## Two Persons Killed During Hartford Riots

**By United Press International**  
A young policeman and a woman were shot and killed Tuesday night during violence in Camden, N.J. Sporadic disorders broke out for the third consecutive night in Fort Lauderdale, Fla., despite the presence of National Guardsmen, and state troopers helped quell outbreaks in Hartford, Conn.

Camden authorities said a second policeman was shot and wounded as sporadic gunfire was reported on four streets in the city and one in South Camden. Rocks and bottles were hurled at police cars and small fires were set.

Police said they were seeking a sniper but refused to connect the search with the death of Patrolman Ronald J. Chandler, 22, during the disturbance. The identity of the dead woman was not immediately revealed.

A contingent of some 100 Connecticut state troopers helped Hartford officials enforce a 7-p.m. curfew and two battalions of National Guardsmen were on standby alert. Sporadic fires flared in the North End section as late as 8 p.m. Tuesday—the second day of violence.

At least six policemen and 14 firemen were injured and another 16 persons were reported injured during the two days. Over 200 arrests were made, most on charges of looting, arson, breach of peace and curfew violation.

Hartford Deputy Mayor George B. Kinsella said 67 businesses were looted, and a branch library and scores of businesses were burned.

One hundred National Guard troops were called to duty and another 100 were on standby alert in Fort Lauderdale as violence flared there for the third consecutive night.

Police officials said one sniping incident and two firebombings had been reported by 11 p.m. and 16 persons had been arrested, seven for violation of a curfew imposed Monday.

Parkesburg, Pa., also was under a curfew Tuesday night in the wake of scattered violence touched off by the shooting death of a Negro civil rights leader. Three members of the Pagans motorcycle gang have been charged with murder in the death.

Arlington, Va., police arrested six persons Tuesday after a series of rock-throwing incidents in a predominantly Negro neighborhood.

## Car Injuries Fatal To Former Lefors Resident

**LEFORS (SpI)**—Fifteen-year-old Bobby Byvins, a former Lefors resident, died Saturday from injuries incurred when he was hit by an automobile on a rural road near Rogers, Ark.

The driver of the car said he saw a motorcycle stopped by the roadside and the boy sitting in the middle of the road, apparently dazed by a fall.

The driver said he was unable to stop to avoid hitting the youth.

Byvins was rushed to Rogers Hospital for brain surgery but died before surgery was completed.

The Byvins family moved from Lefors to Rogers in 1962. Funeral services were to be held at 2 p.m. today in the Burns Funeral Home in Rogers.

Survivors include the parents, Mr. and Mrs. Tony Byvins; two sisters, Connie and Tina, all of Rogers; grandparents, Mr. and Mrs. Floyd Chitwood of Lefors.

## Francelia Stalls Off Coast Of British Honduras

**MIAMI (UPI)**—Hurricane Francelia flung 100-mile-an-hour winds into southern British Honduras today and then stalled off the coast, lashing beaches with 10-foot tides.

The storm rolled to a halt some 30 miles east of Punta Gorda and some 30 miles north of Puerto Barrios in the extreme southwest Gulf of Honduras.

**WEATHER**  
PAMPA AND VICINITY — Partly cloudy with a warming trend this evening through Thursday. Low tonight lower 60's. High Thursday lower 90's. Winds from southwest, 5-15 mph.

## New Measure Based On Corporation Tax

**AUSTIN (UPI)**—A compromise \$359 million tax package that opponents have labeled "another food tax" was scheduled for Senate consideration today.

The eight-part tax package by Sen. Ralph Hall, D-Rockwall, is based on a new tax on out of state corporations. The provision, which Hall estimated would bring in \$84 million in the next two years, would tax out of state corporations based on their sales in Texas.

Opponents of the measure claimed that tax would apply to all foodstuffs manufactured or packaged outside Texas and shipped into the state, as well as to liquor, some beer, clothing and automobiles.

Hall's tax proposal, approved 15-4 by the Senate State Affairs Committee Tuesday, would also include:

—A "dirty movie" tax based on the admission rating of the movie.

—A 4 1/2 cent per pack hike in cigarette taxes.

—A one-fourth per cent hike in the state sales tax.

—Extending the sales tax to cover alcoholic beverages.

—A 5 cent per serving tax on drinks served in private clubs.

—A one-half per cent increase in natural gas taxes.

—A 50 cent increase in the corporate franchise tax rate.

Senate leaders had planned to begin debate on the tax package Tuesday, but balked after Sen. A. R. Schwartz, D-Galveston, threatened to filibuster consideration of the measure.

Schwartz, who got in an angry exchange with Sen. William T. Moore D-Bryan, during the committee hearing on the bill, said senators needed more time to study the tax proposal.

Schwartz and Moore clashed when Moore ignored the Galveston senator's attempt to amend the bill in the State Affairs Committee and began a roll call vote on the measure.

Moore finally relented to hear Schwartz's amendments after Schwartz said he had no intention of filibustering the bill in committee.

"I've got a right to be heard," Moore said.

## 5,526 Students Enroll In Pampa

After the first day of school Tuesday, administrators reported an enrollment of 5,526 students, with 2,799 registered in the three secondary schools and 2,727 in the seven elementary schools.

In secondary schools, enrollment registered for Pampa High School was 1,251; Pampa Junior High School, 718; and Lee Junior High School, 829.

A breakdown of elementary schools' enrollment includes Stephen P. Austin School, 478; B.M. Baker, 333; Sam Houston, 334; Horace Mann, 341; M.B. Lamar, 402; William E. Travis, 490; and Woodrow Wilson, 350.

"Enrollment is up slightly over the 5,490 enrolled the first day last year," Supt. Dr. James F. Malone said. "We expect to register about 5,600 by the end of the week, when all those regularly enrolled in school will be here."

**CONSTRUCTION ON** the \$1.4 million improvements at Highland General Hospital are well underway with workmen tearing out the old emergency entrance (arrow on the right) on the south and preparing the foundation for the new laboratory addition. While the construction progresses for the next several months, emergency patients, doctors

and hospital visitors will be using the north entrance just off of Kentucky Street, indicated by the arrow on the left. Improvements at the hospital were approved by Gray County voters in an election held in spring of 1968. (Staff Photo)

## Kopechne UNSC Gives Sharp Reprimand To Inquest Israel After Latest Air Attack Suspended

**EDGARTOWN, Mass. (UPI)**—District Court Judge James A. Boyle today formally suspended the scheduled inquest into the death of Mary Jo Kopechne, as ordered by the Massachusetts Supreme Court.

It was expected to be at least a month before the inquest—a judicial inquiry to determine the legal cause of Miss Kopechne's death—opens. The 28-year-old Washington secretary died when a car driven by Sen. Edward M. Kennedy

hurdled off a bridge on Chappaquiddick Island in mid-July.

The inquest had been set to open today with Judge Boyle presiding, but at the moment it was to have started—8:30 a.m. CDT—the silver-haired judge suspended it.

Kennedy wanted to proceed with the inquest as planned, but his lawyers overruled him because of the alleged denial of his constitutional rights by a set of ground rules laid down by Judge Boyle. UPI learned.

The judge made a brief appearance at the bench in the second floor courtroom of the 111-year-old courthouse. He read a statement to a courtroom half-filled with members of the press, many of whom had come from overseas to cover the inquest.

The statement said: "On a petition by Edward M. Kennedy against James A. Boyle presented to the Supreme Judicial Court of Massachusetts yesterday, I have been ordered not to proceed further with the inquest into the death of Mary Jo Kopechne until such time as the petition may be heard and determined by the full court."

The judge paused momentarily, looked up from his scrawled statement, and then said: "Therefore, this inquest is continued until that time."

**By United Press International**  
Israeli war planes today bombed and strafed Jordanian artillery positions, then carried out a 20-minute strike against suspected Arab guerrilla bases in southern Lebanon. A Tel Aviv spokesman said both raids were in reprisal for attacks on Israel.

The last Israeli air attack against Lebanon brought a sharp reprimand from the United Nations Security Council, but the planes struck today after the Arabs carried out a rocket attack on the border town of Kiriya Shmona Tuesday night.

The mortar attack killed two persons including a 12-year-old boy and wounded four persons including a pregnant woman. Israeli Deputy Premier Yigal Allon warned Lebanon earlier today Israeli would hold it responsible for the guerrilla attacks.

Residents of Israeli settlements along the Lebanese border said the air attack began at 11:45 a.m. and lasted until just after noon. It was the first strike against Lebanon since Aug. 11 when Israeli jets hit Kiriya Shmona and the Security Council condemned Israel.

The spokesman said Israeli artillery opened fire on Jordanian army artillery positions which had shelled an Israeli patrol in the Jordan River Valley three miles south of the Sea of Galilee.

It was the latest in an increasing number of Israeli aerial strikes against Jordan in retaliation for either shelling of Israeli settlements or patrols.

The spokesman gave few details of the raid, saying only today along the Suez Canal. He said one civilian and one soldier were wounded in the firing which was concentrated north of Port Tewfik.

## Nixon Offers 'Lottery' By Divine Providence

**WASHINGTON (UPI)**—President Nixon is on the verge of instituting a draft lottery, though it won't be in the form originally proposed, it was learned today.

Nixon apparently has given up hope Congress will enact this year the draft lottery bill he proposed in the spring. So he has decided to put a random selections system into operation on his own.

To the youth awaiting a call to arms, it would mean only one year of uncertainty instead of two, three, four or even five years.

It was not known when the system would be implemented but the executive order paving the way for it is expected to be issued shortly. Nixon said as much in remarks to the nation's governors Monday night at Colorado Springs, Colo.

Here is how the lottery would work: The President would direct the Selective Service System to abandon its present method of taking the oldest registers first, starting with 25-year-olds and working downward to 19-year-olds. He would direct it to begin

with a younger age group, probably the 19-year-olds. Assuming the 19 to 20 year-olds became the "prime age group," the local draft board would be instructed to fill their monthly quota with the oldest 19-year-olds available.

In the first year of transition from the oldest-first to the youngest-first, those above 20 and not yet 26 would be thrown in the first year pool with the 19-year-olds.

## Pampa To Take Part In Highway Week In Texas

Chamber of Commerce officials announced today Pampa and Gray County will take part in the observance of "Highway Week in Texas" which has been designated by Gov. Preston Smith during the week of Sept. 21-27.

Gov. Smith has set aside the seven-day period for annual tribute to the state's highway builders and its 69 thousand-mile highway network.

Theme for the week will be "Highways Bring Better Living."

E. O. Wedgworth, Pampa chamber secretary, said the chamber's highway committee headed by Fred Thompson, is expected to meet soon to work out details of the local observance.

The committee he stated, will work in cooperation with Tom Kelly, resident engineer for the State Highway Department, in making plans for the local participation.

The observance in Texas is sponsored each year by the Texas Good Roads Association in cooperation with the Texas Highway Department and the highway building industry.

Chambers of commerce and city, county and state leaders organize community programs for the Highway Week observance.

Details of the Pampa program are expected to be completed soon, Wedgworth said.

If it comes from a Hdwe. store we have it, Lewis Hdwe. (Adv.)

## UF Special Gifts Leads Off Drive

The Special Gifts Division of the Pampa United Fund will set the pace for the current campaign when it meets at 7 a.m. Thursday in the Emerald Room of the Coronado Inn.

Gordon Lyvons, chairman of the Special Gifts Division, said his committee members will meet at that hour to plan a program of contacting Pampans, who annually contribute larger amounts designated as "special gifts."

Meeting with Lyvons will be Gene Green, E. E. Shelhamer, Floyd Watson, Gene Imel, Al Bassett, Arthur Afergut, (See SPECIAL, Page 2)

### Lefors Grad Accepts Position At WTSU

LEFORS (Sp) — Phillip Cates, son of Mr. and Mrs. Herman Cates, has accepted the position of assistant to Dr. T. Page Carruth, dean of Student Life at West Texas State University.

Cates, a 1965 graduate of Lefors schools and a May

delegated to the New Morality Seminar at the University of California at Berkeley.

This year he represented his school at the National Convention of the Association of Student Governments of the United States in Washington D.C.

Active in Baptist student life, Cates served on the executive council of the Baptist Student Union for three years and last year was its summer missionary working with various junior colleges within the state.

This summer he served the First Baptist Church of San Antonio as youth director.

Cates maintained excellent grade averages pledging the Alpha Phi Omega and the Lambda Chi Alpha fraternities.

Achievements earned the Lefors graduate listing in the 1969 edition of Who's Who in American Colleges and Universities.

PHILLIPS CATES, graduate of West Texas State, amassed an enviable record of scholastic and extracurricular achievements at LHS.

His activities, including both the secular and the religious, have necessitated his traveling widely.

As a freshman and a sophomore, he was a delegate to the United States Air Force Academy. As a junior, he was

By Abigail Van Buren

DEAR ABBY: Shortly after my husband passed away, my sister (who is two years younger than I) expressed a desire to purchase the grave plot next to his for herself when her time comes. She went to pieces when he died. She says it will give her "peace of mind" to be buried next to him. She has a grave in another cemetery with our parents, but now she has changed her mind and wants to be buried next to my husband. Her husband was buried at sea.

I have a plot next to my husband's for myself when my time comes, but the one on the other side is still for sale.

My sister and I have always gotten along very well, and she says she will not do anything against my wishes, but I cannot for the life of me understand why she needs to be buried on the other side of my husband for her "peace of mind."

Since that plot will not be available indefinitely, I must make a decision soon. If I say no, I'll be hurting my sister, and if I say yes, I'll be hurting myself. What should I do?

ANONYMOUSLY YOURS: DEAR ANONYMOUSLY: Since it would appear that your sister goes "to pieces" more easily than you, say yes, and hope that when her time comes, she will rest in peace.

DEAR ABBY: I have been going with a divorced man for almost five years. I am also divorced. He is very good to me, but has been a playboy all his life and it is difficult for me to believe that he will settle down and be a good husband. He says he loves me and has asked me to marry him several times, and although I am sure I am the Number One Girl in his life I have reason to believe

he cheats on me. When I'm at his apartment, I keep finding evidence of other women, such as cards and notes signed "All my love." He claims he can't help it if women chase him. I tell him he wouldn't have that problem if he didn't encourage them. I do love him, Abby, but I'm wondering if I should marry him feeling the way I do.

DISTRUSTING: DEAR DISTRUSTING: A woman who loves a man she cannot trust during the courtship doesn't know what misery is until she marries him.

DEAR ABBY: I am 28, and very much in love with Lena, who is 34. I want to marry her, but the problem is my mother. She says Lena is too old for me. I have been trying for four months to get my mother to meet Lena, but she is so opposed to her on the grounds of her age that she refuses to even make her acquaintance to give her a chance.

My mother is a fine woman in many ways, Abby, but she is very stubborn. She says if I marry Lena she will not come to the wedding.

I want to get married, but I would feel guilty marrying against my mother's wishes, so no matter what I do, somebody will get hurt. What should I do?

NO KOOK IN CALL: DEAR NO KOOK: If you have to ask me, you are not ready to marry Lena—or any other woman.

DEAR ABBY: I am almost 70 years old and have lived long enough to know that people who distrust every other person are not to be trusted themselves. Very truly yours,

VICTOR IN PITTSBURGH: DEAR VICTOR: To which I can only add, "Amen!"

Mr. and Mrs. Earl Mead

### Couple Celebrates 50th Anniversary

MIAMI (SPL)—In observance of their golden wedding anniversary, Mr. and Mrs. Earl Mead, Higgins, were honored with a reception recently in the Fellowship Hall of the First Methodist Church in Miami. Mr. and Mrs. Mead were long time residents of Miami before moving to Higgins.

In the receiving line were Mr. and Mrs. Mead, Mr. and Mrs. Clyde Mead, Pampa; Mrs. Nell McCullough, Albuquerque, N.M., and Mrs. Clinton Henry, Pampa. The table, covered with a floor length cloth, was centered with an arrangement of yellow spider mums and chrysanthemums with green and gold foliage and the gold numeral "50". Crystal and silver appointments were used. Other floral arrangements and pot plants decorated the hall.

Approximately 170 guests registered from Pampa, Waco, Higgins, Canadian, Paducah, Glazier, Dumas, Fort Worth, Lipscomb, Darrouzett, College Station, Amarillo, Miami, Fargo, Okla., and Albuquerque, N.M.

Hosting the event were Mr. and Mrs. J. W. Thompson and Mr. and Mrs. J. D. Paris, all of Miami. Mrs. J. K. McKenzie presided at the guest book. Other members of the houseparty were Mrs. Eleanor Gill, Mrs. Donald Hawkins, Martha and Nancy Paris, all of Miami and Mrs. Jack Sloan, Pampa.

-Mrs. Mead, the former Eva Lucille McCullough of Pampa, and Mr. Mead were married Aug. 27, 1919, in the First Methodist Church parsonage in Amarillo. They were attended by Clyde Mead, Fanny Fern Pope (now Mrs. Clinton Henry), and Neil McCullough (now deceased).

### Betty Canary MOTHER AS MARTYR

I believe my ability to say, right out loud, "I am a martyr," is a healthy sign. After all, like most women, I was taught to be ashamed of such feelings and I successfully repressed them for years. The truth is, I have times when I am a true sister to St. Joan—complete with orange flames licking at my ankles. Sometime ago I decided we should get things in the proper perspective around here. Also, I began wondering if perhaps my children could be so simple-minded as to really believe me when I'd go around, wearing a perpetual grin and saying stuff like, "Of course, I don't mind putting down my book and helping round up your hamsters," and "I'd love to go on a picnic."

Let's be honest. The real reason I'll put down the book and hunt hamsters is because I remember the time they lost a white mouse and I didn't find it until my aunt came for a visit. Well, actually, she found him. He had made a cozy little hole inside the mattress of the sofa-bed and came out to investigate the stranger that moved in on him!

The real reason I'll take the kids on occasional picnics is because they want to go and I'm a nice enough person to believe children have rights. (My rights include the chance to have a nice lunch someplace indoors where kids aren't allowed entrance.)

My main reason for admitting that I am a martyr, a poor mistreated, overworked slavey at times, is that I don't want my husband and children to start wondering if I am simple-minded. I am sure other husbands and offspring do worry about their woman-in-the-home. Surely they must wonder about their babbling, "I'd love to..." and "Of course, I don't mind..." to everything from wiping down the walls after somebody's shower to a request for a chocolate cake. Can she love, or at the least, not mind everything equally?

Don't they get bored with the lady simpering, "Because I love you..." as her reason for doing things for the family? I'm not listening any more to those poets and philosophers and miscellaneous know-it-alls who keep equating work with love. I don't say to my son, "Cut the grass to show your love for mother." He knows the grass must be cut for other reasons. I don't say I clean the bathroom because I love my children. I clean the bathroom because that's part of my job around here and it's a most distasteful job and I can hardly wait until science comes up with a robot to do it for me.

It's a relief when your children understand what a hard life you lead. Today, for example, my mouth full of pins, I knelt before a daughter and measured a hem. "Poor mother," she said, "You thought paper, dresses would end this for you."

"But you look nice in the dress," I could mumble truthfully, "even if I loathe taking up hems!" "I wish you didn't always moan when you do it," she sighed, "but I suppose I'll just have to listen to you every time."

The answer of a true martyr in the making...

### The Women's Page

WANDA MAE HUFF, WOMEN'S EDITOR

PAMPA, TEXAS 62nd Year WEDNESDAY, SEPTEMBER 2, 1969 PAMPA DAILY NEWS 5

MOST DECORATIVE asset any room has... your own lovely legs shown to advantage in smooth, unbroken line with Fall's clingy costumes. For you who prefer the social security of girdles, Loop-the-Loop, the stocking with loop knit in the top (welt) attaches to the garter of any type of girdle with a flat clasp that eliminates garters and garter bumps. Since new skirts may escalate, the line is smooth.

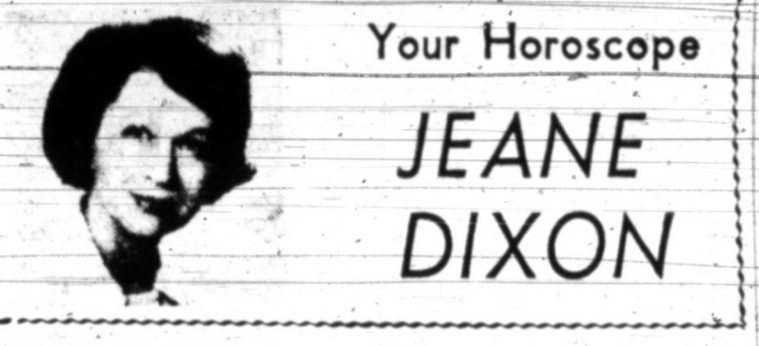

### Smooth Lines Add Neatness To Style

The cling is in for fall fashions. "For the belle who wants to score high marks for good grooming on or off campus, a smooth, long, unbroken line is essential under the prevailing short skirts," suggests Betty Curry, fashion director for a leading mills. "A boon to the female contingent who prefer the social security of a girdle is Loop-the-Loop, a new stocking with little loops knit in the top (welt). Flat clasps attach the stocking to the garter of any foundation

garment, thus eliminating garters and garter bulge. This fall Loop-the-Loop will come in an opaque style in 13 fashion shades and a support style in 6 flattering shades." For panty-hose enthusiasts there is a new bikini panty hose, the first without seams. The high side effect is achieved by a new knitting technique. No matter how high skirts may rise, girl-watchers report, the seamless bikini type panty-hose reveals a smooth, unbroken line, so it has special affinity for Fall's clingy, slinky styles.

### Pampans To Play 3 Operatic Arias

At Area Luncheon Mrs. Malcolm McDaniel, soprano, accompanied at the piano by Jerry Whitten, will present three operatic arias for the opening meeting of The Harmony Club of Amarillo at a salad luncheon Monday. In addition to the program on "Opera and Music Drama," Mrs. M. G. Mathis, president, District 1, Texas Federation of Music Clubs, will be the featured speaker. Mrs. McDaniel will sing, "Deh vieni non tardar," (Le Nozze di Figaro), Mozart, "O mio babbino caro" (Gianni Schicchi), Puccini and "Dis-moi que je suis belle" (Thais), Massenet.

### Your Horoscope JEANE DIXON

THURSDAY, SEPT. 4, 1969

Your birthday Thursday Career and living conditions are subject to considerable change (and probable improvement) in the year. Every activity of your life involves more people. The challenge will shift to include learning more psychology and practical diplomacy. Romantic interests flourish, sometimes swiftly or with brief drama. Thursday's natives are interested in occult studies or some special technology.

ARIES (March 21 - April 19): Clear away the routine. Expect the opposite sex to make extra fuss. State your views directly; be prepared for quick answers. If the evening or for a long weekend if you can manage it, take a trip for diversion.

TAUROS (April 20-May 20): Stick to tested methods Thursday. Rely on your own work instead of other people. New methods work well, but speculative ventures are especially vulnerable to Thursday's pressures.

GEMINI (May 21-June 20): Fresh views, some odd coincidences, perhaps even pure luck mark the day for you. Sentimental interests thrive, although a better atmosphere for romance must be created by you.

CANCER (June 21-July 22): You will be happy later if you will restrain the impulse to be impudent Thursday. Haste now is particularly wasteful. The moderate approach wins with mate and associates.

LEO (July 23-Aug. 22): Your own growth involves passing moments of internal, unconscious conflicts which may upset sensitive people without your knowledge. Nobody seems to get the right picture now, so be somewhat conservative.

VIRGO (Aug. 23-Sept. 22): Pay attention to those you care about, but resist undue claims on your time and resources. You have more intangible assets going than you realize. Plan a more effective approach to life.

LIBRA (Sept. 23-Oct. 22): You have the initiative and

energy, but nobody is in step with you. Do what you can alone; take care not to distract neighbors, fellow workers. Treat others as you would wish if the circumstances were reversed.

SCORPIO (Oct. 23-Nov. 21): Diligent search turns up a chance for you to improve your situation lots. The mails may also carry a big message for you.

SAGITTARIUS (Nov. 22-Dec. 21): Everybody has a different idea about what to do and where to go. Most do not have the drive or the energy to match yours. Make allowances, and proceed with your own interests.

CAPRICORN (Dec. 22-Jan. 19): Impulse that comes readily Thursday should be challenged or else channeled into clearly constructive acts. Your vocation takes a turn, slight but significant, for the better.

AQUARIUS (Jan. 20-Feb. 18): Romantic interests and distant matters combine to fill your time. Travel, if you can schedule it Thursday, promises to be helpful. Use the evening for meditation, particularly if in a strange place.

PISCES (Feb. 19-March 20): The temptation is to come to the point too abruptly and upset people. The fact that you are right does not help. Make an early evening of it.

It's a young world— Girl Scouting. All it takes is energy, imagination and ideas. If you're interested in becoming a Girl Scout leader, contact the Girl Scout office, City Hall.

What is a bridge? It's a way to get from here to there. For more than three million girls, Girl Scouting is the bridge to the future. Help girls cross this bridge as a Girl Scout leader.

### Area Class Has Meeting In Groom

GROOM (SPL)—The Esther Class of the Groom Baptist Church met in the home of Mrs. Marie Rogers for the August meeting. Vice president, Loula Wall, was in charge of the business meeting. The devotional was the 23rd Psalm, recited by all members present.

Refreshments were served to members. Misses Thelma Poole, Corrina Wheeler, Viola Harrell, Beadie Brown, Loula Wall, Ellen Dickerson, Mattie McAdams, and the hostess, Mrs. Rogers.

**NAMATH SELLS SHARE**  
NEW YORK (UPI)—Pro football Commissioner Pete Rozelle said Tuesday that New York Jets quarterback Joe Namath has officially sold his share of the controversial nightspot, Bachelors III. Rozelle did not name a date of sale, though he said Namath's interest was bought by former teammate Ray Aburzese.

**QUARTERBACK BOBBY SCOTT** will guide Tennessee's only one conference game in the last 14 starts, but Scott Tennessee ranks behind Mississippi and Georgia in pre-

football fortunes this fall. The Volunteers, who have lost as a fine runner although, obviously, not unstoppable, season Southeastern Conference ratings.

SMU Defense Better, But Problems Exist

By United Press International  
It isn't that the coaches are unhappy with the defensive secondary at SMU. But when asked about this touchy subject, assistant coach Dudley Parker says: "Can't we talk about something else."  
Actually, Parker doesn't have as many problems in this area as last year when the Ponies started four untested players in the secondary. And this group tied Texas for the most interceptions in the conference—22 in all.  
Out of the five defensive backfield regulars of last season, one graduated and another moved to the offense, leaving three returning. But Parker is not satisfied.  
"We're way behind schedule in interceptions this fall in practice," he said. "We haven't been getting them like we should. Our coverage, aggressiveness and hustle is good, but we're not coming up with the football enough."  
Parker was not the only Southwest Conference coach, assistant or otherwise, to complain of the way things are moving along in fall practice.

Fred Taylor, after spending Tuesday watching his TCU Horned Frogs scrimmage, said the session looked "extremely lousy."  
Elsewhere there were a little brighter. J. T. King was happy with Texas Tech. Bill Beall said the Baylor Bears looked good and Darrell Royal likes Astro-turf.  
Taylor singled out only one player for praise after the Frogs' scrimmage and the honor went to sophomore linebacker Randy Hale.  
Two other players tried their hand at new positions as sophomore quarterback Larry Boughdon played defensive cornerback Tuesday and running back Ken Balsanc moved to defensive safety.  
Beall said the Bears, especially the team's passing attack, looked good in the first day of workouts in pads, despite temperatures that climbed to 99 degrees.  
Special praise was handed out to Baylor quarterback apparent Steve Stuart and receivers Jerry Smith, Derriek Davis, Roland Hunter, and Don Huggins.

King liked the looks of his offensive line and said this department should be in good shape by the time the Raiders open the 1969 season Sept. 29 against Kansas State. The standout in the line, King said, was guard Tom Newton of Athens, Tex.  
Sophomore running back John Kliener, who led Austin Reagan High School to its first AAAA championship two years ago, was the highlight in the offensive backfield.  
It rained on Royal's newly installed carpet in Austin Tuesday, but that didn't stop the Longhorns from working out on their artificial sod. The rain hampered the scrimmage somewhat, but Royal said all the players had good footing on the Astro-turf.  
"Had we been on grass we would have had a hard time continuing," Royal said. "We would either have had to stop the scrimmage or ruin the field."  
During the scrimmage, fullback Steve Worster, a junior from Bridge City, gained 92 yards in 12 carries and scored two touchdowns.

Rice Gets Bonus Grid Player In SWC Century Sprint Champ

HOUSTON (UPI)—It does not seem too logical for a fellow who has not played football since high school to go through four years of college, enroll in pre-medical school and then decided to come out for the varsity.  
But Dale Bernauer—ex-sprint champion and barefooted place kicker—has done it at Rice University.  
Bernauer was the Southwest Conference 100-yard dash champion two years ago. And has run as fast as a 9.32 with the wind behind him.  
"We look upon Dale as a bonus," said Rice Coach Bo Hagan. "He wants to go to medical school, but last spring he came out and said he wanted to try out for the team."  
"Anybody who can run a 9.3 100-yard dash can try out for the Rice University football team."  
Bernauer is currently running as the second-string wingback, a position of considerable responsibility since he holds down a key blocking position as well as

being a potential pass receiver.  
"I've been sitting in the stands watching the games each year," said Bernauer, 22, of Port Arthur. "I kept wishing I was down there too. I feel like I can help the team somewhere."  
Bernauer played wingback at Port Arthur Jefferson as a senior, and about all he did then was block, so he is familiar with the job.  
Bernauer said he never came out for football before because he "owed the best I could give to track coach Emmett Brunson."  
Hagan says the four-year lay-off has not wiped out Bernauer's football capabilities.  
"He has good hands," said Hagan.  
Bernauer says his hands are good enough to get the job done. And he says he does not hear the footsteps of the defensive backs either.  
"I have bad ears," he said.  
Bernauer is being tried on punt and kickoff return teams.

and in the last few days has popped up as a potential place kicker.  
"We were having trouble with our kickoffs," Hagan said, "and we asked for volunteers to try kicking off. Bernauer jumped up and kicked the ball barefooted. It went 60 yards."  
"I turn my toes up a little, but I hit the ball with my toes—not the bottom of my foot," Bernauer said. "I used to kick off barefooted in junior high, but when I got to high school, the coach made me put a shoe on. I couldn't get any distance that way."  
"It does not hurt if I do it right. I've had two sprained toes, though, since I have come to college just kicking the ball around. I try to keep my toenails cut short."

3 Americans Left In U.S. Open Net Meet

FOREST HILLS, N.Y. (UPI)—Only three Americans are left among the last nine men in the \$137,000 U.S. Open singles tennis championship.  
Defending champion Arthur Ashe of Gum Spring, Va., Earl Buchholz of St. Louis and 41-year-old Pancho Gonzalez of Malibu, Calif., are still alive but so are six Australians.  
Furthermore, five of those Aussie pros already have reached the quarter-finals or last eight and Ashe was matched on the center court today against one who has beaten him both times they met—34-year-old Ken Rosewall. The winner goes into the semi-finals.  
Rod Laver of Australia, hot after his second grand slam, plays a quarter-final against Aussie Roy Emerson, the man he beat in the 1962 finals as he completed his sweep of the Australia, French, Wimbledon and U.S. crowns as an amateur that year.

In Tuesday's rain-delayed program, Buchholz won a five-setter from Andres Gimenez of Spain, Australia's Fred Stolle won in four from Royer Taylor of England and John Newcombe of Australia tied up the center court for five hours, 45 minutes before downing Marty Riessen of Evanston, Ill., in a record four-setter.

The gals go for berths in the final round today with Rosemary Casals of San Francisco in one semi against Nancy Richey of San Angelo, Tex., and defending champion Virginia Wade of Great Britain against Margaret Smith Court of Australia in the other.  
Miss Smith won the title in 1962 and 1965 and Miss Richey was a finalist in 1966, the last time she played here.

SELF MIND CONTROL

Learn to control your mind. The Self Controlled Mind can move mountains, conquer disease, create masterpieces, adapt the body to stress, protecting illnesses. SELF MIND CONTROL Training is affected in three basis courses.

**No. 1 - 101 CR-12 Hours**  
Learn to control vitality, energy for body-increase efficiency, concentration, self control. Correct nervous tension which sometimes causes headaches, insomnia, etc. Learn to remember to control your dreams.

**No. 2 - 202 GSI - 12 Hours**  
Learn technique for improvement of memory, creativity. Learn pain control for dental work, etc. Learn habit control — such as nailbiting, over eating shyness smoking. Learn effective prayer.

**No. 3 - 303 ESP - 24 Hours**  
Learn to development intuitive sense and ESP to solve personal problems such as finding lost objects, learn to solve business problems such as investments, etc.

**INTRODUCTORY LECTURE FREE**  
First Christian Church (South Entrance) 7 p.m. September 4. — First class will begin at 8:30 p.m. and will be held each Thursday evening. For further information call Vivian Huff 669-6522 or Mary Duenkel 669-3314.

**SILVA MIND CONTROL INSTITUTE**

Hayes Has Talent On 19th Grid Team At OSU

SPORTS

CHICAGO (UPI)—Woody Hayes' 19th Ohio State football team boasts so much talent that the battle in the Big Ten should be for the Rose Bowl berth instead of the conference title, and Indiana could be the bowl guest with a share of the league crown.  
The Hoosiers do not play Ohio State or Michigan, and coach Johnny Pont has more depth, stronger defense and an explosive experienced offense, perhaps good enough for a 7-0 Big Ten mark which presumably could tie the Buckeyes for the conference title. Ohio State is not eligible to return to the Rose Bowl this season.  
Another Midwest team, Notre Dame, will be good as always, but Coach Ara Parseghian may have too many offensive problems to hope for a national title and probably will have trouble making the top ten.  
Ohio State, with a 14-game winning streak, longest of any major college team, lost only four of the 22 starters on last year's conference and national champions and Rose Bowl victors. The Buckeyes can fill these spots with talented reserves from last year and have unusual speed, depth and experience.  
Among those on hand, for instance, are such backs as Rex Kern, Jim Otis, John Broeking-

ton, Larry Zelina and Ray Gillian, plus linemen Jan White, Bruce Jankowski, Alan Jack and Brian Donovan and defensive men Jack Tatum, Dave Whitfield, Paul Schmidt, Jim Stillwagon, Ted Provost and Mike Sensibaugh.  
Indianacan count on Harry Gonso, John Asenbarger and Jade Butcher to spark the offense again, and some sophomores will bolster both the line and backfield. "I think we're a contender for the championship," Pont says.  
Notre Dame should be tough on defense with eight of last year's regulars returning and five sophomores might challenge for some of these spots. But on offense the Irish lost the entire backfield plus end Jim Seymour and four other linemen. Thus Parseghian hopes Joe Theismann can handle the quarterback spot with Jeff Zimmerman at fullback and sophomore Andy Huff at one halfback spot. Depth and pass receivers, though, could be a problem.  
Michigan State and Purdue could come on strong in the Big

Ten Race, the Spartans with a new triple-option offense, plenty of good looking sophomores, and more experience, depth and size. Bill Triplett at quarterback could be a star. Purdue had heavy losses and quarterback Mike Phipps will be working with green hands at the receiving spots and in the backfield. But the Boiler-makers could display a tough defense with ends weighing 277 and 265 pounds, tackles at 246 and 265 pounds, and linebackers at 232, 210 and 202, and all with experience.  
The middle group in the Big Ten probably will include Iowa, still with an explosive offense and stronger defense, Michigan, with good defense and inexperienced offense under new Coach Bo Schembechler, and Minnesota, with a strong backfield but an inexperienced line on both offense and defense.

**Memphis Bombs A-Giants On Two Home Runs**

AMARILLO, Tex. (UPI)—Memphis third baseman Chico Diaz is not noted as a power hitter, but his bat gave the Blues a 4-0 lead over favored Amarillo today in the Texas League's best of five playoffs.

Diaz, who had nine home runs during the regular season, busted a three-run homer in the top of the sixth inning Tuesday night to break up a scoreless game. He added a second home run in the eighth inning and Memphis beat the Giants 4-0.

The two teams meet again tonight for the second game. Memphis, which won the Eastern Division title with a 66-53 record, collected only five hits off loser Miguel Puentes and reliever Mike Davison. Puentes was 13-7 for the season.

The Giants, who got only three hits off Russ Seals, won in the West with an impressive 80-55 record, beating Dallas-Fort Worth three straight times at the end of the regular season to edge the Spurs for the title.

Seals, who was 8-9 for the year, picked up the win.

**Ryder Cuppers Prepare For Golf Matches**

WETHERSFIELD, Conn. (UPI)—Dave Hill and five other Ryder Cuppers prepared today for a marathon international journey which will take them as a team against the British in England and then over the pole to become opponents in the Alcan Golfer of the Year championship at Portland, Ore.

Hill will go to England for the Ryder Cup matches at Royal Birkdale, Sept. 18-21, and then will fly back to Portland along with team members Billy Casper, Frank Beard, Dan Sikes, Lee Trevino and Gene Littler.

There at the Portland Golf Club on Sept. 25-28 they will join seven other Alcan qualifiers in a head to head battle for the golfer of the year championship and the year's richest individual prize, a \$55,000 first-place payoff. Joining them will be seven other Alcan hopefuls—Doane Beman, Bob Lunn, Lou Graham, Grier Jones, Kermit Zarley, Bert Greene and two-time winner Gay Brewer, Jr.

**Pampa Office Supply Co.**  
"EVERYTHING FOR THE OFFICE"  
211 N. Cuyler—669-3353

**NEW YORK (UPI)**—Ralph Houk, with a brand new three-year contract to keep managing the Yankees in his kick, didn't feel there was any need to embarrass anybody.

Besides, he lives by the code which says no manager should ever kick another when he's down because there's no telling when the same thing could happen to him.

So when the question came up as to whether he had ever been approached by any other clubs about managing them next year, Ralph Houk ran his right toe idly along the carpet of the room where Tuesday evening's news conference was held at Yankee Stadium and mullied it over a moment or so before answering.

"In roundabout ways I did,"

said the Yankee manager, in full uniform for the game with Seattle which was scheduled to start in 45 minutes.

**No Consideration**

"But I never considered them," Houk quickly added, without ever pin-pointing the roundabout ways or identifying any of the clubs which employed them.

Baseball people always are so hush-hush about such things.

The first club that asked the Yankees if they had any plans for Houk was Philadelphia.

The second was California's Angels, who may still offer the job to Tulsa's Warren Spahn if they decide at the end of the year that Harold "Lefty" Phillips, who is doing all you could possibly ask with what he

**SPORTS PARADE**

has is not the proper successor to Bill Rigney.

But back to Ralph Houk, who must be good because his club is in fifth place in a six-club division and here he is with another three-year contract. The contract calls for somewhere around \$70,000 and when you take away those stock options of Ted Williams, that makes Ralph Houk the highest paid manager in the majors.

Before he got his new contract, there had been some speculation Houk might be out.

He heard the speculation, general manager Lee MacPhail, who also received a new three-year contract heard it, and so did Mike Burke, the club president who made the announcement about the new contracts.

Burke took cognizance of some of that speculation.

"Perhaps," he said, "there may have been speculation Ralph would go, Lee would go, all three of us would go. In a case like this if you're convinced your course is right you have to

have the guts to go ahead with it. We don't panic. We don't care if they need us. We think we know where we're going. It takes time. You just can't sprinkle salt on ballplayers and make 'em grow faster."

Mike Burke is an old smoothie. He's so smooth he can make you think he's promoting you when he's actually firing you.

**Rumors Abound**

There has been talk that he and Houk no longer are as close as they once thought they were. Was that true?

"Any rumors to that effect are groundless," Burke said. "Ralph has demonstrated a very extraordinary capacity for handling younger players even as far back as when he was managing Denver."

Houk always has had good

rapport with his players, possibly better than any other manager.

When word was relayed to Joe Peppone that Houk had been given a new contract for three years, he said: "Good! I wish it was for 50 years."

Joe really throws that CBS money around, doesn't he?

Before Tuesday night's ball game, Peppone offered his side of the story for what he did recently to the Yankee players and when he was through they applauded him.

The Yankees like Joe Peppone. They like Ralph Houk, too.

They come pretty close to being the ideal happy family, but if you look real closely, something is missing somewhere.

## Mourners Line Hometown Streets To Pay Last Respects To Heavyweight Champ Rocky Marciano

**BROCKTON, Mass. (UPI)**—farewell. He was still champ. When Rocky Marciano was By the hundreds, mourners lined the streets to pay their last respects to the

"Brockton Blockbuster," who died Sunday night in the crash of a private plane in Iowa, one record of 49 victories, including 43 knockouts. He retired unbeaten in 1956.

The son of a shoe factory worker, he was born Rocco Marciano and two other men

Marchegiano. He won the heavyweights boxing crown Sept. 23, 1952 when he knocked out Jersey Joe Walcott in the 13th round of their fight in Philadelphia.

Brockton's final tribute to Marciano will be paid at a Solemn Requiem Mass at 10 a.m. Thursday in St. Colman's Roman Catholic Church

## Democracy With A Small 'd'

There is much confusion in this nation over the term "democracy." The word comes from the Greek and in its structure means "rule of the people" or possibly "rule by the people."

But when the word is not capitalized its actual functional quality relates to market place rather than to political activities. When it is capitalized, as it usually is in this country, the concept changes.

In a Democracy, majorities make decisions which are binding upon all people. When the democratic concept is employed in the market place each individual makes decisions which are binding only upon himself and those others directly involved.

The democratic process (small "d") does not suppose control of some by others; it supposes control of each by each.

Let's see how it works. In the market place you go into a store and buy a can of beans. You are bound by your decision. You have, for reasons known only to you, decided to purchase a can of beans put out by X company. Its name is on the label.

You don't know there will be beans in the can. You can't see the beans. But, partly because of the label and partly because of experience, you trust the company. You exchange your money for the can. This is a ballot cast in the market place. This is your vote in favor of the company you patronized.

It is binding upon you. You must pay for the beans the price quoted. You don't have to buy it at all. But if you do buy it you must pay for it. The storekeeper will give you credit. If he does, it is because he trusts your label. He believes, either through experience or through long practice in reading labels, that he will eventually get paid.

He could be wrong. But he won't be wrong many times. You might be wrong. The can might contain marbles, soup or mashed potatoes. But you won't be wrong many times, either. If you buy a can from X company and it does not contain what it says it contains, you will be mighty reluctant to patronize that company again.

But let us see what happens as a result of your ballot cast in the market place. Your vote is tabulated by the storekeeper either at the end of the day or the end of a few days of marketing.

He will find, when he does his tabulations, that some (like yourself) have voted for X brand. He will know this because he will have to re-order X-brand.

He will also find that some others have voted for Y brand. Still others will have voted for brands, Z, ZXY, XX, YYYY. He will re-order these brands too in precisely the quantity he thinks necessary to take care of his customers in the future.

What happens at the various companies which process these beans? The vote comes in, each time numerically different for each firm. Each firm is encouraged by each vote cast. Such encouragement leads it to continue the process by which it pleased you or others.

Let us suppose that X brand, the kind you vote for, was the most popular. Let us suppose that this brand got 100 votes, each of the other brands getting fewer than 100. If we had Democracy (capital D) in the market place, this would mean that an order would be issued which would say in effect, "Only X brand need be processed any more. The voters have clearly shown that X brand is the best bean. Therefore, all other brands are hereby discontinued."

But we don't have capital D Democracy in the market place. We have small 'd' democracy. Therefore, even though X brand proved to be the most popular, others were popular enough to encourage them to some degree. So, all firms which were voted on favorably enough continue to produce their product.

Your action in buying X brand does not compel us to purchase X brand. Personally, let us suppose, we happen to like YYYY brand. We cannot prevent you from buying X brand. You cannot prevent us from buying YYYY brand.

This is true democracy. It is the process wherein each governs each. This process is always moral and provides the greatest good, the greatest variety, the lowest prices for the largest number.

(Continued tomorrow)

## That Fatal Asterisk

Perusing "Coin World," the weekly numismatic newspaper, one of the best methods we know of for keeping tabs on the progress of inflation. As the "luff" we call "money" progressively loses its purchasing power as a result of the government dumping more of the worthless stuff into the economy, the honest metal coins, medals and medallions advertised for sale in "Coin World" become progressively more valuable.

Frequently, too, an ad in the numismatic newspaper tells an even more poignant story. Such was the case with an ad placed by the Canadian Division of the Lombard Mint, P. O. Box 203, Sherbrooke, Quebec, Canada, in the Aug. 13 issue. The ad, offering "The Lunar Plaque," serially numbered exact replicas of the plaque placed on the Moon by Neil Armstrong cast in bronze, silver and gold, listed the offerings as follows: "Bronze \$3.; Silver \$12.; 24 Karat Gold \$200."

Then, in a footnote explaining the meaning of the asterisk preceding the gold plaque price: "The 24 Karat Gold items are not legal for U.S. residents to import."

That asterisk would apply, it is appropriate to add, also to the Soviet Union — another country whose citizens, like those of the United States, are forbidden to own gold.

## H. L. Hunt Writes

### THE PRESS AND COMMUNISM

Quite frequently, we see stories in the news media about United States citizens who have come back from visits to communist countries with glowing accounts of great progress and public welfare in those countries. Considering the bloody record of tyranny and deprivation posted by the Communists during 50 years of Red rule, any reporter should ask some objective questions of a person who lauds the communist system.

But many reporters merely offer the subject a sounding board for his viewpoint. Nor, evidently, do the reporters do their homework on the persons to be interviewed, for a steady stream of Communists, fellow-travelers, and sympathizers are regularly interviewed by the press, and treated as if they were ordinary tourists with no political axes to grind. It is almost incredible that some members of the press could be so naive or so gullible.

If life in the socialist countries behind the Iron Curtain is so great, then why have a quarter of a million people abandoned all their worldly possessions and risked their lives just to escape the socialist paradise of East Germany? The Berlin Wall was not built to keep the free West Germans out of East Germany.

It is reported that points have been established in Cuba where Cubans can go and hope to be permitted to leave the island, after they have surrendered all their worldly possessions to the Government. And many thousands have done so.

Early last month, a Soviet physicist told American colleagues, "When we go to war we will not fight with our little finger, like you Americans. We will be fighting to the death."

Then, on Aug. 7, as if to confirm this threat, Moscow dispatched to the Sino-Soviet front Gen. Vladimir Tolubko, the Red Army's No. 2 expert on strategic missiles. He presently is in command of Russia's Far East forces facing Red China.

Changes in Soviet military commands are seldom announced. This was, this meant to be a warning that Russia will not try to fight the hordes of Red China with masses of marching men but, instead, with weapons of mass destruction.

All this saber rattling in Moscow and Peking could be purposeful false alarm. Dramatizing external threats is a classic device employed by governments for the diversionary purpose of distracting home folks from home-front problems.

For a generation now, Red dictators have used the threat of "American imperialism" to quell internal unrest and dissent.

President Nixon's dramatically pronounced policy of withdrawal from Asian affairs has left the Communists of Russia and Red China no bogey man except each other.

There is, however, increasing evidence elsewhere that the Red world is disintegrating.

Red Yugoslavia declared its independence of Russia, got away with it.

So when Hungary rebelled against Moscow rule, Soviet forces bathed Budapest in blood.

Russia's enemies inside other satellite countries retreated but they did not forget.

When Czechoslovakia sought to wrest herself free from Kremlin domination, Red army forces moved into that country and are still trying to force "the toothpaste back into the tube."

But while Soviet occupation forces and Czech troops are parading for the public—anti-unity leaflets are being surreptitiously distributed—passive boycotts of transportation and business demonstrate their continuing opposition.

Then there is Romania. President Nixon received an unprecedented welcome in Bucharest. Romania has been presumed to be the "other side" of the Iron Curtain.

Romania's President Ceausescu, however, proudly proclaims his country "an independent Socialist state."

He said Romania must have the right to "free and sovereign development without interference by anybody."

And 3,300 delegates to his party congress applauded a menacing-sounding denunciation of this "spirit of independence," but so far has made no military move in Ceausescu's direction.

It could be that Russia just does not have enough thumbs to plug up the whole perforated dike.

Editor: Tax troubles prevail at all levels of government. The Federal Group in Washington is bewildered by their deficit spending. The Legislature in Austin is in a state of near chaos on how to raise money to meet their budget. The City of Pampa and City Bosses are no exception. The City Fathers continue their policies of waste and mismanagement of city affairs. Their attitude seems to be that if the problem can't be brushed under the rug and hidden a committee can be appointed to solve it. Recently we have had a committee for recommendations and it was decided that the public would be the proper route to take. Both before the coming election of September 24th. The problem of paying on the Canadian River Project has been hanging in the balance for approximately ten years and no one was concerned. All of a sudden it develops into a crisis and those who promoted the project the hardest now want someone else to pick up the tab. What's the matter with a little economy in City Hall, a more equitable taxing program covering real and personal property, discontinuing the practice of special favors to certain people and a general improvement in operations. This will balance the budget.

## So How Come It's Still Heavy?

## PAUL HARVEY NEWS Is Red World Disintegrating?

By PAUL HARVEY  
Russia and Red China have been hissing and snarling and snapping and sometimes shooting back and forth across their common border.

Early last month, a Soviet physicist told American colleagues, "When we go to war we will not fight with our little finger, like you Americans. We will be fighting to the death."

Then, on Aug. 7, as if to confirm this threat, Moscow dispatched to the Sino-Soviet front Gen. Vladimir Tolubko, the Red Army's No. 2 expert on strategic missiles. He presently is in command of Russia's Far East forces facing Red China.

Changes in Soviet military commands are seldom announced. This was, this meant to be a warning that Russia will not try to fight the hordes of Red China with masses of marching men but, instead, with weapons of mass destruction.

All this saber rattling in Moscow and Peking could be purposeful false alarm. Dramatizing external threats is a classic device employed by governments for the diversionary purpose of distracting home folks from home-front problems.

For a generation now, Red dictators have used the threat of "American imperialism" to quell internal unrest and dissent.

President Nixon's dramatically pronounced policy of withdrawal from Asian affairs has left the Communists of Russia and Red China no bogey man except each other.

There is, however, increasing evidence elsewhere that the Red world is disintegrating.

Red Yugoslavia declared its independence of Russia, got away with it.

So when Hungary rebelled against Moscow rule, Soviet forces bathed Budapest in blood.

Russia's enemies inside other satellite countries retreated but they did not forget.

When Czechoslovakia sought to wrest herself free from Kremlin domination, Red army forces moved into that country and are still trying to force "the toothpaste back into the tube."

But while Soviet occupation forces and Czech troops are parading for the public—anti-unity leaflets are being surreptitiously distributed—passive boycotts of transportation and business demonstrate their continuing opposition.

Then there is Romania. President Nixon received an unprecedented welcome in Bucharest. Romania has been presumed to be the "other side" of the Iron Curtain.

Romania's President Ceausescu, however, proudly proclaims his country "an independent Socialist state."

He said Romania must have the right to "free and sovereign development without interference by anybody."

And 3,300 delegates to his party congress applauded a menacing-sounding denunciation of this "spirit of independence," but so far has made no military move in Ceausescu's direction.

## Inside Washington

Defense Budget — Plans Needed by Scissoring Senators  
JOHN GOLDSMITH ROBERT ALLEN

WASHINGTON—Over the last six years, budget cutting action by the Senate has trimmed \$8.6 billion from the regular appropriations requested for the Pentagon and the armed services.

This is a sizable sum. It represents about 2.6 per cent of the \$349.8 billion in appropriations for defense purposes recommended for the 1964-69 fiscal years by former President Kennedy and Johnson.

During the same period, however, all the regular appropriations, totaling \$671.2 billion, were cut \$24.5 billion or 3.6 per cent. That means that some \$321.5 billion in non-defense budget requests absorbed Senate cuts totaling \$15.9 billion, about 4.9 per cent.

These totals, from a private study, set the dimensions of the current Senate controversy over military spending and national priorities. They provide statistical support for the assertion by Pentagon critics that the Senate (and the House too) are just rubber stamps in the annual budget process.

The statistics suggest that non-defense programs, cut nearly five per cent in the six fiscal years, were hit nearly twice as hard by the Senate budget cutters as were the programs in the Defense Department money bills, cut 2.6 per cent.

Budget experts say that disparity would probably increase a bit if totals for "supplemental" money bills were added to the regularly budgeted appropriations. That is because the Pentagon usually gets most of its supplemental requests — for pay, provisions and the like — while non-defense supplementals are more readily denied.

Non-experts might contend that the 3.6 per cent overall cut for all regular appropriations is not really very large. There can be much argument also about what is a "rubber stamp." The totals indicate, however, that small defense budget cuts have been smaller than non-defense budget cuts, which are also small.

TFX, FDL AND THEN? — In terms of weapons, rather than dollars, the congressional record for cuts is similar — some accomplishments, significant in themselves, but less so when viewed against the overall procurement program.

There is, in the first place, the Navy F-111 fighter, the Navy's version of the controversial FTX fighter designed to be used by all the services. The Navy plane was canceled because of a tide of congressional resistance which originated with Sen. John L. McClellan, D-Ark.

Then there are the FDLs, the fast deployment logistic ships, floating armories and weapons depots to carry major equipment for troops to be moved by airlift. Sen. Richard B. Russell, D-Ga., chairman of the Senate Appropriations Committee, has been able to block the FDL program so far.

Some other weapon developments, such as transition to the new Poseidon missile for the Polaris submarine fleet, have been slowed by congressional pressures. Often, however, the pressure has been in the other direction. The Senate and House have prodded the Pentagon and sometimes voted sums in excess of presidential requests.

In the last six years, for example, Congress has, on a couple of occasions, called for a faster transition to nuclear power for warships, both carriers and escorts. Those speed-up pressures have sometimes paid off in the past.

The 41 missile firing submarines of the Polaris fleet, which are now viewed as the nation's major deterrent force by some of the Pentagon's critics, would surely have been delayed, and might not now be completed if Congress had not pressed for faster action by the Navy.

WHAT'S TO DO? — As senators are discovering in the long debate over the current procurement bill, it is hard to cut defense spending by zeroing in on individual weapons systems, however expensive. There are always persuasive arguments for the weapons.

## BRANCH HEAD BILL SAYS: Nixon Blew It On Moon

WASHINGTON — They tell me now that the sack of rocks they brought back from the moon didn't cost us but about \$33 billion. That's how much went into the space program before we got those men landed up there (or down there, or out there, or wherever the thing is). I wonder how much that is per rock?

That was bad enough, considering they are not even sure yet whether the rocks will be safe to tote in your pocket or shoot in a sling shot. But what made it even worse, President Nixon couldn't wait for the astronauts to get back home before he took off around the world and gave all the rocks away. I was told that he promised moon rocks to so many dignitaries in so many different countries that there was no exception. The City Fathers continue their policies of waste and mismanagement of city affairs. Their attitude seems to be that if the problem can't be brushed under the rug and hidden a committee can be appointed to solve it.

Recently we have had a committee for recommendations and it was decided that the public would be the proper route to take. Both before the coming election of September 24th. The problem of paying on the Canadian River Project has been hanging in the balance for approximately ten years and no one was concerned. All of a sudden it develops into a crisis and those who promoted the project the hardest now want someone else to pick up the tab. What's the matter with a little economy in City Hall, a more equitable taxing program covering real and personal property, discontinuing the practice of special favors to certain people and a general improvement in operations. This will balance the budget.

## Clearing House

Got something you would like to get off your chest? That's what the "Clearing House" is for. It has been suggested there should be more letters to the Editor, that people should speak their mind. So, in the public interest, write to the Editor and get it off your chest!

## LETTER TO NASA

Dear Sir: Man on the moon is the greatest achievement of our time. Congratulations on a job well done. Our thanks to God also, without whose help this magnificent feat could never have been accomplished.

We believe, as our Constitution states, that men have the right of freedom of religion and freedom of speech. What men believe or disbelieve is their religion. Men should be free to believe or disbelieve.

This is freedom of religion. Men should also be free to publicly avow their belief through prayer. This is freedom of speech.

Mrs. Madeline Murray O'Hare chooses to disbelieve in God. We defend her right to so choose. We choose to believe in God: This is our inalienable right. What we accomplish is accomplished because God wills it. Therefore, we choose to publicly express our faith and our thanks by public prayer.

As long as men have faith and hope they will pray. This nation was founded on faith, hope and prayer. It is the greatest nation ever to exist on this earth. Why should we deny the very things that have made us great? Leave our men free to pray on the moon and worship when and where they choose.

John Warner  
President  
Pampa Jaycees

## Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)

Question: Does the welfare state annul and revoke justice and freedom?

Answer: It certainly does. That is, it does if the welfare state is supported by the political state by means of plunder, or taxation.

Freedom, by the definition of Andrew J. Galambos, the teacher, is "that societal condition where every individual has 100 per cent control over his own property," that is, his life, his actions, his ideas and all he produces.

Therefore a man should get all he produces and should have the right to enjoy it or spend it as he wishes. He should be most beneficial to him. The welfare state annuls justice and revokes freedom because it takes away from every man a part of what he produces and deprives him of his right to control his own life.

The welfare state also violates the Golden Rule. No one would contend that he had a right to force a man to pay for something he didn't want, but most people will turn around and say that the state has the right to do things no individual has a moral and just right to do.

This is a double standard of right and justice for all men.

Editor: Tax troubles prevail at all levels of government. The Federal Group in Washington is bewildered by their deficit spending. The Legislature in Austin is in a state of near chaos on how to raise money to meet their budget. The City of Pampa and City Bosses are no exception. The City Fathers continue their policies of waste and mismanagement of city affairs. Their attitude seems to be that if the problem can't be brushed under the rug and hidden a committee can be appointed to solve it. Recently we have had a committee for recommendations and it was decided that the public would be the proper route to take. Both before the coming election of September 24th. The problem of paying on the Canadian River Project has been hanging in the balance for approximately ten years and no one was concerned. All of a sudden it develops into a crisis and those who promoted the project the hardest now want someone else to pick up the tab. What's the matter with a little economy in City Hall, a more equitable taxing program covering real and personal property, discontinuing the practice of special favors to certain people and a general improvement in operations. This will balance the budget.
