PRICE FIVE CENTS

Twinkles

Belief will not be real until the politicians find it beyond their reach.

Some beneficiaries have never learned how to accept relief gracefully—some never will.

We remember one old pioneer who loved to extend courtesies but who became as mad as the proverbial hornet if anyone tried to pay him.

Maybe you think it's terrible that Clyde Barrow isn't caught. How would YOU take him if you heard he were approaching? Write us your solution for blasting his machine gun nest.

So the highway commission wishes to connect the gaps in "through" paving for the Centennial, does it? Nothing new in that—just a re-affirmation of an old policy.

Brevitorials

Musings of the moment: Water leaks in New York City mains cause a loss of 200 million gallons daily. If we had all that water we wouldn't need a main.

North Carolina has an unwritten law that governors must come alternately from different sections of the state. Texas has too many written laws and not enough unwritten ones of that type.

Roosevelt may have "ten principal enemies," but many a man has 20 enemies and he himself is all of them. Today's synonyms for growth: Accretion, vegetation, germination, rearing.

THE gas waste problem is difficult in many particulars. None but those who profit most directly would like to see the field developed quickly throughout its limits. In the first place, the demand for the fuel would not be in this section. Stripping for gasoline content and burning for carbon black could not require so much gas without hopelessly over-producing these products. Secondly, such rapid use of the fuel could only mean a rapidly low price for it, robbing not only the land and royalty owners, but depriving the state of tax revenue as well. Thirdly, the towns of the oil belt in the Panhandle would be deprived of their chief support, and after a spurge of good business would permanently and with great detriment decline.

IT is therefore obvious that quick exhaustion of the field, whether by pipeline or stripping plant, is to

FREDERICK AUGUSTUS CONRAD MUEHLER was Speaker from 1789 to 1791, while the national capital was moved from New York to Philadelphia to Washington. Edwin Cawston imported 50 ostriches from Africa, but only 18 survived. The "Philanthropist," printed at Mt. Pleasant, O., had in its first issue what is said to be the strongest appeal for abolition ever made.

First in Pampa

Q.—Who was the first county clerk?
A.—Siler Faulkner was elected to that office in 1802. He is now a resident of Pampa.

SENATE VOTES BIG RAISE IN ESTATE TAXES

REVENUE EXPECTED TO AMOUNT TO \$2 MILLIONS

WASHINGTON, April 12 (AP)—The senate today voted for a big increase in inheritance taxes, designed to raise \$2,000,000 a year in additional revenue.

It adopted an amendment to the revenue bill by Senator LaFollette (R., Wis.) making the range of super-inheritance of estate levies 1 to 60 per cent as against 1 to 45 in existing law and 1 to 50 in the finance committee schedule. Exemptions on gross estates were reduced from \$50,000 to \$40,000.

Taxes paid under the super-estate schedule are not subject to the 80 per cent credit for similar taxes paid to states.

There are two schedules of estate rates under present law, the first running from 1 to 20 per cent against which the 80 per cent credit is allowed. The LaFollette rates do not affect the first schedule.

The newly adopted rates begin on net estates under \$20,000, compared with \$10,000 in existing law, and graduate upward to 60 per cent on those over \$10,000,000 with an exemption of \$40,000 on gross estates against \$50,000 in existing law. The estate tax is paid on the value of estates transferred after death.

LaFollette explained the complex rates, on estates under his amendment would amount only to about 44 per cent over \$10,000,000. He said the 60 per cent probably would not apply until \$100,000,000 was reached.

The vote for the LaFollette inheritance levies was 65 to 14.

Meanwhile house leaders look dubiously at prospects for acceptance of the 10 per cent surtax on incomes adopted yesterday by the senate.

Speaker Rainey said he thought "There is quite a bit of opposition to it in the house."

Trippers Asked To Provide Cars To Farrington

Cars will be needed tonight to transport citizens and high school seniors to a box supper at the Farrington school.

The senior class will be given the proceeds of the event to help defray expenses of their class trip to Carlsbad caverns in May. The trip tonight will be sponsored by good will committees of the chambers of commerce.

The trippers are requested to meet at the city hall at 7:30 p. m. Boxes will be limited to \$1 each.

Possibility Of Organizing 'Y' Is Considered

A survey among the young men and boys in the interest of organizing a Young Men's Christian Association in Pampa will be started immediately by a committee headed by Carl Sturgeon and Roy Quinn. Grover C. Good, Hi-Y member of the district, has outlined the movement to the Junior chamber of commerce and to a number of interested citizens.

J. H. Henry of Dallas, state executive, will be asked to explain plans for organization, and if enough members are enrolled during the drive, a Y. M. C. A. may be started in Pampa. The Hi-Y club at the high school is one of the most active in the state and has the full co-operation and support of Supr. E. B. Fisher and Principal L. L. Bone, who were present at the meeting yesterday.

Young men and boys of this area interested in the organization of a Y. M. C. A. and who are missed by the committee, are asked to get in touch with Mr. Sturgeon at The NEWS or Mr. Quinn at the bus station.

CUTTEN WONT TALK

CHICAGO, April 12 (AP)—Arthur W. Cutten, grain trader, today declined to discuss his citation by Secretary of Agriculture Wallace for alleged violations of the grain futures act.

I HEARD—

Frank Carter being kidded about wearing the first straw hat of the season Tuesday and a cap yesterday and today.

Judge Jack Mead of Miami offering his entire collection of relics for use in the Pampa Pre-Centennial and Pioneer Roundup. Judge Mead has one of the best collections in this section of the country.

Bonnie in Gunplayful Mood

Bonnie Parker, southwest gun moll, known as "Suicide Sal," was in playful mood when this picture was snapped. She was showing her companion, believed to be Clyde Barrow, much-wanted hand-did, her technique in handling a

WIRT ACCUSED OF BEING PRO-GERMAN IN WAR

WASHINGTON, April 12 (AP)—The chief investigator of the "brain trust revolution" charges of Dr. William A. Wirt today qualified his assertion that the Gary, Ind., schoolmaster had served a jail term because of "pro-German" activities during the world war.

In debate on the house floor yesterday, Chairman Bulwinkle (D., N. C.) of the special house investigating committee, said:

"We are not prosecuting or persecuting Doctor Wirt, not in the least. He was not here to be investigated. If he had been, I would have gone into his private character. If he had been, I would have brought out from him the fact that during the war, on account of his pro-German activities, he was confined to jail at Gary, Ind."

But as the speech appeared in the Congressional Record today the last sentence had been corrected to read: "If he had been, I would have brought out from him the fact that during the war, whether or not on account of his pro-German activities, he was confined to jail at Gary, Indiana."

Rep. McGugin (R., Kan.) already had denied, on authorization from former Senator James A. Reed, Dr. Wirt's counsel, that the Indianian ever had "been arrested."

"The charge that Dr. Wirt served a term in jail during the world war is wholly malicious and wholly false," McGugin asserted.

Rooms Wanted For Contestants In League Meet

There will be no school in the Pampa Independent district tomorrow because of the district track, field, and literary events here.

Rooms in which to house the hundreds of young people coming here from nine other counties of the northeastern Panhandle are much needed. About 50 free rooms have been pledged but 150 will be needed Friday night. No meals are to be furnished the visitors.

Season tickets for the two-day events will be 25 cents, which also will be the price of admission to the track meet. The season tickets include the track meet and all other events. Single admissions to events other than the track meet will be 10 cents each for those not presenting season tickets.

Literary events will start tomorrow and the track meet will open preliminary Saturday at 10 a. m.

the Weather

WEST TEXAS: Partly cloudy, warmer in the Panhandle tonight; Friday, partly cloudy, warmer.

B. C. D. Manager Tells How Pampa Is Hub of Big Transportation System.

B. C. D. members have heard with interest a report on highway activities of its manager and committee, in which progress and proposals are outlined.

The report follows:

Undoubtedly a complete system of paved highways in and out of Pampa is necessary for its future growth and development. A survey of the situation reveals many possibilities. To carry out the entire program will take several years, but should be made a major effort by all interested in the city of Pampa.

We are giving below an analysis of the situation and the possibilities.

U. S. 66 Is Important

To start with, let us take State 33, or Federal 60. This road begins

TRAIN ALMOST HITS VEHICLE OF OFFICIALS

PRESIDENT ROOSEVELT IS RETURNING TO WASHINGTON

MIAMI, Fla., April 12 (AP)—A narrowly averted accident involving members of his party today marked the departure of President Roosevelt for Washington at the conclusion of a two weeks' fishing trip in Bahaman waters.

A train narrowly missed a combination automobile-trailer, carrying Gen. Hugh S. Johnson, national recovery administrator, and other party members, as they were en route to the docks to greet the president as he arrived on the yacht Nourmahal from the gulf stream fishing grounds.

Besides General Johnson, those in the machine included Donald Ritzberg, general counsel for the NRA; Marvin H. McIntyre, presidential secretary, and a number of White House correspondents and their wives.

Arriving at the docks, the party greeted the president as he walked down the gangplank of the Nourmahal and entered an automobile to be driven to the railroad station.

The route to the train lay past Bay Front park where a year ago the assassin, Giuseppe Zangara, fatally wounded Mayor Anton Cermak of Chicago in an unsuccessful attempt on Mr. Roosevelt's life, on the day the men presidentially landed here for another fishing trip. Zangara later was executed.

Returning to the capital he showed no particular concern over the congressional situation, rather indicated a belief that everything was in order for an early conclusion of the administration program. He declined comment on pending legislation. A deep tan covered the president's face as he walked down the gangplank from the Nourmahal to Miami to the applause of a closely packed crowd.

Sitting back in the observation section of his private car, Mr. Roosevelt took off his coat as he talked with newspapermen in the first "on the record" interview since he left the White House.

He was smiling and in a kidding mood, joshing the men particularly about their close call with a railroad train en route to the station.

"I had a perfectly marvelous time," he said. "I got a real rest. The first two days I spent fishing. Then I picked up a little cold in the nose and spent the next couple of days sleeping. Then I did some more fishing and a lot of just good old lazing around."

Well on Henry Land Swabs 180 Barrels in Day

The Coleman et al. No. 1 W. B. Henry in section 114, block 3, southwest of Pampa, swabbed 180 barrels yesterday. Cleaning out of the hole following a stop continued this morning and the test appears good for about 200 barrels a day.

The test was shot with 200 quarts Saturday morning. It flowed by heads until bridging and cleaning out started Sunday. The hole was bottomed at about 3,280 feet in granite wash formation.

Leases offsetting and near the new well are owned by several different companies and an active drilling campaign close to the city limits is predicted. The Henry test is about half a mile from the Finley-Banks addition in southwest Pampa.

The new producer opens up a new trend south of Pampa and gives geologists something to think about. Two tests, both dry, have been drilled several miles east but on a line with the new well. It also widens the pay strip south.

Highway Program Is Outlined

at the Atlantic coast in Virginia, passes down through Springfield, Mo., Enid, Okla., Pampa, Amarillo, Clovis, N. M., Phoenix, Ariz., on to Los Angeles. It is being rapidly completed, and it will not be long before there will be a paved road from coast to coast through Pampa which will undoubtedly be one of the best cross country highways anywhere.

There are still a few breaks in the paving on each side of Pampa, approximately 110 miles west of Enid to Higgins. A portion of this is being paved at this time, and the greater part of the grade is completed.

On the west, construction is under way in Deaf Smith county, and there is about 45 miles through Farmer county untouched. The State Highway commission is ready to pave this, but Farmer county commissioners want the highway on one side of the railroad, and the

HOPE REVIVES FOR LIFE OF BOY TURNING TO 'STONE'; 3 LITTLE GIRLS ARE DOOMED, SAY DOCTORS

NEW YORK, April 12 (AP)—Life looked brighter today for three of four children suffering from a rare disease but for one of them, at least, the respite was only temporary.

Seven-year-old Benny Hendrick, whose muscles are slowly turning to stone, was back home near Wilkesbarre, Pa., and neighbors said they saw him playing yesterday in the rain.

Benny spent six weeks in a hospital where doctors worked in vain to correct a glandular disturbance that is producing an over-supply of Calcium, bone making chemical, in his body. As he played by the side of his widowed mother's cottage he seemed to be enjoying himself, neighbors said, despite limited movement due to his stiffening body tissues.

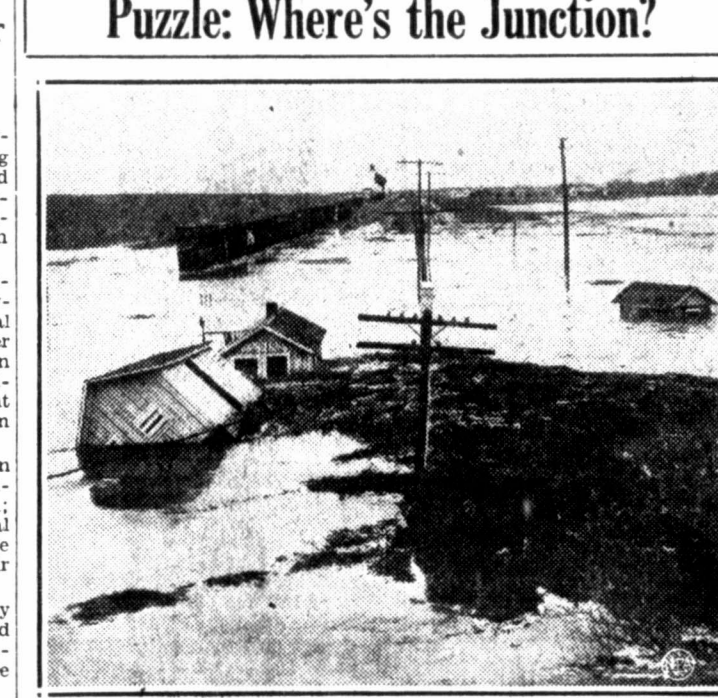

Of three little four-year-old girls suffering from Leukemia, a condition that results in elimination of the red corpuscles from the bloodstream, Roma Garrett, at an East View, N. Y., hospital had a fine day yesterday.

If she hoped she would get well, however, she was doomed to disappointment according to physicians. The lethargy which results from the disease was very akin to death Monday when a blood transfusion was given. Roma rallied, delighted in new found strength. Yesterday she also felt well until late afternoon.

The blood transfusion was not given as a treatment physicians said. It was given when hope had been abandoned and only to keep the child alive a little longer. She will tire a little earlier today, even earlier tomorrow, the doctors said. And there will come the time when even blood transfusions will not rouse her.

See HOPE, Page 5.

PLAN TO STOP GAS WASTAGE IS URGED BY H. M. STALCUP

Puzzle: Where's the Junction? Clinton Junction, Okla., is only a speck on the map at its best, but even that speck was hard to find after six feet of water rushed over the town when the Washita river went on a rampage as shown here. The rail station kept its equilibrium, but other buildings toppled before the torrents. The flood took more than a dozen lives down stream.

State Markers To Be Removed From U. S. Roads

AUSTIN, April 12 (AP)—Removal of state highway markers from roads designated as federal routes and use of only the United States number on a standard shield was ordered today by the Texas highway commission.

Previously federal highways in Texas had both state and federal markers. Use of only federal numbers ordered by the commission conformed to a practice followed in many states.

An exception was authorized "on such sections of United States highways over which a state highway not bearing a United States number is routed for a short distance that the junctions are not readily discernible on the map."

The United States bureau of public roads was requested to designate as part of the federal aid system state highway nine from San Antonio to Pleasanton, 30 miles, and from near Three Rivers to Corpus Christi, about 60 miles. Federal designation also was requested for 46 miles of highway 89 between Weatherford and a connection with highway 1 near Strawn.

Wage increases were ordered for three classes of skilled labor on highway construction. Structural iron workers and carpenters were raised from 75 cents to \$1 per hour and painters from 70 cents to 75 cents. Thirty cents an hour was prescribed as a uniform scale for common labor.

Donley was appropriated \$1440 for preliminary engineering on highway 5 from Clarendon to the Hall county line.

M. B. King, representative rig builder sent to Washington as a labor board member, will speak Friday evening at LeFors to members and guests of Oil Field local 282, it was announced today.

The address, on matters pertaining to oil field unionism, will begin at 8 p. m. at LeFors high school. All residents of the field are invited.

Mr. King is said to be a well informed speaker.

LeFors Local To Hear Speaker on Friday Evening

M. B. King, representative rig builder sent to Washington as a labor board member, will speak Friday evening at LeFors to members and guests of Oil Field local 282, it was announced today.

The address, on matters pertaining to oil field unionism, will begin at 8 p. m. at LeFors high school. All residents of the field are invited.

Mr. King is said to be a well informed speaker.

OIL OPERATOR WOULD REPEAL STRIPPING ACT

AMARILLO, April 12 (AP)—A senate committee, here to investigate wastage in the Panhandle gas field, had before it today another plan of conservation, offered by H. M. Stalcup, of Tulsa, vice president and production manager of the Skelly Oil company.

Stalcup's plan embodied four main points:

1. Repeal of the stripping law, confining gasoline extraction to sour gas and casinghead gas only, and limiting sour gas production to the same percentage governing the production of sweet gas, the residue from the stripping plants to be utilized by carbon black plants;
2. Adoption and rigid enforcement of a "reasonable, sensible gas-oil ration," shutting in wells where oil production is no longer of importance;
3. Voluntary or enforced purchasing on an equitable basis, which would include the acreage factor; and
4. Unitization (production from a large acreage through one well) in areas where such a plan is necessary to avoid the drilling of too many wells.

"This unthinkable, damnable waste has been going on for years while we sit idly by because of minor differences," Stalcup said.

"I can't understand why it hasn't been stopped. I never heard of grown men advocating that just because we have a lot of something it ought to be wasted."

"My company will be tickled to shut down its gasoline plants and abandon them tomorrow if this wastage is stopped."

Stalcup said he had no fight to make against the Texas Railroad commission, "but just because they don't see any solution is no reason why an effort should not be made."

Referring to the high gas-oil ration in the field, Stalcup said: "Many wells in this field are classified as oil wells only by the grace of God and the railroad commission. Some of them aren't producing more than three or four barrels of oil a day. There was a time when these wells could have been shut in and daily wastage of 300,000,000 cubic feet of gas stopped. An order was issued, but later rescinded because of condition in the field."

"An amount equivalent to the daily consumption of the United States is being blown into the air in this field. It would not be permitted in any other state."

Stalcup was the only witness heard at the hearing session. He said that the cost of repressuring in the Panhandle would be so great as to make gasoline stripping unprofitable at present market prices.

All Except Six Russians Rescued

MOSCOW, April 12 (AP)—The government rescue commission announced that 22 more Russians, stranded since February 13 on a drifting ice pack in the Bering sea, were rescued by airplane today. Only six persons remain on the pack.

The brilliant rescue flights, executed under hazardous conditions in the far north, brought the total of those flown to the mainland at Cape Van Karem, Siberia, within two days to 84.

An original party of more than 100 was castaway on the ice when the steamer Chelouskin sunk on the return trip from a scientific expedition to Wrangel Island.

Flights to save the six remaining men were planned today or tonight if the weather remained favorable.

I SAW--

Bryant Caraway snatch a paper to read the latest on Clyde Barrow and the latter's gun moll Bonnie (Suicide Sal) Parker. Bryant was a member of a posse that hunted Barrow in Arkansas about a year ago.

Winston Savage and Frank McRae ralling at Ernest Cabe who had got up at 4:30 a. m. They said Mr. Cabe whose playmates they have been since the third grade, took delight in kicking over this and that and in whistling "That Certain Thing."

BUFFALOES IN VICTORY OVER AUSTIN TEAM

ROBERTSHAW IS SIGNED AS SHORTSTOP AT GALVESTON

By The Associated Press

Good news usually calls for a bit of celebration. Just before the Galveston Buccaneers went on the field Wednesday for routine practice, Manager Billy Webb called Don Robertshaw aside and told him to cease worrying that he had won the regular shortstop job. Just to show his appreciation, Robertshaw hit three pitches off as many hurlers out of the park, to set something of a record for spectators Moody stadium. Webb was highly pleased as the Buccaneers took their showers and retired until Thursday when they meet the Fort Worth Cats in an exhibition game.

The Houston Buffaloes housed out the University of Texas in a game at Austin, 14 to 13. It was a slug-bug and gave the Buffaloes an even break in the two-game series. Lynn and Fipps, Houston hurlers, were nicked for 18 hits by the college-fans. Manager Selph was satisfied with the 18 hits his boys collected off the Longhorn pitchers but not the way his own mound-men allowed the amateurs to hit.

Manager Henry Severid is preparing for a batting punch. He put the San Antonio Missions thru a long batting drill in preparation for the Texas League inaugural next Tuesday. Second base, third base and the catching staff are yet untried San Antonio baseball problems.

The Dallas Steers and Fort Worth Cats got together at Lake Charles, La., for an exhibition game. The Steers rallied with four runs in the 8th inning to win, 9 to 8. Outfielder Norman and Pitcher Cox hit homers in the big frame to chill the Cats. Dallas got 14 hits against 18 for the Cats.

Tulsa, Beaumont and Oklahoma City got in needed practice arfield and at bat.

Cunningham Beats World Record In 1,000-Meter Race

NORMAN, April 12. (AP)—Glenn Cunningham of the University of Kansas beat the world record for the 1,000 meters race in the annual Oklahoma university amateur track and field meet Saturday when he flashed the distance in two minutes, 11.1 seconds.

The present record of 2:11.2 is held by C. Ellis of Great Britain and was established in London in 1929.

Cunningham finished six yards ahead of his nearest opponent, Glen Dawson of Tulsa. Tulsa's Harold Manning of Wichita, A. C. was close behind Dawson for third place.

In addition of Cunningham's brilliant race, athletes from the southwest smashed seven meet records. The University of Oklahoma amassed 69 1/2 points to lead in the team scoring.

WHAT PRICE GLORY

PITTSBURGH—Fireman John S. King, whose rescue of a cat cost him a two-month stretch in a hospital, is going to get a medal from the human society. So's his buddy Tom Neville.

It was "tougher" than fire and smoke, says King who fell out of the tree with the cat in his arms. "Yeah," says Neville, who threw himself under King, helping to break the fall.

AND HE GOT THE JOB

CAMBRIDGE, Md.—Albert Moore was glad to get a ride as he set out from home in search of work.

"I'm going to get a job from Representative T. Alan Goldsborough," Moore informed his benefactor.

"I'm Representative T. Alan Goldsborough," said the driver.

Moore's friends said he got the job.

STOMACH TROUBLE?

Maybe your stomach will not stand the alkali in the water! We have many satisfied customers who will only drink our 100 per cent pure distilled water. Ask your family doctor if the water you drink might not agree with you. It costs very little.

TRAINING WITH THE MAJOR LEAGUES

By The Associated Press

TULSA, April 12.—Mule Hines, slick outfielder who has been doctoring up for a month, was back with the White Sox today, eager to get into the lineup. With Haas' arrival, Fletcher Ed Durham was sent to Chicago to search for a cure of the many ailments that have been making life miserable for him all spring.

PIRATES

TULSA.—There are no celebrations in the Pirates' camp over the brand of pitching turned in by the mound department this spring. In fact it's been about the worst spring for pitching that the Pittsburghers have ever known.

But there's the usual exception—laughing Larry French.

The southpaw of fireball fame has won six straight games.

DODGERS

WASHINGTON.—With the departure of Marty McCarry, young John McCarry, the sensational rookie first baseman, seems pretty sure of a job with the Brooklyn Dodgers. Brooklyn still has seven infielders on the roster but Manager Casey Stengel remarked:

"I'll certainly keep McCarry until we run up against the player-limit reduction on May 15. And maybe I'll keep him after that, too."

YANKEES

KNOXVILLE, Tenn.—Don Heffner, the New York Yankees' brilliant second base recruit, appears to have become the club's mascot as well. With Heffner on the job the Yankees won seven straight games. When he dropped out for a rest they lost three straight, then won the last two since he returned.

INDIANS

CHARLOTTE, N. C.—Confidence in their batting ability is the principal result of the Cleveland Indians' seven victories out of 10 in the 14-game barnstorming series with the world champion New York Giants. The Indians are telling themselves that if they can belt the offerings of Hobbell, Schumacher, Parmelee, and Fitzsimmons they will have to fear from American league hurlers in the coming season.

CARDINALS-BROWNS

ST. LOUIS.—Dizzy Dean and Buck Newsum will oppose each other here today as the two St. Louis major league clubs, the Cardinals and the Browns, meet for the second game in a "city championship" series.

With the announcement of the batteries, Frank Frisch, Cardinal manager, indicated he was grooming Dean to open the National league season for the Cards next Tuesday. Manager Rogers Hornsby said either Irving Hadley or George Blahodler would open the season for the Browns.

GATS APPEAR DESTINED FOR CELLAR PLACE

CHANGED LINEUP MAY ENHANCE CHANCES OF TEAM

By Bill Parker, Associated Press Sports Writer.

LAKE CHARLES, La., April 12 (AP)—Professor Del Pratt, skipper of the Fort Worth Cats, who will operate this season under new ownership and a new manager, is going to have a difficult time keeping his team out of the Texas league cellar. This goes providing he retains the players now on the roster. It must be admitted that Pratt is baseball wise. He may have a few tricks up his sleeve such as promised cast-off major league talent. If he does, the Cats may go somewhere.

Pratt has the veteran Jack Tavenner, trying for shortstop, and the loonies as a fixture. Tom Holley, who played last year for Oklahoma City and ten for Hollywood, is the second baseman. Holley still is a good ball player and the best of the infield talent. Edith is the holdover first sacker. Lowell played 157 games last season, batted .257 and fielded .992. He may improve in his hitting this season. It would be a blessing because Pratt has little batting punch on his infield.

Julian Wera, who played third base for Oakland last year in 187 games, batted .259, fielded .949; Cecil Smith and Frank Martelli, semi-pros, are infield candidates and one of the trio probably will plug the third base gap.

Pratt's outfielders are Arthur McHenry who last year played with Tulsa and Fort Worth, Eddie, a veteran of many years who is trying a comeback, and Seacrit. McHenry looms as the best. He played 121 games last season, batted .245 and fielded .983.

Dallas Warren, a holdover who caught 100 games last year, batted .233 and fielded .962, will be first string catcher. Pratt has several other catching candidates, but Warren is the man slated to do practically all the mask duty.

Dick Whitworth, a holdover, who won 15 and lost 20 last year, Harry White, who won 11 and lost 17, Jimmy Minogue, who won 8 and lost 10, are pitchers Pratt will depend on. Naturally, additional pitchers to be proven talent, will have to be added.

The baseball outlook for the Cats who finished seventh in last year's pennant scramble, ranked sixth in batting and fifth in fielding, is not promising unless additional lumber is added. The new owners are supposed to have plenty of money to purchase players with. So after the first few weeks of the season, the Fort Worth lineup may be entirely different from the one of opening day.

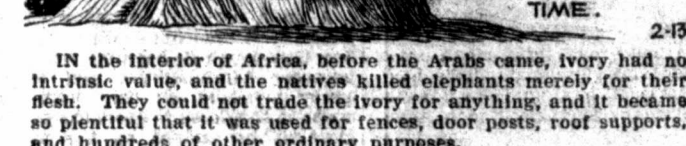

THIS CURIOUS WORLD

THE EGYPTIAN SHADOW CLOCK IS THE OLDEST EXISTING TIMEPIECE IN THE WORLD! ONE OF THESE CLOCKS, 3,400 YEARS OLD, MAY BE SEEN IN THE BERLIN MUSEUM!

IN THE interior of Africa, before the Arabs came, ivory had no intrinsic value, and the natives killed elephants merely for their flesh. They could not trade the ivory for anything, and it became so plentiful that it was used for fences, door posts, roof supports, and hundreds of other ordinary purposes.

OLD BOOKS on natural history picture the flamingo incubating its eggs by standing astraddle the nest. Naturalists had not seen the bird on its nest and they could not imagine such long, ungainly legs being tucked up beneath the bird. Later observations proved their guesses to be wrong, but the pictures are still occasionally seen.

CHARLES GOODYEAR ACCIDENTALLY DISCOVERED THE PROCESS FOR VULCANIZING RUBBER. WHEN HE CARELESSLY LET A PIECE OF RUBBER COME IN CONTACT WITH A HOT STOVE.

RAYMONDVILLE, April 12 (AP) Another of the old ranches which have been landmarks of the borderland since early days is to be divided up and developed into farm land.

This is the Stillman ranch, comprising 22,000 acres south and east of Raymondville.

This ranch was part of the Stillman estate, accumulated by the late James Stillman when he was building the beginnings of his fortune at Brownsville.

Several years ago it was sold as the last part of the Stillman estate in south Texas to be disposed of. No change has been made in the ranch since.

Recently, however, the great tract of land was sold for approximately \$1,000,000, and it is now being subdivided, cleared and planted to cotton, and onions. The land was sold to more than a score of individuals and companies. Much of it will be under cultivation by the end of this year.

The sale is a strong possibility that some oil development on parts of the land will take place in the near future.

An oak tree 38 years old and weighing 18 tons was successfully transplanted by an Oakland, Cal., landscape gardener.

Lester Stoefen Withdraws From Tennis Tourney

PINEHURST, N. C., April 12 (AP)—Competition became more heated as national ranking stars went into the quarter-finals of the tennis and squash tournaments today.

One quarter face, however, was missing from the group of favored performers. Lester Stoefen, of Los Angeles, seeded third, told the tournament committee he was "over-tired" and weary after two months of tournament play. He defaulted in yesterday's second round to A. L. Bruneau, of Brooklyn; Frank X. Shields, of New York; ranked No. 1, faced Walter Martin, of Toronto, seeded first among the foreign entries. Wilmer Allison, of Austin, Texas, ranked second, opposed Marcel Rainville, of Montreal, second ranked foreign entry.

Bryan Grant, of Atlanta, seeded fourth, and as his opponent, Gil Hall, South Orange, N. J., while Anthony Latona, of Washington, the lone non-seeded player to reach the quarter-finals, faced Geo. Lott Jr. of Chicago.

Stillman Ranch To Be Developed Into Farm Lands

RAYMONDVILLE, April 12 (AP) Another of the old ranches which have been landmarks of the borderland since early days is to be divided up and developed into farm land.

This is the Stillman ranch, comprising 22,000 acres south and east of Raymondville.

This ranch was part of the Stillman estate, accumulated by the late James Stillman when he was building the beginnings of his fortune at Brownsville.

Several years ago it was sold as the last part of the Stillman estate in south Texas to be disposed of. No change has been made in the ranch since.

Recently, however, the great tract of land was sold for approximately \$1,000,000, and it is now being subdivided, cleared and planted to cotton, and onions. The land was sold to more than a score of individuals and companies. Much of it will be under cultivation by the end of this year.

The sale is a strong possibility that some oil development on parts of the land will take place in the near future.

An oak tree 38 years old and weighing 18 tons was successfully transplanted by an Oakland, Cal., landscape gardener.

BLOOD DUE TO FLOW FREELY AT PLA-MOR FIGHTS TONIGHT

Speedy Ryan and Dunivan To Fight Again; Madden Will Battle Bill Gay.

It is as much blood flows tonight as did last week when Mickey Dunivan, local Irishman, met Speedy Ryan, Santa Rosa, N. M., Irishman, in a 10-round main event, Pampa fight fans would be wise to wear raincoats. The two Irishmen have been re-matched because fans demanded to see the two wild men in action.

The six-round semi-final will also be a return bout with Joe Vernon, Pampa, meeting Jim Perry, Ft. Sumner, N. M. Bill Gay, Borger wild-man, will tangle with Earl Madden of Spearman in a six-round semi-final. The card will open with Joe Palacio of Roswell, N. M., and Les Stanley of Amarillo matched for four rounds. Bosing will start at 8:15 o'clock.

Pampa's battling Irishman came back strong after being down in the first round last week and gave the New Mexico "weaver" of the "green" a busy evening. Many fans thought the fight should have been a draw but the judges thought otherwise and gave Ryan the decision. Blood flowed freely from noses, eyes and lips as the two batters stood toe to toe and slugged.

The semi-final was about equal to the big bout. Vernon and Perry each drew blood early in the contest in a toe to toe slug-fest match. The result was a draw according to the judges, whose decisions are final. Each boxer believes he can beat his opponent and they will be given that opportunity tonight.

Earl Madden of Spearman, who won a decision last week, will be matched with Bill Gay. It will be Gay's first appearance here but he is well known to Pampa fight fans. Gay has won numerous fights in Borger, Amarillo and New Mexico cities. He is a wild brawler of the Madden type.

Palacio and Stanley will replace Kid Stammer and Pug Cole in the four round preliminary. Stammer was called to Georgia Tuesday by the death of a brother.

12 EXPERTS CAN'T AGREE ON WINNER OF KENTUCKY DERBY

Eight Horses Selected As Probable Winners; Three Get Two Votes Each.

By ORLO ROBERTSON Associated Press Sports Writer

NEW YORK, April 12 (AP)—Twelve men, all qualified as experts, offered further evidence today that the Kentucky Derby, over the famous Churchill Downs, May 5, will be one of the most open races for three-year-olds the turf classic has ever seen.

The turf named eight horses as the probable winner when asked by the Associated Press to attempt to bring order out of the chaotic situation that has seen the future book odds on the leading candidates shift almost daily.

Mrs. Dodge Sloan's Cavalcade, great as a two-year-old, and Chilstaw, George D. Widener's Big Bay, emerged from the deliberations with two votes each. The remainder, one each, went to E. R. Bradley's Bazaar, Charles T. Fisher's Mata Hari, Joseph E. Widener's Peace Chance, a 100 to 1 shot.

Max Hirsch, with 38 horses in his barn at Belmont Park, leaned toward Mata Hari but with some reservations.

"The filly was great last year," remarked Hirsch, "but a filly is a doubtful performer in the spring."

The vote for Bazaar came from Sandy Schuttlinger, also a former prominent jockey. As might be expected, three trainers favored their own entries. Bill Brennan voting for Sp Hill, E. J. Fitzgerald for Riskilus and Bud Stotler for Discovery.

Johnny Loftus, who was up an George Smith, the 1916 winner, and Sir Barton in 1919, preferred to wait until post time before going on record. Sunny Jim Fitzsimmons, the man who saddled Gallop in 1931, parried with "I've got a half dozen eligibles in my barn and I hope one of them leads the field home."

PROS CLAIM MORELAND AND DAWSON ARE BEST AMATEURS

However, When They Play In Same Meet Neither Cares Which Will Win.

By BILL PARKER, Associated Press Sports Writer.

Take it from touring professionals, the two best amateur golfers in the country today are Johnny Dawson of Chicago and Gus Moreland of Dallas. The professionals, who have been on tournament tour for several months, have played with Moreland against most of the prominent amateurs in the various open tournaments. They have used these opportunities to study the various amateurs and it is an exception when one falls to hand Dawson and Moreland the cream of the crop when it comes to all-around shot making.

At the Texas open, Tom Cravy, former national Professional Golfers' association champion, Ky Lafloorn of Denver, Harry Cooper of Chicago, Dick Metz of Deal, N. J., and Julius Akerblom of Little Rock, said that with exception of Dawson, Moreland was hitting his shots better than any other amateur. Moreland missed a tie for the Texas open by two strokes.

At the Galveston open, professionals who know all the tricks of shot-making had their scoring troubles due to a powerful wind that swept off the bayou but Dawson and Moreland scored with 391, and 392, which were lower than a number of scores turned in by outstanding professionals.

At Houston, Dawson and Moreland met in the finals. Dawson won 5 and 3, but Johnny modestly took little credit for the victory. He pointed out that all golfers have an off-day and that Moreland's 80 that morning wasn't Gus' game by far. However, Moreland, after two consecutive weeks against the professionals, did not play as well at Houston as in the Texas open and Galveston tournament.

Dawson and Moreland are the best of friends and when they play a match it is difficult for either to get steamed up and beat-down with all they have. After the morning round at Houston, Dawson who was first up said: "I don't think Gus or myself care much who wins."

Dawson's Tee Shot.

In the trio of Texas tournaments, Dawson hit the longest tee shot of any driver. The Chicago amateur, who is a simple pure star everywhere in the national amateur, has changed his style. He is hitting against a perfectly stiff left leg. He won the Houston invitation driving contest with a "poke" of 256 yards which was mostly "carry" due to the soggy condition of the fairway.

Dawson's next Texas trip will be for the Trans-Mississippi at the Dallas Brook Hollow Golf club. Moreland beat him in the Trans-Mississippi last year when Dawson had him 2-down and 3 to play.

DILLINGER SCARE PUTS LAW ON ALERT OVER LOUISIANA SECTION

SHREVEPORT, La., April 12 (AP)—Reports that John Dillinger, the despised criminal, had been headed off this way with a machine gun, threw this section into wild excitement early today.

On advice from department of justice agents from Dallas and New Orleans, sheriff officers from Shreveport and Marshall, Texas, 48 miles to the west, blocked the Dixie Overland highway to halt the desperado for whom the nation is searching.

They were told to watch for an automobile bearing a designated Tennessee license or an unidentified Minnesota license which was seen yesterday at Carbon Hill, Ala., and several small towns in Walker county, Ala.

These messages informed the Shreveport officers that there were three men in the car and that one, the driver, had been identified as Homer van Meter, a paroled In-

ROADRUNNERS ARE WORKING OUT AT PARK

GRANDSTAND WILL BE COMPLETED FOR OPENER

The Danciger Roadrunners are fast rounding into shape for the official opening of the Roadrunner park here April 21. The park fence has been finished and the roof will be on the grandstand soon. Construction of bleacher seats will be started next week.

Manager Aaron Ward and his Roadrunners are working at top speed every afternoon on the new diamond. The latest addition to the Roadrunner family is Eddie Sain of Fort Worth; one of the best catchers seen here in a long time. Sain has played enough professional ball to put him in the class of the Roadrunners.

The Roadrunners formerly of the House of David team, is here and will be on the mound the opening game against the Phillips '66' Oilers of Borger. Hardin played third base when the whiskered team was in Pampa last year. He is training harder than any player on the team. He does road work, takes exercises and takes his baseball seriously. George "Lefty" Bulla will also be ready for mound duty in a week or two.

The Roadrunners have lost the services of Pitcher Carl Stewart for some time. The promising hurler underwent an appendectomy operation last week.

The opening game will be called at 3 o'clock and an overflow crowd is expected to see the Roadrunners meet their old enemies, the Phillips Oilers. A good guess at the starting lineup would be: Hardin, pitcher; Sain, catcher; Cox, first base; Ward, second base; Alger, shortstop; Carroll, third base; Brickell, left field; Seitz, center field; Vaughn, right field; McLary, utility.

Spring Cleaning Takes Place of War Maneuvers

WITH THE UNITED STATES FLEET OFF WEST COAST OF MEXICO, APRIL 12.

Spring cleaning took the place of mimic war maneuvers today among the 100 ships of America's armada as it steamed toward the Panama Canal.

Battle stations and plotting rooms lost the atmosphere of tension that had prevailed for three days. Going into cruising formation, the naval ships became scenes of peaceful activity. All hands, less the midwatch, were called at 5:30 a. m. to scrub decks and paint-work and do the myriad jobs of putting the ships in order.

Routine drills were ordered. Some ships carried out, radio direction finder calibration, others communication drills. All equipment was checked carefully after the exciting battle exercises in which the fleet engaged since it departed Monday from the southern California bases for the Atlantic via the canal.

All aircraft were slowed away and the dirigible Macon had sailed northward. The fleet is due in the bay of Panama a week from next Saturday.

Emory university at Atlanta, Ga., was named in honor of the Methodist bishop, John Emory.

COURT DENIES LAST APPEAL OF FUGITIVE

INSULL WILL SAIL FOR AMERICA WITHOUT DELAY

ISTANBUL, April 12 (AP)—The Turkish court of appeals refused today to consider Samuel Insull's appeal against extradition and authorities notified him immediately that he would be started on his return trip to the United States without delay.

The decision blasted the last hope of the famous fugitive's lawyers to halt his extradition. Turkish authorities immediately completed plans for starting him on his way to America to face trial on charges of embezzlement and fraud.

Police commissioner Nail Bey and five detectives were named to remove the 74-year-old Chicagoan from the Istanbul house of detention and escort him on the trip to Smyrna.

Burton Y. Berry, Embassy secretary named to accompany Insull to America; Major John A. Crane, Embassy military attaché, and Robert D. Coe, another Embassy secretary, are expected to travel on the Adena also.

Hererra and Ross Fight Postponed

FORT WORTH, April 12 (AP)—Promoter Dick Griffin has received a wire from Barney Ross, world's lightweight and junior welterweight champion, that he cannot fight Tony Hererra here April 20 in defense of his welterweight title. Because of his scheduled fight against Jimmy McLarin for the world's welterweight title at Chicago, Ross requested an indefinite postponement through promoters of the Chicago bout.

CGC soil erosion crews have been put to work on 300 Oklahoma farms, spending \$1,500 on each tract.

IF YOU GET UP NIGHTS USE BUCHU AND GIN

It is as valuable to the bladder as castor oil to the bowels. Drives out impurities and excess acids which cause the irritation resulting in getting up nights, burning, frequent urination, leg pains and backache. On account of the alcohol use juniper oil from which gin is made. Ask for BUKETS, the bladder laxative also containing buchu leaves, etc. After four days, if not pleased your doctor will return your 25c. You are bound to sleep better after this cleansing. BUKETS guaranteed by City Drug Store and Pathe's Drug Co.

Verdict Recalls Death Sentence Of M. E. Pastor

VERNON, April 12 (AP)—Conviction and sentencing of Ivory "Skin" Crittendon, negro charged with murder, by a district court jury recently marked the third time in Wilbarger county's history, that a defendant in a criminal case has been given a life sentence in the state penitentiary. It was the first case involving negroes that a defendant has been given a 99-year sentence.

Crittendon was charged with murder in connection with the fatal shooting of Columbus Smith, another negro.

The first instance recorded here of a 99-year sentence was in the case of John Joiner of Odell, charged with murder. Joiner received a life sentence about eight years ago.

The second 99-year sentence was meted out in March, 1933, against Henry Mashburn, charged with the burglary of an Odell tailor shop. Mashburn was sentenced under the habitual criminal law, which carries a mandatory life sentence upon conviction.

The 99-year sentences recall the only member of the death penalty as passed here. The defendant, the Rev. G. E. Morrison, pastor of the Parkside Methodist church, was sentenced to die for slaying his wife.

Mrs. Morrison was poisoned and then choked to death at her Parhandle home. The case was transferred here for trial on a charge of murder and assessed the death penalty in trial of the case here in the fall of 1928.

Morrison was hanged on a specially-constructed scaffold in the jail yard here early in 1929.

New York City Budget Lowered By 12 Millions

NEW YORK, April 12 (AP)—Mayor LaGuardia and his experts here whacked \$12,429,541 off the city's \$31,000,000 deficit.

Armed with retrenchment authority since Tuesday, when the municipal economy bill navigated the state legislature, the mayor and the board of estimate have taken the paring knife to thirteen city departments in an attempt to balance the half-billion dollar budget.

The largest of the municipal administrative units yet untouched are the departments of sanitation, law, hospitals, and welfare. These are due for quick action.

The latest action of the mayor and the board of estimate had these results:

- (1) Elimination of 1,010 jobs.
- (2) Stated furloughs ranging from 30 to 7 days.
- (3) Salary reductions for departmental commissioners of from \$13,390 to \$10,000 annually, with corresponding cuts for deputy commissioners.

Mrs. Joe Looper of Grandview was a Pampa shopper today.

Mr. and Mrs. Jimmie Marshall were Berger visitors yesterday.

Pup, Fire Heroine, Gets Medal

She may not be a blue ribbon winner, but little Chingy, year-old pup, became one of the aristocrats of New York's dogdom when, as shown here, she received a bronze medal for heroism from Mrs. J. D. Prince, president of the Women's League for Animals, Inc., while an attendant looked on, Chingy, whose barks enabled many tenants to escape from a burning East Side tenement, was found after the fire wandering the streets with a broken leg.

'MIND YOUR BUSINESS,' GERMANY TELLS INVESTIGATING NATIONS

BY W. E. BROCKMANN, Associated Press Foreign Staff.

BERLIN, April 12 (AP)—The Diplomat's Correspondent said today that if Germany is spending more money for instruments of war—and she is—that's Germany's own business.

The newspaper is the mouthpiece of the German foreign office. "What right," the organ demanded, "is there for astonishment in France or anywhere else" that large increases in military appropriations feature the 1934 budget?

Sixty-one naval craft are being built by Britain and 54 by the United States, the Diplomat's Correspondent said, so it again asked, "why all this fuss about the German budget?"

The newspaper reassured the world that "Germany has neither the intention nor any possibility of engaging in an armaments race. It sees its duty in providing a minimum for its own defense."

The increase in armaments expenditures marks merely a "carrying out of a measure that literally was forced upon Germany a year ago by the world disarmament conference in the manner of an ultimatum, namely, transformation of the Reichswehr into a short-term serving body."

The army and navy figures were increased from 670,000,000 marks (\$268,000,000) in 1933 to 894,000,000 (\$357,600,000) in the next fiscal year. For aviation, 28,000,000 marks (\$83,600,000) was appropriated, compared to 70,000,000 marks (\$28,000,000) last year.

The 1933 total budget aggregated 5,569,900,000 marks (\$2,227,600,000)—\$35,712,000 less than the current appropriations.

In addition, a \$100,000,000 grant was made to the Nazi storm troopers.

MEXICO VOTES FOR PRESIDENT ON JULY FIRST

5 CANDIDATES ARE DUE TO RUN; SOME MAY WITHDRAW

By C. G. LEE, Associated Press Foreign Service Writer.

MEXICO D. F., April 12 (AP)—Three new candidates have been chosen to represent various political organizations in the national presidential elections July 1, bringing to five the number definitely scheduled to run.

The national antirevolutionist party and three affiliated organizations selected Gilberto Valenzuela with Roman Badillo as alternate candidate. Hernan Laborde was chosen by the workers and peasant union and General Antonio Villareal by the confederation of independent revolutionary parties.

These last two with either Valenzuela or Badillo, and with Coloneo Alberto Tejeda, a radical who heads his own agrarian political unit, are representatives of organizations opposing the government.

In the elections they will face division General Lázaro Cárdenas, candidate of the governing national revolutionary party (P. N. R.), who, with the support of the strong political machine which controls every phase of the nation's economic, political and religious life, is conceded even by the oppositionists an overwhelming victory at the polls.

Whatever chance the opposition had to make a showing against Cárdenas disappeared when Villareal and his followers refused to cooperate with the national antirevolutionists and held their own convention at which they selected the aged general.

Similarly, Tejeda, whose name has become synonymous with radical ideas, and Laborde, leader of the small communist faction, could not reach any agreement because Laborde regards Tejeda, who as governor of Vera Cruz sponsored much communist and anti-religious legislation. The socialist program of the P. N. R. is reactionary and Rightist, and his purpose is to replace "the capitalistic and bourgeois regime now in control and give the power to the workers."

He frankly states that he does not believe this can be accomplished in the July elections "since our republican system is a burlesque and the popular wishes will be jested with," but he urges his follower "to be sure that we will triumph."

Fire Destroys Ornate Palace Of Blumenthal

LARCHMONT, N. Y., April 12 (AP)—The ornate home of A. G. Blumenthal, wealthy New York theatrical producer and real estate operator, was destroyed by fire early today at a loss estimated to be somewhere between \$300,000 and \$500,000.

The 22-room mansion, noted for its luxurious appointments including a gold-leafed bathroom installed at a cost of nearly \$20,000, was one of the show places of Westchester county.

Blumenthal and his estranged wife Peggy Fears of Broadway musical comedy fame, have not been living there for nearly six months and neither was present when the fire broke out about 1:30 a. m. Fire Chief George F. Towle said the fire apparently started from an oil heater.

Good News For Kidney Sufferers!

Here is relief that goes right into the irritated kidney and bladder organs so quickly, you can actually SEE results within a few hours. Flushes out poisons, neutralizes burning acids, brings prompt soothing comfort. No more aching back, weak bladder, sore painful joints from lack of kidney activity. Ask druggist for Foley's. Takes no other. Money back guarantee. ©1934

"NERVES" NO PROBLEM WITH ME!

I'VE HEARD THAT CAMELS USE FINER TOBACCOS, AND IT IS CERTAINLY TRUE THAT SINCE I STARTED SMOKING CAMELS I DON'T FEEL NERVOUS AND IRRITABLE ANY MORE.

CAMEL'S COSTLIER TOBACCOS YOU CAN SMOKE THEM STEADILY... BECAUSE THEY NEVER GET ON YOUR NERVES... NEVER TIRE YOUR TASTE!

DON'T GAMBLE ON OLD TIRES! PUT ON NEW GOODYEAR'S RIGHT NOW

MAYBE this will surprise you but—you're taking a double gamble wearing old tires this Spring—the gamble of a price increase greater than what your present tires may be worth, added to the gamble of accident.

"There's a tread with GRIP"

That's the situation—with tires priced ridiculously low—with rubber, cotton, wages and other costs often as much as doubled—with Goodyear quality at new high peaks.

And that's why smart folk are putting on new Goodyears these days—full sets!—at really bargain cost they're protecting their safety for a long time to come.

Better get our prices on your size—and let us show you why more people are buying Goodyears than any other tire, for the nineteenth successive year.

Man Lived Nine Years in Attic To Elude Arrest

NASHVILLE, Tenn., April 12 (AP)—For nearly a decade Charles E. Youngblood hid in his mother's home from officers who charged him with killing his wife.

Last September they found him and put him in jail, but yesterday he walked forth a free man after Judge Charles Gilbert of criminal court directed a verdict of not guilty at his trial.

"First I'm going to try to regain my health," Youngblood, who is now 39 years old, said. "Nine years in an attic will do no one any good. Then I'm going to write a book about my experiences."

Often during those nine years, Youngblood said, "I wanted to go down and give myself up and have my name cleared. But my mother would not let me."

He said his father, who died soon after Youngblood went into hiding, had "asked me on his death bed to stay with my mother."

So nine days after his wife was killed in 1924, Youngblood said, he went to his mother's home, and for the next seven years he never left it. Every day, he said, he went down from the attic to help his mother with her work, but if any one entered the house he fled back to his sanctuary under the roof.

Ex-Senator's Gift To Bishop Cannon In 1928 Detailed

WASHINGTON, April 12, (AP)—Evidence that Joseph S. Frelinghuysen, former senator from New Jersey, contributed \$10,000 to Bishop James Cannon, Jr. for use in efforts to defeat Alfred E. Smith for president in 1928, was presented today in the trial of the Southern Methodist evangelist.

This was testified by Frank C. Ferguson, president of the Hudson County National bank of Jersey City, over the objection of Robert H. McNeil, chief defense counsel, who said:

"This can be for one purpose only—to prejudice the general handling of these funds. Your honor will have to draw a line somewhere where these gentlemen will have to stop with their drag net."

The bishop and Miss Ada L. Burroughs are on trial on a charge of violating the federal corrupt practices act by failure to report all of a \$85,300 contribution made by E. C. Jameson, New York insurance executive, for the anti-Smith campaign.

Ferguson testified in District of Columbia supreme court to drawing two officers' checks of \$5,000 each to the order of Cannon after Frelinghuysen had sent him \$10,000 and a note requesting that action.

George Briggs made a business trip to Amarillo this morning.

Mrs. J. R. Wilson of LeFors shopped in the city this morning.

Borger Scouters Planning Drive

Borger Scout leaders are making intensive arrangements for their financial drive to be held April 19-21, inclusive. It was reported today by Executive G. A. Clark, who yesterday conferred with them.

C. R. Stahl, finance chairman, has secured the written endorsements of a large number of prominent citizens, whose contributions will go far toward making the drive a success.

Mr. Clark lunched with Borger Lions yesterday.

Mr. and Mrs. R. B. Fisher and young son, Brent, have returned from Alva, Okla., where they have been at the bedside of Mr. Fisher's father, who was seriously ill.

PUBLIC PROGRAM FOR THE WEEK-END IS ANNOUNCED

STUDENT WINNERS IN COUNTIES WILL COMPETE

THOSE who enjoy the best in student speech and athletic contests will have the opportunity this week-end of attending the interscholastic league meet of newly organized district two.

Pampa schools will be hosts, but all citizens will join them in welcoming the visiting boys and girls, winners from their respective counties. Contests will all be open to the public.

Season tickets are on sale for 25 cents, to admit the holder to all athletic and literary events. Tickets for the track and field meet are priced at 25 cents, and those for finals in declamation and extemporaneous speech, and finals in debates, will be 10 cents each.

Starts Friday Afternoon

Supr. R. B. Fisher is director general of the meet. T. H. McDonald is in charge of registration of contestants Friday morning. The contests will begin at 1 p. m. Friday.

At that hour preliminaries in literary events will begin. Senior rural declamations will be at the Presbyterian church, junior rural declamations at Church of Christ, senior city declamations at Methodist church, junior ward school declamations at Central Baptist church, boys and girls debates at Woodrow Wilson school, extemporaneous speech at Sam Houston school, music memory at Junior High school, typewriting and shorthand at high school, three-R contest at Junior High school, essay writing at high school.

Semi-Finals Follow

Semifinals in all divisions of declamation and extemporaneous speech will begin at 4 o'clock in the same rooms as the preliminaries.

Finals in declamations, all divisions, will be at the Methodist church at 8, and finals in extemporaneous speech at the Presbyterian church at 8:30.

Debate finals will be on Saturday evening at 8, boys at the Presbyterian church and girls at the Methodist church. In a general assembly at the Methodist church, 8:30, cups and medals will be awarded and announcements made concerning the state meet.

Athletic events for boys and girls will be on Friday and Saturday afternoons.

Junior Club To Enter Float in Pre-Centennial

Cooperation in the Pre-Centennial celebration of this summer was voted by Junior Twenty Century club members at a meeting Tuesday in the home of Mrs. Roy Bourland. The club will enter a float in the Pre-Centennial parade, as requested by the central committee.

The afternoon program was a modern drama, and Mrs. Max Mahaffey, leader, chose Noel Coward as typical of modern trends in the theater. She spoke of his career and reviewed his successful play, *Bitter-Sweet*.

Mrs. Bourland presided at the business session in the absence of Miss Margaret Buckler. Mrs. Gilmore Nunn and Mrs. Bourland were named to take charge of the children's circle which the club sponsors, at its open day this week.

Members present were Mmes. Dick Walker, Ann Swanson, Frank Perry, Nunn Mahaffey, A. B. Goldspeer, R. F. Dirksen, Edward Damon, Fred Cary, Clarence Barrett, and Bourland.

Mrs. O. B. Shiffman entered Pampa hospital this morning for medical attention.

M. Meador of Miami was a Pampa visitor today.

Miss Jewell Sickle of Panhandle visited friends in Pampa yesterday.

Whispered Great Complexion Secret!

To her friend she confided the secret of her fairest clear white skin. Long ago she learned that no cosmetic would beautify her complexion. She found the secret of real complexion beauty in **N-T-O-NIGHT** Tablets (Nature's Remedy). They cleaned up cleared the eliminative tract—corrected sluggish bowels—drove out the poisonous wastes. She felt better, too, full of pep, tingling with vitality. Try this mild, safe, dependable, all-vegetable corrective tonight. See your complexion improve, clear-headedness, dulness vanish. At all drug stores. **N-T-O-NIGHT** Tablets, 25c.

TUMS Quick relief for acid indigestion. Low, heartburn, only 10c.

Merten H. D. Club Has Program on Care of Clothes

Spectators at a recent baseball game between Pittsburgh and Chicago learned the value of a good shirt. Merten H. D. club women at the home of Mrs. Alva Phillips yesterday. They are brushing, airing, hanging, mending, protecting, and pressing.

"Six things are necessary to keep clothes in order," Miss Ruby M. Adams, county home demonstration agent, told Merten club women at the home of Mrs. Alva Phillips yesterday. They are brushing, airing, hanging, mending, protecting, and pressing.

"Home dry cleaning need not be drudgery," she continued, as she demonstrated cleaning, using a quart of naphtha with two tablespoons of a standard dry cleaner to make an effective solution at small cost.

In the following business meeting the club planned to sponsor a picnic supper on the evening of April 20. Refreshments were served to Mmes. Ford, Smith, E. Ber. Meers, Knapp, Taylor, Broening, Miss Adams, and the hostess.

Ray Aker was called to Lubbock yesterday by the serious illness of a relative.

IS INVITED TO CONTESTS OF DISTRICT SCHOOL MEET

DISTRICT CONVENTION NEXT WEEK WILL BE OUTSTANDING EVENT IN FEDERATED CLUBS

Growth Is Theme Of The Three-Day Program

LUBBOCK, April 12.—The outstanding event of the year for club women of this section will be the annual convention of the seventh district, Texas Federation of Women's Clubs, in Amarillo beginning Monday and continuing through noon Wednesday.

The meeting will be opened with an Everywoman's luncheon at the Amarillo Country club, immediately followed with board meeting at Central Presbyterian church.

"Growth" is the convention theme. Highlights of the convention will be the president's evening, Monday, when Mrs. Volney Taylor, state president, Texas Federation of Women's Clubs, will speak on "Growth of the Texas Federation of Women's Clubs." On this evening Mrs. Arvett is to speak on "The Growth of Woman from Angel to Amazon." Dr. J. A. Hill, president of West Texas State Teachers college, will speak on "The Redemption of These United States of Ours From Forces Which Threaten to Overthrow It." Texas Luncheon Tuesday.

A Texas luncheon with Mrs. W. E. Davis of Childress, chairman of conservation, as toastmistress, has been scheduled for Tuesday at noon. Senator Clint Small of Amarillo is to address the group on "Beautifying Texas for the Centennial." Mrs. Ewing Leech will discuss woman's part in this beautification.

A dinner given on Tuesday evening will honor Mrs. Arvett and will commemorate the thirtieth anniversary of the district.

A fine arts program has been arranged for Tuesday evening. The Little Theater of Amarillo will present "Will of the Wisp."

Mrs. J. W. Fincher of Houston, past state president, and state finance chairman, is to preside at the permanent headquarters session on Wednesday morning.

Homes and breakfast are to be furnished by the hostesses. Refreshments and luncheon are offering special rates for the convention dates.

Recent Visits At Skellytown Are Reported

SKELLYTOWN, April 12.—Mrs. Carl Williams was hostess to the T. N. T. sewing club last Thursday afternoon in her home. Most of the members worked on unfinished articles. Mrs. Roy Andrews received the tea towels this week.

Angel food cake with whipped cream and coffee was served to Mmes. Wesley Black, Bill Campbell, Wayne Sutton, Henry Paulsen, J. C. Jarvis, and the hostess.

The next meeting will be in two weeks in the home of Mrs. Campbell, with Mrs. Sutton as hostess.

Mrs. Letha Lillie and Mrs. W. A. Ward were Pampa shoppers Tuesday afternoon.

Mr. and Mrs. Hugh Ellsworth returned home last week after spending several weeks in Iowa for the benefit of Mr. Ellsworth's health.

Mr. and Mrs. Clyde Aker of Pampa, formerly of Skellytown, visited friends here Sunday afternoon.

Mr. and Mrs. F. D. Harvey and children motored to Wheeler Saturday to visit Mrs. Sylvia McCracken, Mrs. Harvey's mother.

Mrs. Carl Williams was quite ill Monday but is reported improved.

Mr. and Mrs. J. C. Jarvis, accompanied by Miss Grace Williams and Miss Dorothy Kessler, shopped in Pampa Saturday afternoon.

Miss Cleo Jones of White Deer visited here and in Pampa Tuesday.

Mr. and Mrs. Ed Hughes, Mr. and Mrs. Bethal Lillie motored to Pampa Saturday evening.

Miss Dorothy Steele made a business trip to Amarillo last week.

Spectators at a recent baseball game between Pittsburgh and Chicago learned the value of a good shirt. High Ellsworth, Don Helman, John Horner, Ed Patchett, Clyde Horner, Joe Miller, and Lucian Bryant.

Texas Biography Reviewed By El Progresso Club

A famous book about a famous Texan, Marquis James, "The Raven" was reviewed by El Progresso club yesterday, the concluding literary program of a series of three.

Noted living Texans were named in answer to roll call. Mrs. P. C. Ledrick sketched the life of James, and Mrs. George Briggs, program leader, reviewed the best-selling biography.

The meeting was at the home of Mrs. H. L. Ledrick. Mrs. Charles Thut presided over the business session in the absence of Mrs. W. Purviance, president, and Mrs. C. T. Hunkapillar reported on the last council of clubs meeting.

Mrs. W. H. Hubbard is a patient at Pampa hospital, where she was received this morning.

T. S. Skibinski of White Deer transacted business here this morning.

Mrs. Burton Fitzsimmons of White Deer shopped here yesterday afternoon.

Fifth Avenue Fashions By Ellen Worth

Comfortably and Smartly Correct

If you're a tennis enthusiast you know how important a comfortable dress is to your game. You know that a smash hit and a tricky back hand shot can't be successful if they're handicapped by a tight and pulling costume. And you know, before you start to make it, that this tennis frock is just what you've been looking for. It's got that cross-over bodice that adjusts itself to your body in motion, a deep V decolletage in back, a wide skirt, and attractive bows at the shoulders and the waist.

Size 16 requires 3 3/4 yards 36-inch material. Width about 1 1/2 yard.

Pattern No. 5541 is designed for sizes 14, 16, 18, 20 years, 32, 34, 36, 38, 40, 42 bust.

SCHEDULE FOR ANNUAL DUSC WEEK STARTED

Participation Is Open To All Musical Groups

MUSIC WEEK will be observed under sponsorship of the Treble Clef club May 6-13, as has been customary since that club's organization here. Definite plans were outlined at a board meeting yesterday in the Presbyterian church.

Participation will be open, as usual, to all musical organizations of clubs, churches, and schools wishing to stage programs during the week. Treble Clef club programs will be on Sunday afternoon, May 6, and Tuesday evening, May 8.

By arrangement different from former years, no season tickets will be sold, and each participating organization will make its own arrangements concerning place, time, and ticket sales.

Committee On Dates.

A committee was named to arrange the week's schedule, and organizations wishing a place on the program are asked to notify this group. The week's program will be arranged as nearly as possible to fit the wishes of participating musicians. Dates to be assigned in the order of calls received.

Committee members are Mrs. Alex Schneider, who may be reached through telephone 680; Mrs. Frances Sturgeon 3027; Mrs. W. C. Garman, 902; and Mrs. A. N. Dilley, 745W.

Following the board meeting, which was attended by Mmes. Philip Wolfe, Dilley, W. A. Bratton, Sturgeon, Garman, F. L. Stallings, and Howard Neath, Treble Clef members held a brief business session and rehearsal. Mrs. Schneider reported on the last club council meeting, and the group voted to enter a float with the Junior Treble Clef club in the Pre-Centennial parade this summer.

In addition to board members, those present were Mmes. Walter Stein, Schneider, L. O. Wirsching, E. W. Voss, Sam Irwin, Clifford Jones, H. C. Price, Harry Nelson, Ed Smith, Bob McCoy, Harry Lyman, C. Dodd, Misses Dorothy Dodd and Doris Price.

Mrs. W. Q. Gross of Childress is here on business today.

L. E. Frary of Skellytown was in the city last night.

Wash Out 15 Miles of Kidney Tubes

Win Back Pop... Vigor... Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify and keep you healthy. They should pour out their burden of waste matter, which contains a poison of waste matter. If you have trouble with too frequent urination, backache, rheumatism, and general weakness, it is a sign that your kidneys are not doing their duty. They should pour out their burden of waste matter, which contains a poison of waste matter. If you have trouble with too frequent urination, backache, rheumatism, and general weakness, it is a sign that your kidneys are not doing their duty.

It's your kidneys that are the cause of all these troubles. They should pour out their burden of waste matter, which contains a poison of waste matter. If you have trouble with too frequent urination, backache, rheumatism, and general weakness, it is a sign that your kidneys are not doing their duty.

Club and Guests Enjoy Luncheon

Le Bon Temps club and three guests enjoyed a luncheon at the Courthouse last evening, with Mrs. J. C. Carroll as hostess, then games of riddles at the Garretts home.

Mrs. John Weeks received high score award, and Mrs. H. C. Berry second high. Cookies and coffee were served following the games.

Club guests were Mrs. A. Many of Bradford, Pa.; Mrs. C. J. Malise, and Mrs. Cummings. Members were Mmes. Archie Ralster, D. Many, E. Hooks, Joe Colkey, Otto Geppelt, Weeks, and Berry.

Mrs. Chapman Is Hostess For Ace Of Clubs Party

Mrs. E. E. Chapman was hostess in the home of Mrs. Louis Turpley to the Ace of Clubs, and two Ladies of Clubs enjoyed the games. High score award went to Mrs. J. G. Teeters.

Others playing were Mmes. Jack Hymith, Doug Wilson, B. W. Cooper, B. F. Reno, Louis Turpley, W. H. Neiman, and the hostess.

Gleaners Class Has Program at Social

Gleaners class of First Baptist church met Tuesday afternoon with Mrs. R. C. O'Keefe for its monthly social and business session. Plans for building the class were discussed. The program arranged by Mrs. M. J. Cash included the class song, *Work For the Night Is Coming*; roll call answered by Bible verses followed by poem, *Confidence*; duet by Mmes. Barnard and Erwin; readings by Ella Faye O'Keefe and Leona Hurst; sentence prayers for success of the revival. Daily refreshments were served to close the meeting.

B. F. W. CONVENTION

LUBBOCK, April 12.—Approximately 150 delegates from 17 Panhandle districts are expected here April 14 and 15 for the annual district one meeting of business and Professional Women's clubs, Miss Elsie Link, local president, has announced.

Speakers include: Mrs. Faye Gordon, Amarillo, state president; Mrs. Olga Eldredge, Amarillo, state membership chairman; Miss Clara Shevemaker, Pampa, district director; Mrs. Mary W. Deak, Lubbock, dean of women at Texas Tech.

NOTICE

You are hereby notified that all connections have been severed between Oil Field Local No. 235 and the Panhandle Oil Field Journal. And that we are not sponsoring or in any way responsible for the publication of this journal. Mr. Ray Rucker, the editor of this journal, has no authority to transact any business for this local.

SAM HOUSTON JUNIOR POLICE COMMISSIONED

Story Tellers Give Their Winning Selections

Commissioners were presented to Junior Safety Police at a chapel program at Sam Houston school yesterday. Paul Hill was in charge, assisted by Kiwanians Guy McTaggart, Reno Stinson, and City Commissioner W. T. Fraser.

Girls and boys receiving commissions were Christine Kidwell, Mary Nell Mizure, Frankie Foster, Genova Wetton, Byron Dodson, Virginia Gellison, Mary Lee Morris, Sarah Frances Bourland, Carrie Speed, Maryery McColm, Marjio Lyons, Heidi Schneider, Ernest Duane Ray, Rodman, Roy Dangerfield, Wayne Roby, Calvert Clark, James Graves, Charles Pierce, Hugh Stennis.

Story tellers who won first place in the recent city interscholastic league meet were on program with other pupils after a devotion conducted by Rev. A. A. Hyde of the Presbyterian church.

Junior Zimmerman played a cornet solo, Sure Shot March. Charles Malzell's story was next on program, the story Fairy Gault played a piano number, Teasing. Miss Tilde Sessions' pupils presented a play, The Success Family.

Henry Snell's story was *Little Bear's Honey-Pot*, Margaret Sullivan played a saxophone solo, *Throw Another Log on the Fire*.

Christian Church To Open Revival Sunday Morning

Opening services of a two-weeks revival will be conducted at the Christian church Sunday. John S. Mullen, minister, will preach, and songs will be directed by Billy Taylor, who will sing at the Saturday revival party last summer.

Mrs. Lucile Mize, who will direct personal evangelistic work, has been here all week making preliminary arrangements.

No morning services will be held on week days. Meetings will start each evening at 7:45. The Sunday evening subject has been announced as *The Man of the Ages*, and Monday's subject, *The Man Without a Country*.

Club and Guests Enjoy Luncheon

Le Bon Temps club and three guests enjoyed a luncheon at the Courthouse last evening, with Mrs. J. C. Carroll as hostess, then games of riddles at the Garretts home.

Mrs. John Weeks received high score award, and Mrs. H. C. Berry second high. Cookies and coffee were served following the games.

Club guests were Mrs. A. Many of Bradford, Pa.; Mrs. C. J. Malise, and Mrs. Cummings. Members were Mmes. Archie Ralster, D. Many, E. Hooks, Joe Colkey, Otto Geppelt, Weeks, and Berry.

Barnard and Erwin; readings by Ella Faye O'Keefe and Leona Hurst; sentence prayers for success of the revival. Daily refreshments were served to close the meeting.

Mrs. Lindbergh Gets Air Award

No woman had ever been awarded the Hubbard Gold Medal, highest prize of the National Geographic Society, until Mrs. Anne Lindbergh, wife of the famous flyer, received it at Washington (shown here) from Dr. Gilbert Grosvenor, president of the society. The award was made in recognition of her "courageous and skillful work as co-pilot and radio operator during 40,000 miles of flight, over five continents and many seas."

Joint Hostesses Entertain With Bridge Yesterday

Mrs. B. M. Wood and Mrs. B. R. Wood were joint hostesses at the home of the latter yesterday afternoon, when they entertained with bridge. Appointments were in pastel shades, and a dainty salad course was served after the games.

Players were Mmes. Sitton, Hatfield, Canady, Jones, Atchison, Hy-smith, Oden, Gordon, and Hudson, and Miss Whitfield. Mrs. Gordon scored high and Mrs. Hudson second high.

Mrs. Earl Powell of Pampa has enrolled in the West Texas State Teachers college for the second term of the spring semester.

175 EXPECTED FOR DISTRICT C. E. MEETING

Sessions Start at Christian Church Tomorrow

DELEGATES from nine cities have already registered and the total is expected to reach 175 for the Panhandle Christian Endeavor conference that will start at First Christian church tomorrow afternoon.

Homes of Christian and Presbyterian church members are being opened to the visiting young people, who will be here until 4:30 Sunday afternoon. Registration will start at 4:15 Friday, and the conference will open formally at 7:30 that evening.

Miss Jean Walker of Amarillo, a student in Texas Tech at Lubbock, is president and will be in charge at all sessions. Harold Lovett of Fort Worth, state Christian Endeavor secretary, will be a visitor and will conduct a session on Christian Endeavor Methods.

Special sessions for juniors and intermediates will be conducted Saturday morning.

Registrations have been received already from Canadian, Shamrock, Childress, Memphis, Lubbock, Tulla, Hereford, Amarillo, and Borger.

Tourney Will Aid Scholarship Fund

A basketball tournament, to benefit the A. A. U. W. scholarship fund will be conducted on April 23-24. It was announced today by Mrs. A. N. Dilley, scholarship chairman.

Teams from men's service clubs, the A. A. U. W. and Business and Professional Women's club are to compete in the series of games. Proceeds will be added to the fund which this spring will be awarded to some worthy girl in the senior class, to continue her education.

BYRD PARTY SURVIVES ANTARCTIC TERRORS OF SNOW QUAKE

MEN STOPPED IN TRACKS BY LOUD NOISES

WRIST, FINGER, CHEEK ARE FROZEN BY BLIZZARDS

LITTLE AMERICA, Antarctica, March 31. (AP)—Via MacKay Radio—Back from a month of struggling in blizzards and snow quakes, the main southern party of the second Byrd Antarctic expedition came rocketing down the slope to Little America today.

Behind three nine-foot husky teams they had ridden their canvas-topped sledges across the rolling ice barrier, 200 miles out and back, marking a trail with orange flags and putting down food depots so that next spring a trek can be made to the Eschel Ford and Queen Maud ranges.

Captain Alan Inness Taylor, formerly of the royal flying corps, in command of the expedition, described it as probably the coldest March journey in Antarctic annals. On the return trip they kept a daily minimum temperature log:

March 16, 30 below; March 17, 54 below; March 18, 46 below; March 19, 36 below; March 20, 14 below; March 21, 28 below; March 22, 52 below; March 23, 60 below; March 24, 30 below; March 25, 48 below; March 26, 24 below; March 27, 48 below; March 28, 34 below; March 29, 61 below; March 30, 15 below.

"We had one terrible day, the 27th," Taylor said. "We broke camp early with the hope of making 75 miles by night. A 31-mile wind made it cruel at 43 below. The snow was like sand. Bonnie (Finne Ronne, ski expert) froze his wrist harnessing the dogs, and later both cheeks.

"Paine (Stuart B. Paine, navigator) had a frostbitten cheek and I froze a finger. But it was tougher on the dogs. The wind picks up drift from the surface and the dogs get the full slash of it. They shut their eyes and keep crawling, sometimes half-deep in the loose snow."

Taylor described how dogs fumbled in harness and died. The merciful thing was to shoot them. The dog teams each hauled a load of 850 pounds stowed in canvas tanks, lighted, on hickory sleds.

"There were 13 days of blizzards, and on March 16, a snow quake. "The air slosh with a sound like the roar of a thousand locomotives," Taylor said, "for miles the barrier surface shimmered and with a loud report settled three or four inches. We heard many such quakes, but this was the loudest of all. It stopped us in our tracks."

SMOKE KILLS THREE
ST. LOUIS, April 12. (AP)—Smoke fumes from burning celluloid caused the death of three employees last night following a fire in the Brown Shoe company building, hospital physicians said today. The dead are Fred Pointer, 37, Bert P. Deitsch, 55, and Miss Minnie Schultz, 42.

miserable Spring Colds

HEAD THEM OFF... with this amazing aid in preventing colds... **VICKS** VapoRub

...with this amazing aid in preventing colds... **VICKS** VapoRub

Thousands have Ended their Bowel Worries

by taking this advice!

Can constipation safely be relieved? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice and know.

You are not likely to cure your constipation with salts, pills, tablets or any of the habit-forming cathartics. But you can safely relieve this condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:
First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without using force. An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, and perfectly safe. Its laxative action is based on natural, scientific laxatives; the dose can be measured, and the

Hunted Man

Here is a face to remember, in case you should meet this desperado. He is Raymond Hamilton, well known Texas bandit, now at large.

Reforms Written In Constitution Of Cuban Nation

HAVANA, April 12. (AP)—Reforms calculated to quiet political turbulence were written into the constitution today.

They were announced by President Carlos Menditea after another long session of his weary cabinet. President Menditea also decreed a 15-day period of mourning for Dr. Alfredo Zayas, fourth president of the Cuban republic and widely known historian, who died yesterday at the age of 73 years. Arrangements were made for him to be given full military honors at the burial at 5 o'clock this afternoon.

Among the minor constitutional reforms are rules governing the functions of the new council of state. Other reforms include: Amendments stipulating that military courts may have jurisdiction in military cases, even when constitutional guarantees are suspended; and Permitting confiscation of the property of persons found guilty of misappropriating public funds—especially during the period from May 20, 1925 to August 12, 1933.

This was during the term of the deposed President Gerardo Machado.

HOPE
(Continued From Page 1)
There was not much change in the condition of the other two little girls.

Willie Mae Miller, at her home in Memphis, Tenn., still plays with her dolls, singing bits of improvised melody which as the day wears on become her own lullaby. Her mother says she is "slightly improved."

A bio-chemist is treating her with a liquid diet and says he can cure her. Doctors at a Memphis hospital where x-ray treatments were recently stopped say she can not recover.

Theodora Alviso, at Christ hospital, Jersey City, is in a "serious" condition, and has shown no change in the past few days. Her case is far advanced. Her dolls lie unnoticed on the foot of her bed. She is utterly weary.

Resigned to the loss of his daughter, Theodora's father has offered her as a sacrifice on the altar of science.

"If she could be taken to that other hospital so they could experiment on her, maybe they would be able to save the life of that other little girl," he said recently.

action thus regulated to suit your individual need. If there are children in your household, don't give them any form of laxative, but use a healthful, helpful preparation like Dr. Caldwell's Syrup Pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. The lightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin; all ready to take.

A Frank Statement Concerning Dr. Caldwell's Syrup Pepsin

We believe the use of pills and tablets is a habit-forming laxative. We believe Dr. Caldwell's fresh herbs, pure pepsin, and senna is the ideal family laxative.

And we know it is a safe preparation for children and expectant mothers because it does not cause bowel strain or irritate the kidneys.

Blythe Funeral Is Attended By A Large Crowd

Funeral services for J. H. Blythe, city official, were attended by a large crowd at the First Methodist church yesterday. Mr. Blythe was city secretary, tax assessor and collector, and judge of the municipal police court.

The Rev. Gaston Pote, pastor, who conducted the funeral mentioned Judge Blythe's popularity among the citizenship of the town, and said that he was a loyal, courteous and honorable public servant. Mr. Blythe's devotion to his family and his pride in their achievements, were recalled.

"The final test of a man's life is whether he does something or somebody more than he did himself. I think Mr. Blythe would pass this test," the pastor said.

Burialbearers were Mayor W. A. Bratton, Joe Smith, George Briggs, J. L. Lester, Clyde Fabreze, and Sherman White. Floral tributes covered the entire altar place of the church. Interment was made in Fairview cemetery. Malone Funeral home had charge of arrangements.

Survivors included his wife, a son, De, three daughters, Mrs. S. E. Hussey, Clifton City, Mo.; Beth June and Betty Jane of Pampa.

Over 600 Bergs To Cross Ship Paths of North

WASHINGTON, April 12. (AP)—The biggest iceberg threat in years is drawing extra coast guard precautions to protect North Atlantic shipping lanes.

Lieut. Commander Everett H. Smith, a recognized authority, predicts about 630 bergs will cross northern ship paths between April and July. The average is around 300. Last year no iceberg of any size reached the shipping lanes but in 1929 a record of 1,000 was set.

The rear Mendota has been ordered by Rear Admiral H. G. Hamlet, commandant, to sail from Boston to join the cutter General Green in studying ice movements in the North Atlantic.

Since the Titanic tragedy in 1912, an international ice patrol has been maintained during spring months through agreement with other nations. In some cases, bergs large enough to damage shipping have drifted as far south as Newport, R. I.

Already, coast guard officials say, North Atlantic shipping lanes, have moved 60 miles southward, pending word from the service that the ice threat has passed.

A chart of probable iceberg positions is being prepared at coast guard headquarters. The international patrol several times daily will radio vessels plowing the North Atlantic of ice movements.

Driver Arrested In Bank Robbery

DALLAS, April 12. (AP)—John Rosden, 32-year-old truck driver, identified by three of his victims, was charged today as the companion of Raymond Hamilton and another man in the \$1,543 robbery of the Grand Prairie State bank March 19.

Basden, arrested at a grocery warehouse yesterday, denied participation in the robbery but was ordered held after a deputy filed a complaint charging robbery with firearms.

J. E. Waggoner, president of the bank; J. T. Yeager, cashier, and Miss Maude Crawford, book-keeper, identified Basden.

Denver Seale, special investigator for the district attorney, and Ed Caster, a deputy sheriff, arrested Basden and Caster filed the complaint with Winter King, assistant district attorney. Identity of the third man was not known.

One of the three men remained in an automobile at the side of the bank while the others herded the bank officials and a customer, Frank Gray, into the vault. Basden was employed by the same trucking concern as Floyd Hamilton, brother of Raymond Hamilton, Floyd Hamilton and Steve Davis, his step-father, were arrested last week presumably by Texas rangers.

Lions Going to Borger Meeting

A delegation of Pampa Lions will go to Borger tonight as guests of the Borger club at a quarterly group session. C. H. Walker, past district governor, and Olin E. Hinkle, district secretary, will have places on the program. An elaborate entertainment program, including a floor show, has been arranged for the International Director Sam M. Eraswell of Clarendon will be the principal speaker. The event will be held at the American Legion hall.

BREAKS ALTITUDE RECORD

ROME, April 12. (AP)—Renato Donati, Italian air ace, reached an altitude of 14,433 meters (47,352, 23,929 feet) yesterday, it was officially announced today when the barograph was unspooled. The existing recognized record is 14,819 feet set last year by the French flier, G. Lemoine.

MARKET BRIEFS

NEW YORK, April 12.—Sharp gains in a number of specialties provided the principal feature of today's mixed stock market. While some of the utilities recovered modestly, most groups suffered from sporadic profit-taking. Weakness of grains was an unsettling element. The close was irregular. Transfers approximated 1,300,000 shares.

NEW ORLEANS COTTON			
NEW ORLEANS, Apr. 12 (AP)—Cotton continued quiet all morning with narrow price fluctuations. Early in the second hour, prices rallied slightly with stocks. May trading at 12.04, July at 12.10 and October at 12.23, or 3 points above yesterday's close. Near noon the market lost 4 to 5 points from the highs on lack of buying support, ruling one to two points net lower.			

TORRES TO WED			
HOLLYWOOD, April 12 (AP)—Raquel Torres, Spanish actress, who has insisted she never would marry, said today she and Stephen Ames, wealthy broker, would be married "maybe tomorrow or the next day or in a few days." She frequently had told friends that to marry "was foolish." Ames is the former husband of Adrienne Ames, film actress.			

PILOTS SAIL			
NEW YORK, April 12 (AP)—A group of fifty American aviators—pilots and mechanics—sailed for Colombia today to enter the Colombian Air Service. They said they had signed contracts with the Colombian government to remain in the service for six months, at \$500 a month, the contracts to be voided in the event Colombia becomes engaged in any war.			

PAMPA TOPICS OF OUR CITY

HIGHWAY

(Continued from Page 1)
let by the Texas State Highway commission for about 5 miles east from Wheeler, and it will be paved this summer. Undoubtedly the remainder will be paved in the near future, for the State Commission, after putting in the five miles, will surely complete the road.

From Wheeler to the Gray county line, this road, which is State 152, is paved. Then there is a break for several miles in Gray. However 6 miles of this was caliche this last winter, and the remainder should be constructed soon.

The road then goes on to Berger. This strip is in the plans to be paved this year. This one section, when paved, will be worth much to Pampa, and the oil interests.

The highway then passes over a paved road to Stinnett. From there to Hartley there is no paving, but the state commission has designated the road from Dumas west as a state highway, which means that it will be paved. The road is being paved from Hartley to Dalhart.

Possibilities for No. 88 Highway No. 88 and north across the Canadian river, shows possibilities that deserve attention and work. Beginning with Del Rio on the border, the Mexican government is building a highway toward Mexico City. From Del Rio north there is a state highway which is largely Federalized as far north as Claremont, Kent county. Quite a portion of this highway is paved.

Then there is a break of approximately 25 miles undesignated and unpaved to Spur, Dickens county. From Spur to Turkey, Hall county, is another state highway largely paved. Then another break of about 30 miles shows up from Turkey to Claremont. 88 from Claremont to Pampa is designated, but unpaved.

One more gap appears on the map from Pampa across the Canadian river. There is a federal highway north to Canada. The filling of these three breaks would put Pampa on a north and south road which would be invaluable. This is especially true for local purposes, for it would give Pampa some local connections worth much to the life of the city.

Steps are being taken at this time to ask the highway commission to consider filling some of these three gaps, and each time we get a gap filled brings us closer to a completion of the whole.

There is another connection, which at first sight may not seem important, yet is worthwhile. Across the state of Oklahoma is Oklahoma 33 running east and west through Tulsa. This road stops at the Texas line, a little south of east of Canadian. From the line is a dirt road leading to a junction of Texas 33 and 4, about six and one half miles from Canadian. This strip is tentatively designated by the Texas commission, and at this time the commission is completing the bridges on the west end of the road.

Wish Designation There is a movement on foot to federalize this road. When completed, this road will be a good feeder to Pampa, not only for local trade but tourist business. It will also be a short route to Tulsa and east.

We have a local road proposition

UNFORTUNATELY, for this writing, Mr. Chase has not been sufficiently cross-examined or testimony disputed to test the practicality of the re-pressing plant. Certainly, however, it is an appealing idea and one that would save the fuel, if usable, without putting the stripping plants out of business. It would not remove all of the inequalities, for gas stripping does not do that, but it would prolong the life of the field and increase the ultimate recovery of oil as well. But as we said, we regret that there likely are difficulties of applying the re-pressing here, both mechanical and financial.

CONSERVATIONISTS got a break when the Lone Star witness took the stand first. Representing the least vulnerable of the gas taking companies, a veteran of the industry, and sincere. Vice-President Chase testified for two hours without cross-examination although suffering intensely from an arm fracture received in a fall in a fall in the Amarillo auditorium. He touched almost entirely on the East Panhandle field, where the gas situation is easiest to outline. As an alternative to the solution, he voiced the threat that the Lone Star company would enter the gas stripping business in a big way and would take first place in the waste of the fuel. We fail to see any ultimate gain by such reckless procedure.

City Water Level Good, After All

New tests of the "ailing" well at the city water department have convinced City Manager C. L. Shine that the water level has not dropped as previously believed.

A survey of the water wells in this vicinity, drawing from the same sands, showed no noticeable decline. Re-testing of the well which has declined in production also showed the pump was impregnated with clay from a cave-in.

It may be necessary to ball out the hole to a lower level to permit the water to reach the pump bowl more rapidly.

Doctor, 76, Takes Third Bride

A difference of 56 years in their ages was no barrier in the December-May romance of twice-married Samuel Martin, 76, retired physician, and 20-year-old Ada Bell, whom he met a few months ago when he stopped at a filling station run by Miss Bell's father. The couple is shown leaving church after they were married in Mount Holly, N. J.

Canyon Banquet Will Be Friday

CANYON, April 12 (AP)—Ray Nichols, editor of the Vernon Record, will make the principal address at the annual banquet of the Panhandle-Plains Historical society here April 13.

Another featured speaker, who will be heard at the afternoon session of the all-day meeting, is R. C. Orans of Sweetwater, president of the West Texas Historical society. He will relate incidents connected with the organization of West Texas counties.

The annual business session will be held in the afternoon and the new marker at the head of the Goodnight trail to the Palo Duro canyon park, will be dedicated. The new museum will be opened to the visitors. The records show that 27,000 people have visited the museum since its dedication a year ago.

Man Assessed Fine On Affray Charge

Only one fine was assessed in city police court yesterday and today. A man was fined \$15 on an affray charge, which followed an altercation on Cuyler street late yesterday afternoon in which one man was slashed across the cheek. Ten stitches were necessary to close the wound.

Most of the articles found by city officers on the Santa Fe right-of-way Sunday morning have been claimed. Police still have tire and rim which has not been identified.

U. S. Warns Pilots Who Hire Out to Foreign Nations

WASHINGTON, April 12 (AP)—The state department stepped backward today from possible complicity in any South American or other war activity.

Taking unusual notice of reports that Colombia had hired 24 American aviators, and was seeking to give contracts to 50 more through its consul general in New York, the department issued a notice last night, saying:

"The United States disapproves of American citizens taking service in the armed forces of any foreign government and if Americans do so it is on their sole responsibility and risk and they cannot look to their government for protection while in such services."

The state department warned further that any American aviators holding U. S. army reserve commissions would forfeit them upon entering military service of another country.

The official understanding was that Colombia was obtaining aviators as instructors and that contracts would be dissolved automatically in the event of a war involving the South American republic.

But the diplomatic agency took care to add that its policy is to refrain scrupulously from permitting its facilities to be used by either party in preparation for possible hostilities between countries on the American continent.

Vern Wikison, Panhandle banker, was in Pampa yesterday.

Only the Center Leaves—these are the Mildest Leaves

NOT the top leaves—they're under-developed—they are harsh!

NOT the bottom leaves—they're inferior in quality—coarse and sandy!

They taste better

CONGRESS AGAIN IGNORES PRESIDENT IN TWO TAX MEASURES

SENATE VOTES PROCESS AND ESTATE TAXES

TAX AMENDMENT WILL HIKE INHERITANCE LEVIES

By D. HAROLD OLIVER
 WASHINGTON, April 12. (AP)—Senate tax boosters put their shoulders to an inheritance tax amendment today that will, if accepted, add \$92,000,000 to the American tax bill.

Administration leaders think the amendment will carry. This, together with the boost in income taxes, will boost the total of the general tax bill to about \$487,000,000. When the bill came from the house it was a modest \$258,000,000.

Chairman Harrison of the finance committee, in charge of the bill, has announced his acceptance of the inheritance tax levies, sponsored by Senator La Follette (R., Wis.). The amendment proposes to increase the super-estate taxes.

The finance committee has agreed to increase the rates on estates worth from \$1,000,000 to \$10,000,000 to provide a maximum tax of 50 per cent against an existing 45 per cent. The La Follette rates would raise the entire schedule to a peak of 60 per cent.

The agreement to vote on the higher inheritance rate was reached after two steps had been taken yesterday which made the ultimate fate of the bill uncertain, and threaten it with a presidential veto.

In the face of house opposition, the senate threw overboard a previous vote against the Couzens amendment to increase all individual tax returns next year, and then voted, despite President Roosevelt's objections, for a three cent a pound domestic processing tax on imported vegetable and marine animal oils.

Both actions served to accentuate the trend in congress to make decisions independent of the president. Mr. Roosevelt had not asked for an emergency income tax increase. He said the vegetable oil tax was a violation of the Philippine independence law.

Senators wondered also how Mr. Roosevelt would accept a modification pushed through by Senator Norris (R., Neb.) to turn over the revenue from taxes collected on the Philippine importation to the Philippine treasury.

BACK TO THE FARM GREENLEAF, Kan.—Several years ago life on the farm grew dull for L. T. Stout and he and his wife moved here where they thought they would find plenty of activity.

This week the 85-year-old man and his wife, two years his junior, packed up and went back to the farm.

"It was too dull in town," he explained.

Prince Ill

The Spanish Prince of the Asturias, eldest son of former King Alfonso of Spain, is reported critically ill, with the grip at a Paris hotel. He is being nursed by his Cuban bride for whom he relinquished his royal rights when they were wed last June.

Logan Boys Are Prominent at John Tarleton

STEPHENVILLE, April 12. (AP)—Like elder brother like younger, supplants the better known "like father, like son," in the Logan family of San Angelo.

Ralph, older son of Mr. and Mrs. T. R. Logan, came to John Tarleton Junior college in the fall of 1931. During his first year he made the football team, playing end. He made the track team, worked as a reporter on the student newspaper and was elected handiest boy in the college popularity contest.

His brother, John 18 months younger, entered Tarleton in the fall of 1932, played guard on the Plover football team, was a reporter on the newspaper and served as assistant editor of the Grassbur college annual.

In his senior year Ralph headed the Tarleton cadet corps as student colonel, was sports editor of the Grassbur and was elected all "Tarleton boy" by vote of the student body. He was graduated in the spring of 1933. This year he is studying law at the University of Texas.

During the 1933-34 session John has been lieutenant colonel of the cadet corps, the second high ranking officer, and associate editor of the Grassbur. He was recently elected "most military man" at the college. He expects to complete his junior college course at Tarleton in May and to enter the University of Texas next fall to study law.

500-ACRE SWAMP NEAR GONZALES TO BE MADE INTO A STATE PARK

GONZALES, April 12. (AP)—A little "tropical valley" amid surrounding sand-hills in Gonzales county soon is to be converted into Texas' newest state park, which will be one of the most unusual public reservations in the country.

Composed of 500 acres of vine-covered swamp lands, floating islands, mud geysers and rare botanical specimens, the new park is expected to be open to visitors within a year.

The luxuriant growth of ferns, rare flowers and other plant life usually found only in the tropics is a result of the waters from many warm springs and hot artesian wells flowing throughout the park in small streams. Dr. B. C. Tharp of the University of Texas said.

When completed the park will present a galaxy of natural wonders including scenic roads, foot-trails and canals that will wind among scores of floating islands. When touched with sufficient force the islands shake and cause trees and vegetation growing on them to tremble.

Cone-shaped mud geysers on several of the islands boil forth mud constantly while others erupt erratically.

Two hundred men of a civilian conservation corps camp will work at the new park site near Ottine, nine miles north of Gonzales, according to information received by Gonzales park authorities. The federal government will also spend approximately \$33,000 for materials and supervision.

As outlined in the federal plans for the park a 40-acre camping ground will be constructed, including a concession building, ten cabins, swimming pool, bath house and open air pavilion. Modern conveniences available on the camp site will include a waterworks system, sewage disposal plant, electric lights, and telephone lines.

A large natural lake near the 40-acre camp site will be stocked with game fish and provided with facilities for fishing and boating.

Probably the greatest attraction of the new park, however, will be its swamp, fern-covered marsh lands. In this area an artificial lake will be created with a system of canals weaving among the floating islands which are covered with a heavy growth of ferns and rare flowers.

The floating islands in the midst of a thickly wooded section of the park, with vines trailing from the trees overhead, are said to be similar to those in the Mexican national park at Xochimilco, near Mexico City.

The freakish soil structure of the park is caused by an invasion of sand from the surrounding hills. The sand settling on an impenetrable layer of clay and rock which acts as a water reservoir, resulted in the top soil having a movable water foundation. The quaking bogs are a result of accumulation of water underneath.

Dry Issue May Not Figure In 1934 Elections

By CHARLES S. SIMONS
 AUSTIN, April 12. (AP)—Conflicting views concerning the attitude of the state democratic executive committee on the proposed primary election referendum on submission of repeal of state prohibition are entertained by anti-prohibition adherents.

One group believes the committee erred in not sounding out the feeling of the populace on this highly discussed question. To have done so, they said, would have given the regular session of the legislature, meeting next January, a concrete basis on which to form an opinion when the repeal resolution comes up for a vote.

Taking the opposite view, others reason that to have conducted the referendum at the July primary would only have further muddled the prohibition waters by mixing the liquor question with the candidates of all office seekers from constable and justice of the peace to governor. Liquor will figure prominently enough in the campaigns without making it a dominant issue, they assert.

The part prohibition and anti-prohibition organizations will play

FIRST "NESTER" OF RANDALL COUNTY RECALLS OLD TIMES

CANYON, April 12.—Ninety years of living, 47 of it near the center of Randall county—such is the experience of W. F. Heller, the first nester of this county, who tilled his fields for two years with his rifle beside him, because cattle men did not want their grazing land turned into farm land.

Now in a serene old age, Mr. Heller looks out over the town of Canyon in which he has had a constructive part from the time that the first homes were built here in the late 90's.

A native Texas, and a veteran of the Confederacy to which cause he gave more than three years, Mr. Heller came to the Panhandle in 1866, and for a while engaged in freighting, Colorado City, 225 miles away and Wichita Falls, 250 miles southeast were the nearest railroad points at that time. Only two houses had been built in Randall county, these being on the T Anchor ranch. Mail at that time was no daily occurrence; it came to Tascosa 45 miles to the north and was brought over with that of the T Anchor boys.

When Randall county was organized, about four years after his coming, Mr. Heller became the first county and district clerk. Later he helped organize the first Presbyterian church in Canyon, as earlier he had been a charter member of the Presbyterian church in Amarillo. For more than a decade he served as superintendent of the Sunday School of his church, and was an elder until 1930, when he was retired from his responsible position.

Besides his other interests, Mr. Heller has always been an active Mason; he was a charter member of the lodge at Canyon.

Experimental farming, planting

hundreds of trees along the borders of Tierra Blanca creek, working for better school, fighting aggressively for prohibition, enjoying many friendships—these things have made the daily life of William H. Heller and his wife, Susan Roberts Heller, whom he married almost thirty-seven years ago.

HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men
 Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movement gets hard and constipated. You get yellow tanned, yellow skin, pimples, dull eyes, bad breath, bad taste, sea sickness, headache. You have become an ugly-looking, foul-smelling, non-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. (Cosmetics won't help at all.) Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm, let your bowels start taking Carter's Little Liver Pills according to directions today. Get at drug stores. Refuse "something just as good" for it may grip, loosen teeth or send you to bed. Ask for Carter's Little Liver Pills by name and get what you ask for. © 1933, C. M. Co.

CLYDE BARROW REPORTED TO BE WRITING A STORY OF HIS LIFE

DALLAS, April 12. (AP)—Clyde Barrow's trigger finger is doubling in brass in the elusive desperado's drama of crime.

The outlaw, accused of killing a dozen persons in the southwest, now is writing a story of his life.

This was disclosed by his father, Henry Barrow, who operates a filling station near here.

"He has arranged to have it published," Barrow explained. "It will be a good story, too, for Clyde has been over the road the past few years."

Indications that Barrow or his woman companion, Bonnie Parker, was seeking to submit a story to some magazine appeared several days ago when the killer and his two companions were fleeing into Kansas after the slaying of Cal Campbell Miami, Okla., constable.

A note found near a mud-hole where the Barrow machine was stalled mentioned that the "B-gang is known for nearly every major crime in two years," and added "the 'law' can be mistaken. I believe we are innocent."

Barrow's parents agreed that the slaying of Constable Campbell "looked like it might have been Clyde."

"I guess he did that and he did the Huntsville thing, and maybe the Lancaster robbery, but he didn't kill those two officers near Grapevine," Mrs. Barrow said.

That "Huntsville thing," was the liberation under machine gun fire of Raymond Hamilton from a Texas prison farm. Hamilton, in a letter to a Dallas attorney, disclaimed any connection with Barrow since the Lancaster bank robbery last February.

A week ago Barrow and the Parker woman were accused of slaying two Texas highway patrolmen near Grapevine. Officers said a whiskey bottle found near the scene bore his fingerprints.

Three rare specimens of a fish-eating bat known as pizonyx vivax, believed to exist only on the shores of the Gulf of California, have been added to the collection of the University of California.

Ninety per cent of the 200 airplanes purchased by residents of China last year were imported from the United States.

Oklahoma City police found the loss of numerous automobile radiator caps was due to a collection fad among certain youths.

PONTIAC - "It's an EIGHT - and it's a BEAUTY"

A PONTIAC 8 For Only A Few Dollars More Than The Average Six

"I WENT 51% FURTHER ON GULF-LUBE"

Says Mrs. Lee Ketner, Winston-Salem, N. C., Who Made The "Two Trip" Test

"I DROVE FROM WINSTON-SALEM TO WASHINGTON USING MY REGULAR 25c MOTOR OIL—AND HAD TO ADD A QUART AT RICHMOND."

"TWO WEEKS LATER I REPEATED THE TRIP AGAIN. THIS TIME I USED GULF-LUBE—AND DIDN'T NEED A QUART UNTIL I GOT TO WASHINGTON."

Drive a Chrysler? Read Mrs. Ketner's story...

"Gulf-lube outlasted my regular 25c motor oil by 115 miles—it went 51% further before a quart was consumed!"

Thanks, Mrs. Ketner. You're one of thousands of motorists who have cut their oil costs with Gulf-lube—the oil that was tested by the American Automobile Association in 6 average cars—and outlasted every oil in every car!

Start saving! Switch to Gulf-lube now. You'll buy less oil between fillings. You'll get better, smoother lubrication. At 25c a quart Gulf-lube is America's biggest motor oil value. At all Gulf stations.

NEW OIL TEST detects motor dirt. Ask about it at any Gulf station.

THE HOME NEWSPAPER'S MISSION

The true aim of a newspaper is primarily to dispense news impartially, reflecting the community's progress and the actions of its people, and not to correct the evils that exist in a community, state, or nation, as some folks believe.

Rather, the newspaper should seek diligently to elevate and upbuild for the sake of humanity, and the joy of working and striving for that which is constructive.

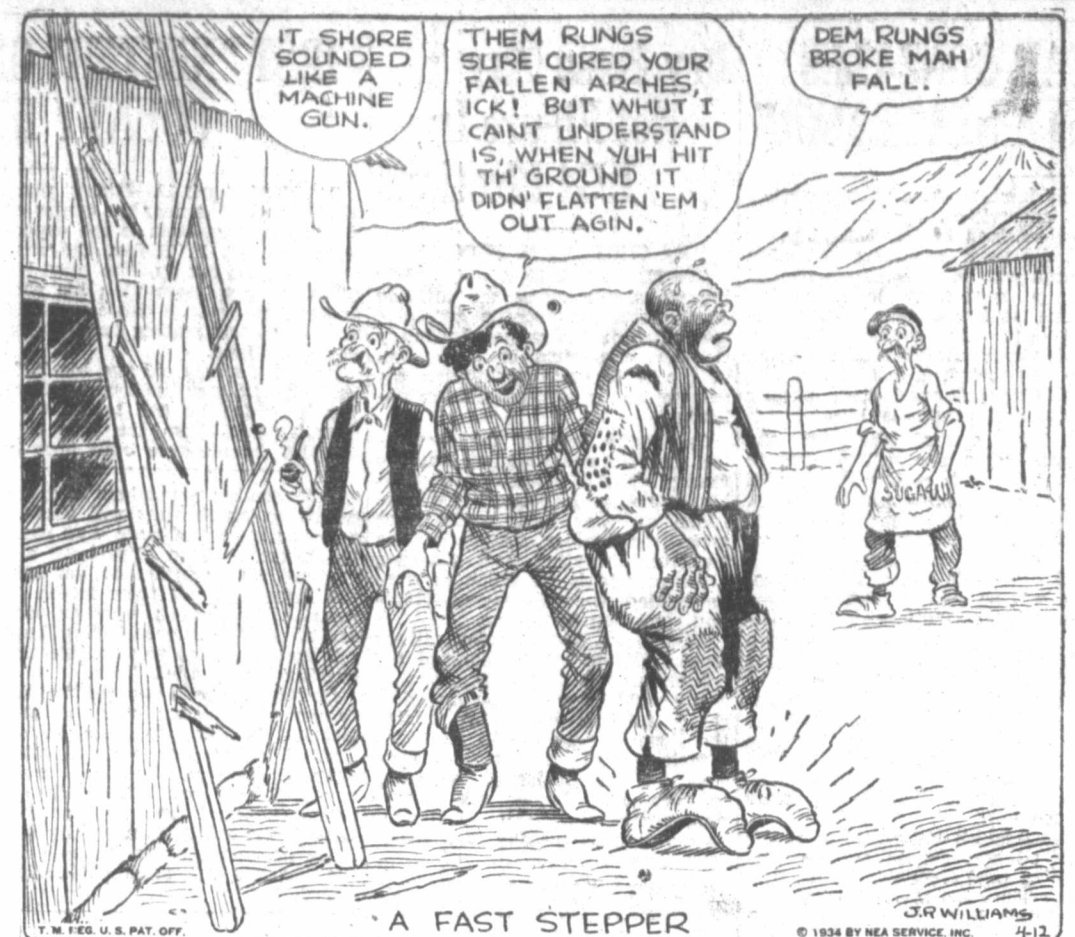

Newspapers may and do expose graft, corruption, abuses and kindred things often, but the final say rests with the people, and the rectification must come through their efforts.

Just because a newspaper has power, is no reason for it to dictate, threaten or attempt to intimidate. On the other hand it seeks to advise, counsel and assist in bringing about reform. Even with that it is impossible to accomplish anything without the courageous help of the people themselves.

Without the people backing it, a newspaper is just a piece of paper—fragile, transparent and devoid of influence and leadership—if the readers fail to have faith in it and do not unitedly support it when it battles for rights and protection. The paper derives its power solely from the readers who are in accord with its policies.

Here are a few important things a home newspaper strives to do at all times: Publish news items about the home town, the county, the community, schools, churches, court house, political news as concerns home people, furnish housekeepers with advertising concerning merchandise which they may buy at a saving, and last but not least donate space to every worthy undertaking that has for its object the upbuilding of the community and the elevation of the people—Memphis Democrat.

A FAST STEPPER

'Eck' Curtis to Coach Electra's Team This Year

By BILL PARKER
Associated Press Sports Writer

The famous oil belt of the Texas inter-scholastic league suffered a football loss recently when Esker "Eck" Curtis resigned as coach of the Ranger Bulldogs to accept a position as head mentor of the Electra high school aggregation. Curtis' resignation terminated a reign of six years at Ranger where his Bulldogs were always in the district running.

In spirited bidding, Electra raised the salary offer just a bit too high for Ranger.

The new Electra coach started his career in 1925 at Anson, a class B school, where he produced strong teams for three years. In 1927, his team won the interscholastic "B" championship by defeating Marlin in the finals, 3 to 0. His success at Anson brought him an offer from Ranger, a position he accepted in 1928. During his six years at Ranger, Curtis developed powerful teams. In 1932, the Bulldogs captured the oil belt championship, and were well on their way to the state championship in 1933 when an ineligible player eliminated them from the race. For more than two years, Curtis' Ranger teams have not been defeated in conference competition.

Curtis is an exponent of the Notre Dame system. His signing to coach Electra promises to lift that school high in future Texas interscholastic league races.

The annual Green Belt Golf tournament, one of the best in the southwest, probably will be held June 11-14 at Frederic, Okla. R. B. Gibson of Vernon, president of the Green Belt Golf association, has suggested the date and site. The association is composed of Vernon, Shamrock, Memphis, Childress, Clarendon, Electra, Quanah, Crowell and Paducah in Texas and Altus and Frederic in Oklahoma. A conference is planned for the last week this month to determine definite dates and site.

Political Announcements

The Pampa Daily NEWS is authorized to announce the candidates of the following, subject to the Gray County Democratic primary of July 28, 1934:

- For Commissioner, Precinct No. 1—CLEM V. DAVIS, A. (ARLIE) CARPENTER, EDWARD J. GETHING.
- For Commissioner, Precinct No. 2—JOHN HAGGARD (second term), LEWIS O. COX.
- For Commissioner, Precinct 3—H. G. McCLESKEY, THOS. O. KIRBY.
- For Justice of Peace, Pct. 2, Place 2—E. F. YOUNG.
- For County Clerk—CHARLIE THUT, J. V. NEW.
- For County Tax Assessor-Collector—F. B. LEECH, EDWIN G. NELSON, T. W. BARNES.
- For Constable, Precinct No. 2—JIM M. KELLER, FRANK JORDAN.

- For County Judge—C. E. CARY (second term), J. P. WEHRUNG.
- For County Attorney—SHERMAN WHITE.
- District Clerk—FRANK HILL, W. S. BAXTER.
- For District Judge—W. R. EWING.
- For District Attorney—LEWIS M. GOODRICH.
- State Representatives—JOHN PURYEAR, Wellington, EUGENE WORLEY, Shamrock, PHILIP WOLFE, Pampa.

Tom Connally in Defense of Texas Property Laws

WASHINGTON, April 12 (Sp)—Senator Tom Connally (D), of Texas is prepared to continue the battle which he has been waging throughout his service in the senate to prevent wrecking of the Texas community property laws when the revenue bill comes before the senate soon, he has announced.

Treasury recommendations for the new bill included one that would have taken from residents of Texas and seven other community property states, the right to file separate income tax returns. As the Texas law now stands, it enables many Texans to affect substantial savings in income taxes by making separate income tax returns. Senator Connally appeared before the House Ways and Means committee in the hearings held last December, and opposed the provision. The bill was reported by the committee and passed by the house without the objectionable provision, but efforts are being made to revive it.

The proposed change, according to Senator Connally, would be unconstitutional, and he cites numerous supreme court decisions to support his position. He further declared the Texas law was enacted 75 years ago, long before the federal income tax was levied, and that the

state has not passed any legislation in an attempt to evade federal taxation.

"Texas is one of the pioneer states in the union which granted married women equal property rights with their husbands," Connally told the committee. "In other words, the earnings of the husband and the wife were treated as common property under the theory of conjugal partnership, and half of that property becomes absolutely the property of the wife, and the other half becomes absolutely the property of the husband. Upon dissolution of the marriage, relationship through divorce or death, of these two estates, one goes to the husband and one to the wife, or in case of death, one goes to the wife's heirs."

'SCOOTER' IS REGALED WITH WILD STORIES

HE WAS THE LIFE OF THE PARTY, SAYS BUS DRIVER

HOUSTON, April 12 (AP)—A rumbling bus pulled into the Houston terminal today and unloaded, among other baggage, 5-year-old Donald "Scooter" Kelley, at the end of his lone, 1700-mile trip from the east.

Awaiting the lad was his mother, Mrs. Dorothy Kelly, a Houston cafe cashier.

Last Monday an aunt placed "Scooter" aboard a bus, properly tagged and way-billed as baggage to be transported to Houston. It had been decided the best way to have "Scooter" travel was as a bit of human baggage.

All along the road, fellow travelers regaled the boy with Texas cowboy stories. On the last leg of the trip, from Texarkana into Houston, "Scooter" had six men alternating telling him yarns of the old west, where six guns barked and men wore hair pants. He fell asleep listening.

"He gave me no trouble at all," said the bus driver. "He was the life of the party all the way."

Curious newspaper men along the way "interviewed" the lad, trying to figure out how come he was traveling as "baggage," but he couldn't help them much for he didn't know either. All he knew was that he was going to mamma and having a grand time.

For safe keeping, "Scooter" was placed in check rooms at stop over points en route. His coat bore a baggage label and his papers, on down-the-line. When he arrived here, he had an envelope containing the stub of a half-fare ticket, a way bill and \$2.85 in cash.

Grapefruit Skins To Be Concerted Into Perfumes

BY HOWARD W. BLAKESLEE, Associated Press Science Editor, ST. PETERSBURG, Fla., April 12 (AP)—Turning grapefruit skins into rare perfumes is the next big chemical move of the American citrus industry.

Nothing like grapefruit will these new odors be. They will be violet, rose hyacinth and possibly even the very orange blossoms of Florida and California's best.

The process was explained to the American Chemical Society today by E. K. Nelson, of the United States bureau of chemistry and soils, Washington. He did not call it perfume, but "Florida grapefruit oil."

He gave the jaw-breaking names of the oils that Uncle Sam's scientists have been extracting from grapefruit rinds, and to every one of these juices was an "essential oil" of the perfumers art. Out of the essential oils, the chemists fashion whatever scents they please, and not only intimate nature but constantly try to improve on her.

Dr. Nelson said grapefruit canners use 100,000 tons of grapefruit annually, and estimated the peels from this business would produce 50,000 pounds of oil a year. The only drawback is that so much might flood the market.

Ninety per cent of the grapefruit oil is limonene or lemon oil. It is one of the "starter" substances for making perfume.

The peels contain also some sesquiterpenes or pine oils, indicating slight kinship of this fruit with pine trees. Turpenes are used for sharp colors and flavors.

Judith Lane

By JEANNE BOWMAN

SYNOPSIS: Judith Dale, fighting to build the Rio Diablo dam with the money Big Tom Bevins left her for the purpose, finds her husband, Norman, aligned against her and with the Bevins heirs, who are trying to break the will. Saddened by the knowledge that Norman is seeing too much of Mathile Nevins, Judith flies to Mexico for a night as a native wife with Slim Sanford and Justin Cunard. There she sees one of the Bevins spies, J. C. Scathborne.

Chapter 32

NEW TRICK

"Slim," Judith leaned across the table, "help me out of here pronto, before that couple there, the girl in red dancing with the gringo, gets back."

"No, of course not," agreed Judith and wondered if Cunard noticed the flush burn up into her cheeks.

The evening mail brought fresh consternation to Judith. She was ready to retire when the whistle of the incoming train made her hesitate.

She chided herself for being as foolish as some love-lorn girl who watched the advent of the mail carrier as the climax of each day. Norman wouldn't write again so soon. He'd find nothing to say.

But the messenger who delivered mail in the camp at Big Tom Town brought her a sheaf of letters and among them one from Norman. Judith opened it without looking

at the others, her glance taking in the contents of the page before she had paused actually to read it.

Dear Judith: I believe I explained, I'd put all of my savings into Hillendale, first for the property, and then the initial cost of building.

I hate like the dickens to give it up, but under the circumstances find it too expensive for me to live there alone. I'm going to be away most of the summer so will have to dispose of it in some way and am writing to ask you if there is anything in it you would like to have. . . furniture, paintings, rugs, drapes or things of that nature. Also, what would you like to have me do with your clothes and personal belongings. Mother would look after them but she scarcely has room in her little apartment and I'm not sure that it would be safe to leave them here.

Chia tells me Slim is acting as a courier for your company. Isn't that a lowly position for an international hero? Do you see much of him?

I hope you're feeling well. According to the letters Lige has been sending, you're getting along as well as could be suspected

ed" and I do feel much less anxiety about your physical well being with Delphy there looking after you.

I certainly miss you, Judith, you'll never know what these past few weeks have done to me.

Let me hear from you as soon as convenient. Love,

NORMAN.

Judith dropped the letter. This was the end. "Too expensive to live there alone. Why should it be more expensive alone than with her? It simply meant that he was ready to quit. She had made her choice when she left the house and come to the dam, and he had accepted it as such in spite of his protestation of love."

Dispose of Hillendale. She felt a moment's frantic desire to rush back and protect it from the invasion of strangers. It was as if the house and grounds were a living entity for which she was responsible. They might mar the walks, the floor, tear up the garden. She must write Lige and see that he made out a complete chart of the garden, so they wouldn't uproot perennials she had planted in the fall.

At least, and there was consolation in this thought, at least he

wasn't keeping it for Mathile. She picked up the letter again. "Love, Norman." How could he sign himself in such a manner after writing a letter like that? And yet he said he felt less anxiety with Delphy there to look after her and showed a feminine curiosity about Slim. Could it be he was jealous? She went to her desk. She was ready now to write an answer. (Copyright, 1934, by Jeanne Bowman)

Judith solves another problem, tomorrow.

A historian has disclosed that a proposal for a project similar to the All-American canal, near the California-Lower California border, was investigated by the war department in 1853.

A bantam hen which fell into a 74-foot well near Durant, Okla., was rescued after floundering around in the deep water for two days.

A survey of the Modoc lava beds national monument in northern California disclosed more than 224 caves, measuring from 10 to 100 feet in diameter.
