PRICE AND FRIEND — Panhandle Congressman Bob Price talks with Korean War comrade and long-time personal friend "Buzz" Aldrin inside a mock-up of the LEM capsule. This picture was taken during an earlier visit by Congressman Price to the manned Space Flight Center in Houston. Price flew in combat missions with Aldrin and they have kept up their friendship since that time.

NATIONAL OBSERVANCE

'Man In Space' Week Proposed By Price

WASHINGTON — Shortly after the safe splashdown of the historic Apollo 11 Mission, Congressman Bob Price of Pampa introduced a resolution in the House calling on President Nixon to proclaim the third week in July of each year as National Man in Space Week.

Price said there will be many honors and celebrations awaiting the three astronauts after completion of their mission duties. But after the ceremonies have been concluded and the honors accorded, some means must be provided by which the American people can remember, celebrate, and be inspired by the deeds and achievements of all our men in our space program.

In Price's view, a National Man in Space Week would be an appropriate means to pay tribute. He observed that "The United States presently has no official period of commemoration for our space program, yet we will go down in history as the Nation that brought the world into the Space Age."

The Texas Panhandle Republican declared that the momentous feat of landing a man on the moon will rank in history with Columbus' landing on this continent and discovering a new world. He said that the seconds before the landing of Eagle on the moon's surface will be remembered as one of the moments of greatest drama in the history of man, and the phrase, "The Eagle has landed," will be added to the collection of immortal phrases that have marked man's progress through the ages.

Price, a member of the prestigious House Science and Astronautics Committee declared, "Man's curiosity to explore the unknown, and his desire to fathom the mysteries of his being, his world, and his universe, will be well served by further space exploration."

Congressman Price's name appears on the silicon disc which the Astronauts left behind them at the lunar landing site. The disk carries the names of Congressional leaders, and miniaturized messages from 72 heads of foreign governments and Pope Paul VI as well as statements on the space program by former Presidents Eisenhower, Kennedy, Johnson, and President Nixon.

AUSTIN (UPI) — The Texas Legislature convened today to try to do in the dog days of summer what it was unwilling or unable to do last spring — levy more than \$300 million in new taxes.

The legislature was scheduled to meet at 11 a.m. for its second special tax session in as many years.

Gov. Preston Smith planned to address a joint session, between 11:30 a.m. and noon to present his spending and taxing recommendations.

Aides said Smith's tax proposals would be "simple," though perhaps not as simple as some legislators would like.

There is considerable sentiment in the House to simply raise the state sales tax from 3 to 4 per cent, but Smith said he will not recommend that.

His spending recommendations were expected to be merely a revision of the \$5.9 billion two-year budget he proposed last February.

It was the legislature's refusal to pass a two-year budget, and Smith's veto of the one-year budget that was passed, that required the special session.

Lt. Gov. Ben Barnes and Speaker Gus F. Mutscher, the chief advocates of annual budgeting, said they would support a two-year budget. (See LAWMAKERS, Page 2)

Supporters Urge Kennedy To Stay In Washington

HYANNIS PORT, Mass. (UPI) — Cries of "We're with you, Ted," greeted Sen. Edward M. Kennedy as he entered St. Xavier Church here, his third public appearance since the fatal accident last weekend which caused the drowning of pretty blonde secretary Mary Jo Kopechne.

Kennedy, accompanied by his pregnant wife, Joan, and two of his three children sat motionless in his pew Sunday as Msgr. William Thomson read from the Epistle of St. Paul:

"No test has been sent you that does not come to all men. Moreover, God keeps his promise. He will not let you be tested beyond your strength. He will give you with the test a way of emerging from it successfully, and you may be able to endure it."

The Massachusetts Democrat was mobbed and applauded as he entered and emerged from the white clapboard church while thousands of telegrams continued to flood the Kennedy compound urging him not to resign.

In his dramatic television statement Friday night Kennedy had said that his admission of guilt to leaving the scene of the fatal accident had caused him to ponder the possibility of resigning his U.S. Senate seat.

Rene Page of Marshfield, a regional supervisor of the Western Union Telegraph Co. office in Hyannis, said Sunday somewhere between 25,000 and 30,000 telegrams had been delivered to the compound since Saturday morning.

Jury Selection Starts In Trial

AUSTIN (UPI) — Lawyers today began picking 12 persons out of a group of more than 400 who will decide the fate of Clyde Durbin Jr. of Dallas, a university dropout charged with the murder of two other college students.

The Austin trial was in connection with the slaying of John Albert White, 22, of Corpus Christi, whose body was found at a popular picnic spot just northwest of Austin in Travis County.

Durbin also faces a murder charge Sept. 29 in Burnet County in connection with the death of White's date, Keitha Morris of White Deer, Tex. The two victims were students at the University of Texas at Austin. Durbin was formerly a student at the same university.

More than 400 Travis County residents were called as prospective jurors for the trial.

AFTERMATH — Robbie Adamson, 37, 1003 E. Scott, was treated and released at Highland General Hospital Sunday night after the car she was driving struck a cow on a Farm-To-Market Road about 10 miles south of the Celanese Chemical Plant. After striking the cow, which was killed, the woman's car ran off the roadway and through a fence.

Scientists Work On Pair Of Finds About Nature Of Moon

SPACE CENTER, Houston (UPI) — A week after two Apollo 11 astronauts lifted off their surface, scientists today worked on a pair of important new finds about the nature of the moon.

While astronauts Neil A. Armstrong, Edwin E. "Buzz" Aldrin and Michael Collins relaxed in the commodious quarantine quarters of the Lunar Receiving Laboratory (LRL) in Houston, tape-recording everything they could recall from their flight, scientists said:

At least one of the dusty black rocks Armstrong and Aldrin brought back from their two-hour walk on the lunar surface was igneous—formed by hot liquid or partly-like material which later cooled.

Several sizeable tremors have been recorded on the moon's surface since the astronauts set out a little moonquake meter during their walk including 14 in the last two days which are believed to have been moonquakes, and one believed to have been a five minute moonquake, proving the moon is not dead.

Armstrong, Aldrin and Collins spent more than six hours Sunday taping their recollections of their journey, covering the flight equipment and the trip from the earth to the moon in two sessions. They resumed today with the actual landing, moonwalks and their return to earth still to be covered.

They were visited Sunday by

their families who talked to them through a window. After a dinner break and a final debriefing session, Armstrong and Collins played a game of ping pong and Aldrin watched a movie before retiring.

Dr. William Carpenter, the physician who accompanied them to Houston after their Pacific Ocean splashdown, said all three men were in excellent condition and had received no

medication of any type since returning to earth. Carpenter also disclosed that the three astronauts, space engineer John Hirasaki and himself had all come into direct contact with powdery-like lunar surface material with no ill effects.

Technicians worked around the clock on the lunar rocks and soil, which were flown to the Space Center from the recovery carrier Hornet last week.

No Clues In Killing Of 20-Year-Old Coed

ANN ARBOR, Mich. (UPI) — Fear is no stranger to the young women who attend the University of Michigan in Ann Arbor and Eastern Michigan University seven miles away in Ypsilanti.

They knew fear again today as the search went on for the killer who left Karen Sue Beineman face-down in a ditch, by a leafy side road, nude.

The discovery of her body was made Saturday night by a neighborhood couple. Police revealed it Sunday morning, hoping the killer would return. He didn't.

Karen Sue is the eighth of these in the last two years to die, by violence in this land of academe, cultured voices, rolling hills and tall trees blotting

out the moon while the rain falls.

Most of the bodies have been found after a night of rain, as was Karen Sue's. Many of them appear to have been stripped of some special possession—an earring, perhaps, and Karen's ears were pierced and empty. Some of their clothing was piled neatly by their bodies.

In Karen Sue's case, Sheriff Douglas Harvey would only remark that there were "some articles there" in the grassy ravine where she was found a scant 7 feet from well traveled Huron River Drive just outside Ann Arbor. He would not elaborate.

The first to die was Mary Fitzbar, 19, Willis, Mich.

American Command Says 10 Persons Dead

SAIGON (UPI) — Guerrillas shot down a U.S. medical evacuation helicopter as it lifted off a battlefield on South Vietnam's northern coast, the U.S. Command said today. All 10 persons aboard were killed.

U.S. military sources said today that for the first time in months they had no indication that Communist forces had set a date for a new offensive.

Communist forces firing automatic weapons riddled the Marine Corps CH46 "Sea Knight" helicopter Sunday as it lifted off 22 miles south of Da

Nang and 345 miles northeast of Saigon.

The crash killed nine Americans aboard the chopper along with a wounded Viet Cong prisoner. The U.S. dead included five Marine crewmen of the helicopter, two Marine passengers and two Navy hospital corpsmen.

Military spokesmen gave no details on the fighting where the helicopter was downed but said three clashes north of Saigon Sunday resulted in 159 Viet Cong and North Vietnamese killed without any U.S. losses.

The six-week-old lull continued. In fact, top military sources said there was no indication of any new Communist offensive.

"The enemy just isn't doing much," one high level source said. "We have no firm indications of his future plans and no conclusive reasons why the anticipated July offensive has not yet materialized."

The U.S. Command announced today that 750 additional men of the U.S. 9th Infantry Division will leave Vietnam Wednesday under President Nixon's plan to withdraw 25,000 American troops by the end of next month.

The men who are leaving make up the 4th Battalion of the 39th Infantry and will be flown from Bien Hoa Air Base near Saigon to Hawaii.

It will bring to nearly 7,000 the number of American troops withdrawn under the reassignment plan.

In the heaviest fighting reported today, troops of the South Vietnamese 1st Infantry Division killed 26 Communist troops in a battle 25 miles southeast of Hue.

Communist gunners blasted 12 targets overnight but none of the attacks was against U.S. forces or installations, U.S. spokesmen said.

Two battles in the northern war zone Saturday cost U.S. Marines 14 dead and 27 wounded—accounting for most of the American casualties listed for the weekend in Allied combat communiques.

Military spokesmen characterized the weekend fighting as light and scattered and said they did not consider it serious enough to have broken the lull that settled across the battlefield 41 days ago.

Viet Cong and North Vietnamese artillerymen shelled six towns and Allied military outposts during the night, causing light losses. No major American bivouacs were hit, the announcement said.

Gen. Creighton W. Abrams, U.S. Command sent five waves of B52 bombers against suspected guerrilla hideouts around Saigon and Pleiku in the Central Highlands in overnight raids intended to forestall a Communist push.

Abrams and Ambassador (See GUERRILLAS, Page 2)

Nixon Promises Aid To Indonesia, Goes To Thailand

JAKARTA (UPI) — President Nixon left Indonesia today confident the future of the country is in good hands and flew to Thailand for discussions on the Vietnam War and the shockwaves it is generating in neighboring countries.

Nixon's stops at Manila and Jakarta during the weekend were a diplomatic warmup for the problems awaiting him on the Asian mainland. Shortly before he took off from Jakarta, five guerrillas believed to be Communist-led attacked the U.S. Air Base at Ubon, Thailand, 400 miles northeast of Bangkok, wounding a GI and damaging two planes.

The U.S. military commander in Vietnam, Gen. Creighton W. Abrams, and Ellsworth Bunker, U.S. ambassador to Saigon, were to meet Nixon in Bangkok.

There were reports Nixon would take advantage of his relatively elastic schedule in Thailand to make an unannounced trip to Vietnam for a first-hand look. He will stay three days in Thailand before going on to India, Pakistan, Romania and Britain.

The President's 22 hours in Jakarta were a mixture of intensive talks and old-fashioned barnstorming. He talked and he mingled with cheering crowds.

In a brief farewell statement, Nixon told President Suharto the United States was "glad to work with Indonesia."

He invited Suharto to visit the United States and Suharto accepted. No date was set.

"I leave confident that the future of this country is in good hands," Nixon said. "The chances for a great economic breakthrough for Indonesia are better than ever before."

At his meetings with the army general who ousted Sukarno and stopped Indonesia's drift toward communism, Nixon pledged full cooperation toward helping the woeful Indonesian economy.

"We want to be with you, we (See NIXON, Page 2)

Narcotics Use Reported On Increase in Pampa

By RON CROSS

(Second of Four Articles)

No law enforcement official in Pampa will say that problems with drugs among our youths here are really serious.

Nor will they say use of drugs is becoming a serious problem. But, it has been learned the use of narcotics and glue sniffing is on the increase in Pampa.

Smoking marijuana is becoming quite common among a minority of Pampa youths. It is the minority smoking it

now but tomorrow it could be a great deal more than that.

A drug addict is a person who has developed such a need for a drug that he has lost control over his life.

A narcotics addict is someone who is addicted to opium, morphine, heroin, cocaine, marijuana, codeine, meperidine and a few other less common drugs.

It is estimated about nine billion or more amphetamine (pep pills) tablets are produced each year. This is sufficient to

provide each man, woman and child in the United States with 50 doses of "bennies" each year.

It also has been estimated that over half of these are distributed through nonmedical or illegal channels.

It is pretty easy to tell when someone is taking these drugs in excess.

They become restless, have rapid speech, cheerfulness and euphoria at first, which then progresses to irritability, tension and anxiety, slurred

speech, loss of balance, grinding teeth, rapid pulse, dry mouth, weight loss and eventually convulsions, coma and death.

The amphetamine abuser is most likely to complain of headache, nausea, sleeplessness and exhaustion.

Habitual users of amphetamine eventually commit crimes in order to meet their needs for the drug; have aggressive outbursts and may seek heavy narcotics.

Barbiturates may be far more

dangerous than narcotics when they become a habit.

A person may develop a physical and emotional need for them and develops a tolerance for the drug.

A barbiturate abuser may develop the symptoms of toxicity (poisoning) at any time and at anytime is capable of taking an overdose of pills.

Tranquilizers can also become habit forming.

Many, many persons have died from an overdose of tran-

quilizers, which cause coma and death.

Many traffic accidents have been caused by taking too many of the so-called pep pills and goofballs since they cause drowsiness, delayed reaction time of reflexes and blurred and fuzzy vision.

These drugs shouldn't be taken in the first place, but if you are a drug user, think of someone other than yourself and don't drive, police advise. (Tuesday: Hallucinogens, LSD.)

Results Released For Industrial Activity In June

The U.S. Department of Commerce recently announced results of industrial activity for the month of June. The report showed a much greater degree of vitality in business than many had anticipated. The Federal Reserve's Index of Industrial Production was reported to have made a 1.2 point advance for June compared with the previous month, rising to a level of 173.9, on a seasonally adjusted basis (1957-59 = 100). Strength in industrial activity continued to encompass a fairly broad range of business lines. The most surprising aspect of the report was the upsurge in auto output, although this may have been only a brief rebound reflecting the previous two months' retardation of production, due to labor strikes.

The strong showing of the economy at the midway mark of this calendar year remains an enigma to the monetary authorities and the Administration. Last year's imposition of the surtax was supposed to be a dampening influence on business, and certainly the added restraint of the various anti-inflation monetary policies should have slowed the upturn of industrial activity by this time. Instead, the economy has been resisting efforts to halt its upward thrust.

It is true that consumer spending - after adjustment for the rise in prices - has evened off, and residential building has slumped in reaction to the high mortgage rates. But these are currently about the only trouble spots. The federal government has cut back its spending, but this has been more than offset by continued hikes in outlays by state and local governments.

Pampa Soldier Picks Up Man Posing As Girl

A Pampa soldier, home on leave, will probably be a bit more choosy the next time he picks a girl friend.

Pampa Police Sgt. Danny Honeycutt said in a police report that he had just driven to the police station early Monday morning when he saw a car come to an abrupt halt and the driver jump out.

Honeycutt said he drove to the vehicle, grabbed the driver and started to get the passenger in the car when the door was slammed and the car took off.

The officer said he ran to his car to give chase but the other vehicle was out of sight.

The driver Honeycutt took to the police station was the soldier who told a hair-raising story.

He told police that he was picked up by a blonde-headed young lady who told him she had broken up with her boyfriend and needed company.

The soldier said she let him drive her car and he immediately drove out in the country to "talk."

Police were told by the soldier that when he parked the car and started to comfort the girl, but when he put his arm around her and hand on her face he was suddenly shocked.

The "girl" needed a shave.

The soldier said he quickly drove back to town, stopped the car and was going to drag the "girl" back to the police station.

But "she" pushed the soldier out of the car but not before the soldier was able to pull two blonde wigs off "her" head and hit the female impersonator in the mouth.

The soldier said the "lady" sported a crewcut and was dark haired.

Police were looking for a 1963 Ford Galaxie, light tan in color. The soldier's "girlfriend" wore a tannish brown shirt and bellbottom pants with blue and white stripes.

Young Pampa Boy Confesses Theft

Two young Pampa boys, one 13-year-old and the other 14, have been implicated by police in the theft of \$110 in coins from the Junior Roach residence, 730 E. Scott.

According to a Pampa Police report the 13-year-old confessed to taking the coins and implicated the 14-year-old.

The case was investigated by patrolman Stanley Brown.

Equipment Stolen From Pickup

Pampa Police were investigating today the theft of a saddle and roping equipment from a White Deer man.

Charlie Jackson told police his pickup and two-horse trailer was parked on Brown St. Saturday night following the rodeo and someone took a saddle off his horse.

Jackson said he is also missing a new nylon rope two blankets, a sweat pad and harness, all valued at \$296.

Obituaries

DR. STERLING TRACY

Funeral services for Dr. Sterling Hill Tracy, dean of liberal arts and professor of English at Belknap College, Center Harbor, N.H., were conducted today at Laconia, with the Rt. Rev. William F. Gates, Episcopal suffragan bishop of Tennessee officiating. Burial will be Friday in Memphis, Tenn.

Dr. Tracy, a native of McMinnville, Tenn., was graduated from the University of Wisconsin in 1922 and received a doctorate from Yale University in 1930. He was ordained an Episcopal priest in 1937.

Dr. Tracy was widely known as a journalist throughout the country having worked on the Memphis Commercial Appeal as a reporter from 1918 to 1924 and served as editor from 1925 to 1930.

During the 1930's, while serving as lecturing professor of ancient history at Columbia and Georgetown Universities, he was commissioned to write several of President Franklin D. Roosevelt's "fireside chats."

More recent journalistic activities included writing the script for the national TV program series "Night Court" and as editor of publications for the Episcopal Order of St. John the Evangelist in Cambridge, Mass. (the Cowley Fathers).

Dr. Tracy was a member of a pioneer Texas-Oklahoma panhandle family. His father, the late Dr. James N. Tracy, a physician from Memphis, Tenn., came to Clarendon in 1891 and was first Justice of the Peace at Cheyenne, Okla. in 1893. In 1915 the Tracy family purchased land west of Pampa and ranching interests in Donley and Armstrong Counties.

Dr. Tracy was the nephew of Mrs. David W. Cary of Pampa and cousin of Fred A. Cary and Tracy D. Cary of Pampa.

School Trustees Will Meet To Approve Paving

Pampa School trustees will meet at 8 p.m. today to approve paving contracts, and discuss a replacement for Weldon Trice, assistant principle of Pampa High School.

Trice has resigned his position here to take the post of assistant-dean of student life at West Texas State University. "No definite decision will be made tonight, but we do need to discuss the position. We hope to fill it within our present ranks and not employ someone new from out of the system," Superintendent Dr. James F. Malone said.

Trustees will review paving contracts which have been completed and authorize payment for seven parking lots paved this summer at Robert E. Lee Junior High School, Pampa Junior High School, Pampa High School, Austin, Lamar, and Baker Elementary Schools and Carver Center.

The board will meet at Carver to examine the interior remodeling which is being done this summer. School administrators expect to move their offices from Pampa Junior High School to Carver Aug. 9. All administrative offices except the tax office will be moved, Dr. Malone said.

Nixon

(Continued From Page 1)
want to assist you in any way that you think is appropriate," Nixon said at a state dinner in Negara Palace.

Privately, he told Suharto the United States would continue its \$129 million annual assistance to the country, fifth most populous in the world, which has a per capita income of \$82 a year.

Guerrillas

Cool Front Goes Through Texas Bringing Relief

By United Press International
Thunderstorms covered a wide area of the state today, and a weak cool front moved down through Texas bringing a slight relief from the sweltering summertime temperatures.

The radar station at Fort Worth reported thunderstorms in a 14 mile wide belt ranging from 30 miles northeast of Junction to 40 miles east of that Southwest Texas city in Kimble County. The storm moved towards the southwest at 17 miles an hour.

The same station reported a thunderstorm in Central Texas bordering on Killeen, Temple, College Station and Austin. That storm moved south at 12 miles an hour.

Galveston radar spotted thunderstorms over 20 per cent of an area from Houston east into Louisiana plus widely scattered light showers southeast of Galveston.

The cool front stretched early today from Midland to Texarkana and the showers in Southwest and Central Texas were caused by the front. The U.S. Weather Bureau said the front would travel south today, but the showers with it would become more widespread and lighter.

Skies were generally cloudy to partly cloudy over most of the state where rain was not falling. Temperatures ranged from the mid to upper 60s in the Panhandle to the 70s or low 80s elsewhere.

Showers fell Sunday from North Central Texas to the South Plains. Four inches was reported southwest of Stephenville in Central Texas, 2 1/2 inches in Huckabay and more than an inch in Graham and Seminole.

MARKHAM APPOINTED

WASHINGTON (UPI)—Charles B. Markham of New York has been appointed a deputy assistant secretary in the Department of Housing and Urban Development. Markham, former research director for the U.S. Equal Employment Opportunity Commission, will be in charge of metropolitan development.

FIRMS HONORED

WASHINGTON (UPI)—Two firms have won "Employers of the Year" honors from the President's Committee on Employment of the Handicapped. Honored for their record in employing severely handicapped workers were Pace Industrial Corp., Merrimack, Mass., and the Caterpillar Tractor Co. plant at York, Pa.

SOVIET UNION AHEAD

WASHINGTON (UPI)—The Soviet Union still is ahead of the United States in space feats which could be used for military purposes, Sen. Strom Thurmond, R-S.C., said Sunday.

In recent years the Soviets have concentrated their space experiments in boosting heavy payloads into space near the earth," Thurmond said in a newsletter. "Such activities have a much greater potential for military applications."

RODGERS ADMITTED

NEW YORK (UPI)—Song writer Richard Rodgers admitted to the hospital Saturday, suffering from a slight heart attack was reported improving today. The 67-year-old composer was described as "very sick" when taken to the hospital.

Lawmakers

(Continued From Page 1)
eting, both said they will drop that approach, at least for this year, and work on a traditional biennial budget.

Rep. W. S. Healy, D-Paducah, the powerful chairman of the House Appropriations Committee, said the budget will call for about \$286 million in new taxes - \$14 million less than the figure observers felt Smith planned to propose.

Healy said the bill his committee would propose, however, was "not too far apart from the governor's bill."

In an exclusive interview with KTCB-TV in Austin, Healy said the committee's budget of \$3.749 billion was the product of three different summer committee meetings during which members used the old bill as a guide.

Healy said the bill was roughly \$40 million larger than the one proposed by his committee during the regular legislative session.

His bill, he said, would include "substantial increases" for the "judiciary" and "mental health and retardation."

Dear Abby

By Abigail van Buren

DEAR ABBY: I belong to a bridge club. One of our members announced yesterday that she was planning to get married next month.

After she left, one of her closest friends said, "The man she's marrying lost his wife only six months ago, and I think out of respect to her memory they should wait a full year."

Everyone agreed with her except me. I said, "They are both seventy years old. They've known each other practically all their lives, and although they are both in fairly good health, who knows how much time either of them has left? And if they want to make the most of the remaining time, what's wrong with that?"

How do you feel about it, Abby?

DEAR READER: Under the circumstances I think six months is long enough.

DEAR ABBY: About three years ago I was a bridesmaid for a sorority sister who had an elaborate church wedding. She received many lovely gifts. The marriage didn't even last through the honeymoon. It was quietly annulled, and none of the wedding gifts was returned. (I am not sure if that is the bridegroom took them all when he left.)

Now this sorority sister is planning another wedding. I am the only man's friend. Are we her friends, obligated to be as generous this time as before? Or will our good wishes suffice?

SORORITY SISTER: DEAR SISTER: A gift is a gift, never an obligation. Obviously you resent that small voice within you which cries, "Buy the girl another gift," but you can hardly blame the girl if her husband, the heel, made off with them. So I say, buy another gift.

DEAR ABBY: I don't understand why "Bothered" should be so bothered because her husband looks at strange women and comments about them.

My husband and I are both "people watchers" who thoroughly enjoy sharing with each other our observations. The other day he said, "Look at that fat fanny." I said, "Where?" He said, "Over there."

I looked, and it was a fat fanny. I remarked, "Poor dear."

We call each other's attention to "nice legs," a cute old couple walking arm in arm, smartly dressed women—and men. And slob, too.

People watching is not rude. It's fun. Let's face it, half the people who go out for dinner want to be seen. The rest are there to eat.

Through the years I have become sharper in my observations. My specialty is spotting lost children who I

grab, halt, and confront until their mothers find them in the crowd.

I started people watching 35 years ago back on the farm. I asked Granny why everybody went into town on Saturday nights and just sat in their cars. Granny said, "Just to watch the people go by."

Times really haven't changed much. "Bothered" should join the club.

PEOPLE WATCHER: IN HERMOSA-BEACH CONFIDENTIAL TO "LUNLUCKY" IN CHICAGO: I don't believe in luck. The only really good luck a successful man ever had was developing whatever it took to overcome bad luck.

Block Continues Informal Party On Starkweather

About 50 Pampans revived their traditional back-yard-tee-ee-farm party recently with a block party at Mr. and Mrs. Calvin Whatley's home, 1120 N. Starkweather.

Guests were Mr. and Mrs. Cecil Bradley, Pampa, and Mr. and Mrs. J. R. Bonner, Borger. Mr. and Mrs. Bonner started the traditional block party 11 years ago by sponsoring an informal yard social for Mr. and Mrs. Winston Bryant who have moved to Odessa.

Since then, the 1100 block of North Starkweather has become known as the "friendliest block in Pampa" where neighbors are neighbors and not just the family who lives next door.

Mrs. T. H. Lockhart, said. The block earned this reputation for its residents' habit of frequently visiting each other, waving to friends as they pass by on the street, welcoming new neighbors with an informal-block social, and helping each other in times of family crises. Whenever a family moves away, whether it's across town or out of town, their neighbors give them a going-away party, she said.

Nine individuals and 17 couples attended the traditional yard party this year.

FASHIONABLE TIMING

Fashion means timing — what to wear when — especially in leisure and far-out styles. Respecting local taste and customs shows tact; to flout them indicates you don't know better or don't care.

Test colors on yourself as you would test perfume, to find which do most for you. Then measure the degree of contrast you can wear before you tend to disappear.

If you want to intensify a color, like your luscious red hair or lovely blue eyes, use its opposite, or a duller shade of the same color, or a lighter value of the same color. To down out a color like too yellow or too red complexion, spot with a color that is just the reverse.

Your Horoscope

JEANE DIXON

TUESDAY, JULY 29, 1969

Your birthday Tuesday: Your objective view of the situation is the most important factor, then meditate until you are sure you have the proper perspective. You probably must make the essential decisions alone now. Tuesday's natives often achieve prominence in their communities because of wit and amiable qualities.

ARIES (March 21-April 19): This is another lively day in which everything can be fun, even if you have a lot of work. All are willing to meet you halfway. The evening is whimsical.

TAURUS (April 20-May, 20): Again, your personal affairs run counter to your career interests. Do what you have to do for the job and then reconcile the home situation as simply as can be managed. Let criticisms go unanswered.

GEMINI (May 21-June 20): Your information is incomplete and contains contradictions. In the meantime just be practical. Attend to the immediate situation, and let decisions wait.

CANCER (June 21-July 22): The end of a long cycle, there may be changes. For some, relocation is at hand. Meditate, give your intuition more chance.

LEO (July 23-Aug. 22): Let the past, all of it, lie Tuesday. Go through your wardrobe, closets for discarded charity can use. Replacements should be considered later, only as the need arises; perhaps a new one will be necessary.

VIRGO (Aug. 23-Sept. 22): Your normal cleanliness comes in good stead Tuesday. Keep a bit of distance between yourself and strangers, avoid contagious ills. Skip the chores for once, let somebody else do them.

LIBRA (Sept. 23-Oct. 22): Speculation in either love or money causes a bad rebound today. Be straight forward and conservative, without reading

special meanings into anything.

SCORPIO (Oct. 23-Nov. 21): Conclude matters as they have been; consolidate your new activities and keep moving forward into the future you have planned and worked so long to achieve.

SAGITTARIUS (Nov. 22-Dec. 21): No reason to change anything now. Nobody talks sensibly or means what he says. Travel connections are out of kilter. You can make a shopping bargain in the confusion.

CAPRICORN (Dec. 22-Jan. 19): Seek skilled counsel, then think about the advice before acting on any financial matter. Figure that most of your plans will falter or have to be put off to another time. Keep to a light diet, exercise.

AQUARIUS (Jan. 20-Feb. 18): Sign nothing that can be delayed until a later date. Discussions so fill the day and evening that you may not get to a signing time anyway. Differences with partners, neighbors are par for the course. Nothing to get excited over.

PISCES (Feb. 19-March 20): Instead of argument with officious people, spend your energy making sure that your home and property are intact and protected. Let criticism from loved ones go unanswered. There will be time.

Cloche Hat is Back: Work on your spit curls—the cloche hat is back and very "in" for fall.

Now Possible To Shrink Painful Hemorrhoids

And Promptly Stop The Itching, Relieve Pain In Most Cases.

New York, N.Y. (Special): Science has found a medication with the ability, in most cases — to promptly stop itching, relieve pain and actually shrink hemorrhoids. Tests by doctors proved that in case after case, while gently relieving pain, actual reduction of the inflamed hemorrhoids took place. The secret is Preparation H. There's no other formula like it! Preparation H also soothes irritated tissues and helps prevent further infection. In ointment or suppository form.

Knits are dearer by the dozen. These six sweaters represent 12 different styles to knit for girls in sizes 4 to 12. Knitting instructions are available.

Knitter Receives Letters For Sweater Suggestions

By JUDY LOVE. The postman brings me a hefty sack of mail this time of year, filled with requests for knitting instructions in young sizes. This is the season when mothers — and doting grandmothers, too — knit for September's school belles. Sweaters are the single most popular item. You knitters ask for cardigans, pullovers, V-necks, turtle-necks and what have you.

To keep little girls happy and keep their moms busily knitting, I've gathered together a group of sweaters in a good choice of styles and yarns. The six toppers I'm featuring today actually represent a dozen

different styles that you can make — merely by changing the neckline or the length of a sleeve. Instructions call for Spinnerin yarns in a choice of three weights from light to heavy plus a choice of yarns within each weight category. If it's diversity you're looking for, your search is over. All sweaters — with long or short sleeves feature smartly tailored set-in detailing, and the instructions are given for sizes 4-12. For your copy of the knitters' dozen, send 50 cents to Stitchin' Time, in care of this newspaper, P.O. Box 503, Radio City Station, New York, N.Y. 10019.

Pinson Helps Cards In Pennant Drive

By United Press International
Vada Pinson was supposed to be pennant insurance for St. Louis so the Cardinals now hope to cash in on their policy. Replacing the retiring Roger Maris, Pinson was slated to combine with Lou Brock and Curt Flood to form the best outfield in the majors. Well, it hasn't quite worked out that way—but the Cards still hope Pinson may help lead a comeback bid. He drove in three runs while extending his hitting streak to 18 games Sunday as the cards blasted San Francisco, 8-2. The Cards gained ground since both the Cubs and Mets were beaten—Chicago lost to Los Angeles, 6-2, and New York was beaten by Cincinnati, 6-3. In other National League

action, Atlanta, leading the Western Division by one game, beat Montreal, 8-2. Houston edged Philadelphia, 3-2, in 11 innings, and Pittsburgh topped San Diego, 4-1. Pinson doubled home two runs in the Cards' five-run second inning and drove in another with a sacrifice fly in the first. The fly sent home Brock, who was hit on the right elbow with the ball as he reached third and left the game at the end of the inning complaining of stomach pains. Rico Carty ignited a seven-run seventh inning with a two-run homer that snapped a 1-1 tie and carried Atlanta past Montreal. Jim Britton worked seven innings and allowed two hits and five walks while gaining his fifth victory against one loss.

Pam-Tex Wins
Pam-Tex has won the city farm team baseball tournament, sponsored by the Pampa Optimist Club. Pam-Tex roared through the tournament with a perfect 10-0 record in the league for youngsters ages 9 through 12. Each player was presented a trophy by Ed Myatt, team sponsor.

Rawls Beats Berning For LPGA Championship

By United Press International
KIAMESHA LAKE, N.Y. (UPI)—Hitting her shots perfectly and putting deftly, 41-year-old Betsy Rawls of Spartanburg, S.C., became the oldest golfer to ever win the Ladies Professional Golfers Association championship Sunday. "It was one of the best rounds I've ever played," said Betsy after taming the Concord

Hotel's championship course in a smile crossing her face. The two-under-par 71 for a three-stroke victory over Carol Mann and Susie Maxwell Berning. "To play this course without taking a bogey is really something," she added, a big

Carter-Ellis Win Amarillo Golfing Title

Calm, cool and deliberate Buster Carter and his college partner Richard Ellis made a shambles of the 18th annual Amarillo Partnership tournament Sunday. Carter and Ellis, who will be the headline attractions in this year's Top O' Texas golf tournament, strolled over Ross Rogers golf course to upset tournament favorites John Farquhar and James Herring, 21-20. The loss by Farquhar and Herring was the worst in the tournament's history. The Pampa duo cut down the Amarillo pair on the 26th hole of the scheduled 36-hole event. They also beat them last year, but only 2-up. Carter, who is always one of the favorites here, and Ellis, who is a former Pampa Harvester golfer and now a member of the Texas A&M team, lost in the finals of this tournament last year. The winners were 16 under par when they ended the slaughter. Farquhar and Herring were 13 points down at the end of the first 18 holes of play. Carter had carded four birdies and an eagle on the first five holes. They then began with five more birdies on the next 18 to wipe out any hope of victory for Farquhar and Herring. Carter shot a three-under par 68 the first 18 and Ellis was right behind with a two-under 69. It was Ellis who put the icing on the cake twice chipping in shots from 40-55 feet out on No. 13 and 18.

Floyd Records New Mark In Akron Victory
AKRON, Ohio (UPI)—Brach Raymond Floyd had that certain feeling and told a few people that he was ready, willing and able to conquer "the monster" and the field in the \$125,000 American Golf Classic. "But none of the press believed me. I didn't see anything in the Akron and Cleveland papers," Floyd quipped. "Maybe they'll believe me now." Never had the par-70, 7,180-yard Firestone Country Club course been manhandled the way the 26-year-old pro from Lake Havasu City, Ariz. brought the long and treacherous monster to its knees with a record-shattering 12-under-par 288.

BROADWAY JOE—New York ace quarterback Joe Namath hugs the Gemini Twins who'll have a part in his first Hollywood movie.

American League Roundup

Bosox Break Drought In Six Hours, 20 Innings

By United Press International
All the Boston Red Sox needed was a little time to get warmed up. They had the time, 5 hours and 52 minutes worth, and after scoring only once in the first 18 innings Sunday they came up with one run in the 19th and three more in the 20th to beat the Seattle Pilots 5-3. Joe LaHoud's two-run homer, scoring pitcher Jim Lonborg in front of him, was the decisive blow in the longest game of the major league season. Seattle used 24 players and Boston 21, breaking by one the American League record for total players in one game. The Baltimore Orioles, running away with the Eastern Division flag in the American League, needed only one inning to push away from Chicago and they went on to trounce the

SPORTS

The Pampa Daily News

White Sox, 17-0. Elsewhere, Minnesota edged Cleveland, 8-7, Oakland beat Washington, 7-2, Kansas City turned back Detroit, 7-2, and California edged the New York Yankees, 5-4. After Boston and Seattle went scoreless for 10 innings, the Red Sox snapped the tie in the 19th when Carl Yastrzemski doubled home Syd O'Brien from first base. But the Pilots evened it in their half of the inning on a walk to Steve Hovley, a sacrifice and Jim Pagliaroni's single. Tommy Harper homered in the bottom of the 20th for Seattle's final run. Frank Robinson hit two homers and Boog Powell and pitcher Jim Hardin one apiece as the Orioles stretched their lead to 12½ games over Detroit. Robinson drove in five runs with his 24th and 25th homers and Powell's blast, with one man on, was his 27th. Hardin allowed Chicago only two hits, both to Bobby Knoop, and retired the final 20 batters he faced in winning his fifth game. Minnesota maintained its three-game lead over runnerup Oakland in the West as Leo Cardenas hit a three-run homer and Harmon Killebrew drove in his 94th and 95th runs. Rookie Jerry Crider, working in relief, was credited with his first major league victory although he allowed the Indians two runs in 2 2-3 innings. Danny Cater drove in four runs with a homer and bases-loaded single in Oakland's triumph over Washington. Lew Krausse allowed only five hits and retired 10 of the last 11 batters he faced to boost his record to 6-4. Ken McMullen homered for the Senators.

SOLID STATE Air Control

Friedrich is the first in the industry with solid state controls on units from 9,200 to 15,800 BTU's. Dial the exact volume of cooled air, as precisely as you dial a radio. Larger Friedrich units have 5 fan speeds, smaller ones have 2-speed fans. The Friedrich blower is the quiet-running turbine type that delivers more cooled air more efficiently.

COMPARE and you'll buy Friedrich

- Low operating costs
- More sound-silencing insulation
- Bigger coils
- Multi-directional air flow

No other air conditioner cools like Friedrich... so quietly, so economically

COMPARE Service AND YOU'LL BUY HERE!

EVER STRIVING FOR THE TOP OF TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

An Open Letter To Sen. Edward M. Kennedy

You have asked the people of Massachusetts to help you decide whether you should resign your seat in the United States Senate. Although you were elected by the people of Massachusetts, there looms a very basic and vital question which affects the people in every state in the Union.

The Big Bills Bow Out

Very few of us, unfortunately, are in a position to feel a personal sense of loss in the passing of some not-so-familiar faces from the financial scene. They are the visages adorning \$500, \$1,000, \$5,000 and \$10,000 bills, denominations which the Treasury is withdrawing from circulation due, in a way, to lack of interest.

The Almanac

Today is Monday, July 28th, the 209th day of 1969 with 156 to follow. The moon is full. The morning stars are Venus and Saturn.

Sensing The News By THURMAN SENSING

The Guidelines
In the 15 years since the U.S. Supreme Court handed down its controversial decision in the school cases, public education in many parts of the nation has suffered severely.

Doctrinaire liberals in both parties insisted that the Nixon administration order a general extension of the guidelines. A controversy raged both in and out of the administration, and a new policy statement has been released.

It is hard for the ordinary citizen and parent to make sense of this statement. Sen. Strom Thurmond (R-SC) has said it is an improvement, though it falls short of his desire for a true freedom-of-choice plan.

The country, and the nation's school children, need relief from political and judicial management of public schools. School trustees cannot efficiently administer school tax funds if they have to spend all their time trying to meet complex formulas devised by HEW officials.

So it isn't a question of whether they are affluent, but whether they will pay later. Applicants for the credit are screened by the citywide coordinating committee as to whether the applicants are sincere in continuing welfare as a career.

Hardship Dictates Easing Desegregation In Alabama

By BRUCE BLOSSAT
Washington Correspondent
WASHINGTON (NEA)—No one has ever charged the tough-minded federal court panel at Montgomery, Ala., with softness on the issue of public school desegregation.

The situation in Alabama is, of course, unique in one important respect. When the late Gov. Lurleen Wallace sought to impede school desegregation by seizing the locally rooted public school system, she gave the federal court a surprising opportunity to act in sweeping terms.

Clearing House

We are enclosing a copy of the Texas Conservation Council's Newsletter on the Texas Water Plan and the \$3.5 billion bond issue which the voters are asked to approve on Aug. 5.

There is said to have been testimony, too, from Negro leaders who want the all-black school kept open, in part because it serves as a heavily used center for neighborhood community functions.

Touchy Problem for Nixon: Realistic Testing of Minuteman

WASHINGTON — President Nixon, himself, may have to make the decision on whether the Air Force may test-fire Minuteman missiles from operational silos, across part of the United States and into the Pacific Ocean.

The Doctor Says

By DR. W. G. BRANSTADT
Once Fastened to Body, Ticks Hard to Dislodge
Although only a small proportion of wood ticks are infected, those that are can transmit Rocky Mountain spotted fever (tick-borne typhus), tularemia and tick paralysis.

Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)
QUESTION: Your answer to a question July 14 is certainly an imperious blast at pensions.

ANSWER: We clearly said that "if both the employer and employee agreed to the pension plan there can be little objection. That in effect would be a voluntary pension plan and compulsory retirement which are damaging."

HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives in Washington and Austin. Here are their addresses.
STATE: Rep. Malouf, Abilene, Central Texas; Sen. Grady, Hazelwood, Canyon, Texas.
FEDERAL: Rep. Bob Price, 507 Cannon House Office Bldg., Washington, D.C. 20515; Sen. John Tower, Senate Office Bldg., Washington, D.C. 20510; Sen. Ralph Yarborough, Senate Office Bldg., Washington, D.C. 20510.

NEW STORE — Shelby J. Ruff Furniture has moved to a new location, 2111 N. Hobart. With 20 years of experience in supplying area residents with their furniture needs, Ruff is offering an even larger variety of furniture items to choose from. Convenient terms can be arranged for financing and free delivery is available at Shelby J. Ruff Furniture, 2111 N. Hobart. (Photo by Bob Kelly)

Shelby J. Ruff Furniture Stocks Variety Of Items

For about 20 years Shelby J. Ruff Furniture has been providing area residents with a wide variety of fine quality furniture items. The store carries furniture items from baby cribs to maple china closet. There are sofas and sleepers made by Kroeler, Jones and Smith; reclining chairs by Berkline, bedroom furniture by Owosso; maple dining room furniture by Garrison; and box springs and mattresses by Sealy and Plainview Mattress. Shelby J. Ruff Furniture also carries the more decorative furniture items—such as end tables, coffee tables, lamps and famous painting reproductions. Low overhead keeps prices down at Shelby J. Ruff Furniture, and liberal trade-ins are allowed on new furniture purchases. Shelby J. Ruff Furniture has recently moved into a new building at 2111 N. Hobart. Everyone is invited to come in, look around and visit. Convenient credit terms can be arranged and free delivery available on any purchase.

COMPLETE DRUG NEEDS — Your drug needs are as close as your phone when you have them filled by B & B Pharmacy, at the corner of Ballard and Browning. B & B also stocks name brand cosmetics, a variety of cigars and smoking needs, Russell Stovers chocolates and many drug needs. (Photo by Bob Kelly)

FINGER LOOKIN' GOOD — Ward's Kentucky Fried Chicken, 1501 N. Hobart, serves delicious Col. Sander's Kentucky Fried Chicken. Why cook at home these hot summer months when you can pick up a chicken dinner complete with rolls, potatoes, baked beans and other preferred trimmings? (Photo by Bob Kelly)

Pharmacy Carries Needed Drug Items

B & B Pharmacy, Ballard at Browning, has a wide variety of drug and gift items to fill your needs. Two full time registered pharmacists staff the prescription department which includes a full line of every day drug needs. And free delivery is available. Many top name cosmetics are available from the cosmetic counter at B & B: Frances Denney Jacqueline Cochran, Bonne Belle (non allergic), Dorothy Gray, Cover Girl and Revlon. Smoking needs? B & B can supply these, too. They have an especially large variety of cigars for the cigar fancier to choose from. B & B also sells film and film developing and with each eight good negatives gives away a free roll of film. With every purchase, customers at B & B Pharmacy receive their choice of S & H Green Stamps or the new United States Savings Stamps with which they can purchase United Savings Bonds. B & B Pharmacy is open Monday through Saturday from 9 a.m. to 8 p.m.

Cable Offers Best Reception

Poor television reception can no longer be blamed on antennas for 13 million cable TV subscribers. This figure includes about 2500 Pampans who subscribe to the service through Pampa Cable TV, 1421 N. Hobart. The community antenna system uses a large master antenna which picks up signals from many television stations, amplifies and filters them to remove interference, and then distributes them throughout the city through a network of cables. A small wire similar to a telephone wire is run from the cable into the homes of subscribers. The outlet location is chosen by the owner. Since the television set is connected directly to the cable, there is no longer any need for an antenna. Besides improved reception, the lack of dependence on the antenna adds several benefits itself, such as eliminating damage problems from wind and lightning and making the home of the subscriber look more attractive. Cable TV greatly improves reception on black and white television. And it does wonders for color TV. But improved television reception is only part of the cable TV story. Residents who have not been able to use their FM radios previously can pick up a total of six stations from Amarillo, Spearman, Dalhart and Dumas through their cable outlet. Cable subscribers can pick up more television stations than they once could. Pampa Cable TV manager Al Williams has applied for programs from Dallas and Ft. Worth and eventually hopes to get a station from Los Angeles. Community service programs can be broadcast locally. Already Pampa subscribers can monitor the weather and read community bulletins of station 122. On August 4 a 24-hour all electronic news service including vital local notices will be added to the cable service.

MORE FEDERAL HELP — WASHINGTON (UPI) — Speaking before the aviation subcommittee of the Senate Commerce Committee, D. Tex., said Thursday the need for federal assistance. Yarbrough said he favors the concept of more federal help for airports. The committee is considering several bills for airport and airways development.

MEDAL OF VALOR NEW BRAUNFELS (UPI) — George D. Wedd, 25, of New Braunfels, was presented the Lone Star Medal of Valor Thursday by the Texas National Guard for his attempt to save the life of a construction worker who was electrocuted in April.

A thought for the day: American writer Bret Harte said, "Never a tear bedims the eye that time and patience will not dry; never a lip is curved in pain that can't be kissed into smiles again."
