Submarine Freed From Ocean Floor

Gray County Physicians Oppose Proposed Hospital District

By TEX DEWESE News Staff Writer Gray County doctors indicated they are opposed 2-to-1 to the establishment of a hospital district which Gray County voters will be asked to decide at the polls on Saturday.

overflow audience in the Coronado Inn Starlight Room. Ben Sturgeon, committee chairman, presided and introduced County Judge Sherman Lenning, representing the Gray County Commissioners Court, and Wes Langham, administrator of Highland General Hospital.

and county tax per \$1,000 of assessed valuation. Under the hospital district plan an additional \$2.50 would be tacked on for a total of \$19.20 for the \$1,000 assessed value on a \$10,000 piece of property.

PAMPA ELEMENTARY school students are being given the opportunity this week to examine the Pampa Fire Department's aerial ladder truck and hear talks on how to prevent fires.

Obstruction Severed By Mechanical Arm

SAN DIEGO, Calif. (UPI) — The Nekton, a two-man minisubmarine, freed the research submarine Deep Quest early today from its entanglement 430 feet below the surface of the Pacific with four men aboard.

The Nekton first settled near the craft, it stirred up silt and it was not until an hour later the two navigators could see the binding synthetic rope to cut it.

GOP Whip Against High Court Nominee

WASHINGTON (UPI) — Senate Republican Whip Robert P. Griffin announced his opposition today to the Supreme Court nomination of Clement F. Haynsworth.

Circuit judge's chances of confirmation. "I believe Judge Haynsworth to be an honest man and a learned judge," Griffin told a reporter, "but legitimate and substantial doubt has been raised concerning his sensitivity to the high ethical standards demanded of the bench."

Hospital Administrator Wes Langham said in a poll he made about a year ago staff doctors at the hospital favored the district plan 14 to 4.

McAllen Chamber Of Commerce Promotes Eating In Old Mexico

McALLEN, (UPI) — The bill of fare for South Texas tonight is Mexican food, and at a Mexican restaurant, and in Mexico.

McAllen Chamber of Commerce undertook a massive campaign to encourage citizens to eat dinner tonight south of the border.

"Intercept" began Sept. 21. In an address to the Senate Tuesday, Yarborough said Intercept forced the cancellation of one festival and the postponement of another in the border area.

65 Cast Ballots In Hospital District Election

A total of 65 absentee ballots were cast in the upcoming Hospital District election as of close of balloting at 5 p.m. Tuesday in the county clerk's office.

Atlanta Has First Negro Vice Mayor

ATLANTA (UPI) — Atlanta had the first Negro vice mayor in its 122-year history today.

END OF STRIKE Police Restore Law, Order In Montreal

MONTREAL (UPI) — City police ended a strike early today and set about restoring order out of the nightmare of gun battles, violence and looting that erupted during the 16 hours Canada's largest city was virtually without law.

As the first police sirens wailed through city streets in the early hours of the day, truckloads of army troops in full combat gear rolled into the city.

Two Men Dead; Riots Continue In Las Vegas

LAS VEGAS, Nev. (UPI) — Two men were shot to death on the predominantly Negro West Side of this glittering desert gambling oasis as disturbances flared Tuesday for the third straight night.

The two special civilian submarines, the "Nekton," and the "Beaver," were expected to arrive early today. The spokesman said the men were not in immediate danger and if the attempts of the submarines to lift the craft failed, there was one other way to raise the vehicle.

TO AVOID the traditional last-minute rush for the Vehicle Inspection sticker, the Department of Public Safety is requesting motorists to have their cars inspected for safety factors between now and the deadline April 15.

## World Policeman's Job Not Attractive

HAMILTON, Bermuda (UPI)—The job of world policeman holds as few attractions for the United States as for Britain, British Ambassador John Freeman said today.

"It would have been convenient," Freeman told the 10th annual UPI Editors and Publishers Conference "if as British global power and influence contracted, the United States had simply stepped in everywhere to replace it."

"But the opportunities for the United States to play a similar role (as Britain in the past) have proved both less open and less attractive than one might have guessed even 20 years ago," Freeman said.

"So, in the space of a few years, we have arrived at a position where, for admitted very different reasons, the job of world policeman holds as few attractions for the American people as for the British," the ambassador said.

On another topic, Freeman denied Great Britain's decision to try to join the European Common Market was one of absolute economic necessity.

"I should like to dispel any impression that our decision to join the European community is based on some hope that only thus can we escape from an otherwise inescapable quicksand," Freeman said. Britain "is not in the swamp and is not going to slide in."

The three-day editors conference, attended by approximately 400 newspaper executives, ends Wednesday night with a formal banquet. Working sessions included panels on problems of the 1970s; students and social and racial unrest; newspaper technology and U.S.-Latin American relations.

Gov. Nelson A. Rockefeller of New York and Gale Plaza, secretary general of the Organization of American States (OAS), called Tuesday for more realistic political and economic approaches to Latin America and its problems.

Rockefeller, who made three trips to Latin America this year on a fact-finding assignment for President Nixon, said a report on his mission would be released after Nixon announces the administration's Latin American policy in an address on Oct. 31.

Gale Plaza and Rockefeller agreed that Fidel Castro's influence in Latin America had waned in the past three years, mostly because of Cuba's economic failures. They emphasized, however, that communism remained an extremely serious problem in the hemisphere.

Plaza and Rockefeller suggested a concept of regional trade alliance embracing several countries in the same zone, such as Central America, the Andes and the Caribbean rather than one giant Latin American "common market."

## Social Security May Be Upped 15 Per Cent

WASHINGTON (UPI)—Big increases in the works. For Social Security recipients, it may mean 15 per cent extra, raising the average monthly payment for man and wife from \$150 to about \$172.50.

For congressmen retiring or defeated in the next few years, it means as much as several thousand dollars a year extra, for total pensions up to \$34,000 a year.

Government workers generally also will get a better break on retirement, along with built-in protection to be provided also for congressmen against cost-of-living increases.

House Democrats in caucus Tuesday went on record unanimously to support a Social Security boost of "at least" 15 per cent, to be effective "not later than" Dec. 1. President Nixon has asked for a 10 per cent boost, to take effect April 1.

The House Ways and Means Committee starts work hearings Oct. 15, with approval of some increase by Congress a certainty, either this year or so drawn as to be retroactive.

As for the congressmen, their increase was wrapping up Tuesday with House acceptance of Senate amendments to a bill liberalizing pensions for all government workers.

## Woman Sustains Facial Injuries In Accident

JANETTA SOG BATES, 19, 512 Magnolia, was treated and released from Highland General Hospital early this morning following a one-car accident in the 100 block of S. Starkweather.

According to police report Miss Bates was traveling south on Starkweather when she dropped something in the floorboard of her car. When she tried to pick it up she lost control of the vehicle.

The car jumped a curb and struck two trees at 118 S. Starkweather.

The girl was rushed to the hospital by police and treated for facial cuts.

A NEW PHYSICAL fitness facility to help Pampanas in a health program will be available beginning Monday at the Pampa Youth and Community Center, 1005 W. Harvester. The salon is equipped with body-building machines of various descriptions and instructors will be available to assist with their use. Pictured here demonstrating the use of a barrel roller is instructor Mary Nell Phillips. (Staff Photo)

### A \$60,000 Facility

## Youth Center To Open Health Spa

Pampa Youth and Community Center 1005 W. Harvester, will hold Open House from 2 to 5 p.m. Sunday with an invitation to the public to tour the new \$60,000 physical fitness department.

The new facilities, a east-wing addition to the original Center structure, features a carpeted health room equipped with a sauna room, an adjacent swimming pool, sun lamp, leg press, calf, thigh, and leg extension machine; tread mill, stationary bicycles, vibrator belts; abdominal boards, barrel rollers, incline, flat and supine benches, barbells, dumbbells, swiss ball, contouring machine, xeromyo-rotor exercisers, and jungle pulley machine.

Also available are two 20x40x20, regulation-size courts, for handball, paddleball and squash.

Memberships, including individual and family, will be available Sunday. The new health program will start Monday under the direction of instructors, Mrs. Jackie Marlar, Mrs. Mary Nell Phillips, Mrs. Judy Everett for the women; and Youth Center Director George Smith and Pete Erwin for the men.

Times and dates for the physical fitness classes as well as membership fees, are available at the Youth Center.

Construction on the new facility was begun in May, 1962 and was completed this fall.

The new addition was made possible through the philanthropic contributions of Mrs. Inez Carter, who also provided the funds for the original building.

In a dedication of the building to Mrs. Carter, the sentiments read: "Mrs. Carter has never sought any kind of repayment other than to see the benefits

## Pampan Charged With Disorderly Conduct Jailed

A Pampa man was booked into city jail Tuesday night on charges of disorderly conduct and discharging firearms in the city limits following a domestic disturbance in the 1000 block of E. Gordon St.

Pampa police received a call from a neighbor of the man who told them it sounded like someone was being hurt next door.

When policemen Stan Brown and Joe Grimes arrived the man came to the door, told them there was nothing going on and to leave his property.

Brown and Grimes left but minutes later received another call that the man was discharging a rifle in his front yard. When the two officers got back to the residence, according to Brown, the man dropped his rifle and ran to his pickup.

The officers caught him and said the man was intoxicated and kept muttering he "had killed someone." Brown and Grimes searched the man's house and found no one. They did find the inside of the house had been wrecked.

Brown said windows had been broken out of the house, the television and air conditioner torn up.

The man's wife later found by Lt. Preston Bailey told officers she would file aggravated assault charges against her husband.

### Obituaries

#### MRS. HATTIE MYATT

Funeral services for Mrs. Hattie Myatt, 68, will be held at 2 p.m. Thursday at Carmichael-Whitley Colonial Chapel with the Rev. H. DeWitt Seago, pastor of First United Methodist Church, officiating. The Rev. Dan B. Cameron, pastor of First Baptist Church, will assist. Burial will be in Fairview Cemetery.

Mrs. Myatt died Tuesday at Highland General Hospital after a lengthy illness.

P. D. GROSS

Funeral services for P. D. Gross, 60, former Pampan, are pending with Goodner Funeral Home, Beaver, Okla.

Mr. Gross died Tuesday night in an Austin hospital after suffering a heart attack.

He was born in Ochiltree County Sept. 22, 1909 and moved here from Canadian about 1955. He was in the plumbing business here and lived in Pampa about four years before moving to Beaver, Okla., about 10 years ago.

Survivors are his wife, Clara Bea, Beavers, Okla.; three sons, John, Austin; Dale, Beaver, Okla.; Leroy, Guymon, Okla.; two daughters, Mrs. Winona Myers, Dallas; and Mrs. Louise Brown, Pampa; seven grandchildren; three sisters, Mrs. Willie Mae Byrd, Clayton, N.M.; Mrs. Bernice Dunham, Wichita, Kan., and Mrs. Nora Shaw, Oklahoma City, two brothers, Landen, Amarillo, and Leroy Las Vegas, Nev.

#### Accreditation . . .

(Continued from Page 1) science, library, and girls' gym. Athletic building plans were approved in the September school board meeting. No action is expected Thursday, but a date for a called meeting to receive bids is expected.

The official TEA accreditation visit is set for Oct. 28. Mrs. Marjorie Gaut, director of educational services, plans to report to trustees Thursday on the district's status. Her report will explain how we've corrected the deficiencies TEA officials listed in their 1967 visit, Dr. Malone said.

In Dr. Malone's report to trustees, he will discuss retirement of W. T. Coombs as school carpenter and Harold Baer as bus supervisor.

Other agenda items are reports of Business Manager Homer Craig, approval of athletic field fence payment, and approval of due bills, invoices and financial statements.

#### Divorcees Should Rate Space, Too

Pampa Daily News proofreader, Mrs. Mildred Chaffin, perhaps a little whimsical after reading so many wedding stories, came up with the following spoofing announcement and commentary on the present-day divorce rate:

"Mr. and Mrs. You-Know-Who wish to announce the separation and approaching divorce of their divorcee, You-Know-Why."

"The divorce will be granted at 9:30 a.m. Oct. 10 in the courthouse with District Judge C. I. Grant officiating. Mrs. You-Know-Why will be attended by her attorney, I. Will Splitme."

"Mrs. You-Know-Why attended Podunk High School and is a graduate of Protest University, where she majored in New Deal Economics."

"She is now making her home at 1313 Losers Alley."

(Circled Editor's Note: With everything else being reported these days...why not?)

## Former News Employe Home On Leave

Former Pampa Daily News city editor, Larry Hollis, who joined the United States Army in mid-April is home on leave. Hollis, who arrived Monday will visit with his family and friends, before reporting to Fort Dix, N. J. on Oct. 19 for assignment overseas in Europe. He expects to be stationed in Heidelberg, Germany, where he will be attached to aerial reconnaissance photographic interpretation. The assignment necessitates top secret clearance from the Pentagon. Hollis was graduated from Pampa High School in 1965 and attended Texas Tech, majoring in English and Journalism. He served as a summer intern on the Pampa Daily News, while attending Tech. The 22-year-old Pampan received basic training at Fort Bliss, El Paso and started school on July 7 in Imagery Interpretation at Fort Holabird, near Baltimore, Maryland. He was just graduated. Hollis is the son of B. G. Hollis, 123 S. Nelson and Mrs. Beatrice Hollis, 801 N. Gray.

## Wall Street Chatter

NEW YORK (UPI)—The recent buildup of latent institutional buying power as well as in the short interest suggests that the general market's technical condition has materially strengthened since the Dow range first dropped into the 800 zone more than two months ago, according to Wolfe & Co. A breakout through the bottom of the Dow's trading range should therefore be avoidable or at least prove to be shortlived and marginal, and a recovery toward the top of the trading range could occur promptly, the firm adds.

Now is the time to anticipate a large-scale troop withdrawal from Vietnam, Paine, Webber, Jackson & Curtis says. No one knows when it will happen, but it is becoming increasingly apparent that it will take place the firm says. Such a development would have a dramatic effect on equity markets and this is the time to discount it by adopting a bullish investment policy, the firm adds.

Stock prices are near the end of a consolidation period during which investors have been reappraising early 1970 prospects, and the mood coming out of this range will be downward, Moody's Investors Service believes. It is too soon to invest funds built up in cash reserves, the firm says. However, the risk at this level is not great enough to warrant disturbing long-term holdings, the firm adds.

By Abigail Van Buren

**DEAR ABBY:** I recently met a very charming 73-year-old widower in Florida. (I am a 70-year-old widow.) It was a whirlwind romance and we married shortly after. Herbert is very well-to-do, but that is not the reason I married him.

The problem is that Herbert gave me no hint at all that he had had surgery six years ago, and all he could offer me was "a lovely home and a gin rummy partner."

Please do not get the idea that I think "sex" is everything in marriage, but I am a very youthful 70, and I was looking forward to a little more than a lovely home and a gin rummy partner.

I don't want to disgrace my children and grandchildren with a divorce. Herbert laughingly said, "If you got yourself a boyfriend, I wouldn't divorce you as long as I didn't find out about it." What should I do?

column she might see it and take the hint.

**HOPING**

**DEAR HOPING:** Assuming your parents are right, it will take more than a "hint" from me, and repeated turn-downs from a long list of suitors to make this lady stay home, if she's inclined to run around.

**DEAR ABBY:** I am getting ready for a visit from my brother and his wife, and much as I love them both, I am dreading their visit. Why? Because they both smoke like every puff was their last.

After their last visit, I had to take everything out of the bedroom they occupied and air it two days running. Even the draperies, mattress and pillows! A strong odor of stale cigarettes still persisted, so I searched and searched and finally found an ashtray full of cigaret butts in a desk drawer!

I have come up with an idea: The next time we go to visit them I will take several strong onions and I'd carry a slice of raw onion with me to the breakfast table and make them inhale it with their breakfast. I would carry a slice of onion with me into every room of their house, and also into their car. And upon leaving I'd "hide" slices of raw onion all over their house. Then they would know what it's like to try to eliminate an offensive odor which has permeated everything. What do you think?

**LOVES FRESH AIR**

**DEAR LOVES:** I think they deserve it. But I'm betting against your ability to be that rude.

**CONFIDENTIAL TO LILA:** Beware of that guy with the "intoxicated kisses." He could be mixing his drink.

Everybody has a problem. What is yours? For a personal reply write to Abby, Box 9006, and enclose a stamped, self-addressed envelope.

Blois carpets are out. Printed patterns and zingy woven tweeds are in and lead to more zip on the floor, especially in kitchens. Emphasizing a special dinette area in an open kitchen (center) is a beige circular inset in blue woven nylon (Viking). A tufted nylon (left) follows a Delft tile theme (E. T. Barwick) while a happy floral spray pattern in a printed needlepunch in avocado, blue, gold and pineapple.

## Decorator's Knack Is Using Right Carpeting

**NEW YORK (NEA)**—Doing your own thing has been going on for years in the United States. It just hasn't been publicized as much as now.

Pointing up this fact is the current head of a carpeting firm. And how more mundane sounding could anything be than to say, "I've been in flooring more than 25 years?" Wolfe Nichols, ebullient head of a carpet company, said this recently and with no apologies for making money while helping the rug and carpet industry keep pace with the design times.

Nichols started in "carpets"

at \$17 a week in Cleveland, moved on to buy for a string of Pennsylvania stores where his sales netted him \$180,000 a year. He feels he always was a maverick. "I don't conform to any pattern; I worked 100 hours a week because I liked it and grew up believing hard work paid off, and I'm not a soda salesman."

What he is, is a shrewd marketing specialist who used his years of sales knowledge to put the right floor covering in the right area at the right price.

Nichols especially is proud of the firm's woven nylon car-

peting on a sponge rubber base that is making inroads in carpeting for kitchens, for example.

The concept was inspired by a mother with a poliostricken child and the product was first used in hospitals and other areas requiring safety underfoot, cleanability and allergy-free conditions before being sold for home use.

Since Nichols believes in aiming at a specific market rather than trying to be all things to all people, he feels strongly that the consumer should avoid many indoor-outdoor carpet pitches. His reasoning: Most carpets are not engineered or constructed to resist the moisture and grinding dirt encountered on a patio or around a pool.

He suggests a homemaker who plans to use carpeting in her kitchen look for a tightly woven carpet with a low pile nap of a synthetic fiber.

"Avoid buying," he urged, "a conventional carpet that is for use in other rooms. And buy woven rather than tufted carpet

for the kitchen. You can cut out pieces and insert others when real repair is needed."

When selecting colors for a kitchen or other rooms, remember what color can do to make a room appear larger or smaller.

## Lota Pounds Off Has Two Meetings

**Lota Pounds Off TOPS Club** met recently at Central Baptist Church for two programs and reports on weight losing contests.

In the first meeting, with 19 members attending, Mrs. Lois Belote presided as members reported a loss of 23½ lbs. and a gain of 16 lbs. The weekly fruit basket was given to Mrs. Nell Carter who lost three lbs. to make her a KOPS.

The club has ended a two-month contest with a loss of 100¼ lbs. and a gain of 40½ lbs. Winners of this contest were Mrs. Mona Yearwood, first prize, for losing 16 lbs. She received \$10. Second prize winner of \$5 was Mrs. Belote, who lost 12½ lbs.

Members also planned to attend the Area Recognition Day in Sunray Oct. 18, and participated in a white elephant party.

In the second meeting at the church, Mrs. Augusta Brown was the leader for the 15 members attending the program. Members reported a 17¼ lb. loss and awarded the fruit basket to Mrs. Fay Schulz.

Queen and Angel of the Month awards were presented to Mrs. Yearwood who lost 15 lbs. For September, Club members reported a loss of 66 lbs. and a gain of 17½ lbs. For the month of September.

The next meeting will start at 7 p.m. Monday, Oct. 13 at Central Baptist Church.

## Missionary Union Directs Luncheon For Royal Service

**SKELLYTOWN**—Women's Missionary—Union—of—the Skellytown First Baptist Church met in the Fellowship Hall for Royal Service and business meeting and a covered dish luncheon at the noon hour.

Mrs. M. L. Mills had charge of the program: Giving parts were Mrs. Curtis Prescott reading the prayer calendar, Mrs. Bill Campbell, Mrs. Walt Shair, Mrs. Ethel Mae Thurmond, Mrs. Bill Houghton and Mrs. John Kenney. Mrs. J. C. Jarvis presided at the business meeting.

Those attending were Messrs. and Mmes. J. C. Jarvis, Bill Thompson, Mrs. Curtis Prescott, Terry and Kim, Mrs. J.L. Mills, Mrs. Paul Thurmond, Mrs. Bill Houghton, and Steven, and special guest, pastor Muri Rogers.

## Council Of Clubs Attends Program

The Council of Clubs met recently in the City Club Room, with Mrs. Genevieve Henderson, president, presiding. The morning meditation was given by Geneva Tidwell.

Ted Gikas, who had recently visited Biloxi, Mississippi area, showed slides of the destruction caused by hurricane Camille.

There were 16 officers and representatives of the clubs present.

## POLLY'S POINTERS

**Reader Adds Suggestions For Emergency Aid Card**

By POLLY CRAMER

**DEAR POLLY**—Ever since reading the hint about having a card denoting the next of kin in a conspicuous place in the car I have wanted to write and say to the readers, "Why not add a little more really important information?" We have cards in the car and on ourselves (pockets or purse)—on which we have printed names, addresses, next of kin, religion, minister, family doctor, our ages, any known diseases and medication, if any, and whether we smoke or drink or have any known allergies. Such pertinent information can save a life by saving much valuable time. Our cards are written with red and start: "In case of accident or sudden illness—" I consider your column one of the "necessities of life."

—RUTH

**DEAR POLLY**—I am writing in regard to Mary Ellen's problem of stiff bristles on her hairbrushes. Don't soften those bristles—they help the hair and scalp. Soft brushes do not get to the scalp and one's hair does not get thoroughly brushed. They may soften some from use but continue to keep the scalp healthy.

—MRS. J.H.

**DEAR POLLY**—To save time in doing what I call a nuisance job, I put three paper liners in a wastebasket, one

—LUCILE

**POLLY'S PROBLEM**

**DEAR POLLY**—I would like to reuse powder puffs and the cans that powder comes in. They are so pretty that I hate to throw them away and hope for some suggestions for their use.

—MARIE

**ODORS AWAY**  
One Drop Air Deodorant  
Kills household odors instantly  
One drop per room gives twenty-four hour odor control. There are 240 drops in the ½-oz. bottle, an adequate supply for many months of spring-time freshness.

# Highlights And Sidelights From Your State Capitol

**By VERN SANFORD**  
Texas Press Association

**AUSTIN** — Higher automobile insurance rates were adopted by the State Board of Insurance, but they are not as high as had been originally predicted.

Statewide, the increase in rates on Nov. 1 will be 9.9 per cent. Insurance Board's staff earlier had recommended an 11.4 per cent increase.

This smaller increase was accomplished by accepting the recommendation of Gov. Preston Smith's study committee that the percentage allowed insurance companies for acquisition costs be cut from 25 to 22.5 per cent of the premium.

Another recommendation of the study committee headed by former Gov. Price Daniel was that the Board should include investment income of insurance companies in setting the rates.

Board Chairman Ned Price said the Board would give careful consideration to inclusion of investment income from unearned premium and loss reserves as "profit and contingencies." He added that "we may have further comment on this at a later date."

However, Price also warned that it may not have as much effect on the price of insurance as had been thought. He said "The Board has consistently recognized and considered in its regulatory acts that the companies have other income than that from underwriting."

Price also said that the Board will begin, "as time and circumstances permit," a detailed study of automobile rate-making formulae. He said the study of the present formula used in setting rates would be made during the coming year. The formula, he said "will be reviewed with the objective of determining if rates can be made more precisely by another formulae."

**DEMOCRATS** — State Democratic Executive Committee has nominated Mrs. Carrin Patman of Ganado to serve as the National Democratic Committeewoman from Texas. She is the wife of Sen. William N. Patman and replaces Mrs. Lloyd Benisen of Houston, who resigned the position. Mrs. Patman is the daughter-in-law of U.S. Rep. Wright Patman and the daughter of the late State Sen. Fred Mauritz of Ganado. She still has to be approved by the National Committee.

At the meeting, State Chairman Baum told committee members that Democrats have to overcome their biggest handicap—taking success for granted. He is organizing a futures committee to act as an advisory group to chart new approaches "for a brighter future."

**APPOINTMENTS** — Gov. Smith selected as new judges of the district courts just created: Robert George Scofield of Grapevine, Hollis D. Garmon of Greenville, Noah Kennedy of Corpus Christi, J. F. Clawson Jr. of Temple, Don Maxwell Dean of Amarillo, Thomas A. Thomas of Beaumont, David Walker of Lufkin, Marcus F. Vasocu of Longview, Lee Duggan Jr. of Joseph Michael Guarino, Wallace Koker Moore, George Leamon Walker, Edward Donald Coulson and Wyatt H. Heard, all of Houston.

Smith named Ellis County Attorney W. Bruce Allen of Waxahachie, as judge of the existing 40th district court, succeeding Judge A. R. Stout, also of Waxahachie, who resigned.

District attorney appointments went to Dan McCall Brazil of Lufkin, Larry Lee Miller of Greenville, and Jack Gayle Neal of Sulphur Springs.

Lt. Gov. Ben Barnes named junior landing commission members from the Senate, and committees on urban affairs, penal servitude (parole) and historical and recreational sites.

Department of Public Safety chief pilot L. A. Bradfute resigned to accept a position as executive vice president of Rio Airways in Corpus Christi.

**COURTS SPEAK** — Supreme Court handed down a roomful of cases after its summer recess. It declined rehearings in three major cases decided last July, reaffirming that:

—Sundaco Inc. of Tarrant and other counties will not get an advisory court opinion on whether its arrangement for evading Sunday closing law is legal.

—Until the Sarita Kenedy East will contest is concluded, Alice National Bank will remain as executor of the \$300 million estate.

—Juvenile delinquency proceedings do not require proof of guilt beyond reasonable doubt.

Travis County strict court assessed a \$2,800 penalty against Orange real estate development concerns for polluting the Sabine River. Penalty was first recovered under the Water Quality Act. Firms are now constructing waste disposal plant to avoid future pollution.

Supreme Court refused to order Limestone County court to dismiss bank robbery charges against a man there.

**FIRST CANDIDATE EMERGES** — Hawthorne Phillips, former district judge at Brownsville and now executive assistant to Attorney General Crawford Martin, has announced his candidacy for the Texas Supreme Court.

He says he will run for the seat being vacated by Associate Justice Robert W. Hamilton of El Paso, who recently announced that he will not run again, after 11 years on the bench.

**TO AWAKEN SMALL TOWNS** — Gov. Smith announced a "Texas Communities Tomorrow" program to revitalize the small towns in Texas.

Aim is to provide a central source through which small towns can get information on governmental aid available to them and to help find technical and financial know-how for improvement programs.

Most "hometowns" are "becoming crowded cities" or "are decaying into nothingness," complained the governor.

He said, "In spite of the fact that our society has developed systems that take us to the moon, our approach to the Crime Control Act was still too much the old hit-'em-in-the-head night-stick philosophy, or the ignore-the-problem-and-it-will-go-away philosophy. This has got to change."

**SHORT SNORTS**

Secretary of State Martin Dies Jr. says there were 13,001 profit corporations chartered in Texas for fiscal 1969, an increase of 3,000 over 1968.

John C. White, Commissioner of Agriculture, announced that Texas peanut growers have approved a commodity check-off referendum (with an 84.2 per cent majority.)

Parks and Wildlife Commission encountered lots of static over decisions to discontinue the late-late experimental deer hunting season in Frio County.

Texas Adjutant Gen. Ross Ayers has called attention to a previously-unpublished poll purporting to show the National Guard in the Southwest is not as high in public ESTEEM as units in other states and asks for increased public service activities in guard unit home cities and close review of officer efficiency and promotions by selection and retention boards.

CRIME — Judge Joe Frazier Brown of San Antonio, executive director of the Governor's Criminal Justice Council, has urged industry to take a technological hand in fighting "the ever-rising threat of crime."

Answer to Previous Puzzles

LEADING OFF the Pampa Community Concert Association's 1969-70 season will be the presentation of the "Fiesta Mexicana" at 8 p.m. Saturday in the Pampa Junior High School Auditorium. Pictured here is a scene from the production. Attendance at Saturday's performance is by patron subscription only.

**The Lighter Side**

WASHINGTON (UPI)—At hearings this week on the "high cost of auto repairs," a Senate subcommittee will seek the answers to three questions. They are:

1. "When a wife comes home from the supermarket parking lot with \$300 damage to the car, can she be telling the truth when she says she was only going 3 miles an hour?"
2. "Why are low-speed accidents gobbling up the majority of the nation's auto repair dollars?"
3. "What antidamage devices and designs might best protect against high repair bills and insurance costs?"

For reasons of his own, Chairman Philip A. Hart, D-Mich., didn't ask me to testify at the hearings. But I think I already know the answers to those questions. They are:

1. Yes. A wife can very easily come home from a supermarket parking lot with \$300 damage to the car. At the same time, she may also have \$300 worth of groceries in the car.
- But that doesn't necessarily mean the car is badly damaged or is overloaded. All it takes is a couple of dents in one case and a couple of paper bags in the other.
- What is more, a wife doesn't necessarily have to be going 3 miles an hour in order to rack up \$300 worth of damage.

**Foreign News Commentary**

By PHIL NEWSOM  
Word from Moscow is that the Soviet Union will take still more time to fix a definite date for the American proposed talks on strategic arms limitation. Part of the delay is attributed to developments in Sino Soviet relations after Premier Alexei Kosygin's trip to Peking. Moscow is believed to be waiting for an answer to Kosygin's proposals for normalization of relations made at that meeting before deciding its policy toward the West.

The Poles have dropped hints that Pope Paul VI would be welcomed if he made a trip to Warsaw. Now the Poles are expected to start dropping hints that such a visit is contingent on the Vatican pressuring West Germany to agree to the Oder-Neisse line as the Polish western border. The thinking seems to be that the pope badly wants to come to Poland and the Vatican swings great political weight in Bonn.

In Paris, North Vietnamese officials say privately they are puzzled over the United States failure to open private talks with them on how to unfreeze the current deadlock in the peace talks, such as led to the U.S. bombing halt.

The new outflow of French monetary reserves has rekindled the flames of speculation that the franc—devalued by 12.5 per cent on Aug. 8—will have to be devalued again within a few months if the current trend continues. In the two weeks ending Sept. 25 France reported a visible reserves drop of \$103.8 million due to the flight to the German mark and an unfavorable foreign trade balance. Informed business quarters say the loss actually was more than \$160 million.

RENO, Nev.—Inmates at the Nevada state Maximum Security Prison like the work of dentist Paul Miller so much 235 of them have petitioned Gov. Paul Laxalt to keep him on the job.

Miller, who had a temporary license, failed a state Board of Dental Examiners test and his license expired Wednesday. Laxalt said Miller could stay until a replacement was found. The inmates' petition said Miller "has been an influencing factor in bettering morale."

In 1938 Dr. Eduard Benes resigned as president of Czechoslovakia under German pressure.

In 1955 a United Air Lines DC4 hit Medicine Bow peak in persons.

**Television In Review**

HOLLYWOOD (UPI)—"Appalachian Autumn," a CBS-TV drama that airs tonight, is a topical play about a proud family in an economically depressed coal-mining area of West Virginia. The production is part of the "CBS Playhouse" series of specials.

The principal characters include a decent father who prefers to steal coal from the mine where he once worked rather than go on welfare; his artistic son who is loyal to the family and his girl; and a male Vista worker who tries to turn the son's skills into a tool that could help the area support itself.

In short, the ingredients are here for a drama of truly exceptional nature, especially with the skilled Earl Hamner Jr. as author of the 90-minute original. "Appalachian Autumn" has, in fact, many worthwhile moments, and an effect as a whole, but it could have been considerably better with several adjustments.

Dealing with the negative parts first, the casting of Estelle Winwood as a grandmother in an American coal-mining town is so off-center as to strain credulity to the breaking point. In addition, in the pivotal role of the Vista volunteer who makes things happen, Lucas White portrays the young idealist as such an idiotically innocent do-gooder that it is difficult to believe that any group of adults would take him seriously.

Once we have said, also, that the drama borders perilously close to soap opera at times, we have said enough negative things—for there is, in this production, enough merit to cause viewers to tune in. Arthur Kennedy and Teresa Wright, for instance, as the family's husband and wife, are quite good, though Kennedy is forced to labor throughout under the unnecessarily pretentious name of Rome Loving.

WOODSTOWN, N. J.—The birth of Brittany Jane Layton has broken an 85-year-old line of men born in the Layton family, one of the oldest in this community of 4,000.

Her great grandfather, Hubert P. Layton, is Salem County sheriff. His sister, Mrs. Ella Mae Scott, was the last girl born in the Layton family. She is 85.

HANOVER, N. Y.—Miss Terry Seligman, 20, of Mt. Holyoke College, was invited to become a "brother" in the Delta Kappa Epsilon Fraternity at all-male Dartmouth College.

The senior from Natick, Mass., is one of 70 females on an exchange program who are the first co-eds to penetrate the college.

Her victory for the female was not complete, however. Because of a rigidly-enforced national fraternity statute, she was granted only social membership.

# Despite Injury King Leads Rushers

Through four games the Pampa Harvesters show a total net offense of 1,029 yards and of that total quarterback John Jenkins and halfback Scotty King have accumulated 854 yards—590 and 264—respectively.

Jenkins has rushed for 90 yards on 46 tries and the big senior has completed 43 per cent of his passes (34 of 79) for an even 500 yards.

## SPORTS

King, who is still on the doubtful list for Friday's zone clash here with unbeaten Monterey, leads his team in rushing with 215 yards on 43 carries. He's caught two passes for 31 yards and returned one kickoff for 18 yards for a total

of 264 yards. Jenkins has rushed for 90 yards on 46 tries and the big senior has completed 43 per cent of his passes (34 of 79) for an even 500 yards.

That's what it looks like but I think that instead of not being in physical condition we are not in good mental condition," said headmaster Swede Lee.

# Groom Eyes Another Class A Opponent

Groom, Clarendon and Sunray, the only unbeaten in the Panhandle area will try to stay that way Friday night with only Groom in any danger of losing a spotless record.

Lefors shoots for its second win in five outings by also traveling across the state line, east, and playing Erick, Okla. Groom's Danny Blackwell continues to lead area players in scoring with six touchdowns

# Big Games On Tap In SWC Saturday Evening

By United Press International. Even without Bill Montgomery, it promises to be quite a weekend.

Within 100 miles Friday night and all day Saturday will be three of the nation's top 10 teams, the country's third best passer, a fullback who will be in the Heisman Trophy running, three regular season winning streaks totaling 27 games and four of last year's major bowl teams.

The action kicks off Friday night in the Cotton Bowl when Southern Methodist (featuring passer Chuck Hixson) faces Texas Christian; it resumes in the Cotton Bowl the following afternoon as second ranked Texas meets eighth-rated Oklahoma; and winds up later that evening and 100 miles south when fifth ranked Arkansas plays Baylor.

# Orioles Series Picks Despite Amazing Mets

NEW YORK (UPI)—On paper, it looks so logical.

The New York Mets didn't have a player who hit more than 26 homers this season and their leading RBI producer had just 76.

four players who hit 26 or more homers and also four players who knocked in 76 runs or more.

# New Mexico Coach Honored After Upret

ALBUQUERQUE, N. M. (UPI)—Christmas came almost two years late for Rudy Feldman, the boyish-looking head coach at the University of New Mexico.

Feldman signed his contract with the Lobos on Christmas Eve, 1967, but his present arrived last Saturday when UNM stunned highly favored Kansas 16-7. The win snapped UNM's 21-game losing streak—one of the longest in the nation.

The Mets are still a light-hitting club but they have hit enough to win 103 games. So, if you're looking at things on paper, there is one key statistic for the Mets.

# OUT OF ACTION

NEW ORLEANS (UPI)—Joe Don Looney, whose pro football career has been hindered by his off-the-field antics, is once again out of action, after being placed on the injured-waivered list by the New Orleans Saints.

### 'Super Rook' Hill Takes His Lumps

DALLAS (UPI)—The presence with which "Super Rook" Calvin Hill has made himself felt around the unbeaten Dallas Cowboys has evoked quite a bit of levity—even from normally stoical Coach Tom Landry.

Hill is a Yale graduate who is studying at Southern Methodist's Perkins School of Theology with an eye toward the ministry.

Oklahoma coach Chuck Fairbanks scouted the Navy-Texas game. "I had a chance to see their reserves," he said. "I didn't get a chance to see the first team much. It's evident to me they have one of the great teams in the country this year."

At Tuesday's Cowboys Club luncheon, a questioner in the audience asked Landry what he would have done if Hill had declined to play on the Sabbath.

# Harvester Defense To Take Plainsmen Gridders

Only Major Hoopie and I could do as badly predicting football games as we did last week. This guesser, or maybe it should be gasser, brought fourth a 12-10 record. Hoopie was 26-24.

We'll both do better this week and up the season record of 51-31-4.

**PAMPA 22, MONTEREY 7**—There's no loyalty involved here. It's simply a case of the Harvesters not making as many mistakes and the defense continuing to improve. Goodby Monterey's 4-0 record.

**SHOCKERS 28, Lubbock B 15**—Dale Ammons won't be at quarterback but Larry Ferguson has all the tools to take over and do a good job. The Shockers should be able to rebound after last week's loss.

**TEXAS 22, OKLAHOMA 21**—It might not even be this close. The Longhorns have a great offense, as does Oklahoma, but the Steers are stronger on defense. I can't believe I'm picking against the Sooners.

You Don't Say...  
By **RON CROSS**

**DALLAS 21, ATLANTA 19**—The Cowboys may have Bob Hays back but the Falcons are tough and always play Dallas that way. Craig Marton is back in shape and the Dallas fans seem to have forgotten Roger Staubach.

**AMARILLO 14, BORGER 7**—Strictly a bunch on this one. The Bulldogs are favored to take over and do a good job. The Shockers should be able to rebound after last week's loss.

**TASCOSA 28, CAPROCK 9**—It's going to be a long season for Caprock. Tascosa should be able to take out all its frustration for four previous losses.

**PLAINVIEW 14, CORONA DO 7**—The Plainsmen have

a bit better defense and should be able to handle the Mustangs, who've dropped two in a row. This might be the best game of the night.

**PALO DURO 45, LUBBOCK 7**—Probably Lubbock won't even score as the season gets longer for the Westerners. The Dons are just great.

**WHEELER 7, CANADIAN 6**—The Wildcats appear to be better defensively but the offense refuses to come around. Wheeler may still be smarting from being beaten last week by Groom.

**WHITE DEER 32, CLAUDE 0**—The Bucks should be back on the winning side with their second straight victory. Claude remains winless and looks to another long season.

**GROOM 21, McLEAN 8**—No reason why the Tigers shouldn't beat the Tigers. Groom will be looking forward to McLean becoming class A victim No. 5 and a spotless 5-0 record. The class B Tigers should be ready for its league opener a week hence.

**LEFORS 28, ERICK, OKLA. 0**—A lot of the Pirates will want to show one of their former coaches they came to play. Lefors is improving every week, although the defense needs a little work.

**TURPIN 28, MIAMI 10**—The Warriors seem to be having trouble getting in gear. They were beaten pretty bad last week and Turpin is even stronger.

**OTHER GAMES**—Kress 16, Silverton 0; Clarendon 35, Stinnett 6; Happy 16, Navareth 8; Stratford 8, Guyton 0; Gruver 28, Spearman 27; Sunray 32, Texoma 10; Boys Ranch 6, Sanford Fritch 0; Perryton B 8, Booker 7; Follett 21, Hooker 20; Vega 22, Texline 18.

**JOHNNY UNITAS** (left) of Baltimore and **Joe Namath** of New York obviously have different grooming habits, but their professional quarterbacking skills are cut from the same cloth. Weeb Ewbank was an important teacher in the formation of each. Ewbank coached the Baltimore Colts to a championship, later did the same with the New York Jets.

## Hill Tops NFL In Rushing, Johnson Second

**NEW YORK (UPI)**—Calvin Hill is living proof that the Ivy League does produce some excellent football players.

Hill, a graduate of Yale, was the first draft pick of the Dallas Cowboys this season and is proving he was worthy of their optimism. The 6-foot-3, 220-pound fullback is the league's leader in rushing for the second straight week, according to the official figures released today by the National Football League.

Hill played only half a game against Philadelphia last weekend but gained 91 yards in 10 carries and has totalled 299

## Baltimore Due Some Surprises From Mets

By **MILTON RICHMAN**  
**NEW YORK (UPI)**—Pretty soon now the Baltimore Orioles are going to get a little surprise.

They're going to find out a few things they don't know about the New York Mets.

As matters now stand, the Orioles figure the '69 Mets are pretty much like the '68

### SPORTS PARADE

Dodgers, and if you have a little trouble remembering how that Baltimore-Los Angeles meeting came out three years ago merely thumb through that part of the record book which lists "World Series — Four Straight."

The Dodgers had a couple of pitchers that year whose names you may remember, Sandy Koufax and Don Drysdale. They also had eight other men in the lineup but you try remembering any of them.

**Pitches Against Dodgers**  
Jim Palmer remembers because he pitched against them in the second game of the World Series that year and emerged as the youngest pitcher ever to hurl a shutout in a World Series.

Palmer feels the same way most of the other Orioles do. He feels pitching is the Mets' strong suit, and he's right. He and the other Orioles also feel the Mets, like those '66 Dodgers, have only two real hitters, Cleon Jones and Tommie Agee, and that's where Jim Palmer and the rest of the Orioles are wrong.

Sometime tomorrow Earl Weaver, the Orioles' manager, will sit down with his players and go over the scouting report on the Mets. If Jim Russo, Al Kubski and Don Pries, the

## Stars Sign Hawks' Beaty

**LOS ANGELES (UPI)**—Just when the war between the two professional basketball leagues seemed to be ebbing to a kind of uneasy truce, the Los Angeles Stars staged a lightning guerrilla raid and came away with a prize National Basketball Association center.

The stars of the rival American Basketball Association announced Tuesday the signing of Atlanta Hawks' All-Star Zelmo Beaty to a four-year contract, beginning in the 1970-71 season.

The 6-foot-8, 235-pound Beaty became the third NBA player in recent months to jump, with a fourth, Luke Jackson of Philadelphia, hung up between the leagues because of signed contracts with the 76ers and the ABA's Carolina Cougars.

The Stars were clearly happy with the successful raid, which they hope will make them a better local drawing card in the future. Los Angeles currently fights for attendance with the Lakers of the NBA, who are stocked with stars like Jerry West, Elgin Baylor and Witt Chamberlain.

Beaty will sit out the one-year option remaining on his contract with the Hawks, after refusing to sign a new pact with Atlanta when it came up for renewal last week.

three Baltimore scouts who got up the report on the Mets, did their customary fine job then the Orioles will discover the Mets have more than two real hitters.

They'll find out they also have a guy like Ken Boswell, who can peek and punch you dizzy; guys like Bud Harrelson, Jerry Grote and Wayne Garrett who can hurt you when you never expect it; guys like Ron Swoboda and Donn Clendenon who can hurt you when you do expect it, and a guy like Art Shamsky who, on any given day, can kill you.

**Pitcher Is Too Much**  
They also have a pitcher who's too much. He's Tom Seaver and when Earl Weaver saw him in the first professional game, he ever appeared he wondered how he could possibly get any better. But Seaver has Tom Seaver did a strange thing following the Mets' last game Monday in which they officially nailed down the National League pennant with a 7-4 win over Atlanta.

When it was over, all the Mets bathed each other in champagne. All but one. Tom Seaver.

## PAMPA NEWS SPORTS

yards in 51 carries in three games. Another rookie, Ron Johnson of Cleveland, is second to Hill with 230 yards in 49 carries.

Hill's teammate, Craig Morton, has taken over the lead in passing after a good performance against the Eagles last weekend. Morton has completed 22 of 32 passes in two outings and has not had a pass intercepted. Washington's Sonny Jurgensen is second in passing while last week's leader, Joe Kapp of Minnesota, has slipped to fourth.

Morton's 68.8 completion percentage is tops for the league and so is his average of 11.97 yards per pass. He joins Roman Gabriel of the Rams and Fran Tarkenton of the Giants as the only passers who have not suffered an interception.

The Cowboys' Walt Garrison ranks 11th among the rushers with 156 yards, Lance Rentzel is in a four-way tie for third in scoring with 24 points and Ron Widby's 43.4-yard average ranks him sixth among the NFL punters.

As a team, the Cowboys hold a big slice of things on both offense and defense.

Offensively, Dallas leads the league with an average of 394 yards per game total offense, 182.3 yards per game rushing, 119 total running plays, fewest fumbles (4), most touchdowns and most extra points (11 each).

Defensively, the Cowboys have been stingiest with rushing first downs (6), rushing average per game (51.0), average gain per rush (2.9), interceptions (7) and rushing touchdowns (0).

### The Pampa Daily News

EVER STRIVING FOR THE TEXAS PANHANDLE TO BE AN EVEN BETTER PLACE TO LIVE

**Let Peace Begin With Me!**

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands freedom and is free to control himself and all he produces can he develop his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guide expressed in the Coveting Commandment.

(Permission is hereby granted to reproduce in whole or in part any editorials originated by the News and appearing in these columns, provided proper credit is given.)

### Leisure Time Dissipating

There is not much that ordinary Americans can do to fight inflation, beyond voting down bond issues or writing their congressmen.

They can, of course, refuse to pay high prices for goods or services that are not absolute necessities.

But in this age of affluence, few things are not considered necessities. For many families, two cars have become the essential minimum. Few people, even on the tightest budget, deprive themselves of a television set.

Or Americans could bank what excess money they have each month, earning interest on their savings while awaiting the day when prices come down, or at least stabilize. This would also take some of the heat off the economy.

But working against this is the conviction that prices will never be lower than they are today. Thus it is better to spend now. Better yet -- borrow now, even with high interest rates, for the debt you take on today will be paid off with cheaper dollars tomorrow.

There is another defense against inflation, and this is the one that more and more Americans are being forced to adopt: To fight fire with fire; to beat inflation at its own game by bringing in more income, either by negotiating higher wages, by moonlighting on a second job, by adding additional breadwinners to the family, or by a combination of the three.

This defense was underlined in a recent article on Hawaii by Carlton Smith and Richard

Putnam Pratt, financial writers for Newspaper Enterprise Association.

They cited that state, which is one of the costliest places in the nation to live, as a portent of what's ahead for all the other states if inflation continues to push prices ever higher.

Hawaii not only has the highest percentage of working wives in the nation, it also leads the nation in the percentage of families with three or more wage earners.

Using Hawaii as a guide, the writers made a highly provocative observation:

"Our society, thanks to inflation, seems to be coming full circle back to the 19th century and the burden of work from which the social reformers thought they had delivered us."

While they ascribe this phenomenon to inflation, rising standards of living and rising expectations and desires must undoubtedly be important factors in it, too.

Whatever the causes, however, if Americans are earning more on the average and they are living better on the average, it is largely because, in more and more families, more of their members are working, and working at more jobs and for more total hours than probably ever before in history.

The worries expressed by sociologists only a few years ago about what Americans were going to do with all their leisure time when automation took over and the three-day work week became the norm would seem to have been a bit premature.

### The Lank Look Is In

In business circles, a respectable paunch used to be a status symbol of sorts. Evidence that a man had arrived at that stage in life where he could live off the fat of the land and was visibly doing so.

But no more, no more. In executive suites these days, it's the lank look that's in, concludes a personnel firm, Robert Half of New York, in analyzing the physical attributes of some 50,000 middle and top management men. The paunch is not only passe but can be a definite handicap in climbing the corporate ladder.

In some cases, excess avoidpous has meant the difference between getting and losing high-paying jobs, qualified applicants passing

every test except the silhouette and still being rejected. And among jobholders, it appears to have a direct but inverse relationship with executive pay checks.

Of men studied in posts paying from \$10,000 to \$20,000, 35 per cent were overweight by 10 pounds or more. But in the \$25,000-and-up bracket, the portly contingent dwindled to 10 per cent, the rest of the front office men apparently resembling the health club ads.

This is a booming economy but when it comes to room at or near the top, the well-padded physique clearly is having increasing difficulty squeezing in. Where the race was once to the swift, it's now to the lean and lithe.

### The Impersonal Interviewer

Since 1966, patients at University of Wisconsin Hospitals have been talking to a machine called LINC (Laboratory Instrument Computer). The machine was designed to relieve doctors of some of their work load by recording medical histories from patients.

At first, medical and computer experts were afraid that people would resent having a bundle of unsympathetic wires and transistors taking over a role traditionally assigned to the physician. But results of a study of 275 patients interviewed by LINC show there was little reason for concern.

Patients established a rapport with the machine quickly, had words of praise for it during the interview and genuinely enjoyed themselves," says Dr. Warner V. Slack of the university's medical department.

The computer was found to be more thorough when taking general medical histories, although detailed specialty interviews, such as those required for allergy and gynecology, were better handled by

physicians. But gynecology patients in particular routinely preferred LINC as an asker of questions of a personal nature.

Information which a patient has difficulty relating but wants the doctor to know about is more likely to be given accurately to the computer, the researchers discovered.

LINC -- The machine with the bedside manner.

### HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives in Washington and Austin. Here are their addresses:

WIT AND WHIMSY  
Don't blame bad luck for your lack of accomplishment when as a matter of fact it was your own weak backbone.

### I Used To Be A Sort Of "Hippy"

### AS WHITE HOUSE SEES IT

#### Peace Talks: A Stone Wall

By RAY CROMLEY  
Washington Correspondent

WASHINGTON (NEA) — In private, White House men admit to growing frustration in Paris.

Their unhappiness is reminiscent of the Korean truce talks at Panmunjom when there would be months during which American negotiators felt as though they were talking to posts stuck in the ground.

Every negotiation turns into an examination by the other side into the adequacy of our understanding of their 10 points and the impression is created that we were going to be given grades by them on how closely we come to acceptance of the 10 points.

In effect, what Hanoi continues to ask us is that we withdraw unconditionally and on the way out overthrow the National Liberation Front and the nonorganized, non-Communist groups in Vietnam.

The gist of Hanoi's proposal is that we should break the back of the organized non-Communist forces, after which they will have a coalition with the nonorganized, non-Communist forces.

Now, since the organized, non-Communist forces are having their problems, the possibility of the nonorganized, non-Communist forces representing a counterweight is not very great. That is not a negotiating position. That is a demand for surrender.

In fact, we've heard nothing from Hanoi to suggest anything other than that they insist on their maximum program and that they might consider giving us a fig leaf to obscure things.

The thing that has been missing in these talks thus far is a conviction on the part of Hanoi that a compromise settlement is indicated.

They seem to be basing their strategy on the conviction that they can either erode American public support or that they can drive a wedge between Saigon and Washington. Then the fig leaf to cover our shame.

Words don't seem to be a very useful means of communication with the Hanoi men in Paris. But then how do you talk with anyone who shows no signs of any willingness to compromise on any issue. Where do you start? How do you come to grips?

There are those who say that we should come up with new proposals. But one ought to consider that if the other side knows that every deadline will elicit a new proposal, it will never have an incentive for making a settlement.

If to get things going one must always inevitably, come up with new proposals, then one is on a slope in which there is no ending except to yield to the other side.

These frustrations are leading increasingly to a conviction among some high administration men that the real settlement must come in Vietnam, not Paris.

### The Doctor Says

By DR. W. G. BRANSTADT

#### Blood Has Great Powers

##### To Control Its Acidity

Q--How does too much acid in one's system affect one?

A--I assume you mean too much acid in your blood and not merely a sour stomach. Actually, your blood has remarkable powers of maintaining the optimal reaction, but if the amount of carbonic acid, weak acid, is no longer completely buffered by the sodium bicarbonate, a weak alkali, acidosis occurs. Respiratory acidosis results when the lungs fail to eliminate carbon dioxide fast enough and metabolic acidosis occurs in advanced diabetes, severe kidney disease and various chemical poisonings. The chief symptom is an increase in the depth, and later in the rate, of breathing, sometimes described as air hunger.

Q--I am taking Indocin for arthritis. Could this drug cause hair to grow on my face?

A--No. On the contrary, it may cause loss of hair.

Q--I am taking Indocin and Dilantin. Could either of these drugs cause indigestion?

A--Yes, the Indocin.

Q--I am taking Indocin for gout. Is it given to relieve the pain or to diminish the uric acid in my system?

A--Indocin is given in the acute stage of gout to relieve pain. Other drugs should be given to control the disease.

Q--After an operation to correct a mitral stenosis, is a patient usually told whether or not a pacemaker was inserted? Can a pacemaker be regulated to slow down or speed up the heart as the need arises? Where is it usually implanted? How often must the battery be replaced? After years of service, is it possible to get along without the pacemaker?

A--A patient is always told if a pacemaker is implanted under his skin. Although it is a life saver its rate cannot be adjusted. This limits the activity of the wearer. The implantation, formerly to the left of the navel, is now usually made just below the left armpit. The battery should last four or five years. The manufacturers are developing a safe radioisotope battery that will be good for at least 10 years. It would be very rare for a wearer ever to get along without his pacemaker.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

### Inside Washington

JOHN GOLDSMITH  
Big Money Backs  
Postal Corp. Drive

ROBERT ALLEN

WASHINGTON -- A big money lobby is spearheading the high-powered drive to induce Congress to create a multi-corporation to operate the long deficit-wracked postal service.

Some \$300,000 was collected by this lobby as of Sept. 15 of this year from a wide variety of corporations -- ranging from billion dollar government banks, utilities, oil, chain stores, newspaper, magazine and other publishers to truck, food, aircraft and other leading manufacturers.

Large contributor is McGraw Hill, Inc., with \$6,920. Thirty four other companies gave \$5,000 each; 14 sums ranging from \$725 to \$3,222.

This little known lobby operates under the title of Citizens Committee for Postal Reform, Inc. Its co-chairman is Lawrence O'Brien, postmaster general in the Johnson Administration and one-time Democratic national chairman, and former Senator Thorton Morton, Ky., Republican National Chairman in the Eisenhower Administration. Both are non-salaried.

Executive director at \$25,000 a year is Claude J. Desautels. He's also the representative (lobbyist) of several other organizations that pay him a total of \$2,000 a month.

Prominent among the \$5,000 contributors to the lobby are DuPont Procter & Gamble, Standard Oil of New Jersey, Coca-Cola, Bank of America, Pan Am, Boeing Aircraft, Sears Roebuck, Eastman Kodak, Southern Pacific, Time, Inc.

Other well-known corporate contributors are Campbell Soup, Montana Power, Allied Chemicals, B. F. Goodrich Co., Newsweek, Reynolds Metals Co.

Biggest individual contributor is former Treasury Secretary C. Douglas Dillon, now a leading New York banker, who is listed

as giving \$2,000. Other prominent contributors with lesser amounts are retired Gen. Alfred Gruenther, one-time NATO commander and head of the Red Cross, \$15; David Lilienthal, former chairman of the Atomic Energy Commission, \$100; John Gardner, HEW secretary in the Johnson Administration, \$50; Albert Nickerson, chairman, Mobil Oil Corp., \$100.

THE EXPOSER -- Rep. H. R. Gross, Iowa, second-ranking Republican on the Post Office Committee, brought to light the details of the large financial resources of the lobby vigorously pressing the drive for a multi-billion dollar government corporation to take over the postal service.

A veteran fighter for government economy, Gross is a leader of the bipartisan opposition to this administration plan. He has a bill under which the postmaster general would be removed from the Cabinet and made a career official with a 12-year tenure. Other top postal jobs would also be removed from politics and the entire service put on a business basis -- within the government and extensive reorganization of the Post Office Department has been under stormy consideration in the House Committee for months, with Republicans and Democrats challenging the administration's proposal to set up a government corporation.

In the course of the House Committee's lengthy hearings on the issue, Rep. Gross demanded a list of the contributors to the lobbying Citizens Committee headed by Democrat O'Brien and Republican Morton. The list was finally submitted in two reports (as of July 14) by executive director Desautels.

Asking questions properly is an art. Reporters, by virtue of their employment, are supposed to be especially skillful in interrogation. But to select the right question and to ask it properly is more than a result of skillful training. It is, as I have flatly stated, an art, and only a few have truly mastered it.

### PINE TREE FEATURES

#### To Indict Or To Learn?

By ROBERT LEFEVRE  
Asking questions properly is an art. Reporters, by virtue of their employment, are supposed to be especially skillful in interrogation. But to select the right question and to ask it properly is more than a result of skillful training. It is, as I have flatly stated, an art, and only a few have truly mastered it.

The purpose of asking a question is to elicit an answer that will uncover truth. Many people, reporters not excepted, use the question as a method by means of which incrimination can be furthered. There is, perhaps, a fundamental psychological factor confronting every questioner.

For he who asks is clearly showing that he lacks certain information and wishes to remedy this defect. Thus, to ask a question properly introduces the psychic factor of humility. The questioner does not know. That is why he asks. But there are many who cannot bear to reveal the slightest lack to their pretensions of total knowledge. So, when they can bring themselves to place a question at all, it is with the underlying purpose of showing that they really know more than the person from whom the answer is sought. This is to subvert the purpose of the question and to reduce what could be a pleasant exchange into a type of verbal warfare.

An enormous amount of false information is published and handed about simply because of improper questioning. Gossips thrive on the contrived query which seeks to indict rather than to elicit truth. It knows a professor who, after much effort, obtained a political post. Ensnared behind civil service and quickly guaranteed tenure, he employed his time in asking questions about various businessmen. There was an industrialist of unblemished reputation who had failed to provide the professor's educational institution (while he was still a civilian) with the kind of financial support the professor thought should have been forthcoming. I am refraining from mentioning names, for my purpose is not to accuse, but to inform.

A government agency (again unnamed) became interested in this businessman because he continued to make profits and yet he refused to seek government assistance. He would have nothing to do with labor unions, and yet he had few, if any, employee problems.

The professor found himself being consulted about this businessman, whom he had known in earlier times. Did he know anything about this man which might provide the government team with specific information concerning his operations?

Here are some of the questions the professor suggested be asked of the businessman:

1. Why did this businessman always hire a female secretary?
2. Why was this secretary invariably an attractive white girl?
3. Had the businessman ever taken a trip with his secretary in attendance?
4. Did the businessman belong to any organizations known to oppose government involvement in business?
5. Did the businessman attend church?
6. Did the businessman actually believe in miracles set forth in the Bible?
7. How much money had the businessman contributed to charity?
8. Which charities?
9. What was the percentage of minority races employed by him?
10. How did it happen that the businessman's private holdings were larger than could have been possible on the basis of his declared salary?

Each of these questions contains an inference suggesting improper behavior, hypocrisy, or racial prejudice, except the last. The last was based upon the professor's knowledge that the man was an extremely astute investor. The overall result of the questions was to imply a large measure of guilty conduct. Not once did a question arise from a desire to learn the truth. Rather, the entire purpose was to prove guilt.

This is an incorrect employment of the questioning process which can lead to gossip, ruined reputations, and character assassination.

### H. L. Hunt Writes

WHO WINS WHEN FREEDOM LOSES?

Socialism, Communism and any other philosophy leading to dictatorship and tyranny should have no greater foe than members of the press. Dictatorship spells the death knell to the communications media, as it does to all forms of personal enterprise.

In the light of Communism's bloody history during the past 50 years and still practiced by the Red rulers of the present, those in the news media should ask some very penetrating questions of a person who lauds the Communist system.

It is regrettable, however, at how frequently one sees on the pages of a large metropolitan daily, a prominently displayed, well written article, extolling a person whose philosophy is obviously geared to an alien system which would deprive all of us of our freedom.

When all around us today are evidences of communist penetration in our country, one wonders how the writer who lauds an exponent of tyranny could be well-enough informed to be a journalist, or so poorly informed that he does not know, or perhaps does not care, that he is abiding and abetting freedom's enemy.

Newsmen recall that in 1959 there were 58 daily newspapers in Cuba, and indications now are that less than 4 dailies are being published in Cuba. Very little of the press survived the communist takeover.

In the face of such statistics it is incredible that some metropolitan dailies, with their skilled and talented personnel, dependent on business advertising and personal enterprise for their very existence, would permit their pages to be used as a propaganda vehicle for the foes of freedom, whose first act, if they had the opportunity, would be to deny freedom of the press, and all other freedoms, to all the people.
