IRS Probes Nixon Assets

DALLAS (UPI) — The Internal Revenue Service (IRS) has spent four months investigating allegations that former President Richard Nixon deposited \$5.9 million in secret Swiss bank accounts but may give up the probe because of lack of evidence, the Dallas Morning News said in a copyrighted story Saturday.

According to the newspaper, an informant told the IRS that Nixon got most of the money from major oil companies who wanted to see states retain ownership of offshore oil lands.

However, the newspaper said there was doubt about the credibility of the informant — an unnamed Dallas oil company financial adviser — and there apparently has been nothing to link Nixon directly with the accounts in the Nassau, Bahamas, branch of

the Swiss Bank Corp. (Overseas).

The newspaper said it will be up to the IRS to determine if the investigation will be continued.

An IRS spokesman in Washington said the special Watergate prosecutor's office had been informed about the charges.

Upon hearing of these allegations, the commissioner of internal revenue immediately notified the special prosecutors office of the department of justice, said spokesman Al Golato, and this office has been kept fully advised.

He would not comment further, saying the case had not yet "been totally disposed of."

According to the newspaper, the informant turned over a number of deposit slips which showed a series of deposits beginning with a \$750,000 deposit on Jan. 15, 1969, five days before Nixon took the oath as President.

The bank refused to let the IRS examine its records, the newspaper said, but directors of the firm denied Nixon was a customer. Directors said the deposit slips were for accounts

that did not actually exist but were prepared as demonstration forms for potential depositors.

The newspaper said the informant unexplainably kept tape recordings of telephone conversations he made in 1969 in which he said the accounts were those of former Supreme Court Chief Justice Earl Warren and did not mention Nixon.

When asked why he did not mention Nixon at the time, the informant told the IRS and a Dallas news reporter he used Warren's name because he

feared Nixon's power as President and he wanted to get a federal investigation started.

According to the deposit slips turned over by the informant, three accounts existed with a total of \$5.9 million. One account showed a deposit of \$750,000 on Jan. 15, 1969, followed by a \$1 million deposit the following day and another \$1 million on Jan. 22.

The second account reflected a \$2 million deposit on Jan. 29, 1969, and the third account showed a deposit of \$1.7 million on July 17, 1969, the newspaper said.

Senate Says Government Can Afford Big Tax Cut

WASHINGTON (UPI) — Americans should get a \$37 billion income tax cut next year without a parallel cut in government spending, a Senate staff study said Saturday.

Federal revenue will grow enough in the next five years to allow for a \$20 billion cut on top of an extension of this year's \$17 billion tax break during fiscal 1976, the study projected.

The 44-page report by the Senate Budget Committee staff said the increased tax cut is needed to "counter current high levels of unemployment" and make up for a projected economic slide on lags in federal spending between now and 1980.

The study did not directly refer to President Ford's demand that Congress limit federal spending to \$395 billion in fiscal 1976 to go along with his proposed \$28 billion tax cut for fiscal 1976.

But it said predicted government receipts caused by increased personal and corporate income between now and 1980 would fully replace those lost in a sizeable tax reduction.

The report suggested, there-

fore, that comparable reductions in federal expenditures would not be required for budgetary control.

The normal increase in federal revenue combined with forecast cuts in federal spending would give the government an \$80 billion budget surplus by 1980 unless tax cuts are instituted, the committee staff said.

The report noted that the traditional approach would be to delay a tax reduction until full employment revenues reach 20 per cent of potential Gross National Product, which it predicted will occur in 1978.

By delaying such a reduction until that time, however, Congress would lose a major opportunity to boost the economy, it added.

Attorneys, Judges Meet On World Peace by Law

WASHINGTON (UPI) — Highly placed attorneys and judges from 121 nations gather today for a six-day meeting to pool ideas on how to bring all peoples of the world under the umbrella of one law.

The World Peace Through Law organization, whose center is in Washington, expects about 4,000 participants at its 11th convention. Subject matter

ranges from air-sea pollution to the complex activities of multinational corporations and whether the United Nations any longer has a useful purpose.

Other subjects include protection of refugees, nuclear safeguards, and governmental interference with lawyers in pursuit of their professional duties.

Attorney General Declan Costello of Ireland is chairman of the panel on international terrorism.

Chief Justice Warren Burger will greet the delegates with a reception at the Supreme Court Sunday night.

The World Association of Judges holds its meeting at the same time. The late Chief Justice Earl Warren of the United States was elected president at the last meeting in Abidjan, Ivory Coast.

The main objective is to marshal the influence of the legal community in each country behind international treaties, particularly those dealing with human rights. Observers with only a slightly cynical bent tend to dismiss these efforts as well meant but of no avail.

Washington Attorney Charles S. Rhyne, who launched the movement in 1963 at the

organizational meeting in Athens, Greece, disagrees.

"We've spotlighted international law and got a lot of lawyers to call on heads of state and people in political life," he said as the conference got under way. "Treaty commissions in country after country have been able to bring about acceptance, particularly in the human rights field."

This year by way of a people-to-people program, bar associations, cities and universities around the country are entertaining various high-ranking foreign visitors for a week after the sessions are over.

Justice El Rashed, president of the Supreme Court of the Sudan, is spending some time in Louisville, Ky. President Nobuo Naritomi of the Tokyo Bar will visit Arizona State University at Tempe, and retired Chief Justice M. Hidayatullah of India will be a guest of Southern Illinois University at Carbondale.

The Center is supported by members' dues, contributions from individuals, foundations and corporations and income from its publications. Any lawyer can be a member, on payment of dues ranging from \$10 to \$100, depending on the type of membership.

Mysterious SOS Heard

MIAMI (UPI) — The Coast Guard, in answer to a mysterious SOS that reported "many men fighting send help," Saturday searched the Old Bahama Channel for four German officers missing from a freighter that may have been sunk in a mutiny.

Five crew members found adrift in a liferaft were being held under guard aboard a rescue vessel.

A Coast Guard spokesman said airplanes were searching for the four officers where debris from the sunken ship, the

220-foot Mimi, was found in the channel off the north central coast of Cuba, 200 miles south of here.

The spokesman said a Cuban aircraft also was apparently aiding in the search for the missing officers, flying over Cuban territorial waters.

The five crewmen—four Indonesian seamen and a Filipino cook—were picked up from a life raft by the German freighter, Lalli, and were being held aboard the ship.

The Lalli's captain reported to

the Coast Guard that the crewmen told him only that the Mimi's captain, Lothar Eckard, had a fight with the chief engineer, Bernd Hesse, and the ship sank.

The Coast Guard said the crew of the Lalli was keeping the Mimi crewmen in a locked compartment until the ship arrived at West Palm Beach, Fla. late Sunday.

The mystery started Friday night when a high seas telephone operator in Jacksonville received a transmission from an unidentified ship saying "Many men fighting. Something has happened to the captain. I believe he is dead. Send help SOS."

The operator said the transmission from the ship's agitated radio operator ended abruptly after giving the ship's location but not the name of the vessel.

The Coast Guard was notified and put out a bulletin, alerting ships in the area. Saturday morning, the tugboat Amy

Moran reported finding some debris in the vicinity by radar.

Two Coast Guard planes were dispatched and spotted the debris, which included six large freight containers, and the five crew members in their raft.

They alerted the Lalli, which was in the area, and it was diverted to pick up the five crewmen.

The Mimi was carrying 700 metric tons of fertilizer to Georgetown, Guyana, in South America, the Coast Guard said.

Its last known port of call was known as was Tampa, a spokesman said.

In addition to the master and the chief engineer, the missing German officers were identified as Host Hesse, second engineer, and Mandred Schmidt, chief mate.

The four Indonesian seamen were identified as Malik Abdul Paulus Heydenmans, Gun Gun Supardi and Mohammed Sydik. The Coast Guard said the cook was Ponciano Masong of the Philippines.

Weather

The forecast today calls for clear skies and mild temperatures with highs in the 80s and the lows in the 50s.

Bureaucracy Pesters Pampa City Officials

By TEX DEWESE
 Pampa News Staff

Bureaucracy at the state level had Pampa city officials in a bit of a dither during the weekend wondering if they were in trouble with the Texas Water Quality Board.

It all happened this way.

City Manager Mack Wofford received a letter in Thursday's mail notifying the City of a TWQB enforcement public hearing in Austin Nov. 6 at which Pampa would be asked to show cause why the city was violating terms of its permit for discharge at the proposed \$15 billion sewage treatment plant.

Wofford said the letter came as a shock since officials understood they were in the clear with James Wilson, regional supervisor for the Texas Water Quality Board in Amarillo, to seek an explanation.

Wofford said Wilson contacted the state TWQB office in Austin and then called back to say notice of the hearing was in error and it had been cancelled.

Pampa's name had been erroneously tossed out as being in violation of the permit order Wilson stated. That was on Thursday.

But—

In the mail Friday another letter from the TWQB was received at City Hall. This time it was certified mail. It contained a notice that the Nov. 6 hearing was on and Pampa was advised to be present and answer the violation charge.

That renewed the puzzlement and the city manager started all over again to find out what was going on.

He turned once more to Wilson, the TWQB man

in Amarillo, who got back in touch with the state office in Austin.

When Wilson contacted City Manager Wofford again, he once more gave telephonic assurance the public hearing notice was in error and had been cancelled.

Although city officials were confident Saturday that Pampa was off the hook, they still had not official cancellation of the public hearing notice in the certified mail letter received Friday from TWQB headquarters.

Wofford said Wilson informed him The Pampa Daily News was scheduled to receive a legal advertisement giving public notice of the Nov. 6 hearing.

If the hearing still was scheduled to be held, the newspaper should have received the legal notice Friday, Wilson stated.

At week's end (Saturday) The News had not received the legal ad. City Hall felt that was good news.

At their last meeting, Pampa city commissioners set 1:30 p.m. Oct. 24 to receive bids on construction of the new sewage treatment plant.

Now, they're hoping it's true that the public hearing notice was all a mistake, that the TWQB simply fouled up and dealt Pampa a joker instead of an ace.

If by any chance it doesn't work out that way, the possibility would exist that there would be delay in the opening of bids and start of construction on the sewage treatment plant.

"We feel certain that's not going to happen," Wofford said Saturday.

'Dangerous' Escapees Hunted

MARION, Ill. (UPI) — Federal agents, state police and prison guards Saturday hunted five "extremely dangerous" fugitives who used a homemade electronic control device the size of a softball to open barred doors and walked to freedom from a maximum security U.S. penitentiary.

No trace of the escaped convicts had been found since they walked out of the prison's front door shortly after 8 p.m. Friday. Warden Charles E. Fenton indicated outside accomplices may have helped them flee the 900-acre penitentiary site.

Fog and ground mist hampered the hunt for escapees. No guns were used in the hours but authorities said the convicts may have obtained weapons after fleeing and the FBI said, "They are extremely dangerous persons."

Fenton said the jerry-built

device that foiled the prison's modern, sophisticated security system apparently was fashioned in a prison shop by Ed Roche, 39, Katonah, N.Y., who was serving a 39-year sentence for bank robbery and carrying a dangerous weapon. Roche worked in the electric shop.

Fenton said the device apparently triggered a miniature receiver which was clandestinely placed in the master control panel of the prison's security system during recent repairs.

The warden said the remote control device, which was turned over to the FBI for investigation, was equipped with a battery, switch and perhaps parts of an old radio. The prisoners attached it to a loudspeaker, the warden said, and it transmitted a signal—apparently to the miniature receiver—which

activated a series of electronically controlled metal grill corridor doors.

The five men walked out without a challenge. Neither guard tower saw them leave and no shots were fired. A technician on duty, and a guard farther back in the prison, saw that the grills had been opened and sounded an alarm. Floodlights were turned on within minutes but the escapees had disappeared.

Fenton said the five, along with 13 other prisoners, had met Friday night with six civilians, members of a historical society study group which had visited the prison regularly for several years for discussions with convicts.

Fenton said that by a ruse, the five tricked a security guard into going with them and unlocking the door to a storeroom, either to get study

materials stored there or to get a bandaid to bandage a feigned injury to a finger.

The convicts overpowered the guard and locked him in the room, which opened onto a corridor between the second and third of three grills. Then, the warden said, they apparently wired their electronic device to the loudspeaker, part of the regular prison security system.

The grill doors are so devised that supposedly no more than one can be opened at a time, Fenton said. But the transmitter-receiver combination somehow overrode normal signals in the control point atop the prison and automatically unlocked all three doors—two that stood between the plotters and the front lobby and one farther back in the prison.

Prison officials were unable to explain immediately how plotters managed to place the

miniature receiver in the heart of the prison's security system.

The five men were believed to be wearing Jaycee jackets when they fled. There is a Jaycee chapter at the prison.

The escapees, in addition to Roche, were identified as Henry M. Gargano, Arthur T. Mankins, Dennis D. Hunter and Maurice J. Philion.

Gargano, 43, Chicago, was serving a 199-year term for murder while committing a bank robbery in a Chicago suburb. Mankins, of Germantown, N.C., was serving a life term for the slaying of an FBI agent in North Carolina.

Hunter, 26, Salem, Ohio, was serving a 25-year sentence for kidnaping assault on a federal officer and escape. Philion, 40, Oakland, Calif., had been sentenced to 50 years for bank robbery and assaulting a federal officer.

County Will Discuss Airport Repairs, Polls

Funds for the immediate repair of the asphalt runways, taxiways, roadways and parking ramps for the Gray County owned airport will be discussed in the Gray County Commissioners Court meeting 10 a.m. Monday.

The agenda also includes authorization of election judges to open the polls at 8 a.m. on Nov. 4 for the Constitutional Amendments election.

Bids for additions to the livestock pavilion will also be discussed and officials anticipate a making awards.

The proposed addition is to be paid from revenue sharing funds.

B.R. Nunn of the airport board said in a letter to County Judge

Don Cain that immediate repair, consisting of filling cracks is in order to prevent further deterioration of the surfaces.

Most of the cracks, he said, have occurred in the south end of the north-south runway, which is the new extended section.

"The board recommends the repairs, by filling the cracks, he completed this fall," Nunn said.

He also recommended that the county apply to the Texas Aeronautics Commission and the Federal Aviation Administration for financial assistance to resurface runways, taxiways, ramps and roadways as required.

"It is our understanding the earliest we could expect state

and federal approval and aid would be in one and one-half to two years, and in light of the time period involved we urge the repair work to be started as quickly as possible," Nunn stressed.

He added that after examination Gordon Taylor of the highway department suggested filling them with a winter type emulsion of water, asphalt and sand.

Also on the agenda is consideration of a service agreement for a four-county communication tower as requested by the Roberts County judge.

Routine items call for approval of the payment of bills and consideration of the welfare and treasurer's report.

Monks with Secret Code Await Kidnapers' Call

DUBLIN, Ireland (UPI) — Ninety Capuchin monks, equipped with secret code-words, Saturday manned 24-hour "hotline" telephones for any new message from the kidnapers of Dutch businessman Tiede Herrema.

"The threat to kill Dr. Herrema is very real," said Capuchin friar Rev. Donal O'Mahony, who disclosed the mobilization of the order's seven Irish monasteries for the

purpose of monitoring any new message from the kidnapers.

O'Mahony has been masterminding negotiations to secure the release of Herrema, kidnaped eight days ago by a suspected splinter group of the outlawed Irish Republican Army. The kidnapers have threatened to kill Herrema if the Irish government fails to release three jailed IRA operatives. The government flatly refused.

Because of fears that O'Mahony's telephone might be tapped by the police, O'Mahony's superior, the Rev. Anthony Boran, issued orders to Capuchin friars across the country to keep a 24-hour vigil for possible contacts with the kidnapers.

"There is no indication whatsoever the police are attempting to interfere," O'

Mahony said. "I explained my position to them and they accepted it totally."

Boran said 90 members of the order in monasteries in Donegal, Cork, Dublin and Kilkenny have been given the secret code-words used by the kidnapers to check authenticity and told to keep the telephones free for incoming calls around the clock.

O'Mahony said he had learned in earlier contacts with the kidnapers that Herrema, 52, was being held bound hand and foot, blindfolded and with cotton stuffed in his ears.

O'Mahony said there had been no fresh word from the kidnapers since a message Thursday saying their hostage was alive and putting forward new demands.

Lefors To Meet Tuesday

LEFORS — The Lefors City Council will meet in regular session at 7 p.m. Tuesday night.

Three items are on the business agenda including removal of abandoned automobiles, discussion of money donated to the city for tornado relief, and the demolition and removal of abandoned property.

Car Vandalism Reported

Burglary, attempted burglary, vandalism and theft were included in the Friday night and Saturday reports on the Pampa Police Department blotter.

James L. Terrell of 713 S. Barnes said someone broke into a shed and stole 10 bicycles. The theft occurred last month and he

was in the hospital, according to the report.

He added that when he discovered the theft he did not know the police department telephone number immediately.

A representative of Pampa Concrete Co. reported that someone entered the building on the west side and took \$10 in money from a machine. He also reported \$35 in damage to the building.

An attempted burglary was reported at Empire Cafe.

Two automobile owners reported mischief in regard to incidents at the Pamp High School Friday. One had a car painted with white shoe polish, and the other found his vehicle sprayed with shaving cream.

Northrop Lobby Questioned

WASHINGTON (UPI) — Public disclosure of questionable lobbying practices by the Northrop Corp. has touched off official investigations of possi-

ble corrupt activities involving other defense contractors, a Pentagon spokesman said Saturday.

Syria, Moscow Meet

By United Press International
Syrian President Hafiz Assad has concluded a two-day unannounced visit to Moscow to confer secretly with top Kremlin leadership, including Defense Minister Andrei Grechko, the Soviet news agency Tass said Saturday.

"We are investigating a number of similar allegations which have come to our attention since the Northrop story broke," the spokesman said. He said the Defense Contract Audit Agency is performing the investigations, but declined to give other

details.

In addition, he said, an investigation has been ordered to learn who leaked the initial Northrop information to reporters.

Reports quoting Pentagon sources have said in recent weeks that Northrop entertained congressional and defense department officials at a company-owned hunting lodge during they company's success-

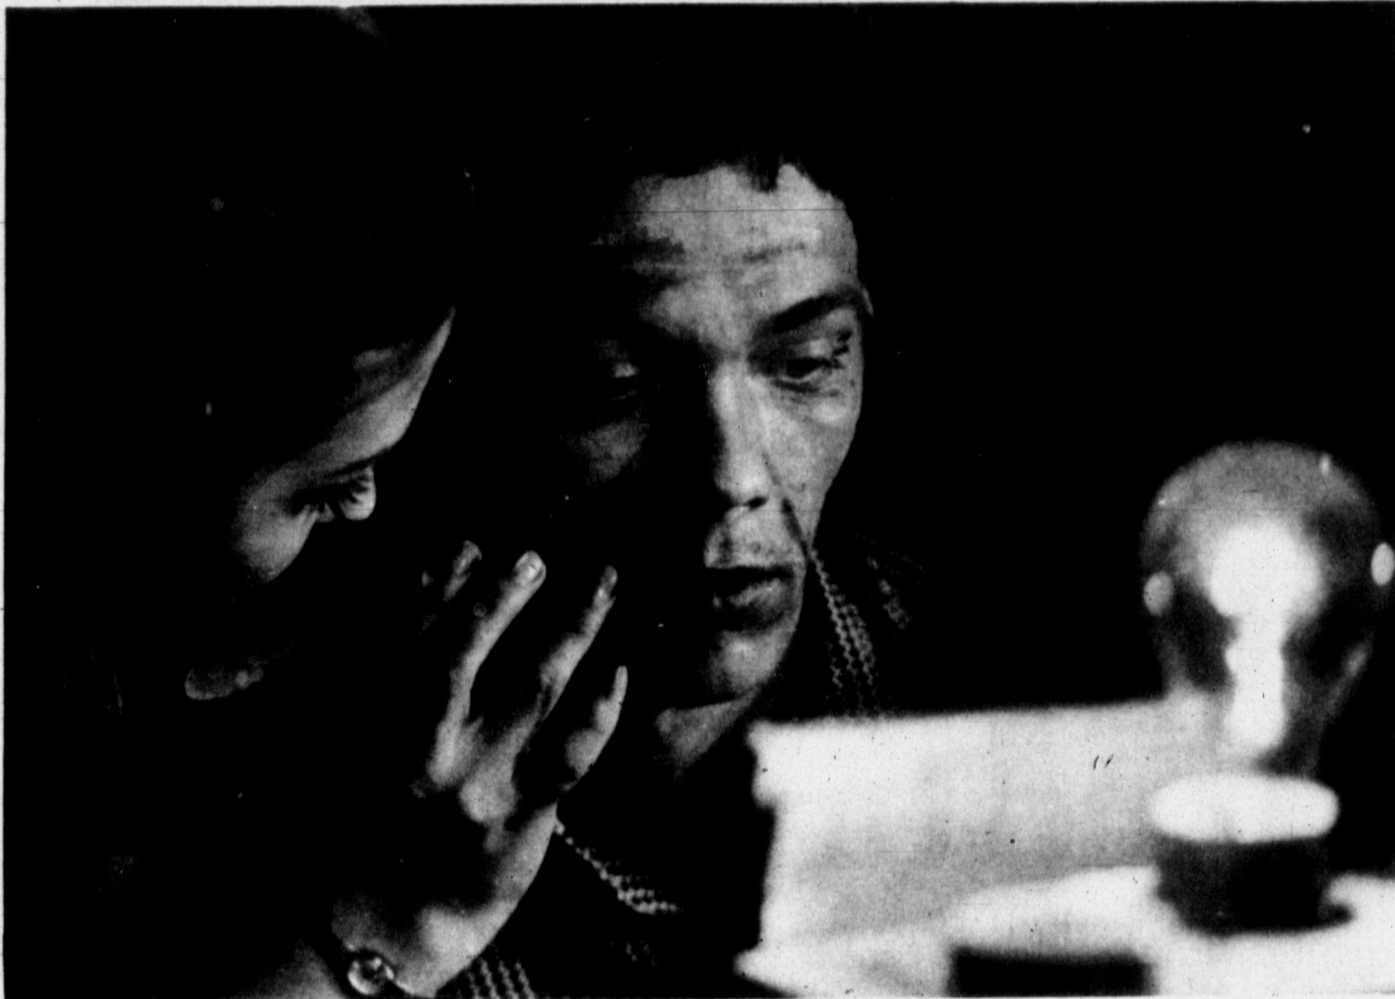

ful quest for a jet fighter contract. They said Northrop charged the government for that entertainment.

The Pentagon has not publicly confirmed those reports, but officials have said they sent Congress the DCAA audit report cited as the original source of the information on Northrop's lobbying efforts.

Deputy Defense Secretary William Clements told a de-

fense industry trade association Thursday the Pentagon "deserved" the criticism it had gotten about such incidents.

Clements and Defense Secretary James R. Schlesinger now are studying ways to reemphasize rules issued in January to tighten standards of conduct for senior defense officials who deal with contractors, the spokesman told UPI Saturday.

'The Man Who Came To Dinner'

Gradene Underwood, who plays the role of Judith in the Pampa High School Drama Department production of "The Man Who Came to Dinner," also is assistant director. Here she assists Dee Joiner into his makeup for his part as Beverly Carlton. Joiner is doubling in the play and also will be seen as the character Banjo. The play

will be at 7:30 p.m. Monday and Tuesday in the high school auditorium. Admission will be \$1.25 for adults and 75 cents for students. PHS drama instructor is Ms. Rochelle Lacy. The play is being produced by permission of Dramatists Play Service. (Pampa News photo by Michal Thompson)

Mainly About People

The Civic Culture Club will meet Tuesday.

2 bedroom, new carpeted, garage, fenced yard. Across street from Lamar school. \$7000. 665-3764 or 665-3355. (Adv.)

Mike and Debbie Jones, formerly of Pampa, announce the birth of Cari Ann on Oct. 10 in Canyon.

Grandparents are Mr. and Mrs. Roy L. Smith, Pampa and Mrs. Jane Jones Smith in Grand Junction, Colo. Great Grandmother is Zelma Cody, Pampa.

The PEO local chapter will meet at 10 a.m. Tuesday in the home of Sharon Simpson, 1927 Evergreen.

Panhandle Prepared Childbirth Association will gather at 8 p.m. Monday in the Flame Room of Pioneer Natural Gas for a program on the Lamaze method of childbirth. It is open to the public.

General meeting of Highland General Hospital Auxiliary will be at 10 a.m. Tuesday at 1801 Charles. The board will meet at 9 a.m. Interested guests welcomed.

The second session of the Friends of the Pampa Library's free metric system workshop will be at 7:30 p.m. Monday, at Lovett Library Subject: volume and weight. Instructor: Mark Stenzel.

New Law Says Hearst Must Be Tried Soon

SAN FRANCISCO (UPI) — If the U.S. government cannot get Patricia Hearst's bank robbery trial started by Dec. 27, it might have to be dropped.

But nobody on either side really expects this to happen under the new federal "speedy trial law." If it does, she still faces state charges carrying even stiffer penalties.

The federal law says defendants held without bail must go on trial within 90 days of their arrest or be released. But no one is sure when the 90-day countdown begins, whether or not the defendant can waive this right or even whether the law applies to Miss Hearst, who was charged before the act took effect last month.

Justice Department spokesman Robert Louis Stevenson called such a release a "remote possibility" and said the government would make every effort to give Miss Hearst a speedy trial.

"It's not clear as to when the clock begins to toll," defense attorney Al Johnson said from his Boston office. "It certainly would not toll if she is deemed incompetent."

The defense has worked hard since Miss Hearst's capture on Sept. 18 to depict her as incapable of aiding in her own defense and in need of immediate psychiatric care.

U.S. District Judge Oliver J. Carter has appointed three psychiatrists to examine the 21-year-old kidnap victim before he rules on defense motions that

she be admitted to bail. He refused to allow defense psychiatrists to question her, at least until the court-appointed ones have finished their examination.

On Thursday the defense submitted an order for Carter's

signature that allowed a medical doctor and psychiatrist Louis Vuksinick to visit Miss Hearst in her jail cell in Redwood City, Calif. Carter signed the order, but only after he had scratched off Vuksinick's name.

Killing Wrecks Peace Attempt

BEIRUT, Lebanon (UPI) — Leftist gunmen killed a right-wing Phalangist party leader in the Moslem suburb of Chiah Saturday, wrecking a government attempt to bring life back to normal after weeks of near civil war.

Four other Phalangists were reported missing, and rightist gunmen in Ain Rummaneh seized a Moslem Shiite leader, Sheikh Mohammed Yakkoub, and some of his followers as hostages, police sources said. But the Sheikh was later released unharmed.

Grain Talks Recess Without Agreement

MOSCOW (UPI) — U.S. Soviet grain talks recessed without agreement Saturday with the Soviet Union publicly admitting for the first time its 1975 crop had been ravaged by drought.

Undersecretary of State for Economic Affairs Charles A. Robinson flew to Paris but he said he would be back Tuesday or Wednesday to resume negotiations for a long-term agreement to stabilize American grain shipments.

"There has been good progress, and I plan to be back very shortly," he said at the airport. "I am hopeful we can resolve

Former Pampan Arrested On Auto Theft

A former Pampa resident, A.J. Crane, was arrested Friday near Center, Tex., on a charge of automobile theft.

Officers of the Texas Department of Public Safety made the arrest, according to information from the Pampa Police Department.

The arrest was made near the Louisiana border. The suspect had allegedly rented a car from Stowers Chevrolet and failed to return it.

The offense had been reported to the Pampa Police Department and charges were filed.

The license number of the vehicle and the subject's name were placed in a statewide computer which led to the arrest.

Officer here said Saturday that arrangements have been made to return the vehicle and subject to Pampa.

The Phalangist chief, Pierre Mazraani, was shot to death in a burst of sniper fire as he crossed with a delegation into the Chiah district from neighboring Ain Rummaneh, a predominantly Christian suburb.

The assassination came just after army commandos tore down barricades between the two districts to carry out a pledge by Premier Rashid Karami to restore war-weary Lebanon to normal within 48 hours and end three weeks of political and sectarian war in which 500 persons have died and nearly 1,000 were wounded.

Mazraani was accompanied by Danny Chamoun, the son of Interior Minister Camille Chamoun, Abu Hassan, Palestinian guerrilla chief for the Beirut western sector, and other district leaders when the gunmen opened fire and forced the delegation to dive for cover, witnesses said.

Ford, fearing erratic Soviet grain purchases will generate inflation in the United States, imposed an embargo on further shipments after the Soviets bought 10 million tons of American grain.

Robinson is attempting to negotiate a long-term agreement to regularize shipments for several years and prevent uncontrolled Soviet buying that will jack up food prices in the United States.

Robinson said in an Agriculture Days speech.

"It could not but introduce adjustments into the fulfillment

of the (current) plans," he said.

It was the first public admission by the Soviet Union of a 1975 crop failure on a national scale. Previously, Soviet officials hinted at the poor harvest by forecasting short crops in some regions but not the whole nation.

"A number of regions were subjected to drought," Polyansky said in an Agriculture Days speech.

"It could not but introduce adjustments into the fulfillment

of the (current) plans," he said.

of the (current) plans," he said.

Ticketing Texas Tokers Capital Idea

AUSTIN, Tex. (UPI) — A Texan caught with a single marijuana cigarette two years ago could go to prison for life. For committing the same offense in the state's capital today, he may get off with an on-the-spot, no-arrest citation similar to a traffic ticket.

No other Texas city has adopted the ticket procedure. Some question its legality. "We don't have any plans that I've heard of to go to this," said Sgt. Gene Davis of the Wichita Falls police department narcotics division. "I know they're doing it in other places, but we're just going to keep plugging them in the jailhouse anytime we arrest them."

The legislature reduced in 1973 the penalty for possession of less than four ounces of marijuana from a felony to a misdemeanor. Austin Police Chief Bob Miles and law enforcement officials in other Texas cities generally agree usage has increased since then.

The number of marijuana arrests has increased, too, although police in most areas privately admit they are not going out of their way to raid concerts and dance halls where marijuana smoke is heavy or arrest teenagers sharing a joint. Instead, they are aiming the

primary enforcement at pushers and users of hard drugs such as heroin and cocaine. Austin officers have the option of taking persons caught with one marijuana cigarette to jail

or presenting them with a written citation. The offender given a ticket is allowed to go on his way and appear in court later. Chief Miles defends the Austin

policy for its practicality. "We're not being soft on marijuana," he said. "We're saving some police manpower. What was happening was an officer would stop somebody for

a traffic violation and find them using marijuana. The officer would arrest them, bring them in to the department, book them in jail, prepare an offense report, tag the evidence and

turn it in to the evidence holder — which meant the officer was off his beat for an hour to an hour and a half.

"Frankly, we were just not getting convictions on the misdemeanor cases. We were just spinning our wheels."

Miles, the city manager, county attorney and mayor agreed on the use of citations.

After the evidence is weighed, the suspect may be charged with a Class A or Class B misdemeanor, which requires booking into jail and posting bond. But Miles said if there is less than 5 grams of marijuana — one cigarette — the person may be charged with a Class C misdemeanor and the case handled in municipal court.

"Say a man is caught with a roach, he can be issued a Class C misdemeanor and pay a fine and not end up with a police record," Miles said.

Officers in some Texas cities believe Austin's heavy student population and liberal city council encouraged the citation policy by Miles.

Capt. Marion Kasowski, head of the Houston Police Department's narcotics division, doubts the legality of issuing tickets for marijuana possession.

"Making it a Class C

misdemeanor is going beyond my responsibility," he said. "The legislature set it up as a Class A or Class B."

"I don't believe I have the authority to make it a Class C. That would be manipulating the statute and that falls within the legislative branch or within the courts themselves. If we're not satisfied with the law, let's change it, not manipulate it."

Kasowski said arrests for marijuana, heroin and cocaine are up as much as 300 per cent over last year in Houston.

"More individuals are being arrested for marijuana possession, and a greater number of people are pushing it. Those who once used in small amounts are now buying say one pound, keeping some for their own use and selling the rest to regain

their cost. San Antonio Police also have continued to arrest marijuana offenders.

"We'll take them over to jail and book them," said Lt. John Smith, head of the San Antonio narcotics division. "The penalties they are getting over there in the courts are rather small, and if you just start writing them tickets and nobody goes to jail, then you've lost all your deterrent factor that has a certain effect of slowing this down."

PENSION PLANS
NEW YORK (UPI) — The number of persons enrolled in pension plans with insurance companies has risen to nearly 14 million from about four million in 1955, the Institute of Life Insurance reports.

Almost 50 million persons are enrolled in private and public retirement plans other than the federal Social Security program, the institute says.

CABS NEEDED
BUENOS AIRES (UPI) — Argentina's taxi drivers, caught in the squeeze between soaring fuel costs and dwindling clientele due to the economic crisis, are looking to the government for help. A delegation of drivers asked the economy minister to authorize loans for the purchase of new cabs at low prices to help them stay in business.

Local Law To Continue Crackdown on Marijuana

By ANNA BURCHELL
Pampa News Staff

While the FBI director says officers can turn their backs on marijuana offenders and devote their time to more serious crime, the heads of law and order in Gray County will do no such.

Rigid law enforcement is the only deterrent to crime, and that includes marijuana, said Gray County Sheriff Rufe Jordan.

Marijuana leads to more serious drug abuse, Chief Richard Mills said.

"And in Pampa we plan to keep arresting," the Chief emphasized.

Chief Mills and Sheriff Jordan along with John W. Warner, county attorney who prosecutes county offenders, were interviewed Friday in regard to statements by Clarence Kelley, FBI director.

The FBI head said that if overburdened law enforcement officers choose to ignore marijuana and concentrate on more serious crimes it is all right with him.

Chief Mills said to ignore marijuana offenders is aiding in increased usage.

Both the sheriff and Mills state emphatically that they have no plans to jet up on marijuana arrests.

Warner believes marijuana is the first step toward a more serious crime.

Kelley said he opposes the decriminalization of marijuana use but is still in the process of forming an opinion on

the subject.

"If a department is so heavily laden with its ordinary keeping of the peace and it wants to break off and forget about smoking pot and devote that time to more meaningful areas, that's all right," he said.

"Basically I am opposed to it for you find little social advantage in decriminalizing marijuana, gambling or prostitution. But it is a priority matter whereby it could free agencies to more meaningful work then it possibly could be excused."

Sheriff Jordan, who has been in law enforcement here for many years, said if any department "be it state, county or precinct is so heavily laden with violations of the laws of our land, these departments need more qualified officers to strengthen personnel to combat crime."

"I am absolutely opposed to the handling, delivery or smoking of marijuana and I personally think that the law pertaining to marijuana needs to be rigidly enforced," the sheriff emphasized.

He added that he believes that marijuana, gambling and prostitution could be, and probably is, an appropriate part of organized crime in the metropolitan cities.

The sheriff said statistics show that crime has increased 170 per cent since 1961.

"It is apparently still on the incline and I believe that I speak for many law enforcement officers agencies when I say the only deterrent to crime is rigid law

enforcement..." Sheriff Jordan continued.

He called for the marijuana, prostitution and gambling crimes to be worked hard with officers doing their best to bring them to a minimum.

However, Sheriff Jordan said he personally believes that the FBI is a great group of law enforcement officers.

He gave much credit to the late J. Edgar Hoover who supervised the organization for many years.

"The agency has been a tremendous asset to law enforcement agencies throughout America," the sheriff added.

The September report in the Gray County Clerk's office shows 29 marijuana cases as compared with 138 cases of driving while intoxicated.

At one time, officials predicted marijuana and DWI arrests would be about the same.

"Apparently that has not been true," Warner said. He said from month to month officers probably arrest one marijuana offender to every four or five for DWI.

Only three days ago, Patrolman Randy Stubblefield of the Pampa Police Department observed a motorcycle driver run a red light at Kingsmill and Cuyler.

As he proceeded on Cuyler, the driver appeared to be on marijuana.

Thus another marijuana arrest was made.

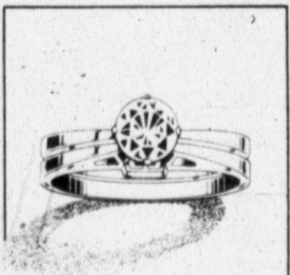

"And in Pampa we plan to keep arresting," the chief said.

Cadets Look Forward To Women at Academy

AIR FORCE ACADEMY, Colo. (UPI) — Some of the cadets were skeptical but most agreed it would be nice to have some women at the Air Force Academy, even though the girls will not be allowed to date upperclassmen next year.

"I think there may be some initial short-term problems involving integration of women into the pressure of the cadet class system," Cadet 2C Dennis L. Flint, 20, Breckenridge, Colo., said Thursday. "In addition, the novelty of women at first may cause some disruption."

Third-year Cadet Ben Allen of Oklahoma City said he was apprehensive when he first learned of the admission of women. But he said he had changed his mind.

"Like everybody else, my

Field Director To Address Institute

James E. Smith of Austin, assistant director of field operations for the Texas Railroad Commission, will address members of the Panhandle Chapter of the American Petroleum Institute at their October dinner meeting at 6:30 p.m. Thursday in the Pampa Country Club.

Smith's topic will be "State Rule 36 — Hydrogen Sulphide Gas." The rule pertains to the handling, reporting and safety precautions related to hydrogen sulphide in oil field operations.

The commission official is expected to discuss findings developed at a recent Railroad Commission hearing on the subject in Austin.

API officials said the speaker will also conduct a question and answer period regarding Rule 36.

first impressions were negative," he said. "But as I see how things are going to be done, I'm looking forward to women coming here."

Allen said much of the cadets' opposition to the idea of admitting women had been overcome by plans to provide the same academic program for the ladies. He said the girls would also undergo the same physical program as the men with minor exceptions.

"We don't want it to appear we have one program for men and one for women," he said.

The nation's military academies are required to admit women cadets next year under provisions of the Military Procurement Bill signed into law by President Ford Wednesday. Air Force Academy officials said they expected as many as 150 women might be accepted.

Academy officials said the women cadets would be allowed to date only members of their own class until they had completed their first year. That regulation puts them off-limits, temporarily, to the 4,400 cadets presently enrolled at the academy in the foothills of the Rockies.

"Women cadets will be allowed to date men cadets, but first-year women cadets only will be allowed to date other members of their class," an academy spokesman said.

The official also said the women would be housed in separate facilities and a portion of the cadet barber shop would be set aside as a beauty parlor. He said during basic training, the ladies' hairdos would be styled for them in the beauty shop "because daily washing will be restricted and time available for hair grooming will be limited."

New Band Member

Butch Casey, son of Mr. and Mrs. Jim Casey of 1005 Kiowa, has been selected to play with the West Texas State University Marching Band at Canyon. He was among the freshmen who participated in a freshman marchdown and skit in which members sang their high school alma maters for upperclassmen in the band.

Summit To Battle World Inflation

WASHINGTON (UPI) — President Ford and the leaders of France, Britain, West Germany, Italy, Japan and probably Canada will meet in France in November to chart a joint war on inflation, recession, the oil crisis and other economic and political problems, the White House said today.

At a White House briefing, State Department Counselor Helmut Sonnenfeldt told reporters the summit probably will not produce decisions or even negotiations. It will, he said, give "a fresh impulse and a fresh impetus" to action already underway by Western industrial

powers to collectively put their economic houses in order. "The six leaders recognize the importance their economies have to one another and to the rest of the world," Press Secretary Ron Nessen said in a statement. "They believe that they have a responsibility to consult with one another on

achieving stable growth for their own countries and, in cooperation with other nations, greater global prosperity and improvements in the working of the international economy."

Stars Offer Refuge

The blue stars seen in windows of about 2,000 Pampa homes mean that the residents of those homes are available to help children in case of an emergency.

The Blue Star Home Program is national in scope and is sponsored locally by the Pampa Jaycees, one of the first organizations in Texas to adopt the program — about five years ago.

Parent-Teacher Associations in the Pampa area cooperate in the program and the window cards, with a blue star on one side and instructions on the other, are printed by Cabot Corp.

The Jaycees attempt to place at least one star on each block and children are informed in school how to locate the stars and what they mean.

Instructions on the window card include the following:

1. Do not transport youngsters in your own car. If a parent cannot be reached, call the police department or school, as indicated for a child's particular problem.
- (a) Lost child under school age — call parents or police department.
- (b) Lost child of school age — call your school.
- (c) Slightly injured child — send on to school or back to his home.
- (d) Seriously injured child or child not breathing — call fire department or ambulance for aid.
- (e) Call the police department if a child is bothered by or bitten by an animal.
2. If a child has been molested, frightened by a stranger or witnessed an indecent exposure, call the police department at once.
3. Do not offer a child food or beverage.
4. Do not administer first aid in case of injury except to stop excessive bleeding or to restore breathing.
5. Please report to your school chairman the same day a child is helpful.

Blue Star For Safety

Mark Blakemore's mom, Mrs. Dwaine Blakemore, keeps a Blue Star in her window to let other children know that they can find help in case of emergency simply by knocking on the door. The program is sponsored

by the Pampa Jaycees in cooperation with the Pampa Independent School District and Parent-Teacher Associations.

(Pampa News photo by Michal Thompson)

Louisiana Oil Revenues Slip

BATON ROUGE, La. (UPI) — Louisiana's oil revenues, which support one-third of the costs of state government, are declining at a rate of 10 per cent this year and probably will continue to slip, says Revenue Collector Joseph Traigle.

The oil and gas wells that dot Louisiana's swamps and marshes pump \$800 million in taxes and royalties a year into the state treasury.

But many of those oil and gas wells on which Louisiana has based its economy are beginning to run dry.

"The decline in production which has been talked about for many years is now coming to pass," said Traigle. "Our natural resources are depleting, in other words, they are beginning to produce less every year."

The impact of the decline on

the operations of Louisiana government so far has been reduced because the legislature two years ago changed the formula by which oil and gas is taxed, nearly doubling severance tax collections.

Still, the decline is visible. Oil and gas severance for the first two months of this fiscal year were \$86.1 million compared to \$94.1 million for the same period last fiscal year.

"We expect a 10 per cent decline in production this year in Louisiana," Traigle said.

The H.M.S. Rose, docked in Newport, R.I., is a replica of the British frigate that blockaded the seaport during the American Revolution.

Litton introduces Combination Cooking: A better way to cook.

Litton Combination Microwave Range Model 630 Suggested retail price **\$869⁹⁵ w.t.**

Combination, Microwave, Conventional.

This new Litton combination microwave range lets you select the one best way to cook your favorite foods better.

Combination of Microwave and Conventional Cooking.
Why microwave and conventional cooking in one oven? Simply because the two in combination cook better as one. Microwaves penetrate and cook the food quickly, conventional heat browns-in crispness. And saves time and electric energy, too.

Microwave Speed.
The new Litton combination microwave range also gives you the speed and convenience of microwave cooking only.

Conventional Heat.
Yet, the Litton combination microwave range can also be used as a conventional oven, or for smokeless, closed-door broiling. And it's available with a self-cleaning oven system that removes even the toughest baked-on stains.

Two Combination Models.
Model 630 with deluxe coil-cooktop as shown, or Model 610 combination microwave range with continuous cleaning oven. You'll find other innovative and energy-saving ways to cook in Litton's complete line of countertop microwave ovens, combination and double-oven microwave ranges.

LITTON
Microwave Cooking

Litton... changing the way America Cooks.

Taste an energy-saving Litton microwave cooking demonstration.

Panhandle History

Prints of three paintings, depicting celebrated sites in Texas Panhandle history, are being offered to the public free by Panhandle Insurance Agency offices in Pampa, Borger and Amarillo. The paintings are the Panhandle Centennial Collection by Kenneth Wyatt and commis-

sioned by PIA as part of the company's 50th anniversary observance to commemorate the first century of settlement in this region. They re create Tascosa, Adobe Walls and Fort Elliott.

New Television Season

Invisible Man To Vanish

NEW YORK (UPI) — "The Invisible Man" is going to vanish completely from NBC in January. Joining NBC's "Family Holvak" and CBS' "Kate McShane" as three more shows failed to make it into the winter season.

In addition to these three definite dropouts, no one at CBS is betting that "Big Eddy"

will live to celebrate its first birthday, and that network's "Three for the Road" also is rumored to hit the road. "Doc" is called "soft."

At ABC, "MOBILE One" and "Barbary Coast" are the weakest links. Currently the network is experimenting with switching their time slots on WLS, the ABC owned and

operated station in Chicago, putting "Barbary Coast" on Friday from 8-9 p.m., Eastern time, and "Mobile One" on Monday in the same time slot.

The network hopes one of the shows will catch fire at a different time, a magical switch which worked for them in the past with "Baretta." Two or three weeks should tell the tale.

In another switch story, NBC is reshuffling "Police Woman" and "Police Story." The first week in November, "Police Woman" will air, Tuesday, 9-10 p.m., Eastern time, switching with "Police Story," which will take over the "Woman" spot on Fridays, 10-11.

In one of those weird twists of television, CBS has been looking at the unaired episodes of "Fay," the situation comedy starring with Lee Grant that NBC has already canceled from its Thursday night schedule.

To take the shows in the order they are scheduled to go, "Holvak" goes off the air after this Sunday.

On Oct. 19, NBC will put a special "Ellery Queen" into that slot.

"We want to see how Ellery Queen works on Sunday night at 8," Marvin Antonovsky, NBC vice president, programs, said. "It played very well twice before for us at nine." He was referring to the pilot, which was aired in the 9 p.m. Sunday slot twice before.

"Ellery Queen" could be shifted if it works out," he said. "Ellery" has not been impressive in the ratings but Antonovsky believes there's a place for whodunits on television and still hopes this will be the one.

From then on through Dec. 7 NBC will while away that 60 minutes by expanding Disney to two hours, except for Nov. 23 when the network will air "Willie Wonka and the Chocolate Factory." Dec. 14 will be all-specials night on NBC.

Personal bathing is one of the heaviest household water uses, requiring 25 to 50 gallons for an average five-minute shower.

Army Rescues Officers From 'Uncertain Future'

FT. HOOD, Tex. (UPI) — The Army has granted at least a temporary reprieve to one of several hundred veteran officers who say they are being forced out of the service just before they qualify for retirement pay.

Army officials notified Maj. Jack Park of his reprieve hours before CBS-TV broadcast a nationwide news report on his case. The report, filmed earlier in the week, showed Park packing to leave Ft. Hood for an uncertain future.

Park, 49, a decorated veteran of three wars, was due to be dismissed next Friday — less than three months short of the time he would qualify to retire at half pay — because he had been "passed over" twice for promotion.

But, he told UPI in a telephone interview, the Army called him Thursday to say his severance date had been postponed until Oct. 30 so a special promotion board could consider his case.

Park is one of 2,500 career second and third class warrant officers, captains and majors ordered out of the service before the year's end.

"We have all given almost 18 years in service to our country," said Wall. "A lot of that time was away from our families, some of it in combat. We are not complaining about that. We've enjoyed our lives."

"It is just that we think it's a little bit unfair. We have served our country quite well. We think our country owes us some consideration. We feel that we deserve a little more than we are getting."

Park, 49, said the promotion passovers were based on a youth policy initiated by former Army Secretary Howard H. Callaway, who resigned to run President Ford's re-election effort. Because of that policy, 2,500 reserve warrant officers, captains and majors were given severance dates, most near the magic 18-year service mark. Under Army regulations any soldier completing 18 years of service must be allowed to stay in the service for the 20 years needed to qualify for a pension.

"My severance date is Nov. 11," said Wall, 40. "On that date, I will have served 17 years, 11 months and two days."

Wall served one year in Korea and two tours in Vietnam. Among the medals he earned

are four Bronze Stars with valor, Army Commendation Medal, Joint Service Commendation Medal, Air Medal, Purple Heart, Vietnamese Cross of Gallantry and the Combat Excellence Badge.

"We are not being passed over because we weren't doing our jobs. It saves the Army a lot of money if they can get rid of us now. It does create some hardships for us."

Park's case is different.

Thursday he received a call from the Army Department saying he would be reconsidered for promotion, delaying his severance date from Oct. 17 until Oct. 30.

"We had just about finished packing," Park said. "Then we received the telephone call. Of course we were happy. I am a soldier. I would like to stay in this Army as long as I can. No, we're not going to unpack yet."

World War II, Korea and Vietnam, said he, his wife and daughter, aged 14, had prepared to move to Dallas where he has been looking unsuccessfully for a job. He was six months short of tenure.

Your Horoscope

By Jeane Dixon

SUNDAY, OCTOBER 12

Your birthday today: Brings the first surprise of many to come this year. Devote most of your efforts to figuring out the most practical way to earn a living. Late in the year, all the loose ends and diverse enterprises can be consolidated into one profitable activity. Relationships fluctuate greatly. Today's natives make a private religion out of their work, are financially lucky, sometimes excel in fine arts.

Aries [March 21-April 19]: There's enough going haywire without your complicating matters further. Be prompt in carrying out your usual share of community observances. Give people time to sort themselves out.

Taurus [April 20-May 20]: Just when you're about ready to begin some outside projects, you discover that loved ones don't agree with your plans. No matter how annoyed you are, don't react harshly.

Gemini [May 21-June 20]: Get out of any work you can. Travel early and with exceptional care. Observing a Sunday of relative quiet is in your best interests.

Cancer [June 21-July 22]: Your natural inclination is to

have a sudden, generous fling. Don't feel you have to pick up the entire check. Keep skepticism and sales resistance high.

Leo [July 23-Aug. 22]: If you announce a plan, it runs into opposition and competition. If you're discreet, you'll have cooperation. Try not to get upset or irritable. Guard your health.

Virgo [Aug. 23-Sept. 22]:

You're asked to do something beyond your ordinary duty or responsibility. If it's a reasonable request, pitch in and do the best you can. You achieve a rating that helps out later on.

Libra [Sept. 23-Oct. 22]: Going along with your own crowd is about as costly as staying ahead of your rivals. You needn't do either. Evening is good for setting up new, serious plans.

Scorpio [Oct. 23-Nov. 21]: Family matters reach a minor crisis. Be there to fill your proper role in helping to bring about an agreement. Business deals made today have uncertain futures; wait for next week.

Sagittarius [Nov. 22-Dec. 21]: If you can find activities that don't involve extra spending, fine. Things that

save money are even better. Don't let contrary opinions disturb you; you are not the target.

Capricorn [Dec. 22-Jan. 19]: Do the least you can get by with this morning as you gather fresh energy and decide what you really want to do with the coming work week. Have a reunion this evening.

Aquarius [Jan. 20-Feb. 18]: Let life take its simplest course in the early hours and assert yourself gently but firmly after noon. Shared hobbies offer satisfaction and a chance to ask good questions.

Pisces [Feb. 19-March 20]: Decisions seem more urgent than they actually are. Don't accept extra work and be patient with the tedious

chores you must do. There's more to the story than what you've heard.

MONDAY, OCTOBER 13

Your birthday today: Finds you somewhat overextended. It's time for you to analyze your position in current circumstances and figure out how to cut back all matters to the barest essentials. Convert surplus resources to cash or trade them in for usable items. Relationships should be accepted for what they are and maintained with love. Today's natives are candid, casual, charming.

Aries [March 21-April 19]: Influential people interfere and cross you up if you insist on bringing them in. Those who know you well are helpful but can't produce miracles. Serious study to-

night pays off later.

Taurus [April 20-May 20]: You do your best work without encouragement from people with greater power. It's a good time to install a safety apparatus or to take care of your health.

Gemini [May 21-June 20]: Sidestep decisions; this isn't a day to make judgments. Shortcuts in routines provide more time and space for inventive ideas. Resolve to learn something new every day.

Cancer [June 21-July 22]: Money is tight in business; make do with less and defer large outlays. Set limits on budgets; get expert advice on legal and tax matters. Persuade associates to cooperate.

Leo [July 23-Aug. 22]: Find out how others feel and make amends to counteract yesterday's tensions. Organize the team for the week ahead; stock up on additional supplies and equipment.

Virgo [Aug. 23-Sept. 22]: You aren't free to go it alone, but there's much you can do in solitude. Strike an even balance between routine and creative efforts. Compare notes tonight.

Libra [Sept. 23-Oct. 22]: Concentrate on activity that doesn't require someone else's direct supervision. Expect resistance to any plan no matter how logical it is. Try to stick to earlier conclusions.

Scorpio [Oct. 23-Nov. 21]:

Pampa, Texas 69th Year

You're the odd man out in buckpassing today but let it stop with you. Do your job promptly; claim credit and compensation. Don't complain; you've got everything going for you.

Sagittarius [Nov. 22-Dec. 21]: There are enough guidelines for you to follow, so don't make drastic financial moves. Differences of opinion are natural; bear with the squabbles and work something out.

Capricorn [Dec. 22-Jan. 19]: Added responsibility is yours. You've had it all along, but failed to realize it. Put in a hard day's work, then leave it behind at quitting time. Pursue personal and romantic goals.

Aquarius [Jan. 20-Feb. 18]: Financial arrangements require further thought. Be a go-getter in clearing up existing problems and do some troubleshooting. Sidelines bring in extra cash.

Pisces [Feb. 19-March 20]: Be cautious in making purchases; you're easily misled right now. Survey your situation and complete tangled or neglected projects before jumping into complex ventures.

Little Angels Dance To Oriental Music

The Little Angels, a company of young Koreans, mostly girls, 9 to 14 years of age, were in Pampa only one night — Monday — but those who were members of the near-capacity audience at M.K. Brown Auditorium probably will have little trouble remembering the dancing and singing and entertaining for a long time.

The "Aak" or Court Music Orchestra which accompanied the Little Angels included such instruments as the a-thain, the chang-ko and the saing — a stringed instrument, a drum and a mouth organ, respectively.

The musicians, captured on film while they worked by Michal Thompson, photographer for The News, all are from the faculty of the Korean National Court Academy in Seoul.

Choreographer of the program, Miss Young Sook Park, watched the performance with a critical eye from off-stage.

The energetic youngsters provided encore entertainment after their physically demanding program was complete. A piano was wheeled on stage and the youngsters sang as beautifully and harmoniously as they had performed the folk dances.

The enchanting oriental music that accompanied the folk dances became easier to appreciate as the Western ear adapted to the unusual sounds produced by the assortment of about 50 instruments.

Some of the music making devices probably originated before written history. The instruments used in the program were, for the most part, exact replicas of the ancient ones.

A highlight of the program was the Buk Chum, a dance wherein each of the many young dancers performs with a set of six drums.

Mrs. James Edward King
**Miss Jackson, J. King
Exchange Vows**

The Apostolic United Pentecostal Church, Abilene, was the setting for the candlelight vows Saturday for Sharon Kay Jackson and James Edward King.

Parents of the bride are Mrs. Wanda Harper, Abilene, and Doyle Jackson of Fort Worth. The groom's parents are Mr. and Mrs. James King, Baird.

Officiating at the double ring ceremony was the Rev. H.M. Veach, pastor of the United Pentecostal Church, Pampa.

Providing music for the evening ceremony was Mrs. Maxine Larson who accompanied Mrs. Keith Hunt.

Vows were repeated before a white archway, accented with greenery, light blue flowers and light and dark blue candles.

The bride given in marriage by her uncle, Ray Henderson, Pampa, wore a gown of silk and Alfred Angelo overlay of rayon lace. It consisted of a high neck with blue ruffles, on the sleeves matching the bridegroom's suit. A full length chapel train fell from a high waistline. She carried a large bouquet of blue roses and carnations surrounded by white French carnations on a white "Mother of Pearl" Bible.

Edwina Whorton of Mena, Ark., was maid of honor. Other attendants were Marian Whorton, Vonda Winters, both of Pampa; Wanona Bowland, Fort Worth; Janae King, Baird; and Leasa Goolsby, Abilene.

Miss Whorton wore a light blue knit dress; other attendants wore similar dresses of royal blue material. They each carried matching parasols with tiny bouquets at the end of the parasol with a miniature bridesmaid on top of the bouquet.

Kimberly Henderson, Pampa, was the miniature bride, and Tye Flanagan, White Settlement, was the miniature groom.

Canadian Church Sets Revival

The First Baptist Church of Canadian will have a revival Friday, Oct. 19, to Oct. 26.

The event will feature the Rev. Claude Cone, Pampa. Dan Booher, Pampa, will lead music.

The meetings will be daily at 7:30 p.m.; a daily noon luncheon will feature Bible study during the week.

"HOW DID THE FIRE START?"

If every family will practice Fire Prevention: remove newspapers and rubbish; have the furnace and pipes cleaned; see that hot pipes and chimneys are insulated from combustible partitions and ceilings; plan with your children how they can escape from each room in the house - then one or more fire tragedies with loss of life may be avoided this winter.

Kitchen Designs Stress Style, Performance

By DOROTHEA BROOKS
United Press International
Whether it's in an apartment, a first house or a long-awaited dream home, the kitchen plays a major role in America's housing decisions.

Although life styles have changed over the years and kitchens with them, for most of us the kitchen is the hub of the home.

Think kitchen and you think American - colorful, magazine-cover American, the latest work-saving appliances, the most scientific step-saving design. But American is not the only word.

Talking with the folks from Poggenpohl, West Germany's 80-year-old pacesetter custom kitchen designer, and browsing through their catalogs, gives food for thought - and dreaming.

The Poggenpohl line, long familiar on the Continent and in England, is being introduced in the United States.

Robert S. Cohen, general manager for the USA, with headquarters in Teaneck, N.J., sees Poggenpohl as comparable to top quality U.S. lines but with certain extras that he attributes to old-world craftsmanship, attention to detail and function.

"The best architects in the world," he said, "design from the inside out because function

decides the form in every detail. And so it is with good kitchen system design.

"Appearance, important as it is - and Poggenpohl design covers the range from country to sleekest modern - is nothing without performance, performance that will last over the years.

"Fashionable units, which are here today and gone tomorrow, are not a proof of mature design," Cohen said, "nor are models which are changed at too frequent intervals. Good things cannot be improved every year."

Living by that credo, Cohen said, Poggenpohl today is supplying units to complement kitchens installed more than 20 years ago. The company marketed its first industrially produced, built-in kitchen in Germany in 1950. Not until 1962 was this replaced by the current line, which has, of course, been modified to take advantage of new techniques and improvements. Recently, for instance, a wide variety of units has been added for utility room use and for use as room dividers.

This long-term availability, Cohen said, makes possible for some families a quality custom-built kitchen they might not otherwise afford.

Whether building or remode-

ling, the dream kitchen can be laid out, the essentials installed, and units added one at a time as the budget allows.

A kitchen with approximately 24 running feet of space to house equipment and storage is considered ideal, Cohen said. However, satisfactory rooms can be fashioned in much less or greater space without expensive construction.

A mini-kitchen need involve only about eight running feet of space, he said. To make the most of such a kitchen, he suggested, laundry facilities should be moved to another area. A one-bowl sink will leave room for extra work space and will be adequate if a dishwasher is installed below. Special tables are available that pull out

like a drawer and can serve for additional work space or even seat as many as four for dining. Corner cupboards with swing-out shelves will avoid dead corners.

Too large a kitchen is inefficient. To make the most of extra space, Cohen suggested either a large family kitchen incorporating dining table and breakfast bar, a kitchen with separate dining area, or using a ceiling-height room divider to create two rooms from one, the second to serve as dining room or utility room.

Jaycee-ettes Host Shower

The Pampa Jaycee - Ettes recently hosted a surprise baby shower for Mrs. Charles McKinney, Mrs. Charles Milam and Mrs. Robert Schaub were co-chairmen.

The club presented Mrs. McKinney with a high chair and baby toiletries. Attending were Mrs. Milton Saltzman, Bobby Jeffers, Benny Horton, Dennis Schlegel, Bobby Schiffman, Martin Beck, John Triplehorn, Charles Milam, Robert Schaub, Ralph McKinney, mother-in-law, and Mary Weaver, grandmother.

Gardeners Preview

A preview of forthcoming programs was presented during the recent meeting of the Las Pampas Garden Club in the home of Mary Ann Boehmisch.

Alice Raymond told of the new programs. Lilith Brainard discussed a money-making project of Christmas yarn and wrapping paper.

Ms. Boehmisch presented a program on "Caring for House Plants."

Best results can be obtained if healthy plants are chosen, she

Karen Sue Abernathy and Robert Alan Fultz

Miss Abernathy Plans Wedding

Miss Karen Sue Abernathy and Robert Alan Fultz, both of Gallup, N.M., will be married Nov. 28 in the Bethany Christian Reformed Church of Gallup.

The announcement was made

by her parents, Mr. and Mrs. Bill J. Abernathy of 2235 Duncan.

He is the son of Clay Fultz of Gallup. The bride-elect was graduated from West Texas University in 1972 and is now a teacher in the Gallup Junior High School.

Her fiance was graduated from the University of New Mexico at Albuquerque. He is now employed by Clay Fultz Agency Inc.

Miss Boatman, Casey Exchange Wedding Vows

Miss Sharon Kay Boatman and James Robert Casey were married recently in the St. Vincent De Paul Catholic Church of Pampa.

She is the daughter of Paul M. Boatman of Richardson and Virginia J. Dagley of Dallas.

The bridegroom is the son of Mr. and Mrs. Charles R. Casey of 2130 N. Banks in Pampa.

The Rev. Wendlin Dunker, pastor, officiated at the double-ring ceremony.

The church decorations included white wicker baskets of pink and white gladiola accented by branch candelabra.

The maid of honor was Theresa Casey, and Danny Casey was best man.

Ushers were Mark Boatman, Tom Boatman and Leo Dagley. Escorted and given in

marriage by her father, the bride wore a gown of candlelight organza over pale pink floral print. Her veil was lined with lace, and her bridal bouquet was of pink rosebuds.

The reception was in the Flame Room of Pioneer Natural Gas Co. Assisting were Barbara Gilley and Kathy Casey.

The Caseys are now at home at 2303 Langdon Ave. in Dallas.

The bride is employed at Presbyterian Hospital in Dallas as a laboratory technician. She was graduated from Richardson High School.

He was graduated from Pampa High School and North Texas State University. He is lead guitarist with the Buster Brown Band.

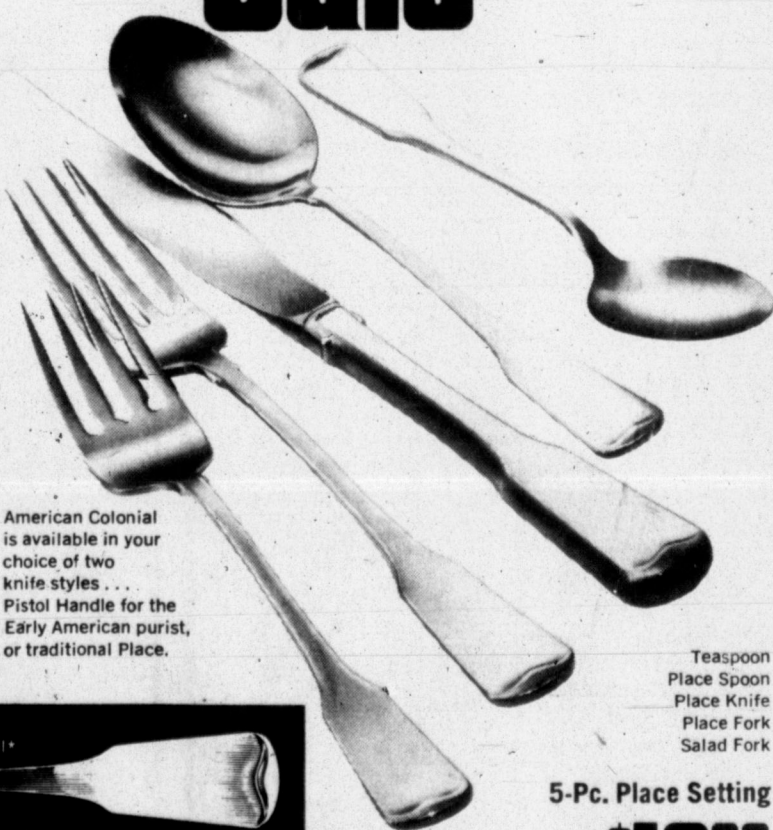

Pre-nuptial events included a shower and a rehearsal dinner at the Country Inn.

Turmoil Between Demos Causes Plan Problems

WASHINGTON (UPI) — The Democrats open four days of meetings here Sunday that promise to replay some of the same "New Politics" versus "Old Regulars" battles which have kept the party in turmoil since 1968.

Again at issue in the sessions — two days of national executive committee and two more of full national committee deliberations — are the delegate selection rules for the 1976 party convention in New York next July.

The Democratic regulars who lost most of their efforts to erase changes imposed on the party by

its militant reformers after the disastrous Chicago convention seven years ago are making one more try this week. If their track record of the recent past is any guide, they will lose again.

Preparing for the set-to, the reformist Democratic Planning Group issued a special alert seeking to put pressure on the executive committee to reject the Regulars' rules proposals. Americans for Democratic Action appealed, directly to Democratic National Committee Chairman Robert S. Strauss to oppose them.

The specific changes sought by Regulars, led by South

Carolina chairman Donald Fowler, would give state party leaders the authority to choose a larger percentage of national convention delegates than now authorized and set conditions for delegate selection within the states that reformers claim would subvert the 1974 rules after a bitter intraparty struggle.

The essence of the reform rules adopted by the party give rank and file Democrats a far stronger voice in its affairs than in the past and force leaders to make provable efforts to involve women, minorities and young people in its operation.

Post-1968 quotas for the "traditionally under-represented" groups were dropped after 1972, but "affirmative action" rules were substituted that vex many of the party regulars just as much.

The proposals will go first to the 25-member executive committee and then to the full 301-member national committee. The executive committee is relatively evenly divided between the party factions, but the national committee in the recent past appears to have a reform majority.

Also on the schedule for this week's meetings is action on the party by-laws, which also are a part of the regular reform battle.

One item, a definition of the term "all party affairs," involves reformers' demand that affirmative action programs be implemented all the way down to precinct organizations and the regulars' complaint that such an application will cause chaos in party operations. A compromise has been readied for the meetings this week.

The executive and national committees also will adopt a "Final Call" for the July 12-16, 1976 convention at Madison Square Garden, and appoint the key convention committee chairmen. Even this bit of housekeeping could set off controversy because the leadership of such committees as Rules, Credentials and Platform could determine the shape of the convention's work.

The 10 largest post offices in the nation, based on recent postal receipts are, in order: New York, Chicago, Los Angeles, Washington, Philadelphia, Boston, Atlanta, Dallas, San Francisco and Detroit.

Bike Ride for Cancer Set Sunday Afternoon

The annual bicycle ride to promote the Cancer Fund drive, sponsored by the Pampa Jaycees, will begin at 1 p.m. Sunday at Coronado Center, according to Mrs. John Triplehorn, a Jaycee-ette who is assisting in the organization of the 30-mile ride.

The route will be around the city and anyone who can ride a bicycle is eligible. It is not a contest of speed. Awards will be presented to persons with the most sponsors, the oldest rider and the youngest rider completing the route.

There will be four rest stops during the ride, with soft drinks donated by the Pampa Coca-Cola Bottling Company and

cookies furnished by the Jaycee-ettes and other Pampa sororities, Mrs. Triplehorn said.

Entry forms for riders are available at schools.

Money for the Cancer Fund will be donated by sponsors of riders who pledge donations based on the number of miles riders complete.

Riders who do not have sponsors may contact Mr. and Mrs. John Triplehorn after 5 p.m., Mrs. Charles Milam, or Mrs. Benny Horton, Mrs. Triplehorn said.

She said that, for safety, a police escort will be provided and Jaycees will be riding the entire route.

Cub Scout Round Table Set Tuesday

The monthly Santa Fe District Cub Scout Round Table will be at 7 p.m. Tuesday at the Adobe Walls Council office, 815 N. Sumner.

Every cubmaster, committee person, webelos den leader and cub den mother is to attend.

A program on Indian themes for the November meetings will include opening ceremony Indian crafts and jewelry and Indian games.

P. Fallon Creates With Gold, Silver

By JANE P. MARSHALL
Pampa News Staff

"I like beautiful things that you can wear... you can express yourself in jewelry," said Pernie Fallon, her lovely face thoughtful.

The items she creates from gold and silver express grace and beauty in an unusual way... a witch sculptured with curls of silver for her skirts... an abstract gold ring which caresses a pearl-like stone... two long flowing figures meeting around a silver bracelet.

Miss Fallon, who lives at 2235 Charles and is the daughter of Mr. and Mrs. Ben D. Fallon, shapes the metals into a variety of designs.

"I feel pleased with my work," she said.

The young woman, who has completed two years at Arizona State majoring in sculpture and jewelry, began her career in jewelry while in Pampa Junior high school. Working with teacher Wileta Olds, she created a ring which won her a gold medal at competition in New York. In high school, she received the annual Fine Arts Association scholarship in Pampa.

Lost wax technique, forging and forming and lamination are the methods she uses in jewelry making.

This summer, she used turquoise, liquid silver and other materials to form Indian type jewelry which she said sold well here. Miss Fallon ordered her supplies from "an old desert rat" in Arizona.

Other supplies come from Dallas and Albuquerque.

Jewelry making almost was a lost art, Miss Fallon believes, but it is experiencing a revival. And she believes that the rising costs of gold and silver will not hamper jewelry artists.

Gold is her favorite medium, she said. "Gold gives more detail is more versatile and flexible," she said. "You can do so many different things with it."

Many of her pieces take more than a week to create.

She likes to make rings and pendants, and she especially likes to make custom jewelry.

"I can get to know the person and work with the person in mind. I can give them something they have always wanted and can't find in stores."

Miss Fallon experiments with techniques and styles.

"If I don't like it, I can do it over until it is the way I like it... I like the experimentation," she smiled.

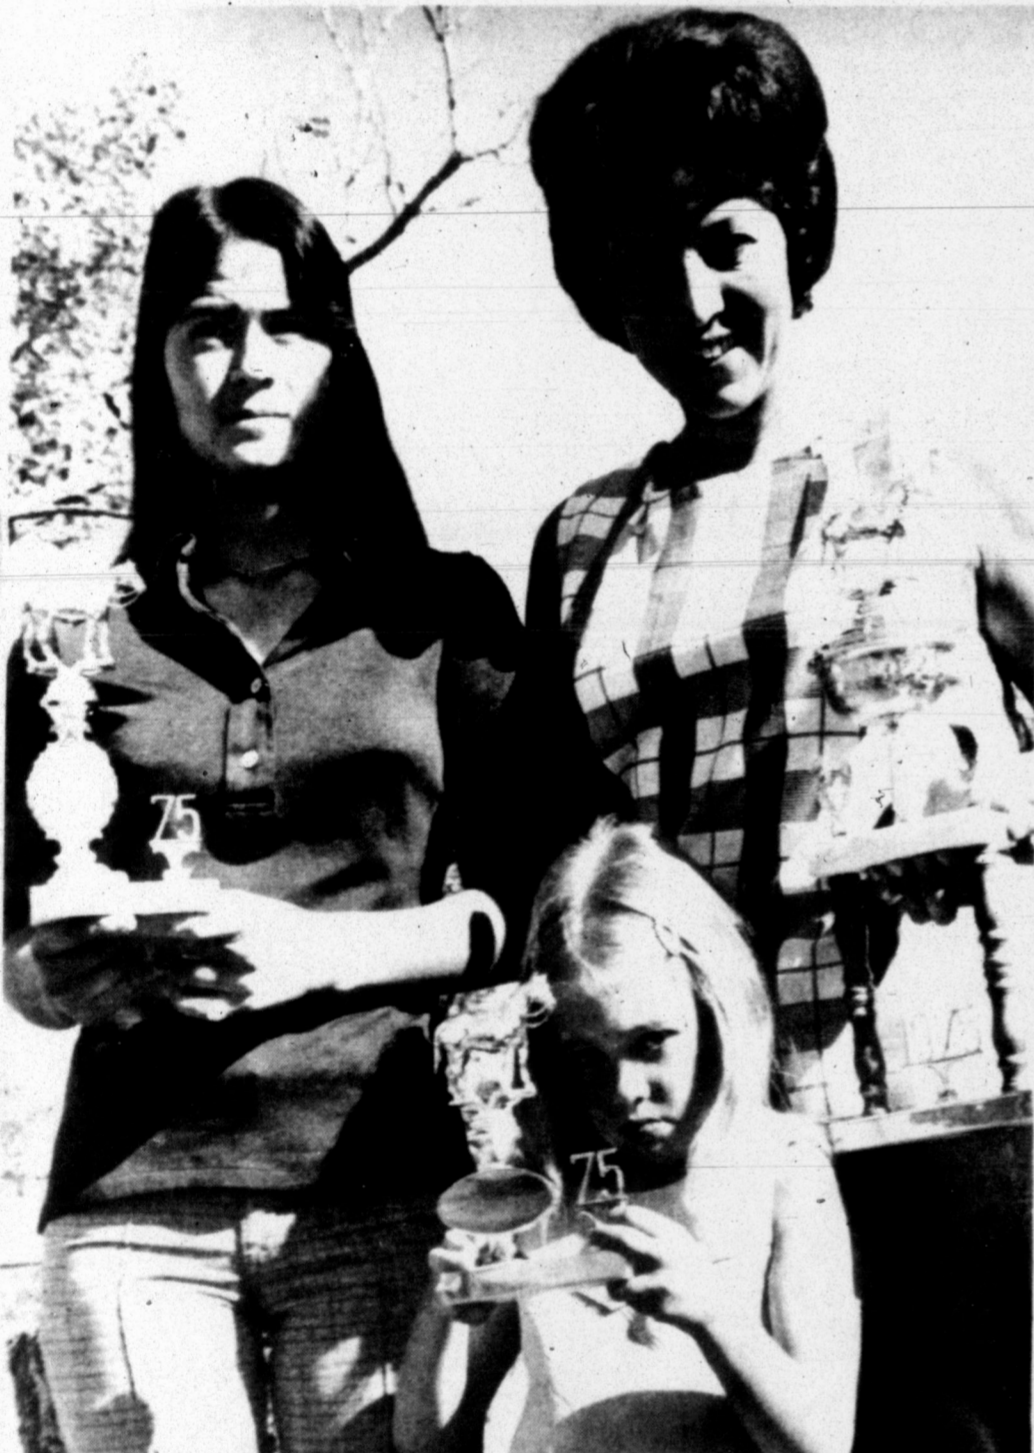

"There is so much to do... I just want to try it all."

Miss Fallon is only one of the more than 60 exhibitors at the Arts and Crafts Festival ending at 5 p.m. today in M.K. Brown Auditorium. The exhibits include crafts, pottery, enamel work, a variety of paintings, barbed wire sculpture and a gourmet booth.

Also part of the festival is a flower show sponsored by the Pampa garden club, and a Quilt Fair in Coronado Inn.

Leather and Lace Winners

Tammy Winegeart, left, DeAnn Tayler and Connie Mixon show trophies won recently at the Leather and Lace Trophy Playday. Connie was second runner up in the category for girls 7 years of age and younger.

(Pampa News photo)

Playday Winners Told

The Leather and Lace Riding Club of Pampa recently sponsored a trophy playday at the Top O' Texas Rodeo Arena east of town on Highway 60.

Participants in the event came from many area towns — Amarillo, Stinnett, Miami, Lefors, Mobeetie — and from

points in Oklahoma and Kansas.

Proceeds from the event were donated to the Pampa Senior Citizens and to the Multiple Sclerosis Fund.

Trophies were donated by merchants in Kingsmill, Hoover and Pampa.

Age groups and winners included:

7 and under, girls — 1st, Lisa Maddox; 2nd, Sissy Giddeon; 3rd, Connie Mixon.

7 and under, boys — 1st, Shay Huckaby; 2nd, John Atchley; 3rd, Ben White.

8-14, girls — 1st, List Philly; 2nd, Christel Atchley; 3rd,

LaJona Taylor.

8-14, boys — three-way tie, Jim Bridwell, Ricky Collins, Doug Davies.

15-20, girls — 1st, Shannon Shipley; 2nd, Tammy Winegeart; 3rd, Diana Weinheimers.

15-20, boys — 1st, Joe Bridwell; 2nd, Darrel Philly; 3rd, Tommy Gregory.

21 and over, women — 1st, DeAnn Taylor; 2nd, Pam Britten; 3rd, Eudene Curell.

21 and over, men — 1st, Bill Klapper; 2nd, Doyle Huckaby; 3rd, Terry Britten.

Catholic Students Win Ribbons

Twenty-six students from St. Vincent de Paul School in Pampa returned recently from "Fun Day" in Amarillo with eight ribbons.

The event including fourth, fifth and sixth grade students attending Catholic Schools in the Amarillo Diocese.

First place winners were Leslie Albus, Danny Guerra, Lance Hungerford and Kevin Ebinkamp. Second place winners were Stephanie Rodriguez, with David Sokolosky and Leslie Albus taking third place.

Flood Insurance Coming Up Again

Two resolutions authorizing the City of Pampa to participate in the National Flood Insurance Program will be considered by city commissioners when they meet in regular session at 9:30 a.m. Tuesday in City Hall.

The matter had been considered several weeks ago by the commission but no action was taken because officials said they did not know what the city's future obligations would be under the program.

Federal officials have advised that Pampa has several flood-prone areas within the city limits and if the city does not join the program federal FHA and VA loans will be withdrawn for local building construction.

Representatives from the Pampa Board of Realtors are expected to attend Tuesday's meeting and urge councilmen to enroll Pampa in the flood insurance program.

City officials say pressure to join the program has come from home-owners, prospective builders and realtors.

Other matters on the Tuesday agenda, released Saturday by Mack Wofford, city manager, include the following:

Public hearing on the proposed demolition of abandoned buildings at 530-35 N. Warren and 703 N. Ballard.

Opening of bids for the repair and painting of the North Crest water tower.

Authorization for payment of Pampa's share of operation and maintenance costs to the Canadian River Municipal Water Authority for fiscal 1975-76.

Hear a recommendation in

they want to continue," said Dr. Stephen Bruck, program director for biomaterials at the NIH's National Heart and Lung Institute.

"I'm not saying the artificial heart shouldn't be worked on," he said, "but an artificial heart is 25 years away, if at all."

"The medical profession requires a lot of other things besides an artificial heart,"

regard to the awarding of a bid for a lease of land described as the North 1/2, Sec. 76, Block 3, I&GN Survey in Gray County.

Consider on first reading an ordinance providing for a joint public hearing on a zoning change from Agricultural to Single Family homes on a portion of the North Crest Addition.

Consider transfer of \$65,000 from Utility Fund to General Fund.

Set, Nov. 11 to receive bids for the purchase of a tire truck and equipment.

Discuss proposal to change regular Oct. 28 meeting to another date.

Hear request from the City Planning and Zoning Commission.

School Board Will Hear HEW Report

The trustees of the Pampa Independent School District will meet at 4 p.m. Monday in the conference room of Carver Center, 321 W. Albert.

The board will hear a review report on the recent Department of Health, Education and Welfare decision that busing was not necessary in Pampa.

Other business will include a request for a band trip to Atlanta, Geo., adjustments of delinquent tax, report on TSTA-TASB conference, report from school architect on physical facilities and report on study of business operations.

INSUR-MATION

by David Hutto
Gray - Roberts County
Farm Bureau Insurance

Can life insurance compare favorably with a savings account as far as the return on investment is concerned?

Certain. The unknown which you don't mention and maybe haven't thought of is time. For example, \$100 a month invested in a savings account for 120 months equals \$1,200 plus interest. At today's rate of interest this could very well amount to \$20,000 to \$25,000. This is great... if you have the time. Conversely, assuming a male, age 35, a company could write a whole-life insurance policy for around \$40,000 a month. If the insured dies at the end of 12 months, the total investment would be approximately \$480.00 and the company pays the total \$25,000.

TEXAS TALK

By
Doug Howard

Some of the facts were hard to find. During the uproar about the grain sale to Russia the farmer came off as the fall guy. To keep things in proper perspective let's look at facts that were hard to find in the headlines. It takes one bushel of wheat to make seventy (70) loaves of ordinary white bread. Give or take a couple depending on wheat quality and milling methods. If wheat prices increased one dollar per bushel, then it takes less than a degree in calculus to figure out the increase is less than one and a half cents per loaf. The news media has a hang up on bread being a dollar a loaf. If bread were going to be a dollar a loaf... and if that increase were to be caused by farm prices... then wheat would have to go up FORTY DOLLARS A BUSHEL. If it happens you'll have less to read since the efforts used producing this column will be diverted to plowing up the back yard... the front yard... the neighbor's yard...

Body Implants or Hearts?

WASHINGTON (UPI) — A federal research scientist said Saturday his bosses at the National Institutes of Health want to stop developing heart valves and other lifesaving implant devices in order to concentrate solely on inventing an artificial heart.

"They want to put this program out of business except for the artificial heart, which

Bruck said in an interview.

Bruck said far more patients would benefit much sooner from development of such "biomaterials" as heart valves, blood oxygenating membranes in artificial lungs, membranes for artificial kidney machines and anti-clotting implants.

But he said NIH officials want to scrap research into biomaterials — his program — and pour all available resources into the more glamorous and prestigious race to develop the world's first artificial heart for implantation in humans.

Bruck said he has taken his case for maintaining the biomaterials program to Congress and has suffered "harassment and defamation of character" by NIH officials who oppose him. As a result, he said,

he has decided to present his case to the public.

He released copies of correspondence he and opposing NIH officials have had with members of Congress on the issue, including a Sept. 26 letter written to Sen. Charles McC. Mathias, Jr., R-Md., by an NIH personnel management official.

"The National Heart and Lung Institute has a new director... who is faced with many problems," the letter said. "I consider Dr. Bruck and his views on the scope of the Biomaterials Program to be one of the long standing problems."

Bruck said his program spends slightly more than \$3 million a year in grants and contracts — about two-tenths of the NIH budget — and its staff consists only of himself and a

secretary.

He was graduated from Johns Hopkins University with a Ph.D. in biochemistry in 1955 and has worked at NIH for 6 1/2 years.

"It's not a question of my job," he said. "I believe we are doing good things for mankind. Even if I were fired, I hope the program would continue."

Pampa, Texas

Passing Mom in height. That's a tall moment in your boy's life. Naturally, he'll take much of the credit. But you know the care and attention he got during infant years were essential.

The story of American agriculture and Production Credit Association is similar. Sound credit service has played a big role in helping both farmer and rancher gain their present business stature.

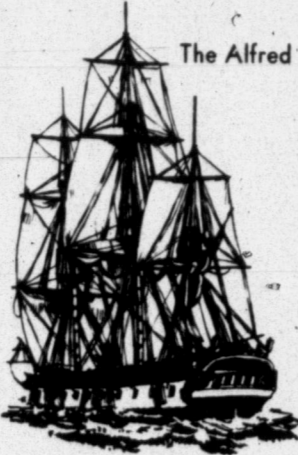

And we're ready right now to help you with most broad-shouldered tasks your future plans may include.

The go-ahead people

We Hold These Truths...
A Chronicle of America

October 13, 1775:

On this day, ironically a Friday, Congress resolves that "a swift sailing vessel, to carry ten carriage guns [later changed to 14]... be fitted, with all possible dispatch" to intercept "such transports as may be laden with warlike stores and other supplies for our enemies, and for such other purposes as the Congress shall direct." Thus does Congress take its first step toward the creation of a navy. Later the same day, Congress resolves "that another vessel be fitted out for the same purposes; on the 30th, Congress authorizes the outfitting of two more ships. In November, the *Alfred* and the *Columbus* are purchased, followed by purchases of the *Andrea Doria* and the *Cabot*. In December, Congress raises the number of authorized ships to 13.

Texas Cafe Offers Bullockburgers

WHITEHOUSE, Tex. (UPI) — State Comptroller Bob Bullock's raiders closed down David Chamber's cafe for nonpayment of sales taxes. Chamber's back in business now and he's offering a special on "Bullockburgers."

The special is advertised by a sign in front of the small, red brick cafe reading: "Bullockburgers, three for \$1 or 45 cents each. We pay the tax."

"Yeah, Bullockburgers — they're cheap, tasteless and hard to swallow," said Chambers, owner of "Brother Dave's" drive-in nine miles south of Tyler in East Texas.

Bullock's tax raiders have made a number of well publicized raids on sales tax delinquents across the state in recent months. They closed down Chambers' restaurant and hardware store in the tiny farming community for one day because he owed \$5,616 in back sales taxes.

He paid in cash and reopened the hardware store and restaurant, featuring the new menu item.

Waitress Linda Parker, 28, scrambled around the 50, formica-topped tables, taking orders from farmers, ranchers and a horde of teen-agers in town for a high school football game.

She said the regular customers were angry when the cafe closed for a day, especially those accustomed to their early morning coffee.

"I only live three doors away and for a while a whole town threatened to come to my house for coffee," she said. "I hid."

"We're pretty well known for our chicken-fried steaks and onion rings. But the specials (Bullockburgers) are selling pretty good."

"In these days of inflation at popular prices, it's hard to run a small business," said Chambers.

The restaurateur said he had a long talk with Bullock's staff concerning his tax account.

Chambers said he invited Bullock to visit his little cafe to try one of the new burgers "made up of 100 per cent pure bull."

Watergate Not Stop Campaign Angles

WASHINGTON (UPI) — The amounts may be smaller, but the campaign angles are coming through as usual for the 1976 presidential hopefuls, Federal Election Commission data showed today.

Three of the dozen presidential campaign committees required to file by midnight their reports for July, August and September were in a full day ahead of the deadline, and the quarterly reports indicated a good flow of money for the first post-Watergate presidential campaigns. President Ford, the lone announced Republican

candidate, reported taking in nearly \$700,000 during the three-month period.

Sen. Henry M. Jackson, D-Wash., announced he would report receiving \$1.67 million in the first nine months of 1975 and having a cash balance of \$1.24 million at the beginning of October.

Jackson raised \$473,000 in the latest three month reporting period and said his campaign now has taken in \$2.8 million since July, 1974.

Gov. Milton Shapp of Pennsylvania, the latest of eight Democrats to announce for his party's 1976 nomination, reported taking in almost

\$105,000, even though he was not a formal candidate until a few weeks ago.

The report of the President Ford Committee, with \$273,540 in expenditures, showed the President's campaign had more than \$400,000 in the bank on Sept. 30. Shapp's campaign bank balance was only \$20,404 after \$101,000 in expenditures.

Among the first to file, a day ahead of the deadline, was the President Ford Committee, the campaign organization the President set up last summer to plan and run his 1976 election bid.

It reported collecting \$696,925 during the three-month period, taking in money at a rate of almost \$8,000 a day. It spent \$273,540 during the same period, leaving PFC, as it is known, with more than \$400,000 in the bank as precampaign activities begin rolling.

Hundreds of the contributions, mostly at the \$250 level needed for qualifying the President's renomination campaign for federal subsidies in 1976, listed corporation chairmen, presidents and executive officers as Ford donors.

Pampa's Economy Prospers

Lubbock Monterey 'Passifies' PHS 14-0

By PAUL SIMS
Sports Editor

Lubbock Monterey quarterback Scott Gardner completed 11 of 18 passes for 152 yards, directing the 4-AAAA team to a 14-0 blanking of Pampa before 4,000 fans in Harvester Stadium Friday night.

The loss is Pampa's first in five non-conference games. The Harvesters, 4-0 a year ago prior to the game, lost 15-0 to Monterey in the final non-district game. Monterey is 4-2.

Gardner, a versatile 6-5 senior who is adept at basketball and baseball as he is at quarterbacking, passed Monterey into Pampa territory throughout the game. The Plainsmen also gained 124 yards on the ground, as Pampa yielded more total

yardage in the contest than it had in any of its four wins.

Monterey struck at 4:59 in the first quarter when halfback David Walden took a pitch from Gardner and sprinted 13 yards around left end for a touchdown. A fumble recovery by sophomore linebacker Ron Reeves on the play before gave the Plainsmen possession on the Pampa 13.

Monterey drove 78 yards in 15 plays, consuming almost six minutes of the second quarter clock to score a second TD. Halfback Dany Leveyce burst one yard up the middle for the score with 57 seconds left in the half. Pete Runco, as he did following the first touchdown, added the extra point.

The big plays in the scoring march included passes of 18, 15 and 17 yards to

Richard Bowles, who kept Pampa's secondary active throughout the evening.

Bowles, for the game, caught four passes for 95 yards. Following a Pampa punt after Monterey's first-quarter touchdown, the Gardner-Bowles combination connected on a 45-yard pass play that gave the Plainsmen first down on Pampa's 26.

Four plays later Monterey found itself on the 25 as the Pampa defense, No. 1 in 3-AAAA a year ago, ruined the visitors' hopes for another score.

Monterey's defense seemed more aggressive than Pampa's usually stalwart defensive outfit in the contest. The Plainsmen pressured quarterback Garland McPherson, who was thrown for losses six times for a total of 28 yards.

Pampa, on the other hand, managed to get to Gardner only once, for a four-yard loss.

Pampa, a strong second-half team all season, forced a punt on the Plainsmen's first series of the second half and took over on the Harvester 27.

Pampa, behind a 19-yard scamper by halfback Ricky Moore, drove to Monterey's 25 but defensive linemen Larry Green and Mark Morgan threw McPherson for a 10-yard loss on first down. On the next play, Reeves broke quickly into the Pampa backfield and caused a fumble, which John Paikowski recovered on the 42.

Monterey proceeded to drive to the Harvester 14. The drive included a 16-yard pass to Jody Hughes, a 10-yard end run

by David Griffith and a 10-yard pass to Mark Roddy.

Pampa's defense stiffened, tough, forcing field goal attempt by Runco. The kick, a 31-yard attempt, went wide to the left at 11:04 in the final period.

Pampa then drove to Monterey's 36 but lost the ball on downs. Neither team was able to sustain a drive or threaten for the remainder of the contest.

Monterey, except for moments in the second half, dominated the contest, outrunning Pampa 124-114. Monterey limited McPherson to two completions, both to Jerry Rhoades on tosses of 23 and eight yards.

Leading rusher in the game was Moore, who carried 17 times for 67 yards. Pampa

halfback Mike Glover ran nine times for 44 yards.

Monterey, on the ground, was led by Leveyce, who picked up 43 yards on 13 carries.

Pampa opens District 3-AAAA warfare against Caprock at 7:30 p.m. Friday in Amarillo's Dick Bivens Stadium. In the other district game Friday Amarillo High is at Borger. Saturday afternoon, Amarillo Palo Duro and Amarillo Tascosa meet in Dick Bivens Stadium.

'Rockets Burn Ponies In District 2-A Game

WHEELER — Jesse Davis scored two touchdowns and three extra points to carry undefeated and state-ranked Wellington to a 29-6 win over scrappy Wheeler Friday here.

The win gives the Skyrockets a 4-0-1 record overall and 2-0 mark in 2-A play. Wheeler is 2-3 and 1-1.

Wheeler scored first in the contest, as Don Brown connected with Robert Wills for a 62-yard bomb. Jim Verden's kick was wide on the extra-point attempt at 9:59 of the second quarter.

With 52 seconds left in the first half, Davis scored on a one-

yard drive. Davis kicked the extra point to give Wellington a 7-6 halftime lead.

Neither team was able to sustain a third-quarter drive. Wheeler punted to Wellington late in the period, giving the visitors possession on the 12.

It took the Skyrockets 12 plays to drive 88 yards for another score, with Davis bursting two yards off left tackle with 9:41 left in the game. He also ran in the conversion for a 15-6 lead.

After a Wheeler punt, it too the 'Rockets six plays to march 70 yards. Arnie Ingram ran 24 yards in the drive, and quarterback George Brewer scored the TD on a nine-yard scamper around right end. Brewer ran for the extra points with 3:32 left in the game.

Wellington's Richard Sims

intercepted a pass on the Mustang 37 to set up the final score.

With 48 seconds left in game, Brewer scored on a four-yard run off left tackle. Edward Thomas missed the conversion try.

Wheeler, held to 61 yards on the ground, was paced by Danny Helton with 76 yards on 17 carries. Wellington gained 354 yards on the ground.

Wheeler visits Shamrock Friday, while Wellington entertains Claude.

Boston Humbles Cincinnati

BOSTON (UPI) — Luis Tiant, a crafty Cuban right-hander with more pitches than a used car salesman, humbled the hard-hitting Cincinnati Reds with a five-hitter and touched off a six-run, seventh-inning rally with his first hit in three years Saturday to lead the Boston Red Sox to a 6-0 victory in the first

game of the World Series. The 34-year-old Tiant, who won the first game of the American League playoffs against Oakland and always seems to save his best for the really important games, completely fooled the Reds' batters with an assortment of changeups, curves, sinkers and

fastballs, allowing only four runners to get as far as second base.

Spurred on by chants of "Looie, Looie" from the standing room Fenway Park crowd of 35,206, Tiant gave up only one hit over the first four innings and retired the Reds in order five times to win the first

World Series game of his 12-year big league career.

Carl Yastrzemski and Rico Petrocelli, the only two members from the Red Sox' last pennant winner in 1967, also contributed greatly to the triumph. Yastrzemski singled home Tiant with the first run of the big seventh inning and Petrocelli delivered a two-run single in the same inning.

Given the big bulge, Tiant became even stingier over the last two innings, retiring the final six batters in succession to record the first shutout in World Series play since Bob Gibson of the Cardinals blanked the Detroit Tigers in 1968.

The Reds really had only four scoring opportunities against Tiant.

Tigers, Ranchers Tie

BOYS RANCH — Undefeated Boys Ranch and state-ranked and unbeaten Groom battled to a 0-0 tie Friday here in a non-conference football game.

Groom is now 5-0-1 for the season, while Boys Ranch is 4-0-2.

Tiger coach Don Sessom, although displeased with the outcome, was satisfied with his team's overall performance.

"Our offensive line had the best blocking nite they had all

year long," Sessom said. "Our backs didn't run real well through holes — they fell down and ran into blockers."

"Defense was excellent. Mike Koetting (end) was probably the best defensive man on the field last night. Time and time again, he'd make the big play. He'd come on every blocker that'd take at him and still make the tackle."

"We should have won the ball

game but you've got to hand it to Boys Ranch where credit's due. Boys Ranch's defense rose to the occasion real well."

Groom's Chris Britten led all rushers with 25 carries for 104 yards. John Drizan added 63 yards on 13 carries.

The Tigers lost halfback Thomas Reed for at least three weeks with a sprained leg and muscle tear and running back Phillip Britten for four weeks with a knee injury.

Miami Tips Okies In Comeback Win

MIAMI — Kirk Flowers scored three touchdowns, including a fourth-quarter TD on a 10-yard run, and two points on a conversion run which pushed Miami to a thrilling 30-9 come-from-behind win Friday.

Miami is 5-0 for the season, while Goodwell is 4-2. The Warriors, prior to the game, had not allowed a touchdown.

Aaron Helm scored on a six-yard run in the first quarter to give the visitors a 6-0 advantage. The kick for an extra point failed.

Kenneth King ran 12 yards to give Goodwell a 12-0 lead before Flowers found success, bursting 44 yards for a score. Juan Segovia ran the conversion to pull Miami to within four, 12-8.

King's two-yard run and a conversion kick by Ette-Ette gave Goodwell a 19-8 advantage.

Flowers scored on a 56-yard run, while Segovia ran the conversion. Ken Jenkins gave the Warriors the lead with a five-yard scamper.

Ette kicked an 18-yard field goal to put the game at 22-22.

Goodwell took the lead on a 15-yard pass from King to Ronnie Marrow. Bart Rider converted.

Flowers scored on a 10-yard run in the final quarter and added the go-ahead points with a conversions on.

Miami, which played its homecoming game Friday, opens District 2-B, eight-man play at home against Follett this week.

Amarillo, Tascosa Shoot 355, Tie For Borger Title, Harvesters 6th

BORGER — Amarillo and Tascosa both shot 355 to tie for the championship in the Borger High School Girls Invitational Golf Tournament Friday at Phillips Country Club.

The co-champions whipped Borger 363, Caprock 399, Palo Duro 405, Pampa 425, Plainview 437 and Guymon, Okla. 527.

Medalist was Cathy Cobb of Tascosa with 83. Joyce Hooper of Borger decided Liz Remy of Amarillo in a playoff for runner-up honors after the girls had tied at 85.

Other individual scores

included Kathy Eschenburg, Amarillo, 86; Ronna Whitson, Borger, 88; Cathy Lancaster, Amarillo, 89; Valerie Prince, Tascosa, 89, and Candy Conner, Tascosa, 89.

Pampa scores were Serena Lampkin 99, Sue Cook 101, Alicee Kirby 110, Janet Keagy 115 and Geryln Hills 117. Miss Hill's score was dropped.

"We've set a goal to get five girls below 100 before spring," Pampa coach Tommy Lindsey said, "which is what we'll have to do in order to be competitive in district."

"The girls improved by 31 shots over last week. Sue Cook and Alicee Kirby played much better and are constantly improving."

Pampa will hold an intrasquad qualifying round Friday in Amarillo.

Cross, Hughes 1st in Zone Meet

AMARILLO — Deven Cross and Dick Hughes of Pampa were Punt, Pass and Kick zone winners Saturday here and will advance to the district competition this weekend in Oklahoma City.

Cross won the nine-year-old championship, while Hughes was first in the age 10 division.

Greg Odum was third in the 13 bracket.

Harold Barrett Ford and the Harvester Booster Club are sponsoring the Pampa youths.

Bronco 4th-Quarter TD's Ruin Tigers

CLARENDON — McLean, hoping to reverse last season's 0-10 record by winning a District 2-A championship, had its dreams somewhat dented Friday here as powerful Clarendon rolled to a 31-10 win over the Tigers.

The game was close until the third quarter. McLean had a chance to at least pull within a

point, trailing 17-10, after Billy Bob Terry recovered a Clarendon fumble on the 20. The Broncos then held McLean on the one-inch line as the Tigers gave up the ball on downs.

"I think that was the turning point," McLean coach Robert Mears lamented.

Clarendon then scored two touchdowns to clinch the victory.

The first was on Howard Weatheron's four-yard run at 5:44 in the fourth quarter. Gark Jack kicked the extra point for a 24-10 lead.

Clarendon scored on John Hall's one-yard run with 2:06 left in the game. Barry Scafeher's extra point put the Broncos in front by 21.

Scafeher opened the game's

scoring with a 30-yard field goal at 7:12 in the first period. After a blocked punt on McLean's next series, Larry Shields scored on a 10-yard run for Clarendon. Jack kicked the extra point.

Dean Trew blocked a Clarendon punt at 1:38 in the second quarter. Randy Kennedy fell on the ball for the Tigers, and, four plays later, Morse

Haynes kicked a 30-yard field goal.

With 29 seconds left in the half, Jack passed to Walter Ruggs for a five-yard touchdown. The scoring drive started after Howard Weatheron returned the McLean kickoff to the Clarendon 40. Scafeher booted the extra point.

intercepted a Jack pass and returned it 25 yards for a touchdown with 2:09 left in the third quarter. Haynes' extra point pulled McLean to within seven at 17-10.

"We played terrible," Mears said. "We had a breakdown in the offensive line. We couldn't get out blocks. Clarendon's got a good football team — probably

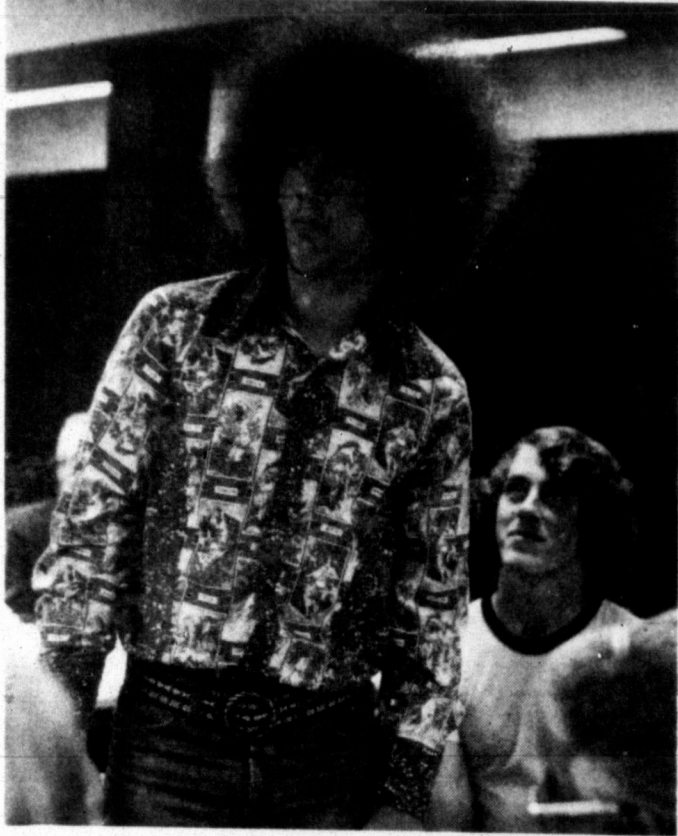

the best defensive team we've played all year, even counting Groom."

Shields rushed 11 times for 100 yards, while Scafeher added four carries for 39 yards. Sammy Don Haynes and Curtis Simpson led McLean with 16 and 15 yards, respectively.

McLean visits Memphis Friday, while Clarendon travels

to Silverton. In District 2-A, the Tigers (3-2 for the season) trail Wellington and Clarendon by one game.

'Skins Top Standings In Tiger League Play

The Redskins remained atop the Tiger League football standings by bouncing the Packers 19-6 Tuesday.

Cavin Coleman scored touchdowns on runs of 45, 68 and 61 yards to lead the Redskins, now 3-0 for the season. Harold Landers tallied an extra point.

Randy Slaybaugh scored the Packers' only touchdown on a one-yard plunge.

After a scoreless first quarter in the second game, the Colts unleashed a devastating offensive attack to trounce the Browns 41-0.

Halfback Deral Dunn scored touchdowns on runs of 19, 19 and 45 yards. Mark Kotara scored twice on runs of two and 41 yards and added two extra points. Wade Gordzelik also scored for the Colts, running six yards. He tallied two one-pointers. Quarterback Kevin Keck added one extra point.

Tuesday, the Cardinals meet the Colts in a crucial game at 6 p.m., while the Browns tackle the Packers at 7:30 p.m. The games will be played in Optimist Park.

Hubbart Boosts Wildcats Past Elks

STRATFORD — Russ Hubbart rushed 26 times for 210 yards and four touchdowns to pace Canadian to its fourth straight victory, 38-14 over Stratford Friday here.

The win gives both teams identical 4-2 marks and leaves Canadian with a 2-0 mark in District 1-A play. Stratford is 1-1.

Canadian jumped out to a 10-0 halftime lead. On the Wildcats' first possession, Marty Carr broke 41 yards on the second play to put the ball on Stratford's nine.

On the first play from that point, Hubbart scored on a nine-yard run. Steve Scafeher's extra point gave Canadian a 7-0 advantage.

Scafeher added a 36-yard field goal in the first period.

Fancher Named Commodore

Kay L. Fancher, a Pampa businessman, assumed the helm of the Amarillo Yacht Club when elected and installed as Commodore at the club's annual business meeting in Amarillo, Thursday. Also elected to the Board of Governors from Pampa was Dr. Robert R. Loerwald.

Trophies were awarded at the meeting to the following Pampans for regatta results in the Sept. 20 competition: Loerwald, first place in Class A (boats 26 feet and over); Walter L. Colwell, first place and Fancher, second place in Class B (boats under 26 feet). Adelaide Colwell was awarded the first place trophy for the Annual Commodore's Cup regatta in which the ladies of the club competed Aug. 9.

The club is an association of individuals and families from throughout the Panhandle area who share an interest in sailing.

On Canadian's first series of the second half, Gary Bob Hutcherson passed 26 yards to Mike Arrington for a touchdown. Carr ran over the conversion for an 18-0 lead.

Stratford fumbled the ensuing kickoff, as Canadian's Mike Seeley recovered on the 20. Hubbart scored on a 15-yard scamper and added the extra points on a run.

Canadian recovered another fumble in the third quarter, getting the ball on the Elk 15. Hubbart scored on a two-yard run after a nine-yard pass from Hutcherson to Robert Wilson moved the ball in close.

Carr was stopped on the

conversion run.

Stratford scored early in the fourth quarter on Joe Pete Albert's one-yard run. Quarterback Will Allen swept end on the conversion for two points, as Canadian led 32-8.

The Wildcats recovered the ensuing onside kick on their own 46. Carr ran 14 yards, and on the next play, Hubbart galloped 40 yards for a touchdown. Hutcherson failed to score on the conversion.

Stratford's second touchdown, coming late in the game, happened on Leonard Duncan's one-yard run. The conversion failed.

"We had another good team effort," Canadian coach Jack

Hawthorne said. "The whole team played good just like they did against Sunray (Canadian won 29-6)."

"Our offense got a clicking a lot better than what it's been. The defense played good like we have the past three or four weeks."

Carr added nine carries for 86 yards, as the Wildcats outrushed the hosts, 345-141.

Hutcherson, for the second straight week, completed nine of

17 passes. Canadian outgained Stratford in passing yards 95-50.

In other 1-A games Friday, Sanford-Fritch blanked Gruver 21-0 and Sunray outlasted Stinnett 14-0. In district standings, Canadian and Stinnett are the only unbeaten teams.

Canadian visits White Deer Friday, while Stratford hosts Stinnett in a homecoming contest.

Pheasants to Stock the Panhandle

Several cages of pheasants were released recently about 15 miles east of Pampa by the Texas Parks and Wildlife Department as part of a program intended to stock the Pampa area with the game birds. The program began in 1974 as a result of a petition containing 700 names which requested the pheasant stocking. The birds were

hatched at a Tyler Texas Parks and Wildlife hatchery but are expected to have no problem adjusting to Pampa area grain fields because their parents were caught at Hereford. There were 500 birds released in 1974. An additional 500 were to be released this year and 500

more will be turned loose in 1976. One area farmer, on whose land some of the birds were released in 1974, said that he noticed several young birds hatched out in the spring. Farmers who wish to encourage a pheasant population on their farms should provide adequate food and cover throughout the year. Additional information

on the pheasant may be obtained from Perry Gruhlkey, district conservationist with an office in the Gray County Courthouse Annex.

Farm Line Responses Pretty Hot

By THOM MARSHALL
Pampa News Staff
Response to the Agriculture Council of America's (ACA) "Farm Line" on Wednesday nights has been considerable.

A summary of just two nights — Sept. 10 and 17 — shows that 1,018 calls were received on the

12 incoming WATS lines, open to anyone in the continental United States. There were 39 states represented with Iowa leading at 133 calls. Kansas callers totaled 123 and other leading states included Texas, Nebraska, Washington, Oklahoma, Montana and Michigan.

Calls were backed up throughout each of the two evenings and many callers waited as long as four hours to get through. At 11:30 p.m. a halt was called with lines jammed and farmers who were manning the lines exhausted after four and a half hours of non-stop work.

A letter from Baxter Freese, chairman of the ACA, to Gerald Ford, president of the USA, outlined the results of the two call nights. Freese wrote the President that the number one complaint from callers was "Ford and Butz asked us to plant fence-to-fence and guaranteed us a free market for our product. Now they've sold us out."

"buckled under to George Meany" and callers often added the question, "who's running this country anyway?" Not all the callers were farmers. An auto dealer called from Kansas and said "farmers are getting a bad shake."

A Kansas union member, a machinist, expressed the opinion that "Ford sold out to labor. The farmer is getting the short end of the stick." He also commented on the lack of organization in farming and said that the union is supported by farmers through purchases.

Panhandle Water

By FELIX W. RYALS
Those fields of sorghum grain and corn being harvested in Gray, Roberts and Carson Counties never looked better. In fact, our U.S. Secretary of State and Secretary of the Treasury are looking forward to our grain being used to help keep our balance of payments in the black on the international level. Periodic rains falling in time have enabled many of the dryland grain growers to harvest their third straight bumper crop. Irrigated grain is also very good.

On the average, since the beginning of wheat and milo growing in the Panhandle, about one good crop every 15 or 20 years can be expected. Looking at the lay of the land and the natural vegetation, we know that the Panhandle area has been for many centuries a high, dry, semi-arid land and those dry years will come again. One of the reasons why the early settlers were able to stay here can be traced to their way of life. They knew what it was like to tighten their belts and survive.

Today's crop of young farmers have cultivated tastes, desires and wants that were unheard of with their parents and grandparents. It takes more income in one year to keep the average young farm family going than it took their parents and grandparents in 10 years. When the oil and gas and the irrigation water are gone, the young farmer will move out. They will not suffer through those belt-tightening years like father and grandfather did.

This column, along about 1960, predicted that our Panhandle area would reach a "water crisis stage" from 1965 to 1990, unless we have found a supplemental source of water by then. We do not retreat from that prediction. We pointed out that our underground Ogallala reservoir was being depleted faster than it was being recharged. In fact the Ogallala is being recharged at such a low rate it is practically nil. Research on this is solid and cannot be successfully challenged. Bureau of Reclamation geologists told a touring group of Sanford Dam and Lake Meredith that water soaking into the bottom and sides of the lake would be in the salty shale below the red clay beds by the time it reached White Deer and Pampa. For the record our fresh water reservoir is above the red clay beds. The red clay beds protect the fresh water from the salty brine below the clay beds.

There are a number of conservation practices that our area farmers can institute that will prolong the life span of our irrigated economy. They can start with the wise use of underground water pumped to the surface for irrigation. The installation of tail-water recovery systems will help immensely. The use of playa lake rainwater by both the dryland farmer and the irrigator is another way. In the three county area of Roberts, Gray and Carson there are many playa lakes with enough water to warrant the installation of a sump pump to water the nearby farmland.

City dwellers can also cut down on the needless waste of water. Municipalities need to look more in the future toward lake water. The Bureau of Reclamation needs to speed up the search for the salt spring sources of pollution to Lake Meredith and other lakes in this area. All of this will extend the productive years of the irrigated economy that we now have. People under 20 years of age in the Panhandle area have never known any other way of life. Let us hope that they will never have to go back to the dryland days of the parents and grandparents.

4-H News and Views

By MARILYN SHIRLEY and LAYTON BARTON
Asst. County Extension Agents
Congratulations to Elaine Webb of Lefors 4-H Club and Chris Skaggs of the Top of Texas 4-H Club. Elaine and Chris represented Gray County and District I in the State Record Book Awards Program, and both captured top honors, including an expense-paid trip to National 4-H Congress in

Chicago Nov. 29 - Dec. 3. Officers from each 4-H club and from County Council will attend officer training at the WCTU Building in Canadian on Tuesday, Martha Couch, 4-H specialist from Lubbock will conduct the training. All 4-H officers can meet at the Courthouse Annex parking lot at 6:15 p.m. if they need a ride to Canadian. Return to the Courthouse Annex will be about 9:30 p.m.

Elmer Imel and I were visiting recently about different methods of handling hay. Of very recent date, we have seen a revolution in the way hay is harvested. Elmer farms near McLean and has been in the custom haying business for a number of years. Elmer says about half of the hay he puts up is the old conventional small bale type. Last year Elmer and his son purchased one of the large hay stackers that makes a tightly compressed three-ton stack that is shaped much like a loaf of bread. This stacker has many advantages over conventional small bales if you are harvesting milo stalks. There is little or no hand labor. There is little loss in forage if a set of panels are used when self feeding. The quality of roughage is pretty well preserved - like the day of harvest.

was so disappointed he went back and recomputed his acres at a lower figure so his yield would come up to 6,000 pounds. Another irrigation farmer figured his yield and came up with 8,400 per acre. Later he realized a mathematical error but the yield sounded so good he just left it like he had figured it.

Crop residue is no problem in farming operation. It might be well to leave a crop occasionally to restore organic matter. A set of panels is essential to prevent waste by livestock. Elmer has equipment to load the three-ton stacks on a special built wagon behind a pickup or tractor. A stack can be loaded in 60 seconds and unloaded in the same time. Elmer thinks the trend will be to this type of harvesting, especially on milo stalks.

It would be interesting to know how far back this in-bred pride of farming dates back. I can remember my father telling about how my grandfather would take the Sunday company to show them his good corn crop. The tour always was well planned so as to show only the best batches of corn. This is the reason why farmers really and truly are more efficient and the best producers in the world. They might make a few bad calculations in their head while the combine is still running that will push their yields somewhat too high, but there is a certain pride in their production that is hard to capture with a pen. This pride explains why farmers will never do a protest plow.

MILO HARVESTING
Raymond Maddox in the Grandview Area has just about finished harvesting dryland milo. Raymond estimates his yield at 2500 pounds per acre. Several others in that area have finished milo harvesting, too.

According to one farmer, some of the irrigated yields have been disappointing. Henry Hamly was telling me about one irrigation farmer that cut his milo and when he had figured the yield, it was only 4,000 pounds. Henry said the farmer

'Schools' Should Stop Student Fees'

AUSTIN, Tex. (UPI) — Texas school districts should immediately stop collecting student fees for such items as band uniforms, rentals, workbooks, and laboratory use, education commissioner Dr. M.L. Brockette said Friday.

Brockette sent letters to school administrators throughout Texas explaining implications of Attorney General John Hill's ruling such fees are unconstitutional.

Some districts, including Austin Independent School District, had continued collecting the fees pending an explanation of Hill's legal opinion.

"An attorney general's opinion carries no weight as judicial precedent," Brockette said. "However, state officers and officials are expected to rely on it."

He said the effective date for termination of most school fees is Oct. 1, the date Hill issued the ruling.

Brockette also told local school administrators: — the ruling does not apply to

students furnishing traditional supplies such as pencils and paper.

— fees charged to buy such materials as workbooks and fees for typing labs are covered by the ruling and are thus prohibited.

— materials necessary for a student to acquire basic skills required in vocational education must be furnished by the school District. Students may, at their own option, furnish costlier or different materials for approved projects.

— a school district may charge tuition for driver training if it is taught in summer school.

— a school district may charge nonparticipating students admission to extracurricular activities where attendance is voluntary, such as football games.

— a rental fee may not be charged on band uniforms.

Brockette instructed the 1,100 school districts in Texas to apply the ruling prudently in determining the legality of funds collected from students.

RARE MAMMAL

AUSTIN, Tex. (UPI) — Texas Parks and Wildlife Department biologists are attempting to determine the historical and current status of the black-footed ferret, considered one of the rarest mammals on the North American continent.

Biologist Danny Swepston has documented evidence of only three black-footed ferrets in Texas within the last 100 years. He said the ferret's range probably coincided with that of the prairie dog. Most of what is known about the mammal was learned from research done in South Dakota in 1964, he said.

1 Card Of Thanks

ETHEL F. COTNER
WE WISH to express our heartfelt thanks to everyone who showed their love and concern to us in the passing of our beloved Mother. We appreciate the prayers, food, visits, telephone calls, floral tributes and memorials. To the staff and nurses at Abraham Memorial Home in Canadian, thank you for your kindness and love. Also thanks to Dr. Ralph Palmer and First Christian Church for the luncheon. Carmichael - Whitley for the perfect way in which they handled all arrangements.

Mr. and Mrs. Carson L. Tank
Mr. and Mrs. W.G. Dunn
Mr. and Mrs. Wilbur C. Cotner
Mr. and Mrs. Leen Daugherty

GEORGE H. NEEF, SR.
WE WISH to express our sincere thanks and appreciation to our many friends who extended to us thru many deeds of kindness and consideration during our recent bereavement.

The family of
Mrs. George Neef
Mr. and Mrs. George Neef, Jr.
Mr. and Mrs. Russell Neef
Mr. and Mrs. Jerry W. Neef
Mr. and Mrs. Ted A. Mastin, Jr.

NEW LISTING TODAY Assume The Loan

Make a wise-buy on this home by stretching for the equity and assuming a loan with a low interest rate. New carpet has been installed and interior has been repainted. 3 bedrooms, central heat and attached garage. Ideal location for schools. MLS 134.

We Need More Homes At This Price

This beige-white shag carpet is only 4 months old and makes the living and dining room look even larger than it is and so enjoyable to walk on. 4 bedroom home on Hamilton with 1 1/2 baths. Family sized kitchen, 2 car garage, 3 room apartment in back of the spacious corner lot has its own garage too. MLS 126.

How Sweet It Is!

Nothing fancy, nothing huge - just the cutest little "Bachelor pad" you can imagine. Located in a fine neighborhood with big shade trees. Carpeted, modern, single garage and you get a house full of furniture too. Price is \$14,000. MLS 997.

Need Elbow Room For Your Family?

Try 2 story living and you won't feel so crowded. Spread your family out in large living room, den, 3 bedrooms, 1 1/2 baths and a small basement that doubles as a storm shelter. Enjoy a gas fireplace and good carpet plus a double garage. Now priced at \$20,000. MLS 107.

Colorful Corner

Location and price are good in this one and the fact that it has been almost completely redecorated makes it a real "find." It's colorful with new carpet and charming wall paper but done with very good taste. Located east Fraser addition. MLS 977.

Want' A Sell Land?

ANY SIZE SMALL TRACTS UP TO LARGE FARMS - we have prospective buyers waiting for the right one to come on the market. Call any of us if you wish to sell. Mr. Rose, particularly needs few sections of land. Call him at 669-6476.

A HONEY FOR THE MONEY

HIGH PRICES FOR A HOME ARE NOT NECESSARY If you know where and how to shop for a good reconditioned 2 or 3 - bedroom home FOR CASH

This one the owner has poured a lot of money into it expecting to be there forever.

Family health problems now makes it expedient to sell and relocate.

For just \$7,500 you can get early possession of this East Side home on a quiet street on a 60'x125' lot, with some nice paneling, new carpeting, new sewer line and water line with an attached garage - exterior recently repainted.

THIRD BEDROOM became part of the long living room when partition was removed. She still utilizes it for guests or relatives when they come in to visit the 'old folks' with fold down couch among quality furnishings in this home.

No for sale sign on premises. Call for inspection if you qualify to pay for it. MLS 991.

Washington Watch

Texas Reps Lose Effort To Stop Fighter Plane

By BILL CHOYKE
Pampa News
Washington Bureau
WASHINGTON — In a losing effort, the entire 24-member Texas House delegation supported a move last week (OCT. 1) to delay a \$132.8 million appropriation for the development of the controversial F-18 lightweight fighter plane.

The appropriations for the aircraft, developed jointly by Northrop Corp. of Los Angeles and McDonnell-Douglas Corp. of St. Louis, is part of a \$112 billion defense appropriations package for fiscal year 1976 considered by the House last week.

The Texas House members had hoped to delay appropriations for the F-18 for at least a year in order for alternative planes to be considered. The chief competitor to the F-18 was a plane jointly developed by LTV Corp. of Dallas and General Dynamics Corp. which has its main fighter manufacturing facilities in Ft. Worth.

The vote came only hours after the General Accounting Office (GAO) Congress

watchdog agency, issued a report stating that the Navy, which requested the F-18, acted legally in picking it over the LTV General dynamic model, adopted by the Air Force.

Critics of the Navy's choice contended in debate that the Navy failed to follow normal military procurement procedures and neglected a congressional mandate to buy a modified version of the Air Force's F-16, the LTV-General Dynamics model.

While the arguments regarding the F-18 were couched in terms of efficiency and economy, the fight was generally regarded as between aircraft manufacturers and "parochial" interest of Congressmen who saw dollars and jobs for their areas on the line.

"I have never seen such fierce lobbying by the air space industry," said Rep. George Mahon, D-Lubbock, and chairman of the House Appropriations Committee. "There is no need today for the F-18."

But despite the committee chairman's plea to delay the

appropriations the House by a 243-173 vote decided to include the F-18 appropriations in the \$112 billion bill, which is \$9 billion less than requested by Ford Administration.

After the Navy decided on the F-18, LTV, citing procedural irregularities, protested to the GAO. However, the agency's report said the Navy's selection of the F-18 had "been fair and impartial and in accordance with established selection criteria."

A GAO report regarding the comparative costs, requested by Sen. John Tower, R-Wichita Falls, is also expected to be released soon. A spokesman for the senator said Tower was concerned that the Navy had sizeably underestimated the cost of the F-18, which is projected to run slightly more than the F-16.

The Tower aide said it was "only remotely possible" that the F-18 funding would be held up. However, he said the senator may attempt to persuade the Navy to reconsider alternative fighters if the GAO finds that the cost projections for the F-18 have been underestimated.

Grand Chief To Speak

Naomi Frost, grand chief Pythian Sisters of Texas, will address the Pampa Temple of the organization at 8 p.m. Monday in a meeting at 315 N. Nelson following a 6:30 p.m. dinner at Furrs Cafeteria.

Policeman Solano Resigns

Gilbert Solano has resigned from the Pampa Police Department staff to accept a position with Celanese.

His resignation is effective Sunday. The announcement was made today by Pampa Police Chief Richard Mills.

Solano will make \$300 per month more at Celanese than as an officer for the Pampa Police Department, according to the resignation notice.

HOMEMAKERS NEWS

By Elaine Houston

County Extension Agent Quilt Fair

Today is the last day to attend the Quilt Fair. Come by and see all of the beautiful quilts on display in the Starlight Room at Coronado Inn from noon to 5 p.m. We will draw the winning ticket for the quilt we're giving away around 4 p.m.

Congratulations

Elaine Webb and Chris Skaggs have State Winning 4-H Record books and winning the trip to National 4-H Congress in Chicago. They have spent many hours compiling these books. Texas has one of the largest 4-H programs and the stiffest competition in record judging.

Arthritis Seminar
Mark your calendar - we will be having an Arthritis Seminar, at 7:30 p.m. Tuesday, Oct. 23, in the courthouse annex meeting room.

Home Demonstration Council

The Home Demonstration Council is planning another big day October 27. Each club will display gift ideas for Christmas. The Show and Tell is a special feature each year to give club members ideas for the holiday season. They will also have a covered dish luncheon and Council business meeting Monday afternoon, October 27.

The program will begin at 10 a.m. All club members are urged to attend and bring visitors. This would be a good day for anyone interested in home demonstration club work to come visit. For further details, contact the Extension office.

NEW PRESIDENT

ROME (UPI) — Father Alvaro del Portillo of Spain has been elected the new president of Opus Dei, the world-wide Catholic spiritual and evangelical association.

MORE COSTLY

NEW YORK (UPI) — A brown bag lunch that follows a Type A meal pattern for school lunches may cost more than the Type A meal even when the least expensive brand of the lowest cost food is chosen.

The consumer education department of Cornell University Extension Service says the price jumps if you substitute more expensive foods or add a dessert or a snack-type lunch treat.

The extension service estimates 33 to 58 cents for a Type A lunch consisting of a sandwich, fruit, carrot sticks and milk bought at school for seven cents for a half pint. The costs were based on current prices at a large New York City market.

Happenings in State Capitol

AUSTIN Tex. (UPI) — Happenings in the Texas Capitol:

Senators who have twice voted lengthy recesses in the impeachment trial of District Judge O.P. Carrillo are apparently hoping the impeachment issue can ultimately be resolved without six weeks of testimony.

There is some speculation senators are hoping Carrillo will plead no contest to the impeachment charges after he is sentenced by a federal court on an income tax charge and disbarred by the State Bar of Texas.

His attorney Arthur Mitchell declines comment on such speculation but says he would just as soon not put the Duval County judge through the impeachment trial if it can be avoided.

There was also some talk

senators were encouraged to vote to recess the trial until Nov. 18 by the slow pace of prosecutor Terry Doyle.

News reporters covering the two days of impeachment testimony last week were required to sign in and out each time they entered or left the Senate chamber. The explanation was that attorneys for both aides in the case wanted to be able to determine which reporters heard which segments of the testimony.

Senators who will vote on the guilt or innocence were not required to keep such records of their comings and goings from the chamber.

Phil Nicolaidis public relations man for U.S. senate candidate Phil Gramm joked at a news conference last week Sen. Lloyd Bentsen D-Tex. has

been so curious about Gramm's announcement he had bugged room where the conference was being held.

"Biggest damn bug I ever saw" replied Houston Post reporter Fred Bonapita glancing at rotund Jerry Hall. Hall is employed by the public relations firm handling Bentsen's campaign.

Former supreme court chief justice Robert W. Calvert is walking a narrow line in claiming the state's past three governors all supported annual state budgeting and annual budgeting can be achieved only by annual legislative sessions.

The New 5-in-1 Grapefruit Pill

I Just Couldn't Believe My Eyes

One diet more horrible than the next. Each one promised a thin beautiful me. I studied and read almost every diet book, saw countless doctors, and enrolled in various exercise programs. Then one glorious day I discovered the FIVE AMAZING SECRETS that made me SKINNY.

Mr. Seaman, well-known Hollywood Beauty Consultant, discovered a weight loss secret that worked for him and ASTOUNDED everyone. "My five secrets are GRAPEFRUIT, KELP, LECITHIN, CIDER VINEGAR & VITAMIN B6, ALL 5 in ONE DYNAMITE "PILL." In only TWO WEEKS I lost 12 lbs. and I feel HEALTHIER than I have felt in my entire life.

"So far this mysterious mixture of these five ingredients has never failed to help take off pounds of FAT, as long as my instructions are followed."

NEW!!

Who knows what lurks behind these shadowy walls?...

The ghostly occupants of this haunted house know very well. In fact, they refuse to move because they enjoy their comfort so much. What's causing the comfort they've become so accustomed to? It's the electric heat pump. The heat pump provides cozy warmth in the winter and just-right cooling in the summer with just one unit. One temperature setting keeps the earthy residents in heavenly comfort throughout the year... and it'll do the same for you and your family.

ENERGY EFFICIENCY ALLOWANCE

We, at Southwestern, are interested in your getting the most for your energy dollar. That's why we're offering an Energy Efficiency insulation allowance to our customers in existing homes who install electric comfort heating. Ask us about it.
