HUNDREDS ATTEND PICNIC AT MIAMI

YOUTH INJURED IN CAR WRECK MAY LOSE LEG

The eight persons injured in automobile accidents near here over the week-end were reported to be improving in Worley hospital today. The ninth was only slightly injured and not admitted to a hospital.

One man was killed Saturday night when a car and two trucks were in collision. D. Trammell of Olton was the victim. He died en route to Pampa following the accident about 10 miles west of White Deer.

Trammell, 24, is the son of Mrs. J. E. Stephens and the stepson of the Rev. J. E. Stephens, pastor of the First Methodist church in Olton. He was born two weeks after the death of his father in the World War. A brother, Phillips Trammell of Fort Davis also survives.

Funeral services will be held at 2 o'clock tomorrow afternoon in the Canadian Methodist church with the Rev. E. E. White of Plainview officiating. Canadian under the direction of Duengel-Carmichael Funeral home of Pampa.

J. L. McDaniels of Noda, uncle of the dead youth, received a fractured leg and severe cuts and bruises. Leo Jureckia of Bandera, injured in the same accident, received a base fracture of the leg, one piece of bone being broken out. Amputation may be necessary, attending physicians reported today.

The accident occurred when Trammell and McDaniels, traveling in a light coupe, skidded off of highway between Panhandle and White Deer and slid back onto the road driven by I. I. West of Amarillo, who was slightly injured. Jureckia, in a second truck, following directly behind West, collided with the rear end of the other truck. Trammell died in an ambulance en route here.

Four victims of a collision a few miles east of here early Saturday night were also reported to be improving tonight. They include Mr. and Mrs. George Knerium of Laketon, 18 miles east of Pampa, and Delbert Bruner and W. W. Rountree of Alva, Okla.

Still in a critical condition but showing slight improvement are Mr. and Mrs. E. O. Conyer of Skellytown, who were seriously injured when their car left the road after striking a bridge Friday evening.

Kidnaper Captured While Driving Car

ST. PAUL, Sept. 5. (AP)—John Conzel, kidnaper who escaped from the Ramsey County Jail Sunday, was captured today in St. Paul by two city police patrolmen.

Facing a possible death sentence under the Lindbergh kidnap act, the fugitive was apprehended without a struggle by Patrolmen Alfred Wickoren and L. M. Byrne.

Driving past an intersection, the policemen recognized the license plates of the car as those of an automobile reported stolen.

The saw a man hunched down in the driver's seat. Before the man could attempt resistance, the patrolmen had opened the doors and seized him. They recognized him immediately as Conzel.

The fugitive was not armed.

Japs Force Down Eurasia Airliner

HONGKONG, Sept. 5. (AP)—A tri-motor Junkers transport of the German-Chinese operated Eurasia line was attacked by three Japanese pursuit planes and forced to land at Lichow in Kwangsi province, offices of the Eurasia line said they were informed by telegraph today.

The plane was en route from Hongkong to Yunnan. (A plane of the Hongkong-Hankow link of the China National Aviation Corporation, American and Chinese owned, forced down in a small river near Canton, Aug. 24 and 14 persons were drowned. Japan rejected a United States diplomatic protest.)

Seven passengers and the German pilot of the Junkers were reported unharmed, but ten bullet holes were said to have been found in the plane.

I HEARD ---

Mrs. Julia E. Kelley, county home demonstration agent, speaking last night at the gazed disconsolately at armfuls of wild flowers on tables in her office. They were part of an exhibit being prepared by Gray county club women for the Tri-State Fair in Amarillo this month.

3,700 Pampa Pupils To Enroll In Schools Tomorrow, Wednesday

Runs Away

So repugnant was going back to school that 14-year-old Robert Simpson, above, of Houston, Tex., appropriated several handfuls of the family jewelry and ran away to Chicago. Police, who questioned Robert when he tried to sell the jewelry in front of a pawnshop, were unable to get an explanation of the revolver and shells, lower photo, found in his bag.

PLANE CRASH KILLS ELEVEN

LONDON, Sept. 5. (AP)—The crash and explosion of a crippled Royal Airforce plane in a crowded London suburban street killed at least 11 persons and injured nearly 30.

Four of the dead were of the family of Benjamin Saunders, 43. When the plane exploded Sunday at the side of the Saunders home, the flames trapped him, his wife, and their sons, Roy, 16, and Derek, 8. Mrs. Saunders and Derek were burned to death. The father and Roy died in a hospital during the night.

Next door, the fire trapped and severely burned six members of the William Callaghan family. Two sons, Terence, 2, and Dennis, 13, died. The condition of the others was critical.

Eight-year-old Jimmy Tant, playing in the street, was the first to die as the plane hit the roof of a house nearby, dropped and struck him, just as his mother rushed out yelling "Bombs! Bombs!"

Two brothers, Edward and James Letch, 28 and 24, John Eusden, 35, and Pilot Sergeant S. R. Morris also were killed. The pilot was the plane's only occupant.

Marylanders Turn Out to See FDR

DENTON, Md., Sept. 5. (AP)—President Roosevelt's visit to the eastern shore created a conflict today between curiosity and politics from many residents—and curiosity won.

Some partisans of Senator Millard E. Tydings had been saying for days that they wouldn't come to hear the chief executive because they expected him to denounce their champion and praise Tydings' opponent, Rep. David J. Lewis.

But as the flags began waving in a warm September breeze and Lewis followers draped red, white and blue bunting over their homes and stores, many among the Tydings people decided to come down to the court house square and take a look, after all.

They told their friends in explanation that president hadn't been to the shore since Andrew Jackson visited it. Besides, the Lewis people were arguing that hospitality demanded a good turnout, whatever the nature of the President's speech.

But some anti-Lewis men stayed home. They declared bluntly that Mr. Roosevelt was "invading the Maryland Free State."

Temperatures in Pampa

Table with 2 columns: Time and Temperature. Includes entries for Yesterday, Today, and Maximum/Minimum.

Tomorrow will mark the end of vacation and start of another school session for the 3,750 pupils in the Pampa Independent School district.

At 9 o'clock Tuesday morning, enrollment will start at all grade schools, junior high school, and for all high school seniors. The entire day at the high school will be devoted to senior enrollment.

High school juniors will enroll from 9 a. m. to noon on Wednesday morning, and sophomores from 1 to 4 p. m. on the same day.

Junior high school students are being instructed to come into the building Tuesday at the east entrance. Seventh grade pupils will enroll in a room on the first floor of the building, eighth and ninth grade pupils will enroll in the office on the second floor. Pupils entering the school for the first time will enroll at the office on the second floor.

Bring Report Cards Report cards and book cards should be brought to enrollment by ward and junior high school pupils, and all pupils in all schools should bring a doctor's certificate for first vaccination. If they have had a vaccination during the summer.

Grade school and junior high school classes will start class work at 8:45 a. m. High school classes will start their session at 8 o'clock Thursday morning, which will be the regular starting hour during the 1938-39 session.

Of the total enrollment of 3,750 in the entire Pampa school system, the high school will have 700 and the junior high school 670 pupils, or nearly half of the total.

Regular attendance will be stressed this year in all schools of Pampa. Preceding the opening of the session a three-nights "school of instruction" was held last week for the parents of Pampa high school students.

At these meetings, requirements for graduation, explanation of the curricula, and instructions on enrollment were given to the parents of Pampa high school sophomores, juniors and seniors by Supt. L. L. Scobee, Deputy Superintendent of the high school, and Assistant Principal Tom Herod.

Police Investigate Slaying of Girl

PORTSMOUTH, N. H., Sept. 5. (AP)—A blood-covered stone "as big as a man's two fists" and a few strands of hair were the only clues unearthed today by police investigating the brutal slaying of eight-year-old Elizabeth Driscoll, whose body earlier was found stuffed under a building in Portsmouth's railroad yards.

An ex-convict, held for questioning, steadfastly denied any connection with the crime but admitted, Rockingham County attorney Stephen Wheeler said, that he had been in the railroad yards during the night.

Wheeler said he was convinced the child was attacked "with intent to commit criminal assault."

He said also that a few hairs found in the death-cleaved hand of the little girl would be compared with those of the man in custody.

Archbishop Hayes Of New York Dies

NEW YORK, Sept. 5. (AP)—High church dignitaries today decreed five days of solemn funeral rites for the nation's Catholic millions to mourn the passing of Patrick Cardinal Hayes, archbishop of the world's richest Catholic diocese.

The 70-year-old "Cardinal of Charity," who rose from orphan boy to be the most militant and powerful spokesman of his faith in the United States, died quietly in his sleep early Sunday.

He succumbed to a heart attack at St. Joseph's camp for boys and girls, near Monticello, N. Y., where he had vacationed regularly for 40 years.

The body will lie in state at the cardinal's residence today. Tomorrow it will be removed to St. Patrick's cathedral, from which for 19 years the archbishop guided the spiritual life of 1,000,000 Catholics. It will lie in state there until Friday.

Burial will follow in a crypt beneath the altar of the great gothic cathedral, where four other diocesan heads already rest.

Ready To Move To Washington

Happiest family in the country at the moment this picture was taken, the Sheridan Downeys of Atherton, Calif., survey the election returns which mark victory in the Democratic senatorial primary over William G. McAdoo, presidential endorsee. Downey is pledged to carry into the national arena his "30 Every Thursday" plan for all unemployed persons over 50. Left to right are Sheridan Jr., Richard, Patricia, Mrs. Downey, Sherman Downey, and Margaret. Even Jamie, the Cairn terrier, looks pleased.

Hitler's Speech On Tuesday Expected To Reveal Czech Plans

KIDNAP GANG FREES WOMAN

MARYSVILLE, Calif., Sept. 5. (AP)—Mrs. William R. Meeks, 55, was under the care of a physician at her home today after being held captive for 56 hours by kidnapers who kept her blindfolded, threatened continually to kill her, and bedded her down on a hillside covered with poison oak growths.

Dr. P. B. Hoffman, the Meeks family physician, said she was dangerously near pneumonia. She returned to her home early yesterday. Her abductors, she said, became fearful of discovery and abandoned her. Meeks, orchardist-husband of the woman, said none of the \$15,000 ransom the kidnapers had demanded had been paid.

A manhunt, called off Friday night to allow Meeks an opportunity to try to contact the kidnapers, was resumed today under the direction of state and county officers.

"We have an idea who the kidnapers are," Captain E. H. Peronius of the state highway patrol investigation bureau said. "There are probably three of them." If they are the persons we think they are, they are itinerant workers. The job wasn't planned. It was on the spur of the moment.

The highway patrol captain said Mrs. Meeks told him she would know the men's voices, but she never saw their faces. Once, however, she pushed up her blindfold enough to see one of them turning up the cuff of his trousers. "She said he had red hair on his leg," Captain Peronius reported.

Mother of Barrow Brothers Wounded

DALLAS, Sept. 5. (AP)—Mrs. Henry Barrow, 65, mother of the Barrow boys, southwestern desperadoes, and Lewis Francis, 32, her nephew, were shot and wounded today when they sat in front of the Barrow fill-up station here last night.

The shooting occurred shortly after 8 p. m. Mrs. Barrow, released today from Huntsville penitentiary, and S. J. (Baldy) Whitley engaged in a fight at the scene.

Mrs. Barrow was shot in the face and shoulder and Francis in the back. The shots from a shotgun were fired from a passing automobile. Deputy Sheriff Bill Decker said Whitley was arrested and would be held pending outcome of Mrs. Barrow's wounds. He said Whitley formerly was a member of the Barrow gang.

Physicians said Francis' wounds were superficial. Mrs. Barrow is the mother of the late Clyde and Buck Barrow, whose criminal careers were ended by bullets in 1933. She was sentenced to 30 days in jail on a charge of harboring Clyde Barrow and Bonnie Parker, both of whom were killed in Louisiana.

Whitley, another of those sentenced in the harboring case, served a year in federal prison for that offense.

200 KILLED ON ROADS

(By The Associated Press) The nation's list of violent deaths over Labor Day week-end crept toward the 300 mark today. At least 200 persons died in motor crashes on highways carrying peak loads of holiday travelers. There were also many drownings, suicides, and homicides.

The R. R. Finds Wheeler County Czechs Wondering Where Hitler Got Big Idea

By THE ROVING REPORTER. The Roving Reporter went to the Pakan community in Wheeler county one day last week and visited a colony of people whose ancestors were Czechoslovakians but who are so thoroughly Americanized now that they are more American than the Americans—or something like that. They look, talk and act like standardized Americans, and they probably could tell you more about the U. S. in one hour than they could about Czechoslovakia in a year.

Nevertheless, they have their ideas about Hitler, and like all other Americans they are interested in the outcome of the Czech-German situation that now exists in Europe. Furthermore, like practically all Americans, they don't like the idea of Hitler trying to annex Czechoslovakia or the Sudeten area to the Reich. They don't resent Hitler, but they don't like the idea of Hitler telling the Czechs where to get off. They are in sympathy with Czechoslovakia, and the latter's determination to keep the Sudeten strip.

Still, the older members of the colony are deeply interested in what goes on in Czechoslovakia. Some of them were born in what is now that country. However, most of the people of Czech descent now living in the Pakan community were born in the United States.

Read Pampa News. And to keep up with the foreign situation, the residents of the Pakan community read the Pampa News which publishes daily the full Associated Press report of the international situation.

When the R. R. got to Pakan he hunted up Paul Macini, a prominent member of the colony. Mr. Macini told the R. R. a fascinating story of the colonization of the Pakan community. It was so interesting that the R. R. is going to tell it to you.

The colony was established about 35 years ago by three men who came from Chicago. They were John Krizan who now lives in New Mexico, Steve Kovac who went back to Chicago, and "Daddy" Matiel, now deceased. The original colonists were born in Czechoslovakia, and came as immigrants to the United States.

54 Per Acre. In 1905, the Rock Island railroad opened up a large tract of land in what is now the Lea community. Then it was called Story. The railway company first wanted the colonists to settle in Canada, but the immigrants thought it was too cold up there so they argued to come to the Panhandle of Texas after they heard the climate was like that of the section in Czechoslovakia in which they lived.

The colonists bought the land in the Lea community for \$4 per acre. The first to settle was Sam Paker Sr. for whom the school is named. There were 22 families in the original colony. Now there are only about 12. The decrease in the num-

Hitler's Speech On Tuesday Expected To Reveal Czech Plans

KIDNAP GANG FREES WOMAN

The arrival of Reichsfuehrer Hitler at Nurnberg (at 11 a. m.) set the stage today for what may be momentous events in a world already witnessing two wars—in Spain and China—and in dread of a major European conflict.

World capitals anxiously awaited Hitler's Nurnberg pronouncements, asking whether he would intensify Europe's dead, say some word to alleviate the tension or permit it to continue by failing to disclose what he intends to do in support of the Sudeten Germans' demands for autonomy in Czechoslovakia.

Hitler, went to Nurnberg, scene of the 10th annual rally of the Nazi party, with the absorption of Austria behind him and the critical issue of Czechoslovakia still ahead.

Startling in earnest tomorrow, after opening gala festivities today, the Nurnberg congress—the first of greater Germany and the largest in Nazidom's history—will hear Hitler's keynote proclamation. It usually extols achievements of the past and points toward Nazi aims for the future.

To Speak Six Times. Besides making the proclamation, which will be read for him, the chancellor will speak at least six times before the congress ends next Monday.

"The Sudeten German-Czechoslovak negotiation entered their 'crucial stage' in Praha at the first meeting between President Eduard Benes and Sudeten German representatives since Hitler and Konrad Henlein, the minority leader, reached their still-secret "complete accord."

Yesterday, the Legion sponsors erected scores of stands and equipment on the grounds. Large crowds from all towns in the East Panhandle are expected to attend.

A full program of entertainment, headlined by a "mass marriage," dances, band concerts, contests, races, was scheduled.

Horsehoe pitching, hog calling, husband calling, and tobacco spitting contests were held this morning, preceding the band concert at noon by the McLean High school band.

A second band concert was given by the Pampa High school band, at 1:15 o'clock this afternoon, and the McLean band gave its second performance at 2:30.

Other contests. Pampa High school's band concert was followed by the old fiddler's contest at 1:30, rolling pin contest, and fat and lean men, plump and slender women, tire rolling, three-legged relay, sack, and dash races at 2 o'clock.

Softball games and horse racing started at 2 p. m. and were to continue until 6 o'clock.

A three-hour dance started at 3 o'clock and was to be followed by speaking at 5, band concert at 5:30, supper at the same time, amateur prize fights a half-hour later, exhibition wrestling at 6:30 p. m.

The mass wedding ceremony, a feature of the day's program, was scheduled for 7 p. m.

An old time dance was to be held at 8 o'clock, and a free fireworks display was to conclude the program for the second annual community picnic.

Bingo games, carnival rides, and concessions were available to the crowds throughout the day.

French Call 60,000 Troops to Colors

PARIS, Sept. 5. (AP)—An official of the war ministry announced today that France had called "certain reserves" to the colors as a "precautionary measure."

The call went out last night, the official said, after Germany had moved an estimated 60,000 troops into her new Siegfried line of fortifications just across the Rhine from France's famed Maginot line.

"We can give no information concerning the number or locations of these reserves," the official said. "We are watching the situation closely and will continue to do so."

He emphasized that there was no cause for alarm on the part of the French public.

CONDITION OF GROUNDS GOOD DESPITE RAIN

All Attractions on Program Due to Take Place

Pampa and neighboring towns were picnic-minded as the sun shone on Labor Day this morning. Most people who were going any place, and who were in town, were going to the Labor Day picnic that was started as an annual affair last year at the Saunders lease, LePors. Many residents spent the double holidays in the mountains or at lakes fishing.

Hundreds of people, unimpressed by threatening weather, travelled over paved highways to attend the Community picnic at Miami.

Rain fell over the northeast Panhandle last night, but did not change the condition of the sandy picnic grounds in the cottonwood grove two miles east of Miami, according to a statement issued this morning by members of the American Legion, sponsors of the annual affair. Rain fell on the picnic grounds last night but was quickly absorbed by the sandy soil.

Stands Built Yesterday. Yesterday, the Legion sponsors erected scores of stands and equipment on the grounds. Large crowds from all towns in the East Panhandle are expected to attend.

A full program of entertainment, headlined by a "mass marriage," dances, band concerts, contests, races, was scheduled.

Horsehoe pitching, hog calling, husband calling, and tobacco spitting contests were held this morning, preceding the band concert at noon by the McLean High school band.

A second band concert was given by the Pampa High school band, at 1:15 o'clock this afternoon, and the McLean band gave its second performance at 2:30.

Other contests. Pampa High school's band concert was followed by the old fiddler's contest at 1:30, rolling pin contest, and fat and lean men, plump and slender women, tire rolling, three-legged relay, sack, and dash races at 2 o'clock.

Softball games and horse racing started at 2 p. m. and were to continue until 6 o'clock.

A three-hour dance started at 3 o'clock and was to be followed by speaking at 5, band concert at 5:30, supper at the same time, amateur prize fights a half-hour later, exhibition wrestling at 6:30 p. m.

The mass wedding ceremony, a feature of the day's program, was scheduled for 7 p. m.

An old time dance was to be held at 8 o'clock, and a free fireworks display was to conclude the program for the second annual community picnic.

Bingo games, carnival rides, and concessions were available to the crowds throughout the day.

TEN INDIANS KILLED

RANGOON, Burma, Sept. 5. (AP)—Two persons were killed and 16 injured today in rioting among Burma Buddhists and Indian Moslems. Ten were killed and 40 injured yesterday.

MAYBE THEY ARE MAGNETIC TO MONEY

"Women are the owners of 70 per cent of the nation's private wealth" and the trend of the nation's money continues to flow toward the women, said the president of Wells College recently. Hm. A natural trend, based on the principle that natural to the better halves: "What's yours is mine and what's mine is my own." Thanks why women, clever in business matters, recognize the indisputable value of The Pampa News classified want-ads.

GROVER AUSTIN AND BORGER YOUTH BATTLE IN FINALS

PAYNE MEETS JIM HATFIELD IN 2ND FLIGHT

Grover Austin Jr., Pampa youngster, and Dale Storie, Borger youth, battle today over 36 holes in the final round of the Championship flight of the Pampa Golf tournament. The two lead off at 9 o'clock in the first 18 holes with the second round scheduled to begin at 1:30 p. m.

In the first flight Odue Payne and Jim Hatfield, local hotshots, will meet, over 18 holes. Joe Gordon and W. R. Potts, two more local players, will battle in the second flight finals. They were scheduled to begin play at 2 o'clock this afternoon.

Young Austin, 22 years of age, battled his way to the finals with a 5 and 4 victory over C. P. Conover of Pampa Sunday morning and a 3 and 2 win over George Farney of Borger in the afternoon. Storie, 21, turned out to be the giant killer of the tournament as he eliminated Jim Croon of Amarillo, one of the tournament favorites, Saturday. Marvin Harris of Pampa yesterday morning and H. C. Foy of Pampa yesterday afternoon.

Despite the tricky condition of the course because of recent heavy rain, players shot good scores. Storie was under par until reaching the 14th hole yesterday afternoon when he overshot in two to get into trouble. He levelled down and won on the sixteenth. Foy had trouble with his tee shots but made several beautiful recovery shots. Austin failed to batter par for the first time during the tournament yesterday afternoon. He tightened on the tee box and his magic putter failed to respond on the greens, made uneven by the heavy rain. Forney's driving was exceptionally long and accurate but his short game was not suited to the condition of the greens.

Lefly Cox and Mark Heath went to the finals in the consolation bracket of the championship flight. Mike Hanna and Grover Austin Sr. made their way to the finals in the first round consolation. M. H. Weston defeated J. H. Pettit for the consolation flight title in the second round.

Prizes to be awarded tonight after play are:
Championship Flight
First—\$100 in merchandise.
Runner-up—\$50 in merchandise.
Consolation—\$32.50 in merchandise.
First Flight
First—\$70 in merchandise.
Runner-up—\$35 in merchandise.
Consolation—\$25 in merchandise.
Second Flight
First—\$40 in merchandise.
Runner-up—\$20.75 wrist watch.
Consolation—\$22.50 golf bag.
Championship flight, quarter finals:
Grover Austin, Pampa defeated C. P. Conover, Pampa, 5 and 4.
George Forney, Borger beat Frank Mitcham, Shamrock, 1 up.
Dale Storie, Borger beat Marvin Harris, Pampa, 4 and 3.
E. C. Foy, Pampa defeated Jack Knight, Borger, 4 and 3.
Championship flight, semi-finals:
Grover Austin, Pampa defeated George Forney, Borger, 3 and 2.
Dale Storie, Borger beat H. C. Foy, Pampa, 3 and 2.
Championship flight, consolation:
M. M. Cox, Pampa defeated George Clemmons, Pampa, 1 up.
Mark Heath, Pampa defeated

Mel Ott Still Carries On As Giants Collapse

By DREW MIDDLETON
Associated Press Sports Writer

It is a pleasure to note that Mel Ott, one of the last and one of the greatest of John McGraw's boys, has survived the Giants' collapse and is still in there punching.

Joe Moore, held together by tape and tremendous courage, is another holdover from the McGraw era still on active service with the team but Hal Schumacher, who McGraw thought another Mathewson, has arm trouble, and the great Carl Hubbell is following his team thru the newspapers, victim of the same sort of ailment.

A quiet, intense little fellow who still refers to his first manager as "Mr. McGraw," Mel continues to bang the ball in his accustomed manner. He walloped home runs N. 31 and 32 yesterday against Erocklyn to maintain his National league lead and, although the Giants aren't going anywhere but home, it is a safe bet that Mel will be in there playing his heart out until the last putout.

In his quiet way Mel has made a remarkable comeback this season. He hit only 294 last year and dropped to 200 in the series. The pundits around the league led him to believe that 11 years of big league ball had taken their toll at 29.

This year his average hovers around the .320 mark.

The Giants split with the Dodgers yesterday and it made little difference. Bill Ponder stopped their rally in the ninth inning of the opener and the Dodgers took the game 5 and 4. Then Dick Coffman, recently shifted to a starting assignment, came in and blanked the Dodgers with three hits, 7 to 0, as Ott and Moore led the attack.

The Pittsburgh Pirates drew six games ahead of the Reds by beating St. Louis, 5-3, behind Russ Bauers. Augie Galan carried on a one-man war against the Reds as the Cubs won, 3-1. Galan tripled and scored on Carl Reynolds' single for the run and broke a 11-inning tie with a homer to win the game for Charley Root. Philadelphia beat Boston's Bees, 4 to 2, and snapped a five-game losing streak but dropped the nightcap, 6-2.

The Yankees continued to wage their own home town derby. In beating Washington, 7 to 4, Joe DiMaggio kept his club leadership with his 28th. Joe Gordon got his 20th and 21st and Tommy Henrich socked No. 21.

Johnny Rigney of the White Sox gave four hits in ten innings in taking a 2 to 1 thrilled over Detroit. Sam Chapman's homer with three aboard helped the Athletics gain the opener from the Boston Red Sox, 12 to 11. But the Sox won the nightcap, 12 to 3. Cleveland swamped the Browns, 11 to 3, in the first game. The second game ended in the seventh, tied at 1-1.

Elmer Watkins, Pampa, 1 up, 20 holes.
First flight, quarter finals:
Bill Moskinski, Pampa, beat W. F. Jeters, Mangum, Okla., 3 and 2.
C. Payne, Pampa, beat Fred Thompson, Pampa, 2 up.
Larry Trenary, Pampa won from Ray Hagan, Pampa, 3 and 2.
Jim Hatfield beat E. W. Voss, Pampa, 4 and 3.

First flight, semi-finals:
O. Payne, Pampa, defeated William Miskimins, Pampa, 5 and 4.
Jim Hatfield, Pampa beat Larry Trenary, Pampa, 4 and 3.
First flight, consolation:
Grover Austin Sr., Pampa beat Bill Smith, Shamrock, 3 and 2.
Mike Hanna, Pampa defeated Jeff Berden, Pampa, 5 and 4.
Second flight, quarter-finals:
Joe Gordon, Pampa, defeated Frank Carter, Pampa, 2 up.
H. W. Cook, Clarendon, beat Siler Faulkner Jr., Pampa, 4 and 3.
J. W. McFall, Pampa defeated R. Y. Peeler, Pampa, by default.
W. R. Potts, Pampa defeated Bob Wright, Pampa, 1 up.

Second flight, semi-finals:
Joe Gordon, Pampa, defeated H. W. Cook, Clarendon, 1 up, 19 holes.
W. R. Potts, Pampa beat J. M. McFall, Pampa, 3 up.
Second flight, consolation:
J. H. Pettit, Pampa won by default from W. C. Miller, Big Spring.
M. H. Weston, LeFors, won by default from Tom Braly, Pampa.
M. H. Weston, LeFors defeated J. H. Pettit, Pampa, 3 and 2.

ALL-STARS TO PLAY REDSKIN CREW TONITE

By FELIX R. MCKNIGHT
DALLAS, Sept. 5 (AP)—Slingin' Sam Baugh, hobbling on one leg but still a dangerous character unless the lameness spreads to his right arm, limps out tonight as the leader of a professional Washington Redskins crew intent on balancing the books with a band of pesky College All-Stars.

If Baugh, listed as a starter but troubled with a bad ankle that may make his appearance brief, fails to stand up under the battering of a burly collegian line, he has an understudy in Dick Tuckey, the Manhattan madman who also has the respect of the amateurs.

Just as carefully as they prepared for the Baugh-Tuckey pass barrage did coaches Fred Thomsen and Jimmy Kitta of Arkansas and Rice, rig up their own aerial assault in an effort to make it three straight wins for the collegians in their southwest classic.

Two workhorses of last year's Arkansas passing machine, Dwight Sloan and Jack Robbins, had the major passing assignments. To work with, they had four great ends in Jim Nance of Rice, Ray Hamilton of Arkansas, Pete Smith of Oklahoma and Johnny Kocatch, the Northwestern wildcat who bobbed up in nearly every play of the recent 28-16 Chicago rout of the Redskins.

Coch R. Flagerly worried over Baugh's condition, for already on the useless list was Riley Smith, the former Alabama star confined to a Chicago hospital. He still had first stringers Max Krause, the ex-Gonzaga steamroller, and Ernie Pinkert, one of the greatest of all Southern California products.

Officials of the charity game predicted a \$25,000 crowd.

MAIL MAN'S HOLIDAY

ALTOONA, Pa., Sept. 5 (AP)—The mail men of Pennsylvania went for a walk today on their day off. One thousand letter carriers and their wives, in convention here, joined railroad men and other workmen marching in the city's first Labor Day parade in 20 years.

in five runs with a homer and double, the Abilene Bottlers shut out Coler Grocers of Wichita Falls, 7 to 0, then drew a bye into the final.

Big Nolan Corbell starred in Kilgore's second win, 4 to 1, over the Brownwood All-Stars. The pitcher recorded 14 strikeouts and delivered a circuit blow with one on base. His home run was the first ever hit out of the park here. The Pipeliner's other victory was over Cliff Maid Broad of Dallas, 4 to 0.

High School Football Season To Open Friday

By HAROLD V. RATLIFF,
Associated Press Staff.

A record filed without an outstanding title favorite rolled down the Texas Interscholastic league gridiron trail today.

Baseball campaigns at the crucial stage could not take the play away from the schoolboy legions who begin the drive Friday in the nineteenth annual pigskin parade. One hundred and eight teams are pitted against the Longview Lobos who crashed to the heights last season.

Longview, its crown shaky, weighed the threat of such foes as the Big Dam Lobos of Cisco, the Corsicana Tigers, the Marshall Mavericks, Tyler Lions and Bryan Broncos.

Close this year hots up with a veteran team rated a favorite in the turbulent Oil Belt race after many lean seasons. Marshall and Tyler are picked to make things hot for Longview in district 9 and Bryan is one of the favorites in hectic district 11.

Corsicans, also edged into the picture in this sector where Waco, Temple and Clatsome held sway last year.

Kerrville vs. Plainview.
Five games open the show this week, most of the teams swing into action next week-end and all will be in the thick of the campaign by Sept. 23. Pampa of district one plays Clovis, N. M., in an inter-sectional tilt Friday with Plainview playing host to Kerrville of district 12. Election of district two engages class B Chillicothe and Quanah next to class B Wellington. Tyler of district 9 entertains Jacksonville of district 10.

Four new teams are in the field this season, all coming from class B. Lamesa, due to furnish strong competition for Lubbock and Amarillo in the Panhandle; Odessa, with 11 lettersmen, enters the El Paso district where Bowie (El Paso), with a veteran team, and Ysleta, with 15 lettersmen, have been rated co-favorites;

Port Worth Technical tries its hand in the North Side-dominated Fort Worth district, and Livingston, long a class B power, goes into district 10 where Luikin, Mexia and Palestine are favored to fight it out for the title, with Nacogdoches due to give trouble.

Abilene Favored.

Wichita Falls faces plenty of competition from Vernon, Olney and Graham in district 2. Abilene is favored in one division of the Oil Belt, with Cisco and Brackenridge in the other. Denison is the favorite in district 5 and Highland Park (Dallas) returns with another strong team in defense of its district 6 crown.

Woodrow Wilson rates top ranking again in the Dallas sector and in the San Antonio district, they are handing the palm to Brackenridge. John Reagan is favored in the Houston district and Corpus Christi in district 15 but district 14 looms as a free-for-all with Ball High of Galveston and South Park (Beaumont) due to give the perennial powers, Port Arthur and Beaumont, a rugged battle all the way.

Beaumont Wins Doubleheader

BEAUMONT, Sept. 5 (AP)—Texas league clubs labored in double bills today as the Beaumont Exporters held a firmer grip on top place by beating a Coler Grocers yesterday, over the Houston Buffaloes yesterday.

By scores of 2-0 in both games, the

Exporters drew nearer the deadline when they will have clinched first-place honors.

Paul Dean, the league's hardluck pitcher, closed his tenure with a flash of glory as he pitched the Dallas Steers to a 6-2 triumph over the Tulsa Oilers.

The Fort Worth Cats, underdog in the league standings, lost a 2-0 game to the third-place Oklahoma City Indians.

Bill Trotter pitched the San Antonio Missions, holders of second place, to a 7-1 win over the Shreveport Sparta.

Skelly Kewanee Game Postponed

Heavy rain yesterday caused postponement of the opening game of a series between the Skellytown and Kewanee baseball teams in the Industrial baseball league. The diamond at Skellytown was still wet this morning and this afternoon's game may have to be postponed.

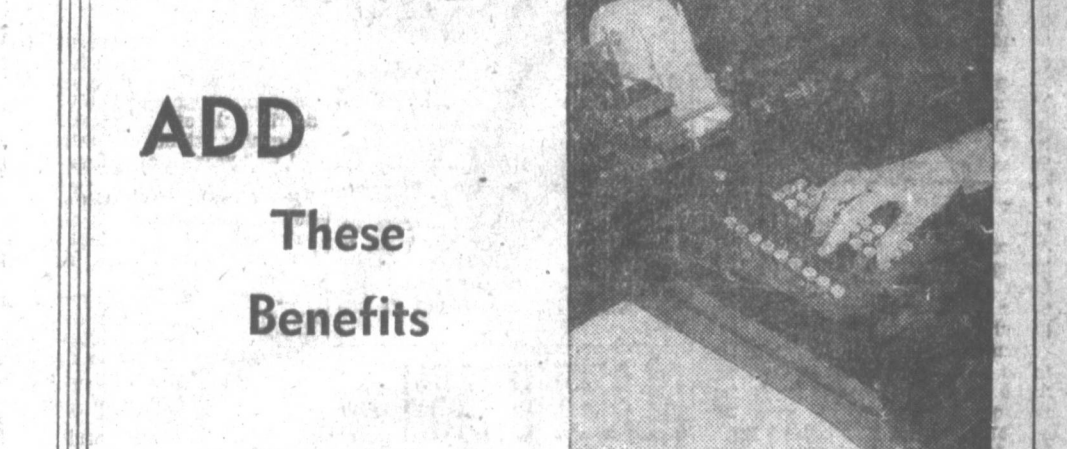

Kewanee finished on top of the ladder in league play with Skellytown, a close second. When the league was organized it was agreed that the two top teams would play a two out of three series to determine the final winner.

When George IV was Prince of Wales he was secretly married to Marie Anne Fitzhutt.

INVESTIGATION OF MAVERICK DEFEAT URGED

AVA, Ill., Sept. 5 (AP)—Congressman Kent E. Keller declared yesterday he would demand a thorough investigation of the defeat of Maury Maverick, liberal Democratic representative in the recent Texas congressional primary election.

"Maverick was shortchanged by machine politics," Keller asserted in a statement. "It is an unfortunate fact that the poor man has no chance to aspire to public office, no matter what his abilities may be. I think it's high time we open a fight for a free vote and a fair count."

Keller, pointing out he had not been asked by Maverick for support, said "things like his defeat make me want to get up on my hind legs and howl."

"When the time comes, I shall bring the matter before the Congress, if I'm re-elected," Keller is Democratic nominee for Congress from the 25th Illinois district.

He scoffed at Texas Secretary of State Ed Clark's statement he could not, under state law, investigate Maverick as an independent candidate for Congress.

"I don't care what the supreme court of Texas or Timbuktu has to say about state elections. If Maverick wants to run as an independent for a national office he should have that right," Keller declared.

"The Congress of the United States was given full power by the constitution to pass on every single act that has led up to a man's nomination or defeat for nomination and the final result of election for a national office," he added.

He said he not only would fight seating of "any other man in Maverick's chair" but would demand a probe of such an election.

"The trouble is, Maverick probably would win as an independent, and 'the boys' know it," he commented.

PEDESTRIANS DOOMED
AUSTIN, Sept. 5 (AP)—About one out of five Texas pedestrians injured in automobile accidents can expect to die. That's the grim prediction of state police who in cautioning extra vigilance on the part of foot travelers point to last year's record of 209 dead and 929 injured.

Big Drop in Frachyderm Common

Part of the elephant stock at the Prospect Park Zoo in New York took a big drop recently when Hilda, 3000-pounder from India, was butted into a 25-foot concrete moat by Bill, her 4500-pound cage mate. Hilda is pictured above being raised in a sling from the moat which surrounds her exercise yard. Her back legs were paralyzed. Hilda and her rambunctious boy friend Bill are on loan from Mrs. Christopher Schultz, British East African dealer.

TROOPS MOVE INTO TRENCHES

METZ, France, Sept. 5 (AP)—German troops, believed to number between 50,000 and 60,000, moved Saturday into the French's new Siegfried chain of fortifications facing France's steel and concrete Maginot line.

Frenchmen of the frontier regions were calm as generally accepted reports said the German troops were strung along the entire French-German border from Luxembourg to Kehl, opposite Strasbourg.

French officers said the 50,000 to 60,000 figure was the "normal garrison" for fortifications such as Germany has erected along the French frontier.

(In Berlin no information was available concerning such troop movements.)

Tank detachments rumbled along roads of the Saar Basin to garrisons especially built as part of the defense line, travelers said. Motorized and foot infantry could be seen from several points on the frontier moving along border roads in German territory.

If the maximum figure of 60,000 men covers all the German troops manning the Siegfried line, it is far less than the 100,000 which ordinarily occupy France's Maginot line.

French 'Not Surprised.'
PARIS, Sept. 5 (AP)—Officials of the foreign office said today they were "not surprised" at today's movement of German troops into the new line of Nazi fortifications on the Franco-German frontier.

A spokesman said the French government would "simply wait and see what it means."

This source said it was considered that the occupation of the fortifications in the midst of tension over Czechoslovakia to be a part of Adolf Hitler's program for building up pressure prior to his speech before the Nurnberg congress next week.

4-H Club Notes

By JOHN BLAKE

FROM GEN. PERSHING.

"Our progress, prosperity and national safety largely depend upon the character and ability of rural young people."

Author of these words is General John J. Pershing who was commander-in-chief of the United States armies in the World war.

He adds: "Through 4-H clubs they are receiving splendid training for the responsibilities of citizenship."

LONG WALK.

An example of the enthusiasm that actuates many 4-H members is had in the case of two Utah girls who walk 10 miles to club meeting once every week.

Leah and Henrietta Brown of Green River make this long hike, come rain or shine, cold or heat.

DISCUSSION GROUPS.

Inspired by their experiences in 4-H club work, former members who have outgrown juvenile activities are forming groups for continued discussion of the problems they faced in their earlier years.

Ranging in age from 20 to 25 years, they meet for round table debates on agricultural topics and various related subjects including economics and politics.

FIGHT CROP PESTS.

4-H members in some sections are lending their aid to farmers in the war on insects which destroy crops.

By having the boys and girls hunt and bring in every kind of insect or bug they can capture, state officials believe great progress will be made in combating destructive species.

4-H TRAINING VALUABLE.

Value of 4-H club training is demonstrated in the case of Edward Bullock, 11 years old, whose success in raising a pig as a 4-H project led his father to put him in charge of all the pigs on the Bullock farm.

The boy's father was impressed with the results of scientific feeding when his son's pig gained 190 pounds while pigs from the same litter fed by himself gained only 147 pounds each.

4-H MEMBERS ON RADIO.

Some 4-H clubs have added presentation of radio programs to their accomplishments.

Club activities some times are told in dialogue form, and radio-scripts often are written by club members.

PROTECT LIVESTOCK.

4-H clubs have as one of their projects the prevention of injuries to livestock in shipping.

The idea is sponsored by the large packing companies which stage contests among club teams and award golf wrist watches to members of the winning groups.

Victors in regional contests will compete in a national contest at Chicago this fall.

It has been estimated that more

Eye Examined Glasses Fitted
DR. A. J. BLACK
Optometrist
Office, Suite 322 Base Bldg.
For Appointment Phone 383

than nine million animals are injured in marketing, with a loss of \$12,000,000.

A fifth "H" as the final goal of 4-H club work has been suggested.

In addition to the initials representing Head, Hands, Heart and Health in the 4-H cloverleaf, traditional symbol of good luck, it is proposed that another be added to stand for Home as the chief beneficiary of the official 4-H combination.

The "H" for Happiness which members reap as their reward for attaining all the other "H" objectives.

Income Of 'Middle' Texas Family \$500

WASHINGTON, Sept. 5 (AP)—The "middle" family income in the South—including Texas—during the 1935-36 fiscal year was \$500, according to a report released today by the National Resources committee.

Based on surveys made with aid of the Works Progress Administration, the report showed also that the South had a lower average income per family not on relief than any of five sections of the country that was \$685.

The Pacific region had the highest median average income for the year with \$1,235; the Mountain-Plains region, bordering Texas on the west, had an increase of \$1,040;

New England, \$1,230, and the north central region, \$1,250.

The mean average income of the South was the lowest with \$1,326 for all families and \$1,431 for non-relief families. (The committee said the "median" average was obtained by dividing the aggregate income by the number of families. This average was affected by the high incomes of a few families, so the committee considered the "median," representing the income of the "middle family" in the distribution, as the more significant.) Half of the families received more than the median income and half less.)

More than half the non-relief Negro families in the rural South had incomes of less than \$500, the committee reported, and more than nine-tenths of them had incomes of less than \$1,000. One-tenth of the non-relief white families had incomes of less than \$500 and 45 percent had incomes less than \$1,000.

WOULD VOID SHUTDOWNS

DALLAS, Sept. 5 (AP)—Oil Man L. C. Harrison, through his Attorney Senator C. H. Nelson, said today a suit would be filed in Travis county district court in the near future against the Texas Railroad Commission seeking dissolution of the Saturday and Sunday shutdown order. Nelson said his client owned all properties in the Colesmith field of West Texas, embracing Howard, Ector, Ward, Yoakum and Crane counties.

GOP ASKED TO DEFEY LEADER

WASHINGTON, Sept. 5 (AP)—Secretary of State Hull called upon the Republican party Sunday to defy its national chairman, John M. Hamilton, and support the administration's trade agreements program.

That program provides for reciprocal reduction of import duties by negotiations with foreign nations.

Accusing Hamilton of misusing trade figures so as to arouse "unwarranted fears and prejudice" among American farmers regarding the agreements, the secretary declared:

"I hope that those for whom you speak will rise to a great opportunity; will abandon futile attacks on this program; and will con-

EAST SIDE CLUB MEMBERS MAKE TEST RECENTLY

A test of tomatoes grown in their gardens was made when the members of the East Side Home Demonstration club met Friday afternoon in the home of Mrs. Howard Hartin, five miles east of McLean.

Containers of tomato juice from tomatoes grown in members' gardens, and tomatoes brought in to have the juice extracted, were brought to the meeting by the 14 attending. Five members showed samples of each of these varieties: Porter, June Pink, Early Anna, Stone, and Marglobe.

The Porter was the type found to be best as the plant was the richest in color, indicated high food content, was free of blemishes, and its juice had the freshest flavor.

"Grasshoppers, crickets, and worms have made tomato growing a problem in the county during the past season," Mrs. Julia E. Kelley, Gray county home demonstration agent, said.

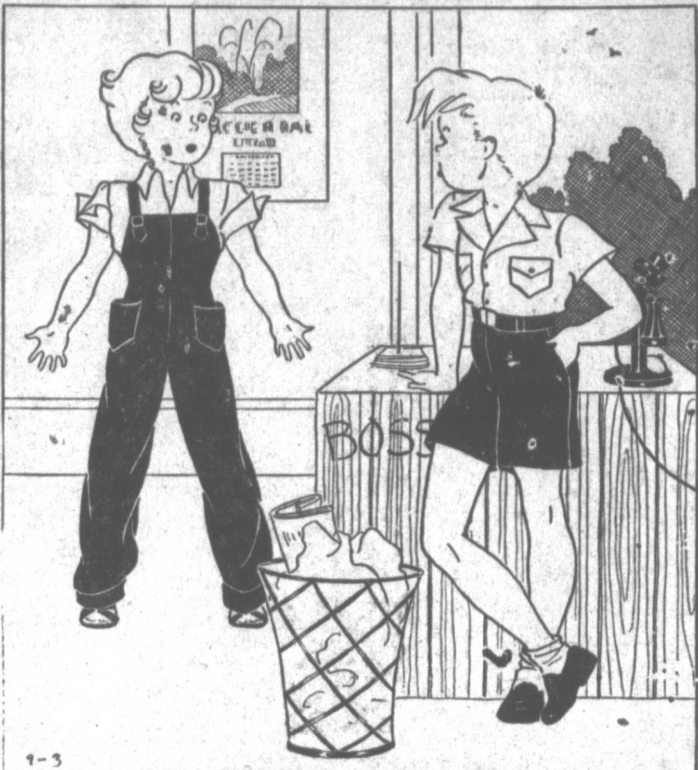

The purpose of the test conducted by Mrs. Kelley was to encourage the growing of tomatoes in this county and to determine what type was best suited to Gray county soil.

The remarkable speed with which grasshoppers travel is revealed in an experiment conducted by entomologists.

Within 10 days, grasshopper marked with red pigment were seen 300 miles from the point where they were released.

FLAPPER FANNY

"Of course this isn't all I have to wear! I just don't believe in using feminine wiles like hair ribbons or charm bracelets or silk socks in a business office."

PLANS FOR YEAR DISCUSSED BY BAKER BOARD

Mrs. H. Eads was hostess to the members of the executive board of the B. M. Baker Parent-Teacher association at her home Friday afternoon.

Plans for the year were discussed and leaflets for the various committee chairmen were presented. New chairmen who were elected were Mrs. G. W. Turner, budget and finance; Mrs. M. D. Dwight, hospitality; Mrs. W. O. Irving, National Parent-Teacher; Mrs. J. E. Beard, study group; Miss Williams, school music instructor, Mothersinger chairman; and W. Postma, radio chairman.

Glorifying Yourself

By ALICIA HART.

By ALICIA HART

NEA Service Staff Writer. If, during one month, you have used your hairbrush every single night and had a weekly hot oil treatment, your hair should be in reasonably good condition to receive a satisfactory permanent wave. Having done your part conscientiously, the next step is to decide where to get your wave and who shall give it. The latter decision is more important than you perhaps realize.

After all, no permanent, regardless of the method used, can possibly be one hundred per cent satisfactory if the operator isn't thoroughly experienced and, in addition, anxious and willing to spend a great deal of time and thought on the job.

First and foremost, beware of the operator who doesn't think it necessary to heat one curl and make a test before deciding how much heat the rest of your hair should have. Or who, when you insist on a test curl (and you certainly should) gives it unwillingly. Unless he has given you several permanents, there is only one way for him to tell just how much heat your hair requires. And that one way is by testing.

Furthermore, it's a mistake to get a permanent in a shop which does not believe in a thorough preparatory shampoo. Your hair ought to be washed and rinsed with the greatest care immediately before the winding begins. If possible, have it dried by hand instead of machine.

And you are entitled to a shampoo afterward. Don't let anyone unwind your hair, pour a solution of vinegar and water over your head, quickly rinse it, then begin the fingerwave. Let him pour on the vinegar and water (it softens the hair), but insist on one soaping and a great deal of rinsing after that.

MIND your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Should a man stand back and let all the women board a bus before entering himself?
2. Do good manners necessitate a man's giving his seat on a street car or bus to a woman who is standing?
3. Should a young woman give her seat to an elderly woman if no man offers her a seat?
4. If one hasn't his exact fare ready, should he stand back and be one of the last to enter a bus?
5. Is it good manners to spread packages on a seat, when people are standing?

What would you do if—
You are sitting on the outside of a bus or street car seat, and another passenger stops to sit down—
(a) Slide over next to the window, and let him sit on the aisle?
(b) Let him crawl over you?
(c) Swing around sideways with your feet in the aisle until he gets by?

Answers.

1. Yes.
2. Yes.
3. Yes.
4. Yes.
5. No.

Best "What Would You Do" solution—(c).

Bills or notes dated Oct. 12, Columbus Day, are legal only in Arkansas and Kansas.

TO ATTEND CONGRESS BERLIN, Sept. 5 (AP) — The United States will be represented at the Nurnberg congress of the Nazi party by her ambassador for the first time. Hugh R. Wilson, United States ambassador to Germany, was among 45 diplomats who left for the congress today as Chancellor Adolf Hitler's personal guests.

Last-year, Prestiss Gilbert, charge d'affaires of the American embassy, attended over the protest of William C. Dodd, then the American ambassador.

BULLDOGS -- SITUATION WANTED -- SEE ADS

THE PICTURE YOU ALWAYS WANTED TO TAKE

Here's the picture you've always wanted to take but never did, and you've begun to think it wasn't possible. This remarkable picture of sunshinemarked thunder heads was taken by Dee C. Blythe of the Glovis News-Journal. The picture of the horse and the man were superimposed on the cloud picture by Mr. Blythe and Jack Hull of the same newspaper. After they took the picture of the cloud they went out and got the picture of the man and horse. Mr. Blythe whose hobby is photography is the son of Mrs. Lillian A. Blythe of Pampa. The picture was originally published in the News-Journal. The picture can be interpreted any way one pleases, but the fact that the man and horse appear small and dwarfed against the background of the huge cloud is significant.

GREEN FLAYS CIO IN TALK

PROVIDENCE, R. I., Sept. 5 (AP)—Supporters of the Committee for Industrial Organization, President William Green of the American Federation of Labor said today, are giving aid and assistance to division in the ranks of labor.

In an address prepared for delivery this afternoon before a Labor day gathering, Green charged the CIO was a secession movement founded on discord and dualism and asserted a successful labor movement functioned best only if national in character, unified and solidified.

The unemployment problem, Green said, could only be solved through creation of work in private industry. "Government spending," he said, "affords but temporary relief, and he advocated renewed faith, a new vision, a spirit of adventure and the destruction of fear" to master the nation's economic ills.

Green urged union of industry management and labor in a "common effort to promote business activities and stabilize labor relations." He said if employers had recognized the right of workers to organize, free of intimidation, twenty years ago, the National Labor Relations act would have been unnecessary.

And of the act he said: "We shall go to congress seeking such changes as may seem necessary to prevent mal-administration of the act." "We are convinced," he said, "that dominating influences in the National Labor Relations board have applied the law contrary to both its spirit and letter."

"Our disappointment over the administration of the act is keen. We cannot and will not acquiesce in the procedure followed by members of the board."

Oklahoma Panhandle Gets Heavy Rains

OKLAHOMA CITY, Sept. 5 (AP)—Heavy rains fell over the week-end in the Oklahoma Panhandle area, where wheat planting is about to begin. Scattered showers in other parts of the state brought some relief from the early autumn heat.

Guyman, in the middle of the Panhandle, reported a 3-inch downpour yesterday, bringing the total for 48 hours there to 4.40 inches. More than an inch of rain fell at Boise City and Beaver, in opposite ends of the Panhandle. Showers fell over most of the northwest part of the state proper.

Old Westbury Polo Team Plays Today

WESTBURY, N. Y., Sept. 5 (AP)—Old Westbury, the 34-goal team that holds the nation's open polo championship, will start the defense of its title today when it meets Akkusti in a first round match of the open championship tourney.

Headed by two ten-goal players, Stew Eglerhart at No. 3 and Cecil Smith at No. 2, the champions are favored to beat Akkusti, which boasts Captain C. T. I. (Pat) Board at No. 8. He is a nine-goal player.

Today's Answers to Cranium Crackers

Question on editorial page. Six dozen dozen gallons is 864 gallons. A gallon of water (liquid measure) is 231 cubic inches. So the water fills 199,584 cubic inches of space.

One-half a dozen dozen gallons of sand is 72 gallons and sand takes up 293,805 cubic inches to the gallon (dry measure) or 19,353.78 cubic inches in all. 199,584 cubic inches less 19,353.78 cubic inches equals 180,230.22 cubic inches difference. Thus it takes about 10 1/4 times the space.

SERIAL STORY

PHOTO FINISH

BY CHARLES B. PARMER

Yesterday, Linda buys the puppy colt, in a race...

CHAPTER VII

UNCLE SANDY was having his troubles with the colt. "You, Linda, keep back," he warned sharply...

"Uncle Sandy, let me get a van," Linda begged, but he became indignant at the idea. "Ain't no colt I can't handle, if I do be 66. You keep away."

With his hands on a horse's rope, he was different from the seemingly weak old fellow who had chosen his words carefully the night before...

Norman met them at the gate, took the halter-ropes grudgingly. "This here colt, he be all a-sweatin'!" Norman complained, when they reached the barn.

"So'd you be, if you'd been a-doggin' those dad-blamed cars," Uncle Sandy said. "Take this here dry cloth," he threw a rubbing cloth at Norman...

"That fool Norman?" Uncle Sandy said. "He's got religion in his old age. Thinks racing is a tool of the devil. He shot a quick glance at his niece."

"How come you hook up so quick-like with this Brown Donald?" She smiled at his abruptness. "I had about gone my limit, and I wanted the colt."

HE said nothing to that. Just nodded his head. She didn't have the money he thought she had. They moved out to the front porch.

"This here Donald, the young fool wants to make a lepper out of that colt," Uncle Sandy resumed after a bit.

She found herself defending the idea. "What's wrong with that?" "What's wrong? There ain't but

about three sleepchases in the world that's worth runnin' after. It's a rich man's game. Every time you send a horse out, chances are he'll come a cropper and bust his neck at a fence. We're going after the Jockey Club Stakes."

"I must see about supper," Linda interrupted and went inside. At early dark, she and Uncle Sandy were sitting on the porch when a car stopped at the gate, and a man came up the walk.

"Anybody home?" It was Bruce Radford's voice. "Come up, son, come up and set." Uncle Sandy called in hospitable tones.

"Hello, Linda," Bruce spoke warmly, as he took her hand. "You got a great colt today—congratulations." He turned to her uncle, and by the light from the hallway Linda saw Bruce take a long envelope from his pocket, give it to the old man.

"Found this in the house; thought you'd like to have it, Mr. Sandy." HER uncle took the envelope. "Oh—thank you, son." He got up. "Excuse me. Think I'll see if the colt be bedded down." He went inside.

"You didn't come to try and buy Golden Toy?" Linda asked coolly. "No. And I don't blame you for not selling. Mind if I sit down?" "Why not?"

He sat on the steps at her feet, as a new moon rose over the sycamores. He was silent for a time. So was she. "Linda?" There was emotion in his voice.

"Yes, Bruce." She was matter-of-fact. "This reminds me of Barrow street. Remember?" They had gone to New York in the same year. She had lived on Barrow, in the Village; he on Commerce. She was on an afternoon paper, he on a morning. On his nights off, they'd go out together; drink Anglin's red wine, eat her tarty antipasto and spaghetti, come back and talk at Linda's.

"Remember the first time we saw the moon over the warehouse roof?" he reminded her. "I also remember some tall talk, Bruce," she prodded him, "talk about a great novel you were writing. Sinclair Lewis was going to be a selling-plater alongside you. Remember?"

He ran his fingers through his hair. "I've said two stories since being back home here." "Two? You should have sold two dozen! I suppose you sold them to the biggest magazines?"

"Not exactly. They were defective yarns—but wait. They may have been terrible, but the money was good."

SHE shook her head. "Bruce, I'm ashamed of you. A big fat man, living on inherited money."

"Wait a minute! I've had my troubles. And I can at least say—" he broke off.

"Say what?" Still he didn't finish. "Go on," she urged. "I saw you fall like a ton of brick today—for Brown Donald."

"What's this?" She straightened in anger, but she knew his charge was true. "I think you are disgraceful, Bruce!"

"I just wanted to say," his words came in a drawl, "I may be a fat, lazy bum, but it's my family's money I'm living on; what little's left, I'm not living on women."

"Bruce Radford!" She got to her feet. So did he. "What do you mean?"

He looked up, took her hand. She jerked it free. "Listen, Linda— I was crazy about you, but you gave me the gate. I'm still crazy."

"Never mind that! Explain—" "Well, I don't think you'd ever met Donald, till today. I heard about how the two of you chipped in—bought the colt. All right, all right! I know that's your business. But, Linda—"

"That's right! When a man gets the best of you, naturally you get mad about it." "But, Linda, you don't know the man's reputation; for the last year a Pennsylvania woman has been keeping him, while he's been riding her jumpers. Before that it was another woman—"

"I don't believe a word of it!" Linda flared. "But it's the truth, I tell you." "She was getting excited. Well, I don't believe a word you say, but—at least, he never let an old chick man be farred to pay his last dollar, on a debt he wasn't morally obligated for."

For a moment Radford didn't answer. Then he looked up. She saw him grin in the moonlight. "Did you say sick, Linda?" "His question, his grinning face, disconcerted her.

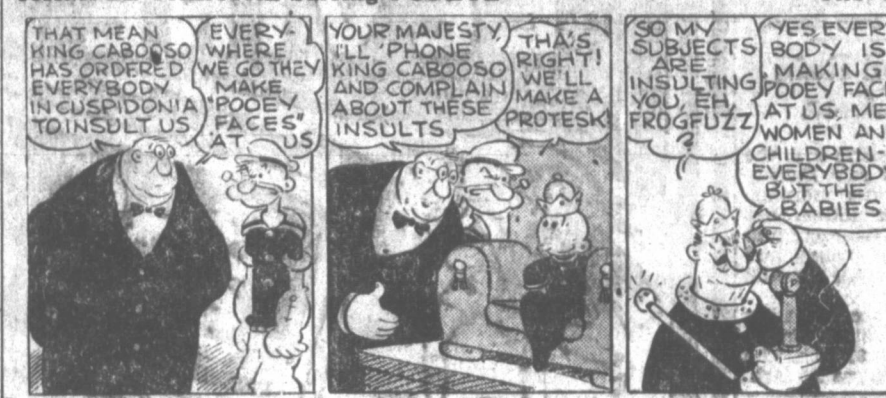

"Good night, Linda," he said, rising. He turned from her, went down the path to his car, drove quickly off.

After a long while Linda went inside. Her uncle, was reaching down to pick up the long envelope which Bruce Radford had given him. It had fallen to the floor. (To Be Continued)

HITLER WANTS NO WAR SAYS NAZI LEADER

PRAHA, Sept. 5. (P)—Negotiations on the minority problem enter the "crucial" stage today in the first meeting between President Eduard Benes and Sudeten German representatives since Adolf Hitler made known his attitude.

Just what the German Fuehrer told Sudeten Leader Konrad Henlein in their talks Thursday and Friday remained an official secret, but there was more hope of progress because the Berchtesgaden talks gave a definite basis for bargaining.

Hitler wishes to avoid war, but he wants Sudeten Germans to "have rights to which they are entitled." George Wollner, a Sudeten party deputy, said yesterday in a speech in which he indicated the Sudetens would not modify their demands for territorial autonomy.

Wollner spoke at a harvest festival in the presence of Henlein and the impressive crowd that the Sudeten "Fuehrer" had authorized his remarks.

"In our fight there can be no compromise," Wollner said. "The autonomy demands as laid down by Konrad Henlein in his Karlsbad (Karlov Vary) address are only the beginning of our requirements—they are not our maximum demands."

The Sudetens are not alone in this fight. Behind them stand 76,000,000 Germans. Their leader does not want war. But he wants 3,500,000 Sudetens who are a part of the great German people to have rights to which they are entitled."

NO. 1—Continued From Page One

Texas Panhandle all in one bunch on an excursion train. Only two ever returned to Czechoslovakia. They have come to love the very soil on which they make their living, and only one or two have sold their land. They want to keep it and hand it down from generation to generation. Of course, the younger folks may not want to stay on the farm but they have that idea of always hanging on to their patch of good earth. They have a great love and de-

votion for trees; they respect a tree as they would the flag. When they first came to this country they couldn't get use to the lack of respect for trees on highways or in other places. In their native country they respected trees as they would the flag. Also the residents of the Papan community are noted for their unselfishness. They help each other get a start in livestock and in raising crops. They raise no wheat there, but sorghums, row crops.

Attend McLean School. Their children go to McLean to school because when they first moved to the community there was a better

road to McLean, and they established a custom that they have never broken. This year about 20 students will go to McLean high school in the bus. Most members of the colony belong to the Lutheran church. The pastor comes from Amarillo to preach in the neat, brick building. The school is the center of all activities. Church and Sunday school are held here. The community is actively interested in home demonstration and boys and girls club work.

Gas Wells On Farms. Gas wells dot all of the farms, and gas is used for fuel in all the homes. The field was developed by the Dumar Oil and Gas Company. The homes in the community are modern, built of frame, brick and stucco. The farmers have well-bred Herefords and dairy cattle.

The Roving Reporter was impressed with one thing more than anything else, including the gas wells. He never heard any criticism of the others, and he was certainly impressed by the way they have stuck together all these years during which they have lived in peace among themselves.

The members of the colony who were born in Czechoslovakia came from the region of the Moravia river, and never lived in the Sudeten area, the Czech land next to Germany that is now under dispute. The Papan residents do not think that the Sudeten area should be given to Germany.

All the houses are surrounded by beautiful trees and flowers. One of the residents of the community is Kristiana Papan, daughter of the founder. Other residents are C. A. Linkey, Paul Flak, John Valencik, John Hrnclar, Paul Ristan.

Lewis, Green Issue Labor Day Messages

WASHINGTON, Sept. 5 (AP)—Labor's leaders, acclaiming the achievements of the past year, called on the rank and file today to fight for further advancement of the working man's economic welfare in the next 12 months.

William Green, American Federation of Labor President, in a statement observing the 56th annual holiday, asked labor to sweep aside all "disruption" and swing its strength to the cause of unionism and "higher standards of living for all."

John L. Lewis, chairman, said in a holiday message that the committee for industrial organization would work "for a fairer share in the national income by both farmers and industrial workers."

Secretary Perkins at the same time recalled these gains for labor in the last five years: Passage of the wage-hour, labor relations and social security acts; increases in weekly factory payrolls and in non-agricultural employment.

Green called for unity among labor, but his statement—as was Lewis'—was punctuated with caustic phrases which gave little reason to hope for an early end to the three-year war between the A. F. of L. and the C. I. O.

NO. 2—Continued From Page One

Government lines on the Ebro front in Southern Catalonia had been pushed back an average of four miles in a new insurgent offensive. The Government admitted the strength of the insurgent drive but declared the attack had gained only two hills between Gandesa and Corbera, in the center of the 25-mile front.

Three Japanese pursuit planes machine-gunned an airliner of the German-Chinese Eurasia line, forcing it down in South China with ten bullet holes in its fuselage. First reports said none of the seven passengers or the pilot was injured. The attack followed a similar incident August 24 when a Chinese National Aviation Corporation plane, Chinese and American owned, was forced down in the same vicinity.

Reports said to have originated in Japanese official circles said the Japanese high command expected to capture Hankow, China's provisional capital, before Oct. 1.

The Japanese, reporting new victories along the Yangtze river, estimated 10,000 Chinese had been killed during a week of the deadliest fighting since the fall of Shanghai almost 10 months ago.

Spanish Insurgent dispatches said

Action Demanded on Condition of South

ATLANTA, Sept. 5 (AP)—A demand that they be called together again to work out a remedy for Southern ills is rising among members of the advisory committee which helped prepare a report of Southern conditions for President Roosevelt.

Some members feel that a mere statement of the plight of the South should not mark the end of their work.

"Why leave it where it stands?" said one. "Our job is only half done. A pitiful picture of conditions in the South has been presented. The report said nothing of what should be done about them."

"Our committee should be called together again to work out plans and recommendations for dealing with those conditions. These recommendations should be presented to the President and those which require national legislation should be

Scientist Forever Studying Bubbles

MILWAUKEE, Sept. 5 (AP)—Scientists are forever blowing bubbles like those in bubble gum in one of the new advances of chemistry.

The study of bubble formation in liquids may seem ridiculous, Dr. Gustavus J. Esselen of Boston, Mass., told the opening meeting of the American Chemical Society here today, but actually it is the application of a child's pastime to learn how to make cheaper and better chemical products.

"The practical applications of bubbling gases through liquids are well high universal," Dr. Esselen declared, in the operation of automobile and airplane carburetors, purification of water, ore flotation in mining, formation of lather and suds, and hundreds of other uses.

The business of blowing bubbles presented by him to Congress in a special message at the opening of the next session.

"I believe the President was wholly sincere in his desire to help remedy conditions in the South. Yet, if the committee is not reassembled and plans for dealing with the problem worked out, many will say the 'number one problem' report was a political move."

is "complex beyond reasonable expectation," the Boston scientist asserted, but the phenomena discovered "must be studied if improvements are to be made" in chemical processes and the efficiency of operation of automobiles, airplanes, battleships and submarines.

What practical applications will result from these studies is impossible to predict, he added, but "that there will be up, we have no doubt."

Another Good Rain Falls in This Area

For the third successive day, the Pampa area received rain Sunday night and early Monday morning, to bring the total precipitation that fell between 7 p. m. Saturday and 9 a. m. today to .58 inches, and boosting the total rainfall for 1938 to 16.91 inches.

Rainfall Saturday accounted for .45 inches of the combined Friday and Saturday total of .85 inch. The August total in Pampa was .69 inch.
