Good Evening!

It is as easy to deceive one's self without perceiving it, as it is difficult to deceive others without their finding it out.

Campbell Given 2 Years In Pen

A two-year penitentiary sentence was assessed F. A. (Speck) Campbell, convicted of forgery and passing a forged instrument, in writing, in 31st district court Wednesday afternoon. The verdict was returned by the jury at 4 o'clock.

DICTATOR ILL

KEMAL ATATURK
ISTANBUL, Oct. 20 (AP)—The full council of Turkish ministers met today to fulfill constitutional provisions for an interim presidency in the face of President Kemal Ataturk's grave illness. The purpose of the meeting, held in Dolmabahce Palace, where the dictator lay at the point of death, was announced as "deciding constitutional steps dictated by the continuation and gravity" of Ataturk's condition. The steel-willed dictator rallied, however, as the council met.

Unemployment Reduced Million Since Last June

WASHINGTON, Oct. 20 (AP)—A leading government economist estimated today that business improvement since June has reduced unemployment by 1,000,000 men and women.

The economist, whose figures are relied on by several agencies, figured there were 10,250,000 persons out of work in June and about 9,250,000 now.

On that basis, about one-fourth of the persons who lost jobs in the recession have been re-employed. After reaching a peak of more than 14,000,000 in the spring of 1933, federal statistics show unemployment dwindled to 6,000,000 in the summer of 1937.

Then, the recession boosted unemployment about 4,400,000 to a peak of 10,400,000. Seasonal work cut the total in June.

While unemployment has been shrinking, WPA payrolls have been rising. The lists went up from 2,808,000 to about 3,120,000—a record—the beginning of October.

An indication, however, that the administration was looking to early WPA decreases was seen in a statement of Secretary Roper yesterday. Roper, commenting on the General Motors recall of 35,000 workers and on other re-employment, said:

"It not only opens up the opportunity for self-reliance through private employment, but lessens the relief responsibility of the federal government and opens the way to improvement in the budget situation."

Kingsmill Woman Finds Stolen Car

Mrs. R. A. Wilson of Kingsmill reported to city police this morning that she had found her car which was stolen from where it was parked on Cuyler street Monday evening.

The car, Mrs. Wilson said, was parked on West Brown street near Bond Runner Park. The battery was dead and the car had little gas left in the tank. She was unable to determine how far it had been driven. The car had apparently been abandoned some time during the night, officers said. It was not at the spot yesterday afternoon.

Varied Fare For Sailors

WASHINGTON, Oct. 20 (AP)—A treasury guard en route today to England sent back this news from mid-Atlantic:

"Our ship made a rescue at sea of five American sailors and a cat. All they had to eat and drink for three days was a case of whisky and salmon."

I Heard ---

Wants all the left-handed bowlers in this section to get in touch with him immediately... that Fire Chief Ben White has become a sour dough biscuit maker but that John Andrews has been belittling his efforts... the city hall staff coughing and sniffing as gas from the newly lighted heating system poured through the building.

tried in district court six days later, but the jury was "hung" 10 and 2 when it reported.

Propaganda System Must Be Broken, Says Vernon Editor Here

The grip of nationalism and a system of propaganda that makes it easy for the people of all nations to believe that other people are not as good, not as patriotic and not as Christian as they, must be broken if the Christian program is to survive.

That's what Ray Nichols, editor of the Vernon (Tex.) Daily Record, told members and guests of the Men's Brotherhood class of the Methodist church at a banquet held in the church basement Wednesday night.

Mr. Nichols was introduced by the Rev. W. M. Pearce, pastor, as the principal speaker on a program presided over by Roy Bourland, class president.

"I am certain," said Mr. Nichols, "that the Church today faces a more brilliant, more subtle and better directed opposition than ever before."

Aims of Church
Looking at the Church from the outside, the speaker stated, there appear to be three important missions it has to perform: first, to develop Christian character; second, to develop and cultivate a Christian social order, and third, to develop the responsibility of creating a Christian political system throughout the world.

The first of these, said Mr. Nichols, can be attained through training and education; the second can be attained by the Church having one gospel for all mankind, and the third can be made possible only through a vigorous and militant movement.

Dealing primarily with the last of the three missions he outlined for the Church, Mr. Nichols said: "The Christian church must interest itself in what goes around the world. Never before in the world has there been so much confusion, never such a low international morale."

"Many of the so-called Christian nations today are less Christian than the so-called pagan nations. We have returned to the place in the road where there are but a few of the democracies left."

Isolation Gone
"Everywhere the ugly head of dictatorship rears over the world. Less and less."

Fair Tryout For Farm Act Urged By Marvin Jones

AMARILLO, Oct. 20 (AP)—Rep. Marvin Jones, legislative father of the 1938 federal farm act, wants the nation's farmers to give his brain child a fair tryout before throwing it out of the house.

In a written statement the House agriculture committee chairman, conceding the law had its faults, said attacks upon it were not justified and were hurting farmers. He said the law probably would be repaired during the next Congress.

There is no possible single solution to the farm problem, he said. "If any person believes he has a simple panacea for the problem he has not thought the matter through."

Football Tickets For McLean Game Being Sold Here

A block of reserve seat tickets for the White Deer-McLean football game to be played in McLean tomorrow night have been received by W. B. Weathered and are available at his office in the court-house.

Game time has been changed from 8 p. m. to 7:30 p. m. Supt. C. A. Cryer announced this morning.

Many Pampa fans plan to witness the game between the teams, two of the outstanding B eleven in the state. White Deer is undefeated in five games and McLean has lost only to the Altus, Okla., Class A team.

Missing Boy Found After Three Days

A 14-year-old boy reported to have left his home in LeFors Monday morning has been found. City police were asked yesterday afternoon to assist in the search.

The officers learned that the boy had been seen in Alarend Monday and that he was going east on U. S. Highway 66, riding a bicycle. Officers had not been informed as to where the boy had been located by his parents.

Willis & Via are representing the defendant, Lewis M. Goodrich, district attorney, the state. Jurors hearing the case are Leo Paris, J. T. Pruitt, Giles Keith Howell, E. H. F. Brooks, George Faulkner, T. D. Batson, C. L. Wood, T. H. Henry, J. E. Holt Jr., H. T. Bender, Fred I. Lamb, and M. D. Oden.

STIRS BROADWAY

Raymond Massey's Abe Lincoln. By GEORGE ROSS.

NEW YORK, Oct. 20.—A stirred audience of usually blasé first-nighters sat rooted to their seats for 15 minutes after the curtain went down on the premiere of "Abe Lincoln in Illinois," clapping and shouting with an air of awe and wonder.

The audience clamored so long and loud for a curtain speech from Raymond Massey, who portrays Lincoln, that he finally recovered enough voice to whisper to the front rows that he had nothing to say, for the author was the only man entitled to speak.

But Robert E. Sherwood, who towers not only in actual height, but in his craft, high in the drama world, did not appear. He was close by, though—close enough to hear, and perhaps be embarrassed by, an ovation that must have few precedents in the New York theater.

For "Abe Lincoln of Illinois" is an evening we shall be proud to recall long after thousands of opening nights have lived and died. Catalogue all the Lincolnian plays, biographies and other verbiage ever written and no doubt they would stretch from here back to the Civil war. But it seems to us, in our limited knowledge and experience, that nowhere does the Great Emancipator emerge so lifelike, so human, so tragic and so near his fellow Americans as he does on the stage of the Plymouth theater where Mr. Sherwood and Mr. Massey have resurrected him.

This is not the story of Lincoln's quarters that Dr. Francisco Castillo Nañara, Mexican ambassador to the United States, would go as far as possible in meeting the requests of Secretary Hull, who brought up the question of payment in a note to Mexico July 21.

One suggestion was that Mexico might use part of the revenue of its 12 per cent export tax on silver and other products to repay the claims. The United States government, thru its purchases, virtually keeps Mexican silver mines operating.

While Mexican-United States negotiations were under way, the official Gazette today announced expropriation of 150 acres of the El Papayo ranch in Guerrero state, owned by the Compania Americana Washington-Ca Pulco, said to be American-owned. The decree expropriating the property was signed last Nov. 3.

Jinrikisha Pullers Flee From Japanese
HANKOW, Oct. 20 (AP)—This city of 800,000 lost its last means of transportation today with the departure for inland points of 15,000 jinrikisha pullers and their vehicles.

Most of the large junk fleet started up the Yangtze river, fleeing, like the rikshas coolies, the ever-growing threat of Japanese occupation.

Automobiles have been placed under the control of defense authorities. Hankow has no streetcars or buses.

Espionage Hearings Open
CHRISTOBAL, C. Z., Oct. 20 (AP)—A preliminary hearing of four youthful Germans accused of photographing fortifications in the vital canal zone opened before a packed courtroom.

Communists' Influence On Louis Claimed

WASHINGTON, Oct. 20. (AP)—James Mitchell, of Detroit, formerly in charge of welfare activities of a local union of the United Automobile Workers, a C. I. O. affiliate, told House investigators today that Communists apparently "have a lot of influence on" John L. Lewis.

Testifying before a committee investigating un-American activities, he said Communists had "engineered" a sit-down strike in the Murray Body Plant in Detroit in 1936 and 1937.

Chairman Dies (D. Texas) asked him what efforts were made by responsible labor leaders to rid the U. A. W. of Communists.

"Homer Martin, president of the U. A. W.," Mitchell said, "tried everything in his power. But it seems that are on the inside of the international union. Apparently they have a lot of influence on Mr. Lewis."

The witness said later that Communists could control the forthcoming election.

Huval To Preside At Legion Meeting
I. J. Huval, commander of the Kerley-Crossman post of the American Legion, will preside for the first time when the local post holds its regular meeting at 8 o'clock tonight at the American Legion hut.

The commander and other officers of the post were installed on October 6 by Lou Roberts of Borger, past district commander, in a ceremony at that week's meeting of the local post. Huval succeeds Howard Buckingham as commander.

At the meeting tonight, a committee will be appointed to make plans for the observance of Armistice Day.

Refreshments will be served following the meeting.

Dillman Fails By One Point To Keep Pistol Trophies
City Officer W. C. Dillman failed by one point to retain possession of two trophies at the fall convention of 92 out of a possible 100 in the slow fire contest but the same Grady shot a 93.

Dillman won both the North Texas Oil association and the officer's association trophies last spring in Wichita Falls.

Also attending the convention from Pampa was Sheriff-Flect Cal Rose and City Officer Buel Robinson.

Different targets than the ones used here in the past were used yesterday. Dillman shot an outside circle on his first shot, an inside circle on his second shot and then put the next eight in the heart of the bulls' eye.

12,000 Due To Go Back To Jobs In Packard Factory
LOS ANGELES, Oct. 20 (AP)—William Packard, general sales manager of the Packard Motor Car company, said today a force of 12,000 workers at the concern's plant in Detroit may be doubled within the next few weeks.

"We have recovered from the fall slump of 1937," he said. "Business rates about the same as when we hit that drop, but the trend is up instead of down."

\$1,500 Bond Posted In Altercation At Local Night Club
Bond of \$1,500 was posted in justice of the peace court here Wednesday by Marvin Bonds, who has been charged with aggravated assault in connection with an altercation that occurred Tuesday night at a local night club, in which O. W. White was injured.

Being taken to the complaint, wounded and bruised White to the extent of inflicting serious body injuries. Condition of the injured man was reported as improving today at a local hospital.

Bids for additions to Pampa's water lines, installation of fire plugs, etc.

Contractors desiring to secure blue prints may contact H. N. Roberts, engineer, at 2415 20th street, Lubbock. Sets will be available at \$25.

It is estimated that \$225,000 will be available for construction costs and materials. The entire program will cost \$244,700 which includes purchase of all preliminary work.

Three months ago qualified voters of Pampa approved a water revenue bond issue for \$165,000, including \$15,000 contingency fund. That amount was increased by a PWA grant of \$110,000.

The bonds have been sold and the money is in the bank here.

SPY TESTIFIES LETTER WAS TAKEN FROM U.S. MAIL BAG

Teachers And Parents To Discuss Grades Of High School Students

Parents of all high school students are being asked to meet three nights next week in room 202 of the high school to discuss with school officials the grades made by their children in the first six weeks of the present semester.

Principal Doyle Osborne announced that there were fewer failures than ever before, and that the meetings will be a continuation of the sessions held at the beginning of school when parents met with the teachers. The high school Parent-Teacher association groups are cooperating with the get-togethers next week.

Mr. Osborne and other school officials will discuss why children fail and the effect of attendance upon grades. Their records show that students who are absent consistently usually fail, he said.

Parents of all seniors, whether their children failed or not, are asked to meet at 7:30 p. m. October 25. Parents of all juniors will meet at the same hour the night of October 26. Parents of all sophomores will meet at the same hour on the night of October 27.

"Every parent is urged to attend the meetings," Principal Osborne said. "Who should be more interested in the progress of children than the parents?" Mr. Herod, assistant principal, will discuss attendance and all teachers will be present to cooperate in every way to make the meetings interesting as well as helpful to all concerned."

Mrs. John B. Hesse, who will have charge of the senior meeting; Mrs. L. L. McCollie, of the junior meeting; and Captain Herman Lambrecht of the sophomore meeting.

Mexico And U. S. Near Agreement On Land Seizures
MEXICO CITY, Oct. 20 (AP)—Informal sources said today that Mexico and the United States were nearing an agreement on the troublesome land seizure question that has at any time since it became acute.

The two governments, it was said, would get together on a plan for evaluating the estimated \$10,000,000 worth of farm lands expropriated from United States citizens since 1927 and handed over to peasants.

Mexico was described as likely to agree on regular payments on an annual basis. The issue appeared to have boiled down to two questions—when and how much Mexico would pay.

There was a belief in authoritative quarters that Dr. Francisco Castillo Nañara, Mexican ambassador to the United States, would go as far as possible in meeting the requests of Secretary Hull, who brought up the question of payment in a note to Mexico July 21.

One suggestion was that Mexico might use part of the revenue of its 12 per cent export tax on silver and other products to repay the claims. The United States government, thru its purchases, virtually keeps Mexican silver mines operating.

While Mexican-United States negotiations were under way, the official Gazette today announced expropriation of 150 acres of the El Papayo ranch in Guerrero state, owned by the Compania Americana Washington-Ca Pulco, said to be American-owned. The decree expropriating the property was signed last Nov. 3.

Jinrikisha Pullers Flee From Japanese
HANKOW, Oct. 20 (AP)—This city of 800,000 lost its last means of transportation today with the departure for inland points of 15,000 jinrikisha pullers and their vehicles.

Most of the large junk fleet started up the Yangtze river, fleeing, like the rikshas coolies, the ever-growing threat of Japanese occupation.

Automobiles have been placed under the control of defense authorities. Hankow has no streetcars or buses.

SAD SINGER

Sad-eyed blues singer, Ruth Etting, above, has taken a room next to her husband, Meryl Alderman, in the Hollywood hospital where he was taken after being shot by Miss Etting's former husband, Martin Snyder. While the movie colony hoped for Alderman's recovery, Snyder insisted the shooting was an accident, but Miss Etting said Snyder fired in a jealous rage.

Six CCC Workers Burn To Death In Forest Fire
EMPORIUM, Pa., Oct. 20 (AP)—The deaths of six members of a nearby CCC camp in a series of intense forest fires brought a federal-county investigation today of reports of incompetent leadership and incendiarism.

"It is of the utmost importance to labor that this program be carried to completion," it read.

"Therefore, this federation does hereby commend and support the honorable Franklin D. Roosevelt in his efforts to bring about an improvement in the condition of those who labor, and urges that, if no

Death Of Peggy Fear's Mother Termed Suicide
DALLAS, Oct. 20 (AP)—The death of Mrs. Edgar P. Fears, 54-year-old mother of Actress Peggy Fears who was found in her gas-filled apartment, was recorded today as suicide.

Friends said Mrs. Fears had been in ill health. She was found huddled under blankets in a bedroom where windows and doors had been sealed. Her death was discovered when her husband returned from his office late yesterday. Justice Walter Stoval returned the suicide verdict.

Her daughter, Peggy, who left Dallas several years ago for a stage career, is the divorced wife of A. C. Blumenthal, theatrical man.

Bonds Posted By Two Charged With Assault
Bonds of \$1,500 each were posted in justice of the peace court at noon today by two men who gave their names as Fred and Hale Smart, who are charged with assault with intent to kill in connection with an altercation Wednesday evening with A. C. Crawford, sheriff's officers said.

Crawford, according to a county official grabbed a pistol held by one of the men, as the gun was discharged. The shot was wild.

The three persons involved are of Pampa.

Warehouse Strike In San Francisco Ends
SAN FRANCISCO, Oct. 20 (AP)—Settlement of an extended labor dispute which closed 138 bay region warehouses and threw 2,500 men out of work was achieved early today, Paul G. Smith, mediator, announced.

A basis for amicable termination of the controversy was reached by union and employer representatives at 2:10 a. m. after almost continuous meetings which started early yesterday, Smith said.

Smith said the accord now goes to the union membership and members of the association of San Francisco distributors for ratification.

Italian Soldiers Return From Spain
NAPLES, Oct. 20 (AP)—Italy proudly welcomed today 10,000 returning Italian legionnaires who joined the insurgents in the Spanish Civil war in secrecy a year and a half ago.

Mussolini announced Oct. 8 all legionnaires with 18 months campaigning would be returned. This cleared the way for a projected settlement of Italy's differences with Great Britain and France.

Says German Took Missive While On Ship

Other Letters Read To Implicate Erich Glaser, Ex-Private

By MARY ELIZABETH PLUMMER.

NEW YORK, Oct. 20 (AP)—A state department investigation into the alleged rifling of sealed U. S. mail bags on German transatlantic liners was forecast today as new charges unfolded in the federal court trial of the state department accused of filing three American military secrets.

The mail bag looting—one of a series of exploits ascribed to members of a spy ring operating in this country—was disclosed by Guenther Gustav Rummich, 32, confessed Chicago-born spy, who has pleaded guilty and testified for the government.

With indications that international complications affecting U. S. mail contracts might result, postal officials here said such a serious question as tampering with sealed mail bags on a foreign-owned ship would have to be referred to the state department in Washington, D. C. for action.

Rummich last yesterday testified that Karl Schlueter, a fugitive indicted as a co-conspirator, formerly employed on the North German Lloyd liner, Europa, boasted that he had ripped open a mail bag on the Europa, steamed open a letter and made a photographic copy of its contents.

He said Schlueter, "describing the event as a 'very lucky strike,'" showed him the copy of the letter, which concerned a contract between the Bethlehem Steel Corporation and the Amtorg Trading Corporation of Soviet Russia.

The witness, in his third day on the stand, said Schlueter told him about the incident in the presence of Fraulein Johanna ("Jenni") Hoffmann, 26, red-haired defendant and former beauty salon operator on the Europa.

NEW YORK, Oct. 20 (AP)—Letters tending to implicate Erich Glaser, former United States army private, with a German spy ring operating in this country were read before a federal jury today at the trial of Glaser and two other persons on espionage charges.

The letters were identified by Guenther Gustav Rummich, United States army deserter who pleaded guilty to spy charges at the opening of the trial and became a witness for the government.

Glaser sat motionless as Assistant United States Attorney Lester C.

See SPY, Page 5

British Clean Up Jerusalem Old City
JERUSALEM, Oct. 20 (AP)—Comparative calm reigned over this Holy city today after 30 months of continuous Arab-Jewish turmoil and bloodshed.

Without the loss of a single British life, British soldiers completed clean-up operations by reconquering the old section.

This drive ended 24 hours of steady military efforts to eliminate nests of rebellious Arabs who had held the old city for four days, and was a prelude to the larger task of crushing a revolt throughout Palestine.

'Model Husband' To Testify In Chicago Love Slaying
CHICAGO, Oct. 20 (AP)—Forsaken by the pretty young wife whose lover he was charged with slaying, defended as a model husband by his mother-in-law, Rudolph Sikora awaited a call to testify in his own behalf today.

Murder trial spectators, most of them women, jammed the courtroom to overflow yesterday to glimpse the unusual drama to a mother supporting the marital conduct of her son-in-law and condemning the shortcomings of her daughter.

Allred Orders Navy Week
AUSTIN, Oct. 20 (AP)—Governor James V. Allred—who used to be a glib himself—today asked Texas citizens in a proclamation to observe navy day, Oct. 27, as a means "of fostering better understanding throughout the nation for the navy's work."

40 Youths Take Oaths
AUSTIN, Oct. 20 (AP)—Forty members of the Latin-American club of the University of Texas today were sworn voluntarily into the navy without undergoing thorough physical examinations.

I Saw ---
R. A. Shaffer, the new field executive of the Adobe Walks Boy Scout council, with a map of the Panhandle and Eastern Oklahoma in his nctc book. He consults it often, too. It's hard to get used to great distances, he says. He came here from Pennsylvania.

Friendship Group Elects Officers For Ensuing Year

Group one of the Friendship class of the First Methodist church met Wednesday afternoon in the home

of Mrs. H. J. Davis on North Somerville street with Mrs. J. D. Howard and Mrs. Davis as hostesses for the afternoon. Officers for the ensuing year, who were elected, are assistant chairman, Mrs. D. F. Robinson; courtesy lady, Mrs. J. E. Gilbert; recreation, Mrs. R. C. Lackey; social service, Mrs. J. L. Wheatley; evangelism, Mrs. Frank H. Yealy; home department, Mrs. L. L. Broadbook. Mrs. Joe Shelton was appointed chair-

man and Mrs. W. A. Rankin, secretary. Following the business session, various games were enjoyed after which the hostesses served delicious refreshments to Mmes. H. W. Kiser, O. V. Hoy, R. C. Lackey, Herman Jones, D. F. Robinson, J. L. Wheatley, Frank H. Yealy, J. E. Gilbert, Walter Daugherty, Joe Shelton, W. A. Rankin, J. D. Howard, H. J. Davis, and one guest, Miss Ruth Chisholm of Eufaula, Oklahoma.

Mrs. Roberts To Represent Local AAUW At Tyler

Mrs. Fred Roberts will leave today to attend the eighth biennial state convention of A. A. U. W. which meets at Tyler October 21-22. Mrs. Roberts is president of the local branch which has been represented at every state convention since its organization.

The Tyler branch of the A. A. U. W. is preparing to entertain 400 delegates representing 36 cities with the Texas division at this convention, according to Mrs. Roy C. Owens, president of the group.

The state executive committee chose the rose city for the convention at a meeting held in Dallas two years ago. The college women of Tyler are using the rose theme as the decorative motif for teas, luncheons, and dinners, and to enable flower enthusiasts to view the colorful blossoming fields, they have included in the program of entertainment at a sight-seeing tour of the fields.

In addition to an exhibit of the work of the various groups within the state organization, which will be held in the library of the Woman's building under the direction of Miss Mae Moore, there will be an exhibit of the oil and water color paintings of Johnnie Briles of Texas, as artist, showing typical scenes from the East Texas oil fields.

Active in the organization of the state meeting are: Dr. Ray C. Stoker of Denton, convention chairman; Mrs. Roy C. Owens, president of the Tyler branch; Katherine Curtis, Feltz of Tyler who is second vice-president of the Texas division and chairman of local arrangements in Tyler; and Mrs. I. M. Alexander of Corpus Christi, state president.

Speakers on the convention program will include members of the Texas division who have achieved outstanding recognition in various fields including various chairmen of state committees. Among the prominent Texas women will be Dr. Rachael Foote, Dallas, chairman of the education committee; Mrs. Feltz, membership chairman; Mrs. H. P. Bybee, Austin, chairman of child health and protection; Dr. Anna Powell, Denton, chairman of international relations; Miss Jennie Tate, chairman of the finance committee; and Walter Sparks, Jr., chairman of the publicity committee.

Mrs. Irene Heineman, assistant superintendent of Public Instruction in California, will assist with two morning programs and will make the principal address at the education dinner on Saturday evening. Mrs. E. H. Marek, leader in The Peoples' Library movement; Dr. Rose C. L. Mooney, physicist from Sophie Newcomb college at New Orleans; Dr. Thornton P. Terhune professor of history at Tulane University in New Orleans; and D. Margaret Justin home economics expert and author of numerous articles and books on domestic economy, will be among the speakers of national significance.

Junior P-TA Will Meet In Regular Session Today

A regular meeting of the Junior high school Parent-Teacher association will be held this afternoon in the school auditorium at 2:45 o'clock.

Following the devotional, instrumental numbers will be presented by a duet composed of Clarre Denhart and Norman Clemmons. Special selections by the music teachers' sextette will be on the program. "The program theme," The Adolescent at Home will be discussed by Mrs. A. L. Burge who will talk on the emotional problem of the adolescent; by Mrs. George Friauf who will present health problems; and by Mrs. John S. Mullen who will tell what we can do to make our home better for the adolescent.

Circle Six of WMS Meets For Program In Home Of Member

Members of circle six of the First Methodist church met Wednesday afternoon in the home of Mrs. Frank Leonard.

Following the opening song, Mrs. Bew Ewing presented the devotional and a prayer. Mrs. W. E. Tarbet discussed another chapter of "The American City and Its Church." Members present were: Mmes. Herman Van Sickle, C. A. Smith, W. G. Crowson, Carol Blessing, W. E. Tarbet, Bob Ewing, Joe Key, Marvin Boring, Leo Smith, William Tinsley, and one visitor, Mrs. A. L. Burge.

The next meeting will be in the home of Mrs. Joe Key, 405 1/2 East Browning.

5,439 Children Examined During Summer Roundup

More than 50,000 pre-school age children have had an opportunity to begin school free of remedial defects as a result of one phase of the program of the Texas Congress of Parents and Teachers.

Officials of the organization, which meets in annual convention in Lubbock Nov. 15-17, said today 5,439 children were examined during last summer's health roundup, a 14-year-old activity that has extended to more than 50,000 children.

The roundups include a canvass by the 2,176 local units to locate children who will enter school and advise their parents of the need of physical examination.

The Congress, founded in 1909 by Mrs. Ella Caruthers Porter of Dallas, has grown to a membership of more than 121,000 persons.

The Lubbock meeting will cover discussions of and reports on all of its activities and will feature election of officers for the 1938-41 triennium.

Mrs. M. A. Taylor of Bonham is president.

Good Citizenship Club Organized By Horace Mann Room

Students in Jack Davis' home room of Horace Mann school have organized a club known as the Good Citizenship club.

The following officers were chosen: President, Helen Mazzy; vice-president, Joe Autry; secretary, Phyllis Hutchens; hostess, Patsy Rue Husband; host, Roy Carpenter; reporter, Patsy Boone.

The zinnia was voted the class flower and the colors selected were red white and blue. "Politeness is to do and say the kindest things in the kindest way" was the motto desired by the group.

The Good Citizenship club will meet each Monday during the English period.

Birthday Party Honors Jim Bob Aulds Wednesday

Jim Bob Aulds was given a birthday party at the home of Archer Fullingim last night. Members of his Boy Scout troop patrol were guests.

The Social CALENDAR

FRIDAY
Calvary Baptist church will have an all-church hallowe'en party at 7:30 o'clock. The Junior department of the First Christian church will have a hamburger and hot dog supper at the church at 7:30 o'clock.

A regular meeting of the Order of Eastern Star will be held in the Masonic hall at 8 o'clock.

SATURDAY
Miss Jane Alden, stylist of Chicago, will present a style show at the municipal auditorium in Amarillo from 10:30 to 11 o'clock.

Bridge-Luncheon Entertains Guest; Club Members

Mrs. Neil Donovan was hostess to members and a guest of the Wednesday Contract at a bridge-luncheon yesterday afternoon at the Seaview hotel.

A hallowe'en motif was used in the attractive appointments. Prizes for the afternoon were awarded to Mrs. Robert L. Freeny for high score and to Mrs. E. E. Carlton for second high.

Members playing were Mmes. H. C. Berry, Bert Howell, Robert L. Freeny, Roy Rounsavell, E. E. Carlton, and H. T. Kelley; Mrs. R. A. Webb was a guest.

Church Will Have Hallowe'en Social On Friday Night

A hallowe'en all-church social will be given at the Calvary Baptist Church Friday night, October 21, at 7:30 o'clock. All church members and friends are urged to attend. A food shower will be given at this event.

Miss Cole Becomes Pledge Of Ko Shari

LUBBOCK, Oct. 20.—Martha Jeanette Cole, arts and sciences freshman of Pampa, has become a pledge of Ko Shari, social organization for women at Texas Technological college.

Sixty-six girls were pledged to five clubs Oct. 6 after ten days of rushing. The seven men's clubs pledged eighty-seven.

One New Member Initiated By Order Of Rainbow Girls

At the regular meeting of the Order of Rainbow for Girls in the Masonic hall Tuesday evening, a covered dish luncheon was served. Marion Longeneer was initiated during the meeting.

Members present were Elaine Murphy, worthy advisor; Mary Frances Hamilt, Frankie Foster, Margaret Ellen Burton, Dorothea Thomas, Pauline Leverett, Donna Jo Berry, Edna May Cade, Juanita Smith, Loraine Murphy, Mildred Martin, Neomi Snyder, Viorio Anderson, and Waldean Frazee.

Guests were W. R. Frazee, M. W. Jones, and Mr. and Mrs. Lloyd Garrison. Board members included O. M. Anderson, chairman, Mrs. Katie Vincent, Mrs. Joe Berry, Mrs. W. B. Murphy, Mrs. W. M. Murphy Mrs. Edrie Colvin, and Mrs. Burl Graham.

Two Pampa Girls Pledge Sorority

LUBBOCK, Oct. 20.—Miss Betty Shyrook, arts and sciences freshman of Pampa, and Miss Martha Price, home economics freshman of Pampa, have become pledges of D. P. D., social organization for women at Texas Technological college.

Sixty-six girls were pledged to five clubs Oct. 6 after ten days of rushing. The seven men's clubs pledged eighty-seven.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 2 pints a day or about 2 pounds of waste. Frequent or heavy poisons with smothering burning aches there may be something wrong with your kidneys or bladder. An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Dance At Country Club To Highlight Activities Tonight

Invitations have been received by members and guests of the Country Club for the regular dance which will be held this evening beginning at 10 o'clock in the club house.

Music for the dancing throughout the evening will be played by Ken Bennett's orchestra.

Mrs. Kemp Hostess To Embroidery Club

McLEAN, Oct. 20.—Mrs. Jess Kemp was hostess to the Centennial

Embroidery in her home last week. Guests for the afternoon were Mmes. Joe Hindman and Raymond Glass.

Members present were Mmes. Amos Tucker, J. E. Cooke, Kid McCoy, Pete Fulbright, Carl Jones, C. J. Cash, C. H. Leeds, H. W. Finley, and the hostess.

Former Pampan Pledges Fraternity

LUBBOCK, Oct. 20.—Bill Mathews, engineering freshman, son of Mr. and Mrs. Harry V. Mathews, Pampa, has become a pledge of Los Camaradas, social organization for men at Texas Technological college.

Sixty-six girls were pledged to five clubs Oct. 6 after ten days of rushing. The seven men's clubs pledged eighty-seven.

Public Ownership And Private Grief

Politicians, professors and economic theorists are fond of telling business how it should operate. The implication always is, "Now if we were running that business..."

Occasionally, though, we get an insight into business operations under political management. The Federal Postal system, for instance, always operating at a deficit of millions.

To the publicly owned New York city subway goes an orchid for stating most plainly the case for or against public ownership.

On advertising cards in its cars is inscribed the (shall we say "modest?") legend: "This railroad is owned by the City of New York and is operated by the Board of Transportation. It is the foremost example of public ownership and operation in the world."

The fare is five cents. But so costly is the operation that for every five cent ride, another five and one quarter cents comes from the City Treasury to make up the deficit.

And this, the City Fathers claim, is the world's "foremost example of public ownership."

About This 'Saber Rattling' Business

A White House spokesman has come forth with a statement that recovery is at hand if only business and labor will stop "rattling the saber" and if prices don't skyrocket.

As far as the business man is concerned, the public should be pretty well convinced by now that business and industry wants above all else, peace and its reward—recovery.

We agree wholeheartedly with the spokesman's plea for less saber rattling, but we are inclined to believe that the rattle is loudest in a quarter other than that of the business world.

Behind The Scenes In Washington

By RODNEY BUTCHER, Pampa News Washington Correspondent

WASHINGTON, Oct. 20—Streamlining in agriculture can have some very different meanings, it seems. For instance, when the farmer is to be "streamlined" the process is one of reducing his output by plowing under every other row or killing off some of the porkers.

That was the case in Washington when it was decided to try something else in the search for a made-to-order granary. Thus, two announcements went out from Washington almost simultaneously.

The farmer was informed that 50 government experts had gathered in Washington to draft additional crop control measures. This time, it was announced, they are going to do something to cut down commercial vegetable production.

As for streamlining the Department of Agriculture, any ideas for plowing under every other expert were forgotten, and instead the announcement said more would be added; new agencies created and more plans planned.

Outside of Washington little attention apparently was given to the announcement that 81,000 more names have been added to the permanent payroll of the Federal Government.

Among veteran government workers who obtained their positions through competitive examination, the whole business is a bitter pill. They are irritated because these 81,000 have become permanent fixtures through no more qualification than political influence.

Last year, the Administration chose one of the nation's leading industrialists, John D. Biggers, President of the Libby-Owens Ford Glass Co., of Toledo, O., to conduct a census of the unemployed.

Sharing the Comforts Of Life

By R. C. Hoiles

INCENTIVES FOR EDUCATION The importance of intelligent education is conceded by everyone. There are certain factors that have a tendency to encourage or discourage people to become educated.

The biggest incentive for all people to become educated is to let people do without if they do not try to become educated and try to adjust themselves to serve humanity.

Probably "old mother necessity" can do infinitely more to educate the masses than all the public colleges of the land.

There cannot be much incentive for people to become informed when conditions are as they exist today—as expressed by Amos and Andy, "You have to be pretty dumb now, not to get the government to help you."

A GREAT PEACE MOVE The report that Chamberlain has expressed an opinion that it might be possible to return to Germany some of the colonies taken from her, might be one of the greatest steps for peace that has been made for ages.

If this principle of self-determination of parts of a country becomes established which permits the part of a nation that is dissatisfied with the treatment the governing nation gives it, to secede without force, then it would seem we are taking a great step in eliminating wars.

If this principle would become established, then the governing nation would feel that they must have a good government and make it possible for its citizens to keep the greatest possible fraction of what they produce for themselves and in no way interfere with production of these individuals.

This would have a tendency to stop the arrogance and the tyranny of governments and make those responsible for good service to citizens without resorting to war.

As the situation in Europe is trembling as to whether war breaks out, some statistics published in Poland on wars shows that this territory has been one of the seats of wars.

The figures, covering 3421 years of world history, revealed 8000 peace treaties were concluded in which time there were 263 years of peace against 3158 years of war.

The Nation's Press

WHAT GERMANY IS GETTING Christian Science Monitor

Diplomatic victory is intangible. It is also ephemeral. More important than the prestige accruing to Reichsfuehrer Hitler from his Munich conference are the strategic and economic by-products of the power politics practiced in Germany.

The important bearing, economic, political and strategic, which the disparity of foodstuffs and essential raw materials among nations has upon their peace and war relations is becoming universally recognized.

Thus to suppose that the strategic advantages gained by Germany through annexation of Sudetenland lie simply in possession of the natural fortress of Bohemia, plus the man-made fortifications with which the Czechoslovakian government has made that mountainous region more than formidable, would be to overlook the economic strategy with which the new Germany has resumed the age-old "Drang nach Osten."

In absorption of Austria, Germany acquired a spearhead eastward that is foreseen at the time, would be used to penetrate economically much of the Central Europe surrounding Austria.

There is both coal and iron ore in the area called Sudetenland. Pilsen, which is on the racial borderland where Slav and Teuton meet and mingle, produces motorcars and sugar.

Lesser's been making pictures since that day, as a San Francisco film distributor, he was invited to make a commercial reel for a drugstore chain. He made it, and probably should be hanged, as the perpetrator of that current school of salesmanship which teaches salesmen not to let a customer get away until he's bought ten or other articles in addition to the pack of cigarettes he really wanted.

Jackie Cooper in "Peck's Bad Boy" was one of his biggest hits and through the years the child stars consistently scored for Lesser.

That's why today he is concentrating on them exclusively. From now on, he will exploit Tommy Kelly, Bobby Breen, Ann Gillis and the little skater Irene Dore in pictures with appeal for adults as well as children.

And Lesser is one of the two producers in Hollywood who HAS succeeded. The other is Samuel Goldwyn. Those two are the only ones who gamble their own money on their pictures!

For his efficiency in doing the job so well and cheaply in these days of billions of spending, Mr. Biggers received an official pat on the back and was told his economy was "noteworthy."

'DON'T LOOK NOW, BUT--'

Around Hollywood

By ROBBIN COONS

HOLLYWOOD— This will be good news—and bad—for the parents of child prodigies who ought to be in pictures: "There's a producer who is turning over his entire studio to the production of 'kid pictures,' and nothing but."

"A little child shall feed them," said Sol Lesser today, looking around the lot where his staff of workers was making ready for another Tommy Kelly starrer called "Wings of Tomorrow."

"The market for child stars has reached the saturation point in Hollywood today. The Mexicans are really different to get somewhere in pictures today against the competition already here. And I mean different."

"Every day we get letters from parents who claim that their own child is a second Shirley Temple, better than Jean Withers, a finer singer than Bobby Breen, tougher than Mickey Rooney, and so on. None of that interests us."

"Dear Mr. Lesser, in our house there is a boy. He is a moral backslider, a thief, disobedient, impudent, and I'm sure he'll come to no good. For all that, he has a personality that makes us love him, regardless. He will probably wind up in the electric chair, but we've been thinking he might as well earn a few shakels for our old studio before he reaches the hot seat."

Well, Lesser isn't looking for embryo gangsters, but you'll get the idea. He doesn't want carbon copies of kids already on the screen.

Lesser's been making pictures since that day, as a San Francisco film distributor, he was invited to make a commercial reel for a drugstore chain. He made it, and probably should be hanged, as the perpetrator of that current school of salesmanship which teaches salesmen not to let a customer get away until he's bought ten or other articles in addition to the pack of cigarettes he really wanted.

Any way, that reel convinced him he was a producer, and he followed it up with a spot-news feature on the fall of the Barbary Coast and another starring Annette Kellerman, called "What Women Love."

Five years ago today The corner stone was laid and ready to bear the weight of the Pampa postoffice building was to rise to hide the steel skeleton of the structure.

The 26th zone of the Texas marketing division for enforcement of the oil industry code of the NRA was organized at a meeting in the Schneider hotel.

Wallace Sent Petitions ONTARIO, Calif., Oct. 20 (AP)—Petitions asking termination of the California-Arizona marketing agreement by Nov. 1 were speeding eastward to Secretary of Agriculture Henry Wallace today.

Civil War At Standstill HENDAYE, France (The Spanish Frontier), Oct. 20 (AP)—The Spanish civil war was at a virtual standstill today except for occasional aerial combats over the Ebro river front in eastern Spain.

People You Know

By ARCHER FULLINGIM

This one is still thinking about the quiet, lonely, but violent climax of the remarkable picture, "The Adventures of Chico," that showed at the Crown. It was like that kind of a vacation trip that you can think about long afterward (the kind of a trip that is remembered for its mountains, trees, streams, for its loving, human relationships).

The movie, being concerned with the experiences of a Mexican boy with road runners, quail, rattlesnakes, wild hogs, armadillos, panthers, goats, Snookum bears, reminded this one of last summer's vacation in Old Mexico. One of the good things about the Mexican people is that they are kind to children and animals, and their kindness stretches farther than words—it encompasses their welfare and well-being and of course that is the correct attitude to have toward a child.

Perhaps the most noteworthy service chemists are rendering is in the field of medical research. In studying the nature and causes of cancer, the chemical analysis of the so-called carcinogenic or cancer in animal experiments is proving of immense interest. It is not beyond possibility that these studies may reveal why and how cancer grows spontaneously in man.

Chemists have also made available to the physician a variety of drugs of low toxicity, of high purity and of constant potency, to take the place of older drugs which lacked these desirable qualities.

Exciting, too, is the work being done on the chemical structures of endocrine substances. It has been shown, for example, that an artificially produced compound of the "female hormone type," though it has but little chemical resemblance to the natural hormone, is proving much more potent than the former. This suggests the possibility of developing substitutes for a number of the hormones with less complicated chemical structure than the natural substance.

Uncertainty, insecurity, incompleteness—these things make for the zest of living and also for the zest of faith.

I wouldn't trust any Congress with my rights to be a free man.

It is up to the new generation to clean up the mess my generation has made.

You could drive a team through a half dozen loopholes in the present Federal Corrupt Practices act.

As long as a man fears war, he will remain at peace.

"practical operations have proved cannot be avoided" under the agreement, and places "unwarranted and burdensome expenses on producers."

How's Your Health?

DOCTORS AND CHEMISTS

Chemists are proving of ever greater service in the war upon disease. During the last 50 years organic and biological chemists have created products immeasurably useful in the treatment of infections and many functional and organic disorders.

At present sulfanilamide dominates our consciousness, but we should not overlook other work being done by chemists in heretofore obscure fields of medicine.

For example, chemists have discovered the structure of a number of vitamins. This knowledge has enabled us to study the functions of vitamins within the body.

Chemists have also made available to the physician a variety of drugs of low toxicity, of high purity and of constant potency, to take the place of older drugs which lacked these desirable qualities.

Exciting, too, is the work being done on the chemical structures of endocrine substances. It has been shown, for example, that an artificially produced compound of the "female hormone type," though it has but little chemical resemblance to the natural hormone, is proving much more potent than the former.

Tex's Topics

By Tex DeWeese

Some stir has been caused by news that a professor of physics at the University of Pittsburgh has discovered considerably more information about a man's past, present, and future simply by studying his eye with an ordinary reading glass.

This is interesting in a way, but scarcely remarkable enough to justify any excitement. A little reflection should disclose that comparable stunts can be done by almost anyone with the ordinary powers of perception.

You can easily tell how high a post a politician is aiming at by simply measuring the look of self-sacrifice, nobility, and crusading zeal he allows his gaze to display.

The briefest kind of glance at an investor's eye discloses the current state of the market.

You can tell just exactly as much about any diplomat's inner feelings and intentions by looking at his eyes as by looking at your wife's eyes. You can tell immediately what it is you yourself have just done or what it is you are about to have to do. It's a cinch.

A vocational guidance expert has just disclosed the results of a study made over a period of years. Of special interest are the findings on what particular jobs represent the absolute "tops" in men's estimation.

The presidency of the United States still leads the list. Rated second only to that job is a seat on the United States Supreme Court. Very high in the scale is "being a great inventor," and close competition is offered as work as a research scientist.

Does this indicate a widespread desire to be a great service to the nation and humanity at large? That would be a pleasant thought. But the survey discloses instead that the jobs are attractive simply because of the amount of prestige they carry with them.

Bearing this in mind, you might still find cause for optimism in the current notions of prestige. It depends on your own ideas. On the list of ambitions appears the post of "political boss in a large city." Being a policeman, however, proves approximately four times as attractive.

The Capital Jigsaw

By HOWARD C. MARSHALL

AUSTIN, Oct. 20 (AP)—Revision of election laws in Texas will be considered by the general session of the legislature.

For several years the state Democratic executive committee has been urging overhauling the election statutes, not to change their intent or alter policies, but to remove ambiguities.

A bill in line with views of the committee, introduced at the last biennial session, probably will be sent up again but only slightly revamped.

Senator-Nominatn Patrose Metcalfe of San Angelo also has been having some thoughts of the subject, especially as concerns poll tax exemptions.

The present system is very lax and encourage fraud, he said in Austin recently.

Under the law citizens 60 years and older are exempt from the tax. Those residing in cities of more than 10,000 population must obtain an exemption certificate while those living in towns of less than 10,000 and in rural areas do not have to have one.

Metcalfe would require everyone

YOU AND YOUR Nation's Affairs

Flood Deaths Due to Delay

By ERIK MCKINLEY ERIKSSON Professor of History, University of Southern California

The sympathy of the whole country has been extended to the people of the northern states who recently experienced a terrific hurricane followed by devastating floods.

These are acts of God and no government and no individual can be blamed for them.

Much to the surprise of the officials of the states concerned, the compact failed to receive congressional approval in the 1937 session. Senator Bridges of New Hampshire has blamed this failure on the opposition of Frank R. McNinch who was then the chairman of the Federal Power Commission. The Commissioner, declared Senator Bridges, was opposed

exempt from the tax to obtain a certificate.

"The system is very loose and ought to be corrected," he said. "No county in Texas knows how many persons it has exempt from the tax, such records are poorly kept and are very inaccurate."

"People get an exemption certificate in one county and move to another. Certificates are lost. Officials have to guess at the amount of supplies which will be needed for an election."

"The place to start in straightening out the situation is to require an exemption certificate of all persons who are exempt from the tax."

If Gov. James V. Alfred had it to do over again he would file separate suits against the fifteen major oil companies and the two associations which seven years ago he accused of violating the Texas anti-trust laws.

The state agreed the other day to a settlement of the suit for \$450,000, which was paid by the Texas Marketers Association. Charges against the other defendants were dropped.

Gov. Alfred commented that the settlement on the whole probably was a good thing, adding later: "If I had it to do over again I would file separate suits. There were just too many big companies to put into one suit. There were 50 lawyers in the court room and it would have taken possibly six months to try the case."

The chief result of the famous suit, filed by Alfred when he was attorney general, seems to be that the civil provisions of the anti-trust laws have been upheld by the Texas Supreme Court.

Criminal provisions are under attack and are expected to be decided upon soon by the Court of Criminal Appeals, acting on a case from Houston involving beer distribution.

The Supreme Court sustained the civil sections of the anti-trust statutes about a year ago. The Austin Court of Civil Appeals had held them invalid because they exempted farmers and stockmen from their application.

It was after the Supreme Court had upheld the laws that the case went back to the Travis County District Court where, on the recommendation of Judge J. D. Moore, the settlement was reached.

Lawyers, judges, defendants, and press correspondents all apparently were quite happy that a compromise was achieved.

None who had had anything to do with the suit in its preliminary trial relished the prospect of a trial on matters so technical.

With fifteen major oil companies able to put on testimony in any detail and unlimited by time or expense the trail would have gone on no one could predict how long. There was no protest against calling a halt.

Dana X. Bible, head football coach at the University of Texas, has a warm supporter in Gov. Alfred.

After the Longhorns had lost to Kansas and Louisiana State the governor was asked at a press conference what the thought of Bible. He warmed right up to the subject.

He'd winning team and the Longhorns now have great leadership," he said.

"All the Southwest conference football teams can't win. It's just like politics. Only one candidate can be elected to an office; the other must lose."

Some of the following statements are true, some are false. Which are which?

- 1. Sacha Guitry, is a famous French concert violinist.
2. Jacksonville, Fla., is north of New Orleans.
3. Ingenious means clever or inventive.
4. The Battle of Waterloo was fought in 1815.
5. The moon revolves on an axis. (Answers on Classified Page)

because the plan did not provide for federal ownership of all lands and rights of riparian states for flood control projects. Had there been no interference, the projects would have been started last year and would have been far more advanced to have lessened the damage caused by the recent floods, the Senator asserted.

He then proceeded to declare: "New England has paid in blood and money for their refusal to surrender sovereignty prerogatives to the dictatorship of Washington bureaucrats."

In thus inciting the New Deal, Senator Bridges might have gone further, instead of placing the blame on Mr. McNinch who, after all, was acting in accord with the policy of the administration, he should have assumed a large measure of the responsibility for the side-tracking of the flood control compact on the President himself. In this column, about a year ago, attention was called to the President's "amazing interference" in the matter. Reference was made to his letter to Governor Crockett of Connecticut, written in August, 1937, in which he declared that it was his "profound conviction that these matters are properly the subject of Federal legislation and not of interstate compacts."

Unquestionably the chief blame for nullifying the declared policy of Congress to encourage the states to cooperate under compacts in the promotion of flood control projects should be placed on the Chief Executive. Insofar as lives were lost through the frustration of the New England flood control project, the New Deal should be held responsible. Regardless of how many millions of dollars of federal money are spent for relief in the stricken area, there can be no adequate compensation for those whose lives might have been spared had the New England states been allowed to exercise their sovereign power a year ago.

Germans Kill Six Czechs In New Violence

PRAGUE, Oct. 20 (AP)—The general staff reported today six persons were killed during disorders provoked yesterday by Sudeten Germans in two separated districts. It said four persons died during rifle attacks by Sudeten German free corps members on a Czech military patrol at Zelenohorice in northern Bohemia. A communique said the mayor of Zelenohorice became the fifth when he was killed after the battle was over. The sixth person reported killed was a farmer in the commune of Vazacka. The general staff announced he was working in his fields when a German soldier fired on him. It said the trouble at Zelenohorice began when the Czech patrol, protesting against occupation of the village, visited the German commander and urged him to withdraw his troops. The Czechs declared the Germans had overstepped the new frontier line in taking the place.

Swastikas Removed
During military conference, residents of the village began taking down swastika banners which had been hung in windows prior to the entrance of the German troops. Members of the free corps, the general staff asserted, hurried to the neighboring village of Cikovice and returned with a detachment of Sudeten customs guards and opened fire on the Czechs. One Czech soldier and three Czech policemen fell with the first volley. The mayor was killed later because, it was charged, he was carrying firearms. The official communique also reported that alleged Hungarian terrorists last Monday seized a section of the railway running between Uz-

horod, capital of Autonomous Ruthenia, and Velke Kapusany. The general staff said the Hungarians placed 17 charges of explosives under the rails in preparation for blowing up a train when it passed over by Czech gendarmes and soldiers dispersed the band. Election of a successor to Eduard Benes as president of Czechoslovakia meanwhile was postponed indefinitely today pending the conclusion of negotiations on the minority problem and establishment of the new frontiers.

King Leopold On Trip
BRUSSELS, Oct. 20 (AP)—King Leopold left today for a brief visit to England. He was accompanied by his sister, Princess Maria Jose of Piedmont.

Allred Will Try To Plant Flag On Peak
COLORADO SPRINGS, Colo., Oct. 20 (AP)—Covetous eyes of Texas were upon Pikes Peak today, but capricious weather made it questionable whether Gov. James V. Allred of Texas would succeed with plans to plant the Texas State flag on the summit of the 14,110 foot peak. He and Gov. Teller Ammons, who lost the mountain to Gov. Allred on a wager over the Colorado-Rice football game in the Cotton Bowl last winter, came here to try an ascent of the peak today, but it was doubtful whether snow would permit them to get above the timberline.

Machine Guns Guard Swift Packing Plant
ST. LOUIS, Mo., Oct. 20 (AP)—Machine guns bristled in all directions from the Swift & Company packing plant here today as national guardsmen kept a lookout to avoid further violence in the strike which began three weeks ago. Two hundred guardsmen were on duty in and around the plant and

300 more were mobilized in buildings within a mile of the strike scene, where 1,000 strikers and sympathizers hurled bricks through plant windows and upset a police car Tuesday in protest against a back-to-work movement.

Division Of World Wheat Market Urged

By D. HAROLD OLIVER.
HYDE PARK, N. Y., Oct. 20 (AP)—President Roosevelt was represented by a sensational caller today as referring an international agreement to divide up the world market for surplus products like wheat and cotton, over the dumping of such commodities abroad at ridiculously low prices.

Senator Josh Lee Democrat, Okla., so defined the President's views before leaving early today for Albany. He had a lengthy discussion of the farm problem with Mr. Roosevelt yesterday at a picnic.

He said he found the President in agreement that the domestic market should be allotted to the American farmer at a fair price, but Mr. Roosevelt felt that some day it would be necessary for the major exporting nations to agree on an equitable distribution of world markets instead of dumping their surpluses and having the world price set by the domestic price.

The Oklahoma Senator said he favored a domestic allotment plan under which each farmer would get a specific share of the home market and let any surplus "seek its own level."

Lee predicted that the next Congress would work out a bill that "will afford, first, a fair price for home consumption; second, an allotment based on bushels and pounds rather than acres; and third, fair treatment of family farms."

As for guaranteeing a profitable domestic price, Lee said this could be done either by straight-out price fixing, a subsidy or equalizing payment from the treasury, or federal loans to peg prices. He added he favored the third.

Dr. Fisher Ends 46 Years With Methodist Church

SAN ANTONIO, Oct. 20. (AP)—Dr. Sterling Fisher, secretary of the West Texas conference of the Methodist Episcopal Church, South, ended 46 years in that position here last night.

With the calling of the roll at the annual meeting Dr. Fisher ended his official church career by tendering his resignation. "His is a record unequalled in the history of Methodism," Bishop Frank A. Smith of Houston said.

Rev. R. F. Curl, pastor of Woodlawn Methodist Church here, who has served as Dr. Fisher's assistant for two years, was elected to fill the position of conference secretary.

Delegates to attend the Kansas City convention next April when plans for merging the different branches of the denomination are to be discussed, will be elected today.

Rev. M. D. Council of McAllen will speak tonight.

Dr. Fisher Ends 46 Years With Methodist Church

UNANIMOUS.
EUGENE, Ore.—"Those of you who know what the national debt is, please raise your hands," said Prof. Robert Leeper to his University of Oregon class.

No response.

"Those who know the national income, raise your hands."

Again, no response.

"Is it possible this class—future leaders of the country—can't answer these simple questions," the professor fretted.

Silence.

"Well," added the prof, "neither can I."

ACTS FAST TO RELIEVE RHEUMATIC PAIN

Simply Follow Easy Directions Below—Make Sure You Use Real Bayer Aspirin

To quickly ease headache or rheumatic pain, do this: take 2 Bayer Tablets with a full glass of water. Repeat if necessary according to directions. That's all.

Thousands have found that this simple method brings amazingly fast relief from pain of headache, rheumatism and neuralgia — when genuine BAYER Aspirin is used.

Try this way first — then, if pain keeps coming back, see your family doctor. Let him find the cause and give you treatment.

Genuine Bayer Aspirin gives quick relief for two reasons — The nature of the pain-relieving element comprising Bayer Aspirin itself. And because Bayer Tablets disintegrate in the stomach in a few seconds — are ready to "go to work" with amazing speed.

Remember to ask for "Bayer Aspirin" — not just for "aspirin."

Smoke Blanket Covers City as Oil Plant Burns

Great clouds of black smoke rolled over Linden, N. J., as thousands of gallons of gasoline and oil burned at the eight-acre plant of the Cities Service Co. distillery. This picture was taken at the height of the fire, which destroyed 30 storage tanks.

A Mussolini and One-to-be

The young woman above is Signorina Gina Roberti, but soon she will be Signora Mussolini. She is engaged to Captain Bruno Mussolini, second son of Il Duce, who is shown with her in this recent picture taken in Rome. Captain Mussolini, 21, has been serving as an aviator in Spain. His fiancée, 22, is the daughter of the head of the Contemporary Art Bureau of the Italian Educational Ministry.

National Survey Shows Decided Uptrend In Business Circles

NEW YORK, Oct. 20.—Business is gaining momentum at a pace which indicates that national income for the final six months of this year will be about \$5,000,000,000 more than in the first half.

That would be the largest second half expansion in more than a decade, but the figure for the full year will be well below those of 1936 and 1937.

All major lines of business have improved substantially from the year's low and economists and business men estimated today that the final three months would be marked by further recovery. Increased industrial activity has been reflected in employment. Current estimates are that more than one million persons have gone back to work in the past five months.

Economists for Alexander Hamilton Institute believe that national income produced in the last six months of 1938 may reach \$30,600,000,000, compared with \$25,400,000,000 in the first six months when the total was the smallest since 1935. On that basis the year's total of \$56,000,000,000 would compare with \$59,217,000,000 last year, highest since the 1929 record of \$81,128,000,000 with \$63,468,000,000 in 1936 and with \$55,186,000,000 in 1935.

Better Than Expected.

The showing for the final half would be considerably better than anticipated early this year.

In May this year, according to figures of the national industrial conference board, 11,362,000 persons were without jobs. Since then, more than a million persons have gone back to work and prospects are for a continued rise.

Employment started its upswing shortly after mid-year and by August, the unemployed had been cut to 10,500,000. September figures have not been compiled but they are expected to show a relatively sharp gain. There is a strong possibility, experts say, that unemployment, by the close of this year may be cut to the 9,291,000 level which prevailed in the closing months of 1935. In September, 1937, however, only 5,651,000 persons were jobless, the best showing since 1932.

One of the brightest spots of the current recovery is the building

East Texans Include Headharness Among Suggested Hay Fever Cures

TROUP, Oct. 20. (AP)—If you have hay fever perhaps you can select from these home remedies one that will give relief. Each was suggested in good faith by a sufferer, or someone closely connected with a sufferer.

"Go into the woods," said an elderly Clarksville woman, "and make a bed of pine needles and sleep on it." In case you do not live near a pine grove she suggested filling a pillow with needles and always sleeping on it.

"I used one of these," sniffed another woman, producing a small, pencil-like inhalator. "It isn't any good but then one can't just sit around and see oneself suffer without doing something."

"Sprinkle a little quinine in your shoes," advised a Tyler business woman. "Sometimes," she sneezed, "I think it helps me."

Friends of W. M. Kimbell, Sinclair City, say "Bill can't sleep unless he pulls 'down all the windows, props himself up in bed with pillows, and puts on a battered straw hat."

A North Texas woman has an idea she is going to work out in detail when she gets around to it. It consists of a headharness with a spring motivated button that presses on the upper lip directly beneath the nose. "Whenever you feel a sneeze coming on you can just lower the harness over your face and there you are! You know, lots of times you can stop a sneeze by pressing on your lip."

An optometrist, asked for his remedy, absent-mindedly said, "get a handful of raisins, heat 'em real hot, and then hold 'em in your mouth—" A look of agony suddenly came over his face. "Nobe, tha's nod id," he muttered wretchedly. "Thad's doodhache remedy. Nod good for hay fever."

The same fatalistic attitude toward the affliction was voiced by C. B. Reagan, Troup insurance man. "You jud goodo ged ust do id—be tough and stig id out," he said. "There is no such thing as hay fever," adjudicated a veteran Troup merchant. "And if there is, vaseline will cure it."

Meanwhile the afflicted wearily sneeze and hope.

Legion Will Sponson Sons Group Here

Making effective the first step in one of the major objectives of the American Legion, the active sponsorship of the Sons of the American Legion, a meeting has been called for 7:30 o'clock Friday night at the American Legion hut for the junior organization.

There will be an election of officers of the Sons of the American Legion and members will be informed as to plans the Legion post has for the boys during the year.

In the local junior group there are 35 boys. The head of the Sons of the American Legion has the title of captain, a title similar in rank to the Legion's title of commander.

District Commander Charlie Malsel has spoken at four meetings in the past fortnight of the interest posts should have for the Sons of the American Legion. Attendance of the boys at the American Legion state convention in Austin was a feature of the state meeting. Joe Roche is chairman of the Sons of the American Legion committee. Other committee members are R. K. Douglas, B. W. Bettis, and Joe Shelton.

Baylor Expecting Big Homecoming

WACO, Oct. 20. (AP)—Baylor University is expecting the greatest homecoming celebration in its 94 year history Saturday. President Pat M. Neff said today.

Headlining the program will be the Baylor-Texas A. and M. football game. After formal dedication of the institution's new \$175,000 Rena Marrs McLean physical education building.

L. A. Wood, state superintendent of public instruction, and Earl B. Smyth, Baylor trustee and Dallas insurance executive, will be featured speakers. Present will be Marrs McLean, Beaumont and San Antonio oil man who donated substantially to erection of the structure and his mother for whom the building was named.

Officers of the Baylor Centennial Foundation have set the date as the official opening of their campaign among former students to raise funds for a student union building on the campus.

Chinese Defense Asserting Itself

HONGKONG, Oct. 20. (AP)—Japanese troops drove forward today in their hurried effort to reach Canton, but there were mounting indications that the Chinese defense at last was asserting itself.

A Japanese "mosquito" fleet of armed motorboats was reported skirting the South China coast to add a river assault to the overland drive. The invaders were

Ask Doctor About This Ideal Way TO LOSE FAT

READ EVERY WORD

Make up your mind now that you'll lose some of that ugly fat and really enjoy life. No one can blame you if you don't want to take harmful drugs, go on starvation diets and do backbreaking exercises. No sane woman would! And for sensible women like yourself who really want to reduce yet don't expect miracles overnight—who are willing to faithfully follow a most simple, inexpensive and pleasant 28 day plan (women considerably overweight naturally require longer periods), we suggest this easy plan:

First of all go light on fatty foods and sweets. Eat plentifully of lean meats, fresh fruits and vegetables. And for proper functioning be sure to take a half teaspoonful of Kruschen Salts in hot water every morning. And let's get this straight right now about Kruschen—

It is not harmful. It is NOT just one salt as some people may ignorantly believe. Look on the box! You'll see it is a blend of 6 active mineral salts, which when dissolved in water is similar to the famous medicinal waters of European Spas where countless fat-people have gone for years.

A jar of Kruschen costs but a few cents and makes 5 gallons of marvelous mineral health water. Get a jar EIGHT AWAY! At Creamy Drug, Box 4, Richards Drug Store and druggists everywhere.

The Story of OD and AD

and the AUTOMOBILE

OD and AD were machinists many years ago. One day, at a fair, they saw a buggy with an engine in it. They saw many ways to improve it, and each decided to build an automobile. But when it came time to sell their first cars, OD and AD had different ideas.

How OD Tried to Sell His First Automobile

OD invited all his friends and neighbors to his house. He drove his automobile around the block and gave them a ride. They were thrilled. They wanted to buy it. But when they learned that it cost \$3,000, not one of OD's friends could pay such a high price.

How AD Sold 10 Automobiles

AD had also spent nearly \$3,000 in building his first car. He knew that only a few people could afford so high a price, and to find them he must show his car to a great many. So he advertised that he would demonstrate his car the following Saturday afternoon. People came from miles around. AD ran his car up and down the street. Afterward, ten men wanted it. AD told them that by making ten cars he could cut costs and reduce his price to \$2,500. So he hired several men, rented a building, and started making more and better automobiles.

How OD Finally Sold a Car

OD heard that AD had sold ten cars, so he decided to try again. When his second car was finished, it had cost him almost as much as the first. He showed it to as many people as he could see and after a long time sold it for just about what it had cost him. In the next five years OD built several more automobiles, but always by the time his cars were finished AD was making better cars for lower prices.

How AD Sold 10,000 Automobiles

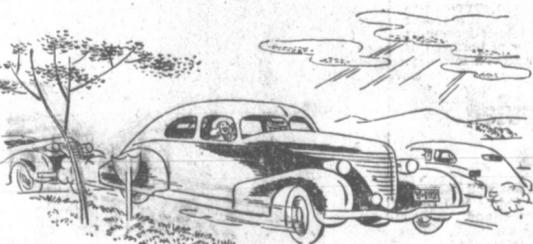

AD decided that if he could make cars by the hundreds, he could lower the cost and add still more improvements. So he appointed agents and advertised in other cities. In this way he was able to tell the story of his car to thousands and thousands of people neither he nor his agents had ever seen. The more agents he appointed, and the more he advertised, the more people came in to try his car, and the more cars he sold. And the more cars he built, the better he built them, and the less they cost. By 1911, AD was making such a good car for \$1,500 that he sold 10,000 that year.

Why OD Gave Up Trying to Sell Automobiles

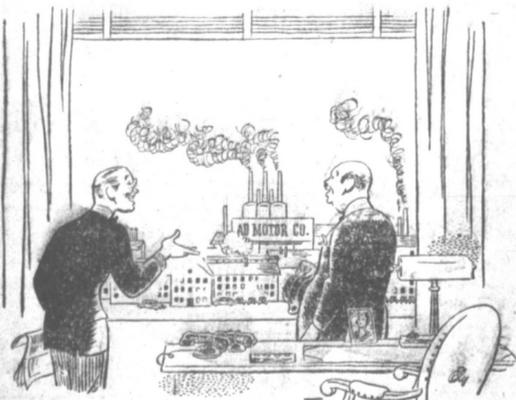

OD now saw that he could not possibly make cars at low cost by building only a few each year. Nor could he sell enough to make more by telling people about them one at a time. So he decided to go back to work as a mechanic. He applied at AD's factory and was promptly employed.

How AD Sold Millions of Automobiles

AD now realized that there were millions of people who would buy his automobiles if the prices were only lower. He also knew that if he could build hundreds of thousands of cars a year, he could make them better and at less cost. So he enlarged his factory, employed more men, and advertised to millions of people all over the country. By 1921, he was making a fine-looking car with a six-cylinder motor and a self-starter. And the price had been reduced to \$1,000. AD's profit per car was now very small. But he sold so many cars that his business was successful. And, as prices became lower and lower, millions of people who had never dreamed they could afford automobiles were able to own and enjoy them. By 1938, AD was making the best and finest looking car he had ever built—and the price was only \$750.

AD Tells OD How It Came About That So Many Families Now Have Automobiles

ONE DAY OD went into AD's office at the factory. OD said, "Remember the time we saw the horseless carriage at the fair? Who would have believed that in 30 years almost every family would have an automobile!" AD said, "It never would have been possible without advertising. All the advances in manufacturing would have been futile without advertising to tell the story. As it helped us to sell more and more cars, we were able to make them still better and sell them at lower prices. As a result, the advantages of an automobile are now enjoyed

by people of small means just as they are by the well-to-do." "But you spend millions for advertising," said OD. "Yes," said AD. "But we sell so many cars that our advertising costs only about \$15 per car. That is not much when you remember that in 30 years the average price of a car has been reduced by more than \$1,500. So, advertising has really helped to reduce prices and year after year has helped make it possible for millions of people to have better cars for less money."

[Car prices given above for 1911, 1921, and 1938 are the approximate average of new car prices in those years.]

The PAMPA NEWS

Paid Circulation Plus Reader Interest Equals Results

The Farm Chronicle

By NORBERT MURRAY

COTTON PRICE SKIDS

Cotton prices declined slightly during the past month despite the government's loan program. When the loan was announced on Aug. 27, middling seven-eighths-inch cotton averaged 8.36 cents a pound but by Sept. 13 had dropped to 7.93 cents.

Manufacturers' sales of cotton textiles continue generally below output, the U. S. Department of Agriculture reports. Foreign consumption also was down.

CORN LEAGUE VS. AAA

The Corn Belt Liberty League charges that cash benefits provided in the Farm Act "favor farmers who have been over-farming their land, and that farmers who have been conserving their farms make no reduction in corn acreage under the law, and are actually penalized if they don't conform with the allotments."

AAA officials, without having consulted Secretary Wallace or Administrator Tolley, reply as follows: "Under the 1938 program, the adjustment is greater for farmers who have over-cropped their land. This is true because equal weight is given to previous acreage cultivated and the soil management report."

"Since farmers who have not over-cropped their land will benefit from the program, they are asked to share part of the acreage reduction. It would be unfair to expect overcroppers to make all of the reduction when all farmers benefit alike from it."

FARMERS PLANT TREES

American farmers have planted a larger area to forests than any other group, according to the Forest Service of the U. S. Department of Agriculture.

An area of 3,680 square miles, nearly twice as large as Delaware, has been planted to trees by all agencies, and of this farmers planted 1,290 square miles.

CHAMPION EGG-LAYER

North Carolina State College has a hen which may set a new world's record for egg laying. The hen has just finished her seventh year of laying and has produced 1,374 eggs.

At present she is "off feed," but poultry specialists are giving her special attention in hope of stimulating her appetite.

NEEDY GET FLOUR

Nearly 214,000,000 pounds or about 1,000,000 barrels of surplus wheat flour and cereal have been distributed to relief families, the Surplus Commodities Corporation announces.

Approximately 2,600,000 families, or 9,300,000 persons shared in the government's gift.

Flour purchases thus far total 3,480,925 barrels, equivalent to 14,206,087 bushels of wheat, and cost about \$12,000,000.

COMMUNITY BUILDINGS

Community buildings, planned to meet the needs of farm people, are becoming increasingly popular, according to the U. S. Department of Agriculture.

These buildings are generally designed for many uses such as civic, social, recreational and educational activities.

Buying Wheat For Export

During the first week's operation of the wheat export subsidy program, the government bought 5,968,790 bushels and sold 1,849,597 bushels to shippers for sale in foreign markets.

The government paid from 59

ABODE OF PANHANDLE DWELLERS 600 YEARS AGO

The above photograph of a small portion of a new model in the Panhandle-Plains Historical Society museum at Canyon shows the type of houses used in this section by the Indian inhabitants of 600 years ago. The model is a restoration of the Panhandle Culture ruins on Antelope creek in southwest Hutchinson County.

Plains Historical Society Model Shows Type Of Houses Used In Top O' Texas In 1300 A. D.

CANYON, Oct. 15.—The average Panhandle family in 1300 A. D. may have had smoke in its eyes, but it probably was quite proud of the architecture of its dwelling.

The model shows a kind of low, flat, conical structure built of adobe and stone. A restoration of the Panhandle culture ruins on Antelope creek in southwest Hutchinson county, 12 feet 6 inches long and built to scale, has been completed in the laboratory of the Panhandle-Plains Historical Society museum on the West Texas State College campus. It is the work of G. F. Sundstrom of San Antonio, who has given most of his life to such restorations. He is now with the museum here.

The model shows 27 ruins, all restored with the exception of cross sections which reveal the interior arrangements. It is based on excavations made by WPA crews, who found well preserved rooms about 20 feet square facing east on a flat hill overlooking Antelope creek. There were scattered houses down the hill, but the model shows only the groupings at the top, where about one hundred persons lived.

The skillfully made miniature shows thatched roofs with the roof poles projecting from the covering of brush and adobe. A smoke hole, well smoked, is in the center of each roof. Entrances in that day were low—only 2 1/2 to 3 feet high, and usually placed between low storage rooms built in front of the living rooms. The entrances were closed in cold weather, by rock slabs or hide curtains.

Living Room Burials
The room floors show fire pits. In the actual ruins, seven burials were noted beneath the floors. Burials under the living rooms were common before the coming of Coronado. The construction was nearly arrow and fire proof, and the location doubtless furnished an advantage for the defenders.

Outside but nearby are shown refuse heaps and storage cists, the latter lined with rock.

The Indians who occupied the buildings were not unlike those living today. It is shown by the skeletons which were unearthed. They hunted the buffalo and other animals and also raised some corn and perhaps squash or other vegetables. The restoration was made under the direction of C. Stuart Johnston, professor of geology and anthropology. A smaller model of the ruins has been constructed for the State Fair at Dallas. Valuable assistance in the projects has been given by Floyd V. Studer, Amarillo insurance man, who for many years has been lecturing and studying evidences of prehistoric life on the plains.

to 78.5 cents a bushel, and received from 4 to 7 cents a bushel less than it paid for the wheat.

Most of the grain was bought in the Gulf of Mexico region, and some was purchased in the Pacific Northwest and on the Atlantic seaboard.

May Ask Process Taxes
Processing taxes may be sought at the next session of Congress in an effort to raise farm income, Washington dispatches revealed.

The object is to raise the revenue for increased benefit payments to farmers.

Another congressional issue will be price-fixing proposals now being urged by certain factions in the wheat and cotton belts.

One proposal would repeal the present farm act and its system of acreage allotments, commodity loans, marketing quotas and benefit payments.

As a substitute, prices on major farm products would be set to assure growers cost of production, plus a margin of profit.

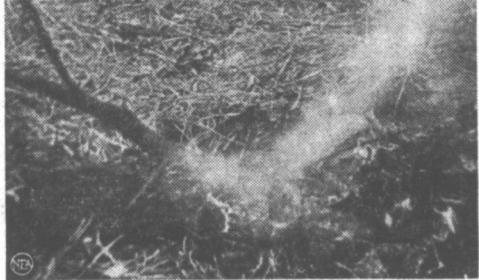

Plan Flour Export
Export of up to five million barrels of flour through payments of indemnities to shippers is planned by the AAA.

The new program supplements efforts already under way to sell

Buddhist Prays for Fallen Japanese

Far from the homeland, in war-torn Honan province of China, Japanese soldiers enlist the offices of a Buddhist priest at the funeral pyre of their fallen comrades. The priest, right, prays, as the soldiers stand in silence. The pyre is in the foreground.

Far from the homeland, in war-torn Honan province of China, Japanese soldiers enlist the offices of a Buddhist priest at the funeral pyre of their fallen comrades. The priest, right, prays, as the soldiers stand in silence. The pyre is in the foreground.

Tokio Truckin' . . . Japanese Jitters

Jitterbugs—Japanese style. Hot swing in Nippon. The imitative Japanese adapt themselves quickly to the western manner—whether it's the American jazz tempo or the latest in warfare. Here is a scene in a Tokio theater with high-stepping entertainers doing the Japanese version of the "Lambeth Walk—trucking" on down—the shag, or what have you.

100 million bushels of wheat in foreign markets under government subsidy.

The flour export program alls for payment to exporters of indemnities based on the difference between domestic prices and prices in foreign markets at the time of the sale.

Feed, Grain and Hay
Large supplies of the major feed grains and of hay are in prospect for the 1938-39 feeding season, the U. S. Bureau of Agricultural Economics reports.

Off to Work He Goes at 66

Thirteen years a Supreme Court Justice, Jarlan Fiske Stone, above, celebrated his 66th birthday by going to work as usual. The jurist is pictured in his car as he left his Washington home the morning of his birthday.

May Head New Cotton Group

Probable head of the new agriculture department committee to formulate plans for increased domestic consumption of cotton—possibly through a consumers' subsidy—is Harry L. Brown, above, assistant secretary of agriculture.

Camera Catches Speeders in the Act

No matter how hard he argues, the driver of the truck in the above picture won't convince a judge he wasn't traveling 60 miles an hour on a 30-mile speed limit highway. A camera on the windshield of the car following the truck photographed simultaneously the truck, a speedometer (registering 60 miles an hour) attached to the left front fender of the trailing auto, and the 30-mile speed limit sign. It's a new device in the war on speeders exhibited at the National Safety Council Congress in Chicago.

Judges and Public Differ on This

Four artist-judges, two Americans, an Englishman and a Frenchman, decided Karl Hofer's painting, "The Wind," above, was the best in the annual Carnegie Institute International Exhibition in Pittsburgh and awarded Painter Hofer first prize and \$1000. Almost immediately John Q. Public chose to differ—as he usually does from the annual judges' decision. Hofer is the first German to win the first prize in the 40-year history of the exhibition.

Payments For Overtime May Be Avoided

WASHINGTON, Oct. 20 (AP)—Officials of the wage-hour administration studied today the possibility that an important distinction in computing overtime payments may exist between workers employed on a weekly basis and those paid by hourly rates.

As a result, it appeared possible that some wage earners might legally continue to work more than 44 hours a week after the wage-hour law becomes effective Monday without actually increasing their aggregate incomes.

The interpretation of the law which creates this possibility has been given unofficially by wage-hour authorities in response to inquiries by business men and industrialists preparing to comply with the act.

Like other interpretations, however, it is subject to court review. If it should be held eventually to constitute a violation, the employer acting on it would be subject to penalties.

On this, as on other problems arising under the law, each employer must decide for himself the nature and extent of his compliance—always aware that any step he takes may be challenged in court.

When the wage-hour law becomes effective, the nation's standard work week will be 40 hours. When employees by agreement or otherwise work more hours, they must be compensated at the rate of time and one-half. These provisions have posed for officials the question of how overtime is to be figured for an individual employee.

This is the unofficial advice which some wage-hour authorities have given in response to inquiries:

- 1. Any employee who worked on an established hourly wage rate must be paid overtime compensation at one and one-half times that rate. Such a rate may have been established by agreement between the employer and employee, by contract or by collective bargaining.
- 2. A worker now employed on a flat weekly salary might be worked overtime without increased total pay by rendering his hourly rate as being at a lower figure.

Japanese Reported Threatening Hankow

SHANGHAI, Oct. 20. (AP)—Swiftly striking Japanese forces were reported today to be threatening the next line of Hankow defenses in a drive up both banks of the Yangtze River from Hwang-shih-kang, 60 air miles from the Chinese provisional capital.

The Japanese reported launching a gunboat attack against Ocheing, within 40 miles of Hankow, while Yangtze River south bank columns fought to the walls of Tachai, 40 miles from the Canton-Hankow Railway.

A flight of Japanese bombers was said to have destroyed several Chinese planes and damaged railway tracks, the airdrome, and supply trains at Changsha. Chinese said 200 were killed in the raid.

Find Out What Makes You Constipated!

You know that constipation often gives you that doxy, sunken, bogged down feeling. Why not get at the cause and prevent it? If you eat what millions do—things like bread, meat and potatoes—the chances are all that's the matter with you is you don't get enough "bulk." And "bulk" doesn't mean what you may think. It's a kind of food that isn't entirely digested, but leaves a soft bulky mass in the intestines that aids elimination.

If this is your trouble, what you need is crisp crunchy Kellogg's All-Bran for breakfast. It contains both "bulk" and Nature's great intestinal tonic, vitamin B₁. And it's not a drug, not a medicine! Eat All-Bran every day, drink plenty of water, and see if the old world doesn't look a lot brighter! All-Bran is made by Kellogg's in Battle Creek. Sold by every grocer.

GRIPPED BY MISERY OF A SORE THROAT!

(DUE TO A COLD)

Do This NOW—go after it with Vicks VapoRub. Melt a small lump of Vicks VapoRub on the tongue. Feel the soothing vapor—bathing the irritated membranes—bringing blessed relief—where you want it—when you want it.

Then TONIGHT—massage throat, chest and back with VapoRub. Its poultice-vapor action loosens phlegm—clears air-passages—eases coughing—relieves local congestion.

This 2-STEP METHOD is one of the proved ways of using VapoRub that have made it a family standby in more homes than all other medications of its kind.

Mustangs Prepare For Groom Tigers. WHEELER, Oct. 20 (Special) - The Wheeler Mustangs, a grim and determined lot, took to the gridiron Monday afternoon to polish a ragged defense that failed to click against the Shamrock Irishmen last Friday. The Mustangs meet the Groom Tigers in a non-conference tilt here Friday night.

The Wheeler squad lost their first game of the season Friday night when they dropped a heart-breaker to the Shamrock Irishmen. The Groom eleven took a 46-0 drubbing from the White Deer Bucks last Friday night. The game is rated a loss-up with neither eleven having any edge on paper.

Use Want-Ads For Results. Tigers Crippled For Wheeler Game. GROOM, Oct. 20 - A crippled band of Groom Tigers will invade Wheeler Friday night. Lost to the team for the rest of the season will be Ralph Britten, great quarterback, who suffered a broken collar bone in the game with White Deer last week.

On the sidelines for the game in Wheeler will be Billy Burghin, half back, who received a wrenched ankle in the same game. Coach Butch Clark has been working long and hard this week trying to develop Wall carriers to replace the cripples.

Golfers Rout Amarilloans

Shooting sensational golf the Pampa high school golf team defeated the Amarillo team 12 1/2 to 2 1/2 points in a game played in Amarillo yesterday afternoon. Zade Watkins, No. 2 on the local team, registered the lowest score when he carded a par 72. Bill Miskimin, No. 1, was a class second with a 74.

When the Amarillo team arrived with an extra player, Carl Brown, former Harvester football star, agreed to play as the fifth Pampa man although he had never played a game of golf in his life. Brown then proceeded to shoot an 88, losing 2 to 1 points to Andrews of Amarillo.

When the local team was selected, Bill Miskimin and Zade Watkins came up with a tie for the No. 1 position. They decided to play 18 more holes to decide the winner but it was not until 39 holes later that Miskimin finally won, 1 up. The last hole was played in almost dark.

The Pampa team will be coached by Pete Nossant, new pro at the Pampa Country club. He has been watching the boys in action and has picked out defects which he hopes to overcome quickly.

Result of yesterday's matches were: (Pampa players listed first.) Bill Miskimin Jr., 74, defeated Bill Cantrell, 76, 2 and 1. Zade Watkins, 72, beat Clifford Abbott, 75, 3 and 2.

Roy Ray, 36 on nine holes, defeated James Terry, who defaulted the last nine holes, 3 and 0. Maurice Ray, 78, defeated James Cargile, 82, 3 and 2. Carl Brown, 77, lost to Dale Andrews, 85, 2 and 1.

Baltimore, Oct. 20 (P) - The Maryland Jockey club, composed of gentlemanly devotees of horse racing, is gently and dignifiedly ballyhooing an event that has a good portion of the racing world agog - the Seabiscuit-War Admiral duel at Pimlico Nov. 1.

Author of the latest plug for the \$15,000 contest between two of turfdom's greatest present-day thoroughbreds is David F. Woods, able publicity director for the jockey club, whose young vice president, Alfred G. Vanderbilt negotiated for Pimlico one of the most discussed races never run.

Woods printed an informative "press brochure" of facts and figures about the mile and three-sixteenths "Biscuit-Admiral" race to be known as the "Pimlico Special." The bright yellow-backed booklet contains everything but a guess as to which will win.

From it, for instance, one learns that Seabiscuit, owned by C. S. Howard has started 83 races, won 31 and earned \$331,405. War Admiral, owned by Samuel Riddle has started 23 times, won 18 times and earned \$262,050.

Groom Tigers in a non-conference tilt here Friday night. The Wheeler squad lost their first game of the season Friday night when they dropped a heart-breaker to the Shamrock Irishmen. The Groom eleven took a 46-0 drubbing from the White Deer Bucks last Friday night. The game is rated a loss-up with neither eleven having any edge on paper.

CAST OF CHARACTERS
MYRTLE DOMBEY—heroin addict
DANNIE FEELY—officer assigned to investigate Ludden Dombey's murder

CHAPTER XVI
HAD not The Swingaters been in such a precarious spot, Tait would willingly have paid Leonard Macy \$5000 for his interest.

Tait wished that he knew more about the circumstances under which the share had been purchased.

It was a disconsolate and bewildered Bob Tait who returned to his own room from Leonard Macy's luxurious apartment.

Tait hesitated. "Why don't you notify Feely down at police headquarters?"

"I can't do that, for reasons I can't explain over the telephone."

"Then come up here. I'll be glad to see you."

"I can't do that, either. If you want to hear what I have to say you'll have to come to my address."

It sounded like a trick, and Tait was instantly aware of it. Yet he couldn't afford to pass up any bets.

Germany Increasing Philippines Trade
WASHINGTON, Oct. 20 (AP).—Guarded German inquiries on commercial prospects in the Philippines produced official speculation today whether the Hitler regime was eyeing the Far East as well as South America as a trade outlet.

The most recent inquiry, made by a business man described as influential in Nazi trade councils, caused government officials concerned with Far Eastern affairs to scan late commercial reports.

Germany, along with Japan and Italy, shared last year in increased sales to the Philippines.

Germany is building a second new ship for the Philippine government. Italy is constructing two commercial vessels for inter-island trade.

Germany has increased materially its shipping links with the islands and the Far East generally.

Efforts have been made to organize the Germans living in the Philippines into a bloc, as in other foreign lands.

Some officials believe Germany hopes to make future heavy trade gains in the islands and the Far East generally, by capitalizing on political friendship with Tokyo.

BIDS for SMILES
SURE SIGNAL
"Has daddy finished dressing?" "I don't think so, mummy. I heard him talking to his collar."—Toronto Globe-Mail.

NATURAL RESULT
"Here Hitler and Signor Mussolini sat fishing together on one side of the lake and Mr. Chamberlain on the other. But while the British prime minister caught fish after fish, the two dictators could not even raise a bite.

HERE HE COMES
"I went to cooking school." "You did, eh? And did you graduate with honors?" "I should say so—with crying crullers!"—Christian Science Monitor.

APPROPRIATE
"My best man died with us last Sunday and was so impressed with my bride's cooking that he sent her a carving set." "That was nice." "Not so very. He sent her three chickens and a mallet."—(Montreal Star.)

HATS
Factory machine worked by the MELLOW process to restore their snap and beauty. FELT HATS for sale... \$1.50 DRAPER'S HAT SHOP 109 1/2 W. Foster

a raincoat factory. Don't come unless you want to. It's all up to you.

"I'll be there." He replaced the receiver, and stared at the wall. He kept thinking of Harris Rogers and his threat.

The address puzzled even the taxi driver. "Say, that's a new one on me, brother. Sure you got the right address?"

"I think so. Remember the old Millbay addition, where all those red factory buildings are?"

"Oh... yeah, I remember that. There ain't anything doing in that part of town now."

The driver snapped down the metal flag and started the cab. "It's okay with me," he said.

It was a fairly long drive to the Millbay addition, but then began the more tedious job of finding the street and number which Tait had received over the telephone.

"It's either a light or a reflection from the moon." The driver piloted toward the curb. "I'll take a look at the number on the door—if there is one. Twenty-seven Thirty, you said it was."

BEFORE Tait could think to restrain him, the driver had jumped out of the car and into the night. He saw him cross the sidewalk, strike a match on the side of the doorway. The match flared for a scant moment, then went out.

He yanked his revolver from his pocket and started across the sidewalk. As he neared the building he caught the scent of a faint perfume, hauntingly familiar.

There was a groan almost at his feet. Before kneeling down, Tait tried to peer into the darkness of

the street. "What's wrong? What happened?" "Somebody—somebody took a whack at me with a knife," the driver gasped.

Squatted down beside the wounded man, Tait turned warily on his feet. Gradually his eyes became accustomed to the darkness.

He got up, approached it gingerly. Swiftly he kicked it open with one foot and sprang back, his weapon ready.

"Listen," Tait turned to the luckless driver. "Are you badly hurt? If I get you to the car can you stand it a while?"

"I want to take a look up that stairway. I'll be there in a minute—and then I'll drive you to a hospital pronto."

"You go up that stairway and I'll never get to a hospital, and neither will you. I'll be the morgue."

TAIT got one of the man's arms around his shoulders. "Come on. I'll get you onto the back seat of the cab where you can take it easy."

Against the taximan's feeble protests, Tait managed to get him into the cab. A hurried examination showed that there were two knife slashes, neither very deep.

Steadily, his gun ready, he started up the stair. Again, and stronger now, he caught the odor of perfume.

Suddenly he remembered that scent. It had been worn by the honey-colored blond who had walked out of the Claremont. He had almost collided with her the night he had gone into the apartment to see if Anne Lester had found Myrna.

It was an odd scent, one that wouldn't be encountered often. What was it doing here, Bob Tait wondered as he took another cautious step upward.

Waco And Corsicana To Play In Feature Game

2 Games Will Be Played In District One

By HAROLD V. RATLIFF, Associated Press Staff.

Paul Tyson, who over a 25-year period as a coach has won four state championships—the most for any one person in Texas Inter-scholastic League annals—sends his Waco Tigers against Corsicana tomorrow night in a game that may be the decisive factor in his drive back toward the top.

It's been ten years since Tyson and his Tigers flew the schoolboy football pennant, his team often finishing close to a district championship but not quite. Last year the Bengals tied for the title but lost on statistical tabulations.

Waco and Corsicana, clashing in the feature battle of the week, may determine the district 11 championship in the game at Waco. Both are undefeated and untied and many critics declare the winner will be the team to beat in the campaign for Central Texas honors.

But this game is one of a dozen or more where the chips will be down—crucial battles that will go a long way toward determining the ultimate district titlists.

Austin and Bowie, El Paso teams favored to scrap it out with Odessa for the district 4 crown, clash Saturday in a decisive game. Poly and Paschal, strong Fort Worth contenders, meet tomorrow night in a tilt having strong bearing on the district 7 race. Texarkana and Longview, unbeaten in district 10, meet tomorrow night.

Lufkin and Palestine, district 10 leaders, play at Palestine. Both are unbeaten in conference competition. In addition to the Waco-Corsicana tilt, Temple meets Cleburne in another game due to eliminate a contender for the title in district 11.

All four of the district 12 top clubs stage crucial games with Jefferson (San Antonio) meeting Austin and Brackenridge (San Antonio) clashing with Kerrville. Each is undefeated in conference play.

South Park (Beaumont) and Goose Creek open the drive in district 14—but it's a one-sided affair. Goose Creek has forfeited its games to Port Arthur and Beaumont, thus eliminating itself from championship possibility, but South Park must win the game or it will count against the Beaumont school's record. Donna and Mercedes meet in an important game in the lower bracket of the Rio Grande Valley district where both are undefeated in conference play.

The Oil Belt also has a game crucial to the Ranger Bulldogs who are unbeaten. Ranger and Brackenridge, one of the favorites for the eastern division title, defeat for Ranger would practically eliminate the Bulldogs.

There are 55 games on this week's schedule but more than 35 are conference tilts.

The week's schedule by districts: District 1—Friday: Borger at Lubbock (conference); Saturday: Lamasa at Amarillo (conference).

District 2—Friday: Vernon at Childress (conference), Quanah at Electric (conference), Wichita Falls at Olney (conference), Cisco at Graham.

District 3—Friday: Brownwood at Stephenville (conference), Breckenridge at Ranger (conference), Abilene at San Angelo (conference), Big Spring at Sweetwater (conference), Demonstration School (North Texas State Teachers College) at Mineral Wells.

District 4—Friday: Van Horn at Pampa, Cathedral (El Paso) at Ysleta, Eastland at El Paso High; Saturday: Austin (El Paso) vs. Bowie (El Paso) (conference).

District 5—Friday: Bonham at Sherman (conference), Tishomingo, Okla., at Denison, Adamson (Dallas) at Gainesville, Honey Grove at Paris.

District 6—Friday: Greenville at Highland Park (Dallas), Denton at Sulphur Springs (conference).

District 7—Friday: Poly (Fort Worth) vs. Paschal (Fort Worth), conference; Saturday: Kosciusko, Miss., at North Side (Fort Worth).

District 8—Friday: Forest (Dallas) vs. Sumner (Dallas), conference; Saturday: Woodrow Wilson (Dallas) vs. Dallas Tech (conference).

District 9—Friday: Marshall at Kilgore (conference), Texarkana at Longview (conference), Tyler at Gladewater (conference), Willis Point at Athens.

District 10—Friday: Henderson at Mexia (conference), Livingston at Nacogdoches (conference), Lufkin at Palestine (conference), Jacksonville at Gaston (conference).

District 11—Friday: Cleburne at Temple (conference), Bryan at Waxahatchie (conference), Corsicana at Waco (conference).

District 12—Friday: Jefferson (San Antonio) at Austin (conference), Brackenridge (San Antonio) at Kerrville (conference), San Antonio Tech

Pitt Likely To Rely On Overland Against SMU

NEW YORK, Oct. 20 (AP)—The struggle for the mythical national football championship, a prize as hard to nail as Reg Grands in an open field, cases off a bit Saturday. Of the ten teams leading the Associated Press poll, only four head into heavy weather.

California, third, Notre Dame, fifth, Santa Clara, sixth, and Syracuse, tenth, are the leaders facing the sternest opposition.

The Golden Bears oppose Washington, Notre Dame meets Carnegie Tech, Santa Clara takes on Arkansas, a team that can and will pass at every opportunity, and Syracuse must battle a rough, tough Michigan State team.

The others have what looks like easy sailing. Minnesota does not play. Pitt meets Southern Methodist and, despite Jock Sutherland's yearly crack about inaugurating a passing attack, probably will rely on its smashing overland offense. The Panthers are ranked first in the poll, having a wide margin over Minnesota.

The others have what looks like easy sailing. Minnesota does not play. Pitt meets Southern Methodist and, despite Jock Sutherland's yearly crack about inaugurating a passing attack, probably will rely on its smashing overland offense. The Panthers are ranked first in the poll, having a wide margin over Minnesota.

Marquette faces a stiff assignment against seventh-place Texas Christian, whose three musketeers—Tackle I. B. Hale, Center Kl Aldrich, and Back Davey O'Brien—are as good as any trio on the gridiron. Tennessee and Duke, eighth and ninth, face respectively romps with the Citadel and Wake Forest.

Shamrock Meets Memphis Friday

SHAMROCK, Oct. 20—The Shamrock Irish football team will invade the turf of the Memphis Cyclones Friday night. The Irishmen came thru with a 19-6 victory over the Wheeler Mustangs to remain in the undefeated Class B ranks. The only blot on the Irish record is a defeat by the Class A. Childress Bobcats.

Coach G. B. Rush had his boys at top shape against Wheeler and came out of the game with only minor injuries. Jack George, center, received a blow on the neck that necessitated his leaving the game but he is reported improved and will possibly be ready for the next game.

The dope sheet should give the Irish a slight advantage over the Cyclone but in holding the powerful McLean Tigers to a 19-0 score the Cyclone has shown a stubborn defense and a good scoring threat especially dangerous is the 165-pound triple threat quarterback, Talmadge Pounds.

The Irish will be playing this game on the enemy field and Memphis is out to avenge an upset and unexpected 6-6 tie that the Clarendon Broncos played them last Friday. Both teams have exceptional forward passers and a close but exciting game is expected.

DiMaggio Through Being 'Holdout Kid'

SAN FRANCISCO, Oct. 20 (AP)—Joe DiMaggio, one of Colonel Jake Ruppert's wayward Yankees at the start of the 1938 season, confided in the home folks today—"I'm through being the holdout kid."

Back in San Francisco at picturesque Fisherman's Wharf, Joe talked with the humble fisherman who were his companions before he deserted the nets for baseball and who are among his greatest boosters.

"Yes," said Joe, "that's right. I'm through being the holdout kid. I expect to be among the first in camp next spring and I'm gonna get myself in shape so that I can't miss having a good season." Some believe Joe already knows what Col. Ruppert will pay him next season.

vs. Harlandale (San Antonio), conference.

District 13—Thursday: Davis (Houston) vs. Lamar (Houston), conference; Friday: Milby (Houston) at Conroe (conference), Mexico City All-Stars at San Jacinto (Houston); Saturday: Reagan (Houston) vs. Austin (Houston), conference.

District 14—Kirvin (Galveston) vs. Ball (Galveston), Port Arthur at Orange (conference), St. Anthony's (Beaumont) vs. Beaumont High, South Park (Beaumont) at Goose Creek (conference).

Dist 15—Friday: Laredo at Robstown (conference), Lake Charles, La., at Corpus Christi, Mission at Kingsville.

District 16—Thursday: Edinburg at Harlingen (conference); Friday: Weslaco at Brownsville, McAllen at San Benito (conference), Donna at Merceles (conference), Pharr-San Juan-Alamo at La Feria.

Tex Walkins Returns To Mat Wars Here On Monday Night

Sport Sparks

By FELIX R. MCKNIGHT

DALLAS, Oct. 20 (AP)—Off the cuff.

Not the 36-6 Texas Christian debacle of Saturday last, but a 48-0 licking Texas handed out in 1898 was the worst defeat the Texas Aggies have taken on sacred soil of their Kyle Field. . . . Southern Methodist's "last mile" march into Pittsburgh Saturday marks its 27th inter-sectional game in 13 years.

Not a grumble has been heard about D. X. Bible and his problem children at Texas. . . . The old master, with eight more iron-bound years on his contract, is taking some stiff jolts now but his system will be under way in '40. . . . And don't forget his fine triple-threat, brittle shouldered Charles Haas, went out for the year before the fun started. . . . He could have been the difference.

A Dallas sports writer addressed members of a touchdown club Saturday last on "how to pick the football winners." His advice was given just a few hours before Arkansas laid it on Texas, 42-6. . . . His public prediction was the week's class—a scoreless tie! Ned James, Texas Christian freshman line coach who gets all those brick walls ready for the varsity, never earned a college football letter.

Texas, invading Houston to meet Rice Saturday, hasn't won a game from the Owls since 1933. . . . And they're not the hottest tip this weekend. . . . If you don't know it, fencing is a southwest conference sport and the Texas Aggies and Baylor will battle swords Saturday. . . . Slender Ed Hennig, who tutored Sam Baugh in his Sweetwater high school days, may have a state championship schoolboy contender in his Tyler Lions. . . . In six straight wins his boys have punched across 103 points to the enemy's 16.

Best grid story of the week: Red Forehand, Brackenridge high coach of San Antonio, took his lads to Temple last week. . . . Enroute to the game he stopped at Austin, picked up Standard Lambert, Austin coach, and carried him to Temple so he could scout his own Brackenridge Eagles. . . . As if that wasn't enough, Forehand and his wife returned to Austin after the game, spent the night with the Lamberts so Forehand could scout Austin High the following day. . . . Brackenridge and Austin play Nov. 4.

In all the commotion, few realize that when Texas Tech and Texas School of Mines play Saturday at Odessa, two of the nation's undefeated, untied college teams will be meeting. . . . Long Tom Schiebel, a senior at Dallas Tech high school who has been riding the bench for three seasons, is the current hero now. . . . Last week his Techs led by a single touchdown when he spotted a Greenville and buried far across the field, waiting for a "sneak pass" . . . Schiebel leaped from the bench, scurried across the field. . . . Just as Tom reached the umpire, the ball was snapped, the pass to the "hideout" was completed and Greenville scored. . . . But the officials brought the ball back ruled the ball was dead because Tom had reached the umps in time. . . . And Tom, who has deliberately substituted himself for Tech's hero full-back, came trotting off the field.

Three Americans Win In Argentina BUENOS AIRES, Argentina, Oct. 20 (AP)—Three of the four United States boxers who appeared on the first night's card of the Pan-American championships won their bouts here last night.

First of the U. S. Amateurs to appear was Bobby Carroll, featherweight from Trenton, N. J., who

Buffaloes Will Play Goldbugs Friday Night

CANYON, Oct. 20—What might be called a gridiron revival is in progress at Buffalo Field this week as West Texas State reorganizes its eleven to meet the challenge of a series of hard games. The Oklahoma City University Goldbugs will come here Friday night.

Coaches Baggett and Dougal have made numerous lineup changes in their search for an effective starting combination. Other shifts were dictated by the necessity of providing reserves at certain positions. Wiggins has been changed from left end to right tackle and Eldon Davis from right halfback to right guard. Davis was needed because Bratton suffered a finger fracture last week, and Paulkner hurt an old ankle injury again. Leon Williams, a left guard reserve, now is an understudy at right tackle, replacing Doyle Bunchi. Dewey Johnson has been advanced to the point where he is a co-starter with George Taylor at right end—depending on the best showing during scrimmages.

Opening the card at 8 o'clock sharp will be Blacksmith Pedigo of Louisville, Ky., and Sheik Mar Allah, rough and tough Persian who was dethroned by Johnson last Monday night.

Walkins, whose home town is Post, Texas, has been on a tour of the east where he has taken all comers. According to advance reports the former Navy champion is even rougher than when he appeared here briefly last spring. The sailor will find Williams a tough nut to crack because of his speed and uncanny knowledge of wrestling holds.

Garcia Expects To Whip Negro

NEW YORK, Oct. 20 (AP)—Ceferino Garcia, the fellow voted "most likely to succeed" in the grisly business of beating Henry Armstrong, is an affable young Filipino who makes no secret of the fact he expects to pummel the welter and lightweight champion into insensibility.

By so doing he would lift the welter crown, something he's been trying to do for two years. He missed against Barney Ross, but he is working out at Stillman's Gymnasium with the express intention of doing a little better against Henry the Hammer, when they meet in the Garden ring, Nov. 2.

Someone asked Garcia if he expected to knock Henry out. "Surely I will do it eef I hit him," said Ceferino, who added a

string by explaining, "Sometimes my punches they do not land. But eef they do I will knock him out." Garcia possesses a "bolo" punch, as a gate attraction the finest descendant of Bob Fitzsimmons

corkscrew punch. The story is Ceferino developed the punch slashing at sugar cane with a bolo. "I am in good shape," he continued, "I have seen Armstrong

fight two-three times and I know how to beat him."

TAKE A TIP FROM 960 MEN ON WHISKEY ECONOMY!

Out of 1,000 Men Who Sampled Old Quaker, Now 3 Years Old—960 Found It Smooth, Rich and Mellow . . . Supporting Our Belief Old Quaker Rivals Many Higher Priced Brands!

Here's great news for every man who enjoys good whiskey but does not enjoy paying high prices for it. Old Quaker, now 3 years old, rivals many fine whiskeys that are more

expensive. Here's why we think so: We went to 1,000 men and asked them to sample Old Quaker. "Smell it!" we said. "Taste it! Swallow a drink of it! And give us your frank opinion."

None of these 1,000 men knew the name, age or price of the whiskey he was trying, yet 960 commented on the smoothness, richness, mellowness of Old Quaker, confirming our belief Old Quaker is an amazing bargain at this sensational price.

What this Means to You If these 960 men are right—here's a simple, direct way to save money on whiskey. Change to Old Quaker! Make this same simple trial yourself! And see for yourself if it isn't news for every thrifty drinker!

NOTE: Trials conducted by the Market Research Corp. of America.
