## Movie of Death Shown in Court

NEW ORLEANS (UPI)—The head of a young president is exploding on the screen before you. His body lurches—almost snaps—sharply backward. And suddenly time has turned back five and a half years and you are seeing it as only a few have seen before.

## Hidden Pay Raise Shows Taxpayers Have Big Hearts

WASHINGTON (UPI)—The taxpayers, it seems, have a bigger heart than anyone suspected. Not only did members of Congress and other top federal officials get a \$21.5 million Valentine's Day pay raise today, but another group of government workers also has gone along for the ride.

The "hidden" pay raises—amounting to another \$2 million a year—went to 1,100 top Civil Service workers who were not even mentioned in the pay raise order left by former President Lyndon B. Johnson.

But their raises—ranging from \$14 to \$2,239 a year—were assured when the big pay hike package became effective, because their salaries are tied to executive branch pay levels.

The Civil Service workers involved include staff directors of House and Senate committees to a handful of other sub-chiefs who work for Congress. Their pay levels had previously been held to a maximum of \$28,000 a year. That "lid" now goes to \$30,239 a year because of the raises at the top of the line.

The Johnson pay order, issued Jan. 15, could have been vetoed by either house of Congress in the following 30 days. The Senate, in effect, voted to approve the raises by rejecting a veto resolution. The House avoided the issue and never went on record with a vote.

## Sirhan Says Weapon Was for Killing Dog

LOS ANGELES (UPI)—Sirhan B. Sirhan is alleged to have said that the gun which killed Robert F. Kennedy was a weapon that "would kill a dog."

The prosecution claims he made that statement while practicing at a target range before shooting the senator in the brain from a distance of less than an inch.

Deputy Dist. Atty. David Pitts

## Druggist Aids Antismoking

MINNEAPOLIS, Minn. (UPI)—Joe Greenman, who owns a drug store in suburban Bloomington, quit smoking two weeks ago.

Thursday he quit selling cigarettes. Customers who asked for cigarettes at the Greenman Pharmacy were given antismoking pamphlets instead.

"We discontinued all our tobacco products before the store opened this morning," he said. "We had been preparing to do this for about two months, ever since our boys asked us why we sold tobacco if smoking is bad for health."

If it comes from a Hdwe. store we have it. Lewis Hdwe. (adv.)

## Hurricane Force Winds Strike Texas Gulf Coast

Over 400 Evacuated By Monstrous Seas

By United Press International  
Near hurricane-force winds, 11-inch rains and monstrous seas—the worst since Hurricane Carla—punished the Texas Gulf Coast today. One person was dead and four others missing. More than 400 persons were evacuated from their homes.

The 11-inch rain fell in the Corpus Christi area and in the upper coast area. Water spilled from flooded bays, lakes and tributaries and seeped into homes, standing as high as two feet deep in some.

A tornado hit the Galveston area, where 60-mile-an-hour winds blew, but there were no injuries.

The U.S. Coast Guard said three shrimpers sank in rapid Baytown, water flooded the building 20-foot seas off the Brownwood subdivision in the lower coast.

One man drowned and four other persons were missing. Another was plucked out of the boiling water to safety.

Another shrimper, "Pride of Freeport," hit jetties but managed to limp into port.

In the upper coastal area, at Baker Describes Scene

"It looked like hell," said Junior L. Crosby, a baker.

"Everything was just floating around."

Baker moved his wife and their three children from their rented home in the upper Galveston Bay area, about 11:30 p.m. Thursday.

Crosby said he returned home early today and water stood (See WINDS, Page 3)

## Court of Inquiry Inspects Another Intelligence Ship

CORONADO, Calif. (UPI)—The five admirals holding a court of inquiry into the capture of the USS Pueblo made a hurried trip to Virginia today to inspect another Navy intelligence ship.

The admirals left for Little Creek, Va., to tour the USS Palm Beach—a vessel slightly larger than the Pueblo. It carries the same type of sophisticated electronic gear.

Pueblo skipper Lloyd M. Bucher was legally entitled to make the trip, but he declined.

A Navy spokesman said the third phase of the hearing—the ordeal of the Pueblo crew in North Korea—may not get under way until the middle of next week. It had been scheduled to start Thursday, but the admirals still were sorting out conflicting testimony about the Pueblo's capture.

Seizure of the ship by North Korea on the high seas Jan. 23, 1968, is the subject of the second part of the three-phase hearing. Bucher and three Pueblo enlisted men testified in an open hearing Thursday which produced favorable testimony for Lt. Stephen Harris, 31, who ran the intelligence center of the Pueblo.

Chief Communications Technician James F. Kell, 32, Hayward, Calif., retreated from his earlier statement that he passed the order to destroy secret materials when Harris failed to do so.

Returning to court in what the Navy called a voluntary appearance, Kell said he discussed the order with Harris, but Harris told him no word had been received from Bucher on what was going to happen to the Pueblo.

Kell said he then acted on his own initiative. Orders from the bridge to begin destroying secret papers and machines came two minutes later.

After the guilty verdict was returned, Capt. John Novinger, the army prosecutor, called for a period of confinement which should be adjudged to reflect this soldier's obvious disregard of obedience to command."

Sood's military counsel, Capt. Emmitt Veary, asked the board merely to discharge the defendant as a hardship case. Veary said Sood's wife was seeking divorce and their three children were in court custody because they weren't receiving proper parental care.

Punch needle demonstration, 9:30—5:30 thru Sat. Duckwalls.

# Hurricane Force Winds Strike Texas Gulf Coast

**SWEETHEART TIME**—As the tradition of giving candy and valentines rolls around once again, so it goes in Pampa schools. Here, Rob Williams, 6, of 2516 Mary Ellen, "pledges" his love for Janine Van Kluyve, also 6, of 2239 Duncan, and by the looks on their faces love has set in for a long time. They are both members of Mrs. Margaret Ayres' first grade class at Stephen F. Austin Elementary School.

## Valentine's Day Gets Free License For Young Couple

WINDSOR, Conn. (UPI)—Valentine's Day is celebrated in Connecticut's oldest town each year by sending young lovers on their wedding day—for free.

The first couple of 1969 to take advantage of Windsor's tradition of presenting a \$5 marriage license free on Feb. 14 were Arthur W. Gamache Jr., 22, of Windsor and Jo Anne Cusick, 22, of Hartford.

The ex-Navy man and his bride-to-be will be married Feb. 22.

The valentine tradition was begun by Windsor Town Clerk George Tudan in 1962. Since he started the whole thing, Tudan, who describes himself as "Cupid's helper," has doled out 25 free wedding licenses in the past seven years.

"We've only had one divorce out of the whole bunch," Tudan said. He's been town clerk since 1954 in this Hartford suburb of 23,000, the oldest town in Colonial Connecticut, founded in 1638.

The only stipulation accompanying the free license to wedded bliss is that the couple be married in Windsor. "We've had couples come as far away as Florida for our offer," Tudan said.

The party last June 2 was in the Ambassador Hotel's Palm Court, only a few yards away from the pantry where Kennedy was gunned down.

Fitts said that on the primary election day preceding Kennedy's death at a victory party at the Ambassador Hotel, Sirhan was at a target range practicing firing hundreds of rounds from a pistol.

Another marksman at the range asked what use Sirhan intended for the gun.

"I will use it for hunting," he reportedly said. "It would kill a dog."

The state did not reveal whether it would seek the death penalty, although that is assumed.

The prosecution began its opening statement immediately after Superior Court Judge Herbert V. Walker denied a defense motion asking a mistrial be declared because of a news story.

The Los Angeles Times story Wednesday said there was a possibility of a bargain being made because it could be prejudicial to the defense case.

## East-West Crisis Approaches Over Called Election In Berlin

BERLIN (UPI)—Berlin today plunged toward another East-West crisis. The Soviet Union demanded West Germany call off a presidential election in West Berlin. The West Germans said no and predicted Russian harassment of the city's air and land traffic.

British Prime Minister Harold Wilson, charting the course of a Feb. 27 visit by President Nixon, flew into the outpost city and proclaimed his nation's support.

Moscow's newspapers proclaimed that the March 5 West Berlin meeting of West Germany's electoral college is illegal, intolerable and endangering peace.

"In 1960 West Berlin will either be a dead city with the capitalist facade still taking itself to be an outpost of the West or it will have a flourishing atmosphere—but only if it rids itself of the most foolish policy of the 20th Century—anti-communism."

In Bonn, West German spokesman Guenter Diehl told newsmen that Russian Ambassador Semyon Tsarapkin Thursday night handed Chancellor Kurt Georg Kiesinger a note demanding the March 5 election be cancelled.

"Of course we cannot agree to cancel the Federal Assembly meeting in West Berlin. We are consulting with our allies on how to insure free access to the city," Diehl said.

The East Germans already (See BERLIN, Page 3)

## Klan Imperial Wizard Starts Prison Term

BIRMINGHAM, Ala. (UPI)—Robert M. Shelton, Imperial Wizard of the Ku Klux Klan, surrendered today to federal marshals to begin a one-year prison term for refusing to show to a congressional committee records of his "invisible empire."

The balding, 38-year-old Shelton, accompanied by attorney Fred Blanton Jr., walked into the office of U.S. Marshal Roy L. Call shortly before 8 a.m.

With Shelton at the surrender were Klan Imperial Secretary Melvin Sexton, Imperial Secretary Coy Neal and North Carolina Grand Dragon Bob Jones.

Jones, along with South Carolina Grand Dragon Robert Scoggin and former Georgia Grand Dragon, Calvin Craig, are also due for sentencing for refusal to give out Klan secret records.

Upon arrival at Texarkana, Shelton was to be placed in quarantine for 21 days to be certain he does not carry any diseases to the prison population. He will also be given a battery of tests to determine what he will do during the remaining time he is incarcerated.

Deputy Marshal C. J. Rogers

## Guardsmen Still Student Protest

The tear gas dissipated, peace hung uneasily over Duke University and the University of Wisconsin today—with National Guardsmen ready to move back onto the Wisconsin campus and Guardsmen standing by at Duke.

Students holding the University of Chicago Administration Building voted early today to leave "within 24 hours."

A leader of the 16-day demonstration reportedly called the sit-in a "failure," and the students sought to make their exit as "dramatic" as possible.

Violence at the University of Wisconsin's rolling Madison campus Thursday involved the rare use of National Guardsmen on a Northern campus. At Duke, Durham, N.C., riot police used clubs and tear gas but had to retreat in the first major outbreak of violence at a southern university in current campus disorders.

Club-wielding police arrested 30 persons in repeated sweeps through chanting, screaming militants at the University of California's Berkeley campus; a agreement and for the fourth day took over classes at Roosevelt University in Chicago; 200 students began an all-night sit-in at Pennsylvania State University after Yippie Jerry Rubin made a speech and Puerto Rican students held a City College of New York building for four hours.

Chief Communications Technician James F. Kell, 32, Hayward, Calif., retreated from his earlier statement that he passed the order to destroy secret materials when Harris failed to do so.

Returning to court in what the Navy called a voluntary appearance, Kell said he discussed the order with Harris, but Harris told him no word had been received from Bucher on what was going to happen to the Pueblo.

Kell said he then acted on his own initiative. Orders from the bridge to begin destroying secret papers and machines came two minutes later.

After the guilty verdict was returned, Capt. John Novinger, the army prosecutor, called for a period of confinement which should be adjudged to reflect this soldier's obvious disregard of obedience to command."

Sood's military counsel, Capt. Emmitt Veary, asked the board merely to discharge the defendant as a hardship case. Veary said Sood's wife was seeking divorce and their three children were in court custody because they weren't receiving proper parental care.

## Mutiny Sentence Set For Private

SAN FRANCISCO (UPI)—A 26-year-old private with a stormy Army career, was convicted of mutiny Thursday and sentenced to 15 years hard labor for participating in a seditious strike at the Presidio stockade.

Pvt. Nesrey Sood, a husky fanner of three from Oakland, Calif., turned pale and clenched his teeth when the verdict was returned by a six-officer court martial board.

Sood was among 27 GI prisoners charged with mutiny for striking last October to protest conditions at the stockade and the fatal shooting of a fellow inmate during an escape attempt.

The trial of two more defendants, Pvt. Louis Oszczenski of Florida, N.Y., and Lawrence Reigel of Crescent City, Calif., was to resume today. The remaining 24 face trials later this month or in March.

The trial of Oszczenski and Reigel was interrupted last week by the Army law officer (judge), Lt. Col. George Robinson, who ordered a sanity board to check the mental state of the two defendants at the time of the strike.

The court deliberated only 35 minutes before finding Sood guilty on the mutiny charge and announced the penalty after an hour and 25 minutes. It also ordered forfeiture of pay and a dishonorable discharge.

Paul Halvank, Sood's civilian attorney, said he would appeal the verdict and sentence, which are subject to review by higher authority.

After the guilty verdict was returned, Capt. John Novinger, the army prosecutor, called for a period of confinement which should be adjudged to reflect this soldier's obvious disregard of obedience to command."

Sood's military counsel, Capt. Emmitt Veary, asked the board merely to discharge the defendant as a hardship case. Veary said Sood's wife was seeking divorce and their three children were in court custody because they weren't receiving proper parental care.

O'Neill is president of north suburban Glenview's Support Your Police Committee.

**Mrs. Wayne Burgin Feted with Shower**

SKELLYTOWN (Sp)—Mrs. Wayne Burgin, the former Paula Kay Riddle of Borger, was honored with a wedding shower in the Fellowship Hall of Skellytown Community Church.

Hostesses were Mmes. Clarence Kaiser, Darwin Allen, T.C. Cofer, Kenneth Crawford, R.S. Marlair, Gene Harlan, Hardy Boyd, Emmett Saxon, Earl Looper, Tom Veale, Clarence C. Hoskins and Weldon Thomas.

Mrs. Burgin was assisted in opening her gifts and recording them by her mother-in-law, Mrs. Roy Burgin.

Mrs. Darwin Allen and Mrs. Kenneth Crawford presided at the serving table, which was covered with a white lace cloth over blue and centered with a large heart fashioned of blue net. Two wedding bells were erected in styrafoam, and complemented with an arrangement of forget-me-nots.

**Chapter Observes 100th Anniversary**

CANADIAN (Sp)—The 100th anniversary of PEO was observed by the local chapter at their meeting recently in the home of Mrs. Bob Dillman. Mrs. Larry Sanders was co-hostess.

Dressed in period costume, Mrs. Bush Snyder, Mrs. Morris Bennett, Mrs. Bud Webb, Mrs. Calvin Isaacs, Mrs. Pecos Anderson, Mrs. Jack King and Mrs. John Glenn lighted candles to honor the organization's seven founders.

Surviving charter members of the local chapter are Mmes. Carl Studer, E.H. Snyder, Grace Spiller, all of Canadian, and Miss Bess Simpson, Fort Worth. Refreshments were served to

**Your Horoscope**

**JEANE DIXON**

**SATURDAY, FEB. 15**

Your birthday Saturday: Now is the time to get right to work on your long-studied plans. Obligations are the order of the year. This being the case, move promptly to your own affairs first. Many adjustments are feasible in midstream of a successful work program, but do not expect full results immediately. Saturday's natives tend to big plans!

ARIES (Mar. 21-Apr. 19): The trends of yesterday continue. Social contacts broaden and tempt you to divert more of your energy from serious business to pleasures for their own sake. Keep a fine balance between work and fun.

TAURUS (Apr. 20-May 20): Pleasure travel, particularly in groups or tours, turns out to be very inviting. Dealings with and visits to institutions or hospitals are strongly favored. Sentimental interests beckon this evening.

GEMINI (May 21-June 20): The temptation is to take off from duty and just play. Distant places are most alluring. Gather your friends for the grand effort.

CANCER (June 21-July 22): Saturday brings you a chance to do for others. Give what

Mmes. G.B. Mathers, Bill Nix, Jess Yokley, Carl Studer, Dean Robinson, Don Powell, Bud Webb, Frank McMordie, Marian Karr, John Isaacs, Willie Ayers, Jack King, John Glenn, Pecos Anderson, Calvin Isaacs, Rush Snyder, and Morris Bennett.

is needed, and go on as if nothing has happened. Arriving news precipitates changes in travel or shopping plans. You will find new qualities in those you love.

LEO (July 23-Aug. 22): The day is encouraging thanks to the continuing trend. Get away from trite routines by any practical means. Other people surrounding you have the bright ideas Saturday, but skip the influence of friends who dissipate great energy with their inner tensions.

VIRGO (Aug. 23-Sept. 22): Promotion is the keyword, both in career effort and your personal affairs. If you want or need relocation or a switch in conditions, make them top priority now.

LIBRA (Sept. 23-Oct. 22): Personal relationships now appear so much more complex and important than they did. Simplify your outlook. The prospects are excellent for coming to a happier state of affairs all around.

SCORPIO (Oct. 23-Nov. 21): Some recognition and acceptance give you that nice glow. Get out and make the rounds in a lighthearted frame of mind, then set up your best style of entertainment for the evening.

SAGITTARIUS (Nov. 22-Dec. 21): Get all your routines done early, as there is adventure in the air for the afternoon and evening. Accept invitations, follow the whim of the moment when it comes. See what comes of the "way-out" ideas of the people around you.

CAPRICORN (Dec. 22-Jan. 19): Those who care about you are in there pitching today to help your ideas prevail, and come to reality. Spend part of your time and energy on purely social sharing and enjoyment of these people; there'll be much more progress on all fronts.

AQUARIUS (Jan. 20-Feb. 18): Favorite projects are forwarded by leaps and bounds Saturday, particularly those which will flourish about three months from now. Very different conditions of life are promised in the coming season... perhaps rather drastic changes. Be ready.

PISCES (Feb. 19-Mar. 20): The middle of the road is the best route to follow Saturday. Call in professional skilled help if necessary. Think ahead to avoid any conflict between competing factions.

**MAINLY ABOUT CANADIANS**

CANADIAN (Sp) Mr. and Mrs. Jerry Carr, Mr. and Mrs. Hulin Fuller and Mr. and Mrs. Carrol Ray Bentley attended an oil dealers banquet in Amarillo recently.

Mrs. Gladys Sharp has returned home from Holdenville, Okla. where she was called by the illness and death of her mother.

Chris Schaefer has been hospitalized in the Northwest Texas Hospital in Amarillo.

Freddie L. Mabry has been receiving care in the High Plains Hospital in Amarillo. Walter Boren is a patient in St. Anthony's Hospital in Amarillo.

Mr. and Mrs. Alonzo Hand of McLean were here recently for the wedding of Mr. Hand's niece, Sue Horton.

Mr. and Mrs. Charlie Alford attended a birthday dinner recently in honor of their little granddaughter, Lisa Diane, in the home of her parents, Mr. and Mrs. Jeanel Norris.

Mr. and Mrs. Tommy Hobdy took a group of young people of the First Baptist Church to Pampa recently to hear Bob Harrington, a featured speaker at the Central Baptist Church more.

Teachers at Baker School sponsored a party recently for custodian-Rudene Mathews who was celebrating his birthday.

**Ribbon Transformation**

For flair, try tying gaily-colored ribbons onto last year's dress. A ribbon at the waist or at the neck can transform any dress.

**Dear Abby**

by Abigail Van Buren

DEAR ABBY: Our daughter (I'll call her Mary) now in her upper twenties, after a brilliant scholastic career and two years of teaching at the university level, has "flipped out."

She hates "the establishment," the news media, our foreign policy—and is a real "hippy."

Mary is living with a college dropout, a boy of 20. Neither is employed, though he gets a small allowance from home. Their debts are piling up and their debtors have been contacting us because the boy is a minor and Mary signed the leases, etc.

They admit they smoke "pot" and my husband thinks the boy is pushing, though Mary denies it. (She stopped using L.S.D. at our urging.) My husband has offered to pay all their bills and buy Mary a car if she will leave this boy, get a job, and live conventionally. She refused with thanks.

My husband now wants to cut her off completely. He says that she's an adult now and we should refuse to have anything to do with her until she conforms to the conventional norms of society. I feel Mary is going through a delayed adolescence and I want to be available if she wants to communicate with us. What do you think?

HEARTBROKEN MOTHER: DEAR MOTHER: If your daughter "stopped using L.S.D." at your urging it indicated that you still have some influence with her. Don't be a crutch. Be a "net." Let her know you'll be there if she needs you.

DEAR ABBY: Re your answer to "WILD BILL'S WIFE" who said she had never heard of women "pallbearers": My mother was a "pallbearer" for nine months.

Very truly yours, PAUL H. ADAMS, BABBITT, NEV.

DEAR PAUL: Now ain't that a knee-slapper!

DEAR ABBY: I am 21 and have been dating this fellow who is 24 for about two months. He tells me he cares a lot for me, and I really like him a lot, too, but we have this problem about his hair.

He combs it straight down on his forehead and he looks like a teenager.

I told him in a nice way I didn't think that hair style suited him, and asked him to try combing it back.

Well, he did, and he looked like a distinguished young senator.

After a while he changed it back to the old way. When I asked him to please comb his hair back the way I liked it, he said, "I've been wearing it down for a long time and never had any complaints. If you really liked me, it wouldn't matter how I combed my hair."

Abby, we get along just fine—until it comes to his hair. This seems to be our only disagreement. Am I wrong to keep bugging him about it?

IRRITATED: DEAR ABBY: It all depends upon what role you want to play in his life. If you'd like him "for keeps," keep quiet.

DEAR ABBY: That man who hasn't come near his wife since her hysterectomy because he finds the scar "repulsive," ought to be ashamed of himself.

My wife also has a scar on her body. But you know, Abby, I'm glad it's there because every time I see that scar it reminds me that if she didn't have the operation, she wouldn't be alive today. Sign me "NO COMPLAINTS!"

**TOPS Club Has Groom Meeting**

GROOM (Sp)—The Pounds Away Club (TOPS) met recently in the Home Economics Room at the school. Mary Rose received the fruit bowl for losing the most weight during the preceding week.

Members present were Pat Pair, Gloria Huck, Dorothy Mansel, Mary Rose and Irene Baggerman.

**Fashion Highlight**

There was a time when sunglasses were strictly summer fashion. Not any more. From ski slopes to the streets of Manhattan, sunglasses are a winter fashion highlight.

## Palmer to Talk At Fellowship

Max Palmer, former professional wrestler and night club bouncer, will be speaking at the 6 p.m. service Sunday at the Fellowship Baptist Church.

Bro. Palmer, standing seven and one-half feet tall, weighing 385 pounds and wearing a size 21 shoe, is known as "Goliath for Christ."

He has appeared in movies and is the tallest living native American.

"From a drungard to a dedicated Christian" will be his personal testimony presented at this service. Bro. Earl Maddux, pastor, invites the public to attend.

MAX PALMER

## Philosopher Says Man Needs to Look Closely

By LOUIS CASSELS  
United Press International  
Dr. Elton Trueblood, the esteemed Quaker philosopher, says a man has only to look at himself to find a powerful

argument for the existence of God.

This argument is developed in his new book, "A Place to Stand," published this week by Harper and Row.

"There are many good reasons for knowing that God really exists," says Dr. Trueblood. "But no reason is more compelling than that which is involved in understanding what it is to be a person."

If modern men and women wish to follow a genuinely scientific method in formulating their ideas about God, they will begin not with abstract speculations but with the "experienced fact" of their own existence as persons.

"We may never be able to know whether there are thinking, self-conscious and partly self-directing beings anywhere else in the universe. But we know of such beings existing this century on one of the smaller planets, in orbit around one particular sun."

"This may seem too obvious to mention, because it is common knowledge. But it is certainly not too obvious to examine. It is, indeed, one of facts."

From the viewpoint of formulating a philosophy about the origin and nature of the universe, Dr. Trueblood says, the great significance of persons is that they clearly belong to another order of reality.

Because there are persons, "we know that in addition to bodies, such as the forms of rocks, which do not feel, and in addition to animals, which do not make moral distinctions, there are beings who are able to entertain conscious purposes and to care."

Anyone who meditates on the "amazing fact" that such beings have emerged in an apparently unfeeling material universe is bound to find himself asking, sooner or later, "What kind of world it must take to produce such an emergence."

Obviously, it is a world in which there are physical, mental and spiritual levels of existence. And the undeniable reality of the latter two levels points toward a personal God as creator.

"Here is the most difficult problem to be faced by the person who seeks to deny that God really is," says Dr. Trueblood. "He is forced to adopt the credibility of one who believes that caring can emerge from a fundamentally uncaring world."

"While the Christian is faced by the perplexing problem of evil, the unbeliever is faced by the vastly more difficult and more baffling problem of personality, in what he believes to be an utterly impersonal world. A believer believes in God partly because he is unable to make such a bad choice as the atheist is forced to make."

## High Plains Youth Rally Scheduled Feb. 22 in Amarillo for Students

Plans are being completed for a High Plains Youth Rally at the First Christian Church, 3001 Wolflin, in Amarillo Feb. 22.

The rally is not sponsored by any one church or church organization, although several churches are cooperating to make the rally possible.

Around 1,000 persons, mainly high school students, are expected to attend the rally. Attendance will not be restricted to high school youths, however.

Guest speaker for the event will be Father Egen of New York City. Called the "Junkie Priest," Father Egen will speak on "Drugs."

Father Egen runs a hospital for drug addicts. In his speech he will discuss drugs, their effects on people and his experiences with drug addicts.

Registration deadline for a catered meal to be served at 11:30 a.m. Feb. 22 Sunday. Price is \$3.

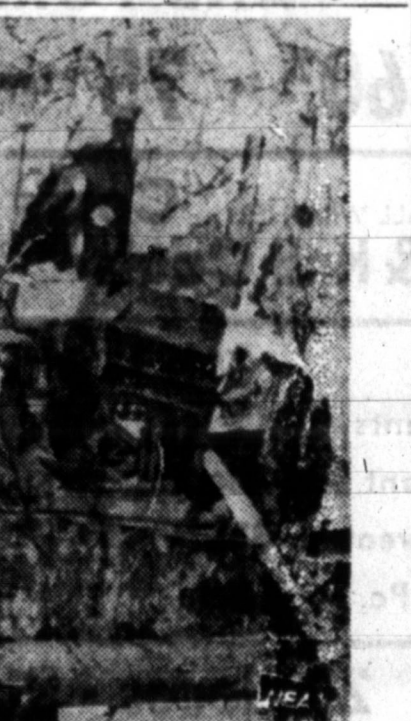

General registration, which does not include the meal, is \$1.50. Deadline is Feb. 20.

For registration information, persons may contact Clifford Gage, cabinet and council member from First Christian Church in Pampa, at MO 4-2267, or David Cory at MO 5-3620.

Schedule includes registration, 9 a.m.; singing, 10 a.m.; orientation, 10:30; dinner, 11:30; speech, 1 p.m.; discussion groups, 2:30, and worship, 4.

Alabama Coins  
MONTGOMERY, Ala. (UPI)—Alabama has minted a set of five coins commemorating its 150th anniversary of statehood. The coins sell for \$3 a set in nickel silver and \$60 a set in sterling silver.

One side of the souvenir coins carries the Sesquicentennial Seal and the other depicts a design noting a significant era in the state's history.

## With all your heart

"ye shall seek me, and find me, when ye shall search for me with all your heart. And I will be found of you, saith the Lord." It's a promise that has never been broken. But it does require all the heart. Christian Science church services are devoted to this kind of searching. You are always welcome.

First Church of Christ Scientist  
901 N. Frost  
Sundays 11 a.m. Wednesdays 8 p.m.  
Subject this Sunday: "Soul"

## Rev. Downing To Give Talk

The Rev. Carlton S. Downing will deliver the morning message for First Christian Church's worship service at 10:50 a.m. Sunday. He has chosen for his sermon topic "Your Brother Has Something Against You," with scriptures from Matthew 5:23.

The Sanctuary Choir, under the direction of Mrs. J. Stanley Hill and accompanied by Mrs. John Gill, will present the Anthem of "No Man Is An Island."

Snack Supper will begin at 5:30 p.m. with youth groups at 6 p.m. At 7 p.m. Rev. Downing will teach his Christian Life Curriculum sessions.

The Fellowship Class will meet Monday with Mrs. Tom Stringer for the evening Bible class, held once a month. The Pastor's Cabinet will meet at 7 p.m. with both ministers, the Rev. J.W. Duke and Rev. Downing.

Immediately following, the Elders will meet with W.R. Harden, chairman.

## St. Matthews Episcopal Church Slates Annual Pancake Supper

The 14th annual Pancake Supper will be held from 5 to 7:30 p.m. Tuesday, Feb. 18, at St. Matthews Episcopal Church Parrish Hall, 727 W. Browning. Mr. and Mrs. Ab Conway are chairmen of the traditional Shrove Tuesday event.

Tickets are \$1 each, with preschool children admitted free when accompanied by an adult. Members of the Episcopal youth groups and of the congregation are contending for titles of King, Queen and two attendants, with the coronation and presentation of prizes to the top ticket sellers at 6:15 p.m. by the Rev. Sam B. Hulsey, rector of St. Matthews.

Tickets are also available at the church office and may be bought at the door that night. The public is invited.

Shrove Tuesday, the Tuesday before Ash Wednesday, is the English equivalent of the French "Mardi Gras" and the Italian "Fat Tuesday." The English custom of eating pancakes on this day arose from the economy of using up the eggs and fats which were formerly forbidden articles of diet during Lent.

This Tuesday, the last day before Lent begins, is sometimes called Pancake Tuesday or Pancake Day, as well as Shrove Tuesday.

The word "Shrove" comes from "to shrive" or hear confessions. Further explanation is found in a translation made of the "ecclesiastical institutes" in 1,000 A.D. by Abbot Aelfric which said that in the week before Lent, everyone should confess his deeds to a "confessor who shall so shrive him... as he then may hear by his deeds what he is to do (by way of penance)."

Committee chairmen for the supper are G.W. Dingus, Mr. and Mrs. Bill Ellis; Dan Michael; Mr. and Mrs. Bob Fugate; Mr. and Mrs. Bob Klinger; Mrs. Lena Jean Morgan; Mrs. Nina Richmond; Mr. and Mrs. Bill Taylor; Mr. and Mrs. Paul Hinton; Mr. and Mrs. Jack Reeve; Mr. and Mrs. Jack Curtis; Mr. and Mrs. George McCarroll and Mr. and Mrs. Ernest Wilkinson.

Ab Conway, chairman of the Pancake Supper, requests that all members participating in the event Tuesday night be present at the Parrish Hall Sunday at 4 p.m. for the dry run. Committee chairmen will give their instructions.

The High Street face is fastest. The Mantle Lane side the slowest. The hands on the four faces vary by about two minutes—but the chimes sound five minutes early.

## Take Your Choice

COALVILLE, England (UPI)—Times change fast for the people of Coalville. It all depends on which side of the town clock they are facing.

The High Street face is fastest. The Mantle Lane side the slowest. The hands on the four faces vary by about two minutes—but the chimes sound five minutes early.

## Hager to Speak On Merely Men

Rev. Martin Hager, First Presbyterian Church pastor, will preach at both the 8:30 and the 11 a.m. worship services Sunday on the topic, "Merely Men." Rev. Hager will take his text from Acts 14:8-18. Ruling Elder Owen Gee will assist Mr. Hager in both services.

At the 11 a.m. worship service, the Chancel Choir, under the direction of Mrs. William K. Mackey, will present "In Thee Is Gladness" by Gastoldi and Mrs. Fedilia Yoder, church organist, will present "Unto Us Is Brought Salvation" by Bach as the Offertory.

Immediately following the 11 a.m. worship service, there will be a called congregational meeting to elect a deacon.

The Communicant's Class will meet at its regular time of 4 p.m. in Calvin Hall.

The Junior High Fellowship will meet at the home of Joe Pafford, 1913 Lynn, for fellowship and supper from 5:30-7 p.m. There will be no Senior High Fellowship this Sunday.

There will be a session meeting at 7:30 p.m. in the West Room of the Church.

## Witnesses Continue Revelations Series

Case Dugan of Borger will deliver the public talk "Everlasting Destruction of Babylon the Great" to the local congregation of Jehovah's Witnesses at 10 a.m. Sunday.

The "mystery" of Babylon the Great will be discussed as a

## Church of Jesus Christ Conducts 'Penny Parade' for Its Hospital

To aid thousands of children to laugh, run, jump and play, the Church of Jesus Christ of Latter-day Saints is conducting its annual "Penny Parade."

Funds obtained from the "Penny Parade" are used to provide care for children at the Primary Children's Hospital in Salt Lake City, Utah. The funds insure that no child will be denied care because of inability to pay.

The 1968 "Penny Parade" helped to admit more than 900 youngsters to the hospital for free care. In addition, about 7,200 visits to out-patient clinics were completed.

Youngsters who are afflicted with various illnesses and other problems receive hours of care and treatment by well-trained specialists.

The speech and hearing clinic offers aid to deaf-mutes and those who have other speech and hearing deficiencies. The physical therapy department aids those who need strengthened legs and arms crippled by accident, disease or birth.

Thirty-eight other departments are maintained so that a crippled or diseased child will have an opportunity to live his life as others.

Children of the Church donate their pennies to the hospital through the various Church chapters will be given.

The Watchtower study immediately following at 11 a.m. will cover material in the Jan. 15 issue, "Are You Ready For The Responsibilities of A Baptized Witness?"

programs. Other members of the Church and those outside the Church provide further donations.

Persons wishing to donate to "Penny Parade" may contact Bishop Robert A. Wood, 2220 N. Sumner, or by calling MO 4-4936.

## Scientists Slate Sermon on 'Soul'

"Make a joyful noise unto the Lord, all the earth: make a loud noise, and rejoice, and sing praise... Let the floods clap their hands; let the hills be joyful together before the Lord."

These verses are part of the responsive reading at 11 a.m. Sunday at First Church of Christ, Scientist.

The subject of the Bible lesson-sermon is "Soul."

One of the selections to be read from the denominational textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy includes: "Experience should be the school of virtue, and human happiness should proceed from man's highest nature."

Slot Machine Divorce  
NEW YORK (UPI)—In the 1870s in Utah a couple could deposit \$2.50 in a slot machine for papers necessary for a divorce. The divorce was legal if the papers were completed and mailed to the territorial government. The system ended when Utah became a state.

# The Weekly Message Of Inspiration

A. G. PURVIS, Pastor  
Hobart Baptist Church

### MISSILES: GUIDED OR UNGUIDED (Luke 4.14-19)

A great many people in the world today are caught up in the hysteria of the missile race with Russia. Our capacity for world leadership is being measured by the distance we have penetrated outer space and the accuracy of our long range guided missiles of death. But I fear we are making a great mistake. Not that I do not think we do not need to be strong nor am I opposed to scientific research. But I fear we have become too much concerned with our national and personal security and losing our place of world leadership that we have forgotten the direction in which we are supposed to be leading.

Our nation has a mission in the world but it is not to dominate by the superiority of weapons. But to show the world how free men can govern themselves wisely and to share our prosperity with those in need. Our church has a mission and that mission is to show the world the redemptive love of Christ.

I. "HE HAS ANOINTED ME TO PREACH THE GOOD NEWS TO THE POOR." Jesus of Nazareth was a poor man's Messiah. He came to men who had hardly a shirt to cover their backs and he made them princes in his Kingdom of God. He came to men who were broken in Spirit and He made them conquerors of the world. Men who had given up experienced a rebirth of hope because He passed their way and laid His hand on them. The very announcement of His arrival, shouted through the city streets: "Jesus is Coming!" The preacher approaches sent an electric current flowing through the crowd. This was good news. He never came but what many received great blessings.

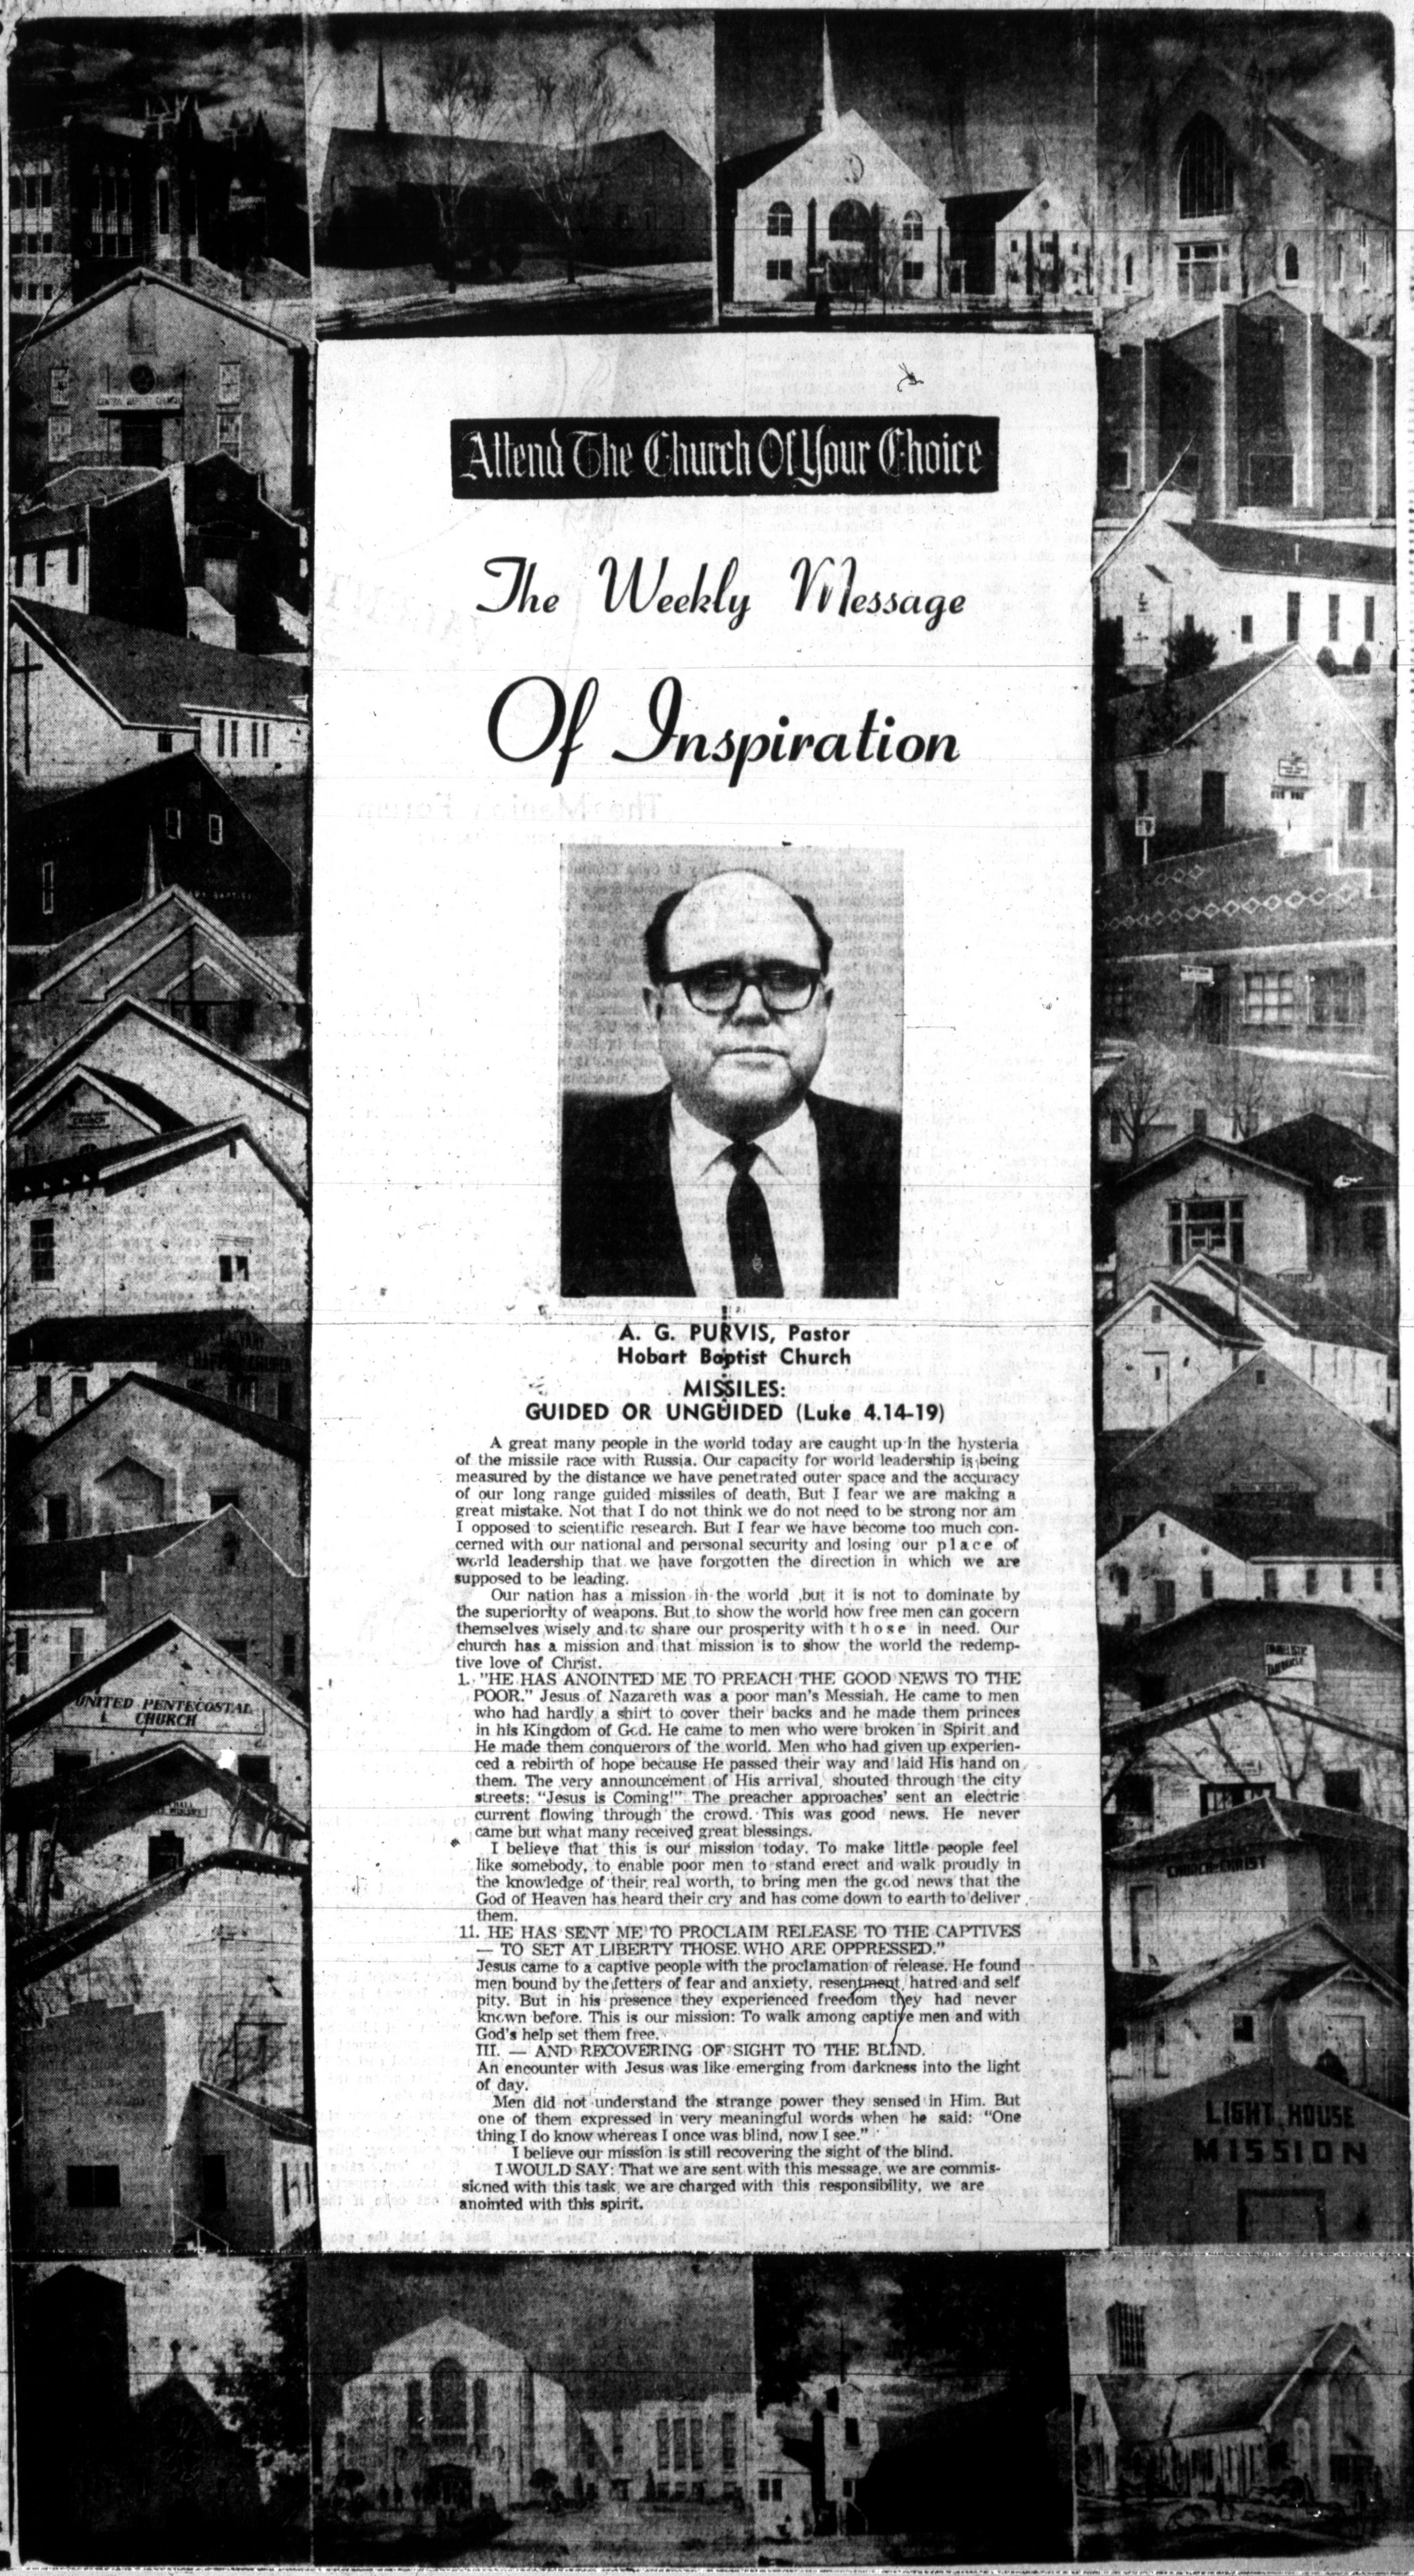

I believe that this is our mission today. To make little people feel like somebody, to enable poor men to stand erect and walk proudly in the knowledge of their real worth, to bring men the good news that the God of Heaven has heard their cry and has come down to earth to deliver them.

II. "HE HAS SENT ME TO PROCLAIM RELEASE TO THE CAPTIVES — TO SET AT LIBERTY THOSE WHO ARE OPPRESSED." Jesus came to a captive people with the proclamation of release. He found men bound by the fetters of fear and anxiety, resentment, hatred and self pity. But in his presence they experienced freedom they had never known before. This is our mission: To walk among captive men and with God's help set them free.

III. — AND RECOVERING OF SIGHT TO THE BLIND. An encounter with Jesus was like emerging from darkness into the light of day.

Men did not understand the strange power they sensed in Him. But one of them expressed in very meaningful words when he said: "One thing I do know whereas I once was blind, now I see."

I believe our mission is still recovering the sight of the blind. I WOULD SAY: That we are sent with this message, we are commissioned with this task, we are charged with this responsibility, we are anointed with this spirit.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

## 'Tax Reform' Proposals

Again there is heard abroad in the land the cry for "tax reform." And by "tax reform" the individuals of various political hue apparently mean a rearrangement of taxes to make them more nearly equitable.

It is noted that such individuals as Rep. Wilbur Mills, a Democrat and chairman of the House Ways and Means Committee, again has spoken up for some form of change, and that the Nixon administration has said it will come up with some proposal for reform.

Joseph Barr, secretary of the treasury at the close of the Johnson administration, and Sheldon S. Cohen, who was collector of internal revenue, in their final days in office came up with a proposal for their successors. It was some sort of minimum income tax on persons with high incomes, who now pay no tax at all.

Barr, in his final report to Congress, said there were 155 individuals and couples who reported incomes of more than \$200,000 each in 1967 and paid no federal income tax. There were 21 who paid no taxes on incomes of more than a million dollars each, he said.

"The middle classes are likely to revolt against income taxes," said Barr, "not because of the level or amount of the taxes they must pay but because certain provisions of the tax laws unfairly lighten the burden of others who can afford to pay." He's right that the middle income people are getting restive at the heavy taxes, and more than a few are objecting to legal tax "loopholes."

Depletion allowances for those in the oil and mining business, depreciation allowances for real estate rental people, and tax-exempt foundations most frequently are criticized as ways to avoid taxes. The bureaucrats also take aim at these same "loopholes" in varying degrees.

But there does not seem to be much criticism of the exemption of interest earned from state and local government securities. An individual who invests \$5,000,000 in state and local tax-exempt bonds, at 4 1/2 per cent would have \$225,000 a year tax free. However, if the same amount of money were invested at 7 per cent interest the \$350,000 earnings would be subject to nearly \$216,000 in federal taxes, plus

state taxes. It hardly seems equitable, but any attempt to tax the now exempt earnings certainly would bring cries of anguish from state and local bureaucrats.

Cohen's proposed minimum tax on high income is for a graduated tax on presently exempt incomes — say 25 per cent of a \$200,000 income and 50 per cent on \$500,000 income. He concedes it might not bring in much revenue, but says it would be "important for morale."

National Review, the "conservative" magazine, has a different proposal — simplification. Say: the magazine, "the essence of simplification is a reduction in the tax rates on income. The whole tax law could be abolished. Double exemptions. Eliminate deductions. Congress could levy a straight 19 per cent impost on personal income from whatever source. The government's revenues would remain unaltered in the first year of such reform, and in succeeding years the rates might indeed have to be lowered, because economic growth would without doubt generate tax revenues faster than even a government infested with terminal profligacy could spend them.

The key to reform is simplification. The essence of simplification is reduction of rates."

We think National Review's suggestion makes more sense than most of those we've heard, short of adopting the Liberty Amendment and eliminating unconstitutional business enterprises of the federal government and — eventually — the personal income tax.

But, we suspect there would be great cries of outrage from those who believe a graduated income tax solves the "rich and helps the "poor," to say nothing of all the hordes of bureaucrats and others who make a living out of the complicated taxing system.

Jean Baptiste Colbert (1619-83), minister of finance for Louis XIV, is credited with having said, "The art of taxation consists in so plucking the goose as to obtain the largest amount of feathers with the least possible amount of hissing."

The politicians are encountering a great deal of "hissing" these days. So the "pluckers" probably will try to find some less painful method of obtaining their "feathers."

## GLOBAL VIEW

### Brezhnev Plot Target Belief

NEW YORK (NEA) — Moscow is not likely to disclose soon the real identity of the man seized in the Kremlin after firing at a motorcade carrying Soviet astronauts and Communist leaders.

The Russian now held prisoner in notorious Lubyanka Prison is reported to be an army officer in his 20s who apparently aimed to kill party chief Leonid Brezhnev.

One version in Moscow even has it that he was a lieutenant in the secret police (MVD) and that he leapt from a sentry box inside the Kremlin walls to fire his shots.

Whatever his identity or motive, young Ilyin — if this is his real name — will not be judged by a jury as is Sirhan Sirhan, the alleged assassin of Sen. Robert F. Kennedy. He will certainly not be tried in a court open to the press until he signs a written "confession" and implicates others in his "plot."

This is what the Marxist-Leninists call "socialist legality." They have only contempt for "capitalist justice" and democratic standards of legality which they deride as "bourgeois myths."

Sinister memories must have come back to many Russians when the Soviet press finally broke silence after 28 hours to headline the shooting as an "act of provocation."

A similar act in 1934 — the assassination of Stalin's rival Sergei Kirov — triggered a wave of executions and several million Russians were sent to concentration camps.

The whole truth about Kirov's murder is still to emerge. His assassin, it is now known, was a member of the secret police. In 1956, former Premier Khrushchev intimated that Stalin had arranged Kirov's murder to provide an excuse for a wave of terror that would enable him to eliminate potential rivals.

Practically everyone connected in some way with the "Kirov Affair," including Nikolayev, the assassin, was speedily executed without a trial.

Will history repeat itself in Russia? After Stalin's death in 1953 some attempts were made by his successors to curb the power of the secret police. However, things seem to be changing again.

The Kremlin's uneasy rulers find it increasingly difficult to cope with the upsurge of dissidence in Russia and the East European Communist countries. They are again resorting to strong police measures to deal with a phenomenon that frightens them.

It was obviously to give the Russian people a severe psychological shock that the Kremlin recently decided to rename the Ministry of Public Order as the Ministry of Interior — or MVD.

These were the initials by which the domestic branch of the secret police was known when it was ruled by Lavrenti Beria, Stalin's executioner, during the purges in the 1940s.

Khrushchev discarded the name in 1960 when he sought to improve the public image of the secret police. By restoring the dreaded MVD initials, Brezhnev is clearly warning the Russians of a change in policy.

According to Soviet citizens who recently visited the West, the MVD has already launched a wave of repression against Russians — ostensibly associated with a group of students and scientists accused of building an underground organization.

Known as the Union of Social-Christian Liberation, the clandestine organization is said to have branches in Leningrad, Moscow and the Ukraine. Its aim is to "spearhead a revolt against corruption in Soviet society."

The union and another secret organization that calls itself Vanguard of Soviet Youth are hardly a serious threat to the Communist dictatorship. Not in the foreseeable future, anyway.

mand module was 12 feet high, carried three men.

Verne's ship weighed 12,231 pounds. Apollo 8 was only 161 pounds more.

## From the World — With Hope

## The Manion Forum

By MARILYN MANION

**Why Is Cuba Communist?**  
The recent outbreak of hijacking American planes to Cuba has been the subject of innumerable jokes. To those unfortunate passengers who were victims of the incidents, the subject is undoubtedly not funny at all. But, humorous or no, the spectacle of U.S. jets being forced to land in Havana has served a purpose. It has reawakened the American public that a Communist slave state exists only 90 miles away from us.

There are so many problems in the world, from Vietnam to the Middle East, that we tend to forget about Cuba. The rise of Castro, the Bay of Pigs—they are mere pages in our history books. But how well do we know that history? A recent guest on the Manion Forum radio program may have shocked a lot of listeners who thought they were aware of the facts.

Dr. Mario Lazo, a prominent Cuban lawyer who was lucky to escape with his life, was the Forum's guest a few weeks ago. Lazo has just written a book called "Dagger To The Heart," which is the story of American policy failures in Cuba.

The basic question one asks about Cuba, of course, is "How did it happen?" Did poverty bring Castro's victory? Was it a revolt of the poor against the rich? No, indeed, says Lazo; "The Cuban revolution, so called, is understood by most Americans as being a peasant's revolution, a workmen's revolution, perhaps a middle-class revolution. It wasn't any of these. It was a State Department revolution and, you might say, a New York Times revolution."

"What happened was that when Castro had been in the mountains for three months, in February, 1957, and had caused barely a ripple of interest in Havana, Herbert L. Matthews of the New York Times had an interview with him, which got his movement off the ground. The New York Times published three front-page articles—some of the worst reporting that I have seen."

"Matthews said that Castro was an idealist, that he was not a Communist; that he was strongly anti-Communist; He said that Castro would hold elections; that he believed in the free enterprise system. The New York Times sparked the campaign of the liberal press in the United States that made Castro a hero."

We can't blame it all on the Times, however. There was another culprit. Would you believe the U.S. State Department? Here is Lazo's testimony: "These men (in the State Department) began to put pressure on Batista in March of 1958 — nine months before Batista fell. The State Department put

But their very existence must be a nightmare for the Kremlin rulers who still glorify secret revolutionary organizations that persistently undermined and subsequently overthrew the Czar.

## Your Dental Health

By DR. WILLIAM LAWRENCE

**Properly Fitted Caps Are Like Natural Teeth**  
DEAR DR. LAWRENCE: Is there any chance for food or infection getting under caps? And could the natural teeth under them go bad without my knowing it? Can caps ever be taken off and cleaned and then put back?

ANSWER: If caps are made to accurately reproduce the shapes and contours of your natural teeth, and if they fit properly at the gum line, they are not likely to become food traps or cause gum infections; at least no more than occurs around natural teeth.

As for capped teeth "going bad," the exact opposite is true. Caps cover the entire crowns of natural teeth and thus strengthen them and prevent decay.

It's possible for decay to occur around the necks of capped teeth but the rate of decay should not be higher than occurs around the necks of natural teeth.

Multiple caps, or splints as they are called, are sometimes initially cemented with "temporary" cement to allow removal some weeks later for inspection and adjustments before final and permanent cementation. But single caps, especially porcelain caps, are usually permanently cemented and can't be removed without destroying them.

Anyway, it's not necessary to remove caps in order to clean them. That's one of the advantages of fixed (permanent) dental appliances, such as caps and bridges: You brush them, clean them and use them just as you do your natural teeth.

DEAR DR. LAWRENCE: I have a problem. My dentist suggested that I use an electric toothbrush because of my gum problem. My sister has a similar gum problem and her dentist suggested that she stay away from an electric brush and just brush her teeth gently. Who is right?

ANSWER: Both dentists may be right since both gum problems, yours and your sister's, may be quite different in origin and require different treatment.

When used properly an electric toothbrush can be an efficient instrument for cleansing gums and teeth. But electric brushes are not magic wands that eliminate all gum problems.

Many dentists, including many periodontists, feel that proper and thorough brushing with hand brushes is more efficient in removing food particles and dental plaque from around the necks, and between the teeth, than electric brushes.

There are less than three million horses and mules in the United States today, compared with more than 25 million in 1920, according to the Encyclopedia Britannica.

## PAUL HARVEY NEWS

### Legal 'Death' Is Undefined

By PAUL HARVEY  
Every time doctors and lawyers think they have found a certain criterion for determining when the dead are dead, a "dead" one sits up on the slab and we have to start all over.

A few years ago very simple tests were considered adequate: Respiration, pulse. But too many of those "dead" ones did not stay dead.

The electrocardiograph was not foolproof. The electroencephalograph has recently been accepted as the last word. When the reading shows "no brain activity," the patient was presumed clinically and legally dead.

Then along comes an Israeli boy, age 14, "killed" in the six-day war. He was three weeks in a coma, including a period when there were no brain waves. He is now alive and normal, physically and mentally.

So the brain wave test is inadequate. Indeed, a recent symposium of brain surgeons in Israel examined five cases of injured individuals in one medical center who had been inert for weeks. During much of the time their brain waves were undetectable. All five recovered.

One of them, a 15-year-old boy who had fallen into a pit, had no spontaneous breathing and no evidence of brain activity for two weeks. Using previous definitions of death, all of these would have been pronounced dead and subsequently buried.

This consideration has haunted medical men for generations. The fear of being buried alive was repeatedly expressed in the writings of Edgar Allan Poe.

A recent survey by the American Medical Assn. showed that 69 percent of all of us think about it sometimes. Neither embalming nor the transplanting of human organs requires a death certificate. Often embalming proceeds on the assumption that a death certificate will be forthcoming.

Further, how meaningful is a death certificate? Mrs. Goldie Marie Rheams was pronounced dead last year at Denver General Hospital. Doctors prepared to remove an organ for transplant. In the operating room, her respiration and heartbeat resumed. She did not finally die until three weeks later.

Mary Sotnick of Toronto got to read her own death certificate signed by the coroner. Her son had noticed the sheet moving, touched her, felt a

heartbeat. And Mrs. Sotnick, three weeks later, walked home from the hospital. The highest medical and legal authority is presently without a consensus on this question. Moving toward consideration by the U.S. Supreme Court is a related case.

Oct. 22, 1968, Robert Buelow was injured in a street fight. When his brain ceased functioning, his heart was transferred to the chest of Mrs. Elizabeth Anick.

The man who fought with Buelow, a Lloyd Johnson, is charged with manslaughter. He says he did not kill Buelow; that the doctors did.

This will be a protracted court fight. Probably there will be others. Unless a definition for death can be agreed upon, the immensely promising procedure of organ transplants may be tragically restricted.

## Straight Talk

By TOM ANDERSON

**From The Middle East—Part I**  
JERUSALEM: A woman went to her doctor complaining of Asian flu. After an extensive examination the doctor said, "My dear, you don't have Asian flu. You have Egyptian flu."

"What in the world is that, doctor?" The doctor replied: "You are going to become a mummy!" On May 15, 1948, the Zionists gave birth to a state in Palestine, with the United Nations as Daddy, England as midwife and America as godfather. One and one-half million Arabs have been driven from their homes. Thousands have been murdered, maimed, tortured. They and their offspring now suffer and starve, die and despair in desert tent cities. And, now, 20 years later, most of them are still in filthy refugee camps. Suppose that had happened to you? Would you accept it graciously, just because the Bible says your homeland will someday be taken by the Jews? How would you feel, being driven from your home twice in your life? Driven from a good, clean home into a stinking tent city or to dwell in a stall of a barn, like cattle?

In our country, urban renewal and other government schemes and attacks on property rights drive old people from homes in which they have every right to live and die. But in most cases our government at least pays a fair price for the private property it "legally" confiscates.

Some good but deluded Christians among us are not in the least disturbed by this outrageous stealing of Arabs' property, saying God ordained it. Certainly, the Bible says the Jews will return to their homeland. But it doesn't say that Zionists among them must steal it. In any event, many Arab Christians have abandoned Christianity because so many of us interpret the Bible as saying the Jews have a right to take by force and without payment the Arabs' country, their homes and possessions.

The Scriptures say when the true Israel of God return to the land of Palestine to repossess their heritage, they will be wholly righteous people. Actually, the Jews massacred Arabs and stole their land, homes and personal possessions. Would wholly righteous people do that?

In Zephaniah 3:13 and 15:20, the prophet addresses his message to Israel, a sincerely repentant people. But the Bible says when Israel regains the Holy Land, the Israelites will have become a Christian people, acknowledged by the Lord as His people. At that time, the Bible says, all nations will be praising the Israelites.

Is this that time? Some Bible students believe immigrants to Israel are descendants of the Hebrews of the Old Testament; that a new Messiah will come, that all the immigrants except 144,000 male virgins will die, and that they will accept Christianity and become masters of Christians from the rest of the world. Other Bible students believe the settlers of "Israel" are neither "Israelites" nor "Judeans" but are mostly descendants of Turkish, Finnish tribesmen and Falasha Negroes from Ethiopia. Regardless, judging from the present state of world morality, I don't see how they are going to come up with 144,000 male virgins.

## A Choice On Pay TV

After many years, the Federal Communications Commission has authorized subscription television—or pay TV.

It will be five months before the commission will start action on applications, the FCC allowing time for "congressional and court review."

Congress still could take action to prevent the idea from getting started as scheduled. There are a number of legislators in Washington and elsewhere who have some idea that no one should be allowed to charge for services provided through the airwaves.

It should be pointed out that someone is paying for the television programs already being received. Either advertisers are financing the commercial television channels or the tax payers are putting up funds for

at least part of the so-called educational television works.

There is only one basic issue connected with pay TV: If some companies are willing to put up the money to install stations and send out programs, and enough people want to pay for the programs offered, subscription television will be successful. If the entrepreneurs are not available or if there are not sufficient customers for the programs, pay TV will fail. That's the free enterprise way.

The public has been denied the opportunity to say whether it wants pay TV in the only meaningful way—by subscribing or refusing to accept the service. Now granting there is no last hour roadblock put in the way, the public will have an opportunity to exercise its free choice.

## Apollo 8 And Jules Verne

Readers of science fiction often point out that the writers of this type of material are remarkably accurate in their predictions of future happenings.

Several scientists have expressed admiration for Jules Verne, one of the real pioneers of the science fiction field. Among them is Andrew J. Galambos, who left a career in astrophysics to conduct his free

enterprise classes in Southern California.

In the wake of the Apollo 8 recent flight, some of Jules Verne's admirers are saying "So what was new about that?" National Observer the other day recalled some items from Verne's 1865 novel "From the Earth to the Moon."

In his story, Verne sent three men to the moon in a spaceship 12 feet high. Apollo 8's com-

**Value Showdown:**

Match these features against what competition gives you for the same kind of money, and you'll have a better idea why more people are buying Chevrolets again this year.

**Built-in "guard rails"**

There's a strong steel beam built into every door of every 1969 Caprice, Impala, Bel Air, Biscayne, Kingswood Estate Wagon, Kingswood, Townsman and Brookwood.

We call it a side guard beam, and it looks like one of those guard rails you see along the freeway.

Not a glamorous feature. But you'll have to admit, worthwhile.

**Computer-selected springs**

Maybe you'll order your new Chevy equipped to the hilt.

Or maybe you'll order it with hardly anything on it.

Either way, you're going to get your full measure of our renowned ride.

Because we go to the trouble of programming each car's equipment load into an electronic computer.

The computer then tells us exactly which springs to use, depending on the car's weight and the way it's distributed.

Chevrolet, the only car in its field with computer-selected springs.

**Fenders inside fenders**

We could have skipped this. (The other cars in our field do.) But we're as anxious as you

are to keep your beautiful new Chevy looking beautiful and new.

So, up inside the regular fenders we've placed a second set.

They do all the in-fighting. Catch all the splashed-up rain, slush and road salt. Stop the kicked-up stones.

While your "outers" just sit there looking pretty.

**Astro Ventilation**

The other two cars in our field give you air intakes down by the floor.

So do we.

We also give you two up on the instrument panel.

And all four of them are adjustable so you can regulate the flow of air just the way you like it.

Even with all the windows closed, you'll be comfortable inside. You get air without wind. Without noise.

Astro Ventilation is standard, now, on all the big Chevrolets.

**The theft-thwarter**

On the steering column there's a lock.

Only Chevrolet has it, in Chevrolet's field.

You turn the key and it locks three things: Your ignition. Your steering wheel. Your shift lever.

When you own a car this tempting, you don't dare take chances.

**Biggest standard V8 in our field**

Ask any car enthusiast, he'll tell you: Chevrolet builds great engines. Especially V8s.

And this year there are six great V8s available for the big Chevrolet. Standard: Our 235-hp 327-cubic-inch Turbo-Fire.

Another thing: We've lowered the price of several of our bigger V8s along with our automatic transmissions and power disc brakes. Which makes it possible for you to buy a '69 Chevrolet for even less money than you could last year.

Show up for our Showdown. You can't lose.

Putting you first, keeps us first.

CHEVROLET Chevrolet Value Showdown

**Television In Review**

By RICK DU BROW  
HOLLYWOOD (UPI)—It has been a week of fascinating tidbits in television.

For example, on the debut of ABC-TV's prime time game show, "The Generation Gap," a teen-age girl chose to answer the question: "What ocean liner just failed its trial run?"

"The Pueblo?" she said. Then there was NBC-TV's one-hour special about the renowned Yiddish writer, Sholom Aleichem, on whose works "Fiddler on the Roof" was based. It was a charming

program—but, of all things, it was presented on Friday night, the start of the Jewish Sabbath, when Orthodox members of the faith could not watch it.

**Major Special**

If memory serves me, another major special of particular interest to the Jewish population—"The Investigation About the Trial of World War II Concentration Camp Executioners"—was also presented on a Friday night.

NBC-TV, however, reran that play on another, more suitable day—and it would be a good idea if the network did the same with the Sholom Aleichem telecast.

Fascinating, too, was the haunting, exciting presence—and voice—of the Beatles' protegee, Mary Hopkin, as she sang "Those Were the Days" on the premiere of ABC-TV's Tom Jones series. This beautiful, talented girl was by far the highlight of the show.

Another ABC-TV debut, "What's It All About, World?," offered a smash performance by a nine-year-old girl, Bayn Johnson, who did a remarkable song-dance-and-comedy takeoff on Shirley Temple. A person who knows Miss Johnson maintains she has seen only one Shirley Temple movie—on television.

He asked Miss Johnson: "Did you like her?" and she answered: "No." In short, her coach is brilliant.

**New Plans**

Over at NBC-TV, meanwhile, it was announced that the network and Universal Studios are planning "to bring best-selling novels to television in a form faithful to the scope of the original books."

CBS-TV's News Department made some news too this week, indicating it is going to give NBC-TV's morning "Today" show more of a run for its money. Starting March 31, the "CBS morning news with Joseph Benti" will be an hour in length daily. "Today" is broadcast for two hours each day.

Finally, NBC-TV announced Wednesday that British playwright Harold Pinter will be the subject of an hour "experiment in television" program April 6. He will appear on the broadcast and offer comments on his ideas and methods.

**NEWS BRIEFS**

**BATTLE POLICE**  
RAWALPINDI, Pakistan (UPI)—College students in Sialkot, 130 miles south of Rawalpindi, battled police Wednesday in protest over government plans to merge five West Pakistan provinces under one administration. Shops were ransacked and the town marketplace littered in the melee, which left at least six youths injured.

Short Rips

"The 1968 football season was depressing. There was a new kind of pressure on us from July on. We wanted to win for Phil. And when we didn't we all felt miserable, like we had let him down."

WILLIE DAVIS, like other Green Bay Packers, has set his sight on a NFL championship in 1969. The Packer players feel like they let down their new head coach and vowed to do something about it.

## Pampa Faces Coronado Five

Pampa, faced with having to win 'em all or forget about it and Coronado, who's playing just for the fun of it, now meet at 8 p.m. tonight in Texas Tech Fieldhouse in a district 4-4A battle.

The Harvesters have to win tonight to stay in the running for the district title while Coronado at 3-4 in second half play is out of the running.

Pampa and Borger are both 6-1 in second half play and meet Tuesday night in Pampa. Tascosa, the first half winner is 5-2 in second half play and should Pampa win tonight and go on to beat Borger then the Harvesters will meet Tascosa for the district title.

Coronado, 17-15 for the season, pulled one of the big upsets of the season Tuesday when they handed Borger a 67-65 loss.

B teams from both schools meet in a 6:15 p.m. encounter

at Coronado gym. The Shockers will be after a 12-9 record.

In other district action tonight Palo Duro hosts Borger, Tascosa hosts Monterey, Amarillo plays at Caprock and Plainview is at Lubbock.

Pampa scored a narrow 65-59 victory over Coronado in the first meeting this season but had to come from behind in the final quarter. The Harvesters trailed the Mustangs at halftime and were down 51-48 after three periods of play.

The Harvesters will have to stop Coronado's David Marcell, Tom Malone and Chris Byler. The trio scored 23, 15 and 12 points respectively in the first meeting.

Marcell has a 13.6 district average and the 6-0 senior has 204 points while Malone, a 6-4 senior has a 12.0 average and Byler, another 6-4 senior has a 11.5 average.

### WOLF FLEAVES

NEW YORK (UPI) — Bob Wolff, director of public relations for Madison Square Garden, has left his post to become executive assistant to Irving Mitchell Felt, president and chairman of the Garden corporation.

**PURCHASE OUTFIELDER**  
ST. LOUIS (UPI)—The St. Louis Cardinals have purchased outfielder Byron Browne from the Oklahoma City farm club of the Houston Astros and assigned him to their Tulsa farm team.

Browne hit .238 with 10 home runs and 42 runs batted in last year at Oklahoma City.

### ORR TO RETURN

BOSTON (UPI)—Defenseman Bobby Orr, who suffered an injury on Jan. 30 to a knee operated on twice last summer, may return to the Boston lineup in 10 days, Bruin officials said Sunday.

## Pampa 8th, Lee Ninth Score Wins

Pampa Junior High eighth closed out its season the same way it started it, by winning, and Lee ninth did the same thing Thursday in games at Pampa Junior High gym.

Lee ended the 1968-69 basketball season with a 69-49 victory over Pampa Junior High ninth and the Reaper 8th graders won its 14th game without defeat, 36-17 over Lee eighth.

Pampa ninth ended the season with a very respectable 8-4 mark and Lee eighth finished at 9-3.

Lee took a 14-10 lead over the Reaper 9th after one period but trailed 24-23 at halftime. Larry Haynes jump shot at the buzzer gave Lee the lead back at 40-39 after three periods and Haynes then poured through five straight points to break the game open.

Haynes paced Lee with 15. Hogan had 13. Ammons 12. Edgar 11. Gamblin 5. Cain 3 and White 2.

For Pampa ninth Knutson had 12. Buntun and Ferguson had 10 each. Smith 8. Bradley and Hendricks five each.

Pampa eighth led 6-2, 18-8 and 28-11 at the close of the quarters.

Bill Lemons led the scoring with 12 points, Ricky Smith had 9. Fred Wilbon 7, Richard McCampbell 6 and Tim Holt 2. Rick McGuire led Lee with 5. Bloomer had 4, Bloomer 3, Lee and Simon, two each and Musgrave 1.

## Houston Rips St. Mary's for 91-70 Victory

By United Press International  
All the basketball action with Texas teams Thursday night involved Houston universities with the final score Houston 1, Invaders 1.

The University of Houston scored a smashing 91-70 victory over St. Mary's of San Antonio and Rice, of the Southwest Conference, was nosed out by Midwest powerhouse Dayton, 58-55.

The Owls saw their chance for the second consecutive upset go down the drain in the last 5:33 when the Dayton defense did not allow Rice a single point. With two minutes remaining, Dayton's Dan Sadtler scored a layup to put his team in front to stay, 56-55.

Jim Gottschall insured Dayton's 17th win in 21 games with two free throws in with three seconds left.

Greg Williams and Gary Reist, instrumental in Rice's stunning upset of Baylor Saturday, missed easy shots in the last minute of play.

On the other side of town, the Cougars led from the first scoring play of the game to wrap up their fifth straight win. The Houston height paved the way for the easy victory with the Cougars picking off 69 rebounds to 34 for the Rattlers.

Ollie Taylor led the Houston offensive attack with 23 points and brought the Cougar season record to 15-8 for the year. St. Mary's, 11-9 for the season but 7-0 in Big State Conference play, was paced by Robert LeGrand and Chuck Large with 16 points each.

UP AND AT 'EM — Richard Buntun (50) of Pampa Junior High and Marsh Gamblin (25) of Robert E. Lee ninth grade battle for a rebound in Lee's 69-49 victory Thursday.

## Jergensen Can't Wait To Play for Lombardi

NEW YORK (UPI)—Sonny Jurgensen can't wait.

"I'm ready to start tomorrow," he says.

Silly boy!  
He doesn't know what he's in for. Maybe he only thinks he's ready. Wait'll he gets a load of what it's like the first day under Vince Lombardi, a man who wasn't the least bit sensitive about taking the phrase "labor pains" out of obstetrics and putting it into football.

Sonny Jurgensen has a surprise in store for him that first day, already moved up by Lombardi. The same may be said for the rest of the Washington Redskins who haven't exactly led the league in living the spartan life. Up to now, anyway.

Some of the Green Bay Packers are thinking of getting up a pool. The winner would be the one coming closest to guessing the number of survivors after the Redskins' opening day of practice under Lombardi.

"At first they'll be afraid they're gonna die," laughs one Packer veteran. "Then they'll be afraid they won't."

How About September?

Forewarned is forearmed. Most Redskin players claim they know all about Lombardi and his methods. They quickly add they welcome The Great Healer, his bad tasting get-well medicine and all, but it still wouldn't be a bad idea to go back and ask them again sometime in September. If they're still there.

Jurgensen, one of the NFL's better passers, likes the good things in life the same way Joe Namath does. He has plenty of play-studying experience behind him but he can be sure Lombardi will see he gets more. Lombardi always spends extra time with his quarterbacks and

Jurgensen is looking forward to that.

"I've been playing 12 years now and my career is drawing to a close, but I'm happy to get an opportunity to play for a man like him," says the 34-year-old quarterback, who came to the Redskins from the Eagles five years ago.

"I know the type man he is; we all know. He doesn't stand for mistakes and that's the type man we need. Since I've been here we've continually beat ourselves. This is something Vince Lombardi doesn't stand for. He is a talented man and with his application to the game and his way of handling people, I think he's gonna make us a family. What's more, he's gonna make Washington a winner."

Many other Redskin players are beginning to believe the

same way as Jurgensen. Lombardi talked the only way he knew how, like a winner, as soon as he picked up the Redskins' reins and his optimism obviously spilled over to his players, most of whom he hasn't even spoken with yet. The Great Healer has administered the first shot and it seems to be taking beautifully. Trust him to begin working the vaccine into their bloodstream more vigorously the first time he has them all together and who knows, by next January people may be talking about the Redskins the same way they were about the Jets last January.

### More Changes Due

Lombardi already has made some changes and there'll be others, for sure. Right now the Redskins are loaded-down with slow-moving, lard-beamed linemen. How long do you think that's going to continue under Lombardi?

What happened to the Redskins in recent years actually was no one man's fault. It can't all be blamed on Lombardi's predecessor, Otto Graham.

"He gave 150 per cent," says Jurgensen. "He worked hard but he didn't have the necessary experience in professional football. He was a great player and a great leader of men but most of his coaching experience was with all-star teams. Washington needed a stronger hand."

It has one now.

## Phoenix Golf In 2nd Round, Seven in Lead

PHOENIX, Ariz. (UPI)—Youth and experience were matched today as seven golfers attempted to break a deadlock for the lead in the second round of the \$100,000 Phoenix Open.

Veterans Miller Barber, Billy Maxwell and Dutch Harrison led Thursday's first round to match the six-under-par 65s of youngsters John Jacobs, Terry Wilcox, Lee Elder and Larry Ziegler.

Barber and Maxwell had identical scores of 32-33 while the 58-year-old Harrison, who has been on their PGA tours since 1930, had a 33-32.

The younger golfers were more erratic but came through with some sensational spot performances including a hole-in-one by Wilcox.

Five hopefuls for the \$20,000 first prize were tied for second place, one stroke behind the leaders. They were Rod Funseth, winner of the 1965 tournament over this course, Frank Beard, Hugh Roper, Paul Harney and Jerry Barber.

Another stroke behind were defending champion George Knudson, Jim Wichers, Al Balding, Don January, Dean Beaman, Cesar Sanudo, Jerry Abbott, Lebron Harris, Jack Ewing and Martin Roeskin.

Following today's 18 holes, the field will be cut to the low 70 and ties.

## All-Sports Ducats on Sale Saturday

Pampa Harvester All-Sports banquet ducats go on sale Saturday at a cost of \$3 per person for the banquet and awards presentation or \$1.50 per person for the presentation.

The banquet is scheduled March 3 with Dallas Cowboy all-pro tackle Bob Lilly slated as guest speaker at the awards presentation slated in the high school auditorium.

The banquet itself will be held, starting at 6 p.m. in the high school cafeteria. The presentation is slated for 8 p.m.

Awards will be made to the Hustling Harvester, the Fighting Heart Award in football.

All Pampa athletes are invited to attend the affair. Tickets may be purchased at Tarpley Music Co., 119 N. Cuyler and Bill Harris Lincoln-Mercury, 833 W. Foster.

## Favorites In Big 10 Race Eye Pushovers

CHICAGO (UPI)—Pace-setting Purdue and challenging Ohio State get both the home floor edge and "pushover" opponents Saturday in their bid to continue as the front runners in the Big Ten basketball race.

Purdue will be at home to Wisconsin, victimized earlier by the Boiler-makers on the Badger court 86-80, and was a prohibitive choice to continue in first place in the league chase.

Ohio State, a game behind Purdue in the league standings with a 5-2 record compared to 6-1 for the Boiler-makers, was equally favored for its contest against Minnesota in the only meeting between the two teams this season.

Both Minnesota and Wisconsin have 3-5 conference records to share eighth place in the standing and each is 9-9 for the season compared to 13-4 for both Purdue and the Buckeyes.

What could be the best game of the day on a full conference slate will be on regional television, Illinois at Michigan State. The Illini are 4-3 in the conference and have the best record of any league team for the season compared to 3-4 in Big Ten play and 8-8 overall for Michigan State.

But the Spartans have been developing lately and defeated Michigan in their last start. The game was played on the Wolverine court, where Michigan bounced back after its loss to Michigan State to defeat Illinois in its last start.

Michigan, 10-8 for the year, travels to Iowa for another league game in which a first division berth will be at stake. Iowa is 10-6 for the season and 4-3 in Big Ten play compared to 4-4 for the Wolverines.

Indiana, 3-4 in the Big Ten and 8-9 overall, plays at Northwestern in the wrap-up game of the conference. The Wildcats are last in the league with a 2-5 record, with one of their losses coming on the Hoosier court, but have a 10-8 season mark.

TOKYO (UPI)—Japan's Shozō Saijyo retained his world featherweight crown Sunday by winning a unanimous 15-round decision over Pedro Gomez of Venezuela.

**RENDEZVOUS TODAY?**  
WASHINGTON (UPI) — The U.S. Coast Guard ice breaker Southwind was expected to rendezvous today with the Danish ship Thala Dan, trapped in the ice of the South Pole. The Danish ship, under charter

of the Australian government, became icebound last weekend when it attempted to reach an Australian scientific station on the Antarctic continent.

In 1886 the West Coast citrus industry was born as the first trainload of oranges left Los Angeles for eastern markets.

**SPEED READING COURSE SCHEDULED FOR PAMPA AREA**

Arrangements have been made to conduct a SPEED READING COURSE here in Pampa, to be taught in evening classes. The average person today reads between 150-300 words per minute and comprehends about 55 to 65 per cent. This course guarantees that its graduates will read at least 1,000 words per minute and with a marked improvement in comprehension. However, the spokesman said, "the guarantee is a bare minimum, because the average person can increase his speed TEN TIMES with a profound improvement in comprehension and concentration."

The average graduate of this course should be able to read 1,000 to 3,000 words per minute and attain the 80 percentile in comprehension. This means, after graduation, a person should read books of average length in 45 to 60 minutes and understand, enjoy, and remember them better than ever. Those who enroll will attend ONE CLASS PER WEEK, for NINE WEEKS and will receive a DIPLOMA upon completion.

Those who are interested in further details may attend one of the FREE, one hour, orientation lectures that have been scheduled. At these

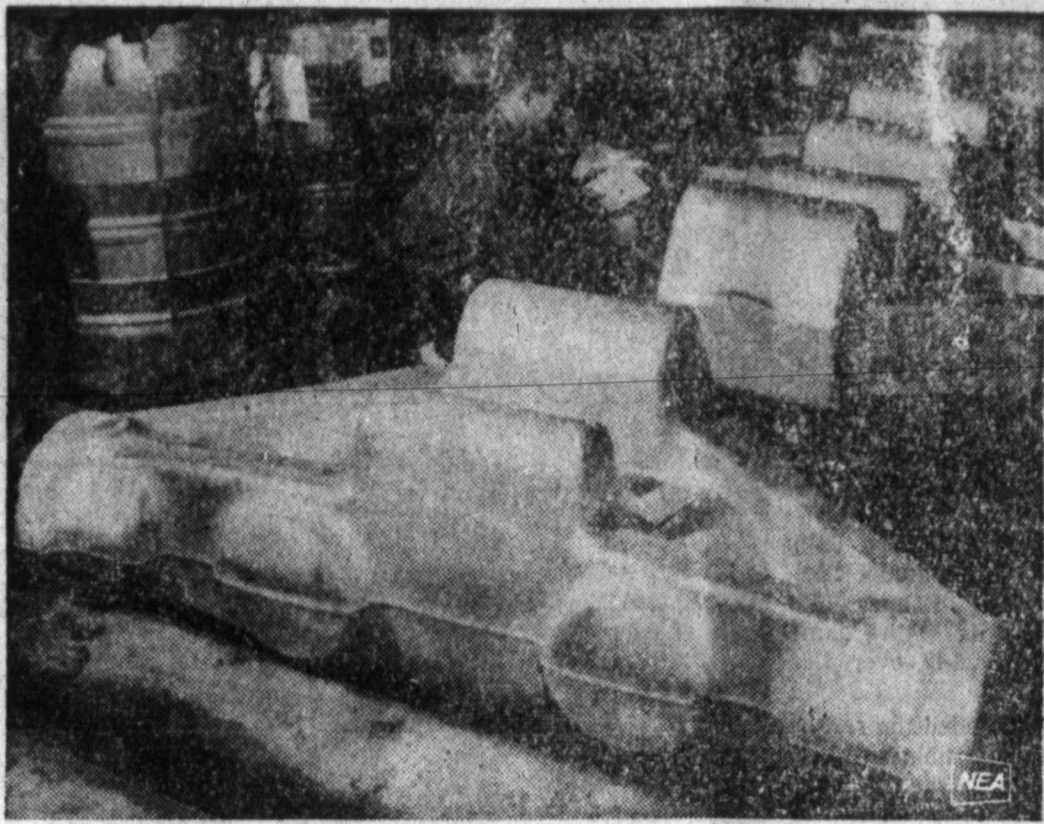

meetings the course will be explained in detail, including requirements, tuition, and class schedules. A person may attend one of these meetings without obligation to enroll.

These meetings will be conducted at the Emerald Room, Coronado Inn, Pampa, Texas, at the following times — p.m.; Fri. Feb. 14, 6:30 and 8:30 p.m.; Fri. Feb. 14, 6:30 to 8:30 p.m.; Sat. Feb. 15 10:30 a.m., 2:00 and 4:30 p.m.

This course offered by ACCELERATED EDUCATION SCHOOLS of Amarillo, was created by Dr. Wade E. Cutler, a Ph.D. of psychology and has nearly 10,000 successful graduates, including over 500 in the Golden Spread.

If you are a professional person, or a college student or a college-bound high school student and want to keep up with our rapidly changing world, be sure to attend one of these most informative meetings. There is no obligation. Classes are limited to 18 students and class places will be reserved on a first-come, first-serve basis only. Classes will start Feb. 20. Be sure to attend one of the early meetings for a wider schedule choice.

MAKE 1969 YOUR YEAR OF SUCCESS!  
Adv.

ALUMINUM "BONES" are parts for unusual knee joints that help the world's largest aircraft kneel to conquer distance between its cargo compartment and the ground. The 2,500-pound Alcoa forgings connect to landing gear systems of the C-5 Galaxy, allowing the huge ship to "kneel" and adjust its loading ramp to truck bed heights.

**Quotes From The News**

**By United Press International**  
WASHINGTON—Rep. H. R. Cross, R-Iowa, who opposed the congressional pay increases, relating the contents of a note he received wrapped together with an old shirt:

"Enclosed is the shirt right off my husband's back. Congress will get it sooner or later anyway."

**BLOOMINGTON, Minn.**—Joe Greeman, owner of a drug store, explaining why he decided to quit selling cigarettes:

"We had been preparing to do this for about two months, ever since our boys asked us why we sold tobacco if smoking is bad for health."

**WINDSOR, Conn.** — Town Clerk George Tudan, who has been giving out free marriages on St. Valentine's Day, expressing pride in the tradition he started 22 years ago:

"We've only had one divorce out of the whole bunch."

**WASHINGTON**—The wife of Sen. Richard S. Schweiker, R-Pa., defending her husband's favorable vote on the controversial congressional pay hike:

"I don't think people back home realize how much it costs to be in government. We have two homes to maintain, four children, and costs are high."

**Now You Know**

**By United Press International**  
St. Valentine's Day as a lovers' festival has no apparent relation to the saint or any incident in his life, but seems to be connected with the pagan Roman festival of the Lupercalia in mid-February.

**MOONSHINERS BUSY**  
WARSAW (UPI) — Alcohol consumption rose last year by eight per cent and a Polish newspaper said today much of it was moonshine. The paper, Gols Pracy, said police seized 30 illegal stills in Warsaw in 1968, almost twice as many as the year before.

**NEW YORK (UPI)**—Shearson, Hammill & Co. says an undercurrent of increasing firmness has developed in the market "as investors seemingly are waiting for some kind of excuse to buy stocks in quantity." While the tight money policy continues to be a negative factor in the market, the firm notes, it has also become an accepted fact of life to investors.

The firm observes that "chances are... the stock market will remain generally dull, with the averages settling down around current levels or a little lower, but without good reasons for running away in either direction."

Wright Investors' Service says it "continues to expect comparatively poor year-to-year quarterly earnings comparisons throughout 1969" for most corporations listed on the New York Stock Exchange. The market should adjust to this year's unfavorable earnings prospects within the next few months, thus providing seasoned investors "with a long-overdue opportunity to make new commitments at attractive prices," the firm adds.

W.E. Hutton & Co. points out that under the surface "there is a considerable amount of 'correction' going on in the area of last year's growth stocks, earlier conglomerate activity and other well-recognized excesses which always accumulate in a period of violent speculation." This the firm characterizes as an "anti-bullish" but not necessarily "bearish" factor.

**NEWS BRIEFS**  
**SEEKS COMPENSATION**  
ACCRA, Ghana (UPI)—Ghana will seek compensation from the Israeli government for damage to a Ghana Airlines plane during Israel's commando raid on Beirut Airport, External Affairs Ministry sources said Thursday.

The VC 10 jet, worth \$3.6 million, had been chartered by Middle East Airlines but was not insured against war risks. The airline refused to pay for damage to the plane on the grounds that Ghana was responsible for insurance.

**CONTROL RETURNED**  
WASHINGTON (UPI) — The Federal Communications Commission has approved Mrs. Lyndon B. Johnson's request for the return of the family broadcast interests to her control. The agency said it would allow control of Stations KTBC-TV, AM and FM, Austin, Tex., to return to the former first lady from the trustees who had operated them while her husband occupied the White House.

**"NO MOVEMENT"**  
WASHINGTON (UPI) — The State Department says there has been "no movement" toward a resumption of diplomatic relations between the United States and the United Arab Republic. The U.A.R. severed diplomatic relations with the United States during the 1967 Arab-Israeli war.

**On the Record**

**Admissions**  
Baby Boy Seitz, Spearman. Mrs. Georgia Hill, 1000 Darby. Key Joe Gow, 115 S. Cuyler. Myrtle Norman, 316 N. Gray. Thomas V. Parks, 516 E. Browning.

Mrs. Leona Pearl Allen, 1217 E. Kingsmill.  
Mrs. Wanda Delois Tigrett, 1008 S. Dwight.  
Thomas V. Parks, 516 E. Browning.  
Earl Murphy, 2207 Lynne St.  
Perry Neil Dyer, 1105 Huff rd.

**Dismissals**  
Mrs. Ruby Mae Combs, Lefors.  
Terry Hembree, 2129 Hamilton.  
Mrs. Lila Hibler, Wheeler.  
Mrs. Dena Southwood, Panhandle.

Mrs. Goldie Ebbitt, Panhandle.  
Mrs. Lorena McNaughton, 1305 Terrace.  
Mrs. Billie Ousley, 2228 N. Russell.  
Mrs. Helena Pool, 1836 Evergreen.  
Charlie Trantham, White Deer.

**CONGRATULATIONS:**  
To: Mr. & Mrs. David W. Seitz, Spearman, on the birth of a Boy at 2:46 a.m. weighing 7 lbs 10 oz.

**Wall Street Chatter**

NEW YORK (UPI)—Shearson, Hammill & Co. says an undercurrent of increasing firmness has developed in the market "as investors seemingly are waiting for some kind of excuse to buy stocks in quantity." WASHINGTON (UPI) — The State Department says there has been "no movement" toward a resumption of diplomatic relations between the United States and the United Arab Republic. The U.A.R. severed diplomatic relations with the United States during the 1967 Arab-Israeli war.

**Theft Reported**

A theft of articles valued at \$151 was reported to Pampa police Wednesday. William Finkbeiner, 2414 Alcock, told police he parked his car at a local grocery store. When he returned from buying groceries, a suit, pair of pants and a wool shirt were missing from the vehicle.

**Legal Publication**

**NOTICE TO BIDDERS**  
The City Commission of the City of Pampa, Texas will receive sealed bids in the City Commissioner's Room, City Hall, Pampa, Texas, until 8:30 A. M. C. S. T. Tuesday, March 11, 1969 for the following:  
2 - 125 H. P. Electric Replacement Submersible Pump Motors

Foreign News Commentary

By PHIL NEWSOM  
**UPI Foreign News Analyst**  
 Generalissimo Francisco Franco has called at least a temporary halt to the slow toward new freedoms.  
 Just how temporary will be seen at the end of three months when a "state of exception" granting Spanish police almost unlimited rights of search and seizure and imposing full censorship on Spanish newspapers is supposed to end.  
 Imposition of the state of exception, short of martial law and similar to a state of siege, followed months of mounting opposition to the Franco regime among students, workers and young Roman Catholic priests.  
**Church Sit-Ins**  
 In violent outbreaks, demonstrators have burned the Spanish flag, trampled the portrait of Franco, and even threatened to throw the rector of Barcelona University out of his office window.  
 Young priests have freely criticized the church hierarchy, demanded closer identification with underpaid workers and encouraged church sit-ins by the wives and relatives of workers jailed as political prisoners.  
 Leaders of labor groups within Catholic Action, a church-based lay organization, have charged that "Spanish workers are abandoned materially, culturally and spiritually" and have no other recourse than illegal strikes.  
 Workers and students alike have demanded their own "free" organization not under government control.  
 Imposition of the new government controls, while not unex-

**Quirks In The News**  
 By United Press International  
**ESCAPE ARTIST**  
 PHILADELPHIA (UPI)—Police today sought a narcotics suspect with skinny wrists and hands.  
 Lawrence Randolph, 35, was arrested around noon Wednesday and handcuffed to a bench in an anteroom at Narcotics Squad Headquarters pending questioning.  
 He was missing an hour later when detectives got around to him. Randolph had managed to slip out of handcuffs and escape.  
**SHOT AN ARROW...**  
 VERONA, Wis. (UPI)—A high school student has shot an arrow into a big black bird that had made diving runs on teenagers.  
 The bird turned out to be a large great horned owl with a wingspan of more than four feet. The bird was being checked for rabies.  
**QUIET WATCHDOG**  
 BRISTOL, England (UPI)—Thieves broke into a shop in

Bristol Wednesday, stole \$7,200 why the auto ride had been and escaped in the shop owner's car. In the back seat of the car was the owner's Alsatian watchdog.  
 The car was found deserted by the robbers about a mile away from the shop. The Alsatian watch dog was still quietly sitting in the back seat of the car, possibly wondering

In 1933 Michigan Gov. W.A. Dean Rusk said North Korea Comstock ordered an 8-day bank holiday to check a financial panic.

 KVII-TV

Washington Window

By FRANK ELEAZER  
**WASHINGTON (UPI)**—After the barest few weeks of teamwork, members of the 91st Congress and President Nixon have pretty well cleaned up the problem of inflation.  
 Now the lawmakers are off on a well-deserved 10-day vacation, and government-watchers here are confident they will return fit and rested to apply themselves with equal enthusiasm to the day's other crises.  
 Some people apparently haven't comprehended how neatly and efficiently they figured it out. At any rate, the lawmakers claim they haven't had much mail on the subject.  
 Here is the way it all works:  
**41 Per Cent Raise**  
 The congressmen will accept a 41 per cent pay raise, effective at once. That brings them up to \$42,500 a year, which should go at least part of the way to offset such rising legislative costs as that of lunch in the Capitol dining rooms, where as an economy measure the subsidies are being reduced.  
 Cabinet members have been raised from \$35,000 to \$60,000 a year; Federal District judges from \$30,000 to \$40,000 a year; and Supreme Court associate justices from \$39,500 to \$60,000 a year. It's hard to beat raises like that as a weapon to combat inflation.  
 Congress gave Nixon a 100 per cent boost, to \$200,000 a year.  
 Everybody agreed that wasn't enough, but it should help ease the pain of paying off all the mortgages the new President must have taken out on those Florida homes.  
 As for the rest of us taxpayers, the lawmakers gave us the chance to do our part against inflation by paying an extra 7½ per cent on top of our income taxes this April 15.  
**Drive Down Prices**  
 This takes out of circulation \$9 billion, and no telling how much that might drive down prices of all those cars, clothes, and other non-essentials we otherwise might have been tempted to buy.  
 (For next year they plan now to do even better by us. The temporary 10 per cent surtax they enacted last year, and that was effective only 9 months in

1968, will have to be continued, they say, and this time it will apply for the full year. That means we will be saved next time from throwing down the inflationary drain an even heftier wad of the green.)  
 Best of all, we have fit from President Nixon himself that raises like his and the others just passed around to hundreds of top government officials now may be within reach of us all.  
 Among his last acts former President Johnson left us under injunction not to ask for pay raises this year in excess of 5 per cent, or just about the amount of last year's cost-of-living increase.  
 Nixon, at his first press conference, repeated that restriction. He said guidelines like that just wouldn't work. He promised "fine tuning" of the economy as an alternative measure.  
 Looking back, it was all so simple the wonder is that nobody thought of it sooner.  
 In 1968 Secretary of State had rejected all efforts to negotiate the release of the Pueblo and its 82 crewmen.

WORLD ALMANAC FACTS

Musical instruments not only make beautiful sounds, they are objects of great beauty in themselves. The World Almanac notes. Look closely at a cello. Physicists can describe it as four catgut strings stretched the length of a carved wooden box, producing sound when scraped with a horsehair bow. But the cello's sound transcends its humble origin, just as its shape is something more than the sum of all its parts.

The Lighter Side

By DICK WEST

By DICK WEST

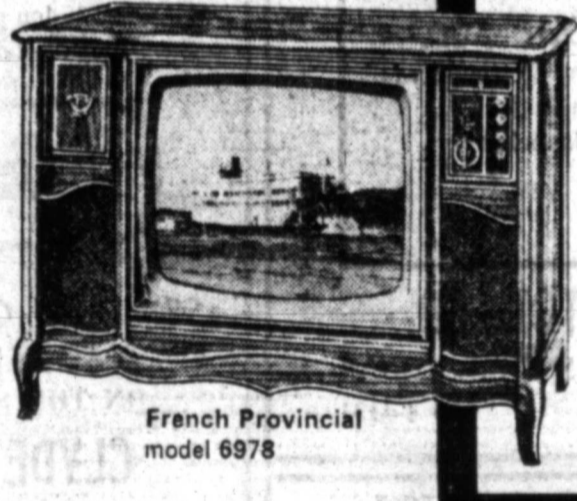

WASHINGTON (UPI)

Everyone knows that movies are becoming increasingly realistic, or at least more explicit, in their treatment of the classic theme of togetherness.  
 Time was when a movie ended with the hero embracing the heroine. Now a movie begins with a hero embracing another man's wife, and things grow progressively more "skiddoo" with each reel.  
 One of the major problems a director faces is devising new ways to photograph these coeducational activities. If he makes a love scene too graphic, two problems may arise:  
**Runs Into Trouble**  
 Either (1) he runs into censorship trouble, or 2 the scene strikes the audience as being comical rather than sexy.  
 Anyway, there recently fell into my hands a memorandum prepared for a film unit from Paramount that is now in South America shooting the final scenes of the motion picture version of "The Adventurers."  
 This picture, which is based on a best-selling novel about the jet set, is reported to establish a new track record for cinematic seductions.  
 The memo of which I speak explains how to film these goings-on in such a way as to avoid the aforementioned problems. Excerpts are offered below as a typical example of the modern movie maker's mind at work:  
**Typical Examples**  
 "Di Coyne's swimming pool—Dax and Caroline will start in kneeling position on a sun mat at edge of pool. This will be shot normally, but as they sink down on the mat for the sexy stuff we 'purple heart' it from there. ("Purple hearting" apparently is a camera trick that blurs the action.)  
 "Michelle's bedroom—Michelle and Dax making love—shot in distorted plastic mirror.  
 "Amparo's bedroom — Dax and Amparo making love out of focus with machine gun in foreground in focus."  
 "Deborah's suite—Dax and Deborah making love—almost a dream effect—shot normally, but optically printed 'has relief' or 'purple hearted.' The final colors to be bright orange and burnt out—effect of heat—dissolve to morning sun shining brightly through window.  
 "Hothouse—Dax and Sue Ann making love in midst of hot tropical flowers. Firework effect produced electrically for first part of scene. As love making warms up, we project zebra patterns on to the bodies during firework bursts."  
 "Dania Farkas' apartment—Dax and Dania making love. Shot normally using thin transparent dark brown sheets."
