

# Tears Flow Freely at Funeral of Young Boy

**By MIKE WESTER**  
**LUBBOCK, Tex. (UPI)**—Tears flowed freely from dozens of young Lubbock teen-age girls as the plain, bronze casket bearing the body of their former classmate was carried from the little brick church past them to the waiting white hearse.

They had just bid farewell to Donald Wayne Jackson, 16, a husky sophomore at Lubbock Monterey High School who was the 15th known lung transplant donor in the world. He was stricken suddenly during Easter Sunday services in Bula, Tex., about 45 miles northwest of Lubbock, and died two days later after having been kept "alive" for a jet flight to Houston.

The Lubbock youth, one of four children of Mr. and Mrs. Johnny Carl Jackson, was airlifted to St. Luke's Hospital by private jet Tuesday night as a possible donee for a heart transplant. But his heart did not match any of the potential candidates and he was transferred to Methodist Hospital where tests showed blood and tissue matched with a man needing a lung.

Meanwhile, in Houston the man to whom the boy gave life, Joe A. Bunch, of San Angelo, was reported in "satisfactory" condition by the hospital. Jackson had been a regular at school and church before the Easter holiday break, and none of his classmates knew he was sick. He developed a blood clot at the base of the brain during church services, and was rushed to a Lubbock hospital unconscious.

A spokesman for the hospital said he never regained consciousness, and "for all practical purposes was dead when wheeled out of here Tuesday for the flight to Houston." The spokesman said, however, that special equipment kept him "alive" until tests could be run in Houston and the transplant was performed immediately following death.

Almost unnoticed at the funeral Thursday was an older brother, Stephen, who served as one of the six pallbearers from among friends at school. The Rev. R. L. Porter, pastor of Antioch Baptist Church in southeast Lubbock where Jackson attended services regularly, eulogized him in a 20-minute service attended by the family and close friends.

Almost 400 persons crowded into the small church as Porter spoke on "words of life of which he got the most out of." Porter said to "say farewell is the hardest task we must face, but I know Donnie got the most out of his 16 years here on earth."

"Whenever we add to the powers of government, or permit them to grow, our freedom is by that much lessened."  
 —Faith and Freedom

### AFB Members Praised for Realistic Views

Congressman Bob Price praised American Farm-Bureau members for a "realistic" approach to the farm problem in remarks before a group of them here this morning.

Price quoted the late Henry Wallace, who was Vice President under Franklin D. Roosevelt, as saying that "the American farm problem was insoluble. Despite the best efforts of some of the country's most knowledgeable experts, Wallace contended, "nothing had been evolved to make agriculture a valuable enterprise."

"And that is certainly true today," Price said, "when the economic situation of American farmers is the worst since the great depression."

"But I believe," Price added, "that both President Nixon and Secretary of Agriculture Hardin understand the urgent and vital need of a substantial increase in farm income and that agriculture will be restored to a sound economic basis."

The bill sponsored by the Farm Bureau would phase out, during a 5-year transitional period, all acreage controls but a base acreages, marketing quotas, processing taxes, and direct payments for wheat, feed grains and cotton.

During the phase out period, direct payments for commodity programs would be reduced each year beginning in 1971 to 80 per cent of the amount spent on 1969 crops and then drop another 20 percent each year.

The plan would continue the crop land adjustment program with amendments which would require the program to be operated on a competitive bid basis with emphasis on whole farms and would require retirement of at least 10 million acres per year for each of the five years of the program.

The Secretary of Agriculture would announce in advance the maximum acreage to be contracted each year and then if the allowed acreage was not bid in, higher bidders could be offered the opportunity to negotiate contracts at the accepted bid level.

Loan rates for basic commodities would be set at not more than 85 percent of the previous three-year average price and sale of CCC stocks would be pegged at 150 per cent of current loan rate.

Special provisions in the proposed plan would compensate farmers with lower incomes for acreage allotments (See MEMBERS, Page 3)

### US Congressmen Visit Soviet Occupied Czechs

**PRAGUE (UPI)**—Fourteen U.S. congressmen came to Soviet-occupied Czechoslovakia today, expressing hope that Czechoslovaks would soon enjoy freedom as Americans do.

The U.S. delegation, headed by Sen. John J. Sparkman, D-Ala., was invited to Prague for one day by the national parliament.

The nine senators and five representatives came in a U.S. Air Force plane from Vienna, where they were attending an international parliamentary meeting. They were to return there tonight.

"People of America prize freedom," said Sen. Strom Thurmond, R-S.C., when the delegation arrived. "We hope to see the people of Czechoslovakia allowed a greater measure of freedom so they can enjoy freedom as we do."

Sen. Ralph W. Yarborough, D-Tex., said he was a soldier with the U.S. 97th Infantry Division the last time he was in Prague in May, 1945.

"We had to shoot our way in then," he said. "We drove the Nazis back to Pilsen." Thurmond said he also had been here with U.S. forces during World War II.

Sparkman said the delegation came to Prague for a friendly visit rather than a fact-finding mission.

In response to a question, Sparkman said the United States still had under consideration a Czechoslovak demand for the return of gold confiscated from the Nazis here during World War II.

The visit of the congressional delegation failed to divert attention, however, from a new problem facing Czechoslovakia—soaring prices.

Other members of the congressional delegation were Sens. Gordon Allott, D-Colo.; Birch Bay, D-Ind.; B. Everett Jordan, D-N.C.; Charles Mathias Jr., R-Md.; Hugh Scott, R-Pa., and Harrison Williams Jr., D-N.J., and Reps. E. Ross Adair, R-Ind.; Edward J. Derwinski, R-Ill.; John Jarman, D-Okla.; Alexander Pirnie, R-N.Y., and W. R. Poage, D-Tex.

The trade union weekly, buying rush touched off by the announcement of government plans to increase prices.

### Storm Rips Through Odessa

**ODESSA, Tex. (UPI)**—High winds, heavy hail and rain slashed through the western edge of Odessa early today, smashing windows, overturning mobile homes and ripping the roof from at least one building.

No one was reported seriously injured. A spokesman at the Odessa Police Department said there was no confirmation that the winds came from a tornado, but persons in the damaged area said they believed a funnel cloud had moved over the area. Hail, up to three and four inches deep in places covered the ground in the aftermath of the violent windstorm.

ROLLIN' DOWN the river are these two youngsters, taking advantage of warm, spring-like weather to prove there's still a little Tom Sawyer in every boy.

### Houston 'Mother' of 59 Receives Pin for Help

**By United Press International**  
 Those who can, do; those who can't teach.

This idea received a set back to the days before student protests in Mission, Tex., when coach Jim Gray, the Mission High School golf instructor, abolished the "Do as I say, not as I do" rule.

Gray took his young charges this week to the Shary Municipal Golf Course and began to instruct them in the use of the five iron.

The lecture ended and practical demonstration began. Gray placed the ball on the tee, lifted it skyward with his sure stroke and sailed it 165 yards right smack into the cup for a hole in one.

Gray has decided to pass up this year's Masters Tournament which is good news to the Arnold Palmers, Billy Caspers and Lee Trevinos in Augusta, Ga., as well as students in Mission, but it was not the only piece of good news in Texas this week.

#### MRS. ROBINSON

Mrs. John Robinson, a Houston mother with 59 children, was commended this week.

Of course, not all these children are Mrs. Robinson's—in fact none of the children are hers by birth.

If it comes from a Hdwe. store we have it, Lewis Hdwe. (adv.)

Mrs. Robinson for the past 20 years has been a foster mother to these 59 children of all ages. For her work during the past two decades she received a diamond pin this week by a United Fund Agency.

**DREAM COMES TRUE**  
 Mrs. Frank Reed has dreamed of becoming a nurse for as long as she could remember and her dream appears to be coming true—after a 13-year delay.

Mrs. Reed temporarily put aside her dream when she married. But 10 years and four children later, the Austin housewife discarded her apron to work as a nurse's aide at St.

ton Hospital. Officials there said she proved a star pupil over the past three years.

Now, with the help of a scholarship from the Seton Ladies Auxiliary, Mrs. Reed is enrolled in the hospital's nursing school and is on her way at last to becoming a registered nurse.

It has probably happened to many persons—those "gifts" that come in the mail. Gifts that were never ordered.

They look nice at first, but then comes the bill asking for \$\$\$ for the "gifts."

### Rush Is On To Beat Tax Deadline

**WASHINGTON (UPI)**—This weekend about eight million Americans will engage in one of the traditional rites of spring—trying to beat the April 15 deadline for filing income tax returns.

The U.S. Internal Revenue Service (IRS) warns this last minute rush results in delayed refunds and sometimes costly mistakes in figuring out taxes owed. The task is complicated further this year by the need to figure out what the new 10 percent tax surcharge will cost.

IRS officials say that despite warnings and pleas to file early, April 1 brought the customary flood of returns. The heaviest per day load is still to come.

In 1968 nearly half of the 83.5 million returns filed arrived at IRS offices around the nation between April 1-15.

So far, the trend for 1969 is right in line with previous years, the IRS said. As of April 4, about 45 million returns had been filed. Of these, 27.5 million will get refunds totaling \$5.4 million.

At the same point in 1968 there were 29.6 million returns filed with \$5.3 million due in refunds.

For those still sweating out the chore of paying Uncle Sam his share for last year, the IRS cautions tax filers to use extra care in their calculations as the hour of midnight, April 15 draws near.

The most common errors in making out a tax form are either mathematical or just plain omitting an item altogether.

If a taxpayer files his return and then realizes he has made a mistake, the IRS has a special form called 1040-X available for corrections.

### Rampaging Rivers Hit 4 Midwestern States

**By United Press International**  
 At Sioux Falls, S.D., they watched warily for sand boils; at Humboldt, Iowa, they thought about rationing water and at LaCrosse, Wis., they prepared for a flood today.

At Cherokee, Iowa, flood watchers were smiling—they thought they've seen the worst this year.

More than 3,500 persons had abandoned their homes to rampaging rivers in four Midwestern states and more were leaving daily. A major trek was expected during the coming week in southeastern Minnesota as the Minnesota and Mississippi Rivers begin major flooding.

**All-Night Fight**  
 Army engineers, Civil Defense workers and other volunteers worked through the night at Sioux Falls trying to save 50 homes, several small businesses, the John Morrell and Co. meat packing plant and the Sioux Falls stockyards, one of the major Midwestern stockyards.

Working at night, officials said they could not tell what condition the dike was in and waited until later today to probe the dike for weaknesses, caused by sand boils. The dike nearly gave way Thursday and workers had to labor feverishly to reinforce it.

Weather woes of a different sort lashed the southwest. A severe wind and hailstorm lashed Jal, N.M., blowing down power lines, uprooting trees and damaging a drive-in theater.

Hail the size of golf balls accompanied a violent thunderstorm near Andrews in west Texas. Otherwise, the nation's adverse weather was confined to rain in the Atlantic states and northern Rockies.

The west fork of the Des Moines River, already slightly over flood stage at Humboldt, Iowa, is expected to rise six feet higher by early next week. The superintendent of the water plant said Thursday that when the river rose two more feet, motors would have to be removed from the water plant and the water rationed for the community of 5,000 persons.

But 100 residents at Cherokee, Iowa, on the banks of the Little

Mississippi, Lacrosse, Wis., watched for a flood today.

No evacuations have been reported in Wisconsin, but 40 have been evacuated in North Dakota and more than 1,500 in South Dakota where Gov. Frank Farrar has asked for a federal disaster declaration for five counties.

**Cooley Says Federal Probe A 'Witch Hunt'**  
 BALTIMORE (UPI)—Heart surgeon Dr. Denton A. Cooley of Houston said Thursday reports of a "federal investigation" into his implanting an artificial heart were a "witch hunt."

Cooley told the Maryland Medical Society reports of a "routine" probe had been exaggerated. He said "moral, religious, and ethical objections to heart transplants are without any basis, and... hammering research and progress. This is no time for a witch hunt."

### City Police Turn Cowboy to Roundup Cattle

Not at home on the range but roaming North Somerville and Hobart streets at an early hour today were seven steers from the herd belonging to Jim Campbell, 923 W. Harvester. The herd was converging on Coronado Inn when Assistant Police Chief George Wallace and other local cowboys managed to round them up.

"We just took a pickup and a car and pushed them outside the city limits," Wallace said.

"This has happened before," he added.

### 15 Die in Viet Cong Shelling

#### 105 Wounded in Vinh Long

**SAIGON (UPI)**—A barrage of Viet Cong mortar shells slammed into Vinh Long City in the Mekong Delta today, killing 15 persons and wounding 105, South Vietnamese spokesmen said.

More than 100 rounds exploded before dawn in the city's marketplace, an area packed with shoppers and trading booths during the day and with sleeping civilians at night.

Initial reports said most of the dead and 92 of the wounded were civilians. The rest were South Vietnamese soldiers.

It was one of at least 32 overnight shellings across South Vietnam—the most in any night in the past 15 days.

**One Of Three Cities Hit**  
 Vinh Long, a province capital 70 miles southwest of Saigon, was one of three Mekong Delta cities hit in the overnight shelling. At My Tho, the

SEARCHING THE shore for enemy snipers a patrol boat is silhouetted in South Vietnam, one of the many responsibilities of Navy river boats.

## Highlights and Sidelights From Your State Capitol

By VERN SANFORD

AUSTIN — Gov. Preston Smith's first-state tax program fared unexpectedly well in its initial legislative test.  
 Anguished cries were raised at a House Revenue and Tax Committee hearing by beer, cigarette, coin-operated laundry and cable television interests at sections of a \$175 million revenue bill directly affecting them.  
 Of the four, however, the coin laundries appeared to make the most impression on the Committee.  
 Surprisingly, not a witness appeared against Smith's proposal, contained in a separate bill, to place a \$10 state sur-tax on moving traffic violations. He estimated that would raise \$38.5 million.  
 Also, it was a surprise that regular laundry, cleaning, dyeing, parking, repair and machinery rental concerns remained silent. This since they, too, would go under the three percent state sales tax if Smith has his way. Naturally, this may or may not indicate

consent. Extending the sales tax to include them would raise an additional \$57.8 million during the next two years.  
 Cigarette distributors claimed that the \$71 million bite they would suffer, if the per-pack tax is raised another four cents to a total of 15 cents, would drive away smokers and might result in a loss of state revenue. They also claimed that Smith's \$6 million tax addition for cigars and other tobacco products would lower consumption and virtually kill the Texas cigar business.

Beer industry spokesmen centered their attack on fact that they already pay \$4.30 a barrel in state taxes, which is far more than most big beer-producing states charge.  
 Coin laundries argued they had no way to collect a sales tax in their washing machines' nickel, dime and quarter slots and therefore would have to have their machines revamped, at great cost, to take in pennies.  
 Cable TV spokesmen made no impression at all with their argument of discrimination. Smith's proposed one half of

one per cent chemical products tax is expected to draw heavy fire from that industry in an April 16 hearing.  
 Floor vote on the tax bill is expected to be delayed about three weeks.

**WELFARE — DEMANDS GROW** — Texans will be asked again — and again and again, if necessary — to increase or do away with the constitutional ceiling on state public-assistance grants to the needy, commonly called "welfare".  
 And they'll get their chance sooner than they think. Speaker Gus Mutscher and Lt. Gov. Ben Barnes have agreed to ask the Legislature to call a special election for Aug. 5 to vote on at least five proposed constitutional amendments... and possibly eight.

In addition to expressing their views on increasing welfare funds, voters would give their views on providing death and disability benefits to volunteer firemen; the 3.5 billion Texas Water Plan; removing the constitutional interest-rate maximum on five types of bonds; and authorizing \$200 million more in bonds to finance the Texas Opportunity Plan of college-student loans.

Prime emergency is in the "welfare" situation. Texas' program of minimal assistance to families with dependent children is growing thinner and thinner because of the constitutional spending limit of \$60 million.

Aid to Families with Dependents (AFDC) now gets \$6.15 million of that \$60 million. But grants to individual families are going down because of increases in the number of families applying.

These increases are due to court decisions broadening the program; a Medicaid requirement that applicants for that program be on welfare; and poverty workers informing poor people of their right to AFDC.

In September the Department of Public Welfare had to cut maximum grants for a family with four or more dependent children from \$135 a month to \$123. Another cut scheduled for May will reduce the benefits paid 8,243 families and will eliminate from the program another 2,470.

In 1967, the Legislature proposed raising the ceiling from \$60 million to \$75 million, but the voters defeated the proposition.

**CONSTITUTIONAL AMENDMENTS COST** — An argument often offered by a legislator trying to defeat a proposed constitutional amendment is the "high cost" of advertising it to enlighten voters.

According to records in the office of the Secretary of State, the total cost of advertising 14 constitutional amendments proposed to Texas voters on the 1968 general election ballot in 243 newspapers was \$247,346. That averages out at only \$17.67 per amendment, or \$72.70 per newspaper.

**LEGISLATIVE PROGRESS** — Legislative pace slowed last week as lawmakers devoted Monday to eulogizing the late President Eisenhower, and took off at mid-week for an Easter holiday.

House education sub-committee after hearings which drew the largest attendance of session.  
**APPOINTMENTS** — Dewitt C. Greer, who retired last year as chief highway engineer and was appointed to the Texas Highway Commission by Gov. Smith, has been named chairman.  
 Mrs. Anne B. Marley of Austin is Texas' new poet laureate. Mrs. Robby Koons

House also approved a resolution for an August vote on removing obsolete provisions from the State's constitution. Later, representatives passed a bill to create a University of Texas at Dallas.  
 Senate again took the workload prize. Among 45 bills it passed in a single day was a controversial measure to restore union bargaining rights of city bus company employees when taken under municipal control. Senate also advanced key measures to implement water development plans, voted to raise retirement benefits of elective state officials 50 percent and provided procedures for prosecution of corporations as waterair polluters.

Gov. Smith signed into law numerous measures, including state aid for relocating property owners displaced by highway right-of-way buying, expanding home-state tuition benefits for dependents of military personnel, and establishing a separate commission for vocational rehabilitation services.  
 Senate education committee approved a \$220 million teacher

pay raise bill. But the same measure was deluged to a House education sub-committee after hearings which drew the largest attendance of session.  
**APPOINTMENTS** — Dewitt C. Greer, who retired last year as chief highway engineer and was appointed to the Texas Highway Commission by Gov. Smith, has been named chairman.  
 Mrs. Anne B. Marley of Austin is Texas' new poet laureate. Mrs. Robby Koons Mitchell will take over the job next year.  
 Joe Burket Jr. of Kerrville took the oath of office as a member of the Liquor Control Board.  
 E. G. Schuhart of Dalhart has been designated a member of Texas Agriculture Stabilization and Conservation Service Committee.  
 Smith named 43 to membership on Interstate Compact Commission Committee.

Mormons To Hear Elder Sill At Conference In Lubbock

ELDER STERLING SILL, assistant to Twelve

Elder Sterling W. Sill, an assistant to the Council of Twelve of The Church of Jesus Christ of Latter-day Saints (Mormon) will speak at the Texas North Stake (diocese) Conference Saturday and Sunday, April 12 and 13, in Lubbock.

For outstanding services performed during that time, he was awarded an honorary Doctor of Laws degree by the University of Utah. He is a former bishop and stake high council member.

The conference session will be held Sunday at 10 a.m. in the Stake Center, 3211 58th Street. Stake president Franklin S. Gonzales says visitors are welcome.

Downing Sets Sunday Sermon

The Rev. Carlton S. Downing will deliver the message for the morning worship hour Sunday at First Christian Church. He will be joined at the Lecture by the Rev. J. W. Duke, The Choir, under the direction of Mrs. John Gill and accompanied by Mrs. Dan King, will present the Anthem.

Snack Supper will be held at 5:30 p.m. with evening youth groups at 6 p.m., followed by the CLC sessions at 7 p.m.

The B&PW Christian Women's Fellowship Group will meet on Monday evening at the church with Mrs. Helen Sprinkle as hostess.

The General CWF will meet on Wednesday at 9:30 a.m. in the Fellowship Hall for a brunch. This meeting will be the installation of the new officers for the group.

The Christian Men's Fellowship, with W. R. Harden as chairman, will meet on Thursday at 7 p.m. All of the men of the church are urged to attend.

Bayless To Talk On 'A New Man'

Dr. C. Gordon Bayless, former pastor of the First Baptist Church, will be in the pulpit for both worship services Sunday. At the 11 a.m. worship, he will speak on the topic, "A New Man."

Roy Kornezay, minister of education, will direct the congregational singing and present the church choir in singing the anthem, "This is My Father's World" by Sheppard. Miss Eloise Lane, organist, will play "Adagio" by Franck for the offertory.

"Overcoming Religious Dependency" is the subject Dr. Bayless has chosen for his 7 p.m. worship sermon. The Youth Choir will occupy the choir loft and sing special music under the direction of Kornezay. The organ offertory selection chosen by Miss Lane is "Offertory" by Thompson.

The pastor, Rev. Dan B. Cameron, is in Memphis, Tenn., in revival with the Fairlawn Baptist Church.

Scientists To View Sin, Disease, Death

"Are Sin, Disease and Death Real?" is the subject of this week's Bible Lesson-Sermon to be heard at 11 a.m. Sunday at First Church of Christ, Scientists.

A verse from Job, included in the lesson, states that God "will not afflict." A related passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy says: "The humble Nazarene overthrew the supposition that sin, sickness, and death have power. He proved them powerless."

PAT ENTERTAINS

WASHINGTON (UPI)—Pat Nixon entertained the wives of North Atlantic Treaty Organization foreign ministers Thursday and discovered she knew more than half of them personally. Mrs. Nixon received her guests in the Green Room of the White House and later joined them in the state dining room for tea and cakes. Earlier in the day, Mrs. Nixon went to hear her husband deliver a major address at the NATO meeting.

Spurrllows To Appear At First Baptist

The Spurrllows with Gary Mullin SING A NEW SONG Orchestra Men's Glee Club A Cappella Chorus with Featured Soloists

The "hippie look" with its generally sloppy dress and poor grooming — is affecting the majority of today's high school students to some degree and is likely to make even further inroads among the nation's teens.

"This is the view of The Spurrllows, a group of musical young people, most of whom are in their teens and who, during the course of a year, see and talk to thousands of high school students.

The Spurrllows this year will put on more than 600 high school assembly programs and concerts in public halls and churches. They will be in contact with more than a half million youngsters.

The Spurrllows are appearing in concert in Pampa at the First Baptist Church on Sunday, April 20 at 7 p.m.

"Seventy per cent of high school students we see during the course of a nine-month tour now follow the hippie look to some degree," says Michael Eaton, 25, of Miami, a veteran with the Spurrllows.

Why is it so popular? "Some students," Eaton adds, "have told me that 'while the war in Viet Nam is on and the impoverished are suffering all over the world, why should I comb or cut my hair?' They say that in the light of all the serious problems facing young people, it's hypocritical to be vain about your appearance."

Yet many young people, even those who sympathize with the views of hippies, remain vain enough to care about the appearance of some parts of their anatomy.

"Diet pills are the dominant thing in the lives of most high school girls," says Marva Walters, 20, a member of The Spurrllows from Phoenix, Ariz. "Even the hippies make more attempts than they will admit to stay slim. It may be that they don't want to appear too well fed."

About half of all high school males, moreover, use grooming aids, including hair spray. The Spurrllows have found. The girls they date don't regard this tendency on the part of boys to use cosmetics as sissy or feminine.

Schools Have Overreacted To Rulings About Religion

By LOUIS CASSELS United Press International Public school officials in thousands of American communities have overreacted to the Supreme Court's 1963 ruling on classroom religious exercises. They have interpreted it as a ban on prayer and Bible reading.

It is not, and never was intended to be. The court went out of its way to make that clear. All that it held unconstitutional was the formerly widespread practice of starting each school day with a mini-worship service, which typically included a devotional reading from the scriptures and unison recitation of the Lord's Prayer.

Infringed Liberty This practice, the court said, infringed religious liberty and transgressed the line of separation between church and state drawn by the First Amendment to the Constitution. Despite the care with which the court formulated its ruling, one still hears—even from school officials—the preposterous statement that it's now unconstitutional for children to pray or read the Bible while they're on school property.

In an effort to clear up such misconceptions, Oregon's state superintendent of education, Dale Parnell, has issued a set of guidelines for public school officials in his state. They are clear, sensible and entirely in accord with the spirit and letter of the Supreme Court ruling. They could become a model for similar action by other state Departments of Education.

Here are the Oregon guidelines with some parenthetical comments by this reporter: Religion Is Factor 1. The teaching of religion is to be distinguished from teaching factually and objectively about religion. Religion is often a factor to be considered in history, art, literature and music. Religious holidays such as Hanukkah, Christmas, Passover, etc., should be explained to students.

2. Instruction in morality, ethics and values is encouraged, but instruction shall not resort to partisan religious sanctions.

3. Bible reading for historical or literary instructional purposes is encouraged, but it is improper to require prayers in classes or assemblies, to say grace before meals or to distribute to individual students religious literature on school property for any purpose other than for clearly identified school curriculum purposes. (The Supreme Court explicitly recommended that public schools offer objective courses in biblical literature and religious history, and a few already are doing so.)

4. School books, films, newspapers, bulletins or public address systems shall not be used to promote or encourage nonreligion, partisan religion, partisan religious viewpoints, religious groups or partisan religious activities.

5. School choruses, bands and orchestras may accept occasional invitations to perform at nonschool religious functions only on condition that any member of the group may be excused without penalty of any sort at his request.

6. No public school funds, property or other facilities shall be used for devotional display of religious symbols. (Christmas creches are fine for Christian homes, out of place in a tax-supported school educating children of many faiths.)

7. Religious baccalaureate services shall not be required school activity. Student representatives of graduating classes desiring to have a baccalaureate service may arrange with a clergyman for his services and for suitable facilities. (This disposes of the nonsensical idea—now prevalent in many communities—that the court "outlawed" baccalaureate services.)

8. A pupil's religious belief shall be honored by excusing him at his or his parents' request from school on his own religious holidays.

their hair than having it greasy. They think it shows class.

The radical changes in teens' dress and grooming which tend to shock their parents' generation are efforts to show their own individuality in an age that demands increasing conformity, according to Dave Williamson, 19, of Oakland, California.

"Only a few years ago the trend was to conform to others in every way. Now the kids change things as a declaration of what they want to be as individuals. They want to identify themselves by the way they dress," he said.

The Spurrllows (the name is coined from that of the group's founder and director, Thurlow Spurr) do three types of concerts in their national tours: (a) "O Sing Unto The Lord," a program designed for presentation in any traditional church setting; (b) "Splendor of Sacred Song," a production featuring stereo sound, costumes and special lighting effects, in addition to a wide variety of sacred musical selections; and (c) "Music for Modern Americans," a popular musical revue for high school assemblies.

The program at First Baptist Church will feature a cappella chorus, brass choir, men's glee club, plus a versatile blending of vocal and instrumental quartets, trios, duos and solos, and a message by Thurlow Spurr.

Quartet To Appear The Vanguard Quartet, of Tulsa, Okla., will appear at the Lamar Full Gospel Assembly April 13 at 9:45 a.m. There also will be afternoon singing.

A fellowship luncheon will be held at the church.

Church of Christ Has Minister

Wayne Lemons, evangelist, will serve as the new minister for the Oklahoma St. Church of Christ.

Lemons and his family formerly lived in Wellington, Tex., where he served as minister of the Fort Worth Street Church of Christ. Prior to that, he served with the Union Church of Christ, Longview.

ASK HELP WASHINGTON (UPI)—Sen. George S. McGovern, D-S.D., is asking the public for \$200,000 in contributions to help finance the Democratic Party Reform Commission. The Democratic National Committee put up \$75,000 for the commission, but McGovern, its chairman, said this would cover only the salary of the Washington office.

McGovern wants to hold hearings outside Washington so that "rank and file people are heard in support of political reform."

DEATH TOLL DOTTIKON, Switzerland (UPI)—Police said today the death toll had reached 17 in an explosion that wrecked an explosives factory. A police explosives expert said nearly five tons of TNT blew up, flattening a quarter-mile of an industrial area and causing damage totaling \$1.8 million.

## Attend The Church Of Your Choice

# The Weekly Message Of Inspiration

**WAYNE LEMONS**  
Oklahoma Church of Christ  
**(GO TEACH)**  
(Matt-28: 19: 20)  
Let us Inquire.

### WHO SHOULD TEACH?

Men, the seventy whom the Master sent forth. Twelve Apostles were men. The Elders of the Church are men.  
(Women (Titus: 2 3-5; Acts - 18-24-26) when Paul said I suffer not a woman to teach (1-Tim-2-11) he did not mean to silence her in any place except the assembly. All of Christ's disciples — those who have been taught, those who possess valuable information are duty bound to impart it to others. Knowledge is not only a blessing but a responsibility.  
(Acts-8-4)

### WHOM TEACH?

The one for whose existence we are responsible. (Deut 6-4-9; Eph-6-4) our neighbor's children. Youth is the plastic period, because of this experience. We owe Youth a debt which we owe no other. we owe no other.  
All nations? This includes people of every race, of every class, of every moral condition, of every age.

### HOW TEACH?

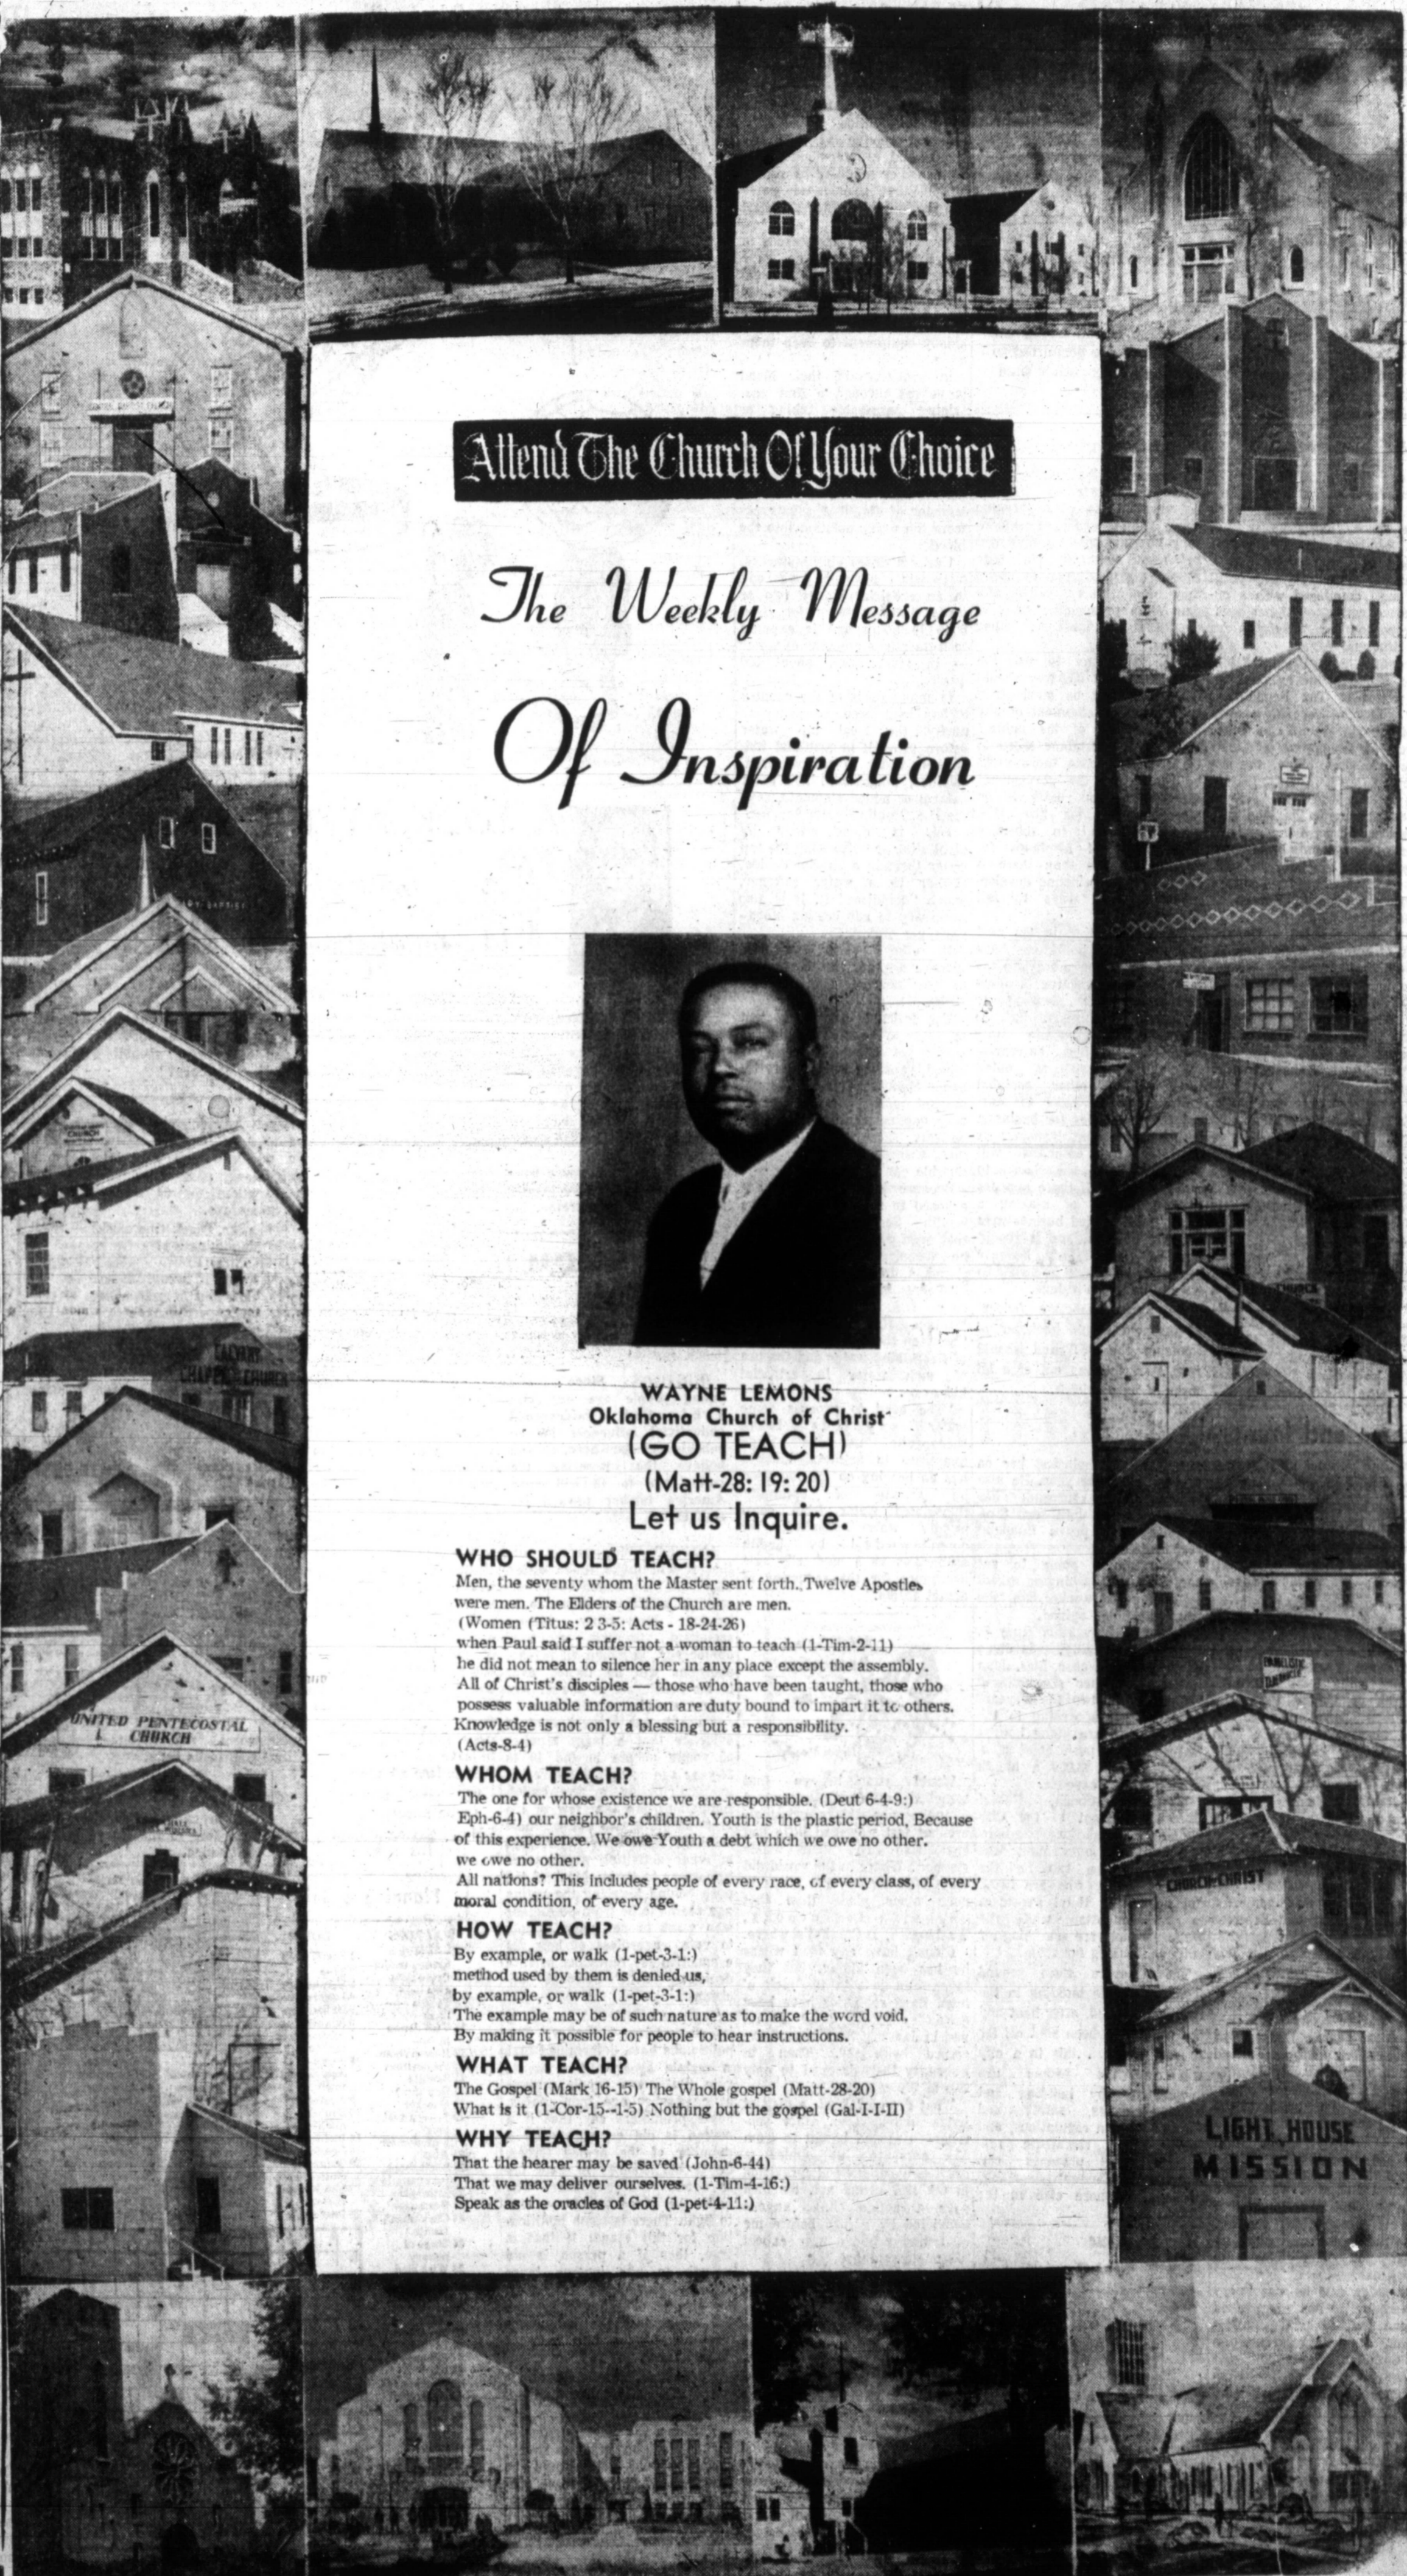

By example, or walk (1-pet-3-1:) method used by them is denied us, by example, or walk (1-pet-3-1:) The example may be of such nature as to make the word void. By making it possible for people to hear instructions.

### WHAT TEACH?

The Gospel (Mark 16-15) The Whole gospel (Matt-28-20) What is it (1-Cor-15-1-5) Nothing but the gospel (Gal-I-I-II)

### WHY TEACH?

That the hearer may be saved (John-6-44) That we may deliver ourselves. (1-Tim-4-16;) Speak as the oracles of God (1-pet-4-11:)

# The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

Our Capsule Policy

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

## That Supersonic Transport

Sen. William Proxmire of Wisconsin is one of those "liberals" whose voting records have been more "conservative" of late. We note that in the last session of Congress he had a conservative index rating of 32 per cent, compared with a cumulative rating of 25 per cent as recorded by Americans for Constitutional Action.

Recently, Sen. Proxmire told those attending the national tax conference of Tax Foundation, Inc., that the federal government should spend no more money in developing a supersonic transport plane, the so-called SST.

He was reported as "critical of the argument that the SST project would ease the nation's balance of payments problems." Once the jets are built, he said, they will be used to "take Americans over to Europe to sell spend money."

The senator noted a Department of Interior study had advocated limiting nonmilitary supersonic flying over populated areas to experimental operations. The ability of the supersonic airliner to fly cross-continent, he said, was "an important part of the economic payoff."

He predicted that elimination of SST flights over the continental U.S. would bring a great drop in SST sales and cut "significantly into any benefits the government might expect to receive through its participation in this already questionable venture."

It is no secret that a great many persons, who have found difficulty enduring sonic booms from military aircraft have looked on the idea of civilian planes adding to the noise and shock. And even some of the promoters of spending tax money to develop the SST

are conceding that flights of speedy transports may have to be limited to trans-oceanic trips. Therefore, Sen. Proxmire may be right that the SST will be used primarily to take Americans to Europe to spend their money, thus offsetting any gain from prospective sales of the SST to lines of other nations.

But, it seems to us, the question should be, why should the government be involved in subsidizing development of any plane for use of the public? Possibly if the plane were to be used for defense, there might be reason for the government expenditure. But there is no more reason for the U.S. government to subsidize development of airplanes for commercial use than there is for it to be subsidizing development of new ways to sell groceries.

We concede that in the past few years, the politicians have moved more and more into the business of subsidizing business activities, from farming to flying to the moon. But, if America is ever to start returning to free enterprise solutions instead of aping practices of other socialist nations, it will have to start rejecting subsidies for business.

If a supersonic transport is desirable, free enterprise will build it if it sees a chance to make a profit. If there appears little likelihood of making a profit, hard-headed businessmen will not build it, and it should not be done just because someone, in or out of business, would like to see it done.

We agree that the federal government should back out of financing the SST and should then start backing out of a lot more of its subsidies.

## New Assault On Fluoridation

By DON OAKLEY

The fluoridation controversy, confused enough as it is by claims and counter-claims, has been further muddled by recent reports that fluoridated water can be injurious to artificial kidney patients.

An estimated 1,800 persons in the United States, who have suffered failure of natural kidney function through disease or accident, depend upon "hemodialysis" by artificial kidney equipment to keep them alive.

In hemodialysis, their blood is passed through a unit containing permeable tubing or membranes immersed in a water solution of special composition so that blood impurities will be removed. During the process, there is also transfer of dissolved substances from the water solution into the blood.

Under average circumstances, a patient's blood is "washed" in an artificial kidney two or three times a week for from 6 to 14 hours and is exposed to tremendous amounts of water — in most cases about 900 quarts.

In many parts of the country it has long been necessary to purify the local tap water before using it in artificial kidneys in order to remove iron, calcium, magnesium and other natural or added elements, says the U.S. Public Health Service.

This is done either by distillation or by passing the tap water through a special device, similar to a water softener, which "deionizes" it. It is also necessary to add certain blood-purifying chemicals.

In other words, artificial kidneys are not just hooked up to the nearest public water outlet.

The desirable fluoride content in water to be used in dialysis hasn't yet been finally determined, says the Health Service. Some clinicians claim a small amount can help counteract bone demineralization in kidney patients. There is also evidence that absorption of too much fluoride can be harmful.

Because kidney patients are exposed to so much water, the Health Service recommends that most water used in dialysis be deionized to remove all elements, including fluoride.

"There is no relationship," says U.S. Surgeon General William H. Stewart, M.D., "between the daily consumption of fluoridated water and the use of such water in artificial kidneys."

"The need to process some water supplies before therapeutic use in large quantities in artificial kidneys has no bearing on the ingestion by anyone of optimally fluoridated water from community water supplies, recommended by health authorities as a medically safe procedure for the reduction of dental caries."

suspended, but placing her on probation for one year. He also ordered her to surrender her driver's license until such time as she could prove financial responsibility.

"How am I going to get home?" Mrs. Washington asked.

"Your social worker can take you," the judge opined.

Case No. Two, this time in New York City, involved another welfare case. Mrs. Joan Chavers and her six children ranging from two to 10 years in age, who, according to the UPI account, are being housed and fed in a posh hotel at a cost of about \$2,000 a month — at taxpayer expense.

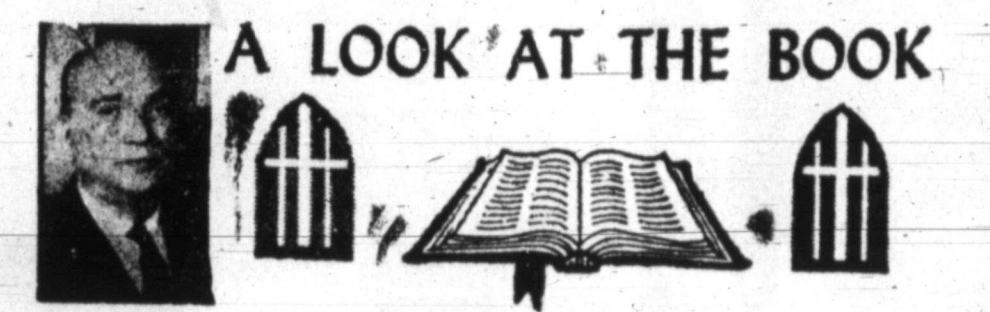

When questioned, Robert Carroll, assistant to the City Welfare Commissioner, admitted that his department was picking up the tab for the Chavers family who are being put up at the Hotel President in mid-Manhattan while the welfare people are searching for suitable housing for them.

The Chavers were moved from an unsafe building in the Bronx, UPI said, after heat and hot water had been shut off for several weeks. . . this in a city where the people are "protected" by building and housing codes, safety and sanitation regulations, and every other socialistic restriction the planners can imagine to an extent prevailing, perhaps, nowhere else in the United States.

That word passed faster than spit thru a tin horn. The criminal element decided at once that robbing banks was something more than a sporting event. There was 21 robbery suspects arrested since Jan. 1 and 16 are still in jail because they couldn't raise bail ranging from 15 to 30 thousand geets.

No more can they get out on personal recognizance. Before most of the robberies were committed by suspects out awaiting trial. What this country needs is more judges with as much brains as Hart...

## Paper Pigeon

By DR. BOB JONES

### HIDDEN THINGS OF TOMORROW

I am glad that as a child of God I do not have to plan my own future. I am quite content to leave that in His Hand, Who knows the end from the Beginning. That which looks very wise to me today may, in the light of tomorrow's now-unborn moments, prove to have been foolish in the extreme. The

### Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

QUESTION: Since many young people are currently subjected to widespread collectivist influences in the schools and elsewhere, do you believe, that lowering the voting age to 18 will push America further toward socialism?

ANSWER: We are not sure that it will make much difference. The people, led by power-seeking politicians, seem to be headed irrevocably toward socialism through a total democracy, in which all private decisions will be turned over to the politicians in power. Age seems to make no difference.

"I have nothing to do with tomorrow, My Saviour will make that His care,

man who trusts God completely and who accepts with unquestioning obedience the will and commands of God will always find that those things which happen to him today, though they may seem today unfortunate, will tomorrow prove to have been golden links in a chain of blessing. Illness, which may necessitate a move to another climate and which seems from the viewpoint of the moment almost a tragedy, may be God's way of putting His child in the place where special blessing awaits him. The bitter waters of sorrow forced to my lips may cause me to cry out for relief to God, and in new reliance upon Him I shall find crystal streams of abundant joy.

No man knows what tomorrow will bring forth. The Christian does not need to know, for whatever it brings forth will prove a blessing for him. "All things work together for good to them that love God, to them who are the called according to His purpose" (Romans 8:28). Temporal losses prove themselves the fallings away of chains which bind a spirit. The darkness of sorrow brings to the ear of the Christian the melody of songs which were drowned out by the laughter of the day, and the flames of a martyr's death become the wings of a fiery chariot bearing a victorious saint to glory. How wise to leave our tomorrow with Him Who orders all our ways.

"I have nothing to do with tomorrow, My Saviour will make that His care,

Its grace and its strength I can't borrow, So why should I borrow its care?"

### Wit and Whimsy

A woman went into a small town post office recently and asked for 30 cents worth of stamps.

Mr. Black (the clerk) — What denomination? Mrs. Brown — Well, I didn't know it would ever come to this, but if you nosy government people have to know, I'm a Baptist.

They keep saying that women are smarter than men, but did you ever see a man wearing a shirt that buttoned down the back?

### HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives in Washington and Austin. Here are their addresses:

STATE Rep. Malouf Abraham, House Office Bldg., Austin, Texas. Sen. Crady Howard, Senate Office Bldg., Austin, Texas. FEDERAL Rep. Bob Price, 207 Cannon House Office Bldg., Washington, D.C. 20523. Sen. John Tower, Senate Office Bldg., Washington, D.C. 20525. Sen. Ralph Yarborough, Senate Office Bldg., Washington, D.C. 20525.

The tropical 1,000-legged worm manufactures prussic acid in its body.

Goldfish have been known to live in captivity for 25 years, according to the Encyclopaedia Britannica.

## THE GLOBAL VIEW Nixon Plan Raises Hopes For Middle East Peace

By LEON DENNEN

NEA Foreign News Analyst UNITED NATIONS, N.Y. (NEA) — The usual comedy of diplomats saying "no" when they mean "may be" should not obscure the progress that is being made in the search for peace in the Middle East.

President Nixon's "quiet diplomacy" is beginning to pay some political dividends in one of the world's trouble zones. This explains the guarded optimism of Charles W. Yost, chief American delegate to the United Nations. An authority on the Middle East and a skilled negotiator, Yost is probably the ablest American diplomat who ever served in the U.N.

In his view, negotiations between the United States, Russia, Britain and France have reached a point where Big Four meetings on the Middle East may bring some results.

The tentative American peace plan includes permanent demilitarized buffer zones between Israel and the Arab countries and the opening of the Suez Canal and all other waterways in the Middle East to shipping of all countries, including Israel's ships.

Also, instead of a peace settlement imposed by the Big Four, the U.S. plan encourages Israel and the Arabs to reach a voluntary contractual agreement.

Ambassador Yost has no illusions about the almost insurmountable difficulties that lie ahead. The prospect of an Arab-Israeli settlement is still more hope than reality. But it is increasingly clear that Israel will relinquish territory it conquered in the six-day war in 1967, including much of the Sinai peninsula, as the price for peace talks with the Arabs.

Egypt's President Nasser is also inching cautiously toward negotiations. To appease Arab extremists and terrorists — who are now more dangerous to his regime than Israel — he continues to threaten another round

of hostilities. But even Nasser's best friend, Yugoslavia's President Tito, is urging him to seek a peaceful solution.

Yugoslavia broke diplomatic relations with Israel after the beginning of the 1967 hostilities. However, Tito is reported to have warned Nasser to stop preaching that Israel must be thrown into the Mediterranean and totally annihilated.

"Any Arab propaganda calling for a total destruction of Israel is not only silly but also dangerous," said a dispatch from Cairo to the official Yugoslav newspaper Odeok.

More significant is Russia's new attitude toward the Middle Eastern belligerents. Officially, Moscow still castigates Israel as a tool of American imperialism. Yet U.N. diplomats were encouraged by the "softer" tones of Russia's chief delegate during the latest debate on the Middle East in the Security Council.

The Russians have realized belatedly that the Arab terrorists, originally financed and armed by Moscow, are now working hand-in-hand with Red China's agents. Publicly the Russians continue to flatter the terrorists. But a secret conference of pro-Moscow Arab Communists that recently met in Lebanon denounced the terrorists as "true agents of imperialism."

According to Red China's news agency, Russian delegates were "sternly questioned" at a conference in Cairo about their true stance on the Middle East conflict.

"If the Soviet Union is sincere in supporting the Arab peoples," a terrorist leader is reported to have asked, "why do you not support the Palestinian people's armed struggle against Israel?"

According to Peking's press agency, the Soviet spokesman "were dumfounded."

Dumfounded or not, the Kremlin leaders, as always, are Russia-firsters. They will bargain attentively on behalf their Arab clients at the Big Four meetings. But they are not likely to jeopardize Russia's national interests to appease the terrorists.

Renewed large-scale hostilities in the Middle East are not in Moscow's interest. The Russians are anxious to reopen the Suez Canal. Above all, they need a relaxation of tensions in the Middle East — and in Europe — as long as they are threatened by Communist China in Asia.

### The Almanac

By United Press International Today is Friday, April 11, the 101st day of 1969 with 264 to follow.

The moon is between its last quarter and new phase.

The morning stars are Venus, Mars and Jupiter.

The evening stars are Mercury and Saturn.

On this day in history: In 1898 President McKinley asked Congress to declare war on Spain.

In 1951 President Truman fired Gen. Douglas MacArthur as commander of forces in Korea.

In 1966 Guam-based B52 bombers struck in Vietnam for the first time.

In 1968 President Johnson ordered 10,000 Reservists to duty and set a ceiling of 649,500 as the U.S. troop strength in Vietnam.

A thought for the day: General MacArthur said, "There is no substitute for victory."

### WORLD ALMANAC FACTS

Georges August Escoffier, "king of chefs and chef of kings," claimed to have varied his regal menus with some 10,000 recipes, including 213 soups, 189 chicken dishes and 143 things done with eggs. The World Almanac says. In 1894, after hearing Nellie Melba sing Elia in "Lohengrin," he created his most famous taste sensation, Peach Melba, a medley of peaches, vanilla syrup, vanilla ice cream and raspberry puree.

## City Council Sets PTA Meeting Dates

The City Council PTA met recently in Carver Educational Service Center with Mrs. Paul Howard, president, presiding and discussed Spring conference dates.

Dr. James Malone, Mrs. Alvie French, and Mrs. Paul Mitchell will be delegates to the 14th Annual Spring Conference to be held April 28-29 in Spearman.

Mrs. Paul Mitchell gave the

## Methodist Women Attend Luncheon

GROOM (Spl) — The Women's Society of Christian Service met in the Methodist Church parlor recently for an all-day Bible study and luncheon. Bible study on the gospel of John was led by Mrs. Ray Elmore, Mrs. James Lanier and Mrs. B. H. Cooper.

Those attending were Meses. Ray Elmore, Billy McKee, Curtis Schaffer, Glynn D. Harrell, John Eschle, James Lanier, E. R. Hess, Cleo Schaffer, C. A. Morrow, J. W. Angel, O. P. Blackwell, B. H. Cooper, O. R. Major, P. B. Farley, Roy Ritter and George Latta.

Legislation report, Mrs. N. L. Nicholl reported 13 PTA members had completed the required eight hours to receive certificates from the Parent and Family Life Education during the Mental Health Clinic held recently.

These elected as officers for the next year were Mrs. Alvie French, president; Mrs. Paul Mitchell, vice president; Mrs. Mack Courtney, secretary and Mrs. James Frazier, treasurer.

Mrs. Howard appointed Joe Page, Mrs. Mack Courtney, and Mrs. Billy Rape to serve on the auditing committee.

The next meeting will be at 10 a.m. May 6 in the Carver Educational Service Center for installation of officers.

## Sorority Studies Music Influence

Rho Eta Chapter of Beta Sigma Phi met in the Hospitality Room of the Citizen Bank as Mrs. Jim Cunningham and Mrs. Benny Stout gave the program on "Music Influence on Our Lives."

Mrs. Buddy Lamberson presided over the business meeting. The projects for Beta Sigma Phi for 1968-1970 were discussed and voted on.

Guests introduced were Mrs. John Lyle, Mrs. Jim Simpson, Mrs. Calvin McConnell, and Mrs. Gary Clark.

Mrs. Henry Harly and Mrs. Jim Cunningham were hostesses.

Those present were Mmes. Jack Zuerker, Bill Miller, Ronald Beard, Warren Chism, Richard Serrurier, James Lee, Woodrow Crawshaw, Dwayne Blakemore, Robert Benyshek, Sonny Golden, Tommy Hill, Buddy Lamberson, Benny Stout, and guests Meses. Gary Clark, John Lyle, Jim Simpson, and Calvin McConnell.

By Abigail Van Buren

DEAR ABBY: A man complains because a woman invades his privacy when she walks into his barbershop. "All conversation stops," he says. Well, ain't that just too bad!

I have to take my boys (ages 4 and 6) to the barbershop for their haircuts because their father is dead, and I don't believe in "leaving" my kids places for other people to keep their eye on. They're my kids, and it's my job, and I stay with them.

Now, how about the men who come into beauty parlors to wait for their wives? I know one old coot who goes with his wife just to ogle the half-clad ladies getting their hair done.

I don't appreciate being stared at by a strange man when I've got my head in a shampoo bowl, or have a purple mess on my hair during a color.

So, be a pal, Abby, and tell men that we won't go into their barber shops unless we have a legitimate reason if they'll not come into our beauty parlors unless they have one.

FLORENCE IN WORTHINGTON  
DEAR FLORENCE: All right, but the only legitimate reason a man could have for coming into a beauty parlor would be to announce a fire or serve a subpoena.

DEAR ABBY: The doctor says my wife has to have her ovaries removed. I know that when you spay a dog, which I understand is a similar type operation, she gets fat and lazy. I am wondering if the same thing will happen to my wife?

WISCONSIN  
DEAR WISCONSIN: I can't guarantee your wife won't get

fat and lazy, but if she does, it won't be because of the operation.

DEAR ABBY: When I was an infant I was adopted by a couple who were told they could have no children. Soon afterwards, they had a little girl of their own. Then a boy. Then another boy. All my life I have been introduced as "the girl we adopted." My brothers were always referred to as "our boys," and my sister was always called "our real daughter."

When my parents celebrated their 50th wedding anniversary recently, my mother announced that all her grandchildren were present, yet two of my children were missing.

When my sister's daughter came in with her baby, my mother said, "Here is my one and only great-grandchild." My granddaughter who is 12 heard her, and said, "I thought I was a great-grandchild, too." My mother said, "No, dear, you have to be a blood relation to be a generation." Someone heard her, and said, "This is one for Dear Abby."

Well, Abby, what do you say?

ADOPTED IN LEOMINSTER, MASS.

DEAR ABBY: I say you precise recollections prove the depth of the hurt inflicted on you. I say, also, after "50 years" of enduring that hurt, why nourish it? Why keep it alive? You've won! Why carry on the fight?

DEAR ABBY: My husband is 68, faithful, loving, and strong sexually. He says his home life is satisfying in every way. So if he is so content, why does he stare at every bosomy female he sees on the street? And why does he enjoy pictures of naked ladies in magazines?

I pray we never get a topless restaurant in our little town, for if he ever went into one, I would never be able to get him out.

Should I let him play his little boy game, or forget it? He reads you, so please print this.

BEWILDERED GRANDMA  
DEAR GRANDMA: If your "looker" is faithful and loving at 68, you don't have too much to complain about. "Looking" only is no sin, but since he knows it irritates you and looks anyway, he could be trying to prove his virility while he still can.

Serve yams in peach sauce with baked ham. Combine one-half cup each of peach preserves and orange juice, 2 tablespoons of butter or margarine, 1/2 to a teaspoon of mace and a dash of salt in large skillet. Stir and heat; boil 1 minute. Add 2 (1-lb.) cans yams, drained. Simmer, covered 5 minutes, turning once. (Makes 4 servings).

## Your Horoscope

JEANE DIXON

### SATURDAY, APRIL 12

YOUR BIRTHDAY Saturday: This coming year is the time to get out of the groove. Interest in the occult introduces you to a variety of viewpoints. New circumstances, new people are indicated. Your vocation deserves a review of working conditions, the use of ingenuity. Saturday's natives are workers; strong, just, well-intentioned.

ARIES (March 21-April 19): Now is the time in which schemes are tested. Illusions tend to collapse today as the bubbles come out of your program. Put in the evening hours reviewing your situation.

GEMINI (May 21-June 20): Matters already in progress should be given priority — start something new now and you are apt to find it is very soon out of hand, leading to unexpected results. People are pleasant Saturday, but not helpful.

CANCER (June 21-July 22): Push to get rid of all sorts of obligations, especially correspondence. If you cater to the Cancerian trait of cluttering, this is the time to go through your premises picking up and throwing out.

LEO (July 23-Aug. 22): Complications may arise with young people. Sidestep differences over your friends' behavior. Do some serious study in the evening.

VIRGO (Aug. 23-Sept. 22): Focus your attention Saturday on the things you can do alone or with a minimum of collaboration. Creative activities are favored. Entertainment in the evening.

LIBRA (Sept. 23-Oct. 22): Put yourself out despite laziness. Health matters are more readily taken care of Saturday. Cultivate social and political connections.

SCORPIO (Oct. 23-Nov. 21): Aside from the necessity for helping keep the peace between older and younger, most important today is to avoid speculation, particularly control.

Mrs. Frank Terbush Presents Devotional GROOM (Spl) — The Ruth Sunday School Class of the First Baptist Church met recently in the home of Mrs. George Eschle for a regular monthly meeting. Mrs. Eschle, class president, presided.

Mrs. Frank Terbush, vice president, gave the devotional, on "Lamp-lighters, Punching Holes in Darkness," Matthew 4:16.

Refreshments were served to members Meses. Melvin Asberry, Jack Pool, Robert Milton, Stella Patterson, Burnice Johnson, Bertha Knight, H. C. Swank, Rudolph Tucker, Ted Friemel, C. L. Fields, Frank Terbush and the hostess, Mrs. George Eschle.

## Woman's Page

WANDA HUFF, WOMEN'S PAGE EDITOR

To make whipped cream that holds its shape for an hour or two, use chilled cream, bowl and beaters. Also, add three tablespoons of unsifted powdered sugar and one-half teaspoon of vanilla to one-half pint of cream. Whip until stiff enough to hold its shape when beater is lifted.

Hawaiian pineapple provides the flavor for two new cake mixes and a frosting mix. The chiffon cake mix is designed for a 10-inch tube pan. The layer cake mix makes 2 layers, 30-36 cupcakes or a 13x9x2-inch oblong cake. The 13-oz. frosting mix is suitable for any of these combinations.

# Howard Hits Pair, Says More to Come

United Press International  
Frank Howard, already the major league slugger Ted Williams must look up to, says the new Washington Senator hasn't seen anything like the Senators to two victories in their first three games. But he observed through a cloud of cigar smoke Thursday that he still hasn't found his best groove.

Frank Howard

## Knicks Even Playoff Series

NEW YORK (UPI)—Professional pride scored the winning point for the New York Knickerbockers in their first playoff victory over Boston. New York not only had been annihilated on the court in losing the Celtics Wednesday night, but the fans in Boston had laughed at the Knicks' ineptness as they missed 30 of their first 40 field goal attempts. But the Knicks bounced back with an impressive 101-91 victory Thursday night that still leaves them trailing Boston two games to one in their Eastern Division final of the National Basketball Association playoffs. "We had to get motivated," said Walt Frazier, who led the Knicks with 26 points in New York's comeback. "We were embarrassed last night in Boston and if a guy has any pride at all he'd be up for this. I know I couldn't wait. I needed very little sleep and I didn't want to eat." The fourth game of the series will be played at Boston Sunday afternoon in a nationally televised contest. The Western Division final series between the Los Angeles Lakers and Atlanta Hawks sets under way tonight in the West Coast.

## Montreal Rally Wins

By United Press International  
With a record 14 Stanley Cup championships behind them, there has to be something more than luck involved in the amazing success story of the Montreal Canadiens.

## Youth Baseball Tryouts Starts Here Tuesday

Optimist baseball tryouts for Pampa youths will begin next week. Youngsters nine and 10-years old will tryout Tuesday and Thursday while 11 and 12-year-old boys will workout Wednesday and Friday. To be eligible for a youth league team a boy must make one tryout session, bring \$3.00 for insurance fees and their birth certificate. Boys who live west of Russell St. will tryout in the American League park and boys who live east of Russell tryout in the National League Park. Any youngster on a youth team already are not to go to the tryouts. Further information may be obtained from Warren Smith at MO 4-2464 or Melvin Bailey at MO 4-6975.

York Yankees. "Well, at least as well as I did in that streak a year ago."

**Williams Was Fishing**  
Williams was fishing in the Florida Everglades last year when Howard went on a tear of 10 homers in six games en route to a major league leading season total of 44. Now Ted is a .667 manager—two wins in three games—and Howard is proving that a lengthy spring holdout

# Cards in Rut, Bucs Sweep

By United Press International  
Leo Durocher, who maintains that "nice guys finish last" is also a firm believer in another theory—that strong guys finish first. And Durocher seems to have molded one of the strongest, most well-balanced attacks in the National League this season in his effort to bring the Chicago Cubs their first pennant in 24 years. The Cubs' attack has been both balanced and awesome thus far in the 1969 season. Tuesday it was the veteran Ernie Banks, who smashed a pair of homers to pace Chicago over Philadelphia. Wednesday's hero was Billy Williams, with four doubles—tying a major league record—to highlight a 16-hit Cub attack. And Thursday it was Ron Santo's turn. Santo hit two home runs to

# SPORTS

power the Cubs to their third consecutive victory, a 6-2 decision over the Phils. His first came in the fourth inning and he connected again in the seventh, both times with two out. The veteran third baseman also singled and scored a run in the sixth. Randy Hundley also had a solo homer for the Cubs and left-hander Ken Holtzman scattered 10 hits in going the distance, a feat he accomplished only six times in 32 starts last season. Elsewhere in the National League, Pittsburgh nipped St. Louis 3-2; New York downed Montreal 4-2; and San Diego shutout Houston 2-0. Willie Stargell doubled and Bill Mazeroski singled for the Pirates in the eighth inning to lift the team to victory over the Cardinals and a sweep of their three-game series against the

# Casper Takes One Shot Lead Into Second Round

Billy Casper

AUGUSTA, Ga. (UPI)—Is Billy Casper for real this time, or will he blow the lead in the second round of the Masters golf championship today the same way he blew it last year? After an opening-round six-round six-under-par 66, Casper, the man with the neat swing, the positive brain, and the unusual diet, stands exactly where he stood one year ago—out front in the Masters by a single stroke with the chance to take command in a tournament which has defied his many talents.

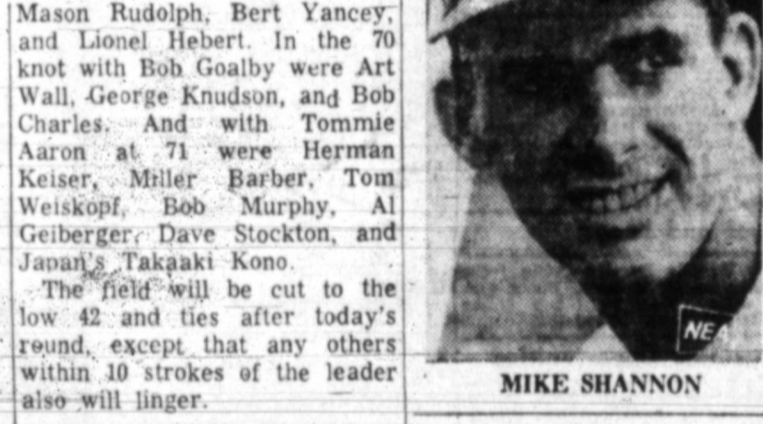

## White Deer Wins I-A Golf

PANHANDLE — White Deer advanced to the regional golf tournament in Lubbock next week with an easy victory in the District I-A golf tournament, here. The Bucks won by 17 strokes over second place Sanford-Fritch. White Deer had a 361 team total and Sanford-Fritch 378 and Gruver was fourth with a 403. Eddie Mayfield, who finished as second high individual, paced the Bucks with a 40-43-83. Mitch Abbot shot 45-43-88; David Bently, 47-47-94 and Ron Shahan, 48-48-96.

## Coaches at Clinic

Nine Pampa coaches are attending a coaching clinic this week at the University of Oklahoma in Norman. From Pampa Junior High Harold Moore, Don Drinnon and Don Huffstедler are attending and Marvin Bowman, Dennis Pasley and James Aller from Robert E. Lee. Buddy Williams, James Pullen and Bob McAlester from the high school coaching staff. The clinic started Thursday and lasts through Saturday with three high school coaches from Oklahoma and 10 from the University on the program.

## Texas Starts Three Game Series Today

MIKE SHANNON

By United Press International  
The Texas Longhorns, known primarily this season for their mounds corps, hoped to improve their reputation as a power with the bats today in a three-game series at Baylor's matchbox stadium. It's been two years since the Longhorns traveled to Waco but sky watchers still have not recovered from the experience. Ball chasers outside the park almost saw as much action as the Baylor defense in 1967 when the 'Horns belted nine four-baggers in two games. But David Chalk, the man with the most deadly stick among the Texas staff, may be just the person to make Baylor forget the previous experience. Chalk entered the Baylor series, which began with today's doubleheader, with a .455 batting average and four home runs, all of them coming one week ago today at Clark Field in Austin. But the Longhorns might have brought along, in addition to their power and pitching, that may help the Bears more than hurt them—over confidence. Texas has raced through the first half of the Southwest Conference season undefeated while Baylor, just a half game out of last place, entered the series with one win in nine games. Meetings such as this have been the stage for upsets in the history of the SWC many times in the past. The two teams closest to Texas in the run for the crown tried to eliminate each other today. Texas A&M entertained Texas Tech, both with 4-2 conference records, in a twinbill today. Texas Christian (5-4) traveled to Houston to play Rice (4-3) in the only other action between two conference teams today.

## Pampa 9 In Action

District action takes over the spotlight beginning today for 4-A athletes. Pampa baseballers played host at 4 p.m. today to Coronado at Optimist Club park and the Harvesters were trying to break a sixgame losing streak. At 1 p.m. Saturday Pampa hosts Plainview in another 4-A encounter. Pampa trackmen journey to Amarillo Saturday for the district track meet and Paul Anderson, Denny Johnson and Scotty King all have a chance to qualify for regional competition. Harvester golfers entered the fifth and final round of district golf play today in Amarillo. Monterey is the leader with a 15-stroke edge over Tascosa while Pampa is 10th heading into the final 18holes of play. Pampa neters are in Amarillo for the two-day district tennis meet.

## Pipers Win

By United Press International  
The Minnesota Pipers have a great mental attitude for the American Basketball Association playoffs; they realize "how much money is at stake." The Pipers, winners of the 1968 playoff title, moved into a 2-1 lead over Miami Thursday night with a 109-93 victory over the Floridians. Kentucky downed Indiana 130-111; Denver edged Oakland 109-108 and Dallas routed New Orleans 130-106 in other playoff games. TAKE GOLF HONORS DALLAS (UPI)—Texas Wesleyan's Paul Darwin shot a two-under-par 69 for medalist honors as TWC downed Southern Methodist Thursday 7 1/2 to 4 1/2.

(Continued From Page 2)

tees and announced creation of a 12-member Governor's Advisory Council on Lifetime Sports. Later will promote such sports as tennis, badminton, archery, golf and bowling.

**SULPHUR PIPELINES EYED** — In one-two order, the Legislature passed two significant mineral bills.

One would authorize Land Commissioner Jerry Sadler to order unitization agreements in the sulphur development in West Texas. School Land Board would have to approve the agreements if they involve royalty interests on school or other public lands.

Another gives the Railroad Commission power to enforce minimum safety standards for all natural-gas pipelines in Texas not controlled by the Federal Power Commission. Thirty-three other states have similar programs.

**COURTS SPEAK** — Court of Criminal Appeals upheld use by police of a "reverse polarization trap" device for tracing obscene telephone calls in a Jefferson County case. A one-year jail sentence and a \$1,000 fine were affirmed.

Supreme Court, overturning lower courts, awarded \$70,000 and interest to the City of Fort Worth in a suit against a former land agent and title company. Agent was accused of getting city clearance of a price to be paid for land purchased, then selling with the seller for a lesser amount and pocketing the difference.

Supreme Court set an April 23 hearing on a case in which a woman claimed injuries from falling backward over a power lawn mower in a department

**AG OPINIONS** — Atty. Gen. Crawford C. Martin refused to reconsider his earlier opinion holding no income from leasing of state-owned submerged land can be diverted to current school spending. Reps. Ben Atwell of Dallas and Don Cavness of Austin asked him to change his mind.

Martin held that Texas A and I University of Kingsville can establish upper-division (junior-senior) facilities in Laredo without special legislation.

**DPS DIVERSIFIES** — Department of Public Safety has announced that it is expanding its two-machine helicopter force to seven, with some help from a federal law-enforcement grant.

These five new 'copters will be based in the Lubbock, Dallas and Austin areas and will be used for all types of law-enforcement activity, including mercy missions, traffic surveys, riot control and normal pursuit of accused felons.

**PARK DEVELOPMENT** — Texas Parks and Wildlife Department signed a sales contract to buy an additional 892 acres for Dinosaur Valley State Park, west of Glen Rose in Somervell County.

Purchase will bring the park to 1,274 acres. Total cost is \$281,925. Park will be the first site purchased with funds from the \$75 million park bond issue approved by voters in Nov. 1967.

Dinosaur tracks made in the area 100 million years ago and fossil evidence of life on earth as far back as the Cretaceous period are contained in the area. National Registry of Natural Landmarks of the Department of Interior includes the listing of Dinosaur Valley Park.

**SHORT-SHORTS** — Selective Service headquarters announces that the May draft call for Texas is 1,453 men, down from 1,737 for April. Another 8,234 men are scheduled to be given pre-induction physical and mental

## Washington Window

By MERRIMAN SMITH  
UPI White House Reporter  
WASHINGTON (UPI) — Backstairs at the White House: President Nixon has established a special advisory council on executive organization to undertake a "thorough review" of the federal set-up and, of course, make recommendations for improving matters.

Without question, the executive branch is seriously tottered and cluttered with inefficient overlapping and duplication of functions. President after president has sought to do something about it while carefully avoiding one of the big sources of trouble.

That source is simple: Each new President feels compelled to leave his own mark on organization of the government. Sincerely motivated, these changes every four or eight years contribute to the hodge-podge without ever submitting the federal structure to a thorough overhaul which it needs so badly.

Organization of the White House itself changes with each examinations during the month for future calls.

Department of Public Safety warns that April 15 is the absolute deadline for auto inspections.

Charter applications have been filed for Security Bank and Trust of Garland and Union State Bank of Beaumont.

Paced by the \$15.9 million Dallas Cowboys "Texas Stadium" in Irving, building continues its upward spiral statewide, says UT's Bureau of Business Research.

College Coordinating Board rescinded a decision to shut down the law school at predominantly-Negro Texas Southern University in Houston in 1973.

The Senate Constitutional Amendment Committee approved the proposal by Sen. V. E. (Red) Berry of San Antonio to divide Texas into two states.

president. Titles, functions and areas of authority shift with a new chief executive. While this is entirely within his legal rights, it does make for a period of confusion in government departments and agencies as career personnel adjust to new arrangements.

For at least 30 years, the title of "secretary" at the White House meant a high-level, policy official; truly one of the label began to lose its importance a few years back and comparable rank during the title of "special assistant." Johnson administration carried the title of "special assistant." titular situation has been reversed. An official with the simple title of "assistant" outranks the larger number of staff members who are called "special assistants."

**Time-Consuming Duties** — Also, Nixon, as many presidents before him, still finds himself saddled with time-consuming ceremonies and legally required duties that seem so inconsistent with an age of computers, space flights, instantaneous communication and nuclear energy.

The President under law must have studied by his staff and the Justice Department hundreds of so-called private relief bills passed each year by Congress; then he must decide whether to approve or disapprove. With rare exception, these relief bills are of entirely parochial interest or effect. Sometimes they involve nothing more than adding or subtracting a few acres from a national reservation.

Certainly, Congress would be doing itself and the President an enormous favor to change this small part of the federal system, as well as relieving him and the White House staff of the congressional requirement that he annually proclaim all national holidays, plus a much larger number of commemorative days, weeks and months.

**The EASY PAINT for WALLS**  
Easy to choose, easy to use... easy to live with. Hundreds of beautiful colors that flow on quickly with roller or brush and dry in minutes. Lovely satin-dull finish. Scrubbable if small grimy hands go astray.
