

# MONEY BILL PASSED BY SENATE

## Tom Boyd, Former State Treasurer of Kansas, Convicted In Bond Scandal

### FACES PRISON TERM OF TWO TO FIVE YEARS

SENTENCE IS DEFERRED UNTIL FEBRUARY 10 BY JUDGE

TOPEKA, Jan. 27 (AP)—Tom Boyd, former state treasurer, was convicted by a district court jury today of illegally removing \$200,000 of bonds from the state vaults last July.

Found guilty on two counts he faces sentence of from two to five years in prison on each.

Judge Oas E. Hungeate announced sentence would be deferred until Feb. 10. The defense gave notice a new trial would be asked.

The 56-year-old defendant, father of six children, showed no emotion as the verdict was read.

Boyd was charged with turning the bonds over to Donald Finney, bond broker and market plunger who perpetrated the million dollar Kansas bogus bond scandal.

Finney now is under sentence of from 31 to 365 years for bond forgery, his father Warren W. Finney, Emporia banker, has been sentenced to prison for embezzlement.

Three banks controlled by the Finneys were closed last year and the scandal resulted in impeachment charges against Attorney General Roland and State Auditor Will J. French.

The state senate acquitted Boydton. French's trial will be resumed next week with a motion before the impeachment court to dismiss the charges.

### CRUTCHFIELD IN INSANITY PLEA BEFORE JUDGE

Defense Is Overruled At Hearing In Amarillo

AMARILLO, Jan. 27 (AP)—A plea of "not guilty because of insanity" was entered by counsel for Frank Crutchfield today at his arraignment for the slaying of Preston G. Burnham, Amarillo police captain, on January 9.

A defense objection to the arraignment on the grounds that Crutchfield had been adjudged insane in 1926, and that the judgment has not been set aside or annulled, was overruled by District Judge Henry S. Bishop.

"The law gives the court the right to ask a defendant if he is guilty or not guilty," said Judge S. Bishop Crutchfield, however, refused to answer the question, and Simpson pleaded for him.

No date was set for the trial. Defense counsel said it would have to be delayed long enough for him to take oral depositions at Rochester, Minn., and Philadelphia.

Crutchfield was returned to jail.

### Senate Confirms Appointment Of Splawn of Texas

WASHINGTON, Jan. 27 (AP)—The senate today confirmed the nomination of Walter M. W. Splawn of Texas as a member of the interstate commerce commission.

### THREE GUESSES

(See ANSWERS, Page 2)

### Gets Slapped

—Wirsching Photo.

### Tango Queen

—Wirsching Photo.

Two of the leading actors in "He Who Gets Slapped," Little Theater play to be presented Thursday and Friday nights at the city auditorium, are Reg Farless, upper, who will play the role of "HE," a disfigured gentleman turned clown, and Miss Louella Wade, lower, who will be Consuelo, trusting, naive, bareback tango queen. The drama enacts a tragedy of a French circus. All the action takes place in a room adjoining the sidewalk cafe. There will be no change of scenery in the four acts. Mrs. Earl Powell is directing the play.

### John Haggard Is Candidate For Commissioner

John Haggard, commissioner of precinct No. 2, has authorized THE NEWS to announce today his candidacy for the office for a second term subject to the action of the Democratic primary July 28.

### W. S. Baxter Is Candidate For District Clerk

W. S. Baxter, local justice of the peace, has authorized THE NEWS to announce his candidacy for the office of district clerk, subject to the action of the Democratic primary of July 28.

## ROOSEVELT ASKS FUNDS TO CONTINUE RELIEF PROGRAM

### MORE WANTED NOW THAN IN INITIAL PLANS

PRESIDENT INTENDS TO ABOLISH CWA BY LATE SPRING

WASHINGTON, Jan. 27 (AP)—President Roosevelt asked congress to continue the emergency relief program.

That was \$100,000,000 more than the \$500,000,000 for direct relief and \$350,000,000 for civil works the president originally contemplated asking.

His terse message to Speaker Rainey did not specify what division was contemplated.

Speculation as to whether the increased figure was Mr. Roosevelt's answer to the nation-wide cry against demobilization of the civil works army by May 1 at the latest brought a repetition at the White House of the president's statement that he still wants civil works employees transferred to public works and private industry's payrolls by late spring.

The president, by his message, however, would be free to continue the program beyond the deadline he wants, and Rainey said today that civil works would have to continue at least the rest of the fiscal year.

Meanwhile, as a part of his intensive drive to keep civil works free from graft and politics, Harry L. Hopkins, the administrator, today ordered all state administrators to make their records available for public inspection.

"I want to make it perfectly clear that all civil works payrolls and records of purchase of supplies are public records and therefore open to inspection," Hopkins telegraphed to all state administrators.

The administrator's move followed by a day his order placing army engineers in charge of civil works in Chicago and Los Angeles. Charges of politics in CWA have come from Los Angeles but no hints of such have reached here from Chicago.

### J. V. New Enters Race For Gray County Clerk

J. V. New, a Pampa resident for several years, has authorized THE NEWS to make the following announcement of his candidacy for the office of county clerk, subject to the action of the democratic primary July 28.

"I was born and reared in Bosque county, Texas, and have spent the 39 years of my life in this state, the last 8 in Pampa. My business training and experience in serving the public qualifies me to give you the kind of service required of the office I seek."

"Believing in the old democratic principle of rotation of office holders, I am asking the consideration of the voters at the democratic primary."

"I am nominated and elected to this office I assure you that I will give my full time and best efforts to the serving of the people of this county."

### JUNIOR POLICE MOVEMENT OF KIWANIS CLUB IS SUCCESSFUL

PROGRESS and success of the Junior Police were well illustrated Friday when Pete Post, pioneer of the project in the Kiwanis club activities, presented members from each of the Pampa schools.

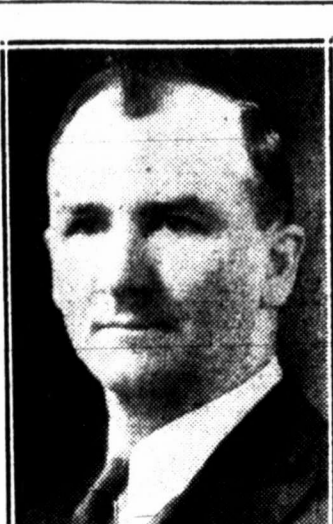

A representative from each school told of the duties of the policemen in and about the school grounds. The movement was started here three years ago by the Kiwanis club, there has not been a serious accident to a school child during school terms.

Mr. Post has completed arrangements for six children from each school to receive a course in first aid treatment.

The famous Kid's band from the Woodrow Wilson school furnished music for the program. They were under the direction of Mrs. Annie Daniels and Mr. Savage.

Visitors besides the children and their directors were: Don Taylor, Clarence Cunningham, D. J. McClellan, Chas. Wooley, and L. N. Atchlog.

### For Clerk

J. V. New, above, has announced his candidacy for the office of county clerk of Gray county.

### BAILEY CLAIMS 'WHISPERS' ARE HURLED AT HIM

Opens His Campaign Against Tom Connally

DALLAS, Jan. 27 (AP)—A campaign of "whispers" which he charged was being conducted against him led Joseph W. Bailey, Jr., congressman-at-large, to launch tonight his campaign against Tom Connally as junior senator of Texas.

"I should hesitate to make any reference to the race if it were not for the fact that my opponent has started his campaign and I am just Irish enough to like the fact which he has precipitated," he told friends in an address prepared for delivery at a banquet in his honor.

"As for me, I intend to deal in no personalities except such as pertinent directly to the duties of office and I do not wish my friends to do so."

Bailey said the campaign of "whispers" came mostly from "appointees who owe their selection to the junior senator" and declared that the job of the man given a place in the senate library at Connally's request was to ferret out information and turn it over to the Texas press "in behalf of his patron."

He also charged that Senator Connally had used his patronage all over Texas for the same purpose of obtaining publicity and cited an example of a man paid by the government to conduct a business survey working, he said, "on publicity for his patron."

Deputy Sheriff A. S. Buford of Memphis, Tenn., searching a house, stopped at a piano, tried to play and discovered a liquor cache inside.

### the Weather

WEST TEXAS: Fair, colder in north portion Sunday; Monday partly cloudy, colder.

### French Cabinet Is Overthrown

Premier Chautemps Resigns Office Amid Wild Rioting Of French Royalists.

PARIS, Jan. 27 (AP)—The center of Paris was a scene of wild turmoil tonight as infuriated royalists rioted against thousands of massed police.

Elaborate precautions had been taken against a repetition of earlier anti-government demonstrations, but the monarchists, shouting invective and swinging chairs, repeatedly charged through lines of mounted and foot officers.

The hours-long battle followed the resignation of Premier Camille Chautemps' cabinet, against whose alleged part in the \$40,000,000 Stavisky pawnshop scandal the royalists have staged frequent demonstrations in recent weeks.

"Down with Chautemps" was the rallying cry of hundreds of rioters who time and again smashed into the ranks of authorities wielding any weapon that came to hand.

Ranks of the Bluecoats were broken as groups of 50 to 100 men struggled throughout the spacious Place de L'Opera and near the Cafe de la Paix.

Magnesium flares were thrown at the mounted officers, whose horses, panic-stricken, reared and plunged.

Up to 9 p. m. the demonstrators had charged four times despite repeated police onslaughts.

Every available policeman was on duty. Firemen and guards aided in the battle. Three blocks of helmeted policemen were stationed around the place.

### McCleskey To Make Race For Commissioner

H. G. McCleskey, commissioner of precinct No. 3, has authorized THE NEWS to announce his candidacy for re-election to that office, subject to the action of the democratic primary. His statement follows:

"Confidence and cooperation on the part of the people of precinct 3 have enabled us to build and maintain an excellent system of lateral roads throughout the precinct, as well as to make material reductions in county indebtedness and operating expense, reduce taxes in spite of declining values, and place Gray county on a balanced financial basis."

As a tax paying citizen and as a member of the commissioners' court, I am proud of the spirit that has brought this condition. I am truly thankful to each and every one of you for your splendid cooperation and confidence and if re-elected, I will continue to give you my best efforts to further the cause.

### ROADS ARE TOPIC

Gray county roads were discussed by a delegation of good road enthusiasts of Pampa with W. J. Van London, highway engineer, in Amarillo yesterday morning. Those making the trip were B. W. Rose, chairman of the Board of City Development highway committee, George Briggs, Bob Fuller, and Roy Bourland.

### Plaintiff Given \$500 Damages In Slander Action

DAMAGES of \$500 was awarded Miss Louise Pearce in her slander suit against Mrs. P. A. Worley.

The jury in 31st district court returned its verdict at 5:45 p. m. Saturday after taking the case at 8:30 p. m. Friday at the close of a torrid oratorical battle of attorneys.

The jury found that Mrs. Worley made a statement about the plaintiff approximately as charged in the latter's petition, and that the statement was false. It also found that the statement was made with intent of malice and without intention of doing the plaintiff. The defense at no time attempted any attack upon the character or reputation of Miss Pearce.

The plaintiff had asked \$25,000 actual damages plus exemplary damages.

### Factor Denies Plot To Stop Deportation

KIDNAP VICTIM STICKS TO IDENTIFICATION CLAIMS

CRIMINAL COURTS BUILDING, CHICAGO, Jan. 27 (AP)—Protected by prosecutors from questions about his own alleged misdeeds, John Factor testified today under cross examination his identification of three Touhy gangsters as the men who kidnaped him for \$70,000 ransom.

But Factor grimly repeated, "I saw them, and I'd know them anywhere, anytime, always."

The three men directly accused by Factor were Touhy, Gustav "Gloomy Gus" Schaefer and Albert "Bully Nose" Katos, gaudily attired and frequently confederated among themselves.

The fourth defendant, Thomas "Father Tom" McFadden, gazed about the courtroom with the serenity of his 60 odd years. Prosecutors have promised to connect him directly with the case next week.

Stewart tried a dozen lines of questioning to bring out that Factor hoped by assisting in the present prosecution he might aid his own legal battle against removal to England to face charges of a \$7,000,000 stock fraud. He also referred to Factor's acquaintance with Murray Humphreys, Sam Hunt, and other Capone gangsters, apparently in trying to prove his contention that Capone leaders instigated the kidnaping charges against the Touhys in order to remove them from racket, gambling, and vice competition.

### Long Lines Of Taxpayers Show Deadline Near

Lines of taxpayers are daily growing longer at local tax collectors' offices.

Congestion, long predicted, will be a fact during the three days remaining before the deadline—which is midnight of Wednesday.

Poll taxes are of greatest interest, they must be paid by midnight of Wednesday to entitle a resident to vote. There can be no extension of time for payment of poll taxes. A total of 2,454 poll taxes had been paid last night.

One extra day is allowed for payment of car licenses. No extension is in sight for these, and officers are in this territory to enforce the statutes requiring all motor vehicles to have 1934 license plates after February 1.

### HUGE CROWD IS CERTAIN FOR PAMPA BIRTHDAY BALL MONDAY

Sponsors of the Pampa birthday ball for the benefit of the Warm Springs Foundation believe that the Pla-Mor will be crowded to capacity Monday night when the event is held from 10 p. m. to 2 a. m.

Ned Bradley's popular Lubbock orchestra will be here to furnish the music. A large number of committees headed by Julian Barrett as general chairman have perfected all arrangements. Tickets are on sale at the Southwestern Public Service company at \$1.75 per couple, or may be bought from the various sales committees or at the door of the auditorium.

Shortly after the dance opens, the voice of President Franklin D. Roosevelt, backer of the campaign against infantile paralysis, will be heard. The broadcast also will include several numbers by famous artists.

With interest in the event aroused all over the nation, it is believed that it will be the "dancing-est" night in American history.

### Cary Is Seeking Second Term As County's Judge

County Judge C. E. Cary today authorized the announcement that he would seek a second term, subject to the will of the Gray county voters in the democratic primary of July 28.

Judge Cary pointed out that he had established his office in the courthouse and has given his attention to all the duties of the office, working in harmony with the county commissioners and with them effecting economies and substantially reducing the county indebtedness.

He added that he had placed his entire time and services at the disposal of the citizens, and had endeavored to base his decisions only on what was best for the county and what at the present time, but in the future, he believes, one that should commend him to the voters for a second term county judge.

### 3 MORE DAYS TO PAY TAX

With interest in the event aroused all over the nation, it is believed that it will be the "dancing-est" night in American history.

### Candidate

W. S. Baxter, above, local justice of the peace, today is announcing his candidacy for district clerk.

### BACKSTAGE IN WASHINGTON

By GILMORE N. NUNN, WASHINGTON, Jan. 27. There's one thing worse than being all dressed up and no place to go—it's having been every place that you wanted to go, only to find yourself incapable of absorbing one-tenth of all you saw!

Ever since I've been in Washington I've wanted to make a trip thru the Reconstruction Finance corporation building, and see its organization "under way."

I got to do just that yesterday afternoon, and now look at me! They're so blamed nice to me, and so detailed in their explanations, and so I feel like Prof Einstein has been explaining the theory of relativity to me. If you see what I mean!

While this isn't the "hour of some public building or place in Washington" that I had intended to take you on today, I believe a brief description of the R. F. C. set-up would be a little more valuable to you at this stage of public affairs than would the history of the Washington monument which I had intended to write about. Who knows, you may want to apply for a loan? And just in case you do, maybe this tip will be a time and energy saver—getting a loan out of the R. F. C. without proper security is just about as easy as getting the middle slab of marble out of the monument!

You can't imagine all the red-tape an application for a loan goes thru even after it gets here to Washington. Of course, as you know, the

Clem Followell of Amarillo is visiting in Pampa this week-end.

(Continued on Page 6)

### CHANGES NOT APPROVED BY FOR REJECTED

SILVER AMENDMENT DEFEATED BY VOTE OF 45 TO 43

WASHINGTON, Jan. 27 (AP)—Approval by both house and senate, President Roosevelt's money bill tonight lacked only the final formalities of enactment, before it could give the chief executive power to devalue the dollar and put \$2,000,000,000 to the test of protecting the foreign value of the nation's currency.

On Monday it will be brought in the house for consideration and probably quick acceptance and acceptance of amendments attached by the senate limiting the effectiveness of the measure to three years, and making several minor changes. Then it will be sent to the White House for Mr. Roosevelt's signature—and action.

Passage by the senate came after administration forces had beaten back a determined challenge from the opponents of remonetized silver by the breath-taking margin of two votes. The vote was 45 to 43.

Wavering democrats were swept into line just before the roll-call by a statement from their floor leader, Robinson of Arkansas, that the pending amendment—to direct government purchase of \$750,000,000 worth of silver and the issuance of currency against it—was in conflict with the plans of President Roosevelt.

A little later, without administration opposition an amendment by Senator Pittman (D., Nev.) was accepted authorizing the president to issue, in his discretion, currency against silver bought from domestic miners, held in the treasury.

The only other amendment of any importance was that limiting the measure's life to three years. It was placed in the bill without objection from the administration. The Roosevelt forces defeated an effort to put the \$2,000,000,000 stabilization fund in the charge of a board.

The vote on final passage was 68 to 32.

Specifically the bill contains the following provisions:

The treasury is given title to all the nation's monetary gold stock, including \$3,500,000,000 held by the Federal Reserve banks.

The president is authorized to revalue the dollar at 50 to 60 percent of its present statutory gold equivalent.

Coinage of gold is declared at an end. The metal is to be held in bullion form in the treasury as backing for paper currency.

The \$2,000,000,000 stabilization fund is created out of the increased value of the gold accruing as a result of devaluation of the dollar. It is placed in the sole charge of the secretary of the treasury and he is given authority to expend it in virtually any transactions he may deem necessary for stabilizing the dollar abroad.

### Cary Is Seeking Second Term As County's Judge

County Judge C. E. Cary today authorized the announcement that he would seek a second term, subject to the will of the Gray county voters in the democratic primary of July 28.

Judge Cary pointed out that he had established his office in the courthouse and has given his attention to all the duties of the office, working in harmony with the county commissioners and with them effecting economies and substantially reducing the county indebtedness.

He added that he had placed his entire time and services at the disposal of the citizens, and had endeavored to base his decisions only on what was best for the county and what at the present time, but in the future, he believes, one that should commend him to the voters for a second term county judge.

With interest in the event aroused all over the nation, it is believed that it will be the "dancing-est" night in American history.

# WESTERS DOWN PLAINVIEW QUINTET 30 TO 23 IN SPECTACULAR BATTLE

## BOGGS FIVE DROPS 20 TO 13 GAME HERE

### HARVESTERS MAKE 15 POINTS IN FIRST HALF OF TILT

Shooting baskets from all angles and playing with a speed that fairly dazzled the crowd, the Pampa Harvesters and the Plainview quintet put on one of the most exciting games of the season at the high school gymnasium last night. Oh, yes, the score—Pampa 20, Plainview 13.

The two teams played deadly ball. They broke like cyclones, and the ball shot in and out and near. The ball handling was the best seen here since the invasion of the Athens Hornets.

The Mitchelmen looked more like the team that started the season than the boys who were made possible by flashy and accurate passing.

Orville Heiskell played his best game of the season. Although he only looped one field goal, his passing and guarding stood out. Captain Miles Marbaugh looped some nice baskets and passed accurately. Dunaway and Woodward teamed nicely to work the ball to Green during the time while Heiskell formed a screen.

Marbaugh followed Green in scoring with seven points. Dunaway looped two field goals and Heiskell added the other counters. Marbaugh, Plainview's huge center, was the spark of the Bulldog attack. He looped six of the prettiest field goals of the game for 12 points. Ray, a guard, scored six points and his teammate Leon Lowry, looped five counters. The Plainview forwards were bottled all night and failed to register.

The distance shooting of Leon Lowry gave the fans the jitters in the first quarter when he looped the ball from back of the black stripe without touching the hoop. Ray duplicated the feat a minute later and Marbaugh added another thriller. Marbaugh and Dunaway did the only long shooting of the Harvesters.

Like champions the first half ended badly toward the end of the game, the Pampa Harvesters maintained their early lead to defeat the Lubbock Westerners 20 to 13.

The Harvesters had a 15 to 6 lead at the half. Heiskell located the basket only twice in the closing half.

The boys combined nicely at the opening of the encounter and Coach Orville Mitchell thought he was seeing his team clicking the way it did before Pinnell was lost. His joy, however, was short-lived. The boys became ragged, passing wildly and shooting inaccurately.

Green and Marbaugh put the Harvesters in front with field goals. Both missed for free throws and the parade was on. The Westerners were unable to match the Harvesters' speed and their offensive attempts were weak.

Green was high point scorer with four field goals and two free throws. Captain Miles Marbaugh followed with three field goals and a charity. Heiskell got a nice loop and Dunaway added the other point. The Westerners' guarding was strong. The minutes looking better than usual.

Lowry substitute Lubbock forward went into the game at the half and made two field goals and a free throw to be high scorer for the Westerners. Patterson followed with two field goals. The Westerners combined nicely at times, particularly in the last half, and had the leads reversed.

## Bowling Scores

The Mack and Paul Barber shop Lefthanders won two out of three games from the Kiwanis "B" team and the Lanes' Store team took two out of three from the Texas company in City league bowling games Friday night. Only one game of more than 200 pins was rolled and it went to Frank Carter of the clubmen with 218 pins.

Lefthanders—

Mentzel	157	163	155
Brown	157	164	181
McWright	193	190	184
Osman	168	142	148
Barnett	140	153	158
Total	815	812	826

Kiwanis—

Long	147	199	137
Howard	122	136	162

Lane	176	146	167
Total	800	765	874

## KOPECKY WILL MEET ROB ROY MONDAY NIGHT

### OTIS CLINGMAN WILL GRAPPLE MORMON IN MATCH

The Pla-Mor auditorium will not be the scene of a tea party tomorrow night when Joe Kopecky, king of the cotton pickers from Taylor, meets the pride of Goodnight, Rob Roy, in a finish wrestling match. The match may finish suddenly, according to Commissioner Frank Hunt, who says he will read the riot act to the maulers before hostilities begin.

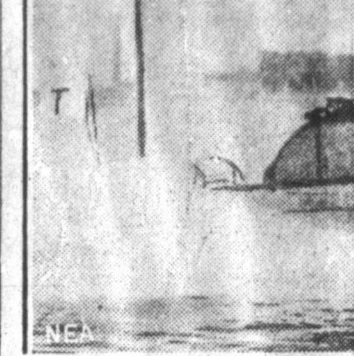

Kopecky doesn't think much of the youngster and Roy has no love at all for the cotton picker. Fans expect Kopecky to start fireworks at the opening and get rid of the upstart who dares to take a crack at his throne. Roy has been meeting some mighty good boys in the last year, so the great Kopecky is scheduled to have his hands full.

The semi-final should be a second main event. Sailor Otis Clingman will meet the Mormon sensation, Dorry Detton, in a 30-minute time limit affair. Detton, graduate of Utah university, is a believer in the Mormon faith. His wife is also a Mormon and she believes that if Detton wants more than one wife it is his prerogative. So far Detton has "stuck" to one wife. He is said to be one of the fastest and most graceful grapplers in the game.

Clingman will come to Pampa fresh from a victory over the great Kopecky. Clingman won two out of three falls from the cotton picker in Amarillo Thursday night. Clingman and Detton should give a wonderful exhibition of scientific wrestling.

The card will open at 8:15 o'clock with Charlie Heard, San Antonio, meeting Howard Belcher in a time limit affair. The same popular prices will prevail.

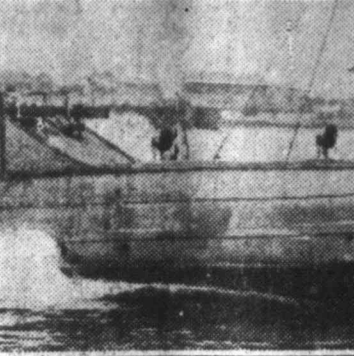

## England's Midget Built To Attack Battleships

A mighty midget that Great Britain depends upon to strengthen her traditional rule of the waves is a new 50-foot craft which you see skimming along at high speed in a recent test.

Built to attack submarines, aircraft and any type of surface warships, the boat carries two torpedoes, two small anti-aircraft guns, four depth charges, smoke screen apparatus and a wireless telephone cabinet which keeps it in conversational touch with other ships and aircraft within a radius of 50 miles. The boat, which requires a crew of only five, is capable of a speed of 40 knots an hour.

## DODGERS MARK CHAMPIONS AS THEIR VICTIMS

"Beat the Giants," Manager Max Cary and Business Manager Bob Quinn will tell their hired hands. "Beat everybody else if possible, but be sure to beat the Giants."

The rivalry between these metropolitan district teams is old stuff, but it will be intensified this summer, and all because Bill Terry cracked wise.

Cracked wise asked the Giants' manager the other day what he thought of the Dodgers.

"The Dodgers," Bill replied, "are they still in the league?"

Bill may live to regret that remark. It made the veteran Quinn fighting mad. It may make the Dodgers mad, too, mad enough to regain their old mastery over the Giants, no matter what the relative position of the two clubs in the standings.

If it did nothing else, however, Terry's remark served to call attention to the fact that the Dodgers seem to have added little strength to the club that finished a bad sixth last season. They have furnished none of the newspaper headlines during the off season, made no trades.

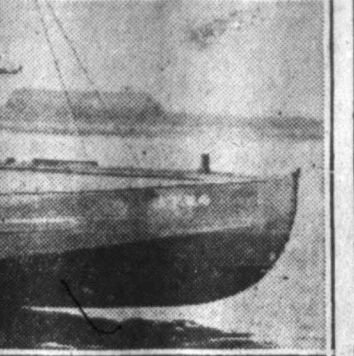

Quinn is convinced, however, the Dodgers will be a much better team than they were a year ago.

"We have tried to make trades," Bob says, "but the demands made upon us were all out of proportion. Somehow, a trade no longer is considered as such unless it involves exchanges between two major league clubs. Has the development of young players ceased to interest the public?"

Quinn thinks Brooklyn picked a number of rookies who will make the grade in a big way, among them Jim Bucher, second baseman from Columbus, and such young pitchers as Leslie Munns, Phil Page, and Charley Perkins.

If the pitching staff, headed by Van Mungo, Walter Beck, Ray Berge, and Owen Carroll, improves over its showing last year, the Dodgers will have only one glaring weakness—the outfield. Shortstop, too, may cause trouble unless one of the rookies comes through. But the fly-chasing department, with Johnny Frederick, Hack Wilson, Danny Taylor, and Ralph Boyle as the leading candidates, will be Max Carey's chief worry.

## PAMPA CAGERS TO MAKE TRIP DURING WEEK

The sport menu for this week includes wrestling, two basketball games at home, and two away from home. It has not been definitely announced whether there will be a fight.

The third conference basketball game of the season will be played here Tuesday night when the McLean Tigers and the McLean girls team come here for return games. Both Pampa teams won close victories in McLean Thursday night. Two LeFors teams will be here for the last conference games of the season Thursday night.

The Harvesters will be in Lubbock Friday night, and in Plainview Saturday night. The games this week will close the competitive season excepting for play-off and exhibition tilts. The winner in this county will meet the winner in Armstrong county soon.

Wrestling at the Pla-Mor auditorium will bring Kopecky to meet Rob Roy in the main event. Sailor Otis Clingman will wrestle Dorry Detton in the semi-final.

## This Time Ryan Is Welcomed By Giant Offices

NEW YORK, Jan. 27. (AP)—A year ago the New York Giants, hanging most of their pennant hopes upon the ability of Travis Jackson to stave a come-back at shortstop, virtually rebuffed a young man who was persistently trying to enter the club's offices unidentified.

"I'm Ryan," he repeated, "you know, the shortstop you bought from Buffalo. I thought as long as I was in town I'd bring my contract along."

Today, there was a ceremonial welcome for John Collins (Blondy) Ryan at the Giants' headquarters as he delivered in person his 1934 contract, calling for a substantial increase in salary. The policeman's son from Lynn, Mass., who became the Sparkplug shortstop of the world champions and one of the most talked about ball players of last year, was effusively greeted by one and all, including Bill Terry.

"That's the only time my autograph is worth money to me," smiled Ryan as he handed the signed document to secretary Jim Tierney. "I almost got a cramp in my right hand signing baseball and dinner programs this winter."

Ryan, only 26 years old and not long out of Holy Cross, was a sensation in his first full year as a major leaguer. He not only plugged the hole at shortstop left by Jackson but had much to do with instilling the Giants with a conviction they could win the pennant.

night when he meets Tony Herrera, El Paso junior welterweight, in the most promising fight attraction brought here since the legalization of boxing in Texas.

## RAJAH SEEMS HEADING FOR GOOD SEASON

### PLANS TO SNATCH HIS ST. LOUIS BROWNS OUT OF CELLAR

CHICAGO, Jan. 27. (AP)—Roy Hornsby has added still another intriguing chapter to his story book romance in baseball.

A year ago, the fiery Rajah seemed to have nothing left from the "wreckage" of his stormy and brilliant career but his undying spunk and an apparent gratuitous pinch hitting job with the St. Louis Cardinals, a team he once led to baseball's crest. His Achilles heel both crept and he was reported broke, and his enemies chuckled as they figured that the picturesque Texan was definitely on his way out of the big show.

But they don't know Hornsby. He's back as the hustling pilot of the St. Louis Browns, again standing out as a commanding figure of the game. His head buzzing with revolutionary ideas and schemes to lead the downtrodden Browns out of the American league cellar, the persistent Rajah is launching his twentieth year in the majors with probably more spirit than ever before.

You can be for or against the Rajah (there doesn't seem to be a middle, lukewarm course when it comes to him), but you've got to admit he's got something on the ball. He makes too many come-backs.

It's no great secret that there was considerable opposition to Hornsby when the late Phil Ball got his release from the Cardinals and the national league so he could come over as manager of his ball club.

A lot of tales followed Hornsby around the National league, and there weren't many congratulatory telegrams sent last July when the announcement of his selection as manager of the Browns was made. But since then, the Rajah has won a big following, official and unofficial, in the junior circuit.

Fairly satisfied with every position for the impending race except the third base post, Hornsby now has decided to go after the job himself. Only a few pounds overweight, he works out daily in a St. Louis gymnasium. If the bothersome "Achilles tendon" is okay, the Rajah is confident he will be able to play in 100 games.

## Bobby Jones To Play In Georgia Golf Tournament

### ATLANTA, Jan. 27. (AP)—Bobby Jones pushed away a dish with the remains of what had been a fat chunk of chocolate ice cream, slumped to his chair to a lounging posture and was ready to talk of all things—golf.

And golf, at this time, naturally centered in Bob's return to competition in March, and the event that will place him back in circulation—the open invitation tournament of the Augusta National Golf club.

"Ah-um" said Bobby, this being incidental to a little figuring. "I think a four-round total of 288 strokes should win the tournament. Par is 71."

"Our course is really not difficult, but," he hurriedly qualified, "I doubt if anyone will make a monkey of it. You see it all depends on the weather and the wind. If the ground and greens are wet or damp and you can hang the approach to the pin, there may be some fine scoring."

"The layout isn't tough in the respect that par is almost unbeatable. We've just made a good test of golf here where a man can score if he's hitting his shorts. There isn't a par five on the course you can't reach with two good woods and the one-shotters are not long."

He explained.

ST. LOUIS, Jan. 27. (AP)—Charles Davis, Oklahoma City net star, today was named at the head of the Missouri Valley Tennis association men's singles ranking for 1933.

## MANAGER WISECRACKS AND THE FEUD IS ON

### BY HERBERT W. BARKER Associated Press Sports Writer.

NEW YORK, Jan. 27. (AP)—The "daffiness boys," otherwise known as the Brooklyn Dodgers, will go to the National league wars this season with a new battle-cry.

"Beat the Giants," Manager Max Cary and Business Manager Bob Quinn will tell their hired hands. "Beat everybody else if possible, but be sure to beat the Giants."

The rivalry between these metropolitan district teams is old stuff, but it will be intensified this summer, and all because Bill Terry cracked wise.

Cracked wise asked the Giants' manager the other day what he thought of the Dodgers.

"The Dodgers," Bill replied, "are they still in the league?"

Bill may live to regret that remark. It made the veteran Quinn fighting mad. It may make the Dodgers mad, too, mad enough to regain their old mastery over the Giants, no matter what the relative position of the two clubs in the standings.

If it did nothing else, however, Terry's remark served to call attention to the fact that the Dodgers seem to have added little strength to the club that finished a bad sixth last season. They have furnished none of the newspaper headlines during the off season, made no trades.

Quinn is convinced, however, the Dodgers will be a much better team than they were a year ago.

"We have tried to make trades," Bob says, "but the demands made upon us were all out of proportion. Somehow, a trade no longer is considered as such unless it involves exchanges between two major league clubs. Has the development of young players ceased to interest the public?"

Quinn thinks Brooklyn picked a number of rookies who will make the grade in a big way, among them Jim Bucher, second baseman from Columbus, and such young pitchers as Leslie Munns, Phil Page, and Charley Perkins.

If the pitching staff, headed by Van Mungo, Walter Beck, Ray Berge, and Owen Carroll, improves over its showing last year, the Dodgers will have only one glaring weakness—the outfield. Shortstop, too, may cause trouble unless one of the rookies comes through. But the fly-chasing department, with Johnny Frederick, Hack Wilson, Danny Taylor, and Ralph Boyle as the leading candidates, will be Max Carey's chief worry.

## Texan Named To Succeed Leyden

PITTSBURGH, Jan. 27. (AP)—Christy J. Flanagan, of Port Arthur, Texas, one of Notre Dame's best ball carriers of half dozen years ago and more recently Navy backfield coach, was named athletic director at Duquesne university today.

He takes over the job held by Elmer Layden, who left today to become head coach at Notre Dame. Layden, one of the Irish "Four Horsemen" was Duquesne's head coach and athletic director.

Joe Bach, backfield coach under Layden, succeeded to the head coaching position. Flanagan in his new post will be in charge of the Duke's backfield.

The announcement of the appointment said Flanagan is regarded "as the country's outstanding tutor of backfield blocking."

A halfback at Notre Dame from 1925 to 1927, Flanagan has been associated with the great figures of the Ramblers in coaching positions since his graduation.

Here's what a Famous Racing Driver says about

The NEW FORD V-8

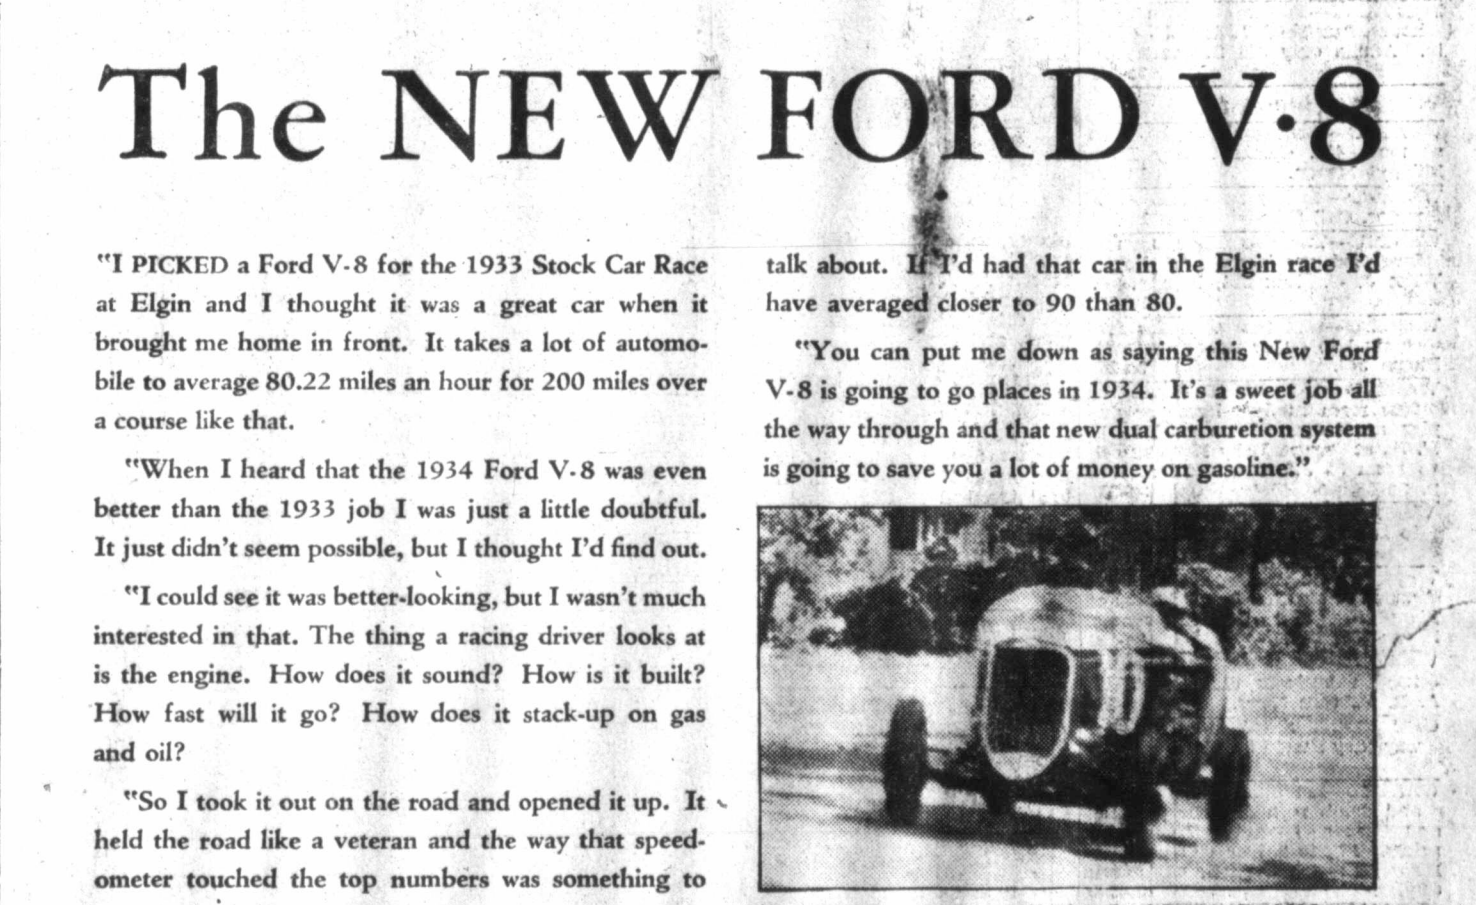

"I PICKED a Ford V-8 for the 1933 Stock Car Race at Elgin and I thought it was a great car when it brought me home in front. It takes a lot of automobile to average 80.22 miles an hour for 200 miles over a course like that.

"When I heard that the 1934 Ford V-8 was even better than the 1933 job I was just a little doubtful. It just didn't seem possible, but I thought I'd find out.

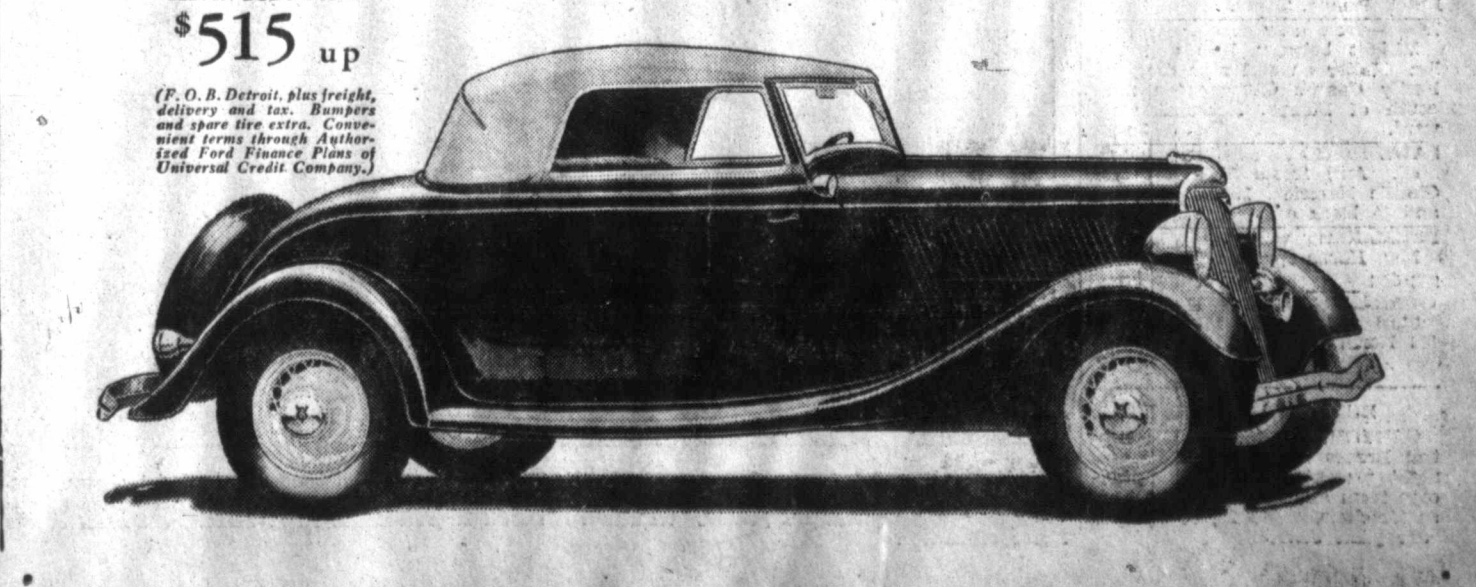

"I could see it was better-looking, but I wasn't much interested in that. The thing a racing driver looks at is the engine. How does it sound? How is it built? How fast will it go? How does it stack-up on gas and oil?

"So I took it out on the road and opened it up. It held the road like a veteran and the way that speedometer touched the top numbers was something to talk about. If I'd had that car in the Elgin race I'd have averaged closer to 90 than 80.

"You can put me down as saying this New Ford V-8 is going to go places in 1934. It's a sweet job all the way through and that new dual carburetion system is going to save you a lot of money on gasoline."

GUARANTEED permanent waves \$1.00 and up. See Miss Quarles, 442 North Starweather. 6p-253

## ICKES NAMES ATTORNEYS TO FILE CHARGES

**NUMEROUS CASES ARE NOW READY TO BE PROSECUTED**

WASHINGTON, Jan. 27. (AP)—A plan to speed prosecution of Texas violators of the oil code and production curtailment orders was adopted today by Secretary Ickes and Attorney General Cummings.

Ickes and Cummings agreed that the attorney general's two special assistants in Texas, Charles I. Francis at Tyler and L. F. Guinn at Dallas, in cooperation with the district attorney's office, could prosecute without authorization from Washington when they agreed prosecution should be started.

It was learned in oil circles that a considerable number of cases involving oil and refining violators were ready for immediate prosecution.

Meanwhile, committees of the conference within the industry on the marketing practices and gasoline stabilization pool agreements continued revising the marketing pact to make it conform with reservations imposed last week by Secretary Ickes, the oil administrator.

The conference recessed for an indefinite period to permit the committees to rewrite the marketing document. Consideration of the pool agreement will be held in abeyance until the marketing agreement is disposed of.

The names of those on the committees were withheld. The work is distributed in sections to several committees to expedite its completion.

Aside from embodying the secretary's modifications, it was learned authoritatively that several minor changes from the industry would be included. It was said, however, these would not be important. One producer described them as mainly matters of "phrasology."

## Birthday Balls Over World To Number 6,000

NEW YORK, Jan. 27. (AP)—One of the biggest birthday parties in history will be given Tuesday, when men and women throughout the country will forget care and dance in honor of President's 52nd birthday and for the cause of charity.

No less than 6,000 "birthday balls" are scheduled, the national committee in charge of the affairs announced today. All proceeds will go to the Warm Springs Foundation for infantile paralysis.

This is the institution where the president himself goes every year to further his own cure from the disease.

On Tuesday night, celebrations will be held in gilded ball-rooms of big city hotels, in whitewashed barns, on ocean liners, on remote islands, and even in the frigid Antarctic headquarters of "Little America." An unprecedented outpouring of dancers, bridge players, tea drinkers, sportsmen, theatergoers, and songsters is anticipated by the committee said.

The president will broadcast a birthday greeting from the White House at 11:30 p. m. Eastern Standard Time, over a national hook-up. Mrs. Roosevelt and her daughter, Mrs. Anna Roosevelt Dall, will attend the ball at the Shoreham in Washington.

Particularly brilliant affairs will be those in Washington, which high government and diplomatic personages will attend, and in Palm

## PRISON GUARD SUCCEUMS TO SHOT WOUND

**Claims Palmer, Who Escaped With Barrow's Aid, Fired Pistol at Him.**

HUNTSVILLE, Jan. 27. (AP)—Major Joseph Crowson, 33, Eastham prison farm guard, who was wounded when five convicts escaped from a wood squad on January 16 and the aid of a man believed to be Clyde Barrow, notorious gunman, died in a hospital here today.

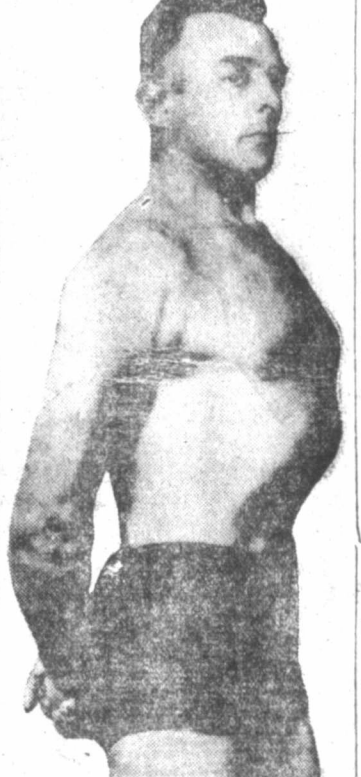

Crowson, shortly after, he was taken to the hospital with a wound in the abdomen, told officials he and Olan Bozeman, another guard, both were wounded by shots from a pistol, in the hands of Bill Palmer, one of the convicts who subsequently made good his escape.

Only one of the five who fled under the protection of a barrage of gun fire prison officials believe was laid down by Barrow to aid in the escape of the desperado's partner, Raymond Hamilton, has been captured.

J. B. French, serving 12 years from Hunt county for assault to murder, later was recaptured. Officials expressed the opinion French was not included in the plans of the other four who escaped, but took advantage of the confusion to make a bid for freedom.

In addition to Hamilton and Palmer, the convicts who succeeded in gaining their liberty were Henry Methvin, serving ten years from Redfugio county for assault to murder, and W. H. Bybee, serving a life sentence from Abilene for murder.

## Coming Monday

## Ruth St. Dennis Will Dance At Canyon Feb. 15

CANYON, Jan. 27. — Ruth St. Dennis, pronounced one of the greatest American dancers of all time, has been obtained for a lyceum engagement at the West Texas State Teachers college on the evening of February 15.

Miss St. Dennis, internationally famous exponent of esthetic and program dancing, will appear in a full evening of solo numbers, giving some of her famous interpretations of classic and modern dances.

"The West Texas State Teachers college is indeed fortunate," said Professor Wallace R. Clark, head of the music department of the college, "in obtaining a dancing star of such magnitude for an appearance here."

It is expected that numbers of art lovers from the surrounding cities and towns will come to Canyon for the program.

## Cotton Farmers Sign Contracts With Confidence

Gray county cotton farmers are signing new contracts at a rate which indicates a larger percentage than signed last summer, it was revealed by County Agent Ralph Thomas last night.

One hundred and three contracts, involving renting of 3,002 acres to the government, had been signed up to Friday night. Total acreage in farms affected was 7,785 acres. The average production reported reported was 192 pounds to the acre.

Although more than 4,000 acres of land was retired last summer, this included about 800 acres of plains land not now affected. It is expected that additional contracts covering about 1,000 acres will be signed by Wednesday.

Practically all farmers who signed last summer have again participated in the surplus control plans.

## Back Roosevelt, Coughlin Pleads At Hearing

"It's Roosevelt or ruin," warned Father Charles E. Coughlin, famed Detroit "radio priest," shown here, right, as he testified in Washington at the House coinage committee's monetary hearing, calling on Congress to back the president's policies. With him is shown Representative A. L. Somers, chairman of the House committee.

## Art of Whittling Will Be Reviewed By Amarilloans

AMARILLO, Jan. 27. (AP)—The almost lost art of whittling which once was confined largely to the cracker-barrel groups in country stores, is being revived here by the Home Workshop Guild, a local unit of a national organization.

The guild's activities, however, are not confined to whittling, but include all handwork hobbies even to fancy wood carving, decorative metal work, hand forging, and other work of a highly technical nature.

Instead of loafers, who made up the country store "whittle and spit" clubs, the guild members include physicians, dentists, merchants, motion picture operators, insurance men, bankers, mechanics, teachers, electrical and chemical engineers, printers, carpenters, cabinet makers and ministers.

The local guild was organized far enough in advance of Christmas that more than 100 toys were turned over to charity for distribution to needy children. Matresses for doll beds and clothing for dolls were included in the collection, contributions from women with sewing hobbies.

Persons 18 years or older and not attending high school are eligible for membership. The purpose of the guild is to encourage those with hobbies to expend their energies at something useful and on a community basis. Skilled workmen lecture at the meetings which are held two weeks apart, and the members compare and criticize each other's work and exchange ideas. Everything is done for charity.

## Dates of Press Meeting Fixed

Dates of the Panhandle Press association convention were set as May 4 and 5 at a meeting of officers and members of the association in Amarillo yesterday.

A committee composed of Deskins Wells of Wellington, Fred A. Storey of Childress, and Lyman Robbins of Memphis was appointed by President T. E. Johnson to manage the association's prize contests. Awards will be given for most worthy community service, best local news story, best editorial, best advertisement up

## LAND SUIT FILED

AUSTIN, Jan. 27. (AP)—A suit to recover for the permanent school fund, 500 acres of land in Gregg county, in the East Texas oil field, on which there are about fifty producing oil wells, was filed by Attorney General James V. Allred today.

The state contends the acreage is unpatented and a part of the unsurveyed public domain, which is dedicated to the benefit of the permanent school fund.

## BOYS RETURN HOME

FORT WORTH, Jan. 27. (AP)—Two runaway boys, Harvey Cox, 15, and Marvin Brasler, 11, who were picked up here by police five days after they disappeared from their homes in the Wall community near San Angelo, left Fort Worth at noon today with their parents.

# WILL ROGERS ECCENTRIC AND VERY NERVOUS

## CHEWS SPECTACLES TO SUBDUE CRAVING FOR GUM

ACCORDING to his own statistics, Will Rogers has eaten 18 pairs of spectacles during the past two years. . . he chews gum to keep down his desire to smoke and gnaws on his horn-rimmed "specs" to subdue his craving for gum. . . reads all the newspapers in town at the breakfast table and throws them on the floor as fast as he finishes them. . . never buys a suit of clothes. . . his wife takes care of his wardrobe. . . types his daily and Sunday newspaper articles with two fingers and doesn't know what a carbon copy means. . . carries his typewriter in his automobile and often stops by the side of the road to write because if he waits he'll forget what he has in mind. . . never sits for a photograph in his life. . . photographers have to sneak up on him. . . can't pack his own grip. . . never takes a train if he can secure passage on an airplane. . . seldom has any money on him. . . recently decided to see one of his pictures showing at a Beverly Hills theater. . . arrived and parked his

# Pitts, Rogers Are Together

Here is a combination that is a real event in motion picture history. Will Rogers and Zasu Pitts

are starred together in the new film from the Fox studios, "Mr. Skitch," now at La Nora theater.

car, then discovered he had no money and went back home. . . loves music. . . has a piano, banjo, mandolin and guitar but can't play any of them. . . recently bought a hurdy-gurdy so he'd have some musical instrument he can play. . . seldom turns on the radio unless big political speech or event is being broadcast. . . hates jazz. . . never plays cards. . . doesn't know what worry is. . . sings a high tenor. . . snores moderately. . . always late to his meals, except breakfast when he's the first one at the table. . . never fails to grab all the checks in sight when he lunches at the Cafe de Paris on the Fox lot. . . likes raw onions. . . does not own a dress suit and refuses to wear one. . . owns private polo field at his ranch between Beverly Hills and Santa Monica, Calif. . . declares he is not superstitious but constantly knocks wood. . . warm friend of the Lindberghs. . . only pet he owns are his polo ponies. . . taught his son, Will Jr., his daughter, Mary, and his son, Jimmy, the game of polo. . . all are now experts and the Rogers family can beat many of the crack teams of Beverly Hills, having proved it on more than one occasion. . . has the brakes of his automobile tested every day. . . drives at a fast clip but with judgment and consideration. . . has few intimates, moving among a small circle of friends. . . can't sit still long enough to be interviewed. . . likes to mix with extras working in his pictures. . . born in the Indian Territory on Nov. 4, 1879, which fell on a Tuesday and an election day.

## PROGRAMS OF THEATERS

The theater program of the week follows:

**LA NORA**—Today, Monday, Tuesday and Wednesday, "Mr. Skitch," with Will Rogers and Zasu Pitts; also "Explaining the Pacific," a travelogue, "Noah's Ark," a silly symphony, and Fox newsreel, Thursday, Friday, and Saturday, "Man's Castle," with Spencer Tracy, Loretta Young, and Glenda Farrell; also "Mechanical Man," with Mickey Mouse, "Tarzan the Fearless," and Pampa Daily Newsreel.

**REX**—Today, Monday, and Tuesday, "Frontier Marshal," with George O'Brien; also "How'd You Like That?" Wednesday and Thursday, "Stage Mother," with Alice Brady and Maurice O'Sullivan; also "Out of Gas," with Louise Fazenda, Friday and Saturday, "Trail Drive," with Ken Maynard; also "Grand Uprour," a Terrytoon, and "Phantom of the Air."

**STATE**—Today, Monday, and Tuesday, "Hold Your Man," with Jean Harlow and Clark Gable; also "Flirting in Park," Wednesday and Thursday, "Professional Sweetheart," with Ginger Rogers and Norman Foster; also "Thrown Out of Joint."

**NEW ORLEANS COTTON**  
**NEW ORLEANS**, Jan. 27 (AP)—Cotton was fairly active today and prices developed a good upward trend due to improved trade buying, covering by shorts and speculative demand on expectations of constructive advices from Washington over the week-end. The close was very steady, near the top 13 to 15 points net higher.

The opening was firmer despite lower Liverpool cables than due, owing to higher sterling. First trades here showed gains of 3 points on March and 6 to 8 points on other active months. Prices eased off 2 to 4 points in the early trading but turned firmer during the final hour on higher stocks, good trade demand and covering by shorts for over the week end.

Prices reached the highs of the day in the late trading with May at 11.28 and July at 11.44 or 17 points above the close of yesterday. There was a reaction of 2 points at the end on realizing. March closed at 11.12 or 14 points net higher, May at 11.26 and July at 11.42 or 15 points higher.

# O'BRIEN WILL NOT DO ROLES IN CHARACTER

## BUT WESTERN ACTOR HAS VARIETY IN HIS PARTS

**GEORGE O'BRIEN** is one actor in Hollywood who has not been "typed." He is just as much at home in immaculate evening dress as he is in chaps and a ten-gallon hat.

He is at home on the range and perfectly at ease in the smartest of drawing rooms. O'Brien's screen career grows in, for he has played everything from Western heroes to grandee of the boulevards.

While the careers of many other players have skyrocketed them as certain "types," only to vanish into oblivion when their vogue passed, O'Brien has maintained his stellar position on the screen due to his facility to adapt himself to practically any sort of role.

In "Frontier Marshal," his latest Fox picture now at the Rex theater, O'Brien again displays his flare for variety. He is seen as a well-to-do man of the world and a fearless marshal in a lawless town of the old West. The story is based on incidents in the book by Stuart N. Lake.

Irene Bentley has the feminine lead opposite O'Brien in "Frontier Marshal," and the supporting cast includes Berton Churchill, Alan Edwards, Ruth Gillette, George E. Stone, Russell Simpson, Ward Bond, Edward LeSaint and others. Lew Seiler is the director.

## CHICAGO GRAIN

**CHICAGO**, Jan. 27 (AP)—Grain prices worked gradually higher today on a weather market.

Trade was light and easily influenced. News from the southwestern winter wheat belt told of badly needed moisture and of forecasts for lower temperatures, both threatening serious injury to the crop. The opening was slow, but later buying on the weather news was sufficient to pull quotations around a cent a bushel higher. Corn, and oats firmed with wheat.

Wheat closed firm at the day's best prices and 3-4 to 1 3-4 cents higher than Friday's finish. Corn was also firm and 1-4 cent advanced, oats strong and 1-4 to 3-8 up, with provisions 10 to 25 cents higher.

Corn followed the action of wheat. There was a flurry of selling early, attributed to northwestern sources, but the market rallied on covering sales. Demand for cash corn was light. Oats were also under the influence of wheat. Provisions ruled firmer with grains and also with hogs.

## KANSAS CITY LIVESTOCK

**KANSAS CITY**, Jan. 27 (AP)—(U. S. D. A.)—Cattle trade at mid-western markets this week was fairly active on early sessions, with fed yearlings and all weights of steers at strong to higher prices. Mid-week, however, supplies increased and yearlings scaling around 1,000 pounds and below were about the only offerings to retain any of the early gain. Medium weight and heavy steers are steady to unevenly lower as compared with a week ago, Chicago reporting a general decline of 50 cents. Chicago had a week's top of 7.35 on yearling steers and realized 6.50 on 1,550 pound steers. Aggregate receipts at eleven markets totaled around 177,000 as compared with 182,656 last week and 147,676 the corresponding period a year ago.

Hog prices are generally 10-15 higher than last Saturday, with

some markets showing more up-turn. Chicago had a late top of 3.75. Receipts of around 641,000 were 6,000 less than last week and 129,000 heavier than a year ago.

Fed lambs and yearlings are strong to unevenly higher than last week's close, several points showing gains of 25-50. Current quotations however, are 25 or more

under the week's high spot when choice offerings in Chicago reached 9.50. Sheep ruled strong to 25 higher.

H. B. Mathews, professor of physics at South Dakota State college, has taught 9,000 students in 41 years.

## HILL'S

### DATES OF LIONS MINSTREL TO BE SET TODAY AT REHEARSAL

Pampa Lions today will set the date for the 1934 minstrel show and musical revue, which has been in practice stages for two weeks.

Another rehearsal will be held at the city auditorium today at 1:30 o'clock. The show will be a musical revue in every sense. A large number of popular current tunes—and some old favorites—will be sung.

Dr. H. L. Wilder, whose comic songs have won much acclaim in the past, has another equally funny one, "Woodin' Head, Puddin' Head, Jones."

The show will be larger, more elegantly costumed, but shorter than ever before. All proceeds will be added to the fund for the club's program for the underprivileged.

### INDIANA WILL GET DILLINGER AND HIS PALS

### ARIZONA GOVERNOR TO GRANT EXTRADITION PAPERS SOON

TUCSON, Ariz., Jan. 27 (AP)—Indiana, one of the bloody battle grounds of the Dillinger mob, will get back the desperadoes captured here Thursday, barring possible legal complications, but the gangsters may be taken on from there to other states to face extreme penalties.

These extradition plans were announced in Phoenix today at the office of Governor B. B. Mower after the chief executive had exchanged a series of communications with Governor Paul V. McNutt of Indiana.

In a few crisp words the Arizona governor answered the statement of John Dillinger, captive gang chief, that the mobsters would fight extradition "to the last ditch."

"Arizona does not want them," said Mower. "We shall be glad to get rid of them."

The gang will be taken to Indianapolis and sent from there to counties or states "where convictions of murder can be had."

Governor McNutt telegraphed Mower that extradition papers for Dillinger, Harry Pierpont, alleged "trigger man," Russell Clark and Charles Makley "and their women companions" had been sent by air mail. The women, all as material witnesses, are Opal Long, Anna Martin and Mary Kinner.

Governor Mower instructed his secretary to advise McNutt that "extradition of the persons named will be granted by Arizona."

Nothing more was heard today of a purported move to file habeas corpus proceedings to free the prisoners here, although John L. Van Buskirk, a Tucson attorney, said yesterday he was planning the legal step.

### Tire Blowout Overturns Car, Injures Youths

A blowout nearly cost the lives of three local boys early yesterday morning when they were returning to Pampa after taking a friend to a gasoline plant west of the city.

George Ingram, the driver of the car, and Skeet Gregory were seriously injured, while L. D. Blanton, the other passenger, was bruised and badly shaken.

The boys were driving toward Pampa about a mile east of the Gilmore Gasoline plant when the left rear tire of their car blew out. Ingram lost control as the car swerved across the road into the ditch. The car turned over two or three times and Gregory was hurled through the top. The driver was pinned beneath the car, but Blanton was just stunned and hurled clear of the wreckage.

Ingram was found to have a badly injured knee, bruises, many cuts and probable internal injuries. He is at his home here. Gregory suffered two broken bones in his ankle and bad bruises. He was taken to Worley hospital but was able to be taken to his home yesterday.

The car was badly damaged. Thieves got busy on the car before it could be brought to Pampa. The license plates, number 410-489, were stolen. The radiator and gasoline tank caps were removed, and the gasoline was taken from the tank.

### A. P. I. Members See Pictures of Oil Machinery

Motion pictures of the manufacture and use of the Falk equipment in the oil field were shown at the first meeting of the Pampa chapter of the American Petroleum Institute in the city auditorium Friday night. The Falk corporation is located in Milwaukee, Wis.

T. F. Scannell of Dallas was in charge of the showing. Pictures showed the phases of manufacturing of gears and equipment and their actual use on wells and in plants. Equipment used years ago and the most modern equipment was shown under various working conditions.

The Phillips orchestra of White-tenberg furnished music and Miss Kathryn Vincent presented pupils from her dancing school. Miss

### NUNN

(Continued from page 1)

loans never get to Washington unless they've successfully survived all the red-tape and examination which they receive in the branch offices all over the country. After, mind you, after your loan has gotten the approval of the branch office it then comes to Washington and goes through the real clinic.

First it goes to what is known as the control room where there are several hundred persons reading the applications and sorting the loans according to their type. When this division is made, they are studied again, and the type of security is examined, and they are sorted upon this classification, without reference to either case as to the worth of the loan or security. That question is decided way on down the line.

After these are thoroughly classified, they are sent to the respective division under which they fall and the "counsel" of that division studies each application from every angle. If they think enough of it to give it a chance on down the line, the application is sent into the legal and statistics departments where every figure and every statement is doubted until they prove it true. If they can't find a flaw in the technicality of construction and presentation, the application then goes back to the "general counsel" of its division, then is passed on up on the "general counsel" of the corporation.

Though there's a lot more to the handling than I've explained, this in brief is the "rocky to Dublin" which your application travels in Washington. Even this sounds pretty simple, but when you consider the R. F. C. has an eleven story building all its own, that a central filing room where 150 girls do nothing but file applications as they come in all day long, that the department which does nothing but consider "Substitutions of Collateral" has a personnel of 75, and that some of these departments have to work in THREE EIGHT HOUR SHIFTS because they haven't enough room or time, then you may well understand my dilemma—whatever that is—after spending 3 hours "just rumbering!"

I forgot to mention—I didn't get a loan!

And to be real honest with you, that "dilemma" I spoke of doesn't come just in the various departments. It comes in the everyday life in the everyday reporting of everyday ularly my handicap is space and time; if I had all I wanted of both, I could write four columns of stuff everyday, and still be behind the times—and under the ground pushing daisies if I tried to get you to read that much of my stuff!

For instance: Here are a few things that I can only mention; they each would make a nice story in themselves.

Senator Connally of Texas spoke before the annual banquet of the Young Democratic League of America the other night at the Willard hotel, and made an exceptional talk and a big hit.

General Motors threatened the Hearst newspaper interests with a loss of all General Motors advertising if they continued to play up the senate air mail hearings in which allied G. M. air lines figure in contracts.

Mr. Hearst happened to be in Washington the day the message was delivered, and told his reporters if they couldn't make their stories twice as bad as they had been they'd better look for another job!

Senator Sheppard of Texas was made to remove his Blue Eagle from his senate office door because rules of long standing in that august body say that no placard or posters shall be allowed on the doors of the senate office building. Only after special concession by a senate committee was Sheppard allowed to put up a tiny Blue Eagle card, 6x8 in. All these things and many more go to show not only how important, but how necessary an agency like the Associated Press is in the daily life of a newspaper that serves its public well with varied, well-rounded, and representative news and feature stories. When you stop to consider that every sub-sub-committee, of every sub-committee, of every committee, of every agency, of every bureau, of every division, of every department, of every institution, organization, corporation, and commission of the government makes a score or more reports each, every day, you can easily understand why every other man you run into, or step on in a traffic jam, is an Associated Press representative. Their organization is more than twice as large as any other news service or agency in Washington. It has to be to never miss anything that happens!

They jokingly say, about the A. P.'s big staff here, that they've got three divisions that work in a never ending and untiring cycle: One-third to anticipate the news, one-third to always be on their way, and catch anything that might happen en route, and the other third to be on the spot when it happens. Personally, I should say that's QUITE a complimentary joke!

And here's another reason the Gray County Young Democratic club will have to continue to grow and prosper—that is, to keep up with the reputation which it already has established.

I talked to MacDonald Leech, national committeeman of Y. D. C. from Corpus Christi, who was up here on Y. D. C. business the other day. He tells me that the set of "Constitution and By-Laws" which the Gray County club sent the state headquarters are being used as the model for the one to be drawn up by the state. An orchid to youse, Bill Smith, and your director-coborts!

Vincent also sang and danced. The new president, C. E. "Dan" McGrew, presided. More than 100 attended the meeting.

## Oil Field News

A new oil schedule for the Panhandle field will be issued from the local office of the oil and gas division of the Texas railroad commission early this week, J. M. McDonald, supervisor, said yesterday. The field potential will show a considerable increase through new production.

The proration factor is expected to remain about the same, because of the present of the decrease in oil well production. Several tests have been made during this month, and most of them were found unable to make their allowable.

P. L. Hoffman obtained a permanent injunction last week restraining the railroad commission from interfering in his drilling a well in the Pinley lease north of LeFors. Mr. Hoffman has a lease on a small neck of land immediately north of the northwest quarter of section 2, J. C. Short survey.

The plot contains nine and one

half acres and the commission gave Mr. Hoffman permission to drill a well in the center of the plot. He made a location on the west end of the piece of land and has started drilling his test. The strip is less than 300 feet wide.

The Skelly Oil company's No. 1B Webb in section 43, block 25, is flowing at the rate of 35 barrels an hour on railroad commission test. The hole is bottomed at 2,501 feet. Pay was topped at 2,490 feet.

Anderson and Kerr of Oklahoma City yesterday made application for permission to drill a test in the northeast corner of the southwest quarter of section 51, block 24, Wheeler county. It is in the area recently opened by the Bell Oil and Gas company.

A total of 1,713,188 tons of iron ore and ironstone was produced in the second quarter of 1933 by mines in Great Britain.

### Tucker Shortening Anniversary Will Be Next Saturday

Saturday, February 3rd, is the 21st anniversary of the founding of Mrs. Tucker's Shortening business, and the week of January 27th thru February 3rd, has been designated Mrs. Tucker's 21st Business Anniversary Week. Grocers all over the Southwest will feature Mrs. Tucker's Shortening especially during this week, and it has been suggested that Southwestern housewives who are regular users of Mrs. Tucker's Shortening make Mrs. Tucker's Anniversary cakes for their families some time during the week.

This special birthday celebration is being conducted without the knowledge of Mrs. Tucker, the employees of her company planning the event as a surprise celebration for her. It is expected many recipes for Mrs. Tucker's 21st Anniversary Birthday Cake will be sent in for next week's regular Mrs. Tucker's Recipe of the Week Contest.

### Nazi Declares Himself Head of Prussian Church

BERLIN, Jan. 27 (AP)—Reichsbishop Ludwig Mueller set himself up as spiritual dictator of 19,000,000 Prussian protestants today in a decree designed to "safeguard order within the protestant churches of Prussia."

The bishop several weeks ago tried to assume a like role over all protestants in Germany but that order aroused such a storm of protest in an already bitter church fight that he decided today to limit the event as a surprise celebration for her. It is expected many recipes for Mrs. Tucker's 21st Anniversary Birthday Cake will be sent in for next week's regular Mrs. Tucker's Recipe of the Week Contest.

### TRAYLOR PASSES CRISIS

CHICAGO, Jan. 27 (AP)—The condition of Melvin A. Traylor was vastly improved today and his physicians felt confident the banker would recover from pneumonia. President Roosevelt sent a message to Traylor at the First National bank, of which he is president. It said: "Am pulling for you and hoping for goods news."

his dictatorship to the largest German state with the aid of its premier, Reichsmister Goering.

As the first step in the execution of his emergency decree, issued as the Bishop of Prussia, Dr. Mueller ordered the suspension of all Prussian pastors who read a defiant declaration of secession from their pulpits January 14.

Almost thirty clergymen were ready to accept their suspensions but the Rev. Martin Niemoller, the militant leader of the opposition pastors' emergency federation was not among them tonight.

Nazi sub-leaders of the Prussian United church met in Bishop

### SOONERS BEAT TEXAN

MARLIN, Jan. 27 (AP)—Sheriff Reese said here tonight he had taken no steps to return Irvin (Blackie) Thompson to Marlin to face charges for the \$41,000 robbery of a bank here last December 28 since he had been informed that Oklahoma officers already were enroute to Miami, Fla., where Thompson was arrested, to return him to the Oklahoma state prison.

### COKE IS SKEPTICAL

AUSTIN, Jan. 27 (AP)—Coke Stevenson, speaker of the house of the Texas legislature, expressed doubt today that the lawmakers would vote for the issuance and sale of the remaining \$14,500,000 of state relief bonds, which he said he understood the governor wished the legislature to do at the special session called to convene Monday.

Mueller's office to promise financing support for their leaders and to offer "by all possible means" to hinder the opposition and safeguard the Bishop's authority.

R. I. Snyder

Vestal Wardlaw, who has been employed here several weeks, left yesterday for his home in Childress.

# BLOND GODDESS

A New Serial by HERBERT JENSEN

**SYNOPSIS:** On the train to Laredo, where he intends going into business, the hero searches for Bill Langton, his vanished aviator friend. Frank Graham recalls stories he has heard of the dangerous and he must visit. He has left Laredo on impulse, smarting under the movie star, Janice Kent's sharp refusal of his marriage proposal. He also has left a proposal from the great Myberg, producer, to head a party which would film a picture in the Mexican jungle with Janice as star.

## Chapter 16 ADVENTURE BEGINS

At another time, in New York, Frank had been yarning with a hotel buyer he had met at the Excelsior's Club.

"Medico," stated this man, "in the Pacific time used to dump their undesirable, all those convicted for this, that and the other thing, down on the Quintana too coast. It was sort of the Siberia of Mexico."

"They weren't all politics either, they usually were in Russia. I take it the jails got pretty full sometimes in central Mexico, and he gangs they shipped south were airily well mixed criminal lots."

"Funny, too, there doesn't seem to be more than the usual number of criminal types along the coast now and I know the fringes there fairly well. Maybe they drifted back home or maybe the ones I saw were all second generation. If that's the case, it's a laugh on the heredity boys, I dunno."

The third item was from a man in the service of the Geographic Office. He had a flair for archology.

"There are ruins in southern Mexico," he said, "that have never been located. Quantities of them. The Smithsonian and the Peabody people believe they're there but have never gone after them."

"They've got plenty to do with what they've already found. The Mexicans won't look for 'em, and there's a good reason why. The Indians in Quintana Roo don't like Mexicans, even though they are Mexican citizens themselves. That's amusing. There's been companies of Mex soldiers cut up trying to get through that jungle, and they never did succeed."

"I've often thought," he concluded, "that there's something damn interesting in that place—something white man would like to see—they're so damn anxious to keep 'em out!"

On a Ward liner, sailing south out of Vera Cruz, Graham thought of these things. The phrase "something interesting" was something a white man would like to see kept forming and recurring in his mind, like a bright motto engraved upon a knight's escutcheon.

Frank supposed that the first qualification of every adventurer was curiosity. Curiosity to see what was on the other side of the fence, the other side of the hill, the other side of the world.

This inquisitiveness was the main part of him as his limbs; it was the basic mental equipment of those who devoted their lives to research of any kind; it sent savants to their laboratories as well as farm boys down to their ships.

While his heart was sore, he realized that it was not Janice Kent who had sent him south. She had simply provided the stimulus by denying him herself and the type of life that he had had been the stimulus; the discovery of Bill Langton's fate was the objective.

Frank's philosophy of existence was not elaborate. One simply intruded oneself into a given set of conditions, and the result was certain to be interesting. In another manner of speaking it was not necessary to choose a certain line of work and devote a quantity of time to it to achieve thereby success in living.

You acknowledged what mental or physical equipment you had and put yourself in circumstances wherein this equipment had a chance to perform something or other. The soldier of fortune went where there were wars, mechanics went where there was machinery, grocers kept near the centers of population.

He knew the out-of-doors and loved it. He knew a bit of soldiering, of mining, of trade, and of various other supplementary occupations. He could make his living, not his fortune, at any spot in the world, whether it be working for wages, or by feeding and clothing himself from what the country offered.

He had panned raw gold from gravel in Alaska, Columbia and Siberia. He had dressed tools in the oil fields of Oklahoma and Tampico, with an eye watchful for the main chance.

He had made a tidy fortune in oil leases, only to lose it in a Central American plantation venture. He had regaled in an expedition back of Caracas in search of gold and emeralds.

So, while his memory of Janice was not dimmed, nor the lonely sensation gone from him, it was with some new stirring of anticipation that he arose, dressed, and left his cabin to the sound of the ship's cables running through the haws-oles.

His ship had brought him to the point where he jumped off into the unknown.

Don Raoul Ortega Ríjon y Mendoza had dined well. He felt very comfortable with the world. At least the soul of one half-grown chicken had sped, and quantities of rice had been boiled to make his dish of pollo y arroz. At the moment this concoction was swimming contentedly around the wine, decanted, so the proprietor of the place had assured him, from a Spanish cask just through the customs the day before.

He leaned against the doorway of the restaurant, savoring the last pleasures of the meal when a little black dog scampered around the corner of the street and galloped through the dust toward Don RAUL GODDESS—JAN 26 Cont.

Raoul. It was evident that the dog would pass the gentleman at a distance of about five yards.

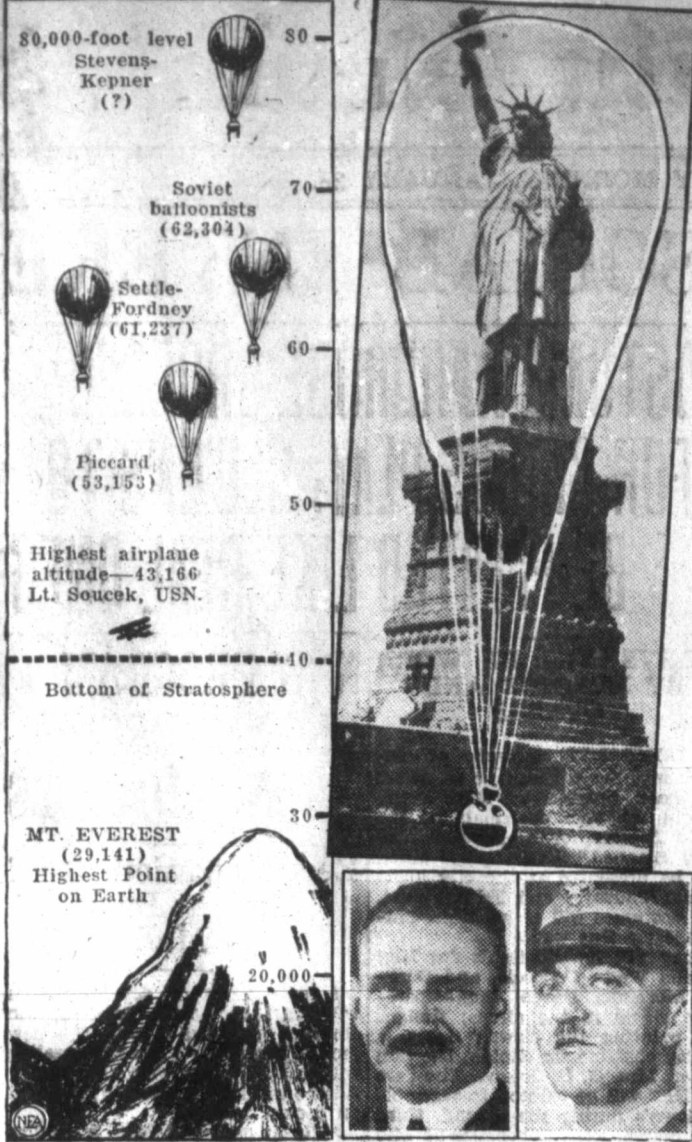

Don Raoul drew his revolver from his belt. He cocked and leveled it at the loping dog and pressed the trigger. The report and the yelp of the little animal broke the stillness of the sleepy street.

The dog quivered in the dust and began to crawl back to the corner from which it came. Don Raoul, in the act of replacing his revolver, made a hissing noise of self reproach, and aimed and fired again. The dog quivered and lay still.

The man nodded thoughtfully, yet with evident satisfaction, and pushed the revolver into its holster. His shoulders straightened. His eyes darted up and down the street swiftly to see if any had witnessed his lapse in marksmanship. He sighed, and lighting a black cigarette strolled down the street toward the freight wharves. (Copyright, 1934, by Herbert Jensen)

Frank begins, tomorrow, a strange journey.

Passport officials, who gave Prince Alexis an anxious day on his arrival here Wednesday, quickly approved the American passport of the former Barbara Hutton and the couple landed and motored to Tokyo.

The U. S. Army's ace aerial photographer, Capt. Albert W. Stevens, and his crack ballonet, Maj. William Kepner, are planning to rise 15 miles in a balloon that will have five times the capacity of the bag used by Lieut. Com. Settle in his record altitude flight last fall. Their balloon will hold 3,000,000 cubic feet of gas when fully inflated, and will be 295 feet high at ground level. Special automatic equipment will be used to make various scientific measurements and take samples of the stratosphere. At right above is a comparison of the proposed balloon with the Statue of Liberty. Below are Stevens at left and Kepner, right. To the left is a graphic sketch of the heights attained already by man, and the goal of Stevens and Kepner.

## Young People of Christian Church To Give Program

Young people of First Christian church will direct evening services there today, observing the beginning of youth week. The young people's choir will sing, and every part of the service except the sermon will be in the hands of young people.

John S. Mullen, minister, has announced his subject as "Should Some Fathers Be Drowned?"

Observance of the special week in the church will extend through next Sunday, when a model Christian Endeavor service will be conducted at the evening church hour.

## BUDGET

(Continued from page 7.)

this, we must hold before us the ideal which we wish to attain and if a young couple must start out with only the bare necessities of shelter and food and clothing, let them keep their ideal budget in view. As they go up, step by step, let them try to cover all these items. Otherwise they will find themselves spending in foolish ways the extra money that may come to them a new dress or suit perhaps, even though they have already bought what clothes they need out of the regular budget. They should be saving this extra money for purposes listed in their ideal budget.

Now a budget is all very well and planning it out is great fun, but the point of a budget is that it gives you something to strive for.

## FIFTH AVENUE FASHIONS

By ELLEN WORTH

**Becoming Lines for The Growing Girl**

When nature starts shooting them up like sky-rockets, and they seem to grow an inch every night, it's time for fashion to step in and do its bit toward subduing knees and elbows. The frock sketched here is designed for that very purpose.

The wide collar with its hint of a drape, and the soft tie-ends form as becoming a neckline for the junior as could be devised. It's charmingly youthful, and calls attention to the top of the frock—a feature which is not only smart, but allows the skirt to be simple, and, therefore, easy to let down, if you provide for a generous hem.

See how attractively the full sleeves, with their wide, close-fitting cuffs, conceal angularity. And note the pretty tie-belt. Choose a sheer wool which drapes easily in bright colors. Size 12 requires 2½ yards 54-inch material.

Pattern No. 5415 is designed for sizes 8, 10, 12 and 14 years.

## Purpose of Seal Sale for State Centennial Told

Aims of the American Legion Auxiliary in conducting a sale of Texas Centennial seals are explained in the following statement. Women of the Pampa auxiliary launched the sale last week, with Mrs. Al Lawson as sales chairman.

"The New Year 1934 finds an awakening interest all over the state in a fitting centennial commemoration celebration in 1936," according to A. Garland Adair, chairman of the American Legion Texas centennial committee. The headquarters of this committee is in Austin, where many letters are being received daily from all parts of Texas and from other states of the nation, in which expressions of cooperation and sympathy with the Legion's program are offered.

"The American Legion's objective is the building on the campus of the University of Texas of a memorial museum devoted to history and to natural history. For this purpose the university regents have tendered a site for the institution, which will be built, furnished, and equipped out of funds derived from the sale of 1,500,000 silver 50-cent pieces. The coins have been authorized in what is known as the Connally-Pattman bill which was enacted by the late United States congress and approved by President Roosevelt, June 15, 1933. These half dollars have a value of 50 cents. They will be sold for \$1.00 each, netting \$750,000. The committee pledged congress and the president that every penny derived from the sale of the coins would go into the museum.

Texas, before and after the revolution, was settled by representatives of the best families from all sections of the United States, who brought with them records and relics of all states of the nation, from Maine to Florida. A Texas museum devoted to history and natural history is a national museum to a degree that cannot be said of another state of the nation.

"Of the ten most populous states in the Union today, all contain important state museums except Texas.

"This committee is now working out plans to begin at an early date the collection of historic documents, relics and other material for the archives that will be permanently housed in the department of the museum that will be devoted to history. The collections will be a treasure trove for scholars from all sections of the country for the tourists from all parts of the world who will visit this state in 1936.

## Bridge Enjoyed At A. B. C. Party

Games of bridge entertained members of the A. B. C. club Thursday afternoon, when Misses Roberta and Minnie Olive Montgomery were hostesses.

Refreshments of salad, sandwiches, coffee, and cookies cut in A. B. C. shapes, were served.

Guests of the club were Mrs. Ruth Tunnell and Miss Ginger Brown. Members present were Misses Helen Jo Daugherty, Ann Clayson, Ethel Hamilton, Anna Mae Gocher, Walden Dickinson, Willie Isbell, and Mrs. Iva Ben Williams.

## JUST RECEIVED!

## BROWN SHOE STORE

## PAMPA HEAD OF HARDWARE MEN PLANS 25TH ANNUAL MEETING

A program for the Panhandle Hardware and Implement Dealers association convention in Amarillo February 5, 6, 7, has been planned by Travis Lively, president, and Clarence Thompson of Canyon, secretary.

The convention, to be held in Amarillo, will be notable for the number of outstanding speakers to be heard. These will include E. B. Gallaher of Norwalk, Conn., president of the Clover Manufacturing company and editor of a trade service; Ralph Carney, sales manager of the Coleman Lamp company; E. W. Peterson, head of the National Retail Hardware association and a member of the National Retail Trade Council, and many others.

It will be the silver anniversary convention of the association.

One other Pampa man, J. T. Crawford, has been president of the hardware men.

## Tropical Weather Brings Out Buds On Quince Bush

"Am I in the Panhandle of Texas or did I get sidetracked and land down south?" inquired a visitor in the office of Chief of Police John V. Andrews yesterday as he gazed out the window. The reason for the question was a Japanese quince bush which was breaking into bloom.

The buds on the bush, about 25 in number, are full and rich and should be wide open in a few days if not frozen. Another bush outside the library window has about a dozen large buds. Both bushes bloomed profusely during the summer.

Worthy unemployed who cannot afford automobile licenses are issued "UR" plates free by authorization of the California Legislature. The letters stand for Unemployed Relief.

## NOW IS THE TIME

## TO THINK ABOUT ELECTRIC REFRIGERATION

So far this year, winter has passed the Panhandle by with not even a glance. Whether or not cold weather and snow visit us during the next few weeks we know that it won't be long now before warm spring weather will be here.

Then we will need Electric Refrigerators.

Electric refrigerators are priced about as low as they have ever been but their cost is still high enough to warrant some planning in advance. Why not start now to plan for next summer's comfort? Why not put a few dollars aside each week so that when hot weather arrives you will have a refrigerator fund? Wouldn't it be wonderful to stroll down town and buy an electric refrigerator without having to think about the cost?

Start an Electric Refrigerator fund Now.

# "Well I guess It's good for another year"

## But is it good enough for you?

It may be good for another year, that car of yours. In fact, it probably has several more years of service to give . . . somebody.

But is it good enough for you?

Look at the cars that pass you. They are swifter, and more powerful, yet many of them probably use no more gasoline and oil than you do. Some of them, even less!

Perhaps you are afraid to follow too closely behind one of these cars, because they can come to such a quick, short stop. Big, easy brakes are a modern safety factor, and so is a low center of gravity, the new large puncture-proof tires, safety glass, a sturdy body, and strong steel bumpers.

Listen carefully the next time one of these cars comes abreast of you. Try to hear the engine. When the light turns green, notice how quiet the gears are, and how quickly and absolutely silently they are shifted. The sound of clashing gears soon will be heard no more in the land. Ride in a modern automobile, and you will find that

the ripple of the tires on the road and the swish of the wind in the windows are louder than the murmurs of the machinery.

Then, too, there is comfort. Any automobile dealer will show you how your ride in and not on a car that is swung low and floats along the road instead of bouncing over it. Sitting in relaxed ease is a very important part of modern motoring.

For all these great improvements that make the modern automobile what it is today, there is an outward sign and symbol. That symbol is beauty, which all thoroughbreds possess as a visible proof of perfection.

Now . . . today . . . is the time to select and buy a modern car. Today's low prices save you money;

tomorrow you may have to pay more. See how all the basic costs of automobile manufacture have risen; such increases must mean higher prices, eventually.

Used cars are no longer cluttering the market place; they are fairly priced. Let some one else step up his motoring enjoyment with your present car

while you swing into the lead with an up-to-date automobile at today's bottom prices.

### THE AUTOMOBILE INDUSTRY BUYS

- 54% of the malleable iron used in the United States.
- 77.6% of the alloy steel used in the United States.
- 80.4% of the rubber used in the United States.
- 43% of the plate glass used in the United States.
- 28.8% of the nickel used in the United States.
- 33.8% of the lead used in the United States.
- 53% of the upholstery leather used in the United States.

The automobile industry is the largest single purchaser of these and several other commodities. Figures for 1932, as supplied by the National Automobile Chamber of Commerce.

### THESE COSTS HAVE ALREADY RISEN!

- Automobile pay rolls are 60% higher than a year ago
- Steel costs 15% more.
- Leather costs 41% more.
- Iron costs 10% more.
- Upholstery fabrics costs 50% more.
- Copper costs 29 1/2% more.
- Zinc costs 72% more.
- Crude Rubber costs 144% more.
- Lead costs 48% more.

The trend of the times is to purchase new things — necessities and even luxuries. Thus is being achieved the high aim of raising the American standard of living, giving a fair and equitable reward for human endeavor, and placing more and better things at the command of all.

### NATION EAGER TO DO SHARE AT BIG BALLS

#### Rich and Poor Alike Wish To Help President Aid Young Cripples.

NEW YORK, Jan. 27.—With more than 5,000 birthday balls for the president to be held on January 30, Mr. Roosevelt's 52nd birthday, in nearly 3,000 communities scattered throughout the Union, Carl Boyer, general director for the national committee of the presidential birthday balls, announced today that early returns from the nation already indicated that the last Tuesday in January would mark one of the greatest birthday parties in all history.

From every walk of life and every type of organization have come declarations that the biggest and best presidential birthday balls of them all would be given in such and such a city, town or hamlet in order that the due respect might be paid the chief executive on his birthday and as a means of helping to raise a permanent endowment for Warm Springs Foundation for Infantile Paralysis.

Metropolitan areas are reporting scores of plans under way for numerous birthday balls, while word from the national capital indicates that the observance there of Mr. Roosevelt's birthday will rival the

inaugural ball in brilliance and number of famous patrons and patronesses drawn from Washington's official and social life.

Not to be outshone by the larger cities, even the smallest hamlets in the land are reporting by the hundreds to national committee headquarters that everyone, including leading citizens everywhere, is co-operating to give the largest affair of the year in honor of the president and as a public-spirited means of helping endow the Warm Springs Foundation with sufficient funds to intensify and expand the health-restoring facilities of the institution throughout the country.

Fraternal groups, under the leadership of Joseph T. Fanning, chairman of the division, are 100 per cent strong behind the movement aimed with both barrels at awakening the public to the need of caring for the thousands of children and adults crippled each year by the dread infantile paralysis.

Civic organizations, including every major group of this character, daily add their quotas of birthday balls to the rapidly growing roster at national committee headquarters. In cases where fraternal or civic groups desire to give some other type of entertainment than a ball, every effort is made to assure the sponsors that other observances of the day may be approved by the national committee.

Illinois farmers will gain 2,000 years of time for leisure by participating in the 1934 agricultural adjustment program, the University of Illinois estimates.

Tom Matthews, 16, of Wrens, Ga., lost his left arm in a cotton gin and three weeks later the accidental discharge of a shotgun tore away his right arm.

### NEW BBIDGE SYSTEM EVOLVED BY 'FOUR ACES AND JOKER' CHAMPS

By TOM O'NEIL

NEW YORK, Jan. 27 (AP)—A new system, which they describe as superior to Sims and Culbertson, has been devised by a group of experts who are out to win every major contract event and who already have won many.

The system used no artificial conventions and it lacks a name so far. Tentatively its champion team is called "The Four Aces and a Joker." David Burnstone, Michael Gottlieb, Oswald Jacoby and Howard Schenken are the members with Richard L. Frey the "joker."

With these players in developing the system has been associated the brilliant Waldemar Von Zedtwitz. As spokesman, Jacoby described some features of the system, which the group is willing to put to the test against any other method under suitable conditions. "The system was used by the winners of the team and pair championships of the United States Bridge association recently.

Having played frequently as partners and opponents of Ely Culbertson and P. Hal Sims, these experts have discarded a fundamental of each in opening the bidding.

How It Works  
Vulnerable or not, vulnerable, their standard for opening the bidding is the same in any position, in the main. With Culbertson a stronger hand is required to open the bidding in third or fourth position.

With Sims a one over one bid is a force requiring partner to bid again. With Culbertson a one over one bid leaves partner the option of bidding again. The group for which Jacoby is spokesman permits a pass of a one over one bid if the one over one bidder has passed at the first opportunity to bid.

This permission protects the exception to uniform position bidding. After two passes third hand may make a lead-directing bid, that is bid a suit which he wishes his partner to lead if the opposition gets the contract. For instance if third hand made a lead-directing bid of one club and first hand bid a diamond, having previously passed, third hand could now pass and first hand would know that the club was a lead-directing bid or a psychic.

If first hand, having passed and having a good suit, foresees game possibilities after third hand has opened the bidding and wishes to make third hand bid again, he uses a two over one bid. Third hand never has to make weak openings to protect strong passes in first position.

Opening one no trumps are strong in any position but deny a rock crusher. A hand containing three aces and a jack but lacking a good suit will not be passed in any position. It is not strong enough for one no trump. It is likely to

be opened with a bid of one on a three-card minor.

Show Aces  
The experts have devised a method of hand valuation based on comparison with an average hand. They regard it as far superior to honor trick, quick trick and numerical valuations.

With a part score an opening bid of one is forcing, but an opening bid of two of a suit may be passed if the responding hand has a bust.

Opening bids of three of a suit are shut-out bids not necessarily with tops, designed to deter opponents. This is in marked contrast to the Sims opening three bid on a power house and the Culbertson opening three on a semi-powerhouse.

Culbertson four and five no trump conventions are avoided. These experts prefer showing of aces or suit support to sound out slam possibilities.

C. W. Gibson of LeFors was a Pampa visitor last night.

### Tires of Flight

"The most-hunted woman in the country," Mrs. Irene McCann, weary of dodging the law, is pictured after she walked into a Chicago police station and gave up, asking to be sent back to Missouri state prison, from where she escaped the second time in Dec., 1932. Mrs. McCann was given 10 years in 1931 for aiding her husband in murder of a Joplin, Mo., jailer.

### Ice Road Built By Byrd Party

ADMIRAL BYRD'S FLAGSHIP Bay of Whales, Antarctica, Jan. 27

—Via Mackay Radio (AP)—Add road-building to the accomplishments of Rear Admiral Richard E. Byrd's second antarctic expedition: Beaten hard by the feet of men and dogs and the heavy tread of tractors, a 13-foot highway has been shaped over the four and a half miles across the frozen flooring of the bay from the ship to the barrier on the run to Little America.

Over this smooth road moves an endless, night-and-day transport, 15 dog teams pulling sledges heaped high with boxes, three tractors hauling other sledges bearing gasoline.

Added to this train, the mono-plane "Miss American Airways" makes trips every half-hour carrying food supplies to the camp from where the stores are taken off the flagship.

The work of unloading cargo was delayed when high winds drove the vessel away from her moorings, but was resumed with renewed energy once she was able to get back again. Now the end of the tedious task is near.

PARIS, Jan. 26 (AP)—Deputy Andre Hesse and John Heineix, who fired two shot each without result at one another yesterday in a duel resulting from the Bayonne pup-shop scandal, used efforts of their friends to reconcile them today.
