

Board Pursues Ship Collision

SUBIC BAY, Philippines (UPI) — A young American Navy officer testified today that there was a "potentiality for confusion" in the USS Frank E. Evans' communication system on the night it collided with the Australian carrier Melbourne.

LT. (j.g.) T. E. Bowler III, 24, of Annapolis, Md., told a six-man U.S.-Australian board of officers investigating the crash that there were two task groups operating on the same tactical radio network that night.

"When two task groups operate on the net, there certainly is potentiality for confusion," he said.

Seventy-four U.S. sailors were killed in the June 3 collision, which occurred while both ships were participating in Southeast Asia Treaty Organization exercises in the South China Sea.

Bowler testified after the board conferred for four hours in closed session on the refusal of Lt. (j.g.) Ronald C. Ramsey,

24, of Long Beach Calif., to testify. Ramsey, officer of the deck on the Evans at the time of the crash, asked to be excused on constitutional grounds.

Rear Adm. Jerome J. King, the senior American officer on the board, announced the panel's agreement to Ramsey's request. He said in a statement:

"Having advised Lt. (j.g.) Ramsey that he is suspected of the offense of negligently hazarding a vessel of the armed forces, the board recognizes Lt. (j.g.) Ramsey's right to terminate his interview as to that matter at anytime and for any reason."

Bowler was the senior officer on the Evans bridge on the night of June 2, and it was he who turned over the ship to Ramsey. Bowler said he did not believe he had any trouble receiving messages that night but once again raised the mystery of why the Melbourne

Lindsay Defeated In Primary Election

By JUDSON RANDALL
NEW YORK (UPI)—Law-and-order candidates, riding the crest of a backlash against New York City's labor and crime troubles, Tuesday won upset victories in mayoral primaries over Republican Mayor John V. Lindsay and former Democratic Mayor Robert Wagner—both liberals.

Lindsay, who still will be in the Nov. 4 general election as the liberal party candidate, vowed he would win them because "the voices of doubt and fear cannot be permitted to govern this city. He joins Republican John J. Marchi, who defeated him, and Demo-

crat Mario A. Procaccino, who downed Wagner. But for Wagner, whose latest job was U.S. ambassador to Spain during the Johnson administration, it appeared the end of a political comeback some pundits had predicted might lead to the U.S. Senate.

Another loser was Pulitzer-prize winning author Norman Mailer, who ran for the Democratic nomination on a platform based on turning New York into the 51st state. Mailer, many of whose supporters were too young to vote, lost with the same humor as he had campaigned. When asked at one point if his

candidate were serious, Mailer replied: "Have you seen the other candidates?"

With all 5,286 precincts counted, Marchi had 111,725 votes and Lindsay 106,358 in the Republican primary.

In the Democratic primary, Procaccino had 252,283, Wagner 221,605, Mailer 41,136, Bronx Borough President Herman Badillo 215,381 and Rep. James Scheuer 38,631.

Wagner, who served as mayor for 12 years until Lindsay's election four years ago, said in conceding defeat "It's a sad day for the Democratic party—for all parties. Lindsay has been awful." He added, "But gee, imagine it under Procaccino."

Lindsay appeared unperturbed by his defeat, vowing to keep his job in the general election. "We will be repudiated in the fall. We are going to win that fight. We will win it because the voices of doubt and fear cannot be permitted to govern this city."

Marchi, a 48-year-old state senator also running under the banner of the conservative party, said "We've given the people a choice and they've made their selection. This is a city in a tragic pattern and we propose to reverse it."

TWA Plane Hijacked For Longest Flight

MIAMI (UPI)—A polite but "very desperate" gunman Tuesday hijacked a transcontinental jetliner carrying a top-level physicist among its 87 occupants and forced it to fly 2,700 miles to Cuba.

The Trans World Airlines plane returned to the United States from the longest hijack flight in U.S. history late Tuesday night with everyone aboard except the hijacker, identified as "J. Davis," a tall Negro who boarded at Oakland, Calif.

The physicist, Dr. W. Wallace Birnbaum of Berkeley, Calif., said the FBI "was quite concerned" that he was aboard the hijacked plane. Birnbaum, president of Physics International Inc., refused to comment on his work. He said he was flying to New York for a board of directors meeting.

The gunman commandeered the Boeing 707 on a nonstop flight from Oakland to New York City, so the plane's 84,000 pounds of fuel were more than sufficient for the trip to Havana. Neatly dressed in a brown suit, the man approached hostess Nan Schwabger, 29, of St. Paul, Minn., making her last flight before retiring to marry.

"The man came out of the forward restroom and told me to tell the captain that he wanted to go to Havana," she said. The plane was over Wilson Creek, Nev., at the time.

The physicist, Dr. W. Wallace Birnbaum of Berkeley, Calif., said the FBI "was quite concerned" that he was aboard the hijacked plane. Birnbaum, president of Physics International Inc., refused to comment on his work. He said he was flying to New York for a board of directors meeting.

NEW PUBLIC PARKING LOT — Rev. Dan Cameron, left, First Baptist Church, accepts checks for \$1,000 from Ray Duncan, president of the Downtown Business Association, and D. W. Bond Jr., director of industrial relations for Cabot. The money goes to defray costs of paving the lot at the corner of W. Kingsmill and N. West. The new lot will furnish 54 spaces of "free all-day, all weather public parking" according to Duncan. The only request made is that the lot not be used for public parking on Sunday.

'WATCHDOG AND CARETAKER' Police Chief Has Some Advice For Pampanos Going on Vacation

By RUTH LEWIS
(Daily News Staff Writer)

Going on vacation? If so the Pampa City Police can help you. No, they won't actually go along, but they will be on your side all the way there, and back.

It is done by what police chief Jim Conner calls a "Vacation Watch." In other words, while you are away let the police be your watchdog and caretaker.

All you need to do, Chief Conner says, is leave your name, address and telephone number. If you are to return on a certain date let the police know. And even if you do that, be certain to telephone the department when you return so the staff can mark you off the list. It may have 50 or more families coming back, or expecting to come back, the same day you do.

Would-be burglars know the usual signs that a place is temporarily vacated, Conner notes. There is the grass, left unmowed for a week or two. There are the newspapers thrown on the porch or into the yard, piling up as the days pass. There are the unlighted windows remaining so for nights in a row. All these say mutely,

"come in, fellows; nobody's at home."

"The most potent weapon we have against potential prowlers," said the Chief, "is a night light that works automatically, turning itself on at dusk and off again in the morning."

But don't leave anything outside the house that might be of interest to a light-fingered Louie, Conner advises, Porch and yard furniture, tools, bicycles — all need to be stored.

The police officer suggested that a neighbor or relative here be provided with the vacationers' addresses during their absence and that this information also should be left at the police station. Leave your telephone number, too.

This greatly simplifies procedure in case of an emergency, Conner noted.

As for travel with children Conner urges the usual precautions such as making sure that all windows and doors are kept locked. "And no heads or arms dangling outside."

"Don't try to drive too far in a day," He himself made that mistake recently, Conner said, on a trip to Brownsville. He made it to Corpus Christi the first day.

It didn't matter so much though going down — he was attending a convention and the stirring about and mixing with others after he arrived were stimulating — "but coming back I suddenly realized I was tired."

Children, of course, tire more easily and have muscles that clamor for use after traveling a hundred miles or more on wheels.

"When this happens, stop and give them a chance to exercise," the police chief suggests.

Communists Step Up Viet Shelling

37 Americans Dead In Battle Near DMZ

By WALTER WHITEHEAD
SAIGON (UPI) — A sharp increase in Communist shellings and ground attacks across South Vietnam left 37 American GIs dead and 114 wounded from fighting Tuesday and today, military spokesmen said.

The Viet Cong and North Vietnamese lost at least 249 dead in the wave of attacks and fighting from the border Demilitarized Zone (DMZ) to Saigon's outer defense ring. U.S. Marines, artillery and dive bombers caught hundreds of Communist troops sneaking into the war zone from North Vietnam and killed 102 of them in sharp clashes four miles below the DMZ. Marine losses were put at 17 killed and 34 wounded.

It came a few days after the release of a captured Communist document calling on guerrilla troops to inflict 50 percent more losses on the Americans than they had in their winter-spring campaign.

Military spokesmen said rockets and mortars slammed into at least 35 towns and bases overnight, including the headquarters of 12,000 GIs to be sent home under President Nixon's withdrawal plan.

One soldier was killed and 18 were wounded in the five-round mortar barrage into the Mekong Delta base of the U.S. 9th Division, two of whose brigades will be leaving the war zone before September.

The Communists threw ground attacks at four major American bases, invading the headquarters of the U.S. 173rd Airborne Brigade and wounding 11 of its defenders on the central coast. Military spokes-

METHODISTS AT WORK — Bishop Aisie H. Carleton, center, Albuquerque, N.M., the Rev. Luther R. Kirk, left, Pampa district superintendent, and the Rev. H. DeWitt Seago, host pastor, discuss the day's agenda this morning prior to opening the second day of a 2-day planning session at the First Methodist Church here. The bishop is a former resident of the Pampa area.

Pampa Is Site of Methodist Session

Bishop Aisie H. Carleton of the Northwest Texas-New Mexico Conference of the United Methodist Church was in Pampa today on the second day of a workshop for Methodist pastors.

The Rev. Luther Kirk of Pampa, district superintendent said the workshop also is being attended by church stewards.

Principal business of the workshop, it was stated, was to explain changes in basic organization of the Methodist Church and to train pastors and church officials in new procedures.

Workshop sessions, which were to end this afternoon, were held in the First United Methodist Church, of which the Rev. H. DeWitt Seago is pastor.

Bishop Carleton pointed out this morning that he is "fight at home" in the Pampa area since he worked in the Lefors oilfields as a college student. He was one of several workers recruited by J.B. Massa of Pampa.

The bishop added that Mrs. Massa was one of this high school teachers and junior class sponsor at Floydada where he grew up.

Amarillo Is Hit By Large Hail

Pea to baseball sized hail pounded Amarillo Tuesday night for about 40 minutes.

The hail, starting at about 10 p.m., broke windshields and windows, damaging roofs and killing livestock.

The damage was estimated in the millions of dollars.

Several underpasses in the Amarillo area were flooded due to the heavy rains accompanied by the hail.

WEATHER
PAMPA AND VICINITY—Partly cloudy and warmer through Thursday. Slight chance of thundershowers tonight and again Thursday afternoon. Low tonight near 60. High Thursday mid 80's. Winds light and variable. Chance of precipitation 20 per cent tonight and Thursday afternoon. HIGH TUESDAY—79. OVERNIGHT LOW—56.

Gray County is taking initial steps to comply with the U.S. Supreme Court's recent one-man, one-vote ruling to equalize the voter power in the county's four commissioner precincts.

Sherman R. Lenning Jr., county judge, today named a committee comprised of Ray Thompson, Jim Campbell and Harold Comer to assist him in working out details of new precinct boundary lines.

Judge Lenning pointed out that under the current setup Pct. 2 (Pampa) has 8,369 registered voters or 84.4 per cent of the voters compared with 524 in Pct. 1, 271 in Pct. 3 and 751 in Pct. 4.

Of the 9,915 registered voters in Gray County, Pct. 1 has 5,29 per cent, Pct. 3 has 2.73 per cent and Pct. 4 has 7.58 per cent.

Judge Lenning said he named the committee to assist him in revamping precinct boundaries in order to equalize the precinct voting power.

"This will mean," Lenning said, "all four precinct boundary lines will have to be given part of what now is Pct. 2 (Pampa)."

Under current voter registration the ratio, voting power of Pct. 2 over the other precincts is 31 to 1 in Pct. 3, 16 to 1 in Pct. 1 and 11 to 1 in Pct. 4, Judge Lenning stated.

If it comes from a Howe, store we have it, Lewis Howe, (adv.)

Wall Street Chatter

NEW YORK (UPI)—McDonnell and Co. says that all in all the stock market is in "quite good condition," noting that technical factors are strong point. Still, the company adds, these factors alone cannot "hold the line," although under normal conditions they are strong enough to stabilize the market and coupled with good news "can spur a rally."

The stock market's current mood is "caution, not pessimism," according to Paine, Webber, Jackson & Curtis. The company points out that while stocks have eased in recent sessions, the market has given up only one-third of the gain from February's low. The analyst says the general prediction is that fiscal and monetary restraints will bring about a slowdown in the economic growth rate, possibly as soon as this year's third quarter. Yet, the company adds, a renewal of that growth is expected next year.

Spear & Staff Inc. says it believes the market is approaching an area near a point where a "good upmove will develop." When it does, the analyst adds, investors can place more emphasis on holding and buying and less on cash reserves.

An economic slowdown is becoming evident but not necessarily in the areas desired by the administration, according to the Alexander Hamilton Institute. It points out that while the fundamentals for a change in the dominating market picture, it expects a return to a "more optimistic mood" soon. The analyst sees support in sight for the Dow Jones industrial average, followed by a summer rally to the 950-area once again.

Foreign News Commentary

By PHIL NEWSOM
The Russians are finding the going in the Middle East increasingly sticky.

They also are finding President Gamal Abdel Nasser far less tractable than they could wish.

That seemed to be the situation as of last week and when Soviet Foreign Minister Andrei Gromyko flew back to Moscow after a series of urgent sessions with the Egyptian leader.

Gromyko's mission was to lay before Nasser the details of a United States plan for peaceful settlement of the June, 1967, war, including Israeli withdrawal from the Sinai peninsula, the Gaza Strip and the West bank of the Jordan River.

Israel would retain Old Jerusalem and the Golan Heights of Syria. Nasser rejected it and Gromyko had little else to do than go along with him.

Through the weeks of U.S.-Soviet discussions, the Soviets had demonstrated their desire for a Mideast settlement by giving way on one important point. That was they no longer insisted on Israeli withdrawal to old boundaries as called for in the United Nations resolution of November, 1967.

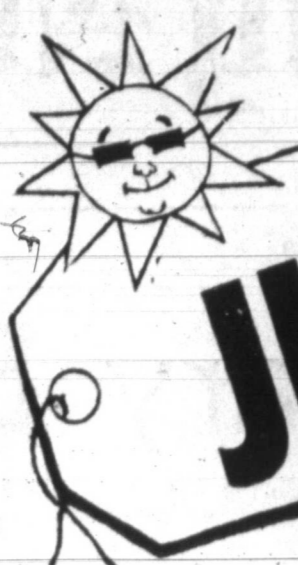

And the fact that Gromyko considered his trip to Cairo urgent was demonstrated by his departure from Moscow while the world conference of Communist leaders still was going on.

Pressures on the Russians to achieve some sort of forward motion toward a Mideast settlement are mounting.

First of all is Arab impatience at Russian failure to achieve Arab demands against Israel and a fear that Arab extremists might touch off a war which could involve both the Soviet Union and the United States.

Second is the role Red China might play in helping to touch off such a conflict.

While the Russians have warned that Arab commando raids only strengthen Israeli resolve to stand pat in present positions, the Red Chinese have offered the commandos all the help they need.

Answer to Previous Puzzle

US Sweeps Cong At Shau Valley

SAIGON (UPI)—Thousands of American troops swept through the A Shau Valley Tuesday in a new offensive near Hamburger Hill, the peak seized last month and later abandoned after one of the most controversial battles of the Vietnam War.

The new sweep of North Vietnam's main corridor into the northern reaches of South Vietnam began June 1 and thus far has killed 106 North Vietnamese and Viet Cong against American losses of 21 killed and 130 wounded. The

first announcement was with held until Tuesday for security reasons.

The offensive, dubbed Operation Montgomery Rendezvous, has produced no action around Hamburger Hill, the 3,000-foot peak which fell May 20 to the U.S. 101st Airborne division after 11 days of fighting.

The campaign for Hamburger Hill cost 53 paratroopers killed and more than 300 wounded. Sen. Edward M. Kennedy, D-Mass., said the battle was "senseless and irresponsible." Field commanders said it was a "gallant victory" and saved allied lives in the long run.

The U.S. command said Operation Montgomery Rendezvous, also involving the 101st Airborne Division, started about 24 hours after the termination of Operation Apache Snow, a similar push through the A Shau Valley that opened March 10.

Elsewhere in the northern provinces of South Vietnam Tuesday, U.S. Marines at a base camp 22 miles south of Da Nang hurried back an assault by more than 200 North Vietna-

SDS Are Splintered Into Seven Fractions, Says Staff Investigator

WASHINGTON (UPI)—A staff investigator told a Senate subcommittee today that the militant Students for a Democratic Society (SDS) is splintered into seven factions with a group following a pro-Chinese Communist line holding the upper hand.

Philip Manuel testified about the internal problems of SDS on the nation's college campuses after another staff investigator warned that the organization is pushing a doctrine of violent dissent in high schools, factories, city slums and at Army bases.

Manuel identified the "pro-Mao, pro-Chinese" splinter in SDS as the Progressive Labor Party. He said four "Trotskyite factions" rank next in influence. Least influential, Manuel reported, were the adherents of the pro-Soviet U.S. Communist party and a small West Coast group which he said follows Marxist-Leninist doctrine.

Vietnam Troops Make Plans To Re-Station

WASHINGTON (UPI)—Nearly 16,000 of the first 25,000 U.S. troops to be pulled out of Vietnam will remain in the Far East or Hawaii, it was disclosed today.

The Pentagon said 8,000 Marines—the 9th Regiment of the 3rd Marine Division—were ticketed for Okinawa; the 7,400-man 1st Brigade of the Army's 9th Infantry Division will go to Hawaii, and about 400 Marines from the 3rd Division's fighter support wing will be sent to Iwakuni, Japan.

With 1,200 Navy men scheduled to board ships in the withdrawal, the announcement left only 8,000 Army troops definitely slated for return to the continental United States.

The 8,000 will include 2,000 Army reservists and National Guardsmen, and the 2nd Brigade of the 9th Infantry and its supporting units.

Surcharge Bill Almost Past Its Initial Hurdle

WASHINGTON (UPI)—President Nixon's fight for a one-year extension of the income tax surcharge was almost past its first hurdle today—approval by the House Ways and Means Committee.

But the tax bill, which extends the surtax at 10 percent for six months and at 5 percent for another six, faces more formidable problems when it goes before the full House.

Unless extended the tax will die June 30. There were these other developments:

—Treasury Secretary David M. Kennedy rejected any compromise on the surtax measure, including extending it for only part of the year. The surtax, he said "is necessary for the economy. We must not reduce taxes at this time."

—Rep. Samuel S. Stratton, D-N.Y., said the surtax extension "is in deep trouble" so far as the full House is concerned because of delays on tax reforms. He said "the recent emphasis on tax reform and plugging tax loopholes has created a strong demand that we not extend the surtax without also doing something about loopholes."

Despite the continuing opposition from House liberals who are insisting on firm commitments on tax reform, the \$10 billion revenue bill was expected to pass the House eventually.

ROBERTSON TO SUCCEED HOLLYWOOD (UPI)—Actor Dale Robertson, a close friend of the late Robert Taylor, will succeed him as host of television's "Death Valley Days" series. Taylor, who died June 8, hosted the Western series for three years. He replaced Ronald Reagan when he decided to run for governor of California.

STADIUM SELLS (UPI)—Tarrant County commissioners formally approved a contract to sell Turnpike Stadium, home of the Texas League Dallas-Fort Worth Spurs, to the city of Arlington.

Summit Conference Locale Is Awkward And Depressing

WASHINGTON (UPI)—There is something awkward and possibly a bit depressing about national leaders holding so-called summit conferences on places such as Midway Island. At best, it is hard to understand.

The meeting of President Nixon and President Nguyen Van Thieu of South Vietnam certainly was in an atmosphere of no distraction, but the setting and the meeting itself lacked the majesty or regality of a Yalta, a Potsdam or the ramparts of the Citadel at Quebec City.

The one-day meeting on Midway between Nixon and Thieu cost a whole lot of money—not just the government, but the television networks, press associations, broadcasters, newspapers and magazines.

If the meeting accomplished anything in the direction of peace, cost would be a very minor factor. Also, the news-gathering organizations would have no basic complaint since it is their normal responsibility to go where news develops and report it.

Holding a meeting between chiefs of government and their staffs on Midway, however, is something like holding a national political convention in a small motel at Thurmont, Md.

Leaders such as Nixon and Thieu meet for two reasons—to make decisions, and then to communicate these decisions to the world.

The public relations impact sometimes can be as powerful as the decisions. In the case of Midway, there should be medals for members of the White House staff, the U.S. Navy and specialists of the major communications companies who accomplished a task which they first thought was absolutely impossible.

Within about a week, they converted an isolated little naval station on a tiny island into a massive, functioning communications complex—and it worked.

Naval personnel worked around the clock for seven or eight days, freshly painting the frame houses which would serve only for a few hours as residences for the two presidents.

Twenty or more automobiles had to be flown in from various Pacific stations because no private passenger vehicles are allowed on Midway—only a handful of public service vehicles for emergencies such as fires and air crashes.

around the clock for seven or eight days, freshly painting the frame houses which would serve only for a few hours as residences for the two presidents.

U.S. Employs New Operation In War

SAIGON (UPI)—The U.S. command disclosed today it mounted a new offensive that swept back into the A Shau Valley near Hamburger Hill, the mountain that was captured in a controversial and costly battle and then abandoned.

The new operation called Montgomery Rendezvous began nine days ago and has resulted in 106 Communists killed, spokesman said. U.S. losses were listed at 21 killed and 130 wounded in fighting near the hill that overlooks the border of Laos.

Size of the operation was not officially disclosed but a spokesman said it involved a "multi-battalion" force of 101st Airborne Division paratroopers, the same division that a month ago carried the brunt of an earlier operation, Apache Snow, in which the battle for Hamburger Hill was fought.

western edge of the A Shau Valley two miles from the border of Laos. A spokesman would not say how close the present fighting was to the hill.

Announcement of the new operation came as fighting flared over three-fourths of South Vietnam.

Military spokesman said U.S. and South Vietnamese troops broke a Communist ambush in the Central Highlands and burned back two ground attacks near the Demilitarized Zone and on the approaches to Saigon in a series of firefights which killed 211 Communist guerrillas.

TO MARRY

NEW YORK (UPI)—Retired Marine Col. John H. Glenn, the first American astronaut to orbit the earth, announced the engagement Monday of his daughter, Carolyn Ann, to John Michael Power of Houston.

Crosscurrents Give Economic Picture

Amid the crosscurrents present today in the economic picture, there is a great deal of controversy as to whether or not efforts to cool the overheated economy are bearing fruit. As a result, there is mixed feeling as to just how much, if at all, the anti-inflation credit policies of the Federal Reserve Board should be intensified.

The crux of this uncertainty lies in the painfully slow rate of progress thus far achieved in the attempt to blunt the inflationary potential. After all, the surtax has been in effect for over a year, and, except for the first few months

following the institution of the surtax, the monetary authorities have been keeping a tight rein on the supply of bank credit. Despite these measures the upward trends of business and prices have persisted.

While these developments provide strong support for proponents of an extension of anti inflation fiscal and monetary policies, opponents cite the danger of economic overkill, even though no signs of this have yet materialized. The strongest argument in favor of a cautious policy rests in the renewed uptrek in interest rates this past spring, which have produced virtual chaos in the

bond market, and which has put a crimp in what was expected to be a superlative year for the building field. Although part of the scramble for credit in recent weeks was due to corporate fund raising to meet the mid-June tax deadline, and even though credit conditions were not as severe as the celebrated 1966 credit crunch, the banking system is under definite strain.

At this juncture, it would appear that at least a brief respite is in order, now that the June corporate tax payment is out of the way. More important, with at least some signs of less heated economic conditions, and with the threat posed by tight credit and high borrowing rates, the monetary authorities may pump enough credit into the banking system to meet legitimate business needs. But any real ease in credit must await more definite containment of inflationary pressures.

OPEN A WARD'S CHARG-ALL CREDIT ACCOUNT TODAY

By Abigail Van Buren

DEAR ABBY: I am a 50-year-old widow who recently met a very charming and attractive 54-year-old widower. He is delightful company and we really hit it off together very well, but there is one drawback. He has two married daughters (whom I have never met) who want to run his life. They are so afraid that someone is going to "take Mother's place" they can't stand it. She died three years ago.

When this man takes me out we have to go places where his daughters will not find out about it. Also when he comes to my home he takes a taxi so no one will see his car parked in front of my house.

How can I convince him that he should live his own life and quit worrying about what his daughters think? Or do you think I should insist on meeting his daughters and try to make them like me?

IN DOUBT: If you can meet his daughters and make them "like" you, it would be ideal. But a grown man who is "hiding" from his daughters in the manner you describe has a lot of growing up to do. I certainly wouldn't hide with him much longer.

DEAR ABBY: Why should the men have all the fun? They seem to enjoy PLAYBOY magazine and their PLAYBOY CLUBS so much. How about women getting the same break?

There are a lot of guys with beautiful bodies who wouldn't mind being photographed for pleasure of women who can appreciate them.

I think a PLAYGIRL club would do a great business. After all there are more girls than men around, and why shouldn't they be able to go to a club and have good-looking, well-built men waiting on them? It's an idea, Abby. What do you think of it?

PLAYGIRL: Not much. In the first place there are plenty of muscle men magazines around if a girl wants to get her jollies looking at paper dolls. But what man in his right mind is going to take a girl to a playgirl club

so she can ogle good-looking MEN?

DEAR ABBY: Your article on marijuana was good, but I'll bet the subject of diet (or pep) pills will bring in just as much, if not more comment.

I started taking diet pills (dexadrine) when I was 19. It also helped to keep me awake, which I found helpful as I worked two jobs. Now, 10 years later, I am still taking them—only I am taking five times as much as I did when I started.

I am a married woman with three children and a good husband who knows nothing of my drug dependence—and that is exactly what it is.

I've never had a problem getting the pills. I don't get them illegally. Many of my friends take them, too, and we buy or borrow them from each other. We get them from our doctors on prescription.

I don't know where this is going to end. I smoke two to three packs of cigarettes a day and drink coffee like it was going out of style. My patience is short and I don't really have the energy I once had.

Let me offer one piece of advice to anyone who is about to take his first "pep" pill. DON'T. If you're overweight, DIET, but don't take pills for it. If you're tired, cat nap, but don't take a pill to pep you up. These pills make you smoke, drink, and talk too much. I never realized it, but I took more than I could handle when I took my first one. Don't use my name or city if you print this, and sign me

"HOOKED"
DEAR "HOOKED": Thank you for writing. You may have performed a tremendous service for a lot of people you'll never meet.

Regular Oiling Pays
It's easy to forget that appliances need oil regularly. Make a note on your calendar and oil vacuum cleaner, sewing machine and mixer. Some machines are permanently oiled. But check your instructions, then get in the habit of using a drop of oil where needed regularly.

Your Horoscope

JEANE DIXON

THURSDAY, JUNE 19

Your birthday Thursday: The pot of gold at the foot of the rainbow seems almost within reach all year long. So long as you go on the basis of never quite realizing the maximum advantage, you can fare quite well. Thursday's natives are clever at duplicating mannerisms of people they like.

ARIES (March 21-April 19): Your mature considerate attitude does much to preserve and improve your friendships.

TAURUS (April 20-May 20): Marketing details and various odds and ends of unfinished business take up most of your energies Thursday.

CANCER (June 21-July 22): Your expansive mood may carry you away into more involvements than are feasible. Work it off among old friends and confidantes who can be trusted not to seek advantage.

LEO (July 23-Aug. 22): Look at your attire in the nearest mirror and take a peek in wardrobe. Your spending is better done according to priorities.

VIRGO (Aug. 23-Sept. 22):

There are a number of things you need to buy now: clothes, gifts for those you care about, something for a hospital patient.

LIBRA (Sept. 23-Oct. 22): Participate in a festive outing provided it has a serious motif or good reason. Keep the fun and frolic in line with your plans and goals, but have a good laugh along with the others.

SCORPIO (Oct. 23-Nov. 21): Time invested in being agreeable to your fellow man is better than money now. Display the quality of your work among people who will talk about it.

SAGITTARIUS (Nov. 22-Dec. 21): Find every opportunity to call attention to the endeavors made by your team. Give credit wherever it is due, regardless of your feelings for the individuals involved.

CAPRICORN (Dec. 22-Jan. 19): Collect all that is coming to you and put it promptly to good use. Protect your interests with added savings.

AQUARIUS (Jan. 20-Feb. 18): There never comes a time when you don't need friends. Move over Thursday and let them share the kudos with you.

PISCES (Feb. 19-March 20): Make a list of the loose-ends of correspondence and other similar items. Clear off what you can Thursday and Friday. Make it fun.

Pledges-Officers Have Rituals

The Texas Delta Alpha Chapter of Phi Sigma Alpha Sorority recently held a pledge ritual and ritual for installation of officers for 1969-70 in the Cibola Room of Coronado Inn.

The ritual table was covered with white cloth, blue tapers and a center piece of white carnations. The three candidates, Mrs. A.C. Todd, Mrs. B. F. Dorman and Mrs. William H. Self, stood before the ritual table as Mrs. Wayne Couch, president, assisted by Mrs. Hugh Peebles and Mrs. Bernard Organ, administered the ritual.

The name of this order, Phi Sigma Alpha, is drawn from its motto, Friendship, the basic tie by which members are bound together, is represented by the letter Phi. Wisdom is the second word represented by the letter Sigma. Wisdom is the guiding virtue which determines the worth of their friendships and goals of their courage for letter Alpha represent courage the attribute which is necessary to fulfill their ideals.

Their colors are blue and white — celestial colors representing the blue sky, which, like their living circle, surrounds the world, and the white of perfect light which they seek to reflect.

The 1969-70 officers were installed in front of the ritual table by Mrs. F.L. Symonds, assisted by Mrs. R.L. Gordy. As each officer was installed they were presented a carnation signifying their office.

Mrs. Felton Webb, program moderator, was presented a yellow flower symbolic of golden words and of the glamour of her programs. Mrs. Tom Dunn, extension officer, was presented a red flower to represent stimulation her participation will bring to the sorority as a whole. Mrs. Marvin Silliman, treasurer, was presented a green flower which supplies the background for nature's colors," Mrs. Symonds said.

"Mrs. H.F. Cook, secretary, was presented an orange flower. Red and yellow is combined in the orange flower for red to represent the stimulation her letters will arouse for the sorority's activities and objectives. The yellow is symbolic of the golden words she will write. Mrs. Curtis Griffin, vice-president, was presented a blue flower which is a cool color symbolic of the soothing influence her advice will be for the president. Mrs. Bernard Organ, president, was presented a purple flower, long associated with leadership Mrs. Symonds said.

Sean Stephens Is Birthday Honoree

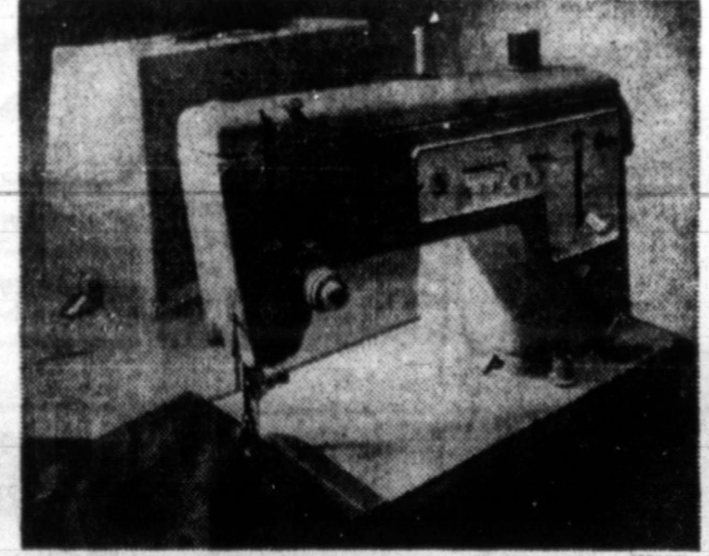

A birthday party was given recently celebrating Sean Stephens' fourth birthday in the home of his parents, Mr. and Mrs. Loyd Stephens, 1924 N. Wells.

A fire truck centerpiece with accessories, along with a cake decorated with a fire truck and a fire truck design on the napkins, plates and cups, were used in the party decorations.

Guests attending were Mrs. Bill Willis, Melissa and Lynn Don, Mrs. Roy Don Stephens and Lori. Mrs. Truman Ataway, Mrs. Tom Folmar and Brett, Mrs. Lonnie Loter and

CARNATIONS FOR OFFICERS — Six officials for Phi Sigma Alpha received carnations symbolizing their new offices recently during installation ceremonies in the Coronado Inn Cibola Room. Mrs. Fred L. Symonds, right, installing officer, presents the vice presidential carnation

to Mrs. Curtis Griffin, seated. Other officers watching the presentation are left to right, Mrs. F. K. Webb, program moderator; Mrs. Bernard Organ, president; Mrs. Harry Cook, secretary; Mrs. Tom Dunn, extension officer, and Mrs. Marvin Silliman, treasurer.

Wilkerson-Via Tea Held In Pampa Club

Miss Jo Clair Wilkerson was honored recently with a tea in the Crownshield Room of the Pampa Club. Miss Wilkerson is the bride-elect of Gary Via of Happy, Texas.

Hostesses for the occasion were Mmes. Nell Drew, Oma Drew and Lalr Wilkerson. The tea table was centered with tropicaca roses and carnations arranged on a five tiered candelabra with avocado green candles. A silver service and silver serving trays added beauty to the table.

Miss Karen Smithson, Canyon and Miss Martha Paris, Miami, served at the table while Miss Shelia Via, Happy and Mrs. Shelia Via of Tulsa registered the guests.

About 50 guest called during the afternoon.

Highlights and Sidelights From the State Capitol

By VERN SANFORD
Texas Press Association
AUSTIN, TEX. — Gov. Preston Smith plans to answer the state's big money question Friday (June 20).

He is expected to announce on a statewide television hookup whether he will veto the Legislature's one-year budget bill and if so, when the special session to mop-up the unfinished finance job will be scheduled.

At noon the following day the Governor will present further views on the subject when he addresses the 90th Annual Summer Convention of the Texas Press Association at Saturday's luncheon at the Inn of Six Flags in Arlington.

State officials are having a hard time agreeing on just how much money is coming in during the next year — and whether there will be enough for both the salary hike and the \$2.8 billion one-year budget.

BILLS CHALLENGED

— Governor Smith left up in the air the fate of 41 bills and 13 concurrent resolutions passed at the last minute by the recent Legislature. He challenged their validity on two counts.

Smith said the measures — one of which created 28 new district courts — were not signed in the presence of the House and the Senate by the lieutenant governor and the speaker as required by the constitution. He contended that they were signed after the Legislature already had gone home. In addition, they reached him seven days later than they should.

A thorough study will be made of their legal status before he acts, pledged Smith. Legislative leaders contend that a logjam of bills caused processing delays that are commonplace at the end of sessions. They say that other governors have not complained.

EDUCATION—Twenty-three college and university educators from around the state have sent Governor Smith a letter asking that he not veto the bill that will increase the cost of education to students by \$10 a semester. They are the presidents and chancellors of the various state supported schools. They point out that vetoing the bill will cost the state \$4 million a year.

State Board of Education has appointed fifteen representatives from the state's educational profession — including college administrators, classroom teachers, superintendents and principals — to a commission to study standards for the preparation of school administrators. Appointments are for two years and the group

is charged with finding ways to train the people who will eventually run the school systems.

Governor Smith has announced the establishment of three continuous programs of meetings and conferences with high school, college and non-student young people in order to gain "positive understanding and solution to the main problems facing our state."

These three new organizations include: the Governor's Conference of College Leaders, to consist of college and university student body presidents and other campus leaders; the Governor's Hall of Honor of the Texas Youth Conference, made up of all presidents of major high school youth organizations in the state; and a Governor's Council on Young People, concentrating on out-of-school young people, emphasizing career problems and understanding of the democratic system.

Boy's State, sponsored by the American Legion, and Girl's State sponsored by the American Legion Auxiliary, both aimed at teaching top high school students the ways of Texas government on a "learn by doing" theory, held their annual meetings in Austin.

BOND CAMPAIGN MAPPED — Committees to ramrod a campaign for a \$3.5 billion water development bond issue have been formed under the direction of Governor Smith and former Governors Allan Shivers, Price Daniel and John Connally.

Smith called for a statewide education campaign, warning that the state "stands on brink of water deficiency" unless an imaginative, positive program is carried out.

Austin Attorney and former Ambassador to Australia, Ed Clark, heads the finance committee. Barnes will be chairman of senate participation and House Speaker Gus Mutscher directing activities of state representatives. Membership in overall campaign committee includes all but nine Texas legislators. Legislative "holdouts" include two senators and seven representatives.

COURTS SPEAK — An Amarillo woman won a Supreme Court order of a new trial in her suit against a doctor for malpractice. Court said the doctor should have called in a specialist.

Supreme Court agreed that the city of Houston should get a new trial of its suit to force the Houston Independent School District to pay building inspection fees.

Nueces County oilfield worker hurt in a well-testing accident got Supreme Court approval of a \$74,568 judgment.

DREDGE PRICE PROPOSED — Parks and DREDGED PARKS and suggest a price of 10 cents a cubic yard for fill material dredged from shallow coastal waters for shoreline buildup.

Not only the price, but the whole idea of dredging ran into criticism at public hearing.

APPOINTMENTS, HONORS

— Governor Smith appointed C.B. Maynard of Bastrop, judge of the 21st judicial district, filling the unexpired term of the late Judge John S. Simmang of Giddings.

Rep. Ray Lemmon of Houston was the special representative of House Speaker Gus Mutscher at the Marine Technical Society's convention of Oceanography held Monday at Miami Beach.

Mrs. Malcolm Milburn of Austin has announced as a candidate for vice chairman of the Republican party of Texas.

State Education Commissioner Dr. James W. Edgar was presented the first Civil Air Patrol Aerospace Education Leadership Award.

LCB RULES ATTACKED

New Liquor Control Board rules for operation of private drinking clubs face a court attack.

Suit was filed in district court here by two Dallas club operators. They protested in particular prohibitions on cash sales and strict limitations on guest card provisions. Rules, they argued, would close about 75 per cent of clubs now operating.

SHORT SNORTS
In reply to a request by Comptroller Robert S. Calvert, Attorney General Crawford Martin ruled that a bill giving state financing to the program of student teaching is not effective until Sept. 1, 1970.

HOLLYWOOD (UPI)—Television censorship is the subject of the latest issue of the Journal of the Producers Guild of America. And one of the articles, written by novelist-producer David Levy, a former NBC vice president, deals with censorship, politics and the new comedy.

A moderate man, Levy notes that "What today's generation finds refreshing, challenging, and irreverent these days on television, an older one sometimes finds sophomoric, cliché, old hat. If there is one human characteristic on which all generations tend to agree it is that each generation must relive the experiences of past generations."

Computer To Work On Solving Arms Control

By BERNARD BRENNER
WASHINGTON (UPI) — A computer operated by the Agriculture Department has been put to work solving problems of arms control, the lumber industry and road designs, along with dozens of other fields.

Government agencies which might have had to spend \$2,000 a month or more to solve increasingly complex problems with computers have found a way to have that cost. They are leasing access for \$600 a month to the Agriculture Department's "time-sharing" computer.

Purchased by the department's Statistical Reporting Service (SRS) several years ago for its own use, the \$1 million computer was converted to a time-sharing basis last October in a move designed to help other agencies meet their computer needs at relatively low cost.

The computer, located in the Agriculture Department's headquarters here, currently serves a total of 15 different Agriculture Department agencies and 17 others in other branches of the federal government. Each "customer" agency is linked to the computer by telephone lines connected to a typewriter-style terminal in the user's office.

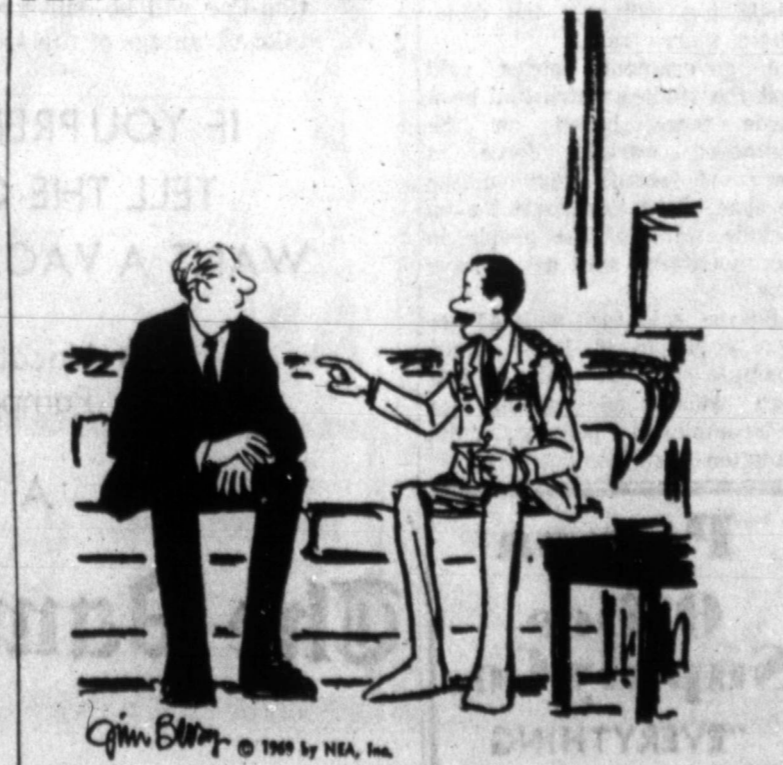

Agriculture Department officials said they plan to add additional government clients during the next six months until they reach a total of 6 separate users.

With use held at this level, an official explained, each client will have full-time use of the computer since the equipment is designed to process data fast enough to handle 63 operations at the same time.

Vernon, Waters, an Agriculture Department official, said the cost of the kind of service the agency's program offers was estimated last fall to be equivalent to a commercial service then quoted as \$2,300 a month.

The SRS computer here is used largely for research and management problems, Waters said.

BERRY'S WORLD

"I don't worry! If America ever pulled out completely, we could probably get Russia to take her place."

Texas Railroad Commission has reset for July 7 hearing on 26 applications for agricultural haulers' permits on a request by the applicants' attorney.

Governor Smith told a state Beautification Conference in Austin that the state spends \$2 million a year in picking up trash on highways.

First Texas project under a new cooperative plan to increase capacity and safety of streets and highways in urban areas (installation of ramp

metering equipment for a freeway control system on 10.2 miles of US 75 in Dallas) will be let to contract this month by the Texas Highway Department.

Users of water from public streams must record their

claims with the Water Rights Commission by September 1 (Domestic and livestock users are exempt).

State Securities Board issued more permits in May for the sale of securities than in any previous month in history.

The Lighter Side

By DICK WEST

WASHINGTON (UPI)—The success of Gov. Nelson Rockefeller's goodwill visit to Latin America may encourage President Nixon to send his former political rival on other missions of that type.

Many observers here believe Rockefeller's next presidential assignment will be a goodwill visit to the Senate Foreign Relations Committee.

One diplomat with whom I discussed this possibility said he thought a great deal might be gained by such a visit.

"If Rockefeller did visit the committee, we would not expect his welcome to be as warm and friendly as the one he has received in Latin America," the diplomat said.

"It would show, however, that the Nixon administration is interested in the committee's problems and wants to create an atmosphere of mutual respect and understanding."

"There is a feeling throughout much of the committee that U.S. presidents only pay lip service to the 'good neighbor' concept. Rightly or wrongly, many members feel they have often been exploited by the White House, and at other times virtually ignored."

"They complain that the White House either fails to consult with them on matters of mutual interest, or else demands a rubber stamp endorsement of policies that are then pursued independently."

"Moreover, they feel that Nixon has devoted most of his time and attention to the House Ways and Means Committee. This has caused a lot of resentment and unrest in the Foreign Relations Committee."

"Clearly, some sort of gesture is needed to overcome these hostile reactions."

Good Presidential Envoy

I said, "Why do you feel that Rockefeller would be a good presidential envoy in such a situation?"

"The governor has visited the committee numerous times in the past," the diplomat pointed out. "He can talk knowledgeably about its operations and is personally acquainted with many of its leaders."

"Beyond that, he carries enough prestige in his own right to impress the committee, which is very protocol conscious."

I said, "what are the chances that something worthwhile would be accomplished?"

"Admittedly, the Foreign Relations Committee would be more difficult to handle than Latin America."

Television In Review

By RICK DU BROW

HOLLYWOOD (UPI)—Ronald Reagan, now governor of California, was the host of television's long-running "Death Valley Days" series when he left to enter politics.

Since then, the hosting duties of the venerable show have been handed down to a succession of personal friends. Reagan, for instance, was followed as the host-headliner by his close friend Robert Taylor. Their closeness was indicated recently when the governor spoke at Taylor's funeral.

Now, with the death of Taylor, another friend of the late actor has been chosen host of "Death Valley Days." He is the veteran Western star Dale Robertson, whose last network series was "Iron Horse" on ABC-TV. It was a solid action entry, with Robertson playing the swashbuckling head of a railroad on frontier days.

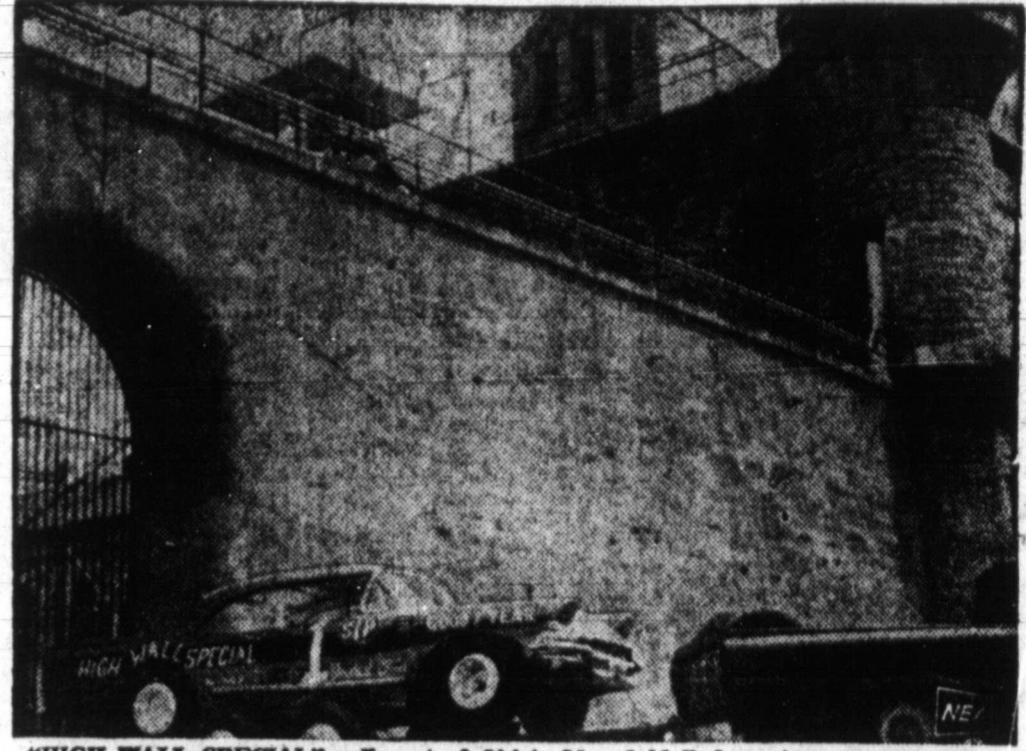

Some other notable changes in major television series have been announced.

CBS-TV, for instance, finally made it official that Leonard Nimoy, the popular Mr. Spock of NBC-TV's cancelled "Star Trek" series, will star in at least several episodes of "Mission: Impossible" in the coming season.

Since Martin Landau, one of the regulars of "Mission: Impossible," apparently is leaving the show because of some differences with executives, Nimoy's addition to the series is more pointed.

Performed With Spouse

Viewers of the recent Emmy Awards telecast will recall that Landau's wife Barbara Bain, who has performed with him in "Mission: Impossible," was rather emotionally critical—while accepting an acting prize—of several unnamed executives. She, too, apparently is leaving "Mission: Impossible."

"HIGH WALL SPECIAL" rolls out of Ohio's Mansfield Reformatory en route to a nearby dirt track for weekend racing against the best outside competition in the area. With it ride the hopes of 50 inmates in the prison's automotive mechanics class who recommended it. Three go along for every race as pit crew.

WORLD ALMANAC FACTS

Ford's fabled Model T, which sold for \$290 to \$350, was known for its Spartan simplicity. The World Almanac says, Model T's indifference to measuring devices, for example, makes the dashboard of today's cars resemble the instrument panel of a DC-3. Of course, Tin Lizzie didn't have reminders to fasten seat belts or release the brake, but neither did it have temperature, gas, oil or speed gauges.

FOUR DROWNED

PORTREATH, England (UPI)—A huge wave smashed into a jetty where eight persons were strolling Monday night, sweeping them into the sea. Four of them drowned. Lifeboats and Royal Air Force helicopters recovered the others at this resort on the coast of Cornwall.

NASA INVITATION

WASHINGTON (UPI)—The National Aeronautics and Space Administration has invited all members of Congress, and one member of each of their families, to Cape Kennedy July 16 for the space shot which it hopes will put a man on the moon.

NEW ICC RULES

WASHINGTON (UPI)—The Interstate Commerce Commission has proposed new rules to change the way moving companies estimate weight and probable charges for their customers. "It appears that in many instances carriers are prone to underestimate the probable charges."

Rahman Use To Call Malaysia 'Happy'

By United Press International

Only a little more than a month ago, Prime Minister Abdul Rahman could call his land "happy Malaysia."

He had led Malaya, or Malaysia as it became later, peaceful independence from Britain and in the dozen succeeding years had welded its Malay majority and a powerful minority of Chinese and Indians into a Southeast Asian model of political stability and economic health.

But a month ago the storm clouds which always had lain just below the horizon released a torrent of hate and in bloody communal rioting more than 100 persons, most of them Chinese, died.

The outbreak raised unexpected doubt about Malaysia's future and will weigh heavily upon this week's conference among the leaders of Malaysia, Singapore, Australia, New Zealand. Light naval vessels from future when Britain will have completed her withdrawal of troops east of Suez in 1971.

The withdrawal has been going on steadily over the last

Working Man's Plight Is Bad

LIMA, Peru (UPI)—Peru's working man is having trouble finding a job, and his plight grows worse by the day.

The Peruvian government prefers to classify the problem as underemployment rather than unemployment.

But the symptoms are the same.

Recent study by the Peruvian military junta said that unemployment was only 5 per cent in Peru, but that underemployment was 35 per cent.

According to the study, an underemployed person is one earning less than 2,000 soles, about \$45 per month, or who is working less than 40 hours per week.

In 1967, a similar government study placed the unemployment figure at 4 per cent and the underemployment figure at about two-thirds of what it is estimated now.

"The ones that are hurt the worst are in construction, commerce and agriculture," a diplomatic source said.

"If you figure the figures for unemployment, and underemployment together, it adds up to about 40 per cent," one government source said. "And that is startling."

But, he said, the Peruvians, like all men, had to eat, and when they didn't have one kind of job, they found other ways to employ themselves, "even to selling pencils on the corner," the government source said.

The uncertainty over the future of U.S.-Peruvian relations, brought on by the deliberations over Peru's expropriation of the International Petroleum Co., has resulted in much of the job scarcity, a diplomatic source said.

But an independent survey of labor unions, businessmen and workers showed that the Peruvians do not necessarily blame their work problems on the government, "but on the whole big picture," the diplomatic source said.

A government source said that the studies which had been made were based on the estimated working force in Peru of about four million persons, "and this doesn't even include some of the people in the mountains who never have jobs."

But he said that with 40 per cent of Peruvian labor either unemployed, or making less than \$45.00 per month as underemployed persons, "the situation is serious."

It could be embarrassing:

- NOT to know about a wedding!
- NOT to know about a death!
- NOT to know how the neighbor boy's baseball team was doing!

Fact Finding Campaign Leads To Brasilia

BRASILIA (UPI)—New York Gov. Nelson A. Rockefeller headed for Rio de Janeiro today, having completed a second meeting with President Arthur da Costa e Silva and talks with leaders of the nation's suspended congress.

Rockefeller arrived late Monday from New York and spent an hour and 45 minutes with Costa e Silva, who has ruled by decree since September when he suspended congress. It was the third segment of a trip to Latin America for President Nixon. The Nixon administration will use the facts Rockefeller gathers in trying to formulate a new Latin American policy.

Brazil's military-backed government made every effort to prevent the anti-American demonstrations that have made turbulent the first two parts of Rockefeller's tour to Latin America. The government jailed nearly 100 suspected political agitators and changed Rockefeller's route from the airport to Rio's downtown.

The government said he would be flown from Galiao International Airport to Santos Dumont Airport in downtown Rio in order to avoid taking him past the University of Rio de Janeiro's Veterinary School. Rio is 700 miles from Brasilia, the nation's modernistic inland capital.

Leaflets urging demonstrations when Rockefeller arrives circulated in Rio and police stationed 1,200 police to maintain order.

Brazilian diplomats said the nearly two-hour meeting with Costa e Silva may have been the most important of Rockefeller's tour.

Rockefeller was also meeting with Pedro Aleixo, vice president of the senate; Senate President Gilberto Marinho and chamber president, Jose Bonifacio.

Brazil had been the third largest recipient of U.S. aid after Vietnam and India. But the aid program was curtailed after Costa e Silva seized near-dictatorial powers and closed congress.

Foreign Minister Jose de Magalhaes Pinto welcomed Rockefeller on his arrival Monday at Brasilia.

Brazil is South America's most populous nation with 90 million people and its largest, with more land area than the United States without Alaska.

Rockefeller will go to the nation's largest city, Sao Paulo, Wednesday then to Uruguay and Paraguay at the end of the week.

'Texas' Opening Set for June 27

PALO DURO CANYON—The curtain goes up for the fourth season June 27 for the Paul Green musical-romance of the Panhandle history in the Palo Duro Canyon State Park outdoor theater.

Opening night of the "Texas" production will be a glowing tribute to the people from all nations, an International Night, presented as a gift from those who have supported the show through the years.

Special guests of the Texas Panhandle Heritage Foundation, which produces the show, will be busloads of American Field Service Students who will be in the area on that evening.

They will be greeted by their countrymen who live in the area and who also will be guests of the Foundation.

Since the beginning of the productions, "Texas" has been listed among the United States Travel Service's Festivals USA and advertised extensively with the other festivals publicized by the USTS. The USTS is currently translating materials concerning "Texas" and distributing them abroad.

As a result of the publicity visitors from 63 different countries signed the guest book last year.

Longhorns Win, Collect 14 Hits In World Series
 OMAHA, Neb. (UPI)—There is no tonic like 14 runs to make a baseball team feel better.

So the Texas Longhorns — fresh from a 14-1 tromping of Mississippi — feel a little better going into tonight's game against New York University.

They still realize, however, that a loss means elimination from the College World Series.

It's up to pitcher Larry Hardy and the suddenly revived Longhorn bats to make sure elimination does not come this evening.

"We hit the ball better today," Texas coach Cliff Gustafson said in an obvious understatement after Texas eliminated Mississippi from the double elimination tournament.

"The boys felt like they were swinging better. Like I said yesterday, we are not out of this thing yet."

The Longhorns have suffered one loss — that a 4-2 decision to Tulsa on Monday — and one more defeat will send the club back to Austin.

Hardy, who has not yet pitched in the tournament, got the call for today's game from Gustafson after ace freshman Burt Hooton won Tuesday's contest.

Gustafson took Hooton out in the seventh inning after Texas had run up a 12-0 lead.

"We took him out to rest him," said Gustafson. "He should be able to come back Friday, or possibly on Thursday if we got in a tight situation and needed him."

Hardy is returning to the scene of his greatest day. He threw a one-hitter last year in the College World Series against Brigham Young — the only game Texas won here last year.

NYU as well as Texas needs a win tonight to stay in contention. The same Tulsa team that downed Texas blanked the Violets 2-0 Tuesday night.

American Legion Game Doubtful

The American Legion baseball game between the Pampa Rebels and Amarillo scheduled to be played here tonight was in serious doubt due to rain in Pampa.

If the rain continues and the contest is cancelled the Rebels next game will be Saturday against Perryton at Optimist Park.

National League Roundup

Hebner, Hisle Are New Super Stars

By United Press International
 Richie Hebner and Larry Hisle, two of the National League's most promising young stars, continue to demonstrate why they may be the superstars of the future.

Hebner, a 20-year-old third baseman who passed up a number of inviting pro hockey offers to sign with Pittsburgh, singled in the decisive run in each game as the Pirates swept the Chicago Cubs Tuesday night, 1-0 and 4-3.

Hisle, 22, drove in four runs with a run-scoring single in the seventh inning before deciding to hit in the ninth with a bases loaded single.

Matly Alou doubled in the seventh inning of the opener and scored on Hebner's single off Ferguson Jenkins. The Pirates loaded the bases in the ninth inning of the second game on a single, an error and an intentional walk before Hebner lined his single over the drawn-in outfield with one out.

seven-run seventh inning in the opener with a six-run outburst in the fourth inning of the nightcap to tie the Padres twice. Andy Kosco's two-run homer, his 12th of the season, highlighted the seven-run inning in the opener and Willie Crawford's three-run shot capped the second game rally.

LARRY HISLE ... young star

American League Roundup

Tigers Making Their Move But Can't Catch Baltimore

By United Press International
 The Detroit Tigers are making their move now but they've found themselves on a treadmill.

Washington, 5-1, to boost their percentage to .726. Baltimore leads the second-place Boston Red Sox by seven games and the Tigers by 8½.

World Series hero Mickey Lolich went 7-2-3 innings to boost his record to 7-1. Don McMahon finished up the final 1-3 innings after the Yanks touched Lolich for three runs when he was coasting with a 6-0 margin.

Ken Harrelson snapped a 2-2 deadlock with a single in the eighth and scored on Cap Peterson's sacrifice fly as Cleveland topped Boston for the first time in eight games since last Aug. 22. Stan Williams pitched a six-hitter to gain the victory for the Indians while Jim Lonborg suffered the loss.

Homer by Rick Reichardt and Bill Voss and triples by Jim Spencer and Aurelio Rodriguez highlighted a 13-hit attack as California romped over Minnesota.

A pair of Detroit newcomers, Tom Tresh and Ike Brown, and a relief pitcher who rarely starts, John Hiller, were key players in the Tiger sweep.

Tresh, picked up this week from the Yankees, started in the first game at shortstop and collected two hits and scored two runs as Hiller pitched a six-hitter to even his record at 2-2. Bill Freehan and Mickey Stanley also homered as the Tigers beat Mel Stottlemyre, now 9-6.

In the second game, Brown, just called up from Toledo of the International League col-

lected two hits and scored two runs. His first major league hit in the fourth was a two-run homer.

won 11 of its last 13 and eight straight on the road. Cuellar pitched no-hit ball for 5-1-3 innings before Frank Howard doubled. Hank A'Len ruined Cuellar's shutout bid with a run-scoring double in the eighth.

But the problem for the Tigers is that they're still not gaining on the high-flying Baltimore Orioles, who've won six of seven.

On Monday night, Smith said, "Baltimore can't keep up that 7-21 pace." He was right. On Tuesday night, the Orioles beat

the International League col-

lected two hits and scored two runs. His first major league hit in the fourth was a two-run homer.

won 11 of its last 13 and eight straight on the road. Cuellar pitched no-hit ball for 5-1-3 innings before Frank Howard doubled. Hank A'Len ruined Cuellar's shutout bid with a run-scoring double in the eighth.

With Rozelle Over Differences Jet's Namath Agrees To Meet

NEW YORK (UPI)—Retired New York Jets quarterback Joe Namath, who insisted he will not allow pro football Commissioner Pete Rozelle to run his off-the-field activities, has agreed to confront Rozelle personally, probably sometime next week.

Namath, making his first personal contact with the club officials since his announced retirement June 6, met with Jets President Phil Iselein Tuesday in an attempt to set up the meeting with Rozelle.

Namath has denied any knowledge of alleged gambling activity at his New York City nightclub, but Sunday he hired a private detective to keep out undesirables.

Rozelle's office reported Monday that hiring the detective did not change Namath's status and said Namath would have to meet personally with the commissioner on the matter.
