Fighting Inflation

President Nixon's statement that he will persist in applying "hitter medicine" until inflation is brought under control was timely and necessary.

One reason inflation has continued is that there hasn't been wifespread conviction that the federal government is determined to maintain firm measures needed to half runaway inflation. The President also should be applauting for his decision to reject wage and price controls and the imposition of guidelines. Wage and price controls would create black markets, disrupt production, and apply a brake to investment in industry—the source of new jobs in the United States. As for guidelines, these were tried

### Blue Angels' Plane Crashes Near Airport

EL PASO, Tex. (UPI) -One of the \$2 million planes flown by the Blue Angels, a famous Navy demonstration flying team, crashed and burned near the International Airport Thursday, but the pilots ejected safely. Military officials at Biggs Air Force Base confirmed that the plane had crashed three miles north of the civilian airport, but few details were immediately

The plane, a new F4J supersonic jet, was one of two Blue Angels planes on a flight from Pensacota, Fla., to Point Mugu. Calif., and was apparently trying to land for fuel when it crashed.

A propeller - driven Constellation, which accompanies the jets with ground crews and spare parts, already was on the ground at the airport at the time of the crash.

A helicopter picked up the pilots after they parachuted to safety. No names were immediately released.

#### Grateful for the refreshing breeze of that torrid Brazilian night, Francisco Gomes and I sat with log benches tilted

back against the sides of his adobe cabin. As I became acquainted with the deacon of my new pastorate, I asked, "How did this wonderful little church come into being out here 13

far from any city?" Humbly and almost apologetically, that time-tested, weatherbeaten backwoods farmer told his story.

Less than twenty years before, bandits had dominated that region and religion was just for women and children. There were no schools, hospitals or doctors and fanatical superstition clouded the minds of the people. Outsiders were viewed with suspicion and simple comforts were unknown.

One day a brother from far away Rio de Janeiro came to visit them and Francisco noticed that every night he squinted over the light of a kerosene lantern, reading a black book.

"What is that book you are reading, John?" asked Francisco.

"My brother, this is the Holy Word of God. Would you like to own a copy?"

When John went home, he left the Bible with his brother. Semi-illiterate Francisco labored over God's Word until one day he called in numerous neighbors, read scriptures to them and asked if they didn't believe it to be true.

Our Lord will never let His Word return unto Him void, and He sent an itinerant preacher out there to that almost inaccessible area. Looking for an open door for the preaching of the gospel, he was directed to the humble cottage of Francisco Gomes. Joy unspeakable flooded the heart of that backwoodsman as he welcomed God's man to his home.

Quickly horses were mounted and the countryside alerted that services would be held that very night.

Perhaps no preacher ever had quicker response to his message as dozens proclaimed their faith in Christ and desire to follow Him. In a nearby village, where

Satan had ruled for decades. a church was founded and through the ensuing years, countless souls have been freed from the bondage of sin and moral degradation.

"If the Son makes you free, you shall be free indeed." Francisco shared "the Good News" with his neighbors and God did the rest. The formula has never changed.

# Right Attitude Can Mean A Lot Tonight

I read a wire service story yesterday that was really quite inspiring. It should point out a few things to the people who always blame the coach for losing and to the players, who just THINK they are giving 100 per cent effort.

The story is about a coach in the midwest who is dying of cancer, is confined to a hospital bed six days a week and who has already lost one of his legs to the dreaded

Last year he coached his team to an 8-1 record. This year he couldn't be with them except on their Friday night games. Since he would rest during the week to have enough strength to make it on the field Friday night.

Last week, going into their last game of the season his team was unbeaten. They were playing a team that was unbeaten and this one was for all the marbles.

The coach had suffered a setback during the week and was near death but come Friday night an ambulance entered the gate and brought the coach to the bench on a stretcher.

Needless to say his players were so inspired they won the game.

One thing this story points out is this coaches love for the game and for his players. This fellow was near death but he wanted to be with his boys in their last game.

Ever coach I've ever met has this same love and dedication for not only the game but for his players also. This goes not only for the head

Pampa could do more for its school and the football program in this city tonight than any other team who has put on the green and gold uniform.

A Pampa victory would mean third place in the north zone, a place a Pampa team hasn't finished in years. A victory would certainly show that the football program here is on the way up.

The Harvesters would be surprised at the number of people in town who cluck their tongues and say they're nice boys and I hope they win, but, they're just not smart enough and tough enough.

This simply is not true, although the Harvesters haven't done anything to disprove the rumor. They are as smart and as tough as any team in the district.

THE AMERICAN COUNTRY STORE still has its cracker barrel, wicker-bottom chairs and potbelly stoves, but superhighways and supermarkets are taking away the customers. Once the center of many rural communities, the country store offers everything from food to hardware and clothing, often extending credit from one crop to another. As one owner put it, "We've got everything they've got in town except parking meters." The truth of the matter, however, is that the bucolic boutique may soon disappear from the American scene. Kenneth Murray made these photos while traveling through Virginia and Tennessee.

ESTATE OF WALTER HOLT WASHINGTON (UPI) - An community. In 1968, Lemberg urban affairs specialist who set out to learn why there were fewer riots this year than last has concluded that civil disorders are "as hard to explain when they don't happen a when they do."

Lisa Hirsh, associate editor of Chronicle, a publication of Urban America, Inc., wrote in the latest issue that the answers she got for the relatively cool summer of 1969 pointed up "the fire line"

Lisa Hirsh also got somewhat the counted 687 disorders and reached 340 in the first five fewer riots this year than last months of 1969.

Miss Hirsh also got somewhat conflicting analyses of the violence that did take place in Lisa Hirsh, associate editor of Chronicle, a publication of Urban America, Inc., wrote in the latest issue that the answers she got for the relatively cool summer of 1969 and the first five reached the restance of the leaters restamentary upon the Estate of Walter Holt Barber, Deceased, were granted to the undersigned as Independent Executric of the Estate of Walter Holt Barber, Deceased, on the 3rd day of November 23, and the clivy Hall Pampa, Texas, Unity Hall Pampa, Texas, Unity Hall Pampa, Texas, Unity Hall Pampa, Texas, County, Texas, County, Texas, Unity Hall Pampa, Texas, Unity Hall Pampa, Texas, Unity Hall Pampa, Texas, Unity Hall urban affairs specialist who set counted 687 disorders and BARBER Notice is hereby given that Origipointed up "the fire line between riotology and mythology."

However, she said federal officials had little doubt that there was a real reduction. The Department of Justice, which counted 24 riots and 216 disturbances in all of 1968, officially recorded only six riots and 127 serious disturbances in the first eight months of this year. She said department

Telegraphs of the differ said there were more confrontations between militants and police, but little sign that there was an increase in planned attacks.

The reasons for the difference between the two years?

Miss Hirsh listed a series of disturbances in all of 1968, officially recorded only six riots and 127 serious disturbances in the first eight months of this year. She said department
