WITHOUT STRAIN Professional athletes have learned that for soothing relief from aching muscles, bones and joints, a hot tub

or spa may provide one of the most

effective answers.

NT. TOMEVA FILTRED AT

These devices apparently work their magic by utilizing warm water, gentle massaging or both to soothe and relax. They also make it possible for one to exercise without much effort. A person weighs 90 percent less when immersed to the neck in water, so movement is easier and puts less strain on muscles and joints.

Hot tubs and spas, as a result, are in increasing use by athletes for slow stretching and flexing exercise to aid injury recovery and "charlie horse," as well as to build flexibility and strength.

"A SHINING EXAMPLE"

The Borden County School and Community experienced a traumatic shock at the loss of Brandon Adcock as the result of a tragic accident that took place during the early morning hours of November 9, 1991. Brandon Adcock was the type of young man that dignified parent, relative, pastor, school administrator, coach, teacher, student, or friend as a result of his presence in our midst during his 16 years of life on earth.

Brandon Adcock was the type of young man that was respected and served as a role model for young people as well as adults. His endeavors were commendable in nearly every instance. In fact, Brandon Adcock could easily be the epitome of "the All-American Boy".

We can all consider ourselves fortunate to have known or been a part of Brandon Adcock's life. His Christian values, moral attitude, charisma, dedication, and outgoing personality were all traits that touted Brandon's prowess as a fine young man.

The first thought to enter my mind was why or how something of this nature could happen to such an outstanding young person and family. Immediately thereafter, my heart was pierced with the thought that our Lord is not only deserving of the best that we have, but he is most capable of using a tragedy of this nature to make our world a better place to live.

Brandon Adcock was full of life. It is important that we keep this thought in mind as we mourn and attempt to understand this loss. There is no doubt that we are all better for having had the opportunity to see the impact that God can have on a school, a community, or several communities as a result of a tragic loss of this nature. Brandon Adcock's example of living life to its fullest within the boundaries of commitment to Christian beliefs, morality, and dedication to excellence should serve as a shining light to all of us as we live our lives with the same vigor for which Brandon was so well known.

My heart breaks as I try to fathom the pain of the grief that the Adcock family has experienced as a result of the loss of a precious child. Nevertheless, the tremendous impact of this tragic situation has been channelled positively to honor Brandon, to allow another child access to further his/her education, and to ultimately make our world a better place to live. The life, death, and memory of Brandon Adcock have and will continue to be a shining example to all of us.

Jimmy Thomas

PARENTS CLUB MEETING

The next Parents Club meeting will be held December 12th at 2:30. Plans for the upcoming Ladies Luncheon will be the main topic of discussion. THE BORDEN STAR, WED.NOV.13, 1991...3

GASOLINE/DIESEL QUOTATION REQUEST

The Superintendent's Office, on behalf of the Board of Trustees of the Borden County Independent School District, will receive bids on gasoline and diesel as described in the following paragraphs, on November 15, 1991.

Proposals shall be addressed to Jimmy Thomas, Superintendent, Borden County Independent School District, Box 95, Gail, Texas, and shall be delivered in a sealed envelope marked "Gasoline/Diesel Proposal". Proposals will be received up to but not later than 2:00 P.M. on November 15, 1991. Bid proposals will be opened and read aloud in the Board Room at that time. Bid proposals will be tabulated and presented to the Board of Trustees for their consideration on November 18, 1991 in the Borden County Independent School District Board Room at a regular Board Meeting which will begin at 8:00 P.M. Bids received after that time will not be considered.

All proposals shall be made on the form that will be provided by the Borden County I.S.D. as requested by respective vendors. No bid will be considered unless this form is used.

The right is reserved by the Borden County Independent School District to accept or reject any or all bids and to waiver all formalities.

It is anticipated that approximately 55,000 gallons of unleaded gasoline and 6,000 gallons of diesel fuel will be used during the contract period. All prices quoted are to be for unleaded gasoline and diesel fuel. In addition, respective vendors will be required to deliver gasoline and diesel to the Borden County School in Gail, Texas; supply all equipment; supply all tanks; and supply all pumps with gauges.

This contract will begin on December 1, 1991 and terminate on November 30, 1992.

Questions regarding bid specifications shall be directed to Jimmy Thomas, Superintendent, Borden County Independent School District at P.O. Box 95, Gail, Texas 79738 or by calling 806-756-4313.

FOOD SERVICE QUOTATION REQUEST

The Superintendent's Office, on behalf of the Board of Trustees of the Borden County Independent School District, will receive bids for food service commodities and supplies as follows:

Sealed bid proposals will be received by the District for Meat, Vegetables, Fruits, Condiments, Miscellaneous Food Items and Non-Food Disposable Products.

Bid proposals will be received in the office of the Superintendent until 2:00 P.M. on November 15, 1991. Bid proposals will be opened and read aloud in the Board Room at that time. Bid proposals will be tabulated and presented to the Board of Trustees for their consideration on November 18, 1991 in the Borden County Independent School District Board Room at a regular Board Meeting which will begin at 8:00 P.M. Proposals shall be addressed to Jimmy Thomas, Superintendent, Borden County Independent School District, Box 95, Gail, Texas, and shall be delivered in a sealed envelope marked "Food Service Quotation".

The Borden County I.S.D. Board of Trustees reserves the right to accept or reject any or all proposed bids, to waive any and all technicalities, and to accept the proposal which will best serve the needs of the District. Bid pricing proposed must be valid for a period of thirty days following submission to the Board of Trustees, and the conditions of the bid will include the option to select items on a per-item basis. Bids may be quoted on one, several, or all items. All products shall be priced F.O.B. the Borden County I.S.D. cafeteria in Gail, Texas. The term of this contract will be from November 25, 1991 to May 19, 1992.

Questions regarding bid specifications shall be directed to Jimmy Thomas, Superintendent, Borden County Independent School District at P.O. Box 95, Gail, Texas 79738 or by calling 806-756-4313.

'TOP TEACHER'

cont. from pg. 1

Hancock students. spends mornings in her classroom and afternoons at Kansas State Univerity, where she is a clinical instructor in the College of Education.

Three special teachan impact on ers had her life and she hopes students of her some will one day remember as a teacher who her a difference in made That hope, she theirs. said, keeps her searching for ways to establish rapport with students.

"...this requires time beyond the regular school day," Hancock said, "helping a student with homework because of no help received at home, taking a student special home after a program, visiting a student's home so he can show off the garden he planted and is so proud of

"The sparkle I see in child's eyes...when he/she is up to bat and sees his teacher sitting in the stands makes the tasks I needed to that accomplish day seem insignificant, "she said.

And the tasks are Hancock learned many. use her school's to computer network, then trained the rest of the staff. "Her ability to motivate teachers helped even the most illiterate computer overcome their fear of technology," Darcy Rourk, a former Woodrow Wilson principal, recalled

tremendous "Another area of impact has been activity-based math and science," Rourk said. "A visit to her classroom is a whirlwind of handson activity, meaningful discussion and continual

Her current principal praises Hancock's continuing efforts in math, science and technology; her academic commitment, classroom style and sense of humor; her ability to teach her colleagues and university students, as well as the 10-year-olds with whom she spends most of her time.

Wright wants very much to see Hancock named Kansas Teacher of Year. "I have the never known finer a teacher." she said. "She richly deserves the honor."

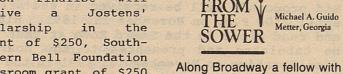

Melisa Hancock was one of five exemplary Kansas teachers honored at the State Capitol. In addition to Governor Finney, Kansas State Board of Education member Wanda Morrison and Kansas Commissioner of Education Lee Droegemueller participated in the recognition ceremony. The teachers attended a reception hosted by the Past Kansas Teachers of the Year Association and a luncheon hosted by the Kansas State Board of Education.

The Teacher of the Year program, which has both state and national competition, is sponsored by the Council of Chief State School Officers in partnership with Encyclopaedia Britannica, Inc.

Each finalist will receive а Jostens' scholarship in amount of \$250, Southwestern Bell Foundation classroom grant of \$250 and an engraved plaque.

SEEDS

FROM

SOWER

1992 COTTON ACR (setaside) 10%

The Secretary of Agriculture has announced a 10% ARP for upland cotton in 1992.

OTHER 1992 PROGRAM PROVISIONS

There will be a 5% ARP for barley, corn sorghum and wheat. No acreage reduction will be required for oats.

1992 SIGNUP

EN L

1992 acreage reduction program signup for feed grains, wheat and cotton will be February 10, 1992 through april 17, 1992.

These dates could be delayed depending on when congressional action is completed on pending technical corrections to existing agricultural laws.

Details of the 1992 farm programs will be anounced later.

FAILED ACRES

If you have crop acreages that won't be harvested, you need to come into the local ASCS Office and file the necessary forms prior to destroying the affected acres. If you have failed acres appraised, ASCS will need a copy of the insurance company's appraisal sheet. Not advising ASCS of failed acres prior to disposition of the same will result in loss of program benefits.

LOAN DEFICIENCY PAYMENT

Currently the Average World Market Price (AWP) for upland cotton is less than the National Loan Level. Eligible cotton on which a producer is willing to forgo loan would be eligible for a Loan Deficiency Payment (LDP) at this time. Note, the AWP is established weekly and effective from start of business Friday through close of business the following Thursday.

So, if you have eligible cotton not intended for loan, you may wont to present that cotton for LDP. To receive an LDP you must bring in applicable warehouse receipts and class cards. Note all or any portion of the production from an eligible farm may be presented for LDP. Please call our office prior to bringing in your warehouse receipts and class cards, because the AWP is a varible. The LDP will be based on AWP at the time a producer presents applicable warehouse receipts and signs an application for LDP.

If you have any questions concerning the LDP, please give us a call at 806/756-4301.

ELIGIBLE LAND FOR ACR AND CU FOR PAY

As of right now the waiver for using windstrips less than 33 feet wide for ACR/CU for pay will not be in effect for 1992. The following is an outline of ACR/CU for pay requirements that would be applicable for the 1992 year.

- A. Minimum Size and Width Requirements
 - Land designated for ACR or CU for pay must meet the minimum size and width requirements of 5.0 acres in size and be at least a chain (66 feet) wide,
- B. Exceptions to Minimum Size and Width Reguirements are:
 - 1. 1 area per farm may be reported as ACR that is less than the minimum size and width requirements to complete the balance of the required ACR.

2. 1 area per farm may be reported as CU for payment that is less than the minimum THE BORDEN STAR, WED. NOV. 13, 1991...5

size and width requirements to complete the balance of required CU for payment. 3. Entire permanent fields may be designated for ACR and CU for pay that are less than 5.0 acres.

4. skips in an established skip row pattern if the skip is at least the larger of 4 normal rows or 150 inches from plant to plant.

5. contiguous and noncontiguous strips, including end rows, that are at less than 33 feet wide and are required by a conservation plan.

- 6. contiguous and noncontiguous strips, including end rows, that are planted to a perennial cover and are at least 33 feet wide.
- C. Home Garden Plots
- Home garden plots to be designated as ACR/CU may not exceed 2.0 acres in size,

American Women Need

More Iron Women have special needs for iron, yet the average American woman consumes only 60 percent of the Recommended Dietary Allowance (RDA) for iron. In fact, some people have special iron needs and often don't know it, says Mary Helen Gunkler, registered dietitian and staff nutritionist for Total cereal.

Recommended Dietary

Recommended Dietai	y
Allowance for Iron	
(mg = milligrams)	
Infants 0 to 6 months	6 m
Children 6 months to 10 years	10 m
Adolescent males 11 to 18	12 m
Females 11 to 50	15 m
Adult males 19 and up	10 m
Adult females 51 and up	10 m
Pregnant women	30 m
Lactating mothers	15 m
	10 A . P

As women enter adolescence, their need for iron begins to outpace men's. Iron needs are even greater for pregnant and lactating women.

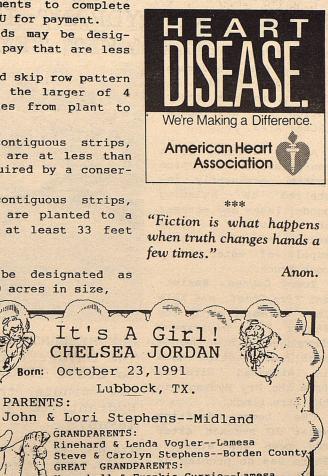

Zealous female athletes are particularly susceptible to sports anemia, which tends to appear during the early stages of training. So, it is especially important for them to consume plenty of ironrich foods.

Older adults also should make efforts to assure adequate iron intake. Because metabolism slows with age, calorie needs decrease, yet the need for iron continues.

In the case of an injury, there may be blood loss. And the body may need iron to replenish the lost blood. Iron is available in a wide variety of foods: meat, eggs, vegetables and cereals, such as Whole Grain Total cereal and other fortified cereal products. Foods rich in ascorbic acid (vitamin C) help improve the body's use of iron in foods.

As with all nutrients, the best way to get adequate iron is with a varied, balanced diet, concludes Gunkler. A physician can help determine if

iron supplements are needed. Security State Bank **Big Spring, Texas** 1417 Gregg Member F.D.I.C.

6...THE BORDEN STAR, WED.NOV.13, 1991 FIRST DRY HYDRANT INSTALLED IN WEST TEXAS

cont. from pg. 1

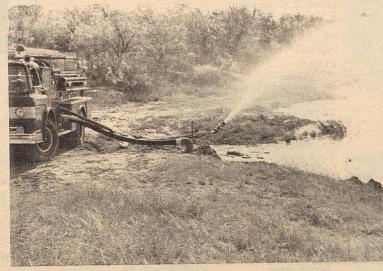

to Charlie Henderson, President of the Big Country Resource Conservation and Development (RC&D) Area, Inc.

A Dry Hydrant is a non-pressurized pipe system permanently inin existing stalled ponds, lakes and streams that provides a ready means of a suction supply of water to a tank truck.

Tommy Guynes, Assistant Fire Chief, and Kyle Cox, Fireman, with the Snyder Fire Department demonstrated how the $4\frac{1}{2}$ inch hard suction hose is attached directly from the Dry Hydrant to the fire truck.

began drafting "We water 30 seconds after the pump was started. There was no problem in maintaining water to 4 lines. We were drafting up to 1000 gallons of water a minute. Since I have been a Fireman, I have never drafted so much water, so fast and so easily," stated Cox.

The Fluvanna and Gail Volunteer Fire Departments were on hand with their fire trucks. While two lines were

DRY HYDRANT DEMONSTRATION

The Snyder Fire Department was able to draft 1000 gallons of pond water per minute through the first Dry Hydrant to be installed in West Texas.

attached to a deluge nozzle, the other two lines were being used to fill their trucks.

"KenMar Industries of North Carolina, manufacture of the Dry Hydrant assemble, donated this unit to be used as a demonstration project," stated Borden County Judge Van York. "The Borden County

court Commissioners installed the unit and the additional 6 inch PVC pipe required to complete the installation was donated by the Upper Colorado Soil and Water Conservation District," said Van York.

"The use of Dry Hydrants will allow natural unprocessed water sources to be used for fire protection. This will allow small towns to better utilize their limited drinking

NOTICE OF RATE CHANGE REQUEST AND STATEMENT OF INTENT

Notice is hereby given that MIDWEST ELECTRIC COOPERATIVE, INC. (the "Utility") intends to change rates for electric utility service effective November 27, 1991, or as soon thereafter as may be permitted by law. The Utility has not had a general rate increase since 1986. Based upon a test year ending December 31, 1990, the increase requested over actual test year revenues is \$1,518,446 or 15.75%. Of this amount, \$482,193, or approximately 5%, is attributable to an increase in the cost of wholesale power purchased by the Utility from Texas Utilities Electric Company which the Utility already has authority to charge to its customers. The increase requested over test year revenues adjusted for annualization of this test year wholesale power increase is \$1,036,253 or 10.3%. The changes are applicable to all areas, all customer classes, and all customers served by the Utility.

Implementation of the proposed changes is subject to approval by the appropriate regulatory authority. A statement of intent including the proposed revisions of tariff and schedules and a statement specifying in detail each proposed change is available at the general office of the Utility located at U. S. Highway 180 West, P. O. Box 518, Roby, Texas 79543.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

water. Location of Dry Hydrants to rural areas will reduce the turn around time required to refill tank trucks and save on energy costs," states Henderson. The

The Dry Hydrant units can be ordered through the Big Country RC&D For additional Area. information, Jimmy Apel, Coordinator for the Big Country RC&D Area at (915)235-4300.

South American Indians were growing peanuts at least 1,000 years ago.

PROPANE QUOTATION REQUEST

The Superintendent's Office, on behalf of the Board of Trustees of the Borden County Independent School District, will receive bids on propane as described in the following paragraphs on November 15, 1991.

The proposal shall be addressed to Jimmy Thomas, Superintendent, Borden County Independent School District, Box 95, Gail, Texas and shall be delivered in a sealed envelope marked "Propane Proposal". Proposals will be received up to but not later than 2:00 P.M. on November 15, 1991. Bid proposals will be opened and read aloud in the Board Room at that time. Bid proposals will be tabulated and presented to the Board of Trustees for their consideration on November 18, 1991 in the Borden County Independent School District Board room at a regular Board Meeting which will begin at 8:00 P.M. Bids received after that time will not be considered.

All proposals shall be submitted on the form that will be provided by the Borden County Independent School District as requested by respective vendors. No bid will be considered unless this form is used.

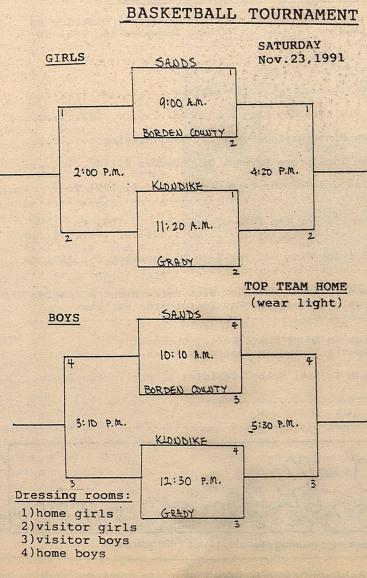

The right is reserved by the Borden County Independent School District to accept or reject any or all bids and waiver all formalities.

It is anticipated that approximately 55,000 gallons of propane gas will be used during the contract period. All prices quoted are to be for propane fuel. In addition, respective vendors will be required to deliver propane to the Borden County School, the Plains Community Center, and to the teacherages of the Borden County Independent School District. All tanks are owned by the Borden County School.

The contract will begin on December 1, 1991 and terminate on November 30, 1992

Questions regarding bid specifications shall be directed to Jimmy Thomas, Superintendent, Borden County Independent School District at P.O. Box 95, Gail, Texas 79738 or by calling 806-756-4313.

Thank You

The Parents Club would like to thank Edward and Terri Smith for taking care of the Bingo. Your help was needed and we could not have done it without you. Thanks also to all that donated prizes and helped with the bingo.

The Parents Club

OF EDUCATION

A free booklet can help students find the college that fits them best.

The six-page pamphlet, titled "Do the Right Things!," offers the col-lege-bound 21 tips that take an insider's approach offering practical suggestions on selecting and successfully applying to a college that best suits a student's personal and academic interests.

According to John Hopkins, director of admission for top-rated Grinnell College, "Our goal is to demystify the college admission process for prospective students and their parents. There isn't just one 'right' school out there waiting for you to find it. You have to choose the one that meets the goals that are most important to you and feels as if it fits you best."
