### Young Ringling

Born to the circus, Robert E. Ringling, above, carries on family traditions. Now holding a substantial interest in the circus founded by his father, Charles Ringling, and the latter's six brothers, young Ringling is learning the big top business from the ground up.

Twinkles  
Alternatives are often bothersome. American farmers need to face the choice of marching lock-step with Uncle Sam or doing the same thing with bankruptcy.

A new deal for enlisted men, especially aviators, may be necessary to build up our military strength. Maybe the soldier is another forgotten man.

Insull is being given so many deadlines that some readers will deduce that he is a newspaperman.

Mussolini wants to show all little Italian boys big, bad guns to make them scrappy. But why in the world doesn't somebody show him the great American game of football?

One thing in this country is not uncertain—when the wind blows the dust will move. And when the dust rolls up in clouds, my son, the wind is passing by!

### Brevitators

Musings of the moment: This would be a chaotic world without dictators. We need them in the homes (?), schools, churches, clubs, and governments. A wise dictator, however, is rare. If all the dictators in the world suddenly lost their authority, society would collapse. . . . We recall that the original Colonists obeyed and enforced their few laws exceptionally well. Their trouble began with the "blue" laws. To be a representative of the people, yet to lead that people along the right legislative paths is difficult. Most unrepresentative is he who will not budge from his prejudices to listen to his people. . . . Other words for representative: Representative, substitute, vicar, tipstaff, legate, exemplar.

PRESIDENT J. A. Hill of Canyon Teachers' college tells us that the current, popular definition of education is that it is what you have left after you have forgotten most of the facts you have learned in school. . . . That strikes us as a definition of merit. Unless you specialize in something that is still under daily routine you probably do not remember much of your algebra, biology, and literature. But if you cultivate studious habits, and interest in current and public affairs, and gain confidence and poise, these serve you well and

### WRIGHT IS ACCUSED IN SLAYING OF TULSA ATTORNEY

By WILLIAM VOIGHT, JR. Associated Press Staff Writer  
MANNFORD, Okla., March 15 (AP)—Glen Roy Wright, 34, wanted for killings in Tulsa and Ottawa counties, Oklahoma, and for bank robbery, was captured with seven companions in a surprise raid on a little white farm house in the southern edge of the Osage hills near here today.

Twenty-eight officers, from three Oklahoma counties, from the federal department of justice, and from the Kansas highway patrol, participated in the captures, which were accomplished without firing a shot.

With Wright was a man tentatively identified as J. W. McAtee of Coffeyville and Edna, Kan., but who officers said bore a strong resemblance to Harry Campbell, wanted with Wright for a Tulsa slaying.

At about 10 a. m. Sapulpa officers, who had jailed the prisoners in the Creek county courthouse, began moving them to the state prison at McAlester for safekeeping.

A man who first gave his name as J. C. Childs, 49, later was identified as Charles Cotner of Vian, Okla., wanted for the February 4 killing of Al Powell, deputy sheriff of Chelsea, Okla., and for the slaying of one of his own companions, Eddie Clanton, member of the Cookson gang.

A woman arrested with Cotner gave her name as Grace Cutler, 33, of Vian. Cotner was known as a companion of Ford Bradshaw, recently killed near Fort Smith, Ark., who also was wanted for the Chelsea affray.

### Death Suddenly Takes Senior in City High School

Leo Henry Woodard, 18, local high school senior, died suddenly at the home of his parents, Mr. and Mrs. C. C. Woodard in the Merten community, this morning. The youth attended school yesterday this morning complained of having a cold and did not go to school. The youth had been Merten school before entering the high school here. He was outstanding in agricultural work in the school and was a popular student. The family has resided in the Merten community for 5 years. Mr. Woodard operates a store.

Besides his parents, the youth is survived by one sister, Tommy Lou, also a student at Pampa high school.

The body will be in the home until the funeral.

Funeral services will be conducted at 3 o'clock tomorrow afternoon in the Church of Christ, the Rev. E. C. McKenzie, pastor, officiating.

The Rev. Jesse F. Wiseman of Berger, former pastor here, will assist.

Burial will follow in Fairview cemetery under direction of the Stephenson Mortuary.

Pallbearers will be Melvin Harsh, Ike Harsh, Glen Moore, Deward Cumble, Clovis Duff and J. L. Cooper.

### BYRD'S PLANE CRASHES BUT NONE IS HURT

### Four Occupants Are Shaken Up; Slight Cuts Suffered By All in Antarctic.

LITTLE AMERICA, via Mackay Radio, March 14 (Delayed) (AP)—Admiral Richard E. Byrd's monoplane, carrying Lt. Com. Isaac Schlossbach, U. S. navy retired, and three passengers crashed at 12:30 p. m. today. No one was seriously injured.

The plane cracked up 500 yards south of the expedition camp here. In the plane besides Lt. Com. Schlossbach were Arthur A. Zuhn, Mount Pleasant, Ia., Fred J. Dustin, Revere, Mass., and Harry Young, New Zealand.

All suffered slight cuts and were severely shaken up, but otherwise unhurt.

The plane itself, a single engine Fokker, was wrecked. The engine and instruments can be salvaged, however.

The plane had just taken off on a test flight preparatory to a flight toward the south pole in company with the other expedition monoplane.

The two planes were to have acted as transports to a depot being established 100 miles south of here.

The planes were to carry food stores required for the advance winter base Admiral Byrd proposes to establish on the Ross ice barrier, 200 miles beyond.

### INSULL FLEES FROM ATHENS IN DISGUISE

### Believe Former Chicagoan Left for France in Garb of Woman; Wife Silent.

ATHENS, March 15 (AP)—The story was advanced this evening that Samuel Insull left Athens at 6:30 p. m. disguised as a woman and was on trial for bank robbery and now serving a life sentence for the Charles P. Urschel kidnaping.

A woman arrested with Cotner gave her name as Grace Cutler, 33, of Vian. Cotner was known as a companion of Ford Bradshaw, recently killed near Fort Smith, Ark., who also was wanted for the Chelsea affray.

Wright is sought in Tulsa for questioning concerning the killing in August, 1932, of J. Earle Smith, attorney who had been retained as attorney for Harvey Bailey, then on trial for bank robbery and now serving a life sentence for the Charles P. Urschel kidnaping.

### To Be Ruler

From the son of a British pickler maker to ruler of an Asiatic kingdom, that, according to a report from London, is soon to be the destiny of Dr. Khalid Sheldrake, above, a medical missionary in Sinkiang, chased by native chiefs to be king of the province. The province, which Sheldrake has named Islamistan, has an area of 200,000 square miles and a population of perhaps 2,000,000.

### CARBON BLACK—IT IS WALKED ON AND EATEN

WHEN a young man carries a box of fancy chocolates to his sweetheart and she nibbles one of those densely black chocolate-coated creams she takes a bite of Pampa carbon black.

Carbon black puts the colors into the candy and the candy is black because carbon black is the blackest of blacks. It may be true that black is black and white is white but an ordinary black does not apply to carbon black for that noted product of Pampa is tremendously black.

It is, color experts say, the most intense of all blacks.

People ride on carbon black because it is in automobile tires; they walk on it for it is in overshoes and rubber heels and they eat it in candy. Those rubber-tired, streamlined railroad trains, when they go into general operation, will make further demand upon the manufacturers of carbon black for there will be a large proportion of carbon black in the rubber tires.

## Lindy To Testify Tomorrow

### Secretary Dern Declines To Accept Lindbergh's Refusal of Plane Probe.

WASHINGTON, March 15 (AP)—In line with President Roosevelt's request for \$10,000,000 to improve the army air service, the war department issued a statement today saying the army fliers should be organized, equipped and trained to meet any national emergency on 24 hours notice.

The statement, signed by Major General Benjamin D. Foiles, air corps chief, followed new efforts by Secretary Dern to get Charles A. Lindbergh to serve on the special commission to study methods of improving the army air service.

Lindbergh turned down Dern's first bid with another rebuke of the administration for cancelling private airmail contracts.

The famed transatlantic flier notified the senate postoffice committee, however, that he would be glad to appear tomorrow to testify on permanent airmail legislation.

### EVERY 'CASE' TO BE GIVEN OWN BUDGET

### PROJECTS ARE TO BE CONTINUED AS BEFORE

CWA WORKERS will be listed under FERA records here tomorrow as the Civil Works administration set up to prevent suffering during the winter is discontinued.

Under the reinstated FERA, intensive investigations must be made of each "case" and only those persons known to need aid will be given work relief. Budgets for each family will be drawn to make certain that they have food and shelter.

A special labor and grievance committee has been named to set the prevailing wages for workers of various crafts, and this group also will hear complaints. On the committee are A. H. Donette, county engineer and supervisor; L. A. White, employee of construction labor, and J. T. Grogan, Phillips company employee who represents organized labor. No announcement was ready today concerning the wage scale, and it was not definitely known that work under the new arrangement could start tomorrow. Applications for continuance of CWA projects under FERA are expected to be approved, however.

Use Prevailing Scales.  
Mrs. W. H. Davis, county administrator, was notified by telegraph to appoint the committee "to determine prevailing rates of pay for various classifications of employees."

"This committee," said the telegram, "shall be appointed by the administrator and shall consist of a representative of organized labor, a representative of employers of construction labor, and a representative of the local emergency relief administration. The representative of the local relief administration shall be the local county project supervisor or person functioning in that capacity. . . . The rates agreed upon shall be the actual prevailing rates for various trades, using authentic and official information and not confined to depression scales. . . . Owner-driven teams and trucks will be allowed where owner comes with classification as eligible for relief, but specific authorization must be obtained for such teams and trucks from the project engineer."

Wages for common labor may not be under 30 cents an hour and perhaps will be higher. Work will be on the basis of 24 hours a weekly, but specific authorization must be obtained for such teams and trucks from the project engineer.

The Spheron will then be transferred to the loading tower which is created over the trucks. Specially built cars are loaded from the supply tank in record time. The company has six cars in operation and five more under construction. Each car holds 6,000 pounds of Spheron.

### LATE NEWS

NEW YORK, March 15 (AP)—Col. Charles A. Lindbergh, in a telegram to Secretary of War George H. Dern today reiterated his refusal to take part, "directly or indirectly," in the secretary's investigation into army aviation.

PORT-AU-PRINCE, Haiti, March 15 (AP)—Mrs. Franklin D. Roosevelt's party arrived aboard the steamer Caribbean Clipper at 12:50 p. m. today on a flight from San Juan, P. R., and will remain here overnight before continuing to Miami.

BERGER, March 15 (AP)—W. L. McConnel, district attorney, said today a murder charge was filed last night against Perry White, repair shop owner, in connection with the shooting yesterday of Carol "Burch" McDonald, 17, and Earl Brakebill Jr., 16. He said it was signed by Dan Hardee, sheriff.

ROME, March 15 (AP)—A concrete plan for the economic independence of Austria was formulated today by Premier Mussolini of Italy, Chancellor Dollfus of Austria, and Premier Goembs of Hungary.

WASHINGTON, March 15 (AP)—Decommissioning of eight of the nation's eleven coast guard bases was ordered today. Coast guard headquarters said the bases at New York, Boston, Gloucester, Mass., Norfolk, Va., Charleston, N. C., Biloxi, Miss., Cape May, N. J., and San Pedro, Calif., had been ordered out of commission and the personnel transferred to various coast guard vessels.

MARLIN, March 15 (AP)—Irvin (Blackie) Thompson was convicted and sentenced to death today for the \$10,000 robbery of the First State bank here in December.

### Plant Equipped To Manufacture Spheron Black

Equipping of the Texas Elm Carbon company's Bowers plant to manufacture the new Spheron carbon black is in progress. The plant will have a daily capacity of 60,000 pounds of Spheron when completed. Erection of a treating plant and a Benjain loading tower with a capacity of 20,000 pounds will be completed in the near future. The company's Kessell plant has already been equipped to manufacture Spheron and is producing 40,000 pounds a day.

The treating plant will be 24x40 feet by 36 feet high. Carbon black comes from the burner buildings will be carried to the new building where special machines change the carbon black to minute balls which are more easily handled.

The Spheron will then be transferred to the loading tower which is created over the trucks. Specially built cars are loaded from the supply tank in record time. The company has six cars in operation and five more under construction. Each car holds 6,000 pounds of Spheron.

### DEATH COMES SUDDENLY IN 'FLU' ATTACK

### ILLNESS FATAL WHILE OFFICER SAT IN CHAIR

C. E. ("Tink") Pipes, 56, sheriff of Gray county, succumbed to an attack of flu and pneumonia at 1:30 o'clock this afternoon. He became ill Sunday afternoon.

Although the sheriff, the largest peace officer in the southwest, weighing 375 pounds, was very ill this morning, his death came as a sudden shock to even the friends that had seen him this morning. He was in a stupor today and breathing heavily, but the end came unexpectedly, while he was sitting in a chair at his rooms in the courthouse with Mrs. Pipes.

He had been in fairly good health during the winter, but had frequent colds which, on advice of friends and physicians, had caused him to rest in bed occasionally. Ordinarily his cheery manner radiated energy and good will despite his weight. He announced several weeks ago for nomination for a second term as sheriff, and no opponent was in sight.

Besides Mrs. Pipes he is survived by two sons, Charlie, who lives here, and Spencer, of Monroe, La.

The body is at Malone funeral home, with funeral arrangements yet to be made.

The family came to Pampa in the spring of 1926 when Mr. Pipes became office deputy for the then sheriff E. S. Graves. He was already well known in this section, however, as a peace officer and western character.

Mr. Pipes spent his boyhood days in Louisiana and Texas. He was a cowboy on ranches in the vicinity of Port Worth when a young man. He became acquainted with numerous peace officers in numerous physical encounters.

### DRIVE AGAINST FAULTY BRAKES TO BE STARTED

### Local Patrolman To Wage Thorough Campaign

IF YOU have faulty brakes on your motor vehicle, read this carefully. Read it anyhow.

Highway Patrolman R. H. Routh has received instructions to launch a campaign against defective brakes. Instructions have been issued by L. G. Phares, chief of the state highway patrol, to accept no excuses from owners of automobiles with faulty brakes. Charges are to be filed, he said, in every instance.

Under state law, automobiles and trucks must be equipped with brakes adequate to stop the vehicle within 45 feet while traveling at a rate of 20 miles an hour. Phares said owners of cars which can be stopped within 60 feet at that rate were being given tickets subject to cancellation upon proof the brakes were repaired. Owners of vehicles requiring a greater distance must face charges, he warned.

Right of the patrol to stop vehicles on a highway to make tests has been sustained in an opinion given Phares by the attorney general's department.

There will be less warning and more action in the future in the patrol's campaign against traffic fatalities," Phares said.

If the campaign against defective brakes does not effect a reduction in accidents, the patrol may invoke a law authorizing the removal from highways of automobiles which endanger traffic, Phares said. The statute empowers the state highway department to revoke registration of any vehicle deemed "unsafe or improperly equipped, or otherwise unfit to be operated upon the public highways," Phares said.

### READ GROCERY ADS FRIDAY

ADVERTISEMENTS in the Pampa Daily NEWS are Pampa merchants' "bargain windows."

The wise business man knows THE NEWS goes right to the consumers and buyers. When the readers see a merchant's advertisement, it is as if his store had been carried to the customer's doorsteps.

Reading is easier than walking. Busy housewives are thrifty of time as well as of money. It saves both to shop in THE NEWS first. They can see at a glance there what the stores have to offer and what the prices are.

In each Friday issue of THE NEWS are many announcements of week-end food bargains. The grocers know these advertisements will be read and followed by thousands of readers in this territory.

The customers know they can rely on THE NEWS as their official shopping guide.

## CHILD'S WORLD NEEDS ATTENTION

Springfield, Ill., lost an \$800,000 state arsenal a few weeks ago because a 10-year-old boy liked to see flame. A remarkable feature of the incident was that the lad enjoyed the fire without any apparent understanding of the tremendous loss entailed. The child showed no evidence of being weak minded. But his experience was certainly lacking in essential particulars.

In a case like this, we bump against one of the most tragic and puzzling riddles that life can offer. An old-time theologian probably would explain it on the basis of original sin or demonic possession, and a modern psychiatrist probably will have something equally pat to say about complexes, inhibitions, and whatnot.

But, in either case, we face one of those queer, incomprehensible quirks that crop out every now and then to bewilder and dismay us.

Such things remind us that we do not know nearly as much about the mainsprings of human behavior as we think we do. Why should an intelligent, pleasant-faced child give way to an insane impulse like this, anyway? How could the adults who have charge of his training have foreseen such a thing?

What can be done, now that the catastrophe has taken place, to keep the lad's life from being wrecked, and make it possible for him to develop into a happy and useful member of society?

We know the answers to none of those questions. But out of the general bewilderment we can, perhaps, draw a new understanding of the obligation that lies upon all adults in respect to children; the obligation to try to understand, to sympathize, to be as wise and helpful as our limitations permit.

The world of childhood is a strange place, and it can be peopled by queer, grisly shadows. We cannot know all that goes on in it, nor can we understand all that we do know. But we at least can be forever alert to help, to advise, to comfort, and to warn.

but don't ignore medical opinion

if you want to

- relieve constipation gently and safely
- take the exact dose suited to your need
- avoid danger of bowel strain

A doctor will tell you that the needless use of harsh laxatives will often do more harm than good.

Harsh laxatives often irritate the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in liquid form.

**Can Constipation be safely relieved?**

"Yes!" say medical men. "Yes!" say thousands who have followed this sensible medical advice. 1. Select a good liquid laxative. 2. Take the dose that your physician suggests to your system. 3. Gradually reduce the dose until bowels are moving regularly without assistance.

Dr. Caldwell's Syrup Pepsin is a prescription preparation containing senna, a natural vegetable laxative which relieves constipation gently and safely. Why not try it? Some pill or tablet may be more convenient to carry. But there is no "convenience" in any cathartic that's taken so frequently, you must carry it wherever you go!

**Why Doctors give a liquid laxative**

The habitual use of harsh salts or powerful drugs in the highly concentrated form of pills or tablets is risky.

The properly prepared liquid laxative will bring a perfect movement without discomfort or injury. You need not take a "double dose" a day or two later.

The public can always get Dr. Caldwell's Syrup Pepsin at any drug store.

**What is the "Right" Laxative?**

In buying any laxative, read the label. Not the claims, but the contents. If it contains doubtful

# LARGEST OIL PRODUCING AREA IN WORLD IS IN THE PANHANDLE

## GAS YIELD IN SECTION ALSO IS GREATEST

### FIELD COULD PRODUCE 165,000 BARRELS OF OIL DAILY

The term "world's greatest" applies to the Panhandle oil and gas field in two ways. No other oil-producing area in the world is as large and no other area in the world produces as much gas.

The main part of the producing area was opened in 1925. The peak of active wells in the Panhandle field was reached in April, 1930, when the total was 1978. The peak of oil production was reached in November, 1929, when 700 wells produced 168,000 barrels daily.

Drilling still is in progress in many parts of the field. Deepening of wells has added to production. There are today 1853 wells in the

Panhandle field of which 890 are marginal, or producers of less than 20 barrels daily. The number of gas wells is approximately 750. Potential daily production of oil now is 165,000 barrels, including the output of many marginal wells not counted in the basis for production. The production basis as established by the Texas railroad commission is 136,885 barrels daily. The present allowable for the field set by the railroad commission is 52,000 barrels daily.

The small difference between peak production in 1929, and potential production now is notable.

Gas taken by casinghead plants amounts to more than 1,156,000,000 cubic feet daily but actual output of gas from Panhandle wells reaches more than 1,600,000,000 cubic feet daily.

Of the residue from the casing-head plants carbon black plants receive 443,000,000 feet daily and 50,000,000 feet go to industrial and domestic uses. The residue is estimated officially at more than 500,000,000 cubic feet. The remainder of the residue is consumed in lease use and extraction loss. An additional 75,000,000 cubic feet are blown into the air daily from about 100 wild cat wells.

The major pipeline companies take 400,000,000 cubic feet daily and remove the gasoline content themselves.

Dry gas going out of the field is estimated at 900,000,000 cubic feet daily. The quantity piped out is estimated at 300,000,000 cubic feet daily. The largest natural gas pumping plant in the world is at Fritch, 15 miles from Borger. The capacity of the Fritch main line is 175,000,000 cubic feet daily at a pressure of 610 pounds to the square inch.

The Fritch plant, fed by 31 miles of 24-inch main pipeline and five miles of 24-inch gathering lines, all in Hutchinson county, is part of the great system leading from the Panhandle to Chicago. From this line south central Iowa and northern Illinois are served for domestic and industrial purposes.

The giant engines at Fritch, each weighing more than 400,000 pounds, are among the sights of the Panhandle. Each of the 12 engines has four double-acting cylinders. The building housing the plant is 340 feet long and 70 feet wide.

D. P. Hubbard of Skellytown was a visitor in the city last night.

## BETTER DAYS PROMISED FOR FARM TENANTS

### ACRES WILL PRODUCE SUSTENANCE; JOBS, NEEDED CASH

ATLANTA, Ga., March 15 (AP)—Better days are promised small land owners and tenant farmers of the south under President Roosevelt's plan for self-sustaining agriculture and public work projects as the media for cash incomes.

The set-up, which is just getting under way, was explained in detail by Harry L. Hopkins, federal relief administrator, in Atlanta today for a conference of relief authorities from 12 southern states.

According to his interpretation, the government will lend help to farmers with the view to making their own acres produce their sustenance. In the meantime supplemental earnings will be available through part-time employment in road building and the improvement of national parks, state forests and the like.

Another phase of the plan calls for the establishment of small, local industries like vegetable canning and meat packing as further means for absorbing unemployment in the rural districts.

"It's absurd—the hundreds of thousands of people on the relief rolls," Hopkins told interviewers. "This plan is extremely important to the south. In some states 30 per cent of the population is on relief rolls."

Hopkins believes no problem would be involved in obtaining land for sustenance farms. Numerous big industrial corporations in possession of vast acreage have indicated they will make tracts available under terms that would prove no financial burden to the government by virtue of its sponsorship nor to the farmers themselves.

Many counties hold the same attitude as regards land seized in lieu of tax payments.

## Former Kaiser Stands To Lose Some of Riches

DOORN, Holland, March 15 (AP)—Hard times have overtaken the once immensely wealthy former Kaiser Wilhelm II of Germany.

Just how hard the Hohenzollerns have been hit is not known. A year ago, representatives in Berlin admitted their finances had suffered.

But the man in the street might not consider their losses consequential—even today. For, in telling of the reverses, the Berlin representatives were combating published reports that the former German ruler had a fortune of about \$175,000,000.

"He hasn't one-tenth of that," the representatives indignantly declared.

So serious have financial difficulties become, it is said, that the return of Wilhelm to Germany is not altogether impossible. There was, however, no official comment on the heavy losses reputedly sustained through the fall of the dollar and British pound and the ban on the exportation of Germany money.

The former Kaiser remained in his estate, safely inside an eight-foot barbed wire fence, hidden from the stares of the curious by a huge, thick hedge.

## HORNSBY HAS PUT AMBITION INTO BROWNS

### DEVELOPMENT OF TRIO OF HURLERS IS WATCHED

(Note.—This is the third of a series of stories analyzing first-hand the 1934 prospects of major league baseball clubs.)

By ALAN GOULD Associated Press Sports Editor WEST PALM BEACH, Fla., Mar. 14 (AP)—Other methods having failed for five years to lift them out of the second division, the St. Louis Browns have drawn their manager and much of their inspiration from the National league in preparation for an upward thrust this season in the American league.

With absolutely nothing to lose and everything to gain with a club that finished a bad last in 1933, Rube Hornsby, what may be his last big league round up, has tackled the job of reconstruction and resurrection with characteristic vigor.

Stranger things have happened than that the Browns suddenly should manifest principal tendencies and become a factor in the American league race. They've already responded to Hornsby's aggressive leadership sufficiently to convince such natives as Col. Dan Rowley, one-time manager of the club, that they will not be a push-over for anybody this year.

"No shirkers can last under Hornsby," comments Colonel Dan. The trio of factors upon which depend chiefly the Browns' hopes of hoisting themselves out of the depths are: First, the development of at least two or three minor league pitching stars into effective regulars; second, the ability of Alan Cochrane Strange, the good looking Hollywood recruit, to make the grade at shortstop; and, finally, the attempt of Hornsby himself to hold down third base, at least on a part-time basis, and contribute his batting power to the team's much-needed attack.

Hornsby is the most interesting individual in camp. Fans who haven't been giving the Browns a tumble in recent years now go out to the park to see and shake hands with the former king of National league hitters. The Rajah plays first and third base in practice, coaches the pitchers with the aid of Grover Hartley, personally instructs all the batters and rattles the fences himself to show how it can be done.

The Browns have a nucleus of seasoned performers in outfielders Sam West, a great ball-hawk, and Bruce Campbell, who drove in 106 runs last year; second baseman Oscar Melillo, the defensive class of the league; and first baseman Jack Burns, a splendid workman although by no means a Gehrig or Fox.

Half of Hornsby's infield problem will be solved by Strange, who hit .324 in the coast league last year, measures up to expectations. The Rajah, if he doesn't last at third himself, will have to make a choice between Harland Clift, a youngster from San Antonio, and Art Scheraga, a weak batsman who finished with the Browns last year. Frank Bejma, up from San Antonio, is due for infield utility work.

The outfield reserves are the best the Browns have had in a long time. Debs Garms, a holdover, may alternate in left with Earl Clark, who hit .348 with the Braves last year. Ray Pepper and George Pucinelli, both obtained from the Rochester (N. Y.) farm of the St. Louis Cardinals, are good right-handed hitters.

The pitching staff, which Hornsby is rebuilding around the veteran George Blaeholder and Bump Hadley, each of whom won 15 games last year, looks big and powerful enough to frighten the opposition. Ten of the 13 hurlers in camp stand 6:01 or better. Of the newcomers, the biggest is Jim Weaver, who stands 6:06, weighs 230 and won 25 games with Newark last year. The fastest and best prospect is Buck Newsome, formerly with the Cubs, who won 30 games for Los Angeles last year.

Ivy Paul Andrews and Dick Coffman probably will round out a thoroughly right-handed pitching staff, for while the rescue work will be handled by the veteran Sammy Gray and left-handed Ed Wells, Jack Knott, Jim Walkup, Hand McDonald and Ed Baecht are other prospects. Rollie Hemaley and Frank Grube are the backstops.

"Mimow" submarines weighing only 12 tons and measuring 29 feet in length have been given successful underwater tests in Japan.

## IRISH FARMER INVITES YOU INTO YOUR GARDEN

BY THE IRISH FARMER  
Editor's note: Here is another of the frequent articles which will be run in The NEWS on gardening. If you have garden problems or suggestions, just write to the Garden Editor, Pampa Daily News and watch this department.

YOU are invited to plan a garden party to be given on the bare spaces of our city lots Saturday, March 17, St. Patrick's day. This invitation is to all who are so happy as to have a birthday in March. All who were born on St. Patrick's day should be in the receiving line.

We wish to include in this invitation, regardless of your birthdate, all fat people. We urge you to come. Also all office people, especially if you are pale and skinny. Mr. Banker, please come. We shall not ask for a dime of your money. Instead we shall share with you something which money cannot buy. Any who are slightly snobbish, we do not need your presence to enliven the party, but we graciously ask you to associate

with us and thus enhance your charm and prestige as a desirable neighbor. We especially invite any who may suffer from high blood pressure, rheumatism, indigestion, nervousness, colds, sleeplessness, blues, grouch, and general or chronic indisposition.

Come dressed as farmers who plan to get in a good day's work. The ladies will not be admitted if they wear those high heel shoes and dresses to blow up and around in their way, as they better get husband to lend them an old frayed cuff shirt and manage for the overalls. Be sure your gloves are thick and loose enough to sling off the hand. Your shoes should have heavy soles and flat heels, for who ever saw a farmer go to work wearing shoes with soles so thin that the grassbrubs would stick through to the skin, and with heels so high that he would trip and root his nose in the mud if he tried to get the calf in before all the milk was gone.

Refreshments ought to be big fat navy beans, soft and soupy, with ham hock, Tomato relish, big juicy onions, hot corn muffins with butter and real country sorghum, and all the good cold buttermilk you can drink.

Please do not ask the editor to tell who is giving this party, as he has promised this old Irish Farmer to keep it a secret.

This Irish Farmer had his first party on St. Patrick's day years and years ago, while the wind was putting on a grand march and dance frolic. He had such a good howling time at that party, that ever since then he has a happy grin when he hears the March wind howl. He is shy as a snail March here and avoids all publicity, but you will always find him happy-go-lucky and ready to lend a helping hand.

Come on out in your garden on St. Patrick's day at any hour that suits you, and be happy with this old Irish farmer. If you do not have a garden, start one and see what joy you have been missing.

Come on everybody and help An Old Irish Farmer celebrate his birthday on St. Patrick's day. In other words there's no better time than now to plan a garden and stir a bit of ground.

# Suppose THAT CORD BROKE in your tire!

THIS is a machine for stretching cords the way they'll have to stretch in your tire—every time the tire rolls around, which means about 500 times a minute at 45 miles an hour.

Both cords have been stretched exactly the same—and then released.

Look at the farther cord. It's come back tight and straight again. That's Supertwist—the cord used in every ply of every Goodyear Tire.

Now look at that broken cord in the foreground—and think what might happen if you had cords like that in your tire!

There's a little lesson in safety that's won millions of people to Goodyears—because it shows, without a lot of empty claims, exactly how much better Goodyear protects you from blow-outs—and why you get longer average life from a Goodyear Tire.

If this sounds a little technical—we'll sum it up in this: More people ride on Goodyear Tires than on any other kind—and of course that means more people buy them! How about you?

WHEN BETTER AUTOMOBILES ARE BUILT—BUICK WILL BUILD THEM

Going Places

Buick is going places this year. The public recognizes in Buick a new kind of motoring, finer as well as different—with all the unfailing dependability and performance for which Buick is noted. . . . Without question, this finer motoring begins with the gliding ride as only Buick gives it, which is being more and more favorably discussed as new Buick sales mount up. Safety and convenience and ease enter in, with Buick's new center point steering, its new vacuum power brakes and its new automatic starting. . . . The rich luxury of body accommodations goes hand in hand with the alluring beauty of Buick's new styling in the symmetrical windstream manner. . . . The dominating feature of Buick ownership is satisfaction, gratifying and enduring. The buyer knows beforehand—by report if not by personal contact—that Buick owners regard their cars with something like the affection they give to a friend. Don't you want to own the car which will be a true friend as long as you have it and which this year is going places?

**GREEN PLACED IN BACKFIELD FOR GRID TILT**

**McAULEY SHIFTED TO CENTER; CHANGES ARE NUMEROUS**

Coches Mitchell has literally "turned his football team inside out." The changes made were so sudden and drastic that for once the railbirds and sideline coaches were caught napping.

The revised lineup will scrimmage Coach C. O. Busby's "Exes" at 4 o'clock Saturday afternoon at Harvesters park. The scrimmage will be east of the grandstand. Coach Busby will have a much stronger lineup than the one that met the Harvesters last Friday. Don Salsbury reports that he will be present and Wayne Kelley will be over from Amarillo.

The revamped Harvesters looked great in a hard scrimmage yesterday afternoon. The changes made are numerous and give a good combination. The coach has brought J. Green, stellar tackle, out of the line and put him at a halfback position, sending Jack Powell, former halfback, into the line to replace Green. Robert McAuley, halfback and fullback, has been shifted to center. He backs up the line, where his tackling has been great.

With Green at halfback, the other ball toters are Hamilton, quarterback; Dunaway, halfback or fullback; and Mackie at either half of full. With Green back in the line, Nash goes in at quarterback, Hamilton shifts to a halfback position, which leaves Dunaway at the other half and Mackie at full.

Green's blocking has been outstanding since he was shifted to the backfield. The big fellow can also carry the ball and his tackling is above reproach. One or two other changes may be necessary in the line.

The end position is causing the coaches worry now. Mumford has been playing the right end, but he is out with an injured shoulder. Nix and Scott, former goalies, are showing up as best prospects now. Chubb by Stewart would be the answer to a coach's prayer at that position but he doesn't seem interested in turning out for practice, training or making his grades.

The changed lineup will face the "Exes" Saturday afternoon and fans are expecting a lot of fireworks.

Registration for the 1934 municipal election in Kansas City set a new high mark, estimates placing the list at 220,000 names.

Webb A. Browne, Alaska railroad agent at Nenana, says he has used the same fountain pen for more than 40 years.

**SOONER BATTLER TO MAKE HIS DEBUT IN RING HERE TONIGHT**

**Saxton To Fight Dunivan; Parris, Kid Stamper And Earl Madden on Card.**

Boxing will be resumed in Pampa tonight when Kenneth Saxton of Oklahoma City meets Mickey Dunivan, Pampa, in the 10-round main event of Promoter B. W. Kelly's card. Saxton will be making his first appearance in a Pampa ring.

The six-round semi-final gives promise of being a second main event. Two well known sluggers will get together for the first time. They have been seen here against good boys but have not been matched. Earl Madden hails from Spearman while Dick Hedgspeth comes from Perryton. The two middleweights appear to enjoy slugging rather than boxing.

A six-round special event has a main event boxer as one of the participants. Chief Eugene Parris of Oklahoma City has been matched with Kid Stamper, Pampa. Parris will be outwitted about 10 pounds but his speed and knowledge should offset the weight advantage held by Stamper.

Promoter Kelley has not arranged his preliminary. He expects a boy by the name of Cooke to accompany Parris from Oklahoma City and he will probably be used against Joe Vernon or Kid Cole, according to his weight.

Kenneth Saxton is reported to be a two-listed puncher and a nice boxer. He has been proving trouble to some of the fighters throughout Oklahoma and Missouri where he has been fighting. Joe Vernon, Chief Parris and Old Kid Granite recommend him highly.

Dunivan has been seen in action here. He is a good fast, fast on his feet and tough. He can use either a left or right effectively. The card will open at 8:15 o'clock.

**Tennis Giants To Play Today**

**NEW YORK, March 15 (AP)**—The tennis titans of America—Lester Stoefer, avowed aspirant for the Davis cup team, and Frank X. Shields, who is regarded as a certain internationalist—met in the seventh regiment armory today in the outstanding semi-final match of the national indoor championships.

The champion for the past two years, Stoefer, 29, went up against Sidney E. Wood Jr., fair-haired Davis cup player for several years, in the other semi-final encounter.

Shields, who measures six feet, three inches from head to foot, played superbly yesterday against Dr. Eugene H. McCauliff, Stoefer, an inch taller, gave a masterful exhibition against George M. Lott Jr., veteran Davis cup doubles player.

Shields and Stoefer met for the first time last year at Hot Springs on clay courts. Shields won in four sets.

"My game is 40 per cent better than it was the first time I met Shields and Stoefer, who is nationally ranked at No. 3.

As he waited for a taxi after the senate had adjourned, a fine black limousine drew up and a gentleman in it offered him a lift home.

"No, thank you," said Walter. "My parents told me never to ride with strangers."

The limousine whisked Attorney General Cummings away.

**Ogden Boosters Are Eliminated In Cage Tourney**

**KANSAS CITY, March 15 (AP)**—With one of the leading favorites in the discard, three western contenders, from San Francisco, Denver, and Laramie, Wyo., and five Missouri Valley league teams play the quarter-finals of the A. A. U. national basketball tournament tonight.

The only major upset in the third round last night was the defeat of the Ogden, Utah, Boosters, by the University of Wyoming's Rocky Mountain collegiate champions, who overcame a 22-point lead to win by 39-35.

The Tulsa Diamond Oilers, defending champions, met little resistance in their 39-22 triumph over the Firestone Californians from Los Angeles.

The quarter-final schedule tonight:

7 p. m.—Lifschultz East Freights, Chicago, vs. Tulsa Diamond Oilers, Tulsa.

9 p. m.—Southern Kansas Stage Lines, Kansas City, vs. Hutchinson, Kan., Reno.

10 p. m.—Wyoming University vs. Wichita, Kan., Gridley Chieftains.

**TRAINING WITH THE MAJOR LEAGUES**

**By The Associated Press. TIGERS**

**LAKELAND, Fla., March 15 (AP)**—With Herman (Plea) Clifton primed to step into the third base job, Manager Mickey Cochran of the Detroit Tigers waited anxiously today for Marvin Owen to get a suit and get into practice, to determine whether he is going to be able to take the third sack assignment.

Owen came Wednesday from Hot Springs where he has been taking the baths. "I feel good," he said, "but I won't know how good until I get out there and toss the ball around awhile."

**YANKEES**

**ST. PETERSBURG, Fla.**—Colonel Jacob Ruppert, owner of the Yankees, is due here today for a short vacation but it was believed he would devote a little time to the business of trying to bring the holdouts, Bill Dickey and Lyn Lary, into line. So far Dickey has been firm in his demand for \$1,500 more than offered. Lary hasn't named any figures but the impression is he would like to be traded to a club which would use him more regularly than the Yankees have.

**DODGERS**

**ORLANDO, Fla.**—The ultimatum issued to Ray Benge, Brooklyn's holdout pitcher, brought quick results but Manager Casey Stengel and Business Manager Bob Quinn are planning to use different tactics on Al Lopez and Hack Wilson, Quinn is expected to go to Tampa in a day or two to talk things over with Lopez. As for Wilson, Stengel remarked:

"If he wants to come in, it's all right with me. And if he doesn't want to come in that's all right."

**PHILLIES**

**WINTER HAVEN, Fla.**—Whatever the caliber of the Phils, the players in Philadelphia's National league club are off to an even start.

In their first encounter, a 6-inning affair, the regulars and the "Yanigans" each got five runs, made seven hits, committed two errors and had six men stranded on bases.

**ATHLETICS**

**FORT MYERS, Fla.**—With the Philadelphia Athletics planning to carry five outfielders this season, three of the berths apparently are clinched.

Doc Cramer, Bing Miller, and Bob Johnson are viewed around the training camp as certainities, with Ed Coleman considered the leading contender for fourth place. That leaves Lou Pinney, recalled from Montreal, and Ray Radcliffe, late of St. Paul, to fight over the remaining assignment.

**SENATORS**

**BILOXI, Miss.**—The American league champion Senators expected to swing into real training camp stride today with the arrival of a batch of the first string infielders and outfielders.

Owner Clark Griffith expects to get the first shot at two of the expected arrivals. Neither Heinie Manush nor Joe Kuhel have signed, and Griff may make some concessions to get their names on the line.

**Laura La Plante Will Get Divorce**

**LONDON, March 15 (AP)**—Laura La Plante, motion picture actress, said today she is suing her husband, William Seiter, film director, for a divorce and that she has filed the suit in Riga, Latvia.

At the film studio here where she is being starred in an English picture, Miss La Plante said: "The proceedings have been taken on the ground of incompatibility. There is no other reason and we still are very good friends."

She said her husband was sending a waiver from Hollywood and on its receipt she would sign it, after which she supposed the divorce will be granted under the law of Latvia.

**JOHN SIMPSON DIES**

**WASHINGTON, March 15 (AP)**—John A. Simpson, 65, of Oklahoma City, president of the National Farmers Union, died here today after a heart attack. Simpson collapsed in the senate office building yesterday after he had testified against the federal gasoline tax before the senate finance committee.

Boston Braves training camp on his own?

Finally, Manager Bill McKeehan, in self defense, gave Charlie a uniform and let him pitch batting practice.

The Nashua youth surprised McKeehan and yesterday he fooled the regulars in brilliant style. Pitching for the Yanigans he allowed only two regulars to reach base in five innings. And to complete the fine performance, Charlie drove in a run with a triple.

**WEST HARTFORD, Conn.**—At least 30 days must elapse before Leo J. Flaherty, 28, of Woonsocket, R. I., can enjoy the fruits of his strenuous campaign.

He was elected judge of the kangaroo court in the federal transient camp, deposed, and then came back with a whirlwind campaign that again won him the "judicial" post.

But the election caused a rumpus in camp. Flaherty was arrested on a charge of breach of the peace. The judge of West Hartford town

court told the "judge" of the kangaroo court, "thirty days in jail."

(Continued From Page 1) your time was not spent in vain. And of your daily reading a similar thing might be said. Unless the residue of your daily thoughts contributes something to the quality of mind and personality, you have indeed, an intellectual drought. This world has become marvelous in so many ways that each day holds a possibility of adding something to your knowledge, poise and personality even if it also adds to your problems.

DR. David Maynard, guest speaker at the International Relations conference at Canyon, is not one of those who predicts war this month between Japan and Russia. He pointed out that Japan is obtaining, without a formal declaration of war, the territory which she desires for her teeming millions and as a source of raw materials to secure national security. Financially, Japan is not in a position to fight a long war. Russia, whose new military might is not yet skilful enough to meet Japan on a par with the smart little Japanese, would like nothing quite so much as more time in which to perfect her socialistic world.

DR. Maynard, who spent five years in intimate contact with the League of Nations, pointed out, however, that war talk is the weapon of military leaders and munition makers. War scares tend to make taxpayers bear up under the great strains without starting a revolution. If Japan and her military government should have to decide between internal revolution and war with Russia, it is probable that the former course will be chosen.

## RED LUCAS'S PIRATES' HOPE THIS SEASON

FORMER RED IS PINCH HITTER WHO HITS IN THE PITCHES

(Note: This is the fourth of a series of stories analyzing first hand the 1934 prospects of major league baseball clubs.)

## BY RUSSELL NEWLAND, Associated Press Staff Writer.

PASO ROBLES, Calif., March 15 (AP)—Pittsburgh's Pirates are going gunning for the National league prize this season with high hopes that a newcomer to the crew will mean the difference between first place and the runner-up position they have occupied the last two years.

The burly baseballer in whose experience Manager George Gibson is placing considerable trust is Chas. "Red" Lucas, late of the Cincinnati Reds pitching corps and a pinch hitter, who really "hits in the pitches."

Lucas landed with the Pirates after eight years with the Reds. Manager Gibson reasons the broad-shouldered right hander should bolster his hurling staff almost on the strength of his 1933 record. For a tall end club, "Red" won ten games and lost sixteen. His pinch hitting is expected to provide one of the hot spots of the Pirate attack. During his eight years tenure at Cincinnati, Lucas compiled pinch hitting grand average of about .400. He hit for .387 in 75 games last season.

Aside from the addition of Lucas, the Pirate squad is virtually the same as that which led the pennant parade of last season and trailed the Giants in at the finish. Gibson believes his outfield compares with any in the league. It lines up the Waner brothers, Paul and Lloyd, and Freddie Lindstrom. Lloyd Waner may be shifted from left to center field this season. A position he held down regularly until Lindstrom came over from the Giants a year ago. Lindstrom is equally at home in left. For utility purposes, Foster, Jensen and Walter Reuther are available. Roestger came with Lucas in the Cincinnati swap for Adam Comorosky and Tony Piet.

The infield combination has been proven. With Gus Suhr at first, Tom Thoenow at second, Floyd Vaughn at short and the reliable "Pie" Traynor at third.

Harry Lavagetto, purchased from Oakland of the Coast League, is a promising infield recruit. Behind the plate Earl Grace and Hal Finny claim first and second string positions, respectively, with Tom Padden, also a holdover, backing a newcomer, Art Veitman, for the third berth. Veitman, drafted from Oakland, has shown impressively. He hit .331 last year.

The pitching staff offers but few worries. Lucas is a certain starter, as will be Harold Smith, Larry French, the star southpaw, and left-hander, who was recalled from Toronto last midseason and produced satisfactorily.

Other holdovers include Heine Melno, Bill Swift, Bill Harris, Walter Hoyt, and Leon Chagnon. Melno and Swift probably will round out the regular starters. Two bright rookie prospects fighting for one of the nine pitching berths are Lloyd Johnson, a six-foot, four-inch southpaw purchased from the San Francisco Missions, and Barret Blanton, from St. Joseph, Blanton, a right hander, won 21 and lost 7 last year.

Time for "hitch-hiking" veterans to climb aboard.

# GLEE CLUB, BAND, PLAYS WILL ENTERTAIN IN P-TA PROGRAM

## OPEN MEETING TO BE IN CITY HALL FRIDAY

### PARENTS ARE URGED TO SEE ACTIVITY OF STUDENTS

A new student organization in high school, the boys glee club, will be featured on the program which student organizations will present tomorrow evening under sponsorship of the Parent-Teacher association.

The band, dramatic club, and commercial department will also give program numbers in the open meeting. Parents of all high school students are especially invited. The program is designed to show them the opportunities offered students for participation in various activities.

### FIFTH AVENUE FASHIONS

By ELLEN WORTH

**It's the Feminine Touch That Counts**

With femininity the keynote of the spring mode, you'll have plenty of reason for adding this frock to your wardrobe. You'll like those knowing little touches that add chic—the rippling, lace-edged jabot that "puts up a smart front" with the deftly cut bodice—the full three-quarter sleeves with their flattering lace cuffs, and the new stitched belt which is the last word in chic.

Heavy sheers are tremendously smart, so make this up in a sheer in one of the new gray blues. Size 16 requires 4 1/2 yards 36-inch fabric. 1/2 yard 36-inch all-over lace. Width about 2 yards.

Pattern No. 5489 is designed for sizes 14, 16, 18, 20 years, 32, 34, 36, 38, 40, 42 bust.

# Judith Lane

By JEANNE BOWMAN

SYNOPSIS: Judith Lane, Tom Bevin's secretary, and Norman Dale return from Rio Diablo engaged. Bevin is about to build a dam at Rio Diablo to reclaim a huge quantity of land. They are met at Galveston by the Bevin yacht on which is Celia Sanford, Judith's reporter friend. Celia tells Judith that Mathile Bevin will try to make trouble between her and her newly acquired fiancé, and that Morton Lampere, senior partner of Norman's Houston law firm, is out to queer Bevin's dam project.

Chapter Eight  
LAMPERE'S PLOT

Judith Lane, slightly astonished at the change Celia Sanford had evoked in her appearance with ruffles, peach powder and rouge, slipped into the stateroom mirror and gazed at the girl who practically owned this yacht (Big Tom's interest was merely paying maintenance bills) hoped to marry Norman Dale.

And then her attention was rudely switched from her own personal feelings to concern over her chief. "It happened this way," Celia explained in a deep chair and lit a cigarette with a deliberation which Judith recognized as a forerunner of something important.

"Lettie Canfield decided to take a post graduate course in matrimony, and I was sent over to the court house to check on her first mistake. It was closing time, and I slipped in and promised to latch the door when I left. You know how those files are, don't you? If ever I want to commit murder I'll hide the victim in there and go free the rest of my days."

"I was back of one tending to Lettie's business when I heard voices. I peeked around and found that Morton Lampere and Judge Martellian had slipped in through the crack of the door and were doing a confidential."

"They looked so guilty I felt duty bound to find out what they were talking about. This was it. Lampere was trying to force Martellian to get some friend of his in Rio Mar county to issue an injunction against the sale of any additional dam property to your boss."

"Oh, . . . Judith had forgotten Norman, the yacht, her lovely frock. She was the stenographer ready to act as a medium between Big Tom and a danger which threatened his dam."

"But, Celia, I'm sure he bought all that was necessary; bought the dam site from the State for delinquent taxes last winter, and the limitation date has already passed, so they can't question his ownership of that."

"At the same time he bought all land deserted by the homeseeking owners, for delinquent taxes, in order to prevent their very homeseekers. After the irrigation is available they may have their land."

back, providing they will live on it and cultivate it, by simply paying what Big Tom paid the State."

"Wouldn't Lampere know all of that?"

"Of course . . . I have it," Judith, who had sat down opposite her friend, arose. "It's the new dam . . . the upper one. Celia, I trust; you implicitly or I wouldn't think out loud. For some reason Lampere is trying to check Big Tom's control of the upper flood basin. I remember sending a wire to the Company Board telling of the new plans. . . Lampere read it. . . he was probably called to the board meeting."

"But, Celia," she stood before her friend. "Why should he fight the firm retaining him?"

"You're asking me," commented Celia. "However, Jude, he didn't intend that Bevin should find out he was behind the injunction. He threatened the judge with some legal exposure if Big Tom learned of it through him."

"I don't understand why he's doing this," mused Judith. "The dam is only a hobby of Mr. Bevin. Of course it will make money in time, everything Big Tom touches does and for that reason he has complete support of our board of directors. . . he's ready to build it with his own cash, if there is any discussion asked of him."

"Why should Lampere and the judge discuss such a thing in a public file room?"

"I'm afraid if they went to either of those smart reporters like Celia Sanford would see them and smell a political mouse. . . you remember my estimable news-sheet nearly put both of them on the scandal spot after the last election."

"You should know about Lampere before he reaches Houston. Wait. . . there's someone at the door."

"Well, girls," Mrs. Dale stood in the doorway, "Aren't you coming up?"

"When I was a girl," observed Celia, with the affectation of an ancient crone, "my hostess escorted me."

"Times and hostesses have changed," laughed Mrs. Dale, but there was apology in her voice, "so along the circumstances come along."

"My hostess met them on the main deck and propelling Judith gently along by a delicate pressure on her arm, came to a stop on the after deck where the crowd had gathered."

"Holla," Mrs. Bevin's voice was genial, friendly. "I want you to meet Tom's stenographer, Miss Lane."

"Having been catalogued," observed Celia, laughing, "suppose you come along over here and sit with the only other working girl aboard."

Judith followed Celia, slightly bewildered, while the crowd laughed good-naturedly. Judith noticed Norman wasn't on deck, nor was Big Tom. She sank into a wicker chair which was pushed out from somewhere, and then saw Norman approaching, an exquisitely lovely girl smiling up into his face.

The girl accepted a chair, directly opposite Judith's and she noticed with a start that this was Mathile Bevin, a Mathile who had changed tremendously since she had last seen her.

Her eyes, artfully shadowed, seemed dark instead of pale blue, beneath the crown of platinum hair. She wore a dark blue organza, cut with exaggerated sailor-suit lines with silver braid and buttons for trimming. It was unquestionably smart.

Judith sought for a simile to express the change in the plump, dowdy girl she had known and the gently rounded, beautifully sophisticated one before her. She had it. She was as different as the Tilly her father had once called her, was different from the Mathile he called her now when he didn't forget.

Norman seated himself near Judith, a proprietary air about him which caused the Bevin's eyes to narrow.

"Miss Lane," she began with a patronizing note in her voice, "you look badly. Has father been working you too hard, or have you been dieting for the former fashionable figure?"

"Forced dieting," barked Tom Bevin who had come up behind Judith, "all of us were. We found the natives down there about starved and this child," with a fond pat of Judith's head, "slipped her poor share to the kids."

"Really, tell us about the trip," Miss Lane suggested someone.

"Help!" gasped Mathile delicately, "not that, I've been bored with tales of surveying trips ever since I can remember."

"You wouldn't have been bored with this one, or on it either," her father suggested, comfortably. "We had the kind of a storm, Tilly, which used to send you scurrying under the bed."

Tilly, flushed scarlet, and the crowd booted at the idea of the elegant Mateel on all fours seeking shelter.

"Peculiar how danger brings out the primitive in us," remarked someone.

"Danger," retorted Mathile, her voice brittle, "brings out a lot of strange emotions. . . storms especially."

"For illustration, During one of my earlier trips abroad we spent some time in Italy. I managed to shake my chaperone. . . Oh, yes, mother tried to have me properly dismissed and take a cruise

## Death Sentence Is Assessed In Marshal Slaying

GEORGETOWN, March 15 (AP)—A jury today convicted Lewis Cernoch and sentenced him to death for the slaying February 15 of Henry Lindsey, Granger city marshal.

Lindsey and Sam Moore, a constable, were shot killed when they took Cernoch to the office of John Nunn, justice of the peace, to answer for failure to pay a fine for use of abusive language.

Witnesses at the trial said Cernoch killed Lindsey as the marshal ran around an automobile in front of the justice's office, then re-entered the office and started firing at Moore and others so "they would not bother me any more."

## CLUBS OF SEVENTH DISTRICT AID IN CIVIC AND EDUCATIONAL GROWTH OF THEIR COMMUNITIES

BY BLANCHE BEAN WILSON  
Publicity Chairman Seventh District, Texas Federation of Women's Clubs

LUBBOCK, March 15 (AP)—In addition to programs of study, women's clubs of the seventh district have many civic and educational enterprises under way, reports from the clubs indicate.

Libraries and scholarship funds are being sponsored. Health clinics are being fostered. Clipping bureaus are maintained and various education projects are receiving support from these clubs.

The Junior Twentieth Century club of Pampa, in co-operation with the Red Cross here, is maintaining a pre-school clinic for children of the unemployed.

The LeFors Art and Civic club recently sponsored a book tea and, as a result, presented the school library with 85 volumes. The club also has purchased a plot of ground and presented it to the city council to be used as a cemetery plot.

The 1933 Study club of Spur, with Mrs. C. H. McCulley as president, has pledged \$100 to the permanent club headquarters in Austin. This is the youngest of four federated clubs in Spur.

Books and magazines were purchased for the juvenile department of the Dalhart public library by the Junior Literary club with \$38 raised in winter style show.

Members of the 1934 Study club in Wellington have a county library with a paid librarian, in the court house there. They have a loan fund of \$125 and the club is a patron to permanent headquarters.

Club Birthday Observed

The Hale County Federation of Women's clubs, which has the distinction of being the second oldest federation in the United States, is having a birthday celebration this spring at Abernathy.

The Junior Woman's club at Canadian includes in its membership fourteen members from 10 to 13 years of age.

Antique and modern quilts were included in a quilt show fostered by the Malda and Matrons club of Brownfield during the first weekend in this month.

Study clubs of Snyder are co-operating in compiling a clipping

Library from which club program material is drawn. There are now about 500 clippings on file at a library there. On two occasions the club women have had county exchanges at which city and rural folk exchanged plants, home products, pets and various other articles.

The 1931 Study club of Memphis helps keep needy children in school clothes. The clothing is kept in a room at the public school.

Essay Prizes Offered

Four cash prizes are being offered to Deaf Smith county school children who submit the best essays on "An Historical Event in the Early History of Texas." The Deaf Smith County Federation is offering the prizes.

The Wheeler Home Demonstration club began a study course (the last of February). Mr. Floyd Pennington is the president.

Members of the 1934 Study club of Quanah recently celebrated the club's 30th birthday with a party at which husbands of members were guests.

The Phoebe K. Warner club of Tahoka has bought a piano and established a small scholarship and loan fund.

A Junior Magazine club has been formed at Higgins under the sponsorship of the Magazine club. There are 16 young married women in the new organization and Mrs. Franklin Pough is the president.

With an object of creating art appreciation in the community, members of the Arno Art club at Pampa are sponsoring a number of art exhibits there this year.

An increase in subscribers and interest has marked the growth of the Berger Public library, a project sponsored by the Twentieth Century club of that city.

Mrs. Kent Philpot of Miami shopped in the city yesterday afternoon.

## KIDNAP VICTIM IS MURDERED IN NEW YORK

KIN IGNORE THREATS; BODY FOUND IN SNOW

NEW YORK, March 15 (AP)—Kidnapers of Max Kasoff called members of his family last week demanding \$5,000 ransom "or we'll send him home in pieces—an ear first."

Altogether there were four phone calls. The last one Sunday night said: "So you notified the police, eh? OK. We fix."

Today members of the family went to Rockville Center, Long Island, to identify Max Kasoff's body. He had been blindfolded, shot twice in the head and once through the neck, and there was a deep cut where he had been struck as with a length of pipe.

The body was found yesterday in front of a billboard in Oceanide Long Island. It was frozen and partly covered with snow. Kasoff's name was in the labels of the clothing.

A medical examiner fixed the hour of Kasoff's death as early Monday—a few hours after the telephone call in which the kidnapers announced: "We fix."

Kasoff, who was 37 years old and well known in the automobile rental business, disappeared from home last Thursday night. His family did not take seriously the first demand for ransom because of Kasoff's reputation as a practical joker.

## WHOZZA LIAR?

CLEVELAND (AP)—Mrs. Fannie Gulkin, 35, and three others were being tried for participating in a disturbance at the offices of the county relief administration.

"Liar!" she shouted when a witness described her language during the disturbance. She was cautioned by the court.

"I still say he's a liar," she retorted.

When the court sentenced her to ten days for contempt of court, she faints.

Tom Rose and J. M. Hatfield are in Oklahoma City on a business trip.

## MUCH OF CITY IS A MASS OF SMOKING RUINS

### FLAMES SPREAD AFTER EXPLOSIVES IGNITE EL LIBERTADO

SAN SALVADOR, El Salvador, March 15 (AP)—Much of the city of La Libertad was a mass of smoking ruins today—levelled by fire which spread after a port explosion in which about 150 persons were killed.

The blast, which could be heard here in the capital about 30 miles away, occurred when dynamite exploded as it was being unloaded from a ship at the docks.

Fire broke out. Flames spread quickly to buildings and swept over many blocks. The city hall and a church were among the important buildings consumed.

Hundreds of firemen were rushed from San Salvador along with scores of relief workers whose automobiles dashed in and out of the danger zones, carrying the injured to hospitals here.

National guardsmen and Red Cross workers were joined by officials in directing remaining rescue work. The president and high government officials rushed to the scene.

In all, it was said about 250 cases of dynamite went up in the explosion. Officials said they believed sparks from a locomotive set off the blast.

It was said that not one man of those hauling the explosives escaped death. Four customs agents and a telegraph operator died also. It was feared other deaths might follow among the injured.

## Fire Extinguished At Church in City

A part of the outside of the South Side Baptist church on Reid street was scorched last night before the fire department arrived. The fire was soon extinguished with water from the booster tank. Damage was estimated at only \$5.

Chief Clyde Gold said he had no idea how the fire started unless sparks from a trash fire quite a distance away had blown near the building, igniting dry grass. The call was the third this month.

## Curfew To Ring Tonight on 1933 Income Returns

WASHINGTON, March 15 (AP)—Midnight rings the curfew for 1933 income tax returns.

Officials indicate that if tax returns get in the mail today, the government won't be too harsh about that 25 per cent fine for late-comers, but a much longer delay will require explanation.

This year last minute taxpayers make affidavits on their income with full knowledge of President Roosevelt's new policy that where glaring inaccuracies appear, the government will leave to a grand jury decision the question of whether criminal or civil proceedings against the taxpayer are in order.

Between 200 and 300 old cases now are being prepared for grand jury investigations. The rule applies to the big taxpayer and the small, and officials expect it to continue unchanged for 1933 returns.

Whether because of these cases or otherwise, Secretary Morgenthau, finds March income tax collections for the first 12 days of March totaling \$33,073,000 as compared with \$10,377,000 a year ago.

## COUPLE HELD

AMARILLO, March 15 (AP)—Mrs. Dollie I. Hatfield, former postmaster at Kusa, Okla., and her husband, James R. Hatfield, who served as her assistant, are being held in Amarillo for Oklahoma federal officers on charges of embezzlement of postal funds.

The indictment on which postal inspectors here made the arrests charged the embezzlement of \$726.32 last December.

## MORE NATIONS MIGHT ATTEND ROME PARLEYS

### FRANCE AND ITALY IN MOOD TO BURY THE HATCHET

BY ANDRUE BERDING, Associated Press Foreign Staff.

ROME, March 15 (AP)—Italy will invite France, Germany, and the nations of the little entente to join in the economic agreement expected to be reached in the tripartite conferences in progress here today, the Associated Press was informed by a usually reliable source.

The invitation will not be extended soon, it is said, but some time after the agreement made by Chancellor Engelbert Dollfuss of Austria, Premier Julius Goembs of Hungary and Premier Benito Mussolini has begun to bear fruit.

It is explained that Italy requires she is not sufficiently strong—even with the help of Hungary—to make Austria independent of Germany commercially, and thus assure her political independence, too.

The cooperation of other powers is believed necessary to accomplish this end. The nations of the little entente are Czechoslovakia, Yugoslavia and Rumania.

It is understood that it duce is making his Danubian plan the foundation of the talks started with General Goembs Tuesday and continued with Dollfuss at the Venezia palace yesterday before all came together today.

In connection with discussion of the French situation, reports that Mussolini is offering to bury the hatchet with France were characterized as follows:

Relations between France and Italy are very friendly at present and there is every indication that they will continue so.

However, there is no possibility of talking of approachment until material differences between the two nations are settled, namely, naval parity; Tunis; more Italian territory in Africa and clarification of relations between France and Yugoslavia.

Italy, it is said, has no intention of renouncing what she considers her rights in these matters.

Mussolini's Danubian plan purposes to help all of the states of the Danubian basin on the basis of preferential duties, trade agreements, and voluntary relinquishment of the most favored nation clause by nations that enjoy favorable balances with these states.

## State Official Slays Secretary Then Kills Self

FRANKFORT, Ky., March 15 (AP)—It's the business of a coroner's jury simply to find out what happened, and the one that meets here today will probably bring in a verdict of murder and suicide, but the question remains why a prominent widower of 65 should drive his auto-burn-haired young secretary out on a country road and shoot her thru the head.

Mrs. Myrtle McCrocklin, private secretary to Col. Nathan O. Gray, head of the automobile department of the state tax commission, remarked anxiously yesterday to a friend that she wished she could get transferred to another department.

Later in the day, shortly after the office had closed, a farmer came across the official's car, parked just off the Louisville road.

Inside was the body of Mrs. McCrocklin sprawled under the wheel, a bullet wound through the side of her head and her powder burns on her right hand, as though she had tried to ward off the pistol clutched in the dying grasp of Col. Gray. There was a bullet wound above his right temple. He died in a hospital shortly afterwards without regaining consciousness.

Mrs. McCrocklin, whose home was in Harlan, Ky., was 32 years old, and a divorcee. She and Col. Gray had been seen frequently in public together.

## Jaycees' Origin, Purposes Told in Rotary Club Talk

The Rotary club program yesterday was presented by the Pampa Junior chamber of commerce, John Osborne, local attorney, spoke on the origin and purposes of the organization, stressing the point that the civic leaders of "tomorrow" need training while they are young.

Clarence Kennedy, president of the Jaycees, was introduced by William T. Fraser, who had charge of the program. He invited Rotarians to visit with the Jaycees and learn more about the organization. Miss Lorene McClintock gave a musical number.

Other Jaycees present were Arlie Crites, Harry E. Hoare, Marvin Lewis, and Alfred Gilliland. C. S. Rice of McLean was another guest.

Visiting Rotarians were W. E. Rearden, Monroe, La., Tom Hudspeith, El Paso, W. J. VanLondon, Amarillo, and F. M. Gwin, Dallas.

Mrs. S. N. Collins of Childress is visiting her daughter, Mrs. Lynn Ribow, who is recovering from a recent operation. Mrs. Ribow returned home this week from Wray hospital.

## Middleman May Be Stuck With Processing Tax

WASHINGTON, March 15 (AP)—The middleman may be stuck with a processing tax for the first time if farm administration plans for milk control carry through.

The suggestion is a departure from previous plans of the administration for levying taxes designed to be turned back in farmers' benefits.

This year the programs for cotton, wheat, tobacco, and corn and hogs the processing taxes have been levied with the expectation that they would be passed on to consumers.

The proposed milk processing tax is expected to be about 5 cents per pound on butter and proportionate amounts on fluid milk, cheese, and other products. Officials maintain this will not, justly increasing the retail price of milk by one full cent per quart.

They are now seeking means of guarding against such a rise and content that milk could be sold with fractional cent quotations through the issuance of checks or by selling it in larger quantities than quarts.

Behind closed doors, conferees from senate and house planned to try for an agreement on payments to veterans and government workers. Suddenly softened demands were voted by the house last night.

The senate some time ago tacked amendments on the independent offices bill, adding about \$354,000,000 to veterans benefits and payments to federal employees. This the administration considered a blow at the economy program and a veto by the president was threatened.

The house modified the measure last night, cutting the expenditures down to about \$261,000,000.

First indications were that a compromise could be reached without long negotiation. The attitude of the senate however, was not finally determined.

House democrats, after once bolting their leaders, capitulated suddenly to open the way to an agreement.

As the threat of a presidential veto was waved repeatedly over the senate amendments, substantial house majorities voted for compromise proposals not far removed from those proposed by the administration.

## Japan Launches Most Powerful B-Class Cruiser

KURE, Japan, March 15 (AP)—Japan launched today what will be, when completed within the next two years, the most powerful and formidable "B-Class" cruiser afloat—the Mogami.

The Mogami, laid down in October, 1931, is an 8500-ton "light" cruiser, first of six which either are being built or projected for early construction.

The armament will consist of fifteen 6.1 inch guns, placed in five triple turrets of most modern design.

Foreign experts doubt that such great gunpower can be accommodated on a craft of such light displacement, but the Japanese are not disturbed by these opinions.

They say that in speed, power and the range and weight of her broadsides she will be a formidable adversary for any of the A-class cruisers built by the naval big three—America, Britain and Japan.

Since the Washington conference in 1922 set the 10,000-ton limit for cruisers.

The Mogami will develop 33 knots for the 90-000-horsepower engines. She is 625 feet long and her cost will be about \$12,500,000.

## Four Earth Shocks Felt in Salt Lake

SALT LAKE CITY, March 15 (AP)—Four earth movements, the first severe, were felt in this city and throughout northern Utah early today—the scene of repeated vibrations last Monday.

The most severe tremor was felt at 5:02 a. m. and others at 5:30, 6:46, and 6:57 a. m. (MST).

Reports received here from the Locomotive Springs area in Boulder county center of last Monday's quake, said streams of black water issued from several fissures when the 5:02 a. m. disturbance was felt. The fissures, many of them more than a foot wide and hundreds of feet long, appeared in the ground during the quake earlier in the week.

No damage was reported today. Last Monday plaster and walls were cracked.

## CLARA HILL PARTY

The Clara Hill class of Methodist church will be entertained with a St. Patrick's party tomorrow at 2:30, in the church basement. Members and friends of the class are invited.
