PRICE FIVE CENTS

ICKES, 'HOODWINKED' SAYS TEXAN

WILSON SECRETARY IS SILVER HOLDER, TREASURY REVEALS

PRESIDENT TO ASK POWER TO BEGIN VESSELS

TAX BILL ON VERGE OF FINAL APPROVAL BY CONFEREES

WASHINGTON, April 25 (AP)—The compromise tax bill, standing at an unrevealed point between the \$280,000,000 house and \$480,000,000 senate drafts, verged on final approval by conferees for the two branches today.

Once they agree, the whole scrap will be put again to the differing chambers. And once these get together, the measure goes to the White House where the president is preparing them to ask appropriation of several times the amount it will take.

Both these bills are in the "must" category for the cliffhanging session. If congress is to enact all legislation the senate democratic leadership so classify, remarked Speaker Rainey, "we'll be in session until July."

A new list of silver holders submitted to the senate by the treasury included the names of Joseph P. Tumulty, secretary to President Wilson, as having four future contracts involving 100,000 ounces.

Tumulty, now practicing law in Washington, was listed as having four long future contracts for delivery in May.

President Roosevelt intends to ask authority in a forthcoming supplemental appropriation bill to start actual naval construction to bring the United States fleet up to treaty limits.

This would permit the president to begin the construction program any time he sees fit.

Legislation recently enacted authorized building program up to treaty limits.

The appropriation measure, totaling a little less than \$1,500,000, will go forward to congress as soon as the revenue bill has been finally framed.

INSULL IS ON LAST LEG OF TRIP TO U. S.

Decision To Halt Maiotis Was Error That Led To His Downfall, He Says.

BY JOHN LLOYD, Associated Press Foreign Service, (Copyright, 1934.)

S. S. EXILONA, April 25 (AP)—Headed out to sea again, on the last leg of the voyage which will end with his trial in Chicago, Samuel Insull Sr. today revealed his personal story of his detention in Turkey.

The aged man, who eluded American authorities 18 months, was up early despite a slight heart attack which he suffered last night before the ship sailed from Casablanca, Morocco.

He appeared in good health again. Looking back on events, Insull was quick to admit that his decision to halt his escape ship, the S. S. Maiotis, during its passage of the Black sea was the error that precipitated his downfall. Nevertheless, it was understood that his ship would have been stopped by the Turks if it had not heaved to of its own accord.

Legally, he insists, the Maiotis position was under the terms of the Bosphorus Straits treaty which gives ships stopping for less than 24 hours the privilege of transit and accompanying guarantees.

He accuses the Turks of obliging him to remain in the harbor at Istanbul beyond the 24-hour limit by placing policemen aboard and thinking up pretexts to delay the departure. He says his original plan was to stay at Istanbul only three hours.

Arrangements For Cage Games Are Completed

Plans and arrangements for the big basketball tournament to be staged Monday and Tuesday nights in the high school gymnasium have been practically completed. Teams representing four civic clubs and three women's teams have entered. Three games will be played each of the two nights. The civic clubs will draw for opponents Monday night and on the following night, winner will meet winner and loser will meet loser. One of the women's teams will draw a bye the first night and will play the winner of the Monday night game Tuesday night.

Proceeds from the tournament will go to the A. A. U. W. scholarship fund. Tickets are now on sale by students and members. The student selling the most tickets will be awarded. Admission will be 10 cents for children and 35 cents for adults. Team captains have been asked to turn their roster list in to the Pampa Daily News immediately. Heated arguments between club members have become so numerous that the clubs are taking the tournament seriously. Good basketball is in store for fans. There are some well known basket ball players in the four civic clubs.

Dr. H. H. Hicks is "generalissimo" of the tournament. During his absence over the week-end, things became "hot" and he returned yesterday to find a boiling caldron of charges and counter-charges. He is frankly worried over the situation and has called in a number of the A. A. U. W. members to assist him in ironing out the "wrinkles."

Some of the civic clubs are being charged with professionalism and others with importing ringers for the tournament. The standing of each man on the roster will be examined thoroughly before he takes the floor Monday night.

WEST TEXAS: Partly cloudy, warmer in the Panhandle tonight; Thursday, partly cloudy to cloudy, warmer in north and central portions.

LATE NEWS

LEVELLAND, April 25 (AP)—Four unmasked, heavily armed men robbed the First National Bank of Levelland of about \$2,500 this afternoon at 2:10 o'clock. The men, traveling in a V-8 Ford sedan headed west toward the New Mexico line. A posse of officers was on their trail a few minutes following the holdup. Twelve persons, including officers, employes and customers of the bank, were forced into the bank vault by two of the men and forced to lie on the floor during the robbery.

MERCER, Wis., April 25 (AP)—A petition asking the suspension of Melvin H. Purvis, chief of the bureau of investigation of the United States department of justice in this area, pending an investigation into the escape of the John Dillinger gang from a hideout near here Sunday night was being circulated today.

AKRON, O., April 25 (AP)—The Mogadore Savings bank in suburban Mogadore was held up and robbed of \$4,000 by two men today. The robbers kidnaped two clerks and two customers, releasing their captives about 1 1/2 miles north of the city near the Cleveland-Akron road.

WASHINGTON, April 25 (AP)—Reports that Everett Sanders is preparing to step out as republican chairman because of ill health were denied today on his behalf by J. Bennett Gordon, research director for the national committee.

GENEVA, April 25 (AP)—Chi Tsai-Hu, Chinese minister to Switzerland, declared today that Japanese imperialism seeks to enclose all China and veto the rights of foreign nations.

MADRID, April 25 (AP)—The government of Premier Alejandro Lerroux resigned today as a result of differences with President Niceto Alcala Zamora over Spain's new political amnesty law.

Train Derailed, Quanah Trainmen Hurt at Paducah

PADUCAH, April 25 (AP)—Traffic was resumed today over the stretch of railroad track where a passenger train was derailed yesterday, injuring the engineer and fireman.

The train left the track at a crossing where hard rains had covered the rails with mud and gravel. The engine overturned in a deep cut, pulling the baggage car over on its side and derailling other cars. Wrecking crews worked all night clearing away the obstruction and repairing the line.

Bill Norman, engineer, and Joe Shaw, fireman, were recovering at their Quanah homes today from a severe shaking and cuts and bruises. They stayed in their cab as the engine overturned in the cut.

There were no passengers on the train and the baggage clerks escaped injury. There were only two coaches beside the baggage car.

The wreck occurred on the Quanah, Acme and Pacific railroad line, four miles west of Paducah.

SAFE ROBBED

PLAINVIEW, April 25 (AP)—The safe in the Higginbotham-Bartlett Lumber company here was hammered open last night and robbed of about \$150. Other contents were strewn around the lumber yard.

PAMPA police officers will be equipped with tear gas pencils. City Manager C. L. Stine announced this morning. The pencils and a number of cartridges have been ordered and should be here next week.

The pencils will be issued with instructions for their use. The officers will be urged to use the tear gas method of subduing persons arrested only when they become unmanageable or when only one officer answers a call.

The majority of intoxicated persons arrested of late have been placed in jail only after a fight with officers. On many occasions the

Pretty Proud

A mighty happy kid was little Harold Popken of Grants Pass, Ore., when the fishing season opened in the Rouge river. The 9-year-old feller showed a lot of older heads a few fancy tricks when he caught a 21-pound Royal Chinook salmon. Here's the grinning youngster with his prize, only a foot shorter than he is.

PETITION ASKS FOR GOOD ROAD TO NEW FIELD

Creek Bridge, Graded Road Desired By Pampans

PETITIONS, asking the county commissioners to construct a bridge across the McCellan creek and grade a road from the Pampa-Akron road to the Wheeler county line southwest of Denworth, are being circulated in the county today.

Oil men, suppliers, lumbermen and merchants met in the city hall last night and agreed that the road and bridge was of vital importance to the county. The promising oil field has been opened in eastern Gray county and western Wheeler county across McCellan creek. There is no direct road from the north to the new pool and unless some means of getting to the new field is opened, many businesses from Pampa will have to open in nearby places.

The phenomena attracted considerable attention.

Rotary Presents Texas Program

In a typical Texas Day program native Texans were reviewed and non-Texans were told of the historical development of Texas in a program presented to the Rotary club today by Travis Lively.

John Sturgeon told of the size, agricultural and natural resources and the colonization of the state. He praised the men who brought parties to the state for settlement and the problems encountered in developing a state government.

Texas songs were given by Mrs. Philip Wolfe and Mrs. J. W. Garman, accompanied by Mrs. Tom Rose. Decorations included the state flag and bluebonnets, state flower.

Visitors today were C. A. Clark, Carson Loftus, and Rotarian Phil Woodrum of Amarillo.

CITY PLANS TO SUBDU UNRULY DRUNKS WITH TEAR GAS PENCILS

officers had had to resort to "billyes" to handle prisoners. Some of the prisoners when released have spread stories that they were "pistol whipped." In the future, when prisoners become unruly, they will be given a charge of tear gas.

The pencils can be carried in a vest pocket without inconvenience and will be easily accessible when needed. The effect of the gas lasts about 20 minutes but leaves no after-effect.

Gas shells for use in shotguns will be ordered later, City Manager Stine said this morning.

PROJECTS TO BE ALLOCATED BY DIRECTOR

AREAS WHICH REALLY NEED ROAD WORK WILL GET IT

AUSTIN, April 25 (AP)—Conferees were started today between the Texas relief commission and state and federal highway engineers on plans for expenditure of the balance of an \$8,900,000 federal allotment for emergency relief road construction in drought, storm and flood stricken sections of the state.

Counties in which the work will be done and some of the projects approved likely will be announced after another conference tomorrow.

Miss Marie Dresden, state relief director, said. Results of surveys made by the relief commission in areas in which relief road work is needed will be given highway department officials tomorrow, she said. The highway department will give the relief commission information concerning construction costs.

A revised agreement between state and federal officials for expenditure of the federal allotment was obtained recently in Washington by John Wood, chairman of the Texas highway commission, and Gibb Gilchrist, state highway engineer.

Participating in the conference today were Gilchrist, T. H. Webb, assistant state highway engineer; C. E. Swan of Fort Worth, regional engineer of the United States bureau of public roads; Miss Dresden; C. B. Braun, assistant relief director; E. A. Baugh, chief project engineer of the relief commission; J. K. Keeley, assistant project engineer, and H. L. Davis, chief field relief supervisor.

Corona and Halo Beautify Moon In Plains Area

AMARILLO, April 25 (AP)—Atmospheric conditions last night encircled the Panhandle moon first with a corona and then a halo.

"Seldom are both visible the same night," said H. T. Colman, U. S. weather observer. "They both result from diffused light of the moon through ice particles or moisture."

The corona was visible immediately around the moon, in red and cream colors. As the circle grew larger, the colors faded until only a slight tinge of pink was visible inside the halo. The halo had a radius of about 22 degrees.

"Neither coronas nor halos have any special significance upon weather conditions in this vicinity," Colman said.

New Potential Of Field Being Prepared Here

A corrected potential for the Panhandle field will be available within the next few months. The local office of the Texas railroad commission, oil and gas division, is preparing a list of wells to be re-tested. That list will be completed within the next week and operators notified.

The tests will be made by areas and will extend over a long period. Wells tested will be given a new potential immediately after the five-day test has been completed. Production, however, will be curtailed until over production resulting from the test has been made up. In that way the field output will not be increased over the allowable.

It is estimated that more than 1000 wells in the Panhandle field will be tested during the summer months. Two men will be sent here to assist in the work and more may be needed.

Several times during the last two years, tests have been proposed but the order has never been carried out. This time the test will be completed, according to J. M. McDonald, supervisor for the Panhandle field.

Some operators are of the opinion that a Panhandle-wide test should be completed in a month so that some wells would not be restricted under the new potential while others flow at the old potential rate.

Candidate

Democrats of the Topeka, Kan., congressional district, are putting their faith in a woman candidate, Mrs. Georgia Neese Clark, above.

EVOLUTION, NOT REVOLUTION, IS NEED, SAYS FDR

President Plans For His Homestead Program

WASHINGTON, April 25 (AP)—President Roosevelt's latest counsel to the country is to look ahead, to plan, to nationalize rather than depend on "legislative panaceas" for recovery or continue to grow "haphazardly."

He has new ideas for using his "pet," the substance homestead program, as a medium for national planning to bring back into a balance a population he said had grown up "like topepy."

In an easy-going, extemporaneous talk to directors of projects who are already trying to find uncrowded homes and a bit of land for those stranded in industrial centers, Mr. Roosevelt counseled a backing away from "legislative panaceas."

Promising there would be no "regimentation or transplanting of population by force," the president said the government aid is to provide opportunities for those who wanted to help themselves.

Mr. Roosevelt turned from homesteads in his talk yesterday to what was interpreted as an allusion to Dr. William A. Wirt and his charges against "brain trusters" were plotting revolution.

"By using gray matter, brain trust or otherwise," he said, "we can discover a lot of new things we can do. We want evolution. When you hear talk of revolution there is one letter too many in that word."

JUNIOR PLAY DEALS WITH GIRL WHO WAS 'FRAMED' BY FATHER

THE most important class activity of the high school juniors each year is the Junior-Senior banquet which the juniors sponsor, paying for it from the proceeds of the annual junior play. The banquet will be held May 11.

The play this year is "Attorney for the Defense," and will be presented Friday evening at 8 o'clock in the city auditorium. Ben Guill who is director of the play says it's good and he ought to know because he directed "Smokescreen," winner of the regional one-act play tournament.

The cast has had extensive training from Mr. Guill all this term. Most of them tried out for "Smokescreen" and failed to play in the final cast by only a few points. Mr. Guill says the play is "different." He means by that that it is not like the usual high school play. It does not have a court room scene as the title might indicate. The plot deals

TWO VICTIMS OF LEUKEMIA GROW WORSE

Dread Malady Is Still Puzzle to Physicians; Girls Slowly Dying of Disease.

NEW YORK, April 25 (AP)—Science struggled anew today, with scant hope of success, to save two little girls from the deadly leukemia, baffling malady of the bloodstream.

A second blood transfusion was arranged for Mary Labora-Doldan, three years old, who was growing steadily weaker in a Buffalo, N. Y., hospital.

Four-year-old Roma Garrett, being treated at Grasslands, N. Y., likewise was reported gradually losing strength. She is too weak to talk.

Leukemia, a strange disease which drives red corpuscles from the bloodstream and steadily saps the strength of its victims, has brought death to three children in the last ten days. Those who died:

Willie Mae Miller, 4, Memphis, Tenn.; Jimmie Furlow, 30 months old, Jackson, Miss.; Theodoro Aloiso, 4, Jersey City, N. J.

At Buffalo doctors said the blood transfusion probably would do no more than prolong for a few days the life of the Labora-Doldan child. A previous transfusion was performed April 17. The child now is too weak to sit up.

"Transfusions help, but the new blood is doomed to destruction by the disease," said the child's physician.

Physicians attending the Garretts child conceded there was little they could do to check the disease, but they were experimenting with X-ray treatments.

Visiting Scouts Will Be Given Theater Party

Preparing for the annual Boy Scout roundup and circus here next Saturday, local officials are still without adequate display spaces for the booths desired by visiting troops. Any business man willing to let the Scouts use display or building space is asked to call Executive C. A. Clark at 384.

Athletics will be enjoyed by the Scouts Saturday morning. All will assemble at the gymnasium at 12:45 p. m. Then they will march to La Nora theater for a complimentary show starting at 1 p. m. They will be guests of the theater to see James Cagney in "Jimmy the Gent."

The full program will be ready soon.

People May Talk Back at Gaston Foote This Eve

An opportunity to talk back at the pastor will be given members and friends of the First Methodist church tonight in the weekly "Food-Faith-and-Fun" program. "What I dislike about church" will be the subject of the open forum discussion, Gaston Foote, pastor, announced today.

The program will open with a covered dish luncheon which will be served at 7 o'clock. A one-reel comedy on the screen will follow the luncheon. After the open forum, Rev. Foote will continue his discussion on titling stewardship. Everyone is invited to attend the gathering, especially members and friends of the church.

The subscription lists are headed: "In order to relieve the congestion of the streets, eliminate double parking, and give our customers opportunity to visit our stores, we, the undersigned, subscribe the amount placed opposite our names for the purpose of providing free parking places in the downtown section."

It is planned to install parking spaces at the rear of the Combs-Worley building, north of the new postoffice, north of the Tom Rose Buick company, and on the Santa Fe right-of-way between Cuyler and Russell streets.

I SAW-- Bouquets of blue-bonnets at the Rotary club's Texas day program today. They were sent from South Texas especially for the program. Out of about 50 Rotarians, 11 were born in Texas, a poll revealed.

The directors of the Jaycees displaying their various talents in a called session and decided to nickname them specially for the program: Johnson, E. M. (Dough) (B) Boy; Conley, Clarence (Wit Trust); Kennedy, D. C. H. (For-Duty's-Sake); Schulkey, Bob (Play Boy) Knox.

STANDARD HAS CODE CONTROL SOLON CLAIMS

CODE MADE MONOPOLY FOR 3 COMPANIES, STRONG SAYS

WASHINGTON, April 25 (AP)—Claims that Secretary Ickes is being "hoodwinked" by the petroleum code committee were heard today by the house rules committee.

Representative Strong (D. Tex.), author of a resolution for an investigation of prices and quotas under the oil code, which the committee is considering, said "Administrator Ickes is being imposed upon."

"That's right," commented Representative O'Connor (D., N. Y.); "Ickes is being hoodwinked by the committee."

Strong also asserted the Standard Oil company "has named the managers of the petroleum administration."

"There is no doubt about that," O'Connor agreed, adding he knew from "responsible sources" that Ickes had been told the oil policy would make a monopoly for the big three companies but that Ickes had said "See Margold." The reference was to Nathan R. Margold, solicitor in the interior department.

The rules committee agreed to act Friday on the Strong proposal which would authorize a special house committee to ascertain if practices, prices or quotas were unjust and if more legislation were needed.

Strong, who complained particularly against the passing down of Texas quotas since the code went into effect, told the committee he and others had tried to get the desired information from the oil administration.

"They have given us all kinds of answers," he said, "but we have traced them down and found the answers not correct."

Strong said California shipments to the Atlantic seaboard by way of the Panama canal had jumped from an average of 46,000 barrels a day the first eight months of 1933, before the code went into effect, to 81,000 barrels, and that in view of the fact the distance from California was around 5,000 miles and from Texas tidewater points less than 2,000 miles, no economies of transportation could account for the increase.

Money to Start Parking Plan Is Being Raised

MONEY with which to purchase material for parking lots in Pampa will be raised through public subscription. Lists are being circulated through the business district today.

The civic committees of the Board of City Development and Junior chamber of commerce met this morning and decided to start raising money for the program so that work can start immediately after FERA authorization is received. If that means of labor is rejected, some other method will be devised.

The subscription lists are headed: "In order to relieve the congestion of the streets, eliminate double parking, and give our customers opportunity to visit our stores, we, the undersigned, subscribe the amount placed opposite our names for the purpose of providing free parking places in the downtown section."

It is planned to install parking spaces at the rear of the Combs-Worley building, north of the new postoffice, north of the Tom Rose Buick company, and on the Santa Fe right-of-way between Cuyler and Russell streets.

OUR WINGS NOT TOO GOOD

Somehow, we Americans had been led to believe that in aviation we led the world, in efficiency if not in numbers of army and navy planes.

The army's experience in flying the mail was more than a task—it was a test of men and planes against the elements, and it was all too obvious that both training and planes were inadequate. America cannot afford to let such inefficiency and under-equipping continue. If fliers must be paid more to keep them in the service, higher pay they should have.

When all that has been said, it remains pretty clear that the army air corps did less well than the nation had a right to expect. Needless to say, this was not due to any failure of nerve on the part of the flyers themselves—they added new records of heroism to the history of the air corps.

It seems rather to have been due to some defect in training and equipment of the corps as a whole.

Now we don't maintain an army air corps as a spectacular and inspiring show. It is an integral part of our national defense; if it isn't as strong as it should be, our national defense is weak at a vital point.

A dispatch from Europe the other day pointed out that it is the existence of the Russian air force which has probably prevented war between Russia and Japan.

The Russian air force is about the strongest on earth, right now; approximately 700 fighting planes are understood to be concentrated in the Far East, within striking distance of Japan, and it is said that their presence has been the principal deterrent against a Japanese offensive in that territory.

That gives you an idea of the importance of the air corps.

LIONS ELECT OFFICERS
COLORADO, April 25. (AP)—Ed L. Pils of Lubbock has been elected district governor and Plainview designated as the 1935 convention city by Lions of district 2-T in convention here. N. M. Long of Fort Stockton and Jimmie Greene of Colorado were placed before the Lions as candidates for the 1935 governorship.

FIRE-BEE
DENVER, Colo. (AP)—A busy little bee called out the fire department. The insect apparently attempted to start a hive in a fire alarm box and became entangled in the apparatus, causing a short circuit that set off the bells. When the firemen arrived the bee had been electrocuted.

BOYCOTTING OF NAZI GOODS IS ALMOST UNANIMOUS IN DALLAS

DALLAS, April 24.—Boycotting of German-made goods has become almost unanimous among Dallas department stores as a reaction to Hitler's alleged Nazi persecution of Jews.

Managers of several of the largest department stores today confirmed a report that they are no longer buying German-made goods.

One manager said his store had formerly imported \$250,000 worth of merchandise annually from Germany.

Stanley Marcus, secretary-treasurer of the Neiman-Marcus company, was representative of the merchants' attitude.

"We are banning, so far as humanly possible, all German-made goods," he said. "Whereas perhaps a year ago ten per cent of our merchandise came from Germany, today that volume has shrunk to about one-tenth of one per cent."

"I can't honestly say that we are not offering any German goods, because some American manufacturers use German raw materials, or manufacture bases from Germany. But wherever possible, we are extending the boycott to that form of goods also."

It was said that the movement has the support of virtually all large stores in Dallas, without any distinction between those of Jewish or

gentle management. Dallas Jews have started a drive for \$25,000 to aid members of their race, who they claim are oppressed in Germany.

The boycott here is costing German manufacturers at least \$1,250,000 annually, retailers estimated. That volume, they added, is only a "tiny strand" in the "noose" of economic pressure that American stores are exerting against the Nazi regime.

It was explained that Macy's in New York started the economic fight. Then Altman's of New York followed. The two stores had been the largest American outlets for German manufacturers.

Since that beginning nearly a year ago, the movement has filtered across the country in a quiet manner, until it is now virtually nationwide, retailers said.

"This is aimed at the Nazi policy,

Political Announcements

The Pampa Daily NEWS is authorized to announce the candidates of the following, subject to the Gray County Democratic primary of July 28, 1934:

For Commissioner, Precinct No. 1—CLEM V. DAVIS
A. (ARLIE) CARPENTER
EDWARD J. GETHING.

For Commissioner, Precinct No. 2—JOHN HAGGARD (second term). LEWIS O. COX

For Commissioner, Precinct 3—H. G. MCLESKEY.
THOS. O. KIRBY

For Justice of Peace, Prec. 2, Place 2—E. P. YOUNG.

For County Clerk—CHARLIE TEUT
J. V. NEW.

For County Tax Assessor-Collector—F. E. LEECH.
EDWIN G. NELSON.
T. W. BARNES.

For Constable, Precinct No. 2—JIM M. KELLER
FRANK JORDAN.

For County Superintendent—W. B. WEATHERED.
JOHN B. HESSEY

For County Treasurer—D. R. HENRY.

For Sheriff—LEIS, C. E. PIPES.
J. I. DOWNS
J. F. MEERS.

For County Judge—C. E. CARY (second term). J. P. WEBERUNG.

For County Attorney—SHERMAN WHITE.

District Clerk—FRANK HILL.
W. S. EAKTER.

For District Judge—W. R. EWING.

For District Attorney—LEWIS M. GOODRICH.

State Representative—JOHN PURYEAR, Wellington.
EUGENE WORLEY, Shamrock.
PHILIP WOLFE, Pampa.

not at the German people," the manager of one of Dallas' largest department stores explained. "Because it is aimed at Hitler's policy rather than the German people, we are not publicizing the boycott here. There is no need to wound the feelings of good German-Americans. The boycott is to be felt in Germany, not by the innocent Germans in this country."

Chief imports from Germany have been toys, gloves, chinaware and gift items.

1934 Unexcelled Time to Build

Nationally Known Brands of Wall Board, Roofing, Builders' Hardware and Paints, as well as a Complete Line of Other Building Materials and Lumber are Offered by the McIntire Lumber Co. in Pampa. E. E. Bechtelmeier, Manager.

There has never in the past quarter century been a time when quality and nationally known and advertised building materials have been available at such money saving prices as in the past year. Although building materials have advanced in price in the past few months, they are still substantially lower than previous to the depression, with the consequence that property owners have not in a decade seen a more advantageous time to build, alter or repair their homes and other buildings.

In this respect McIntire Lumber Company, which was first established in Pampa in August, 1925, is one of Gray county's most serviceable and progressive lumber yards.

They have, in addition to other building materials which they have found popular with property owners who wish to take advantage of existing conditions and make necessary repairs or alterations before prices advance still higher. These

materials represent popular and proven brands and are offered for reasonable prices. They include roofs, wall board, builders' hardware, paints and varnishes, and other building supplies, many of which the average person is hardly familiar with but which makes your home or building modern without adding materially to its original cost.

Their business policy is one which strives to render a super-service to the public and their customers at all times and if you are planning on a building of any sort or repair work, you will find them well equipped to assist you in anything pertaining to plans, estimates or materials. They invite Gray county people to visit and make the McIntire Lumber Co. headquarters when in Pampa.

LET THERE BE DARKNESS HUTCHINSON, Kan. (AP)—A spooner's parade has been inadvertently destroyed.

Recently a 2,700,000 candlepower beacon was placed atop a tower at the Kansas State reformatory as a precaution against escapes.

As a result the shaded lanes thereabouts have become lighted, and no longer draw the young lovers.

The first installment of "Murder at Mocking House" appears April 27 in The Pampa Daily NEWS.

WOMAN LEADS IN CAPTURING KIDNAP GANG

VICTIM LIBERATED BY QUICK-THINKING WIFE

FORT WORTH, April 25. (AP)—A 28-year-old telephone engineer saves his freedom today to a quick-thinking woman gasoline station operator.

With her husband, she rescued him from the hands of three kidnapers and aided in the capture of two of them. The third member of the kidnap gang remained at large.

The woman, Mrs. G. H. McKee, pulled Charles M. Kella, Jr., from the rumble seat of an automobile yesterday after the three men drove the car up to her filling station at Winfield, Tex. Kella said he had been stopped by the three men the night before in Fort Worth and had been forced to ride with them all night in his own automobile.

When the trio drove up to the McKee gas station, Kella had been jammed into the rumble seat and the top closed on him. The men ordered gas and when the woman's husband, G. H. McKee had filled the tank they told him they couldn't pay for it.

Mrs. McKee overheard the discussion about paying for the gas, seized her husband's pistol and came to the front of the station. The men offered a shotgun and a spare tire in payment, but both were refused. Two of them started down the road with the spare tire to try to get money at another station, leaving the third man in the car.

About that time the McKees heard a tapping from the rumble seat and when Mrs. McKee opened it she found Kella gasping for breath.

"I've been kidnaped," he told her. The man who had been left in the car started running down the road, but McKee, firing as he ran, quickly caught him. While his wife guarded the one prison, McKee found another of the men in a wood about a mile from the station. A posse searched for the third.

The two men held gave their names as Homer McCoy, 30, and Joe Burleson both said by Detective Karl Howard to be ex-convicts. Asked why they abducted Kella, McCoy told detectives that "it was a sudden idea" and that they had no motive. Both admitted they were drunk.

Kella is traffic engineer for the Southwestern Bell Telephone company here.

Don't Gamble On Relief When CONSTIPATED

In spite of the fact that Feen-a-mint is the gentlest, mildest and nicest-tasting laxative, it has real action—action that gently but thoroughly sweeps poisons from your system—cleanses the walls of the intestines and purges out patrid waste matter that is flowing the system with poisons. You can't get the laxative ingredients out of Feen-a-mint without chewing—and this chewing distributes the laxative uniformly throughout the intestines and supplies them with saliva juice to dissolve dry waste matter. Feen-a-mint contains a laxative ingredient that the world's greatest physicians approve. Don't suffer "laxative dread." "Delay" is dangerous. Chew a delicious Feen-a-mint, the chewing gum laxative for constipation, and go on about your business. 15c and 25c at druggists everywhere.

Troops Guard Accused Attacker

Saved from two mob attacks, in which militia routed the mad-dened crowd of 5000 with tear gas, Fred Lockhart, 38, peddler, shown left in Shreveport, La., pall, is charged with assault and murder of Mae Griffin, 16, right. Her body was found in woods near a hobo camp. Lockhart has confessed, police declare.

Important Services Rendered

The Worley Hospital at 400 West Francis in Pampa is Daily Rendering an Important Service to Gray County Residents. Complete Equipment in Every Respect.

The general opinion of people who have been patients in hospitals is that hospital charges are exorbitant, when as a matter of fact, they are rarely high enough to pay the cost of operation. A survey made by representatives of the French Hospital in New York City last year showed that the average cost of keeping a patient in any one of the thirty leading hospitals investigated was \$6.50 per day. This sum represented the actual cost to the hospital and did not include profit in any degree. This is startling news to the average person as he fails to think of the tremendous amount of money invested in equipment, as well as the multitude of expenses necessary for daily operation.

Student Visitor And Friends Are Guests at Party

Bridge entertained a party of friends of Henry Cullum, student who is visiting here from Texas Military college, Terrell, Monday evening at the home of his parents, Mr. and Mrs. Fred Cullum.

The event was an airplane party, with tables named for landing fields and players for planes. High score in the race was won by Max Marbaugh for men and Miss Virginia Jefferies for women. Low scores were made by Smiley Henderson and Miss Martha Jones.

Cut prizes went to Miss Dorothy Harris, Miss Jefferies, Tom Rose Jr., and Lloyd Hamilton.

Other players were Misses Harriet Hunkapillar, Christine Hendricks, Byrdene Elkins, Louise Whitefield, Messrs. Warren Finley, Wilkes Chapman, Mr. and Mrs. B. G. Harris, Mr. and Mrs. L. N. Alchison.

APPROVAL OF REFINING CODE HELPS MARKET

SECTION EXPECTED TO CURB HOT OIL IN EAST TEXAS

By WILLIAM VOIGT, JR., Associated Press Staff Writer
TULSA, Okla., April 25. (AP)—Approval of the new refining section of the oil code brought to an end more than nine months struggle of a considerable portion of the industry for a broader method of control than was provided originally, and resulted in an almost immediate favorable market reaction.

News from Washington that the section had been approved late yesterday was followed by an appreciable stir in marketing quarters and the low grade gasoline, long a determining factor, firmed after moving sluggishly at 4 to 4 1/2 cents a gallon.

The strength was expected to be expressed in a definite advance coupled with greater activity of jobbers and other buyers.

Another result of the action by the oil administrator, Secretary Ickes, was the reversal of what little talk there had been about a prospective cut in crude oil prices.

Howard Bennette, president of the Western Petroleum Refiners association and a member of the planning and coordination committee with most of his association membership, had opposed the "inventory" plan as sole means of controlling refinery operations almost from the start of deliberations on the code in Chicago last June.

Long months of low gasoline prices, with the bigger companies holding prices of the middle and high grades at arbitrary levels by main strength, while the lowgrade swept and swerved at the will of East Texas operators, crystallized sentiment for a better plan.

The new section is looked to hopefully here as providing a definite curb for the "hot" oil processors of East Texas, and virtually every paragraph of it contains an "executive" supply of gasoline or an unbalanced accumulation of inventories.

A legal test of this new measure may come from East Texas shortly after it is placed in operation. Its stringent provisions would strike at the small group reported from usually reliable sources still to be producing "hot" oil for movement as such and for processing into third grade gasoline.

Delegation Will Attend Baptist W. M. U. Meeting

Many visitors from both Baptist and Central Baptist churches here will attend the annual convention of the Woman's Missionary Union of district ten at San Jacinto Baptist church, Amarillo, tomorrow and Friday.

Women and young women from Pampa will be in program include Mmes. O. C. Weekly, P. E. Leech, J. A. Meek, C. E. Lancaster; Misses Geneva Groom, Louise Baxter, and Doris Price.

Others who plan to go include Mr. and Mrs. A. Baxter, the Rev. and Mrs. Vernie Pipes, Mr. and Mrs. G. C. Stark; Mmes. H. C. Wilkie, Baker Henry, T. F. Morton, H. C. Price, Roy Logan, D. B. Jamison, J. A. Arwood, and Milton Lovell; LeFores, Misses, Eloise Lane, Willie Reece Taylor, Letha Harris.

Lindy Suspect

On the suspicion that William Lardner, above, now serving a term in Leavenworth for passing counterfeit money, may have been the mysterious "John" who got the Lindbergh ransom money, Boston police called on Dr. John F. ("Jaf-sie") Condon to identify his photograph. He was Condon who passed \$50,000 to a stranger in a New York cemetery in what was to have been a step toward the ultimate return of the kidnaped child.

MAN MISSING AFTER EL RENO BIRTHDAY FETE

Blood-Stained Hat Is Recovered in Car Near Norman

EL RENO, Okla., April 25. (AP)—A possible murder mystery cast a shadow today over El Reno's first celebration of the 45th anniversary of its settlement in '89 by hard-riding home hunters.

The finding of a blood-stained cowboy hat, a pistol, and a rifled pocketbook in the abandoned automobile of Henry G. Sheets, El Reno electrical supply dealer, stirred fears that he had been slain.

Sheets, six feet, two inches tall and weighing close to 200 pounds, was dressed in "cowboy" garb for the celebration when he left El Reno Monday afternoon with \$200 to pay some bills in Oklahoma City.

His automobile was found near Noble, south of Norman in Cleveland county.

In the blood-stained "10-gallon" hat he had worn two holes, which Sheriff John Harrison of El Reno (Canadian county) said appeared to have been made by bullets. The inside of the hat and the floor of the automobile were stained with blood.

No shots had been fired from the "six-gun" which Sheets, 35, had been wearing as part of his pioneer celebration togs.

A widespread search was launched for some trace of Sheets. Officers theorized that he had been slain and robbed, possibly by a hitch-hiker, and his body thrown in a creek or roadside ditch.

Whiskers grow for weeks in order to lend an authentic note to the pioneer atmosphere, appeared in chaps, 10-gallon hats, and "six-guns." Officers demanded strict obedience of an edict that no shots be fired—not even blanks.

Sale of Buicks In 10 Days Break Two-Year Record

FLINT, Mich., April 25.—Retail deliveries of Buick automobiles during the first 10 days of April were greater than during any similar period in the last two years, W. F. Hufstader, general sales manager of the Buick Motor company announced today.

Moreover, sales figures reveal that Buick dealers in 157 cities throughout the United States sold more cars in the first quarter of this year than they did in all of 1933.

"Buick's steadily growing sales volume is most gratifying to the management not only from the standpoint of the company's current business, which is at the best level it has been in more than two years, but also as an indication that a definite upward trend is being experienced in all lines of business," Mr. Hufstader said.

"Increased new car buying, particularly in the Buick price range, is strong evidence that business recovery is sweeping the nation."

During the first 10 days of April, 2853 new Buicks were delivered to customers, the sales statistics show, the largest 10-day total since the third period in March, 1932. The figure compares with 1937 new car deliveries in the first 10 days of April last year, a gain of more than 100 per cent.

Deliveries in the first April period this year also exceeded the best 10-day period of last year—the last third of June, 1933, when 2274 cars were delivered. "Total Buick deliveries since the first of the year," Mr. Hufstader said, "are 14,810 as against 11,059 from January 1 to April 10 last year."

"The fact that Buick dealers in 157 cities through the country already have exceeded their total 1933 sales volume is indicative of the extent to which the country has come back," Mr. Hufstader said. "The same sales figures show that dealers in nearly 200 other towns have sold from 50 to 100 per cent as many cars in the first quarter of this year as they did in all of last year with the probability that many of these dealers soon will pass their total 1933 volume."

Better Health With Chiropractic

John V. McCallister, with office at First National Bank Bldg., has helped many Gray county people to better health in the years he has practiced here, since first opening his office in 1922. He also has a clinic in Wellington, Texas, in charge of L. P. Pitts.

His health is usually the results of a violation of nature's laws, or of a failure on the part of the individual to assist nature in keeping the body in perfect health. The nervous system of the human body is designed to carry life force to every part of the body, and in so doing to keep it in perfect condition. However, at times, when bodily resistance is below normal, disease will creep in.

Any local physical ailment can usually be quickly relieved if nature is assisted by way of seeing that the nerves serving that part of the body are functioning normally and are not impinged in any way. Many of our physical ills are caused or aggravated by nerve interference and if this nerve interference is relieved the ailment naturally disappears. For this reason chiropractic adjustments have reached and corrected many acute

and chronic diseases that health methods have failed to improve. Chiropractors do not treat symptoms, but go to the immediate cause of the trouble and correct that with the result that disease definitely disappears.

Dr. McCallister has obtained astonishing results in this field during the years he has practiced in Pampa. He is a graduate of the Carver Chiropractic College in Oklahoma City, which is one of the highest ranking institutions of its kind in the world. He is consequently, well equipped with both the training and experience necessary to achieve the desired results.

Dr. McCallister's methods are not wholly confined to chiropractic adjustments and he is continually looking for any new idea or discovery which would aid in improving the already satisfactory results. For example, within the past two years he has installed equipment to give Terpezone Vapor treatments. Terpezone Vapor is simply inhaled by the patient and is particularly effective in treating: catarrhal deafness, hay fever, sinus trouble, colds and pneumonia. It is obtained by the electrical vaporization of a combi-

nation of chemicals and is recognized and used by medical doctors as well as chiropractors. Results from Terpezone Vapor treatments have been so unusually successful in Pampa and vicinity that people in the Wellington district have asked for one to be installed in the Clinic there.

If you are having trouble with your health, see Dr. McCallister. Allow him to give you an examination, as he has successfully helped many local people to better health.

WINS BY 249 VOTES
ST. PAUL, Minn., April 25. (AP)—By a margin of 249 votes Mark Gehan, independent candidate, apparently had wrested the St. Paul mayoralty from William Mahoney, labor incumbent, on the basis of complete unofficial returns in yesterday's city election.

BRENNAN RESIGNS
LAREDO, April 25. (AP)—Earl L. Brennan, former commander of the American Legion, department of Texas, and for the past year deputy collector of internal revenues, resigned yesterday as deputy collector, effective April 24. He said he resigned so he would be able to devote his entire time to his brokerage business here.

M. M. Newman of McLean was a Pampa visitor yesterday.

FORMER TEXAS LEAGUE STAR IS SENSATION

ZEKE BONURA CALLED CREAM OF ROOKIE CROP

By HERBERT W. BARKER Associated Press Sports Writer NEW YORK, April 25 (AP)—The Cubs and the Dodgers, the White Sox and the Yankees, on the face of the early returns, are most to be congratulated on their baseball scouting system.

More than a score of first-year men have been coveting on major league diamonds since the season opened but standing out above the rest so far have been George (Tut) Stainback of the Cubs, Zeke Bonura of the White Sox, Don Heffner of the Yankees, and Les Konecne of the Dodgers.

Given his chance for a regular outfield berth through the pre-season injury to hard-luck Hazen Cuyler, Stainback, one of the greatest speed merchants the National League has seen come up in years, has delivered with a bang. His fielding has been flawless and his batting so good that Cuyler probably will be kept on the bench until the rookie from Los Angeles hits a slump.

Bonura, big first baseman from Dallas, has been as big a sensation in the White Sox lineup. He has clipped along at a 381 rate so far and inserted three homers in his collection of eight hits. Heffner, however, has been the real surprise, stealing the headlines his more highly-touted rookie comrade, Bob Rolfe, had been expected to draw. A smooth second baseman from Baltimore, Heffner was rated a weak hitter whose brilliant fielding would nevertheless keep him in the Yankee lineup.

Like Stainback, Konecne received his big chance through injury of a regular, Danny Taylor. Labeled a "bust" when he was up with the Giants a few years ago, Len has pounded out ten hits in 27 times at bat for an average of .370, and fielded sensationally to boot.

Although their averages are not so high, Alan Stronge from Hollywood, Harland Cliff from San Antonio and George Puccinelli from Rochester seem to have caught on regularly with Rogers Hornsby's St. Louis Browns. Stronge has hit .294 so far, Cliff .278 and Puccinelli .250. Julius Solters' timely slugging with the Boston Red Sox has been a feature of the early returns and Hal Trosky, new Indian first baseman, drove in six runs with two homers and a pair of singles yesterday after a slow start.

Harry Lavagetto, new Pirate second baseman, has hit only .240 so far but has driven in six runs. Ivy Shiver, a clouter from the International league, went hitless in 19 times at bat for Cincinnati before getting a home run and a single yesterday and his average stands at .067. The Phillies rookies, Louis Chiozza, Meredith Hopkins and Irvine Jeffries, have been disappointing at the plate so far.

BAPTIST GREETINGS MEMPHIS, Tenn., April 25 (AP)—Greetings from the Baptist Union of Great Britain and Ireland will be brought by M. E. Aubrey of London, its secretary, to the Southern Baptist convention, convening at Fort Worth May 16-20.

DICK HEDGSPETH AND PERRY WILL BATTLE IN SEMI-FINAL

Ryan and Thompson Head 26-Round Fight Card at Pla-Mor Tomorrow Night.

Two boxers without long records and who do not claim championship sashes of some kind or another will meet in the Pampa ring tomorrow night at the Pla-Mor auditorium when Promoter B. W. Kelly presents Speedy Ryan of Melrose, N. M., and Jack Thompson of Marietta, Okla., in the 20-round main event.

Both boxers have risen from obscurity to considerable prominence in the fighting world during the last few months. Coming out of the "sticks" in light of preliminary bouts, Dallas, Thompson caught the eyes of promoter, fans and Jack Dempsey who happened to be referee that night. Thompson was stepped from a preliminary to a main event in which he was a sensation. Immediately after his big fight, Dempsey offered him a contract in his stable. It is not known whether Thompson has signed the contract.

Ryan, also from the "sticks" in another state, was little known until recently. He stepped into Roswell and won a sensational battle. Later he appeared in Amarillo where he defeated some of the real top-notchers. He came to Pampa to win a decision from Mickey Danivan and then fought him to a draw a week later. Ryan uses a short jab, pack and with dynamite.

Jim Perry, New Mexico boxer, will appear in the semi-final with Dick Hedgspeth of Perryton. The bout is loaded with T. N. T. Both boxers are sluggers of the most aggressive type and if the main event was not of such high caliber, the semi-final would steal the main event.

The 6-round special event could also be classed as a main event. Joe Vernon, Pampa, will meet Hershel Howarth, Houston boxer, in the event. Both boxers have fought main events in many large cities of the state.

Bill Gay of Borger will tangle with Red Davis of Amarillo in the 4-round preliminary at 8:15 o'clock.

CRUSHED TO DEATH VERNON, April 25 (AP)—F. Davis, prominent Vernon business man, was crushed to death today in a freight elevator at his service station. The upper part of his chest was caught between the elevator floor and the floor of the second story of the building, causing almost instantaneous death.

Light automobiles driven by clockwork that run 40 miles after a crash has been wound are being made by Japanese.

SENATORS ARE DEFEATED BY RED SOX 5-0

WHAT IS WRONG WITH SENATORS' MOUND STAFF

By HUGH S. FULLERTON, Jr. Associated Press Sports Writer Among the numerous perplexing problems which have arisen to plague major league managers is the big one which faces Washington's Joe Cronin—what's wrong with the Senators' pitching?

Last season it was largely the hurrying of the senatorial "big four", Alvin Crowder, Earl Whitehill, Monte Weaver and Walter Stewart, which carried the Nats to the American league championship. So far this season, ten different Senator pitchers have made a total of 23 appearances in eight games and the standing of the club shows Washington in seventh place with three victories and five defeats. Only one, Al Thomas, has remained on the job for nine innings.

Stewart made his second unsuccessful start of the season yesterday as the Senators opened their home run season and took a 5 to 0 trimming from the Red Sox. With 25,000 fans, including President Roosevelt, looking on, the slender southpaw pitched four shut-out innings. Then a rainstorm held up the game for an hour and when it was resumed Manager Cronin decided to turn the hill over to Jack Russell.

The Sox scored three runs, and in the seventh inning, when they were down 5 to 0, they were held by Bob Burke finished up Johnny Welch, meanwhile, limited the champions to five hits.

While Oral Hildebrand hurled four-hit ball, the Cleveland Indians routed four St. Louis players for 19 hits, including a pair of homers by Hal Trosky, and won 15 to 2. Detroit's Tigers subdued the White Sox 7 to 3 in another slugfest.

Forty thousand fans turned out to see Charlie Ruffing of the New York Yankees and John Marcum of the Philadelphia Athletics hook up in a great pitching duel which lasted for 19 innings. Ruffing won when Frank Crosetti belted a home run in the sixth for the only run of the game. Each twirler allowed only four hits.

The Chicago Cubs won their 6th straight National league victory, a 3-2 decision from the Cincinnati Reds, scoring all their runs off the slugger in the first inning. Right on the Cubs' heels came the world champion Giants with an 11-7 triumph over the Phillies, gained largely by a pair of home runs apiece by Patcher Hal Schumacher and Max O'Leary.

The Boston Braves found a near relative in Walter Beck, big Brooklyn right hander, and won their first home game 9 to 3.

BOYS TO RESUME SPRING GRID PRACTICE, MONDAY AFTERNOON

Most Promising Gorilla To Work With Harvester Prospects for Week or So.

Coch Odis Mitchell contemplates resuming spring football practice Monday afternoon. He has not definitely announced his plans but it is understood he will work his big fellows in "shorts" for a week while allowing the 40 boys out for Gorilla practice under Coach Harry Kelley to have another week.

The coach will select the most promising boys from the Gorillas and allow them to work with the Harvester prospects. It was reported yesterday that one of the Harvester regulars has been found ineligible but the rumor has not definitely been verified.

Coch Kelley has some promising material for his Gorillas this fall. He has three "young giants" who will not be eligible for Harvester play but who should be towers of strength next year. Several punters of great ability are appearing among the Gorilla prospects and Coach Kelley's squad should be about twice as strong as last season.

Lubbock's Westerners were scheduled to scrimmage the ex-Westerners this afternoon and Friday afternoon at 4 o'clock the Sandies will scrimmage the ex-Sandies on Butler field. The former Sandies will include Ken Travis, former S. M. U. star, Raymond Glass, Peterson, Corbett, and a dozen other big stars. Admission will be charged for the game.

This session for the Harvester prospects will last about three weeks. Examinations will begin next month and the session will close before that time. Some of the prospects out with injuries during the first training period will be ready for this season.

Lions Return From Colorado District Session

Pampa Lions returned today from Colorado, Texas, where they attended a district convention. The trippers were Mr. and Mrs. C. H. Walker, Mr. and Mrs. E. J. Hagan, Clyde Fatheree, Dr. H. H. Hicks, Gilmore N. Nunn, A. M. Teed, Mack Graham, R. G. Allen, J. M. Saunders, and Olin E. Hinkle. Lion Walker was chairman of the constitution and by-laws committee and Lion Hagan served on the credentials committee. Lion Nunn made the feature talk at a tail-twisters' breakfast. Lion Hinkle was secretary of the convention.

Plainview was given the next meeting place and Judge E. L. Pitts of Lubbock was elected district governor. More than 300 persons attended.

APPROVE STOCK BILL

WASHINGTON, April 25 (AP)—The house interstate commerce commission today approved the Fletcher-Rayburn stock market regulation bill.

CATS FINALLY BEAT BRAVES

Fort Worth Wins First Victory; Dallas Whips Tulsa; Bucs Wallop Houston.

By BILL PARKER Associated Press Sports Writer The Fort Worth Cats, after seven consecutive defeats, amazed their most loyal supporters by scalping the Oklahoma City Indians, 4 to 3, yesterday. Two thousand fans attended the opening at Fort Worth and got their money's worth in a tense game the Indians almost won in the final inning.

Oklahoma City scored one run and had a runner on third in the ninth when Skipper Del Pratt whistled young Harry White to the showers and relieved him with the veteran Dick Whitworth who nipped the rally to give the Cats their first 1934 Texas league victory and the Indians their second defeat in eight starts.

Not playing the ninth inning by agreement because of the necessity of catching a train, the Beaumont Exporters and San Antonio Missions played a 6-6 tie at Beaumont. The Exporters loaded the bases in their half of the eighth inning with nobody out but Aish Williams, ace of the San Antonio mound staff, retired the Exporters on a short fly to Mazeria in right field and two called third strikes.

Before a paid crowd of 5,815, the Dallas Steers won their opening game at Steer Stadium by defeating Tulsa, 7 to 2. Charlie Barnabe, southpaw, allowed Tulsa 13 hits but the Oilers could not bunt enough of them for over one run in a single inning. Charlie Moncrief pitched for the Oilers and weakened badly in the fourth to allow three hits and three runs.

The crowd was large enough to win the J. Alvin Gardner league president trophy for the Steers—the trophy going to the city with the largest opening day crowd.

In the only night game, Galveston Buccaneers out-lasted the Houston Buffaloes to win, 19 to 11. It was a free slugging and running affair. Galveston got to Lyons, Fisher, Cvensgros and Copeland for 20 hits. Houston got to Jorgens for 11.

HO HUM

ATLANTA (AP)—To L. G. Wright, Jr., 3 1/2 years old, watching his mother get a permanent wave is most uninteresting, so he toddled out of the beauty parlor into a rain storm. When Mrs. Wright noticed her son's absence she dashed into the rain, her head festooned with permanent-wave apparatus, and called a policeman, who called headquarters.

There it was found little L. G. had paddled two blocks before he was picked up by an officer. Mother and son were reunited at the police station.

FIGHTS LAST NIGHT

By The Associated Press

New York—Vernon Cormier, 126, Worcester, Mass., outpointed Johnny Hinds, 123 New York, (10). Washington—Bob Tow, 190, Alexandria, Va., outpointed Donald (Red) Barry, 195, Washington, (10). Fargo, N. D.—Sherald Kennard, 145, Fargo, outpointed Eddie Ran, 145, Poland, (10).

Clarify Entered In \$1,500 Fair Park Handicap

DALLAS, April 25 (AP)—Entries for the Fair Park handicap, the feature race Saturday at the opening of the spring race meet at the new Texas State Fair ground track, closed last night.

This race, with a \$1,500 added purse, is for three-year-olds and up and will include such thoroughbreds as Clarify, winner of two races at Arlington Downs, Hickory Lad winner of the Louisiana Derby and second in last Saturday's Texas Derby, and Mr. Bun, winner of the final race Saturday at Arlington Downs. Noah's Pride, Repaid, Dis Dal, Mad Wind, Sad Knight, Essential and Trombone are other horses almost sure of post positions in the handicap stake.

A large delegation of Corsicana people probably will be present opening day since Clarify is owned by W. C. Stroube of that city. Governor Ferguson and her staff and Jim Ferguson may attend the opening. All have been invited by the racing committee. Elaborate ceremonies will open what is claimed to be a \$250,000 racing plant. Workmen are busy putting final touches on the track, the stables and the grandstand.

Horsemen on the scene have pronounced the track among the best in the country. Over five hundred thoroughbreds are tabled at the new track waiting for the bugle call.

German housewives are being taught how to cook fish by instructors who are traveling about the country with a motor truck containing ten electric ranges.

Japan Poses as Welfare Worker, Not a Warrior

By The Associated Press

GENEVA, April 25 (AP)—Japan in the costume of a social welfare worker—not in the grim garb of the warrior—is the picture drawn by Masayuki Yokoyama, Japanese consul general here.

He outlined the picture in elaborating on his previous enunciation of Japan's policy of "Asia for Asians" and of opposition to foreign meddlers in Chinese affairs.

"The youthful envoy expressed regret that other powers should see Japan as planning the conquest of Eastern Asia. "We do not want to drive away foreign peoples from the Far East," he said.

"We intend to respect treaties. And remember, the Japanese influence in China is good not only for China but for the interests of foreign nations. "Japan has no intention of obstructing the interests, the integrity, and the independence of China. Japan has no intention of blocking the interests of other powers if they pursue useful and economic relations with China."

Yokoyama added firmly, however: "I am authorized also to say that Japan nevertheless can not accept and will oppose any form of assistance to China which is contrary to peace in Eastern Asia."

MACHINES TO SEND PICTURES BY WIRE SOON

NEWSPAPERS IN ABOUT 25 CITIES TO GET SERVICE IN '34

NEW YORK, April 25 (AP)—Publishers of the nation's newspapers entered today the first of four days of sessions of the American Newspaper Publishers association.

Bearing reports of improved conditions throughout the country, the publishers called conferences on numerous questions, including that of the press in connection with the national recovery act.

Their sessions followed the annual meeting of the Associated Press yesterday at which plans were announced for the inauguration of a tele-photographic service for the rapid transmission of news pictures.

"Service will start in the fall of 1934 or as soon thereafter as equipment is available, and machines will be operated in at least 25 cities at the outset," the announcement said.

"The quality of the transmitted photograph is so nearly perfect as to defy detection, in many instances, from the original photograph itself—an achievement hitherto thought impossible."

The announcement was followed by a discussion by the members of the service, in which about 10,000 miles of leased wires will be used. Three directors of the Associated Press were re-elected—Clark Howell of the Atlanta (Ga.) Constitution, R. Knowland of the Oakland (Calif.) Tribune, and Stuart H. Perry of the Adrain (Mich.) Telegram.

Two new directors, Paul Bellamy of the Cleveland Plain Dealer, and John Cowles of the Des Moines (Ia.) Register, also were chosen. Secretary of State Cordell Hull addressed the annual luncheon of the members. Frank B. Noyes, publisher of the Washington Star and president of the Associated Press, presided at the business meetings.

AGAIN IN DEMAND... THE WORLD OVER

In the last eight months, more and more requests for BUDWEISER have been received from every civilized country in the world... In the fourteen years that American beers were off the market, these foreign countries still had their own good beer. Yet, after fourteen years, they again single out BUDWEISER among American brews, because it has an unforgettable personality—identified with the fine art of living the world over... The biggest-selling bottled beer in history and the demand for BUDWEISER quality built the world's largest brewery.

For those who make living a fine art

FEDERATION REPORTS ARE IN SPOTLIGHT OF CLUB PROGRAMS

20TH CENTURY CLUB BECOMES HOME PATRON

PART IN PARADE FOR PRE-CENTENNIAL IS PLANNED

ASSISTANCE in an outstanding project of the Texas Federation of Women's clubs, financing their state club home, was voted by the Twentieth Century club yesterday afternoon as a federation program was presented. Mrs. H. H. Hicks was hostess at her home.

The club voted to become a patron of the state headquarters by making a suitable contribution to the building fund. Members also will assist in the theater ticket for the Women's Day, April 27, when the club house fund will benefit.

Cooperation with the other Twentieth Century clubs in entering a float in the Pre-Centennial parade here this summer was voted. All women's clubs of the city are being asked, with other organizations, to join in this parade.

Members planned a flower exchange with Garden club members, for yard beautification.

Report of Mrs. R. B. Fisher, delegate to the district federation convention in Amarillo early this month, was the program feature. She gave an interesting outline of club progress and aims as revealed in the annual meeting.

Roll call was answered with names of Texas club women who are contributing to the welfare of the state, by Miss W. A. Branton, W. R. Campbell, F. M. Culbertson, Ivy Duncan, Fisher, J. M. Fitzgerald, Raymond Harrah, Hicks, I. B. Hughey, Paul Kasishke, Tom Rose, A. R. Sawyer, W. J. Smith, Otto Stauder, John Sturgeon, Edwin S. Vickers, and B. C. Low.

Reports from a recent conference session in Lubbock were made to the Methodist Missionary society in its general meeting Monday. Mrs. W. Purviance made the general report.

Mrs. Gaston Foote reported on the division concerning children's work. Mrs. John Hodge on the study committee groups, and Mrs. H. L. Wilder on spiritual life groups. They head those divisions in the local society.

Mrs. Purviance was elected secretary for missionary societies of the Clarendon district at the conference. To congratulate her on this election and express appreciation for her work in the society here, members went after their meeting to her home, which has just been remodeled, and presented her with a shower of gifts for it.

Mrs. A. A. Kelly was elected superintendent of study to replace Mrs. Sherman Roberts, who has resigned. A play, Plan Your Time to Pray, was presented by Mrs. M. E. DeTar and Mrs. Joe Gordon Jr., after a devotional by Mrs. Wilder, whose subject was Stewardship of Time.

Circle three received the Outlook magazine subscription given for largest attendance at this general meeting. It had 17 members present, while circle one had 15, circle two 16, and circle four 13.

Mrs. Joe Shelton, president, was in charge of the meeting. It closed with a benediction by Mrs. H. J. Carson.

Report Made to Methodist M. S. Of Conference

Reports from a recent conference session in Lubbock were made to the Methodist Missionary society in its general meeting Monday. Mrs. W. Purviance made the general report.

Mrs. Gaston Foote reported on the division concerning children's work. Mrs. John Hodge on the study committee groups, and Mrs. H. L. Wilder on spiritual life groups. They head those divisions in the local society.

Mrs. Purviance was elected secretary for missionary societies of the Clarendon district at the conference. Mrs. Joe Shelton, president, was in charge of the meeting. It closed with a benediction by Mrs. H. J. Carson.

"The Church" Is Revival Subject Of This Evening

Tonight the Young People will supply the chorus and the special music at the First Christian evangelistic meeting. The sermon subject announced for tonight will be "The Church." The minister announced that the importance of the church will be discussed and some questions answered. Among them—"Is it necessary to be a member of the church?"

Last night the Intermediates were present in large numbers. Their singing was fine. Betty Jo Townsend and Mickey Ledrick sang a duet.

The sermon subject was "Going Off to the Far Country." The question, "what and where is the far country?" was asked by the speaker. He said that there is a physical distance and a spiritual distance. He contended that the spiritual distance is in the heart of men. Two may live side by side yet be a long way apart spiritually, asserted Mr. Mullen. Many, said he, "go into the far country of sin."

"Although," he further contended, "most people do not mean to sin but are trying somehow to find what they consider pleasure or happiness. A man must get the consent of the will to do wrong, also a man must get the consent of the will to stand for the right. The far country is a place of waste—a waste of time, a waste of money and a waste of ideals. The far country is a place of humiliation, for sin is always humiliating. But those who have had good training usually come back. They come back when they come to their senses."

"One man was baptized at the close of the services."

BUSY SESSION CONDUCTED BY MERTEN P-TA

Two Speakers Heard And Conference Plans Made

Mrs. B. T. Bettis was elected vice-president of Merten Parent-Teacher association at a meeting yesterday, after the resignation of Mrs. E. N. Hope. A program by guest speakers and pupils was enjoyed, and plans were made for attending the district P-T-A conference next month.

Judge C. E. Cary was the speaker on Humane Education. Humane education he defined as education of the heart. The difference in today and past ages, he said, is due to the influence of education, which is one of the really big things in life.

Miss Ivan Mayfield, school nurse, presented plans for the annual summer health round-up, in which free medical examination will be offered to all children in the county who will enter the first grade next September.

Numbers by pupils included a reading, My Shadow, by Maxine Taylor; reading, Two Kittens, by Anna Lois Alford; playlet, Three Little Kittens, by the first grade; reading, Frogs, by W. A. Neal; reading, Wouldn't That Be Funny? by Doris Jean Caldwell.

Delegates have already been elected to the district conference at Shamrock, and definite plans were made yesterday for attendance. Mrs. John Brandon and Mrs. Hope, who have completed P-T-A study courses, will receive certificates then.

The association sent flowers to Principal J. B. Milsap, who is recovering from an appendix operation.

Revival to Continue Through Sunday at Full Gospel Temple

A revival conducted by Evangelist Wallace G. Ross will continue through this week at the Full Gospel Temple, 500 S. Cuyler St. Sermons in the remainder of the services are to be based on the book of Revelations.

All are invited to attend the revival, the pastor, H. E. Comstock, announced. Preaching begins at 7:45 each evening.

WOODS IS CANDIDATE

AUSTIN, April 25. (AP)—L. A. Woods announced today he would be a candidate for a second term as state superintendent of public instruction.

CULTURE CLUB STUDIES CITIES IN OLD MEXICO

MEMBER IS ASKED TO REPEAT FEDERATION ADDRESS

MEXICO'S glamorous capital city was described to Twentieth Century Culture club members yesterday by Miss Alma Schulkey, who has lived there and studied at the University. The program was on Cities of Mexico, one of a series of Mexican studies.

Miss Schulkey's vivid descriptions were of sights inside the city. Mrs. T. P. Morion spoke of Juarez and Vera Cruz and Mrs. J. E. Burrow, program leader, of Pueblo, the City of the Angel. Both told of plazas, cathedrals, and art collections. Members named other cities of Mexico in answer to roll call.

Mrs. F. E. Leech made her report of the recent district convention of federated clubs in Amarillo, to which she was delegate from her club.

It was announced that Mrs. Leech has been asked to talk tomorrow afternoon on the woman's hour from the Amarillo radio station, repeating the talk she made at the convention Texas luncheon on "Woman's Place in the Centennial." She will be heard between 4:30 and 5:30 p. m.

The club met at her home. After the program, salad, punch, and sandwiches were served to Mrs. C. S. Boston, Burrow, J. E. Cunningham, Ralph Dunbar, Ben Ferris, Clyde Gold, H. D. Keys, R. S. Lawrence, M. N. Lewis, A. M. Martini, L. N. McCullough, L. L. McColm, Morion, A. G. Post, C. H. Schulkey, J. P. Wehring, Miss Schulkey, and the hostess.

Teachers of B. M. Baker school will be guests of the Parent-Teacher executive board at a picnic tomorrow evening from 5 to 7 o'clock. Special guests will be Mr. and Mrs. R. B. Fisher, Mr. and Mrs. Claude Lard, Mr. and Mrs. J. M. Moore.

MAYOR ELECTED BROWNWOOD

MAYOR W. H. Thompson, who has served temporarily as city manager the last two weeks, was elected to that position last night by the Brownwood city council. In addition to his duties as mayor and city manager, Thompson will serve as city police judge.

A device using an electric eye has been invented with which rice can be automatically sorted into 50 different grades for opacity.

Swift and Bride

Just married, Louis F. Swift Jr., son of the packing magnate, and his bride, who was Elizabeth Chase, of the prominent Lake Forest, Ill., family, pose here at the Chase home after the ceremony. Mrs. Swift is prominent in Chicago society and as a horse show exhibitor. They will live in Fort Worth.

Why Let Your Skin Age

Protect your skin with this new wonderful Face Powder and let MELLO-GLO give you that youthful bloom. Made by a new French process—stays on longer, prevents large pores, beautifies your complexion. Does not irritate the skin or give a pasty look. Purest face powder made. Try MELLO-GLO and you'll love it. 50c and \$1. (5)

A Yale scientist has taught apes to use poker chips to obtain food from slot machines and to choose which ones to use to get articles they wish.

END OF CLINIC WORK OF THIS YEAR PLANNED

JUNIOR CLUB MAKES CONSTITUTION CHANGES

COMPLETION of work in their child clinic for this season was discussed by the Junior Twentieth Century club yesterday afternoon. The clinic is open today, with Mrs. Frank Perry in charge.

It will be open again the second Wednesday in May, then will close for the summer. Members especially wish all children who have been receiving attention at the clinic to call at the last open day. The club, assisted by local doctors, nurses, and welfare workers, has sponsored the clinic for underprivileged children all this season.

Mrs. Clarence Barrett was club hostess at the city hall club rooms. The report of Mrs. R. F. Dirksen, delegate to the annual district federation convention, was heard as a program feature.

Mrs. Barrett was also leader of the literary study, and reviewed the novel, Lively Lady, by Kenneth Roberts.

Several changes in the club constitution were approved. Members made arrangements for their float in the Pre-Centennial parade, which will be in charge of Miss Virginia Roberts.

CIVIC CULTURE CLUB TO HELP IN OBSERVANCE

Plans Are Formed in Called Business Meeting

Cooperation in state Woman's Day observance here, and in the Pre-Centennial celebration of next month, was voted by the Civic Culture club in a called business meeting yesterday afternoon at the home of Mrs. Ralph Thomas, president.

Members received tickets to sell for the Woman's Day benefit theater program of Friday, which will swell the state headquarters building fund. They voted to enter a float in the parade that will open the two day Pre-Centennial.

Junior Civic Culture club will join the senior club in preparing the float.

Mrs. E. A. Shackleton, delegate of the club to the recent convention of district federated clubs, reported on her trip to Amarillo and activities of the convention.

Punch and wafers were served to Mrs. A. L. Patrick, J. A. Pearson, W. O. Workman, Irvin Cole, J. A. Berry, Hugh Isbell, Shackleton, Thomas.

Present were Mrs. Fred Cary, Edward Damon, M. C. Overton, Dirksen, Frank Perry, Roy Wight, Misses Margaret Buckler, Ruth Ann Mitchell, Faulkner, and the hostess.

The Social CALENDAR

Thursday
Executive board of B. M. Baker Parent-Teacher association will entertain teachers of the Baker school with a picnic, 5 to 7 p. m.

Younger pupils of the Pampa conservatory will be presented in recital at the Presbyterian church, at 8 p. m.
Sam Green of Roxana visited in the city last night.

DELEGATES OF EL PROGRESSO TALK OF MEET

ANNUAL FEDERATION PROGRAM GIVEN BY CLUB

ITS ANNUAL federation program was given by El Progreso club yesterday afternoon, in a meeting with Mrs. P. C. Ledrick, Mrs. C. T. Hunkapillar was leader.

Mrs. Charles Thut, club delegate to the district federated club meeting in Amarillo recently, made her official report covering important business. Misses J. M. McDonald, J. H. Kelley, W. R. Ewing, and J. M. Dodson, other members who attended the convention, presented sidelights that interested them.

Mrs. Hunkapillar discussed policies of the present administration in district, state, and national federations.

HIGH SCHOOL P-T-A BOARD

The executive board of High School Parent-Teacher association will meet at 2 p. m. tomorrow in Weidon Wilson, 605 N. Somerville, room 204 of high school building, preceding the general meeting at 8 o'clock. All board members are urged to be present on time.

MARKET BRIEFS

NEW YORK, April 25 (AP)—Stocks rallied rather feebly behind grain and silver futures late in today's session. Extreme dullness marked the scattered recoveries and the close was irregular. There was little public participation, floor traders accounting for most of the listless trading. Trading approximated 900,000 shares.

Table with market data including Am Can, Am T&T, Amac, Al T&SF, etc. Columns include stock names and prices.

Grand-Daughter Of Sam Houston Passes at Waco

WACO, April 25 (AP)—Mrs. Jessie Ashcraft, 72, granddaughter of Gen. Sam Houston, died last night at the Waco home of a daughter, Mrs. W. E. Roberts. Funeral arrangements had not been completed today. Mrs. Ashcraft, who was born in Tennessee, lived in Waco a number of years. She is survived by four sons, Joe Ashcraft and Charlie Ashcraft, both of Sanger; Jasper Ashcraft of Hewitt, and Ed Ashcraft of Rogers; five daughters, Mrs. Roberts and Miss Vida Ashcraft of Waco, Mrs. Bud Wade and Mrs. Robert Gamble of Perryton, and Mrs. W. H. Beardson of Marietta, Okla., and two brothers, Tom Welch of Dallas and Joe Welch of C. Moody.

Famous Artist Is Recuperating At Breckenridge

STEPHENVILLE, April 25 (AP)—Ed Bryan, artist of renown, hopes some day to regain his health and continue the work that has occupied the larger part of his life time. The 60-year-old painter, once prominently mentioned among the great in art in America and Europe, for 10 years has been at his ranch home near Stephenville fighting against falling health. But his hopes still are high and he believes he will be able to make a greater contribution to art than before ill health stopped his work as an artist and instructor in the Cincinnati art academy. Prizes, scholarships and numbers of honorable mentions have been awarded Bryan by some of the world's greatest schools of art and by state fairs. He won first place on pictures at the Cotton Palace at Waco, the state fair at Dallas, and the San Antonio International Fair association; a \$1,700 prize from the Cincinnati art academy and a scholarship that entitled him to study in the Academie Colarossi in Paris, a silver medal awarded by the republic of France; various honorable mentions from the Academie Colarossi and Julian Academy of Paris. At Cincinnati, Bryan painted a life-size portrait of a woman on which he won a \$1,700 prize. A portrait of John the Baptist won two first places at the state fair at Dallas, one first place at the Waco Cotton Palace and first honors at the San Antonio fair. Other valuable pictures still in his possession, many of which have won prizes, include "An Arab," "The Little Minister," "A canvas of himself as a youth painted from reflection in a mirror," "Old Gray Mare," a bluebonnet scene near De Leon; a lad eating pecans under a tree by the roadside; Brooklyn bridge; the oldest house in Erath county; "Meditation," a girl deep in thought and sleeping child in the arms of a mother. Many of these pictures have been on exhibit in the Carnegie library at Fort Worth and other places. Besides his skill as an artist with brush and canvas, Bryan is a character artist. A portrait of a negro woman for the play "The Work" which Duveck declared was the best Bryan had ever done, was stolen from the Metropolitan museum of art at New York and has never been recovered. Despite his high standing in the world of art, Bryan hopes to make a greater contribution. "His bad health is for life, and he's through. I overheard people say," the artist said wringing his thin hands. "But many of the blackest work to do yet. It must be done; then I'm ready to give up."

Table with market data including New York Curb Stocks, Cities Svc, El B&S, etc. Columns include stock names and prices.

By The Irish Farmer. Well, Neighbor, I stood in the receiving line, most all Sunday afternoon, just like I was giving a pink tea. I talked flowers and talked flowers, and I haven't run down yet, so I'll talk to you while I love these weeds. I was sure glad to talk with so many folks who are interested in planning flowers, and as it was Sunday, I could just talk as long as they would listen. You know some folks come when you are head over heels in work that won't wait on company or anything else, and of course they don't understand the importance of getting your plants covered, when you are transplanting.

Last week was such a fine week to transplant so many things, that the air was cool and moist, but I did not get nearly all mine moved to the permanent beds, because I had so many visitors. It was glad to help them any way I could, though, and there is always time to plant another week. You know Dick Curren, who works down at the bank? Well you know he has been looking like he couldn't hardly drag down to work every morning. He came by to see me and told me his trouble. He has been so worried over these bank robbers, that he got to where he could not sleep, without taking a sleep tablet, and suspected every stranger who came to the bank, of being a robber, and every time any one knocked at his home after dark, he just knew it was a robber coming to take him for a ride. Just got so he can't work, eat or sleep. He looks pitiful. Well I gave him my prescription, to be filled at the hardware store, and told him to take it in broken doses, the first few evenings, and then increase the doses, to be taken at an hour or longer without stopping, and I would guarantee he would not need any more sleep tablets, and I was pretty sure he would soon be able to eat beans and corn bread. I hope he gets to sleeping all night again. He said he would do anything I told him to do, if only he could sleep and sleep.

Nurse Comfort came to Sunday, and said she wanted me to keep on telling the girls to wear long headscarves, for she knew how much better they would feel, when their feet were comfortable. She works all night, and works in her garden one hour every morning, before she gets to bed. She says it relaxes her, and she goes right to sleep and sleeps all day regardless of the noise. She also said it was the finest exercise for the stout woman, no need for them to do stunts in their rooms at bedtime, to reduce, when they could get out and make a garden, and have a good time during the day. That was her idea of reducing. There is that pesky dog again, running right over by Julia's tender feet. I love my neighbor, and I think he has a fine dog, but I sure want to see my plants bloom, don't you? Now what are we going to do with that dog? I am afraid we will have to report him to the officers, for the playful buggin' is just running through all our flower beds, day and night. He does not seem to mind the nicotine spray I used on my plants, last week, but of course the rain and wind have taken most of the odor away by now.

Well neighbor, we have that rook weeded out, so I guess we better go to the alley next door, and hoe there. If we get them now while they are little, these weeds are not so much trouble to cut, and we can't to hoe the ground any way since the rain and break the crust. That is very important now while the plants are tender. Keep the crust from forming around them, and let them breathe and grow.

Here comes Mrs. Favor. I wonder what she will ask for this time. I think I have given her something of everything, I have in the garden. Good morning Mrs. Favor. No I don't have any carnas left. I planted all I had last week. No it isn't too late to plant them. You might get some from the florist, and I am sure they won't cost much. Yes it is about time to get the chrysanthemums divided and replanted. The hardy ones are ready first. We have to wait a little longer, for the big show type to develop their cluster of roots, before we bother them. I am sorry Mrs. Favor, that I don't have anything for you to day.

Now Neighbor, what would you say to a person like her? Always asking for something, and never giving anything in exchange. Good many folks like that. I can't hardly refuse any one a flower, but I like to keep a few for my friends and neighbors. Well we better get on with these weeds. Let's sing our garden song as we chop. We spade, we rake, we hoe, an hour each day you know. Hi yo, my dears, and the farmers in the dell. Hi yo my dears, and the farmers in the dell. Hi yo my dearie, and the farmers in the dell.

No. 444 THE STATE OF TEXAS TO THE SHERIFF OF ANY COUNTY, TEXAS, GREETING: You are hereby commanded to cite all persons interested in the estate of Emma Jackson, deceased, to be and appear at the next regular term of the County Court of Gray County, Texas, to be held at the courthouse thereof in Pampa, Gray County, Texas, on the 5th Monday in April, 1934, the same being the 30th day of April, 1934, to confer, should they desire to do so, the application of Robert R. Jackson and John A. Cavin, filed in said court on the 16th day of April, 1934, which will then and there by such court be acted on, for the probate of the last will and testament of the said Emma Jackson, deceased, filed with said application, and for letters testamentary.

Herein fail not, but have you before said court on the first day of the next term thereof, this writ, with your return thereon showing how you have executed same. Witness Charlie Thut, clerk of the county court of Gray County, Texas, Given under my hand and the seal of said court at office in the city of Pampa, this 16th day of April, 1934. CHARLIE THUT, Clerk of the County Court of Gray County, Texas. By Oia Gregory, Deputy. Issued, this 16th day of April, 1934. CHARLIE THUT, Clerk of the County Court of Gray County, Texas. By Oia Gregory, Deputy. I hereby certify that the foregoing is a true copy of the writ now in my hands. MRS. C. E. PIPES, Sheriff, Gray County, Texas. By Buford Reed, Deputy. April 18-25

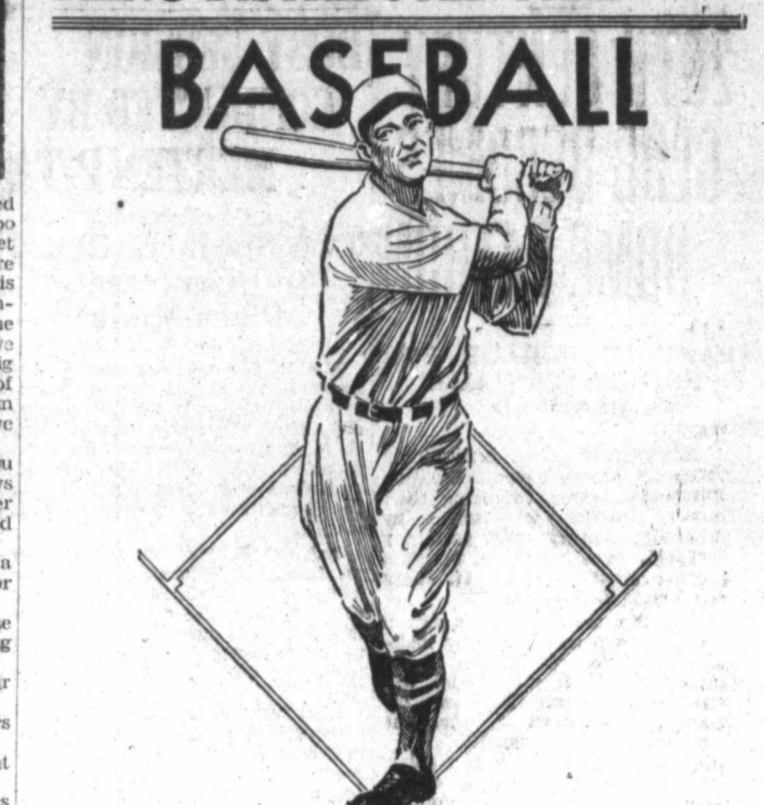

JUDGMENT AFFIRMED AUSTIN, April 25 (AP)—Judgment of \$31,975 in favor of the state against V. O. E. Refining company of the V. O. E. Refining company in Gregg county, for unreported taxes on gasoline and for penalties was affirmed today by the third court of civil appeals.

S. M. Nunn of Canadian was a Pampa business visitor yesterday afternoon. W. R. Riseden of White Deer transacted business here yesterday. Nickel foil so thin that print can be read through five thicknesses of it is being made by an electroplating process in England.

FIFTH AVENUE FASHIONS

By ELLEN WORTH With Lines to Flatter Any Figure The charm of the new square neckline is enhanced by a shirred ruffle, and this attractive detail is repeated to add interest to long, fitted sleeves. If you happen to be thin, so much the better; if you are not-so-thin, these wily devices will take care of those telltale curves from the arm and at the neck. The frock itself is simply lined and has a crushed girdle and a subtly flared skirt. A large flower print will make this a delightful frock to see you through the warm months. Size 34 requires 4 1/2 yards 39-inch printed material. Width about 2 1/2 yards. Pattern No. 5545 is designed for sizes 34, 36, 38, 40, 42, 44, 46 bust. © 1934, United Feature Syndicate, Inc. Your order will be filled the day it is received by our New York Pattern Bureau.

BOYS' BOOK ON BASEBALL BEING DISTRIBUTED FREE

America's ambitious young ball players who look forward to excelling on the school, college or professional diamond have a unique opportunity to learn the fundamentals and intricacies of the game through a new and "different" baseball book published by the Kellogg Company, well-known manufacturers of Pep, Rice Krispies, Corn Flakes, All-Bran and other cereals. The feature that distinguishes the book and gives it its outstanding value is the graphic and specific manner in which it covers the many factors that contribute to the making of a great ball player. The cover is in full color and the foreword is a message from Mr. W. K. Kellogg, founder and president of the company, in which he stresses the importance of "playing the game" in life itself as well as in sports. Develop Own Style The opening article deals with the problem of determining the position you are really best fitted to play. "Study yourself" is the advice given and it is pointed out that even great players like Ty Cobb and Tris Speaker had to spend years in perfecting the form that was most natural for them. Learn the best way to do everything a ball player does, but develop your own style. It is the equally sound advice given the young player. The book's forty-eight pages contain more than forty illustrations and diagrams which supplement the text in explaining such factors as the proper stance in batting, how to grip the ball in throwing a curve, how to slide for bases, where players should stand to play a bunt or to prevent a double steal. Available Now Practically every play that enters into the game is covered by text or illustrations, or both. Following the instructive articles come interesting information and figures dealing with the records of great players and the history of the game. The Kellogg baseball book has been written by a well-known authority on the game who shows that he thoroughly understands the art of teaching others how to play. Copies of the book can be obtained free from grocers with the purchase of two packages of Kellogg's Pep. In any instance where the grocer does not have the book a copy can be obtained by sending two Pep package tops direct to the Kellogg Company at Battle Creek, Mich.

GENERAL AUTO SUPPLY CO. 113-115 W. Fifth Ave., Amarillo, Texas.

'Black Shirts' Are Organized At Clarendon

CLARENDON, April 25 (AP)—Black shirts, but not what you think. Out on the plains of the Panhandle where the average boy learns to ride a cow pony before he can walk, there is an organization of youths and boys which has a secret ritual, pass-words and semi-military discipline. The members wear uniforms on occasion, the most conspicuous part of which is a black shirt. Sid Thomas, ruddy-faced country school principal and boys' leader at Ashito, crosses-roads village 10 miles west of Clarendon, has labeled his organization "The Pirates."

"We meet, regularly each Wednesday evening and spend the night in our headquarters building where we operate under strict military discipline," he said. "We wear black shirts and black boots with a black suit for formal occasions. While we enroll mostly high school youths we have several who are not in school in the organization. The boys vote on prospective members and if a prospect's name gets a single black ball he is not eligible. We have a captain and other officers in the outfit. We plan our excursions and discuss beforehand the uniform we wish to wear. But, most important of all, we operate a work shop which has come to be patronized by every family in the district."

The work shop includes a smithy where the boys sharpen the farmers' plow points for a nominal charge, a barber shop where 5 cents is charged for a hair cut, a cleaning and tailoring department where only enough is charged to pay for the materials used, a car-painting department where cars are also repaired and overhauled, a repair department for radios, a check wagon for hicks and a concrete mixing department.

"Our main purpose is to keep alive a spark of ambition in every youth in our community," declared Thomas, himself hardly more than a lad. "We back any athletic events with our presence. We back any movement of a worthy nature for our school and community." Mrs. I. O. Gilbert of LeFors shopped in the city yesterday here this morning.

Savage's Band Will Appear on Skelly Program Girls Scouts of Skellytown are sponsoring a program in the Skellytown schoolhouse tomorrow night at 8 o'clock. Pampa has been invited to furnish the program and send a delegation. Admission will be 10 and 25 cents.

The goodwill committees of the B. C. D. and Yawees have arranged to take a large delegation, leaving the city hall at 7:30 o'clock. The Woodrow Wilson band under the direction of Winston Savage will give a half hour program. Alvin Redbeard, local boy, will give musical novelties. The high school championship one-act play Smoke-screen will be presented. Pampans are urged to make the trip to Skellytown. The girls Scouts will use the funds to pay their expenses to a summer camp. C. H. McKenzie was a Pampa visitor last night.

JAPAN DEVOTES HEADLINES TO U. S. FLEET IN PANAMA CANAL

VESSELS MOVE TO ATLANTIC IN 36 HOURS

111 BATTLE SHIPS OF NAVY TO SAIL FOR NEW YORK

TOKYO, April 25 (AP)—Big headlines were devoted today to what vernacular newspapers termed "the American fleet's failure" in its attempt to traverse the Panama Canal in 24 hours.

"Passage through the canal in 24 hours has been proved impossible," one vernacular newspaper said.

COLON, C. Z., April 25 (AP)—The last of the 111 United States fighting ships moved through the Panama Canal today, completing the first maneuver of the kind in history.

It was some 36 hours after the start of the movement of the fleet from the Pacific to the Atlantic when the final vessel entered the canal.

Commander-in-Chief David F. Sellers had hoped to complete the transit in 24 hours.

Today, however, navy men were pleased with the clockwork efficiency of the maneuver, despite the fact the 24-hour attempt was a failure.

The last of the ships to enter the canal moved in late last night and the Balboa terminal was opened for the first time since Sunday to foreign and commercial shipping.

Officials announced that not one accident had been reported in the maneuver, involving the speedy passage of battleships, destroyers, cruisers, and all airplane carrier—while planes soared overhead and soldiers guarded the locks.

Commander-in-Chief Sellers denied rumors that the fleet, or part of it, will be ordered back to the west coast.

On the contrary, he said, the fleet will remain in Canal Zone waters for planned maneuvers before proceeding to New York to be reviewed by President Roosevelt.

In a statement to the Associated Press immediately after the history-making movement ended, Commander-in-Chief David F. Sellers said:

"The continuous transit of the canal by the fleet as a unit has been a very valuable experience for all hands and it is believed that very useful data has been obtained. The successful accomplishment of this evolution, which so far as is known is without precedent, was only possible through the efficient organization of the canal and the splendid cooperation received from all hands."

BISHOP CANNON MAY BE FORCED TO QUIT POST

Methodists Ready To Convene Without Churchman

JACKSON, Miss., April 25 (AP)—Action to be taken by the general board of temperance and social service of the Methodist Episcopal Church, South, today featured the pre-convention activities of the denomination in advance of the quadrennial general conference which convenes here tomorrow.

Although he made reservations to attend the sessions of the general conference, Bishop James Cannon Jr. of Richmond, president of the Board of Temperance and Social Service, had not arrived.

He was in Washington attending his trial in District of Columbia court on charges of conspiracy to violate the federal corrupt practices act in connection with the handling of campaign funds seeking the defeat of former Governor Smith in the 1928 presidential campaign.

Members of the board said its sessions would be held under the leadership of a temporary presiding officer in the absence of the bishop.

When Bishop Cannon arrives he is expected to take up his fight in the conference against a movement to retire him which is expected to be brought to the floor of the conference.

Boards already in session were framing a program of retrenchment and reorganization for submission to the general conference.

The Board of Christian Education received a recommendation from its legislative committee for reduction of its membership from 44 to 31 as an economy move.

On the other hand the legislative committee of the general hospital board asked that the conference be memorialized to preserve the integrity and independence of the board and to provide for its successful administration.

British cotton manufacturers are trying to produce a stiff collar for men that will be cheap enough to be thrown away after being worn once.

Never before have such rigorous restrictions of the transmission of news regarding the movements of the vessels been imposed.

It was learned today that authorities had prepared for several months to handle the transit of the fleet as secretly as possible, due to the fact they possessed information that attempts were likely to be made to hamper progress.

This information, it became known, was received from the army military intelligence service.

JAPS REFUSE TO ELUCIDATE ON STATEMENT

'LET OTHERS READ IT AS THEY WILL,' IS DECISION

TOKYO, April 25 (AP)—Japan in effect told the world today to draw its own conclusions regarding her restated policy toward China. A foreign office spokesman said: "Our statement has been made. Let others read it as they will."

This was the reply to requests for further elucidation of the declaration in which Japan claimed responsibility for maintenance of the peace in Eastern Asia, warning other powers not to threaten tranquility by activities in China.

The spokesman also refused to comment on references to "Asia for Asians" in an enunciation of Japanese policy by the Japanese consul general at Geneva, Masayuki Yokoyama.

However, he did reiterate that Japan has no intention of interfering with European and American powers in their Asiatic possessions.

"We have no intention," he said, "of promoting independence movements in the Philippines, Indo-China or elsewhere."

The British ambassador to Tokyo, Sir Francis Lindley, visited foreign Minister Koki Hirota this afternoon and delivered the request of Foreign Secretary Sir John Simon for a further elucidation of Japan's new policy.

Particularly, the British government sought an exposition of Japanese intentions regarding British activities in China.

Hirota remained silent concerning the matter. He will speak before parliament here on May 4 and some newspapers quoted him as promising an explanation to Washington and other capitals to allay suspicion.

United States Ambassador Joseph C. Grew had received no instructions to make inquiries regarding the declaration at the foreign office, although it was understood the American state department had asked the embassy for a careful translation of Tokyo press statements.

FINE UPHOLD
AUSTIN, April 25 (AP)—The Texas court of criminal appeals today affirmed the conviction of H. E. Worbes in Gregg county on a charge of transporting gasoline under a false billing. Worbes was fined \$250. He allegedly transported 1,185 gallons of gasoline on a bill calling for 985 gallons.

Snapped

This is one picture of himself that Matthew Smith was not able to spoil. The head of the Mechanics' Education Society of America, which ignored the auto labor board to call a strike in Detroit auto industry, has broken two cameras, photographers say, in his effort to avoid being "snapped."

SCOUT NEWS

Troop No. 18
Eighteen members and Junior Assistant Scoutmaster Everett Vanderburg, and Scoutmaster J. E. Shannon, went on an overnight hike one mile east of Hoover last Saturday night.

The boys arrived at camp location about 3 p. m., set up their tents, gathered firewood and prepared for the night, and then played the new Troop No. 22, under Scoutmaster Hogan, about 3 innings of baseball.

Troop No. 22 was too good for the boys, the score was very much in their favor, however, Troop No. 18 captain said that some of his best players were cooks, and were at camp cooking, so an excuse was found to fall back on. Troop 22 was given a cordial invitation to visit us either by ball or at our regular troop meeting.

Back after game again, Cooks Claude Johnson, Elsey Vanderburg and Elza Huffaker, got busy with the supper program which consisted of everything from "Hunters Stew" on down and up, each patrol having its own cook, and each cook figuring out his own menu.

While supper was "in the pan" instruction in the use of the hatchet was given all tenderfoot scouts by Scoutmaster Shannon, while other boys, under the direction of junior assistant Scoutmaster Vanderburg, were busy playing ball, gathering wood and getting water.

After supper the troop entertained several visitors from Troop No. 22, parents and boys, around the camp fire, and the boys from the Austin Patrol, put on a rather gruesome stunt, which depicted by sound and voice two surgeons and two nurses operating on a man.

This was enjoyed very much by all scouts and parents present. John Keck and our guitar expert and Melvin Turner then played and sang for the group.

Next morning's activities were taken up in Archery, exploration hikes, ground ball and campcraft. Goals for 1934, which each girl is expected to reach, are as follows: Complete wardrobe record book, improve clothes closet, make an article of clothing for the county contest, make quilt, protector, braided rug, sheet and pillow case for exhibit, grow at least 15 kinds of vegetables in a garden, can 30 quarts of products, and cook vegetables 25 times.

The next meeting will be on May 5.

HIGH CALIBER AGENTS AFTER 'COP KILLER'

GOVERNMENT PROMISES TO HAVE DILLINGER BEFORE LONG

MERCER, Wis., April 25 (AP)—America's million dollar murderer, with a puny \$25 price tag on his head—and the blood of 13 men across his bullet-blazed trail—snatched today an army of more than 5,000 officers who hunted him.

"We'll have John Dillinger before long," said the department of justice through its division of investigation at Chicago.

The earnestness of the government determination was witnessed by both the great number and high caliber of agents they threw into the hunt.

But there was no word of the desperado despite the intensity of the hunt. Rumors flew, but all simmered down to the fact that John Dillinger vanished Sunday night from the Little Bohemia resort near here and has been unreported since.

In a criminal career dating only from last June—not yet a year—this 31-year-old, small town man from Indiana has cost an estimated \$1,600,000 in law enforcement funds and another \$600,000 in loot from banks he has robbed; yet the only reward offered for his capture is the nominal \$25 which the state of Indiana offers automatically for the arrest of parole violators.

Even Europe, with the Atlantic ocean between it and America's public enemy A-1, displayed sharp interest in the killer's case. The "Sweet Ur Plot," published in Berlin, hinted that Nazi Germany might give America a lesson in how to deal with American desperados, and pointed to sterilization.

From the attorney general in Washington on down, the government pointed its full strength at this one man. Re-enforcements went into the field, among them W. A. Rorer, the officer who brought about the arrest of another public menace, George (Machine Gun) Kelly, kidnaper-gunsman now serving a life sentence in federal prison.

Rorer was in command of the small army of government officers concentrated in the wooded section of northern Wisconsin where Dillinger's Sunday night escape from a tavern left two dead in his wake.

The federal men, however, formed only a small part of the still larger army of approximately 5,000 state, city, and county officers who were combing the underworld haunts of five middle-west states, confident that it was only a question of hours before they would either have Dillinger alive or send him back to Indiana in "a wooden box."

Among hundreds of reports and rumors concerning the movements of America's No. 1 outlaw was one from Muncie, Ind., that led to the belief that Dillinger's mob might attempt to deliver his pals, Harry Pierpont, Charles Mackey and Russell Clark, slayers of Sheriff Jess Satoe of Lima, Ohio, from the Ohio state prison, at Columbus. Four men riding in an automobile with a machine gun near Muncie gave rise to this belief.

Extra precautions were also taken at Madison, Wis., where three of the gang's girl friends captured after Sunday night's gunplay, are held in jail. It was feared Dillinger might try to liberate them. Similar apprehension was manifest at St. Paul, where Evelyn Frechette remained in jail on a charge of harboring the

'Amnesty?'

"Amnesty" for John Dillinger if he surrenders is asked in a petition being circulated in his home town, Mooresville, Ind., and other Indiana cities. Donald Roe, above, bank clerk, is seeking signers to the plea, based on the contention that the bandit was given an unfair sentence on his first conviction, for robbing a Mooresville grocer.

fugitive in an apartment house a few weeks ago.

The consensus among the investigators was that Dillinger's gang has split into two sections, one hiding out in Minneapolis or St. Paul and the other heading south and east into Illinois, Indiana, or Ohio.

United States Senator Royal S. Copeland of New York, chairman of the senate anti-racketeering committee charged at Washington that there had been a "pathetic failure of cooperation between federal, state and local authorities" in the Dillinger hunt. The charge was denied by Melvin G. Passolt, superintendent of the Minnesota bureau of criminal apprehension, and others.

At Washington Attorney General Cummings asked for airplanes, armament cars and additional forces to wipe out Dillinger and his men. He said if the federal men had had an armored car in their attempt to capture Dillinger near Mercer "this terrible tragedy would not have happened."

He referred to the deaths of a federal agent and a CCC worker, caught between the gunfire of the Mercer battle Sunday night.

If Dillinger is captured alive the state of Wisconsin will put in a bid for his return on charges of murder, growing out of the Mercer shootings. District Attorney Edmund Drager announced at Eagle River, Wis., that murder warrants would be issued against Dillinger and four of his pals—George (Baby Face) Nelson, John Hamilton, first lieutenant of the gang; Tom Carroll and Homer Van Meter.

HORSE FINISHES THIRD
EPSON DOWNS, Eng., April 25. (AP)—Mate A. C. Bostwick's American handicap star, today finished third in the city and suburban stakes, one of the big English spring handicaps, which was won by the lightly weighted Light Sussex of Major C. Behren.

TO EXTEND AAA
WASHINGTON, April 25. (AP)—Extension of the licensing provisions of the agricultural adjustment act to make them apply to all marketing agreements will be sought by the administration at this session of congress.

Mrs. L. O. Wirsching, Mrs. Alex Schneider Jr., and son, Paul, visited in Amarillo Monday.

ALABAMA COAL MINE OWNERS RAISE WAGES

CLEVELAND GASOLINE DEALERS THREATEN TO STRIKE

By The Associated Press.
NEW wage scales brought accord today in the controversies affecting 21,000 idle Alabama coal miners and 3,000 striking New York glove workers.

In two other centers of the nation's labor disputes—the railroad and automobile industries—conferences continued from which progress was reported.

But new troubles cropped up, with Cleveland gasoline dealers on a strike aimed to deprive more than 200,000 motorists of their fuel supply and coal operators predicting a shutdown of every mine in western Kentucky.

The "complete accord" between Alabama coal operators and labor leaders was based on an increase of 40 cents a day in the minimum wage scale. Plans were being formulated for a resumption of work.

Operators in Kentucky and other states, however, protested that they could not afford to pay the new wage schedules, ordered by the N.R.A. A point still remained at issue in the gloves strike at Gloversville, N. Y., as to whether the wage increase should become effective when the men return to work or when the schedules are accepted for the glove industry as a whole.

Agreements ended two more strikes—of 2,200 miners in four Shenandoah district collieries of Pennsylvania, and of 700 employees at the Diamond Match company in Barberton, Ohio.

White Deer Child Survived By Nine Sisters, Brother

Funeral services for Joann Ballard 3-daughter of Mr. and Mrs. R. E. Ballard of White Deer, were to be conducted in the First Baptist church at White Deer this afternoon at 2 o'clock. Burial will follow in White Deer cemetery under direction of the G. C. Malone Funeral home of Pampa.

The child died at the family home yesterday morning. Besides her parents, she is survived by nine sisters, Mary, Madeline, Margaret, Emma, Chantelle, May, Dorothy June, Elizabeth and Leah, and one brother, Wallace, all at home.

A point still remained at issue in the gloves strike at Gloversville, N. Y., as to whether the wage increase should become effective when the men return to work or when the schedules are accepted for the glove industry as a whole.

Agreements ended two more strikes—of 2,200 miners in four Shenandoah district collieries of Pennsylvania, and of 700 employees at the Diamond Match company in Barberton, Ohio.

Girls of Sunshine 4-H Club Discuss Goals of This Year

Goals for the year in 4-H club work were presented to girls of the Sunshine club at a meeting Saturday in Miss Rutz's home office. Members continued working on braided rugs. Miss Adams showed them how to shape and sew the braids together firmly with no stitches visible on either side, so the rugs would be reversible. Goals for 1934, which each girl is expected to reach, are as follows: Complete wardrobe record book, improve clothes closet, make an article of clothing for the county contest, make quilt, protector, braided rug, sheet and pillow case for exhibit, grow at least 15 kinds of vegetables in a garden, can 30 quarts of products, and cook vegetables 25 times.

The next meeting will be on May 5.

IS YOUR AUTOMATIC REFRIGERATOR A LUXURY OR A NECESSITY . . . ?

In spite of the fact that it provides cold storage for your perishable foods, has extra space for your tall beer bottles, and furthermore has stepped-up efficiency, when you get your monthly bills for its operating expense do you have that sickening feeling that leaves you in doubt as to whether or not it is worth keeping?

Or does your refrigerator furnish you with all of the above conveniences and at the end of the month your bills are no higher than when you bought ice?

If you bought one of our new air-cooled ELECTROLUXES you are in the latter class . . . you don't have to take our word for it . . . Just ask any of our users. And our users are becoming so numerous that it does not matter where you live in this trades territory, you are a neighbor to some of them.

EVERETT SANDERS WILL QUIT AS CHAIRMAN OF REPUBLICANS

FIGHT TO NAME HIS SUCCESSOR PRECIPITATED

ILL HEALTH GIVEN AS REASON FOR G. O. P. HEAD'S DECISION

WASHINGTON, April 25 (AP)—Everett Sanders was reported today to be ready to relinquish his seat at the wheel of the republican machine.

This decision by Sanders, former secretary to Calvin Coolidge and director of Herbert Hoover's unsuccessful campaign for re-election, was attributed by intimate friends largely to ill health.

The chairman of the republican national committee was reported resting in seclusion at his nearby Maryland farm.

Sources close to Sanders said he has sent telegrams to many republican committeemen, calling them to an early meeting, probably in Washington. Twenty-four expressed a willingness to follow his desires.

Acceptance of Sanders' resignation would precipitate the struggle, long brewing in republican circles, over the choice of a new party head.

The existence of factions within the party, unable to agree on a leader, had caused a sizeable anti-Sanders bloc to defer until after the fall elections its intentions to depose him.

Republicans in congress, desiring a new leadership but fearful of the effects of an open split in the party before next November, even took the almost unprecedented step of cutting loose from the national committee for the coming campaign and arranging to run their own shows.

Various men have been put forward as eventual nominees for the national chairmanship.

James E. Watson of Indiana, former republican leader in the senate, has been heavily backed by one group. Henry P. Fletcher of Pennsylvania, former ambassador to Italy, likewise has been mentioned, as have Walter Hallahan of West Virginia and Frank Knox, publisher of the Chicago Daily News. Knox has definitely declined to consider the post.

Even before confirmation of the report by his friends, Sanders was known to feel that his health might take him from active politics.

SPRING SNOW FLOWS

RED OAK, Ia. (AP)—Snow flows are busy in Montgomery county, chugging out defiance to spring breezes and a balmy sun.

The reason is Monday's dust storm, that lashed the states of Nebraska and Iowa left the rowdy in this county chugged with dust in some places one to three feet deep in fills.

First Photo of Japan's Next Ruler

Here is the first photograph made public of the future ruler of Japan, permission for publication just having been given by the imperial household. The picture of the crown prince, known officially as His Imperial Highness Prince Arhito Togu-no-Miya, was taken March 23, three months after his birth.

Judith Lane

by JEANNE BOWMAN

It was nearing lunch time. The juror with the walrus mustache chewed on a twirled end reflectively. One of the others tapped at his pocket where the bulge of a tobacco case showed.

The very sameness of her explanation seemed to reach the jury and Lampere realized it. He waited a moment, then said thoughtfully—"And of course a man with millions couldn't hire a cook to prepare slungullion?"

"No," retorted Judith quickly, "it's like corned beef and cabbage, you have to like it to cook it."

On the Rice roof, where she went with her party for lunch, Judith saw Mathie and Mrs. Bevins with Lampere. Again she was struck with the new beauty of the girl. She had doffed her grieving manner and was talking with animation.

Judith was not recalled to the stand after the luncheon hour. Instead, Mathie, again drooping with grief, took her place, was sworn, and the jury, handkerchiefs gripped in apparently tense fingers, awaited Lampere's questions.

When they came they were voiced in low, tender tones. "Miss Bevins, the previous witness told us that your father used to visit her pent-house to find food your servants were unable to prepare satisfactorily. I know this is going to be extremely painful to you, but can you throw a little light on this?"

"Why was he forced to go there?" "I'd rather not tell, please," said Mathie.

"For your mother's sake, Miss Bevins?" She looked up, eyes limpid with tears. "Doctor Ainsworth, whom we met on a cruise, made an examination of father, physically and mentally. He said if we wanted to keep him with us he must have no stimulants of any kind. For that reason we refused to give him tea, coffee and

"Yes, Miss Bevins, go on."

"Alcohol in any form."

"And did he go to Miss Lane's penthouse for tea and coffee?"

A low sob was the answer.

"Come now and brace up, those times when he returned at three and four in the morning, was he completely under the influence of liquor?"

Sobs, unrestrained, muffled with face-frothed handkerchiefs were the answer, heard below Judge Morgan's furious objection—"Misleading, calling for the witness's deduction."

Judith stared at Mathie Bevins in horror. How dare she intimate a thing like that of Big Tom Bevins? Of her own part she thought nothing.

"How dare she talk like that of him?" she asked Mrs. Cunard piteously. "He rarely ever took a drink of anything, unless it were part of a dinner."

"She'll be paid for it," Mrs. Cunard said, with certainty.

The rest of the afternoon was spent in placing engineers on the stand; engineers who spoke in technical terms of the impracticability of the Rio Diablo Dam as it was being constructed.

The last witness was a man whom Judith dimly remembered having seen somewhere. He told how, in her eagerness to gain more money, Mrs. Dale had spent ten thousand dollars sinking a well in a dry spot where any geologist with an ounce of honesty in his heart would have sworn there was no oil.

He told of threatened strikes of the sober dam workers who resented the millionaire stenographer's high-handed methods.

"Gentlemen," said Lampere to the jury, "I regret I have not one more witness to present to you, Norman Dale, the husband of the young woman sitting there, the man who, if things were as worthy counsel would have us believe, would be at her side at a time like this."

"The plaintiff rests."

"Oh, my word," gasped the Judge, "have you so little confidence in me? Don't you worry a mite, we're going to win. . . . And with a rakish air which sat strangely on his dignity, "And how."

Judith slept because Delphy and Mrs. Cunard joined forces and saw that she slept. When she awakened she found a queer sight, suspended from her chandelier, a frock. As Chia would have said, such a dress must be a frock.

Mrs. Cunard came in soon after. "Flags flying today, Judith," she said, after Judith had thanked her. "We want you to look like your five million dollars. You mustn't look crushed as Lampere would have you look. This is the beginning of your day."

Judith wondered if it were when she reached the courtroom. She put a trio of medical men on the stand, three psychiatrists who testified that Tom Bevins had come to them on the day he drew up his new will, and asked for a thorough test.

"Why did he do this?" Morgan asked the first man.

"He said he felt there would be an attempt made to break his will, on the grounds of his being of un-

sound mind, and wished to prevent that."

"A senile psychosis," whispered Lampere in a stage whisper.

"No indeed," said the medical man, "he was ready with written proof to show us that his enemies were already at work. From the proof, Mr. Lampere," continued the doctor, "he was wise in his precaution. I judge you wish to go no further into this proof?"

"Of course," interposed Judge Morgan, "if Mr. Lampere wants to cross examine my witness before I have finished."

"I beg your pardon," came in surly tones.

The other two went unchallenged, nor did Lampere accept the privilege of cross-examination.

This completed, to Judith's amazement, Thomas Scoggins, senior, was introduced and told the true story of the oil well venture. Several dam workers appeared and said that aside from outside interference, there had been no mutiny among the men and that Mrs. Dale had not attempted to "boss" them, but had said from the first she was merely acting as Big Tom Bevins' secretary, carrying out his instructions.

Max Larson also testified, and one of the women, who told of Judith's attempts to make life comfortable for the workers' families.

Judith was amazed, overwhelmed, as one after the other took the stand. Their appearance came as a complete surprise and her manner proved it.

A "brace" of engineers testified to the sameness of the dam's position and construction.

"You don't wish to cross examine?" inquired Morgan in mock surprise.

"No," laughed Lampere good-naturedly, "they are low oil coached."

"I challenge that statement," barked Morgan, "I can prove I have not spoken to a single witness, nor has anyone connected with this side addressed them, on the subject of the trial."

Lampere did not ask for proof. He listened to Chia's spirited account of the "pent-house" with a crooked smile on his face, then as the hands of the clock began pointing to the closing hour, chewed thoughtfully on the end of a pencil as though what went on on the witness stand was of no value.

"And now," said Judge Morgan, "as my last witness I call Norman Dale, husband of Judith Dale, former partner of the firm of Dale, Lampere and Morrison."

That clarion went through the roan like an electric charge. Reporters spring from their seats and dashed to their telephones. Lampere spring from his seat also, his face white and red and white by turns. Mathie's eyes widened and Judith—Judith quietly crumpled in her seat.

Someone brought water, and someone held her in strong arms. She looked up, it was Norman—"Judy, can you ever forgive me?" he asked.

Tomorrow, Norman upsets the apple cart.

U. S. PONDERING JOINING BRITAIN IN SENDING NOTE TO JAPANESE

BY LLOYD A. LEHRBAS.

WASHINGTON, April 25 (AP)—

What will be the United States' stand concerning Japan's semi-official manifesto on China?

The state department pondered the question today, and officials remained silent in the face of reports that America is ready to join Great Britain in asking Tokyo to "clarify" its attitude. It was reliably disclosed, however, that the state department is making a deep study of all pertinent Far-Eastern documents and treaties pending decision.

A direct following in Britain's footsteps might be a far reaching stride. England added to its request a "reminder" that Japan and China are both signatories to the nine-power treaty which, broadly, guarantees the territorial and administrative integrity of China. The United States and Britain also are signatories.

One key to the mystery lay in the state department visit of Hiroshi Saito, Japanese ambassador by request. What if any questions he was asked might open the secret.

Saito told reporters after his fifteen-minute conference that he and Phillips had not discussed the newly announced policy or any application it might have concerning American interests in China.

Japan has no intention of closing the "open door" in China, Saito insisted, but does reserve the right to demand that other nations consult with Japan before undertaking any

loans to China, or engaging in sales of goods which might be inimical to the Japanese empire.

Woman Official Talks to Jaycees

Tribute was paid Texas school teachers by Mrs. Olga Juniger in a talk to the members of the Pampa Junior chamber of commerce yesterday noon. Mrs. Juniger is with the Texas fire insurance department and works in the schools of the state.

Pampa schools are among the best in the state in the training of students in fire prevention and drills. Mrs. Juniger discussed fire prevention work in the schools from a humanitarian standpoint and from an educational angle. She is a firm believer in the theme idea.

Pampa Jaycees will be guests of the Berger Junior chamber of commerce at a big dance and "feed" May 5. The invitation was extended by Monty Wofford, David Dallas, and Stewart Dunaway.

Other guests yesterday were Fire Chief Clyde Gold, City Manager C. L. Stine, and Tommy Chesser.

The government has required that all gasoline offered for sale in Ecuador, except for aviation purposes, must contain 20 per cent of alcohol.

Good Tires Important

The Joe Burrow Tire Store in the Studebaker Building in Pampa Carries a Complete Stock and Wholesale and Retail Federal Tires, Concededly One of the Safest and Longest Wearing Tires on the Market. 20 Per Cent Trade-In Value on Old Casings in Fair Condition.

One of the greatest risks to which the average automobile owner subjects himself is the thoughtless inattention he pays to the safety of his tires, particularly as they become badly worn. Statistics show that over 60 per cent of the really serious motor car accidents which annually kill and maim hundreds of people in the United States result from tire blowouts while driving at a high rate of speed.

As a matter of fact no particular part of your automobile should be given more careful and serious attention than your tires. None is of more importance to your safety or that of members of your family.

Good tires are at any price your most important safeguard against an accident which might destroy the lives of you and all who are with you.

There are a number of good tires on the market but tire prices are so leveled out today that buying tires is more a matter of judgment than of money.

In this respect the Federal tire, handled by the Joe Burrow Tire Store has become known as a conceded leader in the tire field. This because Federal tires are backed up by a bonded guarantee which protects the owner against stone bruises, cuts, or any other road hazard. When you buy a Federal tire you will be given a written guarantee of a certain number of months wear, ranging from 6 to 18 months, depending on the kind of tire you bought. If through any road hazard your Federal tire is ruined before that number of months has elapsed you can take this written guarantee to your nearest Federal dealer, obtain a new tire with no extra charge except for the number of months you've used your ruined tire. Federal tires are good tires, their makers believe in them, hence this guarantee. See the Joe Burrow Tire Store for further details concerning this plan as well as the 20 per cent trade-in value which they allow you on old casings which are in fair condition.

British Press Assails Japan's 'Mailed Fist'

LONDON, April 25 (AP)—The London press, still aroused over Japan's hands-off China declaration, made the Tokyo manifesto the subject today of comment expressing variously doubt, anxiety and hostility.

The Telegraph called for an "inquiry into the exact purpose and scope of Japan's policy. Japan should welcome an invitation to give

a clear exposition of her aims as a means of avoiding future misunderstandings, the paper said.

The News Chronicle, under the caption, "Japan's Mailed Fist," said: "The only fact to set against the picture of crushing the Far East under the iron heel of Japanese militarism is that the immediate result has been to bring British and American diplomacy, started by the shadow of their common danger, a little closer together. . . ."

Water pipes made of a new alloy of selenium and lead are said to have twice the resistance to bursting when frozen of lead pipe.

The way tobacco is cut has a lot to do with the way Chesterfield burns and tastes

There are many different ways of cutting tobacco.

A long time ago, it used to be cut on what was known as a Pease Cutter, but this darkened the tobacco, and it was not uniform.

The cutters today are the most improved, modern, up-to-the-minute type. They cut uniformly, and cut in long shreds.

The tobacco in Chesterfield is cut right—you can judge for yourself how Chesterfields burn and how they taste.

Everything that science knows is used to make Chesterfield the cigarette that's milder . . . the cigarette that tastes better.

Chesterfield

the cigarette that's MILDER
the cigarette that TASTES BETTER
