Prospective 1939 Grid Star Draws Laughs

Foosy Green Poses As Bishop In Leading Role Of School Comedy

By THE ROVING REPORTER

When Bonnie Lee Rose, attractive daughter of Mr. and Mrs. B. W. Rose, becomes temperamental she climbs a 30-foot ladder to the rafters above the high school auditorium stage and gives vent to her feelings by walking over the rafters on the loose boards.

WOULD YOU KISS HIM?

"Sometimes I'm like Garbo—I wanted to be alone," she explained after she zipped down the ladder for her cue in the Junior class play which will be produced Thursday and Friday nights in the auditorium.

Proceeds of the play will be used to help finance the annual Junior-Senior banquet this spring.

Plot of Comedy The plot of the comedy deals with a hymn-book salesman (Foosy Green, prospective Harvester football star for next year, who poses as an Episcopal bishop (Hugh Anderson) after he seeks refuge from the police in the house of Ebenezer and Matilda Goodly (Jack Johnson and Jeanne Lively).

The bishop was soon expected in the Goodly home and Mr. Jones, being a doubter of the first war, began to pose as the bishop.

Case is Large The complete cast includes: Jones (awkward salesman with modern ideas), Foosy Green; Ebenezer, a cop, Bobby Carr; Ebenezer Goodly (hen-pecked), Jack Johnson; Matilda Goodly, Jeanne Lively; Marjorie Goodly, daughter, Jerry Smith; Minerva Goodly, daughter, Marjory McColm; Gladys, Bonnie Lee Rose; Richard Heather, friend of Marjory; Chester Carpenter; Fuller, keeper of sanitarium next door.

Scout Week Will Begin Tomorrow Pampa Boy Scouts will join with Scouts over the nation on observing National Boy Scout week which begins tomorrow.

I am just an ordinary housewife, with only two children, one boy and a girl, Johnny, age 7, and Ann, who will be three in March. I belong to the Missionary Society, one culture club and a social club that both myself and husband belong to; we entertain every fifth week.

### Editor Insists Fascists Will Continue Aid

ROME, Feb. 7 (AP)—Virginia Gayda insisted today the Spanish Insurgents would continue to get Italian and German support until they had won a "political" as well as a military victory, despite reliable reports of an official repudiation of his earlier statement that Italian troops would remain in Spain even after the end of the war.

The usual authoritative fascist editor who often reflects Premier Mussolini's views did not, however, repeat specifically his assertion troops would remain in Spain.

Reliable sources said the British government had been assured by Foreign Count Galeazzo Ciano the Sunday statement on troops did not represent fascist policy.

Lord Perth called on Count Ciano late yesterday to ask how Italian leaders reformed intentions attributed to them by Gayda with the British-Italian friendship agreement, which went into effect Nov. 16.

The agreement provided that Italian troops would be withdrawn from Spain as soon as the civil war ended, if not earlier.

The British were reported to have accepted Ciano's denial that in this matter the Italian press had been inspired by, or reflected, Premier Mussolini's views.

### Mansion's Care Up To Mrs. O'Daniel

AUSTIN, Feb. 7 (AP)—W. Lee O'Daniel has been Governor of Texas exactly three weeks but he doesn't know much about the famous Governor's mansion.

Questioned about the servant situation, O'Daniel replied:

"I haven't gotten into things at the mansion yet. Mrs. O'Daniel always has the run of the home."

Almost 20,000 bales of cotton was used in 1937 for the manufacture of fertilizer bags.

### HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or acute passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

### ROOSEVELT

(Continued From Page One)

tration employment—or, with the addition of those dependent on them, from 6,000,000 to 8,000,000 Americans would no longer receive federal government aid.

Needs Apparent

Discussing the prohibition written into the relief bill against reducing WPA rolls by more than five percent during February and March, Mr. Roosevelt said:

"The need of these people is so apparent and so deserving that the rolls, in human decency ought not to be reduced during February and March by even 5 per cent. After conferences with the WPA it has been determined for the above reason to hold the rolls at the present figure of 3,000,000 persons during these two months."

Mr. Roosevelt said in his message that the "facts" constituting an emergency were as follows:

1—That the WPA rolls should be held at their present 3,000,000 through February and March to prevent undue suffering and to care for persons certified as in need but have not been given employment.

2—That the \$725,000,000, if not supplemented, will require a "very drastic reduction" in the rolls starting April 1, which would result in removing people in numbers far beyond that could be absorbed in industry, resulting in widespread want and distress.

3—The need for "orderly planning" of the relief program requires that the administrator should know by early March what funds will be at his disposal after April 1, and that due to the time required for congressional action, this can be brought about "only by my reporting to the Congress on the situation at this time."

### Set Dinner Plates Given Governor Leo

AUSTIN, Feb. 7 (AP)—There will be plenty of dinner plates tonight at the governor's mansion after the night, but the matter of food to go on them is something else again.

At a press conference, Governor W. Lee O'Daniel disclosed there would be a celebration at the mansion tonight, when the Tyler chapter of the Daughters of the American Revolution would present him and Mrs. O'Daniel four dozen fine plates for use at the mansion.

"Now if someone will volunteer some food," smiled the governor, "we will be very happy. That will make it a fine celebration."

The question was put whether the state's first family, if hard up for food, had tried barbecuing a goat presented him on the day of O'Daniel's inauguration by Mills county admirers in appreciation of the fame he had brought the name "Filibilly."

Almost any day the goat can be seen cropping grass on the mansion lawn, and some time ago the governor said the animal slept in his new automobile.

"No," he said, "we haven't barbecued him. Nor have the neighbors."

### Sale Of Christmas Seals Nets \$431.17

A total of \$431.17 has been raised to date in Gray county on the sale of Christmas tuberculosis seals by the Gray County Tuberculosis Association.

Although the sale started before Christmas, contributions are still being received at the office of W. B. Weathered, president of this county association. A letter enclosing \$2 was received today, and Monday a total of \$14.82 was raised.

Of the total sum raised in Gray county, 40 per cent or \$172.47 goes to the state association, the balance remaining in Gray county.

### PRISON

(Continued From Page One)

and that this committee be instructed to report back to the legislature within sixty days, submitting its definite recommendations as to how convict labor may best be employed, how the business management of the prison system may be improved, to the end that the expense to the taxpayers of this state of maintaining the prison system may be reduced.

And it is my further belief that if the resolution authorizing this committee directs the committee to deal only with this phase of prison management, that the opportunity for constructive recommendations will be increased. It is my further belief that we are more interested in securing information which will enable us to operate our prison system in a more businesslike manner in the future than we are in a study of shortcomings, if any, in past management.

"I realize, of course, that it would be necessary to make some inquiry of the present business of procedure in order to recommend improvements for the future, but I doubt the wisdom of such a committee operating as a general investigating committee."

Cost Runs High

"The reason that I am suggesting an inquiry to determine the best method of utilizing the labor of convicts and the best plan of business management is that the reports of the comptroller of public accounts indicate that it is costing the state of Texas on the average during the past ten years more than a million dollars per annum to operate the prison system. In other words, during the past ten years the state has paid out, in round figures, 11,000,000 more than it has received back in revenue. Now it seems to me that under a proper system of utilizing prison labor the prison system should be made approximately self-sustaining. But I am very frank to say I do not have sufficient information to enable me to make to the legislature specific recommendations as to how this could be accomplished. And I know it would be helpful to me, as governor, and I believe it would be helpful to the legislature if we had the advice of a competent committee concerning these matters."

### BRITISH

(Continued From Page One)

chance of success unless the Spanish government surrenders.

Officials emphasized, however, that Insurgent recognition still would entail prior withdrawal of Italian and German troops—which Rome and Berlin have assured Prime Minister Chamberlain they would do in any case at the end of the Spanish war.

The continued recognition by Great Britain of the Spanish republican government depended, officials said, on the "questionable" legal position of the government.

### By CHARLES S. FOLTZ, Jr. PERPIGNAN, France, Feb. 7 (AP)

—An end to the civil war which has paralyzed Spain and endangered the peace of Europe for 30 months appeared imminent today.

Dr. Juan Negrin, premier of government Spain, and his last die-hard supporters were reported in diplomatic circles to be swinging around to the view that they must yield.

President Manuel Azana abandoned all appearances of clinging to his post as chief executive of the republic. After coming to France Sunday and staying a day near the frontier he went to a French retreat at Colonges, close to Geneva.

Fighting in northern Spain appeared to be over.

Insurgent Generalissimo Francisco Franco checked the pace of his armies marching through the northeastern province of Catalonia to ward the French frontier while columns of defeated government troops and refugees withdrew into France.

Negrin, diplomatic sources said, was bending all his efforts toward orderly evacuation of his northern troops and the escape of refugees who had not yet crossed the border.

Foreign Minister Julio Alvarez del Vayo, who conferred with envoys of France and Great Britain last night at Le Perthus, remained in close touch with the two powers, which were understood to be consulting Franco in return.

Resistance Useless.

Ralph Stevenson, British minister to Spain, was said by informed diplomatic sources to have told Alvarez del Vayo France and Britain believed further resistance in Central Spain would be useless.

At the same time it was reported Franco had assured France complete occupation of northern Catalonia would be delayed long enough to permit orderly evacuation of government soldiers and refugees across the border.

After the first negotiations broke down Saturday because of the Spanish government's demand for a plebiscite, diplomatic sources said the government had modified its demands and now was asking nothing except assurances peace would bring no reprisals and would leave Spain independent.

The negotiations were surrounded by secrecy, but diplomatic circles expressed the belief that, regardless of the outcome, a long continuance of the war appeared impossible.

### Have You Seen the Want Ads?

OMAHA, Neb., Feb. 7 (AP)—Bob Morris, two-time University of Nebraska track team letter winner, is going to travel 60 miles on Saturdays after his third varsity award.

Studying at the university proper in Lincoln in 1937 and 1938, Bob scored enough points each year to get his letter. This year he's a student at the university's college of medicine here—60 miles from Lincoln.

But 60 miles isn't going to stop a miler, half miler and relay runner like Bob from competition. Neither is lack of a nearby track.

He's doing his training on the gravel shoulders of an outlying Omaha concrete boulevard.

Lonesome? Well, Morris says he sometimes misses the comradeship of the squad, but he "rather enjoys" running alone.

He expects to confine his running to the meets at Lincoln, but hopes to arrange things to get in to the Big Six indoor championships at Columbia, Mo., and the outdoor championships wherever they meet this year.

For the Lincoln meet he plans to leave Omaha at noon by automobile arriving at the university "with just about enough time to warm up before the running starts."

Berries of the tangee tree, a rare tropical plant, may be used in the same way as lipstick.

### Testimony In Maxey Trial Starts Today

Testimony in the case of State of Texas vs. Irvin Maxey, Pampa negro indicted on January 5 on a charge of murder in connection with the fatal stabbing of Odessa Lintzy, began today in the courtroom of the Southern club on the night of December 11, was started this morning in 31st district court.

A jury to hear the case was not completed until 5:15 o'clock Monday night. When J. M. Smith was selected as the twelfth juror. Other jurors are L. J. Ward, J. W. Kurtz, W. W. Shadd, Benton Norman, Bud Shipley, E. S. Byars, John C. Haynes, J. B. Collier, H. Dean Borrow, Ralph A. Irwin, and Clyde Willis.

Sir Robert H. Innes has been on the stand up to noon today, among them Dr. R. Malcolm Brown and C. B. Chandler.

Dr. Brown testified that he saw Odessa Lintzy at Worley hospital and that she died within 30 minutes of an internal hemorrhage from a chest wound, inflicted by some sharp instrument.

C. B. Chandler, of the Pampa Mortuary, testified that he was called to the Southern club on the night of December 11. When the ambulance arrived he was the driver of the negro girl had already been taken away. He said that he had prepared the body of the girl for burial and corroborated Dr. Brown's testimony as to the nature of the wound that resulted in death.

Ruby Fricker, negro girl, testified that she had seen Odessa Lintzy and Irvin Maxey together at an intermission of the dance at the Southern club.

"She took him over to the electric virotra grabbing his hand, and was talking to him. Irvin didn't say anything. He acted as though he was mad."

Then, she said, Odessa patted Irvin on the cheek. She had nothing in her hands but a handkerchief, the witness stated.

Then Odessa walked away toward the kitchen. She asked Maxey not to follow her."

Warned Not To Follow

When Maxey started to follow the girl a second time, the witness said she heard Odessa say, "I told you not to follow me." She testified that she had seen Odessa put her hands on Maxey's shoulders and gave him a slight push, after which the stabbing occurred.

After Odessa had fallen, she said the defendant still had a knife in his hand that he wiped against the left leg of his pants. She identified a knife exhibited by Aaron Sturgeon, special prosecutor, as "looking like the same blade to me."

Dan Harris, she said, grabbed Maxey's arm and asked "what do you mean," and Odessa had slipped to the floor and tried to raise herself a second time.

The witness said she was about five feet away from where the stabbing occurred, and was sitting down during the conversation she had related and the stabbing that followed.

On cross-examination she said she did not know if Odessa had been drinking. She said she did not see any whisky or gin being drunk at the dance, although beer was being consumed.

Questioning of witnesses for the state this morning was being done by Aaron Sturgeon, while Newton P. Willis of Willis & Via was asking questions on cross-examination.

Attorneys for the state are Clifford Braly, district attorney, and John P. and Aaron Sturgeon, special prosecutors.

### Bob Morris Will Seek New Honors On Cinder Track

OMAHA, Neb., Feb. 7 (AP)—Bob Morris, two-time University of Nebraska track team letter winner, is going to travel 60 miles on Saturdays after his third varsity award.

But 60 miles isn't going to stop a miler, half miler and relay runner like Bob from competition. Neither is lack of a nearby track.

He's doing his training on the gravel shoulders of an outlying Omaha concrete boulevard.

Lonesome? Well, Morris says he sometimes misses the comradeship of the squad, but he "rather enjoys" running alone.

He expects to confine his running to the meets at Lincoln, but hopes to arrange things to get in to the Big Six indoor championships at Columbia, Mo., and the outdoor championships wherever they meet this year.

For the Lincoln meet he plans to leave Omaha at noon by automobile arriving at the university "with just about enough time to warm up before the running starts."

Berries of the tangee tree, a rare tropical plant, may be used in the same way as lipstick.

### Sadler, O'Daniel Both Early Risers

AUSTIN, Feb. 7 (AP)—Railroad Commissioner Jerry Sadler had better watch out. Gov. W. Lee O'Daniel is right on his heels in this business of getting up early and putting in long working hours.

Gov. O'Daniel said today he was rising at 5:45 a. m. daily, going to the office in the capitol at 8 a. m. and retiring at midnight.

However, it is not a new thing for O'Daniel. He said he had been following this schedule for years.

He usually walks the few hundred yards from the governor's mansion to the capitol, but a few days ago he accepted a ride.

As he was walking toward the statehouse, some boys in a delapidated Model T Ford, white in color, having no top and bearing a batch of snappy wisecracks painted on its sides, pulled alongside and asked if he would "hop in."

The governor stepped in and rode to the capitol in style.

Concerning Jerry Sadler, the railroad commissioner recently protested to the state board of control, which manages the capitol, that he couldn't get electric lights in his office turned on when he tried to go to work at 5 a. m.

Friends over the state have sent Sadler a number of lamps and lanterns.

James Foran, Miss Alvina Starlight, old maid of 59; Carolyn Surratt; Bishop of Ballarat, Hugh Anderson; Helma (Swedish maid) Heidi Schneider; Mr. Bigsbee, a victim of the sanitarium, Ed Terrell; stage committee, Bill Noland, James Foran; promoters, Ann Chisholm, property committee, Vera Sackett, Bill Davis; alternates, Eula Taylor, Ann Chisholm.

Due to illness, Carolyn Surratt, star of the play, has been unable to practice this week, but will be ready to go on the stage Thursday night. Jerry Smith also has been ill but was back at school today.

Recent dress rehearsals indicate that the play will be as amusing as any ever presented here.

### AMLIE

(Continued from page one.)

The Senate over confirmation of Amalie's nomination.

The committee hearing started yesterday when Amalie denied charges by the Wisconsin legislature that he was a Communist.

Meanwhile, Senators watched for some criticism by President Roosevelt of the Senate's 72 to 9 rejection of the nomination of Floyd H. Roberts to be a federal judge in Virginia.

The President said last week if Roberts were rejected he would have something to say about it in a letter to the judge. Roberts was opposed by both Virginia Senators, Glass and Byrd, on ground Mr. Roosevelt had nominated him as a rebuke to them for failing to support administration measures.

They made the case a clear-cut issue of whether the White House or the Senate should have the final word on federal patronage in the states.

### WPA Play Will Not Be Given Tonight

On account of the absence of one of the members of the cast, Edmund Hudgens, who left Pampa Monday for Plainview where she will enroll in Wayland college, the regular production of the Pampa Dramatic club, "The Wedding Present," will not be given tonight as originally scheduled, and the club will not hold its meeting.

The next meeting of the club will be next Tuesday night at the city hall auditorium, and one week later, on Feb. 21, it is planned to present two one-act plays, "The Wedding Present" and "The Wisdom Tooth."

In the cast of the first play will be Leon Seitz, Helen Madefra, and Charles Mason, with Mrs. P. D. Ferguson as director. Cast of the other play and director has not been announced by Mrs. Rosemary Roach, in charge of Pampa's WPA recreation project, under which the plays are presented.

U. S. farmers are estimated to have planted 356,000,000 acres in the principal farm crops in 1938 and to have harvested 342,000,000 acres. The difference represents crop abandonment.

### Roosevelt To Send New Relief Message

WASHINGTON, Feb. 7 (AP)—President Roosevelt has signed the \$725,000,000 deficiency relief bill, the White House announced today, and will send Congress a message on the subject later today.

The bill cuts \$150,000,000 from the President's request for funds to carry the WPA through the next five months.

WPA officials had asserted that the original relief appropriation for this fiscal year—\$1,425,000,000—would be exhausted by today.

Besides reducing the President's estimates from \$875,000,000 to \$725,000,000, the deficiency measure provides that not more than 5 per cent of the present number of persons on WPA rolls can be dispensed in February or March.

The President is authorized to ask for additional funds if the spring business improvement fails to take up the employment slack.

A WPA investigation also is authorized in the bill to purge from WPA rolls those found to be not in need of relief.

# 60 Boxers Ready To Go In Gloves Tourney

## Nine Towns Will Send Youths To Pampa Tomorrow

**ATTENTION MR. ANR MRS. AMATEUR BOXING FAN.** On Tomorrow, Thursday and Friday nights at the Pampa Athletic arena, beginning at 8 o'clock each night, the second annual Pampa News Golden Gloves boxing tournament will be staged for your entertainment. The Pampa News receives absolutely no remuneration from the tournament nor does any individual.

The tournament is conducted under sponsorship of the Southwestern branch of the AAU and can be held only by newspapers. Pampa is one of the smallest cities in the state conducting a tournament and last year's event was the third largest in the state.

Approximately 60 young boys from this section of the Panhandle will square off on a quest for eight titles and free trips to the state tournament in Fort Worth next week. There will be between 15 and 20 bouts each night.

Represented in the tournament are the cities of Stinnett, Borger, Pollett, Higgins, Canadian, Shamrock, Alameda, Kingsmill, and Pampa. Each will send fans to see their boys in action.

Proceeds from the three nights of amateur boxing will go for the advancement of amateur sports in Pampa. A fund was started last year and this year's receipts will be added to it.

There is a great deal of difference in amateur and professional boxing and in judging of bouts. Amateur rules are made to protect the boy every way known and make boxing an exercise for him.

Fans are urged to remember that a last round flurry by a boxer does not necessarily give him the bout because his opponent might have carried the first two rounds by a large margin. Also, a knockdown does not give a boxer that round, it only counts a few points against him and his opponent can come

tripping, kicking or butting with foot or knee.  
2. Hits or blows with head, shoulder, forearm, elbow, throttling of opponent, pressing with arm or elbow in opponent's face, pressing head of opponent back over ropes.  
3. Hits with open glove, inside of glove, wrist, or side of hand.  
4. Hits landing on back of opponent, especially any blow on back of neck, and kidney punch.  
5. Pivot blows.  
6. Attack while holding ropes, or making any use of ropes.  
7. Wrestling, lying on, and throwing, in the clinch.  
8. An attack on an opponent who is down must be severely dealt with.  
9. Clinching, holding or locking of opponent's arms or head, or pushing a stiff arm underneath arm of opponent.  
10. Holding an hitting, or pulling and hitting.  
11. Completely passive defense by means of double cover and intentionally failing to avoid a blow.  
12. Useless, aggressive, or offensive utterances during the round.

13. Wrestling, lying on, and throwing, in the clinch.  
14. An attack on an opponent who is down must be severely dealt with.  
15. Clinching, holding or locking of opponent's arms or head, or pushing a stiff arm underneath arm of opponent.  
16. Holding an hitting, or pulling and hitting.  
17. Completely passive defense by means of double cover and intentionally failing to avoid a blow.  
18. Useless, aggressive, or offensive utterances during the round.

19. If a boxer has received a foul blow and declares himself unable to continue the bout the referee shall, if he has seen a foul has been committed, use his discretion, and, if in his opinion the victim is unable to continue through no fault of his own, stop the bout, disqualify the offender and award the decision to the victim.

back and stagger him and even the count.

In order to familiarize fans with rules of amateur boxing, the method of judging appears below along with rules:

**Here Are Rules.**  
For awarding points the following must be taken into consideration:  
(a) Number of hits. Each hit which lands in accordance with the rules.  
(b) Defense. The successful avoiding of blows, so that the attack of the opponent misses.  
(c) Attacking and tactics shall be considered at the end of each round when awarding points for the round.  
(d) Foul blows must not be counted. If the referee warns one of the competitors for a foul the judges shall award points to the other competitor.

**RULE 19. CORRECT HITS.**—Points shall be awarded for correct, clean hits with the knuckle part of the closed glove on any part of the front or sides of the head or body above the belt. Hits on the arms do not count. Backhand blows are not allowed.

**RULE 20. FOULS.**—The competitor who does not obey instructions of the referee, acts against the boxing rules, boxes in an unsportsmanlike manner or commits fouls, at the discretion of the referee, can be warned or even disqualified at once without warning. Only two warnings can be given in one bout. The third warning brings prompt disqualification. Each boxer is responsible in the game way for his second. The following are fouls:  
1. Each hit or hold below the belt,

## M'Ewin Wins By Slugging And Choking

Tiger Billy McEwin remained cock-of-the-walk in local wrestling circles after a wild victory over Able Freeman last night at the Pampa Athletic arena. McEwin won the last two falls but not until coming from 'way behind.

It took Russ Riley 23 minutes to drop Steve Netry in a spectacular semi-final which featured wrestling. Riley had to come out of a series of whip kick to slam Netry hard for the fall.

Allan Plummer wrestled clean and scientific in battling Joe Banaski to a draw in the preliminary. Plummer, however, had the advantage all the way. He held Banaski in a short arm scissors for more than 10 minutes, getting the same hold after 'way behind.

McEwin, living up to his word, started out to rough Freeman out of the picture early but the mauler from the Bronx retaliated and gave McEwin some of his own medicine. Freeman after 15 minutes of furious grappling, Freeman came out of a couple of slams to drop McEwin with several Sonnenbergs, a couple of drop kicks and then followed with a jackknife hold.

The wild Montana didn't waste any time in the second round. He gouged, choked, slugged and finally made Freeman give up with a Japanese crab in five minutes.

Freeman was unable to stand any more back punishment in the third fall although he had McEwin nearly out from drop kicks when he missed one and dropped to the canvas on his back. Before he could recover McEwin grabbed another Japanese crab and the battle was over in nine minutes.

## School Girl Equals Men's Par At L. A.

LOS ANGELES, Feb. 7 (AP)—The name of 17-year-old Catherine Shuster, a Long Beach school girl, was added today to the list of outstanding Southern California women golfers.

Playing in the Los Angeles Country club's midwinter invitational tourney yesterday, Miss Shuster carded a 72 for what links followers said they believed is the best women's 18-hole competitive mark in Pacific Coast golfing history.

The young shotmaker, a finalist last summer in the Western Junior championships in St. Louis, produced a 35 for the first nine, equaling men's par.

She finished three under women's par.

## Dallas Will Send Players To Monroe

DALLAS, Feb. 7 (AP)—A working agreement with the Monroe, La., club of the Cotton States league was announced here yesterday by George

## Former Giant Dies

ST. LOUIS, Feb. 7 (AP)—Anson Murphy, 73, former baseball player with Dallas of the Texas league and the New York Giants before they entered the National league, died last night.

## BITS ABOUT BOWLING

With Jones rolling a total of 587 pins the Santa Fe bowling team in Class C topped 2349 pins last night in defeating the Pampa Press three straight games. The Norge Rollators took three straight from the Modern Beauty Shop in the first meeting of the women's teams. Ellis Barbers picked three from the Kiwanis club.

Jones' game of 223 pins was high score for the night. Mrs. Bill Murphy of the Rollators topped 528 pins in three games.

The Class A schedule for tonight follows:  
Cargray vs. Voss Cleaners and Schneider vs. Cabot, at 7 o'clock; Diamond Shop vs. Thompson Hardware, at 9 o'clock.

Schepps, president of the Dallas Steers of the Texas league.

Dallas will option players to the Monroe club in exchange for the right to purchase at the end of the season, of any player on the Monroe nine.

They had only five men with

## Pampa Will Try To Win One From Carey Tonight

If both Pampa and Carey win their district tournaments, and both are favored to win, go to the regional meet at Canyon, then the most significant basketball season will be fought here tonight at 8 o'clock.

## Golden Gloves Pairings To Be Made After Weighing In

The game may or may not be a duplicate of the final game of the regional tournament. Both the Cardinals and the Harvesters have beaten the Cards twice, but the Carey lads are still favored to win their district. Pampa has lost three games, the last one Saturday night at Plainview. They hope to come back with a vengeance tonight.

## House Of David Thrills Crowd In Winning Tilt

Said bald-headed, red-whiskered Guard Steinecke of the House of David basketball team to Captain Bob Andis of the Pampa Harvesters before the game:  
"Now listen sonny, we're gonna beat you just two points—that's all, no more, no less; so you boys get busy and play real hard and you might fool us and beat us, but I promise you right now we ain't gonna beat you more than two points!"

Steinecke was right—they beat the Harvesters just as he said they would by two points. The score was 40 to 38.

But the score was the least interesting feature of the game. The fans got their money's worth last night. The House of David put on a real show, and incidentally convinced the fans of their basketball genius.

Harvesters Praised  
The Benton Harbor Mich., cagers were artists with the ball. They were always the complete master of the game, yet when it was over, Maxwell, the tall center said:

"Your boys have a good club—one of the best high school teams we have played. We've beaten several college teams this year that weren't a bit better than your team. Your boys might actually beat us if they were on good and hot as a firecracker. I could tell your boys were not making their shots."

The Davids apparently scored at will. They kept the Harvesters running round in circles while they passed the ball crazily, rolling it on the floor, passing it through their legs, and throwing it with an English on it. They could also throw a curve to such an extent that the ball would suddenly swerve in the air and go to the other fellow.

Forward Koche was a favorite with the crowd. He gave his guard, Doyle, a particular fits, and kept the crowd in laughter most of the time. The men were also wizards at dribbling, especially Koche. It is a matter of conjecture as to how much the Davids could have beaten the Harvesters if they had put out everything they had. They played deliberately and confidently, with no lost motion.

They had only five men with

them, and Referee Ley called only eight fouls during the entire game, five on the Davids. At the half-time intermission, the men did not go to the showers but stayed on the floor and practiced shooting. Apparently they could play for hours without stopping, because they seldom ran, but relied on their accurate passing.

Lead Always Small  
The visitors seldom permitted their lead to get over six points. The score at the first quarter was 8 to 8, 20 to 17 for the visitors at the half, 36 to 24 for the whiskered crew at the third quarter. It was the best basketball show of the evening.

Chop Lyons led the scoring with 10 field goals. Maxwell scored 2 baskets, Koche 2, Steinecke 4 and Hamilton 1. The Davids turned down all free shots.

Andis hit the bucket 7 times from the field for the Harvesters. Heiskell 3, Miller 6, Aulds and Dunaway scored a free shot each. Miller and Andis tied for scoring honors with 14 points each.

## Billy Conn Will Fight Apostoli Friday Night

By DREW MIDDLETON  
NEW YORK, Feb. 7 (AP)—Sure, 'tis a sad day for Ireland. The only Irishman within shouting distance of a boxing title is hold Billy Conn, a broth of a lad from Pittsburgh,

who is getting ready to fight Freddy Apostoli, the gentlemanly ex-bellhop, Friday night.

Time was when you could shake Irish fighters out of the trees. John L. Sullivan, Jim Corbett, Terrible Terry McGovern and the first Jack Dempsey, the nuptials, set the style. Today Conn and the youthful Patrick Edward Comiskey are the only Irishmen among the better bruisers.

Conn would like to make the weight and fight for the middleweight championship. Mike Jacobs plans a bout for him with Melio Bellina of Beacon, N. Y., who is recognized hereabouts as the light heavyweight king. What's more Conn is big enough and good enough to move in select heavyweight circles.

His immediate foe, Apostoli, claims the middleweight title, but the title, recognized only in this state and California, won't be on the line for the 15-round duel this week. Conn, a hearty feeder, is way above the 160-pound limit.

He held a seven and a half pound bulge when he beat Freddy in ten rounds here in December. His weight advantage doesn't mean he will win again, however.

The San Franciscan is amazingly good the second time out against anyone. He beat Solly Kreiger, recognized as champion by the National Boxing Association, in ten rounds, then stopped him in five in a return match. He lost to Young Corbett III, in ten rounds, got another bout and won on a technical knockout in eight.

These and other victories have placed Apostoli at the top of his class, although the National Boxing Association calls Kreiger king. That little matter will be straightened out soon when Jacobs announces a fight between the two.

Until it comes off the boxing industry strings along with Apostoli. He is clever, fast and a cruel, though non-paralyzing hitter.

This isn't worrying Billy any. "They claim I was tired at the end of the first fight. Well, I had done ten hard rounds with a good man. This fight is for 15 rounds. I'm training for that distance and I'll be in shape to go it at top speed."

O'Daniel Plans Messages To Legislature

'Three Or Four' More Outlined By Governor Of Texas... AUSTIN, Feb. 7 (AP)—Governor W. Lee O'Daniel disclosed today he was preparing "three or four" more messages to the Legislature.

He made the announcement coincidentally with releasing a message recommending a legislative investigation into business operations of the state penitentiary...

The Governor was smiling and apparently in high spirits as he sat in his chair...

"I have some ideas which I believe will be highly beneficial to agriculture, concerning consolidating some offices," he said.

"I wouldn't say exactly that it might be construed as meaning I was against the interests of agriculture, and I am for them."

There has been an uproar in press and elsewhere over a statement made by the Governor last week when he granted the convicted slayer a 30-day reprieve...

"Will you grant the additional reprieve?" he was asked. "Yes," he replied; "I certainly would. Anytime I can save the life of a man, I will do it as long as I can."

He did not elaborate in the forthcoming message on the death penalty to the Legislature.

Queried about the highway commission appointment—the Senate 10 days ago refused to confirm his appointment of a close friend, Orr F. Collins of Dallas—Governor O'Daniel said: "I have not decided."

"As the press conference was about to begin, Senator Will Pace of Tyler and Rep. Abe Mays of Atlanta left the executive offices, and the Governor was asked if they had talked to him on the subject of the commissioner's position."

'CRET' Market Briefs

NEW YORK, Feb. 7 (AP)—Leading stocks did a reversal crawl today, market, losses ranging from fractions to a point or so at the close.

Mild buying at the close lifted quotations above their lows in some cases. Failure of the list to follow through on the run-up of the utilities yesterday, after the week-end announcement of a deal between the Commonwealth & Southern and the TVA, tended to chill sentiment, brokers said.

Utilities were subjected to profit taking at the start, but the majority kept reacting to small amounts.

Prominent stocks on the downward drift included North American, Consolidated Edison, Commonwealth & Southern Preferred, U. S. Steel, Bethlehem, General Motors, Chrysler, U. S. Rubber, United Aircraft, Westinghouse, Kennecott, Santa Fe, Texas Corp. and Montgomery Ward.

Warren F. Cretney, above, is the owner of the Cretney Drug which will hold a formal opening in its enlarged quarters tonight.

The Senate could re-consider its action. On other matters, the Governor said he favored raising the legal limit for truck loads, now 7,000 pounds, but did not plan to attend legislative hearings tonight when the subject will come up.

"He observed he was 'greatly impressed' by the address of Dr. Homer P. Rainey, new president of the University of Texas, to a joint session of the Legislature, commenting: 'I think he is a splendid gentleman, and the university has a wonderful man.'"

He went on to say he favored developing the university as "rapidly as possible" and thought the university, A. & M. College and Texas Tech were "several years ahead of the business development of the state."

"They are leading the way," he said.

Directors Discuss 1939 BCD Program

Suggested activities of the Pampa Board of City Development for 1939 were discussed at a meeting of the members and the advisory board last night.

No definite action on the program was taken but all suggestions were recorded and a working out line will be announced later.

The board voted to authorize payment of \$350 to the Summer Recreation program, sponsored by the Council of Clubs, B. C. D., the city and schools.

Pampa again will participate in the Burger Birthday party on March 8, it was decided.

Corn acreage in the United States decreased 3,000,000 in 1938 and cotton acreage approximately 8,000,000 acres.

Couple Continues Hop To S. America

BROWNSVILLE, Feb. 7 (AP)—Bruce Gimble, New York aviator, and his wife, Doris, left here today for Mexico City on another leg of their flight to South America.

The aviator, flying his own plane, arrived here last night after an 11-hour flight from New York City.

The couple spent the night here, refueling their plane at the Brownsville airport.

They plan tentatively to stop to stop overnight tonight in Mexico overnight tonight in Mexico City, then continue on to Buenos Aires.

Blue Named Head Of API Research Group

HOUSTON, Feb. 7 (AP)—Burdette Blue of Bartlesville, Okla., today was named chairman of the committee of petroleum research of the Independent Petroleum Association of America.

The major function of the committee is to collect and distribute factual information on the oil and gas producing industry.

Scout News TROOP 24.

Troop 27 held their second Scout meeting last Monday night. Those present were Johnny Golis, Scoutmaster, Bill Swearingen, John Hyatt, Buddy Sutton, Lewis Simms, Othel Barnett, Junior Henson, Junior Teague, Charles Broxton, Bill Broxton, Don Riley, Wallace Crane, W. D. Vanderburg, Coy Vanderburg, Harry Vanderburg.

The next meeting will be held Monday night Johnny Golis wishes all of the parents and committeemen would attend at least one meeting a month.

# New Cretney Drug Store To Have Formal Opening Tonight

## Gifts To Be Given Crowds This Evening

Cretney Drug store will make its formal bow to the people of Pampa and the Top O' Texas tonight in its enlarged and remodeled location at 110 North Cuyler.

There will be cups of ice cream for the children and other gifts for the men and women attending the formal opening of the store.

It is one of the best constructed and designed stores in the city and presents a system of streamline merchandising in perfect accord with the times.

From the modernistic store front with its large Neon sign to the warehouse at the rear of the building that supplies the stock for the allied store at Borger, the remodeled store is a splendid example of 1939 business efficiency.

**Modern Window Reflectors**  
 Display windows have a depth of 5 feet and are 10 feet long, lighted by the latest type of reflectors. Space has been provided back of the windows for air cooling units that are to be installed later. All motors, the compressor and the carbonator for the fountain are concealed under the south window.

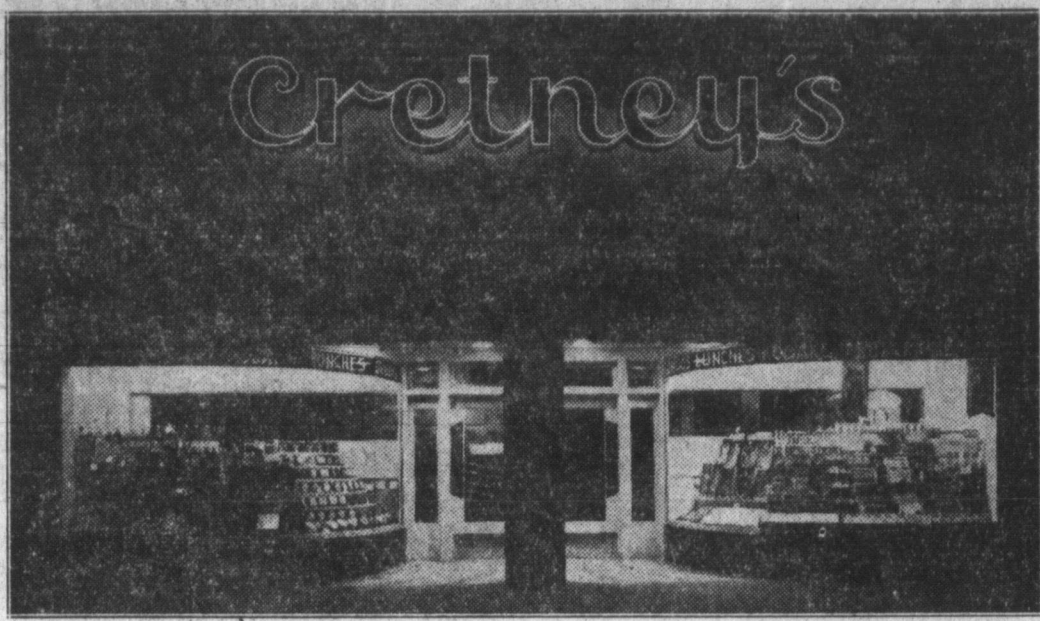

On the front of the building is a Neon sign, 20 feet long with black script lettering 3 1/2 feet high, in power green tubing. The surface of the space above the windows is in white with black trim.

Windows are of the newest type and are designed to give customers a complete view of the merchandise on display.

**Interior 90x34**  
 In the interior of the store, the dimensions are 90 feet by 34 feet. On the north side of the store is located the shelves carrying the stock of the 10 departments, while the backbar, fountain, booths, and kitchen are located along the south side of the store.

**Fountain—Bar Cost \$8,900**  
 The fountain is 33 feet long. It is a Bastian and Blessing fountain, of red color, with a black Capolite top. On the backbar are a grill, toaster, steamtable and fat fryer.

FRONT VIEW OF CRETNEY'S DRUG STORE

As modern as 1940 is the front of Cretney's, 110 1/2 North Cuyler, a keynote of the efficient arrangement within. Windows are large with the maximum of light, so that customers may see every article display. A wide doorway and two doors make entrance and exit easy. Base of the windows is of black Carrara glass and the pillar in the center is of the same material, that

also provides the trim above the windows. Against the white stucco background, is the 20-foot Neon sign with black lettering outlined in green.

(Photo by Fletcher's Studio)

Meals are served from the backbar. Complete meals will be served starting Wednesday, lunch from 11 a. m. to 2 p. m., dinner from 5:30 to 7 p. m. Cost of the fountain and backbar was \$8,900.

Seating capacity of the store is 83. There are 12 chairs at the fountain and a row of booths opposite and extending from one end of the backbar. Chairs at the fountain and seats in the booth are covered with red leather. Tops of tables in the booths are black in color.

In the kitchen, located at the rear of the store on the south side is a modern refrigerator 30 cubic feet in size, a modern Majestic kitchen range with automatic heat control.

**Ivory-Scarlet Color Scheme**  
 Light ivory with scarlet trim is the color scheme of the interior of

the store, enhancing its beauty and making for sparkling clearness. Ten large ceiling lights, five on one side and five on the other, give the maximum of visibility over the entire store.

A 1939 Armstrong linoleum carpet of light-color design, covers the floor. Cost of laying the linoleum was \$700.

Against the north wall of the store are the shelves where merchandise is displayed. From front to back the departments are in candies, wines, tobacco, baby needs, rubber goods, hospital needs, sundries, electrical goods, and animal needs for cattlemen.

Sundries are displayed on fixtures in the center of the store, while newspapers and magazines are on racks close to the entrance.

counter of the latest type at the rear of the north side of the store. A registered druggist is on duty at all times. The Walgreen line of drugs is carried.

"By buying in large quantities we are able to save our customers many dollars," Mr. Cretney said.

Only nationally-advertised brands are featured, such as Squibb and Parke-Davis.

**Phones Connect Departments**  
 An inter-communication telephone system and a system of stock control are distinctive features of the store's operation. There is a telephone at the fountain, in the drug department, at the prescription counter, and in the office, which is located at the rear of the store, in the center, overlooking the interior.

The telephone system enables one department to call any other department or the office, and the office can also call any department.

**Stock Control System**

Under the stock control system an accurate and immediate knowledge of the store's business can be obtained. Each of the sections in the divisions—fountain-lunchette, cigars and tobacco, liquor and wines, cigarettes and magazines, and drugs—is lettered and numbered, giving complete data on quantity of items carried and the price.

## Cretney Opened Drug Store Here Three Years Ago

Warren F. Cretney, owner of the beautiful Cretney Drug store, has been a resident of Pampa for more than eight years. He is a registered pharmacist with licenses in Texas, Wyoming and Colorado.

Three years ago Mr. Cretney opened his drug store here. It was half its present size. Previous to that he had been pharmacist in a local store.

In 1920 Mr. Cretney enrolled in the University of Colorado but he received his degree from the University of Wyoming in 1924. He came to Texas in 1927 and for three years worked in Amarillo. He spent a year in Plainview and then came to Pampa.

Another Cretney Drug store is located in Borger, purchased by Mr. Cretney in March of 1937.

Mr. Cretney has unlimited faith in Pampa as a business center. "Pampa can be made a great trading center by cooperation of all merchants," Mr. Cretney has often remarked. "A large percentage of our business is still going out of town because of lack of proper merchandise and modern stores. Local merchants can trade back and forth, supplying the needs of Pampa customers thereby keeping them from going out of town to satisfy their needs."

## 17 Persons Employed In Cretney Drug

Seventeen persons are connected with Cretney Drug stores in Pampa and Borger, 13 with the local store and four in Borger. All are and for years have been residents of the city in which they now work.

The entire staff of the Pampa store has been working for weeks changing merchandise and arranging new stock. Thousands of pounds of stock have arrived and unpacking it has been a mighty job.

In charge of the prescription is J. H. Pitterson, a registered pharmacist in Texas and New Mexico. He has been a resident of Pampa for 12 years and has been with Cretney's since last October. Mr. Cretney is also a registered pharmacist in Texas, Wyoming and Colorado.

The store floor manager and window decorator is Clyde Oswald, a resident of Pampa for 10 years. He has been with the store since its opening. For five years prior to that time he was associated with Mr. Cretney in another store.

Tony Martin is a veteran soda fountain manager and his entire staff of assistants are not only capable and experienced fountainers but are also experienced drug sales women. Members of the department are Emma Olsen, Lois Kirk and Odessa Kunkel, who have been with the store since its opening or soon after, and Alice Powell and Patricia Stewart.

Since installation of the enlarged fountain and lunch department, Mrs. A. C. Steley, who is an expert cook, has joined the staff.

In charge of the bookkeeping department is Jessie Marie Gilbert.

Stock and delivery are handled by Claude Lard, Jr. and Floyd Ferguson, young Pampans.

Manager of Cretney's in Borger is Thayer Hawks, a 12-year resi-

10 OF 12 STORE DEPARTMENTS VISIBLE HERE

The north side of the Cretney Drug store, 110 1/2 North Cuyler, presents a view of 10 of the 12 departments of the business. From the tobacco counter at the front to the prescription counter

at the rear, merchandise is displayed where it can be easily seen by the customer. Efficient arrangement of merchandise makes for quick service. A sys-

tem of stock control enables the store to have instant knowledge on the movement of merchandise and to be alert to the needs of its customers.

dent of that city. Other members of the staff are Bob Smith, Edison Neal and Eugene Fowler.

## Funeral Home On Quiet Street Banned By Judge

JACKSON, Miss., Feb. 7 (AP) — Operation of a funeral home on a

quiet residential street, says the Mississippi Supreme Court, is an infringement on the constitutional rights of American citizens.

The court so ruled yesterday in upholding an injunction against an undertaker who conducted his business in a residence on the exclusive Yazoo River Road at Greenwood, Miss.

"A constant reminder of death,"

said the court, "is bound to have a depressing effect upon the persons who have sought a quiet street . . . and tends to impair the rights in this country to enjoy life, liberty and the pursuit of happiness."

Umbrellas, painted in camouflaged colors, are carried by Chinese soldiers, to conceal them from enemy airmen.

# Sanitation Insured By Cretney Drug's New Steel Fountain

Cretney's new drug is more than just a drug store. While it has a drug department that is complete in every respect, it includes many other departments that have come to be associated with the drug business in recent years, including fountain, cigars and tobacco, candy, radios, photographic equipment and sporting goods.

The store's 33-foot streamlined fountain, which extends along the south side, is one of the largest and best equipped in this part of Texas. The front is constructed of red and black porcelain with a background of modernistic mirrors. It comprises units for serving ice cream and mixed drinks, in addition to steam tables, vacuolated coffee makers so arranged as to insure fast service.

Series of the latest type mixing machines have been installed for the preparation of malted milk drinks. Coffee is made in glass vacuolators which keep it warm until it is served. Toastmasters are all automatic. Short orders are prepared behind the fountain under the most sanitary conditions, with vents arranged to carry away all odors before they have an opportunity to permeate the store.

The store is laid out to make shopping convenient. Merchandise is displayed openly on top of counters with "islands" devoted to particular kinds of merchandise. A large stock of toilet goods, including perfumes, powders, cosmetics, rouge and lip-sticks, are displayed.

The prescription department located in the rear of the store, is well equipped. Prescriptions are filled only by registered pharmacists who have passed state board tests.

## CRETNEY'S DRUG FEATURES LONG FOUNTAIN

From early morn to late at night, the best of fountain drinks can be obtained from this 33-foot Bastian and Blessing fountain, guaranteed to last a

life-time, the fountain and back-bar was installed at a cost of \$8,900. In addition to fountain drinks, meals can also be obtained. The department is equip-

(Photo by Fletcher.) ped with grill, steamtable, toaster, and fat-fryer. There are 12 chairs at the fountain and several large booths, with a total seating capacity of 83.

## Brainy 'Ballet' In Washington Not In Step Yet

By EDDY GILMORE.

WASHINGTON, Feb. 7 (AP)—The nation's most dignified "ballet"—the entrance of the Supreme Court justices into their high-columned, plush-curtain meeting place—is getting a little out of step.

The addition of three new members in 16 months has made a difference, of course, and time and practice should polish up the performance.

The court clock stands at 12 noon

## "Sh-h-h, Don't Cry, Honey"

Mrs. Franklin D. Roosevelt comforts little Phyllis Lerner, infantile paralysis victim, at Children's Hospital, Washington.

... the spectators stir, and their whispering ends . . . eyes focus on the long, white draperies behind the bench . . . but nothing happens. Seconds drag by . . . the Supreme Court is never late . . . at 12:02.3, the court crier rises, bangs his gavel and starts his "oyez, oyez, oyez." The draperies part on the bearded face of the chief justice . . . be-

hind him come Justice McReynolds and Justice Brandeis, veteran performers who don't get out of step. Over at the left is another trio—Justices Butler, Roberts and Reed . . . over at the right is the other trio—Justices Stone, Black and Frankfurter . . . Justice Frankfurter comes in too close on the heels of the others. They sit down.

The newest member, Justice Frankfurter, adjusts his glasses, tugs at his robe, bows to a friend in the room. Justice Black rocks back, smiles, and while Justice Reed is reading from the other end of the bench, turns and says something to Justice Frankfurter.

Justice Frankfurter—who was fooling with his tie—lean over to hear. It must be funny, because they both laugh . . . and Justice Black sits back again.

The court goes on. At quitting time, Justice Frankfurter gets wedged in as he starts to leave. And he steps down behind the curtains, he has to watch his feet.

A court attaché was optimistic. "Just give 'em time," he said, "they'll get it down pat in a couple of months."

## New Cretney Drug One Of Finest In Panhandle Section

Cretney's new drug store is one of the finest, largest and most complete stores in the Walgreen agency system. Pampa should be proud of it. It is, after all, your store. It is a vote of confidence in your city. The work on it was done largely by Pampa people—from the general contractor all the way down to the manual laborers.

The many hours that went into the making of this store were directed toward one end; making it a store for everybody, a store which people will like to be in. The new Cretney store offers a beautiful shopping center which you will find hard to duplicate.

This store was built for service and convenience. Service has always been the foundation of the Cretney Drug. The attractive modernistic display counters, the broad aisles, were not installed simply for the purpose of having them there. They are there for service. The Cretney store is, without a doubt, one of the finest stores in the Walgreen agency system.

## 12 Men Held In Explosion Conspiracy

LONDON, Feb. 7 (AP)—Allegations that the outlawed Irish Republican army had formed a plan to blast the British out of Ireland were made in the Bow Street police court today as Scotland Yard guarded the British royal family, high officials and public buildings against bomb outrages.

At the trial of 12 men accused of conspiring to cause explosions, the prosecuting attorney spoke of a mysterious "aluminum powder," a new arrest of "considerable importance," and a plan, designated as "X" and described as "most comprehensive and covering every field of public activity."

The attorney said the plans were discovered in a search of the home of Michael O'Shea and read:

"In order to exercise a maximum world effect, the diversion (presumably bombings) must be carried out at a time when no major or world crisis is on, but if it is carried on when trouble is anticipated, with the jumpiness and nervous expectation of the government as well as the nervous potential panic of the people, it can be exploited to the full."

The alleged plan gave details of a four-day ultimatum sent Foreign Secretary Viscount Halifax on Jan. 13, four days before three explosions occurred in various parts of the country.

The ultimatum, which referred to the "government of the Irish Republic," threatened active intervention in Britain's "military or commercial life" unless British forces were withdrawn from Eire (Ireland).

Other documents, the attorney said, detailed the alleged I. R. A. main plan as having two sections—propaganda and action.

The latter, under six headings, he said, disclosed detailed arrangements for countrywide sabotage of military, air and naval establishments and stores, public services—including postal, telegraph and radio systems—key industries, newspapers, water supplies, drainage systems and fire brigades.

The documents were said to have mentioned places like London, Birmingham and Coventry, where attacks could be staged.

The attorney declared the plan also mentioned "legitimate destruction or sabotaging of airplane factories or stores and munition factories or stores" of vital importance to the armament of Great Britain.

Among key industries said to be listed for attack were electric and underground railways, commerce, banking, shipping, cotton mills, tobacco and liquor stores, grain, automobile tire stores and timber mills.

The average yield of lint cotton per acre in the United States was 226.8 pounds in 1938 compared with 165.9 pounds in 1919.

Less than eight per cent of 9,540 sugar cane farms in Louisiana averaged more than 12 acres of cane each in 1938.

## Judge Dismisses Five Indictments Against San Antonio's Mayor

By OLEN W. CLEMENTS.

SAN ANTONIO, Feb. 7 (AP)—Exonerated of charges of misuse of public funds, Mayor G. K. Quin, one of the head men of Bexar county's politics, today was ready for another fling at the mayoralty of San Antonio.

Quin's victory in court yesterday when Judge R. D. Wright of Laredo dismissed five indictments against the mayor and two city employees, R. Neill Campbell and L. P. Bishop, not only gave Quin the exoneration ruling that he said he had expected but it may have paved the way for action today that may bring cleared names to several other Bexar county political figures who have been indicted.

Judge Wright yesterday ruled that because Mayor Quin held his political office that office did not make the mayor custodian of the city's finances and therefore there has been no criminal action or misapplication of San Antonio's money in the alleged payment of \$3,487, to 400 political workers in the Democratic primary last year.

The verdict was roundly cheered by spectators, who raised such a din of noise in the courtroom that the judge retired to his chambers for a few minutes before completing his work.

A few minutes after Mayor Quin and Bishop and Campbell had been cleared, District Attorney John Shook announced he would ask today for dismissal of old indictments charging public fund irregularities pending against George W. Huntress Jr., former Bexar county clerk. W. years.

R. Beaumier, former chief clerk under Huntress; Dillard Coy, deputy county clerk under Huntress; Jack R. Burke, former county clerk, and Joe S. Sebeski, former county treasurer.

Mayor Quin walked out of court yesterday with the announcement he would again seek the mayoralty.

"I am indeed pleased," he said, "at no time did I fear the outcome of this court action. The indictments were inspired by political enemies who had no regard for the welfare of the city. They were inspired to smear me and to smear San Antonio in order to obtain a political goal."

Previously Mayor Quin had charged former Congressman Maury Maverick had inspired the indictments. Maverick was defeated for re-election by Paul Kilday, friend of Mayor Quin.

## GOOD TURN TO BOY NETS LIFE JOB OFFER

JENKINS, Ky. (AP)—C. E. Gifford, veteran Eastern Kentucky coal miner, invested 20 cents in a meal for a hungry Indiana farm boy last summer and persuaded the youth to return home.

Recently Gifford received a letter from the youth's father, T. H. Alexander of near Martinsville, Ind., offering him a home on the farm for life.

Gifford, who has spent 54 of his 65 years in the mines, had been without steady employment two years.

## Congratulations Mr. Cretney

On the completion of the new Cretney Drug. This progressive move establishes a better Pampa. We know that your new store will enable many people to enjoy greater buying convenience. We are proud of the part we play in the success of your business. Pure Crystal Ice that make your drinks more inviting!

### "Cold Alone Is Not Enough"

PAMPA

# CONGRATULATIONS

To

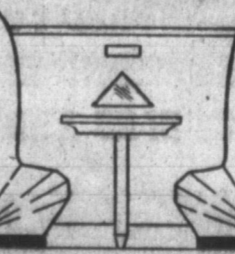

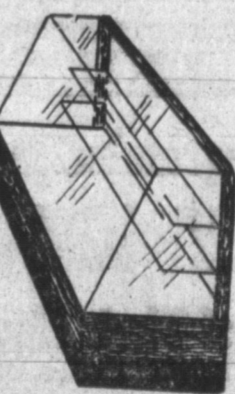

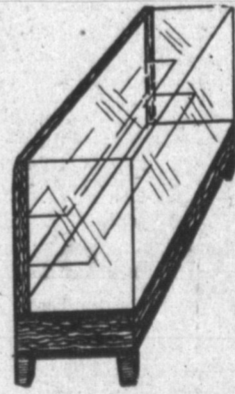

## MR. W. F. CRETNEY

for his foresight and the faith shown in his home city by giving it this fine modern store that has been arranged to give his customers the utmost in convenient, sanitary service.

Pampa should be proud of this latest addition to her modern merchandising establishments.

We are happy to have been selected to furnish many of the specially designed drug display fixtures, food service back bars, booths and other items used in this and other of the Tri-State Territories leading drug, cafe, clothing, jewelry and grocery stores.

Avail yourselves of our estimating and designing service. New and used fixtures.

# Texas Today

(By The Associated Press)  
Title to Padre Island, fabulous strip of sand paralleling the Texas coast from Port Isabel almost to Corpus Christi, site of legendary "lost" cities, vanished ranching glories, scene of conflict during the Civil war and potential empire of oil, once more has been taken into court.

The legal structure surrounding titles to several parts of the island is expected to be examined thoroughly as a sequence to a decision by Judge A. M. Kent of the 103rd district court at Brownsville last September, approving title of several claimants in court, and reopening the case by setting aside a decision of the same court in 1929.

The judgment was set aside and a new trial granted on motion of Merrill W. Staples and the widow of Joseph Bowen. Immediately afterward the heirs of Juan Jose Balli, one of the original grantees of the island; George W. Warren of Bristol, Calif., and Gilbert Kerlin, New York attorney, filed answers and cross actions claiming practically all of Padre Island as against all other parties in the suit.

The claim of the Balli heirs hinges largely on records in the archives of Matamoros, and center around one transaction. These parties to the suit contend that on Jan. 19, 1830, Juan Jose Balli, who owned half the island as grantee, and another seventh through the will of his uncle, Padre Nicolas Balli, sold his interest in the island to Santiago Morales for \$200.

They also claim that soon after the sale Morales went into court and sought return of his money, and that Balli went into court and returned the money and was given a receipt and Morales released all claim to the island.

The Balli heirs and those associated with them in the present action contend that the Balli title to the island has remained undisturbed and that the other titles, except for a few small parts, came through sales made by Morales about 1845, which sales, they contend, were not supported by any title.

The cancellation proceedings on the Balli-Morales sale are in the archives at Matamoros, attorneys state.

The Balli heirs also claim that Juan Balli lived on the island from 1830 to his death in 1853, and remained in possession of the island, living with his family most of the time at a ranch called Santa Cruz. Outcome of the suit will be watched with interest in view of conten-

tions of former Land Commissioner McDonald and ex-Governor James V. Alfred that the state has a claim to part of the island.

The interest of Gilbert Kerlin, New York attorney, in the case is recent. He purchased a number of interests of Balli heirs, including in some instances the conflicting claims of different groups.

At present the island is under lease to an oil company.

The present legal action grew out of the claim of Staples, who lives in Mobile Ala., that he had not had a chance to be heard in the title judgment case. Staples owned an undivided one-fourth interest in 1,455 acres.

He was cited by publication, but did not appear by attorney at the trial. Under the law he was given two years in which to file a bill of review to have the case reopened.

Staples sold his interest to Joseph G. Bowen, also of Mobile, in March, 1929.

When Bowen learned of the judgment he and Staples filed for a new trial June 6, 1930, three days before expiration of the legal time in which they could take such action. Bowen died in 1935.

The case never was called for hearing. The explanation given for this is that when the judgment was given in 1929 the judge wrote "off" on the sheet and it was taken from the docket. No new docket sheet was made out and the case was never called.

The present action was entered October 24, 1938. Motion was set for trial, Dec. 23, before Judge A. R. Blalock of Hidalgo county. He was unable to hold court and the parties agreed to hold the hearing before Judge A. M. Kent. Date for the new trial has not been set.

Much of the fantastic history of Padre Island is expected to be brought out in the trial and it is considered likely that "lost cities" will be placed and identified, and much else explained.

Probably the outstanding figures in connection with the island during its written history are Padre Balli, his nephew, Juan Jose Balli, John V. Singer and his wife, Johanna Singer, and Pat Dunn.

John V. Singer moved to the island about 1850 and lived there until 1865, establishing a sort of city. Singer acquired title to a major part of the island, but this title came through the transfers from Santiago Morales, which titles, the Balli heirs contend, are not valid.

The Singer family lived on the island until forced away by the Civil war. Singer, whose brother, Merritt Singer, invented the sewing machine, brought the first one to Texas.

Remains of an old ranch headquarters on the island, presumably the Singer home, were uncovered several years ago by a group of Brownsville people.

Pat Dunn of Corpus Christi moved to the island at the northern end in 1879, buying part of it and gradually acquiring additional lands, some by purchase, some by living on it.

There are two court decisions which the present holders of the island contend establish their claim. The first was in federal court at Laredo in 1902, when an agreed judgment was entered giving the major part of the island to Pat Dunn. The agreed judgment was entered after a suit by some of the heirs of Nicholas Brisante, who had purchased some land from the Balli heirs.

In the 1902 judgment Dunn, his Corpus Christi attorneys, Welch & McCampbell, Mrs. Henrietta M. King, and Mrs. Pauline B. Wells obtained title to the island. Staples obtained an undivided one-third interest in part of the Dunn lands.

This one-third interest was not recognized in the 1929 judgment in civil district court at Brownsville, which has led to reopening of the case.

The suit is expected to bring to light, in addition to the many sales by persons who thought they had a legitimate title to the island, many "sales" by swindlers who indulged for years in the game of "selling Padre Island." For a time it was something like selling Brooklyn bridge.

It is considered possible the state may step into the picture.

## PART OF CRETNEY DRUG PERSONNEL

Some of the members of the Cretney Drug staff are pictured above, as follows: Standing, left to right, Warren F. Cretney, owner; J. H. Patterson, pharmacist; Clyde Oswald, floor manager; Emma Olson, fountain; Tony Watson, fountain manager; Floyd Ferguson, delivery; Sitting, left to right, Lois Kirk, fountain; Jessie Marie Gilbert, bookkeeper; Odessa Kunkel, fountain. Not in the picture are Alice Powell and Patricia Lewter, fountain; Mrs. A. C. Steeley, cook; Claude Lard, Jr., stockman.

**BRITONS TO STUDY U. S.'S NEW DEAL**  
LONDON (AP)—A party of twenty British writers, teachers and others interested in President Roosevelt's New Deal will visit the United States in April.

Under the leadership of the Hon. Hubert Howard, son of Lord Howard of Penrith, former British Ambassador in Washington, the party will visit New York, Washington, The Tennessee Valley, Chicago and Detroit.

They will inspect New Deal projects, and have talks with leading politicians, business men, labor leaders, and other prominent supporters and critics of the President.

The Rocky Mountains once were known as the Stone Mountains.

## Ecstasy on Ice

"Frozen" by the camera in a pose suggesting utter ecstasy, Megan Taylor, British holder of the world figure skating title, is pictured on a London rink.

The government is offering far- \$2 a thousand in its reforestation and mers seedling trees for as little as land conservation program.

## Defense Bill Nearly Ready For Debate

WASHINGTON, Feb. 7 (AP)—The House military committee sought to wind up its work on the administration's defense legislation today and send the measure to the floor for immediate action.

The bill, embodying major portions of the \$552,000,000 armament program, would authorize purchase of \$300,000,000 of new planes, buying additional army equipment, and placing \$25,000,000 in "educational orders."

The latter would enable manufacturers to familiarize themselves with military needs.

House leaders hoped to start debate Thursday.

In addition to the augmented army plane program, President Roosevelt recommended to Congress yesterday that it spend an extra \$67,233,000 for aviation research facilities.

The money would supplement the regular appropriation for the national advisory committee of aeronautics.

In the Senate, the hot controversy over the sale of fighting planes to France brought a statement from Senator Nye (R. N. D.) that members of the military committee may be "forced" to give their version of what took place at a secret conference last week with President Roosevelt.

Mr. Roosevelt has called "a deliberate lie" any statement that he told the committee America's frontier was on the Rhine. He also outlined the administration's foreign policy, assaying it involved no "entangling alliances."

Several committee members, contending that Mr. Roosevelt had given his version of the meeting, have suggested that he release them from their pledge of secrecy.

Nye said today he saw little chance that Mr. Roosevelt would do that. But, he added, demands for information by other senators might make it incumbent on those who attended the conference to report on it.

**Americans Asked Not To Invest In**  
WASHINGTON, Feb. 7 (AP)—The administration will discourage any American investment, officials indicated today, in proposed Japanese corporations designed to develop industry, commerce and agriculture in China.

This attitude became known as the state department released correspondence dating back to 1923 which showed such a policy previously had been followed. Officials

said the government's attitude remains exactly the same.

Recently intimations came from Tokyo that the development companies being formed there for the business improvement of China would be open to American and other foreign capital.

Officials said there was no doubt that the present Japanese development companies would compete with American interests in China. Notes from the state department to Japan

have complained specifically of the monopolies already being exercised by such Japanese corporations.

Discouragement of American investment in such companies must be done through state department suggestion and not through any formal order.

Out of 600 members of the 1939 Smiths' Winter Visitor club at St. Petersburg, Fla., 229 were named John Smith.

Rioting in London

Britain's severest winter in years . . . widespread disapproval of Chamberlain's "peacemaker" role in Central Europe and the Mediterranean . . . Labor Party clamor for aid to Loyalist Spain bring almost daily rioting by workers and unemployed in London. Above, two husky "Bobbies" grapple with a struggling demonstrator, cart him off to jail.

1,300 Nationally Known Drugs And Toiletry Articles Made In Walgreen Laboratory In Chicago

In the heart of Chicago's clean and modern central manufacturing district stands a huge building of brick, concrete and steel. Great windows and skylights bring sunshine to its busy interior.

This large building is the laboratory wherein are produced more than 1,300 nationally known drug and toiletry products. It is the proving ground where all of them must demonstrate their merit before they are offered to the public.

During the past few years thousands of visitors in Chicago have toured the Walgreen laboratory whose Pampa agency is the new Cretney Drug store, and have come away amazed at its size and the wide scope of its activities. The wonderment inspired in the average visitor is readily understandable when manufacturers themselves have marveled at its efficiency.

Here is just a few of the "high spots" one sees during a tour of the laboratory. Of particular interest to women visitors is the perfume vault. Side by side on its shelves are stored the ingredients of Walgreen's perfumes and the perfume used in their face powders, talcs, cold creams, lotions, rouges and shaving cream.

From Many Lands There are oils from the flower gardens of far Cathay, from the flowered slopes of the Balkans, from Kashmir, and from the scented terraces along the sunlit Mediterranean. Here are Patchouli, Bouvardia de Laire, Ylang Ylang, Rose, Altar, Pettigrain Francaise, Musk Ambrette—exotic essences by the score. It is little wonder that the laboratory guides have great difficulty getting their visitors away from the perfume vault.

There is the interesting cold cream room where tons of creams are transferred from huge glass-lined tanks into dainty jars. There is the power-making room. Here one sees the famous air flotation test which is applied to Walgreen powders. If every grain is not so light in weight that it actually floats in air, the powder is remilled until it will float.

Lipstick In Making Continuing through the laboratory's realm of feminine toiletries the visitor finds lipsticks in the making. From a large vat an edible-looking mixture is poured into molds and set into a box on dry ice. Here it is hardened then made ready for wrapping and insertion into the cartridge or case sold in its usual enclosure.

Powders, rouges and lipsticks are all packed by a corps of trimly-uniformed girls in a special room. Extra caution is exercised here to prevent the intrusion of any foreign odors or particles by means of a special glass enclosure.

Another room which always holds considerable interest is the aspirin-making room. Here two compact, powerful machines are each compressing and bottling some 450 aspirin tablets a minute. The five-grain tablets are compressed under terrific pressure to just a certain degree of firmness where they will not crumble in the box, and yet dissolve readily when swallowed.

In this small room the Walgreen company produces more than a million packages of pure aspirin a year. And that takes care of a lot of headaches. It is very evident that particular attention is given to the pharmaceuticals or drugs which Walgreen's buy for prescription use. On every hand in this large room one sees the almost unpronounceable Latin names that make the science of pharmacy such a mystery.

Mexico Considering Making Oil Payments

MEXICO CITY, Feb. 7 (P)—The government was reported today to be giving new consideration to payment for the United States and other foreign oil companies expropriated last March 8.

An authoritative source said President Cardenas discussed the matter with the Mexican Petroleum Department and that a further conference was expected soon with Donald Richberg, former NRA administrator who is counsel for some of the American companies.

There have been indications the government was anxious to work out an arrangement with the companies, and it was understood Cardenas had in mind offering a plan of payment in oil for sale abroad.

## First Aid from the Enemy

Wounded in an air battle over Barcelona, and captured by Loyalists, one of Gen. Franco's Italian aviators is treated by a Government surgeon.

## Legislature Prepares For Heavy Work

AUSTIN, Feb. 7 (AP)—The forty-sixth legislature, nearly a month old and over the hurdles of preliminary formalities, ciled up its machinery today for heavy work.

Most committees listed full schedules of hearings which will either place bills on the calendar for floor consideration or kill them.

The new crisis over the state's 7,000-pound load law for commercial trucks may reverberate in the Senate chamber tonight. The highways and motor traffic committee scheduled a meeting to hear arguments for and against proposed legislation boosting the limit to 18,000 and 20,000 pounds.

Long a controversial subject, the maximum load law claimed public attention again after shippers of Rio Grande Valley fruit and produce claimed the restriction hindered movement of perishable commodities.

Opponents of the statute claim out of state truckers will go elsewhere for citrus fruit unless Texas liberalizes its tonnage regulations.

The House liquor traffic committee prepared to hear the usual arguments on an always controversial topic, has set hearings on several phases of liquor law reform.

They include: local option elections for permitting sale of liquor by the drink, Feb. 27; limiting issuance of permits to 1 for each 1,000 population in cities of 5,000 or more population, Feb. 23; abolishing the liquor control board and substituting local enforcement, April 5.

The House education committee recommended passage of two bills which virtually would require the state Board of Education to fix the per capita school apportionment

## Texas Millionaire Will Present New Hall To University

DALLAS, Feb. 7 (AP)—J. J. Perkins, millionaire Wichita Falls oil and dry goods man, will present the new Perkins Hall of Administration to Southern Methodist University here this afternoon but he does not relish the speech-making that goes with it.

The man who gave \$75,000 to complete the building started to write a speech last night with Mrs. Perkins' help. Finally, he said, "Buncombe," indicating he had just as soon receive a letter saying the school appreciated the gift.

He will speak extemporaneously, however, at formal dedication ceremonies after a trustee meeting and luncheon in honor of him and Mrs. Perkins.

Dr. Umphrey Lee, new president, came from Nashville to receive the building, latest of several school projects for which Perkins has made donations.

## Estate Of Jackie Coogan 'Untrue,' Says Former Star

AMARILLO, Feb. 7 (AP)—The \$300,000 estimate of the estate of Jackie Coogan "is untrue," the former child movie star wired his friend, Bill Wilson, movie critic of the Amarillo News-Globe, today.

"You can quote me," Coogan said, "that my understanding is that the net worth is far below that sum."

Coogan, on a personal appearance tour, is due in Corsicana tonight.

SERIAL STORY

WOMEN WANT BEAUTY!

BY LOUISE HOLMES

COPYRIGHT, 1939, NEA SERVICE, INC.

CAST OF CHARACTERS
SUSIE LAMBERT—She never waffles and dreamed of being beautiful.
DICK TREMAINE—He liked Susie's waffles but he couldn't see Susie.
JEFF HOWMAN—His chief concern was to make Susie as beautiful as she wanted to be.

Suddenly the old unhappy Susie was gone and in her place was a new girl.

Yesterday, Susie says goodbye to Dick giving him a present. Later, Dick sends flowers to her but they are not orchids.

CHAPTER III

SUSIE trudged home that night, the box of violets clutched to her breast. The flowers had been one of Dick's kindly gestures and she knew it, but such a beautiful gesture. To Susie, who had received so little from life, who asked so little, Dick's violets assumed the proportions of a major event.

Dreams wove their tremulous way across her mind, not dreams of conquest or future happiness, merely the dreams of elation inspired by a bunch of long-stemmed violets and Dick's sincere, "You know I've always been sorry, Susie." He had given her a precious little something to hug to her hungry heart, a moment of bliss to treasure through the empty days.

She climbed the stairs to her single room. Putting the violets in a blue glass bowl from the five and dime she touched them tenderly. With her eyes on the flowers she undressed, getting out of her clothes with a great sigh of relief. She was tired, her feet hurt, but her imprisoned soul throbbed with an exultant song.

Knowing that the sensation would soon vanish, that it would be followed by despair, she deliberately clung to the rapture, spreading it thin, tasting her small hour to the last delicious drop.

Over a clean cotton nightdress she pulled a kimono. Stepping into flat, rindown slippers, she dropped heavily to a chair before the flowers. "He likes me," she whispered. "He's not only sorry—he likes me. He'll wear the tie clip and—"

"Oh, God," she moaned, "it isn't fair. If you must make some of your women homely you should remember not to give them hearts. Why must I love like the pretty girls? It isn't fair—it isn't fair. Oh, God, I want to be beautiful!"

After all, although Susie looked more than 30 she was scarcely 22, an unhappy girl who was given the urge to attract but who was denied the means of attraction.

RAISING her face, she gazed over the flowers into a mirror, lost herself for a moment in a desperately real dream of what it would be like to be really beautiful. Suddenly, the old, unhappy Susie was gone and in her place was a new girl, sweetly pretty, the kind of a girl Susie wanted to be.

But the dream lasted only for a moment. It was gone as suddenly as it had come and aloud Susie heard herself saying:

"Oh, I'd give my hope of heaven. I'd give all the rest of my life to be really like that, to be pretty, oh just for one year, to have Dick, just once." Then she cried in utter abandon.

At last she wearily made a cup of tea on the gas plate behind a screen. With it she ate a sugary pecan roll. Too many waffles, too many pecan rolls, too few vegetables and green things, had long been responsible for Susie's skin and the pastiness of her skin.

Slowly nibbling the roll, taking little sips of tea, she regarded Dick's flowers.

Outside, the soft spring dusk melted into mysterious night and Susie's mind turned back to the day when Dick, a freshman, had

first come to the waffle shop. She remembered her first impression of him. A big, fair boy, clean and scrubbed looking, pink showing through the healthy tan of his cheeks. Somehow, from the very first, he'd been different from the other boys, less cocky, kinder. One of the upper classmen had flippantly introduced him to Susie. "This is Susie, the waffle," he had said. "Her face may not launch a thousand ships, not even one outboard motor to tell the truth, but, boy, she slings a wicked waffle iron."

Susie had noticed Dick's white smile then. She had laughed, too. It had been easier to laugh then. Dick had bent slightly from the waist like a small boy who knew his manners. He had said politely, "I'm glad to know you, Susie. Let me have a sample of your waffles. If I like 'em you've got a steady customer."

Looking back Susie knew that her foolish heart expanded a little right then, although she didn't realize it at the time. Dick came every day after that. He'd come in, swing one leg over a stool and say, "Hello, Susie. How are you today?"

WITHOUT meaning to, without being aware of it, Susie began to watch for his coming, to make her hair extra rich and fluffy around four in the afternoon. It wasn't love at first, rather a natural, human response to the one person who did not openly tease her, who did not make wisecracks at her expense, who treated her as an equal.

Susie was smart enough to know there was nothing personal in Dick's manner, that he shared his kindness with the cook in the fraternity house, the bootblack on the corner, and herself alike. But it warmed her, nevertheless, it gave color to her drab days.

And then, about a month after Dick's first visit to the shop, the incredible thing happened. Staring at the violets, lighted by a ray from a street lamp, Susie still felt a surge of excitement go through her, just remembering that day.

He had said, after silently eating his waffle, "Susie, did you

know that I'm pledged to the Delta Phi?"

"Yes, I saw your name in the paper," she answered, glowing because he wanted her to know.

"Well," he went on, not looking at her, "the fraternity is having a dance Saturday night at the house and—I'd like to have you go with me." At the time she thought how odd for a boy with such nice manners to be so shy. This was just a fleeting thought under her stupefaction.

Susie had never in her life been asked for a date, the social activities of the chosen few belonged to a fascinating world far removed from her dull existence. Never, in her wildest dreams, had she seen herself as part of it. After stupefaction came unbelievable joy. With Dick's bashful invitation Susie's inferiority complex, developed through years of looking on, was replaced with a fearful confidence and assurance.

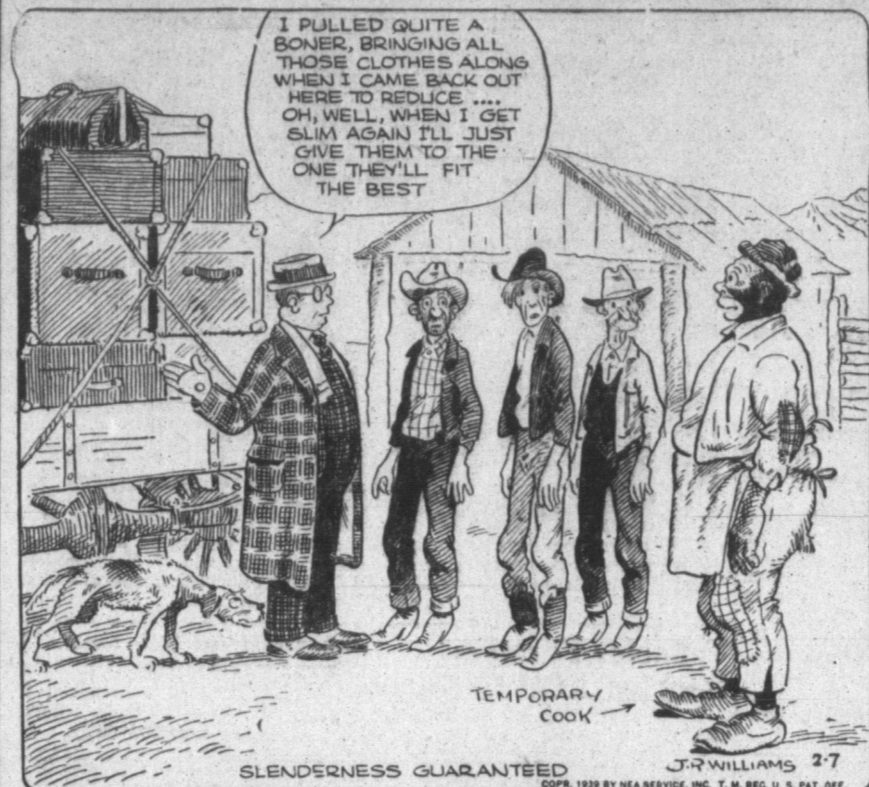

"You—you want me to go to the dance with you?" she stammered, still unbelieving.

"Dick said, 'Yes.'"

"That's what I've always wanted to do—slug somebody!"

4 States To Arque Green Tax Claims

WASHINGTON, Feb. 7 (AP)—Rival claims of four tax-hungry states to share in the \$36,137,335 estate left by Col. Edward H. R. Green, son of the famous Helly Green, will be presented to the Supreme Court probably late Monday or Tuesday.

Massachusetts, Texas, New York and Florida each claim to have been the legal residence of the 315-pound multi-millionaire when he died in 1936 at Lake Placid, New York. Hence, each contends it has the right to impose an inheritance tax on the estate.

Supreme Court arguments will center around a recommendation by John S. Flannery that Massachusetts be declared Green's domicile and be permitted to collect \$4,947,008. Flannery was appointed a special master by the high tribunal to receive testimony and submit recommendations.

The other states contend Flannery erred. The Supreme Court can adopt, reject or modify the report. New York wants to collect \$4,910,301, Texas \$6,685,057, and Florida \$4,653,857. The federal government has taken \$17,590,987.

Born in England in 1869, Green was educated in Vermont, Massachusetts and New York, lived in Texas 20 years, married in Illinois, resided in New York, Massachusetts and Florida, was buried in Vermont, and during his life insisted Texas was his legal residence.

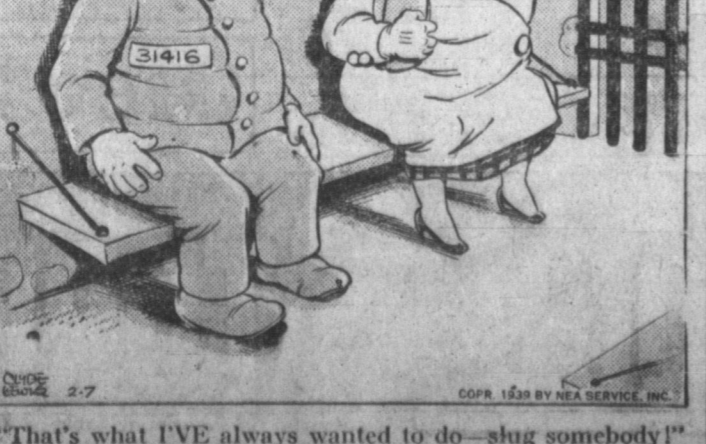

ran from politics, philosophy and astronomy to minstrel shows and the private life of the bill weevil.

Counsel for the four states have filed briefs with the Supreme Court, on which oral arguments will be based. Expected Texas will be represented by William McCraw, former attorney general.

A final decision would come, normally, a few weeks after the arguments.

Green had palatial homes at Round Hills Farm, South Dartmouth, Mass., and at Star Island, Miami. He lived in New York hotels.

Chemists do not know exactly what chemical changes take place when milk turns to butter.

That's what I've always wanted to do—slug somebody!

### Executive Group Named To Align Irish Day Plans

SHAMROCK, Feb. 7.—Appointment of an executive committee of five to co-ordinate the work and plans of the committee in charge of the various phases of the preparation for the big St. Patrick's Day celebration here March 17 was announced by General Chairman E. K. Caperton. Serving on the committee will be Sol Blonstein, who was general chairman last year, Mayor W. H. Walker, who also is finance chairman; Bedford Harrison, secretary of the Chamber of Commerce; Glen Truax, band director, and Albert Cooper.

In view of the fact that the Irish festival is growing so rapidly, with consequent increase in correspondence and other business, it was decided to employ Miss Lotti Shoemaker, as secretary on a half time basis. Miss Shoemaker will have an office at the Chamber of Commerce, will handle correspondence for the different committees and will keep a permanent record of all business in connection with the celebration.

Several committee chairmen have selected personnel of their committees and preliminary work on the

### Mexican Minister Speeds to Hitler

General Juan F. Azcarate, new Mexican Minister to Germany, made a futile air dash from Mexico to New York to catch a Hamburg-bound boat. Denying that his name was connected with reported barter deals for expropriated U. S. and British oil, he sailed on a later ship.

celebration is going forward enthusiastically and without friction. Bedford Harrison, who heads the community float division, said today asking persons in various neighborhoods to investigate the possibility of their neighborhoods entering a float in the big parade.

Roy Carlton, chairman, announces a city float committee of Mrs. B. P. Cain, Royce Lewis, and Mrs. Earl Martin.

The parade committee is composed of W. O. Morrow, H. L. Hise, M. S. Kavanaugh, John Stevens, Garrison Rush, J. P. Shortt, C. B. Medkief, Grady Box, H. C. Weatherly, Joe Smith, J. W. Lammus, Chas. Darnell, Jess Swink and Lee Gordon.

Other committee chairmen who are busy laying the ground work for a successful Irish celebration include: Flake George, street dance; Wallace Barrett, Donegal band; Gerald Geyer and Roy Bertram, decorations; Bud Darlington, Irish stew; Miss Nell Adams, selection of judges; Glen Truax, bands; Speck Fry, building; Sol Blonstein, concessions; Carl Shortall, education; W. C. Perkins, auditorium entertainment; J. L. Pingree, traffic; Clayton Heare and Eugene Worley, distinguished guests.

The celebration held last year for the first time is sponsored by the Shamrock Boosters' club and the idea was originated by Glen Truax, who pointed out the possibilities of a unique festival tying in the name of Shamrock.

### Shamrock Rotarians Hear H. S. Wilbur

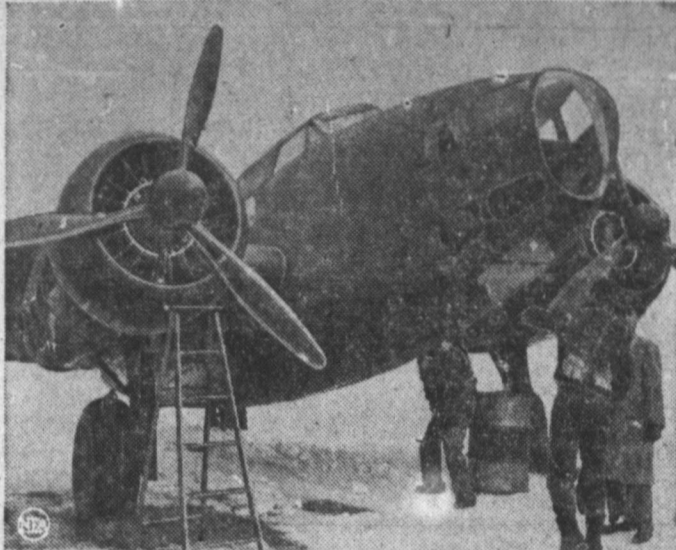

SHAMROCK, Feb. 7.—H. S. Wilbur of Canadian was guest speaker at the weekly luncheon of the Shamrock Rotary club Friday. Mr. Wilbur traced the growth of private banking and explained the function of the bank in the community.

"If a banker tried to be a friend to everybody and do all the things his friends ask him to he would not last long," said Mr. Wilbur, in explaining that a bank's business is to make money for its stockholders the same as any other safety deposit, in addition to being a safe deposit and helpful lending agent for its customers. He enumerated the state and federal regulations which now assure sane banking operations and guarantee depositors against loss due to dishonest or incompetent banking.

Preceding Mr. Wilbur's talk, Miss Jean Garriston favored the club with two violin solos, accompanied by Miss Mary Elizabeth Pendleton, club pianist. Jim Smith was in charge of the program.

Visiting Rotarians were Dr. E. W. Jones, Dr. Chas. B. Jones, of Wellington, R. V. D. L. Crane, W. R. Miller, John Caylor, and Mr. Wilbur of Canadian; O. L. Hay and Jack Martin of Shamrock.

### U. S. Star on British Air Program

As Congress pondered appropriations for an augmented air force, this Lockheed bomber arrived at Floyd Bennett Field, N. Y., after 12 hours' flying from Burbank, Cal. But it's for export to England—the first of 250 ordered by Great Britain.

### Wheeler Farmers Receive ACP Checks

WHEELER, Feb. 7.—A total of \$9,073.94 in agricultural conserva-

tion checks has been received by Wheeler county farmers. J. L. Tarter, county farm agent, announced today. There are 46 checks received and more are expected daily.

### Junior Play To Be Given February 24

HILLIPS, Feb. 7.—The Junior class of the Phillips high school will present its annual play Feb. 24. The play is a three-act comedy-drama, "The Wild-Oats Boy," by Lillian Mortimer.

Cast of the play was chosen last week. Aunt Anne, the housekeeper for Uncle George Lenora Robinette; Della, the maid, Betty Dunston; Judy, the adopted daughter of uncle George; Helen Scott; Danny Murphy, the cook; Kleth Jacka; Patricia Golden, Judy's friend, Rena Mae Dean; Eve Martin, another friend; Virginia L. McSpadden; Jake Peters, the cousin from New York. Joe Tribble; Prue, the country cousin; Louise Ivey; Charles Benton (Chuch), the ex-prize fighter cousin; Johnnie Helton; Grant Pruse's pestiferous son, George Hamerschmidt; Seth, the uncle from Maine; Boyd Allen Alexander; Mose, Uncle George's darky servant, Eugene Stevens.

Miss Kay Terry is in charge of the play and will be assisted by the class sponsors, Miss Iris Bailey and Mr. Evans.

The recently-coined word Chemurgic means literally "putting chemistry to work" and it is generally used with reference to the benefit that results to agriculture and industry.

### Skellytown Scouts Hike To Hay-Hook

SKELLYTOWN, Feb. 7.—Much interest is being shown by the Boy Scout troop of Skellytown, according to H. C. Boyd, scoutmaster.

Eight boys worked on their tenderfoot rank last week when the troop met at the Community church for a regular meeting. Six boys are expected to pass the second class rank this week when they meet.

The troop enjoyed a hiking trip to the Hay-Hook ranch where a number of boys pass various tests such as a cooking, fire building, knife, hand-tax and compass tests. Accompanying the fifteen boys were Bill Harlan, J. B. Rose, Ralph McClure, and H. C. Boyd, troop committee.

A "clean-up" campaign will be put on by the troop during Boy Scout week, Feb. 8-15. Tire hazards, such as nails and glass, will be picked up off the streets, and a general clean-up of the town will be made.

Feb. 12 the boys will attend the Community church in a body. The

Community church is sponsoring the organization. Rev. B. J. Caborn, pastor of the church will deliver the message.

Plans are being made by the boys for a Father-and-Son banquet which will be given in the near future.

The cultivation of the super staple Sea Island cotton, formerly confined mainly to South Carolina, Georgia and Florida has now spread to Alabama and Louisiana.
