FDR Candidates Lose In California And S. Carolina

BRITAIN SENDS HITLER NEW WARNING

PENSION PLAN AUTHOR BEATS SEN. M'ADOO

Smith Defeats Olin Johnson For Senate

Senatorial candidates with the personal backing of President Roosevelt were on the short ends of the Democratic primary returns today from South Carolina and California.

Ellison D. Smith crushed Mr. Roosevelt's first effort to unseat a Democratic senator by winning re-nomination in South Carolina. With returns 90 per cent complete, the veteran of 30 years service held a margin of more than 27,000 votes over the New Deal entry, Gov. Olin D. Johnston.

Despite repeated presidential aid, Senator William Gibbs McAdoo was more than 39,000 votes behind Sheriff Dan Downey, who made a novel pension plan an issue. Downey had 133,568 votes to 119,417 for McAdoo with 6,211 of the 12,438 precincts.

Although Mr. Roosevelt did not mention names during their furious primary campaign, he referred to Smith as one who "thinks in terms of the past."

The race between Smith and Johnston was regarded by most politicians as a foregone conclusion.

Building Inspector Attacked, Defended Before Commission

HEARING FOR BUDGET SET

Differences between Pampa plumbers and electricians concerning the office of the city building and plumbing inspector were aired at the city commission meeting Tuesday, when a petition was presented by W. M. Lane, plumber, asking that the commission "appoint to the office of plumbing inspector one with sufficient qualifications and experience to protect the sanitary conditions so essential to the health and well-being of our city."

While the petition stated "there is no ill-will nor friction between the signers and the party now filling the office of plumbing inspector," the conversation between Mr. Lane and the city commissioner and between Frank Hunt, electrician, and the commission indicated that the present inspector was favored by the electricians but not by the plumbers.

City Commissioner D. W. Osborne told Mr. Lane that some of the signers of the petition had later told him their ideas on the subject were reversed, and had asked that their signatures be disregarded. He declined to name the retractors when asked by Mr. Lane.

"The commission doesn't quite know how to deal with a petition of this kind when this situation exists," Mr. Osborne said. Mayor Carr further stressed this point, saying the commission had been confronted with a like situation on petitions previously submitted to them.

Frank Hunt, speaking for the electricians, said that building and plumbing inspectors in the past had been more closely identified with the plumbing trade than with that of the electricians. He claimed that the electricians had been tolerant of this condition, but now asked "an even break."

Mayor Carr pointed out the difficulty of obtaining a man qualified on all three sides of the office: building, plumbing, and electrical inspections. He emphasized the great expense of having an inspector in each of the three lines, saying it would cost the city \$500 a month to do so. He asked both

Perkins Raps Dies Committee Findings

WASHINGTON, Aug. 31 (AP)—Chairman Dies, Democrat, Texas, of the House committee on un-American activities, said today Secretary Perkins had taken the "astonishing action" of "practically dropping" deportation proceedings against Harry Bridges, West Coast CIO leader.

Dies, en route to Texas, telephoned his statement here after the committee received from the secretary of labor a blunt rejection of its demand that Bridges be deported because he was a Communist.

Miss Perkins wrote Chairman Dies: "The fact that Communists are here and I agree in this, does not justify us in placing within that category every other unpopular person nor in deporting them without a scrupulous regard for the due process of law, the clear and certain ruling of the courts and the facts in the case."

"Perhaps it is fortunate that Shirley Temple was born an American citizen and that we will not have to debate the issue raised by the preposterous revelations of your committee in regard to this innocent and likeable child."

'DIXIE' DAVIS TESTIFIES IN HINES TRIAL

Tammany Ex-Chief Won't Speak To Defendant

By E. C. DANIEL. NEW YORK, Aug. 31 (AP)—J. Richard (Dixie) Davis, 32-year-old "kid mouthpiece" of the multi-million dollar Dutch Schultz policy racket, today "put the finger" directly on Tammany District Leader James J. Hines by testifying that he paid Hines \$2,000 in October, 1932. The Tammany boss is on trial as the accused "political front" for the racket.

"I visited Hines' home with Schultz," the witness swore, "and later went to see Hines with Leo Rosenthal." Rosenthal was a Hines aide at his Monarchical Democratic Club. "I told Hines I had been needed money, so I gave him \$2,000."

LATE NEWS. PHILADELPHIA, Aug. 31 (AP)—Superintendent William B. Mills today named Guard Sergeant James Hart was the man "responsible" for turning over the key that blasted the lives of four convicts in punishment cells at the Philadelphia county prison.

AUSTIN, Aug. 31 (AP)—Governor James V. Allred today ordered a transcript of the record in the case of Arthur Huey of Borger, released from the Texas penitentiary on a writ of habeas corpus signed by District Judge H. Fountain Kirby of Groesbeck. Allred said he would have the record of Huey's trial and conviction studied to ascertain what should be done in the circumstances.

BROWNSVILLE, Aug. 31 (AP)—Floodwaters of the Rio Grande shot past the flood stage throughout the upper valley today and spillways on the Texas and Mexican sides began draining the stream in an effort to prevent damage to crops in the fertile area. The stream was still rising at Rio Grande City and had reached a stage of 31.1 feet. The flood stage there is 21 feet.

NEW YORK, Aug. 31 (AP)—J. Richard (Dixie) Davis, 32-year-old "kid mouthpiece" of the Dutch Schultz policy racket, testified today in the conspiracy trial of Tammany District Leader James J. Hines that he paid Hines approximately \$40,000 as political "fixer" for the mob before October, 1932, and July, 1935.

John Bull Warns Germany

With all Europe jittery lest Germany's current gigantic army maneuvers and the demands of the Sudeten Germans on Czechoslovakia develop into a new world war, Great Britain issued a double-barreled warning to Adolf Hitler. Verbal, Sir John Simon (insert above), Chancellor of the Exchequer, although without naming the German dictator, served notice that England might not be able to keep out of any war beginning in Central Europe. Concretely, Britain reinforced her warning by sending her great Home Fleet to their North Sea battle station at Scapa Flow, Scotland. More than forty British warships such as those pictured above, will take part in what were officially called "autumn maneuvers."

Marking the formal opening of Radio Station KPND's Borger studios, the station's artists and musical staff will present a fast-moving show on the stage of the Rig theater in Borger tonight.

The re-vis is under direction of Ken Bennett, musical director for both the Borger and Pampa studios. The stage presentation will begin at 8:30 p. m. and will be broadcast over KPND direct from the theater stage.

Garret Reeves, secretary-manager of the Pampa Chamber of Commerce, and R. G. Hughes, representing the Pampa Junior Chamber of Commerce, will convey congratulations and best wishes to Borger Pampa's sister city.

Ray Mundy, veteran KPND announcer for the stage broadcast. The program over KPND will continue for one hour beginning at 8:30 o'clock.

ENVOY FLIES TO BERLIN TO DEPLORE WAR

England Would Not Let France Be Defeated

Great Britain's ambassador to Nazi Germany flew to Berlin today, armed with new authority, informed persons said, to reiterate vigorously the warning that Britain might not stand aside if war came to Central Europe.

The Envoy, Sir Neville Henderson, was said to be empowered to deliver this warning personally to Reichsfuehrer Hitler if necessary in even stronger terms than it was stated Saturday by Sir John Simon, chancellor of the exchequer.

France, keeping in close touch with Britain, ran into new trouble at home when the Union of Workers' Syndicates of the Paris region, which includes most of the capital's organized labor, called upon its members to refuse to accept yesterday's cabinet decree to increase working hours in the interest of national defense.

The union declared Germany menacing the peace of the world, but held that the international crisis did not justify abandonment of the 40-hour week.

As Germany awaited the arrival of the British Ambassador, war clouds continued to hover over Europe, with Hitler preparing the Reich's armed forces at top speed and the French army holding maneuvers in the Swiss frontier.

France's powerful army commission met with Premier Edouard Daladier to weigh possible effects of the German mobilization program. British secret observers watched developments in the regions of

125 GROWERS INSURE WHEAT

With the deadline on applications for insurance on 1939 wheat crops coming today, 125 Gray county wheat farmers have filed application with J. E. Yoder, Federal Crop Insurance Corporation manager for the county, for insurance policies.

Mr. Yoder said he would keep his office open until midnight if necessary, to receive applications of all who wished to take advantage of the plan. Mr. Yoder is located in the office of the county farm agent, on the second floor of the courthouse.

Under the plan, farmers are allowed to insure their 1939 wheat crop against losses in yield due to drought, hail, flood, wind, frost, winter kill, lightning, fire, tornado, storms, insect and animal pests, plant diseases, excessive or deficient moisture and incursions of animals.

The plan does not cover losses due to over-pasturing, use of defective seed, failure to prepare land for seeding, or improperly to seed, harvest or handle.

Navasota Praises Police's Attitude Toward Visitors

Joe Mins of Navasota likes to come to Pampa. One reason is the courtesy extended out-of-town motorists by the city police department.

Mr. Mins came to Pampa on the afternoon of July 27 and registered at a local hotel. He didn't know that he wasn't supposed to leave his car parked on the street all night. When he started to leave the next morning he found a card under his windshield on which was printed the city traffic ordinance. In brief, on the bottom was a note informing him that the city hoped he enjoyed his stay and that in future visits they were sure he would remember the ordinance.

Dove Season Opens At Seven Tomorrow

If you call someone tomorrow morning and are told that he is out of town on business, don't be fooled, he'll be out dove hunting.

The 1938 dove season in the Panhandle opens at 7 o'clock tomorrow morning and according to enthusiasts who have been on "spotting" trips, the birds are more numerous than in recent years and are much fatter. The hours of hunting will be between 7 a. m. and sundown. Open season in this section of the state will end at sundown October 31.

The Roving Reporter Mourns At A Funeral

The Roving Reporter this morning went to a dog's funeral. Being one of the grave-diggers and one of the pall-bearers, he helped sorrowing members of the family bury the body of Old Baker in the H. H. Heiskells' back yard.

Twelve years ago the Heiskells got a young pup from Baker Salsbury, and to show their gratitude to Mr. Salsbury they named the pup Baker. The dog had no pedigree, no papers; he was a big, black and white, short-haired mongrel. He may have been half Great Dane; he had a Collie's nose, but he had hair like a bulldog.

HUNTSVILLE, Aug. 31 (AP)—Mack Gates, Huntsville Attorney, said yesterday a writ of Habeas Corpus on which Arthur Huey, former Hutchinson county tax collector, was freed Monday from Huntsville state prison, was obtained because Huey was illegally sentenced.

The writ was signed by District Judge F. H. Kirby of Limestone county. Modern Menus By MRS. GAYNOR MADDOX

Ice cream gets about a lot because it's a good mixture. Whip a little cream and vanilla ice cream into a blanket of smooth sweetness, then tell hot gingerbread about it and you'll have a riot of flavor. Fruit juices will squeeze right up to the ice cream quicker than you can say "vitamin."

Nectar Cooler (Serves 4)
Three cups chilled apricot nectar, 1 pint vanilla ice cream, 4 maraschino cherries.
Place two large spoonfuls of ice cream in each of four deep glasses, bringing it well to the top on one side. Fill glasses nearly to the brim with nectar, and top with remaining ice cream. Garnish with maraschino cherries or other fruit. Serve with a sprig of mint.

Chocolate Milk Shake (1 large milk-shake glass)
Three tablespoons chocolate sauce or syrup, 1 spoonful chocolate ice cream (1-8 quart), 3 drops almond extract, 1 tablespoon whipped cream.
Put syrup, ice cream and milk in shaker and shake until foamy with whipped cream. Serve with two straws.

Glorifying Yourself By ALICIA HART

Paris couturiers are showing choker collars, edged with ruching, especially to wear with upswep cuffs. The smartest Fifth Avenue hairdressers advocate brushed upward effects for the majority of their customers. In the collection of every important modiste, there are several little hats and even head-dresses to wear with "up" hair styles. This is indeed the time to decide at least to try a coiffure that lifts your hair off your neckline, up and away from your face.

Remember, however, that if you have worn a long bob for years and years, you can't expect to be too happy about an upswep coiffure the first two or three weeks after you start wearing it. No matter how pretty it is, you'll probably feel uncomfortably naked about the ears. Your jaw will seem heavier than it really is. And, of course, several loving friends will tell you that it makes you look older.

Furthermore, you'll probably have trouble keeping the curls on top of your head from falling down around your ears every fifteen minutes.

Try It For a Month
But if you have decided to find out what this brushed upward trend is all about and what it does or does not do for you, stick to it for at least a month. By the end of that time, you will have learned how to keep the curls in place, had time to get used to the idea of seeing your jawline unsoftened by hair behind and a little below your ears and become accustomed to the remarks of your friends. Then you can make up your mind whether to retain the new hairdo or go back to your long bob.

Step number one in the right direction toward a brand new, ultra-flattering coiffure is a series of re-conditioning treatments for hair and scalp. At least a month before you intend to try an upswep, discuss the idea with your hairdresser so he will know how to cut your hair between now and then. Begin using your hairbrush every single night, regardless of where you are or how tired you may be. And have some kind of spray or scalp treatment before each weekly shampoo. At the end of the month, your hair should be in better condition to receive a permanent.

Once you have a permanent and the right kind of haircut, it really shouldn't be too difficult to learn to keep curls on top of your head. Small bobby pins which match the shade of your hair and tiny combs that stay in place indefinitely will help. For evening wear, your hairdresser may tie a ribbon about the cluster of curls and fasten back hairs up with a little jeweled comb.

Girls trying out the system of cooperative living while going to college report a new low in living costs. An average of \$5.30 per student each month is the latest record at Texas State College for Women.

How Women in Their 40's Can Attract Men

WINNING 'EM OVER
DENVER, (AP) — Jack Newman, grocer, complained many friends shunned him on a recent visit to Akron, Colo., where he once ran a store.

Fuzzed, he recalled former Akron customers owed him \$5,000. So he advertised all accounts were cancelled.

"Then everybody was happy," he said. "Everybody is my friend again."
