## Accepts Premiership of France

With the resignation of Edouard Daladier as premier of France, Paris looked to 70-year-old Gaston Doumergue (above) to handle the grave problem of government.

Doumergue, a former president who has been living in retirement in Southern France, has accepted the premiership "under conditions."

Instead of giving only yourself a spring tonic, think about your garden, which also may need one. But don't be in any rush about growing enthusiasts over prospects for beans, lettuce, onions, and flowers.

Farmers will get a billion dollars through government plans this year. But they won't keep much of it long; they shouldn't. Our uncle has helped the most needy; he cannot give a billion to every industry directly.

Most of us won't worry about the "little degrees" if they will just "get along" out of our eyes—we're that unmerciful of our needy neighbors. You can help by attending the Lions club's benefit show.

## Senate Orders Arrest Of Hoover Assistant

### TO BE TAKEN BY FORCE TO SENATE TRIAL

### MACCRACKEN FAILS TO APPEAR—SOLONS ARE DEFIED

WASHINGTON, Feb. 9 (AP)—At the order of the senate, William P. MacCracken—former assistant secretary of commerce for air—was hunted for arrest this afternoon, but his counsel refused to produce him until a writ of habeas corpus had been drawn.

WASHINGTON, Feb. 9 (AP)—The senate defied today by William P. MacCracken—Hoover assistant secretary of commerce for air—ordered his arrest.

He failed to appear for the scheduled opening of his trial on contempt charges, challenging the senate's authority.

Three co-defendants, all attached to air companies that benefitted from air mail contracts in the last administration, were on hand, however.

Once the MacCracken position had been read to the senate, Senator Black (D., Ala.), chairman of the committee investigating air mail contracts, introduced the resolution ordering MacCracken's immediate arrest. It was adopted without a record vote.

MacCracken had been free on his personal bond.

### COLD BREAKS MANY MARKS OVER NATION

New York City Has Coldest Weather in History Of U. S. Weather Bureau.

By The Associated Press  
INTENSE cold and storms raged over two continents today.

The U. S. weather bureau celebrated its 64th anniversary by recording many all-time lows in temperatures.

Ships hugged harbors in the North and Baltic seas.

The New England and North Atlantic states and eastern Canada bore the brunt of the sub-zero weather in America.

Records were shattered in several cities.

### SENATE VOTES 25-2 TO PASS AUTO MEASURE

AUSTIN, Feb. 9 (AP)—The Texas senate today voted 25 to 2 to adopt a free conference report on a bill to extend the time for payment of automobile registration fees until March 31 as a permanent policy.

It would authorize remittance of penalties collected from registrants since February 1, the final date for payment under the existing law.

The senate vote gave the bill four more than the 21 votes necessary to put it into immediate effect upon approval of the governor, if the house records it 100 affirmative votes.

Debate in the Texas house of representatives on a bill to issue additional state unemployment relief bonds centered today on an amendment proposing to increase the state tax on wages placed at horse races to 12 1/2 per cent.

Repeals from the increased tax would be applied to retirement of relief bonds. It was offered by Representative Odis Dunagan of Big Sandy.

A separate bill proposing an increase in the tax was approved last night by the house committee on revenue and taxation.

### LARGE POSSE SEEKS KILLER OF AGED MAN

Angelina County Resident Beaten To Death, Wife Is Slugged; Safe Is Stolen.

ZAVALLA, Tex., Feb. 5 (AP)—One man under arrest today in connection with the beating to death here of Charles Cansler, 80. The man under arrest was taken into custody a few miles from here on the road to Huntington and rushed to Lufkin for safekeeping. He was said to favor the description of one assailant.

ZAVALLA, Angelina County, Feb. 9 (AP)—Three hundred citizens led by Deputy Sheriffs scoured this section today for two men who beat Charles Cansler, 80-year-old Zavalla resident, to death, slugged his aged wife and stole a safe in the Cansler home.

Mrs. Cansler was slugged but was not considered in a dangerous condition.

The bandits left the aged man bound and gagged on the floor. His wife was found bound and gagged on a bed nearby.

Revived enough to talk, Mrs. Cansler said the two men came to their home about 4 a. m. just after they had arisen this morning, slugged her husband and herself and took the safe and fled.

### REGULATION OF EXCHANGES IS AIM OF BILLS

NUMEROUS PRACTICES OF PAST ARE OUTLAWED

WASHINGTON, Feb. 9 (AP)—President Roosevelt's message asking for stock exchange regulation will be sent to congress today after 3 p. m. E. S. T. The White House informed both senate and house leaders that the president desired both branches to remain in session until the message reached capital hill. This will be done.

WASHINGTON, Feb. 9 (AP)—A 14,000-word bill proposing stringent federal regulation of stock exchange operations was ready for introduction today as President Roosevelt polished a special message to congress upon the same subject.

Authors of the projected legislation, describing it as a roundup of various proposals gathered from two years of study, reported identical measures would be introduced in both the senate and house as soon as the chief executive's message arrived. Bills for regulation of the commodity exchanges will follow.

The most stringent of the proposals now ready for introduction was an absolute prohibition on pool operations, with provision for making them a criminal offense subject to a heavy fine and imprisonment.

Also, the bill was understood to deal with other market operations which have led to abuses in the past, including marginal trading, short selling, excess credit for speculation, trading by brokers for themselves and others at the same time, operations of specialists, and various devices for manipulating the market.

## In Death Trial

Sensational testimony is forecast when Miss Artemus Gates, above, and Miss Mary A. Gatewood, below, registered nurses, take the stand for the state in the "high-ball murder" trial of Dr. Sara Ruth Dean, now in progress in Greenwood, Miss. Dr. Dean is charged with the poison killing of Dr. John P. Kennedy.

## BACKSTAGE IN WASHINGTON

By GILMORE N. NUNN  
Washington Correspondent  
The NEWS

WASHINGTON, Feb. 9.—Things are looking up out on the Hill, these days! Washington had so much showmanship in its legislative chambers last week that some of the more spectacular congressmen felt right at home, and began working, constituent-pleasing representatives and senators were paid so little attention that they have begun to change their ways. Both legislative chambers played to packed houses for the week during which Will Rogers stay, and just about the

Gilmore N. Nunn time he got ready to leave, the caravan of "Moulin Rouge" actors and actresses left Washington and forthwith stormed the Hill, bringing two more days of full galleries for the limelight loving law-makers.

Some of the more earnest congressmen can't understand why there's a full house one day, and a perfectly empty one the following day, when both days were given over to the discussion of the same bill. They'll look up from their desks one of these days and realize that the galleries are jammed just because some celebrity happens to be there, and not because one of the country's outstanding statesmen is discussing a bill. A few of the brighter boys realized that last week, and forthwith changed MacCracken with contempt of court in connection with the air mail contract probe so they could bring him before the senate bar (in the main senate chambers) and draw a full house—or at least a straight! Then they played a dirty trick on the public. After filling the galleries, it was finally announced he would be brought up "some time before Friday, Feb. 9th"—that way, you see, people will come every day until Friday hoping to see the show.

The market then eased, fluctuating within the early range and at one time almost reaching the initial lows with a drop of 12 points on realizations and in sympathy with easier stocks.

Near noon, prices recovered on bullish weekly mill takings, May reaching 12.35 and July 12.41, just one point below yesterday's close.

## BOYS ARE DUE TO BATTLE IN DISTRICT PLAY

**CLOSE BATTLES HERE TONIGHT ARE FORESEEN**

The Harvesters and Harvestettes will face strong opposition tonight in their last games before entering the tri-county play-offs next week. The fast Allison teams will come to Pampa tonight, with the girls' game scheduled for 7:15 o'clock.

Hedley is hoped to win the boys' playoff with Panhandle, and the Panhandle girls are likely to win from Hedley, which will mean that one Carson and one Donley county team will play here next week for the right to enter the district tournament here in the following week.

Pampa teams are rated as underdogs, with the Harvestettes given the best chance to stay in the race. Hedley's Owls have won three out of four games from the Harvestettes. The Harvestettes nosed out Panhandle but the showing made by the Panhandle girls against Hedley Tuesday night made things look bad for the local sextet.

## FRATERNIZING AMONG CLUBS FROWNED UPON

**BOSSSES WANT PLAYERS TO DEMONSTRATE FIGHT SPIRIT**

BY ALAN GOULD, Associated Press Sports Writer.

**NEW YORK, Feb. 9 (AP)**—Major league baseball is due for some brisk, if not actually warlike, action on the diamonds this year, providing the athletes carry out on the field with them the conviction of their bosses, the club owners, that the game needs more aggressive playing spirit and less fraternizing to attract increased public interest.

No special call to arms has been sounded, but it is a fact that the magnates of the National league have endorsed the initiative already taken by their chief executive, John A. Heydler, in promoting more inter-club rivalry and that the American league owners are of a similar mind. Heydler voiced a warning against too much fraternizing at the outset of the 1933 season.

Short of rowdiness and actual hand-to-hand conflict, players will be urged to adopt the attitude that no favors are to be asked or comradeship manifested, on or off the playing field. Unpresses, while not having their disciplinary powers restricted in any way, will be instructed to turn their backs upon outbursts of high dudgeon. In fact it will be quite all right with the managers if new records are set for the standing or running high dudgeon.

## Unknown Leads In Cue Tournament

**NEW YORK, Feb. 9 (AP)**—Two players who have yet to earn their title spurs, and a pair of veterans, were in the ways of billiards, today topped the standings in the world's three-cushion tournament, each with unblemished records.

Heading the list of 12 star players in the pool of triumph was 33-year-old Allen Hall of Chicago, who had hung up three straight victories.

Only a notch below Hall with two victories each were 27-year-old J. N. Bozeman Jr. of Vallejo, Calif., and the two "old-timers" Willie Hoppe, former balk line king seeking his first three-cushion crown, and Johnny Layton, the Sedalia, Mo., redhead who has finished in front on ten different occasions.

## Coach Mitchell Gets Tip on Big Joe Fortenberry

When the Ogden Boosters met the Metzgers team of Amarillo in Burton gymnasium last night, the first center coached by the late Stan Burton, of West Texas Teachers' college fame, faced the last center produced by that great coach. The first center was Coach Odus Mitchell of Pampa high school and the last center was "Giant" Joe Fortenberry, now with the Boosters.

The huge crowd that packed the gymnasium laughed long and loud as Mitchell, 5 feet 9 inches, stepped into the center ring with Fortenberry, 6 feet 7 inches. And Mitchell got the first tip-off. Fortenberry looked at the "little shrimp" and decided he didn't have to jump but the seldom used "springs" in the Mitchell legs functioned and he went high in the air.

## CLINGMAN TO MEET DETTON MONDAY NIGHT

**GARRISON AND BAUER TO WRESTLE IN SEMI-FINAL**

All kinds of wrestling is in store for Pampa fans at the Pla-Mor auditorium on Monday night. The main event will be fast and clean, with a veteran giving and up-and-coming youngster a lesson. The semi-final could be anything and the opener will be a riot.

Sailor O. Clingman will meet Dorry Detton in the main event. The two boys put on a marvelous 30-minute exhibition of wrestling here two weeks ago. Last week Detton lost two out of three falls to Yauli Joe, Sooner Indian.

Joe Bauer, comical German rough and tough man, is matched with Pat Garrison, local boy, in the semi-final. The bout may be a wrestling affair or it may be rough, depending on who starts things going with a wallop. Harry Dowler, better known as Andy Gump, will make his first appearance here in a long time when he tangles with Lobo Brown of Amarillo. It will be the riot of the night.

Detton of Utah is one of the most promising youngsters in the game today. All the boy needs is competition and plenty of it. He learned a lot about the wrestling game from the Indian, and if he remembers some of the things taught by experience, he should give the Sailor a merry evening, even though he will be badly outmatched.

## Football Rules Committee Will Convene Today

**ATLANTA, Feb. 9 (AP)**—Suggestion for alteration and clarification of intercollegiate football rules go before a jury of experts tonight when the football rules committee convenes in Atlanta.

The committee, which will meet in the afternoon, will be made up of representatives from the National Football League, the American Football Union, and the Intercollegiate Football Association.

**HIGHEST TEST AND anti-knock**

at the price of ordinary gasoline

Put that in the tank for **INSTANT STARTING**

There is no mystery about what it takes to start a car in freezing weather.

Just ask any experienced driver, mechanic, gas station operator, gasoline chemist—anyone who knows engines and motor fuels. You will get only one answer: **HIGH TEST.**

Once you try a tankful of Phillips 66, you will know from personal experience that this high test gasoline acts like a hand of dynamite under the hood.

A tip-toe touch of the starter spins the icy motor into instant action. Warm-up is faster. Acceleration more flashing. Power and mileage increased. All without the faintest ping or knock, even when you jam down the gas, because High Test Phillips 66 is also high Anti-Knock.

Remember, Phillips doesn't merely say "High Test." Phillips proves it by printing its gravity range in plain figures. See for yourself how high they are. Then look for the gravity figures—if any—the next time you read "high test claims" elsewhere.

Phillips 66 quality reflects our intention, a world's largest producer of natural high gravity gasoline, to give more value for the money. Hence, at no extra cost, Phillips 66 offers high test, high anti-knock, and CONTROLLED VOLATILITY which insures high test performance in any weather.

Phillip-up with Phillips, today. That's our slogan and our earnest invitation for you to try it... to discover for yourself there is a difference in gasolines.

**GRANDMOTHER GETS IT**

**PHILADELPHIA (AP)**—Dear old grandmother gets the verbal abuse of Dr. Garry Cleveland Myers, psychologist and child training expert from Cleveland, Ohio, returning the silver-haired lady at the worst mischief maker in bringing up children, he said "young married couples would do better to go on public relief than to remain under the thumb of a grandmother."

### THREE-PUTTING NOT DUE TO WRONG CLUB, SMITH OPINES

#### Most of Time The Approach Shots Are Bad—Just Like Billiards, Says Scot.

LOS ANGELES, Feb. 9 (AP)—The golfer who finds himself consistently three-putting greens blames the wrong club most of the time, in the opinion of MacDonald Smith, one of the game's best professional putters.

"It isn't the putter," said the silent Scot from Carmouiste who was in one of his rare talkative moods. "The golfer who is three-putting is blaming the wrong club. Most of the time it isn't the fault of his putter. Generally his approach shots are bad. When you are getting your second and third inside the fifteen foot circle you can poke the ball into the cup."

"Outside of that you have to hit the ball and it is a different stroke. There's a lot of difference in putting from fifteen feet or less and from thirty feet."

"Just like billiards. You can play coaxing shots a while and get the feel of the cue. Then you change and play three-cushion where you have to hit the ball to catch the banks. Then switch back and try coaxing the ball for closeup shots again. You find you've lost your touch."

"The same goes for putting. From fifteen feet or less it is a coaxing stroke where you have the 'feel' of your shots. Outside that circle it is a hitting stroke and you lose that real putting touch."

### HERRERA TO LEAVE TEXAS

#### Will Seek Fat Purse and Tougher Foes in Chicago and New York Rings.

BY BILL PARKER

Associated Press Sports Writer  
Tony Herrera, Texas junior welterweight champion, soon will be riding eastward in search of bigger fights and purses. Tony, whose contract is held by Promoter Dick Griffin of Port Worth, has been in Texas several months fighting for Griffin and realizing lean financial returns because his bouts have failed to attract large crowds.

He has fought Tracy Cox, Lou Massey and Sammy Mandell in Texas and none of the fights returned enough profit to warrant Herrera's stay in Texas. In the east he ranks with the national boxing association as one of the three leading lightweights. In New York, Chicago and the larger cities he can demand and get a purse larger than the entire "gate" at his Texas fights.

Tony wants to return east and reap the rewards while he can fight with the best in his class. Promoter Dick Griffin led over the crowd at the Herrera and Lou Avery match two weeks ago at Fort Worth and said:

"I guess this fight and the one scheduled at El Paso against Sammy Mandell will be the last for Tony in this state. He isn't making enough to live on trying to help the game down here. I guess it will be back east for him until the boxing game shows bigger financial returns in Texas."

#### Tracy Cox Wallows

Several months ago Roy Calamira, a popular and hard punching junior welterweight who is among the best in Texas, fought Tracy Cox and after being knocked down several times was rocked to sleep. After this defeat Calamira appeared to slow up. His blows lacked their usual steam. He didn't until recently, appear to have the zip in his fight that he previously boasted. Explaining the cause of his poor form, Calamira said:

"Until three weeks ago I still was suffering from the blows I received from Tracy Cox. When I would try to sleep at night my ears would continually ring. But the ringing has stopped and I am again in good condition to fight. I think the same thing is the trouble with Willard Brown. He isn't near the fighter now he was before taking such a beating from Tracy Cox. Of course he will come back into his own but it takes time to get over a Tracy Cox shellacking."

Calamira then stepped into the ring and whipped Cullen Williams in 10 rounds, fast, filling. With Roy again in good condition, junior welterweights in this section will find him a tough customer to handle.

#### ACCUSES 'MACHINE GUN'

SAN ANTONIO, Feb. 9 (AP)—A L. Blair, president of the First National bank of San Marcos, has positively identified George "Machine Gun" Kelly, serving a life sentence for kidnaping in Leavenworth penitentiary, as one of three men who robbed the bank of \$7,000 last May. Sheriff M. M. Wren of San Marcos declared he would question the convicted kidnaper in his cell at the prison soon.

#### BIG RANCHES SOLD

ALPINE, Tex. (AP)—Henry Richardson of San Antonio, in the largest land deal in the Big Bend section in years, today, purchased from Dick Arnold the T. W. and Lake ranches in Brewster county, comprising 30,000 acres, for about \$250,000. The ranches formerly were owned by Jackson and Harmon.

#### AMERICANS FREED

PALMA, Mallorca, Feb. 9 (AP)—Four Americans sentenced to prison for assaulting a civil guard here and then pardoned were released from jail today. The four are Mr. and Mrs. Clinton B. Lockwood of West Springfield, Mass.; Roger F. Mead of New York and Edmund A. Blodgett of Stamford, Conn.

### Migrations of Frogs Puzzling

RAYMONDVILLE, Feb. 9 (AP)—Scientists have long been puzzled by sudden migrations of lemmings which cannot be halted even by the sea, but Nat Wetzel is more puzzled by a similar phenomenon among bullfrogs.

He has a pond surrounded by a two-foot close mesh wire fence in which he breeds bullfrogs. Usually this fence is sufficient to keep the hoppers in bounds but when the universal urge to migrate strikes them the barrier proves no hindrance at all.

Eight years ago the frog population of Wetzel's pond suddenly deserted and last week, following excessive rains, the same thing happened. The fence was hurdled by hundreds of frogs which proceeded north and highways became so slippery with them as to be very dangerous for automobiles to travel. All the frogs in the community seemed to join the parade.

The lemmings swim into the sea and the Willacy county bullfrogs headed into the sandhills.

#### ASSESSED DEATH

HOUSTON, Feb. 9 (AP)—After deliberating more than 36 hours the jury in the murder trial of James (Gus) Pappas, 40-year-old waiter and former Galveston confectioner, gave him the death penalty today. Pappas was charged with slaying Mrs. Bess Burt, 33, on January 6, in front of her home.

North Carolina, in which dairying is a major phase of the agricultural industry, did not have a commercial dairy plant until 1909.

**FRENCH RIOTING CALLED CLIMAX OF DEPRESSION**  
Gallic Temperament Can't Take Hard Times

NEW YORK, Feb. 9 (AP)—The unrest in France has its roots, in the opinion of financial authorities familiar with French conditions, in the refusal of that republic to capitulate with the depression.

Desperate efforts to maintain the economic structure of the boom days have kept the cost of living high, and tax burdens remain crushing. Incomes have dwindled.

The flareup is regarded primarily as another manifestation of the dilemma of continued high output with persistently shrinking income. French business and financial statistics have seemed until recently to indicate that the world-wide spell of hard times was dealing lightly with France, but students of international finance say the statistics have failed to reveal the whole story.

It is also well known that the gallic temperament does not respond to economic adversity lightly. When the French were pleading for currency stabilization at the London economic conference last summer, however, members of American and other delegations were astonished to hear Frenchmen assert informally in the conference lobbies that any severe shock to French economic stability would bring Fascist and radical movements in France threatening extreme violence.

One Frenchman was then heard privately to expostulate, "do you think if we had 2,000,000 or more unemployed workers in France on a bare subsistence of food in England, that they would sit quietly about on park benches as they do here? Of course not, they would be rioting."

**Cummings Notes Bremser Was Also Held For 23 Days**

WASHINGTON, Feb. 8 (AP)—Attorney General Cummings today said that release of the kidnaped Edward G. Bremser of St. Paul was effected through payment of a ransom.

Discussing the case with reporters after orders to intensify hunt for the abductors, he said that Bremser was released near Rochester, Minnesota, shortly before midnight last night and returned to St. Paul alone by train and bus.

"It is clear that a ransom was paid," he declared, "and the ransom demanded was fixed originally at \$200,000 but whether all or only a part of that was paid was not indicated by the attorney general."

He noted that Bremser had been held for 23 days, the same time as was John O'Connell, of Albany.

He said the Bremser case was the only one over which the department of justice had had charge that had not been solved, with the exception of the Lindbergh case.

**Japanese Forced To Resign Because He Condo Disloyal Act of 1337.**

BY GLEN BARR,  
Associated Press Foreign Staff TOKYO, Feb. 9 (AP)—Charges he condoned an example of disloyalty to the throne occurring six weeks ago drove Baron Kuma Nakajima from the office of minister of commerce and industry today.

His resignation was accepted Premier Saito who immediately named Joji Matsumoto to succeed him. Matsumoto, president of Keio university at Osaka, and a member of the house of peers, will be installed tomorrow.

Nakajima was under heavy pressure over certain of his acts but the immediate and principal cause of his downfall is said to be his disloyalty to the throne in Japanese history.

The Shogun Ashikaga is credited to numerous traitors in other times but Nakajima drew a comparison between that Shogun Oliver Cromwell of England, recently the baron's enemies repudiated the article and charged that Nakajima was condoning treason to the throne.

He apologized to both houses of parliament. He avowed the ideas had changed since he was written the article. All his were in vain. The stigma was ascribed too serious and his was the cabinet destroyed.

Piano solo: "Girl With Flaxen Hair, De Bussey, Mrs. Jack Mundy. Vocal solo: "They Call Me Mimmi," "La Boheme," Puccini, Mrs. W. Garman.

Vocal trio: "Waters of Minnetonka," Mmes. Harry Lyman, R. Jones, and C. C. Dodd, with violin obligato by Miss Eleanor Rey.

Vocal solo: April, original composition of Mrs. H. A. Nelson, who will be the singer.

Piano solo: "Viennese Dance No. 1," Friedman-Gartner, Miss Lorene McClintock.

Negro spiritual number by Mrs. Anna of Cahoon.

Nocturne, Protheroe; Snowstrangers, by club chorus.

Miss McClintock and Mrs. Walter Stein will be piano accompanists.

## CLASS TO GIVE ROOM SHOWER, MEMBERS PLAN

### Office Vacancies in Fidelity Class Filled

A St. Patrick's day tea, with a room shower that is expected to add needful furnishings for their class room, was planned by Fidelity class members of the Methodist church at a special and business meeting last evening.

Misses Katherine Roberts, Geneva McFarling, Mary Idelle Cox, and the teacher, Mrs. Gaston Foote, were hostesses at the home of Mrs. Foote.

Officers were elected to fill vacancies. Miss Alice Gordon, second vice president, became first vice president with the resignation of Miss Mabel Kaber, and Miss Hermina Stover succeeded to Miss Gordon's office.

Contest Started.

Miss Louise Whitfield was elected assistant secretary, and Miss Cecelia Chapman of the evangelism committee. A contest in church attendance was started, and plans were made to send absentee cards to absent members weekly.

Valentine appointments were used at tables where games of hearts were played. Refreshments were tea, heart-shaped cookies, and candy hearts holding tiny candies.

Class guests were Misses Bernice Larsh, Margaret Ford, Evelyn O'Shields, Neil Moore, Jewel Shaw, and Olive Watkins. Members present were Misses Virginia Dyson, Florence Jackson, Charlotte Embry, Clarice Fuller, Whitfield, Gordon, Stever, Kaber, Lillian Muller, Clio Fendrick, Ila Poole, and Mrs. C. H. Whitfield.

## Pours Tea

Mrs. F. E. Leech was one of the women who poured tea when Woodrow Wilson Parent-Teacher association honored national founders day with a pageant and silver tea at the school building yesterday afternoon.

## BAKER PTA HISTORY RECALLED TO HONOR FOUNDERS--SILVER TEA IS GIVEN BY WILSON UNIT

### PAGEANTS AND CANDLE LIGHTING CEREMONIES ARE CONDUCTED YESTERDAY BY BOTH ASSOCIATIONS

REVIEWING accomplishments of B. M. Baker Parent-Teacher association in its four years of existence, Mrs. Claude Lard, one of the charter members and present chairman of the city Parent-Teacher council, spoke following a founders day pageant yesterday.

Purchase of a piano, furniture for a teachers' rest room, trees for the school ground, school supplies for needy pupils, playground equipment, music memory records, and 48 new chairs for the auditorium were mentioned, with starting the school cafeteria and assistance in securing a caliche surfaced street connecting the school building with city paving.

Tribute to Teachers

Teachers were praised for their cooperation in all projects, and a memorial candle was lighted for the teacher, Edna Underwood, former teacher. Members voted to contribute to the state memorial fund in her honor. The assembly stood in silent prayer in her memory.

Candle lighting before Mrs. Lard's talk honoring the Texas congress of parents and teachers; Mrs. J. E. Griggs, district president; Mrs. Joe Smith, organizer of B. M. Baker association; Mrs. W. A. Gray, Mrs. J. H. Blythe, and Mrs. Lard, past presidents; Mrs. Roy Holt, president this year; Superintendent R. B. Fisher, Principal J. A. Meek, teachers and pupils of the school.

A pageant, "A Dream of the Past," honored Mrs. Alice Birney and Mrs. Phoebe Hearst, national founders.

Speaker Discusses Movies

Mr. Mullen, First Christian minister, was the special speaker. His subject was "Educational Agency--The Picture Show." Movies have different goals than those of the home, school, and church in teaching, he said, and many films portray people living in idleness and wealth, without making an effort to create a living or committing crimes and going free.

Pupils of Mrs. A. J. Johnson's room presented a play, "February Days." Russell Roof played two violin solos, one accompanied by Miss Martha Waldman, and another by Ernestine Holmes, the school orchestra, directed by Walter Hurst, played several numbers.

A nominating committee including Mrs. Henry Cox, Mrs. Earl Roof, F. A. Meek, and Mrs. Lard was named.

In addition to Mrs. Lard, charter members of the association present were Mr. Meek and Mrs. R. K. Douglas.

Woodrow Wilson Program

A silver tea was a part of the founders day program at Woodrow Wilson Parent-Teacher association yesterday afternoon. A pageant honored founders of the organization, and officers of national, state, and local groups.

Mrs. J. B. Townsend, past president of the Pampa Parent-Teacher council, was the speaker. She recalled the history of the organization and paid tribute to its leaders. Candles were lighted to honor these leaders.

Program numbers included selections by the school kid band, "The Fairies," by girls of Miss Gething's room, and "A Model Child," by pupils of Mrs. E. E. Koenig's room. Mrs. F. E. Leech gave the invocation.

Tea was poured at a prettily decorated table by Mrs. Leech, Mrs. Roy McMillen, and Mrs. W. Purviance.

Announcement was made that the cast of the play, "Dr. Jim," which will be presented by the association next month, is to meet Tuesday evening at 7 at the school building.

Mrs. J. E. Anderson of LeFors shopped in the city yesterday afternoon.

## Sunday Department Program Announced

Sunday morning's program in the intermediate department of Methodist Sunday school will be presented by Mrs. Whittenburg's class. Betty Bell will be leader for the following program: Song, America, by assembly; prayer, Mrs. C. T. Hunkapillar; scripture, Isa 9:6. Edwina Gilbert; talk, Ethel Wilder; song, Faith of Our Fathers.

## HONOR 43rd ANNIVERSARY

A family dinner at the home of Mr. and Mrs. W. M. Castleberry, 231 N. Ward, yesterday marked the forty-third wedding anniversary of the couple. Only members of the family were present for the informal gathering and bountiful dinner.

## Figures Remain Figures at End of Paris Shows

BY ADELAIDE KERR, Associated Press Foreign Staff.

PARIS, Feb. 9 (AP)—Buyers were hurriedly completing orders at the end of the 1934 spring fashion shows, most of them wishing to start their return to the United States today.

Figures remain figures and the evening silhouette, which is mostly signed along form fitting lines, features long trains, high front and w back décolletés and slit skirts, sometimes worn over ruffled petticoats.

Numerous bizarre effects are displayed in evening clothes, some of which are designed as bird silhouettes having fabric wings standing out over the shoulder blades or back of the hips.

Silhouettes Straightened.

The day silhouettes are more lightened with smooth fitted, outers and long sleeves having fullness in the upper arm. Natural waists are accentuated by fancy lites. Skirts are longer, from six to eight inches from the ground. Many of them are six inches on each side.

Necklines are fairly high and there is a tendency to accept day dresses with revers jutting out on each side in some cases hanging. Jabots, frills, and chin bows, gorgon and taffeta accent the neck.

Many of the hats worn both during the day and in the evening are of medium brimmed. There are also some halo hats among the very smart accessories.

Day colors are generally sober, such as navy, beige, grey, and black, with white or other bright accents.

Evening colors are light blues, pinks, greens, yellows, brilliant emeralds, purples, fiances, white, and black.

The fabrics are wools, alpaca, fetas, pebbled crepes, satins, and silks.

## Benefit Tourney of Altar Society Enjoyed by Many

Forty tables of players crowded the city hall club room for the benefit game tournament sponsored by the Altar Society of Holy Souls church Wednesday evening.

High score in contract was made by Mrs. J. J. Jarratt, in auction by Roy Williams, and in dominoes by Miss Mary Oswald. Mrs. Henry Taylor received first door prize, an oil painting by Miss Mary Dyer. Second door prize went to Mr. A. T. Hickman, and third to Fred Bozeman.

Songs by Misses Jackie Jones and Dorothy Doucette were appreciated entertainment numbers. Tables for the games were appointed with table and extra napkins, hand decorated by Misses Mary and Grace Dyer.

A delicious ice course was served after the games.

## PREMIER WILL OPEN LITTLE THEATER PLAY

### "CAT AND CANARY" IS TO BE SHOWN AT LA NORA

A GALA premier for "The Cat and the Canary," to be presented at La Nora theater about the middle of March, was proposed in a board meeting of the Little Theater Monday evening in the basement of the Brunow building.

The opening night would be staged Broadway fashion, similar to the recent movie premier at the La Nora.

Little Theater officers chose the theater for presenting the play because it has a larger seating capacity than the city auditorium, and also equipment for the elaborate lighting effects needed in the popular mystery-comedy.

Dates Await Schedule

Definite dates will be set as soon as Tom Blair, theater manager, receives his booking schedule for next month. Ticket sales will start two weeks before the opening night. Two \$5 cash prizes will be offered to the school boy or girl who sells the most tickets.

A local "bill-stair" cast is at work on the play under direction of Ed-Damen. Members included Mrs. Lola Beatty, Dick Hughes, Paul LeBeuf, Neal Benn, Mrs. G. L. Greene, Red Enraves, Miss Irene Iraine, and Wayne Hutchins.

Familiar as a movie, "The Cat and the Canary" started its popular course with a two-year run in New York on the legitimate stage. The local version promises to be the most popular and best performed play the Little Theater has ever staged.

A regular meeting of the organization is scheduled Monday evening. The president, Paul LeBeuf, announced that special entertainment has been secured and members are promised an evening of fun.

## JUNIOR TREBLE CLEF CHOOSES NEW OFFICERS

Officers were elected to fill vacancies in the Junior Treble Clef club at a meeting Thursday afternoon. Miss Christine Stark was chosen to succeed Miss Hester Lester, resigned, as secretary and treasurer. Two reporters, Irene Brewer and Dorothy Harris, were appointed.

The club accepted the invitation of the senior Treble Clef club to attend an open house this evening at the city hall club rooms. Misses Marie Tinsley and Mary Elizabeth Nees will be hostesses with a Valentine party Monday at 4:30, and the club's next regular meeting for choral practice will be next Thursday.

Those present yesterday for the business hour were Misses Dorothy Dadd, Christine Stark, Helen Marie Jones, Irene Brewer, Mary Elizabeth Nees, Marie Tinsley, Rosa Bell Reed, and Mary Parker.

# HURRICANE STRIKES GERMANY, SPREADING DEATH AND RUIN

## SCORES HURT IN BERLIN AS STORM RAGES

### STREETS ARE LITTERED WITH DEBRIS; HOUSES ARE UNROOFED

BY TOM WILHELM, Associated Press Foreign Staff.

BERLIN, Feb. 9 (AP)—A near-hurricane swept Germany and roared across Scandinavia during the night and early today killing several persons and inflicting scores.

It was one of northwest Europe's worst storms in years.

Three were known to be dead in addition to an undetermined number of sailors drowned when the fishing vessel, Comdor, sank with all hands on board in the estuary of the Weser river.

Baltic and North Sea shipping was driven to harbor by the storm. Widespread damage was caused along the coast.

Hamburg, Breslau, and Stettin all reported heavy damage from the high winds. At least one person was killed by a falling smokestack at Stettin.

So suddenly did the storm strike Berlin last night that many motorists were injured by debris hurled into the streets before they realized the seriousness of the situation.

Nearly every house in a suburban colony for the unemployed near Berlin was unroofed.

Setting about to clean up the streets, Berlin firemen joined police and Nazi storm troopers before dawn.

They found a tangled mass of wires, signs, statues, and sections of roofs.

After midnight the rain storm changed to snow, driving sleet over nearly all of north Germany.

Several cities reported wind velocity of 63 miles an hour.

From Copenhagen came word of heavy snow and hail, with the streets blocked by fallen trees and smokestacks. Two persons were killed by a falling stack at Mamloe, Sweden.

## How to Raise Garden in Windy Weather Is Told

BY T. J. ELDRIDGE.

Despite the dry, cold, windy spring in 1933, and a dry summer, Mr. and Mrs. J. E. Hamilton, who live 3 miles west of Pampa on the Berger road, grew a fine garden.

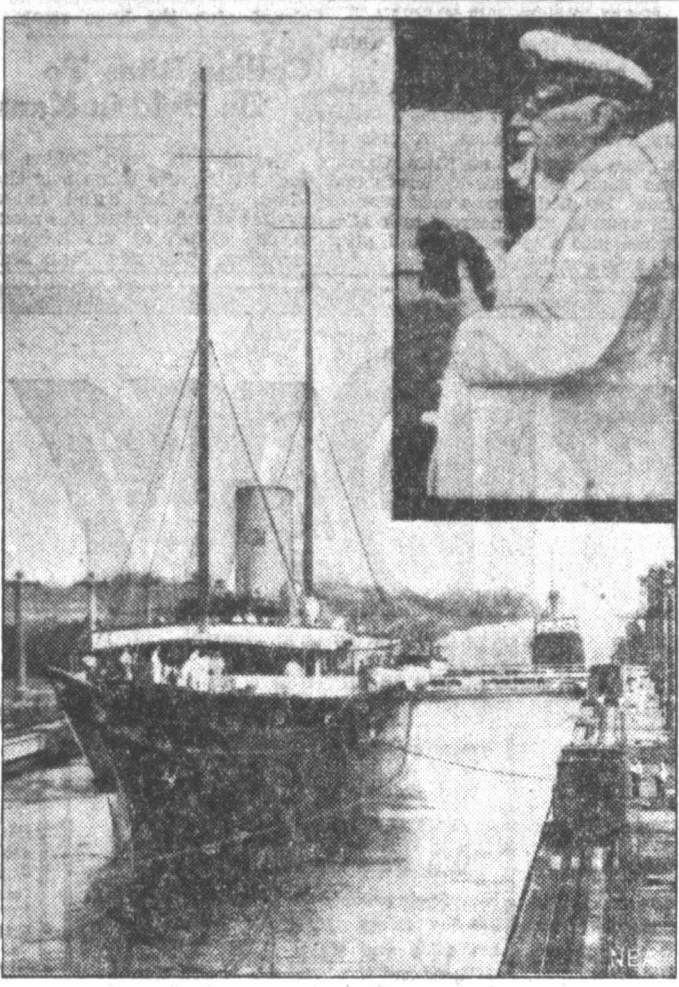

There was about a quarter acre in the plot, with 24 varieties of vegetables grown. There was 500 square feet of garden.

Mr. Hamilton used a sprinkling of lime in each row or hill. The land was not plowed deep in spring; just top worked. Mr. Hamilton estimates that the crop at market price was worth near \$200.

They turned the water on as needed, or about every 10 days, into small trenches made by a hoe. As soon as the soil was dry enough, a mulch of fine earth was worked over the top, to a depth of one inch. Weeds were destroyed as they appeared.

Mr. Hamilton is employed by the Empire Gas & Fuel company. He is also president of a Bible class of a Baptist Sunday school here.

## Morgan Yachts and Forgets Taxes

Far, far away from caustic comments on the income taxes he didn't pay, J. P. Morgan, New York financier, is dodging wintry blasts in tropical waters, aboard his palatial yacht, the Corsair. The pleasure vessel is shown here at Gatun lock, Panama canal, and the famed financier in the inset, wearing yachting costume and smoking the pipe of contentment.

## B. M. BAKER CHILDREN SING AND PLAY THANKS TO LIONS FOR HELP GIVEN TO SCHOOL

## 12 Injured In Train Collision

RHINELANDER, Wis., Feb. 9 (AP)—Dan Jones, a railroad fireman, was missing, and at least 12 persons, seven of them passengers, were injured when two Northwestern railroad passenger trains collided last night at a turntable track intersection near Monroe, 15 miles southeast of here.

Jones, the fireman on train No. 112 en route from Ashland to Milwaukee, was believed caught under the locomotive which was derailed and capsized in a ditch after it had crashed into train No. 12, operating between Antigo and Watersmeet, Michigan.

George Steber of Antigo, engineer of train No. 12, also was caught under the wreckage. Badly scalded by escaping steam and water, he lay for more than two hours in sub-zero weather, until rescuers released him by cutting away the twisted steel.

Lawrence Miller, employed with a derrick contractor, received emergency treatment for a mashed hand at Pampa hospital this morning.

Dr. W. Purviance returned from Waco last night. Dr. Archie Cole remained to undergo treatment and take a special course.

M. M. Newman of McLean spent yesterday in the city.

### CHURCHES

#### CHRISTIAN SCIENCE SOCIETY

901 N. Frost St.

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 11.

The Golden Text is: "The fruit of the Spirit is in all goodness and righteousness and truth" (Ephesians 5:9).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Whither shall I go from thy spirit? or whither shall I flee from thy presence?" (Psalm 139:7).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In Christian Science, Spirit, as a proper noun, is the name of the Supreme Being. It means quality and quality is applied exclusively to God. The modifying derivatives of the word spirit refers only to quality, not to God. Man is spiritual. He is not God, Spirit. If man were Spirit, then men would be spirits, gods. Fine spirit would be mortal, and this is the error embodied in the belief that the infinite can be contained in the finite" (page 93).

There are 44 children in the children's band of the B. M. Baker school yesterday presented their thanks for help rendered the school by the Lions club.

Directed by Walter J. Hurst, the band played very well as a beginners' group and the clarinet section was featured. Little Russell Roof played a violin solo.

There are 26 began weekly practices in September and October, and 18 started in January. Only five of the children had had any musical training. The group owns its bass drum, two melopones, 24 music racks, and has equipped its members with uniforms and music. It has no debts and \$40 in its treasury, besides having contributed to purchase of collapsible chairs for the school auditorium.

Young Coeden was said to have been missing for 24 hours from the Hotel Criton, in the Place de la Concorde.

WEATHER SETS RECORD

WASHINGTON, Feb. 9 (AP)—It was six below in the capital this morning—a record for at least 13 years. High officials, government employees and all the rest were surprised to awake shivering to such temperatures. The weather bureau had predicted five above.

(Continued from page 1)

We'll forego our usual comment to quote that sturdy old warrior of Hemphill county, Judge H. E. Hoover, who yesterday so impressed Pampa Lions that they just "up and made" him an honorary member. Judge Hoover is not on the trail of the big packers, whom he charges with having made millions while starving out cattlemen and hiking prices of steaks to create vast underconsumption. He scoffs at the idea of overproduction. A bill is pending in congress now to make beef a basic commodity, subject to a tax to equalize prices and control production. He is working for that bill and urging that Panhandle residents send a telegram in support of it. But he does not regard the bill as a permanent remedy for basic evils.

JUDGE HOOVER, who literally "stepped into" the Panhandle about 48 years ago, is a democrat—"bred in rebellion and conceived in secession," as he says. But he does not measure his democratic ideals in terms of his party, unless the party adopts those ideals. He believes that every great republic has won success with two parties in rivalry and strong independents casting the deciding votes on vital issues. He thinks Texas would have a better government if the republicans were successful at the polls "a time or two." He sees present conditions as a "revolution of the oppressed." But, while scathingly denouncing the late republican regime, he places national welfare above party and blames the people for having a government that makes possible the concentration of most wealth in the hands of 200 men.

HE does not blame the rich men. "You, in their position, would have done the same," he says. Power is in the hands of the people, and their inability to see who has their interests at heart is basically the trouble, he added, Judge Hoover

declared that Franklin D. Roosevelt is the only president who has had the courage to "turn a cold shoulder" toward the suffering people at the forks of the creek.

THE Canadian man, veteran of an era when every man was "on his own" sees the impossibility of continuing that system under present conditions. He severely condemns the American tendency to "seek private advantage rather than advantage through the general good." It is truly broadminded for an old cattleman to make such an admission and to adopt such a philosophy. We long for Panhandle residents can with difficulty forget the freedom and lack of doom responsibility of frontier conditions. It is not easy to concede that the thousands of newcomers now residing here, impoverished and unemployed, cannot simply go back whence they came and take their problems with them. Their difficulties are the cattleman's woes—when they have no money, they cannot buy steaks.

Under the revenue act of 1932, both the personal exemption and the credit for dependents are required to be prorated where the status of the taxpayer changed during the year.

EMPEROR GETS TOLD

TOKYO, Feb. 9 (AP)—If Emperor Hirohito doesn't know all about dollar devaluation today, it isn't Finance Minister Koreiyo Takahashi's fault. Complying with an imperial command, the minister delivered a one-hour lecture before the emperor on the subject: "Devaluation of the American dollar and its effect on Japan."

Clyde Mathews of Kingsmill was a Pampa visitor yesterday.

Judge J. H. Blythe is able to be out although using crutches. His leg became poisoned from a prickly pear scratch.

# Announcing a BIG NEW 1934 STUDEBAKER 4-DOOR SEDAN DELIVERED COMPLETE IN PAMPA

Only a few dollars more for a Studebaker than the lowest priced cars!

## \$869

ALL America will recognize instantly that this new Dictator is the greatest value ever offered in an automobile.

This amazing new 1934 Studebaker 4-door sedan of speedway stamina and skyway style is the impressively big Dictator of traditional Studebaker high quality. Yet it costs you, delivered complete in this city with all equipment included, only a few dollars more than the very lowest priced cars.

Studebaker has only one standard of construction—the finest. And this Dictator gives you Studebaker prestige and performance—sensational gasoline economy—and Studebaker's million dollar Quadri-Drive Suspension, the great safety and comfort development of 1934.

This Dictator is built like a battleship—of steel reinforced by steel. It has stamina that was bred in the crucible of record-breaking stock car and Indianapolis Speedway racing—a car sired by a line of champions!

There are even lower priced Dictator models but the above sensational price is for a big 4-door sedan. Arrange to take a convincing trial drive today! Drive it and you'll want to own it.

A member of the Pampa Junior chamber of commerce will be toastmaster at a 9 o'clock breakfast in the Empire Cafe in Borger Sunday morning, when a Borger Junior chamber of commerce will be organized. A large delegation from the Pampa club and a delegation from the Bartlesville, Okla., organization will be present.

Plans for the new club were made Wednesday night, when seven Pampa Jaycees met with a group of Borger men. A nominating committee was appointed and a president of the Borger club will be installed Sunday morning. By-laws will also be adopted.

The Pampa group will leave from the Harvester Drug store at 7:45 o'clock.

**CHICAGO GRAIN**  
CHICAGO, Feb. 9 (AP)—Possibilities that long-continued drought would be broken tonight in Western Kansas and Western Nebraska, but wheat values on the down grade today.

Setbacks in prices of securities and a further disturbing influence on the wheat market, and on other points as well, checked the selling of grains was associated with expected bullish results of a special message from President Roosevelt to congress relatives to government control of stock exchanges.

"Wheat closed unsettled, 1-1/2-1/2 under yesterday's finish, corn 1-1/2 down on 1/2 to 1 cent decline, and provisions varying from 5 cents setback to a rise of 7 cents.

AUSTIN, Feb. 9 (AP)—A bill to increase the occupant tax on boxing and wrestling promoters was introduced in the Texas house today by Representative J. N. Reed of Texas. Promoters in cities of less than 25,000 population would be taxed \$75 in cities of 75,000 or less, \$150, and in cities of more than 75,000 population, \$300.

(Continued from page 1)  
rate, here's the story; I'll let you be the judge.

One of the heads of the A. A. A. dictated some reports concerning the western part of the U. S. His stenographer took the dictation verbatim, wrote out the report, had her superior okay it, then had 16,800 copies air it mimeographed. When the job was completed one of the efficient, but without, too intelligent, aides found the report read—"as far west as Seattle, Ore." Rather than report to the head of the A. A. A. that he had made such a mistake, this department head had the word "Ore." erased by RAND on all 16,800 copies, and the word "Wash." typed in!

Of course the tax payers footed the bill, but I think the real moral to that tale is "If you're going to make mistakes, be sure you are at the head of your department!"

Good authority has it that Knefler McGinnis, the humming pigeon who led the way for all the navy "ds on their spectacular hop to Honolulu the other day, will report to Washington around April 1 and take up a DESK JOB in the Bureau of Aeronautics. A promotion, of course, but I wonder if he knows that time "I'm Just a Bird in a Gilded Cage"—and how long it will be before he's singing it by heart!

Ah Fame! You fickle filly! or whatever that phrase is. In conversation today—and from a reliable source—I heard that one Henry Schultz, former White House chef, and Maitre d'Matrimony (or is there such a thing?) at the wedding dinner for Alice Roosevelt and Nicholas Longworth was slowing but surely starving to death out near Albuquerque.

For those ranchers who have heard much pro and con about the public domain question, and are interested in what's going to become of it, here's the last thing off the griddle. It's bound to be straight dope, for it comes right from "Ike" and Roosevelt's press conferences.

Said Ike: "The Taylor bill, concerning control of public domain grazing lands, has been introduced for the third time. It's a good bill passes, or else President Roosevelt will issue an executive order giving the secretary of agriculture power to control these lands. Though such an order would be for benefit of citizens, many of them disagreed with it at first. Happily, the opinion has changed, and intelligent cow men are for it; but, regardless of opinions, the government has inherent powers which it will exercise."

Said F. D. R.: "That's right! So that's that!"

**MARKET BRIEFS**

NEW YORK, Feb. 9 (AP)—Selling waves swept through the stock market today reducing quoted values 1/2 to 5 or more points at the extreme. The reaction was generally attributed to nervousness in advance of publication of the administration's new proposals for the control of speculation. Many losses were pared in a late rally, but the close was heavy. Transfers approximated 3,250,000 shares.

**Republicans Hit At CWA 'Scandals'**

WASHINGTON, Feb. 9 (AP)—Calls of "corruption" and "political favoritism" against the four-million-man civil works program were put forward today by the republican national committee as congress speeded final touches on a measure to sink \$450,000,000 more into nearly empty CWA coffers.

House and senate conferees hoped for agreement before nightfall on the administration's bill, passed last night by the senate, to appropriate the \$450,000,000 for CWA and relief work.

The republican committee's criticism of civil works policies in a pamphlet, "CWA scandals," came along soon after republican independents in the senate had been overwhelmed on proposals to raise the CWA relief appropriation to a total of \$2,500,000,000.

**FOUR CONVICTS FREED**  
AUSTIN, Feb. 9 (AP)—Four state convicts were released today under clemencies granted by Gov. Miriam A. Ferguson. Conditional pardons were issued to C. D. Green, Wilbur county, misapplication of public funds 10 years, convicted in April, 1923; Vernon O. Bell county, forgery, two years, convicted in July, 1933; and Porter Green, Robertson county, murder, 8 years, convicted in December, 1932. A general parole was given C. E. Lawson, Dallas county, theft over \$50, two years, convicted in March, 1933.

**NEGRO EATS OVER 40 BISCUITS BEFORE GOING TO DEATH CHAIR**

HUNTSVILLE, Feb. 9 (AP)—A triple electrocution at the state penitentiary here early today ended the lives of three Dallas negroes convicted of murder.

The first to enter the death chamber was Jesse Mott, a physical giant, given life supreme penalty for the hammer slaying of Jones Tatum, a white man, at the Dallas filling station Tatum operated.

After Mott was pronounced dead, Bluit, Burkley and his brother, Thurman Burkley, paid with their lives for the brutal killing of a young white woman, Miss Kathryn Prince, near Dallas last August.

All three negroes met their fate without flinching. Mott, fortified by a tremendous meal, said goodbye to inmates of death row and walked into the death chamber with a smile on his face. The Burkley brothers, who had turned to religion with almost fanatical devotion, seemed convinced they had "made peace with God."

Dallas county officers talked with the Burkley brothers shortly before they were electrocuted. The negroes told the officers they had "got right with God" and, finally, gave their two Bibles to take back to their mother in Dallas.

Thurman Burkley was the only one of the condemned men to make any final statement concerning the crime for which he was convicted. He said, just before the current was turned on, that he was innocent of the Prince murder.

Dallas officers said, however, that all three negroes had made confessions after their arrests in which they admitted the murders.

Miss Prince and her escort, Mace Carver, parked at night on a country road near Dallas. A pair of negroes slipped up on them. Carver was taken into near-by woods and shot. He died three weeks later of his wounds. The negroes took Miss Prince into a cotton field and, after abusing her, killed her.

Mott, who stood six feet two inches tall and weighed 250 pounds, set a record for a last meal at the penitentiary. Prison officials said he ordered and ate between 40 and 60 biscuits—a beef steak weighing two and three-quarter pounds, a dozen fried eggs, plenty of gravy, half a gallon of ice cream and a center cut of ham, which he had placed atop the huge steak.

**Collins Rites To Be Held in Kansas**

The body of John Collins, accident victim, was taken overland to Mead, Kan., for burial following services at 8:30 o'clock this morning in the chapel of the Stephenson Mortuary. The Rev. John Mullen,

pastor of the First Christian church, officiated.  
Mr. Collins died in a local hospital yesterday morning after being struck by an automobile Wednesday night. Mr. Collins, 78, had made his home here for the last year.

### International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: Timely Warnings

Quarterly Temperance Lesson. Scripture Lesson: Matt. 7:12-27.

12. All things therefore whatsoever ye would that men should do unto you, even so do ye also unto them; for this is the law and the prophets.

13. Enter ye in by the narrow gate: for wide is the gate, and broad is the way, that leadeth to destruction, and many are they that enter in thereby.

14. For narrow is the gate, and straightened the way, that leadeth unto life, and few are they that find it.

15. Beware of false prophets, who come to you in sheep's clothing, but inwardly are ravening wolves.

16. By their fruits ye shall know them. Do men gather grapes of thorns, or figs of thistles?

17. Even so every good tree bringeth forth good fruit; but the corrupt tree bringeth forth evil fruit.

18. A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit.

19. Every tree that bringeth not forth good fruit is hewn down, and cast into the fire.

20. Therefore by their fruits ye shall know them.

21. Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father who is in heaven.

22. Many will say to me in that day, Lord, Lord, did we not prophesy by thy name, and by thy name cast out demons, and by thy name do many mighty works?

23. And then will I profess unto them, I never knew you: depart from me, ye that work iniquity.

24. Every one therefore that heareth these words of mine, and doeth them, shall be likened unto a wise man, who built his house upon the rock.

25. And the rain descended, and the floods came, and the winds blew, and beat upon that house; and it fell not: for it was founded upon the rock.

26. And every one that heareth these words of mine, and doeth them not, shall be likened unto a foolish man, who built his house upon the sand:

27. And the rain descended, and the floods came, and the winds blew, and smote upon that house; and it fell: and great was the fall thereof.

Golden Text: Every tree that bringeth not forth good fruit is hewn down, and cast into the fire.—Matt. 7:19.

Time: Midsummer of A. D. 28, the second year of Christ's ministry.

Place: The Horns of Hattin, a hill west of the Sea of Galilee.

Parallel Passage:—The "Sermon on the Plain," Luke 6:20-49.

Introduction: Temperance education is needed. Christian forces, in their rejoicing over the prohibition laws, took it for granted that the final victory was won and almost ceased temperance education altogether.

That has been the cause of the difficulties of prohibition enforcement. The times call for a vigorous increase in teaching regarding the evils of strong drink. This teaching should be given in every home, in every school and college, in every pulpit, in every newspaper and magazine. The pearls of temperance truth should be sown thickly among young and old, homeborn and alien.

### 94-Year Old Gun Found in Valley

BROWNWOOD, Feb. 9. (AP)—A Harper's Ferry rifle made in 1845 was found buried two feet under the ground by a highway maintenance crew recently and although almost 90 years old and lost for some time was in perfect shooting order.

The inscription "Harper's Ferry" and the date "1845" are engraved on the gun and in another place. "F. C. Mayer, 1874" Mayer, a pioneer of this section and whose grave is at Atkins, in this county, brought the rifle to this country in 1874. It was later won from him by John Shannon, former Brown county tax collector who lives a few miles from Brownwood on the Williams ranch road, in a turkey shoot. Subsequently it was stolen from Shannon's ranch house and so far as it is known, was not seen again until it was dug up recently.

A strange quirk is that W. C. Tolleson, county highway maintenance foreman who was in charge of the road crew that dug up trees for planting on the state highways on the north side of Chrane hill off highway No. 7 east, about 8 miles from Brownwood when the rifle was uncovered. It was still loaded and it is thought probable that the one who took the gun from the Shannon home buried it where it was found.

The gun is a beautiful piece of workmanship and weighs about eight pounds. The barrel is three feet long and the stock is made of hickory and the grooves are made of one turn in the length of the barrel. The stock is of mahogany and the barrel is three feet long and the stock is made of hickory and the grooves are made of one turn in the length of the barrel.

Two western Kansas counties, Seward and Haskell, have taken steps to prevent this. The county commissioners have warned farmers there that unless they "work" the fields in a manner to prevent the rich top soil from being carried away, the fields will be worked upon order of the commissioners and the charges added to tax assessments against the properties.

The average man exhales 200,000, 000 particles in a single breath.

TOPEKA, Kan. (AP)—Nebraska farmers, along the Kansas border, boasted last year they had benefited by hundreds of thousands of dollars in rich soil deposits blown on their fields by Kansas winds.

### GET A HORSE!

WILLIAMSPONT, Pa.—A tire went flat on Edwin J. Good's automobile during the week's hour. While he was inflating the tire his lights went out. As he cranked the car the engine "kicked" and almost bowled him over. When he closed the door the glass broke. Finally on the way again, a wheel blithely rolled off into a vacant lot. Good called a taxicab.

Nearly 50,000 deer were reported in Sequoia national park in a recent census.

The moon has no running water on it, no atmosphere and no vegetation so far as known.

# VERNE SANKEY HANGS HIMSELF IN CELL TO 'BEAT THE LAW'

## KIDNAPER WAS SUSPECTED IN LINDY GAME

### ADMITTED SNATCHING BOETCHER AND BOHN

VERNE SANKEY has kept his word to "beat the law."

With a rope fashioned from two neckties and with a handkerchief in his mouth to prevent any involuntary cry, he hanged himself in his cell at South Dakota penitentiary last night.

When they caught him in Chicago last week, with gun muzzles rimmed against him as he lay in a barber chair, he had no chance to use the poison pills hidden in his overcoat. But last night, on the eve of his arraignment to a charge of conspiracy to kidnap Charles Boetcher the second of Denver, he "beat the rap"—with death.

Out of all the blistering complaints of gang chiefs and "public enemies," Verne Sankey, called "America's public enemy number one," is the only one of national notoriety to die by his own hand. The nearest analogy is provided in the case of the Touhy gangster, Willie Sharkey, who killed himself in his cell at St. Paul, Minn., following acquittal on charges growing out of the Hamm kidnaping case.

Sankey announced only a few days ago that he would plead guilty to charges in the Boetcher case today.

The ex-railroader-sancheer-bootlegger-kidnaper apparently plotted his death carefully. He waited until the two guards on duty in his cell block were out of sight. Quickly he knotted the necktie to the bars of the cage, slipped the crude but strong noose about his neck, and stepped from his bunk. They found him dead, his body swinging from the bar.

Sankey's brain had engineered schemes that netted him \$60,000 in the Boetcher case and \$12,000 in the kidnaping of Haskell Bohn, of St. Paul, but it was unable to trick the law that snapped its talons on the desperado in Chicago last week and flung him into a prison cell here.

Sankey's mode of cheating justice held no lure for Gordon Alcorn, a companion seized in Chicago a day after Sankey.

"I'll go into court and take mine this way," said Alcorn, who is held in a cell close to that which had been occupied by Sankey.

With Sankey's passing, the government lost its chance of definitely ascertaining if the former Canadian, whose fancies led him to

## TWENTY-YEAR OLD LAND SUIT IN CAMERON COUNTY UP FOR TRIAL

### At Palm Beach

BROWNSVILLE, Feb. 9 (AP)—The score or more of attorneys interested in the famous Ojo de Agua land suit in Cameron county still believe their prediction is correct—that the suit will be disposed of "before it is old enough to vote."

They have only one year to go. This suit originated in 1915, and it will be called up in district court here on Feb. 15 for its 19th consecutive year.

There is hope, according to the attorneys, that the suit will be settled at that time.

The suit was originally styled Pilar Villareal et al vs. A. A. Brown et al. Since it was filed 1,900 litigants have become interested, each seeking some part of the 50,000 acres of land.

The land was an original Spanish grant. The heirs made the mistake of not dividing it and accordingly when one sold part, the part could not be taken out. The land is in the northern part of Cameron county and is valued at approximately \$9,000,000 in its present undeveloped condition.

Some of the early litigants in the case and some of the attorneys have died. One killing has been attributed directly to this famous lawsuit and many minor skirmishes have taken place over it.

Judge Fred Bennett of Hidalgo county will sit as special judge when the case is called again. At the last calling the judge named A. Tamm of Harlingen as court engineer to make some surveys and coordinate the surveys that had been made by various engineers representing various groups.

The spectacle of this big block of land which the Spanish king bestowed with a wave of the hand being divided up among 1,200 persons and opened to development may be witnessed soon.

the tinselled honky-tonks and gaming tables of fashionable resorts in his hey-day, had any connection with the Lindbergh baby kidnaping that started a nation.

Departments of justice operatives have declared they believed Sankey had nothing to do with the Lindbergh crime. Melvinch Purvis, Chicago, department of justice agent, who was here, refused to comment on the Sankey-Lindbergh angle, but it was known he questioned Sankey about the baby abduction.

It's the season for recognizing Russians, so you'll want to know, of course, the charming Princess Anna Ilyisk, whom you see here prettifying up for the cameraman. She and her husband, the Grand Duke Dmitri, are at Palm Beach, having—you guessed it—a right royal time.

### VERY SLIGHT RAIN

Rain sufficient to dampen the streets fell last night in Pampa, while a half-inch rain was reported at Canadian, Shattuck, and on a line extending to Spearman. The precipitation was heavier south and southeast of here, from Wellington into the Oklahoma Panhandle.

An abalone with a shell 29 inches in circumference and containing enough meat to feed a family was found by County Clerk Carol Joy of Salinas, California.

## Francis Bushman To Marry Sister of Rosa Ponselle

CHICAGO, Feb. 9 (AP)—Wedding bells are going to ring again for Francis X. Bushman, the former motion picture star has announced. His bride-to-be, he disclosed in an announcement last night, is Carmela Ponselle, a mezzo soprano of the Metropolitan Opera company of New York.

But the time and the place and other details of the ceremony for the former husband of Beverly Bayne, were unknown, depending, he said, upon the wishes of Miss Ponselle.

## Black-Draught Gives Refreshing Relief

"I have suffered a great deal from biliousness and constipation," writes Mrs. J. C. Jones, of Waterloo, Ala. "When I get bilious, I have a bad taste in my mouth, have a sour stomach, my color is bad, I get a headache and the headache. When I take Black-Draught, it relieves me and I feel like a new person. I don't think there is a better medicine than Black-Draught."

Children like the new, pleasant tasting SYRUP of Black-Draught.

BLOND GODDESS

A New Serial by HERBERT JENSEN

SYNOPSIS: Frank Grahame, explorer in the wilds of Yucatan searching for Bill Langton, missing aviator, just has found the girl he loves, Janice Kent the movie star, imprisoned at the top of a Mayan pyramid. She, with a party from Hollywood, has come into the jungle to make a Mexican picture, and has fallen into the hands of the subelavados.

Chapter 28 THE ESCAPE

"Can't tell how many of these people are about," Frank went on. "Come. We have just enough time to get into the jungle before daylight."

"I'm tied." Her whisper was faint with fatigue. Grahame realized that since dawn she had probably been awake.

Grahame examined her bonds. They were tied intricately, but loosely enough not to constrict the flesh. She had free movement of her limbs, but the ropes were cunningly arranged to prevent any major activity.

Grahame drew his clasp-knife, and made short work of the thongs.

Janice sat erect and placed her feet upon the floor. She was dressed as he had seen her that morning, in coat, breeches, and puttees.

"Come," he said, "we'll go now."

"Wait," she answered. "We can't leave Mr. Greene. He's here somewhere. He was wounded a week ago and today they hit him."

"I know. But I'm afraid we can't take him this trip. Perhaps you don't realize, but we're in a dangerous position. We have a thousand-to-one chance of getting out."

"You don't understand," she said weakly. "I will not leave here without him."

Grahame had a curious sense of anger. Some of the old hurt she had dealt him revived. It seemed that in every situation this girl was to thwart him.

"Does Greene mean so much to you then that—"

"Naturally." Her tone was final with its simplicity.

Grahame's nod was almost a bow of submission. He slipped into the corridor. He glanced at the still figures of the guards; they would be unconscious for sometime yet, he decided.

Greene was asleep when he found him. Grahame worried, for an instant, that the man's slight snore betray a concussion resulting from the blow he had received. But as the keen blade cut into the ropes, Greene started up with a fury that while it reassured the other, nearly sent him off balance.

"Easy, man!" he cautioned. "Sh-h-h-h-h."

Grahame turned his head and found Janice just behind him. "I think," she said, "I heard noises of some kind. They seemed far away."

"From below," answered Grahame. "Noise floats upward. It's about time the city below is awakening. We have no time to lose."

They stole into the corridor, made the turn past the burning receptacle, and out behind the great stone altar. It was then that Grahame made the discovery that about the base was heaped many kinds of food, chiefly cereal and meats, some raw, some cooked.

It was the odor of these foods that had accentuated his sense of hunger. He grasped great handfuls and stuffed them into the wide slits of his khaki coat. He felt immensely cheered.

"A break for us," he whispered. Janice smiled wanly. Greene was looking about him with the utmost curiosity, and, it seemed to Grahame, with a little dismay.

Grahame remembered that the man had been carried to this height while unconscious.

It spoke volumes in praise for Mr. Greene's poise that his expression betrayed so little consternation.

They began the descent, with the eastern sky splitting into streaks of saffron. Grahame led the way, with Janice following, and Greene bringing up the rear.

Greene moved slowly, his fingers gripping at the rough stone steps with the nervous anxiety of a man unaccustomed to height.

They skirted the rocky ledge about the pit. Janice gazed at its sullen depths with frank wonderment, while Mr. Greene, after one quick glance, averted his eyes and stumbled after them with quickened pace.

They reached Grahame's hiding place, breathless from their haste, and paused.

"I think," observed Grahame, "that it would be safer to keep on for a mile, until we are well into the stony country just below. We can double back and hide in the small ruin." He gestured with his arm.

They continued onward. After a little Grahame bore to the right, returning in a rough circle to rear of the ruin. There was another entrance on that side, quite overgrown.

They climbed over the rubbish that had fallen between the portals, and found themselves within a large chamber. A portion of the roof had crumbled inward, making a center pile of stone blocks.

The sky through the roof's gap, was orange with dawn. Other parts of the room seemed weather-light. The curious V-arched bracing, without keystones, which was unique with an extinct race of Maya builders, was apparently intact and would stand for further centuries.

Grahame divested himself of his coat, and produced his food supply. Each seemed conscious of the most vital business in hand. First of all they must have food and rest. Later they could discuss their circumstances, and the events that had brought them together in this ominous situation.

They consumed their meal in silence. Greene rolled his last bit of meat in a fragment of tortilla and remarked that he could do with a glass of beer, a large one preferably, but lacking that, a half gallon of spring water would do.

The other man looked at him sardonically.

"When the Governor of North Carolina made his classic remark to his political neighbor," Frank observed, "he surely had Yucatan in mind. With luck we'll get a little water about four o'clock this afternoon, when it rains. The wider you can stretch your mouth the more you'll get."

Mr. Greene looked a trace disconcerted.

"I don't like you," he said, and resting his head against a stone, he slept.

But Janice and Grahame had too much to discuss for sleep. He avoided most carefully any mention of their last interview in Hollywood. He gave as his sole reason for coming to this country his conviction that his friend, the lost flyer Langton, had fallen somewhere within this jungle.

Taxi Strike Ends, In New York City

NEW YORK, Feb. 9 (AP)—Cabs rolled today in the streets of New York, the strike of taxi drivers ended except for about 4,000 "bitter enders" who still declined to make peace.

What effect the action of the remaining strikers would have remained to be seen. Their union leader said the agreement accepted by the major cab companies and their drivers was a "sell-out" of the men.

Hundreds of strikers paraded last night, seeking to get drivers of cabs to rejoin them in the strike. There was sporadic violence, especially in the "bright lights" area, but constant police watch kept disorder to a minimum.

Those still on strike were demanding union recognition as a condition to their return to work.

LANDMARK TORN DOWN

CLARENDON, Feb. 9 (AP)—The historic old town house of the famous JA ranch is being torn down to clear the new route of state highway No. 5 through Clarendon. It was built in 1889 and was one of the city's oldest landmarks.

Don't get wrecked by ill health

This life we lead takes a lot of wear and tear out of us, no doubt about it.

No wonder so much health advice nowadays stresses building up resistance rather than "remedies" such as pills, tonics, etc. The latter aren't what most people need. What most everybody does need is more vitamins and minerals.

Now an astonishingly simple and easy way has been found to bring you vitamins without your taking straight cod liver oil. In 3 chocolate-covered tablets you can now get as much vitamin A and B as in 4 teaspoons of high-grade cod liver oil! Also these same tablets contain body-building minerals.

The name of these tablets is MCKESSON'S VITAMIN CONCENTRATE TABLETS OF COD LIVER OIL. You can get them at the drug store.

You'll be surprised how much more "pep" and energy you have when you get plenty of vitamins in your system. You'll be delighted at the way children and yourself resist colds. Just try MCKESSON'S VITAMIN CONCENTRATE TABLETS and see.

Be sure to get MCKESSON'S because MCKESSON'S vitamin concentrate tablets are the ONLY ones containing minerals. Advt. For sale by RICHARDS DRUG CO.

OLD RESIDENT REMEMBERS WHEN INDIANS CAPTURED BOSQUE BOY

CRANFILLS GAP, Bosque County, Feb. 8. (AP)—Hardships of pioneering in Texas in the '60's when wild Comanche and Kiwa Indians roamed the country and oxen were the motive power of transportation, are still a vivid recollection to B. Swenson, an octogenarian of Cranfills Gap, one of the few old timers still living.

Swenson was brought to America from Norway by his parents on a sailing vessel at the age of 18 months. The trip took 11 weeks. Three weeks were spent on the island of Santo Domingo because of calm and there the sun was so hot the pitch on the ship melted and ran down the sides.

On Dec. 25, 1851, the family landed at New Orleans and, after much delay, made their way by ox wagon to Brownsville, Henderson county, where the father split rails at 50 cents a hundred. When he was 7, his parents moved to a farm near Neill's creek, Bosque county, 50 miles northwest of Waco. Two years later they moved to a farm five miles east of Cranfills Gap where Mr. Swenson has lived 65 years.

While living here in 1867, the Indians captured Ole T. Nystel, then a boy of 14, who had gone with Carl Quedsted, a neighbor, to gather cedar poles. Nystel was captured after he had been wounded in the leg with an arrow when he tried to run. Quedsted narrowly escaped by jumping off a 20-foot ledge, luckily landing on a pile of cedar left by woodcutters, and then sprinting four miles to the nearest farmhouse.

When the people at home learned of young Nystel's capture, Swenson joined a group of men in search for the boy, but they were unsuccessful and three months later he was sold at a trading post in Kansas for \$250 worth of merchandise.

Nystel, now deceased, often told of the cruel treatment he received from the Indians, said Swenson, and of how at any moment he expected to be scalped. It was believed his life was spared because of his youth. Quedsted probably would not have escaped had the Indians not been chasing the boy.

Swenson also recalls early experiences in breaking land and traveling long distances with oxen. "One fall one of my brothers and I broke 50 acres of land with oxen hitched to walking plows and sowed it in wheat."

"We had to travel long distances for building material. Once a neighbor and I with an ox wagon went to east Texas to get 3,000 feet of lumber. The trip took a month and not a drop of rain fell on us. In returning, we stopped at Corsicana to water the oxen in a mud tank. Some of them mired and we had to throw a rope around their necks and hitch to the other oxen to pull them out. Some times as many as five yoke of oxen were used to a wagon."

DANCER IS BOOKED CANYON, Feb. 9.—Rut St. Denis, acclaimed one of the greatest dancers of all time, will appear in a lecture-recital on the Lyceum platform of the West Texas State Teachers college on the evening of February 15, 1934. The program will begin at 8:15 in the auditorium of the administration building.

SHEEPSKINS AT A PROFIT

OXFORD, O.—A net of \$10 fee for a diploma, the Student, Miami university undergraduate paper, suggests the university purchase 300 sheep for about \$2,700. The paper figures the school could sell the mutton for almost \$33,900, \$15.00 heads and hooves for \$60, and sheepskins left over after the diploma-making for about \$1,500, not to mention the wool.
