## Ford Shows Optimism On Nation's Economy

WASHINGTON (UPI) — President Ford, chairing his inflation summit, expressed optimism today that the nation's willingness to sacrifice will help overcome the most severe economic problem since the Depression. But he was criticized immediately for doing too little.

Ford presided before 800 delegates and 700 guests in the vast ballroom of the Washington Hilton Hotel at the conference he called of the nation's leaders to find solutions to the vexing problem of simultaneous inflation and economic slump.

Senate Democratic Leader Mike Mansfield and House Speaker Carl Albert used the occasion to call for strong and swift action and to tell Ford that cuts in the budget—no matter how deep—could end up making the situation worse, not better.

The loudest burst of applause came when Mansfield solemnly called for mandatory controls on wages, prices, profits and rents. But Ford, as he has in the past, rejected that course.

"I do not intend to ask for it," Ford said, noting he had no legal authority from Congress to impose controls. He said it was "most unfortunate" that some businesses already are raising prices in anticipation of an ultimate return to controls.

Treasury Secretary William Simon said controls lead to "inequities, distortions, hardships and scarcities" and merely attack the results, not the causes, of inflation.

Rep. Wright Patman, D-

Tex., chairman of the House Banking Committee, urged Ford to fire his economic advisers left over from the Nixon days.

"The President needs to get rid of the holdovers who have contributed to a series of economic mistakes," Patman said.

A common theme throughout the oratory was for tax relief for poor and moderate income families to help them cope with inflation's burdens.

Ford opened the meeting by declaring that the burdens of setting the American economy right must be shared equally. "No group should be called upon to carry an unfair share of the load," he said.

But he expressed optimism that curtailment of the most inflationary about in many years ultimately would be achieved. His chief economic advisers have estimated it will take 18 months to three years.

"I have unlimited confidence in America," the President said. "The battle against inflation will not be an easy one. It will require sacrifice and common effort. But we will win."

In response, both Mansfield and House Speaker Carl Albert, D-Okla., expressed misgivings.

Albert complained that the Democratic Congress had been excluded from deciding the participants and the agenda for the series of 12 meetings which led to the two-day summit.

Mansfield said he was discouraged that so far the sessions have produced nothing but words and

theories which offer no relief to a nation bruised by rising prices and rising unemployment.

"The public knows that little has been done to halt the march of inflation," he told Ford, who sat nearby puffing his pipe.

Both Democratic leaders said Ford was overstressing the value of cutting federal spending. Mansfield said extravagant cuts in spending could dry up jobs, profits and output.

He listed nine steps which he said should be taken, one of them controls—which Ford has already announced are unacceptable.

The senator's most innovative idea was for "indexing." That concept ties wage increases and tax levels to the inflation rate so that the real, after-tax and after-inflation income of workers remain steady no matter how severe inflation becomes.

Speaking for the

Republicans, Senate GOP Leader Hugh Scott, Pa., said Congress must take much blame if federal over-spending has helped pump up prices. "If we have overspent, Congress has overspent," Scott said. "If we lack fiscal discipline, Congress lacks fiscal discipline."

A leading Senate conservative, John Tower, R-Tex., said that if inflation is not controlled "we may lose our entire system of government and our free society as we know it."

Ford is expected to outline his administration's anti-inflationary program in a closing speech Saturday afternoon and advance indications were that he would propose tax cuts for low and moderate income people to help offset the burdens of inflation.

In 12 preparatory "foothill" conferences held around the country during the past month, it became clear some inflation cures

might benefit some of these diverse groups and hurt others. But Ford said: "This administration will seek to insure that burdens are distributed equally. No group should be called upon to carry an unfair share of the load."

Beyond that, he said, the meeting was "wide open," and he would listen to all views at the two-day conference. "My actions will not be set in concrete," he said.

But he said there could be "no quick or easy solutions" — "no miracle cure" had emerged.

"Inflation is a problem which we must deal with patiently and persistently. In this battle there is no substitute for candor and hard work."

Ford said American resourcefulness helped build the nation and provided an abundance unknown by most other peoples of the world.

## Colson's Pardon Request Turned Down By Saxbe

WASHINGTON (UPI) — Charles W. Colson, the first imprisoned Watergate figure to seek a special pardon from President Ford, was told by the Justice Department today that he does not qualify unless present rules are waived.

"It does not fit our regular pattern for pardons," Attorney General William B. Saxbe said, indicating that Ford would have to intervene personally in Colson's case.

There was no immediate indication whether Ford would do so.

Colson, once special counsel to former President Richard M. Nixon and now serving one to three years in jail, Thursday submitted his request for a pardon on the basis of White House statements that Ford might consider pardoning other Watergate figures as he did Nixon. The request was relayed to Saxbe for study and recommendation.

Saxbe's response did not jibe with earlier indications from the White House that the requests from Watergate figures would be given more than routine consideration.

Lawrence M. Traylor, pardon attorney for the Justice Department, said under present regulations a person does not become eligible for a pardon until three years after he is convicted or serves all of his prison sentence, if one is imposed.

Traylor said a pardon is different from a commutation of a prison sentence, which frees a defendant before he has served all of his time.

"We recognize that the President has the power and authority to frame a pardon in such a way as to have the effect of a commutation and a pardon," Traylor said.

"Our regulations preclude any consideration unless there is a waiver of our present rules," Traylor said. "If there is not a

request for a waiver we will mark it no action—neither denial or approval."

Colson was the first to seek a pardon since President Richard M. Nixon. A House subcommittee has asked Ford to answer a series of questions about the Nixon pardon.

Questioned by reporters, Traylor said he had no way of knowing whether Colson intended in effect to seek a commutation instead of a pardon but he said a pardon, while it does not reduce prison terms it carries numerous benefits.

"A pardon is forgiveness of an offense," Traylor said. "It can help in many areas such as employment or where a man needs it for licensing, bonding or different areas like that. Many employers will consider a man for employment who has had a felony conviction—after pardon but not before."

The pardon regulations have been set up under past attorneys general with the approval of past presidents, Traylor said.

## Cities To Give Further Study To Gas Plans

Cities on Pioneer Natural Gas Company's West Texas system will give further study to the utility's claim of necessity to continue its monthly pass-through cost of gas adjustment.

Representatives from more than 50 cities met last night in Lubbock and listened to K. Bert Watson, Pioneer president, present the company's case for continuance of the current adjustment.

Pampa's Mayor R.D. Wilkerson and City Manager Mack Wofford attended last night's meeting in the Lubbock Municipal Bldg.

The study into the gas cost adjustment was triggered by a recent ruling of the Texas Railroad Commission rejecting Lone Star Gas Company's request for 100 percent pass-through costs. The Commission allowed Lone Star only a 65 percent pass-through.

Following a lengthy presentation by Watson and a question and answer period last night, the cities represented voted to reactivate the steering committee that has been studying the matter since the Lone Star decision.

Cities on Pioneer's West Texas System have a 100 percent pass-through cost agreement with the company.

The steering committee for the cities includes Fred Poe, assistant City Manager of Midland, chairman; Pete Thompson, mayor of Abertnathy, and Jake Geron, city manager of Brownfield.

City Manager Wofford said this forenoon the group voted to have the committee continue the case study, and report back to the cities as to what procedure should be followed.

## Foreign Service Seeking Applications For Careers

Congressman Bob Price of Pampa today urged interested citizens to make application for career employment with the U.S. Foreign Service.

Price said the State Department had asked him to help publicize its need for qualified applicants to serve their country overseas.

The Department is particularly seeking applicants interested in and prepared for service in one of five major functional fields: administrative, consular, commercial-economic, political and informational.

Persons with practical experience as well as those with largely academic backgrounds are sought, Price said.

The U.S. Information Agency is particularly interested in attracting candidates with training or experience in the printed media, the Congressman reported. USIA also needs generalists who have a special aptitude for

## Optimist Club Sets Installation

Pampa Optimist Club will conduct its annual installation of officers at a 7 p.m. banquet Saturday night in the Optimist Bldg.

Harley Knutson will be installed as president to succeed outgoing president T.V. Lowrance.

A life membership will be presented to an outstanding club member and the Optimist of the Year will be announced at the banquet.

## AT LEAST UNTIL MONDAY Army Gains Permission To Keep Calley In Jail

FT. LEAVENWORTH, Kan. (UPI) — The Army's possible appeal of the reversal of William L. Calley Jr.'s My Lai massacre conviction will force the former lieutenant to wait until Monday to learn the status of his court-ordered release.

## EVEN IF BLOOD SHED President Peron Vows To Wipe Out Guerrillas

BUENOS AIRES (UPI) — Argentine President Maria Estela Peron has vowed to wipe out leftist guerrillas trying to topple her government. The armed forces promised to shed "the blood of its members" to uphold constitutional rule.

Flanked by uniformed officers as she delivered a nationwide television address Thursday, Mrs. Peron said, "We will not rest until we have completely eradicated subversion in this country."

Earlier, the Senate had approved tough new legislation cracking down on guerrillas accused of assassinating two army officers Wednesday. The bill was sent to the lower house for debate today.

## Chamber Sells Banquet Tickets

Tickets for the annual Chamber of Commerce banquet are now on sale at the chamber office and through directors of the organization.

Those who plan to attend the Oct. 17 banquet in the Heritage Room at M.K. Brown Auditorium should secure tickets early, chamber officials said, as a sellout is expected.

Banquet speaker will be Lt. Gov. George Nigh of Oklahoma City, who is recognized as one of the top after-dinner speakers in the nation.

The Cowboy Hall of Fame will again bring an all new set of oil paintings by some of the world's best Western artists.

Delegations from neighboring cities will be in attendance.

## WITH REAGAN, PRICE Teachers, Students Invited To Attend Political Affair

Newest development in plans for Sunday's barbecue honoring Gov. Ronald Reagan of California, with Congressman Bob Price as host, is the special invitation to local teachers and their students to attend the affair slated to start at 2 p.m. at the Price ranch northwest of Pampa.

Local GOP officials have asked that teachers and parents encourage the youngsters to come out and take advantage of "this unique political learning experience."

Tickets to the function are priced at \$10 per family. Children end students will be admitted free when accompanied by parents.

Entertainment will begin at 2 p.m., to be followed by Gov. Reagan's speech.

He is described by Republican officials as "a most articulate spokesman of conservative philosophy."

Although extensive physical arrangements have been made for the event at the Price ranch, promoters of the barbecue have also made plans to hold the program at Recreation Park in Pampa in case of inclement weather.

Preceding their arrival here by helicopter Sunday afternoon, the Congressman and the Governor will

participate in 1 p.m. news conference at KVII-TV studios in Amarillo.

The subject of Reagan's speech had not been announced as of today.

Price has said of the governor's visit, one of several he has made to the Texas Panhandle, "I look upon this event as an opportunity for my constituents to meet and hear one of the great men of America."

Tickets for the family-style, "come as you are" affair are available from

Kennedy Kidnap Threats Studied

BOSTON (UPI) — The FBI is investigating kidnap threats against one of the children of the Kennedy clan and believes it knows who hatched the plot, United Press International learned today from a reliable source.
It was not known, even by top law enforcement officials which of the children was the target, so all of them required protection.
This source said the whereabouts of several of the about nine persons involved in the plot was known and they reportedly

are under surveillance. The person who tipped the FBI is under protective custody.
There also was a report that three of the suspects had been arrested on other charges and were in jail elsewhere in New England, but a highly placed law enforcement official said he did not believe this was true.
It also was reported police confiscated some weapons, but this too was denied by the officials.

The source said the group that made the threat was believed made up of about nine persons, most of them from New England—at least two from the Boston area and one from New Hampshire.
The plot against "Kennedy blood" was believed to be that of a professional, organized group—not one of the estimated 60 threats which Sen. Edward M. Kennedy, D-Mass. receives weekly against himself and other members of the Kennedy family.

The source said the threat was made against "Kennedy blood" — specifically against Kennedy children including those of Senator Kennedy, his two late brothers, President John F. Kennedy and Robert F. Kennedy, and those of the Sargent Shriver, Stephen Smiths

and the divorced Peter and Patricia (Kennedy) Lawford.

The threat reportedly was disclosed in Boston on Sept. 12 — three days after Senator Kennedy was prevented from addressing an anti-busing rally by a group of whites who booed him from the podium and

threw eggs, tomatoes and garbage at him.
Two days later, on Saturday, Sept. 14, a small army of heavily armed Secret Service agents swooped down on the Kennedy compound at Hyannisport, Cape Cod. Openly displaying weapons, including zip guns and other automatic guns.

FBC Schedules Special Roundup Service Sunday

The First Baptist Church of Pampa has declared Sunday, Sept. 29, as "Roundup Sunday," and is going all out to make it an eventful day.

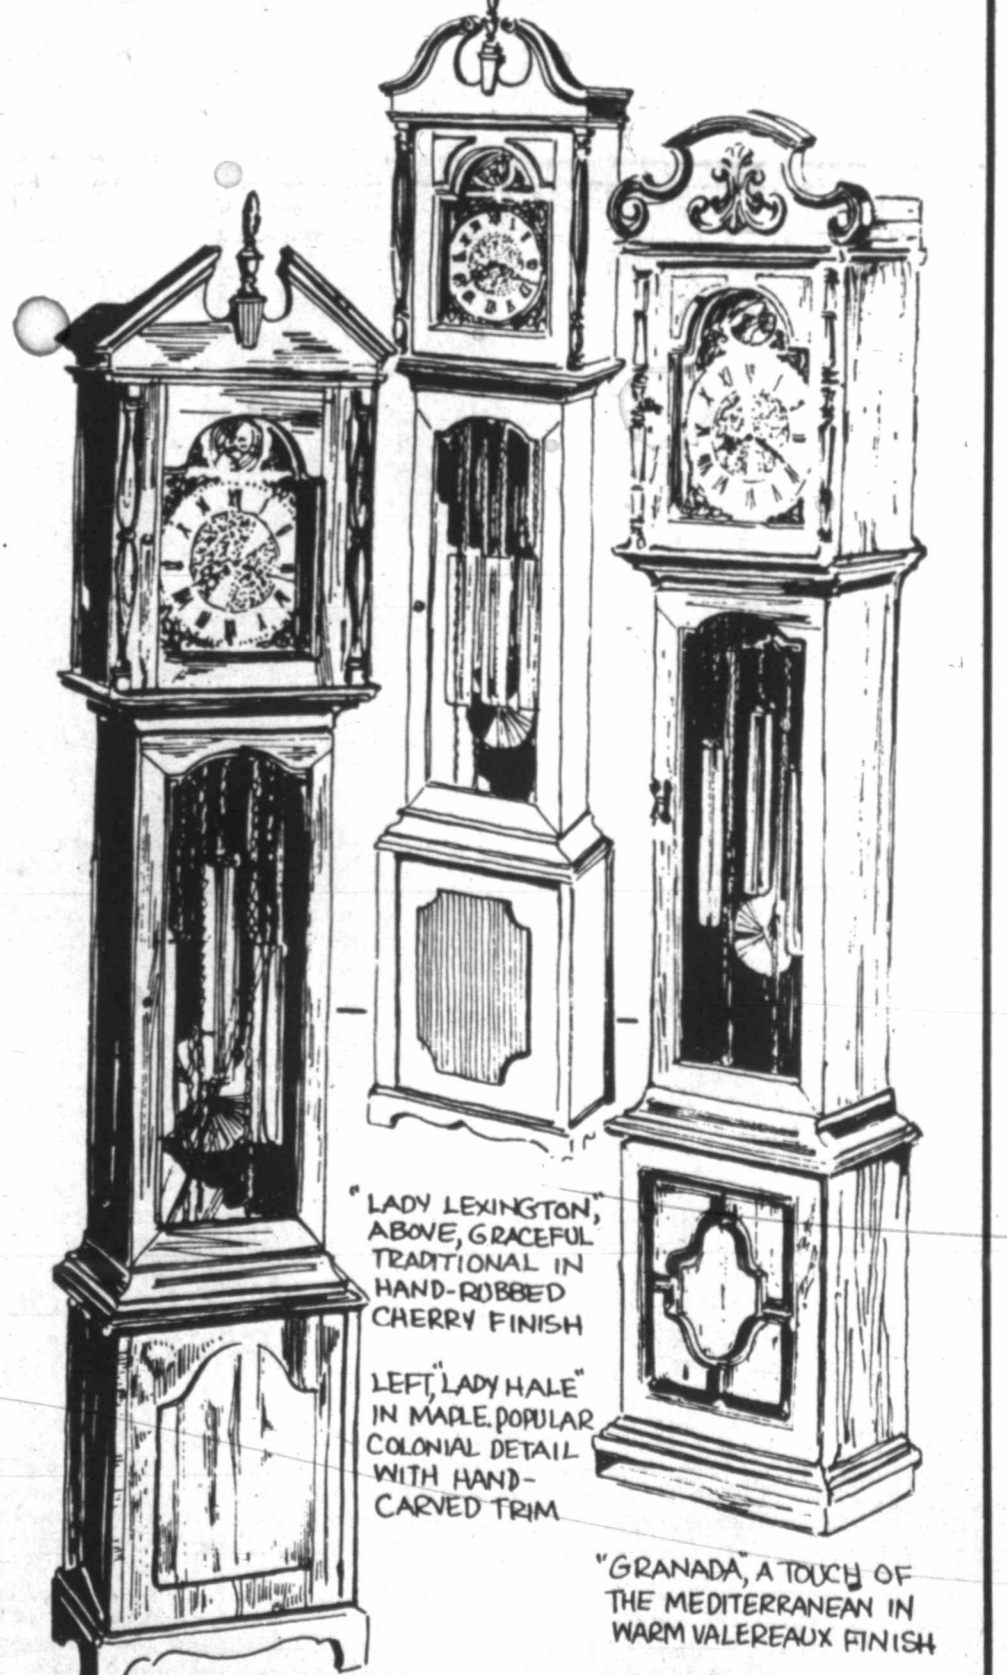

Features include the appearance of a former prisoner of war in Vietnam, a free barbecue lunch, and emphasis on a \$50,000 building fund offering.
Maj. Jerry A. Singleton, who was shot down over North Vietnam and spent more than eight years as a prisoner of war, will speak at 2 p.m. in Fellowship Hall.
He is now a student at Dallas Theological Seminary and expects to become an Air Force chaplain after graduation.
His wife, Bonnie, will address a 9:45 a.m. meeting of the Adult Ladies class in Fellowship Hall.
According to an

advertisement on page 8 of today's News final plans for a building to replace the one lost in a fire last December should be ready by Oct. 1, with groundbreaking due by the first Sunday in November.

The free barbecue lunch is to be served at noon in the Tex Evans building a block east of the church.
The pastor's message will be "A Changeless Christ for a Changing World."
Sunday services are scheduled for 8:30 a.m. and 11 a.m. Because of the "Roundup Sunday" program, there will be no evening services.
Children ages three years through sixth grade will receive a free gift in Sunday School and will have a chance to see the first major production of the puppet ministry.

# Your Horoscope

By Jeane Dixon

**SATURDAY, September 28**  
Your birthday today: A variety of contacts provides large-scale support for your enterprises this year. You receive all the help you need, in return for your services to others. The spiritual part of your life now requires as much attention as the material. Today's natives work hard, often have difficulty formulating objectives.

**Leo [July 23-Aug. 22]:** Take criticism in stride with the due notice of the caliber of the critic. Then get beyond its scope. Don't bot' er to react.

**Virgo [Aug. 23-Sept. 22]:** Let your money rest safely at interest, cut down on outlays. Inquiry into family matters clears up some mysteries, leads to new understandings.

**Aries [March 21-April 19]:** Take a complete change of scene—real or symbolic. A search for hidden values turns up unexpected benefits in areas you hadn't considered. Be alert!

**Libra [Sept. 23-Oct. 22]:** Be careful of all things mechanical, particularly where other people control them. Impatience is the troublesome factor. Show your deeper feelings in symbolic terms.

**Taurus [April 20-May 20]:** Plog positively for a shared future, but ask gently. An effort at humor can be embarrassing. Handle electrical equipment properly or not at all.

**Scorpio [Oct. 23-Nov. 21]:** Push individual ventures, trouble-shoot, make agreements where you can. Review your progress. Romance beckons quietly and subtly tonight.

**Gemini [May 21-June 20]:** Settle down, reconcile the many ways you have for seeing people and life. Present a simpler picture of yourself and what you want long enough to get it!

**Sagittarius [Nov. 22-Dec. 21]:** You can have almost anything reasonable for the asking. The catch is to be in the right place at the right time to see the right people.

**Cancer [June 21-July 22]:** People in distant places await your word; meanwhile, you're involved with complexities near at hand. Deliver what you've promised and get on with earning more.

**Capricorn [Dec. 22-Jan. 19]:** Friends wish to be helpful—have you given them clear channels in which to move on your behalf? Important people are obstinate, nothing is gained by pushing them.

**Aquarius [Jan. 20-Feb. 18]:** Finesse is essential if you want to maintain the level you've achieved so far. Local events pose a puzzle which you can't share with others.

**Pisces [Feb. 19-March 20]:** Test your opinions against better information, new ways of estimating probabilities. It's all too easy to disagree with familiars on anything.

## A Bountiful Fall Brunch

A brunch should be a gay, informal meal and easy on the hostess, too. For eye and appetite appeal, serve a mixed grill of sausages, bacon curls and ham slices with thin, crunchy, golden brown potato cakes. Frozen hash brown potatoes make these cakes easy to prepare. Oven baking simplifies the meat preparation. Elegantly different additions are a pair of piquant sauces to spoon over both meat and potato cakes.

### CRISP POTATO CAKES

- 1 lb. (carton) frozen hash brown potatoes, thawed and separated
- 1/4 cup grated onion
- 1/4 cup flour
- 1/4 cup dairy sour cream
- 3 eggs, slightly beaten
- 1/4 teaspoon salt
- 4 to 6 tablespoons lard for frying

Combine potatoes, onion, flour, sour cream, eggs and salt. Heat lard in large frying pan. Drop potato mixture (2 heaping tablespoons per cake) into hot fat. With spatula, flatten slightly to 3-inch circles. Fry until golden brown on both sides, 4 to 5 minutes. Drain on absorbent towels.

Yield: approximately 16 cakes.

### HORSERADISH WHIP

Combine 1 cup heavy cream (whipped), 1/4 cup well-drained prepared horseradish, 1 teaspoon sugar and 1 teaspoon prepared mustard. Blend thoroughly. Cover and chill.

Yield: 2 cups.

### BACON CURLS

Separate bacon slices and place on a rack in a pan (broiler pan may be used). Bake in a 400°F. oven for 10 to 12 minutes. Immediately twist slices around fork to make curls.

The earliest American circus act on record is said to be tight-rope walking, performed by an unknown artist in Philadelphia in 1724.

## Build it from a CRAFT PATTERN

### HANDY WINDOW GREENHOUSE

You can install this greenhouse without mutilating the window frame or sash because it is built to fit the opening and rests upon the sill. It will be heated and ventilated from the adjoining room by opening the sash.

Craft Pattern 325 shows a plywood side frame in full size. The height to be changed to fit your window. When you have cut and fastened together the frames, floor and top dowel stick, then checked the fit in opening, take the assembly to a glass shop and have class cut for the top, sides and front. Shelves may be of glass or wood.

Building the greenhouse is easy. Installing or removing it from the window is the work of minutes.

### PLASTIC COVERED GREENHOUSE

Now, with only a minimum of effort and expense, you can have that greenhouse you have always wanted. By using a tough, weatherable plastic instead of glass, you can avoid doing difficult glazing. Pattern 2342 shows how to build a "half" greenhouse on a side of a building like the one in the photograph. Also detailed is a typical greenhouse which may be used as a free-standing unit or around an entrance.

Construction material is light, and is braced with "waterproof plywood gussets." The plastic sheeting is stapled in place and held down with lattice strips.

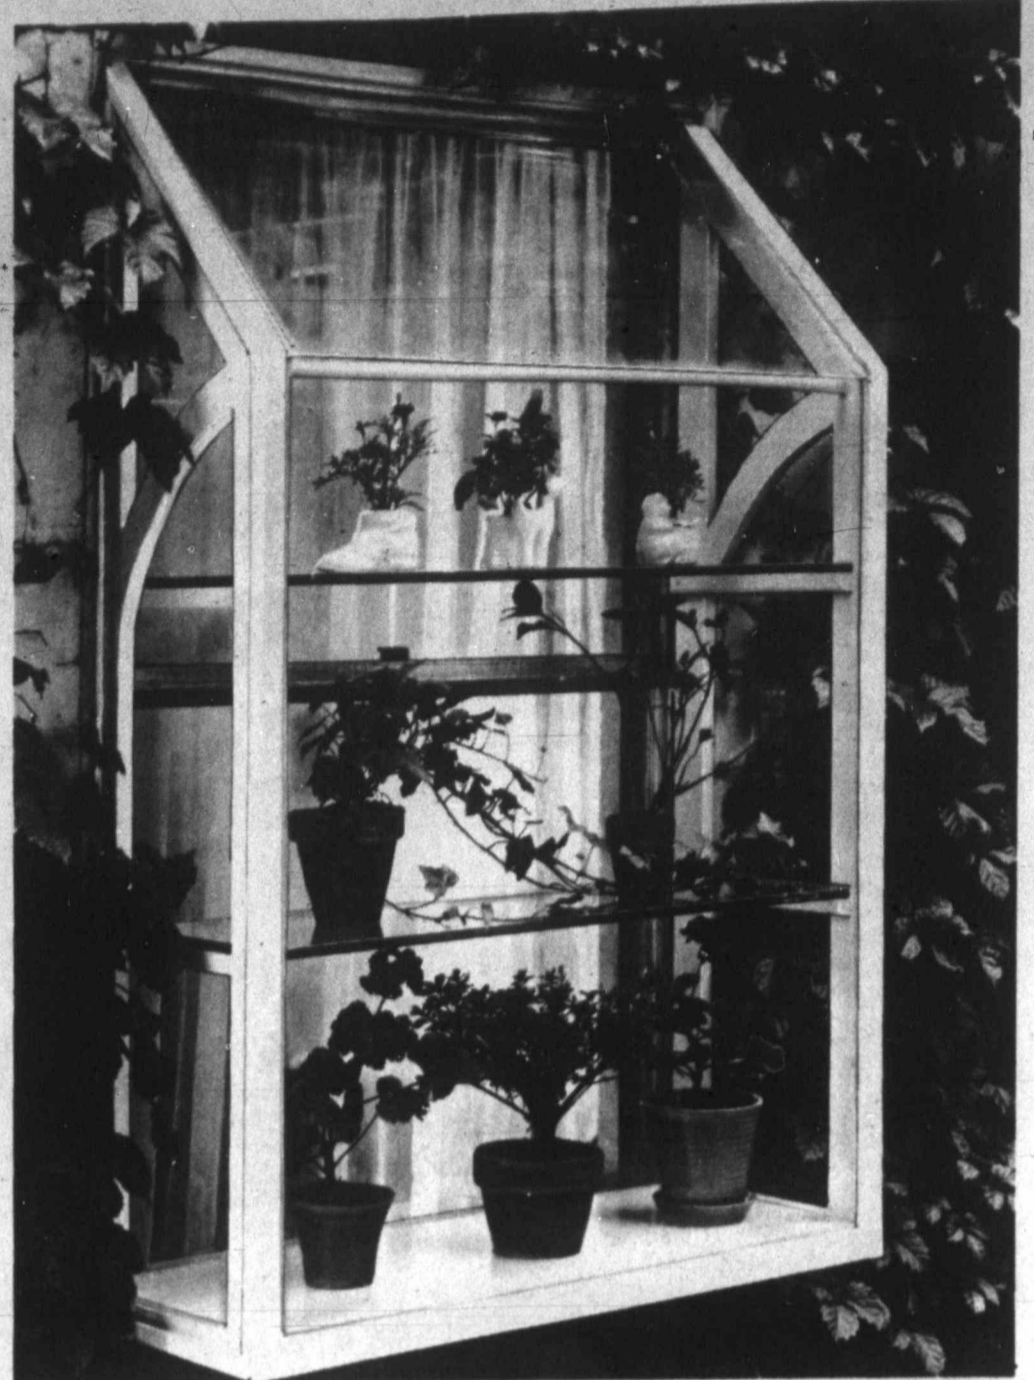

An ideal position for this greenhouse is one that is shaded from direct summer sun so the life of the plastic will be lengthened. Materials and details are given from different sized houses.

Send 80cents for Window Greenhouse 325 and \$1.00 for Plastic Covered Greenhouse 2342. They will be mailed to you promptly by first class mail.

Dear Abby

He eats the fruit of the pits she strings

By Abigail Van Buren  
© 1974 by The Chicago Tribune

DEAR ABBY: I am dating a very interesting widow. She is highly talented and artistic. We are both in our 60's. Last winter, she hit on the idea of drying olive pits, dyeing them exotic colors and stringing them together to wear around her neck. A neighbor drilled holes in them for her. She fed me olives by the pound just to get the pits. Then she got the bright idea to do the same thing with avocado seeds, and now I don't care if I ever see another avocado as long as I live.

What do you think of this idea?  
GENTLEMAN FRIEND

DEAR FRIEND: It's novel. But if she decides to make a necklace of prune pits—that's where I'd draw the line.

DEAR ABBY: I need your advice. My husband disappeared 18 years ago. I have tried to find him, but I can't. All I want is for him to sign some divorce papers so I can be free to marry again.

I went to a lawyer a few years back, and he said my husband would have to sign some papers before I can get a divorce, but I would like for someone to tell me how can I get a man to sign something if I can't find the man? He has completely vanished.

Time is running out. There must be some way out of this bind. It doesn't seem right that I must stay married to a man I haven't seen in 18 years and may never see again. Maybe he isn't even living.

Please, please help me.  
MARRIED WITH NO HUSBAND

DEAR MARRIED: You don't say which state you're living in. Laws differ in different states, and laws are constantly changing. See another lawyer. The law surely must provide for a way out of that bind.

DEAR ABBY: My boyfriend, Mike, walked me home from school the other day. I knew that my older brother was home because I saw his bike, but I invited Mike in, anyway. I know Mike well enough to have invited him into my bedroom. We were partially lying down on the bed—not all the way, and we weren't doing anything wrong. Unless you consider kissing wrong.

Well, my brother walked in on us and I know he thought we were doing something other than just that. I don't want my brother to think I'm a cheap tramp because I'm not, but how can I convince him? And if he tells my parents, what should I tell them?

I've never gone all the way with a boy, and I don't plan to until I'm married.  
How can I convince my brother that we weren't doing anything wrong? I am 15.  
INNOCENT

DEAR INNOCENT: If you walked into your brother's bedroom and found him and his girlfriend on his bed kissing, what would you think? The Bible tells us to avoid the appearance of evil. That's good advice. Keep your boyfriend out of your bedroom and if you're questioned by your parents—tell the truth and hope they buy it.

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69700, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please. For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212.

FRANKFURTERS MAKE THE SCENE as super snack for hungry swingin' teens when given the Reuben treatment.

Next time the "twixt-twelve-and-twenty" gang congregates in your home, satisfy their zealous appetites with this hearty sandwich. Simply take frankfurters and give them the Reuben treatment. Although frankfurters take the spotlight in this jazzed up sandwich, the sauerkraut and Swiss cheese, typical of the original Reuben, are included.

The Swingin' Reuben is sensational at any scene, since it appeals to adult as well as teen appetites. The sandwiches rate points with the hostess too as they can be easily assembled and quickly broiled when all ingredients are in readiness in the refrigerator, says Reba Staggs, National Live Stock & Meat Board.

Swingin' Reuben

Cut 1 pound (8 to 10) frankfurters in half lengthwise, being sure not to cut all the way through. Thoroughly drain 1 can (16 ounces) sauerkraut and combine with 1/2 cup chili sauce. Split 8 to 10 frankfurter buns, place about 2 tablespoons of kraut mixture on the bottom half of each bun and place on baking sheet. Cut each of 4 slices Swiss cheese into 4 to 5 strips and place 2 strips on top of kraut mixture on each bun. Place one opened frankfurter, cut side down, on top half of each bun and place on baking sheet. Broil 3 inches from heat for 5 minutes. 4 to 5 servings (2 sandwiches per serving).

PIRATE RUSH PARTY — Joyce Barrett, left, and Linda Mtergut, both Rho Eta chapter members of Beta Sigma Phi, are showing a treasure chest used recently in the Pirate Motif for the first fall rush party. Treasure Island.

(Photo By Jim Williams)

The Women's View

By GAY PAULEY  
UPI Women's Editor  
NEW YORK (UPI) —

When Muriel Siebert became the first woman to purchase a seat on the New York Stock Exchange, she forked over \$445,000 for the trading privileges it offered.

That was December 28, 1967. In 1968, by her own account, she earned \$1.2 million in sales commissions. In 1969, commissions were up to \$1.5 million.

Then the stock market began its steady glide down and further down, except for brief rallies.

Today Muriel Siebert still has the exchange seat, is the only woman holder, but now she could buy one for \$65,000 to \$75,000. As for commissions, she said in an interview a guess of a 50 per cent drop "won't even touch" what's happened to her firm which handles blocks of stocks in the hundreds of thousands and millions of dollars.

She built her broker staff to eight counting herself. About two years ago, she cut staff in half "because I wanted to keep the business small anyway."

"We're still in the black," said Miss Siebert (pronounced see-ber-t), "but I feel like someone took my lollipop."

"I still take my clients to lunch. I still have the apartment on Sutton Place (an elegant residential area in mid-Manhattan). I still drive my Mercedes."

"But when I go to Paris on business I don't stay at the Plaza Athenee. For \$105 a

night, who needs it? My humility has increased considerably this year."

Miss Siebert speaks with candor so far as her business is concerned. But what about the plight of other women, with less sensational earnings, when brokerage houses are trading fewer stocks, prices on some of them are at all-time lows, and as a result commissions are way off too?

I talked with various sources at the exchange, individual brokerage houses large and small, and with women brokers.

The consensus is that there are fewer women brokers in what always has been a masculine world anyway. Their numbers dwindle as exchange members merge, consolidate or fold. And the young business types, in their 20s, seek other careers.

This attrition is happening to both sexes, said a spokesman for Merrill Lynch Pierce Fenner & Smith, the world's largest brokerage house with offices in 280 cities.

I found no case of women brokers moonlighting for extra income, as some men are. "I haven't heard of any destitute cases," said Myrna Liebowitz, of Herzfeld & Stern, and president of the Women's Stockbrokers Association, which has a membership of 60 to 70.

Miss Liebowitz, a registered broker since 1964, said the experienced women can hang in there if they

Pirate Motif  
For Rho Eta  
Rush Party

Beta Sigma Phi of several chapters are beginning their Fall rush this month. Rho Eta chapter is participating in the rush season and members held their first party Sept. 19.

The social committee used a Pirate theme and the decorations included Treasure Island with Captain Hook watching over a graveyard of tombstones of notorious villains; and treasure chests filled with booty.

After members and guests were acquainted, teams were formed and sent on an unusual scavenger hunt. Prizes were awarded to the teams whose collections ended with the largest and best items.

Refreshments were served from a table decorated with shells, coins, and a chest of jewels.

Guests were Carolyn Maxey, Hedy Clark, Connie Holland, Kathy Davis, Debbie Callson, Nancy Stowers, Marilyn Mitchell, Kim Dexter, Pam Crockett, and Holly Bailey.

Special guests were Mrs. Louise Sewell, Beta Sigma Phi Woman of the Year and Mrs. Georgia Mack, Phi Eta's honorary member.

The Pampa Civic Ballet is a non-profit corporation.

African Violet Club  
Tours Hawaii Via Film

The Pampa African Violet Society met recently in the home of Mrs. J.E. Carlson for the first meeting since disbanding for the summer in June. The meeting was called to order by the President, Mrs. Lee Moore.

A prayer, "My Humble Prayer" was read by the hostess. A short business meeting was held. The nominating committee to select a new slate of officers was appointed with Mrs. Norman Walberg, chairman, assisted by Mrs. Evan Jones and Mrs. Charles Glison.

The program was presented by Mrs. Ruth Sewell, who showed slides of her trip to Hawaii and gave a review about the Islands.

The Meeting adjourned with delicious refreshments being served by the hostess during the social hour.

Members present were

Mmes: Norman Walberg, Dan Glaxner, J.E. Carlson, V.M. Osborn, C.E. Boswell, Lee Moore, Holly Gray, Evan Jones, Charles Glison and three guests Mmes. Ruth Sewell, Mercedes Robinson and Thama Cobb. The October meeting will be in the home of Mrs. V.N. Osborn.

LIFE DRAB

In spite of the high standard of living in the United States, some people find life drab, discouraging, materialistic and devoid of job satisfaction. To overcome these feelings, we must create our own inner world where we can truly live during our leisure hours. Nelson Barksdale, recreation specialist with the Texas Agricultural Extension Service. The Texas A&M University System, advises.

Early Wilds has a mule named Red. He uses him to plow vegetable gardens in Hartsville, S.C. The trouble is, Hartsville city hall has an ordinance that says mules are illegal inside the city limits.

#### H. L. Hunt Writes

LAW ENFORCEMENT Major crime in the United States increased by six percent in 1973, corrected statistics of the Federal Bureau of Investigation showed.

A federal police state is a dangerous thing. We simply must not let that come to pass. On the other hand there is the danger of the criminal element taking over. This cannot be tolerated by the Republic either.

More intrigue The highly controversial Gary mayor had not run as a delegate — possibly because of doubts of being elected.

With Hatcher thoroughly debunked, Alperstein stridently rushed to his defense.

The stratagem got nowhere. National chairman Robert Strauss ruled it out of order for several reasons: Hatcher had not met the requirements for filing a complaint; the deadline for doing that had elapsed; and Rule 9 of the last convention empowering the national chairman to act on such matters.

Also cited by Trisler was that Hatcher was a member of the state convention which adopted the election rules, as well as a member of the "affirmative action" committee.

I predict and guarantee to you that if President Nixon and Sen. George McGovern ran again today, the result would not be measurably different.

Wall Brothers, from Sioux City

### 1st Assembly Features Singers

According to an announcement by the pastor, R.L. Courtney, a special service of singing and preaching is scheduled at the First Assembly of God Church featuring the widely traveled "Wall Brothers" of Sioux City, Iowa.

This service will feature a time of congregational singing, which is always a highlight in the activities at First Assembly, followed by the ministry of the "Wall Brothers".

These young men come to Pampa having ministered in

gospel concerts and in revival campaigns throughout the United States, and they carry a desire to be a means of spiritual enrichment to those who hear them.

The public is invited to be present and share in a time of Christian fellowship as the guests minister in singing and preaching.

First Assembly is located at 500 South Cuyler and the service will be a 6:30 p.m. Sunday, Sept. 29th.

If further information is desired, call the Church at 665-5941 or 665-4511.

### Status Of Women Professionals In Church Hierarchy Is Studied

NEW YORK (UPI) — Women rarely are represented among the clergy and theologians.

A consortium of theological schools in the San Francisco area is working to assist the movement of women into these professions and to raise the status of women within the church.

The Ford Foundation in New York recently granted \$75,000 to the group, the Graduate Theological Union (GTU), which offers the M.A., Ph.D. and Th.D. in theological studies to members of all faiths.

The Foundation also granted \$91,500 to the NOW (National Organization for Women) Legal Defense and Education Fund to help establish an office in Washington, D.C. to monitor the implementation of Title IX of the Education Act Amendment. This prohibits

sex discrimination in public education.

The amendment was passed in 1972 but enforcement guidelines from the Department of Health, Education and Welfare were not released until this May.

With the way cleared to deal with sex discrimination involving both teachers and students the fund's new office will review federal agency procedures for handling individual cases. It will also publish a monthly newsletter for citizen groups.

GTU will use its grant to invite visiting scholars to offer courses and conduct research on the role of women in theology, liturgy, religious studies and the organized church.

The fund will also support an Office of Women's Affairs which through publications, conferences, and seminars seeks to raise the status of professional and lay churchwomen, serve the needs of women seminarians, and create a national information network of women theologians.

### Mission Program Scheduled Sunday

The New Hope Baptist Church is having a fifth Sunday Mission program Sunday at 7 p.m.

The devotion will be conducted by members of the Willing Workers and Wilson circles.

Mrs. Helen Stone of the Young Matrons will read the scripture from the 27th chapter of Acts.

The highlight of the program will be a book review given by Mrs. Leslie Morgan of St. Marks C.M.E. Methodist Church.

The book title is "Faith, Hope and Future Shock," by Cynthia Weidmaker.

Following the program, refreshments will be served by the entertainment committee consisting of Mmes. J. Williams; N. Thomas; B. Wilson; B. Chambers; A. Coleman, and L. McNeil.

### Sermon Title Is 'Joy Of Grace'

Dr. Bobby L. Stalcup, interim pastor of the First Presbyterian Church, 525 North Gray, has chosen "The Joy of Grace" as his sermon title this Sunday at the 10:45 a.m. worship hour.

Scripture readings from the Old Testament will be from Exodus and the New Testament readings will be from 1 Timothy and the Book of Luke. Ruling Elder Carl Brugger will assist Dr. Stalcup in the pulpit this Sunday.

Mrs. Doris Goad, church organist will present organ prelude, postlude as well as a offertory selections.

This Sunday afternoon at 4 p.m., Christian Education Committee meets in the West Room.

This Wednesday evening at 7 p.m., the Elders of the Church will meet for their regular monthly meeting in the West Room.

They will at this time examine the young people of the Church who have been taking instructions in a communicant class. They will present themselves for church membership during the worship service on Oct. 6, 1974.

Sunday School for all ages begins at 9:30 a.m. The public is cordially invited to attend Sunday School and worship services.

### Despite All ... Bishop Keeps His 'Cool'

DALLAS — A Methodist bishop who has been called a communist, an anarchist, a renegade, a revolutionary and a criminal for his efforts to keep communication lines open between militant Indians at Wounded Knee, S.D., and the Justice Department, said here Tuesday, that he still believes in the ultimate triumph of good over evil.

Bishop James Armstrong, bishop of the Dakotas Area of the United Methodist Church, spoke at a worship service of the biennial assembly of the Christian Church (Disciples of Christ) in Texas at East Dallas Christian Church.

At an earlier business session, delegates passed a resolution approving the principle of collective bargaining for farm workers but referred back to committee for editorial revision a new constitution and by-laws that would create a new region — the Christian Church (Disciples of Christ) in the Southwest — from a merger of the Christian Church in Texas and the Christian Church in New Mexico.

This business was scheduled for vote again Wednesday.

Bishop Armstrong represented the National Council of Churches during the 71-day siege of Wounded Knee in 1973, working with other representatives at a two-fold ministry — keeping communication lines open and ensuring continued supplies of food, fuel and medical needs to the people of the reservation.

Despite today's headlines of drought, war, crime, hunger, political scandal, etc., the bishop told the assembly, "We need to believe in and demonstrate confidence in the future."

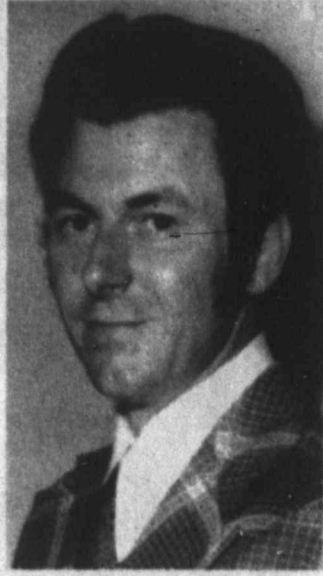

"I believe that the best is yet to come," he said, "because I believe in God."

He stated his belief in the future of the planet, the country and the church.

good tree bringeth forth good fruit; but a corrupt tree bringeth forth evil fruit. A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit. Every tree that bringeth not forth good fruit is hewn down, and cast into the fire." Especially notice this last verse: "Wherefore by their fruits ye shall know them."

Also in Matthew the six chapter and the twenty fourth verse, Jesus tells us: "No man can serve two masters: for either he will hate the one, and love the other; or else he will hold to the one, and despise the other. Ye cannot serve God and mammon."

We find in Galatians 5:19-23 the difference between evil fruit and good fruit. "Now the works of the flesh are manifest, which are these: Adultery, fornication, uncleanness, lasciviousness, idolatry, witchcraft, hatred, variance, emulations, wrath, strife, seditions, heresies, Envyings, murders, drunkenness, revellings, and such like: of the which I tell you before, as I have also told you in time past, that they which do such things shall not inherit the kingdom of God. Now look at the good fruit: "But the fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, Meekness, temperance: against such there is no law."

Does your everyday life bare evil or good fruits? Judgement day will surely come. Will Christ be able to say to you, Enter in thy good and faithful servant or depart from me I never knew you?

### 'Good News' Clubs Meet

Children from four through 14 years of age are invited to attend weekly meetings of Pampa's "Good News Clubs" held five days a week in the homes of the teachers.

The groups meet for one-hour sessions of Bible stories, singing, and memorizing of Scripture.

The clubs are affiliated with Child Evangelism Fellowship, which is interdenominational and international in scope, extending to all 50 states, Canada, and 60 foreign countries.

Parents are welcome to visit the clubs at any time.

Following are locations and times of the various clubs:

### Nazarene Churches Hold Area Meeting

Pastors and their wives from this community are scheduled to participate in the annual preachers' conference of the West Texas District, Sept. 30 to Oct. 2. The conference will be held at Camp Arrowhead, Star Route, Glen Rose, Texas.

Most of the 97 Nazarene churches in the district will be represented, says District Superintendent Dr. Lyle Eckley of Lubbock.

Guest speakers will be Dr. and Mrs. G.B. Williamson.

The conference will combine the spiritual values of a retreat with necessary organizational planning.

## Florida Lawyer Indicted For Having Stolen Ring

NEW YORK (UPI) — A Florida criminal lawyer has been indicted on charges of transporting across state lines a \$75,000 diamond ring which was stolen from Neiman-Marcus' store in Dallas.

A federal grand jury filed a one-count indictment Thursday against Frank Clark, III, 56, of Sarasota, Fla., and West Dover, VI., alleging he knew the diamond was stolen when he brought it to New York from Vermont last January for appraisal.

The 8.04-carat diamond, mounted on a platinum ring, was shown to Stanley Doppelt, a New York diamond dealer, who recognized it as one he

originally cut. Doppelt notified the FBI whose investigation led to the indictment.

The diamond had been on display at a Neiman-Marcus store in downtown Dallas before it was stolen in July, 1972. It was recovered from a safe deposit box at the Bankers Trust Co. office in Rockefeller Plaza.

Clark is a graduate of Florida University Law School and was admitted to the Florida bar in 1959. He practiced for several years in Cocoa Beach and still practices, but on a reduced basis.

Clark told FBI agents he had purchased the ring in May or June, 1972, in Cocoa Beach from William R. Turner, a real estate dealer and gambler. He said he paid \$15,000 in cash and was forgiven two debts owed Turner amounting to \$5,000.

Clark said Turner died in Oct., 1972. He added that he never saw any documents showing title to the ring.

He said he believed Turner had won the ring gambling, but he never asked him where he got it.

If convicted in Manhattan Federal Court, Clark could receive a 10 year jail sentence and a \$10,000 fine.

## Heath Claims Wilson's Labor Cabinet Is Split

LONDON (UPI) — Conservative party leader Edward Heath, campaigning for a political comeback in next month's national election, moved in today to exploit a growing rift in the governing Labor party.

Heath said Prime Minister Harold Wilson's Labor cabinet has been badly split over Britain's membership in the European Common Market.

The Labor party obviously is bitterly divided over one of the major issues of our national life," he said. "The myth of Labor unity has been blown wide open."

Wilson has ordered a general election Oct. 10, seeking a new five-year mandate to deal with Britain's inflation-fueled economic crisis and speed up nationalization of private industry.

Wilson's Labor party suffered a sharp jolt this week when two senior cabinet members — Prices Secretary Shirley Williams and Home Secretary Roy Jenkins — vowed to quit if Britain leaves the Common Market.

Jenkins and Mrs. Williams are two of the most prominent members of a right-wing Labor minority demanding Britain stay in the market. Britain became a member in January, 1972.

The Labor party's left wing, including several other members of the Wilson government, want to pull Britain out of the economic alliance.

Wilson has taken a middle line in the dispute, seeking to maintain party unity by promising to let the British people decide the issue in a "final and binding" referendum.

### DWI Sentences

In Gray County Court action Wednesday, two persons pleaded nolo contendere to charges of driving while intoxicated.

They were Jams F. Warrick of Wheeler, and H.W. Malonge, 2619 Navajo, Pampa.

Each was assessed a \$200 fine, plus 30 days in jail and six months probation.

## HERO Chapter Taking Interest In School, City

The HERO Chapter at Pampa High School is an active bunch of students who apparently take a lively interest in their school and their town.

At least that's the impression gained from a recent news release sent to this newspaper.

Those initials, by the way, stand for Home Economics Related Occupations.

And just in case you thought the kids in that group would confine themselves to cooking and sewing and whatever else they teach in Home Ec. well, you'd be wrong.

How's this for a wide-angle view of a teenager's world?

(Quoting from the news release)

"We are interested in the happenings of the future. We are concerned about the elderly people of this town who don't have any family or anyone to take care of them."

"We care about the children who have no home or food, no friends and love."

"We are especially concerned about the school spirit. As most of you know, Pampa has won all of their games so far, and we plan to win them all."

NO BUMPER CROP NOW — Mrs. Harold Peback of Deerfield, Wis., inspects the leaves of corn that was heavily damaged by a recent frost. Mrs. Peback was prepared for a bumper crop but now feels that there will be a 60 percent loss of her 170 acres of corn. The early frost jolted

portions of the nation's midsection and caused heavy damages to various crops, including corn and soybeans. Agriculture spokesmen estimate that 10 to 20 percent of those crops were lost to the frost.

## U.S. Agents In Canada?

OTTAWA (UPI) — There's no doubt that U.S. intelligence agents have operated occasionally in Canada with the knowledge and consent of the Canadian government, according to Justice Minister Otto Lang.

Lang was questioned about a published report which said courtheld documents sought by two Mounties who have been dismissed showed that U.S. intelligence agents were operating clandestinely in Montreal.

Gilles Brunet and Don Mcleery claimed they were dismissed from the Royal Canadian Mounted Police last December without reason and they were suing the federal police force to show cause.

The two former RCMP

officers withdrew an appeal of their dismissal in the Federal Court of Canada after reading the RCMP documents filed with the court to justify the firings.

The Toronto Star said in a copyright story the RCMP has grave fears it has been infiltrated and perhaps used by organized crime.

The newspaper said also the documents would show that at least two officers of the U.S. military intelligence were in Canada for several months, conducting clandestine operations with at least the tacit approval of the RCMP.

The oldest flying horse carousel in America is on display at Watch Hill in Westerly, R.I. It was used prior to 1870.

Every Man's Sunday School Class will hear Major Singleton at 9:45 a.m. in the City Hall Club Room.

## \$50,000 Building Fund Offering

FINANCES- The day of our new building becoming a reality is growing closer. By the first of October the final plans should be in the hands of the contractors. All bids should be in by the end of October. I hope we can break ground by the first Sunday in November. We will be paying out a lot of money this coming month. A little over \$7,000.00 on the organ, \$10,000.00 on the air-conditioning on the fellowship hall, and about \$60,000.00 to the architect. If we can give \$50,000.00 this Sunday we can leave our Certificates of Deposit and Treasury Bills drawing interest. If there is any time during the year to make a generous contribution to the building fund it is this coming Sunday.

A Difficult Test For Gonorrhea

By G.C. THOSTESON, M.D.  
Dear Dr. Thosteson: As part of prenatal care, if a blood test for syphilis is automatically taken, is the test for gonorrhea also given as a precaution? If a Pap smear is taken, wouldn't the results show any infection, not only cancer? — L.H.  
A blood test for gonorrhea has been developed, and we have long needed such a test, but technical difficulties made devising such a test a frustrating problem. I don't like to generalize, but would strongly suspect that the gonorrhea test is not yet routinely used in some hospitals yes, in others probably not.  
With gonorrhea, unlike syphilis, the principal danger to the baby is infection in the eyes, and the universal use of silver nitrate treatment takes care of that danger. (Without the treatment, that infection can cause blindness.)  
However there is no question but that we should use every effort to discover gonorrhea among mothers-to-be for the sake of the mothers. And we are learning that gonorrhea

infection can exist in many women (and some men) without being recognized unless a specific test (a culture) is made for it.  
Now for your question about the Pap test, the test is primarily designed to detect early cancer. The test may show distorted cells that indicate infections.  
But the gonorrhea germ is a tricky one; when a smear test is taken for that, special precautions have to be observed to prevent air from destroying the germ and upsetting the accuracy of the test.  
So no, you can't depend on a Pap smear to detect gonorrhea.  
We're making some progress, but I doubt that the ultimate ideal test for gonorrhea has yet come on the horizon.  
Dear Dr. Thosteson: Can you explain mucosa of the mouth? Is it serious and what can be done? Can it become cancerous? — Miss E.N.  
I think you missed the context in which you heard the word used, or possibly missed some word along with "mucosa."  
Mucosa, you see, is simply the technical term meaning the mucous surface or lining of mouth, nose, stomach, intestine, or genital tract.  
"Having mucosa" is utterly normal. But if, for example, a doctor remarked that he noted "abnormal mucosa," that would mean something else, such as to cause it.  
In the mouth, smoking is the big cause. Leukoplakia, or whitish patches, can appear in mouth or on tongue, and are even known as "smoker's patches," although other irritations can cause them. These patches may be forerunners of cancer, so they should be watched and removed if they begin to show suspicious signs.

How does VD start? Why are teenagers among its most frequent victims? Will it cure itself? Dr. Thosteson gives all the answers in his invaluable, layman's language booklet, "Venereal Disease: How to Avoid It; How to Cure It." For a copy write Dr. George C. Thosteson at Box 1400, Elgin, Illinois 60120 enclosing a long self-addressed, stamped envelope and 10 cents. Copyright 1974 Field Enterprises, Inc.

IT HAPPENED LAST NIGHT

Singers Are Back In Control

By EARL WILSON  
NEW YORK — The singers are back in control of the world, and in some ways it's a damned shame, because why should they be more important than talkers?  
Although I'm the father of a singer, I could never understand why a guy with rocks in his mouth should be more respected than guys beating typewriters. Then along comes Peggy Lee in her diaphanous gown. Fifty pounds lighter.  
She winningly seduces everybody at the Waldorf Empire Room except some slob behind me who keeps saying unkind things. Everybody around this moron was so tolerant of his bad manners that they just kept quiet until he left trailing his check behind him.  
The magic of Peggy Lee (Norma Doris Engstrom) 54, of Jamestown, N.D., is hard to explain. She was eventually discovered lying in her bed with her feet up, between shows, in her suite in which there were about 50 intimate friends. She was mostly occupied talking to my Beautiful Wife about one of the B.W.'s favorite songs which is "Is That All There Is?"  
The B.W.'s favorite part of her favorite song is, "Then let's bring out the booze."  
Peggy's talent is the greatest in the worst popular song world, "she believes the words of the songs, as Sinatra does," they say. Steve Allen and wife Jayne Meadows were among those screaming for her, and so were Jimmy Nederlander of Detroit and Phoenix (owner of the Palace and Uris Theaters) and his wife, who were moved to say:  
"But she's such a great actress. She's such a performer."  
The moral of this piece is a bitter one. Learn to sing, not type.  
Scoops, my dear: "Oh Calcutta" producer Hilliard Elkins and Claire Bloom, surprise marquee of the dizzy decade of the late '60s, are reported drifting apart... Van Johnson's one of the replacements likely for John Payne in Alice Faye's "Good News" he won't be in the show in NY... Carol Channing's expected to leave "Lorelei" in November for a big Las Vegas appearance but will then take the show to London... Rodney Dangerfield's expecting to open a club in Vegas and turn his NY club over to deputies... William B. Williams, Hazel Scott, Janice Harper and the Luv Machine starred at the New Horizons Rehabilitation Center show at the Americana the other night...

Under Twenty

By DOUGLAS J.W. HILL (Director, Dura-Lite Home Lighting Institute)  
One way to get more out of the homework ahead this year is to do some homework right now in preparing the best environment for reading, studying and writing.  
Because one of the basics of a comfortable and efficient work setting is proper lighting, psychologists and lighting experts have done careful studies on the topic. Their recommendations:  
— Use a light bulb of 150 watts, shaded with a light-colored lampshade. Save electricity by using the krypton-filled Watt-Saver light bulb that uses 8 percent less energy to provide the same brightness as other bulbs.  
The 138-watt size replaces the 150-watt conventional bulb. Add a diffusing bowl or disc at the bottom of the shade to spread out the light. Keep the bulb out of your direct line of vision.  
— Locate the reading lamp 15 inches to the left of the work surface, 12 inches back from the front edge of the desk top. (If you're left-handed, place the lamp on your right.)  
— Locate the main study light with supplementary lights in other locations throughout the room. They'll help eliminate harsh, distracting contrasts on the page and reduce eye fatigue.  
— If you choose a fluorescent lamp, the tube should be 15 to 18 inches above the desk top. In research conducted at Cornell University's Center of Improvement of Undergraduate Education, a new fluorescent bulb which simulates natural sunlight — Vita-Lite — was found to stimulate students and reduce the fatigue that results from mental activity.  
Work in an area decorated in light-reflecting pale colors on walls, drapes, or furnishings.  
When you've gotten your homework area properly lit for top efficiency don't forget about the high cost of energy and the energy crisis. When you've finished work be sure to turn off your lights.

# It Sims To Me...

By PAUL SIMS

**MIKE ROBBINS**, a sophomore from Pampa, was named Panhandle State Offensive Player of the Week for his outstanding play from the fullback position last Saturday against McMurray.

Robbins blocked exceptionally well besides catching three passes for 23 yards and rushing seven times for 22 more. He will be co-captain with **FRED GRONA** this Saturday evening when the AGGIES host Southwestern Oklahoma State University.

Grona, a 6-6 200-pound defensive end, was named Defensive Player of the Week. Each week the Aggie coaches choose players who did well the week before to act as captains. At the end of the year, the players will vote for permanent captains for next season. These captains are selected from players who have been captains of the week. **STEVE MATHIS**, a freshman running back from Pampa, is a member of Southwestern's squad, but won't be making the trip to Goodwell, Okla., when the team meets the Aggies. Mathis is presently the number three wingback.

But head coach **OTIS DELAPORTE** has high hopes for the Pampa freshman. "He's been doing good for a freshman. He's had a little trouble adjusting. But he's going to make a good football player."

Southwestern walloped Sam Houston State, 37-14, last week.

In the only Missouri Valley conference game Saturday, the West Texas State **BUFFALOES** meet the Wichita State **SHOCKERS** at 7:30 p.m. in Frank Kimbrough Memorial Stadium. The Buffs will be without injured halfback **RICK SCHLEIDER**, who is the team's leading rusher. Maybe coach **GENE MAYFIELD** will start Pampa sophomore **GARVIN MCCARRELL**, a fullback who has been working out some at halfback.

Wichita State assistant **TOM ABBOTT** said after last week's 41-0 West Texas loss to New Mexico State. "They (the Buffs) run an explosive offense that can score quickly from anywhere. NMS never let them get started and when a Wishbone team gets behind it is very difficult to come back."

**BOBBY OWEN**, junior defensive back from Pampa, intercepted a pass last week as his North Texas State **EAGLES** lost to Tulsa, 31-6. North Texas will host Lamar at 7:30 p.m. Saturday.

Tulsa and Arkansas play in Fayetteville Saturday.

Tulsa and Arkansas play in Fayetteville Saturday afternoon, only the second game of the season in which an MVC school takes on a member of the Southwest Conference. The other is SMU-North Texas, which the Eagles lost 7-6, two weeks ago.

Three injuries may hamper the **RAZORBACKS** Saturday. Split end **REGGIE CRAIG** and noseguard **WAYMAN HAWKINS** have a sprained knee and back respectively. The third injury is ironic - head trainer **DEAN WEBER** has a pulled thigh muscle, but won't miss the game. "You've got to learn to play with pain," said the tough Weber.

Arkansas coach **FRANK BROYLES**, after losing to Oklahoma State, commented, "Losing hurts. Each year it seems to get a little harder. It's almost like physical pain."

Pampa coach **JOHN WELBORN** hasn't had to feel that pain yet as Pampa won its first three games.

Bad news for Palo Duro fans - your team is no longer ranked first in the district by the Harris Rating System. Good news for Pampa fans - your team is now number one in not only this district, but in the entire Panhandle south to Lubbock. The **HARVESTERS** are rated 46th in the state and that's out of 240 AAAA teams. Palo Duro is ranked 53rd. Other district teams are: Tascosa, 105; Amarillo, 130; Caprock, 119; and Borger, 196.

Harvester linebacker **FRANKIE LEMONS** was released from the hospital Wednesday after a successful operation on his knee. Lemons will be out for the year. His replacement will be either **COY FREE** or **MARK BAIRD**.

Split end **HOWIE LEWIS** and right halfback **TIM THORNBURG** were honored as Harvesters of the Week Thursday at the Pampa Noon Lions Club. Lewis was recognized for his outstanding performance against Hereford in the opener when he caught two touchdowns passes while Thornburg received the honor for the Dumas game.

Howie did not catch a pass against Perryton last week, but turned in one of the game's finest plays - an inside kick recovered by Pampa on the opening kickoff. The short kick fooled everybody in Ranger Stadium. Probably even Lewis.

## 8th-Grades Don't Score

Neither Pampa Junior High team had any luck scoring Thursday afternoon as the eighth-grade Red lost to Borger, 28-0 in Borger and the host eighth-grade Blue tied Perryton, 0-0.

"We just didn't play. Borger just shut us out," said Red coach Dickie Crockett.

The ninth-grade B-team travels to Borger for a 10

a.m. game Saturday. Next Thursday, the ninth-grade A-team hosts Borger at 4 p.m. Also Thursday, the eighth-grade Red travels to Perryton.

## Spurs Tip Spirits

**EDINBURG, Tex. (UPI)** - Guard James Silas poured in 23 points and George Gervin hit 16, all in the second half. Thursday night led the San Antonio Spurs to a 116-105 ABA exhibition basketball victory over the St. Louis Spirits.

St. Louis jumped to a 28-22 lead at the quarter and the Spurs tied it at 48 at the half.

# From Today's Wire...

United Press International

It took the Pittsburgh Pirates exactly four batters Thursday night to bury the memory of the night before.

The Pirates, who suffered an exasperating 13-12 loss to the St. Louis Cardinals in 11 innings Wednesday night to fall out of first place in the National League East, regained a share of the lead Thursday night when they routed the New York Mets 11-5 behind a lusty 14-hit attack that featured a pair of two-run homers by Al Oliver and a three-run shot by Willie Stargell.

The Pirates and Cardinals each have identical records of 83-73 with six games left to play.

In the only other NL games, Los Angeles reduced its "magic number" for clinching the NL West title to two by beating San Diego 5-2 in 10 innings and Cincinnati defeated Houston 10-6.

In American League action, Oakland clinched a tie for the West Division title by beating Minnesota 2-1. Chicago took a pair from Texas 5-1 and 7-2. Kansas City whipped California 10-1 and Boston nipped Detroit 5-3 in 10 innings.

**HOUSTON (UPI)** - The Houston Aeros scored three goals in the final period capped by rookie Don Larway's second of the night with 6:29 to play Thursday night sparking the World Hockey Association champions to an upset 5-4 win over the NHL St. Louis Blues in the first between rival league teams.

**PORTLAND, Ore. (UPI)** - Jo Anne Carner has zeroed in on the five par fives at Columbia-Edgewater Country Club, making her a strong favorite in the third annual Portland LPGA Golf Classic beginning today. She was really belting the ball, 260 and 270 yards, down the tree-lined fairways, then pitching nine irons and wedges to the greens for second shots on the par five. "She's like a female Jack Nicklaus," mumbled a man in the gallery following her in Thursday's pro-am play.

**NAPA, Calif. (UPI)** - The victories and the purses are few and far between these days for Billy Casper, but the veteran Californian says he is going to stick around on the pro golf tour until he makes \$2 million. "That's my goal," Casper

said Thursday after his opening round seven-under-par 65 set the pace in the \$150,000 Kaiser International Open. "To reach \$2 million I figure I'll have to play from 8 to 10 more years."

For a 43-year-old playing a game that is becoming more and more dominated by men in their mid to late 20s, that's quite a schedule Casper has set for himself, but he says he can keep it.

**ORLANDO, Fla. (UPI)** - In the flush of a shutout of the tough Chicago Fire, Florida Blazer Coach Jack Pardee alluded to the money problems which left his players without paychecks last Friday.

"I could not be prouder of this team," Pardee said after his 9-4 Blazers posted a 29-0 victory and held onto the lead in the East Division of the World Football League. "They have overcome so much."

The front office's money shortage didn't bother veteran quarterback Bob Davis, who hit 18-of-25 passes for 297 yards and three touchdowns.

Two of the nation's surprise college football teams of 1974 have a golden

opportunity to prove if they're for real Saturday...but for two quite different reasons.

Unbeaten Wisconsin and winless Colorado, who off preseason predictions would have had those roles reversed, run into each other at Boulder, Colo., and judging by the narrow point spread offered by the oddsmakers, no one's quite sure whether the perennially downtrodden Badgers are really that good or the perennial Big Eight power Buffaloes are really that bad.

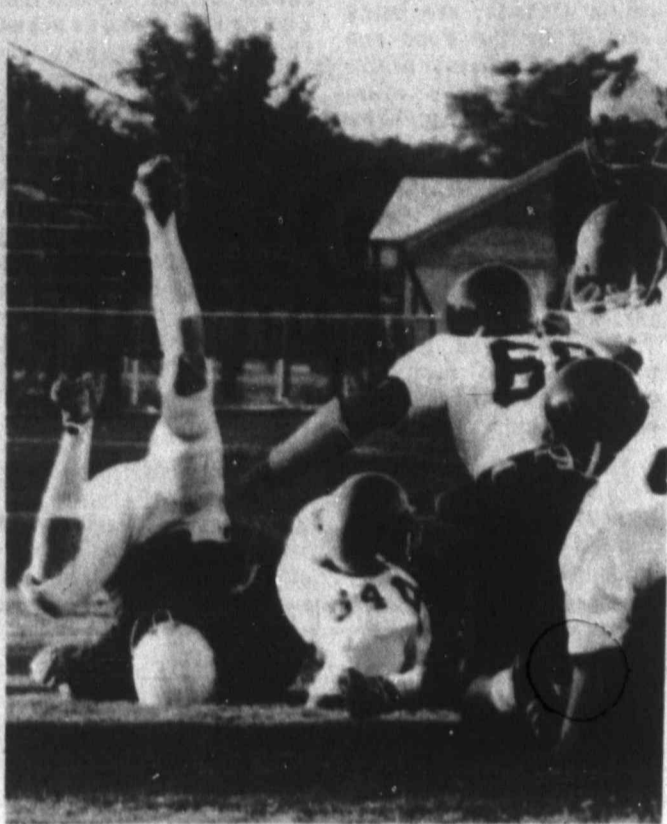

Tenth-rated Wisconsin, surprise victors over Purdue and Nebraska the first two weeks of the season, are a three-point favorite over the Buffs, who dropped a pair of one-sided decisions to LSU and Michigan on those same two Saturdays.

"No way are they as bad as their record," Wisconsin Coach John Jardine said of Colorado earlier this week.

Colorado, in its first season under Coach Bill Mallory who came over from Miami of Ohio, has had its problems on defense after yielding 42 points at Louisiana State and 31 last week versus Michigan.

## Colts, Packers Remain Unbeaten

The Tiger League Football season opened Sept. 17, with the Packers defeating the Rams in the opening game, 19-7.

The Rams opened the scoring with Gary Cudney going over from the one-yard line in the opening quarter. Robert Chase added the extra point. The Packers first score came in the third quarter on a 66-

yard run by David Young. They added 13 more points in the fourth quarter with a 43-yard keeper by quarterback Eddie Klyce (Randy Bigham ran for the extra point) and a 54-yard run by David Young.

The second game of the night found Bill Cofey's Redskins belting the Browns, 26-7. The Redskins put all of their points on the

board in the first half. Fullback Cavin Coleman opened the scoring by returning the opening kickoff 65 yards and then tacking on the extra point. Quarterback Danny Davis scored the second touchdown on a four-yard run. Coleman scored again on runs of 20 and 9 yards respectively, with Davis adding the one point after the final touchdown.

The Browns got on the scoreboard in the final quarter with halfback Derrick Young going 25 yards and Arthur Lee Williams scoring the point after.

The Wednesday (Sept. 18) game pitted the Colts, coached by Don Carpenter, against Danny Martin's Cardinals, as the Colts blanked the Cards 45-0. The Colts scored in every quarter as Darrel Dunn racked up 12 points on runs of 27 and two yards. Sam Edwards scored on a 35-yard pass play and added two extra points, and Bryan Glasscock recovered a fumble in the end zone for six points.

Halfback Steve McDougal scored three six-pointers on runs of 25, 30 and 30 yards, and Damon Fleming added the final extra point on a pass from Sam Edwards.

T.L. Garner's Packers traveled to Lefors Saturday

morning and defeated the hosts' fifth- and sixth-grade team 25-7. Each of the Pampa teams will play Lefors one Saturday during the season.

The second week of the season began with the Packers blanking the Cardinals, 7-0. After a scoreless first half, Klyce scored on a one-yard plunge, and David Young tacked on the extra point for the Packers winning margin.

The final game Tuesday evening had the Colts squaring off against the Redskins and winning by another 7-0 score. Quarterback Edwards of the Colts tallied the six pointer on a 15-yard keeper around left end, and McDougal ran in the one pointer.

Wednesday's game found the Rams stopping the Browns to the tune of 13-0. Clifford Anderson opened the scoring in the first quarter on a five-yard run. Allen Cole scored the final TD on a 26-yard run in the third quarter. Anderson ran for the extra point.

The standings after two weeks play are:

Team	W	L
Colts	2	0
Packers	2	0
Rams	1	1
Redskins	1	1
Browns	1	1
Cardinals	0	2

Schedule for next week:

Tuesday 4 p.m. Browns vs. Colts

7:30 p.m. Rams vs. Cardinals

Wednesday 4 p.m. Packers vs. Redskins

## 6-0 OVER PERRYTON

### Reeves Touchdown Gives Jayvees Win

Groom won't be punting to Bruce Reeves Oct. 5 when the state-ranked Tigers of District 1-B host the Pampa Shockers.

Groom head coach Don Sessom, scouting for the Oct. 5 game, was on hand Thursday night in Pampa as Reeves returned his third punt of the season for a touchdown, this time going 40 yards as the Shockers nudged the Perryton Deputies, 6-0.

The third quarter touchdown was followed by a conversion attempt which failed. After that, it was all defense as neither team severely threatened, even though Pampa drove to the Deputy 25 late in the game.

Reeves injured his right foot in the fourth quarter, and the extent of the injury was not known at presstime. The Shockers drove the four on the series before the punt return but were held on downs.

Pampa coach Curtis Didway praised defensive linemen Dub Taylor and Darrell Mitchell who were

in on most of the stopped runs. Linebacker Frank Stowers also had a strong defensive game, according to Didway.

Pampa is 2-1 for the season and plays Groom next.

The sophomores weren't as successful as the Jayvees, losing to Liberal, Kan., 36-8, Thursday in Liberal.

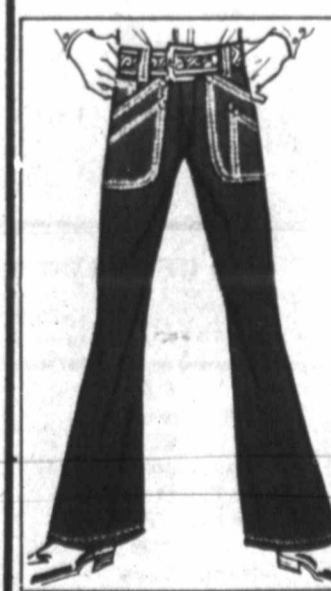

Pampa's only touchdown came on a four-yard run by fullback Randy Britton early in the third period. Levi Bailey tied the score at 8-8 by running over the conversion.

Liberal then scored twice on passes, once on an interception return and once on a run.

"We didn't play that poorly," said Pampa coach Scott Dunnam. "We gave them some easy ones but we played well at times. Britten looked good and so did Bailey. Defensively Doug Watson at corner had a good game."

The sophomores, 0-2, travel to Dumas Thursday. Kickoff is set for 7 p.m.

### FDA Issuing Kettle Recall

WASHINGTON (UPI) — Thousands of electric kettles, including two brands already banned for use in Canada, are being recalled by the Food and Drug Administration because they may cause lead poisoning, the government said Thursday.

The four brands affected include Hamilton Beach Kettles, Model Nos. 351 and 354; Dominion Electric Kettles, Model Nos. 1630 1635-39 and 1656-59; and Toastmaster and Everhot brands, both manufactured by McGraw Edison Ltd. of Toronto.

The FDA indicated the recall would involve up to 50,000 kettles of all four brands sold between 1970 and 1974.

### PEACE EFFORTS MARRED Split Threatens Guerrilla Ranks

United Press International

An explosive split in the ranks of the Palestinian guerrilla movement threatened today to complicate U.S. efforts to bring peace to the Middle East.

In Israel, troops crossed the border into southern Lebanon Thursday on a 20-minute "search and destroy" mission for Arab guerrillas, but came up empty-handed, a military spokesman said in Tel Aviv.

"They didn't go very far and they did not encounter anything," the spokesman said.

The Popular Front for the Liberation of Palestine, the group responsible for most of the recent Arab skyjackings, pulled out

Thursday from the committee of the Palestine Liberation Organization.

Popular Front spokesman Ahmed Yamani told news conference in Beirut the PLO, the umbrella group of the Palestinian movement, has deviated from revolutionary policy becoming "subservient to reactionary and capitalist regimes."

He said the PLO was conditioning Palestinians to accept a Middle East peace settlement that would "lead to the expansion of U.S. influence in the area and concede the existence of Israel with future guarantees of its security and stability."

Palestinian sources said two other groups — the Popular Front General Command and the Iraqi-backed Arab Liberation Front — may soon announce their decision to quit.

The split came less than a week after the PLO's 43-man central council failed at a "stormy" meeting in Damascus to agree on forming a Palestinian government-in-exile, Arab sources said.

Yamani said the Popular Front would fight formation of such a government because it would be "an integral part of the road that is now being prepared for us

to go to Geneva" to participate in Arab-Israeli peace talks.

In Israel, the 24-hour Yom Kippur holy day ended without incident at sunset Thursday and businesses, restaurants and theaters reopened.

The military command in a delayed announcement said patrolling troops found two guerrilla-made breaks in the chain link fence along

the Lebanese frontier near the settlement of Malkiah Wednesday.

A spokesman said the soldiers found a Soviet-made Kalachnikov rifle and leaflets signed by the Al Fatah guerrilla organization demanding the release of 10 prisoners held in Israel.

In Cairo, President Anwar Sadat swore in his replacement as premier, Abdel Aziz Higazi, and ordered Egyptians to stay prepared for another possible war with Israel.

"The battle has not ended," he said. "We are facing a treacherous enemy. Our armed forces are preparing themselves and we must prepare the whole country."

McLean Independent School District would like to place the old vocational agricultural building up for bids. The building is to be moved or torn down and moved. All that is to remain is the foundation and cement floor. The grounds around the building are to be cleaned.

The school will assume no liability and the building must be removed by December 15, 1974.

All bids should be submitted to Mrs. Shirley Johnson, Business Manager, or Homer G. Jefferson, Superintendent, by 5 o'clock p.m. on October 11, 1974. The Board of Education reserves the right to reject any or all bids.

It's best to allow one car length for each 10 miles per hour of speed. When the weather is bad and street conditions are poor, increase the distance.

COMMON CAUSE  
DETROIT (UPI) — Following too closely is a common cause of auto accidents that can easily be prevented, say safety experts.

### Spurr Claims Board Disliked Paper Defense

AUSTIN, Tex. (UPI) — The deposed president of the South's largest university believes he initially alienated his regents and chancellor by defending the editorial freedom of The Daily Texan, student newspaper of the University of Texas.

Chancellor Charles A. LeMaistre fired Dr. Stephen Spurr this week virtually without explanation and UT regents subsequently voted their approval of the dismissal 8-0 with Mrs. Lyndon B. Johnson abstaining.

Spurr, UT president for three years, said The Daily Texan controversy lowered his popularity among his administrators.

There was a strong movement on behalf of some of the regents to convert The Daily Texan into an auxiliary enterprise of the university, he said Thursday.

"I made up my own mind when I came here to listen to the faculty, the students and the regents but to make my own decisions which I believed to be morally and ethically correct.

"I also accepted the fact that I would go along with the ultimate decisions of the Board of Regents."

Spurr has repeatedly asked for a list of specific reasons for his firing and said he would consider filing a lawsuit against the regents or LeMaistre if he was not given such a list.

Spurr also has said his ouster was tied to his trimming of the menu for politicians and university alumni who freeloaded food and drinks from the school at football receptions. He said if he had his way the reception fare would be limited to beer and pretzels.

By and large the regents are good people and they have been very helpful to me," Spurr said. "There's been a long history of regental involvement in the internal affairs of this university — not by a majority of the Board of Regents but by a few individual regents."

He said it would be "utter disaster" if Gov. Dolph Briscoe reappointed Regent Frank Erwin Jr., whose term expires in January. Spurr said he had consistently resisted attempts by individual regents — specifically Erwin — to dictate academic decisions during his presidency.

### Heavy Damage From Explosion

HOUSTON (UPI) — The president of Southern Pacific estimates the total damage from a massive explosion at the company's freight railroad yard last weekend was between \$12 million and \$14 million.

Benjamin F. Biaggini said about 190 freight cars were destroyed, and a locomotive and about 240 more cars were damaged. One-third of the yard's 114 tracks in an area 400 feet by 800 feet also were damaged.

Southern Pacific resumed normal operations at the rail yard Thursday after a force of 250 men working on a 24-hour basis removed damaged freight cars from the blast area and reconstructed tracks.

The Saturday explosion was blamed on a tank leaking butadiene, a gas used in the production of synthetic rubber. One person was killed and more than 70 others were injured.

## FOR ASTRONAUTS, COSMONAUTS Joint Flight Ahead Of Schedule

HOUSTON (UPI) — Astronaut and cosmonaut training for the joint U.S.-Soviet flight is a little ahead of schedule, the commander of the American crew said Thursday, but any major problems in coordinating mission control centers in the two nations could delay the July 15 launch.

"If we don't have any problems it will be the first time," said Thomas P. Stafford. "But I'm sure we will work all of them out. I'm optimistic we'll meet the launch schedule."

Stafford said all of the previous American space programs have had problems in ground control activities while readying for the first launch and expects

nothing different for the first international flight.

"We're right on schedule for training and in fact in some areas we're ahead of schedule," Stafford said. "We have a long way to go. Now is the first time we're going to start pulling the total operation together. The next year is all operations as far as the big push."

Stafford, speaking at a news conference at the end of a three-week training session with the Soviet crewmen, said the Russians will return to Houston next March for their last JSC training. During that trip, the Soviets will also visit the Apollo launch site at Cape Canaveral.

The astronaut journey to Moscow for their final

training in Russia in May and will visit the Soyuz launch site.

Aleksey A. Leonov, the commander of the two-man Soyuz crew, said the training session just completed perfected "skills and habits in operating the Apollo, Soyuz and docking module."

He said they each practiced at least 10 times the procedures for moving from one spacecraft to the other that they will use while docked in orbit for two days.

Valeriy N. Kubasov, the second crewman for the Soyuz, said the spacemen use a special English-Russian language developed for the mission. It includes all the technical terms and procedures they

need for the mission and freely mixes the two languages.

During the docked portion of the mission, the astronauts will speak only Russian and the cosmonauts will speak only English.

Asked how well he was mastering the English language, Leonov replied in English that he and Kubasov were studying it for eight and a half hours each day.

"When Gen. Stafford speaks English slowly I understand him. When I speak Russian slowly, Tom Stafford understands me," Leonov said.

Hyenas, generally thought of as cowardly scavengers, actually are powerful animals which often hunt and kill their own food.

### NACE To Get Program On Celenese Plant

Several members of the engineering department of Celenese Chemical Co. will present the program during Monday's meeting of the Panhandle Section of the National Association of Corrosion Engineers.

Some 20 to 30 association members are expected to assemble here from points in the Texas Panhandle, Oklahoma Panhandle, and Western Kansas.

Following a tour of Celenese facilities, the group will meet in Pamel Hall on the plant grounds for a barbeque dinner.

Corrosion problems in chemical plants will be discussed during the business meeting.

The nation's first public weather service was established in 1869 in Cincinnati.

**PUBLIC EYEBROW** — If you remember seeing this tumbledown house at 313 W. Tuke, it's not there any more. It is one of many unsightly abandoned structures being torn down and hauled away in the city's continuing campaign to remove landscape eyesores. Only recently the same thing has happened to old buildings at 421 Harlem, 408 Harlem, 528 Oklahoma, 546 Elm and 626 Elm.

### Group Planning Investigation Of Carrasco Case

AUSTIN, Tex. (UPI) — The vice chairman of the House Senate Committee on prison reform Thursday said the group has no intention of dropping its investigation of prison authorities' handling of the escape attempt last summer by Fred Gomez Carrasco.

Rep. Mickey Leland, D-Houston, said the panel's inquiry was aimed at recommending legislative reforms rather than superseding legal authorities' criminal investigations.

"We're not trying to investigate the situation as a criminal matter," Leland told the House Administration Committee which warned him about meddling in nonlegislative affairs. "We're trying to investigate it so that we could involve that in our study and avert that type of situation."

Leland went before the committee to obtain additional funding for the prison reform group's study. The committee finally approved on a 5-1 vote a \$9,504 addition to the budget.

Leland asked for but did not receive an apology from the committee for unfavorable comments about the directions of the prison reform study.

At its meeting last month the committee had approved the funds conditionally and demanded Leland appear in person to justify the money request.

"You were to study prison reform and not the criminal acts down there," Rep. George Preston, D-Paris, told Leland. "You're acting outside the scope of the committee. No where does it (the resolution setting up the committee) say you'll get involved in investigating the Carrasco incident or any other criminal matter."

"You're going to abide by the resolution that was passed by the House or you're not going to get the money," Rep. Bill Hollowell, D-Grand Saline, told Leland. "A committee such as yours is purely for remedial legislation. We would not permit the state district attorney to come up here and interfere with legislative matters."

Leland complained the administration committee shouldn't use its power to threaten to cut off funds to a committee "just because you didn't agree with something I said or because you think the committee was involved in something it shouldn't be."

"We're the only police when the House is not in session," Hollowell answered. "If we don't enforce the House's mandate no one else can."
