REPUBLICANS SWEEP 12 STATES

M'Colm Named Parade Marshal; Four Events On Armistice Program

Father Kills Family Of 4 And Himself

PORT WORTH, Nov. 9 (AP)—Oliver Harper and four members of his family were found dead today in a gas-filled residence and Justice of the Peace Hal Hughes returned a verdict of murder and suicide. The dead were: Oliver W. Harper, bakery operator and former chemist. Mrs. Harper. Wendell Harper, 13, a son. Charlotte Harper, 9, a daughter. Tom Harper, 7, a son. Firemen wearing gas masks broke into the locked house, where they found Harper, his wife and daughter and in another bedroom the two boys. Mrs. Harper, police deduced, evidently had attempted to open a window and had collapsed at the foot of the bed. They said the little girls evidently had struggled before death came. E. W. Henry, an employe of Harper, discovered the deaths. He found a note warning of "deadly gas, dangerous" and instructed him to notify Chris Hamilton (2920 Hermosillo Drive), Glendale, Calif., and Henderson Harper (1246 Gilmore avenue), Kansas City, Kas. The deaths apparently occurred last night, physicians said. Four months ago Harper left a position as head chemist for the Fort Worth Grain and Cotton Exchange.

County Wars On Roaches After Allred Protest

Gray county officials today declared war on cockroaches infesting the county jail after Beulah Allred and other prisoners voiced a vigorous protest. Officials issued orders to eradicate the roaches. Miss Allred spent her third day in jail on a 31st district court indictment, charging criminal libel, that was transferred to county court. Deputies will carry the battle to the roaches in the clean-up campaign. The supply of blankets at the jail is low but this is not unusual, officers say, as prisoners are in the habit of tearing up blankets and using them for towels. Last week the installation of steel wire screens on 13 windows of the jail was completed and at the commissioners meeting Tuesday an order was passed approving a bill of \$303.25 for the work.

Life Term Assessed Ben Chapman Upheld

AUSTIN, Nov. 9 (AP)—The Court of Criminal Appeals today affirmed a life sentence assessed Ben Chapman in Carson county on conviction of slaying Lee Hutson, Dec. 14, 1937. Chapman, accused of shooting Hutson while the pair and third person were on an automobile drive, attacked the trial procedure on grounds the court had not granted him a separate trial on plea of insanity. The Appellate Court said the request for separate trial on insanity was not made before the defendant announced ready for trial of the murder charge and the lower court properly disallowed separate trial on the insanity question. The Appellate Court also affirmed a 20-year sentence given O. L. Davis in Fisher county for the 1937 Christmas Eve slaying of Nannie Lee Risher whom the state charged was stabbed with a knife during a quarrel.

Democrats Win In New Mexico Voting

ALBUQUERQUE, N. M., Nov. 9 (AP)—New Mexico remained in the Democratic fold today as returns from Tuesday's off-year elections made certain the return to Congress of Rep. J. J. Dempsey, the state's only House member, and rolled up majorities for the state ticket expected to reach 25,000. With more than half the state's voting district reported, the entire Democratic ticket enjoyed slowly swelling majorities. The most hotly contested battle was waged in the gubernatorial race, where John E. Miles, former Democratic state chairman, edged ahead of Albert K. Mitchell, Republican candidate and former President of the American National Livestock Association. His majority appeared likely to exceed 10,000 when all returns were complete.

L. L. McColm, commander of the Pampa post 1657 of the Veterans of Foreign Wars, was named as marshal of the parade to be given here Friday as the first of four events on the Armistice day program in Pampa, when 15 members of the committee, headed by J. L. Southern as general chairman, held a meeting Tuesday night. Aides to Mr. McColm will be: A. E. Monteth, Frank J. Thomas, Charlie Maisei, and H. P. Lusby. In the parade the following organizations will be represented: Lions and Kiwanis clubs, Junior Chamber of Commerce, American Legion, American Legion auxiliary, Junior auxiliary, Sons of the American Legion, Veterans of Foreign Wars, Pampa high school pep squad, Boy Scouts, Spanish-American war veterans, and three organizations that were active in France in the days of the A. E. F., the Red Cross, American Army, and Knights of Columbus. In addition to these organizations in the parade, there will be bands of the Pampa high, junior high and ward schools, and the LeFors Klitte band—seven bands in all. The LeFors band will march near the front of the parade, which will be headed by the massed colors of the V. F. W. and the American Legion. What parts all of the organizations, apart from the bands, will have in the parade has not yet been announced. Some are expected to have floats entered, but definite announcement concerning this has not yet been made. The WPA recreation project will be among those groups having a float in the parade. The Boy Scouts will have color bearers representing each of the six Pampa troops. Parade Route Unchanged Starting point of the parade will be the same as has been announced previously: on South Cuyler street in front of Merrick & Boyd Lumber Co. The parade will begin forming at 9:30 o'clock Friday morning and all persons participating are expected to be in their places in the parade formation at that time. Promptly at 10 o'clock the parade will move north on Cuyler, proceeding to the intersection with Brownling, thence west on Brownling to Frost, south on Frost to West, then west on Foster to the American Legion hut, where the parade will disband. End of the parade for members. See PARADE, Page 5

Those loud cheers heard across the land were for David E. Wilson of Santa Monica, Calif., who has patented a "phooey" face that sticks out its tongue and delivers a noisy "bird" to the auto-pest who thinks horn-

'PHOOEY' TO YOU, MR. HONKER

honking is the most important part of car driving. Inventor Wilson is pictured with the "phooey" face, which is attached to the rear of the auto and operated electrically from the dashboard.

1,044 Votes Cast In 14 Boxes For Demos, 60 For Republicans

With only three boxes still unreported this morning, the Democratic candidate's apparently made the customary clean sweep in the general election held Tuesday. Alameda, Laketon and Farrington were the three precincts from which no report had been received up to noon today. An unofficial checkup today showed O'Daniel polling 1,044 votes to Boynton, the Republican candidate's, 60. Favoring the amendment that would omit the dueling clause from the oath of office were 286 Gray county voters, while 190 were opposed to changing the amendment. These figures are from the returns on 14 of the county's 17 precincts. An official canvass of the returns is to be made when the county commissioners meet Monday. Ennis favors received several votes as a write-in candidate for county attorney, Dan McGrew one vote for sheriff, and Col. E. O. Thompson, one vote for governor. (By The Associated Press)

W. Lee O'Daniel, Fort Worth flour salesman who campaigned with a hillbilly band in the primaries, yesterday along with the remainder of the Texas Democratic state war office in the general election without having so much as distributed a card or attended a pie supper. The Democrats, who did all their hard work last summer in eliminating each other, piled up the usual top-sided majorities as an estimated million of voters made it official for those seeking state office and places in Congress. Returns to the Texas Election Bureau when it quit compiling returns for the night showed O'Daniel had received 156,138 votes from 98 counties, or 26.1 inches 26 complete. Alexander Boynton, Republican, had 5,660; Homer Brooks, (By The Associated Press)

LaFollette And New Deal Senator Lose

MILWAUKEE, Nov. 9 (AP)—The name LaFollette has lost its magic business, as defeated Gov. Philip F. LaFollette for re-election yesterday, the first time in 48 years Wisconsin has turned down the family in general election. Crashing with his hopes of being the state's first four-term chief executive went his 1910 presidential stock. Even his associates agreed that with its leader repudiated by the homefolks, far-flung expansion of the National Progressive party would be a slow and difficult task. Julius P. Hill, wealthy, 62-year-old Milwaukee manufacturer, won the gubernatorial race, piling up a vote which incomplete returns indicated would top LaFollette's by approximately 175,000. The state also rejected the New Deal, as represented by U. S. Senator P. Ryan Duffy. Asking re-election on his record as an out-and-out Roosevelt man, Duffy ran a poor third, losing to Alexander Wiley, Republican, by more than 175,000. Lieut. Gov. Herman L. Ekern, Progressive, finished second, but far behind. (By The Associated Press)

I Heard ---

A group laughing while Frank Monroe, principal of Woodrow Wilson school, told about the antics of a room of first graders who changed from labors to desks this week. Frank said the kiddies couldn't get used to sitting alone at desks and for a day they squirmed, wiggled, crawled out of their seats, under the desks and over the desks.

Stark War Tragedy, To Be Staged Tonight, Is Praised By Veterans

Traffic Plans For Saturday Outlined Here

Plans for handling football traffic to and from Harvester field Friday afternoon when the Pampa Harvesters and Lubbock Westerners clash in a holiday game were perfected this morning at a meeting of city officials, police officers, American Legion representatives and school heads. Immediately following the American Legion parade, set for 10 o'clock, the high school band will go to the Santa Fe station to meet the special train from Lubbock, due to arrive at 11:40 o'clock. The Pampa and Lubbock bands and Lubbock fans will march to the high school where the parade will disband. School buses, and courtesy cars provided by the Chamber of Commerce through its goodwill committee of which Shelby Gantz is chairman, will start leaving from the north side of the gymnasium at 1 o'clock carrying Lubbock fans to the field. Route of the cars and buses will be north on Russell street, east on Charles street to Charles street and north on Charles street to the last street south of Harvester park where a right turn to the old Miami road will be made, traffic then going to the east gate where Lubbock fans will enter. The return will be the same way. General traffic to the field will be on Cuyler and Ballard streets. Traffic in downtown Pampa and along the route will be handled by Police Chief J. I. Downs and his officers assisted by state highway patrolmen, invited by the chief to be here and members of the American Legion. Sheriff's officers will be in charge at the field assisted by state highway patrolmen and Le-

Negro Sentenced To Die In Chair By Donley Jury

Between 40 and 50 peace officers of the Panhandle were on duty in Clarendon Tuesday, when Morris Norman, 20 year old Chicago negro, was sentenced to die in the electric chair at Huntsville for attacking a white woman in Clarendon on October 30. The jury brought in the verdict after being out only one-half hour. Deputy George Inman, who with Deputy O. T. Lindsey and Texas Highway patrol officers Norrell Red-wine and C. W. Robertson, among local officers was in Clarendon yesterday, said he counted among the gathering 11 highway patrol officers, two Rangers, and nine sheriffs. Part of the officers were stationed on the first floor of the courthouse. Two officers were stationed at each door. Everyone entering the courtroom was searched and no one under the age of 21 was allowed to enter. After the sentence had been passed by District Judge A. S. Moss of Memphis, the courtroom was cleared except for the court officials, defendants, attorneys and peace officers. Rangers Neal Arthur and Pat Tulliver are taking the negro to Huntsville, Deputy Inman said.

Ordinance Requires Food, Drink Handlers To Have Health Tests

Preliminary draft of a proposed ordinance designed to protect public health by requiring all handlers of food and drink in Pampa to have health certificates was presented to the city commission at its regular meeting Tuesday afternoon by Walter E. Rogers, city attorney. No action was taken on the ordinance, pending a revision of certain sections. Under the ordinance all Pampans engaged in the preparation or handling of food, food products will be required to undergo a physical examination and obtain a health certificate. This ruling would apply to all food and drink handlers when any part of the human body or clothing comes in contact with food or drink, and would apply to employers, owners, proprietors, as well as employees. The physical examination would include a blood test and the health certificate would be issued by the city health officer. Certificates are for a six-month period. Either the city health officer or the city inspector may cite offenders. A fine of from \$5 to \$100 is the penalty for violation of the ordinance. Revision of the preliminary draft was occasioned by indecision concerning the exact wording as to contagious and infectious diseases.

British Drop Plan To Partition Palestine

LONDON, Nov. 9 (AP)—The British government announced today abandonment of its proposal to partition Palestine. Instead, a conference of Jews and Arabs will be summoned in London and an attempt made to work out an amicable settlement. If the conference fails, the government will "take their own decision in the light of their examination of the problem and of the discussions in a statement issued by Sir John Woodhead, the government announced its conclusion "political, administrative and financial difficulties in the proposal to create independent Arab and Jewish states in Palestine are so great that this solution of the problem is impractical." The statement said members of the commission were "unable to re-

ELECTED JUDGE

Jack Allen

Jack Allen Of Perryton Wins By 4-1 Count

By a vote of more than four to one, Jack Allen, Perryton attorney, was elected judge of the 84th judicial district, in the general election Tuesday. The district is composed of Ochiltree, Hutchinson, Carson, Hemphill and Hansford county. Allen polled 2,623 votes to Joseph Aynesworth's 610. Aynesworth is a former attorney. The two men were rivals for the two-year unexpired term of Judge E. J. Pickens, who died recently. Curtis Douglass of Panhandle has been serving as district judge since his appointment last month by Governor Allan. W. L. McConnell was elected district attorney over Judge H. M. Hood, a "write in" candidate. Returns by counties, four of them incomplete, last night were: Hansford—Allen 354, Aynesworth 24; Ochiltree—Allen 980, Aynesworth 24; Hutchinson—Allen 712, Aynesworth 47; Carson—Allen 325, Aynesworth 11; Hemphill—Allen 152, Aynesworth 80. Deputy George Inman, who with Deputy O. T. Lindsey and Texas Highway patrol officers Norrell Redwine and C. W. Robertson, among local officers was in Clarendon yesterday, said he counted among the gathering 11 highway patrol officers, two Rangers, and nine sheriffs. Part of the officers were stationed on the first floor of the courthouse. Two officers were stationed at each door. Everyone entering the courtroom was searched and no one under the age of 21 was allowed to enter. After the sentence had been passed by District Judge A. S. Moss of Memphis, the courtroom was cleared except for the court officials, defendants, attorneys and peace officers. Rangers Neal Arthur and Pat Tulliver are taking the negro to Huntsville, Deputy Inman said.

Demos Lose Pennsylvania And Michigan

New Deal Holds 7 States, Including California, N. York

(By The Associated Press) The Republican party hit the comeback trail of political power today by upsetting Democratic regimes in 12 strategic states, among them Pennsylvania. It delivered to the New Deal the first major election reverse since Franklin Roosevelt was chosen president six years ago. The Democrats, nevertheless, retained control of Congress and more than half the governorships. Along the Atlantic seaboard, in the midwest and on to the Pacific coast one Democratic administration after another toppled before the tide of votes. About a dozen Republicans contested successfully for governorships now held by Democrats. Eight Republican aspirants won Democratic seats in the Senate. 50 House Seats Switched As returns continued to come in, more than 50 House seats switched from the Democratic to the Republican side. In the two biggest state elections—New York and Pennsylvania—the major parties split even. Governor Herbert H. Lehman, New York Democrat, won reelection over Thomas E. Dewey after exciting hours of vote-counting in which first one, and then the other pulled ahead. Senator Robert F. Wagner (D., N. Y.), a staunch Roosevelt supporter, also outdistanced his Republican rival and Rep. James M. Mead (D.) was chosen to fill the seat made vacant by the death of Senator Royal S. Copeland. In nearby Pennsylvania, just about the reverse occurred. Governor George H. Earle, who gave the state a "little New Deal" failed in his effort to unseat Republican Senator James J. ("Puddler Jim") Davis. Arthur H. James, who campaigned on a promise to undo See ELECTION, Page 5

New Governor To Pardon Tom Mooney

LOS ANGELES, Nov. 9 (AP)—Governor-Elect Culbert Olson today started preparation of a statement announcing that he will pardon Thomas J. Mooney, convicted in the San Francisco Preparedness Day bombing case of 1916. The Mooney case has been the focus of action by federal leaders for many years and four Republican governors had refused a pardon to Mooney. Olson, while serving in the state Senate, supported a resolution last year which sought to effect the pardon by action of the legislature. The liberal leader, first Democrat elected to the governorship of California in 41 years, said that his view was the same today as it was when he supported the resolution on March 16, 1937.

SAN QUENTIN, Calif., Nov. 9 (AP)—Thomas J. Mooney today heard in silence the statement of Governor-Elect Culbert L. Olson that a pardon application of the convicted Preparedness Day bomber would be favorably received. Mooney was conferring with his attorney, George T. Davis, at the time.

Woman Returns \$9,300 In Currency She Found

CEDAR RAPIDS, Ia., Nov. 9 (AP)—What would you do if you found \$9,300 in currency in the street? An unidentified woman, according to police records, found that amount in \$50 and \$100 bills here. What did she do with it? She returned it to the owner, Mrs. Charles J. Stewart, who earlier had reported to police she lost that amount while carrying it in a "dirty pink rag purse."

Maryland's Marriage Trade Voted Out

BALTIMORE, Nov. 9 (AP)—Baltimore voters apparently ended Eikton's lucrative marriage trade today, supporting by 60,795 to 15,891 a law requiring a 48-hour lapse in Maryland between license and wedding. The measure admittedly was directed at the "marrying ministers" of the famous Gretna Green where more than 2,000 couples are married monthly. There appeared no likelihood the outstate vote would upset the Baltimore margin.

Miss Dixie Nell Cheatham Honored At Bridal Shower

PANHANDLE, Nov. 9.—A pre-nuptial shower honoring Miss Dixie Nell Cheatham, who will become the bride of Jewell Meacham, Nov. 10, was given in the Panhandle Inn Monday afternoon by the Misses Elizabeth Powell, Lola Pearl Cox, Georgia Bell Wigham, Evelyn Cox, Mozelle Pruitt, and Evelyn Bernauer.

A color scheme of yellow and orchid was used with yellow chrysanthemums and orchid asters decorating the rooms.

Hot tea and cookies was served the guests who were seated horse-shoe fashion for good luck to the bride-elect.

Given Arthur Farlow and the little Miss Lanell Murray, niece of Miss Cheatham, dressed as bride and groom, entered in a motor scooter drawing a trailer laden with the gifts, which were opened by the honoree.

Present for the affair were Misses Mary Sue Walker, Margaret Helen Eyrone, Louise Schulze, Margaret Wasson, Juanita Harris, Mildred Chastain, Naoma Kimble; Misses J. O. Murray, Chas. Walker, Frank Sparks, Chas. Franklin, Earl Nunn, Jim McCaskey, Vaughn Briggs, J. S. Sparks, Ralph Ellis, Ernest Roselius, O. Z. Light, M. D. Eagle, Lloyd Miller, J. E. Southwood, Mrs. J. W. Meacham of Turkey, Mrs. Hugh Isbell of Pampa, and the six hostesses.

Sending gifts were Mrs. J. H. Meacham of Turkey, and Misses John O'Keefe, Jerry Cavanaugh, Clarence Sheppard, Jack Wigham, W. A. Miller, Geary Simms, Vera Wisdom, Tom Cleek, F. F. Ferrell, Bert Stephens of Pampa, Brice Mathis, Clara Cornelius, Harold Holcomb of Borger, Carrol Purvines, Margaret Bobbit, Bob Vaughn, George Crow, F. A. Rander; Misses Geraldine Bobbit, Louise Orr, Mary Ewing, Maudie Cope, Maxine Bender, and Ida Lee Cope.

Catholic Women Of Galveston Name Mrs. McKenzie Head

AUSTIN, Nov. 9. (AP)—The National Council of Catholic Women for the diocese of Galveston headed into a new year of activity with Mrs. Arthur McKenzie of Austin as president.

She was chosen at a final convention session Monday in succession to Mrs. Lucian Carroll of Houston. Palestine was selected for the 1939 convention.

CHEVROLET TAKES BIG STRIDES AHEAD FOR 1939

New Aero-stream styled bodies combining with major mechanical improvements to provide new beauty, safety, comfort and operating ease, in the 1939 Chevrolets, presented October 22, and featured at the big auto show this month. The new models are offered on two chassis, the Master De Luxe and the Master 85, both of which are powered with Chevrolet's famous six-cylinder valve-in-head engine.

A new vacuum gear shift mechanism with steering column control, optional on all models at small extra cost, does 80 per cent of the work of shifting gears. The Master De Luxe series features a new riding system, in which a brand new Chevrolet Knee-Action mechanism is scientifically co-ordinated with new ride stabilizer and double-acting hydraulic shock absorbers to furnish a smooth, soft ride.

Central picture is the new Master De Luxe Sport Sedan. Upper right: front end view of the 1939 car; Upper left: Master De Luxe front suspension unit, complete; Lower left: accessibility and finger-tip ease of operation are two major features of Chevrolet's vacuum gear shift with steering column control; Lower right: As the handbrake on all models is re-located under the cowl, front compartment floor is cleared in cars with vacuum gear shift.

Annual Dad's Night To Be Observed

By Sam Houston

Sam Houston Parent-Teacher will observe the annual Dad's night on Thursday at 8 o'clock in the school auditorium when fathers will preside at the meeting.

The Rev. Robert Boshen will present the devotional, and Principal A. L. Patrick is to be leader of the program. Superintendent L. L. Sone will introduce the guest speaker, Superintendent Charles M. Rogers of Amarillo, who will discuss the American School.

Special music will be presented by the blue and gold choir of the Sam Houston school.

Two Senators Will Never See Congress

WASHINGTON, Nov. 9. (AP)—Two of the senators elected yesterday are not likely to see Congress in sessions except as sightseers.

They are Miss Gladys Pyle of South Dakota and Alex G. Barry of Oregon. Both were elected as Republicans to fill terms that will expire when the new session of Congress convenes in January. Each replaces a Democrat.

J. Chandler Gurney of South Dakota and Rufus C. Holman of Oregon, both Republicans, will be sworn in for the six year terms at the opening of the new Congress, picking up where Miss Gladys Pyle and Barry leave off.

FUT BIKE GRIPS ON JAIL DOORS

CLEVELAND, O. (AP)—Cuyahoga county authorities are feeling better these days, now that they've found a satisfactory remedy for "jail door hands."

Some species of mosquitoes only attack birds.

Mind Your Manners

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

- 1. When a friend who lives a distance receives a promotion, should you write him a note of congratulation?
2. Is it necessary for you to entertain the houseguest of a friend?
3. Does a gift take the place of a thank-you note to a week-end hostess?
4. Is it gracious of a hostess to say, "You needn't have brought me anything," to the guest who brings a gift?
5. Does it show good breeding to make slighting remarks against one who is supposed to be a friend?
What would you do if—
(a) A friend is sailing on a cruise or for Europe?
(b) Send a letter that will reach the boat before sailing time?
(c) Send a telegram?
(d) Send flowers or fruit?

Calvary Baptists Have Training Course

Calvary Baptist church is conducting a B. T. U. training course which opened with 28 persons present.

Everyone who attends the training unions is urged to enroll in the course this evening before 7 o'clock in order to have six study periods. The course will continue through Friday evening.

Glen Frank Sees 'Return To Sanity'

MADISON, Wis., Nov. 9. (AP)—Glenn Frank, chairman of the Republican national program committee, today hailed as a "return to political and economic sanity" the G. O. P. victories in Tuesday's balloting.

Frank said in concluding a lengthy statement which contained sharp criticism of Gov. Philip F. La Follette—defeated in his try for a fourth term as Wisconsin's governor—and his brother, U. S. Senator Robert M. La Follette Jr.

"I am gratified beyond words by the substantial gains the Republican party has made throughout the nation. The 'crit' towards a virtually one-party nation, with the vindictive intolerance that goes with it, has been stopped, and the return to political and economic sanity has begun."

More than half the value of U. S. exports of agricultural products is in noncompetitive items like coffee, tea, cocoa, raw silk, rubber, bananas, spices.

Wear? Not now!

... thanks to Black-Draught. Often that droopy, tired feeling is caused by constipation, an everyday thief of energy. Don't put up with it. Try the fine old vegetable medicine that simply makes the lazy colon go back to work and brings prompt relief. Just ask for BLACK-DRAUGHT...

BLACK-DRAUGHT...

"An old friend of the family."

Objectives Outlined By Delegates For Women's Convention

AUSTIN, Nov. 9. (AP)—A three-fold objective of human welfare improvement, international peace and a return to the fundamental principles of religion was outlined by delegates attending the Texas Federation of Women's club convention here by Mrs. Sadie Orr Dunbar of Washington, D. C., president of the general federation.

Mrs. Dunbar urged the women to unite their voices in a common cause and attain the objectives through "adjusting democracy to human welfare," the slogan of the national organization.

"There are 2,000,000 women in the general federation," Mrs. Dunbar said, "and we must intelligently concentrate our efforts for the betterment of mankind."

Under the direction of Mrs. Richard J. Turentine of Denton, president of the Texas Federation, delegates were introduced to the "officials family" of the organization, consisting of Mrs. W. P. Avriett of Lamesa, first vice president; Mrs. Lee Morris of Chicago, second vice president; Mrs. Joseph M. Perkins of Eastland, recording secretary; Mrs. John D. Cochran of Sinton, treasurer; Mrs. O. H. Carlisle of Houston and Mrs. Deak Roberts of Dallas, appointed director; and Mrs. R. E. Buchanan of Fort Worth, parliamentarian.

Mrs. Samuel Butler of Eastland, chairman of the resolutions committee, presented several resolutions for consideration of the delegates to be voted on later. They included erection of a memorial to the late Mrs. Percy V. Pennybacker, prominent in national women's club work; a program for the prevention of venereal disease, and urging the legislature to match funds in the teachers' retirement plan.

Fifty-four new clubs were received into the state organization.

Mrs. R. W. Goddard of State College, N. M., president of the New Mexico federation, spoke on library extension work in her organization.

Kellerville P-TA To Sponsor Concert By School Band

KELLERVILLE, Nov. 9. — The Kellerville P-T. A. met in the school auditorium last week in a business meeting with Mrs. J. M. Bruton presiding.

The program of the year was discussed and the organization voted to sponsor a band concert to be given by the Kellerville grade school band and directed by J. N. Lummus, band master. The financial report and the new by-laws were read and accepted.

Miss Katherine Keysh presented the following program: "Cooperation" by Mrs. E. C. West; "Birthday of the Texas Congress" by Miss Nora Lee Morgan; "Organization of the Texas Congress" by Mrs. Vivian Bridges; and a book-club, "Childish Prattle," presenting four of the Kellerville grade school children.

A social hour was enjoyed and the association adjourned to meet again Thursday, Nov. 17, at 7:30 o'clock. Mr. West, captain of the losing side in the membership drive, will have charge of the social hour.

The Kellerville P-T. A. has 127 paid members.

Colorado Voters Keep \$45-A-Month Pension Amendment

DENVER, Nov. 9. (AP)—Colorado voters paradoxically voted down a proposal to repeal the state's \$45-a-month old age pension amendment and ousted Democratic Gov. Teller Ammons a warm supporter of the pension program, in yesterday's election.

Ammons' conceded the victory last night to Ralph L. Carr, who will be the first Republican governor of the state in 14 years. Carr had announced his pension policy would be that dictated by the electorate.

Senator Alva H. Adams, Democrat, who differed with the administration on the Supreme Court and governmental reorganization proposals, was re-elected over Republican Archibald A. Lee.

Returns from 1,141 precincts of 1,500 gave, for governor: Carr, Republican, 181,199; Ammons, Democrat, 136,055.

Returns from 1,147 precincts gave, for Senator: Adams, Democrat, 183,691; Lee, Republican, 125,983.

Three of Colorado's four Democratic congressmen appeared assured of re-election. They included Rep. Edward T. Taylor, 80-year-old chairman of the House appropriations committee.

Adding interest to the Colorado campaign was the balloting on proposals to repeal the state's \$45-a-month old age pension proposal and the state child labor tax. Both repeal proposals lost by wide margins.

Oil Industry In New Cycle, Leaders Hope

By ALFRED P. WALL

TULSA, Okla., Nov. 9. (AP)—Steady influences noted during the past two weeks in the various divisions of the oil industry have carried it into a November high point of optimism.

Today the feeling had spread so that some refiners were talking about the possibility of slight increases in the tank car gasoline price that would make their operations a little more certain.

Market observers as well as company executives ordinarily well informed were somewhat at a loss to account for the trend unless it could be credited to a quickening of activity in other lines of business.

There was a distinct impression among leaders of the industry that the petroleum business was going into some new cycle of management and control. In this connection great interest was manifested in the sessions later in the week of a special committee of 36 ordered by the Independent Petroleum Association of America to undertake a broad study of the business.

Such far-reaching propositions as disintegration of integrated companies, curtailment of oil imports and separation of pipe line operations from producing and refining companies were up for a going over.

It was held likely the next session of Congress would see legislation of vital importance to the oil industry.

The gasoline market seemed to have hit bottom and unusually large consumption made good business with heavy shipments. In the mid-continent natural gasolines were stronger and in heavier demand.

Colder weather perked up the demand for heating oils.

Illinois took a still more important place in the producing picture by reaching an average daily output of 99,060 barrels daily, surpassing its old high mark set in 1909, according to a computation of the Oil and Gas

Journal. In that state 78 new wells were completed last week.

Wells completed in all states during the week totaled 539, seven less than the week before.

New Deal Supporter Beaten In Montana

HELENA, Mont., Nov. 9. (AP)—Representative Jerry J. O'Connell, youngest member of the 75th Congress and a staunch supporter of the New Deal, apparently lost his House seat to a Republican physician, Dr. J. Thorkelson of Butte, in yesterday's election.

O'Connell's fellow Democrat, Representative James F. O'Connor, held a slim lead over Republican William C. Husband.

Official returns from 286 to 413 precincts in the first Montana district gave: Thorkelson (R) 35,019; O'Connell (D) 30,723.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning! The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sore, sick and the world looks punk.

A more bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse substitutes.

Advertisement for Carter's Little Liver Pills, including a drawing of a man and a woman, and contact information for Northeast Dairy.

EYE to EYE in your own living room, Your Mileage Merchant would unblinkingly talk this same good sense about saving your car's battery and oil by changing now to WINTER OIL-PLATING NO BRASH "sounding off" by Your Mileage Merchant, because he can easily be specific about his patented Conoco Germ Processed oil. It specifically OIL-PLATES your engine for winter... no other oil does. And winter OIL-PLATING specifically cuts down on drabby "starts," battery exhaustion and oil extravagance, for these specific reasons: The Germ Process adds in to this oil a patented man-made substance that sets up a strong force of attraction between Germ Processed oil and every engine surface it touches. Even the upright surfaces instantly attract and hold Germ Processed oil in the form of lasting OIL-PLATING. This OIL-PLATING can never drain down—any more than chrome plating—during the longest, coldest parking. No question then, about winter OIL-PLATING speeding your starter from the first, because before you've even got out your key, your engine is ready-lubricated by slippery OIL-PLATING. Never letting loose, OIL-PLATING can't shoot out of the engine, but remains a constant help to your oil-level—one of the smartest reasons for changing to Your Mileage Merchant's Conoco Germ Processed oil. Patented—your one way to change to WINTER OIL-PLATING Switch in Time! OIL-PLATING GUARANTEED TO LUBRICATE BEFORE ANY OIL CAN CIRCULATE CONOCO GERM PROCESSED OIL

Something For Americans To Think About!

Sing any song often enough and people will get tired of it. The peril to freedom represented by the triumph of the Fascist block in Europe has been chanted so much lately that a number of good Americans are getting a bit weary and are asking why someone doesn't put on a new record.

That reaction is only natural. It is natural, too, for Americans to wonder if the peril isn't pretty much exaggerated. After all, the Atlantic ocean is still wide, and what goes on inside the borders of such a country as Germany, for instance, isn't any of our business; why should we lose any sleep over the fact that Fascism grows stronger rather than weaker on its own home grounds.

A good part of the answer to this kind of question is being supplied these days by the Nazis themselves.

You may have noticed the other day how Josef Terboven, a Nazi district leader and governor of the Rhineland, let off a blast warning Germany's neighbors that they must mind their p's and q's.

Germany, says Herr Terboven, not long ago publicly warned certain small states that they were getting too cocky and aggressive. One of these small states, Czechoslovakia, refused to listen—and paid the penalty. Other states might profit by her experience.

"If, for instance," continued Herr Terboven, "one looks at certain newspapers here in the west, in Luxembourg or the Netherlands, one is surprised anew at the impudence with which the press meddles in the most private matters of Germany, an impudence coupled with ignorance and an attitude of superiority."

"We say to responsible statesmen of these states: 'Either you take measures soon which are calculated to bring the nations closer together, or these nations must some day pay for having extended freedom of the press to a small clique.'"

It is impossible to read that without feeling that what happens inside the borders of an aggressive totalitarian state is most decidedly a matter of concern to citizens of a democracy.

For this statement is simply a blunt warning: muzzle your press and curtail your own freedom, or expect trouble from us.

Today the warning is directed at weak states. Is there any reason to suppose that it will not be directed at stronger ones, as soon as the Nazi strategists feel that it is safe?

There can be no international harmony as long as one nation claims the right to order the domestic affairs of other nations. And that is where the real menace in the rise of the Nazi-Fascist bloc lies. If these states were willing to operate on a live-and-let-live basis it would be different—but they aren't. Because they aren't, Americans cannot remain wholly indifferent to what happens overseas.

Behind The Scenes In Washington

By RODNEY DUTCHER Pampa News Washington Correspondent

WASHINGTON, Nov. 9.—Press conferences with Wage-Hour Administrator Elmer F. Andrews may not be as exciting as General Johnson's conferences in early NRA days. Yet they draw equally large crowds and have been the best, newest shows in town during a period when nearly all other administration big shows were up to their ears in election worries and activities.

The Andrews office on a corner of the Labor Department's fifth floor is large, sunny and bare, except for a large flat-top desk, three or four chairs, a large utility table and a long brick-brown leather divan.

Andrews sits in a corner of the divan, hunched forward, with elbows on his knees. Usually he is left flanked by two or three newspaperwomen on the divan, while others stand up. . . . The administrator matches his big brown eyes—his most prominent feature—with brown suit, necktie, shoes and socks. His hair is coal black and corners of his mouth turn down in a way which would give him a most lugubrious aspect were it not for a constant twinkle of the eyes which often eases into a grin.

His answers to questions are patient, direct and usually given with a friendly "no nonsense, now fellows" air, although occasionally he allows himself a wisecrack. His sarcasm is mild.

"How did you find New York?" someone asks. "I didn't see many people on the streets out of a job because of the 25-cent minimum," he replies. Which is a fair sample of his quiet far from hilarious humor.

Administrator Andrews spoke at a luncheon of the organization of Washington lobbyists for trade associations and agreed to answer questions.

One questioner wanted to know if it was all right with Andrews if an employe was willing to have his hourly wage reduced so that payment of time and a half for time worked in excess of 44 hours would give him the same pay he previously received for a longer work week which also would remain the same.

"I'm a very trusting fellow," replied Andrews, "but I would like to see the employe first."

READS THE RECORD When the pecan shelling industry closed down in

Sharing the Comforts Of Life ---

By R. C. Hoiles

REFORMERS COWARDLY SEEKING SHELTER

These reformers, who always are proclaiming that unemployment is due to the selfishness of the business men, invariably take cover in making their statements where they are protected by parliamentary rules or over the air, or use some magazine or newspaper that is purely a commercial sheet and has no desire to give both sides an opportunity to be heard so that people who have a consistent philosophy have no opportunity to point out the inconsistencies of these reformers.

These reformers dare not submit to questions. If these reformers come out in newspapers in an attempt to explain their utopias and the readers had an opportunity to ask them questions they would be so embarrassed by their inconsistencies or their inability to explain or answer questions that it would not be very pleasant for their egoism.

Even when these reformers are challenged by someone who can see through their inconsistencies, they invariably will not answer questions but keep on reiterating some other generalities.

What the country most needs is someone or some method of so insulting these Utopian political reformers, that they are finally smoked out into the open on their contention that purchasing power can be increased by pensions or wages and compelled to admit that purchasing power can only be increased by production so that the great mass of workers may realize the ignorance, and the extreme selfishness of these political charlatans.

WHAT IS A DEMOCRAT? A contributor attempts to define what a democrat is. He says he learned that the Democratic party stood for the least amount of government necessary and that little honestly and economically administered; it stood for equal rights for all and special privileges for none, etc. And then he says, after reading reams of free trade arguments whether rightly or wrongly, I became a protectionist, inasmuch as the United States of America is concerned.

In contrast to this, I was reared to believe in protective tariff and, after reading the opinions of the great thinkers, such as Spencer, Darwin, Huxley, Grover Cleveland, William Bourke Cochrane, I cannot see how a man can claim to be a Democrat and believe in protection. If that is not special privilege and government interference, I do not know what government interference is.

I presume the contributor believes that we would be better off if labor had to work two hours to produce something that he would use rather than working one hour to produce something that he would trade to another party in another country to get the same thing. If he believes in protection, I presume he would say we should have a tariff between states; that we should have a tariff between counties and tariff between cities; and if this reasoning is right, that to carry the same reasoning to extreme, it is better to make or grow something, no matter how much work it takes to do it, than to trade something else for it that took less effort to grow or make. Then, we would be better off if we had to pay for our air, instead of having it free.

It would seem these are the arguments of the protectionists.

The Nation's Press

WE CAN STILL CHOOSE (New York Times)

"The world is at a crossroads. But its power of choice is not lost." This is the keynote of the address made last night by the Secretary of State at the Twenty-fifth National Foreign Trade Convention. In the years during which this body has been engaged in the promotion of commerce between nations the outlook for international trade has never been as uncertain as it is today. As every speaker at the meetings held in this city this week has emphasized, the rise of totalitarian systems of government, capped in startling fashion by the settlement of Munich and its swift and logical consequences, represents something more than a political development that changes the face of the world. It represents also the steady growth and spread of an economic system that is perhaps even more portentous in its effects on intercourse between nations and on the freedom of movement and the standards of life of every human being.

The autarchic system is economic nationalism carried to the extreme limit. It is the climax of closed and controlled economy, the one form of dictatorship that affects communications between States and peoples so decisively that it cannot be an internal affair. The trade policies of totalitarian Government are inseparably tied up with their philosophy, their armament programs and their drive for empire. They constitute a method of defense and an instrument of invasion. They are in fact a form of warfare quite as effective as the threat of force has at any time proved to be.

Autarchy could not function except in a world where free economy still existed. Its extension forces nations within the totalitarian orbit to become its tributaries. At the same time it threatens the existence of free economy everywhere. In particular it undermines the foundations of the system of reciprocal trade which Secretary Hull has labored patiently and persistently to build up. The two economic systems are as absolutely antithetical as the political; both cannot flourish in the same world. This is the aspect of the German drive for trade domination that is becoming clear to American business leaders. It is the challenge which Mr. Hull took up in his speech last night. His answer is to reiterate and press harder than ever for the philosophy of which he is the resolute exponent. He will not surrender "because I know," he says, "that without extension of international trade, based upon fair dealing and equal treatment for all, there can be no stability and security either within or among nations. . . . I know that the withdrawal by a nation from orderly trade relations with the rest of the world inevitably leads to regimentation of all phases of national life, to the suppression of human rights, and all too frequently to preparation for war and a provocative attitude toward other nations."

San Antonio with assertions that it couldn't pay the 25 cents an hour minimum, Andrews learned the facts and decided to publicize them as widely as possible. Correspondents were called to a press conference and given specially mimeographed abstracts from a hearing before the Texas Industrial Commission last February at which five clergymen testified of meager wages and disgraceful conditions in the industry.

Andrews turned the press conference over to Chairman Everett L. Looney of the Texas Industrial Commission, who reported that the average San Antonio pecan worker earned about \$2.50 a week or five cents an hour, that Archbishop Drossaerts had said pre-emptionist Negro slaves were "a thousand times better off than these poor defenseless people" and that other informed witnesses had described their conditions as "worst of any in the United States."

RUNNING FOR CONGRESS

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—Messrs. John Ford and Jack Benny, and Miss Shirley Temple, will please rise and take bows.

Have you bowed, Mr. Ford? Yes? Then let's talk about why. It's the way you directed "Submarine Patrol." It does you proud, sir.

When you break it down, "Submarine Patrol" is just a story about a little wooden sub-chaser doing his work in the late big war. The SC-589 is a chaser, and it chases. A chase, especially when you do it, and work in your usual suspense and action is the stuff that made the movies great. You've got two great chases in "Submarine Patrol," both sizzlers. But you weren't satisfied. You had to put people like Warren Hymer and Slim Somerville and George E. Stone and J. Farrell MacDonald in the crew, and give them all lines and bits of business that make each one of them a bit of a star. You had to put Preston Foster in there as skipper, and just to show you how he felt Preston turned in his best work since you handled him in "The Informer."

You made it all revolve around a romance, or maybe it's the other way around. You made dimpled Richard Greene extremely likeable, and I think this new kid, Nancy Kelly, is going to be a star the more quickly because of your movie. She has spirit, and beauty, and she can act. Or, you knew that? Well, it's good to see George Bancroft in a sizeable part again, and Henry Armetta has never been funnier—or Elisha Cook, Jr., or Maxie Rosenbloom, for that matter.

I liked the way you worked in those sentimental strains, Mr. Ford. You don't recall? Well, the scenes of the splinter-boat putting out to sea, with the mugs aboard thinking thoughts as they pass that old skyline dutybound. I liked your whole movie, in fact, sir.

Just one little bow, Shirley, and then home to your spinach. "Just Around the Corner," little girl, there is a career as a grown-up actress waiting for you. "Just Around the Corner" is one of your best movies, certainly your best in many a hundred miles of celluloid.

They've given you a smart little story, full of laughs, and Director Irving Cummings has given you wider rein than your talents usually receive. The tomboy in you comes out, young lady, and it's to the good. I've a hunch there's many a tired businessman, however rich, who'd like to have you give a benefit for him.

You had plenty of help, Shirley, Cummings, first, and then the romantic support of Charlie Farrell and Amanda Duff, who is new, nice and pretty. I liked your teammate, Bennie Bartlett, and of course Joan Davis and Bert Lahr, and crusty old Claude Gillinwater, Bill Robinson and the rest. "Just Around the Corner," thanks to the lot of you, is very much worth seeing.

Ready, Mr. Benny? Just one bow, please—and who asked you anything about flavors? Oh, you don't need a reason to take a bow? You just do, regardless? Oke, sir. But without you "Artists and Models Abroad" wouldn't be much more than an average musical. Yeah, I know Joan Bennett's pretty, and the Yacht Club Boys sing, and Charley Grapevine and Mary Boland are great. But it's you, you shrinking violet, that make it all click. With you, even that display of outlandish dresses and stuff by the best designers is funny—but maybe it wasn't intended to be. Yes, I think it's mainly your show—but a swell one.

Some Chinese eat snakes as cures for various ailments.

People You Know

By ARCHER FULLINGIM

There was a man and a woman sitting in an office when a younger woman of about 25 came into the room. All three were well-acquainted with each other and had been friends for 15 years. They talked without restraint, simply, sincerely and sympathetically. It was plain to see that they were thinking of each other's best interests. The younger woman mentioned that she wanted to talk to them about her brother. . . . "You know he's 14 now," she said. "That boy is worrying me. Mother doesn't know half of the things he does. He certainly puts things by her, but the worst thing about him is that he steals—he's always hooking something, as he calls it. Sometimes I think he steals everything he can get his hands on. You yourselves know what a good boy he used to be. Why, you" and she addressed the older woman, "used to read Byron to him. I don't know what's got into him. Mother thinks he's around her, but he isn't fooling me. . . . And he's a Boy Scout, too. I was glad that he joined the Scouts because I thought it would keep him out of trouble. He's so interested in his Scout work, too. Why, he's nearly an Eagle Scout, but he keeps stealing into and upset them. Some possessions mean more to a boy than morals. He doesn't give a hoot for a moral when he wants something. Most children are like that. . . . I'd suggest you give him what he wants or something to take the place of what he wants. . . . When the young woman left, the older woman said to the man, "Now that's funny. I've a notion to laugh out loud. . . . When that girl was a little girl she used to be the biggest little thief I ever saw. . . . She stole my nail files, my cold cream, my hankies—I had to watch her like a hawk, and she was a Camp Fire girl, too. . . . and I think I was a little bit like her, too, when I was about her age, but I wouldn't have been if I had had certain things or things to take their place. . . . and the boy wouldn't, either."

How's Your Health?

By IAGO GALDSTON, M.D.

At least 900 children under the age of five die each year in the United States as a result of being scalded by hot fluids. Among children one and two years old this is the leading cause of accidental death.

The number severely injured and permanently crippled by scalding is unknown, but it must be very large.

Some of these accidents are perhaps not preventable, but the vast majority need never occur. That they do occur is evidence that many adults—if not entirely negligent—are not adequately mindful of the hazards.

The child that has just learned to walk is unsteady in its movements, immensely curious about its environment, and largely ignorant of the dangers that surround itself.

Children will tumble and bump into things, will willfully or accidentally pull upon hanging objects, or try to grab things within their reach. Parents must bear these facts in mind and remember that vessels containing hot fluids must be placed beyond the child's reach, and outside the sphere of its movements.

Whenever possible young children should be kept out of the kitchen, particularly when things are being cooked upon the stove.

The child should be early taught to avoid going near the stove. It is none too early to begin such lessons even when the child first begins to toddle.

In a study of the circumstances surrounding some 200 fatal scald accidents, it was found that many children were scalded because containers of hot fluids were left standing on the floor where children bumping into and upset them. Some simply fell in as they were running around from one room to another. Others slipped on the wet floor.

Several children came to grief by falling into bath tubs which adults were preparing for baths. In a few fatal scaldings, death occurred because the babies were bathed in water of too high temperature. In some instances the child in his bath turned on the hot water faucet when the mother had momentarily left the room to obtain towels or garments.

These instances are cited to indicate that nothing short of thorough vigilance can prevent the terribly distressing accident of scald.

Yesteryear in The News

TEN YEARS AGO TODAY.

Evident determination of the state highway department to change the Pampa-Miami road to a route south of the Santa Fe was seen in the order of Gibb Gilchrist, state engineer, to make a detour along the route.

The fifth and last day of the Pampa Daily News cooking school in the basement of the Methodist church found the hall crowded.

FIVE YEARS AGO TODAY. A campaign to put Pampa behind the statewide effort to secure an additional \$75,000,000 for highway construction from the federal public works program was underway.

Fewer than 200 reserved seats remained on sale at the office of Joe Smith in the courthouse for the Pampa-Amarillo football game.

Tex's Topics

By Tex DeWeese

The stove-league fans still are playing that Berger-Amarillo game over and over. . . . You can't convince the folk from Berger that they weren't horn-swoggled out of a rightfully earned victory. . . . And you can't convince the Amarillo fans that the best team didn't win. . . . Which reminds us that Berger's prayers this week are centered on a victory for Pampa over Lubbock and for subsequent weeks on victories for Plainview and Lubbock over Amarillo. . . . All of which would put the District One conference race in a bit of a mess, if you're any good at mathematics.

Sid Patterson, who will be wed on Dec. 17, already is checking up with married friends on the various devices used by husbands to get out nights after one has done the Lohengrin toddle. . . . Our advice along that line is to tell the truth, the whole truth, and nothing but the truth, so help you. . . . Or else. . . . Pampa has more pretty girls to the square foot than a George White chorus. . . . At least that's the dope I get from bachelor friends who are in a position to know. . . . You'll find most of them at the football game Armistice afternoon, mums and all.

They tell me that many so-called radio newscasters quit the business after listening to a recording of their own voices. . . . I was afraid of that. . . . And, that's probably the reason I've never had a radio recording made. . . . Fear keeps a lot of people from doing a lot of things. . . . Just the same as fear of the penalties of the law keeps a lot of honest people honest. . . . L. N. Atchison has an idea he may soon spring. . . . Earl Bradshaw, the McClellan lake project manager, thinks photographs do him an injustice.

Tips to motorists: . . . McClellan lake hasn't been officially opened to the public yet, and when you drive back to the dam site you do so at your own risk. . . . For instance, a truck rolled off the top of the dam not so long ago. . . . Nobody hurt at the end of the tippy-turvy dive the embankment. . . . Many already have marked the spots in the dry lake bed where fish hooks are most likely to become snagged. . . . Others are keeping in mind the spots where they know the biggest bass will be hanging out.

I wish I knew who wrote me that letter of comment the other day and just signed it merely, "A Fan." . . . I believe I could possibly float a loan sometime from anybody as nice as that. . . . Things like that are so unusual that we're making arrangements here at the office to have the little epistle framed for a wall decoration.

The Capital Jigsaw

AUSTIN, Nov. 9 (AP)—Why mountain sheep in West Texas apparently are not propagating as rapidly as antelope, both species being protected by a perpetually closed season, is the subject of special study these days by the State Game Department.

The department recently concluded an agreement with the U. S. Biological Survey and New Mexico Game Department calling for an extensive field research survey of the spectacular game animal.

While factors limiting the numbers and increase of the sure-footed species are undetermined, residents of the Guadalupe, Beech and Silver

price falls to eight cents, he can keep the nine cents a pound he has borrowed, and the government keeps the count (worth only eight cents a pound).

The inevitable result of this system, if the loan rate is set too high, is that the government is left "holding the sack"; and at the present time of government has large stocks of cotton, increase prices to the farmers, consumers, restrict exports, and encourage the use of substitutes, when available.

The third, and worst, feature of agricultural policy is its tendency to destroy farmer independence. The endeavor to regulate output leads to acreage allotments, production restraints, and marketing quotas, and thus to bureaucratic regimentation. Said Secretary Wallace in 1934: "If we finally go all the way toward nationalism, it may be necessary to have compulsory acreage control, and base and surplus quotas for every farmer for every product for each month in the year."

In making these remarks the Secretary was warning the country against the danger of regimentation, but despite his clear recognition of the danger, his policies since that date have carried the country a long way in that direction. Moreover, unless the farmers rebel in clear and unmistakable language we are going to move ever farther in that direction. The Wallace Secretary characterized the 1938 agricultural act as "a new charter of economic freedom" for farmers. Wallace's Farmer, of which he is "editor on leave of absence," in its April 23 issue said: "If the present voluntary AAA program does not work with respect to corn, farmers will get something that will. . . . The Wallace Secretary characterized the 1938 agricultural act as "a new charter of economic freedom" for farmers. Wallace's Farmer, of which he is "editor on leave of absence," in its April 23 issue said: "If the present voluntary AAA program does not work with respect to corn, farmers will get something that will. . . . RUNNING FOR CONGRESS

Something For Americans To Think About!

Sing any song often enough and people will get tired of it. The peril to freedom represented by the triumph of the fascist block in Europe has been chanted so much lately that a number of good Americans are getting a bit weary and are asking why someone doesn't put on a new record.

REFORMERS COWARDLY SEEKING SHELTER

These reformers, who always are proclaiming that unemployment is due to the selfishness of the business men, invariably take cover in making their statements where they are protected by parliamentary rules or over the air, or use some magazine or newspaper that is purely a commercial sheet and has no desire to give both sides an opportunity to be heard so that people who have a consistent philosophy have no opportunity to point out the inconsistencies of these reformers.

WHAT IS A DEMOCRAT?

A contributor attempts to define what a democrat is. He says he learned that the Democratic party stood for the least amount of government necessary and that little honesty and economically administered; it stood for equal rights for all and special privileges for none, etc. And then he says, after reading reams of free trade arguments whether rightly or wrongly, I became a protectionist, inasmuch as the United States of America is concerned.

Insulting Political Reformers

What the country most needs is someone or some method of so insulting these Utopian political reformers, that are finally smoked out into the open on their contention that purchasing power can be increased by pensions or wages and compelled to admit that purchasing power can only be increased by production so that the great mass of workers may realize the ignorance, or the extreme selfishness of these political charlatans.

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—Messrs. John Ford and Jack Benny, and Miss Shirley Temple, will please rise and take bows.

People You Know

By ARCHER FULLINGIM

There was a man and a woman sitting in an office when a younger woman of about 25 came into the room. All three were well-acquainted with each other and had been friends for 15 years.

How's Your Health?

By IAGO GALDSTON, M.D.

At least 900 children under the age of five die each year in the United States as a result of being scalded by hot fluids. Among children one and two years old this is the leading cause of accidental death.

Behind The Scenes In Washington

By RODNEY DUTCHER

WASHINGTON, Nov. 9 (AP)—Press conferences with Wage-Hour Administrator Elmer F. Andrews may not be as exciting as General Johnson's conferences in early NRA days. Yet they draw equally large crowds and have been the best, newest shows in town during a period when nearly all other administration big shots were up to their ears in election worries and activities.

The Nation's Press

WE CAN STILL CHOOSE (New York Times)

"The world is at a crossroads. But its power of choice is not lost." This is the keynote of the address made last night by the Secretary of State at the Twenty-fifth National Foreign Trade Convention.

Yesteryear in The News

TEN YEARS AGO TODAY.

Evident determination of the state highway department to change the Pampa-Miami road to a route south of the Santa Fe was seen in the order of Gibb Gilchrist, state engineer, to make a detour along the route.

So They Say

He seeks to create a stadium for political football out of a courtroom.

REP JOHN J. O'CONNOR, New York, replying to a legal brief which asked he be denied the right to use the word Democrat on his campaign literature.

Yesteryear in The News

FIVE YEARS AGO TODAY.

A campaign to put Pampa behind the statewide effort to secure an additional \$75,000,000 for highway construction from the federal public works program was underway.

Quiet Humor

His answers to questions are patient, direct and usually given with a friendly "no nonsense, now fellows" air, although occasionally he allows himself a wisecrack. His sarcasm is mild.

Quiet Humor

San Antonio with assertions that it couldn't pay the 25 cents an hour minimum, Andrews learned the facts and decided to publicize them as widely as possible.

Tex's Topics By Tex DeWesse

The stove-lunge fans still are playing that Borger-Amarillo game over and over. You can't convince the folk from Borger that they weren't horn-swoggled out of a rightfully earned victory. . . . And you can't convince the Amarillo fans that the best team didn't win. . . . Which reminds us that Borger's prayers this week are centered on a victory by Pampa over Lubbock and for subsequent sweeps on victories for Plainview and Lubbock over Amarillo. . . . All of which would put the District One conference race in a bit of a mess, if you're any good at mathematics.

Slid Patterson, who will be wed on Dec. 17, already is checking up with married friends on the various devices used by husbands to get out nights after one has done the Lohengrin toddle. . . . Our advice along that line is to tell the truth, the whole truth, and nothing but the truth, so help you. . . . Or elude the question with more pretty girls to the square foot than a George White chorus. . . . At least that's the dope I get from bachelor friends who are in a position to know. . . . You'll find most of them at the football game Armistice afternoon, mums and all.

They tell me that many so-called radio newscasters quit the business after listening to a recording of their own voices. . . . I was afraid of that. . . . And, that's probably the chief reason I've never had a recording made. . . . Fear keeps a lot of people from doing a lot of things. . . . Just the same as fear of the penalties of the law keeps a lot of honest people honest. . . . L. N. Atchison has an idea he may soon spring. . . . Earl Bradshaw, the McClellan lake project manager, thinks photographs do him an injustice.

Tips to motorists: . . . McClellan lake hasn't been officially opened to the public yet, and when you drive back to the dam site you do so at your own risk. . . . For instance, a truck rolled off the top of the dam not so long ago. . . . Nobody hurt at the end of the topsy-turvy dive the embankment. . . . Many already have marked the spots in the dry lake bed where fish hooks are most likely to become snagged. . . . Others are keeping in mind the spots where they know the biggest bass will be hanging out.

The Capital Jigsaw

AUSTIN, Nov. 9 (AP)—Why mountain sheep in West Texas apparently are not propagating as rapidly as antelope, both species being protected by a perpetually closed season, is the subject of special study these days by the State Game Department.

Cranium Crackers

Some of the following statements are true, some are false. Which are which?

1. George Bernard Shaw wrote Marc Antony and Cleopatra.
2. Ruth Elder is a former tennis champion.
4. An ibex is a fish-eating heron.
5. Opium is made from poppy juice.

Nation's Affairs

Our present agricultural policy has three principal features: (1) enormous subsidies to farmers; (2) huge loans on staple agricultural products; and (3) far-reaching control of farm operations, moving in the direction of a reformed agriculture.

Baptists Hit Betrayals Of Their Schools

By DAVE CHEAVENS.

DALLAS, Nov. 9 (AP)—Under stern admonition to guard their schools against the encroachments of big business, whims, and isms, Texas Baptists today turned toward consideration of reports on their numerous educational institutions.

Retiring President J. B. Tidwell of Waco, a veteran leader in Christian education, told the opening session of the convention last night that "widespread confusion caused by scientific discovery presents us with the gravest educational task ever committed to any people."

"Scores of our schools have died during the last half century," Tidwell said. "Most of those still alive are either dying, or are playing Christianity down. Of those that have died some retreated into ultra-fundamentalism, some became frozen in modernism, some sold out to big business and some yielded to the whims of the people. Always either the college betrayed its constituency, or the constituency betrayed the college."

Reports on Baptist schools will be brought at the afternoon session, with Thomas H. Taylor of Brownwood, president of Howard Payne college, and Pat M. Neff of Waco, president of Baylor University, making the principal addresses.

Amarilloan Elsea.

The Rev. J. Howard Williams of Amarillo, elected last night as president for a three-year term to succeed Dr. Tidwell, will bring the annual convention sermon at the morning session today.

Williams was elected over Earl B. Smith of Dallas and A. D. Foreman of Houston, laymen, who were unanimously named vice presidents. Also elected vice president was Dr. J. L. Ward of Decatur who had been nominated for the presidency, but who withdrew. Other officers named were: The Rev. D. B. South of San Antonio and the Rev. J. L. Truett of Whitewright, recording secretaries; Robert L. Coleman of Dallas, secretary of the corporation.

The convention voted to authorize amendments to the charter of the Baptist Foundation of Texas to include institutions of the Southern Baptist Convention and other Texas Baptist institutions. This, it was explained, was in order to permit the foundation to invest funds of the Southwestern Baptist Theological Seminary of Fort Worth and of Bishop College at Marshall, a negro institution. The latter institution is planning a drive for \$750,000 in endowment, and had asked the foundation to administer the funds raised.

The general sessions started after conclusion of meetings of the Woman's Missionary Union and the Pastors' and Laymen's conference. Mrs. B. A. Copps of Fort Worth was re-elected president of the women, and the Rev. Roy Holloman of El Paso was named president of the men's organization. The Rev. H. H. Hargrove of Waco was made secretary-treasurer.

Mrs. E. F. Lyon of Dallas, formerly of Vernon, was elected executive secretary of the women's organization to succeed Mrs. J. E. Leigh of Dallas, who retired after 17 years of service.

Mainly About People

Members of the city commission approved the regular monthly bills, totaling \$3,697.55, in the only order passed at the commission's regular meeting yesterday. All members of the commission, including City Manager W. T. Williamson, who has been suffering from a throat ailment, were present.

Mrs. John Lantz of Groom was a Pampa visitor Tuesday.

Mrs. William T. Fraser has as her guest Mrs. Leck Moreman of Corpus Christi.

Mrs. R. B. Haynes of Miami was in Pampa Tuesday.

Mrs. Earl O'Keefe of Amarillo was a Pampa visitor Tuesday.

Mrs. Ralph Morrison and brother, Tom Perkins, left today for a short visit in East Texas.

W. E. James, Jr., who is attending Texas Tech at Lubbock, visited with his parents, Mr. and Mrs. W. E. James, Sunday and Monday.

Mr. and Mrs. W. R. Campbell of Miami were in Pampa Tuesday.

Mrs. W. B. Hoover and Mrs. John Studer were Amarillo visitors Monday.

H. A. Overall underwent a major operation at a local hospital early Tuesday morning. His condition is reported favorable. Mr. Overall is the father of Miss Mildred Overall and Mrs. Tom Duvall.

A marriage license was issued Tuesday to J. B. Clark and Miss Lois Mahagan.

Mrs. William Miller and daughter were dismissed from Pampa-Jarratt hospital today.

J. H. Cotten underwent an emergency operation at Pampa-Jarratt hospital last night.

Mr. and Mrs. Tommy Chesser and family have moved to Amarillo to make their home.

A routine business meeting of the Pampa Supplementary Relief board was held this morning in the city hall.

Chili was served as men of Central Baptist Brotherhood met Monday evening with Walton Dempster, group captain, in charge. J. U. Williams gave the opening prayer. Following the refreshments, Woodrow Brister, Walton Dempster, and D. M. Scaif delivered talks on the subject, evangelism, education, and tithing, respectively, in which each of these were represented as pillars of the church. God's kingdom, even though supported by other agencies, such as missions, brotherhood, Sunday school, B. T. U., W. M. U., orphanage home, would be left incomplete and powerless without the support of the three spoken on, it was pointed out.

To tithe or give a tenth of one's income to God's program is the method that God intended for the financing of His work because it is taught in the scriptures, not only that, but common reasoning tells us that the Lord would surely not permit so great an institution as His church to function without a systematic method to finance it, it was pointed out.

Hunters use power boats from which to shoot deer in the tidal-water area of Eastern North Carolina.

State highway departments in 1937 spent nearly \$552,000,000 on road construction and almost \$228,000,000 for maintenance.

HERE ARE THE 1939 FORD V-8 CARS

HERE are the new 1939 Ford V-8 cars. Above, the deluxe Fordor sedan, below the Ford V-8 Tudor sedan. The two cars are individually styled. The deluxe car has wholly new streamlines, a deep hood un-

broken by louvers, a low radiator grille in bright metal and wide spaced headlamps. The Ford V-8 has a full grille and unobtrusive louvers at the rear of the hood. The deluxe car is powered with the 85

horsepower engine, the Ford V-3 with the 85 or 60 horsepower engine. Both cars have hydraulic brakes. Bodies are all-steel. The deluxe car is available in five body types, the Ford V-8 in three, with color option

bits about bowling. League games played last night at the Berry Bowling Alley were close and hard-fought. The Dr. Pepper Left-handed won two out of three games from the Kiwanis Club. Cabot took two out of three from the Thompson Hardware team and the Diamond Shop swept the series from the General Atlas Carbon boys.

"Red" Morris, bowling with Thompson Hardware, set a new high three game series for the season with scores of 213, 201 and 190 for a total of 604 pins. Bert Howell of the same team came a close second with 578 pins. Howell also rolled the high game of the league to date with a 222 score.

League games will be rolled again tomorrow night with the next series on next Tuesday. Schedule for Thursday night will be:

7 p. m., alleys 1 and 2—Gunn-Hibnerman vs. Faulkners; alleys 3 and 4—Weir Barbers vs. Cargray.

9 p. m., alleys 1 and 2—Lions vs. Neil; alleys 3 and 4—Pampa Press vs. Jones-Everett.

Iceland's great geyser has a basin 70 feet in diameter. It ejects a column of water 80 to 200 feet high.

Lehman Noses Out Dewey In Close Fight

NEW YORK, Nov. 9 (AP)—President Roosevelt's native New York, which will be of the greatest strategic importance in the 1940 presidential year—remained Democratic in major contests in yesterday's spectacular state election.

Substantially complete returns showed Gov. Herbert H. Lehman re-elected over his Republican opponent, Thomas E. Dewey, but with a plurality so small that during much of the night nobody could predict the outcome.

With only 17 of 9,051 election precincts in the state missing the governor held a lead of a little more than 70,000 votes. The figures were Lehman 2,381,491. Dewey 2,311,421.

Senator Robert F. Wagner, author of the labor act, appeared safe, as was Rep. James M. Mead for the other senatorial seat—made vacant by the death of Senator Royal S. Copeland.

Wagner was opposed by John Lord O'Brien, who sharply criticized some phases of the Roosevelt administration, and Mead by Edward F. Corsi, generally regarded as in the liberal Republican camp.

The vote from 8,623 districts gave Wagner 2,411,175 to O'Brien's 1,936,133 and from 8,603 districts Mead had 2,342,715 to Corsi's 1,930,605. The Republicans took control of

the state senate. They already controlled the state assembly.

The two seats for representative-at-large appeared won by Democrats, one of whom was the incumbent, Caroline O'Day, Mrs. Franklin D. Roosevelt's close friend.

One feature of the election was the showing of the relatively infant American Labor party, which apparently polled some 350,000 and 400,000 votes. In all top races ALP adopted Democratic candidates as its own.

Democrat Leading For Governor Of Nebraska

LINCOLN, Neb., Nov. 9 (AP)—With two-thirds of Nebraska's election vote counted, Gov. R. L. Cochran, Democrat, crept ahead today in his bid for a third straight term. In 1,375 of 2,033 precincts, he led Chas. J. Warner, Republican, 143,799 to 122,837. Charles W. Bryan, Independent, was out of the running.

Our word "influenza" is derived from the Latin language. Its source is a word meaning influence.

Dayton Voters Turn Down School Levy

DAYTON, O., Nov. 9 (AP)—Dayton voters turned down a proposed two-mill levy designed to raise \$500,000 annually for five years for their schools, which have been closed since Oct. 30 because of a financial crisis.

BITS ABOUT BOWLING

League games played last night at the Berry Bowling Alley were close and hard-fought. The Dr. Pepper Left-handed won two out of three games from the Kiwanis Club. Cabot took two out of three from the Thompson Hardware team and the Diamond Shop swept the series from the General Atlas Carbon boys.

"Red" Morris, bowling with Thompson Hardware, set a new high three game series for the season with scores of 213, 201 and 190 for a total of 604 pins. Bert Howell of the same team came a close second with 578 pins. Howell also rolled the high game of the league to date with a 222 score.

League games will be rolled again tomorrow night with the next series on next Tuesday. Schedule for Thursday night will be:

7 p. m., alleys 1 and 2—Gunn-Hibnerman vs. Faulkners; alleys 3 and 4—Weir Barbers vs. Cargray.

9 p. m., alleys 1 and 2—Lions vs. Neil; alleys 3 and 4—Pampa Press vs. Jones-Everett.

Central Baptist Brotherhood Meets

Chili was served as men of Central Baptist Brotherhood met Monday evening with Walton Dempster, group captain, in charge. J. U. Williams gave the opening prayer. Following the refreshments, Woodrow Brister, Walton Dempster, and D. M. Scaif delivered talks on the subject, evangelism, education, and tithing, respectively, in which each of these were represented as pillars of the church. God's kingdom, even though supported by other agencies, such as missions, brotherhood, Sunday school, B. T. U., W. M. U., orphanage home, would be left incomplete and powerless without the support of the three spoken on, it was pointed out.

To tithe or give a tenth of one's income to God's program is the method that God intended for the financing of His work because it is taught in the scriptures, not only that, but common reasoning tells us that the Lord would surely not permit so great an institution as His church to function without a systematic method to finance it, it was pointed out.

Hunters use power boats from which to shoot deer in the tidal-water area of Eastern North Carolina.

State highway departments in 1937 spent nearly \$552,000,000 on road construction and almost \$228,000,000 for maintenance.

Lubbock Team Reported Strongest Since '31

Webster Will Lead Mighty Eleven Here

The strongest Lubbock high school football team since Lubbock won the district in 1931 will be here Friday afternoon to contest the Pampa Harvesters in an Armistice Day game beginning at 2:30 o'clock. Lubbock football fans and the high school band will come to Pampa on a special train.

Lubbock's attack is led by Jumbo Webster, 180-pound fullback who carries the mail in any direction, passes and punts and plays the safety position on defense. But Webster is not a one-man backfield. He has such stellar ball carriers as Alford, 152, Johnston, 160, Jackson, 160, and Parsons, 137, as assistants.

At left end will be Joe Bob Foster, 148, letterman from last year, with Clifton Hill, 150, a newcomer, on the other end. Coach Weidon Chapman will not use his giant tackle to open the game but will have Pat Harris, 164, at left tackle and Jerry Nash, 165-pound letterman, at right tackle. The veteran Joe Pytle, 165, who wears two stripes on his sweater already, will be the left guard, with Lloyd Sanders, 146, another letterman, the other guard. Wayne Pipes, 179, will be at center.

Reserves Strong
Should the Lubbock tackles fail to hold up, Chapman can send Avon Sewall, 250, and L. V. Risinger, 235, into the line.

The Westerners have an exceptionally strong backfield strength in reserve where J. B. Privett, 150-pound scooper, Joe Tyson, 165-pound plunger, and Howard Martin, 165, are available.

Lubbock opened the season with a 7 to 6 win over North Side of Fort Worth and followed by taking Abilene 10 to 0. Capitol Hill of Oklahoma City slipped up on the Westerners 14 to 13 the day Rusty Johnson, ace back, underwent an operation. Loss of the game and Johnson failed to keep the Westerners in the dumps and the next week they rose high to beat Vernon 7 to 0. Berger then fell before the Westerner attack 67 to 13. Plainview was next in line 6 to 0.

Coaches Odus Mitchell and J. C. Prejan are preparing their Harvesters for the toughest game of the season. The boys are on tip toe for the engagement and dope points to a rugged battle between two powerful offensive clubs.

Captain J. W. Graham scrimmaged for the first time yesterday since coming out of the Amarillo game with a bruised shoulder, side and hip. The midget signal barker was taped when he went into the Am-

How to See Football

ELIGIBLE PASS-RECEIVERS
PASSING—THE INELIGIBLE RECEIVERS.
By JERRY BRONDFIELD, NEA Service Sports Writer.

When football leaders legalized the forward pass in 1906 to take some of the mayhem out of the game, little did they dream that the maneuver would open the way for some of the most thrilling plays on the gridiron.

The Benny Friedmans, the Sammy Baughs, and the Sid Luckmans have made it possible for smaller, weaker teams to upset the big-timers with greater ease than ever.

Stopping a strong passing attack today is quite a job, because no less

than six men on the offensive team may be directly involved in an aerial with any of them being eligible to receive the ball.

The eligible receivers are the two players on the ends of the line—whether they be the snits themselves, or anyone who assumes the position as in trick plays—or the four men in the backfield.

Great pass receivers like Benny Oosterbaan, Don Hutson and Gaynell Tinsley can make life miserable for the defense. They have the added advantage of knowing where they're going when the play starts, while the defense must diagnose the play, at least briefly, so as to not act too hastily.

McLean And Wheeler Will Battle On Armistice Day

WHEELER, Nov. 9—Wellington's famed Skyrocks overrode the Memphis Cyclone to clinch the southern half of district 3B in a conference game in Wellington last Friday night. The McLean Tigers marched another rung up the ladder in the northern half by downing the LeFors Pirates.

Only one more obstacle remains in the path of the Tigers, in the championship for the northern half, and that is in the form of a vicious Wheeler Mustang eleven that will be fighting hard to throw the northern half into a three-way deadlock Armistice Day here.

The Mustang chances will be greatly lessened unless Emler, triple-threat man, is able to go. At present he is in a serious condition from a back injury sustained in a fall from a horse. There is a slight possibility that he will be able to play.

Wheeler was idle last week-end for the second consecutive week. Shamrock rested and prepared for a non-conference clash with the Wellington Skyrocks. Mobeetie in the northern half and Lakview in the southern half were idle also.

Clarendon met Groom in an inter-district clash and took a 20 to 7 drubbing.

Wheeler and McLean clash in the only conference game in the district next week-end in an Armistice Day game at Wheeler. Should Wheeler win, there will have to be a play-off, since Wheeler, Shamrock and McLean will then have one loss to their credit.

Sports Roundup

NEW YORK, Nov. 9 (AP)—Don't let anybody kid you about the report (not carried here) that George Marshall, the pro football boss, is thinking of buying the Brooklyn baseball Dodgers. . . . The big washing and ironing man from Washington wires that he's not only not interested, but thinks it's about time folks stopped getting cheap publicity at the expense of the daffiness boys. . . . And now there's the whisper that Minnesota Bernie Bierman is getting offers from a couple of coast colleges. . . . Sounds screwy to this corner.

Best story out of the wild and woolly week-end Syracuse enjoyed after the Orange knocked off Colgate for the first time since '24 concerned the three long-time rooters who were stopped by the law as they tried to walk out of the stadium carrying a piece of the planking they'd been sitting on. . . . "Whadya mean ripping up the seats?" asked Mr. Policeman. . . . "Lissen, buddy," they told him, "we've sat on this piece of board for 13 years to see Syracuse win, and now nobody is going to stop us from taking it home for a souvenir." . . . P. S.—they got the board.

Vetches producing from two to three tons of dry plants per acre would add from 150 to 200 pounds of nitrogen to the soil if turned under.

The African lung fish remains classed in the fish category although it has both gills and lungs. It comes close to being a land animal with its heart and circulation system adapted to the double respiration of both water and air.

matching games may get in touch with Coach Russell Teter, Higgins.

Guerillas, Reapers And Pewees Play Thursday

Three Pampa football teams will see action tomorrow, one day ahead of the Harvesters who meet the Lubbock Westerners here Friday afternoon.

Tomorrow's schedule for local teams will be:

McLean Pewees vs. Pampa Pewees, 4 p. m., Harvester field, Pampa Reapers vs. LeFors Juniors, 4 p. m., Shaw field, LeFors. Pampa Guerillas-Sophomores vs. Claude, 2:30 p. m., at Claude.

Pampa football fans are invited, even urged, to be at Harvester field tomorrow afternoon at 4 o'clock to see the two Pewees elevens in action. It is worth admission to see the future high school players carry the ball, block, and tackle but no admission will be charged tomorrow.

Coach C. P. McWright has some mighty promising Harvesters for 1941 in his lineup. They have won two games from the LeFors Middlets and hope to keep their record spotless tomorrow afternoon against an unknown opponent.

The Reapers will play a team of future LeFors Pirates. None of the LeFors boys played with the Pirates this season, the team being composed of boys who will be eligible for competition next season. Coach Oscar Hinger was uncertain of his starting lineup yesterday afternoon following a long workout.

Coaches Bruce Barton and Jack Davis will take the Guerillas and Sophomores, who have abandoned for the season, to Claude for a game with the Class B team. The Guerillas will be stepping out of their class again but they need the experience.

Revolution Going On In Baseball

NEW YORK, Nov. 9 (AP)—Possibly overlooked in the midst of football excitement is the revolution going on in baseball managerial circles. Club-owners have decided all at once they do not need "big-name" pilots with the attendant big-figure salaries.

Gaze upon the appointments made recently:

Ray Blades, St. Louis Cardinals; Fred Haney, St. Louis Browns; Dea Baker, Detroit; Doc Prothro, Philadelphia Nationals; Leo Durocher, Brooklyn Dodgers. There's not a glamor boy in the bunch, and only Durocher ever was a real star in the big leagues.

Headliners discarded included Frank Frisch, Mickey Cochrane, Gabby Street, Burleigh Groom, Jimmy Wilson, Charley Grimm and Babe Ruth.

Fortunately all of the last-named group, with the possible exception of Grimes, are so well fixed from many years at top pay that they gave nothing much to worry about. It is safe to estimate that the vari-

ous shifts in management will save club owners a total of at least \$25,000 in salaries.

Aggies Lose Jo-Jo White Of Amarillo

(By The Associated Press)
Injuries plagued Southwest conference football camps today but as each squad was about as hard hit as the others there was little change in predictions on how Saturday's games will come out.

The Texas Aggies lost Jo-Jo White, Amarillo letterman end, for the remainder of the season when he underwent an emergency operation for a ruptured intestine. Marland Jeffrey, who suffered a twisted knee in practice yesterday, may not be able to play against Rice.

The Owls had Ernie Lain, Earl Glassie, Bert Selman and Cotton Halston definitely out of the Aggie game but held high hopes Ollis Corstill, ball-carrying ace, would be able to go.

Mike Sweeney, end, will not start for the University of Texas against Texas Christian University, but Park Myers, who has been bothered by an ankle injury, will open at tackle. It will be his first game since the Arkansas tilt.

There was little change in the Horned Frog "hospital list" which carried Tackle I. B. Hale, Guard Forrest Kline and Backfielder Johnny Hall, regulars. Bob Cook, slated to replace Hale, was in bed with a cold yesterday but was ready to report for practice today.

Johnny Clement, sophomore backfield dependable for the Southern Methodist University Mustangs, suffered an injured knee in practice yesterday and may not get into the game against Arkansas. Willie Culik, first-string tackle, was still in a hospital with a bruised kidney.

Coach Fred Thomson at Arkansas tried to forget the loss of Kay Eakin, who is out for the season, as he drove his Razorbacks on offense which he claimed was ragged against Rice last week.

Higgins Coyotes Have Open Dates

HIGGINS, Nov. 9—The Higgins Coyotes have two open dates, Nov. 18 and Nov. 24, and are very anxious to meet football teams in their class on those dates.

Any school coaches interested in

BOWL FOR HEALTH

For the woman or man who works inside, whether or not he sits at a desk all day or is on his feet, bowling is the ideal health building sport, the recreation that rests, exercises and recreates all at the same time.

BERRY'S ALLEYS
117 N. FROST
JOE BERRY, Prop.

arillo which kept him from flipping his usual number of passes, coaches revealed yesterday.

"He'll be ready Friday," was the terse remark of Coach Mitchell as he put his boys through a scrimmage lasting more than an hour. And no one was hurt.

Coaches made several changes during the scrimmage and several changes may be made in the lineup for the Lubbock fracas. "No lineup yet," announced Coach Mitchell.

The return of Johnston to the Lubbock lineup is being hailed with great joy as the Lubbock Avalanche-Journal says:

Lean a little closer and get the full significance of this.

Rusty Johnston, who promised in two games this season to do some starting for the Westerners will pull on a complete uniform this afternoon and put in some practice for the Amarillo game yet.

Johnston underwent an appendectomy Sept. 20 at Oklahoma City, but so fast has been his recovery physicians say he is taking little chance in returning to the game so soon. His incision is healed, he feels fine, and has been taking exercise regularly more than a week.

Gives Added Running Finesse
Return of Johnston to the line gives the Westerners added running finesse, and besides, he is the team's best passer and probably the best punter.

Coach Weidon Chapman said this morning the big halfback would probably play Friday at Pampa against the Harvesters.

That game is foremost in minds of the gallant Westerners, who have yet to be defeated by a Texas team. Only the Harvesters and Amarillo remain on Lubbock's slate. A victory over both would mean a district championship and breaking of the Sandle monopoly.

However, the Chapman clan isn't thinking of the Amarillo game yet. They are preparing right now for Pampa.

Indications today were that a large delegation would follow the team north for the holiday engagement. A special train has been engaged to carry rooters to Pampa and many others plan to go in automobiles.

All Frontiers are Fickle

Frontiers have always blustered and fought back—and then given lavish treasures to those who would not be bullied. . . by the threatened danger of today or the fear of tomorrow.

No condition of life is constant and each new change is a frontier—baffling to some . . . a welcome challenge to others. Today's frontiers say to the timid, "It can't be done"—then they give splendid rewards in fields of science, business, agriculture and transportation to those with the pioneer's grit.

The opportunities and prizes that America offers us all today—as yesterday—fill people of other nations with envy. Small wonder they fire Americans with ambition!

Arkansas Loses Five Games In Last Minute Of Play

FAYETTEVILLE, Ark., Nov. 9 (AP)—In 158 telescoped seconds—less than three minutes—Coach Fred Thomson and his Arkansas Razorbacks have lived a life-time of football tragedy. For in fleeting segments of time, clipped off the end of five Arkansas games in the last two seasons, the Ozark foothills boys have seen that many games go aglimmering. Five out of Arkansas' last 13 games have been lost in the last minute of play and Coach Thomson's dread thatch is turning gray. His own explanation of this amazing jinx reveals: It started back in November, 1937, in the Baylor game. A Baylor punt struck Arkansas' safety man, bounded away and was recovered by Baylor with only 43 seconds to play. Bullet Bill Patterson chucked a 25-yard touchdown pass. Final score: Baylor 20, Arkansas 14.

88,148 Pass Life Saving Courses Given By Red Cross Instructors

In the lakes and ponds of New England, along beaches on the Atlantic and Pacific, and in thousands of private or municipal swimming pools in every state, Red Cross life savers watched over men, women, and children during the past summer months, according to Rev. Robert Boshen, roll call chairman of the Pampa Red Cross chapter. Boshen said that during the past year, 88,148 persons passed courses in life saving by qualified Red Cross life saving instructors, and that in addition 185, 833 persons were granted awards after the completion of courses and water safety.

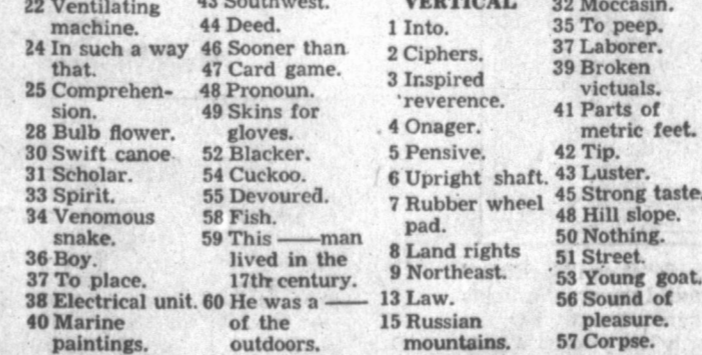

"I am sure," Mr. Boshen concluded, "that our community will respond to continue the work being done by the Red Cross, and that we will be well represented in the national roll of members."

Allen, Ross and Alford Cowan, Art Evans, Dan Graham, H. J. McCuiston, Lee Newman, Ollie Dunliven, and the hostess.

New Plan For Cotton Bowl Hanging Fire

DALLAS, Nov. 9 (AP)—A hitch in the new plan for promoting the Cotton Bowl football game here Jan. 2 appeared likely today with the announcement that J. Curtis Sanford, who previously had staged the attraction, was unwilling to turn his charter over to the new organization until he is definitely assured the Southwest conference will participate. While Sanford, the Dallas News said, acceded to wishes of the Cotton Bowl Athletic association, to turn his charter over to the new organization, he would not do so until he is definitely assured the Southwest conference will participate. So far, Sanford declared, he has no guarantee of this co-operation, (excepting Texas) and the conference itself is not empowered to guarantee delivery of its champion, but the individual schools could go on record for the game, with each entering into an agreement with the Cotton Bowl Athletic association whereby it would promise to lease the team to the New Year's game if fortunate enough to win the conference championship. The News quoted Sanford as saying the only progress made so far in this direction is a promise by each school's representative (excepting Texas) and that he would try to prevail upon his institution to accept the invitation if it won the championship; but Sanford said this was too intangible.

Worthy Matron Gives Report On Grand Chapter

PANHANDLE, Nov. 9.—Mrs. Grace Sparks, worthy matron of the Panhandle chapter of the O. E. S., gave a detailed report Monday night of her visit to Grand Chapter at Houston last week. Thanksgiving greetings from Mrs. Mildred Harris, the new Worthy Grand Matron, were read. The Panhandle chapter will have a Thanksgiving program Nov. 20, in the Eastern Star dining room. The past Worthy Matrons had charge of the social hour following the meeting. Refreshments of pumpkin pie with whipped cream and coffee were served to members Letha Gramer, Alberta Blackman, Ella Taylor, Mae Pierce, Dell Held, Grace Sparks, Dorothy Ferrel, Thelma Hood Clark, Cornelia, Marion Cox, Iva Thorpe, Eva Weasley and the following past matrons: Mmes. Weatherly, Essie Stephens, Myrtle Cleck, Margaret Bobbit, Martha Sparks, Leah Franklin and Dena Southwood.

Mental Efficiency Topic Of Pioneer Study Program

McLEAN, Nov. 9.—A program of unusual interest on "Mental Efficiency" was heard by the Pioneer Study club recently, in the home of Mrs. J. E. Homan, 524 S. Cuyler. Mrs. Charlie Carpenter, leader, spoke on "Personality and Perseverance." Mrs. Roger Powers talked on "Character and Common Sense." Mrs. June Woods read the poem "Myself," after which Mrs. W. B. Swin asked "Why Not Try God?" Roll call was answered with "Why Worry?" The program was closed with a hymn by the club. Special guests were Mesdames Dena Shelbourne and T. A. Massey. Members present were Mmes. C. B. Batson, Bob Black, Creed Boggs, W. W. Bosar, S. A. Cousins, H. W. Finley, C. O. Greene, John Harris, A. W. Hicks, Carl Jones, Clyde Magee, Bob Thomas, W. A. Erwin, those on the program, and the hostess.

Farewell Shower Given As Courtesy To Mrs. Shockley

McLEAN, Nov. 9.—A handkerchief shower and fare-well party was given on Mrs. L. H. Shockley recently at the home of Mrs. S. A. Cobb by members of Women's Missionary society of the Baptist church, and Sunday School. Mrs. Shockley, who with Mr. Shockley, left Saturday morning to make her home in Tiaball, New Mexico, has lived in McLean for a number of years and has been an active worker in the Baptist church, and Sunday School. The human body breathes more air, by weight, than it consumes food in a 24-year period.

Carson County Library Has Free Poster Service

PANHANDLE, Nov. 9.—Mrs. Letha Gramer, librarian for the Carson county free library, has announced the library has a new and unique service for school children, that of pictures for posters and scrap books. Mrs. Gramer said "As we discard old magazines we go through them cutting out all attractive pictures, and filing them away in boxes. There are 15 different types of pictures filed separately, such as birds, animals, flowers and interior decorating. These pictures are free to all school children who need them for posters, scrap books, or any kind of school work."

Miami Child Study Club Meets With Mrs. Theo Jenkins

SALEM, Nov. 9.—Mrs. Theo Jenkins was hostess to the Miami Child Study Club recently at her home in this community. Those appearing on the program were Mrs. Art Evans and Mrs. Dan Graham. Several hymns were sung by the entire group with Mrs. Alf Cowan as pianist. Refreshments were served to Mrs. Joe Cunningham and Mrs. Clyde Hodges as guests; members, Mrs. W. D. Allen, Ross and Alford Cowan, Art Evans, Dan Graham, H. J. McCuiston, Lee Newman, Ollie Dunliven, and the hostess.

McLean P-TA Has Clever Breakfast

McLEAN, Nov. 9.—A galloping breakfast, under the direction of Mrs. C. E. Balsam, local president, entertained members and friends of the ward school Parent-Teacher association recently. Guests were driven in school buses to the ward school cafeteria where they were served breakfast of fried bacon, scrambled eggs, toast and hot coffee. Mrs. J. T. Hicks and Mrs. T. A. Holloway received prizes.

Republicans Look Toward 1940 Ballots

WASHINGTON, Nov. 9 (AP)—The Republicans counted their winnings today with a wishful eye toward 1940. For the first time since 1928 they had found pay dirt in the election booths of the nation. It was not enough to give them control of national affairs. Still, it was more than they would have figured they would gain. They piled the new winnings against the thin electoral backlogs of Maine and Vermont and kindled them into a new glow of hope. This came more from the governorships they had captured and the spirited voting their candidates had inspired than from their congressional gains. Their winnings in House and Senate were not strong enough to give them more than a stage whisper of opposition to the Roosevelt program, except when coupled with dissident Democrats. Yet, whatever the election may bring, the Republicans in 1940, it easily may be set down as the date for the opening of a new era in the annals of the Roosevelt administration. Hereafter, the Democrats have moved steadily ahead with the Roosevelt program. Top heavy majorities in House and Senate have enacted statute after statute, and each new election has given the party added strength and vigor. The new election and the scope of the Republican showing makes it clear that every new step the President takes toward expanding and bolstering his program will be well surveyed for pitfalls.

LOVERS AWEIGH

BY BETTY WALLACE
COPYRIGHT, 1938 NEA SERVICE, INC.

CAST OF CHARACTERS
JUDY ALCOTT—admiral's daughter. She faced a choice between two navy suitors.
DWIGHT CAMPBELL—ambitious lieutenant. He faced a choice between his wife and duty.
JACK HANLEY—flying sailor. He faced a test of a patient love.
MARVEL HASTINGS—navy wife. She faced the test of being a good sailor.

Yesterday, Dwight breaks the stunning news to Judy that he loves Marvel Hastings. Greeting herself, Judy prepares to go home.

CHAPTER III

SHE didn't sleep much that night. She told herself fiercely that it was not because she was breaking her heart over Dwight Campbell. It was only because Jack Hanley had been so blasted right about him!

The next morning, as she sat on the front porch listlessly, Mrs. Lane came up the stairs. Mrs. Lane was the wife of the captain they had dined with last night. And Mrs. Lane said brightly, "Why, Judy! I thought you and that nice Lieutenant Campbell were having a regular little affair, and now I hear he's going to marry some girl from the East!"

Dwight then had lost no time in announcing his coming marriage. Captain Lane was his skipper. Judy forced herself to smile. "Oh, he spent all his time with me telling me about her."

Mrs. Lane tied her. "You're a good girl, Judy." Judy knew she was thinking of Ward Fenning, and of how it had been five years. . . . Five years, and Judy Alcott still was not engaged.

The phone rang, and then her mother was calling her. She wondered viciously if that was one of the station glad-girls, eager to pump her. But, surprisingly, it was Dwight Campbell's voice that answered her guarded, "Hello."

"Listen, Judy, I've wired Marvel, she'll be here Saturday—I couldn't wait a week! I'd like you to come with me to the airport to meet her. You've been my best friend here, and I know you'll like her. She'll need a Navy woman to sort of show her around—get her started—"

Refusal was on the tip of her tongue. But she did the sporting thing. "Of course, Dwight. I'd love to!"

"That's fine, then. She gets in at Lindbergh Field Saturday at 10:15 in the morning. I'll call for you at a quarter of ten. The phone rang again. This time it was a girl's voice, and Judy waited. But it was not one of the gossip brigade, it was Diane Bell, who had just had a new baby.

"You never have time for me, Judy! Come on over and see little Billy, he's the darlings thing! Give the boy friends the go-by for one day. I'll fix you something good for lunch."

"I'll have Guam salad," said Judy. Diane, as a very young girl, had lived in Guam, where her father was in charge of the station, and she was always boasting about how she had learned to make meals with practically nothing from the States—strictly island fare. Her Guam salad was famous. It was made with California avocados.

It was only a short distance to the Bells' small cottage. Bill Bell was a flyer in Jack's squadron. His pay, even with flight pay, had performed nobly in commanding the services of a famous obstetrician when Diane had this baby, last month, but without the savings that Diane had engineered so gamely in this little bungalow, they couldn't have made it.

JUDY parked her car. In the doorway, Diane was standing, the baby in her arms. Her dark eyes danced, her ivory skin glowed.

"Darling!" said Judy. "You look wonderful!"

"Never felt better in my life," Judy remembered the pale, wan

Illustration by Henry G. Schlessner.

"Yes," said Diane. "And then I sit home and wonder what's happening out there."

countenance on the hospital pillow and said, "There was a time when I doubted you'd ever be the same!" She peeked into the opening at the top of the little bundle of blankets. "Oh, Diane, isn't he little!"

"What'd you expect?"

"But he's so sweet! Oh, oh, look, he's smiling at me!"

"He's merely well fed, and smiles because his tummy feels good. I keep telling Bill that, but he doesn't believe me."

She put the baby in its crib, pointing to the stuffed elephant on the dresser. "Bill, the fool, thinks that's just right for our child. At the age of one, he will probably present him with a Navy bomber."

After Diane had told her all about how marvelously Bill was taking her absorption in the baby. "Even washes diapers when he gets a minute!" she asked about Judy.

"You, my dear, look peaked."

"Slightly," Judy admitted. "What's the matter?"

"Nothing."

"Listen, my girl, you're among friends!"

But the words stuck in Judy's throat. She couldn't tell her. Tactfully, Diane changed the subject. She went on some more about her precious Bill, and her wonderful baby.

"I only hope they don't transfer him off to some ungodly place where the climate will be bad for the kid. Think of me, with a baby, shoving off in the good old Chaumont. Or daycoaching it across the continent!"

"They won't, I guess," Judy said. "Flyers stay put pretty much, except for battle maneuvers."

"Yes," said Diane, a shadow across her face. "And then I can sit home and wonder what's happening out there. . . ."

It was Judy's turn to be tactful. "How about that Guam salad?"

The baby cried. Judy said, "Oh, let me hold him. Oh, goodness, he's so little. Here, take him, I'm afraid he'll break."

Diane lifted him casually and

expertly from her arms. "Just a little damp, that's all. You'll get used to it, when you have one of your own."

Judy said, "You're going to put that funny square on him? I thought they used 'em triangular."

"You're behind the times, Triangles are old-fashioned." But her eyes were on Judy's face. Judy got the oil in the little blue jar. "I'm glad to see you're using my gift," she said.

"Without gifts, my son and heir would be naked and cribless," said Diane.

She kissed him on the top of his fuzzy little head and put him back in his bed. "On to the kitchen," she said, picking up an old cap of Bill's which was on a chair and putting it in the closet.

Judy said suddenly, as she sat at the table while Diane reached into the cupboard for a can, "I guess I'll tell you. I've got to tell someone, or burst!"

Diane said, "Shoot."

"Dwight Campbell . . ."

"Yes, I know. He's getting married." Diane looked at her narrowly. "But I thought—I thought you—well—just an old married woman, matching you up with the best bet on the lot. Darling, I thought it was Jack Hanley!"

"Jack?" Judy was startled. "He's just a friend. I—I never—"

She got hold of herself. "Well, I was a fool, I thought because Dwight took me dancing a few times—"

"He's the kind who licks boots and campaigns for promotions. He's kind to admiral's wives and the dumpy daughters of Naval Affairs Committeemen. I wouldn't waste a tear on him!"

"I haven't," said Judy, too loudly.

Diane set her lips and said, "Honey, but Judy knew that she knew, and it made her squirm inside to know that even Diane was pitying her. Diane had so much! And she'd have had a house, too, if only Ward—"

She put her mind resolutely on the tomatoes she was slicing. She mustn't think about Ward. It wouldn't help.

Jim Williams Going To Keep On Drawing 'Out Our Way' For News

By ERNEST LYNN
NEA Service Comic Art Director

J. R. Williams, familiarly known to readers of The Pampa News for his famed "Out Our Way" cartoon, has just signed another long-term contract with NEA Service, Inc. This means that the work of this noted cowboy artist, often called the Will Rogers of the comic art field, will continue to be published in Pampa exclusively in this newspaper.

The ever-popular "Out Our Way," a toponch comic since it made its first appearance nearly 17 years ago, is now the most widely used of all newspaper features. Approximately 725 daily newspapers publish it six days a week. Two hundred and fifteen papers run Williams' Sunday page, "The Willetts." These do not include the numerous papers in foreign countries which translate the feature.

Meet Jim Williams

Of the many millions of daily "Out Our Way" readers a large share has often wondered what it was specifically about this series of homely, "human interest" drawings that held such charm. Perhaps the best explanation lies in the fact that the reader can so readily identify the subject matter with his own experience. And behind this lies a story, the story of Jim Williams himself.

First, meet him as he is today, and on his home ground, which is a 45,000-acre cattle ranch near Prescott, Ariz.—a ranch boasting about 800 head of cattle, 45 horses, a swimming pool, a concrete tennis court, and a lake. He is middle-aged, sandy-haired, compact and muscular. He has the squint that comes from long-distance looking. He wears boots, overalls, a 10-gallon hat. In short, he looks as if he might have stepped out of one of his own "Out Our Way" cowboy cartoons. After you've known him five minutes you start calling him Jim, and he likes you for it.

This is the west that Jim Williams loves, and the ranch in the Arizona mountains is the realization of a life-long ambition. He spends his winters in Los Angeles, but this, he will tell you, is largely a concession to Mrs. Williams and their two grown children, Helen and Bob, the latter just out of the University of Southern California. Williams says, "I never was much of a hand for the big cities."

His career as a comic artist began with NEA Service early in

Photo by E. D. Newcomer.

"Out Our Way's" famous Jim Williams and his famous horse, Lizard.

toon of the old border cavalry days, and a "Born Thirty Years Too Soon" series, the last being a nostalgic recollection of life as it was a generation ago.

Now Meet James Robert Williams
His full name is James Robert

and was quite a scrapper. He became the light heavyweight champion of his outfit and when his enlistment was up he turned professional.

"The first fur coat I ever bought my wife was with part of a purse

one day she found it and I never saw it again."

But he still kept on with his sketches, and he was still at it after he had landed a job in a machine shop in Alliance, O. It was while he was working here that he sent some sample cartoons to NEA Service in Cleveland. He was hired promptly, and a short time later the first of the "Out Our Way" cartoons was published.

Williams' artistic talents extend considerably beyond his daily and Sunday drawings. In his ranch home are two beautiful ship models, every detail of which he made with his own hands. One is a Spanish galleon for which he has refused many offers. He is an expert silversmith, a fine water color painter, has even dabbled in sculpture. He built his own swimming pool, supervised the digging of his lake, designed his own irrigation system. Once when he wanted some stone-laying done and had hired some experienced men for the purpose, they balked at some of his own ideas, saying they couldn't be executed. So he showed them how to do it.

Curry Objects To Business Car Parking Tickets

"It's not so much that I mind paying these overtime parking tickets—I just want to keep them at a minimum," Bert Curry, president-manager of Bert Curry Refrigeration Company told the city commission at its regular meeting Tuesday afternoon.

Mr. Curry told of his difficulty in finding a parking space for the three automobiles connected with his business located at 111 West Kinrossmill. The only place trucks can load and unload at his store is in the alley on the west side of his building, he said.

A ticket for a traffic violation had recently been made against Lewis Curry, brother of Bert, when a car of the firm was parked in the alley.

Bert Curry explained that he had no other place to park and had frequently paid tickets for overtime parking at various places regarding it as cheaper to do this than lose business. However, he said he wanted some arrangement made that would eliminate this burden.

After a short discussion, it was decided that Mr. Curry might make an arrangement for a private parking space at the rear of his building. The space belongs to the owner of the adjacent building that fronts on North Cuyler. The chief of police is to be informed on Mr. Curry's plan.

While the space would provide for the parking of only one automobile, Mr. Curry said it would relieve, if not cure, the situation.

59 Farm Dams Constructed In Gray County Last Year

The soil conservation program in the Panhandle is a four-point program including research, demonstration work, technical service and material assistance. H. E. Finnell of Amarillo, regional conservator of the Soil Conservation Service, told members of the two Pampa Chambers of Commerce and farmer guests at the monthly luncheon meeting in the basement of the First Methodist church Tuesday.

In introducing Mr. Finnell, Gray County Agent Ralph Thomas reviewed the soil conservation work done by his department in the county. First terracing was done in the county in between 1922 and 1925, Mr. Thomas said. It was not until 1930 that active work began. In that year about 2,000 acres of terracing on the level was completed, and that average has been maintained each year since.

During the wind erosion period of 1936 it is estimated that 11,000 acres in the county were listed on contour. During 1937 and to date this year farmers have done commendable work in combating erosion, Mr. Thomas declared.

"There are very few farms in Gray county today that suffer from erosion," Mr. Thomas declared.

There were 59 farm dams constructed in Gray county last year and that number will be increased by 65 by the end of this year, Mr. Thomas revealed.

"The soil conservation program may seem a useless one to many who do not know the inside workings of the program," Mr. Finnell said. "I want to explain as briefly as I can the four branches of the program."

"First, there is research. We study local problems through our research laboratories and that is where many problems are overcome. After that work we start demonstrations where we try out, under actual working conditions, findings from research."

There are 128,800 acres of land in this section of Texas improved thru demonstration work, Mr. Finnell revealed. CCC camps have worked on three-quarters of a million additional acres.

The technical service includes soil survey and planning after which proper methods of procedure and proper machinery are often supplied.

discuss the procedure in setting up a district program such as is planned here.

During a brief business session preceding the addresses, the Rev. Robert Boshen urged everyone to assist in the Red Cross roll call which will begin here next Monday. Shelby Gantz asked members to provide courtesy cars to carry Lubbock football fans to and from Harvester field Friday afternoon and for members to meet the special train. Frank Culberson invited attendance at all National Education Week programs in local schools. Santa Day was announced for December 3 by Frank Monroe, chairman of the Junior chamber's Santa Day committee.

House Numbering In Cook Addition Called Confusing

Claiming that a confusion in numbering houses in a block on Mary Ellen was a source of annoyance, Mrs. W. H. Davis appeared before the city commission at its regular meeting Tuesday and asked that the matter be adjusted.

Mrs. Davis said that a house next door to her residence was numbered 821 while the Davis residence was 1017. Another house in the same block was also numbered in the lower bracket.

Electric sign bearing the number 921 has been placed on the house next to her residence, Mrs. Davis said.

This irregularity in numbering had caused her annoyance as a result of delivery boys knocking at her door to find a certain address, not knowing definitely whether they were in the 900 or the 1,000 block.

The sign placed at the house next door to hers was not the fault of the owners, Mrs. Davis said, as C. L. Stine, former city manager, had certified the number as correct before it was put in place.

From 1016 Mary Ellen, the residence of W. A. Bratton, to the end of the street at Kentucky avenue, the house numbers are in regular order.

Workmen erected a 500-mile fence between New South Wales and Queensland, Australia, to keep tick-infested cattle from spreading the disease.

Religious Phrase Saves Youth From Career Of Crime

NEW YORK, Nov. 9 (AP)—A religious pamphlet containing the phrase, "Jesus died for you," was cited today by Robert Ziomke, 21, Grand Island, Neb., as causing him to abandon a projected holdup career along New York's gay white way.

Detective Jerry Lyons said the youth, armed with a revolver and 14 cartridges, told of having hitchhiked across the country from Modesto, Calif., to engage in a crime spree.

Police, quoted Ziomke as saying he stopped a man near City Hall park intending to rob him but didn't when the man gave him a little red religious book with the cigaret he asked for.

"I tried to hold up three other men downtown, but somehow I always got frightened at the last minute. It was that verse I read in the little red book about 'Jesus died for you.' After that I just couldn't rob anybody, though I tried."

Detectives said Ziomke told them he was one of nine children of a Cincinnati, Ohio, family and that he stole six automobiles and robbed at least six motorists of \$200 en route east. He reached New York two days ago but "never managed to get up to the white light district."

Police said he surrendered last night after telling a prospective holdup victim: "I got a gun. You better get a cop before I shoot someone."

A chief article of diet with Confederate soldiers was ramrod rolls, made by wrapping a corn meal paste around a ramrod and roasting over campfires. The rolls were easily stored in knapsacks.

Looking down on part of the Williams ranch from a mountain back of the house. The grove of trees hides the house, the tennis court and most of the swimming pool. To the right is the lake. Stables and other ranch buildings are in the foreground. That dark rectangle on the left is an alfalfa field.

1922. Before this his life had been an almost unbelievable record of adventure and excitement. These are some of the things that Jim Williams has been: college football player, railroad fireman, cowboy, mule - skinner, cavalryman, prize fighter, policeman, machinist, artist. All this is still a part of him. It forms the philosophy and background without which there never would have been an "Out Our Way." It accounts for his rare ability to meet so many different classes of readers on common ground and in terms of the familiar.

Jim Williams re-lives his own life in his feature—to a greater degree, perhaps, than any other artist. His daily procession of "Out Our Ways" contains a cowboy series, a "Worry Wart" series (about kids), a "Why Mothers Get Gray" series, a machine shop series (featuring his old foreman, the "Bull of the Woods"), an occasional car-

Williams. He was born in Nova Scotia of parents who had come over from England. He was still a baby when his family moved to Detroit, and at the age of 14 he was playing football at Mt. Union College in Ohio.

For that matter, he was firing on the Pennsylvania railroad when he was only 15—but let Jim tell it. "Back in those days," he says, "we didn't have any complicated eligibility rules in college football.

A front view of the Williams ranch house, a mile high in the Arizona mountains.

I was big and husky and tough, and that's what counted. The scholastic requirements were pretty elastic, too, which is how I got in. I was taking up art.

"At 15 I was as big as I am today. I was tired of school and I got a job as railroad fireman by passing for 21. Didn't have any trouble, either."

But this job didn't hold him long. He headed west and landed a job in Kansas as a mule skinner. He drifted on, and tied up with a cattle outfit. He punched cattle. One day, down in Texas, he saw some cavalrymen come into town and he liked their looks. So he enlisted and served a three-year hitch. He did a lot of cooking in the army, too.

And he did considerable fighting—with his fists. He was hard as hickory, and as tough he weighed about 153 pounds, was as light on his feet as a tap dancer,
