(AP)—Means Associated Press.

PRICE FIVE CENTS

OKLAHOMA SHERIFF SHOOTS LAWYER

Crime Is Cited as Main Issue in Violent Disturbance and Killing

WORLD ASKING WHAT SHOOTIN' IS ALL ABOUT

Thompson Faction
Claims Law Enforcement
Is Improving
BAD PUBLICITY
GIVEN BLAME
Opposing Republicans
Deny Claims—Federal
Angle Grows

CHICAGO, April 2.—(AP)—What's all the shootin' for?

Outside Chicago, and inside, too, there is a general inability to comprehend conditions which could prompt or promote, encourage or condone the use of bombs and bullets in an election campaign. There is evinced an anxious curiosity in the American mind as to why Chicago should punctuate its politics with lead and pyramite.

What (the query comes even from across the seas) is all the shooting for?

The home of a United States senator is bombed—a "powder pineapple" is tossed at a circuit court judge, candidate for state's attorney—fifty-eight shotgun slugs are pumped into the political arena of 75,000 persons—dry agents shot down a court bailiff—a federal grand jury indicts an alderman—families of politicians are harassed by anonymous telephone threats of violence and death—why?

Queer Slogans Seen
Campaign slogans give no clues. They are harmless enough—such slogans as "American First," "100 per cent Republicans," "Draft Coolidge," "Down with King George," "World Court Failure," and the innocuous "Good Roads." These campaign catch lines lack particular significance in themselves, except as they serve to identify the two Republican factions who will stand at the Armageddon of a statewide primary election a week from tomorrow.

Stripped of persiflage, denuded of oratory, the real issue is crime. Both sides say it. The Deneen Republicans, those who are aligned with United States Senator Charles S. Deneen, challenge what they regard as deplorable crime conditions, and offer if nominated and elected to remedy it. The other faction, directed by State's Attorney Robert E. Crowe and Mayor William Hale Thompson, ask nomination and election on the argument that crime under their administration has been greatly reduced.

Swanson Is Sarcastic.
"A bomb was thrown at my home," said Judge Swanson, "and a few hours later State's Attorney Crowe made the startling statement that the bomb was thrown by my own political friends in an effort to create sympathy for me. In my mail the next morning was a political pamphlet, at the bottom of which was printed: 'If you would protect your home, vote for Robert E. Crowe for State's Attorney.'"

"Crime," said Mayor Thompson, "has been reduced 67 per cent in Chicago during my administration. The fault lies with newspapers which broadcast Chicago crime, giving the city a bad name."

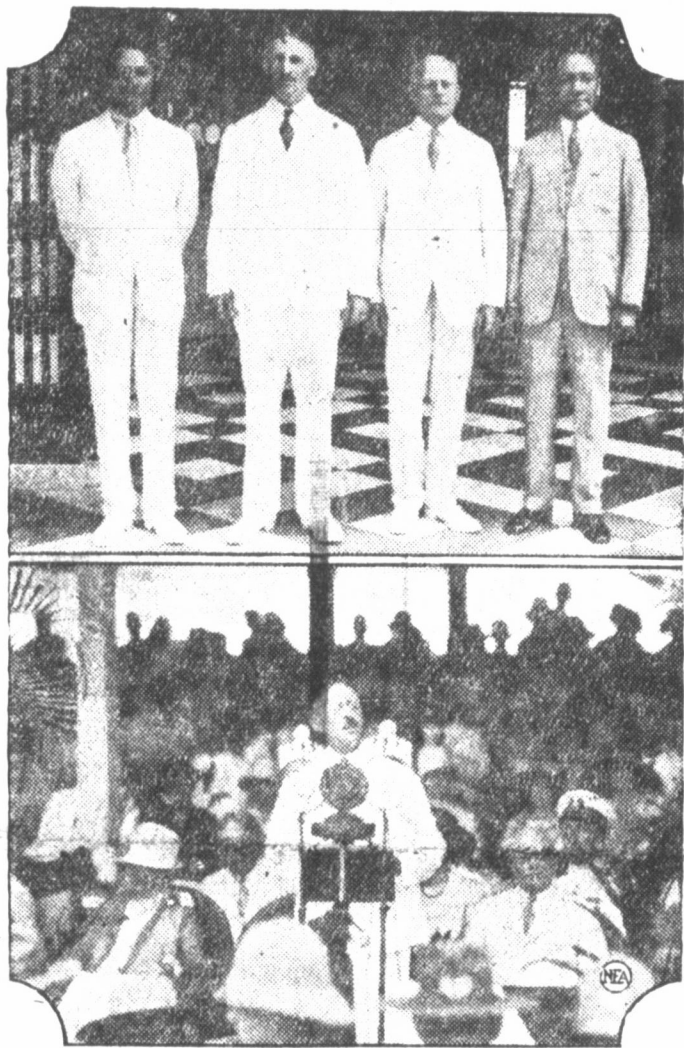

Out of all the talk, the political meetings, the police and the federal investigations, there has yet to come a concrete answer to or explanation of the numerous bombings, intimidations and shootings. Sixty five thousand dollars in reward money offered by 12 leaders of the Crowe-Thompson faction, has failed to uncover a single definite lead to the bombers' identities, so far as the public has been advised.

Both Deneen and Crowe-Thompson Republicans have their own idea as to responsibility. They blame each other.

Then there is the federal angle. It revolves about Senator Deneen, and is predicted on the premise that he, as Illinois' single representative in the Senate, has virtually the first and last word in federal patronage in Chicago. The hub of a federal angle as capitalized by Mayor Thompson and those whose cause he extols is that Senator Deneen, through the use of the district attorney's office and Washington dry agents, has sought to nullify the Thompson support among the wets by continual harassment of bootleggers and padlocks. Some of the brightest of Chicago's cabinet have felt the federal padlock or the threat of it.

Strained relations have been created between police and federal dry agents by the shooting by the dry agents of a court bailiff during a safe raid. When police reached the place the federals told them to go on about their business.

Stimson's Philippine Inauguration

Inauguration of Henry L. Stimson, Taft's secretary of war, as governor-general of the Philippine Islands is pictured here. Below, you see him delivering his inaugural address to thousands of Filipinos congregated on the Luneta in Manila. He's posed above with other insular officials (left to right): Manuel Roxas, speaker of the Filipino House; Stimson; Eugene A. Gilmore, vice-governor-general, and Sergio Osmena, Senate leader of the nationalists.

CARSON AND RANDALL COUNTIES AUTHORIZED TO BUILD ROADS

Mississippi Is Reported "Dry"

MEMPHIS, Tenn., April 2.—(AP)—A ten-day drive to make the Mississippi River "dry" has met with at least partial success.

Officers reported today that in raids on islands in the river 500 gallons of whiskey were destroyed with 17 stills, including three 4,000 gallon and three 1,000 gallon plants. The largest stills were within 20 miles of Memphis.

Interest Is Keen In City Election

Voters of Pampa tomorrow will elect a new mayor and two commissioners to direct the affairs of the city for the coming term. Each office is being keenly contested, with men of high standing in the races.

For the office of mayor there are four candidates. Dave Osborne, present commissioner, is in the field for that office, as are Dr. V. E. von Brunow, P. B. Carlson and T. E. Mason. For the office of commissioner No. 1, J. E. Murfee, former councilman, and Alex Schneider, local hotel owner, are the two candidates. Commissioner No. 2 will be selected from Lynn Boyd, present commissioner, or seeking reelection, and L. M. Balnew and Curtis E. Clem. The election will be held at the city hall.

Smyrna Terror Stricken as Shocks Follow Disastrous Earthquake Today

CONSTANTINOPLE, April 2.—(AP)—A series of earth shocks struck the historic city of Smyrna this morning increasing the terror of the population which was barely recovering from an earthquake Saturday which caused heavy loss of life.

The first shock today, a slight one, was felt at 6 a. m. and this was fol-

Today's Paper First In New Publishing Home

With many intricate machines stiff from tearing down and setting hurriedly, electrical equipment re-wired for publication of today's issue of The News was being done under difficulties, the extent of which could not be forecast.

Several days will be required to place all equipment and adjust the new routine, then the public will be invited to inspect the new home of The News and the Nunn-Warren Publishing headquarters.

The Methodist Missionary Society will meet Wednesday afternoon in the home of Mrs. J. E. Wadr.

APRIL SHOWER OF BALLOTING IS INTERESTING

Presidential Preference
To Be Shown Today
In Michigan
HOOVER, SMITH
NOT OPPOSED
Voting Next Ten Days
To Show Trend
of Politics

WASHINGTON, April 2.—(AP)—An April shower of ballots that will give a better indication of which way the wind is blowing for those who aspire to the highest office of the land began today in Michigan and will continue tomorrow in Wisconsin and New York.

These are but three of eight state presidential preference primaries and more than a score of party convention listed on the month's political calendar which, when torn down, will add considerably to the 215 Republican and 164 Democratic delegates thus far chosen to the Kansas City and Houston conventions.

These figures represent less than one-fifth of the 1,089 delegates vote in the Republican convention and less than one-sixth of the 1,100 in the Democratic gathering. During April, however, delegates to Kansas City will be increased by 555, or more than half of the total convention vote, while those bearing credentials to the Texas City will be raised 472 or a little less than half the total Democratic delegates.

Delegate List Diminishing
Only 319 Republican delegates and 464 Democrats will remain to be selected in May and early June when the April primary and convention slate is dispensed with.

Herbert Hoover and Governor Smith of New York had no opposition facing them in the Michigan primary today. Thus far the former was assured of that state's 33 Kansas City delegates and Smith of its 30 Democratic delegates, all of whom are to be chosen later at party conventions.

Tomorrow, 52 delegates, equally divided among Democrats and Republicans, will be selected in the primaries in Wisconsin, and 83 Republican district delegates and 86 Democrats, exclusive of Delegates-at-large who will be named later in the month, will be chosen in New York primaries. The delegation at large already has been designated.

More Next Week
That will be all the primaries for this week, but next Tuesday the deluge of presidential preference ballots will be loosened again in the Illinois and Nebraska primaries. Then, after a respite of a couple of weeks, the downpour will strike Ohio, where the death of Senator Willis has complicated the political situation in both major party ranks and Pennsylvania and Massachusetts.

A primary also will be held April 24 in Alaska when two delegates to Kansas City and six to Houston will be chosen.

Through the primary method, 366 Republican delegates and 352 Democrats will be selected during April.

Pampa Goes on Air as City Manager Is Guest Speaker Today

Wins in Opera

Hailed as "an absolute and complete success" by Italian music critics in her debut in Italy 19-year-old Kathleen Kersting, child singer of Wichita, Kas., is to sail for home soon. The Wichita Rotary Club financed Kathleen's musical education abroad after Miss Emma Calve, famous French opera star, became interested in the girl six years ago after hearing her voice.

ROBBERS GET MUCH MONEY

Groups In Pittsburgh
and Chicago Obtain
\$10,000 Each

PITTSBURGH, April 2.—(AP)—Three bandits, armed with shotguns, held up two Ward Baking company bank messengers in the Lawrenceville section here today and escaped with \$10,000 in cash.

As the messengers, carrying receipts of the baking company to the Franklin Savings & Trust company, were passing an alley, the bandits stepped out. With their arms in the air, the messengers were backed into the alley. The bandits picked up the money bags, which in addition to the cash contained many checks, jumped into an automobile parked nearby, and escaped.

CHICAGO, April 2.—(AP)—Robbers obtained \$10,000 from the office of the Grand Rapids Furniture company here early today after overcoming the watch man and blowing the safe.

Horseman to Resume Ride to New York

FORT WORTH, April 2.—(AP)—Aime Felix Tschiffely is making preparations to leave here Wednesday, resuming his horseback ride from Buenos Aires to New York. He has been on the trip for three years with his two horses, "Mancha" and "Cato."

"Mancha" is responsible for the horseman being delayed in Texas for several days due to distemper. The animal was left at Taylor but recuperated sufficiently for Tschiffely to ride him in to Fort Worth, reaching here Sunday. Two days were required for the trip from Taylor to Fort Worth. From here the long distance ride will go to Denison.

Cigarette Stub Is Blamed For Fire In the Palo Duro

AMARILLO, April 2.—(AP)—Three sections of heavy timber on the ranch of Henry Harding in the Palo Duro canyons, 18 miles from here, were swept by fire last night. A cigarette stub, dropped by a sightseer, is believed to have been responsible for the fire.

Charles Lock was taken to the hospital Saturday seriously ill.

Pampa, Gray County and the Panhandle offer to all the greatest of all assets of the great American nation—a home. City Manager Gwin stated in his address over radio this morning before the world Pampa and Gray county was made possible by the Galbraith-Foxworth Lumber company.

Mr. Gwin expressed his appreciation on behalf of the city of Pampa and Gray county to the Galbraith-Foxworth Lumber company and to M. K. Brown, president of the Chamber of Commerce.

For fifteen minutes the Pampa city manager told facts about the "greatest little city on the plains and in Gray county." He stated that it is the custom to state that a city or county so many miles from a certain spot, but that Pampa is not any particular distance from any place, but that Pampa is that place.

He discussed the agricultural activities in the country, giving figures on the cotton and wheat growth in past years, and told of the new Pampa and Gray county oil fields and some of the recent discoveries. He then showed the varieties of the enterprises in Pampa and touched on the railroad, paving, courthouse and hotel accommodations.

Home Folks Taking Part In Revival

Much interest prevails in the evangelistic services being held at the Christian church.

In a letter he wrote before he died and which was read at the coroner's inquest last night, he said he had contributed \$2,000 in the last five years, although his yearly salary was only \$2,700. This tribute, he wrote, was exacted of him in order that he, a Democrat, might retain his position.

BLAMED REPUBLICANS FOR POSTAL PRECIPITATION

DOUGLAS, Ga., April 2.—(AP)—L. F. Peterson, who killed his assistant, J. T. Kirkland, and committed suicide yesterday after being relieved as postmaster here, blamed his predicament on forced contributions to the Republican party organization in Georgia.

In a letter he wrote before he died and which was read at the coroner's inquest last night, he said he had contributed \$2,000 in the last five years, although his yearly salary was only \$2,700. This tribute, he wrote, was exacted of him in order that he, a Democrat, might retain his position.

Southeastern Pools Hold Interest, And Gray Production Tops 22,334

The southeastern Gray county field continues to hold the interest of oil men, with two new wells topping pay and looking good. Two new locations have been made to drill immediately in the same area.

The McCauley et al's No. 2 Morse, in the southwest corner of the north half of section 2, block 26, five-eighths of a mile west of the same company's No. 1, making 100 barrels a day, encountered second pay from 2,507 to 2,530 feet and is flowing 250 barrels a day of high gravity oil.

First pay was topped at 2,404 feet with a heavy flow of gas.

The Danciger Oil and Refining company's No. 1 Morse in the southeast corner of the northeast half of the southwest quarter of section 2, block 26, an offset to the McCauley et al's No. 1 in the same section, topped pay at 2,476 feet and is shut down waiting for storage.

The oil is running over the top of the hole, which will be drilled in as soon as storage can be erected.

The Travis No. 1 Morse will be drilled immediately in the northeast half of section 3, block 26, an offset to the McCauley et al's No. 1 in the same section, topped pay at 2,476 feet and is shut down waiting for storage.

MADILL MAN HAS A CHANCE FOR RECOVERY

Franz Kim Taken to
Sherman Hospital
Today
AFFAIRS GROWS
OUT OF MEETING
Bodies of Three Slain
Men Found Near
Carnegie

MADILL, Okla., April 2.—Franz J. Kim, county attorney of Marshall county, was shot and critically wounded today by Sheriff Ed Long, after an argument during a meeting of the county commissioners.

Kim was taken to a hospital at Sherman Texas. Doctors who examined him said he had a slight chance to survive. Kim was said by witnesses to have charged that a claim presented to the commissioners by Sheriff Long was exorbitant. After a few minutes argument, was alleged to have drawn a gun and started firing. Kim was struck twice, in the right leg and in the stomach.

The commissioners were to meet this afternoon to consider the appointment of temporary officers to succeed Kim and Long.

Three Found Dead
CLARENCE, Okla., April 2.—(AP)—Bodies of three men who had been shot to death were found today lined along the Rock Island railroad track about one-fourth miles west of Carnegie. A coroner's inquest was being held at noon to determine if possible, the circumstances surrounding their deaths.

The men were identified as "Curly" Day, 37, a machinist who came here three days ago from Perry, Okla.; Walter Swigart, a concrete worker, and Noah Williams, blacksmith.

Sheriff George Nixon of Caddo county said the slayer was known and that a search was being conducted for him. The three slain men were last seen Sunday night in company with a fourth man, who was suspected by the sheriff.

The cause of the shooting was not known, the sheriff said.

Frenchman May Join Bremen On Ocean Attempt

DUBLIN, April 2.—(AP)—Possibility of a Franco-German air race to America caused a stir at Baldonnell air-drome today.

Maurice Drouhin, French pilot, was reported to be negotiating to use the field as a starting point for a trans-Atlantic flight.

The German plane Bremen continued weather bound and there were reports that Commandant James Fitzmaurice, head of the Irish Free State air force, might replace Arthur Spindler, German mechanic, as co-pilot of the plane.

Reports were that Drouhin intended to start for Ireland tomorrow. Auth orities at Baldonnell declined to comment, but the rumor gained credence.

The Prairie Oil and Gas company has made a location to drill a south offset to the Empire Gas and Fuel company's No. 1 Bender, northeast corner in section 163, block 4.

Production in the Panhandle, which has been steadily falling off, took a jump last week due to the bringing in of the Ray and Massie gusher in southeastern Gray county for 3,900 barrels and the Operators Pool for 2,000 barrels.

Once more the Gray county production went over the 20,000 barrel mark and with several wells topping the pay gives promise of increasing to 25,000 barrels within the next two weeks.

The total daily production jumped from 71,932 barrels to 74,570 barrels with Gray county leading the way.

Number of wells and production by counties are:

| County | Wells | Prod. |
|---------|-------|--------|
| Gray | 166 | 7,534 |
| Carson | 208 | 22,334 |
| Wichita | 1,027 | 43,534 |
| Wichita | 3 | (off) |
| | | 38 |
| | | 1,142 |
| | | 74,978 |

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any individual...

GOOD PROSPECTS—Agriculture prospects in the states of the Southwest served by the Santa Fe railroad are fair to better...

Some extracts from a railway bulletin are of interest: Crop conditions are, in the main, satisfactory in the states served by the Santa Fe...

The agricultural trend continues upward. Farmers have paid many debts in the last two years, often delaying necessary improvements to do so...

There is a veritable boom in farm machinery in the Southwest. Machinery companies have vied with each other in sending special trains of farm implements into the wheat belt...

While there has been a slowing down industrially in several lines, comparatively few workers have been laid off. Public improvement compare favorably with those of last year, and have usually taken up the slack.

More inquiries about farming opportunities in the Southwest were received by the Santa Fe in the last three months of 1927 and the first three months of 1928 than in any other corresponding period since 1923.

by inventions which have permitted incubation of eggs and brooding of chicks under controlled conditions.

It has been stimulated further by the development of special strains and breeds of poultry which not only conform to standards of individual perfection, but have been selected on a utility basis.

The growth of commercial

hatcheries has been most marked. They have made necessary the adoption of sanitary measures. They have stimulated the production of breeding stock of sound constitutional vigor.

Associated with the selection of eggs and breeding stocks has been a study of methods of feeding and management of baby chicks which contributes materially, not only to a reduction of losses from death, but a uniform, normal growth free from any material setback.

The use of feeds containing vitamins which stimulate growth, the value of violet rays and cod liver oil in preventing rickets, the effect of rations containing excessive amounts of protein or of starchy material, is today a matter of common knowledge.

Scientific study and practical experimentation have resulted in the development of formulas for feeding which provide protection against the major number of nutritional diseases due to the use of unbalanced rations.

Grading and standardization of egg and of other poultry products have resulted in increased consumption. Consumers are assured of the quality of eggs handled by reputable concerns.

Farmers' cooperative agencies have contributed to the increased production of poultry products by expediting their movements and reducing the costs of handling and delivery to central markets.

The development of incubators, brooders and commercial hatcheries has permitted a much more rapid expansion in the poultry business than could otherwise have been attained.

The control of diseases and the manufacture of feeds specially designed for normal chick development have contributed to a reduction of costs in production. Improved marketing facilities have assured the consumer of quality in his purchases.

The contribution of these agencies is responsible for the rapid growth of the industry.

England is making a 130-foot sundial. But if the sun never sets on British territory,

that will hardly be large enough.

Something ought to be done to protect the timber in the Palo Duro canyon. There is rare beauty there, and the State ought to take it over as a park and keep a forester or two on the ground.

An astronomer reports a broken star. Is it possible the firmament is having an election year, too?

Uncle Sam may be making the Mississippi area "dry", but to keep it that way will take almost as much work as rebuilding the dikes. Maybe the two jobs can be combined to a certain extent.

Today smile; He acted as important as a political boss in a hick town.

BARBS (By N.E.A. Service Inc.)

A man is on trial in New York charged with annoying a reformer. They have odd ideas of crime in New York.

Williamsburg, the colonel capital of Virginia, is spending \$2,000,000 to restore its Revolutionary aspect. A couple of other cities we know of would spend that much to get rid of theirs.

Cotton dresses can be made in 30 minutes at a cost of 75 cents to \$1.50, according to a recent bulletin of the Cotton Textile Institute. Thirty minutes seems quite a lot of time wasted in making on of those modern gowns.

Most girls carry lipsticks these days. They have to draw the line somewhere.

CLOGGED RADIATORS

We repair or re-core any make of Radiator.

We also remove from your radiator all foreign accumulations such as rust, scale, dirt and lime deposits.

A clogged cooling system decreases motor power, increases oil, gas and repair bill.

We can give you prompt and guaranteed service if your radiator needs attention.

Bombings Follow Funeral of "Diamond Joe"

Houston Shoe Store Robbed of \$2,000

HOUSTON, April 2.—(AP)—A shoe store in the heart of the business district here was broken into Sunday night, the safe blown and \$2,000 stolen.

An overcoat left by the robbers apparently had been used to muffle the sound of the explosion. Finger prints on the safe, police said, likely would lead to arrests.

Royal Neighbors to Meet Tuesday Evening In Odd Fellows' Hall

The Royal Neighbors will meet in the Odd Fellows hall Tuesday evening at 8 o'clock. It is advised that all members be present.

An overcoat left by the robbers apparently had been used to muffle the sound of the explosion. Finger prints on the safe, police said, likely would lead to arrests.

Marathon Runners Have Gone More Than Thousand Miles

NEWSIRK, N. M. Apr. 2.—(AP)—With 1,093 miles of the race behind them, ninety-four survivors of the transcontinental marathon expected to move toward Tucuman today, their forthright control, a distance of 36 miles.

Arne Suominen, Detroit, who maintained the lead for several days, dropped back into fourth place for Sunday's trek from Santa Rosa to Newkirk with a time of 4:57:19. Suominen, however, still holds first place with an elapsed time of 17:52:15 for the better than one thousand miles to this point.

A MESSAGE TO VOTERS

It is to be regretted that advertisements of certain candidates have attempted to mislead the public into believing there is a possibility of the City's Government falling into the hands of candidates, controlled by certain groups, who are incapable of performing their various duties intelligently.

On the contrary, I believe ALL of the present aspirants for the city offices are men capable of performing their duties intelligently.

The Future Progress and Growth of Pampa will depend largely upon a City Government composed of men who are unbiased in their viewpoint and have the welfare of the entire city at heart.

A city whose officials cannot or do not wish to devote their time to the running of its affairs would indeed be in a deplorable condition. I feel that the following candidates have the time to do justice to the growing business of Pampa.

IN THE ELECTION TOMORROW, A VOTE FOR---

P. B. CARLSON, for Mayor

ALEX SCHNEIDER, JR., Commissioner No. 1

CURTIS E. CLEM, Commissioner No. 2

will mean another step forward for Pampa. The well known conservative yet progressive policies of these men are in keeping with the present and future demands of Pampa.

Signed,

A VOTER.

COURTESY

By DOUGLASS MALLOCH... Daughter, I'll give you a simple rule. As wise as any you learn at school. Though it has to do with a simple thing; Not the way you walk, nor the way you sing, Nor the way you dress—it is just the way You speak to others from day to day. There are folks we don't like, folks we do. And we don't know why—but it's surely true. And yet it's all in the way they speak. When a thing they wish, or a favor they seek. It's easy enough to understand; The cultured ask, but the crude command.

There are folks we like, though we hardly know Just why it is that we like them so. There are folks whose voices jar the ear, And we don't know why—but it's that my dear. Yes, after all, it's a simple test; The crude command, the polite request.

The "ghimme" people may get a thing And folks may carry and fetch and bring. But ask for things with a gracious tone— And both the thing and a friend you'll own. In all your asking, the courtesies remember, daughter—remember, please

Mrs. W. P. Clark will be hostess Tuesday afternoon to the members of the Just a Mere Bridge club.

ANOTHER POLITICAL AD Appearing in this issue of The News is the last of a series of advertisements relating to political candidates.

The purpose of this and other political advertisements has been to set forth the platforms of the office seekers and to call attention to tickets advocated by friends of the candidates.

Today's ad is for P. B. Carlson for Mayor, Alex Schneider, Jr., for commissioner No. 1, and Curtis E. Clem for Commissioner No. 2.

Bobby Vincent to Have Hard Bout With Springfield

Tonight at the Pampa Athletic club fight fans will see a battle from gong to gong when Bobbie Vincent, who is well known to a Pampa audience as a boy who fights while he is in the ring, meets the Wildcat from the Pacific coast, Billie Springfield, who is substituting for Freddie Cox.

Springfield has held the lightweight championship of California and Vincent, the lightweight championship of the Southwest so it will be a match of ex-champions and for the right to meet Kid Granite or Lou Avery to win the crown that was recently taken from Wildcat Monte in the local ring.

Sammy Carlton and Pete Burkest are ready for the six-round special event, while two colored boys will mix in one of the opening events with the midgelets today to go again in the opener.

Arrangements have been completed for a return match between Walter Varner and Fred Whittington in the near future and between Ernie Cross

and Warrin Smith. Every fight fan in the southwest knows what these two battles mean.

Jesse Holt left today for Elk City.
