Wallace Declared Out Of Danger

SILVER SPRING, Md. (AP) — George C. Wallace, shot down at an election-eve rally, lay gravely wounded and partially paralyzed today on what was to have been the brightest day of his presidential campaign.

The Alabama governor was hit several times by a gunman who pushed a pistol through a shopping-center crowd at Laurel, Md., Monday afternoon and fired point blank. A man identified by police as Arthur Herman Bremer, 21, of Milwaukee, was wrestled to the ground by members of the crowd and arrested immediately.

After five hours of surgery, police and hospital spokesmen said Wallace's life was no longer in danger, but some paralysis was reported. One physician said the outlook for full recovery was not good. The governor's press secretary quoted doctors as saying the paralysis may be temporary, "but we will know more about this in the next 48 hours." He said Wallace will continue his campaign.

Meanwhile, voters in Maryland and Michigan were balloting today in primaries which Wallace had been favored to win in a double sweep that would have been the high point

of his campaign for the Democratic presidential nomination. "I feel very optimistic about him," Wallace's wife, Cornelia, said after the surgery in Holy Cross Hospital. "As you know, his nature, he didn't earn the title of the 'Fighting Little Judge' for nothing, and I expect him to continue in the same vein."

Doctors said Wallace, 52, was hit by five bullets, two of which caused serious wounds. A spokesman said one was removed, but another near the spine and blamed for paralysis of the lower extremities was left in place for the time being.

Doctors said Wallace, 52, was hit by four or five bullets. Only two lodged in his body. One was removed from around his right shoulder. The second, which punctured the stomach and lodged on the lower part of the spine, was left in. Bullets also pierced Wallace's right forearm, grazed the back of his left shoulder blade and grazed his upper right shoulder.

Dr. Schanno said the bullet which came to rest on the spine may be removed in a later operation. It is the "blast effect" from this bullet that is blamed for Wallace's paralysis. Apparently it did not sever the spinal

cord, and there is some chance that the damaged nerve tissue may heal itself, Schanno said.

"I think the governor is going to make a recovery," Schanno said. "Now what disability he has as a result of his wounds is difficult to evaluate at this time. We're all very optimistic at this point."

"I am very happy and I feel very good that he is alive," Mrs. Wallace said. "That he has a sound heart and a sound brain and all his vital organs are solid. I couldn't thank God more."

Mrs. Wallace had said earlier outside the operating-room door

that her husband had no feeling below the waist. Dr. James G. Galbraith, head of the neurological department at the University of Alabama, said the governor is paralyzed in both lower extremities.

"The outlook cannot be predicted but it is not favorable," Galbraith said. "It would be unusual to get complete recovery under these circumstances."

Early today, doctors said Wallace was alert, awake and making progress "as well as we can expect."

Several dozen persons, some of them holding lighted candles,

stood vigil outside the hospital during the operation.

Bremer was taken before U.S. Magistrate Clarence Goetz in Baltimore late Monday night and ordered held under \$200,000 bond on charges of shooting

Wallace and a Secret Service agent.

The agent, Nicholas Zarvos, underwent six hours of surgery for a bullet wound in the neck and was listed in good condition.

School Board To Open Bids For New Vocational Building

By Ray Baxter
Members of the Pampa school board set 4 p.m. Friday for opening bids for the new vocational building and then uncovered money to pay for it at the regular meeting Monday night.

The panel also considered reports from Mrs. Marjorie Gaut on Civil Action 5281 guidelines and Austin Ruddick on attendance, bought new school buses and transacted routine business.

The lengthy session was then followed by a marathon executive meeting in which the hiring of four faculty members was authorized and certain properties discussed.

Bids on the new structure for the vocational school will be opened at Carver Center Friday afternoon. Presently, the word is that the school system must match allocated funds on a 55-45 per cent ratio with the lesser amount the local responsibility.

School Business Manager Homer Craig told the board that his conservative estimate of funds available had been far surpassed in funds received so that the current estimated expenditures for 1971-72 of \$4,075,000 contained enough money to meet those requests

already exceeding the original budget estimate.

It was pointed out that these monies were not from local taxes but funds and programs that became available through the year.

Because of this highly solvent status, Dr. James Malone, school superintendent, pointed out some \$236,000-plus that could be earmarked as matching funds for the vocational building without hampering any other budget item and without further need for funds for the structure.

One of the "windfalls" cited was a check for \$1,669.61 cents from the Texas attorney general's office. This was the second distribution payment growing out of litigation against certain publishers for a price-fixing conspiracy. Dr. Malone estimated the final payment still to come would bring the total reimbursement to more than \$5,000.

Mrs. Gaut's report optimistically noted that Pampa seemed to fall well within the guidelines of Civil Action 5281 regarding minority groups. She cautioned against any relaxation in the current program noting that an area school with a smaller minority

population than Pampa was judged in reaccreditation on the basis of these guidelines.

Ruddick, school attendance officer, told the panel he felt the drug culture rather than the relaxed dress code was responsible for so many "dropouts" from Pampa schools. He could offer no immediate solution other than the continued work of law enforcement officers and, hopefully, increasing cooperation from parents.

Members of the board authorized the purchase of two new school buses since a six-months advance order was necessary. Four of 24 buses are 15 to 20 years old while eight buses now in use have over 100,000 miles on them.

In the executive session that followed the regular meeting, four new faculty members were approved.

James Kauffman, Amarillo, will be employed as the first assistant football coach. He is currently on the coaching staff at Tascosa High School.

Herman Dunham, Lefors, will be another assistant football coach and will teach social studies.

Milton Setliff will be the new tennis coach. He will be assigned to the high school faculty for teaching duties.

Terry Scoggins, a native of Pampa, will teach high school English.

No action was taken or recommended in property discussions.

Vice President Visits Thailand

BANGKOK (AP) — Vice President Spiro T. Agnew arrived in Bangkok today. Sources in Saigon said he would fly to the South Vietnamese capital Wednesday for a brief visit and might also touch down in Phnom Penh, the Cambodian capital.

The vice president came from Tokyo, where he represented President Nixon at the ceremony returning Okinawa to Japanese rule Monday.

Agnew's schedule in Bangkok included dinner tonight with Field Marshal Thanom Kittikachorn, chairman of the national executive council, and other Thai military leaders.

Wallace Seen Favored To Win Michigan, Maryland Primaries

Associated Press

Gov. George C. Wallace, shot and critically wounded on the eve of what looms as his biggest 1972 political triumph, is favored to sweep Democratic presidential primaries today in Michigan and Maryland, possibly boosted by a substantial sympathy vote.

Michigan will divide 132 delegates to the Democratic National Convention proportionately according to the presidential preference voting. In Maryland, 53 votes will be decided on the basis of statewide and congressional district results.

Even before a gunman shot Wallace as he campaigned Monday in the Washington suburb of Laurel, Md. he had been favored to win in both states, and after the shooting an aide said the governor would continue his drive for the presidency.

His top rivals are Sens. George McGovern and Hubert H. Humphrey, considered the leading candidates for the Democratic presidential nomination.

The incident may create "a large sentiment to vote for Wallace," president Tom Turner of the Metropolitan Detroit AFL-

CIO, a Humphrey backer, predicted.

McGovern and Humphrey stopped active presidential campaigning, halted television and radio commercials and returned to Washington.

A Wallace television appeal went on as scheduled in Michigan, however, and a Wallace campaign worker in the Detroit suburb of Lincoln Park said, "Nothing's changed. We're still campaigning, and we're still going to carry Michigan."

Polls were scheduled to open from 7 a.m. to 8 p.m. EDT in Maryland, where only Democrats can cast votes in the Democratic primary.

In Michigan, which is holding its first presidential primary, polls were to open from 8 a.m. to 9 p.m. EDT. Voters could decide in the booth whether to vote in the Democratic or Republican primaries.

In both states, President Nixon was expected to be an easy winner in the GOP primaries.

142 Planes Hijacked In U.S. Over 11 Years

WASHINGTON (AP) — Over the last 11 years, 188 persons have hijacked 142 U.S. planes. The Federal Aviation Administration says 105 are still fugitives.

"We're making progress, but we have to stay on top of it," Transportation Secretary John A. Volpe said after a tabulation of records showed nine of the

last 16 attempts had ended with the capture or death of the hijacker.

Volpe observed that both the number of hijackings attempted and those successfully carried out declined over the past three years—from 34 successful out of 40 tried in 1969, 16 of 31 in 1970 to 11 of 25 in 1971.

"To date this year, only three hijackings out of 14 have been successful," Volpe said.

James M. Beggs, undersecretary, said Monday he believes the courts, taking action against accused hijackers, have been "responsive—they have done as well as one could expect." But, Beggs added, he still finds it hard to accept that it takes a year or more to bring an accused man to trial.

A tabulation of Transportation and Justice Department files shows that since the first hijacking on May 1, 1961, 37 hijackers have been convicted.

A number have received 20-year prison sentences, others have been given terms of 10, 15 and 25 years, and one is in for life.

Two were killed during hijackings, one committed suicide during the hijacking, and a fourth was killed during a bank holdup 15 months after hijacking an airliner to Cuba.

Another, facing a murder charge for killing the copilot in an attempted hijacking, hanged himself in his jail cell. Still another died in Cuba of undisclosed causes less than a year after hijacking a plane to that country.

Twelve hijackers have been committed to mental institutions. Four more are undergoing mental examinations. Six have been charged and are awaiting trial, and nine are in custody awaiting court action.

Local Hospital Administrator Resigns Post

D.W. Bond, Jr., chairman of the Gray County Hospital Board, announced today that the board accepted with deep regret the resignation of Bill W. Robertson as administrator of Highland General and McLean Hospitals at its regular monthly meeting last night.

Robertson is returning to the Blue Cross-Blue Shield in professional relations department in Dallas. He expressed his appreciation to the board members, the county judge and commissioners and to the medical staff and employees of both hospitals for the cooperation and assistance received while serving as administrator in his recent assignment. The resignation is to be effective June 12.

No successor has yet been named to succeed Robertson.

Teacher Says 'Not Guilty'

Gary Mehaffie, Pampa High School history teacher, pleaded not guilty to a charge of theft in Potter County court at Amarillo Monday afternoon.

Mehaffie was charged with the theft of four used auto radiators allegedly taken from a wrecking yard on Lakeside Drive near Amarillo.

Judge Rose set the next hearing for June 5 and Mehaffie was released on bond.

He was relieved of his teaching duties officially as of this morning according to Cameron Marsh, high school principal.

GOV. GEORGE WALLACE

Suspect Described As Lonely, Quiet Person

MILWAUKEE, Wis. (AP) — Arthur H. Bremer, a 21-year-old one-time photography student accused of shooting George C. Wallace, was described Monday as a lonely, quiet person who was something of a puzzle even to his family.

"Nobody could talk to him," said Bremer's teen-age brother Roger. "We never knew much about him."

A former neighbor said Bremer kept a Wallace sticker across the door of his apartment. Officials said he was a below average student in high school.

In Bremer's apartment, newsmen, who arrived after it had been visited by FBI agents, found a Confederate flag, a gun catalog, a box of firearm cartridges, a comic book, hotel advertisements and several newspaper clippings, one of them relating the frustrations of newsmen trying to get past security guards to reach presidential candidates.

Bremer left the family's wood-frame South Side home last year and moved to an apartment, working as a custodian in public schools and at a private club.

Bremer's truck-driver father, William, 58, said the family "had no idea he was in Maryland. He never mentioned anything about Wallace, never mentioned anything political."

"He never had a gun to my knowledge," the father said. "He never went hunting."

Another brother, Theodore, related: "He was against the radical part of the system of American life. He just stayed away from it."

The Bremer family includes four sons: Theodore, 34, William, 32, Arthur, 21, and Roger, 18.

Government agents investigated Bremer's small apartment, and talked for several hours with a teen-age girl who dated Bremer last winter.

The girl's mother said Bremer shaved his head of its blond, wavy locks when he and the girl broke up in January.

"He must have been for George Wallace because he had a Wallace sticker across the door" of his apartment, said Stephen Wasche, who lives in the same apartment building that Bremer did and whose brother is a manager of the building.

"He didn't converse with anybody," said Gary MacDonald, who attended photography classes at a Milwaukee college with Bremer a year ago.

Wasche said he never knew Bremer to have any visitors other than his mother.

Bremer was a student at

South Division High School. Officials said his school grades were below average, or 1.5 on a 4-point scale.

MacDonald, 24, said he had difficulty recalling Bremer. MacDonald said he chatted about the Wallace shooting with some of the instructors whose classes Bremer attended a year ago, and that they, too, had difficulty recalling him.

Bremer, 21, whose parents live on Milwaukee's South Side, lived in the apartment on the city's near West Side until a month ago, Wasche said.

Wasche said he knew Bremer remotely, but not well enough to discuss politics.

Tax Board Considers 36 Cases

Thirty-six cases were considered by the City Tax Equalization Board at its hearing yesterday in City Hall.

Only ten complainants appeared in person before the board, according to Aubrey L. Jones, city tax collector.

Members of the board are James McCune, R.M. Samples and R.A. Baker.

Persons appearing before the board offered testimony that increases in property valuations for tax purposes were not warranted.

The tax department will submit evidence supporting the new valuation figures and the board will review testimony of both sides before making decisions.

Pampa Man Gets 30 Days In Jail For Obscene Calls

Ronald Kincaid, 1300 S. Barnes, was fined \$50 and sentenced to 30 days in jail Monday afternoon when he pleaded guilty before County Judge Don Cain to a charge of making obscene telephone calls.

Sheriff Rufe Jordan said Kincaid had been making calls during the past four weeks to a Pampa housewife.

The sheriff's department made arrangements with the woman to set up a date with the phone caller. She was accompanied to the appointed place by Sheriff Jordan and Deputy Sheriff Joe Brewer at 9:30 p.m. Saturday.

"There has been too much of this sort of thing," Sheriff Jordan said. "We're going to put a stop to it."

Nine Texas Mayors In Washington Asking For Trinity Project

WASHINGTON, (AP) — Nine Texas mayors have asked the federal government for \$34.3 million for the funding of the Trinity River improvement project.

The total cost of the project is estimated at more than \$1 billion including \$750,000 for a barge canal from Dallas-Fort Worth to the Gulf of Mexico.

The mayors testified at a Senate hearing, but for the first time there was opposition to the project not only from envi-

ronmentalists, but from a businessman and an economist.

The mayors of Dallas, Houston, Fort Worth, Arlington, Livingston, Irving, Grand Prairie, Garland, Huntsville, Liberty and Anahuac were among the delegation before the Senate Appropriation public works subcommittee.

All but \$1.02 million of the money is in the President's budget. The extra projects requested were \$1 million for the Lakeview Reservoir and \$25,000

for an investigation of flood control at Bear Creek.

Henry C. Fulcher of Dallas, president of a wholesale lumber company, said economic facilities are rampant in the proposal for construction of the barge canal.

Fulcher said the Trinity proponents have gained support by claiming the canal will have far-reaching economic benefits for the community in general.

He said that in reality there are only four general product groupings like to put significant barge traffic on the Trinity: the sand and gravel, expert grain, heavy iron and steel, and chemicals—for a total of 92 per cent of the expected load.

Prosecution Ends Case Against Angela Davis

SAN JOSE, Calif. (AP) — The prosecution has ended its murder-kidnap-conspiracy case against Angela Davis with details of the black militant's love for convict-author George Jackson. The defense says it will ask today for her acquittal.

Prosecutor Albert Harris Jr. completed the state's case by reading jurors a heavily edited version of Miss Davis' love diary. In it, the former UCLA philosophy instructor talks of marriage vows and refers to herself as Jackson's "lifelong wife."

The trial now focuses on the defense—and defense attorney Leo A. Branton said the first order of business today would be to ask Superior Court Judge Richard E. Aronson for a directed verdict of acquittal on the ground of insufficient evidence.

willingness to kill, if necessary, to free Jackson from San Quentin Prison.

The state contends passionate love was Miss Davis' motive for furnishing four guns and helping plan an escape attempt from the Marin County Civic Center on Aug. 7, 1970.

In the state's theory, a judge and four other hostages were to be traded for Jackson. Instead, the escape went awry and ended in shooting and the death of the judge, two convicts and an accomplice.

Aronson whittled the diary down to 2½ pages which focused almost entirely on Miss Davis' love for Jackson—one of the three Soledad Prison inmates then awaiting trial on charges of murdering a guard.

State Demos, GOPers Canvass Primary Votes

AUSTIN (AP) — Governing bodies of the Texas Democratic and Republican parties meet today to officially count last Saturday's ballots and certify candidates for the June 3 runoff election.

Both meetings, in downtown hotels, were set for 10 a.m.

The Democratic meeting was expected to last longer than the Republicans' because two close state races—for attorney general and for U.S. Senate—likely will result in a recount of the results turned in by the 254 county chairmen to be sure there is no mistake.

The Republicans planned to get their certification out of the way within half an hour then listen to brief campaign speeches from their runoff candidates for governor, Sen. Henry Grover and Al Fay, both of Houston.

The final unofficial figures of the Texas Election Bureau showed Houston attorney John Hill leading Atty. Gen. Crawford Martin by a vote of 993,655 929,099. However 98,018 votes given Bill Pate made Hill's majority margin only about 3,600 votes.

In the U.S. Senate race, former Sen. Ralph Yarborough, with 1,030,302 votes, is in an apparent runoff with Barefoot Sanders, former U.S. district attorney, who had 784,619 votes. Yarborough lacked about 5,000 votes of getting a majority over the four other candidates in the race.

Police Probing Vandalism And Break-in Reports

Vandals worked overtime in Pampa Monday night with tastes running to tile and marble.

At Fort Granite Marble works, marble was chiseled from a monument in work that required no little effort. L. P. Fort, owner of the company, estimated damage at \$135 due to the painstaking labor needed to rework the stone.

Hugh Peoples Realtors reported to police that one of their houses on Sandalwood was entered and considerable damage done to the interior. Walls were smudged, a number of tiles were pried from walls and damaged and cigarette butts were scattered about. Entry was gained by prying the lock of the back door.

A workshop was entered in south Pampa by knocking a hole in the plywood door and unlocking it. According to the police report, nothing was disturbed or missing.

Police are investigating all incidents.

Jury Probing Allegations Against Ex-State Solon

AUSTIN (AP) — The Travis County grand jury begins its investigation today of former Sen. David Ratliff of Stamford on allegations he violated the state nepotism law.

Ratliff's daughter, Lynnora, has been subpoenaed to testify about her father's placing her on his payroll.

Thursday, the jury will hear witnesses from Amarillo in an investigation of whether former Rep. Hudson Moyer used postage stamps from his expense fund to pay off a \$6,000 bank loan. He returned \$6,000 worth of stamps to the House post-office last week.

The jury also was scheduled to hear the daughter of Rep. John Allen of Longview Thursday, but her testimony has been rescheduled for May 23. The Allen case also reportedly involves nepotism.

Your Special Child

The child "who is different" is not somebody else's problem. One in every third family in the United States has a child who is "special" in some way—physically, emotionally or mentally. Thanks to compassionate and dedicated persons such as Pearl Buck and Dale Evans, the Kennedys and the Humphreys, problems faced by exceptional children and their parents no longer breed in attic-and-cellar secrecy. For example, for 1972 Congress appropriated more than \$115 million for study and aid to those involved—a heartening sign of progress.

Few Individuals Escape Contact with 'Exceptional' Child

(EDITOR'S NOTE: The author of many books and articles on exceptional children, Willard Abraham, Ph.D., is chairman of the Department of Special Education at Arizona State University. This is one of a series of articles written for Newspaper Enterprise Association and this newspaper.)

(First in a Series.)

By Dr. Willard Abraham

Is there an "exceptional" child in your family? Think about it for a minute. The answer probably will be "Yes." Check out your own youngsters, nieces, and nephews and their various relatives. Include anyone who has handicapping conditions (physical, emotional and mental) as well as the gifted.

The facts point to one in every third family who is special in some way and one for every pair of grandparents. If your family was skipped, a neighbor or friend can perhaps tab two in theirs.

Not so long ago there was a kind of attic-and-cellar complex about these children (except maybe for some of the bright ones). Parents sometimes hid behind shame, secrecy and denial. Then Pearl Buck wrote about her daughter, and Dale Evans about hers, and the first major breakthrough came.

The movies helped, too. Films like "Charly," "The Miracle Worker," "A Child Is Waiting" and "Johnny Belinda." Recent ones show that mental retardation can be absorbed into our society in a normal kind of way, vividly demonstrated in "The

Last Picture Show," "Straw Dogs" and "Ryan's Daughter."

Another breakthrough came through the famous families of Roosevelt, Kennedy and Humphrey and the handicapping conditions with which they lived.

The final page isn't written yet but we are a great deal closer to accepting children who differ and to stressing their strengths, at home and in schools, jobs and communities.

Once they stopped hiding their children and their own guilt feelings, parents made their needs known, loudly and clearly. They knocked on the doors of legislators and school boards, worked AGLD (Association for Children with Learning Difficulties) and with professionals individually and through organizations like NARC (National Association for Retarded Children), UCP (United Cerebral Palsy), in CEC (Council for Exceptional Children). Their grass roots efforts reached right up to Congress and several presidents and helped bring federal financing never even imagined just a few years ago (more than \$115 million in the 1972 appropriation).

Although more than half of the seven million handicapped children in the world's richest country still receive no special educational help, we've made progress. All states now provide special school funding for these youngsters. Even the gifted are in the act, but with very limited financial support and in only a few states.

Other trends are upward, too. Like these:

- "Resource" teachers to work with specific needs of youngsters who are in regular classrooms most of the time (visually handicapped, for example).

- Early detection of children with learning disabilities.

- Fewer PKU (phenylketonuria) and rubella problems.

- Recognition that the handicapped can often work, earn and pay taxes, instead of being society's burden.

- Understanding that programs, parental acceptance and teaching skills help solve problems.

- The muddling "through" of our gifted seen for what it often is, a tragic loss of much of our greatest talent.

- Minority youngsters now identified as educationally handicapped and not erroneously labeled as mentally retarded on the basis of invalid testing.

- Contributions of sound early educational programs through professional nursery school settings (not the storefront, "Ma-and-Pa" variety).

Our task as parents isn't difficult to define. It is based on a home and school environment that recognizes deficiencies and strengths, so that we adapt our expectations to them. It requires our being as realistic as our parental subjectivity will permit and seeking expert help when necessary.

The child who can't see, hear or reason, whose tantrums or seizures are close to uncontrollable or who surprises the neighbors with his extensive vocabulary, delightful sense of humor or skills at writing, music or art needs our understanding, encouragement and help.

"We are not alone," said James Hilton, in the title of a popular book years ago. It applies to us as parents of children who differ. Teaching, medical, psychological and other professional personnel are on call, supplementing the insights, plans and love we have for these youngsters.

And if you know some fellow who says it's all somebody else's problem, don't get upset. He'll find out.

perhaps earlier than he thinks, that the burden of child exceptionalities lives with all of us. With him, too.

LOS ANGELES (AP) — Several persons threatened to kill film comedian Charles Chaplin during his four-day visit here last month, says a former city police lieutenant hired to guard Chaplin in Los Angeles.

William C. Jordan, now head of Computer Investigations Associates, said Sunday there were 12 to 15 anonymous threats on Chaplin's life. Jordan said the Academy of Motion Picture Arts and Sciences hired him to guard Chaplin. Jordan said there were no attempts to harm the actor.

Chaplin came here to receive a special Oscar from the Academy for his contributions to the film industry.

Five year ago China's Premier Chou En-lai said Chinese armies would be sent into North Vietnam if that country were threatened with invasion.

Rep. Bob Price Against Minimum Wage Legislation

Pampa congressman Bob Price has issued the following statement on the minimum wage bill passed last week by the U.S. House of Representatives:

"Last Thursday the House passed an increased minimum wage bill by a vote of 330-78. I opposed final passage of this legislation which I believe is both irresponsible and unfair to all concerned. While the bill which passed was a watered-down version in that the minimum wage increase to \$2.00 will come in two stages from the present \$1.60 an hour to \$1.80 for the first year and \$2.00 an hour thereafter instead of the original version which would have raised the minimum wage to \$2.00 immediately, nevertheless, this action will solve fewer problems than it creates.

"Increasing the minimum wage will help in eliminating existing low wages; however, a high wage is not all happiness for higher wages lead to higher prices which too often fall hardest on low-income workers for whose benefit the act was passed.

"Despite the boasting of politicians who like to pawn themselves off as benefactors of the oppressed by enacting legislation which is generous with other people's money, the simple truth is that employers can afford to pay only what a worker is worth, and not what may be socially desirable.

Where the minimum wage is raised, the employers of marginal workers have few options immediately open to them. They may either go out of business, lay-off least productive workers, cut back on their hours of work, or substitute capital equipment for

human labor. All of these alternatives cause unemployment.

"I have received a great amount of mail concerning minimum wage legislation, the great bulk in opposition. I do not believe employers to be heartless or callously unconcerned about the well-being of their employees. However, employers as businessmen, must make a profit to survive. If those who run our Government operated a business corporation with their same utter lack of understanding and total disregard of the laws of economics, their business would be bankrupt in short time and their many creditors would be pounding on the door for payment.

"It is ironic that those who pushed hardest for the 25 per cent increase in the minimum wage have been the loudest critics of the Administration's attempt to control inflation. They have condemned the President because we still have an annual rate of inflation of less than 4 per cent and yet their actions in forcing this bill through Congress can only insure that the fight against inflation and unemployment will be made that much more difficult."

OLYMPIA, Wash. (AP) — The Washington State Library recently filled an interlibrary loan request from the Lenin State Library of the U.S.S.R. in Moscow for the book "Sex and Your Heart" by Myron Brenton.

The request was the first received by the state library from the Soviet Union, said librarian Doris Fourie.

Mrs. Richard Nixon accepts the Lions International Humanitarian Award from Robert J. Uplinger, of Syracuse, N.Y., President of the international service club organization. The world Lions Clubs honored the First Lady for her deep understanding of the problems of youth, the blind, the handicapped and the underprivileged, which she demonstrates in every project she undertakes. Comedian Bob Hope received the award last year for his continuous concern and work in sight conservation and eye research.

White House Blue Room Reopened

WASHINGTON (AP) — The reopening Monday of the Blue Room marks completion of a major redecoration of the White House described as "upgrading to museum quality."

The description comes from curator Clement Conger, who advised Pat Nixon during the three-year project in which 11 rooms, ranging from the President's bedroom to the press quarters, were refurbished. The Blue Room, whose

French empire decor has been exchanged for that of the James Monroe era, was reopened formally at a reception tonight given by President and Mrs. Nixon for 800 persons who helped in the redecoration project.

The redecoration included: — Addition of 18 period chandeliers and nine new rugs. — Repainting of the East Ballroom.

Pampa Parts Means Quality

It doesn't matter what kind of car you have, whether it is big and beautiful or small and economical, it is going to have some kind of trouble. That is a simple fact so why burden yourself with a sky-high parts bill when Pampa Parts and Supply Co. Inc. is in town.

Pampa Parts has parts for your car if it is major engine problems that plague you or a rough windshield wiper blade. Just a minute sample of the products at Pampa Parts are: Monroe shocks, Delco batteries

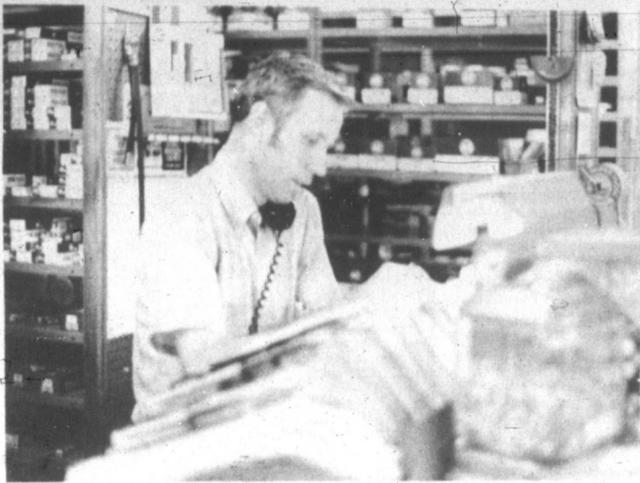

and products, Fram and AC oil filters, Black Hawk tools, Black & Decker tools, Gates hoses and belts, AC, Autolite and Champion plugs, Victor seals and gaskets.

They have parts for most foreign cars besides all American-made autos.

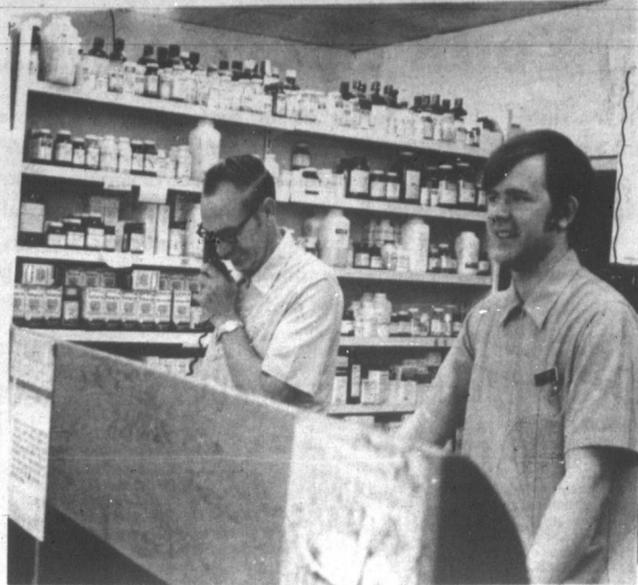

Added to their new parts they have rebuilt under brand names of Texas Rebuilt, Grayrock and Borge Warner. These fine rebuilt parts include brake shoes and clutch plates.

If Pampa Parts doesn't have what you need in stock, they can special order it for you and have it in a short period of time.

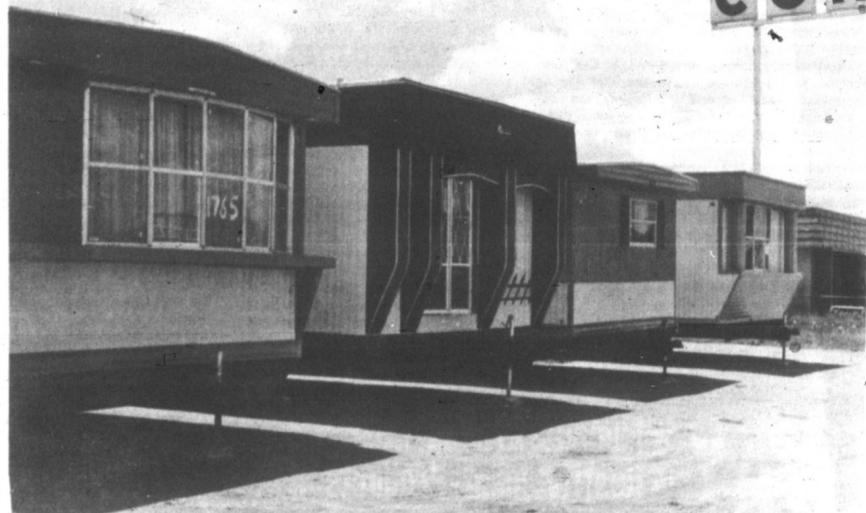

The do-it-yourself mechanics who have saving money in mind should drop by Pampa Parts and Supply at 525 W. Brown and get a helping hand from owners Winford Swain and Bob Burrows today.

PRICING SOME PARTS—Ronnie Patton, partsman at Pampa Parts and Supply, is looking in the price list for a phone customer. At Pampa Parts and Supply you don't even have to be present to get a good deal. (Staff Photo)

NEVER TOO BUSY—The fine pharmacists at Gibson's Pharmacy are never too busy to stop and chat a while with customers. Shown above are (left) Dick Wilson and David Burns readying to fill a phoned in prescription. The folks at Gibson's Pharmacy are not just pharmacists, they are people as well and are more than willing to help you with any of your medical needs. (Staff Photo)

GO INSIDE—You may think these mobile homes at Doug Boyd Motor Company look good from the outside—you should see the inside. Doug Boyd thinks Bolin mobile homes are the best made and

that is why he now sells them. He invites everyone to come to Doug Boyd Motors and look at the 60 and 70 footers he now has on display. (Staff Photo)

Boyd Motors Sells Homes

Does your job require you to move around the country a lot or do you have some resort land that you would like to put a cabin on. Or maybe your problem is, you would just like to have a nice new home to live in.

If you fit any of the given descriptions or you're just looking for a home, look no more.

Doug Boyd Motor Company, the home of quick financing and low down payments, is the place you should go.

Doug Boyd has now added a lot full of big beautiful mobile homes that he would like to show you.

If your job takes you all over the country, go in style with a 14-foot by 70-foot mobile home behind you.

For those who have property at a beautiful lake or a place in the mountains, why have a cabin built in one spot when you can have a nicer home that you can move?

The Bolin mobile homes are not just camping trailers, but actual big family-type homes

complete, with kitchen, living room, bar and at your choice, two or three bedrooms and two baths.

Yes, Boyd Motor Co. has mobile homes with all of those things in them and room to spare.

To make it even easier for you, Doug Boyd is offering up to 12 years financing for his beautiful wheeled homes.

Boyd Motor Co. has several of the spacious Bolin mobile homes on the lot now, both 70 and 60 footers, and are expecting more soon.

Drop by Doug Boyd Motor Company at 821 W. Wilks and say hello to your new home.

If you are tired of your house or its location, get yourself a Bolin mobile home from Doug Boyd and put it where you want.

Why be like your neighbors who think strictly practical or strictly fancy when you can have both and pick your home's site?

SO YOU WANT TO BE Prospects Good for Repairmen, Mechanics

By ERNIE HOOD

Projections by the Labor Department's Bureau of Labor Statistics point up industrial growth that will afford many opportunities for those seeking employment as mechanics and repairmen.

In response to your letters from across the country, here are some of the classifications you've inquired about:

Air-conditioning, refrigeration and heating mechanics—100,000 employed in 1968 and 140,000 in 1980, for a growth rate of 40 per cent.

Aircraft mechanics—135,000 in 1968 and 230,000 in 1980, for a growth rate of 70.4 per cent.

Appliance servicemen—205,000 in 1968 and 260,000 in 1980, for a growth rate of 26.8 per cent.

Auto body repairmen—100,000 in 1968 and 125,000 in 1980, for a growth rate of 25 per cent.

Auto mechanics—615,000 in 1968 and 745,000 in 1980, for a growth rate of 21.1 per cent.

Business machine servicemen—115,000 in 1968 and 200,000 in 1980, for a growth rate of 73.9 per cent.

Farm equipment mechanics—40,000 in 1968 and 45,000 in 1980, for a growth rate of 12.5 per cent.

Industrial machinery repairmen—175,000 in 1968 and 220,000 in 1980, for a growth rate of 25.7 per cent.

Maintenance electricians—240,000 in 1968 and 305,000 in 1980, for a growth rate of 27.1 per cent.

Millwrights—75,000 in 1968 and 85,000 in 1980, for a growth rate of 13.3 per cent.

TV and radio service technicians—125,000 in 1968 and 145,000 in 1980, for a growth rate of 16 per cent.

Truck and bus mechanics—110,000 in 1968 and 130,000 in 1980, for a growth rate of 18.2 per cent.

Vending machine mechanics—16,000 in 1968 and 20,000 in 1980, for a growth rate of 25 per cent.

Watch repairmen—20,000 in 1968 and 21,000 in 1980, for a growth rate of five per cent.

But don't count too much on a career as a bowling-pin machine mechanic (not that anyone has inquired) because while there were 6,500 of them in 1968 there'll only be 6,000 in 1980—a DECLINE of 7.7 per cent.

Many of the trades are entered through formal apprenticeship programs set up by joint committees representing labor and management and administered by the Labor Department's Bureau of Apprenticeship and Training and/or State Apprenticeship Councils, embodying on the job training and related classroom instructions. In some cases high schools and vocational schools offer courses to prepare students for entry-level jobs.

If you would like to see a career field discussed in this column write to SO YOU WANT TO BE, in care of the Newspaper Enterprise Association, Suite 410, 230 Park Ave., New York, N.Y. 10017.

Low Prices and Friendly Folks at Gibson's Pharmacy

Gibson's fine pharmacy has added a new member to their staff in replacement to a recently departed employee.

The new "man on hand" may be familiar to many Pampans or folks of the surrounding area as he has been a dependable pharmacist here for 15 years.

Dick Wilson, born in Amarillo, moved to Pampa when he was nine years old and has lived here since with exception of the years spent at college in Weatherford, Okla.

According to Dean Copeland, head pharmacist, Dick has fitted right into Gibson's Pharmacy's ways of doing things.

Dick has learned that Gibson's Discount Pharmacy is the place where Pampans can save on the cost of medicine

despite the current cost trend and difficult times we live in today.

The firm has three pharmacists on 24-hour call seven days a week.

Dean Copeland, who became a registered pharmacist in 1957, has been with the local firm since 1965. David Urns has been employed by the firm for about one year.

Along with Dick, the three manage to keep prices within reach of their customers.

These men can fill any prescription with the finest medicines without the high overhead prices that are common with smaller pharmacies.

Gibson's Discount Pharmacy carries approximately 15,000

medicines that more than meet most needs in time of illness.

Vitamins are a special feature at Gibson's. It is believed people who take the proper vitamins regularly may ward off many of the illnesses that come to Pampa each year. In stock is any kind of vitamin and again at the low price that has made Gibson's popular.

Service is fast at Gibson's. Four clerks are on hand to take orders eliminating the time a pharmacist might spend on paper work.

For people with over-sensitive skin, a full-line of Allercream Cosmetics is found at Gibson's.

Go to Gibson's Pharmacy for the best in medicine at the lowest price.

WORLD OF WORK

Answers to Employment Questions by Secretary of Labor James D. Hodgson

Reverse Sex Discrimination Is Also Barred

J. U. Boston, Mass., writes: I want you to know that women are not the only victims of wage discrimination. I am a man who makes less than women, although our jobs are the same. Does the equal pay law protect me?

Dear J. U.: The Equal Pay Act covers workers in establishments subject to the federal minimum wage law, and applies equally to men as well as women. Although women are primary victims of equal pay violations, the Wage and Hour Division has found some instances where men were underpaid. Those cases most often involved state laws which required the payment of overtime on a daily basis to women but not men. Where applicable, the federal law pre-empts such state laws.

L. F., Roanoke, Va., asks: If the federal minimum wage is \$1.50 an hour, why are waitresses in a nearby restaurant receiving only \$1.00 an hour?

Dear L. F.: Restaurants, cafeterias, and similar eating places with sales of less

than \$250,000 a year are not required to pay the federal minimum wage. There is an exemption provision in the law for such establishments and other small retail stores. Restaurants grossing \$250,000 or more annually (exclusive of certain taxes) must pay their nonexempt employees at least \$1.60 per hour.

J. H., Boonville, Mo., asks: How do the federal minimum wage and overtime laws apply to farm workers?

Dear J. H.: At least \$1.30 an hour must be paid to workers employed in agriculture by an employer who

used more than 500 man-days of farm labor in any calendar quarter of the preceding calendar year. Five hundred man-days is ap-

proximately the equivalent of seven employees employed full-time in a calendar quarter. Overtime pay is not required for farm workers.

AMERICAN LEAGUE

The team to beat in the American League East is (a) the Baltimore Orioles, (b) the Detroit Tigers.

"They have to beat us," said Earl Weaver, the Baltimore manager, after the Orioles edged the Tigers 3-2 Monday night and snapped a four-game losing streak.

"He's got that a little mixed up, doesn't he? They're behind us," replied Billy Martin, the Detroit skipper.

That brilliant repartee may bring a chuckle or two from Ken Aspromonte, manager of the Cleveland Indians, who were idle Monday but lead the division by one game over the Tigers and 2½ over the Orioles.

Elsewhere, the Chicago White Sox nipped Minnesota 4-3, Oakland downed California 2-1 and Kansas City shodded Texas 5-4. Milwaukee, Boston and the New York Yankees, along with the Indians, were not scheduled.

NATIONAL LEAGUE

"I've been pitching good. It's just that I haven't been winning," Bob Gibson understated. "And winning is what it's all about."

Gibson, the St. Louis Cardinals' flame-throwing right-hander, has been getting most of the heat this season. He has yet to record his first victory of the season to counteract the five defeats he's suffered.

Most of the time it's been just one or two pitches that have made the difference. On Monday night it was one he threw to Pittsburgh's Roberto Clemente, who walloped it over the right field fence for a three-run homer and the Pirates' 4-1 victory.

In other National League action, Philadelphia blanked the Chicago Cubs 4-0, Houston bombed Atlanta 8-2, the New York Mets defeated Montreal 5-3 and Los Angeles nipped San Diego 2-1.

IT HAS BEEN 25 years this spring that Jackie Robinson, trapped in a rundown in a 1949 game in the photo at left, signed a Brooklyn Dodger contract and became the first black player in baseball's major leagues. But he is still receiving awards, such as the "Man of the Last 25 Years" trophy from a sports magazine that he is admiring at right.

McLain Optioned To Minors

ANAHEIM, Calif. (AP) — Pitches which lacked steam and a medical problem were cited by Oakland A's manager Dick Williams when he broke the news that former 31-game winner Denny McLain was optioned to the minor leagues.

"He just wasn't throwing the ball as hard as we know he can," said Williams of the right-hander who has a \$75,000 contract.

McLain, apparently informed of the move Monday morning by A's owner Charles Finley did not make the trip with the team here for a series with the California Angels.

Williams said the pitcher visited a doctor on Sunday who blamed a medication McLain was taking for making the pitcher feel weak.

The prescription was changed, Williams said, but he didn't mention what ailment McLain was under treatment for.

Over the weekend, Williams had demoted McLain to the A's bullpen after the pitcher was hit hard in his last start. "I don't think he has the velocity he had in the past," the manager said then. "I go on what I see out there ... From the way he's throwing, and the statistics show it, I don't think he could help anybody right now."

Tom Kit Is Ready For Pro Golf Tour

FORT WORTH, Tex. (AP) — The kid looked at his Tom Kite autograph and somebody asked who the golfer was.

"I don't know but he sure signs his name bigger than Lee Trevino," the lad answered.

Someday the unsung amateur from Texas' NCAA championship team may have a game bigger than Trevino's.

Kite plays in the shadow of NCAA champion Ben Crenshaw of the Longhorns, but oldtimers like Billy Maxwell will tell you Kite's game is as sound as they come.

"He's got every shot it takes to be great," said Maxwell after playing a round with Kite, a senior, at the Colonial National Invitational Golf Tournament.

Kite, who finished second in the U.S. Amateur in 1970, plans to turn professional this summer after the NCAA tournament. He must, of course, qualify at the Professional Golfers Association school in September at Kansas City and in October at Napa, Calif.

The 5-foot-9, 165-pound Kite said all of Crenshaw's publicity doesn't bother him.

"We have a rivalry and

there's nobody I'd rather beat," Kite said. "We've been good for each other's game. We play every day. I've won some money from him and he has taken some from me. We're just about even."

"When you can stay with a player of Crenshaw's caliber then you become convinced you are good," said Kite. Kite added, "It's a rude awakening for some young players from small towns who never really have any competition. I consider it fortunate I played at Texas. I found out how good I am."

The curly-haired Kite, who wears glasses and has the boyish looks of a high school senior, considers himself an excellent putter.

"I think I hit the ball straighter than Ben but he has about 10 yards more distance," Kite said. "I guess more people around Texas know about Ben than they do me. I'm known on a national scale."

Kite said he was awed at the first professional tournament he played—the U.S. Open at Hazletine.

"It doesn't bother me to play with the pros anymore."

Bobby Unser Has Fantastic Indy Lap

INDIANAPOLIS (AP) — The railbirds brought out their sliderules at Indianapolis Monday and took a second look at Bobby Unser's breathtaking 196.678 qualifying lap.

Among other things, they figured:

—Had the Albuquerque, N.M., driver gone 219.13 feet further in his elapsed time of 45.76 seconds, he'd have reduced his time to 45 seconds flat and his lap speed would have been 200 miles per hour.

—Putting it another way, 293.3 feet per second is 200 m.p.h. at the 2½-mile Indianapolis Motor Speedway oval. Unser covered 289 feet each second he was under the clock.

—Or, as one of the seasoned observers put it, "Say the words '1,000-to-1' real quick and you've already used the time he needed to do 200. Or simply blink your eyelashes three times."

Unser, driving one of Dan Gurney's Olsonite Eagles, ripped off four laps at an astounding 195.940 m.p.h. to take a strange hold on the pole position for the May 27 Indianapolis 500-mile race.

It was, as still another sideline put it, "The greatest combination of driver, machine and sheer courage in the history of auto racing."

But while the Speedway crowd was still agog over a record-shattering performance Sunday that lifted the one- and four-lap marks more than 17 m.p.h. over anything ever recorded at the ancient brickyard, work went on for the other drivers—particularly Mark Donohue and Peter Revson.

These two hotshots are the only top contenders who still have a shot at Unser's pole position.

sition in final time trials this weekend. Even then, the best they may hope for is to snatch the other two front row spots being held for the time being by Gary Bettenhausen and Mario Andretti.

Bettenhausen qualified his McLaren at 188.877 m.p.h. Sunday for the second-best time of the day. Andretti put one of Parnelli Jones' radical new cars in the lineup at 187.677.

No Le Hace Given Chance

BALTIMORE (AP) — No Le Hace, one of only three horses given a serious chance of beating Kentucky Derby winner Riva Ridge in Saturday's Preakness Stakes, was scheduled to arrive at Pimlico Race Course today in preparation for the 97th running of the \$150,000 added classic.

"He's fit and ready to run," trainer Homer Pardue said in an interview Monday following a workout at Belmont Park in which the Derby runnerup worked six furlongs in 1:15 2/5.

The Preakness field firmed up at nine Monday when trainer Bill Raymond named Freetex a definite starter.

Raymond, who was undecided about Freetex after his sixth-place finish in the Kentucky Derby, said he reached his decision after the colt worked five-eighths of a mile in 1:00 4/5 last Saturday.

"He turned in such good work, I decided to give him a chance," Raymond said by telephone from New York.

Both Freetex and Eager Exchange are scheduled to be shipped to Pimlico on New York either Wednesday or Thursday.

Paultz And Barry Lead New York Past Indiana

UNIONDALE, N.Y. (AP) — The numbers were all bad as Coach Lou Carnesecca talked to his New York Nets at half-time of Monday night's fourth game of the American Basketball Association championship playoff.

His club was down by five points, and three players—Rick Barry, Tom Washington and John Baum—were in foul trouble with three personals apiece.

"We were in trouble," decided Carnesecca, "but then, I think we were born in trouble."

The troubled Nets, driven by their demonstrative coach, rallied for a 110-105 victory that tied the best-of-7 series at two games apiece. Game five is in Indiana Thursday night, with the teams returning to New York for a sixth game Saturday afternoon.

What did Carnesecca tell the Nets at the intermission that turned this game around?

"I said," the coach confessed, "For heaven's sake, box out."

That's basketball lingo for getting tough underneath, and that's what the Nets did. They played a rugged defense that turned the game around in the second half. They boxed out.

Little League Scores

In the American Little League's first game Monday night, One Bull got by S&J Mart by the score of 3-2. The winning pitcher, Wing, got 8 strike-outs, gave up 3 walks and 4 hits.

In the second game Rofary Club beat Haralson Oil 7-4, with all of Haralson's runs coming in the first inning. Jeffers got seven strike-outs, gave up eight hits and walked one to gain the victory.

In the National League's first game, Moose Lodge ran by Duncan Insurance 10-0. Young was the winning pitcher, getting seven strike-outs, and giving up only one hit and three walks.

Holmes Gift Shop won the second National League game from V.F.W. by the score of 3-2. Gray was the winning pitcher.

In farm league action Chase Oil beat Citizen's Bank 12-5. Hunnicutt was the winner. In the second game UCT beat Ford's Body Shop 15-6 with Myers getting the win. Sackett of Ford's Body Shop had a home run.

Babe Ruth Scores

In Pony League Action Monday night, First National Bank blanked Johnson Inc. 7-0. First National had four hits and Johnson had three.

In the second game Cree beat the Lions Club 9-5 on 10 hits. Lions collected three hits.

Baseball Tips

10—Playing the Outfield

(Last of 10 Parts.)

Don't become an outfielder unless you are sure that your eyesight tests 20-20 or that it does with glasses (shatter-proof). Outfielders must be able to see the ball clearly as the bat makes contact. It's that extra second which allows an outfielder to judge accurately whether to race in for the ball, stay where he is or get on his bicycle and head for the fences.

How does a major leaguer make such accurate judgments as to where the ball is being hit? By practice. By playing in game after game.

Catching the ball is an individual technique. Don't try to imitate the Willie Mays basket catch. Use both hands, up and extended. Also, don't take your eyes off the ball. A ball dropped in the outfield is a lost out. Whose ball is it? The cen-

ter fielder has the right of way if it's a choice among the outfielders. Any outfielder has the call over an infielder. If you decide it's your ball, say so loud and clear and early.

On throws in, if there's a man on base and the ball you catch isn't the last out, throw to the base ahead of the runner. Like infielders, outfielders must know ahead of time where they're going to throw on any kind of ball hit to them.

Will Hanoi Heed New War Rules?

People today find it hard to believe that in the 18th century, when soldiers went into battle dressed as for a parade, the rules of war were of such a nicety that gentlemen generals offered their opponents the courtesy of the opening fusillade.

Today, few "courtesies" are left in warfare. Not only do napalm and long-range rockets and other modern weapons fail to discriminate between combatants and noncombatants, the destruction of the morale of an enemy's civilian population and his economic and industrial base is considered as vital as the destruction of his armies in the field.

Today, however, ultimate war with the ultimate weapons at men's disposal would leave entire continents scarred and ravaged and uninhabitable—if anyone was left to inhabit them.

Thus, the very horror of modern war's potential has led to the development of new rules of war, or rather, new rules designed to prevent the ultimate holocaust.

In the past 25 years, anyone of a dozen disputes in any one of a dozen places would, in penultimate days, have resulted in war between the major powers—the Berlin blockade, the Korean war, the Suez invasion, the Hungarian revolt, the Cuban missile crisis, the Arab-Israeli wars, the Indian-Pakistan war, the Vietnam war.

Haltingly, gropingly, without any stated or formal agreement, out of each of these crises the superpowers have fashioned guidelines limiting the ongoing ideological rivalry between them.

Within those guidelines, there are certain things a superpower may legitimately do to protect or advance its interests. But there are bounds beyond which it knows it cannot step.

We have seen this graphically illustrated by recent developments in Vietnam, where our mining of North Vietnamese territorial waters has not led to a break in relations between us and that country's chief supporter, the Soviet Union.

The Russians know as well as we do that our actions in this war have not been directed against North Vietnam itself (though the North Vietnamese hardly appreciate the fact) nor against the USSR, but against an idea—the idea of world conquest by communism.

Similarly, it is not essential to Soviet security that a Communist regime succeed in

establishing rule over all of Vietnam. If it can do it with a little help, good. But it is not worth forcing a military showdown with the United States.

We are now trying to get out of the war with something less than a debacle in the field and have taken this latest extreme measure to try to impress upon the Kremlin that its military support of North Vietnam has pushed us perilously close to desperation on behalf of our ally, South Vietnam, and that it is in Russia's own interest to help us get out.

As presidential adviser Henry Kissinger explained the other day: "What we have to face here is one of the problems great powers have in dealing with their clients, that the client looks at problems from its own regional or national perspective while the great powers may take actions in a much wider one."

The big unanswered question in the present crisis is whether the North Vietnamese, who have shown themselves to be a fiercely independent "client," are willing to abide by these new rules.

QUICK QUIZ

Q—Who was the first woman to be nominated for the office of president of the United States?

A—Victoria Claflin Woodhull, who ran as the candidate of the Equal Rights Party in 1872.

Q—Which is the most distinctively American breed of horse?

A—The Quarter Horse, developed in America during the early 1700s. Breeders crossed thoroughbreds from England with horses from the Spanish colonies of North America.

Q—What type of tobacco has practically no nicotine?

A—Turkish tobacco; good Havana tobacco contains little of it.

Q—What was the verdict in the famous Scopes evolution trial held in 1925?

A—John Scopes was found guilty and fined \$100 and costs. The fine was never paid.

Q—Which two heavy weight-boxing champions re-tired undefeated and did not attempt a comeback?

A—Gene Tunney and Rocky Marciano.

Q—Which two states were admitted to the Union on the same day?

A—North and South Dakota, Nov. 2, 1889.

Red Threat Is Not Far From Home

By MARILYN MANION

To speak of the "communist menace" in public is not the trendy thing to do. Everybody who is "in" knows that the real threats to mankind are "racial bigotry," non-returnable bottles, the military-industrial complex and too many babies. But for those of you who, like I, am not particularly "in," here is some information about a facet of the communist menace that lies, if we will only open our eyes to see it, quite close to home.

Spruille Braden, the former United States Ambassador to Cuba, Argentina and Columbia, was a guest on a recent Manion Forum radio program. Braden has also been Assistant Secretary of State for Latin American Affairs, and has taken many special assignments for the United States in and around Latin America ever since. Dean Clarence Manion interviewed the Ambassador for the radio, and the subject ran to the future of Latin America as far as Communism is concerned. Here are some of Braden's remarks:

"I think that the prospects for Communism in Latin America are very serious. You have Chile—Communist, Cuba—Communist, outright so, and you've got a nationalism in Peru. They seem to be hesitating a little bit, but it is actually Communist in the sense that they have seized American property and, as in the case of Chile and Cuba, when I say 'seized,' it isn't just an expropriation, it's absolute stealing. They have just stolen the properties. In Chile they don't want to pay a penny, just as in Cuba—not one centavo will they pay for these millions of dollars worth of investments that we put into those countries.

"We have what was known as the Hickenlooper Amendment, stating that we would not loan any more money or give any favors to any country that had seized American property in this fashion. In discussing the matter with the Chairman of the Subcommittee on Latin-American affairs of the House, he said, 'Well, I think we ought to do away with the Hickenlooper Amendment.' He thought it was too stringent. In my opinion, the opposite is true; we've got to be respected and we've got to learn that respect is the all-important thing in the conduct of foreign relations.

"A year and a half before Castro moved into Cuba, when he was still up in the hills, I sent word to Foster Dulles, the Secretary of State, that if we continued with our then policies it was absolutely inevitable that we would get Castro, chaos and Communism in Cuba. I got my answer a month later in a press conference when Foster Dulles said there was no danger of Communism in Latin America.

"As to the danger of Communism now, we'll have more of it. In fact, the former foreign minister of Columbia, just about a year ago at a luncheon that I had, offered to bet anybody at the table, in any amount that they wanted, that within ten years Latin America would be all Communist.

"Students from Latin America come to our colleges—universities that are infiltrated with at least Socialism and often Communism—and they learn up here. Now in one case, in Columbia, I think it was, 20 army officers who were sent up, all their way paid by the United States Government—taxpayers here, and they went to our universities and colleges. When they got back to Columbia, 15 of them were way off to the left, which they hadn't been before."

A Communist Latin America? The "In People" would probably say, "So what?" To which one might reply, "Remember the Cuban Missile Crisis?"—The American Way Features

First it was ping-pong, then it was pandas; but when they get to the POWs, free the Americans China's been holding prisoners for years?

California Gov. Reagan Joins Tax Reform Push

By PAUL HARVEY California's Gov. Ronald Reagan has joined those of us urging that we reform our income tax system by throwing out the whole thing.

Don't let the proposals for a "value-added tax" fool you. There is a way to simplify our cumbersome tax procedures but this is not it.

Theoretically the "value-added tax" is paid by industry. Businesses would subtract expenses from sales and pay a percentage tax on the difference. Ha!

Industry would pay as industry always does—by adding to the price of its product.

Industry pays no taxes; only people pay taxes.

When the National League of Cities surveyed "people" giving them a choice among property tax, income tax, auto tax, utility tax, sales tax, citizens of 12 major cities chose the sales tax as the one they "disliked least."

It's buried in the price of what they buy.

Politicians urging the value-added tax figure it enjoys a similar advantage—camouflage.

Politicians are understandably disinclined to "raise your taxes"; instead they levy some new and different tax with some fancy-sounding name indicating it's a tax somebody else will pay.

H. L. Hunt Writes

COMMUNISTS STRIKE

For an agonizing quarter of a century, we of the greatest Republic the world has ever known have been on the defensive in the struggle against the communistic nations. It has been their want and capability to select and strike, diplomatically and militarily. Our answer has been a selective response, and usually a losing one. So it is not surprising, or at least should not be, that the North Vietnamese have launched powerful offensive actions against us and the South Vietnamese. Hanoi forces, under what must be admitted the brilliant Gen. Viap, have struck with powerful conventional forces at what we had begun to believe was a relatively secure South Vietnam. Again the United States is on the defensive and this time with one of its arms cut off. U.S. ground forces have been steadily withdrawn and those left are not seriously engaged.

One can rightfully ask: "Why do we of the U.S. find ourselves in this predicament?" One simple answer, as regards Indochina, is that politicians of both political parties have constricted the use of strategic air power. In earlier years of the war, our air power could have intervened decisively with strategic strikes on Russian shipping in the port of Haiphong and against Red China stores in Hanoi. All are now contributing to our defeat and embarrassment at the hands of a fifth rate power.

WORLD ALMANAC FACTS

The Library of Congress was established for Congress in 1800 and now serves as the national library, containing over 15 million volumes and pamphlets. Among treasures usually on exhibit are the Gutenberg Bible, the first and second drafts of the Gettysburg Address and Jefferson's "rough draft" of the Declaration of Independence.

Your Health

By Lawrence Lamb, M.D.

Dear Dr. Lamb—A number of years ago I had a sympathectomy. They made a seven-inch incision along the side of my abdomen and cut the sympathetic nerves to the blood vessels to my foot. It was necessary because I had a foot infection. Now I am having trouble standing up. When I lie down my heart rate is normal, usually below 70. When I sit up it is 120. If I am up for several minutes it goes as high as 140 beats per minute. I feel my heart thumping, get light headed, am very shaky, break out in a sweat and feel nauseated. Is this problem related to my operation and what can I do about it?

Dear Reader—You have what we call postural hypotension which means that when you change your posture by standing up your blood pressure drops. It can follow an operation to cut the sympathetic nerves that control the size of the blood vessels in the lower part of the body. A similar type of operation was done commonly a number of years ago in the treatment of individuals with high blood pressure and immediately after the operation most of these individuals had problems similar to the ones you cite.

Individuals who have been at bed rest for long periods of time or those who are acutely ill also have similar problems. Several illnesses and anything which affects the area in the brain that

controls the sympathetic nervous system can cause this. Some drugs, particularly some of the tranquilizers, are a frequent cause and if you want to go way out, so can weightlessness.

This is the exact kind of problem that concerned a lot of us as a possible complication of manned space flight—it was thought the prolonged period of weightlessness would cause the astronauts to no longer be able to adapt to the effects of gravity when they stood upright. An increase in heart rate, drop in blood pressure and even fainting was observed in some of the astronauts after space flight.

It is not possible to determine, without a fairly complete examination, all the contributing factors to your problem, but I would suggest that if you are on any tranquilizing drugs you ought to talk with your doctor about eliminating these entirely. If you happen to be taking any medicines to control high blood pressure, these too can be a factor and perhaps you should talk to your doctor about decreasing or eliminating any such medicine. If you are not taking any medicine, then you might consider using support stockings or wrapping the legs firmly with an elastic bandage from the tip of the toe well up above the knee. The use of this external pressure prevents blood from pooling in the legs and prevents the increase in heart rate and drop of blood pressure.

Jackson Warns: Better Not Leave It To George

By ROBERT S. ALLEN

Vietnam Now Becomes A Frightening Gamble

Now it is truly "Mr. Nixon's war."

Nothing the President has done in the past four years really warranted such a label.

The Cambodian incursion in 1970 was, as he said, undertaken not to widen the war but to knock out North Vietnamese sanctuaries in that country and enable U.S. withdrawal to proceed apace. Even the recent renewed bombing of North Vietnam could be justified as a necessary reaction to Communist aggression, an attempt to blunt the massive drive across the Demilitarized Zone.

Above all, the President has reduced American ground forces in South Vietnam so steadily and so drastically that their combat effectiveness is now a nullity.

But his decision to seal North Vietnam's ports does constitute a true escalation, one that President Johnson shied away from even at the height of U.S. involvement in the fighting.

President Nixon has taken a serious and frightening gamble.

While his warning that ships proceeding through activated mine fields to or from North Vietnam do so "at their own risk" is uncomfortably reminiscent of Germany's announcement of unrestricted submarine warfare against shipping to Britain in World War I, which was one of the steps leading to America's declaration of war in 1917, the immediate danger is not a confrontation with the Soviet Union, the chief supplier of war materiel to North Vietnam.

The danger is that once again the United States will play what seems to be a trump card and find that nothing has changed—if, in fact, the combat situation in South Vietnam does not actually worsen.

That, of a certainty, has been the consequences of every U.S. turn of the screw against North Vietnam, from the first attack against torpedo boat bases to the bombing of Hanoi itself.

What if Russia sits tight and accepts the blockade of Haiphong, except for making loud noises in all diplomatic and propaganda channels? Suppose the strategy works in the short run, cutting the flow of supplies to North Vietnam and forcing it to pull back its horns a bit in South Vietnam?

The President has gone out on an extremely long limb by stating that the price of our lifting the blockade is release of all our prisoners of war and an internationally supervised cease-fire.

Suppose these demands are simply ignored? There are few other cards left to play. The bombing of North Vietnam can hardly be stepped up further. A limited invasion of North Vietnam above the DMZ, either a South Vietnamese operation or one involving U.S. Marines, is a considered possibility.

But the latter, especially, carries grave risk of setting off demonstrations in this country that will make everything that has gone before pale in comparison—and without any real prospect of forcing Hanoi to accept a cease-fire.

Given the political climate in the United States, North Vietnam has little to lose by waiting.

Each day brings closer the presidential election. Each day that the President—and along with him the nation—is perched on the end of this long, long limb increases the chances of his defeat and the election of a man pledged to total and immediate withdrawal from Vietnam, in the air and on the sea as well as on the ground.

Unless, of course, the American people opt for all-out war against North Vietnam. And that is the least likely of all the host of contingencies and possibilities and eventualities that may flow from Richard Nixon's decision to play yet one more card, to try yet one more turn of the screw, to end this endless war.

Dear Abby

Column helps reader realize good fortune

By Abigail Van Buren

(© 1971 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: You have just made my day! In your column, you listed the three top causes of friction in marriage. Jealousy, money and cards.

It made me realize how lucky I am, because neither my husband nor I are attractive enough to anyone else to create jealousy, we have no extra money to fight over, and we don't play cards!

Then to top it off, your CONFIDENTIAL TO FROM THE OLD SCHOOL: "Welcome to the club. Very few of us who had 'old world' parents were told the facts of life by our mothers. All my mother told me, God bless her, was never to put bananas in the refrigerator." gave me the biggest laugh I've had in years. I roared aloud to an empty house as my husband had gone to work.

All the bad news in the rest of the newspaper, nor anything thrown at me for the rest of the day, can erase the warm, lighthearted feeling I got from reading your column today.

Just had to let you know. D. W. IN MINNESOTA

DEAR D. W.: We're even! Your letter just made my day! Thanks for writing.

DEAR ABBY: My husband and I rented an apartment in an expensive high-rise building. About six months ago, a very lovely older couple in their sixties rented the apartment right next to ours, and we haven't had a good night's sleep since.

Their quarreling and bickering can be heard until the wee hours of the morning. The way they shout at each other, they must be deaf.

We can't say that they are actually disturbing the peace because they don't have any crashing, smashing fights, just very noisy arguments that last until dawn.

We hate to complain to the management because these people are quite charming. Any suggestions?

THE FOLKS NEXT DOOR

DEAR FOLKS: If you haven't told them that they are keeping you up nights, that should be your first order of business. Perhaps they ARE hard of hearing, and hopefully your complaint will inspire them to get hearing aids.

Your letter raises two questions: 1. How do you figure they aren't disturbing your peace if they keep you up nights? 2. How do you define "charming"?

DEAR ABBY: This concerns your unsympathetic answer to "EXHAUSTED," who was drained dry by her mother's endless list of unreasonable demands. You said, "After all, she IS your mother."

I won't say, "Shame on you, Dear Abby," because thru the years of reading your column, it is my bet that you had the kind of mother many of us would like to have had. However, I for one wasn't that fortunate, so I know how "EXHAUSTED" feels.

While your advice was sound, you should have added, "If you can't beat it [the situation], and you can't join it, you will have to learn to walk away from it—for a while. Let Mom run her own vacuum, make her own bed and write her own checks. Your own health is more important to you and your family than anyone else's."

Gold-hearted and cruel? Not at all. Just sensible. My own children taught me that most mothers EARN the treatment they get from their children in their later years. And the person who so wisely pointed this out to me said, "Your mother IS your mother, but it was HER act that caused it—not yours."

Your Horoscope

By Jeanne Dixon

WEDNESDAY, MAY 17

Your birthday today: Material progress is no great problem once you meet the challenge of spiritual growth, sincerity. Emotional expression develops over a broad range, offers fulfillment and excitement. Today's natives are noted for sustained endurance, economy and industry.

Aries [March 21-April 19]: Emphasis for today is mainly on social action. Young people need your attention. Widen your range to include hobbies.

Taurus [April 20-May 20]: Complete something distasteful in the morning, then turn to matters more to your liking in the afternoon. Property deals and improvements are favored.

Gemini [May 21-June 20]: Following early excitement, your course steadies and you can settle domestic tensions. Romantic interests brighten, include surprises.

Cancer [June 21-July 22]: Once morning schedules are completed, improve your leverage with a strong bid for personal advancement. Claim your earnings, recover what you have lent.

Leo [July 23-Aug. 22]: A quiet morning in which things come your way. Push to get things moving by using persuasion to best advantage. Radiate high confidence.

Virgo [Aug. 23-Sept. 22]:

People who seem to be following different courses most of the time are now in general agreement. Unusual cooperation becomes definitely possible.

Libra [Sept. 23-Oct. 22]: Get a fresh perspective and perhaps a new friend to help turn things in your favor. Fulfillment of an old wish is near.

Scorpio [Oct. 23-Nov. 21]: The trend is toward positive movement, and it should be fairly easy for you to go along with things as they happen.

Sagittarius [Nov. 22-Dec. 21]: Make an early compromise, accept minor inconveniences in stride, go on to larger ideas and schemes for later hours. Celebrate this evening.

Capricorn [Dec. 22-Jan. 19]: An early start makes the whole day, with several eventful "mid-course changes" to be negotiated. Relax early for extra rest.

Aquarius [Jan. 20-Feb. 18]: Present yourself and your plans simply and with good-humored enthusiasm. Offer hospitality; invite somebody you want to know better.

Pisces [Feb. 19-March 20]: Your effective participation is almost taken for granted. Make no sacrifices, demand your full share of benefits. You can do more than expected.

Quotable Quote:

By THE ASSOCIATED PRESS

Some quotable quotes from women during the week:

"Some people disclaim their natural habitat. I always named my origin. It didn't hold me back and neither has my color. I was born in poverty. My father raped my mother when she was 12. Now they've named a park for me in Chester (Pa.)."—Entertainer Ethel Waters, in an interview.

"Americans think it's such a strain to look after children on trips, and it is in this country. But abroad the child care facilities are so extensive that you can have it both ways—share experiences with the kids or have the option of being on your own, knowing they are well cared for."—Leila Hadley, who has written a book about traveling to Europe with children.

"Experience is important only in the early stages of a rider's career. To give him or her confidence. Later it has little to do with success."—Jockey Robyn Smith.

DKG Meets

Mrs. Exie Vantine was installed as president of Theta Delta Kappa of Delta Kappa Gamma at the Panhandle Country Club Saturday. Other officers are Mrs. Edith Morris of White Deer, first vice president; Mrs. Barbara Williams, second vice president; Mrs. Kay Burk, Groom, recording secretary; and Mrs. Bea Bowers, corresponding secretary.

The ceremonials committee composed of Mrs. Rosemary Melton, Mrs. Vera Copeland, and Miss Mary Ewing were in charge of the installation.

The president, Mrs. Genie Murray, presented Mrs. Fedelia Hogg with a gift in honor of her retirement.

Members celebrated the birthday of Delta Kappa Gamma by paying tribute to the founders of the organization. Mrs. Vera Copeland, Panhandle, presented a resume of the history of Delta Kappa Gamma and reviewed the life of one of its founders, Dr. Anna Hiss. The meeting closed with the singing of "Hymn to Our Founders."

The program followed a luncheon hosted by Barbara Williams, Miss Marjorie Ewing, Mrs. Rosemary Melton, Bette Gill, and Thelma Holman.

BRACELETS FOR POWS

WILMETTE, Ill. (AP)—Prayer bracelets are being worn by some 400 girls of a Wilmette Catholic girls' high school to create interest in the American prisoners of war in North Vietnam.

They said they will wear the bracelets until the Americans are released.

Each bracelet has the name of an American prisoner for whom the wearer will pray until he is free.

The bracelets were blessed during a special mass attended by 1,000 students of Regina Dominican High School.

"The whole idea is to get people interested in the prisoners," said the Rev. Martin McCormick, the school's chaplain.

Jim: "The double clearly called for—a spade lead and if West had led his singleton spade declarer would have been held to seven tricks. West realized this and promptly said, 'I guess that cost me the maximum fine. Here is \$10.'"

Oswald: "Culbertson remarked that he was glad West realized that he had made a serious error. He then fined South \$5 for his redouble with only one spade stopper."

Jim: "I think Ely was unfair to South. The redouble could have been expensive but it wasn't. In fact it brought South a lot of extra points. Furthermore it might well have caused West to open the diamond."
