## Two Clerical, Six Lay Delegates Elected to General Conference

### DR. J. W. HUNT AND REV. W. M. PEARCE CHOSEN

Four More to be Named in Afternoon Session

### PEARCE DRAWS MOST BALLOTS

### Minister Is Exonerated of Charge Against Him

By HAMILTON WRIGHT The morning session of the Northwest Texas Methodist conference today elected the full six lay delegates and two of the six clerical delegates to the general conference which meets in Dallas in April next year.

Rev. W. M. Pearce, presiding elder of the Amarillo district, was the high man at the first ballot, receiving a total of 103 votes out of a possible 178, many being necessary for election. Dr. J. W. Hunt, president of McMurry college, Abilene, was the other minister elected, receiving 96 votes. A second ballot was taken during the forenoon but results will not be known before the afternoon session opens. Four more must be elected.

Laymen had less difficulty in their election. Only two ballots were required, the first ballot bringing five delegates and the second the remaining needed delegate to complete the laymen's quota.

On the first ballot for laymen 86 votes were cast and 29 were necessary for election. Boyd McKeown, conference lay leader, and dean of McMurry college, was high man with 45 votes. Others elected on that ballot with wide margins were: Mrs. Nat G. Rollins, 35; D. E. Roder, 32; H. S. Black, 32; Judge J. R. Porter, 30. On the second ballot Dr. P. W. Horn, president of Texas Technological college, was elected.

Rev. J. A. Scroggins, pastor of the Methodist church, Knox City, was exonerated of charges of improper advances preferred against him by a young lady, by a jury of 12 ministers yesterday afternoon.

Dr. J. W. Hunt of Abilene, who headed the defense, declared the charges were "framed up." The trial committee hearing the immorality charges reported this morning that they had found him not guilty. G. S. Hardy was chairman and J. W. Watson, secretary. The trial was held in closed doors. Scroggins is attending conference. He has not entirely recovered from wounds which he received in a shooting encounter at Knox City several weeks ago. It is understood that the shooting resulted following the filing of the present charges which were heard.

The conference opened at 9 o'clock promptly, with the singing of "I Love Thy Kingdom, Lord," followed by an invocation by Dr. W. E. Lyon.

**Essential Churchmen Here** Bishop Sam Hay, Houston, of the North Texas and Pacific conference was introduced to the conference, which stood and applauded. J. W. Willis, presiding elder of the Beaumont district, was introduced and later spoke in the interest of the supernatural endowment fund. Dr. King Vivian, president of Southwestern university, Georgetown; H. E. Stout, president of Texas Woman's college, Fort Worth; and D. H. Hotchkiss of Houston were introduced to the conference. Hotchkiss, who is superintendent of the Methodist hospital of Houston, spoke briefly on the denomination's hospital system and the Golden Cross organization.

**College Head Speaks** Dr. King Vivian, president of Southwestern university, told the conference of the condition of his institution and how it was doing a distinctive work in education. The institution owns

(See CONFERENCE, Page 5)

### THE WEATHER VANE

WEST TEXAS: Generally fair tonight and Friday; probably freezing in southeast portion tonight.

### SIDELIGHTS OF METHODISM

By HAMILTON WRIGHT Special Correspondent

A rally of preachers and laymen of the Lubbock district will be held tonight at a luncheon at the Schneider hotel honoring Dr. D. B. Doak, presiding elder, who is retiring from the district. All present members of the Lubbock district together with every minister who has served under the presiding elder in the last four years will participate. Dr. Doak is well loved by all his workers. At the Wednesday morning session of the conference Dr. Doak was presented with a handsome Bible and his wife with a \$20 gold piece by the preachers of the district.

Rev. R. B. Freeman, pastor at Monday, reports a good year despite the drought which prevailed. Freeman was formerly a well known evangelistic preacher. He has done a great work at Monday since he became pastor three years ago.

S. L. Forrest, well known layman from Lamesa, is attending the conference. He is a lay member of one of the boards. His section though affected by the dry weather is looking forward to a prosperous 1930 since the recent heavy rains.

Dr. O. E. Goddard, head of the general board of foreign missions, reviewed the work of the missions in eleven foreign fields served by the church, in his address Wednesday evening. The auditorium was taxed to capacity. Dr. Goddard has in recent years visited every part of the mission fields and is authority for the statement that the church need not deery the great work done. Southern Methodist church is now free of all debt and the missionary work is flourishing.

The publishing house has a great selection of books upon every subject and preachers and laymen alike are laying in goodly stocks. Bishop Moore advises every preacher to buy at least one book during the conference and to digest it this year.

Mark Beavers, presiding elder of the Plainview district reports building or eight churches this year, 1000 additions to the church, four new parsonages built, 97 per cent of salaries collected and 80 per cent of conference benevolences.

Rev. W. M. Murrell, presiding elder of the Clarendon district, of which Pampa is a part, reports one church built at Claude costing \$21,000, which was dedicated last Sunday; a new church on the Dozier-Heald circuit. The Clarendon district also reported all salaries and conference collections paid 100 per cent.

Dr. D. B. Doak, presiding elder of the Lubbock district, reports an excellent year despite the severe dry weather, hailstorms and other deterrents. One-third of the salaries are in full, 2000 members have been added, with a net gain of 1500. Collections are 75 percent in full.

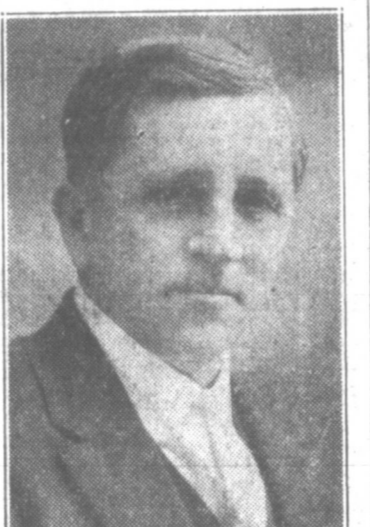

During the four years he has been presiding in the district there have been 2500 additions to the church with about 2500 professions of faith. Preachers salaries have been increased \$10,000, church property increased in value \$300,000. Six churches have been built where no church buildings were before and 14 other new churches erected, with two under construction now. The district has built four parsonages. During the quadrennium a total of \$800,000 has been raised for all purposes. Pastoral charges have increased from 29 to 35. "Since I have been on the district it has been one long expression of appreciation," Doak said.

Conference ministers and delegates are praising Rev. Tom W. Brabham for the excellent way in which he is handling the conference. He is always courteous, accommodating and painstaking in seeing that every person receives information, home assignment and good care while in the city.

Rev. T. C. Willett, Merkel, with the Board of Missions, is giving the rural church program considerable study and consideration. All denominations realize that some new system must be evolved for the care and promotion of the rural church. A resolution will be offered as

(See SIDELIGHTS, page 8)

### Presiding Elder

J. H. Hamblen of Stamford is among the presiding elders prominent in Methodist affairs who is attending the Northwest Texas conference in session here.

### ANOTHER VENIRE 75 MEN CALLED FOR DAVIS JURY

Officers were summoning another special venire of 75 men yesterday afternoon to complete the jury to try H. H. Davis of Shamrock, charged with a statutory offense.

A venire of 75 men was exhausted yesterday at noon. Only five jurors had been selected. Attorneys were finding it hard to select a juror who would admit he was not prejudiced and had already made up his mind about the guilt or innocence of the defendant.

Court adjourned yesterday at noon while the special venire was being summoned, and will open this morning. Today and part of tomorrow will be required if it takes as long to pick the rest of the jury as it did the first five. However, the defense has already used up 12 of their 15 refusals while the state has used three. After their allotted refusals have been exhausted, the jurors will be chosen as they are called.

### Cotton Exchanges to Be Investigated

WASHINGTON, Nov. 14. (AP)—Investigation by the senate agriculture committee of speculative activities on the New York, Chicago and New Orleans cotton exchanges was ordered today by the senate.

Without debate the senate adopted a resolution by Senator Heflin, Democrat, Alabama, to authorize the inquiry after it had been reported by Chairman Deneen of the audit committee. The agriculture committee was directed to begin hearings immediately to determine whether transactions on cotton exchanges had a harmful effect on prices and to report remedial legislation if necessary.

### War Secretary Is Still Very Sick

WASHINGTON, Nov. 14. (AP)—Dr. Joel T. Boone, White House physician, announced at 9 a. m., today the condition of James W. Good, secretary of war, who is in a serious condition following an appendicitis operation, was "as good as could be expected."

Army surgeons attending the war secretary noted with some apprehension that his temperature had risen slightly this morning. This however, was not considered particularly alarming as it was said the patient's temperature might rise as a natural defensive measure on the part of the body as a reaction from the operation.

The critical nature of the secretary's condition was not minimized by his surgeons and constant contact was kept by the White House with his bedroom so President Hoover could be kept informed.

No one was permitted in Mr. Good's room. Mrs. Good spent the night at the hospital in an adjoining apartment.

### WHITEY WALKER IDENTIFIED AS BANK ROBBER

Bandit Lodged in State Penitentiary for Safekeeping

### ADA BOOKKEEPER RECOGNIZES HIM

### Woman Took a "Good Look" at Him and Remembered

ADA, Okla., Nov. 14. (AP)—Ordered held without bail for trial for robbery of the First National bank of Allen August 10, 1928, W. J. (Whitey) Walker, returned here recently from St. Louis, Texas, after dismissal of a charge against him there; was in the state penitentiary at McAlester today. He was taken there for safekeeping after being given a preliminary hearing here yesterday.

Mrs. Lorena Jones, bookkeeper at the bank, who was told by one of the two robbers to take "a good look at me so you'll know me the next time we meet," identified Walker at the hearing as the man who spoke the words. Other witnesses also identified Walker as one of the holdup pair.

Approximately \$2,200 was obtained by the robbers.

Curtis Black was convicted in connection with the robbery and is serving a life sentence.

### Baptist Association Meeting Postponed

Dinner was served at the First Baptist church today as part of an all-day program that was to have been given under the direction of Rev. G. M. Stuart, missionary of the Canadian Baptist association.

The meeting scheduled for today was part of a series of such programs given throughout the Canadian association. The one set for today was the last in the series. On account of the cold weather and bad road conditions Rev. Stuart found it impossible to be present, and the meeting was postponed until a later date.

At the dinner served in the basement of the church today there were about thirty-five present, according to John Lee Harris, assistant pastor.

### Brady Awaits Grand Jury Report in Cell

AUSTIN, Nov. 14. (AP)—From his cell in jail, John W. Brady, silver haired jurist, today awaited the report of a grand jury called presumably to inquire into the death of Miss Lehia Highsmith, stabbed to death in front of her boarding house Saturday night.

The former member of the third circuit of civil appeals has been held in jail without bail since his arrest the night of the stabbing. His attorneys said Judge Brady had been on a drinking party. He has been held without bond pending action by the grand jury.

### ALL RESIGNS

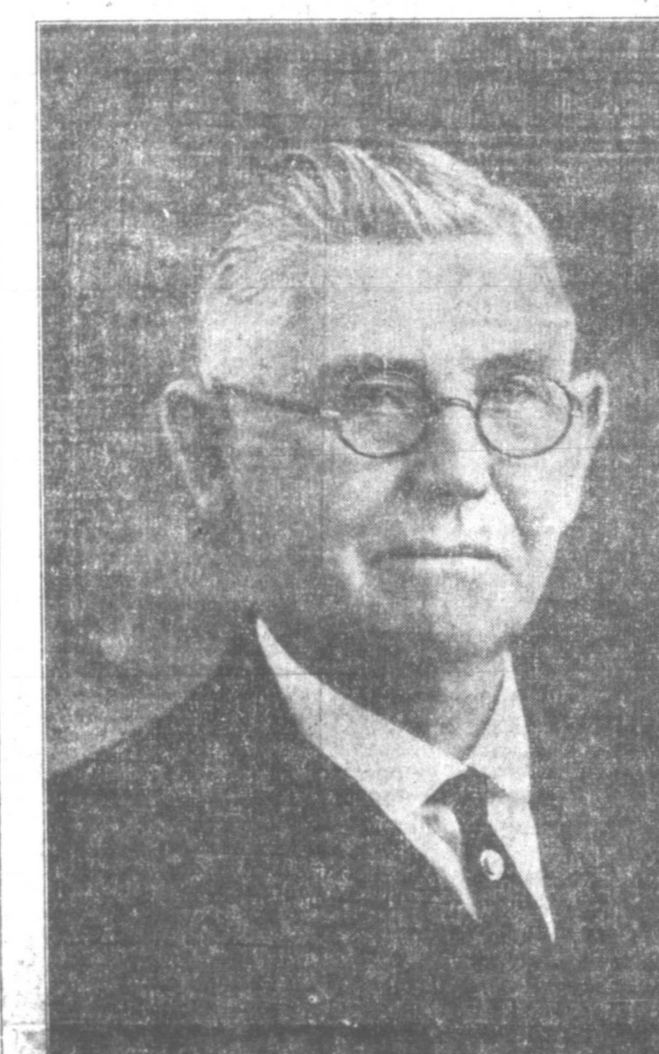

NEW YORK, Nov. 14. (AP)—Former Governor Alfred E. Smith today announced he had resigned as a director of the Metropolitan Life Insurance company. He tendered his resignation a month ago.

### Knights of Pythias, Pythian Sisters Will Appear in Minstrel Dec. 4-5

With the arrival of "Happy Doc" Holland of the American Amusement Enterprises in Pampa yesterday, work was begun toward the production of a minstrel show which will be given here Dec. 4 and 5, under the auspices of the Knights of Pythias and Pythian Sisters.

Mr. Holland, successful organizer and director of minstrel shows in all parts of the country, already has secured 35 members for his cast, which will include members of the two lodges and their friends. He has recently staged shows for the I. O. O. F. of Fort Worth, the

### His District Has Good Report

W. M. Murrell, presiding elder of the Clarendon district of which Pampa is a part, will make one of the best reports heard at the Northwest Texas Methodist conference in session here. He is clerical host to the conference.

### RED CROSS ROLL CALL IS TO START HERE TOMORROW—WORKERS ASKED TO ASSEMBLE FOR DUTY

### Stocks Rally as Gains are Held

NEW YORK, Nov. 14. (AP)—Wall street cast aside its mantle of gloom today as prices of leading securities rallied \$2 to \$20 a share and closed practically at the top. It was the first sustained rally after a week of destructive liquidation which had wiped out billions of dollars in quoted values, and sent scores of stocks to prices which represented only a small fraction of their year's high levels.

NEW YORK, Nov. 14. (AP)—Stock prices rallied sharply from the opening of today's market and held most of their gains. Trading quieted down when it became apparent strong financial interests were determined to support leading issues around the low levels established yesterday but were not inclined to mark them up in competition with other buyers.

Extreme gains in the active issues ranged from \$1 to \$10 a share, with a few specialties up \$20 to nearly \$50 a share, and most issues selling at or around their high levels as the market entered the last half hour of trading. The response to the call workers in the Thirteenth annual roll call of the American Red Cross has been very gratifying according to Scott Barcus, roll call chairman. As has been the custom the various women's clubs and other civic organizations have been requested to name several of their members to assist in the work. Almost all have responded and others are expected to do so before the opening of the Roll Call tomorrow.

An unusual concession has been made by Postmaster W. A. Crawford in permitting workers to be stationed in the lobby of the postoffice. Business houses throughout the city are cooperating by giving the use of their windows for display purposes and by encouraging 100 per cent membership on the part of their employees.

Members of the Business and Professional Women's club, being unable to leave their work to solicit memberships, have agreed to assume the responsibility for making the firms with which they are connected 100 per cent.

The Boy Scouts are cooperating by distribution of advertising matter and serving as orderlies during the drive. While the quota for Pampa is higher than heretofore, Mr. Barcus says that he is confident that it will be reached quickly.

Workers who are to serve tomorrow morning are requested to meet at the Chamber of Commerce at 10 o'clock and those who will work in the afternoon at the same place at 1 o'clock.

### "IRON MAN" DEAD

NEW YORK, Nov. 14. (AP)—Joe McGinnity, famous baseball pitcher, known more than a decade ago as the "Iron Man" of the New York Giants, died at his home in Brooklyn at 6:07 this morning. He was 58 years old.

### MELLON SEEKS HUGE SLASH IN INCOME TAXES

Losses in Stock Market Justify Large Reduction

### CONGRESSMEN APPROVE PLAN

### Small Incomes As Well As Largest Are Affected

WASHINGTON, Nov. 14. (AP)—Secretary Mellon said today his announcement that the treasury intended to ask a cut of \$160,000,000 in income taxes coming at the time of a disturbed situation in the stock market was a coincidence and had been decided upon more than a week ago.

### Congressmen Approve

WASHINGTON, Nov. 14. (AP)—Congressional leaders spoke quickly today to voice approval of the treasury proposal for a \$160,000,000 tax cut and simultaneously Secretary Mellon said announcement of the contemplated reduction had been decided upon a week ago and was merely a coincidence with the disturbed condition in the stock market.

At the capitol leaders of both houses prepared to move swiftly to draft legislation to carry out the proposed reduction and today it was their intention to offer the necessary resolution early in the December session.

### Reduction Justified

Mellon in discussing the situation said losses in the stock market, which might tend to reduce income of those who had suffered in the market, had been given thorough consideration and it was the decision of treasury experts that the continued prosperity of the country justified a tax reduction at this time.

Congressional leaders said it was their intention to carry out the proposed reduction by means of a resolution rather than by a bill looking to any widespread revisions of the revenue law. This, they added, was because the proposed cut would apply only on 1929 incomes on which taxes are to be paid next year, beginning March 15.

### Cut of One Per Cent

WASHINGTON, Nov. 14. (AP)—Tax reductions—a material slash in the government's annual assessment upon incomes of individuals and business institutions—today was imminently in prospect.

A general cut of one per cent in the normal rate of taxation applicable to incomes of the present calendar year and effective from the mammoth corporation to the lowly wage earner is planned by the treasury department.

A detailed program has been drawn up, after a careful examination of factors which control government revenues and expenditures, and will be approved by President Hoover, with a recommendation to congress for action next month at the regular session.

The treasury's plans even includes the form which the necessary legislation should take in order that delay, particularly that incident to a general revision of the federal revenue laws, may be avoided.

### 1930 Prosperity Predicted

All this was revealed by Secretary Mellon in a statement published today and issued after a series of conferences with his ranking lieutenants in the department with President Hoover.

Desire of Hoover and Mellon for tax reductions has been well known for many months, but in their own view a determination of the effect of many circumstances, upon the nation's finances was necessary before action could be taken.

Although saying complete estimates of government needs as compared with prospective government revenues were not yet available, Mellon asserted study of the situation had progressed to such an extent a recommendation for tax reduction could be made.

Indications are that business profits, dividends, interest and wage payments

OF ALL PEOPLE WHO ARE DESERVING OF PENSIONS IN THEIR OLD AGE, PREACHERS HEAD THE LIST IN OUR OPINION.

Rarely adequately paid, they nevertheless give the full measure of service to many communities. They help to make the home more stable and cities more suitable in which to rear families, and yet their homes are in many places and if they own property they probably rent it to someone who does not move so often.

And when it is time to retire, many of the old warriors in the faith are not financially able to quit work. Younger men need pastorages, and could many of the older pastors retire, places could be made for the seminary graduates. But of the two classes, the veterans are most deserving, however needful of the encouragement of the young ministers.

The elderly preachers should be allowed to feel the dignity of financial status that they feel in the faith. The church should consider this a matter of acute, unfinished business until the problem is solved.

JIMMY WALKER AS MAYOR OF NEW YORK IS ALSO ONE OF THE NATION'S BEST DRESSED MEN.

And dress, with the poise that it takes to attain the desired effect, is no small item in Gotham. New York has a great public improvement program, but Walker is best known for his social qualities. The metropolis makes a great show when heroes come to town. And Jimmy fares forth in pomp to greet the great.

In a city that prides itself on its size, its wealth, its prominent people, and its leadership of the nation in many matters, there is a demand for representatives with "class". In the public mind the mayor represents that quality. There are plenty of folk who had rather be mayor of New York than president of the nation. There are any number of New Yorkers in that group.

Town spirit is what they generate in New York. We in the small towns resent over-emphasis of the fact. But if you are from New York, we suppose you will be forgiven if you do as Gothamites do. Home town pride is jesting material for cynics, but, after all, it is better to be obnoxious in a more destructive fashion.

TAKING A SPECIAL TRAIN TO THE PAMPA-PERRYTON FOOTBALL GAME AT PERRYTON IS A COMMENDABLE GESTURE OF INTEREST IN THE SCHOOL. AS THIS IS WRITTEN, THERE IS NO PARTICULAR FEELING THAT A VICTORY IS ASSURED, BUT THOSE MAKING THE TRIP

ARE EAGER TO GIVE EVIDENCE OF THEIR SUPPORT OF THE TEAM.

Those who are now in school, whether on the team or in the bleachers, will in a few years be citizens forming the destiny of the community. To make an investment of interest in them now is to bring out a similar spirit in them as citizens. The poor citizen forsook his prejudices early. Perhaps his home town showed little interest in what he was going. Certainly no spirit of progress was inculcated in his soul. Perhaps he never knew the thrill of having an adult applaud his work.

And the good will phase is no trifle. Perryton has been showing all the interest in Pampa that her isolated position allows. Perryton, like Pampa, is a new city in the sense of having had much recent growth. The town moved to the railroad and proceeded to build a city, leaving the old Ochitree, former leading city, behind. Many will see Perryton for the first time, and marvel.

TWINKLES

Percy, the office mouse, seems strangely unafraid. Maybe he thinks that with so many preachers in town there can be no wrongs committed, even to lowly creatures like himself.

And sometimes a man is known to his neighbors by the skill with which he chases his hat down these Panhandle wind streams.

Twink is making the trip to Perryton, with the hope that he may make a similar one in the future without having to go all the way to Shattuck, Okla.

Speaking of egotism—there is the man who has bought a radio and who inflicts us with such questions as, "Did you hear Hoover talk the other night? Gee, he was great." And he is a Democrat too.

Moses, the senator, looked over his colleagues and called some of them "sons of wild jackasses". Why go into the past when the present generation offers opportunities to use the same language?

Texas will be back to normalcy when Houston fails to lead in building permits every week. However, this is no plea for normalcy, for we like growth.

Seen: Mitchell's sign the other night with the first four letters not lighted. Here is the ominous result: "HELLS for Women". Do you believe in signs?

TAX CUT—

(Continued from Page 1)

ments in 1929 will considerably exceed those of the year 1928, he said. "Our estimates indicate the government should close both the fiscal years of 1930 and 1931 with a surplus. Taking all factors into consideration, the secretary of the treasury, with the approval of the president, will recommend tax reduction to the congress."

Small Income Affected
He went on to outline the form the proposed reduction should take and to show how the percent cut would operate, pointing out that "on the first \$4,000 of taxable income the rate will be reduced from one and one-half percent to one-half of one percent; on the second \$4,000, from three percent to two percent; and on the balance, the present five percent rate will be reduced to four percent."

The corporation tax rate, he said, would be reduced from 12 to 11 percent. He estimated the total reduction of income taxes to be collected during the calendar year of 1930 at approximately \$100,000,000. No mention was made of any contemplated revision of the surtax rate structure.

Effective This Year
Since the reduction is effective on incomes of this year and taxes to be collected in the next, with returns to be filed by March 15, 1930, it is hoped congress will avoid all possible delay in approving the necessary legislation. Mr. Mellon suggested that legislation take the form of a joint congressional resolution, rather than of a tax bill, as the latter would throw the federal tax structure open to a general revision.

Finally, the treasury secretary said that the proposal had been "discussed with Republican and Democratic leaders of both house of congress, who have tentatively approved the proposed recommendation."

WASHINGTON, Nov. 14. (AP)—Tax reduction "before Christmas" was the promise made today by Chairman Hawley of the house ways and means committee which must initiate legislation to carry out the treasury proposal for a \$100,000,000 revenue cut.

Hawley said the suggested reduction would cost the government about \$85,000,000 in the current fiscal year. In the next fiscal year, he said congress would re-enact the resolution if revenues should warrant, or consider another plan of temporary reduction.

Congressional leaders in charge of revenue legislation gave their tentative approval to the reduction proposal at conference with Mellon late yesterday.

Speaking for the senate Democrats, Senators Simmons of North Carolina and Harrison of Mississippi announced their approval would have to be tentative, until they had conferred with colleagues. These conferences were in progress today.

Chairman Snoot of the finance committee looked with full approval upon the tax slice. He cautioned, however, that it should be made to apply only to the one year, after which it would be possible to determine more accurately the regular annual income of the government. Then, he said a general downward revision might be undertaken. The tax plan provides the following reductions:

Table with 3 columns: Present, Proposed, and a third column with values like 1-1-2pc, 1-2pc, 3pc, 2pc, 5pc, 4pc, 12pc, 11pc.

Three Prisoners Escape From Jail in Fourth Break

Last night the new county jail back of the court house, was featured in another jail-break, the fourth since it has been built. Three prisoners whittled their way out, apparently with pocket knives, and left the jail door swinging wide open as it was discovered this morning by Deputy Scott Rheudisal.

The prisoners had evidently used pocket knives in affecting their escape. The hasp by which the door was locked to the door jamb hung down, the three bolts which had fastened it to the door dangled loosely from it. The pad lock still held the hasp to the door jamb. A carpenter was set to work on the damaged door, with orders to repair it in such manner that no more breaks

will be likely. Two of the men were charged with forgery and car theft, and the other was held on a charge of drunkenness.

WASHINGTON, Nov. 14. (AP)—A bill by Senator Sheppard of Texas to extend the time one and three years, respectively, for commencing and completing of the Los Olmos international bridge company across the Rio Grande at or near Weslaco was passed today by the senate and sent to the house.

Philippines Again

WASHINGTON, Nov. 14. (AP)—Philippine independence was proposed in a bill introduced today by Representative Knutson, Republican, Minn., the measure providing that the president one year after its passage, issue a proclamation for the insular government to call a constitutional convention if he felt the islands capable of self government.

FRIDAY & SATURDAY SUGGESTIONS
SHERWIN-WILLIAMS
PAINT HEADQUARTERS
THERE'S NO PAINT BARGAIN LIKE GOOD QUALITY!

You need fewer gallons of SWP to paint your house

Fine old SWP House Paint has such wonderful "body" that each gallon thoroughly covers more square feet of wall.

That is one reason why SWP House Paint costs no more than cheaper paint on your house. The saving on gallonage does it—regardless of the price per gallon.

In addition you get the superior quality of SWP—the more beautiful, weatherproof colors—the long service that saves 50% to 60% in repainting cost. All because fine old SWP is made of the finest materials, by the largest paint and varnish makers in the world.

Compare and let's do a little simple arithmetic before you squander money on cheaper paint.

Fall painting is the most important of the year. Don't neglect to paint weather-beaten houses, garages, shutters, trellises, fences, screens, flower boxes, etc., NOW. You will save money. And, remember, cheaper paint can not equal the economy of fine old SWP for your house. We are at your service at all times. Call for suggestions.

4-hour Enamel, per qt. \$1.75
4-hour Varnish, per qt. \$1.75

Whatever your needs may be, when you want building materials, we can furnish you with the best. We handle standard quality products—all on a par with Sherwin-Williams paint. We will be glad to advise you as to the kind of paint needed for different jobs.

## SOCIAL CALENDAR

**THURSDAY**  
The High School P.-T.-A. will meet at 4 o'clock.

**FRIDAY**  
A regular meeting of the Order of the Eastern Star will be held at 7:30 o'clock.

The Azar class of the Baptist Sunday school will have a social meeting at the home of Mrs. Fairbanks, 719 North West street, at 2:30 o'clock.

Mrs. W. M. Jones will entertain the Just We card club Friday afternoon at 2:30 o'clock.

Just We bridge club will be entertained by Mrs. W. M. Jones, with the game opening at 2:30 o'clock.

The Fidelity and Young Men's Bible classes of the Baptist Sunday school will have a joint business and social meeting at the church at 8 o'clock.

**SATURDAY**  
The Ladies of the First Christian church will hold their annual bazaar of needle-work and cooked foods at Barnes and Hastings grocery store, beginning at 9:30 o'clock.

The rummage sale to be conducted by the Business and Professional Women's club, and postponed from last week, will be held at the old Cuyler hotel building on South Cuyler street.

### First Grades of City Give Successful Circus at School Gymnasium

First grade pupils of the four ward schools of the city stepped into the world of make-believe for a while Tuesday evening, to play at being acrobats, clowns, trained animals, dancers, wire walkers, children from Mother Goose, and freaks in a circus of their very own. Some of them were musicians, too, and provided the concerts that are a part of every proper circus.

The show was given in a ring performance at the high school gymnasium-auditorium, with each grade presenting a clever act. The teachers of the primary grades, assisted by Mrs. J. L. Lester, supervisor, and Miss Iva June Willis, music supervisor, arranged the unique demonstration for the benefit of the primary department. Gate receipts of \$90 will be used in purchasing special primary books and materials not furnished by the state or the school board, the money being divided equally among the schools.

Concessions and side shows operated by the several Parent-Teacher associations were well patronized. Generous gifts from several merchants made the projects more profitable, and enabled the side-shows to give free favors to the children who attended.

### Finance Chairman of B. & P. W. Club Asks Cooperation on Sale

Mrs. W. C. Mitchell, chairman of the finance committee of the Business and Professional Women's club, today issued a request that members of the club remember the rummage sale which it to be held next Saturday, and gather their own contributions and those of their friends. Members or others having articles to contribute, who find it inconvenient to take them to the sale, are requested to call either Mrs. Mitchell or Miss Willette Cole, who will arrange to have them collected.

All sorts of wearable garments are particularly wanted for the sale, but household articles, novelties, toys will be acceptable. The sale will be held in the old Cuyler hotel, beginning at 9 o'clock Saturday morning. All articles will be sold at very low prices.

### B. & P. Club Extends Membership to Eleven at Tuesday Election

Eleven new members were received by the Pampa Business and Professional Women's club in an election at the semi-monthly dinner meeting, which was held Tuesday evening at the Canary Sandwich Shop. They were as follows: Mrs. Charles Sadler, Mrs. Catherine Martin, Mrs. Noel Thompson, Mrs. Frank Allison, Miss Olan Ellis, Miss Catherine Stewart, Miss Gertrude Atherton, Miss Aurilla Miller, Miss Bernice Chisum, Miss Vela Chaffin, Miss Julia Mae Barnhart, and Miss Madeline Tarpley.

Mrs. Artie M. Shepard, vice-president, presided in the absence of Mrs. Grace Higgins, who was out of the city. Miss Edna Clemens, chairman of the membership committee, made the report preceding the election. A discussion was held concerning the rummage sale to be held by the club next Saturday, and the cooperation of the club was assured Mrs. W. C. Mitchell and her finance committee.

Members present at the dinner were: Mrs. Shepard, Mrs. E. L. Thomason, Mrs. W. C. Mitchell, Mrs. R. J. Kiser, Mrs. Florence Way, Mrs. Christine Smith, Mrs. Charles Sadler, Mrs. M. P. Downs, Miss Edna Clemens, Miss Sidney Smith, Miss Betty Noble, Miss Wilma Behrends, and Miss Aurilla Miller.

### Standing Committees of Baker P.-T.-A. Are Appointed Tuesday

Marked by one hundred per cent attendance of the teachers of Baker school, the regular monthly meeting of the Baker-Parent-Teacher association was held on Tuesday afternoon, with Mrs. J. H. Blythe, president, in charge.

Standing committees for the current year were named as follows: Program, Mrs. Claude Lard, Mrs. Edna Underwood, Mrs. H. D. Jones, Miss Sarah Campbell.

Social, Mrs. A. L. Jones, Miss Snodgrass, Miss Euritha Henry.

Membership, Mrs. W. B. Murphy, Mrs. Clyde Dwight, Mrs. W. M. Miller.

Upon the request of Supt. R. B. Fisher and Mrs. J. L. Lester, primary supervisor, and in accordance with plans of all other associations of the city, the Baker P.-T.-A. voted to change its regular meeting date from Tuesday afternoon to Thursday afternoon, in order that teachers of the primary department might attend the meetings without interfering with their departmental conferences. The Baker group will meet hereafter on the first Thursday. A letter of greetings from Mrs. J. M. Crain, president of the Eight District Congress of Mothers and Parent-Teacher associations was made.

The following program was given by

primary pupils of the school: "Drum Song"—Second grade. "Autumn Lullaby"—Third grade. "Sleeping Princess," dramatized story—Second grade. "Clown Dance," dramatized song—Second grade.

### New Literary Club to Federate and Unite with Pampa Council of Clubs

Junior Twentieth Century club, which became active after the opening of the current club year, and which recently made application for membership in the state and national organizations of the Federation of Women's clubs, Tuesday afternoon voted to affiliate with the Council of Clubs, thus uniting with other women's groups of the city in the major problems of common interest. Representatives to serve with the club president, Mrs. Eli Willis, as delegates to the council were to be elected at a later meeting.

The gathering on Tuesday was held at the home of Mrs. C. C. Boles. A program of talks on music was given, with Miss Ruth Anne Mitchell directing. Mrs. A. D. Swanson gave the theme of the opera, "Il Trovatore," and played a selection from it. Miss Mitchell's paper was on the subject, "National and War Songs of Many Nations." The much-discussed question, "What is Jazz?" was

reviewed by Mrs. Eli Willis. Guests of Mrs. Boles for the meeting and the tea hour were the following: Mrs. Clarence Barrett, Mrs. Roy Bourland, Mrs. Fred Cary, Mrs. Robert Chaffin, Mrs. H. P. Elliott, Mrs. Willis, Mrs. Swanson, and Miss Mitchell.

### Welfare Work Done at Meeting of Presbyterian Auxiliary Members

Seventeen members of the Women's auxiliary of the Presbyterian church met yesterday in the home of Mrs. Tom Clayton, chairman of the welfare committee, where they spent a pleasant afternoon making clothing and quilts for a needy family of the community. Three quilts and two garments were completed and were delivered after the meeting to the family.

Those participating in the work were as follows: Mrs. D. E. Cecil, Mrs. Roy Vaughn, Mrs. J. H. Lutz, Mrs. M. W. Jones, Mrs. J. E. Corson, Mrs. P. C. Ledrick, Mrs. L. P. Vincent, Mrs. T. W. Sweatman, Mrs. A. A. Hyde, Mrs. Charles Mullen, Mrs. C. Herbert Walker, Mrs. Lawrence of McAllen, Mrs. Clifford Braly, Mrs. John V. Andrews, Mrs. Jim White, Mrs. Ted White, Mrs. L. B. Nichols, and the hostess.

Other members of the organization and several friends contributed quilt tops or materials, Mrs. Clayton said.

### Joe Isbell, Eleven, Celebrates Birthday in Party Given Yesterday

Joe Isbell celebrated his eleventh birthday yesterday with a delightful party given by his mother, Mrs. Bert Isbell. Thirteen friends shared the happy occasion, enjoying various games and contests. Dainty refreshments were served. Many attractive gifts were presented Master Joe.

Mrs. Isbell was assisted in entertaining the youthful group by Mrs. Willard Hardcastle. The guest list included: Wayne Winkler, Jack Allison, Frances Thompson, Charlotte Rhea Malone, Bonnel Lee Rose, Foster and Barnes Kinser, Jack McAllister, John Henry Hinkle, Winifred Gott, Ila Fay Hardcastle, and Bert Isbell, Jr.

### Galveston Woman Is Guest in Fenberg Home

Mrs. Goldie Davidson of Galveston is the guest of her cousin, Mrs. Earn Fenberg, and Mr. Fenberg. She is making an extended visit while her husband, owner of a chain of stores in Galveston and South Texas, is making a buying trip to New York and other eastern markets.

Mrs. Davidson won fame as a Texas beauty a few years ago, when she was "Miss Galveston" in an international beauty contest in her home city.

### Theatre Party Given Here for Two Classes of Groom High School

The Junior and Senior classes of Groom high school were entertained last evening by Mr. and Mrs. Everett Clark, superintendent and principal, and Miss Christine Campbell, history teacher, with a theatre party at the Rex theatre of this city. More than thirty students attended.

The party assembled for a short period before the early show at the home of Miss Campbell's parents, Mr. and Mrs. R. C. Campbell, where they were joined by Miss Frances Campbell and Bert Howell. The occasion was a delightful one for the members of both classes.

### Kansas City Livestock

KANSAS CITY, Nov. 14. (P)—(U. S. D. A.)—Hogs: 5,500; top \$9.30 on 210-250 lbs.; packing sows 7.25 to 8.50. # SOUTHWEST'S SUPER BACKS FACE EACH OTHER SATURDAY

By GAYLE TALBOT, JR.  
Associated Press Sports Writer.

Opportunity will be had Saturday to compare the southwest conferences' four "super" backs. Dexter Shelley, Longhorn powerhouse, and Howard Grubbs, astute T. C. U. field general, will clash at Austin. Weldon Mason, Southern Methodist's sophomore brilliant, faces his old friend, Jake Wilson, Baylor's rubber ball, across the lines at Dallas. This quartet of backfield talent might not be the best in the conference, but a majority of critics who have seen them perform think so. Each is a triple threat, excepting Grubbs. He does not kick, but he can run and pass with the best of them and has a football brain. The way he directs the Frog attack is a treat. He has an amazing faculty for detecting flaws in an opposing defense.

Shelley is due to be at his best this week, providing he gets a dry field for his end runs and off-tackle smashes. Such a capable back does not figure to have two off-days in a row, however. If his interference can take him out and shake him loose, something it could not do in the mud, he might turn in some runs to electrify the crowd. Much of his thunder has been stolen by Nona Rees, Longhorn quarterback, the last two weeks.

The Wilson-Mason duel bears an interesting angle. They were teammates at Waco high school in 1926. Mason was the better player in those days, but he will have to do some playing to prove it Saturday. There is no doubt "Speedy" is the backbone of the Mustang eleven, both on offense and defense. It is equally true the black-haired "Hot" Wilson holds Baylor's title hopes in his twinkling legs and upon the point of his good right toe. Without the two stars, neither team would be a serious contender. Their presence in the rival line-ups assures a spectacular battle when the Bear and Mustang meet at Dallas. The winner, no few observers believe, will capture the conference crown.

Two other great individual stars will tie up in the Dallas struggle, Captain "Doc" Sanders of the Mustangs and Hockey Koch of Baylor. Both were chosen all-conference guards last season and appear destined to win the honor again this year. Each plays left guard, however, so there will be little direct contact. Malcolm Powell, the Ponies' all-conference center of 1928, also will be in the fray. There promises to be some great play around the center of the line.

Baylor is the only one of the four teams still in the race which employs a backfield shift. The diminutive Bruin backs hop about smartly and start fast. It is good to watch. The Bruin shifts kept the Texas line off balance almost constantly last week and won considerable yardage in off-side penalties, even when the officials were not calling them any too close. Between the well-timed, tricky Baylor running attack and the deceptive formations and lateral passing plays of the Mustangs, spectators at their game may have difficulty keeping track of the ball.

## Promoters of "Wide Open Town" Indicted

LOS ANGELES, Nov. 14. (AP)—Sixteen persons were under indictment today on liquor conspiracy charges accusing them of having promoted a "wide open town" during the recent American Legion state convention at San Diego.

Those indicted were San Diego business men and American Legion convention committeemen. All were ordered to appear at San Diego tomorrow for arraignment.

Indictments followed a federal grand jury inquiry after Charles H. Muloch, bootlegger, had given information before the jury. Muloch claimed to have paid \$2,000 for the right to sell liquor at the Legion convention.

Muloch charged he had been double crossed after San Diego business men and American Legion members were alleged to have made "promises of protection" for him to deliver liquor at the convention.

Louisiana Gets Million  
BATON ROUGE, La., Nov. 14. (AP)—Cotton growers of Louisiana will be able to hold their cotton until the market rises, as a result of the \$1,000,000 advanced by the federal farm board to the Louisiana Farm Bureau Cotton Growers Co-operative association, state Senator Norris C. Williamson, said last night.

The grower will receive an advance of at least 16 cents a pound net almost immediately, Senator Williamson said. Policy of the board is to advance 16.40 cents per pound on the basis of middling 7-8 inch cotton, f. o. b. New Orleans. The grower will receive his remainder when prices advance later in the season.

The cooperative association says the farm board has ruled the advance will be available on cotton shipped through the former.

Senator Williamson described the loan as breaking all time records for government assistance of the sort.

David M. Warren returned yesterday from Dallas, where he attended a meeting of the Texas Daily Press league. He was made one of the directors.

## Borger's Founder Enlists in Fight for New Election

BORGER, Nov. 14. (AP)—A. P. Borger, subdivider of this oil boom town, was marshalling citizens of Borger behind today for a fresh attack upon the city government installed by Governor Dan Moody's agents following Borger's recent clean-up by military force.

Because every one else seemed either afraid or at a loss as to how to proceed, Borger assumed leadership of citizens seeking an election to replace the appointed officials last night after the petition asking for an election had been denied in county court.

The veteran reator was secretive about the next step in the campaign to obtain an election, indicating success of his plans depended upon secrecy. His attorneys, he said, had suggested "four or five courses." The battle to obtain elected officials, however, will be fought to a finish, he said.

Previously attorneys for the unsuccessful petitioners had said they would start mandamus proceedings if the county court denied their petition for an election.

## Irak Premier Takes Own Life With Gun

BAGDAD, Iraq, Nov. 14. (AP)—Sir Abdul Muhsin, premier and foreign minister of Iraq, was found dead last evening from self-inflicted bullet wounds.

Sir Abdul became premier and foreign minister in January, 1928, reorganizing his cabinet to include greater nationalist strength in September last when it was reported Great Britain would relinquish its mandate and permit Iraq to enter the League of Nations.

## Four Killed As Auto Crashes Into Freight

INDIANAPOLIS, Nov. 14. (AP)—Three men and a woman were killed instantly today when their automobile ran into a moving freight train here. The dead: James Trimble, Columbus, O. William Carmichael, Mars Hill, Karl A. Kirchefer, Indianapolis, Maude Ellis Indianapolis.

The four were returning to Indianapolis in Kirchefer's automobile when the accident occurred.

## Cox Orders Stock Market News Off His Front Pages

DAYTON, O., Nov. 14. (AP)—Ex-Gov. James M. Cox, of Ohio, owner of a group of newspapers in the north and south has issued orders to his publications to take all stock market news off the first page. Asked why he did it he said:

"The purpose is obvious. The buying of stocks in the market, or if you want to call it, speculation, is a minor and incidental thing in the life of the country. The emphasis we have given it makes it appear that more people are interested in it than in our normal pursuits. The inevitable reaction came. It is nearly if not quite over, and yet all of our newspapers are filling the public mind with the idea of disaster, this can easily develop a physiological condition hurtful to the general interest.

"My thought as publisher was to help our public forget the panic which has been in no small degree mental with the holders of securities and let

the country go to work. For more than a year the general efficiency of business has been below par because of a speculative obsession."

**BUYERS FLOOD MARKET**  
NEW YORK, Nov. 14. (AP)—A huge flood of buying orders poured into the stock market at the opening today, and

prices of leading issues rallied \$1 to \$10 a share as blocks of 5,000 to 30,000 shares changed hands.

**WHEAT HIGHER**  
CHICAGO, Nov. 14. (AP)—Higher prices for wheat here went hand in hand today with stock market gains and

with upturns in wheat quotations at Liverpool. Opening at 1-2c to 1 1-2c advance, Chicago wheat later held near the initial figures. Corn, oats and provisions were likewise stronger, with corn starting 1-2c to 1c up, and continuing firm.

## IOWA-PURDUE BATTLE ENDS BIG TEN FIGHT

CHICAGO, Nov. 14. (AP)—What Purdue and Iowa have used to overcome western conference opponents this season is not all they have in the way of football trickery, but everything they know will go on display Saturday at LaPayette when they meet in the vital game of the Big Ten day.

After dropping its first conference game to Ohio State, Iowa speeded up, tied Illinois and conquered Wisconsin and Minnesota. The Hawkeyes, however, did not show a great variety of offensive stuff until they hit Minnesota last week. Even then Coach Burt Ingwersen's eleven did little with forward passing. All during this week's however, Ingwersen has polished an aerial offensive, held in reserve for just such a test as the Purdue game. The Bollermakers, already aware of the power of the Iowa running game led by Captain Bill Glasgow and Oran Papp, probably will find themselves with added worries from forward passes.

Purdue has cleared all obstacles with

little difficulty, but Coach Jimmy Phelan is drilling his squad with strategy prepared especially for Iowa. Purdue has exhibited a great running attack, built around Welch, with Harneson doing the tossing. In addition to this, Phelan has worked out variations of both forms of assault, with Welch figuring prominently in the passing.

A victory over Iowa will leave Purdue with only Indiana to conquer to bring the conference championship to LaPayette for the first time, and preparation is going forward with grim determination.

## WOMAN LAWYER SENTENCED

LOS ANGELES, Nov. 14. (AP)—Grant, ed a thirty day stay of execution and liberty under \$5,000 bond Miss Marjorie Berger, Hollywood tax-counselor, today began preparation for an appeal from her conviction and sentence on two counts of falsifying the 1928 income tax returns of Dorothy Mackall, screen actress.

Miss Berger yesterday was found guilty and sentenced to serve two and one half years in the federal prison for women at Alderson, West Virginia, and pay a fine \$2,500 on each of the two counts.

London still contains thirty-two churches designed by Sir Christopher Wren, the architect of St. Paul's Cathedral.

## COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

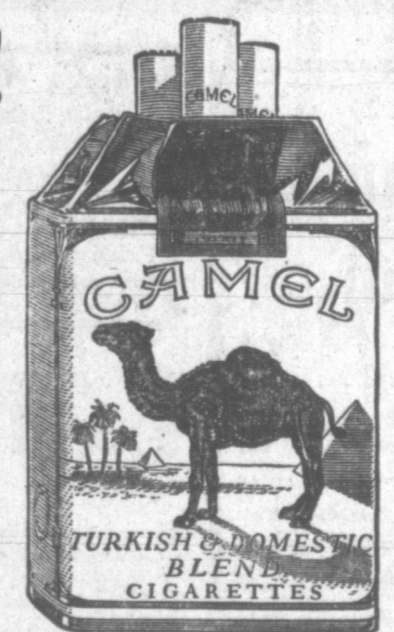

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe

and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

## CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

# WASHINGTON DAYBOOK

By HERBERT FLUMMER

WASHINGTON—The big lobby investigation show might have been a typical drab affair if Thad Caraway had been left off the investigating committee.

But this Arkansas senator, who talks with a southern drawl that makes his words at times hard to figure out, has succeeded in making a seat at these hearings something people go early to get. And few leave the roof until Senator Thad thumps his gavel and announces.

"This committee now stands adjourned."

While Walsh and Robinson go about the business of questioning witnesses with deadly severity and Blaine gets impatient, Caraway moves along easily, never losing an opportunity to wisecrack and giving the appearance of having the best time of his life.

He pokes fun at those he questions, hitting sarcasm at them the next moment, laughs with them when someone funny is said, and then for the benefit of the audience pulls a fast one at the witness's expense.

### A GOOD SHOW

Caraway was in fine fettle when he had Joe Grundy on the stand. The combat had been widely advertised before hand. Those who got in were not disappointed.

Here is a clash typical of the many of the two engaged in—

"Blaine had been questioning Grundy and had made the observation:

"According to your testimony, you must be of the opinion that your state would be much better off if it seceded from the Union."

"Well," replied Grundy, "I wouldn't say that. But I do understand that in the Civil War, when there was a secession movement, that we contributed more soldiers and everything else to the Union."

Caraway sniffed and cut in before Grundy could complete his sentence:

"I would like to say you contributed more people to my state who stole every thing that was loose than any other five states, if that is a source of consolation to you."

That remark and the way it was said brought down the house.

At another time Caraway was chiding Grundy for his diligence in following senate debates so closely from a point of vantage in the gallery.

"Well, I have been much interested," said Grundy. "It is fascinating."

To which Caraway replied:

## "Radio Red", is Chauffeur to Preachers and Free Host to Hungry, Sleepy Boy

"Why don't you rent a seat in the gallery? You sit in it enough."

### BACK AND FORTH

Once he remarked that Grundy and his associates reminded him of members of the Ku Klux Klan.

"They lay aside the sheet when they start out," he said. "Then they are 'no longer members' of the organization they are supposed to represent."

It was a continuous sparring match between Grundy and Caraway most of the time the Pennsylvanian was on the stand. And the Arkansas senator was having the time of his life.

"You know, senator," said Grundy, "debates in the senate are worth twice the price of admission."

"Well," Caraway would come back, "you ought to be willing to put up some thing. You've been sitting there ever since they started."

And it was not with Grundy alone that Caraway had his fun. No one was excepted. He's out for them all. "There'll be thousands of feet of vacant office floor space in Washington when we get through," he said at the outset.

### CONFERENCE

(Continued from Page 1)

physical properties valued at \$1,750,000.

W. C. Gray, superintendent of the Methodist Orphanage at Waco, and Dr. C. C. Seelman, president of Southern Methodist university at Dallas, were introduced to the conference.

Dr. C. C. Seelman, president of Southern Methodist university, and a speaker of distinction, will make the address of the evening session, beginning at 7:30 o'clock. Immediately preceding the conference session, proper Joe Strother, assistant pastor and organist of the Polk Street Methodist church of Amarillo, will play a half-hour organ concert. Mr. Strother formerly was assistant pastor and educational director of the Pampa church. His fine ability and his artistry as an organist are highly appreciated here, and it is expected his concert will be heard by a large crowd of local people, in addition to the conference body. He will play between 7 and 7:30 o'clock.

Elders Ordained

The class of the fourth year elected yesterday to elders' orders was called to the chancel rail, where they were ordained elders by the imposition of the hands of the bishop and several elders, including Dr. R. E. Dickinson, W. M. Pearce, Ben Hardy, W. P. Garvin, and

Radio Red Dorman had a hard night last night. The snow storm blew up about midnight and the 100-hour endurance driver got colder and colder. He says he has not been warm in two days. Since two o'clock this morning he has been plowing the snowdrifts up and down Pampa streets.

Yet, he met every train and every bus and has hauled many a preacher since 6 o'clock last night. His Viking 8 is running as smoothly and effectively as when he started at 9 o'clock Tuesday morning. "Red" says he likes to haul preachers around. They are not only grateful but entertaining.

Last night, "Red" picked up a boy who said he had not eaten in two days; out of a job, the boy had been sleeping in box cars. After giving the lad a good meal, "Red" permitted him to curl up in the rear seat of the Viking and go to sleep. "There was plenty of men in Pampa last night mooching for something to eat and a place to sleep," Dorman reported this morning.

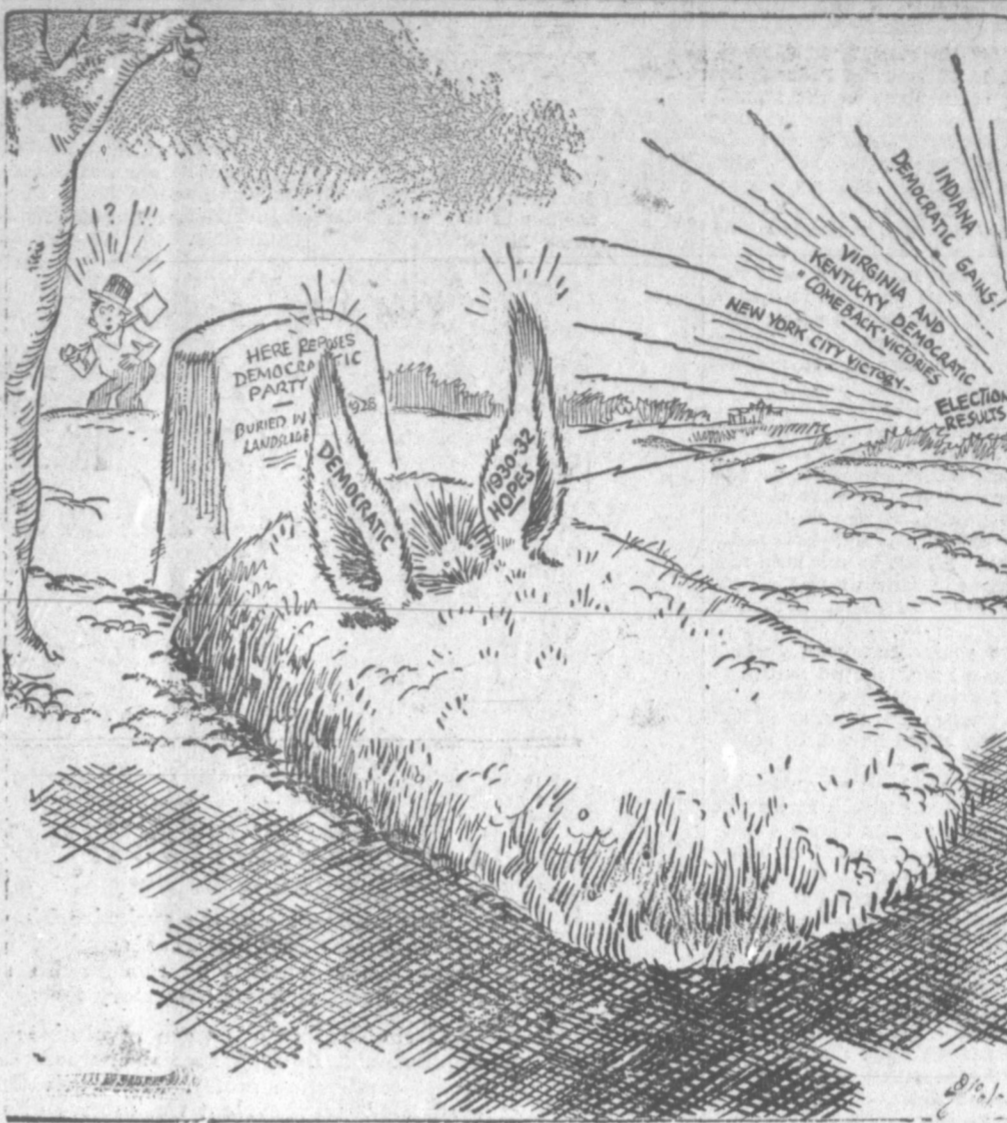

"Red" finds it pretty hard to keep awake. His drive ends at 1 o'clock Saturday and he is looking forward to that time when he will sleep on a handcraft mattress in the show window of the Amarillo Furniture company here. He says he will sleep for a day. This is the first endurance drive he has made in the teeth of a blizzard and snowstorm, but he says he'll not let up even though the streets become knee-deep in snow. He had driven 1,000 miles, at 8 a. m.

Besides the preachers he picks up, "Red" has a radio and a Victrola for entertainment. But of all the programs that come through the air, he prefers jazz. "That peeps me up," he said.

After midnight, Mrs. Dorman rides with him, but that does not mean that "Red" has a chance to hand the wheel over to her for a few minutes. His hand and foot are chained tight and fast and Deputy Sheriff C. E. Pipes has the key. There is not the ghost of a chance for him to leave the wheel for a second. To suggest such a thing to him would amount to almost an insult. "Red" has an artistic conscience about his endurance driving. He holds the world's record, 198 hours, which he won at Boger last week and he knows he can make a drive of 100 hours if he does not freeze to death.

W. B. McKeown. The following were ordained: O. B. Herring, Orville Terrell, J. D. Jenkins, J. B. Thompson, C. R. Hooton, Sam A. Thomas, M. G. Brotherton, J. H. Sharp, R. C. Cline, Cecil Fox and F. R. Pickens. Uel D.

### Sprouting Again!

Crosby also was ordained a local elder. day voted into full connection with the of pure language, diction, development These in the second class were or- conference. They were briefly addressed of personal appearance, meditation, dained deacons after they were yesterday by the bishop, who gave advice on use prayer, and other ministerial equip-

ment. Those ordained were: J. S. Strother, Dewitt Van Pelt, H. D. Moore, H. H. Hamilton, and J. D. Farmer.

The class of the first year was called, and those who passed their examinations were advanced to the class of the second year. They were: L. H. Jones, C. W. Permyer, Uell Crosby, O. C. Stapleton, and I. E. Biggs. U. S. Bird, and Sam Hubbard remain in the class of the first year.

### Four "On Trial"

Four were admitted on trial into the traveling ministry at the morning session. They were: J. Edmund Kirby, 21, two years in McMurry College, from district; J. E. Peters, 36, wife and two children, who had not completed high school, and who came under the two-thirds rule requiring two years in an accredited college or university, Lubbock district; Otis F. Mason, 21, married, from the Plainview district; Earl M. Nowlin, 21, married, one child, from Stamford district.

The name of the Rev. E. L. Hill, pastor of Dumas, was referred to the committee on superannuate relations for superannuation. Hill spoke feelingly of the necessity of retiring, due to failing health, after 33 years of active clerical service. He said during his career he had never reported other than full accounting in finances. He said further that he got his finance, despite drought and adverse conditions, because he "loved them into it." His great zeal and loyalty were attested by Rev. Lewis N. Stuckey, Amarillo, and others.

### WANT DRINKERS PUNISHED

ELDORADO, Ark., Nov. 14. (AP)—The Arkansas Women's Christian Temperance Union at its convention today was urged by its state president, Mrs. H. M. Cockey of Jonesboro to seek passage of a law by the next state legislature making the purchaser of liquor equally as guilty as the "possessor, producer, transport, porter, or seller."

### ATTORNEY DIES

BEAUMONT, Nov. 14. (AP)—Robert Jib Z Sullivan, 52, assistant district attorney here, died suddenly today. He was stricken by a heart attack.

### Loan of \$473,000 Gives Cotton Men Hopes for Profit

DALLAS, Nov. 14. (AP)—With \$473,000 cash at their call and as "much more as needed" available, Texas cotton farmers today faced the future with well-founded hopes of a reasonable profit from their 1929 crop.

The money, first loan of the federal farmboard to the Texas Farm Bureau Cotton association, was placed on deposit in a Dallas bank yesterday. At the same time, Harry Williams, manager of the association, in Washington conferring with the board, announced that as much more money as needed would be available.

That farmers from every section were taking advantage of the opportunity was indicated by the large number of requests made to the association by men ready to ship their cotton. Lynn Stokes, president of the bureau's cotton pool, said receipts already were approximately 100,000 bales, within 15,000 bales of last year's total, and requests for information were being received by mail, wire and telephone.

The farmer wishing to share in the association's loan must first sign a marketing agreement with the association, ship his cotton as instructed, and then draw the first advance, of approximately \$60 a bale, according to E. H. Linstead, assistant secretary of the association. After the cotton is weighed and classified, the second advance may be drawn, depending on the cotton.

Advances will be supplemented by further payments when the cotton is sold if the association succeeds in its intention of obtaining better prices. The total advances will equal \$6.16 1-4 per pound on the basis of middling seven-eighth inch staple minus freight and handling expense, the assistant secretary said.

### ABOUT FOLKS

BY A. F.

Rev. R. N. Huckaby of Paducah has made one of the best reports submitted at the conference. During the three years he has been stationed at Paducah, the membership of the First Methodist church of that city has increased 100 per cent. A \$40,000 educational building was erected last year. Rev. Huckaby is well-known here by the old-timers. He held a very successful revival meeting here long about 1918 while his father was pastor here. Rev. Huckaby was pastor at Electra when that town, as an oil capitol, was in its hey-day.

Joe Strother will get an appointment this year. He is now assistant pastor at the First Methodist church, Amarillo. He served in the same capacity here last year. Joe, one of the best organists in Texas, said last night, "just think, I'll have to wait until next Sunday night to know where I am going."

For two years, Rev. John Jenkins, now at Lelia Lake, followed Rev. J. R. Plant of Hawley. They are wondering if it will happen this year, and Plant is wondering where he will be sent.

"Would Jesus ride in an automobile I think he would," Bishop Moore said in his opening address to the conference Wednesday morning. The bishop expressed some other unique opinions in his address. As, "Jesus wasn't anxious for men to worship him. He was indifferent. What He wanted was to transmute his life into the lives of men." Bishop Moore told the pastors that the preachers need to talk more about Jesus and less about reform. He also expressed the belief that the white race in America suffers from a superiority complex toward the rest of the world. "The great failing of humanity is race consciousness, race prejudice. The American believes a man is a heathen if he is not a Christian. The Greeks called men of other religions than their own barbarians; the Chinese call them foreign devils. As for myself I don't know how we can rid ourselves of race prejudices."

Brownie Akers says he thinks he'll continue to wear glasses just for looks.

Seen: W. R. Campbell taking a gas stove home to put in his basement where three Methodist ministers slept rather chilled last night. As many more are staying at his house.

### Former Students of Teachers College to Convene Regularly

Ex-students of the West Texas Teachers college met last evening and elected temporary officers of a Pampa club. Walter D. Hardin was chosen temporary chairman and Miss Arless O'Keefe temporary secretary.

Miss O'Keefe was instructed to open a membership roll, and to notify members of a session to be called soon by the chairman. A social event for all ex-students will be held in the near future.

**COTTON PROBE FORCED**

WASHINGTON, Nov. 14. (AP)—A resolution by Senator Heflin, Democrat, Alabama, to investigate speculative activities of the New York, Chicago, and New Orleans cotton exchanges was ordered favorably reported to the senate today by its audit committee.

Mr. and Mrs. William H. Shults of Hamilton, O., is visiting Mr. and Mrs. F. C. Workman. Mrs. Workman is his daughter. Mr. Shults is a retired pastor of the Reformed church.

### Business Men Will Do Song and Dance Acts in Lions Follies

If anyone should see one of Pampa's staid business or professional men break into a song or do an allegedly graceful dance during the next week, no alarm should be felt. It probably will be a member of the Lions Follies staff practicing his "stuff."

For the entire Lions club and a number of friends have been selected to take part, most of them to impersonate female characters. Eighty local men are to have roles as flappers, chorus girls, bathing beauties, opera stars, ballet dancers, and movie stars. And not a real lady will be in the entire cast.

Some wonderful things are going to be discovered, it is predicted, including shapes. Singers and comedians will be uncovered. Flo Zeigfeld may be induced to come to Pampa to consider glorification of a new type of American.

The Lions Follies will be presented at the Central gymnasium on two evenings November 21 and 22.

### Third Oil Well Is Spudded in at Van

TYLER, Nov. 14. (AP)—The Pure Oil company's Thompson No. 1 was spudded in yesterday, the third in the new oil territory around Van.

The new test is an offset to the Pure Oil company's Jarman No. 1, the discovery well which blew in last month. The Shell Petroleum company also has two rigs on a lease adjacent to the Pure

Oil company's holdings and was expected to spud in two wells within a few days.

More than 200 men were rushing work on a new tank farm and pipe line to take care of the expected flows. The Jarman No. 1, estimated good for 2,000 barrels daily, was expected to be allowed to flow freely as soon as storage facilities were completed.

### IN CONGRESS

By the Associated Press

Thursday: Senate lobby committee questions J. A. Arnold of southern tariff association.

Senate audit committee takes action on Heflin resolution to investigate cotton exchanges.

Wednesday: Leaders of senate and house appeared to be ready to adjourn on November 23.

Senate approved finance committee amendment returning shingles to tariff free list and disapproved increases on watches.

Joseph R. Grundy declined to give his list of "common and preferred senators."

Senator Heflin, Democrat, Alabama, deferred attempt to obtain Senate action on his resolution to investigate cotton exchanges.

**DON'T GET UP NIGHTS**

Rev. D. Lee, Portsmouth, N. H., says, "Come or write to 101 Crescent Way and I will tell you how in a short time the bladder irritation was relieved by Lithiated Buchu (Keller Formula). My case was of long standing and painful. Was bothered 4 to 5 times each night." It acts on bladder as epsom salts do on bowels. Drives out foreign deposits and lessens excessive acidity. This relieves the irritation that causes getting up nights. The tablets cost 2c each at all drug stores, Keller Laboratory, Mechanicsburg, Ohio, or locally at Fatheree Drug Co. (adv)

The Army Air Corps will soon make tests of a new type two-place, three-gun plane that will aid in pursuit flying.

# Announcing

a revolutionizing Motor Oil,  
a new principle  
and a Challenge

## the Challenge

Several years ago, the exclusive North American patent rights on the Germ Process were acquired by this Company. It was evolved and patented by two British scientists after exhaustive chemical and physical laboratory tests.

Germ Process oils were revolutionary in that they met every requirement, through special characteristics, for each type of internal combustion motor. These scientists, by the Germ Process, eradicated the prevalent weaknesses existent in motor oils regardless of their base.

This Company has made innumerable laboratory and road tests, under every conceivable conditions, over the past seven years, and we are now prepared to state definitely that your motor oil problem is solved by the Germ-Processed Motor Oils.

By comparison, our tests prove that the "Germ Essence" creates the only safe motor oil under all conditions and at all times operates at the highest obtainable efficiency.

We are now prepared to meet any challenge of competitors. I confidently believe that Conoco Germ-Processed Paraffin Base Motor Oils are superior to any other motor oils made from any crude by any process.

More than twenty thousand outlets are now prepared to offer to the public such a motor oil for the discriminating buyer, and for a technical problem which has always been recognized but not solved until now.

*J. M. Moran* President,  
CONTINENTAL OIL COMPANY

### Here are our Claims for Conoco Germ-Processed Motor Oil— Check against the oil you are now using

**1** Under the Germ patents . . . exclusive to CONOCO for North America . . . there is imparted to CONOCO Germ-Processed Motor Oil an "oiliness" which is responsible for its greater lubricating value, greater film strength, greater penetrativeness, greater adhesiveness, greater tenacity, greater permanence, greater stability, greater stamina and a more nearly perfect compression seal than any other oil on the American market. Because of this affinity for metal—this actually combining with the metal itself, CONOCO Germ-Processed Motor Oil never leaves the bearings. Where other oils drain out and leave the surface dry, Germ-Processed oil penetrates the metal surfaces, forming a film that adheres for months. This "carry-over" film—this always present film gives ample lubrication to all parts needing it when a cold motor is started, until such time as oil from the crank case can reach them.

**2** This remarkable and exclusive feature of CONOCO Germ-Processed Motor Oil is reinforced by the fact that these oils are refined from only carefully selected paraffin base crudes by the most modern and scientific methods known to the petroleum technologist. Patented processes are used to remove all objectionable elements, leaving a perfectly balanced, stable product that is 100% lubricating oil. Thousands of tests demonstrate its remarkable resistance to corrosion.

The majority of motor oils never receive this degree of refining. None ever exceed it.

**3** Increased gasoline mileage and improved motor performance are realized through the use of this new oil. The exclusive CONOCO Germ Process so adds to the "oiliness" of this lubricant that metal-gainst-metal friction is eliminated, even in motor starting after all oil ordinarily would have drained from the motor into the crankcase. The perfect sealing qualities of the CONOCO fracture-proof

film insures a high compression efficiency that results in greatly increased motor performance. Marked improvements in power, speed, acceleration and flexibility are noticeable.

**4** Due to the Germ Process and the select, premium, paraffin base crude stocks used, CONOCO Germ-Processed Motor Oil positively does not break down under the most intense cylinder wall heat. A climb, high speed, heavy load, temperature extremes—none of these strains cause this oil to heat sufficiently to actually burn, break down or evaporate to any appreciable degree. By comparison with many oils on the market, you may confidently expect a saving in oil consumption up to 50%.

**5** Automotive engineers agree that 40% to 60% of all motor wear occurs during the starting period. This destructive wear is definitely reduced by the use of CONOCO Germ-Processed Motor Oil. Ordinary oil, thinned by heat and dilution, drains down past the piston rings when the motor is stopped, leaving little or no protective film. On starting the motor, a considerable time is required for the oil to reach all bearings and working surfaces. Under adverse conditions, such as winter temperatures, this time may be from 15 to 20 minutes or even longer.

Since CONOCO Germ-Processed Motor Oil never leaves the bearings and working surfaces, it is always there under any and all conditions to provide needed lubrication until the normal supply of oil arrives.

**6** Unlike other oils, dilution does not impair the "oiliness" value of CONOCO Germ-Processed Motor Oil.

**7** CONOCO Germ-Processed Motor Oil retains its fluidity at sub-zero temperatures. No practical operating conditions in winter will affect its immediate lubricating value at the first touch of the electric starter.

We invite you to enjoy the many additional miles of pleasure your motor car owes you by using this amazing new motor oil regularly. You will find it today at all stations displaying the CONOCO Red Triangle.

HELEN PAGE feels indebted to and in love with her guardian, LEONARD BRENT. The latter changes his plans for her future after meeting a dying beggar, NEELIN, and tells the girl she is heiress of a millionaire named CUNNINGHAM. Brent takes her to the lovely old man and offers proofs which Cunningham accepts without question, as he had been searching for his dead daughter's child for years.

HELEN ran to the telephone. Mrs. Ennis would not call her on a trivial matter, she knew. It must concern Eva. "This is Miss Nellin—Helen," she cried when she picked up the receiver. "What is it, Mrs. Ennis?" "The voice that came back to her in answer was fraught with fear. "Is Bob there?" it asked. "Yes, yes," Helen said. "Do you want to talk with him?" "Please." The voice was growing fainter. "It is your mother," Helen looked up at Bob, who had followed close upon her exit from the breakfast room, and her expression frightened him. "What is it?" he asked hoarsely. Helen did not answer and he repeated the question over the wire. "What's wrong, mother?" "Oh, come home son, at once," she entreated him. "I don't know what's the matter with Eva. She is... she is..." "I'll be there right away," Bob jumped up, not stopping even to put the receiver back on the hook. "We'll take my car; it's faster," Helen said, hastening along beside him. "Mine's at the door," Bob reminded her. "So is mine. I was going to drive

over and find out why Eva went home so early this morning. True, the car was at the door. They lost not an unnecessary second in getting it started and headed toward the highway. Helen had taken the wheel because she felt Bob might think too much of her safety to drive as fast as he'd have dared alone. Knowing every foot of the road gave Helen supreme confidence. Where the traffic lights were stationed she slowed up just enough to see if the road was clear, then she shot across, red or green. In her mind and in Bob's was the same thought. Eva was desperate. No one could tell what she would do. Her quiet, sweet exterior covered, both knew, a temperamental fire. It was revealed in her music. In all that she did and said that was of herself and did not touch intimately upon the rest of the world. Suddenly a few blocks away from the house, Helen brought the car to a full stop. She was white and shaking. "I can't drive the rest of the way," she said. "It's too terrible." SHE did not say all that was in her mind; did not tell the distraught brother how gladly it seemed to her that they should have mended their broken love affair as a result of Eva's disillusionment. Bob raised himself while Helen slid over into his seat. "I've had no time to get out and go around the car. As he slipped under the wheel Helen put her hands to her face and held them there until his home was reached. She could not bear the thought that she had been partly to blame for whatever had happened. She wanted to shut out the vision of Brent's evilly handsome face. Why hadn't she broken with him altogether when she discovered what a promiscuous sort he was? His life had been filled with women. She had known it, and yet believed that he could remain true in love. But that day in his apartment—when she had seen for herself how he behaved when he thought himself engaged to her—that day she should have cut with him finally. It might have brought matters to a crisis earlier—he might have done something that would have caused her to speak of him to Eva, to reveal him to the girl in his true light before this. So ran her thoughts—thoughts that were hard to bear in connection with possible harm to Eva. They hurried into the house—Bob had his key ready for the lock the instant they reached the door—and were greeted at once by a call from upstairs. "Is that you Bob? Oh, hurry! hurry!" It was his mother, frantic and for some reason unable to come down to them. Bob took the stairs three at a time, forgetful of Helen. She stood

© 1929 BY NEA SERVICE INC.

Presently, when even she was about to despair of bringing Eva to her senses, she heard a fluttering breath pass her lips, saw her eyelids flicker and her lips move. "Eva, Eva dear," she cried, but before Eva opened her eyes she stepped away and let Eva's glance fall upon her mother. For a moment Eva lay in tortured silence, her eyes moving searchingly, questioning, over her mother's worn countenance. "Oh, mama, mama," she cried at last, reaching up her arms to be taken to her mother's bosom. When she lay enfolded there she was too exhausted, too beaten, to weep. Her eyelids drooped as do those of a tired child. She whimpered and her mother laid a cheek to her lips. "What is it, baby?" she said softly, coaxingly. "My poor little chickadee, my little wee one." Helen and Bob stole quietly out of the room. "Forgive me, mama darling," Eva whispered, louder now. "I couldn't stand it... I loved him with all my heart." HER mother held her tighter, pressing her cheek in a caressing movement against the silky blond hair, saying nothing, waiting for the confidence she'd prayed her girl would give her. "I can't live without him," Eva went on, clinging closer, hurting with her slender fingers. "I want him and... and he isn't for me. He was never for me. I know it. Bob says he is going to marry Helen—Helen, my dearest friend—oh I hate her—I can't help it. I can't help anything. I can't stand it. I can't! I can't!" She was growing hysterical. "Hush, hush dear," Mrs. Ennis pleaded. "You have frightened me nearly to death. Please, dear, don't make me suffer any more." For Eva's own sake she was appealing to her sympathy, knowing, as she did, the surest way to rule the girl. Eva's mounting emotion subsided short of a complete lack of self control. She began to cry normally, wholesomely—as Mrs. Ennis put it to herself. For uncounted moments she cried and cried, with her mother making soothing noises over her, but offering no word to distract her from the relief of tears. Helen and Bob waited downstairs. They had much to say to each other but neither could put it into words with the weight of Eva's so nearly tragic fate hanging over them. They stood by window, watching the scurrying leaves in the bit of restricted garden at the side of the house. Bob's arm was about Helen. She leaned against him and lost herself in the wonder of their love. Presently Mrs. Ennis came down to them. Her eyes were red and swollen but there were signs of the calm that follows a storm in her half-smile and her general air. They fell reassured. "Eva wants you, Helen," the mother said and then added suddenly: "Oh, you will help her, won't you?" (To Be Continued)

## SIDELIGHTS—

(Continued from Page 1)

an experiment which it is hoped will work out for the salvation of the situation.

Rev. L. N. Stuckey, Polk Street church Amarillo, has had a great stay in Amarillo. The biggest church in the conference has been built since his quadrennium.

Rev. Joseph Strother, junior preacher at Polk Street, is at the helm of the

sweet toned pipe organ here. Strother is looked upon as one of the coming big preachers of the conference.

Rev. John E. Eldridge, the conference banker, is probably the busiest of all preachers. He sits through the live-long day taking in the conference benevolences and issuing checks to the "boys" so they can eat twice a day, the other meal being provided by hostesses of homes in which ministers and delegates stop.

Rev. J. W. Chisholm, Panhandle, reports a good year. He went to Panhandle from Brownfield a year ago. For some time he was an instructor in Clarendon College. He is one of the foremost instructors in Sunday school studies in the conference.

Rev. Aubrey Ashley, who has a circuit where some of the appointments are "more than a day's journey", reports conditions good on the Andrews circuit. Great revivals were reported on the work this year. Rev. J. F. Michael of Abernathy helped him in one at Patricia.

Rev. E. D. Landreth had a good year at Hedley. He is popular and constructive. He served Oak Street, Abilene, several years before emigrating into the Panhandle.

Rev. E. E. Robinson, Memphis, preached an exceptionally fine sermon Wednesday afternoon. At the conclusion most of the brethren came forward and grasped his hand in appreciation.

Rev. G. R. Fort, builder and pioneer, is attending the conference from Lubbock. He reports an excellent year. Fort is one of the old guard, but the "Kid" preachers can't hold a light to him when it comes to building and pastoral visitation. It is said he gets some of his members up before breakfast—and that signifies something remarkable when the average farmer is known to beat the rooster up.

Rev. C. H. Ledger, another old-timer, reports conditions bad at Idalou, where the bank broke in the spring, the hails came and the crops were bad. But people are indeed loyal and progressive.

Rev. G. E. Turrentine, Littlefield, is busy with his committee inspecting the district conference records. He usually leaves a little slip after each district report marked "excellent" or "write more legibly" or "clean the old mill."

Rev. C. E. Lynn, superannuate of Lubbock, is the postmaster at the conference. And that is a bigger job than some of the country postmasters have. His stipend is from the conference and

not from Uncle Sam.

Every visiting preacher leaving a brief report of his year's work with Dr. E. V. Cole, editor of the Texas Christian Advocate, will have the pleasure of seeing it appear in that periodical soon. Dr. Cole will be here till Friday. He was formerly pastor at Electra.

Rev. W. B. Hicks, Muleshoe, has had a great year's work. Some of the other preachers kid him about living at "Donkey Slippers," but that does not faze him. He served O'Donnell before going there.

Rev. B. J. Osborne had a good year at Ralls though that area was visited by drouth and hail. Osborne held some excellent revivals during the year, including one at Becton.

Rev. Elmer Crabtree can't be convinced there's any other place but Southland. And from the way that charge keeps him, it must be. Hail did much destruction in his territory this year.

Rev. J. B. Thompson, Wilson, is auditor of the Lubbock district. He is gathering the statistics from the boys. He has served three years there and cleaned up all the old debts against the church.

Rev. M. S. Leveridge, agent for the superannuate endowment is raking in some shekels for the wornout preachers since he came to conference. His office

is in the pastor's study.

Rev. R. A. Stewart, St. John's, Stamford, has completed his fourth year and probably will be moved. He has done a great work in Stamford. The people have been loyal despite two years' drouth.

Rev. O. B. Herring Woodson has built a new church since his pastorate. He is in the heart of the oil field area of Stephens County.

Rev. J. R. Williamson, Fluvanna, reports a good revival this year at Gail, Borden county. Fluvanna is expecting to get a large cement plant in the next year or two.

Rev. J. B. McReynolds is constructing a \$40,000 church at Stanton. Mc says the goose is hanging high down in that area with considerable oil development.

Rev. "Jim" Watson has lost none of his pep and mixing qualities. He keeps busy getting up the minutes of the conference. He is serving his second year at Quannah. He is also one of the leading Sunday school training experts of the conference.

The pageant "The Challenge of the Cross" staged Wednesday evening in the auditorium was witnessed by a packed house. It was beautifully enacted and the light effect was glorious. Rev. Tom Brabham, local pastor, says when it was first presented 150 persons came

to the chancel and rededicated themselves to Christian service. Ladies of the local missionary society put the pageant on for the delectation of the visiting ministers and laymen.

William Hamilton Nelson, editor of the Pacific Coast Christian Advocate, and a well known author, is attending the conference. Recently his latest work "Blood and Fire," an interesting and inspiring biography of General William Booth, came from the press and is being widely read. It is said to be so engrossing and inspiring as to cause every reader to be more aggressive for the Christian cause. Nelson is a versatile writer to religious periodicals over the nation.

The writer who has attended and reported most of the annual conferences for the last fifteen years attests to the fact that no welcome address yet made has surpassed that of City Manager F. M. Gwin Wednesday. Gwin is a born orator, knows how to welcome and make a fellow feel at home. His natural wit is much admired. Every preacher felt and knew that the cordial welcome was sincere. The hospitality of Pampa people is being complimented on every hand.

TARIFF ITEM PASSED  
WASHINGTON, Nov. 14. (AP)—The senate today approved a Republican committee amendment to the tariff bill to retain maple and birch lumber, except flooring, on the free list. The house provided a duty of 15 per cent.

### Twin Six Bridge Club Entertained by Mr. and Mrs. Paul Shepherd

Suggestions of the Thanksgiving season were introduced with pleasing effect in appointments for a party given last evening by Mr. and Mrs. Paul Shepherd, for other members of the Twin Six bridge club. The turkey motif decorated place cards, tallies, and table covers. Delicious refreshments were served at the conclusion of the play.

Mrs. C. P. Buckler received high score favor for women, while Mr. Buckler won the corresponding favor for men. Other guests were: Mr. and Mrs. Dan Gribbon, Mr. and Mrs. A. D. Johnston, Mr. and Mrs. John L. Peake, Mr. and Mrs. Floyd Hollenbeck.

### HIGH SCHOOL P.-T.-A. TO MEET IN DECEMBER

Mrs. V. E. Fatheree announced today that the High School Parent-Teacher association, of which she is president, will not meet again in regular session until the second Thursday in December.

A meeting scheduled for today was postponed because of the football game at Perryton and the holiday which took many parents and teachers out of the city. Through an error, Mrs. Fatheree said, a meeting of the association was publicly announced for next week. Because of a conflict with the Lamar association's regular date, however, the High School P.-T.-A. meeting was cancelled.

### Senate Votes Down Recess for "Sick" Senators 74 to 7

WASHINGTON, Nov. 14. (AP)—Despite warnings that half of its members were sick and did not know it; that others were tired out and in need of rest, and that it was "cruel" to keep members at work, the senate today by a vote of 74 to 7 refused to postpone consideration of the tariff until December 9.

Senator Blease, Democrat, South Carolina, who issued most of the warnings about the senators' health offered the motion. He found only Bingham, Connecticut, Dale and Greene, Vermont, Phipps, Colorado, and Reed, Pennsylvania, Republicans, and Copeland, Democrat, New York, ready to join with him in voting for a rest.

Immediately after this vote, the senate rejected a motion to adjourn on Nov. 23. Until the regular session beginning December 2.

WASHINGTON, Nov. 14. (AP)—Overriding the two party leaders, the senate today refused by a vote of 51 to 34 to take a week's recess before the regular session of congress beginning December 2. The second motion was made by Senator Sumner, Democrat, North Carolina.

It was defeated 51 to 34.

# No Subsidized Press!

# AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN INTELLIGENCE assures the freedom of the press—Public opinion has been freed from the tyranny which denied it the right to pass judgment on public questions.

## "toasting did it" —

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

# "It's toasted"

## No Throat Irritation—No Cough.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.  
© 1929, The American Tobacco Co., Mfrs.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.
