Governor Handed One Victory By City Voters

Councilmen To Continue Study Of Financial Crisis

By TEX DeWEESE
News Staff Writer

Pampa's cramped financial condition was expected to hold the spotlight at City Hall this afternoon as city commissioners meet in special session with City Manager Charles Hill for a preliminary look at the proposed budget for fiscal 1969-70.

In the background of thinking among commissioners at today's meeting was expected to be this morning's announcement that a revenue study committee in Amarillo has recommended a one percent sales tax and a 10-cent reduction in the ad valorem tax as the best method of solving Amarillo's financial problems.

The Amarillo City Commission is expected to act on the recommendation at its regular meeting next Tuesday.

If the commission accepts the study committee's proposal it is likely an election will be called and Amarillo voters will decide the sales tax issue.

Pampa is watching the Amarillo situation following a recent request from merchants and businessmen asking that Pampa not take any action on the sales tax until it is determined whether Amarillo will adopt it.

It was learned the possibility existed today that if Amarillo calls an election on the issue, Pampans probably will be asked to approve or reject the sales tax plan at the same time.

The Amarillo study committee has also recommended that the city's ad valorem tax be reduced 10 cents from \$1.30 to \$1.20 if voters okay the sales tax there.

City officials indicate there is little or no likelihood Pampa's \$1.72 ad valorem tax rate could be cut even if the 1-cent sales tax should be approved here.

City Manager Charles Hill pointed out today that Amarillo's property valuation is (See CRISIS, Page 2)

CITY FARMERS are reaping a bountiful crop of homegrown tomatoes, corn, okra and cucumbers, much to the delight of their neighbors and friends, who are often remembered with vegetable gifts, when home freezers become overloaded. Mrs. C. H. Kelly, 305 Roberta, who insists it is her husband's green thumb that is responsible for their backyard garden crop, is pictured here with just a few of the tomatoes she has harvested this year. (Staff Photo)

Action To Pace WD Rodeo Today

WHITE DEER (Staff) — The 10th annual White Deer Rodeo sponsored by the White Deer Riding Club and the Lions Club will get underway today with 8,500 riding with winners of scheduled events.

Nightly performances will be held beginning at 8 p.m. today, Friday and Saturday at the rodeo arena in White Deer.

Stock is provided by Rapjen Rodeo Co. from Happy.

A barbecue will be served tonight beginning at 5:30 p.m. on the rodeo grounds and will be included in the admission price of \$1.50 for adults and 75 cents for children under-12. The barbecue event is for the first night only.

Saturday, entries are invited to participate in a rodeo parade beginning at 5 p.m. No pre-registration is necessary.

Grady Milton, president of the White Deer Riding Club, said 210 contestants have signed up for rodeo events.

Events will include bareback riding, bronc riding, saddle bronc riding, heading and heeling, Brahma Bull riding, calf roping, bulldogging, ladies' barrel racing, junior girls barrel racing, kids bull riding.

Milton said special events will feature Wild Mare Races, Pony Express Races, Kids Bull Rush. And adding a note of color and excitement will be Rodeo Clown Pat Turk.

Second Suspect Arrested In Connection With Coed's Murder

YPSILANTI, Mich. (UPI) — Taking no chances with public sentiment, some 25 sheriff's deputies were marshalled today to escort to court John Norman Collins, charged with the murder of the seventh young woman slain in Michigan in the past two years.

Collins, 22, a senior at Eastern Michigan University here, had to be brought almost eight miles from his maximum security cell in the Washtenaw County Jail to the old district Courthouse in Ypsilanti. Sheriff Douglas Harvey reportedly had 25 deputies prepared to guard the handsome 6-footer.

"The public sentiment being what it is—we just don't want anything to happen to this guy," Harvey said. "As far as the public is concerned, from what's in the press, this guy did all seven. You can't tell what might happen."

The preliminary examination was to determine if there was enough evidence to try Collins for the murder of Karen Sue Beineman, 18.

Today's first order of business was expected to be on requests from Collins' defense attorney for a change of venue and that District Court Judge Edward Deakes disqualify because he knows many of the people involved.

A high police spokesman in

Allies Prepared To Listen At 29th Session Of Peace Talks

PARIS (UPI) — The Allies went into the 29th session of the Vietnam talks today prepared to listen but determined not to make further concessions to the Communists.

The session was scheduled to get under way at 10:30 a.m. (4:30 a.m. CDT).

U.S. negotiators have made it clear in the last few weeks they have gone as far as they intend in making concessions to the Communists. They intend now, according to an Allied official, to wait for an "appropriate response" from the North Vietnamese and Viet Cong.

The response the Allies are seeking is to an offer by President Nguyen Van Thieu of South Vietnam to settle the war through jointly controlled and internationally supervised elections.

The Allies say the offer is the most generous the Communists

Biennial Legislative Sessions Approved

DALLAS (UPI) — Voters in the state's major cities handed Gov. Preston Smith one major victory and one severe setback in Tuesday's constitutional election.

The Texas Water Plan, championed by Smith and an overwhelming number of legislators, was defeated, but voters apparently backed Smith's calling for biennial legislative sessions, rejecting a proposed amendment that would have forced the legislature to meet every year.

Charges May Be Refiled On Pampans

AMARILLO (Staff) — Following the death of an Amarillo mother last night, members of the police department's follow-up division here began consultation for refiling charges against a Pampa man charged with assault with a motor vehicle.

Mandred Edward Davis, a 46-year-old Pampans was charged with the offense last Friday following a Thursday evening motor vehicle collision which critically injured Mrs. Jackie Dell Dodson and caused the death of her unborn twins.

Mrs. Dodson, 24, died at about 9:30 p.m. yesterday in St. Anthony's Hospital.

The accident occurred about 5:15 p.m. Thursday when Mrs. Dodson's car was struck head-on by a hand-control equipped station wagon driven by Davis, a double amputee.

The station wagon was traveling east in westbound traffic lanes when it struck the car driven by Mrs. Dodson.

Neither Scott Del Dodson, 6, nor Becky Michelle Dodson, passengers in the Dodson car were injured.

Davis, who received a broken arm and a facial cut, was booked into Potter County jail but was transferred to the Veteran's Administration Hospital.

Yesterday afternoon he was released from the hospital into the custody of Potter County Sheriff's Department.

Sgt. Herbert Hill, follow-up division, told The News this morning that the department would try to refile charges against Davis.

"We are going to the proper authorities this morning to see (See PAMPAN, Page 2)

Prisoner Escapes At Canadian Jail

CANADIAN (Staff) — Law enforcement officers throughout the Texas and Oklahoma Panhandles were looking today for Billy Jack Bennett, 41, who escaped from his jail cell here Wednesday night.

Hemphill County Sheriff Jim Cloyd said Bennett, who had been in jail since February in lieu of \$3,500 bond on a burglary charge, was apparently let out of his cell while a deputy was gone from the jail.

"It looks like somebody came in while Deputy Don Todd was out, got the keys and let Bennett loose," Cloyd said.

Bennett and his brother were apprehended in Pampa one day after the burglary of the Eastway Market in Canadian.

Policeman Joe Brewer and Gray County Sheriff's Deputies C. L. Wallace and D. L. Day made the arrest.

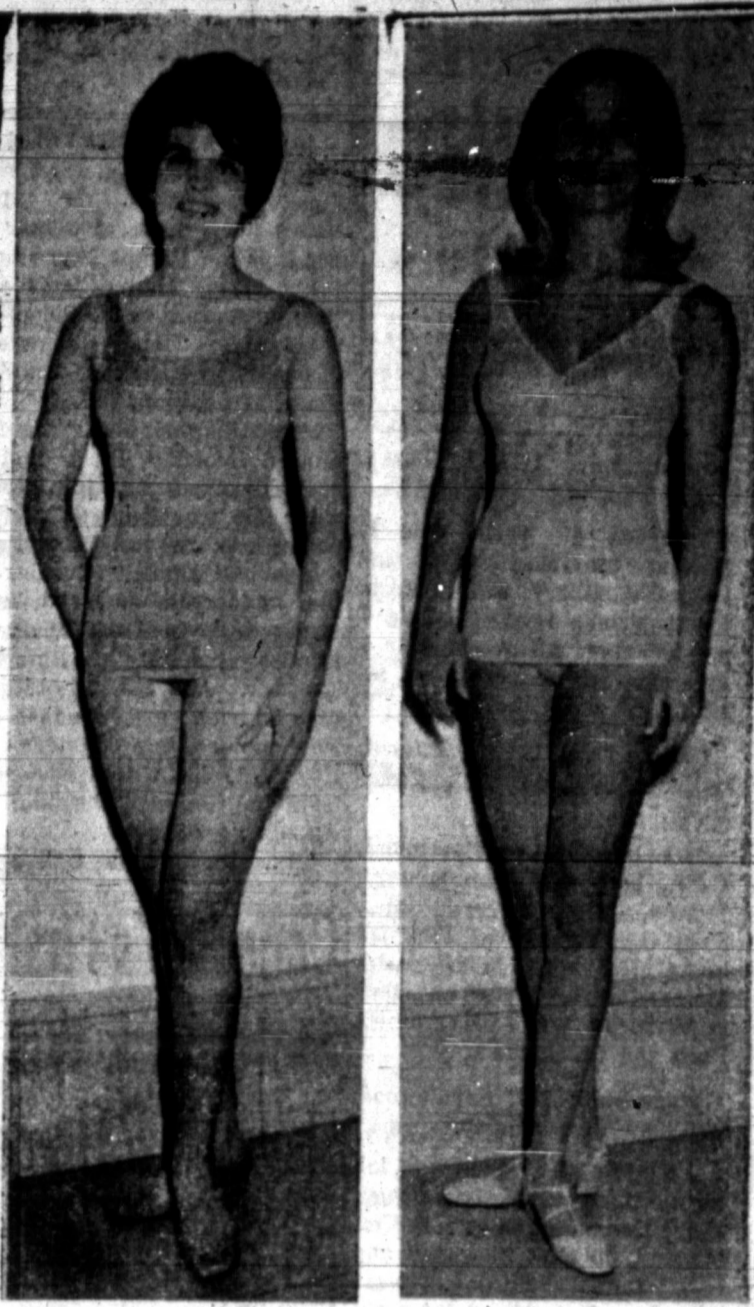

Bennett is described as five feet, 10 inches tall, weighing 150 pounds, slim build and has a pale complexion.

According to Cloyd he was last seen wearing a white t-shirt, black pants and black shoes. He has relatives in Borger and Amarillo.

Cloyd said Bennett escaped about 10 p.m. and the escape was discovered about 11 p.m. by Todd.

"We found tire tracks around the jail but could not get a print off them so we have no idea what type of vehicle he may be in," Cloyd said.

If it comes from a Hdw. store we have it, Lewis Hdw. (adv.)

SHARON CAMBERN

Keen Competition Expected In Contest

A total of 25 entries were finally received in the Chamber of Commerce offices earlier this week for the second annual Fall Festival Style Show and Top O' Texas Beauty Pageant, Aug. 16.

Each of the beauties sponsored by local businesses will make one appearance in one-piece swim suits. No formals or talent will be included. The contestants will be judged on beauty, poise and personality by a panel of out-of-town judges and one will be chosen Miss Top O' Texas.

The competition will be keen among the girls, each one having some interests in common with the others and some completely unique.

Sponsored by C. R. Anthony Co., Brenda Terry, daughter of Mr. and Mrs. Jim Terry, 2107 N. Faulkner, enjoys cooking, sewing and playing the piano.

Miss Terry is 17 years old and a senior at Pampa High School. She is a member of concert choir, a past member of Future Teachers of America and enjoys spectator sports, especially football and basketball.

"I understand basketball," she said. "That's the reason I like it."

And she likes playing volleyball and bowling.

This summer she has worked part time at Ideal Pharmacy.

"I enjoy meeting the public," she said. "When you're meeting the public, though, you also have to learn to cope with them."

Her present plans include taking Vocational Office Education at high school this fall and perhaps becoming a secretary upon graduation.

Miss Terry feels that beauty pageants are both an honor and an experience to participate in. "It's an honor to be selected," she said. "It is good for the girl as well as the town and the organization. It gives the girl experience and more self-assurance."

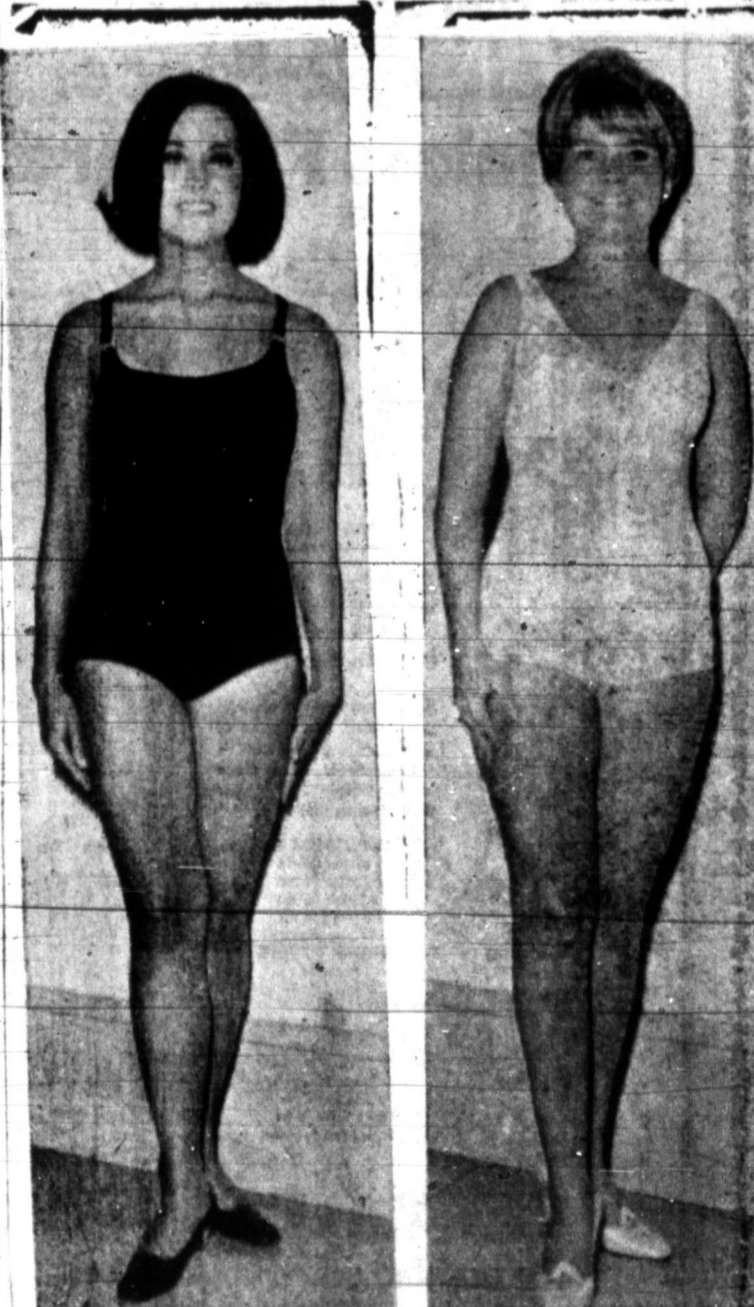

Sharon Cambern, sponsored by Celanese, agrees that beauty contests are good for the community as well as the girls.

"It's good for the people to see the girls in the community," she said. "And it's an experience the girls will remember."

Miss Cambern, daughter of Mr. D. D. Cambern, graduated from Pampa High School in 1968 and is a sophomore elementary education major at Texas Tech.

While she was attending Pampa High she was a member of A Cappella Choir and Student Council all three years. She also won several beauty awards including Babe Ruth Baseball Queen, Lions Club Sweetheart, and Football Queen attendant.

She is competing this year against her sister, Cindy, who is sponsored by Kyle's Fine Shoes. Cindy Cambern is a senior at Pampa High School (See CONTEST, Page 2)

Highlights And Sidelights From The State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN — Legislators hit the ground running in their unwanted special session on finance.

Gov. Preston Smith was ready for them on opening day (July 28) with tax recommendations which included a one half of one per cent boost (to 3.5 per cent) in the sales tax. He also suggested raising the car sales tax to 3.5 per cent, raising the cigarette tax three cents a pack and the corporation franchise tax 30 cents per \$1,000 (to \$3.25) on a temporary, two-year basis.

By the end of the first week, both houses had passed appropriations bills, and by start of the second, a 10-member House-Senate conference committee was busy trying to work out differences.

Senate recommended more than \$100 million more in spending than the House version. House members thought \$5.749 billion for the biennium was plenty, but senators figured \$5.852 billion was needed. General revenue amounts to \$1.188 billion in the House bill, \$1.230 billion in the Senate measure.

House would require at least \$236 million in new revenue. Senate about \$323 million. Neither figure included the \$30 million in additional public welfare spending proposed in the constitutional amendment on the August 5th ballot.

Speaker Gus Mutscher indicated he hoped for House agreement by the end of the second week on a tax bill to cover the budget which he said would be close to that recommended by the governor.

But such a bill stands little chance in the Senate, at least in the near future.

TREASURE WAR CONTINUES — The long controversy over General Land Office handling of treasure remains from a Spanish Galleon off the Padre Island coast turned physical when Rep. Jake Johnson of San Antonio tried to look at what the General Land Office is holding in its vaults.

An angry confrontation occurred when Johnson showed up with reporters and a three-man commission appointed by a District Court in Nueces County to examine the artifacts. The 400-year-old treasure has been the cause of friction between Johnson and Land Commissioner Jerry Sadler for some time.

Sadler thrust an open hand towards Johnson to prevent him from entering. Johnson says he was hit in the throat. Sadler says he grabbed Johnson's necktie.

Johnson took the floor of the House for a personal privilege speech and asked "older and wiser" members for guidance on what to do, charging it was a slap at the House and not just at him.

Reps. Neil Caldwell of Alvin

and Don Cavness of Austin introduced legislation — an "antiquities code" — to set state policy for future treasure hunts. Their bill can be considered only if Gov. Smith officially submits it.

Sadler sent out a press release saying he was defending the vaults from intrusion. The three-man inventory commission and reporters were allowed to enter.

Commission completed its check and sent the state archeologist off to Gary, Ind., to bring back 300 coins and artifacts still in the hands of Platoro, Ltd. Inc., the exploration firm which brought the treasure up from the Gulf floor.

BEACHES — A number of violations of the Texas "Open Beach" law on Galveston Island has been reflected by county and "state officials" investigations, says Atty. Gen. Crawford Martin.

Representatives of the owners of beach property apparently violating the provisions of the state law, which requires all beaches to be public, have been invited to meet with Galveston County officials to see if they can be persuaded to eliminate the barriers without court action.

COURTS SPEAK — State Supreme Court decided that the Alice National Bank will remain as the independent executor of the \$300 million Sarita Kennedy East estate.

Court adjourned until Oct. 1

without taking action on the Sunday-closing-law challenge.

In other new decisions, the High Court: — Agreed with lower court prohibition against Granbury Independent School District's implementing a 1968 tax "equalization" program which would have brought about tax increases up to 700 per cent.

— Upheld a lower court's view that the City of Vidor had full authority to enact 1960 ordinances, providing for warrant financing of a new city hall and levying city taxes.

APPOINTMENTS — Senate elected Sen. H. J. (Doc) Blanchard of Lubbock its president pro tempore for the special session.

Governor Smith appointed Judge George Rodriguez of El Paso as district attorney for the 34th judicial district, succeeding Barton Boling who resigned.

Senate confirmed Rodriguez and also C. E. Maynard of Bastrop as district judge of 21st judicial district and William Baber of Vernon to the State Board of Optometry Examiners.

Donald Paul Katz of Dallas has been named deputy director of planning in the office of foreign investment of the U.S. Department of Commerce.

Three new members of Texas Industrial Commission have taken oaths of office. They are C. L. Cooke of Fort Worth, Lloyd L. Davis of Plainview and C. Truett Smith of Wylie. New T.E.C. staff members are L. B.

Smith of Brady and James H. Havey of Wichita Falls.

Lone Star Medal of Valor went to SP4 George D. Webb of New Braunfels, a National Guardsman, for his attempt to save the life of William A. Maxwell of New Braunfels who was knocked to the ground by a high voltage transmission line.

GAS RATES — Texas Railroad Commission has taken under advisement a request of Lone Star Gas Company for a raise in gas rates sold to local systems in 512 Texas cities.

Representatives of the cities were at the hearing to oppose the proposed 9.4 cents per thousand cubic feet of gas raise. Richard Aughenbaugh, Fort Worth city public utilities supervisor, said the cities felt that an increase of no more than 2.77 cents to six cents would be in order, preferably 3.44 cents.

A decision will be reached by the commission sometime after a minimum waiting period of 30 days.

HUNTING, FISHING LICENSES OUT — Two million licenses for 1969-70 hunting, fishing seasons will be shipped to 3,200 license sales agents by the Texas Parks and Wildlife Department on Aug. 10. Initial shipment will contain 730,000 resident hunting licenses and 900,000 fishing licenses with total face value of \$4.4 million. There will be 23 types of licenses in shipment. Fish farm, fish farm vehicle and salt water

trolley licenses were added by the legislature this year.

SHORT SNORTS

Attorney General Martin says a coin machine occupation tax increase authorized by the legislature this year applies to anyone who operates a vending machine in the hope of making a profit or operates it to draw business.

Sen. Oscar Mauzy of Dallas has filed a legislative reapportionment suit based on the

ruling of a federal court in Indianapolis.

August 16 is the deadline for refund claims for overcharges on broad spectrum antibiotics bought during 1954-1966, reminds Attorney General Martin.

Dr. James E. Peavy, Texas Health Commissioner, warns that lindane vaporizers used around food may be detrimental to health.

In a press conference Bard Logan announced that the American Party has asked Dallas broadcaster Dan Smoot

to be its 1970 candidate for the U.S. Senate.

WASHINGTON (UPI) —

Myles J. Ambrose, 43, New York, has been sworn in as U.S. commissioner of Customs. Treasury Secretary David M. Kennedy, at the swearing-in ceremonies Tuesday, told Ambrose to make as his "first order of business" a crackdown on narcotics smuggling.

PORK BACKRIBS INSPIRE DINNER FOR NEW SEASON
... soy-sauced, ginger-seasoned pork back ribs take entree spot

For A Rainy Day Picnic, Plan Cooking Indoors

If you plot a picnic and have rain, what then?

Why not have a porch supper instead? If the group's a merry one, you can have laughter and conversation on the porch just as easily as on a sunny day picnic.

Pork back ribs are an excellent choice either for a picnic in the park or on the porch. You can barbecue them in the oven as well as on the grill. These, spiced with soy sauce and ginger, carry a flavor of the South Seas. Catsup and brown sugar, rather standard ingredients in barbecue sauces, complete this one. Chill to blend flavors.

Spareribs may be substituted for back ribs, should back ribs not be available at the local market. Back ribs are from the loin area, shorter and meatier than spareribs. They are a market favorite along with both

spareribs and country-style ribs.

All of these ribs, no matter what the style, are tender cuts to be roasted. This means they are not covered. They are to be brushed with the sauce every half an hour to give them the flavor for this particular recipe.

Total cooking time for the ribs is about two hours to allow them to develop their flavor fully. Do turn them after the first hour of cooking for even browning. This also gives an opportunity to brush the other side of the ribs with sauce so they are seasoned evenly.

Potatoes, vegetables in a casserole and French bread may be heated in the oven that's roasted the ribs. Coleslaw and fruit for dessert may easily be prepared in advance. For minted pineapple, let fresh mint leaves stand with pineapple in its juice until serving time, then combine with washed, hulled

strawberries, lightly sugared.

POLYNESIAN PORK BACKRIBS

- 4 to 6 lbs. pork back ribs
- 1/2 cup soy sauce
- 1/2 cup catsup
- 3 tablespoons brown sugar
- 1 teaspoon ground ginger

Combine soy sauce, catsup, brown sugar and ginger and refrigerate two hours. Place back ribs on a rack in an open roasting pan and brush with barbecue sauce mixture. Bake in a slow oven (325 degrees) two hours or until done. Brush ribs with sauce at 30-minute intervals. Turn back ribs after baking one hour. (Four to six servings).

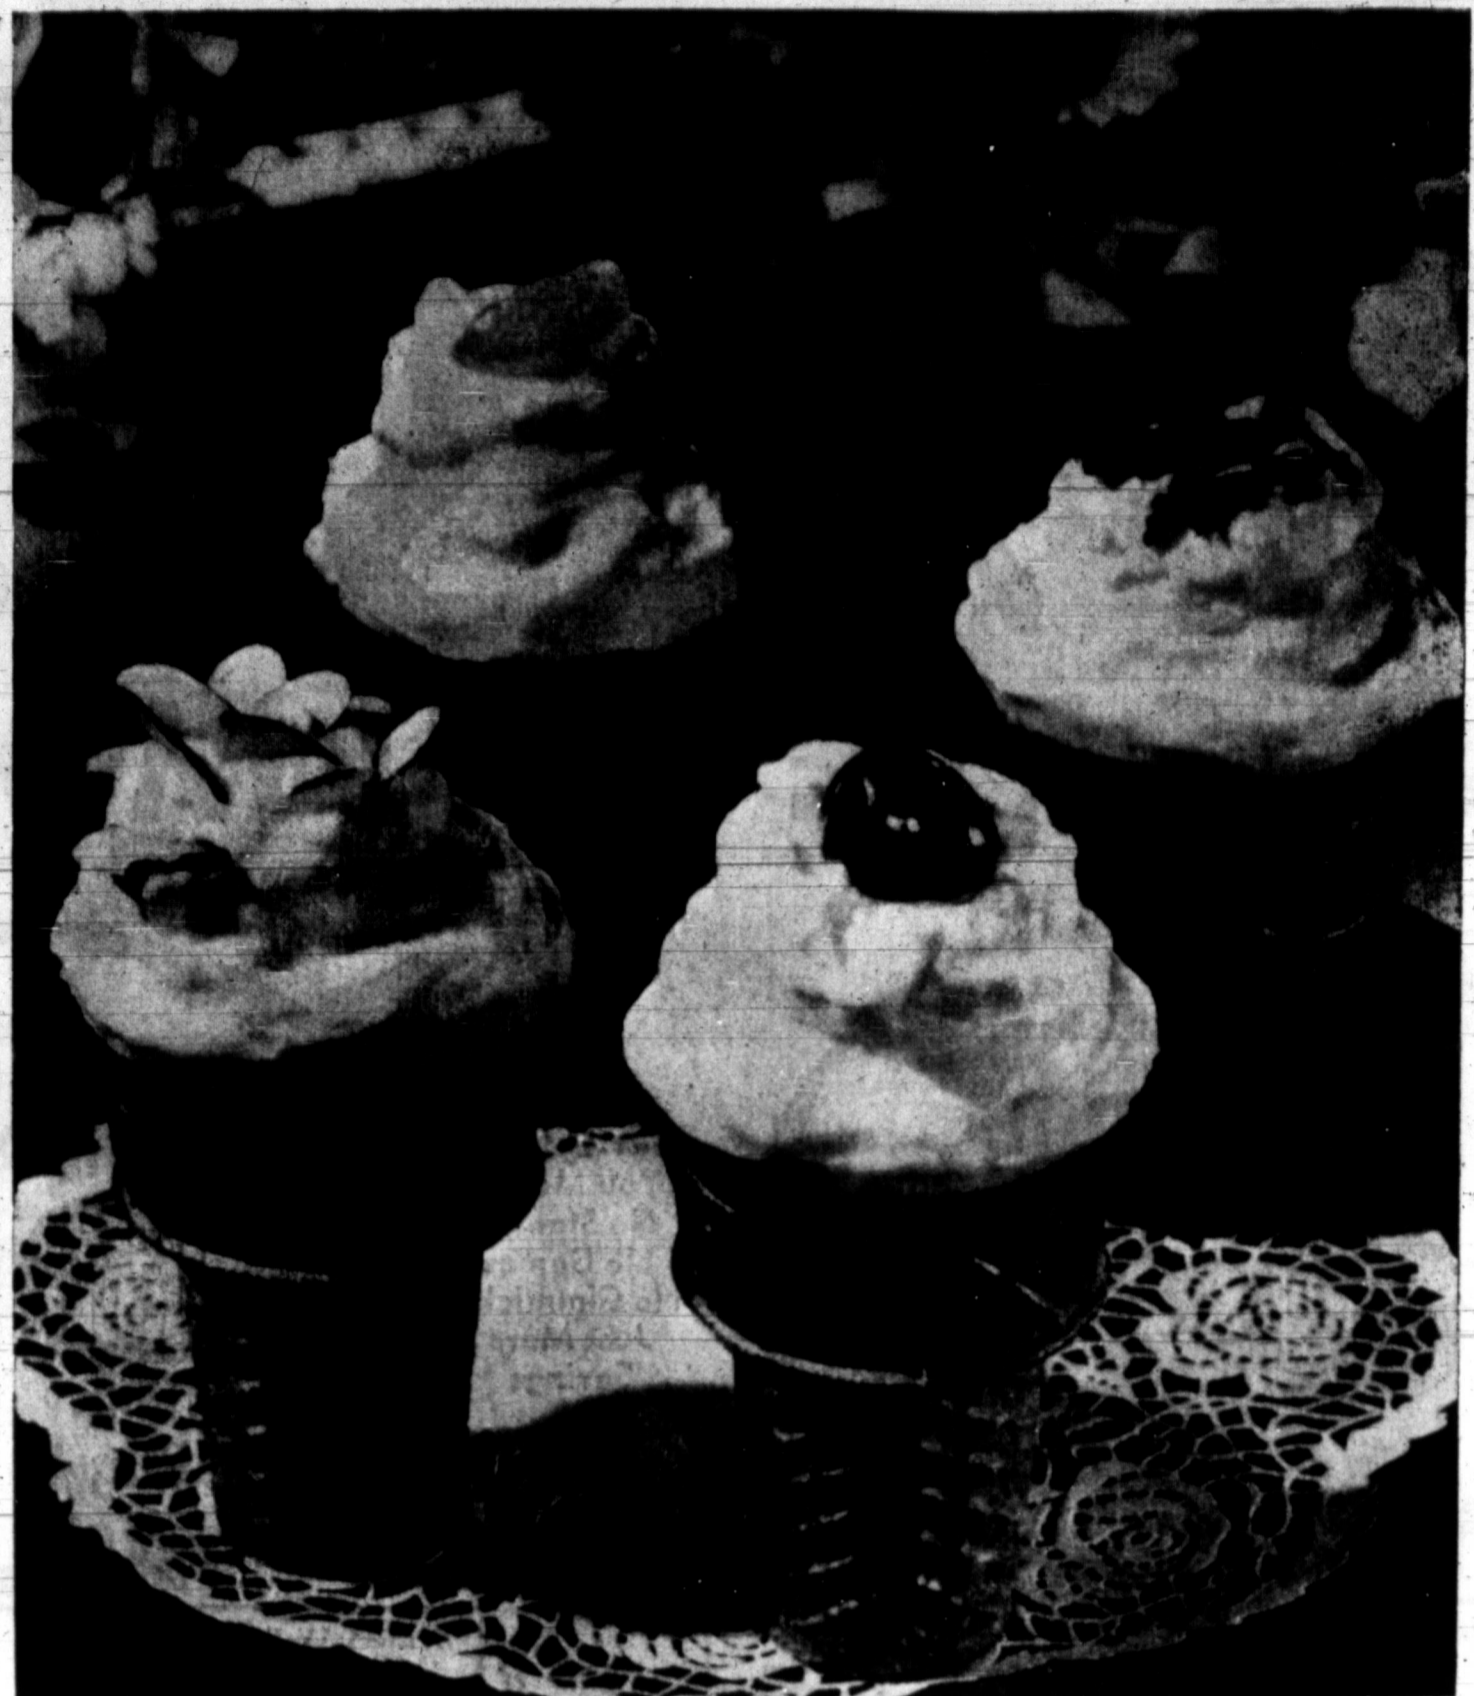

Corned Beef

Special That's Really Special. Top slices of corned beef hash with drained canned cut green beans and a shake of catsup. Bake until hot, top with slices of Swiss cheese and heat until cheese melts.

AN OFFBEAT SOUP

Swedish-style berry soup can be made in minutes. Blend 4 cups of bottled cranberry-apple drink and 1 cup of cubed peeled cucumber in electric blender. Gradually stir mixture into 1 tablespoon of cornstarch in saucepan. Stir in 2 tablespoons of lemon juice and 1 cup of dry white wine. Cook over low heat, stirring constantly, until mixture bubbles and thickens slightly. Remove from heat, cover and cool. Chill until ready to serve. Serve garnished with shredded cucumber. Makes 8 servings.

Food Buying Guide

WASHINGTON (UPI)—The following guide to the nation's food buys for the weekend was prepared by the U.S. Department of Agriculture and Interior for United Press International.

USDA's Consumer and Marketing Service reports that food shoppers will find ample displays of meat and poultry and good stocks of vegetables in food stores and supermarkets this second weekend in August.

Broiler-fryer chickens and turkeys continue to be readily available in all areas. Sirloin, porterhouse, and rib steaks should be in liberal supply as well as chuck and round roasts of beef and lamb.

Bacon and smoked picnics appear to be the most abundant pork items with the usual fresh cuts featured in some areas. Fish buys to watch for, are Maine sardines, canned tuna, and fish sticks and portions.

Fresh vegetables in best supply are cabbage, corn, lettuce, potatoes, onions, and tomatoes. Peaches and watermelons are also in good supply. Other foods on USDA's plentiful list for August are peanuts and peanut products and wheat products. Limes, nectarines, and pears also appear on this list, but marketings appear to be lagging for some reasons.

New Sauce for Shrimp

Heat frozen breaded shrimp as package directs, then glamorize with a sauce of toasted slivered almonds stirred into heated canned tomato sauce with onions.

'Copter Plant Sets Guest Tour Today

Visitors are invited to a conducted tour of the Bell Helicopter plant beginning at 8:30 p.m. today.
Tour guests, who must be 18 years of age and over, are asked to meet at the visitor parking lot at Amarillo Air Base using the north gate, Amarillo Blvd. and Highway 60.
A catered barbecue dinner will be served for \$2 per person. Reservations may be made with Doug Harrell, at Pantex Plant.
No cameras will be allowed on the tour and guests are asked to bring their own chairs for the picnic and a Coleman lamp if possible.

American oil companies spent more than \$1 billion in the 1966-68 period on air and water conservation.

A cottontail rabbit doe sometimes begins breeding at six months of age.

Forests cover 58 per cent of Quebec, Canada's largest province.

California's population increased 65 per cent in the 1920s, largest rise in the state's history.

Russell Cave National Monument near Bridgeport, Ala., contains a record of continuous human habitation from about 7000 B.C. to 1850 A.D.

Implied Consent Gives Weapon To Combat Drunken Drivers

(Editor's Note: Part 2 of a five-part series, The Implied Consent Law)

AUSTIN — Col. Wilson E. Speir, director of the Texas Department of Public Safety, said today that the State's new implied consent law which becomes effective Sept. 1, 1969, gives law-enforcement a much-needed weapon to combat drunk drivers.
"Depending on area, drinking drivers figure in 40 to 50 per cent of the fatal rural traffic accidents in Texas," Speir said. "This is especially significant when you consider that traffic mishaps claimed 3,481 lives in the state last year."
Under terms of this law, a motorist is "deemed to have given consent" to a breath test if arrested for any alleged offense arising out of his actual operation or physical control of a motor vehicle while under the influence of intoxicating liquor.

If the suspect refuses the breath test, the officer certifies this fact in an affidavit, together with his probable cause for stopping the person, to the Department of Public Safety. This affidavit, when it reaches the DPS, forms the basis for a petition filed by the Department in the corporation or justice court of the county of residence of the person refusing the test to determine if the officer had probable cause for thinking the person was driving while intoxicated.
Should the judge find the officer had probable cause to arrest the person for driving while intoxicated, the Department of Public Safety, acting on the court's finding and the officer's sworn statement that the subject refused the test, suspends the subject's driver license for the period set by the judge. The suspension, which may run for as much as one year, is subject to appeal to a higher court.
The implied consent law allows the person detained the

right to have a test of his blood alcohol taken by his own physician, qualified technician, chemist or registered professional nurse, if taken within two hours after his arrest.
The law also places the responsibility with the Texas Department of Public Safety to certify breath testing equipment and persons authorized to administer breath tests.
Consistent with its policy of assisting local authorities whenever possible, the DPS will offer at least three schools to train city and county officers in operation of the Breathalyzer. These schools, which will be conducted at the Law Enforcement Academy in Austin, will be limited in enrollment to

key personnel from localities which now possess, or plan to obtain, breath testing instruments.
Currently, the DPS is utilizing breath testing equipment in a voluntary program. The Breathalyzer instruments are located at central points in some 90 counties, and are operated by DPS officers who have completed an intensive training course. The instruments are checked and serviced weekly by qualified DPS chemists.
"With the advent of the new law, we hope to obtain at least one breath testing instrument for each county, and plan to train additional personnel in their operation," Speir noted.

Hawaii Is More Than Honolulu

KAMUELA, Hawaii — To many visitors, Hawaii is Honolulu with highrise hotels chock-a-block along Waikiki Beach, hordes of golden-haired girls in micro-bikinis and sun-blackened surfers in even less, traffic jams, crowded restaurants and night clubs, and fellow tourists in garish outfits they would not think of wearing back home.
Actually, there is a lot more available for visitors to Honolulu and the island of Oahu. There are secluded beaches; serene and scenic park lands, historical sites, museums and other top attractions such as Sealife Park and the Polynesian Cultural Center.
The fact is Honolulu has been

airport for the islands in the mid-Pacific, and thus the No. 1 tourist center. And relatively few of the millions who flocked here probably even were aware of the so-called Neighbor Islands.
But the picture is changing. The big jets now are flying non-stop from the West Coast to Hilo, on the Big Island of Hawaii, and regular plane services link all six of the major islands: Oahu, Hawaii, Maui, Molokai, Kauai and Lanai.
It used to take several days—and sometimes longer—to reach some of the outlying islands by boat or prop plane. Today, airlines and travel agencies offer one-day sightseeing package tours to all six.
For those who have more time to spend, there are excellent hotels and resorts on the relatively unspoiled and less-populated Neighbor Islands. More are being planned to accommodate the expected spillover from crowded Honolulu when the 365-passenger Jumbo Jet goes into service this winter.
A big boom already is underway on the Big Island, about 200 miles southeast of Honolulu and the southernmost in the island-state. Existing hotels have, or are being, expanded and new major resort developments are being pushed. In addition to miles-long beaches of golden sand or black lava, Hawaii offers a wide variety of other diversions.
For sightseers, there are sprawling orchid, pineapple and sugar plantations; jungles of wild orchids and other tropical flowers and plants; ancient Hawaiian temples and other historic ruins; two of the highest mountains in the Pacific — Mauna Kea and Mauna Loa — and a real live volcano.
Kilauea Crater, the legendary home of the Hawaiian fire goddess Pele, is in the Hawaii Volcanoes National Park about 30 miles south over good roads from Hilo on the east coast. Pele is sleeping now but wakes now and again to put on a spectacular display.

The Women's Page

WANDA MAE HUFF, WOMEN'S NEWS EDITOR
PAMPA, TEXAS 62nd Year
THURSDAY, AUGUST 5, 1964
PAMPA DAILY NEWS

FOR FRIDAY, AUG. 5 YOUR BIRTHDAY FRIDAY: Your path through the coming year is circuitous, with detours, particularly in the early part. You must learn the difference between insight and wishful thinking; now is a good time. Friday's natives tend to be definite individualists with little concern for tradition or public opinion.

ARIES (March 21-Apr. 19): Controversy is the normal order of the day. Two words will bring you an argument anywhere. More, you may find your friends expecting you to help them out of a predicament. Have the judgment to stay clear.

TAURUS (Apr. 20-May 20): For once your imagination runs beyond immediate practicality; your ideas are rejected. Co-operation becomes harder to manage as the day wears on.

GEMINI (May 21-June 20): Everybody tries to talk at once Friday, and nobody does much listening. Your money squirms in your pockets, too.

CANCER (June 21-July 22): Nobody is quite sure what the source of tension is, but everybody feels a bit of it. Patience and careful listening along with some intuition will lead you to the right solution.

LEO (July 23-Aug. 22): Plan for a change of scenery or a revision of your situation in September. The distant view will help you cope with the local and immediate details.

VIRGO (Aug. 23-Sept. 22): Stick to your schedule, measure your effort as you go, but stop at quitting time; the rest is worth more than any overtime. Friday is not a good time to press any transaction to conclusion.

LIBRA (Sept. 23-Oct. 22): Idealism and lost causes parade across the scene Friday. Technicalities tend to

plague your work. Keep matters uncomplicated by staying with the people you really care about.

SCORPIO (Oct. 23-Nov. 21): Things you start Friday should be intended as short-term projects only. If you permit it, your temper is sensitive and quick. Indiscretion is certain to become apparent rapidly.

SAGITTARIUS (Nov. 22-Dec. 21): It may seem difficult to please anybody Friday, principally about money. Be gentle with those you love; do something to symbolize your feelings.

CAPRICORN (Dec. 22-Jan. 19): The well known and reliable is the preferred course to follow now. Avoid fatigue and the complexities of coping with new situations, strange people, unfamiliar diets.

AQUARIUS (Jan. 20-Feb. 18): Intellectual curiosity and emotional pressures alternate to make this a somewhat stressful day.

PISCES (Feb. 19-Mar. 20): Tension among your family and associates make it advisable to put a little distance between them and yourself Friday wherever you can.

TRADITIONAL FAVORITE
The jumper, a traditional favorite, boasts a crayon box assortment of styles: the horseshoe neck, suspender straps, bib top, cut-away armholes, pleated, dropped waists, belted, zippered and the pants-jumper.

THEY'RE ALL WASHABLE
Fall styles that are "on top" are the polo shirt, peasant blouse, ribbed sweater, turtleneck, crepe shirt—all in washable fabrics from cotton to acrylic.

DEAR ABBY: I am the mother of two teen-aged boys who wear their hair too long to suit me. I recently saw an ad in a Connecticut newspaper which read as follows: "WANTED - BOY. Must be 17 years of age... Must have normal haircut." Abby, if all employers would hire only boys with normal haircuts, I am quite sure we would have our boys looking like boys again instead of like freaks.

I also blame the girls for the long hair look on boys. My sons tell me the girls like boys to wear their hair long.

DISGUSTED
DEAR DISGUSTED: There are more battles raging in the modern American home because of "hair" than any other one area of conflict, and I say it's foolish. Personally, I do not like long hair on boys, either, but I still say that if a boy keeps his hair clean and is a good citizen, he has earned the right to wear his hair the way he wants.

DEAR ABBY: I am considering marrying a man who is 70. I am a few years younger. We have known each other for a good many years. In fact when our former mates were living we were all good friends. This is a marriage of convenience for both of us. We're in fairly good health and he does not need my money and I don't need his. His children are all married and so are mine and we just want to give each other as much companionship as the good Lord will allow us. Forget sex. He can't, and I don't care for it.

The question: We each have a home. Should I break up mine and sell it and move into his? Or should he do the moving? My children want me to keep my house, and his children want

him to keep his house. What is your opinion?

WONDERING
DEAR WONDERING: Forget what your children want, and do what you want.

DEAR ABBY: Since my return from a recent trip abroad I'm literally going out of my mind with the following problem:
While abroad in 1967, I fathered a wonderful boy whom I saw for the first time on a recent journey. Everyone remarked on how much my young "cousin" resembled me. You see, his mother who is approximately my age, is married to my mother's brother.

Only my "aunt" and I know that I am the father of her child. Although I have supported the boy through the family, I now want him here with me since I do not have any other children.

Am I selfish and inconsiderate in my thinking? I have written to my "aunt" of my plans, but she insists that I leave things as they are because of the consequences should our secret leak out. What do you think?

WITHHOLD MY NAME
DEAR WITHHOLD: I agree with your "aunt."

Everybody has a problem. What is yours? For a personal reply, write to Abby, Box 68700, Los Angeles, Calif., 90069, and enclose a stamped, self-addressed envelope.

County HD Agents Attend State Meet

Two Pampans will attend the 25th annual convention of County Home Demonstration Agents' Association of Texas which is being held in Amarillo today through Saturday.

Delegates from Gray County are Jimmy Lou Wainscott, HD agent, and Jeni D. Finch, assistant agent. They will be among 125 agents who will participate in the meeting, the first CHDA state meeting to be held in the High Plains area in 20 years.

Miss Wainscott is assisting with the hospitality tea. Both Pampans will assist with decorations.

Events today included a get-acquainted tea, a bus tour of Palo Duro Canyon, a barbecue and the performance of Paul Green's outdoor western drama "Texas" in the canyon.

Mrs. Shirley Milford, president-elect, Nacogdoches, will preside for the breakfast Friday.

Area WMU Meets
GROOM (Spl) - The Night Circle of the Baptist WMU met in the church recently with Mrs. Frank Terbusch as hostess. Mrs. Bertha Knight, president, had charge of the business session. Mrs. H. C. Swank presented the mission program.

Those present were Meses. H. C. Swank, Othelle Driskill, Robert Milton, Bertha Knight, Odell Cain, Thelma Pool and Frank Terbusch.

On target for a beautiful day or a shower is the Rain-cheeloh by Naman in a vibrant cotton bull's-eye print of plum, beige and brown. Cut in a flared silhouette with a rope collar, cuffs and welt pockets, its Zepel rain-and-stain repellency extends its versatility to take in any kind of weather.

Groom Residents Honor Mrs. Wheeler
GROOM (Spl) - A group of women met at the Golden Spread Grill for breakfast recently honoring Corrine Wheeler.

Those present were Meses. Minnie Eschle, Willie Ragsdale, Frank Burgin, Maureen David-son, Eulice Monroe, Jodie Helm, Stella Lamb, Viola Harrell, Thelma Pool, Loula Wall, Pete Fields, Cecil Culver, Mattie McAdams, Othelle Driskill, and the honoree, Corrine Wheeler.

CAREER CORNER by V. J. Lahn

What Job would you like to see employed in this column?

Mrs. Lahn awards a Mercury... courtesy of the Royal... Co., to Larry G. McKee, Altoona, Pa.

Please feature the... A: — Rather than trying to bowl the entire ball-of-wax down the lane to see what pins it flattens, let's focus on the growing — and increasingly rewarding — sphere of industrial advertising (I.A.). Specifically I'm referring to creative and administrative employees of companies with industrial advertising programs, or those companies' advertising agencies; not employees of media or suppliers.

PINPOINT. Consumer advertising sells products and services to individuals for personal use, and attempts to reach total populations with broad appeals, primarily through the use of newspapers, billboards, magazines, radio and television.

Industrial advertising, on the other hand, sells the products of one industry to other industries. Products include such items as steel bars and bulldozers, transistors and tools, air cargo transportation and wing flap actuator systems and jet engines, chemicals, paper and locomotives and conveyors, and services too.

Traditionally I.A. has not employed the "shotgun" approach of consumer advertising but targeted on smaller business audiences, using trade or business publications, exhibits, direct mail, technical films and other selective media.

LONG PANTS. Until recent years, I.A. has been a sleeper; although many did quite well in it, the field was characterized as less interesting, less profitable, and tended to attract lower-key types than consumer advertising. Comes the evolution! Today it's blossoming into a promising career choice.

paying better salaries; attracting more sharp young men; and has its share of the fun in the ads too.

TEST OF MARKETS. Robert Griffiths, managing director of the Association of Industrial Advertisers (AIA) says membership has increased 50 percent in the past seven years (now 4700), and that in many cases, what used to be one-man company I.A. departments are now two- and three-man operations. AIA international president and executive veep of the New York ad agency, Fred R. Messner, reports agencies are being forced to pay competitive salaries to obtain qualified personnel.

Cattlemen Set Date For Feed

The annual summer banquet of the Top O' Texas Hereford Breeders Association has been set for 7:30 p.m. Thursday, Aug. 28 in the Starlight Room of Coronado Inn.

Dr. Charles Smallwood, head of the agricultural department at West Texas State University, will be the speaker. It was announced today by Earl Breeding of Miami, association president.

Breeding said Dr. Smallwood will center his talk around latest information on beef cattle typing and what the cattleman needs to be producing for the market.

The banquet session will be open to the public and reservations should be made early by calling the Pampa Chamber of Commerce, chamber manager E. O. Wedgworth said today.

In addition to Dr. Smallwood's address there will be special entertainment.

FRANKFURT (UPI) — The clue to what history will remember as "the German miracle" was there all the time. When the guns fell silent in 1945, American troops moving in to occupy what is now Western Germany noticed that unlike anywhere else in devastated Europe the home front had neatly stacked the rubble of war.

In many places housewives and young children had already picked out the usable bricks from the debris of their homes and had begun with their own hands the long and hopeless, as it seemed to their conquerors, process of reconstruction.

There are memorials in many German cities and towns to these "frash women" who had turned to the needs of peace the strength, resourcefulness and willingness to work that had made their country so formidable in war; the very qualities the world is watching once again in the knowledge, after two great conflicts, of their potential for good or for evil.

Today, 24 years after World War II, West Germany, crushed for all time—to quote the utterances of those days—is once again the most powerful nation in Western Europe. Its army is the biggest, its air force the best; American nuclear bombs hang from the racks of its strike planes. There is virtually no unemployment. Its currency is so strong it represents a direct threat to the stability of the British pound and the French franc.

It is frankly feared by Russia, envied or courted by its

Cities named Stroud in Oklahoma, England, Canada and Australia holds a brick and rolling pin throwing contest each year and exchange results

own allies in NATO and the busy ports of Hamburg and Bremen occupied with a record export trade.

With Charles de Gaulle no longer president of France, Germany has in its minister of finance, Franz Josef Strauss, the strongest certainly the

most anxiously studied political figure in Europe. And the eyes of the world will be fixed on the country's general election to the Bundestag in September to see whether the rightwing National Democratic party (NPD) will

win its expected 8- to 10 percent of the seats in parliament and raise some unwelcome ghosts. In the period just after the war when Germany's future hung in the balance, the right man for the right time

appeared in the unlikely figure of Konrad Adenauer, a stiff old career civil servant. He was 73 when he answered the call of destiny in 1949. From then until he was nearly 88 in 1963 he served as chancellor of the Federal Republic.
