Will Phinizy and Mickey Burkett were nitext in scoring for the Coyotes with 4 points each. David Holmes added three while Mike Murphy, Brice Key, and Cam Stone had two. Brice Key played very well on the defensive end of the floor in his first starting role for the varsity team. Will Phinizy, a freshman, played the point position well after being moved up to the varsity squad. Key and Phinizy will remain with the avarsity the rest of the year.

## O'Donnell 68, Borden Co. 57

## Lady Coyotes Drop District Contest

A cold front moved in Tuesday night and hit Borden County in the hardest way as the Lady Coyotes dropped their first district game by a score of 49-31 at O'Donnell. While the defense was holding its own by forcing the Eagles into 31 turnovers but the offense never got started as Borden only hit 19 percent from the field for the game, making 10 of 25 from the floor and roudn themselves behind by a score of 24-10. A good defensive play and a steal kept resulting in a shot hitting off the front of the rim or too hard off the back of the rim. Still, the Lady Coyotes were within 9 points in the final quarter but O'Donnell hit 75 percent from the field the last quarter to pull away. Until then, the first quarter was a close as Borden could get, for in the second period, Borden went 0 for 12 from the field and had 10 turnovers which put the Lady Coyotes too far behind to get back in.

Kelli Williams and Teri Billington each had 9 points followed by Becky Massingill with 6. Shawna Vaughn had 3 and Jeanette Massingill and Kim Turner each had 2. Kim led in field goal percentage making 1 of 3 for 33 percent. Becky led in free throw percentage making 2 of 2 for 100 percent. Shawna led in rebounds with 8 despite picking up her fourth foul one minute into the second quarter. Teri led in steals with 6. and led in assists with 3.

The J.V. dropped their last game of the year to O'Donnell 43-36 after holding an 18-16 lead at half. A cold shooting night at the free throw line hurt them as they connected on 8 of 27 for the game, 2 of 14 for the first half. Kristi Stone led in scoring with 10 points followed by Linda Sternadel with 9. Mindy Williams had 6 points, Shelly Lewis and Charla Buchanan each had 3, Lesly Hicks and Dana Douglass each made 2, and Ralynn Key made 1.

The J. V. record for the year now ends at 7 wins, 3 losses. They were 6 and 1 against J. V. teams. Their season scores were as follows:

## Lady Coyotes Clobber Klondike

KBorden's defense held Klondike to five points at half-time as they went on to their 19th win of the year by a score of 42-26. Borden held a 20-5 halftime lead as they played a controlled type offense, turning the ball over just one time.

Borden's district record goes to 1-0 in the second half of play. Leading in the win was Teri Billington with 14 points, Shawna Vaughn with 10, and Becky Massingill hit 8. Kelli Williams had 6 points followed by Kim Turner with 4. Shawna led in field goal percentage with

63 percent, hitting 5 of 8, and led in steals with 6. Teri led in rebounds with 7 followed by Shawna with 6. Teri was second in steals with 4. ## PUBLIC NOTICE

In accordance with the Public Utility Regulatory Act and the Rules of the Public Utility Commission of Texas, AT&T Communications of the Southwest, Inc. (AT&T Communications) gives notice to all of its Texas customers that a new procedure for long distance billing was made effective on an interim basis on August 6, 1984 in Docket No. 5800.

The procedure referred to is "Rate Period Specific Billing" and it applies to all message telephone service (AT&T Long Distance calls) including non-REACH OUT Texas calls within the State of Texas. This new procedure effects all AT&T Long Distance customers. All intra-LATA long distance calls and all interstate long distance calls are currently billed using this procedure.

Under this procedure, customers are billed a specific charge for long distance calls according to the rate or rates in effect throughout the time of each call. If a call begins in one rate period and extends into a different rate period, the customer will be charged whatever rate is in effect for each portion of the call.

For example, if a customer places a call at 4:58 p.m. on a weekday and talks for ten minutes, the first two minutes of the call would be charged at the full weekday rate which extends from 8:00 a.m. to 5:00 p.m. The remaining eight minutes of the call would be billed at the evening rate which extends from 5:00 p.m. to 11:00 p.m. and includes a 25% discount. If Rate Period Specific Billing were not in effect, the entire call would have been billed at the higher day rate. Calls which extend from the evening rate period (25% discount) to the night and weekend rate period (40% discount) or from the night and weekend rate period (40% discount) to the day rate period (no discount) would also be billed according to the actual minutes of use during each rate period.

AT&T Communications anticipates a minimal increase of approximately .02% in its revenues or approximately \$250,000 annually.

A complete copy of the "Rate Period Specific Billing" tariff is on file with the Texas Public Utility Commission.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. ## PUBLIC NOTICE

AT&T Communications of the Southwest, Inc. ("AT&T Communications"), in accordance with the Public Utility Regulatory Act and the rules of the Public Utility Commission of Texas ("PUC") hereby gives notice of its intent to implement a new schedule of rates for its services. The new rates will be effective February 22, 1985, unless otherwise determined by the PUC. All customers and classes of customers would be affected by the proposed rates.

AT&T Communications has filed restructured tariffs designed to more closely recover access and other costs for private line, DATAPHONE\* Digital Service, OCC Facilities, WATS and 800 services.

Also proposed is the institution of a charge for directory assistance to begin to recover access costs incurred for such service, and increases in rates for operator assisted AT&T Long Distance calls.

AT&T Communications is proposing to restructure its AT&T Long Distance Service and to reduce its overall revenues from basic long distance approximately \$25 million.

While long distance rates will, in most instances, be reduced, certain AT&T Long Distance rates are proposed to be increased to more nearly recover the access charges approved by the PUC for such service.

The proposed new rates for all services would result in an increase in adjusted test period revenues of \$123.4, or 11.3 percent.

A complete copy of the proposed tariffs are on file with the Texas Public Utility Commission.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757.
