Dam Breaks in Italy Leaving 3,000 Dead

F. Y. I.
FOR YOUR INFORMATION
By JOHN SHIPMAN
Pampa News City Editor

Tonight at 8 in the Pampa Junior High Auditorium the lights will dim, the curtain will rise and the first performance of the Pampa Little Theater's production, "If a Man Answers" will get underway.

Tickets may be purchased at the door or at Richard Drug.

The final performance will be at 8 p.m. Friday.

The play is a three-act comedy that takes place in both Boston and New York, with the romantic entanglements of a young girl adding spice and color to the play.

DR. FRANK HATCHER
... play director

See you there tonight at 8.

In talking with Police Chief Jim Conner yesterday afternoon, the problem of careless driving came into the conversation, due to the number of accidents that have occurred so far this month.

For the first six months of this year the National Safety Council named Pampa the safest town for its size in the nation; however if the accident rate that has started at a blazing pace this month continues, then the top spot that we now hold may be eliminated.

Just remember, when you get behind the wheel of a car and start driving, that it is a potential killer, so stay alert and remember the fundamentals of driving. For the life you save... might be mine.

Also remember the circus that is coming to town tomorrow, with a parade that will start at 1 p.m. on Cuyler St.

In a conversation I had with the mighty Sports Editor of the paper, a comment was made that the coach from Caprock "doesn't think that Pampa will be tough." All that I can add is that Saturday night in Amarillo the Caprock team will see just how tough the Harvesters can be. Hope that there will be a huge crowd of Pampa fans present in the stands.

Drill-Pickup Collide On U.S. 60 Wed.

A wheat drill-pickup accident three and two tenths miles west of Kingsmill on U.S. Highway 60 about 2 p.m. yesterday, totally damaged the drill and did about \$350 damage to a pickup but did not cause serious injuries to the two men involved.

According to investigating Highway Patrolman, Lawrence Macha, Joe Landre, 67, White Deer was driving a tractor east on the highway when the hitch on a wheat drill he was pulling behind the tractor broke loose and caused the drill to run into the path of a pickup driven by John Rogers, 43, of Pampa. The pickup was going west.

There wasn't anything Rogers could do to avoid hitting the drill. (See ACCIDENT, Page 3)

CRALL PRODUCTS EXPANDS — A. E. "Chick" Hickman, right, president of Crall Products, Inc., discusses his firm's expansion program with Frank Culberson, chairman of the industrial committee of the Pampa Chamber of Commerce. Shown in the background is a portion of the 20,000 square foot plant now under construction, which is scheduled for occupancy early next year. (Daily News Photo)

JFK Defends CIA's Action in Viet Nam

WASHINGTON (UPI) — The U. S. Central Intelligence Agency's chief in South Viet Nam was described by informed officials today as the victim of "guilt by association" with strongman Ngo Dinh Nhu.

President Kennedy, at his news conference Wednesday, vigorously defended the CIA against charges that it has followed an independent policy in Viet Nam. He said the charges were "unfair" and "wholly untrue."

"I can just assure you flatly," the President said, "that the CIA has not carried out independent activities but has operated under close control of the director of Central Intelligence, operating with the cooperation of the Na-

tional Security Council and under my instructions."

Kennedy praised John H. Richardson, recently recalled as CIA's director in Saigon, as "a very dedicated public servant." But he also was the first official to refer in public to Richardson's "transfer." Earlier reports had said Richardson was being called home for "consultation."

Stemmed From Relationship
Informed sources here said that the recent uproar over CIA's activities in Viet Nam stemmed at least in part from an agency relationship with the Vietnamese governmental palace.

CIA was instrumental in 1961 in setting up Viet Nam's "special forces," an elite military unit specializing in counter-guerrilla warfare.

Though technically part of the Vietnamese army, the unit took its orders more or less directly from the palace rather than through the military general staff. This was to keep its operations as secret as possible.

Became Private Army
On Aug. 21 when Nhu ordered government raids on Buddhist pagodas one unit of the special

forces took part, becoming in effect a private army.

In the resulting political upheaval which threatened the entire U.S.-backed war effort against communism, U.S. officials stationed in Saigon bitterly denounced Nhu to U.S. newsmen and, because of the association, many of them also denounced Richardson.

The first wave of press dispatches from Saigon blew a good many of CIA's operations into the open and unmasked Richardson's embassy "cover." Subsequent charges accused the CIA of "infiltration."

Kennedy hinted Wednesday that a continuing overhaul of U.S. tactics was still going on in Viet Nam. He said the White House, CIA, and Defense and State Department are united on policy "at the top."

Salvation Army Receives Aid; Helps Those that Are in Need

Almost everyone is familiar with some form of the Salvation Army's social-religious work.

The smiling Salvation Army worker ringing a bell beside a Christmas kettles is a familiar sight to many city dwellers. Three generations of fighting men from World Wars I, II and Korea, remember the men and women in blue who often risked their lives providing hot coffee, doughnuts and other services for the men in the frontlines.

Victims and relief workers at the site of disasters, welcome the Red Shield of the Salvation Army on the side of an emergency vehicle.

In Texas, members of 39 Salvation Army units in 36 cities serve as

ministers and help to combat the effects of poverty and privation. In 248 communities or county areas, where there is no uniformed personnel, service unit committees carry on the work.

Homes and hospitals are maintained at San Antonio and El Paso for the care of unwed mothers-to-be. Camp Hoblitzelle, near Midlothian, is a summer outdoor camp for deserving youngsters.

There are four rehabilitation Men's Social Centers in Dallas, San Antonio, Houston and Fort Worth and a Men's Harbor Light

Center in Houston for the rehabilitation of alcoholics.

The list of services provided by the Salvation Army in Pampa includes camp for a child, medical aid for an elderly, indigent woman, groceries, clothing and furniture for a family whose home is destroyed by a fire, a nourishing meal and lodging for a homeless man.

These services and others are supported through contributions to the United Fund.

Envoys and Mrs. H. C. Seago, commanding officers of the local (See SALVATION ARMY, Page 3)

TRY THIS PAIR, SON — Envoy H. C. Seago, commanding officer of the Salvation Army work in Pampa, holds one small fella on his lap while he hands a pair of levis to a young Texan. The other seems to be waiting his turn patiently, but expectantly.

Mrs. Rogers Will Attend Launching Of Submarine

WASHINGTON (SpI) — Mrs. Walter Rogers, wife of the Pampa congressman, will attend Mrs. Fred Korth, wife of the Secretary of the Navy as matron of honor at the launching Oct. 18 of the new Polaris submarine, Von Steuben.

Mrs. Korth will christen the nuclear powered fleet ballistic missile undersea vessel which is named for Baron Friedrich Wilhelm von Steuben, a Prussian officer who helped train American revolutionary troops at Valley Forge.

The launching ceremony, held at Newport News, Va., will bring the total of Polaris submarines to 13 commissioned, 11 launched, but not commissioned and 17 building or authorized. The total program will include 41 such submarines.

If it comes from a hardware store we have it. Lewis Hdwe. Adv.

Crall Products Announces Its Expansion Plans

Pampa's economy continued on an upward trend today with the announcement of an expansion program by Crall Products, Inc., an oil field products and services company.

A 20,000 square foot pre-fabricated steel building is now being constructed for the firm on six acres of land on Price Road.

According to Crall Products president, A. E. "Chick" Hickman, the new plant will house the firm's manufacturing divisions, Petroleum Specialties Co., now located on West Brown street and Paramount Equipment Co., 754 Wilks. A new operation, an internal pipe baked plastic coating process, will also be added.

Hickman said that the cost of the new building and equipment will approximate \$200,000 and that the plant would be ready for occupancy about January of next year. When the plant is completed, 15 to 18 additional persons will be employed.

The new building will be of rigid frame, clear span construction and will be insulated throughout. In addition to the main production area, the building will house plant offices, shower and locker rooms, as well as a dining area.

Petroleum Specialty fabricates scrapers, multi-coat and multi-bake plastic coating for sucker rods, scraper sucker rods, fittings and pipe. Its biggest use is for paraffin removal and corrosion resistance.

Parabunt makes polished rod clamps, rod hangers and accessories, sub elevators, rod line weights and safety stuffing box clamps.

Hickman also stated that equipment from a Crall owned scraping manufacturing plant in Oklahoma City would be moved here.

Crall Products has plants and sales offices in Odessa, Shreveport, La., Oklahoma City, Russell, Kansas, Farmington, New Mex. Caspar, Wyo., Wooster, Ohio and Edmonton, Alberta, Canada.

They have sales offices in Tulsa, Midland, Dallas and Calgary, Alberta, Canada.

General contractor for the new building is Milliron Engineering Co. and fabrication and erection is being done by Pam-Tex Corp.

Landslide Accompanies Wall of Water

By ALDO TRIPPINI
United Press International

LONGARONE, Italy (UPI) — A 300-foot wall of water, unleashed by a massive landslide that smashed the world's highest arch dam, swept down the narrow Piave Valley late Wednesday night like a tidal wave of death.

Rescue officials estimated that it killed more than 3,000 persons in half a dozen shattered villages.

At 10:43 p.m. Wednesday a massive landslide smashed into the reservoir behind the 860-foot Vajont Dam. It threw water against the thick, concrete structure, spilling millions of tons of water over the edge as if somebody had dropped a stone into a filled teacup.

With a tremendous roar, the 300-foot wall of water swept down the ravine in front of the dam and into the Piave Valley.

This town, which had 4,700 inhabitants, was the largest inhabited area in the path of the flood. Almost every building in the town was destroyed.

3,000 Persons Buried

"There are more than 3,000 persons buried under some three square miles of stone, rocks, dirt and gravel," said Lt. Col. Eros Ortore, the chief of rescue operations. "There is no hope of survival for any of them."

The few survivors we found have been moved to Verona for attention. We don't need medical supplies because there aren't enough survivors to strain what we already have, but we can use all the bulldozers we can get our hands on."

Working parties already had uncovered scores of bodies, almost all of them naked. Police explained that the tremendous force of the water had ripped off any clothes they had been wearing.

It was likely that many of them already were in bed when the disaster struck.

Piero Dalmin, a construction worker from Longarone who spent the night away from home, returned this morning to try to find his sister, Maria.

Couldn't Find Home
"I can't even find our home," he said. "There is nothing left, not even a landmark I can recognize." He said he doesn't know what happened to his sister.

For miles downstream, bodies were being found buried in a tangle of mud, rocks and uprooted trees. At one point there were more than 100 dead cows.

To complicate matters, it ap-

peared the danger of deadly cyanide had been added to the tragedy of the flood.

The Italian Radio warned people in the area to watch out for the possible poisoning of the water. It said that many containers of potassium cyanide were missing and they might have been broken open in the flood.

Do not drink river water. said the broadcast. "Be certain that your water supply is pure."

Landslide Hit Lake

Massimo Petrin, one of the men working at the dam, said a small landslide fell into the artificial lake two months ago, sending a small wave over the edge.

He added that tests made at the time showed that a large landslide like Wednesday night's could cause a major disaster. Petrin said a number of large rocks fell into the lake Wednesday afternoon.

"It was a warning, but nobody understood," he said. "We were even joking that sooner or later Longarone was going to have a bath. We never thought..."

The 200-foot-wide gorge that leads downstream from the dam enters the Piave Valley at right angles.

WEATHER FORECAST

Pampa and Vicinity — Continued fair through tomorrow with no important temperature change. Low tonight around 50. High tomorrow mid to upper 80's.

The high in Pampa yesterday was 85. The low this morning was 53 with no moisture reported.

INSTALLING OFFICER — Donald L. Hileman, executive vice president of the Amarillo Chamber of Commerce will be installing officer for new officers and directors at the annual Pampa Chamber of Commerce directors' dinner meeting at 7:30 tonight in the Starlight Room of the Coronado Inn.

SUSPENSEFUL JOB—Swinging from a special rig that simulates zero-gravity weightlessness in space, Lockheed scientist George Hanff makes repairs on an "orbiting space station." He controls his movements with tiny air jets on the backs of his hands. Results of such studies show that actual repair of satellites in orbit is feasible but not yet practical. Big question is, what does a space plumber do if he leaves his tools at home?

NAMED MANAGER

WASHINGTON (UPI) — Dr. Joseph F. Shea, 37-year-old physicist and Space Administration director of the space agency's Manned Space Center at Houston, Tex. The Apollo space-ship is being designed to carry astronauts to the moon.

Obituaries

Mrs. H. C. (Lois Elizabeth) Wilson

Double funeral services will be held Saturday at 10:30 a.m. in the First Presbyterian Church for Mrs. May Belle Booth and her daughter, Mrs. H. C. (Lois Elizabeth) Wilson, with Rev. Don Hauk, pastor, officiating.

Burial will be in Fairview Cemetery under the direction of Duengel - Carmichael Funeral Home.

Mrs. Wilson will be buried beside her husband, H. C. Wilson, who died July 20, 1954, and Mrs. Booth will be buried beside her husband, Oscar Booth, who died in 1939.

Mrs. Wilson died at her home, 1206 Charles, today at 3 a.m. She was born Aug. 21, 1900 in Cainsville, Mo., and moved with her husband, the late H. C. Wilson, to Pampa in 1929 where they opened Wilson Drug on South Cuyler. They operated the store together until his death, and she continued to operate the store until September, 1962.

She was a member of the First Presbyterian Church and the Order of the Eastern Star.

Surviving Mrs. Wilson are her daughter, Mrs. James T. Brown,

Baptist Church; and Rev. Carl Hudson, pastor of the Miami Methodist Church, will officiate.

Burial will be in Miami Cemetery under the direction of Duengel-Carmichael Funeral Home.

Pallbearers will be Melvin McCuiston, J. D. Paris, Woody Pond, Bill Gill, Wayne Greenhouse, Bailey Dodson, Honorary pallbearers are Dave Turner, Herbert Adams, Dale Low, J. W. Thompson, Randall Gill, Bill Tobert and F. S. Parker.

Correction

Roland Wayne Doss, 17, of 2131 Chestnut, was in collision with a car driven by Wynell Martin Willett, 36, of 404 Lefors at 7 p.m. Tuesday at the intersection of Duncan and Decatur Sts., according to Police Chief Jim Conner.

"Doss was going south on Duncan," Chief Conner said. "He told us 'an unknown vehicle turned left onto Decatur off Duncan, causing him to hit his brakes, skid sideways and swerve to his left.'"

According to Chief Conner, Doss hit an oncoming vehicle driven by Willett who was going north on Duncan.

"Doss was given a ticket for failure to control speed to avoid an accident," Chief Conner said. "His car received about \$400 damage and Willett's about \$500 damage."

The telephone book of the tiny European principality of Liechtenstein requires only three pages.

"SMV" SPELLS SAFETY—A new identifying symbol is taking some of the hazard out of driving in Ohio. The SMV (slow moving vehicle) emblem, designed by agricultural engineer Kenneth A. Harkness of Ohio State University, serves as an unmistakable warning to other motorists. Designed to be used on such slow vehicles as farm tractors, highway construction vehicles or animal-drawn vehicles, the emblem is a 14-inch high triangle colored fluorescent orange in the center for daylight utility and reflective red around the border for night activity.

GAS USE UP
NEW YORK (UPI) — American home owners bought more built-in gas ranges, gas clothes dryers and central heating boilers in 1962 than in any previous year, according to the Gas Appliance Manufacturers Association. Preliminary year-end estimates show sales of the three types up 6.6, 13.1, and 4.2 percent, respectively, above the 1961 levels.

Walter Rogers Reports: Cuban Situation Report

Cuba remains a Communist thorn in the side of the Western Hemisphere, but progress is being made to bring about the economic and political isolation of the Castro regime, to make Cuba an increasingly expensive burden for the Sino-Soviet bloc to maintain, and to prevent the spread of Castro-directed subversion in Latin America.

Guerrillas within Cuba are becoming more active. Hit-and-run actions by small bands of Cuban patriots will not in themselves bring down the Castro regime. But they keep it off balance. They keep the Red Militia under arms and out of more productive endeavors that could bolster the faltering Cuban economy. They provide a nucleus around which a more active resistance movement may someday form. These anti-Castro activities on the island are said to have "a professional touch."

As if to punctuate the increasing discontent within Cuba, a bomb exploded in Havana a week ago as Fidel Castro told a political rally that the United States is, in his words, "tightening the economic noose." It was one of the few factual statements he made in what otherwise was the usual

Castro diatribe against the United States. I am in favor of every action we can take, alone and in concert with our allies, to restore freedom to Cuba. I believe that continuing pressure on the economic and political front can one day bring this result without the need for overt military action.

Here are facts pointing up the economic problems afflicting the Castro regime: Cuban trade to the Free World has slowed to a trickle. Free world exports to Cuba in 1959, Castro's first year in power, totaled \$680 million; in 1962 they were \$85 million and are declining this year. Free World purchases from Cuba, primarily sugar, have similarly declined. Cuba's trade with the Communist bloc (Cuba now does more than four-fifths of her trade with the Communist world) will total about \$1 billion, \$600 million in bloc exports to Cuba and about \$400 million in Cuban shipments to the bloc. This trade gap must be financed by the Soviets, and it's expected to be equally large next year. The Cuban gross national product last year was estimated to be 25 percent below the 1958 level. With most basic foodstuffs rigidly rationed, the average ca-

storic intake of Cubans is estimated to be 15 to 25 percent lower than it was in pre-Castro years. Consumer goods are in short supply. Spare parts for the Cuban industrial machine are scarce and often unobtainable. The Castro failure has been most apparent in agriculture, particularly in the production of sugar. This year's harvest was 3.8 million tons in contrast with the average of 5 million tons in the last 5 years. Castro in betraying his own people has yoked Cuba to the modern-day mercantile system of Soviet imperialism. Russia uses its colony, Cuba, as a source of raw materials and a captive market for manufactures.

These are among recent actions taken to cause Castro further trouble:

On July 8, the Treasury Department instituted blocking controls against Cuba, restricting the movement of dollars to and from Cuba. The action, modeled on controls in effect against Communist China and North Korea, is expected to tie up more than \$100 million of Cuban assets.

United States owned and controlled oil companies are voluntarily refraining from furnishing bunkers to vessels and aircraft determined to be in the Cuban trade.

Free World shipping available for service to Cuba has dropped nearly 70 percent in the first eight

The Almanac

By United Press International
Today is Thursday, Oct. 10, the 283rd day of 1963 with 82 to follow.

The moon is approaching its new phase.

The morning stars are Mercury and Jupiter.

The evening stars are Jupiter and Saturn.

Those born today include actress Helen Hayes, in 1900.

On this day in history: In 1845, the U. S. Naval Academy was formally opened at Fort Severn, Annapolis.

In 1911, Chinese revolutionaries overthrew the Manchu dynasty.

In 1913, President Woodrow Wilson pressed a button in Washington which caused the last remaining obstruction in the Panama Canal to be blown up.

In 1953, Generalissimo Chiang Kai-shek was sworn in as president of China on the 32nd anniversary of the founding of the republic.

Complete index

- ... will help to serve as a reference book for many years. Completed catalog will contain:
- An easy-to-understand text for each picture.
- 16 Dinosaurs
- 164 Mammals
- 85 Birds
- Many fish
- Insects
- Reptiles

Not just a "picture book," but a valuable aid to learning. A do-it-yourself catalog project that will provide your children for weeks.

Stimulating — Educational — Fun

Your children will certainly be pleased when you present them with this beautiful catalog and pictures to paste in it. They'll have 7 weeks of fun and learn more about animals, reptiles, birds and insects than you ever thought possible. After seven weeks the album will be full and they'll have a colorful and educational book that will be helpful and interesting for years to come.

COINCIDENCE: Some observers might find a resemblance between this year's Chrysler Imperial, top, and Lincoln Continental, bottom.

'No Let Down' In Defense Spending

WASHINGTON (UPI)—The House yesterday approved a "no letdown" defense spending bill—second largest in peacetime history. The measure would provide \$47.2 billion to keep America in fighting trim.

The roll call vote was 335 to 3. The bill now goes back to the Senate for final concurrence which would send it along to the White House.

The only "no" votes in the House were by Reps. Bruce Alger, R-Tex., Alvin E. O'Konski, R-Wis., and Thomas B. Curtis, R-Mo.

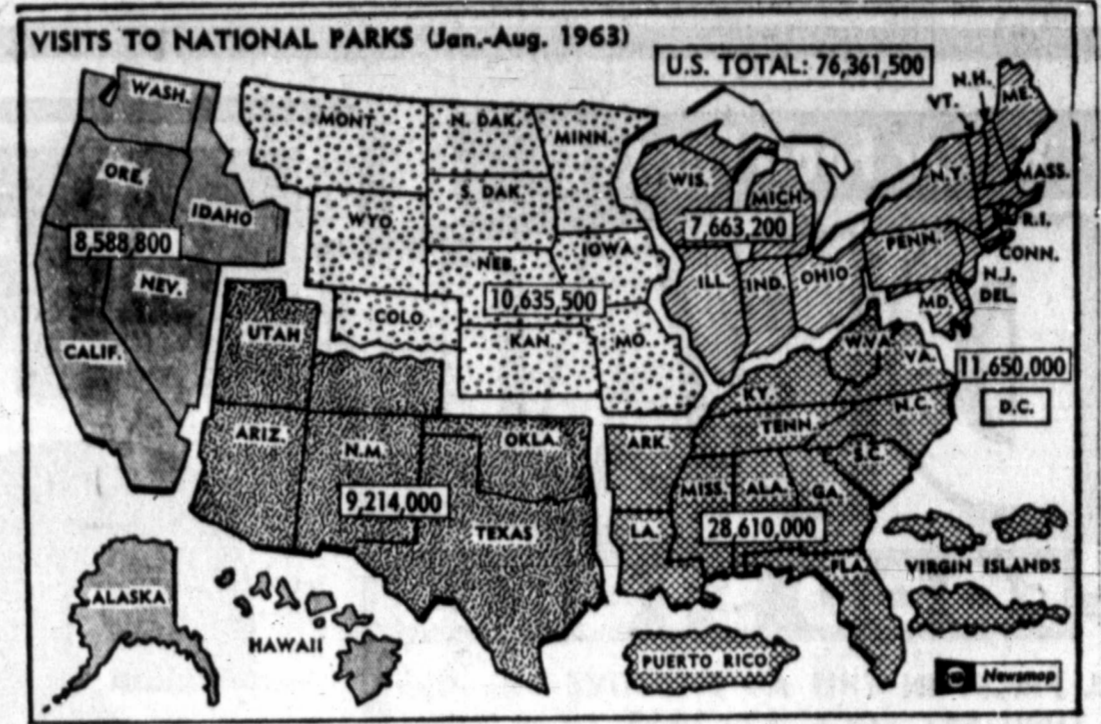

The bill was a compromise worked out by House and Senate negotiators from separate versions passed earlier by the two chambers. It was \$1.7 billion less than President Kennedy requested. But it still supported intact the 2.7 million-man military force called for by the chief executive.

Rep. George H. Mahon, D-Tex., chairman of the House defense appropriations subcommittee, said the bill would show the world that the American people have "not let down our guard" because of the signing of the limited nuclear test ban treaty with Russia.

"We continue to be alert to the dangers of Communist aggression," he told the House.

Mahon said the appropriation represented a declaration of U.S. intent to maintain clear military superiority over the Russians.

A thought for the day — The English novelist, Jane Austen, said: "Those who do no complain are never pitied."

OUR POPULAR PARKS—More than 76 million visits to American national parks, forests, monuments, etc., were registered up to Sept. 1, 1963, reports the National Park Service. (The number of actual visitors is higher because the service only records the individual cars that stop, not the number of occupants.) The figure is a million higher than that tallied during the same period in 1962. Newmap shows the totals for the District of Columbia and the rest of the nation, as broken down by geographical regions.

WILL SEE GAME
WASHINGTON (UPI)—President Kennedy plans to fly to Chicago Nov. 2 to attend the Army-Air Force football game, a contest he helped arrange to be played in Soldier Field.

The White House said Tuesday that Mayor Richard Daley had sought Kennedy's aid in getting the game played in Chicago. The White House said the President acted on the request and then accepted an invitation to attend.

ISSUED PRISON FIGURES
MADRID (UPI)—Government figures issued today showed a total of 13,735 prisoners in Spanish jails at the end of 1962.

A report from the general directorate of prisons said there were 44.3 persons in prison per 100,000 population. It said there are 639 men and 299 women prisoners serving sentences in connection with security cases.

HEADS HARNESS FIELD
WESTBURY, N. Y. (UPI)—Dr. Donald C. Somers' Harold J. headed an eight-horse field named for the \$30,000 Harness Track of America championship pace final at Roosevelt Raceway Friday night. Foreign News Commentary

By PHIL NEWSOM
 UPI Foreign News Analyst
 The instructions to Lord Denning, Britain's second ranking judicial officer, had been to look into "rumors which effect the honor and integrity of public life."

For those who had expected a sort of British Kinsey report on hi-jinks in high places, the jurist's soberly-worded report was a disappointment.

No other British ministers were found to have comported themselves in the manner of disgraced former War Minister John Profumo and there had been no breach of security.

But for Prime Minister Harold Macmillan there was wide agreement that the report provided still another nail in the political coffin—his opponents for weeks had been preparing for him.

Lord Denning had tried to be kind to everyone but in his report was the clear implication that Macmillan himself bore chief responsibility for an error in judgement that could have endangered British security.

Issues Minor Point

Therefore, it will not be surprising this week if British Conservatives holding their last conference before general elections spend more time in consideration of a man rather than on issues.

British general elections can be held any time between now and the October, 1964, deadline.

But since even the Conservatives seem resigned to a Labor victory in the elections, the question becomes one of both leadership and timing to prevent total disaster and to place the Conservative party in a position for victory the next time around.

Macmillan understandably does not want to give up his party leadership under a cloud.

His opponents, however, point out that the Profumo case aside, Macmillan now is nearing 70, and claim that a younger, more vigorous man is needed for the determined drive necessary to reverse public opinion polls that have recorded a steady decline of Conservative party popularity.

12 Straight Years

The Profumo case may have pointed up a certain softness within a party that had been in power for an unbroken 12 years.

Earlier there had been the blow to British pride when French President Charles de Gaulle locked the door to the European Common Market against them, and the charge by the Laborites that the government had no alternative policy.

There had been a succession of defeats in by-elections and there had been a hard winter marked by growing discontent and stubborn unemployment.

Some of these conditions have changed. The effects of a spring budget are being felt and there is plenty of money.

Unemployment is down to less than three per cent of the work force.

The signing of the partial nuclear test ban treaty and enhanced chances for peace might also have been expected to restore some of the Conservative party fortunes.

But the plain fact is that they have not and that the British voter apparently is convinced it is time for a change.

And this is the dilemma which faces both Macmillan and his party.

BEAUTIFUL STUDY—Ingrid Bergman is a study in concentration, on location near Rome, Italy, for a motion picture in which she'll play the richest woman in the world. Costarring: Anthony Quinn.

TO STAGE "ATTACK"
WASHINGTON (UPI)—An "attack" on northeastern Canada and the eastern seaboard of the United States as far south as Georgia will be staged Friday by bombers of the Strategic Air Command. The Defense Department said the exercise, "Top Rung I," would extend as far west as a line running from Hudson's Bay to Chicago, but would avoid population centers as far as possible and would not disrupt civil air traffic.

YEMEN CELEBRATES
CAIRO, U.A.R. (UPI) — A 21-gun salute will usher in festivities marking the Yemeni republican revolution's first anniversary, the Middle East New Agency (MENA) reported Tuesday. MENA said a new electric power station and new roads will be opened Thursday on the anniversary of the revolt against the royalist regime.

Redistricting Suit Is Under Advisement
HOUSTON (UPI)—A three-judge federal court hearing a suit to force redistricting of the Texas congressional districts had under advisement today a brief asking the court to allow the legislature enough time for another try at apportionment.

San Angelo lawyer Glenn R. Lewis asked the court Monday to give the legislature leeway in the matter.

William B. Cassin of Houston, representing the Republican plaintiffs in the redistricting suit, said the brief was not based on any pleadings or records and asked for dismissal of the "friend of the court" brief.

U. S. Circuit Judge John R. Brown, presiding over the case, refused to throw out the brief.

The Republicans who filed the suit challenge the constitutionality of the current redistricting act. They contend it is inequitable and they contend it is inequitable and want it declared unconstitutional for alleged discrimination against metropolitan areas.

Six state senators petitioned the court to be allowed to intervene and defend the use of geographic factors in determining district lines. The six are Sens. Louis Crump of San Saba, Ralph M. Hall of Rockwall, Dorsey Hardeman of San Angelo, Grady Hazlewood of Amarillo, George Moffett of Chillicothe and J. P. Word of Meridian.

Television In Review

By RICK DU BROW
HOLLYWOOD (UPI) — The main reason television's new entertainment season seems worse than it really is can be attributed to the fact that ABC-TV put all its shows on first — in one week — and seldom has the home screen looked so bad.

Actually, CBS-TV and NBC-TV have come up with several new series that show serious and distinctive effort. But "The New ABC," as the network has branded itself, hit the viewer first — the theory being that the early bird may get the worm in the ratings contest, which ABC lost badly last season. The rest of the fact that ABC-TV put all its shows on first — in one week — and seldom has the home screen looked so bad.

"The Old ABC" never looked so good. With "Naked City" cancelled, along with "The Untouchables," there is not a single outstanding drama on the network. The New ABC? Here is the Sunday night lineup that kicked off "The New ABC": "The Travels of Jamie McPheeters," a child's western from which the producer finally quit last weekend because he arrived at the conclusion that almost everyone else already reached — that ABC was making the prize-winning novel into another "Wagon Train." Then there is "Arrest and Trial," which is cops-and-robbers. And then there was the quiz show "10 Grand," which quickly expired. So there it was the first night of "The New ABC": A western, a modern shoot-em-up and a quiz show.

On Monday nights, ABC's new ones are "The Outer Limits," a science-fiction show that quickly compromised and aimed for the kiddies; and "Breaking Point,"

another psychiatric sufferer that ABC says "provides no one-hour cures," and, in fact, provides nothing but employment.

Tuesdays, "The Greatest Show on Earth" is a dull circus series; and "The Fugitive" is about a man-on-the-run who is "forced to live by his wits," which means he'll be hard-pressed. Wednesdays, "Channing" is a college-set series that could be anything, and not very good.

Thursdays, the only new show is Jimmy Dean's musical, and he is faced with a brittle, "swinging" generation in which a young Gary Cooper and Arthur Godfrey would probably wind up as plumbers. Friday's, "Burke's

Law" is a moderately amusing B-picture attempt at the "Thin Man" mystery humor; and "The Farmer's Daughter" is a situation comedy. Saturdays, the Jerry Lewis effort is, unfortunately, having a very bad time of it — thus far mostly a bomb. Bombs away! "Hootenanny" is the best show on the network.

The Channel Swim: The McGuire sisters and Jack E. Leonard appear on ABC-TV's Jimmy Dean program Thursday. Joe Louis visits NBC-TV's Jack Paar show Oct. 18. The Moscow state circus takes up the entire hour of CBS-TV's Ed Sullivan outing

Gourmet Dish at Home

By GAYNOR MADDOX
Newspaper Enterprise Assn.
According to Mrs. H. R., business executive and home gourmet, it just isn't true what they say about ducks. "Too much for one and not enough for two." Today's specially bred ducks are so plump one feeds four nicely.

Here is her easy version of the gourmet dish "Duck a L'Orange Moderne." The ducks are quartered and cooked with frozen orange concentrate. By overlapping the quarters in the roasting pan, it is as easy to cook three ducks for twelve people as to roast one whole duck. Serving is easier, too, because the birds come from the oven already carved.

DUCKS A L'ORANGE are a gourmet's treat.

- DUCKS A L'ORANGE MODERNE**
(serves 8)
- (8-oz.) container frozen concentrated orange juice, undiluted
 - (4-lb.) frozen ducklings, cut in quarters
 - 1/4 cup brown sugar, firmly packed
 - 1/4 cup granulated sugar
 - 1/4 teaspoon salt
 - 1 tablespoon cornstarch
- Defrost orange juice until it can be removed easily from container. Leave ducklings in refrigerator about 24 hours, then wash the quarters. Arrange duck quarters—skin side up—in shallow roasting pan and bake in 325-degree oven (moderate) for 3 hours or until tender and browned. (If boned parts get crisp and dry, brush them with vegetable oil and wrap firmly with aluminum foil.) One hour before duck will be done, discard fat from pan and add 1/4 cup water to prevent sticking.

For orange glaze, mix orange juice, sugars, salt and cornstarch in heavy saucepan. Bring to a boil over high heat; then lower heat and simmer, stirring constantly, about 3 minutes or until transparent and thickened. 15 minutes before removing duck from oven, baste the quarters 2 or 3 times with the sauce. After removing from oven to serving platter, pour the drippings remaining in pan into remaining

orange sauce and reheat. Serve from sauce boat, spooning it over each serving of duck.

Fall of Plenty Means Good Eats

By GAYNOR MADDOX
Newspaper Enterprise Assn.
October comes in with armfuls of grapes, the largest crop on record. Lots of apples, too, and the first of the fresh cranberries. Mrs. S., admittedly a confirmed bargain hunter, sends this recipe using two of October's plentiful foods.

- CHICKEN LEGS BAKED IN TOMATO SAUCE**
(4 servings)
- 4 ready-to-cook chicken legs (about 2 1/4 pounds)
 - 1/2 teaspoon salt
 - 1/2 teaspoon ground black pepper
 - 1 1/2 ounce can cream of tomato soup
 - 1-3 cup water
 - 1/2 teaspoon ground thyme
 - 2 cups hot cooked rice
- Wash chicken legs. Sprinkle with salt and ground black pepper. Place in a baking pan, being

Too Many Highballs Good Worry Cause

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Q — "My husband insists he can drink all the highballs he wants without injuring his liver provided he eats a well-rounded diet. Is he right? I'm worried," says Mrs. S.

A — You have good cause for worry. That bit about, "Oh, I eat well so I can drink all I want" is dangerous nonsense. In a recent issue of the Journal of The American Medical Association, is this statement: "Drinking eight highballs a day can affect the liver even though the drinker also consumes a well-rounded diet."

Dr. Charles S. Lieber, Boston, states: "One may assume that the ingestion of eight highballs a day probably corresponds to the intake of 11 to 12 ounces of 86 proof whiskey per day. Recent studies have indicated that such an intake can lead to the development of fatty liver in man, despite maintenance of adequate dietary intake."

"In other studies with well-fed rats," he said, this amount of alcohol could produce a fatty liver within two to six weeks."

Q — "My 70-year-old father insists solid foods upset him. He gets very cranky when I tell him he should eat normal meals. Please advise me," asks Mrs. K.

A — Tell papa he wouldn't be so ornery if he eats intelligently. Like all older people, he needs at least 2 ounces of good protein food at every meal such as eggs, lean meat, fish, poultry or cheese. Get him a copy of "Eating Is Fun For Older People, Too," published by The American Dietetic Association, 620 North Michigan Ave., Chicago, Ill., price \$5. Urge him to read it and follow its practical advice. If he does, then he may feel friskier, and certainly both of you will be happier.

Swingin' Party Appetizers

SAUSAGE APPETIZERS add spice to party life.

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Looking for good appetizers now that the party season is in full

swing? Two readers make delicious and different suggestions. Edward E. Zwaaf, youthful director of New York's never-closed "Brasserie," enjoys a busman's holiday occasionally by entertaining at home. "Try my favorite appetizer. On bamboo sticks, arrange first a thin slice of radish, then a slice of ripe olive, then a rolled anchovy, next a cooked shrimp, then a slice of green pepper. Repeat in this order using 2 or 3 anchovies and 2 or 3 shrimp. Serve with a good cocktail sauce or your favorite dip."

Manners Make Friends

Colored stationery and contrasting inks are for the younger set.

Mrs. L. R. writes: "My spicy sausage appetizers are perfect for fall cocktail parties after a football game. Very easy to make.

SPICY SAUSAGE APPETIZERS

- (Makes 2 1/2 dozen)
- 1 cup pancake mix
 - 1 tablespoon chopped parsley
 - 2-3 cup cold water
 - 3 4-ounce cans Vienna sausage
 - Barbecue sauce
- Combine pancake mix and parsley in bowl. Add water and beat with rotary beater until smooth, about 2 minutes.

Dip into batter holding with kitchen fork or tongs. Drain off excess batter. Fry in hot deep fat (375-degrees) 2 to 3 minutes. Drain on absorbent paper. Insert toothpicks. Serve hot with barbecue sauce.

Furry fill-ins make the fall and winter fashion scene. Turtle-neck dickies in leopard, mink and sable are prescribed for wear under collarless jackets and coats.

Cooking vegetables in their skins improves flavor and food value—and saves time.

Israel Plays Turnabout, Encircles Arab Nations

By PHIL NEWSOM
UPI Foreign News Analyst

Israel, encircled by hostile Arab states, is in turn encircling the besiegers.

This turn-about is the result of a remarkably effective program of technical assistance to underdeveloped nations which from a modest start in 1956 now operates in Africa, Asia, the Mediterranean basin and even in Latin America.

It has cut deeply into U.A.R. President Gamal Abdel Nasser's influence south of the Sahara and has aroused the ire of both Cairo and Moscow.

Strangely, it has had comparatively little publicity.

A meeting of 31 independent African states in Addis Ababa last June provided one evidence of the effectiveness of the Israeli program. At such meetings in the past it has been the custom of the Moslem bloc led by Nasser to introduce a resolution attacking Israel as a "tool of the imperialists" seeking to infiltrate Africa.

Didn't Offer Resolution

But at the June meeting were 24 African nations which have received Israeli assistance, and

Nasser, certain his resolution would be defeated, did not even offer it.

Despite the broad scope of the Israeli program, it operates at remarkably low cost. This year the figure will be about \$7 million. It is noteworthy that many of the African nations consider the Israeli aid more available to their particular needs than that coming from larger, richer nations at vastly higher cost.

Essentially, the program concentrates on agriculture and water resources, formation of youth groups and public and private enterprises in which the Israelis have had the greatest experience.

The most characteristic aid is carried out by young Israelis from the agricultural collectives (kibbutz) and agricultural cooperatives (mochav). In Africa, these young instructors form in developing both its own agriculture and defense.

Such units have been formed in Ghana, Senegal, Togo, the Central African Republic and the Ivory Coast.

Advisers Are Scattered

Israeli advisers are found in the Imperial Colleges of Ethiopia, on the cotton plantations of Tanganyika, at the head of the naval school of Ghana, in the health service of Liberia.

In turn, Africa is sending students to Israel to take courses in agriculture, youth training, professional training, administration and social work, collectivism and trade unionism.

THE AMERICAN WAY

While You Slept!

Civil Rights Commission Expects Extension

WASHINGTON (UPI)—Speaker John McCormack, D-Mass., predicted House approval yesterday of the Senate passed measure to extend the Civil Rights Commission for another year.

The House leader said he expected to have the two-thirds majority vote needed for approval under a procedure which would avoid House Rules Committee clearance first.

McCormack adopted this course of action to avoid possible delaying tactics by the rules Chairman Rep. Howard W. Smith, D-Va., an opponent of civil rights legislation.

The commission is in a state of suspension now because its two-year term expired Sept. 30. But, 60 days are allowed for clearing up the agency's business. So far, it has lost about 20 staff members because of the uncertainty over getting an extension and 46 more members received a one-month notice last week.

Two Medicine Men for Sultan

KUALA LUMPUR (UPI)—The Perak State Assembly approved an allocation Tuesday for the hiring of two Royal Medicine men for the Sultan of Perak.

Their duties include sprinkling rose water on hot water at Royal weddings and Royal circumcisions.

The chief medicine man will receive a salary of \$25 per month, while his deputy will get \$16.67 per month.

During a debate on the appropriation, the Perak Chief Minister Dato Shaari assured the House that the medicine men were appointed in keeping with Malay and Perak Royal customs and not for treating the Sultan.

Red Cross Board Hears Reports Russians Give Asylum To Sino Trader

Fifteen members and one guest of the Gray County Red Cross board heard reports from standing committees and an address from Clyde Carruth, drive chairman of the United Fund at Tuesday's board meeting in the Coronado Inn.

During the business meeting, chaired by E. B. Pemberton, chapter chairman, Mrs. Don George, water safety chairman, reported two classes beginner and advanced, completed at the Pampa Youth Center. These classes are taught by Harold Thrasher, water safety instructor.

Mrs. Jack Foster, chairman of volunteers, told the group 15 volunteers had been trained and were working at Highland General Hospital serving juice and coffee on Saturdays and Sundays.

Mrs. A. D. Hills reported on the association of chapters meeting at the Amarillo AFB.

Roscoe Mounce reminded the group of the advanced first aid class being taught at 7 p.m. tomorrow in the old Chamber of Commerce office in City Hall. These classes will also be taught at 7 p.m. Monday, Tuesday and Thursday next week. Mounce also announced a first aid instructors class will be taught Oct. 29 by H. H. Gilliam, first aid instructor-trainer on the national staff.

Speaking on the blood bank at Highland General Hospital, Dr. Julian Key explained that the hospital had arranged for the Amarillo Blood Bank to supply Pampa with blood because the community had not responded to the call for blood in an emergency.

He said that persons who wish to give blood should contact the Highland General Hospital. The blood bank will come to Pampa when 15 persons have registered to give blood, according to Dr. Key.

The group voted to take a party to the Re-Training Center at Amarillo Air Force Base Oct. 15. High school students and Volunteers will entertain and the P-4 Gray Ladies will host the meeting.

Bill Atkinson, fund chairman,

TOKYO (UPI)—A member of a Chinese Communist trade delegation stole out of his Tokyo hotel room before dawn yesterday, drove to the Soviet Embassy, scaled the embassy wall and asked for political asylum.

The Russians promptly granted asylum to Peking interpreter Chou Hong-ching, 44, and refused to turn him over to Japanese immigration authorities, threatening to touch off a major diplomatic incident between Japan and Russia.

At the same time, the chief of the Red Chinese delegation, Tao Heng-hsien, informed the Japanese government he would not leave this country until the defector was returned to Red Chinese custody. Tao is chief secretary of Communist China's elite Engineering Academy.

The Japanese immigration authorities asked the Russians to turn the defector over to them because Chou's visa expired Sunday.

But the Soviet Embassy refused. Japanese authorities said the embassy had already guaranteed Chou's passage to Russia and he was planning to leave for Moscow within the next few days.

Chou was interpreter for the eight-man trade delegation that arrived in Tokyo Sept. 6 to visit an international oil fair and hold trade talks with Japanese firms.

BARROW, Alaska — State Sen. Eben Hopson commenting on an Arctic storm with freezing winds up to 80 miles an hour that left two dozen families stranded:

"It's been a helluva busy day for every one here. We're pooling our resources to save whatever we can."

gave members an invoice on materials owned by the Gray Chapter and closed the meeting by showing a chart telling the ways Red Cross uses the money sent to the national headquarters.

Wall Street In Review

NEW YORK (UPI) — Kenneth Ward of Hayden, Stone & Co. notes that "many stocks have reached, and in some instances, exceeded their highest projected levels."

"It therefore seems advisable," Ward adds, "to temporarily avoid making new purchases in many of these higher priced issues at prevailing levels. However, a very modest valuation of corporate profit prospects for many lower and medium-priced issues is also being made and a significant move upward still seems overdue for such issues."

PRESIDENT'S GROUND-BREAKING WILL GROW TO THIS—During his visit to Hanford, Wash., Sept. 26, President Kennedy will break ground for a new atomic electric generating plant—the world's largest. Located at near-by Richmond, sketch shows, in left portion of drawing, steam generation facilities of the New Production (nuclear) Reactor. At right, the 800,000-kilowatt generating station, which will be built by the Washington Public Power Supply System.

Investment advisor Richard T. Leahy of J. W. Sparks & Co. says that "despite the frothy performance of several individual issues, the lagged action of the rail group now stands as a possible deterrent to future stock market lettermen." Leahy believes that a modest correction to the 715-720 level is the down industrials may be witnessed.

Standard & Poor's says that "although favorable business fundamentals may enable the market to sustain its momentum for a further period, the lists' underpinnings are not so strong as the action of the average might indicate. We would not reach for stocks at this level."

According to the United Busi-

Ecumenical Council Approves Usage Of Modern Language

VATICAN CITY (UPI) — Ecumenical Council fathers today overwhelmingly approved a series of proposals authorizing introduction of modern languages

to replace Latin in large portions of the Mass.

Eight separate amendments to the document on the worship of the church were ratified at today's session of the council by top-heavy majorities.

The largest negative vote on any of the amendments was 96 out of 2,227 votes cast.

Four of the amendments concern the use of vernacular — the everyday language of the people — in the Mass where this is desired by national or regional conferences of bishops.

MAY REPLACE ROCKETS

GENOVA, Italy (UPI) — An Italian scientist said tonight super-sonic transport planes could replace the first stage of rockets in the launching of satellites.

Prof. Antonio Eula of Rome University told the 11th International Communications Congress here that once super-sonic transports become available they could be used as carriers for heavy space vehicles.

A 170-ton super-sonic plane could launch a 70-ton rocket capable of placing a 2.3-ton satellite in an orbit 300 miles from earth, Eula said.

Winners Named Texas JC Press

COLLEGE STATION (UPI) — Kilgore Junior College won top honors for the third straight year in the Texas Junior College Press Association contests at Texas A&M, it was announced yesterday.

Kilgore won both the newspaper and yearbook competition. Runners-up were Odessa, San Angelo, and San Antonio. The winners in the yearbook and newspaper divisions received awards at the 11th annual Awards Banquet. The conference continues through Tuesday.

Individual winners were: News Story—Dorothy Ann Nelms, San Angelo, first; Dean Thorpe, Del Mar, second; Marion Meyer, Del Mar, third; Mike Swearingen, Kilgore, honorable mention.

Sports Story—Rebecca Mason, Kilgore, first; Jim Bradford, Kilgore, second; John Peneto, Blinn College, third; and Manuel M. Rodriguez, Navarro College, honorable mention.

Feature Story—Dean Thorpe, Del Mar, first; Bill Linton, San Angelo, second; Fred House, San Antonio, third; Nick Jimenez, San Antonio, honorable mention.

Sports Feature—Noel Freeman, Odessa, first; Jim Bradford, Kilgore, second; Ray Evans, Odessa, third; Barbara Kennedy, Odessa, honorable mention.

Editorial—Rebecca Mason, Kilgore, first; Bonnie Binford, Navarro, second; Orman Darby, Odessa, third; Boyd Browning, Del Mar, honorable mention.

General Column—Christine Sawyer, Odessa, first; Bonnie Binford, Navarro, second; Maxine Gorneau, San Antonio, third; Rebecca Mason, Kilgore, honorable mention.

Sports Column—Rodney Dunlap, San Angelo, first; Jim Bradford, Kilgore, second; A. J. McCown, San Antonio, third; Dock Hanks, Navarro, honorable mention.

Cartoon—Tom Webb, Navarro.

TAMPA, Fla. — Cmdr. Martin Flesh, pilot of a Coast Guard helicopter, describing the shark-infested waters in the Gulf of Mexico where two men were rescued and the wife of one of them perished:

"About all you could see were fins and a flurry of foam and blood."

first: Jere Drennon, Navarro, second: Allen Dodd, San Angelo, third: Gale Weber, Blinn, honorable mention.

Advertising—Robert Jones and James Coker, Odessa, first; Bill Neidert and Robert Jones, Odessa, second; Maxine Gorneau, San Antonio, third; Bill Neidert, Odessa, honorable mention.

A halo of even heat makes it the richest white bread we've ever baked

Our new round baking pans spread heat all around our new Golden Circles. The loaf bakes evenly all over . . . and the flavor stays in the loaf, not in the oven.

Before we bake, we add an extra measure of pure cane sugar to our spring wheat flour. More shortening and milk solids, too. What a golden difference in taste these make.

The New Shape of Flavor in Fine White Bread

DKG Regional Meet In Memphis Saturday

"Delta Kappa Gamma on the Move" will be the theme for a regional meeting of the Delta Kappa Gamma Society, international organization of women teachers, at Memphis High School, Memphis, on Saturday.

Gamma Kappa Chapter, with Mrs. L. C. Sweatt of Wellington as president, will be hostess chapter to this regional meeting which is one of eighteen conducted throughout Texas in October and November. Participating chapters with their presidents are: Pi, Mrs. Robbie Dewald, Amarillo; Beta, Delta, Miss Mary Reeve, Pampa; Gamma Eta, Mrs. Irene Stough, Lorenzo; Gamma Theta, Mrs. Tavia Wienbroer, Borger; Gamma Iota, Mrs. Florabel Tisdell, Plainview; Gamma Kappa, Mrs. L. C. Sweatt, Wellington; Gamma Xi, Mrs. Frances Holden, Dumas; Delta Xi, Miss Della Stagner, Hereford; Zeta Delta, Mrs. Evelyn Laney, Amarillo; Zeta Epsilon, Miss Stacia Irene Crawford, Amarillo; Zeta Zeta, Mrs. Sue Stephens, Amarillo; and Eta Alpha, Mrs. Gladys Phillips, Darrouzett.

Director of the meeting, representing Alpha State, will be Dr. Lola Beth Green of Lubbock, chairman of the committee on Scholarships.

Chapter presidents will meet with Dr. Green on Friday evening, Oct. 11, for a dinner and business meeting.

At 9 a.m. Saturday members

will meet at Memphis High School for registration and coffee. At 9:30 a.m. the general session will begin in the auditorium. "Delta Kappa Gamma on the Move with Good Programs" will be presented by member of Pi, Zeta Delta, Zeta Epsilon, and Zeta Zeta chapters of Amarillo.

"Delta Kappa Gamma on the Move with Solved Chapter Problems" will be discussed by members of Gamma Iota Chapter of Plainview.

"Delta Kappa Gamma on the Move with Increased Awareness of Our Scholarship Opportunities" will be given by Eta Alpha Chapter of Darrouzett.

"Delta Kappa Gamma on the Move in the Area of Personal Growth and Services" will be presented by Beta Delta Chapter of Pampa.

Mrs. Mildred Sullivan of Pampa, first vice-president of Alpha State and former state chairman of the Committee on Music, who has received an Achievement Award, will conduct a mid-morning sing-song. Mrs. Sullivan is also state chairman of the Committee on Personal Growth and Services.

Regional accompanist will be Mrs. Ruby Gunn of Pampa.

Dr. Green, director for this regional meeting, is state chairman of the Committee on Scholarships. Dr. Green is Associate Professor of English at Texas Technological College, Lubbock. She received her B. A. and M. A. degrees from

Dr. Lola Beth Green

Miss Mary Reeve

Miss Mildred Hulsey

Tech. and the Ph. D. from the University of Texas.

Dr. Green is listed in "Who's Who of American Women" and in "The Directory of American Scholars." She is the author of several publications, and is currently doing research in advanced grammar.

She has worked in Delta Kappa Gamma at chapter and state level.

Woodrow Wilson PTA Meets

The Woodrow Wilson P. T. A. met in the school auditorium recently with Mrs. Calvin Hogan presiding.

Mr. Floyd Smith introduced the two new teachers, Mrs. Paul Boswell, and Mrs. J. S. Crouch. Mrs. Vernie Denton was introduced and presented with one of the year books, which are dedicated to her this year.

Mrs. T. R. Kelly gave the devotional.

Study course was announced for the next seven weeks, meeting at the different schools at 9:30 a.m. until 11:30 each Thursday.

Mrs. Walden Haynes introduced McHenry Lane, who gave a discussion on "Elementary Curriculum." He said, "The elementary schools teach the skills so they can go on and get along with others." He also made the statement that social studies is the most important subject in elementary school because it teaches about people, and how to get along with each other.

Miss Pearl Spaughs first grade room won the first place banner for room count, and Mrs. Sam Hank's fifth grade room won second place.

els, and is an active member of many professional, community, and civic organizations.

The regional meeting will conclude with a luncheon in the Travis School Cafeteria. Miss Mildred Hulsey of Tulsa, past first vice-president of Alpha State, will be the speaker, using the theme "As Delta Kappa Gamma Enters the Open Door." Miss Hulsey, who is now retired from the Tulsa school system, is sponsor of the Future Teachers Club and is organizer of many clubs in the area. She devotes time to the Presbyterian Church, serving as secretary of the board, and as chairman of Ecumenical Mission and Relations of her local church as well as in the Presbyterian of twenty-seven churches.

The invocation at the luncheon will be given by Miss Gladys Wal-

ter, and is an active member of many professional, community, and civic organizations.

Make Salad Now, Serve After Cards

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Postmistress in her town, Mrs. S. M. writes, "We like to play cards. And I always plan to give guests something good to eat before they go home — something I can make in advance, take from the refrigerator and serve. Everyone likes my Macaroni Lobster Salad. I'm sure your readers will, too."

MACARONI LOBSTER SALAD
(about 2 quarts—8 to 12 servings)
1 package (7 or 8 oz.) elbow macaroni

- 1 can (6 oz.) broiled mushroom crowns, quartered
- 1-3 cup French dressing
- 3 tablespoons minced onion
- Dash marjoram
- 2 packages (9 oz. each) South African rock lobster tails
- 1-3 cup mayonnaise
- 1-3 cup sour cream
- 1 tablespoon lemon juice
- 1 jar (8 oz.) sweet gherkins, sliced diagonally
- 1 cup cucumber slices, quartered
- 1 cup sliced radishes

Cook macaroni in boiling salted water until just tender. Drain, rinse under cold water and drain thoroughly. Drain mushrooms, reserving broth for future use. Combine macaroni and mushrooms in suitable container.

Blend together and add French dressing, minced onion and marjoram, tossing lightly but well. Cover and chill for several hours, stirring occasionally.

Cook lobster according to package directions, chill thoroughly, then cut into 1/2-inch slices. Blend together mayonnaise, sour cream and lemon juice.

Drain excess French dressing

from macaroni. Stir in lobster, then stir in mayonnaise mixture. Add gherkins, cucumber and radishes and toss lightly until well mixed. Refrigerate until ready to serve.

Pampa PTA City Council Makes Final Plans for Fall Workshop

The Pampa PTA City Council met Oct. 1 at Woodrow Wilson School.

The principal, Floyd Smith, gave the invocation. Mrs. Melvin Watkins, president, presided over the business meeting with Mrs. Dan Cotton giving minutes of a previous meeting, and the reading correspondence.

Members were reminded of the second session of the PTA Study Course which was held today at Travis Elementary School.

The deadline for unit memberships which will receive credit at the convention is Oct. 15.

Oct. 17 is the date of the Fall District Workshop at Wellington. The topic will be "A Family's Concerns." The morning program will be moderated by Mrs. Melvin Armstrong of Lubbock, a state vice-president, and will be presented by a panel of four Pampa residents, Rev. Jack Riley, Mrs. John Gentry, Mrs. Essie Mae

Walters and Jerold Sims. The film, "Who Will Decide?", will be shown during the afternoon session by the PTA's from Borger. All PTA members are urged to attend this workshop.

Members were also reminded that Oct. 19 is Texas Congress Birthday.

Joe Page, convention chairman, reported that the state convention will be held in San Antonio Nov. 20 through Nov. 22. A chartered bus will leave Pampa on Nov. 19, and will return after the last meeting on Nov. 22.

Names should be turned in before Oct. 15 for hotel reservations, and by Nov. 1 for bus seat reservations.

Schools represented at the council meeting were Austin, Baker, Houston, Lamar, Lee, Mann, St. Vincent de Paul, Travis and Wilson.

Coffee and rolls were served by Mrs. Bill Odell and Mrs. W. L. Stubblefield.

Do You Resist Defeat Or Accept Limitations?

By MRS. MURIEL LAWRENCE

There was once a horribly mis-directed child.

You remember the poem about him. He was the boy who "stood on the burning deck whence all but him had fled," until his flaming ship and the seas engulfed him. He actually existed. His name was Giacomo Casabianca, and the Victorians in whose day he was celebrated were so delighted with his notion of honor that one of their lady poets wrote about him.

But then it would have delighted the Victorians, wouldn't it? To acquire their empire, they were busily engaged in getting themselves killed by angry natives all over the world; and 13-year-old Casabianca's refusal to accept defeat by his impossible situation was encouragement to their own glorious dying.

He was a pretty arrogant child. His outrageous demands on himself may shed some light on the youngster of whom a mother writes:

"My 5-year-old boy loses his temper whenever he can't do something. Last night the sleeves of his pajamas got twisted. He got so angry he tore the pajamas. He is like this whenever things go wrong for him. If he loses a piece of soap in the tub and can't find it right away, he gets angry. . . . Nothing must be allowed to defeat him either, eh? O.K. What kind of grand demands do you make on yourself?

Do you feel impatient when a fuse blows? You can't control its decision to blow, you know. Do you become angry when this child of yours refuses immediate obedience? He can become involved in interests of his own, you know. Do you feel depressed when you sense you've got a cold coming on? Imperfect human flesh is suscep-

tible to infection, you know. So what I'm asking is whether YOU take the limits of your powers calmly or resist any defeat by circumstances?

Because a baby's every want is immediately served, it is very easy for him, as he grows, to acquire the glorious notion that he should be able to control all his circumstances. If he is raised by parents who share the notion with him he will know it—and inevitably throw tantrums.

But if his mother is clearly aware of the limits placed on her powers, they don't scare her. She says placidly, "Oh, stop fussing. Nobody can do EVERYTHING. Here, let me help you with those sleeves. . . ."

There's nothing heroic in refusing to know when we're licked.

Take It From Kathy

By KATHY PETERSON

I have received so many letters from teens asking for job suggestions that it seems like a good idea to review the best thoughts I've heard. Successful teens agree that it takes time to build a business or business association.

Rules of business apply to teens, too. People won't pay for service unless you do a first-rate job. Learn the job you pick so you can do it professionally. Some suggestions:

Be available to run to the store for anything required.

You might not be old enough to work alone, but ironing, dishes and general household chores could be done under supervision.

Care of garden flowers or removing nuisance weeds could be your specialty.

Senior Center Corner

By MRS. O. A. WAGNER

Senior Citizens Center

We recently observed the seventh birthday of the Senior Center. It was the sixth year to be exact, at the Lovett Memorial Library. The group first started as the "Nokomis," under the President, at that time, Mrs. Flossie Anderson, of the Altrusa club. The Center is open on Thurs. afternoon each week, for senior citizens; and it is so popular that younger citizens come occasionally and are welcomed. The Altrusans are hostess the first Thursday of each month, and celebrate all birthdays of the members during that month; hostess volunteer for the rest of the month from the various clubs and church groups and classes. New members are welcomed each month. Around two hundred are on the roll and attendance averages around about seventy-five. Pampa is proud of the accomplishments of this organization. They also award a scholarship to some worthy high school graduate each year and subscribe to many other worthy causes that we, the public, never know about. Mrs. Lorene Locke president, welcomed the members and guests and Miss Letitia Rutledge gave several acordion numbers in honor of the event.

Mrs. Cora Yates has returned from a trip to Cheyenne, where she visited with her son Frank Yates and family. While there they took her to Casper, Wyo. where she visited with old friends she had not seen in years. Mrs. Yates and her late husband were in business in Casper before coming to the Panhandle of Texas and had many friends there. Mrs. Yates reports a very delightful time.

Mrs. Lydia Skewes of Moab, Utah was a guest at the Center. She is visiting her son A. W. Skewes and family, 1612 Christine.

Mrs. Mary Harris visited the St. Anns rest home at Panhandle Sunday. Having been confined in the home last spring with a broken hip, she enjoys dropping in occasionally.

Guests of Mrs. Ollie Daniell last week was her daughter Mrs. Earl Shuss and husband of Ponca City, Okla. A recent guest of Mr. W. E. Towe was his nephew Rusty Prather from Greenville, Tex. Mrs. Elma Bailey visited her daughter, Mrs. Marvin Bowman, in Amarillo last week. Mr. and Mrs. Charles Mundy and Mrs. Corinne Bell were welcome visitors at the Center last week. Mrs. Jess Hatcher, Gray Lady, reported that all the members from Twilight Acres that she brings, were able to come last week, including Mmes. Fields, Mullins, Carter, Blythe and Mr. Watt. Mrs. P. H.

Had a nice visit over the telephone with Mrs. C. E. Sidwell and learned that she was expecting her daughter Mrs. Paul Emmett and husband over from Albuquerque, for the week end. She

He May Have Been Joking But She's Still Mad

By ABIGAIL VAN BUREN

DEAR ABBY: My husband and I went together to buy an air conditioner. While my husband was establishing credit, the salesman asked me when he could come out and measure our window for the conditioner. I told him it wouldn't be necessary, that my husband would install the machine himself. The clerk then said, "Your husband wouldn't have to know about it, would he?" I was surprised and shocked, and told my husband about it when we got home. He was so outraged that he went right back to the store and confronted the salesman with what I had told him. When my husband returned, he was angry with me! The clerk told my husband he was just being funny. And my husband believed the clerk. What do you make of this?

WRONGED: DEAR WRONGED: The clerk was just being funny, huh? I think hubby should have told the store manager that his sales force needs air conditioning, and meanwhile he was taking his business elsewhere. Such a wiseacre clerk could get the businessman into a peck of trouble.

DEAR ABBY: We have a very large family. Our brother recently

went to the hospital for a serious operation. His wife told the whole family that he didn't want any of his brothers, sisters, or even his mother or father to visit him for a while. All he wanted was his wife and children. We felt bad, of course, but stayed away. After two weeks, our brother went home. His wife still insisted he didn't want any company.

Finally, our mother went over to his house, rang the doorbell, and practically forced her way in to the house. When her son saw her, he said, "Were you waiting to read in the papers where I had died before you came to see me?" Mom almost fainted. Should our brother be told that his wife kept us from his side?

FIVE BROTHERS AND FOUR SISTERS: DEAR BROTHERS AND SISTERS: Say nothing. The truth will reveal itself in time.

DEAR ABBY: When a fellow asks you out on a date, why does he say, "Where do you want to go?" This makes me uncomfortable as I expect my date to have the evening planned since he did the asking. How does a girl handle a situation like this? I usually say, "I'll go anywhere you want to go." But then I feel like such a dummy.

NO IDEAS: DEAR NO IDEAS: Why feel like a dummy? I think you're smart. The young man knows the limitations of his pocketbook. If he sincerely wants to please you, he should offer a few suggestions and let you make the final decision.

CONFIDENTIAL TO "WORKING FOR PEANUTS": Why should the boss shell out more when he is on to all the monkey business in his office?

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Manners Make Friends

Going to lunch with the girls? Ask for separate checks.

Gates reported that her grandson, Dr. Don Gates, called her Monday saying he was on his way to U.S. Hospital, Turkey for one and a half years. Dr. Gates was pastor of the Harrah Methodist church here at one time, and is the son of Rev. and Mrs. Charles Gates.

Mrs. Maggie De- reported that her daughter, who we reported ill several weeks ago, will arrive in Washington D.C. Oct. 5th from Czechoslovakia where she was

employed in the US service, and will return to Pampa as soon as her release is completed. Mr. and Mrs. J. C. Moseley are proud to announce the birth of a new 6 1/2 lb. great grandson. Parents are granddaughter, Mrs. Billy Joe Durrett and husband, of Mansfield, Tex. Mr. and Mrs. Frank Mrs. E. B. Smith has received Converse are grandparents.

Mrs. E. B. Smith has received word that her son S-M-Sgt. Robert

Indians Do Festival Up In Big Way

CHIHUAHUA, Mexico (UPI)—When the primitive Tarahumara Indians have a festival, they do things up big.

They kill a steer, skin the animal and pop it into a 50-gallon drum. They boil it until the steer becomes mushy.

While the steer is cooking, the local brewmaster whips up a liquor concoction made from herbs. Dinner music is provided by crude violins which when played emit sounds one might hear during an Irish jig.

Such a feast was underway when a group of American adventurers stumbled upon a Tarahumara village called Basihuare early this week in the wild Barranca de Cobre country of northwestern Mexico.

Other proceedings go along with the festival—like trials. One member of the tribe was banished from the group during the festival. What the guilty one did wrong was not made clear.

Janice Cross, 19, one of two women on the expedition, said the Indian women were dressed in "yards and yards of material for skirts and it looked like they weighed tons."

The men and women had segregated facilities.

Miss O'Reilly said the Indians led them up a trail to a Tarahumara village called Basihuare.

We "caught the end of a tribal festival," said John Cross Jr., 21, son of the expedition leader. Crude violins were played and Cross said the music "sounded like an Irish jig."

The group arrived in Chihuahua Tuesday after a train ride from Creel—100 miles to the west.

SET UP PROGRAM

WASHINGTON (UPI) — A program to train more Negroes and other minority groups for U.S. diplomatic jobs was unveiled Wednesday by the Ford Foundation and Secretary of State Dean Rusk.

The foundation will make a \$600,000 grant to Howard University here to set up 100 foreign affairs fellowships over the next four years. Recipients will study at graduate schools throughout the nation.

Narcotic Users Appeal Sentence

SAN BERNARDINO, Calif. (UPI) — Three Navajo Indians found guilty of using the cactus-derived narcotic peyote in religious ceremonies appealed their conviction Tuesday in U. S. District Court.

Judges Gerald Brown and Lloyd E. Griffin have 90 days in which to decide on the appeal motion.

In arguing for reversal of the conviction in Superior Court last Nov. 29, American Civil Liberties Union lawyer A. L. Wiron contended the defendants' constitutional rights of religion were violated when they were found guilty.

The defendants — Jack Woody, 29, Dinneville Trading Post, Ariz.; Dan Dee Nez, 52, Ludlow, Calif.; and Leon Anderson, Parker Dam, Calif. — had been placed on two years probation and each agreed to refrain from further use of the drug. They were arrested in April 1962 in an Indian-hogan.

Two In Running For House Seat

AUSTIN (UPI) — Two Republicans today joined eight Democrats in the special election for the Texas House seat vacated by Jack Ritter Jr. of Austin.

Ritter resigned so he could run for the central Texas congressional vacancy created by the resignation of Homer Thornberry.

Wiley P. (Pete) Hord, an Austin businessman, and Charles Koch, a University of Texas student, both said they would run for the statehouse seat as Republicans.

Koch, who will be 21 just three days before the Nov. 9 special election, paid his \$5 filing fee Tuesday. Hord said he would pay his fee today.

Deadline for filing for the special election is midnight tonight. There will be no runoff in the election since the high man in such a vote automatically wins.

WASHINGTON — Turncoat mobster Joseph Valachi, testifying about the payment of \$10,000 to have the body of slain gangster Eugene Giannini removed from a gambling site:

"Isn't it worth \$10,000 to get rid of a guy like that?"

YUMMY—Look at all the melons, and grapes, and vegetables, and other manifestations of the bounty of autumn pouring from the Horn of Plenty. You didn't notice the Horn of Plenty? You . . . oh, yes, that's Jo Ann Berger, 19, who happened along when the produce was getting its picture taken at the Los Angeles County Fair at Pomona.

Networks Face Silliest Season

By RICK DU BROW

United Press International HOLLYWOOD (UPI) — This is the silliest season of the year at the television networks. All the geniuses and experts have, like us, seen all the new shows, but they won't know exactly what the score is on hits until the ratings people, in their crystal-ball wisdom, tell them soon in the first major survey of the autumn.

Under congressional investigative pressure, the witch-doctoring approach of the ratings measurements is being upgraded by a responsible industry group in broadcasting, and a major progress report outlining future perfection of accuracy is expected shortly. But meanwhile, the old system, perhaps improved somewhat, continues as final arbiter.

For the viewer, however, it is obvious enough that through last year's new entertainment series comprised probably the worst such group in video history, there are at least a handful of new shows worth tuning in this season. Last year, the only unusual and intriguing freshman series, "It's a Man's World," got the ax swiftly because only between five and 10 million persons were watching it — an act of illogic that it is still difficult to set down with a straight face. This season, however, I suggest you may be pleased every so often by tuning in the following fledgling efforts:

—"East Side-West Side." This series about a social worker stars George C. Scott, who is one ahead as the most impressive continuing character in a new show.

—Richard Boone Anthology. Boone and his repertory company of 10 players portray different roles in the varying stories each week.

—"Chronicle." A tasteful look, sometimes in fact and sometimes in fiction, at man and his civilizations, past and present, sometimes on the light side and sometimes not so light.

—"Espionage." This is opposite "Ben Casey" and "The Beverly Hillbillies," so you better see it fast since the predictions are for a quick ratings death — but the high-style espionage stories, shot in Europe and based on real cases, show much promise.

—Bob Hope Theatre. Several worthy hours are promised in these anthology dramas.

Thus, we at least have a few new places to look for adult drama this season. "Suspense Theatre," the last new show to bow in premieres Thursday, and may offer some more interest in this field. Musically, even performers like Danny Kaye and Judy Garland will probably fall into the usual rut. But "Hooperman," which turned up late last season and is now expanded to an hour, is worth your attention in its new form.

The Channel Swim: The "CBS Reports" Oct. 30 study of the American funeral system will be followed on Oct. 31 by a "Dr. Kildare" episode on how bearded families are exploited by unscrupulous undertakers who hike costs. . . . Movie critic Judith Crist, and book critic Maurice Dobier, both of the New York Herald Tribune, will appear in their professional capacities from time to time on NBC-TV's "Today" show.

Nat (King) Cole stars on ABC-TV Sunday in a half-hour musical program originally done for the British Broadcasting Corp. . . . Same network's canceled "100 Grand" quiz show will be replaced by a panel series starring Hal March, beginning Oct. 20. There had been talk that the substitute series might have been one about Franklin D. Roosevelt.

MIAMI — A weather forecaster, commenting on the destructive Hurricane Flora: "She's not dead yet. But I would say maybe two days, then the cold air will kill her."

Gunfire Still Heard in City

TEGUCIGALPA, Honduras (UPI) — Scattered gunfire was heard through the day Monday and armed troops were directing traffic, but the city appeared to be returning to normal under its new military regime.

Most shops and offices were open by noon and the streets were thronged with civilians carrying on business as usual.

The principal reminders of the coup d'etat that overthrew ex-President Ramon Villeda Morales last week were soldiers on traffic duty and the occasional sight of a jeep mounting a machine gun on street patrol.

Campaign Kickoff Dinner Announced

DALLAS (UPI) — The George Romney for President Club yesterday announced its first regional campaign kickoff dinner will be Nov. 1 at Detroit.

George Zimmerman, president of the club, said other meetings would follow and he expected "great response and support" for the Michigan governor as the Republican nominee for president in 1964.

"There is a tremendous undercurrent for this man," Zimmerman said, "and he hasn't done a thing to arouse it. We like his common sense approach—practical instead of radical."

Project Mohole Suffers Cut-Back

WASHINGTON (UPI)—A project scientist believes one of the most exciting projects being undertaken by the government may be set back by a year or more because of budget cuts voted by the House Appropriations Committee.

The \$85 million Mohole project to study the earth's core was among those that suffered when the committee chopped \$286 million from the proposed \$589 million budget of the National Science Foundation.

Mohole project funds account for only a small fraction of the total foundation budget for the 1964 fiscal year, which ends next June 30, but it will suffer along with others if the over-all cut stands, a foundation spokesman said Tuesday.

Mohole is a project to drill through the earth's crust to the underlying, little known mantle, an 1,800-mile deep layer which accounts for five-sixths of the earth's volume.

The plan is to drill through the crust where it is thinnest—at the bottom of the ocean. In places the crust under the sea is believed to be only 3 to 7 miles thick, compared to 18 to 30 miles under the continents.

The drilling platform will ride about 75 feet above the water on six vertical columns extending from twin hulls submerged to a depth of about 70 feet.

The science foundation got \$5 million from Congress for Mohole

work in the 1963 fiscal year ended June 30. It asked a \$10 million increase for this year. The hope has been to complete the project in about four years from now.

The big cut voted by the House committee would hurt the project a foundation spokesman said, and delay its completion by at least a year. He said the stretchout probably also would add to the total cost.

The project gets its name from the fact that scientists hope to drill through the "mohorovicic discontinuity," the boundary — discovered by seismic means — between the relatively thin crust and the thick mantle. The boundary was named for its discoverer, Andrija Mohorovicic of Yugoslavia.

VISITS SON

WASHINGTON (UPI) — Former Ambassador to Britain Joseph P. Kennedy is visiting his son, the President, at the White House.

The elder Kennedy, ailing since he suffered a stroke Dec. 19, 1961, arrived Wednesday aboard the family plane, the Caroline, accompanied by his niece and companion, Ann Cargan of Boston.

MEETS WITH LEADERS

WASHINGTON (UPI) — President Kennedy meets today with two African leaders, Prime Minister Hastings K. Banda of Nyasaland (at 10 a.m. EDT) and Premier Cyrille Adoula of the Congo (at noon).

Tear Gas Breaks Up Race March

PLAQUEMINE, La. (UPI)—Several hundred students at Iberville Negro High School marched toward the school board office yesterday in a civil rights demonstration. Sheriff's deputies broke out tear gas to stop the march.

The students refused to attend classes because of the indefinite suspension Saturday of 35 students for leading a Friday demonstration. The Negroes have made a series of civil rights demands, including total desegregation of schools.

The students gathered in the gymnasium and sang civil rights songs. Twenty of the 35 suspended students picketed the building.

School authorities vainly tried to talk the students into going to class. The students marched off toward the school board offices. Sheriff's deputies with tear gas and masks for their own protection blocked off an intersection between the marchers and the school board office.

Principal W. O. Williams warned the strikers that the school might be closed if they failed to return to classes. But only a few of the school's total of 350 students did.

Wool with zest is in the clothing almanac for autumn, as these British imports attest. Sport jacket, left, is in red, black and olive gold district check, with flap pockets, center vent and three buttons. Camel's hair makes its comeback in a box coat, right, with set-in sleeves. And that's real camel's hair, blended with wool.

Harvesters Not Tough, Says Caprock

Longhorns Not Afraid of Pampa

AMARILLO—"Pampa can't be as tough as the teams we've had to face before," declared Caprock, Amarillo football coach John McGuire.

"Physically, we're ready. Mentally, we feel like we have a good chance, a far better chance than we've had previously in a season. We know Pampa will be changing the line after us. They'll have their eyes directed and popping out of their heads trying to win one. But after Berger and Lubbock, we're not afraid of anyone."

"Pampa isn't a bad team," admitted the youthful mentor of the newest District 3-AAAA member, "our films show that they should have won before this, and they want this game badly. But, so do we, and we feel we have a good chance this time. We know they're not as tough as Berger or Lubbock."

McGuire was busy on the attitude of the harvesters unless Longhorn "it's excellent," he said.

"Real good hard work and a good attitude. Although we're not a good team, I think we're better than when we started. We have been reminded with victories, but we have been with great improvement."

McGuire admitted that he was a confirmed optimist, but explained, "You have to be one in this business. Coaches with all-winning

NOT SO TOUGH?—This crew of starting defensemen for the Pampa Harvesters appear ready to dispute Caprock's charges Saturday night in Dick Bivins Stadium, Amarillo. From left, Eugene "El Bandido" Madrid, James Williamson, Donnie Rexroad, Big Billy Quarles.

Kenny Hebert Takes District Punting Lead

Despite just being edged by Tascosa last week, 14-7, the Pampa Harvesters dropped to seventh offensively while holding sixth place defensively in the District 3-AAAA statistics released today.

Kenny Hebert was the only Pampa punting leader in individual statistics, but the Flying Frenchman set a new Pampa record by becoming the first "quadruple-threat" player, making the top runs in four of the six individual statistics.

The defending punting and total offense champion regained his kicking leadership, moving up from last week's second place with a 37.1 average. Used principally as a split end last week, Hebert gained only 11 yards rushing in three tries and was incomplete with one pass attempted, although holding sixth place in total offense and fourth in passing.

By picking up 81 yards in passes received, Hebert moved into second place in that department, behind Mike Turner of Tascosa, who caught four heaves last week to beat the Harvesters. Pat Harkins, whose all-round play led the Rebels, was first in total offense and passing and third in rushing.

Pampa's Saturday night opponent, Caprock, is in the cellar in team statistics, with their 9.9 runner, halfback Ricky Hickman, providing their big offensive punch as he ranks in rushing and also in total offense, although not a passer. Caprock's passer, quarterback Rick Smith, is ranked seventh in passing.

A punting unit, which will mean the loop leadership, is also in store for Pampa-Caprock fans, as James Anderson of Caprock is second to Hebert in that department with a 36.5 average.

Midland First, Bulldogs Fifth In HS Grid Rating

DALLAS (UPI)—Midland High, Dumas, Denver City and Albany held firm atop the United Press International Texas schoolboy football ratings this week, but wholesale changes marked the order of things in all four divisions.

Dallas South Oak Cliff and San Antonio Highlands moved into the Class AAAA Top Ten for the first time as Corpus Christi Miller and Wichita Falls dropped out.

Orange climbed back into the AAA ranks after a week's absence, and Austin Lanier made its first appearance there with Jacksonville and Conroe dropping out. There were no newcomers to the Class AA ranks, but in Class A Hallville and White Oak from the same East Texas district made their initial appearances.

Dumas impressive

Midland High was idle last week, but the other three top-rated teams turned in victories — Dumas whipped New Mexico's top-ranked Carlsbad 13-0 and allowed the Cavemen only one first down and that via a penalty; Denver City edged Littlefield 7-6, and Albany whipped Cisco 22-6.

But, Miller was beaten 23-14 by unranked Odessa Permian; Port Arthur suffered its second successive extra-point loss, 13-12 to Orange, and Wichita Falls lost to Big Spring 12-8. South Oak Cliff beat Dallas Hillcrest and Highlands romped past unbeaten Victoria to build their season records to 4-0 and earn AAAA berths at ninth and tenth.

AAAA champion San Antonio Brackenridge beat San Antonio Lanier and took over second place with Pasadena, Spring Branch, Borger, San Angelo, Gaco.

Torres Edges Don Fuller

TEANECK, N. J. (UPI) — Middleweights Jose Torres and Don Fuller will meet in a return match, promoter Murray Goodman announced today, because Torres' victory Wednesday night was so close.

"Date of the 10-round bout will depend upon whether it is held at the New York Coliseum, or at Salt Lake City or here at the Teaneck Armory again," Goodman explained.

Sluggo Torres of Puerto Rico won the referee's decision Wednesday night before about 2,500 in the Armory. There are no boxing judges in New Jersey. Referee Joey Harrison gave five rounds to Torres, two to Fuller of West Jordan, Utah, and called three even.

Torres weighed 161 pounds; Fuller, 158.

Ex-middweight champion Gene Fuller, 32-year-old brother of 22-year-old Don, was in Don's corner Wednesday night along with their manager Marv Jensen.

A NEW POLISH job on the cracked old crystal ball, a quick rub of the rabbit's foot, a dust job on the ouija board and the Oil Swami is back in business with this week's predictions.

The Experts are fairly unanimous this week, with the Lefors-Gruver, Wheeler-McLean and Texas - Oklahoma games the big bones of contention. The Swami sticks with Mobeetie and Houston against the crowd. Otis Holladay sticks his neck out on West Texas, SMU and Notre Dame, Brownie Smith on Abilene, Eural Ramsey on Texas Tech and Ray Harnsey plays it safe all the way.

WHITE DEER 14, PANHANDLE 0. The Bucks are coming steadily up, and playing a team their own size for a change.

CLAUDE 20, MIAMI 12. Hate to pick it this way, but Claude is just too tough. Warriors could surprise all of us, though.

SUNRAY 22, CANADIAN 18. Johnny Johnson is too much.

LEFORS 21, GRUVER 16. With their injured healthy, the Pirates "is tough bodies."

WHEELER 8, McLEAN 7. Definitely the area game of the week. One of the finest B teams ever to come out of the Top O' Texas and a damned good A team. Give Wheeler the edge on so many speedy backs.

MOBEETIE 18, LAKEVIEW 12. Mobeetie beat the Eagles once before this season, that's good enough for me.

TASCOSA 16, MONTEREY 14. This one will be rough.

BORGER 28, AMARILLO 0. It couldn't happen to a nicer team.

LUBBOCK 21, PALO DURO 14. Will be close.

MIDLAND 28, ABILENE 14. A rugged battle.

OKLAHOMA 28, TEXAS 21. Could go either way, but there'll be lots of scoring!

ARIZONA STATE 28, WEST TEXAS 20. No Pistol, no shooting.

HOUSTON 21, TEXAS A&M 14. If Eural can luck out with his Raiders, I've gotta get one with my Cougars!

NAVY 21, SMU 7. Jolly Roger rides again!

TCU 14, TEXAS TECH 10. I dunno, Tech is going crazy. They're up and down, this figures to be a down week.

ARKANSAS 26, BAYLOR 14. Hogs move on toward Texas.

RICE 21, STANFORD 14. Owls come hooping back.

LSU 20, MIAMI 14. What happened to Mira this year?

MEMPHIS STATE 35, NORTH TEXAS 6. MS is tough!

SOUTHERN CAL 21, NOTRE DAME 6. A traditional, anything could happen, but USC figures too strong.

★ ★ ★

AND NOW FOR THE BIG ONE. The Harvesters would have taken it anyway, but after the Caprock coach saying—that we weren't as tough as Lubbock or Borger, he should learn to the tune of... PAMPA 21, CAPROCK 0.

★ ★ ★

FIRST SUGGESTION for a nickname for Lewis Meers comes from Ted Everhart, who suggests "Snipe" because Lewis is a little guy. Look who's talking! Don't forget to write in your suggestion for a new name for Lewis. Incidentally, speaking of letters, one was dropped in the old News-Mobile while parked outside the PHS fieldhouse. The letter, a slightly indecipherable one about Harvester spirit, was very interesting. However, it was unsigned. News policy prohibits the printing of unsigned letters, so if the writer will drop down to the office and scratch his or her John Hancock on it, it will be commented on.

★ ★ ★

AND NOW, "Always Wrong" Shipman, the Wichita Kid, brings you his guaranteed (to be incorrect) selections for the week:

BORGER 21, AMARILLO 0. . . Seems that I missed the quota for the Sandies this year, but a two games is about their limit.

OKLAHOMA 28, TEXAS 7. . . The Longhorns will find this year that the Big Red of days gone by has returned, regardless of the OU grad coaching at UT.

TEXAS A&M 14, HOUSTON 8. . . A close, hard-fought ballgame, but feel that the Aggies will be looking for a win after being upset by the Tech Raiders last week.

TECH 16, TCU 14. . . Feel that the Raiders will pull another upset and TCU is famous for losing the games they should win, gotta go with the Raiders.

PAMPA 21, CAPROCK 14. . . Both teams will be seeking their first win of the season which could prove to be a real "head-buster".

BAYLOR 14, ARKANSAS 8. . . Have a funny feeling that this may be the week for upsets. After the display that the Hogs made last week the Bears just might pull this one out. Going with the upset.

★ ★ ★

To the Pampa Harvester football team: Don't forget, the Caprock Longhorns don't think YOU ARE TOUGH!

- DALLAS (UPI)—The United Press International Top 10 rated Texas schoolboy football teams (with win-loss and scoring records and this week's schedule):
- CLASS AAAA
- 1—Midland High (3-0, 122-28) at Abilene High (2-1).
 - 2—San Antonio Brackenridge (3-0, 133-40) at Kingville (3-1).
 - 3—Pasadena (2-2, 59-56) at Houston Smiley (2-1).
 - 4—Spring Branch (2-0-1, 47-14) vs. Victoria (3-1).
 - 5—Borger (3-1, 110-16) at Amarillo High (2-2).
 - 6—San Angelo (3-1, 63-38) vs. Odessa Permian (2-1).
 - 7—Galena Park (4-0, 49-0) at Houston S. F. Austin (3-1).
 - 8—Port Arthur (2-2, 46-20) vs. Corpus Christi Ray (2-2).
 - 9—Dallas South Oak Cliff (4-0, 79-23) vs. Dallas Wilson (2-2).
 - 10—San Antonio Highlands (4-0, 138-33) vs. San Antonio Edison (2-1).
- CLASS AAA
- 1—Dumas (4-0, 75-22) idle.
 - 2—Corsicana (4-0, 105-21) idle.
 - 3—Graham (3-0, 88-8) vs. Vernon (2-1).
 - 4—La Marque (4-0, 119 - 20) at Clear Creek (2-2).
 - 5—Nederland (3-1-1, 83-34) idle.
 - 6—Orange (2-1-1, 38-38) at Port Neches (2-2).
 - 7—South San Antonio (4-0, 92-36) at Harlingen (1-2-1).
 - 8—Bay City (3-1, 65-13) idle.
 - 9—Austin Lanier (4-0, 128-14) idle.
 - 10—Parr-San Juan-Alamo (2-0-2, 69-4) at Mission (2-2-1).
- CLASS AA
- 1—Denver City (4-1, 118-40) idle.
 - 2—Dalhart (3-0, 189-20) vs. Tucuman, N. M.
 - 3—Sinton (4-0-1, 106-26) vs. Kenedy (1-2-2).
 - 4—Katy (3-0, 164-50) idle.
 - 5—Rockdale (3-0, 102-21) idle.
 - 6—Hamlin (4-0, 137-44) at Post (4-1).
 - 7—Haltom (4-0, 92-21) vs. Snyder (2-2).
 - 8—Nocona (3-0, 174-33) at Waskatchie (2-2).
 - 9—Oster (3-0, 104-30) at Childress (3-2).
 - 10—Plano (3-0, 127-16) idle.
- CLASS A
- 1—Albany (4-1, 124-37) idle.
 - 2—Rosebud (4-0, 161-8) at Franklin (2-2).
 - 3—Seagraves (4-0, 130-41) idle.
 - 4—Goldsmith (3-0, 135-31) at Copperas Cove (4-1).
 - 5—Juli-Daisetta (3-0, 136-6) at Warren (2-1).
 - 6—Ingleside (3-0, 81-7) vs. Calallen (2-2).
 - 7—Hallsville (3-0, 91-12) at Troup (1-2-1).
 - 8—White Oak (4-0, 129-7) at Hawkins (2-1-2).
 - 9—San Augustine (3-0, 122-28) idle.
 - 10—New London (4-3, 120-31) vs. Judson (2-2-1).

We're proud to announce the most remarkable luxury car of our time...

The Incomparable IMPERIAL for 1964

When we show you our 1964 Imperial, we will do so with understandable pride. For here is not just a new car — it is a whole new idea of what a fine car ought to be. Imperial has the freshest look of luxury you will see this year. It is the most spacious car built in America. It is also the quietest: 154 engineering refinements were made for this purpose alone. We invite you to stop in and inspect our new Imperial carefully. Drive it for a totally new experience. We believe our Incomparable 1964 Imperial should be your next choice in luxury automobiles.

Enter the quiet world of Imperial at your neighborhood Imperial dealership:

Texas Tech, TCU Both Start Sophs

LUBBOCK (Spl) — Texas Tech will start six sophomores — likely to start six sophomores — may find Texas Christian's Horned Frogs have some youthful ideas of their own in the 20th renewal of their rivalry in Jones Stadium here at 7:20 p.m. Saturday.

An opened up offense was hinted at by Coach Abe Martin following the Frogs' initial loss of the season, 13-3 to Arkansas last week.

A decision to go to the air could bring into action Kent Nix, son of the Frogs' great 1911 passer, Emery Nix. Young Nix last fall established a TCU freshman record by hitting 51 of 112 passes.

For that matter, the current 1-2

TCU quarterbacks are passing with just as much authority as Raiders. Gray Mills of Fort Worth is the third-ranked tosser in the Southwest Conference, completing 13 of 38, and Randy Howard of Dawson has failed to connect on only two of his seven passes.

For receivers the Frogs can call on end Tom Magoffin of Fort Worth tied with Tech's Dave Parks of Abilene for the Southwest Conference passing leadership last season, and fleet halfback Jim Fauver of Houston, a definite threat to go all the way.

Even if TCU concentrates on its aerial game, the Raiders won't be able to overlook the Frogs' running attack. In fullback Tommy Crutcher of McKinney TCU has one of the nation's best power runners. Fauver's speed is always a threat, and Larry Bulach of Lamarque is a strong runner.

A pair of sophomore halfbacks, Don Anderson of Stinnett and Billy Weise of Austin, pace the Raider running attack. Sophomore Ben Elledge of Brownwood and junior Jim Ellis of Lubbock are equally effective as passers, their favorite target being a senior, the Raiders' All-America end candidate, Dave Parks of Abilene.

Besides Anderson, Weise, and Elledge, the sophomores likely to start for Texas Tech are tackles John Carrell of Lovington, N.M., and John Porter of Lamesa, fullback Leo Lowery of Lovington.

Both schools are 2-1 for the season. TCU won from Kansas 10-6 and Florida State 13-0 before losing to Texas A&M 10-0.

TCU, a 35-13 winner last year, has a 12-7 margin in the rivalry.

King to Replace Pete at Halfback

CANYON (Spl) — Jerry King, 5-10, 175, Junior West Texas State halfback from Olney, Texas, appears to have fallen heir to the backfield post vacated by the injured "Pistol Pete" Pedro.

Pedro suffered torn ligaments of the left knee last Saturday night during the Buffaloes 38-15 win over North Texas State. Pete was hit at the sideline and left the game after one carry in the second half. The "Flying Fragment" will be out of action for a minimum of two weeks. The Buffaloes will sorely miss Pedro, presently the nation's leading rusher, as West Texas goes against Arizona State at Tempe and Memphis State at Canyon the next two Saturdays.

King has played the role of defensive replacement for Pedro in the Buffs three wins this season. However, Jerry saw considerable action on offense last week and did a fine job. He scored his first collegiate touchdown on a pitchout from quarterback David "Hoot" Gibson on the option play. King has some large shoes to fill, but Coach Kerbel feels confident the Olney speedster will be able to do the job.

Arizona State holds an 11-5 edge in the series with West Texas and is favored to widen the margin this year. Off to a slow start, the Sun Devils showed off their fantastic speed last week in crushing Colorado State 56-7. The speedsters from the Sun State scored 6 times from over 50 yards out.

Add a strong passing attack to the Devils speed on the ground and you find one of the nation's most potent scoring weapons. Arizona State averaged 30.4 points a game in 1962 to rank second nationally to Wisconsin's 31.7 average. Quarterbacks John Jacobs and John Torok supply the aerial fireworks for ASU. With such targets as ends Hermon Harrison and Alonzo Hill, backs Charley Taylor, Tony Lorrick, Gene Foster and Henry Carr to throw at, the Devils passing game alone could break open any contest.

Aside from Pedro, the West Texas starting line up will be the same that has started the last two contests. Coach Kerbel is pleased with the progress of the Buffs this season and hopes his starting unit can do the necessary job against Arizona State.

Ladies PGA Opens Today

LAS VEGAS, Nev. (UPI) — Professional female divot-diggers take their first shots today in the start of the \$15,000 72-hole Ladies National PGA golf championship and Mickey Wright — as usual — is favored in the field of 49.

If Mickey's right — and she appears to be — she should be favored to win back the title which Judy Kimball of Sioux City, Iowa, snatched from her last year.

Miss Wright had won the three previous years.

The girls warmed up Wednesday in a unique pro-amateur event at the Stardust Golf Club where par is 35-36-71.

Winner of the handicap event which paired a woman pro with two women amateurs and one man was a team led by Clifford Ann Creed, Alexandria, La., who won \$400. The veteran Louise Suggs nabbed \$200 in second-place money and third place went to a team headed by Sandra McClinton, Seguin, Tex., who picked up \$150.

Miss Wright finished in a tie for fourth place with Ruth Jensen, Bonsall, Calif., and each won \$75.

SWC Round-up

By United Press International

Perennially pessimistic Frank Broyles, coach of the Arkansas Razorbacks, Wednesday took on one of his rare optimistic moods and said his Southwest Conference Hogs looked "better" in practice.

Broyles said the Razorbacks were adjusting better to defenses they will have to use against Baylor's "wide-open" and pro-type offense this weekend.

The coach was unhappy with the drill Tuesday but said "It's tough on them (the Hogs) making those adjustments because Baylor is the only team we play that runs such an offense."

Baylor trainer Weaver Jordan reported flanker Lawrence Elkins and tackle Johnny Jessup would be doubtful starters for the Arkansas game. Jessup did not work out and Elkins was held back in hopes he would be in shape for the game.

Fry Gets Good News

Coach Hayden Fry of Southern Methodist got some good news in learning injured sophomores Mac White and Jimmy Taylor would be available for the Mustangs' battle with Navy Friday night.

Meanwhile, the Navy team and Rear Adm. Charles C. Kirkpatrick, superintendent of the Naval Academy were scheduled to arrive today for final workouts before the Cotton Bowl game.

Rice University also had some good news regarding injuries. End Jerry Kelly's injured knee is expected to be healed in time for the Owl's game with Stanford Saturday and guard Bill Walker's sprained ankle should also be all right by then, Coach Jess Neely said.

Darrell Royal's Texas Longhorns practiced defensive and offensive patterns as they readied for their annual clash with Oklahoma Saturday in the Cotton Bowl.

Royal Still Gloomy

Royal was still dejected about the loss of end Sandy Sands, who re-injured a broken foot Tuesday, and fullback Ernie Koy, who underwent an operation for a shoulder separation.

Texas A&M stressed offense and defense tactics as they readied for its home opener with the University of Houston Saturday night. Travis Reagan, a senior halfback who hurt his shoulder in the Texas Tech game last weekend, should be ready for the Cougars, Coach Hank Foldberg said.

Texas Tech Coach J. T. King praised the Red Raiders' physical condition and specifically cited the play of quarterback James Ellis and halfback Roger Gill in a practice session.

The Red Raiders meet Texas Christian Saturday night at Lubbock.

Coach Abe Martin tapered off on drills at TCU in Fort Worth.

PLACED ON WAIVERS

DETROIT (UPI) — Veteran Walter Dukes, one of the tallest players in the National Basketball Association, has been placed on the waiver list by the Detroit Pistons.

Dukes, a 7-footer from Seton Hall, was the last remaining player who was with the club in its first campaign as Detroit representative in the NBA in the 1957-58 season.

Canadian 'Cats Take On Sunray

CANADIAN (Spl) — Out of the frying pan and into the fire... that's the story of the Canadian Wildcats.

Starting out raw, inexperienced and winless, the Cats battled their way to a tie in their second game and a hard-earned win over Panhandle last week... only to run head-on into Johnny Johnson and the mighty Sunray Bobcats Friday night.

Second-ranked Class A club in the Panhandle, the Cats have taken three wins and lost only to unbeaten Stinnett, 25-8. Their latest coup was a 28-14 upset over a strong Texhoma team, they nipped powerful Spearman, 14-12, and rolled over Boys Ranch, 46-14.

Johnson, along with John Mark Worst, was the key to Sunray's state quarter-final berth as the 160-pound (now 170) halfback scored 252 points, rushed for 120 yards and caught 52 passes for over 2,000 more yards. Jaunting Johnny has proved equally potent this year, as he has tallied 52 of Sunray's 95 points.

Quarterback Larry McRae was figured to have to go a long way to match the incomparable John Mark, but according to Canadian coach Dwain Currie, he has, "Our scouts report he's looked as good as Worst," said Currie. McRae has passed for five touchdowns to date, with high points being 211 aerial yards against Stinnett and 155 against BR.

In addition to the 170-pound Johnson and the 160-pound McRae, the big Bobcat backfield has David Hayes, 180, and Freddie Morgan, 165. The veteran Cat line is bolstered by 210-pound left tackle Delbert Thomas.

"Sunray is a really fine team," admitted Currie, "but our kids are really up. They needed that win last week and it's done a lot for them. Ferocious Frank Robbins, our 280-pound tackle, has expressed a definite desire to get his hands on Johnson a few times and see how he'll do after that... the rest of the line feels the same way... but, how do you get through to him? And, if we can stop Johnson, can we stop McRae too?"

"The kids are working hard for this though, they've jelled, they've won a game and they want to win some more. Illness has hurt us though. David Cook and Tommy Hyatt have both been out with the flu and haven't worked out all week, and Hyatt isn't even back in school yet. Sandy Fiel has been bothered by his ankle again, but I hope he'll play."

"I'm proud of last week's play. Our defense looked like 'eight miles of dirt road,' especially Don Crozier."

"We're up for the game, but we know it's gonna be tough... real tough."

DON CROZIER leads the tackles

Colts-Mets Draft Goes On Today

CINCINNATI, Ohio (UPI) — The New York Mets and Houston Colts, firmly settled at the bottom of the National League after two years, have an opportunity to improve themselves today in a special draft of personnel from the eight other teams.

Four players from each team will be eligible for the draft but under the special rules the Mets and Colts may choose only one of the four unless the other clubs agree. The price on each player is \$30,000.

The special draft was agreed upon during the World Series for the sole purpose of strengthening the two expansion teams. The meeting today was scheduled for 2:30 p.m. EDT.

New York, which has finished 10th both years, will choose first, a right they won by a coin toss last Friday.

Neither team is bound to pick a full allotment of players. For example, the Colts could pick one and the Mets seven if they so choose.

Under the rules, the players up for draft must have been on National League rosters prior to Aug. 31.

Texas A&I Ranked 4th In Small Schools

NEW YORK (UPI) — Florida A&M, paced by "world's fastest human," Bob Hayes, was rated the No. 1 small college football team in the nation today by the United Press International board of coaches for the second consecutive week.

However, Northern Illinois, which moved up to second, and third-ranked Delaware received more first-place votes than the Rattlers and cut the Florida team's point lead nearly in half since the preceding week.

Tennessee Tech led the "second 10" in 11th spot, followed by East Central Oklahoma, South Dakota State, Massachusetts, and San Francisco State.

St. John's (Minn.) and Western Kentucky tied for 16th, Central Michigan was 18th and Linfield (Ore.), McNeese State (La.) 19th.

There were no new entries to the top 10, but there was quite a bit of shuffling.

Texas A&I jumped from eighth to fourth and drew five first-place ballots.

Montana State moved from sixth to fifth, San Diego State, from seventh to sixth and Wittenberg, from a ninth place tie to seventh. Lenoir Rhyne, the only team in the top 10 beaten last weekend, fell from fourth to eighth. Central Oklahoma dropped four notches to ninth and East Carolina slipped from a nine-place tie to 10th.

Bud To Run?

NORMAN, Okla. (UPI) — Oklahoma football coach Bud Wilkinson has refused to confirm or deny a copyrighted newspaper story that he will retire Jan. 1 and seek the Republican nomination for the U.S. Senate.

A newsman asked: "Why don't you just say you will not be a candidate and squelch all these rumors?"

"That," Wilkinson said, "is like saying, 'are you going to leave Oklahoma, or have you stopped beating your wife?' I've been answering rumors like this for 10 years."

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Entered as second class matter under the act of March 9, 1878.

One Out Of 112

About four years ago, some students from Princeton University wrote up a petition requesting signatures. Within the petition they embodied some of the phrases of the Declaration of Independence. Among those phrases appears this one:

"But, when a long train of abuses and usurpations pursuing invariably the same object, evinces a design to reduce them under absolute despotism, they have a right, they have a duty, to throw off that government and to institute new guards for their future security."

Taking this petition out for signatures, the adventuring students soon found themselves in serious difficulties. Some folks refused to talk to them at all and slammed doors in their faces. Some quickly accused them of being communists and subversives. Finally, the police were called and the students found themselves booked for engaging in un-American activities.

Yet the petition they had sought to circulate was entirely harmless and simply embodied the wording from what we consider to be America's greatest document.

Now, we have received a report which tells us that this same somewhat unique result was obtained this year in Madison, Wisconsin. The local newspaper in Madison sought to test out the same theory.

On last Independence Day a reporter of the newspaper was sent out to solicit signatures to a petition. He interviewed 112 persons, but only one signed. All but one shied away from the inflammatory document, most of them branding it subversive.

One paragraph in the petition said, "That whenever any form of government becomes destructive of these ends it is the right of the people to alter or abolish it, and to institute new government, laying its foundation on such principles, and organizing its powers

Within

Some people spend a lot of time looking for a "creative" job, not realizing that creativity is in the person and not in the chores he performs for a paycheck.

Problems: Minor and Major

Man, by his nature, is a decision-making creature. He observes, determines and chooses at every conscious moment. By his nature, man is a free being, equipped by his own intelligence to draw his own conclusions and to act on them.

From this condition of nature there have always emerged two problems. One of them is minor, the other, major.

There are a few men whose intelligence or whose training is deficient. Always this has been true, and predictably it always will be true.

Thus, while nature endows them with the same latitude in making decisions as it does those who have more plentiful cognition or more adequate training, their decisions can, at times, inflict a burden on others who are intent on harming no one.

This is the minor problem. The actual number of persons who fall below an entirely acceptable mean, is small. That is true to day, even with increases in crime being noted. Out of a total population of more than 180 million persons, fewer than five per cent engage in criminal activities. At times, this number has been reduced to as few as one per cent. So far as we can learn it has never reached the five per cent level.

So, this must be that 95 per cent or more of the population of this nation are able and willing to manage their affairs without recourse to actions which are positively harmful to others.

But now we come to the major problem. With less than 5 per cent of the population posing a difficulty, the 95 per cent have concurred in setting up a decision-making agency for the purpose (theoretically) of preventing or of punishing the erring 5 per cent.

In setting up this decision-making agency, the 95 per cent granted a confided power to a group of

in such form as to them shall seem most likely to effect their safety and happiness."

This phrase was roundly condemned by several and one man said outright that it sounded to him like "Russian stuff."

Most of the people simply expressed caution. One man, who revealed that he was in the midst of trying to get clearance for a government job, observed: "If I signed it, I'd be off the job tomorrow."

Back in 1776 there were 56 men who voluntarily affixed their signatures to a document containing both of the phrases quoted above. In 1963 only one man out of 112 asked, agreed to assist by signing just such a proposal.

This is bad enough. But we cannot help but wonder just how many of these same people who turned down this petition would have been Johnny on the spot with their names if a petition had been circulated to increase welfare funds (a socialist scheme), to provide a bond issue for a public school (see Point 10 of the Communist Manifesto), to call for tighter controls over money and credit by the federal government (a communist program).

When Americans do not know the meaning of their country and the importance of individual freedom, but readily go along with every conceivable socialist and communist scheme, then indeed we are in the intellectual doldrums. Worse, when they brand freedom and individualism as "Russian stuff" but willingly join hands with all the socialist fulminators, one wonders how long the last vestiges of freedom will continue to arise like a mist from the noble efforts of our forebears.

The ideal of our founders was that each man was sovereign. No government and no government program was supposed to have ultimate jurisdiction over anyone, for in the final analysis, the Declaration of Independence provides for the contrary.

other men who operate outside the economic framework. But this other group of men, equipped with this confided power, now provides a vast bureaucracy numbering better than 2.5 million persons. And this is many times the number of lawbreakers or anti-social misfits with which we must contend.

The confided power granted to this group for the purpose of restraining the criminally inclined, is so far reaching in its effect that the sums of money taken by this group exceed the losses thru criminality by more than 100-fold. Further, the incursions in the field of decision-making are so vast and complex that this, too, exceeds the extent of criminality.

Thus, it turns out that the minor problem is expanded into a major problem by the very nature of the solution we have sought to provide for ourselves.

As it happens, no one man in this world has quite enough intelligence to properly manage his own affairs at all times. Each of us falls short of the ideal, and in some instances we fall woefully short. But if this is true, and it is self-evident, then it also must follow that the group of arbitrary decision-makers, when it comes to deciding what other people are to do, will act perversely and contrary to nature.

So we have the problem of the minority of misfits augmented by the problem of the far larger minority of willful butkins who try to manage the affairs of others, tho they show no larger skill than average in managing their own affairs.

Surely, in an age when we have found a means of sending a man into space we ought to be able to find a better way of dealing with the unhappy minority of misfits without creating a major problem. It's worth thinking about.

Down South

By THURMAN SENSING
Nashville, Tenn.

President Kennedy's invitation to Marshal Tito, the communist dictator of Yugoslavia, to visit him in Washington and be his guest at the redecorated "Blair House" is a slap in the face of all Americans who have been and are today making sacrifices in the cold war.

Why should Marshal Tito be given the red carpet treatment in this nation's capital? The appeasement-minded inner circles of the New Frontier may want to get in bed with so-called "national communists," but there is absolutely no demand on the part of the American people. Why give the Red Dictator respectability by welcoming him to the White House?

The invitation is a betrayal of freedom's interests in a number of ways. It is, first of all, a tragic betrayal of the people of Yugoslavia who never wanted Tito's dictatorship in the first place. President Kennedy knows his history well enough to know that the Tito regime came to power in Yugoslavia through the might of the Soviet army. True, Tito supposedly had his disagreements with Moscow over the years. But of late he has been moving closer and closer to the Russians. Not long ago he was an honored guest in the Soviet Union; and Khrushchev has just returned from a "bear hug and kisses" welcome in Yugoslavia. Tito is cementing economic ties with the East European bloc. All he wants out of the U.S. is more foreign aid, of which he has already received \$2.4 billion, and more foggy-eyed political moves on our part. He is using our foreign aid now building ships and critical materials for Khrushchev.

When the captive people of Eastern Europe see photographs of President Kennedy smiling at Dictator Tito, they will lose what little hope remains to them. They will feel abandoned by the great nation that has been a guarantor of freedom in years past.

Here at home, the Tito visit undoubtedly will be used to make this bloodthirsty Balkan dictator more palatable to Congress and the people. The Kennedy administration has been sending as much money to Yugoslavia as it is able to do under existing laws. But it also wants Congress to give communist Yugoslavia "most favored nation" status under the trade laws. Incredible as this may seem to many citizens, it is nonetheless true.

Nor are anti-communists in Europe and America the only staunch people who are betrayed by this visit. What is one to make of it in terms of recent New Frontier actions in South Vietnam? At the very moment when the anti-communist cause was going well on the battlefields of the Asian country, a great hullabaloo sprang up about South Vietnam's government allegedly persecuting Buddhists. It was a very strange coincidence to say the least and reminds one of the artfully-concoived campaigns launched against Chiang Kai-shek of China at the end of World War II and against the Batista government in the late 1950s. There is evidence that the real aim of the current propaganda campaign against the Ngo Dinh Diem government is to supplant it with a pro-communist regime precisely as Castro supplanted Batista.

The more one examines the astonishing policies of the Kennedy administration the more one must be convinced that the New Frontier's chief enemies are anti-communist governments. When you come down to the realities, the governments that are being criticized by the Kennedy administration are the anti-communist governments—Portugal, France, South Viet Nam and the rest. The governments the New Frontiersmen aren't bothering or want to actively help are the pro-communist governments. Which side is the New Frontier on, anyway?

The communists have friends in Washington these days, wherever the anti-communists do not. The gift-edged invitation to communist Dictator Tito is evidence of the ideological outlook of the Kennedy administration.

It is tragic developments of this nature that the American people must consider in the 13 months that remain before they go to the polls to choose the nation's path for the future. In this period, the anti-communist citizens of this country must make the issues plain to those who have been taken in by New Frontier hokum.

Allen-Scott Report

Former Senate Friends of Foreign Aid Bills Now Set to Slash Program Further Than House

ROBERT ALLEN

PAUL SCOTT

WASHINGTON—President Kennedy is now on blunt notice that his already deeply slashed foreign aid budget faces further battering in the Senate—despite his urgent pleas.

This foreboding warning has been served on him by the potent Foreign Relations Committee, which is deliberating the \$3.5 billion foreign aid authorization bill passed by the House several months ago. In the past, this Senate committee has been a stronghold of large-scale foreign aid spending.

But this year the story is very different. One-time staunch foreign aid champions now are leading the fight to cut it to the bone.

Foremost among them are Senators Wayne Morse, D-Ore., Stuart Symington, D-Mo., Albert Gore, D-Tenn., and Frank Carlson, R-Kans.

The President is strenuously appealing to the committee to restore all or a big part of the \$1.4 billion House lopped off of his \$4.5 billion foreign aid program. Senator J. William Fulbright, D-Ark., chairman, with six proxies in his pocket, was set to ram this through at a closed-door meeting last week.

This backstage plan was abruptly upset by a stern admonition from Senator Morse.

With icy politeness the militant Oregonian declared the President was being laid open to a stinging public defeat on the Senate floor if Fulbright persisted in voting his six proxies. Morse asserted that such a controversial bill reported out by the committee by a close margin through such a stratagem would boomerang against the White House in the full Senate.

"The immense funds proposed in this measure," said Morse, "do not represent the thinking of the American people. They want foreign aid drastically reduced. There is a major revolt against such spending—and it's growing all the time."

"I would strongly advise that this view be conveyed to the President with the suggestion that he withdraw this legislation for reconsideration and extensive revision. I counsel that because, if he or this committee doesn't do it, it will certainly be done on the Senate floor, I intend to propose a number of cuts and changes myself."

FOR WHOM THE BELL TOLLS
—Morse's bombshell drew immediate backing from Senators Symington, Gore and Carlson.

Chairman Fulbright, thwarted in his effort to speed the bill out of his committee so it could be taken up by the Senate this week, argued that "Foreign aid is necessary for the conduct of our foreign policy."

"Specifically," he asked Morse, "what do you have in mind when you demand this measure be revised?"

"For one thing, our policy in Latin America," replied Morse. "We have failed to stand up against a single military coup

votes on the hotly embattled legislation it consider the various reports made by the General Accounting Office on waste, mismanagement and corruption in the foreign aid program. Morse demanded this and it was agreed on. Over the years, the GAO has made a number of such reports, and Morse insisted they be weighed by the committee before acting on the bill.

Meanwhile on the House side, Representative Otto Passman, D-La., chairman of the Appropriations Subcommittee in charge of the money measure for foreign aid, is set to slash it to a record low of \$2.4 billion.

A long-time foe of large-scale foreign aid spending, Passman has completed closed-door hearings on the legislation and is prepared to report it out as soon as the authorization measure (pending in the Senate) is enacted. That is not likely until later this month.

Passman claims to have the votes in his subcommittee for a \$2.4 billion foreign aid budget. It remains to be seen whether he can make good on that.

Fulbright admitted the Alliance "suffers from lack of expert and sufficient administration." But he contended this is an old problem in the foreign aid program that "we wrestle with every year."

"Then it's about time we do something about it this year," retorted Morse. "I shall offer an amendment barring all aid to countries where constitutionally elected governments are overthrown by coups. I want a record vote on that in this committee before the measure goes to the Senate. That's one of the things that should be told the President before we act on this legislation."

Senator Gore spoke up with another "specific suggestion."

"I propose we write an amendment into this bill," declared the Tennesseean, "ending all military assistance to Latin America. I see no reason why we should be arming forces down there to overthrow elected governments."

Senator Symington thereupon joined in urging cutting off aid to Indonesia.

"It doesn't make sense to give aid to President Sukarno," asserted Symington, "at the same time that he is waging a war against newly-independent Malaysia. Why should we be helping him at the very time he is running amuck? To my way of thinking, there is no difference between his kind of aggressive colonialism and what he has long denounced Western powers for doing."

Senator Frank Church, D-Idaho, offered still another curb.

"While we are advising the President about desirable cuts," he said, "let's do some sharp trimming on aid to President Diem. South Vietnam is one place where a lot of our money appears to be going down a rat-hole. The situation there becomes more confused all the time. When Assistant Defense Secretary (Arthur) Sylvester sent out there a few weeks ago, he seemed to be devoting most of his time to managing the news. He was giving out glowing reports before there were any reports to give out."

BREAKING THE BAD NEWS
In the end, the Foreign Relations Committee decided on two steps:

(1) Fulbright was instructed to send a complete transcript of the highly critical discussion to Foreign Aid Director David Bell. Morse wanted the transcript sent to the President direct. Fulbright pointed out this would be an imposition on the President as he is extremely busy, and proposed instead the transcript go to Bell with the understanding he would give the President a summary of its contents.

(2) That before the committee

Byron Tunnell Appointed Chairman Of the March of Dimes for Texas

Byron Tunnell of Tyler attorney-at-law and speaker of the Texas House of Representatives was appointed as Texas state chairman of the 1964 March of Dimes, according to Basil O'Conner, president of the National Foundation.

Tunnell will direct volunteers during the Jan. 2-31 annual March

of Dimes campaign to raise funds for medical care of those afflicted with birth defects or arthritis and to support research in the cause and cure of these conditions.

He is a graduate of Baylor University, member of the Methodist Church, 32nd degree Mason, and life-time member of the East Texas

Peace Officers Association and the American Legion.

A member of the Smith County Bar Association, Texas Bar Association and the United-States Supreme Court Bar, he is past chairman of the East Texas Delegation representing geographically approximately half of the entire House of Representatives.

Tunnell has served as a member of the Junior Chamber of Commerce, including president, state vice president and was recently made a life time member.

The 1964 March of Dimes campaign will start in January. There are 249 volunteer chapters in Texas involving thousands of workers including "Marching Mothers," service clubs, women's organizations and youth organizations.

"Really few of us realize," Tunnell said, "that every year in our country we have a quarter of a million infants born with serious birth defects. At least 30,000 are still born or die of these defects. To put it another way, this means that one infant of every 16 has a serious defect and that about

every tenth American family experiences the tragedy and suffering caused by the birth of a seriously defective child. Only accidents cause more crippling among children."

Turning to the subject of arthritis, Tunnell added: "Here also the statistics are shocking and breathtaking. Fully 11 million of us suffer from the arthritic diseases. A fourth of these are unable, or are limited in their ability to carry out normal activities. A tenth of the victims of this number one crippler in the nation, or more than a million individuals, are confined to their homes or require help in getting around.

He explained that with public contributions the March of Dimes has established some 70 treatment

centers to give medical care for children with birth defects, for people of all ages stricken with arthritis or polio. He said 15 of these centers also conduct research.

Some of these centers are the Arthritis Center in Southwestern Medical School and Parkland Hospital, Dallas, The Arthritis Clinic, Texas Children's Hospital, and Baylor University College of Medicine, Houston.

Plans are also started for establishment of Birth Defects Treatment Centers and Arthritis Treatment Centers in Texas.
