Commissioner Perry Beefs Up Gas Pump Inspections,

As travelers prepare for their vacations, Agriculture Commissioner Rick Perry today announced a stepped-up effort to inspect the state's gasoline pumps -- a move he said will ensure consumers are getting "a full gallon of gas when they pay for a gallon of gas."

Perry also announced that the Texas Department of Agriculture is examining the feasibility of turning over the agency's gas pump inspection functions to the private sector. Privatization could produce cost-savings for the state and taxpayers, he said.

By law, registering and inspecting the calibration of the state's 131,000 gasoline pumps is performed by TDA.

"Last year, it cost TDA about \$310,000 to inspect 64,000 gas pumps," Perry said. "As we attain our goal of inspecting each pump in Texas the cost will rise to \$634,000. Therefore, next week we will propose a pilot project in the

major urban areas of the state to see if private entities can perform these inspections more efficiently and effectively."

Gas station owners pay an annual registration fee of \$6.25 per pump. However, in recent years, the pumps have not been inspected annually. That will change, Perry said.

"Gas station owners have been diligent in sending in their fees every year -- but in many cases, their pumps haven't been inspected that often," Perry said.

"That is a disservice not only to station owners who pay their fees but to consumers who rightfully expect pumps to be correctly calibrated so they know they're getting a full gallon of gas if they've apid for a gallon of gas."

Perry said TDA inspectors will now have as their goal checking all gas pumps in the state once a year. Last year, 64,000 pumps were inspected by TDA personnel with

Hess Wins The Gold

Competing in the UIL State Twirling Contest in Austin, June 4, 1991, Shayne twirled an amazing routine to win the Gold Medal. Twirlers from all over Texas, ranging from 5A to 1A schools participated in the Longhorn Stadium on the University of Texas Campus.

Coyote Band Director John Harris, Jackie Jade and John Paul Harris along with Pam and Kurt Hess accompanied Ms.

Hess on her trip to Austin.

Shayne's twirling instructors have included Stephanie Stephens and Lori Vogler Stephens. Shayne now studies independently and teaches twirling. She will be a senior this fall at Borden High School.

Shayne is the daughter of Steve and Pam Hess, the grand-daughter of Kathrine Stephens and the great-granddaughter of Marie Teeters.

Shayne Hess

Rios and Vestal To Play in Annual 6-Man All-Star Game

Jimmy Rios and Cole Vestal will be representing Borden High School in the Annual 6-Man Coaches Association Texas All Star Boys Football Game in Stephenville, Texas on Saturday, July 20th.

Jimmy and Cole, along with 30 other boys who were selected by the Texas 6-Man Association as all-star players from the State of Texas, will be on the campus of Tarleton State University from July 14 to

July 20, where they will be working out in preparation for the All-Star game. The game will be played in Tarleton State University's Wisdom Gym in Stephenville, Texas at 8 P.M. on Saturday, July 20.

Jimmy is the son of Mrs. Sylvia Rios, of Gail.

While in high school, Jimmy was selected as Most Athletic and as a first team All-District football

player. Jimmy also participated in basketball and track.

Cole, is the son of Tom Ed and Barbara Vestal, of Rt. 1, O'Donnell.

While in high school, Cole was an All-District Defensive End, and All-District Offensive end. Cole also participated in the Beta Club, he played golf, basketball and tennis.

JULY SCHOOL BOARD MEETING

The Board of Trustees of the Borden County Independent School District of Gail, Texas will meet in regular session on Monday, July 15, 1991 at 8:00 P.M. in the Board Room.

Tentative Agenda:

1. Call To Order.....
2. Community Input From Visitors Who Have Announced.....
3. Take Action To Approve June 17, 1991 Board Minutes.....
4. Discuss And Take Action To Approve July Bills.....
5. Discuss And Take Action To Select Bank Depository For Two Year Period Beginning September 1, 1991 And Ending August 31, 1993.....
6. Discuss And Take Action To Purchase And/Or Enter Contract With W.D. Wesley Company For Energy Management System As A Future Budget Reduction Measure.....
7. Discuss And Take Action To Adopt Policy Concerning Rental Of School Houses To Individuals Other Than School Personnel.....
8. Discuss And Take Action To Purchase Phone Equipment As A Future Budget Reduction Measure.....
9. Discuss 1991-92 School Budget.....
10. Superintendent's Report.....
11. Adjournment.....

STUDENTS OFFER SOLUTIONS TO FIGHT DRUG ABUSE

More drug education, better counseling for drug users and harsher penalties for dealers were three of the recommendations presented to Judge Reggie Walton, associate director, Office of National Drug Control Policy, Executive Office of the President during the 1991 RespecTeen National Youth Forum in Washington, DC this spring.

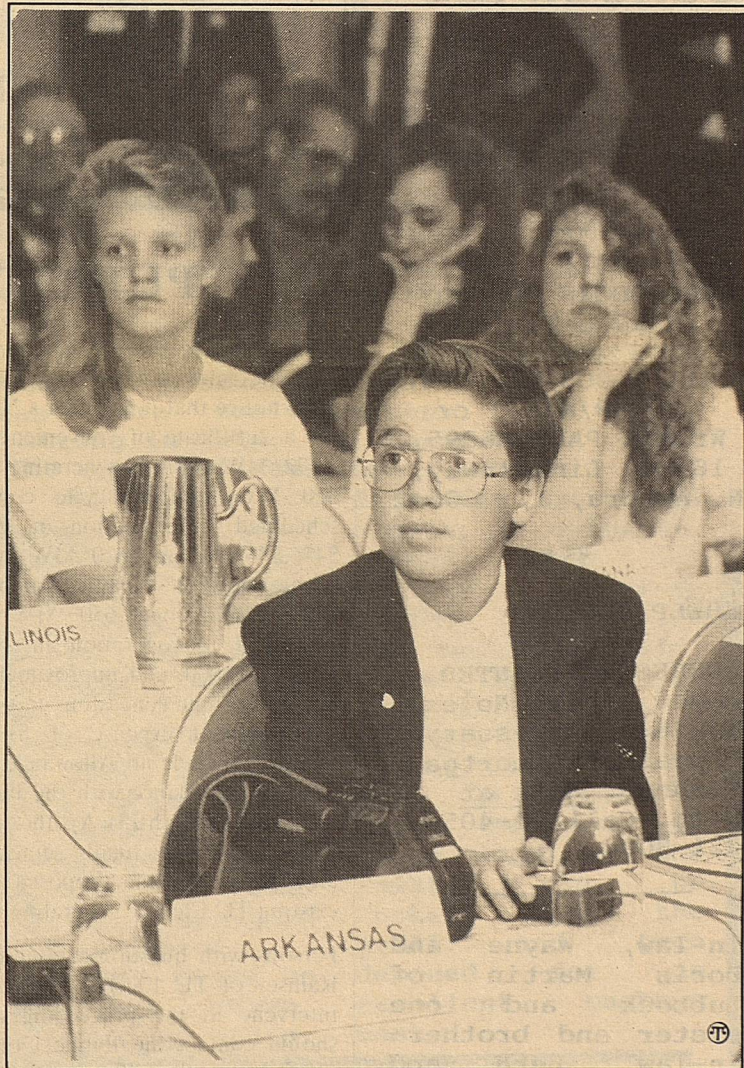

The suggestions for fighting drug abuse were part of a white paper developed during the forum by 51 students, one from each state and the District of Columbia. The specific recommendations were to:

- provide more drug education in schools and begin it at a much earlier age.
- provide more and better counseling to families and treatment for drug users at a lower cost.
- impose harsher penalties and longer jail terms for drug dealers.

The students presenting the paper to Judge Walton were Ruth Ellen Smalley of Missouri; Daniel Matz of Alaska; Amy Hamilton of Mississippi; Summer Craze of West Virginia; Aaron Alme of Montana and Marjani Jackson of Florida. All 51 students participated in a discussion of drug-related issues following the presentation.

"We speak on behalf of young people across the nation," said Jackson. "We are affected by the problem every day in our schools and in our neighborhoods, yet we rarely have the opportunity to be heard in the national debate over drug abuse. We ask that you carefully consider our recommendations and devote more resources to these vital programs to save our generation, and our nation from the destruction of drugs."

The RespecTeen National Youth Forum chose the 51 participants from among 8,000 nationwide who wrote letters to their U.S. representatives through the RespecTeen Speak For Yourself curriculum and contest. Drug and alcohol abuse was the most common issue addressed in those letters. The Youth Forum participants analyzed the suggestions of students participating in the contest and, using

Charles Givre, of Arizona (front) Erin McGuire, Indiana (second row, left) and Angela Gebhardt, Iowa, enter their opinions via computer for the position paper on fighting drug abuse which the students prepared at the RespecTeen National Youth Forum in Washington, D.C.

a computerized "rating system," determined which recommendations they wanted to present.

The RespecTeen National Youth Forum is part of a nationwide initiative called "RespecTeen: Helping Parents and Teens Respect Each Other and Themselves," and is sponsored by Lutheran Brotherhood, a fraternal benefit society with a mil-

lion members nationwide. The RespecTeen program includes two primary components: needs assessment research and programs to assess those needs at the community level; and at the national level, public service announcements, the National Youth Forum and the "Straight to Parents" public service advertisement competition.

Beer Commercials...

Next time you see a beer or wine commercial, remember these facts...facts you're not apt to find in the carefree, exciting, romantic world of commercials.

°Alcohol kills 100,000 each year - By the age of 18, a child will have seen 100,000 beer commercials.

°Alcohol use increases the chances of getting cancer in the digestive tract, liver and colon.

°Alcohol is the leading cause of death of those between the ages of 16 and 24.

°Drinking by expectant mothers can cause birth defects and is a major cause of mental retardation in children.

°The economic costs to society of alcoholism and alcohol abuse are estimated at nearly \$117 billion (Chemical People Newsletter, November/December 1990)

JUST A REMINDER!

BORDEN COUNTY

ISD EXES REUNION

August 9th & 10th, 1991

All Exes (students, teachers, employees and spouses) are invited.

Also we would encourage parents and friends to come by during this reunion to visit with exes.

SCHEDULE:

5:00 p.m. August 9th
Registration & Reception

10:00 a.m. August 10th
Registration Continues

Noon - Catered Meal

\$10 - Adults

\$5 - Children under 12

If you plan to have lunch please make reservations ahead of time by sending Cost to cover meal by July 20th or as soon as possible.

Afternoon
Meetings & Visiting
Tour of school & etc.

Please contact others and encourage them to attend. There are those who may have been overlooked because of addresses and otherwise. Please help us notify those who may have been left off our mailing list. We want everyone to come and join us for this reunion.

For more information call 806/756-4346 or 806/872-8326 or 915/573-0397 or write P.O. Box 312, Gail, Texas 79738.

Obituaries

Vance Davis
1906-1991

Vance Davis, 85, Big Spring died Friday, July 5, 1991, in a local nursing home.

Services were at 2:00 p.m. Monday at Nalley-Pickle and Welch Rosewood Chapel with the Rev. Bob Manning, pastor of Westbrook Baptist Church, officiating. Burial was held in Trinity Memorial Park under the direction of Nalley-Pickle and Welch Funeral Home.

He was born Feb. 4, 1906, in Cruz, Texas. He married Coralyn Resseguie Oct. 28, 1965, in Tucumcari, N.M. He was a member of Coahoma Baptist Church. He served as sheriff and deputy sheriff at Fort Sumner, N.M., for 12 years. He had worked for Frand Beaver as a ranch foreman for 12 years. He came to Big Spring in 1966. He was still breaking broncos at age 76.

Survivors include his wife, Coralyn Davis, Big Spring; one son, Norman Davis, Amarillo; two step sons, Eric Johnson, Luther, and Ted Johnson, Missouri; three stepdaughters; Coralyn Willeford, El Paso, Ann Clark, Dallas, and Wanda Simpson, Big Spring; one brother, Ralph Davis, Sterling City; 15 grandchildren; two great-grandchildren and several nieces and nephews. He was preceded in

death by his parents and one brother.

Pallbearers were Jimmy Taylor, Bill Neal, Toots Mansfield, Frank Beaver, Jess Slaughter and L.D. Smith. Honorary pallbearers were members of the Sheriff's Posse of Fort Sumner, N.M.

Eunice Yadon
1923-1991

Eunice M. Yadon, 67, of Water Valley died at 2:00 a.m. Tuesday, July 2, 1991, in St. John's Hospital.

Services were at 10:00 a.m. Thursday, July 4 at Water Valley United Methodist Church with the Rev. Bill Hodge, retired minister, and the Rev. Janice Petty, pastor officiating. Burial was in Water Valley Cemetery, directed by Johnson's Funeral Home.

Mrs. Yadon was born Sept. 12, 1923, in San Angelo. She married Russell T. Yadon in 1948 in Carlsbad, N.M. She was a teacher in the Borden County Independent School district for 22 years. She was a member of the Water Valley United Methodist Church.

Survivors include her husband, Russell T. Yadon; two sons and daughters-in-law, Dennis Dwayne and Donna Yadon and Ted Graham and Elizabeth Yadon, all of Alpine; two grandchildren, Shawn and Carry Yadon; one brother and sister-

PUBLIC NOTICE

Texas Utilities Electric Company ("TU Electric"), in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice that it has filed a Notice of Intent to file an application for a certificate of convenience and necessity for approximately 2,172 MW of new generating capacity to be comprised of: one 620 MW combined-cycle combustion turbine generating unit scheduled for operation in 1997, at an estimated expense of \$476,285,000; one 620 MW combined-cycle combustion turbine generating unit scheduled for operation in 1998, at an expense of \$429,917,000; one 650 MW pulverized coal generating unit scheduled for operation in 2000, at an estimated expense of \$1,327,503,000; and approximately 272 MW of simple-cycle combustion turbine generating units scheduled for operation in 2000, at an estimated expense of \$195,451,000. All of the estimated expenses include an Allowance For Funds Used During Construction. In accordance with the Public Utility Commission's Substantive Rule 23.31(h)(3)(A), the locations for these generating units have not been finally determined; however, it is presently anticipated that the proposed generating units will be located at existing TU Electric generating plant sites.

Persons with questions about these projects should contact Dick Ramsey of TU Electric at (214) 812-4069. Persons who wish to intervene in the proceeding or comment upon action sought, should contact the Public Utility Commission of Texas, at 7'90 Shoal Creek Blvd., Austin, Texas, 78757, or call the Public Utility Commission Public Information Office at (512) 458-0256, or (512) 458-0221 for the telecommunications device for the deaf. The deadline for intervention in the proceeding will be 60 days after the final publication of this notice.

A complete copy of the Notice of Intent is on file with the Public Utility Commission of Texas at the above address.

Drive safely. Don't wreck your life.

Borden County 4-H Invitational Playday

The Borden County 4-H Horse Project members will sponsor a Playday on Tuesday July 16, 1991 beginning at 7:00 p.m. at the County Arena in Gail.

This activity serves as a means to assist in raising funds to help sponsor awards at our County Horse Show to be held later this month.

We hope you will

plan to come out and watch these 4-Her's ride and join us for supper as a consession stand will be available that night also.

Your support would be greatly appreciated.

If you are interested in competing please call 806/756-4336, Borden County Extension Office

for more information.

TEXAS FOOD MARKETWATCH:

July Produce Offers Best Variety, Value

July produce will offer Texas consumers the best variety and value of the season, with lower prices as greater supplies hit the market.

Larger amounts of new-crop plums, apricots and grapes will be available at supermarkets, translating into savings for food shoppers.

Produce popular in June will offer greater variety, larger supplies and have the lowest prices of the season this month. Included will be blueberries, cantalopes, honeydew melons, watermelons, peaches, cherries, mangos, green beans, yellow

squash and tomatoes. The weather has provided the best possible growing conditions for fruits and vegetables, and all major producing areas are coming on strong in July.

The only bad news is the price of bananas. Lower production and elevated demand will keep prices high on this fruit for some time to come.

With vacations at hand and children eating more snacks and meals at home, supermarkets will discount some products designed for this market.

Look for sales on traditional pizza, hot dogs and chips,

including hot dogs of chicken and turkey and new chip flavors.

Because of heavy promotions, sales of ice cream novelties peak in July. Coupons blitz and wider selections ranging from pure frozen fruit juices on a stick to frozen pudding products will offer consumers greater savings.

Frozen and microwaveable meals for kids of all ages will be promoted heavily. These meals can be capped with a frozen yogurt dessert that will be on sale each week of July.

Summer eating patterns also will be reflected in supermarket meat departments, with emphasis on cuts that can be cooked out doors or prepared indoors. Fewer promotions will be seen on seafood since many consumers associate it with meals for cooler months.

Consumers will see July beef discounts on round steaks, sirloins, ground beef and rib-eye steaks similar in price to the specials advertised during the last two months.

Pork ribs, chops and shoulder roasts will be lower in July because of large supplies. The roasts can be cooked over the grill and then deboned for an excellent barbeue meat.

Bacon will be on sale for a dollar or less per pound. Sales are prompted by the low demand for bacon in summer.

Poultry prices in July will continue at the relatively low levels of recent weeks.

More emphasis will be on premium boneless cuts. Boneless breasts at \$2 to \$2.19, leg quarters at .39¢ and whole birds at .45¢ a pound remain among the best buys.

Seafood advertisements will focus on products eaten cold or items used in salads.

Shrimp, crab meat and crab legs fit the cold salad category. But grilled fresh fish, including trout, catfish, shark, ocean perch and flounder, also will be on sale.

Deep discounts on canned and frozen vegetables will be used to clear out current supplies, since the summer canning and freezing season is at its peak.

Orange juice, normally viewed as

a cold weather item, has continued the battle over the market share of the fresh vs. frozen product into the heat of the summer.

Lower prices caused by this scuffle should continue through July.

The summer heat also will encourage many consumers to buy baked desserts instead of preparing them at home.

Pies, cakes and assortments of cookies will be featured in the bakeries, and delis will offer cold salads as a solution to working in a hot kitchen.

Seasonal merchandise discounted in July will include charcole, ice chests, lawn chairs, insecticides, first aid items, sun protection and skin care products.

Even bigger discounts will be seen on lawn mowers, water hoses and lawn sprinklers. Although summer has just arrived, to merchants the season is about over these products must be sold. It's a good time to save.

Make Sure Your Home's In Order Before Going On Vacation

Before you leave for an extended vacation, there are a number of things you can do to secure your home and save energy.

The following tips are recommended before going on vacation:

°Unplug small electrical appliances, computers, televisions and microwaves. Pulling the plug prevents fires and short-circuits that can result from electrical surges during lightning storms.

°Turn off the electric hot water heater to save energy and electricity. Most gas water heaters have a "vacation" setting, so you don't have to turn them off. This saves having to relight the pilot.

°If possible, use timers on lamps so that lights come on periodically. Manual timers are inexpensive; electronic ones cost a little more.

°Raise the thermostat on air conditioner units to about 85 degrees. This keeps the refrigerator and freezer from overworking, keeps plants from dying, yet also saves energy.

°Take food items that may spoil out of the refrigerator; clean it out and defrost if necessary.

°Leave names and phone numbers of trusted repair firms--plumbing, electrical and others -- with the person who will be checking your home

and watering the plants.

°Set off bug bombs, if needed, before you leave.

°Check exterior security lights. If you have motion detectors, pass your hand in front of the lights or walk by them to make sure the switch is on.

°Put your mail on hold and pay all bills that may be due before you return home. Utility companies normally have you estimate an amount on the high side and credit the difference to the following month's bill. When paying bills this way, be sure to write the month on your check that the payment is for.

°Cancel your newspaper during the days you will be gone or have a neighbor pick it up. However, make sure that the neighbor does not stack papers at the back door or inside the house piled up with the mail in plain view through a window.

°Make sure that your yard is maintained -- have someone cut the grass regularly, and if you have a swimming pool, arrange care for equipment and other necessary maintenance.

°Arrange to have pets boarded at a kennel or make arrangements for someone to care for them.

°Hide valuables such as guns and jewelry or place with someone else if possible.

°Inventory your personal belongings such as jewelry, china, art work, television and video and stereo equipment in advance in case of theft. This includes writing down brands, serial and model numbers, and taking

pictures.

°Allow enough time to secure all windows, sliding glass doors and other doors.

It's also a good idea to leave information

where you can be reached with neighbors and police, and let them know the dates you will be gone. And don't broadcast to everyone that you will be going on vacation.

Tell them about it after you return.

COTTON NEWS

FROM PLAINS COTTON GROWERS, INC.

LUBBOCK, Friday, July 5, 1991

According to figures compiled by Lubbock-based Plains Cotton Growers, Inc. (PCG) area growers will need to make good management decisions in order to maximize an already late 1991 crop's potential.

"The lateness of this years crop will limit the ability of a producer to bring cotton out of any stressful situations that might develop during this years short growing season," notes Donald Johnson, PCG Executive Vice President. "What it boils down to is that producers are going to have to make timely decisions this year and closely monitor the crop for any signs of stress that could further reduce their yield potential."

Overcoming dry conditions at the outset of the 1991 growing season has turned out to be only the first hurdle that this years crop is going to face.

The majority of area cotton producers were able to establish a crop, albeit late in some areas, and getting that late crop to produce good yields is going to be the biggest challenge many producers will face this year.

The expected increase in the number of acres planted on the High Plains did materialize even though planting continued up until the very end of June in some areas.

Based on recently released figures from the United States Department of Agriculture (USDA) the Texas crop should come in with a greater number of harvested acres than in 1990. Whether or not more cotton is produced is going to depend on the crop receiving good weather for the remainder of the growing season and timely rains.

High Plains producers increased their cotton planting to slightly over 3.62 million acra in 1991, 13 percent over 1990's 3.2 million planted acreage figure.

Using a breakdown provided by the Texas Agricultural Statistics Service (TASS) it was possible to estimate how much of the 6.5 million cotton acres attributed to Texas in USDA's 1991 preliminary planted acreage report were found on the High Plains.

The 3.62 million acre estimate was derived using the planted acreage totals for districts 1-N and 1-S, which include 21 out of the 25 counties around Lubbock.

Figuring in a 10-year historical abandonment average of about 15 percent leaves 3.07 million High Plains acres available for harvest in 1991. this would allow 1991 production to come close to 1990's 2.9 million bale total.

Applying the High Plains five-year yield average of 447.5 pounds per acre projects a 1991 crop somewhere between 2.8 and 2.9 million bales.

Taking into account the late planting, which occurred over much of the High Plains, yields are expected to be lower than 1990's 510-pound per acre average.

In the end however, it appears that

while the High Plains did see an increase in its cotton acreage of about 400,000 acres in 1991, there will probably not be any notable production increase in 1991.

News Glance

■ Eight animals auctioned during the 1991 Houston Livestock Show, including a breed champion steer sold for \$37,000, have been disqualified because tests showed they had been given drugs, says the Fort Worth Star-Telegram. Show officials say they hope some of the young exhibitors learned a lesson when their prize-winning animals were disqualified. Disqualification means no prize money and the return of auction proceeds to buyers.

In America there are two classes of travel—first class, and with children.

about 4.5 percent of those showing inaccurate measurements.

"The state must be much more determined in doing it's job -- and now it will," Perry said.

Perry made his announcement at a Texaco station at 1900 Guadalupe in Austin and at a Diamond Shamrock station at 333 San Pedro in San Antonio. During news conferences at both stations -- which were inspected by TDA last week -- Perry placed new TDA inspection stickers on the stations' pumps.

"These new blue stickers will be appearing on gas pumps across Texas," Perry said. "Unlike the stickers used previously, each

sticker shows the month and date of the last inspection, which will aid consumers who suspect a problem with a gas pump.

Notice is hereby given that original Letters Testamentary upon the Estate of W. L. WILSON, JR., Deceased, were issued to me, the undersigned on the 17th day of June, 1991 in the proceeding initiated below by signature hereto which is still pending, and I now hold such Letters. All persons having claims against said Estate, which is being administered as an Independent Administration, are hereby requested to present same to me respectively, at the address below given, before suit upon same is barred by the General Statutes of Limitations, and before such Estate is closed and within the time prescribed by law. My office and business address is as follows, to-wit:

PAMELA WILSON GASS
1501 East Third Street
Big Spring, Texas 79720
