Rodgers, the Denver professional who dropped into Dallas to see the Cotton Bowl game and not to apply for the position, ripped Brook Hollow's par 70 to shreds with a record-breaking round of 64.

Unheralded hero of the Cotton Bowl game: Satak, the goober peddler, an amazing personality who could spin a bag of his peanuts into the outstretched hand of his customer from 30 paces . . . Silgingit

Sam Baugh sat in the vast bowl Saturday and watched Satak contact receivers from all distances, without an interception or incompleteness . . . Furthermore, Satak could catch the returning dime with the same skill.

Sight unseen ticket sales will start two months before next year's Cotton Bowl game . . . J. Curtis Sanford, father of the classic, thinks Southwest conference sanction, of the game, and the body's expected action in producing the champion as-the-home-town, will allow ticket sales to start long before the season's end . . . Folks will just be buying tickets to a game between the league titlists and some good outsider.

Tardy in their plans for renewal of the \$3,000 Houston 'open' golf

tourney in February, Bayou City sportsmen, nevertheless, promise it will be held . . . For the ultimate in sports thrills, meet Pete Morrell, veteran Houston sportsman, who shot a hole-in-one and bowled a perfect 300 game all within two months!

Angling Geron Nowell, center of the Amherst (Lamar county) school cage team, pumped 46 points thru the net the other night to lead his mates to a rather convincing 94-25 triumph over Hazelde . . . Lloyd Russell, Baylor's famed "singing quarterback" and freshman grid coach, is also a Waco Sunday school Bible class teacher . . . Answer to queries: Dean Bagley, the San Saba schoolboy grid phantom, finally wound up the season with 269 points which, until somebody comes along

with a better claim, rates as the nation's lustiest touchdown effort.

### GALDOWELL MAN HEADS BOARD OF EDUCATION

AUSTIN, Jan. 6 (AP)—R. S. Bowers of Caldwell, a former State Senator, was the new chairman of the state board of education today.

He was elected yesterday in succession to Ghent Sanderford of Austin.

Tom Garrard of Tahoka was chosen vice-chairman.

One-fourth of the population of England lives in the London area.

### Big Shots After Cooper's Crown

LOS ANGELES, Jan. 6 (AP)—Many of the big names of golf are listed as competitors against Defending Champion Harry Cooper for the thirteenth annual Los Angeles open tournament, opening tomorrow over the Griffith Park Municipal course.

Cooper, although playing fine golf and favored to repeat, on the basis of recent form, will have to beat out such top ranking stars as Sam Snead, Horton Smith, Ky. Laffoon, Craig Wood, Henry Picard, Paul Runyan, Jimmy Hines, Leo Diegel and Jimmy Thomson.

Lead pencils are made of graphite and clay. The name comes from the old days when people wrote with pieces of lead.
