**Wooden Horse Is Always In Style**

COLORADO SPRINGS, Colo. (AP)—E. E. Whitted, who owns the only remaining harness shop in Colorado Springs, believes in keeping up with the styles.

For years he had a dappled gray wooden horse in front of his place, keeping an iron cigar-store Indian company.

Now Whitted has painted the horse a spotted cream color, with pure white man and tail.

"It's a Palomino and Palomino horses are now much admired," he explained.

In its days, the horse has been a bay, a roan and a sorrel besides a spotted gray.

# GRANARY PLAN DELETES IDEA OF CONTRACTS

WASHINGTON, Jan. 13 (AP)—Written contracts with corn and wheat growers have been eliminated from the "ever normal granary" program of crop control, Senator Pope (D., Idaho) said today.

Such contracts had been authorized under the Senate farm bill but, Pope said, the joint congressional committee now trying to reconcile the separate House and Senate measures had scrapped the provision.

Pope reported general progress by this committee but Chairman Smith (D., S. C.) of the Senate agriculture committee disagreed.

"So far we have settled nothing of importance and everything is in a mess," Smith said.

Pope said the conferees were agreed now on general provisions for tobacco, rice, and wheat.

The Idahoan said that instead of written contracts the Secretary of Agriculture would make "offers" to cooperating farmers.

The original agricultural adjustment act operated with written contracts. When this law was voided by the Supreme Court, payment of benefits was placed on the "offer" basis which Pope said was "equal to oral contracts."

He said among the principal points still undecided were:

Terms of a provision intended to protect dairy and livestock producers from competition by farmers who reduce crop acreage.

Whether payments shall be on the present soil conservation basis, or on a "parity basis" as provided in the Senate bill for corn, wheat, and cotton.

A federal crop insurance system for wheat, included only in the Senate bill.

# EIGHT KILLED IN MINE BLAST AT PITTSBURGH

PITTSBURGH, Jan. 13 (AP)—Thrilling stories of heroism and tragedy were related today by the 25 survivors of a mine blast 17 miles east of here in which eight were known dead and two others missing and believed to be dead.

Weary rescue crews with masks were working their way slowly along the 3,600-foot passageway which was partly wrecked shortly before noon yesterday, seeking the missing two. Three bodies were recovered early today but were not immediately identified.

C. W. Gibbs, general manager of the mine said there was no hope

the missing ones had escaped both the explosion and the deadly gas which formed quickly.

The dead were Thomas Effer, 39; Joseph Koprivinkar, 41; Frank Harpster, 32; Joe Prelesnik, 44, and Matt Anderson, 50, a mine foreman.

Chief Deputy Coroner John Aldert said the missing or unidentified dead were Frank Ciesielski, Joseph Lerch, John Krusek, Tony Weiner, and Doss Nicholas.

Four were injured, two critically and brought out by their heroic companions.

**TRAIN KILLS TWO.**

ODESSA, Jan. 13 (AP)—A grade-crossing accident here had claimed two victims today. Mrs. Linn Sellers, 45, and Mrs. Leonard Hargrave, 25, both of Odessa, were killed last night when a freight train struck automobile.

# TUCKER ROYALL, HEAD OF DALLAS BANK, DIES

DALLAS, Jan. 13 (AP)—Funeral services will be held here today for Tucker Royall, 60, Texas banker, who died at a hospital here early today after an illness of 10 days.

The body will be taken to Palestine where services will be held and interment will take place tomorrow.

He is survived by his widow and one son, N. R. Royall.

Born at Palestine Feb. 5, 1877, Royall's career as a banker covered a 40-year period during which he acquired stock in 23 banks.

He was chairman of the board of directors of the First National Bank of Dallas, to which post he was elected in May, 1936, and he served as president of the Royall National Bank at Palestine, an institution founded in 1873 by his father, the late N. R. Royall.

He served a term on the board of regents of the University of Texas, under the Pat Neff administration. In June, 1934, he was appointed chairman of the state tender board, created to curb the flow of "hot oil" in East Texas. He served until November, 1935.

NEW YORK, Jan. 13 (AP)—At least six colleges are bidding for Bill Savoy, 205-pound Great Bend, Kas., high school star, who set a Kansas record with 31 touchdowns last season. One western school was so interested it sent Bill to the Rose Bowl game "on the house."

Prosecution attorneys said they expected to prove the double shooting was "murder—deliberate, cold-blooded and malicious."

# Many 'Papers Over Nation Up Prices

NEW YORK, Jan. 13 (AP)—In every section of the country advancing production costs have pushed up the prices which millions of readers pay for their daily newspapers.

This was disclosed today in a national survey which showed that while the upward movement was not general it had been manifested in every area—southwest, midwest, east, south, and far west.

In some cases, price increases were announced toward the close of 1937 while in others they were not put into effect until after beginning of the new year.

More than 180 newspapers—from California to Rhode Island, from Maine to Florida—were shown to have put up their prices.

The far west led all regions in total number of newspapers advancing their prices—60. The midwest reported 43; the east 42; the south 28 and the southwest 14.

Nowhere was the increase sharp—one or two cents a day, with monthly rates being advanced less than proportionately, being widely reported.

# WRIGHT'S TRIAL WILL BEGIN IN LOS ANGELES

LOS ANGELES, Jan. 13 (AP)—Paul A. Wright, aviation executive, will testify that "it was more than a kiss," which caused him to kill his wife and his best friend in his Glendale home, Defense Counsel Jerry Giesler said today.

Wright's trial for his life on charges he murdered Mrs. Evelyn Wright and John B. Kimmel was to begin this morning in superior court.

The former manager of Union Air Terminal had pleaded innocent and innocent by reason of insanity, but no sanity hearing will be conducted unless he is convicted.

Giesler said Wright would take the stand in his own defense and tell of the scene confronting him when he claims he found his pretty wife and Kimmel, his airport aide,

# WIFE-SWAPPING STORY AFFIRMED AND DENIED

SALEM, Mass., Jan. 13 (AP)—An admittedly puzzled judge today was left to choose between a husband's testimony that he "swapped wives" with a friend and the wife's testimony that it was "all a pack of lies."

Judge Edward B. O'Brien called in a court stenographer to record testimony for presentation to the district attorney for possible grand jury action.

His action came as Mrs. Raymond S. Lee 28, an attractive brunette, denied her chauffeur-husband's assertion that the Lees and Mr. and Mrs. Calvin M. Watson of Topsfield had "a friendly argument" which they swapped wives.

Mrs. Lee's petition for a divorce on grounds of infidelity is uncontested. Watson, 32, a tree surgeon, is suing his wife, also an attractive brunette of 28, on the same grounds. Both petitioners ask custody of minor children.

# STILL "TOPS" .. after 31 Years As a Tobacco Auctioneer

# Veteran Jim Edwards tells why tobacco experts prefer Luckies 2 to 1...

"I recently sold 489,000 pounds of tobacco in one 6 1/2 hour day," says Mr. J. N. Edwards of Farmville, North Carolina.

"There was a buyer, naturally, for every one of those 489,000 pounds... But there was as much difference between the best grades and the inferior, as between a pretty girl and a homely one.

"At auction after auction, I've seen Lucky Strike go after the prettiest lots of tobacco. It's no wonder Luckies taste so good. I've smoked them since 1917.

"And another thing... even after yelling out tobacco bids all during a seven hour day, Luckies are still just as easy as ever on my throat."

Only Lucky Strike offers you the finest tobacco plus the throat-protection of the exclusive process "It's Toasted". This process takes out certain irritants found in all tobacco—even the finest.

Men who know tobacco from A to Z—experts like Mr. Edwards—are surely good judges of cigarettes... Sworn records show that, among independent tobacco experts, Luckies have twice as many exclusive smokers as have all the other cigarettes combined.

# CHAUTEMPS TO DEMAND VOTE OF CONFIDENCE

(By The Associated Press)

Premier Camille Chautemps of France prepared today to go before the chamber of deputies and demand a vote of confidence in his government's handling of France's serious labor and financial problems and their "grave repercussions on the foreign exchange market."

The franc dropped in Paris, London and New York. The French and British stabilization funds operated to support it.

Between 500 and 600 lives were reported lost in a Madrid subway disaster—apparently a by-product of the Spanish civil war.

In the Fascist-Democratic choosing of sides in Europe Italy and Germany appeared definitely to have won two new teammates, Austria and Hungary.

Details of the Madrid disaster were not directly forthcoming from Spain because of government censorship.

So far as the 18-months-old war itself was concerned, government troops were said to have gained a half-mile on the Teruel front in eastern Spain, a step toward driving insurgents from the outskirts of the city.

Chancellor Kurt Schuschnigg of Austria, in one of his rare newspaper articles, made clear that his government and that of Hungary "never have doubted that the Rome Protocols are our best orientation."

The Chancellor was discussing the Budapest consultations of the foreign ministers of Italy, Austria and Hungary under their Rome Protocols on trade which closed yesterday.

Communism, long a pivotal factor in the illignment of European nations, became a prime domestic consideration in France.

Premier Camille Chautemps was reported considering resignation to permit a break with the communist support of his people's front government.

In China Generalissimo Chiang Kai-Shek flew to Suchow to direct a counter-offensive against Japanese armies menacing China's east-west lifeline, the Lungshai railway. The slow Japanese pressure and the resistance of massed Chinese forces had not reached the predicted stage of a great battle for the railway.

## TWO 'PUBLIC ENEMIES' RETURNED TO FLORIDA

HOUSTON, Jan. 13 (AP)—Federal officers today transferred Hugh Grant and Alva D. Hunt, described as "public enemies," to Florida.

The men, arrested here to face bank robbery charges at Pensacola, were cleared in connection with the Guthrie, Ky., mail robbery of Jan. 5 in which a postal messenger was killed, an officer wounded and \$25,000 taken in loot. Orville C. Dewey, head of the Louisville office of the Federal Bureau of Investigation, said it had been established they were "elsewhere" when the Guthrie robbery occurred.

Hunt and Grant, brothers-in-law, are wanted in connection with eight bank robberies in Florida and Alabama.

## Prolific Drilling Reduces Well Flow

AUSTIN, Jan. 13 (AP)—Oil drilling has been so heavy in Texas the past year that the production allowance to the average Texas well is nearly five per cent smaller now than it was in January, 1937, despite the substantial increase in the state's aggregate output.

Railroad Commission officials cited figures showing the average well allowable on January 1 was 17.53 barrels daily as against 18.32 at the start of last year. The commission repeatedly has sought to curtail drilling through "persuasion," its only weapon.

Texas had 78,423 wells at the

start of 1938, commission officials said, compared to 8,175 one year earlier, a gain of about 15 per cent. Allowable production meanwhile increased only 10 per cent—from 1,250,000 to 1,375,000 barrels per day.

V. E. Cottingham, the commission's chief engineer, said this state easily could produce 2,000,000 barrels daily without underground physical waste and "possibly a great deal more." There is no market, however, for that much oil.

Many Texas operators maintain the state should be given a larger share of the national market. They assert Texas has more than half of the oil reserves yet is allowed only 41 per cent of the nation's production. Texas railroad commissioners may urge action to correct this condition at least in part

## Aerial Coyote Hunter Scares Farmers

ST. EDWARDS, Neb. (AP)—A coyote-hunting airplane pilot caused considerable excitement in this area the other day.

His plane circled the farm field of Martin Wellin. It dipped low, a few shots were heard, and it swooped upward again.

Repeated performances, punctuated with gunfire, caused farmers nearby to gather at the scene. They learned the pilot was pursuing a lone coyote.

He finally bagged the animal, and continued his trip.

## TO ASK PROBE.

NEW YORK, Jan. 13 (AP)—Still asserting the innocence of her husband, Mrs. Anna Hauptmann said today she would ask District Attorney Thomas E. Dewey to make an investigation into the Lindbergh baby kidnaping.

## ARE YOU MISERABLE?

Port Worth, Texas—Mrs. Virginia Albright, 1297 Boulevard Ave., says: "I felt weak and upset. Headaches and backache associated with functional disturbances made me miserable. I used Dr. Pierce's Favorite Prescription and I had a hearty appetite, gained weight, looked so much better and felt fine." Buy Dr. Pierce's Favorite Prescription in liquid or tablets from your druggist today.

## STATE RANGES SHOW BETTER CONDITION

AUSTIN, Jan. 13 (AP)—Texas ranges entered January in improved condition and the outlook for spring grazing was bettered, the U. S. department of agriculture reported today.

The department said improvement was felt in all areas except the northwest Panhandle. Almost general rains fell over most of the state late in December but it will be necessary to remove cattle from Panhandle grain pastures unless good rains are received soon, the report said.

Cattle entered winter in generally good flesh and losses have been very light so far.

Except for a few local areas in the southern plateau sheep were in better flesh than a year ago and a good lamb crop was promised for spring.

## Selby Speaks On Hobbies at B. M. Baker P-TA

At the meeting of the B. M. Baker Parent-Teacher association Tuesday afternoon in the school auditorium, R. A. Selby, principal of Junior high school, spoke on "Family Hobbies."

"The most important thing in a child's life is the home; then comes the child's hobby. A hobby keeps one interested and keeps other people interested in him. The greatest per cent of the highway hobs of today come from broken homes," Mr. Selby pointed out.

Group singing was led by Mrs. Fred Rusk, who substituted for Miss Madge Sears, opened the program. Mrs. Bernice Larsh, newly-elected council delegate, gave a report of the council and suggested that anyone having old magazines to throw away should call the school, hospital, or jail.

Mrs. Claude Lard announced that C. O. Meyers of Canyon will speak in the high school auditorium at 7:30 o'clock next Monday evening. Aaron Meek, principal of the school, who spoke in behalf of the Scout movement, was given \$2.58 at the meeting to be applied on the Scout fund. W. Postma, band director, asked that all band mothers be present at a meeting to be held Tuesday afternoon at 3 o'clock in the band room.

An announcement regarding the meeting of the study club at 3 o'clock this afternoon was made. Mr. Meek, program leader, was to speak on the state P-T. A. convention.

Mrs. A. J. Johnston's room won the prize for having the most parents present at the regular meeting.

## Ester Club Honors Two Members With Surprise Shower

Mrs. J. W. Chrysler, assisted by Mrs. Emory Noblitt, was hostess to the Ester club in her home Tuesday afternoon.

Mrs. Laura Brown presided at the business session which was opened with a prayer by Mrs. Fredelle Potter. The club voted to meet at the I. O. O. F. hall on January 25 to work on a quilt for the Oddfellow orphan home at Corsicana.

After the business hour, Mmes. Joe Brown and R. L. Burrows were surprised at a double shower. Games were played in which Mmes. Jess Clay and Carl Baer were prize winners.

Refreshments of date loaf with whipped cream and hot coffee were served to Mmes. H. L. Atchinson, C. E. Stephens, Jess Clay, John A. Hall, Steve Donald, Alva Gantz, Irene Kline, Laura Brown, John Killian, Roy Sullivan, W. A. Spoonmore, Carl Baer, Flora Mitchell, Fredelle Potter, C. A. Forsyth, F. H. Paronto, A. R. Eldridge, Tom Roberts, Leo Payne, Beulah Reed, Anna Brooks, H. A. Peoples, Roy Kretzner, members of the club; and Mmes. Bert Isbell, Ed Gilbert, and Mary Price, visitors.

## A Modern Cinderella of 1938

Suavely gowned and every inch a lady, pretty blond daughter of a prosperous Oslo business man, looked like this when she dined in the Serf Room at the Waldorf Astoria, in New York, with her father and one of his acquaintances from Sweden, who was a guest at the hotel.

You can imagine her chagrin, then, when her host of the evening before returned unexpectedly next day to his room at the Waldorf to find her looking like this—and cleaning up his room. But it's all easy to explain—she is a student of hotel management doing "laboratory" work.

Visitors at the meeting were Mmes. R. W. Tucker, L. M. McWright, and Miss Grace Kite.

## Around the World Program Given by W. M. S. at Tea

"Around the World with Southern Methodist Women" was the theme of the program presented by members of the Woman's Missionary society of the McCullough-Harrah Methodist churches at a seated tea given this week at the Harrah chapel with members of the Skellytown society as guests.

Yellow streamers attached to a large sign in the top of the building marked the tables where articles and products of each country discussed were exhibited. Programs presented to each one attending were decorated with sketches of the map of the world.

Music for the afternoon included piano selections by Mrs. John Beagle of Skellytown, a song by the guest group, string numbers by Clyde Perkins and Wince Baker, and accordion numbers by Ernestine Holmes.

Dressed in costumes typical of the country which they discussed, eight women talked on missionary work in foreign countries. They included Mmes. Henry English who spoke on Africa; Carl Casey, Brazil; H. L. Wallace, China; J. E. Baird, Cuba; Ben Ward, Japan; Kit Autrey, Korea; H. H. Bratcher, Mexico; and E. H. Johnson, Poland.

Mrs. C. A. Cryer of McLean gave the devotional.

Refreshments were served from a lace covered tea table centered with spring flowers to Mmes. J. Southernland, C. W. Towle, A. McClendon, A. A. Johnson, D. J. Ellison, L. W. McPherson, Ed Stokes, Thomas Clayton, Thomas Ashby, and C. A. Cryer, McLean; Lee Harrah, John Beagle, Barron, Wesley Black, E. L. Gallimore, Ed New Ray, Hawkins, S. C. Dickie, F. Z. Gennett, Hazel Thurlow, J. H. Barnes, and H. C. Boyd, Skellytown.

Mmes. Ross Combs, Carl Johnson, Sam McCullough, E. L. Holmes, O. G. Smith, A. K. Rogers, L. F. McDaniels, H. L. Wallace, Earl Casey, Earl Vernon, Fred Howell, Jess Baird, Henry English, D. E. Buckner, Kit Autrey, L. Hall, E. L. Reese, E. H. Johnson, Ben Ward, H. H. Bratcher; Miss Ernestine Holmes, Luellie Johnson; Messrs. Clyde Perkins, and Wince Baker.

## Dancer Will Give Lyceum Program at WTSC Next Month

CANYON, Jan. 13—One of the few dancers in America whose position is such that she can carry on the traditions of such figures as Isadora Duncan, Anna Pavlova, and Serge de Diaghileff is Ruth Page, the American artist who will bring a company of twenty persons to West Texas State in a lyceum offering Feb. 14.

Not only has Ruth Page been a pupil of Pavlova, but she has danced in the ballet organizations of both Pavlova, and Diaghileff. Today, however, she also is a well-known creator in her own right. While preserving the priceless heritage in the art of the dance, she is constructing new forms on the foundations of the old.

Ruth Page has danced leading roles in the ballets of the Metropolitan Opera company, the Chicago Civic Opera company, and the Ravinia Opera company. Her work with the latter has been both creative and as a leading lady. She danced in London the partner of Adolph Bolm. Later she performed at the enthronement of Emperor Hirohito of Japan. In 1930 she took an American company to Russia as a guest of the Soviet government. She has been called a globe-trotter but she has never lost her individuality.

## Aileen Vaughan Hostess to G. A. Girls Recently

Miss Aileen Vaughan was hostess to the G. A. Girls of the First Baptist church at a meeting held in her home, 309 North Banks street, recently.

Following the opening prayer by Mrs. L. M. Salmon, the devotional was given by Barbara Jean Davis.

After the program, refreshments were served to two visitors, Mrs. L. M. Salmon and Peggy Jean Kelley; Jo Anna Nix, Ila Vern Covington, Louise Baxter, Wanda Lee Giles, Mary Helen Hays, Barbara Jean Davis, Emma Sue Bayless, Mary Lou Anderson, Margaret Covington, Betty Sue Willeford, Ima Jean Willeford, members; Mmes. L. C. Vaughn and K. T. May, leaders.

## Junior Auxiliary Of American Legion Formed This Week

Junior Auxiliary of the American Legion was organized under the auspices of the American Legion auxiliary Tuesday afternoon.

Mrs. R. H. Kitchings, president of the auxiliary, presided at the meeting in which officers were elected. They include Joyce Turner, president; Clarice de Cordova, first vice president; Vivian Rogers, second vice president; Patsy Carlton, chaplain; Mary Ellen Moss, sergeant at arms; Erlene Shotwell, color bearer; Clara May Lemm, pianist; El Marie Allen, secretary-treasurer; and Isla Marie Earnest, publicity chairman.

After meeting the girls gave a program and had a half-hour social function.

The regular meetings of the group are to be held at the American Legion hut at 4 o'clock on the first and third Wednesdays of the month.

## Group to Entertain With Dinner-Dance At Country Club

The regular monthly Country club dinner and dance which is held on the second Thursday of each month will be given this evening at 7 o'clock at the club instead of last evening as it was announced in The News.

Hosts and hostesses for the evening will be Messrs. and Mmes. Ray Hagan, Tom Rose, W. V. Jarratt, and F. A. Howard. Mr. Jarratt will preside as master of ceremonies.

**All Wool Tests**  
When you shop for textiles, do you—  
Know how to tell when a "wool" garment contains cotton? (Chiefly by the feel. Pure wool is more resilient.)  
Know what "pulled" wool is? (It is wool taken from sheep after they have been slaughtered. Properly prepared it is not necessarily inferior.)  
Know what weighting is? (Weighting is substance other than textile fiber, either soluble or insoluble, introduced into textiles. Sometimes it is a solution with a high mental content in which a fabric is soaked.)  
Know the characteristics of weighted fabrics? (They feel heavier and drape better. If too heavily or otherwise improperly weighted, they will deteriorate more rapidly.)  
Know what sizing is? (Treating cloth with starch, mucilage, gelatin, gum, wax, or clay to fill the pores and make it feel more firm and compact.)  
Know how to detect excessive sizing? (Rubbing, tearing, or washing to see if dust comes out.)

## Dorcas Class Has Lunch At Church

## Miss Sybil Ward And A. Johnston Marry Saturday

Announcement has been made of the marriage of Miss Sybil Ward and Aubry Johnston which was solemnized Saturday evening in Texas, Okla.

Miss Ward, daughter of Mr. and Mrs. Fred C. Fischer, was graduated from Pampa high school. She has attended school in Amarillo and Dallas.

The bridegroom, who is the son of Mr. and Mrs. J. W. Johnston of Odell, is an employe of Comp Compton.

## Priscilla H. D. Club Members Present Annual Reports

Annual reports were given at the recent meeting of the Priscilla Home Demonstration club which was held in the home of Mrs. Joe Lewis.

Mrs. Norman Walberg presided over the business session in which Mrs. C. A. Tignor gave a report for the finance committee. Mrs. E. A. Shackleton presented the treasurer's statement; and Miss Donnie Lee Stroope explained that the Secretary school would be held in Pampa for 1938 secretaries.

President elect, Mrs. E. A. Shackleton, previewed the year's course in the 1938 year book and presented her resignation as president.

Refreshments were served to Mmes. E. A. Shackleton, Norman Walberg, W. D. Benton, J. M. Daugherty, Ira Spearman, Guy Farrington, Mae Skaggs, A. B. Lockhart, C. A. Tignor, Dave Davis, John Lawler; Misses Donnie Lee Stroope, Jewell Skaggs, and the hostess.

## Boy Given Party On Fifth Birthday

SKELLYTOWN, Jan. 13—Mrs. Boyd Hayes honored her son, Jimmie Rae Hayes, on his fifth birthday recently with a party at her home.

Games and contests were enjoyed and a beautifully decorated cake lighted by five candles with a "Happy Birthday Greeting," was served with jello to the following: Eddie Tomlinson, Charles Medcows, Billy Medcows, Bobby Hayes, Bernadine Guerry, Oneta Guerry, Geneva Milson, Robert Earl McDonald, Clemon Milson, Shirley Davidson and the hostess.

## Honoring Mmes. R. Earl O'Keefe and Roy Blasengame, members of the Dorcas class entertained with a covered dish luncheon at the First Baptist church yesterday afternoon.

Following a prayer by Mrs. R. W. Tucker, Mrs. T. F. Morton entertained with a reading and Mmes. Howard Giles and Dee Campbell sang a duet, "Life's Railroad to Heaven." They were accompanied by Mrs. Bo Barrett.

Centering the table which was laid with a white cloth were toy trains and a large depot was placed near the entrance to the reception room. Each person was given a numbered ticket which matched a number at the table where the luncheon was served. Tiny traveling bags filled with mints were given as favors.

At the close of the luncheon, Mrs. J. A. Arwood presented the honorees with baskets of handkerchiefs from the class.

Those attending were Mmes. W. R. Bell, J. P. Wehrung, Howard Giles, H. A. Gilliland, F. M. Johnston, W. B. Murphy, Bo Barrett, C. V. Forsman, S. O. Garner, H. T. Robinson, Park Brown, C. L. Stephens, Flora Mitchell, W. F. Yeager, Tom Davall, L. D. Blasengame, R. Earl O'Keefe, E. L. Anderson, F. F. Morton, T. B. Rogers, Cecil Lunnford.

Mmes. W. B. Davis, Bonnie Rose, Ann McAfee, Homer Taylor, C. Gordon Bayless, O. R. Pumphrey, Lloyd Bennett, C. S. Rice, J. E. Carlson, Anna Brooks, R. W. Tucker, J. A. Arwood, Harry Miner Jr., A. A. Day, W. A. Breining, H. E. Keith, B. A. Davis, Dee Campbell, Earl Burson, members; and Mrs. J. F. Curtis and Miss Grace Kite, visitors.

Place a folded cloth under the dish which contains foods to be beaten. The cloth saves the table and helps keep the dish steady.

Sunday night treat: Cooked sausages inserted in tomatoes, sprinkled with cheese and baked for twenty minutes.

# SIGNS PROVE FATAL BLAST ON CLIPPER

**PAGO PAGO**, Samoa, Jan. 13. (AP)—The *Samoan Clipper* and her crew of seven were destroyed in a fire and explosion was brought back to Pago Pago today by the minesweeper Avocet.

The naval craft returned to port last night with charred fragments from the ship after an all day search of the oil slick 12 miles off Pago Pago where the all-metal transpacific plane crashed in flames Tuesday.

Every item recovered showed signs of an internal explosion. All were charred, burned and covered with aluminum powder.

Because of the condition of the fragments, no hope was held of recovering the bodies of Captain Edwin C. Musick, 43-year-old Pan American Airways ace, and his crew of six from the shark-infested waters.

The plane caught fire while dumping excess gasoline preparatory to landing at Pago Pago to repair a broken oil line after starting out on a flight for Auckland, N. Z. It crashed in a thousand fathoms of water.

Wreckage found by the crew of the Avocet included: A coat belonging to Radio Officer T. J. Findley, 29. It showed evidence of holes blown through it.

A pair of trousers belonging to J. A. Brooks, 38, assistant engineering officer.

The surface of the water where the plane sank was covered with hundreds of small fragments conceded by searchers to be fragments of the fuselage.

As the tragedy was reconstructed, gasoline being dumped was vaporized and ignited, presumably by a hot exhaust pipe. Whether an explosion occurred in mid-air or after the 21-ton all-metal flying boat hit the water was not ascertained by authorities here.

If the story told by natives is true, the plane, or gasoline and oil from its tanks, must have burned on the surface of the water. They told of seeing a large volume of black smoke.

The crew consisted of Captain Musick, Brooks, Findley; First Officer Cecil G. Sellers, 44; Paul S. Brunk, 30, junior flight officer; J. W. Stuckrod, 23, engineering officer; and Navigator F. J. Maclean, 42.

Musick was making his last flight over the Honolulu-New Zealand route which he had pioneered as he had many other of Pan American's major lines. He had flown more than 1,000,000 miles, establishing an enviable string of records and winning the Harmon trophy in 1935 for outstanding service to aviation.

No blame whatsoever was attached to Musick, his crew or the ground crew for the crash. President Juan T. Trippie made this clear in a statement issued in Washington in which he expressed a belief "a way will be found to prevent a recurrence" of the tragedy.

The disaster will interrupt Pan American's new service linking America with Australia, but, officials said, it will be renewed with a new ship.

# 3 JUDGMENTS IN DIVORCES GRANTED HERE

Three judgments, all on divorce cases, were filed yesterday in 31st district court.

A divorce was granted in the case of Jackson J. Miller vs. Josephine E. Miller.

In the case of Franklin Ray Horton vs. Leslie Horton, a divorce was granted, and defendant was given custody of the couple's children.

Defendant is to pay \$25 monthly for support of the children, until they are 16 years old.

A divorce was granted in the case of Rohannah Larned vs. Arthur Larned. Plaintiff was given custody of Walter Carroll, 2, and of Hilda Jo, nine months, from May 1, 1938, to November 1, 1938, and for the same period in succeeding years.

Defendant is to pay \$25 a month for support of children until they are 16 years old.

# TAFT URGES ENTIRELY NEW RELIEF SYSTEM

WASHINGTON, Jan. 13. (AP)—Charles F. Taft recommended to Congress today a federal-state fund-matching relief program in which federal allotments to states would be according to a stipulated formula.

Testifying as chairman of the mobilization for human needs, a national association of community chests, Taft suggested that the amount and character of work relief and those eligible should be left primarily to the states, under standards of administration set up by the federal government.

Local programs would be tied in closely to the general program by the states.

The son of the late President and Chief Justice Taft also proposed a national commission, "divorced from politics," to draft a long-range relief program.

His federal-state-local plan, he said, "undoubtedly will make possible genuine economy both in local and federal administration, without lowering standards of relief."

Louis E. Kirstein, Boston merchant who followed Taft to the witness chair, called for "a cessation of witch-burning on the part of business groups as well as on the part of governmental officials."

The bald, portly president of the American Retail Federation urged a unified relief program along the same lines as those suggested by Taft.

# OFFICER RELATES HOW HE KILLED TWO MEN

SENECA, Mo., Jan. 13. (AP)—A dramatic account of fighting his way out between the guns of two men and killing both was related from a hospital bed today by constable Roy Hance.

The officer, who was wounded in the hand, said he went last night to the farm house of Logan E. Hunt, 37, to ask him if he knew anything about the mysterious slaying of Norman E. Mitchell, wealthy Seneca business man, and had to kill both Hunt and Carl (Kid) Smith, 34, to avoid being taken on a threatened "ride."

Hance said he entered the farmhouse, found Hunt sitting on a box and then felt Smith stick a shotgun in his back.

"Hunt put me between him and the kid and started toward the front door," Hance related.

"I decided right then if they were going to kill me, it was going to be in the house and not in the car. I seized Hunt's hand that held his pistol and tried to hold him between me and Smith. Hunt fired one shot that went through my overcoat. He fired again, hitting my hand. About that time I got out my pistol. I shot him twice. When he fell Smith pointed his shotgun at me. I let him have it. He fell and the shotgun went off. It put out the only light in the place, a kitchen lamp."

Hunt died instantly. Smith died in a Neosho hospital.

# CITATIONS SERVED IN OIL VACANCY CASES

AUSTIN, Jan. 13. (AP)—The state has started serving citations in a vacancy suit seeking recovery of 147 acres of oil producing land in Rusk county.

Filed in district court here in June, 1935, prosecution has been delayed because of a study of numerous title abstracts. Grady Chandler, assistant attorney general, said there were 166 defendants of which only 19 were in Rusk county. Many of the remaining defendants were out-of-state corporations, he said.

A trial date can not be determined until service is completed.

The land, in two tracts of 102 and 45 acres each, is located west of Martin and McCabe surveys and east of the Smith, Ellington and Wiggins surveys.

The state seeks recovery of income from oil and gas sales alleged to be approximately \$3,500,000 and surface revenues of \$350,000.

# A CAPPELLA CHOIR TO BROADCAST PROGRAM

Miss Helen Martin, director of the A Cappella choir of the high school, will present the group in a radio broadcast over station KPND tomorrow afternoon at 3:30 o'clock.

Numbers to be sung will include "Vanka 'N' Tanka," a Russian hill-billy song about Vanka and Tanka who fell in love; "On a Chinese Honey-moon," "Is This Fair Excusing," an old English madrigal by Jones; "Cast Thy Burden Upon the Lord" from Elijah by Mendelssohn; and "Cherubim Song" from Russian church music by Bortiansky.

# FIRST DUSTER OF YEAR CUTS VISIBILITY HERE

PLAINVIEW, Jan. 13. (AP)—A newborn infant revived by adrenalin after its heart apparently stopped for several minutes was "doing fine" today. The child, eight and three-quarter pound son of Mr. and Mrs. D. C. Towns, was given an injection directly into his heart and revived soon after it. It was born yesterday as the mother was being rushed from her suburban home to a clinic here.

# VISITING MINISTER WILL ANSWER INFIDEL HERE

An appreciative audience heard Dr. W. H. Clark, pastor of the Claude Baptist church, deliver his message last night at the First Baptist church on the subject "Is War Justified?"

Tonight the speaker will use the subject "The Preacher Answers the Infidel."

Dr. Clark brought three indictments against war, namely, war is incompatible with the teachings of Jesus; the benefits of war are meager; and in this age of science war is dangerously absolute.

The speaker challenged his congregation with this statement: "Ten years after the next war every nation involved, including the nation that won, will have lost more than it gained."

Illustrating the saying of Jesus that the meek will inherit the earth, Dr. Clark reminded his audience that Caesar was dead but Jesus continued to live and inherit the earth.

Quoting from the "Old Testament," Rev. Clark said, "instead of thinking war, planning and studying war that scripture that the nations will 'learn war no more' will some day be fulfilled."

"The Rev. C. Gordon Bayless, pastor of the First Baptist church, is hopeful that a large number of his people and the general public will hear Rev. Clark tonight."

# TAKE WEIGHT OFF TIRED FEET

LOSE FAT THE EASY WAY—Without Starvation Diets, or Back-breaking, Bending

If your feet and ankles feel tired and ache all over—because you are carrying too much fat—do something about it. Try the treatment that has helped millions to reduce excess weight.

There's a reason why so many people find dieting slow and often times futile in reducing the reason, doctors say, is often because a little gland is not working right. All the blood in your body goes through this tiny gland sixteen times every day. If it doesn't pour into the blood stream about one and one-half drops of vital fluid every 24 hours, many people take on ugly fat. This fluid helps Nature to "burn up" excess food and fatty tissue in much the same way as a good "draft" acts in a furnace.

Now, physicians combat this condition by feeding this gland the substance it lacks—and millions of pounds of excess fat has been wiped out in this way.

Marmola Prescription Tablets contain the same element prescribed by most doctors in treating their fat patients. So don't waste your time or money striving to reduce with starvation diets or back-breaking exercises. Start the Marmola treatment today that millions have used successfully to get rid of excess fat. The formula is in every box so you know just what you are taking. Don't wait—get a box of Marmola today from your druggist.

corporation—were not so directly connected with the problem of installment sales.

At a press conference last week the President told of a steel manufacturer whose production had dropped from 90 to 28 per cent of capacity because of the slump in automobile production and uneven purchases of rails by railroads.

Mr. Roosevelt said steel production had been unbalanced by railroads purchasing rail for an entire year at one time, causing an undue acceleration of production during part of the year and a slump during the remainder.

The President criticized the automobile industry for selling cars on a 24 months credit arrangement instead of the previous 18 months, and for over-selling by telling prospective purchasers that the price was going up.

In his discussions of over-selling and high pressure salesmanship, the President had tied up the question with the whole problem of industrial planning to even production.

One of the administration's business advisers said cooperation between industry and government in such planning would be smoothed by revising the anti-trust laws to let business men know what they can do as well as what they cannot do under these statutes.

The President expects to send Congress a message soon asking changes in these laws. One official, however, expressed doubt whether a production control plan would be completed for submission at this session or next.

A well-defined plan has been worked out, however, by which industry would undertake voluntarily to cooperate with a single government agency—possibly the department of commerce—in determining controlled production schedules months in advance of marketing the products.

Mr. Roosevelt, meanwhile, is going ahead with his talks with business leaders. The biggest decisions arranged so far will take place next Wednesday when 50 members of the commerce department's influential business advisory council come here to discuss recovery with the President.

# NOYES QUILTS AS AP'S HEAD

NEW YORK, Jan. 13. (AP)—Frank B. Noyes of Washington announced today his retirement from the presidency of the Associated Press, at the expiration of his present term. He has held the position through thirty-eight eventful years of newspaper history.

To the board of directors, in session here, Mr. Noyes disclosed his decision not to accept reelection, under any circumstances at the expiration of his present annual term in April. After his long service, he said, he felt entitled to pass on to younger hands a task to which he has devoted himself since his 30's. On July 7, next, he will be 75.

The board unanimously expressed regret at his withdrawal, which means the end of one of the most notable tenures in American journalism. His present and last term of office as president will extend through the annual meeting of members in April, and his successor will be elected by the board immediately thereafter.

Mr. Noyes will continue as president of the Evening Star at Washington. Asked today whether he would permit himself to be considered for continuing service on the board of the Associated Press, he said he would leave that to the membership at large, which will vote for directors at the April meeting.

The Washington publisher has been on the board and the executive committee of the present Associated Press and its predecessor corporation for forty-four years, and his direct connection with the press association goes back even further. Upon learning of the movement which started in the west he associated himself with a small group who set out in 1893 to realize the ideal of a great cooperative association of newspapers, representing every creed and party, for the exchange of factual news on a basis free of partisan bias and private interest.

Born in Washington in 1863, of a newspaper family, he had been successively manager of the Washington Star and editor of the old Chicago Record-Herald. Prior to his connection with the Record-Herald, he was one of those convinced that important changes were necessary in the methods of gathering and disseminating news. He associated himself with Melville E. Stone, who became the first general manager, and Victor Lawson, of the Chicago Daily News, in the up-building of the Associated Press.

# Not Too Glad To Be 80—

Though recipient of a merry birthday embrace from Granddaughter Nancy Boatwright, Senator Carter Glass of Virginia wasn't too happy about reaching his 80th year. He announced that he regrets "living to see such revolutionary changes in the administration of a once democratic government." It was Nancy's birthday, too, and his daughter's wedding anniversary, celebrated at their Washington home.

## MOTOR CARS TO USE AIR-CONDITIONING

DETROIT, Jan. 13. (AP)—The automatically refrigerated automobile to make summer driving comfortable will not be long in making its appearance. L. W. Child, air conditioning engineer, said today in a paper prepared for delivery at the annual meeting of the society of automotive engineers.

He suggested the use of a non-toxic gas and an engine-driven compressor, much like the system in the average household mechanical refrigerator, to give the motorist a cool ride in 100 degrees of temperature at midday.

Too much speed and too little visibility for the driver are built into America's automobiles, Charles Harnett, New York State Commissioner of motor vehicles, told the society last night.

He noted high hoods, low driver's seats, narrow rear windows, corner posts and divided windshields as factors in obscuring vision. Quoting engineers as saying "perfectly feasible" and "inevitable," Harnett said: "With the engines placed in the rear, drivers will have better vision, and good sight is all-important in safe car operation."

He expressed belief the solution

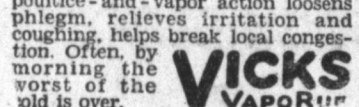

for increasing traffic accidents lay in "taking unnecessary reserve power out of the car."

## ORDINARY FUEL MAY BE USED IN PLANES

of Automotive Engineers was told today. The Diesel internal-combustion engine has advantages over gasoline engines. Ernest G. Whitney and Hampton H. Foster, engineers for the National Advisory Committee for Aeronautics, said.

Much research work remains to be done, however, they added, before the Diesel motor achieves the proper composition and is able to stand higher cylinder pressure. They noted that for "very high

altitude airplanes" the Diesel may prove to be more suitable than the current gasoline airplane engines, due to certain mechanical and combustion advantages.

The oil-burning motor, which depends on pressure instead of spark plugs for combustion of the fuel, delivers high power with low fuel consumption, they pointed out. Carburetors are eliminated because the oil is sprayed directly into the cylinders with nozzles. The danger of ice forming in car-

buretors is obviated, and the pilot can forget complicated controls governing manifold pressures, temperature and fuel mixture.

The funniest thing happened Christmas Day when Police Chief Art Hurst went down on the South Plains to return a prisoner. . . And, the news has just leaked out. . . And, as I am preparing to write about it here, I learn that Archer Fullingim has found out about it, too. . . So, I'm bowing off to him, and if you are curious as to what happened to the chief, you'll have to skip down on the page and read Fullingim's People You Know today. . . It's the doggonedest thing! . . . And, you're going to miss something if you don't come back and read the rest of this column.

Harry Miner, the singer, is on a diet. . . Hamp Hampton quit playing golf five years ago, he says, because his business began interfering with his game. . . Judge W. R. Ewing says an expert is a person who knows more and more about less and less until he reaches the point where he knows everything about nothing. . . W. R. Frazee, the district court reporter, is handing out campaign cigars, but you'd better beware of them. . . The Rev. W. M. Pearce, of the Methodist church, is a native Texan and doesn't even have a drawl.

Dave Bailou, the former Pampa radio-er, now is producing his own radio transcription shows in Hollywood. . . He sends regards to his Pampa acquaintances. . . Japanese official contends China overestimates her strength. . . From the progress of the Japanese drive, compared with advance predictions, there apparently has been some underestimating, too. . . Oranges and lemons are "ripened" by use of petroleum gases, scientist reports. No wonder people get "oiled" on whiskey sour!

Governor Earle of Pennsylvania had the state attorney general's chauffeur arrested for speeding 65 miles an hour. . . Can it be that speed laws apply to state officials, too? . . . Joe Louis fights Nathan Mann, Feb. 22. It remains to be seen whether he should be calling Natie the Condemned Mann. . . Chicago torch dancer sues for \$100,000 because she was burned during rehearsal. Should be a hot time in court. . . The fond mother who wouldn't let Johnny go out for football is now showing him how to break through tackle in the January clean-up, bargaining.

Soviet explorers have drifted 750 miles from their original post at the North Pole. Evidently they had orders not to let any grass grow under their feet. . . Streamline trains are so nearly perfect the pulp reader can almost hear the clear ringing shot in the midnight express murder. . . Il Duce having deserted the Family of Nations will have more time now to devote to his nation of families. . . India still reports scores killed by tigers each year. What India needs is a LaGuardia.

## Yesteryear In Pampa

**TEN YEARS AGO TODAY**  
 An honor flag, signifying that Pampa's Red Cross chapter met the goal assigned in the eleventh annual roll, was received here by the Rev. Tom Brabham.

Earlier closing hours for local stores was to go into effect following the circulation of agreements in allied lines of business.

**FIVE YEARS AGO TODAY**  
 The Panhandle chapter of the American Petroleum Institute was to hold its first meeting of the year in the city auditorium.

Disturbed by flattering reports of Allison's prowess on the hardwood, the Pampa Harvesters unleashed a vicious attack on the visitors at the local gymnasium and emerged from the fray with a 43-to-7 victory.

greeted the retirement of Justice Sutherland with delight.

Finally and most of all, the victory of Congressman Lister Hill in the Alabama senatorial contest brought new hope and cheer to the liberals. Not well known in Alabama, campaigning on a 100 per cent Roosevelt platform, and strongly endorsing the wage-hour bill, Hill won two to one over ex-Senator Tom Heflin.

Spousal of the wage-hour bill in such a southern state as Alabama had been considered to mean political suicide. Alabama is agricultural and its labor unions predominantly A. F. or L.

Hill himself was badly worried until the end.

Wage-hour enthusiasts believe Hill's victory can be used to change some southern votes. Congressman Luther Patrick of Alabama, who voted for recommitment, was one of the first to hit the trail. Going down home to campaign for Hill, he found his vote was unpopular, and he says he's still busy explaining.

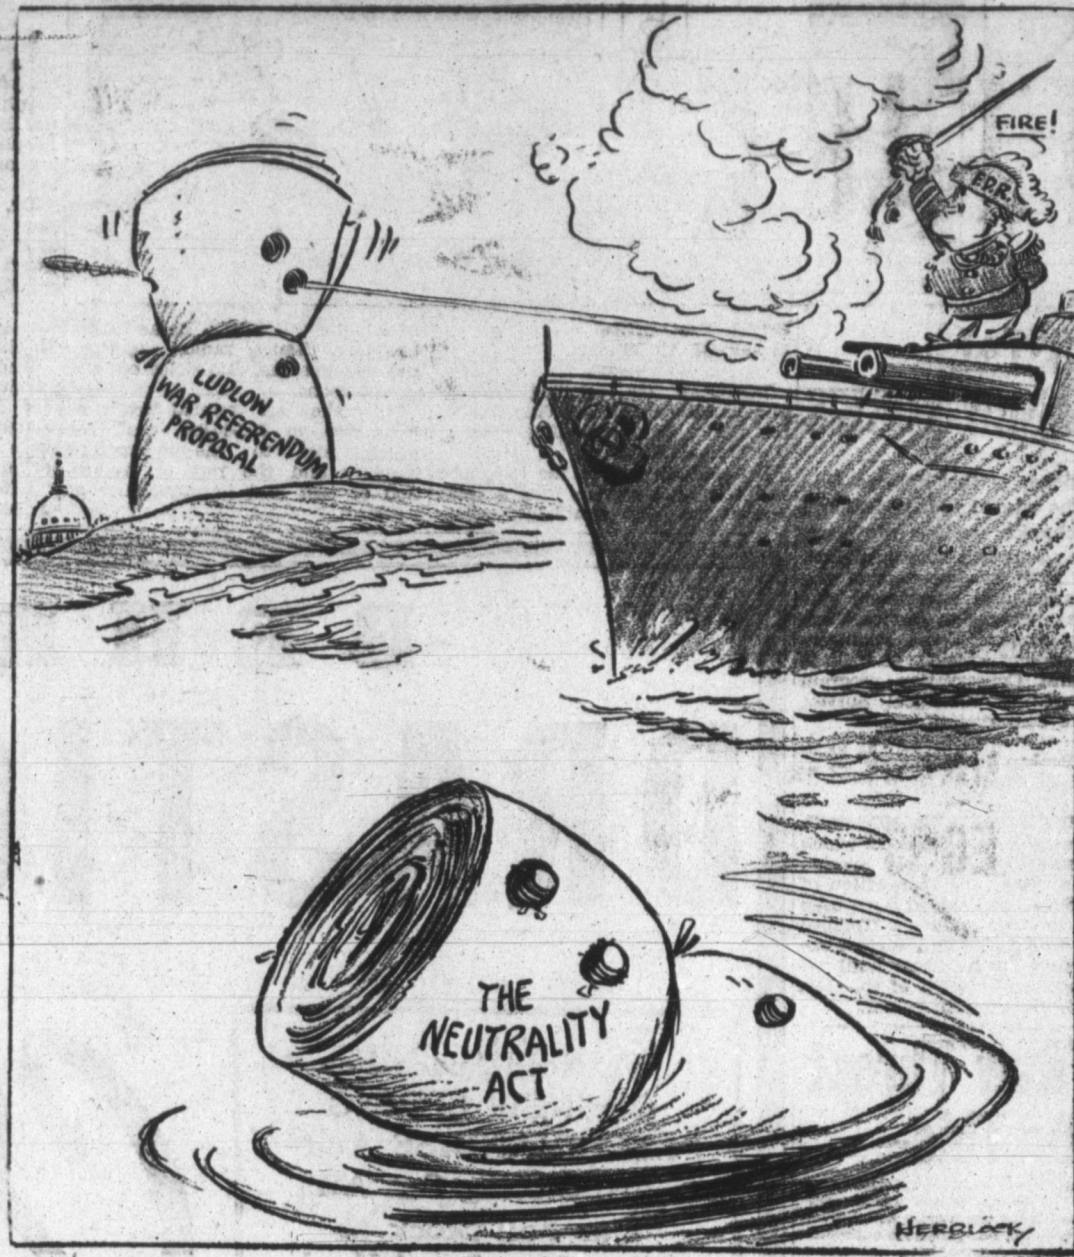

Other congressmen say they found during the holidays that although local A. F. of L. union leaders had obeyed President William Green's instructions to wire protests against the bill, the bulk of union members appear to favor a wage-hour law. Significance of these testimonials may be exaggerated, but they've stirred up plenty of optimism.

For the first time, bets are now being laid that Assistant Attorney General Jackson will be the next governor of New York.

Postmaster General Jim Farley has told friends that he would not be a candidate, although Roosevelt would have supported him. Farley needs to make money, he says. That being true, Jackson, who is Roosevelt's favorite, becomes the outstanding possibility.

It is reported that Farley, who is chairman of the New York state as well as the national Democratic committee, would prefer to have Senator Robert F. Wagner run. But it is practically certain, first, that neither Farley nor Wagner will stand in the way if Roosevelt tells them he wants Jackson, and second, that Roosevelt will tell them just that. Wagner prefers the Senate, anyway.

New York—Quotations:  
 "Central Park is an inland lake of oxygen and light. With its zoo, and monkey-house, and children's boats, Central Park is to the New York child everything that the Paris child. It ought to be seen in winter with its rought grass, the toy-like bears in its little zoo, the blue noses of the children riding their ponies, the gleaming skating-ponds where the brightly colored children are circling as they do in the paintings of the minor Dutch masters. One should wander through it on summer nights when the exhausted crowds, bemused with heat and suffocated in the narrow streets, come up there to wait for the morning and the coolness of dawn whilst the firemen spray the naked street-urchins with their hoses."—Paul Morand.

"Acting is largely a trick of the voice. I used to make the nuns weep in the convent by reading Hiawatha."—Alice Brady.

"I think it humorously ironic that the headquarters for both the I. W. W. and the Soviets are located on that most prominent of all capitalistic streets—Fifth Avenue."—Noel Thornton.

"Certain people who profess to be my very best friends persist in loading me down with boxes of costly cigars at Christmas and on my birthday when they know very well that I never smoke cigars nor have I any intention of ever smoking them. As a consequence I now have to go to the trouble of going all the way down to the tobacco shop in the lobby of the building where my office is located to exchange them for my favorite brand of cigarettes."—Richard Maney.

"Every woman has an individual type of beauty and the answer to the correct dress and make-up problems will bring it out. But, one thing is certain. You can't be a Janet Gaynor if you stand six feet four and weigh 300 pounds."—Helena Rubinstein.

"No Catholic is so devout as a protestant who has been converted to the Catholic faith and no New Yorker is one-tenth so smug as the outsider who moves to the city and adopts it for his own. Hearing them talk reminds one of small boys boasting of miniature castles heavily garrisoned with toy soldiers."—Abner Gibb.

"It was William McFee who once defined the ideal book review as a frolic on the library steps. That engaging theory, if adapted to the published drama, should, I suppose, make the preface to a play a sort of romp in the theater lobby."—John Anderson.

## People You Know

By ARCHER FULLINGIM

Here are a couple of good ones on Art Hurst. The first one takes him back several months to the Shriners' convention in Amarillo, but the second one is of recent origin. . . The Pampa chief of police and three other officers were coming out of an Amarillo theater during the convention when they were picked up by deputy sheriffs. The complaint against Art was that he was carrying a blackjack. Art knew all the "boys" down at the city police station and thought he would be able to fix it up with the judge, but they took him to the courthouse and the judge was the sheriff of Randall county, but Art didn't know it until 30 minutes later.

Recently, the chief, en route to Matador to return Odell Davis to Pampa, stopped in Turkey to get a shave. He left his gun in his car, but kept his blackjack in his pocket. When he got into the barber's chair, the blackjack began showing conspicuously. He noticed a barber shop loafer eyeing the weapon, and then slip quietly out. The chief knew what was up then, and pretty soon here came two laws. He told them who he was, and said, "Oh, yeah, we know you," and let him go, but he'd walked down the street a few yards when they came up beside him and barked, "all right buddy, come along with us." To prove his identity, Art had the "laws" call a Childress deputy but he was out. Then he had them call the police station here, but the sheriff's office answered, and reported that "Art Harris" used to work for them. Finally they told the men that Art Hurst was the chief of police. Then they let him go—without checking the description at all. Art moaned. . . Now Art's friends are advising him to leave his blackjack at home when he leaves town.

## The Capitol Jigsaw

By HOWARD C. MARSHALL

AUSTIN, Jan. 13 (AP)—Two more candidates about whom little has been heard to date want to succeed Gov. James V. Allred.

One is James O. Rail, businessman of San Antonio, who ran for congress two years ago on a Townsendite platform; the other is Virgil E. Arnold, Houston lawyer, who in the past has campaigned for the lieutenant-governorship and other offices.

The principal plank in Rail's platform, he says, will be economy in government, but not economy at the expense of "our aged or otherwise distressed citizens."

One of the things motivating his race, he says, is that he has witnessed the distressed circumstances of so many of our citizens, especially among the aged, who are treated "so cruelly under the present system."

He also stands for a "more just and uniform system of taxation," saying the best plan would be a tax on the amount of money each person receives each month, with an exemption up to \$100.

"Our money was created to be used as a medium of exchange," he says. "Those using it should pay for the use thereof."

He is opposed to a sales tax. In his opinion, governmental economy should be achieved by abolishing several "useless, worthless boards," among them the old age pension commission and the liquor control board.

Arnold has announced a platform the main plank of which will be prohibition of intoxication drink sales anywhere in the state.

"In other words," he said in his announcement, "I am for a bone-dry state."

The evils of the liquor traffic are far more degrading than all other evils combined. Thousands of our school children are subject to its clutches and the time has come in Texas when it behooves the church people of all denominations to cooperate with the political forces that are opposed to this devastating condition.

"Scores of people are killed each year by drunken drivers of automobiles on Texas highways. "Thousands of young women in Texas today are allowed to attend bar and sell whiskey by the drink." Arnold also is out for "strict economy" and observes it is costing the taxpayers of Texas about \$140,000 to operate the state government each year.

"This," says he, "is pure extravagance."

He is for a sales tax "on most modities of life," the abolition of the ad valorem tax, appropriations to maintain "the best system of schools" of any state and beneficial farm legislation.

He favors abolition of state departments which he says do not benefit the people but cost them a lot of money, and a firm stand for organized labor should have.

"What the people of Texas need," he says, "is men in the high offices who have a righteous background built on the bedrock of good moral government."

Arnold was a member of the 38th legislature from Harris county in 1923.

## CHAPMAN TRIAL TO BE HELD AT PANHANDLE

BORGER, Jan. 13—Ben Chapman, 53-year-old Borger policeman, indicted on a first degree murder charge last week in connection with the fatal shooting of Constable Lee Hutson, on a dirt road near Panhandle December 14, will be tried in 84th district court at Panhandle January 24.

Curtis Douglass, named as special judge to substitute for Judge E. J. Pickens, who is ill, will sit on the bench during Chapman's trial.

The shooting alleged to have occurred when Chapman, Hutson, and Deputy Sheriff G. L. Warren were returning in an automobile from a murder trial at Wheeler.

## How's Your Health?

By IAGO GILDSTON, M.D.

Ringworm is not caused by a worm, and doesn't always form ring-shaped lesions. It is caused by a microscopic plant parasite which grows in the skin.

One form of the condition, known as tinea circinata, does give rise to the ring lesion. Originally this variety of ringworm appears as a small flat or slightly elevated red circular spot. As the condition spreads, the center of the spot fades, forming a ring. Sometimes three lesions appear in two or three patches which run into each other and form cyclic figures.

Ringworm may affect practically all parts of the body. Among children it is common upon the scalp, face and other exposed portions. In men, ringworm of the beard, called "barber's itch," is fairly common.

Favorite locations for ringworm are the inner surfaces of the thighs, the armpits, the navel and under the breasts.

Ringworm of the feet, called "athlete's foot," is by far the most widespread ringworm infection. The hands and the nails may also be affected.

Domestic animals, such as cats and dogs, suffer from and sometimes convey the disease.

Ringworm lesions vary in appearance, depending upon the parts of the body involved and upon certain complications. The lesions may become invaded by pus-producing bacteria, giving rise to a boil-like formation. Ringworm may also be complicated by eczema.

Sometimes ringworm disappears spontaneously, but more often it proves a stubborn condition. And frequently its treatment taxes the patience of both sufferer and physician.

The ultimate objective in treatment is to destroy the ringworm's parasite. But the means to be employed vary according to the location of the infections, the condition of the skin involved, complications and so forth.

In general, antiseptic lotions and salves are employed. Frequent washing with soap and water (tincture of green soap may be used) is helpful in controlling the spread of ringworm. Small lesions may be treated with tincture of iodine diluted with five parts alcohol. Stubborn or suitable cases can be effectively treated by X-ray. Such treatment, however, is hazardous except when administered by experts.

## FARMERS' CASH INCOME LAGS IN FOUR STATES

WASHINGTON, Jan. 13 (AP)—The Bureau of Agricultural Home Economics reported today that in only four of 13 southern states did the cash farm income for November fall below that of the same month in 1936.

The states were South Carolina, Florida, Mississippi and Kentucky. Decreases in sales of cotton and cottonseed in South Carolina and Mississippi and smaller marketings of citrus fruit in Florida were said to be factors causing smaller November incomes in those states. Smaller receipts from the sale of cattle lowered the Kentucky income.

The largest increases in receipts from sales were reported in Texas and Alabama.

The bureau reported the cash income, including benefit payments, for the southern states for the January-November periods in 1936 and 1937, respectively, included:

Arkansas, \$100,243,000 and \$133,628,000; Louisiana, \$91,385,000 and \$104,568,000; Oklahoma, \$133,747,000 and \$165,652,000; Texas, \$393,777,000 and \$474,194,000.

**Mass Production For Charity Plan**  
 LOS ANGELES (AP)—The Goodwill Industries was founded to give needy persons odds and ends of useful employment, but it is now, approaching the big business stage. The organization has announced that it will build a three-story plant at a cost of \$164,000.

# Richest Girl in the World

BY ADELAIDE HUMPHRIES  
Copyright, 1938, NEA Service, Inc.

Yesterday, interested in the engaging young man at her side, Connie consented to dine with him at the next town. Her adventure is under way! Bret tells her he would like to have her see his country...

CHAPTER VII  
He looked at her, coming back to the present again. "I believe you would," he spoke slowly. "Look here," deep color stained his dark face, "don't get me wrong—I can see you prefer people to mind their own business, not ask questions—I won't do that. But if you aren't going anywhere special, what I mean is, if you're up against it, I'd like to help you out."

Connie said, "That's kind of you—but I don't need help, really." It was the first time in her experience that anyone had ever offered to help her. It made a warm glow spread all through her; it made her feel as though she had found a friend.  
"Well, I didn't know..... besides you never can tell." He dug in the pocket of his tweed coat, pulled out a card. Before he handed it to her he wrote something across the back. "Keep this. Just in case," he urged.  
She thanked him; put the card in her purse.  
"Reckon we'd better be getting back," he suggested. "And thank you ever so much, Miss Blyn—I beg your pardon!" He gave her a low, elegant bow. "Miss Corby I should have said. Thank you for dining with me. I enjoyed it." "I enjoyed it too," she told him. "But don't let's pretend anymore." She did not want him to call her by her real name.  
"I don't believe you want to be that rich girl, after all," he chided.  
No, Connie thought, after the people had piled into their places and once more the wheels were turning round and round, humming their rhythmic song; she no longer was sick of everything, tired of life. Why, it was gorgeous, just to be alive! It was heavenly to feel so peaceful, so content, to watch the blue sky darkening onto black, the tiny lights flickering on in the houses and villages as they sped by, the first star coming out to blink solemnly down at her. This was the most beautiful time of all the day; an hour with an ache in it, a loveliness almost unbearable. Yet she did not feel lonely or sad. It was true, what the young man had said, she was happy, really happy for the first time that she could recall.

AFTER a time she closed her eyes once more, having adjusted the deep comfortable chair to its reclining position, for this was the only bed the coach provided for its passengers during the long night.

Connie had thought she would be too excited to sleep, perhaps too uncomfortable, remembering the luxury of the wide Marie Antoinette bed. But before there could have been time to count many sheep, or to fuss about comfort, she had been lulled to a sleep so sound it was untroubled by many dreams. She must have slept thus for several hours. Then she was awakened to a sense of confusion, a new stiffness in arms and limbs.

The bus had stopped. Two men, one a rough looking, coarse individual, the other scarcely more than a boy, whom she remembered as having been sitting in the back near the mother with the baby, had whipped revolvers from their pockets. The boy had pressed his against the driver's back, the man's was leveled at the occupants in the coach.

A woman screamed; a man swore. Bret Hardesty started to his feet, his dark face flushing, his fists clenched.  
"Sit down, you!" The muzzle of the one revolver was trained threateningly at his chest. "Another sound out of anyone, one move—and I'll fill the bunch of you with lead. The gunman looked capable of doing just that."  
"Please sit down," Connie urged at Bret Hardesty's coat. Her blue eyes entreated him. He sank back in his seat, but his face was still flushed, his dark eyes narrowed.

"Everybody stand up!" the man ordered now. "As you file out hand over your money or take what we give you and like it!"  
Connie obeyed with the rest. "Don't do anything, please!" she managed to whisper with a pleading desperation in her newly-found friend. She had a feeling that Bret Hardesty was not going to empty his pockets without protest even though he faced a dozen revolvers.

She was right about that. She had no sooner parted with her roll of bills than she heard a thud behind her. Bret had knocked the revolver out of the fellow's hand, reaching across the driver's shoulder to switch off the lights at the same time. Now they rolled and fought in the aisle.

There were screams from the frightened women, three shots rang out. Then the slim figure of the boy could be seen taking to his heels.

"BRET, Bret.....are you hurt?" Without realizing she called him by name. Scarcely knowing what she was doing, Connie tried to feel ahead into that inky blackness from which still came the sounds of those two bodies pummeling and struggling.

"Then there was silence. 'I'm all.....okay.' Bret's slow drawl came as though nothing had happened, except some loss of breath. "T-turn on.....switch. I've got.....this one." Connie managed to find the

switch, wondering how she did, her fingers were trembling so. The passengers, relieved and smiling, began to file back in, bursting into valuable chatter as people will after a tense unusual strain.  
The driver came forward with a piece of stout rope with which to bind the bandit's hands. He was a sorry-looking bandit now, all the bravado knocked complete out of him.  
"Better empty his pockets and give back what he took before we turn him over to the police at the next town," Bret said.  
"I'm not sure about regulations as to that," the driver objected. He started to investigate the man's pockets. Then uttered a shout. "Fump! The money's gone. Nothing to hand back!"  
"My partner.....he musta swiped it," the fellow muttered sullenly, when Bret gave him a sharp shake, demanding to know what had become of it.  
"A swell partner!" Bret commented. He suggested they had better get started. "Maybe they can pick up the other fellow, too; he acted like an inexperienced kid."  
"You're not hurt, are you?" Connie asked anxiously, after the excitement had died down and they were on their way again.  
His thick dark hair was ruffled, his shirt torn open at the neck; there was a faint purple shadow spreading around one eye, but beside from that Bret Hardesty still looked intact.  
"Not a scratch," he said, smiling. Then with his serious look again. "But it's you I'm worrying about. Now you will have to let me help you out."  
He thought she had lost everything she had. But there was the ring and the brooch and the pearls safely hidden in the imitation leather bag. Still she need not tell him about them.  
"I guess I will," she said.  
The purple shadow was most becoming she decided. It lent him a rakish look that rendered him decidedly handsome. She had never met such a man.  
It seemed quite ridiculous—and unnecessary—now that she had met him to think of losing him again.

## "NO SPECIAL SESSION" SAYS GOVERNOR ALLRED

AUSTIN, Jan. 13 (P)—Governor James V. Allred threw cold water today on hopes of persons advocating a special session of the legislature.  
He said he had received several communications from members of the legislature suggesting a session to consider revision of land laws and other matters but he did not think much of the idea.  
"At this time I see no need for a special session," he said. "The trouble is not so much with the land laws as with their enforcement." Recently he engaged in sharp controversy with W. H. McDonald, commissioner of the general land office, over the latter's land leasing policies.  
The governor continued his non-committal attitude about his future political plans, saying with reference to the possibility he might seek a third term, "I will have to do a lot of thinking and talking yet."

## OIL BUSINESS SOUND THOUGH VOLUME DOWN

By ALFRED WALL  
TULSA, Okla., Jan. 13 (P)—You could take your pick of panaceas proposed to pep up business in the oil industry today but in the end there always was the conclusion that only time would tell.  
Executives scanned reports on business volume and prices and found things continued slack, though basically sound.  
It was too early in the year to forecast immediate trends, they insisted. Curtailment of crude production persisted. Though refinery activity was held down, stocks of finished products mounted.  
Prices held steady at the low year-end levels and movement was less than normal at the bottom of the low consumption period.  
Congress was watched carefully for indications of aids to business.  
Both refiners and producers looked ahead to the Texas Railroad Commission meeting Jan. 18 and the conference of oil state representatives at Hot Springs, Ark., Jan. 24 where it was expected a movement to spread the plan of Sunday shutdowns to the entire industry might be brought up.  
Talk of also extending the Sunday shutdown plan to refiners brought a kick-back from mid-continent refiners who held it would be impractical to allow their plants to cool off and lie idle one day a week.  
It wasn't all gloom in the oil business. Near Stillwater, Oklahoma, many were happy by striking of a Wilcox sand pool in wildcat territory. The first producer was estimated good for 10,000 barrels daily.  
The discovery was the mid-continent petroleum corporation et al No. 1 Ramsey.  
As royalty and lease prices mounted, field men speculated the pool might embrace an area a mile and a half by six miles.  
In general, drilling companies held back a bit of their exploration plans for the year, trying to figure a balance between drilling activity and the amount of money likely to come into pocket from the year's business.  
The busting K. M. A. field held the spotlight in Texas with a big 1938 drilling campaign already under way. For the week ending Jan. 8 a total of 522 wells was completed in the nation, 65 more than the week before.

THIS CURIOUS WORLD By William Ferguson

NEVADA PASSED A LAW IN 1875, PROHIBITING CAMELS FROM RUNNING AT LARGE UPON ITS HIGHWAYS

ACTUALLY BECAME A NUISANCE THERE AFTER THEY HAD BEEN INTRODUCED FOR USE IN TRANSPORTATION WORK ACROSS THE DESERT.

IN 1855, Congress appropriated \$30,000 for the purpose of importing camels into the United States, to be used in the desert areas of the southwest. Others were brought in from time to time, but the enterprise finally flopped, and the animals were turned loose to roam as they pleased.

PETROLEUM and citrus fruit interests were ready today to testify before the Interstate Commerce commission which for two days has heard protests against the proposed 15 percent increase in rates asked by the railroads to meet rising cost of operations.

FRUIT, vegetable and cotton men from the south and southwest said yesterday producers were paying rates as high as they could bear. Some warned that an increase would mean cargo loss for the railroads, but a gain for truck and boat transportation. Others indicated they would cooperate with the railroads, in spite of an increase, but protested an increase on a percentage basis.

TWO hearings are being held simultaneously, because of the number of those wishing to testify, by Dr. Walter M. W. Spalwin, chairman of the I. C. C. and Marion W. Caskie, commission member.

ON today's calendar were listed representatives of petroleum and citrus fruit interests in Texas.

AUSTIN, Jan. 13 (P)-Collections of state property taxes aggregated more in October and November, 1937, than in the corresponding months of 1936 despite the 13-cent reduction in the rate, the comptroller's department said today.

OFFICIALS interpreted the heavy collections in the first half of the four-month tax-paying period as an indication of a healthy economic condition over the state. They said persons in poor financial condition usually delayed their tax payments until just before the deadline.

COUNTY tax collectors reported that payments in October and November amounted to \$218,306 compared to \$3,096,712 in the corresponding months of 1936. Collections in the same months of 1935 aggregated only \$1,313,823.

MOST 1937 taxes will be paid between now and the February 1 deadline. Reports on these collections won't be received here until in February and March.

THE current state tax rate is only 49 cents on the \$100 valuation compared with 62 cents in 1935 and 1936.

FIRST SERMON PREACHED AT OLD MOBEETIE

DALHART, Jan. 13-The first Protestant sermon in the Pampa area was preached within a few miles of Pampa, at old Mobeetie, and the first Protestant sermon in Texas was preached by a Presbyterian, while Texas was still a foreign country, the Dalhart Texan relates in describing the series of services with which the Dalhart Presbyterian church has been observing its 35th anniversary. The church was formed January 11, 1903.

THE preacher of the first Protestant sermon in Texas, the Texan says, was Sumner Bacon, in 1828. Bacon was born in New England January 22, 1790, served in the United States army, was converted in a Cumberland Presbyterian revival at Fayetteville, Ark., in 1825.

BECAUSE he was unlettered, he was refused ordination. Twice he offered to go into Texas, a part of Mexico, as a missionary. Championed by Rev. Benjamin Chase, Natches, Miss., he was endorsed by the Tennessee presbytery and permitted to come to Texas as a colporteur, forerunner of the modern Sunday school missionary.

PRESBYTERIANS established church at Old Mobeetie in August 1884. The town was mostly saloons. But the pastor, Rev. C. W. Alexander, who had been the crack wrestler in Princeton Seminary, rolled up his sleeves and went to work. In two years he was trapped in a stage coach in a terrific flood along the Red River, died of pneumonia.

A Rev. Scott, widower with three children, succeeded him. But Old Mobeetie began to wane in favor of Presbyterian pastors in this, the New Mobeetie and May 31, 1898, a cyclone destroyed the church. It has never been rebuilt. The lots where once it stood are now in a cow pasture.

# PLAINVIEW CRUSHES BORGER 32-18 AS PAMPA PREPARES FOR BATTLE

## BULLDOGS TO BE STRONGEST FOES OF YEAR

There's no doubt about it now—the Harvester basketball team will face its strongest foes of the season when the tall, heavy and handy Plainview Bulldogs invade the local gym at 7:30 o'clock tomorrow night.

Coach Odus Mitchell last night saw the Plainview quintet crush the Borger lads 32 to 18. There's one thing certain, if Heiskell and his mates can whip the big boys from Plainview they certainly will be favored to pour it on Catfish Smith's charges.

Coach described the Plainview boys as big and fast and exceedingly handy with the ball. The forwards and center are at least six feet tall. The team features a zone defense which the Harvesters don't even like to touch, and they have a fast break. But Pampans were doubtful whether the Bulldogs will turn out to be any faster than Heiskell, Andis, and Dunaway, and close observers of the team were fairly confident that Plainview would not exactly rout the local cagers. They predict it will be a close game, and particularly interesting to watch.

**Game Saturday Night**

The Plainview lads will play here again Saturday night. Last night at Borger the South Plains boys grabbed the lead and held it until the end. They led the Borger lads at least 10 points all the way.

The Harvesters will make a dogged, determined fight to chalk up their 16th victory of the season. Plainview will have to be plenty good to run off and leave the speedy boys on the Harvester team, and they will have to be a great deal better than anything in this district to score at will against the Pampa defense.

As local fans are well aware, Andis and Heiskell are no slouches at hitting the basket with one handed shots from all angles.

**Cox Also Tall**

Norman Cox, Pampa center, will be depended upon to take the rebounds away from the tall boys on the Plainview team.

All these things considered, Plainview should enter the game the favorite, but when one analyzes the performances of the Harvesters in previous games, it is difficult to see how they can be snuffed out as the Borgans were.

Plainview will play at Borger again tonight.

Again excepting present company, meaning the Harvesters, figures lead one to believe that South Plains basketball is a shade above that of the North Plains this year—if Borger has not been overrated. It may be that Borger's strength has been greatly over-estimated, if that is true, Pampa should beat Plainview.

And Coach Mitchell reports that Plainview is scared of the Harvesters.

## Sport Sparks

**By Felix R. McKnight.**

DALLAS, Jan. 13 (AP)—Reports of a three-year contract for Jimmy Kitts, Rice Institute coach, plus a seven-year option on his services thereafter, are groundless. Kitts, himself, says positively he is signed to a one-year agreement, which is an old Rice custom.

Strapping Cecil Smith, one of the world's three 10-goal polo players, hopes to have a broken collarbone in such condition as to allow him to play in the Pacific coast tournaments during February and March. The Llano cowboy plans to sail in mid-April for England, to play on a team backed by Charles B. Wrightson, Houston sportsman.

From England, Smith and Wrightson will go to India for tournament play. He will be back in the East for the fall polo season on Long Island.

Spike that rumor about Hub McQuillan, Texas Aggie basketball and freshman football coach, going to the Pacific slope as physical education director of a large school.

Insiders say he will stay at Aggie and . . . Once desirous of becoming a major league ball player, Joel Hunt, the Aggie immortal, now winds up as head grid coach at Georgia. . . . Advent of night baseball probably is responsible for Hunt's being ranked as one of the nation's youngest major mentors. . . . He seems headed for a brilliant career in baseball until they switched on the lights. . . . He was only so-so after sundown.

For years Arkansas sought a spot on Fordham's schedule. . . . They finally got a booking—in 1941. . . . Little Freddie Taubey, former Texas leaguer who finished up the '33 season with Little Rock's Travelers, is now a lecturer, believe it or not. . . . Now property of the Baltimore Orioles, Taubey is spreading the gospel of baseball from Maryland platforms. . . . He will either play for the Orioles next season or become playing-manager for one of their farms in the Eastern Shore league. . . . Nomination for top football story of the year: KI Aldrich, popular Texas Christian center and all-America timber, was addressing freshmen gridders at the annual Horned Frog banquet. . . . He urged them to study hard and stay abreast of their classwork. . . . "Of course," said Aldrich, "I haven't did it,

## Venturi Stays On Floor Until He's Counted Out

By GAYLE TALBOT.

NEW YORK, Jan. 13 (AP)—Enrico Venturi, the Italian who folded like a dollar accordion against Henry Armstrong last evening, had enough worries on his mind today to occupy a dozen eople.

Enrico's share of the purse was held up pending an investigation of why he nestled against the canvas and permitted himself to be counted out toward the last of the sixth round when he obviously was able to remain on his pins.

Further, he was under a month's suspension in New York state because he had weighed in for the bout three pounds over the stipulated limit of 135 pounds. Things, in fact, looked very dark for Venturi's istic future.

His plight was matched only by the 12,000 fans who paid their way into the Garden to see him fight Armstrong, and who wound up watching the Italian give his own version of the dying swan. They, the customers, really took a lacing.

Venturi, after having tried vainly for five and a fraction rounds to stay clear of Armstrong's homicidal swings, suddenly notified Referee Arthur Donovan that he had been felled. Donovan looked appropriately blank, though some of the ringsiders had noted that Armstrong was digging in slightly below the belt.

When Dognovan declined to do anything about it, Venturi registered anger and slowly, like a circus elephant, got down on the floor and stretched out. Donovan got in touch with the timekeeper and counted ten. Venturi got to his feet, fast, and started arguing with the fervor of a backwoods debating society, but Donovan was busy tilting Armstrong's hand.

The knockout, such as it was, constituted the twenty-first in a row for Armstrong, who looked as mystified as anybody else when Venturi bowed out. The Italian had made himself a very good record in a year of fighting on this side, and a surprising amount of money had been bet on him. He was reputed to be tough, but he clearly didn't relish what the dusky destroyer put out.

Dr. William Walker examined Enrico carefully afterward and could find no trace of the punch that had laid the pugilist low.

## Returns Home Monday Night

**SAILOR OTIS CLINGMAN**

The familiar figure above is Pampa's own Otis Clingman who will return Monday night for his first time in more than two years. He will be on the semi-final of Promoter Cliff Chambers' wrestling card, meeting Jack Mandell in what should be a clean, lightning fast 30 minutes of grappling. Headlining the card will be a finish match between Prof. Tsutao Higami and Otto Von Ludwig, wearing Japanese Kimonos. The opening battle, at 8 o'clock sharp, will send Bill Venable, who made a real hit with Pampa fans on his first appearance here last Monday night, against Cyclone Mackey of Amarillo. Admission will be the same as usual, no advance, 65 cents rigside reserve, tax paid, and 40 cents general admission. Standing room is expected to be at a premium for the return of Clingman and the famous Japanese packed match.

## FIRST BASEMEN UNDER FIRE ON MAJOR LEAGUE ROSTERS

**By SID FEDER.**

NEW YORK, Jan. 13 (AP)—There seems to be a consistent move these days toward formation of a "let's-get-rid-of-our-first baseman" society.

Reports are drifting all over about this or that first sacker who's going to have a time hanging onto his job, or who is definitely slated for replacement.

Of course, such rumors don't include all the established hands. Take Lou Gehrig; they'd have to blast to get the Yankee iron man off the spot where he's been spending summer afternoons for 12 years.

But several others don't look as secure as an infield fly right now. You have it direct from the Chicago Cub big-wigs they're still going to try to make a first baseman out of Phil Cavarretta. They've announced Phil will be the lad for the job and Ripper Collins will have to fight for the berth. From the records it shouldn't be so tough for the Ripper.

At Washington, they say the club is sold on giving Joe Kuhel's work to Jim Waddell. Jim's the lad who batted .255 and fielded .955 in a 21-game tryout, last season, while Kuhel hit .283 in 136 games, and is regarded as one of the fastest in getting around.

The Boston Red Sox are thinking of shifting Jimmy Foyx back to the catching assignment—provided, always, they can find someone to take his place on the first. They made overtures to the White Sox for Zetke Bonura but it didn't go so well.

After spending most of 1937 watching Chubby Dean fall apart and Lou Finney fall at the first base job, Connie Mack appears to have a find for his Athletics in a youngster from the New York-Penn league, Buck Hasson. Hasson fielded a perfect 1,000 on 300 chances and hit for better than .300 in a 28-game trial last season.

The St. Louis Browns might give Buster Beau Bell, outfield belter, a trial to succeed Harry Davis. Otherwise, George McQuinn, up from Newark's "Wonder Team," might fit.

The Giants may wind up with Buddy Hassett of the Dodgers or Dolph Camilla of the Phillies. If the price is right, in which event neither Johnny McCarthy nor Sambo Leslie will be doing business at the same stand, come April. However, there's been little progress in dealings.

Incidentally, trades may change the status of such other first basemen as Gus Suh of the Pittsburgh Pirates (if Bill Benswanger was

## 10 More Boxers Enter Golden Gloves Meet

Ten new Pampa amateurs entered the Pampa Daily News Golden Gloves Boxing tournament yesterday afternoon and reported for workouts at the Pampa Athletic arena where the tournament will be staged. That laked the number of Pampa entries to 30 to date and there is still time for others to get in and train for the big event.

Entrants from other Panhandle towns and cities including McLean, Aianreed, Mobeetie, Wheeler, Shamrock, Miami Canadian, Borger, White Deer, Panhandle, LeFors, Amarillo and other places are expected to swell the list to near the 100 mark set by the tournament sponsors when the Golden Gloves was first announced.

Free training for all amateurs wishing to enter the tournament is available each evening between 5 and 7 o'clock at the Pampa Athletic arena or at hours when participants can better train. Cliff B. Chambers, tournament director, a former boxer and his assistants are in charge of workouts and they

will work with all boys desiring instructions.

Boys from out of town will be given free hotel accommodations and meals as long as they are in the tournament. Pairings will be announced in plenty of time to allow boys to reach here and rest before they battle.

Rural boys or amateurs from other Panhandle cities are urged by the committee in charge to get their entry blanks to the Golden Gloves Editor at the Pampa Daily News so that entry lists can be published.

Need of flyweights, 112 pounders, and heavyweights was noticed when the list was checked last night. Only one in each bracket had signed blanks. That means easy pickings for some good little and big fellows.

The winner in each division will be taken to the state Golden Gloves tournament at Fort Worth on Feb. 17 with all expenses paid. From Fort Worth, winners go to Chicago to the National meet.

The boys that have entered are: Flyweight, 112 pounds, Bill Ketter.

Bantamweight, 118 pounds, Bud McAfee, Leroy Reagan, Featherweight, 126 pounds, Edward Asher, Freeman Sullivan, John Kidwell, James Brown, James Foran, Lightweight, 135 pounds, Raymond Elkins, W. G. Hamlin, R. L. Fletcher, Jimmy Hamill, Marc Mitcher, Dwight Bobbitt, Welterweight, 147 pounds, Ray Norman, Bryan Hubbard, Allen Cumberland, Lewis Stark, T. J. Watt, LaFolia Watt, Middleweight, 160 pounds, Harry McMahan, Joe Hamlin, Orville Heiskell, Dale Wingham, Jud Rainey, Horace Simmons, Bob Gaiser, Light-heavyweight, 175 pounds, J. P. Mathews, Elvis Mathis, George J. Nix, Heavyweight, over 175 pounds, Jap Gillis.

The boys have been working out hard and long and are determined to make a good showing in the tournament. The judges are going to have to call some pretty close decisions as the boys will be in shape to step.
