Good Evening!

Humble wedlock is far better than proud virginity.—Augustine.

U.S. Ambassador To Berlin Will Return To U.S.

BERLIN, Nov. 15 (AP)—United States Ambassador Hugh R. Wilson said today he had cancelled a planned visit to England and would leave tomorrow for the United States as the result of an urgent summons from Washington.

Wilson prepared to sail from Le Havre Thursday on the United States Liner Manhattan. Two weeks ago he announced privately to correspondents he contemplated a routine trip to the United States by way of London.

Shortly after the announcement of his return was made last night, Senator King (D-Utah) proposed that the United States sever diplomatic relations with Germany if Nazis continue their abuse of Jews.

DIRECTS TONIGHT

Miss Helen Martin, above, organized the first A Cappella choir here last year, and directed the singing students in two successful concerts. The high school will present the choir in concert at the auditorium tonight in the first of at least two concerts that will be given by the choir this school term.

30 Milk Firms Face Federal Indictments

Thomas Jefferson Nickel Will Soon Arrive In Pampa

Heads, it's Thomas Jefferson; tails, it's his Monticello home. That is the description of the new American nickel put into circulation today through the nation's banks.

CHICAGO, Nov. 15 (AP)—More than 30 companies, officials of two labor unions and four Chicago city officials were named today in two federal indictments charging violation of the anti-trust laws in the milk and ice cream industries.

The indictments, returned Nov. 1 after 16 weeks of grand jury investigation and a year's work by the department of justice, had been suppressed until today at the request of the government.

Election Cost County \$613

It cost Gray county the price of a good meal for each one of the 1,226 ballots cast in the general election held Nov. 8, according to a calculation made when the county commissioners finished their canvass of the election returns at their meeting Tuesday.

R. C. Wilson, county auditor, said not all of the bills in connection with holding the election were in, but that he estimated the cost at approximately 50 cents a ballot, which would make the total election cost \$613.

31 Ask Plans To Enlarge Pampa Water System

The city commission will meet in called session at 2 o'clock tomorrow afternoon in the city hall to open bids for a water extension program to cost approximately \$240,000.

Up to yesterday 81 sets of plans and specifications had been secured from H. N. Roberts of Lubbock, engineer in charge. Some of them were secured by material men, however, and the number of bidders is not expected to be that great.

WPA Dramatic Club Will Be Organized

Dramatic training for young people of Pampa between the ages of 16 and 25, who are not in school, will be made available when a dramatic club is organized at 7 o'clock Wednesday evening in the city hall auditorium.

Borgans Fined In Twine, Sack Thefts

Three Borgers men, arrested here last Wednesday by Officer Buel Robinson in connection with the theft of a quantity of twine and several hundred tow-sacks from the Rock Island station at Sanford, were each fined \$25 and costs or a total of \$38.30 in Hutchinson County court according to word received here this morning by Police Chief J. I. Downs.

It was understood on the highest authority that Prime Minister Chamberlain and Foreign Secretary Viscount Halifax, after a long session with the Ambassador, had agreed to cooperate in the plan to move thousands of Jews.

Record Enrollment In Legion Foreseen

INDIANAPOLIS, Nov. 15 (AP)—American Legion national headquarters got wire reports here today from throughout the country of advance enrollments toward what leaders predict will be a record membership of more than 1,000,000 World War veterans for next year.

Mouse And Canary Warble Together

NASHVILLE, Tenn., Nov. 15 (AP)—This is the story to end all stories on singing mice.

Pampa Man Injured In Fall At Plant

Charlie Marx, 443 Hill street, stillman for the Shamrock Oil & Gas Co., suffered severe bruises this morning when he fell 20 feet through a cooling tower at the company's Mel Davis plant, southeast of LeFors.

Smoothing Of Road West To Start Soon

A maintenance crew of the Texas Highway Department will be smoothing out the bumps on the paved road west of Pampa, connecting with Highway 152, by the latter part of the week.

I Heard - - -

Frank Hunt telling about George Berlin's unsteady shooting with a .22 caliber pistol. Frank, George, C. P. Drew were near San Jon, N. M., hunting quail Sunday when a nearby ran over a wildcat.

Crude Production Shows Decrease Of 395,355 Barrels

TULSA, Okla., Nov. 15 (AP)—The Oil and Gas Journal reported today a drop of 395,355 barrels daily in the nation's crude oil production for the week ending Nov. 12, bringing the daily average output down to 3,243,796.

The R. R. Goes Back To School, Enjoys Smart Prof, Units, Cake

By THE ROVING REPORTER The Roving Reporter last night was gladder than he'd been in his life that he lives in the United States, after he heard Dr. Condron of West Texas college, Canyon, paint a repulsive picture of the tyranny and oppression that reigns in the nations ruled by dictators.

Ataturk's Adopted Daughter Exhausted By Hunger Strike

ISTANBUL, Turkey, Nov. 15 (AP)—Physicians expressed anxiety today for the health of Lieut. Sabiha Gokcen, Turkey's flying amazon and adopted daughter of the late President Kamal Ataturk, who has been on a hunger strike since last night off Monomy Point.

Table with 2 columns: Time and Temperature. Includes data for Sun, Mon, Tue, Wed, Thu, Fri, Sat, and Today's minimum.

Accident At Pumping Well Fatal To Pampan

CIO 'Peace' Report Urges No New Steps

PITTSBURGH, Nov. 15 (AP)—The C. I. O. convention today adopted its "peace" committee's report which did not recommend any new steps to heal the breach with the American Federation of Labor.

'JOIN RED CROSS,' NURSE PLEADS

The appealing figure of the Red Cross nurse presents a plea for your annual membership in the Red Cross during the roll call, beginning Armistice Day and ending Thanksgiving Day.

Skull Injury Takes Life Of W. R. Stalcup

Worker Backs Into Well Machinery 25 Miles Southeast

W. R. Stalcup, 53, was killed instantly yesterday afternoon while at work on a well on the Texas Company's Taylor lease 25 miles southeast of Pampa. He had been with the company for nine years. He also formerly operated the Red Bell grocery in the Talley addition and the Stalcup Grocery in the Finley-Banks addition.

Japs Would Attack Philippine Islands

TOKYO, Nov. 15 (AP)—The central committee of the social mass party, one of the three leading political groups in Japan, advocated today that Asia, including the Philippines, be linked in an Asiatic "league."

AAA Crop Allotment Cut 5,000,000 Acres

WASHINGTON, Nov. 15 (AP)—Secretary Wallace approved today a 1939 soil conservation program providing for a reduction of about 5,000,000 acres in the total allotment for major crops.

Membership Drive Will Be Planned By VFW Tonight

Final plans for the annual membership drive will be made at the regular meeting of the Pampa chapter, Veterans of Foreign Wars, tonight at 8 o'clock in the Legion hall, West Foster Avenue.

Return Of Convict To Prison Ordered

HUNTSVILLE, Nov. 15 (AP)—An order was out today for the arrest of James A. Patterson, former prison guard, released from the penitentiary, last April on a writ of habeas corpus signed by District Judge H. Fountain Kirby of Groesbeck.

Public Invited To API Meeting

The public is invited to attend the regular meeting of the Panhandle chapter of the American Petroleum Institute tonight at 8 o'clock in the city auditorium when a picture, "Your Telephone Voice," will be shown and A. O. Thomas of Amarillo, district manager of the Southwestern Bell Telephone Company, will give a lecture demonstration.

Two Boys In Skiff Missing Off Cape

BOSTON, Nov. 15 (AP)—A coast guard seaplane, aiding a half-dozen vessels, today took up a search for two Boston high school boys, last sighted nine miles off Cape Cod, and drifting to sea in a skiff.

Spanish Loyalists Report Advances

HENDAYE, France (AP)—The Spanish Government reported today its forces on the Segre front were advancing on the village of Torre de Cinca in an attempt to move against the insurgent stronghold of Fraga from the rear.

Jews Escape Thru Frontier Tunnels

METZ, France, Nov. 15 (AP)—Subterranean passages under the frontier to permit Jews to escape into France from the German anti-Semitic campaign have been discovered, French border guards reported today.

Lindy Hunts For House In Berlin

BERLIN, Nov. 15 (AP)—Col. Charles A. Lindbergh is hunting for a residence in Berlin for a winter's stay for himself and his family, it became known today.

Ataturk's Adopted Daughter Exhausted By Hunger Strike

ISTANBUL, Turkey, Nov. 15 (AP)—Physicians expressed anxiety today for the health of Lieut. Sabiha Gokcen, Turkey's flying amazon and adopted daughter of the late President Kamal Ataturk, who has been on a hunger strike since last night off Monomy Point.

THE PAMPA NEWS

Published every evening, except Saturday and Sunday morning by the Pampa Daily News, 222 West Foster Avenue, Pampa, Texas. Phone 566—All departments.

MEMBER OF THE ASSOCIATED PRESS (Full leased wire). The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the regular news published herein.

Subscription Rates: Pampa, 15c per week. By mail, payable in advance, in Gray and adjoining counties, also Houston, Galveston, and Lipscomb counties, \$4.85 per year. Outside above named counties, \$5.00 per year. Price per single copy, 5 cents.

Fighting accident on all fronts. The American Red Cross last year advised 15,000,000 householders how to eliminate accident hazards in the home, and at the same time is maintaining 2265 emergency first aid stations along the nation's principal highways.

"Musts" For Traffic Safety

Julien H. Harvey, managing director of the National Conservation Bureau, lists six vital "musts" for the solution of America's Number 1 accident problem—the street and highway death and injury toll.

First, all drivers must be licensed, and only after stringent tests.

Second, real, not perfunctory physical examinations of drivers at periodic intervals is important.

Third, all high school students should be educated in safe driving, through specially devised courses.

Fourth, there must be more stringent enforcement of laws affecting both drivers and pedestrians by the police and traffic courts.

Fifth, ticket fixing must be 100 per cent eliminated.

Lastly, all safety organizations should give their primary effort toward discouraging the speed mania—principal cause of the bulk of serious accidents.

These "musts" provide a well-rounded traffic safety program, within the power of any state or community to meet. They touch the all-important high-spots—education, examination and law enforcement.

These "musts" provide a well-rounded traffic safety program, within the power of any state or community to meet. They touch the all-important high-spots—education, examination and law enforcement.

America has had enough of reckless drivers—of ignorant youth taking the wheel for the first time—of the ticket-fixing racket that lets the guilty man with pull go free—of the callous indifference toward others that the speed mania displays.

Every one of the 48 states, every one of the thousands of villages and cities in the land, must give its energies to solving the traffic problem.

A PRACTICAL SERMON

In this issue appears a great sermon explaining the philosophy of Paganism and of Christianity. It is written by Gus W. Dyer, Professor of Economics and Sociology of Vanderbilt University.

Professor Dyer has an article once a week in this paper. He is one of the clearest, if not the clearest, thinkers on political, social and religious articles we have ever had the pleasure of perusing.

Every preacher and every man who is interested in good government should read this article. It is run under the heading of "You and Your Nation's Affairs."

Professor Dyer presents the essence of the philosophy of Paganism and the essence of the philosophy of Christianity. We have an object lesson in our country where we are drifting to the philosophy of Paganism, rather than to the philosophy of Christianity.

As Professor Dyer says, "The Pagan theory is essentially destructive. It has destroyed every civilization that has adopted it."

Behind The Scenes In Washington

By RODNEY DUTCHER Pampa News Washington Correspondent

WASHINGTON, Nov. 15—You can figure an electoral college majority for Republicans on the basis of the 1938 election. If states in which the party made noticeable gains were to be carried by the C. O. P. in 1940, a Republican would move into the White House.

In states where a new Republican governor or senator was elected, the total electoral vote would not be big enough to elect a President. But if it could be assumed that, in addition to those states, each state which elected two or more new Republican congressmen would go for the party presidential candidate two years hence, victory by a comfortable margin would be assured.

That assumption may be considered optimistic. But if the 1938 trend toward the Republicans is half matched by one in 1940, the result appears to be indicated by these figures:

In 1936 Mr. Roosevelt received 523 electoral votes as against Alf Landon's eight from Maine and Vermont.

In 1938 Republican gubernatorial or senatorial candidates—or both—displaced Democrats in these states: Pennsylvania, 36 electoral votes; Ohio, 26; Michigan, 19; Massachusetts, 17; New Jersey, 16; Wisconsin, 12; Minnesota, 11; Iowa, 11; Kansas, 9; Connecticut, 8; Colorado, 6; Oregon, 5; New Hampshire, 4; South Dakota, 4; Idaho, 4; Rhode Island, 4; Wyoming, 3; Delaware, 3.

The total electoral votes of these states, added to those of Maine and Vermont, is 206.

But an electoral college majority is 266.

Apparently it hasn't been done yet, but any smart Republican can figure that majority and more if he banks on the following states in which his party has just gained two or more seats in the House:

New York, 47 electoral votes; Illinois, 29; California, 22; Indiana, 4; Nebraska, 7. Which is 119. And if you add that to the previous total the result is 325 electoral votes.

A campaign record appears to have been established by Senator Homer T. Bone of Washington, Democrat, who won in the primaries without accepting a contribution or spending a nickel and beat his Republican opponent in the election without accepting a contribution.

Folks at Democratic Senatorial Campaign Committee headquarters swooned all over the place when Bone returned the perfunctory \$500 campaign contribution they sent him. In the election campaign he reported no contributions and \$406 for expenditures.

Sharing the Comforts Of Life ---

By R. C. Hoiles

BUSINESS GEARED FOR 20,000,000 MORE WORKERS

When we are short, as Senator-elect Downey says, 20,000,000 full-time jobs and business is geared for exchanges with these 20,000,000 producing something, the problem of business becomes very complicated and difficult. When these 20,000,000 people are idle, they are not producing things to trade for the products of the farm and of the industries.

As an illustration, ranchers have planted orange groves in the past on the assumption that men would be working practically full time and producing something with which to buy oranges. Now that they are not producing, they have nothing to trade for these oranges. As a result, the orange growers suffer a big loss and thus have much less to trade for the production of other industry and the other industries are affected just as the orange growers are affected.

They are geared up for all able-bodied men, who want to work, to work and produce something with which to buy. The businesses that are engaged in luxuries, or semiluxuries, are the first ones hit and probably hit harder than any other business. Yet, even the businesses that are producing staples like wheat, cotton and beans, are also hit because these people who are out of work produce more or less luxuries and comfort of life, divert their energies into the bare necessities of life.

This makes their production out of balance, compared with what they would be if all workers were working and producing and exchanging what they produced for these comforts.

Unquestionably there would not be too many oranges produced, if the workers in the East were working and none were on a non-competitive basis and were freely exchanging their production for what they wanted. Their wants would be sufficient to use all the oranges we so far have produced.

But unless these men go back to work and begin to produce something to trade, the supply of oranges will be out of proportion to other production and, as a result, the price will be very low and the rewards very low for the labor and investment that produces it.

The point that I am attempting to make, is that every man should be greatly interested in every man working and producing something. To put a man on a pension, or give him made work that does not really produce wealth, or give him a government job that does not produce wealth, does not furnish purchasing power to buy the products of private initiative and private business. It simply transfers purchasing power from one to another so that the total demand for products is not increased by these artificial methods.

Interference With Free Exchange Of course, there is only one real reason for unemployment and that is interference with free exchange. It is necessary that people understand the causes that interfere with free exchanges, which subject we so frequently discuss. It is evident that, unless the people become informed on why men are not working, our production will become so low that we will eventually have such a low standard of living that people will be willing to give up the freedom they have had in the past in order to break this deadlock of unemployment.

Unemployment means lower wages for those who are working, lower profits for those in business and discouragement for the youth and old age; it benefits no one and harms everyone. Everyone should be interested in frankly, fearlessly, courageously, honestly and openly discussing these questions. It is of the utmost importance that the public come to understand why men are out of work.

The Nation's Press

SLAMMING THE OPEN DOOR (N. Y. Times)

No official reply has been received to the American note of Oct. 6 demanding an end of Japan's interference with our trade in China. But yesterday's statements by the Japanese Government and the Foreign Office spokesman are clearly intended as an answer to Washington and to other Governments whose interests have been flouted in the Japanese invasion.

The purport is to slam the Open Door shut in the faces of all the Western Powers. The voice of Japan announces defiantly that the conquest of China is to be followed by a reconstruction of Asia for the Asiatics. Western "colonies" are incompatible with the "imputable policy" of establishing a new order in Eastern Asia. This order, already fore-shadowed in the provisional regime established at Peking, means an extension with every Japanese advance of the puppet Government of Manchukuo. If she gives up her own Government, China is to be permitted to share in the task of creating this Japanese empire. She is to be allowed to exchange 4000 years of Chinese civilization for the new culture of Japan.

Tokyo warns the world to get out and keep out of Asia. But suppose Japan is able to seal up the Open Door and drive the Westerners out of the Hong Kongs and the International Settlements, where is she to get the resources to develop and rule the Asiatic continent? Against the prospect of empire the Government issues a call for greater sacrifices; it implies that the people must be prepared for a prolonged struggle in China and for possible opposition from Great Britain, France and the United States. Suppose, furthermore, that Japan is really forcing a pan-Asiatic movement in China. Where does it lead?

Such a movement might once have stirred the Chinese Nationalists. It might have led on the anti-foreign feeling that flared up in the Boxer Rebellion. But now it is the Japanese who are the hated foreigners in China. In two years of invasion and 'rightfulness' they have destroyed all hope of Chinese co-operation in a policy which does not mean Asia for the Asiatics but China for the Japanese. How can China accept this domination? How far can the world acquiesce? The Japanese Government statement is not only a brusque answer to the American demand for the maintenance of the Open Door. It is a repudiation of the fundamental trade policy of our Government, reiterated at the National Foreign Trade Convention by Mr. Hull and Mr. Messersmith. Japan has not declared war on China. But is not this warning tantamount to a declaration of economic war against the rest of the world?

At any rate, when a still man approached Leo for publicity pictures, Carrillo quickly suggested: "Yes, take a picture of me and my horse — in Jose E. Brown's mouth!" They take their movies seriously here.

In a maternity hospital, over the plate glass partition behind which proud papas first see their new offspring, there appeared this sign: "Motion Pictures are Your Best Entertainment."

The typical family in the United States has four members.

ADDED ATTRACTION

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—Isa Miranda is an Italian and blonde—but her handshake is thoroughly American; the strong, firm, I-mean-it type. She looks somewhat like Dietrich, somewhat like Garbo, more alive than either.

Since her arrival some ten months ago, she has been studying English. Now she can sling a sentence with fair assurance and little groping for words. That means—she is ready. They're putting her into "Hotel Imperial" to atone for an earlier false start in "Zaza," where her linguistic deficiencies tripped her.

All this time, of course, she's been drawing salary—some reports say \$2,500 a week—and there with the usual fuss about studio wastefulness in hiring foreign talent. The same sort of furore prevailed all those months while Danielle Darrieux of France was idling on salary (while Universal tried to whip up a script for her).

And the end, probably, will be the same. Since the fans saw Darrieux, nobody has mentioned those expensive pre-production weeks. When they see Miranda—if Franca is as good as her tests and her foreign word indicate—nobody will care how much it costs to keep her here.

Many an actor has begun a picture without knowing the story it would tell. Few actors finish a movie without some vague idea what it was about. That puts Jascha Heifetz in a class by himself.

Heifetz began—and finished—the starring role in his first movie without a word of script. Even today, if you met him somewhere on his current tour and questioned him, he could truthfully say he hadn't the slightest idea what kind of story he finished.

For that matter, neither has Sam Goldwyn, the movie impresario. Goldwyn would like to know, even more keenly than Heifetz, Heifetz's after all, has collected his \$75,000. Goldwyn has to make a picture from Heifetz's film work or count the \$75,000 wasted. Sam doesn't like to count that way.

Violinist Heifetz, long contracted for the movie, had to make his scenes now in order to meet other engagements. On the Goldwyn set, neatly cut and assembled, with sound track to match, the Heifetz performance is stored away in the usual tin cans.

There are seven numbers in all—three show him in usual formal concert attire, the rest reveal the great fiddler dressed in white jacket and blue trousers as for an open air performance. Goldwyn's scripters have that much, at least, to go on. They know that Heifetz will play the role of a concert violinist.

Leo Carrillo, himself a comedian of sorts, is with Joe E. Brown in the comic's new picture. Since Brown must star, and since Carrillo—nominally at least—is "in support," there is free conjecture that our "bes dam" caballero in all Me-hico has not been too amused.

At any rate, when a still man approached Leo for publicity pictures, Carrillo quickly suggested: "Yes, take a picture of me and my horse — in Jose E. Brown's mouth!" They take their movies seriously here.

In a maternity hospital, over the plate glass partition behind which proud papas first see their new offspring, there appeared this sign: "Motion Pictures are Your Best Entertainment."

The typical family in the United States has four members.

People You Know

By ARCHER FULLINGIM

Of course you have wondered how parents, especially mothers, can keep from running out on the field when their sons are hurt while playing football. Well, it's not because they don't want to go that they don't go. Usually the mothers don't go because they know that everybody will be looking at them, or because the son probably would be embarrassed to death, or because the husbands sitting beside them are holding them down, but Mrs. Roy Showers, mother of the former Harvard star, couldn't keep her seat when her son got hurt in a game down at Lubbock. Mrs. Showers left her seat with the speed of an antelope and was making for the gridiron when Roy came too late.

But of course Roy wouldn't be embarrassed if she had come out and carried him off the field. He would have enjoyed it because Roy thinks that what his mother does is okay. It would be too painful to describe Mrs. Giddens' anguish Friday afternoon when her son was knocked out in the Lubbock game, but she saw some of the game until he began to show signs of life. Mrs. Ripple began holding her breath when Carl went into the game. On the first play he was hurt, but got up. Naturally, parents keep their eyes glued on their own sons during a game. Sooner or later, most mothers will say that the injuries are "all they have against football." However, most fans Saturday were more concerned about the seriousness of Giddens' and Carr's injuries than they were about the progress of the game. "Those two boys certainly looked 'gone' laying down there by the bench so long a time before they got up," said the doctor before he began to examine them, "the stands were even more concerned."

Furthermore, this animism distorts the child's view of the role of the parent. The parent becomes endowed with supernatural knowledge, mysterious wisdom and great power. For nothing short of such qualities could allow the parent to move about safely in this magical world as the child sees him move.

Thus it is more commonly said, "The knife will cut you" than "You are likely to cut yourself." The animistic treatment of the environment causes the child to picture himself as surrounded by numerous bodies, malicious spirits, and magical influences. Such a picture implies a rather than favors an effective appreciation of reality and the development of a wholesome relationship with it.

How's Your Health?

By JAGO GALDSTON, M.D.

CHILDREN AND REALITY. To grow up psychologically one should effect good relationships with reality. This calls for recognition of the nature and quality of reality, and for a reconciliation between a person's ambitions, fancies, preferences, and the reality.

This wisdom of growing older was in part expressed by Elbert Hubbard in his aphorism: "The wise man is he who takes the lemons that fate hands him and goes into the lemonade business."

Environment constitutes no small part of the child's and the adult's reality. Thus it is important that the child be properly helped to understand his environment.

Many adults, either "for the fun of it" or because of other motives, corrupt the child's appreciation of his environment. One of the simplest and most commonplace corruptions may be labeled "Animism."

This corruption consists in endowing the objects and forces of the environment with willful personalities. The child, for example, that runs into a chair is told that the "chair hurt him and is naughty," and to complete the animism, the chair is spanked.

If it thunders, the child is told the heavens are angry at the child's disobedience. "If it rains," it is because the child failed to show cooperation or did not finish his tasks.

Things such as sharp knives, slippery rugs, ladders, are pointed out to the child as particularly hazardous, but the injunctions are issued against the objects and not against the child's unskilled handling of them.

Thus it is more commonly said, "The knife will cut you" than "You are likely to cut yourself." The animistic treatment of the environment causes the child to picture himself as surrounded by numerous bodies, malicious spirits, and magical influences. Such a picture implies a rather than favors an effective appreciation of reality and the development of a wholesome relationship with it.

Furthermore, this animism distorts the child's view of the role of the parent. The parent becomes endowed with supernatural knowledge, mysterious wisdom and great power. For nothing short of such qualities could allow the parent to move about safely in this magical world as the child sees him move.

Tex's Topics

By Tex DeWeese

Santa Claus, like many another busy business man, has a lot of grief with his fun. And there is more trouble ahead. For 100,000 toy makers are about to organize under the C. I. O. and the kindly old gent will have to have a time clock in his stinky factory somewhere around the north Pole.

Santa is an extreme individualist and while his work is seasonal he is probably the busiest fellow in the world when he gets started. The business agent may have to sleep in the reindeer stable, but nothing can be permitted to slow up the stop a robit chap who has a date with every chimney in America the eve of Dec. 25.

The shower bath swoop is coming down. The fashion of piling a lady's crowning glory in soft singlets on her head is definitely skidding. No longer will it be necessary to have a hairdresser around to help minkidy remove her hat. The olden days of the long bob and windswept hair-do are here again.

The movies are said to be a contributing factor in the trend away from the top-heavy pile. Greta Garbo's arrival from Europe, with a long job, the refusal of Norma Shearer to continue wearing her hair top-side, and Joan Crawford wearing a long coiffure that conceals both ears were all bad news so far as hair stylists were concerned.

But the hectic battle to "put it up" was not without its ultimate benefit. Instead of the French coiffure the country now speaks of a hair dress as a "hair-do," a thoroughly American combination of words that expresses exactly what is meant much better than the imported words used since the Gibson girls first flashed on the American scene.

Preferences regarding men and their clothes were recently polled in a survey conducted at Skidmore College, Saratoga Springs, N. Y. When it comes to beaus, an overwhelming majority of the girls definitely prefer the more serious type of man to the jitterbug. However, the girl added, men must not be too serious and should by all means have a sense of humor.

The ideal composite man, according to results, is tall, dark and handsome. Brunettes went out by three to one. Brown eyes received a slight preference over blue, and although the girls admit they like 'em on the tall, slender side, they want good builds and no weaklings, thank you.

A great many girls made a special point of stating that their boy friends should above all, be good dancers. The college girl also wants her beau to have excellent manners and to know how to conduct himself on all occasions. He should always be a gentleman, tactful, sincere and honest. He should be easy to get along with and an interesting, intelligent conversationalist. The ideal man must also be clean-cut, well-groomed and appropriately dressed at all times.

So, how do you check up, fellows?

A column of air one mile square extending from 50 feet to 14,000 feet above the earth contains, on an average for all seasons, about 25,000,000 insects, according to tests conducted in Louisiana.

Talk has been increasing concerning the desirability of putting part of the oil tax into a permanent fund, which still would be drawing interest when Texas no longer has oil, if that time ever comes.

The Pagan theory of life is that life and happiness come to the individual or nation as a result of being in a position to command commodities and services from others. The more abundant life is measured by the abundance of what you receive over and over again. Business is a means by which men exchange usefulness in the exchange of commodities and services both parties are benefited—both parties profit. The more a man gives the more he receives. The abundant life is a by-product of hard work or services given to others. To run away from work is to run away from life. To repudiate work is to commit suicide. It is through work that individuals and nations grow strong and invulnerable.

From the beginning of our history down to a few years ago the rank and file of the American citizens regarded hard work not only as a duty but also as an honor. The hard worker was a man of distinction in his community. They had little respect for a man who tried to avoid work, and had a contempt for a man, able to work, who looked to the government to support him. They found their lives and grew strong through hard, constructive work, through constructive service to their families, their communities and to their country. They accepted it as their duty to support the government from their earnings in all of its constitutional, legislative activities, but they scorned the idea of degrading themselves and sacrificing their independence by looking to the government to give them any special aid.

It was the proud boast of Americans up to a few years ago that the average American working man did a third more work than any other average working man in the world. It was the American ideal of work, based on the Christian theory of life that made us invulnerable in the past. The Pagan theory is essentially destructive. It has destroyed every civilization that has adopted it.

Nation's Affairs

By GUS W. DYER

Reverting to Paganism

Professor of Economics and Sociology, Vanderbilt University

The Pagan theory of life is that life and happiness come to the individual or nation as a result of being in a position to command commodities and services from others. The more abundant life is measured by the abundance of what you receive over and over again. Business is a means by which men exchange usefulness in the exchange of commodities and services both parties are benefited—both parties profit. The more a man gives the more he receives. The abundant life is a by-product of hard work or services given to others. To run away from work is to run away from life. To repudiate work is to commit suicide. It is through work that individuals and nations grow strong and invulnerable.

From the beginning of our history down to a few years ago the rank and file of the American citizens regarded hard work not only as a duty but also as an honor. The hard worker was a man of distinction in his community. They had little respect for a man who tried to avoid work, and had a contempt for a man, able to work, who looked to the government to support him. They found their lives and grew strong through hard, constructive work, through constructive service to their families, their communities and to their country. They accepted it as their duty to support the government from their earnings in all of its constitutional, legislative activities, but they scorned the idea of degrading themselves and sacrificing their independence by looking to the government to give them any special aid.

It was the proud boast of Americans up to a few years ago that the average American working man did a third more work than any other average working man in the world. It was the American ideal of work, based on the Christian theory of life that made us invulnerable in the past. The Pagan theory is essentially destructive. It has destroyed every civilization that has adopted it.

It was the proud boast of Americans up to a few years ago that the average American working man did a third more work than any other average working man in the world. It was the American ideal of work, based on the Christian theory of life that made us invulnerable in the past. The Pagan theory is essentially destructive. It has destroyed every civilization that has adopted it.

It was the proud boast of Americans up to a few years ago that the average American working man did a third more work than any other average working man in the world. The Capital Jigsaw

By HOWARD C. MARSHALL

AUSTIN, Nov. 15 (AP)—Evidence that controversy over the tax on oil, Texas' greatest resource, will occupy much of the legislature's time at the session starting in January has appeared with increasing frequency.

There have been few sessions in recent years in which the tax on the petroleum industry has not been one of the main issues. The production levy on oil has been boosted 37 1/2 per cent since Gov. Allred's administration began but thousands of persons think it still is not high enough. The current rate is 2 3/4 cents a barrel or 2 3/4 per cent of value, which is greater.

Invited to speak to oil men at the San Antonio meeting of the Texas division of the mid-continent oil and gas association last month, Governor-elect W. Lee O'Daniel said it looked like the state might have to raise more tax money for old age pensions and the money must come from those who had it. He intimated he believed the oil industry was in that position.

There has been some talk that the several additional millions needed annually for more liberal old age pensions, aid to the dependent children and blind, and state matching of teachers' contributions for retirement, might be obtained through reductions in ordinary expenses of government.

It is almost impossible, however, to bring about a large cut in state governmental costs without slashing salaries and many persons hold that would be out of line with the federal government's drive to boost wages. It is difficult to consolidate departments or curtail their personnel because every department has many friends.

Numerous observers feel that if the legislature cuts expenses to the extent that the general fund deficit can be retired at a rate of about \$3,000,000 a year, it will have done about as much as can be expected in the way of economy. The deficit has been rising each year for several years. At the start of this month

Mrs. Crabtree Gives Review Of Book For Contemporary Group

"Horse and Buggy Doctor" by Hertzler was the book reviewed by Mrs. Virginia Crabtree...

Mrs. Robert Boshen, who is chairman of the group, presided at the meeting.

Those attending last evening were Mrs. Robert Boshen, Hol Wagner, Ben Glover, John Bradley, Sam Irwin, C. C. Walsted, H. V. Matthews, L. C. Neely, Tom Sweetman, E. L. Norman, Fred Roberts, M. E. Lamb, Lederer, Bob Sanford, Misses Alice Short, Lillian Mullinax, Virginia Bruce, and Bernice Larsh.

Courtesy Club Has Program On Books At Horace Mann

"Books" was the program theme of the Courtesy Club meeting at Horace Mann school Monday afternoon with Robert Cotton acting as chairman.

A dramatization from "Eight Cousins" was given by seven boys and one girl, and a poem, "Books," was read by Ernest Hoyer.

The club will meet again on November 21.

Capital Of Hunan Province Burning

SHANGHAI, Nov. 15 (AP)—Chiang-sha, capital of Hunan province and next major objective of the Japanese, appeared today to be doomed to virtually complete destruction by fire before the Japanese arrive.

Fragmentary advice reaching Shanghai indicated the populace of the city was panic stricken at the prospect of quick entry by the invaders, while Chinese troops burned buildings in keeping with their "scorched earth" policy.

The majority of Changsha's foreign residents were said to have taken refuge in the Standard Oil installations on the banks of the Siang river outside the city, where they were guarded by the British gunboat, Sandpiper.

A group of foreign missionaries, however, mostly Americans, remained within the compound of the American Union Bible Institute, inside the walls of the burning city.

It was believed they would be reasonably safe there.

Market Briefs

NEW YORK, Nov. 15 (AP)—Led by steel, aircraft and specialties, the stock market turned around in today's late decline and substantially reduced or cancelled early losses running to more than 2 points.

The ticker tape was behind at the opening, but offerings soon dried up and, after noon, a slow revival got under way.

Steel was the best in the final hour and prices were no more than moderately irregular at the close.

Transfers approximated 1,400,000 shares.

Table with columns: Sales in 100s, High, Low, Close. Lists various commodities like Am Can, Am Rail & S, etc.

Life Sentence Given Triple Slayer Irwin

NEW YORK, Nov. 15 (AP)—Robert Irwin, whose disease-warped mind ranged from creation of promising sculptures and an ambition for the ministry to a maniacally twisted jealousy in which he killed three persons, faced today a lifetime in prison.

He boasted he would be free within 10 years.

Psychiatrists predicted, instead, that he would be dead within five, a victim of tuberculosis.

The 31-year-old sculptor-slayer bargained protestingly yesterday to escape the electric chair.

He finally pleaded guilty to second degree murder after creating a courtroom scene, alternately enacting a screaming maniac, almost incoherent, and a crafty pleader against injustice.

A pair of old pants he abandoned with luggage in the Grand Central station when he fled after the Easter, 1937, triple slaying on Beekman Hill, figured in the bargaining.

Just before he took the floor from the attorneys, he obtained a promise from Assistant District Attorney Jacob Rosenblum that his trousers would be returned if he pleaded guilty.

Irwin stabbed and bludgeoned Veronica Geddon, a beautiful photographer's model, her mother, and a boarder, Frank Byrnes, in the modest Geddon apartment on the midtown East Side.

"There was nothing malicious in what I did," Irwin told the court, as he admitted the slayings.

He concluded his colloquy with the judge by saying: "I prophesy to you that before 10 years I will be out."

The guilty plea was offered before a jury to try him for first degree murder had been completed.

District Attorney Thomas E. Dewey said he would demand a sentence of 90 years to life (the minimum is 30 years) for each of the murders, to run consecutively.

Stanberry Resigns R. R. Commission Job

AUSTIN, Nov. 15 (AP)—Resignation of Laten Stanberry as head of the oil and gas division of the

Railroad Commission, effective Dec. 1, may lead to elimination of that position. Ernest O. Thompson, commission chairman, said he would recommend that the work of Stanberry's office be combined

with that of V. E. Cottingham, chief engineer and head of production. Thompson estimated the move would save more than \$5,000 yearly.

ENTERTAIN IN STYLE AND COMFORT

HERE'S A SMART NEW VERSION of the hostess gown—a fashion that grows more popular every day because of its ease and comfort. Another example of great popularity based on comfort is Modess. This different type of sanitary napkin is made with a soft, fluffy filler.

GRAIN TABLE (Chicago, Nov. 15 (AP)) Wheat High Low Close Dec 1.44 1.44 1.44 1.44

CHICAGO GRAY (Chicago, Nov. 15 (AP))—Late estimate that the export purchase of Canadian wheat totaled around 1,000,000 bushels helped make prices rise half a cent a bushel here today.

At the close, Chicago wheat futures were unchanged to 1/2 higher compared with yesterday's finish, Dec. 64 1/2; May 64 1/2; corn unchanged to 1/2 lower, Dec 48 1/2; May 51 1/2; and oats unchanged to 1/2 up.

German Ship Guarded (New York, Nov. 15 (AP))—Fearful of anti-Nazi violence, police authorities assigned a special detail of 25 men today to guard the North German Lloyd liner, Bremen, at her pier.

The long nights and days on the moon result from the fact that, as the moon travels around the sun, it turns very slowly on its axis. Thus, one side of it is exposed to the rays of the sun for a great length of time.

Ranges On High Plains Good Due To October Dues

Texas Livestock ranges entered November at 75 per cent of normal and dry feedings were resorted to in most districts, the U. S. Department of Agriculture reported today.

An exception was the high plains area of the Panhandle where good rains in October resulted in conditions much better than in several past years, the report said.

Ranges in the remainder of the Panhandle, the Central Texas blacklands and the South Central region deteriorated materially in October.

There was plenty of dry feed in the sheep country of the Edwards plateau but moisture is needed to insure green feed for winter grazing.

The condition of cattle and sheep on November 1 was 81 per cent of normal and goats were 82 per cent of normal, all down one point from October 1.

Marine Defenses Planned

WASHINGTON, Nov. 15 (AP)—A special Senate committee, reporting improvement in maritime labor conditions, turned its attention today to legislation to build up the American merchant marine as a supplement to national defense.

Chairman Bailey (D-N.C.) said the group would try to hasten the construction of merchant ships which might be converted to government use in wartime.

Methodist WMS Has Missionary Lessons Monday

Five circles of the Woman's Missionary society of the First Methodist church met in regular session Monday afternoon for missionary programs.

Mrs. G. C. Addison was hostess to the 12 members of circle one who met for a program which was opened with a song and the call to worship by Mrs. Robert Elkins. Mrs. Dan Letcher read a song, "God of Grace and God of Glory."

"Planting the Gospel in Mexico" was the missionary topic presented by Mrs. J. M. Turner preceding the reading of a poem, "Courage, Brother, Do Not Stumble," by Mrs. Ralph Chisum. The meditation was given on "It Was Beautiful But Can It Be," and Mrs. John Hodge conducted the spiritual life message. Sentence prayers concluded the meeting.

Refreshments were served by the hostesses.

Thirteen members of circle two met in the home of Mrs. R. W. Lane with Mrs. Homer Lively as co-hostess at the meeting.

Mrs. H. E. Boggs gave the lesson on "Planting the Gospel in Mexico" and roll call was answered with interesting items on Mexico. Other members on the program were a whistling duet by John and Robert and Don Lane and the devotional by Mrs. John Hesse.

A refreshment plate was served during the social hour.

"Mexico" was the missionary topic discussed by Mrs. Frank Showell at the meeting of 13 members of circle three in her home. Refreshments were served by the hostess at the close of the meeting.

Mrs. Sherman White was hostess to the members of circle four in her home.

A song, "Must Jesus Bear the Cross Alone," opened the program, including the roll call which was answered by 13 members, two visitors, Miss Mildred Platter and Mrs. R. E. Kessie, and one new member, Mrs. Harvey Bowers.

Cards of thanks for special courtesies were read from Mrs. W. Purviance and Mrs. Susie Porter who are out of town because of illness.

A regular meeting of the spiritual Unemployment" was presented by Mrs. Check Blackwell who was assisted by Mrs. Joe Shelton. Three members, Mrs. W. R. Ewing, Mrs. W. R. Ketter, and Mrs. Johnston gave the missionary topic, "Serving in the Heart of Africa," after which a paper by Mrs. Sally Lou McKinney was read by Mrs. H. H. Boynton. Closing the program was "The New Work in Lodja, Africa," by Mrs. Sherman White, and a prayer.

Mrs. White and Mrs. Ketter served refreshments to the group.

A meeting of circle five was conducted in the home of Mrs. E. B. Tracey by the 13 members who answered to roll call.

Mrs. T. B. Barron, leader of the program on Mexico, was assisted by Mrs. Tracey, who served tea on Italian china.

Mrs. Goff Elected Leader of General Women's Council

Members of the executive board of the Women's General Council of the First Christian Church met Monday afternoon in the home of Mrs. A. A. Teimann with Mrs. Tom Eckerd as co-hostess.

The meeting, which was conducted by Mrs. Emory Noblitt, was opened with a prayer by Mrs. De Lea Vicars. Mrs. B. C. Fahy was elected vice-president to fill the vacancy caused by the resignation of Mrs. Don Blair. Mrs. Jim Goff was elected president of the general council.

Refreshments were served to Mrs. Tom Bunting, B. C. Fahy, De Lea Vicars, Lillian Stewart, Dick Rhodes, John Beverly, Ray Walker, Ed Johnson, Charles Marney, W. E. Egan, I. S. Marlin, Emory Noblitt, W. G. Kinzer, and Don Hurst.

The next meeting will be in December at the home of Mrs. Charles Maderia, 1015 East Fisher Street with Mrs. Ed Johnson as co-hostess.

Speaker Discusses American Education For Tomorrow

A feature of the observance of American Education week at Sam Houston school was an address by R. A. Selby on "Education for Tomorrow's America."

Mr. Selby explained why National Education week is observed and told that tomorrow's America will be what boys and girls make it. He told that getting ready for tomorrow is like getting ready for a picnic. Six ways in which to get ready for tomorrow are to have a good name, good habits, hard work, plan carefully, be able to do something well, and be able to enjoy good things, and let bad alone, Mr. Selby stated.

"Live right today to prepare for tomorrow," Mr. Selby stated.

You Have Tried The Rest Why not try the best? B. J. B.

Bile salts, buchu, juniper Compound Tablets

Give this great new wonder medicine a fair trial provided you are the victim of indigestion, weak, sick, sour bloated stomach, acid conditions, belching, gas pains, biliousness, dizzy spells, kidney, bladder trouble, nit rising rheumatism or chronic constipation. (Positive money back guarantee)

Society NOTES

WEDNESDAY

Woman's Auxiliary of the St. Matthews Episcopal church will have a called meeting at 2:30 o'clock in the parish house. Group three of the Friendship class of the First Methodist church will meet with Mrs. S. C. Evans, 1601 East Browning, at 2:30.

Monthly Brotherhood dinner of the First Presbyterian church will be served at 7 o'clock in the annex.

Clara Hill class of the First Methodist church will have a luncheon at 1 o'clock in the home of Mrs. Lawrence West, 602 North Warren.

Chatterbox Sewing club will meet at 2:30 o'clock in the home of Mrs. Chester Williams.

Mrs. H. O. Lilly will be hostess to the Queen of Clubs at a 9 o'clock breakfast in the Hotel Schaeffer.

Circle

Water Resources Survey Outlined To County Board

Explanation of a proposed survey of the underground water sources of Gray county was made to the county commissioners at their meeting Monday by W. L. Broadhurst, of Plainview, hydraulic engineer. No action was taken on the matter by commissioners, Mr. Broadhurst's talk being merely an outline concerning the project.

As explained by Mr. Broadhurst, the project, if adopted here, would be part of the state-wide inventory of water resources, sponsored by the Texas Board of Water Engineers, assisted by the United States Geological Survey, and using WPA labor.

Dallam county completed a three-months project of this nature in April, 1937, and Potter county had the plan in operation for five months ending August 24, 1937.

Purpose of the project is to assemble correct information on all existing wells, determine the total quantity of water, and by test holes to perhaps locate new water sources. This information, Mr. Broadhurst said, was frequently asked all state departments in connection land sales.

There would be 50 men employed on the project in Gray county should the plan be approved, County Judge Sherman White said. However, the plan was simply presented at the commissioners meeting Monday and no immediate action was taken.

Two Benefit Plans Announced By GMC

DETROIT, Nov. 15 (AP)—General Motors Corp. announced today two benefit plans intended to assure hourly wage employes of weekly incomes throughout the year.

Chairman Alfred P. Sloan, Jr., said about 150,000 workers would fall within the scope of the plans.

Employes with five or more years of service will be entitled to advances in periods of curtailed employment sufficient to bring their aggregate weekly incomes from all sources to 80 per cent of their standard weekly earnings. That plan will be known as "The General Motors income security plan."

Employes with two to five years of service will be entitled to advances in periods of subnormal earnings equal to 40 per cent of their standard weekly earnings. That plan, which limits the advances to the equivalent of 72 hours of work, will be known as "The General Motors lay-off benefit plan."

Employes will be required to repay the advances by work performed when production increases.

The announcement said a suitable plan applicable to 37,000 salaries employees was being prepared.

30th Annual P-TA Conference Opens

LUBBOCK, Nov. 15. (AP)—Opening session of the 30th annual convention of the Texas Congress of Parents and Teachers was conducted at 9 o'clock this morning at the First Baptist Church here with Mrs. M. A. Taylor of Botham, state president, presiding.

Two hundred and fifty-five delegates had registered for the three-day session and hundreds of women were in line on the mezzanine floor of a local hotel where registrations will continue until 5 o'clock.

After silent prayer, followed by the congress prayer led by Mrs. Taylor, the assembly sang "The Star Spangled Banner," directed by Mrs. Charles Stephens of Fort Worth, state chairman of music.

Greetings were extended by Mayor Carl Slaton of Lubbock and Mrs. S. B. Haynes, president of the Lubbock Parent-Teacher Council.

Smaller Price For Turkeys Indicated

That roasted bird on your Thanksgiving dinner table may have a smaller price on his missing head than his predecessor had last year. This prospect was foreshadowed today by current quotations on the Chicago wholesale market. Specimens of turkeys, ducks and geese arriving here in increasing numbers for the special holiday trade indicated the traditional piece de resistance of Thanksgiving day would be a little plumper.

Wholesale markets for poultry have been fairly steady and in instances strong the past few days. Turkeys rose about one-half cent a pound but dealers said this was the result of a temporary pressing demand and expects that the peak movement to market would be a little later than usual. They called the market "normal" with indications of a good supply.

The nation's turkey crop was estimated to be 3.7 per cent larger than a year ago but 6 per cent smaller than in 1936. Average weight was expected to be approximately three to six ounces heavier. The latest census reported some 17,000,000 turkeys are raised annually for the American market and poultry experts have estimated that normally 30 to 35 per cent of the crop is eaten at Thanksgiving time.

Young tom turkeys dressed were quoted in the wholesale market here around 25 cents a pound, with hens slightly higher. These prices were a shade lower than a year ago but five cents higher than in 1936. Live turkeys advanced about a cent since November 1, were quoted at 18 to 19 cents.

AMBASSADOR

(Continued from Page one)

month, said "there is a real danger of the growth of intolerance here in America" because "unchecked mass brutality is contagious."

Former President Hoover declared the situation "makes us fearful for the whole progress of civilization, and added that it is bringing to Germany "moral isolation from the entire world."

The press attacks followed upon the disclosure by Premier Chamberlain before the British Parliament yesterday that his government made a strong protest against similar Nazi press attacks.

Chancellor Hitler's newspaper, Voelkischer Beobachter, led a number of other papers in the chorus against Britain with an article under the headline "Inhuman Suppression Methods of English Against the Arabs."

Fritz Warburg Jailed

There was a brief history of British colonization with charges the colonizers blew up Arab houses in Palestine, killed women and children in India and committed other inhumanities in the Transvaal. (Germany wants to regain colonies she lost by the World War peace.)

Each of the German editorials linked shafts at Britain with speculation on Nazi decrees being prepared by Nazi authorities against the approximately 600,000 German Jews.

The Jews found scant comfort in the assertion by propaganda Minister Goebbels that they were not destined for Ghettos, for newspaper headlines observed: "No Ghetto For Sharpest Division."

The name of Fritz Warburg, prominent Hamburg financier and brother of the late Felix M. Warburg, New York banker, was added to the list of Jewish business leaders jailed since the anti-Semitic wave started last Thursday, with smashing of shop windows and burning of synagogues by crowds seeking to avenge the slaying in Paris of a German Embassy secretary by a Jewish youth.

MILK FIRMS

(Continued from Page one)

Union, and six other officers of that organization.

The major distributors indicted included:

The Borden Company, New York; Borden-Wieland, Inc., Chicago and New York; Bowman Dairy Company, Chicago; seven other Chicago dairy companies.

Twenty-one individuals were named in connection with the major distributor group.

The Associated Milk Dealers, Inc., large Chicago distributors' trade association, and 10 of its officials were indicted.

Mainly About People

The lease is for a two-year period, for grazing purposes, and the price is 7 cents an acre in advance, subject to sale. A. W. Mennix is the lessee.

Mrs. M. D. Oden and son, Marshall Lee, left Sunday night for Long Beach, Calif., for a month's visit with Mrs. Oden's father, W. J. Dilow, and other relatives.

Mr. and Mrs. H. H. Worley of LeFors are the parents of a 10-pound son born this morning at Pampa-Jarratt hospital.

Billy Ruth Crout, daughter of Mr. and Mrs. John Crout, was admitted to Pampa-Jarratt hospital last night.

John Kuris underwent an operation at Pampa-Jarratt hospital this morning.

Herbert Maynard, young Pampa football player, is still confined to his home following an operation for appendicitis. He will have to remain in bed for another 10 days, attending physicians reported yesterday. His condition, however, is favorable.

Fred Vandenburg of Texas Tech at Lubbock has returned to school after visiting with his parents.

Albert Ayer left Sunday for Mason City, Iowa, where he will be employed by the Farrer Mattress Factory.

Mr. and Mrs. Ewing Leech have returned from Dallas where they visited for a week.

Mrs. Paul Jensen and Mrs. A. W. Mann visited with their parents, Mr. and Mrs. H. N. Roach, in Shamrock Sunday afternoon.

Miss Lois Kirk visited in Borger Sunday.

Mr. and Mrs. R. H. Kitchings visited in Shamrock Sunday.

Dorothy Brunley of West Texas State College at Canyon was a Pampa visitor over the week-end.

Ed Myatt of Lubbock spent the week-end in Pampa.

Mrs. A. Carpenter of LeFors was a recent Pampa visitor.

Kenneth Stovall, who has been employed by the State Theater here, was transferred to Borger Sunday.

Among the Pampans who attended the homecoming in Clarendon over the week-end were Mr. and Mrs. Joe Gordon, Mrs. P. L. Stallings, Mrs. Hank Breining of LeFors, Mrs. Mel Davis, Mrs. Clin-

Allan Williams of Phillips booster station and daughter, Shirley, had their tonials removed Monday morning at a local hospital.

Mrs. William A. Woelfl of New York is visiting her parents, Judge and Mrs. W. R. Ewing.

Mrs. Elizabeth Oiler of Billings, Okla., arrived Sunday to spend the Thanksgiving holidays with her daughter, Mrs. A. E. Arnold, and grandmother, Mrs. Carl Lutten.

Mr. and Mrs. Ben Bell have returned following a week's wedding trip to San Antonio.

Mr. and Mrs. Roy Holt left Monday morning for San Antonio where they will visit for a week with relatives.

Mrs. Jack Reddell, 506 N. Russell, is confined to her home where she is convalescing from injuries received in a fall Saturday.

Mr. and Mrs. Keever Warren and Mr. and Mrs. Bud Mooney and daughter, Virginia, spent the week-end in Tulsa with Mr. and Mrs. Frank Keehn.

Mr. and Mrs. Ray Martin of Memphis spent Saturday in Pampa on business.

Mr. and Mrs. H. C. Wilson left Sunday for Oklahoma City.

Dorothy Burton, Lois Foster, and Martha Price, students at Texas Tech, Lubbock, were week-end visitors here.

Petele Cason, Jap Gillis, Glenn Maxey, and J. Lee Jarvis of Canyon were in Pampa over the week-end.

Mrs. O. C. Weakley of Panhandle was in Pampa today.

A marriage license was issued Monday to Carl Skinner and Estella Mae Eley (colored).

A 310 Simplex jack, with a lift of 14 inches, has been recovered by Constable Otis Henrix and is now in his possession at his office in the courthouse. The jack was found near a road west of Pampa Monday night, concealed in a pile of trash. The owner can recover the property upon proper identification.

At their meeting Monday, the county commissioners approved the leasing of 1,000 acres in the northeast part of league 287 of the Gray county school land in Gaines county.

Paris Lawyer To Be Mann's Assistant

DALLAS, Nov. 15. (AP)—Attorney General Elect Gerald C. Mann today announced W. F. Moore of Paris would serve as his first assistant soon after Jan. 1.

Moore's appointment was the first announced by Mann.

Born in Lamar County, Moore has resided there all his life. He was graduated from the University of Texas Law School and of Washington and Lee University.

He served in the Texas Legislature immediately after gaining his law degree in 1895-97. His practice has been confined exclusively to civil law.

Moore, a Baptist, Mason and member of the Beta Theta Pi fraternity, served as a member of the board of Paris school trustees for 14 years.

ALLOTMENT

(Continued From Page One)

will be apportioned among the states and divided among individual farmers. The AAA will conduct referenda next month on whether cotton, rice and tobacco growers want marketing quotas imposed in 1939.

Quota provisions must be approved by at least two-thirds of the farmers voting in order to become effective. Once in force, they are mandatory, and penalties are provided for excess selling.

Cotton, rice and flue-cured tobacco growers in the south will vote Dec. 10. Burley and dark type tobacco farmers will ballot Dec. 17.

The 1939 conservation benefit rates will be lower than those paid this year to farmers cooperating in the cotton, corn, potato, peanut, rice and most of the tobacco programs. The proposed rates for wheat and burley tobacco will be higher because of heavy reductions in acreage allotments for these crops. Rates of other payments will remain the same as this year.

Total payments to corn, cotton and rice farmers who comply will be higher than last year, however, when additional price adjustment subsidies provided for those crops are included.

Rev. Pearce Will Attend Conference

The Rev. W. M. Pearce, pastor of the local First Methodist church, will leave in the morning for Memphis where he will attend the North-west Texas annual conference of the Methodist Episcopal Church, South.

This annual business meeting will convene at 2 o'clock with Bishop Ivan Lee Holt at St. Louis presiding. Yearly reports from all the churches will be given by the pastors.

Brotherhood Dinner Set For Wednesday

A monthly Brotherhood dinner of the First Presbyterian church will be served Wednesday evening at 7 o'clock in the annex of the church.

The turkey dinner has been moved up one week because of the Thanksgiving holidays.

YOUR BUSY LIFE LETS DOWN THE BARS TO NERVE STRAIN

HE'S GIVING HIS NERVES A REST... AND SO IS HE

BOSTON TERRIER—A cross between the English bulldog and white English terrier, but this gentle, lovable house pet is strictly an American product. First bred in Boston some 60 years ago. Once called the "Roundhead," today he is the "American Gentleman" of dogdom. The phrase "Boston terrier expression" has become almost a synonym for intelligence in dogs.

ARE these busy, trying days for you? Do you find yourself, at day's end, irritable, nerve-weary? Take a moment — study the dog above. He's resting his nerves. Even in the midst of strenuous action he will stop, relax. The dog does that instinctively, though his nerves are complex, high-keyed like our own.

We, trained for the intense stress of modern life, are likely to ignore the distress signals of our nerves—the

instigative urge to rest. So often, we let our will-power drive us on at a task, heedless of nerve tension.

You don't want your nervous system to be a drag. See what a difference it makes when you rest your nerves frequently—when you LET UP—LIGHT UP A CAMEL. Enjoy the mellow goodness, the matchless mildness of Camel's rich, ripe tobaccos. Smokers say Camel's costlier tobaccos are so soothing to the nerves.

They break Nerve Tension — Millions do — They "Let up — Light up a Camel"

Smoke 6 packs of Camels and find out why they are the LARGEST-SELLING CIGARETTE IN AMERICA

A QUARTER-MILLION miles of flying are behind Miss Lolly Sisson (left), air hostess on TWA's "Sky Chief." She says: "Caring for passengers on long flights is a real strain on the nerves, but I keep away nerve tension by pausing when I can. I let up and light up a Camel."

DID YOU KNOW? —that if a roll of cigarette paper were not cut as it runs through the machine, it would make a cigarette a mile long? That modern cigarette machines turn out 800 to 1000 finished cigarettes per minute? That the output of every machine is continuously under inspection and test to make sure each and every Camel is perfect? Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic.

EDDIE CANTOR—America's great comic personality in a riot of fun, music, and popular songs. Each Monday evening over the Columbia Network. 7:30 pm E.S.T., 9:30 pm C.S.T., 8:30 pm M.S.T., 7:30 pm P.S.T.

BENNY GOODMAN—Hear the King of Swing, and the world's greatest swing band—each Tuesday evening over the Columbia Network. 9:30 pm E.S.T., 8:30 pm C.S.T., 7:30 pm M.S.T., 6:30 pm P.S.T.

LET UP — LIGHT UP A CAMEL!

Smokers find Camel's Costlier Tobaccos are SOOTHING TO THE NERVES

Tex Watkins Wins Right To Meet Banaski Monday

Sailor Tex Watkins, the wild dog from Post, Texas, roughed and fouted his way to a main event victory over Walter Stratton last night at the Pampa Athletic arena and with the victory the right to meet Joe Banaski of Oklahoma City in next week's main event.

The unscrupulous sailor went berserk in the first fall, using tape with which an injured hand was wrapped to blind Stratton and win the fall in 12 minutes with an easy body pin. Watkins' unscrupulous conduct drew the ire of the crowd and the wrestling commissioner who informed Watkins that use of the tape was "out" and that his purse would be held up and his license in danger of being withdrawn if he continued the practice.

Stratton, seeing he was no match for the sailor by wrestling and using his unscrupulous strength, went rough in the second fall, winning in 11 minutes with a thunderbolt hold. It was the first time the hold had ever been seen on the Pampa mat. Only an exceptionally strong man can use it.

The hold is secured by getting a type of Indian Snake hold with the hands and then falling over backward, carrying the opponent over, striking his forehead on the mat. Stratton flipped the big sailor over three times before pinning him.

Watkins came back to take the deciding fall in 6 minutes with a new type of leg breaker. Thomas MarAllah and Scotty Williams went to a draw in the preliminary. It was a rough and tough affair, Williams getting about as rough as the Persian.

Gust Johnson dropped Soldier Thomas in 15 minutes of the semi-final with a leg breaker. Thomas showed up exceptionally well.

Trojans Still Have Rose Bowl Chance

LOS ANGELES, Nov. 15 (AP)—Southern California's hopes of sending the Trojan football team to the Rose Bowl scored today with the announcement that the Pacific Coast conference will select its New Year's Day representative before the S. C. Notre Dame game Dec. 3.

Prof. Hugh C. Willet of S.C., president of the conference, said the ten members of the conference will do other voting by noon of Nov. 28. "Both Idaho and Montana, who have not participated in the full round-robin schedule, will take part in the selection," he added. "We have always followed the procedure of voting after the final November games."

Troy and California's Golden Bear, each defeated once in conference play, are tied for leadership, with the bears meeting Stanford next Saturday and the Trojans facing U. C. L. A. Thanksgiving Day.

Crafts Recreation Building To Be Built By WPA At Waterworks

Pampa's WPA recreation project began to assume definite form this week with opening of one playground on Monday, preparation for another on Thursday, and a meeting of the Council of Women's Clubs at 10 o'clock this morning in the city club rooms to consider the project with reference to the council's women's home-making activity, and consideration by the city commission at its meeting this afternoon, of a plan to build a crafts shop.

This afternoon the commission will be asked to approve use of sheet metal from Recreation Park to build a crafts building at the city waterworks. The material is not in use at present. After the crafts building is finished, the waterworks will revert to the city's use as a tool shed.

Near Population Center While the location of the building might be considered by some to be too far north, City Manager W. T. Williamson pointed out at a meeting of the project advisory board last night that the structure would be located about the center of the city's population. An added advantage, he said, would be adequate protection against theft, and the crafts building being located on city property. He said he was sure two excellent sets of carpenter's tools could be loaned for the crafts shop, if it were located at the place he mentioned.

Members of the city commission will also be asked today to approve the selection of the corporation courtroom, located in the city hall basement, for the recreation project office. The city manager said the place was used only about once a month, and that the city commission room could be substituted when required.

Two playgrounds obtained A location for a playground on a lot on South Cuyler across the street from Six's Pig Stand, has been donated for this use by Mrs. Grace Pool, is now being cleaned, and is expected to be ready for use Thursday.

The Salvation Army gave permission for the use of its lot at the corner of Albert and Reid Streets as a playground and area area was opened at 4 o'clock on the afternoon of that day.

Competent directors will supervise each location, from 3:30 until 6 p. m. each week day, except Saturday, when the hours will be from 9 a. m. until 6 p. m. For the present, activities will be limited to softball, croquet and informal games.

Use Of Buildings Offered At the meeting of the advisory board Monday night, held at 7 o'clock in the city commission room, a dozen different locations, both playgrounds and buildings, were suggested. Although the project superintendent, Mrs. Rosemary Lewis Roach, said she was sure she could obtain the use of two buildings as recreation centers from organizations, she withheld names of the organizations pending final approval.

Among other playground locations suggested were the east of Horace Mann school, the Sam Houston school grounds, and a park area between Browning and Sumner Streets.

Present at the advisory board meeting Monday night were Mayor E. S. Carr, chairman; J. B. Massa, Captain H. G. Lambrecht, the Sam Houston school grounds, and a park area between Browning and Sumner Streets.

Present at the advisory board meeting Monday night were Mayor E. S. Carr, chairman; J. B. Massa, Captain H. G. Lambrecht, the Sam Houston school grounds, and a park area between Browning and Sumner Streets.

Each American farmer produces food and fibre for an average of three and a half persons in town.

Bulldogs Cry 'Beat Pampa!'

BORGER, Nov. 14—(Special)—"Beat Pampa Thanksgiving Day here" was the pledge the Borger Bulldogs made at a "victory" dinner given the boys and the coaches Friday night at the Borger Dining Room with T. E. Wilkinson, Sr., T. E. Jr., and Herb (Suds) acting hosts.

The dinner was a demonstration of the loyal support behind the Bulldogs and was styled a celebration over the "Amarillo victory" because of the fine football the Bulldogs played against Amarillo. Members of the coaching staff, Catfish Smith, Steve Mathews, and O. R. Goode, and many of the boys made talks.

Fritz Thompson acted as toastmaster and high school band director, Dick Walker entertained with his funny piano and vocal novelties.

Sports Roundup

By SID FEDER.

NEW YORK, Nov. 15 (AP)—Herman Taylor, the Philly promoter, is willing to guarantee Maxie Baer 50 G's to tangle with Tony Galento in Atlantic City in February. Isn't it about time the "bow" breeze started blowing Oklahoma's way... Kansas, who looked over the Sooners before their game, reported Tom Stidham's line was the best before the game, reported Tom Stidham's line was the best before the game, reported Tom Stidham's line was the best before the game.

Don Budge tells the folks why he turned pro in that nickel mag—doesn't that \$75,000 speak for itself, Don? Yank'll come up with more punch and power in '39... With Charley Keller and Buddy Roar in from Newark... Just for the records, that was baseballer Eddie Collins' boy who scored Yale's points in the 1937-38 season.

Coach Bob Clark and his Sayre Eagles are flying high in their conference with four wins and no losses, according to word received here. The former Wheeler and Erick coach and magician has yet to meet Clinton, Friday at Clinton, and his old team, Erick, on Thanksgiving Day. Erick is also undefeated.

To date the Sayre record, in conference play, shows a 14 to 6 win over Weatherford; 33 to 6 win from Hobart; 36 to 6 victory over Elk City; 20 to 2 win over Thomas.

The Thanksgiving Day game between Erick and Sayre is expected to be a sell-out.

Sixteen different types of jobs were graduated last June from the New York State College of Home Economics.

The income of the average American in 1935-36 was \$1,160 a year, or \$22 a week.

Longview Protests Tyler Eligibility

TYLER, Nov. 15 (AP)—Tyler school officials awaited results of a conference at Austin today and expressed confidence an eligibility question involving the high school football team here would be cleared up shortly.

Longview school officials yesterday protested on the grounds that Wallace Scott, Tyler right end, had never been placed on Tyler's eligibility list.

W. L. Dodson, chairman of the District 9 executive committee, and H. L. Foster, superintendent of Longview schools, were in Austin to confer with R. J. Kidd, athletic director of the Texas Interscholastic League.

Superintendent J. M. Hodges and Principal S. B. Burk at Tyler high school said the name of Scott was left off the eligibility list at the start of the season through an oversight but had been carried on the list after each game in which he played. They expressed belief that since the rule in question does not carry a mandatory penalty for its infraction the district committee, if it is called for a ruling, will decide that Scott is eligible.

Scott has played in all the school's games this season and if he were ruled ineligible Tyler would have to forfeit five victories, putting Gladewater on top of the district race. Tyler has long been heralded as one of the outstanding teams of the state.

Fifty London policemen visiting Germany took part in specially-arranged athletic matches at Hamburg.

Mustangs Have Never Defeated Baylor In Waco

(By The Associated Press)

The fireworks start early in South-west conference football this week. Arkansas' Razorbacks, who have finished the conference schedule and can now enjoy themselves, swing into action tomorrow in an inter-sectional game with Mississippi University at Memphis. It will mean two games in five days but the Porkers will get to rest until their Thanksgiving day tilt with Tulsa.

The other six teams dug in for the tough grind leading up to traditional games—two of them this week and the other, the battle between Texas A. and M., being scheduled Turkey Day.

Southern Methodist University, in good shape after their conquest of Arkansas, threw aside thoughts of the Baylor "jinx" and concentrated on doing something about Bill Patterson, the Bruins' one-man show. The trouble was that Patterson stood in the way of the Mustangs breaking the jinx; never beating Baylor in Waco.

Rice coaches waited whether Passer Ernie Lain would be ready to go against Texas Christian University. Lain, who has been out several weeks with an injured ankle, did light work yesterday but his real condition will not be known until he engages in dummy scrimmage this afternoon.

Coach Dutch Meyer found his Horned Frogs to be in great shape with four regulars who were out of the Texas game last week because of injuries back in the line-up and certain to start against Rice.

Bob Clark's Team At Sayre Unbeaten

Coach Bob Clark and his Sayre Eagles are flying high in their conference with four wins and no losses, according to word received here. The former Wheeler and Erick coach and magician has yet to meet Clinton, Friday at Clinton, and his old team, Erick, on Thanksgiving Day. Erick is also undefeated.

To date the Sayre record, in conference play, shows a 14 to 6 win over Weatherford; 33 to 6 win from Hobart; 36 to 6 victory over Elk City; 20 to 2 win over Thomas.

The Thanksgiving Day game between Erick and Sayre is expected to be a sell-out.

Sixteen different types of jobs were graduated last June from the New York State College of Home Economics.

The income of the average American in 1935-36 was \$1,160 a year, or \$22 a week.

Notre Dame Takes Lead Over TCU In Grid Poll

By HUGH S. FULLERTON, Jr.

NEW YORK, Nov. 15 (AP)—The way things have been going lately, almost any team that hasn't had the tar licked out of it is good for at least a vote or two in the weekly Associated Press football ranking poll. Right now, however, Notre Dame is on top of a heap that includes 31 colleges.

Where the Irish will be in another week or two is another question. They were hardly in sight a few weeks ago. Then they whipped Army, Navy and Minnesota on successive Saturdays and earned the No. 1 ranking by a comfortable margin over Texas Christian, last week's leader. They play Northwestern, first conqueror of Minnesota, next Saturday, then go on to tackle Southern California Dec. 3.

T. C. U., which didn't meet such tough opposition when it bowled over Texas, apparently dropped from the lead for that reason, and the Horned Frogs will find it hard to go ahead if Notre Dame keeps on winning. T. C. U. plays Rice, an in-and-out-of the Southwest conference, Saturday.

Other major contests listed for the leaders are Duke (No. 4) against North Carolina State, Pittsburgh (No. 5) against Penn State, Oklahoma (No. 7) against Iowa State in a game which will decide the exciting Big Six title race, and California (No. 9) against Stanford.

The complete ranking (first place votes in brackets, points scored on 10-9-8-7-6-5-4-3-2-1 basis) follows:

TEAM	Pts.
Notre Dame (60)	887
Texas Christian (19)	785
Tennessee (8)	639
Duke (5)	586
Pittsburgh (2)	532
Carnegie Tech	407
Oklahoma (1)	315
Cornell	194
California	138
Holy Cross	130
Second major contests listed for the leaders are Duke (No. 4) against North Carolina State, Pittsburgh (No. 5) against Penn State, Oklahoma (No. 7) against Iowa State in a game which will decide the exciting Big Six title race, and California (No. 9) against Stanford.

Mississippi And Hall Confident Of Beating Arkansas

UNIVERSITY, Miss., Nov. 15 (AP)—Ask the old grads of ole Mississippi of Mississippi on the record books—about the fine showing of their alma mater on the football field this season and nine out of ten will start singing the praises of Parker Hall.

Hall, six-foot, one-inch, 195-pound back of Tunica, Miss., who runs punts and passes with almost equal ability, is credited largely with furnishing that extra something which has sent the Rebels through the current season with but one defeat up to date.

In the eight games played he has gained 1,141 yards running and 693 unbelievable average gain of 9.9 yards each time he has handled the ball.

In addition he is leading scorer in the Southwestern conference with a total of 64 points—ten touchdowns and four points from tries after touchdowns. He has thrown eight touchdowns passes.

Hall is now in his senior year and his teammates face another test tomorrow when they meet Arkansas of the Southwestern conference, but followers of Hall are confident that he will come through.

His best punt of the year—for 73 yards—came in a game with Louisiana Tech and his backers claim he completed the longest pass of the season last Saturday against Sewanee, a 62-yard heave to Ham Murphy, end, for a touchdown.

Thus far his longest run from scrimmage was a 60 yard sprint down the sidelines for a score against Centenary.

A Royal Decree-Official published in the Italian Official Gazette requires that all new power plants be built so they can use gas, solid fuel, or electric power.

Crowd Boos As Galento Drops Thomas Thrice

PHILADELPHIA, Nov. 15 (AP)—Fight fans wondered today about Tony Galento's unimpressive return to the ring after an absence of four months.

Appearing in his first fight since he was taken ill with pneumonia in midsummer, the beer-loving saloon keeper of Orange, N. J., scored a three-round technical knockout over Harry Thomas, of Eagle Bend, Minn., at Convention Hall last night.

A crowd of 10,000 which promoted Herman Taylor said paid a gross gate of \$23,000, boomed loud and long as Thomas dropped to the floor five times in the third round before Referee Tommy O'Keefe stopped the fight after 2:30 of the round. Galento weighed 236, Thomas 198 1/2.

OTHERS PRICED \$3.99 to \$18.99

Banker Asks Payment Of Public Debt

By OLEN W. CLEMENTS.
HOUSTON, Nov. 15 (AP)—Orval W. Adams, president of the American Bankers Association, demanded today that the federal government reduce the deficit and begin paying the public debt.

Making the annual president's address he said:

"By way of self-defense and in order to save the American system, we must organize our depositors and give them and all others who have accumulated, something an economic education. This is the only practical way I know of to resist the pressure groups and vote-buying politicians who are destroying and wasting the savings of our depositors and of all our citizens who have worked and saved."

"Never should the American Bankers Association remain silent when politicians are spending the country into bankruptcy. We must take the battle to our depositors. We must make them realize that it is their fight; that 90 per cent of the assets of the country belong to them."

"To the proposition that the worthy needy must be taken care of, the American Bankers Association is sincerely and wholeheartedly committed. But we must not forget that the destruction of savings and the starvation of production mean the loss of capacity to take care of the needy; that it is the thrifty citizens and not the government that must produce the money for this purpose."

In support of his argument, Adams quoted two Presidents of the United States, Thomas Jefferson and Franklin D. Roosevelt.

Quoting FDR speech.

Of Mr. Roosevelt, he said:

"In his message to Congress on March 10, 1933, he said: 'For three long years the federal government has been on the road toward bankruptcy. With the utmost seriousness I point out to the Congress the profound effect of this fact (the accumulated deficit of five billion dollars) on our national economy. It has contributed to the recent collapse of our banking structure. It has accentuated the stagnation of the economic life of our people.'"

"The President," Adams said, "was then very properly concerned with an accumulated deficit of only five billions of dollars. We are now much more justly concerned with an ever increasing and growing deficit which, since the date of the President's concern, has grown by fifteen billions of dollars."

Later in his address, Adams quoted Jefferson:

"I place economy among the first and most important virtues and public debt as the greatest of dangers to be feared. To preserve our independence we must not let our rulers lead us with perpetual debt. We must make our choice between economy and liberty or profusion and servitude."

Adams then turned to a discussion of the banks' huge holdings of government bonds.

"So long," he said, "as your depositors think of the purchase of government bonds by you as something that they do, not something that they do, they will remain indifferent to it. When once your depositors realize that twenty or thirty or even forty per cent of their deposits have been invested by you in the obligations of a concern, which has been losing money by the billions for more than seven years, their reaction will be quite different."

Smaller Herds Now Rule For Ranchers

AMARILLO, Nov. 15 (AP)—Jay Taylor, an official of the Texas and Southwestern Cattle Raisers Association and the American National Livestock Association, says there is a decided trend toward limiting range herds in a majority of the western cattle country.

"Cattlemen are guarding against over-grazing," Taylor said. "They have found that too many cattle on a pasture can take all the expected profit and retard or ruin the grass. The idea is to prorate the cattle to the grass with the view of producing better animals and at the same time protect the grass."

Workers Plead For WPA Jobs But Only 29 Report

AMARILLO, Nov. 15 (AP)—At the insistence of WPA workers in Potter county, the county commission obtained approval for a county road construction job.

Fifty-nine men were assigned to the job.

The morning the work started 29 men reported for work.

Use only one level teaspoonful to a cup of flour for most recipes.

KG BAKING POWDER

Same price today as 48 years ago 25 cents for 25c

Manufactured by Baking Powder Specialists who make nothing but Baking Powder.

Millions of pounds have been used by our government.

HOW NAZIS WRECKED JEWISH STORES

The windows of many fine Berlin shops were left gaping black holes, like those in the radiophoto above, when Nazi mobs all over Germany systematically destroyed Jewish property, and looters pillaged after them.

France And Germany Reach Peace Accord

PARIS, NOV. 15 (AP)—A French government spokesman announced today that a basis had been reached for an accord between France and Germany renouncing war against each other and hinted that it would not be long before it came into force.

This was the first official confirmation that conversations which have been going on since shortly after the Munich accord of Sept. 29 have brought their objective—the renunciation of war agreement—within sight.

A foreign office spokesman said the contemplated pact would constitute an important step in the development of the Munich accord, which saved European peace at the price of Czechoslovakia's dismemberment. He explained it would extend the principle of peaceful solution of international problems to cover other potential sources of trouble.

The spokesman said the pact would pledge France and Germany to use peaceful means for settlement of any disputes that may arise between them. It would declare that there is no further problem between the two countries, based on statements made by Adolf Hitler during the September crisis that Germany would not lay claim again to Alsace-Lorraine.

Phillips School Encourages Clubs

PHILLIPS, Nov. 15.—The students of the Phillips high school were busy this week organizing both major and minor clubs so that every student may be a member of some club. R. L. Newton will be in charge of the band club, Miss Katherine Terry, pep squad; athletics, R. F. Newman and H. P. Ballangee; chorus and glee club, Miss Esther Rudolph and W. H. White; minor organizations—home economics club, Miss Iris Bailey; science club, Ralph McDade and R. V. Baker; debating team—Miss Minnie Kjelde; Forum club, E. T. Evans; band club, R. L. Newton.

1,326 Bales Ginned To Nov. 1 In County

McLEAN, Nov. 15.—Census reports show that 1,326 bales of cotton were ginned in Gray county from the crop of 1938 prior to Nov. 1, as compared with 644 bales from the crop of 1937, according to a report of Royal H. Wilson, special agent.

Masterson Sells Cattle Business

AMARILLO, Nov. 15 (AP)—R. B. Masterson, who, as a member of one of the most prominent plains ranching families, says he has learned that the only way to make money in the cattle business is to buy low and sell high, is out of the business for the present.

"I've sold them all," said the veteran rancher, "and I'm out of the cow business one of the few times in my life. But I'll be back in the business when things get right, usually when the business is prosperous many persons rush into it. The best way to do it is to get into the business when there's gloom and sell out when there's a boom."

The word "monkey" comes from monkin, the diminutive of mona, an animal of this group from West Africa.

A total of more than \$60,000,000 is derived annually from fur-bearing animals in the United States.

Nearly 1/2 of telephone expenses in Texas goes for wages...

Out of more than 23 1/2 million dollars spent by the Southwestern Bell Telephone Company to provide telephone service in Texas last year, about 10 million dollars . . . nearly half . . . went for wages. Wages to 9,000 telephone people, who in turn spent most of that money in Texas.

Telephone wages play no small part in keeping the state's business moving. And by assuring telephone users of the services of skilled, efficient people, they play a large part in giving you good telephone service at reasonable cost. Southwestern Bell Telephone Company.
